Your Committee finds that increasing the maximum fine amounts that may be assessed against noncandidate committees making only independent expenditures, also known as political action committees or Super PACs, will not only address inflation, but also more effectively deter these entities from violating campaign finance laws. Your Committee also finds that allowing the Campaign Spending Commission to recover from violators the investigative costs and fees incurred in an enforcement action, and depositing the recovered moneys into the Hawaii election campaign fund, will improve the fund's sustainability and, consequently, the State's ability to provide partial public financing of political campaigns by eligible candidates.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 440, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, none.

SCRep. 647 Ways and Means on S.B. No. 872

The purpose and intent of this measure is to explicitly authorize the State Ethics Commission to employ or retain its own attorneys.

Your Committee received written comments in support of this measure from the Hawaii State Ethics Commission.

Your Committee finds that existing law prohibits any state agency from hiring attorneys, except for the agencies specified under section 28-8.3, Hawaii Revised Statutes. Your Committee further finds that this measure adds the State Ethics Commission as one of the agencies that are exempt under section 28-8.3, Hawaii Revised Statutes, and therefore allows the Commission to hire and retain attorneys other than deputy attorneys general for legal representation, counsel, or drafting services.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 872, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, none. Excused, 3 (Dela Cruz, Inouye, Wakai).

SCRep. 648 Ways and Means on S.B. No. 629

The purpose and intent of this measure is to provide the Land Use Commission (Commission) with the power to amend, revise, or modify a decision and order granting a land use district boundary amendment when the Commission finds that a petitioner or its successors or assigns has not adhered to the conditions previously imposed by the Commission.

Your Committee received written comments in support of this measure from the Land Use Commission, the Office of Hawaiian Affairs, and the Office of Planning.

Your Committee received written comments in opposition to this measure from the Department of Planning and Permitting of the City and County of Honolulu and the Land Use Research Foundation of Hawaii.

Your Committee finds that the enforcement powers of the Commission are currently not sufficient or flexible enough to address the varied compliance issues it must confront. The only enforcement mechanism currently available to the Commission for noncompliance with the conditions or requirements of a district boundary amendment is the issuance of an order to show cause, which may result in a reversion to the former land use classification. However, even that mechanism is available only prior to substantial commencement of use of the land, and reversion is not always an appropriate solution.

Your Committee further finds that this measure would provide the Commission with additional authority and enforcement tools, providing the flexibility to amend, modify, or vacate conditions, or impose fines, with respect to conditions that are within the public trust, concern state expenditures, or have cultural or environmental significance.

Your Committee requests that as this measure continues to move through the legislative process, proponents of this measure consider recommendations from the Department of Planning and Permitting of the City and County of Honolulu and other concerned parties to clarify or modify certain provisions of the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 629, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, 5 (Dela Cruz, Inouye, Kahele, Shimabukuro, Taniguchi).

SCRep. 649 Ways and Means on S.B. No. 990

The purpose and intent of this measure is to improve the Forest Stewardship Program of the Department of Land and Natural Resources.

More specifically, the measure:

- (1) Clarifies the conditions to be met by applicants in order to participate and receive funds under the Forest Stewardship Program; and
- (2) Increases the cost-share reimbursement rate for the development of an approved forest stewardship management plan from fifty percent to seventy-five percent.

Your Committee received written comments in support of this measure from the Department of Land and Natural Resources, the Hawaii Forest Industry Association, Haleakala Ranch Company, and one individual.

Your Committee finds that the Forest Stewardship Program provides technical and financial assistance to private landowners and long-term leaseholders of forests in managing, protecting, and restoring important natural resources in the State's forested and formerly forested lands.

Your Committee further finds that clarifying the conditions to be met by applicants who participate and receive funds under the Forest Stewardship Program and increasing the cost-share reimbursement rate for the development of an approved forest stewardship management plan will encourage participation in the program and help protect and restore the State's forests.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 990, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, 5 (Dela Cruz, Inouye, Kahele, Shimabukuro, Taniguchi).

SCRep. 650 Judiciary and Labor on S.B. No. 369

The purpose and intent of this measure is to prohibit associations of apartment owners, boards of directors, managing agents, resident managers, condominium owners, and any person acting on behalf of an association of apartment owners or apartment owner from retaliating or discriminating against a condominium owner, board member, or association employee who files a complaint; acts in

furtherance of a complaint, report, or investigation of an alleged violation of the State's condominium laws or a condominium's governing documents; or exercises or attempts to exercise any right as a condominium owner.

Your Committee received testimony in support of this measure from one individual. Your Committee received testimony in opposition to this measure from five individuals.

Your Committee finds that although many condominium owners are comfortable with raising condominium-related complaints or concerns to their association, its board, a managing agent, or a resident manager, this experience is not universal. Condominium owners who are not comfortable with bringing up complaints or concerns may fail to do so because of a fear of retaliation. Accordingly, this measure strengthens the protections afforded to condominium owners by prohibiting condominium associations, boards, managing agents, resident managers, condominium owners, and others from retaliating or discriminating against a condominium owner, among other individuals, under certain circumstances.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 369, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Gabbard, Thielen).

SCRep. 651 Judiciary and Labor on S.B. No. 949

The purpose and intent of this measure is to make various updates to the money transmitters law, chapter 489D, Hawaii Revised Statutes, including:

- (1) Clarifying permissible investment requirements for money transmitter licensees;
- (2) Updating requirements for applications, extraordinary reporting requirements, change in control of licensee, and criminal history record checks; and
- (3) Updating various definitions.

Your Committee received testimony in support of this measure from the Department of Commerce and Consumer Affairs.

Your Committee finds that this measure makes various updates to clarify and strengthen Hawaii's Money Transmitters Act, including clarifying permissible investment requirements for money transmitter licensees; updating requirements for applications, extraordinary reporting requirements, change in control of licensee, and criminal history record checks; improving licensee compliance; enhancing the Division of Financial Institutions' ability to effectively administer the money transmitters law; ensuring the law is more clearly applicable to new technology and creative payment options; and enhancing consumer protection by strengthening requirements for background information on persons associated with a money transmitter licensee.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 949, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 652 Judiciary and Labor on S.B. No. 1156

The purpose and intent of this measure is to remove the sunset date of Act 39, Session Laws of Hawaii 2015, thereby making permanent the requirements for a public accommodation that owns, leases, leases to, or operates a motion picture theater in more than two locations in the State to provide open movie captioning during at least two showings per week of each motion picture that is produced and offered with open movie captioning and audio descriptions upon request for all motion pictures for which such accommodations are available and provide public notice if such accommodations are not available for certain movies.

Your Committee did not receive any written testimony pertaining to this measure.

Your Committee finds that Act 39, Session Laws of Hawaii 2015 (Act 39), requires a public accommodation that owns, leases, leases to, or operates a motion picture theater in more than two locations in the State to provide open movie captioning and audio descriptions upon request. Act 39 was intended to improve accessibility and address the discriminatory effects of communication barriers at movie theaters encountered by individuals who are deaf, hard of hearing, deaf blind, or blind or have low vision.

Your Committee further finds that Act 39 is scheduled to be repealed on January 1, 2018. This measure removes the sunset date of Act 39, thus making permanent the motion picture accommodation requirements for Hawaii movie theaters to enable consumers who are deaf, hard of hearing, deaf blind, or blind or have low vision to continue to enjoy movies in a similar manner as those who do not require open movie captioning or audio descriptions.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1156 and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Gabbard).

SCRep. 653 Ways and Means on S.B. No. 333

The purpose and intent of this measure is to increase notary public fees.

Your Committee received written comments in support of this measure from the Association of Hawaii Notaries.

Your Committee recognizes that notaries perform an important and necessary public service and that Hawaii's notary public fees have not been increased since 1995. Your Committee finds that the increases included in this measure are reasonable and timely.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 333, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, 4 (Dela Cruz, Inouye, Kahele, Shimabukuro).

SCRep. 654 Ways and Means on S.B. No. 399

The purpose and intent of this measure is to change the allowable charge for acupuncture treatments provided through motor vehicle insurance.

More specifically, this measure ties the authorized charge for acupuncture treatments allowed under personal injury protection benefits provided through motor vehicle insurance to the workers' compensation supplemental medical fee schedule.

Your Committee received written comments in support of this measure from the Department of Commerce and Consumer Affairs and the Hawaii Association for Justice.

Your Committee received written comments in opposition to this measure from State Farm Insurance.

Your Committee finds that the charge allowed for acupuncture treatments has not increased in nearly twenty years, while rates for other services, such as physical therapy and medical office visits, have increased. Your Committee further finds that this freeze has resulted in a compensation rate that has not kept up with inflation or the increased costs of providing acupuncture care.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 399, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, 4 (Dela Cruz, English, Kahele, Taniguchi).

SCRep. 655 Ways and Means on S.B. No. 27

The purpose and intent of this measure is to restore basic adult dental benefits to Medicaid enrollees.

Specifically, the measure:

- (1) Appropriates funds to the Department of Human Services to restore basic adult dental benefits to Medicaid enrollees in fiscal years 2017-2018 and 2018-2019; and
- (2) Requires the Department of Human Services to obtain the maximum federal matching funds available for this expenditure.

Your Committee received written comments in support of this measure from the Disability and Communication Access Board, State Council on Developmental Disabilities, Hawaii Primary Care Association, Hawaii Dental Hygienists' Association, Hawaii Public Health Association, Hawaii Pacific Health, Hawaii Public Health Institute, The Queen's Health Systems, ARC of Maui, Healthcare Association of Hawaii, Ho'ola Lahui Hawai'i, and a concerned individual.

Your Committee received comments on this measure from the Department of Human Services.

Your Committee finds that oral health in the State is a pervasive and expensive public health crisis. Your Committee believes the restoration of basic adult dental benefits to Medicaid enrollees would help to address this crisis. Your Committee further finds that lack of access to preventive oral health care has a negative impact on a person's health, especially for individuals with chronic diseases as well as pregnant women and their newborns.

Your Committee has amended this measure by:

- (1) Changing the appropriation for fiscal year 2017-2018 from \$4,700,000 to an unspecified sum;
- (2) Changing the appropriation for fiscal year 2018-2019 from \$9,400,000 to an unspecified sum; and
- (3) Changing the effective date to July 1, 2050 to facilitate further discussion on the measure.

Your Committee intends to consider including the appropriations under this measure in the executive budget.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 27, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 27, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 9. Noes, none. Excused, 2 (Inouye, Wakai).

SCRep. 656 Ways and Means on S.B. No. 301

The purpose and intent of this measure is to require the Department of Health to make changes to its advance disposal fee program.

More specifically, the measure:

- (1) Mandates the Department of Health to adopt and implement the recommendations made by the Office of the Auditor regarding combining the glass processing streams for the advance disposal fee program and the deposit beverage container program;
- (2) Requires the Department of Health to report on its implementation of the recommendations to the Legislature prior to the 2019 Regular Session; and

- (3) Appropriates funds for the Department of Health to conduct a cost-benefit analysis of combining the glass processing streams of the recycling programs.

Your Committee received written comments in support of this measure from the City and County of Honolulu Department of Environmental Services, and the Sierra Club of Hawaii.

Your Committee received written comments in opposition to this measure from one individual.

Your Committee received written comments on this measure from the Wine Institute and one individual.

Your Committee finds that glass recycling in the State is subsidized by two different programs. Non-deposit glass recycling is subsidized by the advanced disposal fee program and deposit beverage container glass recycling is subsidized by the deposit beverage container program. Each program requires that its glass be marked and processed separately.

Your Committee further finds that the Legislature passed S.C.R. No. 74, S.D. 1, H.D. 1, Regular Session of 2014, to determine whether there was a more efficient option for the processing operations associated with glass recycling. The concurrent resolution requested the Office of the Auditor to conduct an audit of the Department of Health's advance disposal fee program, which resulted in the recommendation that the Department of Health consider combining the glass processing streams for the advance disposal fee program and the deposit beverage container program. The Office of the Auditor concluded that this would increase efficiency and decrease costs, while also increasing the supply of glass available for down-cycling. Your Committee notes that the Office of the Auditor also recommended that the Department of Health update and finalize the 2008 Department of Health draft policy on glass recycling.

Your Committee has amended this measure by:

- (1) Changing the effective date to June 1, 2050, to facilitate further discussion on the measure; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 301, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 301, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, 4 (Dela Cruz, Inouye, Kahele, Shimabukuro).

SCRep. 657 Ways and Means on S.B. No. 946

The purpose and intent of this measure is to provide the Professional and Vocational Licensing Division (Division) of the Department of Commerce and Consumer Affairs with the flexibility to decrease or increase certain licensing fees.

Specifically, this measure allows the Division, subject to the approval of the Governor, to adjust fees for:

- (1) Athletic trainers, behavior analysts, mixed martial arts, respiratory therapists, uniform athlete agents, and veterinary technicians; and
- (2) Any future board, commission, program, or entity created pursuant to title 25, Hawaii Revised Statutes, and assigned to the Department of Commerce and Consumer Affairs or placed within that department for administrative purposes.

The Professional and Vocational Licensing Division of the Department of Commerce and Consumer Affairs submitted written comments in support of this measure.

Your Committee finds that existing law already provides for increasing or decreasing fees pertaining to the regulation of various professions. However, the law has not been updated since 2007, and therefore does not include the six new licensed areas specified in the measure. Your Committee further finds that this measure will allow the Division to timely adjust its fees in a fair and impartial manner.

Your Committee has amended this measure by changing its effective date to June 1, 2050, to facilitate further discussion.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 946, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 946, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, 4 (Dela Cruz, Inouye, Kahele, Shimabukuro).

SCRep. 658 Ways and Means on S.B. No. 620

The purpose and intent of this measure is to amend the state general excise tax to address remote sales.

More specifically, this measure amends the definition of the term "business" to include a person who has no physical presence in the State, but who has gross receipts attributable to the State of \$100,000 or more.

Your Committee received written comments in support of this measure from The Chamber of Commerce Hawaii.

Your Committee received written comments on this measure from the Department of the Attorney General, Department of Taxation, and Tax Foundation of Hawaii.

Your Committee finds that a seller with no physical presence in a customer's state might see no obligation to collect and remit tax in the customer's state. Your Committee also finds that, while such a customer would be liable for a use tax, tax departments throughout

the country have met with little success in motivating such customers, especially those with small purchases, to pay a use tax. Your Committee further finds that many internet-based retailers and vendors unfairly benefit from the State's inability to enforce the use tax against purchasers, resulting in lost revenue by the State and lost sales by conventional "brick and mortar" retailers. This measure will help to address this tax inequity.

Your Committee has amended this measure by changing the effective date to July 1, 2017.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 620, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 620, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, none. Excused, 3 (Dela Cruz, Inouye, Wakai).

SCRep. 659 Judiciary and Labor on Gov. Msg. No. 506

Recommending that the Senate consent to the nomination of the following:

INTERMEDIATE COURT OF APPEALS

G.M. No. 506 DERRICK H.M. CHAN, for a term of 10 years

Your Committee has reviewed the resume and statements submitted by the appointee and finds Derrick H.M. Chan to possess the requisite qualifications to be considered for appointment to the Intermediate Court of Appeals, State of Hawaii.

Testimony in support of the appointment of Chief Judge Chan to the position of Associate Judge of the Intermediate Court of Appeals of the State of Hawaii was submitted by the Department of the Attorney General; Office of the State Public Defender; Office of the Prosecuting Attorney, County of Kaua'i; Department of the Prosecuting Attorney, County of Maui; Retired Chief Justice Ronald Moon, Supreme Court of the State of Hawaii; Retired Judge Richard K. Perkins, Circuit Court of the First Circuit; Retired Judge Shackley F. Raffetto, Circuit Court of the Second Circuit; Domestic Violence Action Center; Ho'omana Pono, LLC; Hawaii Regional Council of Carpenters; The Trustees of the Estate of Bernice Pauahi Bishop dba Kamehameha Schools; and eighteen individuals. Comments regarding the appointee were submitted by the Hawaii State Bar Association Board of Directors.

Chief Judge Chan obtained his Bachelor of Arts degree from the University of Hawaii. He received his Doctorate of Jurisprudence from California Western School of Law. Since 2000, he has served on the bench of the Circuit Court of the First Circuit and has had the opportunity to be assigned to every calendar, including criminal, civil, and probate, in the First Circuit. He became the Deputy Chief Judge of the Criminal Division of the First Circuit in 2005 and later the Chief Judge of the Circuit Court of the First Circuit in 2009, which is the role in which he currently serves. As Chief Judge, he is responsible to serve as the Chief Trial Judge of the First Circuit, preside over trials, manage judges of the Circuit, Family, and District Courts of the First Circuit, manage the First Circuit's budget and all administrative personnel, and provide overall leadership for the First Circuit, which is the State's largest judicial circuit.

Prior to his appointment to the Circuit Court bench, Chief Judge Chan served as a Deputy Attorney General for the Department of the Attorney General, Deputy Public Defender for the Office of the State Public Defender, Attorney for the Hawaii Carpenters Union, and First Deputy Prosecutor for the Office of the Prosecuting Attorney of the County of Kauai. As a practicing attorney, he has handled over thirty jury trials and fifty bench trials and has represented the State or individuals in all types of cases from petty theft to murder.

Chief Judge Chan has extensive service in the legal community. He currently serves as Chairperson of the Strategic Plan Working Group on Standardization of Workflows, Policies, and Procedures; Chairperson of the Judiciary Working Group Relating to Adult Guardianship and Protective Proceedings Jurisdiction; Member of the Expungement of Court Records Working Group; Chairperson of the Committee on Uniform Probate Code and Probate Court Practices; Member of the Standing Committee on the Rules of Evidence; Committee Chairperson to Recommend Jury Management Improvements; Chairperson of the Judiciary Leave Sharing Program Committee; Chairperson of the Permanent Committee on Rules of Civil Procedure and Circuit Court Civil Rules; Chairperson of the Special Committee on Judicial Performance; Member of the Committee on Pattern Civil Jury Instructions; and Member of the Hawaii State Trial Judges Association/Hawaii State Bar Association Committee. He also has extensive involvement in community activities, including currently participating in Matt Levi's Laukea Scholarship Program, Boy Scouts Career Development Program, Hokulani Elementary School Career Day, various court room presentations for Department of Education schools, and various high school moot court competitions.

Testimony in support of Chief Judge Chan's appointment indicate that due to over fifteen years of service as a Circuit Court Judge, including over seven years of service as Chief Judge of the First Circuit Court, Chief Judge Chan has extensive knowledge and experience in civil and criminal cases and is adept at navigating the many day-to-day issues that arise within the Judiciary. As Chief Judge, he has addressed issues from both sides of the judicial system with skill and benevolence while guiding the First Circuit through societal and institutional changes.

Testimony in support also indicates that Chief Judge Chan possesses unique character qualities of leadership, collegiality, and humility that will benefit him and the other judges presiding on the Intermediate Court of Appeals. He has the ability to keep a thoughtful, open mind while judiciously weighing all facts from a disciplined and objective point of view. All of these qualities are essential for an Associate Judge of the Intermediate Court of Appeals.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the appointee, has found the appointee to be qualified for the position to which appointed and recommends that the Senate consent to the appointment.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Gabbard, Thielen).

SCRep. 660 Judiciary and Labor on Gov. Msg. No. 507

Recommending that the Senate consent to the nomination of the following:

FIRST CIRCUIT COURT JUDGE

G.M. No. 507 TODD W. EDDINS, for a term to expire in 10 years

Your Committee has reviewed the resume and statements submitted by the appointee and finds Todd W. Eddins to possess the requisite qualifications to be considered for appointment to the Circuit Court of the First Circuit, State of Hawaii.

Testimony in support of the appointment of Mr. Eddins was submitted by Chief United States District Judge J. Michael Seabright, United States District Court, District of Hawaii; Office of the Federal Public Defender, District of Hawaii; Department of the Attorney General; Office of the State Public Defender; Judge Linda C.J. Lee, The Court of Appeals of the State of Washington; Retired Judge Victoria S. Marks, Circuit Court Judge of the First Circuit; Retired Judge Eden Hifo, Circuit Court Judge of the First Circuit; Ho'omana Pono, LLC; Waiahole Waikane Community Association; and fifty-eight individuals. Comments regarding the appointee were submitted by the Hawaii State Bar Association Board of Directors.

Mr. Eddins received his Bachelor's degree from the College of William & Mary. He subsequently obtained his Doctorate of Jurisprudence from the William S. Richardson School of Law at the University of Hawaii at Manoa, where he served as the Executive Editor of the University of Hawaii Law Review and was one of the core group of law student leaders who initiated public service as a graduation requirement. The public service graduation requirement was the first in the nation.

Mr. Eddins is currently a sole practitioner of his own private law practice focusing on criminal defense and complex civil litigation. He previously served as a Deputy Public Defender and provided civil litigation work for Galiher DeRobertis Ono. He has tried approximately one hundred jury trials and two hundred bench trials during his extensive legal career and has represented clients in almost every Circuit and District Court in the State and the United States District Court, including many of Hawaii's most high-profile, complex cases. Of particular note, he represented the Waiahole-Waikane Community Association in lease, eviction, and land transfer issues with the Housing and Community Development Corporation of Hawaii; represented the defendant in *State v. Tayshea Aiwohi*, which examined the constitutional, statutory, and policy implications of prosecuting mothers for prenatal substance abuse; and served as the plaintiffs' attorney for Pearl Harbor Naval Shipyard workers and United States Navy veterans exposed to asbestos.

Mr. Eddins is licensed to practice law in Hawaii and is an active participant in his community. He has participated in the McCully-Moilili Neighborhood Board and Waipahu Neighborhood Board and served as a high school mock trial coach for the Hawaii Youth Correctional Facility. He has also served as a coach for Kailua youth basketball and youth baseball and participated in the lawyers basketball for more than twenty-five seasons, including on the championship team several times in recent seasons.

Testimony in support of Mr. Eddins' appointment indicates that he is a knowledgeable and skilled trial attorney whose practical knowledge of the rules of evidence will ensure that verdicts will not be overturned for errors and that his keen ability to interact with prospective jurors will translate to efficient and fair jury selections. He possesses the necessary intellect to critically analyze legal issues, arrive at a well-reasoned decision, and clearly explain the basis for his decision.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the appointee, has found the appointee to be qualified for the position to which appointed and recommends that the Senate consent to the appointment.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Kim).

SCRep. 661 Judiciary and Labor on Gov. Msg. No. 508

Recommending that the Senate consent to the nomination of the following:

FIRST CIRCUIT COURT JUDGE

G.M. No. 508 CATHERINE REMIGIO, for a term to expire in 10 years

Your Committee has reviewed the resume and statements submitted by the appointee and finds Catherine Remigio to possess the requisite qualifications to be considered for appointment to the Circuit Court of the First Circuit of the State of Hawaii.

Testimony in support of the appointment of Judge Remigio was submitted by the Department of the Attorney General, Office of the State Public Defender, Hawaii State Coalition Against Domestic Violence, and eighteen individuals. Comments regarding the appointee were submitted by the Hawaii State Bar Association Board of Directors.

Judge Remigio received her Bachelor of Science degree in Foreign Service – Comparative Studies and a certificate in East Asian Studies from Georgetown University. She later obtained her Doctorate of Jurisprudence from the William S. Richardson School of Law at the University of Hawaii at Manoa, where she received an American Jurisprudence Award for Excellence in Appellate Advocacy and participated on the Jessup International Moot Court Team, American Inns of Court, and Moot Court Board.

Since 2011, Judge Remigio has served as the presiding District Family Court Judge of the First Circuit and currently serves as the presiding judge in the Juvenile Division. Since January 2014, she has handled over two hundred fifty Child Welfare Services cases and over sixty juvenile offenses, and presided over seventy juvenile sex assault cases as well as over fifty bench trials. She served as a presiding judge in the Domestic Division, where she handled more than three thousand civil litigation cases involving pre-decree and post-decree motions, settlement conferences and settlements, divorce trials, and temporary restraining orders and orders for protection hearings and trials; and presided over more than one hundred trials and contested hearings. She was also previously assigned to the Circuit Court of the First Circuit, where she presided over approximately ten jury trials.

Prior to her appointment to the District Family Court bench, Judge Remigio served as a Per Diem Judge with the District Court of the First Circuit, where she handled criminal and civil traffic infraction cases, criminal misdemeanors and petty misdemeanors, arraignments, pleas, small claims trials, regular civil claims trials, and temporary restraining order trials. She was also a partner with the law firm of Bryant and Remigio, L.L.C., where she practiced family law and handled divorce, paternity, child protective services, temporary restraining orders, family criminal defense, and appeals. She also was an arbitrator with the Court Annexed Arbitration Program. Prior to establishing her own firm, Judge Remigio was an associate with Stirling and Kleintop, A.L.S., where she practiced family law. From 1993 to 1996 and again from 1998 to 2004, she served as a Deputy Public Defender with the Office of the Public Defender. Prior to her work with the Office of the Public Defender, she worked as an associate in a law firm in San Diego, practicing plaintiffs' civil and class action suits, water rights, and electricity rate cases.

Judge Remigio has extensive service in the legal and local community. She has served as Chairperson of the Child Support Guidelines Committee, Chairperson of the Family Court Forms Subcommittee, Chairperson of the Family Court Pre-trial Orders Committee, and Member of the Family Court Civil Unions Committee and Family Court Kapolei Working Group Committee. She has served in various capacities with the University of Hawaii, high school mock trial competitions, Hawaii State Bar Association, and American Bar Association.

Testimony in support of Judge Remigio's appointment indicates that as a judge, she is reputed to be a good decision-maker who efficiently handles her caseload and does so with fairness to all who appear in her courtroom. Her reputation in the legal community is that she is exceedingly professional, punctual, practical, compassionate, credible, well prepared, reasonable, and articulate. She has a strong sense of justice and fairness.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the appointee, has found the appointee to be qualified for the position to which appointed and recommends that the Senate consent to the appointment.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Kim).

SCRep. 662 Judiciary and Labor on Gov. Msg. No. 509

Recommending that the Senate consent to the nomination of the following:

FIRST CIRCUIT COURT JUDGE

G.M. No. 509 KEITH HIRAOKA, for a term to expire in 10 years

Your Committee has reviewed the resume and statements submitted by the appointee and finds Keith Hiraoka to possess the requisite qualifications to be considered for appointment to the Circuit Court of the First Circuit, State of Hawaii.

Testimony in support of the appointment of Mr. Hiraoka was submitted by the Department of the Attorney General; Office of the State Public Defender; Retired Judge Karen S.S. Ahn, Circuit Court of the First Circuit; Retired Judge Eden Hifo, Circuit Court of the First Circuit; Hawaii State Coalition Against Domestic Violence; and sixty-one individuals. Comments regarding the appointee were submitted by the Hawaii State Bar Association Board of Directors.

Mr. Hiraoka received his Bachelor of Arts degree in Political Science from the University of Hawaii at Manoa and later obtained his Doctorate of Jurisprudence from Boalt Hall School of Law at the University of California, Berkeley. He is currently a Managing Partner at Roeca Luria Hiraoka LLP (formerly Roeca, Louie & Hiraoka), where his primary practice areas include professional liability defense (including attorneys, insurance agents, accountants, realtors, and land surveyors), liability insurance coverage, extracontractual counseling, and litigation. Prior to establishing his own private practice, he was an Associate at Case & Lynch (formerly known as Case, Kay & Lynch).

Mr. Hiraoka is licensed to practice law in Hawaii and has extensive service in the legal and local community. He has served in various capacities with the Hawaii State Bar Association, including as Co-Chairperson of the Professional Responsibility and Risk Management Committee, Chairperson of the Insurance Coverage Litigation Section, and Member of the Litigation Section. He has also served as a Member of the Hawaii Supreme Court Permanent Committee on Rules of Civil Procedure and Circuit Court Civil Rules as well as the United States District Court Hawaii District Conference. Finally, in his spare time, he has served as Chairperson of the Legal Defense Committee of the Hawaii United Okinawa Association and a coach and referee for the American Youth Soccer Organization.

Mr. Hiraoka is the recipient of several awards and honors, including being listed in *The Best Lawyers in America* and *Honolulu Magazine* for Ethics and Professional Responsibility Law and Professional Malpractice Law since 2011, and achieving a Martindale-Hubbell Law Directory Peer Review Rating AV Preeminent. He has authored an extensive list of legal publications and law review articles.

Testimony in support of Mr. Hiraoka's appointment indicates that he is one of the most experienced and well-regarded civil attorneys in the State. He is able to analyze and explain complicated business, contract, and insurance issues and possesses a solid understanding of the law regarding the underlying claims asserted. He is collegial, clear, practical, and humble when appearing in court or during mediations. His diligent work ethic and legal experience have prepared him well to be a fair, compassionate, and effective jurist.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the appointee, has found the appointee to be qualified for the position to which appointed and recommends that the Senate consent to the appointment.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Kim).

SCRep. 663 Ways and Means on S.B. No. 909

The purpose and intent of this measure is to promote energy security in the State.

Specifically, the measure:

- (1) Amends sections of Hawaii's fuel shortage response and energy emergency statutes to remove deficiencies; and
- (2) Provides policy guidance on preparing for and responding to an actual or potential energy supply disruption or shortage, preserving the State's energy security, and ensuring that fuel products and energy resources are made available to emergency services and the public in an orderly, efficient, and safe manner.

The Department of Transportation; the Department of Accounting and General Services; the Department of Business, Economic Development, and Tourism; Hawaii Natural Energy Institute; The Maritime Group, LLC; and Par Hawaii submitted written comments in support of this measure.

The Office of Information Practices submitted written comments on this measure.

Your Committee believes that it is vital for governmental officials to have proper guidance if an energy supply disruption or shortage occurs to ensure that energy resources are protected and maintained. In case of an energy crisis, it is essential that emergency services and the public can access energy resources in an orderly and well-defined manner. Your Committee finds that the State's decades-old petroleum shortage statutes no longer align with government and industry energy emergency best practices, nor do they adequately enable the State to successfully develop the technical and analytic perspective necessary for situational awareness of the State's energy resources under a state of emergency. Your Committee finds that this measure provides policy guidance to better address exposure to energy supply disruption risk over the next decade.

Your Committee has amended this measure by:

- (1) Removing the definition of "commission," because the term is not used in the measure;
- (2) Moving the placement of the proviso within the definition of "distributor" to clarify that the proviso applies to the entire definition; and
- (3) Making a technical amendment for the purpose of clarity.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 909, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 909, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 10. Noes, none. Excused, 1 (Dela Cruz).

SCRep. 664 Ways and Means on S.B. No. 103

The purpose and intent of this measure is to implement the amendment relating to the disposition of excess revenues made to the Hawaii State Constitution after the passage of S.B. No. 2554, Regular Session of 2016, and its ratification during the 2016 general election.

More specifically, the measure makes statutory amendments that authorize the disposition of excess general fund revenues to pre-pay debt service for general obligation bonds issued by the State or for pension or other post-employment benefit liabilities accrued for state employees.

Your Committee received written comments in support of this measure from the Department of Budget and Finance.

Your Committee finds that this measure is needed to implement the amendments to Article VII, section 6, of the Hawaii State Constitution that were proposed by S.B. No. 2554, Regular Session of 2016, and ratified by the voters on November 8, 2016.

Your Committee has amended this measure by changing the effective date from January 7, 2059, to June 30, 2017.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 103, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 103, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, none. Excused, 3 (Dela Cruz, English, Kahele).

SCRep. 665 Ways and Means on S.B. No. 247

The purpose and intent of this measure is to require a recount of election votes cast for any office, in any election, when the margin of victory is less than two hundred fifty votes or less than one per cent of the total number of votes cast for the contest, whichever is less.

Your Committee received written comments on this measure from the Office of Elections.

Your Committee finds that a candidate may already contest a narrow margin of victory through the court system pursuant to article II, section 10 of the Hawaii Constitution and part XI of chapter 11, Hawaii Revised Statutes. Specifically, a candidate may file a complaint in the Hawaii Supreme Court alleging overages, underages, provable fraud, or any other reason for a difference in the election results. However, the reality is that not all candidates have equal access to the courts, given the costs of legal representation and filing fees. In contrast, this measure would provide a mechanism in certain instances for an automatic recount at no cost to any candidate.

Your Committee also finds that with respect to a complaint filed in the Hawaii Supreme Court pertaining to votes subject to a mandatory recount pursuant to this measure, when the votes were cast in a primary or special primary election or in a county election contest held concurrently with a regularly scheduled primary or special primary election, the complaint filing deadline must allow election officials adequate time to proof, approve, and print the general election ballot.

Accordingly, your Committee has amended this measure by clarifying that a complaint pertaining to primary or special primary election votes subject to a mandatory recount shall be filed no later than 4:30 p.m. on the thirteenth calendar day following the election, or the third calendar day following a recount, whichever occurs first.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 247, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 247, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 8. Noes, none. Excused, 3 (Dela Cruz, English, Kahele).

SCRep. 666 Ways and Means on S.B. No. 1266

The purpose and intent of this measure is to preserve the Front Street Apartments on the island of Maui as affordable housing.

More specifically, the measure directs the Hawaii Housing Finance and Development Corporation, or any appropriate entity of the State as determined by the Governor, to initiate negotiations to use public financing resources to:

- (1) Maintain the status of the units of the Front Street Apartments on the island of Maui as affordable housing through at least 2027; or
- (2) Acquire the Front Street Apartments real property and the improvements thereupon in order to preserve the units as affordable housing.

Your Committee received written comments in support of this measure from the Office of the Mayor of the County of Maui, Maui Councilmember Stacy Helm Crivello, the Front Street Affordable Apartments Committee, and twenty individuals.

Your Committee received written comments on this measure from the Hawaii Housing Finance and Development Corporation.

Your Committee finds that there is a severe shortage of affordable housing on the island of Maui. More than two hundred fifty low-income individuals currently reside at the Front Street Apartments, which were developed in 2001 as an affordable rental housing project that was expected to provide affordable housing to low-income residents for fifty years.

Your Committee further finds that the owners of the Front Street Apartments recently exercised an option to remove the property from affordability requirements that were tied to the development of the property. This change will allow them to begin renting available apartments at market rates and to raise rents for existing tenants within a few years.

Your Committee also finds that many tenants of the Front Street Apartments are worried that the removal of affordability requirements could leave them homeless. Your Committee believes that this measure will enable the State to preserve the Front Street Apartments as affordable housing.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (2) Making technical amendments for clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1266, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1266, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 8. Noes, none. Excused, 3 (Inouye, Taniguchi, Wakai).

SCRep. 667 Ways and Means on S.B. No. 776

The purpose and intent of this measure is to recast the Hawaii Invasive Species Council as the Hawaii Invasive Species Authority and to provide the new entity with expanded authority.

Specifically, this measure:

- (1) Recasts the Hawaii Invasive Species Council as the Hawaii Invasive Species Authority within the Department of Agriculture for administrative purposes;
- (2) Expands the membership of the governing board;
- (3) Requires the Hawaii Invasive Species Authority to coordinate the implementation of the Hawaii interagency biosecurity plan; and
- (4) Appropriates funds for the operation of the Hawaii Invasive Species Authority and for invasive species programs.

Your Committee received written comments in support of this measure from the Department of Transportation, the Department of Agriculture, the Department of Land and Natural Resources, the University of Hawaii System, the Democratic Party of Hawaii, Neighborhood Cats, Local Food Coalition, the Coordinating Group on Alien Pest Species, the Conservation Council for Hawaii, Hawaii Cattlemens Council, Hawaii Green Growth, The Nature Conservancy, and nine individuals.

Your Committee received written comments in opposition to this measure from the Best Friends Animal Society, For Forgotten Felines, Animal Rights Hawaii, and four individuals.

The Department of the Attorney General and the Hawaii Farm Bureau submitted comments on this measure.

Your Committee finds that invasive species can have a devastating impact on Hawaii's native wildlife and agricultural industry. Your Committee further finds that the establishment of the Hawaii Invasive Species Authority will place the management and control of invasive species under a single entity with dedicated staff and resources. Your Committee believes that this will help to better coordinate the efforts of the Department of Land and Natural Resources and the Department of Agriculture to combat invasive species and protect the environment of Hawaii.

Your Committee has amended this measure by:

- (1) Changing the amount appropriated for positions and other operating expenditures of the Hawaii Invasive Species Authority for fiscal years 2017-2018 and 2018-2019 from \$500,000 to an unspecified amount;
- (2) Changing the amount appropriated for invasive species programs and projects for fiscal years 2017-2018 and 2018-2019 from \$10,000,000 to an unspecified amount;
- (3) Changing the effective date to March 9, 2092, to facilitate further discussion on the measure; and
- (4) Making a technical nonsubstantive amendment to correctly reference the National Invasive Species Council.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 776, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 776, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 8. Noes, none. Excused, 3 (Dela Cruz, English, Kahele).

SCRep. 668 Ways and Means on S.B. No. 992

The purpose and intent of this measure is to clarify the actions that the Department of Land and Natural Resources may take when responding to grounded vessels.

Your Committee received written comments in support of this measure from the Department of Land and Natural Resources, Office of Hawaiian Affairs, and Ocean Tourism Coalition.

Your Committee received written comments in opposition to this measure from an individual.

Your Committee finds that the Department of Land and Natural Resources is currently authorized to assume control of and remove a vessel grounded on a coral reef or in imminent danger of breaking up. This authority leaves out various other places that vessels become grounded, including state submerged lands, shorelines, sand beaches, sand bars, and mud flats. Leaving vessels grounded in these places can pose environmental and public safety risks. Your Committee believes that these risks can be decreased and mitigated by explicitly authorizing the Department to assume control of and remove vessels grounded in these locations.

Your Committee has amended this measure by:

- (1) Specifying that the owner or operator of a vessel grounded on state submerged lands, shorelines, or coral reefs shall be responsible for removing the vessel;
- (2) Clarifying that the entirety of section 200-47.5, Hawaii Revised Statutes, shall apply whether a vessel is attended or deemed derelict under section 200-48, Hawaii Revised Statutes; and
- (3) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 992, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 992, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 5 (Dela Cruz, Inouye, Kahele, Shimabukuro, Taniguchi).

SCRep. 669 Ways and Means on S.B. No. 974

The purpose and intent of this measure is to limit the privilege of parking a vehicle in a metered parking space by disabled persons.

More specifically, this measure would allow parking without payment of parking meter fees for a maximum of two-and-a-half hours or the maximum time the meter allows, whichever is longer, only by permittees who are licensed drivers and not able to reach or operate parking meters because of a disability.

Your Committee received written comments in support of this measure from the Disability and Communications Access Board, the Downtown-Chinatown Neighborhood Board, and one individual.

Your Committee finds that the current exemption for disabled persons to park vehicles in metered parking spaces without paying parking meter fees for an initial period exceeds the original intent of section 291-55, Hawaii Revised Statutes. The original purpose of the statute was not to provide free parking for all disability parking permit holders, nor to permit persons other than permit holders to avoid paying parking meter fees by illegally using permits issued to family members or others.

Your Committee further finds that this measure will narrow the exemption from payment of parking meter fees to only licensed drivers who cannot reach or operate a parking meter because of their disability, and will require qualified permit holders to display a distinguishing permit or decal in their vehicles while parked in metered parking spaces to signify their exemption from payment for an initial period.

Your Committee has amended this measure by specifying that qualified disability parking permit holders will be exempt from parking meter fees for the first two-and-a-half hours, rather than a maximum of two-and-a-half hours, or the maximum amount of time the meter allows, whichever is longer.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 974, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 974, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 9. Noes, none. Excused, 2 (Dela Cruz, Taniguchi).

SCRep. 670 Judiciary and Labor on S.B. No. 519

The purpose and intent of this measure is to specify that citizen complaints against a police officer that involve allegations of domestic violence against a family or household member on the part of the police officer are not required to be in writing or sworn to by the complainant.

Your Committee received testimony in support of this measure from the Hawaii State Commission on the Status of Women, Women's Caucus of the Democratic Party of Hawai'i, American Association of University Women of Hawaii, Americans for Democratic Action Hawai'i, Domestic Violence Action Center, Hawaii State Coalition Against Domestic Violence, Hawaii Women's Coalition, and eleven individuals. Your Committee received testimony in opposition to this measure from the Department of the Prosecuting Attorney, County of Maui and State of Hawaii Organization of Police Officers. Your Committee received comments on this measure from the Department of the Prosecuting Attorney, City and County of Honolulu.

Your Committee finds that curtailing domestic violence is important for the health, safety, and welfare of citizens and that a vital part of reducing domestic violence is ensuring that those reporting acts of domestic violence feel secure and confident in coming forward with complaints. The fear of chilling the voices of those wishing to report acts of domestic violence is particularly worrisome when those reports complain of acts of domestic violence perpetrated by a police officer against a family or household member. Accordingly, this measure allows an individual to make a complaint against a police officer alleging an act of domestic violence against a family or household member without being required to swear to or make the complaint in writing.

Your Committee has amended this measure by:

- (1) Inserting an effective date of January 7, 2059, to encourage further discussion; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 519, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 519, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Gabbard, Kim).

SCRep. 671 Judiciary and Labor on S.B. No. 603

The purpose and intent of this measure is to create restrictions and guidelines on the use of administrative segregation and disciplinary segregation in correctional facilities by:

- (1) Establishing the maximum length of time that an inmate may be held in administrative or disciplinary segregation;
- (2) Establishing procedures for continued placement in administrative or disciplinary segregation;
- (3) Creating restrictions on the deprivation of certain necessities of an inmate in administrative or disciplinary segregation;
- (4) Establishing guidelines for the use of administrative or disciplinary segregation on a member of a vulnerable population;
- (5) Establishing criteria for classifying an inmate as a member of a vulnerable population; and
- (6) Requiring all correctional facilities' staff who work with inmates held in administrative or disciplinary segregation to undergo appropriate training to develop the necessary skills for protecting the mental and physical health of inmates held in administrative or disciplinary segregation.

Your Committee received testimony in support of this measure from the Community Alliance on Prisons, American Civil Liberties Union of Hawai'i, and thirteen individuals. Your Committee received testimony in opposition to this measure from the Department of Public Safety. Your Committee received comments on this measure from one individual.

Your Committee finds that there are two types of solitary confinement that are commonly used in correctional facilities. Administrative segregation is used when inmates are deemed a risk to the safety of other inmates or correctional facility staff and can result in the inmate being placed into an isolation unit for months or years. Disciplinary segregation is used when inmates break the rules of the correctional facility and results in the inmate being separated from other inmates for a specified period of time.

Your Committee notes the concerns raised in written testimony that administrative segregation and disciplinary segregation can cause serious, long-lasting harm and have been used on vulnerable populations, such as juveniles, lesbian, gay, bisexual, transgender,

and intersex inmates. Accordingly, this measure provides guidelines and criteria for the use of administrative segregation and disciplinary segregation to ensure inmates are provided basic standards of decency.

Your Committee further notes the written testimony submitted by the Department of Public Safety that this measure contradicts its existing departmental policy and practices regarding administrative segregation and disciplinary segregation. Your Committee believes that this issue merits further discussion as this measure moves through the legislative process.

Your Committee has amended this measure by:

- (1) Inserting an effective date of January 7, 2059, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 603, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 603, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Gabbard, Kim).

SCRep. 672 Judiciary and Labor on S.B. No. 898

The purpose and intent of this measure is to allow law enforcement to seize and retain firearms or ammunition owned, possessed, or controlled by a person who poses a serious risk of violence or harm to public safety, pursuant to a court order, by establishing specific criteria for the issuance of a warrant to search for, seizure of, hearings regarding, retention of, and return of firearms or ammunition, if certain conditions are met.

Your Committee received testimony in support of this measure from the Department of the Attorney General; Office of Homeland Security, Department of Defense; Police Department, City and County of Honolulu; Police Department, County of Kauaʻi; Office of the Prosecuting Attorney, County of Hawaiʻi; and seven individuals. Your Committee received testimony in opposition to this measure from the National Rifle Association Hawaii, Institute for Rational and Evidence-based Legislation, Lessons In Firearms Education, and one hundred six individuals.

Your Committee finds that existing law disqualifies certain persons from owning a firearm or ammunition. However, there are occasions where law enforcement becomes aware of a person who poses serious risk of violence or harm to public safety, but is not disqualified from firearms ownership pursuant to state law. This measure includes such persons as persons who are disqualified from firearms or ammunition ownership due to them having certain traits or characteristics or a proclivity toward violence or harm against the public and provides those persons with certain due process safeguards.

Your Committee has amended this measure by:

- (1) Inserting an effective date of January 7, 2059, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 898, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 898, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 4; Ayes with Reservations (Gabbard). Noes, none. Excused, 1 (Kim).

SCRep. 673 Judiciary and Labor on S.B. No. 1277

The purpose and intent of this measure is to:

- (1) Allow the minutes of a board to be written or recorded by analog or digital means; and
- (2) If the minutes are recorded by analog or digital means, require a written summary of the recording to accompany the recording.

Your Committee received testimony in opposition to this measure from the Office of Information Practices, Disability and Communication Access Board, League of Women Voters of Hawaii, The Civil Beat Law Center for the Public Interest, and one individual.

Your Committee finds that existing law requires boards and commissions to keep written minutes of all meetings. By allowing boards and commissions the flexibility to make their minutes available through analog or digital means, this measure may reduce some expense for boards and commissions to comply with the law for public agency meetings.

Your Committee notes the concerns raised in written testimony submitted by the Office of Information Practices and League of Women Voters of Hawaii that the written summary of the recording required to accompany the recording lacks specific criteria. Furthermore, concerns were raised in written testimony submitted by The Civil Beat Law Center for the Public Interest regarding the availability of the minutes recorded by analog or digital means.

Accordingly, your Committee has amended this measure by:

- (1) Requiring that the written summary of the recording includes any significant actions taken by the board, including any motions and votes made by the board;
- (2) Amending section 92-9(b), Hawaii Revised Statutes, to:

- (A) Require that the recorded minutes be made available within ten days after the board meeting, with certain exceptions; and
 - (B) Require the board to maintain reasonable care of any original or duplicate recordings of minutes that are recorded by analog or digital means; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1277, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1277, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Kim).

SCRep. 674 Judiciary and Labor on S.B. No. 146

The purpose and intent of this measure is to:

- (1) Permit an administrative order to overcome a patient's objection to psychiatric treatment; and
- (2) Establish criteria for treatment over objection and the administrative authorization process for administratively ordering treatment over objection.

Your Committee received testimony in support of this measure from the Department of Health, Department of Public Safety, and The Queen's Health Systems. Your Committee received testimony in opposition to this measure from the American Civil Liberties Union of Hawai'i. Your Committee received comments on this measure from the Judiciary and Hawaii Disability Rights Center.

Your Committee finds that it is important for the initiation of treatment for patients admitted to the Hawaii State Hospital, which is used primarily for forensic commitments, to be expedient in order to address patients' psychiatric symptoms, which often generate a risk of safety to the patient and others. Expedient initiation of treatment will help maintain a safe and secure therapeutic environment for patients and staff, and have a positive impact on patients' length of stay.

Your Committee further finds that the current method to obtain an authorization to provide treatment over a patient's objection is by a judicial hearing. The time between petition and judicial hearing is unpredictable and is on average nearly seventeen days. Your Committee notes that other states have responded to the unpredictability and delay of waiting for court hearings by developing a non-judicial, administrative mechanism to review and authorize requests for treatment over a patient's objection. This measure recognizes the importance of providing the details of an administrative process for authorizing treatment over a patient's objection and provides guidance for such a process.

Your Committee recognizes that while involuntary treatment necessarily gives rise to constitutional issues relating to minimum safeguards for due process, your Committee understands that professionals at state psychiatric facilities need to make serious day-to-day decisions with respect to medication for the safety of all patients and facility employees. Your Committee hopes that as this measure moves through the legislative process, the State and other stakeholders will continue to work together to find a balanced and refined approach so that this process may occur in a timely and fair manner.

Your Committee has amended this measure by:

- (1) Adopting language suggested by the Department of Health that:
 - (A) Clarifies treatment over objection is for medical, rather than psychiatric, conditions or symptoms;
 - (B) Deletes from the criteria for treatment over objection references to a patient residing in a special treatment facility;
 - (C) Broadens the scope of treatment from treatment with medication to a proposed treatment that is medically appropriate under the criteria for treatment over objection;
 - (D) Clarifies under the criteria for treatment over objection that the treatment is essential to forestall the danger posed by the patient's condition after considering less intrusive alternatives;
 - (E) Authorizes the Director of Health to order a patient who is in the Director's administrative custody and in a psychiatric facility to order the patient to receive medical treatment over objection through an administrative process;
 - (F) Clarifies the rights a patient is afforded when ordered to receive medical treatment over objection through an administrative process; and
 - (G) Exempts the administrative process for ordering medical treatment over objection from the contested case hearing requirements under chapter 91, Hawaii Revised Statutes;
- (2) Adopting language suggested by the American Civil Liberties Union of Hawai'i as a due process safeguard required under the administrative process, which requires a finding that the patient's illness satisfies certain criteria and that lack of treatment alone cannot satisfy the requirement that the patient is dangerous to self or others; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 146, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 146, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Gabbard, Thielen).

SCRep. 675 Judiciary and Labor on S.B. No. 305

The purpose and intent of this measure is to specify that video monitoring and recording of medical marijuana production center and retail dispensing location premises shall be retained for a period of forty-five days.

Your Committee received testimony in support of this measure from Cure Oahu, Drug Policy Forum of Hawaii, Hawaii Educational for Licensed Therapeutic Healthcare, and five individuals. Your Committee received testimony in opposition to this measure from the Department of Health and one individual. Your Committee received comments on this measure from Patients Without Time and one individual.

Your Committee finds that existing law does not specifically address video surveillance data storage retention requirements. Instead, dispensary licensees must adhere to the Department of Health's administrative rules, which require dispensary licensees to retain video surveillance recordings for a minimum of 365 days. Your Committee further finds that this administrative rule may be excessive and overly burdensome for dispensary licensees and notes that other states with medical marijuana dispensary systems have set video surveillance data storage retention requirements between thirty to forty-five days. These shorter retention periods still enable dispensaries and production centers to maintain high quality video surveillance that provides safeguards for the public and licensees. This measure conforms with the video surveillance data storage retention requirements of other states to enable dispensary licensees to maintain overall security without compromising video surveillance quality.

Your Committee has amended this measure by:

- (1) Inserting an effective date of January 7, 2059, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 305, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 305, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Gabbard, Thielen).

SCRep. 676 Judiciary and Labor on S.B. No. 419

The purpose and intent of this measure is to:

- (1) Require compliance with the Military Selective Service Act to be eligible for enrollment in a state-supported post-secondary institution, qualify for state financial assistance for post-secondary education, or be eligible for state or county employment or service; and
- (2) Provide certain exceptions to registering with the Selective Service System.

Your Committee received testimony in opposition to this measure from the Hawai'i Civil Rights Commission. Your Committee received comments on this measure from the University of Hawai'i System.

Your Committee finds that compliance with the Military Selective Service Act (Act) is essential for the continued existence of a military force for the protection and security of all citizens. However, many who are required to register for selective service do not register. Given the importance of compliance with the Act, this measure conforms with similar selective service registration requirements of the federal government to ensure and increase compliance with the Act.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 419, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 419, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Gabbard, Kim).

SCRep. 677 Ways and Means on S.B. No. 26

The purpose and intent of this measure is to appropriate funds as a grant-in-aid to the Office of the Prosecuting Attorney of the County of Hawaii for the Career Criminal Prosecution Unit.

Your Committee received written comments in support of this measure from the Department of the Attorney General; County of Hawaii; Department of the Prosecuting Attorney, City and County of Honolulu; Office of the Prosecuting Attorney, County of Hawaii; Kona-Kohala Chamber of Commerce; and one individual.

Your Committee finds that supporting a strong and effective prosecutor's office is vital to protecting the health, safety, and welfare of the public. In 1979, the Legislature created the Career Criminal Prosecution Program to address the problem of "career criminals" who are responsible for a disproportionate number of the serious crimes committed against the public. This program has been effective in assisting prosecutors' offices in the counties in delivering swift and effective justice.

Your Committee has amended this measure by:

- (1) Changing the amount appropriated from \$200,000 to an unspecified amount; and

(2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 26, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 26, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 8. Noes, none. Excused, 3 (Dela Cruz, English, Kahele).

SCRep. 678 Ways and Means on S.B. No. 407

The purpose and intent of this measure is to broaden the types of short-term investment options for the counties, including money market mutual funds.

This measure also prohibits investments that may require future payments by the county, such as swap agreements and hedge agreements, or which bear variable interest rates that may cause market price fluctuations.

Your Committee finds that this measure will increase flexibility for the counties by allowing the same investment options afforded to the State. On the other hand, this measure also contains restrictive language for specific investments that provide further safeguards and clarification.

Your Committee has amended this measure by correcting the term “money market mutual fund” to “money market fund.”

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 407, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 407, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 8. Noes, none. Excused, 3 (Dela Cruz, English, Kahele).

SCRep. 679 Ways and Means on S.B. No. 885

The purpose and intent of this measure is to permit the Comptroller to acquire risk management, investigative, claims adjustment, actuarial, and other services on a fee for services compensation method by exempting licensed individuals and entities from applicable regulations found within the insurance code.

Your Committee received written comments in support of this measure from the Department of Accounting and General Services.

Your Committee received written comments on this measure from the Insurance Division of the Department of Commerce and Consumer Affairs and the Department of the Attorney General.

Your Committee finds that the only method by which the Comptroller is authorized to acquire insurance brokerage services is by a commission that is negotiated between the insurance company and the State’s insurance broker. In certain cases where commissions have increased due to increased premiums, a fixed fee rather than a commission-based fee would have been cost effective for the State. On the other hand, in cases where premiums are rapidly declining, the commission model may be a better option for the State. Accordingly, your Committee believes that granting the Comptroller the flexibility to determine the method by which it acquires insurance brokerage services will provide the State with cost savings.

Your Committee has amended this measure by making a technical nonsubstantive amendment for the purposes of style and clarity and to comport with recommended drafting conventions.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 885, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 885, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 7. Noes, none. Excused, 4 (Dela Cruz, Inouye, Kahele, Shimabukuro).

SCRep. 680 Ways and Means on S.B. No. 887

The purpose and intent of this measure is to establish a prepaid wireless E911 surcharge of 1.5 per cent, to be imposed on prepaid wireless telecommunications services at the point of sale.

Your Committee received written comments in support of this measure from the Department of Accounting and General Services, Hawaii Police Department, Kauai Police Department, Maui Police Department, CTIA, Verizon, and one individual. Hawaii Association for Justice and Tax Foundation of Hawaii submitted written comments on the measure.

Your Committee finds that this measure will ensure parity between consumers of postpaid and prepaid wireless telecommunications services. Up to an estimated ten to twenty per cent of wireless telecommunications use is by consumers with prepaid wireless phones. Users of prepaid wireless telecommunications services benefit from being able to use enhanced 911 features, yet are exempt from the \$0.66 monthly per-line surcharge that is currently imposed on consumers of postpaid wireless telecommunications services via their monthly bill. As a result, postpaid consumers in effect subsidize prepaid consumers’ share of the costs for the enhanced 911 system. This measure aims to eliminate this inequity and generate additional revenue that can be used to maintain and upgrade the enhanced 911 system.

Your Committee has amended this measure by:

- (1) Clarifying that sellers of prepaid wireless telecommunications services may deduct and retain three per cent of the prepaid wireless E911 surcharges they collect, for the purpose of offsetting administrative expenses associated with collecting the surcharge from consumers;
- (2) Clarifying that sellers shall remit the balance of surcharges collected to the Enhanced 911 fund and not the Enhanced 911 Board;
- (3) Clarifying that the frequency of remittance of surcharges by a seller is based on the dollar amount of surcharges the seller expects to collect during the year, as opposed to the actual amount of surcharges the seller will collect during the year;
- (4) Replacing, with regard to collected surcharges, references to “file” and “filing” with “remit” and “remittance”; and
- (5) Making technical, nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 887, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 887, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 8. Noes, none. Excused, 3 (Dela Cruz, English, Kahele).

SCRep. 681 Ways and Means on S.B. No. 773

The purpose and intent of this measure is to facilitate the implementation of an industrial hemp pilot program in the State.

More specifically, the measure prepares for the implementation of the industrial hemp pilot program established within the Department of Agriculture by:

- (1) Establishing an industrial hemp special fund to carry out the purposes of the pilot program;
- (2) Providing that for the effective period of a license issued under the pilot program:
 - (A) The cultivation of industrial hemp or industrial hemp cultivated for the purposes of the pilot program shall qualify as an agricultural product, use, and activity by the relevant county; and
 - (B) Any agricultural land used for the cultivation of industrial hemp for the purposes of the pilot program shall qualify for the minimum dedication period and be assessed at the lowest percentage of fair market value or other calculation provided for by ordinance;
- (3) Limiting the cultivation of industrial hemp to licensed owners, lessees, or occupiers of lands within the state agricultural land use district; and
- (4) Appropriating out of the general revenues of the State of Hawaii \$258,298 for fiscal year 2017-2018 and \$324,796 for fiscal year 2018-2019 to fund one full-time equivalent (1.0 FTE) program coordinator position and one full-time equivalent (1.0 FTE) inspector position within the Department of Agriculture for the pilot program.

The Department of Agriculture and Kihei Community Association submitted written comments in support of this measure.

The Department of Budget and Finance submitted written comments on this measure.

Your Committee finds that that Act 228, Session Laws of Hawaii 2016, established an industrial hemp pilot program to authorize the cultivation of industrial hemp and distribution of its seed in Hawaii through limited activities by licensee-agents of the Board of Agriculture for purposes of agricultural or academic research. Your Committee further finds that although the industrial hemp pilot program has been developing administrative rules, the provisions of this measure would facilitate the program's commencement.

Your Committee has amended this measure by:

- (1) Replacing the amounts appropriated with unspecified sums;
- (2) Replacing the number of funded positions with unspecified numbers; and
- (3) Changing its effective date to March 9, 2092, for the majority of the measure and to July 1, 2092, for section 4, to facilitate further discussion.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 773, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 773, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 8. Noes, none. Excused, 3 (Dela Cruz, English, Kahele).

SCRep. 682 Commerce, Consumer Protection, and Health on S.B. No. 708

The purpose and intent of this measure is to prohibit:

- (1) The creation of a condominium property regime on agricultural land twenty-five acres or greater;
- (2) A condominium property regime on agricultural land from being amended to allow a single-family dwelling;
- (3) The subdivision of agricultural land twenty-five acres or greater for the purpose of creating a condominium property regime; and

- (4) Any project consisting of single-family dwellings created as a condominium or a planned community association in class A or B agricultural lands.

Your Committee received testimony in support of this measure from the Department of Agriculture, Americans for Democratic Action – Hawai‘i, Sierra Club of Hawai‘i, and ten individuals. Your Committee received testimony in opposition to this measure from the Office of Planning; Hawaii Cattlemen’s Council, Inc.; PonoHolo Ranch Ltd; Larry Jefts Farms, LLC; Kukaiau Ranch LLC; Maui Cattle Company, LLC; Land Use Research Foundation of Hawaii; and five individuals. Your Committee received comments on this measure from the Land Use Commission.

Your Committee finds that a condominium property regime is an alternative to the subdivision of a parcel of land. When applied to agricultural land, it can theoretically result in a larger contiguous area available for farming than what would be available under a subdivision. However, without sufficient controls, monitoring, and enforcement, condominium property regimes have resulted in the establishment of “gentleman farms” where farm dwellings are constructed but not connected to a farm or agricultural activity that provides income to the family occupying the dwelling.

Your Committee further finds that there are serious concerns regarding the encroachment of low-density, higher-valued residential uses on Hawai‘i’s agricultural lands. However, according to testimony received by your Committee, a blanket prohibition on the use of condominium property regimes on agricultural land to address residential encroachment may eliminate the condominium property regime as an important tool for legitimate farmers. Agricultural condominium property regimes can lower costs to farmers, farm cooperatives, or other farm entities by making it easier to access agricultural lands and reducing the cost of agricultural infrastructure and operations. Amendments to this measure are therefore necessary to ensure that large-scale agriculture remains viable in the State.

Accordingly, your Committee has amended this measure by:

- (1) Specifying that the prohibitions on creation of condominium property regimes shall only apply in any county where one-third or less of the county’s land is classified in the state agricultural district; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 708, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 708, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 1 (Ruderman).

SCRep. 683 Ways and Means on S.B. No. 1313

The purpose and intent of this measure is to establish a statewide agricultural development and food resiliency strategy and goals.

Specifically, this measure:

- (1) Requires the Department of Agriculture to establish a strategy and identify goals for increased food security and self-sufficiency in Hawaii; and
- (2) Appropriates funds to:
 - (A) Promote locally grown food;
 - (B) Expand and improve branding of locally grown food;
 - (C) Promote farmers markets;
 - (D) Establish a farm to school pilot program in charter schools;
 - (E) Develop good agricultural practices for school gardens;
 - (F) Establish specialists to certify farm food safety;
 - (G) Develop regional agriculture infrastructure master plans; and
 - (H) Restore food inspection, pest control, biosecurity, market research, and agricultural statistics positions.

Your Committee received written comments in support of this measure from the Office of Planning, the Department of Agriculture, the University of Hawaii System, Hawaii Farm Bureau, and Ulupono Initiative.

Your Committee finds that Hawaii imports approximately ninety-two per cent of its food. Your Committee further finds that requiring the Department of Agriculture to establish a plan to increase production and demand for local food and providing funding for various agricultural programs will help to increase the amount of local food consumed in the State, reduce Hawaii’s reliance on imported food, and create jobs.

Your Committee has amended this measure by:

- (1) Changing the effective date to March 9, 2022, to facilitate further discussion on the measure; and
- (2) Making technical nonsubstantive amendments for purposes of style, clarity, and consistency.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1313, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1313, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 10. Noes, none. Excused, 1 (Dela Cruz).

SCRep. 684 Ways and Means on S.B. No. 7

The purpose and intent of this measure is to require the Department of Human Services to review and report on its Hawaii pathways project.

Specifically, this measure requires the Department of Human Services to:

- (1) In collaboration with the Department of Health, review the progress of the Hawaii pathways project pilot and continue to pursue efforts to utilize Medicaid to provide supportive housing services for chronically homeless individuals; and
- (2) Report to the Legislature regarding the status of its efforts.

Your Committee received written comments in support of this measure from the Department of Human Services, Hawaii Pacific Health, and three individuals.

Your Committee received written comments on this measure from the Governor's Coordinator on Homelessness.

Your Committee finds that the homelessness epidemic is one of the most significant and challenging problems facing the State. For many individuals with complex health issues, housing instability can be a significant barrier to receiving regular health care access, which results in the excessive use of emergency room, inpatient, and crisis services. Providing the chronically homeless with supportive housing services can lessen the burden facing the State's health care system.

Your Committee further finds that the Department of Human Services and Department of Health have initiated a project to target supportive housing services for certain chronically homeless individuals. While the project is still new, it has proven successful in meeting the housing and health care needs of its participants. Status reports of the project will provide the Legislature with the information necessary to develop a comprehensive strategy to combat the State's homeless epidemic.

Your Committee has amended this measure by inserting an appropriation for an unspecified amount, with a federal matching funds requirement, to be expended by the Department of Human Services for the purposes of the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 7, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 7, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 9. Noes, none. Excused, 2 (Inouye, Wakai).

SCRep. 685 (Joint) Judiciary and Labor and Ways and Means on S.B. No. 1105

The purpose and intent of this measure is to:

- (1) Expand the types of rental housing projects that can be exempt from general excise taxes; and
- (2) Allow the terms of collective bargaining agreements and associated provisions to be deemed the prevailing wages and terms serving as the basis of compliance with chapter 104, Hawaii Revised Statutes, for the construction of certain rental housing projects.

Your Committees received testimony in support of this measure from the Department of Labor and Industrial Relations, Hawaii Housing Finance and Development Corporation, Hawai'i Construction Alliance, Hawaii Rental Housing Coalition, and one individual. Your Committees received comments on this measure from the Department of Taxation, Tax Foundation of Hawaii, Hawaii Community Development Authority, and General Contractors Association of Hawaii.

Your Committees find that the State is experiencing a critical shortage of affordable housing. Your Committees further find that private sector construction and development entities have taken steps to improve the economics of building and operating rental housing in Hawaii. This measure supports private development entities that provide affordable housing units by expanding the types of projects that may be exempt from general excise taxes.

Your Committees have amended this measure by:

- (1) Clarifying that the amendments to section 104-2(h), Hawaii Revised Statutes, apply to housing projects and not all public works projects;
- (2) Inserting an effective date of January 7, 2059, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Judiciary and Labor and Ways and Means that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1105, S.D. 1, as amended herein, and recommend that it pass Third Reading in the form attached hereto as S.B. No. 1105, S.D. 2.

Signed by the Chairs on behalf of the Committees.
Judiciary and Labor: Ayes, 3; Ayes with Reservations (Thielen). Noes, none. Excused, 2 (Gabbard, Kim).
Ways and Means: Ayes, 9. Noes, none. Excused, 2 (Inouye, Wakai).

SCRep. 686 Ways and Means on S.B. No. 602

The purpose and intent of this measure is to repeal the requirement that a disabled veteran be in receipt of disability retirement pay in order to qualify for an exemption from the payment of annual vehicle registration fees.

The Office of Veterans Services submitted written comments in support of this measure.

Your Committee finds that the State should honor its disabled veterans. State law currently exempts any disabled veteran from the payment of all annual registration fees for one of the veteran's noncommercial vehicles; provided that the veteran satisfies certain conditions. One of the conditions requires the veteran to be in receipt of disability retirement pay. Your Committee believes that the removal of this unnecessary condition will allow more disabled veterans to benefit from the exemption.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 602 and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, none. Excused, 3 (Dela Cruz, English, Kahele).

SCRep. 687 Ways and Means on S.B. No. 857

The purpose and intent of this measure is to prohibit employers from denying workers' compensation claims without reasonable cause or during a pending investigation.

In addition, this measure specifies a process for resolving billing disputes between the employer and the medical service provider and assesses a penalty on parties who fail to negotiate in good faith.

Your Committee received written comments in support of this measure from ILWU Local 142 and the Hawaii Chapter of the American Physical Therapy Association.

Your Committee received written comments in opposition to this measure from the Chamber of Commerce Hawaii, General Contractors Association of Hawaii, and Hawaii Insurers Council.

Your Committee received written comments on this measure from the Department of Human Resources Development and the Department of Labor and Industrial Relations.

Your Committee finds that Hawaii's workers' compensation system has been plagued by delays and denials of claims, which exacerbate the recovery of injured workers. Your Committee further finds that employers should be limited in their ability to deny claims pending investigation and be held accountable for processing claims for medical services in a timely manner. Your Committee recommends that the measure's stakeholders work towards a common solution as this measure continues to move through the legislative process.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 857, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, none. Excused, 3 (Dela Cruz, Inouye, Wakai).

SCRep. 688 Ways and Means on S.B. No. 502

The purpose and intent of this measure is to ensure equal access to assisted reproductive technologies.

Specifically, this measure requires insurance coverage of in vitro fertilization procedures for:

- (1) Same-sex couples;
- (2) All women, regardless of marital status; and
- (3) Male-female couples for whom male infertility is the relevant factor.

Your Committee received written comments in support of this measure from the Hawaii State Commission on the Status of Women; LGBT Caucus of the Democratic Party of Hawaii; Kaiser Permanente; American Congress of Obstetricians and Gynecologists, Hawaii Section; Planned Parenthood Votes Northwest and Hawaii; Democratic Party of Hawaii; American Association of University Women - Hawaii; RESOLVE: The National Infertility Association; Hawaii LGBT Legal Association; Healthy Mothers Healthy Babies Coalition of Hawaii; Hawaii Women Lawyers; American Civil Liberties Union of Hawaii; Hawaii Women's Coalition; Advanced Reproductive Medicine and Gynecology; and fourteen concerned citizens.

Your Committee received written comments on this measure from the Hawaii Medical Service Association and Hawaii Association of Health Plans.

Your Committee finds that existing law requires insurance companies to cover a one-time benefit for costs associated with in vitro fertilization procedures, but only if a patient's oocytes are fertilized with the patient's spouse's sperm. Insurance companies are not required to provide this benefit to same-sex couples and unmarried women. Consequently, these individuals bear the full cost of the procedures, which are about \$10,000 to \$15,000 per cycle. Current law also does not require coverage of male-female couples for whom male infertility is the relevant factor. Your Committee finds that this measure will address these inequalities and ensure that individuals seeking medical fertility assistance are not discriminated against on the basis of sex, sexual orientation, or marital status.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 502, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, 4 (Dela Cruz, Inouye, Kahele, Shimabukuro).

SCRep. 689 Ways and Means on S.B. No. 1104

The purpose and intent of this measure is to authorize the issuance of special purpose revenue bonds to assist Maui All Natural Alternative, LLC, with the development of a project to provide municipal sludge processing and renewable energy at the Wailuku-Kahului wastewater reclamation facility on Maui.

Your Committee received comments in support of this measure from the Mayor of the County of Maui; Ulupono Initiative; Alexander & Baldwin, Inc.; Maui All Natural Alternative, LLC; and one concerned citizen.

Your Committee received comments on this measure from the Department of Budget and Finance.

Your Committee finds that this measure authorizes special purpose revenue bonds to assist in the creation of a public purpose project that will provide municipal sludge processing and renewable energy production. The facility created from this project will generate biomethane from the anaerobic digestion of purpose grown energy crops that will be cultivated on former sugar cane land. Your Committee believes that this project will keep former sugar cane lands in active agricultural production while promoting the growth of renewable energy.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1104 and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, none. Excused, 3 (Dela Cruz, English, Kahele).

SCRep. 690 Ways and Means on S.B. No. 441

The purpose and intent of this measure is to increase transparency in the electioneering communication disclosure process.

Specifically, the purpose of this measure is to:

- (1) Require that electioneering disclosure statements be made within twenty-four hours after an electioneering communication, instead of within twenty-four hours of when payment for the communication is made;
- (2) Expand the definition of electioneering communication to include all advertisements sent by mail, instead of only those sent at the bulk mailing rate; and
- (3) Remove the exemption of communications that constitute expenditures from the definition of electioneering communication.

Your Committee received written comments in support of this measure from the Campaign Spending Commission and Common Cause Hawaii.

Your Committee finds that the time period between when an electioneering communication is made to the public and when it is paid for can vary greatly. Your Committee further finds that requiring electioneering disclosure statements to be filed within twenty-four hours of when the electioneering communication is publicly distributed, rather than when the communication is paid for, will establish consistency and promote transparency in the election process.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 441, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, none.

SCRep. 691 Judiciary and Labor on S.B. No. 145

The purpose and intent of this measure is to amend the requirements for fitness to proceed examinations when the defendant is in custody or on release by clarifying that the defendant may, without a court order, be transferred, rather than committed, to a hospital or other suitable facility pursuant to the law regarding the transfer of residents of correctional facilities or any agreement entered into between the Department of Health and the Department of Public Safety regarding the transfer of detainees of community correctional centers, when necessary.

Your Committee received testimony in support of this measure from the Department of Health. Your Committee received testimony in opposition to this measure from the Department of Public Safety. Your Committee received comments on this measure from the Hawaii Disability Rights Center.

Your Committee finds that it is important to pursue initiatives that promote the safe, effective, and efficient delivery of mental health supports and forensic evaluations. Currently, no clearly defined criteria exist for determining whether it is necessary to transfer a defendant to a hospital to receive a pretrial forensic evaluation. Instead, the court has discretion in the matter, but there is no mental health professional appointed at that juncture in the court proceedings to assess the level of care a defendant might need. This measure clarifies existing law to ensure that transfers to state facilities for evaluation and treatment occur when there is a need for acute hospital level psychiatric treatment for mental illness.

Your Committee notes that while the effective date of this measure is July 1, 2050, the amendments made to section 704-404(2), Hawaii Revised Statutes, are intended to become effective on July 1, 2018, to correspond with the effective date of section 5 under Act 231, Session Laws of Hawaii 2016.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 145, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Gabbard, Thielen).

SCRep. 692 Ways and Means on S.B. No. 663

The purpose and intent of this measure is to increase the fine for speeding in a school zone or construction area.

Your Committee received written comments in support of this measure from the Department of Transportation, Maui Police Department, Kihei Community Association, Hawaii Construction Alliance, and Hawaii Strategic Highway Safety Plan.

Your Committee finds that school zones and construction areas have significant pedestrian traffic. Setting higher fines for speeding violations is one method to deter motorists from operating vehicles at dangerous speeds that threaten the vulnerable pedestrians who frequent these areas.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 663 and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 9; Ayes with Reservations (Riviere). Noes, none. Excused, 2 (Dela Cruz, Taniguchi).

SCRep. 693 (Joint) Judiciary and Labor and Ways and Means on S.B. No. 1177

The purpose and intent of this measure is to establish common interest agricultural communities.

Your Committees received testimony in support of this measure from the Hawaii Farm Bureau and one individual. Your Committees received comments on this measure from the Department of Agriculture and Office of Planning.

Your Committees find that the proper use of agricultural land has been of concern to the State for decades, particularly in cases where residential structure violations have occurred. Common interest agricultural communities may provide a solution for Hawaii's farmers to farm agricultural land and share agricultural infrastructure and other resources in an economically viable way, while establishing greater accountability to ensure proper land use.

As affirmed by the records of votes of the members of your Committees on Judiciary and Labor and Ways and Means that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1177, S.D. 1, and recommend that it pass Third Reading.

Signed by the Chairs on behalf of the Committees.

Judiciary and Labor: Ayes, 3; Ayes with Reservations (Thielen). Noes, none. Excused, 2 (Gabbard, Kim).

Ways and Means: Ayes, 9. Noes, none. Excused, 2 (Inouye, Wakai).

SCRep. 694 Transportation and Energy on S.B. No. 283

The purpose and intent of this measure is to rename Mokulele Highway the Maui Veterans Highway.

Your Committee received testimony in support of this measure from the State Office of Veterans' Services and three individuals.

Your Committee finds that Maui has no major roadways commemorating veterans and their role in Maui's history. During World War II, Maui became a forward training center for the war in the Pacific. Many of Maui's beaches were used to rehearse the invasion of Guadalcanal.

Your Committee further finds that Maui's Puunene Airport was built in 1938 by the Territory of Hawaii. In 1940, the United States Navy started using the airport as a base for the Navy's utility squadron VJ-3. The base was commissioned as "Naval Air Station Maui" in 1942. When the Navy built a larger airport at Kahului, it was renamed Puunene Naval Air Station. Puunene Naval Air Station was used for fighter plane training and a base for small planes which towed targets for practice and retrieved the parachutes of target flares. Puunene Naval Air Station was used by the United States Navy and the United States Army. After the war, Puunene Naval Air Station was transferred back to the Territory of Hawaii.

Your Committee additionally finds that there are approximately 9,451 veterans living on Maui. In addition, Mokulele Highway passes along the former location of the Puunene Airport, and the Maui Army National Guard Puunene Armory is located just off the highway, which taken together, gives Mokulele Highway a symbolic connection to Maui's military history.

Your Committee further finds that the heroic veterans living on Maui should be remembered for their sacrifice to our country by naming a highway in their honor.

As affirmed by the record of votes of the members of your Committee on Transportation and Energy that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 283 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (English, Shimabukuro).

SCRep. 695 Commerce, Consumer Protection, and Health on S.B. No. 667

The purpose and intent of this measure is to exempt nonprofit organizations and their employees from mortgage servicer licensing and regulations.

Your Committee received testimony in support of this measure from the Hawaii Habitat for Humanity Association; Hawai'i Home Ownership Center Mortgage; Habitat for Humanity West Hawaii, Inc.; and three individuals. Your Committee received testimony in opposition to this measure from the Department of Commerce and Consumer Affairs. Your Committee received comments on this measure from one individual.

Your Committee finds that this measure exempts nonprofit organizations from the State's mortgage servicer law. Your Committee has heard the concerns that this measure will create a regulatory gap at the state level that would be detrimental to Hawaii's mortgage consumers. Regulation of mortgage activity consists of a robust level of regulation at the federal level and equally robust and complementary regulation at the state level. Testimony received by your Committee noted that certain nonprofit organizations are considered small servicers by the Federal Deposit Insurance Corporation and the Consumer Financial Protection Bureau and are thus exempt from certain rules that larger servicers must follow. However, the viability of the federal Consumer Financial Protection Bureau and its rules are currently in question, due to the ongoing changes at the federal level. The current administration has also launched a sweeping review of the federal Dodd-Frank Act rules, which potentially signals a desire to significantly scale back the federal regulatory system and weaken or dismantle the Consumer Financial Protection Bureau. With the uncertainty at the federal level, the Division of Financial Institutions of the Department of Commerce and Consumer Affairs indicated to your Committee its strong concerns regarding the potential removal of nonprofit organizations from state level regulation.

The Division of Financial Institutions also noted that exemption from the mortgage servicer law would mean that if an issue developed between a borrower and an exempt nonprofit mortgage servicer, the borrower could not request the Division's assistance even if payments were misapplied or lost, requests for loss mitigation went unheeded, or an unlawful foreclosure were in process. Although your Committee understands the nonprofit organization that testified before your Committee has not received any consumer complaints in Hawaii, your Committee is compelled to note that any proposed exemption from the mortgage servicer law would affect every nonprofit in the State.

Your Committee is sympathetic to the concerns raised in testimony by the nonprofit organizations and believes that certain amendments to the mortgage servicer law, which would not amount to full exemption, can be made. The Division of Financial Institutions indicated to your Committee that nonprofit mortgage loan origination companies pay a different application and renewal license fee than for-profit companies. The Division also indicated that it regulates companies under the mortgage loan origination law based on a company's particular business license. Thus, a nonprofit organization who is registered under the mortgage loan originator law is regulated under a so-called "light" regulation, which does not require compliance with everything required of a for-profit corporation, as these business models differ. Your Committee concludes that a similar "light" regulation under the mortgage servicers law can apply to nonprofit organizations, which will alleviate some of the compliance-related concerns expressed by the nonprofit organizations, while also maintaining appropriate consumer protections for Hawaii's mortgage consumers.

Accordingly, your Committee has amended this measure by:

- (1) Requiring mortgage servicer licensees to establish an education program that includes development of internal policies, procedures, and controls and an ongoing employee training program;
- (2) Inserting a definition of "nonprofit organization" under the State's mortgage servicer law;
- (3) Lowering the application fee and renewal license fee for nonprofit corporations under the State's mortgage servicer law;
- (4) Deleting language that would have exempted nonprofit organizations and their employees from the licensing and regulations of mortgage services;
- (5) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 667, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 667, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 2 (Kidani, Ruderman).

SCRep. 696 Commerce, Consumer Protection, and Health on S.B. No. 286

The purpose and intent of this measure is to increase certain consumer protection aspects of the deferred deposit loan industry, including:

- (1) Specifying that a customer has the right to rescind a deferred deposit if certain conditions are met;
- (2) Permitting customers to convert a deferred deposit into an installment loan plan in certain circumstances and specifying requirements for the installment loan plan;
- (3) Protecting against harmful collection practices;
- (4) Defining annual percentage rate;
- (5) Requiring a check casher to provide a written agreement to a customer, which clearly discloses specific information associated with the deferred deposit;
- (6) Capping the annual percentage rate at thirty-six percent for deferred deposit of a personal check; and
- (7) Permitting prepayment of deferred deposit agreements with no additional fees.

Your Committee received testimony in support of this measure from the Department of Commerce and Consumer Affairs, Office of Consumer Protection; Office of Hawaiian Affairs; FACE Hawaii; Consumers Union; Hawai'i Alliance for Community-Based Economic Development; Hawai'i Appleseed Center for Law and Economic Justice; and Hawaiian Community Assets. Your Committee received testimony in opposition to this measure from the Money Service Centers of Hawaii, Inc.; Dollar Financial Group, Inc.; and Maui Loan, Inc.

Your Committee finds that deferred deposit agreements, commonly referred to as payday loans, are small, short term, unsecured loans that borrowers commit to repay from their next paycheck or a regular income payment. Although alternative financial services can be important vehicles for providing credit to low-income individuals, research from the National Consumer Law Center has shown that regulation is essential to ensure that households using alternative financial services for basic necessities are not further trapped in cycles of debt and poverty. According to testimony received by your Committee, research by the Center for Responsible Lending shows that only two percent of borrowers were able to pay off a payday loan the first time and the average payday loan borrower remains in debt for double the length of time recommended by the Federal Deposit Insurance Corporation. Furthermore, the Consumer Financial Protection Bureau found that four out of five payday loans are rolled over or renewed and, due to high rates and frequent rollovers, three out of five payday loans are made to borrowers whose fees exceed the original amount borrowed.

Your Committee further finds that there is a growing trend around the country to provide more consumer protections for deferred deposit loans. Accordingly, this measure provides a number of critical protections for consumers who take out deferred deposit agreements, including a right to rescind, a right to convert a deferred deposit agreement to an installment loan, protection against harmful collection practices, improved loan disclosures, and prohibitions on prepayment penalties.

This measure also caps the annual percentage rate of deferred deposit agreements at thirty-six percent. According to testimony received by your Committee, in the past few years, eighteen jurisdictions have either capped deferred deposit agreements at thirty-six percent or banned these types of loans completely. The thirty-six percent cap also follows precedent established by the federal government, who in 2006 made it illegal to charge more than a thirty-six percent annual percentage rate on payday loans to active-duty service members and their families. Your Committee additionally finds that there are a number of safe, regulated, small dollar loans with interest rates far below the rates currently charged for deferred deposit agreements. Furthermore, research from the Federal Deposit Insurance Corporation has indicated that small dollar lenders can safely lend at an annual percentage rate of thirty-six percent or less.

Your Committee has amended this measure by:

- (1) Clarifying that the loan payment terms for loan installment plan agreements shall be:
 - (A) A period of at least ninety days, but no more than one hundred eighty days, for a loan amount of \$400 or less; and
 - (B) A period of no more than one hundred eighty days for a loan amount over \$400;
- (2) Requiring a check casher to post a notice informing customers that additional options may be available for safe, regulated, lower-cost, small dollar loans; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 286, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 286, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 2 (Kidani, Ruderman).

SCRep. 697 Commerce, Consumer Protection, and Health on S.B. No. 387

The purpose and intent of this measure is to require a health carrier with a network plan to maintain a network that is sufficient in numbers and appropriate types of providers, to ensure that covered persons under a health benefit plan have access to covered services.

Your Committee received testimony in support of this measure from the Department of Commerce and Consumer Affairs, Hawaii Medical Service Association, Kaiser Permanente Hawaii, and Hawaii Psychiatric Medical Association. Your Committee received comments on this measure from the Department of Human Services.

Your Committee finds that the federal Patient Protection and Affordable Care Act of 2010 requires that health plans participating in qualified health plans meet network adequacy standards to ensure consumers have access to needed care without unreasonable delay. In November 2015, the National Association of Insurance Commissioners (NAIC) adopted a new Network Adequacy Model Act (Model Act) that established standards for the creation and maintenance of health plan networks and to assure the adequacy, accessibility, transparency, and quality of health care services offered under a network plan.

Your Committee further finds that this measure is Hawaii's adaptation of the NAIC's Model Act and is the product of a working group established by the Insurance Commissioner to create network adequacy policies that balance the realities of Hawaii's unique provider base with a health plan's ability to provide its members with proper access to a sufficient number of in-network primary care and specialty providers.

Your Committee has heard testimony expressing concern over this measure's potential impact on health plans that serve Medicaid beneficiaries. Your Committee notes that such health plans already have network adequacy standards that must meet the criteria of the Department of Human Services' State Medicaid program and criteria of the federal Centers for Medicare & Medicaid Services. Amendments to this measure are therefore necessary to ensure that the State remains compliant with the federal Centers for Medicare & Medicaid Services and that health plans who contract with the Department of Human Services' Med-QUEST Division are not over regulated with potentially conflicting network adequacy standards.

Your Committee has amended this measure by:

- (1) Clarifying that it does not apply to limited benefit health insurance, as provided in section 431:10A-102.5, Hawaii Revised Statutes, except limited scope dental plans or limited scope vision plans;
- (2) Clarifying that Medicaid managed care plans are exempt and shall continue to be subject to the network provider adequacy standards and oversight of the state and federal Medicaid programs;

- (3) Specifying that the Insurance Commissioner has the discretion to determine network sufficiency by considering any reasonable criteria, rather than requiring the Commissioner to consider all specified criteria, regardless of applicability;
- (4) Clarifying that a health carrier shall be responsible for ensuring that a participating provider is furnishing covered benefits to all covered persons; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

Your Committee notes that testimony from the Department of Commerce and Consumer Affairs requested the addition of two sections of NAIC's Model Act, relating to filing requirements and state administration and contracting; however, the requested language was not included in this amended measure. Your Committee believes additional discussions between interested stakeholders may be warranted regarding whether to incorporate these sections from the Model Act as it moves through the legislative process.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 387, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 387, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 2 (Kidani, Ruderman).

SCRep. 698 Commerce, Consumer Protection, and Health on S.B. No. 372

The purpose and intent of this measure is to:

- (1) Clarify that the Insurance Commissioner shall ensure that each motor vehicle insurer has made satisfactory arrangements for claims services and adjustment and for policies sold or issued to consumers in the State; and
- (2) Remove the requirement for a physical sales and claims service office in the State.

Your Committee received testimony in support of this measure from State Farm Mutual Automobile Insurance Company. Your Committee received testimony in opposition to this measure from the Department of Commerce and Consumer Affairs.

Your Committee finds that the State's motor vehicle insurance code currently requires insurers to maintain a physical sales and claims office in Hawaii. However, many products and services traditionally accessed at a physical office can now be obtained digitally through mobile smart phone or internet technology. For example, many insurance applications can now be submitted electronically, claims forms and damage photos can be submitted digitally, and claims adjusters are now able to communicate with claimants and body shops via computer or the telephone. Accordingly, this measure is intended to modernize sales and claims handling for motor vehicle insurance by removing the requirement for motor vehicle insurers to maintain a physical sales and claims service office in the State, while still reserving the power of the Insurance Commissioner to ensure that adequate arrangements have been made for claims service and adjustment.

However, your Committee has heard the concerns that Hawaii's isolated geography necessitates a field presence in the State. According to testimony received by your Committee, requiring insurers to maintain a physical presence in the State assures policyholders of convenient access and prompt claims adjustment that are not dependent on whether a mainland or other remote call center will answer a policyholder's calls. Your Committee understands these concerns and concludes that amendments to this measure are therefore necessary.

Your Committee has amended this measure by:

- (1) Clarifying that motor vehicle insurers are required to maintain at least one physical sales and claims service office in each county;
- (2) Requiring the Insurance Commissioner to submit an annual report to the Legislature prior to each regular session from the Regular Session of 2018 to the Regular Session of 2022, regarding any consumer complaints received as a result of changing the requirements for motor vehicle insurers to maintain a field presence in Hawaii;
- (3) Inserting an effective date of July 1, 2050, to encourage further discussion, and inserting a five-year sunset date of June 30, 2022;
- (4) Updating the purpose section; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 372, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 372, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 2 (Kidani, Ruderman).

SCRep. 699 Commerce, Consumer Protection, and Health on S.B. No. 392

The purpose and intent of this measure is to clarify that when a standard proxy form is returned with no boxes checked or more than one box checked, the proxy shall be deemed defective and shall be counted for quorum purposes only.

Your Committee received testimony in support of this measure from Associa, Hawaii Council of Associations of Apartment Owners, Hui 'Oia'i'o, and three individuals. Your Committee received testimony in opposition to this measure from Hawaiian Properties, Ltd.; and two individuals. Your Committee received comments on this measure from the Hawaii State Association of Parliamentarians and Hawaii Chapter of the Community Associations Institute Legislative Action Committee.

Your Committee finds that existing law on voting pursuant to a proxy at a meeting of a condominium association specifies that a standard proxy form must contain boxes for a condominium owner to check and indicate how a proxy is given. Proxy forms may sometimes be returned to an association's secretary or managing agent with more than one box checked, or with nothing marked on the proxy form, which may lead to confusion over how the proxy should be counted. This measure attempts to clarify how proxies should be counted, when the proxies are returned with no boxes checked or more than one box checked.

However, your Committee has heard testimony that existing statutory language on voting pursuant to a proxy also requires a standardized proxy form to contain a box indicating that an owner wishes to obtain a copy of an association's annual audit report. According to testimony received by your Committee, this measure, as currently written, could be construed to deem a proxy defective any time an owner checks the audit box on a proxy form, in addition to a box that indicates how an owner would like the owner's proxy to be given. Amendments to this measure are therefore needed to address these concerns.

Your Committee has amended this measure by:

- (1) Clarifying that when a standard proxy form is authorized by an association, and the proxy is returned with no box or more than one box checked that relates to how an owner may indicate a proxy is given, the proxy shall be counted for quorum purposes only; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 392, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 392, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Kidani, Nishihara, Ruderman).

SCRep. 700 Ways and Means on S.B. No. 725

The purpose and intent of this measure is to expressly prohibit the use of general obligation or revenue bond proceeds to pay for the unfunded pension or other post-employment benefit liabilities accrued for state employees and retirees.

Your Committee received comments on this measure from the Department of Budget and Finance and the Department of the Attorney General.

Your Committee has serious reservations about using bond proceeds to pay down the State's unfunded liabilities, but has decided to move this measure forward in an amended form. This decision is based on the Department of Budget and Finance's belief that use of bond proceeds to fund, to some degree, the State's unfunded pension or healthcare liabilities should be retained as an option, because the bond market and counter-investment market may change in the future.

Accordingly, your Committee has amended this measure by:

- (1) Replacing references to a prohibition on the use of bond proceeds with language that restricts their use;
- (2) Specifying that bond proceeds shall not be used to pay for the unfunded pension or other post-employment benefit liabilities accrued for state employees and retirees, except by a bill approved on final reading by a two-thirds majority vote of the members to which each house of the legislature is entitled; and
- (3) Changing the effective date from July 1, 2017, to August 30, 2050, to facilitate further discussion on the measure.

Your Committee is aware that restricting future legislatures or requiring a supermajority vote for passage of legislation that authorizes a bond issuance may raise constitutional concerns. Despite this issue, your Committee has inserted the supermajority vote requirement for further discussion and, more importantly, to send a message on your Committee's serious reservations about using bond proceeds to pay unfunded liabilities.

Your Committee recommends that the Department of the Attorney General address the possible constitutional problem with the supermajority vote issue, should the measure be considered by subsequent committees.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 725, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 725, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, none. Excused, 3 (Galuteria, Harimoto, Kahele).

SCRep. 701 Commerce, Consumer Protection, and Health on S.B. No. 104

The purpose and intent of this measure is to clarify the procedures to amend condominium association declarations, bylaws, and other governing instruments.

Your Committee received testimony in support of this measure from the American Heart Association, Hawai'i Public Health Institute, and two individuals. Your Committee received testimony in opposition to this measure from the Hawaii State Association of Parliamentarians, Hawaii Council of Associations of Apartment Owners, Associa, Hui 'Oia'i'o, and thirteen individuals. Your Committee received comments on this measure from one individual.

Your Committee finds that under existing law, sixty-seven percent of all owners within a one-year time frame must vote in favor of a bylaw in order for it to pass. However, bylaw amendments often fail because of poor ballot returns. For example, your Committee has heard testimony that members of a condominium association have been repeatedly unable to amend their bylaws to pass non-

smoking policies due to owner apathy or ballot non-return. This measure attempts to address this issue by lowering the threshold for the vote required to change a condominium's governing documents.

However, your Committee has heard testimony that lowering this threshold requirement could result in unintended consequences. Your Committee notes that a condominium's declaration and bylaws function as the governing foundation for day to day life at condominiums. Your Committee has heard the concerns that lowering the threshold to amend these documents could lead to instability within a condominium, especially if a proposed amendment to a governing document was of a material nature, or otherwise affected the viability or stability of a condominium association, such as amendments affecting voting rights, increases in assessments, responsibility for maintenance and repairs, or hazard and fidelity insurance requirements. Your Committee understands these concerns and concludes amendments to this measure are necessary.

Your Committee has amended this measure by:

- (1) Clarifying that the procedures to amend condominium association declarations, bylaws, and other governing documents shall only apply to those proposed amendments that are not of a material adverse nature to condominium owners or do not imperil the viability or stability of the association;
- (2) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 104, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 104, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 2 (Ihara, Ruderman).

SCRep. 702 Commerce, Consumer Protection, and Health on S.B. No. 151

The purpose and intent of this measure is to enable condominium associations to adopt rules and regulations that require unit owners to prohibit smoking inside a condominium unit as part of a lease agreement.

Your Committee received testimony in support of this measure from the Department of Health and two individuals. Your Committee received testimony in opposition to this measure from the Hawaii Smokers Alliance, Associa, and twenty-two individuals. Your Committee received comments on this measure from the Department of the Attorney General and Hawaii Council of Associations of Apartment Owners.

Your Committee finds that individuals who live in multi-unit housing are susceptible to involuntary exposure to secondhand smoke, especially in Hawaii because of the State's relatively high volume of multi-unit housing dwellers. Secondhand smoke exposure is causally linked to adverse health outcomes among non-smokers, including heart disease, stroke, and lung cancer, and increased risk of severe asthma attacks, respiratory infections, ear infections, and sudden infant death syndrome in children. Although smoke-free multi-unit housing policies protect residents of public housing in Hawaii, the affordable and market-rate sector lack adequate comprehensive protections against secondhand smoke.

Your Committee further finds that, because renters are not a protected class and smoking is not a protected activity, this measure does not implicate the Fair Housing Act, which prohibits discrimination in the sale, rental, and financing of dwellings and in other housing-related transactions based on race, color, national origin, religion, sex, familial status, and disability.

Your Committee has amended this measure by:

- (1) Inserting language that allows condominium associations to also adopt rules that prohibit smoking on lanais and in all common elements;
- (2) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 151, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 151, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 2 (Ihara, Ruderman).

SCRep. 703 Commerce, Consumer Protection, and Health on S.B. No. 1077

The purpose and intent of this measure is to clarify that a mutual benefit society shall maintain a minimum net worth calculated based on annual net premium revenues and net health care expenditures.

Your Committee received testimony in support of this measure from the Hawaii Medical Assurance Association, Reinsurance Association of America, and Property Casualty Insurers Association of America. Your Committee received testimony in opposition to this measure from the Department of Commerce and Consumer Affairs.

Your Committee finds that this measure requires calculation of a mutual benefit society's annual premium revenues, annual health care expenditures, and annual operating expenses on a net basis when determining the mutual benefit society's minimum net worth for purposes of protecting against insolvency.

According to testimony received by your Committee, the use of gross premiums to calculate minimum net worth requirements may not reflect the actual risk retained by a mutual benefit society, which can remove a key incentive for a mutual benefit society to enter into a reinsurance agreement and reduce the benefits of ceding risk. Your Committee also heard testimony that gross premium calculations can cause an avoidance of the use of industry-accepted risk mitigation tools to spread risk, increase financial uncertainty for a mutual benefit society, and diminish economic growth. However, according to testimony from the Department of Commerce and Consumer Affairs, the statutory requirements for calculating a mutual benefit society's minimum net worth intend a gross, rather than net, calculation, as a mutual benefit society is ultimately responsible for all liabilities should its reinsurer fail. Furthermore, the minimum net worth is easier to manipulate if reinsurance recoveries are included in the calculation.

Although your Committee acknowledges the importance of competition in the insurance marketplace and remains sympathetic to the concerns raised by the mutual benefit societies in testimony, your Committee is concerned that this measure would result in lower amounts of mandatory reserve requirements, which are needed to protect the interests of mutual benefit society members in case of insolvency. Amendments to this measure are therefore necessary.

Your Committee has amended this measure by:

- (1) Clarifying that a mutual benefit society's minimum net worth shall be based on gross, rather than net, annual premium revenues and gross, rather than net, annual health care expenditures and operating expenses; and
- (2) Inserting an effective date of July 1, 2050, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1077, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1077, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 2 (Ihara, Ruderman).

SCRep. 704 Commerce, Consumer Protection, and Health on S.B. No. 1264

The purpose and intent of this measure is to:

- (1) Allow security guards to meet all registration, instruction, and training requirements within sixty days of the first day of employment; and
- (2) Require security guard registration renewal to be no sooner than two years from an applicant's completion of initial registration.

Your Committee received testimony in support of this measure from Securitas Security Services USA, Inc.; and three individuals. Your Committee received testimony in opposition to this measure from the Board of Private Detectives and Guards.

Your Committee finds that this measure provides a sixty-day grace period during which security guards can be employed in a security guard capacity while awaiting completion of registration, instruction, and training requirements. However, your Committee has heard the concerns raised by the Board of Private Detectives and Guards (Board) that this measure will allow any person to act as a guard without first being vetted by the Board to determine that all statutory requirements have been met, including the criminal history record check. According to testimony received by the Board, since the Board started its online application process in May 2016, the Board has found the criminal history record check to be one of the most important and informative steps in the application process, which often reveals essential criminal or conviction information about an applicant. Your Committee is concerned that this measure potentially exposes the public to harm and could expose the State to liability, if a member of the public was harmed by an individual working as a guard prior to a completed application review by the Board.

Your Committee further finds that this measure would also permit variable renewal dates based on an applicant's date of initial registration. According to the Board, a statutorily specified date enables an across-the-board renewal process, the use of online renewals, and a random audit to determine compliance with continuing education requirements. This measure could therefore add significant administrative burdens to the Board and the Department of Commerce and Consumer Affairs (Department).

Your Committee recognizes the difficulties that security guard companies face in trying to maintain adequate numbers of licensed security guards who can meet client expectations. Your Committee notes that the Department and the Board have been working to address the concerns of the security guard industry regarding the registration and renewal process for guard licensure. Furthermore, the Department and interested stakeholders have had an opportunity to discuss potential amendments to this measure that can reduce the time and cost of licensure for security guards and help streamline the registration process without compromising essential consumer protection. Amendments to this measure are therefore necessary to incorporate this compromise language.

Accordingly, your Committee has amended this measure by:

- (1) Allowing for self-attestation of the educational requirement for security guards as part of the application process;
- (2) Reducing the number of hours, from eight to four, of classroom instruction required before a security guard's first day of service;
- (3) Beginning June 30, 2018, reducing the frequency of the four-hour continuing education requirement from every biennial renewal to every other biennial renewal period;
- (4) Authorizing alternative formats for continuing education classroom instruction;
- (5) Removing language that would have permitted a security guard to meet all registration, instruction, and training requirements within sixty days of the first day of employment;

- (6) Removing language that would have permitted security guard registration renewal to be no sooner than two years from an applicant's completion of initial registration;
- (7) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (8) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1264, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1264, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Espero, Ihara, Ruderman).

SCRep. 705 (Joint) Judiciary and Labor and Economic Development, Tourism, and Technology on S.B. No. 488

The purpose and intent of this measure is to allow the court to authorize an individual or entity other than a law enforcement officer to provide technical assistance in executing a search warrant that pertains to an electronic device or storage media.

Your Committees received testimony in support of this measure from the Department of the Attorney General; Department of the Prosecuting Attorney, City and County of Honolulu; and Police Department, City and County of Honolulu.

Your Committees find that existing law requires that a search warrant be executed by a law enforcement officer. However, there are many cases involving electronic evidence where law enforcement officers are unable to execute a search warrant without specialized assistance from non-law enforcement personnel. This measure facilitates more efficient and effective investigations and searches while allowing the judge to set limitations on the manner in which the assistance is provided.

Your Committees have amended this measure by:

- (1) Inserting an effective date of January 7, 2059, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Judiciary and Labor and Economic Development, Tourism, and Technology that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 488, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 488, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chairs on behalf of the Committees.

Judiciary and Labor: Ayes, 5. Noes, none. Excused, none.

Economic Development, Tourism, and Technology: Ayes, 3. Noes, none. Excused, 2 (Baker, Galuteria).

SCRep. 706 Judiciary and Labor on S.B. No. 489

The purpose and intent of this measure is to authorize the Clerk of the Court to grant a single extension of no more than fifteen days for filing with the Supreme Court a response to an application for writ of certiorari upon timely written request of a party; and clarify what constitutes a timely request for an extension.

Your Committee received testimony in support of this measure from the Department of the Prosecuting Attorney, City and County of Honolulu and one individual.

Your Committee finds that this measure ensures that a responding party to an application for writ of certiorari in civil or criminal cases is given equal opportunity to respond to an application.

Your Committee has amended this measure by:

- (1) Replacing references to "opposition" with "response" for purposes of consistency; and
- (2) Inserting an effective date of January 7, 2059, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 489, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 489, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Gabbard, Kim).

SCRep. 707 Judiciary and Labor on S.B. No. 572

The purpose and intent of this measure is to authorize the Office of Information Practices, rather than individual government agencies, to adopt administrative rules regarding agency record protection responsibilities for all state and county agencies that are subject to the Uniform Information Practices Act to uniformly follow and implement.

Your Committee received testimony in support of this measure from the Office of Information Practices and one individual. Your Committee received testimony in opposition to this measure from The Civil Beat Law Center for the Public Interest.

Your Committee finds that existing law authorizes each agency to individually adopt administrative rules to protect agency records and prevent manifestly excessive interference with agency duties. This measure promotes uniformity among agencies that are subject to the Uniform Information Practices Act by authorizing the Office of Information Practices to adopt rules that establish a single standard for agencies to follow.

Your Committee has amended this measure by:

- (1) Inserting an effective date of January 7, 2059, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 572, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 572, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 708 (Joint) Judiciary and Labor and Economic Development, Tourism, and Technology on S.B. No. 798

The purpose and intent of this measure is to establish a temporary Telecommuting Task Force to develop incentives and recommendations to encourage and expand telecommuting opportunities in the public and private sectors.

Your Committees received testimony in support of this measure from the Department of Business, Economic Development, and Tourism; Department of Transportation; and one individual. Your Committees received comments on this measure from the Legislative Reference Bureau.

Your Committees find that the dependence of workers on automobiles for the daily commute to work increases traffic-related congestion on Hawaii's roadways, reduces hours in which employees may be productive on the job, causes employees to spend time commuting rather than with family, and results in the people of Hawaii becoming more dependent on foreign fossil fuel sources, which results in increased carbon emissions. Your Committees also find that telecommuting provides an opportunity for employers to increase employee productivity, decrease use of employee sick leave, increase the labor pool, and improve employee retention; therefore, your Committees find that Hawaii should promote efforts to adopt telecommuting as a workplace alternative.

Your Committees have amended this measure by:

- (1) Clarifying that the members of the Telecommuting Task Force shall collectively appoint a chairperson from amongst themselves; and
- (2) Inserting an effective date of January 7, 2059, to encourage further discussion.

As affirmed by the records of votes of the members of your Committees on Judiciary and Labor and Economic Development, Tourism, and Technology that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 798, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 798, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chairs on behalf of the Committees.

Judiciary and Labor: Ayes, 5. Noes, none. Excused, none.

Economic Development, Tourism, and Technology: Ayes, 3. Noes, none. Excused, 2 (Baker, Galuteria).

SCRep. 709 Judiciary and Labor on S.B. No. 337

The purpose and intent of this measure is to:

- (1) Provide that a candidate committee shall not be required to file a statement of information for an electioneering communication made by a candidate committee that clearly identifies the communication as being paid for by the candidate committee; and
- (2) Repeal the requirement that a candidate committee file a statement of information of the names and addresses of all persons who contributed to the committee or the organization for the purpose of publishing or broadcasting the electioneering communications.

Your Committee received testimony in opposition to this measure from the Campaign Spending Commission.

Your Committee finds that this measure increases efficiency in campaign finance reporting requirements. However, your Committee has concerns regarding whether this measure will reduce transparency in political spending and believes this issue merits further discussion as it moves through the legislative process. Furthermore, your Committee notes that S.B. No. 309, Regular Session of 2017, contains language amending section 11-341, Hawaii Revised Statutes, and believes these two measures have similar purposes.

Accordingly, your Committee has amended this measure by:

- (1) Inserting the contents of S.B. No. 309, Regular Session of 2017, which excludes any advertisement by a candidate or candidate committee from the reporting requirements for electioneering communication, provided that the advertisement is in compliance with the law regarding advertisements;
- (2) Inserting an effective date of January 7, 2059, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 337, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 337, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 3; Ayes with Reservations (Thielen). Noes, none. Excused, 2 (Gabbard, Kim).

SCRep. 710 Judiciary and Labor on S.B. No. 439

The purpose and intent of this measure is to clarify that increased fines may apply if a noncandidate committee fails to timely file a second preliminary general report with the Campaign Spending Commission.

Your Committee received testimony in support of this measure from the Campaign Spending Commission, Common Cause Hawaii, and one individual.

Your Committee finds that Act 79, Session Laws of Hawaii 2015, required noncandidate committees to file an additional preliminary report by October 1 of the year of a general election. This measure makes conforming amendments to make the late filing of a second preliminary general report by noncandidate committees subject to a fine of \$300 per day, which matches the fine imposed on candidate committees that are late in filing preliminary reports.

Your Committee has amended this measure by:

- (1) Clarifying that the monetary fine shall be a maximum of \$300 per day, provided that in the aggregate the fine shall not exceed twenty-five percent of the total amount of contributions or expenditures and a minimum fine of \$300, rather than the aggregate amount only applying to the percentage of the total amount of contributions or expenditures;
- (2) Inserting an effective date of January 7, 2059, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 439, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 439, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 711 (Joint) Government Operations and Commerce, Consumer Protection, and Health on S.B. No. 1068

The purpose and intent of this measure is to authorize procurement officers to consider a subcontractor's license as valid if the subcontractor was licensed to perform the scope of work indicated at the time of the award.

Your Committees received testimony in support of this measure from the Subcontractors Association of Hawaii; Electrical Contractor's Association of Hawaii; General Contractors Association of Hawaii; S & M Sakamoto, Inc.; Hawaiian Dredging Construction Company, Inc.; Healy Tibbitts Builders, Inc.; Nordic PCL Construction, Inc.; LYZ, Inc.; Ralph S. Inouye Co, Ltd; Hawaii Plumbing Group, LLC; Tomco Corp.; and Jayar Construction, Inc. Your Committees received testimony in opposition to this measure from the Department of Transportation, Ironworkers Stabilization Fund, Plumbing & Mechanical Contractors Association of Hawaii, and one individual. Your Committees received comments on this measure from the State Procurement Office, Department of Commerce and Consumer Affairs, and Contractors License Board.

Your Committees find that the competitive sealed bidding process can be improved by clarifying that under certain conditions a subcontractor's licensing status should not result in bid disqualification or rejection. Your Committees note that this measure still requires all listed subcontractors to be properly licensed at the time of the award. Your Committees further find that exempting bids from disqualification or rejection in limited circumstances may minimize bid challenges, costs, and delays of public works projects while maintaining the integrity of the bid process.

Your Committees have amended this measure by:

- (1) Removing the provision allowing a procurement officer to consider a listed subcontractor's license as valid if the subcontractor was licensed to perform the scope of work indicated at the time of award;
- (2) Inserting a provision that if a procurement officer determines that a subcontractor's license is not valid at the time of the bid due to a lapse in continuous insurance and bond coverage, the bid may not be disqualified or rejected if the subcontractor meets certain conditions;
- (3) Inserting a requirement that the procurement officer report any unlicensed activity at the time of the bid to the Contractors License Board; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Government Operations and Commerce, Consumer Protection, and Health that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1068, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1068, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chairs on behalf of the Committees.
Government Operations: Ayes, 3. Noes, none. Excused, 2 (Rhoads, Ruderman).
Commerce, Consumer Protection, and Health: Ayes, 5. Noes, none. Excused, 2 (Ihara, Ruderman).

SCRep. 712 Commerce, Consumer Protection, and Health on S.B. No. 1263

The purpose and intent of this measure is to require principal brokers in a brokerage firm to ensure that:

- (1) Associated real estate licensees and other staff who assist common interest communities are responsive to requests from owners regarding association-related finances, documents, records, and information; and

- (2) Any request from the Real Estate Commission to distribute Commission-generated information, materials, or documents to an association, a board of directors, or a unit owner in a common interest community is completed within ten days after receiving the request.

Your Committee received testimony in support of this measure from the Real Estate Commission, Hui 'Oia'i'o, and two individuals. Your Committee received testimony in opposition to this measure from the Hawai'i Association of REALTORS and Hawaii Council of Associations of Apartment Owners. Your Committee received comments on this measure from Associa.

Your Committee finds that this measure provides an additional measure of protection for owners by requiring the principal broker in a real estate brokerage firm to ensure that associated licensees and other staff who assist with common interest communities are responsive to requests from owners and can assist the Real Estate Commission in distributing Commission-generated information.

Your Committee has heard testimony that boards of directors should be responsible for a decision to produce association-related finances, documents, records, and information or comply with any other mandatory provisions of the State's condominium laws. An amendment to this measure is therefore necessary to clarify that compliance with mandatory provisions of the condominium laws is part of the fiduciary duty a board of directors owes to its association. Your Committee further finds that clearly outlining this duty in statute prevents a board from relying on its managing agent to handle owner requests for documents.

Your Committee has amended this measure by:

- (1) Clarifying that principal brokers shall ensure that all associated real estate licensees and other staff who assist in providing management services for common interest communities are responsive to requests from owners regarding association-related finances, documents, records, and information;
- (2) Clarifying that any violation of a mandatory provision of the State's condominium law by a board or its officers and members is a per se violation of the board's fiduciary duty, but providing a safe harbor provision for a board member who votes for compliance during a board meeting; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1263, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1263, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 2 (Ihara, Ruderman).

SCRep. 713 Commerce, Consumer Protection, and Health on S.B. No. 287

The purpose and intent of this measure is to require all health insurers in the State, including health benefits plans under chapter 87A, Hawaii Revised Statutes, to disclose on their public websites any standards, criteria, or information used for making preauthorization decisions.

Your Committee received testimony in support of this measure from the Department of Commerce and Consumer Affairs, Hawaii Chapter of the American Physical Therapy Association, and one individual. Your Committee received testimony in opposition to this measure from the Hawai'i Association of Health Plans. Your Committee received comments on this measure from the Hawaii Medical Service Association and Hawaii Medical Association.

Your Committee finds that prior approval for medical services, also known as precertification or preauthorization, refers to health insurer requirements that certain physician-ordered treatments or services must be approved in advance by the insurer or by a medical review service contracted by the insurer before the insurer will provide final reimbursement or payment. Requiring a health insurer to make information about the preauthorization process readily accessible for consumers promotes transparency and ensures consumers have critical information regarding their health care. This measure therefore requires all health insurers in the State to disclose on their websites any standards, criteria, or information used for making preauthorization decisions.

However, your Committee has heard the concerns that the scope of required standards, criteria, or information contemplated by this measure may be overly broad, which may lead to more confusion for consumers and create compliance difficulties for health plans. Amendments to this measure are therefore necessary to ensure that consumers are able to readily access and understand any medical policies associated with a health insurer's preauthorization process.

Your Committee has amended this measure by:

- (1) Requiring all health insurers in the State to disclose on, or have accessible through, their public websites all medical policies, rather than any standards, criteria, or information, the health insurers use when making preauthorization decisions;
- (2) Requiring the disclosure or link to access the medical policies on the public website to be prominently displayed and readily accessible for consumers;
- (3) Specifying that the medical policies shall include a listing of medical services that may be subject to preauthorization review, the preauthorization application procedure, the preauthorization determination criteria, and the procedure to appeal a denial decision;
- (4) Inserting an effective date of upon approval; provided that the requirements for disclosure of medical policies shall take effect on January 1, 2018; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 287, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 287, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 2 (Kidani, Ruderman).

SCRep. 714 Commerce, Consumer Protection, and Health on S.B. No. 627

The purpose and intent of this measure is to:

- (1) Require association members who are not on a condominium board to participate in any deliberation or discussion, including executive sessions with approval by a majority vote of the condominium board members, subject to certain limitations; and
- (2) Allow condominium board members to limit the time provided to any member of the condominium association to participate in deliberations, pursuant to board rules.

Your Committee received testimony in support of this measure from the Hawaii Council of Associations of Apartment Owners, Associa, Hui 'Oia'i'o, and five individuals. Your Committee received testimony in opposition to this measure from the Hawai'i State Association of Parliamentarians and two individuals.

Your Committee finds that condominium owners provide valuable information and input during board meetings for a condominium association. Accordingly, this measure provides members of a condominium association an opportunity to attend and participate in all meetings of the board of directors of their association of apartment owners, including executive sessions with board approval. However, your Committee has heard testimony that this measure, as written, may affect the ability of boards to conduct board meetings in an efficient manner.

Your Committee notes that unit owners have a right to speak and participate in any deliberation or discussion of a board. However, this participation must be balanced with the board's need to complete its agenda in a timely manner. Enabling a board to establish owner participation rules, and requiring the board to notify owners of such rules, will foster participation while ensuring board meetings can be conducted in an efficient manner. Your Committee further finds that although many boards provide an agenda at board meetings, providing this information in advance, and shortening the time frame under which unapproved final drafts of meetings are made available, will encourage participation and communication between owners and their boards. Amendments to this measure are therefore needed to address these issues.

Your Committee also notes that boards of directors should be responsible for a decision to comply with any other mandatory provisions of the State's condominium laws. An amendment to this measure is therefore necessary to clarify that compliance with mandatory provisions of the condominium laws is part of the fiduciary duty a board of directors owes to its association.

Accordingly, your Committee has amended this measure by:

- (1) Clarifying that any violation of a mandatory provision of the State's condominium law by a board or its officers and members is a per se violation of the board's fiduciary duty, but providing a safe harbor provision for a board member who votes for compliance during a board meeting;
- (2) Clarifying that a board is permitted to establish rules for owner participation in any deliberation or discussion at board meetings, other than executive sessions, and specifying that notice must be provided to owners regarding these rules;
- (3) Clarifying that a board, by majority vote, may adjourn a meeting and reconvene in executive session;
- (4) Requiring the notice for board meetings to include a list of items expected to be on the meeting agenda;
- (5) Requiring unapproved final drafts of the minutes of a board meeting to be available within fourteen days after the meeting;
- (6) Removing language that would have permitted a board, by majority vote, to allow members of the association to attend executive sessions to present personal information, as Robert's Rules of Order Newly Revised already permits boards to allow non-board members to attend executive session meetings; and
- (7) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 627, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 627, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 2 (Ihara, Ruderman).

SCRep. 715 Judiciary and Labor on S.B. No. 462

The purpose and intent of this measure is to repeal the requirement that registered voters include their social security numbers when signing nomination papers or when petitioning the Chief Election Officer to withdraw their signatures on nomination papers or other petitions.

Your Committee received testimony in support of this measure from the Office of Elections.

Your Committee finds that Act 167, Session Laws of Hawaii 2016 (Act 167), allows individuals to register to vote by providing their Hawaii driver's license or civil identification card in lieu of their social security number under certain circumstances. Because the Office of Elections will no longer have the social security numbers on record for voters registering after Act 167 takes effect, this measure amends certain sections of law to conform with Act 167.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 462 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Gabbard).

SCRep. 716 Judiciary and Labor on S.B. No. 150

The purpose and intent of this measure is to require candidates for United States President and Vice President to submit a copy of their most recent income tax return with the sworn application in order to be included on the general election state ballot.

Your Committee received testimony in support of this measure from the Americans for Democratic Action Hawai'i, Common Cause Hawaii, League of Women Voters of Hawaii, and three individuals. Your Committee received testimony in opposition to this measure from the Libertarian Party of Hawaii and one individual. Your Committee received comments on this measure from the Department of the Attorney General and Tax Foundation of Hawaii.

Your Committee finds that a majority of United States presidential and vice presidential candidates have made their income tax returns publicly available for the last forty years. This measure codifies this longstanding practice to increase transparency as well as the public's trust in their national leaders.

Your Committee notes the comments raised in written testimony submitted by the Department of the Attorney General that this measure may pose constitutional problems, especially with regard to whether a state may impose requirements in addition to the residency and age requirements under the United States Constitution for a presidential or vice presidential candidate. However, the Department of the Attorney General noted that states are given plenary authority over selection of electors.

Accordingly, your Committee has amended this measure by:

- (1) Adopting the language suggested by the Department of the Attorney General that:
 - (A) Adds a preamble section regarding the importance of candidates for the office of United States President and Vice President making their most recent income tax returns available to the public;
 - (B) Requires candidates for President and Vice President of the United States to post their most recent income tax return on the Internet at least sixty days prior to and continuing through the date of the general election for free access by the public, rather than submit a copy of each candidate's income tax return with their sworn application, in order to be included on the state ballot, subject to certain conditions; and
 - (C) Prohibits electors from voting for a candidate for President or Vice President of the United States unless both candidates have posted their most recent income tax return on the Internet at least sixty days prior to and continuing through the date of the general election for free access by the public, subject to certain conditions;
- (2) Adding a severability clause;
- (3) Inserting an effective date of January 7, 2059, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 150, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 150, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Gabbard, Kim).

SCRep. 717 Judiciary and Labor on S.B. No. 492

The purpose and intent of this measure is to amend the conditions under which the definition of "enter or remain unlawfully" applies with reference to criminal trespass in the second degree.

Your Committee received testimony in support of this measure from the Department of the Attorney General; Department of the Prosecuting Attorney, City and County of Honolulu; The Chamber of Commerce Hawaii; Hawaii Food Industry Association; and one individual. Your Committee received testimony in opposition to this measure from the Office of the Public Defender.

Your Committee finds that the Hawaii Supreme Court held in *State v. King*, 386 P.3d 886 (Haw. 2016), that a violation of "reasonable warning or request" does not constitute defiance of a "lawful order". This measure clarifies that, in the context of the definition of "enter or remain unlawfully", a "lawful order" includes a "reasonable warning or request" issued pursuant to section 708-814(1)(b), Hawaii Revised Statutes.

Your Committee has amended this measure by:

- (1) Deleting the preamble section;
- (2) Amending the offense of criminal trespass in the second degree to repeal the definition of "reasonable warning or request" and clarify that a reasonable warning or request by an owner or lessee of the commercial premises, the owner's or lessee's authorized agency, or a police officer may be communicated in writing at any time within a one-year period inclusive of the date the incident occurred with certain exceptions;
- (3) Inserting an effective date of January 7, 2059, to encourage further discussion; and

- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 492, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 492, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Gabbard, Kim).

SCRep. 718 Judiciary and Labor on S.B. No. 631

The purpose and intent of this measure is to:

- (1) Exempt gifts received by an elected or appointed official on behalf of the State from the gift reporting requirements under the Code of Ethics; and
- (2) Require the gift to be publicly recorded as property of the State and allow the gift to remain with the official's agency or be transferred to the State Archives or State Foundation on Culture and the Arts at the end of the official's term.

Your Committee received testimony in opposition to this measure from one individual. Your Committee received comments on this measure from the Hawaii State Ethics Commission.

Your Committee finds that elected or appointed officials will periodically accept gifts, such as a piece of artwork given by a foreign dignitary, on the State's behalf. Although existing law does not require such gifts to be reported, this measure explicitly exempts gifts accepted by an elected or appointed official from the gift reporting laws and requires those gifts to remain as the State's property upon the expiration of the elected or appointed official's term.

Your Committee has amended this measure by:

- (1) Adopting the language suggested by the Hawaii State Ethics Commission that clarifies that a gift subject to this measure must be a gift received by an elected or appointed official on behalf of the State that is tangible and nonperishable;
- (2) Clarifying that the option to retain or transfer the gift applies to state agencies;
- (3) Inserting an effective date of January 7, 2059, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 631, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 631, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 719 Judiciary and Labor on S.B. No. 895

The purpose and intent of this measure is to:

- (1) Establish the offense of criminal trespass onto state lands to prohibit a person from entering or remaining unlawfully in or upon any improved state land, or in or upon any state land on or under any highway, subject to certain conditions;
- (2) Amend the offense of criminal trespass in the second degree by clarifying that the signs posted to provide notice to a person entering or remaining unlawfully on agricultural lands without the permission of the owner may include language that the agricultural land is government property and no trespassing is allowed; and
- (3) Require the Department of the Attorney General to submit a written report to the Legislature prior to convening of the Regular Session of 2018 regarding the extent to which this measure is utilized.

Your Committee received testimony in support of this measure from the Governor's Coordinator on Homelessness; Department of the Attorney General; Department of Public Safety; Department of Land and Natural Resources; Department of Transportation; Department of Accounting and General Services; Department of Agriculture; Department of Taxation; Department of Education; University of Hawai'i System; Department of Defense; Department of Hawaiian Home Lands; Department of Health; Agribusiness Development Corporation; Natural Energy Laboratory of Hawaii Authority; Police Department, City and County of Honolulu; and Institute for Human Services. Your Committee received testimony in opposition to this measure from the Office of Hawaiian Affairs, American Civil Liberties Union of Hawai'i, Community Alliance on Prisons, and one individual. Your Committee received comments on this measure from one individual.

Your Committee finds that it is unclear whether existing criminal trespass laws apply to improved state lands, state land on or under any highway, or unfenced, unenclosed, or unsecured agricultural lands owned by the State. This measure addresses the application of criminal trespass laws with respect to state lands to provide a stronger and clearer deterrent to illegal activity.

Your Committee has amended this measure by:

- (1) Clarifying under section 708-814(1)(c), Hawaii Revised Statutes, which relates to entering or remaining on agricultural lands without the permission of the owner, that the signs displayed on the unenclosed cultivated or uncultivated agricultural land shall be placed at reasonable intervals along the boundary line of the land and at roads and trails entering the land;

- (2) Requiring the Department of the Attorney General to submit a written report to the Legislature prior to the regular sessions of 2018, 2019, and 2020, rather than only the Regular Session of 2018, regarding the extent to which the criminal trespassing laws have been utilized;
- (3) Inserting an effective date of January 7, 2059, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 895, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 895, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 5; Ayes with Reservations (Thielen). Noes, none. Excused, none.

SCRep. 720 Judiciary and Labor on S.B. No. 1282

The purpose and intent of this measure is to:

- (1) Establish that the offense of abuse of a family or household member is a petty misdemeanor with a jail sentence of no less than forty-eight hours and no more than thirty days;
- (2) Establish that a second offense that occurs within five years, rather than one year, of the first conviction of the offense of abuse of a family or household member is a misdemeanor and the person shall be termed a "repeat offender";
- (3) Establish that a third or subsequent offense that occurs within five, rather than two, years of a second or subsequent conviction of the offense of abuse of a family or household member is a class C felony;
- (4) Allow the prosecution to use prior convictions of the offense of abuse of a family or household member as evidence in the instant offense committed by a repeat offender;
- (5) Require that court ordered domestic violence intervention programs include anger management training;
- (6) Require the Judiciary, in cooperation with the prosecutor of each county and police department of each county, to annually compile and report on statistics regarding arrests, charges, and convictions or other dispositions based on the offense of abuse of a family or household member; and
- (7) Repeal and reenact the offense of abuse of a family or household member on June 30, 2020.

Your Committee received testimony in support of this measure from the Hawaii State Commission on the Status of Women; Office of the Prosecuting Attorney, County of Kaua'i; Police Department, City and County of Honolulu; Domestic Violence Action Center; Hawaii State Coalition Against Domestic Violence; and six individuals. Your Committee received testimony in opposition to this measure from the Office of the Public Defender; Department of the Prosecuting Attorney, County of Hawai'i; and Department of the Prosecuting Attorney, County of Maui. Your Committee received comments on this measure from the Judiciary and Department of the Prosecuting Attorney, City and County of Honolulu.

Your Committee finds that domestic violence is a serious social issue in Hawaii. Despite a number of laws that protect victims of domestic violence, aim to prevent future incidents of domestic violence, and penalize and provide assistance to domestic violence offenders, the rates of domestic violence occurring in Hawaii have not decreased. Of greater concern is the number of domestic violence incidents committed by repeat domestic violence offenders. Advocates for stronger domestic violence laws contend that part of the problem is that the laws do not impose effective consequences on domestic violence offenders that effectively change their behavior. This measure provides more effective laws to ensure that domestic violence offenders receive appropriate consequences and services for offenders to change their behavior and reduce repeat offenses.

Your Committee has amended this measure by:

- (1) Deleting the preamble section;
- (2) Reinstating language that makes the first offense of abuse of a family or household member a misdemeanor, rather than a petty misdemeanor, with a minimum jail sentence of forty-eight hours;
- (3) Clarifying that the prosecution may use prior convictions of the offense of abuse of a family or household member as evidence in the instant offense committed by a repeat offender for a third or any subsequent offense;
- (4) Deleting language that requires court ordered domestic violence intervention programs to include anger management training;
- (5) Requiring the court to immediately order the defendant incarcerated to serve the mandatory sentence imposed for failure to complete the domestic violence intervention program or violation of any other condition of a sentence imposed pursuant to a deferred acceptance of guilty plea or nolo contendere plea;
- (6) Inserting an effective date of January 7, 2059, to encourage further discussion; and
- (7) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1282, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1282, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Gabbard, Kim).

SCRep. 721 Ways and Means on S.B. No. 102

The purpose and intent of this measure is to address the federal funding policy study mandated by Act 225, Session Laws of Hawaii 2016.

More specifically, this measure amends Act 225, Session Laws of Hawaii 2016, by:

- (1) Changing the agency responsible for preparing the federal funding policy study from the Office of the Governor to the Department of Budget and Finance;
- (2) Extending the fiscal period to be covered by the study and the deadline for the study's submission to the Governor and Legislature; and
- (3) Amending the appropriation to conform to the change of agency and applicable fiscal year.

Your Committee received testimony in support of this measure from the Department of Budget and Finance.

Your Committee finds that Act 225, Session Laws of Hawaii 2016, required the Office of the Governor to conduct a federal funding policy study. The purpose of this study was to provide state public policymakers with information regarding the possible consequences of major reductions in federal funding of state government programs and projects, and to spur the development of policies to reduce the dependence of state government on federal funds. Your Committee further finds that the Department of Budget and Finance, specifically the Office of Federal Awards Management, is more appropriate than the Office of the Governor to conduct the federal funding policy study.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 102 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 9. Noes, none. Excused, 2 (Harimoto, Taniguchi).

SCRep. 722 (Joint) Judiciary and Labor and Ways and Means on S.B. No. 718

The purpose and intent of this measure is to:

- (1) Establish a community court outreach project until June 30, 2020, in the City and County of Honolulu under the Judiciary to operate a mobile court that travels to community sites where defendants cited or arrested for nonviolent offenses live or congregate and dispose of these cases after plea agreements are reached by the City and County of Honolulu Prosecutor and Public Defender;
- (2) Require the Chief Justice to determine whether funds are sufficient to administer and operate the community court outreach program and enter into memoranda of agreement with the City and County of Honolulu Prosecutor and Public Defender;
- (3) Require the Chief Justice to submit annual reports to the Legislature and Governor regarding the program measures and outcomes, and any comments and recommendations;
- (4) Appropriate funds to the Judiciary for the establishment, administration, and operation of the community court outreach project; and require the Chief Justice to transfer specific amounts to the City and County of Honolulu Prosecutor and Public Defender for project participation; and
- (5) Appropriate funds to the Department of Public Safety to provide security for the community court outreach project and authorize the Department of Public Safety to establish 2.0 full-time equivalent deputy sheriff positions for the community court outreach project or assign 2.0 full-time equivalent deputy sheriff positions to establish 2.0 new or fill 2.0 vacant full-time equivalent deputy sheriff positions to replace those assigned to the community court outreach project.

Your Committees received testimony in support of this measure from the Governor's Coordinator on Homelessness; Judiciary; Office of the Public Defender; Department of the Prosecuting Attorney, City and County of Honolulu; Community Alliance on Prisons; The Drug Policy Forum of Hawai'i; The CHOW Project; and one individual. Your Committees received comments on this measure from the Department of Public Safety.

Your Committees find that hundreds of Honolulu residents are cited or arrested for nonviolent offenses that do not pose a threat to the public. Once these minor, nonviolent offenders are brought into court, the sentences imposed are often monetary fines because these offenses are not serious enough to warrant incarceration. However, most of the offenders who are fined are unable to pay the fines and remain in the system without a meaningful resolution that will prevent recurrence of the offenses or provide rehabilitative services. By establishing a community court outreach project within the City and County of Honolulu, this measure presents a combination of accountability and treatment options to offenders to reduce crime and recidivism.

Your Committees have amended this measure by:

- (1) Clarifying that the Chief Justice is required to transfer the entire amount of funds for a fiscal year specified in the memoranda of agreement with the Prosecuting Attorney and the Public Defender to each of them within thirty days of entering into the latter dated memorandum of agreement with each of them or by September 1 of that fiscal year, whichever occurs first;
- (2) Deleting the appropriation amount to the Judiciary to administer the community court outreach project and the amounts to be transferred to the City and County of Honolulu Prosecutor and Public Defender for project participation;
- (3) Deleting the appropriation amount to the Department of Public Safety to provide security for the community outreach project;
- (4) Inserting an effective date of January 7, 2019, to encourage further discussion; and

- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Judiciary and Labor and Ways and Means that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 718, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 718, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chairs on behalf of the Committees.

Judiciary and Labor: Ayes, 3. Noes, none. Excused, 2 (Gabbard, Kim).

Ways and Means: Ayes, 8. Noes, none. Excused, 3 (Galuteria, Inouye, Wakai).

SCRep. 723 Ways and Means on S.B. No. 648

The purpose and intent of this measure is to amend the State’s income tax law.

More specifically, this measure:

- (1) Expands the income tax credit for low-income household renters, based on adjusted gross income and filing status;
- (2) Establishes a state earned income tax credit;
- (3) Restores the income tax rates for high income brackets that were repealed on December 31, 2015; and
- (4) Removes the sunset date for amendments made to the refundable food/excise tax credit by Act 223, Session Laws of Hawaii 2015.

Your Committee received testimony in support of this measure from the Hawaii State Commission on the Status of Women, Americans for Democratic Action Hawaii, Community Alliance on Prisons, Democratic Party of Hawaii, Early Childhood Action Strategy, Hawaii Alliance for Community-Based Economic Development, Hawaii Alliance for Progressive Action, Hawaii Appleseed Center for Law and Economic Justice, Hawaii Children’s Action Network, Hawaii State Democratic Women’s Caucus, Hawaii State Teachers Association, Hawaii Teachers for Change Caucus, Hawaii Women’s Coalition, Hawaiian Community Assets, IMUAlliance, Kupuna Caucus of the Democratic Party of Hawaii, League of Women Voters of Hawaii, Mental Health America of Hawaii, Pele Lani Farm LLC, PHOCUSED, Progressive Democrats of Hawaii, UNITE HERE Local 5, Young Progressives Demanding Action, YWCA Oahu, and one hundred eighteen individuals.

Your Committee received testimony in opposition to this measure from The Chamber of Commerce Hawaii and one individual.

Your Committee received comments on this measure from the Department of Taxation and the Tax Foundation of Hawaii.

Your Committee finds that Act 223, Session Laws of Hawaii 2015, temporarily increased the amount of the refundable food/excise tax credit. According to the Department of Taxation, making this increase permanent is expected to result in an annual revenue loss of \$6,500,000.

Your Committee also finds that establishing a refundable state earned income tax credit, set at ten or twenty per cent of the amount of the federal earned income tax credit, is expected to result in the following revenue loss:

<u>Fiscal Year</u>	<u>10%</u>	<u>20%</u>
2018	\$24,500,000	\$49,000,000
2019	\$25,100,000	\$50,200,000
2020	\$25,700,000	\$51,500,000
2021	\$26,400,000	\$52,800,000
2022	\$27,000,000	\$54,100,000

On the other hand, establishing a nonrefundable state earned income tax credit is expected to result in the following revenue loss:

<u>Fiscal Year</u>	<u>10%</u>	<u>20%</u>
2018	\$6,400,000	\$12,700,000
2019	\$8,300,000	\$16,700,000
2020	\$10,200,000	\$20,400,000
2021	\$11,900,000	\$23,800,000
2022	\$13,500,000	\$27,100,000

Your Committee further finds that the state income tax law may be made more progressive by not only reinstating higher income tax rates on high-income taxpayers, but also lowering the rates on the lowest income taxpayers. According to data from the Department of Taxation, reducing income tax rates for lower-income taxpayers will result in lower taxes for the following:

- (1) 15.9 per cent of total resident single filers (40,494 returns);
- (2) 8.8 per cent of total resident joint filers (16,040 returns); and
- (3) 13.0 per cent of total resident head of household filers (8,109 returns).

Reinstating higher tax rates on high income earners will result in higher taxes for the following:

- (1) 1.0 per cent of total resident single filers (2,439 returns);
- (2) 2.0 per cent of total resident joint filers (3,690 returns); and
- (3) 0.4 per cent of total resident head of household filers (220 returns).

Your Committee has amended this measure by:

- (1) Deleting the provisions regarding the income tax credit for low-income household renters;
- (2) Changing the amount of the state earned income tax credit to an unspecified amount;
- (3) Reducing income tax rates for lower income brackets;
- (4) Clarifying the taxable years to which the new income tax rates established by this measure shall apply;
- (5) Appropriating \$250,000 for each year of the 2017-2019 fiscal biennium to the Department of Taxation for certain tax preparation assistance outreach programs, as a means of expanding community participation in the program and reducing preparation error;
- (6) Changing the effective date to August 30, 2050, to facilitate further discussion on the measure; and
- (7) Making technical nonsubstantive amendments for the purposes of consistency, clarity, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 648, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 648, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 7. Noes, none. Excused, 4 (Galuteria, Harimoto, Inouye, Kahele).

SCRep. 724 Commerce, Consumer Protection, and Health on S.B. No. 1299

The purpose and intent of this measure is to permit charter tour operators to maintain statutorily required client trust accounts in a federally insured financial institution located outside of Hawaii.

Your Committee received testimony in support of this measure from Vacations Hawaii. Your Committee received testimony in opposition to this measure from the Regulated Industries Complaints Office of the Department of Commerce and Consumer Affairs.

Your Committee finds that charter tour operators are currently required to maintain a client trust account in a federally insured financial institution located within the State. However, according to testimony received by your Committee, there is only one financial institution in the State experienced and willing to maintain client trust accounts for charter tour operators. Furthermore, this financial institution has expressed concerns over its continuing ability to maintain a client trust account for a Hawaii charter tour operator. Although the affected charter tour operator and the financial institution have recently agreed to continue their arrangement, a change in the management of the institution or a change in policy that results in a decision to discontinue serving the account will require the charter tour operator to immediately suspend its charter operations in Hawaii.

This measure attempts to address these concerns by permitting a charter tour operator to maintain a client trust account in a federally insured financial institution outside of Hawaii, subject to certain conditions, while also ensuring the charter tour operator remains subject to all other existing requirements for charter tour operators. Your Committee notes that charter tour operators are also subject to the federal Department of Transportation charter trust account regulations, which have very specific and stringent requirements for the maintenance of charter tour trust accounts.

However, your Committee has heard the testimony raised by the Regulated Industries Complaints Office, expressing concerns that this measure, as drafted, poses practical enforcement challenges that may complicate the job of protecting client trust funds. Your Committee understands these concerns and finds that amendments to this measure are necessary to include additional protections for client trust funds. These amendments will help ensure that charter tour operators will be able to continue to serve Hawaii residents, in the event that a Hawaii financial institution is unwilling or unable to service a client trust account, while also maintaining sufficient consumer protections.

Your Committee has amended this measure by:

- (1) Clarifying the requirements a charter tour operator must meet prior to depositing sums in a client trust account maintained in a federally insured financial institution located outside the State, including:
 - (A) Requiring the charter tour operator to provide the Director of Commerce and Consumer Affairs with irrefutable evidence that no financial institution in the State can maintain the charter tour operator's client trust account;
 - (B) Requiring the charter tour operator to file with the Department of Commerce and Consumer Affairs a notarized irrevocable agreement and authorization in writing;
 - (C) Requiring the charter tour operator to bear the cost to reproduce any records requested by the Department;
 - (D) Requiring the charter tour operator to bear the cost of any fees or expenses, including travel expenses, requested by the Department for purposes of an audit or to determine compliance; and
 - (E) Enabling the Department to contract with a private consultant to audit the records of any charter tour operator, and requiring the charter tour operator to bear the costs of any such audit;
- (2) Inserting an effective date of July 1, 2050; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1299, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1299, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 2 (Ihara, Ruderman).

SCRep. 725 Commerce, Consumer Protection, and Health on S.B. No. 954

The purpose and intent of this measure is to make various updates to title 24, Hawaii Revised Statutes, including:

- (1) Requiring health care providers to continue providing services during a health insurer insolvency;
- (2) Moving the short-term health insurance preexisting disclosure requirement to a more appropriate article in the Insurance Code;
- (3) Correcting a technical error in the definition of “perceived gender identity”;
- (4) Clarifying that health insurers are part of the Hawaii Life and Disability Insurance Guaranty Association; and
- (5) Making housekeeping amendments.

Your Committee received testimony in support of this measure from the Department of Commerce and Consumer Affairs and LGBT Caucus of the Democratic Party of Hawai‘i. Your Committee received comments on this measure from the Hawaii Medical Service Association and American Council of Life Insurers.

Your Committee finds that when an insurer enters liquidation, that insolvency can greatly affect policyholders and providers. This measure seeks to better prepare insurers, policyholders, providers, and the Hawaii Life and Disability Insurance Guaranty Association for future liquidations by, among other things, requiring a health care provider to continue providing services during the insolvency of a health insurer.

Your Committee has heard the concerns that this measure subjects mutual benefit societies and health maintenance organizations to the requirements of the Hawaii Life and Disability Insurance Guaranty Association. According to testimony received by your Committee, there is concern that this would require large group insurers to subsidize potential liabilities incurred by the insolvency of another health plan. This measure also proposes to amend the definition of “member insurer”, applicable to the Hawaii Life and Disability Insurance Guaranty Association Act, to remove the exclusion of nonprofit hospital or medical service organizations and health maintenance organizations. According to testimony from the Department of Commerce and Consumer Affairs, the Department is in ongoing discussions with affected parties regarding this definition and, as such, requests that the definition of “member insurer” remain unchanged at this time.

Your Committee further finds that this measure also creates a new assessment account for dental insurance within the Hawaii Life and Disability Insurance Guaranty Association. Your Committee has heard the concerns that dental insurance claims are currently paid from a much higher assessment base of all health insurers doing business in the State and creating a separate assessment account for this type of specific insurance could potentially create a capacity problem in the event a large dental insurer becomes insolvent. Your Committee appreciates these concerns and notes that further discussion may be warranted as this measure moves through the legislative process.

Your Committee has amended this measure by:

- (1) Deleting language that would have permitted insurers assessed through the Hawaii Life and Disability Insurance Guaranty Association the ability to recoup costs through a surcharge on premiums, as the Association already allows insurers to offset assessments through the use of tax credits;
- (2) Deleting language that would have amended the definition of “member insurer”;
- (3) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 954, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 954, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 2 (Ihara, Ruderman).

SCRep. 726 Commerce, Consumer Protection, and Health on S.B. No. 119

The purpose and intent of this measure is to:

- (1) Require landlords to disclose in writing a tenant’s ability to establish a new due date for rent payment, if the tenant receives public assistance; and
- (2) Establish a cap of five percent on late rent payment fees.

Your Committee received testimony in support of this measure from the Governor’s Coordinator on Homelessness and Department of Commerce and Consumer Affairs Office of Consumer Protection. Your Committee received comments on this measure from the Hawai‘i Association of REALTORS.

Your Committee finds that existing law requires a landlord to honor a tenant’s request to establish a new due date if the tenant is receiving public assistance. This measure requires this right to be disclosed in writing to a tenant, which will ensure that a tenant receiving public assistance is fully aware that the tenant has the ability to move the due date to a period after which the tenant receives a public assistance payment.

Your Committee further finds that existing law does not set limitations on the amount of late fees that a landlord may charge a tenant, which has resulted in a wide variance in amounts charged and has led to outrageous abuses. According to testimony from the

Office of Consumer Protection, the Office has been informed by some tenants that the tenants have been subject to late fees of more than twenty percent for being one day late. Other tenants have reported a fee of \$100 for each day of late payment. According to testimony from the Governor's Coordinator on Homelessness, service providers have shared reports of homeless individuals and families being charged excessive late fees, and later being evicted as a result of those accumulated fees.

This measure therefore requires that when a rental agreement provides for a late charge payable for rent not paid when due, the late charge shall be capped at five percent of the amount of rent due. Your Committee notes that Maryland, Oregon, and Delaware all set late fee limitations at five percent. The five percent limitation is also consistent with existing Hawaii law governing late charges on consumer credit sale contracts and correlates with the late fees that numerous mortgagee lenders impose on mortgagor borrowers.

Your Committee has heard the testimony requesting a delayed implementation to provide sufficient time for the update of all relevant rental agreement forms. Although your Committee understands these concerns, your Committee believes it is important for the cap on late fees to be implemented as soon as possible, as your Committee is deeply concerned that a delay in implementing the cap will have a negative effect on vulnerable tenants with unscrupulous landlords or rental agents. Your Committee notes that interested parties indicated a willingness to continue discussions regarding necessary updates to rental agreement forms. Further discussion on the implementation date of this measure may be warranted, and may require the Hawaii Association of REALTORS and the Real Estate Commission to notify members of the upcoming changes.

Finally, your Committee notes that once the effective date of this measure has been determined, it is your Committee's intent for the requirements of this measure to apply to all new rental agreements and all rental agreement renewals entered into on or after the effective date of this measure.

Accordingly, your Committee has amended this measure by:

- (1) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (2) Clarifying that this measure shall apply to all rental agreements and all rental agreement renewals entered into on or after the effective date of this measure.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 119, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 119, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 2 (Ihara, Ruderman).

SCRep. 727 Ways and Means on S.B. No. 197

The purpose and intent of this measure is to provide funding for start-up grants to assist one or more new pre-opening charter schools.

Your Committee received written comments in support of this measure from the Office of Hawaiian Affairs; Hawaii State Public Charter School Commission; The Maritime Group, LLC; Kamehameha Schools; Hawaii Public Charter School Network; and one individual.

Your Committee received written comments in opposition to this measure from the Hawaii State Teachers Association and IMUAlliance.

Your Committee finds that certain Department of Education schools are operating at or near-full capacity and are struggling with severe overcrowding. Your Committee further finds that overcrowding in schools is a serious issue throughout the State. Your Committee recognizes that public charter schools can be a crucial part of the solution to the problem of school overcrowding, but notes that the start-up costs associated with opening a charter school are significant. These start-up costs present a serious obstacle to opening new charter schools to meet the needs of Hawaii's students. Your Committee believes that the funding provided by this measure will help ease the cost of opening new charter schools to better support the educational needs of Hawaii's students.

Your Committee has amended this measure by:

- (1) Changing the amounts appropriated in fiscal years 2017-2018 and 2018-2019 from \$200,000 respectively for each year to unspecified amounts;
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (3) Making a technical nonsubstantive amendment for the purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 197, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 197, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 9. Noes, none. Excused, 2 (Inouye, Wakai).

SCRep. 728 Ways and Means on S.B. No. 711

The purpose and intent of this measure is to appropriate funds for the Executive Office on Early Learning to enter into contracts with third party providers for family child interaction learning programs as part of a mixed-delivery early learning system to ensure school readiness of Hawaii's children prior to entering kindergarten.

Your Committee received written comments in support of this measure from the Executive Office on Early Learning, Hawaii Children's Action Network, Kamehameha Schools, and HE'E Coalition.

Your Committee finds that family is a vital influence in the life of a child and that active participation by parents in a child's early education is extremely beneficial for the child's learning and development.

Your Committee has amended this measure by changing the effective date to April 2, 2050, to facilitate further discussion.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 711, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 711, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 9. Noes, none. Excused, 2 (Inouye, Wakai).

SCRep. 729 Ways and Means on S.B. No. 908

The purpose and intent of this measure is to improve the functions of the Small Business Regulatory Review Board (Board).

Specifically, this measure:

- (1) Clarifies the definition of "small business";
- (2) Specifies the course of action of the Board after reviewing a proposed rule;
- (3) Increases the number of Board members from nine to eleven;
- (4) Requires agencies to submit to the Board by June 30 of each year, a list of rules to be amended or repealed, based upon any new, amended, or repealed statute that impacts small business; and
- (5) Requires the Board to submit evaluation reports on rules to the Legislature each even-numbered year.

Your Committee received written comments in support of this measure from the Department of Business, Economic Development, and Tourism; Chamber of Commerce Hawaii; and Ocean Tourism Coalition. Your Committee received written comments in opposition to this measure from the Hawaii Farm Bureau and one individual.

The Department of Taxation and Small Business Regulatory Review Board submitted written comments on this measure.

Your Committee finds that incorrectly determining that a proposed rule does not require a small business impact statement can lead to the rule later being overturned. Your Committee further finds that placing the determination of whether a rule requires a small business impact statement upon the Board removes the risk of rules being overturned because they were improperly adopted.

Your Committee further finds that increasing the membership of the Board from nine to eleven members will help with meeting and voting quorum.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure;
- (2) Making a technical amendment to clarify the timing of when the evaluation report shall be submitted to the Legislature; and
- (3) Making technical amendments to sections 201M-5(b)(4) and 201M-7(c), Hawaii Revised Statutes, to reflect the printed version of the Hawaii Revised Statutes.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 908, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 908, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 10. Noes, none. Excused, 1 (Dela Cruz).

SCRep. 730 Ways and Means on S.B. No. 1170

The purpose and intent of this measure is to increase government accountability and transparency by requiring a public hearing or informational briefing on certain studies and audit reports funded by the Legislature.

Specifically, the measure:

- (1) Requires any study or audit report enacted with a legislative appropriation and conducted by executive departments and agencies, the Auditor, the Judiciary, the Legislative Reference Bureau, or the Office of Hawaiian Affairs to be submitted to the chairs of the applicable subject matter committee of each house, the presiding officers of each house, and the Legislative Reference Bureau library; and
- (2) Requires a public hearing or informational briefing on the study or audit report within one year of its receipt, unless the time is extended or the requirement is waived.

Your Committee received written comments in support of this measure from the Office of the Auditor and one individual. The Department of Budget and Finance submitted written comments on the measure.

Your Committee finds that state agencies expend valuable time and resources to complete studies and audit reports required by the Legislature, and the results are often not widely reviewed by legislators or the public. Your Committee further finds that requiring a public hearing or informational briefing will serve the public interest by facilitating discussion and analysis of the findings and recommendations contained in the studies and audit reports.

Your Committee has amended this measure by clarifying that the reasons for granting an extension of time or waiver of the required public hearing or informational briefing shall be publicly noticed at the state capitol.

Your Committee respectfully notes that subsequent committees to which this measure is referred may wish to consider whether certain routine studies and reports may warrant exclusion from the public hearing or informational briefing requirement, or require less frequent hearings or briefings.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1170, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1170, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 10. Noes, none. Excused, 1 (Dela Cruz).

SCRep. 731 (Joint) Commerce, Consumer Protection, and Health and Ways and Means on S.B. No. 510

The purpose and intent of this measure is to:

- (1) Formally establish the Hawaii keiki: healthy and ready to learn program;
- (2) Provide funding to expand and sustain the Hawaii keiki: healthy and ready to learn program; and
- (3) Appropriate funds to establish school health service coordinator positions in the Departments of Health and Human Services to increase coordination and facilitate departmental and interdepartmental activities related to comprehensive school-based health services.

Your Committees received testimony in support of this measure from the Department of Education, University of Hawai'i System, Hawaii State Public Charter School Commission, Hawaii Medical Service Association, Healthcare Association of Hawaii, Hawaii Association of Professional Nurses, Hawaii State Teachers Association, Kapiolani Child Protection Center, Hawai'i State Center for Nursing, Hawai'i Pacific Health, Special Education Advisory Council, American Organization of Nurse Executives, IMUAlliance, Hui for Excellence in Education, Project Vision Hawai'i, and eighteen individuals. Your Committees received testimony in opposition to this measure from the Hawaii Chapter of the American Academy of Pediatrics, Family Voices of Hawai'i, and two individuals. Your Committees received comments on this measure from the Department of Budget and Finance, Department of Human Services, Hawaii Primary Care Association, Waianae Coast Comprehensive Health Center, and one individual.

Your Committees find that non-school factors such as chronic absenteeism, poor health, and delayed or limited access to healthcare and preventive services can impede a student's academic success. Your Committees further find that school-based services such as early eye screenings and oral hygiene services for vulnerable keiki in pre-kindergarten through high school can improve academic outcomes and increase children's opportunity for economic achievement.

Your Committees additionally find that the Hawaii keiki: healthy and ready to learn program has expanded access to health services for many of the State's students. Your Committees note that the partnerships the Department of Education has formed with other state and private entities have created a foundation upon which an expanded program may be built. Your Committees find that an expanded program will be able to offer services in new areas of healthcare that students have not previously had access to in Hawaii's schools.

Your Committees have amended this measure by:

- (1) Inserting language to require that the Department of Education collaborate with community providers and other health care and education stakeholders, in addition to the Department of Health, Department of Human Services, and University of Hawaii at Manoa School of Nursing and Dental Hygiene, to convene the Hawaii keiki: healthy and ready to learn program as well as partner with the Public Health Nursing Branch of the Department of Health pursuant to a memorandum of understanding between the parties;
- (2) Inserting blank appropriation amounts;
- (3) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Commerce, Consumer Protection, and Health and Ways and Means that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 510, S.D. 1, as amended herein, and recommend that it pass Third Reading in the form attached hereto as S.B. No. 510, S.D. 2.

Signed by the Chairs on behalf of the Committees.
Commerce, Consumer Protection, and Health: Ayes, 4. Noes, none. Excused, 3 (Chang, Espero, Ruderman).
Ways and Means: Ayes, 9; Ayes with Reservations (Harimoto). Noes, none. Excused, 2 (Inouye, Wakai).

SCRep. 732 (Joint) Commerce, Consumer Protection, and Health and Ways and Means on S.B. No. 272

The purpose and intent of this measure is to support programs, studies, and activities related to the prevention and eradication of rat lungworm disease by appropriating funds to the University of Hawaii at Hilo.

Your Committees received testimony in support of this measure from the University of Hawai'i at Hilo, Department of Land and Natural Resources, Department of Agriculture, Office of the Mayor of the County of Hawai'i, Hawaii Farm Bureau, Hawai'i Farm to School and School Garden Hui, Big Island Invasive Species Committee, Hawaii Farmers and Ranchers United, Farm to Keiki, and thirty-one individuals. Your Committees received comments on this measure from the Department of Health.

Your Committees find that rat lungworm disease is a relatively new, but very serious, pathogen that plagues fresh produce grown in Hawaii. Over the past fifteen years, cases of rat lungworm disease in Hawaii have been increasing in number and severity, in particular

throughout areas of the Island of Hawaii and more recently affecting Maui as well. The rat lungworm parasite is primarily carried through the activity of rats and slugs, and can cause a rare type of meningitis that is extremely painful, debilitating, and even deadly. Furthermore, the medical expenses associated with contracting rat lungworm disease can be over \$1,000,000. Your Committees find that the more the public understands the hazards of this disease, the less of a public health issue it will become, but that more research is also vital to understanding and preventing this disease. Your Committees note the significant amount of supportive testimony submitted on this measure, and recognize the need for vigorous, coordinated efforts to effectively combat this public health concern.

Your Committees have amended this measure by inserting an effective date of July 1, 2050, to encourage further discussion.

As affirmed by the records of votes of the members of your Committees on Commerce, Consumer Protection, and Health and Ways and Means that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 272, S.D. 1, as amended herein, and recommend that it pass Third Reading in the form attached hereto as S.B. No. 272, S.D. 2.

Signed by the Chairs on behalf of the Committees.

Commerce, Consumer Protection, and Health: Ayes, 6. Noes, none. Excused, 1 (Ruderman).

Ways and Means: Ayes, 9. Noes, none. Excused, 2 (Inouye, Wakai).

SCRep. 733 (Joint) Commerce, Consumer Protection, and Health and Ways and Means on S.B. No. 720

The purpose and intent of this measure is to appropriate monies to the Department of Kinesiology and Rehabilitation Science of the University of Hawaii for the concussion education and monitoring program and concussion and awareness program for school athletics and youth athletic activities.

Your Committees received testimony in support of this measure from the Department of Education; University of Hawai'i System College of Education; Hydroponics Alternatives, LLC; and two individuals.

Your Committees find that concussions and other head injuries pose a significant risk to student and youth athletes. The damage from a head injury often becomes much more severe if the injury is not quickly and accurately recognized and the injured athlete returns to competition too soon. For this reason, it is vital for students and other youth in the State to have reliable information about concussions, and for student and youth athletes to be tested and monitored for possible concussions.

Your Committees have amended this measure by:

- (1) Changing the appropriation amount from \$450,000 to a blank amount; and
- (2) Inserting an effective date of July 1, 2050, to encourage further discussion.

As affirmed by the records of votes of the members of your Committees on Commerce, Consumer Protection, and Health and Ways and Means that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 720, as amended herein, and recommend that it pass Third Reading in the form attached hereto as S.B. No. 720, S.D. 1.

Signed by the Chairs on behalf of the Committees.

Commerce, Consumer Protection, and Health: Ayes, 5. Noes, none. Excused, 2 (Espero, Ruderman).

Ways and Means: Ayes, 9. Noes, none. Excused, 2 (Inouye, Wakai).

SCRep. 734 (Joint) Commerce, Consumer Protection, and Health and Ways and Means on S.B. No. 748

The purpose and intent of this measure is to increase the availability of child care facility inspection information by requiring the Department of Human Services to post its inspection records of child care facilities on a public website and submit an annual report to the Legislature of certain information from inspection records related to child care facilities.

Your Committees received testimony in support of this measure from the Hawaii Children's Action Network and fifty-nine individuals. Your Committees received comments on this measure from the Department of Human Services and one individual.

Your Committees find that safe child care should be a priority for the State because child care is a necessity for many local families. Through the Department of Human Services, the State regulates and inspects child care facilities to ensure that all children are safe and healthy. Requiring the Department of Human Services to post its inspection records of child care facilities on its website may help bring assurance to families who are seeking or using child care services from these facilities.

Your Committees recognize that it is important for state law to conform with federal requirements that only require the public posting of substantiated complaints in which the State has found violations of regulatory requirements. According to the Department of Human Services, limiting postings only to substantiated complaints will also allow the public easier and faster access to critical information without having to sort through unsubstantiated reports. In addition, your Committees note that the Department of Human Services may need additional resources in order to successfully comply with the posting and reporting requirements of this measure.

Accordingly, your Committees have amended this measure by:

- (1) Inserting language to conform with federal law by mandating the Department of Human Services to post its inspection records of child care facilities on a public website if the record involves a substantiated complaint;
- (2) Inserting a blank appropriation to the Department of Human Services for the Department to post its inspection records of child care facilities on a public website and submit an annual report to the Legislature with information from child care facility inspection records; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Commerce, Consumer Protection, and Health and Ways and Means that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 748, as amended herein, and recommend that it pass Third Reading in the form attached hereto as S.B. No. 748, S.D. 1.

Signed by the Chairs on behalf of the Committees.

Commerce, Consumer Protection, and Health: Ayes, 5. Noes, none. Excused, 2 (Espero, Ruderman).

Ways and Means: Ayes, 9. Noes, none. Excused, 2 (Inouye, Wakai).

SCRep. 735 (Joint) Commerce, Consumer Protection, and Health and Ways and Means on S.B. No. 945

The purpose and intent of this measure is to establish a framework for authorizing post-secondary degree-granting educational institutions that have applied for accreditation by an accrediting agency recognized by the United States Department of Education.

Your Committees received testimony in support of this measure from the Department of Commerce and Consumer Affairs. Your Committees received comments on this measure from one individual.

Your Committees find that post-secondary students in Hawaii will benefit from the additional oversight and monitoring of the accreditation process by the Department of Commerce and Consumer Affairs. This measure provides a mechanism for post-secondary degree-granting institutions that are in the process of qualifying for full accreditation to receive provisional authorization by the Department of Commerce and Consumer Affairs and is in line with most other states, which have in place a mechanism to issue some type of temporary state authorization or approval to post-secondary institutions that are in the process of applying for accreditation.

As affirmed by the records of votes of the members of your Committees on Commerce, Consumer Protection, and Health and Ways and Means that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 945, S.D. 1, and recommend that it pass Third Reading.

Signed by the Chairs on behalf of the Committees.

Commerce, Consumer Protection, and Health: Ayes, 6. Noes, none. Excused, 1 (Ruderman).

Ways and Means: Ayes, 9. Noes, none. Excused, 2 (Inouye, Wakai).

SCRep. 736 (Joint) Commerce, Consumer Protection, and Health and Ways and Means on S.B. No. 1154

The purpose and intent of this measure is to clarify that the comprehensive loss reduction plan of the Hawaii Hurricane Relief Fund shall include implementing building code requirements for hurricane standards in accordance with state building code and design standards and funding for the adoption of administrative rules to implement state building code and design standards.

Your Committees received testimony in support of this measure from the Department of Defense; Department of Labor and Industrial Relations; County of Maui Department of Fire & Public Safety; The Maritime Group; American Society of Civil Engineers, Hawaii Section; and Structural Engineers Association of Hawaii. Your Committees received comments on this measure from the Hawaii Hurricane Relief Fund.

Your Committees find that this measure will allow the Hawaii Hurricane Relief Fund and the State Building Code Council to simultaneously carry out their responsibilities to implement the loss mitigation standards relating to hurricane peril. The State Building Code Council is required to adopt building codes within 18 months of publishing a new edition. However, presently, many building codes still reference their 2006 editions despite new editions in recent years. Lack of funding to facilitate the adoption of administrative rules has stalled the process. Your Committees further find that allowing the State Building Code Council to work alongside the Hawaii Hurricane Relief Fund will make updating the building codes more effective and will better support the safety and general welfare of Hawaii residents.

As affirmed by the records of votes of the members of your Committees on Commerce, Consumer Protection, and Health and Ways and Means that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1154 and recommend that it pass Third Reading.

Signed by the Chairs on behalf of the Committees.

Commerce, Consumer Protection, and Health: Ayes, 6. Noes, none. Excused, 1 (Ruderman).

Ways and Means: Ayes, 9. Noes, none. Excused, 2 (Inouye, Wakai).

SCRep. 737 Ways and Means on S.B. No. 1146

The purpose and intent of this measure is to exempt new housing units that are reserved for persons or families with incomes up to eighty percent of the area median income from school impact fee requirements.

Your Committee received written comments in support of this measure from the Hawaii Public Housing Authority, the Office of Planning, HE'E Coalition, and one individual.

Your Committee received written comments in opposition to this measure from BIA Hawaii, the Chamber of Commerce Hawaii, and IMUAlliance.

Your Committee received written comments on this measure from the Hawaii Housing Finance and Development Corporation and the Hawaii State Teachers Association.

Your Committee finds that school impact fees can significantly increase the cost of building new housing and that there currently is a serious shortage of affordable housing in the State. Your Committee further finds that exempting from school impact fees all new housing units that are reserved for persons or families with incomes up to eighty percent of the area median income will encourage the development of affordable housing.

Your Committee has amended this measure by:

- (1) Changing the reference to housing "located on the island of Oahu" to "located in a county with a population greater than five hundred thousand," to avoid a potential conflict with Article VIII, section 1, of the Hawaii Constitution, which has been interpreted to preclude application of a special law that pertains to a single county by name; and
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1146, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1146, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 11. Noes, none. Excused, none.

SCRep. 738 Ways and Means on S.B. No. 823

The purpose and intent of this measure is to mandate health insurance coverage for services performed by naturopathic physicians.

Specifically, this measure:

- (1) Requires insurers, mutual benefit societies, fraternal benefit societies, and health maintenance organizations to provide coverage for health care services provided by naturopathic physicians; and
- (2) Requires the Insurance Commissioner to receive and investigate complaints relating to discrimination against a health care provider.

Your Committee received written comments in support of this measure from two individuals. Your Committee received written comments in opposition to this measure from Kaiser Permanente and University Health Alliance. The Hawaii Medical Service Association submitted written comments on this measure.

Your Committee finds that naturopathic physicians are licensed and regulated pursuant to chapter 455, Hawaii Revised Statutes. Naturopathic physicians provide diagnosis, prevention, and treatment of many disorders of the body. Numerous members of the public have experienced positive health results from treatment through naturopathic medicine. However, insurance coverage for the services of naturopathic physicians is inconsistent throughout the State. Your Committee further finds that requiring insurance coverage for the services of naturopathic physicians will afford members of the public with broader and better access to the health care they desire.

Your Committee has amended this measure by changing the effective date to June 1, 2050, to facilitate further discussion.

In light of the requirement imposed by the federal Patient Protection and Affordable Care Act that prohibits insurance companies from discriminating against a licensed health care provider, along with an increasing desire by the public for insurance coverage of naturopathic services, your Committee acknowledges the need for the Auditor to update its 1989 report, Study of Proposed Mandatory Health Insurance for Naturopathic Care, Report No. 89-25. Your Committee respectfully requests that subsequent Committees to which this measure is referred consider this matter further.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 823, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 823, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 7. Noes, none. Excused, 4 (Dela Cruz, Inouye, Kahele, Shimabukuro).

SCRep. 739 Ways and Means on S.B. No. 425

The purpose and intent of this measure is to mandate paid sick leave for hourly employees who work for private employers of fifty or more workers.

Your Committee received written comments in support of this measure from Hawaii State AFL-CIO, ILWU Local 142, the Graduate Student Organization at the University of Hawaii at Manoa, Hawaii Government Employees Association, and two individuals.

Your Committee received written comments in opposition to this measure from the Chamber of Commerce Hawaii, Hawaii Restaurant Association, Hawaii Food Industry Association, Motion Picture Association of America, Big City Diner, Tiki's Grill and Bar, IL Gelato Hawaii, Ruby Tuesday Hawaii and Gyu-Kaku Hawaii, Maui Hotel and Lodging Association, Highway Inn, and Eggs 'n Things.

The Department of Labor and Industrial Relations and Hawaii Children's Action Network submitted written comments on this measure.

Your Committee finds that over forty percent of private sector employees cannot take a paid sick day when they are ill or they need to care for an ill child. Your Committee further finds that requiring large private employers to provide their hourly employees with paid sick leave will encourage sick employees to stay home and recover, which will reduce the spread of disease, increase employee productivity, and help to control healthcare costs.

Your Committee has amended this measure by:

- (1) Authorizing the parties to a collective bargaining contract to waive the paid sick leave requirements established by this measure if the waiver is clearly and unambiguously stated in a collective bargaining agreement; and
- (2) Making technical nonsubstantive amendments for purposes of style, clarity, and consistency.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 425, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 425, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 7. Noes, none. Excused, 4 (Dela Cruz, Inouye, Shimabukuro, Wakai).

SCRep. 740 Ways and Means on S.B. No. 682

The purpose and intent of this measure is to extend the sunset date of the alternative energy research and development pilot program from June 30, 2017, to June 30, 2019, and to appropriate funds for the program to provide grants to qualified businesses conducting research and development in alternative energy.

Your Committee received written comments in support of this measure from the High Technology Development Corporation, Navatek, Oceanit, Chamber of Commerce Hawaii, and six individuals.

Your Committee finds that the alternative energy research and development pilot program supports local companies conducting renewable energy research by providing funds to assist those companies in leveraging federal funds. In fiscal year 2015-2016, the High Technology Development Corporation awarded \$1,000,000 to three companies that secured \$11,300,000 of federal funding for alternative energy projects. Your Committee believes that extending the pilot program will keep high-paying, high-skilled jobs in Hawaii and will bring the State closer to its clean energy goal of one hundred percent renewable energy by the year 2045.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 6, 2041, to facilitate further discussion on the measure; and
- (2) Making technical nonsubstantive amendments for purposes of style, clarity, and consistency.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 682, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 682, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 10. Noes, none. Excused, 1 (Dela Cruz).

SCRep. 741 Ways and Means on S.B. No. 559

The purpose and intent of this measure is to further the State's commitment to combating climate change by systematically reducing and mitigating greenhouse gas emissions through the enactment of principles that mirror certain provisions adopted in 2015 at the 21st Conference of the Parties of the United Nations Framework Convention on Climate Change in an agreement addressing greenhouse gas emission, adaptation, and finance, known as the Paris Agreement.

More specifically, the measure:

- (1) Requires the State to undertake strategies and mechanisms to reduce and mitigate greenhouse gas emissions;
- (2) Requires the Department of Accounting and General Services to provide all state departments and agencies with information necessary for clarity, transparency, and understanding in order for each entity to reduce its greenhouse gas emissions;
- (3) Encourages the legislative, executive, and judicial branches of state government to implement and support policies to reduce greenhouse gas emissions through environmental protection;
- (4) Requires the State to promote sustainable development and ensure environmental integrity and transparency;
- (5) Declares that the State recognizes the importance of integrated, holistic, and balanced non-market approaches to reducing greenhouse gas emissions;
- (6) Establishes a statewide goal of adaptation and reduction of vulnerability to climate change;
- (7) Requires all state departments and agencies to strengthen their cooperation with other parties on enhancing adaptation;
- (8) Requires the Department of Accounting and General Services to engage in adaptation planning processes and to submit annual adaptation reports;
- (9) Specifies areas of cooperation and facilitation that the State shall support;
- (10) Requires the State to hold a long-term vision on the importance of fully realizing technology development and transfer to improve resilience to climate change and reduce greenhouse gas emissions;
- (11) Requires the submission of informational reports; and
- (12) Appropriates an unspecified sum of money for administering strategies and mechanisms to reduce and mitigate the greenhouse gas emissions of state departments and agencies.

Your Committee received written comments in support of this measure from the Department of Land and Natural Resources, Healthy Climate Communities, The Maritime Group, LLC, The Nature Conservancy, and fourteen individuals.

Your Committee received written comments in opposition to this measure from two individuals.

Your Committee received written comments on this measure from the Department of Accounting and General Services and the Office of Planning.

Your Committee finds that the State should support the goals of the Paris Agreement to combat climate change and its effects on environments, economies, and communities around the world. One hundred ninety-five countries adopted the Paris Agreement at the 21st Conference of the Parties of the United Nations Framework Convention on Climate Change to address greenhouse gas emissions mitigation, adaptation, and finance starting in the year 2020.

Your Committee further finds that requiring state agencies to submit an annual report to the Legislature regarding the State's actions and capabilities and resources to implement the goals of the Paris Agreement would help the State prioritize necessary actions to reduce and mitigate greenhouse gas emissions.

Your Committee has amended this measure by:

- (1) Clarifying that information required by the measure from the Department of Accounting and General Services shall be provided in the form of an annual report to the Governor and the Legislature;
- (2) Requiring that the Department of Land and Natural Resources and the Department of Accounting and General Services jointly submit a report including specified information regarding the State's actions and capabilities and resources to implement the goals of the Paris Agreement to the Legislature prior to the convening of the Regular Session of 2018;
- (3) Changing the effective date to March 9, 2092, to facilitate further discussion on the measure; and
- (4) Making technical nonsubstantive amendments for the purpose of clarity.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 559, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 559, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 8. Noes, none. Excused, 3 (Dela Cruz, Inouye, Wakai).

SCRep. 742 Ways and Means on S.B. No. 491

The purpose and intent of this measure is to appropriate funds as a grant-in-aid to the Department of the Prosecuting Attorney of the City and County of Honolulu for the Career Criminal Prosecution Unit.

Your Committee received written comments in support of this measure from the Department of the Attorney General, Office of the Prosecuting Attorney of the County of Hawaii, and the Department of the Prosecuting Attorney of the City and County of Honolulu.

Your Committee finds that supporting a strong and effective prosecutor's office is vital to protecting the health, safety, and welfare of the public. In 1979, the Legislature created the Career Criminal Prosecution Program to address the problem of "career criminals" who are responsible for a disproportionate number of the serious crimes committed against the public. This program has been effective in assisting county prosecutors' offices in delivering swift and effective justice.

Your Committee notes that the Department of the Prosecuting Attorney of the City and County of Honolulu has stated that the current balance necessary to maintain the program at its current level of operation within the department is \$492,125.

Your Committee has amended this measure by changing the effective date to July 1, 2050, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 491, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 491, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 8. Noes, none. Excused, 3 (Dela Cruz, English, Kahele).

SCRep. 743 Ways and Means on S.B. No. 1147

The purpose and intent of this measure is to require the strategic plan developed by the Hawaii Interagency Council for Transit-Oriented Development to require that affordable housing be included as part of the development or redevelopment plan for any state property located within one-half mile of the Honolulu rail transit system.

Your Committee received written comments in support of this measure from EAH Housing.

Your Committee received written comments in opposition to this measure from the Hawaii Housing Finance and Development Corporation and the Office of Planning.

Your Committee received written comments on this measure from the Department of Human Services and Department of Land and Natural Resources.

Your Committee finds that there is a critical need for affordable housing in the State and that construction by the City and County of Honolulu of a rail transit project on the island of Oahu presents unique opportunities to encourage and require the development of new affordable housing near the rail line.

The State is the largest owner of land along the rail line and thus has a significant opportunity to apply resources to promote the creation of new affordable housing. Your Committee believes that requiring the inclusion of affordable housing as part of the development or redevelopment plan for any state property located within one-half mile of the rail line will lead to the development of new affordable housing that will be served by a modern mass transit system.

Your Committee notes that properties owned or controlled by the Hawaii Public Housing Authority or the Department of Hawaiian Home Lands must comply with specific federal regulations that may conflict with the requirements of this measure, and thus they should be exempted from those requirements. Your Committee also notes that the question of how to finance infrastructure improvements on applicable state lands remains unresolved, with particular reference to sewer systems.

Your Committee has amended this measure by:

- (1) Clarifying that certain alternative options pertaining to the construction of affordable housing on state lands apply to housing constructed within one-half mile of the rail line, rather than at rail stations;
- (2) Changing the percentages of affordable housing that shall be reserved for residents with certain income levels, from ten per cent to five per cent for residents with an income less than or equal to thirty per cent of the area median income, and from ten per cent to fifteen per cent for residents with an income greater than sixty per cent but less than or equal to eighty per cent of the area median income;
- (3) Exempting properties owned or controlled by the Hawaii Public Housing Authority or the Department of Hawaiian Home Lands from the affordable housing requirements because of possible conflict with specific federal regulations; and
- (4) Changing the effective date to December 16, 2050, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1147, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1147, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, none. Excused, 3 (Dela Cruz, Inouye, Wakai).

SCRep. 744 Ways and Means on S.B. No. 1030

The purpose and intent of this measure is to exempt marine terminal equipment temporarily moving between Sand Island Parkway and Sand Island Access Road from vehicle registration, safety inspection, and driver licensure requirements.

Your Committee received written comments in support of this measure from the Department of Transportation, Maritime Group LLC, and Matson.

Your Committee finds that this measure promotes operational efficiencies at the harbors by streamlining existing processes to allow marine equipment the ability to move between terminals and by affording harbor users the ability to re-allocate resources as needed. Your Committee further finds that impact on vehicular traffic activity will be limited by applying this exemption only to the area between Sand Island Parkway and Sand Island Access Road.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of consistency, clarity, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1030, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1030, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, none. Excused, 3 (Dela Cruz, English, Kahele).

SCRep. 745 Ways and Means on S.B. No. 1088

The purpose and intent of this measure is to appropriate funds for the certification of a reforestation project at Haleakala, Maui, operated by the Department of Land and Natural Resources under an established forest carbon standard certification system.

Your Committee received written comments in support of this measure from the Department of Land and Natural Resources, The Nature Conservancy, and Sierra Club of Hawaii.

Your Committee finds that carbon projects directly contribute to many sustainability goals of the State and that the Department of Land and Natural Resources proposes to certify a reforestation project on state lands. Your Committee notes that the Department of Land and Natural Resources has secured funding for the restoration project activities through federal and state resources but needs an initial investment for the certification of the carbon project under an established forest carbon standard. Your Committee recognizes that this one-time appropriation to support the restoration project serves the public through efforts to mitigate the impacts of climate change and environmental degradation. Your Committee believes that success of this project will result in converting degraded pastureland back to native forest to sequester carbon, reduce erosion, increase water supply recharge, re-establish endangered species habitat, mitigate wildfire threats, and support numerous other natural and cultural benefits important to the people of Hawaii.

Your Committee has amended this measure by:

- (1) Changing the appropriation amount for fiscal years 2017-2018 and 2018-2019 from \$120,000 respectively to an unspecified amount; and
- (2) Changing the effective date to July 1, 2099, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1088, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1088, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, 5 (Dela Cruz, Inouye, Kahele, Shimabukuro, Taniguchi).

SCRep. 746 Ways and Means on S.B. No. 558

The purpose and intent of this measure is to appropriate funds to establish invasive species technician positions in east Maui for the Department of Land and Natural Resources' Division of Forestry and Wildlife.

Your Committee received written comments in support of this measure from the Department of Land and Natural Resources, Department of Agriculture, Hawaii Cattlemens Council, Conservation Council for Hawaii, Hawaii Farm Bureau, and three individuals.

Your Committee finds that the invasion of non-native insects, disease bearing organisms, weeds, and other pests is a major threat to Hawaii's economy, natural environment, and health. Your Committee further finds that preventing the arrival of new pests and halting the spread of established pests are essential to the State's present and future well-being.

Your Committee has amended this measure by:

- (1) Changing the amounts appropriated in fiscal years 2017-2018 and 2018-2019 from \$500,000 respectively for each year to unspecified sums;
- (2) Changing the number of permanent full-time equivalent invasive species technician positions from five to an unspecified number; and
- (3) Changing the effective date to March 9, 2092, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 558, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 558, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 9. Noes, none. Excused, 2 (Dela Cruz, Taniguchi).

SCRep. 747 Ways and Means on S.B. No. 783

The purpose and intent of this measure is to amend the important agricultural land qualified agricultural cost tax credit.

More specifically, this measure:

- (1) Repeals the provision that makes the claiming of the important agricultural land qualified agricultural cost tax credit contingent upon the repeal, exhaustion, or expiration of the tax credit for the aquarium and marine science and mammal research facility at Ko Olina Resort and the training and educational facilities at Makaha Resort;
- (2) Expands the definition of "qualified agricultural costs" to include expenditures for the clearing of, removal of trees and debris from, and soil restoration to correct any nutrient deficiency that is present on, former sugar and pineapple plantation lands; and
- (3) Repeals the provision that requires the Department of Agriculture to cease certifying credits after 2017.

Your Committee received written comments in support of this measure from one individual.

Your Committee received written comments on this measure from the Department of Agriculture and Department of Taxation.

Your Committee finds that Act 233, Session Laws of Hawaii 2008, established a variety of incentives and protections to establish and sustain viable agricultural operations on important agricultural lands. Your Committee also finds that many former sugar and pineapple plantation lands have become overgrown and that clearing out these lands and restoring the soil can be very costly to farmers who wish to return the land to agricultural use. Your Committee further finds that this measure is intended to assist these farmers, while building upon the incentives established by Act 233.

Your Committee has amended this measure by:

- (1) Clarifying that the expanded definition of "qualified agricultural costs" applies to former sugar and pineapple plantation lands that have been out of agricultural use for more than five years and are to be used primarily for agricultural purposes;
- (2) Making a correction to accurately reflect the text format of section 235-110.93, Hawaii Revised Statutes; and
- (3) Making the Act apply to taxable years beginning after December 31, 2017.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 783, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 783, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, none. Excused, 3 (Dela Cruz, English, Kahele).

SCRep. 748 Ways and Means on S.B. No. 971

The purpose and intent of this measure is to change the means of funding for the statewide emergency medical system.

More specifically, the measure:

- (1) Repeals the emergency medical services special fund;
- (2) Redirects the fund's revenue sources to the general fund; and
- (3) Appropriates general funds to support the statewide emergency medical system.

Your Committee received written comments in support of this measure from Hana Health.

Your Committee finds that anti-smoking campaigns have contributed to the decline in cigarette use in Hawaii. The decline in cigarette purchases, however, has also led to a decline in cigarette tax revenues and associated deposits to the emergency medical services special fund. Your Committee believes that repealing the emergency medical services special fund, redirecting the fund's

revenue sources to the general fund, and making general fund appropriations for the programs funded by the emergency medical services special fund will promote more prudent budgeting of emergency medical system expenses and provide a more stable means of funding.

Your Committee has amended this measure by:

- (1) Changing the amount appropriated for the statewide comprehensive emergency medical services system for fiscal years 2017-2018 and 2018-2019 from \$14,796,503 to an unspecified sum; and
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 971, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 971, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 8. Noes, none. Excused, 3 (Dela Cruz, Taniguchi, Wakai).

SCRep. 749 Ways and Means on S.B. No. 947

The purpose and intent of this measure is to improve the regulation of beauty culture licensees and permittees.

More specifically, the measure:

- (1) Authorizes the Department of Commerce and Consumer Affairs to issue citations for certain violations of laws and administrative rules that apply to beauty culture licensees and permittees; and
- (2) Establishes a process for cited beauty culture licensees and permittees to contest the citation.

Your Committee received written comments in support of this measure from the Regulated Industries Complaints Office of the Department of Commerce and Consumer Affairs and the Board of Barbering and Cosmetology.

Your Committee finds that authorizing the Department of Commerce and Consumer Affairs to issue citations for technical violations of laws and administrative rules pertaining to beauty culture licensees and permittees will promote compliance with those laws and administrative rules, and will enable the department's Regulated Industries Complaints Office to focus its personnel and other resources on more serious violations.

Your Committee has amended this measure by clarifying that name tags that shall be worn by certain beauty school employees during hours of instruction shall state the employee's full name, and that signs displayed in beauty school reception and work rooms shall be displayed in each of those rooms using letters not less than one-half inch high.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 947, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 947, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 7. Noes, none. Excused, 4 (Dela Cruz, Inouye, Kahele, Shimabukuro).

SCRep. 750 Ways and Means on S.B. No. 715

The purpose and intent of this measure is to expand the membership of the special action team on affordable rental housing to include the executive director of the Hawaii Community Development Authority and the executive director of the Hawaii Public Housing Authority.

Your Committee received written comments in support of this measure from the Office of Planning and the Hawaii Public Housing Authority.

Your Committee received written comments on this measure from the Hawaii Community Development Authority.

Your Committee finds that the Hawaii Community Development Authority has jurisdiction over areas conducive to the development of affordable rental housing, and the Hawaii Public Housing Authority provides affordable rental housing for low-income families and individuals. For those reasons, your Committee believes that the executive directors of both agencies would be valuable additions to the Special Action Team on Affordable Rental Housing.

Your Committee has amended this measure by removing language authorizing the executive directors of the Hawaii Community Development Authority and the Hawaii Public Housing Authority to appoint designees to represent their respective agency on the special action team, as members already have that authority under section 6(b) of Act 127, Session Laws of Hawaii 2016.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 715, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 715, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 8. Noes, none. Excused, 3 (Inouye, Taniguchi, Wakai).

SCRep. 751 Ways and Means on S.B. No. 765

The purpose and intent of this measure is to increase funding for community-based economic development projects through a structure that facilitates the use of the federal new market tax credit.

Specifically, the measure:

- (1) Establishes a definition of “qualified community development entity” that mirrors the definition found in the Internal Revenue Code, to allow the State to provide financing for projects through the Hawaii Community-Based Economic Development Technical and Financial Assistance Program;
- (2) Expands the methods of delivering funding to projects under the program by providing loans to capitalize a qualified community development entity; and
- (3) Amends the cap on loan amounts and terms.

Your Committee received written comments in support of this measure from Pacific Growth Associates and Pana’ewa Hawaiian Home Lands Community Association.

The Department of Taxation and Department of Business, Economic Development, and Tourism submitted written comments on the measure.

Your Committee finds that the Hawaii Community-Based Economic Development Technical and Financial Assistance Program, facilitated by the Department of Business, Economic Development, and Tourism, provides financial assistance to community-based businesses and enterprises in the form of low-interest loans and grants to qualifying applicants. Your Committee also finds that the federal New Market Tax Credit Program was intended to attract capital to low-income communities by giving private investors a federal income tax credit for qualified equity investments in qualified community development entities. By definition, a qualified community development entity is a domestic corporation or partnership whose primary mission is to serve, or provide investment capital for, low-income communities or low-income persons. Thus, the investments made in qualified community development entities are expected to result in job creation and an improved quality of life for low-income communities, such as the development of small businesses, restaurants, childcare facilities, community centers, health care facilities, and mixed-use buildings with affordable housing. For these reasons, your Committee finds that connecting the Hawaii Community-Based Economic Development Technical and Financial Assistance Program with new investment capital incentivized by the federal tax credit will facilitate community-based economic development efforts in the State.

Your Committee has amended this measure by:

- (1) Making conforming amendments to the purpose section to more accurately reflect the substantive provisions of the measure; and
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 765, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 765, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 10. Noes, none. Excused, 1 (Dela Cruz).

SCRep. 752 Ways and Means on S.B. No. 100

The purpose and intent of this measure is to amend the requirements for the Auditor’s review of various tax exemptions, exclusions, credits, and deductions.

More specifically, this measure:

- (1) Requires the Department of Taxation to provide the Auditor with tax records;
- (2) Clarifies the standards to be used by the Auditor in the reviews;
- (3) Delays the review schedules by one year; and
- (4) Adds the organic foods production tax credit to the tax credits that shall be reviewed by the Auditor.

Your Committee received written comments in support of this measure from the Office of the Auditor. Your Committee received comments on this measure from the Department of Taxation, Tax Foundation of Hawaii, and Island Energy Services.

Your Committee finds that Acts 245 and 261, Session Laws of Hawaii 2016, require the Auditor to review certain tax exemptions, exclusions, credits, and deductions. The Acts also require the Auditor to determine various tax expenditures and to estimate future expenditures. Your Committee also finds that the Auditor cannot conduct the reviews without meaningful tax data, but that the Department of Taxation has not completed the tax system modernization project necessary to provide the data. Accordingly, your Committee believes that it would be prudent to delay the reviews by one year so that the tax system modernization project can be completed, which will make it easier to generate accurate and relevant tax data.

Your Committee also requests that the Department of Taxation and the Auditor cooperate to provide relevant tax data in aggregated form so that the data, to the extent possible, may be republished without violating confidentiality laws and related restrictions on the disclosure of information.

Your Committee has amended this measure by:

- (1) Correcting a reference in the purpose section to reflect that the Department of Taxation shall provide the Auditor with access to the taxation records;
- (2) Requiring that the reviews of the credits, exclusions, and deductions be made on a calendar year basis, rather than a fiscal year basis; and

- (3) Making a technical nonsubstantive amendment for purposes of style, clarity, and consistency.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 100, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 100, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, 5 (Dela Cruz, Inouye, Kahele, Shimabukuro, Taniguchi).

SCRep. 753 Ways and Means on S.B. No. 635

The purpose and intent of this measure is to improve the management of fresh water supplies in the State.

More specifically, the measure:

- (1) Establishes a two-year water conservation financial assistance pilot program for county-owned water supply departments to implement their respective water conservation incentive programs; and
- (2) Appropriates \$500,000 out of the general revenues of the State for fiscal year 2017-2018 and an equal amount for fiscal year 2018-2019 for the pilot program, to be disbursed to each county on a pro rata basis by population and matched by each county on a dollar-for-dollar basis.

Your Committee received written comments in support of this measure from the Department of Land and Natural Resources, the Board of Water Supply of the City and County of Honolulu, the Hawaii Community Foundation, the Hawaii Fresh Water Initiative, Hawaii Green Growth, The Nature Conservancy, the Sierra Club of Hawaii, Ulu pono Initiative, U.S. Green Building Council Hawaii Chapter, Central Pacific Tanks, Inc., One World One Water, LLC, and four individuals.

Your Committee finds that fresh water is one of the State's most precious natural resources and that water utilities and their customers should maximize efficiency with regard to managing and using water.

Your Committee further finds that moneys appropriated for this two-year water conservation financial assistance pilot program for county-owned water supply departments to implement their respective water conservation incentive programs should be allocated equally among the counties rather than disbursed on a prorated basis by population.

Your Committee has amended this measure by:

- (1) Changing the appropriation from \$500,000 per year to an unspecified amount to facilitate further discussion on the measure;
- (2) Providing that the moneys appropriated for the two-year water conservation financial assistance pilot program for county-owned water supply departments to implement their respective water conservation incentive programs shall be allocated equally among the counties rather than disbursed on a prorated basis by population; and
- (3) Changing the effective date to July 1, 2009, to facilitate further discussion on the measure;

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 635, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 635, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, 5 (Dela Cruz, Inouye, Kahele, Shimabukuro, Taniguchi).

SCRep. 754 Ways and Means on S.B. No. 503

The purpose and intent of this measure is to require insurance coverage for appropriate, related case management services by qualified mental health providers for victims of sexual violence and abuse who suffer from mental illness.

The Hawaii State Commission on the Status of Women; American Association of University Women of Hawaii; Community Alliance on Prisons; Epic-Interventions, LLC; Hawaii Psychological Association; Hawaii Women's Coalition; IMUAlliance; National Association of Social Workers; Parents And Children Together; Planned Parenthood Votes Northwest and Hawaii; The Sex Abuse Treatment Center; YWCA Oahu; and one individual submitted comments in support of this measure.

The Department of Commerce and Consumer Affairs; the Department of Human Services; Domestic Violence Action Center; and Hawaii Medical Service Association provided comments on the measure.

Your Committee finds that sexual violence and abuse can have severe and lasting impacts on victims' emotional and mental health. Consequently, many victims have complex mental health problems that require clinical case management services by qualified mental health providers, in addition to psychotherapy. Your Committee also finds that it can be difficult for victims of sexual violence and abuse to obtain appropriate mental health services due to the limited availability of qualified service providers who are able to take on complex mental health cases. Your Committee further finds that clinical case management services are not generally covered by health insurers. This means that clinical case management services are often an unreimbursed expense, thus discouraging providers from accepting these complex cases. Your Committee believes that this measure would improve mental health services availability for victims of sexual violence and abuse.

Section 23-51, Hawaii Revised Statutes, requires that before any legislative measure that mandates health insurance coverage for specific health services can be considered, the Legislature must first adopt a concurrent resolution that requests the Auditor to prepare and submit to the Legislature a report that assesses both the social and financial effects of the proposed mandated coverage. Your Committee notes that the Legislature still needs to adopt such a concurrent resolution regarding the coverage mandated by this measure.

Your Committee has amended this measure by changing its effective date to June 1, 2050, to facilitate further discussion.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 503, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 503, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, 4 (Dela Cruz, Inouye, Kahele, Shimabukuro).

SCRep. 755 Ways and Means on S.B. No. 953

The purpose and intent of this measure is to make various amendments to the State's insurance code.

More specifically, these amendment relate to third-party claimants, insurance fraud penalties, certificates of authority, motor vehicle insurance self-insurers, nonresident adjusters, insurance producer licensing, and supervisory proceedings undertaken by the Insurance Commissioner.

The Department of Commerce and Consumer Affairs, and the Hawaii Insurers Council submitted written comments in support of this measure.

Hawaii Medical Service Association submitted written comments on this measure.

Your Committee finds that under current law, the Insurance Commissioner is required to wait until a catastrophe has occurred before the Commissioner may issue a declaration that permits the use of nonresident adjusters in the State. Among other reforms, this measure authorizes the Insurance Commissioner to use those adjusters in advance of the Governor's proclamation of emergency.

Your Committee further finds that this measure also conforms the State's producer licensing requirements to the National Association of Insurance Commissioners' Producer Licensing Model Act, which will make the State's requirements conform with requirements of other states.

Your Committee has amended this measure by:

- (1) Amending certain uses of the term "insurer" to ensure that the applicable provisions refer to an insurer who terminates a producer;
- (2) Amending one use of the term "producer" to ensure that the applicable provision refers to a producer that terminates an insurer; and
- (3) Deleting unnecessary statutory amendments regarding third-party claimants.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 953, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 953, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, 4 (Dela Cruz, Inouye, Kahele, Shimabukuro).

SCRep. 756 Commerce, Consumer Protection, and Health on S.B. No. 194

The purpose and intent of this measure is to require the Department of Health to accept the results of any tuberculosis test that is approved by the Food and Drug Administration and recommended by the Centers for Communicable Disease and Prevention for purposes of tuberculosis examination certificates.

Your Committee received testimony in support of this measure from eleven individuals.

Your Committee finds that tuberculosis testing is a requirement for many people in the State, including children entering school, school personnel, personnel working with high risk populations, and students enrolling in higher education programs. The skin reaction tuberculosis test currently used by the Department of Health requires two visits to the doctor or medical practitioner administering the test, and can cause complications in some patients. Your Committee further finds that other tests that are approved by the Food and Drug Administration exist with fewer risks of complication. Your Committee notes that the Department of Health is in the process of updating its rules to support an expanded range of approved tuberculosis tests.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 194 and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, 1 (Ruderman).

SCRep. 757 Ways and Means on S.B. No. 308

The purpose and intent of this measure is to preserve access to health care for Medicaid recipients.

More specifically, this Act:

- (1) Provides an annual inflationary adjustment in the methodology used to reimburse facilities for the long-term care of Medicaid recipients beginning with fiscal year 2017-2018; and
- (2) Appropriates funds to provide an inflationary adjustment to long-term care facilities' provider-specific prospective payment rates for fiscal years 2017-2018 and 2018-2019.

Your Committee received written comments in support of this measure from the Hawaii Health Systems Corporation, Healthcare Association of Hawaii, Hale Makua Health Services, Chamber of Commerce Hawaii, The Queen's Health Systems, Hawaii Pacific Health, Legacy of Life Hawaii, Hawaii Chapter of the American Physical Therapy Association, Ohana Pacific Management Company, and two individuals.

Your Committee received comments on this measure from the Department of Human Services.

Your Committee finds that there has not been an inflationary adjustment for Medicaid payments since fiscal year 2007-2008. Your Committee further finds that the inflationary adjustment provided by this measure will help economically stabilize the long-term care system in the State, allowing facilities to invest in needed maintenance and retain experienced staff.

Your Committee has amended this measure by changing the effective date to July 1, 2050, to facilitate further discussion on the measure.

Your Committee notes that it intends to consider including this appropriation in the General Appropriations Act of 2017.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 308, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 308, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 9. Noes, none. Excused, 2 (Inouye, Wakai).

SCRep. 758 Ways and Means on S.B. No. 500

The purpose and intent of this measure is to formally establish the resources for enrichment, athletics, culture, and health (R.E.A.C.H) program.

Specifically, this measure:

- (1) Establishes the R.E.A.C.H. program within the Department of Education Office of Community Engagement for the purpose of enhancing after-school programs in public schools;
- (2) Establishes the R.E.A.C.H. program special fund to deposit revenues from fees assessed by and appropriations for the program; and
- (3) Requires the Office of Community Engagement to submit annual reports to the Legislature on the expenditure of funds for services funded by the program.

Your Committee received written comments in support of this measure from the Office of the Lieutenant Governor, the Department of Education, the State Public Charter School Commission, the Office of Hawaiian Affairs, the Department of Education Honolulu District Office, Lanai High and Elementary School, Department of Human Services Office of Youth Services, Keaau Middle School, Stevenson Middle School, Maui High School, Waialua High and Intermediate School, Molokai Middle School, Hawaii Youth Services Network, American Heart Association, Hui for Excellence in Education, Hawaii Medical Service Association, Kapolei Middle School, and four individuals.

Your Committee received comments on this measure from the Department of Budget and Finance.

Your Committee finds that over half of first-time juvenile arrests are of youth within the middle school age range. Your Committee further finds that after school programs keep children engaged, away from crime, and on a path that leads to success. A single program to coordinate and align all after-school programs will help to standardize framework and funding and maximize the benefit of revenues collected by and appropriations made for after-school programs.

Your Committee has amended this measure by:

- (1) Changing the program specialist for the R.E.A.C.H. program from an appointee of the Governor to an employee of the Department of Education; and
- (2) Specifying a deadline for the Community Engagement Office to submit the report to the Legislature.

To provide necessary funding for the R.E.A.C.H. program, your Committee intends to consider including a general fund appropriation for the program within the General Appropriations Act of 2017.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 500, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 500, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 9. Noes, none. Excused, 2 (Inouye, Wakai).

SCRep. 759 Ways and Means on S.B. No. 2

The purpose and intent of this measure is to require the Office of the Auditor to conduct a study to assess the impact of using Medicaid funds to provide coverage for the treatment of homelessness.

Your Committee received written comments in support of this measure from The Queen's Health Systems, the Institute for Human Services, Hawaii Association for Behavioral Analysis, and three individuals.

Your Committee received written comments on this measure from the Department of Human Services and the Governor's Coordinator on Homelessness.

Your Committee finds that there is an integral link between health and housing, especially for individuals who are chronically homeless. Individuals without housing often struggle to address their health needs, while those who are unable to address their health needs often struggle to obtain and retain housing. Your Committee further finds that the cost of caring for and treating the State's homeless population, including spending on hospitals, long-term care facilities, and home-based services, continues to rise. Your Committee recognizes that ensuring the availability of quality health care and preventative services can successfully mitigate increased future demand for high-cost medical services. Your Committee finds that a study by the Auditor is a necessary next step in a potentially transformative approach for treating the homeless population in the State.

Your Committee has amended this measure by:

- (1) Appropriating an unspecified sum of general funds for fiscal year 2017-2018, that is to be matched with federal funds, to cover the costs of the study; and
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 9. Noes, none. Excused, 2 (Inouye, Wakai).

SCRep. 760 Ways and Means on S.B. No. 430

The purpose and intent of this measure is to update the State's law that regulates athlete agents.

Specifically, the measure repeals the Uniform Athlete Agents Act and replaces it with the Revised Uniform Athlete Agents Act, which:

- (1) Expands the definition of "athlete agent" to include financial advisors under certain circumstances;
- (2) Requires reciprocity for athlete agents registered in more than one state;
- (3) Strengthens requirements for athlete agent contracts; and
- (4) Strengthens requirements for athlete agents to provide notifications to the educational institutions in which the student athlete is enrolled.

Your Committee received written comments in support of this measure from the Professional and Vocational Licensing Division of the Department of Commerce and Consumer Affairs, the University of Hawaii, and the Commission to Promote Uniform Legislation.

Your Committee received written comments on this measure from the Regulated Industries Complaints Office of the Department of Commerce and Consumer Affairs.

Your Committee finds that recruitment of student athletes in an improper manner can cause substantial eligibility problems for both the student athlete and the educational institution, which in turn can lead to severe economic sanctions and loss of scholarships for the institution. Since the adoption of the Uniform Athlete Agents Act, however, a variation of the sports agent problem has been developing in the form of "financial advisors" who are not regulated under that act. This measure is therefore needed to close the current double standard between financial advisors and athlete agents.

Your Committee has amended this measure by clarifying that a violation that shall constitute an unfair or deceptive act or practice under the measure is an act committed by the athlete agent.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 430, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 430, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 7. Noes, none. Excused, 4 (Dela Cruz, Inouye, Kahele, Shimabukuro).

SCRep. 761 Ways and Means on S.B. No. 536

The purpose and intent of this measure is to appropriate funds to the Department of Health for a fall prevention and early detection coordinator position.

Your Committee received written comments in support of this measure from the Hawaii Chapter of the American Physical Therapy Association, AARP Hawaii, ILWU Local 142, and four individuals.

Your Committee finds that falls are among the leading causes of hospitalization and severe injury among the elderly and cause an average of eighty-five deaths, 1,960 hospitalizations, and eight thousand seven hundred emergency room visits each year. These accidents result in almost \$1,200,000 in hospital and physician charges. Your Committee further finds that access to fall prevention services and programs would significantly reduce costs associated with falls. Your Committee also believes that continued support of these programs ultimately results in longer, healthier lives for the State's aging population.

Your Committee has amended this measure by:

- (1) Changing the amount appropriated for fiscal years 2017-2018 and 2018-2019, respectively, from \$95,000 to an unspecified amount; and
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure.

Your Committee intends to consider including an appropriation for the fall prevention and early detection coordinator position in the General Appropriation Act of 2017.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 536, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 536, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 9. Noes, none. Excused, 2 (Inouye, Wakai).

SCRep. 762 Ways and Means on S.B. No. 403

The purpose and intent of this measure is to adapt and preserve certain benefits of the federal Patient Protection and Affordable Care Act under state law.

More specifically, this measure incorporates certain provisions into state personal income tax and health insurance laws, including a taxpayer's minimum essential coverage requirements and a related tax credit, and required health insurance provisions relating to essential health care benefits, extension of dependent coverage, prohibition of preexisting condition exclusions, prohibited discrimination in premiums or contributions, and nondiscrimination in health care.

Your Committee received written comments in support of this measure from the Department of Commerce and Consumer Affairs; AAUW Windward Oahu Branch; American Association of University Women of Hawaii; American Congress of Obstetricians and Gynecologists, Hawaii Section; American Heart Association; Breastfeeding Hawaii; Hawaii Children's Action Network; Hawaii Psychological Association; Hawaii Public Health Institute; Healthcare Association of Hawaii; ILWU Local 142; IMUAlliance; Kapiolani Medical Center for Women and Children; LGBT Caucus of the Democratic Party of Hawaii; March of Dimes; Planned Parenthood Votes Northwest and Hawaii; The Queen's Health Systems; and twenty-seven individuals.

Your Committee received written comments on this measure from the Department of the Attorney General, Department of Human Services, Department of Labor and Industrial Relations, Department of Taxation, Hawaii Employer-Union Health Benefits Trust Fund, AARP Hawaii, Hawaii Medical Service Association, Kaiser Permanente, and Tax Foundation of Hawaii.

Your Committee finds that for over forty years, Hawaii's Prepaid Health Care Act has ensured that Hawaii would have among the lowest levels of uninsured persons in the nation with regard to health insurance. The federal Patient Protection and Affordable Care Act has reduced the number of uninsured persons even further, affording 55,000 more Hawaii residents access to affordable care from doctors and hospitals. However, this achievement potentially is jeopardized with the proposed repeal of the federal act. Your Committee believes this measure is necessary to protect the elements of the federal act that have improved access to health care in Hawaii.

Your Committee notes that this measure is a work in progress. In particular, your Committee acknowledges an issue raised by the Department of Taxation concerning the applicable time period for implementing the tax credit established in this measure. Your Committee encourages the proponents of the measure to continue to work with the Department of Taxation on this and other issues in the measure.

Your Committee has amended this measure by making technical nonsubstantive amendments for the purposes of consistency, clarity, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 403, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 403, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 9; Ayes with Reservations (Riviere). Noes, none. Excused, 2 (Inouye, Wakai).

SCRep. 763 Ways and Means on S.B. No. 99

The purpose and intent of this measure is to increase access to housing by prohibiting any county from disqualifying a legal nonconforming dwelling unit from the housing choice voucher program if the unit meets zoning and building code requirements and other program standards such as health and safety standards.

Your Committee received written comments in support of this measure from Ho'omana Pono, LLC and two concerned individuals.

Your Committee received written comments on this measure from the Hawaii Public Housing Authority.

Your Committee finds that the State is in the midst of a low-income rental housing crisis due to the lack of available housing options. It is therefore necessary to remove as many barriers to affordable housing as possible. Your Committee finds that this measure will improve access to housing by limiting a county's ability to disqualify a legal nonconforming dwelling unit from the housing choice voucher program.

Your Committee has amended this measure by changing the effective date to July 1, 2050, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 99, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 99, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 8. Noes, none. Excused, 3 (Dela Cruz, English, Kahele).

SCRep. 764 Ways and Means on S.B. No. 1074

The purpose and intent of this measure is to appropriate funds to the State Foundation on Culture and the Arts to provide support for the task force established to plan and coordinate the celebration of the fiftieth anniversary of the Hawaii State Capitol.

Your Committee received written comments in support of this measure from the State Foundation on Culture and the Arts, ILWU Local 142, and Center for Hawaiian Sovereignty Studies.

Your Committee finds that in 2016, the Legislature established a task force to plan and coordinate the celebration of the fiftieth anniversary of the Hawaii State Capitol, which was dedicated on March 15, 1969. Your Committee further finds that this measure will provide the necessary resources to commemorate the event and inform future generations of the Capitol's significance as a symbol of the State.

As received by your Committee, this measure appropriated \$250,000 for fiscal year 2017-2018 and the same sum for fiscal year 2018-2019. Your Committee questions the necessity of appropriating funds over two fiscal years, and respectfully suggests that a subsequent committee hearing this measure consider whether a one-time appropriation would be more appropriate.

Your Committee has amended this measure by:

- (1) Changing the appropriation from \$250,000 to an unspecified amount; and
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on this measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1074, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1074, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 9. Noes, none. Excused, 2 (Inouye, Wakai).

SCRep. 765 Ways and Means on S.B. No. 133

The purpose and intent of this measure is to require the Employer-Union Health Benefits Trust Fund and the Employees' Retirement System to update their financial status information on a more frequent basis.

Specifically, the measure:

- (1) Requires the actuary of the Hawaii Employer-Union Health Benefits Trust Fund to make an annual valuation of the fund;
- (2) Requires the actuary to include in the annual valuation of the fund an update of assumptions specific to the fund at least once every three years; and
- (3) Reduces the maximum period between experience studies of the Employees' Retirement System from five years to three years.

Your Committee received written comments on this measure from the Employees' Retirement System and the Hawaii Employer-Union Health Benefits Trust Fund.

Your Committee finds that the increasing liabilities and obligations for the pension and health insurance coverage of public employees are of major concern. Your Committee further finds that by providing more frequent monitoring of the experience and valuation of the retirement and health insurance funds, this measure will aid in the proper planning of future state and county budgetary needs.

Your Committee has amended this measure by:

- (1) Clarifying that the actuary conducting the annual valuation is the actuary retained by the Hawaii Employer-Union Health Benefits Trust Fund pursuant to section 87A-42, Hawaii Revised Statutes; and
- (2) Making conforming amendments to the purpose section to reflect the substantive provisions of the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 133, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 133, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 11. Noes, none. Excused, none.

SCRep. 766 (Majority) Ways and Means on S.B. No. 261

The purpose and intent of this measure is to improve public health in the State.

Specifically, the measure:

- (1) Prohibits smoking in a motor vehicle in which a person under the age of eighteen is present; and
- (2) Requires the Department of Health to report to the Legislature on the enforceability and coordination of data collection efforts of the respective law enforcement agencies.

Your Committee received written comments in support of this measure from the Department of Health, Hawaii Police Department, Hawaii Public Health Institute, Hawaii Public Health Association, American Heart Association, Hawaii Children's Action Network, Student Health Advisory Council, and seventy-six individuals. Written comments in opposition were received from the Hawaii Smokers Alliance and three individuals. One individual submitted written comments on the measure.

Your Committee finds that children need to be protected from secondhand smoke, particularly when they have no choice but to ride in a vehicle with a parent or other person who chooses to smoke in the confines of the vehicle. Your Committee notes that the County of Hawaii already prohibits smoking in a vehicle occupied by a person under eighteen years of age. Arkansas, California, Louisiana, Maine, Oregon, Utah, Vermont, and Virginia, as well as Puerto Rico, have all passed smoke-free vehicle laws to protect minors. Your Committee believes that this measure will reduce the damaging health effects of exposing children to secondhand smoke by providing a deterrent to the exposure.

Your Committee has amended this measure by clarifying that the Department of Health's report to the Legislature relates to the smoking ban established by this measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 261, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 261, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, 1 (Riviere). Excused, 3 (Dela Cruz, Kahele, Taniguchi).

SCRep. 767 Ways and Means on S.B. No. 412

The purpose and intent of this measure is to change the source of funding for the Campaign Spending Commission's operating expenses from the Hawaii Election Campaign Fund to the general revenues of the State.

This measure also appropriate general funds for the Commission's operating expenses.

Your Committee received written comments in support of this measure from the Campaign Spending Commission, League of Women Voters, Common Cause Hawaii, and one individual.

Your Committee finds that the Campaign Spending Commission operates on revenue derived from the \$3 state income tax check-off, interest generated from the principal, and funds that escheat to the Hawaii Election Campaign Fund. However, these revenues are not sufficient to fund the Campaign Spending Commission as the Commission has been operating at a net deficit for the past ten fiscal years. Your Committee believes that without a change in the source of funding, the Commission will not be able to run the public funding program for eligible candidates in the 2018 elections.

Additionally, your Committee notes that its preference is to use the General Appropriations Act as the funding vehicle for the appropriation in this measure.

Your Committee has amended this measure by changing the appropriation from \$505,585 to an unspecified amount to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 412, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 412, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, none.

SCRep. 768 Ways and Means on S.B. No. 855

The purpose and intent of this measure is to increase voter participation.

Specifically, the measure amends the absentee voting law by:

- (1) Providing that the submission of a voter registration application to either register to vote or update the voter's registration information shall constitute a request for permanent absentee voter status, unless the applicant specifically indicates the applicant does not wish to be a permanent absentee voter; and
- (2) Replacing the requirement that the application to register as a voter include a space to request a permanent absentee ballot with a requirement that the application include a space for the applicant to decline permanent absentee ballot status.

Your Committee received written comments in support of this measure from the Office of Elections; Common Cause Hawaii; League of Women Voters of Hawaii; Hawaii Alliance for Progressive Action; Americans for Democratic Action; and twelve individuals.

Your Committee believes that this measure will make voting more convenient, and thus improve voter participation, by ensuring that every registered voter will receive a ballot by mail, unless the voter affirmatively opts out of receiving absentee ballots and chooses to vote in person.

Your Committee has amended this measure by replacing the word "person" with the word "applicant," as appropriate, in section 2 of the measure for the purpose of using consistent terminology.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 855, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 855, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 10. Noes, none. Excused, 1 (Dela Cruz).

SCRep. 769 Ways and Means on S.B. No. 891

The purpose and intent of this measure is to establish penalties on employers who do not abide by the income withholding requirements that apply to an employer with respect to child and spousal support payments.

Specifically, the measure imposes a fine against any employer who:

- (1) Discharges from employment, refuses to employ, or takes disciplinary action against any noncustodial parent subject to income withholding; or
- (2) Fails to withhold support from income or forward the amounts to the court or Child Support Enforcement Agency.

Your Committee received written comments in support of this measure from the Department of the Attorney General.

Your Committee finds that Hawaii is mandated by federal law to enact laws that require the imposition of a fine against any employer who discharges from employment, refuses to employ, or takes disciplinary action against any noncustodial parent subject to income withholding, or who fails to withhold support from income or pay the amounts to a child support agency. Your Committee further finds that compliance with this federal mandate will maintain the State's eligibility for federal welfare funding and federal funding of child support enforcement programs.

Your Committee has amended this measure by:

- (1) Deleting section 1, which addressed in part the applicable penalty for an employer's failure to withhold child or spousal support from income or forward those amounts to the court or Child Support Enforcement Agency, and renumbering the measure's remaining sections, in order to avoid exceeding the scope of the measure's title;
- (2) Conforming the text of section 576E-16(e), Hawaii Revised Statutes, to the printed version of the Hawaii Revised Statutes by inserting four missing words;
- (3) Deleting a reference to contempt of court and clarifying that a fine not to exceed \$1,000 may be imposed by a court on an employer who violates section 576E-16(e), Hawaii Revised Statutes, by discharging from employment, refusing to employ, or taking disciplinary action against any employee subject to income withholding; and
- (4) Inserting a savings clause.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 891, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 891, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, none.

SCRep. 770 Ways and Means on S.B. No. 897

The purpose and intent of this measure is to facilitate compliance with a new Internal Revenue Service requirement that all agencies receiving federal tax information perform criminal history record checks, including a Federal Bureau of Investigation fingerprint search, of all employees, employee applicants, and contractors who have access to federal tax information.

More specifically, this measure adds the Child Support Enforcement Agency and the Departments of Taxation, Human Services, and Labor and Industrial Relations to the list of entities that are authorized to conduct criminal history record checks of current employees, prospective employees, and contractors who have access to federal tax information.

Your Committee received written comments in support of this measure from the Department of Taxation, Department of the Attorney General, Department of Labor and Industrial Relations, and Office of the Mayor, County of Hawaii.

Your Committee finds that this measure will allow the Child Support Enforcement Agency and the Departments of Taxation, Human Services, and Labor and Industrial Relations to comply with federal law and continue to perform their core functions. Your Committee believes that the counties should be able to conduct criminal background checks for the same purpose.

Your Committee has amended this measure by:

- (1) Changing the placement of the new section that authorizes the Department of Labor and Industrial Relations to conduct criminal history records checks from chapter 383, Hawaii Revised Statutes, to chapter 371, Hawaii Revised Statutes, to ensure that the Department of Labor and Industrial Relations is able to conduct criminal history records checks on all employees, employee applicants, and contractors who have access to federal tax information rather than just those who are associated with the department's employment security law enforcement activities;
- (2) Re-inserting references to contractors in relation to criminal history records checks of persons who are employed or seeking employment with the Department of Labor and Industrial Relations;
- (3) Specifying that the counties are authorized to conduct criminal history record checks of current employees, prospective employees, and contractors who have or will have access to federal tax information; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 897, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 897, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, none. Excused, 3 (Dela Cruz, English, Kahele).

SCRep. 771 Ways and Means on S.B. No. 935

The purpose and intent of this measure is to authorize the Hawaii Employer-Union Health Benefits Trust Fund to employ staff through the civil service system and to appropriate funds for that purpose.

Your Committee received written comments in support of this measure from the Hawaii Employer-Union Health Benefits Trust Fund and the Hawaii Government Employees Association.

Your Committee finds that operations of the Hawaii Employer-Union Health Benefits Trust Fund have been hindered by the high turnover rate of its employees, who attribute their exempt civil service status as one of the reasons for leaving. Your Committee further finds that authorizing the trust fund to recruit employees through the civil service system will assist the trust fund in retaining its employees.

Your Committee has amended this measure by:

- (1) Specifying that the staff may be exempt from, or subject to, the civil service laws, at the discretion of the Board of Trustees of the Hawaii Employer-Union Health Benefits Trust Fund;
- (2) Clarifying that the references to staff who serve at the pleasure of the board and who are exempt from certain civil service law provisions are to exempt staff positions; and
- (3) Specifying that the means of financing for the appropriation is the Hawaii Employer-Union Health Benefits Trust Fund.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 935, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 935, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 10. Noes, none. Excused, 1 (Kahele).

SCRep. 772 Ways and Means on S.B. No. 936

The purpose and intent of this measure is to update the Employees' Retirement System laws relating to pension benefits administration.

Specifically, the measure:

- (1) Extends the benefit finalization period for December 31 retirements;
- (2) Changes the interest rate for late benefit finalizations;
- (3) Extends the deadline for certain employer payments; and
- (4) Allows a delegation of certain disability retirement and service-connected death benefit approval functions.

Your Committee received written comments in support of this measure from the Employees' Retirement System.

Your Committee finds that this housekeeping measure proposed by the administration will enable the Employees' Retirement System to improve its services to members and beneficiaries.

Your Committee has amended this measure by:

- (1) Correcting errors in the quoted statutory text; and
- (2) Clarifying amending language.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 936, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 936, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 10. Noes, none. Excused, 1 (Kahele).

SCRep. 773 Ways and Means on S.B. No. 970

The purpose and intent of this measure is to extend the temporary exemption from chapter 76, Hawaii Revised Statutes, for the five full-time medical marijuana dispensary program personnel at the Department of Health, as authorized by Act 241, Session Laws of Hawaii 2015.

Your Committee received comments in support of this measure from the Department of Health.

Your Committee received written comments in opposition to this measure from one individual.

Your Committee received written comments on this measure from Patients Without Time.

Your Committee finds that timely implementation of the Medical Marijuana Dispensary Program was delayed in part because, despite the exemption from chapter 76, Hawaii Revised Statutes, local workers with specialized experience were not immediately available for hire. Extending the exemption for certain dispensary program personnel is necessary to ensure that implementation of the program is not disrupted and further delayed by the loss of incumbent exempt personnel.

Your Committee has amended this measure by:

- (1) Making a technical amendment to conform with recommended drafting conventions; and
- (2) Changing the effective date from June 30, 2017, to June 29, 2017, so that the measure will become effective prior to the June 30, 2017, expiration of the previously authorized exemption from chapter 76, Hawaii Revised Statutes.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 970, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 970, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 8; Ayes with Reservations (Taniguchi). Noes, none. Excused, 3 (Dela Cruz, English, Kahele).

SCRep. 774 (Joint) Judiciary and Labor and Ways and Means on S.B. No. 889

The purpose and intent of this measure is to clarify the personal liability requirements for professionally licensed or certified employees of the State by:

- (1) Clarifying that the State shall be exclusively liable for civil tort claims resulting from the negligent or wrongful act or omission of a professionally licensed or certified employee of the State acting within the scope of the employee's office or employment;
- (2) Precluding civil actions or proceedings for money damages against the employee, except for claims based on liability other than an employee's scope of employment with the State or other employer; and
- (3) Clarifying liability when the State agrees to assume full or partial responsibility in a civil action against a professionally licensed or certified employee.

Your Committees received testimony in support of this measure from the Department of the Attorney General; Department of Accounting and General Services; Department of Health; Department of Public Safety; Department of Taxation; and Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO.

Your Committees find that state employees are generally afforded qualified immunity for torts as a result of actions taken while in the course and scope of their state employment, which affords these employees protection from individual liability. However, in the recent case of *Slingluff v. State*, 317 P.3d 683 (Haw. Ct. App. 2013), the Intermediate Court of Appeals held that "physicians employed by the State, including prison doctors, exercising purely medical discretion in the diagnosis and treatment of potentially injured or sick people, are not protected from medical malpractice claims by the doctrine of qualified immunity under Hawaii law." This measure seeks to clarify the issue of state defense and indemnification of professionally licensed or certified employees.

Your Committees have amended this measure by inserting an effective date of January 7, 2059, to encourage further discussion.

As affirmed by the records of votes of the members of your Committees on Judiciary and Labor and Ways and Means that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 889, S.D. 1, as amended herein, and recommend that it pass Third Reading in the form attached hereto as S.B. No. 889, S.D. 2.

Signed by the Chairs on behalf of the Committees.

Judiciary and Labor: Ayes, 3. Noes, none. Excused, 2 (Gabbard, Kim).

Ways and Means: Ayes, 9. Noes, none. Excused, 2 (Inouye, Wakai).

SCRep. 775 (Joint) Judiciary and Labor and Ways and Means on S.B. No. 968

The purpose and intent of this measure is to establish thirty-four permanent civil service positions in the Hawaii Public Housing Authority's Multi-Skilled Worker Program.

Your Committees received testimony in support of this measure from the Department of Human Resources Development and Hawaii Public Housing Authority.

Your Committees find that the Hawaii Public Housing Authority Multi-Skilled Worker Program is a crucial component of the State's effort to meet the critical need for public housing in Hawaii. Your Committees further find that the program currently operates at approximately half of its staffing capacity.

Your Committees have amended this measure by:

- (1) Deleting section 1;
- (2) Clarifying that this measure establishes permanent civil service positions, rather than authorizing their establishment;
- (3) Inserting an effective date of January 7, 2059, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

Your Committees note that it is unclear whether sufficient funding exists for the permanent civil service positions established by this measure and acknowledge that additional appropriations may be necessary.

As affirmed by the records of votes of the members of your Committees on Judiciary and Labor and Ways and Means that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 968, as amended herein, and recommend that it pass Third Reading in the form attached hereto as S.B. No. 968, S.D. 1.

Signed by the Chairs on behalf of the Committees.

Judiciary and Labor: Ayes, 3. Noes, none. Excused, 2 (Gabbard, Kim).

Ways and Means: Ayes, 9. Noes, none. Excused, 2 (Inouye, Wakai).

SCRep. 776 (Joint) Judiciary and Labor and Ways and Means on S.B. No. 988

The purpose and intent of this measure is to:

- (1) Require an owner or occupier intending to utilize the exemption to the building code and permit requirements under section 46-88, Hawaii Revised Statutes, to provide written notice to the appropriate county agency of the size, type, and location of the proposed building;
- (2) Require the appropriate county agency to determine that a building permit is not necessary to comply with local, state, and federal floodplain management development standards, or National Flood Insurance Program regulations; and
- (3) Establish that section 46-88, Hawaii Revised Statutes, does not exempt any new or existing agricultural buildings, structures, related appurtenances, or other development from local, state, or federal floodplain management development standards, ordinances, codes, statutes, rules, or regulations pursuant to National Flood Insurance Program requirements.

Your Committees received testimony in support of this measure from the Department of Agriculture; Department of Commerce and Consumer Affairs; Department of Land and Natural Resources; Hawaii Emergency Management Agency; Hawaii Housing Finance and Development Corporation; Office of the Mayor, County of Hawaii; Department of Emergency Management, City and County of Honolulu; Department of Planning and Permitting, City and County of Honolulu; Hawaii Insurers Council; Hawaii Aquaculture and Aquaponics Association; Hawaii Cattlemen's Council, Inc.; Hawaii Financial Services Association; Maui County Farm Bureau; and one individual. Your Committees received comments on this measure from the Hawai'i Farm Bureau and Ponoholo Ranch, Limited.

Your Committees find that it is essential that building code and building permit requirements comply with the requirements of the National Flood Insurance Program as administered by the Federal Emergency Management Agency. Failure to maintain compliance with the program's requirements could result in the Federal Emergency Management Agency initiating suspension procedures throughout the State, which could lead to the loss of National Flood Insurance Program insurance coverage and impact eligibility for certain federal disaster assistance. Your Committees further find that the building code and permit requirement statutes exempt some agricultural buildings, structures, and appurtenances, causing them to fall outside the National Flood Insurance Program requirements. This measure seeks to ensure that all agricultural structures are in compliance with the National Flood Insurance Program.

Your Committees have amended this measure by:

- (1) Inserting an effective date of January 7, 2059, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Judiciary and Labor and Ways and Means that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 988, as amended herein, and recommend that it pass Third Reading in the form attached hereto as S.B. No. 988, S.D. 1.

Signed by the Chairs on behalf of the Committees.

Judiciary and Labor: Ayes, 3. Noes, none. Excused, 2 (Gabbard, Kim).

Ways and Means: Ayes, 9. Noes, none. Excused, 2 (Inouye, Wakai).

SCRep. 777 (Joint) Judiciary and Labor and Ways and Means on S.B. No. 991

The purpose and intent of this measure is to decriminalize traffic infractions within the Department of Land and Natural Resources' natural area reserves, game management areas, wildlife sanctuaries, and public hunting areas.

Your Committees received testimony in support of this measure from the Department of Land and Natural Resources.

Your Committees find that Act 124, Session Laws of Hawaii 2005, mandated the identification of minor criminal offenses for which typically only a fine is imposed and which may be decriminalized without undermining the ability of government to enforce laws within its jurisdiction. Your Committees further find that Act 101, Session Laws of Hawaii 2008, decriminalized traffic violations in state parks and recreation areas and ocean recreation and coastal areas. This measure decriminalizes traffic violations within the Department of Land and Natural Resources' natural area reserves, game management areas, wildlife sanctuaries, and public hunting areas so that they are consistent with Act 101 and makes resolution of certain minor criminal offenses as simple as possible for the average citizen while ensuring that police, prosecutor, and judicial resources are focused on the most serious criminal offenses.

Your Committees have amended this measure by:

- (1) Inserting an effective date of January 7, 2059, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Judiciary and Labor and Ways and Means that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 991, S.D. 1, as amended herein, and recommend that it pass Third Reading in the form attached hereto as S.B. No. 991, S.D. 2.

Signed by the Chairs on behalf of the Committees.

Judiciary and Labor: Ayes, 3. Noes, none. Excused, 2 (Gabbard, Kim).

Ways and Means: Ayes, 9. Noes, none. Excused, 2 (Inouye, Wakai).

SCRep. 778 (Joint) Judiciary and Labor and Ways and Means on S.B. No. 996

The purpose and intent of this measure is to allow corrections agencies to subject employees or prospective employees to lie detector tests and psychological tests without constituting discriminatory employment practices.

Your Committees received testimony in support of this measure from the Department of Public Safety.

Your Committees find that the hiring of high-quality employees by the Department of Public Safety, particularly in corrections agencies, is vital to protecting the health, safety, and welfare of the public. This measure allows corrections agencies to require employees or prospective employees to submit to a lie detector test or psychological test as a condition of employment or continued employment to increase the quality of employees.

Your Committees have amended this measure by inserting an effective date of January 7, 2059, to encourage further discussion.

As affirmed by the records of votes of the members of your Committees on Judiciary and Labor and Ways and Means that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 996, S.D. 1, as amended herein, and recommend that it pass Third Reading in the form attached hereto as S.B. No. 996, S.D. 2.

Signed by the Chairs on behalf of the Committees.

Judiciary and Labor: Ayes, 3. Noes, none. Excused, 2 (Gabbard, Kim).

Ways and Means: Ayes, 9. Noes, none. Excused, 2 (Inouye, Wakai).

SCRep. 779 (Joint) Judiciary and Labor and Ways and Means on S.B. No. 1039

The purpose and intent of this measure is to require the Department of Public Safety to work with appropriate federal and state agencies to assist inmates in obtaining important government documents, including a social security card, driver's license, civil identification card, or birth certificate.

Your Committees received testimony in support of this measure from the Department of Public Safety; Office of Hawaiian Affairs; Hawaii Paroling Authority; Community Alliance on Prisons; Ho'omana Pono, LLC; YWCA Oahu; and seven individuals.

Your Committees find that assisting inmates to transition back into everyday life is a vital component of successful inmate rehabilitation. Inmates who are incarcerated for long periods of time often lose important government documents pertaining to their identities, such as a social security card, birth certificate, driver's license, or civil identification card, which can prevent the former inmate from successfully transitioning back into society. Your Committees find that it is necessary to establish guidelines requiring the Department of Public Safety to work with appropriate federal and state agencies to assist eligible inmates in obtaining important government documents.

Your Committees have amended this measure by:

- (1) Inserting an effective date of January 7, 2059, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Judiciary and Labor and Ways and Means that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1039, S.D. 1, as amended herein, and recommend that it pass Third Reading in the form attached hereto as S.B. No. 1039, S.D. 2.

Signed by the Chairs on behalf of the Committees.

Judiciary and Labor: Ayes, 3. Noes, none. Excused, 2 (Gabbard, Kim).

Ways and Means: Ayes, 9. Noes, none. Excused, 2 (Inouye, Wakai).

SCRep. 780 (Joint) Judiciary and Labor and Ways and Means on S.B. No. 1070

The purpose and intent of this measure is to:

- (1) Provide a bidder of a public works construction project with two hours after the closing of a bid to clarify and correct minor technical issues with subcontractor listings; and
- (2) Afford a legal means of redress to subcontractors affected by bid shopping and bid peddling practices in public works.

Your Committees received testimony in support of this measure from BIA-Hawaii; General Contractors Association of Hawaii; Jayar Construction, Inc.; LYZ, Inc.; Nordic PCL Construction, Inc.; Ralph S. Inouye Co., Ltd.; Alan Shintani Inc.; and S & M Sakamoto, Inc. Your Committees received testimony in opposition to this measure from the State Procurement Office; Subcontractors Association of Hawaii; Dorvin D. Leis Co., Inc.; HSI Mechanical, Inc.; and Plumbing and Mechanical Contractors Association of Hawaii. Your Committees received comments on this measure from the Department of Accounting and General Services; Regulated Industries Complaints Office, Department of Commerce and Consumer Affairs; and Contractors License Board, Professional and Vocational Licensing Division, Department of Commerce and Consumer Affairs.

Your Committees find that allowing subcontractor plaintiffs to recover monetary damages from prime contractors and substituted subcontractors would discourage the unscrupulous practice of bid shopping and bid peddling in the competitive sealed bidding process. Your Committees also find that the competitive sealed bidding process can be improved by providing additional time for bidders to clarify and correct subcontractor information, which may minimize bid challenges, costs, and delays of public works projects while maintaining the integrity of the bid process.

Your Committees have amended this measure by:

- (1) Inserting an effective date of January 7, 2059, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Judiciary and Labor and Ways and Means that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1070, S.D. 1, as amended herein, and recommend that it pass Third Reading in the form attached hereto as S.B. No. 1070, S.D. 2.

Signed by the Chairs on behalf of the Committees.

Judiciary and Labor: Ayes, 3. Noes, none. Excused, 2 (Gabbard, Kim).

Ways and Means: Ayes, 9. Noes, none. Excused, 2 (Inouye, Wakai).

SCRep. 781 Ways and Means on S.B. No. 689

The purpose and intent of this measure is to authorize a county fire department and building permitting agency to enter private property, upon reasonable notice to the owner or occupier, to investigate whether certain agricultural buildings that are exempted from building permit and building code requirements are in compliance with statutes that provide for the exemptions.

Your Committee received written comments in support of this measure from the Department of Agriculture, Hawaii Cattlemen's Council, Hawaii Farm Bureau, and Ponoholo Ranch Limited.

Your Committee finds that active monitoring and enforcement regarding building permit and building code exemptions for certain agricultural buildings will ensure that applicable structures qualify for the exemptions and are being used for qualifying purposes.

Your Committee has amended this measure by:

- (1) Providing that an investigating county agency may apply to the district court for a warrant commanding police assistance if entry to applicable private property is refused after reasonable notice is given; and
- (2) Making technical nonsubstantive amendments to conform with the foregoing for purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 689, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 689, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, 5 (Dela Cruz, Inouye, Kahele, Shimabukuro, Taniguchi).

SCRep. 782 Ways and Means on S.B. No. 704

The purpose and intent of this measure is to better understand the issue and impacts of online vacation rentals of residential properties and develop strategies to mitigate any adverse impacts caused by this industry.

Specifically, the measure establishes an online vacation rental working group to:

- (1) Develop effective data collection methods that can assist state and county governments in monitoring the impact that short-term vacation rentals have on tax collections, housing stock, and the State's brand as a vacation destination; and
- (2) Create effective proposals that ensure government-subsidized rental housing and long-term leasehold housing remain in long-term rental or eligible rental use for a mandatory time period.

The Department of Business, Economic Development, and Tourism; Kohala Coast Resort Association; Rental By Owner Awareness Association; ILWU Local 142; and one individual submitted written comments in support of this measure. The Department of Taxation and Hawaii Association of REALTORS submitted comments on this measure.

Your Committee finds that more than forty online platforms currently facilitate thousands of short-term rentals of properties within the State, which range from single rooms in private homes to entire villas. Your Committee finds that an online vacation rental working group assigned to help develop effective data collection methods can assist state and county governments in monitoring the impact that short-term vacation rentals have in the State.

Your Committee also finds that short-term vacation rentals present a complex issue that also involves matters not directly addressed in this measure, such as enforcement challenges related to real estate licensing laws and the residential landlord-tenant code.

Your Committee notes that although the online vacation rental working group is administratively attached to the Department of Business, Economic Development, and Tourism, the director of that department is not a member of the working group. Your Committee also notes the recommendation by the Department of Business, Economic Development, and Tourism that the working group be attached instead to the Hawaii Tourism Authority, because the latter agency has extensive experience in collecting visitor industry data.

Your Committee has amended this measure by:

- (1) Expanding the purpose of the online vacation rental working group to include addressing compliance and enforcement challenges, including those relating to real estate licensing laws and the residential landlord-tenant code;
- (2) Making conforming amendments to the purpose section to reflect the foregoing changes; and
- (3) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 704, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 704, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, 4 (Dela Cruz, Inouye, Shimabukuro, Wakai).

SCRep. 783 Ways and Means on S.B. No. 763

The purpose and intent of this measure is to appropriate funds to the High Technology Development Corporation so its Small Business Innovation Research Program can support continued innovation in the State.

Your Committee received written comments in support of this measure from the County of Kauai; Maui Chamber of Commerce; Chamber of Commerce Hawaii; Spectrum Photonics; High Technology Development Corporation; Studio Kinection, Inc.; Hawaii Evolutionary Development, LLC; 3SRM, Inc.; HNu Photonics; Experiad Solutions; Navatek; Kapalya, Inc.; and one individual.

Your Committee finds that the High Technology Development Corporation is a key state agency in developing and supporting the innovation industry in the State. Your Committee notes that the Corporation's Small Business Innovation Research Program is a competitive program that helps small businesses grow and succeed by awarding grants for research and development. Your Committee believes that the program's federal grant matching system is one of the key components in diversifying and accelerating innovation and the economy of the State.

Your Committee has amended this measure by:

- (1) Changing the amount appropriated from \$2,000,000 to an unspecified amount; and
- (2) Changing the effective date to July 1, 2050,

to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 763, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 763, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 10. Noes, none. Excused, 1 (Dela Cruz).

SCRep. 784 Ways and Means on S.B. No. 900

The purpose and intent of this measure is to improve the State's community-based economic development program.

Specifically, this measure:

- (1) Expands the definition of community-based organization to remove the requirement that the organization be membership-based;
- (2) Decreases the number of members of the Community-based Economic Development Council from twelve members to ten;
- (3) Authorizes grants to be issued for provision of technical assistance to community-based organizations; and
- (4) Deletes the requirement that community-based organizations show, at the time of applying for a grant, that the benefits of the grant will be realized for a continuous period of five years.

Your Committee received written comments in support of this measure from the Department of Business, Economic Development, and Tourism and the Hawaii Alliance for Community-Based Development.

Your Committee finds that some nonprofit organizations active in community-based economic development are not "membership-based." Removing the membership-based requirement from the definition of "community-based organization" will allow the Council to assist these otherwise qualified non-profit organizations.

Your Committee further finds that the Council has experienced difficulty making a quorum and that reducing the membership from twelve members to ten will facilitate the scheduling of meetings and complying with the requirements to conduct business.

Your Committee believes that adding technical assistance as a grant option will assist grassroots organizations and other groups with limited technical and financial capacity. Similarly, deleting the five-year continuous benefit demonstration requirement will remove an obstacle to applying for grant assistance.

Your Committee has amended this measure by changing the effective date to July 1, 2050, to facilitate further discussion.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 900, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 900, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 10. Noes, none. Excused, 1 (Dela Cruz).

SCRep. 785 Ways and Means on S.B. No. 902

The purpose and intent of this measure is to update various provisions relating to the High Technology Development Corporation.

More specifically, this measure:

- (1) Changes the name of the High Technology Development Corporation to the Hawaii Technology Development Corporation;
- (2) Replaces statutory references to "high technology" with "technology"; and
- (3) Repeals the laws that established the Hawaii Software Service Center.

Your Committee received written comments in support of this measure from the Department of Business, Economic Development, and Tourism, the High Technology Development Corporation, and one individual.

Your Committee finds that the High Technology Development Corporation was established in 1983 to facilitate the development and growth of Hawaii's commercial high technology industry. Three decades later, what was once referred to as "high technology" is now simply referred to as "technology." Accordingly, your Committee believes that the name of the Corporation whose mission is to encourage the growth of technology in the State should be updated to more accurately reflect its mission.

Additionally, your Committee finds that the Hawaii Software Service Center within the High Technology Development Corporation has been unfunded and inactive for at least ten years, and thus should be repealed as it is obsolete.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 902, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 10. Noes, none. Excused, 1 (Dela Cruz).

SCRep. 786 Ways and Means on S.B. No. 910

The purpose and intent of this measure is to replace the requirements imposed upon the Department of Business, Economic Development, and Tourism relating to the certification, administration, and verification of the renewable fuels production tax credit with a survey to be filed with the department by each taxpayer claiming the credit.

The Department of Taxation and the Department of Business, Economic Development, and Tourism submitted written comments on this measure.

Your Committee finds that the Department of Business, Economic Development, and Tourism lacks the expertise and resources necessary to fulfill existing statutory duties pertaining to certification, administration, and verification under certain provisions of the State's renewable fuels production tax credit law. Your Committee believes that the requirements of this measure, which are aligned with the department's existing resources and expertise, will still provide for the collection of relevant data regarding the tax credit's effectiveness.

Your Committee has amended this measure by:

- (1) Making a correction to clarify that the \$3,000,000 annual aggregate cap on the renewable fuels production tax credit applies to a calendar year; and
- (2) Changing the effective date to July 1, 2050, and applying the measure to taxable years after December 31, 2050, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 910, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 910, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 11. Noes, none. Excused, none.

SCRep. 787 Ways and Means on S.B. No. 955

The purpose and intent of this measure is to establish the Hawaii State Fusion Center as a program under the Office of Homeland Security that would be overseen by a director to be appointed by the Director of Homeland Security.

Your Committee received written comments in support of this measure from the Department of Defense, Department of Human Services, Office of Homeland Security, and The Maritime Group LLC.

Your Committee finds that the goal of the Hawaii State Fusion Center is to serve as the State's focal point for receipt and analysis of threat-related information and to share that information among federal, state, county, and private sector partners. As security threats increase, your Committee believes it is essential that the State maintain the ability to coordinate the efficient and effective sharing of security information across all levels of government. Accordingly, this measure formally establishes the Hawaii State Fusion Center in statute.

Your Committee notes that a general fund appropriation of \$80,000 and a 1.00 full-time equivalent temporary position has been requested for the Hawaii State Fusion Center. In addition, the Department of Defense has indicated to your Committee that the enabling statute created by this measure is required to establish the Center.

Your Committee has amended this measure by:

- (1) Making technical nonsubstantive amendments for clarity, consistency, and style; and
- (2) Changing the effective date to July 1, 2050, to facilitate continued discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 955, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 955, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 8. Noes, none. Excused, 3 (Inouye, Taniguchi, Wakai).

SCRep. 788 Ways and Means on S.B. No. 1200

The purpose and intent of this measure is to appropriate moneys for the creation of a master plan and environmental impact statement for the construction of a new Aloha Stadium.

Your Committee received written comments in support of this measure from the Stadium Authority and two individuals.

Your Committee finds that in January 2017, the Stadium Authority approved a resolution stating its intention to build a new stadium since extensive repairs to the existing stadium would be more costly than constructing a new and more modern facility. However, various obstacles, many of which are financially based, prevent the Stadium Authority from moving forward with its plans to construct a new stadium. Your Committee believes that appropriating moneys to the Stadium Authority to complete a master plan and environmental impact statement for the construction of a new stadium will alleviate some of the obstacles preventing the Authority from moving forward with development and construction.

Your Committee has amended this measure by changing the effective date to April 2, 2050, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1200, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1200, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, none.

SCRep. 789 Ways and Means on S.B. No. 1210

The purpose and intent of this measure is to authorize the counties to develop public-private partnerships to construct relief sewers for affordable housing development projects.

Your Committee received written comments in support of this measure from the Chamber of Commerce Hawaii and one concerned individual.

Your Committee received written comments in opposition to this measure from one concerned individual.

Your Committee finds that the lack of affordable housing is a growing threat to the health, safety, and welfare of the people of the State. Your Committee believes this measure will help address this issue by encouraging cooperation between government and private entities to develop the relief sewer infrastructure required to support the development of new affordable housing projects.

Your Committee has amended this measure by:

- (1) Directing the mayor of each county to appoint an officer to oversee the public-private partnerships entered into by the respective county; and
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1210, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1210, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, none.

SCRep. 790 Ways and Means on S.B. No. 1286

The purpose and intent of this measure is to clarify the scope of the Department of Education's private trade, vocational, or technical school licensure program and to establish a licensing fee.

This measure also appropriates funds for the administrative costs of the licensure program, including the establishment of a permanent, full-time position within the Department of Education.

Your Committee received written comments in support of this measure from the Department of Education and one individual.

Your Committee received written comments in opposition to this measure from the Hawaii Institute of Hair Design and the Travel Institute of the Pacific.

Your Committee received written comments on this measure from the Department of Budget and Finance, the Department of Commerce and Consumer Affairs, the Pacific Center for Awareness and Bodywork, Maui Academy of Healing Arts, Mauna Loa Helicopters, and fifteen individuals.

Your Committee finds that the licensing of the myriad private trade, vocational, and technical schools is beyond the scope of the Department of Education's primary mission and ability. Accreditation of these schools consumes valuable resources that would otherwise be used to benefit public school students. Your Committee believes that focusing the scope of the Department of Education's licensing jurisdiction will lessen the Department's regulatory burden. Your Committee also finds that establishing a licensing fee will help to offset the costs incurred by the Department of Education to license the various schools.

Your Committee further finds that requiring schools to certify that they have students currently receiving, or who have applied to receive, aid under title IV of the Higher Education Act of 1965, places an undue burden on some schools and can impose requirements that conflict with the policies of state licensing boards.

Your Committee has amended this measure by:

- (1) Removing the provision exempting flying schools from the definition of “private trade, vocational, or technical school”;
- (2) Removing the provision requiring that the applicant school have students who currently receive or who have applied for aid under title IV of the Higher Education Act of 1965;
- (3) Specifying that the list of complaints to accompany an application for renewal of a license shall include complaints filed within the past two years with any state or federal government agency or directly with the school;
- (4) Changing the amendments made to the definition of “license” in section 302A-101, Hawaii Revised Statutes, to restore the existing exemption of section 302A-426, Hawaii Revised Statutes, from the definition; and
- (5) Making technical nonsubstantive amendments for purposes of style, clarity, and consistency.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1286, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1286, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 11. Noes, none. Excused, none.

SCRep. 791 Ways and Means on S.B. No. 1292

The purpose and intent of this measure is to revitalize a portion of East Hawaii by establishing the Hilo community economic district to facilitate economic development and improvements to facilities and infrastructure.

Additionally, this measure reestablishes the Hawaii Community Development Authority as the “Hawaii Community Development Authorities”, and establishes different governance requirements for counties with a population of five hundred thousand or more, and for counties with a population of less than five hundred thousand.

Your Committee received written comments in support of this measure from the University of Hawaii System, the East Hawaii Region of Hawaii Health Systems Corporation, the Mayor of the County of Hawaii, the Councilmember from District Three of the County of Hawaii, the Banyan Drive Hawaii Redevelopment Agency, the Chamber of Commerce Hawaii, the Hawaii Farm Bureau, the Hawaii Government Employees Association, HPM Building Supply, ILWU Local 142, Kadota Liquor, the Kanoelehua Industrial Area Association, and seven individuals.

Your Committee received written comments in opposition to this measure from one individual.

Your Committee received written comments on this measure from the Department of the Attorney General, the Department of Budget and Finance, the Department of Land and Natural Resources, and the Hawaii Community Development Authority.

Your Committee finds that the Legislature created the Hawaii Community Development Authority to revitalize urban areas that were declining economically, and that the Authority can provide valuable guidance for other communities. Your Committee further finds that there is potential for increased growth and revitalization in Hilo to improve the supply of workforce and affordable housing, parks and open spaces, public facilities, and commercial, industrial, and hotel facilities. Your Committee believes that establishing the Hilo Community Economic District would coordinate redevelopment and encourage new investment and infrastructure in Hilo.

Your Committee notes that Article III, section 14, of the State of Hawaii Constitution mandates that “[e]ach law shall embrace but one subject, which shall be expressed in its title”. The title of this measure is “RELATING TO THE HILO COMMUNITY ECONOMIC DISTRICT”, and the Department of the Attorney General has raised concerns that previous amendments to the measure, which reestablishes the Hawaii Community Development Authority as the “Hawaii Community Development Authorities”, could be construed as violating that constitutional provision, since development districts located outside of Hilo and controlled by the Hawaii Community Development Authority could be impacted.

Accordingly, to address those concerns, your Committee has amended this measure by restoring it to the form in which it was originally introduced as S.B. No. 1292, which established the Hilo community economic district and a revolving fund to be used for the district’s redevelopment.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1292, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1292, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 11. Noes, none. Excused, none.

SCRep. 792 Ways and Means on S.B. No. 1307

The purpose and intent of this measure is to establish neighborhood revitalization boards to plan and implement collaborative neighborhood revitalization strategies adopted by the State, counties, and local stakeholders.

Your Committee received written comments in support of this measure from the Department of Planning and Permitting of the City and County of Honolulu and three individuals.

Your Committee received written comments on this measure from one individual.

Your Committee finds that receiving input related to neighborhood development from the residents and businesses to be most affected by development is vital for determining the actual needs of individual neighborhoods. Your Committee believes that neighborhood revitalization boards can collaboratively foster a sense of community and provide invaluable insight for targeting revitalization efforts.

Your Committee has amended this measure by:

- (1) Changing the per cent of matching funds to be provided by the counties from twenty per cent to an unspecified percentage; and
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1307, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1307, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, none.

SCRep. 793 (Joint) Commerce, Consumer Protection, and Health and Ways and Means on S.B. No. 522

The purpose and intent of this measure is to prevent sudden unexpected infant deaths and sudden infant death syndrome in child care facilities by:

- (1) Strengthening the safe sleep policy for child care facilities for children less than one year of age by requiring placement of children on their backs for sleeping and establishing notice and annual training requirements; and
- (2) Requiring child care facilities to report the death of a child less than one year of age that occurs in a child care facility to the Department of Human Services.

Your Committees received testimony in support of this measure from the Hawaii Children's Action Network and fifty-nine individuals. Your Committees received testimony in opposition to this measure from the Department of Human Services. Your Committees received comments on this measure from the Department of Health.

Your Committees find that many cases of sudden unexpected infant deaths and sudden infant death syndrome are preventable through safe sleep policies that address causes of death associated with sudden unexpected infant deaths and sudden infant death syndrome. Your Committees further find that the State regulates and inspects child care facilities through the Department of Human Services' child care licensing program to ensure the health and safety of all children in child care.

Your Committees additionally find that on February 6, 2017, the Department of Human Services conducted a public hearing to hear proposed amendments to administrative rules for registered family child care homes and licensed infant and toddler child care centers. The proposed amendments sought to improve safety and care by accommodating any changes to best practices and standards of care that may occur related to sleep-related deaths in infants. After consideration of comments and oral testimony provided at the public hearing, the Department adopted amendments to the administrative rules that became effective on February 24, 2017. Your Committees note that it is the intent of the Legislature to incorporate the recently-amended administrative rules into this measure.

Accordingly, your Committees have amended this measure by:

- (1) Inserting language to clarify that a safe sleep policy shall require each child care facility to ensure that any child less than one year of age is placed on the child's back to sleep, unless written instructions are on file at the child care facility from a healthcare practitioner indicating an alternate sleep position;
- (2) Inserting the term "provider" to replace the term "operator" in regard to referencing a child care facility;
- (3) Deleting language that required the Department of Human Services to conduct safe sleep training and replacing it with language that:
 - (A) Requires all employees, household members, and volunteers of a child care facility to complete upon hire, and annually thereafter, training in safe sleep practices that is approved by the department; and
 - (B) Requires each child care facility to maintain a record of trainings completed;
- (4) Inserting language to specify that every child care facility shall report to the Department of Human Services, within one working day of occurrence, the death of a child, employee, or household member, and any illness or injury received at the child care facility that results in a child's hospitalization; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Commerce, Consumer Protection, and Health and Ways and Means that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 522, as amended herein, and recommend that it pass Third Reading in the form attached hereto as S.B. No. 522, S.D. 1.

Signed by the Chairs on behalf of the Committees.

Commerce, Consumer Protection, and Health: Ayes, 5. Noes, none. Excused, 2 (Espero, Ruderman).

Ways and Means: Ayes, 9. Noes, none. Excused, 2 (Inouye, Wakai).

SCRep. 794 Commerce, Consumer Protection, and Health on S.B. No. 1258

The purpose and intent of this measure is to:

- (1) Establish requirements for operating an autocycle; and
- (2) Define "autocycle".

Your Committee received testimony in support of this measure from the Department of Transportation. Your Committee received comments on this measure from Polaris.

Your Committee finds that a significant number of states have developed definitions for the treatment of autocycles, a newer type of vehicle composed of three wheels and non-traditional seating that is manufactured to federal motorcycle safety standards. However, existing Hawaii law does not allow for the registration of these unique vehicles. Accordingly, this measure requires autocycles to be registered as motor vehicles, requires operators of autocycles to possess a valid driver's license, and establishes a definition for autocycle.

Your Committee notes that an autocycle has handling and operating characteristics that are more in line with a motor vehicle, rather than a motorcycle. As such, an amendment to this measure is necessary to clarify that a valid type 3 license (relating to passenger motor vehicles) is required to operate an autocycle. Your Committee has also heard testimony that most autocycles do not meet the federal Motor Vehicle Safety Standards for passenger motor vehicles. Amendments to this measure are therefore necessary to incorporate certain consumer protection requirements for the registration and operation of autocycles in Hawaii.

Your Committee has amended this measure by:

- (1) Clarifying that a valid type 3 driver's license is required for operation of an autocycle;
- (2) Requiring occupants in an autocycle not equipped with a front windshield to use eye protection;
- (3) Requiring occupants in an autocycle to comply with mandatory seat belt requirements;
- (4) Requiring all dealers, sellers, lessors, and rental agencies to disclose certain information, as applicable, relating to autocycles and the federal Motor Vehicle Safety Standards for passenger motor vehicles;
- (5) Amending the definition of "autocycle";
- (6) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (7) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1258, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1258, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 1 (Ruderman).

SCRep. 795 Commerce, Consumer Protection, and Health on S.B. No. 584

The purpose and intent of this measure is to:

- (1) Remove the requirement that a co-mortgagor assisting a qualified resident in securing a mortgage to purchase a dwelling unit from the Hawaii Housing Finance and Development Corporation be a family member; and
- (2) Require a qualified resident who is assisted by a co-mortgagor to have an income of at least fifty percent of the amount required to qualify for a loan to purchase the dwelling unit.

Your Committee received testimony in support of this measure from one individual. Your Committee received comments on this measure from the Hawaii Housing Finance and Development Corporation.

Your Committee finds that the Hawaii Housing Finance and Development Corporation is tasked with developing and financing low- and moderate-income housing projects and administering homeownership programs, including the provision of mortgages for affordable housing units to qualifying residents. Some affordable units may still be unaffordable to first-time buyers without financial assistance from family and friends. For residents of Hawaii, "family" frequently extends to cousins, uncles, aunts, step-parents, and "hanai" family members who may not fall within the definition of "family" used by the Hawaii Housing Finance and Development Corporation, but who may still have the financial capacity and willingness to assist buyers with the down payment or qualification for a mortgage. By allowing extended or hanai family members to act as a co-mortgagor assisting a qualified resident in securing a mortgage to purchase a dwelling unit, more of the State's residents may qualify to purchase affordable housing.

However, your Committee recognizes the importance of qualified residents having the necessary income to qualify for a mortgage loan. Your Committee also finds that a more tailored amendment could accomplish the goal of allowing extended and hanai family members to provide assistance in securing a mortgage without repealing altogether the requirement that the co-mortgagor be a family member.

Accordingly, your Committee has amended this measure by:

- (1) Reinstating language that requires that a co-mortgagor assisting a qualified resident in securing a mortgage to purchase a dwelling unit from the Hawaii Housing Finance and Development Corporation be a family member;
- (2) Inserting language that allows an extended or hanai family member to act as a co-mortgagor in assisting a qualified resident in securing a mortgage to purchase a dwelling unit from the Hawaii Housing Finance and Development Corporation;
- (3) Deleting language that would have required a qualified resident who is assisted by a co-mortgagor to have an income of at least fifty percent of the amount required to qualify for a loan to purchase the dwelling unit;
- (4) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 584, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 584, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 1 (Ruderman).

SCRep. 796 Commerce, Consumer Protection, and Health on S.B. No. 593

The purpose and intent of this measure is to:

- (1) Require research facilities to make available for adoption healthy cats and dogs that are no longer required for research; and
- (2) Allow research facilities to contract with nonprofit animal shelters and rescue groups to facilitate the adoptions.

Your Committee received testimony in support of this measure from the Humane Society of the United States, Hawaiian Humane Society, National Anti-Vivisection Society, For Forgotten Felines, and six individuals. Your Committee received testimony in opposition to this measure from the National Association for Biomedical Research and three individuals. Your Committee received comments on this measure from the University of Hawai'i System.

Your Committee finds that thousands of cats and dogs are used in research each year. Although many of these animals are healthy and suitable for adoption after they are used for research purposes, most of them are euthanized. Your Committee finds that encouraging working relationships between research facilities and animal rescue organizations will save the lives of many adoptable animals. Your Committee has received testimony indicating that the University of Hawaii has a protocol in place for adopting out animals that remain healthy following research, and notes that this measure will require other research facilities using dogs and cats for research to meet a similar standard.

Your Committee has amended this measure by adding language to specify that research facilities are the ones who shall determine whether cats and dogs are suitable for adoption.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 593, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 593, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 6; Ayes with Reservations (Kidani). Noes, none. Excused, 1 (Ruderman).

SCRep. 797 Ways and Means on S.B. No. 110

The purpose and intent of this measure is to authorize the Department of Land and Natural Resources to use aquatic in-lieu fee mitigation as a form of compensatory mitigation for damage to aquatic habitats or resources.

Your Committee received written comments in support of this measure from the Department of Land and Natural Resources, Ocean Tourism Coalition, Democratic Party of Hawaii, The Nature Conservancy, and one individual.

Your Committee finds that authorizing aquatic in-lieu fee mitigation will provide the Department of Land and Natural Resources with an effective mechanism to restore, create, enhance, and preserve aquatic habitats and resources. Your Committee further finds that in-lieu fee mitigation involves a third party mitigation sponsor who accepts funds from permit applicants or responsible parties required to provide compensation in order to mitigate actual natural resource damage or prospective compensation. The sponsor then uses these funds to develop restoration projects. In-lieu fee sponsors are often public or private entities with experience, scientific expertise, and a vested long-term interest in natural resources conservation. Your Committee recognizes that this will enable the Department of Land and Natural Resources to improve state stewardship of aquatic public trust resources and habitats, increase accountability for damage to aquatic resources, and provide higher remediation to restore damaged resources.

Your Committee has amended this measure by making a technical nonsubstantive change to comport with standard drafting conventions.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 110, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 110, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 5 (Dela Cruz, Inouye, Kahele, Shimabukuro, Taniguchi).

SCRep. 798 Ways and Means on S.B. No. 601

The purpose and intent of this measure is to support the King Kamehameha Commission in the performance of its statutory responsibilities.

More specifically, this measure:

- (1) Establishes the King Kamehameha Celebration Commission special fund and appropriates moneys to the fund for the purpose of paying expenses arising out of King Kamehameha Day celebration events;
- (2) Amends provisions relating to the membership and duties of the Commission; and
- (3) Requires the Commission to appoint an executive director.

Your Committee received written comments in support of this measure from the Democratic Party of Hawaii, Hawaiian Affairs Caucus, Miss Rodeo Hawaii Program, and five individuals.

Your Committee received written comments in opposition to this measure from the Department of Accounting and General Services.

Your Committee received written comments on this measure from the Department of Budget and Finance.

Your Committee finds that that the King Kamehameha Celebration Commission is made up of dedicated volunteers who have a variety of statutory responsibilities, the most significant being the commemoration of King Kamehameha on King Kamehameha Day each June. In planning commemoration events, the Commission is often limited by a lack of funding and a lack of business and related experience among its membership. Your Committee believes that creating a special fund to help pay for commemoration events, expanding and raising standards for membership on the Commission, and appointing an executive director will help the Commission overcome the struggles that have limited its performance in the past.

To facilitate further discussion, your Committee has amended this measure by:

- (1) Changing the amount of the appropriation for fiscal year 2017-2018 for deposit into the King Kamehameha Celebration Commission special fund from \$200,000 to an unspecified sum; and
- (2) Changing the amount of the appropriation from the King Kamehameha Celebration Commission special fund for fiscal years 2017-2018 and 2018-2019, respectively, from \$100,000 to an unspecified sum;
- (3) Changing the effective date to March 9, 2092.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 601, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 601, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, none. Excused, 3 (Dela Cruz, English, Kahele).

SCRep. 799 Ways and Means on S.B. No. 612

The purpose and intent of this measure is to assist the State's livestock and aquaculture industries by reducing the cost of feed.

More specifically, the measure:

- (1) Makes a housekeeping amendment to harmonize a qualified feed developer grant program requirement with a qualified producer grant program requirement;
- (2) Appropriates funds to reimburse qualified producers of certain products for their feed costs; and
- (3) Appropriates funds to reimburse qualified feed developers for their feed development costs.

Your Committee received written comments in support of this measure from the Department of Agriculture, Ulupono Initiative, Hawaii Farm Bureau, Hawaii Cattlemen's Council, Meadow Gold Dairies, Hawaii Farmers and Ranchers United, and thirty-eight individuals.

Written comments in opposition were received from one individual.

Your Committee finds that feed costs are identified as the single most expensive component of animal agriculture operations. Hawaii's lack of local feed mills means that the livestock and aquaculture industries must use imported animal feed. Continued reliance on imported feed is untenable, due to ever-changing market forces and rising shipping costs. In contrast, the State has the potential to develop and produce feedstock locally, and feed development projects are underway. The Hawaii Department of Agriculture has initiated a feed development process to identify, assess, and validate available local feed ingredients. Your Committee finds that the feed subsidy provided by this measure to qualified producers of certain products and qualified feed developers will support the Department's efforts and promote the long-term viability of the State's livestock and aquaculture industries.

Your Committee has amended this measure by:

- (1) Extending the appropriation to include both fiscal year 2017-2018 and fiscal year 2018-2019;
- (2) Changing the appropriation amounts to unspecified amounts; and
- (3) Changing the effective date to March 9, 2092, to facilitate further discussion on the measure.

Your Committee notes that the measure previously contained a general fund appropriation of \$2,000,000 in fiscal year 2017-2018 for the Department of Agriculture's livestock revitalization program. Of this amount, \$1,000,000 was to be allocated to reimburse qualified producers of milk, pork, eggs, poultry, beef, sheep, lamb, goats, and seafood for their feed costs; the remaining \$1,000,000 was to be allocated to reimburse qualified feed developers for their feed development costs.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 612, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 612, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, none.

SCRep. 800 Ways and Means on S.B. No. 698

The purpose and intent of this measure is to improve the regulation of agricultural lands.

More specifically, the measure:

- (1) Requires an owner or occupier of certain agricultural lands that are subdivided or leased to provide written notice to certain county agencies of the agricultural uses or activities for which the lands were subdivided and leased, together with a subdivision or lease map; and
- (2) Grants state and county agencies authority to enter subdivided and leased agricultural lands to investigate for violations of and compliance with agricultural subdivision and lease qualifications.

Your Committee received written comments in support of this measure from the Department of Agriculture, the Department of Planning and Permitting of the City and County of Honolulu, the Hawaii Cattlemens Council, and Ponoholo Ranch Limited.

Your Committee finds that enforcement of agricultural subdivision and lease qualifications and agricultural building permit exemptions are challenging for state and county agencies and land use violations continue to occur. For example, a county planning agency having enforcement duties lacks authority to enter private property to investigate compliance of agricultural buildings with exemptions from building permit requirements and building codes.

Your Committee further finds that this measure provides appropriate agencies with additional tools to investigate certain agricultural land subdivision activities and permits those agencies to enter affected properties to inspect for compliance.

Your Committee has amended this measure by specifying that an agency that provides reasonable notice, but is refused entry to certain agricultural lands to inspect for violations, may apply to the district court for a warrant commanding police to provide assistance.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 698, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 698, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 7; Ayes with Reservations (Inouye). Noes, none. Excused, 4 (Dela Cruz, English, Kahele, Taniguchi).

SCRep. 801 Ways and Means on S.B. No. 723

The purpose and intent of this measure is to respond to workforce needs in Hawaii.

Specifically, the measure:

- (1) Specifies that one purpose of the University of Hawaii community colleges is to provide occupational training and certification programs designed to rapidly qualify individuals to fill new and hard-to-fill positions; and
- (2) Appropriates funds to the University of Hawaii for occupational training and certification programs designed to rapidly qualify persons to fill new and hard-to-fill classes of non-professional positions.

Your Committee received written comments in support of this measure from the University of Hawaii System.

Your Committee finds that it is a core function of the University of Hawaii Community Colleges to provide short-term, rapid response training to meet the continually changing requirements of the State's economy. Your Committee further finds that codification of this responsibility into statute will provide formal recognition of this very important responsibility.

As received by your Committee, this measure included an appropriation of \$250,000 from the general revenues of the State. Your Committee respectfully requests that, as this measure continues to move through the Legislature, future Committees consider whether federal funds or other sources of funding can be substituted in place of general funds.

Your Committee has amended this measure by changing the appropriation amount from \$250,000 to an unspecified amount to facilitate further discussion.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 723, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 723, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 9. Noes, none. Excused, 2 (Inouye, Wakai).

SCRep. 802 Ways and Means on S.B. No. 808

The purpose and intent of this measure is to appropriate moneys for the operational expenses and staffing costs of the Hawaii Association of Conservation Districts.

Your Committee received written comments in support of this measure from the Department of Agriculture, Department of Land and Natural Resources, Hawaii Association of Conservation Districts, Hawaii Farm Bureau, Hawaii Cattlemen's Council, Inc., Ponoholo Ranch Limited, Local Food Coalition, Maui County Farm Bureau, Larry Jeffs Farms, LLC, Hawaii Aquaculture and Aquaponics Association, Kauai County Farm Bureau, Hawaii Fish Company, and eighteen individuals.

Your Committee received written comments on this measure from the Hawaii Government Employees Association.

Your Committee finds that the Hawaii Association of Conservation Districts comprises sixteen districts representing every community on all major islands of Hawaii. Water and soil conservation districts are responsible for a variety of environmental protection and education efforts across the State. Additionally, water and soil conservation districts assist with reviewing each county's grading permits and conservation plans.

Your Committee further finds that the funding shortages and high volume of work faced by the Hawaii Association of Conservation Districts result in negative impacts to the State's agriculture and environment. Your Committee believes that the appropriation in this

measure will help ensure that the Hawaii Association of Conservation Districts is able to keep pace with the critical demand for its services.

Your Committee has amended this measure by:

- (1) Changing the appropriation for fiscal years 2017-2018 and 2018-2019, respectively, from \$450,000 to an unspecified amount; and
- (2) Changing the effective date to July 1, 2099, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 808, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 808, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, 5 (Dela Cruz, Inouye, Kahele, Shimabukuro, Taniguchi).

SCRep. 803 Ways and Means on S.B. No. 803

The purpose and intent of this measure is to promote food safety.

More specifically, this measure:

- (1) Establishes an income tax credit to assist farmers with expenses associated with compliance with the federal Food Safety Modernization Act; and
- (2) Establishes the Food Safety Modernization Act special fund.

Your Committee received written comments in support of this measure from the Department of Agriculture, Hawaii Cattlemen's Council, Hawaii Crop Improvement Association, Hawaii Farm Bureau, Hawaii Farmers and Ranchers United, Hawaii Food Manufacturers Association, Hydroponics Alternatives LLC, Maui Chamber of Commerce, Ulupono Initiative, and three individuals.

Your Committee received written comments on this measure from the Department of Taxation and Tax Foundation of Hawaii.

Your Committee finds that the federal Food and Drug Administration has formalized stricter food safety regulations for agriculture under the recently passed Food Safety Modernization Act. Your Committee also finds that these new standards include provisions that will be burdensome and expensive for many of Hawaii's farmers. Your Committee believes that this measure will support Hawaii's agricultural industry by assisting farmers and ranchers to comply with federal food safety requirements.

Your Committee has amended this measure by:

- (1) Codifying the special fund in chapter 141, Hawaii Revised Statutes, which pertains to the Department of Agriculture, rather than chapter 235, Hawaii Revised Statutes, which pertains to the state income tax law;
- (2) Authorizing the Department of Agriculture to adopt rules under chapter 91, Hawaii Revised Statutes, related to its certification authority regarding the tax credit;
- (3) Changing the effective date to March 9, 2092, to facilitate further discussion on the measure; and
- (4) Making technical nonsubstantive amendments for the purposes of consistency, clarity, and style.

If subsequent committees choose to deliberate this measure further, your Committee recommends that they discuss whether the tax credit established by this measure should be refundable or nonrefundable, given the difficult fiscal climate. In this regard, your Committee appreciates that the measure places a \$2,000,000 aggregate cap on the amount of tax credits that may be authorized in a taxable year.

Your Committee also recommends that subsequent committees engage in discussions with the Department of Agriculture regarding the amount of general fund appropriations and additional personnel that would be necessary for the department to fulfill its certification responsibilities under the new tax credit. Your Committee notes that the Department of Agriculture has similar certification responsibilities for the important agricultural land qualified agricultural cost tax credit and the organic foods production tax credit, codified respectively as sections 235-110.93 and 235-110.94, Hawaii Revised Statutes.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 803, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 803, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, none. Excused, 3 (Dela Cruz, Taniguchi, Wakai).

SCRep. 804 Ways and Means on S.B. No. 1082

The purpose and intent of this measure is to support the Hawaii Community College Agriculture Program.

More specifically, this measure:

- (1) Appropriates funds for the 2017-2019 fiscal biennium for the hiring of a farm coordinator to support the instructional activities of Hawaii Community College at the University of Hawaii at Hilo's agricultural farm; and
- (2) Appropriates funds for fiscal year 2017-2018 for equipment for the Hawaii Community College Agriculture Program.

Your Committee received written comments in support of this measure from the Department of Agriculture, the University of Hawaii System, Hawaii Cattlemen's Council, Hawaii Farm Bureau, and two individuals.

Your Committee finds that the Hawaii Community College Agriculture Program prepares students for employment in government service, agribusiness, horticulture, livestock, flowers and foliage, landscaping, macadamia nuts, papaya, and coffee industries. Your Committee further finds that student interest in the Hawaii Community College Agriculture Program has grown in recent years, with the program averaging around thirty majors each year. Your Committee recognizes that the program is unable to meet current demand and that additional funding for personnel and equipment is needed to help the program satisfy the demand.

Your Committee has amended this measure by:

- (1) Changing the amounts appropriated in fiscal years 2017-2018 and 2018-2019 for the hiring of a farm coordinator from \$43,000 respectively for each year to unspecified amounts;
- (2) Making a correction to clarify that Hawaii Community College is the expending agency for the appropriation to hire a farm coordinator;
- (3) Changing the amount appropriated in fiscal year 2017-2018 for equipment from \$165,600 to an unspecified amount; and
- (4) Changing the effective date to March 9, 2092, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1082, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1082, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 11. Noes, none. Excused, none.

SCRep. 805 Ways and Means on S.B. No. 1288

The purpose and intent of this measure is to authorize the issuance of special purpose revenue bonds to assist HPC Foods, Ltd., as an agricultural enterprise.

Your Committee received written comments in support of this measure from the Department of Agriculture, Hawaii Food Manufacturers Association, Hawaii Farm Bureau, and Chamber of Commerce Hawaii.

Your Committee received written comments on this measure from the Department of Budget and Finance and the Department of the Attorney General.

Your Committee finds that the proceeds from the sale of special purpose revenue bonds will be used by HPC Foods, Ltd., one of Hawaii's largest produce processors and distributors, for multi-purpose capital improvement programs. Your Committee believes that it is more appropriate to issue special purpose revenue bonds to assist HPC Foods, Ltd., as a processing enterprise, rather than as an agricultural enterprise. Your Committee finds that the issuance of these special purpose revenue bonds is in the public interest and will benefit the public health, safety, and general welfare.

Your Committee has amended this measure by:

- (1) Changing the category of special purpose revenue bonds to be issued under chapter 39A, Hawaii Revised Statutes, to assist HPC Foods, Inc., as a processing enterprise pursuant to part IV of the chapter rather than an agricultural enterprise pursuant to part X of the chapter; and
- (2) Adding a list of specific purposes for which the proceeds from the sale of the special purpose revenue bonds will be used, including:
 - (A) Processing and packing warehouse facilities;
 - (B) Equipment for processing and packing;
 - (C) Refrigeration facilities; and
 - (D) Agricultural production including manufacturing and value-added products.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1288, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1288, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 11. Noes, none. Excused, none.

SCRep. 806 Ways and Means on S.B. No. 1294

The purpose and intent of this measure is to establish a program within the University of Hawaii System to target the recruitment and retention of Native Hawaiian, Pacific Islander, and first generation college students.

Specifically, this measure:

- (1) Establishes the Undergraduate Health Sciences Academy at the University of Hawaii;
- (2) Tasks the Academy with eliminating health disparities in Native Hawaiian, Pacific Islander, and underserved communities and promoting educational pathways in the health sciences fields;

- (3) Requires a curriculum for high school teachers and a health sciences educational pathway for high school students;
- (4) Requires the Academy to establish course work to prepare students and their families for college level studies in the health sciences;
- (5) Establishes Native Hawaiian principles to guide the Academy; and
- (6) Appropriates funds and establishes positions for the Academy.

Your Committee received written comments in support of this measure from the University of Hawaii System; the Native Hawaiian Health Task Force; Ho'omana Pono, LLC; University of Hawaii West Oahu Allied Health Faculty; Kamehameha Schools; and nineteen individuals.

Your Committee received written comments in opposition to this measure from one individual.

Your Committee finds that Native Hawaiians are less likely to attend college than other ethnic groups due, in part, to low levels of high school preparation and inadequate finances. Your Committee further finds that the medical field is experiencing a health care worker shortage. Your Committee believes that establishing a program to encourage Native Hawaiians and other individuals to attend college and earn a degree in a health sciences field will help alleviate the shortage of health care workers and provide quality, well-paid jobs.

Your Committee has amended this measure by:

- (1) Changing the amount appropriated for fiscal years 2017-2018 and 2018-2019, respectively, from \$2,080,404 to an unspecified amount;
- (2) Changing the number of positions authorized from twenty to an unspecified number; and
- (3) Changing the effective date to March 9, 2092, to facilitate further discussion on the measure.

Your Committee acknowledges concerns that the contents of the measure potentially extend beyond the scope of its title, in violation of Article III, section 14, of the Constitution of the State of Hawaii. Your Committee requests that subsequent committees hearing this measure address this issue.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1294, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1294, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, none. Excused, 3 (Inouye, Taniguchi, Wakai).

SCRep. 807 Ways and Means on S.B. No. 195

The purpose and intent of this measure is to appropriate funds to the Hawaii Teacher Standards Board for two permanent specialist positions.

Your Committee received written comments in support of this measure from the Hawaii Teacher Standards Board, the Hawaii State Public Charter School Commission, the University of Hawaii System, and three individuals.

Your Committee finds that the two specialist positions, which are currently funded using special funds, support the day-to-day licensing functions of the Hawaii Teacher Standards Board, working directly with approximately twelve thousand teacher applicants and licensees in all Hawaii public schools. Your Committee further finds that increases in salaries and benefits for personnel costs have exceeded the Board's special fund revenues, causing hardship for the Board and complicating its mission to set high teacher licensing and credentialing standards.

Your Committee has amended this measure by:

- (1) Changing the appropriation amount from \$283,100 to an unspecified sum; and
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure.

Your Committee notes that it is considering including this appropriation within the General Appropriations Act of 2017.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 195, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 195, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 9. Noes, none. Excused, 2 (Inouye, Wakai).

SCRep. 808 Ways and Means on S.B. No. 687

The purpose and intent of this measure is to promote early learning in the State.

More specifically, this measure:

- (1) Broadens the scope of the State's early learning program to include early childhood development; and
- (2) Expands the function and powers of the Early Learning Advisory Board, including appointment and evaluation of the director of the Executive Office on Early Learning.

Your Committee received written comments in support of this measure from the Executive Office on Early Learning, Early Learning Advisory Board, Hawaii Children's Action Network, and Kamehameha Schools.

Your Committee finds that early learning programs are essential to prepare children for entry into kindergarten. The Executive Office on Early Learning was created, in part, to ensure a spectrum of high-quality early learning opportunities for children throughout the State. The Early Learning Advisory Board was established in 2012 to serve in an advisory role for the Executive Office on Early Learning. Your Committee believes that expanding the powers and functions of the Early Learning Advisory Board will help provide the authority necessary to oversee the Executive Office on Early Learning and ensure the development and implementation of state policies regarding early learning programs.

Your Committee has amended this measure by:

- (1) Changing references of "early childhood education" to "early learning" in relevant sections of the Hawaii Revised Statutes; and
- (2) Making technical nonsubstantive changes for purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 687, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 687, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 9. Noes, none. Excused, 2 (Inouye, Wakai).

SCRep. 809 Ways and Means on S.B. No. 719

The purpose and intent of this measure is to establish a strategy to adequately maintain the State's buildings, facilities, and other improvements.

Specifically, the measure addresses the State's deferred maintenance backlog by:

- (1) Requiring the Governor to:
 - (A) Prepare a deferred maintenance plan to gradually eliminate the deferred maintenance costs of state-owned buildings, facilities, and other improvements; and
 - (B) Submit an initial plan to the Legislature for the fiscal biennium 2019-2021 and prepare annual updates thereafter; and
- (2) Imposing the same requirements on the Chief Justice for buildings, facilities, and other improvements owned by the Judiciary.

Your Committee received comments on this measure from the Department of Accounting and General Services and the Department of Budget and Finance.

Your Committee finds that the State's estimated deferred maintenance costs total \$3.1 billion, based on each department's estimated deferred maintenance costs for facilities statewide, as itemized in appendix 5 of the Multi-year Program and Financial Plan. Given this significant backlog, a deferred maintenance plan is essential to ensure the backlog is addressed in a timely, cost-effective, and transparent manner.

Your Committee has amended this measure by:

- (1) Changing the appropriation to the Office of the Governor from \$100,000 to an unspecified sum;
- (2) Changing the appropriation to the Judiciary from \$50,000 to an unspecified sum; and
- (3) Changing the effective date to July 1, 2050, to facilitate further discussion.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 719, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 719, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 7. Noes, none. Excused, 4 (Dela Cruz, Inouye, Kahele, Shimabukuro).

SCRep. 810 Ways and Means on S.B. No. 1221

The purpose and intent of this measure is to ensure the continued viability of the State's sea salt manufacturing industry by appropriating funds for the Department of Business, Economic Development, and Tourism to address the Food and Drug Administration's industry guidance on the use of color additives in sea salt products.

Your Committee received written comments in support of this measure from the Department of Business, Economic Development, and Tourism; Chamber of Commerce Hawaii; and Hawaii Food Manufacturers Association.

Your Committee finds that Hawaii-made sea salt products are a well-known product both here in Hawaii and around the world. Your Committee also finds that recent guidelines from the Food and Drug Administration regarding red and black Hawaiian sea salts have caused large financial stress on the industry due to the cost of testing that is required to meet the guidelines. Your Committee further finds that the Department of Business, Economic Development, and Tourism's assistance will relieve local small businesses from bearing the burden of these costs and allow them to continue to focus on growing their business.

Your Committee has amended this measure by changing the effective date to July 1, 2050, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1221, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1221, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 10; Ayes with Reservations (Taniguchi). Noes, none. Excused, 1 (Dela Cruz).

SCRep. 811 Ways and Means on S.B. No. 352

The purpose and intent of this measure is to appropriate funds to supplement the agricultural loan revolving fund and to appropriate moneys out of the revolving fund.

Specifically this measure:

- (1) Appropriates \$5,000,000 out of the general revenues of the State for fiscal year 2017-2018 to be deposited into the agricultural loan revolving fund established under section 155-14, Hawaii Revised Statutes; and
- (2) Appropriates \$5,000,000 out of the agricultural loan revolving fund for fiscal year 2017-2018 for loans in accordance with section 155-14, Hawaii Revised Statutes.

Your Committee received written comments in support of this measure from the Department of Agriculture, Ulupono Initiative, Hawaii Farm Bureau, and Hawaii Cattlemen's Council.

Your Committee finds that the Department of Agriculture's agricultural loan program was established to assist farmers in starting new or expanding existing farm operations. However, the program lacks sufficient capital to fully implement its goals and objectives. Your Committee finds that additional funding is necessary to support the agricultural loan program and help the State progress toward its food production and sustainability goals.

Your Committee has amended this measure by:

- (1) Changing the amount appropriated out of the general revenues of the State for fiscal year 2017-2018 to be deposited into the agricultural loan revolving fund from \$5,000,000 to an unspecified amount;
- (2) Changing the amount appropriated out of the agricultural loan revolving fund from \$5,000,000 to an unspecified amount; and
- (3) Changing the effective date to March 9, 2022, to facilitate further discussion of the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 352, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 352, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, none. Excused, 3 (Dela Cruz, English, Kahele).

SCRep. 812 Ways and Means on S.B. No. 778

The purpose and intent of this measure is to appropriate funds to implement the findings and recommendations of the *Pesticide Use by Large Agribusinesses on Kaua'i* report.

Your Committee received written comments in support of this measure from IMUAlliance, Hawaii Alliance for Progressive Action, Hawaii Center for Food Safety, GMO Free Kauai, Shaka Movement, Ka Lahui Hawaii Political Action Committee, and eighty-six individuals.

Your Committee received written comments in opposition to this measure from the Hawaii Crop Improvement Association, Ponoholo Ranch Limited, Hawaii Farm Bureau, Hawaii Cattlemen's Council, CropLife America, and two individuals.

Your Committee received written comments on this measure from the Department of Agriculture and the Western Plant Health Association.

Your Committee finds that in 2013, the County of Kauai passed Ordinance No. 960 relating to pesticides and genetically modified organisms. The ordinance contained a provision to create a Joint Fact Finding Group to help address key environmental and public health questions related to large-scale commercial agriculture entities that use pesticides and genetically modified organisms on the island of Kauai. In 2014, the ordinance was overturned in federal court, which prompted the Department of Agriculture and the Kauai County Office of the Mayor to contract an independent public policy group, The ACCORD 3.0 Network, to facilitate the Joint Fact Finding Group project. The group was charged with gathering accurate information on the lands used by seed companies and Kauai Coffee, their pesticide usage, and evidence of any possible adverse health and environmental impacts.

Your Committee further finds that on May 25, 2016, the study group issued its findings in a report titled *Pesticide Use by Large Agribusinesses on Kaua'i*. The study group arrived at the following conclusions regarding health and environmental impacts on the west side of Kauai:

- (1) The Kauai health data examined is very limited and does not show a causal relationship between the pesticides used by the seed companies and health problems found on the west side or any other part of Kauai; and
- (2) There needs to be additional data gathering going forward to continue to demonstrate the impacts of agricultural pesticide use.

Your Committee has amended this measure by:

- (1) Changing the amount appropriated in fiscal year 2017-2018 and fiscal year 2018-2019 from \$3,000,000 to an unspecified amount; and

- (2) Changing the effective date to March 9, 2092, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 778, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 778, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 8. Noes, none. Excused, 3 (Dela Cruz, English, Kahele).

SCRep. 813 Ways and Means on S.B. No. 1312

The purpose and intent of this measure is to establish a Board of Midwifery and to require certified midwives and certified professional midwives to be licensed by the board in order to practice midwifery.

Your Committee received written comments in support of this measure from Healthy Mothers Healthy Babies; Midwives Alliance of Hawaii; Kona Birth and Midwifery Services; Hawaii Affiliate of the ACNM; Breastfeeding Hawaii; and fourteen individuals.

Your Committee received written comments in opposition to this measure from The Queen's Health System; Hoopae Pono Peace Project; ACOG Hawaii Section; First Women's Council, LLC; Sacred Healing Arts; and ninety-six individuals.

Your Committee received written comments on this measure from the Auditor; the Professional and Vocational Licensing Division of the Department of Commerce and Consumer Affairs; the Regulated Industries Complaints Office of the Department of Commerce and Consumer Affairs; Kapiolani Medical Center for Women and Children; Hawaii Holistic Midwifery; and five individuals.

Your Committee finds that the regulation of the midwifery profession is important to ensure that all persons who receive maternity and women's health services are provided safe and competent care.

Your Committee has amended this measure by:

- (1) Correcting the reference to "Midwifery Education and Accreditation Council" by changing it to "Midwifery Education Accreditation Council;"
- (2) Clarifying that the type of council that is convened pursuant to section 453-2(c), Hawaii Revised Statutes, is a "kupuna council";
- (3) Changing the licensing fee amount to an unspecified amount in order to encourage further discussion; and
- (4) Making technical nonsubstantive amendments to correct a spelling error and for the purpose of clarity.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1312, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1312, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 9; Ayes with Reservations (Kahele, Riviere, Shimabukuro). Noes, none. Excused, 2 (Inouye, Wakai).

SCRep. 814 (Majority) Ways and Means on S.B. No. 382

The purpose and intent of this measure is to update the structure and operation of the Public Utilities Commission (Commission).

More specifically, this measure:

- (1) Establishes guiding principles of the Commission;
- (2) Requires the Commission to establish a docket review and decision-making process that encourages collaboration;
- (3) Allows a Commissioner to attend a public hearing or meeting, or to work with staff, by teleconference or videoconference in specific situations;
- (4) Requires the Executive Officer, Chief Counsel, Chief of Policy and Research, and any individual employed as or in the role of a hearings officer of the Commission to annually file a disclosure of financial interests with the State Ethics Commission and requires these disclosures to be public;
- (5) Increases the number of members on the Commission, specifies the composition of Commission members, and ensures that members who are residents of a county other than the City and County of Honolulu receive per diem compensation and travel expenses;
- (6) Requires new Commissioners to attend pertinent educational or training seminars within the first year of the Commissioner's appointment and permits Commissioners and key staff to take advantage of relevant training opportunities;
- (7) Clarifies the ability of the Commissioners to appoint and employ staff;
- (8) Clarifies the roles of the Executive Officer and Chief Counsel to the Commission;
- (9) Requires the Commissioners to work with the Department of Commerce and Consumer Affairs and Department of Human Resources Development to develop clearly defined duties and responsibilities for Commission staff and report the staff duties to the Legislature; and
- (10) Requires a management audit to aid in the Commission's transition to a better functioning entity.

Your Committee received written comments in support of this measure from the Hawaii Government Employees Association and one individual.

Your Committee received written comments in opposition to this measure from the Public Utilities Commission.

Your Committee received written comments on this measure from the Division of Consumer Advocacy of the Department of Commerce and Consumer Affairs and the Office of the Auditor.

Your Committee notes that this measure is a work in progress. Your Committee encourages all parties involved to continue to work together in order to resolve the issues of the measure.

Your Committee has amended this measure by changing the effective date of the provisions that amend the composition of the Commission members and provide per diem compensation and travel expenses to members who reside in a county other than the City and County of Honolulu, to July 1, 2050, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 382, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 382, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 6; Ayes with Reservations (Riviere). Noes, 1 (Harimoto). Excused, 4 (Dela Cruz, Inouye, Taniguchi, Wakai).

SCRep. 815 Ways and Means on S.B. No. 391

The purpose and intent of this measure is to clarify the condominium laws relating to unpaid or contested fines, fees, and assessments; grievance procedures; defaults; and nonjudicial foreclosures.

Your Committee received written comments in support of this measure from Associa and two individuals. Your Committee received written comments on this measure from Hui 'Oia'i'o.

Your Committee finds that this measure will bring much-needed clarity and fairness to the condominium laws for both owners and the associations.

Your Committee has amended this measure by:

- (1) Conforming provisions relating to defaults;
- (2) Clarifying that unpaid association fines imposed while the payment plan is in effect do not constitute a default under the payment plan;
- (3) Streamlining and conforming the provisions relating to the written statement of an apartment or unit owner's rights, the owner's duty to pay common expense assessments, and the grievance procedure for an owner who contests all fees except common expenses; and
- (4) Replacing the term "legal fees" with "attorneys' fees and costs".

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 391, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 391, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, 4 (Dela Cruz, English, Kahele, Taniguchi).

SCRep. 816 Ways and Means on S.B. No. 347

The purpose and intent of this measure is to appropriate funds for the establishment, staffing, and operation of two mobile clinics to serve the homeless population.

Your Committee received written comments in support of this measure from The Queen's Health Systems, Hawaii Pacific Health, and Hawaii Youth Services Network.

The Governor's Coordinator on Homelessness, Department of Human Services, and Hawaii Psychological Association submitted written comments on the measure.

Your Committee finds that many health care providers treat and provide other care to the vulnerable and underserved homeless population, often on an emergency basis. Mobile clinics would be able to provide timely non-emergency medical care to homeless individuals in the community. By making basic preventative and primary healthcare services more accessible on a mobile outreach basis, the State could assist with mitigating many homeless individuals' illnesses before they become severe, and thus reduce the high demand for emergency medical services to treat non-emergency conditions.

Your Committee further finds that approximately two-thirds of Hawaii's homeless population relies on the State's MedQuest program to pay for health care services. Thus, mobile clinics that reduce health care costs would also help to reduce the State's financial burden.

Your Committee notes that the measure as received appropriated \$1,400,000 in general funds for each of fiscal years 2017-2018 and 2018-2019. Your Committee also notes that the Department of Health is considering developing a community paramedic program similar to the program discontinued by the City and County of Honolulu's Emergency Medical Services Division in 2013. Your Committee believes that the development of a similar program is a worthy endeavor and respectfully requests that it be given consideration as this measure moves through the legislative process, either by the appropriate subject matter committee or by inclusion in the General Appropriations Act of 2017.

Your Committee has amended this measure by:

- (1) Making technical nonsubstantive changes to section 1 of the measure for purposes of clarity;
- (2) Changing the appropriation from \$1,400,000 to an unspecified amount; and
- (3) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 347, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 347, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 8. Noes, none. Excused, 3 (Dela Cruz, English, Kahele).

SCRep. 817 Ways and Means on S.B. No. 530

The purpose and intent of this measure is to support the Office of the Long-Term Care Ombudsman Program.

More specifically, this measure appropriates moneys to be expended by the Executive Office on Aging to:

- (1) Establish one full-time equivalent permanent program specialist IV position on the island of Oahu to support program goals and federal requirements; and
- (2) Provide funding for contracted services through the Office of the Long-Term Care Ombudsman in the counties of Hawaii, Kauai, and Maui.

Your Committee received written comments in support of this measure from the Office of the Long-Term Care Ombudsman Program, AARP Hawaii, ILWU Local 142, and ten individuals.

Your Committee received written comments on this measure from the Executive Office on Aging.

Your Committee finds that the Office of the Long-Term Care Ombudsman Program is a federally and state mandated program that lacks sufficient resources to fulfill its responsibility to protect the 12,340 long-term care residents in Hawaii. Your Committee recognizes that Hawaii is the only state in the country with a long-term care ombudsman program that has a staff of one. Your Committee finds that according to a 1995 recommendation by the Institute of Medicine, Hawaii should have a minimum of six full-time long-term ombudsmen.

Your Committee finds that the responsibilities and logistics of the Long-Term Care Ombudsman Program have become increasingly challenging because today's long-term care residents live in various types of facilities, whereas, historically, most long-term care residents lived in nursing homes. Furthermore, while the program certifies and utilizes volunteers, recruiting and retaining volunteers consumes considerable resources, and your Committee recognizes that volunteers cannot function as an adequate substitute for full-time, highly trained staff. Your Committee believes that the moneys appropriated by this measure will help ensure that long-term care residents receive timely and regular access to program services.

Your Committee notes that it intends to consider including this measure's appropriation in the General Appropriations Act of 2017.

Your Committee has amended this measure by:

- (1) Changing the general fund appropriation for fiscal years 2017-2018 and 2018-2019 from \$150,000 to an unspecified amount;
- (2) Changing the specific appropriations for:
 - (A) The City and County of Honolulu from \$75,000 to an unspecified amount;
 - (B) The County of Hawaii from \$25,000 to an unspecified amount;
 - (C) The County of Kauai from \$25,000 to an unspecified amount; and
 - (D) The County of Maui from \$25,000 to an unspecified amount; and
- (3) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 530, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 530, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 9. Noes, none. Excused, 2 (Inouye, Wakai).

SCRep. 818 Ways and Means on S.B. No. 397

The purpose and intent of this measure is to extend the hospital sustainability program for two years.

This measure also:

- (1) Amends the definition of "net patient service revenue" by specifying the data to be used in calculating net patient service revenue;
- (2) Clarifies the exemption from the hospital sustainability fee for outpatient services and authorizes the Department of Human Services to exempt any facility as needed to meet federal standards; and
- (3) Appropriate funds out of the hospital sustainability program special fund for fiscal biennium 2017-2019 for purposes consistent with the special fund.

Your Committee received written comments in support of this measure from the Hawaii Health Systems Corporation, the East Hawaii Region of the Hawaii Health Systems Corporation, the Department of Human Services, The Queen's Health Systems, Healthcare Association of Hawaii, and the Chamber of Commerce Hawaii.

Your Committee finds that the hospital sustainability fee program has successfully leveraged federal funds to increase hospital reimbursements from the MedQUEST programs, stemmed losses to hospitals in the community, and helped maintain access to care for medicaid recipients.

Your Committee has made a technical nonsubstantive amendment to correct the quoted text of Act 217, Session Laws of Hawaii 2012, in sections 5 and 6 of the measure, to reflect the printed version of the Session Laws.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 397, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 397, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, 4 (Galuteria, Harimoto, Inouye, Kahele).

SCRep. 819 Ways and Means on S.B. No. 285

The purpose and intent of this measure is to extend the nursing facility sustainability program for two years until December 31, 2019.

This measure also appropriates funds from the nursing facility sustainability program special fund for uses consistent with the special fund for the fiscal biennium 2017-2019.

Your Committee received written comments in support of this measure from the Hawaii Health Systems Corporation, the Department of Human Services, Healthcare Association of Hawaii, The Queen's Health Systems, and the Chamber of Commerce of Hawaii.

Your Committee finds that the nursing facility sustainability program has successfully leveraged federal funds to increase the level of nursing facility reimbursements from the MedQUEST programs to nursing facilities, and helped maintain access to care for medicaid recipients.

Your Committee has amended this measure by making technical nonsubstantive amendments for the purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 285, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 285, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, 4 (Galuteria, Harimoto, Inouye, Kahele).

SCRep. 820 Ways and Means on S.B. No. 404

The purpose and intent of this measure is to amend the cigarette tax and tobacco tax law.

More specifically, this measure:

- (1) Requires retailers engaged in the retail sale of cigarettes, tobacco products, electronic smoking devices, or e-liquid to obtain a retail tobacco permit;
- (2) Increases the license fee for wholesalers or dealers of cigarettes, tobacco products, electronic smoking devices, and e-liquid;
- (3) Increases the retail tobacco permit fee for retailers of cigarettes, tobacco products, electronic smoking devices, and e-liquid;
- (4) Requires that license and permit fees collected be used to cover administrative expenses, merchant education, legal signage, and the enforcement of tobacco sales laws; and
- (5) Imposes an excise tax on electronic smoking devices and e-liquid sold by a wholesaler or dealer on and after January 1, 2018.

Your Committee received written comments in support of this measure from the Department of Health, American Heart Association, Hawaii Children's Action Network, Hawaii Public Health Institute, and forty-three individuals.

Your Committee received written comments in opposition to this measure from the Hawaii Smokers Alliance and seventeen individuals.

Your Committee received written comments on this measure from the Department of the Attorney General, Department of Taxation, and Tax Foundation of Hawaii.

Your Committee finds that chapter 245, Hawaii Revised Statutes, imposes excise taxes on businesses engaged in the sale of cigarettes and tobacco products. Your Committee also finds that the electronic smoking industry is growing rapidly. However, businesses engaged in the sale of electronic smoking devices and e-liquid are not currently taxed under the cigarette tax and tobacco tax law. Your Committee further finds that this measure treats the sale of electronic smoking devices and e-liquid in a manner similar to the sale of cigarettes and tobacco products and will result in better regulation of the electronic smoking industry.

Your Committee has amended this measure by:

- (1) Amending the definition of "retail tobacco permit" to include the sale of electronic smoking devices and e-liquid;

- (2) Deleting provisions requiring that license and permit fees collected under the cigarette tax and tobacco tax law be used for specific purposes; and
- (3) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 404, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 404, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 8. Noes, none. Excused, 3 (Dela Cruz, Inouye, Wakai).

SCRep. 821 Ways and Means on S.B. No. 912

The purpose and intent of this measure is to modernize the Hawaii Housing Finance and Development Corporation's downpayment loan program and to establish a downpayment loan loss reserve program to assist low and moderate income households to become first-time homebuyers.

Your Committee received written comments in support of this measure from the Department of Business, Economic Development, and Tourism, Hawaii Housing Finance and Development Corporation, and Hawaii Association of REALTORS.

Your Committee finds that homeownership creates strong communities through economic growth. Your Committee also finds that one of the major barriers to homeownership is the potential buyer's lack of a downpayment. The Hawaii Housing Finance and Development Corporation's downpayment loan program was established in 1995 to assist eligible first-time homebuyers with downpayment loans. However, your Committee further finds that this program has not realized its full potential due to funding and outdated programmatic constraints. Your Committee believes this measure will increase access to homeownership by authorizing downpayment loans to first-time homebuyers.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (2) Making technical nonsubstantive amendments for the purposes of consistency, clarity, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 912, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 912, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 8. Noes, none. Excused, 3 (Inouye, Taniguchi, Wakai).

SCRep. 822 Ways and Means on S.B. No. 535

The purpose and intent of this measure is to require health insurers in the State to provide a minimum benefit of \$1,500 for a reasonably medically necessary hearing aid per hearing-impaired ear every thirty-six months.

The Disability and Communication Access Board; The Georgia E. Morikawa Center; Isle Interpret, LLC; National Active and Retired Federal Employees; and three individuals submitted written comments in support of the measure.

The Insurance Division of the Department of Commerce and Consumer Affairs; the Hawaii Employer-Union Health Benefits Trust Fund; Hawaii Medical Service Association; and Kaiser Permanente Hawaii submitted written comments on the measure.

Your Committee finds that, according to the National Institutes of Health, about one-third of Americans between the ages of sixty-five and seventy-five and about one-half of those older than seventy-five have some degree of hearing loss. Your Committee also finds that approximately three to four out of every one thousand children born in Hawaii are identified as having permanent hearing loss.

Your Committee acknowledges that Hawaii's Medicaid managed care plans cover hearing aid evaluation, selection, purchase, and fitting every three years, and subsequent hearing aid checks, hearing testing, ear molds, repairs, and batteries. However, current federal Medicare insurance plans for the elderly only cover hearing testing and do not cover hearing aid purchases and related services. Therefore, your Committee believes it is appropriate to require health insurance coverage for hearing aids for individuals with all types of hearing loss and to specify a minimum amount of coverage and frequency for replacement of hearing aids under the coverage.

Your Committee has amended this measure by changing its effective date to June 1, 2050, to facilitate further discussion.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 535, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 535, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 5 (Dela Cruz, Inouye, Kahele, Shimabukuro, Taniguchi).

SCRep. 823 Commerce, Consumer Protection, and Health on S.B. No. 224

The purpose and intent of this measure is to:

- (1) Establish licensure and registration requirements for school psychologists, to be administered by the Board of Psychology; and
- (2) Amend the composition of the Board of Psychology to include two school psychologists.

Your Committee received testimony in support of this measure from the Hawai'i Association of School Psychologists, Hawaii Children's Action Network, and one individual. Your Committee received comments on this measure from the Department of Education, Regulated Industries Complaints Office of the Department of Commerce and Consumer Affairs, Professional and Vocational Licensing Division of the Department of Commerce and Consumer Affairs, Board of Psychology, and Hawai'i Psychological Association.

Your Committee finds that school psychologists are uniquely qualified members of school teams who support students' ability to learn and teachers' ability to teach. School psychologists apply expertise in mental health, learning, and behavior to help children and youth succeed academically, socially, behaviorally, and emotionally. Your Committee further finds that existing law requires anyone engaged in the practice of psychology to meet specific education and training requirements and be licensed. However, school psychologists are currently exempt from licensure requirements when practicing in an educational setting.

Your Committee notes that Hawaii is the only state in the country that does not require licensing of school psychologists. Your Committee additionally finds that the exemption from licensure for school psychologists has allowed individuals who do not have graduate-level training in school psychology, or who do not meet the nationally accepted certification standard, to practice psychology within educational settings. Without appropriate licensing, the State cannot ensure that school psychologists are properly qualified and delivering appropriate services.

Your Committee also finds that school psychologists receive additional and extensive training in cognitive, academic, social and emotional, behavioral, and adaptive assessment practices. When unqualified or inadequately trained persons provide these services, students are not being fairly assessed, which can result in inaccurate results. Licensing school psychologists will ensure the delivery of quality service to students and the community. Furthermore, your Committee notes that school psychologists have the experience and training to provide applied behavior analysis, but without proper credentials, they are not yet able to deliver these services in a school setting.

Because Hawaii lags behind every other state in the country regarding the licensure of school psychologists, your Committee is not convinced that a sunrise review is necessary or appropriate. Rather, your Committee finds that it is in the best interest of consumers and the State to subject school psychologists and the practice of school psychology to regulation and control, which will protect the public from the unqualified practice of school psychology and from unprofessional conduct by persons licensed to practice school psychology.

Your Committee has amended this measure by:

- (1) Specifying the legislative findings and declaration of necessity for the licensing of school psychologists;
- (2) Clarifying the definition of "school psychologist";
- (3) Specifying that notwithstanding any other law, school psychologists in the State shall be licensed and regulated by the Board of Psychology;
- (4) Clarifying that an applicant for licensure as a school psychologist must have a specialist-level degree or doctoral degree in school psychology within an accredited educational institution comprising a minimum of sixty semester hours consistent with the National Association of School Psychologists' standards for graduate preparation of school psychologists;
- (5) Requiring applicants for licensure and licensure renewal to pay an unspecified license fee and compliance resolution fund fee;
- (6) Clarifying that school psychologist licenses shall be valid for two years;
- (7) Requiring school psychologists to meet continuing education requirements of an unspecified number of credit hours, as provided in Board rules;
- (8) Specifying that services delivered by a school psychologist are articulated under the National Association for School Psychologists' Model for Comprehensive and Integrated School Psychological Services, which represents the official policy regarding the delivery of school psychological services and the ethical standards developed and published by the National Association of School Psychologists;
- (9) Specifying that beginning on July 1, 2019, persons must have a license to practice school psychology in Hawaii;
- (10) Clarifying titles that may be used by school psychologists and students in an accredited school psychology program and deleting the requirement for biennial registration of name and business address;
- (11) Clarifying that the fine for violating the licensure requirements for school psychologists and the practice of school psychology shall be no more than \$1,000 for each separate offense;
- (12) Specifying the grounds for refusal to renew, reinstate, or restore a license and for denial, revocation, suspension, or condition of a license;
- (13) Specifying that the fines for violating certain acts or conditions on the part of a licensee or licensee applicant may be no less than \$100 and no more than \$1,000;
- (14) Removing school psychologists from those persons exempt from the licensing requirements of chapter 465, Hawaii Revised Statutes;
- (15) Specifying that the regulatory system for school psychologists established by this measure shall be repealed on June 30, 2025;
- (16) Inserting a severability clause;
- (17) Inserting an effective date of July 1, 2050, to encourage further discussion; and

(18) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 224, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 224, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 1 (Ruderman).

SCRep. 824 (Joint) Commerce, Consumer Protection, and Health and Ways and Means on S.B. No. 429

The purpose and intent of this measure is to adopt uniform laws to protect the online accounts of employees and students from employers and educational institutions, respectively.

Your Committees received testimony in support of this measure from the University of Hawai'i System, Hawai'i Commission to Promote Uniform Legislation, and Hawai'i Civil Rights Commission. Your Committees received comments on this measure from the American Civil Liberties Union of Hawaii and Internet Coalition.

Your Committees find that privacy is a growing concern as social media use rises and employers increasingly ask current and prospective employees to grant the employer access to social media accounts. Likewise, many educational institutions seek to examine the social media presence of current and prospective students. Your Committees further find that in recent years there have been a number of reported incidents in which employers and schools have demanded, and received, such access.

Your Committees find that the Uniform Employee and Student Online Privacy Protection Act, completed by the Uniform Law Commission in 2016, addresses employers' access to employees' or prospective employees' social media and other online accounts accessed via username and password or other credentials of authentication as well as post-secondary educational institutions' access to students' or prospective students' similar online accounts. Your Committees received testimony expressing concern that the Uniform Employee and Student Online Privacy Protection Act only covers students at the postsecondary level and allows employers or educational institutions to view the entire content of an employee's or student's personal online account based solely on a general allegation of misconduct.

Your Committees have amended this measure by:

- (1) Inserting language from the Personal Online Account Privacy Act to make this measure more comprehensive by covering more Hawaii students and creating stronger safeguards against abuse. More specifically, this measure has been amended by:
 - (A) Adding a definition of the term "applicant";
 - (B) Amending the definition of "educational institution" to include a private or public school, institution, or school district, or any subdivision thereof, that offers participants, students, or trainees an organized course of study or training, as well as school employees and agents acting under the authority of an educational institution or a state or local educational agency authorized to direct or control an educational institution;
 - (C) Amending the definitions of "employee" and "employer" to no longer include prospective employees or unpaid interns working in exchange for academic credit or occupational experience;
 - (D) Amending the definition of "student" to no longer include a parent or legal guardian of a student under the age of majority and inserting a definition for the term "prospective student";
 - (E) Replacing the defined term "content" with the term "specifically identified content" and amending the definition;
 - (F) Replacing the defined term "protected personal online account" with the term "personal online account" and amending the definition to mean any online account maintained by an employee or student, including social media or electronic mail accounts, that is protected by a login requirement, but not including an account opened at an employer's or educational institution's behest or provided by an employer or educational institution and intended to be used solely or primarily on behalf of the employer or educational institution;
 - (G) Deleting definitions and references to the terms "login requirement", "online", "person", and "login information" and replacing references to the term "login information" with references to the user name and password, password, or other means of authentication that provide access to a personal online account;
 - (H) Deleting the provisions that explicitly allow employers and educational institutions to request an employee or student to add the employer or educational institution to, or not remove the employer or educational institution from, the set of persons to which the employee or student grants access to the content of the personal online account and inserting language that prohibits employers and educational institutions from requiring or coercing an applicant, employee, student, or prospective student to add anyone to the list of contacts associated with a personal online account;
 - (I) Inserting provisions that prohibit employers and educational institutions from requiring, requesting, or coercing an employee, applicant, student, or prospective student to provide password or authentication information to a personal technological device or to turn over an unlocked personal technological device for the purpose of gaining access to a personal online account;
 - (J) Inserting provisions that prohibit employers from refusing to hire applicants, and educational institutions from refusing to admit prospective students, as a result of the applicants' or prospective students' refusal to disclose specified information or take specific action related to their personal online account;
 - (K) Inserting language that limits an employer's and educational institution's access to an employee's, applicant's, student's, or prospective student's personal online account to specifically identified content when accessing the information to

comply with legal and regulatory obligations, investigate allegations of misconduct, or investigate threats to safety or property;

- (L) Inserting provisions to allow employers to prohibit employees and applicants, and educational institutions to prohibit students and prospective students, from:
 - (i) Using a personal online account for business or educational institution purposes; and
 - (ii) Accessing or operating a personal online account during business or school hours or while on business or school property;
 - (M) Inserting language to establish that an employer is not liable for having an employee's or applicant's, and an educational institution is not liable for having a student's or prospective student's, user name and password, password, or other means of authentication that provides access to a personal online account if acquired inadvertently through the use of an otherwise lawful technology that monitors the employer's network or devices for network security or data confidentiality;
 - (N) Inserting language to clarify that an educational institution shall not require, coerce, or request a student or prospective student to access a personal online account in the presence of an educational institution employee or educational institution volunteer, including a coach, teacher, or school administrator; and
 - (O) Inserting language that makes any employee or agent of an educational institution who violates the provisions of the measure subject to disciplinary proceedings and punishment, and specifies that if conflict with a collective bargaining agreement arises, the collective bargaining agreement and established practices prevail except in certain circumstances;
- (2) Inserting a provision to clarify that the Uniform Employee and Student Online Privacy Protection Act does not affect employers' obligation to investigate complaints, allegations, or the occurrence of discriminatory practices prohibited under chapter 378, Hawaii Revised Statutes; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Commerce, Consumer Protection, and Health and Ways and Means that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 429, S.D. 1, as amended herein, and recommend that it pass Third Reading in the form attached hereto as S.B. No. 429, S.D. 2.

Signed by the Chairs on behalf of the Committees.

Commerce, Consumer Protection, and Health: Ayes, 6. Noes, none. Excused, 1 (Ruderman).

Ways and Means: Ayes, 9. Noes, none. Excused, 2 (Inouye, Wakai).

SCRep. 825 (Joint) Commerce, Consumer Protection, and Health and Ways and Means on S.B. No. 1201

The purpose and intent of this measure is to facilitate the deployment of high-speed broadband infrastructure in Hawaii, including wireless facilities, by:

- (1) Establishing limits on the State's and counties' authority to prohibit, regulate, or charge for the co-location of small wireless facilities or small wireless facilities networks;
- (2) Specifying certain sites where small wireless facilities or small wireless facilities networks may be located, including conditions and maximum fees for location and co-location; and
- (3) Establishing an application process and rates for co-location.

Your Committees received testimony in support of this measure from the Department of Business, Economic Development, and Tourism; CTIA; Mobilitie; Sprint; and Verizon. Your Committees received testimony in opposition to this measure from the Office of the Mayor of the County of Hawai'i. Your Committees received comments on this measure from the Department of Commerce and Consumer Affairs, Office of Planning, Office of the Mayor of the City and County of Honolulu, Hawaiian Electric Companies, Hawaiian Telecom, and Charter Communications.

Your Committees find that broadband technology is now a critical part of infrastructure and that it is important to facilitate the deployment of high-speed broadband technology for the future global connectivity and economic viability of the State. Broadband technology is essential across multi-sector industries and provides for enhanced educational opportunities, expansion of telehealth capacity, strengthening safety and civil defense communications, increasing economic competitiveness, addressing consumer privileges, and providing tourism services.

Your Committees further find that the demand for access to wireless products and services in Hawaii is increasing rapidly. The number of wireless subscribers in the State has grown nearly sixteen percent since 2010, amounting to over 1,400,000 subscribers and 99.5 percent of residents in the State having access to mobile broadband service. Your Committees find that these demands from the wireless industry's customers require that wireless networks be updated and prepared for the next generation of wireless networks. Your Committees additionally find that this measure will support economic development and innovation in the State related to the increased demand for broadband connectivity.

Your Committees find that Act 151, Session Laws of Hawaii 2011, provides an exemption for the installation, improvement, construction, or development of infrastructure relating to broadband service or broadband technology from state and county permitting requirements, under certain circumstances. However, since Act 151 was enacted, broadband technology has advanced substantially, and wireless and wire line technology are now essential to the delivery of broadband service. Therefore, it is important to recognize the need for wireless and wire line technology and update state statutes accordingly. Finally, your Committees note that this measure is intended to continue the discussion about small wireless facilities and encourage a level playing field for competitive communications service providers.

Accordingly, your Committees have amended this measure by:

- (1) Inserting language to clarify that the limits on regulating the co-location of small wireless facilities or small wireless facilities networks shall not waive the State's or a county's right to require a license, franchise, or other agreement to access the right of way more broadly to install wireline broadband backhaul facilities, or to attach coaxial or fiber-optic cable between poles;
- (2) Establishing the rate for telecommunication pole attachments in 47 U.S.C. section 224(d) as the maximum annual recurring rate for co-location of a small wireless facility on state or county structures, utility poles, or light standards located within all public rights-of-way and property, rural or agricultural district lands, and urban district lands;
- (3) Inserting a provision that authorizes a wireless provider or wireless provider's licensed contractor to apply for or obtain a permit to install, place, maintain, operate, or replace micro wireless facilities that are suspended on messenger cables that are strung between existing utility poles in compliance with national safety codes;
- (4) Inserting language that prohibits the State and counties from adopting or enforcing any regulations on the placement or operation of wireless facilities in the right-of-way where the entity is already authorized by a franchise or other authorization to operate throughout the right-of-way, and prohibits the regulation of wireless communications services or the imposition or collection of fees on wireless communications services unless expressly required by state or federal statute;
- (5) Inserting definitions for the terms "co-location", "general applicability", "micro wireless facilities", "wireless communications service", "wireless facilities", and "wireline backhaul", and deleting the definition of "wireless service";
- (6) Inserting language to clarify that the term "small wireless facilities network" does not include wires or cables used for wireline backhaul or coaxial or fiber-optic cable between utility poles, or that are otherwise not immediately adjacent to and directly associated with a particular antenna;
- (7) Repealing sections of Act 151, Session Laws of Hawaii 2011, that have been codified within the Hawaii Revised Statutes;
- (8) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (9) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Commerce, Consumer Protection, and Health and Ways and Means that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1201, S.D. 1, as amended herein, and recommend that it pass Third Reading in the form attached hereto as S.B. No. 1201, S.D. 2.

Signed by the Chairs on behalf of the Committees.

Commerce, Consumer Protection, and Health: Ayes, 6. Noes, none. Excused, 1 (Ruderman).

Ways and Means: Ayes, 9; Ayes with Reservations (Kahele). Noes, none. Excused, 2 (Inouye, Wakai).

SCRep. 826 Ways and Means on S.B. No. 951

The purpose and intent of this measure is to update the State's mortgage loan origination law.

Specifically, the measure:

- (1) Clarifies which persons are presumed to control a mortgage loan originator company;
- (2) Clarifies procedures for change of control of a licensee;
- (3) Clarifies which persons must disclose their relevant criminal history and criminal history background checks upon application for licensure and change of control of the licensee;
- (4) Clarifies criminal background check fee requirements;
- (5) Clarifies the conditions under which an employee performing mortgage loan origination activities for a nonprofit is exempt from registration and licensure as a mortgage loan originator;
- (6) Adds protections for consumers in their mortgage loan origination transactions;
- (7) Requires exempt sponsoring mortgage loan origination companies to have a principal place of business in the State and fulfill other requirements imposed upon other mortgage loan origination companies; and
- (8) Requires a nonprofit organization to directly manage and supervise any of the organization's mortgage loan origination activities.

The Department of Commerce and Consumer Affairs submitted written comments in support of this measure.

Your Committee finds that mortgage loan originator companies and other similar entities originate billions of dollars of residential mortgage loans annually. Your Committee believes that this measure will ensure that the State is equipped to properly supervise the mortgage loan origination industry, as required by federal law. The measure will also make the State's mortgage loan origination law clearer and more effective, improve compliance within the industry, facilitate the Division of Financial Institutions' regulatory actions, and enhance consumer protection.

Your Committee has amended this measure by:

- (1) Clarifying that the fee an applicant pays for a criminal history background check is the fee charged by the entities conducting the background check;
- (2) Clarifying cross references to the statutory paragraph that requires the payment of the criminal background check fee; and

- (3) Making a technical nonsubstantive amendment for the purpose of clarity.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 951, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 951, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, 4 (Dela Cruz, Inouye, Kahele, Shimabukuro).

SCRep. 827 Ways and Means on S.B. No. 511

The purpose and intent of this measure is to address the oversight of child care facilities in the State.

More specifically, this measure:

- (1) Requires the Department of Human Services, beginning with the inspections occurring on and after January 1, 2018, to post on its website copies of its reports of child care facility inspections within thirty working days of the conclusion of each inspection;
- (2) Creates a child care facility inspection information oversight committee within the Benefit, Employment and Support Services Division of the Department of Human Services, to oversee the Department's compliance with the requirement that the Department post copies of its childcare facilities inspection reports on its website; and
- (3) Requires the Department of Human Services to submit an annual report to the Legislature on all records and actions pertaining to its child care facility inspections.

Your Committee received written comments in support of this measure from fifty concerned individuals.

Your Committee received written comments on this measure from the Department of Human Services and Hawaii Children's Action Network.

Your Committee finds that child care facilities provide one of the most crucial services in the State. Parents and guardians place significant amounts of trust in the child care facilities that they select for their children, and should have access to complete information when selecting a child care facility. Requiring the Department of Human Services to post its records of child care facility inspections and complaint investigations on its website will provide parents and guardians with important information that will assist them in selecting child care facilities. Moreover, establishing an oversight committee to oversee the Department's compliance with the posting requirement helps to further ensure that parents and guardians are provided with the required information.

Your Committee has amended this measure by:

- (1) Replacing on the oversight committee, the Coordinator of the State Advisory Council on Early Childhood Education and Care, or the Coordinator's designee, with the Chairperson of the Early Learning Advisory Board, or the Chairperson's designee; and
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 511, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 511, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 9. Noes, none. Excused, 2 (Inouye, Wakai).

SCRep. 828 Ways and Means on S.B. No. 1244

The purpose and intent of this measure is to help ensure that an adequate supply of affordable housing units is maintained in the State.

Specifically, the measure:

- (1) Authorizes the Hawaii Community Development Authority to transfer a right to repurchase a reserved or workforce unit and transfer the right of repurchase to a qualified nonprofit housing trust;
- (2) Authorizes the counties to waive their right of first refusal to repurchase certain privately developed affordable housing units and transfer that right of repurchase to a qualified nonprofit housing trust;
- (3) Authorizes the Hawaii Housing Finance and Development Corporation to waive its option to repurchase certain real property and transfer the right of repurchase to a qualified nonprofit housing trust; and
- (4) Amends the means of calculating the maximum price for the Hawaii Housing Finance and Development Corporation's first option to purchase real property.

Your Committee received written comments in support of this measure from the Hawaii Housing Finance and Development Corporation; Hawaii HomeOwnership Center; and Gentry Homes, Ltd.

Your Committee received written comments on this measure from the Hawaii Community Development Authority; and the Department of Planning and Permitting of the City and County of Honolulu.

Your Committee finds that for decades, there has been a persistent shortage of safe, decent, and sanitary housing, and the median price for a single family home on Oahu has risen to approximately \$750,000. Your Committee further finds that recent studies show a

need for sixty thousand housing units by the year 2020. Your Committee therefore believes that it is necessary to take steps to preserve existing affordable housing units for as long as possible.

Your Committee has amended this measure by:

- (1) Clarifying that for an entity to qualify as a nonprofit housing trust, it, among other requirements, must be recognized by the Internal Revenue Service as a charitable or otherwise tax exempt organization under section 501(c)(3) of the Internal Revenue Code of 1986, as amended; and
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1244, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1244, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 10. Noes, none. Excused, 1 (Dela Cruz).

SCRep. 829 Judiciary and Labor on S.B. No. 394

The purpose and intent of this measure is to:

- (1) Establish criminal penalties for real estate brokers for improper deposit, segregation, or disposition of client trust account funds;
- (2) Require the principal broker to report the client trust account number and name of the managing institution to the Real Estate Commission and notify the Commission of any change in account number or location within ten days; and
- (3) Authorize the Real Estate Commission to take action in Circuit Court to enforce client trust account requirements.

Your Committee received testimony in support of this measure from the Regulated Industries Complaints Office of the Department of Commerce and Consumer Affairs and Real Estate Commission. Your Committee received testimony in opposition to this measure from the Hawai'i Association of REALTORS.

Your Committee finds that, to ensure consumers are appropriately protected, property management companies should utilize client trust accounts and have clear rules associated with the use of client trust accounts. However, your Committee notes that existing law does not contain sufficient protections to safeguard client information and funds held in client trust accounts.

Accordingly, this measure ensures greater consumer protections by creating the criminal offense of theft, with regard to client trust accounts, and requiring principal brokers to file with the Real Estate Commission the client trust account number and name of the financial institution at which the client trust account is held. This measure also enables the Regulated Industries Complaints Office to expedite investigations of alleged client trust account violations and pursue court action, in addition to existing administrative remedies, to address client trust account violations.

Your Committee has amended this measure by:

- (1) Inserting an effective date of January 7, 2059, to encourage further discussion; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 394, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 394, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 830 (Joint) Ways and Means and Judiciary and Labor on S.B. No. 199

The purpose and intent of this measure is to provide for the funding of incentives for public charter school teachers.

Specifically, the measure:

- (1) Prohibits the use of a charter school's facilities funding or per-pupil funds to pay for teacher incentives and bonuses;
- (2) Beginning with fiscal year 2018-2019, requires the funding request for teacher incentives and bonuses to be a separate line item in the annual state budget act; and
- (3) Appropriates moneys for public charter school teacher bonuses and incentives for fiscal year 2017-2018.

The Office of Hawaiian Affairs, Hawaii State Public Charter School Commission, Hawaii State Teachers Association, and Kamehameha Schools submitted written comments in support of this measure. The Department of Budget and Finance submitted written comments on this measure.

Your Committees find that the success of public charter schools depends in part on the dedication of their teachers. Like the teachers at schools established and maintained by the Department of Education, teachers at public charter schools who have earned National Board certification or who teach at hard-to-fill schools are entitled to receive incentive bonuses. However, your Committees also find that while teachers at schools established and maintained by the Department of Education receive incentive bonuses from a designated fund, public charter school teachers are paid incentive bonuses out of each individual charter school's per-pupil funds. The costs of the incentives are not calculated into the moneys the State provides for per-pupil funds. The result is that charter school

administrators often must choose between hiring and retaining high-quality teachers and balancing their budgets. Your Committees believe that this measure will ensure a fair allocation of funds meant to ultimately benefit students who attend schools established and maintained by the Department of Education and students who attend public charter schools.

Your Committees have amended this measure by changing its effective date to July 1, 2050, to facilitate further discussion.

As affirmed by the records of votes of the members of your Committees on Ways and Means and Judiciary and Labor that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 199, as amended herein, and recommend that it pass Third Reading in the form attached hereto as S.B. No. 199, S.D. 1.

Signed by the Chairs on behalf of the Committees.

Ways and Means: Ayes, 9. Noes, none. Excused, 2 (Inouye, Wakai).

Judiciary and Labor: Ayes, 3. Noes, none. Excused, 2 (Gabbard, Kim).

SCRep. 831 (Joint) Ways and Means and Judiciary and Labor on S.B. No. 619

The purpose and intent of this measure is to require the Department of Education to develop and implement a K-12 curriculum to career pipeline initiative.

More specifically, this measure requires the Department of Education, in collaboration and consultation with the Department of Business, Economic Development, and Tourism; the Department of Labor and Industrial Relations; and the University of Hawaii, to develop and implement a K-12 curriculum to career pipeline initiative to more closely align education to employment needs so that students graduate from high school with the right skills to enter the State's workforce.

Your Committees received written comments in support of this measure from the Department of Education and the Hawaii State Teachers Association.

Your Committees find that there is a disconnect between the needs and expectations of today's employers and the current skill levels of certain sectors of the State's workforce. Employers have increasingly reported difficulties in finding individuals with the right skills for the right job openings, particularly in the fields of science, technology, engineering, and mathematics, otherwise known as "STEM" jobs. Your Committees find that this measure will help close the skills gap in the State by providing Hawaii's students with greater access to technical skill and STEM training so that they are ready to enter the State's workforce upon graduating from high school.

Your Committees have amended this measure by:

- (1) Appropriating an unspecified amount to the Department of Education for the 2017-2019 fiscal biennium to fund the K-12 curriculum to career pipeline initiative;
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (3) Making technical amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Ways and Means and Judiciary and Labor that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 619, as amended herein, and recommend that it pass Third Reading in the form attached hereto as S.B. No. 619, S.D. 1.

Signed by the Chairs on behalf of the Committees.

Ways and Means: Ayes, 9. Noes, none. Excused, 2 (Inouye, Wakai).

Judiciary and Labor: Ayes, 3. Noes, none. Excused, 2 (Gabbard, Kim).

SCRep. 832 Ways and Means on S.B. No. 717

The purpose and intent of this measure is to improve the cleanliness and management of the State's real property.

More specifically, the measure:

- (1) Establishes a temporary program to provide for the removal from state property of debris and litter deposited by occupants of illegal encampments; and
- (2) Establishes a temporary sheriff patrol program to deter illegal camping, trespassing, or being present on state property after closure hours.

Your Committee received written comments in support of this measure from The Institute for Human Services.

Your Committee received written comments on this measure from the Department of Accounting and General Services; the Department of Land and Natural Resources; the Hawaii Community Development Authority; and the Governor's Coordinator on Homelessness.

Your Committee finds that that illegal camping, trespassing, and remaining on state property after closure hours, and associated depositing of filth and debris, create health and safety problems that the State has been unable to adequately address. Your Committee believes that establishing a temporary sheriff patrol program to deter illegal camping and related activities on state property, along with a temporary program for removing waste materials left behind, will promote a safer and healthier environment.

Your Committee has amended this measure by:

- (1) Changing the appropriations to unspecified sums; and
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 717, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 717, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 8. Noes, none. Excused, 3 (Dela Cruz, English, Kahele).

SCRep. 833 (Joint) Ways and Means and Judiciary and Labor on S.B. No. 1100

The purpose and intent of this measure is to standardize and improve the records management of public schools.

Specifically, this measure:

- (1) Requires schools to store records for at least one hundred years;
- (2) Authorizes schools to digitize, computerize, or minify records for storage;
- (3) Establishes a pilot program to modernize the records management of one elementary school, middle or intermediate school, and one high school, in each county; and
- (4) Appropriates funds for the pilot program.

Your Committee received written comments in support of this measure from the Department of Education.

Your Committee finds that the Department of Education has not established a uniform length of time that original or reproductions of student records must be retained by schools. Your Committee further finds that some schools currently store original versions of student records in boxes that consume valuable school space. Your Committee believes that establishing standard requirements for storing school records, including provisions that allow for modern storage techniques, will help to create necessary space at schools and increase efficiency for processing requests for school records.

Your Committee has amended this measure by:

- (1) Clarifying that the original record may be destroyed after its digitization, computerization, or minification;
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (3) Making technical amendments for purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Ways and Means and Judiciary and Labor that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1100, as amended herein, and recommend that it pass Third Reading in the form attached hereto as S.B. No. 1100, S.D. 1.

Signed by the Chairs on behalf of the Committees.
Ways and Means: Ayes, 9. Noes, none. Excused, 2 (Inouye, Wakai).
Judiciary and Labor: Ayes, 3. Noes, none. Excused, 2 (Gabbard, Kim).

SCRep. 834 (Majority) Ways and Means on S.B. No. 1306

The purpose and intent of this measure is to establish an office of public-private partnership within the Department of Business, Economic Development, and Tourism and to appropriate moneys for this purpose.

Your Committee received written comments in support of this measure from the Department of Business, Economic Development, and Tourism and one individual.

Your Committee received written comments in opposition to this measure from one individual.

Your Committee finds that rising operating expenses and inflation have diminished the financial resources of various governmental departments, which results in less efficient use of public resources. Collaboration between the public and private sectors on certain public projects can produce a more efficient and effective use of public resources, but there is currently no public sector agency dedicated to coordinate and collaborate on these projects with the private sector. Accordingly, your Committee believes an office should be established for the coordination and collaboration of projects between the public and private sectors.

Your Committee has amended this measure by:

- (1) Expressly identifying the department in this measure as the Department of Business, Economic Development, and Tourism;
- (2) Making a technical nonsubstantive change for the purpose of clarity; and
- (3) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure.

Your Committee notes that the Department of Business, Economic Development, and Tourism estimates the cost to establish and operate the program established by this measure to be \$500,000.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1306, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1306, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 10. Noes, 1 (Taniguchi). Excused, none.

SCRep. 835 Ways and Means on S.B. No. 976

The purpose and intent of this measure is to raise the Hawaii Emergency Planning and Community Right-to-Know Act annual Tier II filing fee from \$100 to \$200.

Your Committee received written comments in support of this measure from the Department of Health and the Department of Business, Economic Development, and Tourism.

Your Committee finds that the Hawaii Emergency Planning and Community Right-to-Know Act, enacted in 1993, requires that covered facilities submit an annual Tier II chemical inventory form and pay a \$100 filing fee. The fees are deposited into the environmental response revolving fund, the revenues of which allow county first responders to maintain their emergency preparedness and response capabilities with respect to hazardous materials incidents across the State. Your Committee also finds that the \$100 filing fee has not changed since the law's enactment, and as operational and equipment costs have risen over the years, it has become necessary to increase the fee. The additional revenues generated by this measure will support interagency coordination and response at local levels and ensure effective statewide emergency preparedness.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 976 and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, none. Excused, 3 (Dela Cruz, English, Kahele).

SCRep. 836 Ways and Means on S.B. No. 1073

The purpose and intent of this measure is to appropriate funds to the State Foundation on Culture and the Arts to support the artist fellowship program, which awards fellowships to promising local artists.

Your Committee received written comments in support of this measure from the State Foundation on Culture and the Arts and two individuals.

Your Committee finds that the artist fellowship program provides one-time fellowships to promising local artists. Your Committee notes that the artist fellowship program recognizes and honors Hawaii's exceptionally talented visual and performing artists and contributes greatly to the State's rich cultural landscape.

Your Committee has amended this measure by:

- (1) Changing the amount of the appropriation from \$200,000 to an unspecified amount; and
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1073, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1073, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 9. Noes, none. Excused, 2 (Inouye, Wakai).

SCRep. 837 Ways and Means on S.B. No. 390

The purpose and intent of this measure is to regulate appraisal management companies.

Specifically, the measure:

- (1) Establishes an appraisal management registration program within the Department of Commerce and Consumer Affairs to conform to minimum standards established under federal law and regulations for appraisal management companies; and
- (2) Appropriates for the 2018-2019 fiscal year moneys from the general revenues of the State for certain costs related to the program.

The Department of Commerce and Consumer Affairs, Hawaii Credit Union League, Hawaii Bankers Association, Real Estate Valuation Advocacy Association, Hawaii Financial Services Association, Hawaii Association of REALTORS, and two individuals submitted written comments in support of this measure.

The Regulated Industries Complaints Office and the Division of Financial Institutions, both agencies of the Department of Commerce and Consumer Affairs, submitted written comments on this measure.

Your Committee finds that appraisal management companies are business entities that manage networks of independent appraisers who prepare appraisals on behalf of lenders. These companies are often responsible for the collateral valuation process, including appraisal review, quality control, market value dispute resolution, warranty administration, and record retention. Your Committee acknowledges that the registration of appraisal management companies is not mandatory under federal law. However, if Hawaii does not implement an appraisal management company registration scheme, lenders will need to maintain their own independent appraiser panels and ensure that appraisal orders are randomly assigned. Your Committee believes that the registration of appraisal management companies would enable lenders to continue to manage appraisers through those companies, which may ultimately result in greater choices of lenders for consumers.

Your Committee has amended this measure by:

- (1) Inserting a reference to title 12 Code of Federal Regulations, sections 1222.20, et. seq. in the findings and purpose section of the new statutory chapter established by this measure;

- (2) Expanding the definition of “appraisal management services” to include the provision of administrative services, such as receiving appraisal orders and appraisal reports;
- (3) Clarifying the definition of “appraisal review”;
- (4) Deleting the definition of “appraisal review committee,” a term not actually used in the measure;
- (5) Inserting language to establish that the appraisal management company registration program is subject to the real estate appraisal program;
- (6) Deleting the duty of the Director of Commerce and Consumer Affairs to appoint members to an advisory committee for the implementation of this measure;
- (7) Clarifying which persons are not required to register as an appraisal management company;
- (8) Requiring an appraisal management company to verify the competence of an appraiser receiving an assignment;
- (9) Clarifying that appraisal management company records shall be made available for inspection by the Director of Commerce and Consumer Affairs “upon request”;
- (10) Inserting language that prohibits engaging in any act or practice that violates appraisal independence;
- (11) Authorizing the Director of Commerce and Consumer Affairs to issue fines or take other disciplinary actions for violations of the appraisal management company registration program, the Uniform Professional and Vocational Licensing Act, or any rule or order of the Director;
- (12) Establishing specified fees and bonding requirements;
- (13) Requiring the Director of Commerce and Consumer Affairs to collect relevant information regarding appraisal management companies and submit that information to the Appraisal Subcommittee of the Federal Financial Institutions Examination Council;
- (14) Amending section 26H-4, Hawaii Revised Statutes, to provide for the automatic repeal of the appraisal management company registration program law on June 30, 2023, following the Auditor’s evaluation of the program;
- (15) Authorizing the Department of Commerce and Consumer Affairs to employ necessary personnel without regard to the Civil Service Law to assist with the implementation and continuing functions of this measure;
- (16) Changing the means of financing for the implementation of the appraisal management company registration program from an appropriation of moneys from the general revenues of the State to an appropriation from the compliance resolution fund;
- (17) Establishing that the provisions of the measure shall be enforced to the extent they are not held to conflict with any federal law;
- (18) Establishing that if any provision of this measure is held in conflict with any federal law, this measure shall be invalid in its entirety;
- (19) Changing the effective date of the measure to July 1, 2050, to facilitate further discussion on the measure; and
- (20) Making technical nonsubstantive amendments for clarity, consistency, and style.

Your Committee wishes to stress that an appropriation for the appraisal management company registration program should be funded by moneys from the compliance resolution fund and not from the general revenues of the State.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 390, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 390, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, 4 (Dela Cruz, English, Kahele, Taniguchi).

SCRep. 838 (Joint) Ways and Means and Judiciary and Labor on S.B. No. 994

The purpose and intent of this measure is to expand the powers and duties of the Stadium Authority to enable it to redevelop the real property occupied by Aloha Stadium.

More specifically, this measure:

- (1) Requires the Stadium Authority to adopt rules requiring developers to dedicate land or facilities for public facilities, or cash payments in lieu thereof, as a condition of developing real property pursuant to a stadium complex area development plan;
- (2) Authorizes the Stadium Authority to appoint or retain its own attorneys to provide legal contract negotiation services in cases in which the Attorney General lacks expertise; and
- (3) Establishes additional powers and duties of the Stadium Authority, including the:
 - (A) Preparation of a stadium complex development plan; and
 - (B) Acquisition and development of property and projects.

Your Committees received written comments in support of this measure from the Stadium Authority, IMUAlliance, and Hawaii Lodging and Tourism Association.

Your Committees find that Aloha Stadium is a forty year old facility situated on approximately ninety-nine acres of land. Reports have shown that the cost of repairing Aloha Stadium to an operationally safe level is significantly higher than the cost of construction and operation of a modern stadium that would be compliant with the Americans with Disabilities Act. A new and modern stadium project that utilizes the full amount of available land is more likely to attract world-class events and reward residents and visitors with a more enjoyable experience when attending events at the Stadium. However, various obstacles have prevented the Authority from engaging stakeholders in the development of a master plan for a new stadium. Your Committees believe that the Authority needs expanded powers and duties in order to overcome those obstacles and develop the stadium property to its fullest potential.

Your Committees have amended this measure by changing the effective date to July 1, 2050, to facilitate further discussion on the measure.

As affirmed by the records of votes of the members of your Committees on Ways and Means and Judiciary and Labor that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 994, as amended herein, and recommend that it pass Third Reading in the form attached hereto as S.B. No. 994, S.D. 1.

Signed by the Chairs on behalf of the Committees.

Ways and Means: Ayes, 9. Noes, none. Excused, 2 (Inouye, Wakai).

Judiciary and Labor: Ayes, 3. Noes, none. Excused, 2 (Gabbard, Kim).

SCRep. 839 Ways and Means on S.B. No. 534

The purpose and intent of this measure is to improve the care of elderly persons in the State.

More specifically, the measure:

- (1) Requires the Executive Office on Aging to establish the Kupuna Caregivers Program to assist community members in obtaining care for elders, while remaining in the workforce;
- (2) Makes establishment of the existing Kupuna Care Program mandatory and clarifies the kupuna services and supports provided by area agencies on aging within the program; and
- (3) Appropriates moneys for the establishment of the Kupuna Caregivers Program.

Your Committee received written comments in support of this measure from the Executive Office on Aging, AARP Hawaii, the Aloha Chapter of the Alzheimer's Association, the Hawaii Section of the American Congress of Obstetricians and Gynecologists, Caring Across Generations, Faith Action for Community Equity, the Hawaii Family Caregiver Coalition, the Hawaii Medical Association, Hawaii Pacific Health, the Hawaii Public Health Association, the Healthcare Association of Hawaii, ILWU Local 142, Mental Health America of Hawaii, St. Elizabeth's Episcopal Church, and fifty-nine individuals.

Your Committee received written comments on this measure from one individual.

Your Committee finds that there is a growing need for long-term care and services for Hawaii's kupuna and that family caregivers often play a vital role in providing long-term care. However, caregiving can burden families financially, as well as emotionally and physically, and lead to chronic stress for caregivers and emotional harm for kupuna who need care but do not wish to be a burden. Your Committee further finds that the State should support and assist the efforts of caregivers through a Kupuna Caregivers Program of the Executive Office on Aging.

Your Committee notes that this measure included appropriations of \$600,000 for fiscal year 2017-2018 and \$6,000,000 for fiscal year 2018-2019. Your Committee intends to consider including these appropriations in the measure establishing the State's biennial budget.

Your Committee has amended this measure by:

- (1) Making technical amendments to:
 - (A) Remove redundant language from the new provision on service options for the delivery of Kupuna Care Program services and supports; and
 - (B) Clarify the qualifications for care recipients to participate in the Kupuna Care Program;
- (2) Changing the appropriations from \$600,000 for fiscal year 2017-2018 and \$6,000,000 for fiscal year 2018-2019 to unspecified amounts; and
- (3) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 534, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 534, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 9. Noes, none. Excused, 2 (Inouye, Wakai).

SCRep. 840 Judiciary and Labor on S.B. No. 396

The purpose and intent of this measure is to:

- (1) Require a mortgagee or record assignee to provide to a mortgagor or borrower, upon full satisfaction of a mortgage and discharge of the secured debt, a reassignment or release of security interests in leases and rents that served as additional security for the mortgage;

- (2) Authorize title insurers or underwritten title companies to reassign or release mortgagees' security interests in leases and rents on behalf of the mortgagee or record assignee under certain conditions; and
- (3) Authorize certain entities to institute an action in any circuit court to obtain the release or reassignment instrument in the absence of compliance of a mortgagee or record assignee.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources, Hawaii Financial Services Association, and Title Guaranty of Hawaii, Inc.

Your Committee finds that lenders may secure loans to a borrower through a mortgage and through an assignment of the borrower's rights in leases and rents. These security interests are generally recorded in the Bureau of Conveyances and the Office of the Assistant Registrar of the Land Court. Once a loan is paid in full and satisfied, the parties to the loan generally record a release of the mortgage but sometimes fail to record a release or reassignment of the security interest in leases and rents. As a result, many of these recorded assignments of leases and rents remain on the public record and continue to be found in subsequent title searches involving a property, even though these assignments are no longer enforceable.

Your Committee further finds that title insurers and underwritten title companies are authorized to execute the release of a satisfied mortgage in certain circumstances; however, there is no corresponding mechanism for clearing the public record of the assignments of leases and rents. Accordingly, this measure amends the procedure for clearing titles to include reassignments or releases of leases and rents, which will enable title companies to better facilitate the clearing of extraneous security interests on titles to real property from the public record.

Your Committee has amended this measure by:

- (1) Inserting an effective date of January 7, 2059, to encourage further discussion; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 396, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 396, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 841 Judiciary and Labor on S.B. No. 562

The purpose and intent of this measure is to make permanent the limited liability protection established under Act 170, Session Laws of Hawaii 2002, as amended, for county lifeguards and counties providing lifeguard services on beaches or in the ocean.

Your Committee received testimony in support of this measure from the Department of the Attorney General, Department of Land and Natural Resources, Hawaii State Association of Counties, Maui County Council, City and County of Honolulu, Hawaiian Lifeguard Association, Drowning Prevention and Aquatic Injury Steering Committee of the Injury Prevention Advisory Committee, Maui Hotel & Lodging Association, and twenty-two individuals. Your Committee received testimony in opposition to this measure from the Hawaii Association for Justice. Your Committee received comments on this measure from one individual.

Your Committee finds that providing lifeguard services at beaches and in the ocean is vital to the health, safety, and welfare of the public. Because the threat of potential tort liability made some counties reluctant to provide lifeguard services at some beaches, the Legislature provided limited tort liability protection for county lifeguards and counties providing lifeguard services on beaches or in the ocean until June 30, 2017, except in cases of gross negligence or wanton acts or omissions.

Your Committee has amended this measure by:

- (1) Extending the sunset date to June 30, 2021, rather than repealing it;
- (2) Inserting an effective date of January 7, 2059, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 562, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 562, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Gabbard, Rhoads).

SCRep. 842 Judiciary and Labor on S.B. No. 1037

The purpose and intent of this measure is to:

- (1) Require the firearms permit issuing authority to notify the prosecuting attorney of the county of the issuing authority, the United States Attorney's Office in Hawaii, and the Department of Public Safety if an applicant is denied a permit because the applicant is prohibited from owning, possessing, receiving, or controlling a firearm under federal or state law;
- (2) Require the firearms permit issuing authority to notify the court that issued a protective or restraining order on an applicant, as applicable, upon notification of a permit denial; and
- (3) Require the Department of Public Safety to notify the probation or parole officer of an applicant, if applicable, upon notification of a permit denial.

Your Committee received testimony in support of this measure from the Judiciary, American Medical Response, Keiki Injury Prevention Coalition, Everytown for Gun Safety, Hawai'i Friends of Civil Rights, and twenty-four individuals.

Your Committee finds that a robust regulatory framework for firearm ownership is essential to protecting the public health, safety, and welfare. Such a regulatory framework should include identification of individuals who attempt to apply for and are denied a permit because they are prohibited from owning, possessing, receiving, or controlling a firearm under federal or state law.

Your Committee has amended this measure by:

- (1) Requiring the firearm permit issuing authority to notify the prosecuting attorney of the county of the issuing authority, the United States Attorney's Office in Hawaii, and the Department of Public Safety within ten business days of the date of denial; and
- (2) Requiring the firearm permit issuing authority to notify the court that issued a protective or restraining order on an applicant within three business days of the date of denial.

Your Committee notes that it has concerns regarding the impact of this measure on the various agencies and the actions that the agencies will take after receiving notification.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1037, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1037, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Gabbard, Rhoads).

SCRep. 843 Judiciary and Labor on S.B. No. 1227

The purpose and intent of this measure is to make permanent the affirmation requirement and form that is filed by an attorney on behalf of a mortgagee who is seeking to foreclose on a residential property under a judicial foreclosure action.

Your Committee received testimony in support of this measure from the Office of Consumer Protection of the Department of Commerce and Consumer Affairs.

Your Committee finds that, during the height of the foreclosure crisis, numerous distressed homeowners reported to government authorities, including the Office of Consumer Protection and Department of the Attorney General, that their financial institutions were initiating foreclosure actions without a sufficient basis. Among the more egregious claims were reports that financial institutions were engaging in robo-signing, in which banks supported foreclosure actions through the use of false affidavits signed by bank employees. In response, the Legislature enacted Act 182, Session Laws of Hawaii 2012, which, among other things, requires a foreclosing party's attorney to affirm that the attorney has personally reviewed the documents and records associated with a foreclosure action, confirm the factual accuracy of the complaint allegations, and state that the attorney does not believe there are any false statements of fact or law and that the plaintiff has legal standing to bring the foreclosure action.

Your Committee further finds that although the frequency of robo-signing appears to have recently diminished, statutory safeguards such as the attorney affirmation will help deter such conduct from reoccurring in Hawaii. Accordingly, this measure makes permanent the attorney affirmation requirement and form that must be filed by an attorney on behalf of a mortgagee who is seeking to foreclose on a residential property in a judicial foreclosure action.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1227 and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 844 Judiciary and Labor on S.B. No. 1240

The purpose and intent of this measure is to require the Department of Land and Natural Resources to submit proposed legislation to the Legislature by the Regular Session of 2019, which includes a definition of "sustainable", a policy for sustainable collection practices of near shore aquatic life, and limits on collection.

Your Committee received testimony in support of this measure from the Conservation Council for Hawai'i, The Humane Society of the United States, Humane Society International, Environmental Caucus of the Democratic Party of Hawai'i, For the Fishes, Ocean Tourism Coalition, and one hundred thirty-four individuals. Your Committee received testimony in opposition to this measure from six individuals. Your Committee received comments on this measure from the Department of Land and Natural Resources, Snorkel Bob's Hawaii, and four individuals.

Your Committee finds that ensuring the sustainability of aquatic life and the protection of coral reefs in Hawaii waters is vital to the long-term interests of the people of Hawaii. Your Committee further finds that it is imperative for the long-term protection of marine resources to determine what is sustainable and to establish a policy for sustainable collection practices of near shore aquatic life. This measure will provide the necessary data regarding the numbers of various species of aquarium fish in the waters around Oahu and the effects of current collection practices in order to develop appropriate and effective laws to preserve and ensure the sustainability of Hawaii's aquatic life.

Your Committee has amended this measure by:

- (1) Requiring the Department of Land and Natural Resources to include in its proposed legislation any additional resources required by the Department; and
- (2) Inserting an effective date of January 7, 2059, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1240, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1240, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 845 Judiciary and Labor on S.B. No. 1291

The purpose and intent of this measure is to update statutory language on liquor license application and operating procedures. Specifically, this measure:

- (1) Includes member managed and manager managed limited liability companies under liquor licensing statutes;
- (2) Allows liquor license holders to avoid license transfers upon admission or withdrawal of members or owners of the license holding entity by notifying the liquor commission within a set period of time after a change in membership or ownership of the license holding entity; and
- (3) Clarifies conditions under which publicly-traded companies or entities solely owned by a publicly-traded entity may be disqualified for licensure.

Your Committee received testimony in support of this measure from the Maui Hotel & Lodging Association.

Your Committee finds that the efficient and equitable treatment of businesses in any licensing process is essential for cultivating a robust economy that benefits the public. Existing statutes relating to liquor licensing are outdated, do not reflect the current state of business practice in the State, including modern forms of business organization such as limited liability companies, make the licensing process inefficient, and serve as an impediment to business.

Your Committee has amended this measure by:

- (1) As recommended by the Maui Hotel & Lodging Association, inserting language that allows the liquor commission to issue a temporary license when an applicant, transferor, or transferee is actively challenging a tax matter that prevents the issuance of the appropriate certificate;
- (2) Inserting an effective date of January 7, 2059, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1291, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1291, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Gabbard, Rhoads).

SCRep. 846 (Joint) Ways and Means and Judiciary and Labor on S.B. No. 836

The purpose and intent of this measure is to protect students attending the State's public schools from sex trafficking.

More specifically, this measure:

- (1) Allows the Department of Education to offer voluntary training for teachers and educational officers on sex trafficking prevention and response; and
- (2) Requires the Department of Education to provide to teachers and educational officers, at the beginning of each school year, explanatory information about protocols the Department has approved for handling victims of sex trafficking.

Your Committees received written comments in support of this measure from the Department of Education, Hawaii State Teachers Association, IMUAlliance and UNITE.

Your Committees find that outside of the family, schools may be the main social institution in which children have constant contact with adults and their peers. Therefore, it is an optimal place to identify children in danger of sexual maltreatment. It is important that teachers and educational officers be informed about how to prevent sexual trauma and handle related incidents on campus. Your Committees believe this measure will provide teachers and educational officers with access to the resources and training they need to help ensure that the State's students are protected from sex trafficking.

As affirmed by the records of votes of the members of your Committees on Ways and Means and Judiciary and Labor that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 836 and recommend that it pass Third Reading.

Signed by the Chairs on behalf of the Committees.
Ways and Means: Ayes, 9. Noes, none. Excused, 2 (Inouye, Wakai).
Judiciary and Labor: Ayes, 3. Noes, none. Excused, 2 (Gabbard, Kim).

SCRep. 847 Ways and Means on S.B. No. 276

The purpose and intent of this measure is to change the number of judges of the district court of the second circuit from three to four judges.

In addition, this measure makes housekeeping amendments to laws relating to the composition of judges of the circuit courts, district courts, and family courts.

Your Committee received written comments in opposition to this measure from the Hawaii State Judiciary and one individual.

Your Committee finds that the laws relating to the composition of judges of the circuit courts, district courts, and family courts are outdated and require housekeeping amendments. Your Committee also finds that the second circuit could benefit from an additional judge for the district court.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 276, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 8; Ayes with Reservations (Taniguchi). Noes, none. Excused, 3 (Dela Cruz, Inouye, Wakai).

SCRep. 848 Ways and Means on S.B. No. 490

The purpose and intent of this measure is to allow the circuit court or family court to issue a material witness order in cases initiated through felony complaint, in addition to indictment or written information.

Your Committee received written comments in support of this measure from the Department of the Prosecuting Attorney of the City and County of Honolulu.

Your Committee finds that a material witness order is a court order that compels a person to appear as a material witness in a pending criminal action to which bail is affixed, to secure that person's attendance in court. Current law relating to material witness orders applies to an indictment or written information filed in circuit court. This measure ensures that both circuit court and family court have the tools necessary to issue a material witness order, regardless of whether the case is initiated through an indictment, written information, or felony complaint.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 490, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, none. Excused, 3 (Dela Cruz, Inouye, Wakai).

SCRep. 849 Ways and Means on S.B. No. 659

The purpose and intent of this measure is to increase the minimum and maximum fines for operating a vehicle while under the influence of an intoxicant.

The Department of Transportation, the Hawaii Strategic Highway Safety Plan, Kihei Community Association, and Mothers Against Drunk Driving submitted written comments in support of this measure.

Your Committee finds that driving under the influence of alcohol or drugs continues to be a problem in Hawaii. In 2015, ninety-three fatalities occurred on Hawaii's roads, more than half of which were caused by alcohol- or drug-related driving. In the same year, police arrested over six thousand drivers in Hawaii for operating a vehicle under the influence of an intoxicant. Your Committee believes that the increased fines authorized by this measure will significantly deter intoxicant-impaired driving.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 659 and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 9; Ayes with Reservations (Riviere). Noes, none. Excused, 2 (Dela Cruz, Taniguchi).

SCRep. 850 Ways and Means on S.B. No. 664

The purpose and intent of this measure is to improve traffic safety by increasing fines for persons who commit the offense of driving a motor vehicle at an excessive speed.

Your Committee received written comments in support of this measure from the Department of Transportation, Hawaii Strategic Highway Safety Plan, and Kihei Community Association.

Your Committee finds that, between 2011 and 2015, two hundred thirty-five lives were lost in speed-related traffic crashes in the State. Your Committee believes that this measure will promote safety on public roadways by deterring drivers from driving at speeds that pose a danger to themselves and others.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 664 and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 9; Ayes with Reservations (Riviere). Noes, none. Excused, 2 (Dela Cruz, Taniguchi).

SCRep. 851 Ways and Means on S.B. No. 854

The purpose and intent of this measure is to authorize the Department of Labor and Industrial Relations to issue a stop-work order to an employer who fails to comply with the various wages and compensation requirements of chapter 388, Hawaii Revised Statutes.

Your Committee received written comments in support of this measure from the Department of Labor and Industrial Relations, Hawaii Construction Alliance, and Pacific Resource Partnership.

Your Committee received written comments on this measure from the Subcontractors Association of Hawaii and The Chamber of Commerce Hawaii.

Your Committee finds that while the Department of Labor and Industrial Relations can request that a court issue an injunction against an employer who fails to comply with applicable wages and compensation laws, obtaining an injunction can take some time. In the construction industry, projects may be completed in a matter of months, while investigations into the suspected unlawful activity can take much longer. Your Committee believes that providing the Department with the authority to issue stop-work orders will help to ensure employers' compliance with the wages and compensation laws.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 854, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, none. Excused, 3 (Dela Cruz, English, Kahele).

SCRep. 852 Ways and Means on S.B. No. 948

The purpose and intent of this measure is to authorize the Division of Financial Institutions (Division) of the Department of Commerce and Consumer Affairs to employ or retain attorneys.

Specifically, this measure removes the restriction that the Division may hire attorneys only for actions involving the mortgage loan recovery fund.

The Department of Commerce and Consumer Affairs submitted written comments in support of this measure.

Your Committee finds that bank departments in forty states have staff attorneys that assist in drafting enforcement orders and providing guidance. Your Committee recognizes that, while existing law authorizes the Division to employ and retain attorneys for actions involving the mortgage loan recovery fund, almost all of the Division's legal needs are outside the scope of the current authorization. Your Committee finds that this measure would authorize the Division to hire staff attorneys, whose abilities to confer on potential legal and regulatory issues, conduct legal research, and provide options and recommendations for resolution would enhance the Division's efficiency and capacity.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 948 and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, none. Excused, 3 (Dela Cruz, Inouye, Wakai).

SCRep. 853 (Majority) Ways and Means on S.B. No. 1016

The purpose and intent of this measure is to continue the Department of Transportation's efforts to expeditiously rehabilitate bridges under its jurisdiction.

Specifically, the measure extends the Department of Transportation's exemption from certain statutory requirements for specified bridge rehabilitation programs by extending the sunset date of Act 218, Session Laws of Hawaii 2012, to June 30, 2022.

Your Committee received written comments in support of this measure from the Department of Transportation.

Your Committee received written comments in opposition to this measure from the Office of Hawaiian Affairs.

Your Committee finds that this measure will allow the Department of Transportation to continue accelerating the design and construction of bridges listed in Act 218, Session Laws of Hawaii 2012. Your Committee notes that these projects must continue to comply with all applicable federal laws, as this measure does not exempt the bridge projects from those requirements.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1016, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 7; Ayes with Reservations (Harimoto). Noes, 1 (Riviere). Excused, 3 (Inouye, Taniguchi, Wakai).

SCRep. 854 Ways and Means on S.B. No. 1163

The purpose and intent of this measure is to impose civil fines not exceeding \$200, rather than criminal penalties, for violations of chapter 261, Hawaii Revised Statutes, or any rules or orders issued pursuant thereto, involving the following:

- (1) Aviation safety measures, practices, or requirements; or
- (2) Licensing and regulation of persons engaged in commercial activities at public airports.

Your Committee received written comments in support of this measure from the Aircraft Owners and Pilots Association, General Aviation Council of Hawaii, and fourteen individuals.

The Department of Transportation and five individuals submitted written comments on the measure.

Your Committee finds that this measure addresses concerns raised by the general aviation community with respect to overly harsh criminal penalties for perceived minor infractions, such as keeping non-aircraft items in a hangar otherwise used for aircraft storage. Your Committee also finds that because this measure decriminalizes certain offenses, aviators will be able to quickly resolve violations by paying a civil fine, rather than resort to contesting a case in court purely to avoid losing their pilot's licenses or jeopardizing their careers. Your Committee anticipates that the timely payment of fines will result in increased revenue for the State and ease the burden on the courts.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1163, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 8. Noes, none. Excused, 3 (Inouye, Taniguchi, Wakai).

SCRep. 855 (Joint) Judiciary and Labor and Ways and Means on S.B. No. 494

The purpose and intent of this measure is to require persons charged with operating a vehicle under the influence of an intoxicant or habitually operating a vehicle under the influence of an intoxicant to be fitted with a continuous alcohol monitoring device if the person:

- (1) Is so charged within five years of a prior conviction for operating a vehicle under the influence of an intoxicant or habitually operating a vehicle under the influence of an intoxicant; or
- (2) Has a criminal investigation or prosecution that is pending for one or more prior charges of operating a vehicle under the influence of an intoxicant or habitually operating a vehicle under the influence of an intoxicant.

Your Committees received testimony in support of this measure from the Department of the Prosecuting Attorney, City and County of Honolulu; and SCRAM Systems. Your Committees received testimony in opposition to this measure from Smart State, LLC. Your Committees received comments on this measure from the Mothers Against Drunk Driving Hawaii.

Your Committees find that the National Highway Traffic Safety Administration reported that forty-one percent of all traffic fatalities in Hawaii were alcohol related, versus the national average of thirty-one percent. Moreover, between 2008 and 2012, eleven percent of all alcohol-related fatalities in Hawaii involved a driver who was previously convicted of operating a vehicle under the influence of an intoxicant. This measure seeks to decrease alcohol-related fatalities and accidents by requiring repeat offenders to be fitted with a continuous alcohol monitoring device.

Your Committees have amended this measure by:

- (1) Deleting language that established procedures for a court to determine whether a person lacks financial ability to pay for the monitoring device;
- (2) Inserting language that requires the prosecuting attorney of each county and the Attorney General to contract with selected continuous alcohol monitoring device vendors to provide financial relief for the costs of the monitoring devices to certain persons;
- (3) Inserting an effective date of January 7, 2059, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Judiciary and Labor and Ways and Means that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 494, S.D. 1, as amended herein, and recommend that it pass Third Reading in the form attached hereto as S.B. No. 494, S.D. 2.

Signed by the Chairs on behalf of the Committees.
Judiciary and Labor: Ayes, 3. Noes, none. Excused, 2 (Gabbard, Kim).
Ways and Means: Ayes, 8. Noes, none. Excused, 3 (Galuteria, Inouye, Wakai).

SCRep. 856 (Joint) Judiciary and Labor and Ways and Means on S.B. No. 560

The purpose and intent of this measure is to appropriate funds to the University of Hawaii to translate the Hawaii State Constitution into the Hawaiian language.

Your Committees received testimony in support of this measure from Ho'omana Pono, LLC; and four individuals. Your Committees received testimony in opposition to this measure from one individual.

Your Committees find that article X, section 4, of the Hawaii State Constitution provides, in pertinent part, "The State shall promote the study of Hawaiian culture, history and language." In addition, article XV, section 4, of the Hawaii State Constitution establishes Hawaiian as one of two official languages of the State. However, the Hawaii State Constitution is officially published only in English. This measure is a positive step in the continued revitalization of the Hawaiian language.

Your Committees have amended this measure by:

- (1) Inserting a blank appropriation amount to the University of Hawaii;
- (2) Inserting an effective date of January 7, 2059, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Judiciary and Labor and Ways and Means that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 560, as amended herein, and recommend that it pass Third Reading in the form attached hereto as S.B. No. 560, S.D. 1.

Signed by the Chairs on behalf of the Committees.
Judiciary and Labor: Ayes, 3. Noes, none. Excused, 2 (Gabbard, Kim).
Ways and Means: Ayes, 9. Noes, none. Excused, 2 (Inouye, Wakai).

SCRep. 857 (Joint) Judiciary and Labor and Ways and Means on S.B. No. 614

The purpose and intent of this measure is to delete the sunset provision for certain sections of Act 139, Session Laws of Hawaii 2012, as amended, to make permanent provisions of the Act regarding pretrial risk assessments and parole.

Your Committees received testimony in support of this measure from the Department of Public Safety, Hawaii Paroling Authority, American Civil Liberties Union of Hawai'i, Community Alliance on Prisons, and Ho'omana Pono, LLC.

Your Committees find that overcrowding in jails and prisons is a growing concern and a situation that can lead to negative impacts for the public. One factor that contributes to overcrowding is the lack of or inefficient granting of parole. Another factor is the length of time that pre-trial offenders are held in custody. The Legislature addressed these problems previously, and as a result, the courts and the Hawaii Paroling Authority have been able to work with greater efficiency. Accordingly, this measure ensures the continued improvement of efficiency in parole decisions and pretrial risk assessment by making a measure previously enacted by the Legislature permanent.

As affirmed by the records of votes of the members of your Committees on Judiciary and Labor and Ways and Means that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 614 and recommend that it pass Third Reading.

Signed by the Chairs on behalf of the Committees.

Judiciary and Labor: Ayes, 3. Noes, none. Excused, 2 (Gabbard, Kim).

Ways and Means: Ayes, 9. Noes, none. Excused, 2 (Inouye, Wakai).

SCRep. 858 (Joint) Judiciary and Labor and Ways and Means on S.B. No. 674

The purpose and intent of this measure is to:

- (1) Create procedural and administrative requirements for law enforcement agencies for eyewitness identifications of suspects in criminal investigations;
- (2) Establish jury instructions when the court determines that the eyewitness identification is admissible; and
- (3) Require the Attorney General to establish procedures for the implementation of uniform statewide eyewitness identification procedures.

Your Committees received testimony in support of this measure from the Community Alliance on Prisons. Your Committees received testimony in opposition to this measure from the Police Department, County of Hawai'i. Your Committees received comments on this measure from the Judiciary.

Your Committees find that the use of proper eyewitness identification procedures by law enforcement is critical to protecting individual rights and personal liberty. While law enforcement agencies in the State have their own procedures for eyewitness identifications, there are no uniform standards. This measure ensures that law enforcement agencies engage in the best practices that offer the greatest protections for individuals.

Your Committees note the concerns raised in written testimony submitted by the Judiciary that the jury instruction provisions in this measure may infringe upon and constrain the judgment and discretion of a trial judge and pose an unnecessary burden on the defendant's constitutional right to conduct the defendant's own defense.

Accordingly, your Committees have amended this measure by:

- (1) Clarifying that law enforcement shall perform a photo lineup or live lineup whenever reasonably practicable, but if a showup is unavoidably necessary, law enforcement is required to comply with certain procedures;
- (2) Deleting language regarding jury instructions when the court determines that the eyewitness identification is admissible;
- (3) Inserting an effective date of January 7, 2059, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Judiciary and Labor and Ways and Means that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 674, as amended herein, and recommend that it pass Third Reading in the form attached hereto as S.B. No. 674, S.D. 1.

Signed by the Chairs on behalf of the Committees.

Judiciary and Labor: Ayes, 3. Noes, none. Excused, 2 (Gabbard, Kim).

Ways and Means: Ayes, 9. Noes, none. Excused, 2 (Inouye, Wakai).

SCRep. 859 Judiciary and Labor on S.B. No. 424

The purpose and intent of this measure is to:

- (1) Require police departments to disclose to the Legislature the identity of an officer upon the officer's second suspension in a five-year period or discharge; and
- (2) Require disclosure of certain information under the Uniform Information Practices Act after a police officer's second suspension in a five-year period.

Your Committee received testimony in support of this measure from the Office of Information Practices; Police Department, City and County of Honolulu; League of Women Voters of Hawaii; and one individual. Your Committee received testimony in opposition

to this measure from the State of Hawaii Organization of Police Officers, The Civil Beat Law Center for the Public Interest, and one individual.

Your Committee finds that this measure serves the public interest by disclosing the identities of police officers who are suspended twice within a five-year period. Transparency and accountability of police officers are of great importance in maintaining the public's confidence in law enforcement, and a healthy relationship between police and the public is essential for maintaining the health, safety, and welfare of the public.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 424, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 424, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Gabbard, Rhoads).

SCRep. 860 Judiciary and Labor on S.B. No. 655

The purpose and intent of this measure is to allow a duly authorized credentialed representative of any news service, newspaper, radio station, television station, or online news distribution network, under the supervision of designated emergency management personnel, to enter an area closed pursuant to the emergency management powers of the Governor and Mayors.

Your Committee received testimony in support of this measure from The Maritime Group, Hawaii 24/7, and five individuals. Your Committee received comments on this measure from the Department of Transportation, Big Island Press Club, Hawaii Emergency Management Agency, and one individual.

Your Committee finds that a free press is essential for maintaining a free and open society. The news media serves the invaluable purpose of relaying necessary and timely information to the public - a role that is enhanced in an emergency or crisis situation. However, existing state laws do not ensure media access during emergency or crisis situations. This measure updates these laws to ensure the maximum access possible for news media during emergency situations while taking into account emergency management recovery efforts, security and safety hazards, and liability concerns.

Your Committee has amended this measure by:

- (1) As recommended by the Hawaii Emergency Management Agency, amending language to allow media access into closed emergency areas only when the designated emergency management authority for the affected area determines that media access is reasonable and safe and does not hinder ongoing response and recovery activities;
- (2) As recommended by the Department of Transportation:
 - (A) Clarifying the logistics and parameters of the media pool; and
 - (B) Inserting language specifying that the State, counties, and any designated emergency management authority are not responsible for providing copies, equipment, telephone or internet access, or any other logistical support associated with media access to emergency areas; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 655, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 655, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Gabbard, Rhoads).

SCRep. 861 Judiciary and Labor on S.B. No. 1150

The purpose and intent of this measure is to prohibit the use or application of sunscreen, sunblock, or cosmetic containing oxybenzone while on a beach or in the ocean unless the sunscreen, sunblock, or cosmetic is a prescription drug.

Your Committee received testimony in support of this measure from the Department of Health; Americans for Democratic Action Hawaii'i; Democratic Party of Hawaii'i; Conservation Council for Hawaii'i; Napili Bay and Beach Foundation; Raw Elements; Snorkel Bob's Hawaii; Valley Isle Excursions; We Are One, Inc.; Maui Kayak Adventures; Maui Marketing; Maui Stand Up Paddle Boarding; Maui Surf Lessons; Haereticus Environmental Laboratory; Hawaiian Paddle Sports; Hawaii Mermaid Adventures; and forty-three individuals. Your Committee received testimony in opposition to this measure from the Consumer Healthcare Products Association and one individual. Your Committee received comments on this measure from the Department of Land and Natural Resources.

Your Committee finds that oxybenzone, a common sunscreen ingredient, has detrimental effects on coral reefs. The threat is particularly acute in Hawaiian ocean waters where coral bleaching is occurring at a rate never previously recorded. This measure protects Hawaii's coral reefs by prohibiting the use of sunscreens and cosmetics containing oxybenzone that are not prescription drugs at beaches or in the ocean.

Your Committee has amended this measure by:

- (1) Inserting an effective date of January 7, 2059, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1150, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1150, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 5; Ayes with Reservations (Kim). Noes, none. Excused, none.

SCRep. 862 (Joint) Judiciary and Labor and Ways and Means on S.B. No. 122

The purpose and intent of this measure is to:

- (1) Under certain circumstances allow certain designated family members and other interested persons to receive notice of a person having a mental health emergency of the person's emergency admission, examination, and hospitalization;
- (2) Require that the name, address, and telephone number of at least one of certain designated family members and other interested persons be included on a petition for involuntary hospitalization or assisted community treatment;
- (3) Entitle certain designated family members and other interested persons to:
 - (A) Notice of adjournments, continuances, other delays, dates of rescheduled hearings, and hearing waivers;
 - (B) The option to be present in the courtroom for a hearing on a petition for involuntary hospitalization or assisted community treatment, unless the court determines that the interests of justice require otherwise; and
 - (C) The option to receive copies of hearing transcripts or recordings, unless the court determines that the interests of justice require otherwise;
- (4) Require notice of discharge and voluntary inpatient treatment when forensic and non-forensic patients are civilly committed to individuals specified in the order of commitment;
- (5) Require the court to adjourn or continue a hearing on a petition for involuntary hospitalization or assisted community treatment for failure to timely notify designated persons, with certain exceptions; and
- (6) Require notice to certain designated family members and other interested persons of any transport or admission of any person to assisted community treatment.

Your Committees received comments on this measure from the Hawaii Disability Rights Center.

Your Committees find that family members provide a very valuable support network for individuals with mental illness, especially as those individuals try to navigate the State's health, mental health, and court systems. Family members are often kept in the dark about their loved ones' status, location, and treatment. This measure balances the importance of providing family members with more information about their loved ones with mental illness with the need to protect individual privacy rights.

Your Committees have amended this measure by:

- (1) Adding legal guardian to the list of individuals who are required to be notified or identified in a petition for purposes of consistency;
- (2) Inserting an effective date of January 7, 2059, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Judiciary and Labor and Ways and Means that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 122, S.D. 1, as amended herein, and recommend that it pass Third Reading in the form attached hereto as S.B. No. 122, S.D. 2.

Signed by the Chairs on behalf of the Committees.

Judiciary and Labor: Ayes, 3. Noes, none. Excused, 2 (Gabbard, Kim).

Ways and Means: Ayes, 8. Noes, none. Excused, 3 (Galuteria, Inouye, Wakai).

SCRep. 863 (Joint) Judiciary and Labor and Ways and Means on S.B. No. 137

The purpose and intent of this measure is to establish the Innovation and Commercialization Initiative Program to expressly give the University of Hawaii the legal authority to create, finance, and participate in new economic enterprises and expand workforce opportunities based on inventions and discoveries generated by or at the University.

Your Committees received testimony in support of this measure from the University of Hawai'i System, Chamber of Commerce Hawaii, Sultan Ventures, University of Hawaii Professional Assembly, and one individual. Your Committees received testimony in opposition to this measure from Common Cause Hawaii. Your Committees received comments on this measure from the Hawaii State Ethics Commission, Office of Information Practices, and State Procurement Office.

Your Committees find that the Legislature has a history of authorizing and providing funds to support efforts by state agencies to promote entrepreneurial development, support research commercialization, and provide access to startup investment capital. Commercialization contributes to a more diverse workforce in the State and promotes a robust and dynamic economy. The University of Hawaii is a research and teaching institution and is in a valuable position to identify promising innovations and new discoveries arising from university research. In order to remain competitive with its peers, the University of Hawaii must develop its capacity to commercialize its intellectual property. This measure will allow the University to undertake commercialization activity with greater legal certainty and clarity.

Your Committees have amended this measure by:

- (1) Deleting language that exempts any advisory committee appointed by the University of Hawaii in implementing the Innovation and Commercialization Initiative Program from being a board that is subject to chapter 92, Hawaii Revised Statutes;
- (2) Inserting an effective date of January 7, 2059, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Judiciary and Labor and Ways and Means that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 137, S.D. 1, as amended herein, and recommend that it pass Third Reading in the form attached hereto as S.B. No. 137, S.D. 2.

Signed by the Chairs on behalf of the Committees.

Judiciary and Labor: Ayes, 3. Noes, none. Excused, 2 (Gabbard, Kim).

Ways and Means: Ayes, 8. Noes, none. Excused, 3 (Galuteria, Inouye, Wakai).

SCRep. 864 (Joint) Judiciary and Labor and Ways and Means on S.B. No. 223

The purpose and intent of this measure is to:

- (1) Authorize a naturopathic physician to prescribe testosterone that is consistent with naturopathic medical practice; and
- (2) Clarify that narcotic drugs shall not be included within the naturopathic formulary.

Your Committees received testimony in support of this measure from the Board of Naturopathic Medicine. Your Committees received testimony in opposition to this measure from the Hawaii Medical Association. Your Committees received comments on this measure from the Regulated Industries Complaints Office of the Department of Commerce and Consumer Affairs.

Your Committees find that naturopathic physicians provide skilled and quality care to patients throughout the State. Although naturopathic physicians in Hawaii have the ability to prescribe many of the medicines commonly prescribed in family practice, they are unable to prescribe controlled substances. This measure therefore authorizes a naturopathic physician to prescribe controlled substances that are consistent with naturopathic medical practice, but specifies that narcotic drugs are not to be included within the naturopathic formulary.

Your Committees have amended this measure by:

- (1) Inserting an effective date of January 7, 2059, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Judiciary and Labor and Ways and Means that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 223, S.D. 1, as amended herein, and recommend that it pass Third Reading in the form attached hereto as S.B. No. 223, S.D. 2.

Signed by the Chairs on behalf of the Committees.

Judiciary and Labor: Ayes, 3. Noes, none. Excused, 2 (Gabbard, Kim).

Ways and Means: Ayes, 8. Noes, none. Excused, 3 (Galuteria, Inouye, Wakai).

SCRep. 865 Judiciary and Labor on S.B. No. 312

The purpose and intent of this measure is to:

- (1) Require boards to make board packets available for public inspection and provide notice, upon request, of the availability of board packets;
- (2) Require boards to allow oral testimony to be presented on agenda items separately and at the time the item is first brought up for discussion at the meeting;
- (3) Add emergency meetings to the public meeting notice requirements; and
- (4) Allow the electronic mailing of meeting notices, require the posting of the notice on the State's or appropriate county's electronic calendar, and clarify posting requirements and potential posting disputes.

Your Committee received testimony in support of this measure from The Civil Beat Law Center for the Public Interest, Common Cause Hawaii, League of Women Voters, and one individual. Your Committee received testimony in opposition to this measure from the Professional and Vocational Licensing Division of the Department of Commerce and Consumer Affairs. Your Committee received comments on this measure from the Department of Taxation, Department of Land and Natural Resources, Office of Information Practices, and County Council, County of Maui.

Your Committee finds that the public is best served by increased government transparency, understanding, and participation. Modernizing the Sunshine Law to include electronic postings and communication will increase public access to valuable information regarding public agency meetings. This measure increases access to board materials via the accessibility of board packets to allow for more meaningful public testimony at meetings, and further increase the quality of public participation in civic life.

Your Committee notes the concerns raised in written testimony regarding making board packets available for public inspection and further notes that the Board of Land and Natural Resources, Council on Revenues, and Tax Review Commission currently makes board packets available.

Accordingly, your Committee has amended this measure by:

- (1) Clarifying that the requirements to make board packets available for public inspection and provide notice, upon request, of the availability of board packets apply to the Board of Land and Natural Resources, Council on Revenues, and Tax Review Commission, and that this requirement will sunset on July 1, 2019;
- (2) Requiring that the written summary that accompanies minutes that are posted as a digital or analog recording includes any significant actions taken by the board, including motions and votes made by the board;
- (3) Adopting the language suggested by the Office of Information Practices that establishes a board packet working group to develop board packet disclosure requirements and requires the working group to submit a report of its findings and recommendations, including any proposed legislation, to the Legislature prior to the Regular Session of 2018;
- (4) Inserting an effective date of January 7, 2059, to encourage further discussion; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 312, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 312, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Gabbard, Rhoads).

SCRep. 866 (Joint) Judiciary and Labor and Ways and Means on S.B. No. 384

The purpose and intent of this measure is to:

- (1) Authorize and establish procedures and criteria for the Board of Psychology to grant prescriptive authority to clinical psychologists who meet specific education, training, and registration requirements, including requiring prescribing psychologists to adhere to all applicable statutory regulations; and
- (2) Require the Board of Psychology to report to the Legislature prior to the Regular Session of 2021.

Your Committees received testimony in support of this measure from the Board of Psychology, Hawai'i State Center for Nursing, Hawai'i Psychology Association, Hawaii Catholic Conference, Hawaii Medical Service Association, Mental Health America of Hawai'i, PHOCUSED, and fourteen individuals. Your Committees received testimony in opposition to this measure from the Hawaii Medical Association, Hawaii Psychiatric Medical Association, American Psychiatric Association, and one individual.

Your Committees find that the mental health needs of individuals in Hawaii continue to outweigh the capacity of the State's mental health system. Increasing access to qualified health care professionals who are trained in the pharmacological treatment of mental and emotional disorders is of critical importance for the State.

Your Committees further find that this measure includes multiple safeguards that ensure patient safety and quality patient care, and requires a collaborative agreement between a prescribing psychologist and a primary care provider. This measure also requires prescribing psychologists to complete extensive coursework and training requirements; pass a rigorous national examination; obtain a federal Drug Enforcement Administration registration number; prescribe and administer only those medications related to the diagnosis and treatment of mental and emotional disorders pursuant to the practice of psychology, but excluding those drugs classified into schedule I, II, or III pursuant to chapter 329, Hawaii Revised Statutes, opiates, or narcotic drugs and all off-label prescribing for patients aged seventeen or younger; provided that prescribing psychologists may prescribe and administer stimulants for the treatment of attention deficit hyperactivity disorder regardless of the stimulants' schedule classification; and complete continuing education requirements specific to psychopharmacology, in addition to the existing continuing education requirements for licensed clinical psychologists.

Your Committees have amended this measure by:

- (1) Inserting an effective date of January 7, 2059, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Judiciary and Labor and Ways and Means that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 384, S.D. 1, as amended herein, and recommend that it pass Third Reading in the form attached hereto as S.B. No. 384, S.D. 2.

Signed by the Chairs on behalf of the Committees.
Judiciary and Labor: Ayes, 3. Noes, none. Excused, 2 (Gabbard, Kim).
Ways and Means: Ayes, 8. Noes, none. Excused, 3 (Galuteria, Inouye, Wakai).

SCRep. 867 (Joint) Judiciary and Labor and Ways and Means on S.B. No. 421

The purpose and intent of this measure is to:

- (1) Establish requirements for body-worn cameras and vehicle cameras for county police officers;
- (2) Establish policy guidelines for the use and discontinuance of use of body-worn cameras by county police officers;
- (3) Establish certain restrictions on the use of body-worn cameras and vehicle cameras by on-duty county police officers;
- (4) Add retention and deletion requirements for body-worn camera footage;
- (5) Prohibit certain uses of body-worn camera video footage;

- (6) Establish violations of recording and retention requirements;
- (7) Appropriate funds as a grant-in-aid to each county for the purchase of body-worn video cameras and vehicle cameras; provided that no funds appropriated to a county shall be expended unless matched dollar-for-dollar by the county;
- (8) Appropriate funds to the Department of Public Safety for the purchase of body-worn cameras and vehicle cameras for state law enforcement officers; and
- (9) Require the county police departments to report costs of implementing and maintaining the body-worn camera and vehicle camera program to the Legislature.

Your Committees received testimony in support of this measure from the Office of Information Practices, American Civil Liberties Union of Hawai'i, State of Hawaii Organization of Police Officers, and fourteen individuals. Your Committees received testimony in opposition to this measure from the Department of Land and Natural Resources; Department of Public Safety; Police Department, County of Hawai'i; The Civil Beat Law Center for the Public Interest; and one individual. Your Committees received comments on this measure from The Sex Abuse Treatment Center.

Your Committees find that an increasing number of jurisdictions are addressing the issue of body-worn cameras and vehicle cameras being used by law enforcement officers. Body-worn cameras and vehicle cameras are useful for collecting evidence by police officers for use in court, as well as resolving incidents of alleged misconduct by officers. Implementation of this measure will increase public safety and assist law enforcement agencies with training, assessment, and disciplinary decisions.

Your Committees have amended this measure by:

- (1) Deleting references to "vehicle cameras" to limit the scope to body-worn cameras only;
- (2) Deleting an appropriation to the Department of Public Safety for the purchase of body-worn cameras and vehicle cameras for state law enforcement officers;
- (3) Inserting an effective date of January 7, 2059, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Judiciary and Labor and Ways and Means that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 421, S.D. 1, as amended herein, and recommend that it pass Third Reading in the form attached hereto as S.B. No. 421, S.D. 2.

Signed by the Chairs on behalf of the Committees.

Judiciary and Labor: Ayes, 3. Noes, none. Excused, 2 (Gabbard, Kim).

Ways and Means: Ayes, 8. Noes, none. Excused, 3 (Galuteria, Inouye, Wakai).

SCRep. 868 Ways and Means on S.B. No. 1229

The purpose and intent of this measure is to exempt proceedings that relate to parking violations under applicable administrative rules from the exclusive, original jurisdiction of the environmental courts.

The Department of Land and Natural Resources submitted written comments in support of this measure.

Your Committee finds that many parking violations do not directly or severely impact the State's natural or cultural resources. Therefore, this measure will allow those violations to be more easily and efficiently processed through the district courts or the Traffic Violations Bureau of the First Circuit, rather than the environmental courts. Your Committee notes that, under this measure, parking violations that may impact the State's natural or cultural resources will still be prosecuted in the environmental courts. Your Committee therefore believes that this measure will alleviate the burden placed on the environmental courts, while also allowing those courts to focus resources on cases likely to have an environmental impact.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1229 and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, none. Excused, 3 (Dela Cruz, Inouye, Wakai).

SCRep. 869 Ways and Means on S.B. No. 1183

The purpose and intent of this measure is to make various amendments to the county surcharge on state tax, income tax law, and general excise and use taxes.

More specifically, this measure contains several parts that do the following:

- (1) Part I:
 - (A) Authorizes counties that have established a surcharge on state tax prior to July 1, 2015, to extend the surcharge in perpetuity;
 - (B) Authorizes counties that have not established a surcharge by July 1, 2017, to establish a surcharge on state tax;
 - (C) Provides that the State shall retain an unspecified portion of surcharge proceeds for the Department of Taxation; and
 - (D) Requires a county's share of the county surcharge on state tax to be paid to the county on a monthly basis;
- (2) Part II:

- (A) Establishes an income tax credit that reduces the tax liability for low-income taxpayers;
 - (B) Authorizes all counties to establish a 0.5 per cent surcharge on state tax prior to July 1, 2018;
 - (C) Eliminates the automatic expiration date for adopted county surcharges on state tax;
 - (D) Provides that the State shall retain an unspecified portion of surcharge proceeds for deposit into the state highway fund;
 - (E) Requires a county's share of the county surcharge on state tax to be paid to the county on a monthly basis; and
 - (F) Specifies how the county surcharges collected shall be allocated among the counties that have adopted the surcharge;
- (3) Part III:
- (A) Authorizes counties that have established a surcharge on state tax prior to July 1, 2015, to extend the surcharge to December 31, 2032; provided that the Hawaii Community Development Authority transfers specified parcels to the City and County of Honolulu and the City and County of Honolulu meets other requirements by December 31, 2027;
 - (B) Repeals parts I and III of the measure on January 1, 2028, if the requirements are not met;
 - (C) Authorizes counties that have not established a surcharge on state tax by July 1, 2017, to establish a surcharge; and
 - (D) Provides that an unspecified percentage of the surcharge shall be used by the Department of Transportation for transit oriented development and infrastructure improvement; and
- (4) Part IV:
- (A) Increases the general excise and use taxes from four per cent to four and one-half per cent;
 - (B) Specifies that for an unspecified time period, beginning on January 1, 2019, an unspecified amount of the additional revenues shall be transferred to any county that adopted a surcharge on state tax; provided that such county matches half of the transferred funds;
 - (C) Limits the expenditures allowed by a county receiving additional tax revenue to capital costs for a mass transit project and compliance with the Americans with Disabilities Act;
 - (D) Requires any county who receives additional tax revenue to report to the Legislature annually on revenues and expenditures;
 - (E) Specifies that an unspecified amount of the additional revenues shall be used by the State for education, the Department of Transportation, affordable housing, and elderly programs and services; and
 - (F) Repeals the county surcharge on state tax on January 1, 2019.

Your Committee received testimony in support of this measure from the Department of Transportation, a member of the Kauai County Council, The Chamber of Commerce Hawaii, General Contractors Association of Hawaii, Hawaii Laborers-Employers Cooperation and Education Trust, Hawaii Regional Council of Carpenters, Hawaii State AFL-CIO, ILWU Local 142, Kapolei Chamber of Commerce, Land Use Research Foundation of Hawaii, Pacific Resource Partnership, and three individuals.

Your Committee received testimony in opposition to this measure from Financial Accountability for Rail Mass Transit Association, Friends of Makakilo, Ho'omana Pono, LLC, House District 41 of the Hawaii Republican Party, Kanehili Cultural Hui, and twenty-five individuals.

Your Committee received comments on this measure from the Department of Budget and Finance, Department of Taxation, Honolulu Authority for Rapid Transportation, Tax Foundation of Hawaii, and one individual.

For purposes of a public hearing, your Committee circulated a proposed S.D. 2 (Proposed Draft) of the measure and notified the public that your Committee would be accepting testimony on the Proposed Draft, which amends the measure by replacing its contents with provisions to amend the county surcharge on state tax and address the funding of the City and County of Honolulu's rail transportation project.

More specifically, the Proposed Draft:

- (1) Repeals the requirement that ten per cent of revenues from the county surcharge on state tax be withheld to reimburse the State for administrative costs; provided that an ordinance that allows the capital costs of the rail transportation project to be paid from county funds is adopted prior to December 31, 2017; and
- (2) Requires the Mayor of the City and County of Honolulu to submit certain plans and reports to the Legislature with respect to the funding of the rail transportation project.

Your Committee received testimony in support of the Proposed Draft from The Chamber of Commerce Hawaii, Financial Accountability for Rail Mass Transit Association, General Contractors Association of Hawaii, Hawaii Regional Council of Carpenters, and two individuals.

Your Committee received testimony in opposition to the Proposed Draft from the Kanehili Cultural Hui, Land Use Research Foundation of Hawaii, and four individuals.

Your Committee received comments on the Proposed Draft from the Department of Budget and Finance, Department of Transportation, the Mayor of the City and County of Honolulu, Honolulu City Council, Honolulu Authority for Rapid Transportation, and one individual.

Your Committee finds that only the City and County of Honolulu has established the county surcharge on state tax as authorized by section 46-16.8, Hawaii Revised Statutes, to fund a rail transportation project. Your Committee also finds that repealing the requirement that ten per cent of the surcharge revenues be withheld to reimburse the State for administrative costs incurred for the assessment, collection, and disposition of the county surcharge would provide more surcharge revenues to fund the construction costs of the rail transportation project. Your Committee further finds that, if the City and County of Honolulu is charged with controlling the construction cost of the rail transportation project, the additional surcharge revenues will be sufficient to cover project costs.

Your Committee has amended this measure by adopting the Proposed Draft.

In passing the Proposed Draft, it is not the intent of your Committee for the City and County of Honolulu to increase real property tax rates as a means of financing construction. As was discussed, and it is still our belief, given increased valuations or by tapping into the range of county funds available that existing resources could be bonded, public-private partnerships should be aggressively explored, or the active use of existing statutory tools under chapter 46, Hawaii Revised Statutes, should be vetted to ensure all financing options to complete the project without further taxing the taxpayer have been explored.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1183, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1183, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 8; Ayes with Reservations (Riviere, Taniguchi). Noes, none. Excused, 3 (Dela Cruz, Inouye, Wakai).

SCRep. 870 Ways and Means on S.B. No. 804

The purpose and intent of this measure is to increase the amount of pesticide use revolving fund moneys the Department of Agriculture can maintain to ensure the Department has the necessary funds available to carry out its statutory mandate.

Your Committee received written comments in support of this measure from the Department of Agriculture, Western Plant Health Association, Hawaii Farm Bureau, Hawaii Crop Improvement Association, CropLife America, Hawaii Cattlemen's Council, and one concerned individual.

Your Committee finds that increasing the cap on the amount of moneys that can be maintained in the pesticide use revolving fund will increase the ability of the Department of Agriculture to conduct much needed training and outreach to ensure pesticides are not misused, and to meet the increased demands for assistance in the disposal of pesticides and pesticide containers, as well as supplement the Department's environmental studies, such as groundwater reviews and water sampling activities.

Your Committee notes that section 149A-13.5(e), Hawaii Revised Statutes, currently allows the pesticide revolving fund to maintain up to \$250,000 in unobligated, unencumbered, and unexpended funds. As received by your Committee, this measure proposed to increase this ceiling to \$1,000,000.

Your Committee has amended this measure by:

- (1) Changing the amount of unobligated, unencumbered, or unexpended funds that can remain in the pesticide use revolving fund from \$1,000,000 to an unspecified sum; and
- (2) Changing the effective date to March 9, 2092, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 804, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 804, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, none. Excused, 3 (Dela Cruz, English, Kahele).

SCRep. 871 Ways and Means on S.B. No. 207

The purpose and intent of this measure is to amend the laws relating to public employment leave policies.

Specifically, the measure:

- (1) Establishes a shared leave program within the Department of Human Resources Development to allow state employees to donate accumulated sick leave and vacation leave credits to a shared leave bank or directly to another state employee who has a serious personal illness or injury or who has a family member who has a serious personal illness or injury; and
- (2) Allows an employee's designation of beneficiary form to be filed with the department where the employee was employed and permits the designation to be made through a statement that is not verified or written if any employee dies with accumulated leave.

Your Committee received written comments in support of this measure from the Hawaii Government Employees Association and one individual. Your Committee received written comments in support of part II of this measure from the Department of Accounting and General Services.

Your Committee received written comments in opposition to this measure from the Department of Human Resources Development.

Your Committee received written comments on part I of this measure from one individual.

Your Committee finds that although the Hawaii Revised Statutes currently authorize state departments to establish shared leave programs, they are not required to do so, and that existing shared leave programs do not allow a state employee to receive donated leave from fellow state employees who are employed by a different state department or agency.

Your Committee believes that each executive department, the Judiciary, and the Legislature should be required to establish a shared leave program and that a state employee should not be precluded from sharing leave with an employee of a state department or agency other than the one in which the sharing employee is employed. The chief executive of a county should also be authorized, but not required, to establish a leave sharing program for employees of that county.

Your Committee also believes that it is better to address these issues by amending existing provisions of the Hawaii Revised Statutes than by creating an entirely new statutory section.

Your Committee has amended this measure by:

- (1) Deleting the language of part I, which created a new statutory section to establish a leave sharing program within the Department of Human Resources Development; and
- (2) Replacing the new section in part I with provisions that amend section 78-26, Hawaii Revised Statutes, to:
 - (A) Require each state government branch to establish a shared leave program;
 - (B) Authorize the chief executive of a county to establish a shared leave program for county employees; and
 - (C) Preclude a state government branch from prohibiting leave sharing between different departments or bargaining units because of administrative infeasibility.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 207, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 207, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 10. Noes, none. Excused, 1 (Galuteria).

SCRep. 872 (Majority) Ways and Means on S.B. No. 249

The purpose and intent of this measure is to amend the Employees' Retirement System benefit structure for judges by:

- (1) Specifying that a member who first earned credited service as a judge after June 30, 2017, and has at least ten years of credited service and attained age sixty, or has at least twenty-five years of credited service and has attained age fifty-five, is eligible to receive a pension after retirement; and
- (2) Reducing the percentage of average final compensation used to calculate the retirement allowance for a member who first earned credited service as a judge after June 30, 2017, from three percent to two percent.

Your Committee received written comments in opposition to this measure from the Judiciary, Young Lawyers' Division of the Hawaii State Bar Association, Hawaii State Trial Judges Association, State of Hawaii Organization of Police Officers, and two individuals.

Your Committee has amended this measure by:

- (1) Removing section 1 of the measure because the amendments in that section--which specify that a member who first earned credited service as a judge after June 30, 2017, and has at least ten years of credited service and attained age sixty, or has at least twenty-five years of credited service and has attained age fifty-five, is eligible to receive a pension after retirement--are redundant of what is already provided in section 88-73(b), Hawaii Revised Statutes;
- (2) Clarifying that the two per cent of average final compensation used to calculate a retirement allowance applies to a member who first earned credited service as a judge after June 30, 2012, but before July 1, 2017;
- (3) Consolidating the amendments made to consecutive subsections of section 88-74, Hawaii Revised Statutes;
- (4) Adding conforming language to contrast the retirement allowance of a member who first earned credited service as a judge prior to July 1, 2017, with the retirement allowance of a member who first earned credited service as a judge after June 30, 2017;
- (5) Replacing an erroneous reference to "credit service" with "credited service" in the amendments to section 88-74(h)(3), Hawaii Revised Statutes; and
- (6) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 249, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 249, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, 3 (Harimoto, Riviere, Taniguchi). Excused, none.

SCRep. 873 Ways and Means on S.B. No. 334

The purpose and intent of this measure is to increase voter participation by reforming Hawaii's elections laws.

Specifically, the measure:

- (1) Requires all elections statewide to be conducted by mail, beginning with the 2020 primary election;

- (2) Establishes an election by mail system, including requirements for ballots, replacement ballots, the return of ballots submitted in a deficient manner, the electronic transmission of ballots under certain conditions, ballot counting, and election expenses and responsibilities;
- (3) Establishes voter service centers that would remain open from the tenth business day preceding an election through the day of the election to receive personal delivery of ballots, accommodate voters with special needs, offer same-day registration and voting, and provide other election services;
- (4) Authorizes additional places of deposit for the personal delivery of mail-in ballots;
- (5) Makes conforming amendments to existing elections law to reflect and implement the foregoing provisions of this measure;
- (6) Provides that in the case of a tie between two or more candidates, the tie shall be decided by lot;
- (7) Extends the deadline by which a candidate in a primary or special primary election contest or county election contest held concurrently with a regularly scheduled primary or special primary election must file a complaint to contest the election from the sixth day after the election to the thirteenth day after the election;
- (8) Appropriates funds for the preparation, implementation, and administration of the elections by mail; and
- (9) Requires the Office of Elections to submit a report to the Legislature before the convening of each Regular Session from 2019 to 2023 regarding the implementation and administration of the election by mail program.

Your Committee received testimony in support of this measure from the Office of Elections; the Office of the City Clerk, City and County of Honolulu; the Office of the County Clerk, County of Maui; Hawaii Kai Neighborhood Board No. 1; Americans for Democratic Action; League of Women Voters of Hawaii; Common Cause Hawaii; and four individuals.

Your Committee received written comments on this measure from the Office of the County Clerk, County of Kauai.

Your Committee finds that an increasing number of Hawaii voters are already submitting their votes by mail. For example, in 2016, the number of votes cast before election day exceeded the number of votes cast at polling places on election day, except in one county. Your Committee believes that Hawaii's conversion to elections by mail would significantly reduce the logistical issues related to conducting elections at polling places.

Your Committee has amended this measure by:

- (1) Inserting language to provide that any election before the 2020 primary election may be conducted by mail, in whole or in part, as determined by the chief election officer for state or federal elections or the county clerk for county elections;
- (2) Repealing language that would have had the inadvertent effect of requiring any person registering to vote at a voter service center before or on election day to affirm that the person will not vote in that election; and
- (3) Inserting language to clarify that only the chief election officer or a designee of the chief election officer may authorize the removal of a ballot from a voter service center.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 334, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 334, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, none. Excused, 3 (Dela Cruz, English, Kahele).

SCRep. 874 Ways and Means on S.B. No. 410

The purpose and intent of this measure is to clarify the scope of collective bargaining negotiations regarding the rights and obligations of a public employer.

Your Committee received written comments in support of this measure from the Hawaii Government Employees Association, Hawaii State Teachers Association, University of Hawaii Professional Assembly, and one individual.

Your Committee received written comments in opposition to this measure from the Department of Education, the Department of Human Resources Development, the Office of Collective Bargaining, University of Hawaii System, and the County of Hawaii Office of the Mayor.

Your Committee finds that while a public employer has the right to manage the work of employees, employees also have a right to a workplace free from health and safety risks. Your Committee further finds that clarifying the permissible subjects of collective bargaining agreements will help to ensure that negotiations are conducted in a fair and equitable manner.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 410, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, none.

SCRep. 875 (Majority) Ways and Means on S.B. No. 658

The purpose and intent of this measure is to establish the Hawaii Airport Corporation to consolidate the ownership, control, and management of the state airport system.

Your Committee received written comments in support of this measure from the Department of Transportation Airports Division, Chamber of Commerce Hawaii, Airlines Committee of Hawaii, Enterprise Holdings, Kona-Kohala Chamber of Commerce, Airport Concessionaires Committee, Hawaiian Airlines, and Maui Hotel and Lodging Association.

Your Committee received written comments in opposition to this measure from the Office of Hawaiian Affairs.

The Department of the Attorney General, Department of Budget and Finance, and Hawaii Tourism Authority submitted written comments on this measure.

Your Committee finds that the development, management, and operation of the state airport system is distributed among several state departments, some of which have conflicting goals and priorities. This has resulted in delayed decision-making, inefficient control, and airports that require extensive renovation to become world-class facilities. Your Committee further finds that consolidating management of the state airport system into a singular and independent state entity will help maximize the airports' contribution to the State, improve global access to Hawaii, and simplify the process for making improvements to airport infrastructure.

Your Committee has amended this measure by:

- (1) Requiring that the Governor appoint all the members of the Hawaii Airport Corporation Board of Directors pursuant to section 26-34, Hawaii Revised Statutes;
- (2) Requiring the appointment of the Chief Executive Officer of the Hawaii Airport Corporation be made by a majority of the members of the Board of Directors;
- (3) Requiring that the terms of employment for the Chief Executive Officer shall include terms for the removal of the Chief Executive Officer with cause and without cause;
- (4) Requiring that the salary of the Chief Executive Officer shall not exceed any Deputy Director of Transportation;
- (5) Specifying that the Chief Executive Officer may appoint one deputy executive officer;
- (6) Providing that the employees of the Hawaii Airport Corporation shall be subject to chapters 76 and 89, Hawaii Revised Statutes;
- (7) Deleting the provision exempting the Corporation from chapter 103D, Hawaii Revised Statutes;
- (8) Authorizing, rather than mandating, the Corporation to make improvements on airports and clarifying that this authority applies to airports controlled by the Corporation and to facilities on land controlled by the Corporation;
- (9) Deleting the provision authorizing the Corporation to arrange or initiate actions regarding roads and related infrastructure;
- (10) Deleting the provision authorizing the Corporation to engage in economic development programs;
- (11) Making the Corporation's authority to allot funds and issue bonds subject to legislative authorization and approval;
- (12) Adding provisions to change the terms "department of transportation" and "director of transportation" to corresponding terms of the Corporation;
- (13) Deleting the provision exempting the Corporation from the policies of the Department of Human Resources Development regarding the creation of new positions;
- (14) Deleting the provision authorizing the Corporation to create new employee classifications;
- (15) Changing the effective date to December 16, 2099, to facilitate further discussion on the measure; and
- (16) Making technical nonsubstantive amendments for purposes of style, clarity, and consistency.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 658, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 658, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 9. Noes, 1 (Taniguchi). Excused, 1 (Dela Cruz).

SCRep. 876 Ways and Means on S.B. No. 141

The purpose and intent of this measure is to support physician workforce assessment and planning.

More specifically, this measure aids the strategic recruitment and retention of physicians for rural and medically underserved areas of the State by allowing the University of Hawaii John A. Burns School of Medicine to continue receiving revenues from the physician workforce assessment fee until June 30, 2022.

Your Committee received written comments in support of this measure from the Department of Labor and Industrial Relations, University of Hawaii John A. Burns School of Medicine, East Hawaii Region of Hawaii Health Systems Corporation, Lanai Community Health Center, Hawaii Area Health Education Center, Hawaii Pacific Health, Kaiser Permanente, Hawaii Island Rural Health Association, The Queen's Health Systems, Hawaii Medical Association, Hawaii Academy of Family Physicians, International Longshore and Warehouse Union Local 142, Hilo Medical Center Foundation, and nineteen individuals.

The Hawaii Medical Board and one individual submitted written comments on the measure.

Your Committee finds that Hawaii's physician shortage is compounded by having the fifth oldest physician workforce in the country. The Hawaii Physician Workforce Assessment Program attempts to address this shortage through research on the supply and

demand of physicians in the State, interventions to recruit physicians, and identifying and implementing ways to increase career satisfaction among practicing physicians. The program receives a portion of the revenues generated by the physician workforce assessment fee to fund its efforts.

Your Committee finds that extending the fee assessment's sunset date will help support the State's efforts to act rapidly on tangible solutions to adequately address the physician workforce shortage and the ongoing need for a strong physician workforce.

Your Committee has amended this measure by changing the effective date to March 9, 2092, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 141, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 141, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, none. Excused, 3 (Dela Cruz, Taniguchi, Wakai).

SCRep. 877 Ways and Means on S.B. No. 628

The purpose and intent of this measure is to promote the timely appointment of individuals to vacancies on boards and commissions.

Specifically, this measure:

- (1) Requires department heads to report to the Governor any vacancies on boards and commissions that are placed in or administratively attached to their respective departments;
- (2) Requires the Special Advisor for Technology Development to assist the Governor in establishing and updating a list of all boards and commissions consisting of the names of the various appointees, current vacancies, legal authorities, terms, and other related information;
- (3) Requires outgoing governors to fill board and commission vacancies and provide an up-to-date list of all boards' and commissions' memberships, terms of service, and any pending vacancies to the governor-elect; and
- (4) Appropriates an unspecified amount of funds for one full-time equivalent (1.0 FTE) position to manage the listing of information on all state boards and commissions.

Your Committee received written comments on measure from the Department of Taxation.

Your Committee finds that there are over one-hundred seventy state boards and commissions, each with its own specific membership requirements. Your Committee further finds that establishing a listing of the various state boards and commissions will help highlight current and upcoming vacancies so that the Governor may make timely nominations and appointments for those positions and allow the Senate and the public at large to thoroughly vet each nomination.

Your Committee has requested that the Governor provide the next Committee that hears this measure with the cost of the full-time equivalent (1.0 FTE) position requested by this measure along with the current staffing status of the employees assigned to address the backlog of vacant memberships on boards and commissions.

Your Committee has amended this measure by changing the effective date to July 1, 2050, to facilitate further discussion.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 628, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 628, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, 4 (Dela Cruz, Inouye, Kahele, Shimabukuro).

SCRep. 878 Ways and Means on S.B. No. 617

The purpose and intent of this measure is to promote the development of careers in science, technology, engineering, and math fields.

More specifically, this measure:

- (1) Establishes a research and technology grant program for the High Technology Development Corporation to provide grants for research and technology companies in Hawaii;
- (2) Specifies requirements for the grants;
- (3) Requires the Corporation to submit biennial reports to the Legislature on the grants awarded; and
- (4) Appropriates funds for the grants.

Your Committee received written comments in support of this measure from the Chamber of Commerce Hawaii, the High Technology Development Corporation, and Navatek. Your Committee received written comments on this measure from the State Procurement Office.

Your Committee finds that careers in the science, technology, engineering, and math fields are some of the fastest-growing professions. However, these careers are not growing in Hawaii as fast as in other parts of the world. Your Committee further finds that providing grants to research and development companies will help to strengthen Hawaii's technology sector and achieve the High

Technology Development Corporation's vision of creating eighty thousand new innovation jobs in Hawaii that pay salaries of \$80,000 or more, by the year 2030.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (2) Making a technical amendment for clarity.

Your Committee notes that this measure was introduced with a blank appropriation. Your Committee advises proponents of this measure to submit to subsequent Committees that hear this measure the appropriation amount deemed necessary for the successful implementation of this program.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 617, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 617, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 10. Noes, none. Excused, 1 (Dela Cruz).

SCRep. 879 Ways and Means on S.B. No. 1290

The purpose and intent of this measure is to amend the allocation of transient accommodations tax revenues.

More specifically, this measure:

- (1) Reorganizes the priority of allocations of transient accommodations tax revenues;
- (2) Repeals the requirement that a certain amount of the allocation of transient accommodations tax revenues to the tourism special fund from July 1, 2012, to June 30, 2015, be used for the development and implementation of initiatives to take advantage of expanded visa programs and increased travel opportunities for international visitors to Hawaii; and
- (3) Amends the amount of transient accommodations tax revenues allocated to the counties from a flat dollar amount to forty-five per cent of the revenues remaining after all other allocations have been made.

Your Committee received written comments in support of this measure from the City and County of Honolulu, the Mayor of the County of Hawaii, a member of the Hawaii County Council, a member of the Maui County Council, Hawaii State Association of Counties, Maui Hotel and Lodging Association, and ten individuals.

Your Committee received written comments on this measure from the Department of Budget and Finance, Tax Foundation of Hawaii, and one individual.

Your Committee finds that, beginning after the current fiscal year, the amount of transient accommodations tax revenues allocated to the counties will be \$93,000,000 per fiscal year. Increasing this amount to \$108,000,000 would represent an increase of \$15,000,000 per fiscal year to the counties. The City and County of Honolulu would receive 44.1 per cent of this increase, which equals \$6,615,000 annually.

Your Committee also finds that, according to information provided to your Committee's Chair by the City and County of Honolulu, \$6,615,000 could pay for debt service of between \$59,000,000 and nearly \$70,000,000 of general obligation bonds. These general obligation bonds could be issued to cover cost overruns for the city's rail transportation project. Your Committee notes that all counties, including Honolulu, may expend their portion of transient accommodations tax revenues for any purpose. Therefore, if the rail transportation project does not need to use this contingency funding source, the City and County of Honolulu may use the additional transient accommodations tax revenues for any other public purpose.

Your Committee has amended this measure by:

- (1) Restoring the order of priority for the allocations of transient accommodations tax revenues to that which exists under current law;
- (2) Amending the amount of transient accommodations tax revenues allocated to the counties from forty-five per cent of the remaining revenues to \$108,000,000 per fiscal year;
- (3) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (4) Making technical nonsubstantive amendments for the purposes of consistency, clarity, and style.

Your Committee notes the measure's effective date is intended to be reconsidered, depending on developments with S.B. No. 1183, S.D. 2, pertaining to the county surcharge on state tax and funding of the City and County of Honolulu's rail transportation project. Your Committee would also like to emphasize that, despite discussing the possible uses of transient accommodations tax revenues in its findings, your Committee is not dictating to the City and County of Honolulu how to use additional transient accommodations tax revenues.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1290, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1290, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 8. Noes, none. Excused, 3 (Dela Cruz, Inouye, Wakai).

SCRep. 880 Ways and Means on S.B. No. 1059

The purpose and intent of this measure is to assist small businesses in the State in obtaining state contracts by creating an initiative that is dedicated to supporting small businesses.

Your Committee received written comments in support of this measure from the State Procurement Office, Small Business Regulatory Review Board, State Office of Veterans Services, Chamber of Commerce Hawaii, Native Hawaiian Chamber of Commerce, AMEL Technologies, Inc., Pelatron Center for Economic Development, Native Hawaiian Organizations Association, RMA Sales, and one individual.

Your Committee finds that small businesses are a critical sector of the State's economy. The Legislature has in the past attempted to establish positions and programs to assist the State's small businesses, but these efforts were unsustainable. Your Committee finds that one reason previous efforts have failed to generate positive change is a lack of accurate information about the support that small businesses need, specifically in the case of applying for and obtaining state contracts.

Accordingly, your Committee believes that establishing and funding an initiative that incrementally identifies, quantifies, and addresses the needs of small businesses in the State will provide the foundation necessary for a long-term small business assistance strategy in the State.

Your Committee has amended this measure by:

- (1) Changing the appropriated sums of \$330,000 for small business assistance staff and \$375,000 to contract with a small business to provide services as the State's small business office to unspecified amounts;
- (2) Changing the full-time equivalent position count to an unspecified number; and
- (3) Changing the effective date to July 1, 2050,

to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1059, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1059, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 10. Noes, none. Excused, 1 (Dela Cruz).

SCRep. 881 (Joint) Ways and Means and Judiciary and Labor on S.B. No. 686

The purpose and intent of this measure is to establish an education surcharge on residential investment properties and visitor accommodations, the proceeds of which would be deposited into a Quality Education Special Fund, subject to the ratification of a state constitutional amendment permitting the Legislature to establish the surcharge, for the purpose of funding public education.

Your Committees received written comments in support of this measure from the Hawaii Children's Action Network, Hawaii Public Charter School Network, Hawaii State Teachers Association, HE'E Coalition, Hydroponics Alternatives LLC, IMUAlliance, Parents for Public Schools of Hawaii, Special Education Advisory Council, and 3,904 individuals.

Your Committees received written comments in opposition to this measure from the Mayor of the County of Hawaii, Department of Finance of the County of Kauai, Chair of the Maui County Council, American Resort Development Association, BIA Hawaii, Condominium Rentals Hawaii, Chamber of Commerce Hawaii, Coalition for Equal Taxation, Hawaii Association of REALTORS, Hawaii Lodging and Tourism Association, Maui Chamber of Commerce, Maui Hotel and Lodging Association, Kohala Coast Resort Association, Rental By Owner Awareness Association, and thirteen individuals.

Your Committees received written comments on this measure from the Department of Education, Hawaii State Public Charter School Commission, Office of the Managing Director of the City and County of Honolulu, Tax Foundation of Hawaii, and two individuals.

Your Committees have amended this measure by:

- (1) Exempting from the education surcharge on residential and investment properties all residential property with an assessed value of less than \$2,000,000;
- (2) Changing the name of the Quality Education Special Fund to the Education Special Fund;
- (3) Clarifying that moneys in the Education Special Fund shall be used to develop and deliver instructional services to students in accordance with statewide educational policy;
- (4) Making the Board of Education, rather than the Superintendent of Education, responsible for enforcement; and
- (5) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure.

As affirmed by the records of votes of the members of your Committees on Ways and Means and Judiciary and Labor that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 686, S.D. 1, as amended herein, and recommend that it pass Third Reading in the form attached hereto as S.B. No. 686, S.D. 2.

Signed by the Chairs on behalf of the Committees.
Ways and Means: Ayes, 9; Ayes with Reservations (Harimoto, Riviere, Taniguchi). Noes, none. Excused, 2 (Inouye, Wakai).
Judiciary and Labor: Ayes, 3; Ayes with Reservations (Thielen). Noes, none. Excused, 2 (Gabbard, Kim).

SCRep. 882 (Joint) Ways and Means and Judiciary and Labor on S.B. No. 683

The purpose and intent of this measure is to propose amendments to the Hawaii State Constitution that would allow the Legislature to establish a surcharge on residential investment property and visitor accommodations to fund a quality public education for the children of Hawaii.

Your Committees received written comments in support of this measure from the Hawaii State Teachers Association, He'e Coalition, IMUAlliance, Americans for Democratic Action Hawaii, Parents for Public Schools of Hawaii, Hawaii Public Charter Schools Network, Hawaii Children's Action Network, and 3,892 individuals.

Written comments in opposition were received from the Office of the Mayor of Hawaii County, Real Property Assessment Division of the Department of Finance of Kauai County, Chamber of Commerce Hawaii, Kohala Coast Resort Association, Rental By Owner Awareness Association, Hawaii Association of Realtors, Coalition for Equal Taxation, Condominium Rentals Hawaii, American Resort Development Association Hawaii, Maui Hotel and Lodging Association, Building Industry Association of Hawaii, Hawaii Lodging and Tourism Association, Maui Chamber of Commerce, and thirteen individuals.

The Department of Budget and Finance, Department of Education, Office of the Mayor of the City and County of Honolulu, Tax Foundation of Hawaii, and Special Education Advisory Council submitted written comments on the measure.

This measure, if passed by the Legislature, will place a question on the ballot for the next general or special election, as required by the Hawaii State Constitution for constitutional amendments, asking voters whether or not the Legislature may establish a surcharge on residential investment property and visitor accommodations to fund public education.

Your Committees have amended this measure by:

- (1) Deleting all references to the particular kind of education that the State provides to the children of Hawaii;
- (2) Deleting the proposed requirement in section 3 that the State must make sufficient sums available for public education; and
- (3) Amending the question to be printed on the ballot in section 4 to read: "Shall the legislature be authorized to establish, as provided by law, a surcharge on residential investment property and visitor accommodations to fund a public education for all of Hawaii's children?"

As affirmed by the records of votes of the members of your Committees on Ways and Means and Judiciary and Labor that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 683, S.D. 1, as amended herein, and recommend that it pass Third Reading in the form attached hereto as S.B. No. 683, S.D. 2.

Signed by the Chairs on behalf of the Committees.

Ways and Means: Ayes, 9; Ayes with Reservations (Harimoto, Riviere, Taniguchi). Noes, none. Excused, 2 (Inouye, Wakai).

Judiciary and Labor: Ayes, 3; Ayes with Reservations (Thielen). Noes, none. Excused, 2 (Gabbard, Kim).

SCRep. 883 (Joint) Ways and Means and Judiciary and Labor on S.B. No. 848

The purpose and intent of this measure is to expand the functions of the Hawaiian Language College at the University of Hawaii at Hilo.

Specifically, this measure:

- (1) Requires the Hawaiian Language College at the University of Hawaii at Hilo to be internally administered through the Hawaiian language and operate year round;
- (2) Requires the Hawaiian Language College to offer programs and courses through the Hawaiian language and to provide support of the use of the Hawaiian language;
- (3) Authorizes the Hawaiian Language College to offer programs worldwide and through electronic means;
- (4) Authorizes the University of Hawaii to establish a Hawaiian language pilot project to implement Hawaiian language instruction and develop new ideas, practices, and processes relative to Hawaii language medium education;
- (5) Requires the University of Hawaii to develop an implementation plan to address the system wide Hawaiian language goals in the report generated in response to S.R. No. 97, S.D. 1, Regular Session 2015; and
- (6) Requires the University of Hawaii to submit reports to the Legislature on efforts to implement education taught through the Hawaiian language, the status of the implementation plan, and the number of students pursuing education through the Hawaiian language.

Your Committees received written comments in support of this measure from the Office of Hawaiian Affairs; the Democratic Party of Hawaii, Hawaiian Affairs Caucus; Nawahiokalani'opu'u Iki LPCS; Hale Kuamo'o Hawaiian Language Center; 'Aha Punana Leo; Punana Leo o Waimea; Punana Leo o Maui; Punana Leo o Manoa; Punana Leo o Lahaina; Punana Leo o Koolau Poko; Punana Leo o Koolau Loa; Punana Leo o Kauai; Punana Leo o Honolulu; Punana Leo o Hilo; Punana Leo o Hana; Punana Leo o Molokai; Punana Leo o Kona; Punana Leo o Waianae; and thirty-six individuals.

Your Committees received comments in opposition to this measure from the University of Hawaii System, the Center for Hawaiian Sovereignty Studies, and Hawai'inuiakea School of Hawaiian Knowledge.

Your Committees received comments on this measure from Kamehameha Schools and one individual.

Your Committees find that legislative efforts to remove barriers to the use of Hawaiian as the medium of education began over three decades ago in 1986, and have since then led to Hawaiian medium program enrollment of more than three thousand students annually in K-12 public schools statewide. However, schools that teach through the Hawaiian language are experiencing a significant shortage

in qualified teachers. Your Committees further find that expanding the functions of the Hawaiian language programs, including providing for the instruction of liberal arts and general education courses through the Hawaiian language, will help to develop strong Hawaiian language proficiency in future teachers, which will help to address the current teacher shortage.

Your Committees have amended this measure by:

- (1) Specifying that the development of the implementation plan to address the system wide Hawaiian language goals shall involve the former working group created by S.R. No. 97, S.D. 1, Regular Session 2015, and community members;
- (2) Changing the effective date to March 9, 2092, to facilitate further discussion on the measure; and
- (3) Making technical nonsubstantive amendments for purposes of style, clarity, and consistency.

As affirmed by the records of votes of the members of your Committees on Ways and Means and Judiciary and Labor that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 848, S.D. 1, as amended herein, and recommend that it pass Third Reading in the form attached hereto as S.B. No. 848, S.D. 2.

Signed by the Chairs on behalf of the Committees.

Ways and Means: Ayes, 9. Noes, none. Excused, 2 (Kahele, Wakai).

Judiciary and Labor: Ayes, 3. Noes, none. Excused, 2 (Gabbard, Kim).

SCRep. 884 Ways and Means on S.B. No. 640

The purpose and intent of this measure is to establish and appropriate funds for a model project on land mauka of Makua beach for a coconut grove to be cultivated in accordance with Hawaiian traditional and customary gathering practices.

Your Committee received written comments in support of this measure from the Department of Land and Natural Resources; Ho'omana Pono, LLC.; Hydroponics Alternatives LLC; 'Ai Pohaku, and ten individuals.

Your Committee received comments on this measure from Department of the Attorney General, Protectors of Paradise, and one individual.

Your Committee finds that the Makua beach section of Kaena Point state park has been subjected to years of abuse by illegal camping, bonfires, and dumping. Your Committee believes that establishing a model project for Hawaiian traditional and customary gathering practices near Makua beach will help to support restoration of the area and develop practices for future Hawaiian cultural projects.

Your Committee recognizes concerns expressed that this measure, as currently drafted, potentially violates Article XI, section 5, of the Constitution of the State of Hawaii by proposing a special law applicable to a specific portion of land, the land directly mauka of Makua beach. Accordingly, your Committee has amended this measure to be a general law, in compliance with the Constitution of the State of Hawaii, by removing the requirement that the model project be implemented at a specific location and inserting provisions authorizing the Department of Land and Natural Resources to select a site for the model project. Your Committee expressly intends that, by this amendment, the Department of Land and Natural Resources shall have full discretion to select the location for the model project, including the area mauka of Makua beach.

Your Committee has also amended this measure by changing the effective date to July 1, 2050, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 640, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 640, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 9. Noes, none. Excused, 2 (Dela Cruz, Taniguchi).

SCRep. 885 Ways and Means on S.B. No. 714

The purpose and intent of this measure is to establish within the Department of Human Resources Development a supervisory and professional job shadowing pilot project for leadership and supervisory training.

Your Committee received testimony in support of this measure from the Department of Human Services.

Your Committee received comments on this measure from the Department of Human Resources Development and Hawaii Government Employees Association.

Your Committee finds that within the various departments of state government, the number of employees eligible for retirement is steadily increasing. Thus, there is an urgent need to prepare the next generation of employees to occupy positions vacated by retirees, especially at the supervisory level. Your Committee believes that the pilot program created by this measure will help to stabilize the state workforce and facilitate the transfer of essential skills and institutional knowledge.

Your Committee also finds that the Department of Human Resources Development should have broad authority to implement the supervisory and professional job shadowing pilot project, including the authority to make necessary temporary hires to perform the duties of an employee who is otherwise shadowing an incumbent of a supervisory position as part of the pilot project.

Your Committee has amended this measure by:

- (1) Correcting a reference to the number of employees within the Department of Human Resources Development who are eligible for retirement;

- (2) Authorizing the Department of Human Resources Development to establish temporary part-time positions that may be necessary when any current state employee, as part of the supervisory and professional job shadowing pilot project, shadows any incumbent of a supervisory position; provided that the temporary part-time positions shall either be:
- (A) Positions filled by current state employees to temporarily shadow incumbents; or
 - (B) Positions in which temporary employees perform the duties of current state employees who are temporarily shadowing incumbent supervisors; and
- (3) Clarifying that the appropriations provided by the measure are to fund the supervisory and professional job shadowing pilot project.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 714, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 714, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 10. Noes, none. Excused, 1 (Galuteria).

SCRep. 886 Ways and Means on S.B. No. 964

The purpose and intent of this measure is to provide the Department of Human Services with more flexibility in sheltering the homeless.

Specifically, the measure amends Act 234, Session Laws of Hawaii 2016, to provide the Department of Human Services with the discretion to determine partition space requirements for emergency homeless shelters with which the Department contracts for shelter services for homeless persons.

Your Committee received written comments in support of this measure from the Department of Human Services and the Governor's Coordinator on Homelessness.

Your Committee finds that the Legislature enacted Act 234, Session Laws of Hawaii 2016, to make the homeless shelter system more cost effective and more appealing to homeless families and individuals to enter shelters. Your Committee believes that homeless families and individuals cannot be forced into shelters, but must be provided with enough security, privacy, and sanitation facilities to encourage voluntary access. Your Committee also notes that Act 234 requires homeless shelter providers to comply with other standards, such as performance metrics. The administration apparently feels that homeless shelter providers need more time to transition into the new standards. Accordingly, your Committee finds that providing the Department with flexibility in determining which shelters will have partitioned spaces and more time to comply with Act 234 will allow the Department to more effectively address the problem of homelessness in the State.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 964, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 9. Noes, none. Excused, 2 (Inouye, Wakai).

SCRep. 887 Ways and Means on S.B. No. 834

The purpose and intent of this measure is to establish an audiovisual conferencing system for use by the Legislature.

More specifically, this measure requires both chambers of the Legislature to adopt rules to establish procedures to enable neighbor island residents to present oral testimony at legislative committee hearings through the use of audiovisual technology.

Your Committee received written comments in support of this measure from Ulupono Initiative, Common Cause Hawaii, Hawaii Farmers Union United, Hawaii Government Employees Association, and two individuals.

Your Committee received written comments on this measure from the Disability and Communication Access Board.

Your Committee finds that it is often a severe financial hardship for neighbor island residents to actively participate in the legislative process. Your Committee recognizes that this measure is a necessary first step toward using remote testimony technology to allow more residents of the State to participate and have their voices heard, but also notes that there are both operational and technical issues that must first be worked through as the Legislature looks at implementing such a program. Your Committee believes that the appropriate next step is directing the Legislative Reference Bureau to do a feasibility study, including associated costs for the implementation of audiovisual technology in both chambers of the Legislature.

Your Committee has amended this measure by:

- (1) Replacing language that would establish an audiovisual program within both chambers of the Legislature with a provision requiring the Legislative Reference Bureau to conduct a study on the feasibility and costs associated with implementing such a program;
- (2) Making an unspecified appropriation to the Legislative Reference Bureau for the purpose of conducting the study; and
- (3) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 834, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 834, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, 4 (Dela Cruz, Inouye, Taniguchi, Wakai).

SCRep. 888 Judiciary and Labor on S.B. No. 288

The purpose and intent of this measure is to modernize the self-service storage facilities laws to:

- (1) Allow self-service storage facility owners to tow motor vehicles and boats after sixty or more days of delinquency; provided that owners provide delinquent occupants with appropriate notice;
- (2) Reflect the modern needs of the industry by allowing self-service storage facility owners to publish notices of sales and send other notices to occupants by electronic mail and other commercially reasonable methods;
- (3) Allow self-service storage facility owners to limit their liability to the maximum monetary value of property that may be stored pursuant to a rental agreement;
- (4) Require any late fees charged by self-service storage facility owners to be provided for in the rental agreement; and
- (5) Require self-service storage facility owners to notify occupants of the changes in this measure.

Your Committee received testimony in support of this measure from the National Self Storage Association. Your Committee received testimony in opposition to this measure from the Office of Consumer Protection, Department of Commerce and Consumer Affairs.

Your Committee finds that the State's self-storage facilities lien law has remained virtually unchanged since its enactment in 1984. This measure updates and clarifies Hawaii's self-storage lien laws.

Your Committee has amended this measure by:

- (1) Specifying that only a motor vehicle may be towed away at the expense of the owner of the vehicle pursuant to section 290-11, Hawaii Revised Statutes, because that section does not cover boats;
- (2) Clarifying that "verified mail" means any method of mailing that is offered by the United States Postal Service that provides evidence of the mailing or a private delivery service that provides evidence of the delivery of the document;
- (3) Inserting an effective date of January 7, 2059, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 288, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 288, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 889 Judiciary and Labor on S.B. No. 518

The purpose and intent of this measure is to require barber, beauty operator, and instructor licensees under the Board of Barbering and Cosmetology to complete a one-time, three-hour training program on intimate partner violence awareness and education.

Your Committee received comments on this measure from the Board of Barbering and Cosmetology and Domestic Violence Action Center.

Your Committee finds that intimate partner violence is prevalent in every community and affects people regardless of age, socioeconomic status, sexual orientation, gender, race, religion, or nationality. Professionals in the grooming and beauty industry may have a unique opportunity to notice signs of abuse in their clients. These professionals often enjoy close relationships with their clients, which can put a grooming or beauty professional in the position to provide advice, resource information, and assistance. By requiring a one-time, three-hour training program on intimate partner violence, this measure will enable more grooming and beauty industry licensees to recognize the signs of intimate partner violence and potentially direct their clients to much-needed resources. Your Committee notes that this measure applies only to barber, beauty operator, and instructor licensees and believes that expanding the scope to other professional licensees merits further discussion as this measure moves through the legislative process.

Your Committee has amended this measure by:

- (1) Requiring the Department of Commerce and Consumer Affairs to develop the intimate partner violence awareness and education training program in coordination with a domestic violence intervention program, rather than the Hawaii State Coalition Against Domestic Violence; and
- (2) Inserting an effective date of January 7, 2059, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 518, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 518, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 890 Judiciary and Labor on S.B. No. 637

The purpose and intent of this measure is to authorize the counties through their employees or authorized agents to enter private property to control or eradicate invasive species and pests.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources; Department of Agriculture; Office of the Mayor, County of Hawai'i; Office of the Mayor, County of Maui; Hawaii Association of REALTORS; Hawaii Cattlemens Council; The Hawaiian Electric Companies; and five individuals. Your Committee received comments on this measure from one individual.

Your Committee finds that invasive species and pests are a persistent and real threat to the State. Invasive species and pests can swiftly and permanently alter the ecosystem of the State if not effectively eradicated. To ensure the rapid and complete removal of such species and pests, this measure allows the counties, through their employees or authorized agents, to have authority to enter onto private property when necessary to control or eradicate invasive species and pests.

Your Committee has amended this measure by:

- (1) Clarifying under section 194-5(a), Hawaii Revised Statutes, that the employees or authorized agents of a department or county may enter the premises to control or eradicate the invasive species after reasonable notice is provided to the owner of the property or pursuant to a court order; and
- (2) Inserting an effective date of January 7, 2059, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 637, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 637, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Gabbard, Rhoads).

SCRep. 891 Judiciary and Labor on S.B. No. 700

The purpose and intent of this measure is to amend the offense of cruelty to animals in the first degree to include certain indigenous birds that are not determined to be an endangered or threatened species under chapter 195D, Hawaii Revised Statutes.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources, Conservation Council for Hawai'i, Hawaiian Humane Society, and twenty individuals.

Your Committee finds that the federal Endangered Species Act of 1973 and chapter 195D, Hawaii Revised Statutes, ensure the perpetuation of aquatic life, wild life, and land plants and their habitats by listing as endangered or threatened certain species of aquatic life, wild life, and land plants for protection and conservation. However, there are indigenous species, such as the Laysan albatross, that are not deemed endangered or threatened and thus are not afforded the same federal and state protections as those listed species. This measure affords legal protections for these unlisted indigenous birds.

Your Committee has amended this measure by:

- (1) Adopting the language suggested by the Department of Land and Natural Resources that amends the definition of "indigenous bird" to include all indigenous birds in Hawaii, including birds that are endangered or threatened;
- (2) Establishing a separate criminal conduct under the offense of cruelty to animals in the first degree to prohibit the torturing, mutilation, or poisoning, or assisting another person in or causing the torturing, mutilation, or poisoning of two or more indigenous birds;
- (3) Inserting an effective date of January 7, 2059, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 700, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 700, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 892 Judiciary and Labor on S.B. No. 997

The purpose and intent of this measure is to update the Uniform Controlled Substances Act to make it consistent with amendments in federal controlled substances law as required under section 329-11, Hawaii Revised Statutes.

Your Committee received testimony in support of this measure from the Department of Public Safety and one individual. Your Committee received comments on this measure from The Drug Policy Forum of Hawai'i and one individual.

Your Committee finds that this measure is necessary to make Hawaii's Uniform Controlled Substance Act under chapter 329, Hawaii Revised Statutes, consistent with changes to federal law and that these updates to Hawaii's Uniform Controlled Substances Act are in the interest of public health and safety.

Your Committee has amended this measure by:

- (1) Inserting an effective date of January 7, 2059, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 997, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 997, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 893 Judiciary and Labor on S.B. No. 1129

The purpose and intent of this measure is to enact a medical aid in dying act in Hawaii by establishing a regulatory process under which an adult resident of the State with a medically confirmed terminal disease may obtain a prescription for medication to be self-administered to end the patient's life.

Your Committee received testimony in support of this measure from the Hawaii State Center for Nursing; Women's Caucus of the Democratic Party of Hawaii; Hawaii Association of Professional Nurses; Democratic Party of Hawaii; Akamai Glass Company; American Civil Liberties Union of Hawaii; Americans for Democratic Action Hawaii; Chamber of Commerce of Persons with Disabilities; Compassion and Choices; Death with Dignity National Center; Filipino-American Advocacy Network; First Unitarian Church of Honolulu; Hawaii Advocates for Consumer Rights; Hawaii Death with Dignity Society; Hawaii Friends of Civil Rights; Ho'omana Pono, LLC; International Longshore and Warehouse Union, Local 142; LGBT First Caucus of the Democratic Party of Hawaii; Straub Clinic and Hospital; and approximately two hundred thirty individuals. Your Committee received testimony in opposition to this measure from the Hawaii Republican Party, American Nurses Association, Americans United for Life, Christian Counseling and Research Centers of America, Concerned Women for America of Hawaii, Hawaii Catholic Conference, Hawaii Family Forum, Hawaii Life Alliance, Hawaii's Partnership for Appropriate Compassion and Care, St. Francis Healthcare System of Hawaii, and seventy-five individuals. Your Committee received comments on this measure from the Department of the Attorney General, Department of Health, and eight individuals.

Your Committee finds that medical aid in dying is a medical practice in which a mentally capable, terminally ill adult with six months or less to live may request a prescription for a medication that the terminally ill adult can self-administer to achieve death in a peaceful, humane, and dignified manner. While hospice and palliative care are widely available and may be an excellent option for some, care provided through these methods is still within the control of a health care provider, not a terminally ill patient who may wish for the freedom to make the patient's own end-of-life decisions.

Your Committee further finds that this measure is modeled after Oregon's groundbreaking Death with Dignity Act, which has been in effect for over twenty years and was enacted during a time when no other state authorized the medical practice of aid in dying. Since that time, other states, including California, Colorado, Vermont, and Washington, have evaluated Oregon's experience and have enacted similar legislation. Your Committee also finds that medical aid in dying is a safe and trusted practice. In the states that have authorized the practice, there has not been a single documented instance of coercion or abuse. The laws in these other states are working as intended. Furthermore, rather than posing a risk to patients or the medical profession, Oregon's Death with Dignity Act has galvanized significant improvements in the care of the state's terminally ill and dying.

Your Committee additionally finds that the availability of the option of medical aid in dying gives a terminally ill individual autonomy, control, and choice. Your Committee notes that this choice is the overwhelming motivational factor behind the decision to request assistance in dying. A terminally ill individual who seeks medical aid in dying may ultimately not choose to exercise this option; however, the mere availability of such a choice can bring comfort to people in their final days.

Your Committee further finds that any medical aid in dying legislation must include proper safeguards that prevent abuse and coercion. In order for any medical aid in dying option to truly be a choice, it must not be the only option. Accordingly, this measure includes numerous, strict safeguards that protect against abuse and coercion and promote choice. This measure also establishes strict eligibility criteria and guidelines that meet the highest standard of care for the medical practice of aid in dying, as described in clinical criteria published in the Journal of Palliative Medicine. Under this measure, to be eligible for aid-in-dying medication, adults must be terminally ill, with a prognosis of six months or less to live, and be mentally capable of making their own health care decisions. Importantly, this measure clearly states that no person shall qualify for medical aid in dying solely based on age or disability.

Your Committee notes that this measure includes advanced practice registered nurses in the role of attending providers and consulting providers for qualified patients. While an advanced practice registered nurse may be qualified to serve as an attending provider, your Committee is concerned that serving as a consulting provider may fall outside the practice scope of an advanced practice registered nurse.

Your Committee believes that a qualified patient should be afforded an opportunity to seek the assistance of a consulting provider who has not previously assumed responsibility for the care of the patient with the attending provider. This provides an additional safeguard to limit the possibility of collusion between providers during a patient's decision making process regarding the patient's end-of-life choices.

Your Committee notes that concerns may persist with respect to safeguards in this measure to ensure that a qualified patient's family is notified regarding the patient's decision to actually self-administer the medication as well as to dissuade the patient from taking the medication in a public place. Your Committee notes that these safeguards may be difficult to enforce, but that recommending notification to next of kin and counseling a patient not to self-administer the medication in a public place are both explicitly included in the attending provider's statutory responsibilities.

Lastly, your Committee believes that the Department of Health should retain and maintain the records of patients qualifying for and using medical aid in dying and that such records should not be disposed or destroyed. Furthermore, in addition to generating an annual statistical report to be made available to the public, your Committee believes that an annual report to the Legislature is necessary for the Legislature to track the implementation of the medical aid in dying act and address any problem areas legislatively, when appropriate.

Accordingly, your Committee has amended this measure by:

- (1) Deleting references to advanced practice registered nurses under the definitions of "consulting provider" and "counseling";

- (2) Amending the definition of "consulting provider" to clarify that a consulting provider shall not have previously assumed responsibility of the care of the patient with the attending provider;
- (3) Clarifying that a patient is a "qualified patient", when appropriate;
- (4) Clarifying that the two individuals who witness a qualified patient signing a request for medication shall attest to the best of their knowledge and belief that the qualified patient is of sound mind;
- (5) Clarifying that a person is disqualified from being a witness of a request for medication if that person would be entitled to any portion of the estate of the qualified patient upon death under any will, trust, or other legal instrument;
- (6) Clarifying that the death certificate of the qualified patient shall list the terminal disease as the immediate cause of death;
- (7) Clarifying that the minimum waiting periods shall be fifteen days between a qualified patient's initial oral request and the taking of steps to make available a prescription for medication, rather than the writing of a prescription; and forty-eight hours between the qualified patient's written request and the taking of steps to make available a prescription for medication, rather than the writing of a prescription;
- (8) Requiring the Department of Health to retain and exercise reasonable care in maintaining compliance information collected and that the information shall not be subject to any disposal or destruction of records requirements;
- (9) Inserting language that requires a person who has custody or control of any unused medication dispensed for the purposes of medical aid in dying after the death of the qualified patient to personally deliver the unused medication for disposal to the nearest qualified facility or lawfully dispose of the unused medication;
- (10) Adding the offenses of murder, manslaughter, negligent homicide, and any other criminal conduct under the law to clarify that any actions taken in accordance with the medical aid in dying act do not constitute these offenses;
- (11) Adding that good faith compliance with the medical aid in dying act shall not constitute harm, self-neglect, or abuse for any purpose of law or provide the sole basis for an appointment of a guardian or conservator;
- (12) Clarifying that for civil or criminal immunity, a person shall be participating or acting in good faith while a health care provider shall be acting, rather than participating, in good faith;
- (13) Clarifying that no health care facility shall be subject to civil or criminal liability for acting in good faith compliance with the medical aid in dying act including but not limited to the designation of a witness who has qualifications specified by the Department of Health when a qualified patient makes a written request when residing in a long-term care facility;
- (14) Replacing the mens rea element of willfully committing certain acts with intentionally committing those acts, under the criminal penalties section;
- (15) Adding language that requires the Department of Health to submit a report to the Legislature prior to each Regular Session that includes information about the implementation of the medical aid in dying act; and
- (16) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1129, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1129, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 4; Ayes with Reservations (Kim). Noes, none. Excused, 1 (Gabbard).

SCRep. 894 Judiciary and Labor on S.B. No. 1298

The purpose and intent of this measure is to make available the opportunity to waive the one-year residency requirement for appointment to a county chief of police position.

Your Committee received testimony in support of this measure from the Honolulu Police Commission. Your Committee received testimony in opposition to this measure from the State of Hawaii Organization of Police Officers and three individuals.

Your Committee finds that employing highly qualified law enforcement officers is essential for the health, safety, and welfare of the public. The need for highly-qualified individuals is especially important in law enforcement leadership positions. Given the difficulties in recruiting and retaining the best and most highly-qualified individuals for law enforcement leadership positions, it is important to remove barriers that further reduce the available pool of hireable individuals. Accordingly, this measure provides an exemption from the one-year state residency requirement for individuals appointed as the head of a county police department.

Your Committee has amended this measure by inserting an effective date of January 7, 2059, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1298, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1298, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Gabbard, Rhoads).

SCRep. 895 Ways and Means on S.B. No. 624

The purpose and intent of this measure is to require the Governor and the Department of Agriculture to develop a strategic plan outlining benchmarks to achieve the Governor's goal of doubling food production by 2020.

Your Committee received written comments in support of this measure from the Hawaii Farm Bureau.

Your Committee received written comments on this measure from the Department of Agriculture.

Your Committee finds that Governor Ige recently set the policy goal of doubling food production within the State by 2020. However, details for achieving this objective have yet to be provided. Your Committee recognizes that issues such as preserving agricultural land, identifying food crops for local production, and improving irrigation and agricultural infrastructure need immediate attention so that doubling food production can become a realistic objective. In addition, the federal Food Safety Modernization Act will have significant effects on local agriculture, and these implications must also be considered.

Your Committee has amended this measure by:

- (1) Making an appropriation to the Department of Agriculture of an unspecified sum for the development of a strategic plan; and
- (2) Changing the effective date to March 9, 2092, to facilitate further discussion on the measure.

Your Committee requests the Department of Agriculture to notify subsequent committees of the appropriation necessary to develop the strategic plan.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 624, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 624, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, none. Excused, 3 (Dela Cruz, English, Kahele).

SCRep. 896 Ways and Means on S.B. No. 761

The purpose and intent of this measure is to appropriate moneys necessary to continue programs under the HI Growth Initiative.

Your Committee received written comments in support of this measure from the Natural Energy Laboratory of Hawaii Authority, High Technology Development Corporation, Hawaii Strategic Development Corporation, Chamber of Commerce Hawaii, Impact Hub Honolulu, Maui Chamber of Commerce, Fluid Studios, Referentia Systems, Inc., GVS Transmedia Accelerator, LLC, Hawaii Wild Side, LLC, Dev League, LLC, Global Net Productions, Inc., LifeNet Media Resources, Inc., Ring of Fire Films, Inc., Radial3D, Inc., Twenty20 Sound, Honua Studios, Tow Choice, Kapalya, Inc., Kite Kids, Inc., and fifteen individuals.

Your Committee received written comments on this measure from one individual.

Your Committee finds that the State's economic future is dependent upon a diversification of the State's economy. The HI Growth Initiative was implemented in 2013 by the Hawaii Strategic Development Corporation to achieve the State's economic development objectives to transform and maintain Hawaii as a place that welcomes and facilitates economic activity. The Initiative has funded over sixty-five start-up businesses in Hawaii. In 2016, the Economic Research Organization at the University of Hawaii reported that the Initiative provided twelve times the leverage on state dollars.

Your Committee also finds that the Hawaii Strategic Development Corporation has not received any new funding since 2013 and, as a result, has not been able to develop new investments initiatives. The Corporation projects that, without additional funding, it will no longer be able to support the continued activities of its accelerator programs.

Your Committee further finds that a technicality prevented a previous appropriation of \$1,000,000 in the Supplemental Appropriations Act of 2016 for the HI Growth Initiative, from being expended.

Your Committee has amended this measure by:

- (1) Force lapsing the \$1,000,000 general fund appropriation for fiscal year 2016-2017 made in the Supplemental Appropriations Act of 2016 that could not be expended because of a technicality;
- (2) Providing a general fund appropriation of \$1,000,000 for fiscal year 2017-2018 for deposit into the Hawaii Strategic Development Corporation Revolving Fund; and
- (3) Making an appropriation of \$1,000,000 for fiscal year 2017-2018 out of the Hawaii Strategic Development Corporation Revolving Fund for the HI Growth Initiative.

Your Committee intends this means of providing \$1,000,000 for the HI Growth Initiative to be cost neutral for the financial plan.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 761, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 761, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 10. Noes, none. Excused, 1 (Dela Cruz).

SCRep. 897 Ways and Means on S.B. No. 533

The purpose and intent of this measure is to appropriate funds for the Aging and Disability Resource Center.

Your Committee received written comments in support of this measure from the Executive Office on Aging, State Council on Developmental Disabilities, Hawaii Family Caregiver Coalition, Healthcare Association of Hawaii, Hawaii Pacific Health, Lanakila Pacific, Policy Advisory Board for Elder Affairs, ILWU Local 142, AARP Hawaii, and seven individuals.

Your Committee finds that the Aging and Disability Resource Center helps individuals and their families identify their long-term services and support needs based on a person-centered process. Your Committee recognizes that proper funding for the Aging and Disability Resource Center is essential to ensure the Center is an effective single point of entry for individuals seeking information about appropriate long-term care options.

Your Committee has amended this measure by:

- (1) Changing the amount appropriated in fiscal years 2017-2018 and 2018-2019 from \$1,710,000 to an unspecified amount; and
- (2) Changing the effective date to July 1, 2050.

Your Committee notes that it intends to consider placing the appropriation into the General Appropriations Act of 2017.

Your Committee also notes that consideration should be given to continued monitoring of and reporting on this program. Act 138, Session Laws of Hawaii 2016, included a reporting requirement for an evaluation of the effectiveness of the aging and disability resource centers in each county to ensure timely and efficient delivery of services to seniors and caregivers. These reporting requirements and additional calls for oversight and monitoring by the Executive Office on Aging was a direct result of complaints received due to delays in connecting some of the most vulnerable in our community with providers and services. Your Committee finds that the Executive Office on Aging submitted the report to the 2017 Legislature and, under Act 138, is required to submit another report to the 2018 Legislature. It should be determined if additional information is required, and if improvements to the program have been made.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 533, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 533, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 9. Noes, none. Excused, 2 (Inouye, Wakai).

SCRep. 898 Ways and Means on S.B. No. 665

The purpose and intent of this measure is to address renewable energy tax incentives.

More specifically, this measure replaces the current income tax credit for renewable energy technology systems with tax credits for solar energy property, wind energy property, and energy storage property.

Your Committee received written comments in support of this measure from Amber Kinetics, Distributed Energy Resources Council of Hawaii, Ulupono Initiative, and three individuals.

Your Committee received written comments in opposition to this measure from the Department of Business, Economic Development, and Tourism.

Your Committee received written comments on this measure from the Department of Taxation and the Tax Foundation of Hawaii.

Your Committee finds that the development of renewable energy is essential to meeting Hawaii's clean energy goals. Your Committee also finds that investment in energy storage is a crucial step in modernizing Hawaii's energy grid. Your Committee notes that energy storage technologies are not addressed by current state income tax incentives.

Your Committee has amended this measure by:

- (1) Amending the cap amounts of the tax credit with regard to energy storage property and wind energy property;
- (2) Clarifying that the tax credit shall not be authorized for taxable years ending after December 31, 2035;
- (3) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (4) Making technical nonsubstantive amendments for the purposes of consistency, clarity, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 665, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 665, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 8. Noes, none. Excused, 3 (Dela Cruz, Inouye, Wakai).

SCRep. 899 Ways and Means on S.B. No. 298

The purpose and intent of this measure is to provide students with the skills necessary to find jobs upon graduation.

Specifically, the measure prepares students for the workforce by:

- (1) Establishing a workforce readiness program within the Department of Education to enable students to graduate with a high school diploma and an industry-recognized associate's degree and give students opportunities to earn pre-apprenticeship certificates and other industry-recognized certificates, in addition to an associate's degree; and
- (2) Appropriating moneys for the purposes of the program, including the hiring of full-time employees.

The Department of Education submitted written comments in support of this measure. The University of Hawaii submitted written comments.

Your Committee finds that in spite of the fact that eighty-one percent of students graduate from high school, only fifty-six percent of Hawaii's public school graduates continued on to post-secondary education in 2015. Your Committee believes that this measure will lead to collaboration between educators and industrial employers, which will equip students both with education and career-ready skills necessary to meet industries' workforce needs.

Your Committee has amended this measure by:

- (1) Including only students in grades nine through twelve in the program;
- (2) Requiring each school designated for the workforce readiness program to also provide qualified courses under the dual credit program established pursuant to section 302A-401, Hawaii Revised Statutes;
- (3) Deleting a provision that would have authorized a workforce readiness program participant to attend public school through the age of twenty-two, provided that the person had not yet reached the age of twenty-two by the first instructional day of the school year; and
- (4) Changing its effective date to July 1, 2050, to facilitate further discussion.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 298, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 298, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 7; Ayes with Reservations (Taniguchi). Noes, none. Excused, 4 (Dela Cruz, Inouye, Kahele, Shimabukuro).

SCRep. 900 Ways and Means on S.B. No. 499

The purpose and intent of this measure is to support the Hawaii Zero to Three Court by providing additional funding for staff positions and various services.

Your Committee received written comments in support of this measure from the Judiciary, Department of Human Services, American Academy of Pediatrics Hawaii Chapter, Hawaii's Early Childhood Action Strategy, Hawaii Family Support Institute, Hawaii Pacific Health, Family Programs Hawaii, Family Strengthening Center at Family Programs Hawaii, Hawaii Children's Action Network, Zero to Three, Parents and Children Together, and four individuals.

Your Committee finds that the Hawaii Zero to Three Court provides valuable structure and support for families and children in the court system that are involved with Child Welfare Services. The court and its resource networks help these families to establish safe, nurturing homes. The voluntary nature of this court program -- which emphasizes motivating families to participate, attain stability, and eventually shed their reliance on the courts or welfare system -- is what makes it unique in the child welfare system. The program's success is based on the limited number of families it serves at any given time, frequency of court hearings, availability of specialized services, and trust that is nurtured between the families, their case managers, and service providers.

Your Committee has amended this measure by:

- (1) Changing the appropriations to unspecified amounts; and
- (2) Changing the effective date from July 1, 2017, to February 28, 2050,

to facilitate further discussion on the measure.

Your Committee notes that this measure originally appropriated a total of \$278,430 in general funds in each of fiscal years 2017-2018 and 2018-2019, as follows: \$80,930 for a program manager position; \$77,000 for a case manager position; \$7,000 for transportation costs for parents to visit children; \$35,000 for housing assistance; \$3,500 for a parent incentive program; \$21,000 for an evaluation of the program; \$18,000 for training and professional development; and \$36,000 for service contracts for visitation and parent coaching.

Your Committee respectfully requests that subsequent Committees to which this measure is referred consider whether this measure, or the Judiciary or Executive budgets, would be the more appropriate funding vehicle or vehicles for the Hawaii Zero to Three Court. Given the budgetary constraints of the State, your Committee finds that the various government entities serving children and families that participate in this court program must collaborate and share resources. They should not operate or provide services in isolation or without coordination.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 499, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 499, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, none. Excused, 3 (Inouye, Taniguchi, Wakai).

SCRep. 901 Ways and Means on S.B. No. 657

The purpose and intent of this measure is to allow motor vehicle rental lessors to pass government assessed vehicle fees on to customers in the form of vehicle license recovery fees.

Specifically, this measure:

- (1) Defines the terms "government assessed vehicle fees" and "vehicle license recovery fee";

- (2) Changes the formula used to determine a lessee's pro rata share of vehicle fees and taxes from 1/365th of the total annual cost of fees and taxes per rental day to the total cost of those fees and taxes divided by the anticipated number of annual rental days for the vehicle; and
- (3) Requires lessors to inform lessees of all vehicle license recovery fees at the time the vehicle rental reservation is made and on the written rental contract.

Your Committee received written comments in support of this measure from the Chamber of Commerce Hawaii, Enterprise Holdings, and Avis Budget Group.

Your Committee received written comments in opposition to this measure from the Office of Consumer Protection.

Your Committee finds that the rental car industry is an essential part of Hawaii's tourism industry. Your Committee further finds that rental car companies may not recover all government fees assessed upon a rental car depending on the number of active rental days, which is why, according to testimony, thirty-eight states currently permit rental car companies to fully recover fees.

Your Committee has amended this measure by:

- (1) Deleting requirements that lessors inform lessees of vehicle license recovery fees at the time the vehicle rental reservation is made and in the written rental contract;
- (2) Deleting the new definitions of the terms "government assessed vehicle fees" and "vehicle license recovery fee";
- (3) Deleting the language that created a new formula for passing on the pro rata costs of government fees and taxes;
- (4) Changing the pro rata apportionment of the annual vehicle license and registration fee and weight taxes that may be passed on to customers from 1/365th to an unspecified amount;
- (5) Requiring the motor vehicle rental industry to report to the Legislature prior to the 2019 Regular Session concerning the effect of this measure on the average vehicle license recovery fee charged to each customer on each motor vehicle rental, the profit margin of each motor vehicle rental, and the actual time in service of each motor vehicle rental;
- (6) Defining the term "vehicle license recovery fee" for the purposes of the required report to the Legislature; and
- (7) Changing the effective date to March 1, 2050, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 657, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 657, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 11. Noes, none. Excused, none.

SCRep. 902 Ways and Means on S.B. No. 423

The purpose and intent of this measure is to prohibit schools from denying a student a meal solely for failure to pay.

More specifically, this measure prohibits denying a meal solely for failure to pay:

- (1) Within the first thirty days of the first semester of a school year while the student's application for free or reduced lunch is being processed; or
- (2) Within one week after a student's meal fund account reaches a zero or negative balance.

Your Committee received written comments in support of this measure from the Department of Education, Hawaii State Teachers Association, Hawaii Appleseed Center for Law and Economic Justice, Hawaii Children's Action Network, and seventeen individuals.

Your Committee finds that forty-seven percent of public school students in Hawaii qualify for the Department of Education's free and reduced lunch program. Your Committee notes that gaps in coverage for students in the program can arise due to delays in processing applications or the financial situation of the student's family. Your Committee recognizes that chronically hungry students suffer significant hardships that can result in achievement gaps, loss of concentration, illness, increased absenteeism, behavioral problems, depression, and misdiagnosed learning disorders. Your Committee believes that this measure will ensure that students are not denied a meal solely for failure to pay due to delays in processing applications for free or reduced lunch or for temporarily low or negative meal fund account balances. This issue has been brought before the Legislature previously, and given the inconsistency in school-level policies as to how parents are informed of meal fund account balances and the point at which students are denied meals, your Committee believes statutory action is required.

Your Committee has amended this measure by:

- (1) Requiring the Department of Education to submit a report to the Legislature on the issue of students being denied a meal solely for failure to pay, which is to include:
 - (A) The number of meals that have been denied because of a zero or negative balance in a student's meal fund account;
 - (B) The number of students that have been denied a meal because of a zero or negative balance;
 - (C) The reasons for the zero or negative balance and subsequent meal denial;
 - (D) Steps the department is taking to make the process of paying for meals easier;
 - (E) Procedures for notifying parents of low or negative balances, including when and how they are notified; and

- (F) The standard operating procedure for low or negative balance notification and subsequent meal denial; and
- (2) Making technical nonsubstantive changes for the purposes of style and clarity.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 423, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 423, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 9. Noes, none. Excused, 2 (Inouye, Wakai).

SCRep. 903 Ways and Means on S.B. No. 1086

The purpose and intent of this measure is to promote a diversified economy in the State by encouraging film production.

More specifically, the measure:

- (1) Extends, for an additional five years, the enhanced incentives of the motion picture, digital media, and film production income tax credit that were enacted pursuant to Act 89, Session Laws of Hawaii 2013;
- (2) Clarifies that qualifying production costs are those costs incurred and expended within the State;
- (3) Specifies that taxpayers claiming the tax credit are required to prequalify for the credit, by registering with the Film Office of the Department of Business, Economic Development, and Tourism, and are required to obtain certification from the Film Office;
- (4) Specifies that the Department of Business, Economic Development, and Tourism reporting requirement regarding fiscal impact to the State entails reporting on those film productions receiving the tax credit;
- (5) Specifies that to qualify for the tax credit, a production must provide evidence of recognition, ability to understand, and efforts to respect and comply with cultural and environmental sensitivities in sensitive locations, including employing or contracting for the services of cultural resources or historical, cultural, or language experts to advise the production; and
- (6) Specifies that to qualify for the tax credit, a production must agree that if the production claims a credit of more than \$8,000,000, the production will provide an advanced screening of the finished product in the county of the island in which the majority of the production took place.

Your Committee received written comments in support of this measure from the Department of Business, Economic Development, and Tourism; Hawaii State AFL-CIO; SAG-AFTRA Hawaii Local; I.A.T.S.E. Local 665; American Federation of Musicians' Local 677; Hawaii Teamsters & Allied Workers Local 996; Motion Picture Association of America; and ILWU Local 142.

Your Committee received written comments on this measure from the Department of Taxation and Tax Foundation of Hawaii.

Your Committee finds that the motion picture, digital media, and film production income tax credit is an effective means of creating jobs and stimulating and diversifying the State's economy. Filming in the State also helps promote Hawaii as a visitor destination. Your Committee believes that extending this tax credit for an additional five years will provide stability and the type of predictable economic conditions and incentives that promote continued growth of the industry in the State.

Your Committee has amended this measure by:

- (1) Establishing an annual aggregate cap of \$30,000,000 on the tax credit and allowing a taxpayer to claim the credit in a subsequent year if the aggregate cap has already been reached;
- (2) Clarifying that provisions in section 2 of the measure shall apply to taxable years beginning after December 31, 2017;
- (3) Providing that failure to submit a written, sworn statement identifying details of production costs, tax credits claimed, and local hiring may constitute a waiver of the right to claim the credit;
- (4) Making technical changes for clarity; and
- (5) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure.

Your Committee finds that this measure is a work in progress, and intends to continue to give serious consideration to this issue along with other pertinent committees. Your Committee recognizes the importance of, and need for, economic diversification. However, your Committee also recognizes the need to control tax expenditures in order to preserve resources for public programs.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1086, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1086, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 8; Ayes with Reservations (Taniguchi). Noes, none. Excused, 3 (Dela Cruz, Inouye, Wakai).

SCRep. 904 Ways and Means on S.B. No. 545

The purpose and intent of this measure is to create a temporary commission to plan for the thirteenth Festival of Pacific Arts to be held in Honolulu from June 11 to June 27, 2020.

Your Committee received written comments in support of this measure from the Department of Business, Economic Development, and Tourism; Hawaii Tourism Authority; State Foundation on Culture and the Arts; the Hawaiian Affairs Caucus of the Democratic Party of Hawaii; Kalihi Palama Hawaiian Civic Club; Kamehameha Schools; and one concerned individual.

Your Committee finds that the Festival of Pacific Arts will place Hawaii in the spotlight, bringing attention to the State's creative arts economy while also providing the opportunity for cultural exchange to advance topics of global relevance. The festival will bring together delegations from approximately twenty-seven Pacific island nations for events, activities, and performances. By highlighting Hawaii's arts, culture, design, and music, the festival will help position the State as a hub of creative and cultural importance in the Pacific.

Your Committee has amended this measure by:

- (1) Including as a member of the commission a person with experience in cultural and international affairs, to be selected by the Secretariat of the Pacific Community;
- (2) Removing from the commission:
 - (A) The executive director of the PA'I Foundation; and
 - (B) The additional members who were to have been selected by the chairperson of the commission;
- (3) Providing that the commission shall select one of its members to serve as chairperson;
- (4) Removing the names of specific organizations from the provision requiring the commission to solicit funds from private and public sources;
- (5) Appropriating unspecified sums for fiscal years 2017-2018 and 2018-2019 to support the activities of the commission;
- (6) Requiring the commission to report to the Legislature on its annual activities no later than twenty days prior to the regular sessions of 2018, 2019, and 2020; and
- (7) Changing the effective date to April 20, 2041, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 545, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 545, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 10. Noes, none. Excused, 1 (Dela Cruz).

SCRep. 905 (Majority) Ways and Means on S.B. No. 221

The purpose and intent of this measure is to improve traffic safety.

More specifically, the measure:

- (1) Establishes a photo red light imaging detector systems program to improve enforcement of traffic signal laws;
- (2) Authorizes counties to implement the photo red light imaging detector systems program;
- (3) Requires fines collected by a county under the photo red light imaging detector systems program to be deposited into a general fund account;
- (4) Authorizes the expenditure of funds from the general fund account to be expended, in the county in which the fine was collected, for the establishment, operation, management, and maintenance of a photo red light imaging detector system; and
- (5) Makes an appropriation for the photo red light imaging detector systems program.

Your Committee received written comments in support of this measure from the Department of Transportation, the Honolulu Police Department, the Mayor of the County of Hawaii, and Mothers Against Drunk Driving.

Your Committee received written comments on this measure from the Judiciary.

Your Committee finds that drivers who run a red light endanger the lives of pedestrians, motorists, and the drivers themselves. Photo red light imaging detector systems have proven to be effective in identifying and deterring red light runners in other jurisdictions in the United States, in Canada, and in countries in Europe and throughout the world.

Your Committee further finds that before a photo red light imaging detector systems program is implemented in this State, a Red Light Running Committee should be established by the Department of Transportation and should include participants from county police, prosecutors, and transportation officials. The Red Light Running Committee should review this measure prior to its implementation and submit a report to the Legislature regarding potential ways to improve the measure and its implementation.

Your Committee intends that the Red Light Running Committee be in effect from the July 1 preceding the effective date of the program provisions of parts III and IV of the measure as received by your Committee. Your Committee also intends that the Red Light Running Committee submit any proposed amendments to the program provisions to the Legislature before the Regular Session of 2018 that are deemed necessary to improve the program, as well as any requests for additional resources required to implement and effectuate the program. Your Committee further intends that the Legislature consider the recommended amendments and resource requests before the effective date of the program provisions.

Your Committee has amended this measure by:

- (1) Requiring the Department of Transportation to establish a Red Light Running Committee and to invite the participation of county police, prosecutors, and transportation officials;

- (2) Requiring the Red Light Running Committee to submit a report to the Legislature including any findings and recommendations, and any proposed legislation or amendments to this measure, no later than twenty days prior to the convening of the 2018 Regular Session;
- (3) Codifying the provisions pertaining to the Photo Red Light Imaging Detector Systems Program as a new chapter in the Hawaii Revised Statutes, rather than establishing the program in a temporary law; and
- (4) Changing the effective date of the program provisions to January 1, 2041, and making the provisions establishing the Red Light Running Committee effective July 1, 2040, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 221, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 221, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 8; Ayes with Reservations (English). Noes, 1 (Riviere). Excused, 2 (Dela Cruz, Taniguchi).

SCRep. 906 Ways and Means on S.B. No. 1178

The purpose and intent of this measure is to support the He'eia estuary as a National Estuarine Research Reserve.

More specifically, this measure appropriates funds to maintain the initial staff necessary to develop and manage He'eia Reserve and its programs.

Your Committee received written comments in support of this measure from the University of Hawaii, The Nature Conservancy, Kamehameha Schools, Ko'olau-poko Hawaiian Civic Club, and twelve individuals.

Your Committee received written comments on this measure from the Department of Land and Natural Resources, Office of Planning, and the Hawaii Community Development Authority.

Your Committee finds that the State has coordinated with the National Oceanic and Atmospheric Administration to nominate the He'eia estuary as a National Estuarine Research Reserve. The He'eia estuary was nominated as a Reserve in 2014, and on January 19, 2017, the estuary was officially designated as the twenty-ninth site in the National Estuarine Research Reserve System.

Your Committee further finds that funding for initial staffing is essential in order for the He'eia Reserve to succeed in its function within the National Estuarine Research Reserve System. Your Committee notes that designation as a Reserve enables federal funding to support the implementation of the management plan. According to federal regulations, the federal government matches state appropriations on a seventy percent (federal) to thirty percent (state) basis. Your Committee therefore recognizes the importance of providing state funds to support four full-time equivalent initial staffing positions. Although the appropriation in the original version of this measure was \$400,000, your Committee's Chair has received information that the actual amount needed may be less. According to the information, the range may be \$240,800 to \$326,900. Your Committee intends to consider including an appropriation in the general appropriations act for this purpose or, conversely, to use this measure as a vehicle to support these initial staffing positions.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1178, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, none. Excused, 3 (Dela Cruz, English, Kahele).

SCRep. 907 (Majority) Ways and Means on S.B. No. 501

The purpose and intent of this measure is to amend the statutory duties imposed on limited service pregnancy centers.

Specifically, the measure requires limited service pregnancy centers to:

- (1) Provide clients or patients with notice of the availability of, and enrollment information for, reproductive health services;
- (2) Follow privacy and disclosure requirements regarding individual records and information; and
- (3) Be subject to civil penalties and civil actions for violations.

Your Committee received written comments in support of this measure from the Hawaii State Commission on the Status of Women; American Association of University Women of Hawaii; American Congress of Obstetricians and Gynecologists Hawaii Section; Hawaii Women Lawyers; Hawaii Women's Coalition; Healthy Mothers Healthy Babies Coalition of Hawaii; LBGT Caucus of the Democratic Party of Hawaii; Planned Parenthood Votes Northwest and Hawaii; and twenty-two individuals.

Your Committee received written comments in opposition to this measure from Calvary Chapel Pearl Harbor; Concerned Women for America of Hawaii; Emmanuel Lutheran Church and Schools; Hawaii Catholic Conference; Hawaii Family Forum; Malama Pregnancy Center of Maui; A Place for Women in Waipio; The Pregnancy Center; and fifty-three individuals.

Your Committee received written comments on this measure from the Department of Human Services and four individuals.

Your Committee believes that when it comes to health care, everyone should have access to comprehensive, accurate, and unbiased information in a confidential setting. Especially for women and their reproductive health, timely information is critical in making informed decisions.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 501, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, 2 (Harimoto, Riviere). Excused, 2 (Inouye, Wakai).

SCRep. 908 (Joint) Ways and Means and Judiciary and Labor on S.B. No. 1084

The purpose and intent of this measure is to address the operations of the Hawaii Tourism Authority and the appointment process of certain members of its Board of Directors.

More specifically, this measure requires:

- (1) The Governor to appoint the six members to the Hawaii Tourism Authority Board of Directors for which the Governor receives nomination lists from the President of the Senate and Speaker of the House of Representatives within ninety days of receipt of the lists;
- (2) The President of the Senate and Speaker of the House of Representatives to appoint the Hawaii Tourism Authority Board members if the Governor does not make the appointment within ninety days after receiving nomination lists;
- (3) That the minutes from an executive meeting of the Board be available to legislators upon request;
- (4) That information discussed at an executive meeting of the Board that relates to marketing plans and strategies be disclosed after execution of those plans and strategies;
- (5) The Authority to annually report summary descriptions and planned and actual expenditures of its contracts and agreements; and
- (6) The Authority to annually report a detailed budget for a two-year period.

Your Committees received written comments in support of this measure from the Office of Information Practices and the Hawaii Lodging and Tourism Association.

Your Committees received written comments on this measure from the Hawaii Tourism Authority and Kohala Coast Resort Association.

Your Committees find that the Hawaii Tourism Authority has a crucial role in supporting and maintaining the State's top industry. The Authority is best able to accomplish its role when it has a full board of directors. Accordingly, your Committees believe that steps should be taken to ensure that Board vacancies are short in length.

Additionally, your Committees find that the Legislature and others have an important role in overseeing the actions and budget of the Hawaii Tourism Authority and its Board. Your Committees believe that this measure will assist the Legislature and others in overseeing the Authority and its Board by ensuring that various Authority and Board information is accessible.

Your Committees have amended this measure by:

- (1) Requiring the Hawaii Tourism Authority Board of Directors to approve Authority expenditures of more than \$50,000;
- (2) Repealing the Authority's exemption from the State procurement code; but authorizing the Authority to adopt its own rules pursuant to chapter 91, Hawaii Revised Statutes, that would supersede procurement code rules for competitive bidding for certain contracts; and
- (3) Making statutory amendments to require, rather than authorize, the Authority to establish an advisory group and that meets monthly to advise the Authority;
- (4) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure.

Your Committees note that the substantive amendments made to this measure have been made at the request of the Chair of the Senate Standing Committee with jurisdiction over the measure's subject matter.

As affirmed by the records of votes of the members of your Committees on Ways and Means and Judiciary and Labor that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1084, S.D. 1, as amended herein, and recommend that it pass Third Reading in the form attached hereto as S.B. No. 1084, S.D. 2.

Signed by the Chairs on behalf of the Committees.

Ways and Means: Ayes, 9. Noes, none. Excused, 2 (Inouye, Wakai).

Judiciary and Labor: Ayes, 3. Noes, none. Excused, 2 (Gabbard, Kim).

SCRep. 909 Ways and Means on S.B. No. 1189

The purpose and intent of this measure is to ensure that underserved and at-risk children have access to crucial preschool education.

Specifically, this measure clarifies the definition of "underserved" or "at-risk" children as it relates to the priority given to these children for the Preschool Open Doors program.

Your Committee received written comments in support of this measure from the Executive Office on Early Learning, Kamehameha Schools, and one concerned individual.

Your Committee received written comments on this measure from the Department of Human Services, Early Childhood Action Strategy, Parents and Children Together, and Hawaii Children's Action Network.

Your Committee finds that the Preschool Open Doors program provides a way for families with low and low-moderate incomes to afford a high quality early learning setting for their children and also allows parents of the children an opportunity to work or pursue higher education or training. Your Committee further finds that access to stimulating and safe preschool or child care would not be possible for many low and low-moderate income families without the subsidies provided by this program.

Your Committee has amended this measure by:

- (1) Requiring that priority among underserved or at-risk children be given to children whose family income is at or below two hundred fifty per cent of the federal poverty level; and
- (2) Changing the effective date from upon approval to July 1, 2018.

Your Committee intends that the amendment clarifying priority among underserved or at-risk children serve as a compromise between the amendments suggested by the Department of Human Services and the Executive Office on Early Learning.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1189, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1189, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 9. Noes, none. Excused, 2 (Dela Cruz, Taniguchi).

SCRep. 910 Ways and Means on S.B. No. 850

The purpose and intent of this measure is to make the Chief Information Officer responsible for the independent verification and validation of information technology projects of the executive branch, including the University of Hawaii and the Department of Education.

Your Committee received written comments in support of this measure from the University of Hawaii.

Your Committee received written comments on this measure from the Department of Education.

Your Committee finds that technology projects often involve substantial risk and expense and thus should be subject to independent verification and validation to ensure efficient and effective functioning of public institutions and government. Your Committee believes that making the Chief Information Officer responsible for the independent verification and validation of information projects of the executive branch is a proactive approach to achieving the successful development and implementation of certain technology projects.

Your Committee also believes that imposing mandatory reporting requirements to the Legislature provides a level of accountability and transparency in these large scale information technology projects, and ensures recommendations are being implemented with fidelity.

However, your Committee notes that the University of Hawaii and Department of Education have their own information technology departments, and that overlapping oversight of technology projects may introduce significant strain on state resources and detract from the services provided by each organization. Accordingly, should a Standing Committee in the House of Representatives decide to hear this measure, your Committee respectfully requests that it consider:

- (1) Exempting University of Hawaii and Department of Education information technology projects from the independent verification and validation responsibilities of the Chief Information Officer; and
- (2) Requiring the University of Hawaii and Department of Education to submit written reports to the Legislature for any independent verification and validation conducted for their respective information technology projects.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 850 and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, 4 (Dela Cruz, Inouye, Kahele, Shimabukuro).

SCRep. 911 Ways and Means on S.B. No. 1040

The purpose and intent of this measure is to require the University of Hawaii to create a campus master plan to guide the needs and development of each University of Hawaii campus.

Your Committee received written comments in support of this measure from one individual. Your Committee received written comments on this measure from the University of Hawaii System.

Your Committee finds that the long range development plan of the University of Hawaii has not been updated since 2007. Your Committee further finds that establishing a plan with five- and ten-year timelines that addresses growth, forges strategic partnerships, improves learning and research environments, and optimizes the use of existing facilities, among other things, will help to focus the development of the University of Hawaii System.

Your Committee has amended this measure by:

- (1) Requiring the University of Hawaii System to submit a report to the Legislature, prior to the convening of the Regular Session of 2018, on the status of creating the campus master plan;
- (2) Amending the deadline for the University of Hawaii System to submit the campus master plan from sixty days prior to the convening of the Regular Session of 2018 to sixty days prior to the convening of the Regular Session of 2019; and
- (3) Making technical nonsubstantive amendments for purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1040, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1040, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 9. Noes, none. Excused, 2 (Inouye, Wakai).

SCRep. 912 Ways and Means on S.B. No. 950

The purpose and intent of this measure is to update the State's mortgage servicers law, as set forth in chapter 454M, Hawaii Revised Statutes.

More specifically, the measure:

- (1) Requires any licensee seeking to change control of the licensee to submit an application and \$500 fee to obtain approval from the Commissioner of Financial Institutions, who is required to grant approval of the change of control if certain conditions are met;
- (2) Provides that executive officers and other individuals are presumed to control a mortgage servicer;
- (3) Identifies which persons related to a mortgage servicer are subject to interviews and examination, as well as to disclosure of bankruptcy filings, lending industry violations, and criminal history; and
- (4) Deletes an obsolete provision of law that requires a mortgage servicer to possess a license under chapter 454F, Hawaii Revised Statutes, to make loan modifications.

The Department of Commerce and Consumer Affairs submitted written comments in support of this measure.

Your Committee finds that it is appropriate to require a licensee seeking to change control of a licensee to submit to an application and investigation process by the Commissioner of Financial Institutions, who would make certain determinations as to the fitness of the persons who will obtain control and evaluate the impact of the change of control on the public interest. This process, as well as the statutory presumption regarding who is in control of a mortgage servicer, will enhance consumer protection by preventing the takeover of a licensed mortgage servicer by unqualified persons. Your Committee believes that the measure will clarify the State's mortgage servicers law and enhance the Division of Financial Institutions' regulatory oversight and enforcement of the law.

Your Committee has amended this measure by inserting the term "mortgage servicer," as appropriate, into the new section 454M-(1) and (2), Hawaii Revised Statutes, to clarify who is presumed to control a mortgage servicer.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 950, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 950, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 7. Noes, none. Excused, 4 (Dela Cruz, Inouye, Kahele, Shimabukuro).

SCRep. 913 Ways and Means on S.B. No. 553

The purpose and intent of this measure is to provide funding to remote schools on a more equitable basis.

Specifically, the measure:

- (1) Requires that remote schools be allocated funds using categorical allotments, rather than through the weighted student formula;
- (2) Defines a remote school as any public school that is a high school located at least a one-hour drive away from the next nearest high school, or a high school located on the island of Lanai, Molokai, or Niihau; and
- (3) Specifies minimum numbers and types of teachers for Hana High and Elementary School.

Your Committee received written comments in support of this measure from the Hawaii State Teachers Association. Written comments in opposition were received from the Department of Education.

Your Committee has amended this measure by:

- (1) Deleting provisions that required remote schools to receive funds based only on categorical allotments, not on the weighted student formula;
- (2) Deleting provisions relating to specific staffing requirements for remote schools;
- (3) Codifying a provision authorizing supplemental categorical funding for remote schools; and
- (4) Making an appropriation for the funding of remote schools.

Your Committee notes that the provision of supplemental funds to schools on a categorical basis has occurred in the past, and that such a funding mechanism is likely to benefit schools besides Hana High and Elementary School.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 553, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 553, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 7. Noes, none. Excused, 4 (Dela Cruz, Inouye, Kahele, Shimabukuro).

SCRep. 914 Ways and Means on S.B. No. 1162

The purpose and intent of this measure is to provide financial assistance to qualified students enrolled at any University of Hawaii campus for their unmet direct cost needs.

More specifically, this measure:

- (1) Establishes the Hawaii promise program to provide scholarships to those students;
- (2) Establishes the Hawaii promise program special fund to provide financial assistance to students who qualify for the Hawaii promise program; and
- (3) Appropriates \$13,587,000 for the establishment and implementation of the Hawaii promise program.

The University of Hawaii; Faculty Senate, Leeward Community College; Philippine Studies Program, Leeward Community College; Associated Students of the University of Hawaii West Oahu; Filipino American Citizens League; Hawaii Filipino Lawyers Association; Hawaii Pacific Health; Kamehameha Schools; KASAMA, Leeward Community College; National Federation of Filipino American Associations Region 12; Nursing Advocates and Mentors, Inc.; and fifty-four individuals submitted written comments in support of this measure.

Your Committee received written comments on this measure from seven individuals.

Your Committee finds that an educated labor force and engaged citizenry are essential in today's global, knowledge-based economy. Your Committee finds that the University of Hawaii graduation initiative has a goal of growing and strengthening the educational capital of the State by increasing the number of students who are Native Hawaiians, have low incomes, or represent other underserved regions or populations. Your Committee also finds that Hawaii has a "55 by '25 goal," which aspires to increase the percentage of working-age adults with two- or four-year degrees to fifty-five percent by 2025. Your Committee believes that this measure will encourage more students to attend a University of Hawaii campus and, therefore, will help the State meet its 55 by '25 goal.

Your Committee has amended this measure by:

- (1) Specifying that a student enrolled at a University of Hawaii campus shall be eligible for scholarship consideration for a maximum of eight semesters;
- (2) Replacing the use of the acronym "FAFSA" with the complete term, "Free Application for Federal Student Aid," to facilitate clarity;
- (3) Clarifying that a student enrolled at a community college campus, to be eligible for scholarship consideration, shall be enrolled in a classified degree or certificate program, among other requirements;
- (4) Clarifying a reference to the Higher Education Act of 1965, as amended, by citing the full name of the Act;
- (5) Inserting language that clarifies that students enrolled at community college campuses are required to meet different scholarship requirements than students enrolled in non-community college campuses within the University of Hawaii system;
- (6) Clarifying how scholarships are awarded;
- (7) Inserting an internal cross reference to clarify that a student who fails to comply with enumerated academic requirements shall be placed on scholarship probation;
- (8) Inserting language to clarify that if a student is returned to good standing after a period of probation, but subsequently fails to comply with the academic requirements at any time within an eight-semester period, after the return to good standing, the student's scholarship shall be revoked;
- (9) Clarifying the definition of "direct cost";
- (10) Deleting the appropriated amounts and leaving them unspecified;
- (11) Creating two appropriation sections that appropriate moneys from the Hawaii promise program special fund to separately fund scholarships at four-year campuses and community colleges;
- (12) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (13) Making technical nonsubstantive amendments for clarity, consistency, and style.

Your Committee is considering appropriating \$13,587,000 for the Hawaii promise program, which would be allocated among the campuses of the University of Hawaii as follows:

- (1) \$9,387,000 to the University of Hawaii at Manoa;
- (2) \$1,279,000 to the University of Hawaii at Hilo;
- (3) \$1,092,000 to the University of Hawaii-West Oahu; and
- (4) \$1,829,000 to the community colleges.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1162, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1162, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 9. Noes, none. Excused, 2 (Inouye, Wakai).

SCRep. 915 Ways and Means on S.B. No. 469

The purpose and intent of this measure is to appropriate funds for the operating costs of the Judiciary for fiscal biennium 2017-2019.

Your Committee received written comments in support of this measure from the Judiciary; Hawaii State Bar Association; Legal Aid Society of Hawaii; Volunteer Legal Services Hawaii; Americans For Democratic Action Hawaii; Mothers Against Drunk Driving Hawaii; Hawaii Disability Legal Services, L.L.C.; Surfriider Spirit Sessions; The National Crittenton Foundation; Pahoia High and Intermediate School; Hawai'i Society of Addiction Medicine; and ten individuals.

Your Committee received written comments in opposition to this measure from the Kaua'i Bar Association.

Your Committee received comments on this measure from the Hawaii County Bar Association, West Hawaii Bar Association, Domestic Violence Action Center, and one individual.

OPERATING BUDGET

Your Committee notes that the Judiciary had requested an increase of \$7,099,958 for fiscal year 2017-2018 and \$8,032,722 for fiscal year 2018-2019 in general funds. Your Committee has approved an increase of \$5,764,715 for fiscal year 2017-2018 and \$5,985,874 for fiscal year 2018-2019 in general funds for the Judiciary's operating budget.

With the adjustments contained in this measure, the total general fund appropriation for the Judiciary is \$163,947,440 for fiscal year 2017-2018 and \$164,168,599 for fiscal year 2018-2019.

Judges' Salary Differential

Your Committee recognizes that justices and judges are due salary increases pursuant to the 2013 Commission on Salaries report. Therefore, your Committee approves the number one funding priority for the Judiciary by providing \$361,196 in fiscal year 2017-2018 and \$729,216 in fiscal year 2018-2019 in general funds for salary increases for justices, judges, the administrative director and the deputy administrative director.

Judgeship

Your Committee approves \$178,000 in fiscal year 2017-2018 and \$316,000 in fiscal year 2018-2019 in general funds to establish one judgeship at the discretion of the Chief Justice pursuant to the proviso in section 7 of the measure.

Your Committee believes that the Chief Justice should identify the judgeship that is of highest priority and represents the greatest need so as to warrant the establishment of an additional court.

Civil Legal Services

Your Committee approves \$750,000 in general funds in each fiscal year for purchase of service contracts for civil legal services.

Your Committee reaffirms its support for funding legal services through purchase of service contracts instead of grants. This approach was implemented under Act 138, Session Laws of Hawaii 2015, in order to create competition among indigent legal service providers and to give the Judiciary more discretion in procuring these services.

Hawaii Zero To Three

Your Committee recognizes the importance of providing services that focus on the well-being of infants and toddlers who have been removed from parental custody.

Your Committee approves 1.00 permanent social worker position and \$27,116 in fiscal year 2017-2018 and \$50,772 in fiscal year 2018-2019 in general funds for the Hawaii Zero To Three Program.

To generate savings from the base budget to fund this increase, your Committee has eliminated 2.00 vacant temporary positions that were among the lowest in priority of the Judiciary and reduced \$56,640 in personal services appropriations for them.

Mental Health Court

With respect to the Mental Health Court, your Committee concurs with the Judiciary's overall goals of bringing stability to partnerships with other relevant agencies, increasing client referrals and the population served, reducing recidivism, and increasing public safety. Efforts to attain these goals require additional staff and support for supervision of felony offenders who suffer from serious mental illness.

Therefore, your Committee approves 2.00 permanent positions and \$58,932 in fiscal year 2017-2018 and \$101,544 in fiscal year 2018-2019 in general funds for the Mental Health Court.

CAPITAL BUDGET

Your Committee finds that Ka'ahumanu Hale, Oahu is in need of critical improvements to both its fire alarm and elevator systems, and thus provides \$9,300,000 in fiscal year 2017-2018 and \$6,300,000 in fiscal year 2018-2019 in general obligation bond funds for system upgrades and modernization at Ka'ahumanu Hale, Oahu.

Your Committee also approves \$3,000,000 in each fiscal year in general obligation bond funds for alterations, upgrades and improvements to judiciary facilities statewide.

Your Committee recognizes a need for enhanced security at Hoapili Hale, Maui. Therefore, your Committee provides \$1,000,000 in fiscal year 2017-2018 and \$1,600,000 in fiscal year 2018-2019 in general obligation bond funds for security improvements at Hoapili Hale, Maui.

Your Committee finds that the Kaua'i Judiciary Complex in need of roof work and therefore appropriates \$1,390,000 in fiscal year 2017-2018 and \$1,100,000 in fiscal year 2018-2019 in general obligation bond funds to reroof and repair leaks at the Kaua'i Judiciary Complex, Kaua'i.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 469, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 469, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 10. Noes, none. Excused, 1 (Dela Cruz).

SCRep. 916 Government Operations on Gov. Msg. No. 502

Recommending that the Senate advise and consent to the nomination of the following:

DIRECTOR OF THE DEPARTMENT OF ACCOUNTING AND GENERAL SERVICES

G.M. No. 502 RODERICK BECKER, for a term to expire 12-03-2018

Your Committee has reviewed the personal history, resume, and statement submitted by the nominee and finds Roderick Becker to possess the requisite qualifications to be nominated as Comptroller to lead the Department of Accounting and General Services.

Your Committee received testimony in support of the nomination of Roderick Becker from Governor David Y. Ige; Department of Budget and Finance; Department of Health; Department of Labor and Industrial Relations; Department of Business, Economic Development, and Tourism; Department of Land and Natural Resources; Department of Taxation; Department of Public Safety; Department of Commerce and Consumer Affairs; Department of Transportation; Department of Human Resources Development; State Procurement Office; Office of Enterprise Technology Services; and eighteen individuals.

Prior to beginning work as Comptroller in November 2016, Roderick Becker was Deputy Director at the Department of Budget and Finance. Mr. Becker's previous work experience includes a long tenure as Budget Chief of the Hawaii State Senate's Committee on Ways and Means from December 2008 to November 2014, Budget Analyst for the Honolulu City Council from August 2005 to December 2008, Capital Improvement Program Specialist at the Hawaii State Senate from January 2001 to August 2005, and Program Budget Analyst at the Hawaii State Senate from December 1999 to May 2000. Mr. Becker earned a Bachelor of Arts in Economics and Political Science from the University of Hawaii at Manoa. Mr. Becker is also a Certified Public Finance Officer through the Government Finance Officers Association.

Your Committee believes that the nominee possesses the requisite financial and budget knowledge to qualify to serve as Comptroller and lead the Department of Accounting and General Services. Mr. Becker has demonstrated his commitment to public service through his consistent and distinguished public service at local and state levels of government, taking on additional responsibilities and leadership roles as he progressed in his career. His variety and depth of experience in all aspects of budgeting, financial and program management, and government administration and systems will provide a solid foundation to succeed in the position of Comptroller. Testifiers commented that the nominee has a keen understanding of the budgetary process and government operations, making him an ideal leader of the department responsible for managing and supervising a wide range of state programs and activities. Other testimony emphasized Mr. Becker's exemplary record of public service; his commitment to improving how state government functions, while taking particular note of taxpayers' best interests; his deliberative and methodical approach to government accounting and finance; and his professionalism and invaluable insight and guidance as a colleague.

Your Committee notes from the nominee's personal statement and testimony before the Committee that reducing risk to the State and improving client services are his top goals. Mr. Becker views the modernization of the state payroll system and the improvement of delivery of capital projects for user agencies as two opportunities for fulfilling these goals. He acknowledges the many highly qualified and dedicated employees of the Department of Accounting and General Services and intends to guide and support their ongoing efforts, while recognizing that the Department needs to update and modernize its processes and training to utilize the most current technologies and best practices. Mr. Becker additionally appreciates the broad scope of the Department and believes his background is well-suited to manage the multitude of agency and operational issues the he may encounter as Comptroller at any given time. Mr. Becker identifies the overall goal of the Department is to strive for quality and consistency in the delivery of essential support services to other state departments and agencies in a cost-effective, productive, relevant, and timely manner. Under his guidance, the Department will endeavor to improve metrics that are relevant to this goal.

As affirmed by the record of votes of the members of your Committee on Government Operations that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Ruderman, Tokuda).

SCRep. 917 Water and Land on S.C.R. No. 41

The purpose and intent of this measure is to authorize the issuance of a term, non-exclusive easement for the portion of state submerged lands fronting the property identified as tax map key: (2) 3-9-11:7, seaward of lot 7, Waiohuli-Keokea Homesteads and Beach Lots, Waiohuli-Keokea (Kihei) Wailuku, Maui, Hawaii, for the maintenance and repair of the existing seawall constructed thereon, pursuant to section 171-53, Hawaii Revised Statutes.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources. Your Committee received testimony in opposition to this measure from one individual.

Your Committee finds that, pursuant to section 171-53, Hawaii Revised Statutes, the Board of Land and Natural Resources may lease submerged lands with the prior approval of the Governor and the prior authorization of the Legislature by concurrent resolution.

Your Committee further finds that on April 22, 2016, the Board of Land and Natural Resources approved a grant of a sixty-five-year non-exclusive easement, commencing on August 10, 1990, to:

- (1) Finalize a prior approved easement to resolve the encroachment of the seawall identified in this measure that was never formally executed, subject to certain conditions;
- (2) Update the applicant of the easement to reflect the current owner; and
- (3) Reduce the term of the easement from perpetual to sixty-five years.

Your Committee concludes that the easement is necessary for the repair and maintenance of the existing seawall.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 41 and recommends that it be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Gabbard, Thielen).

SCRep. 918 Water and Land on S.C.R. No. 42

The purpose and intent of this measure is to authorize the issuance of a term, non-exclusive easement for the portion of state submerged lands fronting the property identified as tax map key number: (1) 4-4-018: seaward of 072, Kaneohe, Koolaupoko, Oahu, for the maintenance and repair of the existing seawall, boat ramp, and pier, and for use, repair, and maintenance of the existing improvements constructed thereon, pursuant to section 171-53, Hawaii Revised Statutes.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources. Your Committee received testimony in opposition to this measure from one individual.

Your Committee finds that, pursuant to section 171-53, Hawaii Revised Statutes, the Board of Land and Natural Resources may lease submerged lands with the prior approval of the Governor and the prior authorization of the Legislature by concurrent resolution. Your Committee further finds that on April 24, 2015, under agenda item D-15, the Board of Land and Natural Resources approved a grant of a fifty-five-year non-exclusive easement to resolve the encroachment of portions of the seawall, boat ramp, and pier identified in this measure. Your Committee notes that the fair market value of the easement is \$36,000 as determined by an independent appraisal, and that the current property owner has remitted payment to the State. Your Committee concludes that the easement is necessary for the maintenance and repair of the existing seawall, boat ramp, and pier, and for use, repair, and maintenance of the existing improvements constructed thereon.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 42 and recommends that it be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Gabbard, Thielen).

SCRep. 919 Water and Land on S.C.R. No. 43

The purpose and intent of this measure is to authorize the issuance of a term, non-exclusive easement for the portion of state submerged lands identified as tax map key: (1) 4-5-058:121, Kaneohe, Koolaupoko, Oahu, for the maintenance and repair of the existing pier, and for the use, repair, and maintenance of the existing improvements constructed thereon, pursuant to section 171-53, Hawaii Revised Statutes.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources. Your Committee received testimony in opposition to this measure from one individual.

Your Committee finds that, pursuant to section 171-53, Hawaii Revised Statutes, the Board of Land and Natural Resources may lease submerged lands with the prior approval of the Governor and the prior authorization of the Legislature by concurrent resolution. Your Committee further finds that on December 9, 2016, under agenda item D-20, the Board of Land and Natural Resources approved a grant of a fifty-five-year non-exclusive easement to resolve the encroachment of the pier identified in this measure, subject to the easement grantee paying the State the fair market value of the easement, to be determined by an independent appraisal. Your Committee notes that the current owner worked with the Department of Land and Natural Resources to convert the existing month-to-month revocable permit to a long-term easement pursuant to Department policy, established after extensive review of revocable permits, to convert revocable permits to long-term easements when appropriate to minimize the number of permits. Your Committee concludes that the easement is necessary for the maintenance and repair of the existing pier, and for the use, repair, and maintenance of the existing improvements constructed thereon.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 43 and recommends that it be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Gabbard, Thielen).

SCRep. 920 Water and Land on S.C.R. No. 46

The purpose and intent of this measure is to authorize the issuance of a term, non-exclusive easement for the portion of state submerged lands identified as tax map key: (1) 4-1-001:seaward of 011, Waimanalo, Koolaupoko, Oahu, for the maintenance and

repair of the existing pier, and for use, repair, and maintenance of the existing improvements constructed thereon, pursuant to section 171-53, Hawaii Revised Statutes.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources. Your Committee received testimony in opposition to this measure from one individual.

Your Committee finds that, pursuant to section 171-53, Hawaii Revised Statutes, the Board of Land and Natural Resources may lease submerged lands with the prior approval of the Governor and the prior authorization of the Legislature by concurrent resolution. Your Committee further finds that on January 13, 2017, under agenda item D-14, the Board of Land and Natural Resources approved a grant of a fifty-five-year non-exclusive easement to resolve the encroachment of the pier identified in this measure, subject to the easement grantee paying the State the fair market value of the easement as determined by an independent appraisal. Your Committee concludes that the easement is necessary for the maintenance and repair of the existing pier and for use, repair, and maintenance of the existing improvements constructed thereon.

Your Committee has amended this measure by making a technical, nonsubstantive amendment to the title for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 46, as amended herein, and recommends that it be referred to your Committee on Ways and Means, in the form attached hereto as S.C.R. No. 46, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Gabbard, Thielen).

SCRep. 921 Water and Land on S.C.R. No. 47

The purpose and intent of this measure is to authorize the amendment of a term, non-exclusive easement for the portion of state submerged lands fronting the property identified as tax map key number: (1) 4-3-005: seaward of 094, Kailua, Koolauloko, Oahu, for the maintenance and repair of the existing seawall and boat ramp, and for the use, repair, and maintenance of the existing improvements constructed thereon pursuant to section 171-53, Hawaii Revised Statutes.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources. Your Committee received testimony in opposition to this measure from one individual.

Your Committee finds that, pursuant to section 171-53, Hawaii Revised Statutes, the Board of Land and Natural Resources may lease state submerged lands with the prior approval of the Governor and the prior authorization of the Legislature by concurrent resolution. Your Committee further finds that on June 4, 2004, under agenda item D-6, the Board of Land and Natural Resources approved a grant of a fifty-five-year non-exclusive easement to resolve the encroachments of the seawall and boat ramp identified in this measure. Since the issuance of the easement, a subsequent survey has shown the shoreline boundary to be further mauka, which resulted in an additional encroachment area of 328 square feet. On May 27, 2016, under agenda item D-13, the Board of Land and Natural Resources authorized the amendment of the easement by incorporating the additional encroachment area subject to an additional payment of \$33,584, based on the pro-rated value of the easement. Your Committee concludes that the amendment to the easement is necessary for the maintenance and repair of the existing seawall and boat ramp, and for the use, repair, and maintenance of the existing improvements constructed thereon.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 47 and recommends that it be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Gabbard, Thielen).

SCRep. 922 Water and Land on S.C.R. No. 30

The purpose and intent of this measure is to review and approve a land exchange between the State and Parker Land Trust previously approved by the Board of Land and Natural Resources.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources and Parker Ranch. Your Committee received testimony in opposition to this measure from one individual. Your Committee received comments on this measure from the Office of Hawaiian Affairs.

The proposed land exchange between the State and Parker Land Trust, formerly Parker Ranch Land Trust, was approved by the Board of Land and Natural Resources (Board), under agenda item D-5, on August 8, 2003. Pursuant to section 171-50, Hawaii Revised Statutes (HRS), in effect at the time, Senate Concurrent Resolution No. 5 (S.C.R. No. 5) was adopted by the Twenty-second Legislature during the Regular Session of 2004. Despite the requisite approval by the Board and subsequent adoption of S.C.R. No. 5, the land exchange was never effectuated. Parker Land Trust now wishes to finalize the land exchange identified in this measure and previously approved by the Board; however, section 171-50, HRS, has been amended three times since the adoption of S.C.R. No. 5, and S.C.R. No. 5 does not satisfy the current requirements of section 171-50, HRS.

The proposed land exchange conveys a 0.780-acre parcel owned by the State, set aside to the Department of Education by Executive Order 3454, in exchange for a 5.445-acre parcel owned by Parker Land Trust. Your Committee finds that the public will benefit from the proposed exchange; the exchange will allow Parker Land Trust to realign the Lindsey Road extension, resulting in improved design and function, and will provide a greater size parcel to the State to be set aside for the Department of Education for future expansion at the Waimea Elementary and Intermediate School campus. Your Committee finds this measure satisfies the requirements of section 171-50, HRS, and your Committee notes this measure was transmitted to the Office of Hawaiian Affairs pursuant to section 171-50, HRS, and the Office of Hawaiian Affairs does not oppose the land exchange.

Your Committee has amended this measure by:

- (1) Clarifying that a copy of the draft resolution was transmitted to the Office of Hawaiian Affairs on September 23, 2016, and the Office of Hawaiian Affairs does not oppose the land exchange;
- (2) Amending its title to more accurately reflect what it aims to accomplish once adopted; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 30, as amended herein, and recommends that it be referred to your Committee on Ways and Means, in the form attached hereto as S.C.R. No. 30, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Gabbard, Thielen).

SCRep. 923 Agriculture and Environment on H.B. No. 186

The purpose and intent of this measure is to extend the sunset date of the pesticide subsidy program for two years and limit the amount of subsidies that each coffee grower can receive over a three year period.

Your Committee received testimony in support of this measure from the Department of Agriculture, Office of the Mayor of the County of Hawaii, Big Island Invasive Species Committee, Hawai'i Farm Bureau, ILWU Local 142, Hawaii Coffee Company, and nine individuals.

Your Committee finds that Act 105, Session Laws of Hawaii 2014, as amended by Act 152, Session laws of Hawaii 2015, established a pesticide subsidy program within the Department of Agriculture effective from July 1, 2014, through June 30, 2019, with the purpose of providing subsidies to coffee farmers for the purchase of pesticides containing the fungus *Beauveria bassiana* to control infestation of the coffee berry borer. Although Act 105 appropriated funds, the Act took longer than anticipated to be implemented, and the appropriated funds only became available at the end of 2016, more than two years after the effective date of the program. This measure extends the sunset date of the pesticide subsidy program by two years to ensure it can be fully implemented within the time span originally envisioned in Act 105.

Your Committee has amended this measure by:

- (1) Appropriating general revenues directly to the Department of Agriculture for the pesticide subsidy program established under Act 105, Session Laws of Hawaii 2014, as amended, instead of appropriating funds into and out of the pesticide use revolving fund; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 186, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 186, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 924 Agriculture and Environment on H.B. No. 481

The purpose and intent of this measure is to:

- (1) Require the Department of Agriculture to:
 - (A) Establish a pilot pesticide treatment coupon project within the Department of Agriculture's existing little fire ant program;
 - (B) Create a little fire ant site map; and
 - (C) Report to the Legislature on its progress in implementing the pilot pesticide treatment coupon project and little fire ant site map; and
- (2) Appropriate funds for the pilot pesticide treatment coupon project and little fire ant site map.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources, Office of the Mayor of the County of Hawaii, Conservation Council for Hawai'i, Hawai'i Farm Bureau, Little Fire Ant HUI, Hawaii Island School Garden Network, Hawaii Pest Control Association, Environmental Caucus of the Democratic Party of Hawaii, Big Island Invasive Species Committee, Sierra Club of Hawaii, and four individuals. Your Committee received comments on this measure from the Department of Agriculture and University of Hawaii System.

Your Committee finds that the little fire ant, *Wasmannia auropunctata*, threatens native biodiversity, alters tropical ecosystems, impairs human health, impedes tourism, diminishes agricultural productivity, mars horticulture sales, and accordingly ranks among the world's worst invasive species. The County of Hawaii has been affected most by the little fire ant. The University of Hawaii, the County of Hawaii, and the Department of Agriculture must collaborate to develop and implement effective measures to address the impacts of the little fire ant in the County of Hawaii. Your Committee therefore finds that the Department of Agriculture needs resources to be more proactive and aggressive in implementing efforts to eradicate the little fire ant.

Your Committee has amended this measure by:

- (1) As recommended by the Department of Agriculture:
 - (A) Deleting references to the current little fire ant program within the Department of Agriculture, because a current program does not exist within the Department; and
 - (B) Deleting the requirement that the Department of Agriculture create a little fire ant site map, because the Hawai'i Ant Lab is currently working on such a map; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 481, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 481, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 925 Agriculture and Environment on H.B. No. 891

The purpose and intent of this measure is to require the Governor and Department of Agriculture to develop a strategic plan outlining benchmarks to achieve the Governor's goal of doubling food production by 2020 and increasing food-related exports from Hawaii.

Your Committee received testimony in support of this measure from the Department of Agriculture; Hawai'i Farm Bureau; Hawaii Cattlemen's Council, Inc.; Sierra Club of Hawai'i; Ulupono Initiative; and one individual.

Your Committee finds that Governor Ige recently set the policy goal of doubling food production by 2020; however, details on how to achieve this objective have yet to be identified. Factors including preservation of agricultural land, identification of food crops for local production, irrigation and agricultural infrastructure improvements, and compliance with the federal Food Safety Modernization Act need immediate attention in order for the goal of doubling food production by 2020 to be a realistic objective.

Your Committee has amended this measure by:

- (1) Specifying that the Department of Agriculture shall submit the strategic plan, rather than a report, to the Legislature; and
- (2) Making it effective upon its approval.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 891, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 891, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 926 Agriculture and Environment on H.B. No. 1325

The purpose and intent of this measure is to:

- (1) Reaffirm the Legislature's finding that the implementation of the Department of Agriculture's biosecurity program is vital to the State;
- (2) Require the Department of Agriculture to establish parameters and construction requirements for biosecurity facilities; and
- (3) Appropriate funds to enable the Department of Agriculture to complete the implementation of the biosecurity program to include import replacement and pest management programs.

Your Committee received testimony in support of this measure from the Department of Agriculture; Department of Land and Natural Resources; Hawai'i Farm Bureau; Friends of Clift Tsuji; Hawaii Floriculture and Nursery Association; Maui County Farm Bureau; Local Food Coalition; Hawaii Cattlemen's Council, Inc.; Hawaii Crop Improvement Association; Conservation Council for Hawai'i; four individuals; and a petition signed by numerous individuals.

Your Committee finds that despite the State's ongoing efforts to detect and eradicate invasive species, Hawaii's fragile island ecosystems are constantly at risk from insects, disease-bearing organisms, snakes, weeds, and other invasive pests. Your Committee further finds that the Department of Agriculture has created a biosecurity program to fight invasive species on several fronts by:

- (1) Administering pre-entry measures to minimize the risk of invasive species entering the State;
- (2) Conducting port-of-entry inspections to detect and quarantine or destroy pests upon arrival; and
- (3) Administering post-entry measures to mitigate the establishment of invasive species within the State.

Your Committee finds that the State must encourage continued efforts to fight invasive species. Your Committee also finds that the late Representative Clift Tsuji was dedicated to supporting Hawaii agriculture and the eradication of invasive species, and your Committee is pleased to pass this measure in his honor.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1325, H.D. 1, and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 927 Agriculture and Environment on H.B. No. 1339

The purpose and intent of this measure is to restructure the Hawaii Invasive Species Council into a new entity, the Hawaii Invasive Species Authority, to be administratively attached to the Department of Agriculture.

Your Committee received testimony in support of this measure from the Department of Agriculture; Department of Land and Natural Resources; Department of Transportation; University of Hawaii System; Office of the Mayor of the County of Hawaii; Hawai'i Farm Bureau; Local Food Coalition; Hawaii Cattlemen's Council, Inc.; The Nature Conservancy; Environmental Caucus of the Democratic Party of Hawai'i; Conservation Council for Hawai'i; Land Use Research Foundation; and three individuals. Your Committee received testimony in opposition to this measure from For Forgotten Felines and four individuals. Your Committee received comments on this measure from the Department of the Attorney General and Matson, Inc.

Your Committee finds that the invasion of Hawaii by insects, disease-bearing organisms, snakes, weeds, and other pests is the single greatest threat to Hawaii's economy and natural environment and to the health and lifestyle of Hawaii's people. In 2003, the Legislature created the Hawaii Invasive Species Council, an interagency board mandated to provide policy-level direction and coordination on invasive species issues, co-chaired by the Chairpersons of the Board of Land and Natural Resources and the Board of Agriculture. The authorizing legislation for the council did not create staff positions or a revenue source. Your Committee further finds that despite many successes, mitigation of invasive species threats and impacts often remains fragmented between agencies and is insufficiently supported through interagency data collection and management, public pest reporting, interagency response coordination, and statewide public outreach. Establishing the Hawaii Invasive Species Authority as an attached agency of the Department of Agriculture and enhancing the State's invasive species prevention, early detection, rapid response, control, enforcement, and outreach programs will help protect the environment, human health, culture, and the economy.

Your Committee has amended this measure by:

- (1) As recommended by the Department of the Attorney General:
 - (A) Clarifying that "department" means any governmental entity whose representative or designee is a member of the authority;
 - (B) Specifying that the Authority will adopt a list of invasive species by rule; and
 - (C) Deleting section 3, because the proposed amendments are unnecessary;
- (2) Requiring the Hawaii Harbor Users Group and Airlines Committee of Hawaii, Inc., to be asked to participate as non-voting members of the Authority in discussions regarding harbors and airports, respectively;
- (3) Making it effective on July 1, 2017; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1339, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1339, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 928 Agriculture and Environment on H.B. No. 1544

The purpose and intent of this measure is to add the increase of the production of food intended for human consumption that is produced and sold in the State to the statutorily mandated general duties of the Department of Agriculture.

Your Committee received testimony in support of this measure from one individual. Your Committee received comments on this measure from the Department of Agriculture and Hawai'i Farm Bureau.

Your Committee finds that increased local food production is a top priority of the State to achieve the state goal of sustainability. Your Committee supports all efforts that encourage increased local food production in the State.

Your Committee has amended this measure by making it effective upon its approval.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1544, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1544, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 929 Commerce, Consumer Protection, and Health on H.B. No. 1081

The purpose and intent of this measure is to:

- (1) Authorize the issuance of a citation for specific violations of beauty culture laws by licensees and permittees;

- (2) Set forth a process for licensees and permittees to contest the citation and provide for the assessment of fines for each violation; and
- (3) Establish requirements for persons selling or demonstrating beauty products or techniques for promotional purposes to adhere to licensing requirements, with certain exceptions.

Your Committee received testimony in support of this measure from the Airport Concessionaries Committee. Your Committee received testimony in opposition to this measure from the Retail Merchants of Hawaii. Your Committee received comments on this measure from the Regulated Industries Complaints Office of the Department of Commerce and Consumer Affairs and Board of Barbering and Cosmetology.

Your Committee finds that this measure authorizes the Regulated Industries Complaints Office to issue citations to beauty culture licensees and permittees for specific violations of the beauty culture laws. This measure also requires a cosmetology license for persons who sell or demonstrate beauty products or techniques for promotional purposes, unless the person is not compensated and obtains written consent to provide the service from the person receiving the service. However, your Committee has heard testimony that the Hawaii Administrative Rules specifically exempt manufacturer's representatives or sales persons who sell beauty products or techniques for propositional purposes without compensation. Accordingly, there are concerns that this measure requires licensure for conduct that is not traditionally covered under Hawaii law. Your Committee has also heard concerns that the cosmetology licensing requirements proposed by this measure may have far-reaching unintended consequences for employees of retailers throughout the State.

Your Committee notes that the companion to this measure, S.B. No. 947, S.D. 2 (Regular Session of 2017), which was previously passed by the Senate, is a substantially similar measure that also authorizes the Regulated Industries Complaints Office to issue citations to beauty culture licensees and permittees for specific violations of the beauty culture laws. Your Committee concludes that the language in S.B. No. 947, S.D. 2, is preferable because it does not contain language that requires a cosmetology license for persons who sell or demonstrate beauty products or techniques for promotional purposes. Your Committee further finds that the language in S.B. No. 947, S.D. 2, expedites the Regulated Industries Complaints Office's enforcement of certain technical violations of the beauty culture laws, promotes swift compliance by licensees and permittees, and enables Regulated Industries Complaints Office staff to concentrate their efforts and resources on other violations.

Accordingly, your Committee has amended this measure by deleting its contents and inserting the contents of S.B. No. 947, S.D. 2, a substantially similar measure, which:

- (1) Authorizes the issuance of a citation for specific violations of beauty culture laws by licensees and permittees;
- (2) Sets forth a process for licensees and permittees to contest the citation and provides for the assessment of fines for each violation; and
- (3) Inserts an effective date of July 1, 2017.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1081, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1081, H.D. 2, S.D. 1, and be referred to your Committees on Judiciary and Labor and Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 7. Noes, none. Excused, none.

SCRep. 930 Commerce, Consumer Protection, and Health on H.B. No. 1027

The purpose and intent of this measure is to amend the nonprofit corporations law to:

- (1) Restore procedures that allow nonprofit corporations to convert into and out of domestic nonprofit corporations;
- (2) Impose a duty of loyalty on directors and officers of nonprofit corporations; and
- (3) Increase the length of time the Attorney General has to review proposed dissolutions of public benefit corporations.

Your Committee received testimony in support of this measure from the Department of the Attorney General, Aloha Society of Association Executives, Association of Fundraising Professionals – Aloha Chapter, Hawai'i Alliance of Nonprofit Organizations, and three individuals.

Your Committee finds that Act 37, Session Laws of Hawaii 2012 (Act 37), repealed a provision in the Hawaii Revised Statutes that allowed a domestic nonprofit corporation to convert to a foreign corporation or any other business entity. In hindsight, Act 37 went too far, as it effectively prevented domestic nonprofit corporations from converting to foreign nonprofit corporations. This measure restores the provision that allows nonprofit corporations to convert into and out of domestic nonprofit corporations, establishes the procedure for conversion, and specifies the effects of a conversion.

Your Committee further finds that although directors of nonprofit corporations have a duty of loyalty at common law, existing statute does not expressly recognize such a duty of loyalty. Accordingly, this measure establishes a duty of loyalty for directors and officers of nonprofit corporations.

Your Committee has amended this measure by:

- (1) Inserting an effective date of upon approval; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1027, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1027, H.D. 1, S.D. 1, and be referred to your Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.
Ayes, 7. Noes, none. Excused, none.

SCRep. 931 Agriculture and Environment on H.B. No. 605

The purpose and intent of this measure is to prohibit the installation or use of household aerobic units that discharge directly to groundwater, unless the Director of Health approves that the units meet National Sanitation Foundation/American National Standards Institute (NSF/ANSI) Standard 245 certification for class I aerobic units.

Your Committee received testimony in support of this measure from the Department of Health, Office of Hawaiian Affairs, and one individual.

Your Committee finds that improved wastewater treatment is one of the most effective ways to reduce nitrogen pollution in surface water. Current law requires household aerobic units to meet NSF/ANSI Standard 40 certification, which does not address nitrogen reduction in the treated effluent. NSF/ANSI Standard 245 includes performance measures that reduce the amount of nitrogen discharged into surface waters by at least fifty percent in some watersheds. Your Committee further finds that requiring household aerobic units to meet NSF/ANSI Standard 245 certification could help meet the growing demand for nutrient reduction in coastal areas and sensitive environments.

Your Committee has amended this measure by making it effective upon its approval.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 605, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 605, H.D. 1, S.D. 1, and be referred to your Committees on Commerce, Consumer Protection, and Health and Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 932 Commerce, Consumer Protection, and Health on H.B. No. 235

The purpose and intent of this measure is to:

- (1) Increase the authorized benefit for acupuncture treatments allowed under personal injury protection benefits provided through motor vehicle insurance; and
- (2) Cap the total benefit amount for acupuncture, chiropractic, and naturopathic treatments.

Your Committee received testimony in support of this measure from AcuPlan Hawaii, Hawaii Oriental Medicine and Acupuncture Association, Institute of Clinical Acupuncture and Oriental Medicine, and eleven individuals. Your Committee received testimony in opposition to this measure from the Department of Commerce and Consumer Affairs, State Farm Mutual Automobile Insurance Company, and Hawaii Association for Justice. Your Committee received comments on this measure from one individual.

Your Committee finds that the reimbursement rate for licensed acupuncturists has not increased in almost twenty years. Your Committee further finds that this freeze has resulted in a reimbursement rate that has not kept up with inflation or the increased costs of providing care.

Although your Committee has heard the concerns that this measure would affect underlying costs in certain areas of motor vehicle insurance, your Committee does not believe that enabling licensed acupuncturists to be appropriately compensated, like other health care providers, will be a significant cost-driver for motor vehicle insurance rates in Hawaii. Your Committee finds that tying acupuncture benefits to the charges permissible under the Workers' Compensation Supplemental Medical Fee Schedule will ensure that licensed acupuncturists are able to receive appropriate reimbursement for their services.

Your Committee has amended this measure by:

- (1) Clarifying that the authorized benefit for acupuncture treatments allowed under personal injury protection benefits shall be capped at thirty visits and shall be tied to the charges, and any subsequent increases in charges, permissible under the Workers' Compensation Supplemental Medical Fee Schedule;
- (2) Clarifying that the combined total of naturopathic and chiropractic treatments allowed under personal injury protection benefits may not exceed thirty visits;
- (3) Deleting language that would have capped acupuncture treatment at thirty visits at a cost of \$105.70 per visit;
- (4) Deleting language that would have capped the combined total of naturopathic, chiropractic, and acupuncture benefit treatments at \$2,250; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 235, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 235, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 7. Noes, none. Excused, none.

SCRep. 933 Commerce, Consumer Protection, and Health on H.B. No. 206

The purpose and intent of this measure is to:

- (1) Establish a 1.5 percent prepaid wireless E911 surcharge at the point of sale;
- (2) Allow sellers to deduct and retain three percent of all surcharges collected from consumers for administrative purposes;
- (3) Require sellers to remit the surcharge balance to the Enhanced 911 Board; and
- (4) Require the Enhanced 911 Board to submit a report to the Legislature on the prepaid wireless E911 surcharge no later than twenty days prior to the convening of the Regular Session of 2019.

Your Committee received testimony in support of this measure from the Department of Accounting and General Services, Hawaii State Fire Council, Honolulu Fire Department, Maui Fire Department, Honolulu Police Department, Maui Police Department, Hawai'i Police Department, CTIA, Verizon, and three individuals. Your Committee received testimony in opposition to this measure from the Retail Merchants of Hawaii. Your Committee received comments on this measure from the Enhanced 911 Board and Tax Foundation of Hawaii.

Your Committee finds that approximately ten to twenty percent of wireless telecommunications service is by consumers with prepaid wireless phones. Although users of prepaid wireless telecommunications services benefit from the use of enhanced 911 features, they are currently exempt from the \$0.66, monthly per-line surcharge imposed on consumers of postpaid, or contracted, wireless telecommunications services. Such exemption means that postpaid consumers are effectively subsidizing prepaid consumers' share of the cost for the acquisition, implementation, and maintenance of hardware and software that provide enhanced 911 functionality. Accordingly, this measure attempts to create parity between postpaid and prepaid wireless telecommunications service by establishing a 1.5 percent prepaid wireless E911 surcharge at the point of sale, while allowing sellers to deduct and retain three percent of all surcharges collected from consumers for administrative purposes.

Your Committee further finds that this measure also requires the Enhanced 911 Board to report to the Legislature on certain aspects of the prepaid E911 surcharge and includes a sunset date of June 30, 2022. However, according to testimony from the Enhanced 911 Board, the Board is already required to report aggregate fees in its annual report to the Legislature. The Enhanced 911 Board also expressed concern over the impact reports required by this measure, as the Board has not received confirmation that any relevant data for the requested impact reports would be publically available, comprehensive, or reliable. Finally, the Board noted that the sunset provision in this measure will have a detrimental impact on the Board's ability to plan and incorporate new surcharge revenues in the Board's three to five-year strategic budget planning.

Your Committee notes that S.B. No. 887, S.D. 2 (Regular Session of 2017), which was previously passed by the Senate, is a substantially similar measure that also establishes a 1.5 percent prepaid wireless E911 surcharge at the point of sale to create parity between postpaid and prepaid wireless telecommunications service. Your Committee concludes that the language in S.B. No. 887, S.D. 2, is preferable because it does not contain a reporting requirement or a sunset provision, contains preferred clarifying amendments, and includes a 2018 effective date.

Accordingly, your Committee has amended this measure by:

- (1) Deleting its contents and inserting the contents of S.B. No. 887, S.D. 2, a substantially similar measure, which:
 - (A) Establishes a 1.5 percent prepaid wireless E911 surcharge at the point of sale;
 - (B) Allows sellers to deduct and retain three percent of all surcharges collected from consumers to offset administrative expenses associated with collecting the surcharge;
 - (C) Requires sellers to remit the surcharge balance to the Enhanced 911 Fund on a specified periodic basis; and
 - (D) Inserts an effective date of July 1, 2018; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 206, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 206, H.D. 2, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 7. Noes, none. Excused, none.

SCRep. 934 Judiciary and Labor on H.B. No. 73

The purpose and intent of this measure is to make housekeeping amendments to section 14 of Act 48, Session Laws of Hawaii 2016, by removing references to subsections.

Your Committee did not receive any testimony regarding this measure.

Your Committee finds that this measure makes housekeeping amendments to section 14 of Act 48, Session Laws of Hawaii 2016, relating to the expedited review of certain contested cases involving the Commission on Water Resource Management, Land Use Commission, Public Utilities Commission, Hawaii Community Development Authority, and certain conservation districts.

Your Committee has amended this measure by inserting an effective date of January 7, 2019, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 73, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 73, H.D. 1, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 935 Judiciary and Labor on H.B. No. 110

The purpose and intent of this measure is to appropriate funds for the Hawaii Employer-Union Health Benefits Trust Fund costs and other cost adjustments for certain legislative officers and employees excluded from collective bargaining.

Specifically, this measure appropriates unspecified amounts to the:

- (1) State Ethics Commission;
- (2) Office of the Auditor;
- (3) Office of the Legislative Reference Bureau;
- (4) Office of the Ombudsman;
- (5) Senate; and
- (6) House of Representatives.

Your Committee received testimony in support of this measure from the Office of the Ombudsman, Hawaii State Ethics Commission, and Legislative Reference Bureau.

Your Committee finds that the negotiations for collective bargaining agreements are currently in progress. Your Committee also finds that the officers and employees of the Legislature and the legislative service agencies are excluded from collective bargaining. This measure provides a legislative vehicle to appropriate sufficient funds for public employment cost items and cost adjustments for those staff members.

Your Committee has amended this measure by inserting an effective date of January 7, 2059, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 110, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 110, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 936 Judiciary and Labor on H.B. No. 347

The purpose and intent of this measure is to provide criteria to be used by the Department of Labor and Industrial Relations to determine independent contractor status.

Your Committee received testimony in support of this measure from the Maui Chamber of Commerce; Envisions Entertainment and Productions, Inc.; and two individuals. Your Committee received testimony in opposition to this measure from the Department of Labor and Industrial Relations; Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO; Hawaii State AFL-CIO; SAG-AFTRA Hawaii Local; I.A.T.S.E. Local 665; American Federation of Musicians' Local 677; Hawaii Teamsters and Allied Workers Local 996; ILWU Local 142; and one individual. Your Committee received comments on this measure from the Chamber of Commerce Hawaii.

Your Committee finds that independent contractors are an important part of Hawaii's business community and economy. Your Committee also finds that the existing Hawaii employment security law has been broadly interpreted when determining who qualifies as an independent contractor versus who is an employee of an employer. This measure seeks to provide greater clarity to those individuals choosing to become entrepreneurs and operate as independent contractors by setting forth in greater detail the criteria used to determine independent contractor status.

Your Committee has amended this measure by:

- (1) Clarifying the language in the proposed new section 383-6(b), Hawaii Revised Statutes;
- (2) Deleting the definitions of "client" and "independent contractor";
- (3) Inserting an effective date of January 7, 2059, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 347, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 347, H.D. 2, S.D. 1, and be referred to your Committee on Commerce, Consumer Protection, and Health.

Signed by the Chair on behalf of the Committee.
Ayes, 4; Ayes with Reservations (Rhoads). Noes, none. Excused, 1 (Gabbard).

SCRep. 937 Judiciary and Labor on H.B. No. 594

The purpose and intent of this measure is to:

- (1) Establish a maritime industry grant program within the Department of Business, Economic Development, and Tourism (Department) for the Department to award grants to qualified shipyards;
- (2) Establish eligibility requirements for the award of grants and reporting requirements for the maritime industry grant program;
- (3) Exempt the grants from chapters 42F, 103D, and 103F, Hawaii Revised Statutes; and
- (4) Appropriate funds to the Department for the awarding of grants under the maritime industry grant program.

Your Committee received testimony in support of this measure from the Chamber of Commerce Hawaii; Ocean Tourism Coalition; Ali'i Nui Charters; Pacific Shipyards International, LLC; and eight individuals. Your Committee received comments on this measure from the Department of Business, Economic Development, and Tourism and State Procurement Office.

Your Committee finds that this measure builds upon the success of a pilot project that was collaboratively designed and implemented in 2015 by the Department to develop local talent for maritime welding and ship repair. The impetus of this pilot project was an insufficient number of local, qualified workers that forced employers to import mainland talent at high costs and turnover rates. The pilot project provided recruitment services, internships, and an accelerated maritime welding course that resulted in thirteen trainees being hired by the shipyard. This measure enables the Department to expand the pilot project so that more local, qualified workers can be recruited to fill more high-skilled occupations in the shipyard.

Your Committee has amended this measure by:

- (1) Expanding the grant program to allow maritime industry training providers, in addition to qualified shipyards, to receive grants;
- (2) Applying the program statewide by deleting the specification that a qualified shipyard be located in a county with a population of seven hundred thousand or greater;
- (3) Amending the definition of "qualified shipyard" to conform to the North American Industry Classification System codes 336611 and 336612;
- (4) Requiring that grant recipients comply with all state and federal laws prohibiting discrimination;
- (5) Deleting language that would have allowed grants to be used for capital improvement projects;
- (6) Deleting language that would have allowed grants to be used to purchase machinery and equipment;
- (7) Inserting an effective date of January 7, 2059, to encourage further discussion; and
- (8) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 594, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 594, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 938 Judiciary and Labor on H.B. No. 810

The purpose and intent of this measure is to allow collective bargaining parties to resolve impasses related to Hawaii Employer-Union Health Benefits Trust Fund (EUTF) contribution disputes through binding arbitration.

Your Committee received testimony in support of this measure from the Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO; and University of Hawaii Professional Assembly. Your Committee received testimony in opposition to this measure from the Department of Budget and Finance and Office of Collective Bargaining.

Your Committee finds that during difficult collective bargaining negotiations, consideration of EUTF contributions as part of the total pay package may assist public employers and exclusive representatives of collective bargaining units to resolve disputes. Your Committee notes that existing law requires contribution amounts to be cost items subject to legislative approval and further notes that, as stated in Conf. Com. Rep. No. 89-84 on S.B. No. 878, Regular Session of Hawaii 1984, a previous Legislature specified health fund contribution amounts as cost items for which the Legislature retains the authority to approve in tentative agreements.

Accordingly, your Committee has amended this measure by:

- (1) Restoring statutory language that states it is strictly understood that bargaining unit members cannot strike on the issue of contribution amounts made by the State and counties to the EUTF; and
- (2) Inserting an effective date of January 7, 2059, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 810, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 810, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Gabbard).

SCRep. 939 Judiciary and Labor on H.B. No. 1115

The purpose and intent of this measure is to:

- (1) Allow the Hawaii Labor Relations Board to provide written notice of a hearing under the Hawaii occupational safety and health law by first class mail or electronic service through a company designated by the Board at least fifteen days before the hearing; and
- (2) Require the party seeking review of a decision and order of the Hawaii Labor Relations Board to bear the cost of preparing a transcript, except as provided by law, in which case the Board shall bear the cost.

Your Committee received testimony in support of this measure from the Hawaii Labor Relations Board and Hawaii Laborers Union Local 368.

Your Committee finds that under existing law, the Hawaii Labor Relations Board may only give notices of hearings to a party by first class mail. However, the electronic service of notices is a faster and less expensive method of delivery. Implementation of this measure will reduce costs and provide a more efficient process to accommodate all parties.

Your Committee has amended this measure by:

- (1) Inserting an effective date of January 7, 2059, to encourage further discussion; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1115, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1115, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Gabbard).

SCRep. 940 Judiciary and Labor on H.B. No. 1208

The purpose and intent of this measure is to appropriate funds for enforcement specialist IV positions in the Disability Compensation Division (Division) of the Department of Labor and Industrial Relations.

Your Committee received testimony in support of this measure from the Department of Labor and Industrial Relations, ILWU Local 142, Hawaii Insurers Council, Carpet Linoleum and Soft Tile Local Union 1926 Market Recovery Trust Fund, Chamber of Commerce Hawaii, Hawaii Glaziers Architectural Metal Glassworkers Local Union 1889 AFL-CIO Stabilization Trust Fund, Pacific Resource Partnership, Painting Industry of Hawaii Labor Management and Cooperation Trust Fund, and Hawai'i Construction Alliance.

Your Committee finds that the Division has the fiduciary duty to administer the State's workers' compensation, temporary disability, and prepaid health care programs. Your Committee also finds that additional positions within the Division will allow the Division to expedite operations and increase efficiency to the benefit of injured workers, employers, health providers, insurers, and the State.

Your Committee has amended this measure by:

- (1) Specifying that the number of positions established be two full-time equivalent (2.0 FTE) positions;
- (2) Inserting an appropriation amount of \$112,078 per fiscal year;
- (3) Allowing the appropriated sums to be used for current expenses and equipment, in addition to the establishment of two positions; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1208, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1208, H.D. 2, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Gabbard).

SCRep. 941 Agriculture and Environment on H.B. No. 1389

The purpose and intent of this measure is to appropriate funds for the planning and design of scalable livestock harvest facilities.

Your Committee received testimony in support of this measure from the Department of Agriculture; Hawaii Cattlemen's Association; Hawaii Cattlemen's Council, Inc.; Hawai'i Farm Bureau; Hawaii Crop Improvement Association; Ponoholo Ranch, Limited; Paniolo Cattle Company; McCandless Ranch; The Maritime Group, LLC; Maui Cattle Company; Parker Ranch, Inc.; Hawaii Beef Producers LLC; Hawaii Farmers and Ranchers United; and five individuals.

Your Committee finds that the cattle industry in Hawaii has a long-standing history and has seen numerous changes in production practices, requiring adaptations to market conditions. Recently, there has been a resurgence in the number of cattle that remain in Hawaii for local consumption, giving rise to challenges for many facilities that are not equipped to handle the increased numbers of cattle. Your Committee finds that these facilities were built for a set throughput of livestock, which makes it difficult to effectively adapt to changing industry conditions, and therefore your Committee understands that funding is needed to provide plans for new livestock harvest facilities to benefit the livestock industry in the long term.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1389, H.D. 1, and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 942 Agriculture and Environment on H.B. No. 775

The purpose and intent of this measure is to:

- (1) Repeal the requirements that the Department of Agriculture (Department) grant permission prior to the removal of eggs from any dock or landing and certify that eggs contained in a shipment are properly marked;
- (2) Require importation and other documents to be furnished to the Department before imported eggs are offered for sale; and
- (3) Provide that a violation of section 147-75, Hawaii Revised Statutes, relating to required notice of grade and size and designation of origin of imported eggs, shall be considered an unfair method of competition and unfair and deceptive act or practice for which a person may bring an action.

Your Committee received testimony in support of this measure from the Department of Agriculture and Eggs Hawaii, Inc.

Your Committee finds that to ensure quality, condition, and proper designation of origin, eggs imported into the State from the mainland United States are USDA certified, which requires distributors and mainland egg suppliers to submit the appropriate paperwork and certificates to the Department for all incoming mainland eggs. Requiring the Department to issue certificates before mainland eggs can be removed from any dock or landing is therefore redundant and a misallocation of limited resources. Your Committee finds that this measure will increase the efficiency of the Department without negatively impacting the Department's authority and ability to enforce mislabeled or unmarked imported eggs as to origin.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 775, H.D. 2, and recommends that it pass Second Reading and be referred to your Committee on Commerce, Consumer Protection, and Health.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 943 Agriculture and Environment on H.B. No. 643

The purpose and intent of this measure is to authorize the issuance of general obligation bonds and appropriate funds for capital improvements to the Waiahole irrigation system.

Your Committee received testimony in support of this measure from the Department of Agriculture; Agribusiness Development Corporation; Land Use Research Foundation of Hawaii; Hawaii Cattlemen's Council, Inc.; Hawaii Crop Improvement Association; Maui County Farm Bureau; Monsanto; Hawai'i Farm Bureau; Hawaii Farmers and Ranchers United; Local Food Coalition; and one individual.

Your Committee finds that a reliable irrigation system is the lifeline of Hawaii's agricultural industry. To ensure that Hawaii's crops receive a steady and dependable supply of water, sufficient funding is needed to maintain and improve Hawaii's irrigation systems.

Your Committee recommends that if your Committee on Ways and Means chooses to pass this measure, that it consider inserting a general obligation bond issuance and appropriation amount of \$8,000,000 for the purpose of making capital improvements to the Waiahole irrigation system.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 643, and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 944 Housing on H.B. No. 1009

The purpose and intent of this measure is to exempt residence or occupancy in a structure or on a property directly controlled by the Hawaii Public Housing Authority from the requirements of the residential landlord-tenant code.

Your Committee received testimony in support of this measure from the Hawaii Public Housing Authority. Your Committee received comments on this measure from the Office of Consumer Protection of the Department of Commerce and Consumer Affairs and Hawaii Association of REALTORS.

Your Committee finds that existing exemptions to the landlord-tenant code for public housing projects or complexes controlled, owned, or managed by the Hawaii Public Housing Authority pursuant to the federal Low Rent Public Housing Program result in eighty-six percent of Hawaii Public Housing Authority properties being exempt from the code. Your Committee further finds that, pursuant to federal rules, the Authority complies with strict requirements when handling tenant issues and evictions, including adherence to board hearings and peer review prior to decision making. This measure will provide an exemption from the landlord-tenant code for the remaining fourteen percent of Hawaii Public Housing Authority properties, allowing for greater equality between those in federal and state public housing and ensuring that all tenants receive the same due process regardless of the property in which they reside.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1009, H.D. 3, and recommends that it pass Second Reading and be referred to your Committee on Commerce, Consumer Protection, and Health.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Keith-Agaran, Nishihara).

SCRep. 945 Housing on H.B. No. 530

The purpose and intent of this measure is to:

- (1) Update the Downpayment Loan Program under the Hawaii Housing Finance and Development Corporation; and
- (2) Establish a Downpayment Loan Loss Reserve Program to assist low- and moderate-income households to become first-time homebuyers.

Your Committee received testimony in support of this measure from the Department of Business, Economic Development, and Tourism; Hawaii Housing Finance and Development Corporation; Hawaii Association of REALTORS; and one individual.

Your Committee finds that the existing Downpayment Loan Program was created over twenty years ago and has been inactive for some time due to funding and programmatic constraints. Your Committee further finds that changes in the housing market since the Downpayment Loan Program was established necessitate changes to the program. This measure will update the program to help make affordable homeownership more achievable for Hawaii households.

Your Committee has amended this measure by:

- (1) Removing language establishing a Downpayment Loan Loss Reserve Program; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 530, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 530, H.D. 2, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Keith-Agaran, Nishihara).

SCRep. 946 Agriculture and Environment on H.B. No. 446

The purpose and intent of this measure is to make an appropriation for the acquisition of land, planning, design, and construction of an agricultural park in South Maui that could be used for diversified crops.

Your Committee received testimony in support of this measure from the Department of Agriculture; Kihei Community Association; Sierra Club of Hawai'i; We Are One, Inc.; and nine individuals.

Your Committee finds that agricultural parks support sustainable farming, diversified agriculture, and job creation. Your Committee also finds that the recent closure of Hawaiian Commercial & Sugar Company on the island of Maui presents an opportunity for the State to nurture the growth of small, sustainable farms capable of employing agricultural workers who have been affected by the plantation closure. Your Committee finds that an agricultural park in South Maui would provide economic opportunities and increase local food production in the area in alignment with the State's goal of food sustainability.

Your Committee has amended this measure by:

- (1) Making it effective on July 1, 2017; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 446, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 446, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 947 Agriculture and Environment on H.B. No. 453

The purpose and intent of this measure is to establish in the Department of Agriculture the food safety certification costs grant program to assist farmers and ranchers in meeting the costs of compliance with the FDA Food Safety Modernization Act, Food and Drug Administration regulations, and state food safety laws.

Your Committee received testimony in support of this measure from the Department of Agriculture; Ulupono Initiative; Hawaii Cattlemen's Council, Inc.; Maui Chamber of Commerce; Hawaii Crop Improvement Association; Hawai'i Farm Bureau; Hawaii Food Manufacturers Association; Hawaii Farmers and Ranchers United; Hawaii Aquaculture and Aquaponics Association; and twenty-three individuals. Your Committee received comments on this measure from the Department of Budget and Finance.

Your Committee finds that the purpose of the FDA Food Safety Modernization Act is to ensure that the United States food supply is safe by shifting the focus from responding to contamination to preventing it. Your Committee also finds that it may be difficult and costly for farmers and ranchers in the State to comply with the requirements of the FDA Food Safety Modernization Act and other federal and state food safety regulations. Your Committee believes that this measure will support Hawaii's agricultural industry by

assisting farmers and ranchers with compliance with the FDA Food Safety Modernization Act, Food and Drug Administration regulations, and state food safety laws.

Your Committee has amended this measure by making it effective on July 1, 2017.

Your Committee recommends that if your Committee on Ways and Means chooses to pass this measure, that it consider inserting an appropriation amount of \$1,000,000 for implementation of the food safety certification costs grant program and related administrative costs.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 453, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 453, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 948 Agriculture and Environment on H.B. No. 728

The purpose and intent of this measure is to expand the general excise tax exemption for amounts received from the inter-island loading, transportation, and unloading of agricultural products to include floricultural, horticultural, viticultural, forestry, nut, coffee, dairy, livestock, poultry, bee, animal, and any other farm, agronomic, or plantation products.

Your Committee received testimony in support of this measure from the Department of Agriculture; Hawaii Crop Improvement Association; Hawaii Cattlemen's Council, Inc.; Ulupono Initiative; Maui Chamber of Commerce; Hawai'i Farm Bureau; Maui County Farm Bureau; Maui Cattle Company; The Maritime Group, LLC; Ponoholo Ranch, Limited; McCandless Ranch; Hawaii Beef Producers LLC; Hawaii Farmers and Ranchers United; and seventeen individuals. Your Committee received comments on this measure from the Department of Taxation, Tax Foundation of Hawaii, and Meadow Gold Dairies.

Your Committee finds that Hawaii's many agricultural industries, particularly its livestock industry, face numerous challenges. This measure seeks to assist Hawaii's agricultural industries to reduce operating costs, and eventually reduce the cost of purchasing local agricultural products by local consumers, to ensure the sustainability of Hawaii's agricultural industries.

Your Committee has amended this measure by:

- (1) Making the general excise tax exemption applicable to taxable years beginning after December 31, 2017;
- (2) Making it effective on July 1, 2017; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 728, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 728, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 949 Agriculture and Environment on H.B. No. 961

The purpose and intent of this measure is to exclude from the computation of taxable state income a certain amount of income earned by qualifying farmers from food or value-added food products grown or raised by a farmer and sold within the State, provided that the farmer's annual gross income does not exceed a specified amount.

Your Committee received testimony in support of this measure from the Department of Agriculture, Hawaii Crop Improvement Association, Maui Chamber of Commerce, Hawai'i Farm Bureau, Counter Culture Farm, and one individual. Your Committee received comments on this measure from the Department of Taxation, Department of the Attorney General, Tax Foundation of Hawaii, and one individual.

Your Committee finds that the growth of small, diversified farming businesses adds to and diversifies Hawaii's economy. Your Committee finds that the creation of an exclusion from income tax for a certain amount of income earned from such businesses will encourage the growth of new, small, and diversified farming businesses, will not significantly affect tax collections by the State, and will improve the long-term economic well-being of the State.

Your Committee has amended this measure by:

- (1) As recommended by the Department of Taxation:
 - (A) Expanding the income tax exemption to include farmers with the tax filing statuses of married filing separately and head of household; and
 - (B) Applying the income tax exemption to taxable years beginning after December 31, 2017;
- (2) As recommended by the Department of the Attorney General, removing language that requires a "farmer" to sell the food or products within the State in order for the exemption to apply;
- (3) Making it effective on July 1, 2017; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

Your Committee recommends that if your Committee on Ways and Means chooses to pass this measure that it consider amendments to apply the income tax exemption to the first \$5,000 of income earned by a farmer; provided that the farmer's annual gross income does not exceed \$50,000 if filing a tax return as a single taxpayer and does not exceed \$100,000 if filing a tax return as married filing jointly.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 961, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 961, H.D. 2, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Nishihara, Ruderman).

SCRep. 950 Agriculture and Environment on H.B. No. 1230

The purpose and intent of this measure is to authorize the issuance of special purpose revenue bonds to assist MauiGrown Coffee, Inc., with the expansion of its operations.

Your Committee received testimony in support of this measure from the Department of Agriculture; Office of Economic Development, County of Maui; ILWU Local 142; Maui Coffee Association; Hawaii Coffee Association; Hawaii'i Farm Bureau; Maui County Farm Bureau; MauiGrown Coffee, Inc.; Alexander & Baldwin, Inc.; Hawaii Coffee Company; Go Maui, Inc.; and eight individuals. Your Committee received comments on this measure from the Department of Budget and Finance.

Your Committee finds that the proceeds of the sale of special purpose revenue bonds will be used by MauiGrown Coffee, Inc., to expand operation of its coffee farm and mill in Pu'uukoli'i, Maui. Your Committee further finds that the issuance of these special purpose revenue bonds is in the public interest and will benefit the public health, safety, and general welfare.

Your Committee has amended this measure by:

- (1) Making it effective on July 1, 2017; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1230, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1230, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 951 (Joint) Agriculture and Environment and Public Safety, Intergovernmental, and Military Affairs on H.B. No. 783

The purpose and intent of this measure is to:

- (1) Require the Department of Agriculture to establish a two-year agricultural theft pilot project to focus on investigating and prosecuting agricultural theft and agricultural vandalism in the County of Hawaii; and
- (2) Appropriate funds to the Department of Agriculture to establish and implement the pilot project.

Your Committees received testimony in support of this measure from the Department of Agriculture; Office of the Mayor of the County of Hawaii; Office of the Prosecuting Attorney, County of Hawaii; Ulupono Initiative; Hawaii'i Farm Bureau; Hawaii Floriculture and Nursery Association; Hawaii Cattlemen's Council, Inc.; and fifteen individuals.

Your Committees find that agricultural theft and vandalism in the County of Hawaii are impediments to running a successful and profitable farming operation and are harmful to consumers. Agricultural theft and vandalism are a serious, ongoing problem, with farmers reporting theft of crops, animals, equipment, and tools, and vandalized fences and gates. Since many incidents of agricultural theft and vandalism are not reported, the annual monetary losses can only be estimated in the millions of dollars. By establishing an agricultural theft and vandalism pilot project for the County of Hawaii, this measure provides additional focus on investigating and prosecuting agriculture theft and vandalism.

Your Committees have amended this measure by:

- (1) Requiring the Department of Agriculture to submit its report to the Legislature no later than December 31, 2019;
- (2) Making it effective on July 1, 2017; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

Your Committees recommend that if your Committees on Judiciary and Labor and Ways and Means choose to pass this measure that they consider inserting an appropriation amount of \$100,000 for the agricultural theft and vandalism pilot project.

As affirmed by the records of votes of the members of your Committees on Agriculture and Environment and Public Safety, Intergovernmental, and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 783, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 783, H.D. 1, S.D. 1, and be referred to your Committees on Judiciary and Labor and Ways and Means.

Signed by the Chairs on behalf of the Committees.
Agriculture and Environment: Ayes, 5. Noes, none. Excused, none.

Public Safety, Intergovernmental, and Military Affairs: Ayes, 4. Noes, none. Excused, 1 (Wakai).

SCRep. 952 (Joint) Public Safety, Intergovernmental, and Military Affairs and Agriculture and Environment on H.B. No. 606

The purpose and intent of this measure is to authorize the counties, through their employees or authorized agents, to enter private property to control or eradicate invasive species and pests.

Your Committees received testimony in support of this measure from the Department of Agriculture; Department of Land and Natural Resources; Office of the Mayor, Maui County; Big Island Invasive Species Committee; Conservation Council for Hawai'i; Hawai'i Association of REALTORS; The Nature Conservancy Hawai'i; and four individuals. Your Committees received testimony in opposition to this measure from Best Friends Animal Society and one individual. Your Committees received comments on this measure from The Humane Society of the United States Hawaii.

Your Committees find that invasive species and pests are a persistent and real threat to the State. Invasive species and pests can swiftly and permanently alter the ecosystem of the State if not effectively eradicated. To ensure the rapid and complete removal of such species and pests, it is essential to allow the counties, through their employees or authorized agents, to have authority to enter onto private property when necessary to control or eradicate invasive species and pests.

Your Committees have amended this measure by inserting an effective date of July 1, 2017.

As affirmed by the records of votes of the members of your Committees on Public Safety, Intergovernmental, and Military Affairs and Agriculture and Environment that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 606, H.D. 2, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 606, H.D. 2, S.D. 1, and be referred to your Committee on Judiciary and Labor.

Signed by the Chairs on behalf of the Committees.

Public Safety, Intergovernmental, and Military Affairs: Ayes, 4. Noes, none. Excused, 1 (Wakai).

Agriculture and Environment: Ayes, 5. Noes, none. Excused, none.

SCRep. 953 (Joint) Public Safety, Intergovernmental, and Military Affairs and Agriculture and Environment on H.B. No. 1418

The purpose and intent of this measure is to amend the county exemptions from building permit and building code requirements to ensure that Hawai'i's communities are not suspended from participation in the National Flood Insurance Program.

Your Committees received testimony in support of this measure from the Department of Commerce and Consumer Affairs; Department of Agriculture; Department of Land and Natural Resources; Hawaii Emergency Management Agency; Department of Planning and Permitting for the City and County of Honolulu; American Council of Engineering Companies of Hawaii; Hawai'i Association of REALTORS; Hawaii Bankers Association; Hawaii Cattlemen's Council, Inc.; Hawaii Farm Bureau; Hawaii Financial Services Association; Hawaii Independent Insurance Agents Association; Hawaii Insurers Council; Hawaii Credit Union League; Ponoholo Ranch Limited; and one individual.

Your Committees find that it essential that state laws establishing building code and building permit requirements comply with the requirements of the National Flood Insurance Program as administered by the Federal Emergency Management Agency. Failure to maintain compliance with the program's requirements could result in the Federal Emergency Management Agency initiating suspension procedures throughout the State, which could lead to the loss of National Flood Insurance Program insurance coverage and impact eligibility for certain federal disaster assistance. Certain aspects of the building code and permit requirement statutes have allowed for some agricultural buildings, structures, and appurtenances to fall outside the National Flood Insurance Program requirements. Accordingly, this measure:

- (1) Requires an owner or occupier intending to utilize the exemption to the building code and permit requirements under section 46-88, Hawaii Revised Statutes, to provide written notice to the appropriate county agency of the final as-built size, type, and location of the proposed building;
- (2) Adds new definitions for "development" and "dwelling" under section 46-88, Hawaii Revised Statutes;
- (3) Amends the definition of "agricultural building" under section 46-88, Hawaii Revised Statutes, to include development;
- (4) Requires the appropriate county agency to determine that a building permit is not necessary to comply with local, state, and federal floodplain management development standards, or National Flood Insurance Program regulations in order for work on the building to commence; and
- (5) Establishes that section 46-88, Hawaii Revised Statutes, does not exempt any new or existing agricultural buildings, structures, related appurtenances, or other development from local, state, or federal floodplain management development standards, ordinances, codes, statutes, rules, or regulations pursuant to National Flood Insurance Program requirements.

Your Committees have amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Public Safety, Intergovernmental, and Military Affairs and Agriculture and Environment that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 1418, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 1418, S.D. 1, and be referred to your Committee on Commerce, Consumer Protection, and Health.

Signed by the Chairs on behalf of the Committees.

Public Safety, Intergovernmental, and Military Affairs: Ayes, 4. Noes, none. Excused, 1 (Wakai).

Agriculture and Environment: Ayes, 5. Noes, none. Excused, none.

SCRep. 954 (Joint) Public Safety, Intergovernmental, and Military Affairs and Government Operations on H.B. No. 637

The purpose and intent of this measure is to expedite the review, update, and adoption of the Uniform Plumbing Code as it relates to the Hawaii State Building Codes and appropriate funds for the State Building Code Council to carry out its duties and hire additional staff.

Your Committees received testimony in support of this measure from the Nature Conservancy of Hawai'i; Surfrider Foundation Kauai; Sierra Club of Hawaii; Hawai'i Green Growth; Plumbers and Fitters Local 675; One World One Water, LLC; and two individuals. Your Committees received testimony in opposition to this measure from the State Building Code Council and General Contractors Association of Hawaii. Your Committees received comments on this measure from the State Fire Council and Honolulu Fire Department.

Your Committees find that maintaining and conserving the State's fresh water supply is vital to the State's future health. Scientists predict that warmer and drier conditions throughout the Pacific region will result in drought and rising temperatures, thus causing a decrease of fresh water supplies. Therefore, changes should be made so that the State can increase its ability to capture, store, and efficiently use fresh water. One means of accomplishing these needed changes is through amendments to the Uniform Plumbing Code, through the state building codes, which will encourage water resource conservation, improvements to water distribution, and recovery of used water. Accordingly, this measure seeks to expedite the review, update, and adoption of the Uniform Plumbing Code as it relates to the Hawaii State Building Codes by:

- (1) Requiring the State Building Code Council to adopt necessary and desirable amendments to the Uniform Plumbing Code within one year after the updated Uniform Plumbing Code is published;
- (2) Requiring each county to adopt the necessary and desirable amendments to the Uniform Plumbing Code within one year after the updated Uniform Plumbing Code is adopted by the State Building Code Council; and
- (3) Establishing the Uniform Plumbing Code as the interim county building code if not adopted by the county within the one-year time frame.

However, your Committees understand the testimony offered by the State Building Code Council that this measure's one-year time frame for updating the Uniform Plumbing Code is unrealistic given the Council's staffing issues and inadequate funding. Consequently, as written, this measure would likely have little or no impact. Your Committees suggest that if your Committees on Commerce, Consumer Protection, and Health and Ways and Means decide to hear this measure, that those Committees make further inquiry into what would constitute an appropriate amount of time for the State Building Code Council to adopt necessary amendments to the Uniform Plumbing Code.

Accordingly, your Committees have amended this measure by replacing all references to a one-year time frame for the adoption of amendments to the Uniform Plumbing Code with an unspecified time frame.

As affirmed by the records of votes of the members of your Committees on Public Safety, Intergovernmental, and Military Affairs and Government Operations that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 637, H.D. 2, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 637, H.D. 2, S.D. 1, and be referred to your Committees on Commerce, Consumer Protection, and Health and Ways and Means.

Signed by the Chairs on behalf of the Committees.

Public Safety, Intergovernmental, and Military Affairs: Ayes, 4. Noes, none. Excused, 1 (Wakai).

Government Operations: Ayes, 3. Noes, none. Excused, 2 (Galuteria, Tokuda).

SCRep. 955 Public Safety, Intergovernmental, and Military Affairs on H.B. No. 377

The purpose and intent of this measure is to require building permit applicants and their subcontractors to verify that they hold workers' compensation coverage or state-approved self-insurance coverage as a prerequisite for the issuance of a building permit.

Your Committee received testimony in support of this measure from the Department of Labor and Industrial Relations, Hawaii Construction Alliance, and Pacific Resource Partnership. Your Committee received testimony in opposition to this measure from the Office of the Mayor, County of Kauai; and Subcontractors Association of Hawaii. Your Committee received comments on this measure from the General Contractors Association of Hawaii.

Your Committee finds that maintaining a fair, efficient, and effective workers' compensation system is essential for protecting the State's workers. Many of the State's workers are employed in the construction industry. Therefore, ensuring that contractors and subcontractors, unless exempted by law, have secured workers' compensation coverage or state-approved self-insurance is essential to protect workers. Accordingly, this measure:

- (1) Requires building permit applicants and their subcontractors to verify that they hold workers' compensation coverage, state-approved self-insurance coverage, or are exempt from coverage requirements at the time of submitting an application for a building permit;
- (2) Requires the county building permitting agency to suspend any building permit upon receiving notice that the workers' compensation coverage or state-approved self-insurance has been canceled or has expired; and
- (3) Requires coordinated communication between county building permitting agencies and the Director of Labor and Industrial Relations to ensure compliance.

Your Committee, however, notes the testimony of the Department of Labor and Industrial Relations relating to its ability to enforce the provisions of this measure. Your Committee recognizes that, as written, this measure's requirements would stress the Department's limited staffing and resources and prolong the permitting process. Therefore, your Committee agrees with the Department that enforceability of this measure's provisions would be more efficient and effective if building permit applicants and their subcontractors

were required to provide actual evidence of existing workers' compensation coverage or state-approved self-insurance coverage to the appropriate county building permitting agency rather than providing the permitting agency with a mere signed declaration of coverage. Accordingly, your Committee has amended this measure by:

- (1) Removing all language relating to the submission of a signed declaration of workers' compensation coverage or state-approved self-insurance by building permit applicants or their subcontractors at the time of submitting an application for a building permit and the Director of Labor and Industrial Relations' duty to verify the coverage or insurance or any exemption from coverage or insurance requirements;
- (2) Requiring building permit applicants and their subcontractors to provide the county with a certificate of liability insurance issued by the workers' compensation insurance carrier or a self-insurance authorization pursuant to chapter 386, Hawaii Revised Statutes, at the time of submitting an application for a building permit; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 377, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 377, H.D. 1, S.D. 1, and be referred to your Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 956 Public Safety, Intergovernmental, and Military Affairs on H.B. No. 1135

The purpose and intent of this measure is to amend Act 139, Session Laws of Hawaii 2012, as amended, to make certain provisions of the Justice Reinvestment Initiative relating to pretrial risk assessments, parole, and parole hearings permanent.

Your Committee received testimony in support of this measure from the Department of Public Safety, Office of Hawaiian Affairs, Crime Victim Compensation Commission, Community Alliance on Prisons, and three individuals. Your Committee received testimony in opposition to this measure from the Department of the Prosecuting Attorney, City and County of Honolulu.

Your Committee finds that overcrowding of prisons poses a significant threat to the health, safety, and welfare of the public. The purpose of this measure is to ensure the continued effectiveness of the Justice Reinvestment Initiative in reducing recidivism and promoting public safety by making permanent its provisions relating to timely pretrial risk assessments, confinement duration of a prisoner retaken on a parole violation, the use of validated research-based risk assessments by the Hawaii Paroling Authority, and victim restitution.

Your Committee, however, recognizes the concerns raised by the Honolulu Department of the Prosecuting Attorney concerning the ineffectiveness of section 10 of Act 139, Session Laws of Hawaii 2012, in facilitating the payment of restitution to crime victims since a vast majority of offenders owing restitution are not in prison. Accordingly, your Committee has amended this measure by:

- (1) Inserting language from H.B. No. 305, Regular Session of 2017, which:
 - (A) Creates standards and procedures for income-withholding from those owing restitution to crime victims;
 - (B) Establishes unpaid restitution as a valid debt for the purposes of withholding state income tax refunds;
 - (C) Requires that money deposited by way of bail or bond be applied to any restitution, fines, or fess ordered by the court before any balance is returned to a defendant; and
 - (D) Extends victims' access to payment compliance records for purposes of enforcing restitution orders, without the assessment of any filing fees or surcharges; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

Your Committee also has some concerns that the language of Act 139, Session Laws of Hawaii 2012, may allow some prisoners to be released on parole without a parole plan for the prisoner in place, which could pose a significant risk to the public welfare. Your Committee, however, was unable to fully investigate this seeming ambiguity through its hearing. Therefore, if your Committees on Judiciary and Labor and Ways and Means decide to hear this measure, those Committees may want to conduct further inquiry into Act 139's language to ensure that all parolees have a parole plan in place prior to their release.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1135, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1135, H.D. 1, S.D. 1, and be referred to your Committees on Judiciary and Labor and Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 957 Public Safety, Intergovernmental, and Military Affairs on H.B. No. 1172

The purpose and intent of this measure is to:

- (1) Establish property owner liability for illegal aerial devices possessed or set off on their property by others;
- (2) Simplify the definition of aerial device; and
- (3) Allow probable cause for fireworks offenses to be established from statements from witnesses and photographs, video, and other recordings authenticated by witnesses.

Your Committee received testimony in support of this measure from the State Fire Council, Honolulu Fire Department, Maui Fire Department, Poi Dogs & Popoki, and twelve individuals. Your Committee received testimony in opposition to this measure from the Department of the Prosecuting Attorney, City and County of Honolulu; and American Promotional Events, Inc.

Your Committee finds that the use of illegal aerial fireworks is a threat to the public's health, safety, and welfare. While the use of certain aerial fireworks has been prohibited for some time, enforcement of this prohibition has been difficult. There are steps that may be taken to increase enforcement of the prohibition, such as holding property owners liable for aerial fireworks that emanate from their properties and allowing law enforcement to establish probable cause for fireworks offenses through statements from witnesses and photographs, video, and other recordings authenticated by witnesses.

Your Committee finds that making it easier for law enforcement to establish probable cause for prosecuting cases against illegal aerial fireworks offenders would help combat this ongoing problem. However, your Committee recognizes the concerns raised by the Honolulu Department of the Prosecuting Attorney that this measure, as written, may inadvertently limit, rather than enhance, law enforcement's ability to establish probable cause for illegal aerial fireworks use. Therefore, your Committee suggests that if your Committee on Judiciary and Labor decides to hear this measure, that it consider working with the Honolulu Department of the Prosecuting Attorney to address this concern.

Your Committee also understands the concerns raised in testimony noting that this measure's simplified definition of aerial fireworks is overbroad and, as such, would prohibit certain commercial fireworks that are legal, instead of focusing specifically on recreational aerial fireworks, which are the target of this measure.

Accordingly, your Committee has amended this measure by:

- (1) Removing section 2, which would have amended the definition of "aerial device" under section 132D-2, Hawaii Revised Statutes; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1172, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1172, H.D. 2, S.D. 1, and be referred to your Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 958 Public Safety, Intergovernmental, and Military Affairs on H.B. No. 1246

The purpose and intent of this measure is to authorize electronic monitoring and surveillance of offenders, separate from curfew, in programs that offer alternatives to incarceration.

Your Committee received testimony in support of this measure from the Community Alliance on Prisons and two individuals. Your Committee received testimony in opposition to this measure from the Department of the Prosecuting Attorney, City and County of Honolulu. Your Committee received comments on this measure from the Department of Public Safety and Office of Hawaiian Affairs.

Your Committee finds that overcrowding of prisons poses a significant threat to the health, safety, and welfare of the public. Therefore, it is important to explore and implement alternatives to incarceration. One effective alternative to incarceration that should be authorized is the use of electronic monitoring and surveillance for certain offenders who do not pose a significant risk to the community. Your Committee, however, understands the concerns of the Honolulu Department of the Prosecuting Attorney regarding ambiguities about the use of electronic monitoring or surveillance as written in this measure that may allow offenders to be released into home detention or curfew-based programs without any electronic monitoring. Accordingly, your Committee has amended this measure by:

- (1) Re-inserting language to allow the use of electronic monitoring or surveillance for alternative incarceration curfew programs; and
- (2) Allowing for the use of global positioning devices to monitor or surveil offenders.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1246, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1246, H.D. 2, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 959 Public Safety, Intergovernmental, and Military Affairs on H.B. No. 144

The purpose and intent of this measure is to reauthorize an appropriation that is scheduled to lapse on June 30, 2017, and appropriate funds for mitigating hazardous situations statewide.

Your Committee received testimony in support of this measure from the Department of Transportation, Hawaii Emergency Management Agency, and Department of Emergency Management, City and County of Honolulu.

Your Committee finds that the Governor's ability to authorize designated state employees, agents, contractors, or representatives to enter private property at reasonable times to mitigate situations deemed by the Governor to be hazardous to the health and safety of the public, even in the absence of an emergency or disaster pursuant to section 127A-18, Hawaii Revised Statutes, has been an effective program for mitigating hazards within the State. Funding for this program in the amount of \$1,000,000 was appropriated by the 2014

executive supplemental budget. However, this funding will lapse on June 30, 2017. Therefore, it is necessary to reauthorize the remaining funds available for the program.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 144, H.D. 1, and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 960 Public Safety, Intergovernmental, and Military Affairs on H.B. No. 168

The purpose and intent of this measure is to appropriate funds for the planning and design of a memorial to honor service members of the recent conflicts in the Persian Gulf, Iraq, Afghanistan, and the various theaters of the Global War on Terrorism, to be located at the Hawaii State Veterans Cemetery in Kaneohe, on the island of Oahu, and for replicas of the memorial to be located at state veterans cemeteries statewide.

Your Committee received testimony in support of this measure from the Office of Veterans Services, Hawaii State Foundation on Culture and the Arts, and three individuals.

Your Committee finds that recognizing service members from Hawaii who have dutifully served to protect the freedom and liberties of the country is a noble and important endeavor. Indeed, the State already has memorials dedicated to those Hawaii service members who served in World War II, the Korean War, and the Vietnam War. Continuing this tradition of honoring Hawaii's service members, the Legislature enacted Act 139, Session Laws of Hawaii 2013, which required the Office on Veterans' Services to develop a plan for establishing a memorial dedicated to those service members who have served in the Persian Gulf, Iraq, Afghanistan, and the various theaters of the Global War on Terrorism. Subsequently, the Office on Veterans' Services established a task force to fulfill the Legislature's requirement, and the task force ultimately determined that the appropriate location for such a memorial would be at the Hawaii State Veterans Cemetery in Kaneohe, on the island of Oahu, with replicas to be located at state veterans cemeteries statewide. Based on that recommendation, this measure appropriates funds for the planning and design of the memorial and for replicas of the memorial to be placed at state veterans cemeteries statewide.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 168, H.D. 1, and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 961 Public Safety, Intergovernmental, and Military Affairs on H.B. No. 456

The purpose and intent of this measure is to:

- (1) Require police chiefs to disclose to the Legislature the identity of an officer upon the officer's second suspension in a five-year period or discharge; and
- (2) Require disclosure under the Uniform Information Practices Act after a police officer's second suspension in a five-year period.

Your Committee received testimony in support of this measure from the Office of Information Practices, Honolulu Police Department, Society of Professional Journalists Hawaii Chapter, League of Women Voters, and one individual. Your Committee received testimony in opposition to this measure from the State of Hawaii Organization of Police Officers, Maui Police Department, and one individual.

Your Committee finds that disclosing the identities of police officers who are discharged or suspended twice within a five-year period serves the public interest. Transparency and accountability of police officers are of great importance in maintaining the public's trust and confidence in law enforcement, and a healthy relationship between police and the public is essential for maintaining the health, safety, and welfare of the public.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 456, H.D. 1, and recommends that it pass Second Reading and be referred to your Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 962 (Majority) Public Safety, Intergovernmental, and Military Affairs on H.B. No. 954

The purpose and intent of this measure is to exempt active members of the Hawaii Emergency Management Agency and county emergency management agencies from jury duty.

Your Committee received testimony in support of this measure from the Hawaii Emergency Management Agency; Department of Emergency Management, City and County of Honolulu; The Maritime Group, LLC; and seven individuals.

Your Committee finds that having emergency personnel available to respond swiftly and effectively to emergency situations is essential for protecting the health, safety, and welfare of the public. Therefore, it is important that active members of the Hawaii Emergency Management Agency and county emergency management agencies are able to properly and effectively serve in their roles. However, under existing law, the ability of active members of emergency management agencies to properly fulfill their duties may be hindered because these members are not exempt from jury duty. Accordingly, this measure creates an exemption for active members of

the Hawaii Emergency Management Agency and county emergency management agencies from jury duty so that these emergency personnel will be free to respond to emergency situations appropriately.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 954, H.D. 1, and recommends that it pass Second Reading and be referred to your Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, 1 (Thielen). Excused, none.

SCRep. 963 Public Safety, Intergovernmental, and Military Affairs on H.B. No. 1420

The purpose and intent of this measure is to appropriate funds for burial grants for qualifying World War II Filipino-American veterans to provide funeral and burial services and transportation of their remains to the Philippines.

Your Committee received testimony in support of this measure from the Philippine Consulate General; Office of Veterans Affairs; Hawaii Civil Rights Commission; Friends of Civil Rights Hawaii; Hawaii Filipino Lawyers Association; Nursing Advocates and Mentors, Inc.; National Federation of Filipino American Associations Region 12; Filipino American Citizens League; and four individuals.

Your Committee finds that honoring the final wishes of World War II Filipino-American veterans is necessary for demonstrating the proper respect for the sacrifices that those veterans made in protecting the nation. Many World War II Filipino-American veterans have been separated from their families, who have remained in the Philippines, for a long time and it is regrettable that these veterans have not been able to be re-united with their families. Assisting World War II Filipino-American veterans still living in the State with any prospective funeral and burial costs, including the costs of returning their remains to the Philippines if they so desire, would demonstrate the State's appreciation and respect for their service.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1420, H.D. 1, and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 964 Commerce, Consumer Protection, and Health on H.B. No. 918

The purpose and intent of this measure is to increase the efficiency and quality of Hawaii's early intervention services by appropriating funds for a web-based data system in the Department of Health's Early Intervention Section.

Your Committee received testimony in support of this measure from the Executive Office on Early Learning, State Council on Developmental Disabilities, Special Education Advisory Council, Early Childhood Action Strategy, Hawaii Early Intervention Coordinating Council, Imua Family Services, Hawaii Children's Action Network, Chamber of Commerce for Persons with Disabilities-Hawaii, and one individual. Your Committee received comments on this measure from the Department of Health.

Your Committee finds that the Department of Health provides early intervention services through twenty service providers to approximately 3,500 children each year, and that early intervention services have numerous benefits for children, families, and society. A report from the Federal Reserve Bank of Minneapolis found an economic advantage of quality intervention services equal to an \$8 return for every \$1 invested in early intervention. Society benefits from healthier children, more efficient use of school services, and less use of the criminal justice system.

Your Committee further finds that while thirty-four states nationwide have web-based early intervention data systems, the Department of Health's Early Intervention Section data system is paper-based and outdated. Your Committee notes that updating to an efficient data system to coordinate and track services for toddlers and preschoolers will help ensure timely and appropriate interventions for vulnerable keiki, and that it is important to build interagency partnerships among state agencies in health, education, human services, and developmental disabilities to enhance the development of infants and toddlers with disabilities. Your Committee finds that updating the data system will improve tracking of services and progress of each child, better serve families, and generate better outcomes for Hawaii's keiki.

Your Committee has amended this measure by:

- (1) Inserting language to the purpose section to clarify that the proposed data system will have the capacity to interface with other state data systems containing information related to young children; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 918, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 918, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, 1 (Ihara).

SCRep. 965 Water and Land on S.C.R. No. 50

The purpose and intent of this measure is to authorize the issuance of a term, non-exclusive easement for the portion of state submerged lands fronting the property identified as tax map key: (1) 3-6-001:036, Waikiki, Honolulu, Oahu, for the maintenance and repair of the existing pier and seawall, and for use, repair, and maintenance of the existing improvements constructed thereon.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources. Your Committee received testimony in opposition to this measure from one individual.

Your Committee finds that, pursuant to section 171-53, Hawaii Revised Statutes, the Board of Land and Natural Resources may lease submerged lands with the prior approval of the Governor and the prior authorization of the Legislature by concurrent resolution. Your Committee further finds that on March 11, 2016, under agenda item D-8, the Board of Land and Natural Resources approved a grant of a fifty-five-year non-exclusive easement to resolve the encroachments of the pier and seawall identified in this measure, subject to the easement grantee paying the State the fair market value of the easement as determined by an independent appraisal. Your Committee concludes that the easement is necessary for the maintenance and repair of the existing pier and seawall, and for use, repair, and maintenance of the existing improvements thereon.

Your Committee has amended this measure by:

- (1) Inserting the name of the current owner of the abutting property;
- (2) Clarifying that the easement runs with the land for the term of the easement and inures to the benefit of the real property identified as tax map key: (1) 3-6-001:036, Waikiki, Honolulu, Oahu;
- (3) Amending its title to make a technical, nonsubstantive amendment; and
- (4) Making other technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 50, as amended herein, and recommends that it be referred to your Committee on Ways and Means, in the form attached hereto as S.C.R. No. 50, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Gabbard, Thielen).

SCRep. 966 Economic Development, Tourism, and Technology on H.B. No. 1326

The purpose and intent of this measure is to advance the State's economic development, sustainability, and diversity by appropriating funds for a market assessment study to assess the feasibility of developing a basalt fiber facility in Hawaii.

Your Committee received testimony in support of this measure from the Pacific International Space Center for Exploration Systems; Hawaii Island Economic Development Board; Oceanit, Laboratories, Inc.; and one individual. Your Committee received testimony in opposition to this measure from one individual. Your Committee received comments on this measure from the High Technology Development Corporation.

Your Committee finds that basalt's unique properties make it an excellent material for a variety of specialized applications. Basalt fibers are currently being used in the manufacturing of various products that include rebar, mesh, rope, and fabric. However, currently, there is no domestic producer of basalt fiber. Your Committee further finds that state funding for a market study to evaluate the feasibility of developing a basalt fiber facility in Hawaii could capitalize on Hawaii's basalt resources and create long-term benefits to the State's economy.

As affirmed by the record of votes of the members of your Committee on Economic Development, Tourism, and Technology that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1326, H.D. 2, and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4; Ayes with Reservations (Taniguchi). Noes, none. Excused, 1 (Baker).

SCRep. 967 Economic Development, Tourism, and Technology on H.B. No. 1327

The purpose and intent of this measure is to appropriate funds to the High Technology Development Corporation for the manufacturing development program.

Your Committee received testimony in support of this measure from the Department of Business, Economic Development, and Tourism; High Technology Development Corporation; Chamber of Commerce Hawaii; Maui Chamber of Commerce; Hawaii Food Industry Association; Hawaii Farm Bureau; Hawaii Coffee Company; Kauai Island Brewing Company; Aloha Shoyu Company, Ltd.; Makai Ocean Engineering, Inc.; Oceanit Laboratories, Inc.; Meadow Gold Dairies; KYD, Inc., dba: K. Yamada Distributors; Hawaii Fish Company; Maui Brewing Company; and two individuals.

Your Committee finds that the High Technology Development Corporation is a key state agency that helps to develop and support the manufacturing industry in the State. Due to its remote location, Hawaii must constantly work to lower the cost of consumer goods in the State while stimulating economic growth through exports of locally-made products. Your Committee further finds that the manufacturing development program within the High Technology Development Corporation stimulates economic growth, increases development, and creates jobs related to Hawaii-made products.

As affirmed by the record of votes of the members of your Committee on Economic Development, Tourism, and Technology that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1327, H.D. 1, and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 968 Economic Development, Tourism, and Technology on H.B. No. 595

The purpose and intent of this measure is to appropriate funds to continue the small business innovation research program within the High Technology Development Corporation.

Your Committee received testimony in support of this measure from the High Technology Development Corporation; Chamber of Commerce Hawaii; Maui Chamber of Commerce; Hawaii Farm Bureau; Navatek; Oceanit Laboratories, Inc.; Makai Ocean Engineering, Inc.; OmniGreen Renewables LLC; Experiad Solutions; Kampachi Farms, LLC; Spectrum Photonics; Studio Kinection, Inc.; Hawaii Food Industry Association; Hawaii Evolutionary Development, LLC; Reef Capital Ventures; Hawaii Fish Company; and one individual.

Your Committee finds that the High Technology Development Corporation is a key state agency in developing and supporting the innovation industry in the State and has been providing Phase I matching grants to companies awarded federal Small Business Innovation Research program grants since 1989. In 2016, the High Technology Development Corporation began awarding Phase II and Phase III matching grants, and there were more eligible applicants than available funds. Your Committee finds that in 2016, the Legislature extended the lapse date of a previous appropriation and appropriated additional funding for the Hawaii small business innovation research program within the High Technology Development Corporation. Your Committee further finds that continuing the program and supporting small businesses through commercialization assistance are important to the innovation industry in the State.

As affirmed by the record of votes of the members of your Committee on Economic Development, Tourism, and Technology that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 595, H.D. 1, and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 969 Economic Development, Tourism, and Technology on H.B. No. 475

The purpose and intent of this measure is to:

- (1) Extend the sunset provision of Act 39, Session Laws of Hawaii 2015, which requires certain motion picture theaters to provide open movie captioning and audio descriptions for certain motion pictures at certain times; and
- (2) Require the Department of Business, Economic Development, and Tourism to conduct an impact survey.

Your Committee received testimony in support of this measure from the Department of Business, Economic Development, and Tourism; Hawaii Civil Rights Commission; Disability and Communication Access Board; and five individuals.

Your Committee finds that Act 39, Session Laws of Hawaii 2015, requires certain public accommodations to, among other things, provide open captioning during at least two showings per week of each motion picture that is produced and offered with open captioning and provide audio descriptions upon request of any motion picture that is produced and offered with audio descriptions. Your Committee finds that the Act has been successfully implemented in Hawaii and has made the State a national leader in creating movie theater accessibility. Your Committee further finds that removing the sunset provision of the Act is important to ensure the movie theater accessibility standards continue.

Your Committee notes that the companion to this measure, S.B. No. 1156 (Regular Session of 2017), which was previously passed by the Senate, is a similar measure that removes the sunset provision of Act 39, Session Laws of Hawaii 2015. Your Committee concludes that the language in S.B. No. 1156 is preferable because it excludes the Department of Business, Economic Development, and Tourism impact survey, which is ambiguous as to methodology that would avoid violating the Americans with Disabilities Act. Your Committee further concludes that the language of S.B. No. 1156 is preferable because it removes the sunset provision altogether, thereby making the requirements permanent.

Accordingly, your Committee has amended this measure by deleting its contents and inserting the contents of S.B. No. 1156, which removes the sunset provision of Act 39, Session Laws of Hawaii 2015, and takes effect on July 1, 2017.

As affirmed by the record of votes of the members of your Committee on Economic Development, Tourism, and Technology that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 475, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 475, H.D. 1, S.D. 1, and be referred to your Committees on Commerce, Consumer Protection, and Health and Judiciary and Labor.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Thielen).

SCRep. 970 (Joint) Agriculture and Environment and Commerce, Consumer Protection, and Health on H.B. No. 1351

The purpose and intent of this measure is to:

- (1) Authorize the Director of Health to expend monies from the electronic device recycling fund to support county electronics collections; and
- (2) Make an appropriation to reimburse the counties of Hawaii, Kauai, and Maui for expenses incurred during 2015 and 2016 related to the collection services associated with handling and collecting electronic devices for recycling.

Your Committees received testimony in support of this measure from the Department of Health, Office of the Mayor of the County of Hawai'i, Department of Environmental Management of the County of Hawaii, Consumer Technology Association, and five individuals.

Your Committees find that electronic device recycling prevents toxins, such as lead, from leaching into the environment and harming the environment and human health, saves space in landfills, and allows valuable resources contained in electronic devices,

such as copper, gold, and aluminum, to be reclaimed for future use. Your Committees also find that the counties engage in electronic device collection but do not receive monies from the electronic device recycling fund. This measure allows funding to go to the counties and ensures that the electronic device recycling program may continue.

Your Committees have amended this measure by making it effective on July 1, 2017.

As affirmed by the records of votes of the members of your Committees on Agriculture and Environment and Commerce, Consumer Protection, and Health that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 1351, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 1351, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Agriculture and Environment: Ayes, 5. Noes, none. Excused, none.

Commerce, Consumer Protection, and Health: Ayes, 6. Noes, none. Excused, 1 (Chang).

SCRep. 971 (Joint) Agriculture and Environment and Commerce, Consumer Protection, and Health on H.B. No. 1536

The purpose and intent of this measure is to:

- (1) Clarify that the Board of Agriculture has the power to acquire property by eminent domain for the construction and maintenance of water facilities that convey, distribute, and transmit water for agricultural uses, but not for domestic use; and
- (2) Amend the definition of “public utility” in chapter 269, Hawaii Revised Statutes, to exclude:
 - (A) Any person who controls, operates, or manages plants or facilities developed for conveying, distributing, and transmitting non-potable water, and any irrigation project established pursuant to chapter 167, Hawaii Revised Statutes; and
 - (B) Any board of water supply that manages, controls, and operates the waterworks of a county for the purpose of supplying water to the public in that county.

Your Committees received testimony in support of this measure from the Department of Agriculture; Land Use Research Foundation of Hawaii; Maui Chamber of Commerce; City and County of Honolulu Board of Water Supply; Kalepa Coalition; Saiva Siddhanta Church; East Kauai Water Users’ Cooperative; Maui County Farm Bureau; Hawai‘i Farm Bureau; Ponoeholo Ranch, Limited; and two individuals. Your Committees received testimony in opposition to this measure from the Sierra Club of Hawai‘i and seven individuals. Your Committees received comments on this measure from the Public Utilities Commission, Department of Commerce and Consumer Affairs Division of Consumer Advocacy, and Office of Hawaiian Affairs.

Your Committees find that there are many non-potable water systems across the State that provide non-potable water for agricultural purposes. There is concern that Public Utilities Commission regulations intended for privately owned utilities may be applied to state-owned agricultural irrigation systems overseen by the State’s Commission on Water Resource Management. Your Committees find that this measure clarifies state law in alignment with policies currently followed by the Department of Agriculture and Public Utilities Commission.

As affirmed by the records of votes of the members of your Committees on Agriculture and Environment and Commerce, Consumer Protection, and Health that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 1536, H.D. 2, and recommend that it pass Second Reading and be referred to your Committees on Judiciary and Labor and Ways and Means.

Signed by the Chairs on behalf of the Committees.

Agriculture and Environment: Ayes, 5; Ayes with Reservations (Riviere, Ruderman). Noes, none. Excused, none.

Commerce, Consumer Protection, and Health: Ayes, 6; Ayes with Reservations (Ihara, Ruderman). Noes, none. Excused, 1 (Chang).

SCRep. 972 Commerce, Consumer Protection, and Health on H.B. No. 1410

The purpose and intent of this measure is to:

- (1) Repeal the emergency medical services special fund and redirect the special fund’s revenue sources to the general fund;
- (2) Appropriate general funds in an amount equal to the emergency medical services special fund revenues for fiscal year 2015-2016 to the Department of Health for purposes of overseeing the state comprehensive emergency medical services system;
- (3) Require and appropriate funds to the Department of Health to establish and report to the Legislature on a two-year pilot program that permits county regulation and operation of ambulance service in the County of Hawaii and the City and County of Honolulu and preserves the Department’s statewide systems for billing and collections, communications, and medical records;
- (4) Authorize the counties to expend a portion of Transient Accommodations Tax revenues to purchase vehicles, equipment, and supplies, and pay any other costs incurred to supplement existing ambulance services; and
- (5) Establish and appropriate funds for a three-year Community Paramedic Services Pilot Program, to be administered by the Department of Health.

Your Committee received testimony in support of this measure from the American Medical Response and two individuals. Your Committee received testimony in opposition to this measure from the Maui County Council, Office of the Mayor of the County of Hawai‘i, Honolulu Emergency Services Department, County Council of Maui, and two individuals. Your Committee received comments on this measure from the Department of Health, Tax Foundation of Hawaii, County of Hawai‘i Fire Department, and Hana Health.

Your Committee finds that it is essential that emergency medical services are provided with sufficient resources to ensure the safety and health of residents in this State. Presently, the emergency medical services special fund provides funding for emergency medical services through revenue from the cigarette tax, motor vehicle registration fee, and investment pool returns. However, by repealing the emergency medical services special fund and designating general funds to the emergency medical services system, this measure provides a more stable source of revenue or method of finance to assure uninterrupted services and continuity of the State's emergency medical services system.

Your Committee notes the significant amount of testimony on this measure indicating that the existing statewide comprehensive emergency medical services system functions well and is effective and that each county should not be responsible for regulating and operating its own ambulance services. Your Committee concurs and finds that it is important for the State to have an integrated, statewide emergency medical services system. Your Committee acknowledges that each county's emergency medical services are unique to the needs of the area but finds that working together as a statewide system is valuable and necessary to safeguard public health and safety consistently across the State.

Your Committee further finds that community paramedic services can improve health in the State by addressing calls involving non-emergency services, post hospital discharge care, the homeless population, hospice care, behavioral health, and acute and chronic medical conditions. Your Committee received testimony from the Hawai'i Fire Department indicating that community paramedic services are well received by the community, significantly improve long term quality of life for community members, and produce measureable cost savings.

Accordingly, your Committee has amended this measure by:

- (1) Deleting the provision that authorized the counties to expend a portion of the Transient Accommodations Tax revenues to purchase items related to ambulance services;
- (2) Deleting the provisions related to the pilot program permitting county regulation and operation of ambulance services in the County of Hawaii and the City and County of Honolulu;
- (3) Deleting the provisions related to a three-year Community Paramedic Services Pilot Program and inserting a blank appropriation amount for community paramedic services; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1410, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1410, H.D. 2, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 1 (Ihara).

SCRep. 973 Commerce, Consumer Protection, and Health on H.B. No. 50

The purpose and intent of this measure is to:

- (1) Establish an appraisal management company registration program within the Department of Commerce and Consumer Affairs to conform to minimum standards for appraisal management companies established under federal law and regulations; and
- (2) Appropriate an unspecified sum out of the Compliance Resolution Fund to implement the appraisal management company registration program.

Your Committee received testimony in support of this measure from the Professional and Vocational Licensing Division of the Department of Commerce and Consumer Affairs, Hawaii Credit Union League, Hawai'i Association of REALTORS, Hawaii Financial Services Association, Mortgage Bankers Association of Hawaii, Hawaii Bankers Association, Real Estate Valuation Advocacy Association, and one individual. Your Committee received comments on this measure from the Regulated Industries Complaints Office of the Department of Commerce and Consumer Affairs.

Your Committee finds that appraisal management companies, commonly referred to as AMCs, are business entities that administer networks of independent appraisers who prepare appraisals on behalf of lenders. AMCs serve as intermediaries to ensure independence between the appraiser and loan originator and also perform essential functions in many residential transactions, including coordinating appraisal completion, maintaining a panel of qualified appraisers, serving as a liaison between the appraiser and lender, and performing quality control reviews of the appraisal before sending it to the lender.

Your Committee further finds that the Dodd-Frank Wall Street Reform and Consumer Protection Act of 2010 (Dodd-Frank) directed six federal financial regulatory agencies to promulgate rules on the minimum requirements for states to register and supervise AMCs. Your Committee notes that Dodd-Frank does not compel a state to establish an AMC registration and supervision program, nor does the Act penalize a State who has not established a regulatory structure within thirty-six months of issuance of the final rule regulating AMCs. However, in states that have not adopted AMC minimum requirements, AMCs are barred from providing appraisal management services for federally-related transactions, unless the AMCs are owned and controlled by a federally-regulated depository institution. According to testimony received by your Committee, Hawaii is one of only ten states that have not enacted legislation to regulate AMCs. Furthermore, the absence of state regulation may deter some lenders from offering mortgage financing in the State, which may disrupt the mortgage loan process for consumers, lenders, and real estate professionals. This measure establishes a registration program for AMCs, thus ensuring that Hawaii's residential mortgage consumers have the widest range of financing choices available.

Finally, your Committee notes that while this measure remains a work in progress, the Department of Commerce and Consumer Affairs has indicated it is continuing to engage in discussions with interested stakeholders to resolve any remaining issues with this measure.

Your Committee has amended this measure by:

- (1) Clarifying the definition of "affiliate";
- (2) Requiring each appraisal management company that applies for or renews a registration to post with the Director of Commerce and Consumer Affairs a surety bond in the amount of \$25,000, and specifying the requirements to maintain the bond, rather than permitting the director to require a surety bond of not more than \$25,000;
- (3) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 50, H.D. 3, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 50, H.D. 3, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, none.

SCRep. 974 Judiciary and Labor on H.B. No. 232

The purpose and intent of this measure is to clarify the allowable scope of collective bargaining negotiations regarding the rights and obligations of a public employer.

Your Committee received testimony in support of this measure from the Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO; University of Hawaii Professional Assembly; United Public Workers, AFSCME, Local 646, AFL-CIO; and Hawaii Fire Fighters Association, International Association of Fire Fighters Local 1463, AFL-CIO. Your Committee received testimony in opposition to this measure from the Department of Budget and Finance, Department of Human Resources Development, Department of Education, Office of Collective Bargaining, and County of Hawaii Office of the Mayor.

Your Committee finds that government is more effective when public employees share in the decision-making process affecting wages and working conditions. Fairness in this process and cooperation between parties are essential to a healthy collective bargaining environment. Your Committee finds that this measure promotes fairness between public employers and respective bargaining units in the joint decision-making process.

Your Committee has amended this measure by inserting an effective date of January 7, 2059, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 232, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 232, H.D. 2, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4; Ayes with Reservations (Thielen). Noes, none. Excused, 1 (Kim).

SCRep. 975 Judiciary and Labor on H.B. No. 1114

The purpose and intent of this measure is to:

- (1) Increase monetary penalties for Hawaii Occupational Safety and Health (HIOSH) violations;
- (2) Require the Director of Labor and Industrial Relations to adjust the penalties each year pursuant to federal law; and
- (3) Require the Director of Labor and Industrial Relations to report the penalty adjustments to the Legislature each year.

Your Committee received testimony in support of this measure from the Department of Labor and Industrial Relations, ILWU Local 142, Carpet Linoleum and Soft Tile Local Union 1926 Market Recovery Trust Fund, Hawaii Glaziers Architectural Metal Glassworkers Local Union 1889 AFL-CIO Stabilization Trust Fund, and Hawaii Tapers Market Recovery Trust Fund.

Your Committee finds that compliance with federal Occupational Safety and Health Administration (OSHA) standards ensures federal funding for the HIOSH Division. Your Committee also finds that monetary penalties for violations under HIOSH have not been increased since 1990, because OSHA was exempt from the Federal Civil Penalties Inflation Adjustment Act of 1990, which directed agencies to adjust civil monetary penalties for inflation. Congress has recently enacted the Federal Civil Penalties Inflation Adjustment Act Improvements Act of 2015 (2015 Act), which applies to monetary penalties under OSHA. This measure increases HIOSH monetary penalties in conformity with the 2015 Act.

Your Committee has amended this measure by:

- (1) Inserting the penalty amounts that were included in the original version that was introduced;
- (2) Specifying that the Director of Labor and Industrial Relations must submit an annual report to the Legislature no later than twenty days prior to the convening of each regular session; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

Your Committee has received conflicting information regarding the apparent discrepancy in section 396-10(f), Hawaii Revised Statutes, as to the minimum penalty to be assessed for repeat violations and suggests that this matter be discussed further as this measure continues through the legislative process.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1114, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1114, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Gabbard).

SCRep. 976 Judiciary and Labor on H.B. No. 1182

The purpose and intent of this measure is to require the actuary to conduct an annual stress test of the Employees' Retirement System (ERS) and the ERS Board to submit an annual report on the result of the test to the Legislature.

Your Committee received testimony in support of this measure from the University of Hawaii Professional Assembly. Your Committee received comments on this measure from the Employees' Retirement System.

Your Committee finds that the successful investment of ERS funds is essential to the stability and sustainability of the ERS. Clarity and transparency regarding the information upon which ERS decisions are based are crucial to allow for employees, retirees, and the public to have an understanding of, and confidence in, the ERS. Your Committee further finds that an annual stress test will help to ensure that the ERS Board makes decisions based on widespread actuarial data and projections, rather than on data resulting from isolated events.

Your Committee has amended this measure by:

- (1) Inserting an effective date of January 7, 2059, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1182, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1182, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Kim).

SCRep. 977 (Joint) Agriculture and Environment and Water and Land on H.B. No. 1475

The purpose and intent of this measure is to:

- (1) Allow farmers' markets and food hubs in agricultural districts; and
- (2) Require that value-added products displayed and sold by agricultural-based commercial operations in agricultural districts contain at least fifty percent Hawaii grown content.

Your Committees received testimony in support of this measure from the Hawai'i Farm Bureau and five individuals. Your Committees received comments on this measure from the Department of Agriculture, Land Use Commission, Kamehameha Schools, and one individual.

Your Committees find that farmers in Hawaii face many challenges in achieving economic sustainability, including the limited availability of reliable markets and food hubs, which are facilities used to secure food and process value-added products. Allowing farmers' markets and food hubs to operate on agricultural lands will help lower costs for and increase revenue to farmers in the State, help farmers become or remain economically sustainable, and ensure public access to locally grown food and value-added products.

Your Committees have amended this measure by:

- (1) Clarifying that a farmers' market is an outdoor market limited to farmers selling agricultural products grown in Hawaii and value-added products containing at least fifty percent Hawaii grown content;
- (2) Making it effective on July 1, 2017; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Agriculture and Environment and Water and Land that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 1475, H.D. 2, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 1475, H.D. 2, S.D. 1, and be referred to your Committee on Commerce, Consumer Protection, and Health.

Signed by the Chairs on behalf of the Committees.

Agriculture and Environment: Ayes, 3. Noes, none. Excused, 2 (Nishihara, Ruderman).

Water and Land: Ayes, 5; Ayes with Reservations (Kim). Noes, none. Excused, none.

SCRep. 978 Judiciary and Labor on H.B. No. 74

The purpose and intent of this measure is to allow a request to be made by either the Speaker of the House of Representatives or President of the Senate, rather than by a joint request, before the House of Representatives or Senate, respectively, may receive legal representation by an attorney who is retained by the Attorney General because the Attorney General has declined the request due to a conflict of interest.

Your Committee received comments on this measure from the Department of the Attorney General.

Your Committee finds that existing law allows a legislative office of the State to employ or retain any attorney other than the Attorney General for the purpose of representing the State or the office in any litigation, rendering legal counsel, or drafting legal documents. Past practice has demonstrated that if the Attorney General declines the request for legal representation due to a conflict of interest, the Attorney General is required to retain an attorney for the requesting body or legislative office, subject to the approval of the Speaker of the House of Representatives or President of the Senate, or both jointly as appropriate. This measure codifies certain language to make it explicitly clear that requests to the Attorney General for legal representation can be made by either the Speaker of the House of Representatives or President of the Senate, rather by a joint request.

Your Committee has amended this measure by inserting an effective date of January 7, 2059, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 74, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 74, H.D. 1, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 979 Judiciary and Labor on H.B. No. 281

The purpose and intent of this measure is to require the Campaign Spending Commission to publish on its website the names of all noncandidate committees, in addition to the names of all candidate committees, that have failed to file a report or correct a report within a certain time permitted by the Commission.

Your Committee received testimony in support of this measure from the Campaign Spending Commission and Common Cause Hawaii.

Your Committee finds that existing law requires the Campaign Spending Commission to publish on its website the names of all candidate committees that have failed to file a report or correct a report. This measure codifies within that law the publishing of the names of noncandidate committees to increase transparency and allow the public access to that information. Your Committee notes that a more definitive time frame for a candidate or noncandidate committee to correct a report is necessary.

Accordingly, your Committee has amended this measure by:

- (1) Clarifying that candidate and noncandidate committees have two weeks from the notice to correct a report, rather than within the time allowed by the Campaign Spending Commission, before the Commission publishes the names of the candidate and noncandidate committees on its website; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 281, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 281, H.D. 1, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 980 Commerce, Consumer Protection, and Health on H.B. No. 1181

The purpose and intent of this measure is to:

- (1) Restrict the provision of physician-dispensed prescription drugs to an unspecified period of time following injury; and
- (2) Decrease the reimbursement rate for prescription drugs in the workers' compensation system based on an unspecified percentage of the average wholesale price.

Your Committee received testimony in support of this measure from the Department of Labor and Industrial Relations; City and County of Honolulu, Department of Human Resources; Hawaii Insurers Council; Property Casualty Insurers Association of America; Chamber of Commerce Hawaii; National Association of Mutual Insurance Companies; and Solera Integrated Medical Solutions. Your Committee received testimony in opposition to this measure from Automated HealthCare Solutions, Work Injury Medical Association of Hawaii, three individuals, and a petition signed by one hundred forty-one individuals. Your Committee received comments on this measure from the Department of Human Resources Development and International Longshore & Warehouse Union, Local 142.

Your Committee finds that there has been a steady increase in prescriptions for compound preparations and medications in the treatment of injured workers. According to testimony received by your Committee, this increase in use has led to a twenty-one percent increase in total medical costs for all Hawaii employers between 2011 and 2015. In some cases, the increase in use has also led to an exorbitantly high cost for compound drugs. Your Committee further finds that Hawaii has the highest workers' compensation pharmacy reimbursement rates in the country, at an average wholesale price plus up to forty percent, compared to the national average reimbursement rate of ninety-seven percent of the average wholesale price. This measure therefore attempts to control costs by imposing a limit on reimbursements for prescription drugs in the workers' compensation system.

Your Committee notes that the Department of Labor and Industrial Relations (Department) assembled the Workers' Compensation Working Group (Working Group) in 2016 to assess workers' compensation issues. The Working Group considered escalating medical costs as the primary driver of the recent trend of rising costs for workers' compensation insurance coverage. Data from the National Council on Compensation Insurance has also identified prescription drug costs as one of the major reasons for increases in workers' compensation premiums in Hawaii. The Department also coordinated with the Working Group to analyze different rate options and the use of a formulary. The Department analyzed the Consumer Price Index and took into consideration the fact that Hawaii's average

Consumer Price Index for All Urban Consumers is four percent greater than the average of most other states. According to the Department, a fair and proper standard reimbursement rate for Hawaii would be based on the national average of ninety-seven percent, with consideration to the Consumer Price Index four percent average trend over the last six years, which would equal one hundred one percent. Amendments to this measure are therefore needed to incorporate this suggestion and other associated changes recommended by the Department.

Your Committee additionally finds that a nationwide drug epidemic associated with prescription pain relieving drugs is causing alarming rates of addiction, overdose, and death. Your Committee believes that it is important to address the opioid epidemic in the workers' compensation arena in a similar manner as opioid use has been addressed in other areas. Amendments to this measure are therefore needed to require an informed consent process and limit prescription of schedule II drugs to a seven-day initial supply.

Your Committee has amended this measure by:

- (1) Requiring an opioid therapy informed consent process agreement to be executed between an injured employee and any prescriber of opioids within the State under certain conditions;
- (2) Requiring the Harm Reduction Services Branch of the Department of Health to develop and make available a template of an opioid therapy informed consent process agreement between injured employees and prescribers for use in the State and advise the Department on the contents of the agreement;
- (3) Specifying that the reimbursement rate for repackaged and relabeled drugs shall be one hundred one percent of the average wholesale price;
- (4) Clarifying the reimbursement requirements for compounded prescription drugs, including:
 - (A) Specifying that payment shall be the sum of one hundred one percent of the average wholesale price; and
 - (B) Specifying the limitations on supply and payment, billing requirements, and reimbursement requirements for any ingredient in a topical compound;
- (5) Clarifying that all pharmaceutical claims for repackaged, relabeled, or compounded prescription drugs shall include the National Drug Code of the original manufacturer, and removing language that would have permitted an unspecified reimbursement rate if the original manufacturer of the underlying drug product used in a repackaged, relabeled, or compounded prescription drug was not provided or was unknown;
- (6) Specifying that reimbursement for any schedule II drug under chapter 329, Uniform Controlled Substances Act, Hawaii Revised Statutes, prescribed by a physician shall be limited to reimbursement for an initial seven-day supply;
- (7) Updating the purpose section; and
- (8) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1181, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1181, H.D. 2, S.D. 1, and be referred to your Committees on Judiciary and Labor and Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 3 (Chang, Ihara, Kidani).

SCRep. 981 Commerce, Consumer Protection, and Health on H.B. No. 1381

The purpose and intent of this measure is to amend the elevator mechanics law by:

- (1) Adding an examination requirement for applicants for licensure;
- (2) Clarifying the licensing requirements for elevator mechanics, including the procedures and standards for license renewals, and qualifications for licensure;
- (3) Clarifying the scope of work for elevator mechanics; and
- (4) Clarifying the meeting requirements and powers and duties of the Elevator Mechanics Licensing Board.

Your Committee received testimony in support of this measure from the Department of Labor and Industrial Relations; International Union of Elevator Constructors, Local 126; and Painting Industry of Hawaii Labor Management Cooperation Trust Fund. Your Committee received comments on this measure from the Elevator Mechanics Licensing Board and National Elevator Industry, Inc.

Your Committee finds that the elevator industry is undergoing rapid technological advancements that will require increased knowledge from the highly skilled professionals who install, service, maintain, and test elevators and related conveyances in the State. Accordingly, this measure makes various updates to the elevator mechanics licensing law to: clarify the scope of work for elevator mechanics; amend the licensing requirements for elevator mechanics, including requiring completion of a continuing education course prior to licensure renewal; and update the powers and duties of the Elevator Mechanics Licensing Board.

Your Committee notes the concerns raised in testimony by the Elevator Mechanics Licensing Board that the minimum qualifications for licensure proposed by this measure may eliminate one avenue of training for elevator mechanics, which may inadvertently prevent otherwise qualified individuals from obtaining licensure in Hawaii. Your Committee appreciates these concerns and notes that the Elevator Mechanics Licensing Board has indicated discussions on this issue will continue.

Your Committee also notes that the National Elevator Industry, Inc., indicated in testimony before your Committee that it has developed a model elevator law in conjunction with the International Union of Elevator Constructors, which it is promoting to state

legislatures across the country to ensure consistency with industry practices. The National Elevator Industry, Inc., expressed concern in testimony that this measure as written may expand the scope of work and definition of “elevator mechanic” beyond the scope of work solely undertaken by elevator mechanics. Your Committee understands these concerns and concludes that amendments to this measure are necessary to incorporate suggested language from the model law. However, your Committee notes that additional discussions with interested stakeholders regarding this model language may be needed as this measure continues through the legislative process.

Your Committee has amended this measure by:

- (1) Adopting suggested amendments from the National Elevator Industry, Inc.’s model law, which:
 - (A) Clarifies the scope of work for elevator mechanics; and
 - (B) Amends the definition of “elevator mechanic”;
- (2) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1381, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1381, H.D. 2, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 7. Noes, none. Excused, none.

SCRep. 982 Commerce, Consumer Protection, and Health on H.B. No. 680

The purpose and intent of this measure is to:

- (1) Require licensees under the Board of Barbering and Cosmetology to complete a one-time awareness education program on intimate partner violence awareness and education;
- (2) Require the Department of Commerce and Consumer Affairs to adopt, via rules, the materials made available by a selected nonprofit intimate partner violence awareness education program; and
- (3) Specify that assaulting or threatening to cause bodily injury to a barber or beauty operator for acting on information concerning potential intimate partner violence shall be a misdemeanor.

Your Committee received testimony in support of this measure from the Hawaii State Commission on the Status of Women, Hawaii State Coalition Against Domestic Violence, Planned Parenthood Votes Northwest and Hawaii, LGBT Caucus of the Democratic Party of Hawai‘i, and four individuals. Your Committee received comments on this measure from the Board of Barbering and Cosmetology and Domestic Violence Action Center.

Your Committee finds that intimate partner violence is prevalent in every community and affects people regardless of age, socioeconomic status, sexual orientation, gender, race, religion, or nationality. Professionals in the grooming and beauty industry may have a unique opportunity to notice signs of abuse in their clients. These professionals often enjoy close relationships with their clients, which can put a grooming or beauty professional in the position to provide advice, resource information, and assistance. Accordingly, this measure requires licensees under the Board of Barbering and Cosmetology to complete a one-time awareness education program on intimate partner violence awareness and education.

Your Committee notes that the companion to this measure, S.B. No. 518, S.D. 2 (Regular Session of 2017), which was previously passed by the Senate, is a substantially similar measure that also requires licensees under the Board of Barbering and Cosmetology to complete a training program on intimate partner violence awareness and education. Your Committee concludes that the language in S.B. No. 518, S.D. 2, is preferable because it clarifies that individual barber, beauty operator (including cosmetologists, hairdressers, estheticians, and nail technicians), and instructor licensees under the Board of Barbering and Cosmetology are required to attend the one-time training program. S.B. No. 518, S.D. 2, also requires the training to be a three-hour course, which will allow more time for describing the dynamics of abuse and help licensees understand the barriers faced by survivors and the different resources available to survivors.

Your Committee further finds that the language in S.B. No. 518, S.D. 2, is not overly broad or overly burdensome on individual licensees. Your Committee notes that similar programs, such as the “Cut It Out” program, which is dedicated to mobilizing salon professionals and others to fight the epidemic of domestic abuse in communities throughout the country, have shown proven success in providing information and training to professionals in the grooming and beauty industry. These programs exist because communities and programs have identified that victims of intimate partner violence often disclose sensitive information to trusted individuals in safe environments, such as salons and barber shops, thus reiterating the importance of ensuring grooming and beauty industry professionals have the knowledge to appropriately respond to a victim of intimate partner violence.

Your Committee has amended this measure by:

- (1) Deleting its contents and inserting the contents of S.B. No. 518, S.D. 2, a substantially similar measure, which:
 - (A) Requires barber, beauty operator, and instructor licensees under the Board of Barbering and Cosmetology to complete a one-time, three-hour training program on intimate partner violence awareness and education; and
 - (B) Requires the Department of Commerce and Consumer Affairs to develop the intimate partner violence awareness and education training program for barber, beauty operator, and instructor licensees in coordination with a domestic violence intervention program; and

- (2) Inserting an effective date of July 1, 2017.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 680, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 680, H.D. 2, S.D. 1, and be referred to your Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.

Ayes, 7; Ayes with Reservations (Ihara). Noes, none. Excused, none.

SCRep. 983 Transportation and Energy on H.B. No. 113

The purpose and intent of this measure is to exempt vehicles transporting asphalt or other high temperature loads from the requirement that their loads be covered.

Your Committee received testimony in support of this measure from the Department of Transportation; Maritime Group, LLC; and Don's Trucking LLC.

Your Committee finds that vehicles transporting asphalt or other loads of high temperature may be a hazard to motorists traveling on highways. However, testimony indicated that these high temperature loads, including asphalt, are typically heavy and sticky and do not easily blow off trucks into the road. In addition, putting a tarp or other cover on top of high temperature loads will melt the material and produce toxic fumes. Therefore, your Committee further finds that an exception to covering certain truck loads is warranted and leaving it to the discretion of the vehicle operator as to whether there is a likelihood of the material blowing away while being transported on any highway is a reasonable solution.

As affirmed by the record of votes of the members of your Committee on Transportation and Energy that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 113, H.D. 1, and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (English).

SCRep. 984 Transportation and Energy on H.B. No. 997

The purpose and intent of this measure is to provide the Department of Transportation with the authority, flexibility, and discretion to pursue and enter into airport concession contracts and other arrangements by negotiation.

Your Committee received testimony in support of this measure from the Department of Transportation and the Airport Concessions Committee.

Your Committee finds that awarding airport concessionaire agreements through a negotiation process, as compared to just the highest bidder, will result in improved quality of food, products, and services at Hawaii's airports. That, in turn, will increase sales volume and airport fees, which are based on a percentage of sales. Your Committee notes that most mainland airports award airport terminal concession agreements based on circumstances that benefit and are in the best interest of the airport.

Your Committee has amended this measure by:

- (1) Reinserting language that provides the Department of Transportation with the authority to grant contract extensions for no more than fifteen years for the initial term, and if amended, up to the remaining term plus any agreed upon extension;
- (2) Inserting an effective date of July 1, 2017; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Transportation and Energy that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 997, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 997, H.D. 2, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (English, Harimoto).

SCRep. 985 Transportation and Energy on H.B. No. 1152

The purpose and intent of this measure is to add a new section to the General Appropriations Act of 2015 to permit the Department of Transportation to utilize the Department of Transportation, Airports Division, Project Adjustment Fund.

Your Committee received testimony in support of this measure from the Department of Transportation.

Your Committee finds that this measure is necessary to authorize the Governor to make supplemental allotments from the project adjustment fund to supplement any currently authorized capital investment cost elements for Airports Division capital improvement projects.

Your Committee has amended this measure by:

- (1) Changing the deadline for the Governor to report to the Legislature from thirty days prior to the convening of the Regular Session of 2017 to thirty days prior to the convening of the Regular Session of 2018; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Transportation and Energy that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1152, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1152, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (English).

SCRep. 986 Transportation and Energy on H.B. No. 1305

The purpose and intent of this measure is to alleviate congestion on the H-1 freeway in the westbound direction for drivers traveling in Leeward Oahu from Kunia to Kualakai Parkway during peak hours by appropriating funds for the construction of a shoulder lane in the westbound direction between the Kunia/Waipahu/Ewa (Exit 5) off-ramp and the Kualakai Parkway on-ramp.

Your Committee received testimony in support of this measure from the Department of Transportation and Ho‘omana Pono, LLC.

Your Committee finds that the H-1 freeway on the west side of the Island of Oahu is notorious for traffic congestion, particularly in the westbound direction. By funding the construction of a shoulder land between the Kunia/Waipahu/Ewa off-ramp and the Kualakai Parkway on-ramp, this measure would provide some relief for drivers headed westbound on the H-1 freeway.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Transportation and Energy that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1305, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1305, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (English).

SCRep. 987 Transportation and Energy on H.B. No. 727

The purpose and intent of this measure is to allow motorcycle lane filtering under certain specified circumstances.

Your Committee received testimony in support of this measure from Street Bikers United Hawaii and numerous individuals. Your Committee received testimony in opposition to this measure from the Department of Transportation, Honolulu Police Department, and AAA Hawai‘i. Your Committee received comments on this measure from one individual.

Your Committee finds that allowing motorcycles and motor scooters to filter through same-bound lanes of stopped traffic, when safe to do so, will reduce the risk of motor vehicle rear-end collisions with motorcycles and motor scooters.

Your Committee further finds that motorcycle lane filtering will also allow motorcycles and motor scooters to move through stalled and stopped traffic, especially during gridlock on Oahu’s freeways, and will allow some modest alleviation of the traffic congestion for all motorists.

Your Committee has amended this measure by:

- (1) Clarifying that the Department of Transportation shall determine the roadways on which lane filtering shall be allowed; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Transportation and Energy that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 727, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 727, H.D. 1, S.D. 1, and be referred to your Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.
Ayes, 4; Ayes with Reservations (Harimoto). Noes, none. Excused, 1 (English).

SCRep. 988 Transportation and Energy on H.B. No. 591

The purpose and intent of this measure is to clarify the capital infrastructure tax credit by:

- (1) Adding structures, machinery, equipment, and capital assets to the definition of “capital infrastructure costs”;
- (2) Limiting the qualifying infrastructure costs to those incurred by a displaced tenant’s move from their current address or business to a new location within Honolulu Harbor;
- (3) Excluding from the tax credit any amounts received in any form from the State;
- (4) Limiting the tax credit to \$2,500,000 per qualified infrastructure tenant per taxable year; and
- (5) Specifying that any credit claimed shall be recaptured following the close of the taxable year for which the credit is claimed if the qualified infrastructure tenant fails to relocate from the former Kapalama military reservation to another location, pursuant to a lease with the Department of Transportation, within ninety days of the execution of the lease.

Your Committee received testimony in support of this measure from the Chamber of Commerce Hawaii, Pacific Shipyards, 3SRM Inc., and numerous individuals. Your Committee received comments on this measure from the Department of Taxation and Tax Foundation of Hawaii.

Your Committee finds that Act 200, Session Laws of Hawaii 2014, enacted section 235-17.5, Hawaii Revised Statutes, relating to capital infrastructure tax credit, to accommodate tenants displaced by the development of a new overseas container terminal and piers at the lower Kapalama military reservation site.

Your Committee further finds that the displaced tenants will be relocated to various piers that have limited infrastructure, facilities, and utilities. These tenants must find ways to finance not only their move, but also significant capital improvements to state-owned land.

Your Committee has amended this measure by:

- (1) Clarifying that the qualified infrastructure tenant, together with all special purpose entities, shall not claim any credit in any one year that exceeds \$2,500,000, on the recommendation of the Department of Taxation;
- (2) Clarifying that distribution and share of the tax credit for a partnership may be determined notwithstanding section 706(d) of the Internal Revenue Code, in addition to section 704;
- (3) Requiring a taxpayer to claim the credit within ninety days of the end of the calendar year, rather than taxable year;
- (4) Providing a penalty for failure of a qualified taxpayer to report certain information to the Department of Taxation, rather than to the Legislature, on the recommendation of the Department of Taxation; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Transportation and Energy that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 591, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 591, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4; Ayes with Reservations (Harimoto). Noes, none. Excused, 1 (English).

SCRep. 989 Transportation and Energy on H.B. No. 629

The purpose and intent of this measure is to:

- (1) Exempt from income tax and general excise tax an amount up to an unspecified percentage of the costs of the construction and operation of projects entered into under a public-private partnership with the Employees' Retirement System to improve water infrastructure or water supply, or to promote clean energy; and
- (2) Authorize the Employees' Retirement System to invest in such public-private partnerships.

Your Committee received testimony in support of this measure from Ho'omana Pono, LLC. Your Committee received comments on this measure from the Department of Taxation and Tax Foundation of Hawaii.

Your Committee finds that conserving the State's resources and progressing toward the State's goal of a one hundred percent clean energy economy is vital for protecting the State's future. Your Committee recognizes that procuring funds for public works projects is often a difficult and inefficient process. This measure addresses this issue by allowing private entities to enter into a public-private partnership with the Employees' Retirement System to improve water infrastructure or water supply, or to promote clean energy. To further incentivize private entities to enter into such arrangements, this measure allows for an exemption from income tax and general excise tax in an amount up to an unspecified percentage of the costs of the construction and operation of projects arising out of these types of public-private agreements.

However, your Committee understands the concerns raised by the Department of Taxation and Tax Foundation of Hawaii relating to the viability of this measure and the impacts that this measure may have on the Employees' Retirement System. Therefore, your Committee finds that provisions and ideas set forth in this measure would benefit from further inquiry.

Accordingly, your Committee has amended this measure by:

- (1) Requiring the Board of Trustees of the Employees' Retirement System to conduct a study into the viability of:
 - (A) Providing a tax exemption for contractors who enter into a public-private partnership with the employees' retirement system to develop construction projects to improve water infrastructure or water supply, or to promote clean energy;
 - (B) Providing an exclusion from gross income, adjusted gross income, and taxable income for the direct costs of construction and operation incurred by a person under a public-private partnership with the Employees' Retirement System to develop construction projects to improve water infrastructure or water supply, or to promote clean energy; and
 - (C) Allowing the Employees' Retirement System to make investments in public-private partnerships to develop construction projects to improve water infrastructure or water supply, or to promote clean energy;
- (2) Inserting a blank appropriation for the study;
- (3) Inserting an effective date of July 1, 2017; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Transportation and Energy that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 629, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 629, S.D. 1, and be referred to your Committees on Judiciary and Labor and Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (English, Harimoto).

SCRep. 990 Transportation and Energy on H.B. No. 946

The purpose and intent of this measure is to specify that any driver who violates the high occupancy vehicle lane law shall be deemed to have committed a traffic infraction and shall be subject to a \$150 fine.

Your Committee received testimony in support of this measure from the Department of Transportation and two individuals.

Your Committee finds that under the existing law, drivers who drive in a high occupancy lane in violation of the law are subject to an initial fine of \$75. This measure increases the fine to a flat rate of \$150.

Your Committee further finds that the increase in the fine will act as a deterrent for those drivers who violate the law.

Your Committee has amended this measure by making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Transportation and Energy that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 946, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 946, H.D. 1, S.D. 1, and be referred to your Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (English).

SCRep. 991 Transportation and Energy on H.B. No. 1378

The purpose and intent of this measure is to appropriate funds for the Department of Transportation to develop plans for the construction of secondary access roads for the Waianae District of Leeward Oahu.

Your Committee received testimony in support of this measure from the Honorable Tulsi Gabbard, United States Representative of the 2nd District of Hawaii; Department of Transportation; Ho'omana Pono, LLC; and numerous individuals. Your Committee received testimony in opposition to this measure from three individuals. Your Committee received comments on this measure from two individuals.

Your Committee finds that Farrington Highway is the sole access route that links the Waianae District to Ewa and additional places of interest on the eastern side of Oahu, including metropolitan Honolulu. Although West Oahu has experienced exponential growth and development over the last twenty years, transportation infrastructure has not kept pace. Traffic volume on Farrington Highway has increased from an average of twenty thousand vehicles per day in 2000, to fifty thousand vehicles per day in 2016.

Your Committee further finds that residents of the Waianae District bear the largest burden of the current infrastructural insufficiency since they must contend with daily commutes of up to two hours each way for jobs or school. Additionally, the lack of any alternate route leaves Leeward residents more vulnerable to harm in an emergency situation. There is currently no available route that can be used as an alternative to Farrington Highway during times when Farrington Highway is impassable.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Transportation and Energy that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1378, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1378, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (English).

SCRep. 992 (Joint) Water and Land and Higher Education and Agriculture and Environment on S.R. No. 6

The purpose and intent of this measure is to urge the Department of Land and Natural Resources, in collaboration with the University of Hawaii, nonprofit environmental organizations, and other stakeholders, to conduct an inventory of pueo habitat in Hawaii.

Your Committees received testimony in support of this measure from the American Bird Conservancy, Conservation Council for Hawaii'i, Hawaii Audubon Society, Hawaii's Thousand Friends, Kanehili Cultural Hui, Democratic Party of Hawaii Education and Environmental Caucuses, and several individuals. Your Committees received comments on this measure from the Department of Land and Natural Resources.

Your Committees find that the pueo is an important member of Hawaii's biological community and holds a special place in Hawaiian culture. Your Committees also find that while the pueo is listed as endangered by the State, there remains much that is unknown about the pueo in Hawaii, including population size and distribution, movement patterns, and habitat use. A statewide habitat inventory is a necessary first step toward properly protecting and managing the pueo. Your Committees note that it may be difficult to complete an extensive statewide inventory in the given timeframe with available resources.

Your Committees have amended this measure by:

- (1) Recognizing the ongoing cooperation of SunEdison, LLC; Kaheawa Wind Power II; Kahuku Wind Power; Kaho'olawe Island Reserve Commission; University of Hawaii; United States Fish and Wildlife Service; and United States Department of Agriculture with the State in efforts to protect the pueo;

- (2) Urging the pueo habitat inventory to emphasize the island of Oahu;
- (3) Requesting the Department of Land and Natural Resources to submit an interim report no later than one month prior to the convening of the Regular Session of 2018, including an estimate of the time and resources necessary to complete a statewide pueo population estimate and statewide habitat inventory;
- (4) Resolving that certified copies of the resolution be transmitted to the mayors of the several counties; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Water and Land, Higher Education, and Agriculture and Environment that are attached to this report, your Committees concur with the intent and purpose of S.R. No. 6, as amended herein, and recommend its adoption in the form attached hereto as S.R. No. 6, S.D. 1.

Signed by the Chairs on behalf of the Committees.

Water and Land: Ayes, 3. Noes, none. Excused, 2 (Inouye, Kim).

Higher Education: Ayes, 3. Noes, none. Excused, 2 (Keith-Agaran, Taniguchi).

Agriculture and Environment: Ayes, 3. Noes, none. Excused, 2 (Nishihara, Ruderman).

SCRep. 993 (Joint) Water and Land and Higher Education and Agriculture and Environment on S.C.R. No. 31

The purpose and intent of this measure is to urge the Department of Land and Natural Resources, in collaboration with the University of Hawaii, nonprofit environmental organizations, and other stakeholders, to conduct an inventory of pueo habitat in Hawaii.

Your Committees received testimony in support of this measure from the American Bird Conservancy, Conservation Council for Hawai'i, Hawaii Audubon Society, Hawaii's Thousand Friends, Kanehili Cultural Hui, Democratic Party of Hawaii Education and Environmental Caucuses, and several individuals. Your Committees received comments on this measure from the Department of Land and Natural Resources.

Your Committees find that the pueo is an important member of Hawaii's biological community and holds a special place in Hawaiian culture. Your Committees also find that while the pueo is listed as endangered by the State, there remains much that is unknown about the pueo in Hawaii, including population size and distribution, movement patterns, and habitat use. A statewide habitat inventory is a necessary first step toward properly protecting and managing the pueo. Your Committees note that it may be difficult to complete an extensive statewide inventory in the given timeframe with available resources.

Your Committees have amended this measure by:

- (1) Recognizing the ongoing cooperation of SunEdison, LLC; Kaheawa Wind Power II; Kahuku Wind Power; Kaho'olawe Island Reserve Commission; University of Hawaii; United States Fish and Wildlife Service; and United States Department of Agriculture with the State in efforts to protect the pueo;

SCRep. 994 Housing on S.C.R. No. 19

The purpose and intent of this measure is to approve the sale of the leased fee interest in 41-529 Inoaole Street, Waimanalo, Hawaii.

Your Committee received testimony in support of this measure from the Hawaii Housing Finance and Development Corporation; Department of Business, Economic Development, and Tourism; and one individual. Your Committee received testimony in opposition to this measure from one individual. Your Committee received comments on this measure from the Office of Hawaiian Affairs.

Your Committee finds that section 171-64.7, Hawaii Revised Statutes, requires the prior approval of the Legislature by concurrent resolution to sell or gift certain state lands in fee simple, and specifies information that must be included in the resolution and other prerequisites to the sale. Your Committee further finds that the sale of the leased fee interest in 41-529 Inoaole Street, Waimanalo, Hawaii, falls under section 171-64.7, Hawaii Revised Statutes, and that the Hawaii Housing Finance and Development Corporation has met all statutory prerequisites to request approval of the sale of the property.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 19 and recommends that it be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Keith-Agaran, Nishihara).

SCRep. 995 Housing on S.C.R. No. 20

The purpose and intent of this measure is to approve the sale of the leased fee interest in 41-648 Inoaole Street, Waimanalo, Hawaii.

Your Committee received testimony in support of this measure from the Hawaii Housing Finance and Development Corporation; Department of Business, Economic Development, and Tourism; and one individual. Your Committee received testimony in opposition to this measure from one individual. Your Committee received comments on this measure from the Office of Hawaiian Affairs.

Your Committee finds that section 171-64.7, Hawaii Revised Statutes, requires the prior approval of the Legislature by concurrent resolution to sell or gift certain state lands in fee simple, and specifies information that must be included in the resolution and other prerequisites to the sale. Your Committee further finds that the sale of the leased fee interest in 41-648 Inoaole Street, Waimanalo, Hawaii, falls under section 171-64.7, Hawaii Revised Statutes, and that the Hawaii Housing Finance and Development Corporation has met all statutory prerequisites to request approval of the sale of the property.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 20 and recommends that it be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Keith-Agaran, Nishihara).

SCRep. 996 Housing on S.C.R. No. 21

The purpose and intent of this measure is to approve the sale of the leased fee interest in 41-652 Inoaole Street, Waimanalo, Hawaii.

Your Committee received testimony in support of this measure from the Hawaii Housing Finance and Development Corporation and Department of Business, Economic Development, and Tourism. Your Committee received testimony in opposition to this measure from one individual. Your Committee received comments on this measure from the Office of Hawaiian Affairs.

Your Committee finds that section 171-64.7, Hawaii Revised Statutes, requires the prior approval of the Legislature by concurrent resolution to sell or gift certain state lands in fee simple, and specifies information that must be included in the resolution and other prerequisites to the sale. Your Committee further finds that the sale of the leased fee interest in 41-652 Inoaole Street, Waimanalo, Hawaii, falls under section 171-64.7, Hawaii Revised Statutes, and that the Hawaii Housing Finance and Development Corporation has met all statutory prerequisites to request approval of the sale of the property.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 21 and recommends that it be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Keith-Agaran, Nishihara).

SCRep. 997 Housing on S.C.R. No. 22

The purpose and intent of this measure is to approve the sale of the leased fee interest in 41-659 Inoaole Street, Waimanalo, Hawaii.

Your Committee received testimony in support of this measure from the Hawaii Housing Finance and Development Corporation; Department of Business, Economic Development, and Tourism; and one individual. Your Committee received testimony in opposition to this measure from one individual. Your Committee received comments on this measure from the Office of Hawaiian Affairs.

Your Committee finds that section 171-64.7, Hawaii Revised Statutes, requires the prior approval of the Legislature by concurrent resolution to sell or gift certain state lands in fee simple, and specifies information that must be included in the resolution and other prerequisites to the sale. Your Committee further finds that the sale of the leased fee interest in 41-659 Inoaole Street, Waimanalo, Hawaii, falls under section 171-64.7, Hawaii Revised Statutes, and that the Hawaii Housing Finance and Development Corporation has met all statutory prerequisites to request approval of the sale of the property.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 22 and recommends that it be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Keith-Agaran, Nishihara).

SCRep. 998 Housing on S.C.R. No. 23

The purpose and intent of this measure is to approve the sale of the leased fee interest in 41-1362 Waikaloa Street, Waimanalo, Hawaii.

Your Committee received testimony in support of this measure from the Hawaii Housing Finance and Development Corporation; Department of Business, Economic Development, and Tourism; and one individual. Your Committee received testimony in opposition to this measure from one individual. Your Committee received comments on this measure from the Office of Hawaiian Affairs.

Your Committee finds that section 171-64.7, Hawaii Revised Statutes, requires the prior approval of the Legislature by concurrent resolution to sell or gift certain state lands in fee simple, and specifies information that must be included in the resolution and other prerequisites to the sale. Your Committee further finds that the sale of the leased fee interest in 41-1362 Waikaloa Street, Waimanalo, Hawaii, falls under section 171-64.7, Hawaii Revised Statutes, and that the Hawaii Housing Finance and Development Corporation has met all statutory prerequisites to request approval of the sale of the property.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 23 and recommends that it be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Keith-Agaran, Nishihara).

SCRep. 999 Housing on S.C.R. No. 24

The purpose and intent of this measure is to approve the sale of the leased fee interest in 95-029 Kuahelani Avenue, No. 128, Mililani, Hawaii.

Your Committee received testimony in support of this measure from the Hawaii Housing Finance and Development Corporation; Department of Business, Economic Development, and Tourism; and one individual. Your Committee received comments on this measure from the Office of Hawaiian Affairs.

Your Committee finds that section 171-64.7, Hawaii Revised Statutes, requires the prior approval of the Legislature by concurrent resolution to sell or gift certain state lands in fee simple, and specifies information that must be included in the resolution and other prerequisites to the sale. Your Committee further finds that the sale of the leased fee interest in 95-029 Kuahelani Avenue, No. 128, Mililani, Hawaii, falls under section 171-64.7, Hawaii Revised Statutes, and that the Hawaii Housing Finance and Development Corporation has met all statutory prerequisites to request approval of the sale of the property.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 24 and recommends that it be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Keith-Agaran, Nishihara).

SCRep. 1000 Housing on S.C.R. No. 25

The purpose and intent of this measure is to approve the sale of the leased fee interest in 94-946 Meheula Parkway, No. 264, Mililani, Hawaii.

Your Committee received testimony in support of this measure from the Hawaii Housing Finance and Development Corporation; Department of Business, Economic Development, and Tourism; and three individuals. Your Committee received comments on this measure from the Office of Hawaiian Affairs.

Your Committee finds that section 171-64.7, Hawaii Revised Statutes, requires the prior approval of the Legislature by concurrent resolution to sell or gift certain state lands in fee simple, and specifies information that must be included in the resolution and other prerequisites to the sale. Your Committee further finds that the sale of the leased fee interest in 94-946 Meheula Parkway, No. 264, Mililani, Hawaii, falls under section 171-64.7, Hawaii Revised Statutes, and that the Hawaii Housing Finance and Development Corporation has met all statutory prerequisites to request approval of the sale of the property.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 25 and recommends that it be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Keith-Agaran, Nishihara).

SCRep. 1001 Housing on S.C.R. No. 26

The purpose and intent of this measure is to approve the sale of the leased fee interest in 94-946 Meheula Parkway, No. 363, Mililani, Hawaii.

Your Committee received testimony in support of this measure from the Hawaii Housing Finance and Development Corporation; Department of Business, Economic Development, and Tourism; Big Palm Partners, LLC; and one individual. Your Committee received comments on this measure from the Office of Hawaiian Affairs.

Your Committee finds that section 171-64.7, Hawaii Revised Statutes, requires the prior approval of the Legislature by concurrent resolution to sell or gift certain state lands in fee simple, and specifies information that must be included in the resolution and other prerequisites to the sale. Your Committee further finds that the sale of the leased fee interest in 94-946 Meheula Parkway, No. 363, Mililani, Hawaii, falls under section 171-64.7, Hawaii Revised Statutes, and that the Hawaii Housing Finance and Development Corporation has met all statutory prerequisites to request approval of the sale of the property.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 26 and recommends that it be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Keith-Agaran, Nishihara).

SCRep. 1002 Housing on S.C.R. No. 27

The purpose and intent of this measure is to approve the sale of the leased fee interest in 94-950 Meheula Parkway, No. 367, Mililani, Hawaii.

Your Committee received testimony in support of this measure from the Hawaii Housing Finance and Development Corporation; Department of Business, Economic Development, and Tourism; and two individuals. Your Committee received comments on this measure from the Office of Hawaiian Affairs.

Your Committee finds that section 171-64.7, Hawaii Revised Statutes, requires the prior approval of the Legislature by concurrent resolution to sell or gift certain state lands in fee simple, and specifies information that must be included in the resolution and other prerequisites to the sale. Your Committee further finds that the sale of the leased fee interest in 94-950 Meheula Parkway, No. 367,

Mililani, Hawaii, falls under section 171-64.7, Hawaii Revised Statutes, and that the Hawaii Housing Finance and Development Corporation has met all statutory prerequisites to request approval of the sale of the property.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 27 and recommends that it be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Keith-Agaran, Nishihara).

SCRep. 1003 Housing on S.C.R. No. 28

The purpose and intent of this measure is to approve the sale of the leased fee interest in 47-394 Keohapa Place, Kaneohe, Hawaii.

Your Committee received testimony in support of this measure from the Hawaii Housing Finance and Development Corporation and Department of Business, Economic Development, and Tourism. Your Committee received comments on this measure from the Office of Hawaiian Affairs and one individual.

Your Committee finds that section 171-64.7, Hawaii Revised Statutes, requires the prior approval of the Legislature by concurrent resolution to sell or gift certain state lands in fee simple, and specifies information that must be included in the resolution and other prerequisites to the sale. Your Committee further finds that the sale of the leased fee interest in 47-394 Keohapa Place, Kaneohe, Hawaii, falls under section 171-64.7, Hawaii Revised Statutes, and that the Hawaii Housing Finance and Development Corporation has met all statutory prerequisites to request approval of the sale of the property.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 28 and recommends that it be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Keith-Agaran, Nishihara).

SCRep. 1004 Commerce, Consumer Protection, and Health on H.B. No. 604

The purpose and intent of this measure is to prevent the spread of mosquito-borne illness by:

- (1) Requiring the Department of Health to create and maintain a list of plants and landscaping-related structures or equipment that are known to be preferred habitats for mosquito breeding; and
- (2) Prohibiting the use of plants and landscaping-related structures or equipment that serve as preferred mosquito habitats in landscaping on public property.

Your Committee received testimony in support of this measure from one individual. Your Committee received testimony in opposition to this measure from one individual. Your Committee received comments on this measure from the Department of Health.

Your Committee finds that a variety of plants exist that are known to be potential mosquito breeding habitats due to their natural ability to collect water. Your Committee further finds that limiting the use of such plants in landscaping, as well as landscaping-related structures and equipment that are preferred habitats for mosquito breeding, will reduce the mosquito population in Hawaii and benefit public health. Your Committee recognizes that the Department of Agriculture has more expertise than the Department of Health regarding which plants are natural water collectors likely to attract mosquitoes.

Accordingly, your Committee has amended this measure by:

- (1) Inserting language to require the Department of Agriculture, in consultation with the Department of Health, to create and maintain the list of plants and landscaping-related structures or equipment that are known to be preferred habitats for mosquito breeding;
- (2) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 604, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 604, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 3 (Ihara, Kidani, Ruderman).

SCRep. 1005 Commerce, Consumer Protection, and Health on H.B. No. 374

The purpose and intent of this measure is to require the Auditor to conduct a sunrise analysis regarding the establishment of licensure and certification requirements for dental assistants.

Your Committee received testimony in support of this measure from the Hawaii Dental Hygienists' Association and five individuals. Your Committee received comments on this measure from the Board of Dental Examiners, Hawaii Dental Association, and one individual.

Your Committee finds that licensed and registered dentists are permitted under existing law to employ auxiliary personnel, known as dental assistants, to assist a dentist in the dentist's practice. Like dental hygienists, dental assistants are a valuable part of a dental team, and each team member plays a critical role in the execution of outstanding patient care. However, existing law does not require licensure or educational requirements or standardized training for dental assistants. It is therefore not appropriate for dental assistants to be expected or required to perform duties, activities, or functions that, if performed by a dental hygienist, would require licensure.

Your Committee further finds that the Legislature determines duty and scope of practice for licensed professionals in the State. Amendments to this measure are therefore necessary to address these concerns.

Your Committee additionally finds that thirty-eight states and the District of Columbia require some form of certification or licensure for dental assistants. Although dental assistants are not currently regulated in Hawaii, your Committee notes that through the University of Hawaii System, Kapiolani Community College does offer a dental assistant certification program that is accredited by the Commission on Dental Accreditation of the American Dental Association. Your Committee concludes that Hawaii should join the majority of other states that regulate dental assistants. Your Committee notes that requiring some form of credentialing for dental assistants in Hawaii will ensure the public is being treated by educated, trained professionals and will also emphasize the valuable role dental assistants perform within a dental team. Requesting the Auditor to examine the effects of regulation of dental assistants via the certification requirements offered by Kapiolani Community College is therefore appropriate.

Your Committee has amended this measure by:

- (1) Inserting the contents of S.B. No. 344, S.D. 1, a substantially similar measure, which:
 - (A) Clarifies the allowable and prohibited practices requirements for dental assistants;
 - (B) Clarifies that rules shall not infringe upon, overlap with, or conflict with the duties and scope of practice for other licensed professionals;
 - (C) Prohibits persons from employing, directing, or ordering a dental assistant or other person to perform services or procedures within the scope of practice of dental hygiene; and
 - (D) Inserts an effective date of July 1, 2017;
- (2) Clarifying that the Auditor shall conduct a study on the effects of regulation of dental assistants in the State via the certification requirements for dental assistants offered by Kapiolani Community College; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 374, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 374, H.D. 2, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 7. Noes, none. Excused, none.

SCRep. 1006 Higher Education on H.B. No. 1276

The purpose and intent of this measure is to encourage the pursuit of postsecondary education by providing an additional state income tax deduction for student loan interest paid on qualified educational loans.

Your Committee received testimony in support of this measure from the Hawaii State Teachers Association and Graduate Student Organization at the University of Hawai'i at Mānoa. Your Committee received comments on this measure from the Department of Taxation and Tax Foundation of Hawaii.

Your Committee finds that the costs associated with postsecondary education often force students to go into debt. Student debt has increasingly become a burden on individuals and families, and sometimes deters talented individuals from seeking desired education. Your Committee further finds that professions such as teaching that do not offer high compensation suffer from shortages of qualified individuals, and reducing student debt costs could help incentive individuals to pursue these professions. This measure will encourage Hawaii residents to not let the idea of financing a postsecondary education deter them from pursuing a postsecondary education.

Your Committee has amended this measure by:

- (1) Inserting a maximum allowable deduction from gross income of \$5,000 for the state income tax deduction for student loan interest paid on qualified education loans;
- (2) Inserting an effective date of July 1, 2017; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Higher Education that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1276, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1276, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Taniguchi).

SCRep. 1007 Higher Education on H.B. No. 849

The purpose and intent of this measure is to restore the University of Hawai'i's authority to maintain a separate accounting and financial management system that is compatible with the State's accounting and financial system.

Your Committee received testimony in support of this measure from the University of Hawai'i System and Department of Accounting and General Services.

Your Committee finds that the University of Hawai'i updated its accounting system to the Kualii Financial System on July 1, 2012, which serves the University's reporting, regulatory, and accreditation requirements and allows for compatibility with external partners.

The Kualii Financial System is a comprehensive financial software package that was developed, and is supported by, a consortium of universities that use an open source and partner enhanced process. Your Committee also finds that since the implementation of the Kualii Financial System, the University continues to provide bi-monthly payroll feeds to the Department of Accounting and General Services, in addition to other required financial reports. Your Committee notes that the University of Hawai'i's authorization to maintain a separate accounting and financial management system ended on June 30, 2016, and this measure will expressly affirm the University's authority to maintain this separate accounting system.

Your Committee has amended this measure by:

- (1) Inserting an effective date of July 1, 2017; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Higher Education that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 849, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 849, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Taniguchi).

SCRep. 1008 Higher Education on H.B. No. 1079

The purpose and intent of this measure is to establish a framework for authorizing post-secondary degree-granting educational institutions that have applied for accreditation by an accrediting agency recognized by the United States Department of Education.

Your Committee received testimony in support of this measure from the Department of Commerce and Consumer Affairs.

Your Committee finds that it is beneficial to students to authorize the Department of Commerce and Consumer Affairs to oversee accreditation-seeking institutions and ensure that the institutions are making acceptable progress toward accreditation. Your Committee further finds that, nationwide, most states issue some type of temporary authorization or approval to institutions that are in the process of applying for accreditation. Finally, your Committee finds that it is beneficial to allow the Director of Commerce and Consumer Affairs to grant temporary waivers of the accreditation requirement when necessary for good cause and the protection of students facing imminent financial hardship.

As affirmed by the record of votes of the members of your Committee on Higher Education that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1079, H.D. 2, and recommends that it pass Second Reading and be referred to your Committees on Commerce, Consumer Protection, and Health and Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Taniguchi).

SCRep. 1009 Water and Land on H.B. No. 861

The purpose and intent of this measure is to require the Department of Land and Natural Resources to:

- (1) Designate and adopt rules for no fewer than five community-based subsistence fishing areas by December 31, 2025; and
- (2) Submit an annual report to the Legislature on the Department's progress, including any recommendations and proposed legislation.

Your Committee received testimony in support of this measure from the Office of Hawaiian Affairs, Kua'āina Ulu 'Auamo, Hawai'i Alliance for Progressive Action, and six individuals. Your Committee received testimony in opposition to this measure from the Hawai'i Fishermen's Alliance for Conservation and Tradition, Inc.; and six individuals. Your Committee received comments on this measure from the Department of Land and Natural Resources.

Your Committee finds that community-based fisheries management can help restore and sustain Hawaii's nearshore resources. The Department of Land and Natural Resources was given the statutory authority in 1994 to establish community-based subsistence fishing areas and rules; however, since that time only one such area has been established. Your Committee notes that due diligence necessitates a certain timeframe for community consultation and proper rule-making, but finds that stronger policy is needed to encourage timely and meaningful adoption of community-based fisheries management in the State.

Your Committee has amended this measure by:

- (1) Removing the requirement that the Department of Land and Natural Resources establish five community-based subsistence fishing area by December 31, 2025;
- (2) Requiring the Department of Land and Natural Resources to adopt rules within two years of receiving a proposal for a community-based subsistence fishing area;
- (3) Clarifying the information required by the annual report to the Legislature; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 861, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 861, H.D. 2, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Gabbard, Kim).

SCRep. 1010 Water and Land on H.B. No. 633

The purpose and intent of this measure is to clarify that aboveground freshwater storage tanks are included in the definition of “appurtenant works” for the purposes of authorizing the issuance of special purpose revenue bonds to assist dam and reservoir owners.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources, Board of Water Supply for the City and County of Honolulu, and one individual.

Your Committee finds that clarifying the definition of “appurtenant works” to include aboveground freshwater storage tanks will broaden the types of improvements eligible for special purpose revenue bond financing. Providing this additional financing option for waterworks projects will assist dam and reservoir owners in implementing improvements, and the savings realized from lower interest rates will help keep water rates affordable for residents who purchase their water supply.

Your Committee has amended this measure by inserting an effective date of March 15, 2009, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 633, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 633, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Inouye).

SCRep. 1011 Water and Land on H.B. No. 630

The purpose and intent of this measure is to appropriate funds for:

- (1) Drought mitigation projects and measures in each county; and
- (2) The establishment of one full-time equivalent permanent planner IV position within the Commission on Water Resource Management to update the Hawaii Drought Plan.

Your Committee received testimony in support of this measure from the Department of Agriculture; Office of the Mayor of the County of Hawai‘i; Board of Water Supply of the City and County of Honolulu; Hawai‘i Farm Bureau; One World One Water, LLC; Ulupono Initiative; and two individuals. Your Committee received testimony in opposition to this measure from the Department of Land and Natural Resources.

Your Committee finds that drought conditions can cause widespread and significant damage in the State, including loss of crops and livestock, irreparable harm to plants and wildlife, increased risk of wildfires, and the potential to leave thousands of state residents without the adequate water supply for daily living needs. Your Committee finds it is imperative to continue to fund drought mitigation efforts at the county level and update the Hawaii Drought Plan to enable the State to successfully endure anticipated future drought conditions.

Your Committee has amended this measure by:

- (1) Inserting an effective date of March 15, 2009, to encourage further discussion; and
- (2) Making a technical, nonsubstantive amendment for the purpose of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 630, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 630, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Inouye).

SCRep. 1012 Water and Land on H.B. No. 437

The purpose and intent of this measure is to prohibit variances for shoreline hardening structures that will artificially fix the shoreline, including a seawall, revetment, or groin, unless:

- (1) A public hearing is held;
- (2) The applicant for the variance demonstrates that the shoreline hardening structure is necessary to protect an existing legal object, structure, or activity from damage due to seawater inundation or shoreline erosion; and
- (3) The legal object, structure, or activity cannot reasonably be protected by relocating it outside the shoreline area.

Your Committee received testimony in support of this measure from the Office of Hawaiian Affairs, Office of Planning, County of Hawai‘i Planning Department, Hawai‘i Alliance for Progressive Action, Maui Tomorrow, and eighteen individuals. Your Committee received testimony in opposition to this measure from the Department of Land and Natural Resources, Land Use Research Foundation of Hawaii, and Outrigger Enterprises Group. Your Committee received comments on this measure from the Department of Transportation and Office of the Mayor of the County of Maui.

Your Committee finds that shoreline hardening structures are necessary in some instances to protect property and infrastructure; however, poor planning and excess of such structures has resulted in the erosion of beaches and shorelines throughout the State. Your Committee notes that beaches and shorelines are culturally, economically, and socially invaluable assets that must be safeguarded for the long-term public interest of the people of Hawaii. Your Committee finds that the additional requirements for approval of a variance mandated in this measure will provide greater oversight and accountability, and will limit the approval of shoreline hardening structures to those instances where the structure is crucial to protect property and infrastructure.

Your Committee has amended this measure by:

- (1) Removing damage due to seawater inundation as a cause for granting a variance;
- (2) Clarifying that the applicant shall provide to the authority for consideration a thorough assessment and comparison of impacts, feasibility, and costs of alternatives to the shoreline hardening structure;
- (3) Amending what information the authority shall consider when reviewing an application for a variance; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 437, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 437, H.D. 2, S.D. 1, and be referred to your Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Gabbard, Kim).

SCRep. 1013 (Joint) Water and Land and Public Safety, Intergovernmental, and Military Affairs on H.B. No. 1200

The purpose and intent of this measure is to appropriate funds to the Department of Land and Natural Resources to conduct a feasibility study to determine the best means to provide a Pohoiki swimming area and develop plans, in cooperation with the United States Army Corps of Engineers, County of Hawaii, and any stakeholders, for a safe swim area.

Your Committees received testimony in support of this measure from the Office of the Mayor of the County of Hawai'i. Your Committees received testimony in opposition to this measure from the Department of Land and Natural Resources.

Your Committees find that there is an increasing need for a safe swim area in Pohoiki. The lava inundation of Kalapana has taken away a large portion of formerly accessible shoreline, and left the growing population of Puna with few safe swimming areas. Swimmers are currently accessing the ocean via the Pohoiki boat ramp; having one access for all ocean users, including boaters, swimmers, divers, surfers, and kayakers, among others, is untenable. Your Committees find that a feasibility study must be completed to find a permanent solution to provide safe ocean access for the people of Puna.

Your Committees have amended this measure by inserting an effective date of March 15, 2099, to encourage further discussion.

As affirmed by the records of votes of the members of your Committees on Water and Land and Public Safety, Intergovernmental, and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 1200, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 1200, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
Water and Land: Ayes, 5. Noes, none. Excused, none.
Public Safety, Intergovernmental, and Military Affairs: Ayes, 5. Noes, none. Excused, none.

SCRep. 1014 (Joint) Water and Land and Public Safety, Intergovernmental, and Military Affairs on H.B. No. 14

The purpose and intent of this measure is to appropriate funds for the employment of lifeguards and purchase of equipment used by lifeguards in the course of their work at Kua Bay, Kekaha Kai State Park.

Your Committees received testimony in support of this measure from the Department of Land and Natural Resources, Hawai'i State Fire Council, Hawaii Fire Department, Hawai'i County Council, Kona-Kohala Chamber of Commerce, and ten individuals.

Your Committees find that Kua Bay, located within Kekaha Kai State Park, has been experiencing increased popularity with growing numbers of visitors due to its location and recent improvements. The increase in visitors has been accompanied by an alarming increase in water safety incidents. Your Committees find that in the interest of public health and safety, it is necessary to appropriate funds for lifeguards and equipment at Kua Bay.

Your Committees have amended this measure by inserting an effective date of March 15, 2099, to encourage further discussion.

As affirmed by the records of votes of the members of your Committees on Water and Land and Public Safety, Intergovernmental, and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 14, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 14, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
Water and Land: Ayes, 4. Noes, none. Excused, 1 (Kim).
Public Safety, Intergovernmental, and Military Affairs: Ayes, 5. Noes, none. Excused, none.

SCRep. 1015 (Joint) Human Services and Commerce, Consumer Protection, and Health on H.B. No. 1272

The purpose and intent of this measure is to specify that coverage for telehealth under the State's Medicaid managed care and fee-for-service programs includes psychiatric services delivered via telehealth through a behavioral health care manager who is present in a primary health care provider's office.

Your Committees received testimony in support of this measure from the Department of Health, The Queen's Health Systems, Hawaii Medical Association, Hawaii Psychiatric Medical Association, and one individual. Your Committees received testimony in opposition to this measure from the Hawaii Association of Professional Nurses and one individual. Your Committees received comments on this measure from the Department of Human Services and Hawaii Medical Service Association.

Your Committees find that the psychiatric collaborative care model of integrated care is ideal for states like Hawaii with community populations that are remote from urban centers because the model does not require the physical presence of a psychiatrist when psychiatric services can be delivered remotely. The psychiatric collaborative care model supports mental and behavioral health through a team-based, coordinated approach involving a psychiatric consultant, a behavioral health care manager, and the primary care clinician extending beyond the scope of an office visit. Including coverage for psychiatric services provided through a collaborative care model that emulates the Centers for Medicare and Medicaid Services collaborative care program will ensure that more patients will receive the health care they need in a timely and efficient manner.

Your Committees have amended this measure by:

- (1) Clarifying that a psychiatric consultant shall be a licensed psychiatrist in the State;
- (2) Deleting the definition of “psychiatric consultation services”; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Human Services and Commerce, Consumer Protection, and Health that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 1272, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 1272, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Human Services: Ayes, 3. Noes, none. Excused, 2 (Tokuda, Wakai).

Commerce, Consumer Protection, and Health: Ayes, 5. Noes, none. Excused, 2 (Espero, Kidani).

SCRep. 1016 (Joint) Human Services and Education on H.B. No. 499

The purpose and intent of this measure is to:

- (1) Repeal the priority given by the preschool open doors program to children who are not eligible to attend public school kindergarten in the calendar year in which they turn five years of age because their birth date occurs after the kindergarten eligibility date; and
- (2) Provide that priority given by the preschool open doors program to undeserved or at-risk children shall be given to children whose family income is at or below two hundred fifty per cent of the federal poverty level.

Your Committees received testimony in support of this measure from the Executive Office on Early Learning, State Public Charter School Commission, Native Hawaiian Education Council, Hawaii Children’s Action Network, and Kamehameha Schools. Your Committees received comments on this measure from the Department of Human Services and Parents and Children Together.

Your Committees find that the preschool open doors program is Hawaii’s school readiness program that provides critical subsidies for low to moderate income families sending their children to a licensed preschool to prepare them for kindergarten. By providing priority for underserved or at-risk children or children who are not eligible to attend public school kindergarten in the calendar year in which they turn five years of age because of their date of birth occurring after the eligibility date, the preschool open doors program creates short-term and long-term benefits for children, individuals, and society as a whole.

Your Committees have amended this measure by reinstating language that provides priority for the preschools open doors program to four-year-old children who are not eligible to attend public school kindergarten in the calendar year in which they turn five years of age because their birth date occurs after the kindergarten eligibility date.

As affirmed by the records of votes of the members of your Committees on Human Services and Education that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 499, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 499, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Human Services: Ayes, 3. Noes, none. Excused, 2 (Tokuda, Wakai).

Education: Ayes, 3. Noes, none. Excused, 2 (Dela Cruz, Espero).

SCRep. 1017 (Joint) Human Services and Commerce, Consumer Protection, and Health on H.B. No. 1396

The purpose and intent of this measure is to authorize the Department of Health, in consultation with the Department of Human Services, to allow two private-pay individuals to be cared for in the same community care foster family home if certain requirements are met.

Your Committees received testimony in support of this measure from the Department of Human Services and Department of Health. Your Committees received testimony in opposition to this measure from one individual. Your Committees received comments on this measure from the Hawaii Disability Rights Center.

Your Committees find that community care foster family homes provide an essential function in the State by providing twenty-four-hour living accommodations, which include housing, supervision, personal care, and assistance with daily living activities for their residents. Community care foster family homes are licensed to provide accommodations and services to not more than two adults at any one time, at least one of whom shall be a Medicaid recipient, who are at the nursing facility level of care. However, the Department of Health may certify a community care foster family home for a third adult who is at the nursing level of care and a Medicaid recipient, provided certain requirements are met.

Your Committees further find that as the cost of medical care continues to rise, it is becoming apparent that even those who do not rely on Medicaid for their long-term care cannot afford the cost of private care, leaving this population also with limited options. This

measure recognizes the varied needs of the State's aging population by allowing the Department of Health flexibility to include two private-pay individuals to be cared for in the same community care foster family home under certain qualifying conditions.

Your Committees have amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Human Services and Commerce, Consumer Protection, and Health that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 1396, H.D. 2, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 1396, H.D. 2, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Human Services: Ayes, 3. Noes, none. Excused, 2 (Tokuda, Wakai).

Commerce, Consumer Protection, and Health: Ayes, 5. Noes, none. Excused, 2 (Espero, Kidani).

SCRep. 1018 (Joint) Human Services and Commerce, Consumer Protection, and Health on H.B. No. 90

The purpose and intent of this measure is to:

- (1) Continue the nursing facility sustainability program for two years; and
- (2) Appropriate funds out of the nursing facility sustainability program special fund for fiscal years 2017-2018 and 2018-2019.

Your Committees received testimony in support of this measure from the Department of Human Services, Hawaii Health Systems Corporation, Chamber of Commerce Hawaii, Hawai'i Pacific Health, Healthcare Association of Hawaii, The Queen's Health Systems, and one individual.

Your Committees find that nursing facilities in the State face major financial challenges in providing quality long-term care for Hawaii residents. As a result, the Legislature created the nursing facility sustainability program to increase Medicaid payments to nursing facilities in recognition that Medicaid payments to nursing facilities are below the actual costs of care. The additional federal funds obtained via the fee program authorized by the nursing facility sustainability program have helped to reduce the amount of losses incurred by long-term care facilities and maintain access to care for Medicaid recipients. Because the majority of residents in Hawaii's nursing facilities are Medicaid enrollees, the nursing facility sustainability program ensures that they have access to quality care.

Your Committees have amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Human Services and Commerce, Consumer Protection, and Health that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 90, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 90, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Human Services: Ayes, 3. Noes, none. Excused, 2 (Tokuda, Wakai).

Commerce, Consumer Protection, and Health: Ayes, 5. Noes, none. Excused, 2 (Espero, Kidani).

SCRep. 1019 (Joint) Human Services and Commerce, Consumer Protection, and Health on H.B. No. 432

The purpose and intent of this measure is to make financial exploitation of an elder by a caregiver a felony.

Your Committees received testimony in support of this measure from the Department of the Prosecuting Attorney of the City and County of Honolulu, Honolulu Police Department, Maui County Office on Aging, AARP Hawaii, National Active and Retired Federal Employees Association, Hawaii Family Forum, and three individuals.

Your Committees find that financial exploitation is a fast-growing form of elder abuse. Financial exploitation occurs when a person misuses or takes the assets of an elderly victim for that person's own personal benefit. While state laws and various services protect vulnerable adults, including the elderly, providing an additional deterrent against financial exploitation will further protect the elderly and ensure that they are financially safe.

Your Committees have amended this measure by:

- (1) Inserting an amount of \$50,000 as the minimum total value of the money or property taken or used by a caregiver that would constitute the offense of financial exploitation of an elder;
- (2) Specifying that financial exploitation of an elder is a class A felony;
- (3) Clarifying the definition of "elder" to mean a person who is sixty years of age or older; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Human Services and Commerce, Consumer Protection, and Health that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 432, H.D. 2, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 432, H.D. 2, S.D. 1, and be referred to your Committee on Judiciary and Labor.

Signed by the Chairs on behalf of the Committees.

Human Services: Ayes, 3. Noes, none. Excused, 2 (Tokuda, Wakai).

Commerce, Consumer Protection, and Health: Ayes, 5. Noes, none. Excused, 2 (Espero, Kidani).

SCRep. 1020 (Joint) Human Services and Commerce, Consumer Protection, and Health on H.B. No. 89

The purpose and intent of this measure is to:

- (1) Continue the hospital sustainability program for two years;
- (2) Clarify that the rate of the outpatient hospital sustainability fee shall not exceed three percent of net outpatient hospital service revenue;
- (3) Allow the Department of Human Services to exclude any facility from the hospital sustainability fee on outpatient care services if its exclusion is required to meet federal standards of approval; and
- (4) Appropriate funds out of the hospital sustainability program special fund for fiscal years 2017-2018 and 2018-2019.

Your Committees received testimony in support of this measure from the Department of Human Services, Hawaii Health Systems Corporation, Office of the Mayor of the County of Hawai'i, Chamber of Commerce Hawaii, Hawai'i Pacific Health, Healthcare Association of Hawaii, and The Queen's Health Systems.

Your Committees find that the Legislature created the hospital sustainability program, which was enacted by Act 217, Session Laws of Hawaii 2012, to increase Medicaid payments to hospitals in recognition that Medicaid payments to hospitals were below the actual costs of care. Because of the hospital sustainability program, Medicaid payments to many facilities in the State are closer to the actual costs of care, which helps to ensure that Medicaid patients have access to the hospital care they need.

As affirmed by the records of votes of the members of your Committees on Human Services and Commerce, Consumer Protection, and Health that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 89, H.D. 1, and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Human Services: Ayes, 3. Noes, none. Excused, 2 (Tokuda, Wakai).

Commerce, Consumer Protection, and Health: Ayes, 5. Noes, none. Excused, 2 (Espero, Kidani).

SCRep. 1021 (Joint) Commerce, Consumer Protection, and Health and Higher Education on H.B. No. 916

The purpose and intent of this measure is to address the shortage of primary healthcare providers in Hawaii by appropriating funds to the loan repayment program administered through the John A. Burns School of Medicine at the University of Hawaii at Manoa.

Your Committees received testimony in support of this measure from the Department of Health, Department of Labor and Industrial Relations, Hawai'i Psychological Association, University of Hawai'i System, Hawai'i Academy of Family Physicians, Healthcare Association of Hawaii, Hawaii Association of Professional Nurses, Lāna'i Community Health Center, Hawai'i Pacific Health, East Hawaii Region of Hawaii Health Systems Corporation, The Queen's Health Systems, Big Island Toyota, International Longshore and Warehouse Union Local 142 Hawaii, AlohaCare, and twelve individuals.

Your Committees find that Hawaii is facing a shortage of over five hundred doctors, and that this shortage threatens the health of Hawaii residents and cumulatively affects the State's healthcare costs. Your Committees further find that access to care in rural and underserved areas of Hawaii is especially concerning, as these areas have been the most significantly affected by the shortage of primary and behavioral healthcare providers.

Your Committees recognize the need for the State to attract healthcare professionals to practice in Hawaii and find that loan repayment assistance is one of the fastest and least expensive methods to recruit providers. Currently, the John A. Burns School of Medicine at the University of Hawaii at Manoa administers the only loan repayment program available in the State to healthcare professionals and has helped healthcare professionals who serve in communities including Waianae, Hilo, and Wailuku. Your Committees note testimony submitted by the University of Hawai'i System indicating that because federal funding for the program requires a local dollar-for-dollar match, without financial support from the State the program will not be able to reapply for the federal grant and the loan repayment program will end.

Your Committees have amended this measure by:

- (1) Inserting language to clarify that the loan repayment program referred to is the Hawaii Rural Health Care Provider Loan Repayment Program and deleting the reference to psychologists, social workers, licensed professional counselors, and marriage and family therapists benefitting from the program because those professions are not included in section 309H-3, Hawaii Revised Statutes, which establishes the Hawaii Rural Health Care Provider Loan Repayment Program; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Commerce, Consumer Protection, and Health and Higher Education that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 916, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 916, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Commerce, Consumer Protection, and Health: Ayes, 4. Noes, none. Excused, 3 (Ihara, Kidani, Nishihara).

Higher Education: Ayes, 4. Noes, none. Excused, 1 (Kidani).

SCRep. 1022 (Joint) Agriculture and Environment and Water and Land on H.B. No. 904

The purpose and intent of this measure is to:

- (1) Establish and appropriate funds to the invasive species rapid response special fund for the purposes of mitigating or eradicating newly detected invasive species threats in the State; and

- (2) Authorize the Invasive Species Council to request that the Governor declare an invasive species emergency when the Council determines that a newly detected invasive species poses a substantial threat to the agriculture, commerce, economy, environment, or public health of the State.

Your Committees received testimony in support of this measure from the Department of Agriculture, Department of Land and Natural Resources, Office of the Mayor of the County of Hawaii, Conservation Council for Hawai'i, The Nature Conservancy, and five individuals. Your Committees received testimony in opposition to this measure from Animal Rights Hawai'i and Best Friends Animal Society. Your Committees received comments on this measure from the Department of Budget and Finance and The Humane Society of the United States.

Your Committees find that the invasion of Hawaii by insects, disease-bearing organisms, snakes, weeds, and other pests is a significant threat to Hawaii's economy and natural environment and to the health and lifestyle of Hawaii's people. Your Committees further find that an invasive species rapid response fund will increase the State's ability to immediately respond to threats from invasive species at the time of first detection, thus enhancing invasive species prevention and mitigation in Hawaii to effectively protect the State's natural resources and economy and the health and lifestyle of its people.

Your Committees have amended this measure by making it effective on July 1, 2017.

Your Committees recommend that if your Committee on Ways and Means chooses to pass this measure that it consider inserting an appropriation amount of \$300,000 for deposit into the invasive species rapid response special fund.

As affirmed by the records of votes of the members of your Committees on Agriculture and Environment and Water and Land that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 904, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 904, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Agriculture and Environment: Ayes, 3. Noes, none. Excused, 2 (Nishihara, Ruderman).

Water and Land: Ayes, 5. Noes, none. Excused, none.

SCRep. 1023 (Joint) Agriculture and Environment and Higher Education on H.B. No. 1006

The purpose and intent of this measure is to appropriate funds to the Hawaii Ant Lab of the Pacific Cooperative Studies Unit of the University of Hawaii, to support mitigation of the little fire ant.

Specifically, this measure appropriates funds for:

- (1) Two full-time equivalent (2.0 FTE) operator positions and one full-time equivalent (1.0 FTE) supervisor position;
- (2) A vehicle and operating costs of public outreach and treatment;
- (3) Ant baits;
- (4) Field equipment and personal protective equipment; and
- (5) Computers and printers.

Your Committees received testimony in support of this measure from the Department of Agriculture; Department of Land and Natural Resources; Office of the Mayor of the County of Hawaii; Conservation Council for Hawai'i; Hawai'i Farm Bureau; Little Fire Ant HUI; Hawaii Cattlemen's Council, Inc.; and two individuals.

Your Committees find that the little fire ant, *Wasmannia auropunctata*, threatens native biodiversity, alters tropical ecosystems, impairs human health, impedes tourism, diminishes agricultural productivity, mars horticulture sales, and accordingly ranks among the world's worst invasive species. The County of Hawaii has been affected most by the little fire ant. Your Committees therefore support all efforts to mitigate and eradicate the little fire ant.

Your Committees have amended this measure by making it effective on July 1, 2017.

Your Committees recommend that if your Committee on Ways and Means chooses to pass this measure, that it consider inserting an appropriation amount of \$360,000 for the Hawaii Ant Lab of the Pacific Cooperative Studies Unit of the University of Hawaii, to support mitigation of the little fire ant.

As affirmed by the records of votes of the members of your Committees on Agriculture and Environment and Higher Education that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 1006, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 1006, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Agriculture and Environment: Ayes, 4. Noes, none. Excused, 1 (Nishihara).

Higher Education: Ayes, 3. Noes, none. Excused, 2 (Keith-Agaran, Taniguchi).

SCRep. 1024 (Joint) Agriculture and Environment and Higher Education on H.B. No. 889

The purpose and intent of this measure is to:

- (1) Increase the pesticide licensing fee and require annual renewal of the license;
- (2) Amend authorized uses for monies in the pesticide use revolving fund and repeal the cap on the fund;

- (3) Require the Department of Agriculture and University of Hawaii College of Tropical Agriculture and Human Resources (CTAHR) to execute a memorandum of understanding and submit a report to the Legislature regarding the expenditure of monies from the pesticide use revolving fund;
- (4) Establish an environmental toxicologist position within the Department of Agriculture to partner with the Department of Health toxicologist, through a memorandum of understanding, to expand the technical capacity of the Departments of Agriculture and Health to analyze findings and make recommendations regarding environmental and human health;
- (5) Establish a pesticide extension specialist position, through a contract with the Department of Agriculture, within CTAHR; and
- (6) Appropriate funds out of the pesticide use revolving fund for specific purposes.

Your Committees received testimony in support of this measure from the Chamber of Commerce Hawaii; Hawaii Crop Improvement Association; Western Plant Health Association; CropLife America; Maui County Farm Bureau; PonoHolo Ranch, Limited; Alexander & Baldwin, Inc.; Hawaii Center for Food Safety; Hawai'i Farm Bureau; and eighty-nine individuals. Your Committees received testimony in opposition to this measure from the Hawaii Cattlemen's Council, Inc.; Life of the Land; and one individual. Your Committees received comments on this measure from the Department of Agriculture, University of Hawai'i System, and Hawaii Island School Garden Network.

Your Committees find that the Department of Agriculture is responsible for ensuring that the nearly 10,000 pesticides registered for use in Hawaii are used properly. Your Committees further find that the pesticide use revolving fund is comprised of funds collected by the Department of Agriculture from pesticide license fees, restricted use pesticide dealer license fees, and training fees and is used to support the pesticide program's registration and licensing, certification and education, and compliance monitoring activities. The revolving fund may also be used to establish pesticide training workshops, educational programs, development of integrated pest management strategies, and other services to benefit users of pesticides, including collection, disposal, and recycling of pesticide containers.

Your Committees appreciate the intent of this measure to amend the authorized uses of and repeal the cap on the pesticide use revolving fund; however, based on the testimonies of the Department of Agriculture and University of Hawaii System, your Committees find that other aspects of the bill are unnecessary or may have potentially burdensome fiscal and management implications. Your Committees find that it is best at this time to increase the cap on the pesticide use revolving fund rather than amending its permissible uses and making specific appropriations. An increase on the fund's cap will increase the ability of the Department of Agriculture to conduct critical training and outreach to:

- (1) Ensure that pesticides are not misused, as the misuse of pesticides is not only illegal but may also endanger the health and safety of people and the environment;
- (2) Assist in the disposal of pesticides and pesticide containers; and
- (3) Supplement environmental studies, such as groundwater reviews and water sampling activities.

Accordingly, your Committees have amended this measure by:

- (1) Deleting section 2 which increased in license fee and decreased the renewal term of the license;
- (2) Deleting the proposed new language and restoring the stricken language in section 3;
- (3) Increasing the cap on the pesticide use revolving fund from \$250,000 to \$1,000,000;
- (4) Deleting parts III and IV;
- (5) Amending section 1 to reflect the amended purpose;
- (6) Making it effective July 1, 2017; and
- (7) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Agriculture and Environment and Higher Education that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 889, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 889, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Agriculture and Environment: Ayes, 3. Noes, none. Excused, 2 (Nishihara, Rhoads).

Higher Education: Ayes, 3. Noes, none. Excused, 2 (Kidani, Taniguchi).

SCRep. 1025 Hawaiian Affairs on H.B. No. 451

The purpose and intent of this measure is to reduce the minimum Hawaiian blood quantum requirement of certain successors to lessees of Hawaiian home lands from one quarter to one thirty-second.

Your Committee received testimony in support of this measure from the Department of Hawaiian Home Lands; Office of Hawaiian Affairs; Kalamaula Homestead Association; Sovereign Council of Hawaiian Homelands Assembly; Ka Lāhui Hawaii Political Action Committee; Waiohuli Undivided Interest Lessees; Association of Hawaiian Civic Clubs; Ho'omana Pono, LLC; and numerous individuals. Your Committee received testimony in opposition to this measure from the Center for Hawaiian Sovereignty Studies.

Your Committee finds that many descendants of lessees of Hawaiian home lands do not qualify as successors because interracial marriages and blended families produce descendants who are less than twenty-five percent Hawaiian. These disruptions create undue hardships of displacement and interfere with families' abilities to maintain the equity of their homes and businesses.

Your Committee has amended this measure by clarifying that it takes effect upon its approval by the Governor of the State of Hawaii and upon the consent of the United States Congress.

As affirmed by the record of votes of the members of your Committee on Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 451, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 451, H.D. 1, S.D. 1, and be referred to your Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (English, Kim).

SCRep. 1026 Hawaiian Affairs on H.B. No. 620

The purpose and intent of this measure is to appropriate funds for the Kaho'olawe Island Reserve Commission to hire full-time personnel to undertake projects that promote water sustainability and photovoltaic powered desalinization on the island of Kaho'olawe.

Your Committee received testimony in support of this measure from the Kaho'olawe Island Reserve Commission, Department of Planning of the County of Maui, and numerous individuals. Your Committee received testimony in opposition to this measure from the Ka Lāhui Hawaii Political Action Committee, Center for Hawaiian Sovereignty Studies, and one individual. Your Committee received comments on this measure from one individual.

Your Committee finds that the island of Kaho'olawe was of significant cultural and historic importance to the native people of Hawaii. Your Committee further finds that there are unique challenges to restoring, preserving, and determining the appropriate use of Kaho'olawe. Kaho'olawe still suffers from extensive erosion and other ecological problems, the presence of unexploded ordnance, the existence of archaeological and other cultural and historic sites, and the presence of native and endangered flora and fauna.

Act 161, Session Laws of Hawaii 1994, established the Kaho'olawe Reserve Trust Fund, codified as section 6K-9.5, Hawaii Revised Statutes, to supplement federal funds for the cleanup of unexploded ordnance on Kaho'olawe. On May 9, 1994, the management and control of the Kaho'olawe island reserve was transferred from the United States Navy to the State of Hawaii, with the Kaho'olawe Island Reserve Commission as the state agency designated to oversee the use and restoration of the reserve. During the past ten years, the Kaho'olawe Island Reserve Commission has been able to develop innovative restoration projects that are effective in the extremely harsh conditions of Kaho'olawe and will serve as the foundation for the future restoration of the island.

A fiscal audit of the Kaho'olawe Rehabilitation Trust Fund performed by the Office of the Auditor in 2013 (Auditor Report No. 13-06) found that the trust fund will be depleted imminently without an infusion of additional monies.

The Kaho'olawe Island Reserve Commission's 2026 strategic plan for Kaho'olawe lays out a pathway for the future use and management of the Kaho'olawe island reserve. The strategic plan aims to restore the ecological damage on Kaho'olawe and protect the endangered and rare flora and fauna, so that the people of Hawaii who visit the Kaho'olawe island reserve can do so meaningfully and safely. The strategic plan is entitled "I Ola Kanaloa", or "Life to Kanaloa", and addresses the future restoration, management, and uses of Kaho'olawe for the State, the people of Hawaii, and a possible future sovereign Native Hawaiian entity.

Your Committee further finds that without additional funding, the Kaho'olawe Island Reserve Commission will not be able to continue implementation of its 2026 strategic plan.

Your Committee has amended this measure by:

- (1) Amending the purpose of the appropriation to promote water sustainability, photovoltaic powered desalinization, and general operations of the Kaho'olawe Island Reserve Commission on the island of Kaho'olawe;
- (2) Inserting an effective date of July 1, 2017; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 620, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 620, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (English, Kim).

SCRep. 1027 Hawaiian Affairs on H.B. No. 335

The purpose and intent of this measure is to enact the Office of Hawaiian Affairs Appropriations Act of 2017 to appropriate funds for the Office of Hawaiian Affairs for the fiscal biennium beginning July 1, 2017, and ending June 30, 2019.

Your Committee received testimony in support of this measure from the Office of Hawaiian Affairs, Hawaiian Affairs Caucus of the Democratic Party of Hawai'i, Kamehameha Schools, Alaka'aina Foundation, Native Hawaiian Chamber of Commerce, Pacific Islanders in Communications, Papa Ola Lōkahi, Kua'āina Ulu 'Auamo, Ho'omana Pono, LLC, Hawai'i Green Growth, Hawaiian Media Makers, Kalihi Palama HCC, Mana Maoli, Solutions Pacific, and five individuals.

Your Committee finds that the Office of Hawaiian Affairs is focused on strategic priorities for improving the conditions of Native Hawaiians in the areas of 'aina, economic self sufficiency, education, governance, and health. The Office of Hawaiian Affairs also conducts research to guide decisions and empower communities to inspire positive results in these areas.

Your Committee further finds that the Office of Hawaiian Affairs enhances Hawaiian well-being by collaborating with various organizations to strengthen community resources. The Office of Hawaiian Affairs provides Native Hawaiian students with scholarship money to help pay for college and loans to help Native Hawaiians start businesses, improve homes, consolidate debts, and continue their education. The Office of Hawaiian Affairs also awards money to various organizations aiding Hawaiians, including Hawaiian-focused charter schools, Papa Ola Lōkahi, and the Department of Hawaiian Home Lands.

Your Committee further finds that the Office of Hawaiian Affairs remains committed to leveraging each state dollar it receives toward targeted programs and services that systematically benefit the Native Hawaiian and larger Hawai'i communities.

Your Committee desires to bring to the attention of your Committee on Ways and Means the written testimony of the Office of Hawaiian Affairs on this measure and its proposed S.D. 1, which restores some of the funding that has been reduced in the H.D. 2 version of this measure. Your Committee believes that the Office of Hawaiian Affairs is taking a harsh cut to its budget that will result in layoffs of personnel and jeopardize current levels of social services and improvement programs in education, health, housing, and income for Native Hawaiians. These programs are the very essence of the office's constitutional and statutory duties to better the condition of Native Hawaiians. Your Committee sympathizes with the Office of Hawaiian Affairs, but realizes at the same time that the Council on Revenues has significantly adjusted downward its projection of revenues for the upcoming fiscal year. This means that all state departments and agencies must share in the sacrifice by reducing their budgets. The Office of Hawaiian Affairs has indicated that it understands this reality, however your Committee requests your Committee on Ways and Means to preserve the Office's budget to the greatest extent possible, and at the very least to preserve the funding levels in the H.D. 2 version of this measure, in order to continue to the betterment of Native Hawaiians.

As affirmed by the record of votes of the members of your Committee on Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 335, H.D. 2, and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Green, Kim).

SCRep. 1028 Housing on H.B. No. 599

The purpose and intent of this measure is to:

- (1) Amend the Hawaii State Planning Act to prioritize housing opportunities for extremely low- to above moderate- income households;
- (2) Require periodic updates to functional plans; and
- (3) Amend the member nomination process for advisory committees for functional plans.

Your Committee received testimony in support of this measure from the Office of Planning and one individual. Your Committee received comments on this measure from the Office of Hawaiian Affairs.

Your Committee finds that the cost of housing in Hawaii is among the highest in the nation. Your Committee further finds that the Hawaii state plan is an important tool for shaping the policy priorities in Hawaii. Your Committee additionally finds that the Hawaii state plan in general, and the functional plans generated by various state agencies in particular, can provide necessary guidance and incentives for the development of affordable housing units throughout the State. This measure will refine the State's priority of providing affordable housing and ensure that state agencies maintain updated functional plans in their respective areas.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 599, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 599, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Kahele, Keith-Agaran).

SCRep. 1029 Housing on H.B. No. 1179

The purpose and intent of this measure is to:

- (1) Expand the types of rental housing projects that can be exempt from general excise taxes; and
- (2) Allow the terms of collective bargaining agreements and associated provisions to be deemed the prevailing wages and terms serving as the basis of compliance with chapter 104, Hawaii Revised Statutes, for the construction of certain rental housing projects.

Your Committee received testimony in support of this measure from the Department of Labor and Industrial Relations, Hawaii Housing Finance and Development Corporation, Office of the Mayor of the County of Hawaii, Pacific Resource Partnership, Hawaii Construction Alliance, Hawaii Rental Housing Coalition, and one individual. Your Committee received comments on this measure from the Department of Taxation, Hawaii Community Development Authority, and Tax Foundation of Hawaii.

Your Committee finds that a critical shortage of affordable housing exists in Hawaii. Your Committee further finds that, of the estimated 64,700 housing units required to meet projected long-term housing demands, over 22,200 are rental units. Your Committee additionally finds that high costs associated with constructing and operating rental housing discourage developers from producing needed affordable rental units. This measure will establish a tax incentive and simplify wage law compliance for developers and contractors who build affordable rental housing units.

Your Committee has amended this measure by:

- (1) Allowing the terms of project labor agreements to be deemed prevailing wages when those terms conform to the Hawaii prevailing wage schedule and the amount of wages have been approved by the Director of Labor and Industrial Relations;
- (2) Applying the tax credit to taxable years beginning after December 31, 2017; and

- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1179, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1179, H.D. 2, S.D. 1, and be referred to your Committees on Judiciary and Labor and Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Kahele, Keith-Agaran).

SCRep. 1030 Transportation and Energy on H.B. No. 306

The purpose and intent of this measure is to require persons charged with operating a vehicle under the influence of an intoxicant or habitually operating a vehicle under the influence of an intoxicant to be fitted with a continuous alcohol monitoring device under certain circumstances.

Your Committee received testimony in support of this measure from the Department of Transportation, Honolulu Police Department, Department of the Prosecuting Attorney of the City and County of Honolulu, Alcohol Monitoring Systems Inc., and two individuals. Your Committee received testimony in opposition to this measure from the Office of the Public Defender and Smart Start, LLC. Your Committee received comments on this measure from Mothers Against Drunk Driving HAWAII.

Your Committee finds that this measure addresses the issue of repeat offenders charged with driving while under the influence of an intoxicant. According to testimony, during the 2015 calendar year, the Administrative Driver's License Revocation Office adjudicated one thousand seventy-one cases involving repeat offenders which represents seventeen percent of the total number cases handled that year. These repeat offenders continued to drive, placing other roadway users at risk. Additionally, of the ninety-three motor vehicle fatalities that occurred in the 2015 calendar year, fifty-one individuals, or 54.8 percent, had positive alcohol and or drug results.

Your Committee finds that this measure will reduce the number of fatalities caused by drivers driving while under the influence of an intoxicant.

Your Committee has amended this measure, upon the recommendation of the Department of the Prosecuting Attorney of the City and County of Honolulu, by:

- (1) Clarifying that this measure applies to a person who is a repeat intoxicated driver;
- (2) Clarifying that removal of the device upon being taken into custody by the Department of Public Safety or for a verified medical reason, is not a violation of the terms of release on bail, and requires the person to be refitted with a continuous alcohol monitoring device;
- (3) Requiring the continuous alcohol monitoring device to be fitted, maintained, and monitored by a single vendor statewide with all costs associated with the monitoring device to be paid by the person;
- (4) Requiring the vendor to provide partial financial relief for the fitting and maintenance charges to persons who apply for such assistance and who are recipients, at the time of license revocation or suspension, of either food stamps under the Supplemental Nutrition Assistance Program, or free services under the Older Americans Act or Developmentally Disabled Assistance and Bill of Rights Act; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Transportation and Energy that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 306, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 306, H.D. 2, S.D. 1, and be referred to your Committees on Judiciary and Labor and Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (English, Harimoto).

SCRep. 1031 Transportation and Energy on H.B. No. 1587

The purpose and intent of this measure is to replace the state vehicle weight tax with a tax based on the assessed value of the vehicle.

Your Committee received testimony in support of this measure from the Department of Transportation. Your Committee received testimony in opposition to this measure from the Hawaii Transportation Association and Hawaii Auto Dealers Association. Your Committee received comments on this measure from the Department of Customer Services of the City and County of Honolulu and Tax Foundation of Hawaii.

Your Committee finds that the vehicle weight tax has historically been used for road construction and repairs and is the major source of funding for the state highway fund. The Department of Transportation testified that changing from a vehicle weight tax to an ad valorem tax may negatively impact the Department's highway revenue bonds ratings. The fiscal impact of this measure is unclear and an ad valorem tax may be more complex to administer and may be a less stable source of funding because the taxable value of a vehicle will decline over time due to depreciation.

Your Committee has amended this measure by:

- (1) Deleting its contents and inserting provisions to raise motor vehicle fuel taxes by unspecified amounts;
- (2) Inserting an effective date of July 1, 2017; and

- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Transportation and Energy that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1587, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1587, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3; Ayes with Reservations (Dela Cruz). Noes, none. Excused, 2 (English, Harimoto).

SCRep. 1032 Transportation and Energy on H.B. No. 1580

The purpose and intent of this measure is to:

- (1) Establish a clean ground transportation benchmark framework to maximize consumer fuel savings, including a near term 2025 target encouraging electric vehicle infrastructure buildout supporting Hawaii's goal for the reduction and ultimate elimination of the use of imported fuels for ground transportation; and
- (2) Direct the Department of Transportation to collaborate with the state energy office to develop recommendations to achieve those benchmarks.

Your Committee received testimony in support of this measure from the Department of Transportation; Department of Business, Economic Development, and Tourism; Office of Economic Development, County of Kauai; Hawaiian Electric Company, Inc.; Sierra Club of Hawai'i; Tesla, Inc.; Culture Guru, Inc.; Americans for Democratic Action; Citizens' Climate Lobby; Baldwin Professional Services, LLC; Students of Sustainability, SOS Hilo, Hawaii; Student Sustainability Coalition of Hawai'i; Waikiki Bike Tours & Rentals; Young Progressives Demanding Action; Pacific Biodiesel Technologies; Blue Planet Foundation; Big Island EV Association; Graduate Student Organization University of Hawai'i at Manoa; We Are One, Inc.; Hawaii Transportation Association; Hawaii Petroleum Marketers Association; Hawaii Bicycling League; and eighty-one individuals. Your Committee received comments on this measure from the Office of the Mayor, County of Hawaii and one individual.

Your Committee finds that it is vital that the State begin transitioning away from imported fossil fuel-powered ground transportation. Moving away from imported fossil fuel-powered ground transportation is an important step in moving toward cleaner and more efficient transportation systems powered by renewable, local energy sources. Eliminating the State's reliance on imported fossil fuel-powered ground transportation will also combat greenhouse gas emissions which contribute to climate change. Climate change causes sea levels to rise which threatens coastal residences and businesses and poses other additional risks to public health. An effective way to combat the State's reliance on imported fossil fuels and, thus, climate change is to transition to the use of electric vehicles. Electric vehicles also provide the added benefit of being less expensive to operate on a per-mile basis than their gas-powered counterparts. However, the effective transition to widespread use of electric vehicles across the State requires the development of critical infrastructure elements, such as electric vehicle charging stations. Consequently, establishing a plan and a target date for transitioning to clean ground transportation are essential steps in progressing toward the State's goal of one hundred percent clean energy ground transportation.

Accordingly, your Committee has amended this measure by:

- (1) Adding language to clarify that the Department of Transportation is to identify a plan for the reduction and ultimate elimination of the State's dependence on imported fossil fuels for ground transportation by 2045;
- (2) Updating the definition of "electric vehicle" to include fuel cell electric vehicles and defining "fuel cell electric vehicle";
- (3) Requiring a plan for the installation of one electric vehicle charging station for every five electric vehicles deployed or the installation of one electric vehicle charging station for every thirty miles;
- (4) Codifying the Hawaii clean ground transportation initiative in chapter 196, Hawaii Revised Statutes, the energy resources chapter, rather than chapter 264, Hawaii Revised Statutes, the highways chapter; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Transportation and Energy that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1580, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1580, H.D. 2, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (English, Harimoto).

SCRep. 1033 (Joint) Transportation and Energy and Water and Land on H.B. No. 634

The purpose and intent of this measure is to authorize the issuance of special purpose revenue bonds to the Board of Water Supply to upgrade Nuuanu reservoir #1 to meet dam safety standards, as a component of the Nuuanu hydroelectricity project.

Your Committees received testimony in support of this measure from the Department of Land and Natural Resources, Board of Water Supply, Ulupono Initiative, American Society of Civil Engineers Hawaii Section, and Healthy Climate Communities. Your Committees received testimony in opposition to this measure from the Hui Malama 'Auwai O Nu'uanu. Your Committees received comments on this measure from the Department of the Attorney General and Department of Budget and Finance.

Your Committees find that achieving the stated goal of transitioning Hawaii to a clean energy economy is essential for the State's future sustainability. Achieving a one hundred percent renewable energy economy will require the utilization of all available renewable energy resources, including hydroelectricity. There is great potential for hydroelectric energy generation on the Island of Oahu, with at least one estimate suggesting that there may be as much as one hundred to two hundred megawatts of pumped storage hydro on the island. The Nuuanu hydroelectricity project, which will connect existing reservoirs in Nuuanu Valley to generate

renewable hydroelectric energy, provide energy storage of off-peak solar or wind energy supplies, and supplement usable groundwater supplies, can play a central role in harnessing Oahu's hydroelectric energy potential. Nuuanu reservoir #1 is an essential component of the Nuuanu hydroelectricity project. However, your Committees understand the testimony of the Department of the Attorney General explaining that the intent of this measure is to upgrade Nuuanu reservoir #1 to comply with applicable dam safety standards in anticipation of future hydroelectric energy generation.

Accordingly, your Committees have amended this measure by:

- (1) Changing references to part VI, chapter 39A, Hawaii Revised Statutes, to part XII, chapter 39A, Hawaii Revised Statutes; and
- (2) Clarifying language to make clear that this measure is a reservoir upgrade project and not an electricity generation project.

Your Committees also note that upgrades to Nuuanu reservoir #1 present some significant potential risks to families living downstream. Consequently, your Committees are concerned about the potential impacts on families in the area of any dam project. Accordingly, your Committees want to ensure that those potentially impacted families are given proper and timely notice so that they may be involved in any discussions relating to dam upgrades. Your Committees, therefore, urge the Board of Water Supply to mail timely notices to each family that could potentially be impacted by the dam project to inform those families of public hearings on the project so that those families may attend the hearings to offer comments and have their concerns addressed.

As affirmed by the records of votes of the members of your Committees on Transportation and Energy and Water and Land that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 634, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 634, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Transportation and Energy: Ayes, 3. Noes, none. Excused, 2 (English, Harimoto).

Water and Land: Ayes, 3. Noes, none. Excused, 2 (Gabbard, Kim).

SCRep. 1034 (Joint) Transportation and Energy and Water and Land on H.B. No. 635

The purpose and intent of this measure is to authorize the issuance of special purpose revenue bonds to the Board of Water Supply to upgrade Nuuanu reservoir #4 to meet dam safety standards, as a component of the Nuuanu hydroelectricity project.

Your Committees received testimony in support of this measure from the Department of Land and Natural Resources, Board of Water Supply, Ulupono Initiative, American Society of Civil Engineers Hawaii Section, and Healthy Climate Communities. Your Committees received testimony in opposition to this measure from the Hui Malama 'Auwai O Nu'uuanu. Your Committees received comments on this measure from the Department of the Attorney General and Department of Budget and Finance.

Your Committees find that achieving the stated goal of transitioning Hawaii to a clean energy economy is essential for the State's future sustainability. Achieving a one hundred percent renewable energy economy will require the utilization of all available renewable energy resources, including hydroelectricity. There is great potential for hydroelectric energy generation on the Island of Oahu, with at least one estimate suggesting that there may be as much as one hundred to two hundred megawatts of pumped storage hydro on the island. The Nuuanu hydroelectricity project, which will connect existing reservoirs in Nuuanu valley to generate renewable hydroelectric energy, provide energy storage of off-peak solar or wind energy supplies, and supplement usable groundwater supplies, can play a central role in harnessing Oahu's hydroelectric energy potential. Nuuanu reservoir #4 is an essential component of the Nuuanu hydroelectricity project. However, your Committees understand the testimony of the Department of the Attorney General explaining that the intent of this measure is to upgrade Nuuanu reservoir #4 to comply with applicable dam safety standards in anticipation of future hydroelectric energy generation.

Accordingly, your Committees have amended this measure by:

- (1) Changing references to part VI, chapter 39A, Hawaii Revised Statutes, to part XII, chapter 39A, Hawaii Revised Statutes; and
- (2) Clarifying language to make clear that this measure is a reservoir upgrade project and not an electricity generation project.

Your Committees also note that upgrades to Nuuanu reservoir #4 present some significant potential risks to families living downstream. Consequently, your Committees are concerned about the potential impacts on families in the area of any dam project. Accordingly, your Committees want to ensure that those potentially impacted families are given proper and timely notice so that they may be involved in any discussions relating to dam upgrades. Your Committees, therefore, urge the Board of Water Supply to mail timely notices to each family that could potentially be impacted by the dam project to inform those families of public hearings on the project so that those families may attend the hearings to offer comments and have their concerns addressed.

As affirmed by the records of votes of the members of your Committees on Transportation and Energy and Water and Land that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 635, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 635, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Transportation and Energy: Ayes, 3. Noes, none. Excused, 2 (English, Harimoto).

Water and Land: Ayes, 3. Noes, none. Excused, 2 (Gabbard, Kim).

SCRep. 1035 Transportation and Energy on H.B. No. 1258

The purpose and intent of this measure is to:

- (1) Establish licensing and registration requirements for autocycles; and
- (2) Define "autocycle".

Your Committee received testimony in support of this measure from the Department of Transportation and Polaris Industries.

Your Committee finds that autocycles are becoming increasingly common on roadways. The body styles vary greatly, but they all operate on three wheels.

Your Committee further finds that the advantage of an autocycle is that drivers get more wind and weather protection than they would on a motorcycle. The compact and light construction of an autocycle construction allows for small engines that get motorcycle-like fuel economy.

Your Committee has amended this measure, on the recommendation of the Department of Transportation, by clarifying that:

- (1) A person must hold either a type 2 or type 3 driver's license to operate an autocycle; and
- (2) An autocycle is a three-wheeled motorcycle rather than a three-wheeled motor vehicle.

As affirmed by the record of votes of the members of your Committee on Transportation and Energy that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1258, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1258, H.D. 2, S.D. 1, and be referred to your Committee on Commerce, Consumer Protection, and Health.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (English).

SCRep. 1036 Government Operations on H.B. No. 1229

The purpose and intent of this measure is to require public works construction bids to include the name of each joint contractor and subcontractor only when the total estimated contract value is more than an unspecified amount; provided that bids lacking joint contractor and subcontractor names may be accepted if it is in the best interest of the State and the value of the work to be performed by the joint contractor or subcontractor is equal to or less than one percent of the total bid amount.

Your Committee received testimony in support of this measure from the Department of Budget and Fiscal Services of the City and County of Honolulu; General Contractors Association of Hawaii; Building Industry Association of Hawaii; Nordic PCL Construction, Inc.; Healy Tibbitts Builders, Inc.; Tomco Corp.; LYZ, Inc.; Jayar Construction, Inc.; S & M Sakamoto, Inc.; Alan Shintani, Inc.; Ralph S Inouye Co, Ltd; and Hawaiian Dredging Construction Company, Inc. Your Committee received testimony in opposition to this measure from the State Procurement Office; Department of Accounting and General Services; Subcontractors Association of Hawaii; Electrical Contractor's Association of Hawai'i; Sheet Metal Contractors Association; Plumbing and Mechanical Contractors Association of Hawaii; Painting Industry of Hawaii Labor Management Cooperation Trust Fund; Hawaii Tapers Market Recovery Trust Fund; Hawaii Glaziers; Architectural Metal Glassworkers Local Union 1889 AFL-CIO Stabilization Trust Fund; and Carpet, Linoleum and Soft Tile Local Union 1926 Market Recovery Trust Fund. Your Committee received comments on this measure from the Department of Transportation.

Your Committee finds that requiring the listing of joint contractors and subcontractors for all public works construction projects may result in unnecessary bid protests, award delays, and increased project costs. Such circumstances often lead to inefficiencies in completing public work projects, and your Committee supports placing limits on the public works construction bids that require joint contractor and subcontractor listings. Your Committee further finds that the contract value threshold and joint contractor and subcontractor work percentage threshold in this measure deserves further attention and study as it advances through the legislative process.

Your Committee has amended this measure by:

- (1) Removing the one percent threshold and inserting a blank percent for situations when the total bid value that the joint contractor or subcontractor work must be less than for the bid to be acceptable without listing joint contractors and subcontractors; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1229, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1229, H.D. 1, S.D. 1, and be referred to your Committees on Judiciary and Labor and Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3; Ayes with Reservations (Rhoads). Noes, none. Excused, 2 (Galuteria, Tokuda).

SCRep. 1037 Government Operations on H.B. No. 1518

The purpose and intent of this measure is to:

- (1) Authorize that upon request from a state agency, the Office of Information Practices may under certain conditions declare a person a vexatious records requester;
- (2) Restrict a vexatious requester's rights under the Uniform Information Practice Act for no longer than two years; and
- (3) Establish an appeals process for a person declared a vexatious records requester.

Your Committee received testimony in support of this measure from the Department of Business, Economic Development, and Tourism; Department of Health; Hawaii Public Housing Authority; University of Hawaii System; and Hawaii Health Systems Corporation. Your Committee received testimony in opposition to this measure from the Civil Beat Law Center for Public Interest. Your Committee received comments on this measure from the Office of Information Practices and Grassroot Institute of Hawaii.

Your Committee finds that the public interest is best served by the public right to scrutinize the records of government agencies, and that most record requests made under the Uniform Information Practices Act are valid and made in good faith. Unfortunately, it is not unheard of for a requester to abuse the process and make repeated and excessive requests in attempts to harass an agency and drain resources. The protection and judicious use of government time and resources necessitates a process by which a requester acting in bad faith may be declared a vexatious records requester.

Your Committee has amended this measure by:

- (1) Deleting section 2 and inserting language that:
 - (A) Allows an agency to seek a declaratory judgment in the appropriate circuit court for a determination that a requester is a vexatious records requester;
 - (B) Establishes that the agency shall have the burden of proof to establish that the requester has a clear pattern of making requests that are manifestly excessive or in bad faith and interfere with an agency's responsibilities; and
 - (C) Establishes that the court may grant further relief, subject to certain conditions; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1518, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1518, H.D. 1, S.D. 1, and be referred to your Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.

Ayes, 3; Ayes with Reservations (Rhoads). Noes, none. Excused, 2 (Galuteria, Tokuda).

SCRep. 1038 (Joint) Government Operations and Economic Development, Tourism, and Technology on H.B. No. 1382

The purpose and intent of this measure is to:

- (1) Establish a three-year small business assistance initiative within the State Procurement Office to facilitate the collection and development of relevant data and information and convene stakeholders for the development of an effective small business program, including the development of rules;
- (2) Establish a small business procurement coordinator position, small business office, and small business advisory group as part of the small business initiative; and
- (3) Appropriate funds for the small business assistance initiative.

Your Committees received testimony in support of this measure from the State Procurement Office; Department of Transportation; Small Business Regulatory Review Board; Chamber of Commerce Hawaii; AMEL Technologies, Inc.; Minatoishi Architects; and Holomua Consulting Group, LLC.

Your Committees find that establishing a small business assistance initiative with adequate staff and funding is a necessary first step in improving the climate and outlook for small businesses in Hawaii. Your Committees find that small businesses are essential to the State's economy, create invaluable employment opportunities, and spur innovation and creativity. Your Committees find that the initiative proposed in this measure will provide vital data for understanding the small business landscape in the State, and will facilitate responsible decision-making going forward when creating a small business program that will ensure the long-term success of small businesses, including veteran-, Native Hawaiian-, and women-owned small businesses, in Hawaii.

As affirmed by the records of votes of the members of your Committees on Government Operations and Economic Development, Tourism, and Technology that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 1382, H.D. 1, and recommend that it pass Second Reading and be referred to your Committees on Ways and Means and Judiciary and Labor.

Signed by the Chairs on behalf of the Committees.

Government Operations: Ayes, 4. Noes, none. Excused, 1 (Tokuda).

Economic Development, Tourism, and Technology: Ayes, 3. Noes, none. Excused, 2 (Baker, Galuteria).

SCRep. 1039 International Affairs and the Arts on H.B. No. 875

The purpose and intent of this measure is to increase the number of qualified applicants for technical professional positions and reduce the backlog of project reviews by appropriating funds for five full-time equivalent (5.00 FTE) temporary student intern positions within the State Historic Preservation Division of the Department of Land and Natural Resources.

Your Committee received testimony in support of this measure from the Historic Hawaii Foundation and one individual. Your Committee received testimony in opposition to this measure from the Department of Land and Natural Resources. Your Committee received comments on this measure from Pulama Lanai.

Your Committee finds that state historic preservation efforts play an essential role in the protection and management of the State's historic places, burial sites, and aviation artifacts. However, due to the current strength of the State's economy, demand for housing, and critical infrastructure needs, the State Historic Preservation Division has a substantial backlog of projects in the State needing review. Your Committee further finds that this measure will add student intern positions at the State Historic Preservation Division and these positions will assist in reducing the backlog of reviews.

Your Committee has amended this measure by specifying that the appropriation shall be out of the general revenues of the State of Hawaii rather than from an unspecified special fund.

As affirmed by the record of votes of the members of your Committee on International Affairs and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 875, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 875, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (English).

SCRep. 1040 International Affairs and the Arts on H.B. No. 1438

The purpose and intent of this measure is to appropriate funds to honor the 100th Anniversary of World War I with programs, ceremonies, and activities to commence on April 2, 2017.

Your Committee received testimony in support of this measure from the Department of Defense, State Office of Veterans Services; Veterans of Foreign Wars, Department of Hawaii; Oahu Veterans Center; Friends of the Natatorium; and four individuals.

Your Committee finds that on April 6, 1917, the United States of America declared war on the German Empire. During the conflict, approximately ten thousand men and women from the Territory of Hawaii volunteered to serve in the Great War. Your Committee finds that it is important to honor the sacrifices of the men and women who served in the Great War, and to remember the suffering and loss of life of all who were involved. Your Committee further finds that the funds appropriated for the purposes of commemorating the one-hundredth anniversary of World War I will help create programs, ceremonies, and activities for the event.

Your Committee has amended this measure by clarifying that the activities will occur from April 2, 2017, through November 11, 2018.

As affirmed by the record of votes of the members of your Committee on International Affairs and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1438, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1438, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (English).

SCRep. 1041 Public Safety, Intergovernmental, and Military Affairs on H.B. No. 1130

The purpose and intent of this measure is to authorize the Department of Public Safety to administer lie detector and psychological tests to determine the suitability of candidates for corrections employment.

Your Committee received testimony in support of this measure from the Department of Public Safety.

Your Committee finds that the hiring of high-quality employees, particularly in corrections agencies, is vital to protecting the health, safety, and welfare of the public. The administration of lie detector tests or psychological tests to prospective employees can be effective methods for ensuring the hiring of high-quality employees. Therefore, it is important to allow corrections agencies to administer lie detector tests and psychological tests to determine the suitability of candidates for employment to serve the State and public.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1130, H.D. 1, and recommends that it pass Second Reading and be referred to your Committees on Judiciary and Labor and Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Thielen).

SCRep. 1042 Public Safety, Intergovernmental, and Military Affairs on H.B. No. 1435

The purpose and intent of this measure is to clarify that the comprehensive loss reduction plan of the Hawaii Hurricane Relief Fund shall include implementing building code requirements for hurricane standards in accordance with state building code and design standards.

Your Committee received testimony in support of this measure from the Hawaii Emergency Management Agency; Hawaii Hurricane Relief Fund; State Fire Council; Honolulu Fire Department; Kaua'i Fire Department; Department of Emergency Management, City and County of Honolulu; Maui Fire Department; American Council of Engineering Companies of Hawaii; The Maritime Group, LLC; and Structural Engineers Association of Hawaii. Your Committee received comments on this measure from the Hawai'i Association of REALTORS.

Your Committee finds that mitigating future losses due to hurricanes is essential for the public's health, safety, and welfare. The losses resulting from hurricanes can be devastating and wide-ranging. Along with the obvious property damage that hurricanes can cause, hurricanes can also impact the cost and availability of hurricane insurance. The Hawaii Hurricane Relief Fund was created to develop a comprehensive loss reduction plan for hurricane peril, including standards for residential and commercial structures and a timetable for the implementation of mandatory mitigation measures. In addition, the State Building Code Council is also responsible for establishing residential and hurricane resistant standards related to loss mitigation standards. However, the Council has never been properly funded and has consequently been limited in its ability to carry out its duties. Moreover, the overlapping responsibilities of the Hawaii Hurricane Relief Fund and the State Building Code Council have created confusion and resulted largely in a failure to implement the proper building standards and develop a loss mitigation plan. Therefore, it is necessary to amend the relevant statutes to require the Hawaii Hurricane Relief Fund to develop building code hurricane standards in accordance with state building code and design standards and to appropriately fund the adoption of administrative rules to implement those standards.

Your Committee recognizes the testimony presented by representatives of the State Building Code Council conveying that the Council is already required to submit reports to the Legislature and that any funds used relative to the Hawaii Hurricane Relief Fund

would be included in any such report. Therefore, it is unnecessary to include an additional reporting requirement for the State Building Code Council.

Your Committee also understands the concerns of the Hawaii Emergency Management Agency relating to this measure's repeal date. This measure is intended to establish a recurring systematic process for regularly updating hurricane standards in accordance with state building code and design standards. Therefore, including a date that would repeal this measure in a year would negate one of this measure's primary purposes.

Accordingly, your Committee has amended this measure by:

- (1) Removing the reporting requirement for the State Building Code Council;
- (2) Deleting the repeal date and all language relating to a repeal; and
- (3) Making technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1435, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1435, H.D. 2, S.D. 1, and be referred to your Committees on Commerce, Consumer Protection, and Health and Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Thielen).

SCRep. 1043 (Joint) Public Safety, Intergovernmental, and Military Affairs and Agriculture and Environment on H.B. No. 478

The purpose and intent of this measure is to appropriate funds for:

- (1) A full-time agricultural management position and equipment for Kulani Correctional Facility agriculture operations; and
- (2) A full-time agricultural management position for Waiawa Correctional Facility agriculture operations.

Your Committees received testimony in support of this measure from the Department of Public Safety; Community Alliance on Prisons; Ho'omana Pono, LLC; and five individuals.

Your Committees find that agricultural programs at correctional facilities provide numerous benefits for the correctional system and inmates. A rise in the prison population has led to an important need for correctional facilities and agencies to cut costs. One means of reducing correctional costs is to produce food in-house through agricultural programs. These types of agricultural programs provide the additional benefit of furthering inmate rehabilitation by teaching inmates a variety of technical skills and trades. Further, inmates working on prison farm programs tend to be less aggressive and less prone to recidivism. Accordingly, this measure appropriates funds for a full-time agricultural management position and equipment for Kulani Correctional Facility agriculture operations and for a full-time agricultural management position and equipment for Waiawa Correctional Facility agriculture operations.

Your Committees have amended this measure by:

- (1) Inserting a blank appropriation for equipment for Waiawa Correctional Facility agriculture operations;
- (2) Inserting an effective date of July 1, 2017; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Public Safety, Intergovernmental, and Military Affairs and Agriculture and Environment that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 478, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 478, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Public Safety, Intergovernmental, and Military Affairs: Ayes, 4. Noes, none. Excused, 1 (Wakai).

Agriculture and Environment: Ayes, 5. Noes, none. Excused, none.

SCRep. 1044 International Affairs and the Arts on Gov. Msg. No. 532

Recommending that the Senate advise and consent to the nomination of the following:

HAWAI'I HISTORIC PLACES REVIEW BOARD

GM. No. 532 KATHARINE STEPHENS, for a term to expire 06-30-2020

Your Committee has reviewed the personal history, resume, and statement submitted by the nominee and finds Ms. Katharine Stephens to possess the requisite qualifications to be nominated to the Hawaii Historic Places Review Board.

Your Committee received testimony in support of the nomination of Ms. Katharine Stephens from the Department of Land and Natural Resources and Historic Hawaii Foundation.

Your Committee finds that Ms. Stephens has twenty-five years of experience as a licensed architect specializing in historic preservation and research. She received her Masters of Architecture and a Certificate in Historic Preservation from the University of Hawaii. She also received a Bachelor of Science in Architectural Engineering from the University of Colorado. Ms. Stephens has a broad array of experience working with historic buildings, including analyzing the integrity and significance of structures for purposes

of historic structure reports for the U.S. National Park Service, National Register of Historic Places nominations, and cultural resource surveys within the State.

Upon review of the testimony, your Committee finds that Ms. Stephens' professional experience and background qualify her for appointment to the Hawaii Historic Places Review Board. Your Committee notes that Ms. Stephens has contributed to restoration projects that have preserved precious historical and cultural significance in the State. Your Committee further finds that Ms. Stephens has been the recipient of several Historic Preservation Honor Awards from the Historic Hawaii Foundation and has been a guest instructor for the foundation's historic preservation seminars. Ms. Stephens will bring in-depth knowledge of architecture and historic preservation to the Board.

As affirmed by the record of votes of the members of your Committee on International Affairs and the Arts that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (English).

SCRep. 1045 (Joint) Transportation and Energy and Economic Development, Tourism, and Technology on H.B. No. 592

The purpose and intent of this measure is to extend the sunset date of the alternative energy research and development pilot program to June 30, 2019, and appropriate funds for the program.

Your Committees received testimony in support of this measure from the High Technology Development Corporation, Chamber of Commerce Hawaii, Navatek, Oceanit, and five individuals.

Your Committees find that achieving the stated goal of transitioning Hawaii to a clean energy economy is essential for the State's future sustainability. Despite progress toward developing an entirely renewable energy economy, the State maintains an unsustainable dependence on imported fossil fuels as its primary energy source. Effectively transitioning to one hundred percent clean energy will require the continued research and development of alternative energy technologies. The Legislature has long recognized this critical need and in 2015, established a matching grant program to support the State's local companies that were conducting renewable energy research and development through existing contracts with the principal research division of the United States Department of Defense, Office of Naval Research. That program is set to expire on June 30, 2017. Your Committees find that the alternative energy research and development pilot program has been successful and remains a necessary component in aiding the State in developing desperately needed alternative energy technologies. Accordingly, it is necessary to extend the pilot program for an additional two years.

As affirmed by the records of votes of the members of your Committees on Transportation and Energy and Economic Development, Tourism, and Technology that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 592, H.D. 1, and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
Transportation and Energy: Ayes, 3. Noes, none. Excused, 2 (English, Harimoto).
Economic Development, Tourism, and Technology: Ayes, 5. Noes, none. Excused, none.

SCRep. 1046 (Joint) Transportation and Energy and Economic Development, Tourism, and Technology on H.B. No. 1543

The purpose and intent of this measure is to establish energy systems and technology training courses for state and county employees responsible for permitting, inspecting, licensing, and approving construction projects that contain renewable energy systems and related technology and to appropriate funds for the courses.

Your Committees received testimony in support of this measure from the Department of Business, Economic Development, and Tourism; State Fire Council; Honolulu Fire Department; Distributed Energy Resources Council of Hawaii; Hawaii Solar Energy Association, Inc.; and one individual.

Your Committees find that accomplishing the State's stated goal of transitioning to one hundred percent clean energy is vital to creating a sustainable future for the State. As a means of accomplishing the State's clean energy goals, the State has created incentives for the adoption of new technology, energy systems, and equipment. These incentives have led to increased installation of these products and related construction projects. While these projects have been environmentally and economically beneficial for the State, the sheer number of projects has at times placed additional burdens on those government employees responsible for permitting, inspecting, licensing, and approving projects. Specifically, these employees, in order to properly perform their jobs, must remain constantly informed of new technologies in the energy sector. However, these employees are not receiving adequate training, and they are, therefore, forced to conduct their own research or pay for their own training. Moreover, the lack of necessary training can cause unnecessary delays in the approval or implementation of needed projects. Therefore, it is necessary to establish energy systems and technology training courses for those government employees responsible for permitting, inspecting, licensing, and approving construction projects that contain renewable energy systems and related technology and to provide funding for those courses.

Further, your Committees acknowledge the utility of the Department of Business, Economic Development, and Tourism's suggestion that the creation of a committee comprised of industry stakeholders and the proper training administration agency would help to maximize the benefits of the energy systems and technology training courses.

Your Committees also understand the concerns raised by the Department of Business, Economic Development, and Tourism regarding the Department's inability to administer the training courses because of lack of proper funding, staffing, training, and knowledge in the area of educational development.

Accordingly, your Committees have amended this measure by:

- (1) Requiring the University of Hawaii community colleges to develop, design, prepare, and conduct energy systems and technology training courses for county employees at no cost;

- (2) Establishing a committee comprised of industry stakeholders and county representatives to work with the University of Hawaii community colleges in developing the energy systems and technology training courses;
- (3) Requiring the University of Hawaii community colleges to submit a report on its progress in developing the energy systems and technology training courses prior to the Regular Session of 2019;
- (4) Limiting the training courses to county employees;
- (5) Inserting an appropriation of \$125,000 for energy systems and technology training courses; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Transportation and Energy and Economic Development, Tourism, and Technology that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 1543, H.D. 2, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 1543, H.D. 2, S.D. 1, and be referred to your Committees on Judiciary and Labor and Ways and Means.

Signed by the Chairs on behalf of the Committees.

Transportation and Energy: Ayes, 3. Noes, none. Excused, 2 (English, Harimoto).

Economic Development, Tourism, and Technology: Ayes, 5. Noes, none. Excused, none.

SCRep. 1047 (Joint/Majority) Transportation and Energy and Public Safety, Intergovernmental, and Military Affairs on H.B. No. 115

The purpose and intent of this measure is to require:

- (1) The administrative head of each state department or agency to convey, by deed of conveyance, to each respective county the title of all disputed public highways in a county with a population of five hundred thousand or more in which the disputed public highway is situated, after the administrative head of the department or agency first consults with the state director of transportation;
- (2) The applicable county to accept a conveyance without the exercise of discretion; and
- (3) A county to accept surrender of a road in which there is a dispute of ownership and jurisdiction under certain circumstances.

Your Committees received testimony in support of this measure from the Department of Transportation, Musicians' Association of Hawai'i AFM Local 677, Bank of Hawaii, and one individual. Your Committees received comments on this measure from the Department of Land and Natural Resources and one individual.

Your Committees find that there are numerous roads throughout the State whose ownership has been disputed or called into question. These roads often do not receive proper care and maintenance. These disputes create difficulties for members of the public and government agencies when individuals report repair or maintenance issues.

Act 221, Session Laws of Hawaii 1965, provided that all public highways not under the jurisdiction of the Department of Transportation were declared to be owned by the respective county governments. However, counties have not acknowledged their ownership and jurisdiction, in part because title for many of these roads were not transferred by deed of conveyance or other tangible evidence of ownership.

Your Committees have amended this measure by:

- (1) Removing the definitions of "disputed public highway", "public highway", and "road", and inserting a definition of "disputed road", for purposes of accuracy;
- (2) Clarifying that disputed roads are those in which there is a dispute over ownership and jurisdiction between the State or any of its political subdivisions and the county or a private party, and not just between the State and a private party;
- (3) Removing the requirement that by January 1, 2018, the administrative head each state department or agency convey the title of all disputed public highways to the respective county in which the public highway is situated;
- (4) Removing language relating to the State's acceptance of a road after surrender to the county; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Transportation and Energy and Public Safety, Intergovernmental, and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 115, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 115, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Transportation and Energy: Ayes, 2. Noes, 1 (Harimoto). Excused, 2 (Dela Cruz, English).

Public Safety, Intergovernmental, and Military Affairs: Ayes, 4. Noes, none. Excused, 1 (Wakai).

SCRep. 1048 (Joint) Water and Land and Public Safety, Intergovernmental, and Military Affairs on H.B. No. 636

The purpose and intent of this measure is to appropriate funds to establish a two-year water conservation financial assistance pilot program to provide financial assistance to county-owned public water systems to help implement water conservation incentive programs.

Your Committees received testimony in support of this measure from the Office of the Mayor of the County of Hawai'i; Department of Water Supply of the County of Hawai'i; Department of Water of the County of Kaua'i; Board of Water Supply of the City and

County of Honolulu; Ulupono Initiative; Pacific Resource Partnership; Nature Conservancy Hawai'i; One World One Water, LLC; Hawai'i Fresh Water Initiative; Hawai'i Green Growth; Sierra Club Of Hawai'i; Plumbers and Pipefitters Local 675; and five individuals. Your Committees received testimony in opposition to this measure from the Department of Land and Natural Resources.

Your Committees find that as an island state, Hawaii has limited access to natural fresh water. Your Committees find that a water conservation program that provides financial assistance to county-owned public water systems and their customers to help implement water conservation measures and practices will reduce water use or waste. Your Committees further find that water conservation is one of the most cost-effective long-term water supply options for the State.

Your Committees note that, based on testimony provided to your Committees, water conservation programs can be effectively launched at the county level with an appropriation of \$335,000 for fiscal year 2017-2018 and \$540,000 for fiscal year 2018-2019. It is estimated that the counties could absorb a 1:1 match at the following levels:

- (1) Honolulu: \$210,000 for fiscal year 2017-2018 and \$350,000 for fiscal year 2018-2019;
- (2) Maui: \$60,000 for fiscal year 2017-2018 and \$75,000 for fiscal year 2018-2019;
- (3) Hawaii: \$50,000 for fiscal year 2017-2018 and \$100,000 for fiscal year 2018-2019; and
- (4) Kauai: \$15,000 for fiscal year 2017-2018 and \$15,000 for fiscal year 2018-2019.

Your Committees have amended this measure by:

- (1) Establishing the two-year water conservation financial assistance pilot program within each of the four county water supply departments, rather than within the Commission on Water Resource Management, and making conforming amendments;
- (2) Clarifying that each county water supply department shall provide matching funds on a 1:1 basis to state funds;
- (3) Clarifying that the state funds are to be appropriated out of the general revenues rather than an unspecified special fund; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Water and Land and Public Safety, Intergovernmental, and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 636, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 636, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Water and Land: Ayes, 4. Noes, none. Excused, 1 (Kim).

Public Safety, Intergovernmental, and Military Affairs: Ayes, 5. Noes, none. Excused, none.

SCRep. 1049 (Joint) Water and Land and Agriculture and Environment on H.B. No. 655

The purpose and intent of this measure is to appropriate funds for the Department of Land and Natural Resources to assist and provide supplemental funds to the National Wildlife Research Center of the United States Department of Agriculture to:

- (1) Research the negative impacts of the rose-ringed parakeet on the island of Kauai; and
- (2) Develop and implement a control plan to reduce the negative impacts of the rose-ringed parakeet on the island of Kauai.

Your Committees received testimony in support of this measure from the Department of Land and Natural Resources, Department of Agriculture, Kaua'i Invasive Species Committee, Land Use Research Foundation of Hawaii, Hawai'i Farm Bureau, Coordinating Group on Alien Pest Species, DOW Agrosiences, Hawaii Crop Improvement Association, Kauai County Farm Bureau, and eighty-eight individuals. Your Committees received testimony in opposition to this measure from Animal Rights Hawai'i.

Your Committees find that the rose-ringed parakeet, *Psittacula krameri*, native to Africa and India, is considered to be one of the most significant agricultural pests of important food crops. The National Wildlife Research Center (NWRC) of the United States Department of Agriculture estimated there were more than two thousand rose-ringed parakeets on Kauai as of 2011 and concluded that these birds are probably dispersing invasive plant species, including lilikoi and strawberry and yellow guava; possibly destroying native seeds, including koa; and potentially competing with native birds for fruits, seeds, and nesting sites. Additionally, the parakeets are damaging and reducing the yield of many crops, including lychee, longan, and rambutan. Your Committees find that additional research is needed for the development and preliminary implementation of an effective control plan for rose-ringed parakeets on Kauai, and suggest an appropriation of \$180,000 for the Department of Land and Natural Resources to provide assistance to and collaborate with the NWRC for the completion of the NWRC research study on Kauai.

Your Committees have amended this measure by:

- (1) Inserting an effective date of March 15, 2099, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Water and Land and Agriculture and Environment that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 655, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 655, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Water and Land: Ayes, 5. Noes, none. Excused, none.

Agriculture and Environment: Ayes, 3. Noes, none. Excused, 2 (Nishihara, Ruderman).

SCRep. 1050 Economic Development, Tourism, and Technology on H.B. No. 521

The purpose and intent of this measure is to stimulate and diversify Hawaii's economy by establishing and funding the High-Growth Grant Program and Special Fund to provide grants to qualified businesses to expand business operations, improve business productivity, and invest in food safety or quality control programs.

Your Committee received testimony in support of this measure from the Department of Business, Economic Development, and Tourism; High Technology Development Corporation; Chamber of Commerce Hawaii; Hawaii Farm Bureau; Maui Gold Pineapple Company; ILWU Local 142; and one individual. Your Committee received comments on this measure from the Department of Budget and Finance.

Your Committee finds that diversifying the State's economy beyond service-related industries is critical to Hawaii's future. The High-Growth Grant Program will provide grants to business that, for example, export products to expand their operations, improve productivity, and invest in food safety or quality control programs, thereby improving the ability of these local businesses to compete globally.

Your Committee has amended this measure by:

- (1) Reducing the maximum amount of each grant that may be provided through the program to twenty percent, rather than forty percent, of the amount that is privately invested in a business; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Economic Development, Tourism, and Technology that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 521, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 521, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Baker).

SCRep. 1051 (Majority) Economic Development, Tourism, and Technology on H.B. No. 627

The purpose and intent of this measure is to authorize and appropriate funds for the establishment of a permanent state public-private partnership coordinator position within the Department of Business, Economic Development, and Tourism.

Your Committee received testimony in support of this measure from the Department of Business, Economic Development, and Tourism; and Chamber of Commerce Hawaii. Your Committee received testimony in opposition to this measure from one individual.

Your Committee finds that public-private partnerships are an effective strategy for economic development. Hawaii has started successfully implementing public-private partnerships for several industries, including tourism, film, agriculture, energy, broadband, and innovation. Your Committee further finds that creating a permanent state public-private partnership coordinator position to manage public-private partnerships entered into by the State will help support economic development in Hawaii.

Your Committee has also heard the concerns that one permanent position may not be sufficient to manage contracts, proposals, and negotiations related to public-private partnerships entered into by the State. Your Committee notes that S.B. No. 1306, S.D. 1, a substantially similar measure, creates an Office of Public-Private Partnership within the Department of Business, Economic Development, and Tourism. Your Committee concludes that language from S.B. No. 1306, S.D. 1, should be added to this measure to help establish the resources and employees necessary.

Your Committee has amended this measure by:

- (1) Organizing its contents into different parts and making the authorization to establish a permanent state public-private partnership coordinator position part I;
- (2) Inserting the contents of S.B. No. 1306, S.D. 1, as part II, which:
 - (A) Establishes an Office of Public-Private Partnership within the Department of Business, Economic Development, and Tourism;
 - (B) Requires that the office create a strategic plan;
 - (C) Requires that the office create collaboration amongst state agencies to identify and implement public-private projects; and
 - (D) Requires that the office oversee and implement public-private projects;
- (3) Adding language to part II that the Office of Public-Private Partnership shall initiate Aloha Stadium redevelopment as its initial project;
- (4) Inserting an appropriation amount of \$10,000,000 and allowing the appropriated funds to also be used for the establishment and operation of the Office of Public-Private Partnership and initiation of Aloha Stadium redevelopment; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Economic Development, Tourism, and Technology that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 627, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 627, H.D. 2, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, 1 (Taniguchi). Excused, 1 (Baker).

SCRep. 1052 Economic Development, Tourism, and Technology on H.B. No. 973

The purpose and intent of this measure is to support technology based research and development in the State by establishing a research and technology grant program within the High Technology Development Corporation.

Your Committee received testimony in support of this measure from the High Technology Development Corporation; Chamber of Commerce Hawaii; Hawaii Farm Bureau; Navatek; Makai Ocean Engineering, Inc.; and six individuals. Your Committee received comments on this measure from the State of Hawaii Procurement Office.

Your Committee finds that innovation in the areas of science, technology, engineering, and mathematics is the key for Hawaii to strengthen its global competitiveness across all business, education, and social sectors of the world we live in. Your Committee further finds that a research and technology grant program will stimulate innovation in the State and the growth of jobs in science, technology, engineering, and mathematics and will also help sustain the resiliency of Hawaii's economy.

Your Committee has amended this measure by:

- (1) Changing the grant amount from fifty percent to twenty-five percent of costs incurred;
- (2) Clarifying that monies used to pay for the cost of administering, operating, and marketing the grant program, as determined by the Chief Executive Officer of the Corporation, shall be made in accordance with chapters 103D and 103F, Hawaii Revised Statutes; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Economic Development, Tourism, and Technology that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 973, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 973, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 1053 Economic Development, Tourism, and Technology on H.B. No. 587

The purpose and intent of this measure is to recognize the importance of the Small Business Regulatory Review Board to small businesses and Hawaii's economy by appropriating funds to provide more resources to the Board.

Your Committee received testimony in support of this measure from the Department of Business, Economic Development, and Tourism; Small Business Regulatory Review Board; Chamber of Commerce Hawaii; Maui Chamber of Commerce; Hawaii Farm Bureau; Hawaii Business League; and one individual.

Your Committee finds that the Small Business Regulatory Review Board serves an important function in state government by providing small business input into the rulemaking process. The Small Business Regulatory Review Board reviews, analyzes, and holds conferences regarding existing, new, and modified administrative rules. Your Committee finds that the work of the Small Business Regulatory Review Board is vital to the economy and to small businesses of Hawaii.

As affirmed by the record of votes of the members of your Committee on Economic Development, Tourism, and Technology that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 587, H.D. 1, and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Baker).

SCRep. 1054 Economic Development, Tourism, and Technology on H.B. No. 1481

The purpose and intent of this measure is to establish a working group to study the uses of and determine best practices regarding blockchain technology.

Your Committee received comments on this measure from the Department of Business, Economic Development, and Tourism; Department of Taxation; County of Hawaii; and one individual.

Your Committee finds that blockchain is a novel peer to peer networking and distributed data storage technology that shifts the primary locus of control from centralized services to individuals or key holders. Initially built as the underlying structure for a digital cash system known as bitcoin, blockchain can be used in many other areas, including cybersecurity, disaster recovery, clearance and settlement, supply chain transparency, title registries, communications, and document verification. Your Committee further finds that there is vast potential for this technology to drastically change and improve public sector operations and private industry capabilities.

As affirmed by the record of votes of the members of your Committee on Economic Development, Tourism, and Technology that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1481, H.D. 1, and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Baker).

SCRep. 1055 Economic Development, Tourism, and Technology on H.B. No. 1559

The purpose and intent of this measure is to appropriate funds for the Department of Business, Economic Development, and Tourism to address the Food and Drug Administration's industry guidance on the use of color additives in sea salt products.

Your Committee received testimony in support of this measure from the Department of Business, Economic Development, and Tourism; Chamber of Commerce Hawaii; and one individual.

Your Committee finds that the Department of Business, Economic Development, and Tourism will need professional and knowledgeable assistance to address the complex issue of the Food and Drug Administration's industry guidelines pertaining to color additives in sea salt products. Your Committee finds that Hawaiian sea salts are very popular in Hawaii and around the world. Your Committee further finds that local companies selling Hawaiian sea salts need support to address the federal guidelines to be able to continue selling their products locally and abroad.

Your Committee has amended this measure by:

- (1) Clarifying that the appropriation shall be used to provide guidance and support specifically for locally produced or cultivated sea salt products; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Economic Development, Tourism, and Technology that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1559, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1559, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Baker).

SCRep. 1056 (Joint) Education and International Affairs and the Arts on H.B. No. 547

The purpose and intent of this measure is to establish an income tax credit for host families of foreign exchange students, fellows, and interns.

Your Committees received testimony in support of this measure from the International Hospitality Center and fifteen individuals. Your Committees received comments on this measure from the Department of Taxation and Tax Foundation of Hawaii.

Your Committees find that foreign exchange study programs in Hawaii provide significant benefits to program participants and to the State as a whole. Your Committees further find that, although volunteer host families incur significant expenses while hosting an exchange student, fellow, or intern, they receive no compensation. The tax credit established by this measure will alleviate some of the financial burden experienced by host families and make participation in foreign exchange programs as a host economically feasible for more families in Hawaii.

Your Committees have amended this measure by:

- (1) Removing language specifying how the tax credit may be claimed by partnerships and other entities;
- (2) Changing the minimum requirement that a taxpayer act as a host to a foreign individual from thirty days to one month;
- (3) Changing the earliest taxable year to which the tax credit may be applied from taxable years beginning after December 31, 2016, to taxable years beginning after December 31, 2017; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Education and International Affairs and the Arts that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 547, H.D. 2, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 547, H.D. 2, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
Education: Ayes, 4. Noes, none. Excused, 1 (Kahele).
International Affairs and the Arts: Ayes, 4. Noes, none. Excused, 1 (English).

SCRep. 1057 (Joint) Education and Housing on H.B. No. 884

The purpose and intent of this measure is to exempt affordable housing units, additions to existing dwelling units, accessory dwelling units, and ohana dwelling units from school impact fee requirements

Your Committees received testimony in support of this measure from the Office of Planning, Hawaii Public Housing Authority, Department of Planning and Permitting of the City and County of Honolulu, EAH Housing, Hawaii Construction Alliance, and Pacific Resource Partnership. Your Committees received testimony in opposition to this measure from the Department of Education, Land Use Research Foundation of Hawaii, Chamber of Commerce Hawaii, IMUAlliance, Building Industry Association of Hawaii, and one individual. Your Committees received comments on this measure from the Hawaii Housing Finance and Development Corporation.

Your Committees find that a shortage of affordable housing exists in Hawaii. School impact fees can significantly raise the cost of new housing development projects. Your Committees further find that the increased cost of development is particularly prohibitive for affordable housing projects.

Your Committees have amended this measure by:

- (1) Exempting affordable housing projects and properties developed by the Hawaii Public Housing Authority from school impact fee requirements; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Education and Housing that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 884, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 884, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
 Education: Ayes, 5. Noes, none. Excused, none.
 Housing: Ayes, 4. Noes, none. Excused, 1 (Harimoto).

SCRep. 1058 Education on H.B. No. 498

The purpose and intent of this measure is to:

- (1) Broaden the scope of the State's early learning program to include early childhood development;
- (2) Expand the function of the Early Learning Advisory Board beyond an advisory capacity and amend the composition of the Board and the powers of some board members; and
- (3) Allow the Board to appoint and evaluate the Director of the Executive Office on Early Learning.

Your Committee received testimony in support of this measure from the Executive Office on Early Learning, State Public Charter School Commission, Kamehameha Schools, Native Hawaiian Educational Council, Hawaii Children's Action Network, and one individual.

Your Committee finds that a broad and consistent approach to early childhood development promotes the health and wellbeing of children, equips them to be engaged and active learners throughout their education, and benefits them throughout their lives. Your Committee further finds that the need for high-quality early childhood development programs is especially acute for children whose families face financial hardships. This measure will empower the Early Learning Advisory Board to take a more active role in directing consistent early childhood development policy and expand the public pre-kindergarten program to benefit children at risk of financial hardship.

Your Committee has amended this measure by:

- (1) Removing language prioritizing public pre-kindergarten placement in specific schools for children whose family income is at or below two hundred fifty percent of the federal poverty level;
- (2) Adding language prioritizing children whose family income is at or below two hundred fifty percent of the federal poverty level for participation in the preschool open doors program; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 498, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 498, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
 Ayes, 4. Noes, none. Excused, 1 (Dela Cruz).

SCRep. 1059 Education on H.B. No. 500

The purpose and intent of this measure is to:

- (1) Authorize the Executive Office on Early Learning and State Public Charter School Commission to enter a memorandum of understanding to administer the charter school prekindergarten classrooms; and
- (2) Appropriate monies to continue the support for eighteen charter school prekindergarten classrooms beginning with the 2018-2019 school year.

Your Committee received testimony in support of this measure from the Executive Office on Early Learning, Office of Hawaiian Affairs, State Public Charter School Commission, Early Learning Advisory Board, Kualapu'u Public Conversion Charter School, Hawaii State Teachers Association, Hawaii Public Charter School Network, Kamehameha Schools, Hawaii Children's Action Network, Americans for Democratic Action Hawaii, Native Hawaiian Education Council, and four individuals.

Your Committee finds that the State has made significant progress in developing a high-quality public prekindergarten program in Hawaii. Your Committee further finds that continuation and expansion of the prekindergarten program will benefit young learners and increase the likelihood of their success in school and in the larger community. This measure will facilitate efficient management and expansion of the public prekindergarten program.

Your Committee has amended this measure by making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 500, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 500, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Dela Cruz).

SCRep. 1060 Education on H.B. No. 880

The purpose and intent of this measure is to:

- (1) Establish a service mark licensing agreement program within the Department of Education; and
- (2) Authorize the Department of Education to register service marks for department programs and individual schools and enter into licensing agreements for the use of those marks.

Your Committee received testimony in support of this measure from the Department of Education and one individual.

Your Committee finds that sponsorships and partnerships between department schools and private entities can provide valuable resources and benefits for a broad range of educational activities, such as scholarships, field trips, sports teams, and clubs. The ability to register and license service marks and trademarks, and to engage in other commercial activities, will give department schools the power to pursue sponsorship opportunities that support the educational mission of the school and the Department. Your Committee further finds that a licensing agreement program will provide department programs and schools a means of controlling the use of their service marks and trademarks by third parties.

Your Committee notes that, as it is the intent of this measure to encompass service marks and trademarks, the use of the term “mark” would more appropriately reflect that intent.

Accordingly, your Committee has amended this measure by:

- (1) Adding a definition of “mark” that includes all trademarks and service marks eligible for registration, whether registered or not;
- (2) Changing the term “service mark” to “mark” in all instances; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 880, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 880, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Dela Cruz).

SCRep. 1061 Education on H.B. No. 930

The purpose and intent of this measure is to:

- (1) Create an Erin’s Law task force to review policies, programs, and curricula for educating public school students about sexual abuse and sex trafficking prevention, and report recommendations for the establishment of a program to educate public school students on sexual abuse prevention through age appropriate curricula; and
- (2) Appropriate monies to fund the Erin’s Law task force.

Your Committee received testimony in support of this measure from the State Public Charter School Commission, Hawaii State Teachers Association, Sex Abuse Treatment Center, Hawaii Youth Services Network, IMUAlliance, Hawaii Alliance of Boys and Girls Clubs, Planned Parenthood Votes Northwest and Hawaii, Parents and Children Together, UNITE, and six individuals. Your Committee received comments on this measure from the Department of Education and Department of Human Services.

Your Committee finds that sexual violence is a serious and ongoing threat to the safety, health, and well-being of children and young people in Hawaii. Your Committee further finds that nationally, one in six women and one in thirty-three men have been the victim of sexual assault in their lifetimes, with forty-four percent being under the age of eighteen at the time of the assault. Your Committee additionally finds that the national statistics are consistent with those in Hawaii. Your Committee also finds that, although programs and Department of Education-approved curricula currently exist in the State to provide training to school teachers and staff and sexual abuse prevention education to students, implementation is not consistent statewide and resources for the provision of training and education are limited. This measure will facilitate the development of strategies to better protect Hawaii’s children and young people from sexual violence and provide resources to implement those strategies throughout the State.

Your Committee notes that some testifiers in support of this measure, including the Hawaii State Teachers Association, IMUAlliance, and Hawaii Alliance of Boys and Girls Clubs have suggested that additional members be added to the task force whose perspective and expertise would be valuable to the task force.

Accordingly, your Committee has amended this measure by:

- (1) Adding a public school teacher, sex trafficking victim service provider, and community based non-profit after school provider as members of the task force; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 930, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 930, S.D. 1, and be referred to your Committees on Ways and Means and Judiciary and Labor.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Espero).

SCRep. 1062 Education on H.B. No. 937

The purpose and intent of this measure is to make an appropriation for the Executive Office on Early Learning to enter into contracts with third-party providers for family-child interaction learning organizations.

Your Committee received testimony in support of this measure from the State Public Charter School Commission, Executive Office on Early Learning, Kamehameha Schools, Chamber of Commerce Hawaii, Hui for Excellence in Education, Parents and Children Together, and thirty-six individuals.

Your Committee finds that the family is a child's first teacher, and engaging families contributes to healthy brain development, positive learning experiences, and children being ready for school. Your Committee further finds that the first five years of a child's life are especially important in providing a foundation for future growth and development. Your Committee additionally finds that access to programs at an early age will help early identification of developmental, social-emotional, and early learning issues. This measure will empower the Executive Office on Early Learning to more effectively work with the families of Hawaii's young children to provide high quality early learning programs.

Your Committee has amended this measure by:

- (1) Clarifying that the Executive Office on Early Learning may enter into contracts directly with third-party providers of family-child interaction learning programs rather than contracting with organizations to develop and implement such programs; and
- (2) Removing language requiring the programs be part of a mixed-delivery early childhood system.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 937, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 937, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Espero).

SCRep. 1063 Education on H.B. No. 492

The purpose and intent of this measure is to appropriate monies for two specialist II positions within the Hawaii Teacher Standards Board.

Your Committee received testimony in support of this measure from the Hawaii Teacher Standards Board, State Public Charter School Commission, Hawaii State Teachers Association, University of Hawaii at Manoa College of Education, and five individuals.

Your Committee finds that, since 2012, the Hawaii Teacher Standards Board funding is based solely on teacher licensing fees, including funding for staff and personnel positions. Your Committee further finds that, prior to 2012, monies for two specialists to support day to day licensing functions of the Board was provided by the general fund of the State. Your Committee additionally finds that licensing fees have not been sufficient to meet the financial needs of the Board, forcing the Board to reduce its staff to the minimum necessary to perform only its basic functions. This measure will support the Hawaii Teacher Standards Board in its mission to maintain licensing standards and perform licensure testing by restoring general fund monies for the Board's specialist staff positions.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 492, H.D. 2, and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Dela Cruz).

SCRep. 1064 Education on H.B. No. 533

The purpose and intent of this measure is to provide funding to the State Public Charter School Commission for the acquisition, repair, maintenance, and rental of charter school facilities.

Your Committee received testimony in support of this measure from the State Public Charter School Commission; Office of Hawaiian Affairs; Hawaii State Teachers Association; Kamehameha Schools; National Alliance for Public Charter Schools; Hawaii Public Charter School Network; Hawaii Children's Action Network; IMU Alliance; Hawaii Island School Garden Network; Ka'Umeke Ka'eo Public Charter School; Goodwill Hawaii; The Maritime Group, LLC; and sixteen individuals.

Your Committee finds that facilities funding is a long standing and persistent problem for charter schools in Hawaii. Your Committee further finds that, while start-up charter schools have paid the costs of their facilities from operational funds, Act 234, Session Laws of Hawaii 2015, authorized a framework for providing facilities funding and support for public charter school facilities with adequate prioritization, oversight, and accountability. Your Committee additionally finds that, while public charter schools may request facilities funding as part of its annual budget request, the amounts received in recent fiscal years have been insufficient to meet the costs of providing and maintaining high-quality facilities. Your Committee also finds that a lack of adequate facilities has a negative impact on the education of a school's students. This measure will provide monies to the State Public Charter School Commission to satisfy the unmet financial needs of public charter schools in Hawaii.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 533, H.D. 1, and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Espero).

SCRep. 1065 Education on H.B. No. 936

The purpose and intent of this measure is to:

- (1) Require that, for charter schools, any bonuses required by statute or collective bargaining be separate line items in the budget and not be paid out of facilities funding or per-pupil funding; and
- (2) Appropriate monies for teacher bonuses for hard-to-fill placement incentives and National Board certified teacher incentives for charter school teachers.

Your Committee received testimony in support of this measure from the Hawaii Teacher Standards Board, State Public Charter School Commission, Office of Hawaiian Affairs, Hawaii State Teachers Association, Hawaii Public Charter School Network, Kamehameha Schools, Native Hawaiian Education Council, and two individuals. Your Committee received comments on this measure from the Department of Budget and Finance.

Your Committee finds that public charter schools rely on the dedication of their administrators, staff, and teachers to create an environment of educational excellence for students in Hawaii. Like their counterparts at Department of Education schools, teachers at public charter schools who have earned National Board certification or who teach at schools determined to be hard-to-fill are entitled to incentive bonuses. Your Committee further finds that, while the Department of Education has established a dedicated fund for incentive bonuses, public charter schools must pay these bonuses out of per-pupil funds. Your Committee additionally finds that incentive bonuses are not calculated into the monies provided for per-pupil funds, resulting in significant strain to the budgets of public charter schools. Requiring that bonuses be a line item in the state budget will help alleviate this fiscal strain on charter schools.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 936, and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Dela Cruz).

SCRep. 1066 Education on H.B. No. 1231

The purpose and intent of this measure is to:

- (1) Specify instances in which the Department of Education may retain federal reimbursements for disaster relief; and
- (2) Clarify that the Department of Education may carry over funds received as a disaster relief appropriation or reimbursement.

Your Committee received testimony in support of this measure from the Department of Education. Your Committee received comments on this measure from the Department of Budget and Finance.

Your Committee finds that expenditures for disaster and emergency relief made by state agencies, including the Department of Education, are eligible for federal reimbursements. Your Committee further finds that, in the event that reimbursement is delayed and the original appropriation has lapsed, the reimbursement will go to the state treasury. This measure will ensure that the Department of Education can retain and use federal reimbursements for their original intended purpose in the event of a disaster.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1231, H.D. 1, and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Espero).

SCRep. 1067 Commerce, Consumer Protection, and Health on H.B. No. 1028

The purpose and intent of this measure is to:

- (1) Clarify the Attorney General's regulatory authority over charitable organizations and charitable assets;
- (2) Establish procedures for deactivations of registrations for charities no longer operating in Hawaii;
- (3) Clarify requirements for financial reports for solicitation campaigns and charitable organizations' annual reports; and
- (4) Make housekeeping amendments related to exemptions from registration and reporting requirements.

Your Committee received testimony in support of this measure from the Department of the Attorney General, Association of Fundraising Professionals – Aloha Chapter, and Hawai'i Alliance of Nonprofit Corporations.

Your Committee finds that this measure makes several amendments to the State's law governing charitable organizations and activities, including: adding a definition of "property", as that term relates to the protection of charitable assets; specifying procedures for deactivations of registration for charitable organizations; and clarifying requirements and procedures for the filing of financial and annual reports. This measure also assists the Department of the Attorney General in its oversight of charitable organizations and fundraising activities and clarifies regulatory procedures for the nonprofit sector.

Your Committee has amended this measure by:

- (1) Changing its effective date to July 1, 2017; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1028, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1028, H.D. 2, S.D. 1, and be referred to your Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Espero, Ihara, Kidani).

SCRep. 1068 (Joint) Agriculture and Environment and Government Operations on H.B. No. 523

The purpose and intent of this measure is to require each state agency to reasonably provide and maintain onsite methods at its buildings and facilities for the collection of recyclable materials, including paper, plastics, and deposit beverage containers, and appropriate funds for that purpose.

Your Committees received testimony in support of this measure from the American Chemistry Council, Animal Rights Hawai'i, Sierra Club of Hawai'i, and three individuals. Your Committees received comments on this measure from the Department of Accounting and General Services and Hawaii Public Housing Authority.

Your Committees find that increased access to recycling helps to prevent litter and reduce waste in landfills, oceans, and waterways. This measure increases access to recycling by requiring recycling collection at all state buildings and facilities and requiring the collection receptacles to be located near solid waste disposal receptacles.

Your Committees have heard the testimony of the Department of Accounting and General Services (DAGS) regarding the potential high costs of implementing this measure at all state buildings and facilities.

Accordingly, your Committees have amended this measure by:

- (1) Requiring the provision and maintenance of onsite methods for the collection of recyclable materials only at buildings and facilities managed, maintained, or serviced by DAGS; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

Your Committees request that DAGS provide your Committee on Ways and Means with estimates as to the actual cost of providing for the collection of recyclable materials, including paper, plastics, and deposit beverage containers, for recycling at its facilities, as well as suggestions of methods or technologies the State may utilize to reduce recycling costs.

As affirmed by the records of votes of the members of your Committees on Agriculture and Environment and Government Operations that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 523, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 523, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Agriculture and Environment: Ayes, 4. Noes, none. Excused, 1 (Nishihara).

Government Operations: Ayes, 3. Noes, none. Excused, 2 (Galuteria, Tokuda).

SCRep. 1069 Government Operations on H.B. No. 165

The purpose and intent of this measure is to:

- (1) Establish a working group to develop board packet disclosure requirements that meet the public's interest of greater disclosure of board meetings;
- (2) Require the working group, with the assistance of the Legislative Reference Bureau, to report its findings and recommendation to the Legislature no later than twenty days prior to the convening of the regular session of 2018;
- (3) Establish notice and disclosure requirements for emergency meetings;
- (4) Clarify notice filing requirements and allow electronic mailing of meeting notices; and
- (5) Require electronic posting of meeting notices, cancellation notices, and meeting minutes.

Your Committee received testimony in support of this measure from the Office of Information Practices, Department of Commerce and Consumer Affairs Professional and Vocational Licensing Division, Society of Professional Journalists Hawaii Chapter, and Civil Beat Law Center for the Public Interest. Your Committee received comments on this measure from the Department of Land and Natural Resources, Hawaii Community Development Authority, Disability and Communication Access Board, Legislative Reference Bureau, League of Women Voters, and Common Cause Hawaii.

Your Committee finds that the people of Hawaii are best served by increased government transparency, understanding, and participation. Your Committee finds that modernizing the Sunshine Law to include electronic posting of meeting notices and minutes will increase public access to valuable information regarding public agency meetings. Your Committee notes that allowing notices to be electronically mailed provides for the best use of government time and resources.

Your Committee finds that establishing a working group to develop board packet disclosure requirements is unnecessary. Your Committee further finds that increasing access to board materials via the accessibility of board packets will allow for more meaningful public testimony at meetings, and further increase the quality of public participation in civic life. Your Committee notes that this has been a long-standing and much-discussed issue, and your Committee heard sufficient testimony to establish a requirement and process in this measure by which board packets shall be made available for public inspection.

Accordingly, your Committee has amended this measure by:

- (1) Removing the establishment of the working group;
- (2) Inserting a requirement that board packets be available for public inspection, including electronically available if feasible;
- (3) Requiring that oral testimony at open meetings be allowed for each agenda item separately and at the time the item is first brought up for discussion at the meeting;
- (4) Requiring a written summary to accompany any minutes that are electronically posted in a digital or analog recording format;
- (5) Making the entire measure effective on July 1, 2050; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 165, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 165, H.D. 1, S.D. 1, and be referred to your Committees on Judiciary and Labor and Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Galuteria, Tokuda).

SCRep. 1070 Government Operations on H.B. No. 308

The purpose and intent of this measure is to allow board members to provide government records that are open to public inspection to other board members under certain conditions.

Your Committee received testimony in support of this measure from the Hawai'i State Association of Counties, Civil Beat Law Center for the Public Interest, and two individuals. Your Committee received testimony in opposition to this measure from the League of Women Voters. Your Committee received comments on this measure from the Office of Information Practices.

Your Committee supports efforts to increase government transparency and efficiency. Your Committee finds that under this measure, the distribution of the government records is limited to documents open to public inspection. Your Committee further notes that the greatest need for this measure appears to be to increase the efficiency and transparency of the county councils.

Your Committee has amended this measure by:

- (1) Limiting the circumstances and criteria under which county council members may share government records;
- (2) Restricting the types of government records that may be transmitted to records created by a person other than an officer or employee of the county council;
- (3) Clarifying the conditions under which the government records may be transmitted and what the transmittal may contain;
- (4) Requiring the government records to be accessible to the public no less than twenty-four hours before a council meeting and electronically mailed upon request;
- (5) Including a repeal date of June 30, 2019; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 308, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 308, H.D. 1, S.D. 1, and be referred to your Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Galuteria, Tokuda).

SCRep. 1071 (Joint) Government Operations and Public Safety, Intergovernmental, and Military Affairs on H.B. No. 1534

The purpose and intent of this measure is to remove the one-year residency requirement for all appointed officers who are department heads and deputies or assistants to a department head.

Your Committees received testimony in support of this measure from the Honolulu Police Commission. Your Committees received testimony in opposition to this measure from the State of Hawaii Organization of Police Officers and two individuals.

Your Committees find that employing the best qualified individuals at all levels of state government serves the public interest. Your Committees note that certain positions require specialized skills, training, and leadership abilities, and that it can be advantageous to expand the available pool of eligible candidates for those difficult to fill positions. Your Committees find that removing the one-year residency barrier for employment of county police department heads is beneficial for the health, safety, and welfare of the public.

Your Committees have amended this measure by:

- (1) Reinserting the one-year residency requirement for all appointed officers who are department heads and deputies or assistants to a department head;
- (2) Inserting language allowing the one-year residency requirement to be waived for appointed officers who are employed as the head of a county police department; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Government Operations and Public Safety, Intergovernmental, and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 1534, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 1534, H.D. 1, S.D. 1, and be referred to your Committee on Judiciary and Labor.

Signed by the Chairs on behalf of the Committees.

Government Operations: Ayes, 3. Noes, none. Excused, 2 (Galuteria, Tokuda).

Public Safety, Intergovernmental, and Military Affairs: Ayes, 4. Noes, none. Excused, 1 (Wakai).

SCRep. 1072 (Joint) Hawaiian Affairs and Water and Land on H.B. No. 121

The purpose and intent of this measure is to:

- (1) Establish the Papahānaumokuākea Marine National Monument program to coordinate and fulfill the State's role and responsibilities in co-managing the Papahānaumokuākea Marine National Monument; and
- (2) Statutorily establish a goal to effectively manage thirty percent of nearshore waters by 2030.

Your Committees received testimony in support of this measure from the Conservation Council for Hawai'i and five individuals. Your Committees received testimony in opposition to this measure from three individuals. Your Committees received comments on this measure from the Department of Land and Natural Resources and Office of Planning.

Your Committees find that President Barack Obama issued Presidential Proclamation 9478 on August 26, 2016, to expand the Papahānaumokuākea Marine National Monument to provide critical protections for more than seven thousand marine species, including whales and sea turtles listed under the Endangered Species Act and the longest-living marine species in the world, black coral, which live longer than four thousand five hundred years. The expanded Papahānaumokuākea Marine National Monument will improve ocean resilience, help the region's distinct physical and biological resources adapt, and create a natural laboratory that will allow scientists to monitor and explore the impacts of climate change on these fragile ecosystems.

Your Committees find that the Department of Land and Natural Resources has served as the lead agency of the State to co-manage the Papahānaumokuākea Marine National Monument. In this role, the Department has exercised its stewardship responsibility for managing, administering, and exercising control over lands, waters, and natural resources within the State's jurisdiction. Your Committees further find that in January 2017, an updated Memorandum of Agreement for the Papahānaumokuākea Marine National Monument was executed and added the Office of Hawaiian Affairs as a second state co-trustee for the monument. In its capacity as a co-trustee of the monument, the Office of Hawaiian Affairs is better situated to incorporate native Hawaiian cultural resources management into management of the monument and protect the customary and traditional rights and practices of native Hawaiians exercised for subsistence, cultural, and religious purposes under section 7 of article XII of the state constitution.

Your Committees have amended this measure by:

- (1) Deleting language that required certain agencies to establish a goal of effectively managing thirty percent of the nearshore waters by 2030;
- (2) Inserting references to the designation of the Office of Hawaiian Affairs as a co-trustee of the monument, pursuant to an agreement with the State and two departments of the federal government;
- (3) Inserting language to allow the Department of Land and Natural Resources to take other actions as necessary to effectively manage natural and cultural resources of the monument;
- (4) Adding an appropriation to the Department of Land and Natural Resources for the purposes of this measure; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Hawaiian Affairs and Water and Land that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 121, H.D. 3, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 121, H.D. 3, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Hawaiian Affairs: Ayes, 3. Noes, none. Excused, 2 (English, Kim).

Water and Land: Ayes, 4. Noes, none. Excused, 1 (Kim).

SCRep. 1073 (Majority) Judiciary and Labor on H.B. No. 213

The purpose and intent of this measure is to:

- (1) Allow an employee to use family leave to care for the employee's sibling with a serious health condition or upon the death of the employee's child, spouse, reciprocal beneficiary, sibling, or parent; and
- (2) Specify certification requirements for when family leave is taken for the death of the employee's child, spouse, reciprocal beneficiary, sibling, or parent.

Your Committee received testimony in support of this measure from the Hawaii State Commission on the Status of Women; ILWU Local 142; LGBT Caucus of the Democratic Party of Hawaii; United Public Workers, AFSCME, Local 646, AFL CIO; Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO; and four individuals. Your Committee received testimony in opposition to this measure from the Hawaii Food Industry Association, Hawaii Restaurant Association, Retail Merchants of Hawaii, Maui Chamber of Commerce, Society for Human Resource Management–Hawaii Chapter, Il Gelato Hawaii, and one individual. Your Committee received comments on this measure from the Department of Labor and Industrial Relations, Policy Advisory Board for Elder Affairs, and Hawaii Children's Action Network.

Your Committee finds that employees are currently entitled to four weeks of family leave during the calendar year upon the birth or adoption of an employee's child or to care for the employee's child, spouse, reciprocal beneficiary, or parent with a serious health condition. Your Committee also finds that employees may need to be absent from work in order to care for a sibling with a serious health condition or upon the death of an employee's child, spouse, reciprocal beneficiary, sibling, or parent.

Your Committee has amended this measure by:

- (1) Inserting an effective date of January 7, 2059, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 213, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 213, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, 1 (Kim). Excused, none.

SCRep. 1074 Judiciary and Labor on H.B. No. 1402

The purpose and intent of this measure is to establish a shared leave program within the Department of Human Resources Development to allow state employees to donate accumulated sick leave and vacation leave credits to a shared leave bank or directly to another state employee who has a serious personal illness or injury or who has a family member who has a serious personal illness or injury.

Your Committee received testimony in support of this measure from the United Public Workers, AFSCME, Local 646, AFL-CIO; Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO; and three individuals. Your Committee received testimony in opposition to this measure from the Department of Human Resources Development. Your Committee received comments on this measure from one individual.

Your Committee finds that numerous state departments implement shared leave programs within their respective departments, but state employees cannot currently share leave between departments. Your Committee finds that state employees suffering from a serious illness or injury may deplete their paid leave allowance and often depend on shared leave to prevent economic hardship during recovery; therefore, a shared leave program across state departments may benefit many state employees.

Your Committee has amended this measure by:

- (1) Deleting its contents and replacing them with the provisions of S.B. No. 207, S.D. 2, Regular Session of 2017, which establishes shared leave programs for public employees by:
 - (A) Requiring the Judiciary, Legislature, and Executive Branch to each establish a shared leave program for state employees;
 - (B) Precluding a state government branch from prohibiting leave sharing between different departments or bargaining units because of administrative infeasibility;
 - (C) Allowing the chief executive of a county to establish a shared leave program for county employees; and
 - (D) Allowing an employee's designation of beneficiary form to be filed with the department where the employee is employed and permits the designation to be made through a statement that is not verified or written, thereby including an electronically maintained statement;
- (2) Inserting an effective date of January 7, 2059, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1402, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1402, H.D. 2, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 1075 Judiciary and Labor on H.B. No. 279

The purpose and intent of this measure is to:

- (1) Distinguish between expenditures or disbursements for electioneering communications or any other coordinated activity in cooperation, consultation, in concert with, or at the request or suggest of a candidate, candidate committee, of their agents and the financing of the dissemination, distribution, and republication of a candidate's campaign material, by separating these two provisions into separate subsections under section 11-363, Hawaii Revised Statutes; and
- (2) Specify instances where the financing of the dissemination, distribution, or republication of a candidate's campaign material is not a contribution to that candidate.

Your Committee received testimony in support of this measure from the Campaign Spending Commission.

Your Committee finds that by separating the provisions relating to the expenditures or disbursements for electioneering communications or any other coordinated activity and the financing of the dissemination, distribution, and republication of a candidate's campaign material, this measure clarifies the types of activities or instances that would result in a contribution to and an

expenditure by a candidate or a contribution to that candidate, respectively. These activities or instances would be required to be reported accordingly.

Your Committee has amended this measure by clarifying that the incorporation of material into an advertisement or electioneering communication is not a contribution to the candidate if the material was incorporated by a different candidate, or by a noncandidate committee, advocating the defeat of the candidate that originally prepared the material.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 279, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 279, H.D. 1, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 1076 (Joint) Commerce, Consumer Protection, and Health and Agriculture and Environment on H.B. No. 1244

The purpose and intent of this measure is to:

- (1) Amend the cesspool upgrade, conversion, or connection income tax credit to: make the tax credit assignable; make the tax credit refundable; expand the criteria for cesspools that qualify for the tax credit; and extend the sunset date to December 31, 2022;
- (2) Require all cesspools in the State to be upgraded or converted to septic or aerobic treatment unit systems or connected to sewer systems by January 1, 2050;
- (3) Establish a grant program to assist with cesspool upgrade, conversion, or connection costs; and
- (4) Appropriate funds for the grant program.

Your Committees received testimony in support of this measure from the Department of Health, Sierra Club of Hawai'i, Nature Conservancy of Hawai'i, and nine individuals. Your Committees received testimony in opposition to this measure from the Office of the Mayor of the County of Hawai'i. Your Committees received comments on this measure from the Department of Taxation, Tax Foundation of Hawaii, and Hawai'i Association of REALTORS.

Your Committees find that cesspools are a major source of pollution to Hawaii's waters. According to testimony from the Department of Health, there are approximately 90,000 cesspools in the State, which discharge approximately 55,000,000 gallons of untreated sewage into the groundwater every day. Groundwater flows into drinking water sources, streams, and the ocean, harming public health and the environment, including beaches and coral reefs. Although your Committees understand that there are significant costs associated with cesspool conversion, phasing out cesspools will eliminate threats to drinking water and recreational waters. Among other things, this measure expands the cesspool upgrade, conversion, or connection income tax credit, including making the tax credit assignable, and establishes a grant program to help facilitate the phasing out of cesspools.

Your Committees have heard the concerns raised by the Department of Taxation in testimony, regarding the assignment of the cesspool upgrade, conversion, or connection income tax credit. Your Committees also recognize that in certain areas of the State, upgrading a sewage system is impossible or extremely costly. Your Committees heard testimony from the Department of Health indicating that a variance mechanism exists allowing the public to apply to the Department for an exemption under such circumstances. Your Committees understand these concerns and conclude that amendments to this measure are necessary.

Your Committees have amended this measure by:

- (1) Deleting language that would have made the cesspool upgrade, conversion, or connection income tax credit assignable;
- (2) Authorizing the Director of Health to grant exemptions to the requirement to upgrade, convert, or connect a cesspool by January 1, 2050, if a property owner applies for the exemption and presents documentation showing a legitimate reason that makes the upgrade, conversion, or connection infeasible;
- (3) Clarifying that the amendments to the cesspool upgrade, conversion, or connection income tax credit shall apply to taxable years beginning after December 31, 2017;
- (4) Making it effective on July 1, 2017; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Commerce, Consumer Protection, and Health and Agriculture and Environment that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 1244, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 1244, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Commerce, Consumer Protection, and Health: Ayes, 6; Ayes with Reservations (Ruderman). Noes, none. Excused, 1 (Chang).

Agriculture and Environment: Ayes, 5; Ayes with Reservations (Ruderman). Noes, none. Excused, none.

SCRep. 1077 Human Services on H.B. No. 801

The purpose and intent of this measure is to:

- (1) Require certain amounts of child support monies collected by the Department of Human Services for public assistance of a child to pass through to the family receiving the public assistance; and

- (2) Require the Department to disregard certain amounts that are passed through child support payments when determining the needs of an applicant for or recipient of public assistance.

Your Committee received testimony in support of this measure from one individual. Your Committee received comments on this measure from the Department of Human Services and Department of the Attorney General.

Your Committee finds that the Child Support Enforcement Agency (CSEA) is tasked with collecting the debt owed to the Department of Human Services when Temporary Assistance for Needy Families (TANF) benefits are paid for the benefit of any dependent child. Because TANF is a federally funded program, the federal share of the collection is paid back to the federal government. Furthermore, the federal share is maintained in a separate account and available for use by the CSEA as the federal matching funds when state funds are expended. Your Committee further finds that in fiscal year 2016, the Department of Human Services received \$4,996,455 from the CSEA.

Your Committee notes the concerns raised by the Department of the Attorney General that identify the costs that CSEA would incur to implement this measure, as these costs have not been budgeted for. These costs include a redesign of CSEA's statewide computer system and amendments to CSEA's reports to the federal government and Department of Human Services to accommodate the pass through payments.

Because of these concerns, your Committee has amended this measure by:

- (1) Inserting language that appropriates \$400,000 to cover any costs incurred by the CSEA; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 801, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 801, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Tokuda, Wakai).

SCRep. 1078 Human Services on H.B. No. 1099

The purpose and intent of this measure is to bring the State into compliance with the federal Justice for Victims of Trafficking Act of 2015 (Public Law 114-22) and the federal Child Abuse Prevention and Treatment Act of 2010 (Public Law 111-320) by, among other things:

- (1) Amending the definition of "child abuse or neglect" to include sex trafficking;
- (2) Clarifying that child abuse and neglect reports that are expunged from the State's central registry may be retained by the Department of Human Services for future risk and safety assessment purposes; and
- (3) Deleting the child abuse investigation disposition of "unsubstantiated" and replacing it with "not confirmed".

Your Committee received testimony in support of this measure from the Department of Human Services, Honolulu Police Department, IMUAlliance, Family Programs Hawaii, and one individual. Your Committee received testimony in opposition to this measure from the Hawaii Family Advocacy Team.

Your Committee finds that the reporting of child abuse by mandated reporters should be expanded to include reports on known or suspected child victims of sex trafficking to bring the State in compliance with the Justice for Victims of Trafficking Act of 2015 (Public Law 114-22). Furthermore, to comply with the Child Abuse Prevention and Treatment Act of 2010 (Public Law 111-320), it is necessary to ensure that reports of child abuse and neglect may be retained by the Department of Human Services for future risk and safety assessment purposes.

Your Committee has amended this measure by:

- (1) Inserting an effective date of May 29, 2017; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1099, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1099, H.D. 1, S.D. 1, and be referred to your Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Tokuda, Wakai).

SCRep. 1079 Human Services on H.B. No. 693

The purpose and intent of this measure is to appropriate funds to the Department of Human Services for the operational costs of an organization providing prevention, intervention, and group and individual counseling for high risk youth.

Your Committee received testimony in support of this measure from the Hawaii Children's Action Network, Plumbers and Fitters Local 675, Adult Friends for Youth, and ten individuals. Your Committee received comments on this measure from the Office of Youth Services and Hawaii Youth Services Network.

Your Committee finds that youth violence is a growing concern in the State, particularly violence and juvenile delinquency associated with gang membership. In addition, homicide, suicide, aggravated assaults, and traffic accidents due to underage alcohol consumption by youth represent large costs for the State. Allocating resources to a multi-pronged approach through programs that

have the expertise and experience to reach out and establish relationships with youth in school-centered and neighborhood-centered environments will help promote education, self-esteem, individual growth and development, leadership, and responsibility.

Your Committee has amended this measure by inserting an effective date of January 1, 2050, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 693, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 693, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Tokuda, Wakai).

SCRep. 1080 Human Services on H.B. No. 674

The purpose and intent of this measure is to:

- (1) Require all child care providers subject to regulation by the Department of Human Services to obtain and maintain liability insurance as a condition of licensure, temporary permission, or registration and disclose insurance-related information to certain parents or guardians;
- (2) Authorize the Department to suspend or revoke a provider's license, temporary permit, or certificate of registration if the provider does not comply with the insurance coverage and disclosure requirements; and
- (3) Prohibit the enforcement of the liability insurance requirements for child care providers by the Department until January 1, 2018.

Your Committee received testimony in support of this measure from the Hawaii Children's Action Network and fifty-two individuals. Your Committee received comments on this measure from the Department of Human Services.

Your Committee finds that because many parents must work full time, child care is a necessity for many local families. Through the Department of Human Services, the State regulates and inspects these child care facilities to ensure that all children are safe and healthy. Requiring all licensed or registered child care providers to obtain and maintain liability insurance coverage may provide greater assurance to families who utilize child care services and allow opportunities for legal recourse for parents whose children are not properly cared for.

Your Committee has amended this measure by:

- (1) Delaying the compliance date of liability insurance requirements for child care providers to January 1, 2019; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 674, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 674, H.D. 2, S.D. 1, and be referred to your Committees on Commerce, Consumer Protection, and Health and Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Tokuda, Wakai).

SCRep. 1081 Human Services on H.B. No. 199

The purpose and intent of this measure is to include physical isolation as a form of abuse, allegations of which the Department of Human Services is authorized to investigate and instances for which the Department may take corrective action, including obtaining judicial relief.

Your Committee received testimony in support of this measure from the Honolulu Police Department, State Council on Developmental Disabilities, and one individual. Your Committee received comments on this measure from the Department of Human Services.

Your Committee finds that unnecessarily denying a person the ability to communicate and interact with others has damaging effects on the well-being of an individual. Oftentimes, physical isolation is used to conceal abuse or to prevent vulnerable adults access to critical support services. While state laws and various agencies and services protect vulnerable adults, adding physical isolation as a form of abuse and neglect that the Department of Human Services can investigate will further protect these dependent adults and ensure their protection against such acts.

Your Committee has amended this measure by inserting an effective date of January 1, 2050, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 199, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 199, H.D. 2, S.D. 1, and be referred to your Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Tokuda, Wakai).

SCRep. 1082 (Majority) Human Services on H.B. No. 83

The purpose and intent of this measure is to:

- (1) Allow the Department of Human Services to establish puuhonua safe zones where homeless persons may reside; and

- (2) Appropriate funds for establishing puuhonua safe zones.

Your Committee received testimony in support of this measure from the Office of the Mayor of the County of Hawai'i, League of Women Voters of Hawaii, and two individuals. Your Committee received testimony in opposition to this measure from The Institute for Human Services and one individual. Your Committee received comments on this measure from the Governor's Coordinator on Homelessness, Department of Human Services, and Department of Land and Natural Resources.

Your Committee finds that due to economic constraints, the supply of subsidized housing is, and will continue to be, woefully insufficient for the foreseeable future. Consequently, illegal homeless camps, which are a public health menace, are ubiquitous. The State must therefore explore the establishment of alternative housing options that will ensure that homeless individuals are housed and receive much needed support services.

Your Committee has amended this measure by deleting its contents and inserting language that:

- (1) Requires the Hawaii Interagency Council on Homelessness, in conjunction with and the advisement of the Department of Human Services and Department of Land and Natural Resources, to establish a working group to examine and develop recommendations related to the establishment of safe zones for persons experiencing homelessness;
- (2) Specifies various issues that the working group shall take into consideration;
- (3) Requires the working group to submit a report of its findings and recommendations, including any proposed legislation, to the Legislature no later than twenty days prior to the convening of the Regular Session of 2018; and
- (4) Appropriates funds to support the activities of the working group.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 83, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 83, H.D. 1, S.D. 1, and be referred to your Committees on Judiciary and Labor and Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 2. Noes, 1 (Harimoto). Excused, 2 (Tokuda, Wakai).

SCRep. 1083 Human Services on H.B. No. 669

The purpose and intent of this measure is to streamline the reporting requirements of the Department of Human Services and the family courts by:

- (1) Requiring the Department, upon direction of the court, to provide the family court with an oral or written report regarding the safety of a minor child of the parties on or prior to the next regularly scheduled court hearing;
- (2) Providing that if the Department provides a written report, the Department need not appear at the hearing unless ordered to do so; and
- (3) Requiring the court to provide copies of all written reports to the parties.

Your Committee received testimony in support of this measure from the Judiciary and one individual. Your Committee received comments on this measure from the Department of Human Services.

Your Committee finds that victims, victims' children, and perpetrators need case management and access to critical and timely services to address the multi-faceted problem of family violence. Presently, the family courts report all temporary restraining orders in instances where there are minors present in the home to the Child Welfare Services Branch of the Department of Human Services, regardless of the minors' exposure to the alleged domestic violence. Many reports do not indicate any safety concerns for minors in such cases; consequently, Child Welfare Services staff must undertake the additional burden of screening referrals, investigating cases, and submitting written reports to the court in advance of the hearings. This measure ensures timely communication of information that may be critical in addressing the needs and safety of children.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 669, H.D. 1, and recommends that it pass Second Reading and be referred to your Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Tokuda, Wakai).

SCRep. 1084 Human Services on H.B. No. 844

The purpose and intent of this measure is to:

- (1) Require the Office of Youth Services to coordinate a two-year Safe Places for Youth pilot program in partnership with private organizations to establish a network of safe places that youth can access for safety and to obtain advice, guidance, programs, and services; and
- (2) Establish and appropriate funds for a coordinator position and for residential options for the pilot program.

Your Committee received testimony in support of this measure from the Judiciary, Hawaii Youth Services Network, Hawaii Women's Coalition, Community Alliance on Prisons, Planned Parenthood Votes Northwest and Hawaii, Hawaii Chapter of the Young Progressives Demanding Action, and three individuals. Your Committee received comments on this measure from the Office of Youth Services.

Your Committee finds that, nationally, it is estimated that on any given night, there are approximately 1,300,000 homeless youth living unsupervised on the streets, in abandoned buildings, with friends or with strangers. Homeless youth lack parental, foster, or institutional care and are thus prone to be at a higher risk for physical abuse, sexual exploitation, mental health disabilities, substance abuse, and death. A 2016 National Conference of State Legislatures article indicates that studies have shown that forty-six percent of runaway and homeless youth reported being physically abused, thirty-eight percent reported being emotionally abused, and seventeen percent reported being forced into unwanted sexual activity by a family or household member. Furthermore, seventy-five percent of homeless or runaway youth have dropped out or will drop out of school. Because Hawaii is not immune to the seriousness and prevalence of youth homelessness, it is critical that the State establish safe places that offer shelter, programs, and support to at-risk youth.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 844, H.D. 1, and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Tokuda, Wakai).

SCRep. 1085 Human Services on H.B. No. 92

The purpose and intent of this measure is to require and appropriate funds for an annual inflation adjustment to the methodology used to reimburse long-term care facilities for care provided to Medicaid recipients.

Your Committee received testimony in support of this measure from the Hawaii Health Systems Corporation; Oahu Region of the Hawaii Health Systems Corporation; Chamber of Commerce Hawaii; The Queen's Health Systems; Aloha Nursing Rehab Centre; One Kalakaua Senior Living; Ann Pearl Rehabilitation and Healthcare; Ohana Pacific Management Company, Inc.; Pu'uwai 'O Makaha; Hale Kupuna Heritage Home; Healthcare Association of Hawaii; Hawaii Chapter of the American Physical Therapy Association; Clarence T. C. Ching Villas at St. Francis; Garden Isle Rehabilitation and Healthcare; and one individual. Your Committee received comments on this measure from the Department of Human Services.

Your Committee finds that long-term care facilities in the State face major financial challenges in providing quality health care for Hawaii residents, largely because the payments for Medicaid enrollees do not cover the actual costs of care. The Legislature did approve funding for an inflationary update to Medicaid rates for long-term care facilities in 2016, the first increase in approximately seven years. That one-time appropriation of approximately \$1,500,000 for fiscal year 2016-2017 generated an additional \$2,500,000 in federal funds. However, despite that infusion of funds, the Medicaid shortfall will likely persist as the rising costs of care continue to outpace reimbursements. This measure provides another inflationary adjustment for fiscal years 2017-2018 and 2018-2019 to help defray some of those costs.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 92, H.D. 1, and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Tokuda, Wakai).

SCRep. 1086 Human Services on H.B. No. 615

The purpose and intent of this measure is to appropriate funds to the Executive Office on Aging for the Healthy Aging Partnership Program to further the program's vital role in improving the health and well-being of Hawaii's kupuna.

Your Committee received testimony in support of this measure from the Executive Office on Aging, Policy Advisory Board for Elder Affairs, Maui County Office on Aging, County of Kauai Agency on Elderly Affairs, Hawaii Family Caregiver Coalition, AARP Hawaii, ILWU Local 142, and numerous individuals.

Your Committee finds that the Healthy Aging Partnership Program aims to improve the health of older adults and empower them to stay healthy, active, and socially engaged. The program serves as an important link between clinical support for patients and community resources for lifestyle change. Furthermore, the program operates two evidence-based intervention programs that have demonstrated that older adults with chronic conditions and their caretakers benefit by focusing on self-management as an integral method to avoiding long-term complications from chronic conditions. Your Committee further finds that the Healthy Aging Partnership Program is a worthwhile investment for the State, as preventing disease and disability is far less expensive than resulting health and social services for persons needing treatment.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 615, H.D. 1, and recommends that it pass Second Reading and be referred to your Committees on Commerce, Consumer Protection, and Health and Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Tokuda, Wakai).

SCRep. 1087 (Joint) Human Services and Housing on H.B. No. 1098

The purpose and intent of this measure is to:

- (1) Provide that emergency shelters may have partitioned space for homeless persons or families based on Department of Human Services guidelines;
- (2) Delay the emergency or transitional shelter compliance requirements per Act 234, Session Laws of Hawaii 2016, for contracts between the Department and emergency or transitional shelter provider agencies for one year; and

- (3) Delay the effective date of Act 234, Session Laws of Hawaii 2016, by one year.

Your Committees received testimony in support of this measure from the Governor's Coordinator on Homelessness, Department of Human Services, Office of the Mayor of the County of Hawai'i, The Institute for Human Services, Catholic Charities Hawai'i, Hawaii Appleseed Center for Law and Economic Justice, and one individual.

Your Committees find that in an attempt to make the homeless shelter system more cost effective and more appealing to families and individuals, the Legislature enacted Act 234, Session Laws of Hawaii 2016, to establish minimum requirements for every homeless emergency shelter operated by a provider agency that is under contract with the Department of Human Services. However, there is wide variation in the configuration of homeless emergency shelters across the State. To ensure that the minimum health and safety standards adopted by the Department of Human Services provide sufficient flexibility to address these diverse needs, the Department needs additional time to meet with shelter providers and discuss the ability to bring shelter space into compliance with emergency shelter requirements.

Your Committees have amended this measure by:

- (1) Clarifying that the delay of the effective date of Act 234, Session Laws of Hawaii 2016, to July 1, 2018, does not apply to subsection (c) of section 6 of Act 234, which requires the Department of Human Services to work with provider agencies to implement Act 234 and took effect on July 1, 2016;
- (2) Inserting an effective date of July 1, 2017; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Human Services and Housing that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 1098, H.D. 2, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 1098, H.D. 2, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Human Services: Ayes, 3. Noes, none. Excused, 2 (Tokuda, Wakai).

Housing: Ayes, 3. Noes, none. Excused, 2 (Kahale, Keith-Agaran).

SCRep. 1088 (Joint) Water and Land and Commerce, Consumer Protection, and Health on H.B. No. 632

The purpose and intent of this measure is to broaden the Hawaii Water Infrastructure Loan Program by:

- (1) Amending the definition of "water infrastructure charge" to include on-bill charges for loan repayments and other charges that may be imposed on water utilities; and
- (2) Including water utilities and water tanks in the Hawaii Water Infrastructure Loan Program.

Your Committees received testimony in support of this measure from the Department of Agriculture, Board of Water Supply of the City and County of Honolulu, Ulupono Initiative, and Hawai'i Farm Bureau.

Your Committees find that water is a vital state resource, and the Water Infrastructure Loan Program provides essential funding for the maintenance and upgrading of water infrastructure systems. Expansion of the program to include water utilities and water tanks will provide additional financing options for waterworks projects and help in keeping water rates affordable for water utility customers. Additionally, expanding the program to include water tanks is critical for residents who live in systems dependent on surface waters or remote residential or farm systems dependent on catchment.

Your Committees have amended this measure by:

- (1) Removing the proposed amendments to the definition of "water infrastructure charge";
- (2) Inserting an effective date of March 15, 2009, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Water and Land and Commerce, Consumer Protection, and Health that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 632, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 632, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Water and Land: Ayes, 3. Noes, none. Excused, 2 (Gabbard, Thielen).

Commerce, Consumer Protection, and Health: Ayes, 4. Noes, none. Excused, 3 (Ihara, Kidani, Nishihara).

SCRep. 1089 Water and Land on H.B. No. 575

The purpose and intent of this measure is to authorize the Board of Land and Natural Resources to extend commercial, hotel, resort, and industrial leases for state lands in the Banyan Drive and Kanoelehua industrial area of Hilo, Hawaii, for the lessee to make qualifying substantial improvements to the land.

Your Committee received testimony in support of this measure from the Hawaii Government Employees Association; East Hawaii Region of Hawaii Health Systems Corporation; Chamber of Commerce Hawaii; Kanoelehua Industrial Area Association; Building Industry Association; Hawaii Bankers Association; Hawaii Island REALTORS; HPM Building Supply; Mauna Kea Infrared, LLC; Big Island Toyota, Inc.; and nine individuals. Your Committee received testimony in opposition to this measure from the Department of

the Attorney General. Your Committee received comments on this measure from the Office of the Mayor of the County of Hawai'i and one individual.

Prior to the hearing on this measure, your Committee posted and made available for public review a proposed S.D. 1 of this measure. The proposed S.D. 1 deleted the contents of this measure and inserted provisions that:

- (1) Authorize the lessees of public land in the Banyan Drive and Kanoelehua industrial areas of Hilo, Hawaii, to relinquish a lease during the last ten years of the term of the lease, subject to certain conditions;
- (2) Allow the relinquishing lessees to bid on the new lease at public auction; and
- (3) Change the effective date to upon approval.

Your Committee received testimony in support of the proposed S.D. 1 from the Hawaii Government Employees Association, Chamber of Commerce Hawaii, Kanoelehua Industrial Area Association, Hawai'i Association of REALTORS, and HPM Building Supply. Your Committee received testimony in opposition to the proposed S.D. 1 from the Department of the Attorney General. Your Committee received comments on the proposed S.D. 1 from the Department of Land and Natural Resources, Office of the Mayor of the County of Hawai'i, and one individual.

Your Committee finds that the maximum lease term of sixty-five years for public lands has the unfortunate consequence of a lessee having little economic incentive to invest in the property during the last ten years of the lease term. Additionally, lessees may encounter difficulties obtaining financing for improvements to a leasehold property when the remaining lease term is insufficient to secure a mortgage on the property. Your Committee notes that the purpose behind the lease term limit is to maximize the public use and benefit of public lands. Your Committee finds that allowing lessees to relinquish a lease during the last ten years of the lease and subsequently bid for a new lease at public auction serves the public interest by maximizing public land benefits and discouraging deteriorating conditions near the end of a lease term.

Your Committee has amended this measure by adopting the proposed S.D. 1 and further amending the measure by:

- (1) Removing the limits of applicability to public land that is located in the Banyan Drive and Kanoelehua industrial areas of Hilo, Hawaii;
- (2) Clarifying that relinquishing the lease does not alter any obligation of the lessee to indemnify, defend, and hold the State harmless from certain claims regarding pollution or contamination;
- (3) Amending the definition of the term "improvements" to mean all physical improvements constructed, owned, or contributed and owned by the lessee during the lease term and excludes infrastructure constructed, owned, or constructed and owned by third parties;
- (4) Inserting an unspecified appropriation to the Department of Land and Natural Resources for costs incurred for implementation;
- (5) Inserting an effective date of March 15, 2099, to encourage further discussion; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 575, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 575, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Gabbard, Kim).

SCRep. 1090 (Joint) Housing and Economic Development, Tourism, and Technology on H.B. No. 660

The purpose and intent of this measure is to establish and appropriate funds to the infrastructure development loan revolving fund, to be administered by the Hawaii Housing Finance and Development Corporation, to make loans to developers to finance the costs of the infrastructure for affordable rental and fee simple housing developments.

Your Committees received testimony in support of this measure from the Chamber of Commerce Hawaii, Maui Chamber of Commerce, Building Industry Association Hawaii, and Hawaii Construction Alliance. Your Committees received testimony in opposition to this measure from the Hawaii Housing Finance and Development Corporation. Your Committees received comments on this measure from the Department of Budget and Finance.

Your Committees find that robust, reliable infrastructure is vital to the development of affordable housing. Your Committees further find that necessary infrastructure costs are especially high in transit-oriented development areas and other areas in need of affordable housing. Your Committees additionally find that Act 132, Session Laws of Hawaii 2016, expanded the permissible uses for monies in the dwelling unit revolving fund to include infrastructure programs related to affordable housing development.

Accordingly, your Committees have amended this measure by:

- (1) Removing language that established an infrastructure development loan revolving fund, described the obligations of developers and the Hawaii Housing Finance and Development Corporation to obtain and administer loans, and defined related terms;
- (2) Inserting language establishing an infrastructure development loan subaccount within the dwelling unit revolving fund;
- (3) Amending the appropriation to reference the infrastructure development loan subaccount and inserting an appropriation amount of \$50,000,000; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Housing and Economic Development, Tourism, and Technology that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 660, H.D. 2, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 660, H.D. 2, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Housing: Ayes, 3. Noes, none. Excused, 2 (Keith-Agaran, Nishihara).

SCRep. 1091 Judiciary and Labor on H.B. No. 943

The purpose and intent of this measure is to establish a seven-year Kapolei jobs initiative pilot program to provide tax incentives for businesses that establish themselves or open new locations in the Kapolei region.

Your Committee received testimony in support of this measure from the Chamber of Commerce Hawaii; Kapolei Chamber of Commerce; Land Use Research Foundation; Hawaii Laborers-Employers Cooperation and Education Trust; Hawaii Construction Alliance; Avalon Development Company LLC; Colliers International; Hunt Development Group, LLC; James Campbell Company LLC; MK Kapolei Commons LLC; MyGoCenter; Pat Lee & Associates, LLC; and twelve individuals. Your Committee received comments on this measure from the Department of Business, Economic Development, and Tourism; Department of Taxation; and Tax Foundation of Hawaii.

Your Committee finds that job growth in the Kapolei region on Oahu is a matter of community and state concern that affects employers and employees alike as households continue to outgrow the number of employment opportunities in the region. Your Committee further finds that the state enterprise zone program is restrictive, and participation in the program has been relatively low, particularly in the Leeward enterprise zone. This measure seeks to encourage greater economic growth and development in the Kapolei region.

Your Committee has amended this measure by:

- (1) Limiting the Kapolei jobs initiative pilot program to five years;
- (2) Increasing the minimum gross annual salary amount that a business must provide to at least half of its employees in order to participate in the initiative to \$44,000;
- (3) Inserting an effective date of January 7, 2059, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 943, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 943, S.D. 1, and be referred to your Committees on Ways and Means and Economic Development, Tourism, and Technology.

Signed by the Chair on behalf of the Committee.

Ayes, 5; Ayes with Reservations (Kim, Thielen). Noes, none. Excused, none.

SCRep. 1092 Government Operations on H.B. No. 573

The purpose and intent of this measure is to:

- (1) Prohibit bid shopping and bid peddling in the competitive sealed bidding process; and
- (2) Prohibit a bidder from listing more than one subcontractor for each scope of work identified unless subcontractors vary with bid alternates.

Your Committee received testimony in support of this measure from the Department of Accounting and General Services, General Contractors Association of Hawaii, Hawaii Laborers-Employers Cooperation and Education Trust, and Building Industry Association of Hawaii. Your Committee received testimony in opposition to this measure from the State Procurement Office; Contractors License Board; Electrical Contractor's Association of Hawai'i; Sheet Metal Contractors Association; Plumbing and Mechanical Contractors Association of Hawaii; Painting Industry of Hawaii Labor Management Cooperation Trust Fund; Hawaii Tapers Market Recovery Trust Fund; Hawaii Glaziers; Architectural Metal Glassworkers Local Union 1889 AFL-CIO Stabilization Trust Fund; and Carpet, Linoleum and Soft Tile Local Union 1926 Market Recovery Trust Fund. Your Committee received comments on this measure from the Department of Commerce and Consumer Affairs Regulated Industries Complaints Office.

Your Committee finds that efforts should be made to deter the possibility of bid shopping and bid peddling in the competitive sealed bidding process, and permitting injured subcontractor-plaintiffs to recover monetary damages from bidders and substituted subcontractors would discourage this unscrupulous practice and protects State interests.

Your Committee notes that the companion to this measure, S.B. No. 1070, S.D. 2 (Regular Session of 2017), which was previously passed by the Senate, is a substantially similar measure that prohibits bid shopping and bid peddling, and provides bidders of public works construction projects with two hours after the closing of a bid to clarify and correct minor technical issues with subcontractor listings. Your Committee finds that the competitive sealed bidding process can be improved by providing additional time for bidders to clarify and correct subcontractor information, which may minimize bid challenges, costs, and delays of public works projects while maintaining the integrity of the bid process.

Your Committee concludes that the language of S.B. No. 1070, S.D. 2, is preferable because it allows extra time for bidders to correct minor subcontractor information in an effort to reduce unnecessary delays in public works projects, removes the burden on

bidders and substituted contractors to prove bid shopping or bid peddling did not occur, and limits the reasons that a substitution of a listed subcontractor may be allowed.

As such, your Committee has amended this measure by:

- (1) Deleting its contents and inserting the contents of S.B. No. 1070, S.D. 2, a substantially similar measure, which:
 - (A) Allows bidders two hours after bid closing to clarify and correct certain information regarding subcontractors;
 - (B) Provides that bids for construction shall be opened no sooner than two hours after bid closing;
 - (C) Prohibits bid shopping and bid peddling in the competitive sealed bidding process; and
 - (D) Affords a legal means of redress to subcontractors affected by bid shopping and bid peddling practices in public works;
- (2) Clarifying that the substitution of an originally licensed subcontractor who has a valid and appropriate contractor's license from the time of bid through the time of award may be made for specified reasons;
- (3) Clarifying that substitution of a listed subcontractor is allowed when the originally listed subcontractor is unable to perform in a manner consistent with the terms and written understandings of the parties;
- (4) Inserting an effective date of July 1, 2055, to encourage further discussion; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 573, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 573, H.D. 1, S.D. 1, and be referred to your Committees on Judiciary and Labor and Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Galuteria, Tokuda).

SCRep. 1093 Judiciary and Labor on H.B. No. 76

The purpose and intent of this measure is to offer an employee of the Hawaii Health Systems Corporation whose position will be abolished or directly affected by a reduction-in-force, workforce restructuring plan, or privatization, the option of electing to remain in the employee's position until the expiration of the applicable collective bargaining agreement, in addition to the option to exercise reduction-in-force rights and receiving either a voluntary severance benefit or special retirement benefit.

Your Committee received testimony in support of this measure from the Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO. Your Committee received testimony in opposition to this measure from the Employees' Retirement System. Your Committee received comments on this measure from the Department of Budget and Finance; Hawaii Health Systems Corporation; Department of Budget and Fiscal Services, City and County of Honolulu; and Grassroot Institute of Hawaii.

Your Committee finds that Act 103, Session Laws of Hawaii 2015 (Act 103), authorized the Hawaii Health Systems Corporation's Maui regional system to increase cost-effectiveness by discontinuing health care services at one or more of those facilities and transferring the right and responsibility to manage, operate, and provide health care services in those facilities to one or more private entities or their nonprofit management entities. As a result of this enabling legislation, the Maui regional system facilities will be transitioned to management by a Kaiser-Permanente affiliate. Current employees of the system may be displaced as part of the transition.

Your Committee further finds that the Legislature enacted Act 1, Special Session Laws of Hawaii 2016, to authorize the Hawaii Health Systems Corporation to offer a severance or a special retirement benefit to an employee who elects to separate from service when the employee's position is identified for abolishment or when the employee is directly affected by a reduction-in-force or workforce restructuring plan, including privatization. This measure provides an additional option for employees affected by the transition of the Maui regional system to private management.

Your Committee notes that the testimony of the Department of Budget and Finance states that it would cost approximately \$30,000,000 in general funds for all eligible employees affected by Act 103 to receive severance benefits negotiated through collective bargaining supplemental agreements.

While your Committee understands the need to ensure that displaced employees of the Hawaii Health Systems Corporation's Maui regional system can rely on and receive accrued employment and retirement benefits, your Committee also understands that there is serious concern regarding the effects of this measure on the status of the Employees' Retirement System as a tax-qualified plan under the Internal Revenue Code.

Accordingly, your Committee has amended this measure by:

- (1) Deleting its contents and inserting a general fund appropriation in the amount of \$30,000,000 to the Hawaii Health Systems Corporation for severance benefits for separated employees affected by Act 103, as may be negotiated through collective bargaining supplemental agreements; and
- (2) Inserting an effective date of January 7, 2059, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 76, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 76, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Kim).

SCRep. 1094 Judiciary and Labor on H.B. No. 208

The purpose and intent of this measure is to authorize the Director of Labor and Industrial Relations or the Director's designee to issue a stop-work order to an employer, until the employer complies with section 386-121, Hawaii Revised Statutes, relating to security for workers' compensation coverage.

Your Committee received testimony in support of this measure from the Hawaii Construction Alliance, Hawaii Regional Council of Carpenters, RAM Corporation dba Allied Builders System, Pacific Resource Partnership, and Building Industry Association of Hawaii. Your Committee received comments on this measure from the Department of Labor and Industrial Relations, Chamber of Commerce Hawaii, and General Contractors Association of Hawaii.

Your Committee finds that when an employer fails to secure workers' compensation coverage in accordance with chapter 386, Hawaii Revised Statutes, the employer is liable for monetary penalties; however, these penalties are not always effective deterrents, and in some cases, employers continue to operate illegally. This measure seeks to provide the Department of Labor and Industrial Relations (DLIR) with greater enforcement mechanisms in an effort to increase employer compliance.

Your Committee shares the concerns stated in the testimony of the DLIR that this measure, in its current form, may be problematic in achieving its intended purpose and may abrogate due process required prior to the imposition of penalties. Your Committee also notes the concerns of the DLIR regarding the difficulties in collecting penalties from mainland companies and prevention of businesses knowingly misrepresenting themselves or closing the existing business and opening under another name.

Your Committee further finds that an employer is liable for monetary penalties if the employer fails to pay wages and other compensation in accordance with chapter 388, Hawaii Revised Statutes, without justification, and, similarly to cases involving violations of chapter 386, Hawaii Revised Statutes, these penalties are not always effective deterrents. S.B. No. 854, S.D. 1, Regular Session of 2017, seeks to provide the DLIR with greater enforcement mechanisms under chapter 388, Hawaii Revised Statutes, and can be included in this measure.

To address these concerns, your Committee has amended this measure by:

- (1) Specifying that an employer may request a hearing to protest a work-stop order for failure to secure workers' compensation coverage within twenty days of receiving the order, the hearing must be held within thirty days of the request, and a written decision must be issued to all parties within three hours of the conclusion of the hearing;
- (2) As recommended by the DLIR:
 - (A) Requiring a party who appeals a court decision regarding a stop-work order for failure to secure workers' compensation coverage to file a surety bond or letter of credit with the Director of Labor and Industrial Relations in an amount equal to ten percent of the penalty amount;
 - (B) Restoring statutory language that allows the Director of Labor and Industrial Relations, for good cause shown, to remit all or part of a penalty in excess of \$500 if the employer complies with section 386-121, Hawaii Revised Statutes, relating to security for workers' compensation coverage;
 - (C) Restoring and amending statutory language that allows the circuit court to enjoin an employer who for a period of fourteen days is in violation of section 386-121, Hawaii Revised Statutes, from carrying on the employer's business in the State until the employer is in compliance;
 - (D) Specifying that stop-work orders and any penalties imposed for failure to secure workers' compensation coverage shall be effective against any successor entity that has one or more of the same principals or officers as the corporation, association, partnership, limited liability company, sole proprietorship, or other legal business entity against which the stop-work order was issued;
 - (E) Inserting, as part II, proposed language in the testimony of the DLIR, similar to language in S.B. No. 854, S.D. 1, Regular Session of 2017, which allows the DLIR to issue orders of wage payment violation to employers in violation of chapter 388, Hawaii Revised Statutes, relating to the payment of wages and other compensation;
 - (F) Imposing a penalty of not less than \$500 or \$100 for each violation, whichever is greater, for an employer who violates chapter 388, Hawaii Revised Statutes, or administrative rules, to be paid into the general fund; and
 - (G) Deleting sections 1 and 2;
- (3) Inserting an effective date of January 7, 2059, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

Your Committee notes that the DLIR indicated in their oral testimony that in cases where multiple entities are working at the same site, such as a subcontractor and general contractor, that a stop-work order and other applicable penalties would be issued against only the entity in violation of chapter 386, Hawaii Revised Statutes.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 208, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 208, H.D. 2, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 1095 Judiciary and Labor on H.B. No. 233

The purpose and intent of this measure is to offer an employee of the Hawaii Health Systems Corporation whose position will be abolished or directly affected by a reduction-in-force, workforce restructuring plan, or privatization the choice of receiving both special retirement benefits and voluntary severance benefits or exercising a reduction-in-force right.

Your Committee received testimony in support of this measure from the Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO and thirty-six individuals. Your Committee received testimony in opposition to this measure from the Employees' Retirement System. Your Committee received comments on this measure from the Department of Budget and Finance, Department of Human Resources Development, and Hawaii Health Systems Corporation.

Your Committee finds that Act 1, Special Session Laws of Hawaii 2016, provided options to assist public employees who may be displaced through the privatization or closure of a Hawaii Health Systems Corporation facility and reduce the need for layoffs. Specifically, Act 1 authorized the Hawaii Health Systems Corporation to offer a severance or a special retirement benefit to an employee who elects to separate from service when the employee's position is identified for abolishment or when the employee is directly affected by a reduction-in-force or workforce restructuring plan, including privatization. This measure removes that option and requires that voluntary severance and special retirement benefits both be available in lieu of exercising reduction-in-force rights.

Your Committee has amended this measure by inserting an effective date of January 7, 2059, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 233, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 233, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4; Ayes with Reservations (Thielen). Noes, none. Excused, 1 (Kim).

SCRep. 1096 Judiciary and Labor on H.B. No. 234

The purpose and intent of this measure is to repeal the voluntary severance benefit option for employees of the Hawaii Health Systems Corporation whose positions will be abolished or directly affected by a reduction-in-force, workforce restructuring plan, or privatization.

Your Committee received testimony in support of this measure from the Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO and thirty-four individuals. Your Committee received testimony in opposition to this measure from the Employees' Retirement System. Your Committee received comments on this measure from the Department of Budget and Finance and Hawaii Health Systems Corporation.

Your Committee finds that Act 1, Special Session Laws of Hawaii 2016, provided options to assist public employees who may be displaced through the privatization or closure of a Hawaii Health Systems Corporation facility and reduce the need for layoffs. Specifically, Act 1 authorized the Hawaii Health Systems Corporation to offer a severance or a special retirement benefit to an employee who elects to separate from service when the employee's position is identified for abolishment or when the employee is directly affected by a reduction-in-force or workforce restructuring plan, including privatization. This measure removes the option of voluntary severance benefits.

Your Committee has amended this measure by inserting an effective date of January 7, 2059, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 234, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 234, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Kim).

SCRep. 1097 Judiciary and Labor on H.B. No. 1031

The purpose and intent of this measure is to add the Child Support Enforcement Agency and the Departments of Taxation, Human Services, and Labor and Industrial Relations to the list of agencies that are authorized to conduct criminal history record checks of employees, prospective employees, and contractors who have access to federal tax information.

Your Committee received testimony in support of this measure from the Department of the Attorney General; Department of Taxation; Department of Human Services; Department of Labor and Industrial Relations; Office of the Mayor, County of Hawai'i; and one individual.

Your Committee finds that the Internal Revenue Service recently mandated that all agencies receiving federal tax information perform criminal history record checks, including a Federal Bureau of Investigation fingerprint search, of all employees, employee applicants, and contractors who have access to federal tax information. This measure allows the Child Support Enforcement Agency and the Departments of Taxation, Human Services, and Labor and Industrial Relations to comply with federal requirements and continue to perform their core functions.

Your Committee has amended this measure by:

- (1) Adding language regarding contractors and the employees or agents of contractors, when appropriate, to consistently apply criminal history record check procedures to contractors;
- (2) Clarifying that contractors and their employees or agents who are providing services for the Department of Human Services and Department of Labor and Industrial Relations that require access to federal tax information are required to obtain prior authority to access the federal tax information by the United States Department of the Treasury;

- (3) Amending the language regarding the termination or denial of employment as a result of a criminal history record check, notification requirements, and opportunity to respond to findings of the Departments of Taxation, Human Services, and Labor and Industrial Relations and Child Support Enforcement Agency for purposes of consistency;
- (4) Adding a conforming amendment to section 831-3.1, Hawaii Revised Statutes, to provide an exemption for any denials or termination of employment as an employee, employee applicant, or contractor of the Departments of Taxation, Human Services, or Labor and Industrial Relations, or the Child Support Enforcement Agency;
- (5) Inserting an effective date of January 7, 2059, to encourage further discussion; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1031, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1031, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Kim).

SCRep. 1098 Commerce, Consumer Protection, and Health on H.B. No. 1444

The purpose and intent of this measure is to require pharmacy benefit managers to register with the Insurance Commissioner.

Your Committee received testimony in support of this measure from the Hawaii Pharmacists Association and ten individuals. Your Committee received comments on this measure from the Department of Commerce and Consumer Affairs, Kaiser Permanente Hawaii, and CVS Health.

Your Committee finds that pharmacy benefit managers are administrators of prescription drug programs that are responsible for developing and maintaining formularies and other clinical management programs, processing prescription drug claims for insurance companies or corporations, and negotiating contracts with pharmaceutical manufacturers. Pharmacy benefit managers also perform utilization reviews, manage clinical programs targeted to specific disease states, and operate pharmacies, including mail order and specialty pharmacies. Over the past decade, the role of pharmacy benefit managers in the delivery of health care has increased due to a variety of factors, including coverage expansions under the Medicare Part D prescription drug benefit and the federal Affordable Care Act and an increase in prescription drug spending, that has motivated commercial health plans and self-insured employers to outsource the management of their spending on outpatient prescription drugs.

Your Committee further finds that pharmacy benefit managers operate inside integrated health care pharmacies, as part of retail pharmacies, and as part of insurance companies. As more and more pharmacies merge with pharmacy benefit managers, questions have been raised regarding the need for transparency and oversight over these entities. For example, a 2014 report by the ERISA Advisory Council to the United States Secretary of Labor, titled "PBM Compensation and Fee Disclosure", noted that vertically integrated pharmacy benefit managers may pose conflicts of interest related to compensation. The report also noted that pharmacy benefit managers' plan sponsors "face considerable obstacles. . . to determine compliance with [pharmacy benefit managers] contracts including direct and indirect [pharmacy benefit managers] compensation contract terms".

Your Committee additionally finds that this measure proposes registration and oversight of pharmacy benefit managers, similar to what is required for health insurance companies or health plans. Your Committee notes that while pharmacy benefit managers may already register with the Business Registration Division, such registration does not provide sufficient regulation or oversight of this industry.

Your Committee has heard testimony that this measure does not distinguish between third-party pharmacy benefit managers and internally owned in-house pharmacies, such as the kind operated and managed by a health maintenance organization. Unlike third-party pharmacy benefit managers, health maintenance organizations who perform in-house pharmacy benefit services are already under the authority of the Insurance Commissioner. An amendment to address this concern is therefore needed. Although your Committee has also heard testimony expressing concern that any sort of oversight of pharmacy benefit managers by the Board of Pharmacy would be inappropriate, your Committee believes these concerns are misplaced. This measure adds a new chapter within title 24, Hawaii Revised Statutes, relating to insurance, and clearly places oversight of pharmacy benefit managers with the Insurance Commissioner. The Board of Pharmacy has no regulatory or oversight responsibilities over pharmacy benefit managers under this measure.

Finally, your Committee notes that prescription drugs are a major factor of the spiraling increase in health care costs, of which pharmacy benefit managers are a contributing factor. This measure gives clear authority to the Insurance Commissioner to regulate pharmacy benefit managers, is an important first step toward regulating this industry, and is necessary to provide transparency and ensure adequate consumer protection.

Your Committee has amended this measure by:

- (1) Updating the purpose section;
- (2) Clarifying that the definition of "covered entity" only includes those entities that contract with a third-party pharmacy benefit manager to perform pharmacy benefit management;
- (3) Specifying that notwithstanding any law to the contrary, pharmacy benefit managers must still register with the Insurance Commissioner; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1444, H.D. 2, as amended herein, and

recommends that it pass Second Reading in the form attached hereto as H.B. No. 1444, H.D. 2, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Chang, Ihara, Kidani).

SCRep. 1099 Commerce, Consumer Protection, and Health on H.B. No. 1499

The purpose and intent of this measure is to:

- (1) Authorize the use of the Condominium Education Trust Fund to pay for arbitration of condominium disputes;
- (2) Specify that use of trust fund monies to pay arbitrator's fees shall only be allowed if parties agree to binding arbitration and rescind their rights to trial de novo; and
- (3) Provide penalties for noncompliance.

Prior to holding a hearing on this measure, your Committee made available for public review a proposed S.D. 1 of this measure. The proposed S.D. 1 deleted the contents of this measure and inserted provisions that:

- (1) Clarify the process, including payment obligations, mediation requirements, and triggers for further default, where a condominium unit owner and association reach a payment plan to resolve a nonjudicial foreclosure; establish procedures that provide condominium owners with the right to submit disputed legal fees, penalties or fines, late fees, lien filing fees, or other charges, except for common expense assessments, to the mediation process prior to payment; and make conforming amendments; and
- (2) Expand the scope of the Condominium Education Trust Fund to cover voluntary binding arbitration between interested parties and amend the conditions that mandate mediation and exceptions to mandatory mediation.

Your Committee received testimony in support of the proposed S.D. 1 from the Hawaii Council of Associations of Apartment Owners and Associa. Your Committee received comments on the proposed S.D. 1 from the Real Estate Commission and two individuals.

Your Committee finds that under existing law, if an association of apartment owners starts a nonjudicial foreclosure against a condominium owner and the owner pays off the delinquency or proposes a payment plan that the association accepts, the association is supposed to rescind the notice of foreclosure and not proceed. However, proposing a payment plan is not sufficient on its own to cure a default. Accordingly, the proposed S.D. 1 clarifies the process once a condominium owner and association agree on a payment plan to resolve a nonjudicial foreclosure. The proposed S.D. 1 also amends Hawaii's existing pay first, dispute later requirement, which specifies that owners are not permitted to withhold any assessment claimed by their association, but must first pay the disputed amounts and then exercise their right to mediation, arbitration, or small claims court, to make it clear that common expense assessments are the only fees that must be paid prior to initiating a dispute. Under the proposed S.D. 1, all other penalties or fines, late fees, lien filing fees, or other charges in an assessment may be submitted to mediation prior to payment.

Your Committee further finds that alternative dispute resolution is a viable, affordable option for handling condominium-related disputes. However, under existing law, mediation is only nominally mandatory, as there are few incentives and no penalties for any board that refuses to engage in mediation. Accordingly, the proposed S.D. 1 expands the scope of the Condominium Education Trust Fund to cover voluntary binding arbitration between interested parties and amends the conditions that mandate mediation and exceptions to mandatory mediation.

Your Committee has heard the concerns that, because arbitration can be costlier than mediation, the limits on support from the Condominium Education Trust Fund for voluntary binding arbitration and mediation in the proposed S.D. 1 may not accurately reflect the costs associated with these forms of alternative dispute resolution. Your Committee has also heard the concerns that certain language in the proposed S.D. 1, which removes a requirement for owners to make a good faith effort to resolve a dispute under alternative dispute resolution, may unintentionally remove any incentive for owners to attempt mediation as a first resort. Your Committee understands these concerns and concludes that amendments to the proposed S.D. 1 are necessary.

Accordingly, your Committee has amended this measure by adopting the proposed S.D. 1 and by making further amendments which:

- (1) Clarify that a condominium owner who contests the amount of any attorneys' fees and costs, penalties or fines, late fees, lien filing fees, or any other charges, except common expense assessments, may make a demand in writing for mediation on the validity of those other charges;
- (2) Retain language specifying that no association shall deduct and apply portions of common expense payments received from an apartment owner to unpaid late fees, or from a unit owner to unpaid late fees, legal fees, fines, and interest (other than amounts remitted by an apartment in payment of late fees or a unit in payment of late fees, legal fees, fines, and interest);
- (3) Clarify that funds from the Condominium Education Trust Fund may be used to support parties who agree to enter into voluntary binding arbitration, but only after the parties have first attempted evaluative mediation;
- (4) Clarify that the maximum amount of support from the Condominium Education Trust Fund for voluntary binding arbitration shall be \$6,000, rather than \$3,000;
- (5) Remove section 15, which would have deleted a requirement for an owner to first submit a claim against an association to mediation or arbitration, and make a good faith effort to resolve the dispute under these alternative dispute resolution procedures;

- (6) Clarify that the parties subject to mediation, including mandatory mediation, of a dispute include a unit owner and the board, unit owner and the managing agent, board members and the board, or directors and managing agents and the board;
- (7) Clarify that each party to a mediation is responsible for the party's own fees, costs, and expenses, unless otherwise specified in a written agreement, court order, or arbitration award;
- (8) Clarify that each party to a mediation supported by funds from the Condominium Education Trust Fund shall pay a fee of \$375 to the mediator, as this is consistent with the usual costs associated with evaluative mediation, and capping the support for mediation from the trust fund at \$3,000, rather than \$6,000; and
- (9) Make technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1499, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1499, H.D. 1, S.D. 1, and be referred to your Committees on Judiciary and Labor and Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Espero, Ihara, Kidani).

SCRep. 1100 (Joint) Transportation and Energy and Commerce, Consumer Protection, and Health on H.B. No. 733

The purpose and intent of this measure is to provide exemptions from vehicle registration, safety inspection, and driver licensure requirements for marine terminal equipment when operating on Sand Island Parkway and Sand Island Access Road to allow the operation of marine terminal equipment between terminal locations under specific conditions.

Your Committees received testimony in support of this measure from the Department of Transportation; Maritime Group, LLC; Matson; and one individual.

Your Committees find that this measure promotes operational efficiencies at the harbors by streamlining the existing process to allow marine equipment to be moved between terminals and by affording harbor users to re-allocate resources as needed. The marine equipment that is usually moved between terminals is limited to tractor trucks, forklifts, and top picks, and this flexibility is most needed for terminals at Sand Island.

Your Committees have amended this measure by:

- (1) Clarifying that the exemptions apply to tractor trucks, forklifts, and top picks used as marine terminal equipment that are temporarily moving in or between terminals; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Transportation and Energy and Commerce, Consumer Protection, and Health that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 733, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 733, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Transportation and Energy: Ayes, 3. Noes, none. Excused, 2 (English, Harimoto).

Commerce, Consumer Protection, and Health: Ayes, 7. Noes, none. Excused, none.

SCRep. 1101 (Joint) Transportation and Energy and Commerce, Consumer Protection, and Health on H.B. No. 735

The purpose and intent of this measure is to allow rental car companies to collect from customers mandated government fees and amend the formula upon which those fees are assessed.

Your Committees received testimony in support of this measure from the Department of Transportation, Chamber of Commerce Hawaii, Hawai'i Lodging & Tourism Association, Hertz Global, Hilton Hawaii, Avis Budget Group, American Car Rental Association, Maui Hotel and Lodging Association, Avis Budget Group, Enterprise Holdings in Hawaii, and one individual. Your Committees received testimony in opposition to this measure from the Office of Consumer Protection of the Department of Commerce and Consumer Affairs. Your Committees received comments on this measure from the Department of Business, Economic Development, and Tourism.

Your Committees find that while the rental car industry is vitally important to Hawaii, rental car customers, who are predominantly tourists, should be made fully aware of all of the mandatory government taxes that are assessed on each rental car. According to testimony, thirty-eight states currently permit rental car companies to fully recover all government fees assessed on rental cars.

Your Committees further finds that existing law permits rental car companies to recover from rental car customers certain mandatory government fees paid by the companies to make rental vehicles road-ready. However, the prorated formula is calculated over a period of three hundred sixty-five days, which results in a significant portion of the fees going unrecovered. Rental car companies incur a shortfall in collections under existing law, which hinders their ability to provide a selection of rental cars to customers.

Your Committees recognize the concerns of several testifiers that the reporting requirements in this measure as currently drafted are overly broad. In addition, your Committees note concerns that the one-year sunset date may be too short of a time frame for the Department of Business, Economic Development, and Tourism to determine the impact of this measure.

Your Committees note that the Senate previously passed S.B. No. 657, S.D. 2 (Regular Session 2017), a substantially similar measure, which your Committees believe addresses several of the concerns raised.

Accordingly, your Committees have amended this measure by deleting its contents and inserting the contents of S.B. No. 657, S.D. 2, a substantially similar measure, which:

- (1) Amends the prorated amount, at an unspecified rate, of vehicle license and registration and weight taxes that rental car companies may pass on to lessees;
- (2) Requires the motor vehicle rental industry to report to the Legislature prior to the convening of the Regular Session of 2019 on the impact to average vehicle license recovery fee charged to each customer on each motor vehicle rental, the profit margin of each motor vehicle rental, and the actual time in service of each motor vehicle rental;
- (3) Defines "vehicle license recovery fee" for purposes of the report;
- (4) Inserts an effective date of March 1, 2050, to encourage further discussion; and
- (5) Makes technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Transportation and Energy and Commerce, Consumer Protection, and Health that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 735, H.D. 2, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 735, H.D. 2, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Transportation and Energy: Ayes, 3. Noes, none. Excused, 2 (English, Harimoto).

Commerce, Consumer Protection, and Health: Ayes, 7. Noes, none. Excused, none.

SCRep. 1102 Human Services on H.B. No. 1195

The purpose and intent of this measure is to appropriate funds to the Department of Health and Department of Human Services, including the Office of Youth Services, to provide homeless outreach services.

Your Committee received testimony in support of this measure from the Governor's Coordinator on Homelessness, Office of the Mayor of the County of Hawai'i, Hawaii Youth Services Network, Hawaii Substance Abuse Coalition, Hawaii Children's Action Network, The Institute for Human Services, ALEA Bridge, Ku Aloha Ola Mau, Catholic Charities Hawai'i, PHOCUSED, Partners in Care, Hawaii Appleseed Center for Law and Economic Justice, Community Alliance on Prisons, YWCA O'ahu, Harm Reduction Hawaii, Hale Makua, Hawaii Chapter of the Young Progressives Demanding Action, The Salvation Army, The Drug Policy Forum of Hawai'i, The CHOW Project, IMUAlliance, American Civil Liberties Union of Hawai'i, Action with Aloha, and nineteen individuals. Your Committee received comments on this measure from the Department of Human Services, Department of Health, and Office of Youth Services.

Your Committee finds that Hawaii has the highest rate per capita of homelessness of any state in the nation. Addressing homelessness requires a multi-faceted approach using interventions targeted to the particular characteristics of the population being served. A more strategic, coordinated outreach effort is needed to assertively serve the growing percentage of homeless persons who are not living in shelter programs. Additionally, outreach is especially critical to help newly homeless youth navigate the social services system to find safe alternatives to homelessness, as youth service providers report that the number of homeless youth has been increasing each year.

Your Committee has amended this measure by:

- (1) Inserting language that appropriates funds for ongoing rental subsidies to reduce and prevent homelessness; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1195, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1195, H.D. 1, S.D. 1, and be referred to your Committees on Judiciary and Labor and Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Tokuda, Wakai).

SCRep. 1103 (Joint) Economic Development, Tourism, and Technology and Transportation and Energy on H.B. No. 1579

The purpose and intent of this measure is to promote the use of clean, renewable energy sources by authorizing the issuance of revenue bonds to the High Technology Development Corporation for the development and construction of an electrolysis hydrogen production, storage, and dispensing facility to be managed by the Hawaii Center for Advanced Transportation Technologies.

Your Committees received testimony in support of this measure from the Department of Transportation, SanHI Government Strategies, Blue Planet, and Hawaii Automobile Dealers Association. Your Committees received comments on this measure from the Department of the Attorney General and Department of Budget and Finance.

Your Committees find that hydrogen fuel cell electric vehicles are powered by a fuel cell that converts hydrogen gas and oxygen into electricity. These vehicles are zero emission vehicles and can help the State fulfill the goals of the Hawaii Clean Energy Initiative to reduce fossil fuel use in the State. Your Committees find the electrolysis hydrogen production, storage, and dispensing facility will strengthen Hawaii's commitment to increasing the production of clean energy.

Your Committees note that H.B. No. 1508, H.D. 2, Regular Session of 2017, a measure relating to energy efficiency, establishes a demonstration project for building energy efficiency designs within the Department of Transportation and requires state buildings to incorporate certain energy efficient practices. Your Committees conclude that language from H.B. No. 1508, H.D. 2, should be added to this measure to further support and advance the Hawaii Clean Energy Initiative goals for the State.

Your Committees have amended this measure by:

- (1) Authorizing the High Technology Development Corporation to issue revenue bonds, rather than special facility revenue bonds;
- (2) Inserting the contents of H.B. No. 1508, H.D. 2, which:
 - (A) Establishes a building energy efficiency demonstration project until June 30, 2020, within the Department of Transportation to create a facility or building with net zero emissions, and appropriate funds out of the general revenues of the State to conduct the project;
 - (B) Requires that all state buildings built or renovated on or after July 1, 2020, incorporate certain energy efficient practices; and
 - (C) Inserts an effective date of July 1, 2050, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Economic Development, Tourism, and Technology and Transportation and Energy that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 1579, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 1579, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Economic Development, Tourism, and Technology: Ayes, 5. Noes, none. Excused, none.

Transportation and Energy: Ayes, 3. Noes, none. Excused, 2 (English, Harimoto).

SCRep. 1104 (Joint) Economic Development, Tourism, and Technology and Higher Education on H.B. No. 1478

The purpose and intent of this measure is to appropriate funds to advocate for, promote, develop, test, and evaluate unmanned aerial system technologies through the Applied Research Laboratory at the University of Hawaii.

Your Committees received testimony in support of this measure from the University of Hawaii and six individuals.

Your Committees find that many Hawaii businesses may be enhanced, expanded, and made more resilient for the future by the incorporation of unmanned aerial systems into the business structure where appropriate and beneficial. Your Committees find that state and county policies and procedures need to prepare for, embrace, and encourage incorporation of unmanned aerial systems in the full range of Hawaii's business framework and economic development and that this measure complements Hawaii's participation in the Pan-Pacific Unmanned Aerial Systems Test Range Complex, which is part of a national effort to advance the use of unmanned aerial systems in service to the economy.

As affirmed by the records of votes of the members of your Committees on Economic Development, Tourism, and Technology and Higher Education that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 1478, H.D. 1, and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Economic Development, Tourism, and Technology: Ayes, 3. Noes, none. Excused, 2 (Galuteria, Thielen).

Higher Education: Ayes, 4. Noes, none. Excused, 1 (Keith-Agaran).

SCRep. 1105 (Joint) Higher Education and Agriculture and Environment on H.B. No. 1279

The purpose of this measure is to appropriate funds for the Community Food Systems Center at the University of Hawaii West Oahu to expand upon its existing education for sustainable agricultural food production by:

- (1) Establishing scholarships for students in the Community Food Systems concentration;
- (2) Creating positions for a full-time garden manager and part-time student assistants for the student organic garden at the University of Hawaii West Oahu;
- (3) Creating a Hawaiian Center for Sustainable Community Food Systems; provided that the University of Hawaii West Oahu first conducts and submits to the Legislature a study to determine the feasibility and benefits of creating the center; and
- (4) Implementing research projects, hosting conferences, and employing additional staff and faculty as the director of the program deems necessary.

Your Committees received testimony in support of this measure from the University of Hawai'i System, Department of Agriculture, Hawai'i Alliance for Community-Based Economic Development, Kamehameha Schools, MA'O Organic Farms, and two individuals. Your Committees received comments on this measure from the Office of Planning and Hawai'i Farm Bureau.

Your Committees find that around eighty-five percent of Hawaii's food is imported, making the State vulnerable to events that disrupt shipping and other modes of transporting food. Your Committees further find that, in addition to food security, growing food within the State is important for the local economy and economic development.

Your Committees additionally find that systematically advancing the goals of food security, resiliency, and equity in Hawaii require promoting an understanding of sustainable food production and training a new generation of students for jobs in the sustainable food and agriculture sector. Your Committees recognize that the Community Food Systems Center at the University of Hawaii West Oahu provides a rich experiential, applied, and multi-disciplinary undergraduate education that develops student comprehension of interrelated ecological and social issues in agriculture. Your Committees find that the efforts supported by this measure are an essential part of meeting the State's *Increased Food Security and Food Self-Sufficiency Strategy* established in 2012.

Your Committees have amended this measure by:

- (1) Inserting an effective date of July 1, 2017; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

Your Committees recommend that if your Committee on Ways and Means chooses to pass this measure, that it consider inserting an appropriation amount of \$1,300,000 for the Community Food Systems Center at the University of Hawaii West Oahu to expand upon its existing education for sustainable agricultural food production.

As affirmed by the records of votes of the members of your Committees on Higher Education and Agriculture and Environment that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 1279, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 1279, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Higher Education: Ayes, 3. Noes, none. Excused, 2 (Keith-Agaran, Taniguchi).

Agriculture and Environment: Ayes, 4. Noes, none. Excused, 1 (Nishihara).

SCRep. 1106 (Joint) Higher Education and Agriculture and Environment on H.B. No. 1300

The purpose and intent of this measure is to:

- (1) Require the Environmental Center of the University of Hawaii to conduct ongoing studies of the environmental impacts of sewage spills on affected coral reefs and report annually to the Legislature on its findings; and
- (2) Appropriate funds to the University of Hawaii to conduct the ongoing studies.

Your Committees received testimony in support of this measure from the Sierra Club of Hawaii and three individuals. Your Committees received comments on this measure from the University of Hawai'i System.

Your Committees find that Hawaii has experienced numerous wastewater spills in recent years that have released large amounts of raw sewage into the ocean. Estimates indicate around ten thousand gallons of raw sewage spillage in 2016, and five hundred thousand gallons in 2015. Your Committees further find that research demonstrates that raw human waste contains microbes that cause coral diseases such as white pox and black band disease. Your Committees additionally find that it is imperative that the State make efforts to better protect Hawaii's coral reef ecosystems, and that understanding the environmental impact of wastewater spills is a critical component of these efforts.

Your Committees have amended this measure by:

- (1) Inserting language to make the Hawaii Institute of Marine Biology at the University of Hawaii responsible for conducting the ongoing studies and reports related to the environmental impacts of sewage spills on affected coral reefs rather than the Environmental Center;
- (2) Inserting an effective date of July 1, 2017; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Higher Education and Agriculture and Environment that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 1300, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 1300, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Higher Education: Ayes, 3. Noes, none. Excused, 2 (Keith-Agaran, Taniguchi).

Agriculture and Environment: Ayes, 4. Noes, none. Excused, 1 (Nishihara).

SCRep. 1107 Higher Education on H.B. No. 1585

The purpose and intent of this measure is to appropriate general funds to the University of Hawaii for project-funded staff positions for capital improvement program projects.

Your Committee received testimony in support of this measure from the University of Hawai'i System and one individual.

Your Committee finds that the University of Hawaii System has a substantial deferred maintenance backlog that it is working toward eliminating. Currently, outside construction management and inspection services are typically obtained on a project-by-project basis due to insufficient funds. According to testimony submitted by the University, this inefficient use of construction management services does not deliver consistent oversight or performance standards. Your Committee additionally finds that the University has a ten-year strategy plan to eliminate deferred maintenance and reach modernization goals and notes that this measure allows for the delivery of construction management services in-house, which provides a more optimum model for performing construction management and inspection services.

Your Committee additionally finds that tuition rates at the University of Hawaii have been consistently on the rise in recent years and that the University has spent increasing amounts on personnel expenses during this time. Your Committee is concerned with the lack of demonstrated efforts by the University of Hawaii to restructure and use financial resources efficiently, and finds that more transparency and accountability is needed.

Accordingly, your Committee has amended this measure by:

- (1) Requiring that all University of Hawaii employees who hold administrative positions and earn more than \$150,000 annually be employed under an employment contract with the University by July 1, 2018; and

- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Higher Education that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1585, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1585, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Keith-Agaran).

SCRep. 1108 Higher Education on H.B. No. 1594

The purpose and intent of this measure is to provide scholarships for the unmet direct cost needs of qualified students enrolled at any University of Hawaii campus by creating the Hawaii promise program and appropriating funds to establish and implement the program.

Your Committee received testimony in support of this measure from the University of Hawai'i System; Faculty Senate at Leeward Community College; KASAMA, Leeward Community College; Hawaii Friends of Civil Rights; Filipino-Americans Advocacy Network; National Federation of Filipino American Associations Region 12; Nursing Advocates and Mentors, Inc.; Filipino American Citizens League; Kamehameha Schools; Associated Students of the University of Hawai'i, West O'ahu; Kai Hawaii, Inc.; Office of Student Equity Excellence and Diversity, University of Hawai'i at Mānoa; and forty-eight individuals.

Your Committee finds that Hawaii has a college completion rate goal of 55 by '25 with the hope of increasing the percentage of working-age adults with two- or four-year degrees to fifty-five percent by 2025. Your Committee further finds that the University of Hawaii has a system wide, strategic graduation initiative with a goal of increasing the educational capital of the State by increasing participation in college by students, particularly Native Hawaiians, low-income students, and those from underserved regions and populations. An educated labor force and engaged citizenry are essential in today's global, knowledge-based economy.

Your Committee finds that as the cost of higher education continues to rise and become more burdensome for families, attendance and completion of college become especially difficult for students. According to a 2016 report by the Institute for Research on Higher Education at the University of Pennsylvania Graduate School of Education, Hawaii's financial aid policies did little to alleviate costs for families earning less than \$30,000 annually and the State provided minimal need-based aid to students attending public institutions. This measure attempts to address these issues by providing scholarships for the unmet needs of qualified students.

Your Committee notes that the companion to this measure, S.B. No. 1162, S.D. 2 (Regular Session of 2017), which was previously passed by the Senate, is a substantially similar measure that also establishes and appropriates funds for the Hawaii promise program. Your Committee concludes that the language in S.B. No. 1162, S.D. 2, is preferable because it includes all University of Hawaii campuses, both community college campuses and non-community college campuses, in the scholarship program. Your Committee further finds that the language in S.B. No. 1162, S.D. 2, specifies eligibility requirements for community college students that are distinct from eligibility requirements for students at other campuses, and also appropriates funds distinctly between the types of campuses.

Accordingly, your Committee has amended this measure by deleting its contents and inserting the contents of S.B. No. 1162, S.D. 2, a substantially similar measure, which:

- (1) Makes the Hawaii promise program apply to all University of Hawaii campuses, including the community colleges;
- (2) Provides program requirements that include enrollment in a classified degree or certificate program of six or more credits per semester for students attending community colleges and enrollment in a classified degree or certificate program of fifteen or more credits per semester for students attending a non-community college campus;
- (3) Establishes that students must earn a minimum of twelve credits per academic year if the student is enrolled at a community college, and thirty credits per academic year if the student is enrolled at a non-community college campus, in order to maintain a scholarship;
- (4) Clarifies that if a student is returned to good standing after a period of probation, but subsequently fails to comply with the academic requirements at any time within an eight-semester period, after the return to good standing, the student's scholarship shall be revoked;
- (5) Clarifies the definition of "direct cost";
- (6) Establishes the Hawaii promise program special fund to be used to provide financial assistance to qualified students through Hawaii promise program scholarships;
- (7) Requires the University of Hawaii to report to the Legislature no later than twenty days prior to the convening of each regular session with information on the special fund, including the number of scholarships provided under the Hawaii promise program and recommendations on all tuition waivers; and
- (8) Appropriates funds into the Hawaii promise program special fund and creates two appropriation sections that appropriate monies from the Hawaii promise program special fund to separately fund scholarships at four-year campuses and community colleges.

As affirmed by the record of votes of the members of your Committee on Higher Education that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1594, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1594, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Keith-Agaran).

SCRep. 1109 (Joint) Housing and Human Services on H.B. No. 488

The purpose and intent of this measure is to:

- (1) Authorize the issuance of general obligation bonds and appropriate funds for rental housing, a mixed-use affordable rental housing and multi-use juvenile services and shelter center, and public housing; and
- (2) Appropriate funds for public housing security improvements, renovation, and repairs.

Your Committees received testimony in support of this measure from the Judiciary of the State of Hawaii; Hawaii Housing Finance and Development Corporation; Hawaii Public Housing Authority; EAH Housing; Land Use Research Foundation of Hawaii; Hawaii Alliance for Community-Based Economic Development; Hawaii Appleseed Center for Law and Economic Justice; Housing Now Coalition; Hawaii Association of REALTORS; Hawaii Construction Alliance; In-State Partners; Stanford Carr Development, LLC; Catholic Charities Hawaii; Chamber of Commerce Hawaii; Maui Chamber of Commerce; Hawaii Children's Action Network; Americans for Democratic Action; IMUAlliance; Protecting Hawaii's Ohana, Children, Underserved, Elderly and Disabled; Partners in Care; Hawaii Habitat for Humanity Association; Institute for Human Services; and four individuals.

Your Committees find that Hawaii's housing market suffers from a persistent shortage of housing, particularly housing that is affordable for Hawaii's workforce and lower income groups. Your Committees further find that a significant investment of resources in capital improvement projects by the State is necessary to meet the critical and longstanding need for housing and services. Your Committees additionally find that expanding the pool of investors that may qualify for low-income housing tax credits will further incentivize development of affordable housing in the State.

Accordingly, your Committees have amended this measure by:

- (1) Inserting language to specify that certain provisions of the Internal Revenue Code related to at-risk rules and deductions and to passive activity losses do not apply with respect to claims from the state low-income housing tax credit;
- (2) Specifying a general obligation bond issuance and appropriation amount of \$75,000,000 for purposes of the rental housing revolving fund;
- (3) Specifying a general obligation bond issuance and appropriation amount of \$15,000,000 for construction of a mixed-use affordable rental housing and multi-use juvenile services and shelter center;
- (4) Inserting a general fund appropriation of \$75,000,000 for purposes of the dwelling unit revolving fund;
- (5) Replacing specific appropriations and language for public housing security enhancements with a single general bond issuance and appropriation of \$75,000,000 for development, improvements, security upgrades, repairs, and renovations of public housing, including security improvements and enhancements at Kalihi Valley Homes;
- (6) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (7) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Housing and Human Services that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 488, H.D. 2, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 488, H.D. 2, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Housing: Ayes, 3. Noes, none. Excused, 2 (Kahale, Keith-Agaran).

Human Services: Ayes, 3. Noes, none. Excused, 2 (Tokuda, Wakai).

SCRep. 1110 Human Services on H.B. No. 1466

The purpose and intent of this measure is to establish the Youth Advisory Commission within the Office of Youth Services to advise the Governor and Legislature on the effects of legislative policies, needs, assessments, priorities, programs, and budgets concerning the youth of the State.

Your Committee received testimony in support of this measure from the Hawaii Youth Services Network, Community Alliance on Prisons, Hawaii Chapter of the Young Progressives Demanding Action, and six individuals. Your Committee received comments on this measure from the Office of Youth Services.

Your Committee finds that increasing youth participation in the public policymaking process is in the best interest of the State, as Hawaii has the lowest voter participation rate in the United States. Although young people aged sixteen and seventeen may work and pay taxes, they are denied a formal role in the political process because they are prohibited from voting. Establishing a Youth Advisory Commission could enable greater interest in policymaking for youth and provide valuable input on issues affecting young people.

Your Committee notes that S.B. No. 1220, S.D. 1 (Regular Session of 2017), a substantively similar measure, was previously passed by your Committee and contains language that is preferable because it, among other things:

- (1) Discusses the importance of youth participation in public policymaking;
- (2) Specifies that one member appointed by the Governor to the Youth Advisory Commission must be a previous recipient of youth services;
- (3) Expands the list of criteria to be considered by the President of the Senate and Speaker of the House of Representatives when making appointments to the Youth Advisory Commission;

- (4) Allows the Youth Advisory Commission members to invite other individuals to participate in commission activities as temporary, nonvoting members; and
- (5) Inserts language that appropriates an unspecified amount for the hiring of one staff position to administer the Youth Advisory Commission.

Your Committee further notes that an appropriation amount of \$150,000 would be necessary to cover the costs of hiring one staff position to administer the Youth Advisory Commission and other expenses, such as travel and administrative costs. Furthermore, the Office of Youth Services and Hawaii Youth Services Network are encouraged to submit nominations to the Governor, President of the Senate, and Speaker of the House of Representatives for consideration of appointments to the Youth Advisory Commission.

Accordingly, your Committee has amended this measure by deleting its contents and inserting the contents of S.B. No. 1220, S.D. 1, which:

- (1) Establishes a Youth Advisory Commission within the Office of Youth Services to advise the Governor and Legislature on issues relating to youth;
- (2) Appropriates funds for the hiring of one staff position to administer the Youth Advisory Commission and other associated administrative costs; and
- (3) Includes an effective date of July 1, 2017.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1466, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1466, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Tokuda, Wakai).

SCRep. 1111 Human Services on H.B. No. 527

The purpose and intent of this measure is to appropriate funds for establishing, staffing, and operating two mobile clinics to serve the homeless population.

Your Committee received testimony in support of this measure from the Office of the Mayor of the County of Hawai'i, The Queen's Health Systems, Hawaii Association of Professional Nurses, Hawai'i Psychological Association, and five individuals. Your Committee received comments on this measure from the Governor's Coordinator on Homelessness and Department of Human Services.

Your Committee finds that homelessness continues to be one of the State's most significant and challenging social problems. Homeless persons face a myriad of issues, including general health issues, mental illness, and substance abuse. Your Committee further finds that mobile clinics are increasing in popularity across the nation as government entities find ways to address the health care needs of the homeless population. In places such as Denver, Colorado; Seattle, Washington; and San Jose, California, mobile clinics offer a variety of free health care services for local homeless populations, saving significant costs on emergency room visits. Similarly, in Hawaii, mobile clinics would be able to provide timely non-emergency medical care to homeless individuals in the community. By making basic preventative and primary healthcare services more accessible on a mobile outreach basis, the State could assist with mitigating many homeless individuals' illnesses before they become severe, and thus reduce the high demand for emergency medical services to treat non-emergency conditions or emergency conditions that could have been prevented.

Your Committee notes that this measure appropriates an unspecified amount in general funds for fiscal years 2017-2018 and 2018-2019 and requests that your Committees on Commerce, Consumer Protection, and Health and Ways and Means consider an appropriation amount of \$1,400,000 for the purposes of this measure; provided that the funds may be used for repairing and renovating existing vehicles as mobile clinics. Your Committee also believes that the development of a mobile clinic pilot project for Hawaii County may be a worthy endeavor for consideration in the future. Furthermore, your Committee notes that to effectively operate and provide services through mobile clinics, it is critical to include a psychiatrist and pharmacist as members of a mobile clinic staff.

Your Committee has amended this measure by:

- (1) Including a social worker and outreach worker as suggested staff of a mobile clinic;
- (2) Including, as well as defining, street medicine as a service that may be provided by mobile clinics; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 527, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 527, H.D. 1, S.D. 1, and be referred to your Committees on Commerce, Consumer Protection, and Health and Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Tokuda, Wakai).

SCRep. 1112 Human Services on H.B. No. 1281

The purpose and intent of this measure is to:

- (1) Establish and appropriate funds for a three-year Work-for-a-Day pilot program that provides homeless individuals with work opportunities and connects them with service providers; and

- (2) Require the Governor's Coordinator on Homelessness to submit a report to the Legislature prior to the 2018 Regular Session on implementing the pilot program.

Your Committee received testimony in support of this measure from the Office of the Mayor of the County of Hawai'i, Catholic Charities Hawai'i, Hawaii Youth Services Network, Hawaii Applesseed Center for Law and Economic Justice, and two individuals. Your Committee received comments on this measure from the Governor's Coordinator on Homelessness, Department of Human Services, and The Institute for Human Services.

Your Committee finds that homelessness continues to be one of the State's most significant and challenging social problems. According to the 2016 Hawaii Statewide Homeless Point-In-Time conducted in January 2016, there are 7,921 homeless individuals in the State, an overall increase of four percent from 2015.

Your Committee further finds that pilot programs throughout the United States provide homeless individuals with temporary work while providing easy access to services. A pilot program launched in Albuquerque, New Mexico, has received national attention, as the program connects homeless individuals with work cleaning up public spaces and is proving to be a success. In Hawaii, some service providers already assist homeless individuals with temporary work. However, those programs are limited to small areas, and thus are not available to the vast majority of homeless individuals in communities throughout the State. Introducing a pilot program that provides homeless individuals with work opportunities, while connecting them with service providers, mutually benefits the homeless individuals and the local community.

Your Committee has amended this measure by:

- (1) Referencing the pilot program as a "homeless employment pilot program" rather than a "work-for-a-day pilot program";
- (2) Clarifying that the intent of the homeless employment pilot program is to, among other things, assist homeless individuals with a path to employment in the general workforce and pre-vocational training for those who require such a transition and allow homeless individuals who face barriers and stigmas based on their background to seek employment opportunities;
- (3) Specifying that the Department of Labor and Industrial Relations, rather than the Governor's Coordinator on Homelessness, shall administer the homeless employment pilot program;
- (4) Clarifying that the homeless employment program shall qualify homeless individuals for and connect them to housing programs;
- (5) Specifying that the Department of Labor and Industrial Relations, rather than the Governor's Coordinator on Homelessness, shall submit a report on the progress of the homeless employment pilot program to the Legislature no later than twenty days prior to the Regular Session of 2018;
- (6) Specifying that the expending agency of the appropriation to establish the homeless employment pilot program shall be the Department of Labor and Industrial Relations rather than the Department of Human Services;
- (7) Inserting language that:
 - (A) Requires and appropriates funds for the Auditor to conduct a study to assess the impact of using Medicaid funds to provide coverage for the treatment for homelessness and submit a report to the Legislature; and
 - (B) Requires and appropriates funds for the Department of Human Services, in collaboration with the Department of Health, to review the progress of the Hawaii pathways project pilot and continue to pursue efforts to utilize Medicaid to provide supportive housing services for chronically homeless individuals and submit a report of its findings to the Legislature; and
- (8) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1281, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1281, H.D. 1, S.D. 1, and be referred to your Committees on Judiciary and Labor and Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Tokuda, Wakai).

SCRep. 1113 (Joint) Human Services and Housing on H.B. No. 1240

The purpose and intent of this measure is to appropriate funds to the Department of Human Services for the coordinated statewide homeless initiative, subject to certain conditions.

Your Committees received testimony in support of this measure from Office of the Mayor of the County of Hawai'i; Hawaii Youth Services Network; The Institute for Human Services; Catholic Charities Hawai'i; Aloha United Way; Hawaii Applesseed Center for Law and Economic Justice; U.S. VETS; IMUAlliance; The Salvation Army, Hawaiian and Pacific Islands Division; Gregory House Programs; and two individuals. Your Committees received comments on this measure from the Governor's Coordinator on Homelessness, Department of Human Services, Department of the Attorney General, and State Procurement Office.

Your Committees find that homelessness continues to be one of the State's most significant and challenging social problems that requires continuous resources and coordinated efforts at all levels. One such effort is the coordinated statewide homeless initiative, which provides important, cost-effective homelessness prevention and rapid rehousing services statewide and increases coordination through the statewide information and referral system on behalf of homeless individuals and those at risk of homelessness. In approximately eight months, the coordinated statewide homeless initiative provided financial assistance to 1,279 households, thereby assisting 3,992 adults and children who were homeless or at risk of becoming homeless. Although this program is only one component

to address homelessness in the State, it has proven to be effective and critical in helping homeless individuals and those at risk of homelessness.

Your Committees have amended this measure by:

- (1) Clarifying that the services of a master contractor procured by the Department of Human Services shall be to procure and oversee subcontracts for the provision of coordinated statewide homeless initiative services;
- (2) Clarifying that the master contractor shall have the authority to modify the scope of services of any subcontract to the master contract, rather than any scope of services;
- (3) Clarifying the information used by the master contractor when overseeing contracts;
- (4) Allowing the master contractor to retain administrative fees of fifteen percent from the amounts paid under the master contract between the master contractor and subcontractors;
- (5) Specifying that funds for the coordinated statewide homeless initiative shall be administered in conformance to accepted industry financial accounting and performance standards;
- (6) Clarifying that subcontracts to the master contract, rather than all contracts, executed and using appropriations authorized pursuant to this measure shall not be subject to chapters 42F, 103D, and 103F, Hawaii Revised Statutes; and
- (7) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Human Services and Housing that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 1240, H.D. 2, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 1240, H.D. 2, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Human Services: Ayes, 3. Noes, none. Excused, 2 (Tokuda, Wakai).

Housing: Ayes, 3. Noes, none. Excused, 2 (Kahele, Keith-Agaran).

SCRep. 1114 Commerce, Consumer Protection, and Health on H.B. No. 1488

The purpose and intent of this measure is to:

- (1) Establish the Office of Medical Marijuana Administration;
- (2) Amend certain dates and deadlines in existing law to address the delays in implementation;
- (3) Establish new deadlines for the Department of Health to implement the dispensary system, including deadlines for implementation of the Department's computer software tracking system and laboratory testing program;
- (4) Provide for an alternative means to track marijuana sales during any shutdown of the Department of Health's computer tracking system; and
- (5) Amend requirements for laboratory standards and testing to ensure product and patient safety, including authorizing qualifying patients and primary caregivers to directly obtain testing services.

Your Committee received testimony in support of this measure from the Hawaii Educational Association for Licensed Therapeutic Healthcare; Cure Oahu; We Are One, Inc.; NuWayve Unlimited; Spectra Analytical Lab; Steep Hill Hawaii; Hawaii Cannabis Care; Maui Grown Therapies; Lau Ola LLC; Patients Without Time; and twenty-five individuals. Your Committee received testimony in opposition to this measure from the Hawai'i Dispensary Alliance, Kush Bottles Hawaii, and seven individuals. Your Committee received comments on this measure from the Department of the Attorney General, Department of Health, Drug Policy Forum of Hawai'i, Hawaii Veteran's Cannabis Alliance, and two individuals.

Your Committee finds that chapter 329D, Hawaii Revised Statutes, was enacted pursuant to Act 241, Session Laws of Hawaii 2015, to establish medical marijuana dispensaries to ensure access to medical marijuana for qualifying patients. Your Committee further finds that Act 241 required the Department of Health to allow retail dispensing of medical marijuana beginning July 15, 2016, but has only recently authorized a few medical marijuana dispensary licensees to proceed with the planting or cultivation of medical marijuana. The Department has also been unable to guarantee that the dispensary program will be fully implemented in the near future.

Your Committee also finds that a medical marijuana computer tracking system is necessary and intended to ensure the safety of the product, patient, and public, and that other jurisdictions have found it useful to have a pre-determined alternative tracking system to ensure uninterrupted access to medical marijuana during any shutdown of the initial tracking system. However, your Committee also finds that there have been delays with the Department of Health's implementation of a computer tracking system and that the need for a tracking system must be balanced with patients' need to receive their medicine.

As Hawaii expands its medical marijuana program through dispensaries, it is important that discussions continue to ensure that patients have adequate and timely access to medical marijuana. Your Committee finds that the intent of this measure is to refine existing law related to the State's medical marijuana program and implement new aspects that are necessary to promote safe and adequate patient access to medical marijuana. In reviewing this measure, your Committee has taken into consideration testimony submitted, ongoing discussions with stakeholders and the community, as well as industry standards currently in effect in other states.

Your Committee notes that the companion to this measure, S.B. No. 1159, S.D. 1 (Regular Session of 2017), which was previously passed by your Committee, is a substantially similar measure that also addresses issues related to the State's medical marijuana system. Your Committee finds that the language in S.B. No. 1159, S.D. 1, is preferable because it includes more of the items that your Committee finds necessary to be addressed at this time.

Accordingly, your Committee has amended this measure by:

- (1) Deleting its contents and inserting the contents of S.B. No. 1159, S.D. 1, which is substantially similar except as follows:
 - (A) Limits each location used by a qualifying patient to cultivate marijuana to use by five qualifying patients;
 - (B) Makes the authority of primary caregivers to cultivate marijuana for qualifying patients terminate on December 31, 2020, rather than December 31, 2019;
 - (C) Allows the Department of Health to determine whether existing dispensary licensees shall be allowed to increase plant count, the number of production centers, or the number of retail dispensing locations per license;
 - (D) Makes use of the alternate medical marijuana dispensary tracking system optional instead of mandatory, requires the Department of Health to seek input from medical marijuana licensees about the alternate tracking system, and requires the Department to report to the legislative oversight working group information and recommendations about the alternate tracking system twenty days prior to the convening of the Regular Session of 2018;
 - (E) Requires retention of video security recordings of production centers and dispensaries for not less than 45 days;
 - (F) Requires the Department of Health to include in its established testing standards permission for qualifying patients and primary caregivers to obtain testing services directly from certified laboratories on the island where the qualifying patient and primary caregiver reside; and
 - (G) Contains an effective date of July 1, 2050;
- (2) Reinserting provisions from H.B. No. 1488, H.D. 1, that:
 - (A) Amend the definition of the term “transport” to allow qualifying patients and primary caregivers to directly obtain testing services from certified laboratories on the same island;
 - (B) Require the Department of Health to establish security requirements for the transportation of marijuana and manufactured marijuana products between production centers, retail dispensing locations, qualifying patients, or primary caregivers and a certified laboratory; and
 - (C) Extend the Department of Health’s interim rulemaking authority until July 1, 2020;
- (3) Further amending the definition of the term “transport” to allow qualified patients and primary caregivers to transport up to one gram of medical marijuana for laboratory testing when the qualified patient or primary caregiver:
 - (A) Secures an appointment for testing at a certified laboratory;
 - (B) Obtains confirmation, which may be electronic, that includes the specific time and date of the appointment and a detailed description of the product and amount to be transported to the certified laboratory for the appointment; and
 - (C) Has the confirmation, which may be electronic, available during transport;
- (4) Further amending the retention of video security recordings requirement for production centers and dispensaries to exactly 45 days, rather than not less than 45 days;
- (5) Removing the provisions that established the Office of Medical Marijuana Administration;
- (6) Amending the definition of “adequate supply” of marijuana to include seven marijuana seedlings;
- (7) Amending the definition of “debilitating medical condition” to include lupus, epilepsy, multiple sclerosis, arthritis, and autism as conditions that qualify for the legal use of medical marijuana;
- (8) Inserting language to establish that, when considering whether to award a new medical marijuana dispensary license or allow existing licensees to increase the number of production centers or retail dispensing locations, the Department of Health shall consider the capability of the applicant or licensee to serve a “rural or underserved geographical area” and specifying that a “rural or underserved geographical area” shall be determined by considering the number of registered medical marijuana patients that reside within a certain zip code compared to the quantity of medical marijuana that the closest production center and retail dispensing location are able to provide;
- (9) Updating the purpose section to reflect the amended purpose; and
- (10) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1488, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1488, H.D. 1, S.D. 1, and be referred to your Committees on Judiciary and Labor and Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Espero, Ihara, Kidani).

SCRep. 1115 (Joint) Public Safety, Intergovernmental, and Military Affairs and Transportation and Energy on H.B. No. 463

The purpose and intent of this measure is to:

- (1) Allow any satellite city hall in any county with a population of more than seven hundred thousand persons to issue Hawaii state identification cards; and
- (2) Require the Director of Transportation in consultation with the examiner of drivers to submit a report to the Legislature prior to the convening of the Regular Session of 2018 on the progress made and findings and recommendations, including any proposed legislation, funding, and equipment needed for implementation.

Your Committees received testimony in support of this measure from the American Civil Liberties Union Hawai'i, Community Alliance, and three individuals. Your Committees received testimony in opposition to this measure from the Department of Transportation.

Your Committees find that many citizens, especially children and the elderly, do not have drivers' licenses, yet often need state identification cards. Consequently, it is important to remove barriers that limit citizens' access to obtaining state identification cards. Allowing satellite city halls to issue state identification cards will provide additional and convenient locations for citizens to obtain needed state identification cards and will reduce travel times, waits, and other stresses that are common at other state identification card issuing locations.

Your Committees, however, note the concerns raised by the Department of Transportation relative to the potential additional costs associated with providing state identification cards at satellite city halls. Your Committees suggest that if your Committees on Judiciary and Labor and Ways and Means decide to hear this measure, that the Department of Transportation work with those Committees to provide cost estimates for expanding the issuance of state identification cards to satellite city halls.

As affirmed by the records of votes of the members of your Committees on Public Safety, Intergovernmental, and Military Affairs and Transportation and Energy that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 463, H.D. 1, and recommend that it pass Second Reading and be referred to your Committees on Judiciary and Labor and Ways and Means.

Signed by the Chairs on behalf of the Committees.

Public Safety, Intergovernmental, and Military Affairs: Ayes, 3. Noes, none. Excused, 2 (Ihara, Wakai).

Transportation and Energy: Ayes, 3. Noes, none. Excused, 2 (Dela Cruz, English).

SCRep. 1116 Public Safety, Intergovernmental, and Military Affairs on H.B. No. 845

The purpose and intent of this measure is to require the Department of Public Safety, in collaboration with county and state agencies, to issue civil identification cards to inmates and to assist inmates in obtaining other important government documents, including a social security card, or birth certificate, necessary for successful reentry into society.

Your Committee received testimony in support of this measure from the Department of Health; Department of Public Safety; Hawaii State Commission on the Status of Women; Judiciary, State of Hawai'i; Americans for Democratic Action Hawai'i; CHOW Project; Community Alliance on Prisons; Hawaii Appleseed Center for Law & Economic Justice; Hawaii Women's Coalition; YWCA O'ahu; and nine individuals.

Your Committee finds that helping inmates transition back into everyday life is a vital component of successful inmate rehabilitation. One of the problems inmates encounter is that they are incarcerated for long periods and often lose important government documents pertaining to their identities. Upon release, the lack of necessary government-issued identification documents, such as a social security card, birth certificate, or civil identification card, can prevent a former inmate from being able to successfully transition back into society. Therefore, it is necessary to establish guidelines requiring the Department of Public Safety to work with appropriate federal, state, and county agencies to assist eligible inmates in obtaining important government documents.

In establishing these guidelines, your Committee notes the testimony of the Community Alliance on Prisons recommending that inmates in work furlough, extended furlough, and community placement programs also benefit from assistance in obtaining important government documents.

Your Committee has amended this measure by requiring the Department of Public Safety to begin the process of assisting inmates released to work furlough, extended furlough, and community placement programs at least ninety days prior to release.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 845, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 845, H.D. 2, S.D. 1, and be referred to your Committees on Judiciary and Labor and Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Thielen).

SCRep. 1117 (Joint) Public Safety, Intergovernmental, and Military Affairs and Commerce, Consumer Protection, and Health on H.B. No. 1465

The purpose and intent of this measure is to update statutory language on liquor license application and operating procedures to improve consistency and efficiency in liquor licensing and to reflect modern business practices and organizational structures.

Your Committees received testimony in support of this measure from the Department of Liquor Control, County of Kauai; Liquor Commission, City and County of Honolulu; Maui Chamber of Commerce; Maui Hotel & Lodging Association; and three individuals.

Your Committees find that the efficient and equitable treatment of business, particularly in any licensing process, is essential for cultivating a robust economy that benefits the public welfare. Existing statutes relating to liquor licensing are outdated and do not reflect the current business practices in the State. Further, these outdated licensing laws serve as impediments to business and prevent potential economic growth. Accordingly, this measure updates existing liquor licensing statutes to:

- (1) Include member-managed and manager-managed limited liability companies;
- (2) Allow liquor license holders to notify the liquor commission within a set period of time after a change in membership or ownership of the license holding entity instead of before the change;
- (3) Clarify conditions under which publicly-traded companies or entities solely owned by a publicly-traded entity may be disqualified for licensure;
- (4) Allow a liquor licensee, with approval from the commission, to have the commission hold a valid liquor license for safekeeping while the licensee is not operating, as an alternative to cancellation of the license; and
- (5) Prohibit the coercion, pressure, or undue influence of a primary decision-maker by a non-primary decision-maker in any decision regarding the purchase or sale of liquor and allows the commission to suspend or cancel the liquor license if such coercion, pressure, or undue influence has occurred.

Your Committees understand the concern raised by the Liquor Commission for the City and County of Honolulu that this measure as written could be interpreted to prevent a non-primary decision-maker from providing proper and appropriate input to a primary decision-maker regarding the purchase and sale of liquor.

Therefore, your Committees have amended this measure by clarifying that a non-primary decision-maker is prohibited from coercing, pressuring, or unduly influencing a primary decision-maker to engage in any unlawful activity relating to the purchase and sale of liquor.

As affirmed by the records of votes of the members of your Committees on Public Safety, Intergovernmental, and Military Affairs and Commerce, Consumer Protection, and Health that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 1465, H.D. 2, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 1465, H.D. 2, S.D. 1, and be referred to your Committee on Judiciary and Labor.

Signed by the Chairs on behalf of the Committees.

Public Safety, Intergovernmental, and Military Affairs: Ayes, 4. Noes, none. Excused, 1 (Wakai).

Commerce, Consumer Protection, and Health: Ayes, 4. Noes, none. Excused, 3 (Espero, Kidani, Ruderman).

SCRep. 1118 (Joint) Higher Education and Government Operations on H.B. No. 424

The purpose and intent of this measure is to reinstate and restore full authority to the President of the University of Hawaii to act as the University's chief procurement officer for all procurement contracts under the Hawaii Public Procurement Code.

Your Committees received testimony in support of this measure from the University of Hawai'i System, State Procurement Office, and University of Hawaii Professional Assembly.

Prior to the hearing on this measure, your Committees posted and made available for public review a proposed S.D. 1, which amended this measure by:

- (1) Inserting language to require that, upon expiration of the current terms of the two at-large members of the Board of Regents of the University of Hawaii, two members of the Board must be faculty members, one of which must be faculty at one of the University of Hawaii's community colleges and the other of which must be faculty at the University of Hawaii at Manoa, University of Hawaii at Hilo, or University of Hawaii West Oahu; provided that the two faculty members may not be faculty at campuses in the same county;
- (2) Inserting a provision to prohibit the University of Hawaii Board of Regents from increasing tuition fees; and
- (3) Requiring the University of Hawaii to submit a report to the Legislature prior to the Regular Session of 2018 with an analysis of whether tuition increases are helping address the University's repair and maintenance backlog.

Your Committees received testimony in support of the proposed S.D. 1 from the University of Hawaii Professional Assembly and nine individuals. Your Committees received testimony in opposition to the proposed S.D. 1 from the University of Hawai'i System.

Your Committees find that historically, the President of the University of Hawaii has had the authority of a chief procurement officer for the University for construction contracts, but Act 87, Session Laws of Hawaii 2013, removed this authority from the President and transferred authority over those contracts to the State Procurement Office. Your Committees received testimony from the University of Hawaii that this bifurcation of the University's procurement system, depending on whether the procurement involves construction or construction related professional services, further complicates an already difficult job and requires additional coordination with the Department of Accounting and General Services. Your Committees note that the State Procurement Office issued its report to the Legislature in January 2016, as required by Act 87, which concluded that the University is conducting construction procurements in a compliant, efficient, and transparent manner. The report also mentioned several university specific procedures as best practices.

Your Committees further find that continually rising tuition rates are making higher education increasingly cost prohibitive. More specifically, your Committees find that the tuition schedule established by the Board of Regents of the University of Hawaii has created an unreasonable increase in the cost of attendance at Hawaii's sole public university system. Your Committees note that tuition costs have been consistently and significantly on the rise, having risen over six hundred percent for resident and non-resident students since 1995. These onerous tuition costs place an undue financial burden on students and their families.

Finally, your Committees find that the University of Hawaii has not demonstrated a commitment to shared governance, and that a growing disconnect exists at the University between faculty and the administration. Your Committees are concerned that faculty at the University do not have sufficient opportunity to express their ideas or concerns to University administration, and that there is a lack of accountability for actions taken by the Board of Regents that affect the institution's valued faculty members and, subsequently, the students.

Your Committees have amended this measure by adopting the proposed S.D. 1 and further amending the measure by:

- (1) Deleting the language that required the two existing at-large members of the University of Hawaii Board of Regents to be faculty members;
- (2) Inserting language to add two ex officio nonvoting members to the University of Hawaii Board of Regents who must be faculty at the University and setting forth when names for these positions must be presented to the Governor, as well by when the Governor must make the nominations; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Higher Education and Government Operations that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 424, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 424, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Higher Education: Ayes, 4. Noes, none. Excused, 1 (Taniguchi).

Government Operations: Ayes, 3. Noes, none. Excused, 2 (Galuteria, Tokuda).

SCRep. 1119 Higher Education on H.B. No. 425

The purpose and intent of this measure is to facilitate the University of Hawaii's contribution to research commercialization and economic development by specifying that certain sections of the State Code of Ethics do not apply to technology transfer activities sponsored by the University.

Your Committee received testimony in support of this measure from the University of Hawai'i System, Hawaii Venture Capital Association, Sultan Ventures, XLR8UH, Hawaii Business Roundtable, and Chamber of Commerce Hawaii. Your Committee received testimony in opposition to this measure from the Hawaii State Ethics Commission and Common Cause Hawaii.

Your Committee finds that the commercialization of intellectual property created by basic and applied research at the University of Hawaii greatly benefits the State by diversifying employment opportunities, creating a more robust innovation sector, introducing better performing products, and providing a potential economic return on the public resources committed to the University. Your Committee further finds that supporting contributions by the University of Hawaii to the economic health and diversification of the State is a matter of statewide concern.

Your Committee heard testimony from the University of Hawaii that the current uncertainty surrounding the application of the State Ethics Code to individual technology transfer activities at the University deters potential financial partners. However, your Committee also heard the concerns of the Hawaii State Ethics Commission that exempting a broad category of activities from the State Ethics Code would set a dangerous precedent and take away from the strength inherent in a uniform ethics code.

Your Committee has requested that the University of Hawaii submit to your Committee on Higher Education the current Board of Regents policies and procedures that comprise the University's regulatory framework for technology transfer activities. Your Committee recognizes the complexities in determining the best oversight for technology transfer activities at the University of Hawaii, but is willing to further the discussion on this measure in hopes that a reasonable resolution can be reached.

Your Committee has amended this measure by:

- (1) Requiring the University of Hawaii to submit a report regarding technology transfer activities to the Legislature every year instead of in odd-numbered years only;
- (2) Inserting language that repeals this measure on June 30, 2022; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Higher Education that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 425, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 425, H.D. 1, S.D. 1, and be referred to your Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.

Ayes, 4; Ayes with Reservations (Kidani). Noes, none. Excused, 1 (Taniguchi).

SCRep. 1120 (Joint) Higher Education and Agriculture and Environment on H.B. No. 427

The purpose and intent of this measure is to preserve dark night skies in Hawaii by establishing a Dark Night Skies Protection Advisory Committee.

Your Committees received testimony in support of this measure from the University of Hawai'i System; Department of Business, Economic Development, and Tourism; Department of Land and Natural Resources; Office of Hawaiian Affairs; Conservation Council for Hawai'i; and one individual. Your Committees received comments on this measure from the Department of Transportation, Land Use Commission, Office of the Mayor of the County of Hawai'i, Land Use Research Foundation of Hawai'i, and one individual.

Your Committees find that dark night skies hold important cultural, scientific, astronomical, natural, landscape, and tourism-related value. Your Committees further find that light pollution, caused by inappropriate use of lighting at night, interferes with dark night sky activities and the nighttime activities of certain animal and insect species. Your Committees also find that nighttime illumination of state highways, harbors, airports, and other facilities is costly and consumes large amounts of energy. Your Committees recognize that light pollution is a statewide issue that requires the cooperation of state and county agencies to develop and implement a strategy to reduce nighttime light pollution to help preserve Hawaii's dark night skies for astronomy, endangered species, human health, and reduced energy consumption.

Your Committees have amended this measure by:

- (1) Removing the member of the Land Use Commission from the Advisory Committee;
- (2) Making the measure effective upon its approval; and
- (3) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Higher Education and Agriculture and Environment that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 427, H.D. 2, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 427, H.D. 2, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Higher Education: Ayes, 3. Noes, none. Excused, 2 (Keith-Agaran, Taniguchi).

Agriculture and Environment: Ayes, 4. Noes, none. Excused, 1 (Nishihara).

SCRep. 1121 (Joint) Higher Education and Commerce, Consumer Protection, and Health on H.B. No. 428

The purpose and intent of this measure is to support physician workforce assessment and planning to recruit and retain physicians in rural and medically underserved areas by allowing the John A. Burns School of Medicine to continue receiving a portion of the physician workforce assessment fee.

Your Committees received testimony in support of this measure from the Department of Labor and Industrial Relations, University of Hawai'i System, Office of the Mayor of the County of Hawai'i, The Queen's Health Systems, Kaiser Permanente Hawaii, AlohaCare, Hawai'i Pacific Health, Hawaii Area Health Education Center, Hawai'i Academy of Family Physicians, Lāna'i Community Health Center, International Longshore and Warehouse Union Local 142 Hawaii, Big Island Toyota, and eleven individuals. Your Committees received comments on this measure from the Hawaii Medical Board.

Your Committees find that Hawaii has a shortage of over five hundred doctors. In addition to this shortage, Hawaii has the fifth oldest physician workforce in the country. Your Committees further find that access to quality healthcare requires supporting the recruitment and retention of healthcare professionals, especially in rural, remote, and underserved areas.

Your Committees recognize the valuable accomplishments that the physician workforce assessment project has assisted with in recent years, including malpractice reform, continuing education, loan repayment to physicians working in areas of need, and advertising of all open positions in Hawaii to graduates in healthcare professions. Future efforts of the program include state-matched loan relief to new providers in the areas of highest unmet need, promotion of Hawaii careers at mainland conferences, providing bonuses for providers practicing in underserved areas, and the formation of an office of rural training to promote practice in underserved areas. Your Committees find that the physician workforce assessment fee costs Hawaii physicians \$60 every other year and will allow the State to act rapidly when concrete solutions are identified to continue addressing the physician workforce shortage in the State.

As affirmed by the records of votes of the members of your Committees on Higher Education and Commerce, Consumer Protection, and Health that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 428, H.D. 1, and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Higher Education: Ayes, 4. Noes, none. Excused, 1 (Kidani).

Commerce, Consumer Protection, and Health: Ayes, 4. Noes, none. Excused, 3 (Ihara, Kidani, Nishihara).

SCRep. 1122 (Joint) Higher Education and Agriculture and Environment and Water and Land on H.B. No. 450

The purpose and intent of this measure is to appropriate funds to the University of Hawaii to study the effects of sunscreen on coral reefs in Hawaii waters and submit reports to the Legislature.

Your Committees received testimony in support of this measure from the University of Hawai'i System, Department of Health, Humane Society of the United States, For the Fishes, and nine individuals. Your Committees received comments on this measure from the Office of the Mayor of the County of Hawai'i.

Your Committees find that coral reefs in Hawaii waters are increasingly exposed to impacts from human use and in some places are degrading as a result. Studies from around the world have highlighted the detrimental impact of chemicals in sunscreen products on coral health and reproduction. Your Committees further find that no studies have been conducted to explore the impact of sunscreen products on Hawaiian coral reefs that see heavy tourist traffic and measurable concentrations of sunscreen chemicals. This measure will allocate resources to the University of Hawaii to study and report on the effects of sunscreen used by ocean users on coral reefs located in Hawaii waters and make recommendations, if necessary, for mitigating these impacts.

Your Committees note that the appropriation in this measure is blank. Your Committees have requested the University of Hawaii to provide your Committees with an estimated cost to study the effects of sunscreen on coral reefs in Hawaii waters.

Your Committees have amended this measure by:

- (1) Inserting an effective date of July 1, 2017; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Higher Education, Agriculture and Environment, and Water and Land that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 450, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 450, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Higher Education: Ayes, 4; Ayes with Reservations (Taniguchi). Noes, none. Excused, 1 (Kidani).

Agriculture and Environment: Ayes, 4. Noes, none. Excused, 1 (Nishihara).

Water and Land: Ayes, 5. Noes, none. Excused, none.

SCRep. 1123 Higher Education on H.B. No. 480

The purpose and intent of this measure is to support the Hawaii Community College agriculture program and the University of Hawaii at Hilo's agricultural farm by appropriating funds for one full-time farm coordinator position and for equipment for the Hawaii Community College's agriculture program.

Your Committee received testimony in support of this measure from the University of Hawai'i System, Department of Agriculture, and Hawai'i Farm Bureau.

Your Committee finds that student interest in the Hawaii Community College agriculture program has grown in recent years and the program averages around thirty majors each year. The program prepares students for employment in government service, agribusiness, horticulture, livestock, flowers and foliage, landscape, macadamia nuts, papaya, and coffee industries. Your Committee notes that, currently, production at the University of Hawaii at Hilo's agricultural farm, which serves as a live instructional laboratory for Hawaii Community College and University of Hawaii at Hilo students, is unable to meet demand.

Your Committee further finds that the Island of Hawaii could be a strong agricultural contributor to the State and help Hawaii increase its self-sufficiency and sustainability efforts. In addition to other potential agriculture benefits, the Island of Hawaii offers nutrient rich soil, a tropical climate, and an abundance of affordable land. Your Committee additionally finds that while fostering a new generation of agriculturalists, it is important that the State ensure public resources are being used for efficient and collaborative efforts that support a holistic view of agriculture for the Island of Hawaii.

Accordingly, your Committee has amended this measure by:

- (1) Deleting the appropriation for the hiring of a farm coordinator to support the instructional activities of the Hawaii Community College;
- (2) Inserting a blank appropriation amount for the Hawaii Community College and University of Hawaii at Hilo, in collaboration with the Department of Agriculture and the Agribusiness Development Corporation, to study the following:
 - (A) Areas in which the agriculture programs at Hawaii Community College and the University of Hawaii at Hilo can collaborate to maximize resource efficiency and minimize redundancy;
 - (B) New agriculture opportunities on the Island of Hawaii; and
 - (C) The development of a holistic approach to the growth of agriculture and agricultural learning opportunities on the Island of Hawaii;
- (3) Inserting language requiring the Hawaii Community College to submit a report to the Legislature prior to the convening of the Regular Session of 2018;
- (4) Deleting the appropriation to the Hawaii Community College for equipment for its agriculture program; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Higher Education that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 480, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 480, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Taniguchi).

SCRep. 1124 (Joint) Higher Education and Public Safety, Intergovernmental, and Military Affairs on H.B. No. 571

The purpose and intent of this measure is to support public education on emergency management and disaster preparedness by appropriating funds for the University of Hawaii sea grant college program to:

- (1) Develop a communication strategy and outreach plan for emergency management and disaster preparedness;
- (2) Update and publish the fourth edition of the *Homeowner's Handbook to Prepare for Natural Hazards*; and
- (3) Conduct a systematic and targeted education and outreach initiative throughout the State for emergency management and disaster preparedness.

Your Committees received testimony in support of this measure from the University of Hawai'i System; Hawaii Emergency Management Agency; Department of Emergency Management, City and County of Honolulu; Kaua'i Emergency Management Agency; Hawaiian Electric Company, Inc.; Island Preparedness Group; Maritime Group, LLC; and four individuals. Your Committees received comments on this measure from the Disability and Communications Access Board.

Your Committees find that in 1982, Hurricane 'Iwa caused \$320,000,000 in damages on Kauai, and in 1992, Hurricane Iniki caused \$1,800,000,000 in damages and destroyed or damaged 7,000 homes. An assessment by the Federal Emergency Management Agency indicates that a strike similar to Iniki on Oahu could be eight times more damaging. Your Committees further find that Hawaii saw a record number of hurricane warnings and misses in 2014, 2015, and 2016, and it is in the public interest to take stronger action to prepare for potential natural disasters.

Your Committees additionally find that the University of Hawaii sea grant college program is well positioned to help educate the public on emergency management and disaster preparedness. The program has demonstrated success through its publication of the *Homeowner's Handbook to Prepare for Natural Hazards* that provides useful tips regarding readiness for natural hazards that may affect Hawaii such as tsunamis and hurricanes. The publication provides guidance on evacuation planning and explains various measures to reduce property damage through home retrofit.

As affirmed by the records of votes of the members of your Committees on Higher Education and Public Safety, Intergovernmental, and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 571, H.D. 1, and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Higher Education: Ayes, 4. Noes, none. Excused, 1 (Kidani).

Public Safety, Intergovernmental, and Military Affairs: Ayes, 3. Noes, none. Excused, 2 (Ihara, Wakai).

SCRep. 1125 (Joint) Higher Education and Water and Land on H.B. No. 588

The purpose and intent of this measure is to appropriate funds to maintain the initial staff necessary to develop and manage He'eia estuary.

Your Committees received testimony in support of this measure from the Department of Land and Natural Resources; University of Hawai'i System; Office of Planning; Hawaii Community Development Authority; Ko'olau Foundation; Ko'olaupoko Hawaiian Civic Club; Democratic Party of Hawaii, Hawaiian Affairs Caucus; Nature Conservancy Hawai'i; Kamehameha Schools; and seventeen individuals.

Your Committees find that the State has coordinated with the National Oceanic and Atmospheric Administration (NOAA) to nominate He'eia estuary as a National Estuarine Research Reserve. The site, located on Oahu's windward shore, includes He'eia State Park, He'eia fishpond, and the He'eia community development district, as well as marine waters with patch and fringing reefs and Moku o Lo'e (Coconut Island). In 2012, the Office of Planning was designated as the lead agency to coordinate the selection for a Hawai'i site and the nomination process for He'eia to be designated as a National Estuarine Research Reserve. In 2014, He'eia was officially nominated as a Reserve to support NOAA's policy to encourage expansion of the program in unrepresented areas of the country.

On January 19, 2017, the He'eia site was officially designated as the twenty-ninth site in the National Estuarine Research Reserve System, which enables federal funding to support the implementation of the management plan. Your Committees find that the He'eia site uniquely brings together community and science; federal, state, and local efforts; and modern science and traditional knowledge aimed at implementing and understanding how restoration efforts in the He'eia wetland influence the health of the adjacent estuarine ecosystem.

Your Committees have amended this measure by:

- (1) Updating the purpose section to reflect current information as provided by the Office of Planning;
- (2) Inserting an appropriation amount of \$400,000 for the hiring of four full-time equivalent (4.00 FTE) permanent positions within the University of Hawaii to maintain the initial staff necessary to develop and manage He'eia estuary;
- (3) Inserting an effective date of July 1, 2017; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Higher Education and Water and Land that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 588, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 588, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Higher Education: Ayes, 4. Noes, none. Excused, 1 (Kidani).

Water and Land: Ayes, 4. Noes, none. Excused, 1 (Inouye).

SCRep. 1126 (Joint) Higher Education and Economic Development, Tourism, and Technology on H.B. No. 598

The purpose and intent of this measure is to authorize and provide funds for the University of Hawaii to participate in, and contribute funding for, the development of a Hawaii cyber ecosystem and for other related aspects of cyber security.

Your Committees received testimony in support of this measure from the Department of Education, Office of Enterprise Technology Services, Chamber of Commerce Hawaii, Referentia Systems Inc., and one individual.

Your Committees find that many areas are vulnerable to cyber threats, including critical energy, telecommunication, and water infrastructure, as well as financial, tourism, military, and other important public and private industries. Your Committees further find that cyber security is a matter of statewide concern and the State needs to develop a cyber ecosystem that includes collaboration between private companies, nonprofit organizations, government, and individuals. Your Committees also find that cyber security is particularly important in the areas of economic development, innovation, education, workforce development, readiness, and resilience. This measure will provide resources to help protect Hawaii from cyber threats.

As affirmed by the records of votes of the members of your Committees on Higher Education and Economic Development, Tourism, and Technology that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 598, H.D. 2, and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Higher Education: Ayes, 4. Noes, none. Excused, 1 (Keith-Agaran).

Economic Development, Tourism, and Technology: Ayes, 3. Noes, none. Excused, 2 (Galuteria, Thielen).

SCRep. 1127 (Joint) Higher Education and Transportation and Energy on H.B. No. 794

The purpose and intent of this measure is to fund energy conservation measures to reduce the University of Hawaii's energy consumption and costs by:

- (1) Establishing the University of Hawaii green special fund; and
- (2) Requiring the University to submit an annual report to the Legislature with information about the monies in the special fund.

Your Committees received testimony in support of this measure from the University of Hawai'i System, Ulupono Initiative, and one individual. Your Committees received comments on this measure from the Department of Budget and Finance.

Your Committees find that green revolving funds are common at many college and university campuses across the country that are dedicated to addressing sustainable facilities, operations, and behaviors. According to the Association for the Advancement of Sustainability in Higher Education, at least eighty-five universities have such funds as part of their sustainability programs. Your Committees further find that green revolving funds are typically managed by the university to fund energy-efficient projects, reduce resource use, and other sustainable efforts that repay the fund either through savings realized by the project or other sources of income.

Your Committees additionally find that the University of Hawaii has established the Office of Energy Management to, among other efforts, address the high energy consumption across all ten university campuses. The University has indicated that a green special fund is necessary to support multiple methods of financing and the repayment of debt service from special funds, private donations, and energy rebates.

Your Committees have amended this measure by:

- (1) Removing appropriations made by the Legislature as a source of funds for the University of Hawaii green special fund;
- (2) Adding as a source of funds for the University of Hawaii green special fund:
 - (A) Capital appropriations for energy conservation measures;
 - (B) Funds from special and revolving funds for energy conservation measures projects at the University of Hawaii; provided that this source of funding will only be available until June 30, 2020; and
 - (C) Proceeds from University of Hawaii revenue bonds;
- (3) Inserting language authorizing the Chief Financial Officer of the University of Hawaii to manage the University of Hawaii green special fund and garner monetary savings realized from campus energy conservation measures projects;
- (4) Inserting an appropriation of \$10,000,000 of general revenues to the University of Hawaii for energy efficiency, renewable energy, and sustainability projects and services that may be funded by the special fund;
- (5) Inserting an effective date of July 1, 2017; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Higher Education and Transportation and Energy that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 794, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 794, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Higher Education: Ayes, 4. Noes, none. Excused, 1 (Kidani).

Transportation and Energy: Ayes, 3. Noes, none. Excused, 2 (Dela Cruz, English).

SCRep. 1128 (Joint) Higher Education and Economic Development, Tourism, and Technology on H.B. No. 847

The purpose and intent of this measure is to establish the innovation and commercialization initiative program to expressly grant the University of Hawaii the authority to enable and facilitate the deployment of university educational and instructional resources, university managerial and fiscal resources, and university personnel to promote the economic health and diversification of workforce opportunities through the commercialization of inventions and discoveries generated by or at the University of Hawaii.

Your Committees received testimony in support of this measure from the University of Hawai'i System, High Technology Development Corporation, University of Hawaii Professional Assembly, Chamber of Commerce Hawaii, Hawaii Business Roundtable, and one individual. Your Committees received testimony in opposition to this measure from the State Procurement Office and Common Cause Hawaii. Your Committees received comments on this measure from the Office of Information Practices, Hawaii State Ethics Commission, and Society of Professional Journalists Hawaii Chapter.

Your Committees find that the Legislature has a history of authorizing and providing funds to support efforts by state agencies to promote entrepreneurial development, support research commercialization, and provide access to startup investment capital. Commercialization contributes to a more diverse workforce in the State which benefits the public by promoting a robust and dynamic economy.

Your Committees additionally find that the University of Hawaii is a research and teaching institution with the unique ability to identify promising innovations and new discoveries arising from university research. In order to remain competitive with its peers, the University of Hawaii must develop its capacity to encourage technology transfer and commercialize its intellectual property. Your

Committees find that this measure will support the University's technology transfer programs by allowing the University to undertake commercialization activity with greater legal certainty and clarity.

As affirmed by the records of votes of the members of your Committees on Higher Education and Economic Development, Tourism, and Technology that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 847, H.D. 1, and recommend that it pass Second Reading and be referred to your Committees on Judiciary and Labor and Ways and Means.

Signed by the Chairs on behalf of the Committees.

Higher Education: Ayes, 4. Noes, none. Excused, 1 (Keith-Agaran).

Economic Development, Tourism, and Technology: Ayes, 3. Noes, none. Excused, 2 (Galuteria, Thielen).

SCRep. 1129 (Joint) Higher Education and Transportation and Energy on H.B. No. 848

The purpose and intent of this measure is to authorize, encourage, and facilitate the development and use of microgrids at the various campuses and facilities operated by the University of Hawaii by exempting microgrids that promote and serve public higher education institutions from regulation as a public utility by the Public Utilities Commission.

Your Committees received testimony in support of this measure from the University of Hawai'i System, University of Hawai'i at Hilo, University of Hawai'i West Oahu, Americans for Democratic Action, Energy Research Systems, Sierra Club of Hawai'i, and three individuals. Your Committees received testimony in opposition to this measure from Hawaiian Electric Company, Inc.; International Brotherhood of Electrical Workers Local Union 1260; Chamber of Commerce Hawaii; Graham Builders; and Land Use Research Foundation of Hawaii. Your Committees received comments on this measure from the Public Utilities Commission, Department of Commerce and Consumer Affairs, Life of the Land, and Hawaii Energy Policy Forum.

Your Committees support the advancement of renewable energy and energy efficiency in Hawaii, and recognize that microgrids are an increasingly utilized technology that can help expand the use of clean energy in the State. Microgrids can facilitate the achievement of Hawaii's clean energy policies by enabling the integration of higher levels of renewable energy and advanced distributed energy resources, including energy storage and demand response.

Your Committees find that the University of Hawaii needs to develop large-scale renewable energy projects to benefit students, the community, and to successfully achieve the State's goal of one hundred percent clean energy by 2045. Your Committees acknowledge the significant amount that the University expends each year for electricity, and that this measure would improve the University's ability to pursue renewable energy projects. However, your Committees heard concerns about this measure, including that exempting certain microgrids from regulation by the Public Utilities Commission would leave unsettled important issues such as the establishment of reasonable rates and minimum standards for interconnection and reliability. While your Committees appreciate the need for microgrids and the advancement of energy efficiency efforts at the University of Hawaii, your Committees have concerns about the scope of this measure and the unresolved issues surrounding wheeling, rates, and regulation.

Accordingly, your Committees have amended this measure by:

- (1) Requiring the University of Hawaii to develop a microgrid plan for one demonstration project at any property owned, leased, or controlled by the University and authorizing the University to select the location for the project;
- (2) Requiring the University of Hawaii to submit a report on the microgrid project to the Legislature prior to the Regular Session of 2018;
- (3) Removing provisions that:
 - (A) Authorized the University of Hawaii to establish one or more microgrid projects at any properties owned, leased, or controlled by the University;
 - (B) Exempted microgrids that promote and serve public higher education institutions from regulation as a public utility by the Public Utilities Commission; and
 - (C) Defined the term "microgrid";
- (4) Updating the purpose section; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Higher Education and Transportation and Energy that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 848, H.D. 2, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 848, H.D. 2, S.D. 1, and be referred to your Committees on Commerce, Consumer Protection, and Health and Ways and Means.

Signed by the Chairs on behalf of the Committees.

Higher Education: Ayes, 4; Ayes with Reservations (Taniguchi). Noes, none. Excused, 1 (Kidani).

Transportation and Energy: Ayes, 3. Noes, none. Excused, 2 (Dela Cruz, English).

SCRep. 1130 Higher Education on H.B. No. 850

The purpose and intent of this measure is to repeal the University of Hawaii's obligation to prepare certain specified annual reports.

Your Committee received testimony in support of this measure from the University of Hawai'i System.

Your Committee finds that the University of Hawaii is required to provide various reports to the Legislature. Your Committee further finds that some of the required reports have become either unworkable or obsolete. Specifically, the annual reports on the Nursing Scholars Program and Construction Academy are no longer necessary because the programs are well established and have not had any additional information to provide to the Legislature in many years. In addition, the reporting requirements for the Hawaii

Health Corps Program and Hawaii P-20 Partnerships for Education Initiative are not feasible because the programs have not received sufficient funding to fulfill the Legislature's requirements.

As affirmed by the record of votes of the members of your Committee on Higher Education that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 850, H.D. 2, and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Keith-Agaran, Kidani).

SCRep. 1131 (Joint) Higher Education and Economic Development, Tourism, and Technology on H.B. No. 909

The purpose and intent of this measure is to establish and appropriate funds for a Center for Commercialization at the University of Hawaii.

Your Committees received testimony in support of this measure from the University of Hawai'i System and Chamber of Commerce Hawaii.

Your Committees find that the Hawaii Innovation Initiative is a partnership between the University of Hawaii and local businesses to diversify the State's economy by building a thriving innovation, research, education, and training enterprise fueled by the University's plans to commercialize its research. Your Committees further find that it is a matter of statewide concern to support the University of Hawaii's contributions to the economic health and diversification of the State by allowing the University to commercialize the intellectual property created by research at the University in a timely and efficient manner. Your Committees note that this measure establishes the Center of Commercialization which will encompass grant development, commercialization, and innovation related programs to increase efficiencies and effectiveness that will foster a vibrant entrepreneurial ecosystem at the University of Hawaii.

As affirmed by the records of votes of the members of your Committees on Higher Education and Economic Development, Tourism, and Technology that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 909, H.D. 2, and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Higher Education: Ayes, 4. Noes, none. Excused, 1 (Keith-Agaran).

Economic Development, Tourism, and Technology: Ayes, 3. Noes, none. Excused, 2 (Galuteria, Thielen).

SCRep. 1132 (Joint) Commerce, Consumer Protection, and Health and Human Services on H.B. No. 607

The purpose and intent of this measure is to support the increasing elderly population in Hawaii and their caregivers by:

- (1) Requiring the Executive Office on Aging to establish the Kupuna Caregivers Program to assist community members in obtaining care for elders while remaining in the workforce;
- (2) Clarifying the kupuna services and supports provided by Area Agencies on Aging within the Kupuna Care Program and making establishment of the Kupuna Care Program mandatory; and
- (3) Appropriating funds for the establishment and implementation of the Kupuna Caregivers Program.

Your Committees received testimony in support of this measure from the Executive Office on Aging; Democratic Party of Hawai'i; Hawai'i State Democratic Women's Caucus; Maui County Office on Aging; International Longshore and Warehouse Union Local 142 Hawaii; Mental Health America of Hawai'i; Alzheimer's Association, Aloha Chapter; American Congress of Obstetricians and Gynecologists, Hawaii Section; Policy Advisory Board for Elder Affairs; Hawai'i Appleseed Center for Law and Economic Justice; Caring Across Generations; Healthcare Association of Hawaii; Hawai'i Pacific Health; Faith Action for Community Equity; Lanakila Pacific; and seventeen individuals. Your Committees received comments on this measure from Catholic Charities Hawai'i.

Your Committees find that Hawaii's aging population continues to grow, and along with it the need for long-term services and supports becomes more critical. The State's population of individuals age sixty-five and older is projected to rise to 19.4 percent of the population by 2020 and 23 percent of the population by 2030.

Your Committees further find that family caregivers play a vital role in the State's healthcare system by providing long-term care to kupuna so that kupuna can age at home instead of in a long-term care facility, which is often more costly. Your Committees additionally find that it is common for children to return home to care for their aging parents and abandon careers in the process. Hawaii's family caregivers are invaluable, yet they are at risk for mental health issues due to the burden that caregiving places on families. Your Committees note that government agencies, community organizations, and the public are all in strong agreement that family caregivers need support and respite in order to continue the critical role they play in helping others and the State by caring for Hawaii's seniors.

Your Committees have amended this measure by:

- (1) Adding language to the purpose section to indicate that the intent of the Legislature is for the Kupuna Caregivers Program to be established regardless of the availability of state funding so that area agencies on aging are able to take advantage of other monies that may be accessible;
- (2) Combining the definitions from the Kupuna Care Program section and the Kupuna Caregivers Program section of the Hawaii Revised Statutes into a stand-alone definition section for clarity and consistency;
- (3) Amending the definition of the term "attendant care" by including certain verbal prompts and deleting language that specifically excluded guiding a participant's limbs or implements to assist with feeding or dressing;

- (4) Deleting from the definition of the term “respite care” a reference to the Older Americans Act as well as summer camps for grandparents caring for children;
- (5) Replacing references to the term “voucher” with the phrase “allocation of funds” or “allocated funds”;
- (6) Retaining the mandatory establishment of the Kupuna Caregivers Program, regardless of the availability of state funding, but making the award of allocations of funds under the Kupuna Caregivers Program subject to the availability of funding;
- (7) Adding assisted transportation to the list of services covered by the Kupuna Caregivers Program;
- (8) Replacing references to the terms “participant”, “individual”, and “qualified individual” with “care recipient”;
- (9) Making the establishment of rules by the Director of Health for the Kupuna Care Program discretionary rather than mandatory;
- (10) Inserting a provision to indicate that until rules pertaining to the Kupuna Caregivers Program are adopted by the Director of Health, should the Director of Health choose to do so, the existing rules pertaining to the Kupuna Care Program may be used as guidance for the Kupuna Caregivers Program; and
- (11) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Commerce, Consumer Protection, and Health and Human Services that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 607, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 607, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Commerce, Consumer Protection, and Health: Ayes, 5. Noes, none. Excused, 2 (Espero, Kidani).

Human Services: Ayes, 3. Noes, none. Excused, 2 (Tokuda, Wakai).

SCRep. 1133 (Joint) Education and Water and Land on H.B. No. 116

The purpose and intent of this measure is to require the City and County of Honolulu to transfer to the Department of Land and Natural Resources all property upon which a public school is situated.

Your Committees received testimony in support of this measure from the Department of Education, Building Industry Association of Hawaii, and Chamber of Commerce Hawaii. Your Committees received testimony in opposition to this measure from the Department of Land and Natural Resources, Office of the Mayor of the City and County of Honolulu, and Department of Parks and Recreation of the City and County of Honolulu. Your Committees received comments on this measure from the Department of the Attorney General.

Your Committees find that the Department of Education has managed county school lands throughout the State since 1965. Your Committees further find that many public schools in Hawaii require extensive renovation or rebuilding, and that this process is unnecessarily complicated by having state schools on county land, or situated on both county and state land. Your Committees additionally find that transferring a fee simple interest for county school lands to the State will greatly simplify the process of undertaking much needed repairs and renovations. Your Committees also find that an extension of the pilot program for the lease of public school land established by Act 155, Session Laws of Hawaii 2013, would further facilitate the updating of Hawaii’s public schools.

Your Committees have amended this measure by:

- (1) Inserting a purpose section to provide historical context;
- (2) Removing language relating to the method of conveyance of the properties and instead requiring the City and County of Honolulu to prepare, execute, and record a quitclaim deed for each parcel of property to be transferred;
- (3) Appropriating monies in a blank amount as a grant-in-aid to the City and County of Honolulu for costs associated with preparing, executing, and recording the quitclaim deeds;
- (4) Requiring the Department of Land and Natural Resources to divide any parcels of property that contain parks as part of the parcel to separate the parks from the property transferred;
- (5) Requiring the City and County of Honolulu to transfer properties containing high schools and intermediate schools on December 31, 2018, and properties containing elementary schools on December 31, 2019;
- (6) Extending the twenty-first century schools pilot project by an additional five years; and
- (7) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Education and Water and Land that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 116, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 116, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Education: Ayes, 5. Noes, none. Excused, none.

Water and Land: Ayes, 3. Noes, none. Excused, 2 (Gabbard, Thielen).

SCRep. 1134 (Joint) Education and Transportation and Energy on H.B. No. 190

The purpose and intent of this measure is to require that the Department of Education authorize private flight schools that are physically present in the State, are certified by the Federal Aviation Administration, offer flight instructor certificates, request authorization, and meet other requirements established by the rules of the Department.

Your Committees received testimony in support of this measure from Mauna Loa Helicopters and one individual. Your Committees received testimony in opposition to this measure from the Department of Education.

Your Committees find that flight schools overseen by the Federal Aviation Administration are currently exempt from state oversight and licensing. Your Committees further find that, in order to participate in federal loan programs under Title IV, schools are required to be licensed and authorized by a state agency. This measure will allow flight schools to be authorized by the Department of Education for administrative purposes.

Your Committees note that the issue of private flight school authorization is also addressed in S.B. No. 1286, S.D. 2 (Regular Session of 2017).

As affirmed by the records of votes of the members of your Committees on Education and Transportation and Energy that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 190, H.D. 3, and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Education: Ayes, 4. Noes, none. Excused, 1 (Espero).

Transportation and Energy: Ayes, 4. Noes, none. Excused, 1 (Harimoto).

SCRep. 1135 (Joint) Education and Commerce, Consumer Protection, and Health on H.B. No. 501

The purpose and intent of this measure is to:

- (1) Expand the national certification incentive program to provide monetary incentives to school psychologists; and
- (2) Authorize continuing bonuses for school psychologists in certain designated schools that improve and no longer carry a certain designation.

Your Committees received testimony in support of this measure from the Hawaii Association of School Psychologists; Hawaii State Teachers Association; Hawaii Government Employees Association, AFSCME Local 152; and four individuals. Your Committees received comments on this measure from the Department of Education.

Your Committees find that highly qualified mental health providers play an important role in schools and help reduce and remove some of the most challenging barriers to student learning. The rigorous training, supervision, and testing required of school psychologists to obtain national certification is comparable to national teacher certification. Your Committees further find that Hawaii's public schools have a low retention rate for school psychologists, and many positions remain vacant for prolonged periods of time. This measure will provide incentives for highly qualified school psychologists to work in Hawaii's public schools.

Your Committees have amended this measure by:

- (1) Allowing teachers to qualify for continuing bonuses when they are employed in certain designated schools that improve and no longer carry a certain designation;
- (2) Clarifying the amount of reimbursement upon completion of the requirements for certification; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Education and Commerce, Consumer Protection, and Health that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 501, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 501, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Education: Ayes, 4. Noes, none. Excused, 1 (Dela Cruz).

Commerce, Consumer Protection, and Health: Ayes, 4. Noes, none. Excused, 3 (Ihara, Nishihara, Ruderman).

SCRep. 1136 (Joint) Education and Transportation and Energy on H.B. No. 957

The purpose and intent of this measure is to:

- (1) Authorize the Department of Education and Department of Budget and Finance to borrow monies from the Hawaii green infrastructure loan program for heat abatement measures at public schools; and
- (2) Appropriate monies from the general fund of the State to make an initial repayment to the Hawaii green infrastructure special fund.

Your Committees received testimony in support of this measure from the Department of Education, Hawaii State Teachers Association, Hawaii Solar Energy Association, and IMUAlliance. Your Committees received comments on this measure from the Department of Budget and Finance, Public Utilities Commission, and Hawaii Energy Public Forum.

Your Committees find that overheating is a serious and persistent problem in Hawaii's public schools. Your Committees further find that heat abatement in public school classrooms is an important policy goal of the State, and that the Legislature appropriated \$100 million for heat abatement in the Regular Session of 2016. Your Committees additionally find that further heat abatement measures are

necessary to adequately provide an optimal learning environment for the State's students. Your Committees also find that the installation of energy efficient lighting and other fixtures can result in a reduction of waste heat and facilitate heat abatement.

Your Committees note that while the Department of Education may see a reduction in kilowatts/hour usage, there is a possibility for utility costs to increase in the event that energy prices increase in the future, for example through a rise in oil prices or other extraneous factors, resulting in reduced dollar savings despite a reduction in kilowatt/hour consumption.

Your Committees have amended this measure by:

- (1) Broadening the focus of heat abatement measures;
- (2) Specifying an appropriation amount from the Hawaii green infrastructure special fund of \$46,400,000, changing the purpose of the appropriation to financing installation costs for energy efficiency measures related to heat abatement, and changing the expending agency to the Hawaii green infrastructure authority;
- (3) Specifying a loan amount to the Department of Education of \$46,400,000 and removing the Department of Budget and Finance as a borrowing agency;
- (4) Requiring the Department of Education to submit an expenditure plan to the green infrastructure loan program administrator;
- (5) Removing the appropriation for an initial loan payment and instead requiring the Department of Education to begin repaying the loan using savings from reduced utility costs and other savings related to energy efficiency measures;
- (6) Amending the purpose section to more accurately reflect the purpose and intent; and
- (7) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Education and Transportation and Energy that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 957, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 957, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Education: Ayes, 4. Noes, none. Excused, 1 (Espero).

Transportation and Energy: Ayes, 4. Noes, none. Excused, 1 (Harimoto).

SCRep. 1137 (Joint) Education and Agriculture and Environment on H.B. No. 1577

The purpose and intent of this measure is to establish a composting pilot project in Department of Education schools.

Your Committees received testimony in support of this measure from the Department of Education, Kōkua Hawai'i Foundation, Surfriider Foundation Oahu Chapter, Hawaii Center for Food Safety, and seven individuals. Your Committees received comments on this measure from the Department of the Attorney General and Department of Agriculture.

Your Committees find that composting plays an integral role in food and agricultural sustainability by adding valuable nutrients to the soil. Your Committees further find that existing composting programs in Hawaii's public schools significantly reduce the amount of wet organic waste produced by participating schools that goes into landfills, and fosters leadership skills and environmental awareness in participating students. Your Committees additionally find that providing additional resources to expand composting programs to other public schools is in the interest of Hawaii's public school students and the State.

Your Committees have amended this measure by:

- (1) Removing the chairpersons of House of Representatives and Senate committees from the working group;
- (2) Adding a volunteer member of the community to the working group;
- (3) Establishing the composting grant pilot project working group within the Department of Education instead of the Department of Agriculture;
- (4) Requiring the Department of Education to adopt rules to administer and facilitate the composting grant pilot project; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Education and Agriculture and Environment that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 1577, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 1577, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Education: Ayes, 4. Noes, none. Excused, 1 (Dela Cruz).

Agriculture and Environment: Ayes, 3. Noes, none. Excused, 2 (Nishihara, Rhoads).

SCRep. 1138 (Joint) Public Safety, Intergovernmental, and Military Affairs and Economic Development, Tourism, and Technology on H.B. No. 625

The purpose and intent of this measure is to:

- (1) Establish a collocation permitting, application, review and approval process for telecommunications companies proposing to install broadband infrastructure on state or county structures, utility poles, light standards, or buildings; and

- (2) Establish the siting process for the installation of broadband infrastructure on state or county structures, utility poles, light standards, or buildings.

Your Committees received testimony in support of this measure from the Department of Business, Economic Development, and Tourism; Office of Planning; Department of Transportation; Chamber of Commerce Hawaii; Hawaiian Electric Company, Inc.; CTIA; Verizon; and one individual. Your Committees received testimony in opposition to this measure from the Airport Concessionaires Committee; Office of the Mayor for the City and County of Honolulu; Mayor, County of Hawaii; Department of Public Works, County of Hawaii; and Charter Communications. Your Committees received comments on this measure from Department of Commerce and Consumer Affairs and Hawaiian Telcom.

Your Committees find that efficient deployment of broadband infrastructure and technology is vital for positioning the State to remain competitive in a global economy. Advanced broadband infrastructure systems offer enhanced educational opportunities, telehealth capacity, safety and civil defense communications, economic competitiveness, consumer privileges, and tourism services. However, to provide all consumers with the benefits of advanced broadband technology, it is important to create a fair and predictable process for the deployment of small wireless facilities and small wireless facilities networks. Accordingly, this measure creates a process for the review and issuance of collocation permit applications for telecommunications companies seeking to install broadband infrastructure on utility poles, buildings, structures, or light standards owned by the State or county for the siting of small wireless facilities and wireless facilities networks.

Your Committees find that it is important for providers to bear the costs of necessary upgrades and the repair of any damage they may cause to state- or county-owned utility poles, light standards, buildings, or structures. Your Committees are concerned that this measure does not go far enough in holding small wireless facilities and small wireless facilities networks providers responsible for damage caused by or upgrades required for the siting of the providers' facilities.

Your Committees also understand the concerns raised by the Airport Concessionaires Committee regarding this measure's potential interference with newly executed concessions contracts with the airports. Consequently, it is important to ensure that this measure will not impact the airports or their contracts.

Your Committees also recognize the many concerns raised by the City and County of Honolulu, including: concerns for public safety; the scope of providers' abilities to place equipment on City-owned utility poles, structures, and light standards; the impacts on public use of rights-of-way; the decommissioning of abandoned wireless facilities; and interference from small wireless facilities with necessary government transmissions.

Accordingly, your Committees have amended this measure by:

- (1) Establishing a new chapter in title 15 of the Hawaii Revised Statutes relating to permits for broadband equipment and micro wireless facilities, and collocation of small wireless facilities and small wireless facilities networks applicable to state and county agencies;
- (2) Limiting the siting of small wireless facilities and small wireless facilities networks to only state-owned or county-owned utility poles, light standards, buildings, and structures;
- (3) Amending the application submission and evaluation requirements and application review process for a permitted use permit for installation of broadband equipment, small wireless facilities, and small wireless facilities networks on state-owned or county-owned utility poles, light standards, buildings, or structures;
- (4) Amending the conditions and restrictions that apply to the collocation of small wireless facilities and small wireless facilities networks on state-owned and county-owned utility poles, light standards, buildings, and structures, including but not limited to:
 - (A) Creating an exception for state-owned airport properties;
 - (B) Allowing the State or county to deny a permit due to health and public safety concerns;
 - (C) Amending the requirements for submitting a consolidated application to receive a single permit for a small wireless facilities network, rather than multiple permits for individual small wireless facilities;
 - (D) Establishing conditions under which a wireless provider may install an upgraded utility pole, light standard, building, or structure and specifying that the provider is responsible for the maintenance and repairs to its facilities on the utility pole, light standard, building, or structure and any damage caused to the utility pole, light standard, building, or structure;
 - (E) Authorizing the State or county to reserve space on its respective light standards and utility poles for up to twelve months under certain conditions; and
 - (F) Requiring wireless providers to decommission, and bear the costs of decommissioning, micro wireless facilities, small wireless facilities, and small wireless facilities network under certain conditions;
- (5) Adding definitions to sections 27-41.1 and 46-15.6, Hawaii Revised Statutes;
- (6) Inserting an effective date of May 22, 2050, to encourage further discussion; and
- (7) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Public Safety, Intergovernmental, and Military Affairs and Economic Development, Tourism, and Technology that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 625, H.D. 3, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 625, H.D. 3, S.D. 1, and be referred to your Committees on Commerce, Consumer Protection, and Health and Ways and Means.

Signed by the Chairs on behalf of the Committees.

Public Safety, Intergovernmental, and Military Affairs: Ayes, 4. Noes, none. Excused, 1 (Ihara).

Economic Development, Tourism, and Technology: Ayes, 5. Noes, none. Excused, none.

SCRep. 1139 Public Safety, Intergovernmental, and Military Affairs on H.B. No. 1129

The purpose and intent of this measure is to require the Department of Public Safety to develop policy and procedures to govern the processing of requests from deputy sheriffs performing special duty and to establish a compensation schedule for law enforcement services provided by deputy sheriffs performing special duty.

Your Committee received testimony in support of this measure from the Department of Labor and Industrial Relations; Department of Public Safety; Department of Taxation; Office of Elections; Stadium Authority; University of Hawai‘i; Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO; and three individuals.

Your Committee finds that the performance of special duty by deputy sheriffs is common and helps promote and maintain public safety. Special duty refers to jobs done by deputy sheriffs in a law enforcement capacity for governmental, community, and private events that are not under the direction of the Department of Public Safety. While deputy sheriffs regularly engage in special duty assignments, existing law does not authorize special duty. Therefore, there is no system in place for the Department of Public Safety to process special duty requests, nor is there a compensation schedule for special duty. Accordingly, this measure requires the Department of Public Safety to develop policy and procedures to govern the processing of special duty requests and establish a compensation schedule for deputy sheriffs performing special duty.

Your Committee also notes concerns about the issue of deputy sheriffs potentially using special duty to “spike”, or inflate, their pension and retirement benefits, which can lead to increased costs for the State. Your Committee suggests that if your Committee on Ways and Means decides to hear this measure, that it may want to further inquire into whether this measure may allow for the “spiking” of pensions or retirement benefits.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1129, H.D. 1, and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Ihara).

SCRep. 1140 (Joint) Transportation and Energy and Economic Development, Tourism, and Technology on H.B. No. 1044

The purpose and intent of this measure is to replace the Department of Business, Economic Development, and Tourism’s requirements related to the certification, administration, and verification of the renewable fuels production tax credit with a process that requires the taxpayer to submit a certified statement to the Department of Business, Economic Development, and Tourism.

Your Committees received testimony in support of this measure from the Department of Business, Economic Development, and Tourism; and Department of Taxation. Your Committees received testimony in opposition to this measure from one individual. Your Committees received comments on this measure from the Tax Foundation of Hawaii.

Your Committees find that creating a stronger market for renewable fuels is essential for helping the State develop a sustainable clean energy economy. Act 202, Session Laws of Hawaii 2016, established a renewable fuels production tax credit aimed in part at developing a stronger renewable fuels market. Act 202 also required the Department of Business, Economic Development, and Tourism to collect and verify data relating to actual renewable fuels production in the State. However, the Department lacks the necessary expertise and resources to effectively carry out Act 202’s mandates. Therefore, this measure replaces the Department’s requirements associated with the certification, administration, and verification of the renewable fuels production credit with a survey of the renewable fuels production tax credit which will still allow the Department of Business, Economic Development, and Tourism to assess the effectiveness of the tax credit and report its findings to the Governor and Legislature.

Your Committees, however, acknowledge the testimony of the Department of Business, Economic Development, and Tourism requesting that this measure be amended to better align the Department’s existing resources and expertise with this measure’s statutory requirements.

Accordingly, your Committees have amended this measure by:

- (1) Clarifying that the taxpayer claiming the renewable fuels production tax credit is required to file with the Department of Business, Economic Development, and Tourism an independent, third-party certified statement at the taxpayer’s sole expense;
- (2) Clarifying the information that a taxpayer claiming the renewable fuels production credit is to provide to the Department of Business, Economic Development, and Tourism;
- (3) Clarifying that the \$3,000,000 aggregate cap applies to a calendar year;
- (4) Clarifying the information that the Department of Business, Economic Development, and Tourism is required to make available for public inspection and dissemination pursuant to chapter 92F, Hawaii Revised Statutes; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Transportation and Energy and Economic Development, Tourism, and Technology that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 1044, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 1044, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Transportation and Energy: Ayes, 3. Noes, none. Excused, 2 (English, Harimoto).
Economic Development, Tourism, and Technology: Ayes, 4. Noes, none. Excused, 1 (Baker).

SCRep. 1141 (Joint) Transportation and Energy and Commerce, Consumer Protection, and Health on H.B. No. 1593

The purpose and intent of this measure is to:

- (1) Establish and appropriate funds for the clean energy savings jump start program, clean energy savings jump start fund, and energy storage system rebate program; and
- (2) Reduce some oversight over the green infrastructure loan program by eliminating the Public Utilities Commission's approval authority to help expedite loan dispersals from the program.

Your Committees received testimony in support of this measure from the Department of Business, Economic Development, and Tourism; Hawaii Green Infrastructure Authority; Healthy Climate Communities; PV Tech; Hawaii Energy Connection; Your Energy, Inc.; Photonworks Engineering; Renewable Energy Action Coalition of Hawaii; Energy Research Systems; Green Charge; Hawaii Energy Consulting, LLC; Distributed Energy Research Council; Sun King Hawaii; Advanced Microgrid Solutions; Stem, Inc.; Hawaii Solar Energy Association; Vivint Solar; Tesla Motors, Inc.; The Alliance for Solar Choice; We Are One, Inc.; Grand Solar Inc.; Solar Services Hawaii, LLP; Green Power Projects, LLC; and twenty-nine individuals. Your Committees received testimony in opposition to this measure from the Department of Commerce and Consumer Affairs, Ulupono Initiative, Hawaii Energy Policy Forum, and Sust-‘aina-ble Molokai. Your Committees received comments on this measure from the Department of Budget and Finance, State Procurement Office, Public Utilities Commission, Amber Kinetics, and one individual.

Your Committees find that the Hawaii green infrastructure loan program, established by the Legislature in 2013, has not been successful in assisting and supporting the widespread adoption of renewable energy systems in the State. The program has been particularly deficient in assisting low- to middle-income homeowners with the installation of solar photovoltaic equipment, even though that was a primarily intended benefit of the program. Moreover, the cost of the program's administration has far outpaced the small amount of funds actually deployed. Your Committees find that reducing some of the oversight of the program would encourage more rapid deployment of loans in furtherance of the program's intent. In addition, using dormant funds from the Hawaii green infrastructure loan program to create the clean energy savings jump start program will directly assist the State's low- to middle-income homeowners in line with the program's original intent.

However, your Committees acknowledge the testimony the Department of Commerce and Consumer Affairs and the Hawaii Energy Policy Forum regarding the potential high costs and other unintended consequences of the programs as established in this measure. Therefore, it is important to initially limit the funds available for these programs and to provide mechanisms for monitoring their effectiveness and future usefulness.

Your Committees also understand the concerns raised by the Hawaii Green Infrastructure Authority regarding energy storage systems eligible for rebates under the energy storage system rebate program. To ensure that rebates under the program facilitate investment in clean energy technology as intended, rebates for energy storage should only be provided when the eligible energy storage receives energy from a solar photovoltaic system and is connected to a utility grid.

Your Committees also recognize the testimony suggesting an amendment requiring that energy storage systems store electricity within a chemical or mechanical battery, such as flywheel energy storage. Your Committees intend for the clean energy savings jump start program and the energy storage system rebate program to be inclusive of many different technologies. However, your Committees understand that flywheel energy storage may not be connected to a utility grid and may be ineligible under the programs. Your Committees urge the Hawaii Green Infrastructure Authority to monitor flywheel energy storage technology as it develops to determine the appropriateness of its inclusion.

Accordingly, your Committees have amended this measure by:

- (1) Amending the definition of "eligible energy storage system" to clarify that energy storage systems eligible for rebates under the energy storage system rebate program are those systems that receive energy from a solar photovoltaic system; store the energy in chemical or mechanical batteries, such as flywheel energy storage; and are connected to a utility grid;
- (2) Establishing the energy storage system rebate program as a three-year pilot program to operate from January 1, 2018, to December 31, 2020;
- (3) Requiring the Green Infrastructure Authority to submit an annual report to the legislature detailing the energy storage system rebate pilot program's progress and activities, including details of all rebates distributed in accordance with the pilot program, no later than twenty days prior to the convening of each regular session;
- (4) Deleting the repeal of the requirement that the Green Infrastructure Authority submit to the Public Utilities Commission an annual plan, which includes the Authority's projected operation budget for the succeeding fiscal year, for review and approval no later than ninety days prior to the start of each fiscal year;
- (5) Appropriating \$20,000,000 for the clean energy savings jump start program and \$10,000,000 for the energy storage system rebate program; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Transportation and Energy and Commerce, Consumer Protection, and Health that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 1593, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 1593, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Transportation and Energy: Ayes, 3. Noes, none. Excused, 2 (English, Harimoto).
Commerce, Consumer Protection, and Health: Ayes, 7. Noes, none. Excused, none.

SCRep. 1142 Education on H.B. No. 672

The purpose and intent of this measure is to:

- (1) Establish the Hawaii keiki: healthy and ready to learn program within the Department of Education;
- (2) Establish a dedicated special fund for the program;
- (3) Establish positions within the Department of Health and Department of Human Services to support the program; and
- (4) Make appropriations to fund student health initiatives.

Your Committee received testimony in support of this measure from the Department of Education, Executive Office on Early Learning, University of Hawaii at Manoa School of Nursing and Dental Hygiene, State Public Charter School Commission, Hawaii State Center for Nursing, Hawaii State Teachers Association, Project Vision Hawaii, Hawaii Medical Service Association, Hawaii Youth Services Network, Hawaii Pacific Health, Kapiolani Child Protection Center, Hui for Excellence in Education, Planned Parenthood Votes Northwest and Hawaii, IMUAlliance, American Organization of Nurse Executives Hawaii, and fifteen individuals. Your Committee received testimony in opposition to this measure from the American Academy of Pediatrics Hawaii Chapter. Your Committee received comments on this measure from the Department of Health, Department of Budget and Finance, and Hawaii Primary Care Association.

Your Committee finds that the Hawaii keiki: healthy and ready to learn program has expanded access to health services for many of the State's students. Your Committee further finds that the partnerships that the Department of Education has formed with other state and private entities have created a foundation upon which an expanded program may be built. Your Committee additionally finds that an expanded program will be able to offer services in new areas of healthcare that students have not previously had access to in Hawaii's schools. This measure will formally establish and expand the Hawaii keiki: healthy and ready to learn program to offer improved access to healthcare to Hawaii's students.

Your Committee has amended this measure by:

- (1) Expanding the Hawaii keiki: healthy and ready to learn program to include pre-kindergarten;
- (2) Adding an appropriation for one full-time equivalent coordinator position within the Department of Education to help plan and coordinate the program; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 672, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 672, H.D. 2, S.D. 1, and be referred to your Committees on Commerce, Consumer Protection, and Health and Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Dela Cruz).

SCRep. 1143 (Majority) Commerce, Consumer Protection, and Health on H.B. No. 554

The purpose and intent of this measure is to:

- (1) Allow an administrative order to overcome a patient's objection to psychiatric treatment; and
- (2) Establish criteria for treatment over objection and the administrative authorization process for administratively ordering treatment over objection.

Your Committee received testimony in support of this measure from the Department of Health, Department of Public Safety, and The Queen's Health Systems. Your Committee received comments on this measure from one individual.

Your Committee finds that it is important for the initiation of treatment for patients admitted to the Hawaii State Hospital, which is used primarily for forensic commitments, to be expedient in order to address patients' psychiatric symptoms, which often generate a risk of safety to the patient and others. Expedient initiation of treatment will help maintain a safe and secure therapeutic environment for patients and staff, and have a positive impact on patients' length of stay.

Your Committee further finds that the current method to obtain an authorization to provide treatment over a patient's objection is by a judicial hearing. The time between petition and judicial hearing is on average nearly seventeen days but different for each case. Your Committee received testimony from the Department of Public Safety indicating that the slow judicial process can, at times, result in patient decompensation. Your Committee finds that other states have responded to the unpredictability and delay of waiting for court hearings by developing a non-judicial, administrative mechanism to review and authorize requests for treatment over a patient's objection. Your Committee notes the Department of Public Safety's willingness to implement an administrative process similar to the process proposed for the Department of Health in this measure to improve patient care by expediting the initiation of treatment for critically acute patients.

Accordingly, your Committee has amended this measure by:

- (1) Changing the criteria for issuance of a court or administrative order for treatment over objection from the patient being "physically dangerous" to the patient being "imminently dangerous" to self or others and including a definition of the phrase "imminently dangerous to self or others";

- (2) Inserting language to clarify that the safeguards established by the administrative authorization process are due process safeguards for patients;
- (3) Deleting existing language related to involuntary medical treatment criteria for inmate and detainees in the custody of the Department of Public Safety;
- (4) Inserting provisions to authorize a court or administrative order to overcome objection to psychiatric treatment for pretrial detainees and committed persons in the custody of the Department of Public Safety and establish criteria for the administrative authorization process for administratively ordering treatment over objection, including a definition of “imminently dangerous to self or others”; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 554, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 554, H.D. 1, S.D. 1, and be referred to your Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, 1 (Ruderman). Excused, 1 (Ihara).

SCRep. 1144 Commerce, Consumer Protection, and Health on H.B. No. 1245

The purpose and intent of this measure is to:

- (1) Limit liability for volunteers and nonprofit organizations, nonprofit corporations, or other entities that provide volunteers, who maintain or repair cemetery grounds;
- (2) Authorize the Director of Commerce and Consumer Affairs to access the Sunset Memorial Trust Fund to pay for the repair and maintenance of Sunset Memorial Park; and
- (3) Require the Director of Commerce and Consumer Affairs, in consultation with the Comptroller, to develop strategies for the upkeep, repair, and maintenance of Sunset Memorial Park and report to the Legislature.

Your Committee received testimony in support of this measure from the Department of Commerce and Consumer Affairs, Friends of Sunset Memorial Park, Pearl City Neighborhood Board, and nine individuals. Your Committee received testimony in opposition to this measure from the Hawaii Association for Justice. Your Committee received comments on this measure from the Department of Accounting and General Services.

Your Committee finds that Sunset Memorial Park in Pearl City, Oahu, has been neglected for years and has been the subject of numerous complaints from family members who have loved ones buried at the cemetery. Most of these complaints relate to issues surrounding the management and lack of maintenance at Sunset Memorial Park, which has been described as having a damaged mausoleum, sinking graves, and broken, missing, or obscured grave markers that are hidden by overgrown vegetation. Your Committee further finds that Sunset Memorial Park does not have an identified property owner and with very little money to maintain the cemetery, the site has deteriorated to such an extent that it has become a serious public safety hazard. Although family members and volunteers have expressed a strong willingness to assist with the upkeep and maintenance of Sunset Memorial Park, many are concerned about potential liability issues.

Your Committee additionally finds that the Department of Commerce and Consumer Affairs (Department) has been actively working with community members and area legislators to find short- and long-term solutions to the issues affecting Sunset Memorial Park. The Department indicated in testimony before your Committee that it supports this measure’s creation of a special cemetery volunteer liability protection law, which will encourage members of the public who wish to volunteer on Sunset Memorial Park grounds without fear of liability resulting from their charitable activities. However, the Department indicated some concerns relating to a possible state takeover of the park or the utilization of perpetual care funds by the Department, and noted it may be best to focus on solutions that would leave the State’s current private cemetery operator licensing model in place. Your Committee appreciates these concerns and concludes amendments to this measure are necessary.

Your Committee has amended this measure by:

- (1) Removing the requirement for the Director of Commerce and Consumer Affairs to examine all options for repairing and maintaining Sunset Memorial Park, including the feasibility of having the State take ownership of the park;
- (2) Removing language that would have permitted the Director of Commerce and Consumer Affairs to access the Sunset Memorial Trust Fund to address repair and maintenance issues associated with Sunset Memorial Park;
- (3) Updating the purpose section to reflect the amended purpose; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1245, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1245, H.D. 2, S.D. 1, and be referred to your Committees on Judiciary and Labor and Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 2 (Ihara, Ruderman).

SCRep. 1145 (Joint) Commerce, Consumer Protection, and Health and Public Safety, Intergovernmental, and Military Affairs on H.B. No. 913

The purpose and intent of this measure is to provide benefits for individuals who are or have previous service as a federal, state, or county firefighter in the State and develop cancer. Specifically, this measure:

- (1) Creates a rebuttable presumption that the cancer arose out of and in the course of employment as a firefighter and establishes the presumption in perpetuity following termination of service as a firefighter;
- (2) Provides access to medical coverage for cancer treatment;
- (3) Creates a process separate from the existing workers' compensation system under chapter 386, Hawaii Revised Statutes, to be used to access certain benefits due to lost wages or death due to the cancer; and
- (4) Authorizes the awarding of certain retirement benefits for disability or death due to the cancer if certain conditions are met.

Your Committees received testimony in support of this measure from the State Fire Council, Maui Fire Department, Kauai Fire Department, Office of the Mayor of the County of Hawai'i, State of Hawaii Organization of Police Officers, Hawaii Fire Fighters Association, and two individuals. Your Committees received testimony in opposition to this measure from the Employees' Retirement System. Your Committees received comments on this measure from the Department of Labor and Industrial Relations, Department of Human Resources of the City and County of Honolulu, Hawaii Medical Association, and one individual.

Your Committees find that H.C.R. No. 32, H.D. 1, S.D. 1, Regular Session of 2016, requested the convening of a task force to examine cancer in the firefighting profession. Among other things, the task force found that states nationwide are beginning to provide medical coverage for occupational diseases. For example, Arizona, California, Nevada, North Dakota, and Virginia have legislation that specifically mentions coverage of occupational diseases for firefighters due to the higher risks of contaminant exposure. Your Committees find that providing sufficient medical coverage for firefighters not only ensures that firefighters receive proper medical treatment in a timely manner, but also lessens the impact of emotional toil, financial burdens, and decreased quality of life on the families of firefighters diagnosed with cancer.

Your Committees further find that fire departments are expected to use the best equipment and management practices available, and to be vigilant with obtaining regular medical exams, so that diseases such as cancer are caught early. Efforts at prevention and detection must be a collaboration of individual efforts and the State and counties working to protect and care for the people who keep our communities safe.

Your Committees note that the benefits provided to firefighters in this measure are not an enhanced benefit or a new benefit. Rather, this measure intends to provide firefighters who develop cancer with a way to obtain accelerated access to benefits that is more efficient than applying for workers' compensation and allows firefighters to receive timely, appropriate medical care from healthcare providers who specialize in cancer treatment. Your Committees highlight the data demonstrating that Hawaii's firefighters are at higher risk of cancer and that Hawaii should follow other states across the country that are taking steps to provide benefits that adequately address the risks and conditions that firefighters submit themselves to for the sake of the safety of the community.

Your Committees have amended this measure by adding language to the purpose section to reference studies that demonstrate firefighters have higher rates of disease than the general population, the responsibility of fire departments and fire fighters to obtain medical screenings and develop best practices to detect cancer and other diseases as early as possible, and clarify the intent of this measure.

As affirmed by the records of votes of the members of your Committees on Commerce, Consumer Protection, and Health and Public Safety, Intergovernmental, and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 913, H.D. 2, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 913, H.D. 2, S.D. 1, and be referred to your Committees on Judiciary and Labor and Ways and Means.

Signed by the Chairs on behalf of the Committees.

Commerce, Consumer Protection, and Health: Ayes, 4. Noes, none. Excused, 3 (Espero, Kidani, Ruderman).

Public Safety, Intergovernmental, and Military Affairs: Ayes, 4. Noes, none. Excused, 1 (Wakai).

SCRep. 1146 Judiciary and Labor on H.B. No. 4

The purpose and intent of this measure is to require employers to provide a minimum level of paid sick leave, including time for family care, for certain employees.

Your Committee received testimony in support of this measure from the Hawaii State AFL-CIO; International Brotherhood of Electrical Workers Local 1260, AFL-CIO; ILWU Local 142; IOMM & P; LGBT Caucus of the Democratic Party of Hawaii; Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO; Democratic Party of Hawaii; and eight individuals. Your Committee received testimony in opposition to this measure from the Department of Human Resources Development; City and County of Honolulu Department of Human Resources; Chamber of Commerce Hawaii; Hawaii Food Industry Association; Hawaii Restaurant Association; Retail Merchants of Hawaii; National Federation of Independent Business; Society for Human Resource Management-Hawaii Chapter; Motion Picture Association of America, Inc.; Maui Chamber of Commerce; Maui Hotel & Lodging Association; Duke's Kauai; Duke's Beach House Maui; Duke's Waikiki; Gray, Hong, Nojima, & Associates, Inc.; REI Food Service, LLC d.b.a. Gyotaku Japanese Restaurants; Hula Grill Kaanapali; Hula Grill Waikiki; Kalaheo Coffee Co., Inc.; Keoki's Paradise; Kimo's; Koa Pancake House and Koa Cafe LLC; Leilani's on the Beach; PacRim Marketing Group, Inc.; PRTech, LLC; PVT Land Company Ltd.; Tiki's Grill & Bar; Yogi Kwong Engineers, LLC; YK Drilling, LLC; Egg 'n Things; Fair Wind, Inc.; and one individual. Your Committee received comments on this measure from the Department of Labor and Industrial Relations, Department of Health, Hawaii State Commission on the Status of Women, Policy Advisory Board for Elder Affairs, Hawaii Appleseed Center for Law and Economic Justice, Hawaii Children's Action Network, and Il Gelato Hawaii.

Your Committee finds that employees who presently lack sick leave benefits may work while sick for purposes of diminishing any potential financial hardships or to avoid disciplinary action by an employer, which may exacerbate their illness or place co-workers and the public at risk if their illness is contagious. Your Committee finds that it is in the interest of the health and safety of employees and the public that employees be allotted paid sick leave to care for themselves or family members to promote recovery and mitigate the spread of illnesses.

Your Committee recognizes that, unlike the situation of employees without representation, bargaining between an employer and a labor organization balances wages, benefits, including paid leave provisions, and other items within the scope of negotiations in the employee package covered and made available under a collective bargaining agreement. Therefore, your Committee finds it appropriate that parties who are subject to collective bargaining agreements may waive the paid leave requirements proposed in this measure under terms negotiated under such agreements.

Your Committee has amended this measure by:

- (1) As recommended by the Department of Labor and Industrial Relations:
 - (A) Specifying that paid sick leave is not payable for the period in which the employee is entitled to temporary total disability or temporary partial disability benefits under chapter 386, Hawaii Revised Statutes, or temporary disability insurance benefits under chapter 392, Hawaii Revised Statutes; and
 - (B) Deleting the requirement for the Director of Labor and Industrial Relations to create and make posters available;
- (2) Inserting language to allow parties subject to a collective bargaining agreement to waive the paid sick leave under the terms and conditions of the collective bargaining agreement;
- (3) Inserting an effective date of January 7, 2059, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

Your Committee notes that the Department of Labor and Industrial Relations raised concerns regarding the definition of “employer” and included the December 2015 employment report on reporting units and employment by size of firm in its testimony. Your Committee recommends that consideration be given to the Department’s concerns and that the employment report be referenced when considering the scope of the number of employees to fill in the blanks in this measure as it progresses through the legislative process. Additionally, your Committee recommends that consideration be given to whether the payment of some amount over minimum wage should be the point at which paid sick leave is not required and whether paid sick leave should be considered part of an employee’s compensation.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 4, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 4, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5; Ayes with Reservations (Kim). Noes, none. Excused, none.

SCRep. 1147 Judiciary and Labor on H.B. No. 1022

The purpose and intent of this measure is to appropriate funds to satisfy several claims against the State, its officers, or its employees, including claims for legislative relief, judgments against the State, settlements, and other miscellaneous claims.

Your Committee received testimony in support of this measure from the Department of the Attorney General.

Your Committee finds that this measure requests a total of \$671,102.09 in appropriations from the general fund to satisfy twelve claims against the State, a total of \$5,552,020.44 in appropriations from the state highway fund to satisfy three claims against the State, and a total of \$116,000.00 in appropriations from the harbor special fund to satisfy one claim against the State. The grand total for the sixteen claims settled in this measure as received by your Committee is \$6,339,122.53. Timely passage of this measure will minimize the State’s obligation to pay interest on those amounts.

Your Committee notes the written testimony submitted by the Department of the Attorney General, which requests the addition of eleven new claims that have been resolved since this measure was introduced. The addition of ten new claims results in a total of \$4,940,309.70 in appropriations needed from the general fund and one new claim totaling \$95,000.00 in appropriations from the state highway fund.

Your Committee has concerns regarding the general fund appropriation amount of \$1,000,000 for *Bridge Aina Le’a v. State of Hawaii Land Use Commission* requested by the Department of the Attorney General and notes that reducing the requested amount to \$1.00 will encourage further discussion as this measure moves through the legislative process.

Accordingly, your Committee has amended this measure by:

- (1) Adding general fund appropriations for ten claims totaling \$3,940,310.70 and state highway fund appropriation for one claim totaling \$95,000.00, which increases the grand total of appropriations in this measure to \$10,374,433.23 in order to satisfy a total of twenty-seven claims against the State, its officers, or its employees;
- (2) Inserting an effective date of January 7, 2059, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1022, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1022, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Kim).

SCRep. 1148 (Joint) Water and Land and Commerce, Consumer Protection, and Health on H.B. No. 1304

The purpose and intent of this measure is to:

- (1) Require a permit from the Department of Land and Natural Resources before holding a regatta, marine parade, or surfing contest, unless prior authorization has been secured from the Coast Guard;
- (2) Allow the Department of Land and Natural Resources to assess and collect a fee for processing permits;
- (3) Require permit applications to be submitted no less than forty-five days prior before the start of the proposed event; and
- (4) Require the Department of Land and Natural Resources to approve or deny a permit within thirty days of receiving a completed application or, if the Department does not do so, deem the application to be approved.

Your Committees received testimony in support of this measure from Handsome Bugga Productions, Pailolo SUP Sports LLC, and two individuals. Your Committees received testimony in opposition to this measure from the Department of Land and Natural Resources.

Your Committees find that regattas, marine parades, and surfing contests are events that promote the State's natural beauty and ocean resources and generate community and international goodwill. Your Committees further find that establishing a permit process as proposed by this measure will encourage responsible planning and preparation of events, and balance the needs and resources of permit applicants and the State in issuing the permits.

Your Committees have amended this measure by:

- (1) Allowing permit applications to be submitted up to one year before the start of a proposed event;
- (2) Clarifying that the Department of Land and Natural Resources shall use its best efforts to approve or deny a permit within thirty days of receiving a completed application;
- (3) Removing the provision that an application is deemed approved if the completed application is not approved or denied within thirty days of submission;
- (4) Requiring the Department of Land and Natural Resources to collect a \$250 deposit that is nonrefundable if an event is cancelled within sixty days of the start of the event;
- (5) Clarifying that the Department of Land and Natural Resources may, rather than shall, adopt rules necessary to effectuate this measure; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Water and Land and Commerce, Consumer Protection, and Health that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 1304, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 1304, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
Water and Land: Ayes, 3. Noes, none. Excused, 2 (Gabbard, Thielen).
Commerce, Consumer Protection, and Health: Ayes, 4. Noes, none. Excused, 3 (Ihara, Kidani, Nishihara).

SCRep. 1149 (Joint) Economic Development, Tourism, and Technology and Water and Land on H.B. No. 1479

The purpose and intent of this measure is to:

- (1) Establish the Hilo Community Economic Development District as a community development district under the Hawaii Community Development Authority (HCDA);
- (2) Establish guidance policies and lease restrictions for the Hilo Community Economic Development District;
- (3) Establish a Hilo community economic revolving fund to collect revenue, income, and receipts of the HCDA for the Hilo Community Economic Development District, to be expended for the District, except for a portion to be transferred to the special land and development fund;
- (4) Subject the measure to any laws that provides for the Office of Hawaiian Affairs' pro rata portion of the public land trust;
- (5) Require the Governor to appoint three voting members to the HCDA to represent the Hilo Community Economic Development District and establish the HCDA members who may be considered in determining quorum and majority for matters affecting the District; and
- (6) Appropriate funds for the establishment and administration of the Hilo Community Economic Development District, including the hiring of staff and operating costs.

Your Committees received testimony in support of this measure from the ILWU Local 142, Hawaii LECET, Hilo Medical Center, Chika Nakano Repair Shop, KIAA, Hawaii Island REALTORS, Hawaii Government Employees Association, and twenty-three individuals. Your Committees received comments on this measure from Department of Budget and Finance and County of Hawaii Planning Department.

Prior to the hearing on this measure, your Committees posted and made available for public review a proposed S.D. 1, which amends this measure by:

- (1) Changing the name of the district to the Hilo Community Economic District (District);
- (2) Amending the boundaries of the District;
- (3) Requiring seven, rather than three, members to be appointed by the Governor as voting members of the HCDA to represent the District and amending the requirements for those members;
- (4) Amending the lease restrictions for the District;
- (5) Amending the portion of revenue, income, and receipts in the Hilo community economic revolving fund to be transferred to the special land and development fund;
- (6) Deleting language that subjected the measure to any laws that provides for the Office of Hawaiian Affairs' pro rata portion of the public land trust;
- (7) Deleting the appropriation;
- (8) Inserting language to require the HCDA to engage in discussions with the County of Hawaii to determine the feasibility of the County of Hawaii assuming redevelopment powers and duties over the lands within the District as a redevelopment area or establishing a special improvement district that encompasses the lands within the District; and
- (9) Inserting a sunset date of the earliest of June 30, 2037; the inclusion of the lands within the District within a redevelopment area; or the establishment of a special improvement district that encompasses the lands within the District.

Your Committees received testimony in support of the proposed S.D. 1 from the University of Hawaii System, Chamber of Commerce Hawaii, and McCully Works. Your Committees received comments on the proposed S.D. 1 from the Department of Land and Natural Resources and Hawaii Community Development Authority.

Your Committees find that the State has a fiduciary duty to manage state lands in the best interests of the public by enhancing state revenues and promoting the social, environmental, and economic well-being of Hawaii's people. As the majority landowner in East Hawaii, the State has an enormous influence on the vision, economic development, and overall success of the East Hawaii community. Your Committees further find that Hilo has the potential for increased growth that can improve workforce and affordable housing, parks and open space, public facilities, and commercial, industrial, and hotel facilities. Your Committees conclude that the establishment of the seven representatives on the HCDA and amendments contained in the proposed S.D. 1 will help support crucial economic growth and development in the Hilo area.

Your Committees have amended this measure by adopting the proposed S.D. 1 and further amending the measure by:

- (1) Inserting language to require HCDA, prior to granting or renewing a lease of land within the District that was or is currently leased for a term of sixty-five years in the aggregate, to dispose of the land at public auction, and to allow the relinquishing lessee to bid on the new lease; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Economic Development, Tourism, and Technology and Water and Land that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 1479, H.D. 2, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 1479, H.D. 2, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Economic Development, Tourism, and Technology: Ayes, 3. Noes, none. Excused, 2 (Baker, Taniguchi).

Water and Land: Ayes, 3; Ayes with Reservations (Inouye). Noes, none. Excused, 2 (Gabbard, Kim).

SCRep. 1150 (Joint) Economic Development, Tourism, and Technology and Water and Land on H.B. No. 1469

The purpose and intent of this measure is to authorize the Legislature to designate areas of commercial, industrial, resort, and hotel parcels in need of revitalization and to establish guidelines and planning committees for the redevelopment of those parcels.

Your Committees received testimony in support of this measure from Hawaii LECET; Hawaii Electric Light Company; KIAA; HPM Building Supply; Big Island Toyota, Inc./De Luz Chevrolet; and eight individuals. Your Committees received testimony in opposition to this measure from the Office of Hawaiian Affairs, Hawaii Advocates for Consumer Rights, Life of the Land, Common Cause Hawaii, Sierra Club of Hawaii, and ten individuals. Your Committees received comments on this measure from the Department of Land and Natural Resources, Department of Budget and Finance, Hawaii Tourism Authority, County of Hawaii Planning Department, and one individual.

Your Committees find that among the classes of public lands managed by the Department of Land and Natural Resources are commercial, industrial, hotel, and resort lands. However, due to restrictions imposed by various land management policies, there is little incentive for lessees of various parcels to make improvements to the leased parcels. Your Committees further find that identifying areas in need of improvement and establishing guidelines for revitalization could help create revenue-generating potential and economic development for various land parcels.

Your Committees note that H.B. No. 1310, H.D. 1, Regular Session of 2017, establishes the Waiakea Peninsula Redevelopment District, and is dependent on the passage of this measure. Your Committees conclude that the language of H.B. No. 1310, H.D. 1, should be added to this measure for efficiency purposes of consistency and clarity.

Your Committees have amended this measure by:

- (1) Removing section 4, which would have required every lease issued by the Board of Land and Natural Resources to contain the exact commencement and termination dates for the lease, and the term and type of notice required to exercise any renewal option;
- (2) Removing section 5, which would have amended restrictions on renewal of lease terms for public lands, expanded the types of leases to which the restrictions apply, and allowed indefinite extensions of lease terms for certain lands;
- (3) Inserting the contents of H.B. No. 1310, H.D. 1, which:
 - (A) Establishes the Waiakea Peninsula Redevelopment District;
 - (B) Creates the Waiakea Peninsula Redevelopment District Planning Committee; and
 - (C) Establishes the Waiakea Peninsula Redevelopment District Revolving Fund; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Economic Development, Tourism, and Technology and Water and Land that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 1469, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 1469, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Economic Development, Tourism, and Technology: Ayes, 3. Noes, none. Excused, 2 (Baker, Taniguchi).

Water and Land: Ayes, 3; Ayes with Reservations (Inouye). Noes, none. Excused, 2 (Gabbard, Kim).

SCRep. 1151 Economic Development, Tourism, and Technology on H.B. No. 597

The purpose and intent of this measure is to authorize the establishment within the Department of Business, Economic Development, and Tourism of one full-time equivalent (1.00 FTE) permanent broadband coordinator position, require the coordinator to create a state broadband plan, and appropriate funds for these purposes.

Your Committee received testimony in support of this measure from the Department of Business, Economic Development, and Tourism; Mobilitee; and one individual.

Your Committee finds that the State lacks a plan to capitalize on fast-evolving broadband technology that will improve the State's outcomes in information access, economic development, education, and communications. Your Committee further finds that the establishment of a full-time equivalent permanent broadband coordinator position and creation of a state broadband plan are crucial to developing the broadband technology opportunities in the State.

As affirmed by the record of votes of the members of your Committee on Economic Development, Tourism, and Technology that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 597, H.D. 1 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Baker).

SCRep. 1152 Economic Development, Tourism, and Technology on H.B. No. 975

The purpose and intent of this measure is to create an advisory council for global economic competitiveness to advise the Director of Business, Economic Development, and Tourism and other state officials on policy additions and changes to help attract more foreign direct investment and increase Hawaii exports abroad.

Your Committee received testimony in support of this measure from one individual. Your Committee received comments on this measure from the Department of Business, Economic Development, and Tourism.

Your Committee finds that economic globalization, which is the increasing economic integration and interdependence of national, state, and local economies, is occurring by way of increasing trade in goods and services, the sharing and growth of technology and capital, and increasing cross-border investment. In order to achieve a successful economic future, the State must inevitably compete in the global economy by promoting Hawaii exports overseas and attracting more foreign direct investment. Your Committee further finds that attraction of foreign direct investment to the State creates local jobs and supports local economic growth.

As affirmed by the record of votes of the members of your Committee on Economic Development, Tourism, and Technology that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 975, H.D. 1 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 1153 Economic Development, Tourism, and Technology on H.B. No. 1329

The purpose and intent of this measure is to appropriate funds for grants to participants in the 2017 and 2018 Hawaii annual code challenges so that the proof of concepts created during the challenges can be developed into prototypes.

Your Committee received testimony in support of this measure from the State of Hawaii Office of Enterprise Technology Services, High Technology Development Corporation, Civil Beat Law Center for the Public Interest, Transform Hawaii Government, Hawaii Open Data, Data House, Dev League LLC, Street Grindz, Tapiki, Box Jelly, Purple Mai'a Foundation, and nine individuals.

Your Committee finds that government entities often do not have the resources or organizational culture to develop innovative technological advances or solutions to complex problems. To address this shortfall, communities and government entities have

increasingly collaborated to present events where software developers compete for prizes by creating proof of concepts to address a specified challenge. Your Committee further finds that funds for grants to participants in the 2017 and 2018 Hawaii challenges is an important investment for the State, as these events often lead to the discovery of new ways to leverage existing government platforms into expanded services for the public.

Your Committee has amended this measure by:

- (1) Changing all references, except the first reference in the purpose section, of “Hawaii annual code challenge” to “application challenge”;
- (2) Adding a definition of “application” to mean the apps or applications that result from the application challenges, including but not limited to the broad categories of web apps, mobile apps, computing devices, sensors, augmented reality, and virtual reality;
- (3) Adding a definition of “application challenge” to generally refer to events that bring teams together to collaborate and innovate solutions for a given theme or problem set; examples of events include the Hawaii Annual Code Challenge, AT&T Hackathon, and Reboot the Commute; and
- (4) Clarifying that grants issued pursuant to this measure to help convert proof of concepts into prototypes must be issued only for prototypes suitable for local and state government use, rather than corporate or consumer use.

As affirmed by the record of votes of the members of your Committee on Economic Development, Tourism, and Technology that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1329, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1329, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Baker).

SCRep. 1154 (Joint) Economic Development, Tourism, and Technology and Public Safety, Intergovernmental, and Military Affairs on H.B. No. 1471

The purpose and intent of this measure is to:

- (1) Require large transient accommodations brokers and permit all transient accommodations brokers to register as tax collection agents to collect and remit general excise and transient accommodations taxes on behalf of operators and plan managers using their services;
- (2) Ensure that the subject properties are in compliance with applicable land use laws;
- (3) Create a definition of “large transient accommodations broker”;
- (4) Allocate \$4,000,000 of transient accommodations tax revenue to the counties for compliance and enforcement of county ordinances regulating transient vacation rentals.

Your Committees received testimony in support of this measure from the Maui Chamber of Commerce, AirBNB, Hawaii Appleseed Center for Law and Justice, and fifteen individuals. Your Committees received testimony in opposition to this measure from the County of Kauai Planning Department; County of Kauai Office of the Prosecuting Attorney; Kailua Neighborhood Board; National Federation of Filipino American Association; Filipino American Citizens League; Rental by Owner Awareness Association; Nursing Advocates & Mentors, Inc.; Hawaii Alliance for Progressive Action; Young Progressives Demanding Action; Outrigger Enterprises Group; and eighty-five individuals. Your Committees received comments on this measure from the Department of the Attorney General, Department of Taxation, Maui Hotel and Lodging Association, Land Use Research Foundation of Hawaii, Tax Foundation of Hawaii, Save Oahu’s Neighborhoods, and three individuals.

Prior to the hearing on this measure, your Committees posted and made available for public review a proposed S.D. 1, which amends this measure by:

- (1) Deleting its contents and inserting the contents of S.B. No. 1281, Regular Session of 2017, which, among other things:
 - (A) Allows transient accommodations brokers to register as general excise and transient accommodations tax collection agents on behalf of their operators and plan managers;
 - (B) Requires registered transient accommodations broker tax collection agents’ operators and plan managers to obtain general excise tax licensure and transient accommodations tax registration;
 - (C) Requires all registered transient accommodations broker tax collection agents to inquire and ensure that the transient accommodation is in compliance with all pertinent state and county land use laws;
 - (D) Requires operators and plan managers to provide verification of compliance with county land use laws in the form of a written certification, verification, or permit issued by the appropriate county agency; and
 - (E) Makes the measure effective upon approval and applicable to taxable years beginning after December 31, 2017;
- (2) Requiring that transient accommodations broker tax collections agents file periodic returns in accordance with sections 237D-6, Hawaii Revised Statutes, and annual returns in accordance with section 237D-7, Hawaii Revised Statutes, and that the returns shall include reporting information, including but not limited to the name, address, and transient accommodations tax number of each operator and plan manager;

- (3) Requiring a transient accommodations broker to remove advertisements for transient accommodations located in the State for which the operator or plan manager fails to comply with requirements or for which the transient accommodations broker has received written notice that the operator or plan manager has failed to comply with applicable land use, zoning, or tax requirements; and
- (4) Clarifying that the measure is not intended to preempt or otherwise limit the authority of counties to adopt, monitor, and enforce local land use regulations, nor is the measure intended to transfer the authority to monitor and enforce such regulations away from the counties.

Your Committees received testimony in support of the proposed S.D. 1 from the City and County of Honolulu Department of Planning and Permitting, Hawaii Lodging and Tourism Association, Maui Hotel and Lodging Association, Outrigger Enterprises Group, and two individuals. Your Committees received testimony in opposition to the proposed S.D. 1 from the Rental by Owner Awareness Association, Aina Haina Community Association, Internet Association, and ILWU Local 142. Your Committees received comments on the proposed S.D. 1 from the Department of the Attorney General, Department of Taxation, Office of Hawaiian Affairs, Hawaii Tourism Authority, AirBNB, American Hotel and Lodging Association, Keep it Kailua, Unite Here! Local 5 Hawaii, Kyoya Management Company, and two individuals.

Your Committees find that allowing internet platforms to collect and remit general excise and transient accommodations taxes for its users will generate millions of dollars in tax revenue for the State of Hawaii. Your Committees further find that this measure will also ensure that all operators and plan managers pay their share of taxes while also creating standards to ensure compliance with land use ordinances and regulations.

Your Committees have amended this measure by adopting the proposed S.D. 1 and further amending this measure by:

- (1) Requiring that each periodic tax return be accompanied by an electronic cover sheet, in a form prescribed by the Department of Taxation, that includes the following information:
 - (A) For each operator and plan manager on whose behalf the transient accommodations broker tax collection agent is required to report, collect, and pay over taxes, the operator's or plan manager's name, address, and license identification number; and
 - (B) For each transient accommodation rented through the registered transient accommodations broker tax collection agent or the website or platform designated in the certificate of registration and for which taxes are being remitted:
 - (i) The address of the transient accommodation;
 - (ii) The number of nights for which each transient accommodation was rented and the rate or price at which each transient accommodation was rented; and
 - (iii) The amount of tax being remitted pursuant to this chapter and the amount of any federal form 1099 income that was derived from each transient accommodation;
- (2) Providing that the Director of Taxation and county official designated by the mayor to receive information contained in returns shall be deemed to be persons with a material interest in the return and return information and may examine the returns and cover sheet to ensure compliance with this measure, state and local tax laws and ordinances, and any applicable land use laws and ordinances;
- (3) Requiring the operator or plan manager to provide a statement confirming compliance with all land use laws to the transient accommodations broker tax collection agent;
- (4) Clarifying that nothing in sections 2 and 3 shall be construed to preempt or prohibit the authority of a unit of local government in the State, including counties and any other political subdivisions of the State, to adopt, monitor, and enforce local land use regulations, nor to transfer the authority to monitor and enforce such regulations away from the counties;
- (5) Changing the licensure reference for purposes of the general excise tax in section 2 from "separate certificates of registration" to "separate licenses" to match the statutory language of the general excise tax;
- (6) Correcting references to general excise tax returns in section 2 to correspond to the general excise tax statute;
- (7) Clarifying that all obligations, rights, and responsibilities imposed shall apply jointly to operators and plan managers and to transient accommodations broker tax collection agents under this measure;
- (8) Inserting language to require the Director of Taxation to transfer to any county, upon establishment of a process for providing verification of compliance by an operator or plan manager with that county's land use laws, an unspecified percentage of transient accommodations and general excise taxes collected;
- (9) Inserting an effective date of May 22, 2050, to encourage further discussion; and
- (10) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Economic Development, Tourism, and Technology and Public Safety, Intergovernmental, and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 1471, H.D. 3, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 1471, H.D. 3, S.D. 1, and be referred to your Committees on Commerce, Consumer Protection, and Health and Ways and Means.

Signed by the Chairs on behalf of the Committees.

Economic Development, Tourism, and Technology: Ayes, 5. Noes, none. Excused, none.

Public Safety, Intergovernmental, and Military Affairs: Ayes, 5. Noes, none. Excused, none.

SCRep. 1155 Economic Development, Tourism, and Technology on H.B. No. 423

The purpose and intent of this measure is to amend the motion picture, digital media, and film production income tax credit by:

- (1) Providing additional options to claim a workforce development tax credit of either:
 - (A) Ten per cent of qualified payroll costs for local hires; or
 - (B) Thirty-five per cent of qualified production costs of a qualified production that employs a crew of which at least fifty-five per cent are local workers,
incurred in a county with a population of seven hundred thousand or less;
- (2) Granting a production the option of providing alternative marketing opportunities to the State as a condition of claiming the credit;
- (3) Requiring evidence that reasonable efforts to hire local personnel and acquire products and services locally were unsuccessful as a condition of claiming the tax credit for out-of-state products and services;
- (4) Requiring a verification review of the information submitted to the Department of Business, Economic Development, and Tourism for determination of credit amounts; and
- (5) Extending the repeal of the credit until January 1, 2024.

Your Committee received testimony in support of this measure from the Department of Business, Economic Development, and Tourism; Motion Picture Association of America; NBC Universal Media; and twenty-one individuals. Your Committee received comments on this measure from the Department of Taxation, Office of the Auditor, and Tax Foundation of Hawaii.

Your Committee finds that this measure is intended to extend the sunset date of the motion picture, digital media, and film production income tax credit and to increase the credit incentive for qualified production costs in counties other than Honolulu. Your Committee heard the concerns raised in testimony, including whether the increased tax incentive would be beneficial and whether neighbor islands are equipped to advance additional productions at this time.

Your Committee understands these concerns and notes that S.B. No. 1086, S.D. 2 (Regular Session of 2017), which was previously passed by the Senate, also relates to the motion picture, digital media, and film production income tax credit. Your Committee finds that the language in S.B. No. 1086, S.D. 2, is preferable because it extends the sunset date of the motion picture, digital media, and film production income tax credit while also expanding the tax credit to promote opportunities for Hawaii residents and to maintain cultural sensitivity standards of productions taking place in Hawaii.

Your Committee has amended this measure by:

- (1) Deleting its contents and inserting the contents of S.B. No. 1086, S.D. 2, which:
 - (A) Extends the motion picture, digital media, and film production income tax credit for an additional five years;
 - (B) Clarifies that qualifying production costs are those costs incurred and expended within the State;
 - (C) Requires that to qualify for the tax credit, a production must provide evidence of recognition, ability to understand, and efforts to respect and comply with cultural and environmental sensitivities and guidelines for filming in sensitive locations;
 - (D) Requires that to qualify for the tax credit, a production must employ or contract for the services of cultural resources or historical, cultural, or language experts to advise the production;
 - (E) Requires that to qualify for the tax credit, a production must agree that if the production claims a credit of more than \$8,000,000, the production will provide an advanced screening of the finished product in the county of the island in which the majority of the production took place;
 - (F) Requires the Department of Business, Economic Development, and Tourism to submit an annual report to the Legislature regarding the activities and expenditures of the tax credit;
 - (G) Clarifies that no rule shall be adopted to expand the scope of the tax credit where the rule conflicts with legislative intent;
 - (H) Requires the Department of Business, Economic Development, and Tourism to conduct a financial audit of every film production in the State;
 - (I) Requires the Department of Business, Economic Development, and Tourism, in collaboration with Department of Taxation, to submit to the Governor and the Legislature a report on the number of jobs created in the State and the fiscal impact of every film production receiving the tax credit in the State; and
 - (J) Takes effect on July 1, 2050, with the amendments to the tax credit to apply to taxable years beginning after December 31, 2050; and
- (2) Removing the aggregated annual cap of \$30,000,000 per calendar year for the credit.

As affirmed by the record of votes of the members of your Committee on Economic Development, Tourism, and Technology that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 423, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 423, H.D. 2, S.D. 1, and be referred to your Committees on Ways and Means and Judiciary and Labor.

Signed by the Chair on behalf of the Committee.

Ayes, 5; Ayes with Reservations (Baker). Noes, none. Excused, none.

SCRep. 1156 Economic Development, Tourism, and Technology on H.B. No. 590

The purpose and intent of this measure is to:

- (1) Establish a Hawaii Creative Industries Advisory Group within the Department of Business, Economic Development, and Tourism to support the development of creative and media industries;
- (2) Repeal the Hawaii Television and Film Development Board, which has been inactive for approximately ten years, along with the grant and venture capital programs that were implemented by the board;
- (3) Rename the Hawaii television and film development special fund as the creative media and film infrastructure special fund;
- (4) Broaden the sources of revenue for the creative media and film infrastructure special fund;
- (5) Amend the purposes for which the creative media and film infrastructure special fund may be used, in order to enable the Department of Business, Economic Development, and Tourism to fulfill its statutory and business development duties regarding the creative industries, film and media programs; and
- (6) Exempt certain amounts received related to improvements to and operations of the Hawaii film studio from the general excise tax and the use of certain items for the Hawaii film studio from the use tax.

Your Committee received testimony in support of this measure from the Department of Business, Economic Development, and Tourism. Your Committee received comments on this measure from the Department of Taxation and Tax Foundation of Hawaii.

Your Committee finds that the formation of the Hawaii Creative Industries Advisory Group would provide a formal mechanism to create ongoing dialogue and strategies for development of the creative and film industries in the State. Your Committee finds that a special fund to capture studio rents from the Hawaii film studio and to generate revenue sources will provide a foundation to build a creative continuum of education to workforce opportunities in Hawaii. Your Committee further finds that the measure will support existing and future infrastructure development in the State's creative and film industries.

Your Committee has amended this measure by:

- (1) Changing the number of members, appointing authority, and composition of the Hawaii Creative Industries Advisory Group;
- (2) Amending the powers and duties of the Advisory Group;
- (3) Clarifying the amount of the general excise tax exemption for making improvements to and operations of the Hawaii film studio, defining the term "improvements", and requiring certification of the exemption;
- (4) Clarifying that payment of a processing fee is required to receive the motion picture, digital media, and film production income tax credit;
- (5) Clarifying the amount of the use tax exemption for the use of material, parts, or tools imported or purchased and used for improvements to or operations of the Hawaii film studio and requiring certification of the exemption;
- (6) Adding an annual reporting requirement for the University of Hawaii and Department of Business, Economic Development, and Tourism on evidence of the contributions to the University's workforce development efforts;
- (7) Applying the general excise and use tax exemptions to taxable periods beginning after December 31, 2017; and
- (8) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Economic Development, Tourism, and Technology that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 590, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 590, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 1157 (Joint) Economic Development, Tourism, and Technology and Agriculture and Environment on H.B. No. 1578

The purpose and intent of this measure is to establish and appropriate funds for a Carbon Farming Task Force to identify agricultural and aquacultural activities and best practices that provide greenhouse gas emissions source reduction or carbon sequestration benefits.

Your Committees received testimony in support of this measure from the Office of Planning, Hawaii Alliance for Progressive Action, Sierra Club of Hawaii, Ulupono Initiative, Kokua Hawaii Foundation, Surfrider Foundation Kauai, Surfrider Foundation Oahu, Hawaii Center for Food Safety, and seventeen individuals. Your Committees received testimony in opposition to this measure from one individual. Your Committees received comments on this measure from the Department of Land and Natural Resources, Department of Agriculture, and Hawaii Island School Garden Network.

Your Committees find that local farmers in Hawaii could benefit from additional subsidies and support to grow local agriculture, create jobs, and diversify the State's economy. Your Committees find that agricultural and aquacultural land management practices that sequester carbon could provide greenhouse gas reduction benefits, enhance sustainability of Hawaii's agricultural lands, decrease sedimentation of the marine environment, improve the climate resistance of Hawaii's agricultural sector, and create new opportunities for local farmers. Your Committees further find that creating the Carbon Farming Task Force will help identify and oversee best practices to provide carbon sequestration benefits in the State.

Your Committees have amended this measure by:

- (1) Including an additional Carbon Farming Task Force objective to identify ways that ecosystems and agroforestry systems can be used to mitigate carbon content in Hawaii;
- (2) Adding the Administrator of the Department of Land and Natural Resources' Division of Forestry and Wildlife, or designee, to the Carbon Farming Task Force;
- (3) Inserting an appropriation amount of \$100,000; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Economic Development, Tourism, and Technology and Agriculture and Environment that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 1578, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 1578, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Economic Development, Tourism, and Technology: Ayes, 5. Noes, none. Excused, none.

Agriculture and Environment: Ayes, 3. Noes, none. Excused, 2 (Nishihara, Ruderman).

SCRep. 1158 Economic Development, Tourism, and Technology on H.B. No. 1449

The purpose and intent of this measure is to build on the successes of Hawaii's science and technology industries and establish a commercialization loan program, to be known as the impact loan fund for Hawaii or HI-impact loan program.

Your Committee received testimony in support of this measure from the High Technology Development Corporation and Oceanit Laboratories, Inc. Your Committee received comments on this measure from the Department of Budget and Finance and Hawaii Strategic Development Corporation.

Your Committee finds that to be successful in the twenty-first century global economy, Hawaii must position itself as a leader in technology development, transfer, and commercialization. Your Committee finds that the impact loan fund for Hawaii will fill a critical void of capital required for many technologies to advance to market and achieve profitability. Your Committee further finds that the program financing structure will provide loans to companies suited to economically grow and remain in Hawaii.

Your Committee has amended this measure by:

- (1) Establishing the impact loan fund for Hawaii within the Hawaii Strategic Development Corporation rather than within the High Technology Development Corporation;
- (2) Requiring businesses to provide sufficient proof of a \$1 private match for every \$2 of the loan amount to be received, as a condition for receiving a loan under the program; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Economic Development, Tourism, and Technology that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1449, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1449, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 1159 Water and Land on H.B. No. 839

The purpose and intent of this measure is to:

- (1) Require the Auditor to conduct a performance audit of the Management and Administration Division and Division of Forestry and Wildlife of the Department of Land and Natural Resources and the Department of Land and Natural Resources' Special Land and Development Fund; and
- (2) Appropriate funds to conduct the audit of the Department of Land and Natural Resources.

Your Committee received testimony in support of this measure from the Waialua Boat Club and six individuals. Your Committee received comments on this measure from the Department of Land and Natural Resources, Office of the Auditor, and one individual.

Your Committee finds that audits yield significant information concerning the efficiency of government funding and operations, and are a useful tool for making sound policy decisions in the public interest. Your Committee notes that this measure is a starting point for the State to exercise its oversight responsibilities and that audits of additional divisions may be conducted in the future. Finally, your Committee recommends a \$300,000 appropriation to conduct the audits.

Your Committee has amended this measure by:

- (1) Deleting the audits of the Management and Administration Division and Division of Forestry and Wildlife of the Department of Land and Natural Resources;
- (2) Requiring a performance audit of the Land Conservation Fund;
- (3) Requiring an accounting of the funds received and expenditures made by the Department of Land and Natural Resources for hosting the 2016 International Union for Conservation of Nature World Conservation Congress; and

- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 839, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 839, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Gabbard, Thielen).

SCRep. 1160 (Joint) International Affairs and the Arts and Public Safety, Intergovernmental, and Military Affairs on H.B. No. 942

The purpose and intent of this measure is to authorize the State Foundation on Culture and the Arts to commission an artist to design and build a monument to honor and commemorate Filipino veterans of World War II.

Your Committees received testimony in support of this measure from the Department of Defense State Office of Veterans Services, Hawaii Civil Rights Commission, Hawaii Friends of Civil Rights, and three individuals. Your Committees received comments on this measure from the State Foundation on Culture and the Arts.

Your Committees find that the time has come for long overdue recognition of the heroic contributions of more than two hundred sixty thousand Filipino veterans who fought under the American flag during World War II. With the building of this monument, Hawaii joins national efforts to pay a debt of gratitude and restorative justice to the dwindling generation of Filipino veterans who served under U.S. command but did not receive all of the veteran status and benefits they rightfully deserved. Your Committees further find that a monument to honor and commemorate Filipino veterans would demonstrate Hawaii's immense gratitude, provide a visual reminder of Filipino veterans' unique place in history, and educate the public on the role that Filipino veterans played in the outcome of World War II.

Your Committees note that the recommended appropriation for this measure is \$200,000. Your Committees further request if your Committee on Ways and Means passes this measure, that it include language requiring that the State Foundation on Culture and the Arts establish an advisory committee to implement this measure.

Your Committees have amended this measure by:

- (1) Changing the source of funds from the works of art special fund to general revenues of the State;
- (2) Making the appropriation apply only to fiscal year 2018-2019;
- (3) Inserting an effective date of May 22, 2050, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on International Affairs and the Arts and Public Safety, Intergovernmental, and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 942, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 942, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
International Affairs and the Arts: Ayes, 3. Noes, none. Excused, 2 (English, Ihara).
Public Safety, Intergovernmental, and Military Affairs: Ayes, 3. Noes, none. Excused, 2 (Ihara, Wakai).

SCRep. 1161 Commerce, Consumer Protection, and Health on H.B. No. 552

The purpose and intent of this measure is to:

- (1) Ensure certain benefits under the federal Patient Protection and Affordable Care Act of 2010 (Affordable Care Act) are preserved under state law in the case of repeal of the Affordable Care Act by Congress, including: the individual mandate; minimum essential benefit requirements; extended dependent coverage; and prohibitions on preexisting condition exclusions and gender discrimination in premiums and costs; and
- (2) Establish a trust fund and procedures to reimburse insurers for unrecouped costs of providing minimum essential insurance benefits.

Your Committee received testimony in support of this measure from the Department of Commerce and Consumer Affairs; State Council on Developmental Disabilities; Hawai'i Civil Rights Commission; Hawaii State Commission on the Status of Women; Special Education Advisory Council; Hawaii Substance Abuse Coalition; Healthcare Association of Hawaii; Hawai'i Public Health Institute; The Queen's Health Systems; Planned Parenthood Votes Northwest and Hawaii; Early Childhood Action Strategy; The Sex Abuse Treatment Center; American Diabetes Association; Lāna'i Community Health Center; Kū Aloha Ola Mau; IMUAlliance; International Longshore & Warehouse Union, Local 142; The Salvation Army – Addiction Treatment Services and Family Treatment Services; Hawai'i Psychological Association; Action with Aloha; AARP Hawaii; March of Dimes; and five individuals. Your Committee received comments on this measure from the Department of Human Services, Department of Budget and Finance, Department of Labor and Industrial Relations, Department of Taxation, Hawaii Employer-Union Health Benefits Trust Fund Board of Directors, Hawaii Medical Service Association, Kaiser Permanente Hawaii, Tax Foundation of Hawaii, Community Coalition for Hawaii Universal Healthcare Through Comprehensive Planning, and Hawaii Children's Action Network.

Your Committee finds that the Affordable Care Act has resulted in an estimated 20,000,000 Americans gaining health insurance coverage. Hawaii has long experienced low rates of uninsured individuals, thanks to the State's Prepaid Health Care Act. However, the Affordable Care Act reduced the number of uninsured individuals in the State even more, and enabled 54,000 individuals to gain insurance coverage, while 560,000 individuals with pre-existing conditions could no longer be denied health insurance coverage, and

over 630,000 individuals were able to access and benefit from a broad range of preventive services. Furthermore, approximately 33,000 residents of Hawaii now have insurance coverage due to the expansion of Medicaid under the Affordable Care Act.

Your Committee further finds that the future of the Affordable Care Act is now uncertain. There is much uncertainty and confusion around what final actions Congressional Republicans and the President will take in their efforts to repeal and replace the Affordable Care Act. Without the Affordable Care Act, it is estimated that 20,000,000 people will lose access to health insurance across the country. Lack of access to health insurance will negatively affect the health of patients who lose their coverage but will also further strain the health care system in the State. There are also serious concerns that Congress may attempt to push through a repeal of the Affordable Care Act by cutting services for low-income individuals, individuals with disabilities, older adults, and children.

In light of these concerns, your Committee additionally finds that expansion of the Medicaid program in Hawaii is an option that could be considered, specifically for individuals and qualifying families whose income is between 138.5 percent and two hundred fifty percent of the federal poverty level for Hawaii. This expansion, referred to for now as the Medicaid Plus Program, would cover individuals and families currently receiving health insurance coverage through the federal health insurance exchange; people who may be receiving advance premium tax credits – primarily self-employed individuals, part-time workers, and Compact of Free Association migrants; lower income employed individuals who may have difficulty obtaining health insurance; and other part-time workers who may work several jobs but who do not otherwise qualify for coverage under Hawaii's Prepaid Health Care Act. Your Committee notes that the Medicaid Plus Program is not intended to offer health care coverage for children, as such coverage is already available under Hawaii's traditional Medicaid program, which provides health care services for children in households whose income is up to three hundred percent of the federal poverty level for Hawaii. Your Committee also finds that because the issues surrounding health insurance and the potential repeal of the Affordable Care Act are far-reaching and complex, it is appropriate to convene a working group to further address these issues.

Your Committee has heard the concerns raised in testimony from the Department of Labor and Industrial Relations regarding the ability of the Department to administer the Minimum Essential Coverage Premium Supplementation Trust Fund, as a trust fund created for this purpose may be more appropriately placed within another department. Your Committee has also heard the concerns raised by the Department of Taxation regarding certain tax exemptions in this measure. According to the Department, for the individual mandate exemption for taxpayers below the filing income threshold under federal law, it may be more appropriate to determine this exemption based on state law. Your Committee appreciates these concerns and concludes that amendments to this measure are necessary.

Accordingly, your Committee has amended this measure by:

- (1) Establishing the Minimum Essential Coverage Premium Supplementation Trust Fund as a new chapter, to be administered by the Director of Finance, rather than establishing the trust fund as a new part in chapter 371, Hawaii Revised Statutes, and requiring the trust fund to be administered by the Director of Finance in accordance with directions of the Director of Labor and Industrial Relations;
- (2) Clarifying that individuals who are not required to file individual tax returns as determined under Hawaii law, rather than federal law, are not required to maintain minimum essential coverage;
- (3) Specifying that the requirements to maintain minimum essential coverage shall not apply to an individual or family whose income is two hundred fifty percent or less of the federal poverty level in Hawaii;
- (4) Specifying that a nonresident who is required to file an individual income tax return in Hawaii is exempt from the requirements for minimum essential coverage;
- (5) Establishing the Medicaid Plus Program within the Department of Human Services, which shall:
 - (A) Provide insurance coverage to individuals and qualifying families whose income is between 138.5 percent and two hundred fifty percent of the federal poverty level for Hawaii;
 - (B) Include a cost sharing requirement for individuals and qualifying families of an unspecified dollar amount or unspecified percentage of income, whichever is less; and
 - (C) Require inclusion of specific essential health care benefits and additional benefits;
- (6) Specifying that prescription drug coverage shall be one of the essential health care benefits offered by all health insurance entities in the State;
- (7) Establishing the Affordable Health Insurance Working Group to address the complexities of the health care system in Hawaii and the related uncertainty over the future of the Affordable Care Act and:
 - (A) Specifying the membership of the working group, including requiring the Chairs of the Senate Committee on Commerce, Consumer Protection, and Health and House Committee on Health to serve as chairs, and requiring the Chairs of the Senate and House Committees on Human Services to serve as vice-chairs;
 - (B) Permitting the working group to hold informational briefings and listening sessions to gather input from the public;
 - (C) Enabling the working group, with the assistance of the Departments of Budget and Finance and Taxation, to further refine the framework of the Minimum Essential Coverage Premium Supplementation Trust Fund;
 - (D) Enabling the working group to request assistance and feedback from subject matter experts, as needed;
 - (E) Requiring the working group to provide periodic updates to the legislature, make recommendations for any legislative or administrative action, as appropriate; and submit a final report to the Legislature no later than twenty days prior to the Regular Session of 2018;
 - (F) Requesting the Legislative Reference Bureau to provide staff, research, and drafting assistance to the working group; and

- (G) Specifying that the working group shall be officially convened at the pleasure of the chairs and vice chairs of the working group, depending upon Congressional action related to the Affordable Care Act, but no later than August 1, 2017;
- (8) Updating the purpose section;
- (9) Inserting an effective date of July 1, 2017, related to the establishment of the Affordable Health Insurance Working Group, while retaining language that conditions the effective date of certain sections upon the repeal of the Affordable Care Act; and
- (10) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

Your Committee notes that this amended measure represents a work in progress and further discussions will be needed as this amended measure moves through the legislative process. Your Committee also notes that it anticipates any expansion of the Medicaid program, or another similar program designed to ensure health care coverage to residents below two hundred fifty percent of the federal poverty level in Hawaii would go into effect for the next plan year after any federal law that repeals and replaces the Affordable Care Act takes effect.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 552, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 552, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 1 (Ihara).

SCRep. 1162 (Joint) Water and Land and Agriculture and Environment on H.B. No. 1584

The purpose and intent of this measure is to:

- (1) Require the counties to submit recommendations and maps for designation of important agricultural lands by June 30, 2019, or forfeit that right to the Land Use Commission;
- (2) Require the Land Use Commission to identify and designate important agricultural lands in any county that fails to meet the June 30, 2019, deadline;
- (3) Amend the Important Agricultural Land Qualified Agricultural Cost Tax Credit to:
 - (A) Include under the definition of “qualified agricultural costs” the costs associated with the clearing, removal of trees and debris, and soil restoration of former sugar and pineapple plantation lands that have been out of use for more than three years;
 - (B) Extend the period to claim the tax credit by ten years; and
 - (C) Clarify the tax credit amount for each year in which the tax credit is claimed; and
- (4) Appropriate an unspecified amount for grants-in-aid to the counties for identification and mapping of important agricultural lands by June 30, 2019, or, for any county that misses the deadline, to the Land Use Commission to identify and map important agricultural lands in that county by June 30, 2020.

Your Committees received testimony in support of this measure from the Department of Agriculture; Office of Planning; Land Use Commission; Chamber of Commerce Hawaii; Land Use Research Foundation of Hawaii; Ulupono Initiative; Alexander & Baldwin, Inc.; We Are One, Inc.; Hawai‘i Farm Bureau; Sierra Club of Hawai‘i; and seven individuals. Your Committees received testimony in opposition to this measure from the County of Hawai‘i Planning Department and Planning Department of the County of Kaua‘i. Your Committees received comments on this measure from the Department of Taxation.

Your Committees find that the proposed measure offers appropriate incentives for counties to complete their important agricultural lands identification and mapping process. Your Committees recognize the significant public involvement and coordination with various stakeholders and groups necessary to complete the process, and support providing adequate funding for a quality end product. Your Committees further find that requiring the Land Use Commission to proceed to identify and designate important agricultural lands if a county fails to meet its deadline fulfills the State’s duty to conserve and protect agricultural lands.

Your Committees also find that amending the Important Agricultural Land Qualified Agricultural Cost Tax Credit by extending the time period in which the credit may be claimed facilitates the long-term viability of farming and the agriculture industry in the State. However, your Committees note that expanding the definition of “qualified agricultural costs” for purposes of the tax credit may unintentionally reward past behavior rather than incentivize the conservation and protection of important agricultural lands.

Accordingly, your Committees have amended this measure by:

- (1) Removing the proposed changes to the definition of “qualified agricultural costs”;
- (2) Providing that the cumulative amount of the tax credit for all years claimed shall be \$1,000,000 per taxpayer;
- (3) Reinstating the existing statutory limits for each of the three years for which the tax credit is claimed, and establishing the limit for each year after the third year that the tax credit is claimed, while keeping the cumulative cap of the tax credit at \$1,000,000;
- (4) Providing that for taxable years beginning after December 31, 2017, the taxpayer may only claim the tax credit in the taxable year in which the taxpayer incurred the qualified agricultural costs;
- (5) Clarifying that counties are eligible for grants-in-aid for expenses incurred in identifying and mapping important agricultural lands prior to the effective date of this measure that have not been previously reimbursed by the State;

- (6) Extending the deadline for the Land Use Commission to identify and map important agricultural lands using the appropriated funds by one year to June 30, 2021; and
- (7) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Water and Land and Agriculture and Environment that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 1584, H.D. 2, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 1584, H.D. 2, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Water and Land: Ayes, 4. Noes, none. Excused, 1 (Kim).

Agriculture and Environment: Ayes, 3. Noes, none. Excused, 2 (Nishihara, Ruderman).

SCRep. 1163 Agriculture and Environment on S.C.R. No. 69

The purpose and intent of this measure is to request the Department of Agriculture to convene a task force to document and collect data identifying economic, environmental, and regulatory consequences of crop degradation caused by invasive and endangered species in Hawaii.

Your Committee received testimony in support of this measure from the Hawai'i Farm Bureau and Land Use Research Foundation. Your Committee received comments on this measure from the Department of Agriculture and Department of Land and Natural Resources.

Your Committee finds that invasive and endangered species are affecting farmers statewide, and while farmers and ranchers have experienced the negative impacts of invasive and endangered species, they do not necessarily have the training to document the economic and agricultural harm being caused by these damaging pests. Your Committee further finds that identification of the impacts of invasive and endangered species on Hawaii agriculture is necessary to facilitate a unified federal, state, and county effort to address this agricultural threat.

Your Committee has amended this measure by:

- (1) Removing the request that the Department of Agriculture convene a task force to document and collect data identifying economic, environmental, and regulatory consequences of crop degradation caused by invasive and endangered species in Hawaii;
- (2) Requesting that the Department of Agriculture and Department of Land and Natural Resources identify economic, environmental, and regulatory consequences of crop degradation caused by invasive and endangered species in Hawaii;
- (3) Amending the title to reflect its amended purpose; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 69, as amended herein, and recommends that it be referred to your Committee on Ways and Means, in the form attached hereto as S.C.R. No. 69, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Ruderman).

SCRep. 1164 Agriculture and Environment on S.C.R. No. 90

The purpose and intent of this measure is to urge the Office of Planning to study and update the Hawaii State Planning Act's economic objectives and policies for agriculture.

Your Committee received testimony in support of this measure from the Office of Planning and Hawai'i Farm Bureau. Your Committee received comments on this measure from the Department of Agriculture.

Your Committee finds that the current Hawaii State Planning Act economic objectives for agriculture list Hawaii's sugar and pineapple industries as top priorities, which have been declining over recent decades and are no longer the primary focus of Hawaii's agricultural industry. Your Committee also finds that sustainability, food security, and increased local food production are current priorities of the State. Therefore, your Committee finds that it is appropriate that the Hawaii State Planning Act be updated to reflect the State's present goals.

Your Committee has amended this measure by:

- (1) Specifying that the Office of Planning is requested to work with the Department of Agriculture to realign the Hawaii State Planning Act's agricultural priorities in accordance with a long-term vision that includes consideration of sustainable agriculture and self-sufficiency in Hawaii and other potential vision elements;
- (2) Requesting that the Office of Planning submit a long-term vision statement to the Legislature, in addition to an updated priority list of state economic objectives and policies for agriculture; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 90, as amended herein, and recommends that it be referred to your Committee on Ways and Means, in the form attached hereto as S.C.R. No. 90, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Ruderman).

SCRep. 1165 Agriculture and Environment on S.C.R. No. 151

The purpose and intent of this measure is to request the Department of Business, Economic Development, and Tourism, in conjunction with the Department of Agriculture, to study the economic impacts of vertical farming operations.

Your Committee received testimony in support of this measure from two individuals. Your Committee received comments on this measure from the Department of Agriculture and Office of Planning.

Your Committee finds that vertical farming produces food indoors in vertical stacked layers using indoor farming techniques and controlled-environment agriculture technology and has the potential to increase certain crop yields in limited land space. Your Committee finds that a study of the economic impacts of vertical farming operations may provide policy makers and the agricultural industry with sufficient data to determine whether Hawaii should invest in vertical farming as a viable option for agricultural production in the State.

Your Committee has amended this measure by deleting the finding that current agricultural practices in Hawaii utilize traditional surface farming, which may be inefficient considering Hawaii's limited land space and high land costs.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 151, as amended herein, and recommends that it be referred to your Committee on Ways and Means, in the form attached hereto as S.C.R. No. 151, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Ruderman).

SCRep. 1166 (Joint) Agriculture and Environment and Public Safety, Intergovernmental, and Military Affairs on S.C.R. No. 172

The purpose and intent of this measure is to urge the Department of Health to adopt rules for underground storage tanks and tank systems that conform with recent revisions to federal regulations and include additional requirements for certain field-constructed underground storage tanks.

Your Committees received testimony in support of this measure from the City and County of Honolulu Board of Water Supply; Conservation Council for Hawai'i; Ke One O Kākuhihewa, O'ahu Council of the Association of Hawaiian Civic Clubs; Sierra Club of Hawaii; and five individuals. Your Committees received testimony in opposition to this measure from the Department of the Attorney General, Department of Health, Navy Region Hawaii, National Active and Retired Federal Employees Association, and thirteen individuals. Your Committees received comments on this measure from We Are One, Inc.

Your Committees find that the leakage of fuel from underground storage tanks is a matter of serious statewide concern. Fuel that leaks from storage tanks can contaminate groundwater that is used for human consumption and cause significant damage to the environment. Issues surrounding leaking fuel storage tanks are numerous and need to be adequately and immediately addressed to protect Hawaii's water supply for the health and safety of Hawaii's people and environment.

As affirmed by the records of votes of the members of your Committees on Agriculture and Environment and Public Safety, Intergovernmental, and Military Affairs that are attached to this report, your Committees concur with the intent and purpose of S.C.R. No. 172 and recommend that it be referred to your Committee on Commerce, Consumer Protection, and Health.

Signed by the Chairs on behalf of the Committees.

Agriculture and Environment: Ayes, 4; Ayes with Reservations (Nishihara). Noes, none. Excused, 1 (Ruderman).

Public Safety, Intergovernmental, and Military Affairs: Ayes, 3; Ayes with Reservations (Nishihara). Noes, none. Excused, 2 (Baker, Wakai).

SCRep. 1167 (Joint) Agriculture and Environment and Public Safety, Intergovernmental, and Military Affairs on S.R. No. 86

The purpose and intent of this measure is to urge the Department of Health to adopt rules for underground storage tanks and tank systems that conform with recent revisions to federal regulations and include additional requirements for certain field-constructed underground storage tanks.

Your Committees received testimony in support of this measure from the City and County of Honolulu Board of Water Supply; Conservation Council for Hawai'i; Ke One O Kākuhihewa, O'ahu Council of the Association of Hawaiian Civic Clubs; Sierra Club of Hawaii; and five individuals. Your Committees received testimony in opposition to this measure from the Department of the Attorney General, Department of Health, Navy Region Hawaii, National Active and Retired Federal Employees Association, and thirteen individuals. Your Committees received comments on this measure from We Are One, Inc.

Your Committees find that the leakage of fuel from underground storage tanks is a matter of serious statewide concern. Fuel that leaks from storage tanks can contaminate groundwater that is used for human consumption and cause significant damage to the environment. Issues surrounding leaking fuel storage tanks are numerous and need to be adequately and immediately addressed to protect Hawaii's water supply for the health and safety of Hawaii's people and environment.

As affirmed by the records of votes of the members of your Committees on Agriculture and Environment and Public Safety, Intergovernmental, and Military Affairs that are attached to this report, your Committees concur with the intent and purpose of S.R. No. 86 and recommend that it be referred to your Committee on Commerce, Consumer Protection, and Health.

Signed by the Chairs on behalf of the Committees.

Agriculture and Environment: Ayes, 4; Ayes with Reservations (Nishihara). Noes, none. Excused, 1 (Ruderman).

Public Safety, Intergovernmental, and Military Affairs: Ayes, 3; Ayes with Reservations (Nishihara). Noes, none. Excused, 2 (Baker, Wakai).

SCRep. 1168 Agriculture and Environment on S.R. No. 72

The purpose and intent of this measure is to request the Department of Business, Economic Development, and Tourism, in conjunction with the Department of Agriculture, to study the economic impacts of vertical farming operations.

Your Committee received testimony in support of this measure from two individuals. Your Committee received comments on this measure from the Department of Agriculture and Office of Planning.

Your Committee finds that vertical farming produces food indoors in vertical stacked layers using indoor farming techniques and controlled-environment agriculture technology and has the potential to increase certain crop yields in limited land space. Your Committee finds that a study of the economic impacts of vertical farming operations may provide policy makers and the agricultural industry with sufficient data to determine whether Hawaii should invest in vertical farming as a viable option for agricultural production in the State.

Your Committee has amended this measure by deleting the finding that current agricultural practices in Hawaii utilize traditional surface farming, which may be inefficient considering Hawaii's limited land space and high land costs.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 72, as amended herein, and recommends that it be referred to your Committee on Ways and Means, in the form attached hereto as S.R. No. 72, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Ruderman).

SCRep. 1169 Agriculture and Environment on S.R. No. 26

The purpose and intent of this measure is to request the Department of Agriculture to convene a task force to document and collect data identifying economic, environmental, and regulatory consequences of crop degradation caused by invasive and endangered species in Hawaii.

Your Committee received testimony in support of this measure from the Hawai'i Farm Bureau and Land Use Research Foundation. Your Committee received comments on this measure from the Department of Agriculture and Department of Land and Natural Resources.

Your Committee finds that invasive and endangered species are affecting farmers statewide, and while farmers and ranchers have experienced the negative impacts of invasive and endangered species, they do not necessarily have the training to document the economic and agricultural harm being caused by these damaging pests. Your Committee further finds that identification of the impacts of invasive and endangered species on Hawaii agriculture is necessary to facilitate a unified federal, state, and county effort to address this agricultural threat.

Your Committee has amended this measure by:

- (1) Removing the request that the Department of Agriculture convene a task force to document and collect data identifying economic, environmental, and regulatory consequences of crop degradation caused by invasive and endangered species in Hawaii;
- (2) Requesting that the Department of Agriculture and Department of Land and Natural Resources identify economic, environmental, and regulatory consequences of crop degradation caused by invasive and endangered species in Hawaii;
- (3) Amending the title to reflect its amended purpose; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 26, as amended herein, and recommends that it be referred to your Committee on Ways and Means, in the form attached hereto as S.R. No. 26, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Ruderman).

SCRep. 1170 (Joint) Human Services and Housing on S.C.R. No. 56

The purpose and intent of this measure is to request that the Auditor conduct a study to assess the impact of using Medicaid funds to provide coverage for the treatment for homelessness.

Your Committees received testimony in support of this measure from the Office of the Mayor of the County of Hawai'i. Your Committees received comments on this measure from the Governor's Coordinator on Homelessness and Department of Human Services.

Your Committees find that there is an integral link between health and housing, especially for individuals who are chronically homeless. Without housing, individuals often struggle to address their health conditions, while people who are unable to address their health challenges often struggle to obtain and retain housing. Furthermore, the costs to the entire continuum of care, including hospitals, long-term care facilities, and home-based services, for treating the State's homeless population continue to increase. Your Committees also find that ensuring the availability of quality health care and preventive services can successfully mitigate increased future demand for high cost medical services. Directing the Auditor to perform an impact assessment study on the use of Medicaid

funds to provide coverage for the treatment for homelessness is the necessary next step in a potentially transformative approach for the treatment for homelessness in Hawaii.

Your Committees have amended this measure by inserting directive language that requests the Auditor, when conducting the study, to take into consideration certain services to be included under coverage for treatment for homelessness.

As affirmed by the records of votes of the members of your Committees on Human Services and Housing that are attached to this report, your Committees concur with the intent and purpose of S.C.R. No. 56, as amended herein, and recommend that it be referred to your Committee on Ways and Means, in the form attached hereto as S.C.R. No. 56, S.D. 1.

Signed by the Chairs on behalf of the Committees.

Human Services: Ayes, 3. Noes, none. Excused, 2 (Tokuda, Wakai).

Housing: Ayes, 3. Noes, none. Excused, 2 (Kahele, Keith-Agaran).

SCRep. 1171 Water and Land on S.C.R. No. 79

The purpose and intent of this measure is to authorize the issuance of a term, non-exclusive easement for the portion of state submerged lands fronting the property identified as tax map key: (4) 4-3-009: seaward of 001, Waipouli, Kawaihau, Kauai, for the maintenance and repair of the existing seawall, and for the use, repair, and maintenance of the existing improvements constructed thereon.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources.

Your Committee finds that, pursuant to section 171-53, Hawaii Revised Statutes, the Board of Land and Natural Resources may lease submerged lands with the prior approval of the Governor and the prior authorization of the Legislature by concurrent resolution. Your Committee further finds that on May 9, 2014, under agenda item D-1, as subsequently amended at a meeting on October 24, 2014, the Board of Land and Natural Resources approved a grant of a fifty-five-year non-exclusive easement to resolve the encroachments of the seawall identified in this measure. Your Committee notes that the fair market value of the easement is \$25,200 as determined by an independent appraisal, and that the current property owner has remitted payment of \$25,255, inclusive of fees, to the State for the grant of easement. Your Committee concludes that the easement is necessary for the maintenance and repair of the existing seawall, and for the use, repair, and maintenance of the existing improvements thereon.

Your Committee has amended this measure by:

- (1) Correcting the date of the meeting of the Board of Land and Natural Resources from May 19, 2014, to May 9, 2014, pursuant to testimony received from the Department of Land and Natural Resources; and
- (2) Amending its title to make a technical, nonsubstantive amendment.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 79, as amended herein, and recommends that it be referred to your Committee on Ways and Means, in the form attached hereto as S.C.R. No. 79, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Inouye, Kim).

SCRep. 1172 Agriculture and Environment on S.C.R. No. 77

The purpose and intent of this measure is to request the Department of Agriculture to establish a temporary task force for the purpose of creating a definition of "bona fide agricultural producer".

Your Committee received testimony in support of this measure from the Ulupono Initiative; Hawai'i Farm Bureau; Hawaii Cattlemen's Council, Inc.; and Land Use Research Foundation. Your Committee received comments on this measure from the Department of Agriculture and Office of Hawaiian Affairs.

Your Committee finds that there is no definition for "bona fide agricultural producer" in the Hawaii Revised Statutes, which has led to disagreement among policy makers and stakeholders when crafting legislation and incentives to benefit farmers. Creating a single definition or multiple definitions of "bona fide agricultural producer" may require careful and substantial amendments to the Hawaii Revised Statutes. Creating a definition will likely require the development of standards and criteria to define what constitutes a qualifying level of performance or achievement for each category of agricultural producer and may need to be broad so as to not inadvertently exclude certain farmers.

Your Committee has amended this measure by:

- (1) Expanding the task force to include five additional representatives of farmers and ranchers; a practitioner of Native Hawaiian farming methods; a designee of the Director of Business, Economic Development, and Tourism; and a designee of the Hawaii Association of Counties;
- (2) Extending the deadline for the task force to submit its report to the Legislature to no later than twenty days prior to the convening of the Regular Session of 2019;
- (3) Extending the sunset date of the task force to June 30, 2019; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 77, as amended herein, and recommends its adoption in the form attached hereto as S.C.R. No. 77, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Ruderman).

SCRep. 1173 Commerce, Consumer Protection, and Health on S.C.R. No. 112

The purpose and intent of this measure is to improve the detection and early treatment of colorectal cancer by requesting the Department of Health to convene a working group to develop recommendations to increase colorectal cancer screening rates.

Your Committee received testimony in support of this measure from the Department of Health; American Cancer Society, Cancer Action Network; University of Hawai'i Cancer Center; Hawaii Primary Care Association; Hawai'i Pacific Health; and seventeen individuals.

Your Committee finds that increased colorectal cancer screening can save many lives in Hawaii. Nationwide, states and organizations are committing to the "80% by 2018" initiative, which is an effort to eliminate colorectal cancer as a major public health problem by getting eighty percent of adults aged fifty and older screened for colorectal cancer by 2018. Your Committee further finds that colorectal cancer is the second leading cause of cancer deaths for men and the third leading cause of cancer deaths for women in Hawaii. Furthermore, colorectal screening rates for individuals over age fifty are much lower for those who reside in low-income households and those with less than a high school education.

Your Committee additionally finds that colorectal cancer is a cause of considerable suffering among more than one hundred forty thousand adults in the country diagnosed with this cancer each year. In Hawaii, approximately six hundred sixty residents are diagnosed with colorectal cancer each year, and an average of two hundred forty residents die from the disease each year. Your Committee emphasizes that a priority of the Hawaii State Cancer Plan is to increase colorectal screening rates and reduce morbidity and mortality of colorectal cancer through screening and early detection. Your Committee finds that there is work to be done to increase colorectal cancer screening rates in an effort to improve the quality of life for hundreds of people in the State by detecting and preventing death from late stage colorectal cancer and lessening the physical, emotional, and financial burden that often accompany a cancer diagnosis. Your Committee notes that there are many community partners committed to working together to improve colorectal cancer screenings in Hawaii.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 112 and recommends that it be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 3 (Ihara, Kidani, Ruderman).

SCRep. 1174 Judiciary and Labor on S.C.R. No. 16

The purpose and intent of this measure is to convene a legislative working group to investigate and identify strategies to promote greater retirement savings for private sector employees in Hawaii.

Your Committee received testimony in support of this measure from the Department of Accounting and General Services, AARP Hawaii, Hawaii Appleseed Center for Law and Economic Justice, Assistive Technology Resource Centers of Hawaii, and nineteen individuals. Your Committee received testimony in opposition to this measure from the National Association of Insurance and Financial Advisors. Your Committee received comments on this measure from the Legislative Reference Bureau and American Council of Life Insurers.

Your Committee finds that approximately fifty percent of Hawaii's private sector employees work for an employer that does not offer a retirement plan or are not eligible for the plan offered. Your Committee further finds that individuals without a retirement plan are at significant risk of not having enough retirement income to meet basic expenses during retirement, and therefore may place an extra burden on public assistance programs. This measure seeks to initiate efforts to enable all residents of Hawaii to sufficiently save for retirement.

Your Committee has amended this measure by:

- (1) Requesting that the working group examine private marketplace plans in Washington, Illinois, and New Jersey in addition to state-sponsored retirement savings programs in California, Oregon, and Maryland;
- (2) Requesting that the working group submit a draft of its report to the Legislative Reference Bureau no later than October 1, 2017; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 16, as amended herein, and recommends that it be referred to your Committee on Ways and Means, in the form attached hereto as S.C.R. No. 16, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Kim).

SCRep. 1175 Judiciary and Labor on S.C.R. No. 108

The purpose and intent of this measure is to:

- (1) Request the Chief Election Officer to convene an automatic voter registration task force to determine the feasibility, cost savings, and cost impact of implementing an automatic voter registration system in Hawaii; and
- (2) Request the automatic voter registration task force to submit a report of its findings and recommendations, including any proposed legislation, to the Legislature prior to the convening of the Regular Session of 2018.

Your Committee received testimony in support of this measure from the Office of Elections; Office of the City Clerk, City and County of Honolulu; Common Cause Hawaii; League of Women Voters; and four individuals. Your Committee received comments on this measure from one individual.

Your Committee finds that automatic voter registration, also known as “motor voter”, provides eligible voters an opportunity to register to vote when applying for or renewing a driver’s license unless the eligible voter affirmatively declines to be registered. Proponents believe that automatic voter registration assists in removing barriers to registration for eligible voters, which is the first step to voter participation. Voter registration through a routine and necessary transaction, such as driver’s licensing or renewal, increases voter registration efficiency and effectiveness and voter turnout.

Your Committee further finds that six states and the District of Columbia have enacted automatic voter registration. As a result, Oregon set a new state record for the number of votes cast in 2016. Hawaii has one of the lowest voter registration rolls and participation rates in the country. By convening an automatic voter registration task force, this measure will determine the feasibility of joining other states, such as Oregon, in increasing voter registration.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 108, as amended herein, and recommends that it be referred to your Committee on Ways and Means, in the form attached hereto as S.C.R. No. 108, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Kim).

SCRep. 1176 Judiciary and Labor on S.C.R. No. 109

The purpose and intent of this measure is to request that the Department of Labor and Industrial Relations prepare and submit a proposal that delineates how it will increase the reimbursement rate to providers of service for workers’ compensation claimants.

Your Committee received testimony in support of this measure from the Department of Labor and Industrial Relations, Hawaii Chapter of the American Physical Therapy Association, ILWU Local 142, JACO Rehab Honolulu, two individuals, and a petition signed by thirty individuals. Your Committee received testimony in opposition to this measure from the Libertarian Party of Hawaii.

Your Committee finds that access to healthcare providers for injured workers is often barred by a number of factors. Your Committee further finds that the Department of Labor and Industrial Relations has testified before your Committee that it favors an increase in the reimbursement rate to providers of service for workers’ compensation claimants and is considering other alternatives to the current fee schedule and plans to have a proposal for discussion shortly.

Your Committee has amended this measure by inserting a provision indicating that the Department of Labor and Industrial Relations has stated that it is currently surveying prepaid health care providers and will be using the data to update the Workers’ Compensation Supplemental Medical Fee Schedule, Exhibit A, effective January 1, 2018.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 109, as amended herein, and recommends that it be referred to your Committee on Ways and Means, in the form attached hereto as S.C.R. No. 109, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 1177 Judiciary and Labor on S.C.R. No. 114

The purpose and intent of this measure is to urge the United States Senate to adopt Senate Resolution 51 (115th Congress), “Recognizing the contributions of Federal employees and pledging to oppose efforts to reduce Federal workforce pay and benefits, eliminate civil service employment protections, undermine collective bargaining, and increase the use of non-Federal contractors for inherently governmental activities”.

Your Committee received testimony in support of this measure from the LGBT Caucus of the Democratic Party of Hawaii; Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO; Hawaii Federation of State Chapters, National Active and Retired Federal Employees; ILWU Local 142; and one individual.

Your Committee finds that on February 6, 2017, United States Senator Mazie Hirono introduced Senate Resolution 51, “Recognizing the contributions of Federal employees and pledging to oppose efforts to reduce Federal workforce pay and benefits, eliminate civil service employment protections, undermine collective bargaining, and increase the use of non-Federal contractors for inherently governmental activities”. Your Committee further finds that the Trump administration budget includes a number of cutbacks that will result in layoffs and other negative impacts to the federal government workforce.

Your Committee has amended this measure by:

- (1) Amending the findings to refer to any credible threat to collective bargaining and the civil service system, rather than any conceivable threat;
- (2) Inserting findings regarding the Trump administration’s budget; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 114, as amended herein, and recommends that it be referred to your Committee on Ways and Means, in the form attached hereto as S.C.R. No. 114, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 1178 Education on S.C.R. No. 48

The purpose and intent of this measure is to request additional funding for education from the United States Department of Education.

Your Committee received testimony in support of this measure from the Department of Education and three individuals.

Your Committee finds that funding for education is a vital investment in the State's children and the future of Hawaii. Your Committee further finds that the federal Every Student Succeeds Act provides states with an opportunity to further shape school systems in a way that will best prepare students for the future. Your Committee additionally finds that additional resources from the United States Department of Education will facilitate the continued development of effective public education in Hawaii and throughout the nation.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 48, as amended herein, and recommends that it be referred to your Committee on Ways and Means, in the form attached hereto as S.C.R. No. 48, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Dela Cruz, Riviere).

SCRep. 1179 Education on S.R. No. 12

The purpose and intent of this measure is to request additional funding for education from the United States Department of Education.

Your Committee received testimony in support of this measure from the Department of Education and three individuals.

Your Committee finds that funding for education is a vital investment in the State's children and the future of Hawaii. Your Committee further finds that the federal Every Student Succeeds Act provides states with an opportunity to further shape school systems in a way that will best prepare students for the future. Your Committee additionally finds that additional resources from the United States Department of Education will facilitate the continued development of effective public education in Hawaii and throughout the nation.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 12, as amended herein, and recommends that it be referred to your Committee on Ways and Means, in the form attached hereto as S.R. No. 12, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Dela Cruz, Riviere).

SCRep. 1180 Education on S.C.R. No. 166

The purpose and intent of this measure is to request the Auditor to perform a study of:

- (1) The number of first-year teachers hired by the Department of Education;
- (2) The five-year retention rates for first-year teachers; and
- (3) Statistics of teachers at Department schools who transferred from their former teaching positions.

Your Committee received testimony in support of this measure from the Hawaii State Teachers Association. Your Committee received comments on this measure from the Department of Education and Office of the Auditor.

Your Committee finds that Hawaii is in the midst of a teacher shortage crisis. Your Committee further finds that, in the last five years, the number of state teacher vacancies has increased by forty-five percent. Your Committee additionally finds that teacher shortages have a significant negative effect on student learning, especially in rural and designated hard-to-fill schools. Your Committee also finds that accurate and updated information is vital to efforts to develop effective policies to address the shortage of teachers.

Your Committee has amended this measure by:

- (1) Clarifying that the starting point for all data collected in the study is 2012; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 166, as amended herein, and recommends that it be referred to your Committee on Ways and Means, in the form attached hereto as S.C.R. No. 166, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Dela Cruz, Riviere).

SCRep. 1181 Education on S.R. No. 80

The purpose and intent of this measure is to request the Auditor to perform a study of:

- (1) The number of first-year teachers hired by the Department of Education;
- (2) The five-year retention rates for first-year teachers; and
- (3) Statistics of teachers at Department schools who transferred from their former teaching positions.

Your Committee received testimony in support of this measure from the Hawaii State Teachers Association. Your Committee received comments on this measure from the Department of Education and Office of the Auditor.

Your Committee finds that Hawaii is in the midst of a teacher shortage crisis. Your Committee further finds that, in the last five years, the number of state teacher vacancies has increased by forty-five percent. Your Committee additionally finds that teacher shortages have a significant negative effect on student learning, especially in rural and designated hard-to-fill schools. Your Committee also finds that accurate and updated information is vital to efforts to develop effective policies to address the shortage of teachers.

Your Committee has amended this measure by:

- (1) Clarifying that the starting point for all data collected in the study is 2012; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 80, as amended herein, and recommends that it be referred to your Committee on Ways and Means, in the form attached hereto as S.R. No. 80, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Dela Cruz, Riviere).

SCRep. 1182 Education on S.C.R. No. 53

The purpose and intent of this measure is to request a study on the per-pupil funding system for public charter schools to determine whether the system fulfills its statutory purpose of equalizing operational funding among public schools.

Your Committee received testimony in support of this measure from the Office of Hawaiian Affairs, State Public Charter School Commission, Kamehameha Schools, Hawaii Public Charter Schools Network, Native Hawaiian Education Council, and six individuals. Your Committee received comments on this measure from the Department of Education and Legislative Reference Bureau.

Your Committee finds that schools must be funded and supported adequately to be able to meet the educational needs of their students. Your Committee further finds that public charter schools receive a majority of their funding through general fund appropriations based on a general fund per-pupil allotment. Your Committee additionally finds that the purpose of the per-pupil funding system is to equalize operational funding among public schools. Your Committee also finds that questions have been raised about whether the per-pupil funding system successfully provides equitable funding for public charter schools as compared to schools operated by the Department of Education.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 53 and recommends that it be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Dela Cruz, Riviere).

SCRep. 1183 Education on S.C.R. No. 91

The purpose and intent of this measure is to urge the Hawaii School Athletic Association to adopt the pitch smart guidelines for high school baseball pitchers.

Your Committee did not receive any testimony on this measure.

Your Committee finds that young, amateur pitchers in Hawaii's high schools are at risk of serious injury. Your Committee further finds that the Hawaii High School Athletic Association has adopted a daily pitch count limit and mandatory rest requirements for baseball pitchers pitching in preseason and state tournament games in order to minimize the risk of injury due to overuse. Your Committee additionally finds that the pitch smart guidelines developed by USA Baseball and Major League Baseball are the best, most up-to-date guidelines available, and their adoption will further protect high school pitchers from injury.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 91 and recommends that it be referred to your Committee on Commerce, Consumer Protection, and Health.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Dela Cruz, Riviere).

SCRep. 1184 Education on S.C.R. No. 137

The purpose and intent of this measure is to request the Board of Education to consider requiring students in grades six, seven, and eight to take courses in physical education and health education.

Your Committee received testimony in support of this measure from the Hawaii Public Health Institute, American Heart Association, Hawaii Youth Services Network, Hawaii Pacific Health, Pioneering Healthier Communities, and more than forty-five individuals. Your Committee received comments on this measure from the Department of Education and Department of Health.

Your Committee finds that physical education and health education during middle school years is especially important to prevent the onset of risky behaviors. Your Committee further finds that high quality health education helps students to acquire the knowledge, attitudes, and skills that they need to make healthy decisions, become health literate, and promote the health of others. This measure will encourage the Board of Education to reinstate mandatory physical education and health education curricula in public middle and intermediate schools.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 137 and recommends that it be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Dela Cruz, Riviere).

SCRep. 1185 Education on S.R. No. 58

The purpose and intent of this measure is to request the Board of Education to consider requiring students in grades six, seven, and eight to take courses in physical education and health education.

Your Committee received testimony in support of this measure from the Hawaii Public Health Institute, American Heart Association, Hawaii Youth Services Network, Hawaii Pacific Health, Pioneering Healthier Communities, and more than forty-five individuals. Your Committee received comments on this measure from the Department of Education and Department of Health.

Your Committee finds that physical education and health education during middle school years is especially important to prevent the onset of risky behaviors. Your Committee further finds that high quality health education helps students to acquire the knowledge, attitudes, and skills that they need to make healthy decisions, become health literate, and promote the health of others. This measure will encourage the Board of Education to reinstate mandatory physical education and health education curricula in public middle and intermediate schools.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 58 and recommends that it be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Dela Cruz, Riviere).

SCRep. 1186 Education on S.C.R. No. 140

The purpose and intent of this measure is to urge the Board of Education to restrict any person from applying for the position of Superintendent of Education if that person was a member of the Board of Education when the search and hiring process was developed or initiated.

Your Committee received testimony in support of this measure from the Native Hawaiian Education Council and two individuals. Your Committee received comments on this measure from the Hawaii State Ethics Commission.

Your Committee finds that the process of selecting and hiring the Superintendent of Education is left entirely to the discretion of the Board of Education. Your Committee further finds that the Superintendent of Education plays a vital role in developing and implementing education policy throughout the State. Your Committee additionally finds that the important role of the Superintendent of Education underscores the critical need for all applicants for the position to be thoroughly, fairly, and objectively evaluated.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 140 and recommends that it be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Dela Cruz, Riviere).

SCRep. 1187 Education on S.R. No. 61

The purpose and intent of this measure is to urge the Board of Education to restrict any person from applying for the position of Superintendent of Education if that person was a member of the Board of Education when the search and hiring process was developed or initiated.

Your Committee received testimony in support of this measure from the Native Hawaiian Education Council and two individuals. Your Committee received comments on this measure from the Hawaii State Ethics Commission.

Your Committee finds that the process of selecting and hiring the Superintendent of Education is left entirely to the discretion of the Board of Education. Your Committee further finds that the Superintendent of Education plays a vital role in developing and implementing education policy throughout the State. Your Committee additionally finds that the important role of the Superintendent of Education underscores the critical need for all applicants for the position to be thoroughly, fairly, and objectively evaluated.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 61 and recommends that it be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Dela Cruz, Riviere).

SCRep. 1188 Education on S.C.R. No. 167

The purpose and intent of this measure is to urge the Department of Education to establish a vocational education out-of-school program.

Your Committee received testimony in support of this measure from the Hawaii State Teachers Association, Hawaii Youth Services Network, and two individuals. Your Committee received comments on this measure from the Department of Education.

Your Committee finds that a majority of all current job openings locally and nationally are for positions that do not require a college degree. Your Committee further finds that technical and vocational out-of-school and after-school programs can help students develop skills that are valuable in the State's job market. Your Committee additionally finds that surveys of students indicate that a significant number of students who are not currently enrolled in an after-school program would probably participate in a vocational or technical program if one were offered.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 167 and recommends that it be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Dela Cruz, Riviere).

SCRep. 1189 Education on S.R. No. 81

The purpose and intent of this measure is to urge the Department of Education to establish a vocational education out-of-school program.

Your Committee received testimony in support of this measure from the Hawaii State Teachers Association, Hawaii Youth Services Network, and two individuals. Your Committee received comments on this measure from the Department of Education.

Your Committee finds that a majority of all current job openings locally and nationally are for positions that do not require a college degree. Your Committee further finds that technical and vocational out-of-school and after-school programs can help students develop skills that are valuable in the State's job market. Your Committee additionally finds that surveys of students indicate that a significant number of students who are not currently enrolled in an after-school program would probably participate in a vocational or technical program if one were offered.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 81 and recommends that it be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Dela Cruz, Riviere).

SCRep. 1190 Education on S.C.R. No. 168

The purpose and intent of this measure is to request the Department of Education to develop and implement a state plan for computer science education in all public schools.

Your Committee received testimony in support of this measure from the Department of Education, Microsoft Corporation, Code.org, Women in Technology, and five individuals. Your Committee received testimony in opposition to this measure from the University of Hawaii System.

Your Committee finds that strong computer science skills prepare students for a wide variety of career paths. Your Committee further finds that the number of computing jobs available in Hawaii far outstrips the number of qualified graduates entering the workforce, and that the average salary for computing jobs is significantly higher than the average salary for many jobs available in the State. Your Committee additionally finds that implementing robust computer science curricula into all public schools will equip Hawaii's students with the skills that they will need for high paying, in-demand careers.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 168 and recommends that it be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Dela Cruz, Riviere).

SCRep. 1191 Education on S.R. No. 82

The purpose and intent of this measure is to request the Department of Education to develop and implement a state plan for computer science education in all public schools.

Your Committee received testimony in support of this measure from the Department of Education, Microsoft Corporation, Code.org, Women in Technology, and five individuals. Your Committee received testimony in opposition to this measure from the University of Hawaii System.

Your Committee finds that strong computer science skills prepare students for a wide variety of career paths. Your Committee further finds that the number of computing jobs available in Hawaii far outstrips the number of qualified graduates entering the workforce, and that the average salary for computing jobs is significantly higher than the average salary for many jobs available in the State. Your Committee additionally finds that implementing robust computer science curricula into all public schools will equip Hawaii's students with the skills that they will need for high paying, in-demand careers.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 82 and recommends that it be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Dela Cruz, Riviere).

SCRep. 1192 Education on S.C.R. No. 171

The purpose and intent of this measure is to request the Department of Education to develop and establish a live, learn, work, and play program to promote workforce readiness in Hawaii's students through career pipeline and academy school initiatives.

Your Committee received testimony in support of this measure from the Department of Education, Hawaii State Teachers Association, Hawaii Youth Services Network, Native Hawaiian Education Council, and two individuals. Your Committee received testimony in opposition to this measure from two individuals.

Your Committee finds that employers in Hawaii's expanding industries have reported difficulty in finding local applicants who have the skills and experiences necessary to fill available positions. Your Committee further finds that a career pipeline, academy school, and other workforce readiness initiatives will equip the State's students with the skills that they need to enter the workforce. Your Committee additionally finds that partnerships with local employers can help to ensure that students leave school with skills that are especially valuable and in-demand.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 171 and recommends that it be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Dela Cruz, Riviere).

SCRep. 1193 Education on S.R. No. 85

The purpose and intent of this measure is to request the Department of Education to develop and establish a live, learn, work, and play program to promote workforce readiness in Hawaii's students through career pipeline and academy school initiatives.

Your Committee received testimony in support of this measure from the Department of Education, Hawaii State Teachers Association, Hawaii Youth Services Network, Native Hawaiian Education Council, and two individuals. Your Committee received testimony in opposition to this measure from two individuals.

Your Committee finds that employers in Hawaii's expanding industries have reported difficulty in finding local applicants who have the skills and experiences necessary to fill available positions. Your Committee further finds that a career pipeline, academy school, and other workforce readiness initiatives will equip the State's students with the skills that they need to enter the workforce. Your Committee additionally finds that partnerships with local employers can help to ensure that students leave school with skills that are especially valuable and in-demand.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 85 and recommends that it be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Dela Cruz, Riviere).

SCRep. 1194 Water and Land on S.C.R. No. 74

The purpose and intent of this measure is to authorize the issuance of a term, non-exclusive easement for the portion of state submerged lands fronting the property identified as tax map key: (2) 4-6-003: seaward of 007, Lahaina, Maui, for the maintenance and repair of the existing concrete seawall, and for the use, repair, and maintenance of the existing improvements constructed thereon.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources and one individual.

Your Committee finds that, pursuant to section 171-53, Hawaii Revised Statutes, the Board of Land and Natural Resources may lease submerged lands with the prior approval of the Governor and the prior authorization of the Legislature by concurrent resolution. Your Committee further finds that on October 14, 2016, under agenda item D-9, the Board of Land and Natural Resources approved a grant of a fifty-five-year non-exclusive easement to resolve the encroachments of the concrete seawall identified in this measure. Your Committee notes that the grantees are required to pay the State the fair market value of the easement to be determined by an independent appraisal, which has not yet been completed. Your Committee concludes that the easement is necessary for the maintenance and repair of the existing concrete seawall, and for the use, repair, and maintenance of the existing improvements thereon.

Your Committee has amended this measure by identifying the property owner as Campbell Family Trust pursuant to testimony received from the Department of Land and Natural Resources.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 74, as amended herein, and recommends that it be referred to your Committee on Ways and Means, in the form attached hereto as S.C.R. No. 74, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Inouye, Kim).

SCRep. 1195 International Affairs and the Arts on S.C.R. No. 141

The purpose and intent of this measure is to establish a task force to plan and coordinate the celebration of the one hundred fiftieth anniversary of the first arrival of Japanese emigrants to Hawaii.

Your Committee received testimony in support of this measure from the State Foundation on Culture and the Arts and one individual.

Your Committee finds that the first Japanese emigrants to Hawaii, one hundred forty-seven men and six women from Yokohama, arrived at Honolulu harbor aboard the vessel *Scioto* on June 20, 1868. Your Committee finds that persons of Japanese ancestry and the Japanese community as a whole have subsequently made significant and distinguished contributions to all facets of the rich multicultural history of the Hawaiian Islands and the United States of America. Your Committee further finds that June 20, 2018, will mark the one hundred fiftieth anniversary of the first arrival of Japanese emigrants to Hawaii and a task force within the State Foundation on Culture and the Arts will help to plan and coordinate the celebration of the anniversary.

As affirmed by the record of votes of the members of your Committee on International Affairs and the Arts that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 141 and recommends that it be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (English).

SCRep. 1196 International Affairs and the Arts on S.R. No. 63

The purpose and intent of this measure is to establish a task force to plan and coordinate the celebration of the one hundred fiftieth anniversary of the first arrival of Japanese emigrants to Hawaii.

Your Committee received testimony in support of this measure from the State Foundation on Culture and the Arts and one individual.

Your Committee finds that the first Japanese emigrants to Hawaii, one hundred forty-seven men and six women from Yokohama, arrived at Honolulu harbor aboard the vessel *Scioto* on June 20, 1868. Your Committee finds that persons of Japanese ancestry and the Japanese community as a whole have subsequently made significant and distinguished contributions to all facets of the rich multicultural history of the Hawaiian Islands and the United States of America. Your Committee further finds that June 20, 2018, will mark the one hundred fiftieth anniversary of the first arrival of Japanese emigrants to Hawaii and a task force within the State Foundation on Culture and the Arts will help to plan and coordinate the celebration of the anniversary.

As affirmed by the record of votes of the members of your Committee on International Affairs and the Arts that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 63 and recommends that it be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (English).

SCRep. 1197 Housing on S.C.R. No. 143

The purpose and intent of this measure is to urge the Hawaii Housing Finance and Development Corporation to work with housing stakeholders and other state and county agencies to evaluate and update the rental housing revolving fund program's policies and procedures and reinstate the predevelopment loan program.

Your Committee received comments on this measure from the Hawaii Housing Finance and Development Corporation.

Your Committee finds that a lack of affordable housing, compounded by rising home prices and rental costs, is a significant and challenging problem throughout Hawaii. Your Committee further finds that incentivizing and facilitating the construction of new units are vital to addressing the shortage of affordable housing. Your Committee additionally finds that the rental housing revolving fund program and predevelopment loan program provide much-needed funds for the development, construction, acquisition, and associated costs borne by developers and owners of affordable housing units.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 143 and recommends that it be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Harimoto, Kahele).

SCRep. 1198 Housing on S.R. No. 65

The purpose and intent of this measure is to urge the Hawaii Housing Finance and Development Corporation to work with housing stakeholders and other state and county agencies to evaluate and update the rental housing revolving fund program's policies and procedures and reinstate the predevelopment loan program.

Your Committee received comments on this measure from the Hawaii Housing Finance and Development Corporation.

Your Committee finds that a lack of affordable housing, compounded by rising home prices and rental costs, is a significant and challenging problem throughout Hawaii. Your Committee further finds that incentivizing and facilitating the construction of new units are vital to addressing the shortage of affordable housing. Your Committee additionally finds that the rental housing revolving fund program and predevelopment loan program provide much-needed funds for the development, construction, acquisition, and associated costs borne by developers and owners of affordable housing units.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 65 and recommends that it be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Harimoto, Kahele).

SCRep. 1199 (Joint) Housing and Public Safety, Intergovernmental, and Military Affairs on S.C.R. No. 145

The purpose and intent of this measure is to request that the Hawaii Housing Finance and Development Corporation develop a collaborative plan to best leverage available state and county funds to build affordable housing projects.

Your Committees received testimony in support of this measure from the County of Maui and one individual. Your Committees received comments on this measure from the Hawaii Housing Finance and Development Corporation.

Your Committees find that a lack of affordable housing is a significant, long-standing problem in Hawaii. Your Committees further find that resources exist at the state and county levels that could be effectively coordinated to develop affordable housing units. Your Committees additionally find that these resources include parcels of unused property currently owned by the counties, particularly the county of Maui, some of which are ideal sites for affordable housing units.

Accordingly, your Committees have amended this measure by:

- (1) Inserting language to request the Hawaii Housing Finance and Development Corporation, Department of Accounting and General Services, and the County of Maui to explore the feasibility of transferring a parcel of property for the purpose of developing a mixed-use rental housing project and enter into a memorandum of understanding, if appropriate, to execute the transfer;
- (2) Amending its title accordingly; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Housing and Public Safety, Intergovernmental, and Military Affairs that are attached to this report, your Committees concur with the intent and purpose of S.C.R. No. 145, as amended herein, and recommend that it be referred to your Committee on Ways and Means, in the form attached hereto as S.C.R. No. 145, S.D. 1.

Signed by the Chairs on behalf of the Committees.

Housing: Ayes, 3. Noes, none. Excused, 2 (Harimoto, Kahele).

Public Safety, Intergovernmental, and Military Affairs: Ayes, 3. Noes, none. Excused, 2 (Ihara, Wakai).

SCRep. 1200 (Joint) Housing and Public Safety, Intergovernmental, and Military Affairs on S.R. No. 67

The purpose and intent of this measure is to request that the Hawaii Housing Finance and Development Corporation develop a collaborative plan to best leverage available state and county funds to build affordable housing projects.

Your Committees received testimony in support of this measure from the County of Maui and one individual. Your Committees received comments on this measure from the Hawaii Housing Finance and Development Corporation.

Your Committees find that a lack of affordable housing is a significant, long-standing problem in Hawaii. Your Committees further find that resources exist at the state and county levels that could be effectively coordinated to develop affordable housing units. Your Committees additionally find that these resources include parcels of unused property currently owned by the counties, particularly the county of Maui, some of which are ideal sites for affordable housing units.

Accordingly, your Committees have amended this measure by:

- (1) Inserting language to request the Hawaii Housing Finance and Development Corporation, Department of Accounting and General Services, and the County of Maui to explore the feasibility of transferring a parcel of property for the purpose of developing a mixed-use rental housing project and enter into a memorandum of understanding, if appropriate, to execute the transfer;
- (2) Amending its title accordingly; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Housing and Public Safety, Intergovernmental, and Military Affairs that are attached to this report, your Committees concur with the intent and purpose of S.R. No. 67, as amended herein, and recommend that it be referred to your Committee on Ways and Means, in the form attached hereto as S.R. No. 67, S.D. 1.

Signed by the Chairs on behalf of the Committees.

Housing: Ayes, 3. Noes, none. Excused, 2 (Harimoto, Kahele).

Public Safety, Intergovernmental, and Military Affairs: Ayes, 3. Noes, none. Excused, 2 (Ihara, Wakai).

SCRep. 1201 (Joint) Water and Land and Agriculture and Environment on S.C.R. No. 88

The purpose and intent of this measure is to urge the United States Army Corps of Engineers and Department of Land and Natural Resources to:

- (1) Collaborate to research and develop a plan for increasing water circulation in Pokai Bay on Oahu's Leeward Coast to improve water quality and mitigate environmental and health risks caused by pollution and contaminants in the water; and
- (2) Submit a report on their activities, including significant findings, cost estimates, and any proposed legislation, to the Legislature no later than twenty days prior to the convening of the Regular Session of 2018.

Your Committees received testimony in support of this measure from eleven individuals. Your Committees received testimony in opposition to this measure from the Department of Land and Natural Resources. Your Committees received comments on this measure from one individual.

Your Committees find that Pokai Bay is a popular beach area on the Leeward Coast of Oahu, and over the last decade there have been reports of health and environmental concerns by beach users and the local community. Your Committees further find that concerns about water quality and the need to mitigate health and environmental risks are valid, and that greater, formal research is essential to determine the best path forward to address these concerns. Your Committees conclude that the Army Corps of Engineers and Department of Land and Natural Resources, along with additional collaborators, have the best resources to produce the necessary research and report.

Your Committees have amended this measure by:

- (1) Removing the paragraph regarding health problems among beach users as exact data has not yet been determined;
- (2) Adding the Department of Health, University of Hawaii System, City and County of Honolulu, and Waianae Coast Comprehensive Health Center as collaborators in developing the plan;
- (3) Clarifying that water quality improvement is included in the plan for Pokai Bay;
- (4) Adding the Director of Health, Mayor of the City and County of Honolulu, President of the University of Hawaii System, and Waianae Coast Comprehensive Health Center to the recipients of certified copies;
- (5) Amending its title to reflect its amended purpose; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Water and Land and Agriculture and Environment that are attached to this report, your Committees concur with the intent and purpose of S.C.R. No. 88, as amended herein, and recommend that it be referred to your Committee on Ways and Means, in the form attached hereto as S.C.R. No. 88, S.D. 1.

Signed by the Chairs on behalf of the Committees.

Water and Land: Ayes, 3. Noes, none. Excused, 2 (Inouye, Kim).

Agriculture and Environment: Ayes, 3. Noes, none. Excused, 2 (Nishihara, Ruderman).

SCRep. 1202 (Joint) Water and Land and Agriculture and Environment on S.R. No. 34

The purpose and intent of this measure is to urge the United States Army Corps of Engineers and Department of Land and Natural Resources to:

- (1) Collaborate to research and develop a plan for increasing water circulation in Pokai Bay on Oahu's Leeward Coast to improve water quality and mitigate environmental and health risks caused by pollution and contaminants in the water; and
- (2) Submit a report on their activities, including significant findings, cost estimates, and any proposed legislation, to the Legislature no later than twenty days prior to the convening of the Regular Session of 2018.

Your Committees received testimony in support of this measure from eleven individuals. Your Committees received testimony in opposition to this measure from the Department of Land and Natural Resources. Your Committees received comments on this measure from one individual.

Your Committees find that Pokai Bay is a popular beach area on the Leeward Coast of Oahu, and over the last decade there have been reports of health and environmental concerns by beach users and the local community. Your Committees further find that concerns about water quality and the need to mitigate health and environmental risks are valid, and that greater, formal research is essential to determine the best path forward to address these concerns. As affirmed by the records of votes of the members of your Committees on Water and Land and Agriculture and Environment that are attached to this report, your Committees concur with the intent and purpose of S.R. No. 34, as amended herein, and recommend that it be referred to your Committee on Ways and Means, in the form attached hereto as S.R. No. 34, S.D. 1.

Signed by the Chairs on behalf of the Committees.

Water and Land: Ayes, 3. Noes, none. Excused, 2 (Inouye, Kim).

Agriculture and Environment: Ayes, 3. Noes, none. Excused, 2 (Nishihara, Ruderman).

SCRep. 1203 (Joint) Education and Higher Education on S.C.R. No. 138

The purpose and intent of this measure is to request the Department of Education and University of Hawaii System to develop programming and educational supports for educational assistants and long-term substitute teachers to earn teaching degrees and become full-time certified teachers.

Your Committees received testimony in support of this measure from the Hawaii Government Employees' Association, AFSCME Local 152; Hawaii State Teachers Association; and two individuals. Your Committees received comments on this measure from the Department of Education and University of Hawai'i System.

Your Committees find that Hawaii is experiencing a teacher shortage crisis, resulting in overcrowding and classes that are taught by educational assistants and long-term substitute teachers. Your Committees further find that educational assistants and substitute teachers frequently face significant obstacles to pursuing teacher certification requirements, including scheduling difficulties, lack of financial resources, and scarcity of adequate certification programming.

Your Committees have heard the testimony of the University of Hawaii System expressing concerns that stipend funding to assist educational assistants and substitute teachers will require additional resources. Your Committees request that if your Committee on Ways and Means passes this measure, that it further examine the issue of funding for stipends.

As affirmed by the records of votes of the members of your Committees on Education and Higher Education that are attached to this report, your Committees concur with the intent and purpose of S.C.R. No. 138 and recommend that it be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Education: Ayes, 4. Noes, none. Excused, 1 (Dela Cruz).

Higher Education: Ayes, 3. Noes, none. Excused, 2 (Keith-Agaran, Taniguchi).

SCRep. 1204 (Joint) Education and Higher Education on S.R. No. 59

The purpose and intent of this measure is to request the Department of Education and University of Hawaii System to develop programming and educational supports for educational assistants and long-term substitute teachers to earn teaching degrees and become full-time certified teachers.

Your Committees received testimony in support of this measure from the Hawaii Government Employees' Association, AFSCME Local 152; Hawaii State Teachers Association; and two individuals. Your Committees received comments on this measure from the Department of Education and University of Hawai'i System.

Your Committees find that Hawaii is experiencing a teacher shortage crisis, resulting in overcrowding and classes that are taught by educational assistants and long-term substitute teachers. Your Committees further find that educational assistants and substitute teachers frequently face significant obstacles to pursuing teacher certification requirements, including scheduling difficulties, lack of financial resources, and scarcity of adequate certification programming.

Your Committees have heard the testimony of the University of Hawaii System expressing concerns that stipend funding to assist educational assistants and substitute teachers will require additional resources. Your Committees request that if your Committee on Ways and Means passes this measure, that it further examine the issue of funding for stipends.

As affirmed by the records of votes of the members of your Committees on Education and Higher Education that are attached to this report, your Committees concur with the intent and purpose of S.R. No. 59 and recommend that it be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Education: Ayes, 4. Noes, none. Excused, 1 (Dela Cruz).

Higher Education: Ayes, 3. Noes, none. Excused, 2 (Keith-Agaran, Taniguchi).

SCRep. 1205 (Joint) Education and Higher Education on S.C.R. No. 157

The purpose and intent of this measure is to request that the Department of Health collaborate with the Department of Education, Hawaii Association of Independent Schools, and University of Hawaii to promote awareness of meningococcal disease and the availability of vaccines to prevent it.

Your Committees received testimony in support of this measure from the Department of Education and University of Hawai'i System. Your Committees received comments on this measure from the Department of Health.

Your Committees find that between 800 and 1,500 individuals fall ill from meningococcal disease each year, with infants under one year of age and young adults between the ages of 16 and 23 most commonly impacted by the disease. Your Committees further find that a significant percentage of individuals who fall ill from meningococcal disease suffer serious and long-lasting health impairment up to and including death, even when receiving the best treatment currently available. Your Committees additionally find that vaccination provides extremely effective protection from meningococcal disease. Your Committees also find that, in addition to vaccination, comprehensive information about the disease and effective preventative measures are valuable to students and other individuals at increased risk of exposure to meningococcal disease.

As affirmed by the records of votes of the members of your Committees on Education and Higher Education that are attached to this report, your Committees concur with the intent and purpose of S.C.R. No. 157 and recommend that it be referred to your Committee on Commerce, Consumer Protection, and Health.

Signed by the Chairs on behalf of the Committees.

Education: Ayes, 4. Noes, none. Excused, 1 (Dela Cruz).

Higher Education: Ayes, 3. Noes, none. Excused, 2 (Keith-Agaran, Taniguchi).

SCRep. 1206 (Joint) Human Services and Housing on S.C.R. No. 4

The purpose and intent of this measure is to declare homelessness to be a medical condition in the State for purposes of Medicaid eligibility and to recognize that housing instability is a major health factor that negatively affects homeless individuals' health and well-being.

Your Committees received testimony in support of this measure from Hawaii Habitat for Humanity Association, Faith Action for Community Equity, and one individual. Your Committees received testimony in opposition to this measure from one individual. Your Committees received comments on this measure from the Governor's Coordinator on Homelessness and Department of Human Services.

Your Committees find that homeless persons face a myriad of issues, including general health care, mental illness, substance abuse, loss of employment and income, and a lack of affordable housing. These issues affecting homeless persons also impact the general population as the costs to the entire continuum of care, including hospitals, long-term care facilities, and home-based services, for treating the State's homeless population continue to increase.

Your Committees further find that there is an integral link between health and housing, especially for individuals who are chronically homeless. Without housing, individuals often struggle to address their health conditions, while people who are unable to address their health challenges often struggle to obtain and retain housing. By recognizing the positive impact that housing stability can have on the health care of homeless individuals, committing resources to assist homeless individuals with stable housing will not only improve the health and well-being of homeless individuals, but it will also provide the State with an opportunity to incur less health care costs for homeless individuals over their lifetime.

As affirmed by the records of votes of the members of your Committees on Human Services and Housing that are attached to this report, your Committees concur with the intent and purpose of S.C.R. No. 4 and recommend that it be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Human Services: Ayes, 3. Noes, none. Excused, 2 (Harimoto, Wakai).

Housing: Ayes, 3. Noes, none. Excused, 2 (Harimoto, Kahele).

SCRep. 1207 Hawaiian Affairs on S.C.R. No. 85

The purpose and intent of this measure is to request the Office of Hawaiian Affairs (OHA) to convene a group of Hawaiian leaders, legal scholars, and Hawaiian community members to review whether the manner of selecting and seating OHA trustees could be improved through an appointment process rather than by election, consider the appropriate appointing authority, and consider how to develop a list of the best qualified potential trustees for submittal to the appointing authority.

Your Committee received testimony in support of this measure from the Association of Hawaiian Civic Clubs and two individuals. Your Committee received testimony in opposition to this measure from three individuals. Your Committee received comments on this measure from the Office of Hawaiian Affairs.

Your Committee finds that OHA was created in part to help Native Hawaiians realize a sense of self-determination and self-government. In *Arakaki v. State*, the Ninth Circuit Court of Appeals struck the statutory and constitutional provisions limiting who could run for and be elected to OHA solely to those of Hawaiian ancestry. Your Committee further finds that the ability for Hawaiians to exercise their right to self-determination through the election of OHA trustees has been substantially diminished because non-Hawaiians are entitled to vote for and run for a position as an OHA trustee. Your Committee believes that there are well-qualified individuals with strong ties and stellar records of service to the Hawaiian community, who meet the exacting legal and fiduciary requirements of serving as a trustee, and who would consent to serving as an OHA trustee if they were appointed rather than elected.

Your Committee further finds that it is in the best interests of Hawaiian beneficiaries that the most competent, skillful, mature, and trustworthy individuals serve as trustees over the resources and policies developed and implemented by OHA to better the conditions of Hawaiian beneficiaries. There is a need to review the question of whether the manner of selecting OHA trustees may be improved through an appointment process, to consider the appropriate appointing authority, and how to develop a list of the best qualified potential trustees for submittal to the appointing authority.

Your Committee requests OHA to examine other trusts dedicated to Native Hawaiians as models, such as the Kamehameha Schools/Bishop Estate, which has maximized revenues for the trust in large part because its appointed trustees are experts in their respective fields. Further, your Committee believes that the fiduciary nature of the trustees to the beneficiaries of the trust is inimical to having elected trustees.

As affirmed by the record of votes of the members of your Committee on Hawaiian Affairs that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 85 and recommends that it be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (English, Kim).

SCRep. 1208 Hawaiian Affairs on S.R. No. 33

The purpose and intent of this measure is to request the Office of Hawaiian Affairs (OHA) to convene a group of Hawaiian leaders, legal scholars, and Hawaiian community members to review whether the manner of selecting and seating OHA trustees could be improved through an appointment process rather than by election, consider the appropriate appointing authority, and consider how to develop a list of the best qualified potential trustees for submittal to the appointing authority.

Your Committee received testimony in support of this measure from the Association of Hawaiian Civic Clubs and two individuals. Your Committee received testimony in opposition to this measure from three individuals. Your Committee received comments on this measure from the Office of Hawaiian Affairs.

Your Committee finds that OHA was created in part to help Native Hawaiians realize a sense of self-determination and self-government. In *Arakaki v. State*, the Ninth Circuit Court of Appeals struck the statutory and constitutional provisions limiting who could run for and be elected to OHA solely to those of Hawaiian ancestry. Your Committee further finds that the ability for Hawaiians to exercise their right to self-determination through the election of OHA trustees has been substantially diminished because non-Hawaiians are entitled to vote for and run for a position as an OHA trustee. Your Committee believes that there are well-qualified individuals with strong ties and stellar records of service to the Hawaiian community, who meet the exacting legal and fiduciary requirements of serving as a trustee, and who would consent to serving as an OHA trustee if they were appointed rather than elected.

Your Committee further finds that it is in the best interests of Hawaiian beneficiaries that the most competent, skillful, mature, and trustworthy individuals serve as trustees over the resources and policies developed and implemented by OHA to better the conditions of Hawaiian beneficiaries. There is a need to review the question of whether the manner of selecting OHA trustees may be improved through an appointment process, to consider the appropriate appointing authority, and how to develop a list of the best qualified potential trustees for submittal to the appointing authority.

Your Committee requests OHA to examine other trusts dedicated to Native Hawaiians as models, such as the Kamehameha Schools/Bishop Estate, which has maximized revenues for the trust in large part because its appointed trustees are experts in their respective fields. Further, your Committee believes that the fiduciary nature of the trustees to the beneficiaries of the trust is inimical to having elected trustees.

As affirmed by the record of votes of the members of your Committee on Hawaiian Affairs that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 33 and recommends that it be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (English, Kim).

SCRep. 1209 Economic Development, Tourism, and Technology on S.C.R. No. 129

The purpose and intent of this measure is to request that the Department of Business, Economic Development, and Tourism enter into an agreement with various agencies to develop a master plan for the Hilo International Aerospace and Technology Park.

Your Committee received testimony in support of this measure from the Pacific International Space Center for Exploration Systems and one individual. Your Committee received comments on this measure from the Department of Business, Economic Development, and Tourism; Hawaii Housing Finance and Development Corporation; and High Technology Development Corporation.

Your Committee finds that the development of the Hilo International Aerospace and Technology Park will help create new jobs and support economic development in East Hawaii. The creation of a master plan for the Hilo International Aerospace and Technology Park is an important first step in creating the park. Your Committee further finds that a properly developed and executed master plan will help guide advances in technology education and career tracks for Hawaii residents.

As affirmed by the record of votes of the members of your Committee on Economic Development, Tourism, and Technology that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 129 and recommends that it be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Baker, Galuteria).

SCRep. 1210 Economic Development, Tourism, and Technology on S.R. No. 53

The purpose and intent of this measure is to request that the Department of Business, Economic Development, and Tourism enter into an agreement with various agencies to develop a master plan for the Hilo International Aerospace and Technology Park.

Your Committee received testimony in support of this measure from the Pacific International Space Center for Exploration Systems and one individual. Your Committee received comments on this measure from the Department of Business, Economic Development, and Tourism; Hawaii Housing Finance and Development Corporation; and High Technology Development Corporation.

Your Committee finds that the development of the Hilo International Aerospace and Technology Park will help create new jobs and support economic development in East Hawaii. The creation of a master plan for the Hilo International Aerospace and Technology Park is an important first step in creating the park. Your Committee further finds that a properly developed and executed master plan will help guide advances in technology education and career tracks for Hawaii residents.

As affirmed by the record of votes of the members of your Committee on Economic Development, Tourism, and Technology that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 53 and recommends that it be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Baker, Galuteria).

SCRep. 1211 Economic Development, Tourism, and Technology on S.C.R. No. 72

The purpose and intent of this measure is to request the Auditor to conduct a management audit of the Hawaii Tourism Authority.

Your Committee received testimony in support of this measure from the Hawaii Lodging & Tourism Association, Island Air, and Hawaii Government Employees Association. Your Committee received testimony in opposition to this measure from the Hawaii Tourism Authority and five individuals.

Your Committee finds that the Hawaii Tourism Authority is an important and vital contributor to, and supporter of, the State's top industry. Since its inception, the Hawaii Tourism Authority has been the State's largest single source of public funding for marketing and promotion to help diversify and sustain the industry. The Hawaii Tourism Authority also has access to and expenditure of significant amounts of state funds; as a result, Hawaii legislators provide helpful oversight over the Hawaii Tourism Authority's spending and activities. Thus, your Committee further finds that a management audit of the Hawaii Tourism Authority and a report of findings will help the Legislature encourage prudent management of state resources and better support the vital tourism industry in the State.

As affirmed by the record of votes of the members of your Committee on Economic Development, Tourism, and Technology that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 72 and recommends that it be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Baker, Galuteria).

SCRep. 1212 Economic Development, Tourism, and Technology on S.R. No. 27

The purpose and intent of this measure is to request the Auditor to conduct a management audit of the Hawaii Tourism Authority.

Your Committee received testimony in support of this measure from the Hawaii Lodging & Tourism Association, Island Air, and Hawaii Government Employees Association. Your Committee received testimony in opposition to this measure from the Hawaii Tourism Authority and five individuals.

Your Committee finds that the Hawaii Tourism Authority is an important and vital contributor to, and supporter of, the State's top industry. As affirmed by the record of votes of the members of your Committee on Economic Development, Tourism, and Technology that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 27 and recommends that it be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Baker, Galuteria).

SCRep. 1213 Economic Development, Tourism, and Technology on S.C.R. No. 93

The purpose and intent of this measure is to request that the Department of Taxation upgrade and modernize its communication system.

Your Committee received comments on this measure from the Department of Taxation.

Your Committee finds that the number of calls received by the Department of Taxation's taxpayer services line can reach up to hundreds of calls per day. During high call volume, taxpayers can be put on hold for extended periods of time or told to call back at another time. Your Committee further finds that an upgrade and modernization of the Department of Taxation's communication system is important to ensure taxpayers receive timely and responsive communication.

As affirmed by the record of votes of the members of your Committee on Economic Development, Tourism, and Technology that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 93 and recommends that it be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Baker, Galuteria).

SCRep. 1214 Economic Development, Tourism, and Technology on S.R. No. 37

The purpose and intent of this measure is to request that the Department of Taxation upgrade and modernize its communication system.

Your Committee received comments on this measure from the Department of Taxation.

Your Committee finds that the number of calls received by the Department of Taxation's taxpayer services line can reach up to hundreds of calls per day. During high call volume, taxpayers can be put on hold for extended periods of time or told to call back at another time. Your Committee further finds that an upgrade and modernization of the Department of Taxation's communication system is important to ensure taxpayers receive timely and responsive communication.

As affirmed by the record of votes of the members of your Committee on Economic Development, Tourism, and Technology that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 37 and recommends that it be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Baker, Galuteria).

SCRep. 1215 (Joint) Commerce, Consumer Protection, and Health and Human Services on S.C.R. No. 76

The purpose and intent of this measure is to expand available information regarding Hawaii's homeless population by requesting that healthcare providers and health plans gather data regarding the use of publicly funded medical assistance programs by individuals experiencing homelessness.

Your Committees received testimony in support of this measure from the Department of Human Services, Governor's Coordinator on Homelessness, Hawai'i Pacific Health, and one individual.

Your Committees find that homelessness is a complex issue that continues to require urgent and challenging action in Hawaii. Chronically homeless individuals suffer from many complex health conditions that cannot be addressed without housing, and many individuals are unable to retain housing without needed social and health wrap-around services.

Your Committees further find that more data is needed to benefit the immediate case management and health needs of homeless individuals, as well as for evaluation, analysis, and insight into creative solutions to address homelessness. Specifically, information on the usage of healthcare can assist the Governor, Legislature, and public to make informed policy decisions about the allocation of resources and services necessary to assist the homeless. Your Committees find that use of the ICD-10 diagnosis codes is one method that can be utilized to gather more comprehensive information on the health needs of homeless individuals and the healthcare resources being used to treat individuals who are homeless.

As affirmed by the records of votes of the members of your Committees on Commerce, Consumer Protection, and Health and Human Services that are attached to this report, your Committees concur with the intent and purpose of S.C.R. No. 76 and recommend that it be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Commerce, Consumer Protection, and Health: Ayes, 4. Noes, none. Excused, 3 (Ihara, Kidani, Nishihara).

Human Services: Ayes, 3. Noes, none. Excused, 2 (Tokuda, Wakai).

SCRep. 1216 Commerce, Consumer Protection, and Health on S.C.R. No. 155

The purpose and intent of this measure is to reduce the detrimental health effects of sugar-sweetened beverages by requesting the Legislative Reference Bureau to conduct a study on the benefits of establishing a 1-cent per fluid ounce surcharge on the sale of sugar-sweetened beverages to fund public health programs.

Your Committee received testimony in support of this measure from the Department of Health, Department of Commerce and Consumer Affairs, American Heart Association, American Diabetes Association, Hawai'i Public Health Institute, Hawaii Primary Care Association, Hawai'i Pacific Health, and fifty-four individuals. Your Committee received comments on this measure from the Legislative Reference Bureau.

Your Committee finds that consumption of sugar-sweetened beverages is linked to serious health problems, including but not limited to: weight gain, obesity, prediabetes, diabetes, tooth decay, heart disease, and other health problems. According to a 2004 study, sugared soft drinks are the single largest contributor of caloric intake in the United States. According to nutritional experts, sugar-sweetened beverages, such as non-diet soft drinks, energy drinks, sweet teas, and sports drinks, offer little or no nutritional value and contain massive quantities of added sugars and calories. For example, a twelve-ounce can of soda contains the equivalent of approximately eight to ten teaspoons of sugar, yet the American Heart Association recommends that Americans consume no more than five to nine teaspoons of sugar per day.

Your Committee notes that a recent study found that adults who consumed about one can of soda per day had a forty-six percent higher risk of developing prediabetes. Another study found that people who consume one to two cans of sugary drinks per day have a twenty-six percent greater risk of developing type two diabetes than people who rarely have such drinks. Your Committee also recognizes the link between sugar-sweetened beverages and tooth decay, due to the acids in such beverages eroding tooth enamel. Your Committee finds that young children who drink carbonated sugar-sweetened beverages have almost double the risk of dental caries, and Hawaii has the highest prevalence of tooth decay among third graders in the nation.

Finally, your Committee finds that Americans are drinking more sugar-sweetened beverages than ever before. From 1977 to 2002, Americans doubled the amount of sugar-sweetened beverages they consumed. Your Committee further finds that economic disincentives are among the most effective tools to change behavior, as tobacco taxes have demonstrated. Your Committee concludes that it is important to study the potential benefits of a sugar-sweetened beverage surcharge, as a fee on sugar-sweetened beverages could result in positive fiscal and health impacts for many people in the State.

Your Committee has amended this measure by:

- (1) Requesting the Auditor, rather than the Legislative Reference Bureau, to conduct the study on a sugar-sweetened beverage surcharge;
- (2) Inserting language to clarify that the study will assess the benefits of a sugar-sweetened beverage surcharge on sugar-sweetened beverages sold by distributors to retailers;
- (3) Deleting references to Hawaii's Deposit Beverage Container Program and suggestions to model the sugar-sweetened beverage surcharge program after it;
- (4) Amending its title to reflect its amended purpose; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 155, as amended herein, and recommends that it be referred to your Committee on Ways and Means, in the form attached hereto as S.C.R. No. 155, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 1 (Kidani).

SCRep. 1217 Commerce, Consumer Protection, and Health on S.C.R. No. 132

The purpose and intent of this measure is to request the Auditor to conduct a comprehensive management audit of the Public Utilities Commission.

Your Committee received testimony in support of this measure from the Public Utilities Commission and Hawaii Government Employees Association, AFSCME, Local 152, AFL-CIO. Your Committee received comments on this measure from the Office of the Auditor, Division of Consumer Advocacy of the Department of Commerce and Consumer Affairs, and Life of the Land.

Your Committee finds that the Public Utilities Commission is empowered and mandated to provide effective, proactive, and informed oversight of public utilities, including electric, telephone, and gas companies; sewer and water companies; interisland water carriers; and motor carriers, all of which provide services that are essential to the public interest of the State. However, over the past forty years, the Auditor has conducted management audits of the Public Utilities Commission and has consistently found serious and pervasive problems with staffing, management, and planning. Your Committee therefore finds that it is in the public interest to evaluate the efficiency and effectiveness of the Public Utilities Commission. Accordingly, this measure requests the Auditor to conduct a comprehensive management audit of the Commission.

Your Committee has heard the concerns raised by the Division of Consumer Advocacy that this measure, as written, could suggest that the role of the Consumer Advocate is one of the regulatory responsibilities under the jurisdiction of the Public Utilities Commission. Your Committee notes that although the Commission and the Division of Consumer Advocacy are administratively attached to the same department, the Commission and the Division remain separate agencies with distinct, statutorily-designated powers, duties, and obligations.

Your Committee has amended this measure by:

- (1) Clarifying that the Public Utilities Commission and the Division of Consumer Advocacy are separate agencies with distinct, statutorily-designated powers, duties, and obligations and noting the Division's inclusion in the 2004 management audit of the Commission because the Division represented the interests of all utility consumers;
- (2) Clarifying that the Auditor is requested to examine the role of the Division of Consumer Advocacy to represent, protect, and advance the interests of consumers in proceedings before the Public Utilities Commission; and
- (3) Requesting the Auditor to seek input from the State Energy Office on policy matters associated with the management audit.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 132, as amended herein, and recommends that it be referred to your Committee on Ways and Means, in the form attached hereto as S.C.R. No. 132, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 2 (Kidani, Ruderman).

SCRep. 1218 (Joint) Water and Land and Agriculture and Environment on S.C.R. No. 96

The purpose and intent of this measure is to request the Department of Land and Natural Resources to:

- (1) Support the use of autonomous unmanned surface vessel (AUSV) technology to detect and clean up ocean debris before it reaches Hawaii's reefs and beaches; and
- (2) Evaluate the benefits of using the AUSV system utilized by Clear Blue Sea.

Your Committees received testimony in support of this measure from Clear Blue Sea, Inc.; and two individuals. Your Committees received comments on this measure from the Department of Land and Natural Resources.

Your Committees find that ocean debris pollutes Hawaii's beaches and near shore waters, and has the potential to cause significant harm to reefs and aquatic life. Your Committees support efforts to find new and innovative ways to address the problem of marine pollution. Your Committees note that state jurisdiction extends three miles offshore, and much of the debris that ends up in Hawaii's waters and on its beaches originates from beyond the three-mile boundary.

Your Committees have amended this measure by:

- (1) Amending the purpose to request the Department of Land and Natural Resources, in collaboration with the National Oceanic and Atmospheric Administration, to explore the possibility of using autonomous unmanned surface vessel technology to detect and clean up ocean debris before it reaches Hawaii's reefs and beaches;
- (2) Making conforming amendments to reflect its amended purpose;
- (3) Amending the list of recipients;
- (4) Amending its title to reflect its amended purpose; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Water and Land and Agriculture and Environment that are attached to this report, your Committees concur with the intent and purpose of S.C.R. No. 96, as amended herein, and recommend that it be referred to your Committee on Ways and Means, in the form attached hereto as S.C.R. No. 96, S.D. 1.

Signed by the Chair and Senate President on behalf of the Committees.

Water and Land: Ayes, 3. Noes, none. Excused, 2 (Inouye, Kim).

Agriculture and Environment: Ayes, 3. Noes, none. Excused, 2 (Nishihara, Ruderman).

SCRep. 1219 (Joint) Water and Land and Agriculture and Environment on S.R. No. 40

The purpose and intent of this measure is to request the Department of Land and Natural Resources to:

- (1) Support the use of autonomous unmanned surface vessel (AUSV) technology to detect and clean up ocean debris before it reaches Hawaii's reefs and beaches; and
- (2) Evaluate the benefits of using the AUSV system utilized by Clear Blue Sea.

Your Committees received testimony in support of this measure from Clear Blue Sea, Inc.; and two individuals. Your Committees received comments on this measure from the Department of Land and Natural Resources.

Your Committees find that ocean debris pollutes Hawaii's beaches and near shore waters, and has the potential to cause significant harm to reefs and aquatic life. Your Committees support efforts to find new and innovative ways to address the problem of marine pollution. Your Committees note that state jurisdiction extends three miles offshore, and much of the debris that ends up in Hawaii's waters and on its beaches originates from beyond the three-mile boundary.

Your Committees have amended this measure by:

- (1) Amending the purpose to request the Department of Land and Natural Resources, in collaboration with the National Oceanic and Atmospheric Administration, to explore the possibility of using autonomous unmanned surface vessel technology to detect and clean up ocean debris before it reaches Hawaii's reefs and beaches;
- (2) Making conforming amendments to reflect its amended purpose;
- (3) Amending the list of recipients;
- (4) Amending its title to reflect its amended purpose; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Water and Land and Agriculture and Environment that are attached to this report, your Committees concur with the intent and purpose of S.R. No. 40, as amended herein, and recommend that it be referred to your Committee on Ways and Means, in the form attached hereto as S.R. No. 40, S.D. 1.

Signed by the Chair and Senate President on behalf of the Committees.

Water and Land: Ayes, 3. Noes, none. Excused, 2 (Inouye, Kim).

Agriculture and Environment: Ayes, 3. Noes, none. Excused, 2 (Nishihara, Ruderman).

SCRep. 1220 (Joint) Government Operations and Commerce, Consumer Protection, and Health on S.C.R. No. 116

The purpose and intent of this measure is to encourage each state agency and department to:

- (1) Implement a worksite wellness program consistent with Department of Human Resources Development policies and procedures; and
- (2) Identify a manager to serve as the wellness leader to collaborate with executive management and employees to create a worksite wellness infrastructure, oversee the development and implementation of employee wellness policies and committees, and provide ongoing assessment and monitoring of the effectiveness of the worksite wellness program.

Your Committees received testimony in support of this measure from the Department of Health, Department of Commerce and Consumer Affairs, Hawaii Medical Service Association, American Heart Association, and thirty-six individuals. Your Committees received comments on this measure from the Hawaii Employer-Union Health Benefits Trust Fund (EUTF).

Your Committees find that forty-one states have state-wide wellness programs, and many offer incentives to encourage employee participation. Your Committees find that supporting and encouraging the health and wellness of State employees may lead to increased productivity in the workplace, as well as mitigate individual health care costs, much of which is borne by the State. Your Committees note that there have been ongoing efforts to develop wellness programs by EUTF, and conclude this measure will provide additional support to those efforts.

Your Committees have amended this measure by:

- (1) Amending its title to accurately reflect its purpose; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Government Operations and Commerce, Consumer Protection, and Health that are attached to this report, your Committees concur with the intent and purpose of S.C.R. No. 116, as amended herein, and recommend that it be referred to your Committees on Judiciary and Labor and Ways and Means, in the form attached hereto as S.C.R. No. 116, S.D. 1.

Signed by the Chairs on behalf of the Committees.

Government Operations: Ayes, 3. Noes, none. Excused, 2 (Galuteria, Tokuda).

Commerce, Consumer Protection, and Health: Ayes, 6. Noes, none. Excused, 1 (Kidani).

SCRep. 1221 Government Operations on S.C.R. No. 59

The purpose and intent of this measure is to urge all state departments and agencies to properly consider women-owned businesses when awarding state procurement contracts.

Your Committee received testimony in support of this measure from the State Procurement Office; Department of Transportation; IMUAlliance; AMEL Technologies, Inc.; and one individual.

Your Committee finds that according to data mined from the State Procurement Office website, it appears that women-owned architectural and engineering firms located in Hawaii are severely underrepresented in the awarding of state procurement contracts. Your Committee notes that it can be challenging to navigate and successfully enter the state contracting process when tendencies exist to award contracts to the same businesses time and again. Your Committee finds that a lack of metrics exists regarding the representation of veteran- and Native Hawaiian-owned businesses in the awarding of state contracts, but notes that in all likelihood they face similar challenges and are likewise underrepresented.

Accordingly, your Committee has amended this measure by:

- (1) Inserting a paragraph noting that data is currently unavailable regarding the overall percent of state contracts awarded to women-, veteran-, or Native Hawaiian-owned businesses in Hawaii, but in all likelihood these businesses face challenges in procuring state contracts and are underrepresented in the state procurement process;
- (2) Inserting that veteran- and Native Hawaiian-owned business must be given proper consideration and equal opportunity for procuring state contracts if veteran- and Native Hawaiian-owned business are to succeed and achieve fair representation in the workforce;
- (3) Urging Hawaii's state departments and agencies to duly consider, in addition to women-owned businesses, veteran- and Native Hawaiian-owned business when awarding state contracts;
- (4) Urging Hawaii's state departments and agencies, including the Department of Transportation, Department of Accounting and General Services, Department of Education, and University of Hawaii System, to duly consider women-, veteran-, and Native Hawaiian-owned businesses when awarding state contracts;
- (5) Requesting the Department of Transportation, Department of Accounting and General Services, Department of Education, and University of Hawaii System to submit to the Legislature no later than October 1, 2017, a list of state contracts under their department or agency awarded to women-, veteran-, and Native Hawaiian-owned businesses in the last two years;
- (6) Amending its title to reflect its amended purpose; and
- (7) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Government Operations that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 59, as amended herein, and recommends that it be referred to your Committee on Ways and Means, in the form attached hereto as S.C.R. No. 59, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Tokuda).

SCRep. 1222 (Joint) Government Operations and Public Safety, Intergovernmental, and Military Affairs and Agriculture and Environment on S.R. No. 42

The purpose and intent of this measure is to request the applicable state and county agencies to update their administrative rules to retain or implement environmental protection standards found in specified federal laws in existence as of January 1, 2016, or January 1, 2017, whichever provide more stringent standards, regardless of actions taken at the federal level.

Your Committees received testimony in support of this measure from the Department of Land and Natural Resources, Conservation Council for Hawai'i, Animal Rights Hawai'i, Hawaii's Thousand Friends, and six individuals. Your Committees received comments on this measure from Life of the Land.

Your Committees find that it will increasingly be the responsibility of state and local governments to safeguard their land and water resources, protect endangered species, and preserve air quality. Your Committees note that Hawaii, with its exceptional, unique, and delicately balanced resources, the protection of which is vital to the health of the people and economy of the State, must remain vigilant in efforts to preserve its abundance of natural resources. Your Committees find that this is a public health matter of significant importance, and encouraging local leadership to take accountability and assist in ensuring strong environmental standards at a local level will benefit all people of Hawaii.

As affirmed by the records of votes of the members of your Committees on Government Operations, Public Safety, Intergovernmental, and Military Affairs, and Agriculture and Environment that are attached to this report, your Committees concur with the intent and purpose of S.R. No. 42 and recommend that it be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
Government Operations: Ayes, 4. Noes, none. Excused, 1 (Tokuda).
Public Safety, Intergovernmental, and Military Affairs: Ayes, 4. Noes, none. Excused, 1 (Wakai).
Agriculture and Environment: Ayes, 4. Noes, none. Excused, 1 (Riviere).

SCRep. 1223 (Joint) Government Operations and Public Safety, Intergovernmental, and Military Affairs and Agriculture and Environment on S.C.R. No. 98

The purpose and intent of this measure is to request the applicable state and county agencies to update their administrative rules to retain or implement environmental protection standards found in specified federal laws in existence as of January 1, 2016, or January 1, 2017, whichever provide more stringent standards, regardless of actions taken at the federal level.

Your Committees received testimony in support of this measure from the Department of Land and Natural Resources, Conservation Council for Hawai'i, Animal Rights Hawai'i, Hawaii's Thousand Friends, and six individuals. Your Committees received comments on this measure from Life of the Land.

Your Committees find that it will increasingly be the responsibility of state and local governments to safeguard their land and water resources, protect endangered species, and preserve air quality. Your Committees note that Hawaii, with its exceptional, unique, and delicately balanced resources, the protection of which is vital to the health of the people and economy of the State, must remain vigilant in efforts to preserve its abundance of natural resources. Your Committees find that this is a public health matter of significant importance, and encouraging local leadership to take accountability and assist in ensuring strong environmental standards at a local level will benefit all people of Hawaii.

As affirmed by the records of votes of the members of your Committees on Government Operations, Public Safety, Intergovernmental, and Military Affairs, and Agriculture and Environment that are attached to this report, your Committees concur with the intent and purpose of S.C.R. No. 98 and recommend that it be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Government Operations: Ayes, 4. Noes, none. Excused, 1 (Tokuda).

SCRep. 1224 (Joint) Higher Education and International Affairs and the Arts and Economic Development, Tourism, and Technology on S.C.R. No. 146

The purpose and intent of this measure is to request the University of Hawaii to establish a student exchange compact between the University of Hawaii System and the University of Northern Philippines College of Hospitality and Tourism Management and the Ilocos Sur Community College Tourism Management Program.

Your Committees received testimony in support of this measure from the Consulate General of the Republic of the Philippines Honolulu and two individuals. Your Committees received comments on this measure from the University of Hawai'i System.

Your Committees find that a well-established, historical relationship exists between Hawaii and the Philippines, including legislative action in 1985 that established Hawaii's first sister-state relationship with the Philippines, with the Province of Ilocos Sur. Your Committees further find that Ilocos Sur Community College has an established tourism management program and the University of Northern Philippines has a college of hospitality and tourism management. Your Committees additionally find that the University of Hawaii System, through the Manoa School of Travel Industry Management, the hospitality and tourism programs of University of Hawaii West Oahu, and participating community colleges have the opportunity to become exemplary programs in hospitality, tourism, and transportation management by pursuing opportunities such as a student exchange program compact with schools in the Philippines. Your Committees appreciate the University of Hawaii's support for a Philippines-Hawaii tourism college student exchange program and recognize that implementation of such a program at the University will take some time.

Your Committees have amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Higher Education, International Affairs and the Arts, and Economic Development, Tourism, and Technology that are attached to this report, your Committees concur with the intent and purpose of S.C.R. No. 146, as amended herein, and recommend that it be referred to your Committee on Ways and Means, in the form attached hereto as S.C.R. No. 146, S.D. 1.

Signed by the Chairs on behalf of the Committees.

Higher Education: Ayes, 4. Noes, none. Excused, 1 (Keith-Agaran).

International Affairs and the Arts: Ayes, 3. Noes, none. Excused, 2 (English, Shimabukuro).

Economic Development, Tourism, and Technology: Ayes, 3. Noes, none. Excused, 2 (Baker, Galuteria).

SCRep. 1225 (Joint) Higher Education and International Affairs and the Arts and Economic Development, Tourism, and Technology on S.R. No. 68

The purpose and intent of this measure is to request the University of Hawaii to establish a student exchange compact between the University of Hawaii System and the University of Northern Philippines College of Hospitality and Tourism Management and the Ilocos Sur Community College Tourism Management Program.

Your Committees received testimony in support of this measure from the Consulate General of the Republic of the Philippines Honolulu and two individuals. Your Committees received comments on this measure from the University of Hawai'i System.

Your Committees find that a well-established, historical relationship exists between Hawaii and the Philippines, including legislative action in 1985 that established Hawaii's first sister-state relationship with the Philippines, with the Province of Ilocos Sur. Your Committees further find that Ilocos Sur Community College has an established tourism management program and the University of Northern Philippines has a college of hospitality and tourism management. Your Committees additionally find that the University of Hawaii System, through the Manoa School of Travel Industry Management, the hospitality and tourism programs of University of Hawaii West Oahu, and participating community colleges have the opportunity to become exemplary programs in hospitality, tourism, and transportation management by pursuing opportunities such as a student exchange program compact with schools in the Philippines.

Your Committees appreciate the University of Hawaii's support for a Philippines-Hawaii tourism college student exchange program and recognize that implementation of such a program at the University will take some time.

Your Committees have amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Higher Education, International Affairs and the Arts, and Economic Development, Tourism, and Technology that are attached to this report, your Committees concur with the intent and purpose of S.R. No. 68, as amended herein, and recommend that it be referred to your Committee on Ways and Means, in the form attached hereto as S.R. No. 68, S.D. 1.

Signed by the Chairs on behalf of the Committees.

Higher Education: Ayes, 4. Noes, none. Excused, 1 (Keith-Agaran).

International Affairs and the Arts: Ayes, 3. Noes, none. Excused, 2 (English, Shimabukuro).

Economic Development, Tourism, and Technology: Ayes, 3. Noes, none. Excused, 2 (Baker, Galuteria).

SCRep. 1226 Higher Education on S.C.R. No. 175

The purpose and intent of this measure is to urge the University of Hawaii to examine the status of the University's online programs to consider increasing its online accredited courses and degree programs.

Your Committee received testimony in support of this measure from three individuals. Your Committee received comments on this measure from the University of Hawai'i System.

Your Committee finds that online courses and degree programs are increasingly important to provide access to education for as many students as possible. Your Committee further finds that while the University of Hawaii offers many online courses and some online degree and certificate programs, the University could make stronger efforts to expand its online accredited programs. Your Committee notes that the University of Hawaii has the opportunity to offer unique and valuable perspectives to local and out-of-state students on many issues, and to potentially make higher education an option for individuals who are not able to attend courses in person.

Your Committee has amended this measure by:

- (1) Inserting a provision urging the University of Hawaii to examine whether a reduced tuition rate for students of online courses and programs would help incentivize potential students to pursue higher education;
- (2) Requesting that the University of Hawaii Professional Assembly receive a copy; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Higher Education that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 175, as amended herein, and recommends that it be referred to your Committee on Ways and Means, in the form attached hereto as S.C.R. No. 175, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Keith-Agaran, Taniguchi).

SCRep. 1227 (Joint) Higher Education and Agriculture and Environment on S.C.R. No. 160

The purpose and intent of this measure is to request that the University of Hawaii investigate mosquito elimination techniques, the estimated cost of establishing a statewide mosquito eradication program, and the expected environmental impacts of such a program.

Your Committees received testimony in support of this measure from the Hawaii Pest Control Association, Conservation Council for Hawai'i, and four individuals. Your Committees received comments on this measure from the University of Hawai'i System, Department of Land and Natural Resources, and two individuals.

Your Committees find that mosquitos are not native to Hawaii and were introduced to the State in the late 1800s. Your Committees further find that mosquitos are a threat to human health, and without sufficient eradication efforts mosquito-borne diseases, such as dengue fever and zika virus, are likely to become established in Hawaii. Your Committees additionally find that the continued survival of the State's native forest birds also requires mosquito control and elimination.

Your Committees recognize that a Statewide Mosquito Working Group exists and is facilitated by the Department of Land and Natural Resources, and that multiple units of the University of Hawaii and other state agencies are invested in mosquito eradication research and efforts. Additionally, your Committees note that mosquito elimination techniques can be tailored, to the extent possible, to target strains of mosquitos that pose threats to human health and native animals.

Accordingly, your Committees have amended this measure by:

- (1) Deleting language about specific mosquito eradication techniques and making references to mosquito elimination techniques more general;
- (2) Inserting a provision indicating that the Department of Land and Natural Resources currently facilitates a Statewide Mosquito Working Group comprised of state and federal agencies and institutions that contribute to mosquito surveillance, control, and research;
- (3) Inserting language to request that the University of Hawaii collaborate with the Department of Land and Natural Resources to study mosquito elimination rather than the College of Tropical Agriculture and Human Resources at the University of Hawaii at Manoa and the College of Agriculture, Forestry, and Natural Resource Management at the University of Hawaii at Hilo;

- (4) Inserting language to include consideration of organic methods of mosquito control; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Higher Education and Agriculture and Environment that are attached to this report, your Committees concur with the intent and purpose of S.C.R. No. 160, as amended herein, and recommend that it be referred to your Committee on Ways and Means, in the form attached hereto as S.C.R. No. 160, S.D. 1.

Signed by the Chairs on behalf of the Committees.

Higher Education: Ayes, 4. Noes, none. Excused, 1 (Keith-Agaran).

Agriculture and Environment: Ayes, 3. Noes, none. Excused, 2 (Nishihara, Ruderman).

SCRep. 1228 Higher Education on S.C.R. No. 139

The purpose and intent of this measure is to address a disparity in the allocation of funds between the Colleges of Arts and Sciences and other colleges of the University of Hawaii by requesting that the University of Hawaii at Manoa adopt a budget model that allocates resources according to a transparent and equitable formula.

Your Committee received testimony in support of this measure from the Graduate Student Organization at the University of Hawai'i at Mānoa, Associated Students of the University of Hawai'i at Mānoa, and seven individuals. Your Committee received testimony in opposition to this measure from the University of Hawai'i System.

While your Committee is in strong support of this measure and a more equitable allocation of resources at the University of Hawaii at Manoa, your Committee finds that S.R. No. 60 (Regular Session 2017) was passed by your Committee to address the budgetary inequities at the University, and your Committee has decided to utilize this measure to respond to recent action taken by the federal Administration related to the collection of fees charged by student loan guaranty agencies when individuals default on their student loans.

Your Committee finds that on July 10, 2015, the United States Department of Education issued policy guidance clarifying that borrowers of defaulted student loans made under the Federal Family Education Loan Program were protected from a sixteen percent collection fee on their unpaid principal and interest, if they entered rehabilitation within sixty days of being contacted by their guaranty agencies. Your Committee further finds that on March 16, 2017, President Donald Trump's Administration revoked the federal guidance issued by President Obama that barred student debt collectors from charging high fees on past-due loans, making individuals who default on Federal Family Education Loan Program loans once again susceptible to a sixteen percent collection fee on their unpaid principal and interest, even if they enter rehabilitation within sixty days of being contacted by their guaranty agencies.

Your Committee notes that the recent memo by the Trump Administration could impact nearly 7,000,000 people with \$162,000,000,000 in Federal Family Education Program Loans held by guaranty agencies. Your Committee is concerned about the student loan default crisis that exists nationwide, and recent action taken by President Donald Trump's administration that fails to protect certain individuals with student loans from steep and unnecessary collection fees.

Accordingly, your Committee has amended this measure by deleting its contents and inserting language to:

- (1) Provide a history of the situation that preceded the Dear Colleague Letter GEN 17-02 issued on March 16, 2017, by the United States Department of Education;
- (2) Urge the President of the United States and United States Department of Education to reconsider the letter and reinstate previous guidance that prohibited student loan guaranty agencies from imposing collection fees on borrowers in default who promptly enter rehabilitation agreements;
- (3) Request the Secretary of Education and Trump Administration to support legislation or take administrative action that would allow borrowers in default a chance to rehabilitate their loans and successfully repay student debt without being charged steep collection fees by guaranty agencies;
- (4) Amend its title accordingly; and
- (5) Make technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Higher Education that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 139, as amended herein, and recommends that it be referred to your Committee on Ways and Means, in the form attached hereto as S.C.R. No. 139, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Espero, Taniguchi).

SCRep. 1229 Public Safety, Intergovernmental, and Military Affairs on S.C.R. No. 126

The purpose and intent of this measure is to request the Judiciary to convene a task force to examine and make recommendations regarding criminal pretrial practices and procedures to maximize public safety, court appearances, and pretrial release.

Your Committee received testimony in support of this measure from the Judiciary, State of Hawai'i; Department of Public Safety; Community Alliance on Prisons; and Domestic Violence Action Center. Your Committee received comments on this measure from the Legislative Reference Bureau.

Your Committee finds that reforming the correctional system to implement effective and efficient pretrial release policies is important for protecting the rights of the public and the accused. Proper pretrial release procedures allow officials to assess flight and danger risks and provide guidance for the proper supervision for different types or levels of risk. In addition, better pretrial procedures would help the State combat the overcrowding in its correctional facilities.

Your Committee has amended this measure by:

- (1) Adding a representative of the Legislative Reference Bureau to the Criminal Pretrial Task Force; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 126, as amended herein, and recommends that it be referred to your Committee on Judiciary and Labor, in the form attached hereto as S.C.R. No. 126, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Wakai).

SCRep. 1230 Public Safety, Intergovernmental, and Military Affairs on S.C.R. No. 130

The purpose and intent of this measure is to urge the State Sheriff to create a working group to develop a plan for expanding and deploying the special operations K9 unit to combat the illicit drug abuse epidemic in the State.

Your Committee received comments on this measure from the Department of Public Safety.

Your Committee finds that abuse of illicit drugs is an epidemic that threatens the health, safety, and welfare of the people in Hawaii. Drug-detecting canines, which have been widely-used across the globe, can be an effective tool in combatting this epidemic. Your Committee finds that the expanded use of drug-detecting canines may help curtail the spread of the dangerous and deadly epidemic of illicit drug abuse across the State.

However, your Committee understands the many concerns raised by the Department of Public Safety, including the expenses related to an expanded canine program and the lack of any involvement by the Department of Transportation or prosecutors' offices in the proposed working group.

Accordingly, your Committee has amended this measure by:

- (1) Shifting the focus of the working group to the development of a course of action and possible operations to combat the drug epidemic in the State, including but not limited to the possibility of expanding the statewide K9 operations unit, and making conforming amendments throughout;
- (2) Adding a representative from the Department of Transportation, United States Attorney's Office for the District of Hawaii, Department of the Attorney General, and each county prosecutors' department or office to the working group;
- (3) Amending its title to reflect the amended purpose; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 130, as amended herein, and recommends that it be referred to your Committees on Judiciary and Labor and Ways and Means, in the form attached hereto as S.C.R. No. 130, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Wakai).

SCRep. 1231 Public Safety, Intergovernmental, and Military Affairs on S.R. No. 54

The purpose and intent of this measure is to urge the State Sheriff to create a working group to develop a plan for expanding and deploying the special operations K9 unit to combat the illicit drug abuse epidemic in the State.

Your Committee received comments on this measure from the Department of Public Safety.

Your Committee finds that abuse of illicit drugs is an epidemic that threatens the health, safety, and welfare of the people in Hawaii. Drug-detecting canines, which have been widely-used across the globe, can be an effective tool in combatting this epidemic. Your Committee finds that the expanded use of drug-detecting canines may help curtail the spread of the dangerous and deadly epidemic of illicit drug abuse across the State.

However, your Committee understands the many concerns raised by the Department of Public Safety, including the expenses related to an expanded canine program and the lack of any involvement by the Department of Transportation or prosecutors' offices in the proposed working group.

Accordingly, your Committee has amended this measure by:

- (1) Shifting the focus of the working group to the development of a course of action and possible operations to combat the drug epidemic in the State, including but not limited to the possibility of expanding the statewide K9 operations unit, and making conforming amendments throughout;
- (2) Adding a representative from the Department of Transportation, United States Attorney's Office for the District of Hawaii, Department of the Attorney General, and each county prosecutors' department or office to the working group;
- (3) Amending its title to reflect the amended purpose; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 54, as amended herein, and recommends that it be referred to your Committees on Judiciary and Labor and Ways and Means, in the form attached hereto as S.R. No. 54, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Wakai).

SCRep. 1232 Public Safety, Intergovernmental, and Military Affairs on S.C.R. No. 54

The purpose and intent of this measure is to request the United States Department of Veteran Affairs to take certain actions to provide Compact of Free Association veterans equal quality and access to health care as veterans in United States territories.

Your Committee received testimony in support of this measure from the State Office of Veterans Affairs.

Your Committee finds that it is important to take care of all veterans in order to promote the public well-being. The United States entered into the Compact of Free Associations (COFA) with the Republic of Palau, Federated States of Micronesia, and Republic of the Marshall Islands for the purpose of protecting the territorial integrity of those islands. However, unlike Pacific Islanders from the United States territories of Guam and the Northern Marianas Islands, those Pacific Islanders from the COFA islands who serve the United States Department of Defense do not receive full health benefits from the Department of Defense. The lack of health benefits for veterans of the COFA nations is a glaring inequity that should not continue. Therefore, your Committee requests that the Department of Veterans Affairs provide Pacific Islander veterans of the COFA nations full health benefits. If the Department of Veterans Affairs chooses not to provide health benefits to COFA veterans, then Department of Defense recruiters are requested to inform recruits of the lack of health care benefits after service through a signed waiver.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 54 and recommends that it be referred to your Committees on Commerce, Consumer Protection, and Health and Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Wakai).

SCRep. 1233 Public Safety, Intergovernmental, and Military Affairs on S.R. No. 16

The purpose and intent of this measure is to request the United States Department of Veteran Affairs to take certain actions to provide Compact of Free Association veterans equal quality and access to health care as veterans in United States territories.

Your Committee received testimony in support of this measure from the State Office of Veterans Affairs.

Your Committee finds that it is important to take care of all veterans in order to promote the public well-being. The United States entered into the Compact of Free Associations (COFA) with the Republic of Palau, Federated States of Micronesia, and Republic of the Marshall Islands for the purpose of protecting the territorial integrity of those islands. However, unlike Pacific Islanders from the United States territories of Guam and the Northern Marianas Islands, those Pacific Islanders from the COFA islands who serve the United States Department of Defense do not receive full health benefits from the Department of Defense. The lack of health benefits for veterans of the COFA nations is a glaring inequity that should not continue. Therefore, your Committee requests that the Department of Veterans Affairs provide Pacific Islander veterans of the COFA nations full health benefits. If the Department of Veterans Affairs chooses not to provide health benefits to COFA veterans, then Department of Defense recruiters are requested to inform recruits of the lack of health care benefits after service through a signed waiver.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 16 and recommends that it be referred to your Committees on Commerce, Consumer Protection, and Health and Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Wakai).

SCRep. 1234 Public Safety, Intergovernmental, and Military Affairs on S.C.R. No. 55

The purpose and intent of this measure is to urge the City and County of Honolulu to name a street after Martin Luther King, Jr.

Your Committee received testimony in support of this measure from the Hawai'i Civil Rights Commission.

Your Committee finds that honoring Martin Luther King, Jr., is a noble and worthy endeavor. Dr. King was a renowned advocate for nonviolent protest and civil disobedience and was a hero of the American civil rights movement. Currently, there are forty-two states that have at least one street named after Dr. King. Hawaii is one of the few remaining states that has yet to name a street in Dr. King's honor. Your Committee finds that it is important to honor Martin Luther King, Jr., and celebrate his legacy. The City and County of Honolulu is therefore urged to name a street after Martin Luther King, Jr.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 55 and recommends that it be referred to your Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Wakai).

SCRep. 1235 Public Safety, Intergovernmental, and Military Affairs on S.R. No. 17

The purpose and intent of this measure is to urge the City and County of Honolulu to name a street after Martin Luther King, Jr.

Your Committee received testimony in support of this measure from the Hawai'i Civil Rights Commission.

Your Committee finds that honoring Martin Luther King, Jr., is a noble and worthy endeavor. Dr. King was a renowned advocate for nonviolent protest and civil disobedience and was a hero of the American civil rights movement. Currently, there are forty-two states that have at least one street named after Dr. King. Hawaii is one of the few remaining states that has yet to name a street in Dr. King's honor. Your Committee finds that it is important to honor Martin Luther King, Jr., and celebrate his legacy. The City and County of Honolulu is therefore urged to name a street after Martin Luther King, Jr.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 17 and recommends that it be referred to your Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Wakai).

SCRep. 1236 Public Safety, Intergovernmental, and Military Affairs on S.C.R. No. 100

The purpose and intent of this measure is to:

- (1) Urge law enforcement agencies to follow the guidelines developed by the Malama Kakou Project for the testing of sexual assault evidence collection kits;
- (2) Request the appropriate law enforcement agencies to submit sexual assault evidence collection kits that meet the testing guidelines to a laboratory for testing within ninety days and subsequently follow-up with that laboratory within ninety days of the request; and
- (3) Request an annual report from the Department of the Attorney General on the testing of sexual assault evidence collection kits in the State.

Your Committee received testimony in support of this measure from the Community Alliance on Prisons and Planned Parenthood Votes Northwest and Hawaii. Your Committee received comments on this measure from the Honolulu Police Department.

Your Committee finds that reducing the incidence of sexual assault and ensuring the rights of sexual assault victims are vital to ensuring public health and safety. A 2016 inventory of all four county police departments showed that barely ten percent of all sexual assault evidence collection kits collected in the State since 1992 had been tested. In 2016, at the direction of the Legislature, the Attorney General convened a working group to develop statewide standards and practices for the testing of sexual assault evidence collection kits. This working group developed the Malama Kakou Project, a state plan to reform the testing of sexual assault evidence collection kits. The Malama Kakou Project established guidelines to determine whether a kit should be tested, a priority order for kits that are to be tested, and a process for police departments to follow in implementing the defined criteria and priorities. Your Committee finds that the recommendations of the Malama Kakou Project would greatly enhance the process for testing sexual assault evidence collection kits. Therefore, all law enforcement agencies in the State charged with collecting sexual assault evidence collection kits are urged to follow the guidelines developed by the Malama Kakou Project.

Your Committee notes the testimony of the Honolulu Police Department regarding funding for the testing of sexual assault collection kits. New sexual assault collection kits would not be covered by the 2016 National Sexual Assault Kit Initiative (SAKI) grant. Therefore, it may be necessary to appropriate funds for the testing of new sexual assault evidence collection kits. Your Committee suggests that your Committees on Judiciary and Labor and Ways and Means inquire further into this issue of funding should they hear this resolution.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 100 and recommends that it be referred to your Committees on Judiciary and Labor and Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Wakai).

SCRep. 1237 Public Safety, Intergovernmental, and Military Affairs on S.R. No. 44

The purpose and intent of this measure is to:

- (1) Urge law enforcement agencies to follow the guidelines developed by the Malama Kakou Project for the testing of sexual assault evidence collection kits;
- (2) Request the appropriate law enforcement agencies to submit sexual assault evidence collection kits that meet the testing guidelines to a laboratory for testing within ninety days and subsequently follow-up with that laboratory within ninety days of the request; and
- (3) Request an annual report from the Department of the Attorney General on the testing of sexual assault evidence collection kits in the State.

Your Committee received testimony in support of this measure from the Community Alliance on Prisons and Planned Parenthood Votes Northwest and Hawaii. Your Committee received comments on this measure from the Honolulu Police Department.

Your Committee finds that reducing the incidence of sexual assault and ensuring the rights of sexual assault victims are vital to ensuring public health and safety. A 2016 inventory of all four county police departments showed that barely ten percent of all sexual assault evidence collection kits collected in the State since 1992 had been tested. In 2016, at the direction of the Legislature, the Attorney General convened a working group to develop statewide standards and practices for the testing of sexual assault evidence collection kits. This working group developed the Malama Kakou Project, a state plan to reform the testing of sexual assault evidence collection kits. The Malama Kakou Project established guidelines to determine whether a kit should be tested, a priority order for kits that are to be tested, and a process for police departments to follow in implementing the defined criteria and priorities. Your

Committee finds that the recommendations of the Malama Kakou Project would greatly enhance the process for testing sexual assault evidence collection kits. Therefore, all law enforcement agencies in the State charged with collecting sexual assault evidence collection kits are urged to follow the guidelines developed by the Malama Kakou Project.

Your Committee notes the testimony of the Honolulu Police Department regarding funding for the testing of sexual assault collection kits. New sexual assault collection kits would not be covered by the 2016 National Sexual Assault Kit Initiative (SAKI) grant. Therefore, it may be necessary to appropriate funds for the testing of new sexual assault evidence collection kits. Your Committee suggests that your Committees on Judiciary and Labor and Ways and Means inquire further into this issue of funding should they hear this resolution.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 44 and recommends that it be referred to your Committees on Judiciary and Labor and Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Wakai).

SCRep. 1238 Public Safety, Intergovernmental, and Military Affairs on S.C.R. No. 82

The purpose and intent of this measure is to request the Department of Public Safety to establish a task force to make recommendations for the implementation of a correctional training and professional development office.

Your Committee received testimony in opposition to this measure from the Department of Public Safety. Your Committee received comments on this measure from the Community Alliance on Prisons.

Your Committee finds that maintaining a properly trained public safety workforce is vital to protecting the public's health, safety, and well-being. Currently, the Department of Public Safety, which employs approximately two thousand five hundred individuals, lacks a standardized training program for correctional employees. Your Committee finds that a proper training program for these employees would help to sustain a skilled and experienced workforce and assist these employees in better managing the inmate population of state correctional facilities.

Your Committee understands from the testimony of the Department of Public Safety that the Department already operates a training academy that is providing instruction to employees. Consequently, your Committee understands that the establishment of a new task force is unnecessary.

Accordingly, your Committee has amended this measure by:

- (1) Repealing the establishment of a new task force and all related task force requirements;
- (2) Requiring that the task force established pursuant to H.C.R. No. 85, H.D. 2, S.D. 1, Regular Session of 2016, submit a report to the Legislature on the current status, staffing, resources, curriculum, and levels of staff participation at the Department of Public Safety training academy to the Legislature prior to the convening of the Regular Session of 2018;
- (3) Amending its title accordingly; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 82, as amended herein, and recommends that it be referred to your Committees on Judiciary and Labor and Ways and Means, in the form attached hereto as S.C.R. No. 82, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Wakai).

SCRep. 1239 Public Safety, Intergovernmental, and Military Affairs on S.C.R. No. 131

The purpose and intent of this measure is to urge the Governor, the Attorney General, the mayors of each county, and various state and county leaders to uphold the constitutions of the United States and Hawaii to preserve and protect civil rights and ensure the safety of immigrants in the State.

Your Committee received testimony in support of this measure from the IMUAlliance, Planned Parenthood Votes Northwest and Hawaii, and one individual.

Your Committee finds that protecting and preserving the civil rights of all members of the community are essential to promoting and protecting the public welfare. The guarantees of certain civil rights are enshrined in the federal and state constitutions. Recent actions and statements emanating from the executive branch of the federal government have created uncertainty as it relates to the protection of certain individual civil rights, particularly as those protections pertain to immigrant communities. Immigrant communities, especially in this State, make vital social, cultural, and economic contributions to our society. It is therefore critical that government work to ensure that the rights of immigrants are not illegally infringed upon. To ensure the protection of all citizens' civil rights, and particularly those of immigrants, state and county agencies and law enforcement officers are urged to uphold the federal and state constitutions and to resist any illegal actions that the federal government might take that would threaten the constitutionally protected rights of all citizens, including immigrants.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 131 and recommends that it be referred to your Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Wakai).

SCRep. 1240 Public Safety, Intergovernmental, and Military Affairs on S.C.R. No. 117

The purpose and intent of this measure is to encourage the continuation and expansion of community-based work furlough programs to help female inmates transition back into society.

Your Committee received testimony in support of this measure from the Department of Public Safety, Office of Hawaiian Affairs, Community Alliance on Prisons, and YWCA O'ahu.

Your Committee finds that supporting the expanded use of alternatives to incarceration is essential for promoting public welfare and reforming the State's correctional system. The expanded use of alternatives to incarceration is particularly important for the State's population of female inmates. The majority of female inmates are nonviolent offenders who do not pose a threat to the community. In addition, many female inmates are the mothers of minor children, and their incarceration threatens the destruction of the family unit. Further, many female offenders are re-incarcerated if they do not receive proper support during their transition back into society. Community-based work furlough programs can be an effective means of transitioning inmates back into society. Moreover, these work furlough programs can help reduce incarceration costs, reduce recidivism, and create safer communities. Accordingly, community-based work furlough programs designed to help female inmates transition back into society should be continued and expanded.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 117 and recommends that it be referred to your Committees on Judiciary and Labor and Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Wakai).

SCRep. 1241 (Joint) Public Safety, Intergovernmental, and Military Affairs and Housing on S.C.R. No. 14

The purpose and intent of this measure is to request the counties to consider providing incentives, such as waiving infrastructure capacity costs and permitting fees, for developers to develop housing for households earning less than eighty percent of the area median income.

Your Committees received testimony in support of this measure from the Office of Hawaiian Affairs, Hawaii Habitat for Humanity Association, FACE, and one individual.

Your Committees find that the lack of affordable housing across the State is a serious issue that threatens the public's health, safety, and well-being. The cost of housing across the State has made it nearly impossible for most families to afford to buy or rent housing. Therefore, it is essential to implement policies that encourage developers to develop affordable housing. Accordingly, each of the county councils is encouraged to provide incentives, such as waiving infrastructure capacity costs and permitting fees, for developers to develop housing for households earning less than eighty percent of the area median income. The county councils are further encouraged to develop a sliding scale of incentives based on the affordability of housing units in a development and consider how such a sliding scale may encourage developers to develop more affordable housing for households earning below eighty percent and up to one hundred forty percent of the area median income.

As affirmed by the records of votes of the members of your Committees on Public Safety, Intergovernmental, and Military Affairs and Housing that are attached to this report, your Committees concur with the intent and purpose of S.C.R. No. 14 and recommend that it be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Public Safety, Intergovernmental, and Military Affairs: Ayes, 3. Noes, none. Excused, 2 (Ihara, Wakai).

Housing: Ayes, 3. Noes, none. Excused, 2 (Harimoto, Kahele).

SCRep. 1242 (Joint) Public Safety, Intergovernmental, and Military Affairs and Water and Land on S.C.R. No. 102

The purpose and intent of this measure is to endorse and adopt the United Nations seventeen sustainable development goals as part of a framework for addressing and assessing Hawaii's efforts toward social justice and sustainability and urge each county to endorse and use the same United Nations sustainable development goals to measure their efforts toward social justice and sustainability.

Your Committees received testimony in support of this measure from the Hawaii Institute for Human Rights, IMU Alliance, Planned Parenthood Votes Northwest and Hawaii, United Nations Association, and three individuals.

Your Committees find that promoting social justice and sustainability will help secure the future health, safety, and well-being of the public. In 2015, the United Nations adopted the 2030 Development Agenda aimed at ending poverty, protecting the planet, and ensuring that all people enjoy peace and prosperity. The Development Agenda contains seventeen sustainable development goals. Adopting and adhering to these goals will help to ensure that as the State moves forward, no individuals in the State are left behind. Therefore, the Legislature pledges to endorse, accept, and adopt the United Nations seventeen sustainable development goals as a framework for addressing and assessing the State's progress toward sustainability and social justice. Further, the Legislature urges the county councils to also endorse and use the United Nations seventeen sustainable development goals to measure their efforts toward social justice and sustainability.

As affirmed by the records of votes of the members of your Committees on Public Safety, Intergovernmental, and Military Affairs and Water and Land that are attached to this report, your Committees concur with the intent and purpose of S.C.R. No. 102 and recommend that it be referred to your Committee on Judiciary and Labor.

Signed by the Chairs on behalf of the Committees.

Public Safety, Intergovernmental, and Military Affairs: Ayes, 3. Noes, none. Excused, 2 (Baker, Wakai).

Water and Land: Ayes, 3. Noes, none. Excused, 2 (Inouye, Kim).

SCRep. 1243 (Joint) Public Safety, Intergovernmental, and Military Affairs and Water and Land on S.R. No. 46

The purpose and intent of this measure is to endorse and adopt the United Nations seventeen sustainable development goals as part of a framework for addressing and assessing Hawaii's efforts toward social justice and sustainability and urge each county to endorse and use the same United Nations sustainable development goals to measure their efforts toward social justice and sustainability.

Your Committees received testimony in support of this measure from the Hawaii Institute for Human Rights, IMUAlliance, Planned Parenthood Votes Northwest and Hawaii, United Nations Association, and three individuals.

Your Committees find that promoting social justice and sustainability will help secure the future health, safety, and well-being of the public. In 2015, the United Nations adopted the 2030 Development Agenda aimed at ending poverty, protecting the planet, and ensuring that all people enjoy peace and prosperity. The Development Agenda contains seventeen sustainable development goals. Adopting and adhering to these goals will help to ensure that as the State moves forward, no individuals in the State are left behind. Therefore, the Legislature pledges to endorse, accept, and adopt the United Nations seventeen sustainable development goals as a framework for addressing and assessing the State's progress toward sustainability and social justice. Further, the Legislature urges the county councils to also endorse and use the United Nations seventeen sustainable development goals to measure their efforts toward social justice and sustainability.

As affirmed by the records of votes of the members of your Committees on Public Safety, Intergovernmental, and Military Affairs and Water and Land that are attached to this report, your Committees concur with the intent and purpose of S.R. No. 46 and recommend that it be referred to your Committee on Judiciary and Labor.

Signed by the Chairs on behalf of the Committees.

Public Safety, Intergovernmental, and Military Affairs: Ayes, 3. Noes, none. Excused, 2 (Baker, Wakai).

Water and Land: Ayes, 3. Noes, none. Excused, 2 (Inouye, Kim).

SCRep. 1244 Public Safety, Intergovernmental, and Military Affairs on S.C.R. No. 169

The purpose and intent of this measure is to request that the Department of Public Safety, based on the recommendation of the joint task force created pursuant to H.C.R. No. 85, H.D. 2, S.D. 1, Regular Session of 2016, delay plans to build a new correctional facility on Oahu until the task force issues its final report, which will provide a comprehensive road map for reforming Hawaii's correctional system.

Your Committee received testimony in support of this measure from the Community Alliance On Prisons, IMUAlliance, Young Progressives Demanding Action, Launani Valley Community Association, and five individuals. Your Committee received comments on this measure from the Department of Public Safety.

Your Committee finds that reforming the State's correctional system is vital to ensuring public safety and welfare. The Department of Public Safety has proposed to replace the Oahu Community Correctional Center with a more modern facility. This proposal has already entered the planning and site location phases. However, the Legislature has proposed legislation calling for the Department of Public Safety to instead solicit proposals to construct a larger facility at the current site of the Waiawa Correctional Facility. Moreover, the joint task force created pursuant to H.C.R. No. 85, H.D. 2, S.D. 1, Regular Session of 2016, to study effective incarceration policies to improve Hawaii's correctional system, has recommended delaying the Department of Public Safety's proposed new facility as the joint task force is examining means of significantly reducing the State's prison population and creating a more cost-effective corrections system.

Your Committee understands the testimony of the Department of Public Safety indicating that the Department has already responded to some recommendations of the task force and has expanded the scope of its search for additional, appropriate sites for a new correctional facility to include possible smaller acreage sites.

Accordingly, your Committee has amended this measure by:

- (1) Deleting language that referenced a proposal to replace the current Oahu Community Correctional Center with a larger facility at the site of the Waiawa Correctional Facility;
- (2) Deleting language stating a recommendation and request to delay plans to build a new correctional facility on Oahu until the task force established pursuant to H.C.R. No. 85, H.D. 2, S.D. 1, Regular Session of 2016, issues its final report;
- (3) Amending the purpose of this measure to instead request the final report of the task force established pursuant to H.C.R. No. 85, H.D. 2, S.D. 1, Regular Session of 2016, to also identify sites ten acres or less in size;
- (4) Amending its title accordingly; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 169, as amended herein, and recommends that it be referred to your Committee on Ways and Means, in the form attached hereto as S.C.R. No. 169, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Wakai).

SCRep. 1245 Public Safety, Intergovernmental, and Military Affairs on S.R. No. 83

The purpose and intent of this measure is to request that the Department of Public Safety, based on the recommendation of the joint task force created pursuant to H.C.R. No. 85, H.D. 2, S.D. 1, Regular Session of 2016, delay plans to build a new correctional facility on Oahu until the task force issues its final report, which will provide a comprehensive road map for reforming Hawaii's correctional system.

Your Committee received testimony in support of this measure from the Community Alliance On Prisons, IMU Alliance, Young Progressives Demanding Action, Launani Valley Community Association, and five individuals. Your Committee received comments on this measure from the Department of Public Safety.

Your Committee finds that reforming the State's correctional system is vital to ensuring public safety and welfare. The Department of Public Safety has proposed to replace the Oahu Community Correctional Center with a more modern facility. This proposal has already entered the planning and site location phases. However, the Legislature has proposed legislation calling for the Department of Public Safety to instead solicit proposals to construct a larger facility at the current site of the Waiawa Correctional Facility. Moreover, the joint task force created pursuant to H.C.R. No. 85, H.D. 2, S.D. 1, Regular Session of 2016, to study effective incarceration policies to improve Hawaii's correctional system, has recommended delaying the Department of Public Safety's proposed new facility as the joint task force is examining means of significantly reducing the State's prison population and creating a more cost-effective corrections system.

Your Committee understands the testimony of the Department of Public Safety indicating that the Department has already responded to some recommendations of the task force and has expanded the scope of its search for additional, appropriate sites for a new correctional facility to include possible smaller acreage sites.

Accordingly, your Committee has amended this measure by:

- (1) Deleting language that referenced a proposal to replace the current Oahu Community Correctional Center with a larger facility at the site of the Waiawa Correctional Facility;
- (2) Deleting language stating a recommendation and request to delay plans to build a new correctional facility on Oahu until the task force established pursuant to H.C.R. No. 85, H.D. 2, S.D. 1, Regular Session of 2016, issues its final report;
- (3) Amending the purpose of this measure to instead request the final report of the task force established pursuant to H.C.R. No. 85, H.D. 2, S.D. 1, Regular Session of 2016, to also identify sites ten acres or less in size;
- (4) Amending its title accordingly; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 83, as amended herein, and recommends that it be referred to your Committee on Ways and Means, in the form attached hereto as S.R. No. 83, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Wakai).

SCRep. 1246 Public Safety, Intergovernmental, and Military Affairs on S.R. No. 38

The purpose and intent of this measure is to request the Department of the Attorney General to establish a working group to study forensic laboratories in the State.

Your Committee received testimony in support of this measure from the Department of Transportation. Your Committee received comments on this measure from the Department of the Attorney General and Honolulu Police Department.

Your Committee finds that supporting the development and expanded use of forensic science by law enforcement is important for protecting the public safety and welfare. Currently, the Honolulu Police Department's Scientific Investigation Section includes the only full-service forensic laboratory in the State. Other law enforcement agencies in the State have more limited facilities. To promote greater public safety, it is important to examine ways in which the use of forensic science may be expanded to these other law enforcement agencies in the State. Accordingly, the Attorney General is requested to establish a working group to examine the use of forensic science in the State, including the capabilities, staffing levels, caseloads, task completion times, accreditation requirements, and other issues related to the operation of forensic laboratories in the State.

Your Committee understands the concerns of the Department of the Attorney General regarding the need for additional time to complete the required study.

Therefore, your Committee has amended this measure by:

- (1) Requesting the working group, through the Department of the Attorney General, to submit an additional report, as an interim report, to the Legislature prior to the convening of the Regular Session of 2018;
- (2) Amending the report requested to be submitted by the working group, through the Department of the Attorney General, to be a final report and extending the deadline for submission to twenty days prior to the convening of the Regular Session of 2019; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 38, as amended herein, and recommends that it be referred to your Committees on Judiciary and Labor and Ways and Means, in the form attached hereto as S.R. No. 38, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Wakai).

SCRep. 1247 Public Safety, Intergovernmental, and Military Affairs on S.C.R. No. 94

The purpose and intent of this measure is to request the Department of the Attorney General to establish a working group to study forensic laboratories in the State.

Your Committee received testimony in support of this measure from the Department of Transportation. Your Committee received comments on this measure from the Department of the Attorney General and Honolulu Police Department.

Your Committee finds that supporting the development and expanded use of forensic science by law enforcement is important for protecting the public safety and welfare. Currently, the Honolulu Police Department's Scientific Investigation Section includes the only full-service forensic laboratory in the State. Other law enforcement agencies in the State have more limited facilities. To promote greater public safety, it is important to examine ways in which the use of forensic science may be expanded to these other law enforcement agencies in the State. Accordingly, the Attorney General is requested to establish a working group to examine the use of forensic science in the State, including the capabilities, staffing levels, caseloads, task completion times, accreditation requirements, and other issues related to the operation of forensic laboratories in the State.

Your Committee understands the concerns of the Department of the Attorney General regarding the need for additional time to complete the required study.

Therefore, your Committee has amended this measure by:

- (1) Requesting the working group, through the Department of the Attorney General, to submit an additional report, as an interim report, to the Legislature prior to the convening of the Regular Session of 2018;
- (2) Amending the report requested to be submitted by the working group, through the Department of the Attorney General, to be a final report and extending the deadline for submission to twenty days prior to the convening of the Regular Session of 2019; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 94, as amended herein, and recommends that it be referred to your Committees on Judiciary and Labor and Ways and Means, in the form attached hereto as S.C.R. No. 94, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Wakai).

SCRep. 1248 (Joint) Public Safety, Intergovernmental, and Military Affairs and Economic Development, Tourism, and Technology on S.C.R. No. 63

The purpose and intent of this measure is to request the Office of Aerospace Development to facilitate the formation of a Multinational Lunar Architecture Alliance to guide the development and implementation of a prototype lunar base on the Island of Hawaii.

Your Committees received testimony in support of this measure from the Department of Business, Economic Development, and Tourism; Hawaii Island Economic Development Board; and one individual.

Your Committees find that encouraging the development of space exploration and related technologies is important for progressing toward a sustainable future. The State has long played a central role in helping develop the national space program and has long-standing ties with space-faring nations around the globe. Moreover, the Island of Hawaii, with its moon-like terrain, offers an ideal environment for multinational teams to develop, test, and validate innovative space technologies, including life support systems, telecommunications, power generation, and food production, that will be essential for future space exploration and sustainability measures. Supporting such technological testing and development will also produce valuable scientific, educational, and economic benefits for the State. Therefore, it is requested that:

- (1) The Office of Aerospace Development facilitate the formation of a Multinational Lunar Architecture Alliance to be comprised of members from state, national, and international agencies to guide the development and implementation of a prototype lunar base on the Island of Hawaii, which includes modular habitats, telerobotic systems, communications networks, cis-lunar positioning and navigation systems, and in situ resource utilization technologies;
- (2) The Multinational Lunar Architecture Alliance be launched through an International Lunar Summit in Hawaii during the fall of 2017; and
- (3) The International Lunar Summit submit a report of its recommendations, including any proposed legislation, to the Legislature and Governor prior to the convening of the Regular Session of 2018.

Your Committees have amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Public Safety, Intergovernmental, and Military Affairs and Economic Development, Tourism, and Technology that are attached to this report, your Committees concur with the intent and purpose of S.C.R. No. 63, as amended herein, and recommend that it be referred to your Committee on Ways and Means, in the form attached hereto as S.C.R. No. 63, S.D. 1.

Signed by the Chairs on behalf of the Committees.
Public Safety, Intergovernmental, and Military Affairs: Ayes, 3. Noes, none. Excused, 2 (Baker, Ihara).
Economic Development, Tourism, and Technology: Ayes, 3. Noes, none. Excused, 2 (Baker, Taniguchi).

SCRep. 1249 (Joint) Public Safety, Intergovernmental, and Military Affairs and Economic Development, Tourism, and Technology on S.R. No. 21

The purpose and intent of this measure is to request the Office of Aerospace Development to facilitate the formation of a Multinational Lunar Architecture Alliance to guide the development and implementation of a prototype lunar base on the Island of Hawaii.

Your Committees received testimony in support of this measure from the Department of Business, Economic Development, and Tourism; Hawaii Island Economic Development Board; and one individual.

Your Committees find that encouraging the development of space exploration and related technologies is important for progressing toward a sustainable future. The State has long played a central role in helping develop the national space program and has long-standing ties with space-faring nations around the globe. Moreover, the Island of Hawaii, with its moon-like terrain, offers an ideal environment for multinational teams to develop, test, and validate innovative space technologies, including life support systems, telecommunications, power generation, and food production, that will be essential for future space exploration and sustainability measures. Supporting such technological testing and development will also produce valuable scientific, educational, and economic benefits for the State. Therefore, it is requested that:

- (1) The Office of Aerospace Development facilitate the formation of a Multinational Lunar Architecture Alliance to be comprised of members from state, national, and international agencies to guide the development and implementation of a prototype lunar base on the Island of Hawaii, which includes modular habitats, telerobotic systems, communications networks, cis-lunar positioning and navigation systems, and in situ resource utilization technologies;

Your Committees have amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Public Safety, Intergovernmental, and Military Affairs and Economic Development, Tourism, and Technology that are attached to this report, your Committees concur with the intent and purpose of S.R. No. 21, as amended herein, and recommend that it be referred to your Committee on Ways and Means, in the form attached hereto as S.R. No. 21, S.D. 1.

Signed by the Chairs on behalf of the Committees.

Public Safety, Intergovernmental, and Military Affairs: Ayes, 3. Noes, none. Excused, 2 (Baker, Ihara).

Economic Development, Tourism, and Technology: Ayes, 3. Noes, none. Excused, 2 (Baker, Taniguchi).

SCRep. 1250 (Joint) Human Services and Commerce, Consumer Protection, and Health on S.C.R. No. 8

The purpose and intent of this measure is to encourage the Department of Human Services Med-QUEST Division to implement an income disregard program for workers with disabilities to enable workers with disabilities to seek or maintain employment, while also retaining necessary Medicaid benefits and supports.

Your Committees received testimony in support of this measure from the Department of Human Services, State Council on Developmental Disabilities, Hawaii Disability Rights Center, and six individuals.

Your Committees find that despite considerable progress being made over the past several decades to remove barriers to employment for individuals with disabilities, additional challenges remain for individuals with disabilities who wish to remain in the workforce, including limited health insurance options. To retain Medicaid coverage, workers with disabilities often must limit their income and assets to poverty levels. Your Committees further find that establishing an income disregard program in the Med-QUEST Division of the Department of Human Services would allow Medicaid recipients with disabilities to earn more than would otherwise be possible, while still retaining the Medicaid coverage and services these individuals need to successfully live in the community.

As affirmed by the records of votes of the members of your Committees on Human Services and Commerce, Consumer Protection, and Health that are attached to this report, your Committees concur with the intent and purpose of S.C.R. No. 8 and recommend that it be referred to your Committees on Judiciary and Labor and Ways and Means.

Signed by the Chairs on behalf of the Committees.

Human Services: Ayes, 3. Noes, none. Excused, 2 (Tokuda, Wakai).

Commerce, Consumer Protection, and Health: Ayes, 4. Noes, none. Excused, 3 (Ihara, Kidani, Nishihara).

SCRep. 1251 (Joint) Human Services and Commerce, Consumer Protection, and Health on S.C.R. No. 106

The purpose and intent of this measure is to request the Med-QUEST Administrator to convene a working group to evaluate the issue of complex patients who are waitlisted in hospitals because of medical or behavioral health issues and to consider solutions that include incentive or add-on payments to encourage their transfer out of hospitals and into more appropriate settings.

Your Committees received testimony in support of this measure from the Healthcare Association of Hawaii; Ohana Pacific Management Company, Inc.; and The Queen's Health Systems. Your Committees received comments on this measure from the Department of Human Services.

Your Committees find that waitlisted patients are hospitalized individuals who have recovered sufficiently to no longer need the acute level of care that a hospital provides but who cannot be transferred to a long-term care facility because of a complex medical or behavioral health need that requires more intensive services. The intensive services needed by these patients are often too costly for

long-term care facilities to provide because of the wide gap between cost of care and the reimbursement received from Medicaid, so patients remain in the hospital for many weeks or months after the appropriate date of discharge from an acute-level facility. Since long-term care facilities lack a financial incentive to assume care of individuals with complex medical issues, the reluctance of long-term care facilities to take on these patients after hospital discharge will likely worsen since the level of reimbursement will increasingly fall short of the cost of providing needed services. Therefore, it is critical to further examine this issue by considering incentives or add-on payments to the long-term care Medicaid base rate for patients with complex medical needs.

As affirmed by the records of votes of the members of your Committees on Human Services and Commerce, Consumer Protection, and Health that are attached to this report, your Committees concur with the intent and purpose of S.C.R. No. 106 and recommend that it be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Human Services: Ayes, 3. Noes, none. Excused, 2 (Tokuda, Wakai).

Commerce, Consumer Protection, and Health: Ayes, 4. Noes, none. Excused, 3 (Ihara, Kidani, Nishihara).

SCRep. 1252 Human Services on S.C.R. No. 45

The purpose and intent of this measure is to urge the Department of Human Services to adopt rules and take all actions necessary, as permitted by federal law, to disregard the Social Security Title II benefit or any increase in that benefit that makes an individual ineligible for supplemental security income and Medicaid.

Your Committee received testimony in support of this measure from the State Council on Developmental Disabilities; The Arc in Hawaii; Hawaii Disability Legal Services, LLLC; and four individuals. Your Committee received comments on this measure from the Department of Human Services.

Your Committee finds that many individuals with disabilities who have extremely low income rely on federal supplemental security income (SSI) for living expenses, but SSI alone is grossly insufficient to pay for the cost of the residential and health care services that individuals may need. Although Hawaii law authorizes a state payment supplemental to SSI for residents of certain care facilities, individuals with disabilities who have extremely low income and rely on SSI and a state payment supplemental to SSI also rely on the State's Medicaid program for medical care and home and community based services to maintain a healthy and productive life in the community.

Your Committee further finds that when a Medicaid recipient's total income exceeds the Medicaid income qualification standard, in order to retain eligibility for Medicaid, the individual must spend down all of the recipient's income until the recipient's retained income equals an arbitrary "medically needy" standard, which is the only amount the individual retains for expenses. In some cases, the cause of the individual's income exceeding the Medicaid income qualification standard is the receipt of disabled adult child benefits, which is Social Security disability income under Title II of the Social Security Act on the basis of blindness or disability that began before the individual attained the age of twenty-two. While federal law requires or permits states to disregard Social Security Act Title II benefit amounts or increases thereof to the extent that those amounts result in loss of Medicaid eligibility for four different groups of individuals, urging the Department of Human Services to adopt rules to implement these income disregards for all groups, including the group of recipients of disabled adult child benefits, will ensure that individuals with developmental disabilities who are dependent adult children will not lose support services.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 45 and recommends that it be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Tokuda).

SCRep. 1253 Human Services on S.R. No. 11

The purpose and intent of this measure is to urge the Department of Human Services to adopt rules and take all actions necessary, as permitted by federal law, to disregard the Social Security Title II benefit or any increase in that benefit that makes an individual ineligible for supplemental security income and Medicaid.

Your Committee received testimony in support of this measure from the State Council on Developmental Disabilities; The Arc in Hawaii; Hawaii Disability Legal Services, LLLC; and four individuals. Your Committee received comments on this measure from the Department of Human Services.

Your Committee finds that many individuals with disabilities who have extremely low income rely on federal supplemental security income (SSI) for living expenses, but SSI alone is grossly insufficient to pay for the cost of the residential and health care services that individuals may need. Although Hawaii law authorizes a state payment supplemental to SSI for residents of certain care facilities, individuals with disabilities who have extremely low income and rely on SSI and a state payment supplemental to SSI also rely on the State's Medicaid program for medical care and home and community based services to maintain a healthy and productive life in the community.

Your Committee further finds that when a Medicaid recipient's total income exceeds the Medicaid income qualification standard, in order to retain eligibility for Medicaid, the individual must spend down all of the recipient's income until the recipient's retained income equals an arbitrary "medically needy" standard, which is the only amount the individual retains for expenses. In some cases, the cause of the individual's income exceeding the Medicaid income qualification standard is the receipt of disabled adult child benefits, which is Social Security disability income under Title II of the Social Security Act on the basis of blindness or disability that began before the individual attained the age of twenty-two. While federal law requires or permits states to disregard Social Security Act Title II benefit amounts or increases thereof to the extent that those amounts result in loss of Medicaid eligibility for four different groups of individuals, urging the Department of Human Services to adopt rules to implement these income disregards for all groups,

including the group of recipients of disabled adult child benefits, will ensure that individuals with developmental disabilities who are dependent adult children will not lose support services.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 11 and recommends that it be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Tokuda).

SCRep. 1254 (Joint) Transportation and Energy and Water and Land on S.C.R. No. 103

The purpose and intent of this measure is to request the Department of Transportation, in consultation with the Department of Land and Natural Resources, City and County of Honolulu, Hawai'i Pacific University, and interested stakeholders, to conduct a study on the need for and feasibility of a ferry service between Aloha Tower Marketplace and Sand Island State Recreation Area.

Your Committees received testimony in support of this measure from the Department of Transportation. Your Committees received comments on this measure from one individual.

Your Committees find that there are a number of businesses on Sand Island that employ workers who commute daily from various areas on Oahu. Sand Island Access Road is the only roadway that provides access to Sand Island, which often leads to traffic congestion and delays and is burdensome to the many employees who commute daily to Sand Island. Your Committees further find that a ferry service that provides transportation between Aloha Tower Marketplace and Sand Island State Recreation Area would alleviate the traffic strain on Sand Island Access Road, improve the commute for employees who work on Sand Island by providing an alternate transportation option, and encourage more tourism-related activities at Sand Island State Recreation Area.

As affirmed by the records of votes of the members of your Committees on Transportation and Energy and Water and Land that are attached to this report, your Committees concur with the intent and purpose of S.C.R. No. 103 and recommend that it be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
Transportation and Energy: Ayes, 3. Noes, none. Excused, 2 (Dela Cruz, English).
Water and Land: Ayes, 3. Noes, none. Excused, 2 (Kim, Thielen).

SCRep. 1255 (Joint) Transportation and Energy and Water and Land on S.R. No. 47

The purpose and intent of this measure is to request the Department of Transportation, in consultation with the Department of Land and Natural Resources, City and County of Honolulu, Hawai'i Pacific University, and interested stakeholders, to conduct a study on the need for and feasibility of a ferry service between Aloha Tower Marketplace and Sand Island State Recreation Area.

Your Committees received testimony in support of this measure from the Department of Transportation. Your Committees received comments on this measure from one individual.

Your Committees find that there are a number of businesses on Sand Island that employ workers who commute daily from various areas on Oahu. Sand Island Access Road is the only roadway that provides access to Sand Island, which often leads to traffic congestion and delays and is burdensome to the many employees who commute daily to Sand Island. Your Committees further find that a ferry service that provides transportation between Aloha Tower Marketplace and Sand Island State Recreation Area would alleviate the traffic strain on Sand Island Access Road, improve the commute for employees who work on Sand Island by providing an alternate transportation option, and encourage more tourism-related activities at Sand Island State Recreation Area.

As affirmed by the records of votes of the members of your Committees on Transportation and Energy and Water and Land that are attached to this report, your Committees concur with the intent and purpose of S.R. No. 47 and recommend that it be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
Transportation and Energy: Ayes, 3. Noes, none. Excused, 2 (Dela Cruz, English).
Water and Land: Ayes, 3. Noes, none. Excused, 2 (Kim, Thielen).

SCRep. 1256 (Joint) Agriculture and Environment and Transportation and Energy on S.C.R. No. 121

The purpose and intent of this measure is to urge the significant growth, development, intensification, and expansion of agriculture to incorporate dedicated food and biofuel feedstock growth to achieve the goals of food and fuel sustainability and security through a Hawaii Green Fuels Initiative.

Your Committees received testimony in support of this measure from the University of Hawaii System; IMUAlliance; The Maritime Group, LLC; Clean Energy Solutions; and two individuals. Your Committees received comments on this measure from the Department of Agriculture.

Your Committees find that the development of renewable fuel sources within the State has the potential to:

- (1) Enhance energy security and independence;
- (2) Provide feedstock for local livestock;
- (3) Contribute to the reduction of greenhouse gas and vehicular emissions;
- (4) Help to eliminate reliance on fossil fuels;
- (5) Enhance productivity on currently underutilized and suitable agricultural lands;

- (6) Create jobs and diversify the agricultural economy; and
- (7) Create new and increase existing markets for locally produced agricultural products.

Your Committees also find that the development of an integrated food and biofuel supply chain within Hawaii aligns with the State's goals of sustainability and increased local food production.

As affirmed by the records of votes of the members of your Committees on Agriculture and Environment and Transportation and Energy that are attached to this report, your Committees concur with the intent and purpose of S.C.R. No. 121 and recommend that it be referred to your Committee on Ways and Means.

Signed by the Senate President and Chair on behalf of the Committees.
 Agriculture and Environment: Ayes, 3. Noes, none. Excused, 2 (Riviere, Ruderman).
 Transportation and Energy: Ayes, 3. Noes, none. Excused, 2 (Dela Cruz, English).

SCRep. 1257 (Joint) Economic Development, Tourism, and Technology and Higher Education on S.C.R. No. 170

The purpose and intent of this measure is to urge the Department of Business, Economic Development, and Tourism to create a plan to develop the West Oahu Creative Lab and to relocate the Hawaii Film Studio to West Oahu and to urge the University of Hawaii Board of Regents to approve a certain transfer of land.

Your Committees received testimony in support of this measure from the Department of Business, Economic Development, and Tourism; and High Technology Development Corporation. Your Committees received comments on this measure from the University of Hawaii System.

Your Committees find that Waianae High School offers the Searider Production Program and the University of Hawaii West Oahu offers a bachelor's degree in creative media. Both of the creative media programs open the door to careers in the media industry. However, there are few opportunities in West Oahu for graduates in creative media programs to become employed. Your Committees further find that the establishment of the West Oahu Creative Lab and the relocation of the Hawaii Film Studio in West Oahu would promote growth in the business of creative media, and would provide local graduates employment opportunities.

Your Committees have amended this measure by:

- (1) Replacing references to the "West Oahu Creative Lab" to the "West Oahu Creative Lab Media/Film Studio Complex";
- (2) Amending its title accordingly; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Economic Development, Tourism, and Technology and Higher Education that are attached to this report, your Committees concur with the intent and purpose of S.C.R. No. 170, as amended herein, and recommend that it be referred to your Committee on Ways and Means, in the form attached hereto as S.C.R. No. 170, S.D. 1.

Signed by the Chairs on behalf of the Committees.
 Economic Development, Tourism, and Technology: Ayes, 3; Ayes with Reservations (Taniguchi, Thielen). Noes, none.
 Excused, 2 (Baker, Galuteria).
 Higher Education: Ayes, 3. Noes, none. Excused, 2 (Keith-Agaran, Taniguchi).

SCRep. 1258 (Joint) Economic Development, Tourism, and Technology and Higher Education on S.R. No. 84

The purpose and intent of this measure is to urge the Department of Business, Economic Development, and Tourism to create a plan to develop the West Oahu Creative Lab and to relocate the Hawaii Film Studio to West Oahu and to urge the University of Hawaii Board of Regents to approve a certain transfer of land.

Your Committees received testimony in support of this measure from the Department of Business, Economic Development, and Tourism; and High Technology Development Corporation. Your Committees received comments on this measure from the University of Hawaii System.

Your Committees find that Waianae High School offers the Searider Production Program and the University of Hawaii West Oahu offers a bachelor's degree in creative media. Both of the creative media programs open the door to careers in the media industry. However, there are few opportunities in West Oahu for graduates in creative media programs to become employed. Your Committees further find that the establishment of the West Oahu Creative Lab and the relocation of the Hawaii Film Studio in West Oahu would promote growth in the business of creative media, and would provide local graduates employment opportunities.

Your Committees have amended this measure by:

- (1) Replacing references to the "West Oahu Creative Lab" to the "West Oahu Creative Lab Media/Film Studio Complex";
- (2) Amending its title accordingly; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Economic Development, Tourism, and Technology and Higher Education that are attached to this report, your Committees concur with the intent and purpose of S.R. No. 84, as amended herein, and recommend that it be referred to your Committee on Ways and Means, in the form attached hereto as S.R. No. 84, S.D. 1.

Signed by the Chairs on behalf of the Committees.
 Economic Development, Tourism, and Technology: Ayes, 3; Ayes with Reservations (Taniguchi, Thielen). Noes, none.

Higher Education: Ayes, 3. Noes, none. Excused, 2 (Keith-Agaran, Taniguchi).

SCRep. 1259 Commerce, Consumer Protection, and Health on S.C.R. No. 105

The purpose and intent of this measure is to request the Auditor to assess the social and financial effects of requiring health insurers, mutual benefit societies, and health maintenance organizations to provide coverage for medically necessary cognitive rehabilitation therapy for survivors of traumatic brain injury.

Your Committee received testimony in support of this measure from the Disability and Communication Access Board, Hawaii Disability Rights Center, and three individuals.

Your Committee finds that traumatic brain injury is damage to the brain caused by an external force. Traumatic brain injury may produce a diminished or altered state of consciousness and may result in an impairment of cognitive abilities or physical functioning. Although immediate acute care for traumatic brain injury has not generally been an issue, survivors may not have insurance coverage for rehabilitation care and further treatment, such as cognitive rehabilitation.

Your Committee further finds that cognitive rehabilitation is a systematically applied set of medical and therapeutic services designed to improve cognitive functioning and participation in activities that may be affected by difficulties in one or more cognitive domains. Cognitive rehabilitation therapy is central to brain injury rehabilitation and includes services provided by physicians, psychologists, physical therapists, occupational therapists, and speech-language pathologists.

Your Committee additionally finds that the Auditor last conducted an impact assessment report on cognitive rehabilitation in 2004, which reported an inconclusive finding on the mandated coverage for cognitive rehabilitation. The Auditor's 2004 report noted that the determination was hampered in part by the need for more effective evidence on effective treatments for traumatic brain injury. However, since that time, a range of studies on the treatment of traumatic brain injuries have been published. Accordingly, this measure requests the Auditor to conduct an impact assessment report on the social and financial effects of requiring coverage for medically necessary cognitive rehabilitation therapy for survivors of traumatic brain injury.

Your Committee has amended this measure by:

- (1) Specifying that cognitive rehabilitation, a systematically applied set of medical and therapeutic services designed to improve cognitive functioning and participation in activities that may be affected by difficulties in one or more cognitive domains, is central to brain injury rehabilitation;
- (2) Specifying that cognitive rehabilitation therapy services are often provided by physicians, psychologists, physical therapists, occupational therapists, and speech-language pathologists;
- (3) Including a definition of cognitive rehabilitation and requesting the Auditor to consider this definition for purposes of the impact assessment report;
- (4) Requesting the Auditor to consider specific studies related to cognitive rehabilitation; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 105, as amended herein, and recommends that it be referred to your Committee on Ways and Means, in the form attached hereto as S.C.R. No. 105, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 2 (Ihara, Ruderman).

SCRep. 1260 Water and Land on S.C.R. No. 120

The purpose and intent of this measure is to authorize the amendment of a term, non-exclusive easement for the portion of state submerged lands fronting the property identified as tax map key: (1) 3-9-026: seaward of 044, 045, & 048, Maunaloa, Honolulu, Oahu, for the maintenance and repair of the existing channel, concrete surge break or breakwater, seawall, step, and filled land, and for use, repair, and maintenance of the existing improvements constructed thereon.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources and Evershine II, L.P. Your Committee received testimony in opposition to this measure from the Hawaii Audubon Society and Concerned Citizens of Hawaii Kai.

Your Committee finds that, pursuant to section 171-53, Hawaii Revised Statutes, the Board of Land and Natural Resources (Board) may lease submerged lands with the prior approval of the Governor and the prior authorization of the Legislature by concurrent resolution. Your Committee further finds that on November 16, 2001, under agenda item D-13, the Board approved a grant of a fifty-five-year non-exclusive easement to resolve the encroachments of the channel, concrete surge break or breakwater seawall, and filled land identified in this measure. On April 25, 2008, under agenda item D-11, the Board approved an amendment to the easement to add square footage to the easement area, insert "step" as part of the purposes of the easement, and allow the easement to run with the abutting parcels.

Your Committee finds that a subsequent shoreline certification process in 2015 has shown an additional encroachment area of 3,503 square feet, more or less. On May 8, 2015, under agenda item D-14, the Board authorized the amendment of the easement by incorporating the additional encroachment area subject to an additional payment to the State of the fair market value of the easement as determined by an independent appraisal; the appraisal has since been completed, and the fair market value of the easement is \$130,000. Your Committee concludes that the easement is necessary for the maintenance and repair of the existing channel, concrete surge break or breakwater, seawall, step, and filled land, and for use, repair, and maintenance of the existing improvements constructed thereon.

Your Committee notes that the abutting property-owner reports that it is in compliance with its special management area permit regarding the pedestrian footbridge requirements, that the footbridge is currently in use and in good condition and repair, and that the property-owner intends to keep and maintain the footbridge in good condition and repair.

Your Committee has amended this measure by:

- (1) Correcting the additional area of the encroachment to be 3,503 square feet, more or less, pursuant to testimony received from the Department of Land and Natural Resources;
- (2) Amending its title to make a technical, nonsubstantive amendment; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 120, as amended herein, and recommends that it be referred to your Committee on Ways and Means, in the form attached hereto as S.C.R. No. 120, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Kim, Thielen).

SCRep. 1261 Commerce, Consumer Protection, and Health on H.B. No. 192

The purpose and intent of this measure is to expand the definition of “association” under the planned community association law to include certain homeowners’ associations.

Your Committee received testimony in support of this measure from Associa.

Your Committee finds that certain subdivisions in the State may not fit into the existing definition of a planned community “association”, as used in the laws regarding homeowners’ associations. The homeowners’ associations in these subdivisions are therefore unregulated and lack access to the cost-effective dispute resolution mechanisms provided for planned community associations. This measure expands the definition of “association” under the planned community association law, which will enable these subdivisions to be regulated and have access to existing mediation processes.

Your Committee further finds that existing law on voting pursuant to a proxy at a meeting of a planned community association specifies that a standard proxy form must contain boxes for a member of the association to check and indicate how a proxy is given. Proxy forms may sometimes be returned to an association’s secretary or managing agent with more than one box checked, or with nothing marked on the proxy form, which may lead to confusion over how the proxy should be counted. Your Committee concludes that amendments to this measure are necessary to clarify how such proxies should be counted.

Accordingly, your Committee has amended this measure by:

- (1) Specifying that when a standard proxy form is authorized by an association, and the proxy is returned with no box or more than one box checked that relates to how an owner may indicate a proxy is given, the proxy shall be counted for quorum purposes only;
- (2) Updating the purpose section accordingly; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 192, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 192, H.D. 2, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 1 (Ruderman).

SCRep. 1262 Commerce, Consumer Protection, and Health on H.B. No. 917

The purpose and intent of this measure is to:

- (1) Clarify that a mutual benefit society shall maintain a minimum net worth calculated based on annual net premium revenues and net annual health care expenditures and operating expenses; and
- (2) Require approval of a reinsurer in order for net annual health care expenditures to be reduced by the amount ceded to the reinsurer.

Your Committee received testimony in support of this measure from the Hawaii Medical Assurance Association. Your Committee received testimony in opposition to this measure from the Department of Commerce and Consumer Affairs. Your Committee received comments on this measure from the Property Casualty Insurers Association of America.

Your Committee finds that this measure requires calculation of a mutual benefit society’s annual premium revenues, annual health care expenditures, and annual operating expenses on a net basis when determining the mutual benefit society’s minimum net worth for purposes of protecting against insolvency. However, according to testimony from the Department of Commerce and Consumer Affairs, the statutory requirements for calculating a mutual benefit society’s minimum net worth intend a gross, rather than net, calculation, as a mutual benefit society is ultimately responsible for all liabilities should its reinsurer fail. Furthermore, the minimum net worth is easier to manipulate if reinsurance recoveries are included in the calculation.

Your Committee further finds that this measure also requires the approval of all reinsurers by the Insurance Commissioner. The Department of Commerce and Consumer Affairs testified that all reinsurers must already be authorized or accredited for the ceding

insurer to recognize recoverable losses. Thus, the language in this measure is unlikely to have the intended effect of adding an extra level of assurance regarding recognition of recoverable losses. Furthermore, the recoverable amount from reinsurers remains a solvency concern until this amount is actually received and related transactions are settled, which may present regulatory challenges.

Your Committee notes that the companion to this measure, S.B. No. 1077, S.D. 1 (Regular Session of 2017), which was previously passed by the Senate, is a substantially similar measure that also clarifies the minimum net worth requirements for mutual benefit societies. Your Committee concludes that the language in S.B. No. 1077, S.D. 1, is preferable because it specifies that a mutual benefit society's minimum net worth is calculated on a gross, rather than net, basis. Calculating minimum net worth on a gross basis has long been an effective way to regulate solvency and has consistently been used in the health insurance industry for mutual benefit societies, health maintenance organizations, and other health insurers.

Accordingly, your Committee has amended this measure by deleting its contents and inserting the contents of S.B. No. 1077, S.D. 1, a substantially similar measure, which:

- (1) Clarifies that a mutual benefit society's minimum net worth shall be based on gross, rather than net, annual premium revenues and gross, rather than net, annual health care expenditures and operating expenses; and
- (2) Inserts an effective date of July 1, 2050.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 917, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 917, H.D. 1, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 7. Noes, none. Excused, none.

SCRep. 1263 Commerce, Consumer Protection, and Health on H.B. No. 91

The purpose and intent of this measure is to clarify that acute care hospitals are covered under the State's clean claims statute.

Your Committee received testimony in support of this measure from The Queen's Health Systems, Kaiser Permanente Hawaii, Healthcare Association of Hawaii, and Hawai'i Pacific Health.

Your Committee finds that under the State's existing clean claims statute, health plans must pay providers within thirty days for uncontested or clean claims submitted in writing and within fifteen days for clean claims submitted electronically. However, your Committee notes that revisions made to the clean claims statute in 2015 unintentionally created ambiguity regarding which types of providers are covered by this statute. This measure clarifies the definition of "health care facility" within the clean claims statute, which will clarify the intent of the clean claims law and ensure that acute care hospitals are paid in a timely fashion when uncontested or clean claims are submitted.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 91, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 91, H.D. 1, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 7. Noes, none. Excused, none.

SCRep. 1264 Commerce, Consumer Protection, and Health on H.B. No. 239

The purpose and intent of this measure is to clarify that when a standard proxy form is returned with no boxes checked or more than one box checked, the proxy shall be deemed defective and counted for quorum purposes only.

Your Committee received testimony in support of this measure from the Hawai'i State Association of Parliamentarians, Associa, and four individuals. Your Committee received comments on this measure from the Hawaii Council of Associations of Apartment Owners and one individual.

Your Committee finds that existing law on voting pursuant to a proxy at a meeting of a condominium association specifies that a standard proxy form must contain boxes for a condominium owner to check and indicate how a proxy is given. Proxy forms may sometimes be returned to an association's secretary or managing agent with more than one box checked, or with nothing marked on the proxy form, which may lead to confusion over how the proxy should be counted. This measure attempts to clarify how such proxies should be counted.

Your Committee has heard testimony that this measure requires all proxies to be a standard proxy form authorized by an association, which will have the effect of preventing owners from using their own form of proxies. This measure also specifies that a proxy with no box checked or more than one box checked shall be deemed "defective" and counted for quorum purposes only. However, your Committee notes that if a proxy is defective, it should not be counted at all.

Your Committee notes that the companion to this measure, S.B. No. 392, S.D. 1 (Regular Session of 2017), which was previously passed by the Senate, is a substantially similar measure that also clarifies how a proxy should be counted. Your Committee concludes that the language in S.B. No. 392, S.D. 1, is preferable because it does not contain language that inadvertently prevents owners from using their own proxy forms, but clarifies that if a proxy is a standard proxy form authorized by an association, the proxy must comply with certain additional requirements. S.B. No. 392, S.D. 1, also clearly indicates that a standard proxy form authorized by an

association must contain a box, separate from the boxes that indicate how a proxy is given, indicating that an owner wishes to obtain a copy of an association's annual audit report.

Accordingly, your Committee has amended this measure by deleting its contents and inserting the contents of S.B. No. 392, S.D. 1, a substantially similar measure, which:

- (1) Specifies that when a proxy is a standard proxy form authorized by an association, the proxy shall contain boxes to indicate how a proxy is given; provided that if the proxy is returned with no box or more than one box checked, relating to how an owner may indicate a proxy is given, the proxy shall be counted for quorum purposes only; and
- (2) Clarifies that a standard proxy form authorized by an association shall also contain a separate box regarding an association's annual audit report.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 239, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 239, H.D. 2, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 7. Noes, none. Excused, none.

SCRep. 1265 Commerce, Consumer Protection, and Health on H.B. No. 563

The purpose and intent of this measure is to permit licensed dental hygienists in the State to operate under the general supervision of a licensed dentist, in specific circumstances.

Your Committee received testimony in support of this measure from the Board of Dental Examiners, Hawaii Dental Hygienists' Association, and five individuals. Your Committee received testimony in opposition to this measure from one individual. Your Committee received comments on this measure from the Hawaii Dental Association.

Your Committee finds that under existing law, licensed dental hygienists must operate under the direct supervision of a licensed dentist in most circumstances, meaning a supervising licensed dentist must examine each patient prior to treatment, assign and review each treatment, and remain physically present in the office or facility while the procedure is being performed. This requirement is time consuming for the dentist and restrictive for the dental hygienist.

Your Committee further finds that forty-five states authorize dental hygienists to work under some degree of general supervision, meaning a dentist must authorize a dental hygienist to perform procedures, but need not be present in the treatment facility during the performance of those procedures. Your Committee notes that existing state law permits general supervision of dental hygienists in public health settings, such as nonprofit health clinics, nursing homes, and adult day care centers or assisted living facilities.

This measure permits dental hygienists to practice under the general supervision of a licensed dentist and pursuant to an existing treatment plan for patients of record who have had an examination by the licensed dentist, but specifies that a licensed dental hygienist shall not perform any irreversible procedure or administer any intra-oral block anesthesia while under general supervision. Your Committee additionally finds that this measure gives dentists more flexibility in their practices, enables the dentistry profession to keep pace with increased patient need, and maintains safeguards for patients.

Your Committee has amended this measure by:

- (1) Inserting an effective date of July 1, 2017; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 563, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 563, H.D. 1, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 7. Noes, none. Excused, none.

SCRep. 1266 Commerce, Consumer Protection, and Health on H.B. No. 1262

The purpose and intent of this measure is to permit a charter tour operator to maintain client trust accounts in a federally insured financial institution outside the State; provided that the charter tour operator allows the Department of Commerce and Consumer Affairs to access the charter tour operator's financial records through the financial institution located outside Hawaii.

Your Committee received testimony in support of this measure from Vacations Hawaii. Your Committee received testimony in opposition to this measure from the Regulated Industries Complaints Office of the Department of Commerce and Consumer Affairs.

Your Committee finds that charter tour operators are currently required to maintain a client trust account in a federally insured financial institution located within the State. However, concerns have been raised regarding the lack of financial institutions in the State who are able and willing to perform these financial services for charter tour operators. This measure attempts to address these concerns by permitting a charter tour operator to maintain a client trust account in a federally insured financial institution outside of Hawaii, subject to certain conditions.

However, your Committee has heard the concerns expressed in testimony by the Regulated Industries Complaints Office that this measure poses practical enforcement challenges that may complicate the job of protecting client trust funds. Your Committee understands these concerns and finds that amendments to this measure are necessary to include additional protections for client trust funds. These amendments will help ensure that charter tour operators will be able to continue to serve Hawaii residents in the event

that a Hawaii financial institution is unwilling or unable to service a client trust account, while also maintaining sufficient consumer protections.

Your Committee has amended this measure by:

- (1) Clarifying that charter tour operators may deposit sums subject to the requirements for charter tour operator client trust accounts in a trust account maintained in a federally insured financial institution that serves as the depository bank for a public charter program, pursuant to federal regulations;
- (2) Clarifying the requirements a charter tour operator must meet prior to depositing sums in a client trust account maintained in a federally insured financial institution located outside the State, including:
 - (A) Requiring the charter tour operator to provide the Director of Commerce and Consumer Affairs with irrefutable evidence that no financial institution in the State can maintain the charter tour operator's client trust account;
 - (B) Requiring the charter tour operator to file with the Department of Commerce and Consumer Affairs a notarized irrevocable agreement and authorization, in writing, to allow the Department to examine and obtain copies of all business records maintained by the financial institution related to the client trust account;
 - (C) Requiring the charter tour operator to bear the cost of reproducing any records requested by the Department; the cost of any fees or expenses, including travel expenses, requested by the Department for purposes of an audit or to determine compliance; or any expense associated with any enforcement action taken on behalf of the Department to protect consumers or otherwise ensure compliance; and
 - (D) Enabling the Department to contract with a private consultant to audit the records of any charter tour operator, and requiring the charter tour operator to bear the costs of any such audit; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1262, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1262, H.D. 2, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 7. Noes, none. Excused, none.

SCRep. 1267 (Joint) Hawaiian Affairs and Water and Land on S.C.R. No. 7

The purpose and intent of this measure is to:

- (1) Recognize the historic success of community-driven stewardship under the traditional konohiki fishing rights system in sustaining an abundant nearshore environment and a thriving population and culture throughout the islands of Hawai'i; and
- (2) Urge the Department of Land and Natural Resources to support the appropriate development, adoption, and implementation of culturally-grounded, community-driven fishery management proposals that seek to apply kipuka communities' intimate knowledge of their nearshore waters to steward, restore, and perpetuate their resources, and maintain and protect their cultural traditions and values.

Your Committees received testimony in support of this measure from the Department of Land and Natural Resources; Office of Hawaiian Affairs; Aha Moku Advisory Committee; Sierra Club of Hawaii; Kua'āina Ulu 'Auamo; Friends of Lanai; Hawaii Alliance for Progressive Action; Ho'omana Pono, LLC; Hawai'i Alliance for Progressive Action; and thirteen individuals.

Your Committees find that traditional Native Hawaiian resource management has been long-renowned for sustainably supporting a thriving population of up to a million inhabitants in the Hawaiian islands, prior to documented Western contact. Traditional ocean tenure played a key role in Native Hawaiian communities' ability to sustain themselves physically and spiritually, notwithstanding the inherently limited land resources of an island setting. The success of traditional resource management relied on ahupua'a tenants' intimate connection to and knowledge of their place, including their nearshore waters and ecosystems, as well as on the oversight of ali'i and their regional resource managers, or konohiki. Unfortunately, the konohiki fishing rights system was eventually abolished.

Notwithstanding the abolishment of the konohiki fishing rights system, a number of rural, kipuka communities continue to maintain an intimate understanding of and connection to their nearshore areas, and carry on the community-driven stewardship practices and harvesting traditions that konohiki fishing rights once protected throughout the islands. These kipuka communities have now expressed an interest to engage more formally with the State in proposing culturally-grounded and community-driven fisheries management proposals, including community-based subsistence fishery management area proposals, that can much more effectively protect, maintain, and perpetuate the resources of their nearshore waters, and ensure the continuation of cultural and subsistence traditions, values, and lifestyles for generations to come.

Your Committees further find that the success of a culturally-grounded, community-driven fishery management area can inspire other communities to develop an intimate knowledge of their own nearshore areas and work toward the restoration of their local resources and place-based traditions. The broader restoration of community-based marine resource management will improve the health of our nearshore environment, increase the food security of our residents, and sustain the cultural values and traditions that have long informed our shared understandings and unique social fabric.

As affirmed by the records of votes of the members of your Committees on Hawaiian Affairs and Water and Land that are attached to this report, your Committees concur with the intent and purpose of S.C.R. No. 7 and recommend its adoption.

Signed by the Chairs on behalf of the Committees.

Hawaiian Affairs: Ayes, 3. Noes, none. Excused, 2 (English, Kim).
Water and Land: Ayes, 4. Noes, none. Excused, 1 (Kim).

SCRep. 1268 (Joint) Education and Higher Education on S.C.R. No. 162

The purpose and intent of this measure is to request the Department of Education to coordinate with high school associations and higher education institutions in Hawaii and partner with debate organizations in organizing events for students to debate current issues affecting Hawaii and the nation.

Your Committees received testimony in support of this measure from one individual. Your Committees received testimony in opposition to this measure from the Department of Education and University of Hawaii System. Your Committees received comments on this measure from one individual.

Your Committees find that participation in debate events allows participants of diverse cultural, geographical, philosophical, and political backgrounds to have meaningful discourse on critical issues. Your Committees further find that participation in debate is especially valuable for students, and helps them to develop skills in public speaking and critical thinking, as well as knowledge of current events. This measure will facilitate greater coordination and partnerships between education institutions and debate organizations to provide valuable opportunities for Hawaii's students to participate in high-quality debate events.

As affirmed by the records of votes of the members of your Committees on Education and Higher Education that are attached to this report, your Committees concur with the intent and purpose of S.C.R. No. 162 and recommend its adoption.

Signed by the Chairs on behalf of the Committees.
Education: Ayes, 4. Noes, none. Excused, 1 (Dela Cruz).
Higher Education: Ayes, 3. Noes, none. Excused, 2 (Keith-Agaran, Taniguchi).

SCRep. 1269 Education on S.C.R. No. 9

The purpose and intent of this measure is to urge the Department of Education to carry on its work to better engage community groups in the education of children and youth in Hawaii's public schools.

Your Committee received testimony in support of this measure from the Department of Education, Hawaii Youth Services Network, Hawaii Afterschool Alliance, Hawaii Island School Garden Network, Native Hawaiian Education Council, Hawaii Children's Action Network, Hui for Excellence in Education, and six individuals.

Your Committee finds that engagement between schools and the community is important for the learning and development of Hawaii's students. Your Committee further finds that the Community Engagement Office of the Department of Education was established in August 2016, to coordinate and facilitate the building of collaborative partnerships, as well as afterschool and out-of-school programming. Your Committee additionally finds that organizations within the community can assist the Department of Education by providing hands-on education in real life skills. This measure will encourage the Department of Education to continue its effort to engage with the communities of Hawaii's students.

Your Committee has amended this measure by:

- (1) Clarifying that all public school students in Hawaii deserve access to safe, quality after-school programs instead of only middle and intermediate school students; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 9, as amended herein, and recommends its adoption in the form attached hereto as S.C.R. No. 9, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Dela Cruz, Riviere).

SCRep. 1270 Commerce, Consumer Protection, and Health on S.C.R. No. 32

The purpose and intent of this measure is to request the Auditor to conduct a study regarding professional licensure of American Sign Language interpreters and regulation of American Sign Language interpreter referral agencies.

Your Committee received testimony in support of this measure from the Disability and Communication Access Board and two individuals. Your Committee received testimony in opposition to this measure from Isle Interpret and three individuals. Your Committee received comments on this measure from the Professional and Vocational Licensing Division of the Department of Commerce and Consumer Affairs, Hawaii Registry of Interpreters for the Deaf, and one individual.

Your Committee finds that American Sign Language (ASL) interpreters provide a critical service to deaf, hard of hearing, deaf-blind, and hearing individuals and public agencies in the State who wish to effectively communicate with each other in a variety of settings and circumstances. The Disability and Communication Access Board has noted that there is an increased need statewide for communication access provided by ASL interpreters, as reflected in the number of requests made to local interpreter referral agencies. This measure therefore requests the Auditor to conduct a study on the licensure of ASL interpreters and ASL interpreter referral agencies.

However, your Committee has heard the concerns raised in testimony regarding the effects licensure may have on ASL interpreters and ASL interpreter referral agencies. Your Committee notes that there are different types of regulation available under state law, including registration, certification, and licensure, with licensure being the highest level of regulation. Your Committee also notes that Hawaii has a very small number of ASL interpreters and ASL interpreter referral agencies. According to testimony received by your Committee, there are about fifty ASL interpreters in the State. Some of the neighbor islands have fewer than five interpreters. Thus,

there are concerns that requiring full-scale licensure of ASL interpreters and ASL interpreter referral agencies could increase costs of doing business, which could potentially have a negative impact on the provision of services to deaf consumers.

Your Committee has had discussions with interested stakeholders and concludes that requiring the Auditor to conduct a sunrise analysis of ASL interpreters and ASL interpreter referral agencies is not appropriate at this time. Rather, your Committee believes that further discussion regarding the need for possible regulation and oversight of ASL interpreters and ASL interpreter referral agencies in Hawaii is needed and establishing a working group composed of interested stakeholders is the most appropriate method to address these issues. Finally, your Committee notes that the State of Hawaii is the largest purchaser of ASL interpreter services in the State, and as a Title II entity under the Americans with Disabilities Act, it is imperative that the State strive to ensure individuals who are deaf, hard of hearing, or deaf-blind are receiving high quality services from professionals who provide ASL interpreter services.

Your Committee has amended this measure by:

- (1) Deleting its contents and inserting language which:
 - (A) Requests the Department of Health's Office of Language Access and the Disability and Communication Access Board to convene a working group to examine the need for possible regulation and oversight of ASL interpreters and ASL interpreter referral agencies in Hawaii;
 - (B) Specifies the representatives or designees who shall be included in the working group;
 - (C) Requests the working group to determine the optimal level of any regulation of ASL interpreters and ASL interpreter referral agencies in Hawaii and determine the impact any such regulations would have on the availability of ASL interpreter services, including the impact on fees charged for services, credentialing, professional development for ASL interpreters, sanctions, and penalties for improper conduct if a professional licensing program were established in Hawaii;
 - (D) Specifies certain additional factors that the working group is requested to consider when conducting its review of the need for regulation and oversight of ASL interpreters and ASL interpreter referral agencies;
 - (E) Requests the working group to submit findings and recommendations, including proposed legislation, to the Legislature no later than twenty days prior to the convening of the Regular Session of 2018; and
 - (F) Specifies that the working group shall cease to exist on June 30, 2018; and
- (2) Updating the title of this measure to reflect its amended purpose.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 32, as amended herein, and recommends its adoption in the form attached hereto as S.C.R. No. 32, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 1 (Ihara).

SCRep. 1271 Judiciary and Labor on S.C.R. No. 78

The purpose and intent of this measure is to recognize April 15 through April 22, 2018, as Volunteer Week in Hawaii.

Your Committee received testimony in support of this measure from Kanu Hawaii and twenty-one individuals.

Your Committee finds that President Richard Nixon issued Presidential Proclamation 4288 in 1974, designating the first National Volunteer Week to recognize and encourage people to engage in their community through volunteer service. This measure recognizes Volunteer Week in Hawaii in conjunction with the observance of National Volunteer Week.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 78, as amended herein, and recommends its adoption in the form attached hereto as S.C.R. No. 78, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Kim).

SCRep. 1272 Judiciary and Labor on S.R. No. 30

The purpose and intent of this measure is to recognize April 15 through April 22, 2018, as Volunteer Week in Hawaii.

Your Committee received testimony in support of this measure from Kanu Hawaii and twenty-one individuals.

Your Committee finds that President Richard Nixon issued Presidential Proclamation 4288 in 1974, designating the first National Volunteer Week to recognize and encourage people to engage in their community through volunteer service. This measure recognizes Volunteer Week in Hawaii in conjunction with the observance of National Volunteer Week.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 30, as amended herein, and recommends its adoption in the form attached hereto as S.R. No. 30, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Kim).

SCRep. 1273 Commerce, Consumer Protection, and Health on H.B. No. 561

The purpose and intent of this measure is to:

- (1) Require dentists who administer general anesthesia, deep sedation, or moderate (conscious) sedation to post notice of contact information for the Consumer Resource Center, so consumers can verify that the dentist is licensed and holds a current and valid written authorization or permit to administer anesthesia or perform sedation, request prior complaint history on a dentist or dental licensee, or file a complaint against a dentist or dental licensee; and
- (2) Require the Board of Dental Examiners to conduct an on-site inspection of a dentist's facilities, equipment, and personnel as a condition for the dentist to obtain a written authorization or permit to administer, or employ a qualified person to administer, anesthesia or sedation.

Your Committee received testimony in support of this measure from two individuals. Your Committee received comments on this measure from the Regulated Industries Complaints Office of the Department of Commerce and Consumer Affairs, Board of Dental Examiners, and Hawaii Dental Association.

Your Committee finds that this measure requires any dentist who administers general anesthesia, deep sedation, or moderate (conscious) sedation to post notice at the dentist's place of business with contact information for the Regulated Industries Complaints Office's Consumer Resource Center. This notice requirement will ensure that consumers are able to readily identify where they can obtain important consumer protection information.

Your Committee further finds that the administration of general anesthesia, deep sedation, or moderate (conscious) sedation during routine dental procedures can be done safely as part of a routine dental procedure. However, it is important that the facilities, equipment, and staffing of a dental practice that administers these drugs are adequately equipped to respond to a patient who may experience medical complications during a procedure. This measure therefore requires the Board of Dental Examiners (Board) to conduct an on-site inspection of a dentist's facilities, equipment, and personnel as a condition for the dentist to obtain a written authorization or permit to administer anesthesia or sedation or employ a qualified person to do so.

Your Committee has heard testimony from the Board that the Board has made significant amendments to its administrative rules to address major issues regarding anesthesia and sedation and to implement the current guidelines and recommendations of the American Dental Association, American Academy of Pediatrics, and American Academy of Pediatric Dentistry. According to the Board, the existing rules are therefore of a higher standard than the requirements proposed by this measure. Your Committee appreciates these concerns but notes that because of the important consumer protection issues addressed by this measure, it is appropriate for these standards to be set in statute, and thus widely and readily available to all consumers in Hawaii. Amendments to this measure are therefore necessary to adopt certain relevant language from the Board's administrative rules.

Your Committee has amended this measure by:

- (1) Clarifying that the notice to consumers shall state that the information on the special privilege accorded to a dentist to administer general anesthesia, deep sedation, or moderate (conscious) sedation is reported by the Consumer Resource Center upon request;
- (2) Inserting language from the Hawaii Administrative Rules adopted by the Board, related to written authorizations and permits issued to licensed dentists, including:
 - (A) Specifying that a licensed dentist shall administer general anesthesia and sedation consistent with the current guidelines and recommendations of the American Dental Association and the American Academy of Pediatrics and American Academy of Pediatric Dentistry;
 - (B) Specifying that no licensed dentist shall administer, or employ another person to administer, general anesthesia, deep sedation, or moderate (conscious) sedation without possessing a written authorization or permit from the Board;
 - (C) Specifying that a licensed dentist intending to produce a given level of sedation shall have the capability to rescue patients whose level of sedation becomes deeper than initially intended;
 - (D) Requiring a licensed dentist to apply to the Board, pay an application fee, and submit evidence of the following: specific educational training requirements, including completion of the Advanced Cardiac Life Support course or, if treating pediatric patients, the Pediatric Advanced Life Support course; requirements if a dentist employs or works in conjunction with an anesthesiologist or registered nurse anesthetist; and facility and staff requirements;
 - (E) Specifying that the written authorization or permit shall be renewed biennially and requiring a licensed dentist to pay a biennial fee upon renewal; and
 - (F) Permitting the Board to reevaluate, at any time, the credentials, facilities, equipment, personnel, and procedures of a licensed dentist to determine if the dentist is still qualified to hold a written authorization or permit, and authorizing the Board to revoke or refuse to renew an authorization or permit if a licensed dentist is no longer qualified;
- (3) Inserting language from the Hawaii Administrative Rules adopted by the Board, related to inspections of facilities, equipment, and personnel, including:
 - (A) Specifying that an inspection of the facility, equipment, and personnel of a licensed dentist is to determine whether the facility and staff requirements have been met and may be carried out in a manner that generally follows the guidelines, standards, requirements, and basic principles in the American Association of Oral and Maxillofacial Surgeons' Office Anesthesia Evaluation Manual; and

- (B) Clarifying that the inspection and evaluation shall be carried out by a team of consultants appointed by the Board;
- (4) Clarifying that an on-site inspection of the facility, equipment, and personnel of a licensed dentist shall be required prior to the issuance or renewal of a written authorization or permit to administer general anesthesia, deep sedation, or moderate (conscious) sedation;
- (5) Requiring a licensed dentist to show proof of the dentist's written authorization or permit and resuscitation plan prior to the renewal of a written authorization or permit; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 561, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 561, H.D. 2, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 1 (Ruderman).

SCRep. 1274 Ways and Means on H.B. No. 1182

The purpose and intent of this measure is to increase oversight of the Employees' Retirement System by requiring:

- (1) The Employees' Retirement System actuary to conduct annual stress tests of the system to obtain projections of assets, liabilities, costs, contributions, and benefit payments; and
- (2) The Board of Trustees of the Employees' Retirement System to report the results to the Legislature.

Your Committee received written comments in support of this measure from the University of Hawaii Professional Assembly.

Your Committee received written comments on this measure from the Employees' Retirement System.

Your Committee finds that requiring the Employees' Retirement System to perform an annual stress test and report its findings to the Legislature will provide the public with a level of transparency that is currently not in place in the system and will ensure that the decisions of the Board of Trustees of the Employees' Retirement System, which can have statewide implications, are not made in a vacuum.

Your Committee has amended this measure by changing the effective date from January 7, 2059, to July 1, 2017.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1182, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as H.B. No. 1182, H.D. 1, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 7. Noes, none. Excused, 4 (English, Harimoto, Inouye, Kahele).

SCRep. 1275 Ways and Means on H.B. No. 144

The purpose and intent of this measure is to protect the health and safety of persons and property in the State by reauthorizing an appropriation that is scheduled to lapse on June 30, 2017, for the mitigation of hazardous situations statewide.

Your Committee received written comments in support of this measure from the Department of Transportation and Hawaii Emergency Management Agency.

Your Committee finds that the appropriation made by Act 122, Session Laws of Hawaii 2014, to mitigate hazardous situations throughout the State has been successful and prevented significant damage from occurring during the 2016 Tropical Storm Darby event. However, the moneys appropriated by Act 122 will lapse on June 30, 2017. Therefore, it is necessary to re-appropriate the remaining unspent funds to ensure the program can continue.

Your Committee has amended this measure by changing the effective date to July 1, 2050, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 144, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as H.B. No. 144, H.D. 1, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 8. Noes, none. Excused, 3 (English, Harimoto, Taniguchi).

SCRep. 1276 Commerce, Consumer Protection, and Health on H.B. No. 243

The purpose and intent of this measure is to clarify that unit renters are prohibited from serving as a board member of a condominium association.

Prior to holding a hearing on this measure, your Committee made available for public review a proposed S.D. 1 of this measure. The proposed S.D. 1 deleted the contents of this measure and inserted provisions that repeal chapter 514A, Hawaii Revised Statutes, relating to condominium property regimes, on January 1, 2019, and ensures that all condominiums in the State are governed under chapter 514B, Hawaii Revised Statutes, relating to condominiums.

Your Committee received testimony in support of the proposed S.D. 1 from the Hawai'i State Association of Parliamentarians, Associa, and three individuals. Your Committee received testimony in opposition to the proposed S.D. 1 from nine individuals. Your Committee received comments on the proposed S.D. 1 from the Real Estate Commission; Hawaii Council of Association of Apartment Owners; Ekimoto & Morris, LLLC; ARDA Hawaii; and one individual.

Your Committee finds that two condominium chapters are currently maintained: chapter 514A, Hawaii Revised Statutes (chapter 514A), and chapter 514B, Hawaii Revised Statutes (chapter 514B). Chapter 514A is relevant only to condominium property regimes that were created before July 1, 2006, but not yet brought to market for sale. Chapter 514B has applied to all condominiums created within the State since July 1, 2006, and virtually all provisions of chapter 514B that affect the management of condominiums have applied automatically to condominiums in existence before July 1, 2006, the effective date of chapter 514B.

Your Committee further finds that although there are still some condominium projects that were created before July 1, 2006, these projects exist only on paper and have never been built and sold to anyone in the general public. Your Committee notes that the developers of such projects have had more than a decade to bring their condominium projects created under chapter 514A to market. However, the proposed S.D. 1 provides a generous window of opportunity, until January 1, 2019, for these developers to register their projects with the Real Estate Commission and bring the projects to market. Your Committee also finds that the proposed S.D. 1 is needed to eliminate the unnecessary confusion caused by maintaining two condominium chapters under Hawaii law.

Your Committee has heard testimony that an amended cross-reference in the proposed S.D. 1 may inadvertently affect a general excise tax exemption for amounts received by a manager, submanager, or board of directors of a condominium association. Your Committee understands this concern and notes that further discussion on this matter may be needed.

Your Committee has amended this measure by adopting the proposed S.D. 1 and further amending the measure by:

- (1) Including a safe harbor provision, which permits developers of projects registered under chapter 514A to register these projects under chapter 514B by January 1, 2019, and clarifies the process for such registration; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 243, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 243, H.D. 2, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Espero, Ihara, Kidani).

SCRep. 1277 Commerce, Consumer Protection, and Health on H.B. No. 651

The purpose and intent of this measure is to:

- (1) Require a consumer credit reporting agency to create a record for protected consumers, including minors under the age of sixteen and incapacitated persons, who do not have an existing credit file; and
- (2) Permit a representative of a protected consumer to place a security freeze on the protected consumer's credit report or any record created by the consumer credit reporting agency for the protected consumer.

Your Committee received testimony in support of this measure from the Office of the Consumer Protection of the Department of Commerce and Consumer Affairs, Consumer Data Industry Association, and one individual.

Your Committee finds that identity theft impacts millions of people in the country each year, with children remaining particularly vulnerable. According to the Identity Theft Assistance Center, one in forty families with children under the age of eighteen had at least one child whose personal information was compromised. Your Committee further finds that identity theft involving minors is especially concerning, as it often goes unchecked and unnoticed for years. This measure safeguards protected consumers, including minors under the age of sixteen and incapacitated persons, by offering these individuals the same protections as other consumers.

Your Committee notes that the Office of Consumer Protection and industry stakeholders have had discussions regarding the security freeze process for protected consumers established by this measure. The Office of Consumer Protection indicated to your Committee that the parties have come to an agreement regarding this measure. Amendments are therefore necessary to incorporate this consensus language.

Your Committee has amended this measure by:

- (1) Clarifying that the process for placing a security freeze or removing a security freeze includes a requirement for the protected consumer's representative to submit a request to the consumer credit reporting agency at the address or other point of contact specified by the consumer credit reporting agency;
- (2) Inserting an effective date of January 1, 2018; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 651, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 651, H.D. 2, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Espero, Ihara, Ruderman).

SCRep. 1278 (Joint) Public Safety, Intergovernmental, and Military Affairs and Agriculture and Environment on H.B. No. 2

The purpose and intent of this measure is to authorize the construction of tiny homes of less than 500 square feet for farm workers in agricultural districts in a county with a population of more than 180,000 but less than 250,000.

Your Committees received testimony in support of this measure from the Hawaii Island Food Alliance; Momilani Farm; One Island Sustainable Living; Youth Challenge Academy Hilo; Pele Lani Farm, LLC; and fourteen individuals. Your Committees received testimony in opposition to this measure from the Office of Planning, State of Hawaii; and Planning Department, County of Hawaii. Your Committees received comments on this measure from the Department of Agriculture.

Your Committees find that supporting agricultural production in the State is essential to ensuring the State's sustainability and health. The lack of agricultural sustainability in the State is a constant and pressing concern. One factor impeding greater agricultural production is the lack of affordable housing for farm workers, making it difficult for farms to attract and retain employees. Authorizing the construction and use of "tiny homes", small dwelling units of less than 500 square feet which may be constructed significantly more quickly and cheaply than traditional homes, as affordable housing for farm workers will help encourage healthy and productive farming and increase the State's self-sustainability.

Your Committees have amended this measure by inserting an effective date of May 22, 2050, to encourage further discussion.

As affirmed by the records of votes of the members of your Committees on Public Safety, Intergovernmental, and Military Affairs and Agriculture and Environment that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 2, H.D. 2, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 2, H.D. 2, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chairs on behalf of the Committees.

Public Safety, Intergovernmental, and Military Affairs: Ayes, 4. Noes, none. Excused, 1 (Wakai).

Agriculture and Environment: Ayes, 5. Noes, none. Excused, none.

SCRep. 1279 Commerce, Consumer Protection, and Health on S.C.R. No. 133

The purpose and intent of this measure is to consider the benefits of medication synchronization by requesting the Director of Health to convene a medication synchronization working group to explore and propose legislation.

Your Committee received testimony in support of this measure from the University of Hawai'i System, Walgreen Company, CVS Health/Longs Drugs, Times Pharmacy, and one individual. Your Committee received comments on this measure from the Department of Health.

Your Committee finds that many states across the country are approving medication synchronization for commercial patients. Your Committee further finds that medication synchronization has the potential to improve patient health, reduce costs to insurers, and promote efficient workflow in pharmacies by allowing pharmacists and patients to work together to synchronize a patient's medications for pick-up on the same day each month. Furthermore, studies demonstrate that appointment-based medication synchronization can significantly improve medication adherence rates. Your Committee notes that medication synchronization also has the potential to simplify therapeutic regimes and improve access to care for patients living in rural areas or patients with limited means of transportation.

Your Committee has amended this measure by:

- (1) Making a technical amendment to its title; and
- (2) Making other technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 133, as amended herein, and recommends its adoption in the form attached hereto as S.C.R. No. 133, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Ihara, Kidani, Ruderman).

SCRep. 1280 Commerce, Consumer Protection, and Health on S.C.R. No. 107

The purpose and intent of this measure is to designate October 13, 2017, as Metastatic Breast Cancer Awareness Day.

Your Committee received testimony in support of this measure from the American Cancer Society Cancer Action Network and one individual.

Your Committee finds that approximately 1,140 women in Hawaii were diagnosed with breast cancer in 2015, with six percent of newly diagnosed cases of breast cancer being metastatic at the time of diagnosis and approximately thirty percent of cases becoming metastatic or recurrent. Your Committee further finds that while early detection and improved public awareness have resulted in significant progress in treatment and improved survival rates over the past thirty years, there is no cure for metastatic breast cancer, leaving patients and their families to bear the enormous burden of treatment costs, family stress, and loss. Your Committee notes that while this type of cancer remains incurable, extensive research is underway, which is hopeful for the many lives and families across the State affected by metastatic breast cancer.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 107 and recommends its adoption.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Ihara, Kidani, Ruderman).

SCRep. 1281 Ways and Means on H.B. No. 1410

The purpose and intent of this measure is to repeal the emergency medical services special fund and to appropriate general funds to the Department of Health for the state comprehensive emergency medical services system and for community paramedic services.

Your Committee received written comments in support of this measure from the County of Hawaii, County of Hawaii Fire Department, and one individual. The Department of Health submitted comments in support of part I of the measure.

Your Committee received comments on this measure from the County of Maui County Council; the Tax Foundation of Hawaii; and one individual.

Your Committee finds that the partnership between the counties and the State Emergency Management System has worked well. This measure will sustain that partnership by ensuring that it is provided a stable means of financing, rather than through the declining revenues of the emergency medical services special fund.

Your Committee has amended this measure by correcting statutory formatting errors.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1410, H.D. 2, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as H.B. No. 1410, H.D. 2, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 7. Noes, none. Excused, 4 (English, Harimoto, Inouye, Kahele).

SCRep. 1282 Ways and Means on H.B. No. 595

The purpose and intent of this measure is to appropriate funds to continue the Hawaii small business innovation research program within the High Technology Development Corporation.

Your Committee received written comments in support of this measure from the High Technology Development Corporation; Makai Ocean Engineering, Inc.; Hawaii Food Industry Association; Oceanit Laboratories, Inc.; Chamber of Commerce Hawaii; Maui Chamber of Commerce; Hawaii Farm Bureau; and two individuals.

Your Committee finds that the High Technology Development Corporation is a key state agency in developing and supporting the State's innovation industry. Your Committee notes that last year, the Legislature extended the lapsing date of a previous appropriation and appropriated additional funds for the Hawaii small business innovation research program. Your Committee believes that continuing this program is important to supporting the innovation industry in the State.

Your Committee has amended this measure by changing the effective date to July 1, 2050, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 595, H.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as H.B. No. 595, H.D. 1, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 7. Noes, none. Excused, 4 (English, Galuteria, Harimoto, Taniguchi).

SCRep. 1283 Ways and Means on H.B. No. 335

The purpose and intent of this measure is to appropriate funds for the operating costs of the Office of Hawaiian Affairs for fiscal year (FY) 2017-2018 and FY 2018-2019.

The Office of Hawaiian Affairs; Ho'omana Pono, LLC; Hawaii Green Growth; King Kamehameha Hawaiian Civic Club; Kua'aina Ulu 'Auamo; Democratic Party of Hawaii, Hawaiian Affairs Caucus; After-School All-Stars Hawaii; Kalihi Palama Hawaiian Civic Club; Kamehameha Schools; Hawaiian Native Corporation and its Dawson Subsidiaries; Solutions Pacific; Hawaiian Media Makers; and nine individuals submitted written comments in support of this measure.

One individual submitted written comments on this measure.

The Office of Hawaiian Affairs submitted a budget that appropriated, in total:

	<u>FY 2018</u>	<u>FY 2019</u>
General Funds	\$4,521,574	\$4,521,574
Trust Funds	\$6,102,528	\$6,102,528

Your Committee has amended this budget to appropriate:

	<u>FY 2018</u>	<u>FY 2019</u>
General Funds	\$3,891,004	\$3,891,004
Trust Funds	\$5,971,958	\$5,971,958

Your Committee has reduced \$500,000 in non-recurring general fund appropriations and elected to maintain current program funding levels for the Office of Hawaiian Affairs. Your Committee has also approved \$1,400,000 in general funds for fringe benefit increases for various programs.

Your Committee has also made technical nonsubstantive amendments for the purposes of clarity and style and to conform to recommended drafting conventions.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 335, H.D. 2, as amended herein, and recommends that it pass Third Reading in the form attached hereto as H.B. No. 335, H.D. 2, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, 5 (English, Harimoto, Inouye, Taniguchi, Wakai).

SCRep. 1284 Ways and Means on H.B. No. 141

The purpose and intent of this measure is to repeal and abolish various non-general funds administered by the Office of the Governor, Office of Hawaiian Affairs, or Department of Education.

Your Committee finds that in Auditor's Reports Nos. 16-09, 16-10, and 16-11, the Auditor recommended that certain non-general funds be repealed and abolished and that any remaining funds be transferred to the general fund or other funds or accounts. Your Committee further finds that repealing and abolishing these accounts will help to eliminate the number of inactive funds or funds that do not meet the criteria for which they were established.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 141, H.D. 1, and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, none. Excused, 3 (Harimoto, Inouye, Kahele).

SCRep. 1285 Ways and Means on H.B. No. 147

The purpose and intent of this measure is to make amendments to the state income tax law for the purpose of deleting obsolete or unnecessary provisions.

Your Committee received comments on this measure from the Department of Taxation and the Tax Foundation of Hawaii.

Your Committee finds that this housekeeping measure amends the state income tax law, codified as chapter 235, Hawaii Revised Statutes, by repealing obsolete or unnecessary provisions and making conforming amendments.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 147, H.D. 1, and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, none. Excused, 3 (Harimoto, Inouye, Kahele).

SCRep. 1286 Ways and Means on H.B. No. 100

The purpose and intent of this measure is to appropriate funds for the operating and capital improvement budget of the executive branch for the 2017-2019 fiscal biennium.

Your Committee received testimony in support of this measure from the Office of the Governor; Office of the Lieutenant Governor; Department of Accounting and General Services--Office of the Comptroller, Campaign Spending Commission, Office of Enterprise Technology Services, and Office of Information Practices; Department of Agriculture; Department of the Attorney General; Department of Budget and Finance; Department of Business, Economic Development and Tourism--Office of the Director, Hawaii Housing Finance and Development Corporation, and the High Technology Development Corporation; Department of Commerce and Consumer Affairs; Department of Defense; Department of Education--Office of the Superintendent, Hawaii State Public Charter School Commission; Department of Health--Executive Office on Aging; Office of Environmental Quality Control, State Council on Developmental Disabilities, and State Council on Mental Health; Department of Human Resources Development; Department of Human Services--Office of the Director; Department of Labor and Industrial Relations; Department of Land and Natural Resources--Office of the Chairperson and the Kahoolawe Island Reserve Commission; Department of Public Safety; Department of Transportation; University of Hawaii--Cancer Center; City and County of Honolulu--Board of Water Supply and the Department of Community Services; County of Kauai--Department of Water; County of Maui--Department of Water Supply and the Office on Aging; AARP Hawaii; American Bird Conservancy; Associated Students of the University of Hawaii; Bay Clinic, Inc.; Ben Dyre Family Limited Partnership; Big Island Invasive Species Committee; Catholic Charities Hawaii; Child and Family Service; Community Clinic of Maui, Inc.; Community Coalition on Universal Healthcare Through Comprehensive Planning; Conservation Council for Hawaii; Coordinating Group on Alien Pest Species (CGAPS); Democratic Party of Hawaii, Hawaiian Affairs Caucus; East Maui Watershed Partnership; FACE/Housing Now Coalition; Friends of Hakalau Forest National Wildlife Refuge; Friends of Lana'i; Full Life; Hale Kipa; Hamakua Health Center, Inc.; Hawaii'i Green Growth; Hawaii Advocates For Consumer Rights; Hawaii Children's Action Network; Hawaii'i Coalition for Immigration Reform; Hawaii County Democratic Party District 4 Council; Hawaii Fresh Water Initiative; Hawaii Meals on Wheels; Hawaii Primary Care Association; Hawaii Public Charter School Network; Hawaii State Teachers Association; Hawaii Wild Side LLC; Hawaii'i Wildlife Fund; Hawaii Youth Services Network; Healthy Climate Communities; Hawaii Chapter of the Wildlife Society; HIplan; Kalihi Palama Hawaiian Civic Club; Kamehameha Schools; Kapaakea Hawaiian Homestead Association; Kaupo Ranch Ltd.; Kohala Watershed Partnership; Koolau Mountains Watershed Partnership; La i Opuia 2020; Maui Invasive Species Committee; Molokai Community Health Center; New Life Body of Christ Christian Church; North Shore Neighborhood Board #27; Oahu Army Natural Resource Program; One World One Water, LLC; Pacific Resource Partnership; Partners in Care; PHOCUSED; Princeville Utilities Company, Inc.; Progressive Democrats of Hawaii; Sierra Club of Hawaii; Special Education Advisory Council; Stafford Capital Partners; The Kauai Watershed Alliance; The Kupuna Caucus of the Democratic Party of Hawaii; The Nature Conservancy; The Queen's Health Systems; Wahiawa General Hospital; West Maui Mountains Watershed Partnership; and one hundred seventy-two individuals.

Your Committee received testimony in opposition to this measure from The Trust for Public Land.

Your Committee received comments on this measure from Department of Business, Economic Development, and Tourism--Hawaii Strategic Development Corporation; Department of Commerce and Consumer Affairs--Public Utilities Commission; Department of Hawaiian Home Lands; Department of Health—Office of the Director and the Hawaii Health Systems Corporation; Department of Human Services--Hawaii Public Housing Authority; Department of Land and Natural Resources--Hawaii Invasive Species Council; Department of Taxation; University of Hawaii; County of Hawaii, Department of Water Supply; County of Maui, Kahoolawe Island Reserve Commission; Common Cause Hawaii; Democratic Party of Hawaii; Green Party of Hawaii; Hawaii Audubon Society; Hawaii Government Employees Association; Hawaiian Islands Land Trust; Healthcare For All Hawaii; Kauai Womens Caucus; Lana'i Changes; Oahu Invasive Species Committee; Reef Capital Ventures; Waimanalo Health Center; and thirty-nine individuals.

PART I. OVERVIEW

Given the unknown federal funding climate, rising fixed costs, and decline in state revenue collection, your Committee was assigned the difficult task of producing a budget that could help balance the six-year financial plan for the State while continuing necessary programs and services for the community.

With this in mind, your Committee focused on constructing a budget that:

- Funded fixed costs now, in order to reduce future liabilities and maintain a good credit-rating for the State;
- Continued essential programs, including those for healthcare, homelessness, education, and the environment;
- Protected social services that may sustain future reductions in federal funds; and
- Right-sized departments to run more efficiently through the elimination of redundant contract costs and long-standing vacancies.

The Administration’s initial budget submittal to the Legislature added \$833,279,397 in general funds over the fiscal biennium. Throughout the course of session, the Administration submitted various Governor’s Messages that adjusted its initial request, and reduced its requested general fund amount by \$91,035,451 for the fiscal biennium.

Your Committee has been well aware of the tax revenue situation for the State, and the likelihood that it would not improve enough to fully fund the Administration’s budget proposal. Therefore, your Committee prioritized departments’ core needs and identified operational redundancies that could be eliminated to save money. This was done against the backdrop of a lower economic growth rate, increasing community needs, and revised budget estimates for large fixed cost items such as pension payments. The Committee’s efforts in balancing these priorities and the six-year financial plan resulted in a budget that reduced the Administration’s request (as amended by Governor’s Messages) by over \$113,000,000 in general funds over the fiscal biennium.

Rather than rely on appropriating one-year funding for recurring program needs or entirely eliminating essential social services, your Committee took a more precise approach by reviewing the details for every budget request as well as each departments’ existing base budget in order to consider all possible ways to reduce costs without jeopardizing services or core functions of the State.

The following table displays the results of your Committee’s actions.

	Fiscal year 2017-2018		Fiscal year 2018-2019	
	All Funds	General Funds	All Funds	General Funds
Executive Request (Including Governor’s Messages #1, #2, #3 and #4)	\$458,337,625	\$252,025,122	\$675,599,421	\$490,218,824
Senate Draft Change To Executive Request	(\$71,534,232)	(\$62,857,390)	(\$768,818)	(\$50,929,112)

The net change made by the Senate Draft yields an executive budget for fiscal biennium 2017-2019 as follows:

	Fiscal year 2017-2018		Fiscal year 2018-2019	
	All Funds	General Funds	All Funds	General Funds
Executive Budget Act 124, SLH 2016	\$13,702,289,565	\$7,036,572,289	\$13,702,289,565	\$7,036,572,289
Net Change Of Senate Draft	\$386,803,393	\$189,167,732	\$674,830,603	439,289,712
Total Appropriation	\$14,089,092,958	\$7,225,740,021	\$14,377,120,168	\$7,475,862,001

Your Committee notes that the Administration submitted a memorandum, dated March 20, 2017, which proposed further general fund reductions. The memorandum was not submitted as a formal Governor’s Message and came to your Committee late in the deliberation process. Despite the more informal nature and lateness of the submission, your Committee did review and evaluate the proposed reductions. Your Committee agreed to some proposed cuts, and rejected others.

PART II. ECONOMY

The State of Hawaii is projected to experience continued growth. However, your Committee understands that while the economic outlook for the State is positive, growth is happening at a slower rate, and your Committee must take this into consideration when drafting a fiscally responsible state budget. Your Committee finds that:

- (1) The University of Hawaii Economic Research Organization (UHERO) projects that the real gross domestic product will grow by 2.1 percent in 2017, 1.9 percent in 2018, and 1.8 percent in 2019. The unemployment rate is projected to be 3.2 percent in 2017, 2018, and 2019;
- (2) The Department of Business, Economic Development, and Tourism projects that the real gross domestic product will grow by 1.8 percent in 2017, 1.7 percent in 2018, and 1.6 percent in 2019. The civilian unemployment rate is projected to be 3.4 percent in 2017, 3.5 percent in 2018, and 3.6 percent in 2019; and
- (3) The economy has remained relatively stable at the national level as well. The Federal Reserve, which is tasked with setting the United States’ monetary policy, raised the federal funds interest rate by a range between 0.75 percent and 1 percent on March 15, 2017. This is the second hike in three months, and while many financial institutions and experts believe the Federal Reserve should be implementing rate increases at a faster pace, many members on the Federal Reserve Board do not share this concern about inflation.

Janet Yellen, Chair of the Federal Reserve Board, indicated that she was hesitant to raise federal funds interest rates any faster. While she recognized steady growth in the U.S. economy, she nevertheless reaffirmed her belief that the board should continue with their plans to adjust the rate slowly to match the slow-growing economic indicators. Yellen stated, “The data have not notably strengthened. We haven’t changed the outlook. We think we’re moving on the same course we’ve been on.”

Hawaii’s economy appears to exemplify similar characteristics as that of the nation. Overall visitor arrivals and expenditures are estimated to continue to grow, but at a slower pace.

PART III. GENERAL FUND REVENUES

The slowing economy has resulted in lower than expected general fund tax revenues than when the Administration’s initial budget was formulated.

On March 13, 2017, the Council on Revenues (COR) lowered its general fund tax revenue growth rate forecast from 3 percent to 2.5 percent for fiscal year 2016-2017. This was the second time the COR lowered its forecast for fiscal year 2016-2017. Earlier this year, the COR lowered its forecast for fiscal year 2016-2017 from 5.5 percent to 3 percent. The most recent projections estimate the growth rate to be 4 percent for fiscal years 2017-2018 and 2018-2019, and 4.5 percent for 2019-2020.

COUNCIL ON REVENUES – DIFFERENCE IN GENERAL FUND TAX REVENUES BETWEEN FORECASTS OF MARCH 13, 2017, AND SEPTEMBER 2, 2016 (In \$Millions)			
	Fiscal Year 2016-2017	Fiscal Year 2017-2018	Fiscal Year 2018-2019
COR 03/13/17	2.5% \$6,349.2	4.0% \$6,603.1	4.0% 6,867.3
COR 09/12/16	5.5% \$6,535.0	5.0% \$6,861.8	4.4% \$7,163.7
Difference	- \$185,831	- \$258,614	- \$296,404

PART IV. OPERATING BUDGET

Accounting and General Services

The Senate Draft of the executive budget adjusts the Department of Accounting and General Services’ appropriation as follows:

- (1) For fiscal year 2017-2018, by reducing \$1,709,249 in general funds and \$14,809,085 in non-general funds; and
- (2) For fiscal year 2018-2019, by reducing \$1,533,704 in general funds and \$19,034,085 in non-general funds.

The Administration’s request was to add \$125,438 in general funds and reduce \$14,809,085 in non-general funds for fiscal year 2017-2018 and reduce \$130,829 in general funds and \$19,034,085 in non-general funds for fiscal year 2018-2019.

Your Committee recognizes that one of the primary functions of the Department of Accounting and General Services is to maintain the State’s accounting system, which requires up-to-date financial infrastructure. The Department’s new payroll and time and attendance systems will replace the existing payroll system that still relies on paper processes. To this end, your Committee has continued funding and support for the maintenance and operations of these systems by providing 8.00 positions and \$4,323,008 for fiscal year 2017-2018 and 11.00 positions and \$4,452,310 for fiscal year 2018-2019 in general funds.

Your Committee has also provided 5.00 positions and \$505,585 in general funds for each fiscal year to fund operating expenses for the Campaign Spending Commission. By shifting operating expenses for the Commission from trust funds to general funds, the original intention of the Hawaii Election Campaign Fund – to support the public financing of campaigns – can be restored.

Office of Enterprise Technology Services

Your Committee recognizes and appreciates the work that the Office of Enterprise Technology Services is conducting for the State, as well as the operational efficiencies that the Office is implementing through contract negotiations and identification of redundancies.

One example of this is the carrier circuit and collocation costs for the State, in which the Office identified redundant lines and was able to reduce the funds needed to continue infrastructure maintenance. These funds are used to support network and infrastructure for essential government services, including those for health and public safety. Your Committee provided \$3,175,000 in general funds for each fiscal year to support this ongoing cost.

Your Committee understands that staffing the Office of Enterprise Technology Services requires trading-off unnecessary positions for those that can recruit more competitive applicants. Therefore, your Committee has provided 2.00 positions and \$120,000 for fiscal year 2017-2018 and \$240,000 for fiscal year 2018-2019 in general funds for network and security engineers. Your Committee appreciates the Office's willingness to reduce 14.00 positions and \$1,054,320 in general funds for each fiscal year in order to eliminate positions that are no longer needed. Additionally, your Committee has transferred 2.00 vacant positions from the Department of Human Resources Development that can be used to further help support the needs of the Office.

Agriculture

The Senate Draft of the executive budget adjusts the Department of Agriculture's appropriation as follows:

- (1) For fiscal year 2017-2018, by reducing \$229,631 in general funds and adding \$943,490 in non-general funds; and
- (2) For fiscal year 2018-2019, by reducing \$176,529 in general funds and adding \$862,136 in non-general funds.

The Administration's request was to add \$6,407,047 in general funds and \$2,666,977 in non-general funds for fiscal year 2017-2018 and reduce \$985,133 in general funds and add \$1,099,450 in non-general funds for fiscal year 2018-2019.

Your Committee provided a one-time appropriation of \$500,000 in general funds last year to address concerns related to pesticide use following a Joint-Fact Finding Study Group on Kauai. In order to continue this effort, your Committee provided \$750,000 for each fiscal year to allow the Department of Agriculture to assess and establish health, environmental, and agricultural standards related to pesticide exposure. Additionally, your Committee appropriated 3.00 positions and \$79,236 for fiscal year 2017-2018 and \$158,472 for fiscal year 2018-2019 in general funds for additional support for pesticide compliance.

Act 106, Session Laws of Hawaii 2016, created the Agricultural Food Safety Certification Program, which allows the Department of Agriculture to comply with the federal Food Safety Modernization Act. As such, your Committee appropriated 2.00 positions and \$226,134 for fiscal year 2017-2018 and \$200,000 for fiscal year 2018-2019 in general funds to continue funding for this program, which provides research, education, and information related to food safety laws and compliance.

Attorney General

The Senate Draft of the executive budget adjusts the Department of the Attorney General's appropriation as follows:

- (1) For fiscal year 2017-2018, by reducing \$727,844 in general funds and adding \$1,833,680 in non-general funds; and
- (2) For fiscal year 2018-2019, by reducing \$727,844 in general funds and adding \$1,799,156 in non-general funds.

The Administration's request was to add \$2,691,320 in general funds and \$3,225,998 in non-general funds for fiscal year 2017-2018 and \$2,641,320 in general funds and \$3,191,474 in non-general funds for fiscal year 2018-2019.

Act 161, Session Laws of Hawaii 2016, established an independent review board to make non-binding recommendations on criminal prosecution in instances where an officer-involved death occurred. Your Committee understands that the implementation of this Act requires funding and has therefore provided 1.00 legal clerk position and \$50,000 in general funds for each fiscal year to support establishment of this review board and thereby increase law enforcement transparency and accountability.

Your Committee also supports the work of the State Criminal Justice Information and Identification program and its operation of the 24x7 Criminal Justice Information Repository System. This system provides essential information to law enforcement and criminal justice agencies throughout the State, and requires software maintenance. Therefore, your Committee approved \$110,000 in general funds for each fiscal year to support the technical needs of this heavily utilized repository.

Budget and Finance

The Senate Draft of the executive budget adjusts the Department of Budget and Finance's appropriation as follows:

- (1) For fiscal year 2017-2018, by adding \$16,878,021 in general funds and reducing \$3,449,038 in non-general funds; and
- (2) For fiscal year 2018-2019, by adding \$240,195,865 in general funds and reducing \$6,616,972 in non-general funds.

The Administration's request was to add \$14,473,467 in general funds and reduce \$3,554,111 in non-general funds for fiscal year 2017-2018 and add \$237,814,627 in general funds and reduce \$6,722,045 in non-general funds for fiscal year 2018-2019.

Many of the State's non-discretionary cost items are centrally budgeted in the Department of Budget and Finance. These costs have seen substantial increases over the past several years and include pension benefits and healthcare insurance for active state employees and retirees, as well as other post-employment benefits. Due to recently revised actuarial projections, additional employer contributions are required to address the growing pension shortfall. Therefore, your Committee has provided \$34,625,428 for fiscal year 2017-2018 and \$70,673,178 for fiscal year 2018-2019 in general funds in order to gradually phase-in these additional employer contribution costs. Phasing-in these costs now is a mechanism to address a growing long-term liability for the State, as well as to ensure that resources remain available to fund current needs and priorities.

Your Committee also recognizes the State's commitment to provide separation benefits for employees affected by the transfer of the Hawaii Health Systems Corporation's Maui Region to Kaiser Permanente pursuant to Act 103, Session Laws of 2015. Therefore, your Committee provided \$30,637,298 in general funds for fiscal year 2017-2018 to assist public employees who may be displaced due to the transfer.

To help offset these funding needs, your Committee looked into the budget assumptions that the Department uses when projecting the costs for their debt-service and fringe benefit requirements. By conservatively revising these assumptions based on current market conditions and recent lapse data, your Committee saved \$6,343,750 for fiscal year 2017-2018 and \$17,468,750 for fiscal year 2018-2019 in general funds.

Business, Economic Development, and Tourism

The Senate Draft of the executive budget adjusts the Department of Business, Economic Development, and Tourism's appropriation as follows:

- (1) For fiscal year 2017-2018, by reducing \$2,595,349 in general funds and \$71,093,943 in non-general funds; and
- (2) For fiscal year 2018-2019, by reducing \$3,594,477 in general funds and \$70,549,943 in non-general funds.

The Administration's request was to add \$3,581,055 in general funds and reduce \$58,568,838 in non-general funds for fiscal year 2017-2018 and reduce \$1,257,489 in general funds and \$114,362,838 in non-general funds for fiscal year 2018-2019.

Your Committee recognizes the need for more affordable housing and transit-oriented development. As such, your Committee provided 1.00 planner position and \$27,718 in general funds for fiscal year 2017-2018 and \$55,236 in general funds for fiscal year 2018-2019 to continue the efforts of the Special Action Team on Affordable Rental Housing created through Act 127, Session Laws of Hawaii 2016. Your Committee also provided 1.00 planner position and \$29,868 in general funds for fiscal year 2017-2018 and \$59,736 in general funds for fiscal year 2018-2019 to support the Inter-Agency Council for Transit-Oriented Development projects created through Act 130, Session Laws of Hawaii 2016. Your Committee has further provided 1.00 planner position and \$25,386 in general funds for fiscal year 2017-2018 and \$50,772 in general funds for fiscal year 2018-2019 to ensure compliance with Land Use Commission decisions and orders.

Your Committee understands the contributions of small businesses to economic development. As such, your Committee provided 1.00 permanent position and \$14,000 in general funds for fiscal year 2017-2018 and \$28,000 in general funds for fiscal year 2018-2019 to assist the Small Business Regulatory Review Board in its duties to identify and comment on the business impacts of existing administrative rules and regulations.

Commerce and Consumer Affairs

The Senate Draft of the executive budget adjusts the Department of Commerce and Consumer Affairs' appropriation as follows:

- (1) For fiscal year 2017-2018, by adding \$3,780,225 in non-general funds; and
- (2) For fiscal year 2018-2019, by adding \$3,366,716 in non-general funds.

The Administration's request was to add \$7,577,865 in non-general funds for fiscal year 2017-2018 and \$6,007,392 in non-general funds and for fiscal year 2018-2019.

Your Committee approved 1.00 position and \$42,400 in trust funds for fiscal year 2017-2018 and \$84,000 in trust funds for fiscal year 2018-2019 for condominium education. Your Committee recognizes the necessity for a resource that provides important information to the community regarding transactions surrounding condominiums. Your Committee understands the importance of eliminating confusion and distress regarding housing.

Your Committee also recognizes the need for consultants regarding important energy and utility cases that impact the daily lives of the residents of Hawaii. These upcoming cases will lay the blueprints for Hawaii's energy future. Your Committee approved \$200,000 in special funds for fiscal year 2017-2018 for consultant services to meet this need.

Defense

The Senate Draft of the executive budget adjusts the Department of Defense's appropriation as follows:

- (1) For fiscal year 2017-2018, by reducing \$1,270,723 in general funds and adding \$376,292 in non-general funds; and
- (2) For fiscal year 2018-2019, by reducing \$1,509,722 in general funds and \$1,382,808 in non-general funds.

The Administration's request was to reduce \$1,035,255 in general funds and \$1,583,563 in non-general funds for fiscal year 2017-2018 and \$1,557,728 in general funds and \$1,503,563 in non-general funds for fiscal year 2018-2019.

Your Committee recognizes the importance of honoring and supporting our veterans. Your Committee has provided 1.00 Veterans Services Counselor position and \$50,772 in general funds for each fiscal year. Your Committee is also aware of the significant safety hazards identified at the Hawaii State Veterans Cemetery. Therefore your Committee has provided \$768,000 in general funds for fiscal year 2017-2018 and \$464,000 in general funds for fiscal year 2018-2019 for tree trimming and removal.

In support of the Department of Defense's efforts to improve its financial management and accountability, your Committee has provided 2.00 positions and \$48,223 in general funds for fiscal year 2017-2018 and \$86,346 in general funds for fiscal year 2018-2019 for fiscal and administrative support.

Education

The Senate Draft of the executive budget adjusts the Department of Education's appropriation as follows:

- (1) For fiscal year 2017-2018, by adding \$52,131,601 in general funds and \$5,667,548 in non-general funds; and
- (2) For fiscal year 2018-2019, by adding \$57,297,239 in general funds and \$5,667,548 in non-general funds.

The Administration's request was to add \$64,287,540 in general funds and \$2,867,548 in non-general funds for fiscal year 2017-2018 and \$65,848,291 in general funds and \$2,867,548 in non-general funds for fiscal year 2018-2019.

Regular Education

Your Committee is committed to investing in our keiki and to providing support so that all keiki have the means to succeed in the public school system. In 2015, the Legislature appropriated general funds to increase access and quality of health services for Hawaii's public school students through the Hawaii keiki: healthy and ready to learn program. Aware of the success of the Hawaii keiki program, your Committee approved \$2,800,000 in general funds and \$2,800,000 in federal funds for each fiscal year to continue and expand collaboration between health, human services, and education policymakers and providers. The expansion of the Hawaii keiki program will strengthen critical school-based health services in the State to meet the academic and health needs of Hawaii's public school students.

Your Committee has also approved \$1,000,000 in general funds for each fiscal year for the Early College High School Program, to support the success of the initiative and encourage more opportunities for Hawaii's public high school students to earn college credits before they graduate from high school.

Your Committee approved \$2,500,000 in general funds for fiscal year 2017-2018 and \$4,000,000 in general funds for fiscal year 2018-2019 to account for the projected shortfall in the Department of Education's school service and maintenance budget. This amount restores a projection of costs that was not included in the Governor's proposed budget.

Libraries

The Senate Draft of the executive budget adjusts the Hawaii State Libraries' appropriation as follows:

- (1) For fiscal year 2017-2018, by adding \$1,438,286 in general funds; and
- (2) For fiscal year 2018-2019, by adding \$1,614,149 in general funds.

The Administration's request was to add \$1,295,169 in general funds for fiscal year 2017-2018 and to add \$1,480,317 in general funds for fiscal year 2018-2019.

Your Committee believes in the mission of the state libraries, and recognizes their ability to serve all segments of the population and encourage educational growth and learning. Your Committee is aware of the Comptroller's memorandum, which outlines \$1,000,000 of outstanding repair and maintenance projects for the libraries statewide. To help with this effort, your Committee approved \$250,000 in general funds for each fiscal year to raise the base budget for repair and maintenance to \$750,000. This will help the libraries address their outstanding backlog. This amount restores a budget request that was zeroed out by the Governor in the Governor's proposed budget.

State libraries serve as a resource for our communities and are sometimes the only resource for research or educational materials and computer access for persons experiencing homelessness. Your Committee is aware of the housing challenges in our State and supports the Governor's Homeless Taskforce by providing 1.00 position for the Office of the State Librarian and \$23,466 in general funds for fiscal year 2017-2018 and \$46,932 in general funds for fiscal year 2018-2019. This position will develop partnerships between the library system and other governmental and nonprofit agencies focused on people experiencing homelessness.

With the opening of the new Nanakuli Public Library, your Committee approved an additional 6.50 positions and \$50,799 in general funds for fiscal year 2017-2018 and \$203,196 in general funds for fiscal year 2018-2019. The new state-of-the-art library is under construction and due to open in early 2018. The additional positions and funds will fully staff the library, so that all special services, including business development and cultural programming, will be available to the community.

Charter Schools

The Senate Draft of the executive budget adjusts the Charter Schools' appropriation as follows:

- (1) For fiscal year 2017-2018, by adding \$9,651,776 in general funds and \$302,150 in federal funds; and
- (2) For fiscal year 2018-2019, by adding \$9,944,866 in general funds and \$302,150 in federal funds.

The Administration's request was to add \$11,336,693 in general funds and \$302,150 in federal funds for fiscal year 2017-2018 and to add \$11,419,807 in general funds and \$302,150 in federal funds for fiscal year 2018-2019.

Your Committee is committed to supporting Hawaii's public charter schools and has provided \$9,651,776 in general funds for fiscal year 2017-2018 and \$9,944,866 in general funds for fiscal year 2018-2019. This amount is based on the per-pupil allocation for charter schools.

Early Learning

The Senate Draft of the executive budget adjusts the Early Learning program appropriation as follows:

- (1) For fiscal year 2017-2018, by adding \$230,414 in general funds; and
- (2) For fiscal year 2018-2019, by adding \$679,152 in general funds.

The Administration's request was to add \$89,486 in general funds for fiscal year 2017-2018 and to add \$118,070 in general funds for fiscal year 2018-2019.

Your Committee greatly appreciates the work that the Executive Office on Early Learning has done to improve the pre-kindergarten program. Your Committee is also aware of the understaffing in the Office and has thus provided 5.00 positions and \$53,733 in general funds for fiscal year 2017-2018 and \$82,317 in general funds for fiscal year 2018-2019 to re-establish the Executive Office on Early

Learning. Currently, the Executive Office on Early Learning contains only one staff member, the Executive Director. The additional positions will allow the Director to focus on the long-term objectives of the Office and receive much needed staff support.

Your Committee recognizes the steady success of the public pre-kindergarten program and has thus approved \$136,688 in general funds for fiscal year 2017-2018, and 10.00 positions and \$556,842 in general funds for fiscal year 2018-2019 for five new public pre-kindergarten classrooms. These funds support the Pre-Kindergarten and Induction Program and restore funding that was zeroed out by the Governor in the Governor's proposed budget.

Governor

The Senate Draft of the executive budget adjusts the Office of the Governor's appropriation as follows:

- (1) For fiscal year 2017-2018, by reducing \$295,226 in general funds; and
- (2) For fiscal year 2018-2019, by reducing \$295,226 in general funds.

The Administration's request was to add \$184,035 in general funds for fiscal year 2017-2018 and to add \$184,035 in general funds for fiscal year 2018-2019.

Your Committee recognizes that providing executive direction for the State is a difficult task before the Office of the Governor. While your Committee has been supportive in trying to increase the capacity of the Governor's Office to effectuate its priorities, concerns remain over the Office of Military Affairs and Federal Grants Maximization. Your Committee remains uncertain as to both the utilization and purpose of the Office, and believes that it may not be fiscally prudent to continue its operations without a clear indication of the benefits to the State. Your Committee has therefore reduced 2.00 positions and \$337,228 in general funds for the Office of Military Affairs and Federal Grants Maximization.

Your Committee also understands that the Director of Human Resources Development has been filling the Chief Negotiator position for the State, and therefore, was able to realize savings by reducing 1.00 position and \$109,200 in general funds for each fiscal year for the vacant Chief Negotiator position. Your Committee also provided \$117,167 in general funds for each fiscal year to fund previously unbudgeted membership fees for national and regional organizations for the Office of the Governor.

Hawaiian Home Lands

The Senate Draft of the executive budget adjusts the Department of Hawaiian Home Lands appropriation as follows:

- (1) For fiscal year 2017-2018, by adding \$1,195,390 in general funds and reducing \$9,484,159 in non-general funds; and
- (2) For fiscal year 2018-2019, by adding \$1,195,390 in general funds and reducing \$9,484,159 in non-general funds.

The Administration's request was to add \$1,195,390 in general funds and reduce \$31,484,159 in non-general funds for fiscal year 2017-2018 and to add \$1,195,390 in general funds and reduce \$31,484,159 in non-general funds for fiscal year 2018-2019.

Your Committee understands and recognizes the importance of the Department of Hawaiian Home Lands and its mission of serving its beneficiaries.

Your Committee has provided \$6,865,887 in general funds for each fiscal year for fringe benefit funding for the Department of Hawaiian Home Lands general funded positions.

Health

The Senate Draft of the executive budget adjusts the Department of Health's appropriation as follows:

- (1) For fiscal year 2017-2018, by adding \$14,445,630 in general funds and \$52,410,524 in non-general funds; and
- (2) For fiscal year 2018-2019, by adding \$18,004,450 in general funds and \$8,344,305 in non-general funds.

The Administration's request was to add \$19,423,885 in general funds and \$52,363,112 in non-general funds for fiscal year 2017-2018 and \$22,341,849 in general funds and \$8,296,893 in non-general funds for fiscal year 2018-2019.

Aging and Disability

Your Committee provided \$3,976,435 in general funds for each fiscal year to increase the overall base budget for Kupuna Care. Additional funds will support the existing client base, allowing the clients to lead independent, meaningful, and dignified lives through a continuum of home and community-based efforts.

Your Committee approved \$600,000 in general funds for fiscal year 2017-2018 to support family caregivers who provide long-term care to our ever-increasing kupuna population. This funding will provide financial assistance that will reduce the burden on these individuals, allowing them to focus on helping our kupuna age in place while delivering comparable services.

Your Committee provided \$1,700,000 in general funds for each fiscal year to increase the base for the Aging and Disability Resource Center (ADRC). Additional funds will support the operations of the four ADRC sites statewide as well as allow for the integration of participant-directed models of public support.

Your Committee provided \$2,754,980 in general funds for fiscal year 2017-2018 and \$7,118,914 in general funds for fiscal year 2018-2019 to meet the State match for the Medicaid Intellectual and Developmental Disabilities Home and Community Based Services Waiver to address the cost of services. New regulations require states to maximize the opportunities for program participants to access the benefits of community living, receive services in the most integrated settings, and effectuate the law's intention to provide alternatives to services rendered in institutions.

Homeless Efforts

Your Committee provided \$500,000 in general funds for each fiscal year for purchase of services that will provide for continuation of outreach and interim case management for homeless individuals with serious and persistent mental health challenges.

Your Committee has also provided \$800,000 in general funds for each fiscal year for outreach, counseling, and Law Enforcement Assisted Diversion (LEAD) services for chronically homeless individuals and families with severe substance abuse disorders.

Additionally, your Committee provided \$300,000 in general funds for each fiscal year to increase the current inventory of clean and sober housing for utilization by chronically homeless individuals with severe substance abuse disorders. The Alcohol and Drug Abuse Division has indicated that available funds for these services are limited, and that the supply of clean and sober housing, particularly on the neighbor islands, is insufficient to meet demand.

Mental Health

Your Committee approved \$1,340,000 in general funds for fiscal year 2017-2018 and \$1,613,000 in general funds for fiscal year 2018-2019 to rebase provider rates for the Child and Adolescent Mental Health Division (CAMHD). A rate study conducted by the Western Interstate Commission for Higher Education (WICHE) determined that local provider rates were substantially lower than those offered in other states. Rates have not been adjusted for CAMHD service providers in over ten years, and providers have advised the Division that they would be unable to continue to operate if rates were not adjusted.

Program Fiscal Sustainability

Your Committee provided \$6,507,305 in general funds for each fiscal year to complete the transition of Chronic Disease Prevention and Health Promotion Division staff from special funds to general funds that was initiated by Act 118, Session Laws of Hawaii 2015. Your Committee previously found that the allocation from the Hawaii Tobacco Settlement Special fund was insufficient to support the Division's personal services and other expenses. This adjustment will allow the Department to continue these vital operations sustainably.

Similarly, your Committee provided \$3,000,000 in general funds for each fiscal year for the State's Maintenance of Effort (MOE) to receive the Maternal Infant Early Childhood Home Visiting grant funds. Matching general funds had previously been allocated from the Hawaii Tobacco Settlement Special Fund. Unfortunately, the Department of Health's successful efforts to reduce smoking in the State correlate to a reduction in the amount of special funds available for the program's operation. Consequently, general funds are necessary to obtain matching federal funds.

In light of the substantial amounts proposed to be added to the Department of Health's base budget and the uncertainty of state tax revenues, your Committee identified 31.00 vacant, low-priority positions to eliminate, for a savings of \$1,709,047 in general funds for each fiscal year. Your Committee redirected these and other identified savings to other areas within the Department, in order to sustain current programs and to render new program funding revenue neutral.

Wahiawa General Hospital

Your Committee also approved an operating subsidy of \$942,000 in general funds for each fiscal year for Wahiawa General Hospital. This subsidy will continue a previous subsidy amount that was provided by the State for purchase of services contracts that were set to expire on June 30, 2017.

Hawaii Health Systems Corporation

The Senate Draft of the executive budget adjusts the Hawaii Health System's appropriation as follows:

- (1) For fiscal year 2017-2018, by adding \$32,981,003 in general funds and \$23,459,087 in special funds; and
- (2) For fiscal year 2018-2019, by adding \$26,181,003 in general funds and \$23,459,087 in special funds.

The Administration's request was to add \$47,109,003 in general funds and \$23,459,087 in special funds for fiscal year 2017-2018 and \$30,729,003 in general funds and \$23,459,087 in special funds for fiscal year 2018-2019.

Your Committee provided \$36,486,000 in general funds for fiscal year 2017-2018 and \$34,686,000 in general funds for fiscal year 2018-2019 to provide the operating subsidy necessary for Hawaii Health Systems Corporation – Regions to address a budget deficit caused by rising healthcare costs.

In view of the transfer of the Corporation's Maui regional facilities to the Kaiser Foundation, your Committee approved disbursements of Maui region's working capital, and \$5,000,000 for fiscal year 2017-2018 in general funds to provide additional operating moneys for the remaining regions of the Corporation, as well as any necessary working capital for the Maui Health System, a Kaiser Foundation Hospital, LLC, that is needed after the Maui region's assets have been exhausted at the end of fiscal year 2016-2017. Your Committee has included a provision authorizing the Corporation's Board of Directors to determine the amount required by the hospitals, including the Maui Health System, a Kaiser Foundation Hospital, LLC.

Your Committee also has approved an operating and capital subsidy for the Maui Health System, a Kaiser Foundation Hospital, LLC, for the Maui facilities. Your Committee intends that the working capital and subsidy be provided to the Maui Health System, a Kaiser Foundation Hospital, LLC, in accordance with the transfer from the State to the Kaiser Foundation, including all applicable provisions of Act 103, Session Laws of Hawaii 2015, and part IV, chapter 323F, Hawaii Revised Statutes.

Human Resources Development

The Senate Draft of the executive budget adjusts the Department of Human Resources Development's appropriation as follows:

- (1) For fiscal year 2017-2018, by adding \$1,073,212 in general funds; and
- (2) For fiscal year 2018-2019, by reducing \$1,322,788 in general funds.

The Administration's request was to add \$2,052,292 in general funds for fiscal year 2017-2018 and \$2,302,292 in general funds for fiscal year 2018-2019.

Your Committee approved \$2,396,000 in general funds for fiscal year 2017-2018 for workers' compensation claims. Your Committee recognizes the importance of fulfilling the State of Hawaii's responsibility to pay workers' compensation claims and benefits in a timely manner to avoid exorbitant fines and other costs in the future. Your Committee is aware of the fluctuations in the workers' compensation cost projections, and therefore, looks forward to working with the Department of Human Resources Development on revised cost estimates for fiscal year 2018-2019 during the supplemental budget cycle.

Your Committee approved the transfer of 2.00 vacant information technology positions from Supporting Services to the Office of Enterprise Technology Services, where they could be more efficiently deployed to work on interdepartmental information technology projects.

Human Services

The Senate Draft of the executive budget adjusts the Department of Human Services' appropriation as follows:

- (1) For fiscal year 2017-2018, by adding \$12,943,765 in general funds and \$157,133,545 in non-general funds; and
- (2) For fiscal year 2018-2019, by adding \$48,037,256 in general funds and \$273,181,312 in non-general funds.

The Administration's request was to add \$25,596,723 in general funds and \$157,393,373 in non-general funds for fiscal year 2017-2018 and \$66,440,270 in general funds and \$276,330,208 in non-general funds for fiscal year 2018-2019.

Your Committee recognizes the importance of essential homelessness services provided by the State of Hawaii. As such, your Committee approved \$3,000,000 in general funds for each fiscal year for the continuation of the Housing First Program and \$3,000,000 in general funds for each fiscal year for the Rapid Re-Housing Program. A sum of \$1,500,000 in general funds for each fiscal year for homeless outreach services was also appropriated to the Department to maintain the current level of statewide outreach. These programs and services aid some of the most vulnerable populations of people, who are either experiencing homelessness or at-risk of becoming homeless.

Your Committee values protecting social safety nets, especially during times of economic uncertainty. These appropriations will follow the appropriations made in the prior fiscal year, as well as expand services to the neighbor islands.

Your Committee also approved \$2,500,000 in general funds and \$7,056,720 in federal funds for fiscal year 2017-2018 and \$5,000,000 in general funds and \$14,113,440 in federal funds for fiscal year 2018-2019 for adult dental benefits. Dental care is an essential part of overall health and well-being. This benefit was eliminated during the State's recession, but it is a critical service to restore because preventative dental care has proved to be a fiscally prudent expenditure for many states. Funding adult dental benefits is not only financially responsible, but it also helps 180,000 adults avoid preventable, expensive, and invasive dental procedures and extractions.

Your Committee appropriated \$4,558,858 in general funds and \$2,454,770 in federal funds for fiscal year 2017-2018 and \$4,634,292 in general funds and \$2,495,388 in federal funds for fiscal year 2018-2019 to comply with the 2013 class action lawsuit filed on behalf of over 1,000 foster parents to increase the foster board rates. These moneys are necessary for the State to comply with the Child Welfare Act, and therefore your Committee has fully funded this request.

Labor and Industrial Relations

The Senate Draft of the executive budget adjusts the Department of Labor and Industrial Relations' appropriation as follows:

- (1) For fiscal year 2017-2018, by reducing \$2,927,343 in general funds and \$19,987 in non-general funds; and
- (2) For fiscal year 2018-2019, by reducing \$597,775 in general funds and adding 45,604 in non-general funds.

The Administration's request was to reduce \$2,753,210 in general funds and \$19,987 in non-general funds for fiscal year 2017-2018 and to reduce \$376,494 in general funds and to add \$45,604 in non-general funds for fiscal year 2018-2019.

Your Committee approved a 1.00 position and \$515,386 in general funds for fiscal year 2017-2018 and \$2,810,772 in general funds for fiscal year 2018-2019 for Business Process Optimization Analysis and Case Management System Modernization. This project will expedite payment of injured workers' benefits and help people return to work.

Your Committee approved 1.00 position and \$19,746 in general funds for fiscal year 2017-2018 and \$39,392 in general funds for fiscal year 2018-2019 for the Hawaii Civil Rights Commission. Providing this legal support position will permit reallocation of administrative duties currently handled by attorneys, thereby increasing attorney productivity by as much as twenty-five percent.

Recognizing an increase in the number of appeals presented to the Labor and Industrial Relations Appeals Board and the resulting increased delay in case processing, your Committee approved 1.00 position and \$14,436 in general funds for fiscal year 2017-2018 and \$28,872 in general funds for fiscal year 2018-2019. This position will address the Board's current staffing shortage, thereby increasing the percentage of appeals that the Board will be able to resolve within fifteen months of receipt.

Land and Natural Resources

The Senate Draft of the executive budget adjusts the Department of Land and Natural Resources' appropriation as follows:

- (1) For fiscal year 2017-2018, by adding \$19,668,769 in general funds and \$16,159,752 in non-general funds; and
- (2) For fiscal year 2018-2019, by adding \$15,500,669 in general funds and \$1,967,001 in non-general funds.

The Administration's request was to add \$21,234,212 in general funds and \$16,036,430 in non-general funds for fiscal year 2017-2018 and \$20,766,112 in general funds and \$1,891,237 in non-general funds for fiscal year 2018-2019.

Your Committee believes in the essential services and protection of natural resources that the Department of Land and Natural Resources provides to the State of Hawaii. Your Committee approved all executive requests from the Governor regarding the transition of base budgets from special funds to general funds in accordance with Act 84, Session Laws of Hawaii 2015. Providing a stable funding source to these programs was a priority of this Committee last biennium, and transitioning personnel in these programs into the general fund budget completes the process.

Hawaii's ecosystem is incredibly fragile and is in constant danger of falling out of balance. Your Committee approved \$750,000 in general funds for each fiscal year to combat Rapid Ohia Death. Your Committee also acknowledges the important role the Hawaii Invasive Species Council plays in the biosecurity of the State and therefore appropriated \$4,000,000 in general funds for fiscal year 2017-2018 for this program. Funding for fiscal year 2018-2019 for the Hawaii Invasive Species Council was not included due to the potential creation of the Hawaii Invasive Species Authority through House Bill No. 1339, which is currently under review by the Legislature.

Your Committee approved 15.00 positions and \$1,065,147 in general funds for fiscal year 2017-2018 and \$1,097,047 in general funds for fiscal year 2018-2019 for the Kahoolawe Island Reserve Commission. Without this appropriation, the operations of the Commission would cease. These moneys provide the Commission the ability not only to clean and restore the island of Kahoolawe, but the chance to educate the community and protect state lands for future generations.

Public Safety

The Senate Draft of the executive budget adjusts the Department of Public Safety's appropriation as follows:

- (1) For fiscal year 2017-2018, by adding \$5,542,921 in general funds and \$1,292,671 in non-general funds; and
- (2) For fiscal year 2018-2019, by adding \$698,120 in general funds and \$1,292,671 in non-general funds.

The Administration's request was to add \$7,265,245 in general funds and \$1,292,671 in non-general funds for fiscal year 2017-2018 and \$4,201,373 in general funds and \$1,292,671 in non-general funds for fiscal year 2018-2019.

As Halawa Correctional Facility continues to undergo renovations, it is important to temporarily fund the housing of inmates in non-state facilities. To this end, your Committee provides \$3,344,801 in general funds for fiscal year 2017-2018. Your Committee also notes the important work of the Sheriff's Division, and the need to recruit highly qualified candidates into positions performing that work. Therefore, your Committee approved \$125,000 in general funds for each fiscal year for psychological testing during the recruitment of deputy sheriffs.

Your Committee is aware that there is no centralized home for the Department of Public Safety, and supports the effort that the Department is undertaking to find suitable facilities. As such, your Committee provided \$1,500,000 in general funds for fiscal year 2017-2018 for the current lease rent for the Department, as well as for future relocation costs.

Your Committee continues to be concerned about the level of overtime in the Corrections Division, with some facilities experiencing rates in excess of ten percent of their base salary. With approximately \$11,000,000 being spent on overtime from other budgeted areas such as vacancies and deferred contracts, the Department of Public Safety will be unable to move forward in meeting its mission unless these levels are controlled and reduced. Your Committee directs the Department to progressively reduce its overtime costs, by providing that the Department use no more than its current fiscal year overtime budget for fiscal year 2017-2018 as well as putting in place targeted reductions for fiscal year 2018-2019.

Taxation

The Senate Draft of the executive budget adjusts the Department of Taxation's appropriation as follows:

- (1) For fiscal year 2017-2018, by adding \$472,329 in general funds and \$3,572 in non-general funds; and
- (2) For fiscal year 2018-2019, by adding \$347,329 in general funds and \$3,572 in non-general funds.

The Administration's request was to add \$648,279 in general funds and \$3,572 in non-general funds for fiscal year 2017-2018 and \$523,279 in general funds and \$3,572 in non-general funds for fiscal year 2018-2019.

To assist the Department with the increased workload due to the anticipated tax revenue from medical marijuana sales, your Committee approved \$59,000 in general funds for each fiscal year. These funds will help with armored car and security expenses.

Transportation

The Senate Draft of the executive budget adjusts the Department of Transportation's appropriation as follows:

- (1) For fiscal year 2017-2018, by adding \$27,661,977 in special funds and reducing \$1,541,657 in federal funds; and
- (2) For fiscal year 2018-2019, by adding \$20,981,432 in special funds and reducing \$5,682,007 in federal funds.

The Administration's request was to add \$45,131,791 in special funds and reduce \$1,541,657 in federal funds for fiscal year 2017-2018 and add \$33,819,521 in special funds and reduce \$5,682,007 in federal funds for fiscal year 2018-2019.

Airports

Your Committee recognizes the Department of Transportation's expressed concern over the potential liability for labor and procurement violations resulting from the continued staffing of Pass and Identification offices at Honolulu International Airport, Kahului Airport, Keahole International Airport at Kona, Hilo Airport, and Lihue Airport with private contractors in place of state personnel. Therefore, your Committee approved a total of 19.00 positions and \$440,572 in special funds for fiscal year 2017-2018 and \$838,943 in special funds for fiscal year 2018-2019 to establish Office Assistants in Pass and Identification Offices statewide, for the

purpose of having all workers who execute information security directives be directly employed by the State to reduce the potential liability associated with contracted personnel.

In order to address the long-standing staffing shortages in the Aircraft Rescue Fire Fighting Programs at Honolulu International Airport and Kahului Airport, your Committee approved 23.00 positions and \$2,302,092 in special funds for the islands of Oahu and Maui in support of those emergency responders who bear the burden of defending the various structures, aircraft, and individual lives at state airports. This decision will expand these two programs to fulfill mandates from the Occupational Safety and Health Administration relating to operational capacity and allow the current heavy rescue vehicle at airports on Oahu and Maui to be staffed appropriately.

The Airports Division has demonstrated initiative in its attempt to establish a successful Federal Inspection Station at Kona International Airport to support the growing number of international routes based at the Airport that bring positive economic opportunities to the surrounding community. Your Committee has therefore approved 6.00 Visitor Information Program Assistants and \$293,004 in special funds in fiscal year 2018-2019 to provide line management and serve passengers in the Automated Passport Kiosk section of the Federal Inspection Station. Your Committee further recognizes the contributions of the Automated Passport Kiosks towards reducing queue times and streamlining the processing of international arrivals per federal regulations and approved \$150,000 in special funds for the maintenance of these Kiosks at Kona International Airport.

Harbors

Your Committee greatly appreciates the Harbors Division's intention to utilize existing resources by trading off and transferring funds between various programs to largely cover anticipated increases in operating expenses for the next fiscal biennium.

Your Committee understands the Harbors Division's desire to maintain compliance with the Environmental Protection Agency's stormwater management Consent Decree and has thus approved \$384,500 in special funds for the Division's ongoing maintenance of its Geographic Information System and Asset Management System. Supporting these two systems will allow the Department to utilize technological advancements to map out and manage its inventory of stormwater-related assets and is necessary for the Division to meet its obligation under a Department of Health mandate to use an Asset Management System for compliance with its Small Municipal Separate Storm Sewer System Permits.

Highways

Your Committee continues to express grave concerns for the financial sustainability of the Highways Special Fund and is aware of the projected shortfalls and deficits of the Highways Division. In carefully considering funding levels, your Committee has exercised a great deal of caution by not approving increases beyond what is absolutely necessary. It is your Committee's hope that the reduced expenditure level proposed in this budget will encourage the Division's initiatives for future balanced financial projections.

Your Committee has approved a total of 12.00 positions, \$780,961 in special funds for fiscal year 2017-2018, \$1,447,616 in special funds for fiscal year 2018-2019, and \$216,000 in federal funds for each fiscal year for the Highways Division to operate the Intelligent Technology Systems Branch of the Joint Traffic Management Center. These positions and funding will allow the Branch to deploy, monitor, and maintain intelligent devices on island highways important for providing a safe and efficient highway system. To account for this increase in financial responsibility, your Committee has designated a corresponding reduction of \$1,461,444 in special funds for each fiscal year for long-standing and low-priority vacant positions mainly in Oahu Highways, Highways Administration, and Highway Safety.

Administration

Your Committee recognizes the Administration Division's intent to execute five information technology projects over the fiscal biennium. To ensure that these funds are expended with great fiscal responsibility, your Committee has slightly reduced the aggregate costs of these projects and approved a lump sum of \$3,514,950 in special funds for fiscal year 2017-2018 and \$1,242,000 in special funds for fiscal year 2018-2019 for information technology projects. Furthermore, to ensure that these projects provide the greatest benefits possible to the State, your Committee requires that these projects be reviewed and approved by the Chief Information Officer of the Office of Enterprise Technology Services.

Currently, the Hawaii Department of Transportation is under a Consent Decree agreement with the United States Environmental Protection Agency requiring the Department of Transportation's Office of Environmental Compliance to perform compliance audits of the MS4 stormwater discharge permits issued to the Airports, Highways, and Harbors Divisions. Your Committee understands the importance of adhering to environmental regulations and avoiding severe non-compliance penalties, and has thus approved 2.00 environmental and engineering positions and \$97,161 in special funds for fiscal year 2017-2018 and \$194,322 in special funds for fiscal year 2018-2019 for the Office of Environmental Compliance. The expanded staffing will allow the Office to fully meet the work demands of the Consent Decree and ensure the Divisions' ongoing compliance status.

University of Hawaii

The Senate Draft of the executive budget adjusts the University of Hawaii's appropriation as follows:

- (1) For fiscal year 2017-2018, by adding \$44,668,533 in general funds and \$5,540,939 in non-general funds; and
- (2) For fiscal year 2018-2019, by adding \$44,668,533 in general funds and \$5,540,939 in non-general funds;

The Administration's request was to add \$42,558,733 in general funds and \$5,540,939 in non-general funds for fiscal year 2017-2018 and fiscal year 2018-2019.

Your Committee approved 4.00 positions and \$3,000,000 in general funds for each fiscal year for the Cancer Center's operations and clinical trials. The Cancer Center provides an integral nexus between Hawaii residents suffering from cancer and the most relevant research and care options. The Cancer Center provides clinical trials to cancer patients for most, if not all, of Hawaii's cancer care

providers. This appropriation will help significantly with the Center's financial concerns, while also benefiting an important population of the State.

Your Committee has also approved \$350,000 in general funds for each fiscal year to continue our State's efforts in concussion monitoring and testing for our high school student athletes, pursuant to Act 197, Session Laws of Hawaii 2012, as amended by Act 262, Session Laws of Hawaii 2016. Nationally, concussion management is of great concern as we seek to keep our student athletes safe.

Compliance with federal Title IX standards, which extends beyond just equity in sports, is a mandated responsibility of the University of Hawaii. Your Committee approved 7.00 positions and \$1,290,000 in general funds for each fiscal year to ensure compliance and provide essential services to students.

PART VI. CAPITAL IMPROVEMENTS PROGRAM BUDGET

Your Committee finds that capital improvement projects play an essential role in building the State's economy and infrastructure. While remaining fiscally prudent and mindful of the Administration, its departments, and the community at large, your Committee strived to ensure vital state and community needs were met across all departments, as well as to address critical areas in education, housing, agriculture, and public safety.

After careful consideration of the growing needs and concerns of the State, addressing commitments pledged by the Administration, as well as being cognizant of the State's current revenue projections, your Committee has provided a total of \$969,819,000 for fiscal year 2017-2018 and \$29,181,000 for fiscal year 2018-2019 for projects funded by general obligation bonds and \$1,847,706,000 in fiscal biennium 2017-2019 for projects funded by all other means of financing. In comparison, the Administration's proposed capital improvement program biennium budget, as amended pursuant to Governor's Messages, provided a total of \$1,375,734,000 for fiscal year 2017-2018 and \$151,676,000 for fiscal year 2018-2019 for projects funded by general obligation bonds and \$1,748,338,000 in fiscal biennium 2017-2019 for projects funded by all other means of financing.

Your Committee executed a capital improvement program budget that focuses on funding critical and significant capital projects that:

- (1) Provide for growing student populations on both Oahu and Maui by awarding a lump sum fund to the Department of Education in the amount of \$168,000,000 for new school and classroom projects. Your Committee took great pains to provide for the educational needs of the State by dedicating \$437,965,000 to the Department of Education, which comprises forty-four percent of the entire general obligation bond amount awarded statewide;
- (2) Address the shortage of public and affordable housing throughout the State. For this objective, your Committee provided \$51,500,000 to Hawaii Public Housing Authority for the renovation of its public housing facilities, statewide; \$25,000,000 for an infusion to the Rental Housing Revolving Fund; and \$25,000,000 for an infusion to the Dwelling Unit Revolving Fund, to address infrastructure, construction and development needs of affordable housing across the State. Your Committee also acknowledges the need and backlog for public senior housing in the State with an ever-growing applicant waitlist for the senior population. Therefore, your Committee has allotted \$35,000,000 for a senior housing project on Oahu that will provide an additional 200 to 250 units for senior living public housing facilities to accommodate an underserved elderly population;
- (3) Conserve and protect agricultural lands, promote diversified agriculture, and increase agricultural self-sufficiency, as mandated by Article XI, section 3 of the Constitution of the State of Hawaii. To address this mandate, your Committee provided over \$20,000,000 to purchase 500 acres of agricultural land to lease to local farmers, decreasing the State's dependence on imported agriculture products, while investing over \$25,000,000 in upgrades and improvements to critical water infrastructure systems and agricultural facilities statewide; and
- (4) End the search for and debate on prospective jail sites by solidifying a Halawa location and providing \$60,000,000 to the Department of Public Safety to begin the process of building a new jail. A sum of \$6,000,000 was also furnished to the Department of Public Safety to add beds at the current Halawa facility to bring prisoners on the mainland back home. To this effort, your Committee has also provided \$4,000,000 to relocate Department of Agriculture facilities outside of the Halawa site to further address the State's increasing populations within the Department of Public Safety facilities.

Your Committee recognizes great need in the State for services provided by non-governmental groups and nonprofit agencies. Your Committee commends these organizations for their commitment to serving the community and understands the fiscal constraints within which these organizations often operate. Your Committee will be thoroughly assessing all grant applications in conjunction with the State's financial forecast, in order to determine the most appropriate and prudent funding levels for these organizations.

Finally, your Committee provided funding for various projects within the Department of Defense, Department of Hawaiian Home Lands, Department of Health, Department of Human Services, Department of Land and Natural Resources, and Department of Transportation, among others, to ensure that contributions of matching federal, private, and other funds may be maximized and not lost or forfeited.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 100, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 100, H.D. 1, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 10. Noes, none. Excused, 1 (English).

SCRep. 1287 Ways and Means on H.B. No. 143

The purpose and intent of this measure is to authorize the issuance of general obligation bonds to finance project appropriations contained in Acts of the Legislature for which the means of funding are designated as general obligation bond funds or reimbursable general obligation bond funds.

This measure also makes a declaration of findings with respect to those authorizations, as mandated by the State Constitution.

Your Committee received testimony in support of this measure from the Department of Budget and Finance.

Your Committee finds that the project appropriations contained in the Acts of the Legislature are necessary to maintain or increase current levels of public service to the community.

Your Committee has amended this measure by changing the effective date to July 1, 2050, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 143, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 143, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, none. Excused, 3 (Harimoto, Inouye, Kahele).

SCRep. 1288 Ways and Means on H.B. No. 375

The purpose and intent of this measure is to amend state income tax rates to eliminate income tax liability for taxpayers living at or below poverty thresholds.

Your Committee received testimony in support of this measure from the Office of Hawaiian Affairs and Americans for Democratic Action Hawaii.

Your Committee received comments on this measure from the Department of Taxation, Hawaii Appleseed Center for Law and Economic Justice, and Tax Foundation of Hawaii.

Your Committee finds that Act 223, Session Laws of Hawaii 2015, temporarily increased the amount of the refundable food/excise tax credit. According to the Department of Taxation, making this increase permanent is expected to result in an annual revenue loss of \$6,500,000.

Your Committee has amended this measure by:

- (1) Deleting its contents and replacing them with provisions to make permanent the amendments to the refundable food/excise tax credit by repealing the sunset date in Act 223, Session Laws of Hawaii 2015; and
- (2) Changing the effective date to upon approval.

Your Committee notes that these new provisions also appear in H.B. No. 209, H.D. 1, and S.B. No. 648, both of which were heard by your Committee. It is your Committee's intent to keep the provisions making permanent the amendments to the refundable food/excise tax credit by Act 223, Session Laws of Hawaii 2015, independent of other measures, in order to increase the provisions' chances of successful passage.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 375, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 375, H.D. 1, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, none. Excused, 3 (Harimoto, Inouye, Kahele).

SCRep. 1289 Ways and Means on H.B. No. 628

The purpose and intent of this measure is to establish and fund the infrastructure capacity construction loan revolving fund, which will provide loans to counties, state agencies, or private developers for infrastructure improvements.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources; the City and County of Honolulu Board of Water Supply; the Chamber of Commerce Hawaii; the American Council of Engineering Companies, Hawaii; and the Maui Chamber of Commerce.

Your Committee received comments on this measure from the Department of Budget and Finance and the Department of Accounting and General Services.

Your Committee finds that investment in the development and improvement of roads, sewers, drainage, communications, internet technology, schools, ports, and hospitals is important to both economic development and the overall quality of life. Failure to invest in such infrastructure may lead to a failure to sustain and develop the State's social and economic well-being.

Your Committee notes that, as this measure moves into conference, the proponents of the measure should specify the necessary dollar amounts to implement the measure's purpose or indicate whether a transfer of excess funds from the dwelling unit revolving fund of the Hawaii Housing Finance and Development Corporation is acceptable as seed capital for the revolving fund established under this measure.

Your Committee has amended this measure by changing the effective date to July 1, 2050, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 628, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 628, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 8; Ayes with Reservations (Taniguchi). Noes, none. Excused, 3 (Harimoto, Inouye, Kahele).

SCRep. 1290 Ways and Means on H.B. No. 1414

The purpose and intent of this measure is to require the Auditor to execute a contract for a contractor to investigate the tax system modernization project of the Department of Taxation.

This measure also appropriates funds for the investigation and requires the Auditor to report findings to the Legislature.

Your Committee received comments on this measure from the Department of Taxation, Office of the Auditor, and State Procurement Office.

Your Committee finds that an independent investigation by an entity not currently involved with the development of the tax system modernization project will facilitate accurate and objective information on any operational problems of the project and associated lost tax revenue, which in turn will help to improve the implementation of the final version of the project.

Your Committee has amended this measure by changing the appropriation amount from an unspecified sum to \$300,000, as requested by the Auditor.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1414, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1414, H.D. 1, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, none. Excused, 3 (Harimoto, Inouye, Kahele).

SCRep. 1291 Ways and Means on H.B. No. 1436

The purpose and intent of this measure is to appropriate funds for the Department of Accounting and General Services to update statewide building code standards for hurricane mitigation and secure a reimbursement grant from the Federal Emergency Management Agency Hazard Mitigation Grant Program.

Your Committee received testimony in support of this measure from the Hawaii Emergency Management Agency; Hawaii State Fire Council; Honolulu Fire Department; Department of Emergency Management, City and Council of Honolulu; Kauai Fire Department; The Maritime Group; and the Structural Engineers Association of Hawaii.

Your Committee finds that the State Building Code Council, which is administratively attached to the Department of Accounting and General Services, was created to review and adopt current, nationally-recognized building codes and standards to ensure compliance with various requirements of building safety. Your Committee notes that funding was never provided to the State Building Code Council for staff and operational expenses, which has limited the effectiveness of the Council. Your Committee finds that the State Building Code Council applied for, and was awarded, a federal reimbursement grant through the Federal Emergency Management Agency Hazard Mitigation Grant Program to fund the adoption of hurricane mitigation standards. However, under the terms of the reimbursement grant, the Department of Accounting and General Services is required to use its operating funds to accomplish the project and, after a review, the Federal Emergency Management Agency will reimburse the State up to \$75,000.

Your Committee has amended this measure by changing the amount appropriated for fiscal year 2017-2018 from an unspecified amount to \$75,000.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1436, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1436, H.D. 2, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, none. Excused, 3 (Harimoto, Inouye, Kahele).

SCRep. 1292 Judiciary and Labor on H.B. No. 280

The purpose and intent of this measure is to:

- (1) Clarify the filing due dates of preliminary, final, and supplemental reports of candidate committees to be submitted to the Campaign Spending Commission;
- (2) Require a candidate who is elected and is sworn into office prior to thirty calendar days after a general, subsequent, subsequent special, or subsequent nonpartisan election to file the final election period report three business days before the date the candidate is to be sworn into office; and
- (3) Specify the supplemental report filing deadlines for a candidate whose name will not appear on the ballot.

Your Committee received testimony in support of this measure from the Campaign Spending Commission and Common Cause Hawaii.

Your Committee finds that the current practice for candidates is to file a supplemental report by January 31 of every year, not just on January 31 after an election year as required by law. While this measure is intended to conform the law with current practice, your Committee finds that requiring a candidate and treasurer of the candidate committee to file a supplemental report on January 31 in an election year does not accomplish this intent.

Accordingly, your Committee has amended this measure by:

- (1) Reinstating the language under section 11-334(a)(4), Hawaii Revised Statutes, relating to the supplemental report filing deadline dates, and requiring the supplemental report due on January 31 to be filed annually, rather than after an election year;

- (2) Deleting the amendments under section 11-334(b), Hawaii Revised Statutes, that would have required in an election year that the candidate and treasurer of a candidate committee of each candidate whose name will appear on the ballot to file a supplemental report on January 31 and specified supplemental report filing deadlines for a candidate whose name will not appear on the ballot; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 280, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 280, H.D. 1, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 1293 Judiciary and Labor on H.B. No. 508

The purpose and intent of this measure is to:

- (1) Increase the maximum administrative fine that may be imposed by the State Ethics Commission from \$500 to \$1,000 for a violation of the Code of Ethics under chapter 84, Hawaii Revised Statutes;
- (2) Clarify that the administrative fine imposed for a violation of the Code of Ethics shall not be assessed unless the State Ethics Commission convenes a hearing and renders a decision, or the Commission and respondent agree to resolve any charge of an alleged violation prior to completion of the contested case process and the resolution includes payment of an administrative fine or restitution, or both; and
- (3) Remove the mens rea element for violations of the lobbying laws under chapter 97, Hawaii Revised Statutes, and increasing the maximum administrative fee that may be imposed by the State Ethics Commission from \$500 to \$1,000 for each violation.

Your Committee received testimony in support of this measure from the Hawaii State Ethics Commission, Common Cause Hawaii, and League of Women Voters of Hawaii. Your Committee received comments on this measure from the Hawai'i Alliance of Nonprofit Organizations.

Your Committee finds that this measure updates and streamlines the administration and enforcement of the Code of Ethics and lobbying laws by increasing the administrative penalties that may be imposed for violations of the ethics code or lobbying laws and authorizing the State Ethics Commission to settle cases involving an ethics code violation.

Your Committee has amended this measure by:

- (1) Deleting the preamble section;
- (2) Deleting language that would have removed the mens rea element of and increased the maximum administrative fee that may be imposed by the State Ethics Commission for a violation of the lobbying law under chapter 97, Hawaii Revised Statutes;
- (3) Inserting an effective date of January 7, 2059, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 508, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 508, H.D. 1, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Gabbard).

SCRep. 1294 Judiciary and Labor on H.B. No. 511

The purpose and intent of this measure is to amend the lobbying laws under chapter 97, Hawaii Revised Statutes, by:

- (1) Amending the definition of "expenditure" to:
 - (A) Exclude any amounts expended for intrastate travel costs of certain individuals, or by a nonprofit organization to prepare and submit an application for a grant pursuant to chapter 42F, Hawaii Revised Statutes, and for each employee of the nonprofit organization to lobby a maximum of ten hours in a month for that application; and
 - (B) Repeal language that excludes expenses for preparing written testimony and exhibits for a hearing before the Legislature or an administrative agency;
- (2) Clarifying that the definition of "lobbying" does not include the preparation and submission of a grant application pursuant to chapter 42F, Hawaii Revised Statutes, by a representative of a nonprofit organization;
- (3) Amending the definition of "lobbyist" to:
 - (A) Specify certain circumstances in which an individual is considered a lobbyist and subject to chapter 97, Hawaii Revised Statutes; and
 - (B) Exclude an employee of a nonprofit organization who spends fewer than ten hours in any month lobbying on a grant application submitted pursuant to chapter 42F, Hawaii Revised Statutes;
- (4) Authorizing the person who employed or contracted for the services of a lobbyist to file a notice of termination for the lobbyist if the lobbyist fails to do so, and clarifying that the lobbyist and the person who employed or contracted for the services, rather

than the employer, of the lobbyist remain subject to chapter 97, Hawaii Revised Statutes, during the period for which the lobbyist's registration is effective;

- (5) Requiring any person who makes expenditures of \$1,000 or more, rather than spends \$750 or more, of the person's or any other person's money in any reporting period under 97-3, Hawaii Revised Statutes, for the purpose of lobbying to file a statement of expenditures with the State Ethics Commission;
- (6) Specifying the requirements of the expenditure report required to be filed with the State Ethics Commission within thirty days after adjournment sine die of a special session of the Legislature;
- (7) Clarifying that the statement of expenditures includes, among other items, the total sum or value of all expenditures for the purpose of lobbying made by the person filing the statement during the statement period, rather than only the expenditures in excess of \$750 during the statement period, and adding, as an itemized expenditure, interstate transportation, including incidental meals and lodging; and
- (8) In lieu of requiring a list of registered lobbyists and names of the persons whom they represent to be published, requiring all lobbyist registration statements to be posted on the State Ethics Commission's website within a reasonable time after filing and allowing the statements to be removed from the website after four years.

Your Committee received testimony in support of this measure from the Hawaii State Ethics Commission, Hawai'i Public Health Institute, Hawai'i Alliance of Nonprofit Organizations, Common Cause Hawaii, and League of Women Voters of Hawaii. Your Committee received comments on this measure from Catholic Charities of Hawai'i.

Your Committee finds that this measure updates and streamlines the lobbying laws under chapter 97, Hawaii Revised Statutes, to provide consistency in the administration and enforcement of lobbying activities in Hawaii.

Your Committee has amended this measure by:

- (1) Clarifying that a lobbyist is an individual who:
 - (A) Receives or expects to receive, either by employment or contract, \$1,000 or more, rather than more than \$1,000, in monetary or in-kind compensation in any calendar year;
 - (B) For pay or other consideration, on behalf of another person, engages in lobbying on an unspecified number of, rather than three or more, bills, resolutions, or both, during any legislative session; and
 - (C) For pay or other consideration, on behalf of another person, makes expenditures of \$1,000 or more, rather than more than \$1,000, of the person's or any other person's money lobbying during any reporting period required under section 97-3, Hawaii Revised Statutes;
- (2) Inserting language from H.B. No. 508, H.D. 1 (Regular Session of 2017), that amends section 97-7, Hawaii Revised Statutes, to increase the maximum administrative fine from \$500 to \$1,000 for each violation of chapter 97, Hawaii Revised Statutes;
- (3) Inserting an effective date of January 7, 2059, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 511, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 511, H.D. 1, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Gabbard).

SCRep. 1295 Judiciary and Labor on H.B. No. 852

The purpose and intent of this measure is to:

- (1) Increase the administrative fine from \$50 to \$75 for a legislator, delegate to the constitutional convention, or employee who fails to file a disclosure of financial interests when due;
- (2) Require the State Ethics Commission to release to the public a list of all legislators, delegates to the constitutional convention, or employees who fail to file a disclosure of financial interests when due;
- (3) Require the State Ethics Commission to notify a legislator, delegate to the constitutional convention, or employee of the failure to file a disclosure of financial interests when due by in-person service, electronic mail to the person's state electronic mail address, or first class mail, rather than by registered mail, return receipt requested; and
- (4) Increase the late filing penalty fee from \$25 to \$50 against a candidate seeking a state elective office who fails to file a financial disclosure statement when due.

Your Committee received testimony in support of this measure from the Hawaii State Ethics Commission, Common Cause Hawaii, and League of Women Voters of Hawaii.

Your Committee finds that existing law requires the State Ethics Commission to notify, by registered mail, return receipt requested, certain individuals who fail to file their financial disclosure statements. According to written testimony submitted by the State Ethics Commission, in 2016, the Commission paid \$14.87 in postage for each late filing notice. This measure provides cost savings for the State Ethics Commission by allowing the Commission to notify certain individuals who fail to file their financial disclosure statements by in-person service, electronic mail to the person's state electronic mail address, or first class mail, rather than by the costly registered mail, return receipt requested, method.

Your Committee further finds that by increasing the fines imposed on and publicly releasing the names of certain individuals who fail to file their financial disclosure statements by the deadlines required by law, this measure provides a stronger incentive for these individuals to file their financial disclosure statements on time.

Your Committee has amended this measure by:

- (1) Deleting the preamble section;
- (2) Allowing, rather than requiring, the State Ethics Commission to post on its website for public inspection, rather than release to the public, the names of the legislators, delegates to the constitutional convention, or certain employees who fail to file their financial disclosure statements by the statutory deadline;
- (3) Inserting an effective date of January 7, 2059, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 852, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 852, H.D. 2, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Gabbard).

SCRep. 1296 Judiciary and Labor on H.B. No. 1033

The purpose and intent of this measure is to allow state and county agencies to participate in the administrative procedures process under chapter 91, Hawaii Revised Statutes, by including "agencies" within the definition of "persons" in section 91-1, Hawaii Revised Statutes.

Your Committee received testimony in support of this measure from the Department of the Attorney General, Office of Planning, and Land Use Commission. Your Committee received testimony in opposition to this measure from Life of the Land.

Your Committee finds that under the Hawaii Administrative Procedure Act, state and county agencies are included under the definition of "party" but not under the definition of "persons", which effectively restricts state and county agencies from full participation in the administrative process, including the authority to:

- (1) Submit data, views, or arguments relating to a proposed amendment or repeal of any administrative rule;
- (2) Petition another agency that is requesting the adoption, amendment, or repeal of any administrative rule;
- (3) Pursue a judicial declaration regarding the validity of any administrative rule; and
- (4) Petition another agency for a declaratory order regarding the applicability of any statutory provision or any rule or order of the agency.

Your Committee further finds that state and county agencies often have the same needs as individuals, businesses, and public or private organizations to obtain clarity on statutes or administrative rules. By increasing the participation of state and county agencies in the administrative procedures process, this measure enhances the overall administrative procedures process.

Your Committee has amended this measure by:

- (1) Inserting an effective date of January 7, 2059, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1033, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1033, H.D. 1, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Gabbard).

SCRep. 1297 Judiciary and Labor on H.B. No. 282

The purpose and intent of this measure is to clarify that increased fines may apply if a noncandidate committee fails to timely file a second preliminary general report with the Campaign Spending Commission.

Your Committee received testimony in support of this measure from the Campaign Spending Commission and Common Cause Hawaii.

Your Committee finds that Act 79, Session Laws of Hawaii 2015, required noncandidate committees to file an additional preliminary report by October 1 of the year of a general election. This measure makes conforming amendments to make the late filing of a second preliminary general report by noncandidate committees subject to a fine of \$300 per day, which matches the fine imposed on candidate committees that are late in filing preliminary reports.

Your Committee has amended this measure by:

- (1) Clarifying that the monetary fine shall be a maximum of \$300 per day, provided that in the aggregate the fine shall not exceed twenty-five percent of the total amount of contributions or expenditures plus a fine of \$300, rather than solely limiting the aggregate amount to the percentage of the total amount of contributions or expenditures; and

- (2) Making a technical, nonsubstantive amendment for purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 282, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 282, H.D. 1, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 1298 Ways and Means on H.B. No. 1309

The purpose and intent of this measure is to address state grants.

More specifically, this measure:

- (1) Requires an organization that receives a grant from the State to repay the State if the organization's activities or services as approved in the grant are discontinued and the grant was awarded for the planning, design, construction, renovation, operations, or equipment of facilities, in addition to the acquisition of land;
- (2) Requires organizations that use a grant to publicly recognize that the project funded by the grant was supported by the State;
- (3) Designates the Department of Budget and Finance as the agency responsible for negotiating grant repayments;
- (4) Authorizes a designated expending agency of a grant or subsidy, with the approval of the Governor, to delegate its expending authority to a different agency when the two agencies deem the delegation of authority to be advantageous and subject to the consent of the grantee; and
- (5) Requires the Governor to report to the Legislature on delegations of the expending authority for grants or subsidies.

Your Committee received comments on this measure from the Department of Budget and Finance.

Your Committee finds that chapter 42F, Hawaii Revised Statutes, authorizes the Legislature to appropriate state grant funds to support activities that benefit the community. Pursuant to section 42F-106, Hawaii Revised Statutes, the expending agency designated in the legislative appropriation is responsible for monitoring the grant to ensure compliance with applicable laws and the public purpose and legislative intent of the grant. Your Committee finds that this measure further enhances mechanisms to ensure state grant expenditures continue to serve their intended purposes, by:

- (1) Expanding the conditions requiring the repayment of grant funds to the State when a grant recipient discontinues the activities or services for which the grant was approved; and
- (2) Authorizing the delegation of expending agency authority where the arrangement benefits the State's interest,

Your Committee has amended this measure by removing an incorrect reference to "subsidies" with respect to an expending agency's delegation.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1309, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1309, H.D. 1, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 8. Noes, none. Excused, 3 (Harimoto, Inouye, Kahele).

SCRep. 1299 Ways and Means on H.B. No. 1333

The purpose and intent of this measure is to authorize the issuance of special purpose revenue bonds for the purpose of assisting Honokaa Land Company, LLC as an agricultural enterprise.

Your Committee received testimony in support of this measure from the Department of Agriculture and Honokaa Land Company, LLC.

Your Committee received comments on this measure from the Department of Budget and Finance.

Your Committee finds that the issuance of special purpose revenue bonds under this measure is in the public interest and will benefit the public health, safety, and general welfare. Proceeds from the sale of bonds will assist Honokaa Land Company, LLC to acquire, develop, and renovate agricultural facilities at two sites on the island of Hawaii and enable Honokaa Land Company, LLC to convert to renewable energy.

Your Committee has amended this measure by:

- (1) Authorizing the issuance of \$50,000,000 in special purpose revenue bonds for the purpose of assisting Honokaa Land Company, LLC;
- (2) Correcting a reference from "domestic limited liability corporation" to "domestic limited liability company"; and
- (3) Changing the effective date to July 1, 2017.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1333, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1333, H.D. 1, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, none. Excused, 3 (Harimoto, Inouye, Kahele).

SCRep. 1300 Ways and Means on H.B. No. 1588

The purpose and intent of this measure is to promote the prudent use of the State's bond financing authority.

Specifically, the measure:

- (1) Prohibits the issuance of general obligation bonds to finance the repair and maintenance of a capital asset with a depreciable life of less than ten years from the date the asset was first placed into service;
- (2) Authorizes only cash appropriations or the issuance of bonds other than general obligation bonds to finance the repair and maintenance of a capital asset with a depreciable life of less than ten years from the date the asset was first placed into service; and
- (3) Requires the Director of Finance to set a maturity date of not more than ten years when issuing general obligation bonds to finance the repair and maintenance of a capital asset with a depreciable life of ten years or more from the date the asset was first placed into service.

Your Committee received comments on this measure from the Department of Budget and Finance and the Department of the Attorney General.

Your Committee finds that passage of this measure will promote fiscally responsible funding of repair and maintenance projects in the State.

Your Committee has amended this measure by:

- (1) Deleting language restricting the Legislature's ability to authorize the issuance of general obligation bonds and requiring the use of cash appropriations or bonds other than general obligation bonds, with respect to financing the repair and maintenance of capital assets with a depreciable life of less than ten years from the date the asset was first placed into service; and
- (2) Changing the effective date from July 1, 2030, to upon approval.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1588, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1588, H.D. 1, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, none. Excused, 3 (Harimoto, Inouye, Kahele).

SCRep. 1301 Higher Education on S.R. No. 60

The purpose and intent of this measure is to address a disparity in the allocation of funds between the Colleges of Arts and Sciences and other colleges of the University of Hawaii by requesting that the University of Hawaii at Manoa adopt a budget model that allocates resources according to a transparent and equitable formula.

Your Committee received testimony in support of this measure from the Graduate Student Organization at the University of Hawai'i at Mānoa, Associated Students of the University of Hawai'i at Mānoa, and seven individuals. Your Committee received testimony in opposition to this measure from the University of Hawai'i System.

Your Committee finds that the Colleges of Arts and Sciences at the University of Hawaii at Manoa comprise fifty-five percent of the total student semester hours, forty-two percent of the University of Hawaii at Manoa student body, and forty-eight percent of the University of Hawaii faculty, but only receive eighteen percent of the combined tuition and general funds allocated to the University. Your Committee further finds that this disparity in the allocation of funds has seriously eroded the ability of instructional units to retain highly qualified faculty, offer sufficient numbers of courses taught by qualified faculty, maintain rigorous research and publication standards, and replace worn-out equipment. Your Committee notes that student enrollment is down, faculty morale at the Colleges of Arts and Sciences is low, and the existence of certain programs are in jeopardy.

Your Committee appreciates the testimony submitted by multiple faculty members of the University of Hawaii at Manoa, and acknowledges their frustrations and the gravity of the current situation that they described. Your Committee is concerned about the current fiscal situation at the University of Hawaii, the impact it is having on students, and the quality of the programs offered at the University of Hawaii at Manoa. Your Committee hopes that this measure will impress upon the University an urgency to modify the current budget model to allocate resources more equitably to align revenue sources with intended use.

As affirmed by the record of votes of the members of your Committee on Higher Education that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 60 and recommends that it be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Espero, Taniguchi).

SCRep. 1302 Commerce, Consumer Protection, and Health on S.C.R. No. 156

The purpose and intent of this measure is to urge the Department of Health to adopt and implement administrative rules to update standards of vaccinations for children.

Your Committee received testimony in support of this measure from Planned Parenthood Votes Northwest and Hawaii and Hawai'i Pacific Health. Your Committee received comments on this measure from the Department of Health.

Your Committee finds that immunizations are one of the most cost-effective public health interventions and a vital component of the human right to health care. Your Committee further finds that it is important for the State to have consistent and publicized immunization standards to ensure that all children and families are informed about the most appropriate vaccinations that should be administered to promote optimum public health.

Your Committee additionally finds that no updates to the State's vaccination standards have occurred despite the Legislature's passage of Act 231, Session Laws of Hawaii 2013, authorizing the Department of Health to adopt, amend, or repeal rules to establish a list of specified vaccines and the immunization recommendations of the United States Department of Health and Human Services Advisory Committee on Immunization Practices. Your Committee received testimony from the Department of Health indicating that the Department has been attempting to update the administrative rules related to vaccinations for the last ten years but has had difficulty securing stakeholder consensus and cooperation from outside agencies, as well as ensuring alignment with existing statutory requirements. Your Committee recognizes the challenges faced by the Department but wants to continue all efforts possible to ensure the completion of the process to adopt and implement administrative rules under chapter 91, Hawaii Revised Statutes, to update the State's vaccination standards for children.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 156 and recommends its adoption.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Ihara, Kidani, Ruderman).

SCRep. 1303 (Joint) Hawaiian Affairs and International Affairs and the Arts on S.C.R. No. 153

The purpose and intent of this measure is to request the Governor to issue a proclamation to designate January 2018 to January 2019 as the Year of the Hawaiian, and to request the Office of Hawaiian Affairs to study and recommend to the Legislature a plan to celebrate the Year of the Hawaiian.

Your Committees received testimony in support of this measure from the Native Hawaiian Education Council, Kamehameha Schools, and two individuals. Your Committees received testimony in opposition to this measure from the Center for Hawaiian Sovereignty Studies.

Your Committees find that Native Hawaiians have a demonstrated history of independent thought, the ability to think critically, and the facility to express themselves effectively through a number of public venues, media, and forums to challenge existing norms, policies, and rules consistent with the growing renaissance, rebirth, and rise in their understanding and knowledge of Native Hawaiian history, Native Hawaiian culture, Native Hawaiian traditions, and Native Hawaiian values.

Your Committees further find that Native Hawaiians have actively engaged and consulted with local, state, federal, and international governmental and non-governmental entities and agencies to define, develop, and pursue goals, policies, and positions consistent with Native Hawaiian culture, traditions, and values in an effort to increase the social, economic, health, and educational well-being, self-determination, and quest for justice for Native Hawaiians.

Your Committees further find that Native Hawaiians have raised the consciousness throughout Hawai'i of the importance of practicing Aloha 'Āina, or loving, caring, respecting, and honoring the precious and fragile lands, seas, and climate of Hawai'i Pae'Āina, which has led to significant policies and programs to protect the sustainability of Hawai'i's natural resources.

Your Committees further find that the list of Native Hawaiians who have achieved high proficiency and excellence in their fields of endeavor is too long to mention, is continually growing, and includes fields and disciplines of music, sports, the arts, filmmaking, hula, writing, literature, academics, medicine, law, history, social work, teaching, politics, business, science, Native Hawaiian culture and traditions, and Native Hawaiian language restoration and revitalization. After the explosion of Native Hawaiian accomplishment and achievement grounded in the language, culture, history, and traditions of Native Hawaiians over the past 30 years, it is now time to pause, celebrate, and commemorate all that has been achieved with the hope and intention of inspiring future generations of Native Hawaiians.

Your Committees have amended this measure by:

- (1) Delaying the Year of the Hawaiian to June 1, 2018, to June 1, 2019, to give the Office of Hawaiian Affairs more time to prepare;
- (2) Amending its title accordingly; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Hawaiian Affairs and International Affairs and the Arts that are attached to this report, your Committees concur with the intent and purpose of S.C.R. No. 153, as amended herein, and recommend its adoption in the form attached hereto as S.C.R. No. 153, S.D. 1.

Signed by the Chairs on behalf of the Committees.

Hawaiian Affairs: Ayes, 3. Noes, none. Excused, 2 (English, Kim).

International Affairs and the Arts: Ayes, 4. Noes, none. Excused, 1 (English).

SCRep. 1304 (Joint) Hawaiian Affairs and International Affairs and the Arts on S.R. No. 74

The purpose and intent of this measure is to request the Governor to issue a proclamation to designate January 2018 to January 2019 as the Year of the Hawaiian, and to request the Office of Hawaiian Affairs to study and recommend to the Legislature a plan to celebrate the Year of the Hawaiian.

Your Committees received testimony in support of this measure from the Native Hawaiian Education Council, Kamehameha Schools, and two individuals. Your Committees received testimony in opposition to this measure from the Center for Hawaiian Sovereignty Studies.

Your Committees find that Native Hawaiians have a demonstrated history of independent thought, the ability to think critically, and the facility to express themselves effectively through a number of public venues, media, and forums to challenge existing norms, policies, and rules consistent with the growing renaissance, rebirth, and rise in their understanding and knowledge of Native Hawaiian history, Native Hawaiian culture, Native Hawaiian traditions, and Native Hawaiian values.

Your Committees further find that Native Hawaiians have actively engaged and consulted with local, state, federal, and international governmental and non-governmental entities and agencies to define, develop, and pursue goals, policies, and positions consistent with Native Hawaiian culture, traditions, and values in an effort to increase the social, economic, health, and educational well-being, self-determination, and quest for justice for Native Hawaiians.

Your Committees further find that Native Hawaiians have raised the consciousness throughout Hawai'i of the importance of practicing Aloha 'Āina, or loving, caring, respecting, and honoring the precious and fragile lands, seas, and climate of Hawai'i Pae'Āina, which has led to significant policies and programs to protect the sustainability of Hawai'i's natural resources.

Your Committees further find that the list of Native Hawaiians who have achieved high proficiency and excellence in their fields of endeavor is too long to mention, is continually growing, and includes fields and disciplines of music, sports, the arts, filmmaking, hula, writing, literature, academics, medicine, law, history, social work, teaching, politics, business, science, Native Hawaiian culture and traditions, and Native Hawaiian language restoration and revitalization. As affirmed by the records of votes of the members of your Committees on Hawaiian Affairs and International Affairs and the Arts that are attached to this report, your Committees concur with the intent and purpose of S.R. No. 74, as amended herein, and recommend its adoption in the form attached hereto as S.R. No. 74, S.D. 1.

Signed by the Chairs on behalf of the Committees.

Hawaiian Affairs: Ayes, 3. Noes, none. Excused, 2 (English, Kim).

International Affairs and the Arts: Ayes, 4. Noes, none. Excused, 1 (English).

SCRep. 1305 (Joint) Hawaiian Affairs and International Affairs and the Arts on S.C.R. No. 150

The purpose and intent of this measure is to request the Office of Hawaiian Affairs to convene a study group to make recommendations to the Legislature on an appropriate means to honor Robert William Kalanihiapo Wilcox, Hawaii's first elected delegate to the United States Congress.

Your Committees received testimony in support of this measure from the Office of Hawaiian Affairs, Native Hawaiian Education Council, and thirteen individuals. Your Committees received testimony in opposition to this measure from the Center for Hawaiian Sovereignty Studies.

Your Committees find that Robert William Kalanihiapo Wilcox was born on February 15, 1855, on the island of Maui to Captain William Slocum Wilcox, a native of England by way of Newport, Rhode Island, and Kalua Makoleokalani of Maui, whose mother descended directly from Pi'ilani, ancient ruler of Maui Nui, and whose father descended directly from Umi, ancient ruler of Hawai'i.

Your Committees find that Robert William Kalanihiapo Wilcox was an instrumental and critically important figure in the struggles of Hawai'i from monarchy to statehood. After the United States' annexation of Hawai'i through the Newland's Resolution in 1898 and to ensure that Native Hawaiian interests were adequately represented in the Territory of Hawai'i government, Mr. Wilcox zealously and successfully lobbied the United States Congress to grant universal voting rights for men in the legislation that would later become the 1900 Hawaiian Organic Act. After the passage of the Hawaiian Organic Act by Congress in 1900, Mr. Wilcox organized Native Hawaiians who had been anti-annexation into the Hawaiian Independent Party, which was later called the Home Rule Party of Hawai'i, and with that Mr. Wilcox launched his candidacy for a seat in the Fifty-seventh United States Congress, which he later won.

From November 6, 1900, to March 3, 1903, Mr. Wilcox served in the Fifty-seventh Congress as Hawai'i's first Congressman and distinguished himself as a representative who fought for the rights of citizens. Realizing that as a United States territory, Hawai'i could send only non-voting representatives to Congress and that Hawai'i's territorial governors would be appointed by the United States President and not elected by territorial residents, Mr. Wilcox and other prominent Native Hawaiians supported Hawai'i becoming a state of the Union to ensure greater local control of Hawai'i's government by the people.

Your Committees further find that Mr. Wilcox should be remembered for his abiding support and advocacy for the rights of citizens to vote and fully participate in their government regardless of whether it was organized as a monarchy, a provisional government, a republic, or a territory of the United States. Mr. Wilcox is a cherished figure in the Hawaiian community for his contributions to Hawai'i's history and heritage. He dedicated his life, and at times even risked it, to preserve Native Hawaiian rights and self-determination.

Your Committees have amended this measure by:

- (1) Adding to the study group the Director of Lāhui Hawai‘i Research Center of the University of Hawai‘i and the Hawai‘i inuiākea School of Hawaiian Knowledge of the University of Hawaii; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Hawaiian Affairs and International Affairs and the Arts that are attached to this report, your Committees concur with the intent and purpose of S.C.R. No. 150, as amended herein, and recommend its adoption in the form attached hereto as S.C.R. No. 150, S.D. 1.

Signed by the Chairs on behalf of the Committees.

Hawaiian Affairs: Ayes, 3. Noes, none. Excused, 2 (English, Kim).

International Affairs and the Arts: Ayes, 4. Noes, none. Excused, 1 (English).

SCRep. 1306 (Joint) Hawaiian Affairs and International Affairs and the Arts on S.R. No. 71

The purpose and intent of this measure is to request the Office of Hawaiian Affairs to convene a study group to make recommendations to the Legislature on an appropriate means to honor Robert William Kalanihioho Wilcox, Hawaii’s first elected delegate to the United States Congress.

Your Committees received testimony in support of this measure from the Office of Hawaiian Affairs, Native Hawaiian Education Council, and thirteen individuals. Your Committees received testimony in opposition to this measure from the Center for Hawaiian Sovereignty Studies.

Your Committees find that Robert William Kalanihioho Wilcox was born on February 15, 1855, on the island of Maui to Captain William Slocum Wilcox, a native of England by way of Newport, Rhode Island, and Kalua Makoleokalani of Maui, whose mother descended directly from Pi‘ilani, ancient ruler of Maui Nui, and whose father descended directly from Umi, ancient ruler of Hawai‘i.

Your Committees find that Robert William Kalanihioho Wilcox was an instrumental and critically important figure in the struggles of Hawai‘i from monarchy to statehood. After the United States’ annexation of Hawai‘i through the Newland’s Resolution in 1898 and to ensure that Native Hawaiian interests were adequately represented in the Territory of Hawai‘i government, Mr. Wilcox zealously and successfully lobbied the United States Congress to grant universal voting rights for men in the legislation that would later become the 1900 Hawaiian Organic Act. After the passage of the Hawaiian Organic Act by Congress in 1900, Mr. Wilcox organized Native Hawaiians who had been anti-annexation into the Hawaiian Independent Party, which was later called the Home Rule Party of Hawai‘i, and with that Mr. Wilcox launched his candidacy for a seat in the Fifty-seventh United States Congress, which he later won.

From November 6, 1900, to March 3, 1903, Mr. Wilcox served in the Fifty-seventh Congress as Hawai‘i’s first Congressman and distinguished himself as a representative who fought for the rights of citizens. Realizing that as a United States territory, Hawai‘i could send only non-voting representatives to Congress and that Hawai‘i’s territorial governors would be appointed by the United States President and not elected by territorial residents, Mr. Wilcox and other prominent Native Hawaiians supported Hawai‘i becoming a state of the Union to ensure greater local control of Hawai‘i’s government by the people.

Your Committees further find that Mr. Wilcox should be remembered for his abiding support and advocacy for the rights of citizens to vote and fully participate in their government regardless of whether it was organized as a monarchy, a provisional government, a republic, or a territory of the United States. Mr. Wilcox is a cherished figure in the Hawaiian community for his contributions to Hawaii’s history and heritage. He dedicated his life, and at times even risked it, to preserve Native Hawaiian rights and self-determination.

Your Committees have amended this measure by:

- (1) Adding to the study group the Director of Lāhui Hawai‘i Research Center of the University of Hawai‘i and the Hawai‘i inuiākea School of Hawaiian Knowledge of the University of Hawaii; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Hawaiian Affairs and International Affairs and the Arts that are attached to this report, your Committees concur with the intent and purpose of S.R. No. 71, as amended herein, and recommend its adoption in the form attached hereto as S.R. No. 71, S.D. 1.

Signed by the Chairs on behalf of the Committees.

Hawaiian Affairs: Ayes, 3. Noes, none. Excused, 2 (English, Kim).

International Affairs and the Arts: Ayes, 4. Noes, none. Excused, 1 (English).

SCRep. 1307 (Joint) Higher Education and Human Services on S.C.R. No. 15

The purpose and intent of this measure is to request that the University of Hawaii Center on Aging convene a task force to assess existing elder and kupuna care services and the anticipated demand for those services in order to improve services and meet future demand.

Your Committees received testimony in support of this measure from the University of Hawai‘i System, AARP Hawaii, Lanakila Pacific, and one individual.

Your Committees find that by 2030, Hawaii residents aged sixty and older are projected to constitute 27.4 percent of the State’s population, and that this large aging population will have a significant impact on the organization and delivery of healthcare. Your Committees further find that the kupuna care program is an alternative to traditional long-term care supports and services, and has a goal of enabling older adults to lead independent, meaningful, and dignified lives in their own homes and communities. Kupuna care also strives to provide a safety net of services for all kupuna and their caregivers, including access to affordable and quality home- and

community-based services, hot meals, transportation, case management, and personal care assistance. Your Committees note testimony received which explains that currently it is challenging to find appropriately trained service providers for kupuna care services and the importance of building capacity to respond to the needs of Hawaii's current and growing older population.

Your Committees have amended this measure by:

- (1) Inserting language to request the task force to conduct a complete economic analysis of the cost for primary kupuna care services, adequate training, workforce expansion, service expansion, and financing to improve the current elder and kupuna care services and meet anticipated demand;
- (2) Inserting language to add the Director of Business, Economic Development, and Tourism or the Director's designee to the task force; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Higher Education and Human Services that are attached to this report, your Committees concur with the intent and purpose of S.C.R. No. 15, as amended herein, and recommend its adoption in the form attached hereto as S.C.R. No. 15, S.D. 1.

Signed by the Chairs on behalf of the Committees.

Higher Education: Ayes, 3. Noes, none. Excused, 2 (Keith-Agaran, Taniguchi).

Human Services: Ayes, 3. Noes, none. Excused, 2 (Harimoto, Tokuda).

SCRep. 1308 Judiciary and Labor on Gov. Msg. No. 556

Recommending that the Senate advise and consent to the nomination of the following:

BOARD OF TRUSTEES OF THE DEFERRED COMPENSATION PLAN

G.M. No. 556 KALEIHIKAPOLI RAPOZA, for a term to expire 06-30-2020

Your Committee has reviewed the personal history, resume, and statement submitted by the nominee and finds Kaleihiikapolli Rapoza to possess the requisite qualifications to be nominated to the Board of Trustees of the Deferred Compensation Plan.

Your Committee received testimony in support of the nomination for the appointment of Mr. Kaleihiikapolli Rapoza from the Department of Budget and Finance, Department of Accounting and General Services, and four individuals.

Upon review of the testimony, your Committee finds that Mr. Rapoza's professional experience and background in human resource management and employee benefit program administration qualify him to be nominated for appointment to the Board of Trustees of the Deferred Compensation Plan. Your Committee notes that Mr. Rapoza is the Director of Human Resources at the University of Hawaii at Hilo and has served on the Board of Trustees of the Deferred Compensation Plan as an interim member since 2016. He has previously worked as a labor relations personnel specialist and law clerk for the Department of Education, private-sector paralegal researcher, and trustee aide in the Office of Hawaiian Affairs. Based on his knowledge, experience, and commitment to public service, your Committee finds that Mr. Rapoza will continue to be an asset to the Board of Trustees of the Deferred Compensation Plan.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Kim).

SCRep. 1309 Judiciary and Labor on Gov. Msg. Nos. 561, 562, 563, 564, 565, 566, 567, 568, 569, and 570

Recommending that the Senate advise and consent to the nominations of the following:

HAWAI'I WORKFORCE DEVELOPMENT COUNCIL

G.M. No. 561 SHANNON OKINAKA, for a term to expire 06-30-2017;

G.M. No. 562 SHANNON OKINAKA, for a term to expire 06-30-2021;

G.M. No. 563 GLENN ALCALDE, for a term to expire 06-30-2020;

G.M. No. 564 EVELYN BARFIELD, for a term to expire 06-30-2019;

G.M. No. 565 GLEN KANESHIGE, for a term to expire 06-30-2017;

G.M. No. 566 GLEN KANESHIGE, for a term to expire 06-30-2021;

G.M. No. 567 IAN KITAJIMA, for a term to expire 06-30-2019;

G.M. No. 568 EDWARD RICHARDSON, for a term to expire 06-30-2018;

G.M. No. 569 ALICIA MOY, for a term to expire 06-30-2017; and

G.M. No. 570 ALICIA MOY, for a term to expire 06-30-2021

Your Committee has reviewed the personal histories, resumes, and statements submitted by the nominees and finds Shannon Okinaka, Glenn Alcalde, Evelyn Barfield, Glen Kaneshige, Ian Kitajima, Edward Richardson, and Alicia Moy to possess the requisite qualifications to be nominated to the Hawai'i Workforce Development Council.

SHANNON OKINAKA

Your Committee received testimony in support of the nomination for the appointment and reappointment of Ms. Shannon Okinaka from the Department of Labor and Industrial Relations, Hawai'i Workforce Development Council, and one individual.

Upon review of the testimony, your Committee finds that Ms. Okinaka's professional experience and background in accounting, finance, and investor relations qualify her to be nominated for appointment and reappointment to the Hawai'i Workforce Development Council. Your Committee notes that Ms. Okinaka is the Chief Financial Officer of Hawaiian Airlines, Inc., and has served as Chair of the Hawai'i Workforce Development Council's Finance Committee on an interim basis. She serves as the Director of the Japanese Cultural Center of Hawaii and Oahu Economic Development Board. Based on her knowledge, experience, and commitment to public service, your Committee finds that Ms. Okinaka will continue to be an asset to the Hawai'i Workforce Development Council.

GLENN ALCALDE

Your Committee received testimony in support of the nomination for the appointment of Mr. Glenn Alcalde from the Department of Labor and Industrial Relations, Hawai'i Workforce Development Council, and two individuals.

Upon review of the testimony, your Committee finds that Mr. Alcalde's professional experience and background in the construction trades industry qualify him to be nominated for appointment to the Hawai'i Workforce Development Council. Your Committee notes that Mr. Alcalde is a training coordinator for the Hawaii Carpenters Apprenticeship and Training Fund and has previously worked as the General Foreman at Constructors Hawaii Inc., and as a framing instructor at Honolulu Community College and the Hawaii Carpenters Union Local 745. He has experience in various construction trades, including carpentry and metal framing. Based on his knowledge, experience, and commitment to public service, your Committee finds that Mr. Alcalde will be an asset to the Hawai'i Workforce Development Council.

EVELYN BARFIELD

Your Committee received testimony in support of the nomination for the appointment of Ms. Evelyn Barfield from the Department of Labor and Industrial Relations, Hawai'i Workforce Development Council, Society for Human Resource Management-Hawaii Chapter, and two individuals.

Upon review of the testimony, your Committee finds that Ms. Barfield's professional experience and background in human resource management qualify her to be nominated for appointment to the Hawai'i Workforce Development Council. Your Committee notes that Ms. Barfield is the Human Resources Business Partner at Meadow Gold Dairies, previously worked for Hawai'i Human Resources and Hawai'i Jobs Corps, and has extensive experience with business partnerships in the private and public sectors. She is a member of the Society for Human Resource Management Hawaii and volunteers in the Volunteer Leadership Training Program in Washington, D.C., and Employer Support of the Guard and Reserve. Based on her knowledge, experience, and commitment to public service, your Committee finds that Ms. Barfield will be an asset to the Hawai'i Workforce Development Council.

GLEN KANESHIGE

Your Committee received testimony in support of the nomination for the appointment and reappointment of Mr. Glen Kaneshige from the Department of Labor and Industrial Relations; Hawai'i Workforce Development Council; General Contractors Association of Hawaii; Hawaii Laborers-Employers Cooperation and Education Trust; Operative Plasterers' and Cement Masons' International Association Local #630, AFL-CIO; and two individuals.

Upon review of the testimony, your Committee finds that Mr. Kaneshige's professional experience and background in the construction industry and apprenticeship programs qualify him to be nominated for appointment and reappointment to the Hawai'i Workforce Development Council. Your Committee notes that Mr. Kaneshige is the President of Nordic PCL Construction, Inc., and serves as a trustee of the Hawaii Carpenters Union Health and Welfare Fund and Masons and Plasterers Training and Vacation/Holiday Fund and on the Boards of Directors of Hawaii Benefit Administrators, the General Contractors Association of Hawaii, General Contractors Labor Association, American Heart Association, Child & Family Service, and Teach for America. Based on his knowledge, experience, and commitment to public service, your Committee finds that Mr. Kaneshige will continue to be an asset to the Hawai'i Workforce Development Council.

IAN KITAJIMA

Your Committee received testimony in support of the nomination for the appointment of Mr. Ian Kitajima from the Department of Labor and Industrial Relations, Hawai'i Workforce Development Council, Chamber of Commerce Hawaii, and four individuals.

Upon review of the testimony, your Committee finds that Mr. Kitajima's professional experience and background in technology development and public-private partnerships qualify him to be nominated for appointment to the Hawai'i Workforce Development Council. Your Committee notes that Mr. Kitajima is the Director of Corporate Development at Oceanit Labs, Inc., and co-founder of Design Thinking Hawaii, served as a member of the Governor's STEM Strategy Team, and has an extensive history of speaking engagements on business and technology topics. He is a Trustee of the Public Schools of Hawaii Foundation and a Windward Community College Ambassador. Based on his knowledge, experience, and commitment to public service, your Committee finds that Mr. Kitajima will be an asset to the Hawai'i Workforce Development Council.

EDWARD RICHARDSON

Your Committee received testimony in support of the nomination for the appointment of Major General Edward Richardson from the Department of Labor and Industrial Relations, Hawai'i Workforce Development Council, Chamber of Commerce Hawaii, and two individuals.

Upon review of the testimony, your Committee finds that Major General Richardson's military experience and commitment to public service qualify him to be nominated for appointment to the Hawai'i Workforce Development Council. Your Committee notes that Major General Richardson served as the Adjutant General of the State of Hawaii, Military Commander of the Hawaii Army and

Air National Guard, and Director of the State Civil Defense. He now serves on the Executive Committee of the Military Affairs Council of the Chamber of Commerce Hawaii and is the Director of the Hawaii National Guard Youth Challenge Academy Foundation. Based on his knowledge, experience, and commitment to public service, your Committee finds that Major General Richardson will be an asset to the Hawai'i Workforce Development Council.

ALICIA MOY

Your Committee received testimony in support of the nomination for the appointment and reappointment of Ms. Alicia Moy from the Department of Labor and Industrial Relations, Hawai'i Workforce Development Council, Chamber of Commerce Hawaii, and two individuals.

Upon review of the testimony, your Committee finds that Ms. Moy's professional experience and background in the energy industry qualify her to be nominated for appointment and reappointment to the Hawai'i Workforce Development Council. Your Committee notes that Ms. Moy is the President and Chief Executive Officer of Hawaii Gas and has previously worked at Macquarie Infrastructure Company. She serves on the Board of the Chamber of Commerce Hawaii, Aloha United Way, March of Dimes, and Western Energy Institute. Based on her knowledge, experience, and commitment to public service, your Committee finds that Ms. Moy will be an asset to the Hawai'i Workforce Development Council.

As affirmed by the records of votes of the members of your Committee on Judiciary and Labor that are attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominees, has found the nominees to be qualified for the positions to which nominated and recommends that the Senate advise and consent to the nominations.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Thielen).

SCRep. 1310 Judiciary and Labor on Gov. Msg. No. 625

Recommending that the Senate advise and consent to the nomination of the following:

BOARD OF TRUSTEES OF THE EMPLOYEES' RETIREMENT SYSTEM

G.M. No. 625 VINCENT BARFIELD, for a term to expire 01-01-2023

Your Committee has reviewed the personal history, resume, and statement submitted by the nominee and finds Vincent Barfield to possess the requisite qualifications to be nominated for reappointment to the Board of Trustees of the Employers' Retirement System.

Your Committee received testimony in support of the nomination for the reappointment of Mr. Vincent Barfield from the Department of Budget and Finance, Employees' Retirement System, and four individuals.

Upon review of the testimony, your Committee finds that Mr. Barfield's professional experience and background in banking, investment services, and retirement plans qualify him to be nominated for reappointment to the Board of Trustees of the Employers' Retirement System. Your Committee notes that Mr. Barfield is a Trust Services Group executive who oversees the fiduciary businesses at Bank of Hawaii and has served on the Board of Trustees of the Employers' Retirement System since 2011 as a member and as the chair of the Audit and Investment Committees. He currently serves as a member of the Association of Military Banks of America, USS Missouri Memorial Association, Barstow Foundation, and Navy League. Based on his knowledge, experience, and commitment to public service, your Committee finds that Mr. Barfield will continue to be an asset to the Board of Trustees of the Employers' Retirement System.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Kim).

SCRep. 1311 Higher Education on Gov. Msg. No. 597

Recommending that the Senate advise and consent to the nomination of the following:

HAWAI'I MEDICAL EDUCATION COUNCIL

G.M. No. 597 CHRISTOPHER FLANDERS, for a term to expire 06-30-2019

Your Committee has reviewed the personal history, resume, and statement submitted by the nominee and finds Christopher Flanders to possess the requisite qualifications to be nominated to the Hawai'i Medical Education Council.

Your Committee received testimony in support of the nomination of Christopher Flanders from the University of Hawai'i System, Mountain-Pacific Quality Health Foundation, and two individuals.

Dr. Flanders is currently the Executive Director of the Hawaii Medical Association, and has extensive experience in private practice, academic medicine, and healthcare policy. As a resident of the Island of Hawaii, Dr. Flanders is dedicated to ensuring that quality healthcare is available statewide, and to further this goal he co-founded the Hawaii Island Healthcare Alliance to gather data regarding healthcare disparities on the Island of Hawaii.

Your Committee finds that Dr. Flanders has demonstrated a significant commitment to public service, as evidenced by his service on numerous boards and councils such as the Mountain-Pacific Quality Health Foundation Board of Directors and as a member of the Hawaii Physician Shortage Workgroup. Dr. Flanders has worked closely with the University of Hawaii John A. Burns School of Medicine in various capacities, including on the physician workforce assessment and resident training programs intended to address physician shortages and benefit underserved areas of the State. Dr. Flanders is passionate about finding short- and long-term

collaborative strategies to improve physician development, recruitment, and retention in Hawaii. Your Committee finds that Dr. Flanders' background, leadership, and strong commitment to his profession will be tremendous assets to the Hawai'i Medical Education Council.

As affirmed by the record of votes of the members of your Committee on Higher Education that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Keith-Agaran, Taniguchi).

SCRep. 1312 Commerce, Consumer Protection, and Health on Gov. Msg. No. 510

Recommending that the Senate advise and consent to the nomination of the following:

HEALTH PLANNING COUNCIL, HAWAI'I COUNTY SUBAREA

G.M. No. 510 MOMI FERNANDEZ, for a term to expire 06-30-2020

Your Committee has reviewed the personal history, resume, and statement submitted by the nominee and finds Momi Fernandez to possess the requisite qualifications to be nominated to the Health Planning Council, Hawai'i County Subarea.

Your Committee received testimony in support of the nomination of Momi Fernandez from the State Health Planning and Development Agency and one individual.

Prior to retirement, Ms. Fernandez served as the Director of the Census Information Center of Papa Ola Lokahi, where she was awarded the Certificate of Appreciation for Outstanding Achievement on multiple occasions. Your Committee notes that Ms. Fernandez also served as Project Manager for several initiatives by the United States Census Bureau, National Library of Medicine, and Asian Americans Advancing Justice. In addition to extensive leadership experience related to data and data resources, Ms. Fernandez's background demonstrates knowledge of the delivery of health services, health services shortage areas, and cultural sensitivities within the health delivery system. Your Committee finds that Ms. Fernandez is a dedicated community member and currently serves on the Board of Directors for Ho'omau Ke Ola and the Advisory Board for the Native Hawaiian Health Scholarship Program. In her personal statement, Ms. Fernandez indicated that she hopes to use her ability to recognize health services gaps, population mobility, and needs in rural areas to make an impact toward community health and wellness. Your Committee finds that Ms. Fernandez's expertise in health data, background working with diverse populations, and commitment to public service will greatly benefit the Health Planning Council, Hawai'i County Subarea.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 2 (Chang, Ihara).

SCRep. 1313 Commerce, Consumer Protection, and Health on Gov. Msg. No. 511

Recommending that the Senate advise and consent to the nomination of the following:

HEALTH PLANNING COUNCIL, WINDWARD O'AHU SUBAREA

G.M. No. 511 JUDY FOMIN, for a term to expire 06-30-2019

Your Committee has reviewed the personal history, resume, and statement submitted by the nominee and finds Judy Fomin to possess the requisite qualifications to be nominated to the Health Planning Council, Windward O'ahu Subarea.

Your Committee received testimony in support of the nomination of Judy Fomin from the State Health Planning and Development Agency and two individuals.

Prior to retirement, Ms. Fomin worked as a special assistant to Representative Michael Magaoay for ten years. Prior to that position, Ms. Fomin spent many years working in the field of domestic violence, including as the Director of the San Mateo Battered Women's Center. Your Committee notes that Ms. Fomin has a Master's degree in clinical psychology and worked as a counselor providing services to victims of domestic violence and incarcerated men and women for twenty years. Your Committee finds that Ms. Fomin has been involved in health care services for approximately thirty-five years, and also has an extensive record of community involvement. Ms. Fomin currently serves as the Board President of Ko'olauloa Health Center and has chaired the Legislative Committee and been a member for five years. In her personal statement, Ms. Fomin indicated that she hopes to make an impact by helping provide the community with quality health services at a reasonable cost. Your Committee finds that Ms. Fomin's background, knowledge, and dedication to public service will greatly benefit the Health Planning Council, Windward O'ahu Subarea.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that are attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 2 (Chang, Ihara).

SCRep. 1314 Commerce, Consumer Protection, and Health on Gov. Msg. No. 512

Recommending that the Senate advise and consent to the nomination of the following:

HEALTH PLANNING COUNCIL, KAUA'I SUBAREA

G.M. No. 512 JENNIE CHAHANOVICH, for a term to expire 06-30-2020

Your Committee has reviewed the personal history, resume, and statement submitted by the nominee and finds Jennie Chahanovich to possess the requisite qualifications to be nominated to the Health Planning Council, Kaua'i Subarea.

Your Committee received testimony in support of the nomination of Jennie Chahanovich from the State Health Planning and Development Agency; Healthcare Association of Hawaii; Hawai'i Pacific Health; Hawaii Health Systems Corporation, West Hawaii Region; and seven individuals.

Ms. Chahanovich is currently the President and Chief Executive Officer of Wilcox Memorial Hospital and Chief Executive Officer of Kaua'i Medical Clinic, which are affiliated with Hawai'i Pacific Health. Your Committee finds that Ms. Chahanovich is an accomplished healthcare executive with extensive experience in hospital administration and licensures in executive management and long-term care administration. Ms. Chahanovich is also a fellow of the American Association in Respiratory Care and the American College of Health Care Executives. Your Committee notes that Ms. Chahanovich is very knowledgeable about Kauai's healthcare needs and is familiar with the Health Planning Council, Kaua'i Subarea, as she previously served as a member of the Council. Your Committee finds that Ms. Chahanovich is actively involved in the community and, among other positions, has served as Chair of the American Heart Association and the Board of Hospice Hawai'i. In her personal statement, Ms. Chahanovich indicated that she hopes to use her years of experience interacting with healthcare providers and consumers to promote health, wellness, and access to care for the Kaua'i community. Your Committee finds that Ms. Chahanovich's professional experience, personal and educational background, and leadership in the community will greatly benefit the Health Planning Council, Kaua'i County Subarea.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 2 (Chang, Ihara).

SCRep. 1315 Commerce, Consumer Protection, and Health on Gov. Msg. No. 513

Recommending that the Senate advise and consent to the nomination of the following:

HEALTH PLANNING COUNCIL, WEST O'AHU SUBAREA

G.M. No. 513 PATRICE JACKSON, for a term to expire 06-30-2019

Your Committee has reviewed the personal history, resume, and statement submitted by the nominee and finds Patrice Jackson to possess the requisite qualifications to be nominated to the Health Planning Council, West O'ahu Subarea.

Your Committee received testimony in support of the nomination of Patrice Jackson from the State Health Planning and Development Agency, Wahiawa Nursing and Rehabilitation Center, and five individuals.

Ms. Jackson is currently a member of the faculty at Leeward Community College and Director of the school's Health Information Technology Program and Coordinator of Workforce Development. Your Committee finds that Ms. Jackson has over thirty years of experience in health information technology and management, and has expertise in serving as the bridge between information, patients, and healthcare providers. Ms. Jackson also provides consultation services in the field of health information, billing, and patient administration. Your Committee notes that Ms. Jackson has several certifications in health information technology and is very skilled at analyzing data and determining fact. Your Committee finds that Ms. Jackson is a member of several professional organizations and currently serves as President of the Hawaii State Chapter of the American Medical Billing Association. In her personal statement, Ms. Jackson indicated that she is excited to use her experience in health information management to serve the community and advocate for consumers. Your Committee finds that Ms. Jackson's knowledge, professional experience, and commitment to public service will greatly benefit the Health Planning Council, West O'ahu Subarea.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 2 (Chang, Ihara).

SCRep. 1316 Commerce, Consumer Protection, and Health on Gov. Msg. Nos. 514 and 515

Recommending that the Senate advise and consent to the nominations of the following:

DISABILITY AND COMMUNICATION ACCESS BOARD

G.M. No. 514 NIKKI KEPOO, for a term to expire 06-30-2017; and

G.M. No. 515 NIKKI KEPOO, for a term to expire 06-30-2021

Your Committee has reviewed the personal history, resume, and statement submitted by the nominee and finds Nikki Kepoo to possess the requisite qualifications to be nominated for the appointment and reappointment to the Disability and Communication Access Board.

Your Committee received testimony in support of the nomination for the appointment and reappointment of Nikki Kepoo from the Disability and Communication Access Board; Great Destinations, Inc.; HRE Technologies LLC; and three individuals.

Ms. Kepoo is currently the office manager at HRG Technologies LLC/Hokukahu LLC and has over twenty years of administrative management experience. Your Committee received testimony indicating that Ms. Kepoo demonstrates natural leadership qualities, excellent communication skills, and a positive outlook on life. As the mother of a deaf son, Ms. Kepoo is well-aware of the issues affecting the deaf community, such as access to government facilities and services within the community. Ms. Kepoo is a committed activist for deaf children, advocating for the Language Equality and Acquisition for Deaf Kids initiative and serving as a member of the Department of Health's Early Language Working Group, the School Community Counsel at the Hawaii School for the Deaf and Blind, and the Hawaii Newborn Hearing Screening Board. Ms. Kepoo is also a strong advocate for Hawaiian language schools. In her personal statement, Ms. Kepoo indicated that she hopes to provide practical insight into life challenges that arise for families with a deaf child as well as support state agencies in adapting to provide access to all individuals. Your Committee finds that Ms. Kepoo's experiences advocating for issues that affect access by the deaf community, as well as her demonstrated commitment to public service, will be great assets to the Board.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 2 (Chang, Ihara).

SCRep. 1317 Commerce, Consumer Protection, and Health on Gov. Msg. No. 516

Recommending that the Senate advise and consent to the nomination of the following:

LANGUAGE ACCESS ADVISORY COUNCIL

G.M. No. 516 APHIRAK BAMRUNGRUAN, for a term to expire 06-30-2020

Your Committee has reviewed the personal history, resume, and statement submitted by the nominee and finds Aphirak Bamrungruan to possess the requisite qualifications to be nominated to the Language Access Advisory Council.

Your Committee received testimony in support of the nomination of Aphirak Bamrungruan from the Department of Health, Department of Human Services, Office of Language Access, and twelve individuals.

Your Committee finds that Mr. Bamrungruan is presently the Project Manager for the Limited English Proficient Project within the Department of Human Services and has the practical and administrative experience of managing state department-wide efforts to improve language access. Your Committee further finds that Mr. Bamrungruan has worked with state and federal agencies on language compliance, and is currently a strong advisor to the Office of Language Access. In his personal statement, Mr. Bamrungruan indicated that he hopes to provide insight so that all entities have a better understanding of language access law in addition to meaningful access to services, programs, and activities for individuals with limited English proficiency. Mr. Bamrungruan is originally from Thailand and learned English as a second language. In addition to many other accomplishments, Mr. Bamrungruan has prior experience as a licensed attorney practicing immigration and family law, which is valuable to the Language Access Advisory Council because it provided Mr. Bamrungruan with an astute understanding of Hawaii's language access law and its intersection with relevant federal law. Your Committee finds that Mr. Bamrungruan's personal background, as well as his legal expertise and experience with increasing language access for limited English proficient individuals by implementing large-scale programs and policies, demonstrates his ability to advance the goals of the Office of Language Access.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 2 (Chang, Ihara).

SCRep. 1318 Commerce, Consumer Protection, and Health on Gov. Msg. Nos. 517, 518, 519, 520, 521, 522, and 523

Recommending that the Senate advise and consent to the nominations of the following:

MENTAL HEALTH AND SUBSTANCE ABUSE, KAUA'I SERVICE AREA BOARD

G.M. No. 517 ANGELA UECHI, for a term to expire 06-30-2020;

G.M. No. 518 ELENA ELLENBERGER, for a term to expire 06-30-2019;

G.M. No. 519 KEVIN MYRICK, for a term to expire 06-30-2020;

G.M. No. 520 KURT NAGATA, for a term to expire 06-30-2020;

G.M. No. 521 LANI NAGAO, for a term to expire 06-30-2020;

G.M. No. 522 MONICA CONTRADES, for a term to expire 06-30-2019; and

G.M. No. 523 SHEILA CALCAGNO, for a term to expire 06-30-2019

Your Committee has reviewed the personal histories, resumes, and statements submitted by the nominees and finds Angela Uechi, Elena Ellenberger, Kevin Myrick, Kurt Nagata, Lani Nagao, Monica Contrades, and Sheila Calcagno to possess the requisite qualifications to be nominated to the Mental Health and Substance Abuse, Kauai Service Area Board.

ANGELA UECHI

Your Committee received testimony in support of the nomination of Angela Uechi from the Department of Health, Friendship House, and Friendship Club.

Ms. Uechi is currently employed by Mental Health Kokua as a relief resident assistant, and she is also a personal assistant to an individual who recently became blind. As a consumer of mental health services, Ms. Uechi has committed her time to working and volunteering with others in her community who need assistance. For almost six years, Ms. Uechi has been a member of Friendship House Kauai, and she presently serves on the Friendship Club Board of Directors. In addition, Ms. Uechi is a Hawaii Certified Peer Specialist and is enrolled in Benefits Practitioner Training through the University of Hawaii Center on Disability Studies. In her personal statement, Ms. Uechi indicated that she hopes to form policy to increase the allowance level of care-home residents, establish an in-patient treatment facility, and bring needed psychiatrists to Kauai. Your Committee finds that Ms. Uechi's background, experience, and community involvement will be great assets to the Mental Health and Substance Abuse, Kauai Service Area Board.

ELENA ELLENBERGER

Your Committee received testimony in support of the nomination of Elena Ellenberger from the Department of Health.

Ms. Ellenberger works for the Steadfast Development Corporation as a residential specialist and group home managers team leader. For many years, Ms. Ellenberger has been helping individuals in recovery obtain successful housing, often serving as a liaison between the treatment team, landlord, housing agency, and consumer. Ms. Ellenberger is also an artist, and her design was chosen as the agency design for the Steadfast Development Corporation. Your Committee notes Ms. Ellenberger's commitment to ending homelessness in her community, as evidenced by her involvement with the Kauai Chapter of Bridging the Gap for Housing and Urban Development's Continuum of Care Program. In her personal statement, Ms. Ellenberger indicated that she hopes to promote recovery, meaningful community involvement by individuals with mental illness and substance abuse, and to establish a substance abuse rehabilitation facility on Kauai. Your Committee finds that Ms. Ellenberger's knowledge, experience, and dedication to the community will benefit the Mental Health and Substance Abuse, Kauai Service Area Board.

KEVIN MYRICK

Your Committee received testimony in support of the nomination of Kevin Myrick from the Department of Health, Hawai'i Pacific Health, and one individual.

Mr. Myrick is presently the nurse manager of critical care service line at Wilcox Memorial Hospital. With twenty-seven years of experience as a registered nurse in a variety of healthcare settings, Mr. Myrick has expertise in emergency, surgery, and critical care. Mr. Myrick has also served as a healthcare administrator for many years, and is an advocate for the medical, emotional, and psychological needs of all patients. Community involvement is important to Mr. Myrick, and he is active in the local county suicide task force. In his personal statement, Mr. Myrick indicated that he hopes to reduce the stigma of mental health patients seeking medical care, remove barriers to care, and educate healthcare professionals on how they are perceived in the mental health community. Your Committee finds that Mr. Myrick's skills, professional experience, and demonstrated interest in helping the community will greatly assist the Mental Health and Substance Abuse, Kauai Service Area Board.

KURT NAGATA

Your Committee received testimony in support of the nomination of Kurt Nagata for reappointment from the Department of Health.

Mr. Nagata is employed at Kala's Creations as a part-time employee. He is also a certified speaker and has completed facilitator training through the mental health transformation grant. Mr. Nagata enjoys sharing his knowledge and experience with others, is actively involved on the Kauai Friendship Club Board of Directors, and has served on the Mental Health and Substance Abuse, Kauai Service Area Board, since 2013. In addition, Mr. Nagata was previously a member of the Self-Advocacy Advisory Council. In his personal statement, Mr. Nagata indicated that he has lived a full life as a recovering alcoholic diagnosed with a mental illness, and wants to instill hope in others who have a mental illness to help them live a healthier and more fulfilling life. Your Committee finds that Mr. Nagata's personal history, experience, and demonstrated community involvement qualify him for reappointment to the Mental Health and Substance Abuse, Kauai Service Area Board.

LANI NAGAO

Your Committee received testimony in support of the nomination of Lani Nagao from the Department of Health and one individual.

Ms. Nagao is the Director of Business and Community Relations at the McKenna Recovery Center and, in addition to her job responsibilities, finds time to speak with patients and provide support in their recovery. Ms. Nagao has extensive knowledge about addiction, recovery, and treatment, and describes her biggest strength as her desire to improve society. As a community development specialist, Ms. Nagao excels at connecting people and organizations to maximize opportunities for successful connections and improve patient well-being. Your Committee notes that Ms. Nagao has demonstrated significant dedication to public service, as evidenced by her volunteer efforts with the Boys and Girls Club and Kauai Rotary Club, and her service as President of the Kauai Rural Health Association and on the Mayor of Kauai's Advisory Council for Substance Abuse Treatment and Community Integration. Your Committee finds that Ms. Nagao's knowledge, leadership experience, and commitment to public service will be valuable assets to the Mental Health and Substance Abuse, Kauai Service Area Board.

MONICA CONTRADES

Your Committee received testimony in support of the nomination of Monica Contrades for reappointment from the Department of Health.

Ms. Contrades is a certified speaker through the mental health transformation grant. For the past eight years, Ms. Contrades has been actively involved in the Consumer, Family, and Youth Hui and Speakers' Bureau through which she is able to share her story with numerous community groups such as Aloha United Way and Rotary Club of Kauai. As a mental health consumer for over fifty years, Ms. Contrades believes that her experiences can serve as an example and help to educate her community about mental illness in order to reduce the stigma associated with it. Born and raised on Kauai, Ms. Contrades is actively involved in her community, serving on the Mental Health and Substance Abuse, Kauai Service Area Board, since 2012, and as a member of Friendship House Kauai in the Food Unit, where she shares her love of baking and cooking with her peers. Your Committee finds that Ms. Contrades' personal experience, skills, and community involvement qualify her for reappointment to the Mental Health and Substance Abuse, Kauai Service Area Board.

SHEILA CALCAGNO

Your Committee received testimony in support of the nomination of Sheila Calcagno for reappointment from the Department of Health and two individuals.

Ms. Calcagno is currently employed with the Community Health Outreach Work to Prevent AIDS Project as an outreach worker for substance abuse working to strengthen families against drug abuse. For over fifteen years, Ms. Calcagno has served the community as an outreach worker for mental health consumers with dual diagnoses, also advocating for improving the lives of individuals living with Human Immunodeficiency Virus that are likely to engage in drug use. Ms. Calcagno is dedicated to community service and, in addition to serving on the Mental Health and Substance Abuse, Kauai Service Area Board, since 2013, she is the Kauai representative on the State Council on Mental Health. In addition, Ms. Calcagno has volunteered for many years with the community planning board for HIV in Oahu, a women's shelter, and Hale Opio Kauai as a therapeutic foster parent. Your Committee finds that Ms. Calcagno's background, experience, and extensive public service qualify her for reappointment to the Mental Health and Substance Abuse, Kauai Service Area Board.

As affirmed by the records of votes of the members of your Committee on Commerce, Consumer Protection, and Health that are attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominees, has found the nominees to be qualified for the positions to which nominated and recommends that the Senate advise and consent to the nominations.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 2 (Chang, Ihara).

SCRep. 1319 Commerce, Consumer Protection, and Health on Gov. Msg. Nos. 524, 525, 526, and 527

Recommending that the Senate advise and consent to the nominations of the following:

MENTAL HEALTH AND SUBSTANCE ABUSE, MAUI SERVICE AREA BOARD

- G.M. No. 524 WILLIAM LAWSON, for a term to expire 06-30-2017;
- G.M. No. 525 WILLIAM LAWSON, for a term to expire 06-30-2021;
- G.M. No. 526 HAROLD AMES, for a term to expire 06-30-2019; and
- G.M. No. 527 CAPRENA ROWE, for a term to expire 06-30-2019

Your Committee has reviewed the personal histories, resumes, and statements submitted by the nominees and finds William Lawson, Harold Ames, and Caprena Rowe to possess the requisite qualifications to be nominated to the Mental Health and Substance Abuse, Maui Service Area Board.

WILLIAM LAWSON

Your Committee received testimony in support of the nominations for appointment and reappointment of William Lawson from the Department of Health and one individual.

Prior to retirement, Mr. Lawson worked for the United States Department of Housing and Urban Development. As the father of a daughter with bipolar and schizoaffective disorder who has a history of alcohol and drug abuse, Mr. Lawson is familiar with the needs and challenges of individuals with dual diagnoses. Mr. Lawson is also knowledgeable about available community resources for the mentally ill and persons with disabilities, especially with housing options and financial assistance for housing. Your Committee notes that Mr. Lawson is a certified educator with the National Association of Mental Illness and has been active as a teacher of Family to Family classes with this organization. In his personal statement, Mr. Lawson indicated that he hopes to highlight the needs of the mentally ill population on Maui as well as how to prevent and treat mental and emotional disorders and individuals afflicted with combined mental illness and substance abuse disorders. Your Committee therefore finds that Mr. Lawson's knowledge, personal experience, and desire to contribute to the community will be valuable assets to the Mental Health and Substance Abuse, Maui Service Area Board.

HAROLD AMES

Your Committee received testimony in support of the nomination of Harold Ames from the Department of Health and two individuals.

Mr. Ames is the founder and president of the Hawaii Association for Industrial-Organizational Psychology and is an experienced researcher-practitioner in the field of industrial-organizational psychology. Your Committee finds that Mr. Ames organized a nationally

renowned suicide prevention training on Maui and has experience, skills, and training in policy analysis that provide a valuable perspective about the delivery of mental health and substance abuse services. Your Committee notes that Mr. Ames is already actively contributing to the Mental Health and Substance Abuse, Maui Service Area Board and thus is familiar with the role and responsibilities of board members. Mr. Ames indicated in his personal statement that he hopes to contribute to the redesign of the mental health and substance abuse field in Hawaii to better promote sustainable wellness. Your Committee therefore finds that Mr. Ames' background, experience, and commitment to the community will provide a significant contribution to the Mental Health and Substance Abuse, Maui Service Area Board.

CAPRENA ROWE

Your Committee received testimony in support of the nomination of Caprena Rowe from the Department of Health.

Ms. Rowe is currently a Crisis Worker at Aloha House Treatment Center and has training as a Hawaii Certified Peer Specialist and a Wellness Recovery Action Plan Facilitator. As a consumer of mental health services, Ms. Rowe hopes to contribute to the community by sharing her knowledge and expertise and hopes to gain valuable life experience. Your Committee notes that Ms. Rowe has provided hospital after care for persons in crisis, including individuals with suicidal ideation, and has participated in community trainings and educational programs for Mental Health America of Hawaii. Ms. Rowe has also completed Peer to Peer Training and Tool Boxes Training, which she indicated have taught her empathy, social responsibility, and the ability to instill hope in others. In her personal statement, Ms. Rowe also indicated that she wants to help consumers learn about the benefits of having self-help groups based on a shared common interest. Your Committee therefore finds that Ms. Rowe's experience, personal knowledge, and demonstrated interest in public service will be valuable resources to the Mental Health and Substance Abuse, Maui Service Area Board.

As affirmed by the records of votes of the members of your Committee on Commerce, Consumer Protection, and Health that are attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominees, has found the nominees to be qualified for the positions to which nominated and recommends that the Senate advise and consent to the nominations.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 2 (Chang, Ihara).

SCRep. 1320 Commerce, Consumer Protection, and Health on Gov. Msg. No. 529

Recommending that the Senate advise and consent to the nomination of the following:

RADIOLOGIC TECHNOLOGY BOARD

G.M. No. 529 LORI OKUDA, for a term to expire 06-30-2020

Your Committee has reviewed the personal history, resume, and statement submitted by the nominee and finds Lori Okuda to possess the requisite qualifications to be nominated to the Radiologic Technology Board.

Your Committee received testimony in support of the nomination of Lori Okuda from the Department of Health and one individual.

Your Committee finds that Ms. Okuda is presently a radiologic technologist at Castle Medical Center and has practiced as a technologist for thirty-seven years. Ms. Okuda is familiar with the workings of the Radiologic Technology Board, as she previously served as a member of the Board, and has extensive experience in the areas of mammography, mobile radiology, fluoroscopy, and general radiography. In addition to her extensive training and knowledge in multiple radiology fields, Ms. Okuda is currently involved with the Hawaii Society of Radiologic Technologists. In her personal statement, Ms. Okuda indicated that she hopes to protect the public from unnecessary radiation by ensuring that the profession stays up to date with technology and that practitioners in the State are using ionizing radiation safely. Your Committee finds that Ms. Okuda's expertise in radiation safety and compliance with state and federal inspections, as well as her demonstrated commitment to patient safety, will be great assets to the Radiologic Technology Board.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 2 (Chang, Ihara).

SCRep. 1321 Commerce, Consumer Protection, and Health on Gov. Msg. Nos. 530 and 531

Recommending that the Senate advise and consent to the nominations of the following:

POLICY ADVISORY BOARD FOR ELDER AFFAIRS

G.M. No. 530 BARBARA YAMASHITA, for a term to expire 06-30-2020; and

G.M. No. 531 COLETTE BROWNE, for a term to expire 06-30-2019

Your Committee has reviewed the personal histories, resumes, and statements submitted by the nominees and finds Barbara Yamashita and Colette Browne to possess the requisite qualifications to be nominated to the Policy Advisory Board for Elder Affairs.

BARBARA YAMASHITA

Your Committee received testimony in support of the nomination of Barbara Yamashita from the Executive Office on Aging, Policy Advisory Board for Elder Affairs, Hawaii State Coalition Against Domestic Violence, and seven individuals.

Upon review of the testimony, your Committee finds that Ms. Yamashita's knowledge, background, and demonstrated leadership building community partnerships and raising awareness to promote family wellness qualify her to serve on the Policy Advisory Board for Elder Affairs. Prior to retirement, Ms. Yamashita served as the Deputy Director of the Department of Community Services of the City and County of Honolulu, which houses the Elderly Affairs Division. Ms. Yamashita also spent years working at the Department of Health in various positions and at the Department of Human Services, where her responsibilities included Adult Protective Services and the Senior Grandparent and Retired and Senior Volunteer Programs. Your Committee notes that Ms. Yamashita has experience as a hospital administrator and was employed for many years in the public health sector. Among other positions, Ms. Yamashita has served as a Board Member of the National Association of Chronic Disease Directors and a member of the State Health Planning and Development Agency Area Council. Your Committee therefore finds that Ms. Yamashita is qualified to serve on the Policy Advisory Board for Elder Affairs based on her background, experience, and commitment to fostering healthy and productive aging.

COLETTE BROWNE

Your Committee received testimony in support of the nomination of Colette Browne from the Executive Office on Aging, Policy Advisory Board for Elder Affairs, AARP Hawaii, and two individuals.

Upon review of the testimony, your Committee finds that Dr. Browne's experience and extensive professional history in the field of gerontology qualify her to serve on the Policy Advisory Board for Elder Affairs. Dr. Browne has been a professor at the Myron B. Thompson School of Social Work at the University of Hawaii for over thirty years, is Chair of the Gerontology Program, and has served as Interim Director of the University of Hawaii Center on Aging. Dr. Browne has conducted numerous research studies and published extensively on issues faced by older adults, focusing on areas including aging among minority groups, social policy and aging, and long-term care. Your Committee further finds that Dr. Browne has received many honors, including for her work as principal investigator of the Ha Kupuna Program, which strives to improve the health and increase the life expectancy of Native Hawaiian elders. Your Committee notes that Dr. Browne previously served on the Policy Advisory Board for over fifteen years, and thus has a thorough understanding of the role and responsibilities of board members. Your Committee therefore finds that Dr. Browne is qualified to serve on the Policy Advisory Board for Elder Affairs based on her knowledge, experience, and clear dedication to gerontology, social work, and public health.

As affirmed by the records of votes of the members of your Committee on Commerce, Consumer Protection, and Health that are attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominees, has found the nominees to be qualified for the positions to which nominated and recommends that the Senate advise and consent to the nominations.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 2 (Chang, Ihara).

SCRep. 1322 Commerce, Consumer Protection, and Health on Gov. Msg. Nos. 591, 592, 593, and 594

Recommending that the Senate advise and consent to the nominations of the following:

STATE COUNCIL ON DEVELOPMENTAL DISABILITIES

- G.M. No. 591 BATHEY FONG, for a term to expire 06-30-2020;
- G.M. No. 592 CAROL YOUNG, for a term to expire 06-30-2017;
- G.M. No. 593 CAROL YOUNG, for a term to expire 06-30-2021; and
- G.M. No. 594 RENEE MANFREDI, for a term to expire 06-30-2020

Your Committee has reviewed the personal histories, resumes, and statements submitted by the nominees and finds Bathey Fong, Carol Young, and Renee Manfredi to possess the requisite qualifications to be nominated to the State Council on Developmental Disabilities.

BATHEY FONG

Your Committee received testimony in support of the nomination of Bathey Fong from the State Council on Developmental Disabilities, Disability and Communication Access Board, Lanakila Pacific, and ten individuals.

Ms. Fong is an extremely active community member committed to teaching others how to use their voice and advocate for themselves. As an individual with a developmental disability, Ms. Fong sees herself as a role model for others to learn how to speak up for themselves and pursue their dreams. Ms. Fong currently resides in a home operated by the Arc in Hawaii and is learning to live independently in hopes of living on her own in the near future. Your Committee notes that Ms. Fong is presently contributing to her community and demonstrating leadership in many ways, as a member and past president of the Hawaii Self-Advocacy Advisory Council, member of the Department of Human Services My Choice My Way Advisory Work Group, and volunteer tour guide at Lanakila Pacific. Ms. Fong is also a recognized trainer in the community for emergency preparedness and disaster training for people with disabilities. Your Committee finds that Ms. Fong's personal experience, strong commitment to the community, and passion for helping others will be very valuable contributions to the State Council on Developmental Disabilities.

CAROL YOUNG

Your Committee received testimony in support of the nomination for the appointment and reappointment of Carol Young from the State Council on Developmental Disabilities, Hawaii Disability Rights Center, and Disability and Communication Access Board.

Ms. Young has many years of experience working with individuals with disabilities, particularly in the areas of vocational rehabilitation and the transition to employment, and she strives to improve services and interagency collaboration that promote improved self-determination for people with disabilities. Ms. Young is currently employed as an advocate at the Hawaii Disability Rights Center, and she previously worked at the University of Hawaii Center on Disability Studies and the Department of Human

Services Vocational Rehabilitation and Services for the Blind Division. Your Committee notes that Ms. Young has an established history of community involvement, including serving as past chair of the State Council on Mental Health and past member of the Special Education Advisory Council. Ms. Young is also fluent in American Sign Language and has recently collaborated with the Disability and Communication Access Board to develop tools for the Honolulu Police Department on effective communication with persons who are deaf or hard of hearing. Your Committee finds that Ms. Young's knowledge, background, and commitment to public service will be assets to the State Council on Developmental Disabilities.

RENEE MANFREDI

Your Committee received testimony in support of the nomination of Renee Manfredi from the State Council on Developmental Disabilities, Hawaii Self-Advocacy Advisory Council, Special Olympics Hawaii, and nine individuals.

Ms. Manfredi is making numerous contributions to her community to ensure that individuals with developmental disabilities receive the compassion and respect they deserve to have a good quality of life. As someone with a developmental disability, Ms. Manfredi motivates others with disabilities to speak up for themselves by sharing her experiences through public speaking as a Toastmaster and Global Messenger with the Hawaii Special Olympics. Ms. Manfredi is currently a member of the No Wrong Door Advisory Committee that is working on a statewide initiative to improve access to long term services and supports for individuals with disabilities and chronic conditions. Your Committee notes that Ms. Manfredi demonstrates leadership in many areas, including her current role as president of the Hawaii Self-Advocacy Advisory Council, through which she represented the Council at the recent 17th annual Day at the Capitol event. Your Committee finds that Ms. Manfredi's background, advocacy experience, and desire to serve her community will be strong contributions to the State Council on Developmental Disabilities.

As affirmed by the records of votes of the members of your Committee on Commerce, Consumer Protection, and Health that are attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominees, has found the nominees to be qualified for the positions to which nominated and recommends that the Senate advise and consent to the nominations.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Espero, Ihara, Ruderman).

SCRep. 1323 Commerce, Consumer Protection, and Health on Gov. Msg. Nos. 595 and 596

Recommending that the Senate advise and consent to the nominations of the following:

STATE COUNCIL ON MENTAL HEALTH

G.M. No. 595 ARWYN JACKSON, for a term to expire 06-30-2020; and

G.M. No. 596 KATHRYN BOYER, for a term to expire 06-30-2019

Your Committee has reviewed the personal histories, resumes, and statements submitted by the nominees and finds Arwyn Jackson and Kathryn Boyer to possess the requisite qualifications to be nominated to the State Council on Mental Health.

ARWYN JACKSON

Your Committee received testimony in support of the nomination of Arwyn Jackson from the Department of Health and two individuals.

Ms. Jackson is currently the Director of the House Minority Research Office for the Hawaii House of Representatives and has years of experience managing political campaigns. Your Committee notes that Ms. Jackson has extensive personal and professional experience with mental health professionals and social justice issues involving emotional and social trauma. Specifically, Ms. Jackson has worked with survivors of severe trauma in the field of human trafficking, the homeless population, and individuals struggling with mental illness. In her personal statement, Ms. Jackson indicated that she hopes to encourage consumers to effectively utilize mental health services and advocate for best practices in diagnosis, medication, and treatment. Ms. Jackson also hopes to help the Council's website become operational. Your Committee finds that Ms. Jackson's knowledge about human trafficking, professional experiences, and passion for supporting mental health services will be great assets to the State Council on Mental Health.

KATHRYN BOYER

Your Committee received testimony in support of the nomination of Kathryn Boyer from the Department of Health, Department of Human Services, and one individual.

Ms. Boyer is employed by the Child Welfare Services Branch of the Department of Human Services as the Assistant Program Administrator for Program Development. With over ten years of experience working with adults, children, and families experiencing behavioral health issues, Ms. Boyer is extremely knowledgeable in assisting adults with co-occurring disorders as well as children and families in crisis. Currently, Ms. Boyer's focus on the well-being of children in foster care is also directly impacted by the effects of mental health disorders and substance abuse. In her personal statement, Ms. Boyer indicated that she values coordination and collaboration as a powerful way to protect consumers, and she hopes to participate in cross-system collaboration for the betterment of Hawaii's behavioral health system. Your Committee finds that Ms. Boyer's background, experience working with at-risk populations, and expertise in the field of behavioral health will be great assets to the State Council on Mental Health.

As affirmed by the records of votes of the members of your Committee on Commerce, Consumer Protection, and Health that are attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominees, has found the nominees to be qualified for the positions to which nominated and recommends that the Senate advise and consent to the nominations.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Espero, Ihara, Ruderman).

SCRep. 1324 Commerce, Consumer Protection, and Health on Gov. Msg. No. 648

Recommending that the Senate advise and consent to the nomination of the following:

HEALTH PLANNING COUNCIL, KAUAI SUBAREA

G.M. No. 648 TITO VILLANUEVA, for a term to expire 06-30-2021

Your Committee has reviewed the personal history, resume, and statement submitted by the nominee and finds Tito Villanueva to possess the requisite qualifications to be nominated for reappointment to the Health Planning Council, Kauai Subarea.

Your Committee received testimony in support of the nomination for reappointment of Tito Villanueva from the State Health Planning and Development Agency and three individuals.

Mr. Villanueva has been an Emergency Medical Technician with American Medical Response and a part-time Fire Fighter for over twenty years, and is also American Medical Response's Operations Manager for the County of Kauai. Prior to his career in emergency medical services, Mr. Villanueva was a Corpsman and Lead Petty Office Field Medic with the United States Navy. Your Committee notes that Mr. Villanueva possesses numerous emergency medicine certifications and is dedicated to improving the quality and safety of healthcare in his community. As a longtime resident of Kauai, Mr. Villanueva has demonstrated significant dedication to public service as evidenced by his involvement with community groups, including the Kauai Filipino Chamber of Commerce, Kauai Filipino-American Jaycees, Kauai Region Hawaii Health Systems Corporation, and the Kauai Trauma Committee. Mr. Villanueva has served as a member of the Health Planning Council, Kauai Subarea since 2013 and has a thorough understanding of the role and responsibilities of council members. Your Committee finds that Mr. Villanueva's background, knowledge, and strong commitment to serving the community are great assets to the Council.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 2 (Ihara, Kidani).

SCRep. 1325 Commerce, Consumer Protection, and Health on Gov. Msg. No. 652

Recommending that the Senate advise and consent to the nomination of the following:

RADIOLOGIC TECHNOLOGY BOARD

G.M. No. 652 DONALD WOOD, for a term to expire 06-30-2021

Your Committee has reviewed the personal history, resume, and statement submitted by the nominee and finds Donald Wood to possess the requisite qualifications to be nominated for reappointment to the Radiologic Technology Board.

Your Committee received testimony in support of the nomination for reappointment of Donald Wood from the Department of Health.

Your Committee finds that Mr. Wood has extensive experience as a radiologic technologist, with over thirty-four years of experience as a Certified Radiologic Technologist credentialed by the American Registry of Radiologic Technologists. Prior to retirement, Mr. Wood worked as the Manager of Hawaii Medical Center West. Mr. Wood has obtained numerous years of experience as Director of Imaging for two separate medical organizations, as well as valuable experience in radiology product manufacture design. In his personal statement, Mr. Wood indicated that he hopes to use his experience and technical knowledge to sustain and support the State in implementing best practice standards in the medical field. Your Committee notes that Mr. Wood has served as a member of the Radiological Technology Board since 2012 and has a thorough understanding of the role and responsibilities of board members. Your Committee finds that Mr. Wood's professional experience, technical knowledge, and management credentials are great assets to the Board.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 2 (Ihara, Kidani).

SCRep. 1326 Commerce, Consumer Protection, and Health on Gov. Msg. Nos. 657 and 658

Recommending that the Senate advise and consent to the nominations of the following:

STATE COUNCIL ON DEVELOPMENTAL DISABILITIES

G.M. No. 657 KEVIN BARDSLEY-MARCIAL, for a term to expire 06-30-2020; and

G.M. No. 658 KIMBERLY ARAKAKI, for a term to expire 06-30-2020

Your Committee has reviewed the personal histories, resumes, and statements submitted by the nominees and finds Kevin Bardsley-Marcial and Kimberly Arakaki to possess the requisite qualifications to be nominated to the State Council on Developmental Disabilities.

KEVIN BARDSLEY-MARCIAL

Your Committee received testimony in support of the nomination of Kevin Bardsley-Marcial from the State Council on Developmental Disabilities and two individuals.

Mr. Bardsley-Marcial has been working with individuals with disabilities since 2002 and has experience as a direct support worker, supervisor, and manager. Mr. Bardsley-Marcial is currently the Manager of Performance Improvement at BAYADA Behavioral Health and Habilitation, an organization that provides personal assistance and habilitation services to individuals with developmental disabilities through the Medicaid Home and Community-Based Services Waiver Program. Your Committee notes that Mr. Bardsley-Marcial serves in leadership roles at BAYADA by serving as designated clinical lead for service supervisors for the Medicaid Waiver Program as well as serving as BAYADA's representative with various community groups. In his personal statement, Mr. Bardsley-Marcial indicated that he hopes to promote evidence-based interventions, help view systems through an organizational behavior management perspective, and expand employment supports for participants of the Home-Based Community Services Waiver Program. Your Committee finds that Mr. Bardsley-Marcial's background, knowledge, and commitment to improving the lives of individuals with disabilities will be assets to the State Council on Developmental Disabilities.

KIMBERLY ARAKAKI

Your Committee received testimony in support of the nomination of Kimberly Arakaki from the State Council on Developmental Disabilities, Department of Health, and one individual.

Ms. Arakaki currently is employed as the Maternal and Child Health Public Health Manager and Branch Chief at the Department of Health in which she provides leadership to assure healthy outcomes for women, children, and families in Hawaii. Your Committee notes that Ms. Arakaki has over thirty years of experience supporting individuals with developmental disabilities as a relief worker, instructor, employment coach, case manager, and training supervisor, and she previously worked as an administrator for the Developmental Disabilities Division of the Department of Health, where she was responsible for case management services statewide for individuals with developmental disabilities. Ms. Arakaki has valuable experience helping to develop state policies and legislation that emphasize self-determination and person centered planning and supports for individuals with developmental disabilities. In her personal statement, Ms. Arakaki indicated that she hopes to encourage individuals to engage in non-paid community supports so that their lifestyles are not impacted significantly should government funding change. Your Committee finds that Ms. Arakaki's experience, breadth of knowledge, and dedication to serving the community will benefit the State Council on Developmental Disabilities.

As affirmed by the records of votes of the members of your Committee on Commerce, Consumer Protection, and Health that are attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominees, has found the nominees to be qualified for the positions to which nominated and recommends that the Senate advise and consent to the nominations.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 2 (Ihara, Kidani).

SCRep. 1327 Ways and Means on H.B. No. 889

The purpose and intent of this measure is to increase from \$250,000 to \$1,000,000 the amount of funds that may remain in the pesticide use revolving fund at the close of each fiscal year.

Your Committee received written comments in support of this measure from the Department of Agriculture, Chamber of Commerce Hawaii, Hawaii Farm Bureau, Land Use Research Foundation of Hawaii, Hawaii Crop Improvement Association, and one individual.

Your Committee received written comments in opposition to this measure from one individual.

Your Committee finds that increasing from \$250,000 to \$1,000,000 the amount of funds that may remain in the pesticide use revolving fund at the close of each fiscal year will increase the ability of the Department of Agriculture to conduct pesticide training and outreach to ensure that pesticides are not misused, assist in the disposal of pesticides and pesticide containers, and supplement environmental studies by performing activities such as groundwater reviews and water sampling.

Your Committee has amended this measure by changing the effective date to July 1, 2050, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 889, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as H.B. No. 889, H.D. 1, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 7. Noes, none. Excused, 4 (English, Galuteria, Harimoto, Taniguchi).

SCRep. 1328 Ways and Means on H.B. No. 110

The purpose and intent of this measure is to appropriate funds for public employment costs and other cost adjustments for employees of the House of Representatives, Senate, and legislative service agencies.

Your Committee received written comments in support of this measure from the Hawaii State Ethics Commission and the Office of the Ombudsman. The Legislative Reference Bureau submitted written comments on the measure.

Your Committee finds that this measure should be allowed to continue through the legislative process so that it may provide a legislative vehicle to appropriate sufficient funds should the Legislature determine prior to the end of the 2017 Regular Session that public employment cost items and cost adjustments are warranted.

Your Committee has amended this measure by making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 110, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as H.B. No. 110, H.D. 1, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, 4 (English, Harimoto, Inouye, Kahele).

SCRep. 1329 Ways and Means on H.B. No. 592

The purpose and intent of this measure is to extend the sunset date of the alternative energy research and development pilot program to June 30, 2019, and to appropriate moneys for the pilot program.

Your Committee received written comments in support of this measure from the High Technology Development Corporation; Makai Ocean Engineering, Inc.; Oceanit Laboratories, Inc.; Chamber of Commerce Hawaii; Navatek; and six individuals.

Your Committee finds that the alternative energy research and development pilot program was established in 2015 to provide grants to qualified businesses conducting alternative energy research and development. The pilot program has proven to be successful, as three companies that were granted moneys through the pilot program went on to receive \$11,300,000 in federal funding for alternative energy projects. Your Committee believes that extending the pilot program will create and sustain high-paying, high-skilled local jobs, and move the State closer toward its one hundred percent renewable energy goals.

Your Committee has amended this measure by making a technical nonsubstantive change to correct a section numbering error.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 592, H.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as H.B. No. 592, H.D. 1, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 10. Noes, none. Excused, 1 (Shimabukuro).

SCRep. 1330 Ways and Means on H.B. No. 1114

The purpose and intent of this measure is to achieve compliance with the federal Occupational Safety and Health Administration (OSHA) requirement that state-level standards and enforcement be at least as effective as OSHA standards and enforcement.

More specifically, this measure:

- (1) Increases the monetary penalties for violations of the Hawaii Occupational Safety and Health Law or any standard or rule adopted thereunder; and
- (2) Requires the Director of Labor and Industrial Relations to:
 - (A) Adjust the penalties each year as required by federal law; and
 - (B) Report to the Legislature annually on the penalty adjustments.

Your Committee received written comments in support of this measure from the Department of Labor and Industrial Relations and the International Longshore and Warehouse Union Local 142.

Written comments in opposition were received from the Hawaii Business League and two individuals.

The General Contractors Association of Hawaii submitted written comments on the measure.

Your Committee finds that compliance with federal OSHA requirements will help to ensure federal funding of the Hawaii Occupational Safety and Health Division, which amounted to \$1,937,700 in fiscal year 2016-2017. Your Committee also finds that monetary penalties for violations of the Hawaii Occupational Safety and Health Law have remained stagnant since the Federal Civil Penalties Inflation Adjustment Act of 1990, which directed agencies to adjust civil monetary penalties for inflation but exempted OSHA. However, under the Federal Civil Penalties Inflation Adjustment Act Improvements Act of 2015, which does apply to OSHA, monetary penalties must be increased, then adjusted annually for inflation. Passage of this measure will bring the State into compliance with this federal mandate.

Your Committee has amended this measure by:

- (1) Clarifying that wilful or repeat violations shall be punishable by a civil penalty of not more than \$124,709 for each violation, with a minimum penalty of \$8,908 for each wilful violation;
- (2) Inserting a savings clause; and
- (3) Correcting a capitalization error.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1114, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as H.B. No. 1114, H.D. 1, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, 4 (English, Harimoto, Inouye, Kahele).

SCRep. 1331 Ways and Means on H.B. No. 168

The purpose and intent of this measure is to honor the legacy of the veterans of the State who have served in recent conflicts in the Persian Gulf, Iraq, Afghanistan, and the various conflicts of the Global War on Terrorism.

Specifically, this measure appropriates funds for the planning and design of a memorial to honor service members of these conflicts, to be located at the Hawaii State Veterans Cemetery in Kaneohe on the Island of Oahu, with replicas of the memorial to be located at state veterans cemeteries statewide.

Your Committee received written comments in support of this measure from the State Foundation on Culture and the Arts and the State Office of Veterans' Services.

Your Committee recognizes the importance of honoring service members from the State who have dutifully served to protect the freedom and liberties of their fellow citizens. Your Committee notes that the task force convened by the Office of Veterans' Services in response to Act 138, Session Laws of Hawaii 2013, recommended that a memorial be dedicated at Hawaii State Veterans Cemetery in Kaneohe, Oahu, to honor service members who served in the Persian Gulf, Iraq, Afghanistan, and the various theaters of the Global War on Terrorism. The task force further recommended that replicas of this memorial be located at state veterans cemeteries statewide. This measure appropriates funds to begin implementing the task force's plan.

Your Committee has amended this measure by changing its effective date to July 1, 2050, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 168, H.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as H.B. No. 168, H.D. 1, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 8. Noes, none. Excused, 3 (English, Harimoto, Taniguchi).

SCRep. 1332 Ways and Means on H.B. No. 533

The purpose and intent of this measure is to provide funding to the State Public Charter School Commission for the acquisition, repair, maintenance, and rental of charter school facilities.

Your Committee received written comments in support of this measure from the State Public Charter School Commission; Office of Hawaiian Affairs; Kamalani Academy; IMUAlliance; The Maritime Group, LLC; Hawaii State Teachers Association; Goodwill Hawaii; Native Hawaiian Education Council; Kua O Ka La Public Charter School; Hawaii Academy of Arts & Science Public Charter School; Hawaii Public Charter Schools Network; Kamehameha Schools; Hawaii Children's Action Network; National Alliance for Public Charter Schools; and over fifty concerned individuals.

Your Committee received written comments on this measure from one concerned individual.

Your Committee has amended this measure by changing the effective date to July 1, 2060.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 533, H.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as H.B. No. 533, H.D. 1, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 5 (English, Harimoto, Inouye, Taniguchi, Wakai).

SCRep. 1333 Ways and Means on H.B. No. 587

The purpose and intent of this measure is to appropriate funds to the Department of Business, Economic Development, and Tourism to provide additional resources for the Small Business Regulatory Review Board.

Your Committee received written comments in support of this measure from the Department of Business, Economic Development, and Tourism; Small Business Regulatory Review Board; Chamber of Commerce Hawaii; Hawaii Farm Bureau; Maui Chamber of Commerce; and one individual.

Your Committee finds that the Small Business Regulatory Review Board plays a critical role by providing small business a voice within government during the rulemaking process. Your Committee further finds that this program supports Hawaii's economy by addressing a range of small business concerns.

Your Committee has amended this measure by changing the effective date to July 1, 2060, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 587, H.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as H.B. No. 587, H.D. 1, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 10. Noes, none. Excused, 1 (Shimabukuro).

SCRep. 1334 Ways and Means on H.B. No. 1246

The purpose and intent of this measure is to authorize the Department of Public Safety to use electronic monitoring and surveillance as a standalone alternative to incarceration.

Your Committee received written comments in support of this measure from Ho'omana Pono, LLC.

Your Committee received written comments in opposition to this measure from the Department of the Prosecuting Attorney of the City and County of Honolulu.

Your Committee received written comments on this measure from the Department of Public Safety and Office of Hawaiian Affairs.

Your Committee finds that authorizing the Department of Public Safety to use electronic monitoring and surveillance of individuals as an alternative to incarceration will provide an additional option to help alleviate prison overcrowding while addressing the need for public safety.

Your Committee has amended this measure by changing the effective date to July 1, 2017.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1246, H.D. 2, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as H.B. No. 1246, H.D. 2, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 7. Noes, none. Excused, 4 (English, Harimoto, Inouye, Kahele).

SCRep. 1335 Ways and Means on H.B. No. 1420

The purpose and intent of this measure is to appropriate funds to the Office of Veterans Services for the provision of burial grants for Filipino-American veterans of World War II.

Your Committee received written comments in support of this measure from the Office of Veterans Services, Hawaii Civil Rights Commission, and two individuals.

Your Committee received written comments on this measure from one individual.

Your Committee finds that assisting Filipino-American veterans of World War II still living in the State with prospective funeral and burial costs, including the cost of returning their remains to the Philippines if they so desire, would demonstrate the State's appreciation and proper respect for their service. Your Committee further finds that burial grants for Filipino-American veterans are statutorily established under Chapter 363, Hawaii Revised Statutes, but that funding for the provision of these grants has been non-existent.

Your Committee has amended this measure by changing the effective date to July 1, 2050, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1420, H.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as H.B. No. 1420, H.D. 1, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 9. Noes, none. Excused, 2 (English, Kahele).

SCRep. 1336 (Joint) Water and Land and Agriculture and Environment and Public Safety, Intergovernmental, and Military Affairs on H.B. No. 1509

The purpose and intent of this measure is to require the State to consider storm water management in the development of the Hawaii Water Resource Protection Plan.

Your Committees received testimony in support of this measure from the Land Use Research Foundation of Hawaii and one individual. Your Committees received comments on this measure from the Department of Land and Natural Resources.

Your Committees find that including storm water management in the Hawaii Water Resource Protection Plan provides an opportunity to meet Hawaii's water needs and prepare for the negative impacts of extreme weather conditions. Your Committees note that storm water capture, reuse, and reclamation contribute to augmenting and conserving Hawaii's fresh water supplies. Your Committees further note that storm water remediation plans will help to mitigate the damaging effects on Hawaii's agricultural operations from storms, flooding, and drought conditions. Your Committees conclude that including storm water management in the Hawaii Water Resource Protection Plan will strengthen and improve the existing plan.

As affirmed by the records of votes of the members of your Committees on Water and Land, Agriculture and Environment, and Public Safety, Intergovernmental, and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 1509, and recommend that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chairs on behalf of the Committees.
Water and Land: Ayes, 4. Noes, none. Excused, 1 (Kim).
Agriculture and Environment: Ayes, 3. Noes, none. Excused, 2 (Riviere, Ruderman).
Public Safety, Intergovernmental, and Military Affairs: Ayes, 3. Noes, none. Excused, 2 (Baker, Ihara).

SCRep. 1337 Ways and Means on H.B. No. 1322

The purpose and intent of this measure is to require the State Procurement Office, in conjunction with the Department of Education, University of Hawaii, Department of Transportation, and the Department of Accounting and General Services, to conduct a comprehensive analysis and review of the Hawaii Public Procurement Code, with particular regard to construction contracting.

Your Committee received testimony in support of this measure from the Department of Education, Department of Transportation, State Procurement Office, University of Hawaii, General Contractors Association of Hawaii, and one individual.

Your Committee received testimony in opposition to this measure from the Subcontractors Association of Hawaii.

Your Committee received comments on this measure from the Department of Accounting and General Services and the American Council of Engineering Companies, Hawaii.

Your Committee finds that the State will benefit from the following: an analysis and review of the Hawaii public procurement code, with particular emphasis on issues and concerns that were raised in the final report of the task force that was established by the Comptroller; state statutes pertaining to the awarding of construction, architectural, and engineering contracts; and a comparison of state statutes with applicable federal procurement laws and regulations.

Your Committee notes that the State Procurement Office has estimated that the cost of the analysis and review will be \$500,000.

Your Committee has amended this measure by clarifying that the task force referenced in the measure was established by the Comptroller pursuant to Senate Concurrent Resolution No. 92, Senate Draft 2, of the Regular Session of 2013.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1322, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1322, H.D. 2, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, 5 (English, Harimoto, Inouye, Taniguchi, Wakai).

SCRep. 1338 Ways and Means on H.B. No. 209

The purpose and intent of this measure is to amend the State’s income tax law.

More specifically, this measure:

- (1) Expands the income tax credit for low-income household renters, based on adjusted gross income and filing status;
- (2) Establishes a state earned income tax credit equal to twenty percent of the federal earned income tax credit authorized under the Internal Revenue Code;
- (3) Restores the income tax rates for high income brackets that were repealed on December 31, 2015; and
- (4) Removes the sunset date for amendments made to the refundable food/excise tax credit by Act 223, Session Laws of Hawaii 2015.

The Hawaii State Commission on the Status of Women; League of Women Voters of Hawaii; Early Childhood Action Strategy; We Are One, Inc.; Community Alliance on Prisons; Young Progressives Demanding Action; PHOCUSED (Protecting Hawaii’s Ohana, Children, Under Served, Elderly and Disabled); Hawaii Appleseed Center for Law and Economic Justice; IMUAlliance; Hawaii Children’s Action Network; Progressive Democrats of Hawaii; Hawaiian Community Assets; HACBED (Hawaii Alliance for Community-Based Economic Development); Parents And Children Together; LGBT Caucus of the Democratic Party of Hawaii; Hawaii State Democratic Women’s Caucus; Graduate Student Organization, University of Hawaii at Manoa; Common Cause Hawaii; YWCA Oahu; Catholic Charities Hawaii; CHOW Project; Americans for Democratic Action Hawaii; Hawaii Alliance for Progressive Action; Hawaii Women’s Coalition; and eighty-seven individuals submitted testimony in support of this measure.

The Department of Taxation; Tax Foundation of Hawaii; Chamber of Commerce Hawaii; and Hawaii Association of REALTORS submitted comments on this measure.

Your Committee finds that Act 223, Session Laws of Hawaii 2015, temporarily increased the amount of the refundable food/excise tax credit. According to the Department of Taxation, making this increase permanent is expected to result in an annual revenue loss to the general fund of \$6,500,000.

Your Committee also finds that establishing a refundable state earned income tax credit, set at ten or twenty percent of the amount of the federal earned income tax credit, is expected to result in the following revenue loss to the general fund:

<u>Fiscal Year</u>	<u>10%</u>	<u>20%</u>
2018	\$24,500,000	\$49,000,000
2019	\$25,100,000	\$50,200,000
2020	\$25,700,000	\$51,500,000
2021	\$26,400,000	\$52,800,000
2022	\$27,000,000	\$54,100,000
2023	\$27,700,000	\$55,500,000

On the other hand, establishing a nonrefundable state earned income tax credit is expected to result in the following revenue loss:

<u>Fiscal Year</u>	<u>10%</u>	<u>20%</u>
2018	\$6,400,000	\$12,700,000
2019	\$8,300,000	\$16,700,000
2020	\$10,200,000	\$20,400,000
2021	\$11,900,000	\$23,800,000
2022	\$13,500,000	\$27,100,000
2023	\$15,000,000	\$30,100,000

Your Committee finds that the state income tax law may be made more progressive by not only reinstating higher income tax rates on high-income taxpayers, but also lowering the rates on the lowest income taxpayers. Your Committee supports such a restructuring of the income tax rates that is revenue neutral.

Your Committee has amended this measure by deleting its contents and inserting the provisions of Senate Bill No. 648, S.D. 1, a similar measure, and making further amendments, which cumulatively have the effect of amending the measure by:

- (1) Deleting the provisions regarding the income tax credit for low-income household renters;
- (2) Changing the amount of the state earned income tax credit to an unspecified percentage of the federal earned income tax credit;
- (3) Reducing income tax rates for lower income brackets and increasing income tax rates for the highest income brackets. Your Committee intends that this restructuring of the rates result in revenue neutrality;
- (4) Clarifying the taxable years to which the new income tax rates established by this measure shall apply;
- (5) Inserting appropriations of \$250,000 for each year of the 2017-2019 fiscal biennium to fund certain Department of Taxation tax preparation assistance outreach programs, as a means of expanding community participation in such programs and reducing tax preparation errors;
- (6) Changing the effective date to July 1, 2050, to promote further discussion on the measure; and
- (7) Making technical nonsubstantive amendments for the purposes of consistency, clarity, and style.

Your Committee notes that the income tax rates that appear in this measure, as amended by your Committee, have been updated from those in S.B. No. 648, S.D. 1, based on the suggestions of the Department of Taxation. The intent of the updated rates is to smooth out the effects of the tax rate changes. Your Committee considers those rates a work in progress that shall be subject to further review as this measure moves through the deliberations of the Conference Committee.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 209, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 209, H.D. 1, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, none. Excused, 3 (English, Harimoto, Taniguchi).

SCRep. 1339 Commerce, Consumer Protection, and Health on H.B. No. 832

The purpose and intent of this measure is to:

- (1) Require association members who are not on a condominium board to be allowed to participate in any deliberation or discussion, including executive sessions with approval by a majority vote of the condominium board members, subject to certain limitations; and
- (2) Allow condominium board members to limit the time provided to any member of the condominium association to participate in deliberations to a reasonable time, pursuant to board rules.

Your Committee received testimony in support of this measure from the Hawaii Council of Associations of Apartment Owners, Associa, Hui 'Oia'i'o, and nine individuals. Your Committee received testimony in opposition to this measure from the Hawai'i State Association of Parliamentarians.

Your Committee finds that condominium owners provide valuable information and input during board meetings for a condominium association. This measure therefore provides members of a condominium association an opportunity to attend and participate in all meetings of the board of directors of their association of apartment owners, including executive sessions with board approval. However, this measure, as written, may affect the ability of boards to conduct board meetings in an efficient manner.

Your Committee notes that unit owners have a right to speak and participate in any deliberation or discussion of a board. However, this participation must be balanced with the board's need to complete its agenda in a timely manner. Enabling a board to establish owner participation rules, and requiring the board to notify owners of such rules, will foster participation while ensuring board meetings can be conducted in an efficient manner. Your Committee further finds that although many boards provide an agenda at board meetings, providing this information in advance, and shortening the time frame under which unapproved final drafts of meetings are made available, will encourage participation and communication between owners and their boards. Amendments to this measure are therefore needed to address these issues.

Your Committee also notes that boards of directors should be responsible for a decision to comply with certain mandatory provisions of the State's condominium laws. An amendment to this measure is therefore necessary to clarify that compliance with specific mandatory provisions of the condominium laws is part of the fiduciary duty a board of directors owes to its association.

Finally, your Committee notes that some concerns have been raised regarding permitting boards to establish rules governing owner participation at board meetings, and whether this could lead to a situation where some owners were considered favored members of an association, to the detriment of other owners. Your Committee appreciates these concerns and believes further discussion on this issue may be warranted as this measure moves through the legislative process.

Your Committee has amended this measure by:

- (1) Clarifying that a violation of specific provisions of the State's condominium law by a condominium board of directors or its officers or members is a violation of the board's fiduciary duty, but providing a safe harbor provision for a board member who votes for compliance or rescinds or withdraws the violating conduct;
- (2) Clarifying that a board is permitted to establish rules for owner participation in any deliberation or discussion at board meetings, other than executive sessions, and specifying that notice must be provided to owners regarding these rules;

- (3) Clarifying that a board, by majority vote, may adjourn a meeting and reconvene in executive session;
- (4) Requiring the notice for board meetings to include a list of items expected to be on the meeting agenda;
- (5) Requiring unapproved final drafts of the minutes of a board meeting to be available within fourteen days after the meeting;
- (6) Removing language that would have permitted a board, by majority vote, to allow members of the association to attend executive sessions to present personal information;
- (7) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (8) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 832, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 832, H.D. 1, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Espero, Ihara, Kidani).

SCRep. 1340 Commerce, Consumer Protection, and Health on H.B. No. 1498

The purpose and intent of this measure is to require a copy of any contract between a condominium association and the general manager or resident manager to be made available to any unit owner, and permits certain personal information to be redacted from the contract copy.

Your Committee received testimony in support of this measure from Hui 'Oia'i'o, Associa, Hawaii Council of Associations of Apartment Owners, and two individuals. Your Committee received comments on this measure from the Regulated Industries Complaints Office of the Department of Commerce and Consumer Affairs and one individual.

Prior to decision making on this measure, your Committee made available for public review a proposed S.D. 1 of this measure. The proposed S.D. 1 retained the contents of this measure and also inserted provisions that:

- (1) Clarify that in cases where the removal or replacement of a director elected by a class of unit owners is authorized, such removal or replacement may be by a majority of only the members of that class;
- (2) Specify that, for an election in a mixed-use condominium project where directors are elected by different classes of owners, an association may cast the vote or votes allocated to any nonresidential unit owned by the association where those eligible to vote in the election are limited to owners of one or more nonresidential units, including the nonresidential unit owned by the association; and
- (3) Clarify the procedures to amend condominium association declarations, bylaws, and other governing instruments that are not of a material adverse nature to condominium owners or do not imperil the viability or stability of the condominium association.

Your Committee received testimony in support of the proposed S.D. 1 from the Hawaii Council of Associations of Apartment Owners, Hui Malama O Hale, and four individuals. Your Committee received testimony in opposition to the proposed S.D. 1 from Hui 'Oia'i'o and thirteen individuals. Your Committee received comments on the proposed S.D. 1 from the Regulated Industries Complaints Office of the Department of Commerce and Consumer Affairs, Hawai'i Association of Parliamentarians, Associa, and three individuals.

Your Committee finds that the proposed S.D. 1 requires copies of contracts between a condominium association and its resident manager or general manager to be disclosed to a unit owner, with the exception of certain personal information. According to testimony received by your Committee, many concerns raised by condominium owners often involve the owners' inability to obtain information from their condominium boards regarding job descriptions, duties, and compensation of general managers, resident managers, and other persons retained as employees to manage the on-site operation of a condominium. The proposed S.D. 1 will therefore eliminate any ambiguity in the existing law regarding whether condominium owners are entitled to access this information.

Your Committee further finds that existing condominium law permits different classes of directors in mixed-use projects. Existing law also provides for the removal of directors by a majority of the unit owners. The proposed S.D. 1 clarifies that the removal or replacement of a director elected by a class of unit owners shall only be by a majority of the members of that class. Your Committee notes that the proposed S.D. 1 does not give a condominium board a weighted vote to remove directors, but simply provides that if a director is elected by a class of unit owners, then the director may be removed or replaced only by a vote of a majority of the common interest represented by that class. Your Committee additionally finds that the proposed S.D. 1 also makes an exception for votes cast for nonresidential units owned by an association to ensure that elections may be held and directors may be elected. This is a very narrow exception and has no effect on directors elected by owners of residential units; rather, this exception simply allows a condominium association, through its board, to cast the vote allocated to a nonresidential unit owned by the association in elections where the only persons eligible to vote are owners of nonresidential units and the association owns one or more of those nonresidential units.

Your Committee also finds that clarification is needed in the existing condominium law regarding who can serve as a board member of a condominium association. Your Committee notes that tenants and owners within a condominium often have different interests. Because tenants are not members of a condominium association, they are not directly subject to the monthly maintenance fees and are not contributing to the upkeep of the property. Furthermore, since tenants are not members of an association, it is not appropriate for tenants to be members of a condominium association board, and thus able to set policy and rules for owners and make decisions regarding how association money is spent. Accordingly, an amendment to the proposed S.D. 1 is needed to address this issue.

Finally, your Committee has heard the testimony expressing concern over language in the proposed S.D. 1 that would change the process for a condominium board to amend its declaration and bylaws. Your Committee notes that a condominium's declarations and bylaws are the core governing documents for a condominium association and the proposed S.D. 1 could potentially enable a rogue condominium board to more easily amend its declarations or bylaws, to the detriment of other members of the association. Amendments to the proposed S.D. 1 to remove this language are therefore needed.

Your Committee has amended this measure by adopting the proposed S.D. 1 and by making further amendments which:

- (1) Clarify that condominium owners are permitted to receive a copy of any contract, written job description, and compensation between a condominium association and any person or entity retained by the association to manage on-site the operation of the property, including but not limited to the general manager, operations manager, resident manager, or site manager, but excluding certain personal information;
- (2) Specify that tenants are prohibited from serving as board members of a condominium association;
- (3) Remove language that would have updated the procedures to amend condominium association declarations, bylaws, and other governing instruments that were not of a material adverse nature to condominium owners or did not imperil the viability or stability of the condominium association; and
- (4) Make technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1498, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1498, H.D. 1, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 3 (Espero, Ihara, Kidani).

SCRep. 1341 Ways and Means on H.B. No. 997

The purpose and intent of this measure is to permanently authorize the Department of Transportation to pursue and enter into concession contracts and other arrangements by negotiation.

Your Committee received written comments in support of this measure from the Department of Transportation Airports Division and the Stadium Authority.

Your Committee finds that Hawaii's airports are often the first and last impression that visitors have of the State. Imparting a positive impression of Hawaii is important for the State's tourism based economy as visitors with a positive impression are more likely to return for future visits and recommend Hawaii to others as a travel destination. Currently, airport concession contracts are awarded to the highest bidder without consideration of the quality or variety of service to be provided. Authorizing the Department of Transportation to enter into and award airport concession contracts through negotiation rather than simply to the highest bidder will result in higher quality services at state airports, which in turn will provide visitors with better first and last impressions of Hawaii.

Your Committee has amended this measure by:

- (1) Repealing and reinstating language that exempts airport operation of concessions from the public bidding process, to ensure that this exemption is not repealed on June 30, 2021, pursuant to section 4 of Act 141, Session Laws of Hawaii 2014; and
- (2) Making a technical nonsubstantive change for the purpose of clarity and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 997, H.D. 2, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as H.B. No. 997, H.D. 2, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 8. Noes, none. Excused, 3 (English, Harimoto, Taniguchi).

SCRep. 1342 Ways and Means on H.B. No. 1152

The purpose and intent of this measure is to authorize the Governor to make supplemental allotments from the project adjustment fund for airport division capital improvement projects that are currently authorized.

Your Committee received written comments in support of this measure from the Department of Transportation.

Your Committee finds that the Supplemental Appropriations Act of 2016 established the project adjustment fund. However, the Act did not establish a corresponding budget proviso to permit the Department of Transportation, Airports Division, to utilize the fund. This measure adds the language necessary to authorize the Governor to make allotments for airport capital improvement projects that require supplemental funding.

Your Committee has amended this measure by clarifying that the project adjustment funds may only be used for Department of Transportation, Airports Division, capital improvement projects.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1152, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as H.B. No. 1152, H.D. 1, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 8. Noes, none. Excused, 3 (English, Harimoto, Taniguchi).

SCRep. 1343 (Joint) Commerce, Consumer Protection, and Health and Judiciary and Labor on H.B. No. 475

The purpose and intent of this measure is to remove the sunset date of Act 39, Session Laws of Hawaii 2015 (Act 39), thereby making permanent the requirements for a public accommodation that owns, leases, leases to, or operates a motion picture theater in more than two locations in the State to provide open movie captioning during at least two showings per week of each motion picture that is produced and offered with open movie captioning and audio descriptions upon request for all motion pictures for which such accommodations are available and provide public notice if such accommodations are not available for certain movies.

Your Committees received testimony in support of this measure from the Department of Business, Economic Development and Tourism; Disability and Communication Access Board; State Council on Developmental Disabilities; Hawai'i Civil Rights Commission; The Georgia E. Morikawa Center; Isle Interpret, LLC; and fourteen individuals.

Your Committees find that Act 39 requires a public accommodation that owns, leases, leases to, or operates a motion picture theater in more than two locations in the State to provide open movie captioning and audio descriptions upon request. Open movie captioning provides a display of text on the movie screen or via another visual display that provides additional or interpretive information of what is being presented.

Your Committees further find that Act 39 was intended to improve accessibility and address the discriminatory effects of communication barriers at movie theaters encountered by individuals who are deaf, hard of hearing, deaf blind, or blind or have low vision. According to testimony received by your Committees, open movie captioning has enabled deaf, hard of hearing, and deaf blind consumers to enjoy movies in a similar manner as those who do not require open movie captioning.

Your Committees additionally finds that Act 39 is scheduled to be repealed on January 1, 2018. This measure removes the sunset date of Act 39, thus making permanent the motion picture accommodation requirements for Hawaii movie theaters. Your Committees note that the accessibility requirements in Act 39 go beyond those specified in the recently-adopted United States Department of Justice final rules for movie theaters, which only provide for closed captioning. Removing the sunset date of Act 39 therefore ensures that Hawaii continues to support full access for persons with disabilities and meaningful accessibility requirements for movie theaters, even after the federal rules have gone into effect.

Your Committees have amended this measure by:

- (1) Clarifying that a public accommodation that owns, leases, leases to, or operates a motion picture theater in the State may provide a personal closed captioning system for a motion picture that is produced and offered with closed captioning content;
- (2) Inserting an effective date of upon approval; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Commerce, Consumer Protection, and Health and Judiciary and Labor that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 475, H.D. 1, S.D. 1, as amended herein, and recommend that it pass Third Reading in the form attached hereto as H.B. No. 475, H.D. 1, S.D. 2.

Signed by the Chairs on behalf of the Committees.

Commerce, Consumer Protection, and Health: Ayes, 4. Noes, none. Excused, 3 (Chang, Ihara, Kidani).

Judiciary and Labor: Ayes, 3. Noes, none. Excused, 2 (Gabbard, Thielen).

SCRep. 1344 Ways and Means on H.B. No. 1006

The purpose and intent of this measure is to appropriate funds to the Hawaii Ant Lab of the Pacific Cooperative Studies Unit of the University of Hawaii to support mitigation of the little fire ant.

More specifically, this measure appropriates funds for:

- (1) Two full-time equivalent (2.0 FTE) operator positions and one full-time equivalent (1.0 FTE) supervisor position;
- (2) A vehicle and operating costs for public outreach and treatment;
- (3) Ant baits;
- (4) Field equipment and personal protective equipment; and
- (5) Computers and printers.

Your Committee received written comments in support of this measure from the Department of Land and Natural Resources; Department of Agriculture; Hawaii Invasive Species Council; Office of the Mayor, County of Hawaii; Little Fire Ant Hui; Hawaii Farm Bureau; Conservation Council for Hawaii; Coordinating Group on Alien Pest Species; Big Island Invasive Species Committee; and one individual.

Your Committee finds that the little fire ant threatens native biodiversity, alters tropical ecosystems, impairs human health, impedes tourism, diminishes agricultural productivity, damages horticulture sales, and accordingly ranks as among the world's worst invasive species.

Your Committee has amended this measure by:

- (1) Adding an appropriation of an unspecified amount for fiscal year 2018-2019; and
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1006, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as H.B. No. 1006, H.D. 1, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 9. Noes, none. Excused, 2 (English, Kahele).

SCRep. 1345 Ways and Means on H.B. No. 1389

The purpose and intent of this measure is to support, maintain, and prepare for the future of Hawaii's cattle industry by appropriating funds for the planning and design of scalable livestock harvest facilities.

Your Committee received written comments in support of this measure from the Hawaii Department of Agriculture, Mayor of the County of Hawaii, Hawaii Farm Bureau, Hawaii Cattlemen's Council, PonoHolo Ranch Limited, Kuahiwi Ranch Natural Beef, Barbed S Ranch LLC and Poamoho Ranch, Kukaiau Ranch LLC and Hawaii Beef Producers LLC, and two concerned individuals.

Your Committee finds that the cattle industry in Hawaii has a long-standing history and has had to adapt its production practices in response to changing market conditions. Recently, a resurgence in the number of cattle that remain in the State for local consumption has created new challenges for many facilities that are not equipped to handle the increased numbers of cattle to be processed. Your Committee finds that these facilities were built for a set throughput of livestock and require major improvements to remain competitive.

Your Committee has amended this measure by changing the effective date to August 1, 2151, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1389, H.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as H.B. No. 1389, H.D. 1, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 9. Noes, none. Excused, 2 (English, Kahele).

SCRep. 1346 Ways and Means on H.B. No. 1230

The purpose and intent of this measure is to support the State's coffee industry, and diversified agriculture in general, by authorizing the issuance of special purpose revenue bonds to assist MauiGrown Coffee, Inc., with the expansion of its operations.

Your Committee received written comments in support of this measure from the Department of Agriculture; Hawaii Farm Bureau; Hawaii Coffee Association; Alexander and Baldwin, Inc.; Go Maui, Inc.; Mill House Roasting Co.; MauiGrown Coffee, Inc.; Hawaii Coffee Company; Maui Coffee Roasters; ILWU Local 142; and seven concerned individuals.

Your Committee received written comments in opposition to this measure from one concerned individual.

Your Committee received written comments on this measure from the Department of Budget and Finance.

Your Committee finds that the proceeds of the sale of special purpose revenue bonds will be used to assist MauiGrown Coffee, Inc., in expanding the operation of its coffee farm and mill in Puukolii, Maui. Your Committee further finds that the issuance of these special purpose revenue bonds is in the public interest and will benefit the public health, safety, and general welfare.

Your Committee has amended this measure by changing the date regarding the Department of Budget and Finance's authority to issue refunding special purpose revenue bonds to include times after June 30, 2022.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1230, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as H.B. No. 1230, H.D. 1, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 7. Noes, none. Excused, 4 (English, Galuteria, Harimoto, Taniguchi).

SCRep. 1347 Ways and Means on H.B. No. 909

The purpose and intent of this measure is to establish the Center for Commercialization at the University of Hawaii.

Specifically, this measure:

- (1) Establishes the Center for Commercialization to make commercial use of the intellectual property generated by the University of Hawaii;
- (2) Requires the Director of the Center for Commercialization to submit annual reports to the Legislature prior to the regular sessions from 2018 to 2021; and
- (3) Appropriates funds to establish and implement the Center for Commercialization at the University of Hawaii.

Your Committee received written comments in support of this measure from the University of Hawaii, Hawaii Business Roundtable, Hawaii Venture Capital Association, The Chamber of Commerce Hawaii, XLR8UH, Sultan Ventures, and two individuals.

Your Committee finds that over the next decade, the University of Hawaii intends to aggressively commercialize the intellectual property generated by its research. Your Committee further finds that a Center for Commercialization will help achieve the University's commercialization goals by providing leadership in the development of new strategic initiatives and efficiencies for commercialization projects.

Your Committee has amended this measure by making a technical nonsubstantive amendment for purposes of style and consistency.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 909, H.D. 2, as amended herein, and recommends that it pass Third Reading in the form attached hereto as H.B. No. 909, H.D. 2, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, 5 (English, Harimoto, Inouye, Taniguchi, Wakai).

SCRep. 1348 Ways and Means on H.B. No. 1325

The purpose and intent of this measure is to support implementation of the State's biosecurity plan.

More specifically, this measure:

- (1) Requires the Department of Agriculture to establish parameters and construction requirements for biosecurity facilities to ensure the safety of agricultural and food commodities arriving at the State's airports and harbors; and
- (2) Appropriates funds for the Department of Agriculture Biosecurity Program.

Your Committee received written comments in support of this measure from the Department of Land and Natural Resources, Hawaii Invasive Species Council, Local Food Coalition, Friends of Representative Clift Tsuji, Hawaii Floriculture and Nursery Association, Hawai'i Green Growth, Land Use Research Foundation of Hawaii, Hawaii Farm Bureau, Hawaii Crop Improvement Association, and fifteen individuals.

Your Committee received written comments on this measure from the Department of Agriculture.

Your Committee finds that this measure provides broad support for the 2017-2027 Hawaii Interagency Biosecurity Plan for the State of Hawaii (Biosecurity Plan), released in January 2017 by the Department of Agriculture and the Department of Land and Natural Resources. Your Committee further finds that this measure will help address several recommended action items of the Biosecurity Plan, including:

- (1) Item number 34, requiring the adoption of an annual import substitution program for substitute crops by Hawaii farmers to reduce the importation of plant crops that impose a high risk of bringing invasive species into the State; and
- (2) Item number 47, requiring the Department of Agriculture to adopt standards, specifications, and protocols for operation of import facilities to reduce the risk of introduction of invasive species.

Your Committee believes that these steps are necessary to prevent invasive species from entering the State and damaging Hawaii's fragile island ecosystem.

Your Committee has amended this measure by changing the effective date to July 1, 2050, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1325, H.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as H.B. No. 1325, H.D. 1, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, 5 (English, Galuteria, Harimoto, Kahele, Taniguchi).

SCRep. 1349 Ways and Means on H.B. No. 186

The purpose and intent of this measure is to support ongoing efforts to control the coffee berry borer infestation in Hawaii's coffee crops.

More specifically, this measure appropriates funds for, and extends by two years the sunset date of, the pesticide subsidy program established under Act 105, Session Laws of Hawaii 2014.

Your Committee received written comments in support of this measure from the Department of Agriculture; Hawaii Invasive Species Council; Office of the Mayor, County of Hawaii; Hawaii Coffee Company, Mr. Bean Kona Coffee; Hawaii Coffee Association; Hawaii Farm Bureau; ILWU Local 142; and eleven individuals.

Your Committee received written comments in opposition to this measure from one individual.

Your Committee finds that Act 105, Session Laws of Hawaii 2014, appropriated funds for the development and implementation of a pesticide subsidy program to assist coffee growers with offsetting the cost of purchasing pesticides containing *Beauveria bassiana*. Your Committee notes that it took longer than anticipated for Act 105 to be implemented, and thus the assistance only became available from the State at the end of 2016, more than two years later than anticipated. Your Committee finds that it is necessary to extend the sunset date of the pesticide subsidy program for two years to ensure the program remains available to assist coffee growers, and can remain in effect for the number of years that was intended by Act 105.

Your Committee has amended this measure to accurately reflect the existing punctuation in the printed version of Act 105, Session Laws of Hawaii 2014.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 186, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as H.B. No. 186, H.D. 1, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, 4 (English, Galuteria, Harimoto, Taniguchi).

SCRep. 1350 Ways and Means on H.B. No. 936

The purpose and intent of this measure is to ensure a fair allocation of funds between public schools established and maintained by the Department of Education and public charter schools.

Specifically, the measure:

- (1) Prohibits payment of teacher incentive bonuses from a public charter school's facilities funding or per-pupil funds, and requires that beginning with fiscal year 2018-2019, these bonuses be separate line items in the executive budget; and
- (2) Appropriates funds to the State Public Charter School Commission for fiscal year 2017-2018 to pay for teacher incentive bonuses.

Your Committee received written comments in support of this measure from the State Public Charter School Commission, Hawaii Teacher Standards Board, Office of Hawaiian Affairs, Hawaii Public Charter School Network, Hawaii State Teachers Association, and Kamehameha Schools.

The Department of Budget and Finance submitted written comments on the measure.

Your Committee finds that public charter schools pay teacher incentive bonuses from the schools' per-pupil funds, whereas public schools established and maintained by the Department of Education use a designated fund for this purpose.

Your Committee has amended this measure by changing the effective date to July 1, 2050, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 936, as amended herein, and recommends that it pass Third Reading in the form attached hereto as H.B. No. 936, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, 5 (English, Harimoto, Inouye, Taniguchi, Wakai).

SCRep. 1351 Ways and Means on H.B. No. 880

The purpose and intent of this measure is to establish a mark licensing agreement program within the Department of Education that allows the Department and individual department schools to engage in commercial enterprises that provide financial resources for educational activities, provided that the enterprises support the primary educational mission of the school and Department.

Your Committee received written comments in support of this measure from the Department of Education.

Your Committee finds that a mark licensing agreement program that allows the licensing of Department of Education and department school marks may provide funding opportunities, such as sponsorships, that exist outside the realm of educational funding to schools. Your Committee notes, however, that if this measure is considered during Conference, it should be clarified whether it is intended that a sponsored performance authorized under the program must be simultaneously "private, cultural, *and* athletic" in nature, or need only be "private, cultural, *or* athletic" in nature.

Your Committee has amended this measure by deleting as unnecessary the word "service" from the title of the proposed new part to chapter 302A, Hawaii Revised Statutes.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 880, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as H.B. No. 880, H.D. 1, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, 5 (English, Harimoto, Inouye, Taniguchi, Wakai).

SCRep. 1352 Ways and Means on H.B. No. 492

The purpose and intent of this measure is to appropriate general funds for a personnel specialist and an educational specialist II position within the Hawaii Teacher Standards Board.

Your Committee received written comments in support of this measure from the University of Hawaii, Hawaii Teacher Standards Board, State Public Charter School Commission, Hawaii State Teachers Association, and five individuals.

Your Committee has amended this measure by:

- (1) Changing the amount appropriated from an unspecified amount to \$183,818; and
- (2) Changing the effective date to July 1, 2060, to facilitate further discussion.

Your Committee notes that funding for these two specialist II positions has also been included in the Senate's draft of the executive budget bill, House Bill No. 100, House Draft 1, Senate Draft 1, the General Appropriations Act.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 492, H.D. 2, as amended herein, and recommends that it pass Third Reading in the form attached hereto as H.B. No. 492, H.D. 2, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, 5 (English, Harimoto, Inouye, Taniguchi, Wakai).

SCRep. 1353 Ways and Means on H.B. No. 1469

The purpose and intent of this measure is to promote the redevelopment of districts that have been identified as being in need of revitalization.

Specifically, this measure:

- (1) Requires the Legislature to designate redevelopment districts in certain land classifications;
- (2) Requires the establishment of a planning committee for each designated redevelopment district;
- (3) Requires the planning committee to prepare a redevelopment plan for the designated district;
- (4) Establishes a process to create a separate revolving fund for each redevelopment district;
- (5) Appropriates an unspecified sum for the purposes of redevelopment districts; and
- (6) Establishes the Waiakea peninsula redevelopment district, planning committee, and revolving fund, to be repealed on June 30, 2027.

Your Committee received testimony in support of this measure from the Office of the Mayor of the County of Hawaii, HPM Building Supply, Kanoiehua Industrial Area Association, OceanFront 121 Residential Hotel, Hilo Health Cooperative, The Chamber of Commerce Hawaii, Takamine Construction, Inc., BIA-Hawaii, and two individuals.

Your Committee received testimony in opposition to this measure from UNITE HERE, Local 5; Common Cause Hawaii; League of Women Voters of Hawaii; The Outdoor Circle; and nine individuals.

Your Committee received comments on this measure from the Department of Budget and Finance, the Department of Land and Natural Resources, the Department of the Attorney General, the County of Hawaii Planning Department, and one individual.

Your Committee finds that in leases of state lands with a fixed termination date, lessees have little incentive to invest in the property over the last ten to fifteen years of the lease. This results in deteriorating conditions of many properties. Your Committee further finds that designation of redevelopment districts, along with a process to address the needs for investment, will help to revitalize areas by encouraging investment in state-leased properties throughout the term of each lease.

Your Committee has amended this measure by making technical nonsubstantive amendments for purposes of style, clarity, and consistency.

Your Committee notes the following legal concerns identified in the testimony of the Department of the Attorney General:

- (1) The Board of Land and Natural Resources may not delegate authority to a planning committee pursuant to section 171-E(8), Hawaii Revised Statutes, in light of the limitations of section 26-35(a), Hawaii Revised Statutes;
- (2) The authority given to a planning committee to renew or renegotiate leases may be inconsistent with the establishment of the planning committee as a policy-making committee; and
- (3) The planning committee would have no authority to amend the terms of a lease, despite the language in the measure, without a provision in the measure transferring leases to the planning committee.

Your Committee respectfully requests that if this measure goes to Conference, these issues be considered by the Conference Committee.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1469, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as H.B. No. 1469, H.D. 1, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 10. Noes, none. Excused, 1 (Shimabukuro).

SCRep. 1354 Ways and Means on H.B. No. 90

The purpose and intent of this measure is to preserve access to healthcare for Medicaid recipients and help ensure the stability of the State's long-term care facilities.

Specifically, this measure:

- (1) Extends the nursing facility sustainability program for two years; and
- (2) Appropriates funds out of the nursing facility sustainability program special fund for fiscal years 2017-2018 and 2018-2019.

Your Committee received written comments in support of this measure from the Department of Human Services, Hawaii Health Systems Corporation, Healthcare Association of Hawaii, Chamber of Commerce Hawaii, The Queen's Health Systems, and Hawaii Pacific Health.

Your Committee finds that the State's nursing facilities face major financial challenges in providing quality long-term care for residents of the State, in part because Medicaid payments to nursing facilities are below the actual costs of care. As a result, the Legislature created the nursing facility sustainability program to increase Medicaid payments to nursing facilities. The additional federal funds obtained through this program have helped to reduce the amount of losses incurred by long-term care facilities and maintain access to care for Medicaid recipients. Because the majority of residents in Hawaii's nursing facilities are Medicaid enrollees, your Committee finds that the nursing facility sustainability program helps to ensure that these patients have access to quality care.

Your Committee has amended this measure by:

- (1) Appropriating \$14,000,000 annually out of the nursing facility sustainability program special fund for fiscal years 2017-2018 and 2018-2019;
- (2) Changing the effective date to:
 - (A) July 1, 2017, for section 7 of the measure; and
 - (B) June 29, 2017, for the remainder of the measure; and
- (3) Making a technical, nonsubstantive amendment for the purpose of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 90, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as H.B. No. 90, H.D. 1, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 7. Noes, none. Excused, 4 (English, Harimoto, Inouye, Kahele).

SCRep. 1355 (Joint) Commerce, Consumer Protection, and Health and Ways and Means on H.B. No. 1079

The purpose and intent of this measure is to establish a framework for provisionally authorizing post-secondary degree-granting educational institutions that have applied for accreditation by an accrediting agency recognized by the United States Department of Education.

Your Committees received testimony in support of this measure from the Department of Commerce and Consumer Affairs.

Your Committees find that students will benefit if the Department of Commerce and Consumer Affairs oversees accreditation-seeking institutions and ensures that the institutions make acceptable progress toward accreditation. Your Committees further find that many states across the country already issue some type of temporary authorization or approval to institutions that are in the process of applying for accreditation. Your Committees find that it is also beneficial to allow the Director of Commerce and Consumer Affairs to grant temporary waivers of the accreditation requirement when necessary for good cause and the protection of students facing imminent financial hardship.

As affirmed by the records of votes of the members of your Committees on Commerce, Consumer Protection, and Health and Ways and Means that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 1079, H.D. 2, and recommend that it pass Third Reading.

Signed by the Chairs on behalf of the Committees.
Commerce, Consumer Protection, and Health: Ayes, 6. Noes, none. Excused, 1 (Ihara).
Ways and Means: Ayes, 9. Noes, none. Excused, 2 (English, Kahele).

SCRep. 1356 (Joint) Commerce, Consumer Protection, and Health and Ways and Means on H.B. No. 1435

The purpose and intent of this measure is to clarify that the comprehensive loss reduction plan of the Hawaii Hurricane Relief Fund shall include:

- (1) Development and implementation of building code hurricane standards for new residential and commercial structures;
- (2) Development and implementation of hurricane standards for existing residential and commercial structures; and
- (3) Funding to support the adoption of administrative rules to implement hurricane-related building code and design standards.

Your Committees received testimony in support of this measure from the Board of Directors of the Hawaii Hurricane Relief Fund, Hawaii Emergency Management Agency, City and County of Honolulu Department of Emergency Management, Structural Engineers Association of Hawaii, and American Council of Engineering Companies of Hawaii.

Your Committees find that the State Building Code Council was created in 2007. A major responsibility of the State Building Code Council is to establish residential and hurricane resistant standards that are related to the loss mitigation standards required to be developed by the Hawaii Hurricane Relief Fund. However, staff and operating expenses for the State Building Code Council have never been funded, and as a result, the State is currently three iterations behind in updating and adopting the International Building Code, which is updated every three years. When the International Building Code is updated, it incorporates the latest knowledge gained from researchers and engineers around the world who observe the way buildings and structures have failed during actual disaster events, such as hurricanes.

Your Committees additionally find that updated state building codes are critical to save lives, protect infrastructure, and expedite recovery for future disasters. Furthermore, an outdated State Building Code adversely affects the timely receipt of federal disaster aid by the State, since such aid requires the application of the most recent edition of the model building codes. This measure therefore establishes a recurring, systemic process, using the Hawaii Hurricane Relief Fund, to update the hurricane-related standards of the State Building Code through the administrative rules process. Your Committees note that this process will help mitigate future hurricane losses, while also preserving the sustainability of the Hawaii Hurricane Relief Fund and, in turn, the housing and commercial real estate markets in the State.

As affirmed by the records of votes of the members of your Committees on Commerce, Consumer Protection, and Health and Ways and Means that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 1435, H.D. 2, S.D. 1, and recommend that it pass Third Reading.

Signed by the Chairs on behalf of the Committees.

Commerce, Consumer Protection, and Health: Ayes, 6. Noes, none. Excused, 1 (Ihara).
Ways and Means: Ayes, 9. Noes, none. Excused, 2 (English, Kahele).

SCRep. 1357 (Joint) Commerce, Consumer Protection, and Health and Ways and Means on H.B. No. 605

The purpose and intent of this measure is to mitigate the impacts of sewage and wastewater discharge into groundwater sources by prohibiting the installation or use of household aerobic units that discharge directly to groundwater unless approved by the Director of Health.

Your Committees received testimony in support of this measure from the Department of Health and Office of Hawaiian Affairs.

Your Committees find that improved wastewater treatment is one of the most effective ways to reduce nitrogen pollution in surface water. Existing law requires household aerobic units to meet NSF/ANSI Standard 40 certification, which does not address nitrogen reduction in the treated effluent. Your Committees note that excess nitrogen can result in ecological imbalances that threaten aquatic environments and negative health impacts to humans and animals that consume nitrogen-contaminated water.

Your Committees further find that NSF/ANSI Standard 245 includes performance measures that reduce the amount of nitrogen discharged into surface waters by at least fifty percent in some watersheds. Your Committees recognize that requiring household aerobic units to meet NSF/ANSI Standard 245 certification could help meet the growing demand for nutrient reduction in coastal areas and sensitive environments.

As affirmed by the records of votes of the members of your Committees on Commerce, Consumer Protection, and Health and Ways and Means that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 605, H.D. 1, S.D. 1, and recommend that it pass Third Reading.

Signed by the Chairs on behalf of the Committees.

Commerce, Consumer Protection, and Health: Ayes, 5. Noes, none. Excused, 2 (Ihara, Kidani).
Ways and Means: Ayes, 8. Noes, none. Excused, 3 (English, Kahele, Wakai).

SCRep. 1358 Commerce, Consumer Protection, and Health on Gov. Msg. No. 571

Recommending that the Senate advise and consent to the nomination of the following:

BOARD OF NATUROPATHIC MEDICINE

G.M. No. 571 DAVID KERN, for a term to expire 06-30-2020

Your Committee has reviewed the personal history, resume, and statement submitted by the nominee and finds David Kern to possess the requisite qualifications to be nominated to the Board of Naturopathic Medicine.

Your Committee received testimony in support of the nomination of David Kern from the Department of Commerce and Consumer Affairs and one individual.

Upon review of the testimony, your Committee finds that Dr. Kern's background, knowledge, and prior experience on the Board of Naturopathic Medicine qualify him to be nominated for appointment to the Board of Naturopathic Medicine as a licensee member. Your Committee notes that Dr. Kern has been licensed in Hawaii since 1985 and is the founder and Medical Director of Grace Health Clinic, Inc., on Maui. Dr. Kern was also the first naturopathic physician in Hawaii admitted to the medical staff of a state hospital, Maui Memorial Medical Center, and was the first doctor of alternative medicine to be awarded the Keola Award by the Maui Memorial Medical Center Foundation, for his contributions to health care in the Maui community. Your Committee further finds that Dr. Kern previously served on the Board of Naturopathic Medicine from 2006 through 2014 and has served as a current interim appointee since October 1, 2016, where his years of experience continue to enhance the effectiveness of the Board. Your Committee therefore recommends that Dr. Kern be nominated for appointment to the Board of Naturopathic Medicine based on his knowledge, experience, and dedication to public service.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Espero, Ihara, Ruderman).

SCRep. 1359 Commerce, Consumer Protection, and Health on Gov. Msg. No. 572

Recommending that the Senate advise and consent to the nomination of the following:

BOARD OF PHARMACY

G.M. No. 572 KERRI OKAMURA, for a term to expire 06-30-2020

Your Committee has reviewed the personal history, resume, and statement submitted by the nominee and finds Kerri Okamura to possess the requisite qualifications to be nominated for reappointment to the Board of Pharmacy.

Your Committee received testimony in support of the nomination for the reappointment of Kerri Okamura from the Department of Commerce and Consumer Affairs and three individuals.

Upon review of the testimony, your Committee finds that Ms. Okamura's background, experience, and proven leadership on the Board of Pharmacy qualify her to be nominated for reappointment to the Board of Pharmacy as a licensee member representing Hawaii County. Your Committee notes that Ms. Okamura has been a licensed registered pharmacist in Hawaii since 1995 and is the Director

of Pharmacy Operations and Privacy Officer for KTA Super Stores. Ms. Okamura is also an active member of the Hawaii Pharmacists Association and serves as a Preceptor/Affiliate Faculty and on the Dean's Advisory Council for the University of Hawai'i at Hilo, Daniel K. Inouye College of Pharmacy. Your Committee further finds that Ms. Okamura previously served on the Board of Pharmacy from 2013 until June 2016, has served as an interim appointee since July 2016, currently serves as the Board's chair, and represents the Board as an item writer for the North American Pharmacist Licensure Examination and Hawaii's Multistate Jurisprudence Examination. Your Committee therefore recommends that Ms. Okamura be reappointed to the Board of Pharmacy based on her knowledge, background, and commitment to serving the community.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 3 (Espero, Ihara, Ruderman).

SCRep. 1360 Commerce, Consumer Protection, and Health on Gov. Msg. No. 573

Recommending that the Senate advise and consent to the nomination of the following:

BOARD OF PRIVATE DETECTIVES AND GUARDS

G.M. No. 573 TIVOLI FAAUMU, for a term to expire 06-30-2020

Your Committee has reviewed the personal history, resume, and statement submitted by the nominee and finds Tivoli Faaumtu to possess the requisite qualifications to be nominated to the Board of Private Detectives and Guards.

Your Committee received testimony in support of the nomination of Tivoli Faaumtu from the Department of Commerce and Consumer Affairs and three individuals.

Upon review of the testimony, your Committee finds that Police Chief Faaumtu's background and extensive experience qualify him to be nominated for appointment to the Board of Private Detectives and Guards as a chief of police member. Your Committee notes that Police Chief Faaumtu has been with the Maui Police Department for over thirty years, is the Department's current Chief of Police, and is an active, dedicated, and well-respected member of the State's law enforcement community. Police Chief Faaumtu is also a retired veteran of the United States Army Reserve and is active in his community on Maui, including serving as a board member for the Boys & Girls Clubs of Maui and the County of Maui Red Cross Advisory Board. Your Committee further finds that Police Chief Faaumtu has served as an interim member of the Board of Private Detectives and Guards since December 2016 and has a thorough understanding of the role and responsibilities of board members and therefore recommends that Police Chief Faaumtu be appointed to the Board of Private Detectives and Guards based on his knowledge, experience, and dedication to protecting and serving the public.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 3 (Espero, Ihara, Ruderman).

SCRep. 1361 Commerce, Consumer Protection, and Health on Gov. Msg. No. 574

Recommending that the Senate advise and consent to the nomination of the following:

BOARD OF PSYCHOLOGY

G.M. No. 574 JILL OLIVEIRA GRAY, for a term to expire 06-30-2019

Your Committee has reviewed the personal history, resume, and statement submitted by the nominee and finds Jill Oliveira Gray to possess the requisite qualifications to be nominated to the Board of Psychology.

Your Committee received testimony in support of the nomination of Jill Oliveira Gray from the Department of Commerce and Consumer Affairs and two individuals.

Upon review of the testimony, your Committee finds that Dr. Oliveira Gray's background, experience, and dedication to community service qualify her to be nominated for appointment to the Board of Psychology as a psychologist member. Your Committee notes that Dr. Oliveira Gray has been a licensed clinical psychologist for over fifteen years and is currently the Director of Training for I Ola Lāhui, Inc., Rural Hawai'i Behavioral Health Program. Dr. Oliveira Gray is also active in her professional organizations and her community and has held various leadership positions with the Hawai'i Psychological Association, American Psychological Association, and Alu Like, Inc., a Native Hawaiian community organization. Your Committee further finds that Dr. Oliveira Gray has a thorough understanding of the role and responsibilities of board members by virtue of her prior experience serving as a public member on the Board of Pharmacy and her years of experience working with medically underserved residents in urban and rural areas of Hawaii will be valuable assets to the Board of Psychology. Your Committee therefore recommends that Dr. Oliveira Gray be appointed to the Board of Psychology based on her knowledge, background, and commitment to serving the public.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 3 (Espero, Ihara, Ruderman).

SCRep. 1362 Commerce, Consumer Protection, and Health on Gov. Msg. No. 575

Recommending that the Senate advise and consent to the nomination of the following:

BOARD OF SPEECH PATHOLOGY AND AUDIOLOGY

G.M. No. 575 JULIE YATOGO, for a term to expire 06-30-2018

Your Committee has reviewed the personal history, resume, and statement submitted by the nominee and finds Julie Yatogo to possess the requisite qualifications to be nominated to the Board of Speech Pathology and Audiology.

Your Committee received testimony in support of the nomination of Julie Yatogo from the Department of Commerce and Consumer Affairs.

Upon review of the testimony, your Committee finds that Ms. Yatogo's background, experience, and commitment to public service qualify her for consideration for appointment to the Board of Speech Pathology and Audiology as a speech pathologist member. Your Committee notes that Ms. Yatogo has been a licensed speech pathologist in Hawaii for over thirty years and has worked in a variety of practice settings, including with the Department of Education, Head Start, Zero to Three programs, and in hospital, outpatient, and home health settings. Ms. Yatogo is currently a speech pathologist with the Easter Seals Hawaii Kauai Service Center and is an active member of her professional organization, the Hawaii Speech-Language-Hearing Association, where she has served on the board in various positions for over twenty-five years. Your Committee further finds that Ms. Yatogo has been an interim appointee to the Board of Speech Pathology and Audiology since October 2016 and has a thorough understanding of the role and responsibilities of board members. Your Committee therefore recommends that Ms. Yatogo be appointed to the Board of Speech Pathology and Audiology based on her knowledge, experience, and dedication to public service.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 3 (Espero, Ihara, Ruderman).

SCRep. 1363 Commerce, Consumer Protection, and Health on Gov. Msg. No. 576

Recommending that the Senate advise and consent to the nomination of the following:

BOARD OF DIRECTORS OF THE HURRICANE RELIEF FUND

G.M. No. 576 SCOT STERENBERG, for a term to expire 06-30-2019

Your Committee has reviewed the personal history, resume, and statement submitted by the nominee and finds Scot Sterenberg to possess the requisite qualifications to be nominated to the Board of Directors of the Hurricane Relief Fund.

Your Committee received testimony in support of the nomination of Scot Sterenberg from the Department of Commerce and Consumer Affairs.

Upon review of the testimony, your Committee finds that Mr. Sterenberg's background, experience, and commitment to public service qualify him to be nominated for appointment to the Board of Directors of the Hawaii Hurricane Relief Fund. Your Committee notes that Mr. Sterenberg has worked in the financial services and risk consultancy industry for the last twenty-five years and currently serves as Head of Office for the Hawaii office of Marsh Management Services, a company that provides risk analysis and related services, including captive insurance planning, to various clients. Mr. Sterenberg is also active in his community and serves on the board of a non-profit federally qualified health care facility that provides affordable, quality health care to underserved residents in the State. Your Committee further finds that Mr. Sterenberg currently serves as an interim appointee to the Board and has a thorough understanding of the role and responsibilities of board members and therefore recommends that Mr. Sterenberg be appointed to the Board of Directors of the Hawaii Hurricane Relief Fund based on his extensive experience, knowledge, and commitment to reducing the risk of catastrophic damage from future hurricanes.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 3 (Espero, Ihara, Ruderman).

SCRep. 1364 Commerce, Consumer Protection, and Health on Gov. Msg. No. 577

Recommending that the Senate advise and consent to the nomination of the following:

PEST CONTROL BOARD

G.M. No. 577 JULIAN YATES III, for a term to expire 06-30-2019

Your Committee has reviewed the personal history, resume, and statement submitted by the nominee and finds Julian Yates III to possess the requisite qualifications to be nominated to the Pest Control Board.

Your Committee received testimony in support of the nomination of Julian Yates III from the Department of Commerce and Consumer Affairs, Hawaii Pest Control Association, and two individuals.

Upon review of the testimony, your Committee finds that Dr. Yates' knowledge, background, and experience qualify him to be nominated for appointment to the Pest Control Board as a public member. Your Committee notes that Dr. Yates is an entomologist who served as an Extension Specialist in Urban Entomology at the University of Hawai'i, College of Tropical Agriculture and Human Resources, Department of Plant and Environmental Protection Sciences. In that role, Dr. Yates served as an ex-officio member of the Pest Control Board for twenty-three years, until his retirement in 2016. Dr. Yates has an extensive background in termite research and education, particularly in the area of subterranean termites, and has conducted hundreds of training classes and seminars for the structural pest control industry and for the public at large. Your Committee further finds that Dr. Yates has been an interim member of the Pest Control Board since July 2016 and his contributions of insight and knowledge during his many years as an active and contributing ex-officio board member have been invaluable to the Board. Your Committee therefore recommends that Dr. Yates be considered for appointment to the Pest Control Board based on his background, knowledge, and commitment to public service.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Espero, Ihara, Ruderman).

SCRep. 1365 Commerce, Consumer Protection, and Health on Gov. Msg. No. 578

Recommending that the Senate advise and consent to the nomination of the following:

REAL ESTATE COMMISSION

G.M. No. 578 SEAN GINOZA, for a term to expire 06-30-2018

Your Committee has reviewed the personal history, resume, and statement submitted by the nominee and finds Sean Ginoza to possess the requisite qualifications to be nominated to the Real Estate Commission.

Your Committee received testimony in support of the nomination of Scott Ginoza from the Real Estate Commission.

Upon review of the testimony, your Committee finds that Mr. Ginoza's background, experience, and commitment to public service qualify him to be nominated for appointment to the Real Estate Commission as a real estate broker member representing Hawaii County. Your Committee notes that Mr. Ginoza is a real estate broker with over ten years in the real estate industry and is currently a Property Manager and Vice President with Ginoza Realty, Inc., in Hilo, Hawaii. Mr. Ginoza is also a member of the Hawaii Island Association of REALTORS and is a member of the Hawaii Island Chamber of Commerce and the Japanese Chamber of Commerce. Your Committee further finds that Mr. Ginoza has been an interim member of the Real Estate Commission since November 2016 and has a thorough understanding of the role and responsibilities of board members. Your Committee therefore recommends that Mr. Ginoza be appointed to the Real Estate Commission based on his knowledge, experience, and dedication to serving the community.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Espero, Ihara, Ruderman).

SCRep. 1366 Commerce, Consumer Protection, and Health on Gov. Msg. No. 579

Recommending that the Senate advise and consent to the nomination of the following:

STATE BOARD OF BARBERING AND COSMETOLOGY

G.M. No. 579 MARGARET WILLIAMS, for a term to expire 06-30-2020

Your Committee has reviewed the personal history, resume, and statement submitted by the nominee and finds Margaret Williams to possess the requisite qualifications to be nominated to the State Board of Barbering and Cosmetology.

Your Committee received testimony in support of the nomination of Margaret Williams from the Department of Commerce and Consumer Affairs and one individual.

Upon review of the testimony, your Committee finds Ms. Williams' knowledge, background, and extensive industry experience qualify her to be nominated for appointment to the State Board of Barbering and Cosmetology as a barber member. Your Committee notes that Ms. Williams has been a licensed barber for over forty years and is a member of a family that has been deeply involved in the beauty and barbering industry in the State for more than sixty years. Ms. Williams is the President of the Hawaii Institute of Hair Design, an accredited hairstyling school that was first incorporated in Hawaii in 1956 as Honolulu Barber School, Ltd. In addition to her current administrative duties, Ms. Williams continues to teach new barbering students and practice her barbering skills. Your Committee further finds that Ms. Williams has served as an interim member of the State Board of Barbering and Cosmetology since October 2016 and her wealth of experience in the beauty and barbering industry continues to enhance the effectiveness of the Board. Your Committee therefore recommends that Ms. Williams be appointed to the State Board of Barbering and Cosmetology based on her experience, background, and commitment to public service.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 3 (Espero, Ihara, Ruderman).

SCRep. 1367 Commerce, Consumer Protection, and Health on Gov. Msg. No. 580

Recommending that the Senate advise and consent to the nomination of the following:

STATE BOARD OF MASSAGE THERAPY

G.M. No. 580 SAMANTHA MEEHAN-VANDIKE, for a term to expire 06-30-2018

Your Committee has reviewed the personal history, resume, and statement submitted by the nominee and finds Samantha Meehan-Vandike to possess the requisite qualifications to be nominated to the State Board of Massage Therapy.

Your Committee received testimony in support of the nomination of Samantha Meehan-Vandike from the Department of Commerce and Consumer Affairs and two individuals.

Upon review of the testimony, your Committee finds that Ms. Meehan-Vandike's knowledge, background, and commitment to public service qualify her to be nominated for appointment to the State Board of Massage Therapy as a licensee member. Your Committee notes that Ms. Meehan-Vandike has been licensed as a massage therapist in Hawaii since 2010 and has worked in a variety of practice settings within the physical therapy and massage therapy industries in Hawaii and the United Kingdom, including in small physical therapy clinics, at a large resort spa, as an independent contractor, and as an instructor. Ms. Meehan-Vandike also remains active in her profession and is the Administration Director for the Hawaii Spa Association. Your Committee further finds that Ms. Meehan-Vandike has served as an interim member of the State Board of Massage Therapy since December 2016 and has a thorough understanding of the role and responsibilities of board members and therefore recommends that Ms. Meehan-Vandike be appointed to the State Board of Massage Therapy based on her background, experience, and dedication to serving her community.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 3 (Espero, Ihara, Ruderman).

SCRep. 1368 Commerce, Consumer Protection, and Health on Gov. Msg. Nos. 581 and 582

Recommending that the Senate advise and consent to the nominations of the following:

STATE BOARD OF NURSING

G.M. No. 581 IRIS OKAWA, for a term to expire 06-30-2019; and

G.M. No. 582 JOMEL DULDULAO, for a term to expire 06-30-2020

Your Committee has reviewed the personal histories, resumes, and statements submitted by the nominees and finds Iris Okawa and Jomel Duldulao to possess the requisite qualifications to be nominated to the State Board of Nursing.

IRIS OKAWA

Your Committee received testimony in support of the nomination of Iris Okawa from the Department of Commerce and Consumer Affairs and three individuals.

Upon review of the testimony, your Committee finds that Ms. Okawa's background, knowledge, and commitment to community service qualify her to be nominated for appointment to the State Board of Nursing as a public member. Your Committee notes that Ms. Okawa is an attorney and is currently a Vice President, Relationship Manager, and Senior Fiduciary Leader at Bank of Hawaii, where she manages the Estate Settlement Division of the Trust Group. Ms. Okawa is also an active member of her community and is a trustee of the Public Schools of Hawaii Foundation and on the Leadership Council of the American Diabetes Association. Your Committee further finds that Ms. Okawa has served as an interim member of the State Board of Nursing since December 2016 and has a thorough understanding of the role and responsibilities of board members by virtue of her prior experience serving as a member of the Real Estate Commission, Aloha Tower Development Corporation, and the Honolulu Liquor Commission. Your Committee therefore recommends that Ms. Okawa be appointed to the State Board of Nursing based on her knowledge, experience, and dedication to serving her community.

JOMEL DULDULAO

Your Committee received testimony in support of the nomination of Jomel Duldulao from the Department of Commerce and Consumer Affairs and three individuals.

Upon review of the testimony, your Committee finds that Mr. Duldulao's experience, background, and dedication to community service qualify him to be nominated for appointment to the State Board of Nursing as a public member. Your Committee notes that Mr. Duldulao has worked in the health care industry for the past sixteen years, formerly as a pharmaceutical representative and hospital liaison and currently as the Director of Community Relations for Bristol Hospice Hawaii, LLC. Mr. Duldulao is an active member of his community and enjoys participating in seminars and volunteering his time with organizations such as the Alzheimer's Association

and Tripler Army Medical Center Fisher House. Your Committee further finds that Mr. Duldulao has served as an interim member of the State Board of Nursing since December 2016 and has a thorough understanding of the role and responsibilities of board members and his background as a public member in a related health care field will bring valuable insight to matters before the Board. Your Committee therefore recommends that Mr. Duldulao be appointed to the State Board of Nursing based on his background, knowledge, and commitment to public service.

As affirmed by the records of votes of the members of your Committee on Commerce, Consumer Protection, and Health that are attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominees, has found the nominees to be qualified for the positions to which nominated and recommends that the Senate advise and consent to the nominations.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Espero, Ihara, Ruderman).

SCRep. 1369 Commerce, Consumer Protection, and Health on Gov. Msg. Nos. 672 and 673

Recommending that the Senate advise and consent to the nominations of the following:

BOARD OF PRIVATE DETECTIVES AND GUARDS

G.M. No. 672 KENNETH CHANG, for a term to expire 06-30-2021; and

G.M. No. 673 DOUGLAS INOUYE, for a term to expire 06-30-2020

Your Committee has reviewed the personal histories, resumes, and statements submitted by the nominees and finds Kenneth Chang and Douglas Inouye to possess the requisite qualifications to be nominated to the Board of Private Detectives and Guards.

KENNETH CHANG

Your Committee received testimony in support of the nomination for reappointment of Kenneth Chang from the Department of Commerce and Consumer Affairs.

Upon review of the testimony, your Committee finds that Mr. Chang's knowledge, background, and proven leadership on the Board of Private Detectives and Guards qualify him to be nominated for reappointment to the Board of Private Detectives and Guards as a licensed private detective member. Your Committee notes that Mr. Chang has been actively involved in the private detective and guard industry for over twenty years and is currently the President of NDM Investigations & Security and an Executive Vice-President with Alarm Hawaii. Mr. Chang has served on the Board of Private Detectives and Guards since 2013, currently serves as the Applications Chairperson, and volunteers weekly to review guard employee applications, which helps keep the application backlog to a minimum. Your Committee further finds that through Mr. Chang's efforts, the Board of Private Detectives and Guards has been able to license a clean application within one week. Furthermore, although Mr. Chang is the detective licensee member, he also holds a guard license, and his wealth of experience and willingness to serve continue to enhance the effectiveness of the Board. Your Committee therefore recommends that Mr. Chang be reappointed to the Board of Private Detectives and Guards based on his experience, background, and commitment to public service.

DOUGLAS INOUYE

Your Committee received testimony in support of the nomination of Douglas Inouye from the Department of Commerce and Consumer Affairs and two individuals.

Upon review of the testimony, your Committee finds that Mr. Inouye's background, knowledge, and prior experience on the Board of Private Detectives and Guards qualify him to be nominated for appointment to the Board of Private Detectives and Guards as a public member. Your Committee notes that Mr. Inouye is an attorney with over twenty-four years of experience practicing law in the public and private sectors and is currently the Corporate Counsel and Director of Contract Services for The Queen's Health Systems. Mr. Inouye previously served on the Board of Private Detectives and Guards from July 2008 until June 2016, as the Vice-Chairperson and Chairperson. Mr. Inouye's insights from the public perspective were invaluable to the deliberations of the Board of Private Detectives and Guards, especially in light of the implementation of Act 208, Session Laws of Hawaii 2010, which was enacted during Mr. Inouye's tenure as Chair and overhauled the security guard education and training requirements in the State. Your Committee further finds that Mr. Inouye has a thorough understanding of the role and responsibilities of board members and therefore recommends that Mr. Inouye be appointed to the Board of Private Detectives and Guards based on his knowledge, experience, and dedication to serving the public.

As affirmed by the records of votes of the members of your Committee on Commerce, Consumer Protection, and Health that are attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominees, has found the nominees to be qualified for the positions to which nominated and recommends that the Senate advise and consent to the nominations.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 2 (Ihara, Kidani).

SCRep. 1370 Commerce, Consumer Protection, and Health on Gov. Msg. No. 651

Recommending that the Senate advise and consent to the nomination of the following:

BOARD OF PSYCHOLOGY

G.M. No. 651 DON D. PEDRO, for a term to expire 06-30-2020

Your Committee has reviewed the personal history, resume, and statement submitted by the nominee and finds Don D. Pedro to possess the requisite qualifications to be nominated to the Board of Psychology.

Your Committee received testimony in support of the nomination of Don D. Pedro from the Department of Commerce and Consumer Affairs and three individuals.

Upon review of the testimony, your Committee finds that Dr. Pedro's knowledge, background, and commitment to public service qualify him to be nominated for appointment to the Board of Psychology as a psychologist member. Your Committee notes that Dr. Pedro is a licensed clinical psychologist with significant professional experience in the field of psychology in the public and private sectors. Dr. Pedro currently serves as the Forensic Section Head - Oahu Branch for the Department of Health's Adult Mental Health Section and works part-time in private practice. Dr. Pedro also has an extensive teaching background and has been a lecturer at the University of Hawai'i, Kapi'olani Community College, and a member of the adjunct faculty at Hawai'i Pacific University for nearly twenty years. Your Committee further finds that Dr. Pedro has a thorough understanding of the role and responsibilities of board members and his professional experience as a practitioner and teacher in the field of psychology will be an asset to the workings of the Board of Psychology. Your Committee therefore recommends that Dr. Pedro be appointed to the Board of Psychology based on his experience, background, and dedication to serving his community.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 2 (Ihara, Kidani).

SCRep. 1371 Commerce, Consumer Protection, and Health on Gov. Msg. No. 656

Recommending that the Senate advise and consent to the nomination of the following:

PEST CONTROL BOARD

G.M. No. 656 JONATHAN MONTALBO, for a term to expire 06-30-2021

Your Committee has reviewed the personal history, resume, and statement submitted by the nominee and finds Jonathan Montalbo to possess the requisite qualifications to be nominated for reappointment to the Pest Control Board.

Your Committee received testimony in support of the nomination for reappointment of Jonathan Montalbo from the Department of Commerce and Consumer Affairs and the Hawaii Pest Control Association.

Upon review of the testimony, your Committee finds that Mr. Montalbo's background, knowledge, and proven experience on the Pest Control Board qualify him to be nominated for reappointment to the Pest Control Board as a licensed pest control operator member. Your Committee notes that Mr. Montalbo has been in the pest control industry since 1998, has maintained a pest control operator's license since 2007, and is the President of Aloha Termite Kauai, Inc., in Lihue, Kauai. Mr. Montalbo is also an active member of the Hawaii Pest Control Association, where he has served for many years on the Board of Directors, including as past President. Your Committee further finds that Mr. Montalbo has served on the Pest Control Board since July 2014 and the insights he has gained from his years of experience in the pest control industry continue to enhance the effectiveness of the Board. Your Committee therefore recommends that Mr. Montalbo be reappointed to the Pest Control Board based on his experience, knowledge, and dedication to serving his community.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 2 (Ihara, Kidani).

SCRep. 1372 Commerce, Consumer Protection, and Health on Gov. Msg. No. 674

Recommending that the Senate advise and consent to the nomination of the following:

BOARD OF DENTAL EXAMINERS

G.M. No. 674 STAPHE FUJIMOTO, for a term to expire 06-30-2021

Your Committee has reviewed the personal history, resume, and statement submitted by the nominee and finds Staphe Fujimoto to possess the requisite qualifications to be nominated for reappointment to the Board of Dental Examiners.

Your Committee received testimony in support of the nomination for reappointment of Staphe Fujimoto from the Department of Commerce and Consumer Affairs, Hawaii Dental Association, and two individuals.

Upon review of the testimony, your Committee finds that Dr. Fujimoto's knowledge, experience, and proven leadership on the Board of Dental Examiners qualify him to be nominated for reappointment to the Board of Dental Examiners as a dentist member. Your Committee notes that Dr. Fujimoto has been a licensed dentist in Hawaii since 1985 and is active in his professional organizations, including the American Dental Association, Hawaii Dental Association, and Honolulu County Dental Association. Dr. Fujimoto has been a member of the Board of Dental Examiners since September 2012, has been appointed as a Steering Committee member of the Central Regional Dental Testing Service, Inc., and is committed to keeping the Board informed regarding the current trends in the practice of dentistry. Your Committee further finds that Dr. Fujimoto also attends regional examinations and meetings and serves as an examiner for dental licensure exams, which greatly assists the Board of Dental Examiners in its determinations regarding whether a dental applicant is qualified for licensure. Your Committee therefore recommends that Dr. Fujimoto be reappointed to the Board of Dental Examiners based on his experience, background, and dedication to serving his profession and the community.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 2 (Ihara, Kidani).

SCRep. 1373 (Joint) Human Services and Judiciary and Labor on S.C.R. No. 136

The purpose and intent of this measure is to:

- (1) Encourage the Department of Education, Department of Health, Department of Human Services, Department of the Attorney General, and Judiciary to incorporate research and strategies regarding adverse childhood experiences into their work with children suffering from trauma; and
- (2) Request that each of these agencies submit a report on the status of its plans to incorporate research and strategies regarding adverse childhood experiences into its work with children suffering from trauma to the Legislature prior to the Regular Session of 2018.

Your Committees received testimony in support of this measure from the Department of Education, IMUAlliance, Stop Abuse Campaign, National Family Advocacy Team, and six individuals. Your Committees received testimony in opposition to this measure from the Department of Health. Your Committees received comments on this measure from one individual.

Your Committees find that adverse childhood experiences are defined as abuse, neglect, and other traumatic or disruptive events that occur during childhood, causing serious damage to a child's developing brain. Adverse childhood experiences affect a person's social skills over the course of a lifetime and can also cause serious mental- and physical-health problems. More public awareness and information are needed to properly identify adverse childhood experiences, and recognition of the effects of adverse childhood experiences is essential for appropriate treatment and care. Encouraging various government entities to incorporate research and strategies regarding adverse childhood experiences will help combat the effects of adverse childhood experiences by providing proper support to children, families, organizations, systems, and communities.

Your Committees have amended this measure by:

- (1) Specifying that the Department of the Attorney General, rather than all of the respective agencies, is requested to submit a report to the Legislature no later than twenty days prior to the convening of the Regular Session of 2018 on behalf of all the agencies on the status of each agency's plans to incorporate research and strategies regarding adverse childhood experiences into each agency's work with children suffering from trauma; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Human Services and Judiciary and Labor that are attached to this report, your Committees concur with the intent and purpose of S.C.R. No. 136, as amended herein, and recommend its adoption in the form attached hereto as S.C.R. No. 136, S.D. 1.

Signed by the Chairs on behalf of the Committees.
Human Services: Ayes, 3. Noes, none. Excused, 2 (Tokuda, Wakai).
Judiciary and Labor: Ayes, 5. Noes, none. Excused, none.

SCRep. 1374 (Joint) Human Services and Judiciary and Labor on S.R. No. 57

The purpose and intent of this measure is to:

- (1) Encourage the Department of Education, Department of Health, Department of Human Services, Department of the Attorney General, and Judiciary to incorporate research and strategies regarding adverse childhood experiences into their work with children suffering from trauma; and
- (2) Request that each of these agencies submit a report on the status of its plans to incorporate research and strategies regarding adverse childhood experiences into its work with children suffering from trauma to the Legislature prior to the Regular Session of 2018.

Your Committees received testimony in support of this measure from the Department of Education, IMUAlliance, Stop Abuse Campaign, National Family Advocacy Team, and six individuals. Your Committees received testimony in opposition to this measure from the Department of Health. Your Committees received comments on this measure from one individual.

Your Committees find that adverse childhood experiences are defined as abuse, neglect, and other traumatic or disruptive events that occur during childhood, causing serious damage to a child's developing brain. Adverse childhood experiences affect a person's social skills over the course of a lifetime and can also cause serious mental- and physical-health problems. More public awareness and information are needed to properly identify adverse childhood experiences, and recognition of the effects of adverse childhood experiences is essential for appropriate treatment and care. agencies on the status of each agency's plans to incorporate research and strategies regarding adverse childhood experiences into each agency's work with children suffering from trauma; and

- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Human Services and Judiciary and Labor that are attached to this report, your Committees concur with the intent and purpose of S.R. No. 57, as amended herein, and recommend its adoption in the form attached hereto as S.R. No. 57, S.D. 1.

Signed by the Chairs on behalf of the Committees.
Human Services: Ayes, 3. Noes, none. Excused, 2 (Tokuda, Wakai).
Judiciary and Labor: Ayes, 5. Noes, none. Excused, none.

SCRep. 1375 Ways and Means on S.C.R. No. 30

The purpose and intent of this measure is to provide legislative approval of an exchange of land between the State and Parker Land Trust.

Specifically, this measure:

- (1) Expresses legislative approval of the exchange of 0.78 acre of state land currently set aside to the Department of Education in exchange for 5.445 acres of nearby land owned by Parker Land Trust; and
- (2) Classifies the 5.445 acres of land to be conveyed to the State as ceded lands pursuant to Section 5(b) of the Admissions Act.

Your Committee received written comments in support of this measure from the Department of Land and Natural Resources, the Department of Education, and Parker Ranch, Inc.

Your Committee received comments on this measure from the Office of Hawaiian Affairs.

Your Committee finds that the State will substantially benefit from this transaction by trading a small parcel of land valued at \$13,000 in exchange for a larger parcel of land valued at \$1,521,000. Your Committee further finds that this exchange serves a public purpose by increasing the land available for the future expansion of Waimea Elementary and Intermediate School.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 30, S.D. 1, and recommends its adoption.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 5 (English, Kahele, Shimabukuro, Taniguchi, Wakai).

SCRep. 1376 Ways and Means on S.C.R. No. 43

The purpose and intent of this measure is to authorize the issuance of an easement for state submerged lands.

Specifically, this measure authorizes the Board of Land and Natural Resources to issue a term, non-exclusive easement covering a portion of state submerged lands fronting property located in Kaneohe, Koolauapoko, Oahu, for the maintenance and repair of the existing pier, and for the use, repair, and maintenance of the existing improvements.

Your Committee received written comments in support of this measure from the Department of Land and Natural Resources.

Your Committee finds that section 171-53, Hawaii Revised Statutes, requires the Board of Land and Natural Resources to obtain authorization from the Legislature to engage in disposition of state submerged lands. The Board has identified portions of a seawall fronting the property identified as Tax Map Key: (1) 4-5-058:121, as encroaching upon state submerged lands. The current owner of the abutting property has worked with the Department of Land and Natural Resources to convert the existing pier revocable permit to a long-term easement, as the pier is located on state submerged lands. Your Committee further finds that this measure expresses the requisite legislative approval so that an easement may be issued for the use of those state submerged lands.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 43 and recommends its adoption.

Signed by the Chair on behalf of the Committee.
Ayes, 7. Noes, none. Excused, 4 (English, Kahele, Shimabukuro, Taniguchi).

SCRep. 1377 Ways and Means on S.C.R. No. 42

The purpose and intent of this measure is to authorize the issuance of an easement for state submerged lands.

Specifically, this measure authorizes the Board of Land and Natural Resources to issue a term, non-exclusive easement covering a portion of state submerged lands fronting property located in Kaneohe, Koolauapoko, Oahu, for the maintenance and repair of the existing seawall, boat ramp, and pier, and for use, repair, and maintenance of the existing improvements.

Your Committee received written comments in support of this measure from the Department of Land and Natural Resources.

Your Committee finds that section 171-53, Hawaii Revised Statutes, requires the Board of Land and Natural Resources to obtain authorization from the Legislature to engage in disposition of state submerged lands. The Board has identified portions of a seawall fronting the property identified as Tax Map Key: (1) 4-4-018: seaward of 072, as encroaching upon state submerged lands. Your Committee further finds that this measure expresses the requisite legislative approval so that an easement may be issued for use of those state submerged lands.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 42 and recommends its adoption.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, 4 (English, Kahele, Shimabukuro, Taniguchi).

SCRep. 1378 Ways and Means on S.C.R. No. 19

The purpose and intent of this measure is to grant legislative approval to sell the leased fee interest in 41-529 Inoaole Street, Waimanalo, Hawaii.

Your Committee received written comments in support of this measure from the Department of Business, Economic Development, and Tourism; Hawaii Housing Finance and Development Corporation; and one concerned individual.

Your Committee received written comments on this measure from the Office of Hawaiian Affairs.

Your Committee finds that section 171-64.7, Hawaii Revised Statutes, requires the prior approval of the Legislature by concurrent resolution to sell or gift certain state lands in fee simple, and specifies information that must be included in the resolution and other prerequisites to the sale. Your Committee further finds that the sale of the leased fee interest in 41-529 Inoaole Street, Waimanalo, Hawaii, falls under section 171-64.7, Hawaii Revised Statutes, and that the Hawaii Housing Finance and Development Corporation has met all statutory prerequisites to request approval of the sale of the property.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 19 and recommends its adoption.
