

CONFERENCE COMMITTEE REPORTS

Conf. Com. Rep. 1 on S.B. No. 715

The purpose of this measure is to add the Executive Director of the Hawaii Community Development Authority and the Executive Director of the Hawaii Public Housing Authority to the Special Action Team on Affordable Rental Housing.

Your Committee on Conference finds that the Hawaii Community Development Authority has jurisdiction over areas conducive to the development of affordable rental housing, and the Hawaii Public Housing Authority provides affordable rental housing for low-income families and individuals. Because of the subject matter and mission of the respective agencies, your Committee on Conference further finds that the addition of the Executive Director of the Hawaii Community Development Authority and the Executive Director of the Hawaii Public Housing Authority would be valuable to the Special Action Team on Affordable Rental Housing.

Your Committee on Conference has amended this measure by changing the effective date to July 1, 2017.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 715, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 715, S.D. 2, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Espero, Galuteria and Harimoto.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, none.

Representatives Brower, Yamane, Luke and McDermott.
Managers on the part of the House.
Ayes, 3. Noes, none. Excused, 1 (McDermott).

Conf. Com. Rep. 2 on S.B. No. 194

The purpose of this measure is to authorize the Department of Health and Department of Education to accept the results of any tuberculosis blood test approved by the Food and Drug Administration and recommended by the Centers for Disease Control and Prevention for purposes of a certificate of tuberculosis examination and clearance to attend public school.

Your Committee on Conference finds that tuberculosis testing is a requirement for many people in the State, including children entering school, school personnel, personnel working with high risk populations, and students enrolling in higher education programs. The skin reaction tuberculosis test currently used by the Department of Health requires two visits to the doctor or medical practitioner administering the test, and can cause complications in some patients. Your Committee on Conference further finds that other tests that are approved by the Food and Drug Administration and recommended by the Centers for Disease Control and Prevention exist with fewer risks of complication.

Your Committee on Conference has amended this measure by:

- (1) Clarifying that its intent is to not change current requirements or procedures regarding the use of chest x-rays; and
- (2) Changing the effective date to upon its approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 194, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 194, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Kidani, Baker and Kahahele.
Managers on the part of the Senate.
Ayes, 2. Noes, none. Excused, 1 (Kahahele).

Representatives Belatti, Hashem, Har and Tupola.
Managers on the part of the House.
Ayes, 3. Noes, none. Excused, 1 (Har).

Conf. Com. Rep. 3 on H.B. No. 832

The purpose of this measure is to:

- (1) Clarify that a violation of the records, mediation, and arbitration requirements of sections 514B-154, 514B-161, and 514B-162, Hawaii Revised Statutes, by a condominium board of directors or its officers or members is a violation of fiduciary duty, but provides a safe harbor provision for a board member who votes for compliance or rescinds or withdraws the violating conduct;
- (2) Balance the right of association members to speak and participate in deliberations and discussions of a board, while ensuring that a board is able to complete its agenda in a timely manner;
- (3) Require the notice for board meetings to include a list of items expected to be on the meeting agenda; and
- (4) Require unapproved final drafts of the minutes of a board meeting to be available within 14 days after the meeting.

Your Committee on Conference has amended this measure by:

- (1) Stipulating that a violation of the mediation and arbitration requirements of sections 514B-161 and 514B-162, Hawaii Revised Statutes, by a condominium board of directors or its officers or members may constitute a violation of fiduciary duty;
- (2) Lengthening the timeframe within which unapproved final drafts of the minutes of a board meeting shall be made available from 14 to 30 days after the meeting;
- (3) Changing its effective date to July 1, 2017; and
- (4) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 832, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 832, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Baker, Ihara and Kidani.

Managers on the part of the Senate.

Ayes, 2; Ayes with Reservations (Ihara). Noes, none. Excused, 1 (Kidani).

Representatives Takumi, Todd and Ward.

Managers on the part of the House.

Ayes, 3. Noes, none. Excused, none.

Conf. Com. Rep. 4 on S.B. No. 514

The purpose of this measure is to:

- (1) Authorize pharmacists to administer the human papillomavirus, Tdap (tetanus, diphtheria, pertussis), meningococcal, and influenza vaccines to persons between eleven and seventeen years of age; and
- (2) Specify the requirements pharmacists must meet prior to administering the human papillomavirus, Tdap (tetanus, diphtheria, pertussis), meningococcal, and influenza vaccines.

Your Committee on Conference finds that the human papillomavirus is a very common virus, which is associated with multiple cancers, including anogenital cancer, oropharyngeal cancer, and genital warts. The Centers for Disease Control and Prevention and the American College of Obstetricians and Gynecologists recommend routine vaccination with the human papillomavirus vaccine for preteen boys and girls so they are protected prior to any exposure to the virus. However, recent data released by the Centers for Disease Control and Prevention shows that human papillomavirus vaccination rates trail behind other teen vaccines, in part because the two-part vaccination requires a booster to complete the vaccination series. Your Committee on Conference further finds that in addition to the human papillomavirus vaccine, three other vaccines, including the Tdap (tetanus, diphtheria, pertussis), meningococcal, and influenza vaccines, make up what is known as the "Adolescent Platform", a series of shots recommended for adolescents between the ages of eleven and twelve.

This measure enables pharmacists to administer the human papillomavirus, Tdap (tetanus, diphtheria, pertussis), meningococcal, and influenza vaccines to persons between eleven and seventeen years of age, which will expand access to these important vaccines and help reduce the incidence of infectious disease, including human papillomavirus and its associated risk of cancers.

Your Committee on Conference has amended this measure by changing its effective date to upon approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 514, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 514, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Baker, Ihara and Kidani.

Managers on the part of the Senate.

Ayes, 2. Noes, none. Excused, 1 (Ihara).

Representatives Belatti, Takumi, Har and Thielen.

Managers on the part of the House.

Ayes, 3. Noes, none. Excused, 1 (Har).

Conf. Com. Rep. 5 on S.B. No. 609

The purpose of this measure is to require that peer reviews performed on public accounting firms are performed in accordance with the entirety of the Statements on Standards for Attestation Engagements adopted by the American Institute of Certified Public Accountants (AICPA).

Your Committee on Conference finds that the Board of Public Accountancy's Peer Review Program encompasses the framework and implementation guidelines of the peer review program of the AICPA. The Board has adopted the Statements on Standards for Attestation Engagements of the AICPA (AICPA Standards) as the benchmark for the evaluation and peer review of the provision of attestation services by Certified Public Accountants and Certified Public Accountant firms and requires all licensees under its jurisdiction to adhere to these AICPA Standards when performing engagements that require the provision of attestation services.

This measure deletes the specific reference to AT section 201 of the AICPA Standards to instead require that peer review procedures be subject to all of the AICPA Standards, which will enable the Board to make references to the pertinent sections of the AICPA Standards as needed.

Your Committee on Conference has amended this measure by changing its effective date to upon approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 609, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 609, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Baker, Chang and Ihara.
Managers on the part of the Senate.
Ayes, 2. Noes, none. Excused, 1 (Ihara).

Representatives Ohno, Takumi, Choy and Ward.
Managers on the part of the House.
Ayes, 3. Noes, none. Excused, 1 (Choy).

Conf. Com. Rep. 6 on S.B. No. 952

The purpose of this measure is to:

- (1) Provide the Insurance Commissioner with express prior approval authority over long-term care insurance rates; and
- (2) Make housekeeping amendments.

Your Committee on Conference finds that this measure clarifies that the Insurance Commissioner has express prior approval authority over long-term care insurance rates. This measure continues to ensure that consumers are not being charged excessive rates for long-term care insurance, while also maintaining a fair marketplace for insurers.

Your Committee on Conference has amended this measure by changing its effective date to January 1, 2018.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 952, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 952, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Baker, Espero and Ihara.
Managers on the part of the Senate.
Ayes, 2. Noes, none. Excused, 1 (Espero).

Representatives Takumi, Cullen and Ward.
Managers on the part of the House.
Ayes, 2. Noes, none. Excused, 1 (Ward).

Conf. Com. Rep. 7 on S.B. No. 1171

The purpose of this measure is to identify the circumstances in which the State has a compelling interest in the use and disclosure of de-identified protected health information under the Health Care Privacy Harmonization Act.

Your Committee on Conference finds that there are situations in which the State has a compelling interest in the use and disclosure of de-identified protected health information. Your Committee on Conference further finds that a compelling interest may arise for the use of de-identified protected health information in the areas of medical and economic research, patient protection, public safety, and the proper operation of medical and healthcare facilities.

Your Committee on Conference has amended this measure by inserting an effective date of July 1, 2017.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1171, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1171, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Baker, Keith-Agaran and Nishihara.
Managers on the part of the Senate.
Ayes, 2. Noes, none. Excused, 1 (Nishihara).

Representatives Belatti, San Buenaventura and Tupola.
Managers on the part of the House.
Ayes, 3. Noes, none. Excused, none.

Conf. Com. Rep. 8 on S.B. No. 1227

The purpose of this measure is to extend the repeal date, from 2017 until 2022, for the affirmation requirement and form that is filed by an attorney on behalf of a mortgagee who is seeking to foreclose on a residential property under a judicial foreclosure action.

Your Committee on Conference finds that, during the height of the foreclosure crisis, numerous distressed homeowners reported to government authorities, including the Office of Consumer Protection and the Hawaii Department of the Attorney General, that their financial institutions were initiating foreclosure actions without a sufficient basis. Among the more egregious claims were reports that financial institutions were engaging in robo-signing, in which banks supported foreclosure actions through the use of false affidavits signed by bank employees. In response, the Legislature enacted Act 182, Session Laws of Hawaii 2012, which, among other things,

requires a foreclosing party's attorney to affirm that the attorney has personally reviewed the documents and records associated with a foreclosure action, confirm the factual accuracy of the complaint allegations, and state that the attorney does not believe there are any false statements of fact or law and that the plaintiff has legal standing to bring the foreclosure action.

Your Committee on Conference further finds that although the frequency of robo-signing appears to have recently diminished, making permanent certain statutory safeguards, such as the attorney affirmation, will help deter such conduct from reoccurring in Hawaii.

Your Committee on Conference has amended this measure by:

- (1) Making permanent the affirmation requirement and form that is filed by an attorney on behalf of a mortgagee who is seeking to foreclose on a residential property under a judicial foreclosure action, rather than extending the repeal date for the attorney's affirmation requirement from 2017 to 2022;
- (2) Repealing the affirmation requirement of an attorney who files a complaint in a mortgage foreclosure action that would have taken effect on July 1, 2017;
- (3) Changing its effective date to June 30, 2017; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1227, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1227, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Baker, Keith-Agaran and Ruderman.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, none.

Representatives Takumi, San Buenaventura and Ward.
Managers on the part of the House.
Ayes, 3. Noes, none. Excused, none.

Conf. Com. Rep. 9 on H.B. No. 192

The purpose of this measure is to:

- (1) Expand the definition of "association" under the Planned Community Associations law to include homeowners' associations; and
- (2) Clarify that, if a proxy is a standard proxy form authorized by an association, and the proxy is returned with no quorum or proxy designation box checked or more than one quorum or proxy designation box checked, the proxy shall be counted for quorum purposes only.

Your Committee on Conference has amended this measure by changing its effective date from July 1, 2112, to July 1, 2017.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 192, H.D. 2, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 192, H.D. 2, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Baker, Kidani and Ruderman.
Managers on the part of the Senate.
Ayes, 2. Noes, none. Excused, 1 (Kidani).

Representatives Takumi, Ohno, San Buenaventura and Ward.
Managers on the part of the House.
Ayes, 3. Noes, none. Excused, 1 (Ward).

Conf. Com. Rep. 10 on H.B. No. 1498

The purpose of this measure is to:

- (1) Require a copy of any contract, written job description, and compensation between a condominium association and a person or entity retained by the association to manage the operation of the property to be made available to any unit owner while permitting certain personal information to be redacted from the contract copy;
- (2) Clarify that the removal or replacement of a director elected by a class of unit owners shall be by a majority of only the members of that class;
- (3) Specify that for an election in a mixed-use condominium project where directors are elected by different classes of owners, an association is permitted to cast a vote or votes allocated to any nonresidential unit owned by the association where those eligible to vote in the election are limited to owners of one or more nonresidential units, including the nonresidential unit owned by the association; and
- (4) Prohibit tenants from serving as board members of a condominium association.

Your Committee on Conference has amended this measure by:

- (1) Inserting a definition of “tenant” in Part III as that term is used with regard to service on a board of a condominium association; and
- (2) Changing its effective date to July 1, 2017.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1498, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1498, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Baker, Ihara and Kidani.
Managers on the part of the Senate.
Ayes, 2. Noes, none. Excused, 1 (Kidani).

Representatives Takumi, San Buenaventura and Ward.
Managers on the part of the House.
Ayes, 3. Noes, none. Excused, none.

Conf. Com. Rep. 11 on H.B. No. 1501

The purpose of this bill is to prevent nonviolent individuals from becoming involved with the criminal justice system, eliminate many collateral consequences that stem from drug paraphernalia arrests, and provide for the reinvestment of money into community needs, such as drug treatment programs, by reclassifying drug paraphernalia possession and delivery offenses from felonies to violations subject to a civil fine of no more than \$500.

Your Committee on Conference has amended this bill by changing its effective date to upon approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1501, H.D. 2, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1501, H.D. 2, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Keith-Agaran, English and Rhoads.
Managers on the part of the Senate.
Ayes, 2. Noes, none. Excused, 1 (English).

Representatives Takayama, San Buenaventura, Creagan and Thielen.
Managers on the part of the House.
Ayes, 3. Noes, none. Excused, 1 (Thielen).

Conf. Com. Rep. 12 on S.B. No. 773

The purpose of this measure is to:

- (1) Establish the industrial hemp special fund to be expended by the Department of Agriculture to carry out the purposes of the industrial hemp pilot program;
- (2) Allow applicants to the industrial hemp pilot program to apply for a license at any time during the year in which the applicant plans to grow industrial hemp;
- (3) Require each county to recognize the cultivation of industrial hemp for the purposes of the pilot program as an agricultural product, use, and activity;
- (4) Specify that any agricultural land used for cultivation of industrial hemp for the purposes of the pilot program shall qualify for the minimum dedication period and be assessed at the lowest percentage of fair market value;
- (5) Limit the cultivation of industrial hemp to licensed owners, lessees, or occupiers of lands within the state agricultural land use district; and
- (6) Amend the physical facility requirements for pilot program licensees and repeal the requirement for a movement permit to transport plants or plant material.

Your Committee on Conference finds that Act 228, Session Laws of Hawaii 2016, established the industrial hemp pilot program to allow the cultivation of industrial hemp and distribution of its seed in Hawaii through limited activities by licensee-agents of the Board of Agriculture for purposes of agricultural or academic research. To ensure successful implementation, further amendments to state law need to be made.

Your Committee on Conference has amended this measure by:

- (1) Deleting language that would have established the industrial hemp special fund to be expended by the Department of Agriculture to carry out the purposes of the industrial hemp pilot program;
- (2) Deleting the general fund appropriation for positions within the Department of Agriculture and program operations for the industrial hemp pilot program, because this appropriation is included in H.B. 100, H.D. 1, S.D. 1, C.D. 1, Regular Session of 2017, the General Appropriations Act of 2017;

- (3) Making it effective upon its approval; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 773, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 773, S.D. 2, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Gabbard, Nishihara and Shimabukuro.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, none.

Representatives Creagan, Nakashima, Cullen, Ing and Thielen.
Managers on the part of the House.
Ayes, 4. Noes, none. Excused, 1 (Ing).

Conf. Com. Rep. 13 on S.B. No. 1073

The purpose of this measure is to appropriate funds to the State Foundation on Culture and the Arts to support the artist fellowship program which awards fellowships to promising artists.

Your Committee on Conference finds that the artist fellowship program provides one-time fellowships to local individuals in the areas of visual and performing arts. The fellowships create recognition and financial support for the artists. Your Committee on Conference further finds that the artist fellowship program contributes greatly to Hawaii's rich cultural landscape.

Your Committee on Conference has amended this measure by:

- (1) Changing the source of the appropriation from the general revenues of the State of Hawaii to the works of art special fund established by section 103-8.5, Hawaii Revised Statutes; and
- (2) Inserting an appropriation amount of \$200,000 for fiscal year 2017-2018 for the State Foundation on Culture and the Arts artist fellowship program.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1073, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1073, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Taniguchi, Harimoto and Chang.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, none.

Representatives Ito, Tokioka and McDermott.
Managers on the part of the House.
Ayes, 2. Noes, none. Excused, 1 (McDermott).

Conf. Com. Rep. 14 on S.B. No. 1074

The purpose of this measure is to appropriate funds to the State Foundation on Culture and the Arts to plan and coordinate the celebration of the fiftieth anniversary of the Hawaii State Capitol.

Your Committee on Conference finds that the task force to plan and coordinate the celebration of the fiftieth anniversary of the Hawaii State Capitol was established in 2016 for the purpose of planning activities and events for the celebration. The current Hawaii State Capitol located at 415 South Beretania Street, was dedicated on March 15, 1969. As such, the festivities will take place from March 15, 2018, through March 15, 2019. Your Committee on Conference further finds that the funds appropriated will help the task force to coordinate and oversee the celebration.

Your Committee on Conference has amended this measure by:

- (1) Changing the source of the appropriation from the general revenues of the State of Hawaii to the works of art special fund established by section 103-8.5, Hawaii Revised Statutes; and
- (2) Inserting an appropriation amount of \$100,000 for fiscal year 2017-2018 for the State Foundation on Culture and the Arts to help plan and coordinate the celebration of the fiftieth anniversary of the Hawaii State Capitol.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1074, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1074, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Taniguchi, Harimoto and Ihara.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, none.

Representatives Ito, Tokioka and McDermott.
Managers on the part of the House.

Ayes, 2. Noes, none. Excused, 1 (McDermott).

Conf. Com. Rep. 15 on S.B. No. 584

The purpose of this measure is to allow an extended or hanai family member to act as a co-mortgagor in assisting a qualified resident in securing a mortgage to purchase a dwelling unit from the Hawaii Housing Finance and Development Corporation.

Your Committee on Conference finds that the Hawaii Housing Finance and Development Corporation is tasked with developing and financing low- and moderate-income housing projects and administering homeownership programs, including the provision of mortgages for affordable housing units to qualified residents. Some affordable units may still be unaffordable to first-time buyers without financial assistance from family. For residents of Hawaii, “family” frequently extends to cousins, uncles, aunts, step-parents, and “hanai” family members who may not fall within the definition of “family” used by the Hawaii Housing Finance and Development Corporation, but who may still have the financial capacity and willingness to assist buyers with the down payment or qualification for a mortgage. By allowing extended or hanai family members to act as a co-mortgagor assisting a qualified resident in securing a mortgage to purchase a dwelling unit, more of the State’s residents may qualify to purchase affordable housing.

Your Committee on Conference has amended this measure by changing the effective date to July 1, 2017.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 584, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 584, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Espero, Baker and Harimoto.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, none.

Representatives Brower, Takumi and McDermott.

Managers on the part of the House.

Ayes, 2. Noes, none. Excused, 1 (McDermott).

Conf. Com. Rep. 16 on S.B. No. 376

The purpose of this measure is to repeal chapter 269, part VIII, Hawaii Revised Statutes, relating to the interisland transmission system.

Your Committee on Conference finds that in 2012, the Legislature established a regulatory structure under which interisland undersea transmission cables could be developed, financed, and constructed. However, the current priorities of the Legislature and the electric utility companies do not include an interisland transmission system. Your Committee on Conference acknowledges that there is an existing regulatory proceeding regarding the issue that is intended to solicit information and evaluate whether an undersea transmission cable may be in the public interest. Nevertheless, your Committee on Conference finds that it is more appropriate to remove references to the interisland transmission system from state law until an agreement on such a system can be reached.

Your Committee on Conference has amended this measure by:

- (1) Making a conforming amendment to remove a reference to cable surcharges from section 23-74, Hawaii Revised Statutes;
- (2) Making it effective upon its approval; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 376, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 376, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Baker, Inouye and Chang.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, none.

Representatives Lee, Takumi, Quinlan, Say and Tupola.

Managers on the part of the House.

Ayes, 5. Noes, none. Excused, none.

Conf. Com. Rep. 17 on S.B. No. 984

The purpose of this measure is to amend the definition of “physician” under the workers’ compensation law to include an advanced practice registered nurse.

Your Committee on Conference finds that section 323-3, Hawaii Revised Statutes, requires each hospital within the State to allow advanced practice registered nurses to practice within the full scope of their practice, including as primary care providers. Your Committee on Conference also finds that advanced practice registered nurses are recognized as participating primary health care providers for insurance purposes under the State’s insurance code. However, Hawaii’s workers’ compensation law omits advanced practice registered nurses from the definition of physician. Amending this definition is necessary to authorize increased participation by advanced practice registered nurses and recognize appropriately trained advanced practice registered nurses as primary care providers under workers’ compensation to enable improved access to health care services, expedite the processing of paperwork, and provide optimal care at the initial point of access for injured workers, especially in rural and underserved areas.

Your Committee on Conference has amended this measure by making it effective upon its approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 984, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 984, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Keith-Agaran, Baker and Rhoads.
Managers on the part of the Senate.

Representatives Holt, Takumi, Yamashita and Matsumoto.
Managers on the part of the House.
Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. 18 on S.B. No. 724

The purpose of this measure is to require the Department of Budget and Finance to report certain data on non-discretionary costs.

Specifically, this measure requires the Department of Budget and Finance to annually report information and financial ratios based upon the following non-discretionary general fund costs:

- (1) Debt service payments for general obligation bonds;
- (2) Medicaid service costs; and
- (3) Employer contributions for pension, retirement, and health benefits for state employees and retirees.

Your Committee on Conference finds that requiring the Department of Budget and Finance to submit a one-time report prior to the 2019 Regular Session would assist the Legislature in monitoring future financial liabilities for the 2018-2019 and 2019-2020 fiscal years and determining whether additional reports would provide meaningful information for future state budgets.

Accordingly, your Committee on Conference has amended this measure by:

- (1) Replacing the annual report with a one-time report, to be submitted prior to the 2019 Regular Session, on the various non-discretionary costs and related ratios for the 2018-2019 and 2019-2020 fiscal years;
- (2) Setting forth the reporting requirements within the Session Laws of Hawaii rather than within the Hawaii Revised Statutes;
- (3) Requiring the Department of Budget and Finance to issue a recommendation on whether the information required by this Act should be provided annually; and
- (4) Changing the effective date to July 1, 2018.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 724, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 724, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Tokuda, Dela Cruz and English.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, none.

Representatives Luke, Cullen and Tupola.
Managers on the part of the House.
Ayes, 2. Noes, none. Excused, 1 (Tupola).

Conf. Com. Rep. 19 on S.B. No. 941

The purpose and intent of this measure is to expressly allow Automated Clearing House transactions that debit state treasury bank accounts, if authorized by the Director of Finance.

Your Committee on Conference finds that specifically including Automated Clearing House transactions as electronic funds transfers for the purpose of debiting state treasury bank accounts in financial institutions will increase the efficiency of state agencies in making bank deposits.

Your Committee on Conference has amended this measure by changing the effective date to July 1, 2017.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 941, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 941, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Tokuda, English and Galuteria.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, none.

Representatives Luke, Cullen and Tupola.

Managers on the part of the House.
Ayes, 2. Noes, none. Excused, 1 (Tupola).

Conf. Com. Rep. 20 on H.B. No. 89

The purpose of this measure is to preserve access to health care for Medicaid recipients by:

- (1) Extending the Hospital Sustainability Program for two years and updating statutory references accordingly;
- (2) Clarifying that the rate of the outpatient hospital sustainability fee shall not exceed three percent of net outpatient hospital service revenue;
- (3) Allowing the Department of Human Services (DHS) to exclude any facility from the hospital sustainability fee on outpatient care services if its exclusion is required to meet federal standards of approval; and
- (4) Appropriating funds out of the Hospital Sustainability Program Special Fund for Fiscal Year 2017-2018 and Fiscal Year 2018-2019.

Your Committee on Conference has amended this measure by:

- (1) Increasing the maximum rate of inpatient and outpatient hospital sustainability fees to three and one-half percent; and
- (2) Changing the appropriation amount from \$65,000,000 to \$70,000,000.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 89, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 89, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Green, Baker and Taniguchi.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, none.

Representatives Morikawa, Belatti, Gates and Tupola.
Managers on the part of the House.
Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. 21 on H.B. No. 239

The purpose of this bill is to provide clarity on voting by proxy at condominium association meetings by clarifying that standard proxy forms authorized by an association shall be counted for quorum purposes only if the form is returned with no box relating to the giving of a proxy checked or more than one such box checked.

Your Committee on Conference has amended this bill by making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 239, H.D. 2, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 239, H.D. 2, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Baker, Ihara and Kidani.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, none.

Representatives Ohno, Takumi and Ward.
Managers on the part of the House.
Ayes, 2. Noes, none. Excused, 1 (Ward).

Conf. Com. Rep. 22 on H.B. No. 1588

The purpose of this measure is to promote fiscally responsible funding of repair and maintenance projects in the State by:

- (1) Prohibiting the issuance of general obligation bonds to finance the repair and maintenance of a capital asset with a depreciable life of less than ten years from the date the asset was first placed into service; and
- (2) Requiring the Director of Finance to set a maturity date of not more than ten years when issuing general obligation bonds to finance the repair and maintenance of a capital asset with a depreciable life of ten years or more from the date the asset was first placed into service.

Your Committee on Conference has amended this measure by:

- (1) Prohibiting the issuance of general obligation bonds to finance the repair and maintenance of a capital asset where the repair or maintenance costs incurred add value to and prolong the life of the asset for a period of less than ten years; and
- (2) Requiring the Director of Finance to set a maturity date of not more than ten years when issuing general obligation bonds to finance the repair and maintenance of a capital asset where the repair or maintenance costs incurred add value to and prolong the life of the asset for a period of ten years or more.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1588, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1588, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Tokuda, Dela Cruz and English.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, none.

Representatives Yamashita, Choy and Tupola.
Managers on the part of the House.
Ayes, 2. Noes, none. Excused, 1 (Tupola).

Conf. Com. Rep. 23 on H.B. No. 1246

The purpose of this bill is to provide an additional option to help alleviate prison overcrowding while addressing the need for public safety by authorizing the Department of Public Safety to use electronic monitoring and surveillance as a standalone alternative to incarceration.

Your Committee on Conference has amended this bill by changing its effective date to July 1, 2017.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1246, H.D. 2, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1246, H.D. 2, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Nishihara, Shimabukuro and Wakai.
Managers on the part of the Senate.
Ayes, 2. Noes, none. Excused, 1 (Wakai).

Representatives Takayama, Nishimoto, LoPresti, Gates and Ward.
Managers on the part of the House.

Conf. Com. Rep. 24 on H.B. No. 845

The purpose of this bill is to assist inmates in obtaining the documents and identification cards necessary for successful reentry into society. Specifically, this bill:

- (1) Requires the Department of Public Safety, in collaboration with various agencies and upon request of the inmates, to issue civil identification cards to inmates and to assist inmates in obtaining the inmates' birth certificate, social security card, and other relevant identification necessary for successful reentry into society; and
- (2) Requires the Department of Public Safety to initiate the process of assisting inmates released to work furlough, extended furlough, or community placement programs at least ninety days prior to the inmates' release.

Your Committee on Conference has amended this bill by:

- (1) Changing the submittal date of the annual report to the Legislature to no later than twenty days prior to the convening of each regular session, starting with the regular session of 2019;
- (2) Appropriating \$25,000 or so much thereof as may be necessary for fiscal year 2017-2018 for the Department of Public Safety, in collaboration with various agencies, to issue civil identification cards, in accordance with part XVI of chapter 286, Hawaii Revised Statutes, to inmates who have one year or less remaining on their prison sentence and to assist the inmates in obtaining their birth certificate, social security card, and any other relevant identification documents necessary for the inmates to transition into the workforce, access social services, and secure housing; and
- (3) Changing its effective date to January 1, 2018.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 845, H.D. 2, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 845, H.D. 2, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Nishihara, Keith-Agaran and Shimabukuro.
Managers on the part of the Senate.
Ayes, 2. Noes, none. Excused, 1 (Keith-Agaran).

Representatives Takayama, San Buenaventura, Gates, Creagan and Thielen.
Managers on the part of the House.
Ayes, 5. Noes, none. Excused, none.

Conf. Com. Rep. 25 on H.B. No. 1129

The purpose of this bill is to promote appropriate standards of consistency, transparency, and fairness within the Department of Public Safety by formally establishing policies and procedures for special duty assignment of deputy sheriffs.

Specifically, this bill requires the Department of Public Safety to:

- (1) Adopt policies and procedures to govern the performance of special duty by deputy sheriffs;
- (2) Establish a compensation schedule for law enforcement services provided by deputy sheriffs performing special duty; and
- (3) Report to the Legislature on policies and procedures, amounts paid for and compensation received by deputy sheriffs performing special duty to determine whether this Act should be extended beyond its repeal date of June 30, 2018.

Your Committee on Conference has amended this bill by changing its effective date to upon approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1129, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1129, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Nishihara, Inouye and Wakai.

Conf. Com. Rep. 26 on H.B. No. 1130

The purpose of this bill is to provide clarity in the employment practices law to enable the Department of Public Safety to administer lie detector and psychological tests to determine the suitability of candidates for employment with the Department.

Your Committee on Conference has amended this bill by changing its effective date to upon approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1130, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1130, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Nishihara, Thielen and Taniguchi.
Managers on the part of the Senate.
Ayes, 2. Noes, none. Excused, 1 (Thielen).

Representatives Takayama, San Buenaventura, LoPresti and Thielen.
Managers on the part of the House.
Ayes, 3. Noes, none. Excused, 1 (LoPresti).

Conf. Com. Rep. 27 on H.B. No. 655

The purpose of this measure is to direct the Department of Land and Natural Resources to assist and collaborate with, including by providing supplemental funding to, the National Wildlife Research Center of the U.S. Department of Agriculture to research the negative impacts of the rose-ringed parakeet on Kauai and develop and implement a control plan to reduce those negative impacts. This measure also appropriates funds for this purpose.

After careful consideration, your Committee on Conference has amended this measure by:

- (1) Inserting an appropriation amount of \$75,000;
- (2) Making the appropriation for only fiscal year 2017-2018;
- (3) Changing the effective date to July 1, 2017; and
- (4) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 655, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 655, H.D. 1, S.D. 1, C.D. 1.

Conf. Com. Rep. 28 on S.B. No. 948

The purpose of this measure is to authorize the Division of Financial Institutions of the Department of Commerce and Consumer Affairs to employ or retain an attorney to represent or provide legal services for the Division or State on any matter rather than only mortgage loan recovery fund actions.

Your Committee on Conference finds that existing law allows the Division of Financial Institutions of the Department of Commerce and Consumer Affairs to employ and retain attorneys only for actions involving the mortgage loan recovery fund. However, a majority of the Division's need for attorney assistance is outside the scope of what the law permits. This measure will assist in increasing the Division's efficiency and streamlining its regulatory processes.

Your Committee on Conference has amended this measure by changing the effective date to upon approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 948, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 948, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Keith-Agaran, Baker and Riviere.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, none.

Representatives Ohno, Holt, Keohokalole and Ward.

Managers on the part of the House.

Ayes, 3. Noes, none. Excused, 1 (Ward).

Conf. Com. Rep. 29 on S.B. No. 992

The purpose of this measure is to clarify that the Department of Land and Natural Resources (DLNR) may assume immediate control of:

- (1) A vessel that is grounded on state submerged land, a shoreline, or a coral reef, or in imminent danger of breaking up, if the vessel cannot be removed by the owner within twenty-four hours of grounding; and
- (2) A vessel not in imminent danger of breaking up that is grounded on a sand beach, sandbar, or mudflat that is not removed by the owner in a manner that is reasonably safe within seventy-two hours of the owner or owner's representative receiving notice from DLNR;

provided that the foregoing shall not apply if the owner or owner's representative has received notice from DLNR and has commenced effective salvage operations.

Your Committee on Conference finds that DLNR is currently authorized to assume control of and remove a vessel that is grounded on a coral reef or in imminent danger of breaking up once the owner of the vessel has been given notice and an opportunity to safely remove the vessel in accordance with DLNR guidelines, pursuant to section 200-47.5, Hawaii Revised Statutes. However, your Committee on Conference notes that DLNR's current authority to assume control of and remove a vessel grounded on state submerged lands or a shoreline, or grounded on a sand beach, sandbar, or mudflat and not in imminent danger of breaking up, is unclear. Leaving vessels grounded in these locations can pose environmental and public safety risks. Clarifying and expanding DLNR's control of removing grounded vessels is necessary as a public safety measure that will significantly reduce avoidable impacts to Hawaii's nearshore and coastal environment.

Your Committee on Conference has amended this measure by inserting an effective date of September 1, 2017.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 992, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 992, S.D. 2, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Rhoads, Thielen and Riviere.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, none.

Representatives Ing, San Buenaventura, Gates and Thielen.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. 30 on S.B. No. 976

The purpose of this measure is to increase the Hawaii Emergency Planning and Community Right-to-Know Act, Tier II filing fee from \$100 to \$200.

Your Committee on Conference finds that Tier II filing fees provide preparedness resources to local emergency planning committees to conduct joint emergency planning response training, provide community outreach, purchase specialized equipment, and, in addition to reporting of hazardous substances, fund hazardous materials emergency preparedness activities. As operational and equipment costs have risen over the years, it is necessary to increase the fee to maintain the emergency preparedness and response capabilities of the local emergency planning committees statewide.

Your Committee on Conference has amended this measure by inserting an effective date of July 1, 2017.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 976, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 976, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Gabbard, Galuteria and Riviere.
Managers on the part of the Senate.
Ayes, 2. Noes, none. Excused, 1 (Riviere).

Representatives Belatti, Takayama, Kobayashi and Tupola.
Managers on the part of the House.
Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. 31 on H.B. No. 606

The purpose of this measure is to authorize the counties, through their employees or authorized agents, to enter private property to control or eradicate invasive species and pests.

Your Committee on Conference has amended this measure by changing its effective date to July 1, 2017.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 606, H.D. 2, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 606, H.D. 2, S.D. 2, C.D. 1.

Senators Nishihara, Gabbard and Keith-Agaran.
Managers on the part of the Senate.
Ayes, 2. Noes, none. Excused, 1 (Keith-Agaran).

Representatives Lee, San Buenaventura, Lowen and Tupola.
Managers on the part of the House.
Ayes, 3. Noes, none. Excused, 1 (Tupola).

Conf. Com. Rep. 32 on H.B. No. 425

The purpose of this measure is to:

- (1) Make specified sections of Hawaii's Code of Ethics inapplicable to technology transfer activities sponsored by the University of Hawaii; provided that the activities comply with the regulatory framework and research compliance program and policies approved by the Board of Regents; and
- (2) Require the Board of Regents to submit a status report on its regulatory framework and research compliance program and technology transfer activities to the Legislature prior to the convening of each Regular Session.

Your Committee on Conference has amended this measure by:

- (1) Clarifying in the purpose and findings section that supporting the contributions of the University of Hawaii to the economic health and diversification of the State is a matter of concern to the Legislature; and
- (2) Amending the effective date to upon its approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 425, H.D. 1, S.D. 3, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 425, H.D. 1, S.D. 3, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Kahele, Keith-Agaran and Kidani.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, none.

Representatives McKelvey, Nishimoto, Hashem, Keohokalole and Matsumoto.
Managers on the part of the House.

Conf. Com. Rep. 33 on H.B. No. 1135

The purpose of this bill is to:

- (1) Make permanent certain provisions of Act 139, Session Laws of Hawaii 2012, the Justice Reinvestment Initiative, relating to pretrial risk assessments, parole, and parole hearings;
- (2) Create standards and procedures for income-withholding for purposes of enforcing restitution orders;
- (3) Clarify the priority of income withholding orders;
- (4) Amend the definition of "debt" relating to the recovery of money owed to the State to include court-ordered restitution subject to civil enforcement;

- (5) Require that any bail posted by a defendant be applied toward payment of any court-ordered restitution in the same case; and
- (6) Extend victims' access to adult probation records to include access to payment compliance records.

Your Committee on Conference has amended this bill by:

- (1) Deleting the provisions that created standards and procedures for income-withholding for purposes of enforcing restitution orders and the priority of income withholding orders; and
- (2) Changing the effective date to upon approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1135, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1135, H.D. 1, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Nishihara, Rhoads and English.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, none.

Representatives Takayama, San Buenaventura, LoPresti and Thielen.
Managers on the part of the House.
Ayes, 3. Noes, none. Excused, 1 (LoPresti).

Conf. Com. Rep. 34 on H.B. No. 2

The purpose of this measure is to provide affordable housing for farm workers by authorizing the construction of tiny homes of less than 500 square feet for farm workers in agricultural districts in a county with a population of more than 180,000 but less than 250,000.

After careful consideration, your Committee on Conference has amended this measure by:

- (1) Authorizing the county council of a county in which tiny homes are located to adopt ordinances to oversee the tiny homes;
- (2) Requiring that all tiny homes be removed from a property when that property is no longer in agricultural use;
- (3) Changing its effective date to upon its approval; and
- (4) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 2, H.D. 2, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 2, H.D. 2, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Nishihara, Gabbard and Ihara.
Managers on the part of the Senate.
Ayes, 2. Noes, none. Excused, 1 (Ihara).

Representatives Creagan, San Buenaventura, Evans and Thielen.
Managers on the part of the House.
Ayes, 4; Ayes with Reservations (Thielen). Noes, none. Excused, none.

Conf. Com. Rep. 35 on H.B. No. 1516

The purpose of this measure is to protect the welfare of pet and equine animals by:

- (1) Permitting duly incorporated humane societies and duly incorporated societies for the prevention of cruelty to animals to petition in court for full custody of an impounded pet animal or equine animal prior to the filing of certain criminal charges against the owner or custodian of the pet animal or equine animal;
- (2) Allowing a pet animal or equine animal to be destroyed by the petitioner prior to final disposition of certain criminal charges if the pet animal or equine animal is a danger to itself or others; and
- (3) Specifying that an acquittal or dismissal in a criminal proceeding does not preclude civil proceedings under animal cruelty offenses.

After careful consideration, your Committee on Conference has amended this measure by:

- (1) Changing its effective date to upon its approval; and
- (2) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1516, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1516, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Keith-Agaran, Gabbard and Rhoads.
Managers on the part of the Senate.

Representatives Creagan, Nishimoto, Gates and Thielen.
Managers on the part of the House.

Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. 36 on H.B. No. 916

The purpose of this measure is to appropriate funds to the Department of Health, to be expended in coordination with the John A. Burns School of Medicine of the University of Hawaii at Manoa, for the health care provider loan repayment program.

Your Committee on Conference has amended this measure by:

- (1) Making a technical amendment to correctly identify the health care provider loan repayment program;
- (2) Specifying that psychologists, as well as physicians, physician assistants, and nurse practitioners may be eligible for loan repayments through the program;
- (3) Inserting an appropriation amount of \$250,000; and
- (4) Changing its effective date to July 1, 2017.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 916, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 916, H.D. 1, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Baker, Kahele, English, Ruderman and Taniguchi.
Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, 2 (Kahele, Taniguchi).

Representatives Belatti, McKelvey, Kobayashi and Tupola.
Managers on the part of the House.

Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. 37 on H.B. No. 558

The purpose of this measure is to repeal an obsolete statutory requirement that United States citizens and nationals submit tuberculosis test results to the Department of Health upon returning to the State after travel abroad to locations with a high occurrence of infectious and communicable disease.

Your Committee on Conference has amended this measure by changing its effective date to July 1, 2017.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 558, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 558, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Baker, Ihara and Nishihara.
Managers on the part of the Senate.

Ayes, 2. Noes, none. Excused, 1 (Ihara).

Representatives Belatti, Kobayashi and Tupola.
Managers on the part of the House.

Ayes, 3. Noes, none. Excused, none.

Conf. Com. Rep. 38 on H.B. No. 1444

The purpose of this measure is to require pharmacy benefit managers to register with the Insurance Commissioner as a first step toward regulating the pharmacy benefit management industry so as to provide transparency and ensure adequate consumer protection for purchasers and consumers of prescription drugs in the State.

Your Committee on Conference has amended this measure by:

- (1) Clarifying that health maintenance organizations that own or manage their own pharmacies are not required to register as pharmacy benefit managers; and
- (2) Changing its effective date to July 1, 2017.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1444, H.D. 2, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1444, H.D. 2, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Baker, Taniguchi and Kidani.
Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, none.

Representatives Belatti, Takumi, Kobayashi, Morikawa and Tupola.
Managers on the part of the House.
Ayes, 5. Noes, none. Excused, none.

Conf. Com. Rep. 39 on H.B. No. 561

The purpose of this measure is to promote patient safety by statutorily establishing notice and qualification requirements for dentists who administer general anesthesia, deep sedation, or moderate (conscious) sedation in the course of practicing dentistry.

Specifically, this measure:

- (1) Requires posting in every dental office in which general anesthesia, deep sedation, or moderate sedation is administered of contact information for the state Regulated Industries Complaints Office so that patients may verify dentists' licensure and authorization status and complaints history or file a complaint against the dentist;
- (2) Specifies education, training, staffing, facility, and protocol requirements for dentists who administer general anesthesia, deep sedation, or moderate sedation; and
- (3) Requires the Board of Dental Examiners to conduct an on-site inspection of the facilities, equipment, and personnel of licensed dentists as a condition of obtaining an authorization or permit to administer general anesthesia, deep sedation, or moderate sedation.

Your Committee on Conference has amended this measure by:

- (1) Changing its effective date to July 1, 2017; and
- (2) Making a technical, nonsubstantive amendment for the purpose of clarity.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 561, H.D. 2, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 561, H.D. 2, S.D. 1, C.D. 1.

Representatives Belatti, Takumi and Tupola.
Managers on the part of the House.
Ayes, 3. Noes, none. Excused, none.

Conf. Com. Rep. 40 on H.B. No. 852

The purpose of this measure is to:

- (1) Authorize the State Ethics Commission to post on its website for public inspection, the names of legislators, delegates to the constitutional convention, or certain employees who fail to file their financial disclosure statements by the statutory deadline;
- (2) Allow the State Ethics Commission to use in-person service, electronic mail, or first-class mail to notify legislators, delegates to the constitutional convention, or certain employees who fail to timely file their financial disclosure statements; and
- (3) Increase the administrative fine and late filing penalty fee for the failure to timely file financial disclosure statements.

Your Committee on Conference has amended this measure by making it effective upon its approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 852, H.D. 2, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 852, H.D. 2, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Keith-Agaran, Kim and Rhoads.
Managers on the part of the Senate.

Representatives Johanson, Nishimoto, Nakashima and Matsumoto.
Managers on the part of the House.
Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. 41 on S.B. No. 895

The purpose of this measure is to:

- (1) Establish the offense of criminal trespass onto state lands to prohibit a person from entering or remaining unlawfully in or upon any improved state land, or in or upon any state land on or under any highway, subject to certain conditions and exemptions;
- (2) Amend the offense of criminal trespass in the second degree by clarifying the signage posting requirements that provide notice to a person entering or remaining unlawfully on agricultural lands or unimproved or unused lands without permission and to a

person entering or remaining unlawfully in or upon the premises of any public housing project or state low-income housing project, subject to certain conditions;

- (3) Require the Department of the Attorney General to submit a written report to the Legislature prior to the Regular Sessions of 2018, 2019, and 2020, regarding the extent to which the criminal trespassing laws have been utilized; and
- (4) Clarify that this measure does not affect Native Hawaiian traditional and customary rights as set forth in the Hawaii State Constitution.

Your Committee on Conference finds that it is unclear whether existing criminal trespass laws apply to improved state lands, state land on or under any highway, or unfenced, unenclosed, or unsecured agricultural lands owned by the State. This measure addresses the application of criminal trespass laws with respect to state lands to provide a stronger and clearer deterrent to illegal activity.

Your Committee on Conference has amended this measure by:

- (1) Clarifying that the signs posted along the boundary lines that provide notice to the public regarding trespassing or property closure hours shall be placed at reasonable intervals no less than three signs to a mile along a boundary line of the property;
- (2) Prohibiting a conviction of the offense of criminal trespass onto state lands from being used to establish a felony conviction of the offense of habitual property crime under section 708-803, Hawaii Revised Statutes;
- (3) Changing the effective date to upon approval; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 895, S.D. 1, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 895, S.D. 1, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Keith-Agaran, Gabbard and Rhoads.

Managers on the part of the Senate.

Ayes, 2. Noes, none. Excused, 1 (Gabbard).

Representatives Yamane, Nishimoto and McDermott.

Managers on the part of the House.

Ayes, 2. Noes, none. Excused, 1 (McDermott).

Conf. Com. Rep. 42 on S.B. No. 119

The purpose of this measure is to:

- (1) Require landlords to disclose in writing the tenant's ability to establish a new due date for rent payment if the tenant receives public assistance; and
- (2) Establish a cap of ten percent on late rent payment fees, applicable to all new rental agreements and rental agreement renewals entered into on or after the effective date of this measure.

Your Committee on Conference finds that existing law does not set limitations on the amount of late fees that a landlord may charge a tenant, which has resulted in a wide variance in amounts charged and has led to outrageous abuses. Although this measure caps any late charges that may be provided in a rental agreement at ten percent, your Committee on Conference finds that an eight percent cap is more appropriate. An amendment to this measure is therefore necessary.

Your Committee on Conference further finds that existing law requires a landlord to honor a tenant's request to establish a new due date if the tenant is receiving public assistance. This measure requires this right to be disclosed in writing to all tenants. However, your Committee on Conference notes that, rather than requiring all landlords to disclose this requirement to all tenants, a more appropriate approach is to ensure that providers of rental assistance develop a form that can be provided to recipients of public assistance.

Accordingly, your Committee on Conference requests that the Office of Consumer Protection, Real Estate Commission, and public housing entities, including but not limited to the Hawaii Public Housing Authority, collaborate to develop a form or informational brochure that can be provided to tenants who receive public assistance, and which informs such tenants of their rights, including that a tenant receiving public assistance has the ability to move the due date to a period after which the tenant receives a public assistance payment.

Your Committee on Conference has amended this measure by:

- (1) Deleting language that would have required a landlord to disclose in writing a tenant's ability to establish a new due date for rent payment if the tenant receives public assistance;
- (2) Establishing a cap of eight percent, rather than ten percent, on late rent payment fees; and
- (3) Inserting an effective date of November 1, 2017.

Finally, your Committee on Conference notes that, after this amended measure goes into effect, the Office of Consumer Protection is requested to provide the Legislature with feedback regarding the cap on late rent payment fees established by this amended measure, including whether this cap has impacted the types of complaints regarding late fees received by the Office of Consumer Protection.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 119, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 119, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Baker, Chang and Nishihara.
Managers on the part of the Senate.
Ayes, 2. Noes, none. Excused, 1 (Nishihara).

Representatives Takumi, Fukumoto, Say and Ward.
Managers on the part of the House.
Ayes, 3. Noes, none. Excused, 1 (Fukumoto).

Conf. Com. Rep. 43 on S.B. No. 611

The purpose of this measure is to extend by ten years the June 30, 2017, sunset date of Act 83, Session Laws of Hawaii 2012, which prohibits a county from requiring the installation of automatic fire sprinklers or an automatic fire sprinkler system in detached one- or two-family dwelling units that do not require access road or water supply variances and non-residential agricultural and aquacultural buildings and structures located outside an urban area.

Your Committee on Conference finds that placing undue burdens on property owners in the State does not promote the public welfare. Retrofitting or installing automatic fire sprinklers in certain structures can be difficult and costly. Moreover, requiring owners or builders to install automatic fire sprinklers would likely cause rents and the costs of homes to rise. Given the untenable affordable housing shortage across the State, county action requiring the installation of automatic fire sprinklers could have devastating effects. Therefore, extending the June 30, 2017, sunset date of Act 83, Session Laws of Hawaii 2012, for ten years is necessary to continue the prohibition against counties requiring owners of detached one- or two-family dwelling units used only for residential purposes or non-residential agricultural and aquacultural structures located outside an urban area to retrofit or install automatic fire sprinklers.

Your Committee on Conference has amended this measure by changing the effective date to June 29, 2017.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 611, S.D. 1, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 611, S.D. 1, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Nishihara, Baker and Espero.
Managers on the part of the Senate.

Representatives Brower, Takumi and McDermott.
Managers on the part of the House.
Ayes, 3. Noes, none. Excused, none.

Conf. Com. Rep. 44 on S.B. No. 865

The purpose of this measure is to:

- (1) Require any person applying for a license as an electrical contractor, except a pole and line contractor or high voltage electrical contractor, or electronic systems contractor to also possess either an underlying trade license or an electrical engineering degree; and
- (2) Provide an exemption for public utilities and community antennae television companies.

Your Committee on Conference finds that this measure was intended to address concerns regarding a potential loophole in existing law that may enable certain sole proprietors, who have applied for electrical contractor licenses but do not possess a journey worker electrician trade license or have an electrical engineering background, to perform or supervise electrical field work on the job site. This measure therefore requires any person applying for a license as an electrical contractor, except a pole and line contractor or high voltage electrical contractor, or electronic systems contractor to possess a trade license or an electrical engineering degree from an accredited college.

However, your Committee on Conference understands the concerns raised by the Contractors License Board (Board) and the Department of Commerce and Consumer Affairs (Department) that this measure places an unfair burden on an applicant's eligibility for licensure in the C-13 (electrical contractor) or C-15 (electronic systems contractor) classifications, and may have an adverse effect on current C-13 or C-15 licensees who do not have an underlying trade license or electrical engineering degree. According to the Department and the Board, none of the more than forty contractor classifications requires an applicant to have a separate underlying trade license or educational degree. Your Committee on Conference notes that this is because there is a difference between being qualified to contract for certain types of contracting work and actually performing such contracting work.

Your Committee on Conference concludes that amendments to this measure are necessary to clarify when licensed individuals may contract for certain types of contracting work and ensure that any persons performing such work are appropriately licensed to do so, in a manner that does not overly burden or disadvantage otherwise qualified applicants and licensees.

Accordingly, your Committee on Conference has amended this measure by:

- (1) Permitting persons licensed as an electrical or plumbing contractor to enter into contracts to perform electrical or plumbing work, respectively; provided that if a contractor's responsible managing employee, which includes a sole proprietor, is not

licensed as an electrician or plumber, as applicable, then the contractor shall employ individuals who are licensed as an electrician or plumber to actually perform the electrical or plumbing work;

- (2) Clarifying that employees of a community antennae television company and employees of a public utility within the State are exempt while employed and acting within the scope of their employment;
- (3) Deleting language that would have required any person applying for a license as an electrical contractor, except a pole and line contractor or high voltage electrical contractor, or electronic systems contractor to also possess either an underlying trade license or an electrical engineering degree from an accredited college;
- (4) Changing its effective date to July 1, 2017;
- (5) Updating the purpose section to reflect its amended purpose; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 865, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 865, S.D. 1, H.D. 1, C.D. 1.

Conf. Com. Rep. 45 on S.B. No. 786

The purpose of this measure is to replace all references to “medical marijuana” and like terms with references to “medical cannabis” and like terms in state statutes and administrative rules and Department of Health documents, letterhead, websites, and other items.

Your Committee on Conference finds that the term “marijuana” originated as a slang term to describe the genus of plants that is scientifically known as cannabis. However, your Committee on Conference finds that the term “cannabis” is a more accurate and appropriate term to describe a plant that has been legalized for medicinal use in the State. Your Committee on Conference recognizes that implementation of this measure requires resources and time, and that the Department of Health’s current priority is to open dispensaries and laboratories so that patients have access to medical cannabis. It is the intent of your Committee on Conference that patients in Hawaii have access to medical cannabis and that this measure be implemented by the Department in a feasible manner.

Your Committee on Conference has amended this measure by making it effective upon its approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 786, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 786, S.D. 1, H.D. 1, C.D. 1.

Ayes, 3. Noes, none. Excused, none.

Conf. Com. Rep. 46 on S.B. No. 369

The purpose of this measure is to prohibit condominium associations, boards of directors, managing agents, resident managers, condominium owners, and persons acting on behalf of associations or condominium owners from retaliating or discriminating against a condominium owner, board member, or association employee who files a complaint; acts in furtherance of a complaint, report, or investigation of an alleged violation of the State’s condominium laws or a condominium’s governing documents; or exercises or attempts to exercise any right as a condominium owner.

Your Committee on Conference finds that although many condominium owners are comfortable raising condominium-related complaints or concerns to their association, its board, a managing agent, or a resident manager, this experience is not universal. Furthermore, condominium owners, minority members of a condominium board, or association employees who are not comfortable bringing up complaints or concerns may fail to do so because of a fear of retaliation. Accordingly, this measure strengthens protections by prohibiting condominium associations, boards, managing agents, resident managers, other owners, and persons acting on behalf of an association or condominium owner from retaliating against a condominium owner, board member, or association employee who files a complaint, acts in furtherance of a complaint, report, or investigation of an alleged violation, or exercises or attempts to exercise any right as a condominium owner.

Your Committee on Conference has amended this measure by:

- (1) Removing unnecessary language that would have added a new section in chapter 514A, Hawaii Revised Statutes;

- (2) Deleting the word “discriminate”, as the focus of this measure is on prohibiting retaliation;
- (3) Extending the protections against retaliation to managing agents and resident managers;
- (4) Inserting a definition of “retaliate” and deleting the definition for “retaliation”;
- (5) Changing its effective date to July 1, 2017; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 369, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 369, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Baker, Keith-Agaran and Espero.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, none.

Managers on the part of the House.
Ayes, 3. Noes, none. Excused, none.

Conf. Com. Rep. 47 on S.B. No. 513

The purpose of this measure is to:

- (1) Authorize pharmacists to prescribe and dispense self-administered hormonal contraceptive supplies to patients, regardless of a previous prescription from an authorized prescriber; and
- (2) Specify the requirements pharmacists must meet prior to prescribing and dispensing contraceptive supplies.

Your Committee on Conference finds that many reproductive health experts have long sought to make prescription contraceptives more readily accessible. Research indicates women are more likely to use prescription contraceptives and less likely to have unintended pregnancies when barriers are lifted to contraceptive access.

Your Committee on Conference also finds that pharmacists are in a unique position to serve as accessible health care providers when they are able to practice at the height of their profession. Furthermore, all United States accredited colleges of pharmacy prepare student pharmacists in courses related to pharmacology and therapeutic practice, including courses in contraceptive and hormonal pharmacology, reproductive physiology, and women’s health. Pharmacists are also educated on medication assessment and therapeutic recommendations and receive practical experience via clinical rotations. This measure authorizes pharmacists to prescribe and dispense self-administered hormonal contraceptive supplies to patients, provided certain requirements are met, which will increase access to prescription contraceptive supplies and decrease barriers regarding reproductive health care.

Your Committee on Conference has amended this measure by:

- (1) Clarifying that pharmacists shall be eligible for reimbursement under the Insurance Code, hospital or medical service plan contracts issued by mutual benefit societies, and policies, contracts, plans, or agreements issued by health maintenance organizations for prescribing and dispensing contraceptive supplies;
- (2) Changing its effective date to July 1, 2017; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

Finally, your Committee on Conference notes that the Insurance Commissioner has indicated to your Committee on Conference that the Commissioner will be working on appropriate carve out language, to be addressed during the next legislative session, to ensure that each time the scope of a regulated profession that receives compensation from health insurers is expanded, the Legislature does not also have to make a corresponding amendment to the relevant insurance statutes to guarantee payment for that expansion.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 513, S.D. 1, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 513, S.D. 1, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Baker, Kidani and Nishihara.
Managers on the part of the Senate.
Ayes, 2. Noes, none. Excused, 1 (Nishihara).

Representatives Belatti, Takumi, Ito and Matsumoto.
Managers on the part of the House.
Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. 48 on S.B. No. 505

The purpose of this measure is to reduce addiction, overdose, and death related to the use of opioids by:

- (1) Requiring execution of an informed consent process agreement between a patient and prescriber of opioids in circumstances that carry an elevated risk of creating dependency;

- (2) Establishing quantitative limits on initial prescriptions for opioids and benzodiazepines, subject to specified exceptions; and
- (3) Clarifying the Board of Nursing's authority to enforce compliance with the Uniform Controlled Substances Act.

Your Committee on Conference finds that Hawaii and the nation are facing an epidemic related to prescription pain relieving drugs that are causing alarming rates of addiction, overdose, and death. According to the National Institute on Drug Abuse, opioids account for the greatest proportion of the prescription drug abuse problem. Furthermore, PEW Charitable Trusts reports that opioid pain relievers killed nearly 20,000 Americans in 2014. Nationwide, legislators and community groups are trying to curb this epidemic through public education and limiting liberal opioid prescribing practices.

Your Committee on Conference further finds that informed consent is an effective process between a provider and a patient that requires a specific medication or form of treatment such as safe opioid therapy. The informed consent process allows the patient to better understand the goals of treatment, potential benefits of treatment, realistic outcomes, potential risks, how to use the medication, and alternative treatment options. Your Committee on Conference recognizes that any approach to curb the opioid epidemic must balance the medically justified and necessary use of opioid pain medication with the reality of increased opioid misuse, abuse, and overdose.

Your Committee on Conference has amended this measure by:

- (1) Making the required adoption of written policies that include execution of informed consent process agreements effective July 1, 2018;
- (2) Requiring the Department of Health to post its template of an opioid therapy informed consent process agreement on the Department's website no later than December 31, 2017;
- (3) Deleting language that would have specified items that must be included in the template for the opioid therapy informed consent process agreement;
- (4) Inserting language to make violations of the mandatory opioid therapy informed consent process not subject to the penalty provisions of part IV of chapter 329, Hawaii Revised Statutes;
- (5) Inserting language to clarify that the limits on prescriptions for opioids and benzodiazepines apply to concurrent prescriptions for the two types of drugs;
- (6) Adding cancer to the list of conditions for which a concurrent prescription for opioids and benzodiazepines for longer than seven days is authorized when medically necessary for treatment;
- (7) Decreasing the frequency with which a practitioner who prescribes an initial concurrent prescription for opioids and benzodiazepines must consult with the patient in person after authorizing subsequent prescriptions through a telephone consultation;
- (8) Changing the effective date to July 1, 2017, and inserting a sunset date of June 30, 2023; and
- (9) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 505, S.D. 1, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 505, S.D. 1, H.D. 2, C.D. 1.

Conf. Com. Rep. 49 on S.B. No. 997

The purpose of this measure is to update Hawaii's Uniform Controlled Substances Act by adding several new substances scheduled in the federal controlled substances law or emergency scheduled by the Department of Public Safety.

Your Committee on Conference finds that this measure makes Hawaii's Uniform Controlled Substances Act under chapter 329, Hawaii Revised Statutes, consistent with changes to federal law and emergency scheduling by the Department of Public Safety. Your Committee on Conference further finds that the updates made in this measure to Hawaii's Uniform Controlled Substances Act will benefit public health and safety.

Your Committee on Conference has amended this measure by:

- (1) Making it effective upon its approval; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 997, S.D. 1, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 997, S.D. 1, H.D. 2, C.D. 1.

Conf. Com. Rep. 50 on S.B. No. 488

This purpose of this measure is to allow the court to authorize an individual or entity other than a sheriff deputy or police officer to provide technical assistance to the deputy sheriff or police officer in examining an electronic device or storage media that is the subject of a search warrant.

Your Committee on Conference finds that existing law requires that a search warrant be executed by a law enforcement officer. However, there are many cases involving electronic evidence where law enforcement officers are unable to execute a search warrant without specialized assistance from non-law enforcement personnel. This measure facilitates more efficient and effective investigations and searches while allowing the judge or magistrate to set limitations on the manner in which the assistance is provided.

Your Committee on Conference has amended this measure by changing the effective date to upon its approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 488, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 488, S.D. 1, H.D. 1, C.D. 1.

Conf. Com. Rep. 51 on H.B. No. 1098

The purpose of this measure is to provide the Department of Human Services (DHS) with sufficient flexibility to address the diverse needs of the State's homeless population as it relates to Act 234, Session Laws of Hawaii (SLH) 2016, which was established to address homelessness and includes a strategy to make the homeless shelter system more cost effective and appealing to homeless families and individuals.

Specifically, this measure:

- (1) Permits, rather than requires, emergency shelters to have partitioned space for each homeless family or individual, which provides separation from other homeless families or individuals in the shelter;
- (2) Delays by one year, the requirement that contracts between DHS and emergency or transitional shelter providers comply with Act 234, SLH 2016; and
- (3) Delays the effective date of Act 234, SLH 2016, by one year, to July 1, 2018, except for subsection (c) of section 6 of the Act, which requires DHS to work with provider agencies to implement the Act, and which took effect on July 1, 2016.

Your Committee on Conference has amended this measure by changing its effective date to June 30, 2017.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1098, H.D. 2, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1098, H.D. 2, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Green, Espero and Galuteria.
Managers on the part of the Senate.
Ayes, 2. Noes, none. Excused, 1 (Espero).

Representatives Morikawa, San Buenaventura, Gates and Tupola.
Managers on the part of the House.
Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. 52 on H.B. No. 674

The purpose of this measure is to:

- (1) Require all child care providers to obtain and maintain liability insurance as a condition of licensure, temporary permission, or registration to operate a child care facility, and disclose certain liability insurance coverage information to parents or guardians applying to have their child cared for at the facility;
- (2) Authorize the Department of Human Services (DHS) to suspend or revoke a license, temporary permit, or certificate of registration if the provider does not comply with the insurance coverage and disclosure requirements; and

- (3) Require DHS to submit a report to the Legislature prior to the Regular Session of 2018 on specified issues related to the liability insurance requirements established by this measure.

Your Committee on Conference believes that requiring child care providers to obtain and maintain liability insurance as a condition of operating a child care facility serves to strengthen minimum standards of child care as they relate to the health and safety of children. Enhanced child care licensing requirements and improved child care facility disclosure requirements will also aid in reducing risks associated with low-quality child care services and support parents and guardians in making critical decisions in child care placement.

Your Committee on Conference has amended this measure by:

- (1) Specifying that this measure shall be known and may be cited as the “Wiley Kaikou Muir Act”; and
- (2) Changing its effective date to July 1, 2017.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 674, H.D. 2, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 674, H.D. 2, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Green, Kidani and Galuteria.
Managers on the part of the Senate.
Ayes, 2. Noes, none. Excused, 1 (Kidani).

Representatives Morikawa, Todd, Kobayashi and Tupola.
Managers on the part of the House.
Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. 53 on H.B. No. 1396

The purpose of this measure is to recognize the varied needs of the State’s aging population by authorizing the Department of Health, in consultation with the Department of Human Services, to allow two private-pay individuals to be cared for in the same community care foster family home, provided certain requirements are met.

Your Committee on Conference notes that there is an ever-increasing need for community care foster family homes to support the health and long-term care needs of an aging population and families in the State. Under current law, community care foster family homes are generally licensed to provide accommodations and services to not more than two residents at any one time, one of whom must be a Medicaid recipient, who are at the nursing facility level of care. Under current law, a community care foster family home may request a third bed; however, the third bed must be for a Medicaid recipient.

Besides providing accommodations to Medicaid recipients, community care foster family homes also provide accommodations and services to private-pay individuals. Your Committee on Conference finds that not only are Medicaid recipients affected by the rising costs of long-term care, so are individuals who do not rely on Medicaid. Your Committee on Conference believes it is necessary to address the varied needs of the State’s aging population by providing the Department of Health with the flexibility to allow, subject to certain conditions, two private-pay individuals who are married or in a civil union to be cared for in the same community care foster family home, provided that the care home also provides care and services to a third adult resident who is a Medicaid recipient and subject to other specified conditions.

Your Committee on Conference has amended this measure by:

- (1) Changing its effective date to upon its approval; and
- (2) Making technical, nonsubstantive amendments for clarity and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1396, H.D. 2, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1396, H.D. 2, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Green, Baker and Galuteria.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, none.

Representatives Morikawa, San Buenaventura, Kobayashi and Tupola.
Managers on the part of the House.
Ayes, 4; Ayes with Reservations (San Buenaventura). Noes, none. Excused, none.

Conf. Com. Rep. 54 on H.B. No. 1099

The purpose of this measure is to bring the State in compliance with the Justice for Victims of Trafficking Act of 2015, Public Law 114-22, and the Child Abuse Prevention and Treatment Act of 2010, Public Law 111-320, by:

- (1) Amending the definition of “child abuse or neglect” to ensure that mandated reporters of child abuse and neglect report to the Department of Human Services (DHS) known or suspected child victims of sex trafficking;
- (2) Ensuring that records and information contained in child abuse and neglect reports that are expunged may be retained by DHS solely for future risk and safety assessment purposes; and

- (3) Replacing references to unsubstantiated reports with “not confirmed” reports.

Your Committee on Conference has amended this measure by:

- (1) Redefining “sex trafficking” to conform to federal law;
- (2) Defining “severe forms of trafficking in persons” to conform to federal law;
- (3) Amending the definition of “child abuse or neglect” to include acts or omissions resulting in severe forms of trafficking in persons, provided that no finding by the Department of Human Services shall be used as conclusive evidence that a person has committed a labor trafficking or sex trafficking offense; and
- (4) Changing its effective date to May 29, 2017.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1099, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1099, H.D. 1, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Green, Keith-Agaran and Chang.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, none.

Representatives Morikawa, San Buenaventura and Tupola.
Managers on the part of the House.
Ayes, 3. Noes, none. Excused, none.

Conf. Com. Rep. 55 on H.B. No. 73

The purpose of this measure is to adopt technical, nonsubstantive amendments to Act 48, Session Laws of Hawaii 2016, by removing references to subsections.

Your Committee on Conference has amended this measure by making it effective upon approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 73, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 73, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Keith-Agaran, Rhoads and Thielen.
Managers on the part of the Senate.
Ayes, 2. Noes, none. Excused, 1 (Rhoads).

Representatives Nishimoto, San Buenaventura and McDermott.
Managers on the part of the House.
Ayes, 3. Noes, none. Excused, none.

Conf. Com. Rep. 56 on H.B. No. 279

The purpose of this measure is to clarify the law relating to campaign contributions and expenditures by specifying that certain types of dissemination, distribution, republication, and use of campaign materials or the financing of those campaign materials by any person shall not be considered a contribution to a candidate.

Your Committee on Conference has amended this measure by making it effective upon approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 279, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 279, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Keith-Agaran, Kim and Rhoads.
Managers on the part of the Senate.
Ayes, 2. Noes, none. Excused, 1 (Kim).

Representatives Nishimoto, Lee and McDermott.
Managers on the part of the House.
Ayes, 2. Noes, none. Excused, 1 (McDermott).

Conf. Com. Rep. 57 on H.B. No. 280

The purpose of this measure is to:

- (1) Clarify the filing due dates for preliminary, final, and supplemental reports submitted to the Campaign Spending Commission by candidate committees;
- (2) Require candidates who are elected and sworn into office within thirty days after a general, subsequent, subsequent special, or subsequent nonpartisan election to file their final election period reports no later than three business days before the date the candidate is sworn into office; and

- (3) Require candidate committees to file their supplemental reports on January 31 of each year.

Your Committee on Conference has amended this measure by making it effective upon approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 280, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 280, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Keith-Agaran, Rhoads and Thielen.
Managers on the part of the Senate.
Ayes, 2. Noes, none. Excused, 1 (Rhoads).

Representatives Nishimoto, Lee and McDermott.
Managers on the part of the House.
Ayes, 3. Noes, none. Excused, none.

Conf. Com. Rep. 58 on H.B. No. 281

The purpose of this measure is to:

- (1) Require the Campaign Spending Commission to additionally publish on its website the names of noncandidate committees that have failed to file a report or timely correct a report; and
- (2) Establish a two week deadline for candidate and noncandidate committees to correct a report.

Your Committee on Conference has amended this measure by making it effective upon approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 281, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 281, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Keith-Agaran, Kim and Rhoads.
Managers on the part of the Senate.
Ayes, 2. Noes, none. Excused, 1 (Kim).

Representatives Nishimoto, Lee and McDermott.
Managers on the part of the House.
Ayes, 2. Noes, none. Excused, 1 (McDermott).

Conf. Com. Rep. 59 on H.B. No. 282

The purpose of this measure is to clarify that a noncandidate committee may be subject to fines if it fails to timely file a second preliminary general report by the due date.

Your Committee on Conference has amended this measure by making it effective upon approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 282, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 282, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Keith-Agaran, Rhoads and Thielen.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, none.

Representatives Nishimoto, Lee and McDermott.
Managers on the part of the House.
Ayes, 3. Noes, none. Excused, none.

Conf. Com. Rep. 60 on H.B. No. 1033

The purpose of this measure is to allow state and county agencies to participate in the administrative process afforded by the Hawaii Administrative Procedure law, Chapter 91, Hawaii Revised Statutes, by including "agencies" within the definition of "persons" in section 91-1, Hawaii Revised Statutes.

Your Committee on Conference has amended this measure by making it effective upon approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1033, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1033, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Keith-Agaran, Gabbard and Rhoads.
Managers on the part of the Senate.
Ayes, 2. Noes, none. Excused, 1 (Gabbard).

Representatives Nishimoto, Brower, San Buenaventura and McDermott.
Managers on the part of the House.
Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. 61 on S.B. No. 950

The purpose of this measure is to update requirements related to licensed mortgage servicers by:

- (1) Requiring approval by the Commissioner of Financial Institutions for a change in control of a mortgage servicer licensee; and
- (2) Clarifying which persons associated with a mortgage servicer are presumed to exercise control and are subject to interviews, examination, and disclosure requirements.

Your Committee on Conference finds that mortgage servicers often have relationships with borrowers that can last thirty years or more and can have a direct impact on what is often a consumer's largest asset. This measure requires the Commissioner of Financial Institutions to approve a change in control of a mortgage servicer licensee; enhances consumer protection by specifying when an individual is presumed to control a mortgage servicer; and enables the Commissioner to make certain determinations regarding the fitness of the person who will obtain control and the impact of the change in control on the public interest. Your Committee on Conference further finds that this measure makes the State's mortgage servicer law more effective and efficient, improves compliance within the mortgage servicer industry, and enhances the Division of Financial Institution's regulatory oversight and enforcement abilities.

Your Committee on Conference has amended this measure by:

- (1) Changing its effective date to September 1, 2017; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 950, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 950, S.D. 2, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Baker, Taniguchi and Chang.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, none.

Representatives Ohno, Takumi, Choy and Ward.
Managers on the part of the House.
Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. 62 on S.B. No. 946

The purpose of this measure is to update the existing authority of the Department of Commerce and Consumer Affairs (Department) to adjust licensing fees, subject to the approval of the Governor, to include:

- (1) Licensing regulatory areas not currently referenced in section 92-28, Hawaii Revised Statutes; and
- (2) All future licensing regulatory areas statutorily assigned to or placed within the Department.

Your Committee on Conference finds that since 2007, six new licensing areas have been added to the Department's Professional and Vocational Licensing Division for regulation. These six new licensing areas are athletic trainers, behavior analysts, mixed martial arts, respiratory therapists, uniform athlete agents, and veterinary technicians. This measure authorizes the Department to adjust licensing fees for these licensing areas and any future licensing regulatory areas assigned to the Department, subject to the approval of the Governor, which ensures that the Department is able to timely increase or decrease fees for professional and vocational areas under its jurisdiction in a manner that is fair and impartial to all licensees.

Your Committee on Conference has amended this measure by changing its effective date to upon its approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 946, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 946, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Baker, Taniguchi and Nishihara.
Managers on the part of the Senate.
Ayes, 2. Noes, none. Excused, 1 (Nishihara).

Representatives Ohno, Takumi, Choy and Matsumoto.
Managers on the part of the House.
Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. 63 on S.B. No. 951

The purpose of this measure is to update the State's mortgage loan origination law by clarifying:

- (1) Persons who are presumed to control a mortgage loan originator company;

- (2) Procedures for change in control of a licensee;
- (3) Persons who must disclose their relevant criminal history and criminal history background checks upon application for licensure and change in control of the licensee;
- (4) Criminal background check fee requirements; and
- (5) Conditions under which an employee performing mortgage loan origination activities for a nonprofit is exempt from registration and licensure as a mortgage loan originator.

Your Committee on Conference finds that among other things, this measure helps identify persons who are presumed to control a mortgage loan originator company, clarifies procedures for change in control of a licensee, and adds requirements to protect consumers in their mortgage loan origination transactions with exempt sponsoring mortgage loan originator companies. This measure ensures the State can provide appropriate supervision of the mortgage loan origination industry, as required by federal law; makes the State's mortgage loan origination law clearer and more effective; improves compliance within the industry; enhances the Division of Financial Institutions' regulatory oversight and enforcement of the mortgage loan origination industry; and elevates consumer protection.

Your Committee on Conference has amended this measure by:

- (1) Changing its effective date to September 1, 2017; and
- (2) Making technical, nonsubstantive amendments for purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 951, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 951, S.D. 2, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Baker, Taniguchi and Chang.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, none.

Representatives Ohno, Takumi, Choy and Ward.
Managers on the part of the House.
Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. 64 on S.B. No. 100

The purpose of this measure is to:

- (1) Repeal chapter 23, parts VI and VII, Hawaii Revised Statutes, requiring the Auditor to review certain tax exemptions, exclusions, deductions, and credits;
- (2) Require the Department of Taxation (DOTAX) to conduct reviews of certain tax exemptions, exclusions, deductions, and credits, beginning in 2019; and
- (3) Require DOTAX to publish a report on certain tax expenditures and report to the Legislature on a specified schedule.

Your Committee on Conference finds that the Auditor is the appropriate office to conduct the reviews of the exemptions, exclusions, credits, and deductions envisioned pursuant to Acts 245 and 261, Session Laws of Hawaii 2016, (Acts 245 and 261) codified in chapter 23, parts VI and VII, Hawaii Revised Statutes. Your Committee on Conference further finds that delaying the original review schedule is necessary due to the tax system modernization project underway at DOTAX and the unavailability of certain tax incentive data. Your Committee on Conference finds that the completed reviews will yield more relevant, meaningful, and accurate results if delayed for one year. Your Committee on Conference further finds that for the Auditor to complete the required reviews, it is necessary to provide the Auditor with access to DOTAX records and to clarify the standards to be used by the Auditor in the reviews.

Your Committee on Conference has amended this measure by deleting its contents and inserting the contents of the S.D. 2 version, which amends the provisions of the Auditor's review of exemptions, exclusions, credits, and deductions established under Acts 245 and 261 by:

- (1) Requiring DOTAX to provide the Auditor with any tax records that are necessary to conduct the reviews and establishing confidentiality requirements concerning the data;
- (2) Requiring that the reviews be made on a calendar year basis, rather than a fiscal year basis;
- (3) Clarifying the review criteria regarding the achievement of the legislative purpose of the exemption, exclusion, credit, or deduction;
- (4) Delaying the review schedules established under Acts 245 and 261;
- (5) Adding the organic foods production tax credit enacted by Act 258, Session Laws of Hawaii 2016, to the review schedule;
- (6) Requiring a status report to the Legislature on the Auditor reviews required pursuant to Acts 245 and 261; and
- (7) Appropriating funds to the Auditor to conduct the reviews required pursuant to Acts 245 and 261.

Your Committee on Conference has further amended this measure by:

- (1) Removing the provision requiring a status report to the Legislature on the Auditor reviews required pursuant to Acts 245 and 261;

- (2) Removing the appropriation to the Auditor to conduct the reviews required pursuant to Acts 245 and 261;
- (3) Making it effective upon its approval; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 100, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 100, S.D. 2, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Kim, Tokuda and Ruderman.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, none.

Representatives Luke, Cullen and Tupola.
Managers on the part of the House.
Ayes, 3. Noes, none. Excused, none.

Conf. Com. Rep. 65 on S.B. No. 339

The purpose of this measure is to authorize all class B and class C felony charges to be instituted by written information subject to specified exceptions.

Your Committee on Conference finds that existing law enumerates fourteen class B felonies and ninety-four class C felonies that may be instituted by written information. Each time a new offense is created or added to the list of offenses that may be chargeable by written information, section 806-83, Hawaii Revised Statutes (HRS), must be amended to reflect this addition. By specifying certain offenses that shall not be, rather than listing offenses that may be, instituted by written information, this measure creates greater efficiency in implementing the written information charging law.

Your Committee on Conference has amended this measure by changing the effective date to upon its approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 339, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 339, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Keith-Agaran, Rhoads and Gabbard.
Managers on the part of the Senate.
Ayes, 2. Noes, none. Excused, 1 (Gabbard).

Representatives Nishimoto, San Buenaventura and McDermott.
Managers on the part of the House.
Ayes, 2. Noes, none. Excused, 1 (McDermott).

Conf. Com. Rep. 66 on S.B. No. 322

The purpose of this measure is to:

- (1) Clarify that the circuit courts have concurrent jurisdiction with the family court over certain felonies when multiple offenses are charged and at least one of the offenses is a violation of the offense of endangering the welfare of a minor in the first degree, endangering the welfare of a minor in the second degree, or endangering the welfare of an incompetent person; and
- (2) Clarify that the district courts have concurrent jurisdiction with the family court of any violation of the offense of endangering the welfare of a minor in the second degree or endangering the welfare of an incompetent person when multiple offenses are charged and at least one of the offenses is a criminal offense within the jurisdiction of the district courts.

Your Committee on Conference finds that circuit, district, and family courts each have exclusive, original jurisdiction over certain matters as provided by law. There may be circumstances in which an entire act may be comprised of charges for which courts have separate exclusive jurisdiction. However, double jeopardy protections require that a defendant be charged with all known potential charges at the same time. As a result, the State must choose between charging the defendant in circuit, district, or family court based on the jurisdiction of each court. This measure will allow the circuit and district courts to have concurrent jurisdiction with the family court over certain endangerment offenses under certain circumstances to allow for proper charging and prosecution of these cases.

Your Committee on Conference has amended this measure by changing the effective date to upon its approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 322, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 322, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Keith-Agaran, Kim and Rhoads.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, none.

Representatives Nishimoto, Oshiro and McDermott.
Managers on the part of the House.

Ayes, 3. Noes, none. Excused, none.

Conf. Com. Rep. 67 on S.B. No. 947

The purpose of this measure is to:

- (1) Authorize the Department of Commerce and Consumer Affairs to issue a citation for specific violations of beauty culture laws by licensees and permittees; and
- (2) Establish a process for licensees and permittees in violation of beauty culture laws to contest the citation for the assessment of fines for each violation.

Your Committee on Conference finds that this measure expedites the Regulated Industries Complaints Office's enforcement of certain technical violations of the beauty culture laws and promotes swift compliance by licensees and permittees. Your Committee on Conference further finds that the citation process established by this measure also enables the Regulated Industries Complaints Office's staff to concentrate their efforts and resources on more serious violations.

Your Committee on Conference has amended this measure by changing its effective date to July 1, 2017.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 947, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 947, S.D. 2, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Baker, Galuteria and Chang.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, none.

Representatives Ohno, Takumi, San Buenaventura, Choy and Ward.
Managers on the part of the House.
Ayes, 5. Noes, none. Excused, none.

Conf. Com. Rep. 68 on S.B. No. 1264

The purpose of this measure is to amend the process for registration, license renewal, instruction, and training for security guards.

Your Committee on Conference finds that since 2013, applicants for guard licensure have had to meet certain registration, renewal, instruction, and training requirements prior to acting as a guard. In addition, the Board of Private Detectives and Guards (Board) and the Department of Commerce and Consumer Affairs have been working diligently to address the concerns of the security guard industry regarding the registration and renewal process for guard licensure. Your Committee on Conference notes that the Board has made a number of process improvements to minimize application processing times and ensure that application backlogs are kept to a minimum.

Your Committee on Conference further finds that this measure amends the process for registration, license renewal, instruction, and training for security guards. However, additional amendments to this measure are necessary that can reduce the time and cost of licensure for security guards and further streamline the registration process, without compromising essential consumer protection.

Accordingly, your Committee on Conference has amended this measure by:

- (1) Clarifying that, beginning on June 30, 2018, the registration renewal cycle for security guards shall be on a triennial basis, while maintaining a biennial registration renewal cycle for other licensees within the Board's jurisdiction;
- (2) Specifying that security guards must meet certain registration, instruction, and training requirements prior to acting as a guard, rather than meeting these requirements from the first day of employment;
- (3) Allowing a security guard applicant for registration to self-attest that the applicant possesses a high school education or its equivalent, as part of the application process;
- (4) Clarifying that an applicant must submit to a national criminal history record check as authorized by federal law and a criminal history record check from the Hawaii Criminal Justice Data Center, as part of the application process;
- (5) Clarifying that guards and individuals acting in a guard capacity shall successfully complete eight hours of classroom instruction before the first day of service and, prior to the June 30, 2021, triennial registration renewal and every registration renewal thereafter, four hours of classroom instruction during each triennial registration renewal period;
- (6) Deleting language that required the Board to establish the number of hours of classroom instruction that must be completed by guards and individuals acting in a guard capacity and permitted the Board to require up to eight hours of classroom instruction before the first day of service and at every triennial registration renewal period;
- (7) Clarifying that the definition of "classroom instruction" applies to the initial instruction and continuing education requirements and includes two-way teleconferencing and other interactive educational formats approved by the Board;
- (8) Specifying that guards who registered with the Board within one year prior to the applicable registration renewal date are not required to take the four hours of classroom instruction prior to renewing their guard registration;
- (9) Changing its effective date to July 1, 2017; and
- (10) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1264, S.D. 1, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1264, S.D. 1, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Ayes, 2. Noes, none. Excused, 1 (Nishihara).

Representatives Ohno, Takumi, Woodson and Ward.
Managers on the part of the House.
Ayes, 3. Noes, none. Excused, 1 (Ward).

Conf. Com. Rep. 69 on S.B. No. 396

The purpose of this measure is to amend the procedure for clearing titles to include reassignments or releases of leases and rents, for which the underlying debt has been fully paid or satisfied.

Your Committee on Conference finds that lenders may secure loans to a borrower through a mortgage and an assignment of the borrower's rights in leases and rents. Once a loan is paid in full and satisfied, the parties to the loan generally record a release of the mortgage but sometimes fail to record a release or reassignment of the security interest in leases and rents. As a result, many of these recorded assignments of leases and rents remain on the public record and continue to be found in subsequent title searches involving a property, even though these assignments are no longer enforceable.

Your Committee on Conference further finds that title insurers and underwritten title companies are authorized to execute the release of a satisfied mortgage in certain circumstances, such as non-compliance by a mortgagee with a demand to release a satisfied mortgage; however, there is no corresponding mechanism for clearing the public record of the assignments of leases and rents. This measure amends the procedure for clearing titles to include reassignments or releases of leases and rents, which enables title companies to better facilitate the clearing of extraneous security interests on titles to real property from the public record.

Your Committee on Conference has amended this measure by:

- (1) Clarifying that the required reassignment or release of the security interest in leases or rents applies to a borrower's interest in leases or rents in the same way that it applies to a mortgageor's interest in leases and rents; and
- (2) Changing its effective date to July 1, 2017.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 396, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 396, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Baker, Keith-Agaran and Chang.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, none.

Representatives Ohno, Takumi, Choy and Ward.
Managers on the part of the House.
Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. 70 on S.B. No. 314

The purpose of this measure is to amend the law regarding the disclosure requirements of an arbitrator in an arbitration by:

- (1) Clarifying that an interest or relationship that is required to be disclosed by an arbitrator includes a direct and material financial or personal interest in the outcome of the arbitration proceeding, or an existing or past substantial relationship with any of the parties to the agreement to arbitrate or other interested parties to the arbitration proceeding; and
- (2) Clarifying that if the court determines the arbitrator failed to disclose an interest or relationship that a reasonable person would consider likely to affect the impartiality of the arbitrator, then the court may determine that such a failure to disclose constituted evident partiality and vacate an award made by the arbitrator.

Your Committee on Conference finds that two recent decisions by the Supreme Court of Hawaii have affected the law relating to the disclosure requirements of an arbitrator that authorizes the trial court to vacate an arbitration award if the arbitrator failed to disclose a known fact that a reasonable person would consider likely to affect the impartiality of the arbitrator. In these two decisions, the Hawaii State Supreme Court held that an arbitrator's nondisclosure of information that may affect the arbitrator's impartiality constituted evident partiality as a matter of law and that the court was required to vacate the arbitrator's decision. This measure authorizes the trial court to determine the facts then impose relief that is appropriate and provides specific standards to enable the trial court to determine whether the arbitrator failed to disclose an interest or relationship that a reasonable person would consider likely to affect the impartiality of the arbitrator and whether to vacate an award made by an arbitrator who failed to disclose that information.

Your Committee on Conference has amended this measure by changing the effective date to upon its approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 314, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 314, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Keith-Agaran, Kim and Rhoads.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, none.

Representatives Nishimoto, Oshiro and McDermott.
Managers on the part of the House.

Conf. Com. Rep. 71 on H.B. No. 1258

The purpose of this measure is to:

- (1) Establish registration requirements and driver's licensing requirements for operation of autocycles;
- (2) Require all dealers, sellers, lessors, and rental agencies to disclose certain information, as applicable, regarding each autocycle offered for sale, lease, or rent; and
- (3) Define "autocycle".

Your Committee on Conference has amended this measure by:

- (1) Deleting the definition of "autocycle";
- (2) Amending the definition of "motorcycle" to include every motor vehicle that has a steering wheel and seating that does not require the operator to straddle or sit astride on it, and is designed to travel on three wheels in contact with the ground, called an autocycle which is certified by the manufacturer to comply with all applicable federal motor vehicle safety standards as of the date of manufacture;
- (3) Requiring a person riding upon an autocycle to be sitting in the seat and facing forward;
- (4) Prohibiting a person from operating an autocycle while carrying any package, bundle or other article which prevents the person from keeping both hands on the steering wheel of the autocycle;
- (5) Changing its effective date to January 1, 2018; and
- (6) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1258, H.D. 2, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1258, H.D. 2, S.D. 2, C.D. 1.

Conf. Com. Rep. 72 on H.B. No. 727

The purpose of this measure is to:

- (1) Allow the operator of a motorcycle or motor scooter to engage in "motorcycle lane filtering" or to proceed cautiously between stopped lanes of traffic and on shoulders on certain roadways as determined by the Department of Transportation (Department) until June 30, 2021; and
- (2) Require the Department to submit written reports regarding the impact of motorcycle lane filtering on traffic safety to the Legislature prior to the convening of the Regular Sessions of 2020 and 2021.

Your Committee on Conference has amended this measure by:

- (1) Removing the preamble;
- (2) Clarifying that the Department has discretion to authorize the operator of a motorcycle or motor scooter to proceed cautiously upon the shoulder of roadways, when traffic is stopped due to a marked or unmarked intersection or congestion;
- (3) Clarifying that the operator of the motorcycle or motor scooter shall safely maneuver into the adjacent lane the operator was previously on:
 - (A) Once the lane is free of traffic; or
 - (B) Once the lane of traffic begins to move forward;
- (4) Removing the requirement that the Department report on the impact of motorcycle lane filtering on traffic safety;
- (5) Changing its effective date to July 1, 2017; and

- (6) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 727, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 727, H.D. 1, S.D. 2, C.D. 1.

Conf. Com. Rep. 73 on H.B. No. 554

The purpose of this measure is to establish criteria and a process for administrative orders to provide necessary medical treatment to persons who are involuntarily committed to an inpatient psychiatric facility or are inmates or detainees in the custody of the Department of Public Safety who are unable or unwilling to consent to the provision of treatment.

Your Committee on Conference has amended this measure by:

- (1) Deleting provisions relating to administrative orders for treatment of inmates and detainees in the custody of the Department of Public Safety;
- (2) Adding new language requiring the Department of Health and Department of Public Safety to collaborate on recommendations for an administrative process for orders to provide psychiatric treatment to inmates and detainees, based on best practices in other jurisdictions;
- (3) Requiring the Department of Health to report annually to the Legislature on the Department's implementation and use of the administrative process established by this Act and on the Department's use of the Assisted Community Treatment process under existing statutes to provide medical and psychiatric care to individuals on an outpatient basis;
- (4) Changing its effective date to July 1, 2017, and inserting a seven-year sunset; and
- (5) Making technical, nonsubstantive amendments for the purpose of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 554, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 554, H.D. 1, S.D. 2, C.D. 1.

Conf. Com. Rep. 75 on H.B. No. 459

The purpose of this measure is to require written notice of the identity of a firearms permit applicant whose application had been denied because of restrictions established by federal or state law to:

- (1) Certain law enforcement agencies;

- (2) The court that issued a protective or restraining order on a firearm permit applicant; and
- (3) The probation or parole officer of the firearms permit applicant.

Your Committee on Conference has amended this measure to be effective upon its approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 459, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 459, H.D. 1, S.D. 1, C.D. 1.

Conf. Com. Rep. 76 on S.B. No. 572

The purpose of this measure is to authorize the Office of Information Practices, rather than individual government agencies, to adopt administrative rules regarding agency record protection responsibilities for all state and county agencies that are subject to the Uniform Information Practices Act to uniformly follow and implement.

Your Committee on Conference finds that existing law authorizes each agency to individually adopt administrative rules to protect agency records and prevent manifestly excessive interference with agency duties. This measure promotes uniformity among agencies that are subject to the Uniform Information Practices Act by authorizing the Office of Information Practices to adopt rules that establish a single standard for agencies to follow.

Your Committee on Conference has amended this measure by changing the effective date to July 1, 2017.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 572, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 572, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Keith-Agaran, Kim and Rhoads.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, none.

Representatives Nishimoto, Oshiro and McDermott.
Managers on the part of the House.
Ayes, 3. Noes, none. Excused, none.

Conf. Com. Rep. 77 on S.B. No. 288

The purpose of this measure is to:

- (1) Authorize motor vehicle and boat towing options, after notice is provided to occupants, for self-service storage facilities after sixty or more days of delinquency;
- (2) Require owners to notify occupants via electronic mail then by certified mail;
- (3) Allow owners to publish notices of sales in any commercially reasonable manner, conduct sales online, and charge late fees;
- (4) Require late fees to be provided for in rental agreements; and
- (5) Require owners to notify occupants of the changes in the law.

Your Committee on Conference finds that the State's self-storage facilities lien law has remained virtually unchanged since its enactment in 1984. Consequently, the existing law does not adequately reflect or support current self-storage facilities businesses, including facility owners and storage unit occupants. This measure therefore modernizes and clarifies Hawaii's self-storage facilities lien laws.

Your Committee on Conference has amended this measure by:

- (1) Incorporating the terms "motor vehicle" and "boat" within the term "vehicle", for purposes of applying the relevant towing section in chapter 290, Hawaii Revised Statutes, to the self-storage lien law;
- (2) Clarifying the forms of notice that must be provided to occupants, including:
 - (A) Requiring notice to be provided at an occupant's last known electronic mail address and last known postal address, postage prepaid, for notice of default and lien, and permitting an occupant to respond to the notice of default and lien via electronic mail;
 - (B) Requiring notice to be provided at an occupant's last known electronic mail address and last known postal address, postage prepaid, for notice of lien; and

- (C) Requiring notice to be provided to an occupant's last known electronic mail address and last known address, by certified mail, postage prepaid, for notice of final demand and sale;
- (3) Deleting language that would have required any late fees charged by self-service storage facility owners to be provided for in the rental agreement, and would have permitted a late fee of \$20 or twenty percent of the monthly rental amount, whichever is greater, for each late rental payment;
- (4) Specifying that if a contract contains a limitation on value provision, this limitation shall be the maximum value of the stored property and shall not be less than \$1,000, and permitting the occupant to increase the limit on the value of the property with written permission of the owner;
- (5) Changing its effective date to upon its approval; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 288, S.D. 2, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 288, S.D. 2, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Baker, Keith-Agaran and Ihara.
Managers on the part of the Senate.

Representatives Takumi, Nishimoto, Say and Ward.
Managers on the part of the House.
Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. 78 on S.B. No. 949

The purpose of this measure is to:

- (1) Make various updates to the Money Transmitters Act, chapter 489D, Hawaii Revised Statutes, including:
- (A) Clarifying that transactions related to decentralized virtual currency are not subject to the Money Transmitters Act;
- (B) Clarifying permissible investment requirements for money transmitter licensees; and
- (C) Updating requirements for applications, extraordinary reporting requirements, change in control of licensee, and criminal history record checks; and
- (2) Establish the Decentralized Virtual Currency Working Group to be placed with the Department of Commerce and Consumer Affairs.

Your Committee on Conference finds that money transmitters are responsible for transmitting billions of dollars for consumers to locations around the world. Improper practices can result in loss of consumer funds and movement of money promoting or derived from unlawful activity. This measure makes various updates to clarify and strengthen Hawaii's Money Transmitters Act, which will improve licensee compliance, enhance the Division of Financial Institutions' ability to effectively administer the money transmitters law, ensure the law is more clearly applicable to new technology and creative payment options, and enhance consumer protection by strengthening requirements for background information on persons associated with a money transmitter licensee.

Your Committee on Conference further finds that this measure also exempts transactions related to decentralized virtual currency from the Money Transmitters Act and establishes a working group to study whether decentralized virtual currency should be regulated under the Money Transmitters Act. Your Committee on Conference notes that virtual currency is a highly complex, relatively novel payment model. Although the National Conference of Commissioners on Uniform State Laws has established a committee to examine the need for and feasibility of drafting uniform state legislation on the regulation of virtual currencies, the committee's work is still in progress. As such, your Committee on Conference believes it is prudent not to exempt decentralized virtual currency from the State's Money Transmitters Act at this time. Furthermore, your Committee on Conference also notes that the Commissioner of Financial Institutions has indicated a willingness to continue discussions regarding the issues surrounding virtual currency during the upcoming legislative interim.

Accordingly, your Committee on Conference has amended this measure by:

- (1) Deleting the definition of "decentralized virtual currency";
- (2) Deleting language that would have exempted transactions related to decentralized virtual currency from the Money Transmitters Act;
- (3) Deleting language that would have established the Decentralized Virtual Currency Working Group within the Department of Commerce and Consumer Affairs;
- (4) Changing its effective date to September 1, 2017; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 949, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 949, S.D. 1, H.D. 1, C.D. 1.

Conf. Com. Rep. 79 on S.B. No. 655

The purpose of this measure is to allow the news media, subject to certain conditions, to access areas that are closed pursuant to the emergency management powers of the Governor and Mayors.

Your Committee on Conference finds that a freely functioning news media is essential for maintaining a free and open society. The news media serves the invaluable purpose of relaying necessary and timely information to the public, and the need for this media role is even more urgent in an emergency or crisis situation. However, existing state laws do not ensure robust media access during emergency or crisis situations. Therefore, it is important to update these laws to ensure the maximum access possible for news media during emergency situations. Accordingly, this measure:

- (1) Allows a duly authorized representative of any news service, newspaper, radio station, television station, or online news distribution network, under certain conditions, to enter an area closed pursuant to the emergency management powers of the Governor or Mayors, if providing media access is reasonable, safe, and does not hinder ongoing response and recovery activities; and
- (2) Specifies that the State, counties, and designated emergency management officials are not responsible for providing logistical support to news media accessing closed emergency areas.

Your Committee on Conference has amended this measure by:

- (1) Inserting language that limits the liability of the State and counties arising from media representatives entering a closed emergency area; and
- (2) Changing the effective date to upon its approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 655, S.D. 2, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 655, S.D. 2, H.D. 2, C.D. 1.

Conf. Com. Rep. 80 on H.B. No. 1235

The purpose of this measure is to adopt the Uniform Family Law Arbitration Act to create a statutory framework for the arbitration of family law and child-related disputes.

Your Committee on Conference has amended this measure by:

- (1) Requiring the prospective arbitrator to make all disclosures that are required by section 658A-12, Hawaii Revised Statutes to the parties; and
- (2) Making this measure effective upon its approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1235, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1235, H.D. 1, S.D. 1, C.D. 1.

Conf. Com. Rep. 81 on H.B. No. 511

The purpose of this measure is to clarify and enhance consistency in the administration and enforcement of Hawaii's lobbying laws by amending the laws governing lobbyists including:

- (1) Amending the definition of “expenditure” to include the expense of preparing for a hearing before the Legislature or administrative agency;
- (2) Specifying that certain expenses for intrastate travel costs are excluded from the definition of “expenditure,” but the exclusion does not apply to travel costs of legislators, board members, commission members, or other employees of the State;
- (3) Specifying that expenses incurred by nonprofit organizations to prepare and submit a grant application are excluded from the definition of “expenditure”;
- (4) Amending the definition of “lobbyist” to specify types of activities and amounts of expenditures that qualify as lobbying;
- (5) Amending the definition of “lobbying” to exclude the preparation and submission of a grant application by a representative of a nonprofit organization;
- (6) Allowing a person who had employed or contracted with a lobbyist to file a notice of termination;
- (7) Amending the requirements for submitting lobbyist reports for the periods covered by special sessions of the Legislature;
- (8) Increasing the maximum administrative fine from \$500 to \$1000 for each violation of the lobbying law; and
- (9) Requiring the State Ethics Commission to post on the Internet the lobbyists’ registration statements within a reasonable time after filing and to maintain the posting for at least four years.

Your Committee on Conference has amended this measure by:

- (1) Deleting from the definition of lobbyist an individual who engages in an unspecified number of measures during the legislative session; and
- (2) Making the measure effective upon approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 511, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 511, H.D. 1, S.D. 1, C.D. 1.

Conf. Com. Rep. 82 on H.B. No. 1009

The purpose of this measure is to exempt residence or occupancy in a structure or on a property directly controlled, owned, and managed by the Hawaii Public Housing Authority (HPHA), including state low-income housing projects and elder or elderly housing under HPHA, from the requirements of the Residential Landlord-Tenant Code.

Your Committee on Conference has amended this measure by:

- (1) Clarifying that exemption for residence or occupancy in a structure or on a property from the Residential Landlord-Tenant Code applies to a structure or property directly controlled, owned, or managed by HPHA; and
- (2) Changing its effective date to upon its approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1009, H.D. 3, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1009, H.D. 3, S.D. 1, C.D. 1.

Conf. Com. Rep. 83 on S.B. No. 102

The purpose of this measure is to address the federal funding policy study mandated by Act 225, Session Laws of Hawaii 2016.

Specifically, the measure:

- (1) Amends Act 225 to change the state agency charged with conducting the federal funding policy study required by that Act from the Office of the Governor to the Department of Budget and Finance;
- (2) Specifies that the fiscal bienniums to be covered by the study are 2017-2019 and 2019-2021; and

- (3) Extends the deadline for the study from no later than twenty days prior to the convening of the Regular Session of 2018 to October 1, 2018.

Your Committee on Conference finds that the Office of Federal Awards Management within the Department of Budget and Finance currently monitors federal funds received by the State and bears the major responsibility for budgetary policies. This familiarity, along with the Department's practical appreciation of the need for sustainable revenues, makes the Department more suited to conducting the federal funding policy study than the Office of the Governor.

Your Committee on Conference has amended this measure to:

- (1) Appropriate \$100,000 in fiscal year 2017-2018 for the preparation of the federal funding policy study; and
- (2) Change the effective date from July 1, 2030, to July 1, 2017.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 102, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 102, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Tokuda, English and Galuteria.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, none.

Representatives Luke, Cullen and Tupola.

Managers on the part of the House.

Ayes, 2. Noes, none. Excused, 1 (Tupola).

Conf. Com. Rep. 84 on S.B. No. 712

The purpose of this measure is to require the inclusion of additional information in the variance report submitted annually by the Governor to the Legislature to allow the Legislature to better align its budget decisions with the actual needs and expenditures of the executive departments.

More specifically, this measure requires the following information to be included in the variance report submitted to the Legislature before each Regular Session, commencing with the Regular Session of 2019:

- (1) Means of financing information and cost element breakdowns in comparison of:
 - (A) Budgeted appropriations and actual expenditures; and
 - (B) Position ceiling and filled positions; and
- (2) A summary by department of:
 - (A) Cost element breakdowns of expenditures; and
 - (B) The position ceiling in comparison to total positions filled.

Your Committee on Conference finds that the variance report submitted annually by the Governor to the Legislature generally includes only a summary of budgeted appropriations and actual expenditures. Your Committee on Conference further finds that consideration should be given to whether requiring additional information in the variance report would be helpful for the Legislature to better monitor the actual budgetary performances of the departments.

Your Committee on Conference has amended this measure by:

- (1) Deleting language requiring additional information to be included in the variance report submitted annually to the Legislature;
- (2) Requiring instead that the Governor submit to the Legislature, prior to the Regular Session of 2019, summarized comparisons by executive department of:
 - (A) Total budgeted and actual expenditures for fiscal year 2017-2018 and total budgeted and estimated expenditures for fiscal year 2018-2019; and
 - (B) The position ceiling and positions filled for fiscal year 2017-2018 and the position ceiling and positions estimated to be filled for fiscal year 2018-2019;
- (3) Requiring the Governor to recommend to the Legislature whether similar information to that required by this measure should be included in future variance reports;
- (4) Requiring that the information and recommendation required by paragraphs (2) and (3) be submitted with the variance report submitted to the Legislature prior to the Regular Session of 2019;
- (5) Changing the effective date to July 1, 2018; and
- (6) Making technical nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 712, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 712, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Tokuda, English and Galuteria.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, none.

Representatives Luke, Cullen and Tupola.
Managers on the part of the House.
Ayes, 2. Noes, none. Excused, 1 (Tupola).

Conf. Com. Rep. 85 on S.B. No. 713

The purpose of this measure is to require that the state six-year program and financial plan and budget include information on tax expenditures, which are exemptions, deductions, credits, exclusions, or other deviations from the normal tax structure.

Your Committee on Conference finds that tax expenditures, like appropriations of funds, result in the reduction of available resources for public programs. However, information about tax expenditures, particularly their negative impact on the state treasury, is not as readily available to the public as is information about budget appropriations and expenditures. Your Committee therefore finds that this measure promotes transparency and facilitates the provision of information necessary for the Legislature to weigh the costs of tax expenditures against the costs of public programs that are dependent on budget appropriations.

Your Committee on Conference has amended this measure to take effect on July 1, 2018.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 713, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 713, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Tokuda, English and Wakai.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, none.

Representatives Luke, Cullen and Tupola.
Managers on the part of the House.
Ayes, 2. Noes, none. Excused, 1 (Tupola).

Conf. Com. Rep. 86 on S.B. No. 722

The purpose of this measure is to determine the benefits, appropriateness, and value of efficiency measures for state programs.

More specifically, the measure:

- (1) Recommences, with clearer expectations and objectives, the efficiency measures pilot project first established under Act 67, Session Laws of Hawaii 2015;
- (2) Appropriates unspecified sums of general funds for fiscal years 2017-2018 and 2018-2019 for the pilot project; and
- (3) Requires the Director of Finance, no later than twenty days prior to the convening of the Regular Session of 2019, to submit to the Legislature a report on efficiency measures attained.

Your Committee on Conference finds that, at present, projections of state general fund revenues are not particularly robust. Thus, the budgetary situation of the State may require more scrutiny in the future to better control appropriations. Your Committee on Conference believes that efficiency measures may provide data to enhance the level of scrutiny and help the legislature make difficult budget decisions to improve and continue important programs on a sustainable basis. However, present state budget documents do not include efficiency measures tied to appropriation requests.

Your Committee on Conference recognizes that Act 67, Session Laws of Hawaii 2015, established an efficiency measures pilot project intended to provide the Legislature with the information necessary to determine whether efficiency measures may be formulated, collected, and analyzed by the Department of Budget and Finance and other state agencies in a practical and cost-effective manner. As a result of Act 67, the Department of Budget and Finance, on December 30, 2016, submitted a report to the Legislature regarding the pilot project. The report raised certain concerns, such as the proper definition of efficiency measures and the resources necessary to provide data on efficiency measures. Based on these concerns, the report recommended further discussion with the Legislature on the issue.

In light of these concerns, your Committee on Conference finds that recommending the pilot project with clearer expectations and objectives should produce better data and a clearer determination of the benefits, appropriateness, and value of efficiency measures.

Your Committee on Conference notes that the \$100,000 appropriated in Act 67, Session Laws of Hawaii 2015, for the efficiency measures study was never expended.

Your Committee on Conference has amended this measure by:

- (1) Inserting general fund appropriations of \$50,000 each for fiscal year 2017-2018 and fiscal year 2018-2019 for the conduct of the pilot project; and
- (2) Changing its effective date to July 1, 2017.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 722, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 722, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Tokuda, English and Galuteria.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, none.

Representatives Luke, Cullen and Tupola.
Managers on the part of the House.
Ayes, 2. Noes, none. Excused, 1 (Tupola).

Conf. Com. Rep. 87 on S.B. No. 387

The purpose of this measure is to require a health carrier with a network plan to maintain a network that is sufficient in numbers and appropriate types of providers, to ensure that covered persons under a health benefit plan have access to covered benefits.

Your Committee on Conference finds that the federal Patient Protection and Affordable Care Act of 2010 requires that health plans participating in qualified health plans meet network adequacy standards to ensure consumers have access to needed care without unreasonable delay. In November 2015, the National Association of Insurance Commissioners (NAIC) adopted a new Network Adequacy Model Act (Model Act) that established standards for the creation and maintenance of health plan networks and to assure the adequacy, accessibility, transparency, and quality of health care services offered under a network plan.

Your Committee on Conference further finds that this measure is Hawaii's adaptation of the NAIC's Model Act and is the product of a working group established by the Insurance Commissioner to create network adequacy policies that balance the realities of Hawaii's unique provider base with a health plan's ability to provide its members with proper access to a sufficient number of in-network primary care and specialty providers.

Your Committee on Conference has amended this measure by:

- (1) Changing its effective date to July 1, 2017; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 387, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 387, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Baker, Espero and Nishihara.
Managers on the part of the Senate.

Conf. Com. Rep. 88 on S.B. No. 953

The purpose of this measure is to make various updates to the State's insurance code relating to: third-party claimants; insurance fraud penalties; certificates of authority; motor vehicle insurance self-insurers; nonresident adjusters; insurance producer licensing; and supervisory proceedings undertaken by the Insurance Commissioner.

Your Committee on Conference finds that this measure will update and improve the State's insurance code in a number of areas. Among other things, this measure proactively allows the Commissioner to trigger the arrival and assistance of nonresident adjusters in the State ahead of a declaration of emergency by the Governor.

Your Committee on Conference further finds that this measure also conforms the State's producer licensing requirements to the National Association of Insurance Commissioners' Producer Licensing Model Act by eliminating producer-to-producer appointments. In 2001, the Insurance Division deviated from the model law to conform with the then-current system, and as a result, Hawaii is now the only state that has a producer-to-producer appointment law. This measure ensures Hawaii's insurance code is uniform with other states' statutes.

Your Committee on Conference has amended this measure by:

- (1) Deleting language that would have required certain actions by a producer and insurer upon initiation by the producer of termination of the producer's appointment with the insurer, as this language did not conform to the Producer Licensing Model Act;
- (2) Changing its effective date to July 1, 2017; provided that the provisions relating to producer licensing shall take effect on January 1, 2019; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 953, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 953, S.D. 2, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Baker, Keith-Agaran, Taniguchi, Ihara and Nishihara.

Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, 2 (Nishihara, Taniguchi).

Conf. Com. Rep. 89 on S.B. No. 1006

The purpose of this measure is to eliminate a loophole that allows a nonresident decedent to avoid estate and generation-skipping transfer taxes by using a single member limited liability company to hold property located in the State.

Your Committee finds that the Hawaii estate tax is imposed on property transferred from decedents to their heirs.

For nonresident decedents, only property located in Hawaii is subject to the tax. However, when a nonresident decedent's property located in Hawaii is placed into a single member limited liability company, the Hawaii estate tax does not apply because the decedent did not directly own the property. Instead, the property is treated as having the situs of the nonresident decedent's domicile. This measure closes that tax law loophole by specifying that, if property located in Hawaii is held by a single member limited liability company that is solely owned by a nonresident decedent, that company will be disregarded for estate tax purposes and the tax will apply as if the nonresident decedent owned the property directly.

Your Committee has amended this measure by changing the effective date to the date of the measure's approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1006, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1006, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Tokuda, Galuteria and Harimoto.
Managers on the part of the Senate.
Ayes, 2. Noes, none. Excused, 1 (Harimoto).

Representatives Nishimoto, Cullen and McDermott.
Managers on the part of the House.
Ayes, 2. Noes, none. Excused, 1 (McDermott).

Conf. Com. Rep. 90 on S.B. No. 292

The purpose of this measure is to repeal chapter 514A, Hawaii Revised Statutes, relating to condominium property regimes, on January 1, 2019, and ensure that all condominiums in the State are governed under chapter 514B, Hawaii Revised Statutes, relating to condominiums.

Your Committee on Conference finds that two condominium chapters are currently maintained: chapter 514A, Hawaii Revised Statutes (chapter 514A), and chapter 514B, Hawaii Revised Statutes (chapter 514B). Chapter 514A is relevant only to condominium property regimes that were created before July 1, 2006. Chapter 514B has applied to all condominiums created within the State since July 1, 2006, and virtually all provisions of chapter 514B that affect the management of condominiums have applied automatically to condominiums in existence before July 1, 2006, the effective date of chapter 514B. Your Committee on Conference further finds that this measure repeals chapter 514A, ensures that all condominiums in the State are governed under chapter 514B, and is needed to eliminate the unnecessary confusion caused by maintaining two condominium chapters under Hawaii law.

However, your Committee on Conference notes that certain condominium projects created prior to July 1, 2006, may still be required to submit various types of public reports to the Real Estate Commission. It is therefore important for this measure to include an appropriate safe harbor mechanism for all condominiums and projects in the State created prior to July 1, 2006, to ensure the smooth transition of these condominiums and projects to chapter 514B.

Accordingly, your Committee on Conference has amended this measure by:

- (1) Including a safe harbor provision, which:
 - (A) Permits condominium property regimes created prior to July 1, 2006, to be sold on or after January 1, 2019, without revising any of the governing documents; provided that the developer's public report was active on January 1, 2019, and is accurate and not misleading;
 - (B) Specifies that on January 1, 2019, all active, non-expired developer's public reports under chapter 514A will be treated as non-expiring public reports under chapter 514B, but requires developers to file an amended public report if any pertinent or material changes occur to the condominium project;
 - (C) Requires condominium property regimes created prior to July 1, 2006, but were not issued an effective date and did not file a notice of intent under chapter 514A to revise their governing documents and register under chapter 514B, for a developer to offer for sale or sell condominiums; and
 - (D) Specifies that nothing in this measure shall be deemed to invalidate any condominium property regime that was validly created under chapter 514A prior to July 1, 2006;
- (2) Deleting language that specified developers of projects registered under chapter 514A, but not yet brought to market for sale, had until January 1, 2019, to register such projects with the Real Estate Commission and bring the projects to market;
- (3) Changing its effective date to January 1, 2019; and

- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 292, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 292, S.D. 1, H.D. 1, C.D. 1.

Conf. Com. Rep. 91 on S.B. No. 382

The purpose of this measure is to require a management audit of the Public Utilities Commission (Commission).

Your Committee on Conference finds that the Public Utilities Commission is empowered and mandated to provide effective, proactive, and informed oversight of public utilities, including electric, telephone, and gas companies; sewer and water companies; interisland water carriers; and motor carriers, all of which provide services that are essential to the public interest of the State. Your Committee on Conference further finds that the Office of the Auditor last conducted a management audit on the Commission in 2004. At that time, the Auditor's report identified core deficiencies that resulted from a lack of vision and planning. Your Committee on Conference therefore finds that it is prudent to again evaluate the Commission, to ensure that any previously identified issues have been addressed, reveal opportunities for improvement, and aid in the transition to a more effective and efficient Commission. Accordingly, this measure requests the Auditor to conduct a comprehensive management audit of the Commission.

However, your Committee on Conference notes that while the requested management audit is an important first step in evaluating the effectiveness of the Commission, amendments to this measure are necessary that will further increase the efficiency and effectiveness of the Commission.

Accordingly, your Committee on Conference has amended this measure by:

- (1) Establishing guiding principles of the Commission;
- (2) Allowing a commissioner to attend a public hearing or meeting or work with staff by teleconference or videoconference in specific situations;
- (3) Requiring the Commission's budget to provide for travel expenses for commissioners who are residents of a county other than the City and County of Honolulu;
- (4) Updating the contents of the requested management audit, including consideration of the ability of individual commissioners to receive assistance from Commission staff and permitting the Auditor to review public utilities commissions in other jurisdictions;
- (5) Changing its effective date to July 1, 2017;
- (6) Updating its purpose section; and
- (7) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 382, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 382, S.D. 2, H.D. 1, C.D. 1.

Conf. Com. Rep. 92 on S.B. No. 99

The purpose of this measure is to prohibit any county from disqualifying a legal nonconforming dwelling unit from the housing choice voucher program if the unit meets zoning and building code requirements and other program standards such as health and safety standards.

Your Committee on Conference finds that a lack of available housing options is a critical issue facing the State's citizens. Measures that limit housing availability have the additional negative effect of increasing home prices and rents. It is therefore necessary to remove as many barriers to affordable housing as possible. This measure confronts this issue by limiting a county's ability to disqualify a legal nonconforming dwelling unit from the housing choice voucher program, thereby retaining the availability of these units for section 8 housing.

Your Committee on Conference has amended this measure by changing the effective date to upon its approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 99, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 99, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Nishihara, Espero and Shimabukuro.
Managers on the part of the Senate.

Conf. Com. Rep. 93 on S.B. No. 407

The purpose of this measure is to broaden the types of short-term investment options for the counties, including certain money market funds.

Your Committee on Conference finds that ensuring the financial strength of the counties is important for public welfare. One means of supporting the financial strength of the counties is to allow the counties to make certain short-term investments. While the counties currently have authority to make some investments, it is important and sensible to expand the investment options of the counties so that they more closely mirror the investment options afforded to the State. However, to better protect the public, there should also be in place safeguards to ensure quality investments. Accordingly, this measure:

- (1) Allows the director of finance of each county to make short-term investments in additional types of bonds and notes, thereby providing the county directors of finance with similar investment authority as the state Director of Finance;
- (2) Requires that for investments in bonds of any improvement district, the investments be of investment grade or supported by the general obligation pledge of the county in which the improvement district is located; and
- (3) Prohibits investment or the entering into any agreement which would or may require the county to make future payments, such as swap agreements, hedge agreements, or other similar agreements.

Your Committee on Conference has amended this measure by changing the effective date to upon its approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 407, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 407, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Conf. Com. Rep. 94 on S.B. No. 545

The purpose of this measure is to establish a temporary commission to plan for the 13th Festival of Pacific Arts to be held in Honolulu from June 11 to June 27, 2020.

Your Committee finds that the Festival of Pacific Arts will place Hawaii in the spotlight, bringing attention to the State's creative arts economy while also providing the opportunity for cultural exchange to advance topics of global relevance. The festival will bring together delegations from approximately twenty-seven Pacific island nations for events, activities, and performances. By highlighting Hawaii's arts, culture, design, and music, the festival will help position the State as a hub of creative and cultural importance in the Pacific.

Your Committee on Conference has amended this measure by:

- (1) Adding an additional community member to the commission and providing the Governor with flexibility by clarifying that it is preferable that the two community members of the commission have experience in cultural and international festivals;
- (2) Changing the commission reporting requirement to twenty days prior to the convening of the regular session of 2018 rather than twenty days prior to the regular sessions of 2018, 2019, and 2020;
- (3) Inserting an appropriation amount of \$500,000 for fiscal year 2017-2018 from the general revenues of the State of Hawaii for the commission to plan for the Festival of Pacific Arts to be held in Honolulu from June 11 to June 27, 2020;
- (4) Removing the proviso to repeal this measure on June 30, 2022;
- (5) Changing the effective date to July 1, 2017; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 545, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 545, S.D. 2, H.D. 1, C.D. 1.

Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. 95 on S.B. No. 1244

The purpose of this measure is to:

- (1) Authorize the Hawaii Community Development Authority to waive a right to repurchase a reserved or workforce housing unit and transfer that right to a qualified nonprofit housing trust;
- (2) Authorize the counties to waive their first right of refusal to repurchase certain privately-developed affordable housing units and transfer that right to a qualified nonprofit housing trust;
- (3) Authorize the Hawaii Housing Finance and Development Corporation (HHFDC), if it waives its first right of refusal to purchase certain real property, to transfer that right to a qualified nonprofit housing trust, which must then establish new buyback restrictions to maintain the affordability of that unit;
- (4) Amend the means of calculating the maximum price for the HHFDC's first option to purchase real property;
- (5) Amend the state low-income housing tax credit; and
- (6) Appropriate funds to the HHFDC to establish a position to oversee the low-income housing tax credit.

Your Committee on Conference finds that for decades, there has been a persistent shortage of safe, decent, and sanitary housing, and the median price for a single family home on Oahu has risen to approximately \$750,000. Your Committee on Conference further finds that recent studies show a need for sixty thousand housing units by the year 2020. Your Committee on Conference additionally finds that it is necessary to take steps to preserve the affordability of housing units for as long as possible.

Your Committee on Conference has amended this measure by:

- (1) Deleting amendments to the state low-income housing tax credit;
- (2) Deleting the condition that the HHFDC or qualified nonprofit housing trust selected by HHFDC exercise the option to purchase the real property within a reasonable amount of time before a purchaser is required to sell the property to a qualified resident upon certain terms;
- (3) Deleting the appropriation to the HHFDC;
- (4) Changing the effective date to July 1, 2017; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1244, S.D. 2, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1244, S.D. 2, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Espero, Kim and Harimoto.
Managers on the part of the Senate.

Conf. Com. Rep. 96 on S.B. No. 423

The purpose of this measure is to:

- (1) Prohibit denying a student a meal for failure to pay within the first twenty-one days of the first semester of a school year while the student's application is being processed;
- (2) Prohibit denying a student a meal for failure to pay within seven days after the student's meal fund account balance is zero or negative;
- (3) Authorize the Department of Education to adopt rules or policies for the collection of funds for negative student meal balances; and
- (4) Require a report to the Legislature.

Your Committee on Conference finds that forty-seven percent of public school students in Hawaii qualify for the Department of Education's free and reduced lunch program. Your Committee on Conference further finds that gaps in coverage for individual students in the program can arise due to delays in processing applications or the financial situation of the student's family. Your Committee on Conference additionally finds that chronically hungry students suffer significant hardship compared to their classmates, and can experience achievement gaps, concentration loss, illness, increased absenteeism, behavioral problems, depression, and misdiagnosed learning disorders. This measure will ensure that students qualifying for the free and reduced lunch program will not go hungry due to delays in application processing or missed payments.

Your Committee on Conference has amended this measure by changing the effective date to July 1, 2017.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 423, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 423, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Kidani, Harimoto and Kahele.
Managers on the part of the Senate.
Ayes, 2. Noes, none. Excused, 1 (Kahele).

Representatives Woodson, Cullen, Hashem, Ohno and Matsumoto.
Managers on the part of the House.
Ayes, 5. Noes, none. Excused, none.

Conf. Com. Rep. 97 on S.B. No. 1286

The purpose of this measure is to:

- (1) Clarify the scope of the private trade, vocational, and technical school licensure program within the Department of Education;
- (2) Authorize the Department of Education to ensure that the private trade, vocational, and technical schools are complying with either federal requirements or accreditation requirements;
- (3) Establish a licensing fee to ensure the sustainability of the licensure program;
- (4) Establish a license renewal process and fee;
- (5) Establish the private trade, vocational, and technical school licensure special fund; and
- (6) Appropriate monies for one full-time equivalent position within the Department of Education to administer the licensing program.

Your Committee on Conference finds that private trade, vocational, and technical schools provide specialized training for a number of professions in the State, including those in massage therapy, health care, tax preparation, and maritime activities. These schools are prohibited from operating in Hawaii without being licensed, and licensure has been the responsibility of the Department of Education since 1939. Your Committee on Conference further finds that many private trade, vocational, and technical schools rely on state licensure to fulfill accreditation requirements, facilitate collaboration and participation with entities and students from outside the State, and receive access to funding from a diverse variety of sources.

Your Committee on Conference has amended this measure by:

- (1) Requiring the Department of Education to license schools as necessary to allow those schools to qualify for federal, state, or private funding or to allow graduates to qualify for professional licensing;
- (2) Specifying that license and license renewal fees for applications submitted after December 31, 2017, are \$2,000;
- (3) Authorizing an appropriation amount of \$60,000 from the general fund of the State for deposit into the private trade, vocational, and technical school licensure special fund;
- (4) Authorizing an appropriation amount of \$100,000 out of the private trade, vocational, and technical school licensure special fund;
- (5) Changing the effective date to July 1, 2017; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1286, S.D. 2, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1286, S.D. 2, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Kidani, Baker, Kahele and Dela Cruz.
Managers on the part of the Senate.
Ayes, 4. Noes, none. Excused, none.

Representatives Woodson, Takumi, Lowen, Ohno and Matsumoto.
Managers on the part of the House.
Ayes, 5. Noes, none. Excused, none.

Conf. Com. Rep. 98 on S.B. No. 911

The purpose and intent of this measure is to provide additional financing assistance for affordable rental housing projects under the Housing Loan and Mortgage Program, popularly known as the Hula Mae Multifamily Program.

More specifically, this measure increases the Hula Mae Multifamily Revenue Bond authorization amount from \$1,000,000,000 to an unspecified amount and requires the Hawaii Housing Finance and Development Corporation to submit annual reports to the Legislature describing the multifamily revenue bond activity under section 201H-95, Hawaii Revised Statutes.

Your Committee on Conference finds that the affordable housing crisis continues to be one of the State's most significant and challenging social problems and is a critical issue for many Hawaii residents. Your Committee on Conference believes that as the cost of housing increases, the State must continue to assist residents in obtaining affordable rental housing. Increasing the Hawaii Housing Finance and Development Corporation's revenue bond authorization will allow the corporation to provide additional financing assistance for affordable rental housing projects under the Housing Loan and Mortgage Program.

Your Committee on Conference has amended this measure by changing the bond authorization cap amount from an unspecified amount to \$1,500,000,000.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 911, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 911, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Tokuda, Dela Cruz and English.

Managers on the part of the Senate.

Ayes, 2. Noes, none. Excused, 1 (Dela Cruz).

Representatives Brower, Nakamura and McDermott.

Managers on the part of the House.

Ayes, 2. Noes, none. Excused, 1 (McDermott).

Conf. Com. Rep. 99 on S.B. No. 718

The purpose and intent of this measure is to establish a mobile court to dispose of certain criminal cases.

Specifically, this measure:

- (1) Temporarily establishes the community court outreach project in the City and County of Honolulu to dispose of cases involving nonviolent, nonfelony offenses where a plea agreement has been reached;
- (2) Makes the project subject to the availability of funds and memoranda of agreement with the Prosecuting Attorney of the City and County of Honolulu and the state Public Defender;
- (3) Appropriates an unspecified sum for the project with unspecified amounts to be transferred to the Prosecuting Attorney of the City and County of Honolulu and the state Public Defender; and
- (4) Terminates the project on June 30, 2020.

Your Committee on Conference finds that a community court outreach project provide accountability for and treatment options to offenders, ultimately resulting in reduced crime and recidivism.

Your Committee on Conference notes that an appropriation of \$445,768 in general funds for each fiscal year of the biennium has been included within the General Appropriations Act of 2017. The appropriation is intended to be distributed among the Office of the Public Defender, the Department of the Prosecuting Attorney for the City and County of Honolulu, and the Judiciary for the community court outreach project. Your Committee on Conference also intends that the appropriation be recurring, signifying the legislative intent that the project be made permanent and possibly expanded to other counties in the future.

Your Committee on Conference has amended this measure to make the provisions consistent with the policy direction expressed in the General Appropriations Act of 2017. Specifically, your Committee on Conference has amended this measure by:

- (1) Making the project permanent;
- (2) Making the administration and operation of the project subject to the availability of sufficient funds through a specific appropriation, transfer of an appropriation from another state agency, or a federal or other grant;
- (3) Deleting the requirement that the Judiciary enter into memoranda of agreement with the Prosecuting Attorney of the City and County of Honolulu and the state Public Defender to specify the terms and conditions of each agency's participation in the project;
- (4) Requiring the Prosecuting Attorney of the City and County of Honolulu and the state Public Defender to participate in the project, subject to the availability of sufficient funds;
- (5) Deleting the appropriation in light of the funding provided for the project under the General Appropriation Act of 2017;
- (6) Adding that the Chief Justice, as an alternative recommendation in the report to the Legislature and the Governor on the project, may recommend that the project be terminated; and
- (7) Changing the effective date to July 1, 2017.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 718, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 718, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Keith-Agaran, Tokuda and Rhoads.
Managers on the part of the Senate.
Ayes, 2. Noes, none. Excused, 1 (Rhoads).

Representatives Nishimoto, Luke, Takayama and McDermott.
Managers on the part of the House.
Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. 100 on S.B. No. 149

The purpose and intent of this measure is to:

- (1) Repeal the requirement that all applicants for procurement contracts for health and human services possess all licenses necessary to conduct the subject business; and
- (2) Repeal the requirement that all contracts for health and human services include only costs, fees, and taxes that are reflected in the proposal.

Your Committee on Conference finds that the requirement that potential contractors obtain licensure prior to being awarded a state contract for health or human services has served as a significant barrier to new providers entering the service system, as providers typically will not obtain licensure prior to being awarded a contract. Your Committee on Conference further finds that the Hawaii Administrative Rules already require applicants to obtain necessary licenses prior to the start of contract services, and that the original intent of this law is no longer being served because its implementation has resulted in an overly restricted marketplace which has chilled healthy business competition amongst qualified health and human services providers. Thus, your Committee on Conference finds that the repeal of this law is necessary for the efficient processing of contracts for health and human services.

Your Committee on Conference has amended this measure by making it effective upon its approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 149, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 149, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Kim, Green, Baker, Galuteria and Rhoads.
Managers on the part of the Senate.
Ayes, 4. Noes, none. Excused, 1 (Rhoads).

Representatives Johanson, Holt, Yamashita and Matsumoto.
Managers on the part of the House.
Ayes, 3. Noes, none. Excused, 1 (Yamashita).

Conf. Com. Rep. 101 on S.B. No. 559

The purpose of this measure is to:

- (1) Document the State's commitment to combat climate change by systematically reducing greenhouse gas emissions and improving our resiliency to climate change aligned with the principles and contributing to the goals set by the Paris Agreement;
- (2) Rename the Interagency Climate Adaptation Committee as the Hawaii Climate Commission; and
- (3) Require the Hawaii Climate Commission to develop sea level rise vulnerability and adaptation reports and to take the lead on the establishment and implementation of climate change mitigation and adaptation strategies.

Your Committee on Conference finds that not only is climate change real, but it is the overriding challenge of the 21st century and one of the priority issues of the Senate. Your Committee on Conference also finds that on December 12, 2015, one hundred ninety-five countries at the 21st Conference of the Parties of the United Nations Framework Convention on Climate Change adopted an agreement addressing greenhouse gas emissions mitigation, adaptation, and finance starting in the year 2020, known as the Paris Agreement. Your Committee on Conference supports the goals of the Paris Agreement to combat climate change and its effects on environments, economies, and communities around the world and finds it necessary that the State expand its efforts to further mitigate Hawaii's greenhouse gas emissions and adopt strategies to minimize the impact of climate change on Hawaii's people and environment.

Your Committee on Conference has amended this measure by:

- (1) Amending the title of chapter 225P, Hawaii Revised Statutes, to read, "Hawaii Climate Change Mitigation and Adaptation Initiative";
- (2) Renaming the Hawaii Climate Commission as the Hawaii Climate Change Mitigation and Adaptation Commission (Commission);
- (3) Deleting certain references to section 225P-1, Hawaii Revised Statutes;

- (4) Inserting a general fund appropriation amount of \$40,000 for fiscal years 2017-2018 and 2018-2019 to the Department of Land and Natural Resources, rather than the Department of Accounting and General Services, for the purposes of this measure;
- (5) Inserting a general fund appropriation amount of \$65,000 for fiscal years 2017-2018 and 2018-2019 to the Department of Land and Natural Resources for the establishment of one full-time equivalent (1.00 FTE) climate change mitigation and adaptation coordinator position to support the Commission;
- (6) Making the climate change mitigation and adaptation coordinator position exempt from chapter 76, Hawaii Revised Statutes;
- (7) Inserting an effective date of July 1, 2017; and
- (8) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 559, S.D. 1, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 559, S.D. 1, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Gabbard, Kim, Inouye and English.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, 1 (Inouye).

Representatives Lee, Yamane, Lowen and Thielen.
Managers on the part of the House.
Ayes, 3. Noes, none. Excused, 1 (Yamane).

Conf. Com. Rep. 102 on S.B. No. 885

The purpose and intent of this measure is to permit the Comptroller to acquire risk management, investigative, claims adjustment, actuarial, and other services on a fixed fee basis by exempting a broker submitting a proposal in response to such a fixed fee solicitation and the broker's performance of the activities in accordance with the proposal from certain provisions of the Insurance Code.

Your Committee on Conference finds that providing the Comptroller with the option to hire an insurance broker on a fixed fee for service basis rather than the current commission basis by enabling the broker to accept a flat fee from the State will result in better value to the public through lower costs of acquiring and insuring State property and liability risks. Your Committee on Conference further finds that it is in the best interest of the public to give the Comptroller flexibility in choosing a compensation model that is most cost-effective under the prevailing economic environment at the time when procuring insurance for the State. Your Committee on Conference notes that the current arrangement of the state insurance broker being compensated on a commission basis by the insurance companies from which the State purchases insurance could present a conflict of interest or at minimum the appearance of a conflict of interest.

Your Committee on Conference has amended this measure by inserting an effective date of July 1, 2017.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 885, S.D. 2, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 885, S.D. 2, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Kim, Baker and Taniguchi.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, none.

Representatives Takumi, Cullen and Ward.
Managers on the part of the House.
Ayes, 3. Noes, none. Excused, none.

Conf. Com. Rep. 103 on S.B. No. 935

The purpose of this measure is to:

- (1) Permit the Hawaii Employer-Union Health Benefits Trust Fund (EUTF) to employ certain staff through the civil service system;
- (2) Exempt any civil service exempt EUTF staff positions created after July 1, 2014, from section 76-16(b)(17)(A), Hawaii Revised Statutes, which would have required any civil service exempt EUTF positions created after July 1, 2014, to expire in three years unless affirmatively extended by an act of the Legislature; and
- (3) Appropriate funds for the EUTF to hire staff through the civil service system.

Your Committee on Conference finds that eighty-six percent of EUTF authorized positions are exempt from civil service, and thus do not receive the same benefits that are available to employees hired through the civil service system. Your Committee on Conference finds that EUTF operations and employees would benefit from the hiring of certain EUTF staff through the civil service system.

Your Committee on Conference has amended this measure by:

- (1) Inserting an appropriation amount of \$86,837 for fiscal year 2017-2018 and \$104,616 for fiscal year 2018-2019 for the EUTF to employ certain staff through the civil service system; and

- (2) Inserting an effective date of July 1, 2017.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 935, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 935, S.D. 2, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Keith-Agaran, Taniguchi and Rhoads.
Managers on the part of the Senate.
Ayes, 2. Noes, none. Excused, 1 (Rhoads).

Representatives Johanson, Holt, Keohokalole and Matsumoto.
Managers on the part of the House.
Ayes, 3. Noes, none. Excused, 1 (Keohokalole).

Conf. Com. Rep. 104 on S.B. No. 930

The purpose of this measure is to provide a process by which the Hawaii Employer-Union Health Benefits Trust Fund (EUTF) may void claims for reimbursement of Medicare part B premiums and other debt payable when the total amount payable is less than a specified dollar amount and the claim is older than ten years.

Your Committee on Conference finds that the EUTF currently lacks a process by which it may void claims for minor amounts of unclaimed property after a sufficient time period has passed. This measure establishes a mechanism by which the EUTF can void such claims in a similar manner to the Department of Budget and Finance Unclaimed Property Program.

Your Committee on Conference has amended this measure by:

- (1) Changing the unspecified dollar cap for forfeiture of unclaimed Medicare Part B premiums and other property to \$500;
- (2) Inserting an effective date of July 1, 2017; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 930, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 930, S.D. 2, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Keith-Agaran, Taniguchi and Thielen.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, none.

Representatives Johanson, Holt, Keohokalole and Matsumoto.
Managers on the part of the House.
Ayes, 3. Noes, none. Excused, 1 (Keohokalole).

Conf. Com. Rep. 105 on S.B. No. 902

The purpose of this measure is to update various statutory provisions relating to the High Technology Development Corporation, including to:

- (1) Change the name of the High Technology Development Corporation to the Hawaii Technology Development Corporation;
- (2) Change all references to “high technology” to “technology” in chapter 206M, Hawaii Revised Statutes; and
- (3) Repeal the Hawaii Software Service Center established within the High Technology Development Corporation because it has been unfunded for at least ten years.

Your Committee on Conference finds that changing the High Technology Development Corporation’s name aligns with the common practice of the public and the media to refer to the agency as the Hawaii Technology Development Corporation. Your Committee on Conference also finds that with rapid advancements in telecommunication, the Internet, and automation, “high technology” is now simply referred to as “technology”; therefore, updating all references within chapter 206M, Hawaii Revised Statutes, from “high technology” to “technology” is appropriate. Your Committee on Conference further finds that the Hawaii Software Service Center has been unfunded for at least ten years and is obsolete.

Your Committee on Conference has amended this measure by changing the effective date to upon approval; provided that the High Technology Development Corporation’s name change takes effect on July 1, 2017.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 902, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 902, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs and Speaker of the House of Representatives on behalf of the Committee.

Senators Wakai, Harimoto and Taniguchi.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, none.

Representatives Keohokalole, Tokioka and Ward.
Managers on the part of the House.
Ayes, 3. Noes, none. Excused, none.

Conf. Com. Rep. 106 on S.B. No. 908

The purpose of this measure is to increase the clarity and effectiveness of the Small Business Regulatory Flexibility Act by:

- (1) Adopting a more explicit definition of “small business”;
- (2) Clarifying the powers of the Small Business Regulatory Review Board when reviewing administrative rules that have an economic impact on small business;
- (3) Increasing the number of Board members from nine to eleven; and
- (4) Clarifying when agencies are required to report to the Small Business Regulatory Review Board and when the Board is required to report to the Legislature.

Your Committee on Conference finds that the Small Business Regulatory Review Board provides oversight, guidance, and advocacy regarding regulations impacting small business in the State. Your Committee on Conference finds that increasing the number of board members from nine to eleven is intended to alleviate quorum problems. Your Committee on Conference further finds that adopting a more explicit definition of “small business” clarifies the powers of the Small Business Regulatory Review Board.

Your Committee on Conference has amended this measure by:

- (1) Changing the effective date to July 1, 2017; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 908, S.D. 1, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 908, S.D. 1, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Wakai, Galuteria and Taniguchi.
Managers on the part of the Senate.

Representatives Nakashima, Keohokalole and Ward.
Managers on the part of the House.
Ayes, 3. Noes, none. Excused, none.

Conf. Com. Rep. 107 on S.B. No. 900

The purpose of this measure is to:

- (1) Amend the qualifications for Hawaii Community-Based Economic Development Technical and Financial Assistance Program (Program) grants to include technical assistance to community-based organizations; and
- (2) Reduce the number of Community-Based Economic Development Advisory Council members from twelve to ten.

Your Committee on Conference finds that this measure will help the Program assist more community-based organizations that serve distressed areas of the State. Your Committee on Conference further finds that the Community-Based Economic Development Advisory Council faces difficulty in meeting due to lack of quorum and that lowering the number of advisory council members from twelve to ten will make it easier to schedule meetings and take official action.

Your Committee on Conference has amended this measure by:

- (1) Changing the effective date to July 1, 2017; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 900, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 900, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Wakai, Galuteria and Nishihara.
Managers on the part of the Senate.

Conf. Com. Rep. 108 on S.B. No. 469

The purpose of this measure is to appropriate funds for the operating and capital improvement budget of the Judiciary for the 2017-2019 fiscal biennium.

Your Committee on Conference approves \$361,196 for fiscal year 2017-2018 and \$729,216 for fiscal year 2018-2019 in general funds for salary increases for the justices, judges, Administrative Director of the Courts, and Deputy Administrative Director of the Courts.

Your Committee on Conference has also provided the following:

- (1) Converting 1.00 position from temporary to permanent for the Supreme Court;
- (2) Converting 7.00 positions from temporary to permanent for the Girls' Court Program; and
- (3) Adding 2.00 positions and \$58,932 in fiscal year 2017-2018 and \$101,544 in fiscal year 2018-2019 in general funds for the Mental Health Unit for the First Circuit.

CAPITAL BUDGET

Your Committee on Conference finds that Ka'ahumanu Hale, Oahu is in need of critical improvements to both its fire alarm and elevator systems, and thus provides \$1,265,000 in fiscal year 2017-2018 in general obligation bond funds for system upgrades and modernization at Ka'ahumanu Hale, Oahu.

Your Committee on Conference acknowledges the disrepair of the Ewa District Court and has therefore provided \$420,000 in fiscal year 2017-2018 in general obligation bond funds for water intrusion, roof fall protection, and re-roofing.

Your Committee on Conference also approves \$3,000,000 in fiscal year 2017-2018 in general obligation bond funds for alterations, upgrades, and improvements to judiciary facilities statewide.

Your Committee on Conference finds necessary site improvements are required at the Kapuaiwa Building on Oahu and for these improvements appropriates \$675,000 in fiscal year 2017-2018 in general obligation bond funds for storm drain and sanitary sewer systems.

Your Committee on Conference recognizes a need for enhanced security at Hoapili Hale, Maui. Therefore, your Committee provides \$1,000,000 in fiscal year 2017-2018 and \$1,600,000 in fiscal year 2018-2019 in general obligation bond funds for security improvements at Hoapili Hale, Maui.

Your Committee on Conference finds that the Kaua'i Judiciary Complex is in need of roof work and appropriates \$1,390,000 in fiscal year 2017-2018 in general obligation bond funds to reroof and repair leaks at the Kaua'i Judiciary Complex, Kaua'i.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 469, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 469, S.D. 2, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Keith-Agaran, Tokuda and Rhoads.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, none.

Representatives Nishimoto, Luke and McDermott.
Managers on the part of the House.
Ayes, 3. Noes, none. Excused, none.

Conf. Com. Rep. 109 on S.B. No. 936

The purpose of this measure is to update the Employees' Retirement System (ERS) laws relating to pension benefits administration. Specifically, this measure:

- (1) Extends the pension benefit adjustment finalization period by one month for those who retire on December 31;
- (2) Changes the interest rate for late benefit finalizations;
- (3) Extends the deadline from one to two fiscal years following retirement for employer payments of additional retirement contributions associated with significant non-base pay increases;
- (4) Allows an entity designated by the ERS Board of Trustees to certify a member's mental or physical incapacity for purposes of determining the member's eligibility for an ordinary disability retirement allowance, service-connected disability benefits, or accidental death benefits; and
- (5) Incrementally increases the rates for employer contributions to the ERS.

Your Committee on Conference finds that this measure serves as a housekeeping measure for the ERS to correct and make consistent finalized benefit adjustment periods, address employer concerns regarding payments for pension "spiking", and improve the efficiency of processing disability and accidental death claims.

Your Committee on Conference has amended this measure by:

- (1) Inserting as the interest rate for late benefit finalizations an amount to be established by the ERS Board of Trustees that shall be not less than the ninety day United States treasury bill rate as of the end of the prior year plus one per cent per year;
- (2) Inserting an effective date of July 1, 2017; and
- (3) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 936, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 936, S.D. 2, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Keith-Agaran, Tokuda and Rhoads.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, none.

Representatives Johanson, Holt and Matsumoto.
Managers on the part of the House.
Ayes, 3. Noes, none. Excused, none.

Conf. Com. Rep. 110 on S.B. No. 207

The purpose of this measure is to:

- (1) Appropriate funds to the Department of Budget and Finance (Department) for collective bargaining cost items related to the transition of affected Maui region hospital employees to employment with Maui Health System, a Kaiser Foundation Hospitals LLC.;
- (2) Authorize the affected employees to purchase credited service to qualify for, or increase the percentage of, the base monthly contributions that the State pays to the Hawaii Employer-Union Health Benefits Trust Fund; and
- (3) Repeal Act 1, Second Special Session, Session Laws of Hawaii 2016 (Act 1), and the chapter it established, chapter 89E, Hawaii Revised Statutes.

Your Committee on Conference finds that Act 103, Session Laws of Hawaii 2015, authorized the Hawaii Health Systems Corporation's Maui regional system to transfer the right and responsibility to manage, operate, and provide health care services in those facilities to a private entity or a nonprofit management entity wholly owned by the private entity. As a result of this enabling legislation, the Maui regional system facilities will be transitioned to management by a Kaiser-Permanente affiliate, and current employees of the system may be displaced as part of the transition.

Your Committee on Conference further finds that the Legislature enacted Act 1, Second Special Session, Session Laws of Hawaii 2016, to authorize the Hawaii Health Systems Corporation to offer a voluntary severance benefit or special retirement benefit to an employee who elects to separate from service when the employee's position is identified for abolishment or when the employee is directly affected by a reduction-in-force or workforce restructuring plan, including privatization; however, the provisions of Act 1 jeopardize the status of the Employees' Retirement System as a tax-qualified plan under the Internal Revenue Code.

Your Committee on Conference has amended this measure by:

- (1) Replacing the language in Part I, which appropriated funds to the Department for collective bargaining cost items related to the transition of affected Maui region hospital employees, with language that authorizes the expenditure of general funds by the Department for a one-time lump sum cash bonus severance benefit to the affected employees;
- (2) Deleting Part II, which authorized the affected employees to purchase credited service to qualify for, or increase the percentage of, the base monthly contributions that the State pays to the Hawaii Employer-Union Health Benefits Trust Fund;
- (3) Deleting the severability clause;
- (4) Inserting an effective date of July 1, 2017; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 207, S.D. 2, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 207, S.D. 2, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Keith-Agaran, Tokuda and Gabbard.
Managers on the part of the Senate.
Ayes, 2. Noes, none. Excused, 1 (Gabbard).

Representatives Johanson, Nishimoto, Holt and Matsumoto.
Managers on the part of the House.

Conf. Com. Rep. 111 on H.B. No. 50

The purpose of this bill is to establish a regulatory framework for appraisal management companies to conform with the minimum regulatory requirements of the Federal Appraisal Management Companies Final Rule and Dodd-Frank Wall Street Reform and Consumer Protection Act.

Specifically, this bill:

- (1) Establishes an Appraisal Management Company Registration Program in the Department of Commerce and Consumer Affairs; and

- (2) Appropriates funds out of the Compliance Resolution Fund to implement the Appraisal Management Company Registration Program.

Your Committee on Conference has amended this bill by:

- (1) Decreasing the nonrefundable application fee to \$60, the biennial registration fee to \$4,200, and the special assessment fee to \$300;
- (2) Appropriating \$140,000 for fiscal year 2017-2018 to implement the Appraisal Management Company Registration Program;
- (3) Changing its effective date to January 1, 2018; provided that the appropriation takes effect on July 1, 2017; and
- (4) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 50, H.D. 3, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 50, H.D. 3, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Baker, Taniguchi and Ihara.
Managers on the part of the Senate.
Ayes, 2. Noes, none. Excused, 1 (Ihara).

Representatives Ohno, Takumi, Luke, Woodson and Ward.
Managers on the part of the House.
Ayes, 5. Noes, none. Excused, none.

Conf. Com. Rep. 112 on H.B. No. 478

The purpose of this bill is to appropriate funds for agricultural management positions and equipment to support prison farming programs at Kulani Correctional Facility and Waiawa Correctional Facility.

Your Committee on Conference has amended this bill by:

- (1) Appropriating \$50,000 for fiscal year 2017-2018 for the establishment of one full-time equivalent temporary agricultural management position in the Department of Public Safety to manage agricultural operations at Kulani Correctional Facility;
- (2) Removing appropriations for specific equipment items and instead appropriating \$50,000 for fiscal year 2017-2018 for Kulani Correctional Facility agriculture equipment, to be expended at the discretion of the agricultural manager;
- (3) Appropriating \$50,000 for fiscal year 2017-2018 for the establishment of one full-time equivalent temporary agricultural management position in the Department of Public Safety to manage agricultural operations at Waiawa Correctional Facility;
- (4) Removing appropriations for specific equipment items and instead appropriating \$50,000 for fiscal year 2017-2018 for Waiawa Correctional Facility agriculture equipment, to be expended at the discretion of the agricultural manager; and
- (5) Changing its effective date to July 1, 2017.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 478, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 478, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Nishihara, Gabbard and Kahele.
Managers on the part of the Senate.
Ayes, 2. Noes, none. Excused, 1 (Kahele).

Representatives Takayama, LoPresti, Onishi and Thielen.
Managers on the part of the House.
Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. 113 on H.B. No. 1436

The purpose of this bill is to appropriate \$75,000 for the Department of Accounting and General Services to update statewide building code standards for hurricane mitigation and secure a reimbursement grant from the Federal Emergency Management Agency Hazard Mitigation Grant Program.

Your Committee on Conference has amended this measure by changing its effective date to July 1, 2017.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1436, H.D. 2, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1436, H.D. 2, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Tokuda, Dela Cruz and Kahele.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, none.

Conf. Com. Rep. 114 on H.B. No. 942

The purpose of this measure is to direct the State Foundation on Culture and the Arts to commission an artist to design and build a monument to honor and commemorate Filipino veterans of World War II and to select the location of the monument.

After careful consideration, your Committee on Conference has amended this measure by:

- (1) Changing the source of funding for the monument from the general fund to the Works of Art Special Fund established by section 103-8.5, Hawaii Revised Statutes;
- (2) Inserting an appropriation of \$200,000;
- (3) Making the appropriation for fiscal year 2017-2018; and
- (4) Changing the effective date to July 1, 2017.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 942, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 942, H.D. 1, S.D. 1, C.D. 1.

Ayes, 2. Noes, none. Excused, 1 (McDermott).

Conf. Com. Rep. 115 on H.B. No. 1420

The purpose of this measure is to honor Filipino-American veterans of World War II by appropriating moneys for burial grants, which cover funeral and burial costs and transportation of remains to the Philippines, for Filipino-American veterans of World War II.

After careful consideration, your Committee on Conference has amended this measure by:

- (1) Inserting an appropriation amount of \$50,000;
- (2) Making the appropriation for only fiscal year 2017-2018;
- (3) Requiring the appropriation to be matched on a one-to-one basis with private funds;
- (4) Changing the effective date to July 1, 2017; and
- (5) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1420, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1420, H.D. 1, S.D. 1, C.D. 1.

Conf. Com. Rep. 117 on H.B. No. 144

The purpose of this measure is to protect the health and safety of persons and property in the State by reauthorizing an appropriation that is scheduled to lapse on June 30, 2017, for the mitigation of hazardous situations statewide.

Your Committee on Conference has amended this measure by:

- (1) Inserting the encumbered amount and the amount that is scheduled to lapse on June 30, 2017;
- (2) Inserting an appropriation amount of \$536,177; and
- (3) Changing its effective date to July 1, 2017.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 144, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 144, H.D. 1, S.D. 1, C.D. 1.

Managers on the part of the House.
Ayes, 2. Noes, none. Excused, 1 (Tupola).

Conf. Com. Rep. 118 on H.B. No. 471

The purpose of this measure is to promote the judicious use of moneys in the Emergency and Budget Reserve Fund (Fund) by prohibiting the Legislature from appropriating from the Fund:

- (1) More than 50 percent of the balance of the Fund in a single fiscal year;
- (2) To expend for discretionary costs in a fiscal year, an amount that exceeds 10 percent of the total discretionary funds appropriated by the Legislature for the same fiscal year; and
- (3) For a succeeding fiscal year, unless the current fiscal year's tax collection is less than the collection for the previous fiscal year.

Your Committee on Conference has amended this measure by:

- (1) Including other costs, as determined by the Legislature, in the definition of "non-discretionary funds"; and
- (2) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 471, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 471, H.D. 1, S.D. 1, C.D. 1.

Conf. Com. Rep. 120 on H.B. No. 523

The purpose of this measure is to require the provision and maintenance of onsite methods for the collection of recyclable materials at buildings and facilities managed, maintained, or serviced by the Department of Accounting and General Services (Department). This measure also appropriates funds for the collection of recyclable materials.

Your Committee on Conference has amended this measure by:

- (1) Allowing the Department to establish a recycling pilot program for the collection of recyclable materials at buildings and facilities managed, maintained, or serviced by the Department;
- (2) Requiring the Department to submit a report to the Legislature regarding the implementation of the recycling pilot program;
- (3) Appropriating \$200,000 for fiscal year 2017-2018 for the implementation of the recycling pilot program; and
- (4) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 523, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 523, S.D. 1, C.D. 1.

Managers on the part of the House.
Ayes, 2. Noes, none. Excused, 1 (Tupola).

Conf. Com. Rep. 121 on H.B. No. 209

The purpose of this measure is to amend the State's income tax law by:

- (1) Establishing a state earned income tax credit based on a percentage of the federal earned income tax credit;
- (2) Changing income tax rates for taxable years after December 31, 2016;
- (3) Repealing the sunset date for amendments made to the refundable food/excise tax credit by Act 223, Session Laws of Hawaii 2015; and
- (4) Appropriating funds to the Department of Taxation for certain tax preparation assistance outreach programs.

Your Committee on Conference has amended this measure by:

- (1) Specifying that the state earned income tax credit shall:
 - (A) Be 20 percent of the federal earned income tax credit;
 - (B) Be nonrefundable; and
 - (C) Not apply to taxable years beginning after December 31, 2022;
- (2) Defining "qualifying individual taxpayer;"
- (3) Clarifying the disallowance period for the state earned income tax credit;
- (4) Changing the income tax rates for taxable years beginning after December 31, 2017;
- (5) Removing the appropriation to the Department of Taxation;
- (6) Changing the effective date to upon its approval; and
- (7) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 209, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 209, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Conf. Com. Rep. 124 on H.B. No. 530

The purpose of this measure is to modernize the Downpayment Loan Program under the Hawaii Housing Finance and Development Corporation (HHFDC).

Specifically, this measure:

- (1) Changes the name of the Downpayment Loan Program to the Downpayment Loan Assistance Program (Program);
- (2) Authorizes HHFDC to establish, revise, charge, and collect fees, premiums, and charges for the Program;
- (3) Changes the maximum amount of downpayment loans available to borrowers and the chargeable interest rate on loans under the Program;
- (4) Changes the downpayment amount a borrower must provide to qualify for a downpayment loan under the Program;
- (5) Authorizes HHFDC to secure the services of nonprofit organizations to originate the downpayment loans under the Program; and
- (6) Requires borrowers to successfully complete a homeownership counseling program provided by a United States Department of Housing and Urban Development-approved housing counseling agency.

Your Committee on Conference recognizes that besides financial and economic benefits to communities, homeownership also brings substantial societal benefits. Updating and expanding HHFDC's Program will help make homeownership more affordable and achievable for households in the State.

Your Committee on Conference has amended this measure by:

- (1) Specifying loan and eligibility terms as follows:
 - (A) Setting the maximum loan amount at the lesser of 15 percent of the purchase price or appraised value of the property or \$60,000;
 - (B) Providing that the loan amount and purchase money mortgage amount shall not exceed 100 percent of combined loan-to-value;
 - (C) Setting chargeable interest rates at one percent to eight percent; and

- (D) Requiring borrowers to provide a downpayment amount equal to at least five percent of the sales price;
- (2) Changing its effective date to July 1, 2017; and
- (3) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 530, H.D. 2, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 530, H.D. 2, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Espero, Galuteria and Harimoto.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, none.

Representatives Brower, Nakamura and McDermott.
Managers on the part of the House.
Ayes, 2. Noes, none. Excused, 1 (McDermott).

Conf. Com. Rep. 125 on H.B. No. 453

The purpose of this measure is to:

- (1) Establish the Food Safety Certification Costs Grant Program (“Program”) in the Department of Agriculture to provide grants to farmers to assist them in meeting the costs of compliance with the Federal Food and Drug Administration Food Safety Modernization Act, United States Food and Drug Administration regulations, and state food-safety laws; and
- (2) Appropriate funds for fiscal year 2017-2018 to implement the Program.

After careful consideration, your Committee on Conference has amended this measure by:

- (1) Appropriating \$500,000 for the Program; and
- (2) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 453, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 453, H.D. 1, S.D. 1, C.D. 1.

Conf. Com. Rep. 126 on H.B. No. 235

The purpose of this measure is to address the coverage of acupuncture treatments provided under motor vehicle insurance.

Specifically, this measure:

- (1) Clarifies that the authorized benefit for acupuncture treatments allowed under personal injury protection benefits provided through motor vehicle insurance shall be tied to the charges, and subsequent increases in charges, permissible under the Workers’ Compensation Supplemental Medical Fee Schedule; and
- (2) Clarifies that the 30-visit limit for acupuncture treatments allowed under personal injury protection benefits shall be counted separately from the 30-visit limit for naturopathic and chiropractic visits.

Your Committee on Conference has amended this measure by:

- (1) Retaining the existing 30-visit limit for naturopathic, chiropractic, and acupuncture treatments;
- (2) Changing its effective date to July 1, 2017; and
- (3) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 235, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 235, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Baker, English and Ruderman.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, none.

Representatives Takumi, Belatti, Luke, Kobayashi and Ward.

Managers on the part of the House.
Ayes, 4. Noes, none. Excused, 1 (Ward).

Conf. Com. Rep. 127 on H.B. No. 83

The purpose of this measure is to:

- (1) Require the Hawaii Interagency Council on Homelessness, in conjunction with and with the advisement of the Department of Human Services and Department of Land and Natural Resources, to establish a working group to examine and develop recommendations related to the establishment of safe zones for persons experiencing homelessness;
- (2) Require the working group to submit a report of its findings and recommendations, including any proposed legislation, to the Legislature prior to the 2018 Regular Session; and
- (3) Appropriate funds for each year of the 2017-2019 fiscal biennium to support the activities of the working group.

Your Committee on Conference notes that this is but one of several housing alternatives that policymakers, in conjunction with communities in the State, are exploring to address homelessness in Hawaii. Establishment of a working group to examine and develop recommendations regarding the establishment of safe zones for the homeless population will support policymaking and other community efforts to support homeless individuals and families.

Your Committee on Conference has amended this measure by:

- (1) Appropriating \$25,000 for fiscal year 2017-2018 to support the activities of the working group;
- (2) Changing its effective date to July 1, 2017; and
- (3) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 83, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 83, H.D. 1, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Green, Keith-Agaran, Chang, Espero and Shimabukuro.
Managers on the part of the Senate.
Ayes, 5. Noes, none. Excused, none.

Representatives Morikawa, Gates, Todd and Tupola.
Managers on the part of the House.
Ayes, 3. Noes, none. Excused, 1 (Tupola).

Conf. Com. Rep. 128 on H.B. No. 615

The purpose of this measure is to appropriate funds for the Healthy Aging Partnership Program to further its important role in improving the health and well-being of Hawaii's kupuna.

Since its formation in 2003, the Healthy Aging Partnership Program has supported the health status of older adults through evidence-based health promotion programs and disease prevention programs, thus empowering participants to make healthy decisions and engage in healthier lifestyles. Funding for the Healthy Aging Partnership Program will enable it to continue providing services and programs to the State's diverse aging population.

Your Committee on Conference has amended this measure by:

- (1) Making the appropriation applicable to one fiscal year;
- (2) Inserting the appropriation amount of \$500,000 for fiscal year 2017-2018 for the Healthy Aging Partnership Program;
- (3) Changing its effective date to July 1, 2017; and
- (4) Making a technical, nonsubstantive amendment for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 615, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 615, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Green, Ihara and Galuteria.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, none.

Representatives Morikawa, Belatti, Cullen, Takayama and Tupola.
Managers on the part of the House.
Ayes, 3. Noes, none. Excused, 2 (Belatti, Tupola).

Conf. Com. Rep. 129 on H.B. No. 607

The purpose of this measure is to improve the care of elderly persons in the State.

Specifically, this measure:

- (1) Requires the Executive Office on Aging to establish the Kupuna Caregivers Program;
- (2) Mandates the establishment of the Kupuna Care Program and clarifies which kupuna services and supports are to be provided by area agencies within the Kupuna Care Program; and
- (3) Appropriates funds for each year of the 2017-2019 fiscal biennium for the establishment and implementation of the Kupuna Caregivers Program.

Family caregivers are central to the nation's long-term care and health systems. Caregivers play an invaluable role in our communities by providing vital services and care for a rapidly-growing elderly population. Your Committee on Conference recognizes the significant role and responsibilities of caregivers in helping others, as well as the demands placed on them. This measure would provide caregivers respite from the demands of caregiving and the necessary supports and services to sustain their own health.

Your Committee on Conference has amended this measure by:

- (1) Authorizing the Executive Office on Aging to establish the Kupuna Caregivers Program;
- (2) Retaining the flexibility of the Executive Office on Aging to establish the Kupuna Care Program, rather than mandating its establishment;
- (3) Clarifying which kupuna services and supports under the Kupuna Care Program shall be provided by area agencies on aging;
- (4) Deleting the definition of "adult day health";
- (5) Amending the definitions of "adult day care", "care recipient", and "respite care";
- (6) Changing the term "homemaker" to "homemaker services";
- (7) Defining "service provider";
- (8) Specifying that the written individualized person-centered support plan under the Kupuna Care Program is to be developed with the assistance of a coach in preparing the plan;
- (9) Broadening the award of funds covering the costs for services under the Kupuna Caregivers Program to include home-delivered meals;
- (10) Providing that termination of kupuna care services may occur if a care recipient is placed or resides in a long-term care facility, such as an intermediate care facility, assisted living facility, skilled nursing facility, hospital, community care foster care home, foster family home, adult residential care home, or expanded adult residential care home;
- (11) Appropriating \$600,000 for fiscal year 2017-2018 for the Kupuna Caregivers Program;
- (12) Changing its effective date to July 1, 2017; and
- (13) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 607, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 607, H.D. 1, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Baker, Green, Tokuda, Chang and Ihara.
Managers on the part of the Senate.
Ayes, 5. Noes, none. Excused, none.

Representatives Morikawa, Cullen, Har, Kobayashi, Takayama and Tupola.
Managers on the part of the House.
Ayes, 4. Noes, none. Excused, 2 (Har, Tupola).

Conf. Com. Rep. 130 on H.B. No. 552

The purpose of this measure is to protect Hawaii, its residents, and its health care system from the adverse effects of the impending potential repeal by Congress of the federal Patient Protection and Affordable Care Act by codifying the following key portions of that Act in state law, to become effective upon repeal of the federal law pursuant to an act of Congress:

- (1) The individual mandate, which requires each state resident to maintain minimum essential health insurance coverage or face a tax penalty for noncompliance and provides for premium cost assistance for qualifying individuals;
- (2) Expanded eligibility criteria and minimum essential benefits requirements for Medicaid coverage;
- (3) Requirements for essential health care benefits applicable to all health insurance policies issued in the State;
- (4) Extension of eligibility for dependent coverage under a parent's health insurance through age twenty-six; and
- (5) Prohibitions on denial of health insurance coverage due to preexisting conditions and on gender-based discrimination in health insurance costs.

This measure also establishes an Affordable Health Insurance Working Group to address the complexities of the State's health care system and the related uncertainty over the future of the Affordable Care Act.

Your Committee on Conference has amended this measure by:

- (1) Deleting language that would have codified key provisions of the federal Affordable Care Act in state law;
- (2) Clarifying the issues for which the Working Group is tasked with considering and making policy recommendations;
- (3) Changing its effective date to July 1, 2017; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 552, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 552, H.D. 1, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Baker, Shimabukuro and Kidani.
Managers on the part of the Senate.
Ayes, 2. Noes, none. Excused, 1 (Kidani).

Representatives Belatti, Takumi, Luke and Tupola.
Managers on the part of the House.
Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. 131 on H.B. No. 1244

The purpose of this measure is to eliminate a major source of water pollution in the State by requiring that all cesspools in the State be upgraded or converted into more environmentally-friendly waste treatment systems or connected to a sewer system before January 1, 2050. This measure also provides cost assistance to homeowners by establishing and funding a compliance grant program.

Your Committee on Conference has amended this measure by:

- (1) Deleting language establishing and appropriating funds for the compliance grant program and instead providing financial assistance to homeowners through expanded eligibility criteria for the State's existing income tax credit for cesspool upgrade, conversion, or connection;
- (2) Inserting language requiring the Department of Health to investigate the impact of existing cesspools on public health and to make recommendations, in collaboration with the Department of Taxation, on the feasibility of instituting a grant program to assist low-income homeowners in complying with the mandate for upgrade, conversion, or connection;
- (3) Changing its effective date to July 1, 2017; and
- (4) Making technical, nonsubstantive amendments for the purpose of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1244, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1244, H.D. 1, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Baker, Gabbard, English, Nishihara and Riviere.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, 2 (English, Nishihara).

Representatives Belatti, Lee, Keohokalole, Lowen and Tupola.
Managers on the part of the House.
Ayes, 3. Noes, none. Excused, 2 (Keohokalole, Lowen).

Conf. Com. Rep. 132 on H.B. No. 186

The purpose of this measure is to support ongoing efforts to control the coffee berry borer infestation in Hawaii's coffee crops by appropriating funds for, and extending by two years the sunset date of, the pesticide subsidy program established under Act 105, Session Laws of Hawaii 2014.

After careful consideration, your Committee on Conference has amended this measure by:

- (1) Removing the appropriation; and
- (2) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 186, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 186, H.D. 1, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Gabbard, Riviere and Ruderman.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, none.

Representatives Creagan, Lowen and Thielen.
Managers on the part of the House.
Ayes, 3. Noes, none. Excused, none.

Conf. Com. Rep. 133 on H.B. No. 571

The purpose of this measure is to appropriate funds for the University of Hawaii Sea Grant College Program to:

- (1) Develop a communication strategy and outreach plan for emergency management and disaster preparedness;
- (2) Update and publish the fourth edition of the *Homeowner's Handbook to Prepare for Natural Hazards*; and
- (3) Conduct a systematic and targeted education and outreach initiative throughout the State for emergency management and disaster preparedness.

Your Committee on Conference has amended this measure by:

- (1) Appropriating \$200,000 for each year of fiscal biennium 2017-2019 to the University of Hawaii Sea Grant College Program for the purposes of this measure; and
- (2) Changing its effective date to July 1, 2017.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 571, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 571, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Kahele, Thielen and Riviere.

Managers on the part of the Senate.

Ayes, 2. Noes, none. Excused, 1 (Thielen).

Representatives McKelvey, Quinlan and Matsumoto.

Managers on the part of the House.

Ayes, 3. Noes, none. Excused, none.

Conf. Com. Rep. 134 on H.B. No. 1114

The purpose of this measure is to achieve compliance with the federal Occupational Safety and Health Administration (OSHA) requirement that state-level standards and enforcement be at least as effective as OSHA standards and enforcement.

More specifically, this measure:

- (1) Increases the monetary penalties for violations of the Hawaii Occupational Safety and Health Law or any standard or rule adopted thereunder; and
- (2) Requires the Director of Labor and Industrial Relations to:
 - (A) Adjust the penalties each year as required by federal law; and
 - (B) Report to the Legislature annually on the penalty adjustments.

Your Committee on Conference has amended this measure by:

- (1) Increasing the penalty amounts; and
- (2) Changing its effective date to January 1, 2018.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1114, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1114, H.D. 1, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Keith-Agaran, Taniguchi and Rhoads.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, none.

Representatives Johanson, Holt and Matsumoto.

Managers on the part of the House.

Ayes, 3. Noes, none. Excused, none.

Conf. Com. Rep. 135 on H.B. No. 100**PART I. OVERVIEW**

Your Committee on Conference has approved a Conference Draft of the executive budget that reduces the operating budget request submitted by the Administration. The Conference Draft appropriates \$408,279,449 in all funds, inclusive of \$211,883,004 in general funds, for fiscal year 2017-2018 and appropriates an additional \$606,570,295 in all funds, inclusive of \$385,025,333 in general funds, for fiscal year 2018-2019.

The following table displays the net change to the Administration's budget request as a result of the Conference Draft amendments:

	Fiscal Year 2017-2018		Fiscal Year 2018-2019	
	All Funds	Gen. Funds	All Funds	Gen. Funds
Executive Request, as amended per Governor's Messages	\$458,337,625	\$252,025,122	\$675,599,421	\$490,218,824
Conference Draft Change To Executive Request	(\$50,058,176)	(\$40,142,118)	(\$69,029,126)	(\$105,193,491)

The net change of the Conference Draft results in an executive budget for fiscal biennium 2017-2019 as follows:

	Fiscal Year 2017-2018		Fiscal Year 2018-2019	
	All Funds	Gen. Funds	All Funds	Gen. Funds
Executive Budget Act 124, SLH 2016	\$13,702,289,565	\$7,036,572,289	\$13,702,289,565	\$7,036,572,289
Net Change Of Conference Draft	\$408,279,449	\$211,883,004	\$606,570,295	\$385,025,333
Total Appropriation	\$14,110,569,014	\$7,248,455,293	\$14,308,859,860	\$7,421,597,622

PART II. OPERATING BUDGET

Agriculture

The Administration's request was to add \$6,407,047 in general funds and \$2,666,977 in non-general funds for fiscal year 2017-2018 and reduce \$985,133 in general funds and add \$1,099,450 in non-general funds for fiscal year 2018-2019.

The Conference Draft of the executive budget adjusts the Department of Agriculture's appropriation as follows:

- (1) For fiscal year 2017-2018, by adding \$1,821,083 in general funds and \$572,053 in non-general funds; and
- (2) For fiscal year 2018-2019, by reducing \$176,529 in general funds and adding \$490,699 in non-general funds.

The Conference Draft of the executive budget includes the following major adjustments:

- (1) Adding \$1,500,000 in general funds for fiscal year 2017-2018 for the Agricultural Loan Revolving Fund;
- (2) Adding 2.00 permanent positions and \$226,134 for fiscal year 2017-2018 and 3.00 positions and \$200,000 for fiscal year 2018-2019 in general funds for the Agricultural Food Safety Certification Program;
- (3) Adding 1.00 permanent position and \$115,772 in general funds for each fiscal year for the Industrial Hemp Pilot Program;
- (4) Adding 3.00 permanent positions and \$79,236 for fiscal year 2017-2018 and \$158,472 for fiscal year 2018-2019 in general funds for pesticides compliance; and
- (5) Adding \$750,000 in general funds for each fiscal year, non-recurring after fiscal year 2018-2019, for pesticide regulation expenses and studies.

Accounting and General Services

The Administration's request was to add \$125,438 in general funds and reduce \$14,809,085 in non-general funds for fiscal year 2017-2018 and reduce \$130,829 in general funds and \$19,034,085 in non-general funds for fiscal year 2018-2019.

The Conference Draft of the executive budget adjusts the Department of Accounting and General Services' appropriation as follows:

- (1) For fiscal year 2017-2018, by reducing \$4,216,030 in general funds and \$14,941,251 in non-general funds; and
- (2) For fiscal year 2018-2019, by reducing \$4,051,133 in general funds and \$22,741,251 in non-general funds.

The Conference Draft of the executive budget includes the following major adjustments:

- (1) Adding 1.00 permanent position and \$39,000 for fiscal year 2017-2018 and \$77,000 for fiscal year 2018-2019 in general funds for contract audits;
- (2) Adding \$3,175,000 in general funds for each fiscal year for carrier circuit and collocation costs;
- (3) Adding \$7,800,000 in special funds for fiscal year 2017-2018 for enhanced 911 board computer aided dispatch software upgrades; and
- (4) Changing means of financing for 5.00 permanent positions and \$505,585 from trust funds to general funds for each fiscal year for the Campaign Spending Commission.

Attorney General

The Administration's request was to add \$2,691,320 in general funds and \$3,225,998 in non-general funds for fiscal year 2017-2018 and \$2,641,320 in general funds and \$3,191,474 in non-general funds for fiscal year 2018-2019.

The Conference Draft of the executive budget adjusts the Department of the Attorney General's appropriation as follows:

- (1) For fiscal year 2017-2018, by adding \$4,554,256 in general funds and \$3,170,721 in non-general funds; and
- (2) For fiscal year 2018-2019, by reducing \$885,744 in general funds and adding \$2,995,197 in non-general funds.

The Conference Draft of the executive budget includes the following major adjustments:

- (1) Adding \$5,000,000 in general funds for fiscal year 2017-2018 for the Litigation Fund; and
- (2) Adding \$70,000 in special funds for each fiscal year for the maintenance of internet based registration systems and charity registration databases.

Business, Economic Development, and Tourism

The Administration's request was to add \$3,581,055 in general funds and reduce \$58,568,838 in non-general funds for fiscal year 2017-2018 and reduce \$1,257,489 in general funds and \$114,362,838 in non-general funds for fiscal year 2018-2019.

The Conference Draft of the executive budget adjusts the Department of Business, Economic Development, and Tourism's appropriation as follows:

- (1) For fiscal year 2017-2018, by adding \$2,257,871 in general funds and reducing \$71,798,303 in non-general funds; and
- (2) For fiscal year 2018-2019, by reducing \$3,285,041 in general funds and \$71,254,303 in non-general funds.

The Conference Draft of the executive budget includes the following major adjustments:

- (1) Adding 1.00 permanent position and \$25,386 for fiscal year 2017-2018 and \$50,772 for fiscal year 2018-2019 in general funds for compliance with decisions and orders of the Land Use Commission;
- (2) Adding \$250,000 in general funds for fiscal year 2017-2018 for a feasibility and benefits study for establishing a small satellite launch and processing facility in the State;
- (3) Adding \$200,000 in general funds for fiscal year 2017-2018 for a market assessment and feasibility study for the development of a basalt fiber manufacturing plant in Hawaii;
- (4) Adding 1.00 permanent position and \$28,584 for fiscal year 2017-2018 and \$57,168 for fiscal year 2018-2019 in general funds for economic research;
- (5) Adding \$1,000,000 in general funds for fiscal year 2017-2018 for the Excelsior Program;
- (6) Adding \$1,000,000 in general funds for fiscal year 2017-2018 for the Manufacturing Grant Program;
- (7) Adding \$1,000,000 in general funds for fiscal year 2017-2018 for the Small Business Innovation Research program; and
- (8) Adding 1.00 temporary position and \$27,618 for fiscal year 2017-2018 and \$55,236 for fiscal year 2018-2019 in general funds for the Special Action Team on Affordable Rental Housing.

Budget and Finance

The Administration's request was to add \$14,473,467 in general funds and reduce \$3,554,111 in non-general funds for fiscal year 2017-2018 and add \$237,814,627 in general funds and reduce \$6,722,045 in non-general funds for fiscal year 2018-2019.

The Conference Draft of the executive budget adjusts the Department of Budget and Finance's appropriation as follows:

- (1) For fiscal year 2017-2018, by adding \$22,559,283 in general funds and reducing \$5,497,574 in non-general funds; and
- (2) For fiscal year 2018-2019, by adding \$245,877,127 in general funds and reducing \$6,639,018 in non-general funds.

The Conference Draft of the executive budget includes the following major adjustments:

- (1) Adding \$34,625,428 for fiscal year 2017-2018 and \$70,673,178 for fiscal year 2018-2019 in general funds for additional retirement benefit payments funding for the State to reflect phase-in of employer contribution rate increases;
- (2) Adding 1.00 permanent position and \$28,116 for fiscal year 2017-2018 and \$51,432 for fiscal year 2018-2019 in general funds for the Administrative and Research Office's information and technology staff;
- (3) Adding \$9,700,000 in general funds for each fiscal year for statewide centralized vacation payout;
- (4) Adding \$238,200 for fiscal year 2017-2018 and \$13,200 for fiscal year 2018-2019 in other funds for personally identifiable information protection;
- (5) Adding 3.00 permanent positions and \$445,768 in general funds for each fiscal year for the Community Court Outreach Project; and
- (6) Adding \$30,637,298 in general funds for fiscal year 2017-2018 for severance pay and social security and Medicare payments for employees to be separated from state employment due to the upcoming transfer of the Hawaii Health Systems Corporation's Maui Region to Kaiser Permanente management.

Commerce and Consumer Affairs

The Administration's request was to add \$7,577,865 in non-general funds for fiscal year 2017-2018 and \$6,007,392 in non-general funds for fiscal year 2018-2019.

The Conference Draft of the executive budget adjusts the Department of Commerce and Consumer Affairs' appropriation as follows:

- (1) For fiscal year 2017-2018, by adding \$3,697,257 in non-general funds; and
- (2) For fiscal year 2018-2019, by adding \$3,147,780 in non-general funds.

The Conference Draft of the executive budget includes the following major adjustments:

- (1) Adding 1.00 temporary position and \$51,000 for fiscal year 2017-2018 and \$84,000 for fiscal year 2018-2019 in trust funds for condominium education; and
- (2) Adding \$200,000 in special funds for fiscal year 2017-2018 for consultant services and training.

Defense

The Administration's request was to reduce \$1,035,255 in general funds and \$1,583,563 in non-general funds for fiscal year 2017-2018 and \$1,557,728 in general funds and \$1,503,563 in non-general funds for fiscal year 2018-2019.

The Conference Draft of the executive budget adjusts the Department of Defense's appropriation as follows:

- (1) For fiscal year 2017-2018, by reducing \$749,615 in general funds and adding \$415,537 in non-general funds; and
- (2) For fiscal year 2018-2019, by reducing \$1,877,614 in general funds and \$1,343,563 in non-general funds.

The Conference Draft of the executive budget includes the following major adjustments:

- (1) Adding \$90,000 in general funds for each fiscal year for State Active Duty continuing operations;
- (2) Adding 1.00 permanent position and \$50,772 in general funds for each fiscal year for a Veteran Services Counselor;
- (3) Adding \$325,000 in general funds for fiscal year 2017-2018 for a Diamond Head Sewer Lift Station Emergency Generator;
- (4) Adding \$768,000 in general funds for fiscal year 2017-2018 for tree trimming and removal services at Hawaii State Veterans Cemetery; and
- (5) Adding 1.00 permanent positions and \$27,556 for fiscal year 2017-2018 and \$54,112 for fiscal year 2018-2019 in general funds for heating, ventilation, and air conditioning maintenance.

Education

Regular Education

The Administration's request was to add \$64,287,540 in general funds and \$2,867,548 in non-general funds for fiscal year 2017-2018 and \$65,848,291 in general funds and \$2,867,548 in non-general funds for fiscal year 2018-2019.

The Conference Draft of the executive budget adjusts the Department of Education's appropriation as follows:

- (1) For fiscal year 2017-2018, by adding \$55,120,221 in general funds and \$6,606,548 in non-general funds; and
- (2) For fiscal year 2018-2019, by adding \$50,192,377 in general funds and \$3,806,548 in non-general funds.

The Conference Draft of the executive budget includes the following major adjustments:

- (1) Adding \$1,000,000 in general funds for each fiscal year for the Early College High School Initiative;
- (2) Adding \$2,027,645 in general funds for fiscal year 2017-2018 for the Office of Hawaiian Education;
- (3) Adding \$2,800,000 in general funds and \$2,800,000 in federal funds for fiscal year 2017-2018 for the Hawaii Keiki Healthy and Ready to Learn Program;
- (3) Adding 15.00 permanent positions and \$703,980 in general funds for each fiscal year for Homeless Concerns Liaisons;
- (4) Adding 6.00 permanent positions and \$135,216 for fiscal year 2017-2018 and \$270,432 for fiscal year 2018-2019 in general funds for the Worker's Compensation Program;
- (5) Adding \$293,557 in general funds for fiscal year 2017-2018 for the Office of Community Engagement;
- (6) Adding \$670,000 in general funds for fiscal year 2017-2018 for Alternative Teacher Route Programs;
- (7) Adding 15.00 permanent positions and \$779,310 for fiscal year 2017-2018 and \$1,434,885 for fiscal year 2018-2019 in general funds for Title IX and Civil Rights Compliance Capacity;
- (8) Adding \$100,000 in general funds for fiscal year 2017-2018 for athletic travel to and from Molokai and Hana;
- (9) Adding \$800,000 in general funds for each fiscal year for environmental health services;
- (10) Adding 4.00 permanent positions and \$1,755,525 for fiscal year 2017-2018 and \$3,711,835 for fiscal year 2018-2019 in general funds for statewide student transportation services; and
- (11) Adding \$1,500,000 in general funds for each fiscal year for utilities.

Hawaii State Public Library System

The Administration's request was to add \$1,295,169 in general funds for fiscal year 2017-2018 and add \$1,480,317 in general funds for fiscal year 2018-2019.

The Conference Draft of the executive budget adjusts the Hawaii State Libraries' appropriation as follows:

- (1) For fiscal year 2017-2018, by adding \$1,664,613 in general funds; and
- (2) For fiscal year 2018-2019, by adding \$1,215,205 in general funds.

The Conference Draft of the executive budget includes the following major adjustments:

- (1) Adding 3.00 permanent positions and \$50,592 for fiscal year 2017-2018 and \$101,184 for fiscal year 2018-2019 in general funds for Nanakuli Public Library; and
- (2) Adding \$500,000 in general funds for fiscal year 2017-2018 for the repair and maintenance backlog for public libraries statewide.

Charter Schools

The Administration's request was to add \$11,336,693 in general funds and \$303,150 in federal funds for fiscal year 2017-2018 and add \$11,419,807 in general funds and \$303,150 in federal funds for fiscal year 2018-2019.

The Conference Draft of the executive budget adjusts the Charter Schools' appropriation as follows:

- (1) For fiscal year 2017-2018, by adding \$10,813,540 in general funds and \$303,150 in federal funds; and
- (2) For fiscal year 2018-2019, by adding \$11,684,877 in general funds and \$303,150 in federal funds.

The Conference Draft of the executive budget includes the following major adjustment:

- (1) Adding \$9,797,069 for fiscal year 2017-2018 and \$10,668,406 for fiscal year 2018-2019 in general funds for per pupil adjustment.

Early Learning Program

The Administration's request was to add \$89,486 in general funds for fiscal year 2017-2018 and add \$118,070 in general funds for fiscal year 2018-2019.

The Conference Draft of the executive budget adjusts the Early Learning Program's appropriation as follows:

- (1) For fiscal year 2017-2018, by adding \$230,414 in general funds; and
- (2) For fiscal year 2018-2019, by adding \$679,152 in general funds.

The Conference Draft of the executive budget includes the following major adjustments:

- (1) Adding 2.00 permanent positions and \$53,733 for fiscal year 2017-2018 and \$82,317 for fiscal year 2018-2019 in general funds for the Executive Office on Early Learning; and
- (2) Adding \$136,688 for fiscal year 2017-2018 and 10.00 permanent positions and \$556,842 for fiscal year 2018-2019 in general funds for the Pre-Kindergarten and Induction Program.

Governor

The Administration's request was to add \$184,035 in general funds for fiscal year 2017-2018 and \$184,035 in general funds for fiscal year 2018-2019.

The Conference Draft of the executive budget adjusts the Office of the Governor's appropriation as follows:

- (1) For fiscal year 2017-2018, by reducing \$354,070 in general funds; and
- (2) For fiscal year 2018-2019, by reducing \$354,070 in general funds.

The Conference Draft of the executive budget includes the following major adjustment:

- (1) Adding \$117,167 in general funds for each fiscal year for membership fees for national and regional chief executive organizations.

Hawaiian Home Lands

The Administration's request was to add \$1,195,390 in general funds and reduce \$31,484,159 in non-general funds for fiscal year 2017-2018 and to add \$1,195,390 in general funds and reduce \$31,484,159 in non-general funds for fiscal year 2018-2019.

The Conference Draft of the executive budget adjusts the Department of Hawaiian Home Lands' appropriation as follows:

- (1) For fiscal year 2017-2018, by adding \$1,195,390 in general funds and reducing \$5,743,625 in non-general funds; and
- (2) For fiscal year 2018-2019, by adding \$1,195,390 in general funds and reducing \$5,743,625 in non-general funds.

The Conference Draft of the executive budget includes the following major adjustment:

- (1) Adding \$6,865,887 in general funds for each fiscal year for fringe benefit funding for the Department of Hawaiian Home Lands' general funded positions.

Health

The Administration's request was to add \$22,123,885 in general funds and \$52,363,112 in non-general funds for fiscal year 2017-2018 and \$25,041,849 in general funds and \$8,296,893 in non-general funds for fiscal year 2018-2019.

The Conference Draft of the executive budget adjusts the Department of Health's appropriation as follows:

- (1) For fiscal year 2017-2018, by adding \$21,608,232 in general funds and \$52,473,444 in non-general funds; and

- (2) For fiscal year 2018-2019, by adding \$15,442,557 in general funds and \$8,407,225 in non-general funds.

The Conference Draft of the executive budget includes the following major adjustments:

- (1) Adding \$1,300,000 for fiscal year 2017-2018 and \$500,000 for fiscal year 2018-2019 in general funds for outreach and counseling services for homeless individuals and families with serious and persistent mental health challenges or severe substance abuse disorders;
- (2) Adding \$300,000 in general funds for each fiscal year for clean and sober housing for chronically homeless individuals with severe substance use disorders;
- (3) Adding \$1,340,000 for fiscal year 2017-2018 and \$1,613,000 for fiscal year 2018-2019 in general funds for purchase of service contracts for Child and Adolescent Mental Health;
- (4) Adding \$2,754,980 for fiscal year 2017-2018 and \$7,118,914 for fiscal year 2018-2019 in general funds for rebased provider payment rates;
- (5) Adding \$3,000,000 in general funds for each fiscal year for maintenance of effort for the maternal infant early childhood home visiting grant;
- (6) Adding \$6,507,305 in general funds for each fiscal year for base budget funding for Chronic Disease Prevention and Health Promotion Administration, Primary Prevention, and Chronic Disease Management per funding in Act 118, SLH 2015;
- (7) Adding 6.00 permanent positions and \$422,540 in general funds for each fiscal year for vector control;
- (8) Adding \$500,000 in general funds for each fiscal year to address Rat Lungworm Disease;
- (9) Adding \$799,833 in general funds for fiscal year 2017-2018 for statewide emergency ambulance services;
- (10) Adding \$4,145,695 in general funds for fiscal year 2017-2018 for Kupuna Care; and
- (11) Adding \$1,700,000 in general funds for fiscal year 2017-2018 for the Aging and Disability Resource Center.

Hawaii Health Systems Corporation

The Administration's request was to add \$44,409,003 in general funds and \$23,459,087 in special funds for fiscal year 2017-2018 and \$28,029,003 in general funds and \$23,459,087 in special funds for fiscal year 2018-2019.

The Conference Draft of the executive budget adjusts the Hawaii Health Systems Corporation's appropriation as follows:

- (1) For fiscal year 2017-2018, by adding \$28,681,003 in general funds and \$23,459,087 in special funds; and
- (2) For fiscal year 2018-2019, by reducing \$9,938,997 in general funds and adding \$23,459,087 in special funds.

The Conference Draft of the executive budget includes the following major adjustments:

- (1) Adding \$36,486,000 for fiscal year 2017-2018 and \$34,686,000 for fiscal year 2018-2019 in general funds for operations subsidy;
- (2) Adding \$3,000,000 in general funds for fiscal year 2017-2018 for Hawaii Health Systems Corporation – Regions or Maui Health System, a Kaiser Foundation Hospitals LLC; and
- (3) Adding \$33,420,000 in general funds for fiscal year 2017-2018 for operations subsidy.

Human Resources Development

The Administration's request was to add \$2,052,292 in general funds for fiscal year 2017-2018 and \$2,302,292 in general funds for fiscal year 2018-2019.

The Conference Draft of the executive budget adjusts the Department of Human Resources Development's appropriation as follows:

- (1) For fiscal year 2017-2018, by adding \$2,052,292 in general funds; and
- (2) For fiscal year 2018-2019, by adding \$2,201,212 in general funds.

The Conference Draft of the executive budget includes the following major adjustment:

- (1) Adding \$3,274,000 for fiscal year 2017-2018 and \$3,524,000 for fiscal year 2018-2019 in general funds for workers' compensation claims.

Human Services

The Administration's request was to add \$25,596,723 in general funds and \$157,393,373 in non-general funds for fiscal year 2017-2018 and \$66,440,270 in general funds and \$276,330,208 in non-general funds for fiscal year 2018-2019.

The Conference Draft of the executive budget adjusts the Department of Human Services' appropriation as follows:

- (1) For fiscal year 2017-2018, by adding \$7,122,833 in general funds and \$147,622,055 in non-general funds; and
- (2) For fiscal year 2018-2019, by adding \$28,361,291 in general funds and \$253,920,541 in non-general funds.

The Conference Draft of the executive budget includes the following major adjustments:

- (1) Adding \$3,000,000 in general funds for fiscal year 2017-2018 for the Housing First Program;

- (2) Adding \$1,500,000 in general funds for fiscal year 2017-2018 for homeless outreach services;
- (3) Adding \$250,000 in general funds for fiscal year 2017-2018 for legal services for homeless persons;
- (4) Adding \$2,100,000 in general funds for each fiscal year for Hawaii Public Housing Authority state family and elderly housing facilities;
- (5) Adding \$1,553,559 in general funds and \$2,309,090 in federal funds for each fiscal year for the nursing facility inflation factor; and
- (6) Adding \$240,000 in general funds for fiscal year 2017-2018 for juvenile justice and delinquency prevention.

Labor and Industrial Relations

The Administration's request was to reduce \$2,753,210 in general funds and \$19,987 in non-general funds for fiscal year 2017-2018 and to reduce \$376,494 in general funds and to add \$45,604 in non-general funds for fiscal year 2018-2019.

The Conference Draft of the executive budget adjusts the Department of Labor and Industrial Relations' appropriation as follows:

- (1) For fiscal year 2017-2018, by adding \$105,985 in general funds and reducing \$19,987 in non-general funds; and
- (2) For fiscal year 2018-2019, by adding \$765,821 in general funds and \$45,604 in non-general funds.

The Conference Draft of the executive budget includes the following major adjustments:

- (1) Adding \$750,000 in general funds for each fiscal year to support workforce advisory councils;
- (2) Adding \$450,000 in general funds for each fiscal year for transition to the federal Workforce Innovation Opportunity Act; and
- (3) Adding 1.00 permanent position and \$515,386 for fiscal year 2017-2018 and \$2,810,772 for fiscal year 2018-2019 in general funds for Disability Compensation Division Modernization.

Land and Natural Resources

The Administration's request was to add \$21,234,212 in general funds and \$16,036,430 in non-general funds for fiscal year 2017-2018 and \$20,766,112 in general funds and \$1,891,237 in non-general funds for fiscal year 2018-2019.

The Conference Draft of the executive budget adjusts the Department of Land and Natural Resources' appropriation as follows:

- (1) For fiscal year 2017-2018, by adding \$22,827,227 in general funds and \$12,279,060 in non-general funds; and
- (2) For fiscal year 2018-2019, by adding \$21,505,253 in general funds and \$362,117 in non-general funds.

The Conference Draft of the executive budget includes the following major adjustments:

- (1) Adding \$14,049,108 in general funds for each fiscal year for various programs' base budgets per funding in Act 84, Session Laws of Hawaii 2015;
- (2) Adding 15.00 temporary positions and \$1,065,147 for fiscal year 2017-2018 and \$1,097,047 for fiscal year 2018-2019 in general funds for personnel and operating funds for management and restoration of Kahoolawe Island Reserve;
- (3) Adding \$4,000,000 in general funds for each fiscal year for the Hawaii Invasive Species Council; and
- (4) Adding \$400,000 in general funds for each fiscal year for the fire protection program.

Public Safety

The Administration's request was to add \$7,265,245 in general funds and \$1,292,671 in non-general funds for fiscal year 2017-2018 and \$4,201,373 in general funds and \$1,292,671 in non-general funds for fiscal year 2018-2019.

The Conference Draft of the executive budget adjusts the Department of Public Safety's appropriation as follows:

- (1) For fiscal year 2017-2018, by adding \$6,592,410 in general funds and \$1,292,671 in non-general funds; and
- (2) For fiscal year 2018-2019, by adding \$1,518,800 in general funds and \$1,292,671 in non-general funds.

The Conference Draft of the executive budget includes the following major adjustments:

- (1) Adding \$3,334,801 in general funds for fiscal year 2017-2018 for housing inmates in non-state facility during renovation of Halawa Correctional Facility;
- (2) Adding \$165,000 in general funds for each fiscal year for Malpractice Insurance; and
- (3) Adding \$1,500,000 in general funds for fiscal year 2017-2018 for lease rent for Department of Public Safety Administration building and moving costs.

Taxation

The Administration's request was to add \$648,279 in general funds and \$3,572 in non-general funds for fiscal year 2017-2018 and \$523,279 in general funds and \$3,572 in non-general funds for fiscal year 2018-2019.

The Conference Draft of the executive budget adjusts the Department of Taxation's appropriation as follows:

- (1) For fiscal year 2017-2018, by reducing \$393,819 in general funds and adding \$3,572 in non-general funds; and

(2) For fiscal year 2018-2019, by reducing \$518,819 in general funds and adding \$3,572 in non-general funds.

The Conference Draft of the executive budget includes the following major adjustment:

(1) Adding \$93,860 in general funds for each fiscal year for security for medical marijuana tax collections.

Transportation

The Administration's request was to reduce \$500,000 in general funds and \$43,904,674 in non-general funds for fiscal year 2017-2018 and reduce \$500,000 in general funds and add \$28,461,212 in non-general funds for fiscal year 2018-2019.

The Conference Draft of the executive budget adjusts the Department of Transportation's appropriation as follows:

- (1) For fiscal year 2017-2018, by adding \$500,000 in general funds and \$37,264,241 in non-general funds; and
- (2) For fiscal year 2018-2019, by reducing \$1,500,000 in general funds and adding \$25,794,742 in non-general funds.

The Conference Draft of the executive budget includes the following major adjustments:

- (1) Adding 7.00 permanent positions and \$157,939 for fiscal year 2017-2018 and \$303,878 for fiscal year 2018-2019 in special funds for Airside Operations Section Security Unit Pass and Identification Office;
- (2) Adding 13.00 permanent positions and \$684,787 for fiscal year 2017-2018 and \$1,369,574 for fiscal year 2018-2019 in special funds for Aircraft Rescue and Fire Fighting Unit;
- (3) Adding 6.00 permanent positions and \$162,752 for fiscal year 2017-2018 and \$293,004 for fiscal year 2018-2019 in special funds for the Federal Inspection Station;
- (4) Adding 2.00 permanent positions and \$97,161 for fiscal year 2017-2018 and \$194,322 for fiscal year 2018-2019 in special funds for the Office of Environmental Compliance;
- (5) Adding 2.00 permanent positions and \$101,809 for fiscal year 2017-2018 and \$203,618 for fiscal year 2018-2019 in special funds for the H-3 Tunnel Management Center;
- (6) Adding 10.00 permanent positions and \$679,152 in special funds for fiscal year 2017-2018 and \$1,243,998 in special funds and \$216,000 in federal funds for fiscal year 2018-2019 for the Intelligent Technology Systems Branch;
- (7) Adding \$800,000 in special funds for fiscal year 2018-2019 for trash reduction plan implementation; and
- (8) Adding \$3,514,950 for fiscal year 2017-2018 and \$1,242,000 for fiscal year 2018-2019 in special funds for information technology projects.

University of Hawaii

The Administration's request was to add \$42,558,733 in general funds and \$5,540,939 in non-general funds for fiscal year 2017-2018 and fiscal year 2018-2019.

The Conference Draft of the executive budget adjusts the University of Hawaii's appropriation as follows:

- (1) For fiscal year 2017-2018, by adding \$42,176,529 in general funds and \$5,540,939 in non-general funds; and
- (2) For fiscal year 2018-2019, by adding \$42,131,529 in general funds and \$5,540,939 in non-general funds.

The Conference Draft of the executive budget includes the following major adjustments:

- (1) Adding \$350,000 in general funds for each fiscal year for concussion testing and awareness;
- (2) Adding \$1,829,000 in general funds for each fiscal year for the Hawaii Promise Program;
- (3) Adding \$250,000 in general funds for each fiscal year for Title IX positions;
- (4) Adding 2.00 permanent positions and \$150,000 in general funds for each fiscal year for Title IX compliance for the University of Hawaii, Hilo;
- (5) Adding 4.00 permanent positions and \$820,000 in general funds for each fiscal year for Title IX compliance for the University of Hawaii Community Colleges;
- (6) Adding 1.00 permanent position and \$70,000 in general funds for each fiscal year for Title IX compliance for the University of Hawaii, West Oahu; and
- (7) Adding 2.00 permanent positions and \$375,000 in general funds for each fiscal year for University of Hawaii systemwide Title IX legal support.

PART III. CAPITAL IMPROVEMENT PROJECTS BUDGET

Your Committee on Conference finds that capital improvement projects are essential to our economy and play a pivotal role in building social infrastructure and helping strengthen communities.

Your Committee on Conference has provided a total of \$1,027,951,000 for fiscal year 2017-2018 and \$49,445,000 for fiscal year 2018-2019 for projects funded by general obligation bonds and \$1,907,509,000 in fiscal biennium 2017-2019 for projects funded by all other means of financing. In comparison, the Administration's proposed capital improvement projects' biennium budget, as amended pursuant to Governor's Messages, provided a total of \$1,375,734,000 for fiscal year 2017-2018 and \$151,676,000 for fiscal year 2018-

2019 for projects funded by general obligation bonds and \$1,748,338,000 in fiscal biennium 2017-2019 for projects funded by all other means of financing.

Highlights of the capital improvements projects' budget for the biennium include:

- (1) \$23,800,000 in general obligation bond funds for the Department of Agriculture for fiscal year 2017-2018 to purchase over 600 acres of agricultural land to lease to local farmers, and an additional \$12,200,000 in upgrades and improvements to critical water infrastructure systems and agricultural facilities statewide;
- (2) \$10,000,000 in general obligation bond funds for fiscal year 2017-2018 for the Department of Accounting and General Services for an environmental impact study and master plan for a new stadium, adding \$15,000,000 in general obligation bond funds in fiscal year 2017-2018 for lump sum maintenance of existing facilities, along with an additional \$1,200,000 in general obligation bond funds in fiscal year 2017-2018 to begin the rehabilitation of the chambers level waterproofing system at the State Capitol Building;
- (3) A rental housing revolving fund capital infusion of \$25,000,000 in general obligation bond funds and a dwelling unit revolving fund capital infusion of \$25,000,000 in general obligation bond funds for fiscal year 2017-2018 to expand affordable housing statewide;
- (4) \$155,900,000 for lump sum condition, equity, and program support for Department of Education schools, and an additional \$332,209,000 in general obligation bond funds in various other Department of Education capital improvement projects for a total of \$488,109,000 in the 2017-2019 fiscal biennium;
- (5) Lump sum repair, maintenance, and new housing units statewide for the Department of Public Safety totaling \$78,710,000 in general obligation bond funds for the 2017-2019 fiscal biennium;
- (6) Support for repair, maintenance, and renovations at the University of Hawaii campuses statewide, including \$20,000,000 in general obligation bond funds for community colleges and \$83,250,000 in general obligation bond funds for University of Hawaii, systemwide support in fiscal year 2017-2018; and
- (7) Encouragement of the future chefs and culinary industry of Hawaii with an infusion of \$20,000,000 in general obligation bond funds, and a \$10,000,000 match in private funds for phase II of the Kapiolani Community College Culinary Institute of the Pacific.

Your Committee on Conference recognizes the great need in the State for services provided by non-governmental groups and nonprofit agencies and has thus provided \$19,975,000 in general obligation bond funds in fiscal year 2017-2018 to help aid these organizations in better serving the community.

Finally, your Committee on Conference provided funding for various projects within the Department of Defense, Department of Hawaiian Home Lands, Department of Health, Department of Human Services, Department of Land and Natural Resources, and Department of Transportation, among others, to ensure that contributions of matching federal, private, and other funds may be maximized and not lost or forfeited.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 100, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 100, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Tokuda, Dela Cruz, English, Galuteria, Harimoto, Inouye, Kahele, Riviere, Shimabukuro, Taniguchi and Wakai.
Managers on the part of the Senate.

Ayes, 11. Noes, none. Excused, none.

Representatives Luke, Cachola, Choy, Cullen, DeCoite, Gates, Holt, Keohokalole, Kobayashi, LoPresti, Lowen, Nakamura, Quinlan, Tokioka, Yamashita, Tupola and Ward.

Managers on the part of the House.

Ayes, 17. Noes, none. Excused, none.

Conf. Com. Rep. 136 on H.B. No. 143

The purpose of this measure is to:

- (1) Authorize the issuance of general obligation bonds to finance capital improvement projects authorized in appropriation measures of the Executive Branch and the Judiciary; and
- (2) Make a declaration of findings with respect to the authorizations for the bonds as required under the Hawaii State Constitution.

Article VII, section 13, of the Constitution of the State of Hawaii requires the Legislature to include a declaration of findings in every general law authorizing the issuance of general obligation bonds, which shall declare that the issuance of state bonds authorized will not cause the debt limit to be exceeded at the time of issuance.

Your Committee on Conference has amended this measure by:

- (1) Inserting the appropriate dollar amounts throughout the measure as provided by the Department of Budget and Finance;
- (2) Updating dates cited in the measure;
- (3) Changing its effective date to upon its approval; and
- (4) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 143, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 143, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Tokuda, Dela Cruz and English.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, none.

Representatives Luke, Cachola, Choy, Cullen, DeCoite, Gates, Holt, Keohokalole, Kobayashi, LoPresti, Lowen, Nakamura, Quinlan, Tokioka, Yamashita, Tupola and Ward.

Managers on the part of the House.

Ayes, 17. Noes, none. Excused, none.

Conf. Com. Rep. 137 on H.B. No. 1465

The purpose of this measure is to update statutory language on liquor license transfer, application, and operating procedures.

More specifically, this measure, among other things:

- (1) Accounts for both member managed and manager managed limited liability companies under liquor licensing statutes;
- (2) Allows liquor license holders that are partnership entities or limited liability companies to avoid license transfer requirements upon admission or withdrawal of certain members, partners, or managers of the license holding entity or company by notifying the Liquor Commission of the change within thirty days;
- (3) Clarifies liquor license procedures and criminal history record check requirements for publicly-traded companies;
- (4) Provides flexibility to the Liquor Commission to hold a license in safekeeping status as an alternative to license cancellation, due to cessation of a business;
- (5) Clarifies conditions under which publicly-traded companies or entities solely owned by a publicly-traded entity may be disqualified for licensure;
- (6) Prohibits a non-primary decision-maker from coercing, pressuring, or unduly influencing a primary decision-maker to engage in any unlawful activity relating to the purchase and sale of liquor; and
- (7) Allows the Liquor Commission to issue a temporary license when an applicant, transferor, or transferee is actively challenging a tax matter that prevents the issuance of the appropriate certificate.

Your Committee on Conference has amended this measure by:

- (1) Requiring the Liquor Commission to issue a temporary license that is valid for the period of time necessary to resolve a valid challenge by an applicant, transferor, or transferee of a tax matter that prevents the issuance of the appropriate certificate;
- (2) Changing its effective date from July 1, 2030, to upon its approval; and
- (3) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1465, H.D. 2, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1465, H.D. 2, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Nishihara, Chang and Keith-Agaran.

Managers on the part of the Senate.

Ayes, 2. Noes, none. Excused, 1 (Keith-Agaran).

Representatives Takumi, Cachola, Fukumoto, Todd and Ward.

Managers on the part of the House.

Ayes, 3. Noes, none. Excused, 2 (Fukumoto, Ward).

Conf. Com. Rep. 138 on H.B. No. 213

The purpose of this measure is to:

- (1) Permit an employee to take family leave to care for the employee's sibling with a serious health condition or upon the death of the employee's child, spouse, reciprocal beneficiary, sibling, or parent; and
- (2) Specify notice and certification requirements.

Your Committee on Conference has amended this measure by:

- (1) Deleting language permitting an employee to take family leave upon the death of the employee's child, spouse, reciprocal beneficiary, sibling, or parent; and
- (2) Making it effective upon its approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 213, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 213, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Keith-Agaran, Tokuda and Rhoads.
Managers on the part of the Senate.
Ayes, 2. Noes, none. Excused, 1 (Rhoads).

Representatives Johanson, Cullen, Holt and Matsumoto.
Managers on the part of the House.
Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. 139 on H.B. No. 1382

The purpose of this measure is to assist small businesses in the state procurement process by establishing and appropriating funds for a temporary small business assistance initiative, which would include the completion of the state small business database, small business advisory group, small business office, and small business procurement coordinator position within the State Procurement Office.

Your Committee on Conference has amended this measure by:

- (1) Changing the appropriation amount from an unspecified amount to \$250,000;
- (2) Appropriating the funds for one fiscal year, FY 2017-2018, rather than two fiscal years;
- (3) Providing the State Procurement Office with flexibility in how it allocates the appropriation amount;
- (4) Changing the small business procurement coordinator position from permanent to temporary;
- (5) Changing its effective date to July 1, 2017; and
- (6) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1382, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1382, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Kim, Wakai, Galuteria, Thielen and Ruderman.
Managers on the part of the Senate.
Ayes, 4. Noes, none. Excused, 1 (Wakai).

Representatives Johanson, Holt, Keohokalole and Matsumoto.
Managers on the part of the House.
Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. 140 on H.B. No. 1475

The purpose of this measure is to enhance public access to locally-grown food and value-added products while enabling farmers to be economically sustainable by allowing farmers' markets and food hubs on agricultural lands.

After careful consideration, your Committee on Conference has amended this measure by:

- (1) Not requiring agricultural-based commercial operations in agricultural districts to be headquartered in Hawaii;
- (2) Not specifying the percentage of Hawaii-grown content required for agricultural products and value-added products sold at roadside stands, retail food establishments, farmers' markets, food hubs, and retail activities on agricultural lands under section 205-2(d)(15), Hawaii Revised Statutes;
- (3) Changing its effective date to upon its approval; and
- (4) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1475, H.D. 2, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1475, H.D. 2, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Gabbard, Rhoads and Baker.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, none.

Representatives Creagan, Nakashima, Cullen and Thielen.
Managers on the part of the House.
Ayes, 3. Noes, none. Excused, 1 (Nakashima).

Conf. Com. Rep. 141 on H.B. No. 1578

The purpose of this measure is to establish and appropriate funds for a Carbon Farming Task Force within the Office of Planning to identify agricultural and aquacultural activities and best practices that provide carbon sequestration benefits.

Your Committee on Conference has amended this measure by:

- (1) Inserting an appropriation amount of \$25,000 for fiscal year 2017-2018 and deleting the appropriation for fiscal year 2018-2019;
- (2) Changing its effective date to July 1, 2017; and
- (3) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1578, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1578, H.D. 1, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Wakai, Gabbard and Riviere.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, none.

Representatives Lee, Creagan, Lowen, LoPresti and Tupola.
Managers on the part of the House.
Ayes, 3. Noes, none. Excused, 2 (LoPresti, Tupola).

Conf. Com. Rep. 142 on H.B. No. 427

The purpose of this measure is to preserve dark night skies in Hawaii by establishing a Dark Night Skies Protection Advisory Committee to assist the University of Hawaii in developing a statewide dark night skies protection strategy.

Your Committee on Conference has amended this measure by correctly reflecting the number of members on the Dark Night Skies Protection Advisory Committee.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 427, H.D. 2, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 427, H.D. 2, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Kahele, Gabbard, Dela Cruz and Kidani.
Managers on the part of the Senate.
Ayes, 4. Noes, none. Excused, none.

Representatives Lee, McKelvey, Lowen, Fukumoto, Woodson and Tupola.
Managers on the part of the House.
Ayes, 4. Noes, none. Excused, 2 (Woodson, Tupola).

Conf. Com. Rep. 143 on H.B. No. 1351

The purpose of this measure is to:

- (1) Authorize the Director of Health to expend moneys to support a county electronics recycling collection; and
- (2) Make an appropriation to reimburse the counties of Hawaii, Kauai, and Maui for expenses incurred during 2015 and 2016 related to the collection services associated with handling and collecting electronic devices for recycling.

Your Committee on Conference has amended this measure by:

- (1) Removing the appropriations to reimburse the counties of Hawaii, Kauai, and Maui for expenses incurred during 2015 and 2016 related to the collection services associated with handling and collecting electronic devices for recycling; and
- (2) Changing its effective date to upon its approval, to be applicable to county electronics collections occurring on or after January 1, 2016.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1351, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1351, H.D. 1, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Gabbard, Baker and Riviere.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, none.

Representatives Lee, Lowen, LoPresti and Tupola.
Managers on the part of the House.
Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. 144 on H.B. No. 957

The purpose of this measure is to expedite the cooling of public school classrooms by:

- (1) Providing that moneys in the Hawaii Green Infrastructure Special Fund may be used for loans to subsidize the installation costs for energy-efficient lighting and other energy efficiency measures related to heat abatement at public schools;
- (2) Making related appropriations; and
- (3) Requiring the Department of Education to report on its expenditure plan to the Hawaii Green Infrastructure Authority and to repay the loan using general revenues saved by the reduced utility costs that result from energy-efficient lighting and other energy efficiency measures.

Your Committee on Conference has amended this measure by:

- (1) Appropriating \$46,400,000 out of the Hawaii Green Infrastructure Special Fund to finance installation costs for energy-efficient lighting and other energy efficiency measures related to heat abatement at public schools;
- (2) Authorizing the Department of Education to borrow \$46,400,000 for the heat abatement installation costs;
- (3) Changing its effective date to July 1, 2017; and
- (4) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 957, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 957, H.D. 1, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Kidani, Inouye and Tokuda.
Managers on the part of the Senate.
Ayes, 2. Noes, none. Excused, 1 (Inouye).

Representatives Lee, Woodson, Luke, Cullen, Har and Tupola.
Managers on the part of the House.
Ayes, 4. Noes, none. Excused, 2 (Har, Tupola).

Conf. Com. Rep. 145 on H.B. No. 375

The purpose of this measure is to repeal the sunset date for amendments made to the refundable food/excise tax credit by Act 223, Session Laws of Hawaii 2015.

Your Committee on Conference has amended this measure by:

- (1) Appropriating \$1,000,000 subject to a dollar for dollar match by the private sector for the Hawaii Tourism Authority, working in conjunction with the Hawaii Lodging and Tourism Association for projects to address homelessness in tourist and resort areas;
- (2) Removing the provisions that made amendments to the refundable food/excise tax credit;
- (3) Changing the effective date to July 1, 2017; and
- (4) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 375, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 375, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Tokuda, English and Shimabukuro.
Managers on the part of the Senate.
Ayes, 2. Noes, none. Excused, 1 (Shimabukuro).

Representatives Luke, Johanson and Tupola.
Managers on the part of the House.
Ayes, 3. Noes, none. Excused, none.

Conf. Com. Rep. 146 on H.B. No. 335

Your Committee on Conference has provided an additional \$546,875 in general funds in each fiscal year of the 2017-2019 biennium for personal services for various programs in the Office of Hawaiian Affairs.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 335, H.D. 2, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 335, H.D. 2, S.D. 1, C.D. 1.

Senators Shimabukuro, Tokuda and Galuteria.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, none.

Representatives Ing, Luke, Cullen and Thielen.
Managers on the part of the House.
Ayes, 3. Noes, none. Excused, 1 (Thielen).

Conf. Com. Rep. 147 on H.B. No. 1031

The purpose of this measure is to enable compliance with Internal Revenue Service requirements and ensure the security of federal tax information by authorizing the Department of Taxation, Department of Human Services, Department of Labor and Industrial Relations, and Child Support Enforcement Agency to perform criminal history record checks on current and prospective employees, contractors and their employees and agents who can access federal tax information. The measure further provides a process for the termination or denial of employment that may result from a criminal history record check.

Your Committee on Conference has amended this measure by making it effective upon approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1031, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1031, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Keith-Agaran, Shimabukuro and Rhoads.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, none.

Representatives Nishimoto, Cachola and McDermott.
Managers on the part of the House.
Ayes, 3. Noes, none. Excused, none.

Conf. Com. Rep. 148 on H.B. No. 508

The purpose of this measure is to:

- (1) Increase the maximum administrative fine that may be imposed by the State Ethics Commission from \$500 to \$1000; and
- (2) Permit the State Ethics Commission and the respondent to resolve any charge of an alleged violation prior to the conclusion of the contested case process with a settlement that may include payment of an administrative fine or restitution, or both.

Your Committee on Conference has amended this bill by making it effective upon approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 508, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 508, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Keith-Agaran, Gabbard and Kim.
Managers on the part of the Senate.
Ayes, 2. Noes, none. Excused, 1 (Kim).

Representatives Nishimoto, Cullen and McDermott.
Managers on the part of the House.
Ayes, 2. Noes, none. Excused, 1 (McDermott).

Conf. Com. Rep. 149 on H.B. No. 632

The purpose of this measure is to broaden the Water Infrastructure Loan Program to include loans made to water utilities and loans for water tanks.

Your Committee on Conference has amended this measure by:

- (1) Changing its effective date to upon its approval; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 632, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 632, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Rhoads, Baker and Riviere.
Managers on the part of the Senate.
Ayes, 2. Noes, none. Excused, 1 (Riviere).

Representatives Yamane, Cullen and Thielen.
Managers on the part of the House.
Ayes, 3. Noes, none. Excused, none.

Conf. Com. Rep. 150 on H.B. No. 633

The purpose of this measure is to include aboveground freshwater storage tanks in the definition of “appurtenant works” so that maintenance and repair of those tanks appurtenant to dams and reservoirs are eligible for special purpose revenue bond financing.

Your Committee on Conference has amended this measure by changing its effective date to upon its approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 633, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 633, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs and Senate President on behalf of the Committee.

Senators Rhoads, Thielen and English.

Managers on the part of the Senate.

Ayes, 2. Noes, none. Excused, 1 (English).

Representatives Yamane, Cullen, Kong and Thielen.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. 151 on S.B. No. 917

The purpose of this measure is to provide a legislative vehicle to fund public sector collective bargaining cost items for salary adjustments, other cost adjustments, and Hawaii Employer-Union Health Benefits Trust Fund (EUTF) costs for public employees in collective bargaining unit (5) and their excluded counterparts for fiscal biennium 2017-2019.

Your Committee on Conference finds that Governor’s Message No. 9 dated April 25, 2017, reflects the tentative agreement with the Hawaii State Teachers Association (HSTA) concerning collective bargaining unit (5) that was reached on April 22, 2017, and is expected to be ratified by April 27, 2017, and the agreement with HSTA regarding EUTF contribution amounts. This measure provides a legislative vehicle to fund the collectively bargained terms that were agreed upon.

Your Committee on Conference has amended this measure by:

- (1) Inserting language to reflect the tentative agreement with HSTA concerning collective bargaining unit (5) and the agreement with HSTA regarding EUTF contribution amounts;
- (2) Changing the effective date to July 1, 2017; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 917, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 917, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Keith-Agaran, Tokuda and Rhoads.

Managers on the part of the Senate.

Ayes, 2. Noes, none. Excused, 1 (Rhoads).

Representatives Johanson, Luke, Holt and Matsumoto.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. 152 on S.B. No. 923

The purpose of this measure is to provide a legislative vehicle to fund public sector collective bargaining cost items for salary adjustments, other cost adjustments, and Hawaii Employer-Union Health Benefits Trust Fund (EUTF) costs for public employees in collective bargaining unit (11) and their excluded counterparts for fiscal biennium 2017-2019.

Your Committee on Conference finds that Governor’s Message No. 8 dated April 21, 2017, reflects the arbitration award issued for the Hawaii Firefighters Association (HFFA) concerning collective bargaining unit (11) on April 17, 2017, and the agreement with HFFA regarding EUTF contribution amounts. This measure provides a legislative vehicle to fund the collectively bargained terms that were agreed upon.

Your Committee on Conference has amended this measure by:

- (1) Inserting language to reflect the arbitration award issued to HFFA concerning collective bargaining unit (11) and the agreement with HFFA regarding EUTF contribution amounts;
- (2) Changing the effective date to July 1, 2017; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 923, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 923, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Keith-Agaran, Tokuda and Rhoads.
Managers on the part of the Senate.
Ayes, 2. Noes, none. Excused, 1 (Rhoads).

Representatives Johanson, Luke, Holt and Matsumoto.
Managers on the part of the House.
Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. 153 on S.B. No. 850

The purpose and intent of this measure is to require the Chief Information Officer to:

- (1) Identify the information technology projects of the executive branch, including the Department of Education and University of Hawaii, that shall be subject to independent verification and validation; and
- (2) Submit each independent verification and validation report to the Legislature within ten days of receiving the report.

Your Committee on Conference finds that technology projects often involve substantial risk and expense and thus should be subject to independent verification and validation to ensure optimal use of public resources. Your Committee on Conference also finds that making the Chief Information Officer responsible for identifying the technology projects that shall be subject to independent verification and validation is a proactive approach to achieving the successful development and implementation of certain technology projects. Your Committee on Conference further finds that requiring independent verification and validation for certain technology projects will contribute to the efficient and effective functioning of public institutions and state government, and the success of state modernization initiatives.

Your Committee on Conference has amended this measure by inserting an effective date of July 1, 2017.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 850, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 850, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Kim, Wakai and Tokuda.
Managers on the part of the Senate.
Ayes, 2. Noes, none. Excused, 1 (Wakai).

Representatives Keohokalole, Luke and Ward.
Managers on the part of the House.
Ayes, 3. Noes, none. Excused, none.

Conf. Com. Rep. 154 on S.B. No. 1016

The purpose of this measure is to exempt the Department of Transportation and its contractors from certain statutory requirements for specified bridge rehabilitation projects by extending the sunset date of Act 218, Session Laws of Hawaii 2012 (Act 218), from June 30, 2017, to June 30, 2022.

Your Committee on Conference finds that this measure is necessary to continue the Department of Transportation's efforts to expedite the design and construction of bridges listed in Act 218. Your Committee on Conference notes that the Department of Transportation is still required to comply with all federal laws for each bridge project.

Your Committee on Conference has amended this bill by changing its effective date to June 29, 2017.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1016, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1016, S.D. 1, H.D. 1, C.D. 1.

Signed by the Senate President and Chairs on behalf of the Committee.

Senators Inouye, English and Shimabukuro.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, none.

Representatives Aquino, Quinlan and McDermott.
Managers on the part of the House.
Ayes, 2. Noes, none. Excused, 1 (McDermott).

Conf. Com. Rep. 155 on S.B. No. 1148

The purpose and intent of this measure is to:

- (1) Require the Hawaii Community Development Authority (HCDA) to develop a Transit-Oriented Development (TOD) Zone Improvement Program to foster community development by strategically investing in public facilities;
- (2) Specify HCDA members who shall be considered in determining quorum and majority for matters affecting TOD zones and shall be eligible to vote for matters affecting TOD zones; and
- (3) Appropriate an unspecified amount to HCDA for the necessary staff to develop and manage the TOD Zone Improvement Program.

Your Committee on Conference finds that the construction and installation of certain public facilities are necessary and desirable to facilitate the renewal and redevelopment of areas proximate to proposed fixed transit stations. Your Committee on Conference also finds that TOD promotes development patterns that support quality of life, preserve the natural environment, provide a range of housing choices for residents, and encourage walking, biking, and mass transit. Your Committee on Conference further finds that TOD is a powerful tool that can produce a wide range of social, environmental, and economic benefits and contribute to improving a city's livability.

Your Committee on Conference has amended this measure by:

- (1) Clarifying that the Director of the Office of Planning, or the Director's designee, is not a member of HCDA but shall be considered in determining quorum and majority on matters affecting TOD zones and shall be eligible to vote on matters affecting TOD zones;
- (2) Inserting an appropriation amount of \$60,000 for fiscal years 2017-2018 and 2018-2019 for one full-time equivalent temporary position at HCDA to maintain and develop the staff necessary to develop and manage the TOD Zone Improvement Program;
- (3) Inserting an effective date of July 1, 2017; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1148, S.D. 2, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1148, S.D. 2, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Rhoads, Nishihara, Espero and Harimoto.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, 1 (Nishihara).

Representatives Brower, Aquino, Yamane, Nakamura, Say and McDermott.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, 2 (Aquino, McDermott).

Conf. Com. Rep. 156 on S.B. No. 501

The purpose of this measure is to ensure that women in Hawaii have timely and appropriate access to comprehensive reproductive health services by:

- (1) Requiring limited service pregnancy centers to disseminate a written notice on the availability of and enrollment information for publicly-funded family planning services;
- (2) Requiring limited service pregnancy centers to adhere to privacy and disclosure requirements for client records; and
- (3) Establishing civil penalties for noncompliance and authorizing civil actions for enforcement.

Your Committee on Conference finds that individuals seeking healthcare, including reproductive healthcare, should receive comprehensive, accurate, unbiased information in a confidential setting. In a reproductive healthcare setting, this includes receiving information about the full range of options, including how to obtain health insurance coverage should a woman be uninsured. Your Committee on Conference further finds that when women are fully informed, they can make the best decisions for themselves and their health.

Your Committee on Conference also finds that thousands of women in the State are in need of publicly-funded family planning services, contraception services and education, abortion services, prenatal care, and birth-related services. In Hawaii, low-income women can receive immediate access to free or low-cost comprehensive family planning services and pregnancy-related care through Med-QUEST and the Department of Health's family planning program. Your Committee on Conference finds, however, that many women remain unaware of the public programs available to provide them with family planning and pregnancy-related services. Because family planning decisions are time sensitive and early care in pregnancy is important, the State must make every effort possible to advise women of all available reproductive health programs.

Your Committee on Conference has amended this measure by:

- (1) Amending the definition of limited service pregnancy center to establish that a limited service pregnancy center does not include a health care facility and providing a definition of health care facility;
- (2) Inserting language to require that the written notice and written pregnancy test result that limited service pregnancy centers are required to provide be provided in English or another language requested by the client or patient;
- (3) Inserting language to establish that this measure is not intended to require the Department of Health to regulate or oversee limited service pregnancy centers;
- (4) Making it effective upon its approval; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 501, S.D. 1, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 501, S.D. 1, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Baker, Keith-Agaran, Tokuda, Kidani and Rhoads.
Managers on the part of the Senate.
Ayes, 3. Noes, 1 (Kidani). Excused, 1 (Tokuda).

Representatives Belatti, Nishimoto, Kobayashi and Thielen.
Managers on the part of the House.
Ayes, 4, Ayes with Reservations (Thielen). Noes, none. Excused, none.

Conf. Com. Rep. 157 on S.B. No. 808

The purpose and intent of this measure is to appropriate an unspecified amount of funds to the Department of Land and Natural Resources for the operational expenses and staffing costs of the Hawaii Association of Conservation Districts.

Your Committee on Conference finds that the Hawaii Association of Conservation Districts, through the Soil and Water Conservation Districts (SWCDs), assists government agencies in identifying and implementing culturally sensitive projects and practices to ensure the protection of Hawaii's environment. Your Committee on Conference also finds that the SWCDs bring significant financial resources to Hawaii to improve farm practices, reduce erosion, improve water quality, fight invasive species, improve public safety, protect property, conserve water, and strengthen the economy, and also provide education and community support for conservation awareness, and assist each county in reviewing county grading permits and conservation plans. Your Committee on Conference further finds that the SWCD Program does not have a base budget appropriation, and funding is required in order for the SWCDs to continue their activities, which undoubtedly benefit the people of Hawaii.

Your Committee on Conference has amended this measure by:

- (1) Updating its purpose section;
- (2) Inserting an appropriation amount of \$450,000 and appropriating funds for fiscal year 2017-2018 only;
- (3) Changing the source of funds from the general fund to the special land and development fund;
- (4) Inserting an effective date of July 1, 2017; and
- (5) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 808, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 808, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Rhoads, Thielen and Shimabukuro.
Managers on the part of the Senate.
Ayes, 2. Noes, none. Excused, 1 (Shimabukuro).

Representatives Yamane, Cullen, Say and Thielen.
Managers on the part of the House.
Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. 158 on S.B. No. 1240

The purpose of this measure is to ensure the sustainability of Hawaii's near shore aquatic life by:

- (1) Requiring the Department of Land and Natural Resources (DLNR) to submit proposed legislation to the Legislature prior to the Regular Session of 2019, including a definition of "sustainable", a policy for sustainable collection practices, and limits on aquatic life collection;
- (2) Prohibiting DLNR from issuing new aquarium fish permits or transferring exiting permits; and
- (3) Authorizing DLNR to continue to renew existing aquarium fish permits for current permit holders.

Your Committee on Conference finds that ensuring the sustainability of aquatic life and the protection of coral reefs in state waters is vital to the long-term interests of the people of Hawaii. Your Committee on Conference further finds that the long-term protection of marine resources necessitates a determination of what is sustainable and a policy for sustainable collection practices of near shore aquatic life. Your Committee on Conference notes that there are existing permit holders who earn their livelihoods through aquarium fish collection and finds that the proposed measure is a step in the right direction toward achieving sustainability of aquatic life while allowing existing permit holders to maintain their livelihoods.

Your Committee on Conference has amended this measure by:

- (1) Clarifying that DLNR shall include in its proposed legislation a process for determining annual catch limits for each of the top forty species of near shore aquatic life for sustainable rates of collection;
- (2) Authorizing the transfer of existing aquarium fish permits prior to July 1, 2022, unless the permit has lapsed;
- (3) Limiting DLNR's authority to renew existing aquarium permits to permits that have not lapsed;
- (4) Specifying that a permit is deemed lapsed if it has not been renewed for five or more years immediately preceding the time of transfer of the permit or application for renewal of the permit, including any duration prior to the effective date;

- (5) Making it effective upon its approval; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1240, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1240, S.D. 2, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Rhoads, Keith-Agaran and Thielen.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, none.

Representatives Ing, Cullen and Thielen.
Managers on the part of the House.
Ayes, 3. Noes, none. Excused, none.

Conf. Com. Rep. 159 on S.B. No. 914

The purpose of this measure is to provide a legislative vehicle to fund public sector collective bargaining cost items for salary adjustments, other cost adjustments, and Hawaii Employer-Union Health Benefits Trust Fund (EUTF) costs for public employees in collective bargaining unit (2) and their excluded counterparts for fiscal biennium 2017-2019.

Your Committee on Conference finds that Governor's Message No. 10 dated April 27, 2017, reflects the arbitration award issued for the Hawaii Government Employees Association (HGEA) concerning collective bargaining units (2), (8), (9), and (13) on April 25, 2017, and the agreement with HGEA regarding EUTF contribution amounts. This measure provides a legislative vehicle to fund the collectively bargained terms that were agreed upon.

Your Committee on Conference has amended this measure by:

- (1) Inserting language to reflect the arbitration award to HGEA concerning collective bargaining units (2), (8), (9), and (13) and the agreement with HGEA regarding EUTF contribution amounts;
- (2) Changing the effective date to July 1, 2017; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 914, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 914, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Keith-Agaran, Tokuda and Rhoads.
Managers on the part of the Senate.
Ayes, 2. Noes, none. Excused, 1 (Rhoads).

Representatives Johanson, Luke, Holt and Matsumoto.
Managers on the part of the House.
Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. 160 on S.B. No. 915

The purpose of this measure is to provide a legislative vehicle to fund public sector collective bargaining cost items for salary adjustments, other cost adjustments, and Hawaii Employer-Union Health Benefits Trust Fund (EUTF) costs for public employees in collective bargaining unit (3) and their excluded counterparts for fiscal biennium 2017-2019.

Your Committee on Conference finds that Governor's Message No. 11 dated April 27, 2017, reflects the arbitration award issued for the Hawaii Government Employees Association (HGEA) concerning collective bargaining units (3) and (4) on April 26, 2017, and the agreement with HGEA regarding EUTF contribution amounts. This measure provides a legislative vehicle to fund the collectively bargained terms that were agreed upon.

Your Committee on Conference has amended this measure by:

- (1) Inserting language to reflect the arbitration award issued for HGEA concerning collective bargaining units (3) and (4) and the agreement with HGEA regarding EUTF contribution amounts;
- (2) Changing the effective date to July 1, 2017; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 915, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 915, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Keith-Agaran, Tokuda and Rhoads.
Managers on the part of the Senate.

Ayes, 2. Noes, none. Excused, 1 (Rhoads).

Representatives Johanson, Luke, Holt and Matsumoto.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. 161 on H.B. No. 165

The purpose of this measure is to:

- (1) Require state and county boards to make meeting documents available for public inspection, provide notice of their availability and, to the greatest extent feasible, require boards to accommodate requests for electronic access;
- (2) Permit state and county boards to allow oral testimony to be presented on each agenda item separately and at the time the item is first brought up for discussion;
- (3) Account for emergency meetings and electronic documents in meeting notice requirements; and
- (4) Establish requirements for posting the content of meeting minutes.

Your Committee on Conference has amended this measure by:

- (1) Deleting language related to oral testimony at meetings;
- (2) Specifying content requirements for written summaries of minutes that are not posted in written form;
- (3) Changing the effective date to July 1, 2018, to afford state and county boards a period of time to comply with this measure; and
- (4) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 165, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 165, H.D. 1, S.D. 2, C.D. 1.

Signed by the House Majority Leader and Chairs on behalf of the Committee.

Senators Kim, Keith-Agaran, Harimoto and Ruderman.

Managers on the part of the Senate.

Ayes, 4. Noes, none. Excused, none.

Representatives Nishimoto, Cachola and McDermott.

Managers on the part of the House.

Ayes, 2. Noes, none. Excused, 1 (McDermott).

Conf. Com. Rep. 162 on H.B. No. 110

The purpose of this measure is to fund Hawaii Employer-Union Health Benefits Trust Fund costs and other cost adjustments for legislative officers and employees of specified legislative agencies who are excluded from collective bargaining.

Your Committee on Conference has amended this measure by:

- (1) Inserting the appropriate appropriation amounts; and
- (2) Changing its effective date to July 1, 2017.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 110, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 110, H.D. 1, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Keith-Agaran, Tokuda and Rhoads.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, none.

Representatives Johanson, Luke, Holt and Matsumoto.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. 163 on H.B. No. 208

The purpose of this measure is to:

- (1) Require the Department of Labor and Industrial Relations to issue a stop-work order for employers who fail to procure proper workers' compensation insurance or provide their employees with information on workers' compensation rights and claims for benefits;
- (2) Require employees affected by a stop-work order to be paid for the time lost, up to ten days;
- (3) Establish a procedure for an employer to protest a stop-work order;

- (4) Reduce the period from 30 to 14 days to expedite compliance with security for compensation;
- (5) Authorize the Department of Labor and Industrial Relations to issue an order of wage payment violation to an employer in violation of provisions regarding payment of wages and other compensation; and
- (6) Establish penalties, enforcement, and appeal procedures for orders of wage payment violations.

Your Committee on Conference has amended this measure by:

- (1) Deleting language related to stop-work orders and restoring statutory language concerning the penalty for employers who fail to procure proper workers' compensation insurance;
- (2) Restoring statutory language making an employer who fails to pay wages liable to the employee for a sum equal to the amount of unpaid wages and interest at a rate of six percent per year from the date the wages were due in addition to the wages legally proven to be due relative to order of wage payment violations;
- (3) Making it effective upon its approval; and
- (4) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 208, H.D. 2, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 208, H.D. 2, S.D. 2, C.D. 1.

Signed by the Chairs and Senate President on behalf of the Committee.

Senators Keith-Agaran, English and Rhoads.
Managers on the part of the Senate.
Ayes, 2. Noes, none. Excused, 1 (Rhoads).

Representatives Johanson, Nishimoto, Holt and Matsumoto.
Managers on the part of the House.
Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. 164 on H.B. No. 306

The purpose of this measure is to establish procedures and requirements for the use of continuous alcohol monitoring devices by persons who:

- (1) Are charged with operating or habitually operating a vehicle under the influence of an intoxicant under section 291E-61 or 291E-61.5, Hawaii Revised Statutes (HRS); and
- (2) Are repeat intoxicated drivers or awaiting criminal investigation or prosecution for a prior charge of violating section 291E-61 or 291E-61.5, HRS.

This measure also establishes vendor requirements for continuous alcohol monitoring devices and requires a report to the Legislature comparing the effectiveness of these devices and ignition interlock devices.

Your Committee on Conference has amended this measure by:

- (1) Authorizing, rather than mandating the use of continuous alcohol monitoring devices;
- (2) Clarifying for persons who are waiting criminal investigation or prosecution for one or more prior charges under section 291E-61 or 291E-61.5, HRS, that the prior charges under these sections must be as a result of having consumed alcohol;
- (3) Requiring the scheduling of a court appearance within five business days, or as soon thereafter as is practicable, for persons released on bail;
- (4) Deleting language that required extensions of the requisite 90-day monitoring period to be "as reasonably necessary to ensure the safety of the community";
- (5) Requiring fitting of the continuous alcohol monitoring device within five business days of the initial court appearance, or as soon thereafter as is practicable;
- (6) Requiring the Administrative Director of the Courts to:
 - (A) Establish and administer a statewide program for oversight of continuous alcohol monitoring device use; and
 - (B) Select a single vendor to fit, maintain, and monitor the devices;
- (7) Clarifying that partial financial relief shall be provided by the selected single vendor to offset the costs of the device for recipients of certain types of assistance, such as food stamps;
- (8) Clarifying that bail forfeiture and resetting may be imposed for bail violations in addition to the imposition of other penalties by the court;
- (9) Requiring the report to the Legislature to be from the Administrative Director of the Courts, rather than the Department of the Prosecuting Attorney of the City and County of Honolulu, and further requiring such reporting to be conducted on an annual basis, with the first report due prior to the Regular Session of 2019;
- (10) Changing its effective date to January 1, 2018; and

(11) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 306, H.D. 2, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 306, H.D. 2, S.D. 2, C.D. 1.

Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, none.

Representatives Aquino, Nishimoto, Quinlan and McDermott.
Managers on the part of the House.
Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. 165 on H.B. No. 735

The purpose and intent of this measure is to:

- (1) Amend the prorated amount of vehicle license and registration fees, weight taxes, inspection fees, highway beautification fees, and use taxes that rental car companies may pass on to lessees; and
- (2) Require the motor vehicle rental industry to report to the Legislature prior to the Regular Session of 2019 on the average fee charged to each customer on each motor vehicle rental and the average time in service of each motor vehicle rental.

Your Committee on Conference has amended this measure by:

- (1) Establishing the prorated amount of the fees that rental car companies may pass on to lessees at 1/292nd of the fees;
- (2) Requiring rental car companies to submit an annual audit conducted by a third party certified public accountant to the Office of Consumer Protection of the Department of Commerce and Consumer Affairs beginning on March 1, 2019;
- (3) Changing its effective date to July 1, 2017; and
- (4) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 735, H.D. 2, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 735, H.D. 2, S.D. 2, C.D. 1.

Signed by the Chairs and Senate President on behalf of the Committee.

Senators Inouye, Baker and English.
Managers on the part of the Senate.
Ayes, 2. Noes, none. Excused, 1 (English).

Representatives Aquino, Takumi, Quinlan and McDermott.
Managers on the part of the House.
Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. 166 on H.B. No. 1152

The purpose of this measure is to add a budget proviso to the Supplemental Appropriations Act of 2016 to authorize the Governor to make supplemental allotments from the Department of Transportation, Airports Division, Project Adjustment Fund to supplement any currently authorized capital investment cost elements for airports division capital improvement projects.

Your Committee on Conference has amended this measure by changing the effective date to upon its approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1152, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1152, H.D. 1, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Inouye, Dela Cruz and Shimabukuro.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, none.

Representatives Aquino, Quinlan, Hashem and McDermott.
Managers on the part of the House.
Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. 167 on H.B. No. 997

The purpose of this measure is to provide flexibility in the granting of concession terms of up to 15 years and to permanently authorize the Department of Transportation to pursue and enter into concession contracts and other arrangements by negotiation.

Your Committee on Conference finds that Hawaii's airports are often the first and last impression that visitors have of the State. Imparting a positive impression of Hawaii is important for the State's tourism based economy as visitors with a positive impression are more likely to return for future visits and recommend Hawaii to others as a travel destination. Currently, airport concession contracts

are awarded to the highest bidder without consideration of the quality or variety of service to be provided. Authorizing the Department of Transportation to enter into and award airport concession contracts through negotiation rather than simply to the highest bidder but in its judgment to a responsible person or entity providing the best value to the State that will result in higher quality services in the best interests of our state airports, which in turn will provide visitors with better first and last impressions of Hawaii.

Your Committee on Conference has amended this measure by:

- (1) Making clarifying language in keeping with the purpose and intent of this measure and various provisions of chapter 102, Hawaii Revised Statutes; and
- (2) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 997, H.D. 2, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 997, H.D. 2, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Inouye, Kahele and Dela Cruz.
Managers on the part of the Senate.
Ayes, 2. Noes, none. Excused, 1 (Dela Cruz).

Managers on the part of the House.
Ayes, 4. Noes, none. Excused, 1 (Choy).

Conf. Com. Rep. 168 on H.B. No. 1231

The purpose of this measure is to authorize the Department of Education to retain and reallocate funds to offset incurred disaster relief expenses.

Specifically, this measure:

- (1) Authorizes the Department of Education to retain appropriations and reimbursements for disaster relief expenses until the end of the following fiscal biennium; and
- (2) Credits federal disaster relief reimbursement funds to the Department of Education when the Department expends Department funds for purposes deemed reimbursable by federal moneys, regardless of whether the original appropriation for the Department funds has lapsed.

Your Committee on Conference has amended this measure by changing its effective date to July 1, 2017.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1231, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1231, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Kidani, Harimoto and Kahele.
Managers on the part of the Senate.
Ayes, 2. Noes, none. Excused, 1 (Kahele).

Representatives Woodson, Cullen, Har and Matsumoto.
Managers on the part of the House.
Ayes, 3. Noes, none. Excused, 1 (Har).

Conf. Com. Rep. 169 on H.B. No. 937

The purpose of this measure is to support the early learning of the young children of Hawaii by appropriating funds for the Executive Office on Early Learning to enter into contracts with third-party providers for family-child interaction learning programs that support families in taking an active role in the social, emotional, and cognitive development of their young children.

After careful consideration, your Committee on Conference has amended this measure by:

- (1) Making an appropriation of \$300,000 for each year of fiscal biennium 2017-2019; and
- (2) Changing the effective date to July 1, 2017.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 937, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 937, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Kidani, Shimabukuro and Kahele.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, none.

Representatives Woodson, Cullen, Har and Matsumoto.
Managers on the part of the House.

Ayes, 3. Noes, none. Excused, 1 (Har).

Conf. Com. Rep. 170 on H.B. No. 498

The purpose of this measure is to strengthen early learning in Hawaii by:

- (1) Broadening the scope of the early learning program to include early childhood development;
- (2) Adjusting the thresholds at which children are considered “at-risk” or “underserved”;
- (3) Expanding the role of the renamed Early Learning Board beyond simply an advisory capacity and amending the powers of certain members of the Board;
- (4) Modifying the membership of the Early Learning Board and making conforming amendments;
- (5) Authorizing the Early Learning Board to appoint and annually evaluate the Director of the Executive Office on Early Learning;
- (6) Requiring the Director of the Executive Office on Early Learning to have taken major coursework in early childhood education and child development and preferably hold an academic degree in the field of early childhood education and child development;
- (7) Requiring the principal and other school personnel to participate in an early learning induction program, prior to opening a public prekindergarten class in a school; and
- (8) Specifying that priority for the Executive Office on Early Learning Public Prekindergarten Program will be extended to four-year-old children who are underserved or at-risk and whose family income is at or below 250 percent of the federal poverty level.

After careful consideration, your Committee on Conference has amended this measure by:

- (1) Establishing the Early Learning Board within the Department of Education for administrative purposes only;
- (2) Providing that the use of preschool classrooms for public preschool programs must be done pursuant to rules adopted pursuant to Chapter 91, Hawaii Revised Statutes, by the Department of Education;
- (3) Specifying that the underserved and at-risk children served by the Preschool Open Doors Program will be determined by rules adopted by the Department of Human Services; and
- (4) Changing its effective date to July 1, 2017.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 498, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 498, H.D. 1, S.D. 1, C.D. 1.

Representatives Woodson, LoPresti, Ohno and Matsumoto.
Managers on the part of the House.
Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. 171 on H.B. No. 880

The purpose of this measure is to establish a mark licensing agreement program within the Department of Education that allows the Department and individual department schools to engage in commercial enterprises that provide financial resources for educational activities, provided that the enterprises support the primary educational mission of the school and Department.

Your Committee on Conference has amended this measure by changing its effective date to July 1, 2017.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 880, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 880, H.D. 1, S.D. 2, C.D. 1.

Senators Kidani, Harimoto and Kahele.
Managers on the part of the Senate.
Ayes, 2. Noes, none. Excused, 1 (Kahele).

Representatives Woodson, Takumi, Yamashita and Matsumoto.
Managers on the part of the House.
Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. 172 on H.B. No. 116

The purpose of this measure is to support public education in Hawaii by:

- (1) Transferring numerous parcels of property containing schools operated by the Department of Education that are currently owned by the City and County of Honolulu to the Department of Land and Natural Resources;
- (2) Appropriating funds to prepare, execute, and record quitclaim deeds to effectuate the land transfers; and
- (3) Extending the 21st Century Schools Pilot Program (section 302A-1151.1, Hawaii Revised Statutes) for an additional five years.

After careful consideration, your Committee on Conference has amended this measure by:

- (1) Clarifying that the transfer of land does not include any property designated as a public park;
- (2) Limiting the parcel transfer to 14 public schools;
- (3) Making an appropriation in the sum of \$100,000 for each year of the 2017-2019 fiscal biennium as a grant-in-aid to the City and County of Honolulu to prepare, execute, and record the quitclaim deeds necessary for the land transfers;
- (4) Adding a savings clause;
- (5) Changing the effective date to July 1, 2017; and
- (6) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 116, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 116, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Kidani, Rhoads, Dela Cruz and Kahele.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, 1 (Rhoads).

Representatives Woodson, Luke and Matsumoto.
Managers on the part of the House.
Ayes, 2. Noes, none. Excused, 1 (Matsumoto).

Conf. Com. Rep. 173 on H.B. No. 1325

The purpose of this bill is to support the State's biosecurity program by:

- (1) Clarifying the Department of Agriculture's authority to expend funds from multiple sources for the biosecurity program;
- (2) Requiring the Department of Agriculture to establish parameters and construction requirements for biosecurity facilities that provide for and ensure the safety of agricultural and food commodities consumed by Hawaii residents; and
- (3) Appropriating funds to enable the Department of Agriculture to implement the biosecurity program, including import replacement of high-risk crops, development of pest-management practices and quarantine-treatment options, and improved productivity in inspection capacity.

After careful consideration, your Committee on Conference has amended this measure by:

- (1) Appropriating \$1,200,000 for each year of fiscal biennium 2017-2019 for the biosecurity program, with specific allocations for various components of the program;
- (2) Requiring the Department of Agriculture to submit to the Legislature, no later than 30 days prior to the convening of the Regular Session of 2018, a report on its progress with respect to the biosecurity program; and
- (3) Changing its effective date to July 1, 2017.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1325, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1325, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs and Senate President on behalf of the Committee.

Senators Gabbard, English and Riviere.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, none.

Representatives Creagan, Takumi, Yamashita and Thielen.
Managers on the part of the House.
Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. 174 on H.B. No. 1179

The purpose of this measure is to improve the economics of building and operating rental housing in the State by:

- (1) Expanding the types of rental housing projects that can be exempt from general excise taxes; and
- (2) Allowing the terms of prevailing wages under contracts to develop affordable rental housing approved and certified by the Hawaii Housing Finance and Development Corporation (HHFDC) pursuant to section 201H-36(a)(5), Hawaii Revised Statutes (HRS), to be deemed the prevailing wages serving as the basis of compliance with chapter 104, HRS.

Your Committee on Conference has amended this measure by:

- (1) Effective from July 1, 2018, to June 30, 2022, authorizing HHFDC to exempt qualified persons or firms HHFDC has approved and certified to develop affordable rental housing from general excise taxes; provided that the allowable general excise tax and use tax costs apply to contracting only and do not exceed \$7,000,000 per year in the aggregate for all projects approved and certified by HHFDC;
- (2) Repealing redundant rulemaking authority in section 104-2(g), HRS;
- (3) Inserting a sunset date of June 30, 2022; and
- (4) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1179, H.D. 2, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1179, H.D. 2, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Espero, Keith-Agaran and Shimabukuro.
Managers on the part of the Senate.
Ayes, 2. Noes, none. Excused, 1 (Keith-Agaran).

Representatives Brower, Johanson, Nakamura and McDermott.
Managers on the part of the House.
Ayes, 3. Noes, none. Excused, 1 (McDermott).

Conf. Com. Rep. 175 on H.B. No. 1022

The purpose of this measure is to appropriate moneys to satisfy various claims against the State, its officers, or its employees.

Your Committee on Conference has amended this measure by revising the list of claims against the State and specifying the applicable funding sources.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1022, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1022, H.D. 1, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Keith-Agaran, Tokuda and Rhoads.
Managers on the part of the Senate.
Ayes, 2. Noes, none. Excused, 1 (Rhoads).

Representatives Nishimoto, Luke and McDermott.
Managers on the part of the House.
Ayes, 3. Noes, none. Excused, none.

Conf. Com. Rep. 176 on S.B. No. 918

The purpose of this measure is to provide a legislative vehicle to fund public sector collective bargaining cost items for salary adjustments, other cost adjustments, and Hawaii Employer-Union Health Benefits Trust Fund (EUTF) costs for public employees in collective bargaining unit (6) and their excluded counterparts for fiscal biennium 2017-2019.

Your Committee on Conference finds that Governor's Message No. 12 dated April 27, 2017, reflects the tentative agreement with the Hawaii Government Employees Association (HGEA) concerning collective bargaining unit (6) on April 27, 2017, which is expected to be ratified by April 30, 2017, and the agreement with HGEA regarding EUTF contribution amounts. This measure provides a legislative vehicle to fund the collectively bargained terms that were agreed upon.

Your Committee on Conference has amended this measure by:

- (1) Inserting language to reflect the tentative agreement with HGEA concerning collective bargaining unit (6) and the agreement with HGEA regarding EUTF contribution amounts;
- (2) Changing the effective date to July 1, 2017; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 918, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 918, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Keith-Agaran, Tokuda and Rhoads.
Managers on the part of the Senate.
Ayes, 2. Noes, none. Excused, 1 (Rhoads).

Representatives Johanson, Luke, Holt and Matsumoto.
Managers on the part of the House.

Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. 177 on S.B. No. 919

The purpose of this measure is to provide a legislative vehicle to fund public sector collective bargaining cost items for salary adjustments, other cost adjustments, and Hawaii Employer-Union Health Benefits Trust Fund (EUTF) costs for public employees in collective bargaining unit (7) and their excluded counterparts for fiscal biennium 2017-2019.

Your Committee on Conference finds that Governor's Message No. 14 dated April 27, 2017, reflects the tentative agreement between public employers and the University of Hawaii Professional Assembly (UHPA) and the parties' intent to execute a supplemental agreement concerning collective bargaining unit (7) EUTF contribution amounts. Your Committee on Conference also finds that Governor's Message No. 13 dated April 27, 2017, reflects the tentative agreement between public employers and the United Public Workers (UPW) and the parties' intent to execute a supplemental agreement concerning collective bargaining units (1) and (10) EUTF contribution amounts. This measure provides a legislative vehicle to fund the collectively bargained terms that were agreed upon.

Your Committee on Conference has amended this measure by:

- (1) Inserting language to reflect the tentative agreements with UHPA concerning collective bargaining unit (7) EUTF contribution amounts and with UPW concerning collective bargaining units (1) and (10) EUTF contribution amounts;
- (2) Changing the effective date to July 1, 2017; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 919, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 919, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Keith-Agaran, Tokuda and Rhoads.
Managers on the part of the Senate.
Ayes, 2. Noes, none. Excused, 1 (Rhoads).

Representatives Johanson, Luke, Holt and Matsumoto.
Managers on the part of the House.
Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. 178 on S.B. No. 926

The purpose of this measure is to provide a legislative vehicle to fund public sector collective bargaining cost items for salary adjustments, other cost adjustments, and Hawaii Employer-Union Health Benefits Trust Fund (EUTF) costs for public employees in collective bargaining unit (14) and their excluded counterparts for fiscal biennium 2017-2019.

Your Committee on Conference finds that Governor's Message No. 15 dated April 27, 2017, reflects the tentative agreement between the Hawaii Government Employees Association (HGEA) and public employers and the parties' intent to execute a memorandum of agreement concerning collective bargaining unit (14) EUTF contribution amounts. This measure provides a legislative vehicle to fund the collectively bargained terms that were agreed upon.

Your Committee on Conference has amended this measure by:

- (1) Inserting language to reflect the tentative agreement with HGEA concerning collective bargaining unit (14) EUTF contribution amounts;
- (2) Changing the effective date to July 1, 2017; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 926, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 926, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Keith-Agaran, Tokuda and Rhoads.
Managers on the part of the Senate.
Ayes, 2. Noes, none. Excused, 1 (Rhoads).

Representatives Johanson, Luke, Holt and Matsumoto.
Managers on the part of the House.
Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. 179 on S.B. No. 26

The purpose of this measure is to appropriate funds as a subsidy to the Office of the Prosecuting Attorney for the Hawaii County Career Criminal Prosecution Unit.

Your Committee on Conference finds that supporting a strong and effective prosecutor's office is vital to protecting the health, safety, and welfare of the public. It has long been a recognized problem that a relatively small number of repeat criminals, or "career

criminals”, commit a disproportionate number of the serious crimes against the public. For that reason, the Legislature created the career criminal prosecution program in 1979. This program has been effective in assisting prosecutors’ offices in the counties in delivering swift and effective justice. Accordingly, it is important to continue to provide funding to the Hawaii County Office of the Prosecuting Attorney for its Career Criminal Prosecution Unit to continue to protect the public from these dangerous career criminals.

Your Committee on Conference has amended this measure by:

- (1) Inserting an appropriation amount of \$150,000 for the Hawaii County Office of the Prosecuting Attorney for its Career Criminal Prosecution Unit; and
- (2) Changing the effective date to July 1, 2017.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 26, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 26, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Nishihara, Kim and Inouye.
Managers on the part of the Senate.
Ayes, 2. Noes, none. Excused, 1 (Kim).

Representatives Nishimoto, Cullen, San Buenaventura and McDermott.
Managers on the part of the House.
Ayes, 3. Noes, none. Excused, 1 (McDermott).

Conf. Com. Rep. 180 on S.B. No. 491

The purpose of this measure is to appropriate funds as a grant-in-aid to the Department of the Prosecuting Attorney of the City and County of Honolulu for the Career Criminal Prosecution Unit.

Your Committee on Conference finds that supporting a strong and effective prosecutor’s office is vital to protecting the health, safety, and welfare of the public. It has long been a recognized problem that a relatively small number of repeat criminals, or “career criminals”, commit a disproportionate number of the serious crimes against the public. For that reason, the Legislature created the career criminal prosecution program in 1979. This program has been effective in assisting prosecutors’ offices in delivering swift and effective justice. Accordingly, it is important to continue to provide funding to the Department of the Prosecuting Attorney of the City and County of Honolulu for its Career Criminal Prosecution Unit so that the department may continue to protect the public from these dangerous career criminals.

Your Committee on Conference has amended this measure by:

- (1) Changing the appropriation amount to \$300,000; and
- (2) Changing the effective date to July 1, 2017.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 491, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 491, S.D. 1, H.D. 1, C.D. 1.

Managers on the part of the House.
Ayes, 2. Noes, none. Excused, 1 (McDermott).

Conf. Com. Rep. 181 on H.B. No. 839

The purpose of this measure is to provide accountability and transparency with respect to certain funds and expenditures of the Department of Land and Natural Resources. Specifically, the measure requires the Auditor to conduct a performance audit of the Department of Land and Natural Resources’ (DLNR) Special Land and Development Fund and Land Conservation Fund; to review contracts, grants, and memoranda of understanding involving those funds; and to conduct an accounting of expenditures related to the 2016 International Union for Conservation of Nature World Conservation Congress (IUCN). This measure also appropriates funds to the Auditor to conduct audits and accounting and hire personnel.

Your Committee on Conference has amended this measure by:

- (1) Clarifying that the audit shall consider compliance with applicable law and qualifications of contractors and awardees;
- (2) Deleting language requiring an accounting of IUCN expenditures;
- (3) Appropriating \$100,000 for the purposes of conducting the audit, and deleting provisions requiring that the appropriations be used for specific positions;
- (4) Changing its effective date to July 1, 2017; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 839, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 839, H.D. 1, S.D. 1, C.D. 1.

Conf. Com. Rep. 182 on H.B. No. 637

The purpose of this measure is to expedite the review, updating, and adoption of appropriate updates to the state building codes, to increase the supply of freshwater in the State. Specifically, this measure:

- (1) Requires the Department of Accounting and General Services (Department) to adopt rules related to certain state building codes no later than two years after the adoption of the codes by the State Building Code Council (Council);
- (2) Specifies that the state building codes shall become interim building codes for state building construction if the Department does not adopt rules within the specified two-year time period; and
- (3) Authorizes the use of private funding during fiscal year 2017-2018 to provide assistance to the Council to conduct public hearings and develop administrative rules.

Your Committee on Conference has amended this measure by:

- (1) Appropriating \$60,000 for each year of fiscal biennium 2017-2019 to the Council to carry out its duties, including hiring one full-time equivalent position to effectuate this measure; provided that for fiscal year 2017-2018 a dollar for dollar match from private sources is required; and
- (2) Deleting language requiring the Council to adopt codes or standards at least once every six years, and based upon a review and evaluation of the utility of the code or standard at the time each respective edition is published;
- (3) Requiring the Council to adopt a code or standard within two years of its official publication date and specifying that if the Council does not review and adopt a code or standard within the two-year time period, that code or standard shall automatically become part of the Hawaii state building code until superseded by the adoption of an amended version of the code or standard by the Council;
- (4) Deleting the requirement that the Council review and adopt, as appropriate, new model building codes within eighteen months of the official publication date;
- (5) Deleting the provisions that the state building codes shall become interim building codes for the design of all state building construction if the Department does not adopt rules within the specified two-year time period;
- (6) Changing its effective date to July 1, 2017; and
- (7) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 637, H.D. 2, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 637, H.D. 2, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Nishihara, Kim, Baker and Taniguchi.

Managers on the part of the Senate.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. 183 on H.B. No. 575

The purpose of this measure is to encourage the highest and best use of public lands by permitting a lessee of public lands to relinquish the lease within the final ten years of the lease term and permitting the Board of Land and Natural Resources to dispose of the relinquished land and any improvements by public auction.

Your Committee on Conference has amended this measure by:

- (1) Deleting language that would have allowed a lessee to relinquish a lease and established a process for the Board to proceed directly to disposition of the land by public auction;
- (2) Inserting new language that creates a process by which a public land lessee may, within the final ten years of the lease term, request that the Board solicit potentially interested, qualified parties to whom the Board may dispose of the land and:

- (A) Limits application of the process to land classified as commercial and industrial use;
 - (B) Authorizes the Board to enter into direct negotiation for a new lease with the current lessee if no other interested, qualified parties are available;
 - (C) Authorizes the disposition of the land by public auction during the final three years of the lease term if it has not been released by that time and if at least one interested, qualified party is available;
 - (D) Authorizes the Board to determine the terms of the new lease, subject to specified conditions; and
 - (E) Accounts for the disposition of improvements to the land that were owned or constructed by the current lessee;
- (3) Inserting new language that authorizes the Board of Land and Natural Resources to extend, without public auction, the lease of public land to a school or government entity beyond the generally-applicable sixty-five year limit on public land leases, except for conservation land leased to the University of Hawaii that has been subleased for purposes of building an astronomical observatory;
 - (4) Deleting appropriations to the Department of Land and Natural Resources;
 - (5) Changing its effective date to July 1, 2017; and
 - (6) Making technical, nonsubstantive amendments for the purpose of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 575, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 575, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs and Senate President on behalf of the Committee.

Senators Rhoads, Thielen and Kahele.

Managers on the part of the Senate.

Ayes, 3. Ayes with Reservations (Thielen). Noes, none. Excused, none.

Representatives Yamane, Cullen and Thielen.

Managers on the part of the House.

Ayes, 3. Noes, none. Excused, none.

Conf. Com. Rep. 184 on H.B. No. 794

The purpose of this measure is to:

- (1) Establish the University of Hawaii Green Special Fund (Special Fund) to support energy efficiency, renewable energy, and sustainability projects and services, and planning, design, and implementation of sustainability projects for the benefit of the University of Hawaii (UH);
- (2) Require UH to submit a report to the Legislature prior to each regular session on the moneys deposited into the Special Fund; and
- (3) Appropriate funds for fiscal year 2017-2018 for energy efficiency, renewable energy, and sustainability projects and services that may be funded by the Special Fund.

Your Committee on Conference has amended this measure by:

- (1) Deleting the appropriation;
- (2) Requiring legislative approval of any Special Fund expenditure over a certain amount;
- (3) Changing its effective date to July 1, 2017; and
- (4) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 794, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 794, H.D. 1, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Kahele, Inouye and Tokuda.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, none.

Representatives McKelvey, Luke, Cullen and Matsumoto.

Managers on the part of the House.

Conf. Com. Rep. 185 on H.B. No. 847

The purpose of this measure is to provide the University of Hawaii the express statutory authority to create, finance, and participate in economic enterprises and expand workforce opportunities through the commercialization of inventions and discoveries generated by or at the University by establishing the Innovation and Commercialization Initiative Program and the University Innovation and Commercialization Initiative Special Fund.

Your Committee on Conference has amended this measure by:

- (1) Specifying that the Legislature finds that it is a matter of concern to promote the economic health and diversify workforce opportunities in the State;
- (2) Changing its effective date to July 1, 2017;
- (3) Providing that the measure shall be repealed on June 30, 2021; and
- (4) Making technical, nonsubstantive amendments for clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 847, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 847, H.D. 1, S.D. 1, C.D. 1.

Signed by the House Majority Leader and Chairs on behalf of the Committee.

Senators Kahele, Wakai, Keith-Agaran and Dela Cruz.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, 1 (Dela Cruz).

Representatives McKelvey, Nishimoto, Keohokalole, Har and Matsumoto.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, 1 (Har).

Conf. Com. Rep. 186 on H.B. No. 627

The purpose of this measure is to establish a regulatory framework to increase economic development in the State through collaboration between the public and private sector by:

- (1) Authorizing the Department of Business, Economic Development, and Tourism (DBEDT) to establish and fill one permanent state private-public partnership coordinator position;
- (2) Establishing within DBEDT an Office of Public-Private Partnership with specified duties, including, among other things:
 - (A) Creating a strategic plan;
 - (B) Coordinating collaboration among state agencies to analyze and develop public-private partnership projects based on the needs and goals of the agency and State;
 - (C) Developing and analyzing plans for future public-private partnership projects; and
 - (D) Initiating the redevelopment of Aloha Stadium as its initial private-public partnership; and
- (3) Appropriating funds for each year of fiscal biennium 2017-2019 to establish and fill the state public-private partnership coordinator position, establish and operate the Office of Public-Private Partnership, and initiate Aloha Stadium redevelopment.

Your Committee on Conference believes that public-private partnerships will create opportunities for synergy and to grow and expand government services and activities beyond those currently provided with increased public satisfaction. Your Committee on Conference clarifies and emphasizes that the intent of this measure is to create those synergies between the public and private sectors and it is not the intent of this measure to adversely impact current government services nor to actively seek opportunities to privatize existing services historically provided by government employees.

Your Committee on Conference has amended this measure by:

- (1) Describing the coordinator's position as a full-time equivalent (1.00 FTE) state public-private partnership coordinator position;
- (2) Appropriating \$150,000 for each year of fiscal biennium 2017-2019 for the state public-private partnership coordinator position and to establish and operate the Office of Public-Private Partnership;
- (3) Changing its effective date to July 1, 2017; and
- (4) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 627, H.D. 2, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 627, H.D. 2, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Wakai, Kahele and Dela Cruz.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, none.

Representatives Nakashima, San Buenaventura, Cullen, Yamane and Ward.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, 1 (Ward).

Conf. Com. Rep. 187 on H.B. No. 475

The purpose of this measure is to:

- (1) Make permanent Act 39, Session Laws of Hawaii 2015 (Act 39), which established the requirement that movie theaters must, under certain conditions and circumstances, provide open movie captioning and audio descriptions of motion pictures; and
- (2) Authorize a public accommodation that owns, leases, leases to, or operates a motion picture theater in the State to provide a personal closed captioning system for a motion picture that is produced and offered with closed captioning content.

Your Committee on Conference has amended this measure by:

- (1) Clarifying that a public accommodation that owns, leases, leases to, or operates a motion picture theater in more than two locations in the State shall provide:
 - (A) Open movie captioning during at least one showing per week of each motion picture that is produced and offered with open movie captioning; or
 - (B) A personal closed captioning system that is produced and offered with closed captioning content;
- (2) Extending the sunset date of Act 39 to January 1, 2020; and
- (3) Requiring the Department of Business, Economic Development, and Tourism to conduct a survey and report to the Legislature on the operational and financial impact that Act 39 has had on movie theaters that are required to comply with Act 39 and any other relevant matters resulting from Act 39.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 475, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 475, H.D. 1, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Wakai, Baker and Keith-Agaran.

Managers on the part of the Senate.

Ayes, 3, Ayes with Reservations (Baker). Noes, none. Excused, none.

Representatives Nakashima, Keohokalole, Tokioka and Ward.

Managers on the part of the House.

Ayes, 4, Ayes with Reservations (Tokioka). Noes, none. Excused, none.

Conf. Com. Rep. 188 on H.B. No. 1044

The purpose of this measure is to replace the Department of Business, Economic Development, and Tourism's (DBEDT) requirements associated with the certification, administration, and verification of the Renewable Fuels Production Tax Credit with a process that requires taxpayers who claim a credit to complete and file an independent, third-party certified statement with DBEDT in the form prescribed by DBEDT.

Your Committee on Conference has amended this measure by making the measure effective upon its approval, and applicable to taxable years beginning after December 31, 2017.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1044, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1044, H.D. 1, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Inouye, Taniguchi and Shimabukuro.

Managers on the part of the Senate.

Ayes, 2. Noes, none. Excused, 1 (Shimabukuro).

Representatives Nakashima, Lee, Keohokalole and Ward.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. 189 on H.B. No. 591

The purpose of this measure is to assist qualified infrastructure tenants (Tenant) who were displaced from the Kapalama Container Terminal site by updating the Capital Infrastructure Tax Credit (Tax Credit) law for taxable years beginning after December 31, 2016.

Specifically, this measure:

- (1) Includes structures, machinery, equipment, and capital assets in the definition of "capital infrastructure costs" thereby allowing a taxpayer to claim the Tax Credit for those costs; provided that those costs relate to the taxpayer's move of a trade or business within Honolulu Harbor and excluding amounts received from the State;
- (2) Increases the maximum credit to \$2,500,000 per taxable year for a Tenant; provided that excess Tax Credits may be carried forward until exhausted subject to certain limitations;
- (3) Clarifies that distribution and share of the Tax Credit for a partnership may be determined notwithstanding section 706 of the Internal Revenue Code, in addition to section 704;
- (4) Requires the recapture of the Tax Credit if the Tenant fails to relocate within ninety days after the execution of a lease with the Department of Transportation;

- (5) Requires a taxpayer claiming the Tax Credit to timely submit certain information annually to the Department of Taxation, and subjects the taxpayer to a reduction of Tax Credit and monetary penalties for failure to provide the information; and
- (6) Requires that within ninety days after each fiscal year, moneys shall be transferred from the Harbor Special Fund to the Director of Finance for deposit into the general fund, in an amount equal to the aggregated Tax Credits properly claimed by taxpayers during the fiscal year, as calculated by the Director of Taxation.

Your Committee on Conference has amended this measure by:

- (1) Clarifying that the Tenant, together with all of its special purpose entities, including all partners and members of the Tenant and its special purpose entities, shall not claim any credit in any one taxable year that exceeds \$2,500,000;
- (2) Deleting language subjecting the taxpayer to a reduction of the Tax Credit for failure to timely submit certain information;
- (3) Deleting language requiring the Director of Taxation to calculate the aggregate value of all capital infrastructure tax credits properly claimed and report the amounts to the Director of Transportation and the Director of Finance;
- (4) Deleting language authorizing the transfer of moneys from the Harbor Special Fund to reimburse the general fund in an amount equal to the aggregated properly claimed Tax Credits;
- (5) Changing its effective date to upon its approval; and
- (6) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 591, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 591, H.D. 1, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Inouye, Dela Cruz and English.
Managers on the part of the Senate.
Ayes, 2. Noes, none. Excused, 1 (English).

Representatives Nakashima, Luke and Ward.
Managers on the part of the House.
Ayes, 2. Noes, none. Excused, 1 (Ward).

Conf. Com. Rep. 190 on H.B. No. 423

The purpose of this measure is to ensure that the Motion Picture, Digital Media, and Film Production Tax Credit (Tax Credit) continues to benefit Hawaii by:

- (1) Extending the sunset date of the Tax Credit for five years to January 1, 2024, and allowing taxpayers to claim unused credits through calendar year 2024;
- (2) Clarifying that qualifying production costs are those costs that are expended, in addition to incurred, within the State;
- (3) Specifying that to qualify for the Tax Credit, a production must provide evidence of:
 - (A) Ability to understand and navigate and recognition of cultural and environmental sensitives unique to Hawaii; and
 - (B) Reasonable efforts to comply with the guidelines for filming in sensitive locations established by the Hawaii Film Office;
- (4) Specifying that to qualify for the Tax Credit, a production must:
 - (A) Employ or contract for the services of cultural resources or historical, cultural, or language experts to advise the production;
 - (B) Agree, if it claims more than \$8,000,000 in credits, to provide a community screening of the finished products in the county of the island in which the majority of the production took place; and
 - (C) Prequalify for the Tax Credit by registering with the Hawaii Film Office of the Department of Business, Economic Development, and Tourism (DBEDT) and obtain certification from the Film Office;
- (5) Specifying that a taxpayer's failure to comply with DBEDT's reporting requirements may constitute a waiver of the right to claim the Tax Credit; and
- (6) Establishing an annual aggregate cap of \$30,000,000 on the Tax Credit and allowing a taxpayer to claim all or part of the credit in subsequent years if the cap has been reached in the year the taxpayer was eligible to claim the Tax Credit.

The measure also requires DBEDT to;

- (1) Submit an annual report on the activities and expenditures of the Tax Credit to the Legislature prior to the convening of each Regular Session until the Tax Credit expires;
- (2) Hire an independent third party to audit each film production that claims the Tax Credit; and
- (3) Collaborate with the Department of Taxation and submit an independently verified and audited annual report to the Governor and Legislature on the jobs created by and fiscal impact to the State of, those productions receiving the Tax Credit.

Your Committee on Conference has amended this measure by, among other things:

- (1) Clarifying that the production to qualify for the Tax Credit must, among other things, provide the State:
 - (A) A qualified Hawaii promotion; and
 - (B) Evidence that reasonable efforts were unsuccessful to secure and use comparable products or services within the State;
- (2) Deleting any requirements to qualify for the Tax Credit that:
 - (A) Relates in any way to cultural and environmental sensitivities; and
 - (B) Requires a community screening of the finished production for any production that claims a credit of more than \$8,000,000;
- (3) Clarifying that the taxpayer shall first prequalify the production for the Tax Credit by registering with DBEDT, and repealing the provisions relating to the failure to comply may constitute a waiver of the right to claim the Tax Credit and the certification requirements;
- (4) Requiring a taxpayer claiming the Tax Credit to submit a verification review of any claims for the Tax Credit using procedures prescribed by DBEDT and deleting the provision that failure to comply with the reporting requirements of DBEDT may constitute a waiver of the right to claim the Tax Credit;
- (5) Increasing the aggregate tax credit cap to \$35,000,000, and any tax credit claims in excess of the \$35,000,000 cap shall be treated as having been applied for in the subsequent year and claimed in such year, provided that no excess shall be allowed to be claimed after December 31, 2025;
- (6) Extending the Tax Credit to January 1, 2026;
- (7) Deleting the provision permitting a taxpayer to claim any unused Tax Credit through calendar year 2024;
- (8) Clarifying that no later than January 1, 2018, and each January 1 thereafter, each film production that has production expenditures of \$1,000,000 or more and is claiming the Tax Credit shall obtain an independent third party certification of qualified production costs eligible for the Tax Credit for submission to DBEDT;
- (9) Deleting the requirement that DBEDT's report to the Governor and the Legislature be independently verified and audited for accuracy;
- (10) Changing its effective date to December 31, 2018;
- (11) Clarifying that the amendments to the Tax Credit shall apply to taxable years beginning after December 31, 2018; and
- (12) Making technical, nonsubstantive amendments, including conforming amendments, for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 423, H.D. 2, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 423, H.D. 2, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Wakai, Dela Cruz and Keith-Agaran.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, none.

Representatives Nakashima, Luke, Cullen, Woodson and Ward.
Managers on the part of the House.
Ayes, 4. Noes, none. Excused, 1 (Woodson).

Conf. Com. Rep. 191 on S.B. No. 859

The purpose of this measure is to:

- (1) Grant an employee the right to have a chaperone present during an independent medical examination relating to a work injury for workers' compensation purposes;
- (2) Grant an employee the right to use a recording device during the medical examination, subject to certain conditions; and
- (3) Specify that if the employee or employee's designated chaperone obstructs the examination, the employee's right to compensation shall be suspended until the obstruction ceases.

Your Committee on Conference finds that efforts to ensure that the independent medical examination physician who examines a work injury under the workers' compensation system is truly independent serve to minimize or even eliminate negative perceptions about the examiner, providing greater assurance that the examination will be conducted fairly.

Your Committee on Conference has amended this measure by making it effective upon its approval; provided that on June 30, 2019, this measure shall be repealed and section 386-79, Hawaii Revised Statutes, shall be reenacted in the form in which it read on the day before the effective date of this measure.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 859, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 859, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Keith-Agaran, Chang and Rhoads.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, none.

Representatives Johanson, Cullen, Holt, Yamashita and Matsumoto.
Managers on the part of the House.
Ayes, 5. Noes, none. Excused, none.

Conf. Com. Rep. 192 on S.B. No. 1183

The purpose of this measure is to address taxation.

More specifically, this measure:

- (1) Authorizes a county that has established a county surcharge on state tax to extend the surcharge for two years, until December 31, 2029, provided that certain conditions are met;
- (2) Authorizes counties that have not established a surcharge on state tax to do so before January 1, 2018;
- (3) Reduces from ten per cent to one per cent the portion of county surcharge on state tax deducted to reimburse the State for administrative costs;
- (4) Expressly prohibits a county with a population greater than five hundred thousand from using surcharge revenues for administrative or operating costs of a locally preferred alternative for a mass transit project, including such costs for a rapid transit authority; and
- (5) Prohibits a county with a population greater than five hundred thousand from:
 - (A) Prohibiting the use of county funds for capital costs of a locally preferred alternative for a mass transit project; or
 - (B) Using county surcharge revenues for purposes other than capital costs of a locally preferred alternative for a mass transit project,

and provides that any extension of the surcharge on state tax will not take effect if the county violates any of the conditions in subparagraph (A) or (B).

Your Committee on Conference finds that this measure will provide a financial mechanism to continue construction of a locally preferred alternative for a mass transit project, subject to appropriate conditions.

However, your Committee on Conference believes that it is more fiscally prudent to establish a mechanism that provides transient accommodations tax revenues for the purposes of this Act, so that a greater proportion of the funding for a locally preferred alternative for a mass transit project is derived from visitors to the State.

Your Committee on Conference has amended this measure by:

- (1) Deleting provisions authorizing a county that has established a county surcharge on state tax to extend the surcharge for two years, until December 31, 2029;
- (2) Imposing requirements and conditions on the authority of counties to establish a new surcharge on state tax pursuant to this measure;
- (3) Expanding to all counties the prohibition on forbidding the use of county funds for capital costs of a locally preferred alternative for a mass transit project;
- (4) Establishing the new start education special fund;
- (5) Subject to certain conditions imposed by this measure, increasing the transient accommodations tax by 2.75 per cent from January 1, 2018, to December 31, 2027, and allocating:
 - (A) \$50,000,000 in transient accommodations tax revenue per year to the new start education fund; and
 - (B) The remaining revenue to a county with a population greater than five hundred thousand to be used only for capital costs of a locally preferred alternative for a mass transit project;
- (6) Requiring that, from January 1, 2018, to December 31, 2027, \$13,000,000 per year from the 44.1 per cent portion of transient accommodations tax revenue allocated to the City and County of Honolulu be used only for capital costs of a locally preferred alternative for a mass transit project; and
- (7) Prohibiting a county from using public funds to reconstruct or redevelop the Neal S. Blaisdell Center while the county is collecting a surcharge on state tax to finance capital costs of a locally preferred alternative for a mass transit project.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1183, S.D. 2, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1183, S.D. 2, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Inouye, Nishihara, Tokuda and Dela Cruz.
Managers on the part of the Senate.
Ayes, 4. Noes, none. Excused, none.

Representatives Aquino, Luke and McDermott.
Managers on the part of the House.
Ayes, 3, Ayes with Reservations (McDermott). Noes, none. Excused, none.

Conf. Com. Rep. 193 on H.B. No. 1488

The purpose of this measure is to amend and clarify the regulatory framework for the use of medical marijuana and the implementation and operation of the medical marijuana dispensary system by:

- (1) Permitting qualifying patients and their primary caregivers to possess additional medical marijuana seedlings as part of an adequate supply;
- (2) Specifying additional debilitating medical conditions that qualifying patients may treat with medical marijuana;
- (3) Amending requirements for and access to laboratory testing to ensure product and patient safety;
- (4) Amending certain dates and deadlines in existing law to address delays in implementing the dispensary system;
- (5) Authorizing the Department of Health to implement an alternate, backup information tracking system and requiring the Department to report information and recommendations to the Legislative Oversight Working Group; and
- (6) Establishing requirements for retention of video security recordings for production centers and dispensaries.

Your Committee on Conference has amended this measure by:

- (1) Increasing the number of plants at any stage of growth that qualifying patients and their primary caregivers may possess instead of authorizing possession of additional seedlings only;
- (2) Including rheumatoid arthritis as a qualifying condition for use of medical marijuana and deleting autism and arthritis of an unspecified type;
- (3) Clarifying restrictions on the interisland transportation of medical marijuana for laboratory testing purposes;
- (4) Authorizing qualifying patients to continue to obtain medical marijuana from a source other than a dispensary or by self-cultivation through December 31, 2023;
- (5) Clarifying the Department of Health's authority to permit licenses to cultivate additional plants at a production center and to operate an additional retail dispensary location;
- (6) Clarifying that production centers and retail dispensing locations shall retain video security recordings for at least fifty days;
- (7) Amending restrictions on access to dispensary facilities to permit paratransit and assistive service providers to provide assistance required by a qualifying patient to access the dispensary;
- (8) Amending submission deadline for the Department of Health's report to the Working Group;
- (9) Changing its effective date to June 29, 2017; and
- (10) Making technical, nonsubstantive amendments for clarity and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1488, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1488, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs and Senate President on behalf of the Committee.

Managers on the part of the Senate.
Ayes, 5. Noes, none. Excused, none.

Representatives Belatti, San Buenaventura, Cullen and Thielen.
Managers on the part of the House.
Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. 194 on H.B. No. 1469

The purpose of this bill is to promote the redevelopment of districts that have been identified as being in need of revitalization.

Specifically, this bill:

- (1) Requires the Legislature to designate redevelopment districts in certain land classifications;
- (2) Requires the establishment of a planning committee for each designated redevelopment district;
- (3) Requires the planning committee to prepare a redevelopment plan for the designated district;
- (4) Establishes a process to create a separate revolving fund for each redevelopment district;
- (5) Appropriates funds for the purposes of redevelopment districts; and
- (6) Establishes the Waiakea Peninsula Redevelopment District, Planning Committee, and Revolving Fund, to be repealed on June 30, 2027.

Your Committee on Conference has amended this measure by:

- (1) Adding clarifying language regarding the powers and duties delegated to planning committees;
- (2) Adding provisions regarding modifications to public land lease restrictions;
- (3) Appropriating \$500,000 for fiscal year 2017-2018 to be deposited into the Waiakea Peninsula Redevelopment District Revolving Fund (Revolving Fund) and appropriating out of the Revolving Fund \$300,000 for fiscal years 2017-2018 and 2018-2019 for the purpose of this measure; and
- (4) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1469, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1469, H.D. 1, S.D. 2, C.D. 1.

Representatives Onishi, Yamane, Tokioka and Ward.
Managers on the part of the House.
Ayes, 3. Noes, none. Excused, 1 (Ward).

Conf. Com. Rep. 195 on H.B. No. 115

The purpose of this measure is to require each county with a population of 500,000 or more to take ownership and jurisdiction over all disputed roads under certain circumstances.

Your Committee on Conference has amended this measure by:

- (1) Clarifying that disputed roads are those in which there is a dispute over ownership and jurisdiction between the State or any of its political subdivisions and a county or a private party, or between a county and a private party; and
- (2) Changing its effective date to July 1, 2017.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 115, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 115, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs and Senate President on behalf of the Committee.

Senators Inouye, Galuteria and Thielen (does not concur).
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, none.

Representatives Aquino, Luke, Hashem and McDermott.
Managers on the part of the House.
Ayes, 4. Noes, none. Excused, none.

STANDING COMMITTEE REPORTS

SCRep. 1 Human Services on S.B. No. 4

The purpose and intent of this measure is to appropriate funds to the Department of Human Services to reimburse non-profit entities that provide housing assistance services to the homeless population.

Your Committee received testimony in support of this measure from IMUAlliance, Hawaii Youth Services Network, and Young Progressives Demanding Action. Your Committee received comments on this measure from the Governor's Coordinator on Homelessness and Department of Human Services.

Your Committee finds that the chronically homeless are often the most visible homeless, living in neighborhoods, doorways, and under bridges. These persons experience homelessness over a long period of time and incur very significant public costs. Providing resources to programs that provide housing assistance, like the housing first program, can result in chronically homeless persons obtaining permanent housing and services they may need to keep them in housing and off the streets.

Your Committee has amended this measure by:

- (1) Adjusting the appropriation amount from \$25,000,000 to \$10,000,000; and
- (2) Specifying that the appropriation shall instead be used to reimburse housing first program providers that provide housing assistance services to the homeless population.

Your Committee on Human Services notes that the amendments made to this measure may require the measure to additionally be referred to your Committee on Housing.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 4, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 4, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Tokuda, Wakai).

SCRep. 2 (Joint) Human Services and Commerce, Consumer Protection, and Health on S.B. No. 27

The purpose and intent of this measure is to:

- (1) Make an appropriation to the Department of Human Services to restore basic adult dental benefits to Medicaid enrollees; and
- (2) Require the Department of Human Services to obtain the maximum federal matching funds available for this expenditure.

Your Committees received testimony in support of this measure from the University of Hawai'i, State Council on Developmental Disabilities, Lanai Community Health Center, Healthcare Association of Hawaii, Waimānalo Health Center, 'Ohana Health Plan, Hawaii Dental Service, Hawaii Dental Association, Hawai'i Public Health Institute, Ko'olauloa Health Center, The Queen's Medical Center, Hawaii Primary Care Association, Ho'ola Lahui Hawaii, Waikiki Health, and seventeen individuals. Your Committees received comments on this measure from the Department of Human Services and Papa Ola Lōkahi.

Your Committees find that oral health in the State is a pervasive and expensive public health crisis that needs to be addressed, especially in low-income and underserved populations. The State needs to find ways to begin rebuilding the State's public dental health infrastructure, as low-income individuals in the State are more likely to have dental problems and less likely to seek care to resolve these issues.

Your Committees further find that the State's federally matched Medicaid program forms an essential support for underserved individuals by offering insurance options for low-income citizens, in addition to other social service programs. Restoring basic adult dental benefits would allow for individuals to eat properly, work productively, improve mental health well-being, and increase attendance and participation in school.

As affirmed by the records of votes of the members of your Committees on Human Services and Commerce, Consumer Protection, and Health that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 27 and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
Human Services: Ayes, 3. Noes, none. Excused, 2 (Harimoto, Tokuda).
Commerce, Consumer Protection, and Health: Ayes, 5. Noes, none. Excused, 2 (Kidani, Ruderman).

SCRep. 3 Agriculture and Environment on S.B. No. 160

The purpose and intent of this measure is to establish and appropriate funds derived from the state environmental response, energy, and food security tax (barrel tax) for the Korean natural farming pilot program.

Your Committee received testimony in support of this measure from the Department of Agriculture; Hawaii Farmers Union United; Hawaii Center for Food Safety; We Are One, Inc.; Miss Rodeo Hawaii Program; and twelve individuals. Your Committee received comments on this measure from the Department of Taxation.

Your Committee finds that agricultural pests in Hawaii, such as the little fire ant, coffee berry borer, papaya ringspot virus, macadamia felted coccid, macadamia fungus, banana bungee, coqui frogs, and fire weed, threaten the economic viability of Hawaii's commercial agricultural industries. The use of pesticides to combat these pests may endanger the health of Hawaii's people and environment, whereas Korean natural farming does not pose the same health risks. Korean natural farming techniques, which involve

collecting and culturing indigenous microorganisms and reintroducing them into an agroecosystem, may be an effective method to combat these pests without the use of pesticides.

Your Committee has amended this measure by:

- (1) Removing sections 2 and 3, relating to the barrel tax;
- (2) Inserting an appropriation amount of \$100,000; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 160, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 160, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Nishihara).

SCRep. 4 Commerce, Consumer Protection, and Health on S.B. No. 145

The purpose and intent of this measure is to:

- (1) Ensure that transfers of defendants to hospitals for evaluation and treatment are due to the need for acute hospital level psychiatric treatment for mental illness; and
- (2) Make permanent the statutory change repealing the requirement that one of the three qualified examiners providing forensic evaluations to determine a defendant's fitness to proceed in a felony case has to be appointed from within the Department of Health.

Your Committee received testimony in support of this measure from the Department of Health. Your Committee received comments on this measure from the Hawaii Disability Rights Center.

Your Committee finds that it is important to pursue initiatives that promote the safe, effective, and efficient delivery of mental health supports and forensic evaluations. Currently, no clearly defined criteria exist for determining whether or not it is necessary to transfer a defendant to a hospital to receive a pretrial forensic evaluation. Instead, the court has discretion in the matter, but there is no mental health professional appointed at that juncture in the court proceedings to assess the level of care a defendant might need. This measure clarifies existing law to ensure that transfers to state facilities for evaluation and treatment occur when there is a need for acute hospital level psychiatric treatment for mental illness.

Your Committee further finds that forensic examinations should be timely and efficient. During the Regular Session of 2016, the Legislature acknowledged personnel shortages within the Department of Health and enacted Act 231, Session Laws of Hawaii 2016, which gives the Department flexibility in assigning work to forensic examiners from outside the Department until June 30, 2018. Your Committee believes that this deadline gives the Department sufficient time to resolve its staffing deficits and that the flexibility granted to the Department should be temporary, as originally intended.

Your Committee has amended this measure by:

- (1) Inserting language to include detainees located in jail correctional facilities who are in need of acute psychiatric treatment for mental illness by allowing these detainees to be transferred to state facilities per agreements entered into between the Department of Health and the Department of Public Safety;
- (2) Deleting section 2, thereby retaining the language that reinstates mandatory participation by examiners from within the Department of Health in forensic examinations beginning July 1, 2018;
- (3) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 145, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 145, S.D. 1, and be referred to your Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 2 (Ihara, Kidani).

SCRep. 5 Agriculture and Environment on S.B. No. 226

The purpose and intent of this measure is to fund a program coordinator position and inspector position within the Department of Agriculture for the industrial hemp program.

Your Committee received testimony in support of this measure from the Department of Agriculture, Hawaii Farmers Union United, Hawai'i Farm Bureau, and nine individuals.

Your Committee finds that Act 228, Session Laws of Hawaii 2016, established the industrial hemp pilot program to allow the cultivation of industrial hemp and distribution of its seed in Hawaii through limited activities by licensee-agents of the Board of Agriculture for purposes of agricultural or academic research. To ensure success, the program must be properly staffed with a program coordinator and inspector and have the proper funding for program operations.

Your Committee has amended this measure to designate that the appropriation is for industrial hemp program operations, in addition to funding staff positions.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 226, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 226, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Nishihara).

SCRep. 6 Agriculture and Environment on S.B. No. 350

The purpose and intent of this measure is to make an appropriation for a nutrient cycling center pilot project on Maui and require reporting on the efficacy of the pilot project.

Your Committee received testimony in support of this measure from the Department of Agriculture; Hawaii Center for Food Safety; Farm Lovers Farmers Markets; We Are One, Inc.; and twenty individuals. Your Committee received comments on this measure from the Department of the Attorney General and Hawai'i Farm Bureau.

Your Committee finds that nutrient cycling fosters agricultural production by preventing nutrients from flowing from farmland into aquifers and shorelines. Nutrient cycling puts end products back into the land-based food chain instead of generating waste or causing pollution, as with food waste, and lowers agricultural production costs. Your Committee also finds that a regional nutrient cycling center in Hawaii, particularly on Maui, would promote environmental, economic, and social benefits for the State along with food and energy security, while minimizing the interisland transfer of waste streams and reducing the likelihood of transporting invasive species.

Your Committee has amended this measure by:

- (1) Adding language to explicitly establish the regional nutrient cycling pilot program on Maui;
- (2) Clarifying that the Board of Agriculture shall establish an advisory panel for the pilot program; and
- (3) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 350, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 350, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Nishihara).

SCRep. 7 Agriculture and Environment on S.B. No. 356

The purpose and intent of this measure is to improve food security and self-sufficiency in the State by encouraging the development and implementation of a whole farm system approach to agriculture in Hawaii through the establishment of a farmer apprentice mentoring program within the Department of Agriculture.

Your Committee received testimony in support of this measure from the Department of Agriculture; University of Hawai'i System; Hawaii Farmers Union United; Ka 'Ohana O Na Pua; Farm Lovers Farmers Market; Pipi's Produce, Inc.; and fifteen individuals. Your Committee received comments on this measure from the Department of the Attorney General.

Your Committee finds that the development of a whole system approach to agriculture in Hawaii that pays close attention to soil health, specifically increasing mineral availability and improving soil structure, water-holding capacity, crop health, and food nutrition levels, will lower water usage through deployment of green manure, compost, and cover crops; reduce crop loss from pest damage; and decrease weed pressure. This whole system approach to agriculture can improve food security and benefit the local economy through reducing production costs by promoting locally sourced inputs and the manufacturing thereof. Teaching a new generation of farmers to use this whole system approach will create an alternative method of farming that appeals to many young farmers across the State. Your Committee finds that currently there is a shortage of qualified teachers for these farm methods; therefore, a farmer apprentice mentoring program will fulfill this need by bringing the students to the farm and providing qualified farm mentors with funding.

Your Committee has amended this measure by:

- (1) Making the appropriation directly to the Department of Agriculture, rather than as a grant-in-aid;
- (2) Deleting language that would have required the Chairperson of the Board of Agriculture to be responsible for grant approvals, and that there be at least one grant approval per county; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 356, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 356, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Nishihara).

SCRep. 8 Agriculture and Environment on S.B. No. 771

The purpose and intent of this measure is to authorize the issuance of general obligation bonds to finance improvements to irrigation systems throughout the State.

Your Committee received testimony in support of this measure from the Department of Agriculture; Hawaii Agriculture Research Center; Hawaii Cattlemen's Council, Inc.; Hawai'i Farm Bureau; and one individual.

Your Committee finds that a reliable irrigation system is the lifeline of Hawaii's agricultural industry. To ensure that Hawaii's crops receive a steady and dependable supply of water, sufficient funding is needed to maintain and improve Hawaii's irrigation systems.

Your Committee has amended this measure by:

- (1) Inserting a general obligation bond issuance and appropriation amount of \$13,200,000; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 771, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 771, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Nishihara).

SCRep. 9 Agriculture and Environment on S.B. No. 804

The purpose and intent of this measure is to increase the amount of pesticide use revolving fund monies the Department of Agriculture can maintain in order to allow the Department to have the necessary funds available to carry out its statutory mandate.

Your Committee received testimony in support of this measure from the Department of Agriculture; Hawai'i Island School Garden Network; Hawai'i Alliance for Progressive Action; We Are One, Inc.; Hawaii Crop Improvement Association; Hawaii Cattlemen's Council, Inc.; Hawaii Center for Food Safety; Western Plant Health Association; Farm Lovers Farmers Market; and eighteen individuals.

Your Committee finds that the pesticide use revolving fund is comprised of funds collected by the Department of Agriculture from pesticide license fees, restricted use pesticide dealer license fees, and training fees and is used to support the pesticide program's registration and licensing, certification and education, and compliance monitoring activities. The revolving fund may also be used to establish pesticide training workshops, educational programs, development of integrated pest management strategies, and other services to benefit users of pesticides, including collection, disposal, and recycling of pesticide containers. Your Committee further finds that increasing the cap on unobligated, unencumbered, and unexpended funds in the revolving fund from \$250,000 to \$1,000,000 will increase the ability of the Department of Agriculture to conduct critical training and outreach to:

- (1) Ensure that pesticides are not misused, as the misuse of pesticides is not only illegal but may also endanger the health of people and the environment;
- (2) Assist in the disposal of pesticides and pesticide containers; and
- (3) Supplement environmental studies, such as groundwater reviews and water sampling activities.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 804 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Nishihara).

SCRep. 10 Agriculture and Environment on S.B. No. 779

The purpose and intent of this measure is to expand the membership and duties of the Pesticide Advisory Committee in accordance with the recommendations of the *Pesticide Use by Large Agribusinesses on Kaua'i* report.

Your Committee received testimony in support of this measure from the Department of Education; 'Ohana O Kaua'i; Hawaii Center for Food Safety; Ka Ohana 'O Na Pua; Hawai'i Nurses' Association, OPEIU Local 50; Hawai'i Alliance for Progressive Action; We Are One, Inc.; Hale Lea Medicine, LLC; Farm Lovers Farmers Markets; Montessori Hale O'Keiki, Inc.; and one hundred six individuals. Your Committee received testimony in opposition to this measure from the Department of Agriculture; Hawai'i Farm Bureau; Hawaii Cattlemen's Council, Inc.; Hawaii Crop Improvement Association; and Western Plant Health Association.

Your Committee finds that Ordinance 960, passed by the County of Kauai in 2013 relating to pesticides and genetically modified organisms, which was overturned in federal court in 2014, contained a provision to create a Joint Fact Finding Group (JFFG) to help address key environmental and public health questions related to large-scale commercial agriculture entities using pesticides and genetically modified organisms on Kauai. When the ordinance was struck down by the court, the Department of Agriculture and the Kauai County Office of the Mayor contracted an independent public policy group, ACCORD3.0 Network, to facilitate the JFFG project. The JFFG was charged with gathering accurate information on the lands used by the seed companies and Kauai Coffee, their pesticide usage, and evidence of any possible adverse health and environmental impacts.

Your Committee also finds that the JFFG issued its findings and recommendations on May 25, 2016, in a report titled, *Pesticide Use by Large Agribusinesses on Kaua'i* (Report), and arrived at the following conclusions regarding health and environmental impacts on the west side of Kauai:

- (1) The Kauai health data examined is very limited and does not show a causal relationship between the pesticides used by the seed companies and health problems found on the west side or any other part of Kauai; and
- (2) There needs to be additional data gathering going forward to continue to demonstrate the impacts of agricultural pesticide use.

Your Committee further finds that passage of this bill will implement many of the JFFG's recommendations. The Report recommends that the Pesticide Advisory Committee be expanded and its mission broadened to:

- (1) Carefully establish new state standards for "chronicity" to account for low-level continuous and cumulative exposures to pesticides;
- (2) Undertake a major update of Hawaii's pesticide laws and regulations;
- (3) Revise and expand the Good Neighbor Program; and
- (4) Establish a consistent and data-driven buffer zone policy and use "green screens".

Your Committee appreciates the concerns of the Department of Agriculture but believes this measure deserves further discussion and debate.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 779 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Nishihara).

SCRep. 11 Agriculture and Environment on S.B. No. 778

The purpose and intent of this measure is to appropriate funds to implement the findings and recommendations of the *Pesticide Use by Large Agribusinesses on Kaua'i* report.

Your Committee received testimony in support of this measure from the Department of Agriculture; 'Ohana O Kaua'i; Hawaii Farmers Union United; Hawai'i Nurses' Association, OPEIU Local 50; Hawai'i Alliance for Progressive Action; Hawaii Center for Food Safety; Ka 'Ohana O Na Pua; We Are One, Inc.; and one hundred ninety-nine individuals. Your Committee received testimony in opposition to this measure from the Hawaii Cattlemen's Council, Inc., and one individual. Your Committee received comments on this measure from the Western Plant Health Association.

Your Committee finds that the County of Kauai passed Ordinance 960 relating to pesticides and genetically modified organisms in 2013, which was overturned in federal court in 2014. The ordinance contained a provision to create a Joint Fact Finding Group to help address key environmental and public health questions related to large-scale commercial agriculture entities using pesticides and genetically modified organisms on the island of Kauai. When the ordinance was struck down by the court, the Department of Agriculture and the Kauai County Office of the Mayor contracted an independent public policy group, The ACCORD 3.0 Network, to facilitate the Joint Fact Finding Group project. The group was charged with gathering accurate information on the lands used by the seed companies and Kauai Coffee, their pesticide usage, and evidence of any possible adverse health and environmental impacts.

Your Committee further finds that the study group issued its findings and recommendations on May 25, 2016, in a report titled, *Pesticide Use by Large Agribusinesses on Kaua'i*, and arrived at the following conclusions regarding health and environmental impacts on the west side of Kauai:

- (1) The Kauai health data examined is very limited and does not show a causal relationship between the pesticides used by the seed companies and health problems found on the west side or any other part of Kauai; and
- (2) There needs to be additional data gathering going forward to continue to demonstrate the impacts of agricultural pesticide use.

The report requests an appropriation of \$3,000,000 to implement numerous recommendations. Your Committee supports a statewide effort to ensure that the people and environment of Hawaii are protected against any possible adverse effects of pesticide use.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 778 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Nishihara).

SCRep. 12 Agriculture and Environment on S.B. No. 684

The purpose and intent of this measure is to provide additional funding for improvements to the Waiahole irrigation system.

Your Committee received testimony in support of this measure from the Department of Agriculture; Agribusiness Development Corporation; Hawaii Farmers Union United; Hawai'i Farm Bureau; Hawaii Agriculture Research Center; Hawaii Cattlemen's Council, Inc.; and two individuals.

Your Committee finds that a reliable irrigation system is the lifeline of Hawaii's agricultural industry. To ensure that Hawaii's crops receive a steady and dependable supply of water, sufficient funding is needed to maintain and improve Hawaii's irrigation systems. Your Committee further finds that the Waiahole irrigation system was constructed in 1915 to irrigate thousands of acres of sugarcane. The system collects groundwater from the windward side of Oahu and transports the water via tunnels to the leeward side of Oahu, where it is conveyed through ditches and siphons by gravity flow to supply vital irrigation water to lands between Waipio and Kunia; however, the system is currently in need of efficiency improvements.

Your Committee has amended this measure by:

- (1) Inserting a general obligation bond issuance and appropriation amount of \$8,000,000; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 684, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 684, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Nishihara).

SCRep. 13 Human Services on S.B. No. 347

The purpose and intent of this measure is to appropriate funds for establishing, staffing, and operating two mobile clinics to serve the homeless population.

Your Committee received testimony in support of this measure from The Queen's Health Systems and three individuals. Your Committee received comments on this measure from the Governor's Coordinator on Homelessness and Department of Human Services.

Your Committee finds that homelessness continues to be one of the State's most significant and challenging social problems. Homeless persons face a myriad of issues, including general health issues, mental illness, and substance abuse.

Your Committee further finds that mobile clinics are increasing in popularity across the nation as government entities find ways to address the health care needs of the homeless population. In places such as Denver, Colorado; Seattle, Washington; and San Jose, California, mobile clinics offer a variety of free health care services for local homeless populations, saving significant costs on emergency room visits.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 347 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Tokuda, Wakai).

SCRep. 14 Human Services on S.B. No. 20

The purpose and intent of this measure is to require operators of child care facilities that care for children one year of age or younger to implement and maintain safe sleep policies to prevent sudden unexpected infant deaths and sudden infant death syndrome in accordance with rules adopted by the Department of Human Services.

Your Committee received testimony in support of this measure from the Hawai'i Association for the Education of Young Children, Hawaii Children's Action Network, and fifty individuals. Your Committee received testimony in opposition to this measure from the Department of Human Services.

Your Committee finds that sudden unexpected infant death is a broad term that refers to the sudden death of an infant less than one year of age where the specific cause of death is not immediately obvious prior to investigation. According to the Centers for Disease Control and Prevention, more than 4,500 sudden unexpected infant deaths occur in the United States every year. Your Committee further finds that sudden infant death syndrome, the sudden death of an infant less than one year of age where the death cannot be explained even after a thorough investigation is conducted, accounts for half of the sudden unexpected infant deaths that occur in the United States every year and is the leading cause of death among infants one year of age or younger.

Your Committee further finds that sudden unexpected infant deaths and sudden infant death syndrome are preventable through safe sleep policies that address causes of death that are associated with sudden unexpected infant deaths and sudden infant death syndrome. However, the State does not regulate the proper sleep positions of infants and toddlers under the care of child care centers or family care homes.

Your Committee on Human Services notes that the Department of Human Services will be conducting a public hearing on February 6, 2017, to hear proposed amendments to administrative rules for registered family child care homes and licensed infant and toddler child care centers. The proposed amendments seek to improve safety and care by accommodating any changes to best practices and standards of care that may occur related to sleep-related deaths in infants.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 20 and recommends that it pass Second Reading and be referred to your Committees on Commerce, Consumer Protection, and Health and Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Tokuda, Wakai).

SCRep. 15 Human Services on S.B. No. 181

The purpose and intent of this measure is to reestablish eligibility for the preschool open doors program to include three- year-old children.

Your Committee received testimony in support of this measure from the Chamber of Commerce Hawaii, Hawaii Children's Action Network, Kamehameha Schools, Parents and Children Together, Hawai'i Association for the Education of Young Children, Americans for Democratic Action Hawaii, and four individuals. Your Committee received comments on this measure from the Department of Human Services.

Your Committee finds that when first established in 1991, the preschool open doors program provided financial assistance to parents of three- and four-year-old children living at or below seventy-five per cent of the state median income. Act 169, Session Laws of Hawaii 2013, reestablished the preschool open doors program as the statewide school readiness program, but only for children in the

year prior to entering kindergarten, namely four-year-olds. By not providing preschool services to children when they are three years old, their school readiness will likely decrease while they wait to become eligible for these services at four years of age.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 181 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Tokuda, Wakai).

SCRep. 16 Human Services on S.B. No. 537

The purpose and intent of this measure is to appropriate funds to the Department of Human Services to create one full-time equivalent program specialist position within the Adult Protective and Community Services Branch to oversee the foster grandparent program and senior companion programs in Maui County.

Your Committee received testimony in support of this measure from three individuals. Your Committee received comments on this measure from the Department of Human Services.

Your Committee finds that the foster grandparent program and senior companion program provide income eligible seniors with an opportunity to actively age by mentoring exceptional and special needs children and providing companionship and assistance to frail and isolated older adults. However, there is a lack of adequate staffing to serve the approximately 11,000 seniors with chronic conditions living in Maui County who could benefit from services from a senior companion. Having a program specialist position based in Maui County will provide program support to the foster parent program and the senior companion program, including developing senior volunteers and recruiting and supporting volunteer stations to coordinate assignments in school settings and for home-bound seniors.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 537 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Tokuda, Wakai).

SCRep. 17 Human Services on S.B. No. 497

The purpose and intent of this measure is to expand the qualifying age for the preschool open doors program to children four years old and younger.

Your Committee received testimony in support of this measure from Parents and Children Together, Hawaii State Parent Teacher Student Association, Kamehameha Schools, Seagull Schools, Hawai'i Association for the Education of Young Children, Hui for Excellence in Education, Americans for Democratic Action Hawaii, Community Children's Council of Hawaii, and five individuals. Your Committee received comments on this measure from the Department of Human Services.

Your Committee finds that the preschool open doors program is Hawaii's school readiness program that provides critical subsidies for low to moderate income families sending their children to a licensed preschool to prepare them for kindergarten. Expanding the qualifying age for the preschool open doors program creates short-term and long-term benefits for children, individuals, and society as a whole.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 497 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Tokuda, Wakai).

SCRep. 18 Human Services on S.B. No. 539

The purpose and intent of this measure is to make financial exploitation of an elder by a caregiver a felony.

Your Committee received testimony in support of this measure from the Honolulu Police Department, Lanakila Pacific, and four individuals.

Your Committee finds that financial exploitation is a fast growing form of elder abuse. Financial exploitation occurs when a person misuses or takes the assets of an elderly victim for that person's own personal benefit. While state laws and various services protect vulnerable adults, including the elderly, providing an additional mechanism against financial exploitation will further protect the elderly and ensure that they are financially safe.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 539 and recommends that it pass Second Reading and be referred to your Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Tokuda, Wakai).

SCRep. 19 Human Services on S.B. No. 748

The purpose and intent of this measure is to require the Department of Human Services to post its inspection records of child care facilities on a public website and submit an annual report to the Legislature of certain information from inspection records related to child care facilities.

Your Committee received testimony in support of this measure from the Hawaii Association for the Education of Young Children, Hawaii Children's Action Network, and one hundred six individuals. Your Committee received comments on this measure from the Department of Human Services and seven individuals.

Your Committee finds that because many parents must work full time, infant child care is a necessity for many local families. Through the Department of Human Services, the State regulates and inspects these child care facilities to ensure that all children are safe and healthy. Requiring the Department of Human Services to post its inspection records of child care facilities on its website may help bring assurance to families who are seeking or using child care services from these facilities.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 748 and recommends that it pass Second Reading and be referred to your Committees on Commerce, Consumer Protection, and Health and Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Tokuda, Wakai).

SCRep. 20 Human Services on S.B. No. 522

The purpose and intent of this measure is to:

- (1) Strengthen the safe sleep policy for child care facilities for children less than one year of age by requiring placement of children on their backs for sleeping and establishing notice and annual training requirements; and
- (2) Require child care facilities to report the death of a child less than one year of age that occurs in a child care facility to the Department of Human Services.

Your Committee received testimony in support of this measure from the Hawaii Children's Action Network, Hawaii Association for the Education of Young Children, and one hundred five individuals. Your Committee received testimony in opposition to this measure from the Department of Human Services. Your Committee received comments on this measure from eight individuals.

Your Committee finds that sudden unexpected infant death is a broad term that refers to the sudden death of an infant less than one year of age where the specific cause of death is not immediately obvious prior to investigation. According to the Centers for Disease Control and Prevention, more than 4,500 sudden unexpected infant deaths occur in the United States every year. Your Committee further finds that sudden infant death syndrome, the sudden death of an infant less than one year of age where the death cannot be explained even after a thorough investigation is conducted, accounts for half of the sudden unexpected infant deaths that occur in the United States every year and is the leading cause of death among infants one year of age or younger.

Your Committee further finds that sudden unexpected infant deaths and sudden infant death syndrome are preventable through safe sleep policies that address causes of death that are associated with sudden unexpected infant deaths and sudden infant death syndrome.

Your Committee on Human Services notes that the Department of Human Services will be conducting a public hearing on February 6, 2017, to hear proposed amendments to administrative rules for registered family child care homes and licensed infant and toddler child care centers. The proposed amendments seek to improve safety and care by accommodating any changes to best practices and standards of care that may occur related to sleep-related deaths in infants. Your Committee further notes that the Director of Human Services has publicly stated that the Department of Human Services is committed to pursuing public service announcements on television and radio related to safe sleep policy awareness.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 522 and recommends that it pass Second Reading and be referred to your Committees on Commerce, Consumer Protection, and Health and Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Tokuda, Wakai).

SCRep. 21 Human Services on S.B. No. 368

The purpose and intent of this measure is to:

- (1) Strengthen the safe sleep policy for child care facilities, which includes family child care homes, group child care centers, and group child care homes, and infant and toddler child care centers, that care for children one year of age or younger by:
 - (A) Requiring placement of children on their backs for sleeping, unless a health care professional, as defined in rules adopted by the Department of Human Services, waives the requirement in writing; and
 - (B) Establishing notice and training requirements; and
- (2) Require child care facilities to report the death of a child less than one year of age that occurs in a child care facility to the Department of Human Services.

Your Committee received testimony in support of this measure from the Hawai'i Association for the Education of Young Children and one hundred individuals. Your Committee received testimony in opposition to this measure from the Department of Human Services. Your Committee received comments on this measure from the Hawaii Children's Action Network and eight individuals.

Your Committee finds that sudden unexpected infant death is a broad term that refers to the sudden death of an infant less than one year of age where the specific cause of death is not immediately obvious prior to investigation. According to the Centers for Disease Control and Prevention, more than 4,500 sudden unexpected infant deaths occur in the United States every year. Your Committee further finds that sudden infant death syndrome, the sudden death of an infant less than one year of age where the death cannot be explained even after a thorough investigation is conducted, accounts for half of the sudden unexpected infant deaths that occur in the United States every year and is the leading cause of death among infants one year of age or younger.

Your Committee further finds that sudden unexpected infant deaths and sudden infant death syndrome are preventable through safe sleep policies that address causes of death that are associated with sudden unexpected infant deaths and sudden infant death syndrome. However, the State does not regulate the proper sleep positions of infants and toddlers under the care of child care centers or family care homes.

Your Committee on Human Services suggests that this measure be known as “Wiley’s Law” if enacted.

Your Committee further notes that the Department of Human Services will be conducting a public hearing on February 6, 2017, to hear proposed amendments to administrative rules for registered family child care homes and licensed infant and toddler child care centers. The proposed amendments seek to improve safety and care by accommodating any changes to best practices and standards of care that may occur related to sleep-related deaths in infants.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 368 and recommends that it pass Second Reading and be referred to your Committees on Commerce, Consumer Protection, and Health and Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Tokuda, Wakai).

SCRep. 22 Human Services on S.B. No. 747

The purpose and intent of this measure is to require a finding of substantial evidence that a vulnerable adult has incurred abuse or is in danger of abuse prior to the issuance of an order for immediate protection when the vulnerable adult is living at home with a prognosis of six months or less to live.

Your Committee received testimony in opposition to this measure from the Department of the Attorney General. Your Committee received comments on this measure from the Department of Human Services and Judiciary.

Your Committee finds that the immediate safety and welfare of vulnerable adults are of the utmost concern, especially for adults living at home with a prognosis of six months or less to live. Your Committee also respects the wishes of many older adults who are vulnerable but prefer to age in place or manage their own affairs in their last few months of life. This measure applies a standard of substantial evidence, rather than probable cause, to the seeking and granting of an order for immediate protection.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 747 and recommends that it pass Second Reading and be referred to your Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Tokuda, Wakai).

SCRep. 23 Human Services on S.B. No. 185

The purpose and intent of this measure is to require child care providers licensed or registered by the Department of Human Services to obtain and maintain liability insurance coverage.

Your Committee received testimony in support of this measure from the Hawaii Children’s Action Network, Hawai’i Association for the Education of Young Children, and ninety-six individuals. Your Committee received comments on this measure from the Department of Human Services and ten individuals.

Your Committee finds that because many parents must work full time, infant child care is a necessity for many local families. Through the Department of Human Services, the State regulates and inspects these child care facilities to ensure that all children are safe and healthy. Requiring all licensed or registered child care providers to obtain and maintain liability insurance coverage may help bring assurance to families who require child care services and allow opportunities for legal recourse for parents whose children are not properly cared for.

Your Committee has amended this measure by specifying that a provider operating a child care facility must obtain and maintain liability insurance coverage beginning January 1, 2019.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 185, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 185, S.D. 1, and be referred to your Committee on Commerce, Consumer Protection, and Health.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Tokuda, Wakai).

SCRep. 24 Human Services on S.B. No. 268

The purpose and intent of this measure is to appropriate funds to the Department of Human Services to study the impact and feasibility of creating an integrated database of certain information related to homeless individuals for providers of homeless services.

Your Committee received testimony in support of this measure from two individuals. Your Committee received comments on this measure from the Governor's Coordinator on Homelessness and Department of Human Services.

Your Committee finds that homelessness is a complex issue that requires continuous resources and coordinated efforts at all levels, including improving access to information of homeless individuals who are served by service providers. Oftentimes, critical services are delayed for homeless individuals because of the difficulties in accessing pertinent records and information.

Your Committee notes that consideration for confidentiality of health records is critical with the implementation of an integrated database containing information about homeless individuals.

Your Committee has amended this measure by:

- (1) Adjusting the appropriation amount from \$250,000 to \$1,500,000; and
- (2) Specifying that the appropriation shall also be used to construct an integrated database for providers of homeless services.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 268, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 268, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Tokuda, Wakai).

SCRep. 25 Commerce, Consumer Protection, and Health on S.B. No. 188

The purpose and intent of this measure is to establish and appropriate funds for a one-year pilot project to provide education about, and raise awareness of, sepsis in Hawaii.

Your Committee received testimony in support of this measure from Hawai'i Pacific Health and four individuals. Your Committee received comments on this measure from the Department of Health and Healthcare Association of Hawaii.

Your Committee finds that sepsis is a severe infection that can quickly progress to multisystem organ failure and death. Early recognition and intensive treatment are crucial to preventing morbidity and mortality from sepsis. Your Committee further finds that while groups exist that promote sepsis awareness, there is no organization in Hawaii dedicated to providing education about, and raising awareness of, sepsis.

In 2015, the Sepsis Best Practices Group was formed to disseminate best practices and improve sepsis care across the State. In 2016, Hawaii Sepsis Month and Hawaii Sepsis Day were recognized, and a Sepsis Awareness and Education Day event was held to provide information about sepsis and showcase improvement efforts the hospital community has made in recognizing and treating sepsis. Your Committee recognizes that the Department of Health and Healthcare Association of Hawaii, in collaboration with other community groups, are currently implementing initiatives to raise awareness about sepsis. However, your Committee finds that some funding may be required to further sepsis education and awareness efforts in Hawaii.

Accordingly, your Committee has amended this measure by:

- (1) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 188, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 188, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 2 (Ihara, Kidani).

SCRep. 26 Commerce, Consumer Protection, and Health on S.B. No. 132

The purpose and intent of this measure is to provide funding for implementation of a stroke communications plan.

Your Committee received testimony in support of this measure from the American Heart Association; Hawai'i Pacific Health; Hawaii Medical Service Association; American Physical Therapy Association, Hawaii Chapter; The Queen's Health Systems; Kaiser Permanente; and one individual. Your Committee received comments on this measure from the Department of Health and Department of the Attorney General.

Your Committee finds that it is common for stroke patients to delay seeking care, which often results in patients being ineligible to receive approved treatments that could improve their health outcomes. For example, despite significant improvements in the speed and quality of emergency medical services and hospital care, Hawaii ischemic stroke patients often arrive to a hospital too late to receive tissue plasminogen activator, the only approved medication for ischemic stroke treatment.

According to the American Heart Association, almost two million brain cells are permanently lost for each minute that passes without treatment to reestablish blood flow. Your Committee finds that early treatment can reduce the risk of death, and disability, and in some cases can reverse the disabling effects of stroke. The American Heart Association/American Stroke Association has established a task force to develop a stroke communications plan designed to change public norms and improve stroke response times. Implementation of the plan will increase stroke awareness and improve proper response.

Your Committee has amended this measure by:

- (1) Deleting the provision that requires the Department of Health to distribute funds to the Hawaii Public Health Institute to manage implementation of the stroke communications plan and inserting language to require the Department to solicit bids from community organizations;
- (2) Replacing the appropriation amount of \$250,000 for fiscal year 2017-2018 with a blank appropriation amount for fiscal years 2017-2018 and 2018-2019; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

Your Committee notes that although the appropriation amount has been removed from this measure, the recommended appropriation for implementation of a stroke awareness communications plan is \$250,000.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 132, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 132, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 2 (Ihara, Kidani).

SCRep. 27 Housing on S.B. No. 715

The purpose and intent of this measure is to expand the membership of the Special Action Team on Affordable Rental Housing to include the Executive Director of the Hawaii Community Development Authority and the Executive Director of the Hawaii Public Housing Authority.

Your Committee received testimony in support of this measure from the Hawaii Public Housing Authority, Office of Planning, and one individual. Your Committee received comments on this measure from the Hawaii Community Development Authority.

Your Committee finds that the Hawaii Community Development Authority has jurisdiction over areas conducive to the development of affordable rental housing, and the Hawaii Public Housing Authority has the objective of providing affordable rental housing for low-income families and individuals. Because of the subject matter and mission of the respective agencies, your Committee further finds that the addition of the Executive Director of the Hawaii Community Development Authority and the Executive Director of the Hawaii Public Housing Authority would be valuable to the Special Action Team on Affordable Rental Housing. Your Committee additionally finds that allowing the Executive Director of the Hawaii Community Development Authority and the Executive Director of the Hawaii Public Housing Authority to designate representatives to be members of the special action team would increase the flexibility and effectiveness of those members.

Your Committee has amended this measure by allowing the option for the Executive Director of the Hawaii Community Development Authority and the Executive Director of the Hawaii Public Housing Authority to each designate a representative to be members of the Special Action Team on Affordable Rental Housing.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 715, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 715, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Kahele, Nishihara).

SCRep. 28 Housing on S.B. No. 581

The purpose and intent of this measure is to:

- (1) Remove the cap on the amount of conveyance taxes collected that may be paid into the rental housing revolving fund; and
- (2) Increase the percentage of conveyance taxes collected that shall be paid into the rental housing revolving fund.

Your Committee received testimony in support of this measure from the Hawaii Housing Finance and Development Corporation, EAH Housing, Hawai'i Association of REALTORS, IMUAlliance, Housing Now, and three individuals. Your Committee received comments on this measure from the Department of Taxation, Tax Foundation of Hawaii, Chamber of Commerce Hawaii, and Building Industry Association of Hawaii.

Your Committee finds that a great need exists in the State for affordable housing, including affordable rental housing. The rental housing revolving fund provides loans to projects that set aside rental units affordable to extremely low- and very low-income families, which can fill financial gaps to develop affordable rental housing projects. Removing the cap on the amount of conveyance taxes collected that may be paid into the rental housing revolving fund and increasing the percentage of conveyance taxes collected that are paid into the revolving fund will increase the monies available for loans to qualifying projects and help alleviate the need for rental housing in the State.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 581 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Kahele, Nishihara).

SCRep. 29 Housing on S.B. No. 584

The purpose and intent of this measure is to:

- (1) Remove the requirement that a co-mortgagor assisting a qualified resident in securing a mortgage to purchase a dwelling unit from the Hawaii Housing Finance and Development Corporation be a family member; and
- (2) Require a qualified resident who is assisted by a co-mortgagor to have an income of at least fifty percent of the amount required to qualify for a loan to purchase the dwelling unit.

Your Committee received testimony in support of this measure from four individuals. Your Committee received comments on this measure from the Hawaii Housing Finance and Development Corporation.

Your Committee finds that the Hawaii Housing Finance and Development Corporation is tasked with developing and financing low- and moderate-income housing projects and administering homeownership programs, including the provision of mortgages for affordable housing units to qualifying residents. Your Committee further finds that some affordable units may still be unaffordable to first-time buyers without financial assistance from family and friends. For residents of Hawaii, "family" frequently extends to cousins, uncles, aunts, step-parents, and "hanai" family members who may not fall within the definition of "family" used by the Hawaii Housing Finance and Development Corporation, but who may still have the financial capacity and willingness to assist buyers with the down payment or qualification for a mortgage. Removing the requirement that co-mortgagors be family members and adding a requirement that buyers who are assisted by a co-mortgagor have an income of at least fifty percent of the amount required to qualify for the mortgage will allow the Hawaii Housing Finance and Development Corporation to assist more of the State's residents in purchasing affordable housing.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 584 and recommends that it pass Second Reading and be referred to your Committee on Commerce, Consumer Protection, and Health.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Kahele, Nishihara).

SCRep. 30 (Joint) Human Services and Commerce, Consumer Protection, and Health on S.B. No. 397

The purpose and intent of this measure is to:

- (1) Continue the hospital sustainability program for two years; and
- (2) Appropriate funds out of the hospital sustainability program special fund for fiscal years 2017-2018 and 2018-2019.

Your Committees received testimony in support of this measure from the Department of Human Services, Hawaii Health Systems Corporation, East Hawaii Region of the Hawaii Health Systems Corporation, The Queen's Health Systems, Healthcare Association of Hawaii, Chamber of Commerce Hawaii, Hawai'i Pacific Health, and one individual.

Your Committees find that the Legislature created the hospital sustainability program which was enacted by Act 217, Session Laws of Hawaii 2012, to increase Medicaid payments to hospitals in recognition that Medicaid payments to hospitals were below the actual costs of care. Because of the hospital sustainability program, Medicaid payments to many facilities in the State are closer to the actual costs of care, which helps to ensure that Medicaid patients have access to the hospital care they need.

As affirmed by the records of votes of the members of your Committees on Human Services and Commerce, Consumer Protection, and Health that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 397 and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
Human Services: Ayes, 3. Noes, none. Excused, 2 (Tokuda, Wakai).
Commerce, Consumer Protection, and Health: Ayes, 4. Noes, none. Excused, 3 (Ihara, Kidani, Ruderman).

SCRep. 31 (Joint) Human Services and Commerce, Consumer Protection, and Health on S.B. No. 308

The purpose and intent of this measure is to:

- (1) Beginning with fiscal year 2017-2018, provide an annual inflationary adjustment in the methodology used to reimburse facilities for the long-term care of Medicaid recipients; and
- (2) Appropriate funds to provide an inflationary adjustment to long-term care facilities' provider-specific prospective payment rates for fiscal years 2017-2018 and 2018-2019.

Your Committees received testimony in support of this measure from the Hawaii Health Systems Corporation; East Hawaii Region of the Hawaii Health Systems Corporation; Ohana Pacific Management Company, Inc.; The Queen's Health Systems; Hawai'i Pacific Health; Healthcare Association of Hawaii; One Kalakaua Senior Living; Oahu Care Facility; and two individuals. Your Committees received comments on this measure from the Department of Human Services.

Your Committees find that long-term care facilities in the State face major financial challenges in providing quality health care for Hawaii residents, largely because the payments for Medicaid enrollees do not cover the actual costs of care. The Legislature did approve funding for an inflationary update to Medicaid rates for long-term care facilities in 2016, the first increase in approximately seven years. That one-time appropriation of approximately \$1,500,000 for fiscal year 2016-2017 generated an additional \$2,500,000 in federal funds. However, despite that infusion of funds, the Medicaid shortfall will likely persist as the rising costs of care continue to outpace reimbursements.

As affirmed by the records of votes of the members of your Committees on Human Services and Commerce, Consumer Protection, and Health that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 308 and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Human Services: Ayes, 3. Noes, none. Excused, 2 (Tokuda, Wakai).

Commerce, Consumer Protection, and Health: Ayes, 5. Noes, none. Excused, 2 (Kidani, Ruderman).

SCRep. 32 (Joint) Human Services and Commerce, Consumer Protection, and Health on S.B. No. 374

The purpose and intent of this measure is to establish and appropriate funds for an add-on payment of forty percent to the Medicaid base rate for Medicaid enrollees at long-term care facilities who have medically complex conditions requiring a higher level of care and are awaiting discharge from an acute care hospital.

Your Committees received testimony in support of this measure from the Hawaii Health Systems Corporation; East Hawaii Region of the Hawaii Health Systems Corporation; The Queen's Health Systems; Ohana Pacific Management Company, Inc.; Healthcare Association of Hawaii; Hawaii Chapter of the American Physical Therapy Association; One Kalakaua Senior Living; Oahu Care Facility; Hawaii Disability Rights Center; Hawai'i Pacific Health; and three individuals. Your Committees received comments on this measure from the Department of Human Services and Hawaii Medical Service Association.

Your Committees find that a bottleneck occurs between hospitals and long-term care facilities for waitlisted health care patients. Waitlisted health care patients are individuals who have recovered sufficiently to no longer need the acute level of care that a hospital provides, but who cannot be transferred from a hospital to another facility because an appropriate placement cannot be found. It is especially difficult to locate a placement for patients who have a complex medical need, such as a traumatic brain injury or cognitive impairment, as the costs of treating these patients are prohibitively high for long-term care facilities.

Your Committees further find that the current Medicaid level of reimbursement for long-term care facilities does not match the cost of providing services to health care patients with medically complex needs. To help hospitals place high-cost patients who no longer need acute care into appropriate long-term care settings, it is critical that long-term care facilities receive payments that better reflect the costs of care attendant with medically complex cases, as hospitals that care for waitlisted health care patients may incur a net annual loss of approximately \$60,000,000.

Your Committees have amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Human Services and Commerce, Consumer Protection, and Health that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 374, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 374, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Human Services: Ayes, 3. Noes, none. Excused, 2 (Tokuda, Wakai).

Commerce, Consumer Protection, and Health: Ayes, 4. Noes, none. Excused, 3 (Ihara, Kidani, Ruderman).

SCRep. 33 (Joint) Human Services and Commerce, Consumer Protection, and Health on S.B. No. 21

The purpose and intent of this measure is to increase the monetary penalties and establish criminal penalties for violating laws relating to child care facilities.

Your Committees received testimony in support of this measure from the Honolulu Police Department, Hawaii Children's Action Network, and forty-three individuals. Your Committees received comments on this measure from the Department of Human Services.

Your Committees find that because many parents must work full time, infant child care is a necessity for many local families. Through the Department of Human Services, the State regulates and inspects these child care facilities to ensure that all children are safe and healthy. Increasing the fines and establishing criminal penalties for child care facility providers who violate state laws relating to child care facilities may encourage an upkeep of best practices and allow opportunities for legal recourse for parents whose children are not properly cared for.

Your Committees have amended this measure by increasing the class of offense from a misdemeanor to a class C felony for any person who intentionally, knowingly, or recklessly violates the laws relating to child care facilities.

As affirmed by the records of votes of the members of your Committees on Human Services and Commerce, Consumer Protection, and Health that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 21, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 21, S.D. 1, and be referred to your Committee on Judiciary and Labor.

Signed by the Chairs on behalf of the Committees.

Human Services: Ayes, 3. Noes, none. Excused, 2 (Harimoto, Tokuda).

Commerce, Consumer Protection, and Health: Ayes, 5. Noes, none. Excused, 2 (Kidani, Ruderman).

SCRep. 34 (Joint) Human Services and Commerce, Consumer Protection, and Health on S.B. No. 511

The purpose and intent of this measure is to:

- (1) Create a child care facility inspection information oversight committee to oversee the implementation and compliance with child care facility inspection and complaint investigation posting requirements by the Department of Human Services;
- (2) Require the Department of Human Services to post certain child care facility inspection records on the Department's website;
- (3) Require the Department of Human Services to publish reports of child care facility inspections occurring on or after January 1, 2018, and complaint investigations on the Department's website;
- (4) Require the Department of Human Services to submit an annual report to the Legislature on child care facility inspections and complaint investigations; and

- (5) Appropriate funds for the implementation of and compliance with the reporting requirements for child care facilities.

Your Committees received testimony in support of this measure from the Hawaii Children's Action Network and two individuals. Your Committees received comments on this measure from the Department of Human Services.

Your Committees find that because many parents must work full time, infant child care is a necessity for many local families. Through the Department of Human Services, the State regulates and inspects these child care facilities to ensure that all children are safe and healthy. Requiring the Department of Human Services to post its inspection records of child care facilities on its website and establishing an oversight committee to oversee the posting requirements may help bring assurance to families who require child care services.

Your Committees have amended this measure by:

- (1) Adding a member of the Senate and member of the House of Representatives to the child care facility inspection information oversight committee;
- (2) Reinstating the language that authorized, rather than mandated, the Department of Human Services to post certain child care facility records on the Department's website;
- (3) Requiring the Department of Human Services to post reports for all inspections of child care facilities within thirty working days, rather than within five working days, of the conclusion of the inspection; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Human Services and Commerce, Consumer Protection, and Health that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 511, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 511, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Human Services: Ayes, 3. Noes, none. Excused, 2 (Tokuda, Wakai).

Commerce, Consumer Protection, and Health: Ayes, 4. Noes, none. Excused, 3 (Ihara, Kidani, Ruderman).

SCRep. 35 (Joint) Human Services and Housing on S.B. No. 171

The purpose and intent of this measure is to appropriate funds to the Department of Human Services for continued implementation of the State's housing first program and expansion of the program outside of Oahu to assist residents who are chronically homeless.

Your Committees received testimony in support of this measure from Partners in Care; Family Life Center, Inc.; Catholic Charities Hawai'i; Hope Services Hawaii, Inc.; Americans for Democratic Action Hawai'i; Hawaii Habitat for Humanity; Land Use Research Foundation of Hawaii; Bridging the Gap; Hawaii Appleseed Center for Law and Economic Justice; Ho'omana Pono, LLC; and six individuals. Your Committees received comments on this measure from the Governor's Coordinator on Homelessness and Department of Human Services.

Your Committees find that the housing first program has proven its success in many states as a way to more effectively address the chronically homeless. Chronically homeless individuals are often the most visible — living in our neighborhoods, doorways, and under bridges. These persons experience homelessness over a long period of time and incur very significant public costs. Continuing the housing first program and expanding the program outside of Oahu will ensure that homeless persons across the State receive assistance in gaining permanent housing and services needed to keep them in housing and successfully transition off the streets.

As affirmed by the records of votes of the members of your Committees on Human Services and Housing that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 171 and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Human Services: Ayes, 3. Noes, none. Excused, 2 (Tokuda, Wakai).

Housing: Ayes, 3. Noes, none. Excused, 2 (Kahele, Keith-Agaran).

SCRep. 36 (Joint) Human Services and Housing on S.B. No. 749

The purpose and intent of this measure is to require the Department of Human Services to:

- (1) Use twenty percent of its annual Medicaid budget for housing-related services and other permanent supportive services for homeless individuals with mental illness or substance use disorders; and
- (2) Seek a section 1115 waiver and other approvals from the Centers for Medicare and Medicaid Services to use Medicaid funds to assist homeless individuals with mental illness or substance use disorders.

Your Committees received testimony in support of this measure from Ho'omana Pono, LLC, and one individual. Your Committees received testimony in opposition to this measure from the Department of Human Services. Your Committees received comments on this measure from the Governor's Coordinator on Homelessness.

Your Committees find that homelessness continues to be one of the State's most significant and challenging social problems. Homeless persons face a myriad of issues, including general health issues, mental illness, and substance abuse. By allocating resources for housing-related services and other supportive services for homeless individuals with serious health care needs, homeless individuals will be able to obtain health care in a timely manner and lessen the impact they have on the general population through the costs of social and health care services.

As affirmed by the records of votes of the members of your Committees on Human Services and Housing that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 749 and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Human Services: Ayes, 3. Noes, none. Excused, 2 (Tokuda, Wakai).

Housing: Ayes, 3. Noes, none. Excused, 2 (Kahele, Keith-Agaran).

SCRep. 37 (Joint) Human Services and Housing on S.B. No. 5

The purpose and intent of this measure is to establish and appropriate funds for the housing program for homeless individuals with chronic disease.

Your Committees received testimony in support of this measure from Hawai'i Pacific Health and one individual. Your Committees received comments on this measure from the Governor's Coordinator on Homelessness and Department of Human Services.

Your Committees find that homeless persons are often in poor health and found to be suffering from several chronic diseases. Because health and homelessness are intertwined, assisting homeless persons with multiple chronic diseases in finding housing is critical. Further, homelessness exacerbates already ill individuals, so by identifying chronically ill persons and providing them with housing, the State can help end the cycle that reinforces poverty and illness.

Your Committees have amended this measure by inserting an effective date of July 1, 2050, to encourage further discussion.

As affirmed by the records of votes of the members of your Committees on Human Services and Housing that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 5, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 5, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Human Services: Ayes, 3. Noes, none. Excused, 2 (Tokuda, Wakai).

Housing: Ayes, 3. Noes, none. Excused, 2 (Harimoto, Kahele).

SCRep. 38 Commerce, Consumer Protection, and Health on S.B. No. 396

The purpose and intent of this measure is to:

- (1) Require a mortgagee or record assignee to provide to a mortgagor or borrower, upon full satisfaction of a mortgage and discharge of the secured debt, a reassignment or release of security interests in leases and rents that served as additional security for the mortgage;
- (2) Authorize title insurers or underwritten title companies to reassign or release mortgagees' security interests in leases and rents on behalf of the mortgagee or record assignee under certain conditions; and
- (3) Authorize certain entities to institute an action in any circuit court to obtain the release or reassignment instrument in the absence of compliance of a mortgagee or record assignee.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources, Hawaii Financial Services Association, Hawai'i Association of REALTORS, and one individual. Your Committee received testimony in opposition to this measure from one individual.

Your Committee finds that lenders may secure loans to a borrower through a mortgage and through an assignment of the borrower's rights in leases and rents. These security interests are generally recorded in the Bureau of Conveyances and the Office of the Assistant Registrar of the Land Court. Once a loan is paid in full and satisfied, the parties to the loan generally record a release of the mortgage but sometimes fail to record a release or reassignment of the security interest in leases and rents. As a result, many of these recorded assignments of leases and rents remain on the public record and continue to be found in subsequent title searches involving a property, even though these assignments are no longer enforceable.

Your Committee further finds that title insurers and underwritten title companies are authorized to execute the release of a satisfied mortgage in certain circumstances; however, there is no corresponding mechanism for clearing the public record of the assignments of leases and rents. Accordingly, this measure amends the procedure for clearing titles to included reassignments or releases of leases and rents, which will enable title companies to better facilitate the clearing of extraneous security interests on titles to real property from the public record.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 396 and recommends that it pass Second Reading and be referred to your Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Ihara, Kidani, Ruderman).

SCRep. 39 Agriculture and Environment on S.B. No. 353

The purpose and intent of this measure is to authorize the issuance of general obligation bonds and appropriate funds for plans of a biological control containment facility on Oahu.

Your Committee received testimony in support of this measure from the Department of Agriculture, Big Island Invasive Species Committee, Hawai'i Farm Bureau, and The Nature Conservancy.

Your Committee finds that the Department of Agriculture recently released its *Hawaii Interagency Biosecurity Plan*, which states that in order for biosecurity to work, the Department of Agriculture's biocontrol program needs adequate resources, including state-of-

the-art biocontrol facilities, equipped to develop effective biocontrol for some of Hawaii's high-impact and widespread invasive species that are difficult to control through conventional methods. Your Committee finds that funding is needed to update the current, antiquated biological control containment facility into a state-of-the-art laboratory to reach the goals of the biosecurity plan.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 353 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 40 Agriculture and Environment on S.B. No. 593

The purpose and intent of this measure is to:

- (1) Require research facilities to make suitable cats and dogs that are no longer required for research available for adoption; and
- (2) Allow research facilities to contract with animal rescue organizations to facilitate the adoptions.

Your Committee received testimony in support of this measure from the Humane Society of the United States, Hawaiian Humane Society, National Anti-Vivisection Society, West Hawaii Humane Society, Poi Dogs & Popoki, Animal Rights Hawaii, and thirteen individuals.

Your Committee finds that thousands of cats and dogs are used in research each year. Although many of these animals are healthy and suitable for adoption after they are used for research purposes, most of them are euthanized. Your Committee finds that encouraging working relationships between research facilities and animal rescue organizations will save the lives of many adoptable animals.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 593 and recommends that it pass Second Reading and be referred to your Committee on Commerce, Consumer Protection, and Health.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 41 Agriculture and Environment on S.B. No. 700

The purpose and intent of this measure is to amend the offense of cruelty to animals in the first degree to include certain indigenous birds.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources, The Humane Society of the United States, Hawaiian Humane Society, West Hawaii Humane Society, and eight individuals.

Your Committee finds that the federal Endangered Species Act of 1973 and chapter 195D, Hawaii Revised Statutes, ensure the perpetuation of aquatic life, wild life, and land plants and their habitats by listing as endangered or threatened certain species of aquatic life, wild life, and land plants for protection and conservation. However, there are indigenous species, such as the Laysan albatross, that are not deemed endangered or threatened and thus are not afforded the same federal and state protections as those listed species. Your Committee further finds that after the deaths of several albatrosses at Kaena Point in December 2015, there is a need for heightened legal protections for Hawaii's indigenous birds specifically.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 700 and recommends that it pass Second Reading and be referred to your Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 42 Agriculture and Environment on S.B. No. 840

The purpose and intent of this measure is to authorize the issuance of general obligation bonds and appropriate funds for the purpose of study, design, engineering, and land acquisition for a wastewater treatment plant in Pahoa, Hawaii.

Your Committee received testimony in support of this measure from the Department of Health and three individuals.

Your Committee finds that there are approximately 50,000 cesspools located on the island of Hawaii, which can contaminate ground water, drinking water sources, streams, and oceans with disease-causing pathogens, algae-causing nutrients, and other harmful substances if improperly constructed or maintained. Your Committee finds that the construction of a wastewater treatment plant in Pahoa, Hawaii, would eventually replace many of the existing cesspools in that area and reduce potential health threats to Pahoa residents.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 840 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 43 Agriculture and Environment on S.B. No. 976

The purpose and intent of this measure is to increase the Hawaii Emergency Planning and Community Right-to-Know Act, Tier II filing fee from \$100 to \$200.

Your Committee received testimony in support of this measure from the Department of Health; Department of Transportation; Hawaii Cattlemen's Council, Inc.; Pacific Biodiesel Technologies, LLC; Alaka'i Mechanical Corporation; Par Hawaii; Island Energy Services; and four individuals.

Your Committee finds that Tier II filing fees are used by the county local emergency planning committees to conduct joint emergency planning response training, provide community outreach, purchase specialized equipment, and fund hazardous materials emergency preparedness activities. As operational and equipment costs have risen over the years, it is necessary to increase the fee to maintain the emergency preparedness and response capabilities of the county first responders that respond to hazardous materials incidents statewide.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 976 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 44 Agriculture and Environment on S.B. No. 605

The purpose and intent of this measure is to expand the general excise tax exemption for amounts received from the loading, transportation, and unloading of agricultural commodities to include cattle, goats, lambs, sheep, hogs, and chickens; beef, pork, poultry, and lamb, goat, and sheep meat; milk and milk products; eggs; and products of aquaculture and aquaponics.

Your Committee received testimony in support of this measure from the Department of Agriculture; Hawai'i Farm Bureau; Maui County Farm Bureau; Hawaii Cattlemen's Council, Inc.; Hawaii Cattle Producers Cooperative Association; Ponoholo Ranch, Limited; Meadow Gold Dairies; and three individuals. Your Committee received testimony in opposition to this measure from Animal Rights Hawaii and two individuals. Your Committee received comments on this measure from the Department of Taxation and Tax Foundation of Hawaii.

Your Committee finds that Hawaii's livestock industry faces numerous challenges, which have been contributing factors to the decline of the State's livestock industry. This measure seeks to assist Hawaii's livestock and aquaculture industries to reduce operating costs, and eventually reduce the cost of purchasing local livestock and aquaculture products by local consumers, to ensure the sustainability of Hawaii's livestock and aquaculture industries.

Your Committee has amended this measure, as recommended by the Department of Taxation, by:

- (1) Inserting a definition for "products of aquaculture or aquaponics"; and
- (2) Changing the effective date to apply to taxable years beginning after December 31, 2017.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 605, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 605, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5; Ayes with Reservations (Rhoads). Noes, none. Excused, none.

SCRep. 45 Agriculture and Environment on S.B. No. 612

The purpose and intent of this measure is to:

- (1) Appropriate funds to reimburse qualified producers of certain products for their cost of feed; and
- (2) Appropriate funds to reimburse feed developers for the costs of feed development.

Your Committee received testimony in support of this measure from the Department of Agriculture; Hawai'i Farm Bureau, Maui County Farm Bureau; Hawaii Cattlemen's Council, Inc.; Ponoholo Ranch, Limited; and Meadow Gold Dairies. Your Committee received testimony in opposition to this measure from Animal Rights Hawaii and one individual.

Your Committee finds that the cost of imported feed for livestock production is increasing because of market forces and transportation expenses, and that the rising cost of imported feed is one of the biggest challenges for the State's livestock industry. Your Committee further finds that subsidizing a feed development program in the State to help address the needs of Hawaii's livestock producers and feed developers will benefit the State's economy and help meet the State's sustainability goals.

Your Committee has amended this measure by:

- (1) As recommended by the Department of Agriculture, inserting a new section to repeal the reference to the application of documentation of animal feed development costs for costs incurred after July 1, 2016, under the qualified feed developer grant program, section 155D-2.5(b), Hawaii Revised Statutes, to be consistent with the comparable provision in the qualified producer grant program, section 155D-2(b), Hawaii Revised Statutes;
- (2) Specifying a total appropriation amount of \$2,000,000, with:
 - (A) \$1,000,000 allocated to reimburse qualified producers; and

(B) \$1,000,000 allocated to reimburse qualified feed developers; and

- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 612, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 612, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 46 Transportation and Energy on S.B. No. 658

The purpose and intent of this measure is to establish an independent airport corporation, as of July 1, 2018, to consolidate multiple jurisdictional issues amongst different departments and to improve efficiencies in Hawaii's airports system by streamlining administrative processes.

Your Committee received testimony in support of this measure from the Department of Transportation, State Procurement Office, Hawaiian Airlines, Building Industry Association of Hawaii, Hawai'i Lodging & Tourism Association, Maui Hotel & Lodging Association, Airlines Committee of Hawaii, Ko Olina Resort Operators Association, Enterprise Holdings, Airport Concessionaires Committee, Chamber of Commerce Hawaii, and two individuals. Your Committee received testimony in opposition to this measure from two individuals. Your Committee received comments on this measure from the Department of the Attorney General, Department of Budget and Finance, and Hawai'i Tourism Authority.

Your Committee finds that the economic well-being of the State is substantially dependent on the efficient development, management, and operation of its airports and air transportation infrastructure. Your Committee further finds that responsibility for Hawaii's airport planning, management, marketing, and capital development functions is currently distributed among a number of agencies, including the Department of Transportation's Airports Division, Hawaii Tourism Authority, Department of Budget And Finance, Department of Human Resources Development, Board of Land and Natural Resources, Department of Health with respect to environmental concerns, and the Office of Hawaiian Affairs with respect to ceded land issues, among others.

The Committee believes that coordinated planning and development of air transportation would be achieved more effectively by a single entity having overall consolidated jurisdiction over the State's airport infrastructure.

Your Committee has amended this measure by:

- (1) Upon the recommendation of the Attorney General, deleting the power of the Airport Corporation (Corporation) to appropriate airport funds;
- (2) Upon the recommendation of the Attorney General, exempting the Corporation and its lands from chapter 171, Hawaii Revised Statutes, which, among other things, gives the Department of Land and Natural Resources jurisdiction over the management and lease of public lands;
- (3) Clarifying that a two-thirds vote of each house of the Legislature is required to repeal the Corporation;
- (4) Increasing the number of board members to nine, to be appointed as follows: Governor to appoint five members with at least one member representing each of the islands of Hawaii, Kauai, Maui, and Oahu; and Speaker of the House of Representatives and Senate President to each appoint two members notwithstanding section 26-34, Hawaii Revised Statutes, which limits appointments of board members to the governor; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Transportation and Energy that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 658, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 658, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 47 Agriculture and Environment on S.B. No. 776

The purpose and intent of this measure is to restructure the Hawaii Invasive Species Council into a new entity, the Hawaii Invasive Species Authority, to be administratively attached to the Department of Agriculture.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources; Department of Agriculture; Department of Transportation; Department of Health; University of Hawai'i System; Democratic Party of Hawaii; Hawai'i Farm Bureau; Ka 'Ohana O Na Pua; The Nature Conservancy; Local Food Coalition; Hawaii Cattlemen's Council, Inc.; Conservation Council for Hawai'i; and three individuals. Your Committee received testimony in opposition to this measure from the Hawaii Floriculture and Nursery Association, Kauai Community Cat Project, and three individuals.

Your Committee finds that the invasion of Hawaii by insects, disease-bearing organisms, snakes, weeds, and other pests is the single greatest threat to Hawaii's economy and natural environment and to the health and lifestyle of Hawaii's people. In 2003, the Legislature created the Hawaii Invasive Species Council, an interagency board mandated to provide policy-level direction and coordination on invasive species issues, co-chaired by the Chairpersons of the Board of Land and Natural Resources and the Board of Agriculture. The authorizing legislation for the council did not create staff positions or a revenue source. Your Committee further finds that despite many successes, mitigation of invasive species threats and impacts often remains fragmented between agencies and is insufficiently supported through interagency data collection and management, public pest reporting, interagency response coordination, and statewide public outreach. Establishing the Hawaii Invasive Species Authority as an attached agency of the Department of

Agriculture and enhancing the State's invasive species prevention, early detection, rapid response, control, enforcement, and outreach programs will help protect the environment, human health, culture, and the economy.

Your Committee does not intend that this measure be applied to dogs or cats, which are governed under other statutes.

Your Committee has amended this measure by:

- (1) Clarifying that a member entity of the Hawaii Invasive Species Authority may recover expenses incurred by the entity from a non-compliant owner who causes such expenses to be incurred; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 776, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 776, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 48 (Joint) Human Services and Commerce, Consumer Protection, and Health on S.B. No. 285

The purpose and intent of this measure is to:

- (1) Continue the nursing facility sustainability program for one year; and
- (2) Appropriate funds out of the nursing facility sustainability program special fund for fiscal year 2017-2018.

Your Committees received testimony in support of this measure from the Department of Human Services, Hawaii Health Systems Corporation, East Hawaii Region of the Hawaii Health Systems Corporation, Chamber of Commerce Hawaii, The Queen's Health Systems, Healthcare Association of Hawaii, Hawai'i Pacific Health, and one individual.

Your Committees find that nursing facilities in the State face major financial challenges in providing quality long-term care for Hawaii residents. As a result, the Legislature created the nursing facility sustainability program to increase Medicaid payments to nursing facilities in recognition that Medicaid payments to nursing facilities are below the actual costs of care. The additional federal funds obtained via the fee program authorized by the nursing facility sustainability program have helped to reduce the amount of losses incurred by long-term care facilities and maintain access to care for Medicaid recipients. Because the majority of residents in Hawaii's nursing facilities are Medicaid enrollees, the nursing facility sustainability program ensures that they have access to quality care.

Your Committees have amended this measure by:

- (1) Extending the nursing facility sustainability program until June 30, 2019;
- (2) Inserting language that appropriates funds out of the nursing facility sustainability program special fund for fiscal year 2018-2019; and
- (3) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Human Services and Commerce, Consumer Protection, and Health that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 285, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 285, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Human Services: Ayes, 3. Noes, none. Excused, 2 (Tokuda, Wakai).

Commerce, Consumer Protection, and Health: Ayes, 4. Noes, none. Excused, 3 (Ihara, Kidani, Ruderman).

SCRep. 49 Education on S.B. No. 194

The purpose and intent of this measure is to require the Department of Health to accept the results of any tuberculosis test that is approved by the Food and Drug Administration and recommended by the Centers for Communicable Disease and Prevention.

Your Committee received testimony in support of this measure from ten individuals. Your Committee received comments on this measure from the Department of Health.

Your Committee finds that tuberculosis testing is a requirement for many people in the State, including children entering school, school personnel, personnel working with high risk populations, and students enrolling in higher education programs. The skin reaction tuberculosis test currently used by the Department of Health requires two visits to the doctor or medical practitioner administering the test, and can cause complications in some patients. Your Committee further finds that other tests that are approved by the Food and Drug Administration exist with fewer risks of complication. Your Committee additionally finds that the Department of Health is in the process of updating its rules to support an expanded range of approved tuberculosis tests.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 194 and recommends that it pass Second Reading and be referred to your Committee on Commerce, Consumer Protection, and Health.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Dela Cruz, Espero).

SCRep. 50 Education on S.B. No. 195

The purpose and intent of this measure is to appropriate funds to the Hawaii Teacher Standards Board for two permanent specialist positions.

Your Committee received testimony in support of this measure from the Hawaii Teacher Standards Board, University of Hawaii at Manoa College of Education, and three individuals.

Your Committee finds that the Hawaii Teacher Standards Board received monies for staffing from the general revenues of the State until 2012, at which time the source of monies for staffing was changed to a special fund. Your Committee further finds that this change significantly reduced the resources available to the Hawaii Teacher Standards Board and forced the Board to reduce staff and office space. This reduction in resources has caused hardship for the Board and complicated its mission to set high teacher licensing and credentialing standards.

This measure will provide the Board with much needed funds to hire permanent staff to help the Board fulfill its mission.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 195 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Dela Cruz, Espero).

SCRep. 51 Education on S.B. No. 197

The purpose and intent of this measure is to appropriate monies for start-up grants for newly approved, pre-opening public charter schools.

Your Committee received testimony in support of this measure from the State Public Charter School Commission, Office of Hawaiian Affairs, Hawaii Public Charter School Network, Kamalani Academy, and four individuals. Your Committee received testimony in opposition to this measure from the Hawaii State Teachers Association and IMUAlliance.

Your Committee finds that some Department of Education schools are operating at or near-full capacity, and that overcrowding in schools is a serious issue throughout the State. Public charter schools can be a crucial part of the solution to the problem of school overcrowding. Your Committee further finds that the start-up costs associated with opening a charter school are significant, even after the charter school has been approved by the State Public Charter School Commission. These start-up costs present a serious obstacle to opening charter schools to meet the needs of Hawaii's students. Funding provided by this measure will help ease the cost of opening new charter schools in the State.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 197 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Dela Cruz, Espero).

SCRep. 52 Education on S.B. No. 199

The purpose and intent of this measure is to:

- (1) Require that teacher bonuses required by statute or collective bargaining be a separate line item in a charter school's budget and not be paid out of facilities funding or per-pupil funding; and
- (2) Appropriate monies for teacher bonuses for hard-to-fill placement incentives and National Board certified teacher incentives for charter school teachers.

Your Committee received testimony in support of this measure from the State Public Charter School Commission, Office of Hawaiian Affairs, Hawaii State Teachers Association, Hawaii Public Charter Schools Network, Kamehameha Schools, Kualapu'u Public Conversion Charter School, Ho'okāko'o Corporation, and five individuals.

Your Committee finds that public charter schools rely on the dedication of their administrators, staff, and teachers to create an environment of educational excellence for students in Hawaii. Like their counterparts at Department of Education schools, teachers at public charter schools who have earned National Board certification or who teach at schools determined to be hard-to-fill are entitled to incentive bonuses. Your Committee further finds that, while the Department of Education has established a dedicated fund for incentive bonuses, public charter schools must pay these bonuses out of per-pupil funds. Your Committee additionally finds that incentive bonuses are not calculated into the monies provided for per-pupil funds, resulting in significant strain to the budgets of public charter schools. Requiring that bonuses be a line item in the state budget will help alleviate this fiscal strain on charter schools.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 199 and recommends that it pass Second Reading and be referred to your Committees on Ways and Means and Judiciary and Labor.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Dela Cruz, Espero).

SCRep. 53 Education on S.B. No. 215

The purpose and intent of this measure is to repeal the education research and development revolving fund and transfer the unencumbered balance within that fund to the general revenues of the State.

Your Committee received testimony in support of this measure from the Department of Education.

Your Committee finds that the education research and development revolving fund was established in 2001 in anticipation of the potential commercial exploitation of a special education student information system developed by the Department of Education, but that this exploitation did not occur. Section 37-52.4(4), Hawaii Revised Statutes, requires that revolving funds “[demonstrate] the capacity to be financially self-sustaining”. Your Committee further finds that the Auditor, in Auditor’s Report No. 16-11, recommended that the education research and development revolving fund be repealed because the fund could not meet that requirement.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 215 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Dela Cruz, Espero).

SCRep. 54 Education on S.B. No. 616

The purpose and intent of this measure is to:

- (1) Require that each public school has a part-time or full-time library;
- (2) Require the Department of Education to develop a plan to ensure that each school has a part-time or full-time library; and
- (3) Appropriate monies to the Department of Education.

Your Committee received testimony in support of this measure from the Hawaii State Teachers Association, Democratic Party of Hawaii, Americans for Democratic Action Hawaii, Ka Ohana O Na Pua, and twelve individuals.

Your Committee finds that a close and thorough experience with libraries is critically important to the growth and development of Hawaii’s students. Some books that students might need are not available in a digital format, and some students lack the resources to purchase all the books that they require. Your Committee further finds that many students in rural areas lack access to libraries, and some students enter high school with no library experience whatsoever.

This measure will provide funding for the Department of Education to develop a plan to ensure all students have access to a part-time or full-time library at their school.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 616 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Dela Cruz, Espero).

SCRep. 55 Education on S.B. No. 711

The purpose and intent of this measure is to appropriate monies for the Executive Office on Early Learning to enter into contracts with third party providers for family child interaction learning programs as part of a mixed-delivery early learning system to ensure school readiness of Hawaii’s children prior to entering kindergarten.

Your Committee received testimony in support of this measure from the Executive Office on Early Learning, Hawaii Children’s Action Network, Ka Ohana O Na Pua, Tūtū and Me Traveling Preschool, and more than two hundred fifty individuals.

Your Committee finds that family is a vitally important influence in the life of a child. Active participation by parents in a child’s early education is extremely beneficial for the child’s learning and development of social competence. Your Committee further finds that Family Child Interaction Learning is a robust early education model that promotes partnerships between early childhood educators and the families of participating children. Your Committee additionally finds that this measure has generated a significant amount of public support.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 711 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Dela Cruz, Espero).

SCRep. 56 Commerce, Consumer Protection, and Health on S.B. No. 390

The purpose and intent of this measure is to establish an appraisal management company registration program within the Department of Commerce and Consumer Affairs to conform to minimum standards for appraisal management companies established under federal law and regulations.

Your Committee received testimony in support of this measure from the Hawai’i Association of REALTORS, Hawaii Financial Services Association, Mortgage Bankers Association of Hawaii, Hawaii Bankers Association, Hawaii Credit Union League, Real Estate Valuation Advocacy Association, and two individuals. Your Committee received comments on this measure from the Department of Commerce and Consumer Affairs and Division of Financial Institutions of the Department of Commerce and Consumer Affairs.

Your Committee finds that appraisal management companies, commonly referred to as AMCs, are business entities that manage networks of independent appraisers who prepare appraisals on behalf of lenders. AMCs serve as intermediaries to ensure independence between the appraiser and loan originator and also perform essential functions in many residential transactions, including coordinating appraisal completion, maintaining a panel of qualified appraisers, serving as a liaison between the appraiser and lender, and performing quality control reviews of the appraisal before sending it to the lender.

Your Committee further finds that the Dodd-Frank Wall Street Reform and Consumer Protection Act of 2010 (Dodd-Frank) directed six federal financial regulatory agencies to promulgate rules that establish minimum requirements to be applied by states in the registration and supervision of AMCs. Your Committee notes that Dodd-Frank does not compel a state to establish an AMC registration and supervision program, nor does the Act penalize a State who has not established a regulatory structure within thirty-six months of issuance of the final rule regulating AMCs. However, in states that have not adopted AMC minimum requirements, AMCs are barred from providing appraisal management services for federally-related transactions, unless the AMCs are owned and controlled by a federally-regulated depository institution. According to testimony received by your Committee, the absence of state regulation may deter some lenders from offering mortgage financing in the State. This measure establishes a registration program for AMCs, thus ensuring that Hawaii's residential mortgage consumers have the widest range of financing choices available.

Your Committee notes that due to the complexity of the federal regulation over AMCs, the Department of Commerce and Consumer Affairs anticipates a need for funding to cover the costs associated with the new appraisal management company registration program established by this measure.

Your Committee has amended this measure by:

- (1) Establishing the appraisal management company registration program as a new chapter, rather than a new part in chapter 466K, Hawaii Revised Statutes;
- (2) Inserting a blank appropriation to the Department of Commerce and Consumer Affairs for personnel and startup funding associated with the appraisal management company registration program, to take effect on July 1, 2017; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 390, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 390, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Ihara, Kidani, Ruderman).

SCRep. 57 Commerce, Consumer Protection, and Health on S.B. No. 518

The purpose and intent of this measure is to require licensees under the Board of Barbering and Cosmetology to complete a one-time, one-hour training program on intimate partner violence awareness and education.

Your Committee received testimony in support of this measure from the Hawaii State Commission on the Status of Women, Hawaii Women's Coalition, Hawaii State Coalition Against Domestic Violence, American Association of University Women – Hawai'i, LGBT Caucus of the Democratic Party of Hawai'i, and four individuals. Your Committee received testimony in opposition to this measure from one individual. Your Committee received comments on this measure from the Board of Barbering and Cosmetology and Domestic Violence Action Center.

Your Committee finds that intimate partner violence is prevalent in every community and affects people regardless of age, socioeconomic status, sexual orientation, gender, race, religion, or nationality. Professionals in the grooming and beauty industry may have a unique opportunity to notice signs of abuse in their clients. These professionals often enjoy close relationships with their clients, which can put a grooming or beauty professional in the position to provide advice, resource information, and assistance.

Your Committee further finds that requiring a one-time training program on intimate partner violence will enable more grooming and beauty industry licensees to recognize the signs of intimate partner violence and potentially direct their clients to much-needed resources. Your Committee notes that requiring the training to be a three-hour course will allow more time for describing the dynamics of abuse and help licensees understand the barriers faced by survivors and the different resources available to survivors.

Your Committee has amended this measure by:

- (1) Specifying that licensees shall complete a one-time, three-hour training program on intimate partner violence awareness and education;
- (2) Clarifying that individual barber, beauty operator (including cosmetologists, hairdressers, estheticians, and nail technicians), and instructor licensees under the Board of Barbering and Cosmetology are required to attend the one-time training program; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 518, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 518, S.D. 1, and be referred to your Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 2 (Ihara, Kidani).

SCRep. 58 Commerce, Consumer Protection, and Health on S.B. No. 222

The purpose and intent of this measure is to benefit individuals with disabilities and kupuna on limited income by exempting amounts received from sales of necessary medical devices and the repair of those devices from Hawaii's general excise tax by:

- (1) Providing a general excise tax exemption for amounts received from the sale of mobility enhancing equipment, durable medical equipment, prosthetic devices, prescription drugs sold pursuant to a doctor's prescription, diabetic supplies, medical oxygen, and human blood and its derivatives; and
- (2) Expanding the definition of "prosthetic devices" to include devices that are worn on the body.

Your Committee received testimony in support of this measure from Isle Interpret and two individuals. Your Committee received comments on this measure from the Department of Taxation and Tax Foundation of Hawaii.

Your Committee finds that exempting amounts received from sales of necessary medical devices from Hawaii's general excise tax can benefit individuals with disabilities and the elderly who are on limited income. Expanding the scope of medical devices that qualify for the tax exemption will help individuals whose health care requires items such as a wheel chair, hearing aid, or pacemaker. Your Committee notes that the Department of Taxation has submitted testimony indicating that this expanded tax exemption can be implemented to apply to taxable years beginning after December 31, 2017, if the definition of "durable medical equipment" is modified to reflect the Medicare definition.

Accordingly, your Committee has amended this measure by:

- (1) Amending the definition of "durable medical equipment" to match the Medicare definition in title 42 Code of Federal Regulations section 414.202 and clarify that durable medical equipment includes bath and shower chairs, bed pans, and raised toilet seats, but does not include mobility enhancing equipment; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 222, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 222, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 2 (Ihara, Kidani).

SCRep. 59 Commerce, Consumer Protection, and Health on S.B. No. 225

The purpose and intent of this measure is to add a mandated health insurance benefit for the treatment of brain injuries, including cognitive and neurocognitive therapy, neurobehavioral and neuropsychological testing or treatment, and necessary post-acute transition services or community reintegration activities for up to twenty years from the date the injury occurred and up to a lifetime cap per person of \$300,000.

Your Committee received testimony in support of this measure from the Hawaii Disability Rights Center and four individuals. Your Committee received comments on this measure from the Department of Commerce and Consumer Affairs, Department of Human Services, Hawaii Medical Service Association, Kaiser Permanente Hawaii, American Council of Life Insurers, and American Family Life Assurance Company of Columbus.

Your Committee finds that traumatic brain injury is damage to the brain caused by an external force. Traumatic brain injury may produce a diminished or altered state of consciousness and may result in an impairment of cognitive abilities or physical functioning. Although immediate acute care for traumatic brain injury survivors has not generally been an issue, survivors face a long rehabilitation process that may not be covered by certain health insurance plans.

Your Committee has heard the concerns that this measure references a broad category of therapy and services available to survivors of an "acquired brain injury", which is itself a broad reference generally applicable to all brain injuries that occur later in life. Your Committee understands that these overly broad references may create difficulties for health insurers who need to identify diagnoses and treatments for claims and coverage purposes. Amendments to this measure are therefore needed to provide more specificity regarding the type of brain injury and treatment intended to be covered by this measure.

Your Committee further finds that a 2004 report from the Office of the Auditor reported an inconclusive finding regarding mandated coverage for cognitive rehabilitation. However, since that time, a range of studies on the treatment of traumatic brain injuries have been published. Your Committee concludes that an updated review of the 2004 Auditor's report is warranted.

Your Committee has amended this measure by:

- (1) Clarifying that the required health insurance coverage is for cognitive rehabilitation therapy for survivors of traumatic brain injury;
- (2) Amending the definition of "cognitive rehabilitation therapy" to mirror a definition developed by the Brain Injury Interdisciplinary Special Interest Group of the American Congress of Rehabilitation Medicine;
- (3) Specifying that insurers in the State shall provide coverage for cognitive rehabilitation therapy after December 31, 2018;
- (4) Specifying that coverage shall be for cognitive rehabilitation therapy that is medically necessary;
- (5) Clarifying that the proposed coverage shall not apply to limited benefit health insurance;

- (6) Requesting the Auditor, rather than the Department of Commerce and Consumer Affairs, to conduct a follow up analysis to the 2004 Auditor's report, "Assessment of Proposed Mandatory Health Insurance for Cognitive Rehabilitation" and report to the Legislature prior to the convening of the Regular Session of 2018; and
- (7) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 225, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 225, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 2 (Ihara, Kidani).

SCRep. 60 Commerce, Consumer Protection, and Health on S.B. No. 229

The purpose and intent of this measure is to appropriate funds for twelve full-time equivalent permanent positions in the Vector Control Branch of the Department of Health.

Your Committee received testimony in support of this measure from the Department of Health, Department of Land and Natural Resources, Big Island Invasive Species Committee, Hawai'i Farm Bureau, Kohala Coast Resort Association, Hawaii Government Employees Association, Hawaii Crop Improvement Association, and four individuals.

Your Committee finds that the Vector Control Branch of the Department of Health is crucial to the health and safety of Hawaii residents, and it is important to continue restoring the Branch's capacity after the loss of thirty-seven positions in 2009. In addition to preventing new human and animal diseases from becoming established within the State, the Vector Control Branch prevents the proliferation and spread of diseases such as dengue fever, which sickened hundreds of people on the Island of Hawaii in 2015 and 2016.

Your Committee notes testimony submitted by the Department of Health indicating that the Department has filled sixteen of the twenty positions authorized by the Legislature in 2016 to help rebuild the Vector Control Branch, and has completed reorganizations for all islands. Your Committee finds that funding additional positions will allow the State to suppress disease vectors before outbreaks occur and will ensure that the Department has experienced, skilled employees to handle outbreaks when they do occur.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 229 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 2 (Chang, Kidani).

SCRep. 61 Commerce, Consumer Protection, and Health on S.B. No. 405

The purpose and intent of this measure is to increase the efficiency and quality of Hawaii's early intervention services by appropriating funds for a web-based data system in the Department of Health's Early Intervention Section.

Your Committee received testimony in support of this measure from the Hawaii Children's Action Network and Transform Hawai'i Government. Your Committee received comments on this measure from the Department of Health.

Your Committee finds that early intervention services have numerous benefits for children, families, and society. A report from the Federal Reserve Bank of Minneapolis found an economic advantage of quality intervention services equal to an \$8 return for every \$1 invested in early intervention. Society benefits from healthier children, more efficient use of school services, and less use of the criminal justice system.

Your Committee further finds that the Department of Health's Early Intervention Section data system is paper-based and outdated, and lacks web-based capability for retrieving real-time data, accessibility from multiple locations, and generating reports and billing. Currently thirty-four states across the country have web-based early intervention data systems. The Department of Health provides early intervention services through twenty service providers to approximately 3,500 children each year. Your Committee finds that updating the data system will improve tracking of services and progress of each child, better serve families, and generate better outcomes for Hawaii's keiki.

Your Committee heard testimony from the Department of Health that the Department has conducted a software assessment and feasibility study to identify ways to modernize the existing software and systems. The Department testified that the next step is creation of a traceability matrix to prioritize requirements of an updated data system. Your Committee requested the Department of Health, after consulting with the Department of Human Services about potential collaboration, to submit a written plan regarding how best to begin progress toward implementing a modern, web-based early intervention data system.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 405 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 2 (Chang, Kidani).

SCRep. 62 Commerce, Consumer Protection, and Health on S.B. No. 305

The purpose and intent of this measure is to specify in state statute that video monitoring and recording of medical marijuana production centers and retail dispensing premises shall be retained for forty-five days.

Your Committee received testimony in support of this measure from the Hawaii Educational Association for Licensed Therapeutic Healthcare, Mānoa Botanicals, Cure Oahu, The Drug Policy Forum of Hawai'i, and one individual. Your Committee received testimony in opposition to this measure from the Department of Health and Department of the Prosecuting Attorney of the City and County of Honolulu.

Your Committee finds that currently state law does not specifically address video surveillance data storage retention requirements. Instead, dispensary licensees must adhere to the Department of Health's administrative rules, which require dispensary licensees to retain video surveillance recordings for a minimum of 365 days. Your Committee heard testimony describing problems with the current requirement. Specifically, retaining video surveillance recordings for 365 days may require dispensary licensees to decrease the frame capture rate of the recordings, which reduces the quality and clarity of the footage and impedes security of the facility. If a dispensary licensee does not or cannot decrease quality in the surveillance footage, the licensee may not be able to retain 365 days' worth of footage and may need to shut down operations due to non-compliance with Department rules or may need to reduce the number of surveillance cameras at the facility or utilize other data storage services that are expensive and sometimes not compatible with existing video surveillance equipment.

Your Committee recognizes that the medical marijuana dispensaries in Hawaii are not in operation yet. However, your Committee finds that the existing rule on video surveillance data storage retention is excessive and overly burdensome for dispensary licensees. Your Committee notes that medical marijuana dispensaries have been operating in other states for years and that the industry standard for video surveillance retention is between thirty and forty-five days.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 305 and recommends that it pass Second Reading and be referred to your Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 2 (Chang, Kidani).

SCRep. 63 Agriculture and Environment on S.B. No. 352

The purpose and intent of this measure is to appropriate monies to and from the agricultural loan revolving fund.

Your Committee received testimony in support of this measure from the Department of Agriculture; Hawaii Cattlemen's Council, Inc.; Hawai'i Farm Bureau; Land Use Research Foundation; and Ponoholo Ranch, Limited.

The agricultural loan program was established to assist farmers in starting new or expanding existing farm operations; however, the program lacks sufficient capital to fully implement its goals and objectives. Your Committee finds that additional funding is necessary to support the agricultural loan program and help the State progress toward its food production and sustainability goals.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 352 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Nishihara, Ruderman).

SCRep. 64 Agriculture and Environment on S.B. No. 354

The purpose and intent of this measure is to establish a temporary task force within the Department of Agriculture to create a definition for the term "bona fide agricultural producer".

Your Committee received testimony in support of this measure from the Department of Agriculture; Office of Planning; Hawai'i Farm Bureau; Maui County Farm Bureau; Hawaii Cattlemen's Council, Inc.; Ponoholo Ranch, Limited; and one individual. Your Committee received comments on this measure from the Department of Taxation.

Your Committee finds that there is no definition for "bona fide agricultural producer" in the Hawaii Revised Statutes, which has led to disagreement among policy makers and stakeholders when crafting legislation and incentives to benefit farmers. Creating a single definition or multiple definitions of "bona fide agricultural producer" may require careful and substantial amendments to the Hawaii Revised Statutes. Creating a single definition will likely require the development of standards and criteria to define what constitutes a qualifying level of performance or achievement for each category of agricultural producer and may need to be broad so as not to inadvertently exclude certain farmers. Your Committee further finds that a temporary task force under the Department of Agriculture would be ideally suited to analyze such standards and criteria in developing a definition of "bona fide agricultural producer".

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 354 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Nishihara, Ruderman).

SCRep. 65 Agriculture and Environment on S.B. No. 623

The purpose and intent of this measure is to require and appropriate funds for the Department of Agriculture to implement an aquaculture development program.

Your Committee received testimony in support of this measure from the Department of Agriculture; Hawaii Aquaculture and Aquaponics Association; Blue Ocean Mariculture; Hawaii Cattlemen's Council, Inc.; Kampachi Farms, LLC; Ponoholo Ranch, Limited; Fresh Island Fish Co., Inc.; Island Commodities Company; and six individuals.

Your Committee finds that, according to a 2010 study, approximately sixty-three percent of seafood consumed in Hawaii is imported. Seafood is an important staple in the diets of many Hawaii residents and is often sought after by Hawaii's visitors. Your Committee further finds that production of more local seafood through aquaculture will increase revenues and high-wage and skilled jobs and reduce reliance on imported seafood, while enabling the State to have greater control of product quality and work toward the State's goals of food self-sufficiency and increased local food production.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 623 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Nishihara, Ruderman).

SCRep. 66 Housing on S.B. No. 968

The purpose and intent of this measure is to authorize establishment of permanent civil service positions for the Hawaii Public Housing Authority to provide services historically and customarily performed by civil service employees in connection with creating housing opportunities for homeless individuals and others in need.

Your Committee received testimony in support of this measure from the Department of Human Resources Development, Hawaii Public Housing Authority, and United Public Workers AFSCME Local 646.

Your Committee finds that the Hawaii Public Housing Authority multi-skilled worker program is a crucial component of the State's effort to meet the critical need for public housing in Hawaii, and has reduced the amount of time required to renovate and repair public housing units. Your Committee further finds that, although funding exists for additional positions within the multi-skilled worker program, the program operates at approximately half of its staffing capacity. This measure will authorize the creation of permanent civil service positions to bring the multi-skilled worker program to full capacity.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 968 and recommends that it pass Second Reading and be referred to your Committees on Judiciary and Labor and Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Harimoto, Kahele).

SCRep. 67 Housing on S.B. No. 1111

The purpose and intent of this measure is to appropriate monies for the Hawaii Public Housing Authority to hire an additional security guard at Kalihi Valley Homes.

Your Committee received testimony in support of this measure from the Hawaii Public Housing Authority. Your Committee received testimony in opposition to this measure from Ho'omana Pono, LLC.

Your Committee finds that one of the Hawaii Public Housing Authority's greatest concerns and priorities is the safety and well-being of the tenants and staff of Hawaii's public housing projects. Your Committee further finds that security measures currently in place at Kalihi Valley Homes are not sufficient to provide a safe and secure living environment for residents. This measure will enable the Hawaii Public Housing Authority to provide additional security at Kalihi Valley Homes.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1111 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Harimoto, Kahele).

SCRep. 68 Housing on S.B. No. 1142

The purpose and intent of this measure is to:

- (1) Authorize the issuance of general obligation bonds for rental housing, mixed-use affordable rental housing, a multi-use juvenile services and shelter center, and public housing; and
- (2) Appropriate monies for public housing security improvements, renovation, and repair.

Your Committee received testimony in support of this measure from the Judiciary of the State of Hawaii, Hawaii Housing Finance and Development Corporation, Hawaii Public Housing Authority, Democratic Party of Hawaii, Hawaii Appleseed Center for Law and Economic Justice, Hawaii Association of REALTORS, Hawaii Habitat for Humanity, Catholic Charities Hawaii, Partners in Care, YWCA Oahu, Ali'i Pauahi Hawaiian, Chamber of Commerce Hawaii, and four individuals.

Your Committee finds that there is a critical shortage of affordable housing in the State. This shortage contributes to a homelessness crisis that has an especially negative impact on Hawaii's most vulnerable residents. Your Committee further finds that periods of homelessness can be particularly harmful to young persons, often resulting in a pattern of abuse or criminal activity. Your Committee additionally finds that Hawaii's existing public housing units are also in need of security improvement, renovation, and repair. This measure will provide monies for a comprehensive range of projects to improve the condition of public housing in Hawaii.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1142 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Harimoto, Kahele).

SCRep. 69 Housing on S.B. No. 912

The purpose and intent of this measure is to:

- (1) Modernize the downpayment loan program; and
- (2) Establish a downpayment loan loss reserve program to assist eligible borrowers to become first-time homebuyers.

Your Committee received testimony in support of this measure from the Department of Business, Economic Development, and Tourism; Hawaii Housing Finance and Development Corporation; Hawaii Association of REALTORS; and Mortgage Bankers Association of Hawaii.

Your Committee finds that homeownership among residents contributes to strong communities and economic growth. Your Committee further finds that one of the largest barriers to homeownership is the lack of availability of down payment assistance. The downpayment loan program was established in 1995 to assist first time homebuyers with down payment loans, but the program has been inactive for some time due to funding and outdated programmatic constraints. This measure will facilitate homeownership by updating and expanding the downpayment loan program.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 912, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 912, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Harimoto, Kahele).

SCRep. 70 Housing on S.B. No. 967

The purpose and intent of this measure is to:

- (1) Close certain areas within Hawaii Public Housing Authority projects to the public;
- (2) Permit the prosecution with criminal trespass of unauthorized entry or a violation of a written prohibition to enter into a restricted housing project; and
- (3) Clarify requirements for signage notifying trespassers of illegal entry.

Your Committee received testimony in support of this measure from the Hawaii Public Housing Authority and three individuals. Your Committee received testimony in opposition to this measure from the Department of the Prosecuting Attorney for the City and County of Honolulu and Ho'omana Pono, LLC.

Your Committee finds that criminal activity and disturbances caused by uninvited individuals are increasing in public housing projects in Hawaii. The perception that public housing projects are open to the public at all times makes these incidents difficult to prevent and resolve. Your Committee further finds that these incidents are detrimental to the safety of the residents and staff of Hawaii's public housing projects. This measure will clarify what property within public housing projects is closed to the public and assist law enforcement officers in ensuring the safety of public housing project residents and staff.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 967, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 967, S.D. 1, and be referred to your Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Harimoto, Kahele).

SCRep. 71 Education on S.B. No. 619

The purpose and intent of this measure is to require the Department of Education to create a K-12 curriculum to career pipeline initiative in collaboration with the Department of Business, Economic Development, and Tourism; Department of Labor and Industrial Relations; and University of Hawaii.

Your Committee received testimony in support of this measure from the Hawaii State Teachers Association. Your Committee received comments on this measure from the Department of Education and one individual.

Your Committee finds that a gap exists between the skills that are needed and expected by employers in the State and the current skill levels of certain sectors of the State's workforce. Employers have increasingly reported difficulties finding workers with the skills in coding, computer science, engineering, foreign languages, and other related fields to fill technology-based positions. Your Committee further finds that STEM jobs are expected to grow at an even greater rate in Hawaii than non-STEM jobs in the future. This measure will help to reduce the skills gap in the State by providing Hawaii's students with greater access to technical skill and STEM training.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 619 and recommends that it pass Second Reading and be referred to your Committees on Ways and Means and Judiciary and Labor.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 72 Education on S.B. No. 1042

The purpose and intent of this measure is to allow public school students to enroll in career and technical programs in schools outside the service area in which they reside.

Your Committee received testimony in support of this measure from the Hawaii State Teachers Association and Democratic Party of Hawaii. Your Committee received comments on this measure from the Department of Education.

Your Committee finds that career and technical education programs give students the opportunity to explore and learn through the practical application of academic and technical skills and knowledge. As such, career and technical education programs are critical to building a robust skilled workforce in the State. Your Committee further finds that while students in any given complex area have a wide variety of interests and areas of aptitude, it is impossible to offer every career and technical education program at every school. This measure will allow students to pursue career and technical programs that fit their interests even if those programs are offered in schools outside of their service area.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1042 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 73 Education on S.B. No. 1044

The purpose and intent of this measure is to appropriate monies to the Department of Education to provide engineering design process training sessions to teachers.

Your Committee received testimony in support of this measure from the Department of Education.

Your Committee finds that subject-appropriate teaching strategies and techniques are vital to teachers in their mission to provide a quality education to Hawaii's students. Your Committee further finds that, especially in STEM fields, engineering design process techniques are particularly useful in the classroom. This measure will equip Hawaii's teachers to add engineering design process principles and techniques to their classes as appropriate.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1044 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 74 Education on S.B. No. 1099

The purpose and intent of this measure is to:

- (1) Establish a service mark licensing agreement program within the Department of Education;
- (2) Authorize the Department to register service marks for Department programs and individual schools; and
- (3) Authorize the Department to enter into licensing agreements for the use of service marks and other commercial enterprises.

Your Committee received testimony in support of this measure from the Department of Education.

Your Committee finds that sponsorships and partnerships between Department schools and private entities can provide valuable resources and benefits for a broad range of educational activities, such as scholarships, field trips, sports teams, and clubs. The ability to register and license service marks and engage in other commercial activities will give Department schools the power to pursue sponsorship opportunities that support the educational mission of the school and Department. Your Committee further finds that a licensing agreement program will provide Department programs and schools a means of controlling the use of their service marks by third parties.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1099 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 75 Economic Development, Tourism, and Technology on S.B. No. 617

The purpose and intent of this measure is to support research, development, and innovation in science, technology, engineering, and mathematics by establishing a research and technology grant program to be administered by the High Technology Development Corporation.

Your Committee received testimony in support of this measure from the Hawaii Strategic Development Corporation, High Technology Development Corporation, Chamber of Commerce Hawaii, Navatek, and six individuals. Your Committee received testimony in opposition to this measure from the Hawaii Association for Industrial-Organizational Psychology. Your Committee received comments on this measure from the State Procurement Office.

Your Committee finds that fostering education and job creation in science, technology, engineering, and mathematics is vital to the State. Your Committee also finds that the Legislature appropriates funds annually to education in these fields, but that education alone will not produce the jobs necessary for Hawaii youth and residents to thrive in those fields. Therefore, your Committee finds that establishing a research and technology grant program will be a positive way to nurture and cultivate educational opportunities and innovative economic growth through supporting technology companies.

As affirmed by the record of votes of the members of your Committee on Economic Development, Tourism, and Technology that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 617 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 76 Economic Development, Tourism, and Technology on S.B. No. 762

The purpose and intent of this measure is to appropriate funds to the Department of Business, Economic Development, and Tourism to provide additional resources for the Small Business Regulatory Review Board.

Your Committee received testimony in support of this measure from the Department of Business, Economic Development, and Tourism; Small Business Regulatory Review Board; Chamber of Commerce Hawaii; The Hawaii Business League; Hawaii Cattlemens Council; Ocean Tourism Coalition; Ponoholo Ranch, Limited; and one individual.

Your Committee finds that the Small Business Regulatory Review Board serves an important function in state government by providing small business input into the rulemaking process. The Small Business Regulatory Review Board reviews, analyzes, and holds conferences regarding existing, new, and modified administrative rules. Your Committee finds that the work of the Small Business Regulatory Review Board is vital to the economy and to small businesses of Hawaii.

As affirmed by the record of votes of the members of your Committee on Economic Development, Tourism, and Technology that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 762 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 77 Economic Development, Tourism, and Technology on S.B. No. 763

The purpose and intent of this measure is to appropriate funds to the High Technology Development Corporation for the Small Business Innovation Research program to support continued innovation in the State.

Your Committee received testimony in support of this measure from the Hawaii Strategic Development Corporation; High Technology Development Corporation; Chamber of Commerce Hawaii; Hawaii Biotech, Inc.; Hawaii Evolutionary Development, LLC; Hawaii Fish Company; HNu Photonics, LLC; Hyperspective Studios, Inc.; Kolohala Holdings, LLP; Maui Food Innovation Center; Nalu Scientific, LLC; Navatek; and Oceanit Laboratories, Inc.

Your Committee finds that the High Technology Development Corporation Small Business Innovation Research program helps businesses develop technology and innovation in the State. The program matches federal Small Business Innovation Research program grants. Your Committee finds that program's grant matching system is one of the key state components in diversifying and accelerating Hawaii's innovation and economy.

As affirmed by the record of votes of the members of your Committee on Economic Development, Tourism, and Technology that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 763 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 78 Economic Development, Tourism, and Technology on S.B. No. 764

The purpose and intent of this measure is to appropriate funds to the High Technology Development Corporation for the Manufacturing Development Program.

Your Committee received testimony in support of this measure from the High Technology Development Corporation; Aloha Edibles, Inc.; Chamber of Commerce Hawaii; Diamond Bakery Company, Ltd.; First Commercial Kitchen LLC; Hawaii Fish Company; Hawaii Food Industry Association; HNu Photonics, LLC; Hyperspective Studios, Inc.; KYD, INC.; Maui Brewing Company; Meadow Gold Dairies; and three individuals. Your Committee received comments on this measure from Big Island Brewhaus LLC.

Your Committee finds that the Manufacturing Development Program has helped aid manufacturing companies in the State through its program grants. Hawaii manufacturers face challenges related to high costs of energy and shipping. Your Committee finds that program grants help manufacturing companies to invest in manufacturing equipment, training for employees on new equipment, energy efficiency, product expansion, and feasibility studies. Your Committee further finds that the continuation of the program and grants will help fuel manufacturing in Hawaii and increase the production of goods for local consumption and export.

As affirmed by the record of votes of the members of your Committee on Economic Development, Tourism, and Technology that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 764 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 79 Economic Development, Tourism, and Technology on S.B. No. 761

The purpose and intent of this measure is to appropriate funds to the Hawaii Strategic Development Corporation to continue the programs under the HI Growth Initiative.

Your Committee received testimony in support of this measure from the Hawaii Strategic Development Corporation, High Technology Development Corporation, Natural Energy Laboratory of Hawaii Authority, Chamber of Commerce Hawaii, Maui Food Innovation Center, Blue Startups, brandCrowder Inc, Comprendio, Energy Excelerator, GVS Accelerator, Hawaii Wild Side LLC, Hostfully, Reef Capital Ventures, Virtual Fantasy League Inc., and thirteen individuals.

Your Committee finds that the HI Growth Initiative is designed to achieve the state economic development objectives to transform and maintain Hawaii as a place that welcomes and facilitates innovative economic activity. Your Committee finds that the HI Growth Initiative fills a critical role in the State by providing new companies with investment and funding opportunities. Your Committee further finds that increased funding will allow the HI Growth Initiative to support accelerator programs that are the foundation of Hawaii's growing entrepreneurial ecosystem.

Your Committee has amended this measure by deleting all specific dollar amounts in the appropriation sections.

As affirmed by the record of votes of the members of your Committee on Economic Development, Tourism, and Technology that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 761, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 761, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 80 Judiciary and Labor on S.B. No. 123

The purpose and intent of this measure is to:

- (1) Repeal the requirement that the middle or last names, or any combination of such names, the middle and last name or names to be used after a marriage or civil union be legally used at any time, past or present, by either spouse or civil union partner, as applicable;
- (2) Clarify that a person is not required to change that person's middle or last name upon entering into a marriage or civil union; and
- (3) Allow parties to a marriage or civil union to choose any middle or last name to use upon entering into a marriage or civil union.

Your Committee received testimony in support of this measure from three individuals.

Your Committee finds that existing law allows spouses in a marriage or partners in a civil union to declare the middle and last names each will use as a married person or civil union partner as long as the middle or last name chosen by each was legally used at any time, past or present, by either spouse or partner. This measure reflects the current trend and practices with regard to selecting a middle or last name upon marriage or a civil union by allowing spouses or partners to choose any middle or last name or not change their names at all.

Your Committee has amended this measure by inserting an effective date of January 7, 2059, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 123, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 123, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 81 Judiciary and Labor on S.B. No. 316

The purpose and intent of this measure is to clarify that any restitution owed to fully reimburse a crime victim for the victim's losses includes expenses for mental health treatment, counseling, and therapy, and lost earnings, including paid leave.

Your Committee received testimony in support of this measure from the Department of the Prosecuting Attorney, City and County of Honolulu; Office of the Prosecuting Attorney, County of Hawaii; Hawaii State Coalition Against Domestic Violence; and two individuals. Your Committee received testimony in opposition to this measure from the Office of the Public Defender.

Your Committee finds that crime victims may experience various types of injuries other than physical injuries. Trauma from victimization can result in a range of reactions that may require immediate crisis response to prevent or mitigate long-term psychological and emotional consequences. Furthermore, victimization can result in missed work days and loss of income. This measure ensures that a crime victim is fully reimbursed for losses as a result of a crime by clarifying that restitution includes expenses for mental health treatment, counseling, and therapy, and lost earnings.

While your Committee notes that lost wages should be included in the restitution owed to a crime victim, paid leave is a benefit that not all employees are conferred and is a benefit for which the employer, rather than employee, bears the cost.

Accordingly, your Committee has amended this measure by:

- (1) Excluding paid leave as lost earnings eligible for restitution;
- (2) Inserting an effective date of January 7, 2059, to encourage further discussion; and
- (3) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 316, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 316, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 82 Agriculture and Environment on S.B. No. 416

The purpose and intent of this measure is to create an exclusion from income tax for the first \$50,000 of income earned by farmers whose annual gross income is \$200,000 or less.

Your Committee received testimony in support of this measure from the Department of Agriculture; Hawai'i Farm Bureau; and Hawaii Cattlemen's Council, Inc. Your Committee received comments on this measure from the Department of Taxation and Tax Foundation of Hawaii.

Your Committee finds that the growth of small, diversified farming businesses adds to and diversifies Hawaii's economy. Your Committee finds that the creation of an exclusion from income tax for the first \$50,000 of income earned for such businesses will encourage the growth of new, small, and diversified farming businesses, will not significantly affect tax collections by the State, and will improve the long-term economic well-being of the State.

Your Committee has amended this measure by:

- (1) Specifying that "farmer" means an individual earning more than seventy-five per cent of the individual's gross income from farm products grown and sold by the individual in the State;
- (2) Applying the exclusion to taxable years beginning after December 31, 2017; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 416, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 416, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3; Ayes with Reservations (Rhoads). Noes, none. Excused, 2 (Nishihara, Ruderman).

SCRep. 83 Agriculture and Environment on S.B. No. 554

The purpose and intent of this measure is to create an exclusion from general excise tax for the gross proceeds of a qualified small farmer from the sale of produce.

Your Committee received testimony in support of this measure from the Department of Agriculture; Hawaii Cattlemen's Council, Inc.; and Hawai'i Farm Bureau. Your Committee received comments on this measure from the Department of Taxation, Department of the Attorney General, and Tax Foundation of Hawaii.

Your Committee finds that the growth of small, diversified farming businesses adds to and diversifies Hawaii's economy. Your Committee finds that the creation of an exclusion from general excise tax for the gross proceeds of qualified small farmers will encourage the growth of new, small, and diversified farming businesses, will not significantly affect tax collections by the State, and will improve the long-term economic well-being of the State.

Your Committee has amended this measure by:

- (1) As recommended by the Department of the Attorney General, removing language that requires a "qualified small farmer" to cultivate land in the State;
- (2) As recommended by the Department of Agriculture, specifying that a "qualified small farmer" must grow produce on a parcel of land that is classified and zoned as agricultural land by the Land Use Commission and county in which it is located, respectively;
- (3) Specifying that a "qualified small farmer" must grow produce on a parcel of land no larger than nine acres;
- (4) Applying the exemption to gross income or gross proceeds received after December 31, 2017, and before January 1, 2023; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 554, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 554, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3; Ayes with Reservations (Rhoads). Noes, none. Excused, 2 (Nishihara, Ruderman).

SCRep. 84 Agriculture and Environment on S.B. No. 624

The purpose and intent of this measure is to require the Governor and Board of Agriculture to develop a strategic plan outlining benchmarks to achieve the Governor's goal of doubling food production by 2020.

Your Committee received testimony in support of this measure from the Department of Agriculture; Ka 'Ohana O Na Pua; Hawaii Center for Food Safety; Hawaii Sustainable Farms LLC; Ponoholo Ranch, Limited; and seven individuals. Your Committee received comments on this measure from the University of Hawai'i System.

Your Committee finds that Governor Ige recently set the policy goal of doubling food production by 2020; however, details on how to achieve this objective have yet to be identified. Factors including preservation of agricultural land, identification of food crops for local production, irrigation and agricultural infrastructure improvements, and compliance with the federal Food Safety Modernization Act need immediate attention in order for the goal of doubling food production by 2020 to be a realistic objective.

Your Committee has amended this measure by:

- (1) As recommended by the Department of Agriculture, replacing the Board of Agriculture with the Department of Agriculture as the entity responsible for developing the strategic plan;
- (2) Specifying that the Department of Agriculture shall submit the strategic plan, rather than a report, to the Legislature; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 624, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 624, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Nishihara, Ruderman).

SCRep. 85 Agriculture and Environment on S.B. No. 708

The purpose and intent of this measure is to prohibit:

- (1) The creation of a condominium property regime on agricultural land twenty-five acres or greater;
- (2) A condominium property regime on agricultural land from being amended to allow a residential dwelling;
- (3) The subdivision of agricultural land twenty-five acres or greater for the purpose of creating a condominium property regime; and
- (4) Any residential project created as a condominium under chapter 514B, Hawaii Revised Statutes, or a planned community association under chapter 421J, Hawaii Revised Statutes, in class A or B agricultural lands.

Your Committee received testimony in support of this measure from the Department of Agriculture; Land Use Commission; Planning Department of the County of Kaua'i; Kailua Neighborhood Board; Hawaii's Thousand Friends; and seven individuals. Your Committee received testimony in opposition to this measure from the Hawai'i Association of REALTORS; Hawaii Cattlemen's Council, Inc.; and Ponoholo Ranch, Limited. Your Committee received comments on this measure from the Office of Planning.

Your Committee finds that agricultural lands are a limited resource within the State that should be used for agricultural purposes. Currently, the condominium property regime process may be used to subdivide large agricultural lots into parcels that are too small for agricultural purposes, thus leading to the development of "gentleman farms", which are low density, large subdivisions. Your Committee further finds that this use of the condominium property regime process allows for significant abuse and costs to the State and counties, and limits the public's right to have impacts reviewed and mitigated; therefore, your Committee supports limitations on the use of the condominium property regime process on agricultural lands.

Your Committee has amended this measure by:

- (1) Inserting a purpose section to, among other things, state that the intent of this measure is to prevent "gentlemen farms" and ensure that future use of agricultural lands is for bona fide agricultural operations;
- (2) Replacing a reference to "residential project" with "a project consisting of single-family dwellings";
- (3) Stipulating that 205-4.5(a)(4), Hawaii Revised Statutes, does not apply to plantation community subdivisions permitted under section 205-4.5(a)(12), Hawaii Revised Statutes;
- (4) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 708, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 708, S.D. 1, and be referred to your Committee on Commerce, Consumer Protection, and Health.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Nishihara, Ruderman).

SCRep. 86 Agriculture and Environment on S.B. No. 781

The purpose and intent of this measure is to establish the Agricultural 2030 Investment Program and Farm to Plate Program in the State.

Your Committee received testimony in support of this measure from the Hawaii Center for Food Safety, Hawaii Farm Bureau, Maui County Farm Bureau, Farm lovers Farmers Market, and two individuals. Your Committee received comments on this measure from the Department of Agriculture.

Your Committee finds that there are historic and recent threats to the future of agriculture in the State, including the loss of sugar and pineapple plantations and dairy farms, rising energy and feed costs, the volatility of commodity markets, mainland and global competition, and climate change. There are also many signs of expansion and opportunity, especially for diversified and specialty niche farms, including organic farm operations. Your Committee finds that greater investment in agriculture will increase economic development, create jobs, improve access to healthy food, and improve biosecurity.

Your Committee has amended this measure by:

- (1) Extending the date by which the Department of Agriculture must create a strategic plan for agricultural economic development to December 1, 2018; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 781, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 781, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Nishihara, Ruderman).

SCRep. 87 Agriculture and Environment on S.B. No. 783

The purpose and intent of this measure is to extend the important agricultural land qualified agricultural cost tax credit beyond 2017 and repeal the qualification that the tax credit may only be claimed after the attractions and educational facilities tax credit for Ko Olina Resort and Marina and Makaha Resort is repealed, exhausted, or expired.

Your Committee received testimony in support of this measure from the Department of Agriculture. Your Committee received comments on this measure from the Department of Taxation and Tax Foundation of Hawaii.

Your Committee finds that the clearing of and soil restoration to fallow pineapple and sugar plantation lands can be costly to farmers wishing to use the land for agricultural purposes. This measure is intended to assist such farmers and encourage greater growth of the State's agricultural industry.

Your Committee has amended this measure by specifying that "qualified agricultural costs" include expenditures for the clearing of, removal of trees and debris from, and soil restoration to correct any nutrient deficiency that is present on, former sugar and pineapple plantation lands.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 783, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 783, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Nishihara, Ruderman).

SCRep. 88 Agriculture and Environment on S.B. No. 803

The purpose and intent of this measure is to create an income tax credit for qualified expenses incurred by qualified taxpayers to comply with the federal Food Safety and Modernization Act.

Your Committee received testimony in support of this measure from the Department of Agriculture; Hawai'i Farm Bureau; Maui County Farm Bureau; Hawaii Center for Food Safety; Hawaii Cattlemen's Council, Inc.; and one individual. Your Committee received comments on this measure from the Department of Taxation and Tax Foundation of Hawaii.

Your Committee finds that the purpose of the FDA Food Safety Modernization Act is to ensure that the United States food supply is safe by shifting the focus from responding to contamination to preventing it. Your Committee also finds that it may be difficult and costly for farmers and ranchers in the State to comply with the requirements of the FDA Food Safety Modernization Act. Your Committee believes that this measure will support Hawaii's agricultural industry by assisting farmers and ranchers with FDA Food Safety Modernization Act compliance.

Your Committee has amended this measure by:

- (1) Inserting a new section to establish the Food Safety Modernization Act special fund; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 803, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 803, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Nishihara, Ruderman).

SCRep. 89 Agriculture and Environment on S.B. No. 881

The purpose and intent of this measure is to establish in the Agribusiness Development Corporation a grant program to provide financial support for agriculture-related improvements to existing and emerging farms and agribusiness operations.

Your Committee received testimony in support of this measure from the Department of Agriculture; Agribusiness Development Corporation; Hawaii Agriculture Research Center; Hawai'i Farm Bureau; and Ponoholo Ranch, Limited.

Your Committee finds that the ability for the Agribusiness Development Corporation to issue grants will provide the means to assist local farming operations, make investments to strengthen and diversify Hawaii's agriculture, attract and retain businesses, and streamline the Corporation's operations. Your Committee further finds that a grant program may help foster partnerships to facilitate agribusiness projects and help grow Hawaii's agriculture industry.

Your Committee has amended this measure by:

- (1) Inserting a grant cap of \$100,000 per person per year;
- (2) Applying the grant cap of \$100,000 per qualified person per year to qualified entities as well; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 881, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 881, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Nishihara, Ruderman).

SCRep. 90 Agriculture and Environment on S.B. No. 162

The purpose and intent of this measure is to allow consumers to acquire raw milk and raw milk products from producers registered with the Department of Health for pet use, if certain conditions are met, including a label indicating that raw milk and raw milk products are not pasteurized and are only intended for consumption by pet animals.

Your Committee received testimony in support of this measure from Hawaii Farmers Union United, Naked Cow Dairy, Miss Rodeo Program Hawaii, Wai'anae Coast Neighborhood Board, and ten individuals. Your Committee received testimony in opposition to this measure from the Department of Health, Hawai'i Farm Bureau, and two individuals. Your Committee received comments on this measure from the Department of Agriculture.

Your Committee finds that legalization of raw milk for consumption by consumers is a growing trend throughout the United States. Thirteen states allow sales of raw milk and, with the exception of Michigan, no state expressly prohibits the sale of raw milk as animal feed. However, your Committee also recognizes the fact that the Department of Health has very serious concerns regarding the safety of raw milk.

Accordingly, your Committee has amended this measure by inserting an effective date of July 1, 2050, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 162, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 162, S.D. 1, and be referred to your Committees on Commerce, Consumer Protection, and Health and Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3; Ayes with Reservations (Rhoads). Noes, none. Excused, 2 (Nishihara, Ruderman).

SCRep. 91 Commerce, Consumer Protection, and Health on S.B. No. 332

The purpose and intent of this measure is to prohibit a commissioned notary public from accepting a limited purpose driver's license for verification of identification.

Your Committee received testimony in support of this measure from the Association of Hawaii Notaries.

Your Committee finds that limited purpose driver's licenses are not compliant with the federal REAL ID Act, are not accepted for official federal purposes, and do not establish eligibility for employment, voter registration, or public benefits. According to testimony received by your Committee, because a limited purpose driver's license fails to comply with the REAL ID Act, there may be an increased potential for the use of fraudulent documentation to obtain this type of license.

Your Committee further finds that notaries public are public officers whose duties include protecting a transaction from fraud. Notaries public should be reasonably sure that the document they are using to verify a person's identity meets standards for issuance that are equal to the minimum federal standard. Since limited purpose driver's licenses have a lower standard for issuance than the standard required for a regular driver's license, this measure specifies that commissioned notaries are prohibited from accepting this type of license for purposes of identification verification.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 332 and recommends that it pass Second Reading and be referred to your Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 2 (Kidani, Ruderman).

SCRep. 92 Commerce, Consumer Protection, and Health on S.B. No. 394

The purpose and intent of this measure is to:

- (1) Establish criminal penalties for real estate brokers for improper deposit, segregation, or disposition of client trust account funds;
- (2) Require the principal broker to report the client trust account number and name of the managing institution to the Real Estate Commission and notify the Commission of any change in account number or location within ten days; and
- (3) Authorize the Real Estate Commission to take action in circuit court to enforce client trust account requirements.

Your Committee received testimony in support of this measure from the Regulated Industries Complaints Office of the Department of Commerce and Consumer Affairs and Real Estate Commission. Your Committee received comments on this measure from one individual.

Your Committee finds that, to ensure consumers are appropriately protected, property management companies should utilize client trust accounts and have clear rules associated with the use of client trust accounts. However, your Committee notes that existing law does not contain sufficient protections to safeguard client information and funds held in client trust accounts.

Accordingly, this measure ensures greater consumer protections by creating the criminal offense of theft, with regard to client trust accounts, and requiring principal brokers to file with the Real Estate Commission the client trust account number and name of the financial institution at which the client trust account is held. This measure also enables the Regulated Industries Complaints Office to expedite investigations of alleged client trust account violations and pursue court action, in addition to existing administrative remedies, to address client trust account violations.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 394 and recommends that it pass Second Reading and be referred to your Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 2 (Kidani, Ruderman).

SCRep. 93 (Joint) Higher Education and Judiciary and Labor on S.B. No. 723

The purpose and intent of this measure is to respond to workforce needs in Hawaii by:

- (1) Adding as a purpose of the University of Hawaii Community College System the provision of occupational training and certification programs designed to rapidly qualify persons to fill new and hard-to-fill position classes of the State, counties, and private sector that require technical skills; and
- (2) Appropriating funds to the University of Hawaii for occupational training and certification programs designed to rapidly qualify persons to fill new and hard-to-fill classes of non-professional positions.

Your Committees received testimony in support of this measure from the University of Hawai'i System, Department of Human Resources Development, and one individual. Your Committees received testimony in opposition to this measure from one individual.

Your Committees find that today's economy requires colleges to continually respond to the changing technical workforce demands in order to fill emerging employment positions and upgrade the skills of existing workers to meet changing requirements of their positions. Your Committees further find that community colleges are a critical component of providing individuals with occupational and certification program career options to meet the workforce needs of the public and private sectors in Hawaii. For example, short-term, rapid response training is needed to fill informational technology positions, security service positions, health and home care positions, and agricultural positions. Therefore, your Committees find that it is important for the University of Hawaii Community College System to continue providing short-term, rapid response training to meet the continually changing requirements of the State's economy, and to make this responsibility explicit under state law.

Your Committees have amended this measure by inserting an effective date of May 12, 2059, to encourage further discussion.

As affirmed by the records of votes of the members of your Committees on Higher Education and Judiciary and Labor that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 723, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 723, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
Higher Education: Ayes, 5. Noes, none. Excused, none.
Judiciary and Labor: Ayes, 4. Noes, none. Excused, 1 (Thielen).

SCRep. 94 (Joint) Higher Education and Judiciary and Labor on S.B. No. 1112

The purpose and intent of this measure is to require the University of Hawaii at Manoa to provide its nonsupervisory blue collar employees in bargaining unit (1) and supervisory blue collar employees in collective bargaining unit (2), or one of their family members, with a tuition waiver benefit comparable to the tuition waivers provided to faculty and their family members.

Your Committees received testimony in support of this measure from United Public Workers, Hawaii Government Employees Association, and three individuals. Your Committees received testimony in opposition to this measure from the University of Hawai'i System and Office of Collective Bargaining.

Your Committees find that while faculty enjoy educational benefits such as tuition waivers, those same benefits are not afforded to the blue collar nonsupervisory employees in collective bargaining unit (1) or supervisory blue collar employees in collective bargaining

unit (2). Your Committees find that it is important to further the equitable provision of employee benefits at the University of Hawaii at Manoa. Your Committees heard testimony from the University of Hawaii expressing concerns about the cost and scope of the benefit provided in this measure as well as existing policies of the University that provide a tuition waiver to certain University employees.

Accordingly, your Committees have amended this measure by:

- (1) Inserting an effective date of May 12, 2059, to encourage further discussion; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Higher Education and Judiciary and Labor that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1112, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1112, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Higher Education: Ayes, 5. Noes, none. Excused, none.

Judiciary and Labor: Ayes, 4. Noes, none. Excused, 1 (Thielen).

SCRep. 95 Water and Land on S.B. No. 709

The purpose and intent of this measure is to appropriate funds for the operational budget of the Department of Land and Natural Resources for Nā Ala Hele, the Hawaii statewide trail and access program, to improve access to and maintenance of state controlled recreational trails, and to phase in budget increases for the Nā Ala Hele over the next five years to keep pace with inflation.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources, Sierra Club of Hawai'i, Maunawili Estates Community Association, and eleven individuals. Your Committee received comments on this measure from two individuals.

Your Committee finds that there are one hundred twenty-eight trail-and-road features spanning approximately eight hundred fifty-five miles in the statewide trail and access program. Your Committee further finds that hiking is a popular activity in Hawaii, and there is a high demand for more trails and greater and improved trail facilities and maintenance; the current volume of trail use combined with weathering necessitate a higher level of development and maintenance than is currently possible under budgeted funds. Your Committee further finds that appropriations for Nā Ala Hele have not kept pace with inflation - the 1992 budget of \$2,000,000 is the equivalent of approximately \$3,440,527.50 in 2016 dollars when adjusted for inflation - and it is in the public interest to phase in budget increases for Nā Ala Hele.

Your Committee has amended this measure by:

- (1) Stating the intent of the Legislature to continue to phase in budget increases for Nā Ala Hele and stating suggested appropriation amounts for future fiscal years;
- (2) Deleting the appropriation amounts for fiscal years 2019-2020, 2020-2021, and 2021-2022 to avoid binding future legislatures;
- (3) Inserting appropriation amounts for fiscal years 2017-2018 and 2018-2019; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 709, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 709, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 96 Water and Land on S.B. No. 990

The purpose and intent of this measure is to clarify the conditions that must be met by applicants to receive funds under the Forest Stewardship Program.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources, Office of Environmental Quality Control, Hawai'i Forest Industry Association, and one individual. Your Committee received comments on this measure from one individual.

Your Committee finds that sixty-six percent of forest lands in Hawaii are privately owned. The Forest Stewardship Program provides technical and financial assistance to private landowners and long-term leaseholders of forest lands in managing, protecting, and restoring important natural resources in Hawaii's forested and formerly forested lands. Your Committee further finds that properly managed forest resources provide vital public and private socioeconomic and environmental benefits. Your Committee further finds that the clarifications to the Forest Stewardship Program offered in this measure will reduce financial barriers to program participation by increasing reimbursement rates for the development of forest stewardship management plans, and will further increase program participation by clarifying eligibility requirements.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 990, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 990, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 97 Water and Land on S.B. No. 690

The purpose and intent of this measure is to appropriate funds to the Department of Land and Natural Resources to increase staff capacity in the Division of Forestry and Wildlife for habitat conservation.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources, Conservation Council for Hawai'i, and Americans for Democratic Action Hawai'i.

Your Committee finds that habitat conservation plans, safe harbor agreements, incidental take licenses, and subsequent actions are essential to increasing the population of threatened and endangered species in Hawaii. Your Committee further finds that there has been an increase in applications and proposals for habitat conservation plans and safe harbor agreements and additional staff is needed at the Division of Forestry and Wildlife to effectively manage, monitor, and implement the plans, agreements, and other projects that are extremely beneficial to the recovery of threatened and endangered species in Hawaii.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 690 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 98 (Joint) Judiciary and Labor and Commerce, Consumer Protection, and Health on S.B. No. 948

The purpose and intent of this measure is to allow the Division of Financial Institutions of the Department of Commerce and Consumer Affairs to employ or retain an attorney to represent or provide legal services for the Division or State on any matter rather than only mortgage loan recovery fund actions.

Your Committees received testimony in support of this measure from the Department of Commerce and Consumer Affairs.

Your Committees find that existing law allows the Division of Financial Institutions of the Department of Commerce and Consumer Affairs to employ and retain attorneys only for actions involving the mortgage loan recovery fund. However, a majority of the Division's need for attorney assistance is outside the scope of what the law permits. This measure will assist in increasing the Division's efficiency and streamlining its regulatory processes.

As affirmed by the records of votes of the members of your Committees on Judiciary and Labor and Commerce, Consumer Protection, and Health that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 948 and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
Judiciary and Labor: Ayes, 4. Noes, none. Excused, 1 (Kim).
Commerce, Consumer Protection, and Health: Ayes, 5. Noes, none. Excused, 2 (Kidani, Ruderman).

SCRep. 99 (Joint) Judiciary and Labor and Higher Education on S.B. No. 429

The purpose and intent of this measure is to adopt uniform laws to protect the online accounts of employees and students from employers and educational institutions, respectively.

Your Committees received testimony in support of this measure from the Hawai'i Civil Rights Commission, Commission to Promote Uniform Legislation, Graduate Student Organization, Internet Coalition, and two individuals. Your Committees received comments on this measure from the Department of the Attorney General, University of Hawai'i System, and American Civil Liberties Union of Hawai'i.

Your Committees find that as more individuals subscribe to social media, privacy is a growing concern. Employers increasingly ask current and prospective employees to grant the employer access to social media accounts. Likewise, many educational institutions seek to examine the social media presence of current and prospective students. The Uniform Employee and Student Online Privacy Protection Act, completed by the Uniform Law Commission in 2016, addresses employers' access to employees or prospective employees' social media and other online accounts accessed via username and password or other credentials of authentication as well as post-secondary educational institutions' access to students' or prospective students' similar online accounts. Your Committees further find that although at least seventeen states have enacted laws regarding employee and student online privacy since 2012, Hawaii is the first state to introduce this uniform legislation.

Your Committees have amended this measure by:

- (1) As recommended by the Department of the Attorney General, specifying that the Attorney General may bring a civil action in district court against an employer or educational institution in violation;
- (2) Specifying that an employee or student may bring a civil action in district court against the individual's employer or educational institution for a violation;
- (3) Inserting an effective date of January 7, 2019, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Judiciary and Labor and Higher Education that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 429, as amended herein, and recommend

that it pass Second Reading in the form attached hereto as S.B. No. 429, S.D. 1, and be referred to your Committees on Commerce, Consumer Protection, and Health and Ways and Means.

Signed by the Chairs on behalf of the Committees.
 Judiciary and Labor: Ayes, 4. Noes, none. Excused, 1 (Thielen).
 Higher Education: Ayes, 5. Noes, none. Excused, none.

SCRep. 100 (Joint) Judiciary and Labor and Higher Education on S.B. No. 406

The purpose and intent of this measure is to allow full-time graduate student assistants employed by the University of Hawaii to collectively bargain.

Your Committees received testimony in support of this measure from the University of Hawaii Professional Assembly, Hawaii Government Employees Association, International Longshore and Warehouse Union Local 142, Americans for Democratic Action, Hawaii State American Federation of Labor and Congress of Industrial Organizations, Graduate Student Organization, IMUAlliance, Hawaii Democratic Party Labor Caucus, Hawaii State Teachers Association, and sixteen individuals. Your Committees received testimony in opposition to this measure from the Office of Collective Bargaining, Department of Budget and Finance, and University of Hawai'i System.

Your Committees find that graduate student assistants employed by the University of Hawaii encounter numerous work-related issues including but not limited to budget reductions and increases in class size and workload. However, under existing law, graduate student assistants are not authorized to collectively bargain. Implementation of this measure will further higher education in the State and provide graduate student assistants employed at the University of Hawaii with a unified voice to discuss working conditions, wages, and benefits.

Your Committees have amended this measure by inserting an effective date of January 7, 2059, to encourage further discussion.

As affirmed by the records of votes of the members of your Committees on Judiciary and Labor and Higher Education that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 406, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 406, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
 Judiciary and Labor: Ayes, 4. Noes, none. Excused, 1 (Thielen).
 Higher Education: Ayes, 5. Noes, none. Excused, none.

SCRep. 101 Judiciary and Labor on S.B. No. 247

The purpose and intent of this measure is to:

- (1) Require the recount of all votes cast for any office at any election, at no cost to any candidate, when the margin of victory is less than two hundred fifty votes or less than one percent of the votes cast, whichever is less;
- (2) Require that the mandatory recount of votes be completed and results announced no later than the ninth day following the election;
- (3) Require the Chief Election Officer to adopt rules to implement a mandatory recount of votes;
- (4) Clarify that a mandatory recount of votes applies to votes counted pursuant to section 11-151, Hawaii Revised Statutes;
- (5) Include a comparison and reconciliation of the results of any mandatory recount of votes in the comparison and reconciliation upon which the certification of election results is based; and
- (6) Require that a complaint pertaining to votes subject to a mandatory recount be filed with the Supreme Court no later than thirteen days following the election.

Your Committee received testimony in opposition to this measure from two individuals. Your Committee received comments on this measure from the Office of Elections.

Your Committee finds that there have been a number of close election races in Hawaii in the past. This measure establishes a process for the automatic recounting of votes cast in the event of a close election result at no cost to the candidates.

Your Committee has amended this measure by:

- (1) Inserting an effective date of January 7, 2059, to encourage further discussion; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 247, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 247, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
 Ayes, 4. Noes, none. Excused, 1 (Kim).

SCRep. 102 Judiciary and Labor on S.B. No. 412

The purpose and intent of this measure is to:

- (1) Replace the Hawaii election campaign fund with the general revenues of the State as the funding source for the operating expenses of the Campaign Spending Commission; and
- (2) Appropriate funds to the Campaign Spending Commission for its operating expenses, including staff salaries and fringe benefits.

Your Committee received testimony in support of this measure from the Campaign Spending Commission, The Libertarian Party of Hawaii, Americans for Democratic Action Hawaii, and Common Cause Hawaii.

Your Committee finds that the operating expenses of the Campaign Spending Commission are paid out of the Hawaii election campaign fund. This fund was established for the partial public financing of campaigns in the State. However, the balance of the fund has declined steadily due to the Commission relying on the fund to support nearly all of its operating expenses. According to written testimony submitted by the Campaign Spending Commission, for the past ten fiscal years, the Commission has been operating at an average net deficit of approximately \$413,000, and the Commission's attempts to increase revenue for the fund have been unsuccessful. The Commission projects that by November 2017, the fund will be near depletion and the Commission will be unable to implement the partial public funding program for elections beginning with the 2018 election. This measure provides a steady source of funding for the operating expenses of the Campaign Spending Commission without impacting the balance of the Hawaii election campaign fund.

Your Committee has amended this measure by:

- (1) Adopting language suggested by the Campaign Spending Commission that allows the Commission to use monies from the Hawaii election campaign fund for investigative purposes if the Commission determines that its operating expenses appropriated from general revenues will be insufficient to cover the costs of investigations;
- (2) Changing the appropriation amount from \$495,506 to \$505,585 to reflect the amount for operating expenses of the Campaign Spending Commission requested under H.B. No. 100, Regular Session of 2017, as amended; and
- (3) Inserting an effective date of January 7, 2059, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 412, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 412, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Gabbard).

SCRep. 103 Education on S.B. No. 687

The purpose and intent of this measure is to:

- (1) Broaden the scope of the early learning program to include early childhood development;
- (2) Expand the function of the Early Learning Advisory Board beyond an advisory capacity and amend the composition and powers of some board members;
- (3) Allow the board to appoint and evaluate the director of the Executive Office on Early Learning; and
- (4) Amend the enrollment priority for prekindergarten.

Your Committee received testimony in support of this measure from the Executive Office on Early Learning, Hawaii Children's Action Network, Kamehameha Schools, Early Childhood Action Strategy, and two individuals.

Your Committee finds that high-quality early learning programs are beneficial to the children who participate in the programs and lead to increased success in school. Your Committee further finds that low-quality early learning programs can be significantly harmful to the development of participants. This measure will empower the Executive Office on Early Learning and the Early Learning Board to more effectively implement and support high-quality early learning programs throughout the State.

Your Committee has amended this measure by making a technical nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 687, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 687, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 104 (Joint) Agriculture and Environment and Education on S.B. No. 1195

The purpose and intent of this measure is to appropriate funds for the operations of the K-12 agriculture workforce development pipeline initiative.

Your Committees received testimony in support of this measure from the Department of Agriculture, Department of Education, Department of Labor and Industrial Relations, University of Hawai'i System, Hawai'i Farm Bureau, Hawaii Crop Improvement Association, and two individuals.

Your Committees find that Act 229, Regular Session of 2016, implemented the recommendation of the Hawaii Agriculture Workforce Advisory Board to establish the agriculture workforce development pipeline initiative to conduct training on all islands for

teachers and school administrators in agricultural self-sufficiency. Your Committees also find that financial support for the initiative is in the best interest of the State as it promotes the expansion and development of the State's agricultural workforce and industry.

As affirmed by the records of votes of the members of your Committees on Agriculture and Environment and Education that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1195 and recommend that it pass Second Reading and be referred to your Committees on Judiciary and Labor and Ways and Means.

Signed by the Chairs on behalf of the Committees.

Agriculture and Environment: Ayes, 3. Noes, none. Excused, 2 (Nishihara, Ruderman).

Education: Ayes, 4. Noes, none. Excused, 1 (Espero).

SCRep. 105 (Joint) Agriculture and Environment and Education on S.B. No. 882

The purpose and intent of this measure is to designate the month of October as "Farm to School Month in Hawaii".

Your Committees received testimony in support of this measure from the Department of Health, Department of Agriculture, Department of Education, University of Hawai'i System, Hawaii Crop Improvement Association, Hawaii Farm Bureau, and one individual.

Your Committees find that farm to school initiatives connect schools and local farms, with the objective of serving healthy meals in school cafeterias, improving student nutrition, and lowering childhood obesity. Such initiatives give students access to fresh, local foods and numerous educational opportunities. Farm to school programs already exist in schools in Hawaii, and your Committees further find that the United States Congress has designated October as National Farm to School Month. This measure would align Hawaii's farm to school policy with the national initiative and draw attention within the State to the important issue of sustainable, healthy, local food in Hawaii's schools. Your Committees additionally find that the average age of commercial farmers in Hawaii is over sixty years old; therefore, encouraging students to enter or develop the farming workforce will benefit the industry.

As affirmed by the records of votes of the members of your Committees on Agriculture and Environment and Education that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 882 and recommend that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chairs on behalf of the Committees.

Agriculture and Environment: Ayes, 3. Noes, none. Excused, 2 (Nishihara, Ruderman).

Education: Ayes, 4. Noes, none. Excused, 1 (Espero).

SCRep. 106 (Joint) Agriculture and Environment and Education on S.B. No. 807

The purpose and intent of this measure is to establish a farm to school grant program within the Department of Agriculture.

Your Committees received testimony in support of this measure from the Department of Agriculture, Department of Education, State Procurement Office, Hawaii Center for Food Safety, Hawaii Crop Improvement Association, Hawai'i Farm Bureau, Hawai'i Public Health Institute, Farm Lovers Farmers Markets, and two individuals. Your Committees received comments on this measure from the Department of Budget and Finance.

Your Committees find that farm to school activities support a nutritious school food environment and that more than eighty-five percent of the youth in Hawaii attend public schools. Students who participate in farm to school activities are more likely to be familiar with, have a preference for, and consume more fruits and vegetables at school and at home, thereby establishing healthy behaviors at an early age that may prevent the onset of chronic diseases and other health conditions later in life. Your Committees further find that participation in the farm to school program may be financially constraining for many farmers due to the high costs of compliance with federal law and regulations regarding food safety.

Your Committees have amended this measure by:

- (1) Inserting an appropriation to the Department of Education for the establishment of a farm to school coordinator position and a farm to school grant program special fund manager; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Agriculture and Environment and Education that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 807, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 807, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Agriculture and Environment: Ayes, 3. Noes, none. Excused, 2 (Nishihara, Ruderman).

Education: Ayes, 4. Noes, none. Excused, 1 (Espero).

SCRep. 107 Commerce, Consumer Protection, and Health on S.B. No. 146

The purpose and intent of this measure is to allow an administrative order to authorize psychiatric treatment over a patient's objection.

Your Committee received testimony in support of this measure from the Department of Health and Hawaii Medical Association. Your Committee received testimony in opposition to this measure from the American Civil Liberties Union of Hawai'i, Hawaii Disability Rights Center, and one individual.

Your Committee finds that it is important for the initiation of treatment for patients admitted to the Hawaii State Hospital, which is used primarily for forensic commitments, to be expedient in order to address patients' psychiatric symptoms, which often generate a

risk of safety to the patient and others. Expedient initiation of treatment will help maintain a safe and secure therapeutic environment for patients and staff, and have a positive impact on patients' length of stay.

Your Committee further finds that the current method to obtain an authorization to provide treatment over a patient's objection is by a judicial hearing. The time between petition and judicial hearing is unpredictable and is on average nearly seventeen days. Your Committee finds that other states have responded to the unpredictability and delay of waiting for court hearings by developing a non-judicial, administrative mechanism to review and authorize requests for treatment over a patient's objection. Your Committee recognizes the importance of providing the details of an administrative process for authorizing treatment over a patient's objection and believes that amendments to this measure are necessary to provide guidance for such a process.

Accordingly, your Committee has amended this measure by:

- (1) Inserting a purpose section;
- (2) Inserting language to create a new part in the Hawaii Revised Statutes to establish criteria for issuance of an administrative order for treatment over a patient's objection and criteria for an administrative authorization process to determine whether an administrative order for treatment over objection should be issued;
- (3) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 146, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 146, S.D. 1, and be referred to your Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 2 (Kidani, Ruderman).

SCRep. 108 Commerce, Consumer Protection, and Health on S.B. No. 240

The purpose and intent of this measure is to require the individuals employed as or in the role of the chief counsel and chief legal and regulatory advisor to the Public Utilities Commission to annually file a disclosure of financial interests with the State Ethics Commission.

Your Committee received testimony in support of this measure from one individual. Your Committee received testimony in opposition to this measure from the Public Utilities Commission. Your Committee received comments on this measure from the Hawaii State Ethics Commission and Life of the Land.

Your Committee finds that important matters and key policies at the Public Utilities Commission are often discussed amongst the Public Utilities Commissioners and senior staff members. This measure increases transparency by requiring a senior staff member of the Public Utilities Commission who has a significant impact on the decisions made by the Commissioners to file an annual financial disclosure.

Your Committee has heard the concerns expressed by the Public Utilities Commission that this measure would require a non-decision making staff member to be subject to a financial disclosure requirement, a requirement that is not imposed on non-decision making staff of other state boards and commissions. Your Committee understands these concerns but notes that, due to the unique nature and operations of the Public Utilities Commission, the situation with senior staff of the Commission is not analogous to senior staff of other state boards and commissions. Your Committee notes that during discussions with the Public Utilities Commission at the public hearing on this measure, the Commission indicated that it would be amenable to requiring the Executive Officer of the Commission to file a financial disclosure statement.

Accordingly, your Committee has amended this measure by:

- (1) Specifying that the individual employed as or in the role of executive officer of the Public Utilities Commission is also required to annually file a disclosure of financial interests with the State Ethics Commission;
- (2) Deleting a reference to an individual employed as or in the role of chief legal and regulatory advisor to the Commission, as the chief counsel is the individual who serves the Commission in this capacity;
- (3) Specifying that the financial disclosures filed by the executive officer and chief counsel shall be made public; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 240, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 240, S.D. 1, and be referred to your Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 2 (Kidani, Ruderman).

SCRep. 109 Commerce, Consumer Protection, and Health on S.B. No. 333

The purpose and intent of this measure is to increase notary public fees.

Your Committee received testimony in support of this measure from the Association of Hawaii Notaries.

Your Committee finds that notary public fees have not been amended since 1995. Accordingly, this measure increases the fees notaries public are entitled to demand and receive.

Your Committee has amended this measure by clarifying that the notary public fee for administration of oath also applies to affixing the certificate of oath to that document and includes up to one duplicate original.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 333, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 333, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 2 (Kidani, Ruderman).

SCRep. 110 Commerce, Consumer Protection, and Health on S.B. No. 369

The purpose and intent of this measure is to prohibit associations of apartment owners, boards of directors, managing agents, resident managers, and condominium owners from retaliating or discriminating against a condominium owner who files a complaint; acts in furtherance of a complaint, report, or investigation of an alleged violation of the State's condominium laws or a condominium's governing documents; or exercises or attempts to exercise any right as a condominium owner.

Your Committee received testimony in support of this measure from the Hawaii Council of Associations of Apartment Owners, Hui 'Oia 'i 'o, Mauna Luan, and six individuals. Your Committee received comments on this measure from two individuals.

Your Committee finds that although many condominium owners are comfortable raising condominium-related complaints or concerns to their association, its board, a managing agent, or a resident manager, this experience is not universal. Condominium owners who are not comfortable bringing up complaints or concerns may fail to do so because of a fear of retaliation. Accordingly, this measure strengthens protections for condominium owners by prohibiting condominium associations, boards, managing agents, resident managers, and other owners from retaliating or discriminating against a condominium owner who files a complaint, acts in furtherance of a complaint, report, or investigation of an alleged violation, or exercises or attempts to exercise any right as a condominium owner.

Your Committee has amended this measure by:

- (1) Extending the protections against retaliation to board members and employees of an association of apartment owners;
- (2) Inserting a definition of "retaliation";
- (3) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 369, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 369, S.D. 1, and be referred to your Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 3 (Ihara, Kidani, Ruderman).

SCRep. 111 Commerce, Consumer Protection, and Health on S.B. No. 399

The purpose and intent of this measure is to:

- (1) Increase the maximum authorized benefit per acupuncture treatment allowed under personal injury protection benefits provided through motor vehicle insurance; and
- (2) Tie increases in payments for acupuncture treatments in with annual increases, if any, to the Medicare Economic Index.

Your Committee received testimony in support of this measure from the Kailua Acupuncture Clinic; Maui Acupuncture; Windward Acupuncture; Ohana-Hale Acupuncture, Inc.; Mala Healing Arts; Institute of Clinical Acupuncture and Oriental Medicine; and nineteen individuals. Your Committee received testimony in opposition to this measure from the Department of Commerce and Consumer Affairs, Hawaii Insurers Council, Property Casualty Insurers Association of America, and GEICO. Your Committee received comments on this measure from State Farm Mutual Automobile Insurance Company.

Your Committee finds that the reimbursement rate for licensed acupuncturists has not increased in almost twenty years. Your Committee further finds that this freeze has resulted in a reimbursement rate that has not kept up with inflation or the increased costs of providing care.

Your Committee has heard the concerns that this measure would affect underlying costs in certain areas of motor vehicle insurance. However, your Committee does not believe that enabling licensed acupuncturists to be compensated appropriately, like other health care providers, will be a significant cost-driver for motor vehicle insurance rates in Hawaii. Your Committee notes that tying acupuncture benefits to the charges permissible under the Workers' Compensation Supplemental Medical Fee Schedule will ensure that licensed acupuncturists are able to receive appropriate reimbursement for their services.

Your Committee has amended this measure by:

- (1) Repealing the ceiling for the authorized benefit per acupuncture treatment allowed under personal injury protection benefits;

- (2) Deleting the language that would have tied increases in payments for acupuncture treatments to any annual increases to the Medicare Economic Index;
- (3) Specifying that the authorized benefit for acupuncture treatments allowed under personal injury protection benefits shall be tied to the charges, and any subsequent increases in charges, permissible under the Workers' Compensation Supplemental Medical Fee Schedule;
- (4) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (5) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 399, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 399, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 3 (Ihara, Kidani, Ruderman).

SCRep. 112 Housing on S.B. No. 377

The purpose and intent of this measure is to establish an income tax credit for taxpayers who lease housing to certain low-income tenants.

Your Committee received comments on this measure from the Department of Taxation and Tax Foundation of Hawaii.

Your Committee finds that there is a shortage of affordable housing in the State, including a lack of affordable rental property. Your Committee further finds that one contributing factor to the lack of affordable rental housing is the high costs of property ownership, which encourage many landlords to enter into interval or short-term rentals rather than workforce-eligible rentals. This measure will incentivize landlords to offer workforce-eligible rentals by providing a tax credit that will reduce the costs of affordable rental property ownership.

Your Committee has amended this measure by:

- (1) Specifying the amount of the tax credit as ten percent of rent collected per housing unit, per month, up to a maximum of \$2,000 per taxpayer per year;
- (2) Removing the residency requirement for the tax credit;
- (3) Changing the maximum income for an eligible tenant to eighty percent of the area median income;
- (4) Applying the credit to taxable years beginning after December 31, 2017; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 377, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 377, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Harimoto, Nishihara).

SCRep. 113 Ways and Means on S.B. No. 1234

The purpose and intent of this measure is to correct an error in the Supplemental Appropriations Act of 2016.

Specifically, this measure clarifies that the county affiliated with the construction for which funds were appropriated to the Kahoolawe Island Reserve Commission is the County of Maui, not the County of Hawaii.

Your Committee received testimony in support of this measure from the Department of Budget and Finance, the Kahoolawe Island Reserve Commission, and one individual.

Your Committee finds that the intent of Act 124, Session Laws of Hawaii 2016, section 5, item D-14, was to appropriate funds for the plans and design of the Kahoolawe Island Reserve Commission education center, exhibit area/visitor center, and administrative building in Kihei, Maui. The amendment made by this measure will correct an inadvertent error in Act 124 to clarify that the Kahoolawe Island Reserve Commission is affiliated with the County of Maui, instead of the County of Hawaii.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1234 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 8. Noes, none. Excused, 3 (Harimoto, Taniguchi, Wakai).

SCRep. 114 Hawaiian Affairs on S.B. No. 55

The purpose and intent of this measure is to effectuate the title of this Act.

Prior to the hearing on this measure, your Committee posted and made available for public review a proposed S.D. 1, which amends this measure by deleting its contents and replacing it with language to:

- (1) Designate kalo as the official state food dish; and
- (2) Designate the month of June as "Lū'au Month" in Hawaii.

Your Committee has amended this measure by adopting the proposed S.D. 1.

As affirmed by the record of votes of the members of your Committee on Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 55, as amended herein, and recommends that it be recommitted to your Committee on Hawaiian Affairs, in the form attached hereto as S.B. No. 55, S.D. 1, for further consideration.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (English).

SCRep. 115 (Joint) Commerce, Consumer Protection, and Health and Human Services on S.B. No. 531

The purpose and intent of this measure is to appropriate funds to the Executive Office on Aging for the Healthy Aging Partnership Program to further the program's vital role in improving the health and well-being of Hawaii's kupuna.

Your Committees received testimony in support of this measure from the Executive Office on Aging; Hawaii Family Caregiver Coalition; Maui County Office on Aging; Elderly Affairs Division of the Department of Community Services, City and County of Honolulu; AARP Hawaii; Policy Advisory Board for Elder Affairs; International Longshore and Warehouse Union Local 142 Hawaii; and seven individuals.

Your Committees find that the Healthy Aging Partnership Program aims to improve the health of older adults and empower them to stay healthy, active, and socially engaged. The program serves as an important link between clinical support for patients and community resources for lifestyle change. Your Committees further find that the program operates two evidence-based intervention programs that have demonstrated that older adults with chronic conditions and their caretakers benefit by focusing on self-management as an integral method to avoiding long term complications from chronic conditions.

Your Committees also find that the Healthy Aging Partnership Program is a worthwhile investment for the State, as preventing disease and disability is far less expensive than resulting health and social services for persons needing treatment. Your Committees note testimony by the Executive Office on Aging that there is no funding to sustain the program beginning in fiscal year 2017-2018 and without additional funding the program may no longer be able to offer certain existing programs to Hawaii's seniors.

As affirmed by the records of votes of the members of your Committees on Commerce, Consumer Protection, and Health and Human Services that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 531 and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
Commerce, Consumer Protection, and Health: Ayes, 5. Noes, none. Excused, 2 (Kidani, Ruderman).
Human Services: Ayes, 4. Noes, none. Excused, 1 (Tokuda).

SCRep. 116 (Joint) Commerce, Consumer Protection, and Health and Human Services on S.B. No. 536

The purpose and intent of this measure is to support longer, healthier lives for Hawaii's kupuna by appropriating funds to the Department of Health for a fall prevention and early detection coordinator position.

Your Committees received testimony in support of this measure from the Elderly Affairs Division of the Department of Community Services, City and County of Honolulu; Maui County Office on Aging; AARP Hawaii; Project Dana; International Longshore and Warehouse Union Local 142 Hawaii; and three individuals. Your Committees received comments on this measure from the Department of Health.

Your Committees find that falls are among the leading causes of hospitalization and severe injury among the elderly. On average for Hawaii, 85 seniors die, 1,960 are hospitalized, and 8,700 are treated in emergency departments as a result of falls every year. Although a preventable occurrence, falls can seriously affect the quality of life for the elderly and also impact healthcare costs for the community. In Hawaii, falls among older adults result in almost \$1,200,000 in hospital and physician charges.

Your Committees further find that Act 153, Session Laws of Hawaii 2014, established a fall prevention and early detection coordinator position within the Department of Health's Emergency Medical Services and Injury Prevention System Branch but only funded the position for the 2014-2015 fiscal year. Your Committees recognize that fall prevention programs and services need continued support in order to serve Hawaii's kupuna and address this important public health issue.

As affirmed by the records of votes of the members of your Committees on Commerce, Consumer Protection, and Health and Human Services that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 536 and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
Commerce, Consumer Protection, and Health: Ayes, 5. Noes, none. Excused, 2 (Kidani, Ruderman).
Human Services: Ayes, 4. Noes, none. Excused, 1 (Tokuda).

SCRep. 117 (Joint) Commerce, Consumer Protection, and Health and Human Services on S.B. No. 528

The purpose and intent of this measure is to support Hawaii's constantly growing aging population by appropriating funds to the Department of Health for the Kupuna Care Program.

Your Committees received testimony in support of this measure from the Executive Office on Aging; Maui County Office on Aging; Elderly Affairs Division of the Department of Community Services, City and County of Honolulu; Alzheimer's Association, Aloha Chapter; Healthcare Association of Hawaii; AARP Hawaii; Lanakila Pacific; Catholic Charities Hawaii; Child and Family Service; Policy Advisory Board for Elder Affairs; International Longshore and Warehouse Union Local 142 Hawaii; and sixteen individuals.

Your Committees find that the Kupuna Care Program assists frail adults age sixty and older with leading independent, meaningful, and dignified lives by providing a continuum of home and community based services and supports. In 2015, the program served 4,872 kupuna in Hawaii, providing these seniors with access to a consistent continuum of care as their access to resources, their support systems, and individual capacity change over time. Your Committees received testimony from the Executive Office on Aging indicating that without the requested funding, the Kupuna Care Program would have to reduce services by forty-four percent and would only be capable of serving 2,744 seniors.

Your Committees find that the Kupuna Care Program aims to allow Hawaii's kupuna to age in place and prevent or delay the need for restrictive levels of care. Keeping seniors healthy and at home is the most cost-effective way to address the rapidly increasing population of adults age sixty and older in the State. Your Committees further find that the Kupuna Care Program utilizes a comprehensive person-centered approach, and has core services to support individuals in need of assistance to perform daily activities but also has participant-directed services that allow kupuna to exercise decision-making authority over how to use their allotment of public funds. Funding the Kupuna Care Program is crucial to allowing Hawaii's seniors to remain in the community and will enable the Executive Office on Aging to target and triage additional clients according to each individual's vulnerability by utilizing tools developed statewide for targeting public supports to persons in greatest need.

As affirmed by the records of votes of the members of your Committees on Commerce, Consumer Protection, and Health and Human Services that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 528 and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Commerce, Consumer Protection, and Health: Ayes, 5. Noes, none. Excused, 2 (Kidani, Ruderman).

Human Services: Ayes, 4. Noes, none. Excused, 1 (Tokuda).

SCRep. 118 (Joint) Commerce, Consumer Protection, and Health and Human Services on S.B. No. 533

The purpose and intent of this measure is to support long-term supports and services for older adults, individuals with disabilities, and family caregivers by appropriating funds for the aging and disability resource center.

Your Committees received testimony in support of this measure from the Executive Office on Aging; State Council on Developmental Disabilities; Maui County Office on Aging; Elderly Affairs Division of the Department of Community Services, City and County of Honolulu; Healthcare Association of Hawaii; AARP Hawaii; Catholic Charities Hawai'i; Lanakila Pacific; Hawai'i Pacific Health; Child and Family Service; Policy Advisory Board for Elder Affairs; International Longshore and Warehouse Union Local 142 Hawaii; and eight individuals.

Your Committees find that the aging and disability resource center helps individuals and their families identify their long-term services and support needs based on a person-centered process. The center assists people with understanding service options, including the publicly funded services through kupuna care, and works with them to implement a comprehensive support plan. Your Committees further find that proper funding for the aging and disability resource center is essential to ensure the center is an effective single point of entry for individuals seeking information about appropriate long-term care options.

Your Committees also find that the funding appropriated in this measure will allow the aging and disability resource center to build capacity, the county area agencies on aging to operate their aging and disability resource center sites, implement fully functional status statewide in accordance with federal requirements, and integrate participant-directed supports. The aging and disability resource center has linked 7,254 older adults to publicly funded long-term services and supports. Your Committees note that in 2016 there was an eighteen percent increase in calls to the center as compared to the year prior. Your Committees find that funding is needed for the aging and disability resource center to manage an anticipated increase in volume of calls and implementation of important programs that help Hawaii's seniors, individuals with disabilities, and family caregivers.

As affirmed by the records of votes of the members of your Committees on Commerce, Consumer Protection, and Health and Human Services that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 533 and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Commerce, Consumer Protection, and Health: Ayes, 5. Noes, none. Excused, 2 (Kidani, Ruderman).

Human Services: Ayes, 4. Noes, none. Excused, 1 (Tokuda).

SCRep. 119 (Joint) Commerce, Consumer Protection, and Health and Human Services on S.B. No. 2

The purpose and intent of this measure is to require all health insurance plans in the State, including health benefits plans under chapter 87A, Hawaii Revised Statutes, and Medicaid managed care programs, to provide coverage for the treatment for homelessness, beginning January 1, 2018.

Your Committees received testimony in support of this measure from The Queen's Health Systems; Hawai'i Association for Industrial-Organizational Psychology; Ho'omana Pono, LLC; and four individuals. Your Committees received comments on this measure from the Governor's Coordinator on Homelessness, Department of the Attorney General, Department of Commerce and Consumer Affairs, Department of Human Services, and Hawaii Medical Service Association.

Your Committees find that there is an integral link between health and housing, especially for individuals who are chronically homeless. Without housing, individuals often struggle to address their health conditions, while people who are unable to address their health challenges often struggle to obtain and retain housing. Furthermore, the costs to the entire continuum of care, including hospitals, long-term care facilities, and home-based services, for treating the State's homeless population continue to increase. Your Committees also find that ensuring the availability of quality health care and preventive services can successfully mitigate increased future demand for high cost medical services.

However, your Committees have heard the concerns that the health care system of providers, health plans, and hospitals, whose primary mission is the delivery of health care services, are not currently organized or structured in a way to appropriately address some of the relevant factors of homelessness, such as housing, employment, and economic status. Your Committees understand these concerns and conclude a different approach to the treatment for homelessness is necessary.

After discussions, your Committees have concluded that the Auditor should be directed to perform an impact assessment study on the use of Medicaid funds to provide coverage for the treatment for homelessness, including the costs to provide coverage for chronically homeless individuals. Your Committees note that a study by the Auditor is the necessary next step in a potentially transformative approach for the treatment for homelessness in Hawaii.

Accordingly, your Committees have amended this measure by:

- (1) Deleting language that would have required all health insurers in the State, including private insurers, health benefits plans under section 87A, Hawaii Revised Statutes, and Medicaid managed care programs, to provide coverage for the treatment of homelessness, beginning January 1, 2018;
- (2) Requiring the Auditor to conduct a study to assess the impact of using Medicaid funds to provide coverage for the treatment of homelessness, including the costs to provide coverage for the chronically homeless population in the State;
- (3) Requiring the Auditor to submit findings and recommendations, including any proposed legislation, to the Legislature no later than twenty days prior to the convening of the Regular Session of 2018; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Commerce, Consumer Protection, and Health and Human Services that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Commerce, Consumer Protection, and Health: Ayes, 5. Noes, none. Excused, 2 (Nishihara, Ruderman).

Human Services: Ayes, 3. Noes, none. Excused, 2 (Harimoto, Tokuda).

SCRep. 120 (Joint) Commerce, Consumer Protection, and Health and Human Services on S.B. No. 534

The purpose and intent of this measure is to accommodate Hawaii's rapidly growing elderly population and their caregivers by:

- (1) Requiring the Executive Office on Aging to establish the Kupuna Caregivers Program to assist community members in obtaining care for elders while remaining in the workforce;
- (2) Clarifying the kupuna services and supports provided by Area Agencies on Aging within the Kupuna Care Program and making establishment of the Kupuna Care Program mandatory; and
- (3) Appropriating funds for the establishment and implementation of the Kupuna Caregivers Program.

Your Committees received testimony in support of this measure from the Executive Office on Aging; Office of Hawaiian Affairs; Hawaii State Commission on the Status of Women; Hawaii Public Health Association; Healthcare Association of Hawaii; Hawaii Family Caregiver Coalition; Native Hawaiian Health Task Force; Maui County Office on Aging; Alzheimer's Association, Aloha Chapter; American Association of University Women, Hawaii; Caring Across Generations; American Congress of Obstetricians and Gynecologists, Hawaii Section; Mental Health America of Hawai'i; AARP Hawaii; Paraprofessional Healthcare Institute; Faith Action for Community Equity; Hagadone Printing; Hawai'i Pacific Health; International Longshore and Warehouse Union Local 142 Hawaii; and forty-one individuals.

Your Committees find that Hawaii's aging population continues to grow, and along with it the need for long-term services and supports becomes more critical. The State's population of individuals age sixty-five and older is projected to rise to 19.4 percent of the population by 2020 and twenty-three percent of the population by 2030.

Your Committees further find that family caregivers play a vital role in the State's healthcare system by providing long-term care to kupuna. Hawaii's family caregivers are invaluable, yet caregiving places burdens on families financially, emotionally, and physically; over time, these burdens can lead to chronic stress. It is common for children to return home to care for their aging parents and caregivers to abandon careers in the process and make other sacrifices because often the only alternative is expensive institutional care. Your Committees note the large amount of supportive testimony for this measure, and the overwhelming consensus from the community that family caregivers need support and respite in order to continue the critical role they play in helping others and the State by caring for Hawaii's seniors.

Your Committees have amended this measure by:

- (1) Adding language to the definition of "care recipient" indicating that a "care recipient" under the Kupuna Caregivers Program does not include individuals covered by any comparable government or private home and community based care services;
- (2) Inserting language clarifying that traditional service delivery of kupuna care services and supports shall be through a service provider organization or person who provides services to clients under a formal contractual arrangement with the Executive Office on Aging or Area Agency on Aging;
- (3) Removing references to Kupuna Care Program's person-centered planning being the Executive Office on Aging's process and inserting language requiring that a participant's assessed needs that have been identified through the person-centered process be documented in the support plan;

- (4) Inserting language establishing that to qualify for the Kupuna Care Program an individual shall not be covered by any comparable government or private home and community based care services;
- (5) Inserting language clarifying that to qualify for the Kupuna Care Program an individual shall not reside in any assisted living facility, including all care programs of assisted living;
- (6) Inserting language to provide details about the assessment process for kupuna care services, including that upon completion of the in-home assessment, the individual shall develop a written, individualized person-centered support plan that identifies all of the services and supports needed or currently used to meet the individual's needs, and that the plan shall be reviewed with the individual;
- (7) Inserting a provision requiring Area Agencies on Aging to directly authorize and allot kupuna care services and prohibiting the agencies from delegating the service authorization function to any subcontractors;
- (8) Inserting language to establish that individuals shall be ineligible for kupuna care services when they do not meet specified eligibility requirements, their need is not substantiated through an in-home assessment, they leave the State or their whereabouts are unknown, or they refuse services;
- (9) Inserting provisions requiring Area Agencies on Aging to provide written notice of the disposition of requests for kupuna care services and allowing individuals who have been determined to be ineligible for kupuna care services the opportunity to appeal the disposition to the Director of the Executive Office on Aging within ninety days;
- (10) Clarifying and amending various definitions used for services provided through the Kupuna Caregivers Program, Kupuna Care Program, or both, including but not limited to the following amendments:
 - (A) Inserting language to clarify that the definition of "adult day care" or "adult day health" under the Kupuna Care Program means personal care for dependent elders and typically includes social and recreational activities, training, counseling, and services such as rehabilitation, medication assistance, and home health aide services for adult day health;
 - (B) Replacing the kupuna care core service of nutrition and meal delivery with home delivered meals and defining "home delivered meals" as a meal provided to a qualified individual in the individual's place of residence; provided that the meal is served in a program administered by the state unit on aging or an Area Agency on Aging and meets all of the requirements of the Older Americans Act of 1965 as amended, and all state and local laws;
 - (C) Removing language that included hands-on-the-body support in the definition of the kupuna care core service of "personal care"; and
 - (D) Deleting the definition of "qualified individual" from the kupuna care program section of the Hawaii Revised Statutes; and
- (11) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Commerce, Consumer Protection, and Health and Human Services that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 534, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 534, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Commerce, Consumer Protection, and Health: Ayes, 5. Noes, none. Excused, 2 (Kidani, Ruderman).

Human Services: Ayes, 4. Noes, none. Excused, 1 (Tokuda).

SCRep. 121 (Joint) Commerce, Consumer Protection, and Health and Human Services on S.B. No. 530

The purpose and intent of this measure is to support the Long-Term Care Ombudsman Program by appropriating funds to the Office of the Long-Term Care Ombudsman to support the services on Oahu and provide funds for contracted services through the Office of the Long-Term Care Ombudsman in the counties of Hawaii, Kauai, and Maui.

Your Committees received testimony in support of this measure from the State Long Term Care Ombudsman, Maui County Office on Aging, AARP Hawaii, Kokua Council, International Longshore and Warehouse Union Local 142 Hawaii, and eight individuals. Your Committees received comments on this measure from the Executive Office on Aging.

Your Committees find that the Office of the Long-Term Care Ombudsman Program is a federally and state mandated program that lacks sufficient resources to fulfill its responsibilities and adequately protect the 12,340 long-term care residents in Hawaii. Your Committees find that Hawaii is the only state in the country with a Long-Term Care Ombudsman Program staff of one, and that according to a 1995 recommendation by the Institute of Medicine, Hawaii should have a minimum of six full-time long-term care ombudsmen.

Your Committees note that the responsibilities and logistics of the Long-Term Care Ombudsman Program have become even more challenging since 1995 because today's residents live in many different types of facilities, whereas historically most residents lived in nursing homes. While the program certifies and utilizes volunteers, recruiting and retaining volunteers take considerable resources, and volunteers cannot substitute for a full-time, highly trained staff position. Your Committees recognize that Hawaii's seniors have been negatively impacted by the insufficient staffing of the Long-Term Care Ombudsman Program. Your Committees find that this program is essential to ensuring that the State's long-term care facilities are safe for Hawaii's kupuna and that older adults across the State have access to the services they need.

Your Committees have amended this measure by:

- (1) Inserting language to establish one permanent, full-time program specialist IV position on Oahu within the Executive Office on Aging's Long-Term Care Ombudsman Program and clarifying that the appropriation of \$75,000 for the Office of the Long-Term Care Ombudsman to be distributed to the City and County of Honolulu is to fund that position; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Commerce, Consumer Protection, and Health and Human Services that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 530, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 530, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Commerce, Consumer Protection, and Health: Ayes, 5. Noes, none. Excused, 2 (Kidani, Ruderman).

Human Services: Ayes, 4. Noes, none. Excused, 1 (Tokuda).

SCRep. 122 Public Safety, Intergovernmental, and Military Affairs on S.B. No. 955

The purpose and intent of this measure is to:

- (1) Subject the Office of Homeland Security to the direction and control of the Governor;
- (2) Add the Hawaii State Fusion Center as a program under the Office of Homeland Security; and
- (3) Establish the position of Hawaii State Fusion Center Director, who shall be responsible to the Director of Homeland Security and shall manage the day-to-day operations of the fusion center.

Your Committee received testimony in support of this measure from the Department of Human Services, Department of Transportation, Office of Homeland Security, Hawaii Emergency Management Agency, Honolulu Police Department, and one individual.

Your Committee finds that the Hawaii Fusion Center, which is one of many fusion centers that have been established across the nation, has been a vital resource for the State, serving as a center for federal, state, and county agencies to coordinate their efforts in receiving and sharing important security information. As security threats increase, it is essential that the State maintains the ability to coordinate the efficient and effective sharing of security information across all levels of government. Accordingly, this measure establishes the Hawaii State Fusion Center within the Department of Defense Office of Homeland Security and establishes the position of Hawaii State Fusion Center Director to be appointed by the Director of Homeland Security.

Your Committee has amended this measure by:

- (1) Clarifying that the Governor has direct control and oversight over the Director of Homeland Security by removing the amendments made to section 128A-3, Hawaii Revised Statutes;
- (2) Clarifying that the Hawaii State Fusion Center Director shall be paid through state funds; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 955, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 955, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 123 Public Safety, Intergovernmental, and Military Affairs on S.B. No. 717

The purpose and intent of this measure is to establish a temporary program to clean up debris and litter left behind on state real property by persons who have illegally camped or lodged on state real property and to establish a temporary sheriff patrol program to enforce laws against illegally camping, trespassing, or being present on state real property.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources and one individual. Your Committee received comments on this measure from the Department of the Attorney General, Department of Public Safety, Department of Accounting and General Services, and Governor's Coordinator on Homelessness.

Your Committee finds that illegal camping, trespassing, or being present on state real property and the debris and litter left behind by the occupants of illegal encampments on state real property are significant problems that negatively impact the health, safety, and welfare of the State's citizens. The State currently lacks an efficient means of addressing illegal camping, trespassing, or being present on state real property and their associated problems. Therefore, this measure establishes a temporary program for cleaning the litter and debris left behind by illegal campers, establishes a temporary sheriff patrol program to enforce laws against illegal camping on state real property, and appropriates funds for the programs.

However, your Committee understands the concerns raised by the Attorney General that mandating the deputy sheriffs to cite or arrest an illegal camper on state real property may violate constitutional requirements or other legal protections. Accordingly, your Committee has amended this measure by:

- (1) Replacing the provision mandating that the deputy sheriffs "shall cite or arrest the violator" with language mandating that the deputy sheriffs "shall take appropriate steps necessary in accordance with the law"; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 717, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 717, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 124 Public Safety, Intergovernmental, and Military Affairs on S.B. No. 634

The purpose and intent of this measure is to expedite the review, update, and adoption of the Uniform Plumbing Code as it relates to the Hawaii State Building Codes.

Your Committee received testimony in support of this measure from the State Fire Council, Kaua'i Fire Department, and Hawaii Fresh Water Initiative. Your Committee received testimony in opposition to this measure from the General Contractors Association of Hawaii.

Your Committee finds that the conservation and reuse of water are vital components in the continued maintenance of an adequate fresh water supply for the State. One important part of conserving and reusing water is the timely adoption of amendments to the State's Uniform Plumbing Code. Accordingly, this measure aims to expedite the review, update, and adoption of the Uniform Plumbing Code as it relates to the Hawaii State Building Codes. Specifically, this measure requires the State Building Code Council to adopt amendments to the Uniform Plumbing Code within one year after publication of an updated Uniform Plumbing Code by the International Association of Plumbing and Mechanical Officials and requires each county to subsequently adopt the Council's Uniform Plumbing Code amendments within one year. This measure further provides that if a county does not amend the Hawaii state building codes, which include the Uniform Plumbing Code, within the designated time frame, then the Hawaii state building codes shall become the interim county building code.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 634, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 634, S.D. 1, and be referred to your Committees on Commerce, Consumer Protection, and Health and Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 125 Public Safety, Intergovernmental, and Military Affairs on S.B. No. 1036

The purpose and intent of this measure is to:

- (1) Clarify that failure to register a firearm within the required time period does not relieve the owner of the duty to register the firearm; and
- (2) Allow the owner of an unregistered firearm to register the firearm thereafter without penalty.

Your Committee received testimony in support of this measure from the Honolulu Police Department and three individuals. Your Committee received testimony in opposition to this measure from the Institute for Rational and Evidence-based Legislation and one individual. Your Committee received comments on this measure from the National Rifle Association Hawaii and two individuals.

Your Committee finds that the goal of ensuring that all firearms in the State are registered by its owner is vital to protecting the public's health, safety, and welfare. Registration is particularly important for nonresident aliens who may bring firearms into the State. The current law lacks sufficient clarity in providing guidance regarding firearms owners' duties to register their firearms even after the deadline to register has passed. In addition, to further ensure that all firearms are properly registered, it is important to provide ample opportunity for owners to accomplish registration and to also eliminate any sense that owners will be punished for coming forward late to register their firearms.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1036, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1036, S.D. 1, and be referred to your Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 126 Public Safety, Intergovernmental, and Military Affairs on S.B. No. 421

The purpose and intent of this measure is to:

- (1) Establish requirements, guidelines for the use and discontinuance of use, restrictions, and prohibitions for body-worn cameras and vehicle cameras for law enforcement officers;
- (2) Establish retention and deletion requirements for body-worn camera footage;
- (3) Establish violations of recording and retention requirements;

- (4) Appropriate funds as a grant-in-aid to each county for the purchase of body-worn video cameras and law enforcement vehicle cameras; provided that no funds shall be expended unless matched dollar-for-dollar by the county; and
- (5) Require the county police departments to report costs of implementing and maintaining the body-worn camera and vehicle camera program to the Legislature.

Your Committee received testimony in support of this measure from the Office of Information Practices, American Civil Liberties Union of Hawai'i, Hawaii Chapter Society of Professional Journalists, Libertarian Party of Hawaii, and one individual. Your Committee received testimony in opposition to this measure from the Department of Public Safety, Hawai'i Police Department, Maui Police Department, and Civil Beat Law Center for the Public Interest. Your Committee received comments on this measure from the State of Hawaii Organization of Police Officers.

Your Committee finds that body-worn video cameras and vehicle cameras have become important tools in documenting and affecting interactions between law enforcement officers and members of the public. Body-worn video cameras and vehicle cameras can lead to greater transparency and accountability for law enforcement officers, which can help alleviate some of the growing concern among the public about the appropriateness of certain actions, particularly those that are physical or lethal in nature. In addition, body-worn video cameras and vehicle cameras are beneficial to law enforcement officers because the use of cameras can provide supporting evidence when officers are required to employ forceful tactics.

Your Committee has heard the testimony of the State of Hawaii Organization of Police Officers and notes the following concerns raised by that testimony. Section 52D-B(d)(2), Hawaii Revised Statutes, proposed by this measure, allows the "apparent crime victim" to require law enforcement to turn off the body-worn camera. However, this may be problematic given that the "apparent crime victim" may actually be the suspect. In addition, section 52D-G(a)(2) and (3), Hawaii Revised Statutes, of this measure creates a rebuttal presumption for criminal defendants and those seeking damages from the State or county that exculpatory evidence was destroyed or not captured in compliance with section 52D-E, Hawaii Revised Statutes, of this measure or as the result of the officer's intentional interference. The concern is that an officer may never be able to prove that missing footage was the result of an equipment error or battery outage. Your Committee finds that these concerns merit further consideration.

Your Committee has amended this measure by:

- (1) Inserting a blank appropriation to the Department of Public Safety for costs incurred by the Department or other state agencies relating to the purchase of body-worn video cameras and law enforcement vehicle cameras for use by state law enforcement officers; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 421, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 421, S.D. 1, and be referred to your Committees on Judiciary and Labor and Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 127 Public Safety, Intergovernmental, and Military Affairs on S.B. No. 520

The purpose and intent of this measure is to amend the composition of the county police commissions to require that three commissioners on each police commission be the Executive Director of the State Commission on the Status of Women, Executive Director of the Hawaii Civil Rights Commission, and an individual with prior experience in law enforcement.

Your Committee received testimony in support of this measure from the Hawaii State Commission on the Status of Women, American Association of University Women Hawaii, Domestic Violence Action Center, Planned Parenthood Votes Northwest and Hawaii, and one individual. Your Committee received testimony in opposition to this measure from the Office of the Mayor of the City and County of Honolulu and one individual.

Your Committee finds that the protection of women's rights and individual civil rights, which are vital to the health, safety, and welfare of the public, is an issue of statewide concern. The county police commissions, who oversee the conduct of the county police departments and officers, have tremendous influence in shaping and directing the policies intended to protect women's rights and individual civil rights. Therefore, it is important that the county police commissions include members who are experienced in law enforcement and have backgrounds in the protection of women's rights and individual civil rights.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 520 and recommends that it pass Second Reading and be referred to your Committees on Judiciary and Labor and Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 128 Public Safety, Intergovernmental, and Military Affairs on S.B. No. 424

The purpose and intent of this measure is to:

- (1) Require police departments to disclose to the Legislature the identity of an officer upon the officer's second suspension in a five-year period or discharge; and
- (2) Require disclosure under the Uniform Information Practices Act after a police officer's second suspension in a five-year period.

Your Committee received testimony in support of this measure from the Office of Information Practices, League of Women Voters of Hawaii, Society of Professional Journalists Hawaii Chapter, and Hawaii State Coalition Against Domestic Violence. Your Committee received testimony in opposition to this measure from the State of Hawaii Organization of Police Officers and Civil Beat Law Center for the Public Interest.

Your Committee finds that disclosing the identities of police officers who are suspended twice within a five-year period serves the public interest. Transparency and accountability of police officers are of great importance in maintaining the public's confidence in law enforcement, and a healthy relationship between police and the public is essential for maintaining the health, safety, and welfare of the public.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 424 and recommends that it pass Second Reading and be referred to your Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 129 Public Safety, Intergovernmental, and Military Affairs on S.B. No. 230

The purpose and intent of this measure is to appropriate funds to the Hawaii Emergency Management Agency for the purpose of supporting community resilience and preparedness programs.

Your Committee received testimony in support of this measure from the Hawaii Emergency Management Agency and two individuals.

Your Committee finds that community resilience and preparedness programs are vital components of emergency preparedness and response throughout the State. Accordingly, this measure appropriates \$100,000 to the Hawaii Emergency Management Agency for the purpose of supporting community resilience and preparedness programs including the Hawaii Hazards and Resilience Program and the Community Emergency Response Team Program.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 230 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 130 Public Safety, Intergovernmental, and Military Affairs on S.B. No. 604

The purpose and intent of this measure is to extend the lapse date for a \$1,000,000 appropriation made by Act 134, Session Laws of Hawaii 2013, as amended, for the mitigation of hazardous situations statewide from June 30, 2017, to June 30, 2019.

Your Committee received testimony in support of this measure from the Department of Transportation and the Hawaii Emergency Management Agency.

Your Committee finds that mitigating hazardous situations statewide before an emergency situation occurs is vital to maintain the health, safety, and welfare of the public. In 2014, the Legislature appropriated funds for the mitigating hazardous situations program to mitigate hazards in the State before those hazards could create serious damage. The program has proven effective at minimizing damage resulting from hazardous situations. Accordingly, this measure would extend the lapse date of the appropriations made for mitigating hazardous situations by two years from June 30, 2017, to June 30, 2019.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 604 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 131 Water and Land on S.B. No. 1150

The purpose and intent of this measure is to prohibit the use of sunscreens and cosmetics containing oxybenzone at beaches in Hawaii or in the ocean.

Your Committee received testimony in support of this measure from the Department of Health, Office of Hawaiian Affairs, Democratic Party of Hawai'i, Conservation Council of Hawai'i, Nature Conservancy Hawai'i, For the Fishes, Malama O Puna, Animal Rights Hawai'i, Hawaii Fishing and Boating Association, Eco Tipping Points Project, Haereticus Environmental Laboratory, Sarah's Sweet Scrubs, and seven individuals. Your Committee received testimony in opposition to this measure from the Personal Care Products Council and Consumer Healthcare Products Association. Your Committee received comments on this measure from the Department of Land and Natural Resources and one individual.

Your Committee heard varied testimony on this measure. Hawaii would be the first state to enact a ban on oxybenzone-based products, and the science regarding the possibly damaging effects of oxybenzone on coral reefs is a work in progress. Furthermore, there are concerns that enforcement of the ban would prove challenging, and the use of sunscreen overall should be encouraged for personal health and well-being. However, Hawaii's marine environment and natural resources serve as a cultural, socioeconomic, and scientific foundation of our islands, and should be protected and preserved. Your Committee finds that this measure deserves further attention and study as it advances through the legislative process.

Your Committee has amended this measure by:

- (1) Inserting an exception for prescription sunscreen, sunblock, and cosmetics; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1150, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1150, S.D. 1, and be referred to your Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Kim, Thielen).

SCRep. 132 Water and Land on S.B. No. 1079

The purpose and intent of this measure is to appropriate funds for permitting, design, and construction of two comfort stations at Makena State Park.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources and one individual.

Your Committee finds that Makena State Park is the fifth most visited park in the state parks system, with over 600,000 anticipated visitors in 2017. There are currently no permanent sanitation facilities at the park, and your Committee finds that a sanitary waste management solution is imperative for the protection of public health. The Department of Land and Natural Resources has initiated a project to construct two permanent comfort stations to address this issue, at a total cost of approximately \$5,000,000.

Your Committee has amended this measure by making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1079, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1079, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Kim, Thielen).

SCRep. 133 Water and Land on S.B. No. 289

The purpose and intent of this measure is to authorize the issuance of general obligation bonds and appropriate funds for construction of a new ferry pier at the Lahaina small boat harbor.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources and Ocean Tourism Coalition.

Your Committee finds that the Lahaina small boat harbor is the busiest small boat harbor in Hawaii, and a new ferry pier is necessary to efficiently and safely support the high volume of use and to alleviate existing congestion at the public loading dock. Furthermore, the project is shovel-ready and eligible for \$12,500,000 in matching federal funds.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 289, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 289, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Kim, Thielen).

SCRep. 134 Water and Land on S.B. No. 1136

The purpose and intent of this measure is to appropriate funds for the Land Use Commission to establish a staff position to monitor and ensure compliance with conditions regarding land use within the four major land use districts.

Your Committee received testimony in support of this measure from the Land Use Commission, Conservation Council of Hawai'i, and one individual.

The Land Use Commission (LUC) has approved eight hundred petitions for redistricting since 1963, often with conditions attached to protect the public welfare and Native Hawaiian rights and assets. The LUC currently lacks adequate staff to monitor compliance with the conditions attached to their decisions, and those conditions are only enforceable by the LUC prior to substantial commencement of construction of a project. Your Committee finds that a Planner IV position at the LUC is necessary to monitor compliance and timely respond to issues of noncompliance with land use decisions.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1136, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1136, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Kim, Thielen).

SCRep. 135 Public Safety, Intergovernmental, and Military Affairs on S.B. No. 517

The purpose and intent of this measure is to require state and county agencies to provide domestic abuse intervention training to their personnel whose job duties require or may require intervention in domestic abuse situations.

Your Committee received testimony in support of this measure from the Office of the Prosecuting Attorney, County of Kauai; Office of the Prosecuting Attorney, County of Hawaii; Hawaii State Commission on the Status of Women; American Association of University Women Hawaii; Domestic Violence Action Center; Hawaii Women's Coalition; Young Progressives Demanding Action; Hawaii State Coalition Against Domestic Violence, and two individuals. Your Committee received testimony in opposition to this measure from the Department of the Prosecuting Attorney for the City and County of Honolulu. Your Committee received comments on this measure from the Department of Public Safety.

Your Committee finds that domestic abuse poses a grave threat to the health, safety, and welfare of the public. As our understanding of domestic abuse and the ways in which domestic abuse situations should be handled continues to evolve, it is essential that personnel encountering domestic abuse have the proper training necessary to successfully handle those situations. Accordingly, this measure requires any state or county agency that employs personnel whose job duties require or may require intervention in a domestic abuse situation to provide those personnel with targeted training for domestic abuse intervention.

Your Committee has amended this measure by replacing the fifteen-hour minimum domestic abuse intervention training requirement with an unspecified minimum number of training hours.

Your Committee respectfully requests that your Committees on Judiciary and Labor and Ways and Means determine the appropriate minimum training hour requirement for state or county employees whose job duties require or may require them to intervene in a domestic abuse situation.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 517, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 517, S.D. 1, and be referred to your Committees on Judiciary and Labor and Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 136 Government Operations on S.B. No. 1277

The purpose and intent of this measure is to allow minutes at public agency meetings to be kept by written or recorded means.

Your Committee received testimony in support of this measure from the Honolulu Liquor Commission. Your Committee received testimony in opposition to this measure from the League of Women Voters of Hawaii. Your Committee received comments on this measure from the Civil Beat Law Center for Public Interest and Life of the Land.

Your Committee finds that current law requires boards and commissions to keep written minutes of all meetings. Allowing boards and commissions the flexibility to make their minutes available through analog or digital means may reduce some expense for boards and commissions to comply with the law for public agency meetings. In addition, your Committee finds that allowing minutes to be kept by analog or digital means will enhance the public's ability to access board minutes, and notes that the minutes must still be available within the current thirty-day requirement.

Your Committee has amended this measure by:

- (1) Inserting a provision that if minutes are kept by analog or digital means, a written summary of the recording shall accompany the recording; and
- (2) Inserting an effective date of July 1, 2050, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1277, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1277, S.D. 1, and be referred to your Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Ruderman, Tokuda).

SCRep. 137 Hawaiian Affairs on S.B. No. 467

The purpose and intent of this measure is to enact the Office of Hawaiian Affairs Appropriations Act of 2017.

Your Committee received testimony in support of this measure from the Office of Hawaiian Affairs; Hawaiian Affairs Caucus of the Democratic Party of Hawai'i; Ko'olau Foundation; Ko'olaupoko Hawaiian Civic Club; Na Lei Na'auao; and numerous individuals.

Your Committee finds that upon statehood in 1959, section 5(f) of the Admission Act directed the State to hold lands in trust for five purposes, one of which was the betterment of the conditions of Native Hawaiians. In 1978 a Constitution Convention reviewed and revised the responsibilities of Hawai'i's government. Among the provisions incorporated into the new state constitution was the establishment of the Office of Hawaiian Affairs (OHA), as a public trust with mandates to better the conditions of Native Hawaiians and the Native Hawaiian community in general. In 1979, the Legislature enacted Chapter 10, Hawai'i Revised Statutes, which created OHA as a semi-autonomous self-governing body.

OHA's mission is to malama (protect) Hawai'i's people, environmental resources, and assets, toward ensuring the perpetuation of the culture, the enhancement of lifestyle, and the protection of entitlements of Native Hawaiians, while enabling the building of a strong and healthy Hawaiian people and nation, recognized nationally and internationally. OHA is the principal public agency in the State responsible for the betterment of conditions of Native Hawaiians; the performance, development, and coordination of programs

and activities relating to Native Hawaiians; assessing the policies and practices of other agencies impacting Native Hawaiians; conducting advocacy efforts for Native Hawaiians; and serving as a receptacle for reparations.

Your Committee further finds that OHA's services include the vital beneficiary programs of education, economic development, health, and legal services. Your Committee further finds that any loss of government funding to beneficiary programs and the organizations that serve them will cause an increased demand for supplemental funding for OHA to ensure that the health, education and other daily needs of beneficiaries are met. Experience indicates that reduced state appropriations have created a reduction in beneficiary assistance, from non-OHA programs, including but not limited to reductions in: emergency financial assistance programs; case management services which assist beneficiaries to access community resources; clinicians providing mental health and substance abuse counseling and support; and health monitoring/navigation programs that assist those with chronic disease to get needed medical care.

As affirmed by the record of votes of the members of your Committee on Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 467 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Kim).

SCRep. 138 Commerce, Consumer Protection, and Health on S.B. No. 950

The purpose and intent of this measure is to make various updates to the mortgage servicers law, chapter 454M, Hawaii Revised Statutes, including:

- (1) Requiring the Commissioner of Financial Institutions to approve a change in control of a licensee;
- (2) Identifying when an individual is presumed to control a mortgage servicer;
- (3) Clarifying which persons associated with a mortgage servicer are subject to interviews and examination and various disclosure requirements; and
- (4) Adding a definition for "executive officer".

Your Committee received testimony in support of this measure from the Division of Financial Institutions of the Department of Commerce and Consumer Affairs.

Your Committee finds that mortgage servicers in Hawaii service billions of dollars of mortgage payments each year. Mortgage servicers often have relationships with borrowers that can last thirty years or more and can have a direct impact on what is often a consumer's largest asset. This measure requires the Commissioner of Financial Institutions to approve a change in control of a licensee; enables the Commissioner to make certain determinations regarding the fitness of the person who will obtain control and the impact of the change in control on the public interest; and enhances consumer protection by specifying when an individual is presumed to control a mortgage service, which will help prevent a takeover of a licensed mortgage service by unqualified persons. Your Committee further finds that this measure makes the State's mortgage servicer law more effective and efficient, improves compliance within the mortgage servicer industry, and enhances the Division of Financial Institution's regulatory oversight and enforcement abilities.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 950, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 950, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 2 (Ihara, Kidani).

SCRep. 139 Commerce, Consumer Protection, and Health on S.B. No. 325

The purpose and intent of this measure is to allocate ten percent of tax revenues collected from medical marijuana dispensaries to the mental health and substance abuse special fund.

Your Committee received testimony in support of this measure from the Hawaii Substance Abuse Coalition, Drug Policy Forum of Hawai'i, and one individual. Your Committee received comments on this measure from the Department of Budget and Finance, Department of Taxation, Department of Health, Tax Foundation of Hawaii, Department of the Prosecuting Attorney of the City and County of Honolulu, and Hawaii Children's Action Network.

Your Committee finds that the mental health and substance abuse special fund was established by the Legislature in 1991 to deposit revenue collected from treatment programs rendered by mental health and substance abuse programs and to expend the revenues for operating expenses of the treatment programs. Your Committee further finds that mental health and substance abuse programs are underfunded, and that additional resources are needed to continue serving Hawaii's residents who cannot afford necessary mental health and substance abuse services. Your Committee notes the Department of Health's testimony that monies in the mental health and substance abuse special fund are used to serve adults and youth with severe mental illness.

Your Committee has amended this measure by:

- (1) Inserting language to clarify that the ten percent allocation of medical marijuana dispensaries tax revenues applies to the annual general excise tax revenues and the gross income generated by each entity that holds a medical marijuana dispensary license; and
- (2) Inserting language to specify that monies deposited into the mental health and substance abuse special fund from tax revenues collected from medical marijuana dispensaries may be used for the payment of the operating expenses of mental health and substance abuse programs operated by the State.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 325, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 325, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 2 (Chang, Kidani).

SCRep. 140 Commerce, Consumer Protection, and Health on S.B. No. 979

The purpose and intent of this measure is to remove the requirement of a conspiracy of two or more persons as an element of prohibited discriminatory practices in places of public accommodation.

Your Committee received testimony in support of this measure from the Hawai'i Civil Rights Commission.

Your Committee finds that under existing law, it is not a violation for a place of public accommodation, or a person acting alone, to: engage in retaliation for opposition to discrimination; aid, abet, incite, or coerce discriminatory practices; or willfully obstruct or prevent compliance with the public accommodations law, in the absence of a conspiracy of two or more persons. This measure removes that conspiracy requirement, which will ensure that the public is protected against retaliation for opposing discriminatory in places of public accommodation and that anyone who aids, abets, incites, or coerces discriminatory practices or obstructs or prevents compliance with the public accommodations law can be held responsible.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 979 and recommends that it pass Second Reading and be referred to your Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 2 (Ihara, Kidani).

SCRep. 141 (Joint) Agriculture and Environment and Higher Education on S.B. No. 355

The purpose and intent of this measure is to make an appropriation for the sustainable and organic agriculture program administered by the University of Hawaii College of Tropical Agriculture and Human Resources.

Your Committees received testimony in support of this measure from the Department of Agriculture; University of Hawai'i System; Hawaii Farmers Union United; Hawai'i Farm Bureau; Hawaii Aquaculture and Aquaponics Association; EcoTipping Points Project; Aina Ho'okupu o Kilauea; Farm Lovers Farmers Markets; Kahuku Farms, Inc.; Kakalina Farms LLC; and thirty-three individuals. Your Committees received testimony in opposition to this measure from one individual.

Your Committees find that across the State farmers are experimenting with different ways of producing agricultural products that are sustainable and beneficial to the social, economic, and environmental well-being of farm families and rural communities. Your Committees further find that the sustainable and organic agriculture program at the University of Hawaii College of Tropical Agriculture and Human Resources is committed to increasing awareness and adoption of sustainable and organic practices across the State while addressing the challenges of creating more profitable farm incomes, environmental stewardship, and stable and prosperous farm communities. Your Committees find that supporting the growth of the sustainable and organic agriculture program will strengthen the organic industry in Hawaii and reduce the volume of imported organic products and invasive species that may be found on imported organic produce.

As affirmed by the records of votes of the members of your Committees on Agriculture and Environment and Higher Education that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 355 and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
Agriculture and Environment: Ayes, 4. Noes, none. Excused, 1 (Nishihara).
Higher Education: Ayes, 5. Noes, none. Excused, none.

SCRep. 142 (Joint) Agriculture and Environment and Higher Education on S.B. No. 228

The purpose and intent of this measure is to make an appropriation for the research, development, and marketing of 'ulu, or breadfruit.

Your Committees received testimony in support of this measure from the Department of Agriculture, University of Hawai'i System, Hawaii Ulu Producers Cooperative, Breadfruit Institute at the National Tropical Botanical Garden, Hawai'i Farm Bureau, Hawaii Farmers Union United, Aina Ho'okupu o Kilauea, Farm Lovers Farmers Markets, The Kilauea Bakery & Pau Hana Pizza, and twenty-eight individuals.

Your Committees find that breadfruit, or 'ulu, is a traditional Hawaiian crop with unrecognized potential as an agricultural commodity. It is rich in nutritional content, can be easily grown in Hawaii, and can be used to create gluten-free products. Your Committees find that supporting development of an 'ulu industry will help revive the harvesting of 'ulu and create a valuable commercial crop that will increase food security and self-sufficiency in Hawaii.

As affirmed by the records of votes of the members of your Committees on Agriculture and Environment and Higher Education that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 228 and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Agriculture and Environment: Ayes, 4. Noes, none. Excused, 1 (Nishihara).

Higher Education: Ayes, 5. Noes, none. Excused, none.

SCRep. 143 (Joint) Human Services and Commerce, Consumer Protection, and Health on S.B. No. 512

The purpose and intent of this measure is to require all child care providers subject to regulation by the Department of Human Services to:

- (1) Obtain and maintain liability insurance as a condition of licensure, temporary permission, or registration; and
- (2) Appropriately disclose information related to their liability insurance coverage to parents or guardians applying for child care or whose child is being cared for by the providers.

Your Committees received testimony in support of this measure from the Hawaii Children's Action Network and two individuals. Your Committees received comments on this measure from the Department of Human Services.

Your Committees find that because many parents must work full time, child care is a necessity for many local families. Through the Department of Human Services, the State regulates and inspects these child care facilities to ensure that all children are safe and healthy. Requiring all licensed or registered child care providers to obtain and maintain liability insurance coverage may help bring assurance to families who require child care services and allow opportunities for legal recourse for parents whose children are not properly cared for.

Your Committees have amended this measure by:

- (1) Inserting a blank minimum amount, rather than amount to be determined by the Department of Human Services, for the amount of liability insurance coverage required by child care providers to obtain and maintain as a condition of licensure, temporary permission, or registration to operate a child care facility; and
- (2) Inserting an effective date of January 1, 2050, to encourage further discussion.

As affirmed by the records of votes of the members of your Committees on Human Services and Commerce, Consumer Protection, and Health that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 512, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 512, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Human Services: Ayes, 3. Noes, none. Excused, 2 (Harimoto, Tokuda).

Commerce, Consumer Protection, and Health: Ayes, 5. Noes, none. Excused, 2 (Nishihara, Ruderman).

SCRep. 144 (Joint) Human Services and Housing on S.B. No. 588

The purpose and intent of this measure is to:

- (1) Define "emergency shelter" to mean a homeless facility designed to provide temporary shelter and services for up to six months;
- (2) Allow homeless shelter stipends to be adjusted at the end of each year based upon achievement of performance measures;
- (3) Require homeless shelters to have no fewer than one shower, one sink, and one toilet per twenty-five residents and the minimum area of each partitioned space to be determined by the number of residents and capacity of the shelter;
- (4) Establish that the storage space at a homeless shelter shall be determined by each shelter's space availability;
- (5) Remove the Department of Human Services' authority to require shelters to comply with additional requirements;
- (6) Establish and fund two permanent full-time equivalent (2.0 FTE) positions to assist in the implementation of the homeless shelter program; and
- (7) Appropriate funds for homeless shelters and other non-recurring costs.

Your Committees received testimony in support of this measure from Waikiki Health; Hawaii Habitat for Humanity Association, Inc.; Ho'omana Pono, LLC.; Faith Action for Community Equity, Maui; and four individuals. Your Committees received comments on this measure from the Governor's Coordinator on Homelessness and Department of Human Services.

Your Committees find that homelessness continues to be one of the State's most significant and challenging social problems. In an attempt to make the homeless shelter system more cost effective and more appealing to families and individuals, the Legislature enacted Act 234, Session Laws of Hawaii 2016, to establish minimum requirements for every homeless emergency shelter operated by a provider agency that is under contract with the Department of Human Services. However, there is wide variation in the configuration of homeless emergency shelters across the State. Because homeless emergency shelters need sufficient flexibility to address the diverse needs of homeless individuals and families across the State, it is critical that the Department of Human Services allows enough time for homeless emergency shelters to bring shelter space into compliance with the Department's requirements.

Your Committees have amended this measure by:

- (1) Clarifying language in section 1 of Act 234, Session Laws of Hawaii 2016, related to requiring homeless shelter stipend payments to be made with a goal of achieving performance measures;
- (2) Deleting from the definition of “emergency shelter” the six-month limitation on the provision of temporary shelter and appropriate and available services;
- (3) Specifying that emergency shelters are authorized, rather than mandated, to have partitioned space for each homeless family or individual that provides separation from other homeless families or individuals in the shelter;
- (4) Deleting language that would have established and appropriated funds for two permanent full-time equivalent (2.0 FTE) program specialist IV positions to assist in the operation of the homeless shelter program;
- (5) Deleting language that would have appropriated funds for the establishment or improvement of emergency and transitional shelters for the homeless and funding other projects or programs to assist homeless families and individuals; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Human Services and Housing that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 588, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 588, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Human Services: Ayes, 3. Noes, none. Excused, 2 (Harimoto, Tokuda).

Housing: Ayes, 3. Noes, none. Excused, 2 (Harimoto, Nishihara).

SCRep. 145 Judiciary and Labor on S.B. No. 245

The purpose and intent of this measure is to:

- (1) Require government agencies to exercise reasonable care in the maintenance of all government records under their control that are required to be made available for public inspection;
- (2) Create a rebuttable presumption that a unit of government in the State or its political subdivision exercised reasonable care in its maintenance of its government records by adhering to a duly adopted records retention and destruction policy; and
- (3) Establish damages for breaching a duty of exercising reasonable care in the maintenance of government records.

Your Committee received testimony in support of this measure from the Office of Information Practices, Hawaii Association for Justice, ‘Āina Haina Community Association, and one individual. Your Committee received testimony in opposition to this measure from the Office of the Mayor, County of Maui; Department of the Corporation Counsel, City and County of Honolulu; and Department of the Corporation Counsel, County of Maui. Your Committee received comments on this measure from the Department of Business, Economic Development, and Tourism.

Your Committee finds that in *Molfino v. Yuen*, 134 Hawaii 181 (2014), the Supreme Court upheld a circuit court ruling that, absent a statutory requirement, a government agency does not have a duty of reasonable care with respect to maintaining government records for the purpose of public inspection. This measure responds to the holding of *Molfino* by establishing a statutory requirement that government agencies exercise reasonable care in the maintenance of all government records under their control that are available for public inspection.

Your Committee notes the concerns expressed in testimony regarding the adequacy of the \$2,000 cap that the court may award for damages for breaching the duty of reasonable care and believes this issue merits further discussion. Your Committee also notes that this measure would benefit from discussion as to the most appropriate chapter placement of the requirement within the Hawaii Revised Statutes.

Your Committee has amended this measure by:

- (1) Inserting an effective date of January 7, 2059, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 245, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 245, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Kim).

SCRep. 146 Judiciary and Labor on S.B. No. 327

The purpose and intent of this measure is to:

- (1) Require the electronic transmission of databases containing driver’s license and civil identification card information to election officials and the statewide voter registration system;
- (2) Require the Office of Elections to join the Electronic Registration Information Center and share information with the counties pursuant to the terms of the membership agreement;
- (3) Require the Office of Elections and the county offices that administer elections to verify their respective voter registration rolls; and

- (4) Appropriate funds to the Office of Elections to join the Electronic Registration Information Center.

Your Committee received testimony in support of this measure from the Office of Elections, Common Cause Hawaii, and League of Women Voters of Hawaii. Your Committee received comments on this measure from the Department of Transportation and Office of the County Clerk, County of Kauai.

Your Committee finds that the Electronic Registration Information Center is a nonprofit organization that helps states improve the accuracy of voter registration rolls by using secure data-matching tools. States who are members of the Electronic Registration Information Center have reported an increase in voter registration through improved access to the registration process, reduction in provisional ballots, shorter lines at polling places due to clarity in registration status and accuracy of registration data, and improvements in record keeping for election administration offices. By requiring the Office of Elections to join the Electronic Registration Information Center, this measure will help the State to realize the same benefits reported by states that are already members.

Your Committee notes the concerns raised by the Office of the County Clerk of the County of Kauai regarding providing the Electronic Registration Information Center with personally identifiable information of nearly a million Hawaii residents and whether the sharing of this information may pose liability issues for the State. Your Committee further notes that the initial membership fee to join the Electronic Registration Information Center is \$25,000.

Your Committee has amended this measure by:

- (1) Inserting an effective date of January 7, 2059, to encourage further discussion; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 327, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 327, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Kim).

SCRep. 147 Judiciary and Labor on S.B. No. 422

The purpose and intent of this measure is to:

- (1) Delete language awarding grandparents reasonable visitation rights from section 571-46, Hawaii Revised Statutes, relating to the criteria and procedure in awarding custody and visitation; and
- (2) Add language to section 571-46.3, Hawaii Revised Statutes, regarding grandparents' visitation rights, that:
 - (A) Requires the courts to make a finding that awarding grandparent visitation is in the best interest of the child and denial of grandparent visitation would cause actual or potential harm to the child;
 - (B) Establishes a rebuttable presumption that a parent's decision regarding visitation is in the best interest of the child, which may be rebutted by a preponderance of the evidence that denial of reasonable grandparent visitation rights would cause actual or potential harm to the child;
 - (C) Clarifies the court shall be guided by all standards, considerations, and procedures for parent visitation under section 571-46, Hawaii Revised Statutes; and
 - (D) Clarifies if a grandparent or grandparents of a child violate the terms and conditions of an order awarding reasonable visitation rights, the grandparent or grandparents shall be subject to sanctions or contempt of court.

Your Committee received testimony in support of this measure from one individual. Your Committee received testimony in opposition to this measure from the Family Law Section of the Hawaii State Bar Association. Your Committee received comments on this measure from the Department of the Attorney General.

Your Committee finds that grandparents are taking on increasing responsibilities in helping to raise their grandchildren, especially when the children's own parents are unable or unwilling to do so as a result of a lack of financial self-sufficiency, abandonment, mental disorder, minor status, substance abuse, or incarceration. Grandparents may help foster a child's healthy emotional and psychological development, further a child's education, and positively influence a child's well-being. This measure recognizes the benefits and importance of having grandparents be a part of a child's life by allowing the family court to award reasonable visitation rights to a grandparent if reasonable visitation is in the best interest of the child and denial of visitation could cause actual or potential harm to the child.

Your Committee notes the comments submitted in written testimony by the Department of the Attorney General that the court in *Doe v. Doe*, 116 Hawaii 323 (2007) held that the standard to be used in awarding grandparent visitation is a showing that a denial of grandparent visitation would cause significant, rather than actual or potential, harm to the child.

Accordingly, your Committee has amended this measure by:

- (1) Deleting section 2, thereby reinstating language awarding grandparents reasonable visitation rights under section 571-46, Hawaii Revised Statutes, relating to the criteria and procedure in awarding custody and visitation;
- (2) Adopting the language suggested by the Department of the Attorney General that clarifies that the denial of grandparent visitation would cause significant, rather than actual or potential, harm to the child;
- (3) Inserting an effective date of January 7, 2059, to encourage further discussion; and

- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 422, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 422, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 148 Judiciary and Labor on S.B. No. 714

The purpose and intent of this measure is to establish a supervisory and professional job shadowing pilot project under the Department of Human Resources Development.

Your Committee received testimony in support of this measure from the Hawaii Government Employees Association, American Federation of State, County, and Municipal Employees Local 152, AFL-CIO. Your Committee received comments on this measure from the Department of Human Services and Department of Human Resources Development.

Your Committee finds that there is a rising number of eligible retirees within the various departments of state government, which creates a pressing need to prepare the next generation of workers to occupy positions vacated by retirees, especially at the supervisory level. Your Committee finds that a supervisory and professional job shadowing pilot project for leadership and supervisory training will help to stabilize the workforce and ensure the transfer of essential skills and institutional knowledge.

Your Committee has amended this measure by:

- (1) Inserting an effective date of January 7, 2059, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 714, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 714, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Gabbard).

SCRep. 149 Judiciary and Labor on S.B. No. 791

The purpose and intent of this measure is to:

- (1) Establish the offense of criminal property damage by graffiti as a misdemeanor; and
- (2) Include the offense of criminal property damage by graffiti as an offense in which the graffiti sentencing law applies.

Your Committee received testimony in support of this measure from two individuals.

Your Committee finds that graffiti is occurring more frequently in Hawaii. Recent incidents include graffiti on garage doors, homes, and other edifices in Ewa Beach as well as graffiti at Moanalua High School that resulted in twelve students being banned from participating in their graduation ceremony. This measure helps to deter incidents of graffiti by establishing a separate offense for property damage caused by graffiti.

Your Committee has amended this measure by:

- (1) Changing the penalty imposed for the offense of criminal property damage by graffiti to a petty misdemeanor, rather than misdemeanor, and the term of imprisonment to an unspecified period of days, rather than months, to be consistent with the penalty imposed for the substantially similar offense of criminal property damage in the fourth degree;
- (2) Inserting an effective date of January 7, 2059, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 791, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 791, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Kim).

SCRep. 150 Judiciary and Labor on S.B. No. 797

The purpose and intent of this measure is to establish the offense of criminal property damage to a public restroom as a misdemeanor.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources and one individual.

Your Committee finds that vandalism to restroom facilities in public parks is occurring more frequently. There have been numerous incidents of vandalism to these public restrooms, which result in a financial cost to repair or replace these restroom facilities and prevent the public from using and enjoying the parks. This measure helps to deter incidents of vandalism by establishing a separate criminal offense for damaging a public restroom located at a public park or recreational ground.

Your Committee has amended this measure by:

- (1) Deleting language that refers to setting fire to a trash receptacle from the offense of criminal property damage to a public restroom; and
- (2) Inserting an effective date of January 7, 2059, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 797, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 797, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Kim).

SCRep. 151 Judiciary and Labor on S.B. No. 857

The purpose and intent of this measure is to limit employers' denial of workers' compensation claims pending investigation. Specifically, this measure:

- (1) Requires employers to pay for all medical services required by an employee with a compensable injury;
- (2) Prohibits employers from denying a claim without reasonable cause or during a pending investigation;
- (3) Establishes notification procedures regarding billing disagreements;
- (4) Imposes penalties for employers who fail to adhere to notification requirements; and
- (5) Establishes resolution procedures for employers and providers who have reasonable disagreements over liability for services provided to an injured worker.

Your Committee received testimony in support of this measure from the Hawaii Chapter-American Physical Therapy Association; Kauai Community Health Alliance, Hale Lea Medicine; Work Injury Medical Association of Hawaii; ILWU Local 142; and three individuals. Your Committee received testimony in opposition to this measure from the City and County of Honolulu Department of Human Resources, Hawaii Insurers Council, National Association of Mutual Insurance Companies, Property Casualty Insurers Association of America, Chamber of Commerce Hawaii, Society for Human Resource Management-Hawaii, and Solera Integrated Medical Solutions. Your Committee received comments on this measure from the Department of Human Resources Development and Department of Labor and Industrial Relations.

Your Committee finds that Hawaii's workers' compensation system is plagued by employers' delays and denials of claims, which exacerbate the recovery of injured workers. Your Committee finds that employers must be held accountable for processing claims for medical services in a timely manner to assure that injured workers may recover and return to work within a reasonable time.

Your Committee has amended this measure by:

- (1) Creating a presumption of compensability for a claim submitted by an employee who is excluded from coverage under the Hawaii Prepaid Health Care Act;
- (2) Clarifying that a provider of services may issue a notification of services rendered or bill to an employer;
- (3) Requiring the employee to reimburse the source from which compensation was received for services rendered whenever a claim is found to be non-compensable;
- (4) Inserting an effective date of January 7, 2059, to encourage further discussion; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 857, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 857, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Gabbard).

SCRep. 152 Judiciary and Labor on S.B. No. 981

The purpose and intent of this measure is to:

- (1) Allow the Hawaii Labor Relations Board to provide written notice of a hearing under the Hawaii occupational safety and health law by first class mail or electronic service through a company designated by the Board at least fifteen days before the hearing; and
- (2) Require the party seeking review of a decision and order of the Hawaii Labor Relations Board to bear the cost of preparing a transcript, except as provided by law, in which case the Board shall bear the cost.

Your Committee received testimony in support of this measure from the Hawaii Labor Relations Board and University of Hawaii Professional Assembly.

Your Committee finds that under existing law, the Hawaii Labor Relations Board may give notices of hearings to a party by first class mail. However, the electronic service of notices is a faster and less expensive method of delivery. Implementation of this measure will reduce costs and provide a more efficient process to accommodate all parties.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 981, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 981, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Gabbard).

SCRep. 153 (Joint) Judiciary and Labor and Transportation and Energy on S.B. No. 1163

The purpose and intent of this measure is to impose civil penalties, rather than criminal penalties, for violating certain safety measures, practices, or requirements with respect to the operation or use of airports and airport facilities, and certain licensing and regulatory requirements for commercial activities at airports.

Your Committees received testimony in support of this measure from the Aircraft Owners and Pilots Association; East West Avionics, Inc.; General Aviation Council of Hawaii; and forty-one individuals. Your Committees received testimony in opposition to this measure from the Department of Transportation and one individual. Your Committees received comments on this measure from one individual.

Your Committees find that existing law imposes criminal penalties for violations of certain categories of airport rules relating to safety measures, practices, or requirements; airport security measures or requirements; or licensing and regulation of persons engaged in commercial activities at public airports. Written testimony in support of this measure indicates that the criminal penalties imposed are extreme and disproportionate to the acts. The criminal penalties for certain airport offenses can result in significant consequences for pilots, including the loss of the pilots' license or necessary security clearance. This measure decriminalizes certain airport offenses while maintaining the Department of Transportation's authority to enforce laws and rules relating to the operation of the airports, including airport security offenses.

Your Committees note that this measure imposes a civil penalty for any violation of a safety measure, practice, or requirement, and imposes a criminal penalty for any violation of an airport security measure or requirement. Your Committees believe that distinguishing between a safety measure and security measure merits further discussion as this measure moves through the legislative process due to the different types of penalties imposed as well as determining whether safety measures should conform with Federal Aviation Administration and Transportation Security Administration regulations. Your Committees further note that the Department of Transportation is engaged in discussions with stakeholders in developing a general aviation handbook to set forth standards and rules.

Your Committees have amended this measure by:

- (1) Amending the severability clause under section 3 to:
 - (A) Delete language that authorizes the Governor to modify the strict provisions of this measure and report any modifications to the Legislature only to the extent necessary to not jeopardize the receipt of any federal aid nor impair the obligation of the State to the holders of any state issued bond; and
 - (B) Add language that clarifies if any provision of this measure conflicts with any federal law, jeopardizes receipt of federal aid, or impairs the obligation of the State with respect to holders of state issued bonds, that provision is void and all other provisions of this measure will remain in effect and enforceable;
- (2) Inserting an effective date of January 7, 2059, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Judiciary and Labor and Transportation and Energy that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1163, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1163, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
Judiciary and Labor: Ayes, 4. Noes, none. Excused, 1 (Kim).
Transportation and Energy: Ayes, 3. Noes, none. Excused, 2 (English, Harimoto).

SCRep. 154 Judiciary and Labor on S.B. No. 1114

The purpose and intent of this measure is to allow the Hawaii Labor Relations Board to request that the parties appearing before the Board submit proposed findings of fact and conclusions of law.

Your Committee received testimony in support of this measure from the Hawaii Labor Relations Board and University of Hawaii Professional Assembly.

Your Committee finds that hearings before the Hawaii Labor Relations Board regarding collective bargaining in public employment, the Hawaii Employment Relations Act, and the Hawaii Occupational Safety and Health law can result in high costs and be an onerous process. Implementation of this measure will reduce costs and provide a more efficient process to accommodate all parties.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1114 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Gabbard).

SCRep. 155 Judiciary and Labor on S.B. No. 969

The purpose and intent of this measure is to make an emergency appropriation to the Department of Human Resources Development to pay workers' compensation claims required under chapter 386, Hawaii Revised Statutes.

Your Committee received testimony in support of this measure from the Department of Human Resources Development.

Your Committee finds that a critical funding crisis exists and the Department of Human Resources Development will not be able to meet its legal obligation to pay the workers' compensation benefits that are due to State of Hawaii employees who sustain work-related injuries and illnesses during fiscal year 2016-2017; therefore, an emergency appropriation of additional funds is warranted.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 969 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Gabbard).

SCRep. 156 Judiciary and Labor on S.B. No. 426

The purpose and intent of this measure is to clarify that the offense of abuse of a family or household member is a class C felony if the physical abuse consists of intentionally or knowingly impeding the normal breathing or circulation of the blood of the family or household member by blocking the family or household member's nose or mouth.

Your Committee received testimony in support of this measure from the Department of the Prosecuting Attorney, City and County of Honolulu; Office of the Prosecuting Attorney, County of Hawaii; Office of the Prosecuting Attorney, County of Kaua'i; Department of the Prosecuting Attorney, County of Maui; Police Department, City and County of Honolulu; Domestic Violence Action Center; and one individual. Your Committee received testimony in opposition to this measure from the Office of the Public Defender.

Your Committee finds that the offense of abuse of a family or household member is a class C felony if the physical abuse consists of strangulation by applying pressure to the neck or throat to impede the normal breathing or circulation of blood. However, there may be cases in which normal breathing is impeded through suffocation, via the defendant covering the family or household member's mouth or nose, rather than by applying pressure on the throat or neck. This measure clarifies that the offense of abuse of a family or household member is a class C felony if the physical abuse consists of suffocation by blocking the family or household member's nose or mouth.

However, your Committee notes that the blocking of either the nose or the mouth may be insufficient to impede normal breathing of the family or household member. Furthermore, the Office of the Public Defender raised concerns in its written testimony that a participant who is trying to calm an argument down by covering the mouth of a family or household member could be charged with a felony offense. Your Committee believes that the specific conduct of applying pressure to the neck or throat and blocking of the nose or mouth merit further discussion.

Accordingly, your Committee has amended this measure by:

- (1) Deleting any reference to the manner in which normal breathing or blood circulation may be impeded, thereby clarifying that intentionally or knowingly impeding the normal breathing or circulation of blood of a family or household member by any means is a class C felony;
- (2) Inserting an effective date of January 7, 2059, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 426, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 426, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 157 Judiciary and Labor on S.B. No. 322

The purpose and intent of this measure is to:

- (1) Clarify that the circuit courts have concurrent jurisdiction with the family court over certain felonies when multiple offenses are charged and at least one of the offenses is a violation of the offense of endangering the welfare of a minor in the first degree, endangering the welfare of a minor in the second degree, or endangering the welfare of an incompetent person; and
- (2) Clarify that the district courts have concurrent jurisdiction with the family court of any violation of the offense of endangering the welfare of a minor in the second degree or endangering the welfare of an incompetent person when multiple offenses are charged and at least one of the offenses is a criminal offense within the jurisdiction of the district courts.

Your Committee received testimony in support of this measure from the Office of the Prosecuting Attorney, County of Kaua'i; Department of the Prosecuting Attorney, County of Maui; and one individual.

Your Committee finds that circuit, district, and family courts each have exclusive, original jurisdiction over certain matters as provided by law. There may be circumstances in which an entire act may be comprised of charges for which courts have separate exclusive jurisdiction. For example, when a person operates a vehicle under the influence of an intoxicant with a minor as a passenger in that vehicle, this person could be charged with the offense of operating a vehicle under the influence of an intoxicant and the offense of endangering the welfare of a minor. Double jeopardy protections require that a defendant be charged with all known potential

charges at the same time, but the family court does not have jurisdiction over operating a vehicle under the influence of an intoxicant cases unlike child endangerment cases. As a result, the State must choose between charging the defendant in district court for operating a vehicle under the influence of an intoxicant or in family court for the child endangerment. This measure will allow the circuit and district courts to have concurrent jurisdiction with the family court over certain endangerment offenses under certain circumstances to allow for proper charging and prosecution of these cases.

Your Committee has amended this measure by:

- (1) Inserting an effective date of January 7, 2059, to encourage further discussion; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 322, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 322, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 158 (Joint) Commerce, Consumer Protection, and Health and Judiciary and Labor on S.B. No. 121

The purpose and intent of this measure is to:

- (1) Broaden the scope of condominium related disputes for which an apartment owner or the board of directors can mandate mediation;
- (2) Lower the additional annual Condominium Education Trust Fund fee to 75 cents times the number of condominiums units included in a registered project or association and discourage future surpluses of the fee;
- (3) Specify that any surplus funds collected for the additional annual Condominium Education Trust Fund to support mediation may be used for any educational purpose provided under section 514B-71(a), Hawaii Revised Statutes; and
- (4) Amend the conditions that mandate mediation and exceptions to mandatory mediation.

Your Committees received testimony in support of this measure from the Hawaii Council of Associations of Apartment Owners; Hawaii Chapter of the Community Associations Institute, Legislative Action Committee; Associa; and six individuals. Your Committees received testimony in opposition to this measure from the Real Estate Commission. Your Committees received comments on this measure from one individual.

Your Committees find that under existing law, mediation is only nominally mandatory, as there are few incentives and no penalties for any board that refuses to engage in mediation. This measure mandates mediation and provides a simple mechanism to enforce the mandate. Your Committees note that the mandatory mediation proposed by this measure is intended to require parties to resolve condominium-related disputes outside of the courtroom. Your Committees also note that all parties affected by this measure are expected to comply with the mandatory mediation procedures required by law.

Your Committees have heard the concerns raised by the Real Estate Commission regarding expanding the scope of disputes for which a party can initiate a mandatory mediation to include design and construction defect claims. According to the Real Estate Commission, construction defect claims involving developers or contractors generally go to arbitration or litigation and the Commission ordinarily lacks jurisdiction over these entities or individuals. The Commission also expressed concern over the proposed reduction in monies collected into the Condominium Education Trust Fund. The Commission noted that the proposed reduction in funds, combined with the proposed expansion of the subjects permissible for mediation, may make it difficult for the Commission to continue appropriately carrying out its duties. Your Committees understand these concerns and conclude amendments to this measure are necessary.

Your Committees have amended this measure by:

- (1) Expanding the scope of the Condominium Education Trust Fund to cover voluntary binding arbitration between interested parties and specifying requirements for parties who wish to enter into voluntary binding arbitration;
- (2) Deleting language that would have expanded the scope of disputes for which a party could initiate mandatory mediation to include design and construction defect claims;
- (3) Deleting language that would have lowered the additional annual Condominium Education Trust Fund fee;
- (4) Deleting language that would have required the Real Estate Commission to anticipate any surplus in the Condominium Education Trust Fund and reduce by that amount of surplus the money collected for registration in the next biennium;
- (5) Clarifying that if evaluative mediation is requested in writing by one party, the other party cannot choose facilitative mediation instead, and any attempt to do so shall be treated as a rejection to mediate;
- (6) Capping the attorneys' fees and costs for a prevailing party at \$1,500, rather than \$200;
- (7) Updating the purpose section; and
- (8) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Commerce, Consumer Protection, and Health and Judiciary and Labor that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 121, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 121, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Commerce, Consumer Protection, and Health: Ayes, 5. Noes, none. Excused, 2 (Kidani, Ruderman).

Judiciary and Labor: Ayes, 4. Noes, none. Excused, 1 (Kim).

SCRep. 159 (Joint) Commerce, Consumer Protection, and Health and Higher Education on S.B. No. 1078

The purpose and intent of this measure is to try to alleviate the shortage of primary health care providers in Hawaii by appropriating funds to the loan repayment program administered through the John A. Burns School of Medicine at the University of Hawaii at Manoa.

Your Committees received testimony in support of this measure from the Department of Health, Department of Labor and Industrial Relations, University of Hawai'i System, Hawai'i State Center for Nursing, The Queen's Health Systems, Healthcare Association of Hawaii, 'Ohana Health Plan, AlohaCare, Lāna'i Community Health Center, Hawai'i Pacific Health, Hawai'i Academy of Family Physicians, Hawai'i Psychological Association, Hawaii Medical Service Association, and sixteen individuals. Your Committees received comments on this measure from the Hawaii Medical Board.

Your Committees find that Hawaii is facing a shortage of over five hundred doctors, and that this shortage threatens the health of Hawaii residents and cumulatively affects the State's healthcare costs. Your Committees further find that access to care in rural and underserved areas of Hawaii is especially concerning, as these areas have been the most significantly affected by the shortage of primary and behavioral healthcare providers.

Your Committees recognize the increasingly high education costs for healthcare professionals and the need for the State to make efforts to attract healthcare professionals to practice in Hawaii. Currently, the John A. Burns School of Medicine at the University of Hawaii at Manoa administers the only loan repayment program available in the State to healthcare professionals. Your Committees find that healthcare professionals who have benefited from the loan repayment program serve in communities across the State, including Waianae, Hilo, and Wailuku. Your Committees note testimony submitted by the University of Hawai'i System indicating that because federal funding for the program requires a local dollar-for-dollar match, without financial support from the State the program will not be able to reapply for the federal grant and the loan repayment program will end.

Your Committees have amended this measure by:

- (1) Inserting language to clarify that the loan repayment program referred to is the Hawaii Rural Health Care Provider Loan Repayment Program and deleting the reference to psychologists, social workers, licensed professional counselors, and marriage and family therapists benefitting from the program because those professions are not included in section 309H-3, Hawaii Revised Statutes, which establishes the Hawaii Rural Health Care Provider Loan Repayment Program;
- (2) Inserting a blank appropriation amount; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

Your Committees note that although the appropriation amount has been removed, the recommended appropriation for the Hawaii Rural Health Care Provider Loan Repayment Program is \$250,000.

As affirmed by the records of votes of the members of your Committees on Commerce, Consumer Protection, and Health and Higher Education that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1078, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1078, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Commerce, Consumer Protection, and Health: Ayes, 5. Noes, none. Excused, 2 (Ihara, Nishihara).

Higher Education: Ayes, 3. Noes, none. Excused, 2 (Keith-Agaran, Taniguchi).

SCRep. 160 (Joint) Commerce, Consumer Protection, and Health and Judiciary and Labor on S.B. No. 391

The purpose and intent of this measure is to:

- (1) Clarify the process, including payment obligations, mediation requirements, and triggers for further default, where a condominium owner and association reach a payment plan to resolve a nonjudicial foreclosure; and
- (2) Establish procedures that provide condominium owners with the right to submit disputed legal fees, penalties or fines, late fees, lien filing fees, or other charges, except for common expense assessments, to the mediation process prior to payment.

Your Committees received testimony in support of this measure from the Hawaii Council of Associations of Apartment Owners; Community Associations Institute, Hawaii Chapter; Community Associations Institute, Legislative Action Committee; Hui 'Oia'i'o; Associa; and four individuals.

Your Committees find that under existing law, if an association of apartment owners starts a nonjudicial foreclosure against a unit owner and the owner pays off the delinquency or proposes a payment plan that the association accepts, the association is supposed to rescind the notice of foreclosure and not proceed. However, proposing a payment plan is not sufficient on its own to cure a default. Accordingly, this measure clarifies the process once a condominium owner and association agree on a payment plan to resolve a nonjudicial foreclosure.

Your Committees further find that Hawaii's existing condominium law contains a "pay first, dispute later" requirement, under which owners are not permitted to withhold any assessment claimed by their association, but must first pay the disputed amounts and then exercise their right to mediation, arbitration, or small claims court. Since common area maintenance fees, also known as common expense assessments, are vital to an association, any exception to the pay first, dispute later principle must be narrowly tailored and carefully crafted. Accordingly, this measure amends the pay first, dispute later requirement to make it clear that common expense

assessments are the only fees that must be paid prior to initiating a dispute. All other penalties or fines, late fees, lien filing fees, or other charges in an assessment may be submitted to mediation prior to payment.

As affirmed by the records of votes of the members of your Committees on Commerce, Consumer Protection, and Health and Judiciary and Labor that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 391 and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Commerce, Consumer Protection, and Health: Ayes, 5. Noes, none. Excused, 2 (Kidani, Ruderman).

Judiciary and Labor: Ayes, 4. Noes, none. Excused, 1 (Kim).

SCRep. 161 (Joint) Commerce, Consumer Protection, and Health and Judiciary and Labor on S.B. No. 430

The purpose and intent of this measure is to repeal the Uniform Athlete Agents Act and replace it with a new Revised Uniform Athlete Agents Act, which:

- (1) Expands the definition of “athlete agent” to include individuals who, for compensation or the anticipation of compensation, serve a student athlete as a financial advisor or business manager;
- (2) Requires reciprocity for athlete agents who are registered in more than one state;
- (3) Strengthens requirements for athlete agent contracts; and
- (4) Strengthens requirements under which athlete agents must notify the educational institution at which a student athlete is enrolled.

Your Committees received testimony in support of this measure from the University of Hawai‘i at Manoa Athletic Department, University of Hawai‘i at Hilo Athletic Department, Commission to Promote Uniform Legislation, and one individual. Your Committees received comments on this measure from the Professional and Vocational Licensing Division of the Department of Commerce and Consumer Affairs and Regulated Industries Complaint Office of the Department of Commerce and Consumer Affairs.

Your Committees find that the improper recruitment of a student athlete who is still enrolled in an educational institution can cause substantial eligibility problems for the student athlete and the educational institution, which can also lead to severe economic sanctions and loss of scholarships for the institution. In an effort to counteract this issue, in 2007, Hawaii joined approximately forty other states by enacting the Uniform Athlete Agents Act, codified as chapter 481E, Hawaii Revised Statutes. Although the Uniform Athlete Agents Act has helped reduce improper contact between agents and student athletes, since the Act’s adoption, a variation of the sports agent problem has emerged in the form of “financial advisers” who seek contact with student athletes.

Your Committees note that to address emerging issues, the Uniform Law Commission adopted a Revised Uniform Athlete Agents Act, which expands the registration requirements for athlete agents to cover financial advisers in some circumstances, requires reciprocity in registration for athlete agents, increases the requirements for athlete agents to notify educational institutions when the agents are recruiting a particular student athlete, establishes penalties for athlete agents who violate the act, and ensures student athletes have a right of action against an athlete agent who violates the act. This measure adopts the Revised Uniform Athlete Agents Act, which contains superior protections for student athletes and educational institutions.

Your Committees have amended this measure by:

- (1) Incorporating suggested amendments from the Professional and Vocational Licensing Division and the Regulated Industries Complaints Office, which standardize certain language to reflect language found in other licensing statutes within the purview of the Department of Commerce and Consumer Affairs, including:
 - (A) Clarifying the professionals that are encompassed in the term “licensed, registered, or certified professional”;
 - (B) Clarifying the powers and duties of the Director of Commerce and Consumer Affairs;
 - (C) Ensuring that the Department of Commerce and Consumer Affairs would reciprocally register other athlete agents who are registered in other states that have also adopted the Revised Athlete Agents Act;
 - (D) Clarifying the registration renewal process for athlete agents;
 - (E) Adding standard procedural language to enable the Director of Commerce and Consumer Affairs to deny, suspend, revoke, or refuse to renew a certificate of registration after proper notice and an opportunity to be heard; and
 - (F) Removing language that referenced administrative penalties in a section that establishes criminal penalties for athlete agents;
- (2) Inserting an effective date of July 1, 2018, to correspond to the existing registration renewal schedule for athlete agents; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Commerce, Consumer Protection, and Health and Judiciary and Labor that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 430, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 430, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Commerce, Consumer Protection, and Health: Ayes, 5. Noes, none. Excused, 2 (Kidani, Ruderman).

Judiciary and Labor: Ayes, 4. Noes, none. Excused, 1 (Kim).

SCRep. 162 (Joint) Commerce, Consumer Protection, and Health and Human Services on S.B. No. 7

The purpose and intent of this measure is to require the Department of Human Services, in collaboration with the Department of Health, to create a Medicaid supportive housing services benefit plan to enable Medicaid to pay for supportive housing services, including applying for a 1115 waiver or state Medicaid plan amendment to include supportive housing services for chronically homeless individuals.

Your Committees received testimony in support of this measure from Hawai'i Pacific Health; Ho'omana Pono, LLC; and one individual. Your Committees received comments on this measure from the Governor's Coordinator on Homelessness and Department of Human Services.

Your Committees find that homelessness continues to be one of Hawaii's most important and challenging social problems, and that many people who experience homelessness have significant health care needs. In fiscal years 2014 and 2015, The Queen's Medical Center reported treating 3,441 homeless patients. For many individuals with complex health conditions, housing instability is a significant barrier to consistent health care access, which results in excessive use of expensive emergency department, inpatient treatment, and crisis services.

Your Committees recognize that while there is an integral link between health and housing, it is difficult to identify and work with individuals who have health and housing needs. Your Committees find that the healthcare system can be one valuable point of identification to not only collect data but also encourage clinicians to recognize the social impact of housing, employment, social networks, and economic status on health through improved communication between a doctor and patient. Your Committees recognize the existing efforts by the Department of Human Services, in collaboration with the Governor's Coordinator on Homelessness and other community partners, to study and address the intersection between healthcare and homelessness, but want to ensure that progress continues toward expanding supportive housing services for Hawaii's homeless individuals.

Accordingly, your Committees have amended this measure by:

- (1) Amending the purpose section to discuss the Hawaii Pathways Project pilot;
- (2) Requiring the Department of Human Services, in collaboration with the Department of Health, to review the progress of the Hawaii Pathways Project pilot, rather than establish a Medicaid supportive housing services benefit plan, and continue to pursue efforts to utilize Medicaid to provide supportive housing services for chronically homeless individuals;
- (3) Requiring the Department of Human Services to consider certain services, actions, and strategies in planning for the expansion of supportive housing services provided through Medicaid managed care plans, rather than in developing the Medicaid supportive housing services benefit plan;
- (4) Removing the requirement that the Department of Human Services submit the Medicaid supportive housing services benefit plan to the Legislature and inserting language to require the Department of Human Services to submit a report to the Legislature that includes the status of the proposed amendment to expand the state 1115 Medicaid waiver, a description of supportive housing services to be provided to the chronically homeless population, and proposed eligibility criteria to qualify for supportive housing services; and
- (5) Inserting an effective date of July 1, 2050, to encourage further discussion.

As affirmed by the records of votes of the members of your Committees on Commerce, Consumer Protection, and Health and Human Services that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 7, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 7, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Commerce, Consumer Protection, and Health: Ayes, 5. Noes, none. Excused, 2 (Nishihara, Ruderman).

Human Services: Ayes, 3. Noes, none. Excused, 2 (Harimoto, Tokuda).

SCRep. 163 Commerce, Consumer Protection, and Health on S.B. No. 503

The purpose and intent of this measure is to require health insurance coverage for case management services by licensed mental health providers for victims of sexual violence and abuse.

Your Committee received testimony in support of this measure from the Hawaii State Commission on the Status of Women; Department of the Prosecuting Attorney of the City and County of Honolulu; Hawaii Women's Coalition; American Association of University Women - Hawai'i; Planned Parenthood Votes Northwest and Hawaii; Sex Abuse Treatment Center; YMCA O'ahu; American Association of University Women - Windward O'ahu; Community Alliance on Prisons; LGBT Caucus of the Democratic Party of Hawai'i; National Women's Political Caucus, Hawaii Chapter; and twelve individuals. Your Committee received comments on this measure from the Department of Human Services and Hawaii Medical Service Association.

Your Committee finds that sexual violence and abuse are extremely prevalent. According to testimony received by your Committee, an estimated 19.3 percent of women and 1.7 percent of men are survivors of rape, and an estimated 43.9 percent of women and 23.4 percent of men have experienced other forms of sexual violence within their lifetimes. Statistics for child victims of abuse indicate that one in four girls and one in six boys will be sexually abused before they turn eighteen.

Your Committee further finds that trauma from sexual violence and abuse can have significant, lasting impacts on a survivor's mental health, which can interfere with the survivor's functional ability to engage and interact with the world. Survivors with mental health illness caused, in whole or in part, by sexual violence and abuse can require case management services, a professional intervention where a survivor's mental health provider helps the patient link to and coordinate with other service providers, systems, programs, and entitlements. This measure requires insurance coverage for case management for victims of sexual violence and abuse, which will ensure that more survivors of sexual violence and abuse receive this particular kind of coordinated, multi-disciplinary care

that is medically necessary for some survivors to recover and heal and which can help survivors avoid additional harm and decompensation.

Your Committee has heard the testimony from the Department of Human Services that this measure may require an amendment to the section 1115 waiver to cover the services proposed by this measure. Although your Committee understands these concerns, your Committee notes that managed care plans offered through the Department are already subject to the requirements of chapter 431M, Hawaii Revised Statutes, so language requesting approval from the Centers for Medicare and Medicaid Services will not be necessary.

Your Committee has amended this measure by:

- (1) Clarifying that case management must be provided by a qualified mental health provider that identifies needs and assists victims of sexual violence and abuse;
- (2) Clarifying that the proposed case management services under this measure shall be provided directly or contracted out, depending on the applicable health plan;
- (3) Updating the purpose section; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 503, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 503, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 3 (Chang, Ihara, Kidani).

SCRep. 164 Commerce, Consumer Protection, and Health on S.B. No. 949

The purpose and intent of this measure is to make various updates to the money transmitters law, chapter 489D, Hawaii Revised Statutes, including:

- (1) Clarifying permissible investment requirements for money transmitter licensees;
- (2) Updating requirements for applications, extraordinary reporting requirements, change in control of licensee, and criminal history record checks; and
- (3) Updating various definitions.

Your Committee received testimony in support of this measure from the Division of Financial Institutions of the Department of Commerce and Consumer Affairs.

Your Committee finds that money transmitters are responsible for transmitting billions of dollars for consumers to locations around the world. Improper practices can result in loss of consumer funds and movement of money promoting or derived from unlawful activity. This measure makes various updates to clarify and strengthen Hawaii's Money Transmitters Act, including clarifying permissible investment requirements for money transmitter licensees and updating requirements for applications, extraordinary reporting requirements, change in control of licensee, and criminal history record checks. This measure also improves licensee compliance, enhances the Division of Financial Institutions' ability to effectively administer the money transmitters law, ensures the law is more clearly applicable to new technology and creative payment options, and enhances consumer protection by strengthening requirements for background information on persons associated with a money transmitter licensee.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 949, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 949, S.D. 1, and be referred to your Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 2 (Ihara, Kidani).

SCRep. 165 (Joint) Transportation and Energy and Public Safety, Intergovernmental, and Military Affairs and Commerce, Consumer Protection, and Health on S.B. No. 909

The purpose and intent of this measure is to provide policy guidance on preparing for, responding to, recovering from, and mitigating against any actual or potential energy supply disruption or shortage to preserve the State's energy security and to ensure that fuel products and energy resources are made available to emergency services and the public in an orderly, efficient, and safe manner.

Your Committees received testimony in support of this measure from the Department of Transportation; Department of Business, Economic Development, and Tourism; Department of Accounting and General Services; State Department of Defense Office of Homeland Security; Department of Emergency Management; Hawaii Emergency Management Agency; County of Kauai Emergency Management Agency; Hawaii Natural Energy Institute; The Maritime Group, LLC; and one individual. Your Committees received comments on this measure from the Office of Information Practices and Island Energy.

Your Committees find that ensuring that officials have proper guidance in case of an energy supply disruption or shortage is vital to protecting energy resources and providing stability in a time of crisis. In case of an energy supply shortage, it is essential that

emergency services and the public have access to energy resources and can access those resources in an orderly and well-defined manner. Accordingly, this measure:

- (1) Provides up-to-date policy guidance on data and analysis required to prepare for, respond to, and mitigate against an actual or potential energy supply disruption or shortage;
- (2) Provides protection for confidential information collected to effectuate those purposes; and
- (3) Clarifies the powers of the Governor and the Director of Business, Economic Development, and Tourism in an energy shortage or state of emergency.

Your Committees have amended this measure by:

- (1) Clarifying, upon the recommendation of the Office of Information Practices, that certain information the Department of Business, Economic Development, and Tourism receives shall be afforded all protections from disclosure allowed under chapter 92F, Hawaii Revised Statutes; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Transportation and Energy, Public Safety, Intergovernmental, and Military Affairs, and Commerce, Consumer Protection, and Health that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 909, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 909, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Transportation and Energy: Ayes, 3. Noes, none. Excused, 2 (English, Harimoto).

Public Safety, Intergovernmental, and Military Affairs: Ayes, 3. Noes, none. Excused, 2 (Thielen, Wakai).

Commerce, Consumer Protection, and Health: Ayes, 4. Noes, none. Excused, 3 (Chang, Kidani, Ruderman).

SCRep. 166 Public Safety, Intergovernmental, and Military Affairs on S.B. No. 519

The purpose and intent of this measure is to specify that citizen complaints against a police officer that involve allegations of domestic violence against a family or household member by the police officer shall not be required to be in writing or sworn to by the complainant.

Your Committee received testimony in support of this measure from the Hawaii State Commission on the Status of Women, American Association of University Women Hawaii, Domestic Violence Action Center, Hawaii Women's Coalition, and Hawaii State Coalition Against Domestic Violence. Your Committee received testimony in opposition to this measure from the State of Hawaii Organization of Police Officers.

Your Committee finds that curtailing domestic violence is important for the health, safety, and welfare of citizens and that a vital part of reducing domestic violence is ensuring that those reporting acts of domestic violence feel secure and confident in coming forward with complaints. The fear of chilling the voices of those wishing to report acts of domestic violence is particularly worrisome when those reports complain of acts of domestic violence perpetrated by a police officer against a family or household member. Accordingly, this measure allows an individual to make a complaint against a police officer alleging an act of domestic violence against a family or household member without being required to swear to or make the complaint in writing.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 519, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 519, S.D. 1, and be referred to your Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 167 Public Safety, Intergovernmental, and Military Affairs on S.B. No. 898

The purpose and intent of this measure is to:

- (1) Allow, upon application by a law enforcement officer and issuance of a warrant by a court, law enforcement to seize and retain firearms or ammunition owned, possessed, or controlled by a person who poses a serious risk of violence or harm to public safety; and
- (2) Allow a court to decide whether to retain seized firearms and ammunition upon a hearing to determine if the person does pose a risk of violence or harm to the public.

Your Committee received testimony in support of this measure from the Department of the Attorney General, City and County of Honolulu Police Department, County of Hawaii Police Department, and County of Kauai Police Department. Your Committee received testimony in opposition to this measure from the National Rifle Association Hawaii, Institute for Rational and Evidence-based Legislation, Lessons in Firearms Education Hawaii, and eighteen individuals. Your Committee received comments on this measure from one individual.

Your Committee finds that preventing persons who pose a serious risk of violence or harm to the public from accessing firearms or ammunition is critical to ensuring public safety. Currently, there is little that law enforcement officers can do to prevent an individual from gaining possession of and subsequently using a firearm even when the officers are aware that the individual may pose a serious risk of violence or harm to the public. Accordingly, this measure:

- (1) Allows law enforcement officers in the State to seize and retain firearms or ammunition owned, possessed, or controlled by a person who poses a serious risk of violence or harm to public safety upon submission to a court of an affidavit stating why the officer believes the person poses a serious risk of violence or harm to public safety and the issuance of a warrant by the court;
- (2) Requires the court to conduct a hearing within thirty days of the issuance of the warrant to determine whether the person does pose a serious risk of violence or harm to the public; and
- (3) Allows the court to return seized firearms and ammunition to the person if the court finds that the person does not pose a serious risk of violence or harm to the public or retain the firearms until the court orders their return if the court finds that the person does pose a serious risk of violence or harm to the public.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 898, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 898, S.D. 1, and be referred to your Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.

Ayes, 5; Ayes with Reservations (Wakai). Noes, none. Excused, none.

SCRep. 168 Public Safety, Intergovernmental, and Military Affairs on S.B. No. 996

The purpose and intent of this measure is to create an exception for corrections agencies to subject employees or prospective employees to a lie detector test.

Your Committee received testimony in support of this measure from the Department of Public Safety and one individual.

Your Committee finds that the hiring of high-quality employees by the Department of Public Safety, particularly in corrections agencies, is vital to protecting the health, safety, and welfare of the public. One way to increase the quality of employees is through the administration of lie detector tests to employees or prospective employees. Accordingly, this measure creates an exception for corrections agencies, thereby allowing them to, among other things, require employees or prospective employees to submit to a lie detector test as a condition of employment or continued employment and to further allow corrections agencies to terminate or discriminate against employees or prospective employees who refuse to submit to a lie detector test.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 996, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 996, S.D. 1, and be referred to your Committees on Judiciary and Labor and Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Ihara).

SCRep. 169 Public Safety, Intergovernmental, and Military Affairs on S.B. No. 506

The purpose and intent of this measure is to:

- (1) Provide certain rights to sexual assault victims;
- (2) Institute mandatory sexual assault evidence kit testing requirements in accordance with guidelines established by the Department of the Attorney General through the malama kakou project;
- (3) Require the Department of the Attorney General to report annually to the Legislature on statistical data pertaining to the testing of sexual assault evidence collection kits; and
- (4) Require the Department of the Attorney General to report to the legislature by the beginning of the 2018 regular session on the progress of implementing the guidelines.

Your Committee received testimony in support of this measure from the Hawaii State Commission on the Status of Women; Office of the Prosecuting Attorney, County of Hawai'i; Department of the Prosecuting Attorney for the City and County of Honolulu; Honolulu Police Department; American Association of University Women Hawaii; Community Alliance on Prisons; Hawaii Women's Coalition; Planned Parenthood Votes Northwest and Hawaii; The Sex Abuse Treatment Center; Hawaii State Coalition Against Domestic Violence; Joyful Heart Foundation; and one individual. Your Committee received comments on this measure from the Department of the Attorney General.

Your Committee finds that the efficient and proper testing of sexual assault evidence kits is essential to maintaining the health, safety, and welfare of the public. An inventory of all stored sexual assault evidence collection kits as required by the Legislature in 2016 found that regular and systematic testing of these kits by county police departments has been inadequate. Further, the Legislature directed the Department of the Attorney General to convene a working group, referred to as the malama kakou project, to develop statewide standards and practices for the testing of sexual assault evidence collection kits. The project developed a plan to reform the testing of sexual assault evidence collection kits and established guidelines to determine whether a kit should be tested, a priority order for kits that are to be tested, and a process for police departments to follow in implementing the defined criteria and priorities. Implementation of these guidelines and corresponding accountability measures should increase the frequency of the testing of sexual assault evidence collection kits and help to better protect the rights of sexual assault victims.

Your Committee acknowledges the concerns of the Director of the City and County of Honolulu's Scientific Investigation Center that an accredited outside laboratory may be too busy to accept a sexual assault evidence collection kit from a law enforcement agency within an established ninety-day deadline.

Your Committee is also concerned that simply applying a deadline for a law enforcement agency to submit a request to an accredited outside laboratory for the testing of a sexual assault evidence collection kit may not result in actually obtaining test results. Therefore, your Committee believes that an amendment to this measure is necessary to require a submitting law enforcement agency to follow up on any testing submitted to an accredited outside laboratory.

Your Committee also understands the concerns that the Office of the Prosecuting Attorney of the County of Hawai'i and The Sex Abuse Treatment Center raised in their testimony about the inapplicability of sexual assault survivor's rights to backlogged sexual assault evidence collection kits currently being tested. According to the testimony, survivors of past sexual assaults may experience trauma if they are notified that a tested kit did not result in any actionable "hits". It has therefore been recommended to your Committee that survivors of past sexual assaults be allowed to request test results, but not be affirmatively notified.

Your Committee is unclear, however, as to why a survivor of a sexual assault this year can be affirmatively notified of the test results, but a survivor of a sexual assault last year would be traumatized by a similar affirmative notification. Your Committee finds that there may be a justification for treating test result notification for older sexual assault evidence collection kits differently than more recent kits, but on its face, such a requirement appears inconsistent and to grant less notification and rights to survivors of all previous sexual assaults compared to prospective survivors. Perhaps, as this measure moves forward, the testifying organizations may be able to provide some clarification addressing your Committee's concerns.

Your Committee has amended this measure by:

- (1) Requiring the law enforcement agency that submits a request for the testing of a sexual assault evidence collection kit to an accredited outside laboratory to follow up on the testing to obtain test results within ninety days of the request; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

Your Committee acknowledges the testimony of the Department of the Attorney General requesting funding for additional prospective sexual assault evidence collection kits that are not covered by federal Sexual Assault Kit Initiative (SAKI) grants. The Department of the Attorney General's request appears to be a request to cover operational costs of law enforcement, and the specific amount appears to be an estimate based on the number of sexual assault evidence collection kits tested in prior years. Your Committee recommends that this matter of funding be considered by your Committees on Judiciary and Labor and Ways and Means if they choose to hear this measure.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 506, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 506, S.D. 1, and be referred to your Committees on Judiciary and Labor and Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Ihara).

SCRep. 170 Public Safety, Intergovernmental, and Military Affairs on S.B. No. 614

The purpose and intent of this measure is to delete the sunset provision for Act 139, Session Laws of Hawaii 2012, as amended, to make permanent provisions of the Act regarding pretrial risk assessments and parole.

Your Committee received testimony in support of this measure from the Department of Public Safety, Hawaii Paroling Authority, Progressive Democrats of Hawaii, Community Alliance on Prisons, American Civil Liberties Union of Hawai'i, and six individuals.

Your Committee finds that overcrowding in jails and prisons is a growing concern and a situation that can lead to negative impacts for the public. One factor that contributes to overcrowding is the lack of or inefficient granting of parole. Another factor is the length of time that pre-trial offenders are held in custody. The Legislature addressed these problems previously, and as a result, the courts and the parole authority have been able to work with greater efficiency. Accordingly, this measure is to ensure the continued improvement of efficiency in parole decisions and pretrial risk assessment by making a measure previously enacted by the Legislature permanent.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 614 and recommends that it pass Second Reading and be referred to your Committees on Judiciary and Labor and Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Ihara).

SCRep. 171 Public Safety, Intergovernmental, and Military Affairs on S.B. No. 674

The purpose and intent of this measure is to:

- (1) Create procedural and administrative requirements for law enforcement agencies for eyewitness identifications of suspects in criminal investigations;
- (2) Establish jury instructions when the court determines that the eyewitness identification is admissible; and
- (3) Require the Attorney General to establish procedures for the implementation of uniform statewide eyewitness identification procedures.

Your Committee received testimony in support of this measure from Hawai'i Innocence Project, Community Alliance on Prisons, and two individuals. Your Committee received testimony in opposition to this measure from the Department of the Prosecuting

Attorney of the City and County of Honolulu. Your Committee received comments on this measure from the United States Department of Justice Office of the Deputy Attorney General, Hawaii Supreme Court Standing Committee on the Hawai'i Rules of Evidence, and Department of the Attorney General.

Your Committee finds that the use of proper eyewitness identification procedures by law enforcement is critical to protecting individual rights and personal liberty. While law enforcement in the State has its own procedures for eyewitness identifications, there are no uniform standards that ensure that law enforcement is engaging in the best practices that will offer the greatest protections for individuals.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 674 and recommends that it pass Second Reading and be referred to your Committees on Judiciary and Labor and Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 172 Public Safety, Intergovernmental, and Military Affairs on S.B. No. 131

The purpose and intent of this measure is to appropriate funds as a grant to Empower O'ahu to maintain and expand the weed and seed strategy for reclaiming and restoring local communities.

Your Committee received testimony in support of this measure from the Department of the Attorney General and twenty-four individuals.

Your Committee finds that the United States Department of Justice's weed and seed strategy is a proven strategy for preventing, controlling, and reducing violent crime and drug abuse. The strategy calls for local law enforcement to "weed out" the criminal element in neighborhoods then for public agencies and private entities to work together to "seed" the communities with human services that include prevention, intervention, treatment, and neighborhood revitalization. The strategy has been implemented successfully in the Kalihi-Palama and Chinatown areas of downtown Honolulu, and those successes warrant an expansion of the program into other communities. Accordingly, this measure appropriates \$400,000 as a grant to Empower O'ahu to maintain and expand the weed and seed strategy.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 131 and recommends that it pass Second Reading and be referred to your Committees on Judiciary and Labor and Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Ihara).

SCRep. 173 Public Safety, Intergovernmental, and Military Affairs on S.B. No. 603

The purpose and intent of this measure is to create restrictions and guidelines on the use of administrative segregation and disciplinary segregation in correctional facilities.

Your Committee received testimony in support of this measure from the Community Alliance on Prisons, American Civil Liberties Union of Hawai'i, and seventeen individuals. Your Committee received testimony in opposition to this measure from the Department of Public Safety and United Public Workers, AFSCME, Local 646, AFL-CIO.

Your Committee finds that administrative or disciplinary segregation on inmates is a significant action taken against inmates and use of either requires clearly established guidelines. Administrative and disciplinary segregation are actions ripe for abuse, and the impacts of any such abuse can be harmful and long-lasting. Accordingly, this measure:

- (1) Establishes the maximum length of time that an inmate may be held in administrative or disciplinary segregation;
- (2) Establishes procedures for continued placement in administrative or disciplinary segregation;
- (3) Creates restrictions on the deprivation of certain necessities of an inmate in administrative or disciplinary segregation;
- (4) Establishes guidelines for the use of administrative or disciplinary segregation on a member of a vulnerable population; and
- (5) Establishes criteria for classifying an inmate as a member of a vulnerable population.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 603 and recommends that it pass Second Reading and be referred to your Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Ihara).

SCRep. 174 Public Safety, Intergovernmental, and Military Affairs on S.B. No. 108

The purpose and intent of this measure is to require law enforcement agencies, including county police departments, to make personnel knowledgeable in and implement the Law Enforcement Assisted Diversion approach.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources; Community Alliance on Prisons; Drug Policy Forum of Hawai'i; FACE; Harm Reduction Hawaii; Hawai'i Friends of Restorative Justice; Hawaii Substance Abuse Coalition; Ho'omana Pono, LLC; IHS, The Institute for Human Services, Inc.; The Salvation Army; YWCA O'ahu; Mental Health America of Hawai'i; American Civil Liberties Union of Hawai'i; The CHOW Project; Action with Aloha; Hawaii Youth Services Network; Young Progressives Demanding Action; and twenty-five individuals. Your Committee received testimony in

opposition to this measure from the Department of Public Safety and one individual. Your Committee received comments on this measure from the Department of Health and Governor's Coordinator on Homelessness.

Your Committee finds that reducing the criminal behavior of individuals engaged in low-level offenses is a worthwhile endeavor that will improve public safety and order. The Law Enforcement Assisted Diversion (LEAD) concept, originating in Seattle in 2011, is an approach to addressing the criminal behavior of individuals engaged in low-level offenses that has shown great early success in a number of jurisdictions across the country. The LEAD approach allows law enforcement officers to refer willing low-level offenders to social, psychological, or civil legal services as an alternative to arrest.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 108 and recommends that it pass Second Reading and be referred to your Committees on Judiciary and Labor and Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Ihara).

SCRep. 175 Public Safety, Intergovernmental, and Military Affairs on S.B. No. 862

The purpose and intent of this measure is to allow counties with populations less than one hundred thousand to enact a zoning ordinance to amortize or phase out nonconforming single-family transient vacation rental units over a reasonable period of time.

Your Committee received testimony in support of this measure from the County of Kaua'i Planning Department and four individuals. Your Committee received testimony in opposition to this measure from the Hawai'i Association of REALTORS, Rental By Owner Awareness Association, and one individual.

Your Committee finds that single-family transient vacation rentals create significant zoning and zoning enforcement issues, particularly in the State's less populated counties. There is a persistent issue regarding whether single-family transient vacation rentals should be treated as residential or resort units. Accordingly, this measure would allow counties with populations less than one hundred thousand to address this ongoing concern by enacting a zoning ordinance to amortize or phase out nonconforming single-family transient vacation rental units over a reasonable period of time.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 862 and recommends that it pass Second Reading and be referred to your Committee on Commerce, Consumer Protection, and Health.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 176 Public Safety, Intergovernmental, and Military Affairs on S.B. No. 1000

The purpose and intent of this measure is to authorize crime victim compensation for mental health services for surviving relatives in cases involving a death caused by a violent crime and for children witnesses in cases of abuse of family or household members.

Your Committee received testimony in support of this measure from the Department of the Prosecuting Attorney for the City and County of Honolulu, Crime Victim Compensation Commission, Hawaii State Coalition Against Domestic Violence, Mothers Against Drunk Driving Hawaii, The Sex Abuse Treatment Center, and three individuals.

Your Committee finds that providing compensation for mental health services for surviving family members of those who die from violent crimes and children who witness physical abuse of a family or household member is important for protecting the health, safety, and well-being of these vulnerable citizens. Surviving family can experience significant psychological trauma after the loss of a family member because of violent crime. Likewise, a child who witnesses the physical abuse of a family or household member will often experience significant psychological trauma that can, if untreated, negatively impact the individual for a statutes lack coverage for the families of victims whose death is the result of a violent crime and compensation for children who witness physical abuse of family or household members. Accordingly, this measure addresses the needs of these vulnerable groups by authorizing crime victim compensation for mental health services for survivors in cases involving a death and for children who witness domestic violence.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1000 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 177 Education on S.B. No. 49

The purpose and intent of this measure is to amend the law relating to education.

Prior to the hearing on this measure, your Committee posted and made available for public review a proposed S.D. 1, which amends this measure by deleting its contents and replacing it with language to require the Department of Education to collaborate with the Workforce Development Council on workforce development initiatives.

Your Committee has amended this measure by adopting the proposed S.D. 1.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 49, as amended herein, and recommends that it be recommitted to your Committee on Education, in the form attached hereto as S.B. No. 49, S.D. 1, for further consideration.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Espero, Riviere).

SCRep. 178 Education on S.B. No. 198

The purpose and intent of this measure is to:

- (1) Require that every charter school governing board be a nonprofit organization whose primary purpose is operating the charter school;
- (2) Prohibit comingling of monies distributed by the State or federal government for the purpose of operating a charter school with other monies that do not have an educational purpose that benefits the charter school; and
- (3) Require charter schools to indemnify the State against any claims arising from misconduct of the school or the governing board.

Your Committee received testimony in support of this measure from the State Public Charter School Commission and one individual. Your Committee received testimony in opposition to this measure from the Hawaii Educational Policy Center and one individual. Your Committee received comments on this measure from the Department of the Attorney General and Hawaii Public Charter Schools Network.

Your Committee finds that public charter schools are crucial to the State's commitment to provide a quality education to all students in Hawaii. As public institutions, charter schools receive monies from the State and are accountable to the State and the people of Hawaii. Your Committee further finds that additional oversight measures are appropriate to ensure the responsible management of public charter schools and the best educational environment possible for charter school students.

Your Committee additionally finds that the State is prohibited by the Constitution of the State of Hawaii from providing public monies to private schools. Your Committee also finds that requiring charter school governing boards to be nonprofit organizations has the potential to jeopardize the status of those schools as public entities.

Your Committee has amended this measure by:

- (1) Removing the requirement that charter school governing boards be nonprofit organizations;
- (2) Removing the requirement that charter schools and governing boards indemnify the State for claims arising from misconduct by the charter school or members of the governing board;
- (3) Inserting language prohibiting any action of a charter school or its governing board from giving rise to a private cause of action against the State;
- (4) Inserting language requiring all contracts in excess of a minimum amount specified by the State Public Charter School Commission to contain provisions and conditions provided by the Department of the Attorney General; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 198, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 198, S.D. 1, and be referred to your Committees on Ways and Means and Judiciary and Labor.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Dela Cruz).

SCRep. 179 Education on S.B. No. 683

The purpose and intent of this measure is to propose amendments to the Constitution of the State of Hawaii to advance the State's goal of providing a quality education for the children of Hawaii by authorizing the Legislature to establish, as provided by law, a surcharge on residential investment property and visitor accommodations.

Your Committee received testimony in support of this measure from the Hawaii State Teachers Association, Democratic Party of Hawaii, Hui for Excellence in Education, IMUAlliance, Hawaii Children's Action Network, Parents for Public Schools of Hawaii, Hawaii Alliance for Progressive Action, Hawaii Public Charter Schools Network, Hawaii Island School Garden Network, Graduate Student Organization of the University of Hawaii at Manoa, Hawaii Democratic Party Labor Caucus, Americans for Democratic Action, and more than one hundred seventy-five individuals. Your Committee received testimony in opposition to this measure from the Office of the Mayor of the County of Hawaii, Chamber of Commerce Hawaii, Rental by Owner Awareness Association, Wyndham Vacation Ownership, Maui Chamber of Commerce, Building Industry Association of Hawaii, Coalition for Equal Taxation, Hawaii Association of REALTORS, American Resort Development Association, Hawaii Lodging and Tourism Association, and six individuals. Your Committee received comments on this measure from the Department of Budget and Finance, Office of the Managing Director of the City and County of Honolulu, and Tax Foundation of Hawaii.

Your Committee finds that Hawaii's public schools are severely underfunded. When compared to other school districts of similar size, the State ranks two hundred twenty-seventh in per-pupil funding before adjusting for cost of living. This lack of adequate funding has resulted in classrooms overheating because of insufficient heat abatement measures and an inability to repair and renovate deteriorating facilities.

Your Committee further finds that Hawaii is facing a teacher shortage crisis that is primarily due to the State's public school teachers receiving low compensation packages. Studies indicate that Hawaii's beginning teacher salaries are approximately \$4,000 lower than the national average, and that teachers with ten to twenty years of experience have salaries that are \$15,000 to \$20,000 lower on average than their counterparts in comparable districts. This has led to an average of three hundred fifty-nine unfilled teaching positions in the Department of Education from 2011 to 2014, rising to five hundred thirty-one unfilled positions for the 2016-2017 school year.

Your Committee additionally finds that Hawaii is the only State that does not fund education through property taxes. A surcharge on investment properties and visitor accommodations will provide much needed funding for the State's public schools and bring Hawaii's education funding policy closer to other school districts of similar size. This measure will amend the Constitution of the State of Hawaii to facilitate that surcharge.

Your Committee has amended this measure by:

- (1) Removing the language amending Article VIII, Section 3, of the Constitution of the State of Hawaii authorizing the State to establish a surcharge on residential investment property, and inserting functionally similar language in a new section in Article VII; and
- (2) Adding language to the question to be printed on the ballot to further elaborate on the purpose of the proposed amendment.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 683, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 683, S.D. 1, and be referred to your Committees on Ways and Means and Judiciary and Labor.

Signed by the Chair on behalf of the Committee.

Ayes, 4; Ayes with Reservations (Riviere). Noes, none. Excused, 1 (Kahele).

SCRep. 180 (Joint) Commerce, Consumer Protection, and Health and Higher Education on S.B. No. 134

The purpose and intent of this measure is to promote positive health practices and protect University of Hawaii students, employees, and visitors from exposure to secondhand smoke by prohibiting smoking, including the use of electronic smoking devices, and tobacco use on University of Hawaii premises.

Your Committees received testimony in support of this measure from the Department of Health, Department of Education, University of Hawai'i System, American Heart Association, Hawai'i Public Health Institute, Student Health Advisory Council, American Cancer Society Cancer Action Network, and nine individuals. Your Committees received testimony in opposition to this measure from United Public Workers, University of Hawaii Professional Assembly, Hawaii Smokers Alliance, and sixteen individuals. Your Committees received comments on this measure from the University of Hawai'i Student Caucus.

Your Committees find that tobacco use continues to be the single most preventable cause of death and disability in the United States and Hawaii. Cigarette smoking alone is responsible for more deaths than HIV/AIDS, alcohol, motor vehicle crashes, homicide, suicide, and illegal drugs combined. Your Committees further find that the growing popularity of electronic smoking devices is a public health concern, as sales of electronic smoking devices nationwide have doubled each year since 2008.

Your Committees find that tobacco-free college and university campuses present an opportunity to protect over 20,000,000 people across the country from the effects of smoking, as well as a key opportunity to protect youth and young adults from the harm of tobacco and electronic cigarette use. According to the American Nonsmokers' Rights Foundation, as of January 2017, nearly 1,500 colleges and universities nationwide have adopted a completely tobacco-free policy. Many colleges and universities are also including electronic smoking devices in their campus-wide bans. Your Committees note that the benefits of a smoke-free campus go beyond health, increasing productivity and decreasing use of sick time, decreasing employee health care costs, decreasing the risk of fire, and possibly decreasing litter control and maintenance expenses for facilities and grounds. Your Committees find that establishing a smoke-free policy at University of Hawai'i System campuses will demonstrate Hawaii's continued commitment to health.

As affirmed by the records of votes of the members of your Committees on Commerce, Consumer Protection, and Health and Higher Education that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 134 and recommend that it pass Second Reading and be referred to your Committee on Judiciary and Labor.

Signed by the Chairs on behalf of the Committees.

Commerce, Consumer Protection, and Health: Ayes, 5. Noes, none. Excused, 2 (Ihara, Nishihara).

Higher Education: Ayes, 3. Noes, none. Excused, 2 (Keith-Agaran, Taniguchi).

SCRep. 181 (Joint) Higher Education and Agriculture and Environment on S.B. No. 806

The purpose and intent of this measure is to address the budgetary shortfalls experienced by the University of Hawaii at Manoa College of Tropical Agriculture and Human Resources Cooperative Extension Service by appropriating funds for one full-time equivalent position within the extension.

Your Committees received testimony in support of this measure from the Department of Agriculture, University of Hawai'i System, University of Hawaii at Manoa College of Tropical Agriculture and Human Resources, Hawaii Farm Bureau, Hawaii Farmers Union United, Farm Lovers Farmers' Markets, Aina Ho'okupu o Kilauea, Hawaii Floriculture and Nursery Association, Landscape Industry Council of Hawaii, and eighteen individuals.

Your Committees find that the University of Hawaii at Manoa College of Tropical Agriculture and Human Resources is in critical need of personnel for its cooperative extension service. The extension faculty workforce has decreased forty-three percent over the past twenty years, and twenty-seven percent over the past six years alone. Your Committees further find that the cooperative extension service is critical to growers of ornamental plants and the landscape industry in Hawaii, and that floriculture and nursery crops represent a \$67,000,000 industry in the State. Your Committees note the University of Hawai'i System's testimony explaining the unique circumstances of funding for agricultural research and extension in Hawaii, and find that funding a full-time equivalent position within the College of Tropical Agriculture and Human Resources cooperative extension service is vital to strengthening communities and sustaining Hawaii's agricultural economy.

As affirmed by the records of votes of the members of your Committees on Higher Education and Agriculture and Environment that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 806 and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Higher Education: Ayes, 5. Noes, none. Excused, none.

Agriculture and Environment: Ayes, 4. Noes, none. Excused, 1 (Nishihara).

SCRep. 182 (Joint) Higher Education and Agriculture and Environment on S.B. No. 1082

The purpose and intent of this measure is to support the University of Hawaii at Hilo's agricultural program and agricultural farm by appropriating funds for one full-time farm coordinator position and for equipment for the Hawaii Community College Agriculture Program.

Your Committees received testimony in support of this measure from the Department of Agriculture, University of Hawai'i System, Hawaii Farmers Union United, Hawaii Cattlemen's Council, Hawaii Farm Bureau, Farm Lovers Farmers' Markets, A'a Li'i Farm, and nineteen individuals. Your Committees received testimony in opposition to this measure from one individual.

Your Committees find that student interest in the Hawaii Community College Agriculture Program has grown in recent years and the program averages around thirty majors each year. The program prepares students for employment in government service, agribusiness, horticulture, livestock, flowers and foliage, landscape, macadamia nuts, papaya, and coffee industries. Your Committees note that, currently, production at the University of Hawaii at Hilo's agricultural farm, which serves as a live instructional laboratory for both Hawaii Community College and University of Hawaii at Hilo students, is unable to meet demand, and that additional funding for personnel and equipment would help meet the demand. Your Committees find that supporting the efforts of the Hawaii Community College Agriculture Program is important in order to increase Hawaii's self-sufficiency and sustainability efforts as well as to foster a new generation of agriculturalists throughout the State.

As affirmed by the records of votes of the members of your Committees on Higher Education and Agriculture and Environment that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1082 and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Higher Education: Ayes, 5. Noes, none. Excused, none.

Agriculture and Environment: Ayes, 4. Noes, none. Excused, 1 (Nishihara).

SCRep. 183 (Joint) Higher Education and Commerce, Consumer Protection, and Health on S.B. No. 730

The purpose and intent of this measure is to establish the global primary care training program that combines the Hilo medical center primary care training program and the University of Hawaii family medicine residency program.

Your Committees received testimony in support of this measure from two individuals. Your Committees received comments on this measure from the University of Hawai'i System.

Your Committees find that Hawaii faces a severe shortage of healthcare providers, especially in primary care where most prevention, early intervention, and healthcare cost savings occur. Your Committees further find that healthcare throughout the State will benefit from allowing and encouraging collaboration between the State's two training programs that reduce the impact of the shortage of primary care providers in Hawaii.

As affirmed by the records of votes of the members of your Committees on Higher Education and Commerce, Consumer Protection, and Health that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 730 and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Higher Education: Ayes, 5. Noes, none. Excused, none.

Commerce, Consumer Protection, and Health: Ayes, 5. Noes, none. Excused, 2 (Ihara, Nishihara).

SCRep. 184 (Joint) Higher Education and Water and Land and Agriculture and Environment on S.B. No. 272

The purpose and intent of this measure is to support programs, studies, and activities related to the prevention and eradication of rat lungworm disease by appropriating funds to the University of Hawaii at Hilo, Department of Health, Department of Land and Natural Resources, and Department of Agriculture.

Your Committees received testimony in support of this measure from the Department of Land and Natural Resources, Department of Agriculture, University of Hawai'i System, Hawaii Farm Bureau, Big Island Invasive Species Committee, Hawaii Farmers Union United, Hawaii Island School Garden Network, Coordinating Group on Alien Pest Species, and forty-eight individuals. Your Committees received comments on this measure from the Department of Health.

Your Committees find that rat lungworm disease is a relatively new, but very serious, pathogen that plagues the consumption of fresh produce grown in Hawaii. Over the past fifteen years, cases of rat lungworm disease in Hawaii have been increasing in number and severity, in particular throughout areas of the Island of Hawaii. Rat lungworm disease can cause a rare type of meningitis that is extremely painful, debilitating, and even deadly. Furthermore, an extreme case of rat lungworm disease can cost over \$1,000,000. Your Committees find that more research and public education are vital to understanding and preventing this disease.

Your Committees note the significant amount of testimony received in support of this measure, and recognize the need for numerous departments to be active participants in the fight to combat rat lungworm disease. However, your Committees find that funding for efforts to address this disease need to be centralized with one entity to ensure the most efficient use of the State's resources. Your Committees further find that it is essential to the well-being of Hawaii residents, particularly those on the Island of Hawaii, that the University of Hawaii at Hilo work with the other state departments and the Joint Rat Lungworm Task Force created in 2016 at the request of the Governor, to create a coordinated, statewide plan for addressing this important public health concern.

Accordingly, your Committees have amended this measure by:

- (1) Deleting the appropriations to the Department of Health, Department of Land and Natural Resources, and Department of Agriculture in order to streamline all funding for the prevention and eradication of rat lungworm disease through one entity, the University of Hawaii at Hilo;
- (2) Inserting a blank appropriation amount for the University of Hawaii at Hilo for rat lungworm prevention and eradication;
- (3) Including language requiring the University of Hawaii at Hilo to collaborate with the Department of Health, Department of Land and Natural Resources, Department of Agriculture, and the Governor's Joint Rat Lungworm Task Force to establish and implement efforts to prevent and eradicate rat lungworm disease;
- (4) Inserting language requiring the University of Hawaii at Hilo to submit a comprehensive, multi-agency plan to the Legislature regarding efforts to address rat lungworm disease before the appropriated funds may be released to the University; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Higher Education, Water and Land, and Agriculture and Environment that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 272, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 272, S.D. 1, and be referred to your Committees on Commerce, Consumer Protection, and Health and Ways and Means.

Signed by the Chairs on behalf of the Committees.

Higher Education: Ayes, 3. Noes, none. Excused, 2 (Keith-Agaran, Taniguchi).

Water and Land: Ayes, 4. Noes, none. Excused, 1 (Kim).

Agriculture and Environment: Ayes, 4. Noes, none. Excused, 1 (Nishihara).

SCRep. 185 (Majority) Judiciary and Labor on S.B. No. 249

The purpose and intent of this measure is to:

- (1) Establish that a member of the Employees' Retirement System who first earned credited service as a judge after June 30, 2017, and has at least twelve years of credited service and attained age sixty, or has at least twenty-five years of credited service and has attained age fifty-five is eligible to receive a pension after retirement; and
- (2) Reduce the percentage of average final compensation used to calculate the retirement allowance for a member who first earned credited service as a judge after June 30, 2017, to two per cent.

Your Committee received testimony in support of this measure from one individual. Your Committee received testimony in opposition to this measure from the Judiciary, Hawai'i State Trial Judges Association, University of Hawaii Professional Assembly, and fourteen individuals. Your Committee received comments on this measure from the Employees' Retirement System.

Your Committee finds that there have been various revisions to the Employees' Retirement System, and implementation of this measure is necessary to maintain reasonable and fair benefits under the Employees' Retirement System.

Your Committee has amended this measure by:

- (1) Reducing the number of years of credited service required for pension eligibility for a member of the Employees' Retirement System, who first earned credited service as a judge after June 30, 2017, and attained age sixty, from twelve to ten years; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 249, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 249, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, 2 (Gabbard, Thielen). Excused, none.

SCRep. 186 Judiciary and Labor on S.B. No. 440

The purpose and intent of this measure is to:

- (1) Increase the fine imposed on a noncandidate committee that makes only independent expenditures and either receives certain contributions or makes a certain amount of expenditures in an election period;
- (2) Authorize the Campaign Spending Commission to order a person in violation of campaign finance laws to pay for costs of investigative services and bank fees for the production of subpoenaed documents incurred by the Commission due to the violation; and
- (3) Direct any costs recovered by the Campaign Spending Commission to be deposited into the Hawaii election campaign fund.

Your Committee received testimony in support of this measure from the Campaign Spending Commission, League of Women Voters of Hawaii, and Common Cause Hawaii.

Your Committee finds that by increasing the fine that may be assessed against a noncandidate committee making only independent expenditures, more commonly known as political action committees or Super PACs, for campaign finance law violations, this measure takes into account inflation and the current political landscape as a result of *Citizens United v. Federal Election Commission*, 558 U.S. 310 (2010), which allowed private entities to donate unlimited amounts of money into elections. Furthermore, directing costs recovered by the Campaign Spending Commission to be deposited into the Hawaii election campaign fund will assist in supporting the sustainability of the fund and the State's partial public funding program.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 440, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 440, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Gabbard).

SCRep. 187 Judiciary and Labor on S.B. No. 441

The purpose and intent of this measure is to amend the electioneering communication law by:

- (1) Clarifying that the disclosure date of an electioneering communication for which a statement of information is required to be filed with the Campaign Spending Commission is any date on which an electioneering communication is publicly distributed, if actions taken by the person making the electioneering communication meet certain conditions; and
- (2) Amending the definition of "electioneering communication" to:
 - (A) Clarify that all mailers, rather than only mailers sent at bulk rate, are included as an electioneering communication; and
 - (B) Delete language that excludes expenditures by expending organizations as an electioneering communication, for purposes of consistency.

Your Committee received testimony in support of this measure from the Campaign Spending Commission. Your Committee received testimony in opposition to this measure from the Libertarian Party of Hawaii.

Your Committee finds that this measure provides necessary housekeeping amendments to clarify the disclosure date of an electioneering communication, which impacts the filing of a statement of information, and the types of communication that comprise an electioneering communication.

Your Committee notes that with the proliferation of social media, online electronic communications for elections have increased over the years. Your Committee believes that this mode of electioneering communication merits further discussion as this measure moves through the legislative process.

Your Committee has amended this measure by:

- (1) Inserting an effective date of January 7, 2059, to encourage further discussion; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 441, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 441, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Gabbard).

SCRep. 188 Judiciary and Labor on S.B. No. 615

The purpose and intent of this measure is to:

- (1) Establish a maritime industry grant program within the Department of Labor and Industrial Relations (Department) for the Department to award grants to qualified shipyards;
- (2) Establish eligibility requirements for the award of grants and reporting requirements for the maritime industry grant program;
- (3) Exempt the grants from chapters 42F, 103D, and 103F, Hawaii Revised Statutes; and
- (4) Appropriate funds to the Department for the awarding of grants under the maritime industry grant program.

Your Committee received testimony in support of this measure from the Department of Labor and Industrial Relations, Office of the Auditor, and Pacific Shipyards. Your Committee received comments on this measure from the State Procurement Office.

Your Committee finds that this measure builds upon the success of a pilot project that was collaboratively designed and implemented in 2015 by the Department to develop local talent for maritime welding and ship repair. The impetus of this pilot project was an insufficient number of local, qualified workers that forced employers to import mainland talent at high costs and turnover rates. The pilot project provided recruitment services, internships, and an accelerated maritime welding course that resulted in thirteen trainees being hired by the shipyard. This measure enables the Department to expand the pilot project so that more local, qualified workers can be recruited to fill more high-skilled occupations in the shipyard.

Your Committee notes the testimony of Pacific Shipbuilders and finds that the amendments proposed in that testimony may require further consideration.

Your Committee has amended this measure by:

- (1) As recommended by the Department:
 - (A) Expanding the grant program to allow training providers, in addition to qualified shipyards, receive grants;

- (B) Deleting language that would have allowed grants to be used for capital improvement projects, because the Department lacks the authority to implement those projects;
 - (C) Deleting language that would have allowed grants to be used to purchase machinery and equipment, because the Department lacks the expertise to determine the feasibility of those purchases;
 - (D) Removing the requirement that the Department's report to the Legislature include the actual economic and workforce development benefits realized from the award of each grant, because the Department lacks the expertise to determine such projections; and
 - (E) Allowing, rather than requiring, the Department to adopt rules to implement the grant program;
- (2) Requiring that grant recipients comply with all state and federal laws prohibiting discrimination;
 - (3) Inserting an effective date of January 7, 2059, to encourage further discussion; and
 - (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 615, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 615, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Gabbard).

SCRep. 189 Judiciary and Labor on S.B. No. 1229

The purpose and intent of this measure is to exempt all proceedings relating to parking violations under certain administrative rules from the exclusive, original jurisdiction of the environmental courts.

Your Committee received testimony in support of this measure from the Judiciary and Department of Land and Natural Resources.

Your Committee finds that according to the written testimony submitted by the Judiciary, during the last eighteen months, twenty-seven percent of the cases heard by the environmental courts have been for motor vehicle infractions. This measure allows the environmental courts to focus on environmental cases by removing from the exclusive, original jurisdiction of the environmental courts all proceedings relating to parking violations under certain administrative rules.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1229 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Gabbard).

SCRep. 190 (Joint) Agriculture and Environment and Public Safety, Intergovernmental, and Military Affairs on S.B. No. 239

The purpose and intent of this measure is to:

- (1) Require the Department of Agriculture to establish a two-year agricultural theft pilot project to focus on investigating and prosecuting agricultural theft or agricultural vandalism in the County of Hawaii; and
- (2) Appropriate funds as a grant-in-aid to the Office of the Prosecuting Attorney, County of Hawaii, to assist in implementing the pilot project.

Your Committees received testimony in support of this measure from the Department of Agriculture; Hawai'i Farm Bureau; Hawaii Cattlemen's Council, Inc.; Ponoeholo Ranch, Limited; and two individuals.

Your Committees find that agricultural theft and vandalism in the County of Hawaii are impediments to running a successful and profitable farming operation and are harmful to consumers. Agricultural theft and vandalism are a serious, ongoing problem, with farmers reporting theft of crops, animals, equipment, and tools, and vandalized fences and gates. Since many incidents of agricultural theft and vandalism are not reported, the annual monetary losses can only be estimated in the millions of dollars. By establishing an agricultural theft and vandalism pilot project for the County of Hawaii, this measure provides additional focus on investigating and prosecuting agriculture theft and vandalism.

Your Committees have amended this measure by:

- (1) Inserting an appropriation amount of \$100,000;
- (2) Requiring the Department of Agriculture to submit its report to the Legislature no later than December 31, 2019; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Agriculture and Environment and Public Safety, Intergovernmental, and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 239, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 239, S.D. 1, and be referred to your Committees on Judiciary and Labor and Ways and Means.

Signed by the Chairs on behalf of the Committees.

Agriculture and Environment: Ayes, 4. Noes, none. Excused, 1 (Ruderman).

Public Safety, Intergovernmental, and Military Affairs: Ayes, 3. Noes, none. Excused, 2 (Baker, Ihara).

SCRep. 191 (Joint) Agriculture and Environment and Public Safety, Intergovernmental, and Military Affairs on S.B. No. 773

The purpose and intent of this measure is to:

- (1) Establish an industrial hemp special fund to carry out the purposes of the industrial hemp pilot program by the Department of Agriculture;
- (2) Require each county to recognize the cultivation of industrial hemp or industrial hemp cultivated for the purposes of the pilot program as an agricultural product, use, and activity;
- (3) Specify that any agricultural land used for cultivation of industrial hemp for the purposes of the pilot program shall qualify for the minimum dedication period and be assessed at the lowest percentage of fair market value; and
- (4) Limit the cultivation of industrial hemp to licensed owners, lessees, or occupiers of lands within the state agricultural land use district.

Your Committees received testimony in support of this measure from the Department of Agriculture and one individual. Your Committees received comments on this measure from the Department of Budget and Finance.

Your Committees find that Act 228, Session Laws of Hawaii 2016, established the industrial hemp pilot program to allow the cultivation of industrial hemp and distribution of its seed in Hawaii through limited activities by licensee-agents of the Board of Agriculture for purposes of agricultural or academic research. To ensure successful implementation, further amendments to state law need to be made.

Your Committees have amended this measure by:

- (1) Adding the contents of section 2 of S.B. No. 226, S.D. 1, Regular Session of 2016, which makes an appropriation for a program coordinator position and inspector position within the Department of Agriculture and program operations for the industrial hemp program;
- (2) Making the appropriation effective on July 1, 2017; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Agriculture and Environment and Public Safety, Intergovernmental, and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 773, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 773, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Agriculture and Environment: Ayes, 4. Noes, none. Excused, 1 (Ruderman).

Public Safety, Intergovernmental, and Military Affairs: Ayes, 3. Noes, none. Excused, 2 (Baker, Ihara).

SCRep. 192 (Joint) Agriculture and Environment and Public Safety, Intergovernmental, and Military Affairs on S.B. No. 1259

The purpose and intent of this measure is to require the Department of Health to adopt rules for underground storage tank systems that conform with federal regulations and include additional requirements.

Your Committees received testimony in support of this measure from the City and County of Honolulu Board of Water Supply, Conservation Council for Hawai'i, Hawai'i Alliance for Progressive Action, Sierra Club of Hawai'i, Earthjustice, Ke One O Kākuhihewa Oahu Council of the Association of Hawaiian Civic Clubs, Young Progressives Demanding Action, and twenty-five individuals. Your Committees received testimony in opposition to this measure from the United States Navy and Department of Defense, Department of Health Solid and Hazardous Waste Branch, and Chamber of Commerce Hawaii.

Your Committees find that the leakage of fuel from underground storage tanks is a matter of statewide concern. Fuel that leaks from storage tanks can contaminate groundwater that is used for human consumption and cause significant damage to the environment. Issues surrounding leaking fuel storage tanks are numerous and need to be adequately addressed for the health and safety of Hawaii's people and environment. The United States Navy stated to your Committees that there may be equivalent technology or other alternatives to double-walling the storage tanks that would provide an equivalent standard of safety. Your Committees requested that the United States Navy follow up with your Committees with that information.

Your Committees have amended this measure to:

- (1) Require the Department of Health to adopt rules conforming Hawaii's underground storage tank and tank system rules with federal regulations by September 1, 2018; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Agriculture and Environment and Public Safety, Intergovernmental, and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1259, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1259, S.D. 1, and be referred to your Committees on Commerce, Consumer Protection, and Health and Ways and Means.

Signed by the Chairs on behalf of the Committees.

Agriculture and Environment: Ayes, 4; Ayes with Reservations (Nishihara). Noes, none. Excused, 1 (Ruderman).

Public Safety, Intergovernmental, and Military Affairs: Ayes 3; Ayes with Reservations (Nishihara). Noes, none. Excused, 2 (Baker, Ihara).

SCRep. 193 Hawaiian Affairs on S.B. No. 960

The purpose and intent of this measure is to specify that certain content of Department of Hawaiian Home Lands homestead applicant and lessee files are not required to be disclosed or made open to public inspection.

Your Committee received testimony in support of this measure from the Department of Hawaiian Home Lands, Department of the Attorney General, Ka Lahui Hawaii Political Action Committee, Council for Native Hawaiian Advancement, Sovereign Councils of the Hawaiian Homeland Assembly, Kamuela Homesteaders Association, Waimanalo Hawaiian Homes Association, and numerous individuals. Your Committee received comments from the Civil Beat Law Center for the Public Interest. Your Committee received comments from the Office of Information Practices.

Your Committee finds that the relationship between the Department of Hawaiian Home Lands and its applicants and lessees is unique from relationships between other agencies and members of the public which they serve. The Department of Hawaiian Home Lands is required to maintain records of beneficiaries that are highly personal, involving their home and families.

Your Committee has amended this measure by:

- (1) On the recommendation of the Attorney General, clarifying that certain government records maintained by the Department of Hawaiian Home Lands homestead applicant and lessee files are not required to be publicly disclosed or made open to inspection pursuant to a public records request; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 960, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 960, S.D. 1, and be referred to your Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Kim).

SCRep. 194 Hawaiian Affairs on S.B. No. 849

The purpose and intent of this measure is to reduce the minimum Hawaiian blood quantum requirement of certain successors to lessees of Hawaiian home lands from one quarter to one thirty-second.

Your Committee received testimony in support of this measure from the Department of Hawaiian Home Lands, Advocacy and Empowerment Committee of the Office of Hawaiian Affairs, Ka Lāhui Hawaii Political Action Committee, Sovereign Councils of the Hawaiian Homeland Assembly, Association of Hawaiian Civic Clubs, Council for Native Hawaiian Advancement, Kailapa Community Association, State Council of Hawaiian Homestead Associations, Association of Hawaiian Civic Clubs' Benefits and Trusts Committee, and numerous individuals.

Your Committee finds that many descendants of lessees of Hawaiian home lands do not qualify as successors because interracial marriages and blended families produce descendants who are less than twenty-five percent Hawaiian. These disruptions create undue hardships of displacement and interfere with families' abilities to maintain the equity of their homes and businesses.

Your Committee wishes to make clear that this measure allows the transfer of leases prior to the leaseholder's death. In doing so, this measure encourages current lessees to maintain and invest in their residences, as the lessees anticipate that their descendants will be able to make use of the properties for many generations to come. The State has a fiduciary duty to support the rehabilitation of the Hawaiian people, in part by ensuring long-term tenancies to beneficiaries, transferees, and successors of beneficiaries of the Hawaiian Homes Commission Act, 1920, as amended.

Your Committee is concerned about the potential for abuse of current wait list procedures in that lessees who transfer their leases may circumvent the wait list procedures by getting placed back onto the list after the lease is transferred or by purchasing another lease. Your Committee finds that this is a loop hole that was not intended.

Your Committee has amended this measure by adding language to clarify that any beneficiary who transfers by sale or gift any lease shall not be placed on the wait list again and shall be prohibited from purchasing another lease.

As affirmed by the record of votes of the members of your Committee on Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 849, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 849, S.D. 1, and be referred to your Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Kim).

SCRep. 195 Transportation and Energy on S.B. No. 363

The purpose and intent of this measure is to increase the fines imposed for violations of use of mobile electronic devices while operating a motor vehicle.

Your Committee received testimony in support of this measure from three individuals. Your Committee received testimony in opposition to this measure from the Department of the Prosecuting Attorney of the City and County of Honolulu.

Your Committee finds that use of a mobile electronic device while driving is a threat to the health and safety of the device operator and that of others on the roadway. Your Committee finds that despite the imposition of fines for violations, drivers continue to use mobile electronic devices while driving. This measure increases fines in an effort to further deter this activity.

As affirmed by the record of votes of the members of your Committee on Transportation and Energy that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 363 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Harimoto).

SCRep. 196 Transportation and Energy on S.B. No. 364

The purpose and intent of this measure is to increase the fine imposed for failure to use a seat belt while traveling in a motor vehicle.

Your Committee received testimony in support of this measure from the Department of Transportation and three individuals. Your Committee received testimony in opposition to this measure from the Department of the Prosecuting Attorney of the City and County of Honolulu.

Your Committee finds that seatbelt use is the single most effective way to reduce injuries and save lives in motor vehicle crashes. This measure increases fines in order to deter violations of the seat belt law and promote safety in an effort to reduce injuries and save lives.

As affirmed by the record of votes of the members of your Committee on Transportation and Energy that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 364 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Harimoto).

SCRep. 197 Transportation and Energy on S.B. No. 659

The purpose and intent of this measure is to increase the fine for violations of operating a vehicle while under the influence of an intoxicant.

Your Committee received testimony in support of this measure from the Department of Transportation, Mothers Against Drunk Driving Hawaii, and two individuals. Your Committee received testimony in opposition to this measure from the Department of the Prosecuting Attorney of the City and County of Honolulu.

Your Committee finds that alcohol-impaired driving is a significant problem in Hawaii. During calendar year 2015, of the ninety-three total fatalities that occurred on Hawaii's roads, thirty-three were alcohol-impaired fatalities. Your Committee further finds that in the same year, police in the State arrested over six thousand drivers for operating a vehicle while intoxicated. This measure will further disincentivize intoxicant-impaired driving by significantly increasing the penalty for that offense.

As affirmed by the record of votes of the members of your Committee on Transportation and Energy that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 659 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Harimoto).

SCRep. 198 Transportation and Energy on S.B. No. 663

The purpose and intent of this measure is to increase the fines from \$250 to \$750 for speeding violations occurring in a school zone or construction area.

Your Committee received testimony in support of this measure from the Department of Transportation, Hawai'i Construction Alliance, and three individuals. Your Committee received testimony in opposition to this measure from the Department of the Prosecuting Attorney of the City and County of Honolulu.

Your Committee finds that excessive speeding continues to be a significant factor in serious traffic accidents and fatalities in the State. Preliminary data for 2016 indicates that speeding was a contributing factor in forty-four percent of motor vehicle fatalities. Your Committee further finds that 2,660 citations were issued statewide from 2012 to 2016 for speeding in school zones and construction areas. Increasing fines for speeding in a school zone or construction area may deter drivers who speed from driving in such a manner, making the roads safety for other drivers, passengers, and pedestrians.

As affirmed by the record of votes of the members of your Committee on Transportation and Energy that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 663 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Harimoto).

SCRep. 199 Transportation and Energy on S.B. No. 664

The purpose and intent of this measure is to increase fines for persons who commit the offense of driving a motor vehicle at an excessive speed.

Your Committee received testimony in support of this measure from the Department of Transportation and two individuals. Your Committee received testimony in opposition to this measure from the Department of the Prosecuting Attorney of the City and County of Honolulu.

Your Committee finds that excessive speeding continues to be a significant factor in serious traffic accidents and fatalities. Between 2011 and 2015, there were two hundred twenty-two fatal crashes that resulted in two hundred thirty-six deaths due to speeding. Increasing fines for drivers who speed may deter them from driving in such a manner, making the roads and highways safer for other drivers, passengers, and pedestrians.

As affirmed by the record of votes of the members of your Committee on Transportation and Energy that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 664 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Harimoto).

SCRep. 200 (Joint) Public Safety, Intergovernmental, and Military Affairs and Transportation and Energy on S.B. No. 273

The purpose and intent of this measure is to permit the County of Hawai'i to appropriate the county's share of fuel tax revenue for the maintenance of substandard private subdivision roads that are used by the public, provided that neither the State nor the county shall be required to install infrastructure improvements if the roads are thereafter sold to a private entity.

Your Committees received testimony in support of this measure from one individual.

Your Committees find that the proper maintenance of roadways used by the public is essential for maintaining public safety. Specifically, Hawai'i County has many substandard, private subdivision roads that are regularly traversed by members of the public. It is therefore justifiable and necessary to allow Hawai'i County to use its share of fuel tax revenue to perform maintenance on these privately-owned but publicly-used roads to repair the existing substandard conditions. However, it should not be the county's responsibility to further maintain these roads if a private entity subsequently acquires the subdivisions and the roads therein.

As affirmed by the records of votes of the members of your Committees on Public Safety, Intergovernmental, and Military Affairs and Transportation and Energy that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 273 and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Public Safety, Intergovernmental, and Military Affairs: Ayes, 3. Noes, none. Excused, 2 (Ihara, Thielen).

Transportation and Energy: Ayes, 4. Noes, none. Excused, 1 (Harimoto).

SCRep. 201 Public Safety, Intergovernmental, and Military Affairs on S.B. No. 407

The purpose and intent of this measure is to provide the counties with greater financial authority by allowing them to make short term investments with similar authority as the state Director of Finance.

Your Committee received testimony in support of this measure from the Maui County Department of Finance and two individuals.

Your Committee finds that ensuring the financial strength of the counties is important for public welfare. One means of supporting the financial strength of the counties is to allow the counties to make certain short term investments. While the counties currently have authority to make some investments, it is important and sensible to expand the authority of the counties so that it more closely mirrors the authority provided to the State Director of Finance. However, to better protect the public, there should also be in place safeguards to ensure quality investments. Accordingly, this measure:

- (1) Allows the director of finance of each county to make short term investments in additional types of bonds and notes, thereby providing the county directors of finance with similar investment authority as the state Director of Finance;
- (2) Requires that for investments in bonds of any improvement district, the investments be of investment grade or supported by the general obligation pledge of the county in which the improvement district is located; and
- (3) Prohibits investment or the entering into any agreement which would or may require the county to make future payments, such as swap agreements, hedge agreements, or other similar agreements.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 407 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Ihara, Thielen).

SCRep. 202 Public Safety, Intergovernmental, and Military Affairs on S.B. No. 562

The purpose and intent of this measure is to make permanent the limited liability protection established under Act 170, Session Laws of Hawaii 2002, for county lifeguards and counties providing lifeguard services on beaches or in the ocean.

Your Committee received testimony in support of this measure from the Department of the Attorney General; Department of Land and Natural Resources; Mayor of the County of Kaua'i; Kaua'i Fire Department; Ocean Safety Bureau of the Kaua'i Fire Department; Hawaii State Association of Counties; Hawaiian Lifeguard Association; Maui Hotel & Lodging Association; Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO; and four individuals. Your Committee received testimony in opposition to this measure from the Hawaii Association for Justice.

Your Committee finds that providing lifeguard services at beaches and in the ocean, including in state beach parks, is vital to the health, safety, and welfare of the public. In the past, the threat of potential tort liability meant that some counties would not provide lifeguard services at some beaches. In 2002, the Legislature addressed this problem by providing limited tort liability for county

lifeguards and counties providing lifeguard services on beaches or in the ocean, except in cases of gross negligence or wanton acts or omissions. This measure makes those liability protections for counties and county lifeguards permanent.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 562 and recommends that it pass Second Reading and be referred to your Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Ihara).

SCRep. 203 (Joint) Public Safety, Intergovernmental, and Military Affairs and Transportation and Energy on S.B. No. 602

The purpose and intent of this measure is to repeal the requirement that a disabled veteran be in receipt of disability retirement pay in order to be exempt from the payment of annual vehicle registration fees.

Your Committees received testimony in support of this measure from the Office of Veterans Services and two individuals.

Your Committees find that the State must properly appreciate and honor its disabled veterans. State law currently provides disabled veterans with an exemption from registration fees for certain vehicles, provided that the disabled veteran meets certain conditions. Removing the unnecessary condition that the disabled veteran be in receipt of disability retirement pay to qualify for the registration fee exemption would allow more disabled veterans to benefit from this exemption.

As affirmed by the records of votes of the members of your Committees on Public Safety, Intergovernmental, and Military Affairs and Transportation and Energy that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 602 and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
Public Safety, Intergovernmental, and Military Affairs: Ayes, 3. Noes, none. Excused, 2 (Ihara, Thielen).
Transportation and Energy: Ayes, 4. Noes, none. Excused, 1 (Harimoto).

SCRep. 204 (Joint) Public Safety, Intergovernmental, and Military Affairs and Agriculture and Environment on S.B. No. 613

The purpose and intent of this measure is to appropriate funds for an agricultural management position and equipment for agricultural operations at Kulani correctional facility.

Your Committees received testimony in support of this measure from the Community Alliance on Prisons, Ka Ohana O Na Pua, Young Progressives Demanding Action, and two individuals.

Your Committees find that agricultural programs at correctional facilities provide numerous benefits for the correctional system and inmates. A rise in the prison population has led to an important need for correctional facilities and agencies to cut costs. One means of reducing correctional costs is to produce food in-house through agricultural programs. Further, these types of agricultural programs provide the additional benefit of furthering inmate rehabilitation by teaching inmates a variety of technical skills and trades. Accordingly, this measure appropriates funds for a full-time agricultural management position and equipment for Kulani correctional facility agricultural operations.

As affirmed by the records of votes of the members of your Committees on Public Safety, Intergovernmental, and Military Affairs and Agriculture and Environment that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 613 and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
Public Safety, Intergovernmental, and Military Affairs: Ayes, 3. Noes, none. Excused, 2 (Baker, Ihara).
Agriculture and Environment: Ayes, 4. Noes, none. Excused, 1 (Ruderman).

SCRep. 205 (Joint) Public Safety, Intergovernmental, and Military Affairs and Agriculture and Environment on S.B. No. 689

The purpose and intent of this measure is to grant county agencies the implicit right, upon reasonable notice, to enter property to investigate agricultural buildings and structures for violations of and compliance with building permit and building code exemption qualifications.

Your Committees received testimony in support of this measure from the Department of Agriculture, Hawaii Aquaculture and Aquaponics Association, Hawaii Cattleman's Council, Ponoholo Ranch Limited, Hawaii Farm Bureau, and two individuals.

Your Committees find that enforcing building code requirements is important for the safety and health of those occupying, using, or near those buildings. To enforce building codes and permit requirements, the counties need sufficient authority and latitude to exercise their enforcement powers. The need for greater powers of enforcement is particularly important in the case of agricultural buildings. The point of allowing exemptions for certain agricultural buildings is to encourage and support those entities actually engaged in agricultural activities, and those not engaging in agricultural activities should not be allowed to improperly take advantage of these exemptions. Therefore, the counties need to be able to, upon reasonable notice to the owner or occupier, exercise their implicit right to investigate agricultural buildings that are exempt from the building permit and building code requirements.

As affirmed by the records of votes of the members of your Committees on Public Safety, Intergovernmental, and Military Affairs and Agriculture and Environment that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 689 and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Public Safety, Intergovernmental, and Military Affairs: Ayes, 3. Noes, none. Excused, 2 (Baker, Ihara).
Agriculture and Environment: Ayes, 4. Noes, none. Excused, 1 (Ruderman).

SCRep. 206 (Joint) Public Safety, Intergovernmental, and Military Affairs and Transportation and Energy on S.B. No. 420

The purpose and intent of this measure is to make it a criminal offense to intentionally or knowingly direct the beam from a laser device at an occupied aircraft.

Your Committees received testimony in support of this measure from the Department of Transportation, Honolulu Police Department, and one individual.

Your Committees find that aircraft safety is vitally important to the health, safety, and welfare of the public. There have been in recent years a growing number of incidents in which individuals have targeted aircraft with laser lights during flight or while landing. The State's existing penal code does not adequately address situations in which an individual aims a laser light at an occupied aircraft and is particularly deficient in situations where the individual with the laser light causes injuries to those on board. This measure establishes criminal offenses for directing a laser light at an occupied aircraft in the form of:

- (1) A misdemeanor for intentionally or knowingly directing a beam of light from a laser or laser scope at an occupied aircraft; and
- (2) A class C felony if the act of directing a beam of light from a laser or laser scope at an occupied aircraft causes injury to the pilot, crew, or passengers on board.

As affirmed by the records of votes of the members of your Committees on Public Safety, Intergovernmental, and Military Affairs and Transportation and Energy that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 420 and recommend that it pass Second Reading and be referred to your Committee on Judiciary and Labor.

Signed by the Chairs on behalf of the Committees.

Public Safety, Intergovernmental, and Military Affairs: Ayes, 3. Noes, none. Excused, 2 (Ihara, Thielen).
Transportation and Energy: Ayes, 4. Noes, none. Excused, 1 (Harimoto).

SCRep. 207 Human Services on S.B. No. 964

The purpose and intent of this measure is to:

- (1) Establish that emergency shelters may provide partitioned space for homeless persons or families based upon guidelines determined by the Department of Human Services; and
- (2) Extend the effective date of Act 234, Session Laws of Hawaii 2016, by one year to provide additional time for the Department of Human Services to implement the Act.

Your Committee received testimony in support of this measure from the Governor's Coordinator on Homelessness, Department of Human Services, Democratic Party of Hawai'i, and two individuals.

Your Committee finds that homelessness continues to be one of the State's most significant and challenging social problems. In an attempt to make the homeless shelter system more cost effective and more appealing to families and individuals, the Legislature enacted Act 234, Session Laws of Hawaii 2016, to establish minimum requirements for every homeless emergency shelter operated by a provider agency that is under contract with the Department of Human Services. However, there is wide variation in the configuration of homeless emergency shelters across the State. Because homeless emergency shelters need sufficient flexibility to address the diverse needs of homeless individuals and families across the State, it is critical that the Department of Human Services allows enough time for homeless emergency shelters to bring shelter space into compliance with the Department's requirements.

Your Committee has amended this measure by:

- (1) Inserting an effective date of June 30, 2017; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 964, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 964, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Harimoto, Tokuda).

SCRep. 208 Human Services on S.B. No. 1217

The purpose and intent of this measure is to increase the monthly personal needs allowance paid for individuals living in certain care facilities from \$50 to \$75.

Your Committee received testimony in support of this measure from the State Council on Developmental Disabilities, Self-Advocacy Advisory Council, and ten individuals. Your Committee received testimony in opposition to this measure from the Department of Human Services.

Your Committee finds that the State provides a personal needs allowance for individuals residing in foster homes, care homes, domiciliary homes, and other long-term care facilities. The personal needs allowance allows recipients to purchase clothing, toiletries, and meals and cover other day-to-day living expenses. Your Committee further finds that the personal needs allowance was last increased in 2007 and has not kept up with the State's high cost of living.

Your Committee has amended this measure by inserting a blank amount that is specified per month for the needs allowance.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1217, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1217, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Harimoto, Tokuda).

SCRep. 209 Human Services on S.B. No. 1220

The purpose and intent of this measure is to establish the Youth Advisory Commission to advise the Governor and Legislature on the effects of legislative policies, needs, assessments, priorities, programs, and budgets concerning the youth of the State.

Your Committee received testimony in support of this measure from the Office of Youth Services; Hawaii Youth Services Network; Democratic Party of Hawai'i; Hawaii State Coalition Against Domestic Violence; EPIC 'Ohana, Inc.; Honolulu Chinese Jaycees; and seven individuals.

Your Committee finds that increasing youth participation in the public policymaking process is in the best interest of the State, as Hawaii has the lowest voter participation rate in the United States. Although young people aged sixteen and seventeen may work and pay taxes, they are denied a formal role in the political process because they are prohibited from voting. Establishing a Youth Advisory Commission could enable greater interest in policymaking for youth and provide valuable input on issues affecting young people.

Your Committee notes that the intent of the establishment and purpose of the Youth Advisory Commission is to also coincide with the mission of the Office of Youth Services in supporting at-risk youth and their families.

Your Committee has amended this measure by:

- (1) Inserting a preamble that discusses the importance of youth participation in public policymaking;
- (2) Specifying that one member appointed by the Governor to the Youth Advisory Commission must be a previous recipient of youth services;
- (3) Expanding the list of criteria to be considered by the President of the Senate and Speaker of the House of Representatives when making appointments to the Youth Advisory Commission;
- (4) Allowing the Youth Advisory Commission members to invite other individuals to participate in commission activities as temporary, nonvoting members;
- (5) Inserting language that appropriates an unspecified amount for the hiring of one staff position to administer the Youth Advisory Commission;
- (6) Changing the effective date to July 1, 2017; and
- (7) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1220, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1220, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Harimoto, Tokuda).

SCRep. 210 (Joint) Human Services and Housing and Transportation and Energy on S.B. No. 271

The purpose and intent of this measure is to appropriate funds to the Departments of Human Services, Health, and Transportation to assist with homelessness and housing issues.

Your Committees received testimony in support of this measure from The Queen's Health Systems; Hawaii Youth Services Network; Land Use Research Foundation of Hawaii; Community Alliance on Prisons; Ho'omana Pono, LLC; Hawaii Substance Abuse Coalition; Catholic Charities Hawai'i; IMUAlliance; and five individuals. Your Committees received comments on this measure from the Governor's Coordinator on Homelessness, Department of Human Services, Department of Transportation, and Department of Health.

Your Committees find that homelessness continues to be one of the State's most significant and challenging social problems. Homeless persons face a myriad of issues, including general health issues, mental illness, and substance abuse. These issues affecting homeless persons also impact the general population through the costs of social and health care services. Because homelessness is a complex issue, continuous resources and coordinated efforts at all levels are critical to ensuring that the most vulnerable individuals are receiving the support services they need.

Your Committees further note the Department of Transportation's request to use the funds appropriated to the Department to assist with homelessness-related issues at all of the properties under the Department's jurisdiction.

As affirmed by the records of votes of the members of your Committees on Human Services, Housing, and Transportation and Energy that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 271 and recommend that it pass Second Reading and be referred to your Committees on Commerce, Consumer Protection, and Health and Ways and Means.

Signed by the Chairs on behalf of the Committees.
Human Services: Ayes, 3. Noes, none. Excused, 2 (Harimoto, Tokuda).
Housing: Ayes, 3. Noes, none. Excused, 2 (Kahale, Nishihara).
Transportation and Energy: Ayes, 4. Noes, none. Excused, 1 (Harimoto).

SCRep. 211 (Joint) Human Services and Housing on S.B. No. 1215

The purpose and intent of this measure is to appropriate funds to support various programs that can assist homeless individuals, including housing first programs for chronically homeless individuals in the State, the rapid re-housing program, and the state rent supplemental program.

Your Committees received testimony in support of this measure from the Hawaii Kai Homeless Task Force, Catholic Charities Hawai'i, Partners in Care, Hawai'i Pacific Health, League of Women Voters of Hawaii, IMUAlliance, PHOCUSED, and two individuals. Your Committees received comments on this measure from the Governor's Coordinator on Homelessness, Department of Human Services, Hawaii Public Housing Authority, and one individual.

Your Committees find that Hawaii has the highest per capita rate of homelessness of any state in the nation. Addressing homelessness requires a multi-faceted approach using interventions that are targeted to the particular characteristics of the population being served. Three programs critically necessary to address homelessness in Hawaii are housing first, rapid re-housing, and the state rent supplement for homeless families and individuals. Each of these programs targets specific populations struggling with stable housing and assists individuals and families with housing and other support services.

As affirmed by the records of votes of the members of your Committees on Human Services and Housing that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1215 and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Human Services: Ayes, 3. Noes, none. Excused, 2 (Harimoto, Tokuda).

Housing: Ayes, 3. Noes, none. Excused, 2 (Kaehele, Nishihara).

SCRep. 212 (Joint) Human Services and Housing on S.B. No. 1222

The purpose and intent of this measure is to:

- (1) Authorize the issuance of general obligation bonds for the purposes of the rental housing revolving fund established pursuant to section 201H-202, Hawaii Revised Statutes; and
- (2) Appropriate funds to the Department of Human Services to support homelessness mitigation and prevention efforts in the State.

Your Committees received testimony in support of this measure from the Democratic Party of Hawai'i, IMUAlliance, and one individual. Your Committees received comments on this measure from the Governor's Coordinator on Homelessness and Hawaii Housing Finance and Development Corporation.

Your Committees find that there is a serious need to develop affordable rental housing in Hawaii to meet the needs of individuals and families who are homeless or at risk of becoming homeless. Addressing these needs will be a challenge because of the sheer number of units needed to meet demand and the various barriers that can prevent development and preservation of affordable housing. Additional funding is necessary to ensure that the State has adequate resources to address homelessness and affordable rental housing options.

As affirmed by the records of votes of the members of your Committees on Human Services and Housing that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1222 and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Human Services: Ayes, 3. Noes, none. Excused, 2 (Harimoto, Tokuda).

Housing: Ayes, 3. Noes, none. Excused, 2 (Kaehele, Nishihara).

SCRep. 213 Commerce, Consumer Protection, and Health on S.B. No. 997

The purpose and intent of this measure is to update the Uniform Controlled Substances Act to make it consistent with amendments in federal controlled substances law as required under section 329-11, Hawaii Revised Statutes.

Your Committee received testimony in support of this measure from the Department of Public Safety and two individuals.

Your Committee finds that this measure is necessary to make Hawaii's Uniform Controlled Substance Act, chapter 329, Hawaii Revised Statutes, consistent with changes to federal law and that these updates to Hawaii's Uniform Controlled Substances Act are in the interest of public health and safety.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 997 and recommends that it pass Second Reading and be referred to your Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 2 (Ihara, Ruderman).

SCRep. 214 Commerce, Consumer Protection, and Health on S.B. No. 538

The purpose and intent of this measure is to appropriate funds to the Department of Health for the posting of care facility inspection reports on the Department's website.

Your Committee received testimony in support of this measure from three individuals. Your Committee received comments on this measure from the Department of Health.

Your Committee finds that the Department of Health is responsible for licensing, certifying, and monitoring several types of care facilities. Although these inspections are performed using state monies to ensure a standard of quality of these facilities, the information in the inspection reports is difficult for the public to access. Act 213, Session Laws of Hawaii 2013, was enacted to require, among other things, the Department of Health to make available to the public, free of charge, information collected from the Department's inspections of certain care facilities occurring on and after January 1, 2015. However, because of a lack of resources and staff, posting of the inspection reports for all of the specified care facilities by the Department of Health has not been consistent, leaving the public frustrated. Providing additional resources to the Department of Health to continue to make available its care facility inspection reports will benefit the public by granting greater access to information on the conditions of care facilities in the State.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 538 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 2 (Ihara, Ruderman).

SCRep. 215 Commerce, Consumer Protection, and Health on S.B. No. 1156

The purpose and intent of this measure is to remove the sunset date of Act 39, Session Laws of Hawaii 2015, thereby making permanent the requirements for a public accommodation that owns, leases, leases to, or operates a motion picture theater in more than two locations in the State to provide open movie captioning during at least two showings per week of each motion picture that is produced and offered with open movie captioning and audio descriptions upon request for all motion pictures for which such accommodations are available and provide public notice if such accommodations are not available for certain movies.

Your Committee received testimony in support of this measure from the Hawai'i Civil Rights Commission, State Council on Developmental Disabilities, Disability and Communication Access Board, Aloha State Association of the Deaf, and over two hundred individuals. Your Committee received testimony in opposition to this measure from one individual.

Your Committee finds that Act 39, Session Laws of Hawaii 2015 (Act 39), requires a public accommodation that owns, leases, leases to, or operates a motion picture theater in more than two locations in the State to provide open movie captioning and audio descriptions upon request. Act 39 was intended to improve accessibility and address the discriminatory effects of communication barriers at movie theaters encountered by individuals who are deaf, hard of hearing, deaf blind, or blind or have low vision. According to testimony received by your Committee, open movie captioning has enabled deaf, hard of hearing, and deaf blind consumers to enjoy movies in a similar manner as those who do not require open movie captioning.

Your Committee further finds that Act 39 is scheduled to be repealed on January 1, 2018. This measure removes the sunset date of Act 39, thus making permanent the motion picture accommodation requirements for Hawaii movie theaters. Your Committee notes that the accessibility requirements in Act 39 go beyond those specified in the recently-adopted United States Department of Justice final rules for movie theaters, which only provide for closed captioning. Removing the sunset date of Act 39 therefore ensures that Hawaii continues to support full access for persons with disabilities and meaningful accessibility requirements for movie theaters, even after the federal rules have gone into effect.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1156 and recommends that it pass Second Reading and be referred to your Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 3 (Ihara, Kidani, Ruderman).

SCRep. 216 Commerce, Consumer Protection, and Health on S.B. No. 1227

The purpose and intent of this measure is to make permanent the affirmation requirement and form that is filed by an attorney on behalf of a mortgagee who is seeking to foreclose on a residential property under a judicial foreclosure action.

Your Committee received testimony in support of this measure from the Office of Consumer Protection of the Department of Commerce and Consumer Affairs.

Your Committee finds that, during the height of the foreclosure crisis, numerous distressed homeowners reported to government authorities, including the Office of Consumer Protection and the Hawaii Department of the Attorney General, that their financial institutions were initiating foreclosure actions without a sufficient basis. Among the more egregious claims were reports that financial institutions were engaging in robo-signing, in which banks supported foreclosure actions through the use of false affidavits signed by bank employees. In response, the Legislature enacted Act 182, Session Laws of Hawaii 2012, which, among other things, requires a foreclosing party's attorney to affirm that the attorney has personally reviewed the documents and records associated with a foreclosure action, confirm the factual accuracy of the complaint allegations, and state that the attorney does not believe there are any false statements of fact or law and that the plaintiff has legal standing to bring the foreclosure action.

Your Committee further finds that although the frequency of robo-signing appears to have recently diminished, statutory safeguards such as the attorney affirmation will help deter such conduct from reoccurring in Hawaii. Accordingly, this measure makes permanent the attorney affirmation requirement and form that must be filed by an attorney on behalf of a mortgagee who is seeking to foreclose on a residential property in a judicial foreclosure action.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1227 and recommends that it pass Second Reading and be referred to your Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 2 (Ihara, Kidani).

SCRep. 217 Commerce, Consumer Protection, and Health on S.B. No. 453

The purpose and intent of this measure is to appropriate funds for one ambulance unit each for the County of Kauai and the County of Hawaii, including equipment, supplies, and personnel costs.

Your Committee received testimony in support of this measure from the Office of the Mayor, Kauai County; Hawaii Fire Department, County of Hawai'i; Hawai'i State Association of Counties; Maui County Council; American Medical Response; Kauai Paramedics Association; Kaua'i County Council; Hawaii Fire Fighters Association; Hawai'i Pacific Health; and fifteen individuals. Your Committee received comments on this measure from the Department of Health.

Your Committee finds that inadequate resources for emergency medical services can severely impact people's health, and can even be a matter of life and death. Your Committee further finds that the critical nature of emergency medical service is especially strong in many of the rural areas of the Island of Kauai and the Island of Hawaii.

Your Committee further finds that despite significant population increases over the past fifteen years, the last time Kauai County received an additional ambulance was in 1992 and Hawaii County has not received an additional ambulance since 2005. The Department of Health Emergency Medical Services and Injury Prevention Branch meets regularly with all Hawaii emergency service providers to review the State's 911 response capabilities and system challenges. This group has identified Puna and the surrounding areas of Hawaii County as well as Kauai County as the highest areas of need for additional ambulance units to meet the areas' growing health and safety needs.

Your Committee notes that although the appropriation in this measure is blank, the Department of Health submitted testimony indicating that the requisite funds needed are \$1,500,000 per year for an ambulance unit for the County of Kauai and \$1,500,000 per year for an ambulance unit for the County of Hawaii.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 453 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 2 (Ihara, Ruderman).

SCRep. 218 Commerce, Consumer Protection, and Health on S.B. No. 535

The purpose and intent of this measure is to require health insurers to provide coverage after December 31, 2018, for the cost of hearing aids at a minimum of \$1,500 per hearing aid for each hearing-impaired ear every thirty-six months.

Your Committee received testimony in support of this measure from the Disability and Communication Access Board, The Georgia E. Morikawa Center, and eight individuals. Your Committee received comments on this measure from the Department of Commerce and Consumer Affairs, Hawaii Employer-Union Health Benefits Trust Fund, Hawaii Medical Service Association, and Kaiser Permanente Hawaii.

Your Committee finds that untreated hearing loss can have a devastating impact on the social, professional, and family interactions of an individual with hearing loss. Your Committee further finds that hearing aids can have a profoundly positive effect on quality of life, but the high cost of hearing aids can be a barrier for many individuals with hearing loss. This measure mandates health insurance coverage for hearing aids for people with all types of hearing loss and specifies a minimum amount of coverage and eligibility for replacement of hearing aids after thirty-six months under the coverage. Your Committee notes that the \$1,500 benefit provided by this measure is a minimum, floor requirement. Health insurance plans are free to offer coverage that is greater or more favorable to a covered individual.

Your Committee has amended this measure by:

- (1) Clarifying that the coverage required excludes limited benefit health insurance policies as provided in section 431:10A-102.5, Hawaii Revised Statutes;
- (2) Clarifying that the required minimum benefit is \$1,500 for a reasonably medically necessary hearing aid per hearing-impaired ear every thirty-six months;
- (3) Specifying that a covered individual who has not used the minimum benefit before the end of the thirty-six-month period is eligible to put any remaining portion of the benefit toward the cost of a replacement hearing aid;
- (4) Clarifying the notification required to be provided to policyholders or members; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 535, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 535, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Ihara, Kidani, Ruderman).

SCRep. 219 Commerce, Consumer Protection, and Health on S.B. No. 277

The purpose and intent of this measure is to appropriate funds for the public-private partnership established for administrative purposes to implement a model of healthcare delivery in Maui county that addresses coordination of care in a seamless, efficient, appropriate, and cost-effective manner.

Your Committee received testimony in support of this measure from Hale Makua Health Services, Hale Mahaolu, Maui Memorial Medical Center, Wailea Golf LLC, International Longshore and Warehouse Union Local 142 Hawaii, United Public Workers Local 646, and sixty-five individuals. Your Committee received comments on this measure from the Hawaii Government Employees Association.

Your Committee finds that healthcare delivery in Maui county faces challenges related to census issues, wait-list lengths, and finances. More specifically, Maui Memorial Medical Center is the only acute care hospital on the island and often exceeds its capacity resulting in back-ups in the emergency room due to lack of beds or inability to transport patients to Honolulu. In addition, subacute patients often stay in the hospital longer than necessary, which results in emergency room patients being held in the emergency room and surgical procedures being cancelled to eliminate the need for beds. These wait list issues result in delayed care of patients for the entire island of Maui.

Your Committee further finds that a study conducted by Maui Memorial and Hale Makua showed that thirty-six percent of the wait list is related to financial issues. This population includes the uninsured, homeless, and individuals who are Medicaid ineligible. Your Committee notes that the cost to the State of the existing wait list is significant. It costs \$1,500 per day for healthcare delivery to a wait listed patient, while the cost of a patient at Hale Makua is about \$300 to \$500 per day. Your Committee finds that this measure provides a cost-effective investment in the healthcare system on the Island of Maui. Providing funds will strengthen the existing partnership between Hale Makua Health Services and Maui Memorial Medical Center.

Your Committee has amended this measure by:

- (1) Inserting a blank appropriation amount; and
- (2) Making the appropriation for the purposes of soliciting proposals to reduce the wait list at Maui Memorial Medical Center, improve the quality of care, and reduce state subsidies to Maui Memorial Medical Center related to wait list issues.

Your Committee notes that although the appropriation has been removed, the recommended appropriation for the public-private partnership is \$1,500,000 per fiscal year.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 277, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 277, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 2 (Ihara, Ruderman).

SCRep. 220 Commerce, Consumer Protection, and Health on S.B. No. 893

The purpose and intent of this measure is to:

- (1) Restore procedures that allow nonprofit corporations to convert into and out of domestic nonprofit corporations;
- (2) Impose a duty of loyalty on directors and officers of nonprofit corporations;
- (3) Prohibit a director from voting on any matter in which the director has a conflict; and
- (4) Increase the length of time that the Attorney General has to review proposed dissolutions of public benefit corporations.

Your Committee received testimony in support of this measure from the Department of the Attorney General, Hawai'i Alliance of Nonprofit Organizations, and one individual. Your Committee received comments on this measure from the Aloha Society of Association Executives.

Your Committee finds that Act 37, Session Laws of Hawaii 2012 (Act 37), repealed a provision in the Hawaii Revised Statutes that allowed a domestic nonprofit corporation to convert to a foreign corporation or any other business entity. In hindsight, Act 37 went too far, as it effectively prevented domestic nonprofit corporations from converting to foreign nonprofit corporations. This measure restores the provision that allows nonprofit corporations to convert into and out of domestic nonprofit corporations, establishes the procedure for conversion, and specifies the effects of a conversion.

Your Committee further finds that although directors of nonprofit corporations have a duty of loyalty at common law, existing statute does not expressly recognize such a duty of loyalty. This measure establishes a duty of loyalty for directors and officers of nonprofit corporations. This measure also requires the recusal from voting of any director that has a direct or indirect conflict of interest.

Your Committee has heard the concerns raised in testimony regarding the recusal from voting on any matter in which a director has a conflict. According to testimony received by your Committee, there may be situations where either the vote of a director is needed or the conflict of interest is so minor that a disclosure, rather than a prohibition, is needed. Your Committee requested the assistance of the Department of the Attorney General (Department) to clarify the conflict of interest concerns raised in testimony and, if needed, suggest language that would address these concerns.

Upon further consideration, the Department informed your Committee that the concerns regarding conflict of interest are already addressed in the existing statute, so additional language addressing these concerns is therefore unnecessary. The Department noted to your Committee that the disclosure and voting process for directors, as contained in this measure, is not compulsory, but rather a "safe harbor" procedure for a board to approve a transaction. As corporate matters may be approved by the votes of non-conflicted directors, a conflicted director's vote is not necessary, nor does it count, when the safe harbor procedure is followed. The Department also noted that existing statute makes it clear that when a majority of directors who have no interest in a transaction vote to approve that transaction, there is a quorum present. Quorum is not defeated by using the safe harbor procedure, and as such, a conflicted director's vote or presence is not needed to meet quorum requirements.

Your Committee has amended this measure by:

- (1) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 893, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 893, S.D. 1, and be referred to your Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 2 (Ihara, Kidani).

SCRep. 221 Commerce, Consumer Protection, and Health on S.B. No. 620

The purpose and intent of this measure is to amend the definition of “business” in the State’s general excise tax law.

Your Committee received testimony in support of this measure from the Chamber of Commerce Hawaii. Your Committee received comments on this measure from the Department of the Attorney General, Department of Taxation, and Tax Foundation of Hawaii.

Your Committee finds that this measure amends the definition of “business” in the general excise tax to clarify that doing business, for purposes of the general excise tax, does not require a physical presence as long as the taxpayer has \$100,000 or more of gross receipts attributable to Hawaii. This measure also adds two exemptions to the definition of “business”.

Your Committee notes the concerns raised in testimony from the Departments of the Attorney General and Taxation, that this measure may be subject to a Commerce Clause challenge under the United States Constitution. A taxpayer challenging the amended statute, as proposed by this measure, would likely attempt to apply the Quill Corp v. North Dakota case, 504 U.S. 298 (1992). In Quill, the United States Supreme Court held that a seller must have a physical presence in the state to be subject to that state’s sales and use tax collection requirements. This physical presence requirement is rooted in the Commerce Clause and will not be affected by the amendment to the State’s general excise tax law as proposed by this measure. The Department of the Attorney General indicated in testimony that many of the authoritative causes, including Quill, interpret the substantial nexus requirement to involve a state sales and use tax, not a general excise tax. However, the Department also indicated that it is unknown whether Quill would be applied to a general excise tax.

The Department of Taxation indicated in testimony that this measure, as written, contains unclear exceptions to the no physical presence rule, as these exceptions seem to exempt from taxation taxpayers with more connection to the State rather than less connection. The exemptions could also be interpreted to exempt even those sellers that have a physical presence in the State. The Department of Taxation suggested language that would more clearly address the state law issue of whether a seller without physical presence in Hawaii is engaged in business and therefore subject to general excise tax. The Department noted that a bright line test of \$100,000 or more of Hawaii sales will also clarify the State’s position. Your Committee concludes that amendments to this measure, which incorporate the Department of Taxation’s suggested language, are necessary.

Your Committee has amended this measure by:

- (1) Clarifying that physical presence is not required for the State to impose general excise tax on taxpayers with gross receipts attributable to the State of \$100,000 or more;
- (2) Deleting language that would have exempted taxpayers who have a website hosted on a local and nonaffiliated server or who are using a nonaffiliated call center to process orders for primarily out-of-state customers; and
- (3) Inserting an effective date of July 1, 2050.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 620, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 620, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 2 (Ihara, Kidani).

SCRep. 222 Commerce, Consumer Protection, and Health on S.B. No. 971

The purpose and intent of this measure is to:

- (1) Repeal the emergency medical services special fund;
- (2) Redirect the special fund’s revenue sources, which include the cigarette tax, motor vehicle registration fee, and investment pool returns, to the general fund; and
- (3) Appropriate an equivalent dollar-for-dollar amount to the Department of Health for purposes of overseeing the statewide comprehensive emergency medical services system.

Your Committee received testimony in support of this measure from the Department of Health, Kauai Paramedics Association, Hana Health, and six individuals. Your Committee received testimony in opposition to this measure from the Honolulu Emergency Services Department, Emergency Medical Services Division. Your Committee received comments on this measure from the Department of Taxation.

Your Committee finds that it is essential that emergency medical services are provided with sufficient resources to ensure the safety and health of residents in this State. Presently, the emergency medical services special fund provides funding for emergency medical services through revenue from the cigarette tax, motor vehicle registration fee, and investment pool returns. However, by repealing the emergency medical services special fund and designating general funds to the emergency medical services system, this measure provides a more stable source of revenue or method of finance to assure uninterrupted services and continuity of the State's emergency medical services system.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 971, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 971, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 2 (Ihara, Ruderman).

SCRep. 223 Commerce, Consumer Protection, and Health on S.B. No. 398

The purpose and intent of this measure is to promote and encourage colorectal cancer screening through a public awareness campaign by launching a colorectal cancer screening and awareness pilot program.

Your Committee received testimony in support of this measure from the University of Hawaii Cancer Center, American Cancer Society Cancer Action Network, The Queen's Health Systems, Hawaii Medical Service Association, Hawai'i Pacific Health, and twenty-two individuals. Your Committee received comments on this measure from the Department of Health and Department of the Attorney General.

Your Committee finds that increased colorectal cancer screening can save many lives in Hawaii. Nationwide, states and organizations are committing to the "80% by 2018" initiative, which is an effort to eliminate colorectal cancer as a major public health problem by getting eighty percent of adults aged fifty and older screened for colorectal cancer by 2018. Hawaii's current screening rate for colorectal cancer is sixty-four percent. Your Committee finds that colorectal cancer is the second leading cause of cancer death in Hawaii, and has clear ethnic and gender disparities. Colorectal screening rates are also much lower for individuals residing in low-income households and those with less than a high school education.

Your Committee finds that colorectal cancer is a cause of considerable suffering among more than one hundred forty thousand adults in the country diagnosed with this cancer each year. Your Committee emphasizes that a priority of the Hawaii State Cancer Plan is to increase colorectal screening rates and reduce morbidity and mortality of colorectal cancer through screening and early detection. Your Committee finds that there is work to be done to increase colorectal cancer screening rates in an effort to improve the quality of life for hundreds of people in the State by detecting and preventing death from late stage colorectal cancer and lessening the physical, emotional, and financial burden that often accompany a cancer diagnosis.

Your Committee has amended this measure by:

- (1) Removing language requiring the Department of Health to award grants to health care providers to provide colorectal cancer screening under the pilot program and inserting language requiring the Department to:
 - (A) Collaborate with healthcare providers to integrate colorectal cancer screenings into their standard practice; and
 - (B) Partner with healthcare providers to screen eligible participants in accordance with the guidelines of the United States Preventative Services Task Force;
- (2) Removing language specifying the tests and procedures that eligible participants of the pilot program may be offered and paid for, depending on their risk for colorectal cancer;
- (3) Inserting a blank appropriation amount for the pilot program; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

Your Committee notes that although the appropriation has been removed from this measure, the recommended appropriation for the colorectal cancer screening and awareness pilot program is \$250,000 per fiscal year.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 398, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 398, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 2 (Chang, Kidani).

SCRep. 224 Commerce, Consumer Protection, and Health on S.B. No. 174

The purpose and intent of this measure is to amend the definition of "debilitating medical condition" to include lupus, epilepsy, multiple sclerosis, arthritis, autism, anxiety, depression, insomnia, and stress as conditions that qualify for the legal use of medical marijuana.

Your Committee received testimony in support of this measure from the Drug Policy Forum of Hawai'i, Hawaii Veteran's Cannabis Alliance, Hawaii Educational Association for Licensed Therapeutic Healthcare, Hawai'i Dispensary Alliance, Pakalōlō Suite, Patients Without Time, and twelve individuals. Your Committee received testimony in opposition to this measure from the Department of the

Attorney General, Department of Health, Department of the Prosecuting Attorney of the City and County of Honolulu, and two individuals.

Your Committee finds that Hawaii authorized the use of medical marijuana in 2000, and at the time was one of the first states nationwide to do so. Since 2000, the only condition that has been added to the list of debilitating medical conditions is post-traumatic stress disorder, which was added in 2015. Your Committee further finds that, without even considering the states that have legalized the recreational use of marijuana, the use of medical marijuana to treat certain health conditions is now legal in many states. The policy movement of states toward marijuana has afforded patients more options when deciding how to treat and manage their health conditions and illnesses. Your Committee finds, however, that the list of qualifying conditions in Hawaii remains limited compared to other states across the country.

Your Committee further finds that the Department of Health's administrative rules include a comprehensive annual process to consider the addition or deletion of qualifying conditions for the medical use of marijuana. Your Committee heard testimony from the Department about this process, and that the Department has already heard from registering physicians that several plan to petition for a variety of additional conditions. The Department's process involves a public hearing process and assessment of scientific research, common practice in other states, and a recommendation to the Director of Health about whether or not to add a condition to the State's list of qualifying conditions.

Your Committee notes that numerous states nationwide that authorize the use of medical marijuana allow the medical marijuana to be used for many more conditions than the ones currently included in Hawaii's definition of a debilitating medical condition. However, your Committee received testimony opposing this measure that indicated the addition of qualifying conditions could open the floodgates to make medical marijuana available to anyone diagnosed with common health conditions, and could lead to abuse by physicians who issue medical marijuana certifications.

Therefore, your Committee has amended this measure by deleting the conditions of anxiety, depression, insomnia, and stress as conditions that qualify for the legal use of medical marijuana.

In addition, your Committee appreciates the process to petition for the addition of qualifying conditions pursuant to the Department of Health's administrative rules, and that the Department plans to begin the first annual petition process in a few months. However, at this time, your Committee wants to encourage continuing discussion on this measure and preserve the means to add qualifying conditions through the legislative process.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 174, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 174, S.D. 1, and be referred to your Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 2 (Ihara, Ruderman).

SCRep. 225 Commerce, Consumer Protection, and Health on S.B. No. 532

The purpose and intent of this measure is to appropriate funds for an Alzheimer's Disease and Related Dementia Services Coordinator position with the Department of Health's Executive Office on Aging.

Your Committee received testimony in support of this measure from the Executive Office on Aging; AARP Hawaii; Alzheimer's Association, Aloha Chapter; Manoa Cottage; Hawaii Pacific Neuroscience Institutes; International Longshore and Warehouse Union Local 142 Hawaii; and eight individuals.

Your Committee finds that Alzheimer's disease is the sixth leading cause of death in the United States and it affects twenty-seven thousand Hawaii residents. This number will continue to grow rapidly due to the rising number of seniors in the State. Alzheimer's disease also greatly affects the estimated sixty-five thousand unpaid caregivers in Hawaii that provide over seventy-four million hours of unpaid care each year. Your Committee further finds that despite the significant number of individuals affected by Alzheimer's disease, there remains a substantial lack of resources for families affected by the disease.

Your Committee notes that the Executive Office on Aging published a state plan on Alzheimer's disease and related dementias that identifies goals and key strategies to improve the lives of the significantly high number of families affected by the disease. Many of the strategies identified in the state plan require coordination at a systemic level. In addition, an Alzheimer's Disease and Related Dementias State Plan Collaborative consisting of over seventy government and private entities has been working to implement the state plan but has only made minimal progress due to the lack of a dedicated leader and dedicated resources. Your Committee finds that a statewide coordinator position is needed to lead the numerous private and government entities invested in helping families affected by Alzheimer's disease by implementing the State's Alzheimer's disease and related dementias plan.

Your Committee has amended this measure by inserting a blank appropriation amount. Your Committee notes that although the appropriation has been removed, the recommended appropriation for the Alzheimer's Disease and Related Dementia Services Coordinator position is \$80,000 per fiscal year.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 532, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 532, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Ihara, Kidani, Ruderman).

SCRep. 226 (Joint) Housing and Commerce, Consumer Protection, and Health on S.B. No. 472

The purpose and intent of this measure is to establish a tax credit for owner/occupants of one- or two-family dwelling units who install an automatic fire sprinkler system.

Your Committees received testimony in support of this measure from the Hawaii State Fire Council, Kauai Fire Department, and one individual. Your Committees received comments on this measure from the Department of Taxation, Tax Foundation of Hawaii, and Building Industry Association of Hawaii.

Your Committees find that automatic fire sprinkler systems are effective at reducing loss of life, injury, and property damage caused by fire. Despite their effectiveness, few one- or two-family dwellings in Hawaii have automatic fire sprinkler systems. Your Committees further find that one reason for the lack of sprinkler systems in residential dwellings is cost. This measure will provide a tax credit to mitigate the cost involved in installing automatic fire sprinkler systems.

Your Committees additionally find that this measure is appropriate because the installation of automatic fire sprinkler systems in residential units is not mandatory at this time.

Your Committees have amended this measure by:

- (1) Inserting language clarifying that the tax credit may be claimed only for automatic fire sprinklers that are installed and placed in service in one- or two-family dwelling units;
- (2) Inserting language clarifying that only the owner/occupant of a dwelling unit may claim the tax credit;
- (3) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Housing and Commerce, Consumer Protection, and Health that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 472, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 472, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Housing: Ayes, 3. Noes, none. Excused, 2 (Kahele, Nishihara).

Commerce, Consumer Protection, and Health: Ayes, 5. Noes, none. Excused, 2 (Ihara, Kidani).

SCRep. 227 Housing on S.B. No. 1266

The purpose and intent of this measure is to direct the Hawaii Housing Finance and Development Corporation to initiate negotiations to maintain the status of the units of the Front Street Apartments on the island of Maui as affordable housing, or to acquire the Front Street Apartments Property.

Your Committee received testimony in support of this measure from the West Maui Taxpayers Association, Office of the Mayor of the County of Maui, City Council of the County of Maui, and more than sixty-five individuals. Your Committee received comments on this measure from the Hawaii Housing Finance and Development Corporation.

Your Committee finds that the Front Street Apartments on the island of Maui provide affordable housing to more than two hundred fifty low-income residents. Your Committee further finds that there is a severe shortage of affordable housing on the island of Maui, and removing the Front Street Apartments from affordability requirements will cause severe hardship to the residents of the property. This measure will enable the State to preserve the Front Street Apartments as much-needed affordable housing.

Your Committee has amended this measure by:

- (1) Deleting the reference to retaining in perpetuity certain numbers of rental units at affordable rents to households of specified maximum incomes, as the Hawaii Housing Finance and Development Corporation testified that affordable housing projects cannot be financed with this condition imposed;
- (2) Correcting language to conform with existing requirements of the Hawaii Revised Statutes regarding legislative disapproval for condemnation of property; and
- (3) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1266, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1266, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Kahele, Nishihara).

SCRep. 228 (Joint) Commerce, Consumer Protection, and Health and Agriculture and Environment on S.B. No. 1180

The purpose and intent of this measure is to:

- (1) Amend the cesspool upgrade, conversion, or connection income tax credit to: make the tax credit assignable; make the tax credit refundable; disallow the tax credit for taxpayers whose federal adjusted gross income exceeds certain amounts; expand the criteria for cesspools that qualify for the tax credit; and extend the sunset date to December 31, 2022;
- (2) Require all cesspools in the State be upgraded or converted to septic or aerobic treatment unit systems or connected to sewer systems by January 1, 2050;

- (3) Establish a grant program to assist with cesspool upgrade or conversion costs;
- (4) Appropriate funds for the grant program; and
- (5) Require the Department of Health to develop guidelines for the mandatory disclosure of cesspools on real property.

Your Committees received testimony in support of this measure from the Department of Health, Surfrider Foundation, and five individuals. Your Committees received testimony in opposition to this measure from the Hawai'i Association of REALTORS. Your Committees received comments on this measure from the Department of Taxation and Tax Foundation of Hawaii.

Your Committees find that cesspools are a major source of pollution to Hawaii's waters. According to testimony from the Department of Health, there are approximately 90,000 cesspools in the State, which discharge approximately 55,000,000 gallons of untreated sewage into the groundwater every day. Groundwater flows into drinking water sources, streams, and the ocean, harming public health and the environment, including beaches and coral reefs. Phasing out cesspools will eliminate threats to drinking water and recreational waters, although your Committees understand that there are significant costs associated with cesspool conversion. Among other things, this measure expands the cesspool upgrade, conversion, or connection income tax credit, including making the tax credit assignable, and establishes a grant program to help facilitate the phasing out of cesspools.

Your Committees have heard the concerns raised by the Department of Taxation in testimony, regarding the assignment of the cesspool upgrade, conversion, or connection income tax credit. According to the Department of Taxation, as there is no feasible way to monitor these assignments, there are concerns that permitting assignments of this income tax credit would increase the burden on the Department and greatly increase the likelihood of fraudulent and improper claims. Your Committees understand these concerns and conclude amendments to this measure are necessary.

Your Committees have amended this measure by:

- (1) Deleting language that would have made the cesspool upgrade, conversion, or connection income tax credit assignable;
- (2) Clarifying that the amendments to the cesspool upgrade, conversion, or connection income tax credit shall apply to taxable years beginning after December 31, 2017; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Commerce, Consumer Protection, and Health and Agriculture and Environment that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1180, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1180, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Commerce, Consumer Protection, and Health: Ayes, 5; Ayes with Reservations (Ruderman). Noes, none. Excused, 2 (Ihara, Nishihara).

Agriculture and Environment: Ayes, 4; Ayes with Reservations (Ruderman). Noes, none. Excused, 1 (Nishihara).

SCRep. 229 (Joint) Agriculture and Environment and Transportation and Energy on S.B. No. 237

The purpose and intent of this measure is to require the Department of Agriculture to establish the advanced biofuels pilot project.

Your Committees received testimony in support of this measure from Hawaii Farmers Union United; Hawaii Oil Seed Producers (HOSPRO) FDN; The Maritime Group LLC; Hawai'i Gas; IMUAlliance; Clean Energy Solutions, LLC; Locals for Local Change; and twenty individuals. Your Committees received testimony in opposition to this measure from one individual. Your Committees received comments on this measure from the Department of Agriculture.

Your Committees find that reducing Hawaii's reliance on fossil fuels and generating one hundred percent of the State's energy from renewable resources will help Hawaii's economy by creating jobs, keeping an estimated \$3,000,000,000 in the State that would otherwise be spent on imported oil, and significantly advance the State's clean energy goals. Given the Governor's goal to double food production by 2020, your Committees have concerns about directing the Department of Agriculture to pursue large projects that may detract from that goal.

Therefore, your Committees have amended this measure by replacing the Department of Agriculture with the Department of Business, Economic Development, and Tourism as the entity responsible for establishing the advanced biofuels pilot project.

As affirmed by the records of votes of the members of your Committees on Agriculture and Environment and Transportation and Energy that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 237, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 237, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Agriculture and Environment: Ayes, 5. Noes, none. Excused, none.

Transportation and Energy: Ayes, 4. Noes, none. Excused, 1 (Harimoto).

SCRep. 230 (Joint) Agriculture and Environment and Commerce, Consumer Protection, and Health on S.B. No. 418

The purpose and intent of this measure is to:

- (1) Clarify the purposes for which monies from the electronic device recycling fund may be expended; and
- (2) Make an appropriation to reimburse the counties of Hawaii, Kauai, and Maui for expenses incurred during 2015 and 2016 related to the collection services associated with handling and collecting electronic devices for recycling.

Your Committees received testimony in support of this measure from Maui County Eycling and one individual. Your Committees received comments on this measure from the Department of Health and Consumer Technology Association.

Your Committees find that electronic device recycling prevents toxins, such as lead, from leaching into the environment and harming the environment and human health, saves space in landfills, and allows valuable resources contained in electronic devices, such as copper, gold, and aluminum, to be reclaimed for future use. Your Committees also find that existing law lacks clarity as to allowable uses of the electronic device recycling fund. This measure provides clarity and ensures that the electronic device recycling program may continue.

Your Committees have amended this measure by:

- (1) As recommended by the Department of Health, additionally allowing monies from the electronic device recycling fund to be expended by the Director of Health to support county electronics collections;
- (2) Making the appropriation a grant-in-aid directly to each respective county, rather than an appropriation to the Department of Health for reimbursement of expenses incurred during 2015 and 2016 by the counties; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Agriculture and Environment and Commerce, Consumer Protection, and Health that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 418, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 418, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Agriculture and Environment: Ayes, 5. Noes, none. Excused, none.

Commerce, Consumer Protection, and Health: Ayes, 5. Noes, none. Excused, 2 (Ihara, Kidani).

SCRep. 231 (Joint) Agriculture and Environment and Transportation and Energy on S.B. No. 433

The purpose and intent of this measure is to allocate a portion of the environmental response, energy, and food security tax (barrel tax) to the Hawaii agricultural development revolving fund.

Your Committees received testimony in support of this measure from the Department of Agriculture; Agribusiness Development Corporation; Hawai'i Farm Bureau; Hawaii Farmers Union United; Hawaii Cattlemen's Council, Inc.; and three individuals. Your Committees received comments on this measure from the Department of Taxation, Department of Budget and Finance, and Tax Foundation of Hawaii.

Your Committees find that the Agribusiness Development Corporation is tasked with the priority of transitioning Hawaii's agriculture industry from an industry dominated by sugar and pineapple to one based on a greater diversity of crops. Hawaii's environmental response, energy, and food security tax, also known as the barrel tax, provides a funding source for energy and food security initiatives; however only forty-three percent of the barrel tax is allocated to support environmental response, energy, and food security. Your Committees find that this measure aligns the allocation of portions of the barrel tax with the original intent of the \$1.00 per barrel increase in the barrel tax enacted by Act 73, Regular Session of 2010, to fund, among other things, the acquisition of agricultural land and to assist with food sustainability in the State.

Your Committees have amended this measure by inserting an effective date of July 1, 2050, to encourage further discussion.

As affirmed by the records of votes of the members of your Committees on Agriculture and Environment and Transportation and Energy that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 433, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 433, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Agriculture and Environment: Ayes, 5. Noes, none. Excused, none.

Transportation and Energy: Ayes, 4. Noes, none. Excused, 1 (Harimoto).

SCRep. 232 (Joint) Agriculture and Environment and Public Safety, Intergovernmental, and Military Affairs on S.B. No. 1109

The purpose and intent of this measure is to:

- (1) Beginning January 1, 2018, prohibit a food vendor in the State from serving or packaging prepared food in polystyrene foam containers, unless the food vendor qualifies for an exception;
- (2) Impose penalties for violations; and
- (3) Appropriate funds for public education and enforcement.

Your Committees received testimony in support of this measure from the Conservation Council for Hawai'i; Democratic Party of Hawaii; Environmental Caucus of the Democratic party of Hawaii; Surfrider Foundation; Surfrider Foundation, Oahu Chapter; Beach Environmental Awareness Campaign Hawai'i; Oahu Fresh L.L.C.; Big Island Divers; 9Bar HNL; Kōkua Hawai'i Foundation; Hawai'i Wildlife Fund; Styrophobia; Sustainable Island Products; Wipeout Crew; and three hundred twenty-one individuals. Your Committees received testimony in opposition to this measure from the Chamber of Commerce Hawaii; Hawai'i Restaurant Association; Retail Merchants of Hawaii; Hawaii Food Industry Association; KYD, Inc. dba: K Yamada Distributors; and three individuals. Your Committees received comments on this measure from the Department of Health.

Your Committees find that many food service businesses in Hawaii use expanded polystyrene foam containers for food that is taken out by customers. Expanded polystyrene foam is made from thermoplastic petrochemical materials containing styrene and may leach

styrene into food that comes into contact with the containers, posing potential health hazards for people eating food carried in these containers. Your Committees also find that polystyrene foam containers do not biodegrade and, because of their expanded size, take up significant space in landfills. Your Committees note the popular support for alternative, compostable food service containers, but also recognize that there is no viable, commercial composting facility in the State. Because of these challenges, your Committees find it necessary to examine alternatives for non-compostable food service containers that may be used in place of expanded polystyrene foam food service containers.

Your Committees have amended this measure by:

- (1) Inserting an effective date of July 1, 2020; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Agriculture and Environment and Public Safety, Intergovernmental, and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1109, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1109, S.D. 1, and be referred to your Committees on Commerce, Consumer Protection, and Health and Ways and Means.

Signed by the Chairs on behalf of the Committees.

Agriculture and Environment: Ayes, 4. Noes, none. Excused, 1 (Ruderman).

Public Safety, Intergovernmental, and Military Affairs: Ayes, 3. Noes, none. Excused, 2 (Baker, Ihara).

SCRep. 233 (Joint) Agriculture and Environment and Commerce, Consumer Protection, and Health on S.B. No. 1177

The purpose and intent of this measure is to establish common interest agricultural communities.

Your Committees received testimony in support of this measure from the Hawai'i Farm Bureau, Hawaii Island School Garden Network, and Aloun Farms. Your Committees received comments on this measure from the Department of Agriculture and Office of Planning.

Your Committees find that use of agricultural land has been of concern to the State for decades; particularly in cases where residential structure violations have occurred. Common interest agricultural communities may provide a solution for Hawaii's farmers to farm agricultural land and share agricultural infrastructure and other resources in an economically viable way, while establishing greater accountability to ensure proper land use.

Your Committees note the concerns expressed in the testimony of the Department of Agriculture and Office of Planning and encourage both agencies to work together to prepare proposed amendments as this measure moves forward in the legislative process.

Your Committees have amended this measure by:

- (1) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Agriculture and Environment and Commerce, Consumer Protection, and Health that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1177, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1177, S.D. 1, and be referred to your Committees on Judiciary and Labor and Ways and Means.

Signed by the Chairs on behalf of the Committees.

Agriculture and Environment: Ayes, 5. Noes, none. Excused, none.

Commerce, Consumer Protection, and Health: Ayes, 5. Noes, none. Excused, 2 (Ihara, Kidani).

SCRep. 234 (Joint) Agriculture and Environment and Commerce, Consumer Protection, and Health on S.B. No. 1275

The purpose and intent of this measure is to:

- (1) Clarify that the Board of Agriculture has the power to acquire property by eminent domain for the construction and maintenance of water facilities that convey, distribute, and transmit water for agricultural uses, but not for domestic use; and
- (2) Amend the definition of "public utility" in chapter 269, Hawaii Revised Statutes, to include the production, conveyance, transmission, delivery, or furnishing of water for human consumption.

Your Committees received testimony in support of this measure from the Department of Agriculture; Board of Water Supply, City and County of Honolulu; Hawai'i Farm Bureau; East Kauai Water Users' Cooperative; Maui County Farm Bureau; Hawaii Cattlemen's Council, Inc.; Land Use Research Foundation of Hawaii; Kalepa Koalition; Saiva Siddhanta Church; Ponoholo Ranch, Limited; MauiGrown Coffee, Inc.; and four individuals. Your Committees received testimony in opposition to this measure from one individual. Your Committees received comments on this measure from the Department of Commerce and Consumer Affairs Division of Consumer Advocacy and Public Utilities Commission.

Your Committees find that there are many non-potable water systems across the State that provide non-potable water for agricultural purposes. There is concern that Public Utilities Commission regulations intended for privately owned utilities may be applied to state-owned agricultural irrigation systems already overseen by the State's Commission on Water Resource Management. Your Committees find that this measure clarifies state law in alignment with policies currently followed by the Department of Agriculture and Public Utilities Commission.

Your Committees have amended this measure by:

- (1) As recommended by the Consumer Advocate:

- (A) Deleting the proposed addition of “for human consumption” to the definition of “public utility”; and
- (B) Clarifying that “public utility” excludes any person who controls, operates, or manages plants, facilities, or projects developed pursuant to chapter 167, Hawaii Revised Statutes, for conveying, distributing, and transmitting non-potable or irrigation water; and
- (2) As recommended by the City and County of Honolulu Board of Water Supply, clarifying that exclusions from the definition of “public utility” shall not be construed to apply to any board of water supply managing, controlling, and operating the water works of the county for the purpose of supplying water to the public in the county.

As affirmed by the records of votes of the members of your Committees on Agriculture and Environment and Commerce, Consumer Protection, and Health that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1275, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1275, S.D. 1, and be referred to your Committees on Judiciary and Labor and Ways and Means.

Signed by the Chairs on behalf of the Committees.

Agriculture and Environment: Ayes, 5; Ayes with Reservations (Ruderman). Noes, none. Excused, none.

Commerce, Consumer Protection, and Health: Ayes, 5; Ayes with Reservations (Ruderman). Noes, none. Excused, 2 (Ihara, Kidani).

SCRep. 235 Ways and Means on H.B. No. 1530

The purpose of this measure is to appropriate funds for the legislative branch of state government.

Specifically, this measure appropriates:

- (1) \$9,588,608 to the Senate;
- (2) \$13,205,390 to the House of Representatives;
- (3) \$3,151,649 to the Office of the Auditor;
- (4) \$2,800,000 to be deposited into the Audit Revolving Fund;
- (5) \$6,300,000 from the Audit Revolving Fund to the Office of the Auditor to conduct or complete audit functions;
- (6) \$3,676,187 to the Legislative Reference Bureau;
- (7) \$1,316,799 to the Office of the Ombudsman; and
- (8) \$1,112,093 to the State Ethics Commission.

Your Committee received testimony in support of this measure from the State Ethics Commission, the Office of the Ombudsman, the Office of the Auditor, and one individual.

Your Committee received comments on this measure from the Legislative Reference Bureau and Common Cause Hawaii.

Your Committee finds that this measure appropriates sufficient funds to defray the necessary expenses in fiscal year 2017-2018 of the Senate, the House of Representatives, the Office of the Auditor, the Legislative Reference Bureau, the Office of the Ombudsman, and the State Ethics Commission.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1530, H.D. 1, and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, none. Excused, 3 (Galuteria, Harimoto, Kahele).

SCRep. 236 Transportation and Energy on S.B. No. 290

The purpose and intent of this measure is to authorize the issuance of general obligation bonds for design, plans, material, construction, and equipment for an extension of the Lahaina Bypass Road from North Keawe Street to beyond Puukolii Road.

Your Committee received testimony in support of this measure from the Department of Transportation and two individuals. Your Committee received testimony in opposition to this measure from one individual.

Your Committee finds that supporting projects that create and maintain an efficient and safe flow of traffic are essential for satisfying the transportation needs of the State. One of the most inefficient traffic areas in the State is in the Lahaina region of West Maui. There is only a single two-lane, undivided highway in and out of the popular town of Lahaina. Traffic congestion on this highway is a constant problem and regularly more than doubles travel times in and out of Lahaina. The traffic congestion is not only a problem for daily travelers, but also slows emergency responders. Additionally, the road is suffering from and vulnerable to ongoing erosion from ocean waves and rising sea levels. To alleviate some of these traffic problems, particularly for those who must travel to and from the West Maui area, it is necessary to connect West Maui to the Lahaina Bypass Road. Accordingly, this measure authorizes the issuance of \$40,000,000 in general obligation bonds for all aspects of an extension of the Lahaina Bypass Road from North Keawe Street to beyond Puukolii Road to effectively connect West Maui to the Lahaina Bypass Road.

As affirmed by the record of votes of the members of your Committee on Transportation and Energy that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 290 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (English).

SCRep. 237 Transportation and Energy on S.B. No. 367

The purpose and intent of this measure is to increase the fines for violations associated with a person operating a vehicle after the person's license and privilege have been suspended or revoked for operating a vehicle under the influence of an intoxicant.

Your Committee received testimony in support of this measure from the Department of Transportation, Hawaii Strategic Highway Safety Plan, Mothers Against Drunk Driving Hawaii, and three individuals. Your Committee received testimony in opposition to this measure from the Department of the Prosecuting Attorney, City and County of Honolulu.

Your Committee finds that alcohol-impaired driving continues to be a problem in Hawaii. Despite criminal penalties, interlock ignitions, and license suspensions and revocations, offenders continue to operate vehicles. This measure provides a further deterrence for violators, especially repeat offenders, from operating a vehicle while their licenses are suspended or revoked for operating a vehicle under the influence of an intoxicant.

As affirmed by the record of votes of the members of your Committee on Transportation and Energy that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 367 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Harimoto).

SCRep. 238 Transportation and Energy on S.B. No. 1013

The purpose and intent of this measure is to allow the State Department of Transportation Highways Division to collect an equitable compensation from franchise utility companies for the use of the state right of way.

Your Committee received testimony in support of this measure from the Department of Transportation. Your Committee received testimony in opposition to this measure from one individual.

Your Committee finds that a safe, efficient, and effective highway system is essential to the safety and welfare of the public. The State's highway system is in need of continuing repairs and maintenance which require significant funding. As automobiles become more fuel-efficient and the demand for fuel decreases, the amount of revenues from the federal highway trust fund and the state highway fund will continue to decrease. Therefore, it is necessary to generate increased revenues from other sources. Allowing the Department of Transportation Highways Division to collect an equitable compensation from franchise utility companies for the use of the state right of way will help stabilize or increase revenues and provide infrastructure enhancements and remediation.

As affirmed by the record of votes of the members of your Committee on Transportation and Energy that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1013 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (English).

SCRep. 239 Transportation and Energy on S.B. No. 1258

The purpose and intent of this measure is to establish requirements for autocycles in the State.

Your Committee received testimony in support of this measure from the Department of Transportation, Polaris Industries, and one individual.

Your Committee finds that the existing statutes relating to the registration of vehicles permitted in the State needs updating. Specifically, the existing statutes do not allow for the registration of autocycles, a newer type of vehicle composed of three wheels and non-traditional seating that is manufactured to motorcycle safety standards. These components cause autocycles to unnecessarily fall outside the scope of the State's vehicle registration statutes, thus prohibiting autocycles in the State. Accordingly, this measure:

- (1) Provides that autocycles are to be registered as motor vehicles;
- (2) Provides that for use on the roadways autocycles must be registered and the operator must have a valid driver's license; and
- (3) Provides a definition for autocycles.

As affirmed by the record of votes of the members of your Committee on Transportation and Energy that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1258 and recommends that it pass Second Reading and be referred to your Committee on Commerce, Consumer Protection, and Health.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (English).

SCRep. 240 Transportation and Energy on S.B. No. 662

The purpose and intent of this measure is to appropriate funds as a grant-in-aid to W.H. Shipman, Ltd., for traffic plans and traffic lights in the Shipman Business Park on the Island of Hawai'i.

Your Committee received testimony in support of this measure from the Department of Transportation and one individual.

Your Committee finds that the strategic positioning of traffic lights helps ensure an efficient flow of traffic and promotes the health and safety of the public. In the Shipman Business Park in Hawaii County the lack of a strategically placed traffic light creates a

potentially dangerous situation where motorists must cross a busy highway to make necessary turns. It is therefore necessary to take steps to rectify this unsatisfactory traffic condition. The most appropriate means of addressing the traffic issues in this area is to appropriate funds as a grant-in-aid to W.H. Shipman, Ltd. to develop plans and install appropriate traffic lights.

As affirmed by the record of votes of the members of your Committee on Transportation and Energy that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 662 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4; Ayes with Reservations (Harimoto, Shimabukuro). Noes, none. Excused, 1 (English).

SCRep. 241 (Joint) Transportation and Energy and Agriculture and Environment on S.B. No. 1017

The purpose and intent of this measure is to repeal the exemption for vehicles designated as farm use only as set forth in section 286-208, Hawaii Revised Statutes.

Your Committees received testimony in support of this measure from the Department of Transportation. Your Committees received testimony in opposition to this measure from the Hawaii Agricultural Research Center.

Your Committees find that under the federal Moving Ahead for Progress in the 21st Century Act, the State is required to adopt the federal exemptions as to farm vehicles. The Department of Agriculture has adopted the federal requirements in chapter 19-141, Hawaii Administrative Rules. As such, section 286-208, Hawaii Revised Statutes, should be repealed as it creates a conflict with federal law.

As affirmed by the records of votes of the members of your Committees on Transportation and Energy and Agriculture and Environment that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1017 and recommend that it pass Second Reading and be referred to your Committee on Judiciary and Labor.

Signed by the Chairs on behalf of the Committees.

Transportation and Energy: Ayes, 4. Noes, none. Excused, 1 (Harimoto).

Agriculture and Environment: Ayes, 5. Noes, none. Excused, none.

SCRep. 242 Transportation and Energy on S.B. No. 494

The purpose and intent of this measure is to require persons arrested for operating a vehicle under the influence of an intoxicant or habitually operating a vehicle under the influence of an intoxicant to be fitted with a continuous alcohol monitoring device under certain circumstances.

Your Committee received testimony in support of this measure from the Department of Transportation, Department of the Prosecuting Attorney of the City and County of Honolulu, Office of the Prosecuting Attorney of the County of Kaua'i, SCRAM Systems, and one individual. Your Committee received testimony in opposition to this measure from the Honolulu Police Department.

Your Committee finds that in 2012, the National Highway Traffic Safety Administration reported that forty-one percent of all traffic fatalities in Hawaii were alcohol related, versus the national average of thirty-one percent. Moreover, between 2008 and 2012, eleven percent of all alcohol-related fatalities in Hawaii involved a driver who was previously convicted of operating a vehicle under the influence of an intoxicant.

This measure seeks to decrease alcohol-related fatalities and accidents by requiring repeat offenders to be fitted with a continuous alcohol monitoring device.

Your Committee has amended this measure on the recommendation of the Department of the Prosecuting Attorney of the City and County of Honolulu by:

- (1) Further clarifying the process and procedures when a person charged with operating a vehicle under the influence of an intoxicant or habitually operating a vehicle under the influence of an intoxicant is required to wear a continuous alcohol monitoring device; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Transportation and Energy that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 494, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 494, S.D. 1, and be referred to your Committees on Judiciary and Labor and Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (English).

SCRep. 243 Transportation and Energy on S.B. No. 1014

The purpose and intent of this measure is to expand the Director of Transportation's authority over the cost of motor vehicle inspections, the fees collected from inspection stations, and the administration of the program.

Your Committee received testimony in support of this measure from the Department of Transportation and one individual.

Your Committee finds that authorizing the Department of Transportation to change the motor vehicle inspection fees by administrative rule is expedient and efficient.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Transportation and Energy that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1014, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1014, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (English).

SCRep. 244 Transportation and Energy on S.B. No. 1018

The purpose and intent of this measure is to add a budget proviso to the Supplemental Appropriations Act of 2016, Act 124, Session Laws of Hawaii 2016, item C-38.02, to add a budget proviso that permits the utilization of the department of transportation, airports division, project adjustment fund.

Your Committee received testimony in support of this measure from the Department of Transportation. Your Committee received testimony in opposition to this measure from one individual.

Your Committee finds that the budget proviso relating to the Department of Transportation, Airports Division, project adjustment fund is necessary to authorize the Governor to make supplemental allotments from the project adjustment fund to supplement any currently authorized capital investment cost elements for Airports Division capital improvement projects.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Transportation and Energy that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1018, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1018, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (English).

SCRep. 245 Transportation and Energy on S.B. No. 678

The purpose and intent of this measure is to:

- (1) Include structures, machinery, equipment, and capital assets in the definition of capital infrastructure costs for purposes of the capital infrastructure tax credit;
- (2) Set a new maximum amount of capital infrastructure tax credits that may be issued in any taxable year per qualified infrastructure tenant;
- (3) Specify that excess tax credits may be carried forward; and
- (4) Specify that special purpose entities may qualify as a qualified infrastructure tenant.

Your Committee received testimony in support of this measure from the Chamber of Commerce Hawaii, Pacific Shipyards, and five individuals. Your Committee received comments on this measure from the Department of Taxation and Tax Foundation of Hawaii.

Your Committee finds that this measure supports the growth of commerce in the State and supports maritime jobs by helping displaced waterfront tenants at Honolulu Harbor raise financing and improve state-owned lands, from which the State will also receive significant lease rents.

Your Committee has amended this measure on the recommendation of the Department of Taxation by:

- (1) Clarifying that the qualified infrastructure tenant, together with all special purpose entities, is limited for purposes of claiming the tax credit, to capital infrastructure costs of \$5,000,000 per taxable year and shall not claim any credit in any one year that exceeds \$2,500,000;
- (2) Providing a penalty for failure to submit the required information to the Department of Taxation; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Transportation and Energy that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 678, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 678, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (English).

SCRep. 246 Transportation and Energy on S.B. No. 1016

The purpose and intent of this measure is to exempt the Department of Transportation from certain statutory requirements for specified bridge rehabilitation programs by extending the sunset date of Act 218, Session Laws of Hawaii 2012, to June 30, 2022.

Your Committee received testimony in support of this measure from the Department of Transportation. Your Committee received testimony in opposition to this measure from the Office of Hawaiian Affairs and one individual.

Your Committee finds that this measure is necessary to continue accelerating the design and construction of bridges listed in Act 218. Your Committee notes that the Department of Transportation testified that it is the Department's intent to conform to and comply with all state laws during the design and construction phases of each bridge project.

Your Committee has amended this measure by inserting an effective date of June 29, 2017.

As affirmed by the record of votes of the members of your Committee on Transportation and Energy that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1016, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1016, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4; Ayes with Reservations (Harimoto, Shimabukuro). Noes, none. Excused, 1 (English).

SCRep. 247 Transportation and Energy on S.B. No. 1008

The purpose and intent of this measure is to add the offense of criminal trespass onto State Department of Transportation lands to the penal code.

Your Committee received testimony in support of this measure from the Department of Transportation, Honolulu Police Department, and two individuals. Your Committee received testimony in opposition to this measure from the Office of Hawaiian Affairs. Your Committee received comments on this measure from the Governor's Coordinator on Homelessness.

Your Committee finds that this measure assists the Department of Transportation in protecting the lands, property, and facilities under its jurisdiction and improves the safety of individuals when entering upon state lands.

Your Committee has amended this measure by:

- (1) Inserting a savings clause; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Transportation and Energy that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1008, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1008, S.D. 1, and be referred to your Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.

Ayes, 4; Ayes with Reservations (Shimabukuro). Noes, none. Excused, 1 (English).

SCRep. 248 Judiciary and Labor on S.B. No. 133

The purpose and intent of this measure is to:

- (1) Statutorily require the actuary of the Hawaii Employer-Union Health Benefits Trust Fund (EUTF) to prepare an experience study at least once every three years and a valuation report annually; and
- (2) Reduce the maximum period between experience studies of the Employees' Retirement System (ERS) from five years to three years beginning with fiscal year 2018-2019.

Your Committee received comments on this measure from the Employees' Retirement System and Hawaii Employer-Union Health Benefits Trust Fund.

Your Committee finds that state and county contributions as employers for the normal cost and unfunded liability amortization of the ERS and EUTF are increasing and the State's and counties' liabilities and obligations for the pension and health insurance coverage of public employees are of major concern. Your Committee finds that this measure increases monitoring of the experience and valuations of the ERS and EUTF to aid in the proper planning of future state and county budgetary needs.

Your Committee has amended this measure by:

- (1) As recommended by the EUTF:
 - (A) Deleting proposed statutory language that would have required the actuary of the EUTF to prepare an experience study at least once every three years; and
 - (B) Requiring the annual valuation to include an update of assumptions specific to the fund that are not updated by section 88-105, Hawaii Revised Statutes, as determined by the actuary at least once every three years;
- (2) Inserting an effective date of January 7, 2059, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 133, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 133, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 249 (Joint) Judiciary and Labor and Transportation and Energy on S.B. No. 206

The purpose and intent of this measure is to:

- (1) Allow any person who is eligible to vote but is not already registered to vote and applies for a new or renewed motor vehicle driver's license, provisional license, or instruction permit, or a new, renewed, or duplicate civil identification card to be automatically registered to vote unless the applicant affirmatively declines to be registered to vote;
- (2) Require the examiner of drivers to electronically transmit the necessary information to election officials and the statewide voter registration system, in addition to the appropriate county clerk; and

- (3) Authorize access to and electronic transmission of databases maintained or operated by the counties or the Department of Transportation containing driver's license or civil identification card information to election officials and the statewide voter registration system, as determined by the Chief Election Officer.

Your Committees received testimony in support of this measure from the Office of Elections; Office of Hawaiian Affairs; Office of the County Clerk, County of Maui; Office of the County Clerk, County of Kaua'i; Kupuna Caucus of the Democratic Party of Hawaii; Common Cause Hawaii; Hawai'i Alliance for Progressive Action; League of Women Voters of Hawaii; National Women's Political Caucus, Hawaii Chapter; and twenty-eight individuals. Your Committees received testimony in opposition to this measure from the Department of Transportation.

Your Committees find that automatic voter registration, also known as "motor voter", provides eligible voters an opportunity to register to vote when applying for or renewing a driver's license unless the eligible voter affirmatively declines to be registered. Proponents believe that automatic voter registration assists in removing barriers to registration for eligible voters, which is the first step to voter participation. Voter registration through a routine and necessary transaction, such as driver's licensing or renewal, increases voter registration efficiency and effectiveness and voter turnout. Hawaii has one of the lowest voter registration rolls and participation rates in the country. This measure will assist in increasing voter registration by providing the option for individuals when applying for or renewing driver's licenses and state identification cards to register to vote.

Your Committees note the written testimony received by the Department of Transportation indicates that section 286-172, Hawaii Revised Statutes, authorizes the Director of Transportation to determine the distribution of the personal information contained in the driver's license and civil identification statewide traffic records system, including documents and images. Thus, in accordance with this law, the Chief Election Officer is required to make a request to the Director of Transportation for access to and the electronic transmission of information contained in the statewide traffic records system.

Accordingly, your Committees have amended this measure by:

- (1) Adopting the language suggested by the Department of Transportation that authorizes the Director of Transportation, rather than the Chief Election Officer, to determine access to and the electronic transmission of databases containing driver's license or civil identification card information to election officials, provided that the Chief Election Officer makes a request to the Director of Transportation for the electronic transmission of such information;
- (2) Inserting an effective date of January 7, 2059, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Judiciary and Labor and Transportation and Energy that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 206, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 206, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Judiciary and Labor: Ayes, 4. Noes, none. Excused, 1 (Kim).

Transportation and Energy: Ayes, 3. Noes, none. Excused, 2 (English, Harimoto).

SCRep. 250 Judiciary and Labor on S.B. No. 410

The purpose and intent of this measure is to:

- (1) Clarify the allowable scope of collective bargaining negotiations; and
- (2) Clarify prohibited practices for parties to a public employment collective bargaining agreement.

Your Committee received testimony in support of this measure from the Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO; University of Hawaii Professional Assembly; State of Hawaii Organization of Police Officers; Hawaii State Teachers Association; and Hawaii Fire Fighters Association, International Association of Fire Fighters Local 1463, AFL-CIO. Your Committee received testimony in opposition to this measure from the Department of Human Resources Development, County of Hawaii Office of the Mayor, County of Kauai Department of Human Resources, and County of Maui Office of the Mayor.

Your Committee finds that government is more effective when public employees share in the decision-making process affecting wages and working conditions. Fairness in this process and cooperation between parties is essential to a healthy collective bargaining environment. Your Committee finds that this measure promotes the joint decision-making process while ensuring fairness between public employers and respective bargaining units.

Your Committee has amended this measure by:

- (1) Deleting section 2 to retain the current statutory language relating to prohibited practices for parties to a public employment collective bargaining agreement;
- (2) Inserting an effective date of January 7, 2059, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 410, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 410, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 251 Judiciary and Labor on S.B. No. 493

The purpose and intent of this measure is to:

- (1) Create standards and procedures for the withholding of income for the purposes of enforcing restitution orders;
- (2) Establish that any income withholding order for the enforcement of an order for restitution has priority against any garnishment, attachment, execution, other income withholding order, or any other order with certain exceptions;
- (3) Amend the definition of “debt” relating to the recovery of money owed to the State to include any unpaid court ordered restitution enforceable as a civil judgement;
- (4) Require that any bail posted by a defendant be applied toward payment of any court ordered restitution in the same case; and
- (5) Extend a victim’s access to adult probation records to include access to payment compliance records without a fee or surcharge.

Your Committee received testimony in support of this measure from the Crime Victim Compensation Commission; Department of the Prosecuting Attorney, City and County of Honolulu; Hawaii State Coalition Against Domestic Violence; and The Sex Abuse Treatment Center. Your Committee received comments on this measure from the Judiciary and Department of Taxation.

Your Committee finds that victim restitution is a paramount victim’s right that addresses a wide range of effects of crime, including physical, emotional, psychological, financial, and social impacts. This measure offers a comprehensive approach to restitution collection so that victims of crimes will not be provided hollow promises when the court orders restitution.

Your Committee has amended this measure by:

- (1) Adopting the language suggested by the Department of the Prosecuting Attorney of the City and County of Honolulu that removes the court’s ability to revoke restitution ordered as part of the defendant’s sentencing;
- (2) Inserting an effective date of January 7, 2059, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 493, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 493, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Kim).

SCRep. 252 Judiciary and Labor on S.B. No. 935

The purpose and intent of this measure is to:

- (1) Convert certain Hawaii Employer-Union Health Benefits Trust Fund (EUTF) staff to civil service positions; and
- (2) Appropriate funds for the EUTF to hire staff through the civil service system.

Your Committee received testimony in support of this measure from the Hawaii Employer-Union Health Benefits Trust Fund and Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO.

Your Committee finds that eighty-six percent of EUTF authorized positions are exempt from civil service. Civil service employees receive benefits that are unavailable to exempt employees. Your Committee finds that EUTF operations and employees would benefit from the hiring of certain EUTF staff through the civil service system.

Your Committee has amended this measure by:

- (1) Inserting an effective date of January 7, 2059, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 935, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 935, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Kim).

SCRep. 253 Judiciary and Labor on S.B. No. 1047

The purpose and intent of this measure is to require the actuary to conduct an annual stress test of the Employees’ Retirement System (ERS) and the ERS Board to submit an annual report on the result of the test to the Legislature.

Your Committee received testimony in support of this measure from the University of Hawaii Professional Assembly and one individual. Your Committee received comments on this measure from the Employees’ Retirement System.

Your Committee finds that the successful investment of the ERS funds is essential to the stability and sustainability of the ERS. Clarity and transparency regarding the information upon which ERS decisions are based are crucial to allow for employees, retirees, and the public to have an understanding of, and confidence in, the ERS. Your Committee further finds that an annual stress test will help to ensure that the ERS Board makes decisions based on widespread actuarial data and projections, rather than on data resulting from isolated events.

Your Committee has amended this measure by:

- (1) Inserting an effective date of January 7, 2059, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1047, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1047, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Gabbard).

SCRep. 254 Judiciary and Labor on S.B. No. 101

The purpose and intent of this measure is to comply with the mandate of Article VII, Section 6, of the Hawaii State Constitution regarding the disposition of excess general fund revenues.

Specifically, this measure:

- (1) Makes appropriations for the pre-payment of the State's unfunded accrued pension liability and annual required contribution to cover its other post-employment benefits (OPEB) liability; and
- (2) Makes an appropriation to the emergency and budget reserve fund.

Your Committee received testimony in support of this measure from the Department of Budget and Finance and one individual.

Your Committee finds that S.B. No. 2554, Regular Session of 2016, proposed a constitutional amendment which was approved by the voters on November 8, 2016, to allow the Legislature the option to appropriate excess general fund revenues for the pre-payment of the State's pension or OPEB liability while retaining the option to deposit excess general fund revenues into a fund that serves as a temporary supplemental source of funding for the State in times of an emergency, economic downturn, or unforeseen reduction in revenue. Your Committee finds that this measure makes appropriations in compliance with Article VII, Section 6, of the Hawaii State Constitution, as amended.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 101 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 255 Judiciary and Labor on S.B. No. 928

The purpose and intent of this measure is to:

- (1) Amend the definition of "dependent-beneficiary" under the Hawaii Employer-Union Health Benefits Trust Fund (EUTF) to clarify eligibility of children for participation in fund benefit plans; and
- (2) Conform the definition of "dependent-beneficiary" to the federal Patient Protection and Affordable Care Act of 2010.

Your Committee received testimony in support of this measure from the Hawaii Employer-Union Health Benefits Trust Fund.

Your Committee finds that the existing definition of "dependent-beneficiary" in section 87A-1, Hawaii Revised Statutes, allows for a child born to or adopted by an employee's or retiree's surviving spouse after the death of the employee or retiree to receive EUTF benefits. Your Committee finds that EUTF benefits should only cover natural or adopted children of a deceased state employee or retiree. Your Committee also finds that it is important for EUTF definitions to be consistent with existing federal law.

Your Committee notes that this measure's title contains a typographical error and recommends that the EUTF work with your Committee on Ways and Means to find a more appropriate vehicle for this measure.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 928 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Kim).

SCRep. 256 Commerce, Consumer Protection, and Health on S.B. No. 889

The purpose and intent of this measure is to:

- (1) Clarify that the State shall be exclusively liable for claims for injury or loss of property, or personal injury or death, resulting from the negligent or wrongful act or omission of any professionally licensed or certified employee of the State acting within the scope of the employee's office or employment; and
- (2) Preclude civil actions or proceedings for money damages against the employee.

Your Committee received testimony in support of this measure from the Department of the Attorney General; Department of Health; Department of Taxation; Department of Accounting and General Services; Department of Public Safety; Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO; and one individual. Your Committee received testimony in opposition to this measure from the Hawaii Association for Justice.

Your Committee finds that state employees are generally afforded qualified immunity for torts as a result of actions taken while in the course and scope of their state employment, which affords these employees protection from individual liability. However, in the recent case of *Slingluff v. State*, 317 P.3d 683 (Haw. Ct. App. 2013), the Intermediate Court of Appeals held that “physicians employed by the State, including prison doctors, exercising purely medical discretion in the diagnosis and treatment of potentially injured or sick people, are not protected from medical malpractice claims by the doctrine of qualified immunity under Hawai‘i law.”

According to testimony received by your Committee, since *Slingluff*, the State has taken steps to obtain professional liability insurance covering claims of individual liability for its physicians in the Department of Public Safety, although this comes at a cost. Furthermore, the potential for personal liability can have a negative impact on hiring and retention of well-qualified professionals who are interested in working for the State. This measure seeks to clarify the issue of state defense and indemnification of professionally licensed or certified employees.

Your Committee has amended this measure by:

- (1) Clarifying that the State’s liability shall be exclusive whenever the State agrees to be fully liable for the injuries, losses, and damages caused by a professionally licensed or certified employee;
- (2) Clarifying that civil actions or proceedings for money damages against an employee are precluded, except for claims based on liability other than an employee’s scope of employment with the State or other employer;
- (3) Clarifying the liability of the State and employee when the State assumes full and partial assumption of responsibility;
- (4) Inserting an effective date of July 1, 2050, to encourage further discussion;
- (5) Updating the purpose section; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

Your Committee notes that the Department of the Attorney General and the Hawaii Association for Justice are currently working on additional compromise language regarding the liability of state employees, and requests that interested stakeholders continue to work on this consensus language. Your Committee notes that this amended measure is a work in progress and additional consideration of the compromise language may be warranted by your Committees on Judiciary and Labor and Ways and Means.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 889, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 889, S.D. 1, and be referred to your Committees on Judiciary and Labor and Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 2 (Ihara, Kidani).

SCRep. 257 Commerce, Consumer Protection, and Health on S.B. No. 894

The purpose and intent of this measure is to update the regulation of charitable organizations and activities in the State by:

- (1) Specifying disclosure requirements for collection boxes;
- (2) Adding a definition of “property”, as the term relates to the protection of charitable assets;
- (3) Clarifying registration and deactivation procedures for charitable organizations;
- (4) Clarifying requirements for the financial reports that must be filed by professional solicitors;
- (5) Permitting charitable organizations that file an IRS Form 990-PF to file annual reports on the same schedule as charitable organizations that file IRS Form 990 or 990-EZ; and
- (6) Making housekeeping amendments.

Your Committee received testimony in support of this measure from the Department of the Attorney General, Hawai‘i Alliance of Nonprofit Organizations, and one individual.

Your Committee finds that this measure makes several amendments to the State’s law governing charitable organizations and activities, including: requiring disclosure statements on collection boxes, which will alert and inform the public about whether a nonprofit or a for-profit entity owns the collection box; permitting the use of electronic signatures by professional solicitors; specifying procedures for deactivations of registration; and clarifying requirements for the filing of financial and annual reports. This measure also assists the Department of the Attorney General in its oversight of charitable organizations and fundraising activities, clarifies regulatory procedures for the nonprofit sector, and ensures consumers are able to make informed choices when donating personal property.

Your Committee has amended this measure by:

- (1) Inserting an effective date of July 1, 2017; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 894, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 894, S.D. 1, and be referred to your Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 2 (Ihara, Kidani).

SCRep. 258 Commerce, Consumer Protection, and Health on S.B. No. 951

The purpose and intent of this measure is to update the State's mortgage loan origination law by clarifying:

- (1) Persons who are presumed to control a mortgage loan originator company;
- (2) Procedures for change in control of a licensee;
- (3) Persons who must disclose their relevant criminal history and criminal history background checks upon application for licensure and change in control of the licensee;
- (4) Criminal background check fee requirements; and
- (5) Conditions under which an employee performing mortgage loan origination activities for a nonprofit is exempt from registration and licensure as a mortgage loan originator.

Your Committee received testimony in support of this measure from the Division of Financial Institutions of the Department of Commerce and Consumer Affairs.

Your Committee finds that mortgage loan originator companies, exempt sponsoring mortgage loan originator companies, nonprofit organizations, and other similar entities originate billions of dollars of residential mortgage loans annually. Among other things, this measure helps to identify persons who are presumed to control a mortgage loan originator company, clarifies procedures for change in control of a licensee, and adds requirements to protect consumers in their mortgage loan origination transactions with exempt sponsoring mortgage loan originator companies. This measure ensures the State can provide appropriate supervision of the mortgage loan origination industry, as required by federal law, and will make the State's mortgage loan origination law clearer and more effective, improve compliance within the industry, enhance the Division of Financial Institutions' regulatory oversight and enforcement of the mortgage loan origination industry, and elevate consumer protection.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 951, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 951, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 2 (Ihara, Kidani).

SCRep. 259 Agriculture and Environment on S.B. No. 1091

The purpose and intent of this measure is to appropriate funds for the Department of Agriculture, after consultation with industry representatives, to enhance and strengthen the biosecurity program in regard to incipient invasive species management programs.

Your Committee received testimony in support of this measure from the Department of Agriculture, Department of Land and Natural Resources, University of Hawai'i System, Coordinating Group on Alien Pest Species, The Nature Conservancy, Hawaii Coffee Association, Conservation Council for Hawai'i, Hawai'i Farm Bureau, Environmental Caucus of the Democratic Party of Hawai'i, Local Food Coalition, and eight individuals. Your Committee received testimony in opposition to this measure from one individual.

Your Committee finds that despite the State's ongoing efforts to detect and eradicate invasive species, our fragile island ecosystems are constantly at risk from insects, disease-bearing organisms, snakes, weeds, and other invasive pests. Your Committee further finds that the Department of Agriculture has created a biosecurity program to fight invasive species on several fronts by:

- (1) Administering pre-entry measures to minimize the risk of invasive species entering the State;
- (2) Conducting port-of-entry inspections to detect and quarantine or destroy pests upon arrival; and
- (3) Administering post-entry measures to mitigate the establishment of invasive species within the State.

To encourage continued efforts to fight invasive species, your Committee finds that it is necessary to provide funding to support biosecurity programs.

Your Committee has amended this measure by:

- (1) Requiring the Department of Agriculture to consult with environmental organizations, in addition to industry representatives, to enhance and strengthen the biosecurity program; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1091, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1091, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Nishihara).

SCRep. 260 Agriculture and Environment on S.B. No. 1193

The purpose and intent of this measure is to establish an income tax credit for agricultural commodities produced in the State and sold directly to consumers, up to a limit of \$5,000, for agricultural producers whose gross income from the sale of agricultural commodities totals no more than \$50,000 per year.

Your Committee received testimony in support of this measure from the Hawai'i Farm Bureau; Hawaii Coffee Association; Malia Farms LLC; Kakalina Farms LLC; Vida Farm, LLC; and seven individuals. Your Committee received comments on this measure from the Department of Agriculture, Department of Taxation, Department of the Attorney General, and Tax Foundation of Hawaii.

Your Committee finds that the sale of agricultural commodities directly to consumers continues to grow in the State. Your Committee also finds that additional support to Hawaii's agriculture industry, specifically, reducing the tax burden of farms that produce and sell agricultural commodities, such as fruits, vegetables, nuts, coffee, and honey, will help to promote the production of locally-grown food, reduce reliance on agricultural imports, and foster job growth in the State.

Your Committee has amended this measure by, as recommended by the Department of the Attorney General, removing language that requires an "agricultural commodity" to be produced in the State.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1193, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1193, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4; Ayes with Reservations (Rhoads, Ruderman). Noes, none. Excused, 1 (Nishihara).

SCRep. 261 Agriculture and Environment on S.B. No. 1194

The purpose and intent of this measure is to exempt gross income from the sale of agricultural commodities produced in the State and sold directly to consumers from the general excise tax up to a limit of \$50,000 per year.

Your Committee received testimony in support of this measure from the Hawai'i Farm Bureau; Hawaii Coffee Association; Malia Farms LLC; Kakalina Farms LLC; Vida Farms, LLC; and four individuals. Your Committee received comments on this measure from the Department of Agriculture, Department of Taxation, Department of the Attorney General, and Tax Foundation of Hawaii.

Your Committee finds that the sale of agricultural commodities directly to consumers continues to grow in the State. Your Committee also finds that additional support to Hawaii's agriculture industry, specifically, reducing the tax burden of farms that produce and sell agricultural commodities, such as fruits, vegetables, nuts, coffee, and honey, will help to promote the production of locally-grown food, reduce reliance on agricultural imports, and foster job growth in the State.

Your Committee has amended this measure by:

- (1) As recommended by the Department of the Attorney General, removing language that requires an "agricultural commodity" to be produced in the State; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1194, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1194, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4; Ayes with Reservations (Rhoads, Ruderman). Noes, none. Excused, 1 (Nishihara).

SCRep. 262 Agriculture and Environment on S.B. No. 1196

The purpose and intent of this measure is to bring Hawaii law into compliance with federal law relating to the sale of organic foods by small organic farms and businesses.

Your Committee received testimony in support of this measure from Kakalina Farms LLC and one individual. Your Committee received comments on this measure from the Department of Agriculture, Department of Taxation, and Tax Foundation Hawaii.

Your Committee finds that the Legislature passed Act 258, Session Laws of Hawaii 2016, codified as section 235-110.94, Hawaii Revised Statutes, which established the organic foods production tax credit for farmers, ranchers, and producers seeking to obtain organic certification as an effort to reduce the burden on emerging small farmers seeking costly, but necessary, certifications and inspections promoting the production of locally-grown food. The federal Organic Foods Production Act also provides exemptions for certain small farmers of organic products to reduce their operation costs. This measure ensures that Hawaii laws are in compliance with the Organic Foods Production Act for purposes of claiming the organic foods production tax credit.

Your Committee has amended this measure by:

- (1) As recommended by the Department of Agriculture, adding an additional provision to the definition of "qualified taxpayer" to include a farmer who provides a letter each year from the certifier confirming that the exempt organic farming operation seeking to establish or maintain qualification for the tax credit is in good standing with respect to its exempt status and in full compliance with applicable organic production and handling and labeling requirements;
- (2) As recommended by the Department of Taxation, changing the effective date to apply to taxable years beginning after December 31, 2016; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1196, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1196, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Nishihara).

SCRep. 263 Agriculture and Environment on S.B. No. 1204

The purpose and intent of this measure is to:

- (1) Establish the agriculture accelerator program to authorize the Agribusiness Development Corporation (ADC) to provide grants and invest in existing or new agriculture businesses approved by the Board of Directors of the ADC in return for equity in those agriculture businesses;
- (2) Establish an agriculture accelerator special fund to provide funds for the ADC to provide grants to and invest in agriculture businesses under the agriculture accelerator program; and
- (3) Require a portion of the per-barrel environmental response, energy, and food security tax to be deposited into the agriculture accelerator special fund.

Your Committee received testimony in support of this measure from the Department of Agriculture; Agribusiness Development Corporation; High Technology Development Corporation; EcoTipping Points Project; Hawaii Crop Improvement Association; Hawai'i Farm Bureau; Larry Jefts Farms, LLC; and two individuals. Your Committee received testimony in opposition to this measure from one individual. Your Committee received comments on this measure from the Department of Budget and Finance and Tax Foundation of Hawaii.

Your Committee finds that the ability for the ADC to establish an agriculture accelerator program and issue grants will provide the means to assist local farming operations, make investments to strengthen and diversify Hawaii's agriculture, attract and retain businesses, and streamline the ADC's operations. Your Committee further finds that an agriculture accelerator program may help foster partnerships to facilitate agribusiness projects and help grow Hawaii's agriculture industry.

Your Committee has amended this measure by:

- (1) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1204, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1204, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4; Ayes with Reservations (Ruderman). Noes, none. Excused, 1 (Nishihara).

SCRep. 264 Agriculture and Environment on S.B. No. 1205

The purpose and intent of this measure is to establish a reimbursement transportation cost payment program within the Department of Agriculture to reimburse geographically disadvantaged eligible producers for a portion of the cost to transport eligible commodities or inputs used to produce an eligible commodity.

Your Committee received testimony in support of this measure from the Department of Agriculture; Hawaii Cattlemen's Council, Inc.; Hawaii Coffee Association; Hawaii Crop Improvement Association; Hawai'i Farm Bureau; Ponoholo Ranch, Limited; Larry Jefts Farms, LLC; and one individual.

Your Committee finds that the ability for producers to transport agricultural commodities is critical as operations and markets expand. Transportation of agricultural commodities can be costly to producers already financially burdened by agricultural operation expenses. Your Committee finds that this measure seeks to provide financial relief to Hawaii's farmers and ranchers.

Your Committee has amended this measure by:

- (1) Requiring the Department of Agriculture to adopt rules pursuant to chapter 91, Hawaii Revised Statutes, for the Reimbursement Transportation Cost Payment Program (Program);
- (2) Inserting an appropriation for one full-time equivalent (1.0 FTE) program coordinator position within the Department of Agriculture for the Program; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1205, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1205, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Nishihara).

SCRep. 265 Agriculture and Environment on S.B. No. 1239

The purpose and intent of this measure is to appropriate funds for research on prevention and mitigation of rapid ohia death.

Your Committee received testimony in support of this measure from the Department of Agriculture, Department of Land and Natural Resources, University of Hawai'i System, Coordinating Group on Alien Pest Species, Hawai'i Green Growth, Kalihi Palama Hawaiian Civic Club, Conservation Council for Hawai'i, Hawai'i Farm Bureau, The Nature Conservancy, Hawaiian Affairs Caucus of the Democratic Party of Hawaii, Association of Hawaiian Civic Clubs, and twelve individuals.

Your Committee finds that ohia makes up about fifty percent of the State's native forest and is a keystone species in native watershed areas. Rapid ohia death is devastating thousands of acres of native forest on the island of Hawaii. Your Committee further finds that rapid ohia death is a critical threat to the State's native forests, so it is crucial that funds are directed to address this issue.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1239 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Nishihara).

SCRep. 266 Agriculture and Environment on S.B. No. 1313

The purpose and intent of this measure is to establish a statewide agricultural development and food resiliency strategy and goals, in line with the recommendations of the Increased Food Security and Food Self-Sufficiency Strategy.

Your Committee received testimony in support of this measure from the Department of Agriculture, Office of Planning, University of Hawai'i System, Hawai'i Farm Bureau, Ka Ohana O Na Pua, EcoTipping Points Project, and six individuals.

Your Committee finds that the Office of Planning, in cooperation with the Department of Agriculture, issued a report in October 2012, entitled "Increased Food Security and Food Self-Sufficiency Strategy: A State Strategic/Functional Plan Prepared in Accordance with HRS Chapter 226 Hawaii State Plan and the Hawaii Comprehensive Economic Development Strategy". The executive summary of the report states in pertinent part, "The purpose of the Increased Food Security and Food Self-Sufficiency Strategy (Strategy) is to increase the amount of locally grown food consumed by Hawaii residents. This will increase food self-sufficiency which is a component of food security. The Strategy is a living document intended as a first step toward continued dialog and implementation". Your Committee further finds that this measure is the next step toward increasing local food production in the State.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1313 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Nishihara).

SCRep. 267 (Joint) Human Services and Commerce, Consumer Protection, and Health on S.B. No. 1214

The purpose and intent of this measure is to appropriate funds to the Department of Health and Department of Human Services, including the Office of Youth Services, to provide homeless outreach services.

Your Committees received testimony in support of this measure from the Governor's Coordinator on Homelessness, Office of Youth Services, Catholic Charities Hawai'i, Partners in Care, Hawaii Youth Services Network, PHOCUSED, IMUAlliance, Parents and Children Together, Democratic Party of Hawai'i, and one individual. Your Committees received comments on this measure from the Department of Human Services, Department of Health, and one individual.

Your Committees find that Hawaii has the highest rate per capita of homelessness of any state in the nation. Addressing homelessness requires a multi-faceted approach using interventions targeted to the particular characteristics of the population being served. A more strategic, coordinated outreach effort is needed to assertively serve the growing percentage of homeless persons who are not living in shelter programs. Additionally, outreach is especially critical to help newly homeless youth navigate the social services system to find safe alternatives to homelessness, as youth service providers report that the number of homeless youth has been increasing each year.

Your Committees have amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Human Services and Commerce, Consumer Protection, and Health that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1214, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1214, S.D. 1, and be referred to your Committees on Judiciary and Labor and Ways and Means.

Signed by the Chairs on behalf of the Committees.
Human Services: Ayes, 3. Noes, none. Excused, 2 (Harimoto, Tokuda).
Commerce, Consumer Protection, and Health: Ayes, 4. Noes, none. Excused, 3 (Ihara, Nishihara, Ruderman).

SCRep. 268 (Joint) Human Services and Commerce, Consumer Protection, and Health on S.B. No. 1155

The purpose and intent of this measure is to specify that coverage for telehealth under the State's Medicaid managed care and fee-for-service programs includes psychiatric services provided through a coordinated care manager who is present in a primary health care provider's office through telehealth.

Your Committees received testimony in support of this measure from the Hawaii Medical Association and Hawaii Psychiatric Medical Association. Your Committees received comments on this measure from the Department of Human Services, Hawaii Medical Service Association, and one individual.

Your Committees find that the psychiatric collaborative care model of integrated care is ideal for states like Hawaii with community populations that are remote from urban centers because the model does not require the physical presence of a psychiatrist when psychiatric services can be delivered remotely. The psychiatric collaborative care model supports mental and behavioral health through a team-based, coordinated approach involving a psychiatric consultant, a behavioral health care manager, and the primary care clinician extending beyond the scope of an office visit. Including coverage for psychiatric services provided through a collaborative care model that emulates the Centers for Medicare and Medicaid Services collaborative care program will ensure that more patients will receive the health care they need in a timely and efficient manner.

Your Committees have amended this measure by:

- (1) Clarifying that coverage for telehealth under the State's Medicaid managed care and fee-for-service programs includes psychiatric services provided to a patient by a collaborative care team consisting of a primary care provider and a behavioral health care manager, who is present in the primary care provider's office, in conjunction with a psychiatric consultant whose services may be delivered through telehealth; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Human Services and Commerce, Consumer Protection, and Health that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1155, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1155, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Human Services: Ayes, 3. Noes, none. Excused, 2 (Harimoto, Tokuda).

Commerce, Consumer Protection, and Health: Ayes, 4. Noes, none. Excused, 3 (Ihara, Nishihara, Ruderman).

SCRep. 269 (Joint) Human Services and Housing on S.B. No. 1223

The purpose and intent of this measure is to:

- (1) Appropriate funds for establishing, staffing, and operating two mobile clinics to serve the homeless population;
- (2) Appropriate funds for establishing three specialty shelters to temporarily house and serve homeless individuals;
- (3) Appropriate funds to the Department of Human Services to study the impact and feasibility of creating an integrated database of certain information related to homeless individuals for providers of homeless services;
- (4) Require the Governor to establish puuhonua safe zones where homeless persons may reside and appropriate funds for such purposes;
- (5) Appropriate funds for homeless outreach services and storage of homeless people's property;
- (6) Appropriate funds for outreach services to homeless persons with serious and persistent mental illness;
- (7) Appropriate funds for services for homeless persons experiencing substance abuse; and
- (8) Appropriate funds to assist the Department of Transportation with homelessness-related issues pertaining to security, health, and safety.

Your Committees received testimony in support of this measure from the Hawaii Youth Services Network, Hawaii Kai Homeless Task Force, IMUAlliance, Democratic Party of Hawai'i, and three individuals. Your Committees received testimony in opposition to this measure from the Governor's Coordinator on Homelessness. Your Committees received comments on this measure from the Department of Human Services, Department of the Attorney General, Department of Health, and Honolulu Police Department.

Your Committees find that homelessness continues to be one of the State's most significant and challenging social problems. Homeless persons face a myriad of issues, including general health issues, mental illness, and substance abuse. These issues affecting homeless persons also impact the general population through the costs of social and health care services. Because homelessness is a complex issue, continuous resources and coordinated efforts at all levels are critical to ensuring that the most vulnerable individuals are receiving the support services they need.

Your Committees have amended this measure by:

- (1) Specifying that the responsibilities for the establishment, maintenance, and operation of puuhonua safe zones are placed under the Department of Human Services instead of the Office of the Governor;
- (2) Inserting language that waives the State's liability for any loss, damage, injury, or death in a puuhonua safe zone; and
- (3) Specifying that the Department of Human Services is the expending agency, rather than the Office of the Governor, for appropriated funds for the establishment of puuhonua safe zones.

As affirmed by the records of votes of the members of your Committees on Human Services and Housing that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1223, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1223, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Human Services: Ayes, 3. Noes, none. Excused, 2 (Harimoto, Tokuda).

Housing: Ayes, 3; Ayes with Reservations (Keith-Agaran). Noes, none. Excused, 2 (Kahale, Nishihara).

SCRep. 270 (Joint) Human Services and Housing on S.B. No. 1243

The purpose and intent of this measure is to:

- (1) Require the Department of Human Services to:
 - (A) Establish and implement residential campgrounds with full supportive services for the homeless that utilize undeveloped government land located in industrial zones; and
 - (B) Submit an annual report containing information about the residential campgrounds and its residents to the Legislature; and
- (2) Appropriate funds to establish and implement the residential campgrounds, including the hiring of necessary staff.

Your Committees received testimony in support of this measure from the Hawaii Kai Homeless Task Force, Democratic Party of Hawai'i, and one individual. Your Committees received testimony in opposition to this measure from the Governor's Coordinator on Homelessness, Department of Human Services, and IMUAlliance.

Your Committees find that due to economic constraints, the supply of subsidized housing is, and will continue to be, woefully insufficient for the foreseeable future. Consequently, illegal homeless camps, which are a public health menace, are ubiquitous. The State must therefore adopt emergency measures that can be implemented quickly within current budgetary constraints. Exploring the establishment of transitional housing centers will ensure that homeless individuals are housed and receive much needed support services.

Your Committees have amended this measure by deleting its contents and inserting language that:

- (1) Authorizes the Department of Human Services to establish a transitional housing center pilot project;
- (2) Identifies Sand Island Beach Park as a potential location for the transitional housing center pilot project;
- (3) Allows the Department of Human Services to seek assistance from private, nonprofit, and faith-based organizations to provide support services for the homeless in conjunction with the pilot project; and
- (4) Allows the Department of Human Services to consider establishing a transitional housing center pilot project in east Oahu.

Your Committees note the concerns from the Department of Land and Natural Resources relating to the potential legal challenges to the use of Sand Island Beach Park as a possible location for a transitional housing center.

As affirmed by the records of votes of the members of your Committees on Human Services and Housing that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1243, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1243, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Human Services: Ayes, 3. Noes, none. Excused, 2 (Harimoto, Tokuda).

Housing: Ayes, 3; Ayes with Reservations (Harimoto). Noes, none. Excused, 2 (Kahele, Nishihara).

SCRep. 271 Ways and Means on S.B. No. 871

The purpose and intent of this measure is to limit the tax imposed on wholesalers and dealers for each large cigar to the lesser of:

- (1) Fifty cents; or
- (2) Fifty per cent of the wholesale price of the cigar.

Your Committee received testimony in support of this measure from Cigar Association of America, Inc.; Cigar Rights of America, Hawaii; Havana Club Honolulu; Hawaii Cigar Association; Kauai Cigar Company; Mokuleia Cigar Company; and twenty-one individuals.

Your Committee received testimony in opposition to this measure from the Department of Health; American Cancer Society Cancer Action Network; Hawaii COPD Coalition; Hawaii Public Health Institute; and one hundred three individuals.

Your Committee received comments on this measure from the Department of Taxation and Tax Foundation of Hawaii.

Your Committee finds that the excise tax rate imposed on the sale of large cigars makes it difficult for local producers of cigars to compete with mail-order suppliers that sell cigars in Hawaii without paying state taxes and whose customers do not file their tax liability under the State's use tax law. Your Committee further finds that this measure addresses this issue by setting a cap on the excise tax imposed on the sale of large cigars, thereby limiting the financial burden caused by the tax.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 871 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 9; Ayes with Reservations (Riviere, Taniguchi). Noes, none. Excused, 2 (Harimoto, Wakai).

SCRep. 272 Ways and Means on S.B. No. 942

The purpose and intent of this measure is to resolve a conflict in statutory language by amending section 328L-3, Hawaii Revised Statutes, which establishes the emergency and budget reserve fund, to remove a reference to a specific percentage of Hawaii tobacco settlement special fund moneys to be deposited into the fund.

Your Committee received testimony in support of this measure from the Department of Budget and Finance.

Your Committee received testimony in opposition to this measure from one individual.

Your Committee finds that Act 118, Session Laws of Hawaii 2015, amended section 328L-2, Hawaii Revised Statutes, to reduce the share of tobacco settlement special fund moneys to be deposited into the emergency and budget reserve fund from 24.5 per cent to 15 per cent, effective July 1, 2015. However, the Act did not make a conforming amendment to section 328L-3, Hawaii Revised Statutes, which also states that 24.5 per cent of tobacco settlement special fund moneys are to be deposited into the emergency and budget reserve fund. As a result, sections 328L-2 and 328L-3, Hawaii Revised Statutes, currently reflect different percentages of the tobacco settlement special fund moneys that are to be deposited into the emergency and budget reserve fund.

Your Committee finds that this measure, which provides for the deposit of “moneys received” from the tobacco settlement moneys into the emergency and budget reserve fund, without setting forth a specific percentage of the moneys to be deposited, will prevent future discrepancies and inadvertent errors.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 942 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 9. Noes, none. Excused, 2 (Harimoto, Wakai).

SCRep. 273 Transportation and Energy on S.B. No. 769

The purpose and intent of this measure is to define “aircraft” to include helicopters for purposes of the general excise tax exemption on services and maintenance of aircraft.

Your Committee received testimony in support of this measure from the Maui Chamber of Commerce; Maui Hotel & Lodging Association; Pacific Helicopter Tours, Inc.; Jack Harter Helicopters; Blue Hawaiian Helicopters; Sunshine Helicopters; and one individual. Your Committee received testimony in opposition to this measure from Americans for Democratic Action Hawaii; Progressive Democrats of Hawaii; Life of the Land; and three individuals. Your Committee received comments on this measure from Department of Taxation and Tax Foundation of Hawaii.

Your Committee finds that the aviation industry is important for inter-island travel for tourism, medical needs, and inter-island commerce. The State’s economy is highly dependent on tourism and the ability to travel between islands. There is a proliferation of helicopter use in the State for travel, recreational, and medical needs. As such, the service and maintenance of helicopters and construction of related facilities should be exempt from the general excise tax in the same manner as the service and maintenance of other aircraft.

Your Committee has amended this measure by:

- (1) Clarifying that its purpose is to only exempt helicopter service and maintenance and construction of related facilities from the general excise tax; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Transportation and Energy that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 769, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 769, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Dela Cruz, English).

SCRep. 274 (Joint) Transportation and Energy and Economic Development, Tourism, and Technology on S.B. No. 660

The purpose and intent of this measure is to:

- (1) Create the energy storage market acceleration program and energy storage market acceleration special fund to be administered by the Hawaii green infrastructure authority;
- (2) Establish an energy storage system rebate for energy storage system providers and allow for rebates under the program to be paid out of the energy storage market acceleration special fund; and
- (3) Appropriate the funds from the Hawaii green infrastructure special fund to the energy storage market acceleration special fund for the purposes of paying rebates and administering the energy storage system rebate program.

Your Committees received testimony in support of this measure from the Hawaii Solar Energy Association; Distributed Energy Resources Council; Stem, Inc.; Amber Kinetics; Sierra Club of Hawaii; and seven individuals. Your Committees received testimony in opposition to this measure from Department of Commerce and Consumer Affairs; Hawaii Green Infrastructure Authority; State Procurement Office; Public Utilities Commission; Blue Planet Foundation; Sust ‘aina ble Molokai; and one individual. Your Committees received comments on this measure from the Department of Budget and Finance and Tax Foundation of Hawaii.

Your Committees find that supporting the growth and development of energy storage technologies is vital to the continued development of renewable energy in the State. The development of energy storage is a crucial step in the development of an updated electrical grid which can accommodate more renewable energy resources. However, energy storage adds significant costs to renewable energy systems, which has impeded the installation and implementation of energy storage systems.

Further, Your Committees find that it is unnecessary to attempt to address issues inhibiting the widespread implementation of energy storage technologies through the Hawaii green infrastructure loan program. Instead, these issues can more efficiently and effectively be addressed through a rebate program funded through the existing public benefits fee under section 269-121, Hawaii Revised Statutes.

Your Committees have amended this measure by:

- (1) Deleting its contents;
- (2) Inserting language that:
 - (A) Establishes the Hawaii energy storage market acceleration program as a rebate program administered by the Public Benefits Fee Administrator;
 - (B) Funds the energy storage market acceleration program through the public benefits fee;
 - (C) Requires the Public Utilities Commission to determine the amount available for rebates annually;
 - (D) Allows the Public Utilities Commission to increase the public benefits fee if necessary; and
 - (E) Requires energy storage systems receiving rebates to remain connected to the utility grid; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Transportation and Energy and Economic Development, Tourism, and Technology that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 660, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 660, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Transportation and Energy: Ayes, 4. Noes, none. Excused, 1 (Harimoto).

Economic Development, Tourism, and Technology: Ayes, 4; Ayes with Reservations (Taniguchi). Noes, none. Excused, 1 (Baker).

SCRep. 275 (Joint) Transportation and Energy and Economic Development, Tourism, and Technology on S.B. No. 682

The purpose and intent of this measure is to extend the sunset date of the alternate energy research and development pilot program to June 30, 2019, and to appropriate funds for the project.

Your Committees received testimony in support of this measure from the High Technology Development Corporation, Navatek, and six individuals.

Your Committees find that the alternative energy and development pilot program established by Act 159, Session Laws of Hawaii 2015, has been successful in supporting local businesses involved in the business of alternative energy during its first two years of implementation. It is therefore appropriate to extend the program for an additional two years and to appropriate an unspecified amount of funds for the same to foster further success and growth of the program.

As affirmed by the records of votes of the members of your Committees on Transportation and Energy and Economic Development, Tourism, and Technology that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 682 and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Transportation and Energy: Ayes, 4. Noes, none. Excused, 1 (Harimoto).

Economic Development, Tourism, and Technology: Ayes, 4. Noes, none. Excused, 1 (Baker).

SCRep. 276 (Joint) Transportation and Energy and Commerce, Consumer Protection, and Health on S.B. No. 261

The purpose and intent of this measure is to:

- (1) Prohibit smoking in a motor vehicle in which a person under the age of eighteen is present; and
- (2) Require the Department of Health to report on the enforceability and coordination of data collection activities of the respective law enforcement agencies.

Your Committees received testimony in support of this measure from the Department of Health, Office of the Prosecuting Attorney of the County of Kaua'i, County of Hawai'i Police Department, Hawai'i Public Health Association, Hawaii COPD Coalition, American Heart Association/American Stroke Association, Hawai'i Pacific Health, Hawaii Children's Action Network, University of Hawaii Student Health Advisory Council, Hawai'i Public Health Institute/Coalition for a Tobacco-Free Hawaii, and numerous individuals. Your Committees received testimony in opposition to this measure from the Hawaii Smokers Alliance and thirteen individuals. Your Committees received comments on this measure from one individual.

Your Committees find that secondhand smoke is a dangerous class A carcinogen in the same class as asbestos and benzene. Secondhand smoke typically contains at least seven thousand identifiable chemicals, around seventy of which are known or probable carcinogens. According to the Centers for Disease Control and Prevention, secondhand smoke can cause heart disease, lung cancer, and stroke. In children, secondhand smoke can also cause ear infections; more frequent and severe asthma attacks; respiratory symptoms such as coughing, sneezing, and shortness of breath; respiratory infections such as bronchitis and pneumonia; and a greater risk for sudden infant death syndrome.

Your Committees find that children exposed to secondhand smoke run a greater risk of suffering from the damaging health effects. In general, children breathe in more air than adults because their lungs are still developing. Children also have little or no control over their environments and cannot leave if secondhand smoke bothers them.

Your Committees further find that studies have found that secondhand smoke exposure in vehicles is more concentrated than in bars and restaurants. Secondhand smoke in a car causes the air to be many times more toxic than what the Environmental Protection Agency considers hazardous air quality, even when a window is down. Smoke-free vehicle laws such as this measure, ensure that clear air is maintained within the vehicle while a child is inside.

As affirmed by the records of votes of the members of your Committees on Transportation and Energy and Commerce, Consumer Protection, and Health that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 261 and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Transportation and Energy: Ayes, 3. Noes, none. Excused, 2 (English, Harimoto).

Commerce, Consumer Protection, and Health: Ayes, 5; Ayes with Reservations (Kidani). Noes, none. Excused, 2 (Ihara, Ruderman).

SCRep. 277 Agriculture and Environment on S.B. No. 1104

The purpose and intent of this measure is to authorize the issuance of special purpose revenue bonds to assist Maui All Natural Alternative, LLC, as an industrial enterprise.

Your Committee received testimony in support of this measure from the Office of the Mayor, County of Maui; Department of Parks and Recreation, County of Maui; Ulupono Initiative; Maui All Natural Alternative, LLC; Kaanapali Land Management Corp.; Alexander & Baldwin, LLC; and one individual. Your Committee received comments on this measure from the Department of Budget and Finance.

Your Committee finds that the proceeds of the sale of special purpose revenue bonds will be used by Maui All Natural Alternative, LLC, to build a facility to provide municipal sludge processing and renewable energy at the Wailuku-Kahului wastewater reclamation facility on Maui. Your Committee further finds that the issuance of these special purpose revenue bonds is in the public interest and will benefit the public health, safety, and general welfare.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1104 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Nishihara).

SCRep. 278 Agriculture and Environment on S.B. No. 1255

The purpose and intent of this measure is to authorize the issuance of special purpose revenue bonds to assist Honoka'a Land Company LLC, as an agricultural enterprise.

Your Committee received testimony in support of this measure from the Department of Agriculture, Honoka'a Land Company LLC, and one individual. Your Committee received comments on this measure from the Department of Budget and Finance.

Your Committee finds that the proceeds of the sale of special purpose revenue bonds will be used by Honoka'a Land Company LLC to acquire, develop, and renovate various facilities at the Haina Mill site and convert the Hawi site to organic production. Your Committee further finds that the issuance of these special purpose revenue bonds is in the public interest and will benefit the public health, safety, and general welfare.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1255 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Nishihara).

SCRep. 279 (Joint) Education and Higher Education on S.B. No. 298

The purpose and intent of this measure is to:

- (1) Establish a workforce readiness program within the Department of Education to allow students to graduate from an extended high school enrollment with a high school diploma and an industry-recognized associate's degree; and
- (2) Appropriate monies to develop and implement the program and hire full-time employees.

Your Committees received testimony in support of this measure from the University of Hawaii System and one individual. Your Committees received comments on this measure from the Department of Education

Your Committees find that workforce development is an important issue in the State. Only fifty-six percent of Hawaii's public school graduates continued on to post-secondary education in 2015. Your Committees further find that collaboration between educators and local industry employers would help students enter the workforce with skills and credentials that are valuable to employers in their community.

As affirmed by the records of votes of the members of your Committees on Education and Higher Education that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 298 and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Education: Ayes, 3. Noes, none. Excused, 2 (Espero, Riviere).

Higher Education: Ayes, 3. Noes, none. Excused, 2 (Espero, Keith-Agaran).

SCRep. 280 (Joint) Education and Higher Education on S.B. No. 299

The purpose and intent of this measure is to require that the Department of Education adopt a broad framework to provide all public school students from kindergarten through twelfth grade with access to computer science curricula.

Your Committees received testimony in support of this measure from the Microsoft Corporation and one individual. Your Committees received comments on this measure from the Department of Education and University of Hawaii System.

Your Committees find that computer science skills are valuable in a wide range of career paths, including manufacturing, health care, finance, defense, and government. As of December 2016, there were 1,343 open computing jobs in Hawaii, and the average yearly salary for a computing occupation is significantly higher than the average yearly salary of all other occupations in the State. Your Committees further find that only fourteen schools in Hawaii offered the advanced placement computer science course in 2015-2016 and only forty percent of schools offer computer programming courses, despite significant demand for such courses among students and the parents of students. This measure will align the computer science curricula in Hawaii's public schools more closely with the needs and interests of the State's students.

As affirmed by the records of votes of the members of your Committees on Education and Higher Education that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 299 and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Education: Ayes, 3. Noes, none. Excused, 2 (Espero, Riviere).

Higher Education: Ayes, 3. Noes, none. Excused, 2 (Espero, Keith-Agaran).

SCRep. 281 (Joint) Education and Higher Education on S.B. No. 720

The purpose and intent of this measure is to appropriate monies to the Department of Kinesiology and Rehabilitation Science of the University of Hawaii for the concussion education and monitoring program for school athletics and youth athletic activities.

Your Committees received testimony in support of this measure from the Department of Education, Hawaii High School Athletic Association, Hawaii Athletic Trainers' Association, and one individual.

Your Committees find that concussions and other head injuries pose a significant risk to student and youth athletes. The damage from such an injury often becomes much more severe if the injury is not quickly and accurately recognized and the injured athlete returns to competition too soon. For this reason, it is vital for students and other youth in the State to have reliable information about concussions, and for student and youth athletes to be tested and monitored for possible concussions.

As affirmed by the records of votes of the members of your Committees on Education and Higher Education that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 720 and recommend that it pass Second Reading and be referred to your Committees on Commerce, Consumer Protection, and Health and Ways and Means.

Signed by the Chairs on behalf of the Committees.

Education: Ayes, 3. Noes, none. Excused, 2 (Espero, Riviere).

Higher Education: Ayes, 3. Noes, none. Excused, 2 (Espero, Keith-Agaran).

SCRep. 282 (Joint) Education and Commerce, Consumer Protection, and Health on S.B. No. 1190

The purpose and intent of this measure is to:

- (1) Expand the national board certification incentive program to provide monetary incentives to school psychologists; and
- (2) Authorize continuing bonuses for school psychologists in certain designated schools if the schools improve and no longer carry that designation.

Your Committees received testimony in support of this measure from the Hawaii Association of School Psychologists, Hawaii State Teachers Association, Hawaii Government Employees Association AFSCME Local 152, National Association of School Psychologists, and four individuals. Your Committees received comments on this measure from the Department of Education.

Your Committees find that highly qualified mental health providers play an important role in schools and facilitate the good mental health of students. The rigorous training, supervision, and testing required of school psychologists to obtain national certification is comparable to national teacher certification. Your Committees further find that Hawaii's public schools have a low retention rate for school psychologists, and many positions remain vacant for prolonged periods of time. This measure will provide incentives for highly qualified school psychologists to work in Hawaii's public schools.

As affirmed by the records of votes of the members of your Committees on Education and Commerce, Consumer Protection, and Health that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1190 and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Education: Ayes, 3. Noes, none. Excused, 2 (Espero, Riviere).

Commerce, Consumer Protection, and Health: Ayes, 4. Noes, none. Excused, 3 (Ihara, Kidani, Ruderman).

SCRep. 283 (Joint) Education and Commerce, Consumer Protection, and Health on S.B. No. 1286

The purpose and intent of this measure is to:

- (1) Narrow the scope of the private trade, vocational, and technical school licensure program within the Department of Education;

- (2) Establish a licensing fee to ensure the sustainability of the licensing program;
- (3) Establish a license renewal process and fee; and
- (4) Establish a private trade, vocational, and technical school licensure special fund.

Your Committees received testimony in support of this measure from the Department of Education. Your Committees received testimony in opposition to this measure from the Maui School of Therapeutic Massage, Maui Academy of Healing Arts, Pacific Center for Awareness and Bodywork, Hawaii Maritime License Center, Island Spirit School of Massage, Hawaii Institute of Hair Design, Mulken Landscaping and Nursery, and more than one hundred thirty individuals. Your Committees received comments on this measure from the Department of Commerce and Consumer Affairs and Department of Budget and Finance.

Your Committees find that private trade, vocational, and technical schools provide specialized training for a number of professions in the State, including those in massage therapy, health care, tax preparation, and maritime activities. These schools are prohibited from operating in Hawaii without being licensed, and licensure has been the responsibility of the Department of Education since 1939. In 1998, the purpose of this licensure was amended by Act 57, Session Laws of Hawaii 1998, to be protecting consumers from false, deceptive, misleading, and unfair practices, and to ensure adequate educational quality.

Your Committees further find that the Department of Education's primary mission is kindergarten to twelfth grade education, and does not include the provision of post-secondary institutions. As such, the Department of Education does not currently have the capacity or expertise in the specialized curricula of the various private trade, vocational, and technical schools currently under its licensing jurisdiction. For this reason, the current licensing framework for private trade, vocational, and technical schools in Hawaii is unsustainable.

Your Committees additionally find that many private trade, vocational, and technical schools rely on state licensure to fulfill accreditation requirements, facilitate collaboration and participation with entities and students from outside the State, and receive access to funding from a diverse variety of sources. Altering the scope of licensure and licensing fee to the degree presently in this measure would have a significant detrimental effect on many private trade, vocational, and technical schools that currently provide specialized training in Hawaii.

Your Committees have amended this measure by:

- (1) Expanding the purpose and source of funds of the private trade, vocational, and technical school licensure special fund;
- (2) Removing language limiting the type of private trade, vocational, and technical schools that must be licensed by the Department of Education and adding language to expand licensure to those schools that require licensure for compliance with federal regulations and accreditation requirements;
- (3) Changing the amount of licensure and license renewal fees to a blank amount;
- (4) Authorizing one permanent full-time equivalent position within the Department of Education to administer licensing of private trade, vocational, and technical schools and appropriating monies for that purpose;
- (5) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Education and Commerce, Consumer Protection, and Health that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1286, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1286, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Education: Ayes, 3. Noes, none. Excused, 2 (Espero, Riviere).

Commerce, Consumer Protection, and Health: Ayes, 4. Noes, none. Excused, 3 (Ihara, Kidani, Ruderman).

SCRep. 284 Education on S.B. No. 686

The purpose and intent of this measure is to establish an education surcharge on residential investment properties and visitor accommodations for the purpose of funding public education.

Your Committee received testimony in support of this measure from the Hawaii State Teachers Association, Democratic Party of Hawaii, Hui for Excellence in Education, IMUAlliance, Hawaii Children's Action Network, Parents for Public Schools of Hawaii, Hawaii Alliance for Progressive Action, Hawaii Public Charter Schools Network, Hawaii Island School Garden Network, Special Education Advisory Council, Graduate Student Organization of the University of Hawaii at Manoa, Hawaii Democratic Party Labor Caucus, and more than one hundred seventy-five individuals. Your Committee received testimony in opposition to this measure from the Chamber of Commerce Hawaii, Building Industry Association of Hawaii, Rental by Owner Awareness Association, Hawaii Association of REALTORS, Coalition for Equal Taxation, Wyndham Vacation Ownership, American Resort Development Association, Hawaii Lodging and Tourism Association, and nine individuals. Your Committee received comments on this measure from the Office of the Mayor of the City and County of Honolulu, Tax Foundation of Hawaii, and one individual.

Your Committee finds that Hawaii's public schools are severely underfunded. When compared to other school districts of similar size, the State ranks two hundred twenty-seventh in per-pupil funding before adjusting for cost of living. This lack of adequate funding has resulted in classrooms overheating because of insufficient heat abatement measures and an inability to repair and renovate deteriorating facilities.

Your Committee further finds that Hawaii is facing a teacher shortage crisis that is primarily due to the State's public school teachers receiving low compensation packages. Studies indicate that Hawaii's beginning teacher salaries are approximately \$4,000

lower than the national average, and that teachers with ten to twenty years of experience have salaries that are \$15,000 to \$20,000 lower on average than their counterparts in comparable districts. This has led to an average of three hundred fifty-nine unfilled teaching positions in the Department of Education from 2011 to 2014, rising to five hundred thirty-one unfilled positions for the 2016-2017 school year.

Your Committee additionally finds that Hawaii is the only state that does not fund education through property taxes. A surcharge on investment properties and visitor accommodations will provide much needed funding for the State's public schools and bring Hawaii's education funding policy closer to other school districts of similar size. Upon ratification of a constitutional amendment to accomplish that objective, this measure will codify in statute the surcharge on residential investment properties and visitor accommodations.

Your Committee has amended this measure by:

- (1) Allowing a person who is eligible for a county homeowner's exemption on property tax who also owns more than one residential investment property to designate which investment property shall be exempt from the surcharge on investment property; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 686, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 686, S.D. 1, and be referred to your Committees on Ways and Means and Judiciary and Labor.

Signed by the Chair on behalf of the Committee.

Ayes, 4; Ayes with Reservations (Riviere). Noes, none. Excused, 1 (Kahele).

SCRep. 285 (Joint) Housing and Education on S.B. No. 1146

The purpose and intent of this measure is to exempt new housing units within a one mile radius of the Honolulu rail transit line that are reserved for persons or families with incomes up to eighty percent of the area median income from school impact fee requirements.

Your Committees received testimony in support of this measure from the Hawaii Public Housing Authority, Department of Planning and Permitting for the City and County of Honolulu, and Hui for Excellence in Education. Your Committees received testimony in opposition to this measure from the Building Industry Association of Hawaii. Your Committees received comments on this measure from the Hawaii Housing Finance and Development Corporation, Office of Planning, and IMUAlliance.

Your Committees find that a shortage of affordable housing exists in Hawaii. School impact fees can significantly raise the cost of new housing development projects. Your Committees further find that providing an exemption for housing developments near the Honolulu rail transit line for persons or families with incomes up to eighty percent of the area median income will help to promote the development of affordable housing in areas served by the expanding Honolulu mass transit network. Your Committees additionally find that this exemption could also incentivize affordable housing development in areas of Oahu outside the Honolulu rail transit corridor.

Your Committees have amended this measure by:

- (1) Expanding the exemption to affordable housing units on the island of Oahu; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Housing and Education that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1146, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1146, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Housing: Ayes, 3. Noes, none. Excused, 2 (Kahele, Nishihara).

Education: Ayes, 3. Noes, none. Excused, 2 (Dela Cruz, Kahele).

SCRep. 286 (Joint) Housing and Human Services on S.B. No. 436

The purpose and intent of this measure is to appropriate funds for establishing three specialty shelters to temporarily house and serve homeless individuals.

Your Committees received testimony in support of this measure from Hawaii Pacific Health, IMUAlliance, and two individuals. Your Committees received comments on this measure from the Office of the Governor and Department of Human Services.

Your Committees find that the need for specialty shelters has grown as the number of homeless persons in the State has increased. Homeless persons have few options to receive vital services such as home care, mental health stabilization, and recovery environments for substance use disorders once they leave an acute treatment environment. Specialty shelters can assist homeless persons with access to services and housing assistance. This measure will provide monies for additional specialty shelters.

As affirmed by the records of votes of the members of your Committees on Housing and Human Services that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 436 and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Housing: Ayes, 3. Noes, none. Excused, 2 (Kahele, Nishihara).

Human Services: Ayes, 3. Noes, none. Excused, 2 (Harimoto, Tokuda).

SCRep. 287 (Joint) Human Services and Education on S.B. No. 500

The purpose and intent of this measure is to:

- (1) Establish the R.E.A.C.H. (Resources for Enrichment, Athletics, Culture, and Health) program in the Office of Youth Services to provide a standardized framework and funding for after-school programs in public middle and intermediate schools;
- (2) Require the Office of Youth Services to report to the Legislature on program implementation and funding allocation;
- (3) Establish that the R.E.A.C.H. program will be run by a program specialist to be appointed by the Governor; and
- (4) Establish a special fund to receive fees and other monies to supplement the costs of administering and operating the R.E.A.C.H. program.

Your Committees received testimony in support of this measure from the Office of the Lieutenant Governor; Department of Education; Department of Education, Honolulu District Office; Office of Youth Services; State Public Charter School Commission; Hawaii Medical Service Association; Hawaii Youth Services; 'Ohana Health Plan; High Tech Youth Network; Hawaii Children's Action Network; Hawai'i Afterschool Alliance; Family Programs Hawaii; HE'E Coalition; and twenty-one individuals. Your Committees received comments on this measure from the Department of Budget and Finance.

Your Committees find that after-school programming represents an upfront investment in Hawaii's youth, as after-school programs can improve attendance, behavior, and academic performance, while reducing the likelihood that youth will engage in risky behavior. Your Committees further find that the R.E.A.C.H. (resources for enrichment, athletics, culture, and health) initiative was established in March 2013 to develop a framework and funding base for after-school programs for public middle and intermediate school students throughout the State. Since its inception, the R.E.A.C.H. initiative has provided over \$2,250,000 in funding for after-school programs, including thirty-nine schools throughout all counties in the State, and has proven to be important to the future and welfare of the State as a whole.

Your Committees have amended this measure by:

- (1) Inserting findings that outline the responsibilities of the Department of Education's Community Engagement Office, including its responsibilities regarding the R.E.A.C.H. program;
- (2) Inserting language that establishes the R.E.A.C.H. program within the Community Engagement Office under chapter 302A, Hawaii Revised Statutes, rather than within the Office of Youth Services under chapter 352D, Hawaii Revised Statutes; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Human Services and Education that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 500, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 500, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Human Services: Ayes, 3. Noes, none. Excused, 2 (Harimoto, Tokuda).

Education: Ayes, 3. Noes, none. Excused, 2 (Dela Cruz, Riviere).

SCRep. 288 (Joint) Human Services and Education on S.B. No. 1189

The purpose and intent of this measure is to:

- (1) Repeal the priority given by the preschool open doors program to children who are not eligible to attend public school kindergarten in the calendar year in which they turn five years of age because their birth date occurs after the kindergarten eligibility date; and
- (2) Clarify that the term "at-risk children", as used in determining priority for the preschool open doors program, is as defined in section 302L-1, Hawaii Revised Statutes.

Your Committees received testimony in support of this measure from the Executive Office on Early Learning, State Public Charter School Commission, Kamehameha Schools, and Hawaii Children's Action Network. Your Committees received testimony in opposition to this measure from the Parents for Public Schools of Hawai'i and one individual. Your Committees received comments on this measure from the Department of Human Services and Parents and Children Together.

Your Committees find that the preschool open doors program is Hawaii's school readiness program that provides critical subsidies for low to moderate income families sending their children to a licensed preschool to prepare them for kindergarten. By providing priority for underserved or at-risk children or children who are not eligible to attend public school kindergarten in the calendar year in which they turn five years of age because of their date of birth occurring after the eligibility date, the preschool open doors program creates short-term and long-term benefits for children, individuals, and society as a whole.

Your Committees have amended this measure by reinstating language that provides priority for the preschools open doors program to four-year-old children who are not eligible to attend public school kindergarten in the calendar year in which they turn five years of age because their birth date occurs after the kindergarten eligibility date.

As affirmed by the records of votes of the members of your Committees on Human Services and Education that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1189, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1189, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Human Services: Ayes, 3. Noes, none. Excused, 2 (Harimoto, Tokuda).

Education: Ayes, 3. Noes, none. Excused, 2 (Dela Cruz, Riviere).

SCRep. 289 (Joint) Transportation and Energy and Commerce, Consumer Protection, and Health on S.B. No. 657

The purpose and intent of this measure is to allow rental car companies to collect from customers mandated government fees and amend the formula upon which those fees are assessed.

Your Committees received testimony in support of this measure from Hertz Global, Hilton Hawaii, Avis Budget Group, American Car Rental Association, Hawai'i Lodging & Tourism Association, Enterprise Holdings in Hawaii, and one individual. Your Committees received testimony in opposition to this measure from the Department of Commerce and Consumer Affairs, Office of Consumer Protection.

Your Committees find that while the rental car industry is vitally important to Hawaii, rental car customers, who are predominantly tourists, should be made fully aware of all of the mandatory government taxes that are assessed on each rental car. According to testimony, thirty-eight states currently permit rental car companies to fully recover all government fees assessed upon a rental car.

Your Committees have amended this measure by:

- (1) Requiring lessors to inform lessees of all vehicle license recovery fees by displaying the fees on their website; printing the fees in the written contract; and if the lessee makes a reservation over the phone or in-person, verbally stating the fees to the lessee;
- (2) Inserting a definition of "vehicle license recovery fee" to mean any charge that seeks to recover the amount of any government assessed vehicle fees paid by a lessor; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Transportation and Energy and Commerce, Consumer Protection, and Health that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 657, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 657, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Transportation and Energy: Ayes, 4. Noes, none. Excused, 1 (English).

Commerce, Consumer Protection, and Health: Ayes, 5. Noes, none. Excused, 2 (Nishihara, Ruderman).

SCRep. 290 (Joint) Transportation and Energy and Commerce, Consumer Protection, and Health on S.B. No. 359

The purpose and intent of this measure is to require drivers of taxicabs and transportation network drivers to display the general excise tax license inside their cars.

Your Committees received testimony in support of this measure from Charley's Taxi. Your Committees received testimony in opposition to this measure from Uber Technologies, Inc. Your Committees received comments on this measure from Department of Taxation and Tax Foundation of Hawaii.

Your Committees find that while taxi companies are required to operate under a litany of regulations, transportation network company drivers have not bothered to comply with the most basic laws related to the legally required payment of the general excise tax. Requiring drivers to display the general excise tax license in a car encourages compliance with tax laws.

As affirmed by the records of votes of the members of your Committees on Transportation and Energy and Commerce, Consumer Protection, and Health that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 359 and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Transportation and Energy: Ayes, 4. Noes, none. Excused, 1 (English).

Commerce, Consumer Protection, and Health: Ayes, 5; Ayes with Reservations (Ihara). Noes, none. Excused, 2 (Nishihara, Ruderman).

SCRep. 291 (Joint) International Affairs and the Arts and Economic Development, Tourism, and Technology on S.B. No. 545

The purpose and intent of this measure is to create a temporary commission on the thirteenth Festival of Pacific Arts to plan for the historic event to be held in Honolulu from June 11 to June 27, 2020.

Your Committees received testimony in support of this measure from the Department of Business, Economic Development, and Tourism; Hawaii Tourism Authority; Leeward Community College; The Leeward Theatre at the Leeward Community College; PA'I Foundation; Royal Hawaiian Center; Pacific Islanders in Communications; Kalihi Palama Hawaiian Civic Club; Island Agency NYC+HNL; and six individuals.

Your Committees find that the Festival of Pacific Arts is a landmark event that will highlight the unique art and culture of Hawaii. The festival brings together delegations from approximately twenty-seven Pacific island nations for events, activities, and performances. Through highlighting Hawaii's arts, culture, design, and music, the festival will help advance the State's commitment to creating global markets for creative entrepreneurs. Your Committees note that the recommended appropriation to create the temporary commission and to equip the commission for festival planning purposes is \$1,500,000.

Your Committees have amended this measure by:

- (1) Adding the President and Chief Executive Officer of the Hawaii Tourism Authority or the President's designee as a member of the commission;
- (2) Adding the Mayor of the City and County of Honolulu or the Mayor's designee as a member of the commission; and

(3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on International Affairs and the Arts and Economic Development, Tourism, and Technology that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 545, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 545, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

International Affairs and the Arts: Ayes, 4. Noes, none. Excused, 1 (Ihara).

Economic Development, Tourism, and Technology: Ayes, 3. Noes, none. Excused, 2 (Baker, Thielen).

SCRep. 292 (Joint) International Affairs and the Arts and Public Safety, Intergovernmental, and Military Affairs on S.B. No. 608

The purpose and intent of this measure is to appropriate funds to the State Foundation on Culture and the Arts to establish an arts in the military program.

Your Committees received testimony in support of this measure from the State of Hawaii Department of Defense, State Foundation on Culture and the Arts, and one individual.

Your Committees find that the State's large military community would benefit greatly from programing and partnerships with arts organizations. Your Committees further find that after-school arts programs, healing arts programs, performances on military bases, and participation in visual arts programing would make a significant contribution to the quality of life of the State's military community. Your Committees note that the recommended appropriation to establish the arts in the military program is \$200,000.

As affirmed by the records of votes of the members of your Committees on International Affairs and the Arts and Public Safety, Intergovernmental, and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 608 and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

International Affairs and the Arts: Ayes, 3. Noes, none. Excused, 2 (Ihara, Shimabukuro).

Public Safety, Intergovernmental, and Military Affairs: Ayes, 3. Noes, none. Excused, 2 (Ihara, Thielen).

SCRep. 293 International Affairs and the Arts on S.B. No. 1073

The purpose and intent of this measure is to appropriate funds to the State Foundation on Culture and the Arts to support the artist fellowship program which awards fellowships to promising artists.

Your Committee received testimony in support of this measure from the State Foundation on Culture and the Arts and two individuals.

Your Committee finds that the artist fellowship program provides one-time fellowships to local individuals in the areas of visual and performing arts. The fellowships create recognition and financial support for the artists. Your Committee further finds that the artist fellowship program contributes greatly to Hawaii's rich cultural landscape.

As affirmed by the record of votes of the members of your Committee on International Affairs and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1073 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Ihara, Shimabukuro).

SCRep. 294 International Affairs and the Arts on S.B. No. 1074

The purpose and intent of this measure is to appropriate funds to the State Foundation on Culture and the Arts to provide support for the task force established to plan and coordinate the celebration of the fiftieth anniversary of the Hawaii State Capitol.

Your Committee received testimony in support of this measure from the State Foundation on Culture and the Arts, Center for Hawaiian Sovereignty Studies, and one individual.

Your Committee finds that the task force to plan and coordinate the celebration of the fiftieth anniversary of the Hawaii State Capitol was established in 2016 for purposes of planning activities and events for the celebration. The current Hawaii State Capitol located at 415 South Beretania Street was dedicated on March 15, 1969. The festivities will take place from March 15, 2018, through March 15, 2019. Your Committee further finds that the funds appropriated will help the task force to coordinate and oversee the celebration.

As affirmed by the record of votes of the members of your Committee on International Affairs and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1074 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Ihara, Shimabukuro).

SCRep. 295 (Joint) International Affairs and the Arts and Economic Development, Tourism, and Technology on S.B. No. 1125

The purpose and intent of this measure is to appropriate funds to the Department of Business, Economic Development, and Tourism to establish the State of Hawaii sister-state office in the State of Goa, Republic of India.

Your Committees received testimony in support of this measure from the Department of Business, Economic Development, and Tourism; Indian American Friendship Council; Creative Cuisine; and fifty-three individuals. Your Committees received testimony in opposition to this measure from one individual. Your Committees received comments on this measure from one individual.

Your Committees find that in 2016, the Legislature established a sister-state relationship between the State of Hawaii and the State of Goa, Republic of India. Your Committees further find that establishing a sister-state office in the State of Goa will help promote trade, tourism, and cultural-exchange between the two states.

Your Committees have amended this measure by:

- (1) Adding language to require the Department of Business, Economic Development and Tourism to monitor trade, economic development, business partnerships, cultural exchange, and educational exchange in the Republic of India and the State of Goa and between the State of Goa and the State of Hawaii and to report its findings to the Legislature twenty days prior to the convening of the 2018 Regular Session; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on International Affairs and the Arts and Economic Development, Tourism, and Technology that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1125, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1125, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

International Affairs and the Arts: Ayes, 4. Noes, none. Excused, 1 (Ihara).

Economic Development, Tourism, and Technology: Ayes, 3. Noes, none. Excused, 2 (Baker, Thielen).

SCRep. 296 (Joint) Commerce, Consumer Protection, and Health and Public Safety, Intergovernmental, and Military Affairs on S.B. No. 223

The purpose and intent of this measure is to:

- (1) Authorize a naturopathic physician to prescribe controlled substances that are consistent with naturopathic medical practice; and
- (2) Clarify that narcotic drugs shall not be included within the naturopathic formulary.

Your Committees received testimony in support of this measure from the Board of Naturopathic Medicine, Hawaii Society of Naturopathic Physicians, and thirty-eight individuals. Your Committees received testimony in opposition to this measure from the Hawaii Medical Association, and one individual. Your Committees received comments on this measure from the Regulated Industries Complaints Office of the Department of Commerce and Consumer Affairs, Hawaii Medical Service Association, and one individual.

Your Committees find that naturopathic physicians provide skilled and quality care to patients throughout the State. Although naturopathic physicians in Hawaii have the ability to prescribe many of the medicines commonly prescribed in family practice, they are unable to prescribe controlled substances. This measure therefore authorizes a naturopathic physician to prescribe controlled substances that are consistent with naturopathic medical practice, but specifies that narcotic drugs are not to be included within the naturopathic formulary.

Your Committees further find that the Board of Naturopathic Medicine suggested in testimony before your Committees that the prescriptive authority of controlled substances be limited to testosterone, a schedule III controlled substance that is consistent with the practice of naturopathic medicine. Your Committees agree with the suggestion of the Board of Naturopathic Medicine and conclude that amendments to this measure are necessary.

Your Committees have amended this measure by:

- (1) Clarifying that the prescriptive authority of controlled substances for naturopathic physicians is limited to testosterone;
- (2) Clarifying that naturopathic physicians who violate the Uniform Controlled Substances Act can face disciplinary action; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Commerce, Consumer Protection, and Health and Public Safety, Intergovernmental, and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 223, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 223, S.D. 1, and be referred to your Committees on Judiciary and Labor and Ways and Means.

Signed by the Chairs on behalf of the Committees.

Commerce, Consumer Protection, and Health: Ayes, 5. Noes, none. Excused, 2 (Ihara, Kidani).

Public Safety, Intergovernmental, and Military Affairs: Ayes, 4. Noes, none. Excused, 1 (Ihara).

SCRep. 297 Commerce, Consumer Protection, and Health on S.B. No. 404

The purpose and intent of this measure is to:

- (1) Impose an excise tax on electronic smoking devices, disposable electronic smoking devices, reusable electronic smoking devices, and e-liquid sold by a wholesaler or dealer;
- (2) Require retailers to obtain a retail tobacco permit to sell, possess, keep, acquire, distribute, or transport cigarettes, tobacco products, electronic smoking devices, or e-liquid for retail sale;

- (3) Increase the license fee for wholesalers or dealers of cigarettes, tobacco products, electronic smoking devices, and e-liquid; and
- (4) Increase the retail tobacco permit fee for retailers engaged in the retail sale of cigarettes, tobacco products, electronic smoking devices, and e-liquid.

Your Committee received testimony in support of this measure from the Department of Health, American Heart Association, Hawai'i Pacific Health, Hawai'i Public Health Institute, American Lung Association in Hawaii, Policy Advisory Board for Elder Affairs, Children's Action Network, University of Hawaii Student Health Advisory Council, and fifty-one individuals. Your Committee received testimony in opposition to this measure from PC Gamerz Hawaii, Cigar Rights of America, Hawaii Smoker's Alliance, Volcano Fine Electronic Cigarettes, Havana Club Honolulu, Dajuice Hawaii LLC, and forty-one individuals. Your Committee received comments on this measure from the Department of the Attorney General, Department of Taxation, University of Hawai'i System, and Tax Foundation of Hawaii.

Your Committee finds that tobacco use remains a significant problem in Hawaii and nationwide, causing approximately 1,400 deaths per year among adults in the State. Research consistently shows that tobacco products are addictive and inherently dangerous, and cause many types of cancer, heart disease, and other serious illnesses. In addition to detrimental health effects, tobacco places a heavy burden on the State's healthcare system and economy.

Your Committee finds that the electronic smoking device industry is growing quickly, and is affecting the nation's youth at an alarming rate. According to a Surgeon General's report in 2016, e-cigarette use grew 900 percent among high school students between 2011 and 2015. Nationwide, more than 3,000,000 middle and high school students used e-cigarettes as of 2015. Your Committee heard testimony that, according to the 2015 Hawaii Youth Risk Behavior Survey, 25 percent of high school students in Hawaii report being regular e-cigarette users. Your Committee notes that the Surgeon General's report also found that ingestion of e-liquids containing nicotine can cause acute toxicity and possibly death.

Your Committee further finds that the State has a substantial interest in reducing the number of individuals of all ages who use tobacco products, and an especially strong interest in protecting Hawaii's youth from tobacco dependence and the health risks associated with tobacco use. Your Committee finds that imposing an excise tax on products such as cigarettes and other tobacco products has worked over the years to deter and prevent youth and young adults from initiating tobacco use. Your Committee notes that, currently, electronic smoking devices are the only tobacco product not taxed.

Your Committee has amended this measure by:

- (1) Deleting the definitions of "disposable electronic smoking device" and "reusable electronic smoking device" and all references to those terms because disposable electronic smoking device and reusable electronic smoking device are encompassed by the definition of "electronic smoking device", which is used throughout this measure;
- (2) Amending the definition of "electronic smoking device" to:
 - (A) Specify that hookah pipes included in the definition are electronic hookah pipes;
 - (B) Establish that the definition includes components of a device or related product that are used during the operation of the device; and
 - (C) Exclude battery or battery chargers that are sold separately;
- (3) Amending the definitions of "business location" or "place of business", "license", and "retail sale" or "tobacco retailing" in the cigarette tax and tobacco tax law chapter to include electronic smoking devices and e-liquid in the products sold or distributed;
- (4) Inserting language to specify that license and permit fees collected under the cigarette tax and tobacco tax law shall be used to cover administrative expenses, merchant education, legal signage, and the enforcement of tobacco sales laws;
- (5) Inserting language to include electronic smoking devices and e-liquid in the tax limitations that currently apply to cigarettes and tobacco products in certain cases;
- (6) Inserting an effective date of January 1, 2018, to allow the Department of Taxation adequate time to make necessary changes to Department forms and instructions to implement this measure; and
- (7) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 404, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 404, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5; Ayes with Reservations (Ruderman). Noes, none. Excused, 2 (Chang, Kidani).

SCRep. 298 Commerce, Consumer Protection, and Health on S.B. No. 403

The purpose and intent of this measure is to ensure certain benefits under the federal Affordable Care Act are preserved under Hawaii law, including:

- (1) Preserving the individual health insurance mandate for taxpayers;
- (2) Requiring all health insurance entities, including health benefits plans under chapter 87A, HRS, to include ten essential health care benefits, plus additional contraception and breastfeeding coverage benefits;

- (3) Extending dependent coverage for adult children until the children turn twenty-six years of age;
- (4) Prohibiting health insurance entities from imposing a preexisting condition exclusion; and
- (5) Prohibiting health insurance entities from using an individual's gender to determine premiums or contributions.

Your Committee received testimony in support of this measure from the Department of Commerce and Consumer Affairs; Hawaii State Commission on the Status of Women; Hawaii Women's Coalition; Planned Parenthood Votes Northwest and Hawaii; American Association of University Women - Hawai'i; Hawaii Medical Association; Healthcare Association of Hawaii; Lanai Community Health Center; American Association of University Women - Windward Hawai'i Branch; Hawaii Section of the American Congress of Obstetricians and Gynecologists; Pacific Women's Indigenous Network; The Queen's Health Systems; Kaiser Permanente; Healthy Mothers Healthy Babies Coalition of Hawaii; YMCA O'ahu; Hawaii Children's Action Network; Hawaii Acupuncture and Oriental Medicine Association; AcuPlan Hawaii; Hawaii Early Childhood Action Strategy; Healthcare for All Hawaii Coalition; Americans for Democratic Action - Hawai'i; Breastfeeding Hawaii; March of Dimes Hawaii; Hawai'i Public Health Institute; League of Women Voters of Hawaii; International Longshore and Warehouse Union, Local 142; LGBT Caucus of the Democratic Party of Hawaii; and over one hundred fifty individuals. Your Committee received testimony in opposition to this measure from one individual. Your Committee received comments on this measure from the Department of Taxation, Department of Human Services, Department of Labor and Industrial Relations, Hawaii Medical Service Association, Hawai'i Association of Health Plans, Tax Foundation of Hawaii, and one individual.

Your Committee finds that the Patient Protection and Affordable Care Act of 2010 (Affordable Care Act) has resulted in an estimated 20,000,000 Americans gaining health insurance coverage. In Hawaii, 54,000 individuals gained insurance coverage, 560,000 individuals with pre-existing conditions could no longer be denied health insurance coverage, and over 630,000 individuals were able to access and benefit from a broad range of preventive services. Furthermore, approximately 33,000 residents of Hawaii now have insurance coverage due to the expansion of Medicaid under the Affordable Care Act. The Affordable Care Act established important protections for all Americans, and for women in particular. Under the Affordable Care Act, American women are now able to access preventive services, such as birth control and life-saving cancer screenings, with no copayments or deductibles. The repeal of the Affordable Care Act means American women could once again be charged higher premiums than men, simply on the basis of their gender, and pregnancy itself could again be considered a preexisting condition.

Your Committee further finds that the future of the Affordable Care Act is now uncertain. The new President and Congressional Republicans have taken the first steps toward the President's campaign promise to repeal and replace the Affordable Care Act. However, the repeal of the Affordable Care Act will have widespread ramifications. Without the Affordable Care Act, it is estimated that 20,000,000 people will lose access to health insurance across the country. Lack of access to health insurance will negatively affect the health of patients who lose their coverage but will also further strain the health care system in the State. Furthermore, a repeal of the Affordable Care Act will likely destabilize the individual marketplace, based on factors such as a loss of subsidies, elimination of the requirement to buy health insurance, and elimination of the requirement that insurers sell to all consumers are all potential contributing factors that would destabilize the individual insurance market.

Your Committee concludes that, due to the uncertainty over the Affordable Care Act, it is important to preserve certain important aspects of the Act for Hawaii residents. Accordingly, this measure mandates all health insurance entities in the State to cover the ten essential health care benefits, requires extended coverage for dependent children, and prohibits preexisting condition exclusions and premium or contribution requirements based on gender. This measure also preserves the individual mandate provisions of the Affordable Care Act, which requires individuals to maintain health insurance coverage throughout the year or pay a penalty. Your Committee notes the importance of this mandate, as lack of such a requirement may result in healthier individuals dropping their health insurance coverage, which would cause an adverse selection problem and increase in overall health insurance costs.

Your Committee has heard the concern that although this measure preserves the individual mandate from the Affordable Care Act, it does not provide tax credits to help individuals and families afford their health insurance premiums. Your Committee understands these concerns and notes that the Department of Taxation has provided your Committee with language related to the tax credits to add to this measure.

Your Committee has amended this measure by:

- (1) Updating the minimal essential coverage mandate, based on amendments suggested for clarity by the Department of Taxation;
- (2) Permitting each qualified taxpayer to claim a qualified health plan coverage income tax credit, equal to an unspecified percentage of the actual cost paid or incurred by a qualified taxpayer during a taxable year to purchase minimum essential coverage for the taxpayer or the taxpayer's spouse or dependents;
- (3) Clarifying that the contraceptive coverage includes gender neutral contraception coverage, including all federal Food and Drug Administration-approved contraceptive methods, sterilization procedures, and patient education and counseling;
- (4) Clarifying that breastfeeding coverage includes support, counseling, and equipment, for the duration of breastfeeding;
- (5) Prohibiting health insurance entities from discriminating with respect to participation against a health care provider acting within the scope of that provider's license or certification;
- (6) Inserting an effective date of July 1, 2050, to encourage further discussion and inserting a five-year sunset date on the individual mandate requirement; and
- (7) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 403, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 403, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 2 (Ihara, Kidani).

SCRep. 299 Commerce, Consumer Protection, and Health on S.B. No. 1238

The purpose and intent of this measure is to establish and make an appropriation for a two-year temporary patient navigation program based at Moloka'i General Hospital for patients with chronic disease in medically underserved rural communities.

Your Committee received testimony in support of this measure from the Department of Health, Molokai General Hospital, The Queen's Health Systems, 'Ahahui o nā Kauka (Association of Native Hawaiian Physicians), Hawai'i Public Health Institute, 'Imi Hale Native Hawaiian Cancer Network, and two individuals. Your Committee received comments on this measure from the Department of the Attorney General.

Your Committee finds that it is important that Hawaii residents living in rural communities such as the Island of Moloka'i have access to timely medical care. Your Committee further finds that the State is committed to providing quality healthcare services to Native Hawaiians, and recognizes that Native Hawaiians have higher morbidity and mortality rates for diabetes, cardiovascular disease, and cancer.

Your Committee additionally finds that patient navigation utilizes evidence-based practices in cancer and other chronic disease care that assist patients through complex healthcare systems to ensure timely diagnosis and treatment and address potential barriers to care. Moloka'i General Hospital began using patient navigation services in 2006 and has demonstrated increases in cancer screening rates and effective care coordination for cancer patients who are referred off-island to cancer treatment care. Your Committee finds that Moloka'i General Hospital is a rural healthcare facility that understands the value of coordinated care for patients in need of specialty services and the unique challenges of accessing care in an island state.

Your Committee has amended this measure by:

- (1) Inserting a blank appropriation amount;
- (2) Inserting language to appropriate the funds as a grant pursuant to chapter 42F, Hawaii Revised Statutes, to Moloka'i General Hospital for the patient navigation program; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

Your Committee notes that although the appropriation amount has been removed, the recommended appropriation for the two-year temporary patient navigation program based at Moloka'i General Hospital is \$200,000 per fiscal year.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1238, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1238, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 1 (Ruderman).

SCRep. 300 (Joint) Commerce, Consumer Protection, and Health and Judiciary and Labor on S.B. No. 944

The purpose and intent of this measure is to make an appropriation to the Department of Budget and Finance for collective bargaining cost items related to the transition of the operation of Maui regional hospitals to Maui Health Systems.

Your Committees received testimony in support of this measure from the Department of Budget and Finance; Hawaii Health Systems Corporation; United Public Workers, AFSCME, Local 646, AFL-CIO; and Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO.

Your Committees find that the transition of the operations of the Maui regional hospitals was approved by the Legislature pursuant to Act 103, Session Laws of Hawaii 2015, and a subsequent transfer agreement was approved by the Governor, Maui Region Board of Directors, Hawaii Health Systems Corporation, and Kaiser Foundation Hospitals on January 14, 2016. To facilitate a smooth transition of affected Maui regional hospital employees to employment with Maui Health Systems, a Kaiser Hospital, this measure will ensure that operations will not be negatively impacted and the health care of the community will not be compromised.

Your Committees have amended this measure by:

- (1) Inserting an effective date of July 1, 2017; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Commerce, Consumer Protection, and Health and Judiciary and Labor that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 944, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 944, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
Commerce, Consumer Protection, and Health: Ayes, 5. Noes, none. Excused, 2 (Ihara, Kidani).
Judiciary and Labor: Ayes, 4. Noes, none. Excused, 1 (Gabbard).

SCRep. 301 (Joint) Commerce, Consumer Protection, and Health and Judiciary and Labor on S.B. No. 342

The purpose and intent of this measure is to prohibit the shipment of certain tobacco products purchased through the Internet or by mail order to anyone other than licensed wholesalers or dealers or retailers with a valid retail tobacco permit.

Your Committees received testimony in support of this measure from the Department of Health, American Heart Association, Hawai'i Public Health Institute, University of Hawaii Student Health Advisory Council, American Cancer Society Cancer Action Network, and seven individuals. Your Committees received testimony in opposition to this measure from Cigar Rights of America, Hawaii; Hawaii Cigar Association; Kauai Cigar Company; Volcano Fine Electronic Cigarettes; Sub Ohm Vapes, LLC; and thirty-two individuals. Your Committees received comments on this measure from the Department of Taxation, Department of the Attorney General, and one individual.

Your Committees find that the harmful effects of tobacco use are well established and that electronic smoking devices are now considered tobacco products under the Federal Food, Drug, and Cosmetic Act. Your Committees further find that a recent and alarming public health concern is the extremely high number of youth that are using electronic smoking devices. Electronic smoking devices are now the most commonly used tobacco product among youth in the nation and in Hawaii, with retail and online sales of electronic smoking devices projected to reach \$10,000,000,000 in 2017.

Your Committees also find that legislation to prohibit the sale of tobacco products has specifically focused on preventing youth access and initiation of tobacco use, and has addressed face-to-face transactions. The acceleration of online tobacco product sales, however, has created a dangerous loophole, undermining efforts to protect public health and providing an appealing option for underage smokers as they can easily circumvent the age verification process for purchasing tobacco through the unregulated online market.

Your Committees note the testimony submitted by the Department of the Attorney General related to the penalty imposed by this measure, suggesting that declaring violations of the prohibition on the remote sale and distribution of cigarettes and tobacco products to be a class C felony subject to a maximum fine of \$5,000 does not align with the penalties established in the penal code for class C felonies. Your Committees find that this concern deserves consideration and merits further discussion.

Your Committees have amended this measure by:

- (1) Amending the penalty section to specify that each shipment, instead of each distribution, that violates or fails to comply with the unlawful transport of tobacco products ordered through remote sale shall be a separate and distinct violation; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Commerce, Consumer Protection, and Health and Judiciary and Labor that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 342, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 342, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Commerce, Consumer Protection, and Health: Ayes, 5. Noes, none. Excused, 2 (Ihara, Kidani).

Judiciary and Labor: Ayes, 4. Noes, none. Excused, 1 (Gabbard).

SCRep. 302 Government Operations on S.B. No. 1170

The purpose and intent of this measure is to:

- (1) Require certain audits and studies enacted with a legislative appropriation to be submitted to the clerk of each house, presiding officers of each house, and chairs of the appropriate subject matter committee of each house; and
- (2) Require a public hearing or informational briefing on certain audits and studies enacted with a legislative appropriation within one year of receipt of the report unless the requirement is waived.

Your Committee received testimony in support of this measure from the Office of Auditor; United Public Workers, AFSCME, Local 646, AFL-CIO; and one individual. Your Committee received comments on this measure from the Department of Land and Natural Resources and Department of Budget and Finance.

Your Committee finds that studies and audit reports required by legislative action often go unexamined and unnoticed, while the reports may contain valuable information that deserves a forum to be appropriately reviewed and considered. Your Committee finds that requiring a public hearing or informational briefing on certain studies and audit reports funded by legislative appropriation is reasonable to ensure the fiscal accountability of appropriating funds to conduct such studies and reports.

Your Committee has amended this measure by:

- (1) Clarifying that studies and audits enacted in a budget measure or with a legislative appropriation are subject to the hearing requirement;
- (2) Clarifying that subject matter committee chairs of the respective study or audit are the persons to receive the study or audit;
- (3) Providing a mechanism for an extension of time to hold a public hearing or informational briefing on the studies and audits; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1170, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1170, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Tokuda).

SCRep. 303 Government Operations on S.B. No. 628

The purpose and intent of this measure is to:

- (1) Require vacancies on any board or commission to be promptly reported to the Governor;
- (2) Require the Governor to keep a listing of all boards and commissions, including certain information regarding each board or commission; and
- (3) Appropriate funds to the Office of the Governor for one full-time equivalent position to manage the listing of all information on boards and commissions.

Your Committee received testimony in support of this measure from one individual. Your Committee received comments on this measure from the Department of Taxation.

Your Committee finds that state boards and commissions are an integral component of shaping the quality of life for the people of Hawaii. There are more than one hundred seventy boards and commissions established under state law, and no central clearinghouse where pertinent information regarding board composition, vacancies, and other vital information is maintained. Your Committee finds that monitoring and tracking this information is essential for efficient government operations and filling vacancies in a timely manner without any disruption to the roles and responsibilities of boards and commissions in state government.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 628, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 628, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Tokuda).

SCRep. 304 Government Operations on S.B. No. 312

The purpose and intent of this measure is to clarify public agency meetings and record requirements by:

- (1) Requiring board packets to be available for public inspection, including electronically available if feasible;
- (2) Requiring notice of certain emergency meetings;
- (3) Clarifying electronic notification requirements; and
- (4) Requiring electronic posting of board minutes.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources, Society of Professional Journalists Hawaii Chapter, League of Women Voters of Hawaii, Civil Beat Law Center for the Public Interest, Common Cause Hawaii, and three individuals. Your Committee received testimony in opposition to this measure from the Department of Commerce and Consumer Affairs. Your Committee received comments on this measure from the Department of Taxation, Department of Budget and Finance, Office of Information Practices, Hawaii Community Development Authority, and Liquor Commission of the City and County of Honolulu.

Your Committee finds that the people of Hawaii are best served by increased government transparency, understanding, and participation. Your Committee finds that modernizing the Sunshine Law to include electronic postings and communication will increase public access to valuable information regarding public agency meetings. Your Committee further finds that increasing access to board materials via the accessibility of board packets will allow for more meaningful public testimony at meetings, and further increase the quality of public participation in civic life.

Your Committee has amended this measure by:

- (1) Requiring that oral testimony at open meetings be allowed for each agenda item separately and at the time the item is first brought up for discussion at the meeting;
- (2) Requiring a written summary to accompany any minutes that are electronically posted in a digital or analog recording format;
- (3) Allowing minutes to be electronically posted in draft form to meet the thirty-day requirement;
- (4) Inserting an effective date of January 1, 2018; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 312, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 312, S.D. 1, and be referred to your Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Tokuda).

SCRep. 305 Government Operations on S.B. No. 100

The purpose and intent of this measure is to:

- (1) Require the Department of Taxation (DOTAX) to provide access of tax records to the Auditor to conduct the reviews, and permits the Auditor to include certain data received from DOTAX in a report to the Legislature;
- (2) Clarify the review criteria the Auditor shall apply in review of an exemption, exclusion, or credit;
- (3) Delay the Auditor review schedules required pursuant to Act 245, Session Laws of Hawaii 2016, and Act 261, Session Laws of Hawaii 2016, by one year;
- (4) Add the organic foods production income tax credit to the Auditor review schedule; and
- (5) Appropriate funds to the Auditor for the required reviews.

Your Committee received testimony in support of this measure from the Office of Auditor. Your Committee received testimony in opposition to this measure from one individual. Your Committee received comments on this measure from the Department of Taxation; Tax Foundation of Hawaii; and United Public Workers, AFSCME, Local 646, AFL-CIO.

Your Committee finds that delaying the Auditor review schedule is necessary due to the tax system modernization project underway at DOTAX and the unavailability of certain tax incentive data. Your Committee finds that the completed reviews will yield more relevant, meaningful, and accurate results if delayed for one year. Your Committee also finds that it is necessary to clarify the information available to the Auditor in performance of the reviews.

Your Committee has amended this measure by:

- (1) Clarifying the types of information the Auditor may include in a report to the Legislature;
- (2) Clarifying that information marked confidential by DOTAX shall be kept confidential by the Auditor and Legislature;
- (3) Requiring a status report to the Legislature on the Auditor reviews required pursuant to Act 245, Session Laws of Hawaii 2016, and Act 261, Session Laws of Hawaii 2016; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 100, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 100, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Tokuda).

SCRep. 306 Government Operations on S.B. No. 1280

The purpose and intent of this measure is to establish additional performance bond requirements for surety and bond companies under the Hawaii Public Procurement Code.

Your Committee received testimony in support of this measure from the State Procurement Office, Electrical Contractor's Association of Hawai'i, Ironworkers Stabilization Fund, and Subcontractors Association of Hawaii. Your Committee received testimony in opposition to this measure from the Hawaii Captive Insurance Council and Risk Solution Partners, LLC. Your Committee received comments on this measure from the General Contractors Association of Hawaii.

Your Committee finds that establishing additional requirements for surety companies serves to further uphold the integrity of the Hawaii Public Procurement Code, and provides financial protection to the State and its taxpayers.

Your Committee has amended this measure by:

- (1) Removing language that inadvertently changed the purpose of performance bonds;
- (2) Clarifying that the new bond requirements apply to performance bonds and payment bonds;
- (3) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1280, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1280, S.D. 1, and be referred to your Committee on Commerce, Consumer Protection, and Health.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Galuteria, Tokuda).

SCRep. 307 Government Operations on S.B. No. 1069

The purpose and intent of this measure is to:

- (1) Require public works construction bids to list joint contractors and subcontractors only when the total estimated contract value is \$1,000,000 or greater; and
- (2) Permit bids lacking joint contractor and subcontractor lists to be accepted if it is in the best interest of the State and the value of the joint contractor or subcontract work is equal to or less than five percent of the total bid amount.

Your Committee received testimony in support of this measure from the Department of Budget and Fiscal Services of the City and County of Honolulu and the General Contractors Association of Hawaii. Your Committee received testimony in opposition to this

measure from the Department of Accounting and General Services, Electrical Contractor's Association of Hawai'i, Ironworkers Stabilization Fund, Plumbing and Mechanical Contractors Association of Hawaii, and Subcontractors Association of Hawaii. Your Committee received comments on this measure from the State Procurement Office.

Your Committee finds that requiring the listing of joint contractors and subcontractors for all public works construction projects may result in unnecessary bid protests, award delays, and increased project costs. Such circumstances often lead to inefficiencies in completing public work projects. Your Committee supports placing limits on the public works construction bids that require joint contractor and subcontractor listings, however it further finds that the contract value threshold and joint contractor and subcontractor work percentage threshold in this measure deserves further attention and study as it advances through the legislative process.

Your Committee has amended this measure by:

- (1) Removing the \$1,000,000 contract value threshold and inserting a blank amount for situations when public works construction bids must list joint contractors and subcontractors;
- (2) Removing the five percent threshold and inserting a blank percent for situations when the total bid value that the joint contractor or subcontractor work must be less than for the bid to be acceptable without listing joint contractors and subcontractors;
- (3) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1069, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1069, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Galuteria, Tokuda).

SCRep. 308 Government Operations on S.B. No. 1070

The purpose and intent of this measure is to prohibit bid shopping and bid peddling in the competitive sealed bidding process.

Your Committee received testimony in support of this measure from the General Contractors Association of Hawaii, Ironworkers Stabilization Fund, and Hawaii Laborers-Employers Cooperation and Education Trust. Your Committee received testimony in opposition to this measure from the Electrical Contractor's Association of Hawai'i, Subcontractors Association of Hawaii, and one individual. Your Committee received comments on this measure from the State Procurement Office, Department of Accounting and General Services, Department of Commerce and Consumer Affairs, and Contractors License Board.

Your Committee finds that efforts should be made to deter the possibility of bid shopping and bid peddling in the competitive sealed bidding process, and permitting injured subcontractor-plaintiffs to recover monetary damages from prime contractors and substituted subcontractors would discourage this unscrupulous practice and protects State interests.

Your Committee also finds that the competitive sealed bidding process can be improved by providing additional time for bidders to clarify and correct subcontractor information required in the bids, as proposed in S.B. No. 1067, Regular Session of 2017 (S.B. 1067). Your Committee finds that this minor adjustment may minimize bid challenges, costs, and delays of public works projects while maintaining the integrity of the bid process. As such, your Committee has incorporated the language of S.B. 1067 into this measure.

Your Committee has amended this measure by:

- (1) Inserting a provision allowing bidders two hours after bid closing to clarify and correct subcontractor information;
- (2) Providing that bids for construction shall be opened no sooner than two hours after bid closing;
- (3) Removing the burden on prime contractors and substituted contractors to prove bid shopping or bid peddling did not occur;
- (4) Clarifying that a substituted contractor shall not be entitled to damage from the government entity that issued the invitation for bids;
- (5) Clarifying and limiting the reasons that a substitution of a listed subcontractor may be allowed;
- (6) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (7) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1070, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1070, S.D. 1, and be referred to your Committees on Judiciary and Labor and Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Galuteria, Tokuda).

SCRep. 309 (Joint) Government Operations and Judiciary and Labor on S.B. No. 719

The purpose and intent of this measure is to require the Governor to prepare a deferred maintenance plan to gradually eliminate the deferred maintenance costs of state-owned buildings, facilities, and other improvements; submit an initial plan to the Legislature for the fiscal biennium 2019-2021 and prepare annual updates thereafter; and to impose the same requirements on the Chief Justice for buildings, facilities, and other improvements owned by the Judiciary.

Your Committees received comments on this measure from the Department of Accounting and General Services and the Judiciary.

Your Committees find that the extent of deferred maintenance backlog of state buildings, facilities, and other improvements is substantial. Your Committees further find that a deferred maintenance plan is necessary to preserve these buildings, facilities, and other improvements for public use in the most economically efficient and transparent manner possible.

As affirmed by the records of votes of the members of your Committees on Government Operations and Judiciary and Labor that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 719 and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Government Operations: Ayes, 3. Noes, none. Excused, 2 (Galuteria, Tokuda).

Judiciary and Labor: Ayes, 3. Noes, none. Excused, 2 (Gabbard, Thielen).

SCRep. 310 (Joint) Government Operations and Human Services and Commerce, Consumer Protection, and Health on S.B. No. 149

The purpose and intent of this measure is to:

- (1) Repeal the requirement that all applicants for procurement contracts for health and human services possess all licenses necessary to conduct the subject business; and
- (2) Repeal the requirement that all contracts for health and human services include only costs, fees, and taxes reflected on the face of the proposal.

Your Committees received testimony in support of this measure from the Department of Human Services, State Procurement Office, and Department of Health. Your Committees received testimony in opposition to this measure from one individual.

Your Committees find that the original intent of this law is no longer being served because its implementation has resulted in an overly restricted fair marketplace which has chilled healthy business competition amongst qualified health and human services providers. Thus, your Committees feel that the repeal of this law is necessary for the efficient processing of contracts for health and human services.

As affirmed by the records of votes of the members of your Committees on Government Operations, Human Services, and Commerce, Consumer Protection, and Health that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 149 and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Government Operations: Ayes, 3. Noes, none. Excused, 2 (Rhoads, Tokuda).

Human Services: Ayes, 3. Noes, none. Excused, 2 (Tokuda, Wakai).

Commerce, Consumer Protection, and Health: Ayes, 4. Noes, none. Excused, 3 (Espero, Ihara, Kidani).

SCRep. 311 (Joint) Government Operations and Commerce, Consumer Protection, and Health on S.B. No. 885

The purpose and intent of this measure is to provide the Comptroller the option to hire an insurance broker on a fixed fee for services basis.

Your Committees received testimony in support of this measure from the Department of Accounting and General Services. Your Committees received comments on this measure from the Department of Commerce and Consumer Affairs.

Your Committees find that providing the Comptroller with the option to hire an insurance broker on a fixed fee for service basis rather than the current commission basis will result in better value to the public through lower costs of acquiring and insuring State property and liability risks. Your Committees also find that the current arrangement of the state insurance broker being compensated on a commission basis by the insurance companies from which the State purchases insurance could present a conflict of interest or at minimum the appearance of a conflict of interest.

Your Committees have amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Government Operations and Commerce, Consumer Protection, and Health that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 885, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 885, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Government Operations: Ayes, 3. Noes, none. Excused, 2 (Rhoads, Tokuda).

Commerce, Consumer Protection, and Health: Ayes, 4. Noes, none. Excused, 3 (Espero, Ihara, Kidani).

SCRep. 312 (Joint) Higher Education and Commerce, Consumer Protection, and Health on S.B. No. 1164

The purpose and intent of this measure is to advance the mental health treatment of students at the University of Hawaii at Manoa by establishing and funding three full-time psychologist positions and one full-time case manager position.

Your Committees received testimony in support of this measure from the University of Hawai'i System, Counseling and Student Development Center at the University of Hawaii at Manoa, Associated Students of the University of Hawaii at Manoa, and eight individuals.

Your Committees find that in recent years there has been a significant increase in the number of college students requesting mental health services, and that college students are increasingly presenting with severe and complex psychological problems. These trends have incited national alarm and are of concern for students and universities in Hawaii as well.

Your Committees recognize the growing demand for psychological services and the need for specialized expertise in working with traditional and non-traditional college students. Your Committees find that the University of Hawaii at Manoa has only seven and one-half tenured track psychologist positions even though average enrollment is twenty thousand students and the national guideline is one licensed psychologist for every one thousand to one thousand five hundred students. Your Committees further find that students should not have to wait up to two and a half weeks for an appointment at the University's counseling and student development center when the student is suffering from mental health symptoms. This measure will help students get the mental health services they need on a timely basis.

As affirmed by the records of votes of the members of your Committees on Higher Education and Commerce, Consumer Protection, and Health that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1164 and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Higher Education: Ayes, 5. Noes, none. Excused, none.

Commerce, Consumer Protection, and Health: Ayes, 5. Noes, none. Excused, 2 (Ihara, Nishihara).

SCRep. 313 (Joint) Higher Education and Commerce, Consumer Protection, and Health on S.B. No. 735

The purpose and intent of this measure is to fund the Hawaii health corps program under the John A. Burns School of Medicine at the University of Hawaii at Manoa to provide loan repayment for physicians, physician assistants, nurse practitioners, psychologists, and social workers who agree to work in a federally designated health professional shortage area or an area of Hawaii found to be underserved.

Your Committees received testimony in support of this measure from the Department of Labor and Industrial Relations, University of Hawai'i System, Hawai'i State Center for Nursing, Hawaii Medical Association, AlohaCare, 'Ohana Health Plan, Lāna'i Community Health Center, Hawaii Medical Service Association, Hawai'i Pacific Health, Hawai'i Academy of Family Physicians, and sixteen individuals.

Your Committees find that Hawaii is facing a shortage of over five hundred doctors, and that this shortage threatens the health of Hawaii residents and cumulatively affects the State's healthcare costs. Your Committees further find that access to care in rural and underserved areas of Hawaii and in underserved populations such as the native Hawaiian population is especially concerning, as these areas have been the most significantly affected by the shortage of primary and behavioral healthcare providers.

Your Committees recognize the increasingly high education costs for healthcare professionals and the need for the State to make efforts to attract healthcare professionals to practice in Hawaii. The average medical student debt for indebted graduates is \$160,000, and debt plays a large role in career decisions which subsequently impacts the supply of the State's physicians. Your Committees find that medically underserved populations also find it hard to compete with higher paying specialty positions that are usually found in urban areas.

As affirmed by the records of votes of the members of your Committees on Higher Education and Commerce, Consumer Protection, and Health that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 735 and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Higher Education: Ayes, 5. Noes, none. Excused, none.

Commerce, Consumer Protection, and Health: Ayes, 5. Noes, none. Excused, 2 (Ihara, Nishihara).

SCRep. 314 Higher Education on S.B. No. 676

The purpose and intent of this measure is to promote access and diversity throughout the University of Hawaii System by appropriating funds to the University's Pamantasan Council for six full-time positions, including instructional faculty, student personnel, and graduate assistantships.

Your Committee received testimony in support of this measure from the University of Hawai'i System; University of Hawai'i Pamantasan Council; National Federation of Filipino American Associations Region 12; Filipino American Citizens League; Hawaii Friends of Civil Rights; Nursing Advocates and Mentors, Inc.; Graduate Student Organization at the University of Hawai'i at Mānoa; Sinai National High School Alumni Association of Hawaii; and seventeen individuals. Your Committee received testimony in opposition to this measure from one individual.

Your Committee finds that despite the strong representation of Filipinos in Hawaii's general population and in Department of Education schools, students of Filipino ancestry are underrepresented in the University of Hawaii System. According to the 2010 United States Census, people of Filipino ancestry are the second largest ethnic group in Hawaii, yet Filipino students comprise only twelve percent of the entire University of Hawaii System student population.

Your Committee further finds that the word "Pamantasan" is a Filipino word meaning "higher education". The Pamantasan Council was established in 1987 and is open to all students, administrators, faculty, and staff from the various University of Hawaii campuses. Your Committee notes that in 2008, the Legislature adopted Senate Concurrent Resolution No. 120, requesting the University of Hawaii and Department of Education to submit a report to the legislature on a plan to develop, offer, and expand Philippine language courses at public schools and University of Hawaii campuses. Your Committee finds that the Pamantasan Council needs resources to implement the recommendations of the report that resulted from the 2008 Senate Concurrent Resolution, as well as to ensure adequate faculty, student service personnel, lecturer, graduate assistants, and student staff. Additional resources will also allow the Pamantasan

Council to engage in substantive discussions with community groups, private organizations, and state agencies to improve the status of Filipino education at the University of Hawaii and Department of Education.

As affirmed by the record of votes of the members of your Committee on Higher Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 676 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Keith-Agaran, Kidani).

SCRep. 315 (Joint/Majority) Commerce, Consumer Protection, and Health and Judiciary and Labor on S.B. No. 501

The purpose and intent of this measure is to ensure that women in Hawaii are able to make personal reproductive health decisions with full and accurate information regarding their rights to access the full range of healthcare services that are available.

Your Committees received testimony in support of this measure from Hawaii State Commission on the Status of Women, Planned Parenthood Votes Northwest and Hawaii, American Congress of Obstetricians and Gynecologists, LGBT Caucus of the Democratic Party of Hawai'i, Hawaii Women's Coalition, National Women's Political Caucus Hawaii Chapter, Young Progressives Demanding Action, and seventeen individuals. Your Committees received testimony in opposition to this measure from the Aloha Pregnancy Care and Counseling Center, Hawaii Family Forum, Calvary Chapel Pearl Harbor, A Place for Women in Waipio, Hawaii Federation of Republican Women, Malama Pregnancy Center of Maui, Hawaii Catholic Conference, Pearson Foundation of HI, Inc., Hawaii Life Alliance, Aloha Pregnancy Center, and thirty-three individuals. Your Committees received comments on this measure from the Department of Health and Department of Human Services.

Your Committees find that anyone seeking healthcare should receive comprehensive, accurate, unbiased information in a confidential setting, and that reproductive healthcare is no different. When women are fully informed, they can better make the best decisions for themselves and their health. Your Committees further find that regardless of where a woman seeks information about reproductive health, she should receive information about the full range of options, including how to obtain health insurance coverage should she be uninsured.

Your Committees also find that thousands of women in the State are in need of publicly-funded family planning services, contraception services and education, abortion services, prenatal care, and birth-related services. In Hawaii, low-income women can receive immediate access to free or low-cost comprehensive family planning services and pregnancy-related care through Med-QUEST and the Department of Health's family planning program. Your Committees find, however, that many women remain unaware of the public programs available to provide them with family planning and pregnancy-related services.

Your Committees appreciate the abundance of testimony submitted on this measure. Your Committees have heard the concerns expressed regarding this measure, and note that the measure does not require limited pregnancy centers to change the services that they provide. Because family planning decisions are time sensitive and early care in pregnancy is important, the State must make every effort possible to advise women of all available reproductive health programs.

Your Committees have amended this measure by:

- (1) Adding language to the definition of "limited service pregnancy center" or "center" to specify that these centers do not include centers that are contracted providers with a Medicaid health plan;
- (2) Amending the notice language that limited service pregnancy centers are required to disseminate on site by:
 - (A) Inserting language indicating that the clinic does not provide abortion services or abortion referrals, and providing information that only ultrasounds performed by qualified healthcare professionals and read by licensed clinicians should be considered medically accurate; and
 - (B) Removing language that directed individuals to contact appropriate Med-QUEST division eligibility offices to determine whether they qualify for free or low-cost family planning services and replacing it with language indicating that individuals should apply on-line at mybenefits.hawaii.gov for medical insurance coverage; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Commerce, Consumer Protection, and Health and Judiciary and Labor that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 501, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 501, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Commerce, Consumer Protection, and Health: Ayes, 5. Noes, none. Excused, 2 (Kidani, Ruderman).

Judiciary and Labor: Ayes, 3. Noes, 1 (Gabbard). Excused, 1 (Kim).

SCRep. 316 Education on S.B. No. 688

The purpose and intent of this measure is to prohibit persons from interfering with or disrupting the orderly operation, safety, or peaceful conduct of a school or school-related activity.

Your Committee received testimony in support of this measure from the Hawaii State Teachers Association and IMU Alliance. Your Committee received testimony in opposition to this measure from the Police Department of the City and County of Honolulu and American Civil Liberties Union of Hawaii.

Your Committee finds that a secure learning environment is vital to the safety of Hawaii's students. Your Committee further finds that dangerous criminal activity near schools, including solicitation of drugs and the illicit trafficking of children, is a significant

problem in some areas of the State. This measure will empower schools to more effectively protect their students from potentially dangerous persons near the schools.

Your Committee additionally finds that this measure should not be construed to prohibit any activities that are protected under the Constitution of the United States.

As such, your Committee has amended this measure by adding language clarifying that activities that are protected under the Constitution of the United States are not prohibited.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 688, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 688, S.D. 1, and be referred to your Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Dela Cruz, Riviere).

SCRep. 317 Education on S.B. No. 1101

The purpose and intent of this measure is to:

- (1) Allow, in cases where the Department of Education directly expends its own funds for disaster relief, to be directly credited with any federal disaster relief reimbursement; and
- (2) Clarify that the Department of Education may carry over funds received as a disaster relief appropriation or reimbursement.

Your Committee received testimony in support of this measure from the Department of Education. Your Committee received comments on this measure from the Department of Budget and Finance.

Your Committee finds that disaster relief expenditures are generally made from State Department of Defense appropriations or other specific appropriations made for such a purpose. Your Committee further finds that in the event of an emergency, the Department of Education may expend funds appropriated for other purposes to provide disaster relief. Your Committee additionally finds that there is no existing mechanism for reimbursing the Department of Education for funds expended for emergency disaster relief. This measure will provide assurance that funds expended by the Department of Education for emergency disaster relief will be reimbursed so the Department may use such funds for their original intended purpose.

Your Committee has amended this measure by making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1101, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1101, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Dela Cruz, Riviere).

SCRep. 318 Education on S.B. No. 224

The purpose and intent of this measure is to:

- (1) Establish licensure and registration requirements for school psychologists to be administered by the Board of Psychology; and
- (2) Amend the composition of the Board of Psychology to include two school psychologists.

Your Committee received testimony in support of this measure from the Hawaii Association of School Psychologists and five individuals. Your Committee received comments on this measure from the Department of Education, Department of Commerce and Consumer Affairs Vocational Licensing Division, Department of Commerce and Consumer Affairs Regulated Industries Compliance Office, and Board of Psychology.

Your Committee finds that school psychologists can provide direct educational and mental health services for children and youth, as well as working with parents, educators, and other professionals to create supportive learning and social environments for all children. Your Committee further finds that Hawaii is the only state in which school psychologists are not required to be licensed in order to practice in an educational setting. Your Committee additionally finds that this lack of a licensure requirement has made it possible for individuals to practice as school psychologists who are not fully qualified to practice in an educational setting. This measure will ensure that persons who practice school psychology are qualified to provide the services that Hawaii's students need.

Your Committee has amended this measure by:

- (1) Adding language clarifying that "practice of school psychology" does not include private practice; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 224, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 224, S.D. 1, and be referred to your Committee on Commerce, Consumer Protection, and Health.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Dela Cruz, Riviere).

SCRep. 319 Education on S.B. No. 1188

The purpose and intent of this measure is to:

- (1) Establish a STEM educator scholarship program to be administered by the Department of Education to address the shortage of STEM teachers in secondary schools in Hawaii; and
- (2) Appropriate monies to fund the scholarship program.

Your Committee received testimony in support of this measure from six individuals. Your Committee received comments on this measure from the Department of Education and University of Hawaii System.

Your Committee finds that Hawaii has been experiencing teacher shortages over the last several years. Your Committee further finds that the teacher shortage extends to many educational areas, including but not limited to STEM, special education, career and technical education, Hawaiian language immersion, English and reading, multilingual education, and hearing impaired education. This measure will help new teachers complete their training and begin teaching Hawaii's students by providing them with financial assistance.

Your Committee has amended this measure by:

- (1) Changing the scholarship program to a stipend program;
- (2) Broadening the program to apply to students enrolled in a state approved teacher education program rather than just a STEM-related program;
- (3) Inserting language establishing a special fund for the stipend program; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1188, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1188, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Dela Cruz, Riviere).

SCRep. 320 Education on S.B. No. 1100

The purpose and intent of this measure is to:

- (1) Require the Department of Education to set a standard for retention of student records of not less than one hundred years; and
- (2) Allow the Department of Education to partner with the Hawaii correctional industries program to establish a three-year student records modernization pilot project.

Your Committee received testimony in support of this measure from the Department of Education and two individuals.

Your Committee finds that the Department of Education is required to maintain student records for a variety of purposes, but that no uniform standard exists for the length of time that records must be maintained. Your Committee further finds that schools within the Department of Education vary significantly in how long they maintain student records and the manner in which student records are stored. This measure will specify the minimum amount of time that student records must be maintained and further develop options to modernize the way schools store student records.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1100 and recommends that it pass Second Reading and be referred to your Committees on Ways and Means and Judiciary and Labor.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Dela Cruz, Riviere).

SCRep. 321 Education on S.B. No. 1287

The purpose and intent of this measure is to exempt extracurricular service of employees from the State Ethics Code if certain conditions are met.

Your Committee received testimony in support of this measure from the Hawaii State Teachers Association and IMUAlliance. Your Committee received testimony in opposition to this measure from the Hawaii State Ethics Commission and League of Women Voters of Hawaii.

Your Committee finds that extracurricular educational activities, including school-sponsored trips, are extremely valuable to the State's students. Your Committee further finds that teachers in Department of Education schools are not compensated or reimbursed for extracurricular activities. Your Committee additionally finds that many teachers in Hawaii are unable to donate time and resources to extracurricular activities in light of nationally low teacher compensation in the State. Your Committee also finds that outside sponsorship and other resources are available that could enable teachers to make extracurricular activities more available to students, but that these resources are unavailable due to potential conflicts with the State Ethics Code. This measure will exempt extracurricular services of all state employees from the State Ethics Code under certain conditions.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1287 and recommends that it pass Second Reading and be referred to your Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Dela Cruz, Riviere).

SCRep. 322 Education on S.B. No. 1305

The purpose and intent of this measure is to:

- (1) Establish the vocational education out-of-school program and vocational education special fund; and
- (2) Appropriate monies to implement the vocational education out-of-school program.

Your Committee received testimony in support of this measure from the Hawaii State Teachers Association, IMUAlliance, and two individuals. Your Committee received comments on this measure from the Department of Education and Department of Budget and Finance.

Your Committee finds that a significant gap exists in Hawaii between the skills that are abundant in the workforce and the skills that employers demand in new personnel. In 2013, ninety-two percent of top executives surveyed said that there was a job skills gap amongst applicants, and that a lack of qualified local applicants resulted in employers hiring workers from outside the State or leaving positions unfilled for prolonged periods of time. Your Committee further finds that a majority of all current job openings are for positions that do not require a college degree, although many require significant technical or vocational skills. This measure will allow Hawaii's students to enter the workforce with skills that are in high demand by potential employers by providing out-of-school vocational education opportunities at public schools in the State.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1305 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Dela Cruz, Riviere).

SCRep. 323 Education on S.B. No. 423

The purpose and intent of this measure is to prohibit denying a student a meal for the first:

- (1) Thirty days of the first semester of a school year while the student's application for free or reduced lunch is being processed;
or
- (2) Week that the student's meal fund balance is zero or negative.

Your Committee received testimony in support of this measure from the Hawaii State Teachers Association, Hawaii Children's Action Network, Hawaii Applesed Center for Law and Economic Justice, and eighteen individuals. Your Committee received comments on this measure from the Department of Education.

Your Committee finds that forty-seven percent of public school students in Hawaii qualify for the Department of Education's free and reduced lunch program. Your Committee further finds that gaps in coverage for individual students in the program can arise due to delays in processing applications or the financial situation of the student's family. Your Committee additionally finds that chronically hungry students suffer significant hardship compared to their classmates, and can experience achievement gaps, concentration loss, illness, increased absenteeism, behavioral problems, depression, and misdiagnosed learning disorders. This measure will ensure that students qualifying for the free and reduced lunch program will not go hungry due to delays in application processing or missed payments.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 423 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Dela Cruz, Riviere).

SCRep. 324 (Joint) Commerce, Consumer Protection, and Health and Public Safety, Intergovernmental, and Military Affairs on S.B. No. 173

The purpose and intent of this measure is to amend the law pertaining to medical marijuana by:

- (1) Clarifying that the definition of "adequate supply" of marijuana includes seven marijuana plants that are at least twelve inches in height or width and seven marijuana seedlings that are less than twelve inches in height and width;
- (2) Authorizing primary caregivers to continue cultivating marijuana for qualifying patients after December 31, 2018;
- (3) Allowing an individual to work in the medical marijuana industry or be a licensee if the individual has not served time in prison for a felony conviction in the five years immediately preceding the employment or application, whichever is applicable; and
- (4) Defining edible cannabis products and authorizing licensed medical marijuana dispensaries to manufacture and distribute edible cannabis products beginning July 1, 2018.

Your Committees received testimony in support of this measure from the Hawai'i Dispensary Alliance, Drug Policy Forum of Hawai'i, Drug Policy Action Group, Pakalōlō Suite, Custom Tattooing LLC, and twenty-one individuals. Your Committees received testimony in opposition to this measure from the Department of Public Safety, Department of Transportation, and one individual. Your Committees received comments on this measure from the Department of the Attorney General and one individual.

Your Committees find that chapter 329D, Hawaii Revised Statutes, was enacted pursuant to Act 241, Session Laws of Hawaii 2015, to establish medical marijuana dispensaries. As Hawaii expands its medical marijuana program through dispensaries, it is important that discussions continue to ensure that patients have adequate access to medical marijuana. Your Committees received testimony that the existing allowance of seven plants is not sufficient for some medical marijuana patients, and that being able to grow seven seedlings at the same time as the maturing plants helps ensure that there is a constant supply of medicine for the qualifying patient. Your Committees additionally find that allowing manufactured marijuana products such as edibles provides qualified patients with more choices in their treatment due to the slow release and long duration of efficacy that are unique to edible cannabis products.

Your Committees have amended this measure by:

- (1) Making the authority of primary caregivers to cultivate marijuana for qualifying patients terminate on December 31, 2020, rather than making the authority permanent;
- (2) Removing the provisions that permit a felon to work in the medical marijuana industry and be a licensee if the individual has not served time in prison for a felony conviction in the five years immediately preceding the employment;
- (3) Adding language to the definition of “edible cannabis products” to:
 - (A) Require the products be manufactured in a certified kitchen within a production center using marijuana grown in a production center;
 - (B) Require the products to be tested and specifically labeled for each product’s dosage and strength;
 - (C) Prohibit gummies, brightly colored candies, and other products that may attract children or bear resemblance to other commercially available products; and
 - (D) Allow liquid products that contain no more than ten milligrams of activated tetrahydrocannabinol per serving;
- (4) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Commerce, Consumer Protection, and Health and Public Safety, Intergovernmental, and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 173, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 173, S.D. 1, and be referred to your Committees on Judiciary and Labor and Ways and Means.

Signed by the Chairs on behalf of the Committees.

Commerce, Consumer Protection, and Health: Ayes, 5. Noes, none. Excused, 2 (Ihara, Kidani).

Public Safety, Intergovernmental, and Military Affairs: Ayes, 4. Noes, none. Excused, 1 (Ihara).

SCRep. 325 (Joint) Commerce, Consumer Protection, and Health and Agriculture and Environment on S.B. No. 301

The purpose and intent of this measure is to mandate the Department of Health to adopt and implement the recommendations made by the Office of the Auditor regarding combining the advance disposal fee program and deposit beverage container glass streams, and require the Department of Health to report on its implementation of the recommendations to the Legislature prior to the 2018 Regular Session.

Your Committees received testimony in support of this measure from the Office of the Auditor, City and County of Honolulu’s Department of Environmental Services, and four individuals. Your Committees received comments on this measure from the Department of Health, Hawaii Island School Garden Network, Wine Institute, and one individual.

Your Committees find that currently, glass recycling in the State is subsidized by two programs; non-deposit glass recycling is subsidized by the advanced disposal fee program, while deposit beverage container glass recycling is subsidized by the deposit beverage container program. Each program requires that its glass be processed and marketed separately.

Your Committees further find that the Legislature passed S.C.R. No. 74, S.D. 1, Regular Session of 2014, to determine whether a more efficient option exists pertaining to the processing operations associated with glass recycling. The resolution requested the Office of the Auditor to conduct an audit of the Department of Health’s advance disposal fee program. In response, the Office of the Auditor recommended that the Department of Health consider combining the advance disposal fee and deposit beverage container glass processing streams to increase efficiency and decrease costs while increasing the supply of glass available for down-cycling. The Office of the Auditor also recommended that the Department of Health update and finalize the 2008 Department of Health policy glass recycling draft.

Your Committees have amended this measure by:

- (1) Making the report to the Legislature due prior to the 2019 Regular Session;
- (2) Inserting a blank appropriation for the Department of Health to conduct a cost-benefit analysis of combining the processing streams of the advance disposal fee glass container and deposit beverage container glass;
- (3) Inserting an effective date of July 1, 2017; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

Your Committees note that although the appropriation is blank, the Department of Health’s testimony requests an appropriation of \$100,000 to conduct the cost-benefit analyses.

As affirmed by the records of votes of the members of your Committees on Commerce, Consumer Protection, and Health and Agriculture and Environment that are attached to this report, your Committees are in accord with the intent and purpose of S.B.

No. 301, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 301, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Commerce, Consumer Protection, and Health: Ayes, 5. Noes, none. Excused, 2 (Ihara, Nishihara).

Agriculture and Environment: Ayes, 4. Noes, none. Excused, 1 (Nishihara).

SCRep. 326 Commerce, Consumer Protection, and Health on S.B. No. 1158

The purpose and intent of this measure is to require pharmacy benefit managers in Hawaii to register with the Insurance Commissioner.

Your Committee received testimony in support of this measure from the American Diabetes Association and three individuals. Your Committee received comments on this measure from the Department of Commerce and Consumer Affairs, Express Scripts, and CVS Health.

Your Committee finds that pharmacy benefit managers are administrators of prescription drug programs and are responsible for developing and maintaining formularies and other clinical management programs, processing prescription drug claims for insurance companies or corporations, and negotiating contracts with pharmaceutical manufacturers. Pharmacy benefit managers also perform utilization reviews, manage clinical programs targeted to specific disease states, and operate pharmacies, including mail order and specialty pharmacies. Over the past decade, the role of pharmacy benefit managers in the delivery of health care has increased due to a variety of factors, including coverage expansions under the Medicare Part D prescription drug benefit and the federal Affordable Care Act and an increase in prescription drug spending that has motivated commercial health plans and self-insured employers to outsource the management of their spending on outpatient prescription drugs.

Your Committee further finds that this measure proposes registration and oversight of pharmacy benefit managers, similar to what is required for health insurance companies or health plans. Your Committee notes that while pharmacy benefit managers may already register with the Business Registration Division, such registration does not provide sufficient regulation or oversight of this industry. Your Committee also notes that more than twenty states require some type of registration for pharmacy benefit managers; many of these states require pharmacy benefit managers to register with a state's department or division of insurance.

Your Committee additionally finds that prescription drugs are a major factor of the spiraling increase in health care costs, of which pharmacy benefit managers are a contributing factor. This measure gives clear authority to the Insurance Commissioner to regulate pharmacy benefit managers, is an important first step toward regulating this industry, and is necessary to provide transparency and ensure adequate consumer protection.

Your Committee has amended this measure by:

- (1) Updating the purpose section;
- (2) Specifying that notwithstanding any law to the contrary, pharmacy benefit managers must still register with the Insurance Commissioner; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1158, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1158, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, 1 (Ruderman).

SCRep. 327 Commerce, Consumer Protection, and Health on S.B. No. 1119

The purpose and intent of this measure is to establish that intentionally or knowingly causing bodily injury to a healthcare or human services professional constitutes assault in the second degree.

Your Committee received testimony in support of this measure from the Honolulu Police Department, Hawaii Government Employees Association, Healthcare Association of Hawaii, Hawai'i Pacific Health, The Queen's Health Systems, and two individuals.

Your Committee finds that state law already extends protections to professions such as teachers, educational workers, emergency medical technicians, employees who work in state mental health facilities, and firefighters by making certain offenses against these professions assault in the second degree. Your Committee further finds that healthcare and human services professionals face similar challenges of job related violent incidents while on duty. As mentioned in testimony to your Committee, the Bureau of Labor Statistics found that healthcare providers have sixteen times greater risk for violence than other workers. This measure proposes protections for healthcare and human services professionals that are commensurate with protections provided to workers who encounter similar risks on the job.

Your Committee notes that the intent of this measure is not to criminalize patients or visitors who may suffer from a mental illness. Accordingly, your Committee suggests ongoing discussion to address that concern.

Your Committee has amended this measure by:

- (1) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1119, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1119, S.D. 1, and be referred to your Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 1 (Ruderman).

SCRep. 328 Commerce, Consumer Protection, and Health on S.B. No. 1308

The purpose and intent of this measure is to ensure the health, welfare, and safety of the people of Hawaii by providing desperately needed financial assistance to Wahiawa General Hospital. More specifically, this measure:

- (1) Appropriates funds to support basic operations, staff salaries and benefits, and continued hospitalist physician services at Wahiawa General Hospital;
- (2) Authorizes the issuance of general obligation bonds and appropriates funds for financing capital improvement projects for Wahiawa General Hospital; and
- (3) Appropriates funds to the Department of Health to perform a financial and performance audit of Wahiawa General Hospital.

Your Committee received testimony in support of this measure from the North Shore Chamber of Commerce, Wahiawa General Hospital, Dole Food Company Hawaii, ALEA Bridge, Hawaii Emergency Physicians Associated, Lanakila Pacific, Hawaii Emergency Physicians Associated, International Longshore and Warehouse Union Local 142 Hawaii, Hawai'i Nurses' Association, Hawaii Laborers-Employers Cooperation and Education Trust, Wahiawa Health, Pacific Resource Partnership, Wahiawa Nursing and Rehabilitation Center, Military Aloha State Transition and Economic Retention Council, twenty-eight individuals, and a form letter signed by over one hundred individuals. Your Committee received comments on this measure from the Department of Budget and Finance, Department of Health, and one individual.

Your Committee finds that Wahiawa General Hospital is a valuable and essential provider of medical care for central Oahu and residents residing on the north shore. It is the only hospital that provides emergency medical services in a large geographical area that includes nearly one-third of the island. Your Committee also finds that the hospital is one of the largest employers in central Oahu and provides over five hundred jobs, with approximately ninety percent of its workers residing in the surrounding areas.

Your Committee further finds that in recent years, Wahiawa General Hospital has experienced severe financial difficulties, and that despite cutting programs, services, and personnel, the financial deficit has not been remedied. Your Committee notes that decreasing the hospital's financial deficit may require modifying the types of services provided and focusing on critical services such as emergency medical care, long term care, and geriatric care. The Wahiawa Center for Community Health is a nearby community resource that can assist patients who may lose services due to changes at the hospital.

Your Committee heard testimony from the Chief Executive Officer of Wahiawa General Hospital that the hospital is requesting bridge funding for the next two years to enable the hospital to transition to a sustainable business model. With a recent change in management at the hospital, a new plan exists that has the support of the hospital's Board, management team, employees, civic leaders, and unions, and is aimed at stabilizing the hospital's financial performance with the hopes of sustaining services and protecting jobs. Wahiawa General Hospital's Chief Executive Officer testified that the hospital feels it will be able to return financial operations back to breaking even within three years, and that the hospital is working with the Department of Health and two other health systems in the State as part of the hospital's transition.

Your Committee acknowledges that this measure is a work in progress, and that additional information will become available as the new leadership at Wahiawa General Hospital begins to implement the hospital's sustainability plan. Your Committee recognizes the complexities of determining the best future for Wahiawa General Hospital, but wants to encourage further discussion in hopes that interested stakeholders will come together and continue to work toward a collaborative solution that will meet the needs of the many people who rely on Wahiawa General Hospital for their health and welfare.

Your Committee has amended this measure by:

- (1) Removing the provisions that required the Department of Health to perform a financial and performance audit of Wahiawa General Hospital and appropriated funds for the audit;
- (2) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1308, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1308, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 2 (Ihara, Ruderman).

SCRep. 329 Commerce, Consumer Protection, and Health on S.B. No. 122

The purpose and intent of this measure is to:

- (1) Provide designated family members, friends, and other interested persons of an individual with sufficient notice of a mental health emergency by providing: notice of certain procedures and actions, the option to be present in the courtroom for a

hearing on a petition for involuntary hospitalization or assisted community treatment, and the option to receive copies of hearing transcripts or recordings; and

- (2) Require the court to adjourn or continue a hearing on a petition for involuntary hospitalization or assisted community treatment for failure to timely notify designated persons, with certain exceptions.

Your Committee received testimony in support of this measure from two individuals. Your Committee received comments on this measure from the Department of the Attorney General, Department of Health, The Queen's Health Systems, and Hawaii Disability Rights Center.

Your Committee finds that family members provide a very valuable support network for individuals with mental illness, especially as those individuals try to navigate the State's health, mental health, and court systems. Your Committee further finds that often family members are kept in the dark about their loved ones' status, location, and treatment. While your Committee finds that it is important to provide family members with more information about their loved ones with mental illness, your Committee also recognizes the need to protect individual privacy rights.

Your Committee has amended this measure by:

- (1) Deleting the provision that provided family members with the right to notice of a person's emergency admission, examination, hospitalization, transfer, release, or discharge as soon as practicable and required efforts to locate family members for notice purposes to be documented in a person's medical records;
- (2) Inserting language entitling family members to notice of emergency admission, examination, and hospitalization as long as one of the following circumstances exist:
 - (A) The subject has capacity to make health care decisions and agrees, is given the opportunity to object and does not object, or the health care provider can reasonably infer from the circumstances that the subject does not object;
 - (B) The patient is incapacitated; or
 - (C) An emergency circumstance exists and the healthcare provider determines that providing notice is in the best interest of the subject;
- (3) Deleting language throughout the measure that entitles an adult friend who has a significant relationship with the person to notice of certain procedures and actions, and amending various provisions to entitle the subject's closest adult relative to notice, if any can be found, if the subject has no spouse or reciprocal beneficiary, legal parent, or adult children, or if none can be found;
- (4) Amending the provisions related to court hearings on a petition for involuntary hospitalization or assisted community treatment to allow the court discretion to exclude individuals entitled to notice from attending the hearing if the court determines such exclusion is required by the interests of justice;
- (5) Changing statutory language to require that when forensic and non-forensic patients are civilly committed, the individuals specified as entitled to receive notice in the order of commitment be given notice of intent to discharge, or notice of the patient's admission to voluntary inpatient treatment if the patient voluntarily agrees to further hospitalization;
- (6) Amending language to require that notice of any transport or admission for failure to comply with assisted community treatment be provided to the persons specified in the order for assisted community treatment; and
- (7) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 122, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 122, S.D. 1, and be referred to your Committees on Judiciary and Labor and Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 2 (Kidani, Ruderman).

SCRep. 330 (Joint) Water and Land and Judiciary and Labor on S.B. No. 629

The purpose and intent of this measure is to:

- (1) Provide the Land Use Commission with the power to amend, revise, or modify a decision and order granting a district boundary amendment, or fine a petitioner, when the Commission finds that a petitioner or its successors or assigns have not adhered to the conditions imposed by the commission, regardless of whether there has been substantial commencement of use of the land; and
- (2) Define "substantial commencement".

Your Committees received testimony in support of this measure from the Office of Planning and Land Use Commission. Your Committees received testimony in opposition to this measure from the Land Use Research Foundation of Hawaii. Your Committees received comments on this measure from the Department of Permitting and Planning of the City and County of Honolulu.

Your Committees find that providing additional tools to the Land Use Commission (LUC) for enforcing the conditions or requirements of a land use district boundary amendment serves to protect state interests and the public trust. Currently, the only enforcement mechanism available to the LUC for noncompliance with the conditions or requirements of a district boundary amendment is issuing an order to show cause, which may result in a reversion to the former land use classification. However, even that mechanism is available only prior to substantial commencement of use of the land. Furthermore, reversion is not always an

appropriate solution. Your Committees find that providing the LUC with the flexibility to work with petitioners and amend, modify, or vacate conditions, or impose fines, will improve compliance and eliminate the unfair advantages of petitioners who fail to comply with the conditions or requirements imposed with their district boundary amendments.

Your Committees have amended this measure by:

- (1) Inserting an effective date of March 15, 2094, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Water and Land and Judiciary and Labor that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 629, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 629, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Water and Land: Ayes, 3. Noes, none. Excused, 2 (Inouye, Kim).

Judiciary and Labor: Ayes, 4. Noes, none. Excused, 1 (Kim).

SCRep. 331 (Joint) Water and Land and Transportation and Energy on S.B. No. 991

The purpose and intent of this measure is to decriminalize traffic infractions within natural area reserves, game management areas, wildlife sanctuaries, and public hunting areas.

Your Committees received testimony in support of this measure from the Department of Land and Natural Resources and one individual.

Your Committees find that this measure will simplify the resolution of traffic violations occurring on certain state lands, reduce efforts and resources expended to resolve minor traffic violations, and ensure that police, prosecutorial, and judicial resources are focused on the most serious criminal offenses.

Your Committees have amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Water and Land and Transportation and Energy that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 991, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 991, S.D. 1, and be referred to your Committees on Judiciary and Labor and Ways and Means.

Signed by the Chairs on behalf of the Committees.

Water and Land: Ayes, 4. Noes, none. Excused, 1 (Kim).

Transportation and Energy: Ayes, 4. Noes, none. Excused, 1 (Harimoto).

SCRep. 332 (Joint) Water and Land and Judiciary and Labor on S.B. No. 992

The purpose and intent of this measure is to clarify that the Department of Land and Natural Resources (DLNR) may assume immediate control of:

- (1) A vessel that is grounded on state submerged lands or a shoreline that cannot be removed by the owner within twenty-four hours of grounding; and
- (2) A vessel not in imminent danger of breaking up that is grounded on a sand beach, sandbar, or mudflat that is not removed by the owner within seventy-two hours of the owner or owner's representative receiving notice from DLNR.

Your Committees received testimony in support of this measure from the Department of Land and Natural Resources and Office of Hawaiian Affairs. Your Committees received testimony in opposition to this measure from Maui Dive Shop and Quicksilver Charters. Your Committees received comments on this measure from the Ocean Tourism Coalition and Trilogy Corporation.

Your Committees find that DLNR's current authority to assume control of vessels grounded on state submerged lands or a shoreline, or vessels grounded on a sand beach, sandbar, or mudflat and not in imminent danger of breaking up, is unclear. Clarifying and expanding DLNR's control of removing grounded vessels is necessary as a public safety measure that will significantly reduce avoidable impacts to Hawaii's nearshore and coastal environment.

Your Committees have amended this measure by:

- (1) Clarifying that if the owner or owner's representative has received notice from DLNR and commenced effective salvage operations, then DLNR does not have authority to assume control of vessels grounded on state submerged lands, shorelines, or a coral reef, or in imminent danger of breaking up;
- (2) Clarifying that if DLNR assumes control over a vessel, the vessel shall be removed by conventional salvage methods if possible, but if not possible by any means necessary; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Water and Land and Judiciary and Labor that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 992, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 992, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Water and Land: Ayes, 3. Noes, none. Excused, 2 (Inouye, Kim).
 Judiciary and Labor: Ayes, 4. Noes, none. Excused, 1 (Kim).

SCRep. 333 (Joint) Water and Land and Judiciary and Labor on S.B. No. 989

The purpose and intent of this measure is to amend the fines and clarify criminal penalties for destroying or harvesting trees, including koa, on state forest reserve lands, add criminal penalties for violating laws or rules relating to forest reserves, and repeal the general penalty provision in chapter 183, Hawaii Revised Statutes.

Your Committees received testimony in support of this measure from the Department of Land and Natural Resources and two individuals.

Your Committees find that the current fines for destroying or harvesting trees, including koa, on state forest reserve lands are inadequate compared to the current market value of the trees and the costs associated with restoration or replacement of the trees and damages caused by their destruction or harvest. An adjustment in fines is warranted to deter the illegal harvesting and destruction of natural resources within state forest reserves. Your Committees further find that establishing a criminal penalty for certain conservation and resource violations strengthens the Department of Land and Natural Resources' enforcement capabilities and offers additional protection of the State's natural resources.

Your Committees have amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Water and Land and Judiciary and Labor that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 989, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 989, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
 Water and Land: Ayes, 3. Noes, none. Excused, 2 (Inouye, Kim).
 Judiciary and Labor: Ayes, 4. Noes, none. Excused, 1 (Kim).

SCRep. 334 (Joint) Water and Land and Agriculture and Environment on S.B. No. 772

The purpose and intent of this measure is to appropriate funds to the Department of Land and Natural Resources to provide assistance to and collaborate with the National Wildlife Research Center of the United States Department of Agriculture to:

- (1) Complete the research study on the rose-ringed parakeet on the island of Kauai and related research; and
- (2) Develop and implement programs to reduce the negative impacts of the rose-ringed parakeet on the island of Kauai.

Your Committees received testimony in support of this measure from the Department of Agriculture, Department of Land and Natural Resources, Hawai'i Farm Bureau, Hawaii Crop Improvement Association, Kaua'i Invasive Species Committee, Kauai County Farm Bureau, Dow Agrosience, and six individuals. Your Committees received testimony in opposition to this measure from Animal Rights Hawaii, Save an Animal, and one individual.

Your Committees find that the rose-ringed parakeet, *Psittacula krameri*, native to Africa and India, is considered to be one of the most significant agricultural pests of important food crops. The National Wildlife Research Center of the United States Department of Agriculture estimated there were more than two thousand rose-ringed parakeets on Kauai as of 2011 and concluded that these birds are probably dispersing invasive plant species, including lilikoi and strawberry and yellow guava; possibly destroying native seeds, including koa; and potentially competing with native birds for fruits, seeds, and nesting sites. Additionally, the parakeets are damaging and reducing the yield of many crops, including lychee, longan, and rambutan. Your Committees find that additional research is needed for the development and preliminary implementation of an effective control plan for rose-ringed parakeets on Kauai.

As affirmed by the records of votes of the members of your Committees on Water and Land and Agriculture and Environment that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 772 and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
 Water and Land: Ayes, 3. Noes, none. Excused, 2 (Kim, Thielen).
 Agriculture and Environment: Ayes, 3. Noes, none. Excused, 2 (Nishihara, Ruderman).

SCRep. 335 (Joint) Water and Land and Agriculture and Environment on S.B. No. 1088

The purpose and intent of this measure is to appropriate funds for the certification of a carbon reforestation project at Haleakala, Maui, operated by the Department of Land and Natural Resources under an established forest carbon standard certification system.

Your Committees received testimony in support of this measure from the Department of Land and Natural Resources; Office of Environmental Quality Control; Nature Conservancy Hawai'i; Hawaii Farmers Union United; We Are One, Inc.; and thirteen individuals.

Your Committees find that certified carbon projects directly contribute to multiple sustainability goals for the State of Hawaii, including the Aloha+ Challenge Declaration. The Department of Land and Natural Resources proposes to certify a reforestation project on state lands and has secured funding for the restoration project activities through federal and state resources, and needs an initial investment of \$120,000 for the certification of the carbon project under an established forest carbon standard. Your Committees find that this one-time appropriation to support the restoration project serves the public interest through efforts to mitigate the impacts of climate change and environmental degradation. Success of this project will result in converting degraded pastureland back to native forest to sequester carbon, reduce erosion, increase water supply recharge, re-establish endangered species habitat, mitigate wildfire threats, and support numerous other natural and cultural benefits important to the people of Hawaii.

As affirmed by the records of votes of the members of your Committees on Water and Land and Agriculture and Environment that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1088 and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Water and Land: Ayes, 3. Noes, none. Excused, 2 (Kim, Thielen).

Agriculture and Environment: Ayes, 3. Noes, none. Excused, 2 (Nishihara, Ruderman).

SCRep. 336 Government Operations on S.B. No. 794

The purpose and intent of this measure is to amend the date of filing of monthly, quarterly, semiannual, and annual general excise tax returns from the 20th day of the respective applicable month to the last day of the month, beginning for returns and payments due on or after January 1, 2018.

Your Committee received testimony in support of this measure from the Hawaii Business League and one individual. Your Committee received comments on this measure from the Department of Taxation and the Tax Foundation of Hawaii.

Your Committee finds that this measure returns the general excise tax returns filing requirements to the last day of the month following the end of the relevant tax period; the last day of the month had been the filing requirement prior to Act 196, Session Laws of Hawaii 2009. Your Committee finds that returning the filing date of the general excise tax returns as proposed in this measure will ease tax compliance, particularly for small businesses in the State.

Your Committee has amended this measure by clarifying that it applies to taxable periods beginning after December 31, 2017.

As affirmed by the record of votes of the members of your Committee on Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 794, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 794, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Tokuda).

SCRep. 337 (Joint) Government Operations and Economic Development, Tourism, and Technology on S.B. No. 850

The purpose and intent of this measure is to require the Chief Information Officer to identify the information technology projects of the executive branch, including the Department of Education and University of Hawaii, that shall be subject to independent verification and validation, and award, administer, and manage the contracts of identified projects.

Your Committees received testimony in support of this measure from the University of Hawai'i System. Your Committees received comments on this measure from the Department of Education and Office of Enterprise Technology Services.

Your Committees find that requiring independent verification and validation for projects that involve substantial risk and expense will contribute to the efficient and effective functioning of state government, and the success of state modernization initiatives.

As affirmed by the records of votes of the members of your Committees on Government Operations and Economic Development, Tourism, and Technology that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 850 and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Government Operations: Ayes, 4. Noes, none. Excused, 1 (Tokuda).

Economic Development, Tourism, and Technology: Ayes, 3. Noes, none. Excused, 2 (Taniguchi, Thielen).

SCRep. 338 (Joint) Economic Development, Tourism, and Technology and Commerce, Consumer Protection, and Health on S.B. No. 1087

The purpose and intent of this measure is to enable a transient accommodations broker to register as a tax collection agent with respect to transient accommodations taxes and general excise taxes for its operators and plan managers in a manner that recognizes the dynamic changes occurring in the transient accommodations sector.

Your Committees received testimony in support of this measure from the Oahu Alternative Lodging Association, Travel Tech, AirBNB, and twenty-eight individuals. Your Committees received testimony in opposition to this measure from the City and County of Honolulu, Kailua Neighborhood Board, Hawaii Appleseed Center for Law & Economic Justice, UNITE HERE Local 5, Rental by Owner Awareness Association, and four individuals. Your Committees received comments on this measure from the Department of Taxation, Tax Foundation of Hawaii, and two individuals.

Your Committees find that this measure would allow internet platforms to collect and remit general excise tax and transient accommodations tax which would enable the State to generate millions of dollars in tax revenue. Your Committees further find that this measure will also help ensure that all operators contribute their share of taxes owed to the State.

As affirmed by the records of votes of the members of your Committees on Economic Development, Tourism, and Technology and Commerce, Consumer Protection, and Health that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1087 and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Economic Development, Tourism, and Technology: Ayes, 4; Ayes with Reservations (Taniguchi). Noes, none. Excused, 1 (Thielen).

Commerce, Consumer Protection, and Health: Ayes, 4; Ayes with Reservations (Espero). Noes, none. Excused, 3 (Chang, Ihara, Kidani).

SCRep. 339 (Joint) Economic Development, Tourism, and Technology and Human Services on S.B. No. 1085

The purpose and intent of this measure is to allocate funds from the transient accommodations tax revenues for homelessness services in tourism-impacted areas.

Your Committees received testimony in support of this measure from IMUAlliance; Aqua-Aston Hospitality; Ho‘omana Pono, LLC; Outrigger Enterprises Group; Hawai‘i Lodging & Tourism Association; and three individuals. Your Committees received testimony in opposition to this measure from one individual. Your Committees received comments on this measure from the Department of Taxation and Tax Foundation of Hawaii.

Your Committees find that the State has experienced a steady increase in the number of unsheltered homeless individuals and families in recent years. Your Committees find that it is important to find innovative ways to fund homeless services, especially human services, health care, outreach, and rapid rehousing for the State’s unsheltered and at-risk populations. Your Committees further find that private entities have donated to help provide resources, but more funding is necessary to support services for unsheltered homeless individuals and families in Hawaii.

Your Committees have amended this measure by:

- (1) Changing the effective date to January 1, 2018; and
- (2) Specifying that the funds allocated to provider agencies operating or managing a homeless facility or any other program for homeless individuals be distributed to the Department of Human Services.

As affirmed by the records of votes of the members of your Committees on Economic Development, Tourism, and Technology and Human Services that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1085, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1085, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Economic Development, Tourism, and Technology: Ayes, 3. Noes, none. Excused, 2 (Baker, Thielen).

Human Services: Ayes, 3. Noes, none. Excused, 2 (Harimoto, Tokuda).

SCRep. 340 (Joint) Economic Development, Tourism, and Technology and International Affairs and the Arts on S.B. No. 349

The purpose and intent of this measure is to establish and appropriate funds for the China-Hawaii Economic Council to further economic relations between China and Hawaii.

Your Committees received testimony in support of this measure from the Department of Business, Economic Development, and Tourism, and one individual. Your Committees received testimony in opposition to this measure from one individual.

Your Committees find that the establishment of a China-Hawaii Economic Council will provide an invaluable opportunity to further economic relations between China and Hawaii. Your Committees further find that the collaboration will help to facilitate investment, increase tourism, and promote trade.

Your Committees note that the recommended appropriation to establish the China-Hawaii Economic Council is \$200,000 per fiscal year.

As affirmed by the records of votes of the members of your Committees on Economic Development, Tourism, and Technology and International Affairs and the Arts that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 349 and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Economic Development, Tourism, and Technology: Ayes, 3. Noes, none. Excused, 2 (Baker, Thielen).

International Affairs and the Arts: Ayes, 4. Noes, none. Excused, 1 (Ihara).

SCRep. 341 Economic Development, Tourism, and Technology on S.B. No. 1249

The purpose and intent of this measure is to establish the Technology Innovation Corporation, a corporation attached to the High Technology Development Corporation, to help create high technology development opportunities in the State.

Your Committee received testimony in support of this measure from the High Technology Development Corporation. Your Committee received comments on this measure from the Department of the Attorney General and Department of Budget and Finance.

Your Committee finds that a Technology Innovation Corporation would help attract high technology development opportunities to the State. High technology is an important driver in the diversification of Hawaii’s economy and provides quality jobs for Hawaii residents. Your Committee further finds that a Technology Innovation Corporation would help increase public-private collaboration and create additional opportunities for economic and innovative development.

Your Committee has amended this measure by:

- (1) Removing a reference to the corporation as a not-for-profit organization;
- (2) Removing references to two members of the board of directors to be appointed by the President of the Senate and two members to be appointed by the Speaker of the House of Representatives;
- (3) Increasing the number of directors that the Governor appoints to the board from three to seven members; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Economic Development, Tourism, and Technology that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1249, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1249, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Baker).

SCRep. 342 Economic Development, Tourism, and Technology on S.B. No. 902

The purpose and intent of this measure is to:

- (1) Change the name of the High Technology Development Corporation to the Hawaii Technology Development Corporation;
- (2) Update all references within chapter 201M, Hawaii Revised Statutes, from “high technology” to “technology”; and
- (3) Repeal the Hawaii Software Service Center established within the High Technology Development Corporation.

Your Committee received testimony in support of this measure from the Department of Business, Economic Development, and Tourism; and High Technology Development Corporation.

Your Committee finds that changing the High Technology Development Corporation’s name will make it easier for the public and the media who already commonly refer to the agency as the Hawaii Technology Development Corporation. Your Committee also finds that with rapid advancements in telecommunication, the Internet, and automation, “high technology” is now simply referred to as “technology”; therefore, updating all references within chapter 201M, Hawaii Revised Statutes, from “high technology” to “technology” is appropriate. Your Committee further finds that the Hawaii Software Service Center has been unfunded for at least ten years and is obsolete.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Economic Development, Tourism, and Technology that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 902, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 902, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Baker, Thielen).

SCRep. 343 Economic Development, Tourism, and Technology on S.B. No. 1084

The purpose and intent of this measure is to:

- (1) Require that the Governor appoint members of the Hawaii Tourism Authority Board of Directors within ninety days of receiving lists of nominees from the President of the Senate and Speaker of the House of Representatives;
- (2) Repeal the Hawaii Tourism Authority Board of Directors’ authority to convene closed meetings for certain purposes; and
- (3) Require the Hawaii Tourism Authority to submit an unredacted report of summary descriptions and planned and actual expenditures of contracts and agreements entered into by the Authority and a detailed annual budget for the Authority to the Governor and Legislature.

Your Committee received testimony in support of this measure from the Hawaii Lodging & Tourism Association, Island Air, Society of Professional Journalists Hawaii Chapter, Waikiki Improvement Association, and one individual. Your Committee received comments on this measure from the Hawaii Tourism Authority and the Office of Information Practices.

Your Committee finds that the Hawaii Tourism Authority is a vital contributor to and supporter of the State’s top industry. Since the Hawaii Tourism Authority’s inception, it has been an invaluable partner to many associations and organizations in ensuring the remarkable success of tourism in the State. Accordingly, your Committee finds that it is crucial that the appointment of members of the Board of Directors occur promptly. Your Committee further finds it vital that the Board of Directors’ meetings, proceedings, and information be transparent and accessible to the lawmakers and partners who provide oversight of the Hawaii Tourism Authority’s activities and budget.

Your Committee has amended this measure by:

- (1) Stipulating that if the Governor receives the list of nominees for appointment to the Hawaii Tourism Authority’s Board of Directors from the President of the Senate and Speaker of the House of Representatives but a vacancy continues after ninety days, the President of the Senate and Speaker of the House of Representatives shall alternate appointing the members;
- (2) Allowing the Hawaii Tourism Authority’s Board of Directors to enter into executive meetings closed to the public with stipulated exceptions;
- (3) Requiring that Hawaii Tourism Authority’s Board of Directors’ executive meeting minutes be available to any legislator upon request;
- (4) Requiring information relating to marketing plans and strategies discussed at executive meetings to be disclosed after the execution of the market plans and strategies; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Economic Development, Tourism, and Technology that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1084, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1084, S.D. 1, and be referred to your Committees on Ways and Means and Judiciary and Labor.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Baker, Thielen).

SCRep. 344 (Majority) Economic Development, Tourism, and Technology on S.B. No. 1306

The purpose and intent of this measure is to establish an Office of Public-Private Partnership within the Department of Business, Economic Development, and Tourism.

Your Committee received testimony in support of this measure from the Department of Business, Economic Development, and Tourism. Your Committee received testimony in opposition to this measure from the Hawaii Government Employees Association.

Your Committee finds that public-private partnerships are an effective strategy for economic development. An Office of Public-Private Partnership within the Department of Business, Economic Development, and Tourism would help identify and implement various public-private projects across the State and stimulate growth in various industries including tourism, film, agriculture, energy, technology, and innovation.

As affirmed by the record of votes of the members of your Committee on Economic Development, Tourism, and Technology that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1306 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, 1 (Taniguchi). Excused, 1 (Baker).

SCRep. 345 (Joint) Public Safety, Intergovernmental, and Military Affairs and Agriculture and Environment on S.B. No. 637

The purpose and intent of this measure is to authorize the counties through their employees or authorized agents to enter private property to control or eradicate invasive species and pests.

Your Committees received testimony in support of this measure from the Department of Land and Natural Resources; Department of Agriculture; Office of the Mayor for the County of Maui; The Hawaiian Electric Companies; Hawaii Association of REALTORS; Hawaii Farmers Union; and nine individuals. Your Committees received testimony in opposition to this measure from Kauai Ferals dba Kauai Community Cat Project and one individual.

Your Committees find that invasive species and pests are a persistent and real threat to the State. Invasive species and pests can swiftly and permanently alter the ecosystem of the State if not effectively eradicated. To ensure the rapid and complete removal of such species and pests, it is essential to allow the counties, through their employees or authorized agents, to have authority to enter onto private property when necessary to control or eradicate invasive species and pests.

Your Committees have amended this measure by:

- (1) Clarifying in section 194-5(a), Hawaii Revised Statutes, that an agent of the department or county is also authorized to enter private property to control or eradicate invasive species; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Public Safety, Intergovernmental, and Military Affairs and Agriculture and Environment that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 637, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 637, S.D. 1, and be referred to your Committee on Judiciary and Labor.

Signed by the Chairs on behalf of the Committees.
Public Safety, Intergovernmental, and Military Affairs: Ayes, 3. Noes, none. Excused, 2 (Baker, Ihara).
Agriculture and Environment: Ayes, 4. Noes, none. Excused, 1 (Ruderman).

SCRep. 346 (Joint) Public Safety, Intergovernmental, and Military Affairs and Commerce, Consumer Protection, and Health on S.B. No. 887

The purpose and intent of this measure is to ensure adequate funding for enhanced 911 services through a surcharge at the point of sale on each prepaid wireless telecommunications service purchased by Voice over Internet Protocol and wireless mobile phone users.

Your Committees received testimony in support of this measure from the Department of Accounting and General Services; Hawai'i Police Department; Honolulu Police Department; Maui Police Department; Enhanced 911 Board; CTIA; Verizon; and four individuals. Your Committees received testimony in opposition to this measure from the Hawaii Association for Justice and Retail Merchants of Hawaii.

Your Committees find that enhanced 911 services provide great benefit to the health, safety, and welfare of the public. The Enhanced 911 Fund helps ensure adequate funding for enhanced 911 services as well as helps to develop future, related services and technologies. Currently, a monthly enhanced 911 surcharge of 66 cents per month is imposed upon each communications service connection for Voice over Internet Protocol and wireless phones except wireless prepaid mobile phone users, despite the fact that wireless prepaid mobile phone users receive all of the benefits of enhanced 911 services. Requiring wireless prepaid mobile phone users, referred to this measure as prepaid wireless telecommunications service, to pay a surcharge for enhanced 911 services would

create greater equity in the funding of enhanced 911 services and would provide a significant source of funds to help sustain enhanced 911 services. Accordingly, this measure:

- (1) Establishes a prepaid wireless E911 surcharge of 2.64 percent of prepaid wireless service purchased at the point of sale;
- (2) Allows sellers to deduct and retain three percent of the surcharge for administrative purposes and remit the balance to the Enhanced 911 Board; and
- (3) Requires the amounts collected by the Enhanced 911 Board to be placed in the Enhanced 911 Fund.

Your Committees have amended this measure by:

- (1) Changing the rate of the prepaid wireless E911 surcharge from 2.64 percent to 1.5 percent; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Public Safety, Intergovernmental, and Military Affairs and Commerce, Consumer Protection, and Health that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 887, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 887, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Public Safety, Intergovernmental, and Military Affairs: Ayes, 4. Noes, none. Excused, 1 (Ihara).

Commerce, Consumer Protection, and Health: Ayes, 5. Noes, none. Excused, 2 (Ihara, Kidani).

SCRep. 347 Public Safety, Intergovernmental, and Military Affairs on S.B. No. 938

The purpose and intent of this measure is to repeal the requirement that the State Director of Finance deduct ten per cent of the gross proceeds of a respective county's surcharge on state tax to reimburse the State for the costs of assessment, collection, and disposition of the county surcharge on state tax incurred by the State.

Your Committee received testimony in support of this measure from the Department of Budget and Finance, Honolulu City Council, Mayor of the City and County of Honolulu, Honolulu Rapid Transit Authority, General Contractors Association of Hawaii, and Hawaii Laborers-Employers Cooperation and Education Trust. Your Committee received comments on this measure from the Tax Foundation of Hawaii.

Your Committee finds that the State Director of Finance's deduction of ten per cent of the gross proceeds of a respective county's surcharge on state tax is unfair and inequitable to the taxpayers of the respective counties. As constituted, the ten per cent deduction for the county's surcharge allows significant taxpayer dollars paid by taxpayers of a particular county to be redistributed for state projects that may provide no benefit to the county taxpayers. Moreover, repealing the State's deduction of ten per cent of the counties' surcharge on state tax will provide increased revenue to the counties to use on a variety of initiatives, including public transportation projects.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 938, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 938, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Ihara, Thielen).

SCRep. 348 (Joint) Public Safety, Intergovernmental, and Military Affairs and Agriculture and Environment on S.B. No. 988

The purpose and intent of this measure is to clarify procedures for an exemption and establish those agricultural buildings, structures, and appurtenances excluded from building permit and building code requirements under section 46-88, Hawaii Revised Statutes, and pursuant to the requirements of the National Flood Insurance Program.

Your Committees received testimony in support of this measure from the Department of Land and Natural Resources; Department of Commerce and Consumer Affairs; Department of Business, Economic Development, and Tourism; Hawaii Emergency Management Agency; Office of the Mayor of the County of Hawai'i; County of Hawai'i Department of Public Works; Department of Emergency Management for the City and County of Honolulu; Department of Planning and Permitting for the City and County of Honolulu; Hawai'i Association of REALTORS; Hawaii Bankers Association; Hawaii Financial Services Association; Hawaii Insurers Council; Hawaii Independent Insurance Agents Association; Mortgage Bankers Association; and six individuals. Your Committees received testimony in opposition of this measure from one individual. Your Committees received comments on this measure from the Department of Agriculture and Hawaii Aquaculture and Aquaponics Association.

Your Committees find that it essential that building code and building permit requirements comply with the requirements of the National Flood Insurance Program as administered by the Federal Emergency Management Agency. Failure to maintain compliance with the program's requirements could result in the Federal Emergency Management Agency initiating suspension procedures throughout the State, which could lead to the loss of National Flood Insurance Program insurance coverage and impact eligibility for certain federal disaster assistance. Certain aspects of the building code and permit requirement statutes have allowed for some agricultural buildings, structures, and appurtenances to fall outside the National Flood Insurance Program requirements. Accordingly, this measure:

- (1) Requires an owner or occupier intending to utilize the exemption to the building code and permit requirements under section 46-88, Hawaii Revised Statutes, to provide written notice to the appropriate county agency of the size, type, and location of the proposed building;
- (2) Requires the appropriate county agency to determine that a building permit is not necessary to comply with local, state, and federal floodplain management development standards, or National Flood Insurance Program regulations; and
- (3) Establishes that section 46-88, Hawaii Revised Statutes, does not exempt any new or existing agricultural buildings, structures, related appurtenances, or other development from local, state, or federal floodplain management development standards, ordinances, codes, statutes, rules, or regulations pursuant to National Flood Insurance Program requirements.

As affirmed by the records of votes of the members of your Committees on Public Safety, Intergovernmental, and Military Affairs and Agriculture and Environment that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 988 and recommend that it pass Second Reading and be referred to your Committees on Judiciary and Labor and Ways and Means.

Signed by the Chairs on behalf of the Committees.

Public Safety, Intergovernmental, and Military Affairs: Ayes, 3. Noes, none. Excused, 2 (Baker, Ihara).

Agriculture and Environment: Ayes, 3. Noes, none. Excused, 2 (Rhoads, Ruderman).

SCRep. 349 (Joint) Agriculture and Environment and Water and Land on S.B. No. 558

The purpose and intent of this measure is to provide funds to establish invasive species technician positions for the Department of Land and Natural Resources' Division of Forestry and Wildlife in east Maui to control invasive species.

Your Committees received testimony in support of this measure from the Department of Agriculture; Department of Land and Natural Resources; Hawaii Farmers Union United; Conservation Council for Hawaii; Hawaii Cattlemen's Council, Inc.; We Are One, Inc.; and twenty-one individuals. Your Committees received testimony in opposition to this measure from Animal Rights Hawai'i.

Your Committees find that the invasion of insects, disease bearing organisms, snakes, weeds, and other pests is a major threat to the State's economy, natural environment, and health. A continued commitment to having the best possible understanding, science, plans, and capacity is necessary to maintain and enhance invasive species prevention and mitigation in Hawaii to effectively protect the State's natural resources and economy and the health and lifestyle of its people.

As affirmed by the records of votes of the members of your Committees on Agriculture and Environment and Water and Land that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 558 and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Agriculture and Environment: Ayes, 4. Noes, none. Excused, 1 (Nishihara).

Water and Land: Ayes, 3. Noes, none. Excused, 2 (Kim, Thielen).

SCRep. 350 (Joint) Agriculture and Environment and Water and Land on S.B. No. 830

The purpose and intent of this measure is to create an income tax credit based on real property taxes paid for landowners to incentivize leasing land for community food forests.

Your Committees received testimony in support of this measure from One Island Sustainable Living; We Are One, Inc.; and thirty-three individuals. Your Committees received comments on this measure from the Department of Land and Natural Resources, Department of Taxation, and A'a Li'i Farm.

Your Committees find that the concept of community food forests is to identify lands, particularly those near community gathering places such as parks and community centers, that may be suitable for lease for edible landscaping or growing edible plants. Your Committees further find that the State should be exploring community food forests as a food source alternative given the State's need for greater sustainability. Community and urban gardens may provide additional sources of low- or no-cost food to residents, while also utilizing developed land for community sustainability purposes.

As affirmed by the records of votes of the members of your Committees on Agriculture and Environment and Water and Land that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 830 and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Agriculture and Environment: Ayes, 4. Noes, none. Excused, 1 (Nishihara).

Water and Land: Ayes, 3. Noes, none. Excused, 2 (Kim, Thielen).

SCRep. 351 (Joint) Agriculture and Environment and Water and Land on S.B. No. 839

The purpose and intent of this measure is to appropriate funds for a feasibility study for planning and land acquisition for an agricultural park in the Puna district to provide access to agricultural lands for small scale farmers.

Your Committees received testimony in support of this measure from the Department of Agriculture; Department of Land and Natural Resources; County of Hawaii Office of the Mayor; Hawaii Farmers Union United; Hawai'i Farm Bureau; Hawaii Island School Garden Network; One Island Sustainable Living; Malama O Puna; Na Kanaka O Puna; We Are One, Inc.; A'a Li'i Farm; and forty-five individuals. Your Committees received testimony in opposition to this measure from one individual.

Your Committees find that Puna is the fastest growing district in the County of Hawaii, with a population of 45,326, according to the 2010 United States census, and is expected to grow to approximately 75,000 by 2030. Puna is also becoming increasingly popular as a tourist attraction as it is near Hawaii Volcanoes National Park and is a world renowned destination for ecotourism and personal

development opportunities. Your Committees find that an agricultural park in the Puna district would provide economic opportunities and increase local food production in the district in alignment with the State's goal of food sustainability.

As affirmed by the records of votes of the members of your Committees on Agriculture and Environment and Water and Land that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 839 and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Agriculture and Environment: Ayes, 4. Noes, none. Excused, 1 (Nishihara).

Water and Land: Ayes, 3. Noes, none. Excused, 2 (Kim, Thielen).

SCRep. 352 (Joint) Agriculture and Environment and Water and Land on S.B. No. 1208

The purpose and intent of this measure is to establish the agribusiness land and facilities special fund to acquire, operate, and maintain large tracts of former agricultural land in the State for agricultural economic development.

Your Committees received testimony in support of this measure from the Department of Agriculture; Agribusiness Development Corporation; Land Use Research Foundation; Hawaii Farm Bureau; Larry Jefts Farms, LLC; and one individual. Your Committees received comments on this measure from the Department of Budget and Finance and State Procurement Office.

Your Committees find that due to the rapid downsizing and closure of agricultural companies in the State, there are large tracts of land and empty industrial facilities currently available for agricultural economic growth. This measure provides a means by which the Agribusiness Development Corporation (ADC) can acquire certain large tracts of former agricultural land located in Hawaii for agricultural development.

Your Committees have amended this measure by:

- (1) Providing that the exemption of expenditures, uses, or transfers of funds from the agribusiness land and facilities special fund from chapter 42F or 103D, Hawaii Revised Statutes, applies after the ADC adopts rules governing expenditures by the ADC; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Agriculture and Environment and Water and Land that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1208, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1208, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Agriculture and Environment: Ayes, 3. Noes, none. Excused, 2 (Nishihara, Ruderman).

Water and Land: Ayes, 3. Noes, none. Excused, 2 (Inouye, Kim).

SCRep. 353 Agriculture and Environment on S.B. No. 1257

The purpose and intent of this measure is to appropriate funds for the planning and design of scalable livestock harvest facilities.

Your Committee received testimony in support of this measure from the Department of Agriculture; Hawaii Cattlemen's Council, Inc.; Maui Cattlemen's Association, Inc.; Hawaii Crop Improvement Association; Hawai'i Farm Bureau; Hawaii Island School Garden Network; Hawaii Cattle Producers Cooperative Association; Maui Cattle Company, LLC; Ulupalakua Ranch, Inc.; Parker Ranch, Inc.; Paniolo Cattle Company LLC; Palani Ranch Company, Inc.; Small Kine Farm; McCandless Ranch; PRL English, LLC; and eleven individuals. Your Committee received testimony in opposition to this measure from Animal Rights Hawai'i.

Your Committee finds that the cattle industry in Hawaii has a long-standing history and has seen numerous changes in production practices, requiring adaptations to market conditions. Recently, there has been a resurgence in the number of cattle that remain in Hawaii for local consumption, giving rise to challenges for many facilities that are not equipped to handle the increased numbers of cattle. Your Committee finds that these facilities were built for a set throughput of livestock, which makes it difficult to effectively adapt to changing industry conditions, and therefore your Committee understands that funding is needed to provide plans for new livestock harvest facilities. However, your Committee has concerns regarding the ultimate sustainability of the livestock industry in light of the continued requests for subsidies over recent years. Your Committee believes that funds may be better used to support other areas of agriculture to reach the State's goals regarding sustainability and increased local food production.

Your Committee has amended this measure by:

- (1) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1257, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1257, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4; Ayes with Reservations (Rhoads). Noes, none. Excused, 1 (Nishihara).

SCRep. 354 Judiciary and Labor on S.B. No. 103

The purpose and intent of this measure is to implement the state constitutional amendment in S.B. No. 2554, Regular Session of 2016, that authorizes the disposition of excess general fund revenues to pre-pay general obligation bond debt service, other post-employment benefit liability, and pension liability.

Your Committee received testimony in support of this measure from the Department of Budget and Finance, the Employees' Retirement System, and one individual. Your Committee received comments on this measure from the Hawaii Employer-Union Health Benefits Trust Fund.

Your Committee finds that S.B. No. 2554, Regular Session of 2016, proposed a constitutional amendment to provide the Legislature alternatives in the disposition of excess general revenues in addition to its then existing options, which included providing a tax refund or tax credit, or depositing excess funds into one or more emergency and budget reserve funds. The constitutional amendment was ratified on November 8, 2016. Your Committee finds that this measure is necessary to implement Article VII, section 6, of the Hawaii State Constitution.

Your Committee has amended this measure by:

- (1) As recommended by the EUTF, clarifying that the option to pre-pay other post-employment benefit liability requires payments to reduce future annual required contributions, not the amortization period;
- (2) Inserting an effective date of January 7, 2059, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 103, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 103, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 355 Judiciary and Labor on S.B. No. 320

The purpose and intent of this measure is to require the collection of buccal swab samples and print impressions of each hand, and other types of DNA samples, if provided by law or rule, from persons who have completed their criminal sentences and are no longer confined, in custody, or under parole or probation supervision, or are otherwise discharged from the jurisdiction of the court.

Your Committee received testimony in support of this measure from the Department of the Attorney General; Department of the Prosecuting Attorney, County of Maui; and one individual. Your Committee received testimony in opposition to this measure from the Office of the Public Defender, American Civil Liberties Union of Hawai'i, and one individual.

Your Committee finds that the Hawaii Intermediate Court of Appeals in State v. Dunbar, 139 Haw. 9, 383 P.3d 112 (2016), examined the State's DNA sample collection law. The court concluded that even though the defendant in this case was convicted of a felony that met the DNA sampling requirements under law, the defendant was not required to provide a DNA sample because the law did not address the collection of DNA from a person whose probation has expired. Your Committee recognizes the importance of collecting DNA samples from felony offenders to help solve other crimes committed by these offenders, provide justice to crime victims, and deter the commission of future offenses. This measure promotes the importance of the State's DNA sample collection laws by requiring the collection of DNA samples from certain felony offenders who have completed their sentences and are no longer under the jurisdiction of the court.

Your Committee notes the constitutional concerns raised in written testimony submitted by the American Civil Liberties Union of Hawai'i regarding the retroactive application of DNA sampling from convicted felony offenders who have completed their sentences and that the retroactive application of these individuals may impose an excessive government intrusion into personal genetic information. Under this measure, the proposed amendments to the DNA collection laws would apply retroactively to a period prior to the effective date of Act 112, Session Laws of Hawaii 2005 (Act 112) that established the state DNA database and data bank identification program. Although the Department of the Attorney General testified that the retroactive application of the State's DNA collection laws under section 844D-41, Hawaii Revised Statutes, was enacted through Act 112, your Committee is concerned that the retroactive application may not afford enough constitutional protection to those who have already paid their debt to society.

Your Committee has amended this measure by:

- (1) Clarifying that the collection of DNA samples from persons subject to part III of chapter 844D, Hawaii Revised Statutes, applies retroactively to July 1, 2005, the effective date of the state DNA database and data bank identification program pursuant to Act 112;
- (2) Replacing references to the verdict of not guilty by reason of insanity with acquittal pursuant to section 704-402, Hawaii Revised Statutes, to reflect proper terminology;
- (3) Inserting an effective date of January 7, 2059, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 320, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 320, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 356 Judiciary and Labor on S.B. No. 490

The purpose and intent of this measure is to allow the circuit court or family court to issue a material witness order in cases initiated through felony complaint in addition to indictment or written information.

Your Committee received testimony in support of this measure from the Department of the Prosecuting Attorney, City and County of Honolulu.

Your Committee finds that a material witness order is a court order that compels a person to appear as a material witness in a pending criminal action to which bail is affixed to secure that person's attendance in court. Existing law relating to material witness orders applies to an indictment or written information filed in circuit court. Although all felony cases may be issued via felony complaint or indictment, only certain felony cases may be initiated via written information. Furthermore, felony complaints may be filed in family court depending on the court's original jurisdiction. This measure ensures that the circuit and family courts have the tools necessary to order a material witness, when appropriate, regardless of whether the case is initiated through an indictment, written information, or felony complaint.

Your Committee has amended this measure by:

- (1) Inserting an effective date of January 7, 2059, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 490, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 490, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Kim).

SCRep. 357 (Majority) Judiciary and Labor on S.B. No. 673

The purpose and intent of this measure is to propose a constitutional amendment to:

- (1) Extend the required timeframe for certain appointment and consent procedures for justices and judges from thirty to ninety days;
- (2) Conform certain judicial appointment and consent procedures for district court judges with the judicial appointment and consent procedures for Supreme Court justices and Intermediate Court of Appeals and circuit court judges by:
 - (A) Repealing language that requires the Senate to hold a public hearing and vote on each district court judge appointment within a certain time from the appointment; and
 - (B) Adding judicial appointment and consent procedures for district court judges in the event that the Senate fails to reject any district court judge appointment within the required timeframe or affirmatively rejects any district court judge appointment; and
- (3) Amend the timeframe to renew the term of office of a justice or judge and require consent of the Senate for a justice or judge to renew a term of office.

Your Committee received testimony in support of this measure from one individual. Your Committee received testimony in opposition to this measure from the Judiciary; Office of the Public Defender; Judicial Selection Commission; American Civil Liberties Union of Hawai'i; American College of Trial Lawyers; Americans for Democratic Action Hawaii; American Judicature Society; Common Cause Hawaii; Hawaiian Affairs Caucus of the Democratic Party of Hawai'i; Family Law Section of the Hawaii State Bar Association; Hawaii Appleseed Center for Law and Economic Justice; Hawaii Chapter of the American Board of Trial Advocates; Hawai'i County Bar Association; Hawaii Filipino Lawyers Association; Hawaii State Bar Association; Hawai'i State Trial Judges Association; Japanese American Citizens League; Kalihi Palama Hawaiian Civic Club; Kaua'i Bar Association; Ke One O Kākuhihewa, O'ahu Council of the Association of Hawaiian Civic Clubs; League of Women Voters of Hawaii; Maui County Bar Association; Prince Kūhiō Hawaiian Civic Club; University of Hawaii Professional Assembly; West Hawaii Bar Association; Democratic Party of Hawai'i; Community Alliance on Prisons; Honolulu Hawaii NAACP; International Longshore and Warehouse Union, Local 142; Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO; Life of the Land; State of Hawaii Organization of Police Officers; and eighty-five individuals.

Your Committee finds that the Senate consent provisions of the Hawaii State Constitution relating to the appointment of district court judges are incongruous to those relating to Supreme Court justices and Intermediate Court of Appeals and circuit court judges. In the case of Supreme Court justices and Intermediate Court of Appeals and circuit court judges, if the Senate fails to reject an initial appointment to these courts within thirty days of the appointment, the Senate is deemed to have consented to the appointment. For district court judicial appointees, the exact opposite occurs. The district court judicial appointee is automatically considered rejected if not consented to by the Senate within thirty days of receipt of the district court judicial appointment. This measure conforms certain judicial appointment and consent procedures for district court judges with the judicial appointment and consent procedures for Supreme Court justices and Intermediate Court of Appeals and circuit court judges.

Your Committee further finds that the Hawaii State Constitution requires every justice or judge to petition the Judicial Selection Commission to be retained in office. Retention proceedings, like all of the Judicial Selection Commission's proceedings, are kept secret by the Commission and all information considered by the Commission is not disclosed. If the Judicial Selection Commission determines that the justice or judge should be retained, the Judicial Selection Commission is authorized by the state constitution to renew the justice's or judge's term. Unlike the original appointment of a justice or judge, Senate consent is not required for a justice's or judge's term renewal. Therefore, only the Senate confirmation process of a justice's or judge's initial appointment is open to public scrutiny.

This measure proposes a constitutional amendment to authorize the Senate, rather than the Judicial Selection Commission, to renew a justice's or judge's term while retaining the Judicial Selection Commission's constitutionally mandated responsibility to determine whether a justice or judge should be retained in office and providing the Judicial Selection Commission ninety days to make its

determination then immediately provide written notice to the Senate of its determination and, if applicable, a copy of a petition for retention. The Senate would have ninety days to vote to consent to or reject the petition; otherwise, the Judicial Selection Commission's determination would take effect.

Your Committee has amended this measure by:

- (1) Reinstating language that requires the Senate to hold a public hearing as part of the Senate consent procedures for a district court judge appointee, and extending the timeframe for the Senate to hold this public hearing and vote on each district court judicial appointment from thirty to ninety days; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 673, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 673, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3; Ayes with Reservations (Rhoads). Noes, 2 (Gabbard, Thielen). Excused, none.

SCRep. 358 Judiciary and Labor on S.B. No. 914

The purpose and intent of this measure is to provide a legislative vehicle to fund public sector collective bargaining cost items for salary adjustments, other cost adjustments, and Hawaii employer-union health benefits trust fund costs for public employees in collective bargaining unit (2) and their excluded counterparts for fiscal biennium 2017-2019.

Your Committee received testimony in support of this measure from the Department of Budget and Finance; Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO; Hawaii Health Systems Corporation; and University of Hawai'i System.

Your Committee finds that the negotiations for collective bargaining agreements for bargaining unit (2) are currently in progress. This measure provides a legislative vehicle that can be used if an agreement is reached or an arbitration award is issued prior to the end of the 2017 Regular Session.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 914, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 914, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 359 Judiciary and Labor on S.B. No. 915

The purpose and intent of this measure is to provide a legislative vehicle to fund public sector collective bargaining cost items for salary adjustments, other cost adjustments, and Hawaii employer-union health benefits trust fund costs for public employees in collective bargaining unit (3) and their excluded counterparts for fiscal biennium 2017-2019.

Your Committee received testimony in support of this measure from the Department of Budget and Finance; University of Hawaii System; Hawaii Health Systems Corporation; and Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO.

Your Committee finds that the negotiations for collective bargaining agreements for bargaining unit (3) are currently in progress. This measure provides a legislative vehicle that can be used if an agreement is reached or an arbitration award is issued prior to the end of the 2017 Regular Session.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 915, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 915, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 360 Judiciary and Labor on S.B. No. 916

The purpose and intent of this measure is to provide a legislative vehicle to fund public sector collective bargaining cost items for salary adjustments, other cost adjustments, and Hawaii employer-union health benefits trust fund costs for public employees in collective bargaining unit (4) and their excluded counterparts for fiscal biennium 2017-2019.

Your Committee received testimony in support of this measure from the Department of Budget and Finance; University of Hawaii System; Hawaii Health Systems Corporation; and Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO.

Your Committee finds that the negotiations for collective bargaining agreements for bargaining unit (4) are currently in progress. This measure provides a legislative vehicle that can be used if an agreement is reached or an arbitration award is issued prior to the end of the 2017 Regular Session.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 916, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 916, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 361 Judiciary and Labor on S.B. No. 917

The purpose and intent of this measure is to provide a legislative vehicle to fund public sector collective bargaining cost items for salary adjustments, other cost adjustments, and Hawaii employer-union health benefits trust fund costs for public employees in collective bargaining unit (5) and their excluded counterparts for fiscal biennium 2017-2019.

Your Committee received testimony in support of this measure from the Department of Budget and Finance and Hawaii State Teachers Association.

Your Committee finds that the negotiations for collective bargaining agreements for bargaining unit (5) are currently in progress. This measure provides a legislative vehicle that can be used if an agreement is reached or an arbitration award is issued prior to the end of the 2017 Regular Session.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 917, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 917, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 362 Judiciary and Labor on S.B. No. 918

The purpose and intent of this measure is to provide a legislative vehicle to fund public sector collective bargaining cost items for salary adjustments, other cost adjustments, and Hawaii employer-union health benefits trust fund costs for public employees in collective bargaining unit (6) and their excluded counterparts for fiscal biennium 2017-2019.

Your Committee received testimony in support of this measure from the Department of Budget and Finance and Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO.

Your Committee finds that the negotiations for collective bargaining agreements for bargaining unit (6) are currently in progress. This measure provides a legislative vehicle that can be used if an agreement is reached or an arbitration award is issued prior to the end of the 2017 Regular Session.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 918, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 918, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 363 Judiciary and Labor on S.B. No. 919

The purpose and intent of this measure is to provide a legislative vehicle to fund public sector collective bargaining cost items for salary adjustments, other cost adjustments, and Hawaii employer-union health benefits trust fund costs for public employees in collective bargaining unit (7) and their excluded counterparts for fiscal biennium 2017-2019.

Your Committee received testimony in support of this measure from the Department of Budget and Finance, University of Hawai'i System, and University of Hawaii Professional Assembly.

Your Committee finds that the negotiations for collective bargaining agreements for bargaining unit (7) are currently in progress. This measure provides a legislative vehicle that can be used if an agreement is reached or an arbitration award is issued prior to the end of the 2017 Regular Session.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 919, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 919, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 364 Judiciary and Labor on S.B. No. 920

The purpose and intent of this measure is to provide a legislative vehicle to fund public sector collective bargaining cost items for salary adjustments, other cost adjustments, and Hawaii employer-union health benefits trust fund costs for public employees in collective bargaining unit (8) and their excluded counterparts for fiscal biennium 2017-2019.

Your Committee received testimony in support of this measure from the Department of Budget and Finance; University of Hawaii System; and Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO.

Your Committee finds that the negotiations for collective bargaining agreements for bargaining unit (8) are currently in progress. This measure provides a legislative vehicle that can be used if an agreement is reached or an arbitration award is issued prior to the end of the 2017 Regular Session.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 920, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 920, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 365 Judiciary and Labor on S.B. No. 921

The purpose and intent of this measure is to provide a legislative vehicle to fund pending public sector collective bargaining cost items for salary adjustments, other cost adjustments, and Hawaii employer-union health benefits trust fund costs for public employees in collective bargaining unit (9) and their excluded counterparts for fiscal biennium 2017-2019.

Your Committee received testimony in support of this measure from the Department of Budget and Finance; University of Hawaii System; Hawaii Health Systems Corporation; and Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO.

Your Committee finds that the negotiations for collective bargaining agreements for bargaining unit (9) are currently in progress. This measure provides a legislative vehicle that can be used if an agreement is reached or an arbitration award is issued prior to the end of the 2017 Regular Session.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 921, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 921, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 366 Judiciary and Labor on S.B. No. 922

The purpose and intent of this measure is to provide a legislative vehicle to fund public sector collective bargaining cost items for salary adjustments, other cost adjustments, and Hawaii employer-union health benefits trust fund costs for public employees in collective bargaining unit (10) and their excluded counterparts for fiscal biennium 2017-2019.

Your Committee received testimony in support of this measure from the Department of Budget and Finance; University of Hawaii System; Hawaii Health Systems Corporation; and United Public Workers, AFSCME Local 646, AFL-CIO.

Your Committee finds that the negotiations for collective bargaining agreements for bargaining unit (10) are currently in progress. This measure provides a legislative vehicle that can be used if an agreement is reached or an arbitration award is issued prior to the end of the 2017 Regular Session.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 922, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 922, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 367 Judiciary and Labor on S.B. No. 923

The purpose and intent of this measure is to provide a legislative vehicle to fund public sector collective bargaining cost items for salary adjustments, other cost adjustments, and Hawaii employer-union health benefits trust fund costs for public employees in collective bargaining unit (11) and their excluded counterparts for fiscal biennium 2017-2019.

Your Committee received testimony in support of this measure from the Department of Budget and Finance and Hawaii Fire Fighters Association, International Association of Fire Fighters, Local 1463, AFL-CIO.

Your Committee finds that the negotiations for collective bargaining agreements for bargaining unit (11) are currently in progress. This measure provides a legislative vehicle that can be used if an agreement is reached or an arbitration award is issued prior to the end of the 2017 Regular Session.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 923, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 923, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 368 Judiciary and Labor on S.B. No. 924

The purpose and intent of this measure is to provide a legislative vehicle to fund public sector collective bargaining cost items for salary adjustments, other cost adjustments, and Hawaii employer-union health benefits trust fund costs for public employees in collective bargaining unit (1) and their excluded counterparts for fiscal biennium 2017-2019.

Your Committee received testimony in support of this measure from the Department of Budget and Finance; University of Hawaii System; Hawaii Health Systems Corporation, and United Public Workers, AFSCME Local 646, AFL-CIO.

Your Committee finds that the negotiations for collective bargaining agreements for bargaining unit (1) are currently in progress. This measure provides a legislative vehicle that can be used if an agreement is reached or an arbitration award is issued prior to the end of the 2017 Regular Session.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 924, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 924, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 369 Judiciary and Labor on S.B. No. 925

The purpose and intent of this measure is to provide a legislative vehicle to fund public sector collective bargaining cost items for salary adjustments, other cost adjustments, and Hawaii employer-union health benefits trust fund costs for public employees in collective bargaining unit (13) and their excluded counterparts for fiscal biennium 2017-2019.

Your Committee received testimony in support of this measure from the Department of Budget and Finance; Hawaii Health Systems Corporation; and Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO.

Your Committee finds that the negotiations for collective bargaining agreements for bargaining unit (13) are currently in progress. This measure provides a legislative vehicle that can be used if an agreement is reached or an arbitration award is issued prior to the end of the 2017 Regular Session.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 925, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 925, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 370 Judiciary and Labor on S.B. No. 926

The purpose and intent of this measure is to provide a legislative vehicle to fund public sector collective bargaining cost items for salary adjustments, other cost adjustments, and Hawaii employer-union health benefits trust fund costs for public employees in collective bargaining unit (14) and their excluded counterparts for fiscal biennium 2017-2019.

Your Committee received testimony in support of this measure from the Department of Budget and Finance and Hawaii Health Systems Corporation, and Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO.

Your Committee finds that the negotiations for collective bargaining agreements for bargaining unit (14) are currently in progress. This measure provides a legislative vehicle that can be used if an agreement is reached or an arbitration award is issued prior to the end of the 2017 Regular Session.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 926, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 926, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 371 (Joint) Judiciary and Labor and Commerce, Consumer Protection, and Health on S.B. No. 970

The purpose and intent of this measure is to extend the exemption from civil service for Medical Marijuana Dispensary Program staff in the Department of Health hired on or after July 1, 2015, until June 30, 2020.

Your Committees received testimony in support of this measure from the Department of Health.

Your Committees find that due to the novelty of the Medical Marijuana Dispensary Program (Program), local workers with specialized experience in dispensary regulations were not initially available for hire and thus initial implementation of the Program was delayed. Your Committees find that an extension of the exempt status for medical marijuana dispensary licensing staff is necessary to avoid disruption of the on-going implementation of the Program.

Your Committees have amended this measure by:

- (1) Inserting an effective date of June 30, 2017; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Judiciary and Labor and Commerce, Consumer Protection, and Health that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 970, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 970, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
Judiciary and Labor: Ayes, 4. Noes, none. Excused, 1 (Gabbard).
Commerce, Consumer Protection, and Health: Ayes, 5. Noes, none. Excused, 2 (Ihara, Kidani).

SCRep. 372 Judiciary and Labor on S.B. No. 334

The purpose and intent of this measure is to:

- (1) Require all federal, state, and county primary, special primary, general, special general, and special elections to be conducted by mail beginning with the 2020 primary election;
- (2) Establish an election by mail system, including requirements for ballots, replacement ballots, deficient return of ballots, electronic transmission of ballots under certain conditions, ballot counting, voter service centers, places of deposit, and election expenses and responsibilities;
- (3) Make conforming amendments to existing laws relating to elections to reflect and implement an election by mail system, including the laws relating to voter registration, precinct officials and watchers, election proclamations, postponement of elections due to natural disasters, ballots, voting procedures, ballot counting and election results;
- (4) Make conforming amendments to existing laws relating to absentee voting, including:
 - (A) Repealing language that provides for a permanent absentee ballot clarifying that absentee ballots will be used to request a ballot to be mailed to a temporary address; and
 - (B) Repealing voter registration at an absentee polling place;
- (5) Appropriate funds for the implementation and administration of the elections by mail system; and
- (6) Require the Office of Elections to submit a report to the Legislature prior to the convening of each Regular Session from 2019 to 2023, regarding the implementation and administration of the election by mail program.

Your Committee received testimony in support of this measure from the Office of Elections; Office of the County Clerk, County of Kaua'i; Office of the County Clerk, County of Maui; Office of the City Clerk, City and County of Honolulu; Office of the County Clerk, County of Hawai'i; Americans for Democratic Action Hawai'i; Hawai'i Alliance for Progressive Action; Common Cause Hawaii; League of Women Voters of Hawaii; Sierra Club of Hawai'i; and twenty-seven individuals. Your Committee received testimony in opposition to this measure from the Libertarian Party of Hawaii and two individuals.

Your Committee finds that the trend in Hawaii has been toward increased mail-in voting and that shifting to elections by mail would significantly reduce the logistical issues related to conducting elections. This measure uniformly implements an election by mail voting system for all elections beginning with the 2020 primary election.

Your Committee notes that this measure repeals references to precincts and polling places and further amendments to various applicable laws relating to elections may be necessary as this measure moves through the legislative process.

Your Committee has amended this measure by:

- (1) Amending section 1 to accurately describe the components of the elections by mail program;
- (2) Clarifying that, to the extent practicable, the county clerk shall mail ballot packages so as to enable voters to receive their ballots approximately eighteen days prior to an election;
- (3) Clarifying that the county clerks are primarily responsible for voting operations at voter service centers and places of deposit, per the request of the Office of the City Clerk of City and County of Honolulu;

- (4) Clarifying that to cast a valid ballot or replacement ballot, a voter may personally deliver the ballot at a voter service center or place of deposit or utilize the option to mail the ballot;
- (5) Allowing a voter five, rather than ten, business days after the date of election to cure a deficient return identification envelope;
- (6) Clarifying the times by which a voter must return a voted replacement ballot that was forwarded by electronic transmission;
- (7) Clarifying that if a voter returns multiple voted ballots for the same election, the clerk must prepare only the first ballot returned that is not spoiled, rather than the replacement ballot, for counting;
- (8) When applicable, referencing business days, rather than working days, and adding a definition of “business day” to section 11-1, Hawaii Revised Statutes;
- (9) Deleting references to “precinct” and replacing them, when appropriate, with “district” or “area” and adding a definition of “district” to section 11-1, Hawaii Revised Statutes;
- (10) Reinstating language that requires the county clerk to mail notice that a person is registered to vote within thirty days of registration;
- (11) Deleting language that prohibits a person from being prevented from voting in the precinct due to a name or address change reported on election day;
- (12) Reinstating section 11-76, Hawaii Revised Statutes, and amending the language to clarify that election day officials under the supervision and control of the Office of Elections shall be compensated;
- (13) When applicable under the law relating to the appointment of watchers, replacing references to a precinct chairperson with clerk;
- (14) Clarifying the hours of voter service centers;
- (15) Clarifying that the two hundred-foot radius requirement under section 11-132, Hawaii Revised Statutes, applies to any voter service center, place of deposit, and its appurtenances;
- (16) Adding language to section 11-139, Hawaii Revised Statutes, that clarifies that a person with disabilities may be provided assistance at a voter service center pursuant to any state or federal law relating to persons with disabilities;
- (17) Decreasing the time allowed to file a complaint contesting a primary election result from sixteen to thirteen days after a primary or special primary election so that general election ballots may be prepared in time for overseas voters, per the request of the Office of Elections;
- (18) Deleting references to “precinct official” and replacing, when appropriate, with “election official” and repealing the definition of “precinct official” under section 11-1, Hawaii Revised Statutes, as well as amending the definition of “election official”;
- (19) Deleting section 51, which would have repealed section 15-4, Hawaii Revised Statutes;
- (20) Requiring the Office of Elections to submit its first written report to the Legislature on the implementation and administration of the election by mail program prior to the regular session of 2018, rather than 2019;
- (21) Adding language that requires the Office of Elections to report on any developments in assistive technology that may be implemented to ensure that persons with disabilities are not, on the whole, disadvantaged by the implementation of the election by mail program, including the costs associated with such technology;
- (22) Inserting an effective date of January 7, 2059, to encourage further discussion and making certain section effective on various dates; and
- (23) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 334, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 334, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Gabbard).

SCRep. 373 Judiciary and Labor on S.B. No. 1066

The purpose and intent of this measure is to:

- (1) Require the Office of Elections to implement elections by mail in a county with a population of fewer than 100,000 beginning with the primary election in 2018, and implement elections by mail in each of the other counties for all elections beginning with the 2020 primary election;
- (2) Clarify that a registered voter may request an absentee ballot or permanent absentee ballot in lieu of receiving an election by mail ballot if the registered voter is in a county that has not yet implemented elections by mail and establish that an absentee ballot-only election may continue to be conducted;
- (3) Establish an election by mail system, including requirements for ballots, replacement ballots, deficient return of ballots, electronic transmission under certain circumstances, ballot counting, voter service centers, places of deposit, and election expenses and responsibilities;
- (4) Establish procedures for postponed elections;

- (5) Make conforming amendments to existing laws relating to elections to reflect and implement an election by mail system;
- (6) Allow permanent absentee voters to request that their ballots be temporarily forwarded to another address in or outside of the State for a single election or a primary or special primary election and the election immediately following it;
- (7) Appropriate funds for the implementation and administration of the election by mail system; and
- (8) Require the Office of Elections to submit a report to the Legislature prior to the convening of each Regular Session from 2018 until 2024, regarding the implementation and administration of the election by mail program.

Your Committee received testimony in support of this measure from the Office of Elections; Office of the County Clerk, County of Kaua'i; Office of the City Clerk, City and County of Honolulu; Office of the County Clerk, County of Hawai'i; Americans for Democratic Action Hawai'i; Hawai'i Alliance for Progressive Action; Common Cause Hawaii; League of Women Voters of Hawaii; Sierra Club of Hawai'i; and twenty-six individuals. Your Committee received testimony in opposition to this measure from the Libertarian Party of Hawaii and two individuals.

Your Committee finds that the trend in Hawaii has been toward increased mail-in voting and that shifting to elections by mail would significantly reduce the logistical issues related to conducting elections. This measure implements an election by mail voting system in increments to allow the State to transition to elections by mail through a phased-in approach.

Your Committee notes that S.B. No. 334, Regular Session of 2017, as amended, proposes to uniformly implement an election by mail voting system for all elections beginning with the 2020 primary election. Your Committee further notes that various stakeholders, including the Office of Elections, prefer a phased-in approach rather than uniform implementation of an election by mail system, and believes that both approaches merit further discussion as these two measures move through the legislative process.

Your Committee has amended this measure by:

- (1) Inserting an effective date of January 7, 2059, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1066, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1066, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Gabbard).

SCRep. 374 Judiciary and Labor on S.B. No. 207

The purpose and intent of this measure is to establish a shared leave program within the Department of Labor and Industrial Relations to allow state employees to donate accumulated sick leave and vacation leave credits to a shared leave bank or directly to another state employee who has a serious personal illness or injury or who has a family member who has a serious personal illness or injury.

Your Committee received testimony in support of this measure from the Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO and two individuals. Your Committee received testimony in opposition to this measure from the Department of Labor and Industrial Relations. Your Committee received comments on this measure from the Department of Human Resources Development.

Your Committee finds that numerous state departments implement shared leave programs within their respective departments, but state employees cannot currently share leave between departments. Your Committee finds that state employees suffering from a serious illness or injury may deplete their paid leave allowance and often depend on shared leave to prevent economic hardship during recovery; therefore, a shared leave program across state departments may benefit many state employees.

Your Committee notes that it has concerns regarding the potential paid leave differential between employees of different levels as well as concerns regarding the potential implementation costs and resources of a shared leave program across all state departments.

Your Committee has amended this measure by:

- (1) Replacing the Department of Labor and Industrial Relations with the Department of Human Resources Development as the entity responsible for implementing the shared leave program;
- (2) Inserting the contents of S.B. No. 886, Regular Session of 2017, as part II, which:
 - (A) Allows an employee's designation of beneficiary form to be filed with the department where the employee is employed; and
 - (B) Permits the designation to be made through a statement that is not verified or written, including through an electronically maintained statement;
- (3) Inserting an effective date of January 7, 2059, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 207, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 207, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 375 Judiciary and Labor on S.B. No. 499

The purpose and intent of this measure is to appropriate funds for staff positions and various services to support the Hawaii Zero to Three Court.

Your Committee received testimony in support of this measure from the Judiciary; Department of Human Services; Community Children's Council of Hawaii; Hawaii's Early Childhood Action Strategy; Family Programs Hawaii; Hawaii Family Support Institute; Myron B. Thompson School of Social Work, University of Hawai'i at Mānoa; Parents And Children Together; Rainbow Family 808; ZERO TO THREE; Center on Disability Studies, University of Hawai'i at Mānoa; Hawaii Children's Action Network; and four individuals.

Your Committee finds that the Hawaii Zero to Three Court team works to increase awareness among those who work with maltreated infants and toddlers about the negative effects of abuse and neglect upon young children and strives to change local systems to improve outcomes and court involvement in the lives of very young children. Specifically, this court program trains professionals, secures effective service resources, encourages collaboration among existing community service providers, and increases parent-child contact. Key features of this specialized court include monthly case conferences for each family, monthly court hearings, and a court team composed of a lead family court judge, designated guardian ad litem, parents' counsel, deputy attorneys general, and social workers from the Department of Human Services.

In November 2012, the Hawaii Zero to Three Court lost its national funding, but the Judiciary continued to provide services to infants and families, and the program was transferred for administrative purposes to the Drug Court of the Family Court of the First Circuit. The family drug court has since received funding via a grant through the Substance Abuse and Mental Health Services Administration. However, this grant is scheduled to expire in July 2017. This measure provides funding that is critically needed to ensure continued and enhanced services and resources and to further develop the capacity of the Hawaii Zero to Three Court team.

Your Committee notes that this measure requests funding for a program manager position and case manager position that is not included in the Judiciary's budget request under S.B. No. 469, Regular Session of 2017, as amended. Your Committee believes that the inclusion of these position funding requests in the Judiciary's budget merits further discussion by your Committee on Ways and Means.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 499 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Kim).

SCRep. 376 Judiciary and Labor on S.B. No. 930

The purpose and intent of this measure is to provide a process by which the Hawaii Employer-Union Health Benefits Trust Fund (EUTF) may void claims for reimbursement of Medicare part B premiums and other debt payable when the total amount payable is less than \$500 and the claim is older than ten years.

Your Committee received testimony in support of this measure from the Hawaii Employer-Union Health Benefits Trust Fund.

Your Committee finds that the EUTF currently lacks a process by which it may void claims for minor amounts of unclaimed property after a sufficient time period has passed. This measure establishes a mechanism by which the EUTF can void such claims in a similar manner to the Department of Budget and Finance Unclaimed Property Program.

Your Committee has amended this measure by:

- (1) Inserting an effective date of January 7, 2059, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 930, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 930, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Kim).

SCRep. 377 Judiciary and Labor on S.B. No. 1236

The purpose and intent of this measure is to:

- (1) Stipulate that the Auditor will contract with a suitable entity, rather than an actuarial firm, to perform a study of closed claims in the workers' compensation system;
- (2) Require the study to include the processing time for closed claims;
- (3) Extend the deadline for the study by one year to November 30, 2018, and the deadline to submit the study to the Legislature to twenty days prior to the convening of the Regular Session of 2019; and
- (4) Make an appropriation for the study, contingent on a dollar-for-dollar match by fees assessed to workers' compensation insurers, workers' compensation captive insurers, and workers' compensation self-insureds.

Your Committee received testimony in support of this measure from the Department of Labor and Industrial Relations, Office of the Auditor, and ILWU Local 142.

Your Committee finds that Act 188, Session Laws of Hawaii 2016, requires the Auditor to contract with an actuarial firm to conduct a study of closed workers' compensation claims by November 30, 2017, and submit the study to the Legislature prior to the Regular Session of 2018. This measure requires additional information be included in the study, and therefore extends the deadline for the study's completion and provides additional funds.

Your Committee has amended this measure by:

- (1) Inserting an effective date of January 7, 2059, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1236, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1236, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Kim).

SCRep. 378 (Joint) Public Safety, Intergovernmental, and Military Affairs and Commerce, Consumer Protection, and Health and Human Services on S.B. No. 716

The purpose and intent of this measure is to establish a pre-arrest diversion pilot project for individuals with mental health or substance abuse challenges who allegedly commit nonviolent, non-felony offenses on state property.

Your Committees received testimony in support of this measure from the Department of the Prosecuting Attorney of the City and County of Honolulu; Hawaii Youth Services Network; Hawaii Substance Abuse Coalition; Ho'omana Pono, LLC; The Salvation Army; and ten individuals. Your Committees received testimony in opposition to this measure from one individual. Your Committees received comments on this measure from the Department of Public Safety; Department of Health; Governor's Coordinator on Homelessness; Community Alliance on Prisons; Drug Policy Action Group; Drug Policy Forum of Hawai'i; Harm Reduction Hawaii; Helping Hands Hawai'i; The CHOW Project; and one individual.

Your Committees find that employing alternatives to incarceration for nonviolent, non-felony offenders is important for dealing with overcrowding in prisons and for promoting public welfare. There is growing concern that too many nonviolent, non-felony offenses lead to the offender going to prison instead of receiving the kind of help the offender needs. This is of particular concern when the offender is an individual with mental health or substance abuse challenges. Individuals facing these challenges would be better served if, instead of arrest and incarceration, they were diverted to services targeted at correcting the underlying cause of their nonviolent behavior.

Your Committees also note the testimony of a number of interested parties expressing support for the pre-arrest diversion program, but imploring your Committees to not let the creation of this pilot program interfere with the work of the LEAD Hawai'i Hui in preparation for the Law Enforcement Assisted Diversion program at the county level. Your Committees understand these concerns and believe that the pre-arrest diversion pilot project for individuals with mental health or substance abuse challenges who allegedly commit nonviolent, non-felony offenses on state property created by this measure should function as a complement, but not an impediment, to any efforts ongoing in preparation of the Law Enforcement Assisted Diversion program.

Accordingly, this measure:

- (1) Creates a pre-arrest diversion pilot program in counties having a population of not less than six hundred thousand, which will refer individuals with mental health or substance abuse challenges who allegedly commit nonviolent, non-felony offenses on state property to appropriate community mental health services instead of arresting or citing them;
- (2) Requires the responsible state officer to provide an interim and final report to the Legislature; and
- (3) Appropriates an unspecified amount of funds for the establishment of the pilot program.

Your Committees have amended this measure by:

- (1) Clarifying that a deputy sheriff, appropriately trained under the pilot program, may make a preliminary determination if a person may be a potential participant in the program when the deputy sheriff reasonably believes that the person is engaged in a nonviolent, non-felony offense; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Public Safety, Intergovernmental, and Military Affairs, Commerce, Consumer Protection, and Health, and Human Services that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 716, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 716, S.D. 1, and be referred to your Committees on Ways and Means and Judiciary and Labor.

Signed by the Chairs on behalf of the Committees.

Public Safety, Intergovernmental, and Military Affairs: Ayes, 4. Noes, none. Excused, 1 (Ihara).

Commerce, Consumer Protection, and Health: Ayes, 4. Noes, none. Excused, 3 (Ihara, Kidani, Ruderman).

Human Services: Ayes, 3. Noes, none. Excused, 2 (Harimoto, Tokuda).

SCRep. 379 (Joint) Public Safety, Intergovernmental, and Military Affairs and Judiciary and Labor on S.B. No. 26

The purpose and intent of this measure is to appropriate funds as a grant-in-aid to the Office of the Prosecuting Attorney for the Hawaii County Career Criminal Prosecution Unit.

Your Committees received testimony in support of this measure from the Department of the Attorney General; Office of the Prosecuting Attorney, Hawai'i County; Department of the Prosecuting Attorney of the City and County of Honolulu; Department of the Prosecuting Attorney, Maui County; Office of the Prosecuting Attorney, Kaua'i County; and one individual. Your Committees received testimony in opposition to this measure from one individual.

Your Committees find that supporting a strong and effective prosecutor's office is vital to protecting the health, safety, and welfare of the public. It has long been a recognized problem that a relatively small number of repeat criminals, or "career criminals", commit a disproportionate number of the serious crimes against the public. For that reason, the Legislature created the career criminal prosecution program in 1979. This program has been effective in assisting prosecutors' offices in the counties in delivering swift and effective justice. Accordingly, it is important to continue to provide funding to the Hawai'i County Office of the Prosecuting Attorney for its Career Criminal Prosecution Unit to continue to protect the public from these dangerous career criminals.

As affirmed by the records of votes of the members of your Committees on Public Safety, Intergovernmental, and Military Affairs and Judiciary and Labor that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 26 and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Public Safety, Intergovernmental, and Military Affairs: Ayes, 3. Noes, none. Excused, 2 (Ihara, Wakai).

Judiciary and Labor: Ayes, 3. Noes, none. Excused, 2 (Gabbard, Kim).

SCRep. 380 (Joint) Public Safety, Intergovernmental, and Military Affairs and Judiciary and Labor on S.B. No. 491

The purpose and intent of this measure is to appropriate funds as a grant-in-aid to the Department of the Prosecuting Attorney of the City and County of Honolulu for the Career Criminal Prosecution Unit.

Your Committees received testimony in support of this measure from the Department of the Attorney General; Office of the Prosecuting Attorney, Hawai'i County; Department of the Prosecuting Attorney of the City and County of Honolulu; Department of the Prosecuting Attorney, Maui County; Office of the Prosecuting Attorney, Kaua'i County; and one individual. Your Committees received testimony in opposition to this measure from Ho'omana Pono, LLC, and one individual.

Your Committees find that supporting a strong and effective prosecutor's office is vital to protecting the health, safety, and welfare of the public. It has long been a recognized problem that a relatively small number of repeat criminals, or "career criminals", commit a disproportionate number of the serious crimes against the public. For that reason, the Legislature created the career criminal prosecution program in 1979. This program has been effective in assisting prosecutors' offices in delivering swift and effective justice. Accordingly, it is important to continue to provide funding to the Department of the Prosecuting Attorney of the City and County of Honolulu for its Career Criminal Prosecution Unit so that the office may continue to protect the public from these dangerous career criminals.

As affirmed by the records of votes of the members of your Committees on Public Safety, Intergovernmental, and Military Affairs and Judiciary and Labor that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 491 and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Public Safety, Intergovernmental, and Military Affairs: Ayes, 3. Noes, none. Excused, 2 (Ihara, Wakai).

Judiciary and Labor: Ayes, 3. Noes, none. Excused, 2 (Gabbard, Kim).

SCRep. 381 (Joint) Transportation and Energy and Public Safety, Intergovernmental, and Military Affairs on S.B. No. 241

The purpose and intent of this measure is to:

- (1) Require the Airports Division of the Department of Transportation to conduct a study to determine the feasibility and advisability of the Honolulu International Airport's participation in the Transportation Security Administration's screening partnership program; and
- (2) Require the Airports Division of the Department of Transportation to report its findings and recommendations to the Legislature prior to the convening of the Regular Session of 2018.

Your Committees received testimony in opposition to this measure from the Department of Transportation.

Your Committees find that the screening partnership program of the Transportation Security Administration (TSA) contracts security screening services at commercial airports to qualified private companies, which run screening operations under federal oversight and in compliance with all TSA security screening procedures. The overriding goal of the screening partnership program is to ensure that participating airports provide services that meet TSA security and performance standards, and maximize cost savings for taxpayers. This measure will assist in determining whether the Honolulu International Airport could realize a real benefit from participation in the TSA's screening partnership program.

As affirmed by the records of votes of the members of your Committees on Transportation and Energy and Public Safety, Intergovernmental, and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 241 and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Transportation and Energy: Ayes, 4. Noes, none. Excused, 1 (Harimoto).

Public Safety, Intergovernmental, and Military Affairs: Ayes, 3. Noes, none. Excused, 2 (Ihara, Thielen).

SCRep. 382 (Joint) Transportation and Energy and Public Safety, Intergovernmental, and Military Affairs on S.B. No. 974

The purpose and intent of this measure is to limit the exemption from payment of parking meter fees to vehicles that display a distinguishing parking permit or decal issued to an applicant who presents a certificate of disability that verifies that the applicant is licensed to drive a motor vehicle and cannot reach or operate a parking meter because of a physical disability.

Your Committees received testimony in support of this measure from the Department of Transportation Services of the City and County of Honolulu, Disability Communication and Access Board, Downtown-Chinatown Neighborhood Board No. 13, and two individuals. Your Committees received testimony in opposition to this measure from Hoomana Pono, LLC and one individual.

Your Committees find that the statewide parking program for persons with disabilities, as established under part III of chapter 291, Hawaii Revised Statutes, pursuant to the federal Uniform System for Parking for Persons with Disabilities, provides individuals with mobility disabilities the ability to travel and park in accessible parking stalls.

Your Committees further find that the exemption from payment of parking meter fees for persons with disabilities for the first two-and-a-half hours or the maximum time the meter allows, whichever is longer, was a privilege not intended as a benefit for persons with mobility impairments who qualified for a disability parking permit. It is necessary to distinguish permittees who are licensed drivers and not able to operate parking meters because of a disability from other permittees who are able to operate parking meters.

Your Committees have amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Transportation and Energy and Public Safety, Intergovernmental, and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 974, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 974, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Transportation and Energy: Ayes, 4. Noes, none. Excused, 1 (Harimoto).

Public Safety, Intergovernmental, and Military Affairs: Ayes, 3. Noes, none. Excused, 2 (Ihara, Thielen).

SCRep. 383 (Joint) Transportation and Energy and Commerce, Consumer Protection, and Health on S.B. No. 1030

The purpose and intent of this measure is to provide exemptions from vehicle registration, safety inspection, and driver licensure requirements for marine terminal equipment and to allow operation of marine terminal equipment between terminal locations.

Your Committees received testimony in support of this measure from the Department of Transportation; Maritime Group, LLC; and one individual.

Your Committees find that this measure promotes operational efficiencies at the harbors by streamlining the existing process to allow marine equipment to be moved between terminals and by affording harbor users to re-allocate resources as needed. The marine equipment that is usually moved between terminals is limited to tractor trucks, forklifts, and top picks, and this flexibility is most needed for terminals at Sand Island.

Your Committees have amended this measure by limiting the exemptions to marine terminal equipment temporarily moving on roads between Sand Island Parkway and Sand Island Access Road.

As affirmed by the records of votes of the members of your Committees on Transportation and Energy and Commerce, Consumer Protection, and Health that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1030, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1030, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Transportation and Energy: Ayes, 4. Noes, none. Excused, 1 (English).

Commerce, Consumer Protection, and Health: Ayes, 5. Noes, none. Excused, 2 (Nishihara, Ruderman).

SCRep. 384 (Joint) Transportation and Energy and Water and Land on S.B. No. 1147

The purpose and intent of this measure is to require the strategic plan developed by the Hawaii interagency council for transit-oriented development to require that affordable housing be included as part of the development or redevelopment plan for any state property located within one mile of the Honolulu rail transit system.

Your Committees received testimony in support of this measure from the Office of Planning, Hawaii Housing Finance and Development Corporation, and Habitat for Humanity. Your Committees received comments on this measure from the Office of Hawaiian Affairs.

Your Committees find that development and construction of affordable housing units is critically needed. Transit-oriented development associated with the construction of a rail transit system in Honolulu has the potential to fulfill this housing goal.

The State has the opportunity to utilize its resources to significantly increase the inventory of affordable housing units, inasmuch as the State is the largest landowner of properties along the rail transit line. Your Committees further find that requiring an affordable housing component as part of development and redevelopment of state properties along the rail transit line will increase the affordable housing stock and support rail ridership goals by locating denser, mixed use developments along the rail transit line.

Your Committees have amended this measure by:

- (1) Increasing the amount of affordable housing to be included in every development or redevelopment plan from twenty to thirty percent with:

- (A) Ten percent reserved for residents with an income less than or equal to thirty percent of the area medium income;
 - (B) Ten percent reserved for residents with an income greater than thirty percent but less than or equal to sixty percent of the area medium income; and
 - (C) Ten percent reserved for residents with an income greater than sixty percent but less than or equal to eighty percent of the area medium income;
- (2) Allowing a developer to build less than the required percentage of affordable housing at one rail station if the developer builds additional housing units at another rail station to offset the reduction;
 - (3) Requiring that the strategic plan developed by the Hawaii interagency council for transit-oriented development include affordable housing as part of the development or redevelopment plan for any state property located within one-half mile of the Honolulu rail transit system rather than within one mile; and
 - (4) Inserting an effective date of January 1, 2020, to encourage further discussion.

As affirmed by the records of votes of the members of your Committees on Transportation and Energy and Water and Land that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1147, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1147, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Transportation and Energy: Ayes, 4. Noes, none. Excused, 1 (Harimoto).

Water and Land: Ayes, 4. Noes, none. Excused, 1 (Kim).

SCRep. 385 Transportation and Energy on S.B. No. 1012

The purpose and intent of this measure is to increase the motor vehicle registration fee and various liquid fuel and motor vehicle weight taxes.

Your Committee received testimony in support of this measure from the Department of Transportation, Department of Taxation, Hawaii Energy Policy Forum, and American Society of Civil Engineers. Your Committee received testimony in opposition to this measure from Ho‘omana Pono, LLC; and five individuals. Your Committee received comments on this measure from the Hawaii Transportation Association, Tax Foundation of Hawaii, Building Industry Association of Hawaii, and one individual.

Your Committee finds the Department of Transportation must provide a safe, efficient, and effective land transportation system for the movement of people and goods. The state land transportation system, however, has not kept abreast with the State’s growing economy, land use development patterns, and increased demand for travel. The costs of programs and projects far exceed the available resources.

Your Committee further finds that the land transportation system will continue to deteriorate as demand for travel continues to increase, and the costs to manage, construct, and administer the system also increase. As the average fuel economy of motor vehicles improves in accordance with the Corporate Average Fuel Economy standards and the increase in electric, plug-in hybrid electric vehicles, and alternative fuel vehicles, it is clear that the current gas fuel tax is not sustainable for future highway funding. The fate of the State’s ability to provide safe and efficient roadways to the public relies upon its ability to acquire the needed funding for all highway programs and projects.

According to testimony, the increase in revenues will provide safer infrastructure enhancements for all users, including pedestrians, bicyclists, transit users, and motorists, and would positively impact the Department of Transportation’s eligibility to qualify state matching funds for the highways federal-aid program.

Your Committee has struggled with the issue of raising fuel taxes and motor vehicle fees. Your Committee believes that research is necessary into alternative means of funding highway construction projects. More innovative revenue generating programs need to be studied to support the state highway fund revenues.

According to a research paper published by the National Conference of State Legislatures (NCSL), “Tax Policy Handbook for State Legislatures” (Third Edition, February 2010), the motor fuel excise tax is the primary funding source for state highway and other transportation programs. The tax typically includes gasoline, diesel fuel, and blended motor fuels and is imposed in all fifty states. Revenue is dependent upon gallons consumed, which is influenced by oil prices, motor vehicle fuel efficiency, alternative fuel sources, and consumer driving patterns. The NCSL found that the motor fuel tax is an inelastic state revenue source, meaning that collections fail to keep pace with inflation and economic growth at a given tax rate. States must periodically increase tax rates to generate the revenue growth required to keep pace with highway maintenance and construction needs. The problem is exacerbated by increased fuel efficiency of cars and trucks, which has prevented fuel tax collections from keeping pace with the number of miles driven.

Your Committee realizes that the fuel tax is a regressive tax, particularly in poor rural areas where residents must commute longer distances to work, shopping, and other necessary activities. Low income people pay a much larger percentage of their incomes in fuel taxes than do middle- and upper income taxpayers. In this sense those persons living in rural and less affluent districts tend to bear the brunt of any increase in fuel taxes because of the longer distances driven.

Your Committee further finds that while fuel taxes raise money, they also influence behavior. By raising fuel taxes, the government would make it more expensive to drive. As a result, people might look for ways to drive less, such as carpooling or taking public transportation. This would reduce air pollution, encourage governments to improve public transportation, and promote energy self-sufficiency.

On the other hand, lower fuel taxes encourage people to drive more and to drive bigger cars, which leads to faster depletion of a finite fossil fuels such as oil, adverse effects on the environment and air quality, more traffic congestion, and faster road and bridge deterioration.

While your Committee understands the position of those who support and those who oppose this measure, your Committee believes it is important to keep the discussion open and to allow this issue to receive further consideration during the legislative process.

Your Committee has amended this measure by:

- (1) Further increasing the fuel tax in each county to 26 cents;
- (2) Reducing the proposed increase of the motor vehicle registration fee from \$75 to \$50 and requiring that \$45 of that fee be deposited into the state highway fund;
- (3) Reducing the proposed increases in the motor vehicle weight tax as follows:
 - (A) For vehicles weighing four thousand pounds or less, from 2.75 cents a pound to 2.00 cents a pound;
 - (B) For vehicles weighing more than four thousand pounds and up to and including seven thousand pounds, from 3.00 cents a pound to 2.25 cents a pounds;
 - (C) For vehicles weighing more than seven thousand pounds and up to and including ten thousand pounds, from 3.25 cents a pound to 2.50 cents a pound; and
 - (D) For vehicles weighing more than ten thousand pounds, from a flat rate of \$400 to \$325; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Transportation and Energy that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1012, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1012, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3; Ayes with Reservations (Harimoto). Noes, none. Excused, 2 (Dela Cruz, English).

SCRep. 386 Commerce, Consumer Protection, and Health on S.B. No. 868

The purpose and intent of this measure is to amend Hawaii's Uniform Controlled Substances Act to mirror federal regulations, which permit qualified practitioners to administer, dispense, and prescribe any schedule III, IV, or V narcotic drug approved by the Food and Drug Administration for use as a detoxification treatment or maintenance treatment if the practitioner complies with specific federal requirements.

Your Committee received testimony in support of this measure from the Department of Public Safety, Hawaii Medical Association, Hawaii Substance Abuse Coalition, Walgreens Co., Community Health Outreach Work, and three individuals.

Your Committee finds that drug scheduling and the regulation of prescribing narcotic drugs in Hawaii are generally kept in accordance with federal standards. Your Committee further finds that it is important for public health and safety to allow qualified practitioners to prescribe and administer necessary narcotic drugs for medically-managed withdrawal, detoxification, and maintenance treatment.

Your Committee has amended this measure by:

- (1) Inserting a provision to update the Uniform Controlled Substances Act to be consistent with federal law which allows prescribing authorization of drugs including buprenorphine and naloxone to patients undergoing detoxification treatment and maintenance treatment by properly registered practitioners;
- (2) Inserting the term "medically-managed withdrawal" to reference treatment that is otherwise known as "detoxification treatment";
- (3) Amending language to permit qualified practitioners to also administer, dispense, and prescribe any schedule II narcotic drug approved by the Food and Drug Administration for use as a detoxification treatment or maintenance treatment;
- (4) Inserting language to require that, in addition to Title 21 Code of Federal Regulations section 1301.28, practitioners may not issue authorized narcotic drugs for use as a detoxification treatment or maintenance treatment unless the practitioner is in compliance with the registration requirements of section 329-32(e), Hawaii Revised Statutes, and any other federal or state regulatory standards relating to treatment qualification, security, records, and unsupervised use of drugs;
- (5) Inserting language that is consistent with federal regulations and allows physicians under certain circumstances to administer narcotic drugs to relieve acute withdrawal symptoms for not more than three days and to treat a person as an incidental adjunct to medical or surgical treatment;
- (6) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (7) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 868, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 868, S.D. 1, and be referred to your Committee on Public Safety, Intergovernmental, and Military Affairs.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 2 (Espero, Ruderman).

SCRep. 387 (Joint) Commerce, Consumer Protection, and Health and Judiciary and Labor on S.B. No. 502

The purpose and intent of this measure is to remove discriminatory requirements for mandatory insurance coverage of in vitro fertilization procedures and create parity of coverage for same-sex couples, unmarried women, and male-female couples for whom male infertility is the relevant factor.

Your Committees received testimony in support of this measure from the Hawaii State Commission on the Status of Women; Democratic Party of Hawai'i; LGBT Caucus of the Democratic Party of Hawai'i; American Civil Liberties Union of Hawai'i; Planned Parenthood Votes Northwest and Hawaii; Hawaii Women's Coalition; Hawai'i LGBT Legal Association; Advanced Reproductive Medicine & Gynecology of Hawaii, Inc.; American Society for Reproductive Medicine; Society for Assisted Reproductive Technology; Young Progressives Demanding Action; and twenty-two individuals. Your Committees received testimony in opposition to this measure from Kaiser Permanente Hawaii. Your Committees received comments on this measure from the Department of Human Services, Hawaii Medical Service Association, and Hawai'i Association of Health Plans.

Your Committees find that under existing law, insurance plans in Hawaii are required to cover a one-time benefit for costs associated with in vitro fertilization procedures, but only if a patient's oocytes are fertilized with the patient's spouse's sperm. As currently written, this mandate discriminates against and essentially restricts a person's access to in vitro fertilization insurance coverage based on that person's gender, sexual orientation, or marital status. Although likely unintentional when enacted, the effect of the mandate also unfairly burdens same sex couples and unmarried women, who may pay up to \$20,000 out of pocket for one in vitro fertilization cycle.

Your Committees further find that this measure removes the discriminatory requirements for mandatory insurance coverage of in vitro fertilization procedures and creates parity of coverage for same-sex couples, unmarried women, and male-female couples for whom male infertility is the relevant factor. Your Committees note that this measure is not intended to expand the in vitro fertilization mandate. Rather, the same types of procedures that are already covered for opposite sex couples, i.e. egg retrieval, fertilization, and embryo transfer, will now be extended to ensure equal access and coverage for same sex couples, single people, and certain male-female couples who wish to start or grow their families.

Your Committees have amended this measure by:

- (1) Clarifying that in vitro fertilization benefits shall be gender neutral, meaning any benefit available for a married couple of the opposite sex shall also be available for same-sex couples and for women regardless of their marital status;
- (2) Clarifying that the covered in vitro fertilization benefit applies to an insured individual and the insured's dependent spouse, as appropriate;
- (3) Specifying that covered benefits are covered expenses directly related to in vitro fertilization services, and do not include other pregnancy-related or other post-in vitro fertilization outpatient services;
- (4) Clarifying that this measure does not apply to the Medicaid program, as Medicaid does not cover any infertility services, including in vitro fertilization;
- (5) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Commerce, Consumer Protection, and Health and Judiciary and Labor that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 502, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 502, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
Commerce, Consumer Protection, and Health: Ayes, 5. Noes, none. Excused, 2 (Kidani, Ruderman).
Judiciary and Labor: Ayes, 4. Noes, none. Excused, 1 (Kim).

SCRep. 388 Commerce, Consumer Protection, and Health on S.B. No. 384

The purpose and intent of this measure is to:

- (1) Authorize and establish procedures and criteria for prescriptive authority for clinical psychologists who meet specific education, training, and registration requirements; and
- (2) Require the Board of Psychology to report to the Legislature prior to the Regular Session of 2021.

Your Committee received testimony in support of this measure from the Department of Health; Hawai'i Psychological Association; Mental Health America of Hawai'i; Hawaii Medical Service Association; Hawaii Catholic Conference; Board of Directors of the West Maui Taxpayers Association, Inc.; PHOCUSED; Maryland Academy of Medical Psychologists; forty-five individuals; and a petition signed by over one thousand individuals. Your Committee received testimony in opposition to this measure from the Hawaii Psychiatric Medical Association, Kaiser Permanente Hawaii, ten individuals, and a petition signed by over two hundred individuals. Your Committee received comments on this measure from the Board of Psychology.

Your Committee finds that the mental health needs of individuals in Hawaii continue to outweigh the capacity of the State's mental health system. According to a December 2014 report on findings from the Hawaii Physician Workforce Assessment Project, physician shortages, including psychiatry, are highest in Hawaii's rural areas. The neighbor islands are particularly impacted by a shortage of psychiatrists, with Maui County facing a 41.2 percent shortage, followed by Hawaii County at 39.2 percent, and Kauai County at 29.5 percent.

percent. Although the report did not indicate a shortage of psychiatrists for the City and County of Honolulu, the report did not take into account other aspects of accessibility, such as availability (i.e., how soon and how often a patient can be seen) and acceptability (i.e., the quality of the relationship). Increasing access to qualified health care professionals who are trained in the pharmacological treatment of mental and emotional disorders is therefore of critical importance for the State.

Your Committee further finds that licensed clinical psychologists with specialized education and training in preparation for prescriptive practice have been allowed to prescribe psychotropic medications to active duty military personnel and their families in federal facilities and the United States Public Health Service, including the Indian Health Service, for decades. In recent years, Iowa, Illinois, Louisiana, and New Mexico have successfully adopted legislation authorizing prescriptive authority for advanced trained psychologists. Your Committee additionally finds that the post-doctoral, master's level clinical psychopharmacology training requirement in this measure is equivalent to the American Psychological Association's recommendations for obtaining the requisite sequence of training and certification specific to the practice of prescribing psychotropic medication.

Your Committee also finds that this measure includes multiple safeguards that ensure patient safety and quality patient care. Importantly, your Committee notes that this measure requires a collaborative agreement between a prescribing psychologist and a primary care provider and does not permit a prescribing psychologist to prescribe and administer without a collaborative agreement. For patients who are forensically encumbered or diagnosed with a serious mental illness, this measure requires a prescribing psychologist to work with a Department of Health psychiatrist or enter into a collaborative agreement with the Department of Health. This measure also requires prescribing psychologists to complete extensive coursework and training requirements; pass a rigorous national examination; obtain a federal Drug Enforcement Administration registration number; prescribe and administer only those medications related to the diagnosis and treatment of mental and emotional disorders pursuant to the practice of psychology, but excluding those drugs classified into schedule I, II, or III pursuant to chapter 329, Hawaii Revised Statutes, opiates, or narcotic drugs and all off-label prescribing for patients aged seventeen or younger; but provided that prescribing psychologists may prescribe and administer stimulants for the treatment of attention deficit hyperactivity disorder regardless of the stimulant's schedule classification; and complete continuing education requirements specific to psychopharmacology, in addition to the existing continuing education requirements for licensed clinical psychologists.

Finally, your Committee notes that this measure ensures only those clinical psychologists with appropriate education, clinical training, and registration will be authorized to prescribe. This measure is a collaborative approach to mental health care in the State and is a viable option to benefit and improve access to care in Hawaii's rural and medically underserved areas.

Your Committee has amended this measure by:

- (1) Ensuring consistency between the definition of "prescribing psychologist" in the new part of chapter 465, Hawaii Revised Statutes, and the definition of "psychologist with prescriptive authority privilege" in chapter 329, Hawaii Revised Statutes; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 384, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 384, S.D. 1, and be referred to your Committees on Judiciary and Labor and Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4; Ayes with Reservations (Nishihara). Noes, none. Excused, 3 (Ihara, Kidani, Ruderman).

SCRep. 389 (Joint) Commerce, Consumer Protection, and Health and Transportation and Energy on S.B. No. 1273

The purpose and intent of this measure is to:

- (1) Prohibit the owner of a moped or a moped dealer or repair shop from modifying a moped, including removing a speed limiter, to increase the top speed and horsepower;
- (2) Make the current fine applicable to moped owners; and
- (3) Increase the penalty for a violation by a moped dealer or repair shop to a petty misdemeanor, punishable by a fine.

Your Committees received testimony in support of this measure from the Department of Transportation, Moped Noise Mitigation Group, and six individuals. Your Committees received testimony in opposition to this measure from six individuals.

Your Committees find that a moped is classified as a device that is limited to a speed of thirty miles per hour and not required to carry motor vehicle insurance, in an effort to encourage the use of a low cost, low speed vehicle. Modifying a moped to travel faster than thirty miles per hour frustrates the intent of the classification and introduces a potential for more serious injury or damage in the event of a crash, which would necessitate insurance coverage. Your Committees further find that if a moped is capable of traveling faster than thirty miles per hour, it does not meet the definition of a moped and instead should be classified as a motor scooter, which requires motor vehicle insurance. This measure clarifies existing requirements for modifications to a moped, including specifically prohibiting the modification of a moped to remove a speed limiter to increase the top speed and horsepower. This will ensure mopeds in Hawaii stay within their appropriate vehicle classification and will alleviate safety concerns.

Your Committees have amended this measure by:

- (1) Clarifying that a moped dealer or repair shop is not in violation unless the dealer or shop is the entity who makes the modification; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Commerce, Consumer Protection, and Health and Transportation and Energy that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1273,

as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1273, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Commerce, Consumer Protection, and Health: Ayes, 6. Noes, none. Excused, 1 (Ruderman).

Transportation and Energy: Ayes, 3. Noes, none. Excused, 2 (English, Shimabukuro).

SCRep. 390 Commerce, Consumer Protection, and Health on S.B. No. 947

The purpose and intent of this measure is to:

- (1) Authorize the Department of Commerce and Consumer Affairs to issue a citation for specific violations of beauty culture laws by licensees and permittees; and
- (2) Establish a process for licensees and permittees in violation of beauty culture laws to contest the citation for the assessment of fines for each violation.

Your Committee received testimony in support of this measure from the Regulated Industries Complaints Office of the Department of Commerce and Consumer Affairs and Board of Barbering and Cosmetology.

Your Committee finds that this measure expedites the Regulated Industries Complaints Office's enforcement of certain technical violations of the beauty culture laws and promotes swift compliance by licensees. Your Committee further finds that the citation process established by this measure also enables the Regulated Industries Complaints Office's staff to concentrate their efforts and resources on more serious violations.

Your Committee has amended this measure by:

- (1) Specifying that a beauty shop is a place of business or employment that must display a license or permit in a conspicuous place during all hours of operation in accordance with section 439-2(a), Hawaii Revised Statutes; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 947, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 947, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, 1 (Ihara).

SCRep. 391 Commerce, Consumer Protection, and Health on S.B. No. 983

The purpose and intent of this measure is to:

- (1) Limit reimbursements for compounded prescription drugs to \$1,000 in a thirty-day period; and
- (2) Limit reimbursements for any schedule II drug under chapter 329, Uniform Controlled Substances Act, Hawaii Revised Statutes, dispensed by a physician to a one-time thirty-day supply upon the first visit.

Your Committee received testimony in support of this measure from the Department of Human Resources Development, Department of Labor and Industrial Relations, Department of Human Resources of the City and County of Honolulu, Hawaii Insurers Council, Chamber of Commerce Hawaii, and National Association of Mutual Insurance Companies. Your Committee received testimony in opposition to this measure from the Kauai Community Health Alliance, Hale Lea Medicine; Hawaii Injured Workers Association; Hawaii Friends of Civil Rights; Workstar Injury Recovery Center; Automated HealthCare Solutions; and nine individuals. Your Committee received comments on this measure from the International Longshore and Warehouse Union, Local 142.

Your Committee finds that there are many reasons why an individual may need compounded prescription drugs, which are usually prescribed for those who need a medication that is not commercially available and for which no other medication is appropriate. However, according to testimony received by your Committee, there has been a steady increase in prescriptions for compound preparations and medications in the treatment of injured workers. This increase in use led to a twenty-one percent increase in total medical costs for all Hawaii employers between 2011 and 2015. In some cases, the increase in use has also led to an exorbitantly high cost for compound drugs. This measure attempts to control costs and limit abuse by imposing a limit on reimbursements for compounded prescription drugs in a thirty-day period.

Your Committee also finds that a nationwide drug epidemic, associated with prescription pain relieving drugs, is causing alarming rates of addiction, overdose, and death. This measure attempts to address the issue of misuse and abuse of prescription drugs by limiting reimbursements for any schedule II drug under the Uniform Controlled Substances Act that is dispensed by a physician to an initial thirty-day supply upon the injured worker's first visit with the physician. However, your Committee believes that it is important to address the opioid epidemic in the workers' compensation arena in a similar manner as opioid use has been addressed in other areas. Amendments to this measure are therefore needed that limit schedule II drugs to a seven-day initial supply and require an informed consent process.

Your Committee has amended this measure by:

- (1) Changing the reimbursement for compounded prescription drugs from \$1,000 to an unspecified amount in a thirty-day period;
- (2) Specifying that reimbursements for any schedule II drug under chapter 329, Uniform Controlled Substances Act, Hawaii Revised Statutes, dispensed by a physician shall be limited to an initial seven-day supply;

- (3) Requiring an opioid therapy informed consent process agreement to be executed between an injured employee and any prescriber of opioids within the State under certain conditions;
- (4) Requiring the Harm Reduction Services Branch of the Department of Health to develop and make available a template of an opioid therapy informed consent process agreement between injured employees and prescribers for use in the State and advise the Department of Labor and Industrial Relations on the contents of the agreement;
- (5) Inserting an effective date of July 1, 2050, to encourage further discussion;
- (6) Requiring that the opioid therapy informed consent process agreement be in use no later than thirty days after the effective date of this measure; and
- (7) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 983, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 983, S.D. 1, and be referred to your Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Ihara, Kidani, Ruderman).

SCRep. 392 (Joint) Commerce, Consumer Protection, and Health and Judiciary and Labor on S.B. No. 953

The purpose and intent of this measure is to make various updates to the State's insurance code relating to: insurance fraud penalties; certificates of authority; motor vehicle insurance self-insurers; nonresident adjusters; insurance producer licensing; third-party claimants; and supervisory proceedings undertaken by the Insurance Commissioner.

Your Committees received testimony in support of this measure from the Department of Commerce and Consumer Affairs and National Association of Insurance and Financial Advisors. Your Committees received comments on this measure from the Hawaii Insurers Council, Hawaii Medical Service Association, and Property Casualty Insurers Association of America.

Your Committees find that the Insurance Commissioner must currently wait until a catastrophe has occurred, before issuing a declaration that permits the use of nonresident adjusters in the State. Among other things, this measure proactively allows the Commissioner to trigger the arrival and assistance of nonresident adjusters in the State ahead of a declaration of emergency by the Governor.

Your Committees further find that this measure also conforms the State's producer licensing requirements to the National Association of Insurance Commissioners' Producer Licensing Model Law by eliminating producer-to-producer appointments. In 2001, the Insurance Division deviated from the model law to conform with the then-current system, and as a result, Hawaii is now the only state that has a producer-to-producer appointment law. This measure ensures Hawaii's insurance code is uniform with other states' statutes. Your Committees note that a delayed effective date for the producer licensing requirements proposed by this measure has been requested to provide adequate time for individual producers to discuss the new agreements with each insurer they represent.

Finally, your Committees have heard the testimony that this measure may conflate first-party and third-party concepts for motor vehicle damage liability claims, which could lead to confusion. Your Committees requested that interested stakeholders work on consensus language to address the third-party claimant issue. Amendments to this measure are necessary to incorporate this consensus language, although your Committees note that revisions to the consensus language may be needed as this measure moves through the legislative process.

Your Committees have amended this measure by:

- (1) Clarifying the process for payment of general excise tax and certificate of ownership fees when a motor vehicle insurer settles a total loss motor vehicle damage liability claim with a third-party claimant;
- (2) Inserting an effective date of July 1, 2050, to encourage further discussion; provided that the provisions relating to producer licensing shall take effect January 1, 2019; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Commerce, Consumer Protection, and Health and Judiciary and Labor that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 953, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 953, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Commerce, Consumer Protection, and Health: Ayes, 5. Noes, none. Excused, 2 (Kidani, Ruderman).

Judiciary and Labor: Ayes, 4. Noes, none. Excused, 1 (Kim).

SCRep. 393 (Joint) Commerce, Consumer Protection, and Health and Public Safety, Intergovernmental, and Military Affairs on S.B. No. 190

The purpose and intent of this measure is to amend Hawaii's Uniform Controlled Substances Act to mirror federal regulations, which permit qualified practitioners to administer, dispense, and prescribe any schedule III, IV, or V narcotic drug approved by the Food and Drug Administration for use as a detoxification treatment or maintenance treatment if the practitioner complies with specific federal requirements.

Your Committees received testimony in support of this measure from the Department of Public Safety, Hawaii Substance Abuse Coalition, Walgreens Co., and one individual. Your Committees received comments on this measure from the Department of the Attorney General.

Your Committees find that drug scheduling and the regulation of prescribing narcotic drugs in Hawaii are generally kept in accordance with federal standards. Your Committees further find that it is important for public health and safety to allow qualified practitioners to prescribe and administer necessary narcotic drugs for medically-managed withdrawal, detoxification, and maintenance treatment.

Your Committees have amended this measure by:

- (1) Inserting a provision to update the Uniform Controlled Substances Act to be consistent with federal law which allows prescribing authorization of drugs including buprenorphine and naloxone to patients undergoing detoxification treatment and maintenance treatment by properly registered practitioners;
- (2) Inserting the term “medically-managed withdrawal” to reference treatment that is otherwise known as “detoxification treatment”;
- (3) Amending language to permit qualified practitioners to also administer, dispense, and prescribe any schedule II narcotic drug approved by the Food and Drug Administration for use as a detoxification treatment or maintenance treatment;
- (4) Inserting language to require that, in addition to Title 21 Code of Federal Regulations section 1301.28, practitioners may not issue authorized narcotic drugs for use as a detoxification treatment or maintenance treatment unless the practitioner is in compliance with the registration requirements of section 329-32(e), Hawaii Revised Statutes, and any other federal or state regulatory standards relating to treatment qualification, security, records, and unsupervised use of drugs;
- (5) Inserting language that is consistent with federal regulations and allows physicians under certain circumstances to administer narcotic drugs to relieve acute withdrawal symptoms for not more than three days and to treat a person as an incidental adjunct to medical or surgical treatment; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Commerce, Consumer Protection, and Health and Public Safety, Intergovernmental, and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 190, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 190, S.D. 1, and be referred to your Committee on Judiciary and Labor.

Signed by the Chairs on behalf of the Committees.

Commerce, Consumer Protection, and Health: Ayes, 5. Noes, none. Excused, 2 (Ihara, Kidani).

Public Safety, Intergovernmental, and Military Affairs: Ayes, 4. Noes, none. Excused, 1 (Ihara).

SCRep. 394 Hawaiian Affairs on S.B. No. 1304

The purpose and intent of this measure is to establish a Native Hawaiian public policy advisory council to be administratively housed within the Lieutenant Governor’s Office on a temporary basis.

Your Committee received testimony in support of this measure from the Department of Health, Office of Hawaiian Affairs, Native Hawaiian Task Force, and fourteen individuals.

Your Committee finds that health disparities are differences in the incidence, prevalence, burden, and adverse outcomes of diseases and higher mortality rates. Disparities simply imply differences. Health equity refers to the attainment of the highest level of health and well-being for all people in a particular society and valuing everyone equally. In order to achieve health equity, efforts must be made to address avoidable inequalities and injustices.

Senate Resolution No. 60, S.D. 1, Regular Session of 2014, created a Native Hawaiian health task force, to specifically improve the health of Native Hawaiians with implications for other Pacific Islanders and all people of Hawai’i by focusing on health inequities that are preventable and avoidable. The goal of the task force was to articulate priority areas that will help to advance health equity for Native Hawaiians, and in turn, the health of Hawai’i’s entire population. The framework and recommendations by the task force discussed were embraced by community members, agencies, government, and individuals in addition to those who view themselves as native-serving institutions. This work was community- and land-focused and emphasized Native Hawaiian values and aspirations.

Your Committee has amended this measure by:

- (1) Changing the name of the council to the Native Hawaiian Health Advisory Council;
- (2) Establishing the Council permanently and changing the administrative placement of the Council to the Office of Health Equity of the Department of Health;
- (3) Specifying that the Office of Health Equity of the Department of Health shall be responsible for selecting all members of the Native Hawaiian Health Advisory Council, except the two members representing the general community;
- (4) Designating the Chair of the Department of Native Hawaiian Health of the John A. Burns School of Medicine, or the Chair’s designee, and the Chief Executive Officer of the Office of Hawaiian Affairs, or the Chief Executive Officer’s designee, as ex officio, nonvoting members of the Native Hawaiian Health Advisory Council;
- (5) Changing the legislator members of the Council; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1304, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1304, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (English, Kim).

SCRep. 395 (Joint) Economic Development, Tourism, and Technology and Public Safety, Intergovernmental, and Military Affairs on S.B. No. 704

The purpose and intent of this measure is to establish and appropriate funds for an online vacation rental working group to develop effective data collection methods that can assist state and county governments in monitoring the impact that short-term vacation rentals have on tax collection, housing stock, and the State's brand as a vacation destination.

Your Committees received testimony in support of this measure from the Department of Business, Economic Development, and Tourism; Department of Planning and Permitting of the City and County of Honolulu; Rental by Owner Awareness Association; and six individuals. Your Committees received comments on this measure from the Department of Taxation; Airbnb; and Hawai'i Association of REALTORS.

Your Committees find that there are currently more than forty online platforms that facilitate thousands of short-term rentals ranging from rental opportunities for single rooms to entire homes and villas. Your Committees find that an online vacation rental working group will help develop effective data collection methods that can assist state and county governments in monitoring the impact that short-term vacation rentals have in the State.

Your Committees have amended this measure by:

- (1) Adding a member to the online vacation rental working group from the Hawaii Association of REALTORS; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Economic Development, Tourism, and Technology and Public Safety, Intergovernmental, and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 704, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 704, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
Economic Development, Tourism, and Technology: Ayes, 4. Noes, none. Excused, 1 (Thielen).
Public Safety, Intergovernmental, and Military Affairs: Ayes, 3. Noes, none. Excused, 2 (Ihara, Thielen).

SCRep. 396 (Joint) Economic Development, Tourism, and Technology and Public Safety, Intergovernmental, and Military Affairs on S.B. No. 1201

The purpose and intent of this measure is to facilitate the deployment of high-speed broadband infrastructure in Hawaii, including wireless facilities, by:

- (1) Establishing limits on the State's and counties' authority to prohibit, regulate, or charge for the co-location of small wireless facilities or small wireless facilities networks;
- (2) Specifying certain sites where small wireless facilities or small wireless facilities networks may be located, including conditions and maximum fees for location and co-location; and
- (3) Establishing an application process for co-location.

Your Committees received testimony in support of this measure from the Department of Business, Economic Development, and Tourism; State of Hawaii, Office of Planning; AT&T; CTIA; Mobilitie; and Sprint. Your Committees received testimony in opposition to this measure from Hawaiian Telcom. Your Committees received comments on this measure from the Department of Commerce and Consumer Affairs, Cable Television Division; and Hawaiian Electric Company, Inc.

Your Committees find that broadband technology is now a critical part of infrastructure and that it is important to facilitate the deployment of high-speed broadband technology for the future global connectivity and economic viability of the State. Broadband technology is essential across multi-sector industries and provides for enhanced educational opportunities, expansion of telehealth capacity, strengthening safety and civil defense communications, increasing economic competitiveness, addressing consumer privileges, and providing tourism services. Your Committees find that this measure will support economic development and innovation in the State related to the increased demand for broadband connectivity.

Your Committees have amended this measure to:

- (1) Establish the rate produced by applying the formula adopted by the Federal Communications Commission for telecommunication pole attachments in 47 C.F.R. 1.1409(e)(2) as the maximum rate for co-location of a small wireless facility on state or county structures, utility poles, or light standards located within all public rights-of-way and property, rural or agricultural district lands, and urban district lands;
- (2) Specify that if the Federal Communications Commission adopts a rate formula for small wireless facility attachments, that adopted rate shall apply; and
- (3) Make technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Economic Development, Tourism, and Technology and Public Safety, Intergovernmental, and Military Affairs that are attached to this report, your Committees are in accord with the intent

and purpose of S.B. No. 1201, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1201, S.D. 1, and be referred to your Committees on Commerce, Consumer Protection, and Health and Ways and Means.

Signed by the Chairs on behalf of the Committees.

Economic Development, Tourism, and Technology: Ayes, 4. Noes, none. Excused, 1 (Baker).

Public Safety, Intergovernmental, and Military Affairs: Ayes, 3. Noes, none. Excused, 2 (Baker, Ihara).

SCRep. 397 Economic Development, Tourism, and Technology on S.B. No. 910

The purpose and intent of this measure is to replace the Department of Business, Economic Development, and Tourism's requirements associated with the certification, administration, and verification of the renewable fuels production tax credit with a survey of the renewable fuels production tax credit.

Your Committee received testimony in support of this measure from the Department of Business, Economic Development, and Tourism; Department of Taxation; Tax Foundation of Hawaii; and one individual.

Your Committee finds that the Department of Business, Economic Development, and Tourism lacks the resources and expertise required to effectively conduct the certification, verification, and administration requirements of the renewable fuels production tax credit. Your Committee further finds that this measure will align the department's existing resources and expertise with statutory requirements while still providing collection data about the tax credit's effectiveness.

Your Committee has amended this measure by:

- (1) Specifying that taxpayers claiming the credit are required to pay for any costs related to obtaining the certification; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Economic Development, Tourism, and Technology that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 910, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 910, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Baker, Thielen).

SCRep. 398 Economic Development, Tourism, and Technology on S.B. No. 767

The purpose and intent of this measure is to establish the High-Growth Grant Program within the Department of Business, Economic Development, and Tourism to assist qualified businesses by providing grants for specific business development purposes.

Your Committee received testimony in support of this measure from the Department of Business, Economic Development, and Tourism; High Technology Development Corporation; Chamber of Commerce Hawaii; Maui Chamber of Commerce; and Hawaii Farm Bureau. Your Committee received comments on this measure from the Department of Budget and Finance.

Your Committee finds that diversifying the economy is critical to the future of the State. Your Committee further finds that the grants provided by this measure would allow qualified business to expand business operations, improve business productivity, and invest in food safety or quality control programs.

Your Committee has amended this measure by lowering the maximum grant amount under the High-Growth Grant Program from forty percent to twenty percent of the amount a qualified business privately invests in another business.

As affirmed by the record of votes of the members of your Committee on Economic Development, Tourism, and Technology that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 767, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 767, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3; Ayes with Reservations (Taniguchi). Noes, none. Excused, 2 (Baker, Thielen).

SCRep. 399 Economic Development, Tourism, and Technology on S.B. No. 1221

The purpose and intent of this measure is to ensure the continued viability of the State's sea salt manufacturing industry by addressing the Food and Drug Administration's industry guidance on the use of color additives in sea salt products.

Your Committee received testimony in support of this measure from the Department of Business, Economic Development, and Tourism; Sea Salts of Hawai'i; Hawaii Kai Corporation; and one individual.

Your Committee finds that the Department of Business, Economic Development, and Tourism will need professional and knowledgeable assistance to address the complex issue of the Food and Drug Administration's industry guidelines pertaining to color additives in sea salt products. Your Committee finds that Hawaiian sea salts are very popular in Hawaii and around the world. Your Committee further finds that local companies selling Hawaiian sea salts need support to address the federal guidelines to be able to continue selling their products locally and abroad.

Your Committee has amended this measure by deleting all specific dollar amounts in the appropriation sections.

As affirmed by the record of votes of the members of your Committee on Economic Development, Tourism, and Technology that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1221, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1221, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3; Ayes with Reservations (Taniguchi). Noes, none. Excused, 2 (Baker, Thielen).

SCRep. 400 Economic Development, Tourism, and Technology on S.B. No. 908

The purpose and intent of this measure is to provide greater clarity and effect to the Small Business Regulatory Flexibility Act.

Your Committee received testimony in support of this measure from the Department of Business, Economic Development, and Tourism; Small Business Regulatory Review Board; Chamber of Commerce Hawaii; Hawaii Business League; Ocean Tourism Coalition; and one individual. Your Committee received comments on this measure from the Department of Taxation and Hawaii Farm Bureau.

Your Committee finds that the Small Business Regulatory Review Board provides oversight, guidance, and advocacy regarding regulations impacting small business in the State. Your Committee finds that increasing the number of board members from nine to eleven is intended to alleviate quorum problems. Your Committee further finds that adopting a more explicit definition of “small business” clarifies the powers of the Small Business Regulatory Review Board.

As affirmed by the record of votes of the members of your Committee on Economic Development, Tourism, and Technology that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 908 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Baker, Thielen).

SCRep. 401 Economic Development, Tourism, and Technology on S.B. No. 900

The purpose and intent of this measure is to:

- (1) Amend the qualifications for Hawaii Community-Based Economic Development Technical and Financial Assistance Program (Program) grants to include technical assistance to community-based organizations; and
- (2) Reduce the number of Community-Based Economic Development Advisory Council members from twelve to ten.

Your Committee received testimony in support of this measure from the Department of Business, Economic Development, and Tourism; and the Hawai‘i Alliance for Community-Based Economic Development.

Your Committee finds that this measure will help the Program assist more community-based organizations that serve distressed areas of the State. Your Committee further finds that the Community-Based Economic Development Advisory Council faces difficulty in meeting due to lack of quorum and that lowering the number of advisory council members from twelve to ten will make it easier to schedule meetings and take official action.

As affirmed by the record of votes of the members of your Committee on Economic Development, Tourism, and Technology that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 900 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Baker, Thielen).

SCRep. 402 (Joint) Hawaiian Affairs and Higher Education on S.B. No. 560

The purpose and intent of this measure is to appropriate funds to the University of Hawai‘i to translate the Hawai‘i State Constitution into the Hawaiian language.

Your Committees received testimony in support of this measure from the University of Hawaii System; Kūamahi Community Education Group of Kamehameha Schools; and fifteen individuals.

Your Committees find that article X, section 4, of the Hawai‘i State Constitution provides in pertinent part, “The State shall promote the study of Hawaiian culture, history and language.” In addition, article XV, section 4, of the Hawai‘i State Constitution establishes Hawaiian as one of two official languages of the State of Hawai‘i. The legislature further finds that the Hawai‘i State Constitution is officially published only in English.

Your Committees further find that this measure is a positive step in the continued revitalization of the Hawaiian language. According to testimony of the University of Hawai‘i, its College of Hawaiian Language, Ka Haka ‘Ula O Ke‘elikōlani, has the expertise and capacity to provide translation of the state constitution.

As affirmed by the records of votes of the members of your Committees on Hawaiian Affairs and Higher Education that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 560 and recommend that it pass Second Reading and be referred to your Committees on Judiciary and Labor and Ways and Means.

Signed by the Chairs on behalf of the Committees.

Hawaiian Affairs: Ayes, 3. Noes, none. Excused, 2 (Green, Kim).

Higher Education: Ayes, 3. Noes, none. Excused, 2 (Espero, Taniguchi).

SCRep. 403 (Joint) Hawaiian Affairs and Higher Education on S.B. No. 1294

The purpose and intent of this measure is to develop an undergraduate health sciences academy within the University of Hawai‘i System, in cooperation with relevant educational institutions, to target the recruitment and retention of Native Hawaiian and Pacific Islander students and first generation college attendees.

Your Committees received testimony in support of this measure from the University of Hawai'i System; Department of Human Services; UH West Oahu Allied Health Faculty; Native Hawaiian Health Task Force; Kamehameha Schools; and numerous individuals.

Your Committees find that multiple studies testing for factors leading to retention have identified that the more Native Hawaiian students are involved in school activities and the more interaction they have with faculty and their peers, the more likely they are to persevere and succeed in their higher education.

Your Committees further find that health care sector employment is projected to increase by more than one hundred sixty percent by 2040, and the wages in that sector are typically more consistent with a livable wage in Hawaii. These jobs typically require a bachelor's degree at minimum. Currently only about fifteen percent of Native Hawaiians or Pacific Islanders hold bachelor's degrees.

Senate Resolution No. 60, S.D. 1, Regular Session of 2014, created the Native Hawaiian health task force to improve the health of Native Hawaiians and Pacific Islanders. The goal of the task force is to articulate priorities to advance health care equity for Native Hawaiians which would in turn improve health care for all people of Hawaii. The findings for establishment of a framework were widely discussed and embraced by government agencies, community members, and affected stakeholders. The work of the task force recognized past efforts to improve the health of Native Hawaiians. The task force used nā pou kihi as the cultural framework to organize its findings and recommendations. This measure is an outcome of the recommendations of the task force.

Your Committees further find that establishment of a health sciences academy with a focus on Native Hawaiian student retention would promote integration of students into the academic college milieu. This measure reflects the position of the Senate on Native Hawaiian health care, which is to support:

- (1) Collaborative efforts to ensure that funding for Native Hawaiian health care continues;
- (2) Native Hawaiians and Pacific Islanders by focusing on essential social and cultural determinants that improve health outcomes amongst the State's indigenous population;
- (3) Options to improve health care for keiki and residents in rural areas; and
- (4) Collaborative efforts to provide better dental care for keiki and adults throughout the State's communities.

As affirmed by the records of votes of the members of your Committees on Hawaiian Affairs and Higher Education that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1294 and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Hawaiian Affairs: Ayes, 3. Noes, none. Excused, 2 (Green, Kim).

Higher Education: Ayes, 3. Noes, none. Excused, 2 (Espero, Taniguchi).

SCRep. 404 Education on S.B. No. 553

The purpose and intent of this measure is to:

- (1) Require remote schools to be allocated funds using categorical allotments, rather than through the weighted student formula;
- (2) Define a remote school as any public school that is a high school located at least a one-hour drive away from the next nearest high school, or a high school located on the island of Lanai, Molokai, or Niihau; and
- (3) Specify the minimum number of teachers for Hana High and Elementary School.

Your Committee received testimony in support of this measure from the Hawaii State Teachers Association, Education Caucus of the Democratic Party of Hawaii, and three individuals. Your Committee received comments on this measure from the Department of Education.

Your Committee finds that the weighted student formula was intended to make funding for public education more equitable, transparent, and decentralized. Your Committee further finds that the weighted student formula has had the unintended consequence of limiting academic programming for children in small and rural schools because such schools have additional logistical constraints due to their sizes and remote locations that the formula does not take into account. Your Committee additionally finds that this limiting effect is especially severe at Hana High and Elementary School. This measure will ensure that small and remote schools are given the level of resources that they require rather than the insufficient resources that they might receive under the weighted student formula alone.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 553 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Dela Cruz, Riviere).

SCRep. 405 Education on S.B. No. 496

The purpose and intent of this measure is to require the Department of Education to provide training on social and emotional learning to all youth-serving educators, health care professionals and counselors, agencies and programs, and parents of students enrolled in public schools or public charter schools.

Your Committee received testimony in support of this measure from the State Council on Developmental Disabilities, Special Education Advisory Council, Hawaii Youth Services Network, Community Children's Council of Hawaii, Early Childhood Action Strategy, IMUAlliance, and one individual. Your Committee received comments on this measure from the Department of Education.

Your Committee finds that the development of social and emotional skills is vital to the success of Hawaii's students. Your Committee further finds that training on social and emotional learning will help educators and other professionals within the State's public schools and public charter schools to create a safe and civil environment for students and reduce bullying, cyberbullying, and other disruptive or harmful behavior. This measure will ensure that Hawaii's education professionals are equipped to provide social and emotional skill learning services to their students.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 496 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Dela Cruz, Riviere).

SCRep. 406 Education on S.B. No. 836

The purpose and intent of this measure is to:

- (1) Allow the Department of Education to offer voluntary training for teachers and educational officers on sex trafficking prevention; and
- (2) Require the Department to provide explanatory information about sex trafficking prevention and response to teachers and educational officers.

Your Committee received testimony in support of this measure from the Department of Education, Hawaii State Teachers Association, UNITE, and IMUAlliance.

Your Committee finds that schools are one of the main social institutions outside of the family in which children have constant contact with adults and their peers. Your Committee further finds that regular, prolonged interaction with students in the classroom provides teachers with an excellent opportunity to identify the warning signs that a student might be at risk of sex trafficking or exploitation. This measure will equip teachers and educational officers with resources to help prevent sex trafficking and respond to the risk that sex trafficking poses to Hawaii's students.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 836 and recommends that it pass Second Reading and be referred to your Committees on Ways and Means and Judiciary and Labor.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Dela Cruz, Riviere).

SCRep. 407 Education on S.B. No. 466

The purpose and intent of this measure is to require the Legislative Reference Bureau to conduct a study of the non-facility general fund per-pupil funding system for public charter schools, to determine whether the system fulfills its statutory purpose of equalizing operational funding among the State's public schools.

Your Committee received testimony in support of this measure from the Office of Hawaiian Affairs, State Public Charter School Commission, Hawaii State Teachers Association, Hawaii Public Charter School Network, Kamehameha Schools, Hālaū Kū Māna Public Charter School, Kona Pacific Public Charter School, IMUAlliance, and twenty-one individuals. Your Committee received comments on this measure from the Legislative Reference Bureau.

Your Committee finds that public charter schools in Hawaii receive a majority of their funding through a general per-pupil allotment. Your Committee further finds that the per-pupil allotment is intended to provide equal funding to public charter schools as compared to Department of Education schools. Your Committee additionally finds that questions have been raised regarding whether or not the per-pupil allotment achieves its purpose of providing equal funding, and whether a disparity in per-pupil funding exists. This measure will mandate a study, conducted by the Legislative Reference Bureau, to assess whether the per-pupil allotment system provides for equal operational funding for public charter schools as compared to Department of Education schools.

Your Committee has amended this measure by:

- (1) Requiring the Department of Education and the State Public Charter School Commission to jointly designate the data that the Department and Commission will provide to the Legislative Reference Bureau;
- (2) Exempting fringe benefit costs from the study;
- (3) Authorizing the Legislative Reference Bureau to enter contracts for services, exempt from the requirements of chapter 103D, Hawaii Revised Statutes, to conduct the study;
- (4) Adding language appropriating \$50,000 to the Legislative Reference Bureau to contract for services to conduct the study; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 466, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 466, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Dela Cruz, Riviere).

SCRep. 408 Education on S.B. No. 193

The purpose and intent of this measure is to require the Department of Education to develop a program to provide cardiopulmonary resuscitation instruction to students as part of the high school health or physical education curriculum.

Your Committee received testimony in support of this measure from the Department of Education, American Heart Association, Hawaii Public Health Institute, Hawaii Pacific Health, and four individuals.

Your Committee finds that sudden cardiac arrest is a leading cause of death in the United States. Your Committee further finds that during sudden cardiac arrest, the heart cannot pump blood through the body, and irreversible brain damage or death frequently result because emergency response teams cannot reach the victim in time. Your Committee additionally finds that cardiopulmonary resuscitation is a technique that can extend the window of time for help to arrive. Your Committee also finds that many sudden cardiac arrests occur in the home, at school, or in public places, and that many victims' lives could potentially be saved if people near the victim were proficient in cardiopulmonary resuscitation. This measure will equip Hawaii's students with developing proficiency in a potentially lifesaving skill that can be utilized throughout their lifetime and result in a greater percentage of people surviving from a sudden cardiac arrest.

Your Committee has amended this measure by making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 193, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 193, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Dela Cruz, Riviere).

SCRep. 409 Education on S.B. No. 510

The purpose and intent of this measure is to:

- (1) Formally establish the Hawaii keiki: health and ready to learn program within the Department of Education; and
- (2) Appropriate \$4,000,000 to expand and sustain the program.

Your Committee received testimony in support of this measure from the Department of Education, Executive Office on Early Learning, University of Hawai'i System, Hawaii State Center for Nursing, State Public Charter School Commission, Hawaii State Teachers Association, Hawaii Medical Service Association, Hui for Excellence in Education, Hawaii Pacific Health, Healthcare Association of Hawaii, Lanai Community Health Center, American Diabetes Association, Kapiolani Child Protection Center, IMUAlliance, Project Vision Hawaii, Hawaii Children's Action Network, and fifteen individuals. Your Committee received testimony in opposition to this measure from the American Academy of Pediatrics and one individual. Your Committee received comments on this measure from the Department of Human Services, Department of Health, Hawaii Public Health Institute, Coalition for Children with Special Needs, and Special Education Advisory Council.

Your Committee finds that the Hawaii keiki: healthy and ready to learn program has expanded access to health services for many of the State's students. Your Committee further finds that the partnerships that the Department of Education has formed with other state and private entities have created a foundation upon which an expanded program may be built. Your Committee additionally finds that an expanded program will be able to offer services in new areas of healthcare that students have not previously had access to in Hawaii's schools. This measure will formally establish and expand the Hawaii keiki: healthy and ready to learn program to offer improved access to healthcare to Hawaii's students.

Your Committee has amended this measure by:

- (1) Requiring the Department of Education to collaborate with the University of Hawaii at Manoa School of Nursing and Dental Hygiene in addition to the Department of Health and the Department of Human Services;
- (2) Adding an appropriation of \$500,000 for a vision screening and eye assessment tool appropriate for children in kindergarten through grade twelve; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 510, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 510, S.D. 1, and be referred to your Committees on Commerce, Consumer Protection, and Health and Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Dela Cruz, Riviere).

SCRep. 410 (Joint) Higher Education and Human Services on S.B. No. 529

The purpose and intent of this measure is to support the University of Hawaii's Center on Aging by appropriating funds for an associate professor position and an associate specialist position within the Center on Aging.

Your Committees received testimony in support of this measure from the University of Hawai'i at Mānoa Myron B. Thompson School of Social Work; Policy Advisory Board for Elder Affairs; Maui County Office on Aging; AARP Hawaii; Hawai'i Family Caregiver Coalition; Kāhala Senior Living Community, Inc.; and eight individuals.

Your Committees find that Hawaii's aging population is growing at a faster rate than the rest of the nation, and seniors in Hawaii have the highest life expectancy in the country. Your Committees further find that gerontological education and workforce development are crucial to prepare for the aging population and address the needs of the State's kupuna. Your Committees note that the University of Hawaii Center on Aging plays a critical role in the State's aging network by working with government and service providers to offer education, consultation, research, and program development and evaluation.

Your Committees have amended this measure by:

- (1) Inserting an effective date of May 12, 2059, to encourage further discussion; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Higher Education and Human Services that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 529, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 529, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Higher Education: Ayes, 3. Noes, none. Excused, 2 (Espero, Keith-Agaran).

Human Services: Ayes, 3. Noes, none. Excused, 2 (Tokuda, Wakai).

SCRep. 411 (Joint) Higher Education and Commerce, Consumer Protection, and Health on S.B. No. 141

The purpose and intent of this measure is to support physician workforce assessment and planning to assist with the strategic recruitment and retention of physicians for rural and medically underserved areas of Hawaii by allowing the University of Hawaii John A. Burns School of Medicine to continue to receive a portion of the physician workforce assessment fee.

Your Committees received testimony in support of this measure from the University of Hawai'i System, 'Ohana Health Plan, AlohaCare, Lanai Community Health Center, The Queen's Health Systems, Hawaii Medical Association, Hawai'i Academy of Family Physicians, and eleven individuals. Your Committees received comments on this measure from the Hawaii Medical Board.

Your Committees find that Hawaii has a shortage of over five hundred doctors. In addition to this shortage, Hawaii has the fifth oldest physician workforce in the country. Your Committees find that access to quality healthcare requires supporting the recruitment and retention of healthcare professionals, especially in rural and medically underserved areas such as many areas throughout the neighbor islands.

Your Committees note the worthwhile efforts that the physician workforce assessment project has assisted with in recent years, including malpractice reform, continuing education, loan repayment to physicians working in areas of need, and advertising of all open positions in Hawaii to graduates in healthcare professions. Future efforts of the program include state-matched loan relief to new providers in the areas of highest unmet need, promotion of Hawaii careers at mainland conferences, providing bonuses for providers practicing in underserved areas, and the formation of an office of rural training to promote practice in underserved areas. Your Committees find that funding from the physician workforce assessment fee will allow Hawaii to act quickly with concrete solutions to adequately address the physician workforce shortage in the State.

Your Committees have amended this measure by:

- (1) Inserting a sunset date that allows the University of Hawaii John A. Burns School of Medicine to continue receiving a portion of the physician workforce assessment fee until June 30, 2022; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Higher Education and Commerce, Consumer Protection, and Health that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 141, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 141, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Higher Education: Ayes, 5. Noes, none. Excused, none.

Commerce, Consumer Protection, and Health: Ayes, 5. Noes, none. Excused, 2 (Ihara, Nishihara).

SCRep. 412 Higher Education on S.B. No. 1317

The purpose and intent of this measure is to support the Academy for Creative Media at the University of Hawaii at Manoa by appropriating funds for the renovations of soundstages and studio spaces within the facility at 2350 Dole Street, Honolulu, Oahu, for use by the Academy for Creative Media.

Your Committee received testimony in support of this measure from the Academy for Creative Media at the University of Hawai'i at Manoa; Screen Actors Guild-American Federation of Television and Radio Artists, Hawaii Local; International Alliance of Theatrical Stage Employees, Moving Picture Technicians, Artists and Allied Crafts, Local 665; Musicians' Association of Hawai'i, Local 677; Teamsters Local 996; Island Film Group; and eighty individuals. Your Committee also received a petition and statement of support of this measure signed by a few hundred individuals. Your Committee received testimony in opposition to this measure from the University of Hawai'i System.

Your Committee finds that the Academy for Creative Media was first established at the University of Hawaii at Manoa as the State's first film school. Your Committee further finds that a modern and thriving film school is valuable to the State because it encourages Hawaii's creative youth to remain in the State and attracts others to pursue higher education in Hawaii, which benefits the State's film and media industries.

Your Committee appreciates the numerous students and individuals that testified on this measure. Your Committee finds that the Academy for Creative Media is a successful program with remarkable passion and pride expressed by current and former students and faculty, as well as by the community. Your Committee acknowledges that the program is constrained by the temporary facilities in which it resides, and that it needs a permanent home with adequate amenities to thrive as a twenty-first century media program and a research-one education program.

Your Committee heard testimony from the University of Hawaii System about the current condition of the former PBS building located at 2350 Dole Street, Honolulu, Oahu, and the evaluation currently taking place to determine whether this facility is an appropriate home for the Academy for Creative Media. Your Committee appreciates that the University must balance its financial resources and assess the system-wide needs for capital improvements, but also wants to ensure that the Dole Street facility is given proper consideration as a much-needed space for the Academy for Creative Media program.

Accordingly, your Committee has amended this measure by:

- (1) Inserting a blank appropriation amount;
- (2) Inserting an effective date of May 12, 2059, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Higher Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1317, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1317, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Keith-Agaran, Kidani).

SCRep. 413 Higher Education on S.B. No. 1040

The purpose and intent of this measure is to require the University of Hawaii System to develop an academic and facilities master plan for all campuses.

Your Committee received testimony in support of this measure from one individual. Your Committee received testimony in opposition to this measure from the Hawaii Educational Policy Center. Your Committee received comments on this measure from the University of Hawai'i System.

Your Committee finds that long-term campus planning is vital to the creation of a cohesive higher education learning environment. Your Committee further finds that the University of Hawaii has not updated its long range development plan since 2007. Your Committee additionally finds that an update to the University of Hawaii's long range development plan could be beneficial, but your Committee does recognize the significant areas of concern that have been raised about this measure.

As such, your Committee has amended this measure by:

- (1) Inserting an effective date of May 12, 2059, to encourage further discussion; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Higher Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1040, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1040, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Keith-Agaran, Kidani).

SCRep. 414 Higher Education on S.B. No. 1081

The purpose and intent of this measure is to provide a state income tax deduction of up to \$5,000 per year for student loan interest paid on qualified educational loans.

Your Committee received testimony in support of this measure from three individuals. Your Committee received comments on this measure from the Department of Taxation and Tax Foundation of Hawaii.

Your Committee finds that the costs associated with postsecondary education often forces students to go into debt. Student debt has increasingly become a burden on individuals and families. This measure will encourage Hawaii residents to pursue postsecondary education by establishing an income tax deduction for qualifying student loan interest payments. Your Committee further finds that the State already offers deductions for student loan interest, and notes that the income tax deduction provided in this measure will be in addition to existing deductions.

Your Committee has amended this measure by:

- (1) Adding language clarifying that the income tax deduction in this measure is in addition to any other deduction provided by chapter 235, Hawaii Revised Statutes;
- (2) Inserting an effective date of May 12, 2059, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Higher Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1081, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1081, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Keith-Agaran, Kidani).

SCRep. 415 Agriculture and Environment on S.B. No. 29

The purpose and intent of this measure is to establish buffer zones against pesticide use around sensitive areas.

Your Committee received testimony in support of this measure from the Kauai Joint Fact Finding Group; Green Party of Hawaii; Democratic Party of Hawai'i; Hawaii Island School Garden Network; League of Women Voters of Hawaii; Sustainable Coastlines Hawaii; SHAKA Movement; SAFE Action Fund; Pesticide Action Network North America; Hawai'i Alliance for Progressive Action; Western Plant Health Association; 'Ohana o Kaua'i; EcoTipping Points Project; Hawai'i Center for Food Safety; Hawaii Nurses Association, OPEIU Local 50; Americans for Democratic Action; Environmental Caucus of the Democratic Party of Hawai'i; Education Caucus of the Democratic Party of Hawai'i; Sustainable Action for Environment; We Are One, Inc.; and three hundred eighty-one individuals. Your Committee received testimony in opposition to this measure from the Hawaii Crop Improvement Association; Hawai'i Farm Bureau; CropLife America; Chamber of Commerce Hawaii; Hawaii Cattlemen's Council, Inc.; DuPont Pioneer; Ponoholo Ranch, Limited; Alexander & Baldwin, Inc.; and one hundred thirty-three individuals. Your Committee received comments on this measure from the Department of Agriculture and three individuals.

Your Committee finds that many residents in the State are very concerned about the long-term health effects and potential impacts of pesticide drift, especially as the number of large-scale, outdoor, commercial agricultural operations in the State continues to increase. Your Committee supports efforts to increase common sense regulation of pesticide use in the State and is aware that pesticide use is necessary for the modern-day farmer to keep pests at bay. Your Committee does not wish to impede farmers who are working hard to increase local food production; however, your Committee believes that protecting Hawaii's youth and seniors in highly sensitive areas, like schools, hospitals, day care facilities, and nursing homes, from the potential negative effects of long-term pesticide exposure and protecting streams from possible pesticide run-off are of the utmost importance.

Your Committee has amended this measure by:

- (1) Requiring that, within 18 months of the effective date, the Department of Agriculture, based on input from the Advisory Committee on Pesticides, adopts rules that determine the amounts, distances, and wind speeds relating to pesticide use and buffer zones that are currently blank in this measure; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 29, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 29, S.D. 1, and be referred to your Committees on Commerce, Consumer Protection, and Health and Judiciary and Labor.

Signed by the Chair on behalf of the Committee.
Ayes, 3; Ayes with Reservations (Riviere). Noes, none. Excused, 2 (Nishihara, Rhoads).

SCRep. 416 Commerce, Consumer Protection, and Health on S.B. No. 1235

The purpose and intent of this measure is to:

- (1) Appropriate funds as a grant to Hāna Health to continue Hāna Health's ability to meet the ongoing needs of the isolated Hāna community;
- (2) Appropriate funds as a grant to the Waianae Coast Comprehensive Health Center to assist with the operation of its twenty-four-hour emergency medical room to continue to serve the residents of the Waianae coast; and
- (3) Require funding for Hāna Health and the Waianae Coast Comprehensive Health Center's emergency services to be included in the Department of Health's base budget beginning with the 2018-2019 fiscal year.

Your Committee received testimony in support of this measure from the Hawaii Primary Care Association, Hawaii College of Emergency Physicians, Waianae Coast Comprehensive Health Center, Hawaii Dental Hygienist's Association, Hāna Health, and twelve individuals. Your Committee received comments on this measure from the Department of Health.

Your Committee finds that Hāna Health's twenty-four-hour emergency medical services programs and the Waianae Coast Comprehensive Health Center provide essential emergency medical services to their respective communities. Furthermore, these facilities are linked to the state emergency medical service system and the state plan for disaster response. Therefore, it is essential that a long term funding option is made available to these facilities to ensure the continued stability of the provision of emergency services by these providers.

Your Committee has amended this measure by:

- (1) Blanking out the amount appropriated as a grant to support Hāna Health for fiscal year 2017-2018;
- (2) Blanking out the amount appropriated as a grant to the Waianae Coast Comprehensive Health Center for operation of its twenty-four-hour emergency room for fiscal year 2017-2018; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

Your Committee would like to note that the original appropriation amounts inserted in this measure to support Hāna Health and the Waianae Coast Comprehensive Health Center were \$1,500,000 and \$1,925,000, respectively, and requests that your Committee on Ways and Means takes into consideration these figures during its deliberation.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1235, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1235, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 2 (Ihara, Ruderman).

SCRep. 417 (Joint/Majority) Commerce, Consumer Protection, and Health and Judiciary and Labor on S.B. No. 977

The purpose and intent of this measure is to abolish the Hawaii Health Authority, which was created for overall health planning for the State and to develop a comprehensive plan to provide universal health care in Hawaii.

Your Committees received testimony in support of this measure from the Department of Health and Department of Human Services. Your Committees received testimony in opposition to this measure from the Americans for Democratic Action Hawai'i; We are One, Inc.; Community Coalition for Hawaii Universal Healthcare Through Comprehensive Planning; Healthcare for All Hawaii; Democratic Party of Hawai'i; and forty-eight individuals. Your Committees received comments on this measure from the Department of Budget and Finance.

Your Committees find that the Hawaii Health Authority was established in 2009 to be responsible for overall health planning for the State and to develop a comprehensive plan to provide universal health care in Hawaii. However, the State Health Planning and Development Agency and the Health Care Innovation Office also conduct comprehensive health planning activities. As the private health care sector continues to evolve in response to federal policy changes, new business models, and emerging technologies, abolishing the Hawaii Health Authority moves the State toward more efficient and streamlined health planning and policy management. Your Committees further acknowledge the concerns and reservations raised by members of your Committees during the hearing, however, your Committees feel strongly that the purpose of this measure is important for the health sector of our State and is worthy of further consideration, thus your Committees hope that a strong consensus of the members can be achieved as this measure moves through the legislative process.

As affirmed by the records of votes of the members of your Committees on Commerce, Consumer Protection, and Health and Judiciary and Labor that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 977 and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
Commerce, Consumer Protection, and Health: Ayes, 4; Ayes with Reservations (Espero, Nishihara). Noes, 1 (Ruderman).
Excused, 2 (Ihara, Kidani).
Judiciary and Labor: Ayes, 4; Ayes with Reservations (Rhoads). Noes, none. Excused, 1 (Gabbard).

SCRep. 418 Commerce, Consumer Protection, and Health on S.B. No. 946

The purpose and intent of this measure is to update the existing authority of the Department of Commerce and Consumer Affairs to adjust licensing fees, subject to the approval of the Governor, to include:

- (1) Six licensing regulatory areas that are currently not referenced in section 92-28, Hawaii Revised Statutes; and
- (2) All future licensing regulatory areas specifically and statutorily assigned to the Department of Commerce and Consumer Affairs.

Your Committee received testimony in support of this measure from the Professional and Vocational Licensing Division of the Department of Commerce and Consumer Affairs and Hawaii Chapter of the American Physical Therapy Association.

Your Committee finds that since 2007, six new licensing areas have been added to the Professional and Vocational Licensing Division of the Department of Commerce and Consumer Affairs for regulation. These new licensing areas include athletic trainers, behavior analysts, mixed martial arts, respiratory therapists, uniform athlete agents, and veterinary technicians. By authorizing the Department to adjust licensing fees for these licensing areas and any future licensing regulatory areas assigned to the Department, the Department will be able to increase or decrease fees for all licensees across professional and vocational areas under its jurisdiction. Your Committee notes that this measure merely updates the statutes to include the new and potential future licensing areas and does not establish new fees.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 946 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 1 (Ihara).

SCRep. 419 (Joint) Economic Development, Tourism, and Technology and Water and Land and Public Safety, Intergovernmental, and Military Affairs on S.B. No. 703

The purpose and intent of this measure is to use an objective formula to appropriate funds for the protection and enhancement of the State's infrastructure and natural resources.

Your Committees received testimony in support of this measure from the Department of Land and Natural Resources, Conservation Council for Hawai'i, Hawai'i Lodging & Tourism Association; Malama Pupukeya-Waimea, and eighteen individuals. Your Committees received comments on this measure from the Department of Budget and Finance, Hawaii Tourism Authority, and County of Hawaii.

Your Committees find it crucial to support the State's infrastructure and natural resources, which attract millions of tourists but also sustain heavy impacts, by allocating funds to further protect and enhance the State's infrastructure and natural resources. With the

steady rise of visitors to the State in recent years, your Committees find it important to ensure support to manage and maintain state parks, beaches, and other natural resources.

Your Committees have amended this measure by:

- (1) Removing all language allocating portions of the Hawaii Tourism Authority's budget to support the Department of Land and Natural Resources or to support the counties;
- (2) Allocating two percent of the transient accommodations tax to the special land and development fund for the management, maintenance, and development of trails and trail access, state parks, beaches, and other natural resources;
- (3) Changing the effective date to July 1, 2017; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Economic Development, Tourism, and Technology, Water and Land, and Public Safety, Intergovernmental, and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 703, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 703, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Economic Development, Tourism, and Technology: Ayes, 4. Noes, none. Excused, 1 (Thielen).

Water and Land: Ayes, 3. Noes, none. Excused, 2 (Gabbard, Thielen).

Public Safety, Intergovernmental, and Military Affairs: Ayes, 3. Noes, none. Excused, 2 (Ihara, Thielen).

SCRep. 420 (Joint) Hawaiian Affairs and International Affairs and the Arts on S.B. No. 601

The purpose and intent of this measure is to:

- (1) Amend the membership, mission, and purpose of the King Kamehameha Celebration Commission;
- (2) Authorize the Chairperson of the King Kamehameha Celebration Commission to appoint an advisory committee for historical and archival matters;
- (3) Authorize the King Kamehameha Celebration Commission to appoint an Executive Director;
- (4) Establish the King Kamehameha celebration special fund; and
- (5) Appropriate funds for expenses arising out of the annual King Kamehameha Day celebration events.

Your Committees received testimony in support of this measure from the Makaha Hawaiian Civic Club, Ali'i Pauahi Hawaiian Civic Club; Hawaiian Affairs Caucus of the Democratic Party of Hawai'i; O'ahu Council of the Association of Hawaiian Civic Clubs; Ke One O Kākūhihewa, O'ahu Council of the Association of Hawaiian Civic Clubs; Waimānalo Hawaiian Homes Association; and twelve individuals. Your Committees received comments on this measure from the Department of Budget and Finance.

Your Committees find that King Kamehameha was a leader for all people of Hawai'i, regardless of island or county residency. Therefore, it is only fitting that as the population of each island grows, the composition of the membership of the King Kamehameha Celebration Commission likewise grow in order to be as equitable as possible.

Your Committees have amended this measure by:

- (1) Increasing the membership on the King Kamehameha Celebration Commission to fifteen by adding representation for the island of Lana'i;
- (2) Deleting language that would have required the Governor to appoint four at-large members representing each of the counties to the King Kamehameha Celebration Commission; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Hawaiian Affairs and International Affairs and the Arts that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 601, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 601, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Hawaiian Affairs: Ayes, 4. Noes, none. Excused, 1 (Kim).

International Affairs and the Arts: Ayes, 4. Noes, none. Excused, 1 (Ihara).

SCRep. 421 (Joint) Transportation and Energy and Housing on S.B. No. 591

The purpose and intent of this measure is to:

- (1) Authorize the Director of Finance to issue general obligation bonds to construct affordable rental units and homes, including infrastructure improvements at specified Hawaii public housing projects and temporary transitional housing or homeless shelters; and
- (2) Allow monies from the conveyance tax and the county surcharge on state tax to be used to repay the bonds.

Your Committees received testimony in support of this measure from the Hawaii Housing Finance and Development Corporation; Department of Hawaiian Home Lands; Hawaii Public Housing Authority; Waikiki Health; IMUAlliance; Hunt Development Group, LLC; Hawai'i Construction Alliance; and seven individuals. Your Committees received testimony in opposition to this measure from

one individual. Your Committees received comments on this measure from the Department of Taxation, Department of Budget and Finance, and Tax Foundation of Hawaii.

Your Committees find that the cost of housing and the lack of affordable rentals and properties for sale are two of the most pressing issues facing the State, and that the lack of housing inventory has driven up the cost of rental properties and homes for sale. In November 2016, the median price of a home in Hawaii was \$584,400. On Oahu, where the shortage of affordable housing is most acute, the median sale price for single-family houses, as reported by the Honolulu Board of REALTORS, was \$730,000.

Your Committees further find that a shortage of affordable housing is one of the primary causes of homelessness in Hawaii. More units must be constructed to meet the growing demand for affordable housing. Government-owned land is available for housing, but infrastructure is insufficient in many areas, including for transit-oriented development. It is projected that meeting long-term housing goals will require 64,000 new housing units by 2025, and of that total, 22,200 households of all income levels will require rental units.

If your Committee on Ways and Means chooses to consider this measure, your Committees request that it take under advisement the suggestion of the Department of Taxation that a specific percentage or amount of the conveyance tax that may be used to repay general obligation bonds for the purposes of this measure be determined.

As affirmed by the records of votes of the members of your Committees on Transportation and Energy and Housing that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 591 and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Transportation and Energy: Ayes, 4. Noes, none. Excused, 1 (Shimabukuro).

Housing: Ayes, 3. Noes, none. Excused, 2 (Kahale, Nishihara).

SCRep. 422 (Joint) Agriculture and Environment and Public Safety, Intergovernmental, and Military Affairs and Transportation and Energy on S.B. No. 1207

The purpose and intent of this measure is to appropriate funds to the Agribusiness Development Corporation for a study to be conducted in cooperation with the United States Army Corps of Engineers on the merits of acquiring Lake Wilson dam and spillway to develop pumped-storage hydroelectricity, provided that the federal government makes a dollar-for-dollar match.

Your Committees received testimony in support of this measure from the Department of Agriculture; Department of Business, Economic Development, and Tourism; Agribusiness Development Corporation; Hawai'i Farm Bureau; American Society of Civil Engineers; Life of the Land; and two individuals.

Your Committees find that renewable energy is important to the State's energy goals, and hydroelectric facilities can serve as a feasible alternative energy source to meet these goals. Your Committees further find that the study proposed by this measure may provide valuable insight into the broader development of pumped-storage hydroelectricity throughout the State.

As affirmed by the records of votes of the members of your Committees on Agriculture and Environment, Public Safety, Intergovernmental, and Military Affairs, and Transportation and Energy that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1207 and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Agriculture and Environment: Ayes, 3. Noes, none. Excused, 2 (Rhoads, Riviere).

Public Safety, Intergovernmental, and Military Affairs: Ayes, 3. Noes, none. Excused, 2 (Baker, Thielen).

Transportation and Energy: Ayes, 4. Noes, none. Excused, 1 (Shimabukuro).

SCRep. 423 (Joint) Agriculture and Environment and Government Operations and Transportation and Energy on S.B. No. 559

The purpose and intent of this measure is to ensure statewide support for Hawaii's green initiatives and to further the State's commitment to combat climate change by systematically reducing and mitigating greenhouse gas emissions through the enactment of principles that mirror many of the provisions adopted in the Paris Agreement.

Your Committees received testimony in support of this measure from the Sierra Club of Hawaii; Americans for Democratic Action Hawaii; Hawai'i Green Growth; The Nature Conservancy; Life of the Land; Conservation Council of Hawai'i; Hawaii Island School Garden Network; Hawaii Farmers Union United; The Maritime Group, LLC; The Island Agency; and three individuals. Your Committees received testimony in opposition to this measure from fifteen individuals. Your Committees received comments on this measure from the Department of Land and Natural Resources, Department of Accounting and General Services, and Office of Planning.

Your Committees find that not only is climate change real, but it is the overriding challenge of the 21st century and one of the priority issues of the Senate. Your Committees also find that on December 12, 2015, one hundred ninety-five countries at the 21st Conference of the Parties of the United Nations Framework Convention on Climate Change adopted an agreement addressing greenhouse gas emissions mitigation, adaptation, and finance starting in the year 2020, known as the Paris Agreement. Your Committees support the goals of the Paris Agreement to combat climate change and its effects on environments, economies, and communities around the world and find it necessary that the State enact provisions to further mitigate Hawaii's greenhouse gas emissions.

Your Committees further find that the Hawaii Climate Adaptation Initiative Act, Act 83, Session Laws of Hawaii 2014, established the climate change adaptation priority guidelines and authorizes the Office of Planning to coordinate the development of a statewide climate adaptation plan. Your Committees therefore note that the Office of Planning may be better suited than the Department of Accounting and General Services to serve as the agency responsible for implementation of this measure.

As affirmed by the records of votes of the members of your Committees on Agriculture and Environment, Government Operations, and Transportation and Energy that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 559 and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Agriculture and Environment: Ayes, 4. Noes, none. Excused, 1 (Nishihara).

Government Operations: Ayes, 3. Noes, none. Excused, 2 (Kim, Tokuda).

Transportation and Energy: Ayes, 5. Noes, none. Excused, none.

SCRep. 424 (Joint) Transportation and Energy and Public Safety, Intergovernmental, and Military Affairs on S.B. No. 221

The purpose and intent of this measure is to:

- (1) Establish a photo red light imaging detector systems program to improve enforcement of the traffic signal laws;
- (2) Allow counties to implement the photo red light imaging detector systems program;
- (3) Authorize fines collected under county programs to be deposited into a general fund account;
- (4) Authorize funds from this general fund account to be expended in the county in which the fine was collected for the establishment, operation, management, and maintenance of the photo red light imaging detector systems program; and
- (5) Make an appropriation for the program.

Your Committees received testimony in support of this measure from the Department of Transportation, Honolulu Police Department, and two individuals. Your Committees received testimony in opposition to this measure from the Office of the Public Defender and two individuals.

Your Committees find that the prevalence of drivers violating Hawaii's traffic laws, especially on the island of Oahu, has become intolerable, particularly drivers who run red lights. These violations endanger the lives of motorists and pedestrians and compound the already hazardous conditions on Hawaii's roads and highways. It has become increasingly common to hear reports of hit-and-run drivers who have run over children or the elderly.

Your Committees have amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Transportation and Energy and Public Safety, Intergovernmental, and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 221, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 221, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Transportation and Energy: Ayes, 4; Ayes with Reservations (English). Noes, none. Excused, 1 (Harimoto).

Public Safety, Intergovernmental, and Military Affairs: Ayes, 4. Noes, none. Excused, 1 (Baker).

SCRep. 425 Judiciary and Labor on S.B. No. 262

The purpose and intent of this measure is to authorize the Department of the Attorney General to expend up to \$50,000 from the criminal forfeiture fund each year beginning in fiscal year 2017-2018 for the Hawaii internet crimes against children program.

Your Committee received testimony in support of this measure from one individual. Your Committee received comments on this measure from the Department of the Attorney General.

Your Committee finds that the internet crimes against children special fund was established to assist law enforcement to investigate and prosecute internet crimes against children and groups working directly to combat internet crimes against children. By authorizing the Department of the Attorney General to expend up to \$50,000 from the criminal forfeiture fund each year for efforts in combatting internet crimes against children, this measure will further assist in protecting children.

Your Committee has amended this measure by:

- (1) Clarifying for the purposes of accuracy that the department of the attorney general is authorized to transfer up to \$50,000 per year from the criminal forfeiture fund into the internet crimes against children special fund, rather than directly expend those criminal forfeiture funds for the Hawaii internet crimes against children program;
- (2) Authorizing the deposit of monies transferred from the criminal forfeiture fund into the internet crimes against children special fund under section 846F-4, Hawaii Revised Statutes;
- (3) Inserting an effective date of January 7, 2059, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 262, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 262, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Kim).

SCRep. 426 Economic Development, Tourism, and Technology on S.B. No. 905

The purpose and intent of this measure is to:

- (1) Broaden the sources of revenue for and rename the Hawaii Television and Film Development Special Fund created in section 201-113, Hawaii Revised Statutes; and
- (2) Repeal sections of the law pertaining to the Hawaii Television and Film Development Board.

Your Committee received testimony in support of this measure from the Department of Business, Economic Development, and Tourism; County of Kaua'i, Office of Economic Development; SAG-AFTRA Hawaii; I.A.T.S.E. Local 665; A.F.M. Local 677; Teamsters Local 996; and Island Film Group. Your Committee received testimony in opposition to this measure from one individual.

Your Committee finds that this measure amends terms to appropriately reflect the significant and ongoing advances in the creative media and film industry. More importantly, this measure proposes a mechanism to capture film studio rental fees that would be used to support infrastructure, repair, and maintenance of current and future studios. Your Committee further finds that sections of the law pertaining to the Hawaii Television and Film Development Board are unnecessary and should be repealed, as the board has been inactive for over ten years.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Economic Development, Tourism, and Technology that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 905, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 905, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Baker, Thielen).

SCRep. 427 Economic Development, Tourism, and Technology on S.B. No. 765

The purpose and intent of this measure is to:

- (1) Add the definition of "qualified community development entity" to section 210D-2, Hawaii Revised Statutes, to allow financing to be provided through the Hawaii Community-Based Economic Development Technical and Financial Assistance Program through a structure that facilitates the use of federal new markets tax credits;
- (2) Expand the methods of delivering funding to a project under the Program by providing loans to capitalize a qualified community development entity and to provide guarantees or other credit enhancements that will facilitate private lenders' participation in new markets tax credit financing; and
- (3) Adjust loan maximums and establish guarantees or credit enhancements to reflect monetization of existing project assets for purposes of new markets tax credit financing.

Your Committee received testimony in support of this measure from Pacific Growth Associates. Your Committee received testimony in opposition to this measure from the Department of Business, Economic Development, and Tourism. Your Committee received comments on this measure from the Department of Taxation and Tax Foundation of Hawaii.

Your Committee finds that the Hawaii Community Based-Economic Development Technical and Financial Assistance Program was established to provide financial assistance to community-based businesses and enterprises through low-interest loans and grants to qualifying applicants. Your Committee finds that the federal New Markets Tax Credit program similarly maintains the goal of creating material and economic improvements through community economic development. Your Committee finds that citing to the federal program in this measure helps support both programs for the purpose of supporting community-based businesses in Hawaii. Your Committee further finds that this measure supports the community-based organizations to continue to play an important role in social and economic development in the State.

Your Committee has amended this measure by:

- (1) Removing all references to the State providing guarantees and credit enhancements; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Economic Development, Tourism, and Technology that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 765, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 765, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 428 Economic Development, Tourism, and Technology on S.B. No. 1086

The purpose and intent of this measure is to:

- (1) Extend the motion picture, digital media, and film production income tax credit for an additional five years;
- (2) Place a cap on the annual aggregate amount of the credit; and
- (3) Clarify that qualifying production costs are those costs incurred and expended within the State.

Your Committee received testimony in support of this measure from the Department of Business, Economic Development, and Tourism; University of Hawaii; ILWU Local 142; Hawaii State AFL-CIO; Motion Picture Association of America; SAG-AFTRA Hawaii Local; I.A.T.S.E. Local 665; A.F.M. Local 677; Teamsters Local 996; and two individuals. Your Committee received comments on this measure from the Department of Taxation, Office of the Auditor, and Tax Foundation of Hawaii.

Your Committee finds that the film industry in Hawaii is an important component of a diversified economy. Your Committee finds that the motion picture, digital media, and film production income tax credit is an effective means of stimulating the economy and creating quality jobs while promoting Hawaii as a visitor destination. Your Committee further finds that the extension of the motion picture, digital media, and film production income tax credit will provide stability and predictable economic incentives for the film industry and people employed in the film industry in the State.

Your Committee has amended this measure by:

- (1) Specifying that taxpayers claiming the tax credit are required to prequalify for the credit by registering with the Film Office of the Department of Business, Economic Development, and Tourism, and are required to obtain certification from the Film Office;
- (2) Specifying that the Department of Business, Economic Development, and Tourism reporting requirement regarding fiscal impact to the State entails reporting on those film productions receiving the tax credit;
- (3) Requiring that to qualify for the tax credit, a production must provide evidence of recognition, ability to understand, and efforts to respect and comply with cultural and environmental sensitivities in sensitive locations; including employing or contracting for the services of cultural resources or historical, cultural, or language experts to advise the production;
- (4) Requiring that to qualify for the tax credit a production must agree that if the production claims a credit of more than \$8,000,000, the production will provide an advanced screening of the finished product in the county of the island in which the majority of the production took place;
- (5) Removing the cap on the annual aggregate amount of the credit; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Economic Development, Tourism, and Technology that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1086, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1086, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Baker, Thielen).

SCRep. 429 Judiciary and Labor on S.B. No. 276

The purpose and intent of this measure is to:

- (1) Change the composition of judges of the Intermediate Appellate Court, circuit courts, district courts, and family courts; and
- (2) Make housekeeping amendments to the laws relating to the composition of judges of the Intermediate Appellate Court, circuit courts, district courts, and family courts.

Your Committee received testimony in opposition to this measure from the Judiciary, Hawaii State Bar Association, and one individual.

Your Committee finds that this measure updates the language of the laws relating to the composition of judges of the Intermediate Appellate Court, circuit courts, district courts, and family courts. Your Committee notes the concerns regarding how changing the composition of judges in the various courts will impact court operations and budgetary needs. Your Committee further notes that S.B. No. 469, Regular Session of 2017, as amended, creates and requests potential funding for one district court judge position for the second circuit and that the creation of this potential position would require an amendment to section 604-1, Hawaii Revised Statutes, to implement.

Accordingly, your Committee has amended this measure by:

- (1) Reinstating the number of judges of the Intermediate Appellate Court, circuit courts, district courts, and family courts;
- (2) Increasing the number of judges of the district court of the second circuit from three to four judges; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 276, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 276, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Gabbard).

SCRep. 430 Judiciary and Labor on S.B. No. 469

The purpose and intent of this measure is to appropriate funds for operating and capital improvement costs of the Judiciary for the fiscal biennium beginning July 1, 2017, and ending June 30, 2019.

Your Committee received testimony in support of this measure from the Judiciary, Mothers Against Drunk Driving Hawaii, the Hawaii County Bar Association, the Hawaii State Bar Association, Legal Aid Society of Hawaii, the Maui County Bar Association, Pua Foundation, Volunteer Legal Services Hawaii, the West Hawaii Bar Association, and eight individuals.

Your Committee finds that the Judiciary is in need of additional judges and staff in the various circuits to meet the rising demand for services. For example, the fifth circuit, on the island of Kauai, has been operating with only one district court judge and one district family court judge since 1984. Your Committee also finds that certain specialty court programs are in need of funding to replace expiring grant funding and that capital improvement projects for the Judiciary's aging infrastructure need to be addressed. However, your Committee notes that the Council on Revenues has expressed concern that future general fund revenues may be less than expected in light of recent economic forecasts.

Therefore, your Committee believes that it is fiscally prudent to: fund a portion of the Judiciary's request for additional judicial and staff positions, while authorizing the Chief Justice to determine which of those judicial and staff positions to establish with the funds; and not commit to funding in the 2018-2019 fiscal year for certain programs, with the understanding that funding for those programs in the second year of the biennium may be reassessed during the next legislative session, after the benefit of up-to-date economic forecasts of general fund revenues.

Your Committee has amended this measure by:

- (1) Amending the definition of "position ceiling" to include temporary full-time equivalent positions within the maximum number of positions authorized for a particular program;
- (2) Reducing the appropriations to JUD101, JUD310, JUD320, JUD330, JUD350, and JUD601 to reflect changing the appropriations for salary differentials for justices, judges, the Administrative Director, and the Deputy Administrative Director to the nominal amount of \$1 to facilitate further discussion;
- (3) Reducing the appropriations to JUD310, JUD320, and JUD350 to reflect eliminating the appropriations for the family court judge and staff for JUD310, the district court judge and staff for JUD320, and the family court judge and staff for JUD350, and increasing the appropriation to JUD601 in fiscal biennium 2017-2019 to provide the Chief Justice with an appropriation to fund a portion of the judicial and staff positions, according to priorities established by the Chief Justice;
- (4) Reducing the appropriation to JUD310 to reflect eliminating the fiscal year 2018-2019 funding for the driving while impaired court program, Hawaii zero to three program, and veteran treatment court;
- (5) Reducing the appropriation to JUD330 to reflect eliminating the fiscal year 2018-2019 funding for the veteran and drug courts; and
- (6) Eliminating the fiscal year 2018-2019 capital improvement project request for equipment for the new judiciary complex in Kona on the island of Hawaii.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 469, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 469, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4; Ayes with Reservations (Thielen). Noes, none. Excused, 1 (Gabbard).

SCRep. 431 Judiciary and Labor on S.B. No. 854

The purpose and intent of this measure is to authorize the Director of Labor and Industrial Relations or the Director's designee to issue a stop-work order to an employer, until the employer complies with chapter 388, Hawaii Revised Statutes, relating to the payment of wages and other compensation.

Your Committee received testimony in support of this measure from BKA Builders Inc., Allied Builders System, Hawai'i Construction Alliance, Alan Shintani Inc., and Pacific Resource Partnership. Your Committee received testimony in opposition to this measure from the Subcontractors Association of Hawaii; Ocean Tourism Coalition; Sea Paradise Scuba, Inc.; and Maui Dive Shop. Your Committee received comments on this measure from the Department of Labor and Industrial Relations, Chamber of Commerce Hawaii, and General Contractors Association of Hawaii.

Your Committee finds that when an employer fails to pay wages in accordance with chapter 388, Hawaii Revised Statutes, without justification, the employer is liable for monetary penalties; however, these penalties are not always effective deterrents, and in some cases, employers continue to operate illegally.

Your Committee appreciates the seriousness of the issues that have given rise to the necessity of this measure; however, your Committee shares the concerns stated in the testimony of the Department of Labor and Industrial Relations (DLIR) that this measure, as introduced, may be problematic in achieving its intended purpose and may abrogate due process required prior to the imposition of penalties.

To address these concerns, your Committee has amended this measure by:

- (1) Deleting its contents and replacing it with language that is substantially similar to proposed language in the testimony of the DLIR, which allows the DLIR to issue notifications of stop-work orders to employers in violation of Chapter 388, Hawaii Revised Statutes, relating to the payment of wages and other compensation;
- (2) Inserting an effective date of January 7, 2059, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

Your Committee notes that in this measure, as amended by your Committee, the number of days within which an appeal must be heard and within which a decision for that appeal will be rendered by a hearings officer have been left blank. As the measure moves forward, your Committee encourages the DLIR to discuss with stakeholders how the process proposed by this measure might be further refined.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 854, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 854, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 432 Judiciary and Labor on S.B. No. 888

The purpose and intent of this measure is to make an appropriation to satisfy several claims against the State, its officers, or its employees, including claims for legislative relief, judgments against the State, settlements, and other miscellaneous claims.

Your Committee received testimony in support of this measure from the Department of the Attorney General.

Your Committee finds that this measure requests a total of \$652,602.09 in appropriations from the general fund to satisfy eleven claims against the State, a total of \$5,552,020.44 in appropriations from the state highway fund to satisfy three claims against the State, and a total of \$116,000.00 in appropriations from the harbor special fund to satisfy one claim against the State. The grand total for the fifteen claims settled in this measure as received by your Committee is \$6,320,622.53. Timely passage of this measure will minimize the State's obligation to pay interest on those amounts.

Your Committee notes the written testimony submitted by the Department of the Attorney General, which requests the addition of two new claims that have been resolved since this measure was introduced. The addition of these two new claims results in a total of \$1,671,102.09 in appropriations needed from the general fund.

Your Committee has amended this measure by:

- (1) Adding general fund appropriations for two claims totaling \$1,018,500, as requested by the Department of the Attorney General, which increases the grand total of appropriations in this measure to \$7,339,122.53 in order to satisfy a total of seventeen claims against the State, its officers, or its employees;
- (2) Correcting the subtotal amount of appropriations from the general fund to satisfy the claims involving the Department of Public Safety to \$563,000.00;
- (3) Inserting an effective date of January 7, 2059, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 888, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 888, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Kim).

SCRep. 433 Judiciary and Labor on S.B. No. 936

The purpose and intent of this measure is to:

- (1) Extend the pension benefit adjustment finalization period by one month for those who retire on December 31;
- (2) Change the interest rate for late benefit finalizations;
- (3) Extend the deadline from one to two fiscal years following retirement for employer payments of additional retirement contributions associated with significant non-base pay increases; and
- (4) Allow delegation of certain disability retirement benefit and accidental death benefit approval functions.

Your Committee received testimony in support of this measure from the Employees' Retirement System.

Your Committee finds that this measure serves as a housekeeping measure for the Employees' Retirement System to correct and make consistent finalized benefit adjustment periods, address employer concerns regarding payments for pension "spiking", and improve the efficiency of processing disability and accidental death claims.

Your Committee has amended this measure by:

- (1) Inserting an effective date of January 7, 2059, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 936, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 936, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Gabbard).

SCRep. 434 (Joint) Higher Education and Economic Development, Tourism, and Technology on S.B. No. 1252

The purpose and intent of this measure is to support the intercollegiate athletics program at the University of Hawaii by requiring that monies from the transient accommodations tax be distributed to the University of Hawaii at Manoa and University of Hawaii at Hilo for the next three fiscal years to offset the higher and unique costs of the schools' athletic programs.

Your Committees received testimony in support of this measure from the University of Hawai'i System, University of Hawai'i at Mānoa Athletic Department, University of Hawai'i at Hilo Athletic Department, Imanaka Asato LLLC, Outrigger Enterprises Group, and eight individuals. Your Committees received testimony in opposition to this measure from one individual. Your Committees received comments on this measure from the Tax Foundation of Hawaii.

Your Committees find that the intercollegiate athletics program at the University of Hawaii is unique compared to athletic programs at other institutions. Substantial travel expenses for Hawaii's teams, subsidization of travel expenses of some visiting teams, and unique recruiting challenges make it difficult for University of Hawaii athletic teams to compete at the same level as peer universities. For example, University of Hawaii at Manoa athletic costs are approximately \$5,200,000 higher than its peer institutions.

Your Committees find that Hawaii does not have any professional sports teams and, therefore, collegiate athletic teams from Hawaii represent Hawaii on the mainland and internationally as ambassadors of aloha and representatives of all the people in Hawaii. Your Committees further find that athletics at the University of Hawaii at Manoa and the University of Hawaii at Hilo are a great source of pride to local communities and the State as a whole. In addition, athletics at these universities are a significant economic driver, bringing in visiting teams and families which positively benefits local businesses.

Your Committees support funding the intercollegiate athletic programs at the University of Hawaii at Manoa and University of Hawaii at Hilo. Your Committees note that an alternative funding source, the tourism special fund, has funds available for the next two years. More specifically, the Hawaii Tourism Authority allocates significant funds for the Pro Bowl each year that the sporting event is held in Hawaii. However, the Pro Bowl is under contract to be held outside of the State for the next two years, which makes funding available from the Hawaii Tourism Authority to benefit the valuable intercollegiate athletics program at the University of Hawaii.

Accordingly, your Committees have amended this measure by:

- (1) Deleting the provision that allocates a portion of the transient accommodations tax to help fund the intercollegiate athletic programs at the University of Hawaii at Manoa and University of Hawaii at Hilo;
- (2) Inserting language to distribute \$3,000,000 from the tourism special fund to the intercollegiate athletic programs at the University of Hawaii at Manoa and University of Hawaii at Hilo beginning on July 1, 2017;
- (3) Inserting language to make the distribution from the tourism special fund to the intercollegiate athletic programs repeal on June 30, 2019; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Higher Education and Economic Development, Tourism, and Technology that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1252, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1252, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Higher Education: Ayes, 4; Ayes with Reservations (Espero). Noes, none. Excused, 1 (Keith-Agaran).

Economic Development, Tourism, and Technology: Ayes, 3. Noes, none. Excused, 2 (Baker, Thielen).

SCRep. 435 (Joint) Higher Education and Transportation and Energy on S.B. No. 651

The purpose and intent of this measure is to make pilot schools that are approved by the Federal Aviation Administration subject to the oversight of the Hawaii Post-Secondary Education Authorization Program.

Your Committees received testimony in support of this measure from one individual. Your Committees received comments on this measure from the Department of Commerce and Consumer Affairs.

Your Committees find that currently no mechanism exists for a flight school that is accredited and approved by the Federal Aviation Administration to obtain state approval of its operations. Your Committees additionally find that Hawaii's Department of Education licenses private trade, vocational, and technical schools that do not offer degrees, but that there is an exception for flying schools qualified under the Federal Aviation Administration. Your Committees note testimony provided by the Department of Commerce and Consumer Affairs that the Department of Education has the discretion to regulate any school that falls under an exception.

Your Committees have amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Higher Education and Transportation and Energy that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 651, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 651, S.D. 1, and be referred to your Committees on Commerce, Consumer Protection, and Health and Ways and Means.

Signed by the Chairs on behalf of the Committees.

Higher Education: Ayes, 3. Noes, none. Excused, 2 (Espero, Taniguchi).

Transportation and Energy: Ayes, 3. Noes, none. Excused, 2 (English, Shimabukuro).

SCRep. 436 (Joint) Higher Education and Public Safety, Intergovernmental, and Military Affairs on S.B. No. 1247

The purpose and intent of this measure is to make an appropriation, subject to the availability of matching funds, to the University of Hawaii to conduct necessary studies to ascertain the feasibility and benefits of establishing a small satellite launch and processing facility, as well as to conduct any related public outreach programs.

Your Committees received testimony in support of this measure from the Department of Business, Economic Development, and Tourism; Pacific International Space Center for Exploration Systems; University of Hawai'i at Hilo; Office of the Mayor, County of Hawai'i; Oceanit; Alaska Aerospace Corporation; X-Bow Launch Systems Inc.; W.H. Shipman Limited; Hawaii Island Chamber of Commerce; David S. De Luz, Sr. Enterprises, Inc.; Hawaii Island Economic Development Board; and fifteen individuals.

Your Committees find that the small satellite industry in Hawaii is an emerging market and is rapidly transforming space access to the communications, imaging, navigation, and data industries. Hawaii provides a unique opportunity for the small commercial satellite market because it is located at an ideal geographic site for the launching of satellites into low earth equatorial orbit. Estimates indicate that more than 3,600 small satellites are expected to be launched in the next ten years which has an industry value of more than \$22,000,000,000. Your Committees further find that it is important for the State to support this expanding industry in order to remain competitive and realize the enormous potential economic benefits in this area. Your Committees recognize that success of the emerging small satellite industry requires public-private partnerships, and that the private sector has increasingly expressed interest in establishing space-oriented businesses in Hawaii.

As affirmed by the records of votes of the members of your Committees on Higher Education and Public Safety, Intergovernmental, and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1247 and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Higher Education: Ayes, 3. Noes, none. Excused, 2 (Espero, Kidani).

Public Safety, Intergovernmental, and Military Affairs: Ayes, 3. Noes, none. Excused, 2 (Ihara, Wakai).

SCRep. 437 Transportation and Energy on S.B. No. 1015

The purpose and intent of this measure is to allow the Department of Transportation to deposit funds from the environmental response, energy, and food security tax fund into the state highway fund.

Your Committee received testimony in support of this measure from the Department of Transportation. Your Committee received testimony in opposition to this measure from one individual. Your Committee received comments on this measure from the Tax Foundation of Hawaii and one individual.

Your Committee finds that a safe, efficient, and effective highway system is vital to the public's well-being. The State's land transportation system is in constant need of repair and maintenance. As the demand for travel increases, the State's roads will continue to deteriorate and require an even greater allocation of resources. Currently, the bulk of the necessary resources are provided through fuel tax dollars that flow through the Federal Highway Trust Fund and the state highway fund. However, the proliferation of more fuel-efficient vehicles and alternative fuel vehicles means that the amount of available funds for highway maintenance and repair is declining and will continue to decline in the future. Therefore, it is essential that the State look to alternative sources of revenues. Accordingly, this measure allows the Department of Transportation to deposit 60 cents of each barrel of petroleum product subject to the environmental response, energy, and food security tax into the state highway fund.

As affirmed by the record of votes of the members of your Committee on Transportation and Energy that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1015 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (English, Harimoto).

SCRep. 438 (Joint) Public Safety, Intergovernmental, and Military Affairs and Housing on S.B. No. 99

The purpose and intent of this measure is to prohibit any county from disqualifying a legal nonconforming dwelling unit from the housing choice voucher program if the unit meets zoning and building code requirements and other program standards such as health and safety standards.

Your Committees received testimony in support of this measure from Ho'omana Pono, LLC. Your Committees received comments on this measure from the Hawaii Public Housing Authority and Department of Community Services of the City and County of Honolulu.

Your Committees find that a lack of available housing options is a critical issue facing the State's citizens. Measures that limit housing availability have the additional negative effect of also increasing home prices and rents. It is therefore necessary to remove as many barriers to affordable housing as possible. This measure confronts this issue by limiting a county's ability to disqualify a legal nonconforming dwelling unit from the housing choice voucher program.

As affirmed by the records of votes of the members of your Committees on Public Safety, Intergovernmental, and Military Affairs and Housing that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 99 and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Public Safety, Intergovernmental, and Military Affairs: Ayes, 4. Noes, none. Excused, 1 (Baker).

Housing: Ayes, 3. Noes, none. Excused, 2 (Kahele, Keith-Agaran).

SCRep. 439 Public Safety, Intergovernmental, and Military Affairs on S.B. No. 1298

The purpose and intent of this measure is to eliminate the one-year residency requirement for appointment to a county chief of police position.

Your Committee received testimony in support of this measure from the Honolulu Police Commission. Your Committee received testimony in opposition to this measure from two individuals.

Your Committee finds that employing highly qualified law enforcement officers is essential for the health, safety, and welfare of the public. The need for highly-qualified individuals is especially important in law enforcement leadership positions. Given the difficulties in recruiting and retaining the best and most highly-qualified individuals for law enforcement leadership positions, it is important to remove barriers that further reduce the available pool of hireable individuals. Accordingly, this measure provides an exemption from the one-year state residency requirement for individuals appointed as the head of a county police department.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1298 and recommends that it pass Second Reading and be referred to your Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Baker).

SCRep. 440 Public Safety, Intergovernmental, and Military Affairs on S.B. No. 1154

The purpose and intent of this measure is to require that the comprehensive loss reduction plan of the Hawaii Hurricane Relief Fund include developing and implementing building code hurricane standards and funding for the adoption of administrative rules to implement state building code and design standards.

Your Committee received testimony in support of this measure from the Hawaii Emergency Management Agency, Department of Public Works of the County of Kauai, Department of Emergency Management of the City and County of Honolulu, Hawaii State Fire Council, Honolulu Fire Department, American Council of Engineering Companies, Mason Contractors Association of Hawaii, Structural Engineers Association of Hawaii, and five individuals. Your Committee received comments on this measure from the Hawaii Hurricane Relief Fund.

Your Committee finds that mitigating future losses due to hurricanes is essential for the public's health, safety, and welfare. The losses resulting from hurricanes can be devastating and wide-ranging. Along with the obvious property damage that hurricanes can cause, hurricanes can also impact the cost and availability of hurricane insurance. The Hawaii Hurricane Relief Fund was created to develop a comprehensive loss reduction plan for hurricane peril, including standards for residential and commercial structures and a timetable for the implementation of mandatory mitigation measures. In addition, the State Building Code Council is also responsible for establishing residential and hurricane resistant standards related to loss mitigation standards. However, the Council has never been properly funded and has consequently been limited in its ability to carry out its duties. Moreover, the overlapping responsibilities of the Hawaii Hurricane Relief Fund and the State Building Code Council have created confusion and resulted largely in a failure to implement the proper building standards and develop a loss mitigation plan. Therefore, it is necessary to amend the relevant statutes to require the Hawaii Hurricane Relief Fund to develop and implement building code hurricane standards and include funding for the adoption of administrative rules to implement state building code and design standards.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1154 and recommends that it pass Second Reading and be referred to your Committees on Commerce, Consumer Protection, and Health and Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Baker).

SCRep. 441 Public Safety, Intergovernmental, and Military Affairs on S.B. No. 153

The purpose and intent of this measure is to allow surviving immediate family members of murder or manslaughter victims to access a copy of the closing report prepared by the investigating police department, upon the conclusion of all criminal and civil proceedings that arose from the offense.

Your Committee received testimony in support of this measure from the Hawaii Association for Justice. Your Committee received testimony in opposition to this measure from the Civil Beat Law Center for the Public Interest. Your Committee received comments on this measure from the Office of Information Practices.

Your Committee finds that making police reports available to surviving family members of a victim of a violent crime resulting in death is important for maintaining fairness and protecting the well-being of the public. Currently, criminal defendants who cause the death of another have access to police files relating to the investigation, but surviving family members do not necessarily have access to the same files. In addition, allowing surviving family members to have access to final, or closing, police reports would enhance police transparency and accountability.

Your Committee has amended this measure by removing the reference to section 92F-22, Hawaii Revised Statutes, to avoid any confusion with the existing Uniform Information Practices Act.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 153, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 153, S.D. 1, and be referred to your Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 442 (Joint) Public Safety, Intergovernmental, and Military Affairs and Government Operations on S.B. No. 293

The purpose and intent of this measure is to establish a Statewide Interoperability Executive Board for coordinating a Statewide Interoperable Public Safety Communications System financed through surcharges on various traffic violations.

Your Committees received testimony in support of this measure from the Department of Transportation; Department of Public Safety; Hawaii Emergency Management Agency; Office of Enterprise Technologies; Department of Emergency Management, City and County of Honolulu; and Maui Police Department. Your Committees received comments on this measure from the Department of Budget and Finance, State Procurement Office, Kaua'i Emergency Management Agency, Honolulu Police Department, and Tax Foundation of Hawaii.

Your Committees find that the ability of first responders and emergency response agencies to effectively communicate with each other, particularly during emergency situations, is essential to protecting the health, safety, and welfare of the public. However, there are many components to creating and maintaining a successful interoperable communications system. These types of communications systems require well-defined leadership staffed with highly-qualified individuals. In addition, it is necessary to establish a cohesive and coordinated overarching plan, including policies and procedures, that the various agencies involved can follow. Your Committees note that a successful interoperable communications system requires adequate funding for the hiring of staff and purchasing of equipment that will enable coordination among agencies, but your Committees acknowledge the testimony of the Department of Public Safety recommending that the Statewide Interoperability Executive Board first be established and allowed to determine its needs before addressing funding for the Board.

Accordingly, your Committees have amended this measure by:

- (1) Deleting the funding mechanism, including the creation of the Interoperable Public Safety Communications Trust Fund and all surcharges for various traffic violations;
- (2) Deleting all references to procurement pursuant to chapter 103D, Hawaii Revised Statutes; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Public Safety, Intergovernmental, and Military Affairs and Government Operations that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 293, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 293, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Public Safety, Intergovernmental, and Military Affairs: Ayes, 3. Noes, none. Excused, 2 (Baker, Ihara).

Government Operations: Ayes, 3. Noes, none. Excused, 2 (Galuteria, Tokuda).

SCRep. 443 (Joint/Majority) Public Safety, Intergovernmental, and Military Affairs and Housing on S.B. No. 611

The purpose and intent of this measure is to repeal the June 30, 2017, sunset date of Act 83, Session Laws of Hawaii 2012, which prohibits counties from requiring installation or retrofitting of automatic fire sprinklers in:

- (1) New or existing detached one- or two-family dwelling units used only for residential purposes; and
- (2) Non-residential agricultural and aquacultural structures located outside an urban area.

Your Committees received testimony in support of this measure from the Office of the Mayor of the City and County of Honolulu, Building Industry Association of Hawaii, Hawaii Habitat for Humanity Association, and forty-two individuals. Your Committees received testimony in opposition to this measure from the Hawaii State Fire Council, Honolulu Fire Department, and International Code Council. Your Committees received comments on this measure from the Office of the Mayor, Hawai'i County.

Your Committees find that placing undue burdens on property owners in the State does not promote the public welfare. Retrofitting or installing automatic fire sprinklers in certain structures can be difficult and costly. Moreover, requiring owners or builders to install automatic fire sprinklers would likely cause rents and the costs of homes to rise. Given the untenable affordable housing shortage across the State, county action requiring the installation of automatic fire sprinklers could have devastating effects. Therefore, repealing the sunset date of Act 83, Session Laws of Hawaii 2012, is necessary to permanently prohibit the counties from requiring owners of detached one- or two-family dwelling units used only for residential purposes or non-residential agricultural and aquacultural structures located outside an urban area to retrofit or install automatic fire sprinklers.

However, your Committees also acknowledge the testimony of the International Code Council regarding new and emerging technologies in automatic fire sprinkler systems. The International Code Council notes that there have been significant advances in automatic fire sprinkler technologies and that other future advances may render arguments about the cost-prohibitive nature of installing automatic fire sprinkler systems moot. Accordingly, the International Code Council recommends not making the prohibition permanent. Your Committees suggest that if your Committee on Commerce, Consumer Protection, and Health decides to hear this measure that it looks further into the concerns that the International Code Council raises.

Your Committees have amended this measure by inserting an effective date of May 22, 2050, to encourage further discussion.

As affirmed by the records of votes of the members of your Committees on Public Safety, Intergovernmental, and Military Affairs and Housing that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 611, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 611, S.D. 1, and be referred to your Committee on Commerce, Consumer Protection, and Health.

Signed by the Chairs on behalf of the Committees.

Public Safety, Intergovernmental, and Military Affairs: Ayes, 4. Noes, none. Excused, 1 (Baker).
Housing: Ayes, 2. Noes, 1 (Harimoto). Excused, 2 (Kahele, Keith-Agaran).

SCRep. 444 Public Safety, Intergovernmental, and Military Affairs on S.B. No. 655

The purpose and intent of this measure is to allow the news media to access areas that are closed pursuant to the emergency management powers of the Governor and Mayors.

Your Committee received testimony in support of this measure from the Big Island Press Club, All Hawaii News, Hawaii Association of Broadcasters, Society of Professional Journalists Hawaii Chapter, Life of the Island, and fifteen individuals. Your Committee received testimony in opposition to this measure from the Honolulu Fire Department, Kaua'i Fire Department, and Kaua'i Emergency Management Agency. Your Committee received comments on this measure from the Hawaii Emergency Management Agency.

Your Committee finds that a freely functioning news media is essential for maintaining a free and open society. The news media serves the invaluable purpose of relaying necessary and timely information to the public. This media role is enhanced in an emergency or crisis situation. However, existing state laws do not ensure robust media access during emergency or crisis situations. Therefore, it is important to update these laws to ensure the maximum access possible for news media during emergency situations.

Your Committee acknowledges the concerns of the Hawaii Emergency Management Agency regarding the potential liability of the parties involved and the necessary logistics and procedures that should be in place for allowing news media into areas under emergency management control.

Accordingly, your Committee has amended this measure by:

- (1) Requiring that news media given access to areas under emergency management be credentialed and accompanied by emergency management personnel;
- (2) Limiting the liability of the State and counties and establishing liability for media personnel;
- (3) Providing that the designated emergency management authority in charge has the sole discretion in determining the access granted to media members in an affected area; and
- (4) Inserting an effective date of May 22, 2050, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 655, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 655, S.D. 1, and be referred to your Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Baker).

SCRep. 445 (Joint) Public Safety, Intergovernmental, and Military Affairs and Government Operations on S.B. No. 1037

The purpose and intent of this measure is to require that certain agencies be notified when a firearm permit application is denied because the applicant is prohibited from owning, possessing, receiving, or controlling a firearm under federal or state law.

Your Committees received testimony in support of this measure from the Judiciary, Kauai Police Department, and thirteen individuals. Your Committees received testimony in opposition to this measure from one individual.

Your Committees find that a robust regulatory framework for firearm ownership is essential to protecting the public health, safety, and welfare. Part of that regulatory framework should include identifying individuals who are prohibited from owning, possessing, receiving, or controlling a firearm under federal or state law, but who still attempt to apply for and are denied a permit because of their existing status. Therefore, this measure:

- (1) Requires the firearms permitting authority to notify the prosecuting attorney of the county of the issuing authority, the United States Attorney's Office in Hawaii, and the Department of Public Safety if an applicant is denied a permit because the applicant is prohibited from owning, possessing, receiving, or controlling a firearm under federal or state law; and
- (2) Requires the Department of Public Safety, upon notification of such a permit denial, to determine if the denied applicant is serving probation or parole, and if so, send notice to the applicant's probation or parole officer.

Your Committees, however, have concerns about the effectiveness of this measure as written. Under existing laws, an individual who seeks a permit to own a firearm, but is prohibited by statute from doing so, will be denied a permit. Testimony presented during the hearing highlighted that merely seeking a permit, even if prohibited from obtaining one, is not a violation of the law. Therefore, it is not clear how passing on information about a denied permit, even for someone prohibited from obtaining one, to prosecutors would have any real impact. If your Committee on Judiciary and Labor decides to hear this measure, it may be beneficial for that Committee to further explore this concern.

Your Committees have amended this measure by inserting an effective date of May 22, 2050, to encourage further discussion.

As affirmed by the records of votes of the members of your Committees on Public Safety, Intergovernmental, and Military Affairs and Government Operations that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1037, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1037, S.D. 1, and be referred to your Committee on Judiciary and Labor.

Signed by the Chairs on behalf of the Committees.
Public Safety, Intergovernmental, and Military Affairs: Ayes, 5. Noes, none. Excused, none.

Government Operations: Ayes, 3. Noes, none. Excused, 2 (Galuteria, Tokuda).

SCRep. 446 (Joint) Public Safety, Intergovernmental, and Military Affairs and Commerce, Consumer Protection, and Health and Transportation and Energy on S.B. No. 1039

The purpose and intent of this measure is to require the Department of Public Safety to work with appropriate federal and state agencies to assist inmates in obtaining important government documents, including a social security card, driver's license, civil identification card, or birth certificate.

Your Committees received testimony in support of this measure from the Department of Public Safety; Hawaii Paroling Authority; Hawaii State Commission on the Status of Women; American Association of University Women Hawaii; Community Alliance on Prisons; Hawaii Appleseed Center for Law and Economic Justice; Ho'omana Pono, LLC; YWCA O'ahu; The CHOW Project; and seventeen individuals.

Your Committees find that helping inmates transition back into everyday life is a vital component of successful inmate rehabilitation. One of the problems inmates encounter is that they are incarcerated for long periods and often lose important government documents pertaining to their identities. Upon release, the lack of necessary government-issued identification documents, such as a social security card, birth certificate, driver's license, or civil identification card, can prevent a former inmate from being able to successfully transition back into society. Therefore, it is necessary to establish guidelines requiring the Department of Public Safety to work with appropriate federal and state agencies to assist eligible inmates in obtaining important government documents.

In establishing these guidelines, your Committees note the testimony of the Community Alliance on Prisons and the YWCA recommending that inmates in work furlough, extended furlough, and community placement programs also benefit from assistance in obtaining important government documents. Your Committees also acknowledge the concerns of the Department of Public Safety recognizing that pre-trial detainees and short-term inmates should not qualify for assistance and that inmates seeking birth certificates from the State should not be required to pay any related fees for a copy of that birth certificate or a civil identification card.

Accordingly, your Committees have amended this measure by:

- (1) Requiring the Department of Public Safety to begin the process of obtaining important government documents for inmates released for work furlough, extended furlough, and community placement programs at least ninety days prior to release;
- (2) Disqualifying pre-trial detainees and inmates sentenced to less than one year from assistance in obtaining government documents;
- (3) Deleting language that would have prevented inmates in compassionate release, work furlough, extended furlough, and community placement programs from obtaining assistance;
- (4) Establishing that the Department of Public Safety, working with other state agencies, will provide any Hawaii-born inmate seeking one, a certified copy of the inmate's birth certificate and a civil identification card free of charge;
- (5) Making conforming amendments; and
- (6) Making technical amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Public Safety, Intergovernmental, and Military Affairs, Commerce, Consumer Protection, and Health, and Transportation and Energy that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1039, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1039, S.D. 1, and be referred to your Committees on Judiciary and Labor and Ways and Means.

Signed by the Chairs on behalf of the Committees.

Public Safety, Intergovernmental, and Military Affairs: Ayes, 3. Noes, none. Excused, 2 (Thielen, Wakai).

Commerce, Consumer Protection, and Health: Ayes, 4. Noes, none. Excused, 3 (Ihara, Kidani, Ruderman).

Transportation and Energy: Ayes, 4. Noes, none. Excused, 1 (English).

SCRep. 447 (Joint) Public Safety, Intergovernmental, and Military Affairs and Government Operations on S.B. No. 1291

The purpose and intent of this measure is to update statutory language on liquor license application and operating procedures to improve consistency and efficiency in liquor licensing and to reflect modern business practices and organizational structures.

Your Committees received testimony in support of this measure from the Department of Liquor Control, County of Kauai; Liquor Commission, City and County of Honolulu; and one individual.

Your Committees find that the efficient and equitable treatment of businesses, particularly in any licensing process, is essential for cultivating a robust economy that benefits the public welfare. Existing statutes relating to liquor licensing are outdated and do not reflect the current state of business practice in the State, including modern forms of business organization such as limited liability companies. Further, these outdated licensing laws make the licensing process inefficient and serve as an impediment to business, preventing potential economic growth. Accordingly, this measure updates existing liquor licensing statutes to:

- (1) Include member and member managed limited liability companies;
- (2) Allow liquor license holders to notify the liquor commission within a set period of time after a change in membership or ownership of the license holding entity instead of before the change; and
- (3) Clarify conditions under which publicly-traded companies or entities solely owned by a publicly-traded entity may be disqualified for licensure.

Your Committees have amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Public Safety, Intergovernmental, and Military Affairs and Government Operations that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1291, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1291, S.D. 1, and be referred to your Committee on Judiciary and Labor.

Signed by the Chairs on behalf of the Committees.

Public Safety, Intergovernmental, and Military Affairs: Ayes, 5. Noes, none. Excused, none.

Government Operations: Ayes, 3. Noes, none. Excused, 2 (Galuteria, Tokuda).

SCRep. 448 Public Safety, Intergovernmental, and Military Affairs on S.B. No. 1293

The purpose and intent of this measure is to:

- (1) Establish the special operations K9 unit special fund; and
- (2) Appropriate money to the fund for deputy canines and full-time equivalent permanent canine handler positions within the Department of Public Safety.

Your Committee received testimony in support of this measure from the Judiciary, State of Hawai'i; and Office of the Prosecuting Attorney, County of Hawai'i. Your Committee received comments on this measure from the Department of Budget and Finance and Department of Public Safety.

Your Committee finds that abuse of illicit drugs is a serious health problem that threatens the welfare of the people of the State. It is essential to deploy every reasonable means necessary to ensure that an epidemic of drug abuse does not spread. One technique that could increase the efficiency of law enforcement with detecting and subsequently removing illicit drugs from the State is the expanded use of trained canines. The benefits of drug detecting canines are well-known and widely utilized across the globe. Expanding the use of canine special units in the State would enhance law enforcement's ability to combat illicit drug use.

Your Committee, however, acknowledges the concerns raised by the testimony of the Department of Public Safety relating to the costs of administering the proposed K9 program. The Department estimates that the measure as written would have an initial start-up cost of approximately \$9,719,699, excluding the cost of an area for kennels and training. Further, the Department calculates that the recurring annual costs of the program would total approximately \$6,265,555. Therefore, your Committee believes that a phased in approach for implementation, beginning first in Oahu then expanding to the neighbor islands at a rate of thirty-three percent annually for three years, is prudent. In addition, given the costs of the program, it is important to put in place auditing requirements to monitor the program's expenditures.

Your Committee has amended this measure by:

- (1) Adding language to require the auditor to conduct an annual audit of the uses of the special operations K9 unit special fund; and
- (2) Establishing a phased-in approach, introducing the program first on the Island of Oahu then expanding to the neighbor islands over the course of three years.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1293, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1293, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Baker).

SCRep. 449 (Joint) Economic Development, Tourism, and Technology and Government Operations and Public Safety, Intergovernmental, and Military Affairs on S.B. No. 994

The purpose and intent of this measure is to:

- (1) Require the Stadium Authority to adopt rules requiring dedication of land or facilities, or in-lieu cash payments, by developers as a condition of developing real property pursuant to the stadium complex area development plan;
- (2) Authorize the Stadium Authority to hire private attorneys; and
- (3) Expand the powers and duties of the Stadium Authority to develop the stadium property and establish a stadium complex area.

Your Committees received testimony in support of this measure from the Office of the Lieutenant Governor, Stadium Authority, IMUAlliance, Hawaii Lodging & Tourism Association, and one individual. Your Committees received testimony in opposition to this measure from one individual. Your Committees received comments on this measure from Department of Accounting and General Services.

Your Committees find that the Aloha Stadium has been Hawaii's largest sports facility since its opening in 1975. Your Committees find that the current stadium is reaching the end of its life cycle. Your Committees further find that expanding the powers and duties of the Stadium Authority will help in the process of creating a stadium complex area development plan and beginning the development of the new Aloha Stadium.

Your Committees note their concern regarding the need for the Stadium Authority to appoint or retain private attorneys and the nature of any gifts or grants that the Stadium Authority may receive, as proposed by this measure. Should your Committees on Ways and Means and Judiciary and Labor decide to hear this measure, your Committees request further examination of these provisions.

As affirmed by the records of votes of the members of your Committees on Economic Development, Tourism, and Technology, Government Operations, and Public Safety, Intergovernmental, and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 994 and recommend that it pass Second Reading and be referred to your Committees on Ways and Means and Judiciary and Labor.

Signed by the Chairs on behalf of the Committees.

Economic Development, Tourism, and Technology: Ayes, 3. Noes, none. Excused, 2 (Baker, Thielen).

Government Operations: Ayes, 3. Noes, none. Excused, 2 (Rhoads, Tokuda).

Public Safety, Intergovernmental, and Military Affairs: Ayes, 3. Noes, none. Excused, 2 (Ihara, Thielen).

SCRep. 450 (Joint) Economic Development, Tourism, and Technology and Government Operations on S.B. No. 834

The purpose and intent of this measure is to:

- (1) Require that both chambers of the Legislature adopt rules to establish procedures to permit residents to present testimony through audiovisual technology; and
- (2) Appropriate funds to establish such audiovisual technology throughout the State.

Your Committees received testimony in support of this measure from the Department of Health, Hawaii Government Employees Association, Common Cause Hawaii, Pele Lani Farm LLC, Life of the Land, Ulupono Initiative, Progressive Democrats of Hawaii, and thirty-five individuals. Your Committees received comments on this measure from the Disability and Communication Access Board and two individuals.

Your Committees find that it is often a severe financial and geographic hardship for neighbor island residents to actively participate in the legislative process. Your Committees further find that this measure is a necessary first step toward using remote testimony technology to allow more residents of the State to participate and have their voices heard.

Your Committees have amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Economic Development, Tourism, and Technology and Government Operations that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 834, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 834, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Economic Development, Tourism, and Technology: Ayes, 3. Noes, none. Excused, 2 (Baker, Thielen).

Government Operations: Ayes, 3. Noes, none. Excused, 2 (Rhoads, Tokuda).

SCRep. 451 Water and Land on S.B. No. 110

The purpose and intent of this measure is to authorize the Department of Land and Natural Resources to establish and operate in-lieu fee mitigation and to establish aquatic mitigation banking and aquatic in-lieu fee mitigation special funds.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources, Nature Conservancy Hawai'i, Conservation Council for Hawai'i, Democratic Party of Hawai'i, and four individuals. Your Committee received testimony in opposition to this measure from the Ocean Tourism Coalition, Quicksilver Charters, Sail Maui, and Maui Dive Shop. Your Committee received comments on this measure from the Department of Budget and Finance and Tax Foundation of Hawaii.

Your Committee finds that authorizing in-lieu fee mitigation will provide the Department of Land and Natural Resources (DLNR) with an innovative mechanism to improve state stewardship of aquatic public trust resources and habitats, increase accountability for aquatic resources damage, and provide higher quality remediation to make damaged resources whole again. In-lieu fee mitigation involves a third party mitigation sponsor who accepts funds from permit applicants or responsible parties required to provide compensation in order to mitigate actual natural resource damage or prospective compensation, which the sponsor then uses to develop restoration projects. In-lieu fee sponsors are often public or private entities with experience, scientific expertise, and a vested long-term interest in natural resources conservation.

Your Committee notes that DLNR expects to accept fees in lieu of mitigation from permittees required to mitigate damage under the Clean Water Act, and that the federal government prefers, but does not require, fees to be deposited into special funds. DLNR may want to consider the benefit of using special funds in the future and advise the Legislature accordingly, but your Committee does not find special funds necessary at this time.

Your Committee has amended this measure by:

- (1) Deleting the establishment of an aquatic mitigation banking special fund and an aquatic in-lieu fee mitigation special fund;
- (2) Making conforming amendments; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 110, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 110, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Inouye, Kim).

SCRep. 452 (Joint) Water and Land and Public Safety, Intergovernmental, and Military Affairs on S.B. No. 841

The purpose and intent of this measure is to appropriate funds to the Department of Land and Natural Resources to conduct a feasibility study to determine the best means to provide a Pohoiki swimming area and develop plans, in coordination with the United States Army Corps of Engineers, County of Hawaii, and any stakeholders, for a safe swim area.

Your Committees received testimony in support of this measure from the Department of Land and Natural Resources, Office of the Mayor of the County of Hawaii, and six individuals.

Your Committees find that there is an increasing need for a safe swim area in Pohoiki. Swimmers are currently accessing the ocean via the Pohoiki boat ramp, the only safe access left in Puna for swimmers due to the lava inundation of Kalapana. Having one access for all ocean users, including boaters, swimmers, divers, surfers, and kayakers, among others, is untenable. Your Committees find a feasibility study must be completed to find a permanent solution to provide safe ocean access for the people of Puna.

As affirmed by the records of votes of the members of your Committees on Water and Land and Public Safety, Intergovernmental, and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 841 and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Water and Land: Ayes, 4. Noes, none. Excused, 1 (Inouye).

Public Safety, Intergovernmental, and Military Affairs: Ayes, 3. Noes, none. Excused, 2 (Baker, Wakai).

SCRep. 453 (Joint) Water and Land and Public Safety, Intergovernmental, and Military Affairs and Housing on S.B. No. 1148

The purpose and intent of this measure is to appropriate funds to the Executive Director of the Hawaii Community Development Authority (HCDA) to conduct a feasibility study, and submit a report of findings and recommendations of the study to the Legislature, regarding:

- (1) HCDA assuming the role of planning, developing, and redeveloping all state-owned lands within one mile of the Honolulu rail transit systems;
- (2) Creating a new community development district along the Honolulu rail corridor; and
- (3) Returning jurisdiction over the Kakaako community development district to the City and County of Honolulu.

Your Committees received testimony in support of this measure from the Office of Planning. Your Committees received testimony in opposition to this measure from one individual. Your Committees received comments on this measure from the Hawaii Community Development Authority, Hawaii Public Housing Authority, and Department of Planning and Permitting of the City and County of Honolulu.

Your Committees find that the feasibility study proposed in this measure is warranted to determine the best means to pursue the development of state-owned properties along the rail transit line. Your Committees find that the construction and growth of the rail transit system provide a unique opportunity to simultaneously develop much needed affordable housing units within walking distance of the transit system in areas of population growth and economic activity. Your Committees further find that the state-owned land along the rail transit route is currently administered by numerous departments and agencies, and that a coordinated vision is needed for the implementation of sound transit-oriented and smart growth development.

Your Committees have amended this measure by:

- (1) Clarifying that state-owned lands under the administration of the Hawaii Public Housing Authority (HPHA) are exempt from the feasibility study as HPHA already has a number of transit-oriented projects in various stages of development;
- (2) Removing the provision in the feasibility study pertaining to the transfer of jurisdiction of the Kakaako community development district;
- (3) Inserting an effective date of March 15, 2092, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Water and Land, Public Safety, Intergovernmental, and Military Affairs, and Housing that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1148, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1148, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Water and Land: Ayes, 3. Noes, none. Excused, 2 (Inouye, Kim).

Public Safety, Intergovernmental, and Military Affairs: Ayes, 3. Noes, none. Excused, 2 (Baker, Ihara).

Housing: Ayes, 4. Noes, none. Excused, 1 (Keith-Agaran).

SCRep. 454 (Joint) Water and Land and Agriculture and Environment on S.B. No. 636

The purpose and intent of this measure is to establish an invasive species rapid response special fund, establish procedures for declaring an invasive species emergency and making fund expenditures without legislative approval, and appropriate monies to the fund.

Your Committees received testimony in support of this measure from the Department of Agriculture, Department of Land and Natural Resources, Office of Hawaiian Affairs, Conservation Council of Hawai'i, and four individuals. Your Committees received

testimony in opposition to this measure from Save an Animal, Best Friends Animal Society, and one individual. Your Committees received comments on this measure from the Department of Budget and Finance, State Procurement Office, and Hawai'i Farm Bureau.

Your Committees find that invasive species can significantly impact the native ecosystems, agriculture, economy, and culture of Hawaii. Your Committees further find that an invasive species rapid response fund will better enable the State to respond to threats from invasive species at the time of first detection, increasing the effectiveness of the response and lowering the cost of eradication. Finally, your Committees note that S.B. No. 776 proposes restructuring the Hawaii Invasive Species Council as the Hawaii Invasive Species Authority, and the special fund proposed under this measure should be coordinated with S.B. No. 776, as amended, as both measures move through the Legislative process.

Your Committees have amended this measure by:

- (1) Removing the exemption from chapter 103D, Hawaii Revised Statutes, as it is an unnecessary restatement of a power already held by the Governor pursuant to section 127A-12(b)(8), Hawaii Revised Statutes; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Water and Land and Agriculture and Environment that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 636, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 636, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Water and Land: Ayes, 3. Noes, none. Excused, 2 (Kim, Thielen).

Agriculture and Environment: Ayes, 3. Noes, none. Excused, 2 (Nishihara, Ruderman).

SCRep. 455 (Joint) Water and Land and Housing on S.B. No. 254

The purpose and intent of this measure is to require the Hawaii Housing Finance and Development Corporation, in coordination with other state and county agencies, to develop lands within one mile of transit station sites and include affordable rental housing units in certain development plans.

Your Committees received testimony in support of this measure from one individual. Your Committees received testimony in opposition to this measure from the Department of Land and Natural Resources and one individual. Your Committees received comments on this measure from the Department of Human Services, Hawaii Housing Finance and Development Corporation, and Office of Planning.

Your Committees find that encouraging transit-oriented development projects will contribute to the overall success of the public transportation projects in the State and will vitalize urban areas. Your Committees further find that incorporating safe, adequate, and affordable housing strengthens communities as affordable and stable housing is linked with improved health, education, and economic outcomes for families and children.

Your Committees have amended this measure by:

- (1) Specifying the percentage of affordable rental units that must be built for residents or families at different income levels for each development project as follows:
 - (A) Ten percent for residents or families earning up to thirty percent of the area median income as defined by the United States Department of Housing and Urban Development;
 - (B) Ten percent for residents or families earning up to sixty percent of the area median income as defined by the United States Department of Housing and Urban Development;
 - (C) Ten percent for residents or families earning up to eighty percent of the area median income as defined by the United States Department of Housing and Urban Development; and
 - (D) Ten percent for residents or families earning up to one hundred percent of the area median income as defined by the United States Department of Housing and Urban Development;
- (2) Removing the waiver option of the affordable housing requirements;
- (3) Making conforming amendments; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Water and Land and Housing that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 254, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 254, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Water and Land: Ayes, 4. Noes, none. Excused, 1 (Inouye).

Housing: Ayes, 3. Noes, none. Excused, 2 (Harimoto, Nishihara).

SCRep. 456 (Joint) Water and Land and Housing on S.B. No. 580

The purpose and intent of this measure is to authorize the Department of Land and Natural Resources to enter into housing, commercial, and mixed-use leases for terms in excess of sixty-five years but not exceeding ninety-nine years.

Your Committees received testimony in support of this measure from the Chamber of Commerce Hawaii, Building Industrial Association of Hawaii, and one individual. Your Committees received comments on this measure from the Department of Land and Natural Resources.

Your Committees find that extending the maximum lease term for certain property to ninety-nine years supports efforts to increase the number of affordable housing units in the State. Your Committees further find that granting the lessee the right of first refusal following public auction at the termination of the lease will incentivize lessees to continue to invest in improvements to the property throughout the length of the lease.

Your Committees have amended this measure by:

- (1) Transferring the lease negotiation authority from the Department of Land and Natural Resources to the Hawaii Housing Finance and Development Corporation;
- (2) Clarifying that its applicability pertains only to residential leases that are for multi-family units;
- (3) Making conforming amendments; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Water and Land and Housing that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 580, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 580, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Water and Land: Ayes, 4. Noes, none. Excused, 1 (Inouye).

Housing: Ayes, 3. Noes, none. Excused, 2 (Harimoto, Nishihara).

SCRep. 457 (Joint) Water and Land and Housing on S.B. No. 966

The purpose and intent of this measure is to exempt lands to which the Hawaii Public Housing Authority holds title from the definition of “public lands” used in chapter 171, Hawaii Revised Statutes.

Your Committees received testimony in support of this measure from the Hawaii Public Housing Authority and one individual. Your Committees received testimony in opposition to this measure from Ka Lāhui Hawai‘i Political Action Committee. Your Committees received comments on this measure from the Department of Land and Natural Resources and Office of Hawaiian Affairs.

Your Committees find that the Hawaii Public Housing Authority (HPHA) is authorized to acquire, own, and hold real property and therefore lands held by HPHA should be exempt from the definition of “public lands” that the Department of Land and Natural Resources (DLNR) manages, administers, and exercises control over to cure any potential conflict in powers between HPHA and DLNR. Your Committees further find that HPHA titled lands were previously exempt from the definition of public lands when the lands were held by HPHA’s predecessor agencies and were inadvertently not included in the exemptions to public lands when the agencies reorganized and HPHA was formed. Finally, it is the understanding of your Committees that ceded lands will remain ceded lands and be unaffected by this measure.

Your Committees have amended this measure by including lands that are set aside by the Governor to HPHA in the exemption to “public lands”.

As affirmed by the records of votes of the members of your Committees on Water and Land and Housing that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 966, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 966, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Water and Land: Ayes, 4. Noes, none. Excused, 1 (Inouye).

Housing: Ayes, 3. Noes, none. Excused, 2 (Harimoto, Nishihara).

SCRep. 458 (Joint) International Affairs and the Arts and Water and Land on S.B. No. 269

The purpose and intent of this measure is to require the Department of Land and Natural Resources to place markers in the State of Hawaii to indicate significant sites in the life of President Barack Obama.

Your Committees received testimony in support of this measure from the Department of Land and Natural Resources and two individuals. Your Committees received testimony in opposition to this measure from two individuals.

Your Committees find that President Barack Obama, the forty-fourth President of the United States of America, was born in the State of Hawaii and spent a significant amount of his life in the State. Your Committees further find that placing markers at sites significant to President Barack Obama’s life would be a point of pride for the State and would pay tribute to President Barack Obama’s leadership. Your Committees note that the recommended appropriation to the State Historic Preservation Division to place the markers is \$50,000 for fiscal year 2017-2018 and \$25,000 for fiscal year 2018-2019.

Your Committees have amended this measure by:

- (1) Clarifying the reference to President Barack Obama as the forty-fourth President of the United States of America;
- (2) Adding Noelani Elementary School to the list of significant sites;
- (3) Making an appropriation for an unspecified dollar amount;
- (4) Changing the effective date to July 1, 2017; and

- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on International Affairs and the Arts and Water and Land that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 269, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 269, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

International Affairs and the Arts: Ayes, 4. Noes, none. Excused, 1 (Shimabukuro).

Water and Land: Ayes, 3. Noes, none. Excused, 2 (Inouye, Kim).

SCRep. 459 (Joint) Public Safety, Intergovernmental, and Military Affairs and Higher Education on S.B. No. 419

The purpose and intent of this measure is to:

- (1) Require compliance with the Military Selective Service Act by prohibiting enrollment in a state-supported post-secondary institution, ability to qualify for state financial assistance for post-secondary education, and eligibility for state or county employment or service with certain exceptions; and
- (2) Establish special number plates for members of Hawaii selective service local boards and the United States Selective Service System State Director.

Your Committees received testimony in support of this measure from the Selective Service System Hawaii Headquarters. Your Committees received comments on this measure from the University of Hawaii and the Hawaii Civil Rights Commission.

Your Committees find that compliance with the Military Selective Service Act is essential for the continued existence of a military force for the protection and security of all citizens. However, many of those who are required to register for selective service do not. Given the importance of compliance with the Military Selective Service Act, it is necessary to put in place measures that ensure and increase compliance with the Act. To that end, the federal government prohibits non-compliant persons from receiving federal student financial assistance or from being employed in a government job. Accordingly, this measure adopts similar measures applicable to state financial assistance for post-secondary education, and eligibility for state or county employment or service.

Your Committees have amended this measure by:

- (1) Replacing the reference to only male citizens to include all persons;
- (2) Deleting all language relating to special license plates; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Public Safety, Intergovernmental, and Military Affairs and Higher Education that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 419, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 419, S.D. 1, and be referred to your Committee on Judiciary and Labor.

Signed by the Chairs on behalf of the Committees.

Public Safety, Intergovernmental, and Military Affairs: Ayes, 3. Noes, none. Excused, 2 (Ihara, Wakai).

Higher Education: Ayes, 3. Noes, none. Excused, 2 (Espero, Kidani).

SCRep. 460 (Joint) Public Safety, Intergovernmental, and Military Affairs and Housing on S.B. No. 1210

The purpose and intent of this measure is to authorize counties to develop public-private partnerships to construct relief sewers for affordable housing development projects.

Your Committees received testimony in support of this measure from the Hawaii Public Housing Authority, Building Industry Association of Hawaii, Chamber of Commerce Hawaii, and Ho'omana Pono, LLC.

Your Committees find that a lack of affordable housing is a growing and grave concern to the health, safety, and welfare of the people of the State. As home prices in the State continue to rise to levels far out of reach of many families, it is necessary to support the development of affordable housing. There are many obstacles to the development of affordable housing, including a lack of cooperation between government and private entities in the development of necessary infrastructure. This measure addresses this fundamental impediment to the development of affordable housing by authorizing counties to partner with private entities to construct relief sewers for affordable housing development projects.

Your Committees also note the recommendation offered by the Building Industry Association of Hawaii and Chamber of Commerce Hawaii that one county entity should oversee all private-public partnerships. Your Committees request that if your Committee on Ways and Means chooses to hear this measure, that your Committee on Ways and Means consider to identify the appropriate entity in each county to oversee all public-private partnerships.

Your Committees have amended this measure by:

- (1) Adding language establishing that an unnamed entity of the county will oversee all public-private partnerships; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Public Safety, Intergovernmental, and Military Affairs and Housing that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1210, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1210, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Public Safety, Intergovernmental, and Military Affairs: Ayes, 4. Noes, none. Excused, 1 (Baker).

Housing: Ayes, 3. Noes, none. Excused, 2 (Kahale, Keith-Agaran).

SCRep. 461 (Joint) Government Operations and Public Safety, Intergovernmental, and Military Affairs on S.B. No. 1297

The purpose and intent of this measure is to:

- (1) Appropriate funds to the Department of Accounting and General Services (DAGS) to update the state building code pursuant to the requirements of the Federal Emergency Management Agency (FEMA) hazard mitigation reimbursement grant awarded to the State; and
- (2) Require all reimbursements from the FEMA hazard mitigation grant to be deposited into the general fund.

Your Committees received testimony in support of this measure from the Hawaii State Fire Council, Hawaii Emergency Management Agency, Department of Public Works of the County of Maui, Kaua'i Fire Department, Mason Contractors Association of Hawaii, Masonry Institute of Hawaii, Structural Engineers Association of Hawaii, American Council of Engineering Companies of Hawaii, and one individual.

Your Committees find that the State Building Code Council (SBCC) is obligated to update the State Building Code every six years, and that the most recent update in 2010 was based on the 2006 International Building Code. Your Committees further find that SBCC requires funds to implement the adoption of the 2012 International Building Code with the State's amendments incorporating updated standards and wind maps for hurricane risk mitigation. Your Committees further find that a FEMA mitigation reimbursement grant was awarded to the State in November 2016 for this purpose and, after a review to determine that the conditions of the grant were met, FEMA will reimburse the State for the funds expended under this measure. Your Committees further find that public safety is best served by updating the State Building Code pursuant to modern International Standards and is necessary for compliance with FEMA disaster assistance requirements.

Your Committees have amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Government Operations and Public Safety, Intergovernmental, and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1297, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1297, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Government Operations: Ayes, 3. Noes, none. Excused, 2 (Galuteria, Tokuda).

Public Safety, Intergovernmental, and Military Affairs: Ayes, 3. Noes, none. Excused, 2 (Baker, Ihara).

SCRep. 462 (Joint) Government Operations and Economic Development, Tourism, and Technology on S.B. No. 1059

The purpose and intent of this measure is to:

- (1) Establish a three-year small business assistance initiative within the State Procurement Office to collect and develop small businesses data and information, and convene stakeholders to develop an effective small business program with actionable results;
- (2) Establish a small business assistance coordinator position, small business office, and small business advisory group as part of the small business initiative; and
- (3) Appropriate funds for the administration and operation of the small business initiative.

Your Committees received testimony in support of this measure from the State Procurement Office; Department of Defense; Chamber of Commerce Hawaii; Native Hawaiian Chamber of Commerce; Oahu Economic Development Board; Building Industry Association of Hawaii; Holomua Consulting Group, LLC; AMEL Technologies, Inc.; Native Hawaiian Veterans, LLC; RMA Sales; and Minatoishi Architects.

Your Committees find that establishing a small business initiative with adequate staff and funding is a necessary first step in improving the climate and outlook for small businesses in Hawaii. Your Committees find that small businesses are essential to the State's economy, create invaluable employment opportunities, and spur innovation and creativity. Additionally, small businesses owned by veterans, Native Hawaiians, and women are among the most vulnerable and disadvantaged in the State.

The three-year initiative proposed in this measure will for the first time produce relevant data and information on the small business community in Hawaii, including tracking small business participation in state contracts. Your Committees note that according to data mined from the State Procurement Office website, it appears that only three percent of state contracts are awarded to women-owned architectural and engineering firms located in Hawaii, a figure that is inexcusably low considering the growing numbers of women graduating from engineering and architecture schools today. Only through the collection of the data and metrics specified in this measure can a small business program that will ensure the long-term success of small businesses, including veteran-, Native Hawaiian-, and women-owned small businesses, in Hawaii be created going forward.

As affirmed by the records of votes of the members of your Committees on Government Operations and Economic Development, Tourism, and Technology that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1059 and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Government Operations: Ayes, 3. Noes, none. Excused, 2 (Rhoads, Tokuda).

Economic Development, Tourism, and Technology: Ayes, 3. Noes, none. Excused, 2 (Baker, Thielen).

SCRep. 463 Government Operations on S.B. No. 800

The purpose and intent of this measure is to appropriate funds to the Department of Accounting and General Services to conduct a study to determine various alternatives for the rehabilitation and renovation of the Hawaii State Capitol reflecting pool.

Your Committee received testimony in support of this measure from the Department of Accounting and General Services, Department of Land and Natural Resources, and one individual. Your Committee received testimony in opposition to this measure from one individual. Your Committee received comments on this measure from one individual.

Your Committee finds that the Hawaii State Capitol building is a significant work of public architecture in Hawaii and is listed on the Hawaii and National Registers of Historic Places. The Capitol building was designed to reflect the unique culture, history, and physical environment of the State, and the reflecting pools are an integral component of the vision of Hawaii evoked by the Capitol.

Since the completion of the 77,000 square foot reflecting pools in 1969, there have been various maintenance issues and concerns regarding leaks, algae, dead fish, water circulation, odor, and the general poor condition of the pools. Currently water appears to be leaking due to the deterioration of the waterproof liner and it is infiltrating the foundation and, if left unaddressed, could lead to structural damages that would require extensive, time-consuming, and extremely costly repairs. Pool water that is lost through evaporation or leaks is replenished with water from two underground wells that are located beneath the basement of the Capitol, and the compromised water source results in brackish water that promotes the growth of algae. Poor circulation of the water and the presence of various species of fish also contribute to the foul odors smelled near the pools and their overall unacceptable condition.

Your Committee finds that despite a comprehensive property condition report on the reflecting pools prepared for the Department of Accounting and General Services (DAGS) in 2004 outlining the deficiencies in the pools and recommending potential remedies, and a 2011 report completed by DAGS regarding a visual and water quality update on the reflecting pools, renovation work on the pools has never been completed and the condition of the pools continues to worsen. Your Committee further finds that the maintenance challenges regarding the reflecting pools have been a long-standing issue, and emphasizes the need to finally find a permanent solution to the problem, including viable alternatives to the pools, while preserving the integrity, cultural significance, and historical character of the structure.

As affirmed by the record of votes of the members of your Committee on Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 800 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Tokuda).

SCRep. 464 (Joint) Hawaiian Affairs and Water and Land on S.B. No. 641

The purpose and intent of this measure is to add the Chairperson of the Hawaiian Homes Commission or the Chairperson's designee as an ex officio voting member of the Commission on Water Resource Management.

Your Committees received testimony in support of this measure from the Department of Hawaiian Home Lands; Office of Hawaiian Affairs Beneficiary Advocacy and Empowerment Committee; Hawaiian Affairs Caucus of the Democratic Party of Hawai'i; and eighteen individuals. Your Committees received comments on this measure from the Department of Land and Natural Resources and one individual.

Your Committees find that water resources are an integral part of Native Hawaiian culture and practices. One of the goals in the Water Policy Plan of the Hawaiian Homes Commission is to "aggressively, proactively, consistently and comprehensively advocate for the kuleana of the beneficiaries."

Your Committees further find that this measure allows for greater advocacy for beneficiaries of the Hawaiian Homes Commission Act. However, your Committees also want to caution against "opening the floodgates" to organizations who may want a seat on the Commission on Water Resource Management in the future. Thus, it is the intent of your Committees to limit additional membership to government entities, such as the Department of Hawaiian Home Lands.

As affirmed by the records of votes of the members of your Committees on Hawaiian Affairs and Water and Land that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 641 and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Hawaiian Affairs: Ayes, 4. Noes, none. Excused, 1 (English).

Water and Land: Ayes, 3. Noes, none. Excused, 2 (Gabbard, Thielen).

SCRep. 465 (Joint) Hawaiian Affairs and Water and Land on S.B. No. 351

The purpose and intent of this measure is to:

- (1) Amend the various provisions affecting the Aha Moku Advisory Committee; and
- (2) Appropriate funds to support the mission of the Aha Moku Advisory Committee.

Your Committees received testimony in support of this measure from the Aha Moku Advisory Committee; Aha Moku System on Manokalanipo, the Island of Kauai; Ke One O Kakuhihewa; Democratic Party of Hawaii Hawaiian Affairs Caucus; and numerous individuals. Your Committees received testimony in opposition to this measure from one individual. Your Committees received comments on this measure from the Department of Land and Natural Resources.

Your Committees finds that the Aha Moku Advisory Committee is established under section 171-4.5, Hawaii Revised Statutes, to advise the Chairperson of the Board of Land and Natural Resources on Native Hawaiian natural resource management. The legislative

intent in authorizing the Aha Moku Advisory Committee included providing an opportunity for Hawaiians to work together to exhibit that traditional Hawaiian values and customs could be applicable to modern governmental affairs.

Your Committees further find that the betterment of the Native Hawaiians is apt to change with time as circumstances change, which necessitates statutory amendments.

Your Committees have amended this measure by:

- (1) Deleting amendments to section 171-4.5(b) and (c), Hawaii Revised Statutes, referencing oversight of the Aha Moku Advisory Committee, as well as native Hawaiian protocol expenses incurred while participating in meetings and events;
- (2) Inserting language to require the Department of Land and Natural Resources to:
 - (A) Include the expenses for conducting meetings and other related functions of the State Aha Moku System and Aha Moku Advisory Committee, including the salaries of the Executive Director and Administrative Assistant, in the Department's budget; and
 - (B) Provide administrative support to the Aha Moku Advisory Committee;
- (3) Inserting language to allow the special land and development fund to be used for any expenses incurred by the Aha Moku Advisory Committee;
- (4) Amending the appropriation for the Aha Moku Advisory Committee by:
 - (A) Increasing the amount to \$350,000 and the purpose of the appropriation for expenses of the Aha Moku Advisory Committee; and
 - (B) Providing that \$100,000 of the appropriation shall be divided proportionately as determined by the Aha Moku Advisory Committee, among the eight areas represented by the Aha Moku Advisory Committee members, and be used to pay for the annual Puwalu event; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Hawaiian Affairs and Water and Land that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 351, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 351, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Hawaiian Affairs: Ayes, 4. Noes, none. Excused, 1 (English).

Water and Land: Ayes, 3. Noes, none. Excused, 2 (Gabbard, Thielen).

SCRep. 466 (Joint) Hawaiian Affairs and Water and Land on S.B. No. 640

The purpose and intent of this measure is to:

- (1) Establish a pilot project at Makua Beach and Hawaii island to designate areas in public parks for planting and growing coconut trees for Hawaiian traditional and customary gathering practices; and
- (2) Appropriate funds for the pilot project.

Your Committees received testimony in support of this measure from twenty individuals. Your Committees received testimony in opposition to this measure from the Department of Land and Natural Resources.

Your Committees find that Makua Beach is a portion of the Keawaula section of Ka'ena Point State Park, on the island of O'ahu, traditionally associated with the Native Hawaiian practices of lua (warrior training) and la'au lapa'au (medicinal practices), and historically known as a site for lawai'a (fishing practices). Your Committees further find that Makua Beach needs to be restored and cleaned due to years of illegal driving on the beach and unmanaged camping, and other recreational use, which have created unacceptable, potentially hazardous accumulations of rubbish, human waste, charcoal, and nails from illegal bon fires. Additionally, this portion of Makua was previously used for military training, and as a result unexploded ordnance has been discovered and removed, but there is still uncertainty that all of the ordnance has been identified.

Your Committees further find that a rebalancing at Makua Beach between establishing low impact recreational use and restoring traditional and customary Hawaiian management values is necessary.

Your Committees have amended this measure by:

- (1) Inserting a purpose section;
- (2) Replacing the language requiring the Department of Land and Natural Resources to establish the pilot project at Makua Beach and on the Island of Hawaii with language requiring the Department to develop and implement a Hawaiian traditional and customary gathering practice program at Makua Beach, as a model project;
- (3) Specifying the purposes of the model project as supporting the restoration of Makua Beach and developing a model to manage Hawaiian traditional and customary gathering practices;
- (4) Requiring the Department of Land and Natural Resources to issue permits or written agreements to persons or entities for specific activities within designated areas;
- (5) Addressing the issues of liability for personal injury and property damage;

- (6) Encouraging the United States Army Garrison – Hawaii to work with the Department of Land and Natural Resources, as well as any person or entity authorized by the Department of Land and Natural Resources, to ensure that ordnance is cleared from the area designated for the coconut grove;
- (7) Requiring a report to the Legislature to include all actions completed to remove ordnance by the United States Army Garrison - Hawaii in the delineated area of cultivation, as well as on the feasibility of operating the program at other gathering places for cultivating coconut groves; and
- (8) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

Your Committees note to your Committee on Ways and Means that the requested amount of the appropriation is \$75,000 to clear land and acquire and install vehicle barricades and other types of demarcations and signage, in addition to costs associated with acquisition of actual coconuts and other related expenses.

As affirmed by the records of votes of the members of your Committees on Hawaiian Affairs and Water and Land that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 640, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 640, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Hawaiian Affairs: Ayes, 3. Noes, none. Excused, 2 (Green, Kim).

Water and Land: Ayes, 4. Noes, none. Excused, 1 (Kim).

SCRep. 467 Commerce, Consumer Protection, and Health on S.B. No. 127

The purpose and intent of this measure is to amend the Landlord-Tenant Code to prohibit discrimination based on lawful source of income in rental transactions, including advertisements for available rental dwelling units.

Your Committee received testimony in support of this measure from the Hawai'i Civil Rights Commission. Your Committee received testimony in opposition to this measure from the Hawai'i Association of REALTORS and Kaua'i Board of REALTORS. Your Committee received comments on this measure from the Office of Consumer Protection of the Department of Commerce and Consumer Affairs, Office of Hawaiian Affairs, and Hawaii Public Housing Authority.

Your Committee finds that low-income individuals and families often have a difficult time finding affordable housing rentals in Hawaii. These difficulties are exacerbated when landlords or advertisements for dwelling units refuse to accept the federal Housing Choice Voucher Program, otherwise known as Section 8 housing vouchers. Your Committee further finds that other states, and several large metropolitan areas in the country, have adopted laws to prohibit landlords from refusing to rent to those who participate in federal housing voucher programs. According to testimony received by your Committee, in recent years, a number of courts have held that state discrimination laws that protect against source of income discrimination are not preempted by federal Section 8 law and that the burden of participating in the Section 8 program is not onerous. This measure amends the State's Landlord-Tenant Code to prohibit discrimination in rental transactions, including advertisements for available rental dwelling units, based on lawful source of income and ensures that low-income individuals and families are able to access housing opportunities that may otherwise be unavailable to them.

Your Committee has heard the concerns raised in testimony regarding the appropriate location for the anti-discrimination provisions proposed by this measure. Your Committee understands that neither the Landlord-Tenant Code nor the chapter relating to discrimination in real property transactions is the most appropriate location for source-of-income discrimination provisions. However, it is your Committee's intent that the Office of Consumer Protection and the Hawaii Civil Rights Commission be the agencies responsible for acting on complaints based on source-of-income discrimination.

Your Committee has also heard the concerns raised in testimony regarding inspections of dwelling units by the Hawaii Public Housing Authority, who noted that the Authority may not always need to schedule a re-inspection and that the re-inspection requirements proposed by this measure may be overly burdensome.

Accordingly, your Committee has amended this measure by:

- (1) Adding the prohibitions against discrimination in rental transactions based on source of income into a new chapter of the Hawaii Revised Statutes, rather than as a new part in the Landlord-Tenant Code;
- (2) Clarifying the definition of "rental transaction";
- (3) Clarifying other prohibited discriminatory practices in a rental transaction;
- (4) Removing language that would have permitted a landlord to discriminate following a failed initial inspection and the dwelling unit was not re-inspected within three business days;
- (5) Specifying the remedies, including enforcement by civil action, which may be brought by an aggrieved renter;
- (6) Clarifying that the Office of Consumer Protection or the Hawaii Civil Rights Commission are the agencies that shall receive, investigate, and resolve disputes;
- (7) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (8) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 127, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 127, S.D. 1, and be referred to your Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 1 (Espero).

SCRep. 468 Commerce, Consumer Protection, and Health on S.B. No. 385

The purpose and intent of this measure is to:

- (1) Authorize insurers, mutual benefit societies, and health maintenance organizations to offer, sell, or renew, on or after January 1, 2018, a high deductible health plan in conjunction with a health savings account to an employer subject to the Prepaid Health Care Act together with a prepaid health care plan insurance policy; and
- (2) Specify limitations for high deductible health plans and health savings accounts.

Your Committee received testimony in support of this measure from the University Health Alliance; JTB Hawaii, Inc.; and one individual. Your Committee received testimony in opposition to this measure from the International Longshore and Warehouse Union, Local 142 and Americans for Democratic Action – Hawai‘i. Your Committee received comments on this measure from the Department of Labor and Industrial Relations, Department of Taxation, Department of the Attorney General, Hawaii Medical Service Association, and Kaiser Permanente Hawaii.

Your Committee finds that health savings accounts are authorized under federal law and afford employees and their families, who also have a high deductible health plan, a tax-advantaged medical savings account. A health savings account is not subject to federal income tax at the time of deposit and is portable, meaning unspent balances continue to accumulate over time and follow an employee, should the employee change jobs. Your Committee further finds that health savings accounts are not appropriate for every employee, but for those employees who may be better matched with a health savings account program rather than a group plan, health savings accounts offer significant financial incentives.

Your Committee has heard testimony from the Department of the Attorney General concerning the possibility that this measure may be subject to an Employee Retirement Income Security Act preemption challenge. Your Committee understands these concerns and believes this issue may warrant further discussion by your Committees on Judiciary and Labor and Ways and Means.

Your Committee has amended this measure by:

- (1) Clarifying that when a high deductible health plan is offered, sold, or renewed in conjunction with a health savings account, an employer must also ensure that a prepaid health care plan health insurance policy or plan contract, which meets the requirements of the Prepaid Health Care Act and is not a high deductible health plan, is also offered to each eligible insured;
- (2) Clarifying that insurers, mutual benefit societies, and health maintenance organizations are not required to serve as the primary custodian or trustee of a health savings account;
- (3) Specifying that the Department of Labor and Industrial Relations maintains the ability and oversight to determine if a high deductible health plan or health savings account complies with the Prepaid Health Care Act;
- (4) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 385, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 385, S.D. 1, and be referred to your Committees on Judiciary and Labor and Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 6; Ayes with Reservations (Espero, Ihara, Kidani). Noes, none. Excused, 1 (Ruderman).

SCRep. 469 Commerce, Consumer Protection, and Health on S.B. No. 208

The purpose and intent of this measure is to:

- (1) Adopt the National Conference of Insurance Legislators (NCOIL) Model Unclaimed Life Insurance Benefits Act (Model Act), which requires life insurers to conduct database searches using the federal Social Security Administration Death Master File or similar database to determine whether an insured has died; and
- (2) Require life insurers to use good faith efforts to locate any beneficiaries to a policy, contract, or retained asset account.

Your Committee received testimony in support of this measure from the American Council of Life Insurers and one individual. Your Committee received comments on this measure from the Department of Budget and Finance and Department of Commerce and Consumer Affairs.

Your Committee finds that since the inception of the NCOIL Model Act in 2011, twenty-three states have enacted laws based upon the Model Act. The Model Act provides a foundation for insurers to use the Social Security Administration Death Master File to obtain notice of death of an insured in the absence of a claim and search for beneficiaries within ninety days. Your Committee further finds that this measure establishes requirements that have become a national standard of consumer protection and enables timely compliance by all life insurers for consumers in the State.

Your Committee has amended this measure by:

- (1) Inserting language that specifies that an insurer comparison of in-force policies, contracts, and retained asset accounts shall be first conducted electronically, if records are available electronically, followed by using the most easily accessible insurer records;

- (2) Inserting language that specifies that the Death Master File comparison requirements do not limit an insurer from requesting a valid death certificate as part of any claims validation process;
- (3) Inserting language that authorizes the Insurance Commissioner to adopt rules to implement the provisions of this measure governing insurer comparisons against the Death Master File;
- (4) Deleting language that would have required an insurer, after notifying the Director of Finance upon the expiration of the statutory time period for escheat, to immediately submit an unclaimed policy or contract benefits or unclaimed retained asset accounts to the Director of Finance;
- (5) Inserting language that authorizes the Insurance Commissioner to use discretion to limit, exempt, or phase-in compliance with the requirements of this measure under certain circumstances; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 208, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 208, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 1 (Ihara).

SCRep. 470 Commerce, Consumer Protection, and Health on S.B. No. 1312

The purpose and intent of this measure is to establish:

- (1) Mandatory licensing for midwives, beginning July 1, 2019; and
- (2) A temporary advisory committee on midwife licensing, until July 1, 2019.

Your Committee received testimony in support of this measure from the Hawaii Women's Coalition, Midwives Alliance of Hawaii, Breastfeeding Hawaii, Health Mothers Healthy Babies Coalition of Hawaii, and eight individuals. Your Committee received testimony in opposition to this measure from the Hawai'i State Center for Nursing; American Congress of Obstetricians and Gynecologists, Hawaii Section; Hawaii Affiliate of the American College of Nurse-Midwives; The Queen's Health Systems; Birth Sovereignty; Hot Yoga Hilo; and over one hundred seventy individuals. Your Committee received comments on this measure from the Regulated Industries Complaints Office of the Department of Commerce and Consumer Affairs; Office of Hawaiian Affairs; Office of the Auditor; Board of Nursing; Kapi'olani Medical Center for Women and Children; Papa Ola Lokahi; We Are One, Inc.; and nine individuals.

Your Committee finds that midwives play a vital role in the home childbirth process. Midwives monitor the pregnant mother's health, monitor the weight, heart rate, and position of the baby, provide prenatal care, assist during labor and delivery, and offer guidance about breastfeeding and other newborn care issues. The important work performed by midwives necessarily has a direct effect on the health and safety of mothers and newborns. In recognition of this impact, the Office of the Auditor recently recommended that every person who provides maternity and prenatal services as a midwife be subject to mandatory licensing requirements, to protect health and safety and ensure that certain minimum standards and qualifications are met. This measure therefore establishes mandatory licensing requirements for persons who engage in the practice of midwifery care.

However, your Committee has heard the concerns that this measure does not distinguish between different kinds of midwives. According to testimony received by your Committee, the paths to becoming a certified nurse midwife, a certified midwife, and a certified professional midwife vary greatly. Your Committee notes that certified nurse midwives require a registered nurse license and an advanced practice registered nurse license. Certified nurse midwives in Hawaii are already regulated by the Board of Nursing and your Committee understands that putting lay midwife licensure under the Board of Nursing may require the Board to oversee a health care profession outside of the profession of nursing.

Your Committee has also heard the concerns that this measure makes no exemptions for licensure for traditional Native Hawaiian healers. Your Committee appreciates the important role Native Hawaiian healers play in maternal and child care and also recognizes and appreciates the unique right, guaranteed under the Hawaii State Constitution, of Native Hawaiians to practice and perpetuate their cultural and religious beliefs. Accordingly, your Committee concludes that amendments to this measure are necessary to make it clear that the licensing structure contemplated by this measure shall apply only to certified midwives and certified professional midwives.

Your Committee notes that, rather than establishing an advisory committee under the Board of Nursing, a more appropriate avenue for licensure is to establish a separate Board of Midwifery, within the Department of Commerce and Consumer Affairs, which shall focus on licensing and oversight of certified midwives and certified professional midwives. Your Committee also notes that additional amendments to this measure are necessary to establish regulations for certified midwives and certified professional midwives that are based on the standards and best practices adopted by the United States Midwifery Education, Regulation, and Association coalition.

Accordingly, your Committee has amended this measure by:

- (1) Updating definitions;
- (2) Establishing a seven-member Board of Midwifery, rather than an advisory committee to the State Board of Nursing, within the Department of Commerce and Consumer Affairs, who shall oversee the licensing and regulation of licensed certified midwives and licensed certified professional midwives in Hawaii;
- (3) Clarifying the composition, terms, and appointment of members of the Board of Midwifery;

- (4) Requiring the Board of Midwifery to establish scope of practice standards for the practice of midwifery by licensed certified midwives and licensed certified professional midwives and requiring the standards to:
 - (A) Be based on standards and scope of practice established by the United States Midwifery Education, Regulation, and Association coalition for certified midwives and certified professional midwives; and
 - (B) Include requirements for educational standards, ethical conduct, client protection, disclosures, immunity from vicarious liability, and recordkeeping;
- (5) Clarifying the licensure requirements for certified midwives and certified professional midwives;
- (6) Clarifying the exemptions from licensure requirements, including exempting certified nurse midwives regulated by the Board of Nursing and traditional Native Hawaiian healers recognized as such by a council convened by Papa Ola Lokahi;
- (7) Clarifying that unless otherwise exempted, after December 31, 2020, no person shall practice midwifery in Hawaii or hold themselves out as a certified midwife or certified professional midwife without being appropriately licensed;
- (8) Requiring the Department of Commerce and Consumer Affairs to convene a working group of interested stakeholders to consider certain matters related to the practice of midwifery in Hawaii and report to the Legislature prior to the convening of the Regular Session of 2018;
- (9) Requiring the Board of Midwifery to establish the midwifery licensing program by July 1, 2019; provided that licenses for certified midwives and certified professional midwives shall be issued by the board beginning July 1, 2020, and requiring the Board to submit a report to the Legislature, no later than twenty days prior to the Regular Session of 2019, regarding the status of the licensing program;
- (10) Deleting language that would have established requirements for client protection, disclosure, record keeping, and immunity from vicarious liability, as these requirements will be based on standards established by the United States Midwifery Education, Regulation, and Association coalition;
- (11) Deleting language that would have established a temporary advisory council to the Board of Nursing on midwife licensing matters;
- (12) Inserting an effective date of July 1, 2020, to encourage further discussion;
- (13) Updating the purpose section; and
- (14) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1312, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1312, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 7; Ayes with Reservations (Chang). Noes, none. Excused, none.

SCRep. 471 Commerce, Consumer Protection, and Health on S.B. No. 1129

The purpose and intent of this measure is to enact a death with dignity act in Hawaii.

Your Committee received testimony in support of this measure from the American Civil Liberties Union of Hawai'i; LGBT Caucus of the Democratic Party of Hawai'i; Compassion & Choices; Compassion and Choices Hawai'i; International Longshore and Warehouse Union Local 142; Chamber of Commerce for Persons with Disabilities – Hawaii; Hawai'i Death with Dignity Society; Hawai'i State Democratic Women's Caucus; Nursing Advocates & Mentors, Inc.; Filipino-American Advocacy Network; Kupuna Caucus of the Democratic Party of Hawai'i; Hawai'i Friends of Civil Rights; Americans for Democratic Action – Hawai'i; Democratic Party of Hawai'i; Hawai'i Advocates for Consumer Rights; First Unitarian Church of Honolulu; Life of the Land; Progressive Democrats of Hawaii; Rainbow Family 808; Ho'omana Pono, LLC; and over two hundred individuals. Your Committee received testimony in opposition to this measure from the Hawaii Republican Party; Hawaii Family Forum; Hawaii Federation of Republican Women; St. Francis Healthcare System of Hawaii; Hawaii Life Alliance; Concerned Women for America of Hawaii; American Nurses Association; Disability Rights Education & Defense Fund; Hawaii Catholic Conference; The Prayer Center of the Pacific; Not Dead Yet; Second Thoughts Massachusetts; Disability Rights Advocates Against Assisted Suicide; and over five hundred individuals. Your Committee received comments on this measure from the Department of the Attorney General, Department of Health, Board of Nursing, Kokua Mau, Hawai'i Psychological Association, Hawaii Association for Justice, and six individuals.

Your Committee finds that medical aid in dying is a medical practice in which a mentally capable, terminally ill adult with six months or less to live may request a prescription for a medication that the terminally ill adult can self-administer to achieve death in a peaceful, humane, and dignified manner. While hospice and palliative care are widely available and may be an excellent option for some, care provided through these methods is still within the control of a health care provider, not a terminally ill patient who may wish for the freedom to make the patient's own end-of-life decisions. Furthermore, the American public consistently supports medical aid in dying. According to testimony received by your Committee, in Hawaii, a recent poll found that eighty percent of respondents were in favor of this end-of-life care option across all demographics, including ethnicity, age, economic status, and religion.

Your Committee further finds that this measure is modeled after Oregon's groundbreaking Death with Dignity Act, which has been in effect for over twenty years and was enacted during a time when no other state authorized the medical practice of aid in dying. Since that time, other states, including California, Colorado, Vermont, and Washington, have evaluated Oregon's experience and have enacted similar legislation. Your Committee also finds that medical aid in dying is a safe and trusted practice. In the states that have authorized the practice, there has not been a single documented instance of coercion or abuse. The laws in these other states are

working as intended. Furthermore, rather than posing a risk to patients or the medical profession, Oregon's Death with Dignity Act has galvanized significant improvements in the care of the state's terminally ill and dying.

Your Committee additionally finds that the availability of the option of medical aid in dying gives a terminally ill individual autonomy, control, and choice. Your Committee notes that this choice is the overwhelming motivational factor behind the decision to request assistance in dying. A terminally ill individual who seeks medical aid in dying may ultimately not choose to exercise this option; however, the mere availability of such a choice can bring comfort to people in their final days.

Your Committee further finds that any medical aid in dying legislation must include proper safeguards that prevent abuse and coercion. In order for any medical aid in dying option to truly be a choice, it must not be the only option. Accordingly, this measure includes numerous, strict safeguards that protect against abuse and coercion and promote choice. This measure establishes strict eligibility criteria and guidelines that meet the highest standard of care for the medical practice of aid in dying, as described in clinical criteria published in the Journal of Palliative Medicine. Under this measure, to be eligible for aid-in-dying medication, adults must be terminally ill, with a prognosis of six months or less to live, and be mentally capable of making their own health care decisions. Importantly, this measure clearly states that no person shall qualify for medical aid in dying solely based on age or disability.

This measure also has core safeguards that require the attending provider to inform terminally ill adults about other end-of-life options, including comfort care, hospice care, and pain control; require a second provider to confirm the terminal diagnosis, prognosis, and mental capability; and require the terminally ill adult to make two verbal and one written request, signed by two witnesses. In keeping with the overarching theme of choice, this measure clearly states that a qualified patient may rescind a request at any time and in any manner. Furthermore, providers may not write a prescription for medication under this measure without offering a qualified patient the opportunity to rescind a request.

Your Committee concludes that a terminally ill person's end-of-life choices are deeply personal, private matters that should be left to the patient, the patient's family, and the patient's attending provider. Accordingly, this measure permits mentally capable, terminally ill adults in Hawaii to have the choice and autonomy to make informed decisions regarding their end-of-life care.

Your Committee notes that advanced practice registered nurses are a vital part of the health care system in Hawaii and are primary care providers to many patients in the State, particularly in rural areas of the neighbor islands. Amendments to this measure are necessary to ensure advanced practice registered nurses are included in the role of attending providers and consulting providers for qualified patients. Your Committee also notes that the Department of the Attorney General testified that certain language in this bill, regarding identified agents of the patient and protection from civil or criminal liability may need to be clarified. Your Committee notes that additional discussion by your Committee on Judiciary and Labor may be warranted to address these issues.

Your Committee has amended this measure by:

- (1) Clarifying that the new chapter proposed shall be titled, "Medical Aid in Dying Act";
- (2) Amending the definitions of "attending physician" and "consulting physician" to "attending provider" and "consulting provider", respectively, to include advanced practice registered nurses and making associated conforming amendments;
- (3) Amending the definition of "counseling" to include an advanced practice registered nurse;
- (4) Inserting a definition of "health care facility";
- (5) Clarifying that medication prescribed to qualified patients may be taken only through self-administration;
- (6) Clarifying that one of the witnesses for a patient in a long-term care facility must have qualifications specified by the Department of Health, rather than the Department of Human Services;
- (7) Requiring a patient's death certificate to list the underlying terminal disease as the cause of death;
- (8) Clarifying that a civil identification card, commonly known as a Hawaii state identification card, may be used as a factor demonstrating state residency;
- (9) Providing immunity from liability for health care facilities participating in good faith compliance with this measure;
- (10) Making conforming amendments to clarify that existing law on advanced health care directives, pain patients' bill of rights, and provisions in the penal code on murder in the second degree and manslaughter, do not apply to actions taken under this measure; and
- (11) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1129, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1129, S.D. 1, and be referred to your Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 1 (Espero).

SCRep. 472 Commerce, Consumer Protection, and Health on S.B. No. 382

The purpose and intent of this measure is to make various updates to the structure and operations of the Public Utilities Commission to increase efficiency and effectiveness, including:

- (1) Permitting teleconference and videoconference abilities;
- (2) Updating the composition of the Commission;

- (3) Specifying training requirements for commissioners;
- (4) Clarifying commissioners' ability to appoint and employ staff;
- (5) Permitting neighbor island commissioners to receive per diem compensation and compensation for travel expenses;
- (6) Requiring the Commission to report to the Legislature regarding certain staff duties; and
- (7) Requiring a management audit of the Commission.

Your Committee received testimony in support of this measure from the Division of Consumer Advocacy of the Department of Commerce and Consumer Affairs; Young Brothers, Limited; and two individuals. Your Committee received comments on this measure from the Public Utilities Commission; Office of the Auditor; and International Brotherhood of Electrical Workers Local Union 1260, AFL-CIO.

Your Committee finds that the Public Utilities Commission (Commission) has several long and short term goals that reflect the Commission's increased work complexity and program responsibilities, which go beyond the Commission's traditional regulatory role. Due to the Commission's increasing responsibilities and the evolution of the regulatory landscape, it is essential that the structure and operations of the Commission be updated to enable the Commission to operate more efficiently and effectively, consistent with best practices.

Your Committee further finds that the Commission and its commissioners are required to fill three equally essential and nonexclusive roles. In their quasi-administrative capacity, commissioners interpret policy and apply technical expertise to the routines of rulemaking, implementation, and enforcement. In their quasi-legislative capacity, commissioners craft policy and inform and support policymaking by other bodies. In their quasi-judicial capacity, commissioners must make findings and rulings in the context of particular cases, in accordance with established law and legal procedures. Commissioners serving on the Commission therefore fill a unique role, and careful consideration and deliberation must be given to ensure that the Commission is able to operate in a collaborative, cohesive manner.

Your Committee finds that this measure is an important step to increase efficiency and effectiveness of the Commission. However, additional amendments are necessary to ensure improvements such as greater collaboration, better diversity of background and experience amongst commissioners, transparency, improved utilization of staff, and adequate training.

Accordingly, your Committee has amended this measure by:

- (1) Broadening the scope of the guiding principles of the Commission to encompass all regulated entities under the Commission's jurisdiction;
- (2) Requiring the Commission to establish a docket review and decision-making process that encourages collaboration;
- (3) Clarifying that a commissioner may attend a public hearing or meeting or work with staff by teleconference or videoconference in specific situations;
- (4) Requiring the Executive Officer, Chief Counsel, Chief of Policy and Research, and any individual employed as or in the role of a hearings officer of the Commission to annually file a disclosure of financial interests with the State Ethics Commission and requiring these disclosures to be public;
- (5) Clarifying the procedure for filling a vacancy that occurs during a commissioner's term;
- (6) Clarifying the composition of the Commission to ensure a diversity of knowledge, expertise, and backgrounds;
- (7) Clarifying the educational and training opportunities for commissioners and key staff;
- (8) Enabling commissioners to request and be provided with the services of a Commission staff attorney and a researcher to assist the requesting commissioner on commission-related work;
- (9) Clarifying that each commissioner, other than the chairperson, may appoint and employ a clerical or support staff person to assist with that commissioner's duties;
- (10) Specifying that the Chief Counsel of the Commission must devote full time to the Chief Counsel's duties and may not hold other public office, employment, or have any interest in a public utility while serving as Chief Counsel;
- (11) Clarifying that the Executive Officer of the Commission shall not be involved in the development of policy or in any decision making for the Commission;
- (12) Updating the contents of the requested management audit;
- (13) Specifying that the Governor shall nominate the two additional commissioners to the Commission beginning on Opening Day of the 2018 Regular Session of the Legislature, and requiring the Commission to be comprised of five commissioners who reflect the requisite diversity of background, experience, gender, and residency, by July 1, 2018;
- (14) Inserting an effective date of July 1, 2050, to encourage further discussion; provided that the increase in commissioners to the Commission shall take effect January 1, 2018;
- (15) Updating the purpose section; and
- (16) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

Your Committee notes that this amended measure is a work in progress and additional discussion may be warranted to ensure that the Commission operates as efficiently and effectively as possible. For example, this amended measure clarifies the role of the

Executive Officer, who serves in a statutorily-designated administrative capacity, as well as the Chief Counsel. Your Committee notes that further discussion may be needed to determine to what extent, if any, the commissioners may amend such statutorily determined roles should they desire to do so.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 382, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 382, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5; Ayes with Reservations (Chang, Ihara). Noes, none. Excused, 2 (Espero, Ruderman).

SCRep. 473 (Joint) Economic Development, Tourism, and Technology and Higher Education on S.B. No. 1191

The purpose and intent of this measure is to:

- (1) Extend the motion picture, digital media, and film production income tax credit for an additional ten years to provide economic incentive predictability for the film industry; and
- (2) Increase accountability for educational and workforce development contributions associated with the credit.

Your Committees received testimony in support of this measure from the Department of Business, Economic Development, and Tourism; County of Kauai, Office of Economic Development; University of Hawaii System; Motion Picture Association of America; SAG-AFTRA Hawaii Local; I.A.T.S.E. Local 665; A.F.M. Local 677; Teamsters Local 996; Hawaii State AFL-CIO; and five individuals. Your Committees received comments on this measure from the Department of Taxation, Office of the Auditor, and Tax Foundation of Hawaii.

Your Committees find that the motion picture, digital media, and film production income tax credit provides consistency and certainty for production planning, industry growth, and development of new infrastructure. Your Committees find that the measure would provide potential funding to support students at the University of Hawaii in creative media programs and projects. Your Committees further find that this measure will have a positive impact in ensuring support for the film production industry while helping to develop a strong workforce for the growing industry in the State.

Your Committees have amended this measure by:

- (1) Changing the effective date to January 1, 2020; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Economic Development, Tourism, and Technology and Higher Education that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1191, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1191, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Economic Development, Tourism, and Technology: Ayes, 3. Noes, none. Excused, 2 (Baker, Thielen).

Higher Education: Ayes, 3. Noes, none. Excused, 2 (Keith-Agaran, Taniguchi).

SCRep. 474 (Joint) Economic Development, Tourism, and Technology and Higher Education on S.B. No. 907

The purpose and intent of this measure is to:

- (1) Repeal the Department of Business, Economic Development, and Tourism's ongoing reporting requirement to the Legislature regarding greenhouse gas emissions; and
- (2) Redirect the Department of Business, Economic Development, and Tourism's responsibility to appoint the panel to conduct the evaluation of the Energy Systems Development Special Fund projects to the University of Hawaii.

Your Committees received testimony in support of this measure from the Department of Business, Economic Development, and Tourism; and University of Hawai'i System. Your Committees received testimony in opposition to this measure from one individual.

Your Committees find that the Greenhouse Gas Emissions Reduction Task Force was dissolved in 2010; therefore, reporting every five years is no longer practical or useful. Your Committees further find that the Hawaii Natural Energy Institute comes under the purview of the University of Hawaii. Thus, the University of Hawaii would be the proper entity to appoint the panel to conduct the evaluation of the Energy Systems Development Special Fund projects.

As affirmed by the records of votes of the members of your Committees on Economic Development, Tourism, and Technology and Higher Education that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 907 and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Economic Development, Tourism, and Technology: Ayes, 3. Noes, none. Excused, 2 (Baker, Thielen).

Higher Education: Ayes, 4. Noes, none. Excused, 1 (Keith-Agaran).

SCRep. 475 (Joint) Economic Development, Tourism, and Technology and Public Safety, Intergovernmental, and Military Affairs on S.B. No. 1290

The purpose and intent of this measure is to:

- (1) Provide a fair, consistent, and predictable priority allocation of transient accommodations tax revenues to the tourism special fund;
- (2) Maintain the allocation of transient accommodations tax revenues to existing obligations at present levels;
- (3) Provide a fair, consistent, and predictable allocation of the balance of the transient accommodations tax revenues between the State and the counties; and
- (4) Provide flexibility to the tourism special fund, State, and counties in the utilization of their respective allocations.

Your Committees received testimony in support of this measure from the Office of the Managing Director, City and County of Honolulu; County of Hawaii; Hawai'i County Council; County Council, County of Maui; Hawaii State Association of Counties; and four individuals. Your Committees received testimony in opposition to this measure from the Hawaii Tourism Authority. Your Committees received comments on this measure from the Department of Budget and Finance and Tax Foundation of Hawaii.

Your Committees find that the transient accommodations tax has evolved, and its structure and frequent amendment, combined with the cyclical nature of the visitor industry and the tax revenues it generates, has resulted in ongoing discussion among various stakeholders as to simplifying and clarifying the tax. Your Committees find that the application of the transient accommodations tax and the allocation of its revenues should be clear, consistent, and predictable over time. Your Committees further find that the transient accommodations tax is a vital revenue source for the counties and that allocating forty-five percent of the remaining revenues to the counties will create a fair, consistent, and predictable allocation between the State and counties.

Your Committees have amended this measure by:

- (1) Removing language that would have adjusted the Hawaii Tourism Authority budget based on inflation;
- (2) Removing the \$500,000 allocation for structural improvements to parks and public facilities to be determined with community input;
- (3) Increasing the allocation for the operation of a Hawaiian center and the museum of Hawaiian music and dance at the Hawaii convention center to \$1,000,000; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Economic Development, Tourism, and Technology and Public Safety, Intergovernmental, and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1290, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1290, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Economic Development, Tourism, and Technology: Ayes, 3. Noes, none. Excused, 2 (Taniguchi, Thielen).

Public Safety, Intergovernmental, and Military Affairs: Ayes, 3. Noes, none. Excused, 2 (Ihara, Thielen).

SCRep. 476 Education on S.B. No. 281

The purpose and intent of this measure is to appropriate funds to the Department of Education for completing the second phase of planning, design, and construction for a new high school in Kihei, Maui.

Your Committee received testimony in support of this measure from the Department of Education and one individual.

Your Committee finds that significant population growth on the island of Maui, particularly in the Kihei-Makena region, along with geographical separation of the southern area of Maui from existing central Maui high schools, has created a need for a new high school in south Maui. Your Committee further finds that the Legislature appropriated \$130,000,000 for the completion of this high school, but fiscal concerns and changes in administration resulted in only the first phase of the project being completed. This measure will appropriate funds to finish the second phase of the project and construct the physical buildings of the new high school.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 281 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Dela Cruz, Riviere).

SCRep. 477 Education on S.B. No. 318

The purpose and intent of this measure is to allow home schooled students to participate in extracurricular activities offered at the public school that they would otherwise be required to attend.

Your Committee received testimony in support of this measure from one individual. Your Committee received comments on this measure from the Department of Education.

Your Committee finds that extracurricular activities provide valuable opportunities for children to interact with peers and build important social skills. Your Committee further finds that these activities are frequently offered by schools, and that home schooled children are limited in their ability to participate in them. This measure will allow home schooled children to benefit from extracurricular activities.

Your Committee has amended this measure by:

- (1) Adding language requiring that, before participating in extracurricular activities, home schooled students shall:

- (A) Submit their birth certificate and proof of residency to the Department of Education; and
 - (B) Be registered as a home schooled student at the beginning of the school year and at least twelve months prior to participation; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 318, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 318, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Dela Cruz, Riviere).

SCRep. 478 (Joint) Education and Higher Education on S.B. No. 647

The purpose and intent of this measure is to:

- (1) Make appropriations to:
 - (a) Leeward Community College for its special education coursework for teacher licensure; and
 - (b) The Department of Education's alternate teacher route contract and teacher induction and mentoring programs;
- (2) Require the Auditor to report on teacher retention statistics on a school-by school basis; and
- (3) Allow retired teachers to be rehired to teach if they earn no more than certain amounts.

Your Committees received testimony in support of this measure from the Department of Education; University of Hawai'i System; Office of the Vice President of Community Colleges, University of Hawai'i System; and twenty-nine individuals. Your Committees received testimony in opposition to this measure from the Employees' Retirement System. Your Committees received comments on this measure from the Office of the Auditor and one individual.

Your Committees find that there is a shortage of qualified teachers in Hawaii's public schools that has a detrimental effect on student learning. Your Committees further find that innovative, non-traditional programs exist for the recruitment and development of teachers. This measure will provide support for innovative programs to bring qualified teachers into the State's public school classrooms.

Your Committees additionally find that certain statutory provisions relating to retirement are necessary to fulfill federal requirements for the tax-qualified status of the state retirement system. The Employees' Retirement System testified that rehiring of retired teachers may jeopardize that tax-qualified status.

Accordingly, your Committees have amended this measure by:

- (1) Removing language allowing the rehiring of retired teachers; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Education and Higher Education that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 647, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 647, S.D. 1, and be referred to your Committees on Judiciary and Labor and Ways and Means.

Signed by the Chairs on behalf of the Committees.
Education: Ayes, 3. Noes, none. Excused, 2 (Dela Cruz, Riviere).
Higher Education: Ayes, 3. Noes, none. Excused, 2 (Keith-Agaran, Taniguchi).

SCRep. 479 (Joint) Transportation and Energy and Judiciary and Labor on S.B. No. 792

The purpose and intent of this measure is to transfer all fines and forfeitures collected for uncontested traffic violations to the county wherein the violations occur.

Your Committees received testimony in support of this measure from the Council Chair of the Kaua'i County Council. Your Committees received comments on this measure from the Judiciary.

Your Committees find that the counties administer the traffic violations bureau on behalf of the State. Under existing law all traffic violation fines are paid to the State but are collected by the counties.

Your Committees further find that the counties are in dire financial straits and desperately need more revenue. Your Committees believe that the counties should share in the revenue from certain traffic fines.

Your Committees have amended this measure by:

- (1) On the recommendation of the Judiciary, inserting language that mandates an unspecified amount to be transferred to the counties rather than all amounts in excess of the amounts required by the State to pay the administrative costs of the traffic violations bureau;
- (2) Clarifying that each county shall receive an unspecified percentage of the fines collected in that county; and
- (3) Inserting an effective date of January 1, 2020, to encourage further discussion.

As affirmed by the records of votes of the members of your Committees on Transportation and Energy and Judiciary and Labor that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 792, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 792, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Transportation and Energy: Ayes, 3. Noes, none. Excused, 2 (English, Harimoto).

Judiciary and Labor: Ayes, 4. Noes, none. Excused, 1 (Kim).

SCRep. 480 Transportation and Energy on S.B. No. 361

The purpose and intent of this measure is to establish a tax incentive for energy storage to support the development of energy storage for residential, commercial, and utility-scale systems.

More specifically, this measure:

- (1) Establishes an income tax credit for taxpayers who purchase and install eligible energy storage systems where the amount of credit depends on type of system installed, filing status, and federal adjusted gross income of the taxpayer beginning with taxable years after 2017;
- (2) Allows excess credit to carry-over to subsequent tax years or be refundable under certain conditions; and
- (3) Amends the reusable energy technologies tax credit to harmonize definitions.

Your Committee received testimony in support of this measure from the Hawaii Solar Energy Association; Distributed Energy Resources Council of Hawaii; Air-Conditioning, Heating and Refrigeration Institute; Amber Kinetics; and three individuals. Your Committee received testimony in opposition to this measure from the Department of Commerce and Consumer Affairs, Division of Consumer Advocacy. Your Committee received comments on this measure from the Department of Taxation; Department of Business, Economic Development, and Tourism; Tax Foundation of Hawaii; and Ulupono Initiative.

Your Committee finds that supporting the growth and development of alternative energy is essential to the future health of the State. A strong local economy depends on a transition away from traditional, imported fuel sources and toward renewable, local resources. The Legislature has recognized the importance of this transition and has established a goal of a one hundred percent renewable energy economy in the State by 2045. One way to advance the transition to renewable sources of energy is to incentivize the adoption of renewable energy storage systems through a tax credit. Your Committee, however, understands the concerns raised in testimony that a tax credit, such as one targeting renewable energy storage systems, should be fiscally responsible. It is therefore important to ensure that those to whom the credit is available do not abuse the tax incentive system and to establish an end date for the incentive program.

Your Committee has amended this measure by:

- (1) Clarifying that owners and not users of energy storage systems are eligible for the tax credits;
- (2) Establishing a cap for the tax credit available to owners of combined energy storage and solar energy systems;
- (3) Inserting language that no tax credit may be claimed for taxable years beginning after December 31, 2035;
- (4) Requiring the Department of Business, Economic Development, and Tourism to conduct a study and report to the Legislature on, among other things, the adoption of energy storage systems in the State and the impact of the tax credit; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Transportation and Energy that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 361, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 361, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (English, Harimoto).

SCRep. 481 Transportation and Energy on S.B. No. 665

The purpose and intent of this measure is to:

- (1) Replace the current renewable energy technology systems tax credit with tax credits for solar energy property, wind energy property, and energy storage property; and
- (2) Establish a new calculation method and cap amount for the tax credit for a solar energy property and an energy storage property.

Your Committee received testimony in support of this measure from the Hawaii Solar Energy Association, Amber Kinetics, Distributed Energy Resources Council of Hawaii, Ulupono Initiative, and three individuals. Your Committee received comments on this measure from the Department of Business, Economic Development, and Tourism; Department of Taxation; Tax Foundation of Hawaii; and one individual.

Your Committee finds that supporting the growth and development of alternative energy and alternative energy storage is essential to the future health of the State. Part of that support requires the encouragement of widespread adoption of wind, solar, and energy storage properties. Tax credits are an effective method of fostering the development of these essential components of the State's changing energy landscape. Your Committee, however, understands the concerns raised in testimony that a tax credit, such as one targeting renewable energy systems, should be fiscally responsible. It is therefore important to ensure that those to whom the credit is

available do not abuse or circumvent the tax credit offering and to also establish an end date for the incentive program to minimize the potential for abuse.

Your Committee has amended this measure by:

- (1) Establishing a cap for the credit available to owners of combined energy storage and solar energy systems;
- (2) Inserting language that no tax credit shall be allowed after the taxable year ending December 31, 2035; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Transportation and Energy that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 665, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 665, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (English, Harimoto).

SCRep. 482 (Joint) Water and Land and Economic Development, Tourism, and Technology and Housing on S.B. No. 671

The purpose and intent of this measure is to authorize the Department of Land and Natural Resources (DLNR) and the Hawaii Community Development Authority (HCDA) to negotiate and execute leases up to ninety-nine years on DLNR and HCDA lands that are located within one-half mile of the City and County of Honolulu's planned rail transit stations, provided that affordable housing is included in the development plan for the lands to be leased.

Your Committees received testimony in support of this measure from the Hawaii Habitat for Humanity Association. Your Committees received testimony in opposition to this measure from one individual. Your Committees received comments on this measure from the Department of Land and Natural Resources, Hawaii Community Development Authority, and Department of Human Services.

Your Committees find that it is in the public interest to encourage mixed-use development that includes affordable housing on state lands near the planned rail transit stations, and that extending the maximum lease term that DLNR and HCDA may negotiate for certain property to ninety-nine years will incentivize such private development by supporting long-term sustainable development plans. Your Committees find that encouraging transit-oriented development projects will contribute to the overall success of the public transportation projects in the State and will vitalize urban areas. Your Committees further find that requiring safe, adequate, and affordable housing in mixed-use developments strengthens communities as affordable and stable housing is linked with improved health, education, and economic outcomes for families and children.

Your Committees have amended this measure by:

- (1) Clarifying that the authority granted to DLNR and HCDA is contingent upon all housing built in a mixed-use development being reserved for residents and families earning up to sixty percent of the area median income, rather than affordable housing being included in the mixed-use development plan for lands to be leased;
- (2) Expanding the geographic area to lands within one mile of a rail transit station being eligible for a lease;
- (3) Inserting an effective date of March 15, 2050, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Water and Land, Economic Development, Tourism, and Technology, and Housing that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 671, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 671, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Water and Land: Ayes, 3. Noes, none. Excused, 2 (Inouye, Kim).

Economic Development, Tourism, and Technology: Ayes, 3. Noes, none. Excused, 2 (Baker, Taniguchi).

Housing: Ayes, 3; Ayes with Reservations (Espero). Noes, none. Excused, 2 (Keith-Agaran, Nishihara).

SCRep. 483 (Joint) Water and Land and International Affairs and the Arts on S.B. No. 847

The purpose and intent of this measure is to authorize the issuance of general obligation bonds and appropriate funds for the planning, design, and construction of a visitor and interpretative center at Diamond Head State Monument if the Department of Land and Natural Resources seeks private or federal funds.

Your Committees received testimony in support of this measure from the Department of Land and Natural Resources, Diamond Head Citizens Advisory Committee, and one individual. Your Committees received testimony in opposition to this measure from two individuals.

Your Committees find that the Diamond Head State Monument is one of the icons that represent Hawaii around the world and attracted over one million visitors in 2016. Your Committees further find that there is a critical need for a visitor and interpretive center at the State Monument to enrich the current visitor experience by offering enhanced education, services, and management of this heavily visited and significant attraction.

As affirmed by the records of votes of the members of your Committees on Water and Land and International Affairs and the Arts that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 847 and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Water and Land: Ayes, 4. Noes, none. Excused, 1 (Kim).

International Affairs and the Arts: Ayes, 4. Noes, none. Excused, 1 (Shimabukuro).

SCRep. 484 Water and Land on S.B. No. 808

The purpose and intent of this measure is to appropriate funds to the Department of Land and Natural Resources for the operational expenses and staffing costs of the Hawaii Association of Conservation Districts.

Your Committee received testimony in support of this measure from the Department of Agriculture; Department of Land and Natural Resources; Hawaii Association of Conservation Districts; Hawai'i Farm Bureau; Hawaii Cattleman's Council; Local Food Coalition; Hawaii Crop Improvement Association; Hawaii Coffee Association; Ka'u Soil and Water Conservation District; East Kauai Soil and Water Conservation District; East and West Kauai Soil and Water Conservation Districts; Kauai County Farm Bureau; Waiakea Soil and Water Conservation District; Larry Jeffs Farms, LLC; and nine individuals.

Your Committee finds that the Hawaii Association of Conservation Districts, through the Soil and Water Conservation Districts (SWCDs), assists government agencies in identifying and implementing culturally sensitive projects and practices to ensure the protection of Hawaii's environment. The SWCDs bring significant financial resources to Hawaii to improve farm practices, reduce erosion, improve water quality, fight invasive species, improve public safety, protect property, conserve water, and strengthen the economy. SWCDs also provide education and community support for conservation awareness, and assist each county in reviewing county grading permits and conservation plans. The SWCD Program does not have a base budget appropriation, and funding is required in order for the SWCDs to continue their activities, which undoubtedly benefit the people of Hawaii.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 808 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Thielen).

SCRep. 485 Water and Land on S.B. No. 987

The purpose and intent of this measure is to:

- (1) Expand the use of the transaction fee authorized under Act 120, Session Laws of Hawaii 2009, to include purchases of software, project management and implementation, workflow improvements, and services related to the management, archiving, preservation, and accessibility of records at the Bureau of Conveyances and the Office of the Assistant Registrar of the Land Court; and
- (2) Clarify that the transaction fee authorized under Act 120, Session Laws of Hawaii 2009, as amended by this measure, shall be repealed on the effective date of administrative rules adopted by the Department of Land and Natural Resources that include the establishment of a transaction fee for each recording in the Bureau of Conveyances and in the Office of the Assistant Registrar of the Land Court, or on July 1, 2022, whichever occurs first.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources; Hawaii Land Title Association; Title Guaranty of Hawaii, Inc.; and five individuals.

Your Committee finds that because of the transaction fee authorized by Act 120, Session Laws of Hawaii 2009, the Bureau of Conveyances ("Bureau") has significantly improved the automation and integrity of the recording process, established web and digital access to parts of the Bureau's database and records, and created the portal and process for the electronic recording of documents. Your Committee finds that expanding the authorized use of the transaction fee will address evolving issues facing the Bureau, including the need to improve digitization, resolve shortfalls with the current land records management system, improve workflow processes for records certification, and preserve physical records. Your Committee further finds that the public will benefit from the continued modernization of the operations within the Bureau and the Office of the Assistant Registrar of the Land Court.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 987 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Thielen).

SCRep. 486 Water and Land on S.B. No. 1123

The purpose and intent of this measure is to appropriate funds for the employment of lifeguards and purchase of life-saving equipment at Kua Bay, Kekaha Kai State Park.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources, Office of the Mayor of the County of Hawaii, Kohala Coast Resort Association, and one individual.

Your Committee finds that Kua Bay, located within Kekaha Kai State Park, due to its location and recent improvements has been experiencing increased popularity with growing numbers of visitors. The increase in visitors has been accompanied by an alarming increase in water safety incidents. Your Committee finds that in the interest of public health and safety, it is necessary to appropriate funds for lifeguards and life-saving equipment at Kua Bay.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1123 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Thielen).

SCRep. 487 Water and Land on S.B. No. 1262

The purpose and intent of this measure is to:

- (1) Establish the Cat and Wildlife Task Force to make recommendations to the Legislature regarding the humane reduction of free-roaming cat populations and their impacts on wildlife; and
- (2) Appropriate funds to cover professional fees and services for the facilitator of the task force.

Your Committee received testimony in support of this measure from the Humane Society of the United States, Neighborhood Cats, Conservation Council of Hawai'i, Hawaiian Humane Society, West Hawaii Humane Society, Hawaii Island Humane Society, SPCA Maui, and nineteen individuals. Your Committee received testimony in opposition to this measure from the Society of Professional Journalists Hawaii Chapter, Best Friends Animal Society, Animal Rights Hawaii, Save an Animal, Aloha Animal Advocates, Hawaii Cat Foundation, SPCA Kauai, Kauai Community Cat Project, Hui Pono Holoholona, Daze of Camelot Animal Sanctuary, Love a Cat Charity, For Forgotten Felines, and forty individuals. Your Committee received comments on this measure from the National Oceanic and Atmospheric Administration Fisheries Service, American Bird Conservancy, Department of Land and Natural Resources, Rainbow Friends Animal Sanctuary, and seven individuals.

Your Committee finds that feral cats have a negative impact on native wildlife and pose a health risk to humans; however, discussions regarding methods to mitigate the impact of feral cats are controversial and emotional. The Kaua'i Feral Cat Task Force, convened in 2014, has led the most successful effort to date to utilize the recommendations of wildlife advocates and cat advocates in identifying potential solutions to mitigate the impacts of feral cats. However, that task force took over seven months to complete its work, countless participants, and in excess of \$30,000 in expenses. Your Committee finds that the most efficient use of state resources is to direct the Department of Land and Natural Resources to take into consideration the conclusions and recommendations of the Kaua'i Feral Cat Task Force when setting department policy regarding feral cats.

Your Committee has amended this measure by:

- (1) Deleting the establishment of the Cat and Wildlife Task Force;
- (2) Deleting the appropriations for the Cat and Wildlife Task Force;
- (3) Requiring the Department of Land and Natural Resources to take into consideration the conclusions and recommendations of the Kaua'i Feral Cat Task Force when setting department policy regarding feral cats; and
- (4) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1262, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1262, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4; Ayes with Reservations (Kim). Noes, none. Excused, 1 (Thielen).

SCRep. 488 Agriculture and Environment on S.B. No. 1288

The purpose and intent of this measure is to authorize the issuance of special purpose revenue bonds to assist HPC Foods, Ltd., as an agricultural enterprise.

Your Committee received testimony in support of this measure from the Department of Agriculture; Hawai'i Farm Bureau; HPC Foods, Ltd.; and one individual. Your Committee received comments on this measure from the Department of the Attorney General and Department of Budget and Finance.

Your Committee finds that the proceeds of the sale of special purpose revenue bonds will be used by HPC Foods, Ltd., for multi-project capital improvement programs. HPC Foods, Ltd., is one of Hawaii's largest produce processors and distributors, manufacturing fresh cut fruits and vegetables and their well-known mung bean, clover, soy, and radish sprouts. Your Committee further finds that the issuance of these special purpose revenue bonds is in the public interest and will benefit the public health, safety, and general welfare.

Your Committee has amended this measure by inserting an effective date of July 1, 2050, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1288, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1288, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Nishihara, Rhoads).

SCRep. 489 Commerce, Consumer Protection, and Health on S.B. No. 823

The purpose and intent of this measure is to require insurers, mutual benefit societies, fraternal benefit societies, and health maintenance organizations to provide coverage for health care services provided by a naturopathic physician.

Your Committee received testimony in support of this measure from the Hawaii Medical Service Association, Hawaii Society of Naturopathic Physicians, American Association of Naturopathic Physicians, and twenty-nine individuals. Your Committee received testimony in opposition to this measure from Kaiser Permanente Hawaii.

Your Committee finds that naturopathic physicians may be excluded from insurance contracts in Hawaii, which forces patients who choose a naturopathic physician as their primary care provider to pay out of pocket for their primary care needs. This measure requires health insurers, mutual benefit societies, fraternal benefit societies, and health maintenance organizations to provide parity of coverage for health care services provided by a naturopathic physician. Furthermore, your Committee notes that section 2706 of the federal Public Health Service Act, as added by section 1201 of the federal Patient Protection and Affordable Care Act of 2010, prohibits insurers from discriminating against any health care provider, such as a naturopathic physician, who is acting within the scope of that provider's license or certification. Amendments to this measure are necessary to ensure that the Insurance Commissioner is able to receive and investigate complaints relating to discrimination against a health care provider.

Your Committee has amended this measure by:

- (1) Requiring the Insurance Commissioner to receive and investigate complaints regarding discrimination with respect to participation under a health insurance plan against any health care provider, pursuant to section 2706 of the Public Health Service Act; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 823, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 823, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 6; Ayes with Reservations (Chang). Noes, none. Excused, 1 (Ihara).

SCRep. 490 Commerce, Consumer Protection, and Health on S.B. No. 304

The purpose and intent of this measure is to:

- (1) Require the interest earned on the balance of the Hawaii Hurricane Reserve Trust Fund to be retained in the trust fund;
- (2) Require the Board of Directors of the Hawaii Hurricane Relief Fund to conduct a study of the acquisition of a catastrophic hurricane loss financing arrangement with all or a portion of the interest earned in the trust fund; and
- (3) Appropriate Hurricane Reserve Trust Fund monies for the study.

Your Committee received testimony in support of this measure from the Board of Directors of the Hawaii Hurricane Relief Fund and Hawai'i Association of REALTORS. Your Committee received comments on this measure from the Department of Accounting and General Services.

Your Committee finds that since 2002, the interest earned on the balance of the Hurricane Reserve Trust Fund has been transferred and deposited into the general fund, which helped mitigate the revenue shortfalls that affected the State during the Great Recession. Your Committee further finds that because the State's economy has improved and general fund revenues from tax sources have and are projected to increase at fairly healthy annual rates, the general fund no longer needs the interest transferred from the Hurricane Reserve Trust Fund. This measure therefore requires the interest earned on the balance of the Hurricane Reserve Trust Fund to be retained in the trust fund.

Your Committee additionally finds that this measure requires the Board of Directors of the Hawaii Hurricane Relief Fund to conduct a feasibility study regarding catastrophic hurricane loss financing. The Board of Directors of the Hawaii Hurricane Relief Fund indicated in testimony that the State Risk Management and Insurance Office may be in a better position to assess the feasibility of pursuing parametric insurance to cushion the State from catastrophic financial losses from a major hurricane.

However, the Department of Accounting and General Services testified that the Risk Management Office's primary functions are to work with the State's insurance broker to secure property and liability insurance policies that protect the State's property and employees, provide guidance to state agencies on insurance matters, and conduct training for departmental risk management coordinators. As such, a feasibility study on catastrophic hurricane loss financing or the purchase of parametric insurance for non-state property is beyond the statutory scope of the Risk Management program. Your Committee agrees with this assessment and concludes any such study should remain the responsibility of the Board of Directors of the Hawaii Hurricane Relief Fund.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 304, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 304, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, 1 (Ihara).

SCRep. 491 Commerce, Consumer Protection, and Health on S.B. No. 288

The purpose and intent of this measure is to:

- (1) Authorize motor vehicle and boat towing options, after notice is given to occupants, for self-service storage facility owners after sixty days or more of delinquency;
- (2) Require owners to notify occupants via two of the following three methods: telephone number, electronic mail, or postal address;

- (3) Allow owners to send notices by electronic mail, publish notices of sales in any commercially reasonable manner, conduct sales online, and charge late fees; and
- (4) Authorize limits on the liability of the owner of self-service storage facilities to be based on the maximum monetary value of property that may be stored pursuant to the rental agreement.

Your Committee received testimony in support of this measure from the National Self Storage Association, SKS Management LLC, California Self Storage Association, and Storage Solution Honolulu. Your Committee received testimony in opposition to this measure from the Office of Consumer Protection of the Department of Commerce and Consumer Affairs. Your Committee received comments on this measure from the Department of the Attorney General.

Your Committee finds that the State's self-storage facilities lien law has remained virtually unchanged since its enactment in 1984. Accordingly, this measure is intended to update and clarify Hawaii's self-storage lien laws. However, your Committee has heard the testimony from the Office of Consumer Protection, expressing concerns with certain provisions in this measure related to notice, towing, late fees, and liability limitations. Your Committee understands these concerns and requested interested stakeholders to work together on consensus language to address these issues. Although some consensus was reached, your Committee notes that further discussion may be warranted. Your Committee also finds that amendments to this measure, which blend recommendations from the self-service storage facility industry and the Office of Consumer Protection, are necessary.

Your Committee has amended this measure by:

- (1) Specifying that, if an occupant of a self-service storage facility is sixty days or more in default, and the personal property in the leased space is a motor vehicle or boat, the motor vehicle or boat shall be deemed to be left unattended on private property and may be towed by a towing company registered in Hawaii;
- (2) Clarifying that prior to having a motor vehicle or boat towed, notice must be provided to the occupant via verified mail and electronic mail;
- (3) Clarifying the definition of "verified mail";
- (4) Clarifying that the notice provisions for rent due and notice of default and lien, notice of lien, and final demand and notice of sale shall be provided at the last known electronic mail address, then by verified mail at the occupant's last known postal address;
- (5) Removing language that would have required notice to be provided by telephone, as this method of notification may have led to ambiguity and discord between an owner and an occupant;
- (6) Requiring owners of self-service storage facilities to notify each occupant regarding the changes to the self-service storage facility law pursuant to this measure and requiring each owner to update the rental agreements modified pursuant to this measure and obtain the initials of the occupants under each rental agreement;
- (7) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (8) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 288, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 288, S.D. 1, and be referred to your Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 1 (Espero).

SCRep. 492 (Joint) Commerce, Consumer Protection, and Health and Public Safety, Intergovernmental, and Military Affairs on S.B. No. 383

The purpose and intent of this measure is to provide benefits for individuals who are or have previous service as a federal, state, or county firefighter in the State and develop cancer. Specifically, this measure:

- (1) Creates a rebuttable presumption that the cancer arose out of and in the course of employment as a firefighter and establishes the presumption in perpetuity following termination of service as a firefighter;
- (2) Provides access to medical coverage for cancer treatment;
- (3) Creates a process separate from the existing workers' compensation system under chapter 386, Hawaii Revised Statutes, to be used to access certain benefits due to lost wages or death due to the cancer; and
- (4) Authorizes the awarding of certain retirement benefits for disability or death due to the cancer if certain conditions are met.

Your Committees received testimony in support of this measure from the State Fire Council; State of Hawaii Organization of Police Officers; Kaua'i Fire Department; The Maritime Group, LLC; Ho'omana Pono, LLC; Hawaii Fire Fighters Association, Local 1463; and three individuals. Your Committees received testimony in opposition to this measure from the Employees' Retirement System and Department of Human Resources of the City and County of Honolulu. Your Committees received comments on this measure from the Department of Labor and Industrial Relations, Department of the Attorney General, Employer-Union Health Benefits Trust Fund, and Hawaii Medical Association.

Your Committees find that H.C.R. No. 32, H.D. 1, S.D. 1, Regular Session of 2016, requested the convening of a task force to examine cancer in the firefighting profession. Among other things, the task force found that states nationwide are beginning to provide medical coverage for occupational diseases. For example, Arizona, California, Nevada, North Dakota, and Virginia have legislation

that specifically mentions coverage of occupational diseases for firefighters due to the higher risks of contaminant exposure. Your Committees find that providing sufficient medical coverage for firefighters not only ensures that firefighters receive proper medical treatment in a timely manner, but also lessens the impact of emotional toil, financial burdens, and decreased quality of life on the families of firefighters diagnosed with cancer.

Your Committees further find that fire departments are expected to use the best equipment and management practices available, and to be vigilant with obtaining regular medical exams, so that diseases such as cancer are caught early. Efforts at prevention and detection must be a collaboration of individual efforts and the State and counties working to protect and care for the people who keep our communities safe.

Your Committees note that the benefits provided to firefighters in this measure are not an enhanced benefit or a new benefit. Rather, this measure intends to provide firefighters who develop cancer with a way to obtain accelerated access to benefits that is more efficient than applying for workers' compensation and allows firefighters to receive timely, appropriate medical care from healthcare providers who specialize in cancer treatment.

Your Committees recognize the complexity of the benefits and coverage addressed in this measure, and appreciate that this measure requires ongoing discussion. However, your Committees highlight the data demonstrating that Hawaii's firefighters are at higher risk of cancer and that Hawaii should follow other states across the country that are taking steps to provide benefits that adequately address the risks that firefighters submit themselves to for the sake of the safety of the community.

Your Committees have amended this measure by:

- (1) Adding language to the purpose section to reference studies that demonstrate firefighters have higher rates of disease than the general population, the responsibility of fire departments and fire fighters to obtain medical screenings and develop best practices to catch cancer and other diseases as early as possible, and clarify the intent of this measure;
- (2) In response to testimony from various state and county agencies, making numerous revisions to clarify the benefits proposed under this measure, the agency required and process used to make determinations regarding the awarding of benefits or administration of benefits pursuant to this measure, terms used, and the relationship between this measure and existing statutes, where necessary;
- (3) Deleting references to federal firefighters; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Commerce, Consumer Protection, and Health and Public Safety, Intergovernmental, and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 383, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 383, S.D. 1, and be referred to your Committees on Judiciary and Labor and Ways and Means.

Signed by the Chairs on behalf of the Committees.

Commerce, Consumer Protection, and Health: Ayes, 5. Noes, none. Excused, 2 (Ihara, Kidani).

Public Safety, Intergovernmental, and Military Affairs: Ayes, 4. Noes, none. Excused, 1 (Ihara).

SCRep. 493 Commerce, Consumer Protection, and Health on S.B. No. 1159

The purpose and intent of this measure is to:

- (1) Establish the Office of Medical Marijuana Administration;
- (2) Amend certain dates and deadlines in existing law to address the delays in implementation;
- (3) Establish new deadlines for the Department of Health to implement the dispensary system, including deadlines for implementation of the Department's computer software tracking system and laboratory testing program;
- (4) Provide for an alternative means to track marijuana sales during any shutdown of the Department of Health's computer tracking system; and
- (5) Amend requirements for laboratory standards and testing to ensure product and patient safety at reasonable tolerance levels with reasonable cost implications.

Your Committee received testimony in support of this measure from the Hawaii Educational Association for Licensed Therapeutic Healthcare, Drug Policy Action Group, Hawai'i Dispensary Alliance, and five individuals. Your Committee received testimony in opposition to this measure from the Hawaii Veteran's Cannabis Alliance, Patients Without Time, and three individuals. Your Committee received comments on this measure from the Department of Health, Department of the Attorney General, and Drug Policy Forum of Hawaii.

Your Committee finds that chapter 329D, Hawaii Revised Statutes, was enacted pursuant to Act 241, Session Laws of Hawaii 2015, to establish medical marijuana dispensaries to ensure access to medical marijuana for qualifying patients. Your Committee further finds that Act 241 required the Department of Health to allow retail dispensing of medical marijuana beginning July 15, 2016, but has only recently authorized a few medical marijuana dispensary licensees to proceed with the planting or cultivation of medical marijuana. The Department has also been unable to guarantee that the dispensary program will be fully implemented in the near future.

Your Committee also finds that a medical marijuana computer tracking system is necessary and intended to ensure the safety of the product, patient, and public, and that other jurisdictions have found it useful to have a pre-determined alternative tracking system to ensure uninterrupted access to medical marijuana during any shutdown of the initial tracking system. However, your Committee also finds that there have been delays with the Department of Health's implementation of a computer tracking system and that the need for a tracking system must be balanced with patients' need to receive their medicine.

As Hawaii expands its medical marijuana program through dispensaries, it is important that discussions continue to ensure that patients have adequate and timely access to medical marijuana. Your Committee finds that establishing the Office of Medical Marijuana Administration will facilitate the efficient and fair implementation of the medical marijuana dispensary system.

Your Committee has amended this measure by:

- (1) Moving the provision establishing the Office of Medical Marijuana Administration from the chapter in Hawaii Revised Statutes pertaining to the medical marijuana dispensary system to the chapter pertaining to general and administrative provisions of the Department of Health;
- (2) Inserting a provision that limits each location used by a qualifying patient to cultivate marijuana to use by five qualifying patients;
- (3) Making the authority of primary caregivers to cultivate marijuana for qualifying patients terminate on December 31, 2020, rather than December 31, 2019;
- (4) Inserting a provision that allows the Department of Health to determine whether existing dispensary licensees shall be allowed to increase plant count, the number of production centers, or the number of retail dispensing locations per license;
- (5) When the Department of Health's computer tracking system is nonfunctional, making use of the alternate medical marijuana dispensary tracking system optional instead of mandatory, requiring the Department of Health to seek input from medical marijuana licensees about the alternative tracking system, and requiring the Department to report to the legislative oversight working group twenty days prior to the convening of the Regular Session of 2018;
- (6) Deleting provisions requiring a qualifying patient to purchase marijuana or a manufactured marijuana product from one designated dispensary during a period in which the Department of Health's computer software tracking system is inoperable;
- (7) Inserting a provision that requires the Department of Health to include in its established testing standards permission for qualifying patients and primary caregivers to obtain testing services directly from certified laboratories on the island where the qualifying patient and primary caregiver reside;
- (8) Shortening the Department of Health's interim rulemaking authority until July 1, 2019, instead of July 1, 2020;
- (9) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (10) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1159, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1159, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 7. Noes, none. Excused, none.

SCRep. 494 (Joint) Hawaiian Affairs and Government Operations on S.B. No. 643

The purpose and intent of this measure is to:

- (1) Require that, beginning on January 1, 2020, all public acts and transactions be in the Hawaiian language; and
- (2) Provide that upon any request by a member of the public for a Hawaiian language version of any government record, paper, or document, the public officer having care and custody of the record, paper, or document shall make all reasonable efforts to make that government record, paper, or document available in the Hawaiian language.

Your Committees received testimony in support of this measure from numerous individuals. Your Committees received testimony in opposition to this measure from one individual.

Your Committees find that Article XV, section 4, of the Hawaii State Constitution establishes that English and Hawaiian are the official languages of Hawai'i. The Legislature has supported past efforts to incorporate the Hawaiian language into official state writings, emblems, and signs, as the use of proper Hawaiian macrons and glottal stops shows not only the deserved respect for the native language of these islands, but also fully comports with the intent and purpose of the state constitution.

In addition, article X, section 4, of the Hawai'i state constitution provides in pertinent part, "The State shall promote the study of Hawaiian culture, history and language." Despite these constitutional provisions, the Hawaiian language is conspicuously absent in official government publications and documents.

Your Committees have amended this measure by deleting its contents and replacing them with provisions to require, beginning January 1, 2018, that all newly created, replaced, or reprinted state and county documents, letterheads, symbols, and emblems contain accurate, appropriate, and authentic Hawaiian names and language.

As affirmed by the records of votes of the members of your Committees on Hawaiian Affairs and Government Operations that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 643, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 643, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
Hawaiian Affairs: Ayes, 4. Noes, none. Excused, 1 (Green).
Government Operations: Ayes, 3. Noes, none. Excused, 2 (Rhoads, Tokuda).

SCRep. 495 Housing on S.B. No. 589

The purpose and intent of this measure is to define specific rights granted to a person who is houseless including equal access to housing, jobs, and shelters; equal treatment by government agencies; and access to life-sustaining activities and essential services.

Your Committee received testimony in support of this measure from the League of Women Voters of Hawaii, IMUAlliance, The CHOW Project, and eight individuals. Your Committee received comments on this measure from the Governor's Coordinator on Homelessness, Department of Human Services, and Department of the Attorney General.

Your Committee finds that the population of houseless persons in Hawaii rose by twenty-five percent between 2009 and 2016 and that houseless persons frequently experience significant hardship due to a lack of services and access to shelter. Your Committee additionally finds that this measure will establish specific rights for houseless persons to ensure equal treatment by government agencies and access to life-sustaining activities and essential services. Your Committee also finds that significant concerns have been raised in testimony on this measure regarding compatibility with existing law and with essential functions of the State.

Accordingly, your Committee has amended this measure by:

- (1) Removing language providing the right to sleep in legally parked automobiles;
- (2) Removing language providing that access to public hygiene facilities and accommodations must be on a twenty-four hour basis, or anywhere within the State;
- (3) Adding language clarifying that the right of access to services essential to survival does not limit law enforcement activities and efforts to promote health, safety, and welfare; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 589, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 589, S.D. 1, and be referred to your Committees on Ways and Means and Judiciary and Labor.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Kahele, Nishihara).

SCRep. 496 Housing on S.B. No. 1105

The purpose and intent of this measure is to:

- (1) Expand the types of rental housing projects that can be exempt from general excise taxes; and
- (2) Allow the terms of collective bargaining agreements and associated provisions to be deemed the prevailing wages and terms serving as the basis of compliance with chapter 104, Hawaii Revised Statutes, for the construction of certain rental housing projects.

Your Committee received testimony in support of this measure from the Hawaii Housing Finance and Development Corporation, Pacific Resource Partnership, Hawaii Construction Alliance, Hawaii Rental Housing Advisory Committee, and one individual. Your Committee received testimony in opposition to this measure from the General Contractors Association of Hawaii. Your Committee received comments on this measure from the Department of Taxation, Department of Labor and Industrial Relations, Hawaii Community Development Authority, and Tax Foundation of Hawaii.

Your Committee finds that the State is experiencing a critical shortage of affordable housing. Your Committee further finds that groups of private sector entities related to construction and development have taken steps to improve the economics of building and operating rental housing in Hawaii. This measure will support the work of private development entities to provide affordable housing units by expanding the types of projects that may be exempt from general excise taxes.

Your Committee has heard the testimony of the General Contractors Association of Hawaii expressing concerns that the tax credit provided in this measure appears to apply only to signatories to collective bargaining agreements. Your Committee finds that this issue raises concerns that merit further consideration and requests that your Committees on Judiciary and Labor and Ways and Means further examine those concerns.

Your Committee has amended this measure by:

- (1) Adding language clarifying the level of the prevailing wage if a collective bargaining agreement does not include provisions on wages;
- (2) Adding language providing that the tax credit established by the measure shall apply to taxable years beginning after December 31, 2017;
- (3) Inserting a blank sunset date; and
- (4) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1105, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1105, S.D. 1, and be referred to your Committees on Judiciary and Labor and Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Kahele, Nishihara).

SCRep. 497 Housing on S.B. No. 1145

The purpose and intent of this measure is to:

- (1) Increase the rates for certain conveyance tax categories; and
- (2) Repeal the statutory cap on the disposition of conveyance taxes dedicated for deposit into the rental housing revolving fund.

Your Committee received testimony in support of this measure from the Hawaii Housing Finance and Development Corporation, Hawaii Habitat for Humanity Association, Housing Now Coalition, IMUAlliance, Hawaii Appleseed Center for Law and Economic Justice, Faith Action for Community Equity, and seven individuals. Your Committee received testimony in opposition to this measure from the Hawaii Association of REALTORS and Chamber of Commerce Hawaii. Your Committee received comments on this measure from the Department of Taxation, Department of Budget and Finance, Tax Foundation of Hawaii, and Building Industry Association of Hawaii.

Your Committee finds that the development and construction of affordable housing units is an urgent priority of the State. Your Committee further finds that the rental housing revolving fund, which was established to provide low-interest loans or grants to qualified owners and developers constructing affordable housing units, can help to fulfill the need for affordable housing. This measure will increase the amount of available monies in the rental housing revolving fund by increasing the rates for certain conveyance tax categories and increasing the amount of conveyance tax that is paid into the revolving fund.

Your Committee has amended this measure by:

- (1) Further increasing the conveyance tax rate for the sale of condominiums or single family residences for which the purchaser is ineligible for a homeowner's exemption with a value of \$1,000,000 or more;
- (2) Removing language increasing the conveyance tax rate for the sale of condominiums or single family residences for which the purchaser is ineligible for a homeowner's exemption with a value of less than \$1,000,000; and
- (3) Increasing the portion of conveyance tax to be paid into the rental housing revolving fund to sixty percent.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1145, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1145, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Kahele, Nishihara).

SCRep. 498 (Joint) Housing and Government Operations on S.B. No. 1244

The purpose and intent of this measure is to authorize qualified nonprofit housing trusts to repurchase affordable units developed with government assistance when a government entity waives its first right of refusal to repurchase the unit.

Your Committees received testimony in support of this measure from the Hawaii HomeOwnership Center; Hawaii HomeOwnership Center on behalf of more than fifty-five residents; Hawaii Association of REALTORS; Gentry Homes, LTD; Honolulu Board of REALTORS; and two individuals. Your Committees received comments on this measure from the Department of Commerce and Consumer Affairs, Hawaii Housing Finance and Development Corporation, and Hawaii Community Development Authority.

Your Committees find that the shortage of safe, decent, and sanitary housing has been a persistent problem in Hawaii for decades. Your Committees further find that the median price for single family homes on Oahu has risen to approximately \$750,000. Your Committees additionally find that it is necessary to take steps to ensure that existing affordable housing is preserved as affordable for as long as possible. Your Committees also find that this measure has generated a significant amount of testimony by state agencies and other bodies deeply involved in the development and management of affordable residential units in Hawaii.

Accordingly, your Committees have amended this measure by:

- (1) Adding language requiring perpetual buyback restrictions by qualified nonprofit housing trusts;
- (2) Clarifying the definition of "qualified nonprofit housing trust" and allowing HCDA, each county, and the Hawaii Housing and Finance Development Corporation (HHFDC) to make their own determinations of whether a qualified nonprofit housing trust has the capacity, resources, and mission to ensure long-term affordability of housing;
- (3) Adding language including the Hawaii Housing Finance and Development Corporation's share of net appreciation in the real property for the purposes of calculating the maximum price of the Corporation's first option to purchase;
- (4) Adding language clarifying that the Hawaii Housing Finance and Development Corporation may select the nonprofit housing trust which shall have the option to purchase an affordable housing unit if the Corporation waives its first option to repurchase;
- (5) Adding language clarifying that the Hawaii Community Development Authority may adopt rules to specify the cutoff income levels for low- and moderate-income ranges for the purpose of determining workforce housing; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Housing and Government Operations that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1244, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1244, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Housing: Ayes, 3. Noes, none. Excused, 2 (Kahele, Nishihara).

Government Operations: Ayes, 4. Noes, none. Excused, 1 (Tokuda).

SCRep. 499 Housing on S.B. No. 1169

The purpose and intent of this measure is to:

- (1) Specify that certain provisions of the Internal Revenue Code related to at-risk rules and deductions and to passive activity loss do not apply with respect to claims for the state low-income housing tax credit; and
- (2) Appropriate funds to establish one position in the Hawaii Housing Finance and Development Corporation to oversee the low-income housing tax credit program.

Your Committee received testimony in support of this measure from InState Partners and two individuals. Your Committee received comments on this measure from the Hawaii Housing Finance and Development Corporation, Department of Taxation, and Tax Foundation of Hawaii.

Your Committee finds that increasing access to affordable housing in Hawaii is a priority for the State. Your Committee further finds that current limitations on low-income housing tax credits exclude many individuals and small businesses from participation. This measure will encourage investment in affordable housing development projects by expanding the pool of investors that may qualify for low-income housing tax credits.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1169 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Kahele, Nishihara).

SCRep. 500 (Joint/Majority) Transportation and Energy and Public Safety, Intergovernmental, and Military Affairs on S.B. No. 1183

The purpose and intent of this measure is to:

- (1) Authorize counties that have established a surcharge on state tax prior to July 1, 2015, to extend the surcharge in perpetuity;
- (2) Authorize counties that have not established a surcharge on state tax by July 1, 2017, to establish a surcharge;
- (3) Provide that the State shall retain an unspecified percent of surcharge proceeds, of which an unspecified percent shall be allocated to the Department of Transportation; and
- (4) Require a county's share of the county surcharge on state tax to be paid to the county on a monthly basis.

Your Committees received testimony in support of this measure from the City and County of Honolulu, Permitted Interaction Group of the Honolulu City Council, Hawaii State AFL-CIO, Chamber of Commerce Hawaii, Building Industry Association of Hawaii, West Oahu Economic Development Association, James Campbell Company LLC, Pacific Resource Partnership, Land Use Research Foundation of Hawaii, Blue Planet Foundation, and five individuals. Your Committees received testimony in opposition to this measure from one individual. Your Committees received comments on this measure from the Department of Taxation, Department of Budget and Finance, Honolulu Authority for Rapid Transportation, Move Oahu Forward, and Tax Foundation of Hawaii.

Subsequent to the hearing on this measure, your Committees posted and made available for public review a proposed S.D. 1, which amended the contents of the measure, inserted new language, and organized the measure into five distinct parts as follows:

- (1) Part I:
 - (A) Authorizes counties that have established a surcharge on state tax prior to July 1, 2015, to extend the surcharge in perpetuity;
 - (B) Authorizes counties that have not established a surcharge by July 1, 2017, to establish a surcharge on state tax;
 - (C) Provides that the State shall retain an unspecified portion of surcharge proceeds for the Department of Taxation; and
 - (D) Requires a county's share of the county surcharge on state tax to be paid to the county on a monthly basis;
- (2) Part II:
 - (A) Establishes an income tax credit that reduces the tax liability for low-income taxpayers if their federal adjusted gross income falls below federal poverty guidelines;
 - (B) Authorizes all counties to establish a 0.5 percent surcharge on state tax prior to July 1, 2018;
 - (C) Makes permanent the county surcharge on state tax;
 - (D) Provides that the State shall retain an unspecified portion of surcharge proceeds for deposit into the state highway fund;
 - (E) Requires a county's share of the county surcharge on state tax to be paid to the county on a monthly basis; and
 - (F) Specifies how the county surcharges collected shall be allocated among the counties;
- (3) Part III:
 - (A) Authorizes counties that have established a surcharge on state tax prior to July 1, 2015, to extend the surcharge to December 31, 2032; provided that the Hawaii Community Development Authority transfers specified parcels to the City and County of Honolulu and the City and County of Honolulu meets other requirements prior to December 31, 2027;

- (B) Repeals parts I and III of the measure on January 1, 2028, if the requirements are not met;
 - (C) Authorizes counties that have not established a surcharge on state tax by July 1, 2017, to establish a surcharge; and
 - (D) Provides that an unspecified percentage of the surcharge shall be used by the Department of Transportation for transit oriented development and infrastructure improvement;
- (4) Part IV:
- (A) Increases the general excise and use tax from four percent to four and one-half percent;
 - (B) Specifies that for an unspecified time period, beginning on January 1, 2019, an unspecified amount of the additional revenues shall be transferred to any county that adopted a surcharge on state tax; provided that such county matches up to half of the transferred funds;
 - (C) Limits the expenditures allowed by a county receiving additional tax revenue to capital costs for a mass transit project and compliance with the Americans with Disabilities Act;
 - (D) Requires any county who receives additional tax revenue to report to the Legislature annually on revenues and expenditures;
 - (E) Specifies that an unspecified amount of the additional revenues shall be used by the State for education, the Department of Transportation, affordable housing, and elderly programs and services; and
 - (F) Repeals the county surcharge on state tax on January 1, 2019; and
- (5) Part V:
- (A) Inserts an effective date of July 1, 2050, to encourage further discussion; and
 - (B) Inserts various provisions related to effective dates, repeal conditions, and tax provisions for various sections in the measure.

Your Committees received testimony in support of the proposed S.D. 1 from the Department of Transportation; Honolulu Authority for Rapid Transportation; Hawaii State AFL-CIO; Chamber of Commerce Hawaii; United Public Workers, AFSCME, Local 646, ALF-CIO; ILWU Local 142; Pacific Resource Partnership; Hawaii Regional Council of Carpenters; Hawaii Laborers-Employers Cooperation and Education Trust; Hawaii Operating Engineers Industry Stabilization Fund; Building Industry Association of Hawaii; and five individuals. Your Committees received testimony in opposition of the proposed S.D. 1 from Common Cause Hawaii, Kanehili Cultural Hui, BOHICA, and nine individuals. Your Committees received comments on the proposed S.D. 1 from the Department of Budget and Finance, Department of Taxation, City and County of Honolulu, Permitted Interaction Group of the Honolulu City Council, Tax Foundation of Hawaii, Move Oahu Forward, Blue Planet Foundation, and one individual.

Your Committees find that the City and County of Honolulu needs to have sufficient funds to cover construction and financing costs of the rail project and to ensure that the full twenty-mile guideway with all twenty-one rail stations can be built. According to testimony, the Honolulu Authority for Rapid Transportation estimates that the total construction costs are \$8,200,000,000, exclusive of the financing costs. Your Committees further find that a rail transit system supports public investments in transit infrastructure projects that enable compact development, utilize renewable energy, reduce transportation energy use, and reduce household transportation costs.

Your Committees have amended this measure by adopting the proposed S.D. 1. Your Committees believe that this measure is a work in process and a lot of thought and discussion still needs to be done. Your Committees recognize that the different parts of the proposed S.D. 1 contain conflicting language. However, it is your Committees' intent to move all parts of this measure forward for consideration by your Committee on Ways and Means. By including all of these parts in this measure, it will allow the Senate to continue to vet each available option.

Your Committees would like to clarify that the defective effective date of July 1, 2050, applies to this measure in its entirety with the intent that it encourages further discussion to bring about a consensus agreement on this measure. While part V of this measure contains other dates and provisos, such language is meant only to reference taxable years and the effect of state agency and county deadlines, as those dates apply to specific parts and sections of this measure. Those dates and provisos should not be confused with the overall effective date of this measure, which is a defective effective date of July 1, 2050. As noted above, your Committees understand that the various parts of this measure conflict and it is for that very reason that it has inserted a defective effective date applicable to this measure in its entirety until such time as consensus can be reached on the best option to move forward on the important issues raised by this measure.

As affirmed by the records of votes of the members of your Committees on Transportation and Energy and Public Safety, Intergovernmental, and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1183, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1183, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Transportation and Energy: Ayes, 5; Ayes with Reservations (Harimoto). Noes, none. Excused, none.

Public Safety, Intergovernmental, and Military Affairs: Ayes, 4; Ayes with Reservations (Ihara, Wakai). Noes, 1 (Thielen). Excused, none.

SCRep. 501 (Joint) Commerce, Consumer Protection, and Health and Judiciary and Labor on S.B. No. 1076

The purpose and intent of this measure is to:

- (1) Require all healthcare facilities, when transferring a patient to another healthcare facility via air ambulance for receiving continuing or higher level care, to first request transport services from an air ambulance that is contracted with the patient's health carrier;
- (2) Require notification if a non-contracted air ambulance service is utilized;
- (3) Establish exceptions to ensure patient safety; and
- (4) Establish a procedure for dispute resolution.

Your Committees received testimony in support of this measure from Kaiser Permanente and two individuals. Your Committees received testimony in opposition to this measure from the Department of Health, Kona Community Hospital, and Hawaii Life Flight Corporation. Your Committees received comments on this measure from the Hawaii Medical Association, Hawai'i Pacific Health, Healthcare Association of Hawaii, Hawaii College of Emergency Physicians, The Queen's Health Systems, Castle Medical Center, and Hawaii Medical Service Association.

Your Committees find that healthcare needs sometimes require that a patient be transferred to another healthcare facility in order to receive continuing care or a higher level of care, and that because of Hawaii's unique geography, transfer to another facility in Hawaii often requires air ambulance services. Your Committees find that these air ambulance transfers require specialized equipment and technology and can be very costly.

Your Committees further find that when a patient is transported using an air ambulance service that does not contract with the covered patient's health insurance carrier, the health carrier determines an appropriate payment for the air ambulance provider, and the patient is expected to cover the difference between what the provider charged and what the health carrier pays. This process places the patient between the health carrier and the non-contracted air ambulance service when the non-contracted air ambulance service bills the patient for the difference. Your Committees find that this balance billing practice causes a significant financial burden on patients.

Your Committees recognize the complexity involved with the issue of balance billing, and appreciate the demonstrated collaboration on this issue by stakeholders in the community.

Your Committees have considered the testimony submitted and amended this measure by:

- (1) Inserting the new chapter related to transfers utilizing air ambulance services providers into Title 24, Hawaii Revised Statutes, related to insurance, instead of creating a new part within chapter 321, Hawaii Revised Statutes;
- (2) Deleting the definition of "notification";
- (3) Deleting the requirement that notice provided to the health carrier by the transferring facility of use of a non-contracted air ambulance service be prior to commencing the transfer;
- (4) Deleting provisions related to the dispute resolution process; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Commerce, Consumer Protection, and Health and Judiciary and Labor that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1076, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1076, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Commerce, Consumer Protection, and Health: Ayes, 5. Noes, none. Excused, 2 (Ihara, Kidani).

Judiciary and Labor: Ayes, 4. Noes, none. Excused, 1 (Gabbard).

SCRep. 502 (Joint) Higher Education and Agriculture and Environment on S.B. No. 140

The purpose and intent of this measure is to preserve dark night skies in Hawaii by establishing a Dark Night Skies Protection Advisory Committee.

Your Committees received testimony in support of this measure from the Department of Land and Natural Resources; Department of Business, Economic Development, and Tourism; University of Hawai'i System; Office of Hawaiian Affairs; and four individuals. Your Committees received comments on this measure from the Department of Transportation.

Your Committees find that dark night skies hold important cultural, scientific, astronomical, natural, landscape, and tourism-related value. Your Committees further find that light pollution, caused by inappropriate use of lighting at night, including over-illumination, excessive use of artificial light, use of fixtures that directs light upward causing glare and sky glow, and use of fixtures that have excessive amounts of blue light, which is scattered by the atmosphere to cause sky glow, interferes with dark night sky activities and the nighttime activities of certain animal and insect species. Your Committees also find that nighttime illumination of state highways, harbors, airports, and other facilities is costly and consumes large amounts of energy, and that application of new lighting technologies could produce substantial energy and cost savings. This measure is an important step toward better protection of Hawaii's dark night skies.

Your Committees have amended this measure by:

- (1) Inserting language to allow a designee of the Administrator of the Office of Hawaiian Affairs to serve on the Advisory Committee in place of the Administrator;
- (2) Inserting language to include a member from the Occupational Safety and Health Administration in the list of interested parties that the Chairperson of the Advisory Committee may invite to advise the Advisory Committee; and

- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Higher Education and Agriculture and Environment that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 140, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 140, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Higher Education: Ayes, 3. Noes, none. Excused, 2 (Keith-Agaran, Taniguchi).

Agriculture and Environment: Ayes, 4. Noes, none. Excused, 1 (Nishihara).

SCRep. 503 (Joint) Higher Education and Economic Development, Tourism, and Technology on S.B. No. 137

The purpose and intent of this measure is to provide express statutory authority to enable and facilitate the deployment of university educational and instructional resources, university managerial and fiscal resources, and university personnel to promote the economic health and diversification of workforce opportunities through the commercialization of inventions and discoveries generated by or at the University of Hawaii.

Your Committees received testimony in support of this measure from the University of Hawai'i System; Department of Business, Economic Development, and Tourism; Hawaii Business Roundtable; XLR8UH; Sultan Ventures; and one individual. Your Committees received testimony in opposition to this measure from Common Cause Hawaii and one individual. Your Committees received comments on this measure from the Department of Budget and Finance, State Procurement Office, Office of Information Practices, Hawaii State Ethics Commission, Civil Beat Law Center for the Public Interest, and Hawaii Chapter of the Society of Professional Journalists.

Your Committees find that the Legislature has a history of authorizing and providing funds to support efforts by state agencies to promote entrepreneurial development, support research commercialization, and provide access to startup investment capital. Commercialization contributes to a more diverse workforce in the State and promotes a robust and dynamic economy.

Your Committees additionally find that the University of Hawaii is a research and teaching institution and is in a valuable position to be able to identify promising innovations and new discoveries arising from university research. In order to remain competitive with its peers, the University of Hawaii must develop its capacity to commercialize its intellectual property. Your Committees find that this measure will allow the University to undertake commercialization activity with greater legal certainty and clarity.

Your Committees have amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Higher Education and Economic Development, Tourism, and Technology that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 137, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 137, S.D. 1, and be referred to your Committees on Judiciary and Labor and Ways and Means.

Signed by the Chairs on behalf of the Committees.

Higher Education: Ayes, 4. Noes, none. Excused, 1 (Keith-Agaran).

Economic Development, Tourism, and Technology: Ayes, 3. Noes, none. Excused, 2 (Baker, Thielen).

SCRep. 504 (Joint) Higher Education and Hawaiian Affairs on S.B. No. 848

The purpose and intent of this measure is to create the Hawaiian Language University College and transfer the University of Hawaii at Hilo Hawaiian Language College's rights, duties, powers, and functions to the Hawaiian Language University College while maintaining some shared functions between the two entities.

Prior to the hearing on this measure, your Committees posted and made available for public review a proposed S.D. 1, which deletes the contents of the measure and inserts language to:

- (1) Expand the University of Hawaii at Hilo Hawaiian Language College's functions;
- (2) Establish a five-year pilot project in pursuit of innovative strategies and approaches for development of a Hawaiian medium pathway; and
- (3) Require the development of an implementation plan to expand Hawaiian language instruction throughout the University of Hawaii System as recommended by the working group created by S.R. No. 97, S.D. 1, Regular Session 2015.

Your Committees received testimony in support of the proposed S.D. 1 from the Ka Haka 'Ula O Ke'elikōlani College of Hawaiian Language; Hale Kuamo'o Hawaiian Language Center; Native Hawaiian Education Council; Public Charter School Board of Ke Kula 'O Nāwahīokalani-'ōpu'u; Kanu o ka 'Āina New Century Public Charter School; Ho'omana Pono, LLC.; Keaukaha General Store; We Are One, Inc; Hawai'i Bilingual; Department of Language and Literacy Education at the University of British Columbia, Vancouver, Canada; Guam Department of Education; over one hundred individuals; petitions from numerous schools with signatures of support from teachers at the schools; and a petition with signatures from over eighty students of Ka Haka 'Ula O Ke'elikōlani College of Hawaiian Language. Your Committees received testimony in opposition to the proposed S.D. 1 from the University of Hawai'i System, Hawai'inuiākea School of Hawaiian Knowledge, University of Hawai'i at Mānoa; Center for Hawaiian Sovereignty Studies; and four individuals.

Your Committees find that a history of legislative action exists demonstrating the importance of assuring that opportunities are available throughout the State to use and study the Hawaiian language. Over the past three decades, the Legislature has formed the basis of the Hawaiian language medium pathway parallel to the long standing English medium pathway of preschool through doctoral level education. Your Committees note that as the only state to have two official languages operationalized in public education under a

single state education system, Hawaii is in a prime position to develop a strong Hawaiian medium pathway across its state educational system.

Your Committees further find that the Hawaiian Language College was established at the University of Hawaii at Hilo has made many strides forward to revitalize the Hawaiian language, provide immersion instruction in Hawaiian at the Pre K-12 level, and develop curricula and instructors of the Hawaiian language at all levels of education. Currently, there are over three thousand students enrolled in Hawaiian medium immersion schools at the P-12 level, and an estimated 13,500 students enrolled in various Hawaiian language coursework in public and private education.

Your Committees appreciate the numerous individuals and groups that submitted testimony on this measure, including many students, parents, teachers, faculty, and community members. Your Committees find that it is crucial for children throughout the State to have the opportunity to pursue higher education through the Hawaiian language, especially for those students who learn through the Hawaiian language during their primary education years. Your Committees also heard testimony on this measure from various departments and individuals from the University of Hawaii System and acknowledges the need for resources and collaboration in order to fully implement Hawaiian language instruction system-wide with general education courses taught through the Hawaiian language.

Your Committees recognize that 2017 represents the twentieth anniversary of the passage of legislation establishing the Hawaiian Language College, and that it is important to continue supporting expanded innovative approaches to develop a highly-functioning Hawaiian medium pathway of education in the State. Your Committees find that although data shows some healthy signs of language recovery, there remains much to be done in order to provide an equitable quality education for Hawaiian medium students across Hawaii's education system. Your Committees heard testimony on this measure from the Chancellor of the University of Hawaii at Hilo who indicated that the pursuit of higher education through the medium of the Hawaiian language at Hawaii's state university, and the current lack thereof, is a matter of statewide concern.

Your Committees have amended this measure by adopting the proposed S.D. 1 and further amending the proposed S.D. 1 by:

- (1) Adding language to the purpose section declaring that access to education taught through the Hawaiian language is a matter of statewide concern;
- (2) Deleting language limiting the pilot project to five years;
- (3) Making the establishment of the pilot project optional instead of mandatory;
- (4) Expanding the pilot project to the entire University of Hawaii System instead of having the pilot project be implemented solely at the University of Hawaii at Hilo;
- (5) Inserting language to establish that the Chancellor of the University of Hawaii at Manoa, Chancellor of the University of Hawaii West Oahu, and Chancellors of the University of Hawaii System Community Colleges may assist the President of the University of Hawaii and Chancellor of the University of Hawaii at Hilo with the pilot project;
- (6) Inserting language that requires the directors of all of the University of Hawaii System Hawaiian language programs to join with the President of the University of Hawaii and the working group created by S.R. No. 97, S.D. 1, Regular Session 2015, to develop an implementation plan to address the system wide Hawaiian language goals;
- (7) Inserting a provision requiring the University of Hawaii to report to the Legislature each year regarding efforts to implement education taught through the Hawaiian language, the status of the implementation plan for Hawaiian language instruction, the number of students pursuing educational options available through the Hawaiian language, and any recommendations for statewide efforts to promote education taught through the Hawaiian language;
- (8) Deleting the appropriations;
- (9) Making it effective upon approval; and
- (10) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Higher Education and Hawaiian Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 848, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 848, S.D. 1, and be referred to your Committees on Ways and Means and Judiciary and Labor.

Signed by the Chairs on behalf of the Committees.

Higher Education: Ayes, 3. Noes, none. Excused, 2 (Espero, Taniguchi).

Hawaiian Affairs: Ayes, 3. Noes, none. Excused, 2 (Green, Kim).

SCRep. 505 Higher Education on S.B. No. 826

The purpose and intent of this measure is to appropriate funds for a distance learning center in the Puna district within the University of Hawaii at Hilo to provide greater access to secondary education in the Puna district.

Your Committee received testimony in support of this measure from the University of Hawai'i System; Pele Lani Farm LLC; We Are One, Inc.; Pele Lani Agricultural and Holistic Center; and seven individuals.

Your Committee finds that a critical need exists to strengthen rural outreach, education, and economic development in Puna, one of the most underserved areas in the State and the fastest growing district on the Island of Hawaii. Your Committee further finds that distance learning opportunities through the University of Hawaii System are currently providing valuable benefits to students throughout Hawaii, and distance learning has the potential to provide immeasurable benefits to residents in Puna.

Your Committee has amended this measure by:

- (1) Inserting blank appropriation amounts; and
- (2) Inserting an effective date of May 12, 2059, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Higher Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 826, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 826, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Espero, Taniguchi).

SCRep. 506 Higher Education on S.B. No. 348

The purpose and intent of this measure is to:

- (1) Establish a public service loan forgiveness program and revolving fund in the University of Hawaii; and
- (2) Establish eligibility and repayment requirements for individuals who complete an associate, bachelor, or graduate degree program within the University of Hawaii System and agree to work full-time for the State or a county for a specified number of years as determined by the University.

Your Committee received testimony in support of this measure from five individuals. Your Committee received comments on this measure from the University of Hawai'i System.

Your Committee finds that students pursuing higher education are interested in pursuing jobs in the public sector upon graduation. However, rapidly rising tuition costs and Hawaii's high cost of living make it difficult for many students in Hawaii to endure the lower compensation provided by jobs in government compared to higher compensation in the private sector. Your Committee further finds that a public service loan forgiveness program would provide financial support to students completing their associates, bachelors, or graduate degrees at the University of Hawaii and encourage more graduates to remain in the islands and work in the public sector.

Your Committee has amended this measure by:

- (1) Removing all references to working for a county so that the Hawaii public service loan forgiveness program only applies to students who work for the State for a specified number of years upon graduating from a degree program within the University of Hawaii System;
- (2) Inserting a blank appropriation for the Hawaii public service loan program within the University of Hawaii System for one full-time equivalent (1.0 FTE) program specialist position;
- (3) Inserting language to require that any balances remaining in the Hawaii public service loan program revolving fund at the conclusion of the fiscal year be available for the program in future years and shall not lapse to the general fund;
- (4) Inserting an effective date of May 12, 2059, to encourage further discussion; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Higher Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 348, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 348, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Espero, Taniguchi).

SCRep. 507 Higher Education on S.B. No. 940

The purpose and intent of this measure is to help Hawaii families save for college instead of having to take out educational loans by establishing a tax deduction for eligible contributions made to Hawaii's Section 529 College Savings Program that will apply to contributions made in calendar year 2018 and beyond.

Your Committee received testimony in support of this measure from the Department of Budget and Finance and two individuals. Your Committee received comments on this measure from the Department of Taxation.

Your Committee finds that as higher education costs continue to rise, saving for higher education is increasingly becoming a burden on families that are trying to juggle saving for higher education with daily living expenses. Your Committee additionally finds that it is important to help Hawaii families save for college instead of having to take out educational loans.

Your Committee notes that currently forty-eight states have at least one state-sponsored 529 plan and over eighty percent of those states that also have income taxes provide an additional in-state tax incentive. This measure follows efforts nationwide to help families avoid burdensome educational debt by creating an incentive for Hawaii taxpayers to participate in Hawaii's College Savings Program.

Your Committee has amended this measure by:

- (1) Removing the tax deduction for eligible contributions made to Hawaii's Section 529 College Savings Program from section 235-7, Hawaii Revised Statutes, and inserting the language that establishes the tax deduction as a new section in chapter 235, Hawaii Revised Statutes;
- (2) Inserting an effective date of May 12, 2059, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Higher Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 940, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 940, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Espero, Taniguchi).

SCRep. 508 Higher Education on S.B. No. 945

The purpose and intent of this measure is to establish a framework for authorizing post-secondary degree-granting educational institutions that have applied for accreditation by an accrediting agency recognized by the United States Department of Education.

Your Committee received testimony in support of this measure from the Department of Commerce and Consumer Affairs and one individual.

Your Committee finds that students will benefit if the Department of Commerce and Consumer Affairs has the authority to oversee accreditation-seeking institutions and ensure the institutions are making satisfactory progress toward accreditation. Your Committee further finds that most states across the country issue some type of temporary authorization or approval to institutions that are in the process of applying for accreditation.

Your Committee has amended this measure by:

- (1) Inserting an effective date of May 12, 2059, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Higher Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 945, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 945, S.D. 1, and be referred to your Committees on Commerce, Consumer Protection, and Health and Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Espero, Taniguchi).

SCRep. 509 Higher Education on S.B. No. 1127

The purpose and intent of this measure is to appropriate general funds for project-funded staff positions for capital improvement program projects.

Your Committee received testimony in support of this measure from the University of Hawai'i System and two individuals. Your Committee received testimony in opposition to this measure from one individual.

Your Committee finds that the University of Hawaii System has a substantial deferred maintenance backlog that it is working toward eliminating while at the same time modernizing facilities to be safe, sustainable, and supportive of modern practices in teaching, learning, and research. Your Committee additionally finds that the University has a ten-year strategy plan to eliminate deferred maintenance and reach modernization goals, including reducing energy consumption and generating renewable energy on campus. Your Committee notes the testimony submitted by the University indicating that this measure not only financially saves the University and the State money in the short- and long- term, but also provides a more optimum model for performing construction management and inspection services, including better oversight of its construction projects.

Your Committee has amended this measure by:

- (1) Inserting an effective date of May 12, 2059, to encourage further discussion; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Higher Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1127, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1127, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Espero, Taniguchi).

SCRep. 510 Judiciary and Labor on S.B. No. 107

The purpose and intent of this measure is to:

- (1) Increase the minimum wage to \$12.25 per hour in 2018 and \$15.00 per hour in 2019;
- (2) Repeal the tip credit; and
- (3) Require the Department of Labor and Industrial Relations to annually calculate the adjusted minimum wage rate to the nearest 5 cents using the Honolulu region consumer price index for urban wage earners and clerical workers (CPI-W) or successor index.

Your Committee received testimony in support of this measure from the Hawaii State Commission on the Status of Women, American Association of University Women of Hawaii, American Association of University Women Windward, Americans for Democratic Action, Community Alliance on Prisons, Democratic Party of Hawai'i, Hawaii Appleseed Center for Law & Economic Justice, Hot Yoga Hilo, LGBT Caucus of the Democratic Party of Hawai'i, Jams World, Surf Line Hawaii LTD., Hawaii State Teachers Association, ILWU Local 142, Graduate Student Organization at the University of Hawai'i at Manoa, Hawaii State AFL-CIO, Hawaii

Alliance for Progressive Action, Hawaii Women's Coalition, IMUAlliance, and thirty-nine individuals. Your Committee received testimony in opposition to this measure from ABC Stores; Chamber of Commerce Hawaii; City Mill Company, Limited; The Hawaii Business League; Hawaii Food Industry Association; State House District 41, Hawaiian Republican Party; Hawai'i Restaurant Association; Highway Inn; Il Gelato Hawaii; Libertarian Party of Hawaii; Retail Merchants of Hawaii; Tiki's Grill & Bar; Hawaii Farm Bureau; Maui Chamber of Commerce; Maui County Farm Bureau; The Pacific Club; Aiea Bowl; Big Island Toyota; Eggs 'n Things; Johnson Brothers of Hawaii; Pint and Jigger; Kenjo Inc.; and four individuals. Your Committee received comments on this measure from the Department of Labor and Industrial Relations, Grassroot Institute of Hawaii, and one individual.

Your Committee finds that the minimum wage rate was adjusted in 2014, raising the minimum wage rate each year for the following four years to achieve a minimum wage rate of \$10.10 per hour beginning January 1, 2018. This measure proposes to extend the increased minimum wage rate schedule by increasing the rate to \$12.25 per hour beginning January 1, 2018, and increasing the rate to \$15.00 per hour beginning January 1, 2019, to further boost the State's economy, improve the quality of life for minimum wage workers, and increase the number of jobs available.

Your Committee also finds that Hawaii's relatively low wages are exacerbated by Hawaii's high cost of living and notes that Hawaii's minimum wage rate fails to regularly adjust with Hawaii's rising cost of living. Your Committee believes that annually adjusting the minimum hourly wage to the nearest 5 cents based on the CPI-W will more accurately reflect Hawaii's economic changes, provide a mechanism to keep up with the cost of inflation, provide employers with more predictable and gradual increases in the minimum wage rate over time, and avoid continual review by the Legislature.

Your Committee further finds that the tip credit has made Hawaii's service industry workers particularly vulnerable due to the varying levels of customer tips, which are intended to supplement hourly wages that are lower than the minimum wage rate. This measure proposes to repeal the tip credit to treat all workers equally; however, your Committee finds that it is more appropriate to consider an increase of the tip credit, rather than its elimination.

Your Committee has amended this measure by:

- (1) Changing the minimum wage increase schedule to increase the minimum wage to \$10.50 per hour in 2018, \$12 per hour in 2019, \$13.50 per hour in 2020, and \$15 per hour in 2021;
- (2) Reinstating the tip credit;
- (3) Increasing the tip credit to an unspecified amount beginning January 1, 2018;
- (4) Inserting an effective date of January 7, 2059, to encourage further discussion; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

Your Committee acknowledges that it has not designated an amount by which to increase the tip credit and sees this as an opportunity to revisit and continue discussion regarding the tip credit.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 107, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 107, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4; Ayes with Reservations (Kim, Thielen). Noes, none. Excused, 1 (Gabbard).

SCRep. 511 Judiciary and Labor on S.B. No. 329

The purpose and intent of this measure is to appropriate funds for the Judiciary to purchase civil legal services for low- and moderate-income persons.

Your Committee received testimony in support of this measure from the Judiciary, Delivery of Legal Services to the Public Committee of the Hawaii State Bar Association, Legal Aid Society of Hawai'i, Volunteer Legal Services Hawai'i, and eight individuals.

Your Committee finds that civil legal services are critical because these services assist families in crisis in finding stability and hope. Pursuant to S.R. No. 6, S.D. 1 (Regular Session of 2015), the Hawai'i Access to Justice Commission convened a working group of state and community entities to determine and report which agency or organization should administer funding of civil legal services to low- and moderate income persons. This measure reflects the recommendations of the working group, and the appropriation will restore and support funding for civil legal services for low- and moderate income persons through contracts administered by the Judiciary.

Your Committee notes that the Judiciary budget measure, S.B. No. 469, Regular Session of 2017, currently proposes \$750,000 in funding for fiscal years 2017-2018 and 2018-2019 for civil legal services as part of program ID JUD601. Your Committee has clarified with Legal Aid Society of Hawaii that the amount requested by this measure is the aggregate total it considers necessary to fully fund these services, inclusive of the amount currently provided for in S.B. No. 469.

Your Committee has amended this measure by inserting an effective date of January 7, 2059, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 329, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 329, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Kim).

SCRep. 512 Judiciary and Labor on S.B. No. 425

The purpose and intent of this measure is to require certain employers with fifty or more employees to provide paid sick leave to service workers.

Your Committee received testimony in support of this measure from the Hawaii State Commission on the Status of Women; Democratic Party of Hawai'i; Americans for Democratic Action; Hawaii State AFL-CIO; Hawaii Government Employees Association, AFSCME, Local 152, AFL-CIO; Hawaii Children's Action Network; Hawaii Women's Coalition; and ILWU Local 142. Your Committee received testimony in opposition to this measure from ABC Stores, Chamber of Commerce Hawaii, Hawaii Crop Improvement Association, Hawaii Food Industry Association, Maui Chamber of Commerce, Retail Merchants of Hawaii, Hawaii Lodging & Tourism Association, Society for Human Resource Management-Hawaii Chapter, National Federation of Independent Business, Gyotaku Japanese Restaurant, Highway Inn, Il Gelato Hawaii, Aiea Bowl, Tiki's Grill & Bar, and two individuals. Your Committee received comments on this measure from the Department of Labor and Industrial Relations.

Your Committee finds that service workers who do not receive sick leave benefits may work while sick to avoid disciplinary action by an employer or financial hardship, thereby exacerbating their illness or placing co-workers and the public at risk if the illness is contagious. Your Committee finds that it is in the interest of the health and safety of employees and the public that service workers be allotted sick time to promote recovery and mitigate the spread of illnesses.

Your Committee finds that this measure is an appropriate vehicle in which to include the intent of S.B. No. 516, Regular Session of 2017, which allows an employee to take family leave in addition to victim leave when the employee or employee's minor child is a victim of domestic or sexual violence, as Part II, taking into consideration the amendments proposed in the testimony of the Department of Labor and Industrial Relations on S.B. No. 516 to amend section 378-73, Hawaii Revised Statutes, rather than chapter 398, Hawaii Revised Statutes.

Your Committee has amended this measure by:

- (1) Inserting Part II, which provides that an employee need not exhaust family leave benefits under chapter 398, Hawaii Revised Statutes, prior to taking victim leave under chapter 378, Hawaii Revised Statutes;
- (2) Inserting an effective date of January 7, 2019, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

Your Committee notes that one of the main issues to consider as this measure moves forward is whether the victim leave benefits inserted as Part II of this measure are in addition to certain other leave benefits.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 425, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 425, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Gabbard).

SCRep. 513 Judiciary and Labor on S.B. No. 855

The purpose and intent of this measure is to:

- (1) Require an affidavit on an application for voter registration to be included as part of the application for driver's licenses and civil identification cards;
- (2) Prevent the processing of an application for a driver's license or civil identification card unless the voter affidavit is complete or declined; and
- (3) Provide that the submission of a voter registration application either to register to vote or update the voter's registration information constitutes a request for permanent absentee voter status unless the applicant specifically indicates the applicant does not wish to be a permanent absentee voter.

Your Committee received testimony in support of this measure from the Office of Elections; Office of Hawaiian Affairs; Office of the County Clerk, County of Kaua'i; Office of the County Clerk, County of Maui; Common Cause Hawaii; Americans for Democratic Action Hawaii; League of Women Voters of Hawaii; Kupuna Caucus of the Democratic Party of Hawaii; Ko'olaupoko Hawaiian Civic Club; and twenty-five individuals. Your Committee received comments on this measure from the Department of Transportation.

Your Committee finds that automatic voter registration, also known as "motor voter", provides eligible voters an opportunity to register to vote when applying for or renewing a driver's license unless the eligible voter affirmatively declines to be registered. Proponents believe that automatic voter registration assists in removing barriers to registration for eligible voters, which is the first step to voter participation. Voter registration through a routine and necessary transaction, such as driver's licensing or renewal, increases voter registration efficiency and effectiveness and voter turnout. Hawaii has one of the lowest voter registration rolls and participation rates in the country. This measure will assist in increasing voter registration by providing the option for individuals when applying for or renewing driver's licenses and state identification cards to register to vote.

Your Committee notes that S.B. No. 206, Regular Session of 2017, as amended, contains substantially similar language as this measure except for the language that requires submission of a voter registration application to constitute a request for permanent absentee voter status unless the applicant affirmatively declines permanent absentee voter status. Your Committee further notes the comments submitted by the Department of Transportation that all sections of this measure should take effect on January 1, 2018, to reflect the effective date of section 2 of Act 167, Session Laws of Hawaii 2016, and provide a uniform transition to the new application form. Finally, your Committee notes the concerns submitted by Common Cause Hawaii that individuals may inadvertently register to vote without fully understanding that the submission of a voter registration application automatically requests permanent absentee

voter status. Your Committee believes that all of these issues merit further discussion as this measure moves through the legislative process.

Accordingly, your Committee has amended this measure by:

- (1) Deleting language that requires an affidavit on an application for voter registration to be included as part of the application for driver's licenses and civil identification cards and prevents the processing of an application for a driver's license or civil identification card unless the voter affidavit is complete or declined;
- (2) Inserting an effective date of January 7, 2059, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 855, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 855, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Gabbard).

SCRep. 514 Judiciary and Labor on S.B. No. 872

The purpose and intent of this measure is to allow the State Ethics Commission to employ or retain its own attorneys.

Your Committee received testimony in support of this measure from the State Ethics Commission and Democratic Party of Hawai'i.

Your Committee finds that existing law prohibits any state agency from hiring attorneys, except for the agencies specified under section 28-8.3(a), Hawaii Revised Statutes. This measure adds the State Ethics Commission as one of those agencies that are exempt to allow the Commission to hire and retain attorneys other than deputy attorneys general for legal representation, counsel, or drafting services.

Your Committee has amended this measure by:

- (1) Deleting section 1 and renumbering the remaining sections accordingly; and
- (2) Inserting an effective date of January 7, 2059, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 872, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 872, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Kim).

SCRep. 515 (Joint) Judiciary and Labor and Human Services on S.B. No. 891

The purpose and intent of this measure is to amend the income withholding requirements to impose a fine against any employer who:

- (1) Discharges from employment, refuses to employ, or takes disciplinary action against any noncustodial parent subject to income withholding; or
- (2) Fails to withhold support from income or pay the amounts to the Child Support Enforcement Agency.

Your Committees received testimony in support of this measure from the Department of the Attorney General.

Your Committees find that under federal law, each state is required to have in effect the imposition of a fine against any employer who discharges from employment, refuses to employ, or takes disciplinary action against any noncustodial parent subject to income withholding; or fails to withhold support from income or pay the amounts to a child support enforcement agency. This measure ensures compliance with federal law and maintains eligibility for federal welfare funding and federal funding of child support enforcement programs.

Your Committees have amended this measure by:

- (1) Inserting an effective date of January 7, 2059, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Judiciary and Labor and Human Services that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 891, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 891, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair and President on behalf of the Committees.

Judiciary and Labor: Ayes, 4. Noes, none. Excused, 1 (Gabbard).

Human Services: Ayes, 3. Noes, none. Excused, 2 (Tokuda, Wakai).

SCRep. 516 (Joint) Judiciary and Labor and Human Services on S.B. No. 897

The purpose and intent of this measure is to add the Child Support Enforcement Agency and the Departments of Taxation, Human Services, and Labor and Industrial Relations to the list of agencies that are authorized to conduct criminal history record checks of employees, prospective employees, and contractors, if applicable, who have access to federal tax information.

Your Committees received testimony in support of this measure from the Department of the Attorney General, Department of Human Services, Department of Labor and Industrial Relations, and Department of Taxation.

Your Committees find that the Internal Revenue Service recently mandated that all agencies receiving federal tax information perform criminal history record checks, including a Federal Bureau of Investigation fingerprint search, of all employees, employee applicants, and contractors who have access to federal tax information. This measure allows the Child Support Enforcement Agency and the Departments of Taxation, Human Services, and Labor and Industrial Relations to comply with federal requirements and continue to perform their core functions.

Your Committees have amended this measure by:

- (1) Deleting references to contractors in relation to criminal history records checks of persons who are employed or seeking employment with the Department of Human Services and Department of Labor and Industrial Relations to avoid conflict with federal laws that prohibit contractors from accessing federal tax information;
- (2) Amending the language regarding the termination or denial of employment as a result of a criminal history record check, notification requirements, and opportunity to respond to findings of the Departments of Taxation, Human Services, and Labor and Industrial Relations and Child Support Enforcement Agency for purposes of consistency;
- (3) Adding a conforming amendment to section 831-3.1, Hawaii Revised Statutes, to provide an exemption for any denials or termination of employment as an employee, employee applicant, or employee or agent of a contractor, if applicable, of the Departments of Taxation, Human Services, or Labor and Industrial Relations, or the Child Support Enforcement Agency;
- (4) Inserting an effective date of January 7, 2059, to encourage further discussion; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Judiciary and Labor and Human Services that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 897, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 897, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair and President on behalf of the Committees.

Judiciary and Labor: Ayes, 4. Noes, none. Excused, 1 (Gabbard).

Human Services: Ayes, 3. Noes, none. Excused, 2 (Tokuda, Wakai).

SCRep. 517 Judiciary and Labor on S.B. No. 1115

The purpose and intent of this measure is to establish and fund two full-time equivalent (2.00 FTE) enforcement specialist IV permanent positions in the Department of Labor and Industrial Relations, Disability Compensation Division (Division), to assist with the enforcement of Hawaii's workers' compensation, temporary disability insurance, and prepaid health care laws.

Your Committee received testimony in support of this measure from the Department of Labor and Industrial Relations; Department of Human Resources, City and County of Honolulu; Chamber of Commerce Hawaii; Hawai'i Construction Alliance; Hawaii Insurers Council; and ILWU Local 142.

Your Committee finds that the Division's primary objectives include ensuring the efficient processing of claims; the timely provision of medical services and payment of benefits to injured workers; employer compliance with workers' compensation, temporary disability insurance, and prepaid health care insurance coverage requirements; and monitoring health plans to ensure employees are provided with the benefits that are required under the prepaid health care law. Your Committee further finds that the Division lost a number of employees between 2009 and 2012, including two enforcement specialist positions. Your Committee finds that reinstatement and funding of these two positions will increase the efficiency of the Division in investigating delinquent employers failing to secure and provide workers' compensation, temporary disability insurance, and prepaid health care.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1115 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Gabbard).

SCRep. 518 Judiciary and Labor on S.B. No. 116

The purpose and intent of this measure is to appropriate funds for two permanent full-time equivalent (2.00 FTE) positions in the Disability Compensation Division (Division) of the Department of Labor and Industrial Relations, including a hearings officer with appropriate medical and legal training and an office assistant.

Your Committee received testimony in support of this measure from the Department of Human Resources Development; Department of Labor and Industrial Relations; Department of Human Resources, City and County of Honolulu; Chamber of Commerce Hawaii; Hawaii Chapter of the American Physical Therapy Association; Hawaii Insurers Council; ILWU Local 142; and The Pacific Resource Partnership.

Your Committee finds that the Division has the fiduciary duty to administer the State's workers' compensation program. Your Committee also finds that additional positions within the Division will allow the Division to expedite operations and increase efficiency to the benefit of injured workers, employers, health providers, insurers, and the State.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 116 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Gabbard).

SCRep. 519 Economic Development, Tourism, and Technology on S.B. No. 760

The purpose and intent of this measure is to:

- (1) Support the implementation of wireless technology, such as small wireless facilities, to support broadband technology in the State;
- (2) Codify the exemptions to permitting requirements established in Act 151, Session Laws of Hawaii 2011, and codified within the Hawaii Revised Statutes and expand those exemptions to include broadband over wireless or mobile platforms, including small wireless facilities;
- (3) Establish a definition of wireless communications antennas that includes small wireless facilities; and
- (4) Repeal those sections of Act 151, Session Laws of Hawaii 2011, that have been codified within the Hawaii Revised Statutes.

Your Committee received testimony in support of this measure from the Department of Business, Economic Development, and Tourism; Office of Planning; AT&T; CTIA; Hawaiian Telcom; Mobilitie; and Verizon Communications. Your Committee received comments on this measure from the Department of Commerce and Consumer Affairs, Cable Television Division.

Your Committee finds that the implementation of wireless technology, such as small wireless facilities, will play a major role in continuing the benefits afforded by broadband infrastructure in Hawaii. Your Committee finds that Hawaii consumers and businesses consistently rely on the usage of wireless devices and that access to broadband has the potential to expand economic and innovative development in the State. Your Committee further finds that expediting the installation of small wireless facilities will help Hawaii maintain the broadband capacity needed to remain economically competitive.

Your Committee has amended this measure by:

- (1) Adding the term "wire line" to coincide with the term wireless;
- (2) Adding a definition of the term "wire line";
- (3) Deleting section 5, which will then allow for all definitions in section 440J-1, Hawaii Revised Statutes, to apply to the entire chapter 440J, Hawaii Revised Statutes; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Economic Development, Tourism, and Technology that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 760, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 760, S.D. 1, and be referred to your Committees on Commerce, Consumer Protection, and Health and Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Baker).

SCRep. 520 (Joint) Economic Development, Tourism, and Technology and Government Operations on S.B. No. 1200

The purpose and intent of this measure is to appropriate funds to the Department of Accounting and General Services for the plans, design, construction, and equipment for a new Aloha Stadium.

Your Committees received testimony in support of this measure from the Department of Accounting and General Services, Stadium Authority, Office of the Lieutenant Governor, and two individuals. Your Committees received testimony in opposition to this measure from one individual.

Your Committees find that the current Aloha Stadium is reaching the end of its life cycle and the community would benefit from the construction of a new Aloha Stadium. Your Committees note that the recommended appropriation for preparations to build a new Aloha Stadium, in particular to create a master plan and conduct an environmental impact statement, is \$11,000,000. Your Committees further note that the appropriation proposed by this measure has a purpose distinct from the \$10,000,000 allocated in the Governor's budget for fiscal year 2017-2018, which is for repair and maintenance, health, and safety related to the Aloha Stadium.

Your Committees note their concern regarding the lack of a planned timeline for the development and construction of the new Aloha Stadium. Your Committees further note their concerns regarding a lack of cost detail for each analysis and study necessary to prepare the environmental impact statement. Should your Committee on Ways and Means decide to hear this measure, your Committees request further examination of these provisions.

Your Committees have amended this measure by:

- (1) Changing the means of financing to the general revenues of the State of Hawaii; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Economic Development, Tourism, and Technology and Government Operations that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1200, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1200, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Economic Development, Tourism, and Technology: Ayes, 3. Noes, none. Excused, 2 (Taniguchi, Thielen).

Government Operations: Ayes, 3. Noes, none. Excused, 2 (Rhoads, Tokuda).

SCRep. 521 Higher Education on S.B. No. 1161

The purpose and intent of this measure is to address rising tuition costs at the University of Hawaii by prohibiting the Board of Regents of the University from increasing tuition fees until 2027, and requiring the University to provide the Legislature with an analysis of whether current tuition increases are helping address the University's repair and maintenance backlog.

Your Committee received testimony in support of this measure from three individuals. Your Committee received testimony in opposition to this measure from the University of Hawaii System, Associated Students of the University of Hawaii at Windward Community College, and Hawaii Educational Policy Center. Your Committee received comments on this measure from the University of Hawaii Student Caucus.

Your Committee finds that continually rising tuition rates are making higher education increasingly cost prohibitive. More specifically, your Committee finds that the tuition schedule established by the Board of Regents of the University of Hawaii has created an unreasonable increase in the cost of attendance at Hawaii's sole public university system. Your Committee further finds that tuition costs have been consistently and significantly on the rise, having risen over six hundred percent for resident and non-resident students since 1995. These onerous tuition costs place undue burden on students and their families, as your Committee heard during testimony by two current students at the University of Hawaii at Manoa.

Your Committee is equally concerned about the University of Hawaii's significant increase in spending in recent years for personnel expenses. Specifically, your Committee notes that the University's budget for systemwide administrative, management, and executive personnel was \$19,522,528 in 2005 and \$50,478,080 in 2015, an increase of 159 percent in 10 years during which time the University added 77 full-time employee positions while the State was experiencing an economic recession. Additionally, your Committee finds that demonstrated efforts to restructure and use financial resources efficiently are deficient by the University. Your Committee notes that there is redundancy in positions and a lack of accountability between the University system and individual university campuses, and finds that the increase of University personnel in recent years is not justified by the outcomes produced by the University.

Your Committee acknowledges the need for the University to remain competitive in areas such as faculty salaries in order for the University of Hawaii to remain a high quality and desirable institution of higher education. However, your Committee has concerns that the University continues to need increased revenues, often looking to students to fill this need, and the University does not have strong enough outcomes to justify its high costs of operation.

Accordingly, your Committee has amended this measure by:

- (1) Inserting language to require that, upon expiration of the current terms of the two at-large members of the Board of Regents of the University of Hawaii, two members of the Board must be faculty members, one of which must be faculty at one of the University of Hawaii's community colleges and the other of which must be faculty at the University of Hawaii at Manoa, University of Hawaii at Hilo, or University of Hawaii West Oahu; provided that the two faculty members may not be faculty at campuses in the same county;
- (2) Leaving unspecified, rather than until 2027, the time period during which the Board of Regents may not increase tuition fees;
- (3) Limiting the University of Hawaii System's general fund appropriation for operating expenses to support program ID UOH900 to no more than \$41,957,000 for five fiscal years beginning with fiscal year 2017-2018;
- (4) Requiring that all University of Hawaii employees who hold administrative positions and earn more than \$150,000 annually be employed under an employment contract with the University by July 1, 2018; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Higher Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1161, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1161, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3; Ayes with Reservations (Taniguchi). Noes, none. Excused, 2 (Keith-Agaran, Kidani).

SCRep. 522 Higher Education on S.B. No. 1162

The purpose and intent of this measure is to establish the Hawaii promise program to provide scholarships for the unmet direct cost needs of qualified students enrolled at any University of Hawaii campus and to appropriate funds to establish and implement the program.

Your Committee received testimony in support of this measure from the University of Hawaii System; University of Hawaii Student Caucus; Graduate Student Organization at the University of Hawaii at Manoa; Associated Students of the University of Hawaii at Windward Community College; Hawaii Pacific Health; Americans for Democratic Action; KAI Hawaii, Inc.; and thirteen individuals.

Your Committee finds that Hawaii has a college completion rate goal of 55 by '25 with the hope of increasing the percentage of working-age adults with two- or four-year degrees to fifty-five percent by 2025. Your Committee further finds that the University of

Hawaii has a system wide, strategic graduation initiative with a goal of increasing the educational capital of the State by increasing participation in college by students, particularly Native Hawaiians, low-income students, and those from underserved regions and populations. An educated labor force and engaged citizenry are essential in today's global, knowledge-based economy.

Your Committee finds that as the cost of higher education continues to rise and become more burdensome for families, attendance and completion of college become especially difficult for students. According to a 2016 report by the Institute for Research on Higher Education at the University of Pennsylvania Graduate School of Education, Hawaii's financial aid policies did little to alleviate costs for families earning less than \$30,000 annually and the State provided minimal need-based aid to students attending public institutions. This measure attempts to address these issues by providing scholarships for the unmet needs of qualified students.

Your Committee has amended this measure by:

- (1) Inserting language to clarify that the Hawaii promise program applies to all University of Hawaii campuses, including the community colleges, and providing program requirements for students attending community colleges, including enrollment in six or more credits per semester;
- (2) Inserting language to require that students maintain a grade point average of 2.5 or higher to maintain a scholarship under the Hawaii promise program, and that students attending community college must earn a minimum of twelve credits in one academic year to maintain a scholarship under the program;
- (3) Inserting a provision that establishes the Hawaii promise program special fund to be used to provide financial assistance to qualified students through Hawaii promise program scholarships;
- (4) Inserting a provision that requires the University of Hawaii to report to the Legislature no later than twenty days prior to the convening of each regular session with information on the special fund, including the number of scholarships provided under the Hawaii promise program and recommendations on all tuition waivers;
- (5) Amending the appropriation provision to first appropriate the funds into the Hawaii promise program special fund; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Higher Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1162, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1162, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Keith-Agaran, Kidani).

SCRep. 523 (Joint) Public Safety, Intergovernmental, and Military Affairs and Housing on S.B. No. 1307

The purpose and intent of this measure is to allow county councils to establish neighborhood revitalization boards for certain areas within the counties for the purposes of developing neighborhood revitalization plans, requesting funding for the plans, commenting on proposed policies and regulations impacting the board's neighborhood, and advocating for the board's neighborhood.

Your Committees received testimony in support of this measure from the Kaua'i Planning Department; Department of Planning and Permitting for the City and County of Honolulu; Ho'omana Pono, LLC; Hawaii Regional Council of Carpenters; Wahiawa Community Based Development Organization; and one individual. Your Committees received comments on this measure from the Office of Hawaiian Affairs.

Your Committees find that receiving input related to neighborhood development from the residents most affected by any such development is essential for targeting the actual needs of individual neighborhoods. Neighborhood revitalization boards for census-designated neighborhoods ripe for revitalization, consisting of members from the neighborhood itself, can provide invaluable insight for targeting revitalization efforts. Accordingly, this measure:

- (1) Allows county councils to establish neighborhood revitalization boards to be administered by the counties for the purpose of developing neighborhood revitalization plans, commenting on proposed policies and regulations, and advocating for census-designated areas in each county;
- (2) Allows neighborhood revitalization boards to request funding from the county councils, state legislature, and United States Congress; and
- (3) Requires the counties to provide at least twenty per cent matching funds for any neighborhood revitalization plan or project that receives state funds.

Your Committees have amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Public Safety, Intergovernmental, and Military Affairs and Housing that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1307, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1307, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
Public Safety, Intergovernmental, and Military Affairs: Ayes, 4. Noes, none. Excused, 1 (Baker).
Housing: Ayes, 3. Noes, none. Excused, 2 (Kahale, Keith-Agaran).

SCRep. 524 Public Safety, Intergovernmental, and Military Affairs on S.B. No. 1203

The purpose and intent of this measure is to establish the Technical Literacy for Incarcerated Individuals Pilot Program to be administered in one men's and one women's correctional facility in the State.

Your Committee received testimony in support of this measure from the Hawaii Paroling Authority, YWCA O'ahu, and one individual. Your Committee received comments on this measure from the Department of Public Safety.

Your Committee finds that helping inmates transition back into everyday life is a vital component of successful rehabilitation. One way to assist inmates and parolees with their transition back into society is to provide them with training in job appropriate skills that will assist them in finding stable and profitable work upon their exit from the system. In the current economy, providing inmates and parolees with computer science and entrepreneurship skills is particularly beneficial for giving those individuals an opportunity to re-enter society as productive members. This measure seeks to address the important rehabilitative step of providing relevant education to inmates and parolees by establishing the Technical Literacy for Incarcerated Individuals Pilot Program at one men's and one women's correctional facility in the State to be administered by a third-party entity engaged in the business of developing curriculum for, administering, and providing support resources for technical literacy programs for individuals. This measure:

- (1) Establishes the pilot program to educate eligible inmates, as determined by the Department of Public Safety, on the fundamentals of computer science and programming through five hundred hours of instruction and self-study and provide additional course offerings for parolees that complete the initial five-hundred-hour program;
- (2) Requires the Department of Public Safety to consult with the administering third-party entity on guidelines for determining eligibility for the pilot program; and
- (3) Appropriates funds for the pilot program.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1203 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Baker).

SCRep. 525 (Joint) Water and Land and Agriculture and Environment and Public Safety, Intergovernmental, and Military Affairs on S.B. No. 481

The purpose and intent of this measure is to provide grants-in-aid to the counties for the identifying and mapping of important agricultural lands.

Your Committees received testimony in support of this measure from the Land Use Commission; Office of Planning; Department of Planning and Permitting of the City and County of Honolulu; Alexander & Baldwin, Inc.; Ulupono Initiative; Hawai'i Association of REALTORS; Hawaii Farmers Union United; Sierra Club of Hawai'i; Hawai'i Farm Bureau; and Maui County Farm Bureau. Your Committees received comments on this measure from the Department of Agriculture.

Your Committees find that Article XI, section 3, of the Hawaii State Constitution provides, among other things, protections for lands identified as important agricultural lands. In service of this duty, the Legislature enacted Act 183, Session Laws of Hawaii 2005, which was codified in part III of chapter 205, Hawaii Revised Statutes. Act 183 directed each county to identify and map potential important agricultural lands within the county and make recommendations to the Land Use Commission for their proper designation. However, most counties have not received state funds to assist them in fulfilling their duties under Act 183. Accordingly, this measure appropriates funds as grants-in-aid to the counties of Hawaii, Kauai, and Maui, and the City and County of Honolulu to identify and map important agricultural lands.

Your Committees note that some counties have already begun fulfilling their duty to identify and map important agricultural lands despite the lack of state funding. Consequently, those counties who have initiated this process on their own should not be penalized and should be able to apply funds appropriated through this measure to any expenses previously incurred.

Accordingly, your Committees have amended this measure by adding language to allow the appropriated funds to apply to any expenses a county incurred in identifying and mapping important agricultural lands before the effective date of this measure, provided that the county has not previously received reimbursement for those expenses from the State.

As affirmed by the records of votes of the members of your Committees on Water and Land, Agriculture and Environment, and Public Safety, Intergovernmental, and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 481, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 481, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Water and Land: Ayes, 3. Noes, none. Excused, 2 (Inouye, Kim).

Agriculture and Environment: Ayes, 5. Noes, none. Excused, none.

Public Safety, Intergovernmental, and Military Affairs: Ayes, 4. Noes, none. Excused, 1 (Baker).

SCRep. 526 (Joint) Water and Land and Public Safety, Intergovernmental, and Military Affairs and Agriculture and Environment on S.B. No. 635

The purpose and intent of this measure is to appropriate funds to establish a two-year water conservation financial assistance pilot program to provide financial assistance to county-owned public water systems to implement water conservation incentive programs.

Your Committees received testimony in support of this measure from the Department of Land and Natural Resources; County of Maui, Department of Water Supply; City and County of Honolulu, Board of Water Supply; Surfrider Foundation; Nature Conservancy

Hawai'i; Hawai'i Green Growth; Hawai'i Community Foundation; Wai Maoli, Hawai'i Fresh Water Initiative; Ulupono Initiative; Maui County Farm Bureau; U.S. Green Building Council, Hawai'i Chapter; Sierra Club of Hawai'i; One World One Water, LLC; and two individuals.

Your Committees find that as an island state, Hawaii has limited access to natural fresh water. Your Committees find that a water conservation program that provides financial assistance to county-owned public water systems and their customers to help implement water conservation measures and practices will reduce water use or waste. Your Committees further find that water conservation is one of the most cost-effective long-term water supply options for the State.

Your Committees have amended this measure by:

- (1) Establishing the two-year water conservation financial assistance pilot program within each of the four county water supply departments, rather than within the Commission on Water Resource Management, and making conforming amendments;
- (2) Requiring each of the four county water supply departments to report to the Legislature no later than twenty days prior to the convening of the Regular Session of 2019, including information as to how funds were spent and the results of the investment;
- (3) Inserting an appropriation amount of \$500,000 per fiscal year for the two-year water conservation financial assistance pilot program; provided that the appropriation is disbursed to each of the four county water supply departments prorated by population and matched by the counties on a dollar-for-dollar basis; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Water and Land, Public Safety, Intergovernmental, and Military Affairs, and Agriculture and Environment that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 635, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 635, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Water and Land: Ayes, 3. Noes, none. Excused, 2 (Inouye, Kim).

Public Safety, Intergovernmental, and Military Affairs: Ayes, 4. Noes, none. Excused, 1 (Baker).

Agriculture and Environment: Ayes, 5. Noes, none. Excused, none.

SCRep. 527 Water and Land on S.B. No. 259

The purpose and intent of this measure is to require all fishing nets placed in state waters to have identification tags with the contact information of the fishing net's owner.

Your Committee received testimony in support of this measure from Conservation Council for Hawai'i, Animal Rights Hawai'i, West Hawaii Humane Society, Ho'okipa Network Kauai, and four individuals. Your Committee received testimony in opposition to this measure from Hawaii Goes Fishing and three individuals. Your Committee received comments on this measure from the Department of Land and Natural Resources.

Your Committee finds that the Department of Land and Natural Resources currently lacks clear statutory authority to require all fishing nets to be registered and tagged. Your Committee also finds that the department via their experiences with lay nets are learning and developing the most effective and efficient identification tag requirements, and are in the best position to determine the specific information that shall be required on fishing net identification tags.

Your Committee has amended this measure by:

- (1) Clarifying that all fishing nets used in state marine waters are required to be registered and affixed with an identification tag as specified by the Department of Land and Natural Resources;
- (2) Removing the provision that any fishing net that does not have identification tags shall be subject to immediate seizure; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 259, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 259, S.D. 1, and be referred to your Committees on Judiciary and Labor and Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Inouye, Kim).

SCRep. 528 (Joint) Water and Land and Agriculture and Environment and Public Safety, Intergovernmental, and Military Affairs on S.B. No. 698

The purpose and intent of this measure is to:

- (1) Require an owner or occupier of certain agricultural lands to provide written notice to certain county agencies when subdividing and leasing the lands; and
- (2) Grant county and state agencies the implicit right to enter the property to investigate violations of and compliance with agricultural subdivision and lease qualifications.

Your Committees received testimony in support of this measure from the Department of Agriculture; Department of Planning and Permitting, City and County of Honolulu; and Sierra Club of Hawai'i.

Your Committees find that the subdivision exemption under section 205-4.5, Hawaii Revised Statutes, coupled with the agricultural building permit exemption under section 46-88, Hawaii Revised Statutes, have resulted in enforcement challenges for county agencies,

as evidenced by the land use violations at Kunia Loa Ridge Farmlands. Your Committees further find that although the county planning department is charged with enforcement of the law, the county planning department lacks the implicit right to enter a structure that is exempt from building permit requirements and building codes. Additionally, unregulated parceling of large tracts of land has led to unidentifiable lots, furthering enforcement problems. Your Committees find that this measure utilizes various efforts to improve existing law and enforcement capabilities of state and county agencies to ensure that only allowed land uses and activities are occurring on agricultural lands in the State.

Your Committees have amended this measure by:

- (1) As recommended by the Department of Planning and Permitting, City and County of Honolulu:
 - (A) Requiring an owner or occupier to submit a subdivision or lease map to appropriate county and state agencies, along with the written notice required when subdividing and leasing certain agricultural lands;
 - (B) Including the county planning department and Department of Health as agencies required to be notified by the owner or occupier when subdividing and leasing certain agricultural lands;
 - (C) Adding the county planning department as an agency that has the authority to void the subdivision or lease due to an owner's or occupier's failure to provide notice; and
 - (D) Clarifying that the appropriate state and county agencies have the authority to issue citations and assess fines and liens for violations; and
- (2) Authorizing state and county agencies to have an explicit right to enter the property upon reasonable belief of a violation.

As affirmed by the records of votes of the members of your Committees on Water and Land, Agriculture and Environment, and Public Safety, Intergovernmental, and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 698, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 698, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Water and Land: Ayes, 3. Noes, none. Excused, 2 (Inouye, Kim).

Agriculture and Environment: Ayes, 5. Noes, none. Excused, none.

Public Safety, Intergovernmental, and Military Affairs: Ayes, 4. Noes, none. Excused, 1 (Baker).

SCRep. 529 (Joint) Economic Development, Tourism, and Technology and Water and Land on S.B. No. 1292

The purpose and intent of this measure is to establish the Hilo community economic district to facilitate efficient and effective improvement, and economic opportunity, in the area.

Your Committees received testimony in support of this measure from the East Hawaii Region of Hawaii Health Systems Corporation; University of Hawaii; County of Hawaii, Office of the Mayor; Hawaii County Council; Chamber of Commerce Hawaii; Hawaii Island Chamber of Commerce; Japanese Chamber of Commerce & Industry of Hawaii; ILWU Local 142; Hawaii Island Contractors' Association; Kanoiehua Industrial Area Association; HPM Building Supply; Mauna Kea Infrared, LLC; Kadota Liquor; Building Industry Association Hawaii; Hawaii Farm Bureau; McCully Works; Blue Ginger General Construction, Inc.; Hawaii Island REALTORS; and nine individuals. Your Committees received comments on this measure from the Department of Budget and Finance, Hawaii Community Development Authority, Department of Land and Natural Resources, Department of Hawaiian Home Lands, and Office of Hawaiian Affairs.

Your Committees find that Hilo has the potential for increased growth that can improve workforce and affordable housing, parks and open space, public facilities, and commercial, industrial, and hotel facilities. Your Committees find that the Legislature created the Hawaii Community Development Authority to revitalize urban areas that were underused and declining economically. Your Committees further find that the establishment of the Hilo Community Economic District would help coordinate redevelopment and encourage new investment and infrastructure in the area.

Your Committees find that although the Hawaii Community Development Authority can provide valuable guidance in the short term to revitalize the Hilo Community Economic District, the redevelopment authority of this district should ultimately reside at the local, county level. Furthermore, your Committees intend to minimize changes to the Hawaii Community Development Authority's management of existing community development districts in the city and county of Honolulu. Your Committees believe that amendments to this measure are necessary to effectuate these goals.

Accordingly, your Committees have amended this measure by:

- (1) Amending the definition of "district", under the new part establishing the Hilo Community Economic District, to exclude all lands owned or managed by the Department of Hawaiian Home Lands;
- (2) Removing the three additional Hilo Community Economic District voting members to the Authority, as appointed by the Governor, established under the new part creating the Hilo Community Economic District;
- (3) Creating two Hawaii Community Development Authorities distinguished by population between counties with a population of five hundred thousand or greater and counties with a population of less than five hundred thousand;
- (4) Substituting the term "Hawaii Community Development Authorities" wherever the term "Hawaii Community Development Authority" appears;
- (5) Providing a description of Authority membership for counties with a population of less than five hundred thousand;
- (6) Adding a definition of "community", as it relates to membership of the Authority for counties with a population less than five hundred thousand, to mean individuals who reside or work within a one-mile radius of the district boundary;

- (7) Adding a twenty-year sunset provision for the Act if either a redevelopment area or an improvement district have been established after twenty years;
- (8) Requiring the Hawaii Community Development Authority established pursuant to section 206E-3(c), Hawaii Revised Statutes, to engage in discussions with the County of Hawaii to determine the feasibility of the County of Hawaii:
 - (A) Assuming the redevelopment powers and duties over the lands within the Hilo Community Economic District as a redevelopment area pursuant to chapter 53, Hawaii Revised Statutes; or
 - (B) Establishing a special improvement district, pursuant to section 46-80.5, Hawaii Revised Statutes, that encompasses the lands within the Hilo community economic district;
- (9) Inserting a sunset date of the first to occur of the following:
 - (A) June 30, 2037;
 - (B) Inclusion of the lands within the Hilo Community Economic District within a redevelopment area pursuant to chapter 53, Hawaii Revised Statutes; or
 - (C) Establishment of a special improvement district that encompasses the lands within the Hilo community economic district; and
- (10) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Economic Development, Tourism, and Technology and Water and Land that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1292, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1292, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Economic Development, Tourism, and Technology: Ayes, 3; Ayes with Reservations (Taniguchi). Noes, none. Excused, 2 (Baker, Thielen).

Water and Land: Ayes, 3; Ayes with Reservations (Thielen). Noes, none. Excused, 2 (Inouye, Kim).

SCRep. 530 Water and Land on S.B. No. 1240

The purpose and intent of this measure is to place a moratorium on aquarium fish permits until:

- (1) The Department of Land and Natural Resources submits proposed legislation to the Legislature including a definition of “sustainable”, a policy for sustainable collection practices of near shore aquatic life, and limits on the total number of species and sustainable rates of collection; and
- (2) A definition of “sustainable” and a policy for sustainable collection practices of near shore aquatic life, including limits on the total number of species and sustainable rates of collection, are enacted.

Your Committee received testimony in support of this measure from the Humane Society of the United States; Environmental Caucus of the Democratic Party of Hawaii; Ocean Tourism Coalition; Animal Rights Hawaii; Wild Open Eye; Snorkel Bob’s; Endangered Habitats League; For the Sea Productions; Coral Triangle Conservancy, Inc; Fish Feel; We Are One, Inc; Green Divers Productions; Maui Island Mermaids, LLC; Bonefish Hawaii; and three hundred eighty-three individuals. Your Committee received testimony in opposition to this measure from the Association of Zoos and Aquariums; Pet Industry Joint Advisory Council; Coral Fish Hawaii; Wayne’s Ocean World, Inc; Pele Lani Farm, LLC; House of Tropicals; Hawaii Opae Ula; Coast Tropicals; Pet Depot; Tropical Fish Emporium, LLC; Cyanide Free For Me; and thirty-six individuals. Your Committee received comments on this measure from the Department of Land and Natural Resources and twenty-five individuals.

Your Committee finds that ensuring the sustainability of aquatic life and the protection of coral reefs in Hawaii waters is vital to the long-term interests of the people of Hawaii; the economic and environmental benefits of protecting the marine environment cannot be overstated. Your Committee further finds that it is imperative for the long-term protection of marine resources to determine what is sustainable and to establish a policy for sustainable collection practices of near shore aquatic life. Your Committee notes that there is a lack of data regarding the numbers of various species of aquarium fish in the waters around Oahu and the effects of current collection practices.

Your Committee has amended this measure by:

- (1) Removing the moratorium on aquarium fish permits;
- (2) Requiring the Department of Land and Natural Resources to submit proposed legislation, including a definition of “sustainable”, a policy for sustainable collection practices of near shore aquatic life, and limits on collection, to the Legislature no later than twenty days prior to the 2019 Regular Session; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1240, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1240, S.D. 1, and be referred to your Committee on Judiciary and Labor.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Inouye, Thielen).

SCRep. 531 (Joint) Water and Land and Higher Education on S.B. No. 1178

The purpose and intent of this measure is to appropriate funds to maintain the initial staff necessary to develop and manage He'eia estuary.

Your Committees received testimony in support of this measure from the Department of Land and Natural Resources, Office of Planning, University of Hawai'i System, University of Hawaii Sea Grant College Program, Nature Conservancy Hawaii, Ko'olaupoko Hawaiian Civic Club, Kahalu'u Neighborhood Board No. 29, Kaneohe Neighborhood Board Environment Committee, Ko'olau Foundation, and twenty-five individuals. Your Committees received comments on this measure from the Hawaii Community Development Authority and three individuals.

Your Committees find that the State has coordinated with the National Oceanic and Atmospheric Administration (NOAA) to nominate He'eia estuary as a National Estuarine Research Reserve. The site, located on Oahu's windward shore, includes He'eia state park, He'eia fishpond, and the He'eia community development district, as well as marine waters with patch and fringing reefs and Moku o Lo'e (Coconut Island). In 2012, the Office of Planning was designated as the lead agency to coordinate the site selection for a Hawai'i site and nomination process for the He'eia site to be designated as a National Estuarine Research Reserve. In 2014, He'eia was officially nominated as a Reserve to support NOAA's policy to encourage expansion of the program in unrepresented areas of the country.

On January 19, 2017, the He'eia site was officially designated as the twenty-ninth site in the National Estuarine Research Reserve System, which enables federal funding to support the implementation of the management plan.

The University of Hawaii, Hawaii Institute of Marine Biology, is the lead agency for implementation of the He'eia National Estuarine Research Reserve System management plan, with partners to include the Hawaii Community Development Authority, Department of Land and Natural Resources, and several community organizations. Your Committees further find that for the He'eia Reserve to succeed in its function within the System, funding for initial staffing is essential. According to federal regulations, the federal government matches state appropriations on a seventy percent (federal) to thirty percent (state) basis.

Your Committees have amended this measure by:

- (1) Updating the purpose section to reflect current information as provided by the Office of Planning;
- (2) Blanking out the appropriation amount and the allocation of those dollars;
- (3) Inserting an effective date of March 14, 2092, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Water and Land and Higher Education that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1178, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1178, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Water and Land: Ayes, 3. Noes, none. Excused, 2 (Inouye, Kim).

Higher Education: Ayes, 3. Noes, none. Excused, 2 (Keith-Agaran, Taniguchi).

SCRep. 532 Ways and Means on S.B. No. 724

The purpose and intent of this measure is to require the Department of Budget and Finance to issue annual reports on non-discretionary costs for the purpose of providing indicators of the budgetary situation of the State.

Specifically, this measure establishes reporting requirements concerning the following general fund costs:

- (1) Debt service for general obligation bonds;
- (2) Medicaid service costs; and
- (3) Employer contributions for pension, retirement, and health benefits for state employees and retirees.

Your Committee received comments on this measure from the Department of Budget and Finance.

Your Committee finds that disclosure of non-discretionary costs and related ratios will assist the Legislature in monitoring future financial liabilities and in taking preventative, corrective actions before crises occur.

Your Committee will continue to work with the Department of Budget and Finance on this measure and related legislation to improve and enhance budgetary information that is required to be submitted to the Legislature.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 724 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 9. Noes, none. Excused, 2 (Harimoto, Taniguchi).

SCRep. 533 Ways and Means on S.B. No. 941

The purpose and intent of this measure is to clarify that Automated Clearing House transactions that debit the State's bank account may be considered electronic funds transfers if authorized by the Director of Finance.

Your Committee received testimony in support of this measure from the Department of Budget and Finance.

Your Committee finds that specifically including Automated Clearing House transactions as electronic funds transfers for the purposes of debiting state treasury bank accounts in financial institutions will increase the efficiency of state agencies in making bank deposits.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 941 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, none. Excused, 3 (Galuteria, Harimoto, Wakai).

SCRep. 534 Ways and Means on S.B. No. 284

The purpose and intent of this measure is to correct an error in the Supplemental Appropriations Act of 2016 by clarifying that the appropriation for a capital improvement project at Maalaea small boat harbor is for plans, design, and construction for pier improvements.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources, Ocean Tourism Coalition, and one individual.

Your Committee finds that Act 119, Session Laws of Hawaii 2015, part IV, as amended by Act 124, Session Laws of Hawaii 2016, authorized an appropriation for the plans, design, and construction for dredging at Maalaea small boat harbor. Your Committee furthers finds that the appropriation was intended to be for the plans, design, and construction for pier improvements, rather than dredging. Amending the appropriation allows for the plans, design, and construction to take place as originally intended.

Your Committee has amended this measure by making a technical nonsubstantive change for the purpose of clarity.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 284, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 284, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, 4 (Galuteria, Harimoto, Taniguchi, Wakai).

SCRep. 535 Ways and Means on S.B. No. 939

The purpose and intent of this measure is to update and clarify sections of the Hawaii Revised Statutes relating to the investment and funds management functions of the Department of Budget and Finance.

Your Committee received testimony in support of this measure from the Department of Budget and Finance.

Your Committee finds that this measure repeals statutory language that authorizes the Director of Finance to invest state moneys in:

- (1) Student Loan Marketing Association notes and bonds because the Student Loan Marketing Association "Sallie Mae" is no longer a government-sponsored enterprise; and
- (2) Various student loan resource securities because the issuance of these types of securities has diminished and there no longer exists a liquid efficient market for these types of securities.

Your Committee also finds that this measure requires every public accountant collecting or receiving revenue or other moneys on behalf of the State, regardless of whether the accountant is located in Honolulu, to pay those moneys into the state treasury either weekly or at such times as may be otherwise specially appointed. Your Committee believes it is beneficial to the State to have all receipts deposited into the state treasury as soon as possible.

Your Committee has amended this measure by making technical nonsubstantive changes for the purposes of style, clarity, and consistency.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 939, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 939, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 9. Noes, none. Excused, 2 (Harimoto, Taniguchi).

SCRep. 536 Ways and Means on S.B. No. 1002

The purpose and intent of this measure is to conform Hawaii's income and estate and generation-skipping transfer tax laws to the Internal Revenue Code of 1986, as amended, as of December 31, 2016.

Your Committee received testimony in support of this measure from the Department of Taxation and one individual.

Your Committee received comments on this measure from the Tax Foundation of Hawaii.

Your Committee finds that this annual conformity measure is submitted by the Department of Taxation in compliance with section 235-2.5, Hawaii Revised Statutes, which requires the department to annually submit a measure to maintain state income tax conformity with the federal Internal Revenue Code. This measure is also intended to comply with section 236E-4, Hawaii Revised Statutes, which requires the department to annually submit a measure to maintain state estate and generation-skipping transfer tax conformity with the federal Internal Revenue Code. The purpose of conformity is to update the state tax laws with those changes made to the federal Internal Revenue Code during the past year and to adopt those changes that are appropriate for Hawaii law.

Your Committee believes that, given the Department of Taxation's testimony that the revenue impact of this measure is indeterminate, more information on the possible revenue impact is needed before taking final action on this measure.

Accordingly, your Committee has amended this measure by:

- (1) Changing the effective date to January 1, 2050;
- (2) Providing that the portions of the measure relating to the income tax law apply to taxable years beginning after December 31, 2049; and
- (3) Providing that the portions of the measure relating to the estate and generation-skipping transfer tax apply to decedents dying or taxable transfers occurring after December 31, 2049,

to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1002, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1002, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 9. Noes, none. Excused, 2 (Harimoto, Wakai).

SCRep. 537 Ways and Means on S.B. No. 1007

The purpose and intent of this measure is to promote effective tax administration and mitigate burdens on employers by changing the frequency of filing income tax withholding returns from monthly to quarterly for all employers.

Your Committee received testimony in support of this measure from the Department of Taxation and the Chamber of Commerce Hawaii.

Your Committee received testimony in opposition to this measure from one individual.

Your Committee received comments on this measure from the Tax Foundation of Hawaii.

Your Committee finds that this measure would decrease the administrative burden on employers by reducing the number of withholding filings from twelve annual filings to four. Your Committee further finds that requiring withholdings to be reported quarterly would align the State's filing requirements with the filing requirements of the federal government.

Your Committee has amended this measure by:

- (1) Requiring employers whose annual liability for taxes withheld exceeds \$5,000, but does not exceed \$40,000, to remit the complete amount of tax withheld on a monthly schedule; and
- (2) Defining the term "monthly schedule" to mean on or before the fifteenth day of the calendar month following the month for which the taxes have been withheld.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1007, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1007, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 9. Noes, none. Excused, 2 (Harimoto, Wakai).

SCRep. 538 Ways and Means on S.B. No. 215

The purpose and intent of this measure is to repeal the education research and development revolving fund.

The Department of Education submitted written comments in support of this measure.

Your Committee finds that the education research and development revolving fund was established in 2001 in anticipation of the potential commercial exploitation of a special education student information system developed by the Department of Education. However, this exploitation did not occur, and over the last five years, no revenues have been deposited into this fund from the commercial exploitation of products and services developed by the Department of Education.

Your Committee further finds that pursuant to section 37-52.4(4), Hawaii Revised Statutes, the Legislature, in reviewing a revolving fund to determine whether it should be continued, is required to ensure that the fund, among other matters, demonstrates "the capacity to be financially self-sustaining." Your Committee notes that in Auditor's Report No. 16-11, the Auditor recommended the repeal of the education research and development revolving fund because the fund could not meet this statutory requirement.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 215 and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 7. Noes, none. Excused, 4 (Galuteria, Harimoto, Inouye, Kahele).

SCRep. 539 Ways and Means on S.B. No. 1099

The purpose and intent of this measure is to establish a service mark licensing agreement program in the Department of Education to allow the department and individual schools to license service marks.

Your Committee received written comments in support of this measure from the Department of Education.

Your Committee finds that establishing a licensing agreement program pertaining to trademarks and service marks would allow the Department of Education and its schools to engage in commercial activities, including sponsorships, and to control the use of their trademarks and service marks by third parties.

Your Committee further finds that sponsorships can provide valuable financial resources for a host of educational activities that promote learning, including scholarships, field trips, and activities by school clubs and sports teams.

Your Committee notes that, as it is the intent of this measure to encompass both service marks and trademarks, the use of the term “mark” would more appropriately reflect that intent.

Accordingly, your Committee has amended this measure by changing the references to service marks to the term “mark” and defining that term to include both trademarks and service marks, similar to the term’s definition in section 482-1, Hawaii Revised Statutes.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1099, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1099, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, 4 (Galuteria, Harimoto, Inouye, Kahele).

SCRep. 540 Education on S.B. No. 618

The purpose and intent of this measure is to require the Board of Education to establish a process whereby the public may petition the Board to add items to the agenda of the next meeting.

Your Committee received testimony in support of this measure from the Hawaii State Teachers Association, League of Women Voters Hawaii, Democratic Party of Hawaii Education Caucus, IMUAlliance, Americans for Democratic Action, and seven individuals.

Your Committee finds that public access and transparency are vital to the proper functioning of public administrative bodies, including the Board of Education. Your Committee further finds that, while members of the public are permitted to testify at full meetings of the Board of Education, they are limited to testifying on items that already appear on the meeting’s agenda. Your Committee additionally finds that there is currently no mechanism by which members of the public may add items to Board of Education meeting agendas. This measure will increase public access to Board of Education meetings by requiring the Board to establish a process whereby the public may petition the Board to add items to the agenda of the next meeting.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 618 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Dela Cruz, Riviere).

SCRep. 541 (Joint) Public Safety, Intergovernmental, and Military Affairs and Transportation and Energy on S.B. No. 975

The purpose and intent of this measure is to allow law enforcement officers and commissioned volunteer enforcement officers to confiscate removable windshield placards, temporary windshield placards, and special license plates for:

- (1) Fraudulent manufacture or alteration;
- (2) Any unauthorized use; or
- (3) Display of an invalid removable windshield placard, an invalid temporary removable windshield placard, or invalid special license plates.

Your Committees received testimony in support of this measure from the Disability and Communication Access Board, Downtown-Chinatown Neighborhood Board No. 13, and two individuals. Your Committees received testimony in opposition to this measure from one individual.

Your Committees find that the statewide parking program for persons with disabilities is a vital component for ensuring the welfare of vulnerable citizens. To properly maintain this program for persons with disabilities, it is necessary to allow law enforcement officers, or those authorized by law enforcement, to confiscate removable disability parking placards and special license plates that are noncompliant with the provisions of the program or are being used by unauthorized persons. Further, your Committees note the testimony of the Disability and Communication Access Board and its recommendations for broadening this measure to further strengthen the enforcement of disability parking placards and specialty license plates. Your Committees find that the Disability and Communication Access Board’s proposed amendments would broaden the circumstances under which enforcement officers may confiscate items and increase deterrence of acts contrary to the intent of the statewide parking program for persons with disabilities.

Accordingly, your Committees have amended this measure by:

- (1) Inserting language to establish, as a misdemeanor offense, the sale or purchase of a removable windshield placard, a temporary removable windshield placard, or special license plates issued to an applicant, and authorizing confiscation of any placard or plates unlawfully sold or purchased;
- (2) Clarifying that the display of an invalid removable windshield placard, an invalid temporary removable windshield placard, or invalid special license plates may result in confiscation of the invalid placard or plates, rather than valid ones;

- (3) Inserting language to authorize an invalid removable windshield placard, an invalid temporary removable windshield placard, or invalid special license plates to be confiscated by a law enforcement officer or commissioned volunteer officer for the display or use of the invalid placard or plates; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Public Safety, Intergovernmental, and Military Affairs and Transportation and Energy that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 975, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 975, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chairs on behalf of the Committees.

Public Safety, Intergovernmental, and Military Affairs: Ayes, 3. Noes, none. Excused, 2 (Ihara, Thielen).

Transportation and Energy: Ayes, 4. Noes, none. Excused, 1 (Harimoto).

SCRep. 542 Hawaiian Affairs on S.B. No. 961

The purpose and intent of this measure is to amend the Hawaiian Homes Commission to reduce from three to two the number of commissioners who are residents of the City and County of Honolulu, and increase from two to three the number of commissioners to represent the County of Maui, of whom one shall represent the Island of Lana'i.

Your Committee received testimony in support of this measure from the Hawaiian Homes Commission, Office of Hawaiian Affairs, Kalamaula Homesteaders Association, Council for Native Hawaiian Advancement, and twelve individuals. Your Committee received testimony in opposition to this measure from the Sovereign Councils of the Hawaiian Homeland Assembly and one individual. Your Committee received comments on this measure from the Council of Native Hawaiian Associations and one individual.

Your Committee finds that the Hawaiian Homes Commission is currently composed of nine members, and at least one member is a resident of each island on which the Department of Hawaiian Home Lands has land with the exception of Lana'i. The Department of Hawaiian Home Lands acquired fifty acres on Lana'i in 1999, the Department has awarded twenty-nine leases on Lana'i, and there are sixty-six applicants awaiting lease awards on Lana'i. However, there is no requirement that a member of the commission be a resident of Lana'i.

Your Committee is concerned that there are many boards and commissions that are Oahu centric, which voids direct representation of the other islands. Public bodies should be fairly representative of the population of the State, with no one island dominating membership. With remote electronic access to meetings, your Committee believes that there are no longer any barriers in place to exclude membership of neighbor islanders.

As affirmed by the record of votes of the members of your Committee on Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 961 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Kim).

SCRep. 543 Ways and Means on S.B. No. 712

The purpose and intent of this measure is to require additional information to be included in the variance report submitted annually by the Governor to the Legislature to allow the Legislature to better align its budget decisions with the actual needs and expenditures of the departments.

More specifically, this measure requires the following information to be included in the variance report submitted to the Legislature before each Regular Session, commencing with the Regular Session of 2019:

- (1) Means of financing information and cost element breakdowns in comparison of:
 - (A) Budgeted appropriations and actual expenditures; and
 - (B) Position ceiling and filled positions; and
- (2) A summary by department of:
 - (A) Cost element breakdowns of expenditures; and
 - (B) The position ceiling in comparison to total positions filled.

Your Committee received comments on this measure from the Department of Budget and Finance.

Your Committee finds the variance report currently includes only a summary of budgeted appropriations and actual expenditures. Your Committee believes that the additional information required by this measure would allow the Legislature to monitor the actual budgetary performance of the departments more effectively.

In particular, your Committee notes the lack of detailed data on positions in the current variance reports limits their usefulness. According to the most recent variance report, for fiscal year 2015-2016, total budgeted permanent positions amounted to 45,652.15, while total actual permanent positions amounted to 43,334.75. The difference of 2,317.40 is substantial. Yet, the variance report does not provide summary data breakdowns of the difference by department or means of financing. More significantly, the current reports do not provide the difference in budgeted and actual personal services costs for the budgeted and actual positions. Your Committee finds that such data would help the Legislature identify areas for appropriate budget cuts.

Your Committee notes that it will continue to work with the Department of Budget and Finance on this measure and related legislation to improve and enhance budgetary information that is required to be submitted to the Legislature.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 712 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 9. Noes, none. Excused, 2 (Harimoto, Taniguchi).

SCRep. 544 Ways and Means on S.B. No. 713

The purpose and intent of this measure is to require that the state six-year program and financial plan and budget include information on tax expenditures.

Your Committee received comments on this measure from the Department of Budget and Finance, Department of Taxation, and Tax Foundation of Hawaii.

Your Committee finds that more detailed information on tax expenditures is necessary for good public policy decision-making. Tax expenditures, similar to the appropriations of funds, result in a reduction of resources available for public programs. Your Committee further finds that public information on tax expenditures, particularly their negative impact on the state treasury, is not as readily available as is public information on budget appropriations and expenditures.

Your Committee notes that it will continue to work with the Department of Budget and Finance on this measure and related legislation to improve and enhance budgetary information that is required to be submitted to the Legislature.

Your Committee has amended this measure by:

- (1) Clarifying the definition of the term "tax expenditures"; and
- (2) Making technical nonsubstantive amendments for the purposes of consistency, clarity, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 713, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 713, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 9. Noes, none. Excused, 2 (Harimoto, Taniguchi).

SCRep. 545 Ways and Means on S.B. No. 911

The purpose and intent of this measure is to increase the Hawaii Housing Finance and Development Corporation's revenue bond authorization from \$1,000,000,000 to \$1,500,000,000 to provide additional financing assistance for affordable rental housing projects under the Housing Loan and Mortgage Program.

Your Committee received testimony in support of this measure from the Hawaii Housing Finance and Development Corporation; the Department of Business, Economic Development, and Tourism; and the Hawaii Association of REALTORS.

Your Committee finds that the lack of housing that is affordable for many Hawaii residents is one of the most significant and challenging social problems facing the State. Your Committee believes that as the cost of housing continues to increase, the State must continue to assist residents in obtaining affordable housing. Increasing the Hawaii Housing Finance and Development Corporation's revenue bond authorization will allow the corporation to provide additional financing assistance for affordable rental housing projects under the Housing Loan and Mortgage Program.

Your Committee understands that information about revenue bond activity for financing assistance to eligible project loans under the Housing Loan and Mortgage Program is regularly provided to the board of directors of the Hawaii Housing Finance and Development Corporation and is available to the public upon request. Your Committee believes that this information should also be provided to the Legislature in annual reports.

Accordingly, your Committee has amended this measure by adding provisions that require the Hawaii Housing Finance and Development Corporation to submit annual reports to the Legislature describing revenue bond activity to provide financing assistance for affordable rental housing projects under the Housing Loan and Mortgage Program.

Your Committee notes that concerns have been raised that the contents of this measure may not technically comport with the title of this measure. Your Committee disagrees but respectfully requests that a committee that subsequently hears this measure consider those concerns.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 911, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 911, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 8. Noes, none. Excused, 3 (Galuteria, Harimoto, Kahele).

SCRep. 546 Human Services on S.C.R. No. 36

The purpose and intent of this measure is to request the Auditor to conduct a management audit of the State of Hawaii Department of Human Services' implementation of the Supplemental Nutrition Assistance Program.

Your Committee received testimony in opposition to this measure from the Department of Human Services. Your Committee received comments on this measure from the Office of the Auditor.

Your Committee finds that due to Hawaii's high cost of living and food prices, many low-income individuals and families struggle to purchase food. The Federal Supplemental Nutrition Assistance Program is a crucial means of providing necessary assistance in the purchase of food for some of Hawaii's most disadvantaged citizens. However, many individuals who are eligible to participate in the Supplemental Nutrition Assistance Program do not participate because they are unaware of their eligibility or of the program's existence. Finding ways to maximize the Supplemental Nutrition Assistance Program in the State will ensure that those qualified individuals receive the assistance they need to purchase food.

Your Committee has amended this measure by:

- (1) Inserting language that requests the Auditor to examine the total utilization and total capacity of the Supplemental Nutrition Assistance Program in Hawaii;
- (2) Inserting language that requests the Auditor to examine ways to maximize the Supplemental Nutrition Assistance Program in Hawaii; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 36, as amended herein, and recommends that it be referred to your Committee on Ways and Means, in the form attached hereto as S.C.R. No. 36, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Harimoto, Tokuda).

SCRep. 547 Judiciary and Labor on S.B. No. 417

The purpose and intent of this measure is to establish that informal adjustment shall be prioritized over formal action with regard to a child reasonably believed to fall under the jurisdiction of the family court solely as a result of one or more violations of truancy.

Your Committee received testimony in support of this measure from the Community Alliance on Prisons. Your Committee received comments on this measure from the Office of Youth Services.

Your Committee finds that informal adjustment may be provided to a child under the jurisdiction of the family court in lieu of going through a formal action. Informal adjustment may include various methods and programs, such as restitution projects, community service projects, community-based programs, and educational programs, that are designed to provide services and educate a child committing a status offense rather than impose penalties. By prioritizing informal adjustment for truancy cases, this measure provides a more appropriate consequence and opportunity for change to a child than suspension from school.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 417 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 548 Judiciary and Labor on S.B. No. 443

The purpose and intent of this measure is to repeal the requirement of reporting contributions of more than \$100 in the organizational report of a candidate committee.

Your Committee received testimony in support of this measure from the Campaign Spending Commission. Your Committee received testimony in opposition to this measure from one individual.

Your Committee finds that existing law requires candidate committees to disclose their contributions in periodic disclosure reports pursuant to sections 11-333 and 11-338, Hawaii Revised Statutes. The Campaign Spending Commission indicated in its written testimony that the organizational report of a candidate committee contains only directory-type information that does not have space for a candidate committee to disclose contributions. Thus, this measure deletes an unnecessary requirement.

Your Committee notes that while this measure may appear to reduce the public availability of information concerning campaign contributions, the statutory revisions contained in this measure relate only to organizational reports and have no adverse impact on full public disclosure of campaign contributions. This measure is intended only to address statutory redundancy and to allow the Campaign Spending Commission to process initial organizational reports more efficiently.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 443 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Gabbard).

SCRep. 549 Judiciary and Labor on S.B. No. 444

The purpose and intent of this measure is to repeal the requirement of reporting contributions in the organizational reports of noncandidate committees and noncandidate committees that make only independent expenditures.

Your Committee received testimony in support of this measure from the Campaign Spending Commission.

Your Committee finds that existing law requires noncandidate committees to disclose their contributions in periodic disclosure reports pursuant to sections 11-335 and 11-338, Hawaii Revised Statutes. The Campaign Spending Commission indicated in its written testimony that the organizational report of a noncandidate committee contains only directory-type information that does not have space for a noncandidate committee to disclose contributions. Thus, this measure deletes an unnecessary requirement.

Your Committee notes that while this measure may appear to reduce the public availability of information concerning campaign contributions, the statutory revisions contained in this measure relate only to organizational reports and have no adverse impact on full public disclosure of campaign contributions. This measure is intended only to address statutory redundancy and to allow the Campaign Spending Commission to process initial organizational reports more efficiently.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 444 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Gabbard).

SCRep. 550 Judiciary and Labor on S.B. No. 111

The purpose and intent of this measure is to:

- (1) Clarify that the ballot of an absentee or military-overseas voter is deemed valid even if the voter becomes ineligible to vote after casting the ballot; and
- (2) Repeal the requirement that an absentee voter's ballot is deemed invalid if the voter returns the return envelope but dies prior to the opening of polls on the date of election.

Your Committee received testimony in support of this measure from the National Association for Uniformed Services, Hawaii Chapter. Your Committee received testimony in opposition to this measure from the Office of the City Clerk, City and County of Honolulu.

Your Committee finds that this measure provides efficiency in the counting of election ballots, so that cast ballots will not need to be intercepted and segregated due to the voter becoming ineligible subsequent to casting a ballot.

Your Committee has amended this measure by:

- (1) Making a conforming amendment to section 15-14, Hawaii Revised Statutes, to reflect the repeal of section 15-13, Hawaii Revised Statutes;
- (2) Inserting an effective date of January 7, 2059, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 111, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 111, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Kim).

SCRep. 551 Judiciary and Labor on S.B. No. 314

The purpose and intent of this measure is to amend the law regarding the disclosure requirements of an arbitrator in an arbitration by:

- (1) Clarifying that an interest or relationship that is required to be disclosed by an arbitrator includes a known, direct, and material financial or personal interest in the outcome of the arbitration proceeding, or an existing or past substantial relationship with any of the parties to the agreement to arbitrate or other interested parties to the arbitration proceeding; and
- (2) Clarifying that if the court determines the arbitrator failed to disclose an interest or relationship that a reasonable person would consider likely to affect the impartiality of the arbitrator, then the court may determine that such a failure to disclose constituted evident partiality and vacate an award made by the arbitrator.

Your Committee received testimony in support of this measure from five individuals.

Your Committee finds that two recent decisions by the Supreme Court of Hawaii in *Nordic PCL Construction, Inc. v. LPIHGC, LLC*, 136 Hawaii 29 (2015) and *Noel Madamba Contracting LLC v. Romero*, 137 Hawaii 1 (2015) have resulted in implications to the arbitration process and have possible unintended consequences. Specifically, these two decisions affected the law relating to the disclosure requirements of an arbitrator that authorizes the trial court to vacate an arbitration award if the arbitrator failed to disclose a known fact that a reasonable person would consider likely to affect the impartiality of the arbitrator. In these two cases, the court held that an arbitrator's nondisclosure of information that may affect the arbitrator's impartiality constituted evident partiality as a matter of law and that the court was required to vacate the arbitrator's decision. This measure authorizes the trial court to determine the facts then impose relief that is appropriate and provides specific standards to enable the trial court to determine whether the arbitrator failed to disclose an interest or relationship that a reasonable person would consider likely to affect the impartiality of the arbitrator and whether to vacate an award made by an arbitrator who failed to disclose that information.

Your Committee has amended this measure by:

- (1) Inserting an effective date of January 7, 2059, to encourage further discussion; and

- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 314, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 314, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 552 Judiciary and Labor on S.B. No. 335

The purpose and intent of this measure is to authorize the use of the Uniform Family Law Arbitration Act.

Your Committee received testimony in support of this measure from the Commission to Promote Uniform Legislation. Your Committee received testimony in opposition to this measure from the Family Law Section of the Hawaii State Bar Association and one individual.

Your Committee finds that state laws vary when it comes to arbitrating family law matters and the purpose of the Uniform Family Law Arbitration Act is to lay a foundation for arbitration of family law issues and standardize the arbitration of those matters. This measure adopts the Uniform Family Law Arbitration Act to provide an alternative means to settle or resolve family law disputes outside of court.

Your Committee notes the concerns raised in written testimony regarding the exclusion of child-related disputes from the scope of this measure. Since some of the most contested divorce cases in Family Court involve money and children, allowing the arbitration of all aspects of a contested divorce except child-related disputes, such as custody matters, will likely lead to a Family Court bench trial, thereby resulting in bifurcated litigation and higher costs for the parties.

Accordingly, your Committee has amended this measure by:

- (1) Adding language from the Uniform Family Law Arbitration Act drafted by the National Conference of Commissioners on Uniform State Laws to expand its scope to include child-related disputes regarding child custody, visitation, or financial support regarding a child;
- (2) Inserting an effective date of January 7, 2059, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 335, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 335, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 553 Commerce, Consumer Protection, and Health on S.B. No. 401

The purpose and intent of this measure is to allow advanced practice registered nurses to offer care and services to minors and patients in assisted community treatment similar to care and services offered by physicians and other healthcare service providers.

Your Committee received testimony in support of this measure from the Board of Nursing, Hawai'i State Center for Nursing, Hawaii Government Employees Association, and ten individuals.

Your Committee finds that advanced practice registered nurses are licensed healthcare practitioners qualified to provide primary medical services to adolescents. Your Committee further finds that advanced practice registered nurses fill an important role in caring for patients' current and future health needs, and can help improve timely access to qualified behavioral health services for individuals most in need of care, such as severely mentally ill patients in assisted community treatment. Your Committee notes that while the State is experiencing a shortage of behavioral health specialists, the number of advanced practice registered nurses has nearly doubled in the years between 2005 and 2015.

Your Committee additionally finds that removing barriers to practice for advanced practice registered nurses will produce better access to safe, timely, quality healthcare for patients in Hawaii. More specifically, advanced practice registered nurses with psychiatric specialties are highly qualified to assess, diagnose, treat, and prescribe to patients with mental health conditions as well as adolescents in need of mental health services.

Your Committee has amended this measure by:

- (1) Amending the definition of "advanced practice registered nurse" and other provisions related to assisted community treatment to require that advanced practice registered nurses and advanced practice registered nurses with prescriptive authority who are assessing, treating, or providing diagnosis or medication to individuals in assisted community treatment have a psychiatric specialization;
- (2) Inserting language to establish that an advanced practice registered nurse can only be a "licensed mental health professional" authorized to provide mental health treatment or counseling services to a minor if the advanced practice registered nurse holds a psychiatric specialization; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 401, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 401, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 1 (Ruderman).

SCRep. 554 Commerce, Consumer Protection, and Health on S.B. No. 786

The purpose and intent of this measure is to amend the Hawaii Revised Statutes and Hawaii Administrative Rules to substitute references to “medical marijuana” and like terms with “medical cannabis” and like terms.

Your Committee received testimony in support of this measure from the Drug Policy Forum of Hawaii, Drug Policy Action Group, and three individuals. Your Committee received comments on this measure from the Department of Taxation and Department of Health.

Your Committee finds that the term “marijuana” originated as a slang term to describe the genus of plants that is scientifically known as cannabis. Your Committee further finds that the term “cannabis” is a more accurate and appropriate term to describe a plant that has been legalized for medicinal use in the State. Your Committee recognizes that implementation of this measure requires resources and time, and that the Department of Health’s current priority is to open dispensaries and laboratories so that patients have access to medical cannabis.

Accordingly, your Committee has amended this measure by:

- (1) Including section 237-24.3, Hawaii Revised Statutes, in the statutory sections referenced that shall be amended to reference “medical cannabis” instead of “medical marijuana” and like terms;
- (2) Clarifying that the Hawaii Administrative Rules shall be construed as having been amended to reflect the use of the term “medical cannabis” by operation of law;
- (3) Inserting language to require the Department of Health to revise all documents, letterhead, websites, and other necessary items to reflect the use of “medical cannabis” and like terms as the documents, letterhead, websites, and other necessary items otherwise require revision, replacement, or reprinting; provided that all conforming revisions shall be completed by December 31, 2019; and
- (4) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 786, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 786, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 1 (Ruderman).

SCRep. 555 Commerce, Consumer Protection, and Health on S.B. No. 513

The purpose and intent of this measure is to:

- (1) Authorize pharmacists to prescribe and dispense self-administered hormonal contraceptive supplies to patients, regardless of a previous prescription from an authorized prescriber; and
- (2) Specify requirements pharmacists must meet prior to prescribing and dispensing contraceptive supplies.

Your Committee received testimony in support of this measure from the Board of Pharmacy, University of Hawai‘i System, Hawaii Pharmacists Association, Walgreens Company, Hawaii Public Health Association, Epic Interventions LLC, and eighteen individuals. Your Committee received testimony in opposition to this measure from the American Congress of Obstetricians and Gynecologists, American Association of University Women – Hawai‘i, American Osteopathic Association, and one individual. Your Committee received comments on this measure from the Hawaii Medical Service Association and Planned Parenthood Votes Northwest and Hawaii.

Your Committee finds that many reproductive health experts have long sought to make prescription contraceptives more readily accessible. Research indicates women are more likely to use prescription contraceptives and less likely to have unintended pregnancies when barriers are lifted to contraceptive access.

Your Committee also finds that Hawaii faces a growing primary care provider shortage, particularly in rural areas. Furthermore, pharmacists are in a unique position to serve as accessible health care providers when they are able to practice at the height of their profession. According to testimony received by your Committee, all United States accredited colleges of pharmacy prepare student pharmacists in courses related to pharmacology and therapeutic practice, including courses in contraceptive and hormonal pharmacology, reproductive physiology, and women’s health. Pharmacists are also educated on medication assessment and therapeutic recommendations and receive practical experience via clinical rotations. Accordingly, this measure authorizes pharmacists to prescribe and dispense self-administered hormonal contraceptive supplies to patients, provided certain requirements are met, which will increase access to prescription contraceptive supplies and decrease barriers regarding reproductive health care.

Your Committee has amended this measure by:

- (1) Removing vague language that would have prevented a pharmacist from prescribing contraceptive supplies to a patient who did not provide evidence of a clinical visit for women’s health, as this did not take into account the different requirements women could face, depending on age and health history;

- (2) Clarifying that pharmacists shall be eligible for reimbursement under the Insurance Code and hospital or medical service plan contracts issued by mutual benefit societies for prescribing and dispensing contraceptive supplies; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 513, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 513, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 2 (Kidani, Ruderman).

SCRep. 556 Commerce, Consumer Protection, and Health on S.B. No. 514

The purpose and intent of this measure is to:

- (1) Authorize pharmacists to administer the human papillomavirus vaccine to persons between eleven and seventeen years of age; and
- (2) Specify requirements pharmacists must meet prior to administering the human papillomavirus vaccine.

Your Committee received testimony in support of this measure from the Department of Health; Board of Pharmacy; American Association of University Women – Hawai‘i; Daniel K. Inouye College of Pharmacy, University of Hawai‘i at Hilo; Hawaii Pharmacists Association; American Cancer Society Cancer Action Network; American Congress of Obstetricians and Gynecologists; Planned Parenthood Votes Northwest and Hawaii; Hawaii Women’s Coalition; Hawaii Immunization Coalition; Hawai‘i Public Health Institute; Hawaii Medical Service Association; Walgreens Company; CVS Health; Epic Interventions, LLC; and forty-nine individuals. Your Committee received testimony in opposition to this measure from six individuals. Your Committee received comments on this measure from one individual.

Your Committee finds that the human papillomavirus is a very common virus. According to the federal Centers for Disease Control and Prevention, approximately 79,000,000 people in the United States are currently infected, with about 14,000,000 people becoming infected each year. Human papillomavirus infection can cause cervical, vaginal, and vulvar cancers in women; penile cancer in men; and anal cancer, cancer of the throat, and genital warts in both men and women. Although there is no cure for human papillomavirus, human papillomavirus vaccination can prevent most of these cancers from occurring.

Your Committee further finds that the Centers for Disease Control and Prevention and the American College of Obstetricians and Gynecologists recommend routine vaccination with the human papillomavirus vaccine for preteen boys and girls so they are protected prior to any exposure to the virus. However, recent data released by the Centers for Disease Control and Prevention shows that human papillomavirus vaccination rates trail behind other teen vaccines, in part because the two-part vaccination requires a booster to complete the vaccination series.

According to testimony received by your Committee, as of 2015, twenty-three states allowed pharmacists to immunize in all ages for human papillomavirus. This measure enables pharmacists to administer the human papillomavirus vaccine to persons between eleven and seventeen years of age, which will expand access to this important vaccine and help reduce the incidence of human papillomavirus and the associated risk of cancers. Your Committee notes that a pharmacist may administer vaccines to adolescents only pursuant to a valid prescription and must meet specific training requirements prior to administering any human papillomavirus vaccine to persons between the ages of eleven and seventeen. Your Committee also notes that pharmacists who have completed the initial pharmacy-based immunization delivery continuing education course are listed on the Board of Pharmacy’s webpage.

Your Committee additionally finds that in addition to the human papillomavirus vaccine, three other vaccines, including the Tdap (tetanus, diphtheria, pertussis), meningococcal, and influenza vaccines, make up what is known as the “Adolescent Platform”, a series of shots recommended for adolescents between the ages of eleven and twelve. Amendments to this measure are therefore necessary to ensure pharmacists can administer these additional vaccinations to persons between eleven and seventeen years of age.

Accordingly, your Committee has amended this measure by:

- (1) Clarifying that pharmacists are authorized to administer the Tdap (tetanus, diphtheria, pertussis), meningococcal, and influenza vaccines, in addition to the human papillomavirus vaccine, to persons between eleven and seventeen years of age; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 514, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 514, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 2 (Kidani, Ruderman).

SCRep. 557 Commerce, Consumer Protection, and Health on S.B. No. 203

The purpose and intent of this measure is to:

- (1) Establish specific membership, quorum, and voting requirements for the State Council on Mental Health; and
- (2) Establish the State Council on Mental Health within the Department of Health for administrative purposes.

Your Committee received testimony in support of this measure from the Department of Health and three individuals. Your Committee received comments on this measure from the Department of Human Services.

Your Committee finds that the State Council on Mental Health supports persons in the community who live with mental illness. Your Committee further finds that the Council must be able to deliberate and make decisions on issues affecting the mentally ill community. According to the Department of Health, the Council did not meet twice during fiscal year 2017 and, therefore, was unable to discuss pending legislation. Your Committee finds that defining quorum based on the number of currently appointed members present immediately before a meeting instead of based on the number of members to which the board is entitled will better enable the Council to meet quorum requirements and ultimately fulfill its purpose of advocating for adults with serious mental illness, children with serious emotional disturbances, other individuals with mental illness or emotional problems, and individuals with combined mental illness and substance abuse disorders.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 203 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 6; Ayes with Reservations (Ihara). Noes, none. Excused, 1 (Ruderman).

SCRep. 558 Commerce, Consumer Protection, and Health on S.B. No. 147

The purpose and intent of this measure is to repeal section 325-15, Hawaii Revised Statutes, which requires United States citizens or nationals to submit a medical examination report to the Department of Health within sixty days of returning to the State after five years' residence in any United States territory or possession, or any foreign country, with a high occurrence of infectious and communicable diseases.

Your Committee received testimony in support of this measure from the Department of Health.

Your Committee finds that mandatory testing for infectious and communicable diseases for United States citizens and nationals returning from certain areas after absences of five or more years provides minimal benefits to tuberculosis control in Hawaii, is costly to maintain, and is impractical to enforce. Your Committee further finds that knowledge of the epidemiology of tuberculosis has improved significantly since mandatory testing was established in 1978, and that current data indicates very few, if any, contagious tuberculosis cases would be identified in United States citizens or nationals through the current mandated testing.

Your Committee notes testimony submitted by the Department of Health that indicates the mandatory testing of infectious and communicable diseases has never truly been implemented since its enactment in 1978, and that no other state in the country has legislation similar to Hawaii that requires such testing. In addition, Hawaii does not have a system to track, test, and document travel of United States citizens and nationals for five or more years. Your Committee finds that there is no evidence that continuing the current infectious and communicable disease testing mandate will help control tuberculosis at this time.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 147 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, 1 (Ruderman).

SCRep. 559 Commerce, Consumer Protection, and Health on S.B. No. 380

The purpose and intent of this measure is to permit licensed dental hygienists in the State to operate under general, rather than direct, supervision of a licensed dentist.

Your Committee received testimony in support of this measure from the Hawaii Dental Hygienists' Association, Lānaʻi Community Health Center, Kona Coast Dental Care, and eighteen individuals. Your Committee received comments on this measure from the Board of Dental Examiners and Hawaii Dental Association.

Your Committee finds that under existing law, licensed dental hygienists must operate under the direct supervision of a licensed dentist in most circumstances, meaning a supervising licensed dentist must examine each patient prior to treatment, assign and review each treatment, and remain physically present in the office or facility while the procedure is being performed. This requirement is time consuming for the dentist and restrictive for the dental hygienist.

Your Committee further finds that forty-five states authorize dental hygienists to work under some degree of general supervision, meaning a dentist must authorize a dental hygienist to perform procedures, but need not be present in the treatment facility during the performance of those procedures. Your Committee notes that existing state law permits general supervision of dental hygienists in public health settings, such as nonprofit health clinics, nursing homes, and adult day care centers or assisted living facilities. Your Committee concludes that, since dental hygienists are currently permitted to work under the general supervision of dentists in public health settings, these highly trained professionals should be able to do so in private practice settings as well. Accordingly, this measure permits licensed dental hygienists in Hawaii to operate under general supervision of a licensed dentist.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 380 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 2 (Kidani, Ruderman).

SCRep. 560 Commerce, Consumer Protection, and Health on S.B. No. 393

The purpose and intent of this measure is to:

- (1) Clarify that in cases where the removal or replacement of a director elected by a class of unit owners is authorized, such removal or replacement may only be by a majority of only the members of that class; and
- (2) Specify that, for an election in a mixed-use condominium project where directors are elected by different classes of owners, an association may cast the vote or votes allocated to any nonresidential unit owned by the association where those eligible to vote in the election are limited to owners of one or more nonresidential units, including the nonresidential unit owned by the association.

Your Committee received testimony in support of this measure from the Hawai'i State Association of Parliamentarians, Associa, and two individuals. Your Committee received testimony in opposition to this measure from Hui 'Oia'i'o and two individuals.

Your Committee finds that existing condominium law permits different classes of directors in mixed-use projects. Existing law also provides for the removal of directors by a majority of the unit owners. This measure clarifies that the removal or replacement of a director elected by a class of unit owners shall only be by a majority of the members of that class. Your Committee notes that this clarification is similar to language regarding removal of directors in the Hawaii Business Corporations Act and Hawaii Nonprofit Corporations Act. Your Committee also notes that this measure does not give a condominium board a weighted vote to remove directors. Rather, this measure simply provides that if a director is elected by a class of unit owners, then the director may be removed or replaced only by a vote of a majority of the common interest represented by that class.

Your Committee further finds that existing law specifies that no votes allocated to a unit owned by a condominium association may be cast for the election or reelection of directors. However, this prohibition may be an issue for mixed-use condominium projects where directors are elected by different classes of owners. For example, in a mixed-use project that contains residential and commercial units, the board of directors may be comprised of directors elected by residential unit owners and directors elected by commercial unit owners. A condominium association that owns the single commercial unit in a mixed-use project would therefore be unable to elect or reelect the directors needed to represent that commercial unit.

Accordingly, this measure makes an exception for votes cast for nonresidential units owned by an association to ensure that elections may be held and directors may be elected. Your Committee notes that this is a very narrow exception and has no effect on directors elected by owners of residential units. This exception simply allows a condominium board to cast the vote allocated to a nonresidential unit owned by the association in elections where the only persons eligible to vote are owners of nonresidential units and the association owns one or more of those nonresidential units.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 393 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 3 (Kidani, Nishihara, Ruderman).

SCRep. 561 Commerce, Consumer Protection, and Health on S.B. No. 292

The purpose and intent of this measure is to repeal chapter 514A, Hawaii Revised Statutes, relating to condominium property regimes, and ensure all condominiums in the State are governed under chapter 514B, Hawaii Revised Statutes, relating to condominiums.

Your Committee received testimony in support of this measure from the Hawai'i State Association of Parliamentarians, Hawaii Council of Associations of Apartment Owners, Associa, and four individuals. Your Committee received comments on this measure from one individual.

Your Committee finds that two condominium chapters are currently maintained: chapter 514A, Hawaii Revised Statutes (chapter 514A), and chapter 514B, Hawaii Revised Statutes (chapter 514B). Chapter 514A is relevant only to condominium property regimes that were created before July 1, 2006, but not yet brought to market for sale. Chapter 514B has applied to all condominiums created within the State since July 1, 2006. Furthermore, virtually all provisions of chapter 514B that affect the management of condominiums have applied automatically to condominiums in existence before July 1, 2006, the effective date of chapter 514B, subject to two conditions: the specified provisions automatically apply only to events and circumstances occurring on or after July 1, 2006; and such automatic application shall not invalidate existing provisions of a condominium's governing documents if to do so would invalidate a developer's reserved rights or be an unreasonable impairment of contract.

Your Committee further finds that the applicability provisions of chapter 514B seek to balance the benefits of having the improved condominium law apply to all condominiums against reasonable contractual expectations of condominiums in existence before July 1, 2006. Your Committee notes that the "reasonable contractual expectation" of condominiums in existence before July 1, 2006, is in regard to the condominium's recorded governing documents, such as the master deed, declaration, bylaws, and condominium map. When these condominiums "opted-in" to chapter 514B, the condominiums were opting-in to this chapter over the language of any governing documents that were drafted under Chapter 514A. According to testimony received by your Committee, the fact that chapter 514A is still maintained has caused some to mistakenly believe that because a condominium has not opted-in to chapter 514B, chapter 514A still applies, even for things that happened after July 1, 2006.

Your Committee also finds that although there are still some condominium projects that were created before July 1, 2006, these projects exist only on paper and have never been built and sold to anyone in the general public. Your Committee notes that the developers of such projects have had more than a decade to bring their condominium projects created under chapter 514A to market. However, this measure still provides a generous window of opportunity, until January 1, 2019, for these developers to register their projects with the Real Estate Commission and bring the projects to market. Finally, your Committee notes that this measure is needed to eliminate the unnecessary confusion caused by maintaining two condominium chapters under Hawaii law.

Your Committee has amended this measure by:

- (1) Specifying that this measure shall take effect on January 1, 2019, and removing language that referenced condominiums formerly subject to chapter 514A being transitioned to and governed by chapter 514B, without paying any additional costs or filing any additional paperwork with the Real Estate Commission; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 292, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 292, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Kidani, Nishihara, Ruderman).

SCRep. 562 Commerce, Consumer Protection, and Health on S.B. No. 378

The purpose and intent of this measure is to require the board of directors of a residential condominium that contains twenty or more units to take and satisfactorily complete an online ethics course and examination offered through the Real Estate Commission.

Your Committee received testimony in support of this measure from Hui 'Oia'i'o and four individuals. Your Committee received testimony in opposition to this measure from the Real Estate Commission, Hawaii Council of Association of Apartment Owners, and three individuals. Your Committee received comments on this measure from the Hawai'i State Association of Parliamentarians and one individual.

Your Committee finds that education for condominium owners and boards of directors of condominium associations can help ensure a healthy condominium association. This measure seeks to address the educational component for boards of directors by requiring board members of certain condominium property regimes to take and complete an online ethics course and examination offered through the Real Estate Commission.

However, your Committee has heard the concerns that this measure may have certain unintended consequences. Specifically, your Committee has heard testimony that some condominium associations have experienced difficulties obtaining volunteers to serve on association boards and this measure may further discourage people from volunteering. Your Committee has also heard testimony that although improvement in education amongst condominium owners and condominium boards of directors is needed, the need is not so much for ethics training as it is a need for greater understanding of the overall condominium statute, chapter 514B, Hawaii Revised Statutes.

Your Committee further finds that the Hawaii Council of Community Associations, a private nonprofit advocacy group, produces a weekly live-streaming video show, known as "Condo Insider", which consists of videos designed to educate condominium owners, residents, and board members. Your Committee concludes that a link to these free videos, accessible from the Department of Commerce and Consumer Affairs' website, will provide better access to educational resources that can improve the condominium experience for condominium owners, residents, and board members.

Your Committee has amended this measure by:

- (1) Requiring the Department of Commerce and Consumer Affairs to include a link on the Real Estate Branch's condominium registration and education website to an educational video program produced by the Hawaii Council of Community Associations;
- (2) Requiring a disclaimer to be added to the website, which specifies that the video program is not produced by the State but is produced as a public service by a private nonprofit advocacy group as a public service to help educate condominium owners, condominium residents, and association board members;
- (3) Deleting language that would have required the board of directors of residential condominiums that contained twenty or more units to take and satisfactorily complete an online ethics course and examination offered through the Real Estate Commission;
- (4) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 378, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 378, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Kidani, Nishihara, Ruderman).

SCRep. 563 Commerce, Consumer Protection, and Health on S.B. No. 306

The purpose and intent of this measure is to:

- (1) Clarify that projects that contain a combination of time share units, transient vacation rentals, and private residential units located in the same project are required to comply with the document, record, and information disclosure requirements under the State's condominium statutes;
- (2) Require hard copies of condominium association documents, records, and information to be provided to requesting owners within twenty-four hours and available for download through an internet site; and
- (3) Specify that failure to make association documents, records, and information available is an unfair or deceptive act or practice.

Your Committee received testimony in support of this measure from Hui 'Oia'i'o, Associa, Concerned Sands of Kahana Vacation Club Owners, and fifty-four individuals. Your Committee received testimony in opposition to this measure from the American Resort Development Association – Hawai'i; Soleil Management Hawaii, LLC; RCI, LLC; Marriott Vacations Worldwide Corporation; Wyndham Vacation Ownership; ILG; and three individuals. Your Committee received comments on this measure from the Regulated Industries Complaints Office of the Department of Commerce and Consumer Affairs, Professional and Vocational Licensing Division of the Department of Commerce and Consumer Affairs, Hawaii Council of Associations of Apartment Owners, and one individual.

Your Committee finds that it is important for time share unit owners to be active and engaged owners within their time share projects. However, according to testimony received by your Committee, some time share unit owners have experienced difficulties receiving appropriate information, in particular documents that would enable an owner to sell the owner's time share unit. Your Committee further finds that ensuring time share owners have an opportunity for representation on a board of directors for a time share association or vacation club enables owners to maintain an independent voice, oversee increases in expenditures that directly affect all members of a time share project, and effectively communicate with other owners. Amendments to this measure are therefore necessary to ensure that owners who belong to a time share owners association or vacation club are able to access appropriate information regarding elections for a board of directors.

Your Committee additionally finds that this measure requires specific documents to be produced in a hard copy format within twenty-four hours of receiving a request. Your Committee has heard the concerns raised in testimony that this time frame may result in significant noncompliance. Your Committee notes that requests for records may encompass a range of data, which may require far more than twenty-four hours to compile and disclose. Your Committee has also heard testimony that boards of directors should be responsible for a decision to produce documents or comply with any other mandatory provisions of the State's condominium laws. An amendment to this measure is therefore necessary to clarify that compliance with mandatory provisions of the condominium laws is part of the fiduciary duty a board of directors owes to its association. Clearly outlining this duty in statute prevents a board from relying on its managing agent to handle owner requests for documents.

Your Committee has amended this measure by:

- (1) Clarifying that projects that contain a combination of time share units, transient vacation rentals, and private residential units located in the same project are required to provide basic documents that will enable an owner to sell the owner's time share unit within forty-eight hours of a request and removing language that required these projects to comply with the document, record, and information disclosure requirements specified in the State's condominium statute;
- (2) Clarifying that an owner of a time share unit has the right to receive a list of all time share owners, including contact information, for purposes directly related to the business of a time share owners association or vacation club;
- (3) Specifying that a management company of a time share owners association or vacation club board of directors must provide specific information to owners regarding candidates for election to the board of directors within thirty days prior to the election;
- (4) Specifying that no representative of a management company shall have a controlling interest on a board of directors for a time share owners association or vacation club;
- (5) Clarifying that any violation of a mandatory provision of the State's condominium law by a board or its officers and members is a per se violation of the board's fiduciary duty, but providing a safe harbor provision for a board member who votes for compliance during a board meeting;
- (6) Deleting language that would have required hard copies of condominium association documents, records, and information to be provided to requesting owners within twenty-four hours and available for download through an internet site;
- (7) Deleting language that would have made a failure to make required association documents, records, and information available an unfair or deceptive act or practice; and
- (8) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 306, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 306, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Kidani, Nishihara, Ruderman).

SCRep. 564 Commerce, Consumer Protection, and Health on S.B. No. 865

The purpose and intent of this measure is to require any person applying for a license as an electrical contractor, pole and line contractor, high voltage electrical contractor, or electronic systems contractor, except for employees of a public utility, to possess a trade license or an electrical engineering degree from an accredited college to perform electrical work in the State.

Your Committee received testimony in support of this measure from the Electrical Contractor's Association of Hawai'i; International Brotherhood of Electrical Workers, Local Union No. 1186, AFL-CIO; International Brotherhood of Electrical Workers, Local Union No. 1260, AFL-CIO; Home Security & Sound, Inc.; Carpet, Linoleum and Soft Tile, Local Union 1926, Market Recovery Trust Fund; Hawaii Glaziers, Architectural Metal Glassworkers, Local Union 1889, AFL-CIO, Stabilization Trust Fund; Hawaii Tapers Market Recovery Trust Fund; and Painting Industry of Hawaii Labor Management Cooperation Trust Fund. Your Committee received testimony in opposition to this measure from the Contractors License Board; Custom Electronic Design & Installation Association; Power Contracting, LLC; and Hawaiian Electric Company, Inc. Your Committee received comments on this measure from the General Contractors Association of Hawaii.

Your Committee finds that under existing law, electrical contractors in Hawaii must pass a state-required test to manage an electrical contracting company. This electrical contractor license is different from the journey worker electrician license that is also required under state law for an individual to perform or supervise electrical work in the field. According to testimony received by your Committee, there is concern that a loophole in existing law may be enabling certain sole proprietors, who have applied for electrical contractor licenses, to perform or supervise electrical field work on the job site, without obtaining the appropriate journey worker electrician license or having the equivalent background knowledge of an electrical engineer. This measure attempts to address this loophole by requiring any person applying for a license as an electrical contractor, pole and line contractor, high voltage electrical contractor, or electronic systems contractor, except for employees of a public utility, to possess a trade license or an electrical engineering degree from an accredited college.

However, according to testimony received by your Committee, the skills associated with the C-62 (pole and line contractor) and C-63 (high voltage electrical contractor) specialty contractor licenses require the skills of a journey worker lineman, which are a completely different set of skills than those required of a journey worker electrician. In Hawaii, C-62 and C-63 licensees must possess the knowledge and skills to work on energized lines with primary voltages up to 138,000 volts. This high voltage work requires very specialized skills, and different training, tools, and equipment from the more common low-voltage electrician work that may be performed by a person holding a C-13 (electrical contractor) specialty contractor license. As the intent of this measure is to ensure persons performing or supervising low-voltage electrical field work are appropriately licensed, your Committee concludes that amendments to this measure are needed.

Accordingly, your Committee has amended this measure by:

- (1) Deleting language that would have required any person applying for a license as a pole and line contractor or high voltage electrical contractor to possess a trade license or an electrical engineering degree from an accredited college;
- (2) Clarifying that the exemption applies to a public utility or a community antennae television company, rather than employees employed by a public utility or community antennae television company;
- (3) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 865, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 865, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 5; Ayes with Reservations (Espero, Ihara). Noes, none. Excused, 2 (Kidani, Ruderman).

SCRep. 565 Commerce, Consumer Protection, and Health on S.B. No. 505

The purpose and intent of this measure is to reduce addiction, overdose, and death related to the use of opioids by:

- (1) Requiring an opioid therapy informed consent process agreement to be executed between a patient and any prescriber of opioids under certain conditions; and
- (2) Limiting initial prescriptions for opioids and benzodiazepines to a maximum of seven consecutive days.

Your Committee received testimony in support of this measure from the Early Childhood Action Strategy, Hawaii Opioids and Overdose Leadership Action Working Group, and three individuals. Your Committee received comments on this measure from the Department of Health, Department of Public Safety, Board of Nursing, Drug Policy Forum of Hawai'i, Hawaii Medical Association, The Queen's Health Systems, Hawaii College of Emergency Physicians, and Drug Policy Action Group.

Your Committee finds that Hawaii and the nation are facing an epidemic related to prescription pain relieving drugs that are causing frightening rates of addiction, overdose, and death. According to the National Institute on Drug Abuse, opioids account for the greatest proportion of the prescription drug abuse problem, with opioids causing more deaths than heroin or cocaine by 2002 when opioid prescriptions were on the rise. According to data provided by the PEW Charitable Trusts, opioid pain relievers killed nearly 20,000 Americans in 2014.

Your Committee further finds that national and state legislators, and many community groups, are trying to curb this epidemic through public education and limiting liberal opioid prescribing practices. Your Committee additionally finds that informed consent is an effective process between a provider and a patient that requires a specific medication or form of treatment such as safe opioid therapy. The informed consent process allows the patient to better understand the goals of treatment, potential benefits of treatment, realistic outcomes, potential risks, how to use the medication, and alternative treatment options.

Your Committee recognizes that any approach to curb the opioid epidemic must balance the medically justified and necessary use of opioid pain medication with the reality of increased opioid misuse, abuse, and overdose. Your Committee also recognizes that patients in certain circumstances suffering from certain conditions may not be served by a strict seven-day limit on initial prescriptions of opioids. Furthermore, your Committee acknowledges that healthcare professionals need to be held accountable for following rules pertaining to opioid prescribing, but that related disciplinary action should come from professional licensing boards. Finally, your Committee finds that advanced practice registered nurses are primary care providers and, therefore, are qualified to provide concurrent care and consultation to patients who are going through opioid therapy.

Accordingly, your Committee has amended this measure by:

- (1) Requiring the Harm Reduction Services Branch of the Department of Health, instead of the Administrator of the Narcotics Enforcement Division of the Department of Public Safety, to develop and make available a template of an opioid therapy informed consent process agreement;

- (2) Inserting a provision to require that the template for the opioid therapy informed consent process agreement include an assessment of reproductive health plans for women ages 18 to 50 and a statement that the patient has been advised of the risks of opioid use during pregnancy and has been offered information regarding how to avoid pregnancy while using opioids;
- (3) Inserting language to include an advanced practice registered nurse as an authorized healthcare provider to whom a patient may consent to be referred for concurrent care if opioid therapy continues for longer than six months;
- (4) Inserting a provision to require that all opioid therapy informed consent process agreements be filed with the Harm Reduction Services Branch of the Department of Health for monitoring;
- (5) Inserting language to clarify that prescribers who violate the mandatory opioid therapy informed consent process shall be subject to disciplinary action established by the Hawaii Medical Board or the State Board of Nursing;
- (6) Inserting language to require all prescribers who are authorized to prescribe opioids in the State to register with Hawaii's Electronic Prescription Accountability System, which is commonly known as the Hawaii Prescription Drug Monitoring Program;
- (7) Inserting provisions to allow the prescription of opioids and benzodiazepines for longer than seven days if determined to be medically necessary for the treatment of post-operative pain, chronic pain, substance abuse or opioid dependence, or pain while in palliative care or hospice care; provided that the practitioner must document in the patient's medical record the condition for which the prescription is necessary and that no alternative is appropriate to treat the condition;
- (8) Inserting a provision that allows prescribing practitioners to authorize follow-up prescriptions for opioids and benzodiazepines through a telephone consultation with post-operative and pain management patients but requires an in person consult at least every thirty days;
- (9) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (10) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 505, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 505, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 1 (Ruderman).

SCRep. 566 Ways and Means on S.B. No. 930

The purpose and intent of this measure is to provide a means for the Hawaii Employer-Union Health Benefits Trust Fund (EUTF) to void claims for reimbursement of Medicare Part B premiums or any other debt payable that total less than \$500 and are older than ten years.

Your Committee received written comments in support of this measure from the Hawaii Employer-Union Health Benefits Trust Fund Board of Trustees.

Your Committee finds that the Hawaii Employer-Union Health Benefits Trust Fund (EUTF) currently does not have the authority to void claims for insignificant amounts of unclaimed property after a sufficient period of time has passed, and that this measure will provide that authority.

Your Committee has amended this measure by clarifying language providing that if the Hawaii Employer-Union Health Benefits Trust Fund (EUTF) cannot locate the employee-beneficiary or other person or entity entitled to payment, further payment shall be forfeited to the fund if the total amount is less than \$500 and shall not escheat under the laws of any state, subject to certain conditions.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 930, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 930, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 10. Noes, none. Excused, 1 (Kaehele).

SCRep. 567 Ways and Means on S.B. No. 987

The purpose and intent of this measure is to address evolving issues regarding records retained by the Bureau of Conveyances and the Land Court.

More specifically, the measure:

- (1) Expands the allowable uses of the \$5 transaction fee authorized to be collected on each recording in the Bureau of Conveyances and the office of the assistant registrar of the Land Court to include purchases of software, project management and implementation, workflow improvements, and services related to the management, archiving, preservation, and accessibility of records; and
- (2) Clarifies that the transaction fee shall be repealed upon the establishment of the fee through applicable administrative rules adopted by the Department of Land and Natural Resources or on July 1, 2022, whichever occurs first.

Your Committee received written comments in support of this measure from the Department of Land and Natural Resources and First American Title Company, Inc.

Your Committee finds that expanding the authorized use of these transaction fees to address evolving issues regarding records management and retention by the Bureau of Conveyances and the Land Court will improve workflow processes for both daily and historical records certification and the preservation of physical records.

Your Committee has amended this measure by making a technical amendment to comport with recommended drafting conventions.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 987, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 987, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, 5 (Dela Cruz, Inouye, Kahele, Shimabukuro, Taniguchi).

SCRep. 568 Ways and Means on S.B. No. 453

The purpose and intent of this measure is to appropriate funds for one ambulance unit each for the County of Kauai and the County of Hawaii, including equipment, supplies, and personnel costs.

Your Committee received written comments in support of this measure from the Office of the Mayor of the County of Hawaii; the councilmember for the third district of the County of Hawaii; the councilmember for the third district of the City and County of Honolulu; the Office of the Prosecuting Attorney for the County of Hawaii; Hawaii Fire Fighters Association, Local 1463; Hawaii Pacific Health; American Medical Response--Kauai County; Hawaii State Association of Counties; five concerned paramedics; and eighteen concerned individuals.

Your Committee received comments on this measure from one concerned individual.

Your Committee finds that despite significant population increases over the past fifteen years, the last time the County of Kauai received an additional ambulance was in 1992 and the County of Hawaii has not received an additional ambulance since 2005. Your Committee further finds that the Department of Health Emergency Medical Services and Injury Prevention Branch has identified Puna and the surrounding areas of the County of Hawaii, as well as the County of Kauai, as the highest areas of need for additional ambulance units.

Your Committee has amended this measure by changing the effective date to July 1, 2050, to facilitate further discussion on the measure.

Although the appropriation amount in this measure is unspecified, your Committee notes that the requisite funds needed for each ambulance unit is \$1,500,000, for a total cost of \$3,000,000.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 453, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 453, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 9. Noes, none. Excused, 2 (Inouye, Wakai).

SCRep. 569 Ways and Means on S.B. No. 1236

The purpose and intent of this measure is to amend Act 188, Session Laws of Hawaii 2016, to facilitate completion of the study of closed workers' compensation claims mandated by the Act.

More specifically, this measure:

- (1) Stipulates that the Auditor will contract with a suitable entity, rather than an actuarial firm, to perform a study of closed claims in the workers' compensation system;
- (2) Requires the study to include the processing time for closed claims;
- (3) Extends the deadline for completion of the study by one year to November 30, 2018, and the deadline to submit the study to the Legislature to twenty days prior to the convening of the Regular Session of 2019; and
- (4) Makes an appropriation for the study, contingent on a dollar-for-dollar match by fees assessed to workers' compensation insurers, workers' compensation captive insurers, and workers' compensation self-insureds.

Your Committee received written comments in support of this measure from the Department of Labor and Industrial Relations, Office of the Auditor, and ILWU Local 142.

Your Committee finds that in order to make reasoned decisions on amending the State's workers' compensation laws, the Legislature enacted Act 188, Session Laws of Hawaii 2016, which requires the Auditor to contract with an actuarial firm to conduct a study of closed workers' compensation claims to be completed by November 30, 2017. This study will provide the Legislature with valuable information on how to optimize the processing of claims and delivery of workers' compensation benefits. Your Committee further finds that this measure requires additional information to be included in the study and therefore believes that the deadline for the study's completion should be extended.

Your Committee has amended this measure by changing the amount of the appropriation from \$150,000 to an unspecified amount to facilitate further discussion.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1236, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1236, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 11. Noes, none. Excused, none.

SCRep. 570 Judiciary and Labor on S.B. No. 1036

The purpose and intent of this measure is to:

- (1) Clarify that the failure to register a firearm within the required time period does not relieve the owner of the duty to register the firearm; and
- (2) Allow the owner of an unregistered firearm to register the firearm thereafter without penalty.

Your Committee received testimony in support of this measure from the Police Department, City and County of Honolulu; Lessons In Firearms Education; and two individuals.

Your Committee finds that existing law lacks sufficient clarity regarding the duties of firearms owners to register their firearms even after the deadline to register has passed. To ensure that all firearms are properly registered, this measure encourages owners to properly register their firearms and allows law enforcement agencies to maintain more accurate records of firearms within the State.

Your Committee has amended this measure by:

- (1) Deleting language that specifies that the duty to register a firearm is an ongoing one;
- (2) Inserting an effective date of January 7, 2059, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1036, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1036, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Kim).

SCRep. 571 Human Services on Gov. Msg. No. 503

Recommending that the Senate advise and consent to the nomination of the following:

DIRECTOR OF THE DEPARTMENT OF HUMAN SERVICES

G.M. No. 503 PANKAJ BHANOT, for a term to expire 12-03-2018

Your Committee has reviewed the personal history, resume, and statement submitted by the nominee and finds Pankaj Bhanot to possess the requisite qualifications to be nominated for Director of the Department of Human Services.

Your Committee received testimony in support of the nomination of Pankaj Bhanot from Governor David Y. Ige; Department of Health; Department of Land and Natural Resources; Department of Commerce and Consumer Affairs; Department of Transportation; Department of Labor and Industrial Relations; Department of Taxation; Department of Public Safety; Department of Accounting and General Services; Department of Budget and Finance; Department of Business, Economic Development, and Tourism; Department of Human Services, Social Services Division; Hawaii Public Housing Authority; Office of Enterprise Technology Services; Hawaii State Coalition Against Domestic Violence; Child & Family Service; Healthcare Association of Hawaii; Hawaii Primary Care Association; Hawaii Children's Action Network; Parents and Children Together; PHOCUSED; 'Ohana Health Plan; SanHi Government Strategies; Chamber of Commerce Hawaii; and thirty-three individuals.

Pankaj Bhanot is currently the Interim Director of the Department of Human Services, one of the largest state departments that provides timely, efficient and effective programs, services and benefits to empower those who are the most vulnerable in our State to expand their capacity for self-sufficiency, self-determination, independence, healthy choices, quality of life, and personal dignity. Previously, Mr. Bhanot served as Deputy Director of the Department of Human Services where he managed day-to-day operations of the Department and provided supervisory and management support to the divisions, staff offices, and attached agencies. Prior to that, he served as the Division Administrator for the Benefit, Employment, and Support Services Division of the Department of Human Services, providing leadership for the State's self-sufficiency and economic assistance programs. Mr. Bhanot earned a Master of Laws from Cornell Law School and a Bachelor of Laws and a Bachelor of Arts in Political Science from the University of Delhi.

Your Committee believes that the nominee, with over seventeen years of experience in various leadership positions in the Department of Human Services, possesses the qualifications to serve as Director of Human Services and lead the Department in implementing its mission. More particularly, his collaborative approach and commitment to serve are indicative of the type of leadership that is needed at the Department of Human Services at this time, as Hawaii is facing myriad statewide challenges, such as homelessness, food and medical assistance, and kupuna and youth welfare. Testifiers commented on Mr. Bhanot's dedication to serving the State and its residents and his professionalism and expertise in his various leadership roles.

Your Committee notes from the nominee's personal statement that his vision for the Department of Human Services is to continue to prioritize the prevention of child abuse and neglect; adult abuse, neglect, and exploitation; domestic violence; and sex and human trafficking. As major changes in demographics, policy, and technology are driving a surge of new service demands, Mr. Bhanot believes in thinking very differently and positioning the Department to be in the ideal position to serve the ever-changing and dynamic clientele. Mr. Bhanot looks forward to continuing to integrate 'Ohana Nui, a multigenerational framework that invests early and concurrently in children and families. Furthermore, Mr. Bhanot hopes that reengineering the Department of Human Services' business processes and developing the Department's enterprise system will assist in supporting 'Ohana Nui to serve residents across programs and divisions with an integrated eligibility and case management application to connect residents quickly to available resources.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Tokuda).

SCRep. 572 Ways and Means on S.B. No. 149

The purpose and intent of this measure is to repeal certain requirements in order to qualify for an award of a health and human services contract.

Specifically, the measure repeals:

- (1) The requirement that all applicants for procurement contracts for health and human services possess all licenses necessary to conduct the subject business; and
- (2) The requirement that all contracts for health and human services include only costs, fees, and taxes reflected on the face of the proposal.

Your Committee received written comments in support of this measure from the Department of Human Services and the Department of Health.

Your Committee finds that the requirement that potential contractors obtain licensure prior to being awarded a state contract for health or human services has served as a significant barrier to new providers entering the service system, as providers typically will not obtain licensure prior to being awarded a contract. Your Committee further finds that the Hawaii Administrative Rules already require applicants to obtain necessary licenses prior to the start of contract services, and therefore the requirements being repealed by this measure are not necessary.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 149 and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 5 (Dela Cruz, Inouye, Kahele, Shimabukuro, Taniguchi).

SCRep. 573 Ways and Means on S.B. No. 966

The purpose and intent of this measure is to clarify that lands owned by, or set aside by executive order to, the Hawaii Public Housing Authority are not "public lands" under the jurisdiction of the Department of Land and Natural Resources pursuant to section 171-2, Hawaii Revised Statutes.

Your Committee received written comments in support of this measure from the Hawaii Public Housing Authority.

Your Committee received written comments on this measure from the Department of Land and Natural Resources and the Office of Hawaiian Affairs.

Your Committee finds that the Hawaii Public Housing Authority is authorized to acquire, own, and hold real property for public housing purposes. This measure would allow the Hawaii Public Housing Authority to exercise its powers relating to public housing without the need to obtain approval from the Board of Land and Natural Resources.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 966, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 5 (Dela Cruz, Inouye, Kahele, Shimabukuro, Taniguchi).

SCRep. 574 Ways and Means on S.B. No. 1255

The purpose and intent of this measure is to authorize the issuance of special purpose revenue bonds in a total amount not to exceed \$50,000,000 for the purpose of assisting Honokaa Land Company, LLC as an agricultural enterprise.

Your Committee received written comments in support of this measure from the Department of Agriculture.

The Department of Budget and Finance and Honokaa Land Company, LLC provided written comments on the measure.

Your Committee finds that the issuance of special purpose revenue bonds to assist Honokaa Land Company, LLC as an agricultural enterprise is in the public interest and will benefit the public health, safety, and general welfare. Proceeds from the sale of the bonds will assist Honokaa Land Company, LLC to acquire, develop, and renovate various facilities at two sites on the island of Hawaii for agricultural purposes and enable Honokaa Land Company, LLC to convert to renewable energy.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1255 and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 8. Noes, none. Excused, 3 (Dela Cruz, English, Kahele).

SCRep. 575 Ways and Means on S.B. No. 981

The purpose and intent of this measure is to address proceedings related to, and appeal of administrative decisions made by, the Hawaii Labor Relations Board.

More specifically, this measure:

- (1) Allows the Board to send written notice of an appeals board hearing by electronic service through a company designated by the board; and
- (2) Provides that the party that seeks review of an appeals board decision and order shall bear the cost of preparing a transcript except as otherwise provided by law, in which case the appeals board bears the cost.

Your Committee received written comments in support of this measure from the Hawaii Labor Relations Board and University of Hawaii Professional Assembly.

Your Committee finds that in the twenty-first century, the use of electronic communication for official purposes is commonplace, efficient, and cost effective. Currently, the Hawaii Labor Relations Board is required to send notice of an appeals board hearing through first class mail. Allowing the Board to use electronic communication rather than the postal service to notify parties of an appeals board hearing will avoid postage costs and save time spent on preparation of physical notices.

Your Committee further finds that current law is silent on the issue of which party bears the cost of preparing a transcript for review of a decision and order of the appeals board. Your Committee believes that allocation of that cost by this measure is equitable and will prevent confusion.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 981, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, none.

SCRep. 576 Ways and Means on S.B. No. 969

The purpose and intent of this measure is to make an emergency appropriation to the Department of Human Resources Development to pay workers' compensation claims required under chapter 386, Hawaii Revised Statutes.

Your Committee received written comments in support of this measure from the Department of Human Resources Development.

Your Committee finds that a critical funding crisis exists within the Department of Human Resources Development and that an emergency appropriation is warranted to enable the Department to meet its legal obligation to pay the workers' compensation benefits that are due to State of Hawaii employees who sustain work-related injuries and illnesses during fiscal year 2016-2017.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 969 and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 10. Noes, none. Excused, 1 (Galuteria).

SCRep. 577 Ways and Means on S.B. No. 914

The purpose and intent of this measure is to appropriate funds for collective bargaining cost items, salary adjustments, and other cost items for public employees in collective bargaining unit (2) and their excluded counterparts for fiscal biennium 2017-2019.

Your Committee received written comments in support of this measure from the Department of Budget and Finance, Hawaii Health Systems Corporation, East Hawaii Region of Hawaii Health Systems Corporation, the University of Hawaii System, and the Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO.

Your Committee finds that negotiations for collective bargaining unit (2) agreements are currently in progress. This measure provides a legislative vehicle to appropriate necessary funds if an agreement is reached prior to the end of the 2017 Regular Session.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 914, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, 5 (English, Riviere, Taniguchi, Tokuda, Wakai).

SCRep. 578 Ways and Means on S.B. No. 915

The purpose and intent of this measure is to appropriate funds for collective bargaining cost items, salary adjustments, and other cost items for public employees in collective bargaining unit (3) and their excluded counterparts for fiscal biennium 2017-2019.

Your Committee received written comments in support of this measure from the Department of Budget and Finance, Hawaii Health Systems Corporation, East Hawaii Region of Hawaii Health Systems Corporation, the University of Hawaii System, and the Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO.

Your Committee finds that negotiations for collective bargaining unit (3) agreements are currently in progress. This measure provides a legislative vehicle to appropriate necessary funds if an agreement is reached prior to the end of the 2017 Regular Session.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 915, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, 5 (English, Riviere, Taniguchi, Tokuda, Wakai).

SCRep. 579 Ways and Means on S.B. No. 916

The purpose and intent of this measure is to appropriate funds for collective bargaining cost items, salary adjustments, and other cost items for public employees in collective bargaining unit (4) and their excluded counterparts for fiscal biennium 2017-2019.

Your Committee received written comments in support of this measure from the Department of Budget and Finance, Hawaii Health Systems Corporation, East Hawaii Region of Hawaii Health Systems Corporation, the University of Hawaii System, and the Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO.

Your Committee finds that negotiations for collective bargaining unit (4) agreements are currently in progress. This measure provides a legislative vehicle to appropriate necessary funds if an agreement is reached prior to the end of the 2017 Regular Session.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 916, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, 5 (English, Riviere, Taniguchi, Tokuda, Wakai).

SCRep. 580 Ways and Means on S.B. No. 917

The purpose and intent of this measure is to appropriate funds for collective bargaining cost items, salary adjustments, and other cost items for public employees in collective bargaining unit (5) and their excluded counterparts for fiscal biennium 2017-2019.

Your Committee received written comments in support of this measure from the Department of Budget and Finance and Hawaii State Teachers Association.

Your Committee finds that negotiations for collective bargaining unit (5) agreements are currently in progress. This measure provides a legislative vehicle to appropriate necessary funds if an agreement is reached prior to the end of the 2017 Regular Session.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 917, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, 5 (English, Riviere, Taniguchi, Tokuda, Wakai).

SCRep. 581 Ways and Means on S.B. No. 918

The purpose and intent of this measure is to appropriate funds for collective bargaining cost items, salary adjustments, and other cost items for public employees in collective bargaining unit (6) and their excluded counterparts for fiscal biennium 2017-2019.

Your Committee received written comments in support of this measure from the Department of Budget and Finance and Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO.

Your Committee finds that negotiations for collective bargaining unit (6) agreements are currently in progress. This measure provides a legislative vehicle to appropriate necessary funds if an agreement is reached prior to the end of the 2017 Regular Session.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 918, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, 5 (English, Riviere, Taniguchi, Tokuda, Wakai).

SCRep. 582 Ways and Means on S.B. No. 919

The purpose and intent of this measure is to appropriate funds for collective bargaining cost items, salary adjustments, and other cost items for public employees in collective bargaining unit (7) and their excluded counterparts for fiscal biennium 2017-2019.

Your Committee received written comments in support of this measure from the Department of Budget and Finance, University of Hawaii System, and University of Hawaii Professional Assembly.

Your Committee finds that negotiations for collective bargaining unit (7) agreements are currently in progress. This measure provides a legislative vehicle to appropriate necessary funds if an agreement is reached prior to the end of the 2017 Regular Session.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 919, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, 5 (English, Riviere, Taniguchi, Tokuda, Wakai).

SCRep. 583 Ways and Means on S.B. No. 920

The purpose and intent of this measure is to appropriate funds for collective bargaining cost items, salary adjustments, and other cost items for public employees in collective bargaining unit (8) and their excluded counterparts for fiscal biennium 2017-2019.

Your Committee received written comments in support of this measure from the Department of Budget and Finance, University of Hawaii System, and Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO.

Your Committee finds that negotiations for collective bargaining unit (8) agreements are currently in progress. This measure provides a legislative vehicle to appropriate necessary funds if an agreement is reached prior to the end of the 2017 Regular Session.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 920, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, 5 (English, Riviere, Taniguchi, Tokuda, Wakai).

SCRep. 584 Ways and Means on S.B. No. 921

The purpose and intent of this measure is to appropriate funds for collective bargaining cost items, salary adjustments, and other cost items for public employees in collective bargaining unit (9) and their excluded counterparts for fiscal biennium 2017-2019.

Your Committee received written comments in support of this measure from the Department of Budget and Finance, Hawaii Health Systems Corporation, East Hawaii Region of Hawaii Health Systems Corporation, the University of Hawaii System, and the Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO.

Your Committee finds that negotiations for collective bargaining unit (9) agreements are currently in progress. This measure provides a legislative vehicle to appropriate necessary funds if an agreement is reached prior to the end of the 2017 Regular Session.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 921, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, 5 (English, Riviere, Taniguchi, Tokuda, Wakai).

SCRep. 585 Ways and Means on S.B. No. 922

The purpose and intent of this measure is to appropriate funds for collective bargaining cost items, salary adjustments, and other cost items for public employees in collective bargaining unit (10) and their excluded counterparts for fiscal biennium 2017-2019.

Your Committee received written comments in support of this measure from the Department of Budget and Finance, Hawaii Health Systems Corporation, East Hawaii Region of Hawaii Health Systems Corporation, the University of Hawaii System, and the United Public Workers, AFSCME, Local 646, AFL-CIO.

Your Committee finds that negotiations for collective bargaining unit (10) agreements are currently in progress. This measure provides a legislative vehicle to appropriate necessary funds if an agreement is reached prior to the end of the 2017 Regular Session.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 922, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, 5 (English, Riviere, Taniguchi, Tokuda, Wakai).

SCRep. 586 Ways and Means on S.B. No. 923

The purpose and intent of this measure is to appropriate funds for collective bargaining cost items, salary adjustments, and other cost items for public employees in collective bargaining unit (11) and their excluded counterparts for fiscal biennium 2017-2019.

Your Committee received written comments in support of this measure from the Department of Budget and Finance and Hawaii Fire Fighters Association.

Your Committee finds that negotiations for collective bargaining unit (11) agreements are currently in progress. This measure provides a legislative vehicle to appropriate necessary funds if an agreement is reached prior to the end of the 2017 Regular Session.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 923, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, 5 (English, Riviere, Taniguchi, Tokuda, Wakai).

SCRep. 587 Ways and Means on S.B. No. 924

The purpose and intent of this measure is to appropriate funds for collective bargaining cost items, salary adjustments, and other cost items for public employees in collective bargaining unit (1) and their excluded counterparts for fiscal biennium 2017-2019.

Your Committee received written comments in support of this measure from the Department of Budget and Finance, Hawaii Health Systems Corporation, East Hawaii Region of Hawaii Health Systems Corporation, the University of Hawaii System, and United Public Workers, AFSCME Local 646, AFL-CIO.

Your Committee finds that negotiations for collective bargaining unit (1) agreements are currently in progress. This measure provides a legislative vehicle to appropriate necessary funds if an agreement is reached prior to the end of the 2017 Regular Session.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 924, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, 5 (English, Riviere, Taniguchi, Tokuda, Wakai).

SCRep. 588 Ways and Means on S.B. No. 925

The purpose and intent of this measure is to appropriate funds for collective bargaining cost items, salary adjustments, and other cost items for public employees in collective bargaining unit (13) and their excluded counterparts for fiscal biennium 2017-2019.

Your Committee received written comments in support of this measure from the Department of Budget and Finance, Hawaii Health Systems Corporation, East Hawaii Region of Hawaii Health Systems Corporation, and the Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO.

Your Committee finds that negotiations for collective bargaining unit (13) agreements are currently in progress. This measure provides a legislative vehicle to appropriate necessary funds if an agreement is reached prior to the end of the 2017 Regular Session.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 925, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, 5 (English, Riviere, Taniguchi, Tokuda, Wakai).

SCRep. 589 Ways and Means on S.B. No. 926

The purpose and intent of this measure is to appropriate funds for collective bargaining cost items, salary adjustments, and other cost items for public employees in collective bargaining unit (14) and their excluded counterparts for fiscal biennium 2017-2019.

Your Committee received written comments in support of this measure from the Department of Budget and Finance and Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO.

Your Committee finds that negotiations for collective bargaining unit (14) agreements are currently in progress. This measure provides a legislative vehicle to appropriate necessary funds if an agreement is reached prior to the end of the 2017 Regular Session.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 926, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, 5 (English, Riviere, Taniguchi, Tokuda, Wakai).

SCRep. 590 Ways and Means on S.B. No. 944

The purpose and intent of this measure is to appropriate funds for collective bargaining cost items to facilitate the transition of Maui region hospital employees to employment with Maui Health Systems, a Kaiser Foundation Hospitals LLC.

Your Committee received written comments in support of this measure from the Department of Budget and Finance; Hawaii Health Systems Corporation; the Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO; and United Public Workers, AFSCME, Local 646, AFL-CIO.

Your Committee finds that in 2015 and 2016, the State entered into an agreement to transfer the management and operation of Maui region hospitals to Maui Health Systems, a Kaiser Foundation Hospitals LLC, with the official transfer now scheduled to occur on July 1, 2017. Your Committee further finds that negotiations for the various collective bargaining unit agreements applicable to Maui region hospital employees are currently in progress. This measure provides a legislative vehicle to appropriate necessary funds if agreements are reached prior to the end of the 2017 Regular Session.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 944, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, 5 (English, Riviere, Taniguchi, Tokuda, Wakai).

SCRep. 591 Judiciary and Labor on S.B. No. 438

The purpose and intent of this measure is to require the Campaign Spending Commission to publish on its website the names of all noncandidate committees, in addition to the names of all candidate committees, that have failed to file a report or correct a report within a certain time permitted by the Commission.

Your Committee received testimony in support of this measure from the Campaign Spending Commission and Common Cause Hawaii.

Your Committee finds that existing law requires the Campaign Spending Commission to publish on its website the names of all candidate committees that have failed to file a report or correct a report. This measure includes within that law the publishing of the names of noncandidate committees to increase transparency and allow the public access to that information.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 438 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Gabbard).

SCRep. 592 Judiciary and Labor on S.B. No. 1271

The purpose and intent of this measure is to propose a constitutional amendment to allow citizens who are seventeen years of age but will be eighteen years of age on or before the next state or local general election to vote at the state or local primary election immediately preceding the state or local general election by which the citizen will attain the age of eighteen.

Your Committee received testimony in opposition to this measure from one individual. Your Committee received comments on this measure from the Department of the Attorney General.

Your Committee finds that Hawaii has one of the lowest voter turnout rates in the nation. By granting voting rights to certain individuals to participate in the voting process for state and local elections, this constitutional amendment may assist in improving voter turnout and educating youths about the democratic process.

Your Committee notes the concerns raised by the Department of the Attorney General regarding the durational residency requirement in this constitutional amendment. According to the Department, a durational residency requirement has been struck down as a violation of the federal Equal Protection Clause and deemed unconstitutional. The Department suggested language that repealed the durational residency requirement of being a state resident of not less than one year immediately preceding the next state or local general election for individuals who have not attained the age of eighteen under certain circumstances. Your Committee further notes that the same durational residency requirement already exists for individuals who have attained the age of eighteen under article II, section 1, of the Hawaii State Constitution and believes this issue merits further discussion as this constitutional amendment moves through the legislative process.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1271 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Kim).

SCRep. 593 Judiciary and Labor on S.B. No. 1218

The purpose and intent of this measure is to amend various provisions of the Hawaii Revised Statutes and the Session Laws of Hawaii for the purposes of correcting errors and references, clarifying language, and deleting obsolete or unnecessary provisions.

Your Committee received testimony in support of this measure from the Legislative Reference Bureau. Your Committee received comments on this measure from the Department of Taxation.

Your Committee finds that this statutory revision measure is submitted by the Legislative Reference Bureau pursuant to chapter 23G, Hawaii Revised Statutes. All of the statutory amendments proposed by this measure are intended to be technical in nature to correct errors, omissions, or obsolete laws. Your Committee also notes that this measure was reviewed by the Attorney General prior to its submission to the Legislature. A memorandum explaining the proposed amendments was submitted as part of the testimony of the Legislative Reference Bureau.

Your Committee notes that the Department of Taxation recommended in its comments to section 44 of the measure that the amended references to “sections 235-61 to 235-69” in section 235-61(a) and (e), Hawaii Revised Statutes, be restored to “sections 235-61 to 235-67.” Your Committee further notes that the amendments in Senate Bill No. 934 to sections 87A-34 and 87A-36, Hawaii Revised Statutes, are housekeeping in nature and thus would be appropriate for inclusion in this measure.

Accordingly, your Committee has amended this measure by:

- (1) Amending section 235-61(a) and (e), Hawaii Revised Statutes, in section 44 of the measure, by changing the amended references to “sections 235-61 to 235-69” back to “sections 235-61 to 235-67”;
- (2) Adding the amendments to sections 87A-34 and 87A-36, Hawaii Revised Statutes, from Senate Bill No. 934; and
- (3) Making technical nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1218, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1218, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Gabbard).

SCRep. 594 Judiciary and Labor on S.B. No. 336

The purpose and intent of this measure is to exclude from the definitions of “advertisement” and “electioneering communications” clothing or other attire with a candidate’s name on it that is not directly associated with that candidate’s campaign committee.

Your Committee received testimony in support of this measure from the Campaign Spending Commission.

Your Committee finds that existing law excludes sundry items as an advertisement that is subject to campaign advertisement and communication requirements. The Campaign Spending Commission indicated in its written testimony that the Commission considers clothing to be a sundry item and therefore already exempt from the definition of “advertisement”. Thus, this measure clarifies that clothing containing the name of a candidate is not subject to campaign advertisement or communication requirements.

Your Committee has amended this measure by inserting an effective date of January 7, 2059, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 336, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 336, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Gabbard).

SCRep. 595 Judiciary and Labor on S.B. No. 445

The purpose and intent of this measure is to require the treasurer of a candidate or noncandidate committee to maintain itemized records showing the employer and occupation, in addition to the name and address, of each contributor making a contribution regardless of the amount.

Your Committee received testimony in support of this measure from the Campaign Spending Commission. Your Committee received testimony in opposition to this measure from the Libertarian Party of Hawaii.

Your Committee finds that this measure clarifies the record-keeping requirements for treasurers of candidate and noncandidate committees.

Your Committee has amended this measure by:

- (1) Adopting the language suggested by the Campaign Spending Commission that:
 - (A) Reinstates language to require the treasurer of a candidate or noncandidate committee to maintain itemized records showing the name and address of each contributor, but for all contributions regardless of the amount; and
 - (B) Requires that the information regarding the employer and occupation of the contributors be collected and maintained for a candidate committee or noncandidate committee for the purposes of reporting certain required information on each candidate committee's or noncandidate committee's schedules; and
- (2) Inserting an effective date of January 7, 2059, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 445, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 445, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Gabbard).

SCRep. 596 Judiciary and Labor on S.B. No. 859

The purpose and intent of this measure is to:

- (1) Allow an employee to have a chaperone present during the medical examination relating to a work injury under workers' compensation;
- (2) Allow an employee to use a recording device during the medical examination;
- (3) Clarify that the employee has a right to have a duly qualified physician or duly qualified surgeon present at the medical examination; and
- (4) Define "duly qualified physician" and "duly qualified surgeon".

Your Committee received testimony in support of this measure from the ILWU Local 142; Hawaii Injured Workers Association; International Brotherhood of Electrical Workers Local Union 1260, AFL-CIO; and nine individuals. Your Committee received testimony in opposition to this measure from the Department of Human Resources, City and County of Honolulu; Hawaii Insurers Council; National Association of Mutual Insurance Companies; Property Casualty Insurers Association of America; Brewer Consulting Services, Inc.; and seven individuals. Your Committee received comments on this measure from the Department of Human Resources Development and Department of Labor and Industrial Relations.

Your Committee finds that the workers' compensation system is often adversarial in nature as both employee and employer often choose doctors that are highly partisan to each respective side. Efforts to ensure that the independent medical examination physician is truly independent will serve to minimize or even eliminate negative perceptions about the examiner, providing greater assurance that the examination will be conducted fairly.

Your Committee has amended this measure by:

- (1) As recommended by the ILWU Local 142, providing that an employee shall have the right to use a recording device during the examination only when the examining physician or surgeon approves of the recording;
- (2) As recommended by the Department of Labor and Industrial Relations, deleting the definitions of "duly qualified physician" and "duly qualified surgeon";
- (3) Inserting an effective date of January 7, 2059, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 859, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 859, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 3; Ayes with Reservations (Thielen). Noes, none. Excused, 2 (Gabbard, Kim).

SCRep. 597 Ways and Means on S.B. No. 722

The purpose and intent of this measure is to extend the deadline for the efficiency measures pilot project conducted under Act 67, Session Laws of Hawaii 2015.

Your Committee received testimony in support of this measure from the Office of the Auditor.

Your Committee received comments on this measure from the Department of Budget and Finance.

Your Committee finds that this measure extends the deadline for the report on the efficiency measures pilot project required under Act 67, Session Laws of Hawaii 2015 from twenty days prior to the convening of the “regular session of 2017” to the “regular session of 2019.” However, the Department of Budget and Finance submitted the report to the Legislature on December 30, 2016. Your Committee recognizes that the report raised certain concerns and recommended further discussion with the Legislature. Your Committee finds the concerns raised are valid and should be addressed, but that rather than engaging in further discussion, the pilot project should be recommenced with clearer expectations and objectives. Your Committee notes that the intent of this recommencing of the pilot project is to produce better data and a clearer determination of the benefits, appropriateness, and value of efficiency measures.

Your Committee has amended this measure by recommending the efficiency measures pilot project first established under Act 67, Session Laws of Hawaii 2015 (Act 67), with clearer expectations and objectives by:

- (1) Adding an amendment to section 2 of Act 67, to include two new terms, “direct cost” and “measure of effectiveness”, and amending the definition of “efficiency measure”;
- (2) Adding an amendment to section 3 of Act 67, to create a subsection (b) to clarify the intent of the recommended pilot project;
- (3) Adding an amendment to section 5 of Act 67 to require the Director of Finance to consult with the selected state department before submitting a report to the Legislature and adding additional requirements for the report, including a recommendation by the Department of Budget and Finance on whether to require the inclusion of efficiency measures for every state executive department in the budget documents;
- (5) Adding an amendment to section 8 of Act 67, to appropriate funds for fiscal years 2017-2018 and 2018-2019; and
- (6) Repealing sections 6 and 7 of Act 67.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 722, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 722, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 10. Noes, none. Excused, 1 (Galuteria).

SCRep. 598 Transportation and Energy on S.B. No. 389

The purpose and intent of this measure is to statutorily establish speed limits for Hawaii Route 3000 bypass, also known as the Lahaina bypass or the Honoapiilani Highway bypass.

Your Committee received testimony in support of this measure from the Maui Police Department. Your Committee received testimony in opposition to this measure from the Department of Transportation and one individual.

Your Committee finds that changing speed limits along the Lahaina bypass would encourage individuals to use the bypass, resulting in less traffic congestion along the main Honoapiilani Highway.

Your Committee further finds that the construction of the Hawaii Route 3000 bypass was proposed as a way to mitigate traffic congestion on the Honoapiilani Highway through Lahaina Town in West Maui. Construction of the highway was also seen as essential for the health and safety of residents, as Honoapiilani Highway was previously the only link between West Maui and Central Maui for residents, visitors, and, most importantly, emergency vehicles. The importance of the bypass has only grown since the project was first proposed due to the steady increase in Maui’s population.

As safety is a primary concern, your Committee would like to ensure that speed limits are not too high so as to encourage motorists to drive a speed that is beyond the driver’s experience level and which threatens the safety of all motorists and passengers.

As such, your Committee has amended this measure by:

- (1) Lowering the speed limits as follows:
 - (A) From fifty-five to forty-five miles per hour in the Mahinahina-bound direction from route milepost 1.92 through route milepost 3.26;
 - (B) From forty to thirty-five miles per hour in the Mahinahina-bound direction from route milepost 3.26 through Keawe Street;
 - (C) From forty to thirty-five miles per hour in the Wailuku-bound direction from Keawe Street through route milepost 3.26; and
 - (D) From fifty-five to forty-five miles per hour in the Wailuku-bound direction from route milepost 3.26 through route milepost 2.09; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Transportation and Energy that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 389, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 389, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 4; Ayes with Reservations (Harimoto). Noes, none. Excused, 1 (Shimabukuro).

SCRep. 599 (Joint) Education and Judiciary and Labor on S.B. No. 49

The purpose and intent of this measure is to require the Department of Education to collaborate with the Workforce Development Council on workforce development initiatives.

Your Committees received testimony in support of this measure from the Department of Human Services, Hawaii State Teachers Association, and Society for Human Resource Management Hawaii. Your Committees received comments on this measure from the Department of Education and Workforce Development Council.

Your Committees find that a gap in skills and credentials exists between the needs of employers in the State and the local workforce, including graduates of Hawaii's public schools. Your Committees further find that, if educators are not aware of the needs of local employers, they cannot adequately equip students with the skills that they will need to take advantage of employment opportunities. This measure will create initiatives that will empower teachers and education professionals to ensure that Hawaii's students have the skills that local employers are looking for in new employees.

As affirmed by the records of votes of the members of your Committees on Education and Judiciary and Labor that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 49, S.D. 1, and recommend that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chairs on behalf of the Committees.

Education: Ayes, 4. Noes, none. Excused, 1 (Dela Cruz).

Judiciary and Labor: Ayes, 3. Noes, none. Excused, 2 (Gabbard, Rhoads).

SCRep. 600 Commerce, Consumer Protection, and Health on S.B. No. 202

The purpose and intent of this measure is to:

- (1) Establish specific quorum and voting requirements for service area boards on mental health and substance abuse; and
- (2) Establish service area boards on mental health and substance abuse within the Department of Health for administrative purposes.

Your Committee received testimony in support of this measure from the Department of Health and two individuals.

Your Committee finds that it is important that service area boards on mental health and substance abuse are able to deliberate and make decisions on issues affecting each county. According to the Department of Health, many of the service area boards face challenges holding meetings due to lack of quorum, and only one board was able to hold official meetings during fiscal year 2016. Your Committee further finds that defining quorum based on the number of currently appointed members present immediately before a meeting instead of based on the number of members to which each board is entitled will better enable service area boards to meet quorum requirements.

Your Committee requests that the Department of Health make all available efforts to recruit members for the service area boards on mental health and substance abuse so that the boards are able to carry out their purpose of advising service area administrators about service area needs to prevent and treat mental or emotional disorders, combined mental illness substance abuse disorders, and persons afflicted by these disorders.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 202 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 6; Ayes with Reservations (Ihara). Noes, none. Excused, 1 (Ruderman).

SCRep. 601 Commerce, Consumer Protection, and Health on S.B. No. 373

The purpose and intent of this measure is to clarify that acute care hospitals are covered under the State's clean claims statute.

Your Committee received testimony in support of this measure from the Healthcare Association of Hawaii, Kaiser Permanente Hawaii, Hawaii Health Systems Corporation, The Queen's Health Systems, Hawai'i Pacific Health, and Legacy of Life Hawai'i.

Your Committee finds that under the State's existing clean claims statute, health plans must pay providers within thirty days for uncontested or clean claims submitted in writing and within fifteen days for clean claims submitted electronically.

However, your Committee further finds that revisions made to the clean claims statute in 2015 unintentionally created ambiguity regarding which types of providers are covered by this statute. This measure clarifies the definition of "health care facility" within the clean claims statute, which will clarify the intent of the clean claims law and ensure that acute care hospitals are paid in a timely fashion when uncontested or clean claims are submitted.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 373 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 2 (Kidani, Ruderman).

SCRep. 602 Commerce, Consumer Protection, and Health on S.B. No. 609

The purpose and intent of this measure is to require that peer reviews performed on public accounting firms are performed in accordance with the entirety of the Statements on Standards for Attestation Engagements adopted by the American Institute of Certified Public Accountants.

Your Committee received testimony in support of this measure from the Board of Public Accountancy.

Your Committee finds that the Board of Public Accountancy's Peer Review Program encompasses the framework and implementation guidelines of the peer review program of the American Institution of Certified Public Accountants (AICPA). The Board has adopted the Statements on Standards for Attestation Engagements of the AICPA (AICPA Standards) as the benchmark for the evaluation and peer review of the provision of attestation services by Certified Public Accountants and Certified Public Accountant firms and requires all licensees under its jurisdiction to adhere to these AICPA Standards when performing engagements that require the provision of attestation services.

This measure deletes the specific reference to AT section 201 of the AICPA Standards to instead require that peer review procedures be subject to all of the AICPA Standards, which will enable the Board to make references to the pertinent sections of the AICPA Standards as needed.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 609 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 2 (Kidani, Ruderman).

SCRep. 603 Commerce, Consumer Protection, and Health on S.B. No. 1171

The purpose and intent of this measure is to identify the circumstances in which the State has a compelling interest in the use and disclosure of de-identified protected health information under the Health Care Privacy Harmonization Act.

Your Committee received testimony in support of this measure from the Department of Commerce and Consumer Affairs, Chamber of Commerce Hawaii, Hawai'i Pacific Health, and The Queen's Health Systems. Your Committee received comments on this measure from the Department of the Attorney General.

Your Committee finds that there are situations in which the State has a compelling interest in the use and disclosure of de-identified protected health information. Your Committee further finds that medical and economic research, patient protection, public safety, and the proper operation of medical and healthcare facilities are areas in which a compelling interest may arise for the use of de-identified protected health information. Your Committee notes that it is important for use of de-identified protected health information to be consistent with federal regulations.

Your Committee has amended this measure by:

- (1) Clarifying that for the State to have a compelling interest in the public and private disclosure, use, and production of de-identified protected health information, the information must be de-identified pursuant to title 45 Code of Federal Regulations part 164;
- (2) Inserting language to provide examples of when the State shall have a compelling interest in the use of de-identified protected health information; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1171, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1171, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 1 (Ruderman).

SCRep. 604 Commerce, Consumer Protection, and Health on S.B. No. 371

The purpose and intent of this measure is to:

- (1) Change the name of the Board of Dental Examiners to the Board of Dentistry and Dental Hygiene;
- (2) Beginning on July 1, 2018, change the board composition by increasing dental hygienist representation and ensuring Oahu and neighbor island representation among dental hygienist members;
- (3) Allow neighbor island board members to attend meetings via teleconference; and
- (4) Require the board to develop conflict of interest policies for board member participation with dental examination companies and submit a report on the status of the policy to the Legislature prior to the 2018 Regular Session.

Your Committee received testimony in support of this measure from the Hawaii Dental Hygienists' Association, Kona Coast Dental Care, and eighteen individuals. Your Committee received testimony in opposition to this measure from the Hawaii Dental Association, Princeville Dental LLC, and forty-six individuals. Your Committee received comments on this measure from the Board of Dental Examiners and Office of Information Practices.

Your Committee finds that although the original purpose of the Board of Dental Examiners was to act as a pool of dental examiners, the board's present function has moved beyond merely conducting licensing exams. The board is now more regulatory in nature, as it

encompasses the regulation of dentistry, under chapter 448, Hawaii Revised Statutes, and dental hygienists, under chapter 447, Hawaii Revised Statutes. Accordingly, since the board governs two professions, it is logical to amend the name of the board to the Board of Dentistry and Dental Hygiene, which accurately reflects the professions the board oversees.

Your Committee further finds that there are currently twelve members on the board. Eight of these members are practicing dentists, while only two members are dental hygienists. This unequal representation may result in the dental hygienists' views not being reflected in the board's actions. Accordingly, this measure amends the board's composition to add additional dental hygienist members, including dental hygienist members from the neighbor islands, which will ensure that the unique and valuable perspective of dental hygienists and those hygienists located throughout the State are more adequately represented.

Your Committee notes that this measure also requires one member of the board who is a practicing dentist to have a background in public health dentistry. However, your Committee has heard testimony that this requirement may make it more difficult to fill this position on the board. Your Committee understands these concerns and concludes amendments to this measure are necessary.

Your Committee has amended this measure by:

- (1) Clarifying that a background in public health dentistry is simply a desirable qualification, rather than a mandatory requirement, for at least one member of the Board who is a practicing dentist;
- (2) Deleting language that would have allowed neighbor island board members to attend meetings via teleconference, as board members are already able to attend board meetings via teleconference or other forms of interactive technology pursuant to the State's Sunshine Law;
- (3) Deleting language that would have required the board to develop conflict of interest policies and submit a report to the Legislature, as the board indicated it has existing procedures in place to avoid possible conflicts of interest; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 371, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 371, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 2 (Kidani, Ruderman).

SCRep. 605 Commerce, Consumer Protection, and Health on S.B. No. 344

The purpose and intent of this measure is to:

- (1) Clarify the allowable and prohibited practices requirements for dental assistants; and
- (2) Prohibit persons from employing, directing, or ordering a dental assistant or other person to perform services or procedures within the scope of practice of dental hygiene.

Your Committee received testimony in support of this measure from the Hawaii Dental Hygienists' Association and eighteen individuals. Your Committee received testimony in opposition to this measure from the Board of Dental Examiners, Hawaii Dental Association, and thirty-eight individuals.

Your Committee finds that licensed and registered dentists are permitted under existing law to employ auxiliary personnel, known as dental assistants, to assist a dentist in the dentist's practice. Like dental hygienists, dental assistants are a valuable part of a dental team, and each team member plays a critical role in the execution of outstanding patient care. However, existing law does not currently contain licensure or educational requirements or standardized training for dental assistants. It is therefore not appropriate for dental assistants to be expected or required to perform duties, activities, or functions that, if performed by a dental hygienist, would require licensure.

Your Committee notes that it is the Legislature who determines duty and scope of practice for licensed professionals in the State. Therefore, your Committee does not believe it is appropriate for the Board of Dental Examiners to adopt rules that attempt to circumvent or infringe upon the legislatively-determined parameters regarding duty and scope of practice for other licensed professionals within the Board's purview. Thus, your Committee emphasizes that if the Board desires to change the scope of practice for auxiliary personnel, the Board must approach the Legislature to request such a change.

Your Committee has amended this measure by:

- (1) Clarifying that additional duties of dental assistants and regulatory directives may be delineated by rule; provided that those rules shall not infringe upon, overlap with, or conflict with the duties and scope of practice for any other licensed professional; and
- (2) Updating the purpose section.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 344, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 344, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 2 (Kidani, Ruderman).

SCRep. 606 Commerce, Consumer Protection, and Health on S.B. No. 952

The purpose and intent of this measure is to:

- (1) Provide the Insurance Commissioner with express prior approval authority over long-term care insurance rates; and
- (2) Make housekeeping amendments.

Your Committee received testimony in support of this measure from the Department of Commerce and Consumer Affairs.

Your Committee finds that this measure clarifies that the Insurance Commissioner has express prior approval authority over long-term care insurance rates, which ensures that consumers are not being charged excessive rates for long-term care insurance, while also maintaining a fair marketplace for insurers.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 952, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 952, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 2 (Kidani, Ruderman).

SCRep. 607 (Joint) Commerce, Consumer Protection, and Health and Transportation and Energy on S.B. No. 376

The purpose and intent of this measure is to repeal chapter 269, part VIII, Hawaii Revised Statutes, relating to the interisland transmission system.

Your Committees received testimony in support of this measure from the Office of the Mayor of the County of Hawai'i, Friends of Lana'i, and Life of the Land. Your Committees received testimony in opposition to this measure from Ulupono Initiative and one individual. Your Committees received comments on this measure from the Department of Commerce and Consumer Affairs; Department of Business, Economic Development, and Tourism; and Public Utilities Commission.

Your Committees find that in 2012, the Legislature established a regulatory structure under which interisland undersea transmission cables could be developed, financed, and constructed. Your Committees further find that the current priorities of the Legislature and the electric utility companies do not include an interisland transmission system. Your Committees recognize that there is an existing regulatory proceeding regarding the issue that is intended to solicit information and evaluate whether an undersea transmission cable may be in the public interest, however your Committees find that it is more appropriate to remove references to the interisland transmission system from state law until an agreement on such a system can be reached.

Your Committees have amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Commerce, Consumer Protection, and Health and Transportation and Energy that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 376, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 376, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chairs on behalf of the Committees.

Commerce, Consumer Protection, and Health: Ayes, 4. Noes, none. Excused, 3 (Kidani, Nishihara, Ruderman).

Transportation and Energy: Ayes, 4. Noes, none. Excused, 1 (Shimabukuro).

SCRep. 608 (Joint) Public Safety, Intergovernmental, and Military Affairs and Agriculture and Environment on S.B. No. 340

The purpose and intent of this measure is to require the counties to incorporate urban agriculture principles and policies in land use planning and to allow urban agriculture as a residential use in a residentially designated zone.

Your Committees received testimony in support of this measure from the Hawaii Farm Bureau, Hawaii Farmers Union United, EcoTipping Points Project, Pulama Lana'i, and two individuals. Your Committees received testimony in opposition to this measure from the Department of Planning and Permitting, City and County of Honolulu; and Planning Department, County of Hawai'i. Your Committees received comments on this measure from the Department of Agriculture and two individuals.

Your Committees find that supporting agricultural development, in a variety of forms, is essential for the future health and well-being of the State. Urban agriculture is a type of agriculture that focuses on the cultivating, processing, and distributing of food in or around urban areas. Supporting urban agriculture will help the State achieve greater self-sustainability. Moreover, urban agriculture can make effective agricultural use of typically smaller land areas that would otherwise not contribute to local food production. Given the State's limited agricultural lands and its ever-growing urban centers, it is essential that the counties plan for and allow urban agriculture.

Your Committees, however, note the concerns raised in written testimony regarding the measure's overly broad definition of "urban agriculture" and the limitations created on the counties' abilities to effectively manage urban agriculture in residential areas. Accordingly, your Committees have amended this measure by:

- (1) Removing all language:
 - (A) Establishing "urban agriculture" as a residential use of property; and
 - (B) Defining "urban agriculture"; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Public Safety, Intergovernmental, and Military Affairs and Agriculture and Environment that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 340, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 340, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chairs on behalf of the Committees.

Public Safety, Intergovernmental, and Military Affairs: Ayes, 4. Noes, none. Excused, 1 (Wakai).

Agriculture and Environment: Ayes, 3. Noes, none. Excused, 2 (Riviere, Ruderman).

SCRep. 609 (Joint) Public Safety, Intergovernmental, and Military Affairs and Agriculture and Environment on S.B. No. 555

The purpose and intent of this measure is to prohibit the issuance of new building permits unless it is established that the building will be furnished with equipment allowing for the collection and use of gray water, except where the permit applicant can show that compliance with the requirement is impractical.

Your Committees received testimony in support of this measure from one individual. Your Committees received testimony in opposition to this measure from the Mayor, County of Maui; BIA Hawaii; and one individual. Your Committees received comments on this measure from the Hawaii Farm Bureau and one individual.

Your Committees find that the conservation of water resources is vital to the future health of the State. So-called "gray water" is one of the largest sources of water waste. Gray water is gently used, relatively clean water from sinks, showers, tubs, washing machines, and other kitchen appliances. Gray water, when properly captured, can be effectively used for various purposes. Accordingly, your Committees find that requiring newly constructed buildings to have equipment capable of capturing gray water for future use, except where impractical, will conserve valuable water resources and position the State for future sustainability.

Your Committees have amended this measure by:

- (1) Expanding the requirements for collection of gray water to include all future uses; and
- (2) Changing the effective date to January 1, 2020.

As affirmed by the records of votes of the members of your Committees on Public Safety, Intergovernmental, and Military Affairs and Agriculture and Environment that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 555, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 555, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chairs on behalf of the Committees.

Public Safety, Intergovernmental, and Military Affairs: Ayes, 4; Ayes with Reservations (Thielen). Noes, none. Excused, 1 (Wakai).

Agriculture and Environment: Ayes, 3. Noes, none. Excused, 2 (Riviere, Ruderman).

SCRep. 610 Commerce, Consumer Protection, and Health on S.B. No. 343

The purpose and intent of this measure is to allow applicants for licensure by the Board of Dental Examiners to take clinical examinations that are substantially similar to the American Board of Dental Examiners examination or meet certain other professional qualifications.

Your Committee received testimony in support of this measure from one individual. Your Committee received testimony in opposition to this measure from the Hawaii Dental Association and sixty-two individuals. Your Committee received comments on this measure from the Board of Dental Examiners and one individual.

Your Committee finds that the existing law that requires passage of the American Board of Dental Examiners (ADEX) examination for licensure as a dentist in the State was originally enacted to allow Hawaii to participate in a standardized national examination process. Since this law was enacted, limiting the approved examination to only the ADEX examination has created many difficulties for dentists seeking to obtain licensure in Hawaii. For example, your Committee finds that this law impacts dentists who may have gone to dental school on the mainland - as your Committee notes that the State lacks a school of dentistry - and practiced on the mainland for a number of years, but still maintained close ties with Hawaii. The existing law creates a burden for these licensed dentists who may wish to relocate and practice dentistry in this State.

Your Committee has heard the testimony that some states license dentists through additional education requirements, without the need for passage of a clinical examination. However, your Committee notes that the ADEX examination is not the only nationally recognized clinical dental examination that a dentist may take. Nevertheless, your Committee recognizes the concerns raised in testimony and concludes that amendments to this measure are needed that ensure the qualifications for dental licensure in Hawaii do not remain so rigid as to unreasonably exclude otherwise competent out-of-state licensed dentists, while also maintaining appropriate consumer protection.

Accordingly, your Committee has amended this measure by:

- (1) Clarifying that an applicant for dental licensure shall take and pass the ADEX examination or any other nationally recognized clinical dental examination recommended by the American Dental Association, rather than any substantively similar examination;
- (2) Clarifying that the other qualifications for licensure, applicable to applicants who are practicing dentists, include graduation from an accredited school of dentistry and holding a license to practice dentistry in another state whose licensing requirements include passage of the ADEX examination, its predecessor examination, or another nationally recognized, substantially equivalent examination recommended by the American Dental Association;

- (3) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 343, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 343, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 3 (Ihara, Kidani, Ruderman).

SCRep. 611 Ways and Means on S.B. No. 1006

The purpose and intent of this measure is to eliminate a loophole that allows a nonresident decedent to avoid estate and generation-skipping transfer taxes by using a single member limited liability company to hold title to real property located in the State.

Your Committee received testimony in support of this measure from the Department of Taxation. Your Committee received comments on this measure from the Tax Foundation of Hawaii.

Your Committee finds that when Hawaii real property is placed into a single member limited liability company and a nonresident decedent transfers ownership of the company to a beneficiary upon death, the Hawaii estate tax does not apply because the decedent did not directly own the real property. This measure closes that tax law loophole by specifying that, if Hawaii real property is held by a single member limited liability company that is solely owned by a nonresident decedent, that company will be disregarded for estate tax purposes and the tax will apply as if the nonresident decedent owned the property directly.

Your Committee notes that the Department of Taxation has indicated that the effect of this measure on state revenues has yet to be determined. Your Committee finds that these revenue impacts should be established before the Legislature takes final action on this measure.

Accordingly, your Committee has amended this measure by:

- (1) Changing the effective date to January 1, 2050, to facilitate further discussion on the measure; and
- (2) Making technical nonsubstantive amendments for the purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1006, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1006, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 9. Noes, none. Excused, 2 (Harimoto, Wakai).

SCRep. 612 (Joint) Public Safety, Intergovernmental, and Military Affairs and Economic Development, Tourism, and Technology on S.B. No. 901

The purpose and intent of this measure is to eliminate the requirement that the Governor appoint committee members representing the county economic development boards and the University of Hawaii to the Aerospace Advisory Committee and to instead require those members to be selected directly by the entities they are to represent on the Committee.

Your Committees received testimony in support of this measure from the Department of Business, Economic Development, and Tourism.

Your Committees find that the Aerospace Advisory Committee within the Office of Aerospace Development of the Department of Business, Economic Development, and Tourism is an effective committee for advising and assisting the Legislature and other state agencies in monitoring, assessing, and promoting aerospace development in the State. Currently, all members of the Aerospace Advisory Committee are appointed by the Governor and subject to the advice and consent of the Senate. However, the Advisory Committee would benefit from simpler and more expeditious appointment procedures for its members. Accordingly, this measure allows county economic development boards and the University of Hawaii to select members to represent them on the Advisory Committee while retaining the Governor's authority to appoint, and the Senate's authority to confirm certain members from the aerospace industry to the Advisory Committee.

As affirmed by the records of votes of the members of your Committees on Public Safety, Intergovernmental, and Military Affairs and Economic Development, Tourism, and Technology that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 901 and recommend that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chairs on behalf of the Committees.
Public Safety, Intergovernmental, and Military Affairs: Ayes, 4. Noes, none. Excused, 1 (Ihara).
Economic Development, Tourism, and Technology: Ayes, 4. Noes, none. Excused, 1 (Galuteria).

SCRep. 613 (Joint) Judiciary and Labor and Commerce, Consumer Protection, and Health on S.B. No. 984

The purpose and intent of this measure is to amend the definition of "physician" under workers' compensation law to include an advanced practice registered nurse.

Your Committees received testimony in support of this measure from the Department of Labor and Industrial Relations, Board of Nursing, Hawai'i State Center for Nursing, American Organization of Nurse Executives Hawaii, Hawaii Association of Professional Nurses, ILWU Local 142, and thirteen individuals.

Your Committees find that advanced practice registered nurses provide a wide variety of health care services to people in Hawaii. Section 323-3, Hawaii Revised Statutes, requires each hospital within the State to allow advanced practice registered nurses to practice within the full scope of their practice, including as primary care providers. Advanced practice registered nurses are also recognized as participating primary health care providers for insurance purposes under the State's insurance code.

Your Committees further find that Hawaii's workers' compensation law omits advanced practice registered nurses from the definition of physician. The outdated definition must be amended to authorize increased participation by advanced practice registered nurses and recognize appropriately trained advanced practice registered nurses as primary care providers. Authorizing increased participation by advanced practice registered nurses in the workers' compensation system will enable improved access to health care services, expedite the processing of paperwork, and provide optimal care at the initial point of access for injured workers, especially in rural and underserved areas.

As affirmed by the records of votes of the members of your Committees on Judiciary and Labor and Commerce, Consumer Protection, and Health that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 984 and recommend that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chairs on behalf of the Committees.

Judiciary and Labor: Ayes, 4. Noes, none. Excused, 1 (Gabbard).

Commerce, Consumer Protection, and Health: Ayes, 5. Noes, none. Excused, 2 (Kidani, Ruderman).

SCRep. 614 Judiciary and Labor on S.B. No. 251

The purpose and intent of this measure is to exempt candidates who are already declared elected to office after running unopposed in an election or who would be unopposed in the general election from the prohibition on using election campaign funds to make charitable donations or to award scholarships during a certain period of time prior to the general election.

Your Committee received testimony in opposition to this measure from Common Cause Hawaii. Your Committee received comments on this measure from the Campaign Spending Commission.

Your Committee finds that candidates are prohibited from using campaign funds for certain purposes, such as making charitable donations and awarding scholarships, from the filing of nomination papers to the general election, presumably because these uses may be interpreted as attempts to buy votes. This measure provides candidates who become elected to office prior to a general election the opportunity to use campaign funds for purposes of making charitable donations or awarding scholarships, as they no longer need to acquire votes to prevail in the general election.

Your Committee has amended this measure by:

- (1) Inserting an effective date of January 7, 2059, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 251, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 251, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Gabbard).

SCRep. 615 Judiciary and Labor on S.B. No. 98

The purpose and intent of this measure is to raise the District Court's jurisdictional limit for civil actions involving specific performance.

Your Committee received testimony in support of this measure from the Judiciary and Collection Law Section of the Hawaii State Bar Association.

Your Committee finds that this measure corrects an inconsistency under section 604-5, Hawaii Revised Statutes, in order to align the District Court's jurisdictional limit for civil actions involving specific performance with the District Court's overall jurisdictional limit of \$40,000 for civil actions.

Your Committee has amended this measure by inserting an effective date of January 7, 2059, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 98, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 98, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Gabbard).

SCRep. 616 Judiciary and Labor on S.B. No. 339

The purpose and intent of this measure is to authorize all class B and class C felony charges to be instituted by written information subject to specified exceptions.

Your Committee received testimony in support of this measure from the Department of the Attorney General; Office of the Prosecuting Attorney, County of Kaua'i; Department of the Prosecuting Attorney, County of Maui; and Department of the Prosecuting Attorney, City and County of Honolulu.

Your Committee finds that existing law enumerates fourteen class B felonies and ninety-four class C felonies that may be instituted by written information. Each time a new offense is created or added to the list of offenses that may be chargeable by written information, section 806-83, Hawaii Revised Statutes (HRS), must be amended to reflect this addition. By specifying certain offenses that shall not be, rather than listing offenses that may be, instituted by written information, this measure creates greater efficiency in implementing the written information charging law.

Your Committee has amended this measure by:

- (1) Adopting the language suggested by the Department of the Attorney General that:
 - (A) Clarifies that criminal charges may be instituted by written information for a felony when the charge is under section 329-46, HRS, and the comparable offense under part IV of chapter 712, HRS, is a class B or class C felony not enumerated in section 806-83(a) or (b), HRS, excluding the reference to section 806-83(c), HRS, as that subsection does not include a drug offense; and
 - (B) Specifies that a criminal charge may be instituted by written information for a felony when the underlying offense is an offense not listed in section 806-83(a) or (b), HRS, or an offense specified in section 806-83(c) or (d), HRS, to distinguish between the offenses enumerated in subsections (a) and (b), which are excluded from written information charging, and the offenses enumerated or described in subsections (c) and (d), which may be charged by written information;
- (2) Inserting an effective date of January 7, 2059, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 339, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 339, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Gabbard).

SCRep. 617 Judiciary and Labor on S.B. No. 442

The purpose and intent of this measure is to provide that the period of limitation for a prosecution under the law relating to falsifying a campaign spending report shall commence upon discovery of the alleged offense by the Campaign Spending Commission.

Your Committee received testimony in support of this measure from the Campaign Spending Commission and one individual. Your Committee received testimony in opposition to this measure from one individual.

Your Committee finds that, in general, prosecution of crimes involving fraud or deception begins after the discovery of the offense by an aggrieved party and the Campaign Spending Commission has completed an investigation and referred the case to the prosecutors. This measure begins the period of limitation for a prosecution of falsifying campaign spending report upon the discovery of the alleged offense by the Campaign Spending Commission, rather than upon commission of the crime.

Your Committee has amended this measure by:

- (1) Specifying that the period of limitation for a prosecution of falsifying a campaign spending report shall commence pursuant to section 11-412(b), rather than section 11-412, Hawaii Revised Statutes; and
- (2) Inserting an effective date of January 7, 2059, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 442, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 442, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Gabbard).

SCRep. 618 Judiciary and Labor on S.B. No. 478

The purpose and intent of this measure is to allow a member of a board to provide other members of the board any government records for which disclosure is required by section 92F-12, Hawaii Revised Statutes, provided that no commitment relating to a vote on the matter is made or sought and no additional discussion other than a statement describing the record and the issue related to the government record is included in the transmittal.

Your Committee received testimony in support of this measure from the County Council of the County of Maui. Your Committee received testimony in opposition to this measure from the Office of Information Practices and League of Women Voters of Hawaii. Your Committee received comments on this measure from The Civil Beat Law Center for the Public Interest and Common Cause Hawaii.

Your Committee finds that the Hawaii Supreme Court held in *Kanahele v. Maui County Council*, 130 Haw. 228 (2013), that memoranda or transmittals circulated among members of a public board subject to the Sunshine Law were not permitted interactions under section 92-2.5, Hawaii Revised Statutes (HRS). As a result, public board members are prevented from transmitting government records to each other related to board business. This measure includes such transmittals as a permitted interaction between public board members as long as the transmittals do not include a commitment to vote on a matter to be considered by the board or request for a commitment and no additional discussion other than a statement describing the record and the issue related to the government record is included in the transmittal.

Your Committee notes the concerns raised in written testimony submitted by the Office of Information Practices that the scope of government records that are allowed to be circulated may be too broad, and suggests limiting the scope of applicability to include government records under section 92F-12(a), HRS. Your Committee further notes the written comments submitted by The Civil Beat Law Center for the Public Interest that the scope of the government records that are allowed to be circulated between board members should be expanded to include all government records that are open to public inspection, provided that appropriate protections are in place for public access to monitor board communications.

Accordingly, your Committee has amended this measure by:

- (1) Adopting language suggested by The Civil Beat Law Center for the Public Interest that:
 - (A) Clarifies that the government records that may be provided by a member of a board to other members of the board are government records that are open to public inspection, rather than subject to section 92F-12, Hawaii Revised Statutes;
 - (B) Requires that the board member not express a position relating to a matter of official board business in the government record or transmittal, except for a neutral statement in the transmittal;
 - (C) Upon providing the government record to other members of the board, requires the transmittal and government record to be filed in the board's office; and
 - (D) Clarifies that these requirements regarding the circulation of a government record from a board member to other members of the board apply only when the board's last notice identifies where the members of the public may obtain copies of the government record in person;
- (2) Inserting an effective date of January 7, 2059, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 478, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 478, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Gabbard).

SCRep. 619 Judiciary and Labor on S.B. No. 675

The purpose and intent of this measure is to clarify that Hawaii's Anti-Discrimination Law does not prohibit or prevent an employer from refusing to hire or refer or discharging an employee for reasons unrelated to discriminatory practices, unequal pay, criminal conviction records, and credit history.

Your Committee received testimony in support of this measure from the Chamber of Commerce Hawaii, Society for Human Resource Management-Hawaii Chapter, and one individual. Your Committee received testimony in opposition to this measure from the Hawai'i Civil Rights Commission; Hawaii State Commission on the Status of Women; LGBT Caucus of the Democratic Party of Hawai'i; ILWU Local 142; Fujiwara & Rosenbaum, LLC; and one individual.

Your Committee finds that the employment practices laws under sections 378-2, 378-2.3, 378-2.5, and 378-2.7, Hawaii Revised Statutes, relate respectively to discriminatory practices, unequal pay, criminal conviction records, and credit history. Your Committee further finds that these sections prohibit employment discrimination against individuals based upon protected categories, but were not intended to prevent employers from taking employment action for reasons unrelated to the categories protected in those sections.

Your Committee is concerned that this measure, as introduced, may result in unintended consequences and believes that discussion should continue as this measure moves forward to ensure the amendments to the Hawaii Revised Statutes align with the measure's intent.

Accordingly, your Committee has amended this measure by:

- (1) Specifying that Hawaii's Anti-Discrimination Law does not prohibit or prevent an employer from refusing to hire or refer or discharging an employee pursuant to an employee agreement policy that is applied in a nondiscriminatory fashion; and
- (2) Inserting an effective date of January 7, 2059, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 675, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 675, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 4; Ayes with Reservations (Kim). Noes, none. Excused, 1 (Gabbard).

SCRep. 620 Judiciary and Labor on S.B. No. 892

The purpose and intent of this measure is to:

- (1) Require the Hawaii Criminal Justice Data Center to include in a fingerprint-based state criminal history record check an indication of the applicant's, employee's, or volunteer's requirement to register as a covered offender pursuant to sex offender registration laws;
- (2) Allow covered offender registration information to be disclosed to criminal justice agencies, rather than law enforcement agencies, for the administration of criminal justice and covered offender registration, rather than law enforcement, purposes; and

- (3) Require an indication regarding a covered offender's requirement to register as a covered offender pursuant to sex offender registration laws to be disclosed to agencies and entities conducting confidential fingerprint-based state and national criminal history record checks, provided that this indication does not include the disclosure of confidential covered offender registration information.

Your Committee received testimony in support of this measure from the Department of the Attorney General and Police Department, City and County of Honolulu.

Your Committee finds that existing law authorizes certain government agencies to conduct fingerprint-based state and national criminal history records checks for the purposes of determining the suitability or fitness of applicants for employment, licensure, permits, or volunteer services. This measure allows the Hawaii Criminal Justice Data Center access to covered offender registration information to inform authorized government agencies whether the submitted fingerprints for a state criminal history check match the fingerprints of a registered covered offender.

Your Committee has amended this measure by:

- (1) Clarifying that an indication of an obligation to register as a covered offender pursuant to chapter 846E, Hawaii Revised Statutes, pertains to the applicant's, employee's, or volunteer's current obligation, if any, rather than requirement, to register;
- (2) Inserting an effective date of January 7, 2059, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 892, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 892, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Gabbard, Thielen).

SCRep. 621 Judiciary and Labor on S.B. No. 1062

The purpose and intent of this measure is to require, rather than authorize, the Family Court to terminate parental rights if the court determines by clear and convincing evidence that the natural parent committed sexual assault of the other natural parent and the child was conceived as a result of the sexual assault by the parent, provided that certain conditions are met.

Your Committee received testimony in support of this measure from the Hawaii State Commission on the Status of Women, Hawaii State Coalition Against Domestic Violence, Women's Caucus of the Democratic Party of Hawai'i, Planned Parenthood Votes Northwest and Hawaii, American Association of University Women of Hawaii, Hawaii Women's Coalition, The Sex Abuse Treatment Center, and four individuals. Your Committee received comments on this measure from the Department of the Attorney General.

Your Committee finds that the impact of sexual violence is significant. Survivors face not only emotional trauma, but also significant physical consequences, including pregnancy. According to The Sex Abuse Treatment Center, a study found that approximately five percent of sexual assaults resulted in pregnancy, which translates to approximately thirty-two thousand sexual assault-related pregnancies each year in the United States.

Your Committee further finds that existing law authorizes the court to terminate parental rights upon a finding by clear and convincing evidence that the natural parent committed sexual assault of the other natural parent and the child was conceived as a result of the sexual assault by the parent. This measure requires, rather than authorizes, the Family Court to terminate parental rights if the court makes such a finding.

Your Committee has amended this measure by:

- (1) Adopting language suggested by the Department of the Attorney General that requires the court to make a finding that termination of parental rights is in the best interests of the child;
- (2) Inserting an effective date of January 7, 2059, to encourage further discussion; and
- (3) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1062, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1062, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Kim).

SCRep. 622 Commerce, Consumer Protection, and Health on S.B. No. 739

The purpose and intent of this measure is to expand treatment capacity of behavior analysis services by allowing individuals with certain certifications and under supervision to implement behavior analysis services.

Your Committee received testimony in support of this measure from the State Council on Developmental Disabilities; Behavioral Intervention Certification Council; Hawai'i Psychological Association; Hawaii Association of Marriage and Family Therapists; Center for Autism and Related Disorders; Autism Behavior Services, Inc.; and sixty individuals. Your Committee received testimony in opposition to this measure from the Association of Professional Behavior Analysts, Hawai'i Association for Behavior Analysis, Hawaii Disability Rights Center, Autism Society of Hawaii, Hawaii State Teachers Association, and over one hundred eighty individuals. Your Committee received comments on this measure from the Department of Health, Professional and Vocational Licensing Division of the

Department of Commerce and Consumer Affairs, Hawaii Medical Service Association, Qualified Applied Behavior Analysis Credentialing Board, Lovaas Institute, and one individual.

Your Committee finds that applied behavior analysis is a well-established framework for the treatment of autism spectrum disorder. Research has shown that intensive, early applied behavior analysis intervention before the age of six is critical for the future of children with autism. Your Committee further finds that section 465D-7, Hawaii Revised Statutes, expressly states that the existing law regulating behavior analysts is not intended to restrict the practice of other licensed or credentialed practitioners practicing within their own recognized scopes of practice. However, according to testimony received by your Committee, the law has been interpreted in a way that prohibits students and psychological assistants, who are under the supervision of a licensed psychologist, to provide behavioral interventions. Your Committee has also heard testimony that the certifying agency for behavior analysts in Hawaii requires psychologists to be board certified in behavioral and cognitive psychology by the American Board of Professional Psychology, a board certification that has not been widely adopted by psychologists, and tested in applied behavior analysis. In effect, this has restricted the ability of licensed psychologists to supervise individuals who implement applied behavior analysis services.

Your Committee additionally finds that limiting the ability of otherwise qualified professionals, acting within their scope of practice, to provide and supervise applied behavior analysis unnecessarily restricts access to these licensed professionals and the individuals working under their supervision. Your Committee notes that the scope of practice for psychologists under chapter 465, Hawaii Revised Statutes, expressly includes behavior analysis and therapy. The scope of practice for psychologists also recognizes the ability of psychologists to supervise others. Amendments to this measure are therefore necessary to clarify that psychologists' scope of practice includes the supervision of behavioral interventions.

Your Committee also finds that existing law exempts a family member or legal guardian from the licensing requirements when these individuals are implementing an applied behavior analysis plan under the direction of a licensed behavior analyst. However, this exemption does not expressly exempt caregivers, who may have individuals living in their homes, from the licensing or certification requirement. Your Committee has also heard testimony expressing concern that existing law includes teachers in the definition of "direct support worker", and although some teachers are certified to perform behavioral analysis, the majority are not certified or licensed to do so. Finally, your Committee notes that the definition of "practice of behavior analysis" under chapter 465D, Hawaii Revised Statutes, is broadly defined, which has implications for even simple behavioral interventions that are routinely implemented for individuals with intellectual and developmental disabilities. Amendments to address these concerns are therefore needed.

Accordingly, your Committee has amended this measure by:

- (1) Amending the definition of "practice of behavior analysis" to exclude certain behavioral techniques used solely as treatment modalities;
- (2) Clarifying the exemptions from the licensure requirements for the practice of behavior analysis, including:
 - (A) Exempting individuals supervised by a licensed professional working within that licensed professional's recognized scope of practice, when that scope of practice overlaps with the practice of behavior analysis, so long as the individual and licensed professional do not use the title "licensed behavior analyst" or "behavior analyst";
 - (B) Removing references to individuals who directly implement applied behavior analysis services and who are credentialed by the Behavioral Intervention Certification Council or Qualified Applied Behavior Analysis credentialing board;
 - (C) Requiring licensed or credentialed professionals to attest to and maintain responsibility for the training and qualifications of an individual who is providing supervised applied behavior analysis services;
 - (D) Removing a reference to a direct support worker being a teacher or paraprofessional who directly implements intervention or assessment plans under supervision; and
 - (E) Exempting from licensure a caregiver who implements an applied behavior analysis plan and acts under the direction of a licensed behavior analyst or licensed professional authorized to practice behavior analysis;
- (3) Inserting an effective date of July 1, 2050, to encourage further discussion;
- (4) Inserting a purpose section; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 739, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 739, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 6; Ayes with Reservations (Ihara, Kidani). Noes, none. Excused, 1 (Ruderman).

SCRep. 623 Commerce, Consumer Protection, and Health on S.B. No. 185

The purpose and intent of this measure is to require child care providers licensed or registered by the Department of Human Services to obtain and maintain liability insurance coverage beginning January 1, 2019.

Your Committee received testimony in support of this measure from fifty-six individuals. Your Committee received comments on this measure from the Department of Human Services.

Your Committee finds that since many parents must work full time, infant child care is essential for many local families. Through the Department of Human Services, the State regulates and inspects these child care facilities to ensure that all children are safe and healthy. Requiring all licensed or registered child care providers to obtain and maintain liability insurance coverage may bring

assurance to families who require child care services and allow opportunities for legal recourse for parents whose children are not properly cared for.

Your Committee has amended this measure by inserting an effective date of July 1, 2050, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 185, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 185, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, 1 (Ruderman).

SCRep. 624 Ways and Means on S.B. No. 888

The purpose and intent of this measure is to appropriate moneys to satisfy various claims against the State, its officers, or its employees.

Your Committee received written comments in support of this measure from the Department of the Attorney General.

Your Committee finds that that the State has a responsibility to promptly satisfy all claims against the State upon the resolution of those claims. Your Committee further finds that since this measure was last amended, the State has resolved two additional claims totaling \$95,837.00.

Your Committee has amended this measure by:

- (1) Inserting an appropriation in the amount of \$837.00 for a claim made by Jocelyn Valdez;
- (2) Inserting an appropriation in the amount of \$95,000.00 for a settlement in the case of Kawamura, et al. v. State of Hawaii, et al., Civil No. 11-1-0311, Fifth Circuit; and
- (3) Making a technical nonsubstantive change for purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 888, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 888, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, none. Excused, 3 (Dela Cruz, Inouye, Wakai).

SCRep. 625 Ways and Means on S.B. No. 245

The purpose and intent of this measure is to create a statutory requirement that government agencies exercise reasonable care in maintaining government records that are open to public inspection.

Your Committee received written comments in support of this measure from the Office of Information Practices.

Your Committee received written comments in opposition to this measure from the Department of the Corporation Counsel, City and County of Honolulu; and the Office of the County Attorney, County of Kauai.

Your Committee received written comments on this measure from the Department of Business, Economic Development, and Tourism and the Department of Accounting and General Services.

Your Committee finds that in *Molfino v. Yuen*, 134 Hawaii 181 (2014), the Supreme Court of the State of Hawaii held that neither common law nor chapter 92F, Hawaii Revised Statutes, impose a duty to act with reasonable care with respect to maintaining government records for the purpose of public inspection. Your Committee believes that establishing a statutory requirement of reasonable care is the appropriate response to this holding.

Your Committee has amended this measure by:

- (1) Inserting a savings clause to ensure that the new duty imposed by this measure applies only prospectively;
- (2) Changing the effective date to January 1, 2019; and
- (3) Making a technical nonsubstantive change for the purpose of style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 245, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 245, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, 4 (Dela Cruz, Inouye, Shimabukuro, Wakai).

SCRep. 626 Ways and Means on S.B. No. 320

The purpose and intent of this measure is to require the collection of buccal swab samples and print impressions of each hand, and DNA samples as provided by law or rule, from persons who have completed their criminal sentences and are no longer confined, in custody, or under parole or probation supervision, or are otherwise discharged from the jurisdiction of the court.

Your Committee received written comments in support of this measure from the Department of the Prosecuting Attorney of the County of Maui.

Your Committee received written comments in opposition to this measure from the American Civil Liberties Union of Hawaii.

Your Committee finds that collecting DNA samples from felony offenders has helped to solve other crimes committed by these offenders, provide justice to crime victims, and deter the commission of future offenses. Your Committee further finds that requiring the collection of buccal swab samples and print impressions of each hand, and DNA samples as provided by law or rule, from certain felony offenders who have completed their sentences and are no longer under the jurisdiction of the court will enhance public safety.

Your Committee has amended this measure by clarifying language pertaining to persons who have been acquitted pursuant to section 704-402, Hawaii Revised Statutes.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 320, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 320, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, none. Excused, 3 (Dela Cruz, Inouye, Wakai).

SCRep. 627 Ways and Means on S.B. No. 1014

The purpose and intent of this measure is to provide the Director of Transportation greater authority over the motor vehicle inspection program.

More specifically, this measure expands the Director's authority to adopt administrative rules to administer and enforce the program, including the maximum inspection fee to vehicle owners and fees collected from inspection stations.

Your Committee received written comments in support of this measure from the Department of Transportation.

Your Committee finds that there is a need to upgrade the methods and procedures of state motor vehicle inspections because the current system is inefficient in that legislation needs to be enacted in order to amend an inspection fee. Your Committee finds that by authorizing the Director of Transportation to administer and enforce the motor vehicle inspection program through the administrative rule process, this measure provides a more efficient means of making changes to the program and still allows for input from the public.

Your Committee has amended this measure by making a technical correction to the text of section 248-26, HRS, on page 2 to make it consistent with the printed version of the Hawaii Revised Statutes.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1014, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1014, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 10. Noes, none. Excused, 1 (Dela Cruz).

SCRep. 628 Ways and Means on S.B. No. 1239

The purpose and intent of this measure is to appropriate funds for research on prevention and mitigation of rapid ohia death.

Your Committee received written comments in support of this measure from the University of Hawaii, Office of Hawaiian Affairs, County of Hawaii, Democratic Party of Hawaii, Hawaii Farm Bureau, Coordinating Group on Alien Pest Species, Conservation Council for Hawaii, Hawaii Green Growth, The Nature Conservancy, Hawaii Crop Improvement Association, and ten individuals.

Your Committee received written comments on this measure from the Hawaii Department of Agriculture and the Department of Land and Natural Resources.

Your Committee finds that ohia makes up approximately fifty percent of the State's native forest and is a keystone species in native watershed areas. Your Committee recognizes that rapid ohia death is devastating thousands of acres of native forest on the island of Hawaii and that it is vital take appropriate steps now to prevent the spread of the fungus to the other islands. Your Committee believes that rapid ohia death is a critical threat to the State's native forests and that it is crucial that funds are directed to address this issue. Your Committee notes that it will consider including an appropriation in the budget bill for this purpose, with \$2,000,000 as a possible amount.

Your Committee has amended this measure by changing the effective date to March 9, 2092, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1239, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1239, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, none. Excused, 3 (Dela Cruz, English, Kahele).

SCRep. 629 Ways and Means on S.B. No. 1148

The purpose and intent of this measure is to appropriate funds for the Executive Director of the Hawaii Community Development Authority (HCDA) to conduct a study relating to smart growth and transit-oriented development initiatives.

More specifically, this measure requires HCDA to conduct a feasibility study regarding:

- (1) HCDA assuming the role of planning, developing, and redeveloping all state-owned lands within one mile of the Honolulu rail transit system, except state-owned lands currently under the administration of the Hawaii Public Housing Authority; and
- (2) Creating a new community development district along the Honolulu rail corridor.

Your Committee received written comments in support of this measure from the Office of Planning and the Hawaii Public Housing Authority.

Your Committee received written comments in opposition to this measure from one individual.

Your Committee received written comments on this measure from the Hawaii Community Development Authority.

Your Committee finds that the feasibility study proposed in this measure is warranted to determine the best means to pursue the development of state-owned properties along the rail transit line. Your Committee further finds that the state-owned land along the rail transit route is administered by numerous departments and agencies and that these entities may lack the expertise and resources to oversee land development. Your Committee recognizes that it is important for the State to have a unified, coordinated vision for implementing sound transit-oriented development and smart growth development of its properties. Your Committee believes that the Hawaii Community Development Authority could be the appropriate entity to guide development and redevelopment along the rail line.

Your Committee has amended this measure by changing the appropriation provision to reference the correct name of the Hawaii Community Development Authority.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1148, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1148, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 7. Noes, none. Excused, 4 (Dela Cruz, Inouye, Taniguchi, Wakai).

SCRep. 630 Ways and Means on S.B. No. 839

The purpose and intent of this measure is to appropriate funds for a feasibility study for planning and land acquisition for an agricultural park in the Puna district to provide access to agricultural lands for small scale farmers.

Your Committee received written comments in support of this measure from the Department of Agriculture, Department of Land and Natural Resources, the Mayor of the County of Hawaii, Hawaii Farm Bureau, Hawaii Farmers Union United, and three individuals.

Your Committee finds that Puna is the fastest growing district in the County of Hawaii. Your Committee further finds that an agricultural park in the Puna district would provide economic opportunities and increase local food production in the district in alignment with the State's food sustainability goals.

Your Committee has amended this measure by:

- (1) Changing the amount appropriated in fiscal year 2017-2018 and fiscal year 2018-2019 from \$250,000 to an unspecified amount; and
- (2) Changing the effective date to March 9, 2092, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 839, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 839, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 7. Noes, none. Excused, 4 (Dela Cruz, Inouye, Taniguchi, Wakai).

SCRep. 631 Ways and Means on S.B. No. 826

The purpose and intent of this measure is to appropriate funds for a distance learning center in the Puna district within the University of Hawaii at Hilo to increase access to education for this underserved region.

Your Committee received written comments in support of this measure from the University of Hawaii System, Office of the Mayor of the County of Hawaii, the Councilmember for the Fifth District of the County of Hawaii, and two concerned individuals.

Your Committee finds that the University of Hawaii System is attempting to evolve Hawaii Community College into a distributed campus, with locations in Hilo, Palamanui, and the North Hawaii Education and Research Center. Your Committee therefore believes that Hawaii Community College is best suited to manage the Puna distance learning center and will be able to deliver programs from other University of Hawaii campuses, including the University of Hawaii at Hilo, as needed.

Your Committee has amended this measure by:

- (1) Designating Hawaii Community College as the unit hosting the distance learning center, rather than the University of Hawaii at Hilo; and
- (2) Clarifying that the purpose of the distance learning center is to provide greater access to post-secondary education in the Puna district.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 826, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 826, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 7. Noes, none. Excused, 4 (Dela Cruz, Inouye, Taniguchi, Wakai).

SCRep. 632 Ways and Means on S.B. No. 643

The purpose and intent of this measure is to require all newly created, replaced, or reprinted state and county documents, letterheads, symbols, and emblems to contain accurate, appropriate, and authentic Hawaiian names and language beginning on January 1, 2018.

In addition, this measure establishes references for accurate, appropriate, and authentic Hawaiian names and words, including proper Hawaiian spelling and punctuation.

Your Committee received written comments in support of this measure from 'Aha Pūnana Leo, Kamehameha Schools, and five concerned citizens.

Your Committee received written comments in opposition to this measure from the Center for Hawaiian Sovereignty Studies.

Your Committee received written comments on this measure from Ka Lāhui Hawai'i Political Action Committee and one concerned citizen.

Your Committee finds that Article XV, section 4, of the Hawaii State Constitution establishes English and Hawaiian as the official languages of the State of Hawaii. Your Committee further finds that by requiring the accurate, appropriate, and authentic use of Hawaiian names and words that utilize proper Hawaiian spelling and punctuation, this measure serves as an important step toward ensuring the renormalization and proliferation of the Hawaiian language as an official language of the State.

Your Committee has amended this measure by changing the effective date to March 9, 2092, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 643, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 643, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, none. Excused, 3 (Dela Cruz, English, Kahele).

SCRep. 633 Judiciary and Labor on S.B. No. 21

The purpose and intent of this measure is to increase the monetary penalties and establish criminal penalties for violating the laws relating to child care facilities.

Your Committee received testimony in support of this measure from the Hawaii Children's Action Network and seventy-six individuals. Your Committee received comments on this measure from the Department of Human Services.

Your Committee finds that because many parents must work full-time, infant child care is a necessity for many local families. Through the Department of Human Services, the State regulates and inspects these child care facilities to ensure that all children are safe and healthy. By increasing the fines and establishing criminal penalties for child care facility providers who violate state laws relating to child care facilities, this measure will help to encourage an upkeep of best practices and allow opportunities for legal recourse for parents whose children are not properly cared for.

Your Committee has amended this measure by:

- (1) Reinstating the monetary penalties for any violation of chapter 346, Hawaii Revised Statutes, or any rule adopted pursuant thereto;
- (2) Specifying that the increased monetary penalties apply to any violation of part VIII of chapter 346, Hawaii Revised Statutes, relating to child care facilities, or any rule adopted pursuant thereto;
- (3) Replacing the criminal penalty for violating child care facility laws with language that authorizes the Department of Human Services to refer to the Attorney General or respective county prosecutor any intentional, knowing, or reckless violation of the laws and health and safety rules relating to child care facilities or certain criminal offenses;
- (4) Inserting an effective date of January 7, 2059, to encourage further discussion; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 21, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 21, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Kim).

SCRep. 634 Judiciary and Labor on S.B. No. 134

The purpose and intent of this measure is to prohibit smoking and tobacco use, including use of electronic smoking devices, by any person on University of Hawaii premises.

Your Committee received testimony in support of this measure from the Department of Education, Department of Health, University of Hawai'i System, University of Hawai'i at Manoa Lifesaver Club, University of Hawai'i Student Health Advisory Council, Hawaii Medical Service Association, Hawai'i Pacific Health, Hawai'i Public Health Institute Coalition for a Tobacco-Free Hawaii, American Heart Association, American Cancer Society Cancer Action Network, and one hundred nineteen individuals. Your Committee received testimony in opposition to this measure from the University of Hawaii Professional Assembly, Associated Students of the University of

Hawai'i at Windward Community College, and two individuals. Your Committee received comments on this measure from the University of Hawai'i Student Caucus.

Your Committee finds that creating tobacco-free campuses is a growing trend in the United States. The American Nonsmokers' Rights Foundation reports that as of January 2, 2017, 1,468 colleges and universities across the United States had adopted policies that require one hundred percent tobacco-free campuses. A rapidly growing number of campuses, 1,331 as of January 2, 2017, also prohibit the use of electronic smoking devices anywhere on campus. Your Committee further finds that establishing a tobacco-free policy on University of Hawaii System premises will demonstrate Hawaii's continued commitment toward healthy living and learning.

Your Committee has amended this measure by:

- (1) Inserting an effective date of January 7, 2059, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 134, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 134, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 5; Ayes with Reservations (Gabbard). Noes, none. Excused, none.

SCRep. 635 Judiciary and Labor on S.B. No. 174

The purpose and intent of this measure is to amend the definition of "debilitating medical condition" to include lupus, epilepsy, multiple sclerosis, arthritis, and autism as conditions that qualify for the legal use of medical marijuana.

Your Committee received testimony in support of this measure from the Drug Policy Forum of Hawaii; Epic-Interventions LLC; Hawai'i Dispensary Alliance; Hawaii Educational Association for Licensed Therapeutic Healthcare; Honolulu Wellness Center; Maui Grown Therapies; Patients Without Time; We Are One, Inc.; and twenty-six individuals. Your Committee received testimony in opposition to this measure from the Department of Health, District 41 of the Hawaii Republican Party, and two individuals. Your Committee received comments on this measure from the Department of the Attorney General and one individual.

Your Committee finds that Hawaii authorized the use of medical marijuana in 2000, and at the time was one of the first states nationwide to do so. Since 2000, the only condition that has been added to the list of debilitating medical conditions is post-traumatic stress disorder, which was added in 2015. The policy movement of some states toward the medical use of marijuana has afforded patients more options when deciding how to treat and manage their health conditions and illnesses. However, the list of qualifying conditions in Hawaii remains limited compared to other states across the country. Accordingly, this measure amends the definition of "debilitating medical condition" to specify additional conditions that qualify for the legal use of medical marijuana to provide Hawaii patients more treatment options.

Your Committee has amended this measure by inserting an effective date of January 7, 2059, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 174, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 174, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Gabbard, Thielen).

SCRep. 636 Judiciary and Labor on S.B. No. 332

The purpose and intent of this measure is to prohibit a commissioned notary public from accepting a limited purpose driver's license for verification of identification.

Your Committee received testimony in support of this measure from the Association of Hawaii Notaries and one individual.

Your Committee finds that limited purpose driver's licenses are not compliant with the federal REAL ID Act, are not accepted for official federal purposes, and do not establish eligibility for employment, voter registration, or public benefits. According to testimony received by your Committee, because a limited purpose driver's license fails to comply with the REAL ID Act, there may be an increased potential for the use of fraudulent documentation to obtain this type of license.

Your Committee further finds that notaries public are public officers whose duties include protecting a transaction from fraud. Notaries public should be reasonably sure that the document they are using to verify a person's identity meets standards for issuance that are equal to the minimum federal standard. Since limited purpose driver's licenses have a lower standard for issuance than the standard required for a regular driver's license, this measure specifies that commissioned notaries are prohibited from accepting this type of license for purposes of identification verification.

Your Committee has amended this measure by inserting an effective date of January 7, 2059, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 332, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 332, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 4; Ayes with Reservations (Thielen). Noes, none. Excused, 1 (Kim).

SCRep. 637 Judiciary and Labor on S.B. No. 420

The purpose and intent of this measure is to make it a criminal offense to intentionally or knowingly direct the beam from a laser or laser scope at an occupied aircraft under certain circumstances.

Your Committee did not receive any written testimony pertaining to this measure.

Your Committee finds that in recent years a growing number of incidents have occurred in which individuals have targeted aircrafts with laser lights during flight or while landing. However, the penal code does not adequately address situations in which an individual aims a laser light at an occupied aircraft and is particularly deficient in situations where the individual with the laser light causes injuries to those on board. This measure establishes criminal offenses for directing a laser light at an occupied aircraft to deter such actions and to help ensure flight and passenger safety.

Your Committee has amended this measure by:

- (1) Inserting an effective date of January 7, 2059, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 420, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 420, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Gabbard).

SCRep. 638 Judiciary and Labor on S.B. No. 849

The purpose and intent of this measure is to amend the Hawaiian Homes Commission Act of 1920, as amended, by:

- (1) Prohibiting any lessee who transfers a lease from being placed on the wait list again and from purchasing another lease;
- (2) Reducing the minimum Hawaiian blood quantum requirement of certain successors to lessees of Hawaiian home lands from one-quarter to one thirty-second; and
- (3) Making housekeeping amendments by replacing references to "husband" or "wife" with "spouse".

Your Committee received testimony in support of this measure from the Office of Hawaiian Affairs, Association of Hawaiian Civic Clubs, Ka Lāhui Hawai'i Political Action Committee, and twenty-eight individuals. Your Committee received testimony in opposition to this measure from five individuals. Your Committee received comments on this measure from the Department of the Attorney General and Department of Hawaiian Home Lands.

Your Committee finds that many descendants of lessees of Hawaiian home lands do not qualify as successors because interracial marriages and blended families produce descendants who are less than twenty-five percent Hawaiian. These disruptions create undue hardships of displacement and interfere with families' abilities to maintain the equity of their homes and businesses. By allowing the transfer of leases prior to the leaseholder's death, this measure encourages current lessees to maintain and invest in their residences, as the lessees anticipate that their descendants will be able to make use of the properties for many generations to come.

Your Committee is concerned that the language that prohibits any lessee who transfers a lease from being placed on the wait list again and from purchasing another lease may be too broad. Your Committee believes that this issue merits further discussion as this measure moves through the legislative process.

Your Committee has amended this measure by:

- (1) Inserting an effective date of January 7, 2059, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 849, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 849, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 3; Ayes with Reservations (Thielen). Noes, none. Excused, 2 (Gabbard, Kim).

SCRep. 639 Judiciary and Labor on S.B. No. 967

The purpose and intent of this measure is to:

- (1) Provide that certain areas within Hawaii Public Housing Authority housing projects are closed to the public;
- (2) Establish requirements for signage notifying trespassers of illegal entry; and
- (3) Amend the offense of criminal trespass in the second degree to permit the prosecution of an unauthorized entry or a violation of a written prohibition to enter into housing projects that are closed and duly noticed to the public.

Your Committee received testimony in support of this measure from the Hawaii Public Housing Authority and two individuals.

Your Committee finds that criminal activity and disturbances caused by uninvited individuals are increasing in public housing projects in Hawaii. The perception that public housing projects are open to the public at all times makes these incidents difficult to prevent and resolve. Your Committee further finds that these incidents are detrimental to the safety of the residents and staff of

Hawaii's public housing projects. This measure clarifies what property within public housing projects is closed to the public and assists law enforcement officers in ensuring the safety of public housing project residents and staff.

Your Committee has amended this measure by:

- (1) Deleting references to "subject housing project" for purpose of consistency;
- (2) Replacing language for the definitions of "member of the public" and "reasonable warning or request" with applicable cross-references;
- (3) Inserting an effective date of January 7, 2059, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary and Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 967, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 967, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Gabbard, Kim).

SCRep. 640 Ways and Means on S.B. No. 767

The purpose and intent of this measure is to promote diversification of the State's economy by establishing the high-growth grant program to provide grants to qualified businesses for specific business development purposes.

This measure would also establish the high-growth grant program special fund to receive legislative appropriations and make grants under the program.

Your Committee received written comments in support of this measure from the Department of Business, Economic Development, and Tourism, High Technology Development Corporation, Chamber of Commerce Hawaii, and Maui Chamber of Commerce.

Your Committee received written comments on this measure from the Department of Budget and Finance.

Your Committee finds that diversifying the State's economy beyond service-related industries is critical to Hawaii's future. The high-growth grant program will provide grants to businesses that, for example, export products to expand their operations, improve productivity, and invest in food safety or quality control programs. Diversifying the State's economy in this fashion will permit Hawaii to compete globally.

Your Committee has amended this measure by changing the effective date to July 1, 2050, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 767, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 767, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 10. Noes, none. Excused, 1 (Dela Cruz).

SCRep. 641 Ways and Means on S.B. No. 764

The purpose and intent of this measure is to support the development of the State's manufacturing industry by appropriating funds to the High Technology Development Corporation to continue operations of the manufacturing development program.

Your Committee received written comments in support of this measure from the Department of Business, Economic Development, and Tourism; High Technology Development Corporation; Chamber of Commerce Hawaii; Maui Chamber of Commerce; Kuehnle AgroSystems; K. Yamada Distributors; Aloha Shoyu Company; Hawaii Coffee Company; Maui Brewing Company; Oceanit; First Commercial Kitchen LLC; Makai Ocean Engineering, Inc.; Hawaii Food Industry Association; Hawaii Fish Company; and one concerned individual.

Your Committee received written comments on this measure from Dyezigns LLC.

Your Committee finds that the manufacturing industry is a key driver of an innovative economy, with its ongoing development of cost-effective methods, new technologies, and export products that allow the State to compete in a global market. Your Committee further finds that the manufacturing development program has helped aid manufacturers in the State through its program grants, which ultimately helps the State by increasing the production of goods for both local consumption and export.

Your Committee has amended this measure by:

- (1) Changing the amount appropriated for the manufacturing development program from \$1,500,000 to an unspecified sum; and
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 764, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 764, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 10. Noes, none. Excused, 1 (Dela Cruz).

SCRep. 642 Commerce, Consumer Protection, and Health on S.B. No. 611

The purpose and intent of this measure is to repeal the June 30, 2017, sunset date of Act 83, Session Laws of Hawaii 2012, which prohibits counties from requiring installation or retrofitting of automatic fire sprinklers in:

- (1) New or existing detached one- or two-family dwelling units used only for residential purposes; and
- (2) Non-residential agricultural and aquacultural structures located outside an urban area.

Your Committee received testimony in support of this measure from the Chamber of Commerce Hawaii, Building Industry Association of Hawaii, Hawaii Association of REALTORS, Complete Construction Services Corp., Servco Home and Appliance Distribution, Graham Builders, and Homeworks Construction, Inc. Your Committee received testimony in opposition to this measure from the State Fire Council; Maui Fire Department; and Hawaii Fire Fighters Association, Local 1463, IAAF, AFL-CIO. Your Committee received comments on this measure from the Office of the Mayor, Hawai'i County.

Your Committee finds that placing undue burdens on property owners in the State does not promote the public welfare. Retrofitting or installing automatic fire sprinklers in certain structures can be difficult and costly. Moreover, requiring owners or builders to install automatic fire sprinklers would likely cause rents and the costs of homes to rise. Given the untenable affordable housing shortage across the State, county action requiring the installation of automatic fire sprinklers could have devastating effects.

While your Committee acknowledges the concerns raised by those involved in the firefighting industry regarding enhanced prevention of fire-related injury and property loss, your Committee finds that it has not been adequately demonstrated that automatic fire sprinklers should be required in the types of dwellings this measure would permanently exempt from any automatic fire sprinkler requirement. Therefore, your Committee finds that repealing the sunset date of Act 83, Session Laws of Hawaii 2012, is appropriate at this time and notes that the proponents of the mandatory installation or retrofitting of automatic fire sprinklers in residential dwelling units may present a stronger justification for their position to the Legislature in the future.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 611, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, 1 (Ruderman).

SCRep. 643 Ways and Means on S.B. No. 327

The purpose and intent of this measure is to modernize the State's voter registration operations.

Specifically, the measure:

- (1) Requires that databases containing driver's license and civil identification card information be transmitted electronically to election officials and the statewide voter registration system;
- (2) Requires the Office of Elections to become a member of the Electronic Registration Information Center and share information with the counties, pursuant to the terms of the membership agreement;
- (3) Requires the Office of Elections and each county office that administers elections to verify their respective voter registration rolls; and
- (4) Appropriates funds to the Office of Elections to join the Electronic Registration Information Center.

Your Committee received testimony in support of this measure from the Office of Elections, Common Cause Hawaii, League of Women Voters of Hawaii, and one individual. Your Committee received written comments on this measure from the Office of the County Clerk, County of Kauai.

Your Committee notes that the Electronic Registration Information Center is a nonprofit organization that helps states improve the accuracy of voter registration rolls by using secure data-matching tools. Your Committee finds that membership in the Electronic Registration Information Center would help to improve the accuracy of voter registration rolls maintained by the Office of Elections and the respective county clerks' offices, which, in turn, is likely to result in greater efficiency and cost savings in administering Hawaii's voter registration systems.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 327, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 10. Noes, none. Excused, 1 (Kahale).

SCRep. 644 Ways and Means on S.B. No. 367

The purpose and intent of this measure is to promote highway safety by increasing the fines for violations associated with a person operating a vehicle after the person's license and privilege has been suspended or revoked for operating a vehicle under the influence of an intoxicant.

Your Committee received comments in support of this measure from the Department of Transportation and Mothers Against Drunk Driving Hawaii.

Your Committee finds that the National Highway Traffic Safety Administration estimates that between fifty and seventy-five per cent of drivers whose licenses have been revoked for driving under the influence continue to drive despite the revocation. Your Committee further finds that of the over six thousand drivers arrested in the State in 2015 for operating a vehicle under the influence,

over one thousand were repeat offenders, many of whom were driving under a revoked or suspended license. Your Committee believes that the increased fines proposed by this measure will deter violators from operating a vehicle without a license, thereby providing safer roadways for others.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 367 and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, none. Excused, 3 (Dela Cruz, Kahele, Taniguchi).

SCRep. 645 Ways and Means on S.B. No. 422

The purpose and intent of this measure is to provide guidelines for the court to consider in awarding visitation rights to grandparents.

Specifically, this measure:

- (1) Clarifies that as a prerequisite to awarding visitation rights to grandparents, the court must find that:
 - (A) Awarding visitation to a grandparent is in the best interest of the child; and
 - (B) Denial of reasonable grandparent visitation rights would cause significant harm to the child;
- (2) Establishes a rebuttable presumption that a parent's decision regarding visitation is in the best interest of the child;
- (3) Clarifies that, in awarding reasonable grandparent visitation, the court shall be guided by all standards, considerations, and procedures for parent visitation under section 571-46, Hawaii Revised Statutes; and
- (4) Provides that a violation by a grandparent or grandparents of the terms and conditions of an order awarding reasonable visitation rights is subject to sanctions as determined by the court and in accordance with section 571-81, Hawaii Revised Statutes.

Your Committee received written comments in support of this measure from two concerned individuals.

Your Committee finds that grandparents are taking on increasing responsibilities in helping to raise their grandchildren, especially when the children's own parents are unable or unwilling to do so due to the parents' need to work or attend school, or the parents' abandonment, mental disorder, substance abuse, or incarceration. Grandparents can help to foster a child's healthy emotional and psychological development and further a child's education. Your Committee believes that this measure recognizes the importance of grandparents in a child's life.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 422, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, none. Excused, 3 (Dela Cruz, Inouye, Wakai).

SCRep. 646 Ways and Means on S.B. No. 440

The purpose and intent of this measure is to amend the fines imposed by the Campaign Spending Commission.

Specifically, the measure:

- (1) Increases the fine amounts imposed on a noncandidate committee that makes only independent expenditures and either receives certain contributions or makes a certain amount of expenditures in an election period;
- (2) Authorizes the Campaign Spending Commission to order a person who violates campaign finance laws to pay for costs of investigative services and bank fees for the production of subpoenaed documents incurred by the Commission due to the violation; and
- (3) Requires that any costs recovered by the Campaign Spending Commission be deposited into the Hawaii election campaign fund.

Your Committee received testimony in support of this measure from the Campaign Spending Commission, League of Women Voters of Hawaii, Common Cause Hawaii, and one individual.
