

CONFERENCE COMMITTEE REPORTS

Conf. Com. Rep. 1-18 on S.B. No. 192

The purpose of this measure is to manage state finances.

More specifically, the measure:

- (1) Deposits settlement moneys received in 2018 that relate to compliance with the Tobacco Master Settlement Agreement from calendar years 2004 to 2017 into the emergency and budget reserve fund;
- (2) Authorizes the Director of Finance to transfer moneys in the natural area reserve fund that are in excess of the needs of that reserve fund into the general fund;
- (3) Provides that moneys in the tobacco settlement special fund that are in excess of the needs of that special fund shall provide revenue to the Hawaii tobacco prevention and control trust fund and the university revenue-undertakings fund; and
- (4) Specifies that moneys in the tobacco settlement special fund that are in excess of the needs of that special fund are to be used to supplant any losses that result from any discount or reduction taken against regular master settlement agreement payments received by the State between calendar years 2018 and 2022.

Your Committee on Conference finds that depositing and authorizing the transfer and utilization of revenues as described above is prudent and in the best interest of the State.

Your Committee on Conference also finds that an extraordinary weather event of torrential rains caused widespread flooding and serious damage in the County of Kauai and portions of the City and County of Honolulu in April 2018. On the island of Kauai, the rains caused extensive damage to the slopes adjacent to Kuhio Highway, and impacted the communities of Wainiha, Haena, and other regions. In the City and County of Honolulu, the rains caused serious damage in Waimanalo and East Honolulu. At this point, it is unclear if other areas of the State have been severely impacted as well.

Your Committee on Conference further finds that the severe, sudden, and extraordinary weather event caused damage, losses, and suffering that affected the health, welfare, and living conditions of a substantial number of persons, and is of such a nature as to warrant rehabilitative assistance from the State.

Your Committee on Conference has amended this measure by appropriating moneys to the Department of Defense for disaster relief efforts in the County of Kauai and other areas of the State that have been adversely impacted by the extraordinary weather event that occurred in April 2018.

More specifically, the measure appropriates moneys to protect the health, safety, and welfare of the people, and provide relief from disaster damages, losses, and suffering, as follows:

- (1) \$100,000,000 to be expended in the County of Kauai; and
- (2) \$25,000,000 to be expended in areas of the State other than Kauai.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 192, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 192, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Dela Cruz, Keith-Agaran and Galuteria.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, none.

Representatives Luke, Cullen, Morikawa, Nakamura and Ward.

Managers on the part of the House.

Ayes, 5. Noes, none. Excused, none.

Conf. Com. Rep. 2-18 on S.B. No. 508

The purpose of this measure is to change the percentage deducted and withheld from the disposition of Hawaii real property by nonresidents from five percent of the amount realized to an unspecified percentage.

Your Committee on Conference finds that section 235-68, Hawaii Revised Statutes, requires a withholding of income tax on the disposition of real property held by nonresidents. This withholding is sometimes referred to as "HARPTA", an acronym for Hawaii Real Property Tax Act. Your Committee on Conference further finds that this section was enacted to provide a means for the State to collect capital gains taxes from absentee property owners.

Your Committee on Conference has amended this measure by changing the withholding rate from an unspecified percentage to 7.25 percent.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 508, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 508, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Dela Cruz, Keith-Agaran and Galuteria.

Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, none.

Representatives Luke, Cullen, Yamashita and Tupola.
Managers on the part of the House.
Ayes, 3. Noes, none. Excused, 1 (Tupola).

Conf. Com. Rep. 3-18 on H.B. No. 1900

PART I. OVERVIEW

Your Committee on Conference has approved a Conference Draft of the executive budget that is less than the operating budget request submitted by the Administration. The Conference Draft appropriates \$14,438,080,109 in all funds, inclusive of \$7,512,285,586 in general funds for fiscal year 2018-2019.

The Administration’s initial budget submittal to the Legislature added \$21,256,787 in general funds for fiscal year 2018-2019. Since submitting the initial budget to the Legislature in December, the Administration also submitted various Governor’s Messages that adjusted its initial request by adding \$45,146,065 in general funds for fiscal year 2018-2019.

The net change of the appropriations in this measure, as amended by your Committee on Conference, results in an executive budget for fiscal biennium 2017-2019 as follows:

	Fiscal Year 2017-2018		Fiscal Year 2018-2019	
	All Funds	General Funds	All Funds	General Funds
Executive Budget Act 49, SLH 2017	\$14,110,569,014	\$7,248,455,293	\$14,308,859,860	\$7,421,597,622
Executive Request (Including Governor’s Messages #7, #8, #11 and #12)	\$0	\$0	\$122,073,349	\$66,402,852
Net Change of Conference Draft	\$0	\$0	\$129,220,249	\$90,687,964
Total Appropriation	\$14,110,569,014	\$7,248,455,293	\$14,438,080,109	\$7,512,285,586

PART II. OPERATING BUDGET HIGHLIGHTS

The Conference Draft of the executive budget includes the following major adjustments:

Agriculture

- (1) Adding \$800,000 in general funds for invasive and hazardous plant mitigation; and
- (2) Adding 2.00 permanent positions and \$162,500 in general funds for the Farm-to-State Food Program;

Accounting and General Services

- (1) Adding \$100,000 in general funds for salary increases for Office of Information Practices personnel;
- (2) Adding 75.00 permanent positions, 3.00 temporary positions, and \$5,663,887 in general funds for capital improvement project staff costs;
- (3) Adding 2.00 permanent positions and \$228,972 in general funds for salary increases for State Procurement Office personnel; and
- (4) Adding \$500,000 in general funds for a comprehensive review and analysis of the Hawaii Public Procurement Code;

Attorney General

- (1) Adding \$2,000,000 in general funds for the litigation fund;

Business, Economic Development and Tourism

- (1) Adding \$150,000 in general funds for the unmanned aerial systems program;
- (2) Adding \$150,000 in general funds for the Pacific International Space Center for Explorations System;
- (3) Adding \$1,500,000 in general funds for the Excelerator Program; and
- (4) Adding \$1,050,000 in general funds for community-based economic development for elderly transportation services and the kupuna community care network;

Budget and Finance

- (1) Reducing \$15,126,328 for debt service payments;
- (2) Reducing \$42,475,735 for retirement benefit payments; and
- (3) Reducing \$23,765,824 for health premium payments;

Commerce and Consumer Affairs

- (1) Adding \$7,920,000 in trust funds for Institutional Network Cable Television; and
- (2) Adding 1.00 permanent position and \$170,058 in special funds for Business Registration and Securities Regulation;

Defense

- (1) Adding 1.00 temporary position and \$95,000 in general funds for the Hawaii State Fusion Center;
- (2) Adding \$1,446,200 in general funds for repairs and maintenance, statewide; and
- (3) Adding \$200,000 in general funds for Hawaii State Veterans Cemetery;

Education*Regular Education*

- (1) Adding \$1,500,864 in general funds for the Office of Hawaiian Education;
- (2) Adding \$2,147,282 in general funds for the Hawaii Keiki Program;
- (3) Adding \$500,000 in general funds for the Early College High School Initiative;
- (4) Adding 1.00 permanent position and \$4,500,000 in general funds for Alternative Learning Centers;
- (5) Adding 2.00 permanent positions and \$183,818 in general funds for World Languages and Health Education;
- (6) Adding \$850,000 in general funds for Title IX compliance training;
- (7) Adding \$1,100,000 in general funds for alternative teacher route programs;
- (8) Adding \$1,080,184 in general funds for the Office of Strategy, Innovation and Performance;
- (9) Adding \$850,000 in general funds for travel costs for athletic teams;
- (10) Adding 66.00 permanent positions and \$4,783,896 in general funds for capital improvement project staff costs;
- (11) Adding 6.00 permanent positions and \$533,868 in general funds for Workforce Innovation and Opportunity Act and Adult Education and Family Literacy Act staffing;

Libraries

- (12) Adding \$500,000 in general funds for repair and maintenance projects;
- (13) Adding \$500,000 in general funds for books and materials;

Charter Schools

- (14) Adding \$142,000 in general funds for national board certified teachers;
- (15) Adding \$2,182,338 in general funds for per pupil adjustment costs;

Early Learning

- (16) Adding \$20,000 in general funds for the Professional Learning System; and
- (17) Adding 2.00 permanent positions and \$133,618 in general funds for the Executive Office on Early Learning and Early Learning Advisory Board;

Health

- (1) Adding \$800,000 in general funds for outreach and counseling services for chronically homeless individuals and families with severe substance abuse disorders;
- (2) Adding \$500,000 in general funds for chronic disease prevention and health promotion;
- (3) Adding \$2,871,420 in general funds for emergency medical services;
- (4) Adding \$4,500,000 in general funds for three new ambulances for the County of Kauai, County of Hawaii, and City and County of Honolulu;

Executive Office on Aging

- (5) Adding \$1,700,000 in general funds for Aging and Disability Resource Centers statewide;
- (6) Adding \$3,877,063 in general funds for Kupuna Care; and
- (7) Adding \$1,200,000 in general funds for the Kupuna Caregiver Fund;

Hawaii Health Systems Corporation

- (1) Adding \$11,230,969 in general funds for an operating subsidy;
- (2) Adding \$1,500,000 in general funds for the Hilo Medical Center Cardiac Unit; and

- (3) Adding \$28,000,000 in general funds for an operating subsidy for the Hawaii Health Systems Corporation – Maui Health System;

Human Resources Development

- (1) Adding \$101,080 in general funds for the Learning Management and Self-Directed Learning Library;

Human Services

- (1) Adding \$15,000,000 in general funds for Homeless Programs and Services;
- (2) Adding \$240,000 in general funds for Juvenile Justice Programs; and
- (3) Adding \$5,250,000 in general funds for the Kauhale On-Line Eligibility Assistance (KOLEA) System;

Labor and Industrial Relations

- (1) Adding 2.00 permanent positions and \$145,000 in general funds for the Hawaii Labor Relations Board;

Land and Natural Resources

- (1) Adding \$500,000 in general funds for mangrove remediation to address flood control issues;
- (2) Adding \$800,000 in general funds for Rapid Ohia Death response;
- (3) Adding 2.00 permanent positions and \$500,928 in general funds for the Division of Conservation and Resources Enforcement Training Academy;
- (4) Adding 9.00 permanent positions and \$283,969 in general funds for the State Historic Preservation Division; and
- (5) Adding 10.00 permanent positions and \$188,820 in general funds for State Parks Administration and Operations;

Public Safety

- (1) Adding \$5,000,000 in general funds for continued housing of inmates at the Saguaro Correctional Center;
- (2) Adding \$1,944,923 in general funds to address the Medicaid payment shortfall; and
- (3) Adding 1.00 permanent position and \$85,670 in general funds for the Sheriff Division, Kona Unit;

Taxation

- (1) Transferring in 6.00 temporary positions and \$900,000 in general funds for the Tax System Modernization Project; and
- (2) Adding 5.00 temporary positions and \$215,425 in special funds for the Special Enforcement Section;

Transportation

Airports

- (1) Adding \$10,994,788 in special funds for ten Wiki Wiki shuttle buses;
- (2) Adding 12.00 permanent positions and \$3,414,352 in special funds for Airport Rescue Fire Fighting at Lihue Airport;
- (3) Adding \$39,000,000 in special funds for the Consolidated Rental Car Facility Tram and Shuttle Service;

Highways

- (4) Adding \$1,980,600 in special funds for the Highways Financial Management System, Phase III;
- (5) Adding \$11,500,000 in general funds for special maintenance; and

Administration

- (6) Adding \$250,000 in special funds and \$250,000 in federal funds for safety oversight of the rail transit fixed guideway system.

University of Hawaii

- (1) Adding 5.00 permanent positions and \$300,000 in general funds for the student success initiative for the University of Hawaii at Manoa;
- (2) Adding 11.00 permanent positions and \$960,000 in general funds for the College of Tropical Agriculture and Human Resources;
- (3) Adding \$300,000 in general funds for rat lungworm research;
- (4) Adding 2.00 permanent positions and \$200,000 in general funds for the Hawaii Ant Lab;
- (5) Adding 8.00 permanent positions and \$501,000 in general funds for health, safety, and campus development for the University of Hawaii, West Oahu;
- (6) Adding 6.20 permanent positions and \$515,000 in general funds for the Health Sciences Academy;
- (7) Adding 8.00 permanent positions and \$750,000 in general funds for the student success initiative for the University of Hawaii community colleges; and

- (8) Adding 10.00 permanent positions and \$1,250,372 in general funds for online learning courses.

PART III. CAPITAL IMPROVEMENT PROJECTS BUDGET

Your Committee on Conference finds that capital improvement projects are essential to our economy and play a pivotal role in building social infrastructure and helping to strengthen communities.

Your Committee on Conference has provided a total of \$1,027,951,000 for fiscal year 2017-2018 and \$735,455 for fiscal year 2018-2019 for projects funded by general obligation bond funds and \$4,657,524,000 for fiscal biennium 2017-2019 for projects funded by all other means of financing. In comparison, the Administration's proposed capital improvement program biennium budget, as amended pursuant to Governor's Messages, provided a total of \$1,027,951,000 for fiscal year 2017-2018 and \$694,143,000 for fiscal year 2018-2019 for projects funded by general obligation bonds and \$4,508,180,000 for fiscal biennium 2017-2019 for projects funded by all other means of financing.

Highlights of the capital improvements projects' budget for the biennium include:

Department of Agriculture

- \$2,750,000 for Agricultural Infrastructure Improvements, statewide
- \$4,500,000 for East Maui Water Systems
- \$4,700,000 for Agricultural Land, Oahu
- \$3,600,000 for Kekaha Ditch Irrigation System Modification, Kauai
- \$4,000,000 for Waiahole Water System Improvements, Oahu

Department of Accounting and General Services

- \$5,050,000 for Health and Safety, Information and Communication Services, statewide

Department of Business, Economic Development, and Tourism

- \$6,500,000 for First Responders Technology Campus and Cyber Security Data Center, Oahu
- \$4,900,000 for Improvements and Upgrades to Seawater System, Hawaii

Department of Education

The Administration proposed \$175,082,000 for fiscal year 2018-2019 for education facilities. Instead, your Committee on Conference has provided a total of \$350,356,000 for fiscal year 2018-2019 for education facilities including:

- \$14,350,000 for Science, Technology, Engineering and Math (STEM) Facilities, Improvements and Renovations, statewide
- \$13,000,000 for East Kapolei Middle School, Oahu
- \$10,000,000 for Pohukaina Elementary School, Oahu
- \$40,000,000 for Kihei High School, Maui
- \$10,000,000 for Gender Equity Facilities, Improvements and Renovations, statewide
- \$20,500 for Waipahu Intermediate School, Oahu

Department of Hawaiian Home Lands

- \$4,000,000 for Molokai Veterans Center, Molokai
- \$2,000,000 for Waianae Coast Parallel Route, Oahu

Department of Human Services

- \$21,500,000 for Public Housing Development, Improvements, and Renovations, statewide
- \$4,500,000 for Mayor Wright Homes On-Site Infrastructure Improvements

Department of Land and Natural Resources

- \$6,506,000 for Watershed Protection and Initiatives, statewide
- \$1,680,000 for Kawainui Marsh Cleanup Environmental Degradation and Restoration of Native Wildlife Habitat

Department of Public Safety

- \$40,000,000 for Women's Community Correctional Center (WCCC), Oahu

Department of Taxation

- \$16,546,000 for Tax System Modernization

Department of Transportation

- \$2,000,000 for Paakea Road Condemnation

University of Hawaii

- \$700,000 for University of Hawaii At Manoa Sinclair Library Renovation
- \$3,000,000 for University of Hawaii At Hilo, Hale Alahonua Air Conditioning Improvements
- \$5,000,000 for University of Hawaii West Oahu, Campus Center Extension
- \$3,000,000 for Community College Systems Multi-Agency Facility, Oahu
- \$200,000 for University of Hawaii John A. Burns School of Medicine

Your Committee on Conference recognizes the great need in the State for services provided by non-governmental groups and nonprofit agencies and has thus provided \$20,000,000 in general obligation bond funds in fiscal year 2018-2019 to help aid these organizations in better serving the community.

Finally, your Committee on Conference provided funding for various projects within the Department of Defense, Department of Hawaiian Home Lands, Department of Health, Department of Human Services, Department of Land and Natural Resources, and Department of Transportation, among others, to ensure that contributions of matching federal, private, and other funds may be maximized and not lost or forfeited.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1900, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1900, H.D. 1, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Dela Cruz, English, Galuteria, Harimoto, Inouye, Kahele, Keith-Agaran, Kidani, Riviere, Shimabukuro and Wakai.
Managers on the part of the Senate.

Ayes, 9. Noes, none. Excused, 2 (Harimoto, Riviere).

Representatives Luke, Cachola, Cullen, DeCoite, Fukumoto, Gates, Holt, Keohokalole, Kobayashi, Lowen, Nakamura, Todd, Yamashita, Tupola and Ward.

Managers on the part of the House.

Ayes, 14. Noes, none. Excused, 1 (Yamashita).

Conf. Com. Rep. 4-18 on H.B. No. 2145

The purpose and intent of this measure is to:

- (1) Allow the synchronization of plan participants' medications;
- (2) Require plans, policies, contracts, or agreements that are offered by health insurers, mutual benefit societies, and health maintenance organizations and provide prescription drug benefits to apply prorated daily cost-sharing rates for prescriptions dispensed by network pharmacies for less than a thirty-day supply; and
- (3) Require that network pharmacies identify an anchor prescription to which all other prescriptions may be synced for the purposes of medication synchronization.

Your Committee on Conference has amended this measure by:

- (1) Changing the effective date to July, 1 2018;
- (2) Removing the repeal date of July 1, 2023; and
- (3) Making technical, nonsubstantive amendments for the purpose of clarity, consistency, and style.

The intent of your Committee on Conference is to benefit residents who are taking more than one prescription medication. Your Committee on Conference requests that the Department of Commerce and Consumer Affairs Board of Pharmacy review this measure to ascertain whether it results in higher costs to consumers and businesses and recommend additional legislation no later than 20 days prior to the convening of the 2020 Legislative Session.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 2145, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 2145, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Baker, Espero and Ihara.
Managers on the part of the Senate.

Ayes, 2. Noes, none. Excused, 1 (Ihara).

Representatives Mizuno, Takumi, Kobayashi and Tupola.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. 5-18 on S.B. No. 2821

The purpose of this measure is to conform Hawaii's income and estate and generation-skipping transfer tax laws to the Internal Revenue Code of 1986, as amended as of December 31, 2017.

Your Committee on Conference finds that close conformance of state tax laws to the Internal Revenue Code is normally recommended to ease the administration of state taxes. However, your Committee on Conference believes that, in light of multiple changes that have recently come into effect at the federal level, it is appropriate that state tax laws not conform to a number of provisions of the Internal Revenue Code.

Your Committee on Conference has amended this measure by:

- (1) Deleting provisions that would make sections 162(f) (with respect to allowance of deductions for restitution or compliance with law payments), 529 (with respect to qualified tuition programs), and 529A (with respect to qualified ABLE programs) of the Internal Revenue Code inoperative for state income tax purposes;

- (2) Disallowing deductions, under section 162(f)(2), (3), and (4) of the Internal Revenue Code, for the payment of fines or penalties;
- (3) Disallowing the use of distributions from qualified tuition programs, under section 529 of the Internal Revenue Code, for elementary and secondary education;
- (4) Clarifying that, for generation-skipping transfer tax purposes, the applicable rate shall be determined using section 2642 of the Internal Revenue Code, as amended as of December 21, 2017;
- (5) Correcting a citation to the Hawaii Revised Statutes; and
- (6) Making technical nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2821, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2821, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Dela Cruz, Keith-Agaran and Galuteria.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, none.

Representatives Luke, Cullen and Ward.

Managers on the part of the House.

Ayes, 3. Noes, none. Excused, none.

Conf. Com. Rep. 6-18 on S.B. No. 2803

The purpose of this measure is to:

- (1) Update boiler and elevator safety laws by making housekeeping amendments to delete obsolete language;
- (2) Rename the boiler and elevator special fund as the boiler and elevator revolving fund; and
- (3) Extend the schedule for reimbursement of the general fund for appropriations made to establish the boiler and elevator special fund from five to ten years.

Your Committee on Conference finds that current state law contains various definitions of elevators and kindred equipment that are either no longer a part of applicable standards; transitioned to the jurisdiction of other work groups; excluded from the American Society of Mechanical Engineers A17.1, Safety Code for Elevators and Escalators; or non-existent in Hawaii; therefore, it is necessary to update the state laws to comply with the national standards.

Your Committee on Conference has amended this measure by changing the effective date to July 1, 2018.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2803, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2803, S.D. 2, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Tokuda, Keith-Agaran and Chang.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, none.

Representatives Johanson, Holt and Matsumoto.

Managers on the part of the House.

Ayes, 3. Noes, none. Excused, none.

Conf. Com. Rep. 7-18 on S.B. No. 2361

The purpose of this measure is to appropriate funds for fiscal biennium 2017-2019 for collective bargaining cost items, salary increases, and other cost adjustments for public employees in collective bargaining unit (14) and for their excluded counterparts.

Your Committee on Conference finds that on April 5, 2018, the State received notification of an arbitration award concerning the Hawaii Government Employees Association, collective bargaining unit (14). An agreement with the Hawaii Government Employees Association regarding Employer-Union Trust Fund contributions was previously reached and funded by Act 28, Session Laws of Hawaii 2017.

Accordingly, your Committee on Conference has amended this measure by:

- (1) Inserting specific amounts for collective bargaining cost items, salary increases, and other cost adjustments for public employees in collective bargaining unit (14) and for their excluded counterparts for fiscal biennium 2017-2019, pursuant to the arbitration award;
- (2) Changing the effective date to upon approval; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2361, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2361, S.D. 2, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Tokuda, Keith-Agaran and Chang.
Managers on the part of the Senate.
Ayes, 2. Noes, none. Excused, 1 (Chang).

Representatives Johanson, Luke, Cullen, Holt and Matsumoto.
Managers on the part of the House.
Ayes, 4. Noes, none. Excused, 1 (Matsumoto).

Conf. Com. Rep. 8-18 on H.B. No. 1652

The purpose of this measure is to:

- (1) Abolish certain non-general funds and transfer the unencumbered balances to the general fund;
- (2) Establish end of the fiscal year carryover balances for various non-general funds within the Department of Labor and Industrial Relations and the Department of Commerce and Consumer Affairs; and
- (3) Increase the deduction for central services expenses from five to seven percent.

Your Committee on Conference has amended this measure by:

- (1) Abolishing only the following funds recommended by the Auditor in Auditor's Report No. 17-10:
 - (A) Est/adm license and permit tobacco and cigarette special fund;
 - (B) IRS refund intercept trust account;
 - (C) Special enforcement section collections trust account; and
 - (D) Taxes payable to counties - fuel trust accounts;
- (2) Removing the establishment of end of the fiscal year carryover balances for various non-general funds within the Department of Labor and Industrial Relations and the Department of Commerce and Consumer Affairs;
- (3) Reinstating the five percent deduction for central services expenses; and
- (4) Changing the effective date to July 1, 2018.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1652, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1652, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Keith-Agaran, Galuteria, Baker and Riviere.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, 1 (Galuteria).

Representatives Luke, Cullen and Tupola.
Managers on the part of the House.
Ayes, 3. Noes, none. Excused, none.

Conf. Com. Rep. 9-18 on H.B. No. 2081

The purpose of this measure is to address the exponential growth in the number of rose-ringed parakeets that pose a significant threat to local economies, the environment, and human health and safety by appropriating an unspecified sum to the Department of Land and Natural Resources (DLNR) to assist and fund the National Wildlife Research Center of the United States Department of Agriculture (Research Center) to continue its efforts to manage the population of rose-ringed parakeets on the island of Kauai.

Your Committee on Conference has amended this measure by:

- (1) Appropriating \$284,011 to DLNR to assist and fund the Research Center in its efforts to manage the population of rose-ringed parakeets on the island of Kauai;
- (2) Changing its effective date to July 1, 2018; and
- (3) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 2081, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 2081, H.D. 1, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Rhoads, Gabbard and Riviere.
Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, none.

Representatives Creagan, Nakamura and Thielen.

Managers on the part of the House.

Ayes, 3. Noes, none. Excused, none.

Conf. Com. Rep. 10-18 on H.B. No. 2305

The purpose of this measure is to assist coffee growers through the Pesticide Subsidy Program (Program), which offsets the costs of purchasing certain pesticides known to be effective against the destructive coffee berry borer beetle, by extending the sunset date of the Program manager position and the manager position's civil service and collective bargaining exemptions to June 30, 2022.

Your Committee on Conference has amended this measure by changing its effective date to upon its approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 2305, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 2305, H.D. 1, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Gabbard, English and Ruderman.

Managers on the part of the Senate.

Ayes, 2. Noes, none. Excused, 1 (Ruderman).

Representatives Creagan, Johanson, DeCoite, Holt, Lowen and Thielen.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, 2 (Johanson, Lowen).

Conf. Com. Rep. 11-18 on H.B. No. 2208

The purpose of this measure is to:

- (1) Require that association health plan policies comply with the laws of the State regardless of the sponsoring association's domicile; and
- (2) Enable certain voluntary employer associations and sponsoring associations to qualify for authorization to transact insurance in the State.

Your Committee on Conference has amended this measure by:

- (1) Clarifying that all association health plans issued by a voluntary association of employers authorized to do so by the United States Department of Labor and operative in the State shall comply with all applicable state laws regardless of the characteristics and tax status of the voluntary association or employers;
- (2) Clarifying that all voluntary associations of employers that issue health plans operative within the State shall be eligible for and required to hold a certificate of authority from the Insurance Division;
- (3) Requiring the Insurance Commissioner to adopt or amend any forms as necessary for implementation of this measure by no later than January 1, 2019;
- (4) Specifying that the compliance requirements for association health plans and voluntary associations of employers shall become effective on January 1, 2019; and
- (5) Making technical nonsubstantive amendments for the purpose of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 2208, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 2208, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Baker, Ruderman and Tokuda.

Managers on the part of the Senate.

Ayes, 2. Noes, none. Excused, 1 (Ruderman).

Representatives Mizuno, Takumi, Ichiyama and Tupola.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. 12-18 on S.B. No. 2407

The purpose of this measure is to convene the Medical Cannabis Study Group to examine the legal complexities surrounding the medical use of cannabis in Hawaii.

Your Committee on Conference finds that the medical use of cannabis may be effective at treating opioid use and substance use disorders by reducing the amount of opioid medication needed to provide effective pain relief. While your Committee on Conference recognizes the importance of proceeding with due deliberation when possible, the serious public health concerns posed by opioid use disorders and substance use disorders demand a commensurate, proactive response. Your Committee on Conference finds that the S.D. 1 version of this measure, which was previously passed by the Senate, permits immediate action to address opioid use and substance

use disorders by allowing these disorders, along with withdrawal symptoms resulting from treatment of those conditions, to be treated with the medical use of cannabis.

Accordingly, your Committee on Conference has amended this measure by:

- (1) Reverting to the S.D. 1 version, which amends the definition of “debilitating medical condition”, as used in the medical use of cannabis law, to include opioid use disorders, substance use disorders, and withdrawal symptoms resulting from the treatment of those conditions; and
- (2) Making it effective upon approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2407, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2407, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Baker, Espero and Nishihara.
Managers on the part of the Senate.
Ayes, 2. Noes, none. Excused, 1 (Nishihara).

Representatives Mizuno, San Buenaventura, Takumi and Tupola.
Managers on the part of the House.
Ayes, 3. Noes, none. Excused, 1 (Tupola).

Conf. Com. Rep. 13-18 on S.B. No. 2488

The purpose of this measure is to establish the medical cannabis insurance reimbursement working group to address reimbursement by health insurance for medical cannabis for qualifying patients.

Your Committee on Conference finds that Act 230, Session Laws of Hawaii 2016, established a legislative oversight group, which is responsible for developing and recommending legislation to improve the state medical cannabis dispensary system to ensure that qualifying patients have safe and legal access to cannabis. Due to the complexity of the issues surrounding health insurance reimbursement for medical cannabis, your Committee on Conference further finds that the establishment of a separate, more narrowly focused working group, dedicated to tackling the difficult issues raised by health insurance reimbursement for medical cannabis, and to be assisted by the Legislative Research Bureau, is necessary.

Your Committee on Conference has amended this measure by:

- (1) Clarifying that the Legislative Research Bureau shall provide assistance to the working group, including research and drafting assistance; and
- (2) Making it effective upon approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2488, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2488, S.D. 2, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Baker, English and Espero.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, none.

Representatives Mizuno, Takumi, Kobayashi and Tupola.
Managers on the part of the House.
Ayes, 3. Noes, none. Excused, 1 (Takumi).

Conf. Com. Rep. 14-18 on S.B. No. 202

The purpose of this measure is to:

- (1) Establish specific quorum and voting requirements for service area boards on mental health and substance abuse; and
- (2) Specify that service area boards on mental health and substance abuse shall fall within the Department of Health for administrative purposes.

Your Committee on Conference finds that it is important that service area boards on mental health and substance abuse are able to deliberate and make decisions on issues affecting each county. Your Committee on Conference further finds that many of the service area boards face challenges holding meetings due to lack of quorum and that defining quorum based on the number of currently appointed members, instead of based on the number of members to which each board is entitled, will better enable service area boards to meet quorum requirements.

Your Committee on Conference has amended this measure by inserting an effective date of July 1, 2018.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 202, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 202, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Baker, Chang and Nishihara.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, none.

Representatives Mizuno, San Buenaventura and Tupola.
Managers on the part of the House.
Ayes, 2. Noes, none. Excused, 1 (Tupola).

Conf. Com. Rep. 15-18 on S.B. No. 203

The purpose of this measure is to:

- (1) Establish specific membership, quorum, and voting requirements for the State Council on Mental Health; and
- (2) Specify that the State Council on Mental Health shall fall within the Department of Health for administrative purposes.

Your Committee on Conference finds that the State Council on Mental Health must be able to deliberate and make decisions on issues affecting persons in the community who live with mental illness. Your Committee on Conference further finds that the Council was unable to meet twice during fiscal year 2017 due to lack of quorum. Your Committee on Conference further finds that defining quorum based on the number of currently appointed members, instead of based on the number of members to which the Council is entitled, will better enable the Council to meet quorum requirements.

Your Committee on Conference has amended this measure by making it effective upon approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 203, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 203, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Baker, Chang and Nishihara.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, none.

Representatives Mizuno, San Buenaventura and Tupola.
Managers on the part of the House.
Ayes, 2. Noes, none. Excused, 1 (Tupola).

Conf. Com. Rep. 16-18 on S.B. No. 2247

The purpose of this measure is to authorize pharmacists to prescribe and dispense opioid antagonists to:

- (1) An individual who is a risk for an opioid overdose; or
- (2) A family member or caregiver of an individual who is at risk of an opioid overdose,

regardless of whether the individual has evidence of a previous prescription for an opioid antagonist from a practitioner authorized to prescribe opioids and without the need for a written, approved collaborative agreement.

Your Committee on Conference finds that the nationwide opioid epidemic continues to result in an alarming number of opioid overdose related deaths. Your Committee on Conference further finds that these deaths are often preventable via timely administration of an opioid antagonist, such as naloxone. Your Committee on Conference also finds that pharmacists are well-situated to provide education about and access to opioid antagonists. Your Committee on Conference also notes that this measure addresses objectives outlined in the Hawaii Opioid Action Plan pertaining to prevention and pharmacy-based interventions.

Your Committee on Conference has amended this measure by:

- (1) Reverting to language used in the S.D. 1 version to allow opioid antagonists to be prescribed and dispensed in the name of the individual who is to be treated or an "Opioid Antagonist Recipient" or "OAR";
- (2) Making it effective upon approval; and
- (3) Removing the sunset date.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2247, S.D. 1, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2247, S.D. 1, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Baker, Chang and Tokuda.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, none.

Representatives Mizuno, Takumi, Ichiyama and Tupola.
Managers on the part of the House.
Ayes, 3. Noes, none. Excused, 1 (Tupola).

Conf. Com. Rep. 17-18 on S.B. No. 2258

The purpose of this measure is to:

- (1) Clarify that the licensing requirements for hearing aid dealers and fitters shall not apply to audiologists licensed pursuant to chapter 468E, Hawaii Revised Statutes; and
- (2) Clarify that to be eligible for licensure as an audiologist, a person shall not be required to also be licensed as a hearing aid dealer and fitter under chapter 451A, Hawaii Revised Statutes.

Your Committee on Conference finds that under existing law, audiologists must be licensed as an audiologist under chapter 468E, Hawaii Revised Statutes, and as a hearing aid dealer and fitter under chapter 451A, Hawaii Revised Statutes. However, this dual licensure requirement is redundant and burdensome for audiologists, as licensed audiologists must complete a rigorous academic study and clinical training that far exceeds the education and training requirements for hearing aid dealers and fitters and pass a licensure examination that tests items that are equivalent to or higher than the test items on the hearing aid dealers and fitters licensure examination.

Your Committee on Conference further finds that because audiologist licensing requirements surpass the requirements for licensure as a hearing aid dealer and fitter, not requiring audiologists to hold a second license as a hearing aid dealer and fitter will not result in consumer harm. This measure therefore clarifies that licensed audiologists are not required to also be licensed as a hearing aid dealer and fitter to practice in the State.

Your Committee on Conference has amended this measure by changing its effective date to upon approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2258, S.D. 1, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2258, S.D. 1, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Managers on the part of the House.
Ayes, 4. Noes, none. Excused, 1 (Ito).

Conf. Com. Rep. 18-18 on S.B. No. 2799

The purpose of this measure is to clarify the scope of practice for licensed dental hygienists practicing in a public health setting.

Your Committee on Conference finds that oral health is a critical component of a person's general health and well-being. Poor oral health can adversely affect a person's overall health and negatively impact a person's ability to eat, speak, learn, work, and communicate. Improving oral health in the State involves many key strategies, including preventative dental care, which emphasizes the importance of ongoing hygiene procedures and daily practices to prevent tooth decay and other dental diseases and conditions.

Your Committee on Conference further finds that this measure increases accessibility of preventative dental care by expanding the public health settings in which dental hygienists may provide care and broadening the services that can be performed by licensed dental hygienists in public health settings, while also holding the supervising licensed dentist responsible for procedures performed by the dental hygienist. This measure therefore reduces barriers to oral health care and supports and promotes expanded access to dental services for underserved and vulnerable populations in public health settings.

Your Committee on Conference has amended this measure by changing its effective date to July 1, 2018.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2799, S.D. 1, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2799, S.D. 1, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Baker, Chang and Tokuda.
Managers on the part of the Senate.
Ayes, 2. Noes, none. Excused, 1 (Tokuda).

Representatives Mizuno, Ohno, Kobayashi, Tokioka and Tupola.
Managers on the part of the House.
Ayes, 3. Noes, none. Excused, 2 (Tokioka, Tupola).

Conf. Com. Rep. 19-18 on S.B. No. 2340

The purpose of this measure is to ensure certain benefits under the federal Patient Protection and Affordable Care Act of 2010 (Affordable Care Act) are preserved under Hawaii law, including:

- (1) Extending dependent coverage for adult children up to twenty-six years of age;
- (2) Prohibiting health insurance entities from imposing a preexisting condition exclusion; and
- (3) Prohibiting health insurance entities from using an individual's gender to determine premiums or contributions.

Your Committee on Conference finds that the Affordable Care Act has resulted in an estimated 20,000,000 Americans gaining health insurance coverage, while nationwide, the rate of uninsured Americans has decreased by nearly forty percent or more for every income group. Your Committee on Conference further finds that in addition to expanding coverage and improving medical care among young

adults and low-income adults, the Affordable Care Act also established important protections for all Americans, in particular women and individuals with pre-existing conditions.

However, your Committee on Conference notes that the future of the Affordable Care Act remains uncertain. This measure therefore ensures that certain benefits established by the Affordable Care Act, and which may not otherwise be available under the Hawaii Prepaid Health Care Act, including extending dependent coverage for adult children up to twenty-six years of age, preventing denial of coverage for preexisting conditions, and prohibiting health insurance entities from using a person's gender when determining premiums or contributions, remain available for Hawaii residents.

Your Committee on Conference has amended this measure by:

- (1) Removing as unnecessary language that would have provided an exclusion for limited benefit health insurance, as existing law already specifies that the benefits extended by this measure do not apply to limited benefit health insurance;
- (2) Changing its effective date to upon approval; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2340, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2340, S.D. 2, H.D. 1, C.D. 1.

Conf. Com. Rep. 20-18 on H.B. No. 2033

The purpose of this measure is to authorize service of summons on nonresident property owners for actions involving the real property owned by the nonresident through a summons mailed to the mailing address on record with the real property tax office in the county in which the property is located.

Your Committee on Conference has amended this measure by changing its effective date to July 1, 2018.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 2033, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 2033, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Taniguchi, Kim and Rhoads.
Managers on the part of the Senate.
Ayes, 2. Noes, none. Excused, 1 (Rhoads).

Representatives Takumi, San Buenaventura and McDermott.

Ayes, 2. Noes, none. Excused, 1 (McDermott).

Conf. Com. Rep. 21-18 on H.B. No. 1602

The purpose of this measure is to require:

- (1) The inclusion of a label warning of the risks of addiction and overdose on the packaging of any opioid drug dispensed by a health care professional or pharmacist; and
- (2) A health care professional or pharmacist to include the warning in an acknowledgment signed by the patient or person receiving the opioid drug for the patient.

Your Committee on Conference has amended this measure by:

- (1) Placing the new section in Chapter 329, Uniform Controlled Substances Act, instead of Chapter 329E, Overdose Prevention and Emergency Response Act;
- (2) Changing the proposed warning to read, "Caution: Opioid. Risk of overdose and addiction.";
- (3) Removing the requirement for health care professionals and pharmacists to provide a written acknowledgment signed by the health care professional or pharmacist, and the patient or person receiving the opioid drug for the patient, prior to dispensing of the opioid drug;
- (4) Changing the effective date to upon approval; provided that the warning label requirement is implemented commencing August 1, 2018; and
- (5) Making technical, nonsubstantive amendments for the purpose of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1602, H.D. 2, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1602, H.D. 2, S.D. 1, C.D. 1.

Conf. Com. Rep. 22-18 on H.B. No. 1716

The purpose and intent of this measure is to:

- (1) Establish a Youth Commission within the Office of Youth Services to advise the Governor and Legislature on policies affecting youth in the State; and
- (2) Appropriate funds to the Office of Youth Services to staff and administer the Youth Commission.

Your Committee on Conference has amended this measure by:

- (1) Specifying an appropriation amount of \$81,416 for fiscal year 2018-2019 for one staff position and administrative expenses of the Youth Commission; and
- (2) Changing the effective date to July 1, 2018.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1716, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1716, H.D. 1, S.D. 1, C.D. 1.

Conf. Com. Rep. 24-18 on H.B. No. 694

The purpose and intent of this measure is to:

- (1) Establish and appropriate funds for the Health Analytics Program, including four full-time equivalent (4.0 FTE) positions, within the Med-QUEST Division of the Department of Human Services; and
- (2) Authorize the Health Analytics Program to maintain healthcare related data, including an all-payers medical claims database, and an encompassing data center to collect and analyze healthcare data for the benefit of consumers, providers, purchasers, and policy-makers.

Your Committee on Conference has amended this measure by:

- (1) Specifying a general fund appropriation of \$703,980 for the establishment and operation of the Health Analytics Program, including 1.2 full-time equivalent (FTE) positions, within the Med-QUEST Division of the Department of Human Services;

- (2) Specifying a federal fund appropriation of \$495,120 for the Health Analytics Program, including a 0.8 FTE position within the Med-QUEST Division of the Department of Human Services;
- (3) Changing the effective date to July 1, 2018; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 694, H.D. 2, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 694, H.D. 2, S.D. 1, C.D. 1.

Conf. Com. Rep. 27-18 on H.B. No. 2169

The purpose of this measure is to appropriate funds to the Department of Health to support youth suicide early intervention, prevention, and education initiatives in Maui County.

Your Committee on Conference has amended this measure by:

- (1) Specifying the appropriation amount to be \$25,000; and
- (2) Changing its effective date to July 1, 2018.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 2169, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 2169, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Baker, Kidani and Nishihara.

Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, none.

Representatives Mizuno, Kobayashi, Learmont and Tupola.
Managers on the part of the House.
Ayes, 3. Noes, none. Excused, 1 (Tupola).

Conf. Com. Rep. 28-18 on S.B. No. 2519

The purpose of this measure is to authorize the Agribusiness Development Corporation to enter into contracts with private businesses to remove select municipal solid waste, glass, and food and green waste from the waste stream for use in other business sectors, including agriculture, construction, and energy production.

Your Committee on Conference finds that as the State's economy continues to grow, it is critical that innovative processes are applied to the recycling sector to reduce the pressure on the State's environment and to capture as much value as possible to support local business sectors. The Agribusiness Development Corporation, in its role of developing agriculture initiatives, is uniquely positioned to implement existing and emerging technology toward the goal of optimizing value from waste streams for agricultural uses. Your Committee on Conference finds that reducing solid waste and reusing municipal solid waste, glass, and food and green waste is something all sectors of the government should be championing.

Your Committee on Conference has amended this measure by:

- (1) Changing the effective date to upon approval; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2519, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2519, S.D. 2, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Gabbard, Keith-Agaran and Nishihara.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, none.

Representatives Lee, Creagan, Cullen, Lowen and Matsumoto.
Managers on the part of the House.
Ayes, 5. Noes, none. Excused, none.

Conf. Com. Rep. 29-18 on S.B. No. 2766

The purpose of this measure is to reduce and control the unfunded liability of the Employee's Retirement System (ERS) and to prevent future retirement contribution increases by clarifying that accidental death and service-related disability benefits are limited to members who are employed in a position in which all contributions were made as required by the laws relating to the ERS.

Your Committee on Conference finds that as a trust fund, ERS assets are for the exclusive benefit of its members and beneficiaries. The Supreme Court of Hawaii issued a memorandum of opinion on July 10, 2017, on an appeal of a decision by the ERS Medical Board. The Court found that section 88-21, Hawaii Revised Statutes, defines "service" to include any "service as an employee paid by the State or county", and found additional language that indicates that "connected" service includes non-ERS-membership state or county service, as long as the member makes ERS contributions during the non-ERS-membership state or county service. Separately defined is "membership service" as "all service rendered by a member for which the member had made the required contributions to the system". The Court made the distinction between "service" and "membership service" and noted that section 88-79, Hawaii Revised Statutes, provides for "service-connected disability retirement" and not "membership service-connected disability retirement". Based on this opinion, it may be construed that "service" includes persons working in governmental functions paid by the State or a county who are not members of the ERS. This measure clarifies that benefits related to service-connected disability and accidental death benefits are limited to members who are beneficiaries of the trust.

Your Committee on Conference has amended this measure by changing the effective date to upon approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2766, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2766, S.D. 2, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Tokuda, Keith-Agaran and Chang.
Managers on the part of the Senate.
Ayes, 2. Noes, none. Excused, 1 (Chang).

Representatives Johanson, Holt and Matsumoto.
Managers on the part of the House.
Ayes, 3. Noes, none. Excused, none.

Conf. Com. Rep. 30-18 on S.B. No. 2767

The purpose of this measure is to repeal certain provisions relating to a member's purchase of additional service credits by pre-tax contributions to ensure that the Employees' Retirement System maintains its status as a tax-qualified retirement plan under the Internal Revenue Code.

Your Committee on Conference finds that the Employees' Retirement System is intended to be a tax-qualified retirement plan under section 401(a) of the Internal Revenue Code. Your Committee on Conference also finds that Act 86, Session Laws of Hawaii 2015, prospectively changes the cost to purchase membership service after June 30, 2020. However, the Employees' Retirement System tax counsel has concluded that the change in purchase cost allows for greater pre-tax retirement contributions than had been approved by the Internal Revenue Service. Your Committee on Conference further finds that this measure makes amendments necessary to maintain the tax-qualified status of the Employees' Retirement System.

Your Committee on Conference has amended this measure by changing the effective date to upon approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2767, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2767, S.D. 2, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Tokuda, Keith-Agaran and Chang.
Managers on the part of the Senate.
Ayes, 2. Noes, none. Excused, 1 (Chang).

Representatives Johanson, Holt and Matsumoto.
Managers on the part of the House.
Ayes, 3. Noes, none. Excused, none.

Conf. Com. Rep. 31-18 on S.B. No. 2487

The purpose of this measure is to:

- (1) Amend the definition of "quality assurance committee" to make it consistent throughout the Hawaii Revised Statutes (HRS) for the purpose of liability protection; and
- (2) Allow for the establishment of a quality assurance committee outside of a single health plan or hospital.

Your Committee on Conference finds that while quality assurance committees are an important and established part of the healthcare delivery system, the term "quality assurance committee" has two separate, inconsistent definitions in the HRS. One definition applies to chapter 624, HRS, relating to depositions and discovery, while the other definition applies to chapter 663, HRS, relating to tort actions. Further, quality assurance committees established under chapter 624, HRS, may be established outside of a single health plan or hospital, whereas quality assurance committees established under chapter 663, HRS, may not. Your Committee on Conference finds that this measure will correct this inconsistency and provide quality assurance committees established under chapters 624 and 663, HRS, with the same confidentiality and liability protections.

Your Committee on Conference has amended this measure by making it effective upon approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2487, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2487, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Baker, Green and Chang.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, none.

Representatives Mizuno, Takumi, Cullen and Tupola.
Managers on the part of the House.
Ayes, 3. Noes, none. Excused, 1 (Tupola).

Conf. Com. Rep. 32-18 on S.B. No. 2945

The purpose of this measure is to eliminate the requirement that the applicant for a liquor license or renewal of a license, or in the case of transfer of a liquor license, both the transferor and the transferee, produce either a tax clearance certificate from the Internal Revenue Service or proof of entering into an installment plan agreement with the Internal Revenue Service.

Your Committee on Conference finds that under existing law, all liquor license applicants and those renewing their licenses are required to submit tax clearances from the Hawaii Department of Taxation and the Internal Revenue Service. Your Committee on Conference further finds that the Internal Revenue Service has faced increasing budgetary and resource challenges over the past few years, which has resulted in the decrease of Internal Revenue Service offices, personnel, and operating hours in Hawaii. Consequently, liquor licensees and applicants throughout the State have experienced increasing difficulties obtaining the necessary tax clearance from the Internal Revenue Service, with some licensees experiencing breaks in service due to the inability of the Internal Revenue Service to accommodate required face-to-face appointments with licensees. This measure therefore removes the requirement for liquor licensees and applicants and transferors or transferees to obtain a tax clearance from the Internal Revenue Service, which will eliminate the undue hardships, costs, and delays currently experienced by many liquor licensees and applicants.

Your Committee on Conference has amended this measure by changing its effective date to July 1, 2018.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2945, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2945, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Baker, Chang and Nishihara.
Managers on the part of the Senate.
Ayes, 2. Noes, none. Excused, 1 (Nishihara).

Representatives Takumi, Luke, Cullen and McDermott.
Managers on the part of the House.
Ayes, 3. Noes, none. Excused, 1 (McDermott).

Conf. Com. Rep. 33-18 on S.B. No. 208

The purpose of this measure is to:

- (1) Adopt the National Conference of Insurance Legislators' Model Unclaimed Life Insurance Benefits Act, which requires life insurers to conduct database searches using the federal Social Security Administration's Death Master File or similar database to determine whether an insured has died;
- (2) Require life insurers to use good faith efforts to locate any beneficiaries to a policy, contract, or retained asset account; and
- (3) Authorize the Insurance Commissioner to use discretion to limit, exempt, or phase-in compliance with requirements under certain circumstances.

Your Committee on Conference finds that the National Conference of Insurance Legislators' Model Unclaimed Life Insurance Benefits Act provides a foundation for insurers to use the Social Security Administration Death Master File to obtain notice of death of an insured in the absence of a claim and search for beneficiaries within ninety days. Your Committee on Conference further finds that this measure establishes requirements, based on a national standard of consumer protection, for locating life insurance beneficiaries and enables timely compliance by all life insurers for consumers in the State.

Your Committee on Conference has amended this measure by:

- (1) Clarifying that failure to meet any requirements with such frequency as to constitute a general business practice shall constitute an unfair or deceptive act or practice under Article 13 of the Insurance Code, rather than making a single violation an unfair or deceptive act or practice; and
- (2) Changing its effective date to upon approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 208, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 208, S.D. 2, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Baker, Espero and Nishihara.
Managers on the part of the Senate.
Ayes, 2. Noes, none. Excused, 1 (Nishihara).

Representatives Takumi, Luke, Cullen and McDermott.
Managers on the part of the House.
Ayes, 3. Noes, none. Excused, 1 (McDermott).

Conf. Com. Rep. 34-18 on S.B. No. 2490

The purpose of this measure is to:

- (1) Specify certain recall reimbursement or repair requirements for manufacturers where a stop-sale order has been issued;
- (2) Authorize a license holder to engage in business at motor vehicle dealer locations that are affiliated by common ownership under the same license;
- (3) Clarify when certain manufacturers' or distributors' sales or service performance standards shall be deemed unreasonable, arbitrary, or unfair; and
- (4) Prohibit a manufacturer or distributor from requiring a dealer to perform certain construction or renovations to the dealer's facilities; purchase items for a dealership facility in certain circumstances; or provide certain consumer and proprietary data, unless certain conditions are met.

Your Committee on Conference finds that this measure modernizes the State's motor vehicle industry licensing laws by: specifying recall reimbursement or repair requirements for manufacturers where a stop-sale order has been issued; allowing a licensed motor vehicle dealer to engage in business at multiple locations affiliated by common ownership within the same county; and clarifying the rights and obligations of dealers, manufacturers, and distributors with respect to improvements and upgrades on dealers' facilities, dealers' sales and service performance standards, and access to dealers' consumer and proprietary data.

Your Committee on Conference has amended this measure by:

- (1) Clarifying that the applicability of certain recall reimbursement and repair requirements includes those used vehicles taken into the used vehicle inventory of a dealer as a result of a consumer trade-in incident to the purchase of a certified pre-owned used vehicle;
- (2) Specifying that for purposes of determining eligibility for recall repairs, a manufacturer may direct the manner and method in which a dealer demonstrates the inventory status of an affected used motor vehicle; provided that the manner and method and information requested is not unduly burdensome;

- (3) Clarifying the requirements associated with improvements to a dealer's facilities, including:
 - (A) Clarifying the obligations of a manufacturer or distributor when a dealer chooses not to make facility improvements or technological upgrades, rather than specifying when a dealer is not eligible for facility-related incentives or benefits;
 - (B) Clarifying the term "substantial alteration";
 - (C) Clarifying the requirements for an incentive program under which a dealer completes a facility construction, renovation, or substantial alteration; and
 - (D) Clarifying when dealer eligibility for facility-related incentives does not apply;
- (4) Clarifying performance standard requirements when determining a dealer's compliance with a franchise agreement;
- (5) Specifying that a manufacturer or distributor is permitted to require a dealer to provide consumer data and propriety data that pertains to analytics or for reasonable marketing purposes for the benefit of the providing dealer;
- (6) Changing its effective date to July 1, 2018; and
- (7) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2490, S.D. 1, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2490, S.D. 1, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Baker, Nishihara and Tokuda.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, none.

Representatives Aquino, Takumi, Cullen and McDermott.
Managers on the part of the House.
Ayes, 3. Noes, none. Excused, 1 (McDermott).

Conf. Com. Rep. 35-18 on S.B. No. 2783

The purpose of this measure is to align the Hawaii Public Housing Authority's prohibition on smoking law with the smoke-free policy of the United States Department of Housing and Urban Development (HUD). Specifically, this measure increases, from twenty to twenty-five feet:

- (1) The smoke-free zone around certain areas and buildings, including administrative office buildings, of any public housing project, elder or elderly housing, or state low-income housing project; and
- (2) The minimum setback for designated smoking areas.

Your Committee on Conference finds that secondhand smoke contains more than seven thousand chemicals, hundreds of which are toxic, and approximately seventy of which can cause cancer, and that exposure to thirdhand smoke, which is residual nicotine and other chemicals left on indoor surfaces by tobacco smoke, may also pose health threats, especially to infants and young children who may mouth and touch affected objects and surfaces. Your Committee on Conference finds that, accordingly, HUD instituted its final rule, effective February 3, 2017, requiring public housing agencies to implement a smoke-free policy by July 30, 2018, that establishes a twenty-five foot smoke-free radius around public housing units and administrative office buildings. Your Committee on Conference finds that this measure may help protect residents of public housing and others in the vicinity of public housing administrative buildings from secondhand and thirdhand smoke and will bring Hawaii statutes into conformity with HUD's smoke-free policy.

Your Committee on Conference has amended this measure by making it effective upon approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2783, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2783, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Baker, Espero, Chang, Ihara and Tokuda.
Managers on the part of the Senate.
Ayes, 5. Noes, none. Excused, none.

Representatives Brower, San Buenaventura, Takayama and Thielen.
Managers on the part of the House.
Ayes, 3. Noes, none. Excused, 1 (Thielen).

Conf. Com. Rep. 36-18 on S.B. No. 2567

The purpose of this measure is to:

- (1) Establish a Cesspool Conversion Working Group (Working Group) within the Department of Health (DOH) to develop a comprehensive plan for cesspool conversion statewide by 2050;
- (2) Commission and appropriate funds for the University of Hawaii (UH) Water Resources Research Center, in cooperation with DOH, to perform a statewide study of sewage contamination in nearshore marine areas; and

- (3) Appropriate funds to DOH to conduct research or gather technical assistance on other issues as identified by the Working Group in completing its comprehensive cesspool conversion plan.

Your Committee on Conference finds that drinking water, public recreation, and the precious coral reefs, on which Hawaii's economy, shoreline, recreation, fisheries, and native species depend, has been impaired by cesspool pollution and are in imminent damage of further damage. Your Committee on Conference further finds that costs, terrain, and other geologic and geographic factors complicate the upgrading or conversion of cesspools in many areas of the State. Your Committee on Conference therefore finds that it is best to convene a Working Group representative of various stakeholders to address this complex issue.

Your Committee on Conference has amended this measure by:

- (1) Clarifying the objectives of the Working Group;
- (2) Deleting the fifteen-year time frame the Working Group would have considered in making recommendations for the DOH to ensure cesspool conversions;
- (3) Revising the membership of the Working Group;
- (4) Allowing the Working Group to contract for services to establish a cesspool conversion plan and exempting the contract from the Hawaii Public Procurement Code;
- (5) Updating the preamble;
- (6) Inserting an appropriation amount of \$500,000 for the UH Water Resources Research Center, in cooperation with DOH, to perform a statewide study of sewage contamination in nearshore marine areas;
- (7) Inserting an appropriation amount of \$1,000,000 for the DOH to conduct research or gather technical assistance on other issues as identified by the Working Group in completing its comprehensive cesspool conversion plan;
- (8) Changing the effective date to July 1, 2018; and
- (9) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2567, S.D. 2, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2567, S.D. 2, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Gabbard, Baker, English and Riviere.

Managers on the part of the Senate.

Ayes, 4. Noes, none. Excused, none.

Representatives Lee, Mizuno, Lowen, Keohokalole and McDermott.

Managers on the part of the House.

Ayes, 3. Noes, none. Excused, 2 (Mizuno, McDermott).

Conf. Com. Rep. 37-18 on H.B. No. 2748

The purpose of this measure is to require, and appropriate funds to, the Hawaii Housing Finance and Development Corporation to study housing waitlists in the State and in each county to gain a better understanding of the current and future demand for and supply of affordable housing suitable for individuals with access and functional needs.

Your Committee on Conference finds that the State needs a comprehensive housing measure that takes a momentous step forward in addressing the statewide affordable rental housing crisis. Your Committee further finds that increasing the available funding in the Rental Housing Revolving Fund and Dwelling Unit Revolving Fund, expanding the general excise tax exemption for the construction of affordable rental units, and studying the current and future needs for rental housing are policies to proactively address Hawaii's housing crisis.

In addition, your Committee finds that:

- (1) The Rental Housing Revolving Fund provides equity gap low-interest loans or grants to qualified owners and developers for the development, pre-development, construction, acquisition, or preservation of affordable rental housing. The appropriation contained in this measure will more than double the Revolving Fund's capacity to provide low-income and working families with quality affordable housing;
- (2) The Dwelling Unit Revolving Fund provides interim construction financing of affordable housing projects, including construction of community facilities and necessary infrastructure to support housing development, and mitigates the cost to the State of housing development;
- (3) An expansion of the general excise tax exemption for construction of affordable rental units will spur the creation of more affordable housing and is expected to result in the construction of 24,000 new affordable rental units; and
- (4) An assessment of housing needs for persons with low or no income and functional barriers to successfully maintain stable housing will allow policy makers to make informed policy decisions in the creation of appropriate affordable housing and provision of supportive services.

Accordingly, your Committee on Conference has amended this measure by:

- (1) Appropriating \$200,000,000 into the Rental Housing Revolving Fund;

- (2) Appropriating \$10,000,000 into the Dwelling Unit Revolving Fund;
- (3) Increasing the aggregate available amount of the general excise tax exemption for costs of developing affordable rental housing from \$7,000,000 per year to \$30,000,000 per year, and extending availability of the exemption for an additional eight years to 2030; and
- (4) Appropriating \$50,000 to the Hawaii Housing Finance and Development Corporation to prepare an assessment of housing needs for persons with significant access and functional barriers and available supportive services.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 2748, H.D. 2, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 2748, H.D. 2, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Managers on the part of the House.
Ayes, 6. Noes, none. Excused, 1 (McDermott).

Conf. Com. Rep. 38-18 on H.B. No. 2359

The purpose of this measure is to:

- (1) Specify the areas in a public housing project, elder or elderly housing, or state low-income housing project that are closed to the public and signage requirements for these areas; and
- (2) Clarify that a person commits criminal trespass in the second degree if the person enters or remains:
 - (A) Unlawfully in areas of a housing project that are closed to the public; or
 - (B) In violation of a written warning or request to leave the housing project.

Your Committee on Conference has amended this measure to make it effective upon its approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 2359, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 2359, H.D. 1, S.D. 1, C.D. 1.

Conf. Com. Rep. 39-18 on H.B. No. 1876

The purpose of this measure is to allow motor vehicle insurers to satisfy the requirement that insurers provide a complete sales and claims office in the State by allowing the insurer's licensed producer to establish and maintain a sales and claims office on every island the insurer does business.

Your Committee has amended this measure by:

- (1) Clarifying that licensed producers of a motor vehicle insurer that establish and maintain an office in every county, rather than on every island, the insurer does business meet the requirement for an insurer to provide a complete sales and claims office in the State; and
- (2) Changing its effective date to July 1, 2018.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1876, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1876, H.D. 1, S.D. 1, C.D. 1.

Conf. Com. Rep. 40-18 on H.B. No. 1874

The purpose of this measure is to encourage alternative dispute resolution by, temporarily, until June 30, 2023:

- (1) Expanding the scope of the Condominium Education Trust Fund to cover voluntary binding arbitration; and
- (2) Amending the conditions that mandate mediation and exceptions to mandatory mediation for condominium related disputes.

Your Committee on Conference has amended this measure by:

- (1) Changing its effective date to January 2, 2019;
- (2) Specifying that sections 514B-71(a), 514B-72(a), and 514B-161, Hawaii Revised Statutes, shall be reenacted in the form in which they read on January 1, 2019, upon this measure's repeal on June 30, 2023; and
- (3) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1874, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1874, H.D. 1, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Baker, Kidani and Nishihara.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, none.

Managers on the part of the House.
Ayes, 3. Noes, none. Excused, 1 (McDermott).

Conf. Com. Rep. 41-18 on H.B. No. 1873

The purpose of this measure is to clarify the effect of a payment plan to resolve a nonjudicial foreclosure, including payment obligations, mediation requirements, and triggers for further default. This measure further clarifies the procedures for disputing common expense assessments and disputing penalties or fines, late fees, legal fees, lien filing fees, or other charges.

Your Committee on Conference has amended this measure by:

- (1) Inserting a sunset date of June 30, 2020; and
- (2) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1873, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1873, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Baker, Ihara and Ruderman.

Managers on the part of the House.
Ayes, 3. Noes, none. Excused, 1 (McDermott).

Conf. Com. Rep. 42-18 on H.B. No. 1621

The purpose of this measure is to increase consumer protections by:

- (1) Prohibiting a merchant from charging a purchaser any fee, including a processing fee or an administrative fee, to repair, replace, or refund damaged or defective goods; and
- (2) Requiring restaurant franchisees to disclose their non-participation in promotions or discounts under a national advertising campaign of the franchise and prohibiting franchisors from limiting or restricting these disclosures.

Your Committee has amended this measure by:

- (1) Specifying that the mandate for disclosure of non-participation in a national advertising campaign only applies to high turnover restaurants that are part of a national chain and feature full sit-down table service by waitstaff;
- (2) Specifying that "high turnover restaurant" does not include a fast food restaurant;
- (3) Inserting a sunset date of July 1, 2023 for the mandate for disclosure of non-participation in a national advertising campaign by high turnover restaurants; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1621, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1621, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Baker, Chang and Tokuda.
Managers on the part of the Senate.
Ayes, 2. Noes, none. Excused, 1 (Chang).

Representatives Takumi, Ichiyama and McDermott.
Managers on the part of the House.
Ayes, 2. Noes, none. Excused, 1 (McDermott).

Conf. Com. Rep. 43-18 on H.B. No. 2003

The purpose of this measure is to clarify that an individual who is subject to driver's license revocation as a penalty for driving while intoxicated may obtain a permit to drive a vehicle that does not have an ignition interlock device solely for purposes of employment based on the actual work hours during which the individual is required to drive, instead of on the length of the individual's scheduled work shift.

Your Committee on Conference has amended this measure by changing its effective date to July 1, 2018.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 2003, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 2003, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Inouye, Taniguchi, Espero and Kim.
Managers on the part of the Senate.
Ayes, 4. Noes, none. Excused, none.

Representatives Aquino, San Buenaventura, Quinlan and McDermott.
Managers on the part of the House.
Ayes, 3. Noes, none. Excused, 1 (McDermott).

Conf. Com. Rep. 44-18 on H.B. No. 2328

The purpose of this measure is to make certain clarifying amendments to Hawaii's affordable housing law. Specifically, the measure clarifies:

- (1) The terms and applicability of the Hawaii Housing Finance and Development Corporation's (HHFDC) authority to exercise or transfer to a qualified nonprofit housing trust the first option to purchase affordable housing units developed with HHFDC's financing or assistance; and
- (2) That Act 159, Session Laws of Hawaii 2017, does not affect rights, duties, and obligations that have matured through a signed contract or disclosure by way of a preliminary offering statement filed with the Real Estate Commission before the Act's effective date.

Your Committee on Conference has amended this measure to make it effective upon approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 2328, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 2328, H.D. 1, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Espero, Shimabukuro and Ruderman.
Managers on the part of the Senate.
Ayes, 2. Noes, none. Excused, 1 (Ruderman).

Representatives Brower, Nakamura, Hashem and McDermott.
Managers on the part of the House.
Ayes, 3. Noes, none. Excused, 1 (McDermott).

Conf. Com. Rep. 45-18 on H.B. No. 2182

The purpose of this measure is to repeal the Carbon Farming Task Force established by Act 33, Session Laws of Hawaii 2017, and permanently establish the Greenhouse Gas Sequestration Task Force, which will examine opportunities to utilize carbon sequestration to protect public health and help align the State's clean energy and carbon sequestration goals with the State's climate goals.

Your Committee on Conference has amended this measure by:

- (1) Requiring the Greenhouse Gas Sequestration Task Force to:
 - (A) Additionally identify appropriate criteria to measure increases in agricultural and aquacultural product yield and quality attributable to greenhouse gas sequestration and improvements in soil health; and
 - (B) Include in its preliminary report to the Legislature types of agricultural and aquacultural practices, public land and marine use policies, and on-farm managing practices and types of incentives, grants, research, and assistance that result in tangible economic benefits to agricultural and aquacultural operations;

- (2) Statutorily establishing a statewide target to sequester more atmospheric carbon and greenhouse gases than emitted within the State as quickly as practicable but no later than 2045, and requiring the Hawaii Climate Change Mitigation and Adaptation Commission to endeavor to achieve the target;
- (3) Requiring that after January 1, 2020, agency plans, decisions, and strategies shall give consideration on their impact on the State's ability to achieve the statewide zero emissions target, weighed appropriately against their primary purpose;
- (4) Inserting an appropriation amount of \$150,000 for fiscal year 2018-2019 to fund the Greenhouse Gas Sequestration Task Force and its related efforts;
- (5) Changing its effective date to July 1, 2018; and
- (6) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 2182, H.D. 2, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 2182, H.D. 2, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Gabbard, Inouye and English.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, none.

Representatives Lee, Lowen, Gates and McDermott.

Managers on the part of the House.

Ayes, 3. Noes, none. Excused, 1 (McDermott).

Conf. Com. Rep. 46-18 on H.B. No. 634

The purpose of this measure is to authorize the issuance of special purpose revenue bonds to the Honolulu Board of Water Supply to upgrade Nuuanu Reservoir #1 to meet state dam safety standards, as part of the Nuuanu Hydroelectricity Project.

Your Committee on Conference has amended this measure by:

- (1) Changing the amount of the special purpose revenue bond authorization to \$4,800,000; and
- (2) Changing its effective date to July 1, 2018.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 634, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 634, H.D. 1, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Inouye, Rhoads and English.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, none.

Representatives Lee, Yamane, Lowen, Kong and McDermott.

Managers on the part of the House.

Ayes, 3. Noes, none. Excused, 2 (Yamane, McDermott).

Conf. Com. Rep. 47-18 on H.B. No. 635

The purpose of this measure is to authorize the issuance of special purpose revenue bonds to the Honolulu Board of Water Supply to upgrade Nuuanu Reservoir #4 to meet state dam safety standards, as part of the Nuuanu Hydroelectricity Project.

Your Committee on Conference has amended this measure by:

- (1) Changing the amount of the special purpose revenue bond authorization to \$6,400,000; and
- (2) Changing its effective date to July 1, 2018.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 635, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 635, H.D. 1, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Inouye, Rhoads and English.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, none.

Representatives Lee, Yamane, Lowen, Kong and McDermott.

Managers on the part of the House.

Ayes, 3. Noes, none. Excused, 2 (Yamane, McDermott).

Conf. Com. Rep. 48-18 on H.B. No. 2025

The purpose of this measure is to:

- (1) Authorize the Department of Education (DOE) to issue grants and appropriate funds to establish a Composting Grant Pilot Project in DOE schools; and
- (2) Authorize the establishment of a Composting Grant Pilot Project Working Group to develop guidelines and provide oversight for campus composting in conjunction with the Department of Health.

Your Committee on Conference has amended this measure by:

- (1) Specifying that \$300,000 be appropriated to establish and implement the Composting Grant Pilot Project; and
- (2) Changing its effective date to July 1, 2018.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 2025, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 2025, H.D. 1, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Kidani, Gabbard and Kahele.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, none.

Representatives Lee, Woodson, Lowen and McDermott.
Managers on the part of the House.
Ayes, 3. Noes, none. Excused, 1 (McDermott).

Conf. Com. Rep. 49-18 on S.B. No. 2298

The purpose of this measure is to incentivize volunteer preceptors who offer professional instruction, training, and supervision to students and residents seeking careers as healthcare providers by:

- (1) Providing a tax credit to volunteer preceptors; and
- (2) Establishing a Preceptor Credit Assurance Committee to develop and implement the allocation and distribution of certifications for the tax credit.

Your Committee on Conference finds that there is a shortage of primary care providers in the State which will be exacerbated by the projected retirements of current physicians, advanced practice registered nurses, and pharmacists. Your Committee on Conference further finds that although students are interested in pursuing careers in the healthcare service industry in Hawaii, in-state educational institutions are constrained by the lack of clinical education sites in Hawaii and the limited supply of qualified primary care preceptors. Your Committee on Conference further finds that one way to encourage participation of preceptors is to offer a tax credit for professionals who serve as preceptors.

However, your Committee on Conference also notes that the costs of this program may be high and uncertain. Accordingly, your Committee on Conference finds it prudent to offer the tax credit only to those primary care practitioners serving as preceptors for advanced practice registered nursing students, medical students, and pharmacy students at this time, limit the annual aggregate amount of tax credits that may be awarded to \$1,500,000, evaluate the effectiveness and cost of the tax credit, and then determine whether the tax credit should be expanded to preceptors for other valuable health care professions.

Your Committee on Conference has amended this measure by:

- (1) Reverting to the S.D. 2 version, which:
 - (A) Provides to healthcare professionals who volunteer as preceptors for advanced practice registered nursing students, medical students, and pharmacy students a tax credit of \$1,000 per rotation, up to a maximum of \$5,000 per taxable year, with an annual aggregate tax credit cap of \$2,000,000;
 - (B) Creates a Preceptor Credit Assurance Committee within the Department of Health to implement the tax credit program and certify the tax credit; and
 - (C) Requires the Department of Health to evaluate the efficacy of the tax credit and submit a report to the Legislature no later than June 30, 2024; and
- (2) Further amending this measure by:
 - (A) Deleting the requirement that eligible students be residents of Hawaii and deleting the definition of “resident of Hawaii”;
 - (B) Amending the definition of “primary care”; and
 - (C) Decreasing the annual aggregate amount of tax credits that may be certified in a taxable year to \$1,500,000.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2298, S.D. 2, H.D. 3, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2298, S.D. 2, H.D. 3, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Baker, English, Nishihara, Ruderman and Tokuda.
Managers on the part of the Senate.
Ayes, 5. Noes, none. Excused, none.

Representatives Mizuno, Takumi, Luke, Kobayashi and Tupola.
Managers on the part of the House.
Ayes, 4. Noes, none. Excused, 1 (Tupola).

Conf. Com. Rep. 50-18 on S.B. No. 2053

The purpose of this measure is to make permanent the regulation of athletic trainers under chapter 436H, Hawaii Revised Statutes.

Your Committee on Conference finds that athletic trainers are health care professionals who specialize in the prevention, assessment, treatment, and rehabilitation of injuries and illnesses of athletes. Your Committee on Conference notes that the existing regulatory scheme for athletic trainers is scheduled to sunset on June 30, 2018. A recent report from the Office of the Auditor found that the services an athletic trainer provides may affect the health and safety of athletes, while the proficiencies required by the current regulatory scheme are reasonably necessary to protect athletes under an athletic trainer's care. The Auditor's report also found that the current regulation of athletic trainers does not impose unreasonable restrictions on individuals entering the profession and recommends that the current registration requirement for athletic trainers be extended. This measure therefore makes permanent the regulation of athletic trainers in the interest of public health and safety.

Your Committee on Conference has amended this measure by changing its effective date to June 29, 2018.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2053, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2053, S.D. 1, H.D. 1, C.D. 1.

Conf. Com. Rep. 51-18 on S.B. No. 134

The purpose of this measure is to promote positive health practices and protect University of Hawaii students, employees, and visitors from exposure to secondhand smoke and other potentially harmful substances by prohibiting smoking, including the use of electronic smoking devices, and tobacco use on all University of Hawaii premises.

Your Committee on Conference finds that creating tobacco-free campuses, including prohibitions on the use of electronic smoking devices, is a growing trend in the United States. Your Committee on Conference further finds that establishing a tobacco-free policy on University of Hawaii premises will demonstrate Hawaii's continued commitment to healthy living and learning.

Your Committee on Conference has amended this measure by changing its effective date to upon approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 134, S.D. 1, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 134, S.D. 1, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Baker, Kahele, Taniguchi, Nishihara and Tokuda.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, 2 (Nishihara, Tokuda).

Representatives Mizuno, McKelvey, Nishimoto and Tupola.
Managers on the part of the House.
Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. 52-18 on H.B. No. 2373

The purpose of this measure is to:

- (1) Authorize the Department of Health (Department) to disclose certain vital statistics records to Department program employees for approved research purposes with the approval of the Department's Institutional Review Committee; and
- (2) Establish conditions under which those records may be disclosed with and without informed consent of a person who is the subject of a record.

Your Committee on Conference has amended this measure by changing its effective date to upon approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 2373, H.D. 2, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 2373, H.D. 2, S.D. 1, C.D. 1.

Conf. Com. Rep. 53-18 on H.B. No. 2362

The purpose of this measure is to exempt Department of Human Services' Administrative Appeals Hearing Officer positions from civil service requirements.

Your Committee on Conference has amended this measure by:

- (1) Inserting an effective date of July 1, 2018; and
- (2) Making technical, nonsubstantive amendments for clarity.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 2362, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 2362, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Green, Tokuda, Shimabukuro and Ihara.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, 1 (Tokuda).

Representatives Mizuno, Johanson, Kobayashi, Holt and Tupola.
Managers on the part of the House.
Ayes, 4. Noes, none. Excused, 1 (Tupola).

Conf. Com. Rep. 54-18 on H.B. No. 2204

The purpose of this bill is to require the Department of Human Services, beginning no later than January 1, 2019, to:

- (1) Convene a task force to revise and restructure the welfare payment structure to incentivize qualifying welfare recipients to advance in their careers while retaining their beneficiary status; and
- (2) Reestablish the Exit and Retention Bonus Program to encourage welfare recipients to transition back into the workforce.

Upon consideration, your Committee on Conference has amended this measure by:

- (1) Deleting provisions requiring the Department of Human Services to convene the task force to revise and restructure the welfare payment structure;
- (2) Removing the time frame in which the Department of Human Services is required to reestablish the Exit and Retention Bonus Program;
- (3) Specifying an appropriation amount of \$400,000 for fiscal year 2018-2019 to reestablish the Exit and Retention Bonus Program;
- (4) Changing its effective date to July 1, 2018; and
- (5) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 2204, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 2204, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Green, Tokuda, Shimabukuro and Ihara.
Managers on the part of the Senate.
Ayes, 4. Noes, none. Excused, none.

Representatives Mizuno, Johanson, Kobayashi, Ichiyama and Tupola.
Managers on the part of the House.
Ayes, 5. Noes, none. Excused, none.

Conf. Com. Rep. 55-18 on S.B. No. 2087

The purpose of this measure is to provide civil liability exemptions for:

- (1) Any person who in good faith and without remuneration or expectation of remuneration attempts to rescue a person by using a rescue tube; and
- (2) Owners or operators of any premises, property, or facility adjacent to navigable waters where a rescue tube is located.

Your Committee on Conference finds that promoting the adoption and use of simple, life-saving devices, such as rescue tubes, is essential to protecting public health and welfare. Your Committee on Conference also finds that the strategic placement of rescue tubes throughout the State has led to countless rescues of drowning victims. Your Committee on Conference further finds that rescue tubes are a cost effective and valuable piece of life-saving equipment that are easy for ordinary citizens to use in assisting victims in need. Accordingly, your Committee on Conference finds that the widespread use of these devices should be encouraged. Therefore, your

Committee on Conference finds that the State's Good Samaritan Law should be amended to provide liability protection for owners and operators of a premises, property, or facility adjacent to navigable waters where rescue tubes are located and for citizens who might use these devices to assist in a life-threatening situation.

Your Committee on Conference has amended this measure by changing the effective date to upon approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2087, S.D. 2, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2087, S.D. 2, H.D. 2, C.D. 1.

Conf. Com. Rep. 56-18 on H.B. No. 1850

The purpose of this measure is to amend the offense of promoting pornography for minors by:

- (1) Clarifying that the exemption for guardians only applies to a legal guardian of a minor; and
- (2) Deleting the exemption for other persons in loco parentis to a minor.

Your Committee on Conference has amended this measure by changing its effective date to July 1, 2018.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1850, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1850, H.D. 1, S.D. 1, C.D. 1.

Conf. Com. Rep. 59-18 on H.B. No. 2134

The purpose of this measure is to amend the offense of violation of privacy in the first degree to:

- (1) Prohibit threats to disclose an image or video;
- (2) Specifically include disclosures that are acts of revenge or retribution; and
- (3) Require that any recording or image that is the subject of the offense be sealed and remain confidential.

Your Committee on Conference has amended this measure by:

- (1) Changing its effective date to July 1, 2018; and
- (2) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 2134, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 2134, H.D. 1, S.D. 1, C.D. 1.

Conf. Com. Rep. 62-18 on S.B. No. 2861

The purpose of this measure is to:

- (1) Require the Department of Public Safety to establish performance indicators or measures to be incorporated in reports that evaluate the outcomes of program components as required in Act 8, Special Session Laws of Hawaii 2007, which codified chapter 353G, Hawaii Revised Statutes, the Community Safety Act; and
- (2) Require the Department of Public Safety to submit annual reports of the established performance indicators, criminal offender treatment programs, and programs established pursuant to the Community Safety Act.

Your Committee on Conference finds that effective rehabilitation of incarcerated persons is essential for operating an effective corrections system. To that end, the Legislature passed Act 8, Special Session Laws of Hawaii 2007, which codified chapter 353G, Hawaii Revised Statutes, the Criminal Offender Treatment Act, which established a comprehensive offender reentry system under the purview of the Department of Public Safety. Part of that Act required that the Department submit annual reports relating to the implementation, progress, and effectiveness of the various program components specified in the Act. However, the annual reports submitted by the Department are not required to include information relating to rehabilitation program outcomes. To ensure the effectiveness of and make improvements to the Department's rehabilitation and reentry programs, it is important to track specific performance indicators and evaluate specific data relating to participation in the programs.

Your Committee on Conference has amended this measure by:

- (1) Requiring the Department of Public Safety to submit a report, including all of the key performance indicators provided under chapter 353G, Hawaii Revised Statutes, to the Legislature no later than the first day of December each year, beginning with the period ending on November 30, 2018;
- (2) Changing the effective date to upon approval; and
- (3) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2861, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2861, S.D. 2, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Nishihara, Galuteria and Thielen.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, none.

Representatives Takayama, Gates, Say and Thielen.

Managers on the part of the House.

Ayes, 3. Noes, none. Excused, 1 (Thielen).

Conf. Com. Rep. 63-18 on S.B. No. 2738

The purpose and intent of this measure is to require county police departments and the Department of Transportation to sanitize unclaimed electronic devices, in accordance with recognized standards and guidelines, before providing the unclaimed property to finders or disposing of the property by public auction or other means.

Your Committee on Conference finds that protecting individuals' sensitive personal information is important for maintaining public safety. The many personal electronic devices that individuals use may contain copious amounts of a device owner's personal information. When these devices are lost, the personal information contained therein is potentially accessible by others, thereby putting the owner at risk. Under existing law, some local and state agencies are required to return unclaimed property to the finder of that property after forty-five days. However, existing laws do not require the applicable local or state agency to take steps to protect any personal information contained within found electronic devices before returning them to a finder or disposing of the devices through public auction or other means. Therefore, your Committee on Conference finds that state law needs to be updated to keep pace with technology and reflect the need to protect personal information on unclaimed electronic devices.

Your Committee on Conference has amended this measure by changing the effective date to upon approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2738, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2738, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Nishihara, Inouye and English.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, none.

Representatives Takumi, Nishimoto, Cullen, Morikawa and McDermott.

Managers on the part of the House.

Ayes, 3. Noes, none. Excused, 2 (Morikawa, McDermott).

Conf. Com. Rep. 64-18 on S.B. No. 2297

The purpose of this measure is to extend the sunset date of Act 65, Session Laws of Hawaii 2013 (Act 65), which provides a limited exemption to the licensing requirements for certain individuals in situations when an electric utility must retain qualified individuals to

work with high voltage (six hundred volts or higher) who are not licensed in the State but are otherwise deemed qualified by the electric utility.

Your Committee on Conference finds that in the event of a catastrophic occurrence requiring electrical workers who possess the level of skill required for high voltage work, Hawaii must import workers from the mainland since there are not enough electricians, splicers, and linemen in the State who are experienced and qualified to work with high voltage and who could respond in the event of a catastrophic occurrence or complex maintenance work affecting an electric utility. Your Committee on Conference further finds that Act 65 provides a limited exemption to the licensing requirements for certain individuals in situations when an electric utility must retain qualified individuals to work with high voltage (six hundred volts or higher) who are not licensed in the State but are otherwise deemed qualified by the electric utility; however, Act 65 sunsets on June 30, 2018. This measure extends the sunset date of Act 65 for five years, to June 30, 2023.

Your Committee on Conference has amended this measure by:

- (1) Replacing its contents with the contents of H.B. 1880, H.D. 3, S.D. 2, Regular Session of 2018, which was previously passed by both the House of Representatives and the Senate and which is substantially similar, except for the addition of language that requires the Board of Electricians and Plumbers to submit reports to the Legislature regarding high voltage electrical contractors;
- (2) Changing the effective date to June 29, 2018; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2297, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2297, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Tokuda, Inouye and Baker.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, none.

Representatives Johanson, Ohno, Takumi, Ichiyama, Ito and Ward.
Managers on the part of the House.
Ayes, 4. Noes, none. Excused, 2 (Ito, Ward).

Conf. Com. Rep. 65-18 on S.B. No. 2851

The purpose of this measure is to amend various provisions of the Hawaii Revised Statutes and the Session Laws of Hawaii for the purposes of correcting errors and references, clarifying language, and deleting obsolete or unnecessary provisions.

Your Committee on Conference amended this measure by:

- (1) Changing the effective date from July 1, 2035, to upon approval; and
- (2) Making a technical nonsubstantive change for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2851, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2851, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Rhoads, Kim and Taniguchi.
Managers on the part of the Senate.
Ayes, 2. Noes, none. Excused, 1 (Kim).

Representatives Nishimoto, San Buenaventura and Thielen.
Managers on the part of the House.
Ayes, 3. Noes, none. Excused, none.

Conf. Com. Rep. 66-18 on S.B. No. 2436

The purpose of this measure is to:

- (1) Require voluntary surrender of firearms and ammunition, upon disqualification from ownership, possession, or control, within seven business days of disqualification; and
- (2) Shorten the time period after failing to voluntarily surrender or dispose of all firearms and ammunition upon disqualification, after which the chief of police may seize all firearms and ammunition, from thirty days to seven business days.

Your Committee on Conference finds that removing firearms from those who are prohibited from having them is of utmost importance to protect the public. Currently, the law allows individuals who are disqualified from ownership, possession, or control of firearms and ammunition to keep those firearms and ammunition up to thirty days if they fail to voluntarily surrender them. Your Committee on Conference finds that this lengthy time period creates a significant risk to the public and should be shortened so that firearms and ammunition are quickly removed from those individuals who should not be possessing them.

Your Committee on Conference has amended this measure by:

- (1) Changing the time period in which a person is required to voluntarily surrender firearms and ammunition, upon disqualification from ownership, possession, or control, from within seven business days of disqualification to within seven days of disqualification;
- (2) Changing the time period after failing to voluntarily surrender or dispose of all firearms and ammunition upon disqualification, after which the chief of police may seize all firearms and ammunition, from seven business days to seven days; and
- (3) Changing the effective date to July 1, 2018.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2436, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2436, S.D. 2, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Nishihara, Taniguchi and Rhoads.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, none.

Representatives Nishimoto, Takayama and Thielen.
Managers on the part of the House.
Ayes, 3. Noes, none. Excused, none.

Conf. Com. Rep. 67-18 on H.B. No. 1906

The purpose of this measure is to include intentionally or knowingly causing bodily injury to:

- (1) A person who is engaged in the performance of duty at a health care facility as defined in section 323D-2, Hawaii Revised Statutes (HRS); or
- (2) A person who is engaged in providing home health care services as defined in section 431:10H-201, HRS,

in the acts punishable as assault in the second degree, a Class C felony offense.

Your Committee on Conference has amended this measure by:

- (1) Deleting its purpose section;
- (2) Amending the definition of "a person who is engaged in the performance of duty at a health care facility" to:
 - (A) Include additional persons who provide patient or health care services; and
 - (B) Exclude administrators, students, volunteers, and any other workers who support the functions of the health care facility;
- (3) Include intentionally or knowingly causing bodily injury to a person providing case management services through a mutual benefit society in a hospital, practitioner's office, or individual's home as an act subject to the offense of assault in the second degree;
- (4) Changing its effective date to upon its approval; and
- (5) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1906, H.D. 2, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1906, H.D. 2, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Baker, Taniguchi, Gabbard and Ihara.
Managers on the part of the Senate.
Ayes, 4. Noes, none. Excused, none.

Representatives Johanson, Mizuno, Nishimoto, Keohokalole and Matsumoto.
Managers on the part of the House.
Ayes, 5. Noes, none. Excused, none.

Conf. Com. Rep. 68-18 on H.B. No. 2341

The purpose of this measure is to amend Act 263, Session Laws of Hawaii 2016 (Act 263), which established procedures for direct payment of Employees' Retirement System (ERS) benefits to a spouse or former spouse of an ERS beneficiary pursuant to a court order that allocates marital property, by:

- (1) Clarifying that Act 263 applies to the spouse or former spouse of a former ERS member with vested benefit status;
- (2) Amending the method of calculating and paying benefits to the spouse or former spouse from payment of an annuity based on the actuarial value of the member's or retirant's benefit to payment of a monthly amount based on the actual monthly payment to the retirant and the terms of the domestic relations order and specifying disposition of the benefit amount upon the death of either party;
- (3) Postponing the implementation of Act 263 from July 1, 2018, to July 1, 2020; and
- (4) Appropriating funds for fiscal year 2018-2019 for the planning and expenditures necessary to implement this measure.

Your Committee on Conference has amended this measure by:

- (1) Deleting the appropriation provision; and
- (2) Changing its effective date to upon its approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 2341, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 2341, H.D. 1, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Tokuda, Taniguchi and Keith-Agaran.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, none.

Representatives Johanson, Holt and Matsumoto.
Managers on the part of the House.
Ayes, 3. Noes, none. Excused, none.

Conf. Com. Rep. 69-18 on H.B. No. 1768

The purpose of this measure is to permit the public inspection and duplication of salary ranges within \$15,000 increments, rather than exact compensation amounts, for legislative employees and members of all public employee bargaining units.

Your Committee on Conference has amended this measure by:

- (1) Specifying that the \$15,000 range applies only to the disclosure of compensation for legislative employees;
- (2) Deleting the application of salary range disclosure to all public employee bargaining units and preserving the current statutory application to bargaining unit (8) only;
- (3) Clarifying that "legislative employees" include legislative officers and legislative service agency directors, officers, and employees;
- (4) Changing its effective date to upon its approval; and
- (5) Making technical, nonsubstantive amendments for clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1768, H.D. 2, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1768, H.D. 2, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Tokuda, Taniguchi, English, Keith-Agaran and Thielen.
Managers on the part of the Senate.
Ayes, 5; Ayes with Reservations (Taniguchi). Noes, none. Excused, none.

Representatives Johanson, Nishimoto, Yamashita and Ward.
Managers on the part of the House.
Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. 70-18 on H.B. No. 1520

The purpose of this measure is to provide consumer protections regarding limited-duration health insurance by:

- (1) Prohibiting an insurer from renewing or re-enrolling an individual in a limited-duration health insurance policy or contract if the individual was eligible to purchase health insurance through the federal health insurance marketplace during an open enrollment period or special enrollment period; and
- (2) Specifying that limited-duration health insurance shall be subject to the same provisions of the Insurance Code as applicable to limited benefit health insurance.

Your Committee on Conference has amended this measure by:

- (1) Including a proviso that any short-term, limited-duration health insurance coverage policy that is issued in the State shall include an expiration date in the contract that is less than 91 days;
- (2) Specifying that a short-term, limited-duration health insurance policy is for a limited duration of less than 91 days;
- (3) Making it effective upon its approval; and
- (4) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1520, H.D. 2, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1520, H.D. 2, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Baker, Espero and Ihara.

Managers on the part of the Senate.
Ayes, 2. Noes, none. Excused, 1 (Ihara).

Representatives Luke, Kobayashi and Ward.
Managers on the part of the House.
Ayes, 2. Noes, none. Excused, 1 (Ward).

Conf. Com. Rep. 71-18 on H.B. No. 2416

The purpose of this measure is to clarify how intangible property is treated under the State's general excise and use tax laws by clarifying that:

- (1) Intangible property used outside the State shall be exempt from the general excise tax; and
- (2) Intangible property acquired from an unlicensed seller and used in the State is subject to the use tax at a rate of four percent of the value of the property.

Your Committee on Conference has amended this measure by making it effective upon its approval and applicable to taxable years beginning after December 31, 2018.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 2416, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 2416, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Keith-Agaran, English and Riviere.
Managers on the part of the Senate.

Representatives Luke, Cullen and Tupola.
Managers on the part of the House.
Ayes, 3. Noes, none. Excused, none.

Conf. Com. Rep. 72-18 on S.B. No. 2013

The purpose of this measure is to require the Director of Transportation to adopt rules allowing an individual who has a letter from a licensed primary care provider certifying that a severe disability causes the individual to be homebound to renew a state identification card by means other than an in-person appearance.

Your Committee on Conference finds that it might be impossible for some individuals to renew their identification card because a severe disability prevents them from renewing their card in person. These individuals should not be denied identification cards solely because of their severe disability. Thus, providing an alternative to renewing identification cards in-person, if a primary care provider certifies that the person has a severe disability, is prudent under the circumstances.

Your Committee on Conference has amended this measure by making it effective upon approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2013, S.D. 1, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2013, S.D. 1, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Inouye, Green and Shimabukuro.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, none.

Representatives Aquino, Nishimoto, Quinlan and McDermott.
Managers on the part of the House.
Ayes, 3. Noes, none. Excused, 1 (McDermott).

Conf. Com. Rep. 73-18 on S.B. No. 2745

The purpose of this measure is to amend the definition of "confidential personal information" for purposes related to offenses against property rights. Specifically, this measure:

- (1) Conforms the definition to the Hawaii Supreme Court's decision in *State v. Pacquing*, 139 Haw. 302 (2016), which excised portions of the definition to eliminate unconstitutionally vague provisions under the offense of unauthorized possession of confidential personal information;
- (2) Specifies other types of confidential personal information; and
- (3) Clarifies when a password constitutes confidential personal information.

Your Committee on Conference finds that the Court in *State v. Pacquing*, held that certain provisions in the definition of "confidential personal information" are unconstitutionally vague. This measure will amend the definition of "confidential personal information" to eliminate those vague provisions.

Your Committee on Conference has amended this measure by changing the effective date to upon approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2745, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2745, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Taniguchi, Rhoads and Thielen.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, none.

Representatives Nishimoto, San Buenaventura and Thielen.
Managers on the part of the House.
Ayes, 3. Noes, none. Excused, none.

Conf. Com. Rep. 74-18 on S.B. No. 2992

The purpose of this measure is to:

- (1) Exempt signs and banners from certain election law disclaimer requirements relating to advertisements; and
- (2) Require signs and banners advocating the passage or defeat of an issue or question on the ballot to contain the name and address of the candidate, candidate committee, or noncandidate committee paying for the sign or banner.

Your Committee on Conference finds that signs and banners are a common component of political campaigns, including organized advertising by candidates, committees, or grassroots political activities. Due to the size and manner of construction of some signs and banners, especially for those signs and banners that are handmade, it creates a potentially untenable situation when considering the disclosures required under campaign finance law.

Your Committee on Conference has amended this measure by changing the effective date to upon approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2992, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2992, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Taniguchi, Kim and Rhoads.
Managers on the part of the Senate.
Ayes, 2. Noes, none. Excused, 1 (Kim).

Representatives Nishimoto, San Buenaventura and Thielen.
Managers on the part of the House.
Ayes, 3. Noes, none. Excused, none.

Conf. Com. Rep. 75-18 on S.B. No. 2146

The purpose of this measure is to allow an election officer who is required to issue a public notice in a statewide or county publication to satisfy the publication requirement by submitting the notice to the publication and conspicuously posting the notice on the website associated with the election officer.

Your Committee on Conference finds that timely filing of public notice relating to elections is important to keep the public well-informed and that unusual situations, such as vacancies in close proximity to the candidate filing deadline that add a contest to the ballot and extend the candidate filing deadline, should be brought to the attention of the public as soon as possible. The Office of Elections cannot guarantee compliance by an outside entity once the Office provides a proclamation or other public notice, so requiring the Office to post the notice on the Office's website will ensure that the Office can meet election deadlines regardless of the actions of outside entities.

Your Committee on Conference has amended this measure by changing the effective date to July 1, 2018.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2146, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2146, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Taniguchi, Gabbard and Rhoads.
Managers on the part of the Senate.
Ayes, 2. Noes, none. Excused, 1 (Gabbard).

Representatives Nishimoto, San Buenaventura and Thielen.
Managers on the part of the House.
Ayes, 3. Noes, none. Excused, none.

Conf. Com. Rep. 76-18 on S.B. No. 2180

The purpose of this measure is to clarify that defendants may be convicted of lesser included offenses in cases filed via complaint.

Your Committee on Conference finds that as a matter of law, all felony cases can be initiated for prosecution via felony complaint or indictment and, in specific types of felony charges, cases can be initiated via information. The method of initiating a case is frequently chosen based on the specific facts of the individual case. Your Committee on Conference further finds that "lesser included offenses"

are crimes in which the lesser offense contains all the elements of a greater offense with the caveat that the greater offense contains one or more additional elements to be proven beyond a reasonable doubt. Under existing Hawaii law, a defendant may be convicted of a lesser included offense in felony cases initiated through indictment or information, but not through felony complaint. Your Committee on Conference finds that authorizing judges and juries to consider lesser included offenses in cases initiated through felony complaint will increase consistency in felony case prosecution.

As such, your Committee on Conference has amended this measure by:

- (1) Limiting the types of cases filed via complaint in which a defendant may be convicted of lesser included offenses to only felony cases; and
- (2) Changing the effective date to July 1, 2018.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2180, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2180, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Taniguchi, Rhoads and Thielen.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, none.

Representatives Nishimoto, San Buenaventura and Thielen.
Managers on the part of the House.
Ayes, 3. Noes, none. Excused, none.

Conf. Com. Rep. 77-18 on S.B. No. 2461

The purpose of this measure is to:

- (1) Establish a civil penalty for knowingly misrepresenting an animal as a service animal; and
- (2) Conform Hawaii law with the definition of "service animal" under the Americans with Disabilities Act of 1990.

Your Committee on Conference finds that fraudulent misrepresentation of pets and untrained animals as service animals is widespread and harmful to persons who legitimately rely on service animals. Currently, the law does not provide necessary legal consequences for misrepresenting a pet or other untrained animal as a service animal. Establishing penalties for such misrepresentation could function as a deterrent.

Your Committee on Conference has amended this measure by:

- (1) Specifying the civil penalties for knowingly misrepresenting an animal as a service animal as not less than \$100 and not more than \$250 for the first violation, and not less than \$500 for each additional violation; and
- (2) Changing the effective date to January 1, 2019.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2461, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2461, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Taniguchi, Gabbard and Rhoads.
Managers on the part of the Senate.

Representatives Nishimoto, San Buenaventura and Thielen.
Managers on the part of the House.
Ayes, 3. Noes, none. Excused, none.

Conf. Com. Rep. 78-18 on S.B. No. 2582

The purpose of this measure is to authorize the courts to impose an extended term of imprisonment for an offender who is convicted of negligent homicide in the first degree and did not remain at the scene of the crime and render reasonable assistance to an injured person.

Your Committee on Conference finds that Hawaii is above the national average for persons who report driving after drinking too much, as well as the rate of deaths for all ages due to crashes involving a drunk driver. There has also recently been an increase in fatal automotive crashes in which the offending driver has failed to render aid after the crash. Such circumstances result in additional extreme distress for family and friends of the victim. This measure will provide for extended terms of imprisonment as a deterrent to driving while under the influence and for the failure of offending drivers to render aid in the event of a collision.

Your Committee on Conference has amended this measure by changing the effective date to July 1, 2018.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2582, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2582, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Taniguchi, Gabbard and Rhoads.
Managers on the part of the Senate.
Ayes, 2. Noes, none. Excused, 1 (Gabbard).

Representatives Nishimoto, Aquino, San Buenaventura and Thielen.
Managers on the part of the House.
Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. 79-18 on H.B. No. 2589

The purpose of this measure is to authorize the Department of Transportation to designate shoulder lanes upon which motorcycles are allowed to drive under certain conditions.

Your Committee on Conference has amended this measure by changing the repeal date from June 30, 2020, to December 31, 2020.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 2589, H.D. 2, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 2589, H.D. 2, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Inouye, Taniguchi, Espero and Gabbard.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, 1 (Gabbard).

Representatives Aquino, Nishimoto and McDermott.
Managers on the part of the House.
Ayes, 2. Noes, none. Excused, 1 (McDermott).

Conf. Com. Rep. 80-18 on H.B. No. 2442

The purpose of this measure is to:

- (1) Require the counties to take into custody any abandoned vehicle on a public road within a certain time after abandonment;
- (2) Amend the requirement that the appropriate county shall provide written notice to the registered owner of an abandoned vehicle to apply only to abandoned vehicles that have been reported stolen;
- (3) Amend the conditions for a county determination that an abandoned vehicle constitutes a derelict vehicle; and
- (4) Repeal the requirement that abandoned vehicles be disposed of by public auction.

Your Committee on Conference has amended this measure by:

- (1) Removing language requiring the Department of Transportation to adopt rules to carry out the removal and disposition of abandoned vehicles;
- (2) Specifying that the counties are required to take into custody any abandoned vehicle on a public road within ten business days;
- (3) Allowing, rather than requiring, the disposition of abandoned vehicles by public auction;
- (4) Deleting language that would have limited the application of the requirement to provide written notice to the registered owner only if the abandoned vehicle had been reported stolen;
- (5) Amending the conditions that determine whether a vehicle is a derelict vehicle to include removal of any part;
- (6) Changing its effective date to upon approval; and
- (7) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 2442, H.D. 2, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 2442, H.D. 2, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Inouye, Nishihara, Taniguchi and Shimabukuro.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, 1 (Nishihara).

Representatives Aquino, Nishimoto, Gates and McDermott.
Managers on the part of the House.
Ayes, 3. Noes, none. Excused, 1 (McDermott).

Conf. Com. Rep. 81-18 on H.B. No. 2215

The purpose of this measure is to establish a bicycle overtaking safety pilot program in a county consisting of two inhabited islands, which requires a three-foot minimum safe passing distance when a motorist passes and overtakes a bicyclist.

Your Committee on Conference has amended this measure by:

- (1) Converting the pilot program into a statewide statutory mandate that requires a driver of a vehicle passing and overtaking a bicycle proceeding in the same direction to allow at least three feet of separation between the right side of the driver's vehicle and the left side of the bicyclist; and
- (2) Changing its effective date to July 1, 2018.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 2215, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 2215, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Inouye, Taniguchi, Shimabukuro and Rhoads.
Managers on the part of the Senate.
Ayes, 4. Noes, none. Excused, none.

Representatives Aquino, Nishimoto, Hashem and McDermott.
Managers on the part of the House.
Ayes, 3. Noes, none. Excused, 1 (McDermott).

Conf. Com. Rep. 82-18 on S.B. No. 2153

The purpose of this measure is to repeal the requirement that candidate committee organizational reports include the name and address of each contributor who contributed an aggregate amount of more than \$100 to the candidate committee since the last election.

Your Committee on Conference finds that candidate committee organizational reports contain directory-type information related to the composition of the committee. Each candidate committee is already required to disclose their contributions in periodic disclosure reports as required by the Hawaii Revised Statutes. Removing the requirement that candidate committees redundantly disclose their contributions in the organizational report will make the organizational reports more efficient without sacrificing the public's access to contribution information.

Your Committee on Conference has amended this measure by changing the effective date to July 1, 2018.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2153, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2153, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Taniguchi, Gabbard and Rhoads.
Managers on the part of the Senate.
Ayes, 2. Noes, none. Excused, 1 (Gabbard).

Representatives Nishimoto, San Buenaventura and Thielen.
Managers on the part of the House.
Ayes, 3. Noes, none. Excused, none.

Conf. Com. Rep. 83-18 on S.B. No. 2154

The purpose of this measure is to repeal the requirement that noncandidate committee organizational reports include information regarding contributors and contributions.

Your Committee on Conference finds that noncandidate committee organizational reports contain directory-type information related to the composition of the committee. Noncandidate committees are already required to disclose their contributions in periodic disclosure reports as required by the Hawaii Revised Statutes. Removing the requirement that noncandidate committees redundantly disclose their contributions in the organizational report will make the organizational reports more efficient without sacrificing the public's access to contribution information.

Your Committee on Conference has amended this measure by changing the effective date to July 1, 2018.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2154, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2154, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Taniguchi, Gabbard and Rhoads.
Managers on the part of the Senate.
Ayes, 2. Noes, none. Excused, 1 (Gabbard).

Representatives Nishimoto, San Buenaventura and Thielen.
Managers on the part of the House.
Ayes, 3. Noes, none. Excused, none.

Conf. Com. Rep. 84-18 on S.B. No. 2174

The purpose of this measure is to:

- (1) Authorize specified courts to issue material witness orders in cases initiated through felony complaint; and

- (2) Include the family courts in the authorization to issue material witness orders.

Your Committee on Conference finds that a felony criminal case can be initiated through felony complaint, indictment, or information. In some cases, it is advantageous to the prosecution to initiate the case through felony information because a preliminary hearing will follow the complaint. A preliminary hearing allows the State to have sworn testimony from witnesses that may, in certain circumstances, be used at trial if a witness suddenly becomes unavailable prior to trial. Preliminary hearings also give defendants the opportunity to confront witnesses against them and defendants' attorneys the opportunity to cross-examine witnesses. Although courts are authorized to issue material witness orders in cases initiated through indictment or information, courts cannot issue material witness orders in cases initiated through felony complaint. Authorizing courts to issue material witness orders in cases initiated through felony complaint would allow the prosecution and defense in such cases to more effectively assist the court in reaching just and well-supported decisions.

Your Committee on Conference has amended this measure by changing the effective date to July 1, 2018.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2174, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2174, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Taniguchi, Rhoads and Thielen.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, none.

Representatives Nishimoto, San Buenaventura and Thielen.
Managers on the part of the House.
Ayes, 2. Noes, none. Excused, 1 (San Buenaventura).

Conf. Com. Rep. 85-18 on S.B. No. 2691

The purpose of this measure is to allow boards, under the State's Sunshine Law, to provide a copy of the public notice of a meeting to the Office of the Lieutenant Governor or appropriate county clerk's office via electronic mail.

Your Committee on Conference finds that email is a common form of communication that is expedient and efficient and is widely used by public agencies and boards throughout the State. Allowing boards to provide required notice of public meetings via email will increase efficiency by reducing administrative costs.

Your Committee on Conference has amended this measure by changing the effective date to July 1, 2018.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2691, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2691, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Taniguchi, Kim and Rhoads.
Managers on the part of the Senate.
Ayes, 2. Noes, none. Excused, 1 (Rhoads).

Representatives Johanson, San Buenaventura, Holt and Matsumoto.
Managers on the part of the House.
Ayes, 3. Noes, none. Excused, 1 (Matsumoto).

Conf. Com. Rep. 86-18 on S.B. No. 2719

The purpose of this measure is to extend the period during which a victim of child sexual abuse may bring an otherwise time-barred civil action against the victim's abuser, or legal entity that is also civilly liable, until April 24, 2020.

Your Committee on Conference finds that child sexual abuse is a serious and ongoing threat to the safety, health, and wellbeing of children and young people. Survivors of child sexual abuse frequently suffer profound consequences throughout adulthood, and many do not disclose their abuse until later in life. Children who are the targets of sexual abuse can blame themselves or be prevented from reporting the abuse due to intense feelings of fear, disbelief, anger, helplessness, betrayal, and anxiety; incapacity to understand what happened or express their complaint due to their stage of cognitive development; or be afraid of retaliation or the potential negative impact on their family if the abuser was a family member or an individual in a position of influence or power. This measure will allow victims additional time to file a civil cause of action by extending the statute of limitations for certain claims.

Your Committee on Conference has amended this measure by:

- (1) Changing the effective date to July 1, 2018; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2719, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2719, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Taniguchi, Rhoads and Thielen.

Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, none.

Representatives Nishimoto, Morikawa, San Buenaventura and Thielen.
Managers on the part of the House.
Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. 87-18 on S.B. No. 2742

The purpose of this measure is to resolve inconsistencies in the processing of expungements and public dissemination of criminal history record information related to cases in which the defendant is acquitted or charges are dismissed by reason of physical or mental disease, disorder, or defect of the defendant and for defendants who are involuntarily hospitalized.

Your Committee on Conference finds that the Hawaii Criminal Justice Data Center is responsible for the collection, storage, and dissemination of criminal history record information in such a manner as to balance the right of the public and press to be informed, the right to privacy of individuals, and the responsibility of law enforcement agencies to prevent crimes and detect and apprehend criminals. This measure will resolve inconsistencies in existing law governing the retention and dissemination of criminal history record information in cases in which a person has been acquitted or charges have been dismissed by reason of physical or mental disease, disorder, or defect, and for circumstances under which a person is involuntarily hospitalized.

Your Committee on Conference has amended this measure by changing the effective date to July 1, 2018.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2742, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2742, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Taniguchi, Rhoads and Thielen.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, none.

Representatives Nishimoto, San Buenaventura and Thielen.
Managers on the part of the House.
Ayes, 3. Noes, none. Excused, none.

Conf. Com. Rep. 88-18 on S.B. No. 2699

The purpose of this measure is to specify that resort fees, which are any mandatory charges or surcharges imposed for the use of a transient accommodation's property, services, or amenities, are included in the gross rental proceeds amount upon which the transient accommodations tax is calculated.

Your Committee on Conference finds that this measure clarifies the treatment of resort fees for purposes of assessing the transient accommodations tax.

Your Committee on Conference amended this measure by:

- (1) Amending the definition of "resort fee" to include fees, whether or not they are mandatory; and
- (2) Requiring the Department of Taxation to adopt rules pursuant to chapter 91, Hawaii Revised Statutes, to further define the definitions added or amended by this measure; provided that the Department shall not be prevented from levying, assessing, or collecting taxes resulting from the imposition of resort fees prior to the adoption of these rules.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2699, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2699, S.D. 2, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Dela Cruz, Keith-Agaran and Riviere.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, none.

Representatives Onishi, Luke, Cullen, Fukumoto and Thielen.
Managers on the part of the House.
Ayes, 4. Noes, none. Excused, 1 (Fukumoto).

Conf. Com. Rep. 89-18 on S.B. No. 1208

The purpose of this measure is to assist an agricultural enterprise by authorizing the issuance of special purpose revenue bonds not to exceed an unspecified amount to assist Twin Bridge Farms, Inc., in the purchase of agricultural lands to be used for agricultural production.

Your Committee on Conference finds that the Governor has pledged to double local food production by 2020. Your Committee on Conference further finds that in order to achieve this goal, the State needs to support the growth of its local farming and ranching industries. In furtherance of the State's food production goals, your Committee on Conference finds it important to assist Twin Bridge Farms, Inc., a local farm known for producing high quality products, in purchasing additional lands to increase the farm's food production. The issuance of special purpose revenue bonds pursuant to this measure is in the public interest and constitutes assistance to agricultural enterprises under part X of chapter 39A, Hawaii Revised Statutes.

Your Committee on Conference has amended this measure by:

- (1) Authorizing the issuance of special purpose revenue bonds in an amount not to exceed \$9,000,000 to assist Twin Bridge Farms, Inc.; and
- (2) Changing the effective date to July 1, 2018.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1208, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1208, S.D. 2, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Gabbard, Rhoads and Keith-Agaran.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, none.

Representatives Creagan, Cullen, Quinlan and Thielen.

Managers on the part of the House.

Ayes, 4; Ayes with Reservations (Thielen). Noes, none. Excused, none.

Conf. Com. Rep. 90-18 on S.B. No. 3002

The purpose of this measure is to:

- (1) Authorize the State Librarian to designate one or more public library employees to be notaries public; and
- (2) Allow designated employees to perform as notaries public in government service for fees that will be deposited into the library fee for enhanced services special fund.

Your Committee on Conference finds that the Hawaii State Public Library System staff have received requests for notary services, particularly in rural areas of the State. Authorizing the State Librarian to designate one or more public library employees to be notaries public and allowing public libraries to charge a fee for performing notary services will help assist in providing this much needed service to the public and provide a new source of revenues for the library fee for enhanced services special fund.

Your Committee on Conference has amended this measure by changing the effective date to July 1, 2018.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 3002, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 3002, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Kidani, Espero and Kahele.

Managers on the part of the Senate.

Ayes, 2. Noes, none. Excused, 1 (Espero).

Representatives Woodson, Cullen and Matsumoto.

Managers on the part of the House.

Ayes, 3. Noes, none. Excused, none.

Conf. Com. Rep. 91-18 on S.B. No. 2919

The purpose of this measure is to:

- (1) Establish a pilot program to generate revenue through the lease of public library lands to meet the mission of the public libraries;
- (2) Establish the library facilities fund for deposit of revenues generated by lease or other disposition of library lands, to be expended for state library programs; and
- (3) Require the Board of Education to submit a report on the pilot program to the Legislature.

Your Committee on Conference finds that public libraries provide an invaluable service to the community. However, there is a need to examine new and innovative methods of generating funds to support the mission of the public libraries. Consequently, generating funds through the lease of public library lands may provide a viable source of funding for the public libraries. Accordingly, it is appropriate to establish a pilot program to generate revenue through the lease of public library lands to meet the mission of the public libraries to be facilitated by the State Librarian, Board of Education, and any other appropriate agencies.

Your Committee on Conference has amended this measure by:

- (1) Deleting language that would have appropriated funds for the public library lands pilot program and the hiring of experts in land development issues;
- (2) Changing the effective date to July 1, 2018; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2919, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2919, S.D. 2, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Kidani, Rhoads and Shimabukuro.

Managers on the part of the Senate.

Ayes, 2. Noes, none. Excused, 1 (Rhoads).

Representatives Woodson, Yamane, Cullen, Hashem and Tupola.

Managers on the part of the House.

Ayes, 3. Noes, none. Excused, 2 (Yamane, Tupola).

Conf. Com. Rep. 92-18 on S.B. No. 2051

The purpose of this measure is to permit individual Department of Education schools and career pathways, academies, or programs operated within a Department of Education school to engage in commercial enterprises, including the sale of goods produced by or for an individual school, career pathway, academy, or program.

Your Committee on Conference finds that, in preparation for entering the workforce, it is essential that career development is incorporated into education. Career and technical education programs in public schools support hands-on learning experiences for students and provide students an opportunity to apply content skills and knowledge in entrepreneurial and relevant ways. Allowing public school career development programs to market products and services and deposit funds back into the program will help keep these programs sustainable, while providing students with valuable opportunities.

Your Committee on Conference has amended this measure by changing the effective date to July 1, 2018.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2051, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2051, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Kidani, Shimabukuro and Espero.

Managers on the part of the Senate.

Ayes, 2. Noes, none. Excused, 1 (Espero).

Representatives Woodson, Cullen, Gates, Kong and Matsumoto.

Managers on the part of the House.

Ayes, 5. Noes, none. Excused, none.

Conf. Com. Rep. 93-18 on S.B. No. 2858

The purpose of this measure is to:

- (1) Require the design of all state buildings constructed on or after July 1, 2018, to include a shelter room or area that is capable of protecting individuals from Category 3 hurricanes; and
- (2) Require the new construction to be consistent with standards issued in the Report of Recommended Statewide Public Hurricane Shelter Criteria, Hurricane Shelter Criteria Committee, State Civil Defense, June 24, 2014.

Your Committee on Conference finds that ensuring that state buildings are capable of withstanding extreme weather-related events and emergencies is essential for maintaining public welfare. Your Committee on Conference further finds that public schools are particularly vulnerable to the effects of weather-related events and emergencies and situated in areas easily accessible by community members and would therefore be the ideal initial sites for enhanced building design and construction. Accordingly, your Committee on Conference finds that the State should consider relevant hurricane resistant criteria when designing and constructing new public schools for the capability of providing shelter refuge.

Your Committee on Conference has amended this measure by:

- (1) Removing language requiring the design of all state buildings constructed on or after July 1, 2018, to include a shelter room or area that is capable of protecting individuals from Category 3 hurricanes and that the new construction be consistent with standards issued in the Report of Recommended Statewide Public Hurricane Shelter Criteria, Hurricane Shelter Criteria Committee, State Civil Defense, June 24, 2014;
- (2) Inserting language to require the State to consider hurricane resistant criteria when designing and constructing new public schools for the capability of providing shelter refuge; and
- (3) Changing the effective date to upon approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2858, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2858, S.D. 2, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Nishihara, Shimabukuro and Thielen.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, none.

Representatives Takayama, Gates, Yamashita and Thielen.

Managers on the part of the House.

Ayes, 3. Noes, none. Excused, 1 (Thielen).

Conf. Com. Rep. 94-18 on S.B. No. 2556

The purpose of this measure is to prepare for the implementation of the Department of Agriculture's (DOA) industrial hemp pilot program by establishing the industrial hemp special fund for the deposit of monies, including fees collected by the DOA, and expenditure of funds for pilot program purposes, including hiring of employees, specialists, and consultants.

Your Committee on Conference finds that the DOA industrial hemp pilot program is progressing toward implementation; however, a special fund is necessary for deposit of fees collected through the program and to support the program, including the hiring of employees, specialists, and consultants necessary to complete projects. Your Committee on Conference further finds that part II of chapter 141, Hawaii Revised Statutes, authorizes the DOA to collect various fees and assess fines related to the industrial hemp pilot program. Requiring the DOA to deposit the fees into a special fund will promote transparency, help track revenues of the program, and guide the DOA in adjusting the fee amounts to ensure that the program is financially self-sustaining.

Your Committee on Conference has amended this measure by changing its effective date to upon approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2556, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2556, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Gabbard, Riviere and Ruderman.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, none.

Representatives Creagan, DeCoite, Cachola and Thielen.
Managers on the part of the House.
Ayes, 3. Noes, none. Excused, 1 (Cachola).

Conf. Com. Rep. 95-18 on S.B. No. 2244

The purpose of this measure is to establish safety mechanisms within the workers' compensation system, similar to other areas of state law, to deter opioid abuse by:

- (1) Requiring health care providers in the workers' compensation system who are authorized to prescribe opioids to adopt and maintain written policies for informed consent to opioid therapy in circumstances that carry elevated risk of dependency; and
- (2) Establishing limits for concurrent opioid and benzodiazepine prescriptions in the workers' compensation system.

Your Committee on Conference finds that a nationwide drug epidemic, associated with prescription pain relieving drugs, is causing alarming rates of addiction, overdose, and death. Your Committee on Conference further finds that a number of states have also taken steps through their workers' compensation systems to stem over prescription of opioids to injured workers. Your Committee on Conference observes that existing law contains provisions similar to those encompassed by this measure for opioid prescriptions issued outside of the workers' compensation regime. Accordingly, your Committee on Conference finds that this measure will similarly reduce unnecessary opioid prescriptions to injured workers and limit opioid overdoses, as well as offer the same protections to patients in the State's workers' compensation system as to those outside of the system.

Your Committee on Conference has amended this measure by changing the effective date to upon approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2244, S.D. 1, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2244, S.D. 1, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Tokuda, Baker and Ihara.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, none.

Representatives Johanson, Mizuno, Takumi, Luke, Ichiyama and Matsumoto.
Managers on the part of the House.
Ayes, 5. Noes, none. Excused, 1 (Mizuno).

Conf. Com. Rep. 96-18 on S.B. No. 2801

The purpose of this measure is to enhance the ability of the Department of Labor and Industrial Relations (DLIR) to enforce the State's labor laws by:

- (1) Establishing the labor law enforcement special fund to provide for sufficient operating costs to collect penalties and fees assessed by DLIR for violations of labor laws;
- (2) Establishing an attorney position and a legal assistant position within the Department of the Attorney General to represent DLIR in collecting penalties and fees for violations of labor law; and
- (3) Appropriating funds to carry out the purposes of this measure.

Your Committee on Conference finds that this measure aims to improve compliance with labor laws by helping ensure that penalties for violations are collected by DLIR. Your Committee on Conference further finds that it is necessary to provide for sufficient

operating costs to collect fees for violations of labor laws. The establishment of a special fund, and the establishment and hiring of an attorney and a legal assistant within the Department of the Attorney General, will provide the needed resources and allow the State to more effectively collect penalties and enforce the State's labor laws.

Your Committee on Conference has amended this measure by:

- (1) Inserting an appropriation amount of \$98,163 into and out of the labor law enforcement special fund for the attorney and legal assistant positions within the Department of the Attorney General; and
- (2) Changing the effective date to July 1, 2018.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2801, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2801, S.D. 2, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Tokuda, Taniguchi and Keith-Agaran.
Managers on the part of the Senate.
Ayes, 2. Noes, none. Excused, 1 (Taniguchi).

Representatives Johanson, Holt and Matsumoto.
Managers on the part of the House.
Ayes, 3. Noes, none. Excused, none.

Conf. Com. Rep. 97-18 on S.B. No. 3000

The purpose of this measure is to:

- (1) Establish the research and development program to optimize research and development preformed in the State; and
- (2) Establish the research and development special fund and appropriate funds for the research and development program.

Your Committee on Conference finds that research and development preformed in the State is vital for the continued growth of Hawaii's economy. Your Committee on Conference believes that supporting research and development will encourage innovation in various sectors throughout the State and has potential to attract businesses from around the world to Hawaii. Your Committee on Conference believes that creating a research and development research program in the State will assist small businesses with product development, technology transfer, and commercialization and create more high-paying jobs, resulting in highly skilled workers remaining in or coming to Hawaii and contributing to the economy.

Your Committee on Conference has amended this measure by:

- (1) Inserting a cap of \$300,000 for grants to be provided for critical product development that allows qualified businesses to achieve significant product development and technical milestones;
- (2) Requiring a company to employ fifteen or more employees to be considered a "Hawaii-based small business";
- (3) Inserting an appropriation amount of \$1,000,000 into and out of the research and development special fund to be used for the research and development program; and
- (4) Changing the effective date to July 1, 2018.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 3000, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 3000, S.D. 2, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Wakai, Kidani and Thielen.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, none.

Representatives Evans, Keohokalole and Ward.
Managers on the part of the House.
Ayes, 3. Noes, none. Excused, none.

Conf. Com. Rep. 98-18 on S.B. No. 2150

The purpose of this measure is to appropriate supplemental funds for the operating and capital improvement budget of the Judiciary for fiscal years (FY) 2017-2018 and 2018-2019.

The Judiciary submitted a supplemental budget that totaled:

	<u>FY 2018</u>	<u>FY 2019</u>
General Funds	\$163,038,964	\$164,665,936
All Means of Financing	\$175,679,611	\$177,306,583

The Judiciary submitted a capital improvement budget that totaled:

	<u>FY 2018</u>	<u>FY 2019</u>
General Funds	\$7,750,000	\$20,480,000

Your Committee on Conference has amended the supplemental budget to appropriate:

	<u>FY 2018</u>	<u>FY 2019</u>
General Funds	\$163,038,964	\$163,995,179
All Means of Financing	\$175,679,611	\$176,635,826

Your Committee on Conference has further amended this budget to appropriate the following in capital improvement funds:

	<u>FY 2018</u>	<u>FY 2019</u>
General Funds	\$7,750,000	\$8,500,000

CAPITAL BUDGET

Your Committee on Conference recognizes the need to address health and safety at the Kauai Judiciary Complex. Therefore, your Committee appropriates \$1,100,000 for fiscal year 2018-2019 in general obligation bond funds to reroof and repair leaks at the Kauai Judiciary Complex, Kauai.

Your Committee on Conference also appropriates \$5,800,000 for fiscal year 2018-2019 in general obligation bond funds to provide furnishings and equipment for the Kona Judiciary Complex, Hawaii.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2150, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2150, S.D. 2, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Taniguchi, Dela Cruz and Rhoads.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, none.

Representatives Nishimoto, Luke, Cullen, San Buenaventura and Thielen.

Managers on the part of the House.

Ayes, 5. Noes, none. Excused, none.

Conf. Com. Rep. 99-18 on S.B. No. 2581

The purpose of this measure is to:

- (1) Increase the number of members on the King Kamehameha Celebration Commission from thirteen to fifteen;
- (2) Amend the membership of the Commission and the requirements for organizations to be represented on the Commission; and
- (3) Establish the position, duties, and salary of the Executive Director of the Commission, who shall be appointed by the Commission.

Your Committee on Conference finds that the King Kamehameha Celebration Commission works to uphold the legacy of King Kamehameha by working with various organizations that commemorate and preserve the history of Hawaii. Your Committee on Conference further finds that increasing the number of members on the Commission to include the Daughters of Hawaii and a representative from the island of Lānaʻi will allow the Commission to better fulfill its duty to commemorate and celebrate a significant figure in Hawaiian history. Your Committee on Conference recognizes the importance and depth of the work the Commission does and believes that an Executive Director would provide greater administrative guidance to the Commission in its operations.

Your Committee on Conference has amended this measure by:

- (1) Deleting language that mandated the Commission to establish the salary of the Executive Director and set a limit for the salary; and
- (2) Changing the effective date to upon approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2581, S.D. 1, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2581, S.D. 1, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Shimabukuro, Taniguchi and English.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, none.

Representatives LoPresti, Ing, Fukumoto, Ito and Ward.

Managers on the part of the House.

Ayes, 3. Noes, none. Excused, 2 (Fukumoto, Ito).

Conf. Com. Rep. 100-18 on H.B. No. 2610

The purpose of this measure is to continue to support Hawaii's manufacturing industry by appropriating funds to the Hawaii Technology Development Corporation to continue its Manufacturing Grant Program, as well as for the operations and administration of the Program.

Your Committee on Conference has amended this measure by:

- (1) Appropriating \$1,000,000 for the continuation of the Manufacturing Grant Program as well as for the operations and administration of the Program; and
- (2) Changing its effective date to July 1, 2018.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 2610, H.D. 2, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 2610, H.D. 2, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Wakai, Galuteria, Kahele and Thielen.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, 1 (Galuteria).

Representatives Evans, Keohokalole and Ward.
Managers on the part of the House.
Ayes, 3. Noes, none. Excused, none.

Conf. Com. Rep. 101-18 on H.B. No. 1958

The purpose of this measure is to further develop the State's technology sector by:

- (1) Appropriating moneys to continue the Small Business Innovation Research Program; and
- (2) Authorizing the Hawaii Technology Development Corporation to match federal small business innovation research phase III and small business technology transfer program phase III awards that are funded by the private sector or government sources outside of the program.

Your Committee on Conference has amended this measure by:

- (1) Appropriating \$1,500,000 for the continuation of the Small Business Innovation Research Program; and
- (2) Changing its effective date to July 1, 2018.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1958, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1958, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Wakai, Galuteria, Shimabukuro and Thielen.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, 1 (Galuteria).

Representatives Evans, Keohokalole, Holt and Matsumoto.
Managers on the part of the House.
Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. 102-18 on H.B. No. 2333

The purpose of this measure is to support Hawaii's most socially and economically challenged regions and demographic groups through community-supported economic development projects by authorizing the Department of Business, Economic Development and Tourism to deposit moneys it receives from the repayment of outstanding loans into the Hawaii community-based economic development revolving fund to be used to make loans and grants to small businesses.

Your Committee on Conference has amended this measure by changing its effective date to July 1, 2018.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 2333, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 2333, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Wakai, Galuteria, Kahele and Thielen.
Managers on the part of the Senate.
Ayes, 4. Noes, none. Excused, none.

Representatives Evans, Keohokalole, Todd and Ward.
Managers on the part of the House.
Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. 103-18 on H.B. No. 2075

The purpose of this measure is to strengthen and support Hawaii's local companies that are conducting renewable energy research and development by establishing:

- (1) A two-year Alternative Energy Research and Development Program within the Department of Business, Economic Development and Tourism to provide matching grants to qualified businesses that have been awarded a competitive contract

from the Department of Defense Office of Naval Research to conduct research and development in alternative energy and energy efficiency technologies in certain fields; and

- (2) An Alternative Energy Research and Development Revolving Fund to fund the Program.

Your Committee on Conference has amended this measure by:

- (1) Appropriating \$1,000,000 to be deposited into, and appropriated out of, the Alternative Energy Research and Development Revolving Fund; and
- (2) Changing its effective date to July 1, 2018.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 2075, H.D. 2, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 2075, H.D. 2, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Wakai, Galuteria, Kidani and Thielen.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, 1 (Galuteria).

Representatives Evans, Lee, Keohokalole, LoPresti and Matsumoto.
Managers on the part of the House.
Ayes, 5. Noes, none. Excused, none.

Conf. Com. Rep. 104-18 on H.B. No. 2587

The purpose of this measure is to address the county surcharge on state tax by:

- (1) Extending by three months the period in which a county may adopt a surcharge on state tax, under certain conditions, from March 31, 2018, to June 30, 2018; and
- (2) Requiring that, for a county with a population equal to or less than five hundred thousand that adopts a county surcharge on state tax:
 - (A) No less than sixty percent of the surcharge revenues shall be used for public transportation system purposes; and
 - (B) No more than two percent of the surcharge revenues may be used on any roadway used by the general public.

Your Committee on Conference has amended this measure by:

- (1) Extending the period in which a county may adopt a surcharge on state tax from March 31, 2018, to March 31, 2019;
- (2) Specifying that the county surcharge on state tax shall be levied no earlier than:
 - (A) January 1, 2019, for ordinances adopted after June 30, 2015, but prior to June 30, 2018; or
 - (B) January 1, 2020, for ordinances adopted on or after June 30, 2018, but prior to March 31, 2019; and
- (3) Removing the provisions that specify how certain percentages of the surcharge may be used by a county with a population equal to or less than 500,000 that adopts a surcharge.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 2587, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 2587, H.D. 1, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Inouye, Nishihara and Kahele.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, none.

Representatives Luke, Cullen, Hashimoto and Ward.
Managers on the part of the House.
Ayes, 3. Noes, 1 (Ward). Excused, none.

Conf. Com. Rep. 105-18 on H.B. No. 1604

The purpose and intent of this measure is to authorize the issuance of general obligation bonds and to make the constitutionally-required findings that the bond issuance will not cause the state debt limit to be exceeded.

Your Committee on Conference finds that Article VII, section 13, of the Constitution of the State of Hawaii requires the Legislature to include a declaration of findings in every general law authorizing the issuance of general obligation bonds, which shall declare that the issuance of state bonds authorized will not cause the debt limit to be exceeded at the time of issuance. Your Committee on Conference further finds that the proceeds generated from the general obligation bonds authorized to be issued under this measure will be used to finance the fulfillment of important state objectives.

Your Committee on Conference has amended this measure by:

- (1) Inserting the appropriate dollar amounts throughout the measure as provided by the Department of Budget and Finance;

- (2) Updating the dates and measure numbers cited in the measure;
- (3) Adding a part II to the measure that amends the titles and descriptions of certain capital improvement projects of executive branch agencies and programs established in the Supplemental Appropriations Act of 2018;
- (4) Changing the effective date from July 1, 2050, to upon approval; and
- (5) Making technical nonsubstantive changes for the purposes of clarity, consistency, and style.

Your Committee on Conference notes that the amendments made in part II of this measure are not intended to appropriate any additional funds, authorize the issuance of any additional general obligation bonds or allocate the revenues derived thereof, or add any additional debt for the projects authorized by the Supplemental Appropriations Act of 2018.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1604, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1604, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Dela Cruz, Keith-Agaran and English.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, none.

Representatives Luke, Cullen and Tupola.

Managers on the part of the House.

Ayes, 3. Noes, none. Excused, none.

Conf. Com. Rep. 106-18 on H.B. No. 2352

The purpose of this measure is to include a member of the Native Hawaiian Education Council and a non-voting public university student teacher on the Hawaii Teacher Standards Board and clarify that a permit is required for unlicensed teachers serving in public schools.

Your Committee on Conference has amended this measure by:

- (1) Changing the effective date to July 1, 2018; and
- (2) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 2352, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 2352, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Kidani, Galuteria and Kim.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, none.

Representatives Woodson, Todd, Ohno and Matsumoto.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. 107-18 on H.B. No. 2353

The purpose of this bill is to facilitate the operations of the Hawaii State Public Library System. Specifically, this bill:

- (1) Makes miscellaneous technical amendments to various sections of the Hawaii Revised Statutes that affect the Hawaii State Public Library System;
- (2) Renames the Hawaii State Library Foundation trust fund as the Friends of the Library of Hawaii program fund; and
- (3) Clarifies the functions and operational status of the Friends of the Library of Hawaii program fund.

Your Committee on Conference has amended this bill by changing its effective date to July 1, 2018.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 2353, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 2353, H.D. 1, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Kidani, Galuteria and Espero.

Managers on the part of the Senate.

Ayes, 2. Noes, none. Excused, 1 (Espero).

Representatives Woodson, Todd, Hashem and Matsumoto.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. 108-18 on H.B. No. 2607

The purpose of this bill is to promote computer science education in the State by:

- (1) Requiring the Department of Education to develop and implement a statewide computer science curricula plan for public school students in kindergarten through twelfth grade and ensure that each public high school offers at least one computer science course each year; and
- (2) Authorizing the Department of Education to contract with other entities to develop and implement computer science teacher development programs.

Your Committee on Conference has amended this bill by:

- (1) Clarifying that the statewide computer science curricula plan for public students in kindergarten through twelfth grade may include design thinking as part of the curricula;
- (2) Appropriating \$500,000 for fiscal year 2018-2019 to the Department of Education to develop a computer science curricula plan, offer computer science classes, and contract for teacher development programs;
- (3) Changing its effective date to July 1, 2018; and
- (4) Making a technical, nonsubstantive amendment for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 2607, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 2607, H.D. 1, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Kidani, Galuteria and Espero.

Managers on the part of the Senate.

Ayes, 2. Noes, none. Excused, 1 (Espero).

Representatives Woodson, McKelvey, Evans, Todd, Ohno and Matsumoto.

Managers on the part of the House.

Ayes, 5. Noes, none. Excused, 1 (Evans).

Conf. Com. Rep. 109-18 on H.B. No. 2354

The purpose of this bill is to provide taxpayers with an opportunity to increase their support of the Hawaii State Public Library System. Specifically, this bill changes the amount of the authorized income tax check-off to the libraries special fund that may be designated from a person's income tax refund as follows:

- (1) For an individual taxpayer, changing the amount from \$2 to an unspecified amount; and
- (2) For taxpayers filing a joint return, changing the amount from \$4 to an unspecified amount.

Your Committee on Conference has amended this bill by:

- (1) Increasing the amount of the authorized income tax check-off to the libraries special fund that may be designated from a person's income tax refund as follows:
 - (A) For an individual taxpayer, increasing the amount from \$2 to \$5; and
 - (B) For taxpayers filing a joint return, increasing the amount from \$4 to \$10; and
- (2) Changing its effective date to July 1, 2018.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 2354, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 2354, H.D. 1, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Kidani, Galuteria and Kim.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, none.

Representatives Woodson, Todd, Hashem and Matsumoto.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. 110-18 on H.B. No. 2455

The purpose of this measure is to celebrate the one-hundred fiftieth anniversary of the arrival of the first group of organized Japanese immigrants in Hawaii, known as Gannenmono, by appropriating funds to the Department of Business, Economic Development and Tourism for the 2018 Gannenmono celebration.

Your Committee on Conference has amended this measure by:

- (1) Appropriating \$150,000 to the Department of Business, Economic Development and Tourism for the 2018 Gannenmono celebration;

- (2) Changing its effective date to upon its approval; and
- (3) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 2455, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 2455, H.D. 1, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Taniguchi, Keith-Agaran and Wakai.
Managers on the part of the Senate.
Ayes, 2. Noes, none. Excused, 1 (Wakai).

Representatives LoPresti, Fukumoto, Tokioka and Ward.
Managers on the part of the House.
Ayes, 3. Noes, none. Excused, 1 (Tokioka).

Conf. Com. Rep. 111-18 on H.B. No. 2697

The purpose of this measure is to assist Hawaii's veterans, including their families and dependents, by requiring the Office of Veterans' Services to organize, coordinate, and conduct a biennial State of Hawaii Veterans Summit and to appropriate funds to conduct the Summit.

Your Committee on Conference has amended this measure by:

- (1) Appropriating \$400,000 to the Office of Veterans' Services to organize, coordinate, and conduct the biennial State of Hawaii Veterans Summit; and
- (2) Changing its effective date to July 1, 2018.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 2697, H.D. 2, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 2697, H.D. 2, S.D. 1, C.D. 1.

Conf. Com. Rep. 112-18 on H.B. No. 2357

The purpose of this measure is to create an eviction process for the Hawaii Public Housing Authority's state low-income housing projects or programs and elder or elderly housing.

Your Committee on Conference has amended this measure by:

- (1) Amending the minimum number of persons on an eviction board;
- (2) Making technical, non-substantive amendments for clarity, consistency, and style; and
- (3) Changing its effective date to upon its approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 2357, H.D. 2, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 2357, H.D. 2, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Espero, Taniguchi, Gabbard and Ruderman.
Managers on the part of the Senate.
Ayes, 4. Noes, none. Excused, none.

Representatives Brower, San Buenaventura, Nakamura, Hashem and McDermott.
Managers on the part of the House.

Conf. Com. Rep. 113-18 on H.B. No. 2389

The purpose of this bill is to facilitate the transition from prison upon discharge or parole for certain committed persons. Specifically, this measure:

- (1) Requires that a committed person receive appropriate resource referrals as a prior condition to receiving any cash furnished by the Hawaii Paroling Authority (Authority);

- (2) Specifies that the moneys furnished by the Authority for discharged or paroled individuals shall be subject to the availability of legislative appropriations authorized and allocated for that purpose; and
- (3) Prohibits the Authority from using any moneys that are appropriated to provide for the immediate needs of a discharged or paroled individual for any other purpose.

Your Committee on Conference has amended this bill by:

- (1) Removing language that required a committed person receive appropriate resource referrals as a prior condition to receiving any cash furnished by the Authority; and
- (2) Changing its effective date to July 1, 2018.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 2389, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 2389, H.D. 1, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Nishihara, Galuteria and Thielen.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, none.

Representatives Takayama, Gates, Say and Thielen.

Managers on the part of the House.

Ayes, 3. Noes, none. Excused, 1 (Say).

Conf. Com. Rep. 114-18 on H.B. No. 2454

The purpose of this bill is to establish a three-year Correctional Industries Former Inmate Employment Pilot Project (Pilot Project) within the Department of Public Safety (Department) to assist former inmates as they reenter society by providing full time employment at a fair market wage to up to five former inmates.

Your Committee on Conference has amended this bill by:

- (1) Clarifying that the data on the conduct and efficacy of the Pilot Project shall be collected by service providers that work directly with the former inmates and shall be submitted to the Department every six months for evaluation purposes for the duration of the Pilot Project and twelve months after the Pilot Project ends; and
- (2) Changing its effective date to upon approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 2454, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 2454, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Nishihara, Tokuda and Galuteria.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, none.

Representatives Takayama, Evans, Gates and Thielen.

Managers on the part of the House.

Ayes, 3. Noes, none. Excused, 1 (Thielen).

Conf. Com. Rep. 115-18 on H.B. No. 2010

The purpose of this measure is to change provisions of the law relating to tourism.

Specifically, this measure:

- (1) Renames the convention center enterprise special fund as the convention center operations and maintenance special fund;
- (2) Inserts a cap of \$6,000,000 on the convention center operations and maintenance special fund and authorizes expenditures from the fund for the salaries of Convention Center personnel;
- (3) Amends the authorized uses of the tourism special fund and caps expenditures from the fund for certain purposes;
- (4) Amends the allocation of transient accommodations tax revenue;
- (5) Requires the Department of Budget and Finance to cancel the reimbursable general obligation bond debt relating to the Convention Center that is owed by the Hawaii Tourism Authority; and
- (6) Makes conforming amendments.

Your Committee on Conference has amended this measure by deleting its contents and replacing it with provisions to:

- (1) Cancel the debt and liabilities owed to the State by the Hawaii Tourism Authority for Convention Center construction costs and related interest;
- (2) Relieve the convention center enterprise special fund from paying debts owed to the Department of Budget and Finance;

- (3) Reduce the allocation of transient accommodations tax revenues to the convention center enterprise special fund from \$26,500,000 to \$16,500,000;
- (4) Reduce the allocation of transient accommodations tax revenues to the tourism special fund from \$82,000,000 to \$79,000,000; and
- (5) Appropriate moneys for the Hawaii Tourism Authority to implement initiatives, in conjunction with the Hawaii Lodging and Tourism Association, to address homelessness in tourist and resort areas; provided that the funds are matched dollar-for-dollar by the private sector.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 2010, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 2010, H.D. 1, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Wakai, Thielen and Kahele.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, none.

Representatives Onishi, Luke and Tupola.
Managers on the part of the House.
Ayes, 2. Noes, none. Excused, 1 (Tupola).

Conf. Com. Rep. 116-18 on H.B. No. 2097

The purpose of this measure is to:

- (1) Require the Attorney General to defend any civil action or proceeding against a county and any person employed by the county to provide lifeguard services at a designated state beach park under an agreement between the State and the county; and
- (2) Appropriate funds to the Department of Land and Natural Resources to contract with the counties for county lifeguard services at designated state beach parks under an agreement between the State and a county.

Your Committee on Conference has amended this measure by:

- (1) Inserting an amount of \$1,000,000 to be appropriated out of the general fund for the Department of Land and Natural Resources Division of State Parks to contract with the counties for county lifeguard services at designated state beach parks under an agreement between the State and a county;
- (2) Inserting an amount of \$500,000 for the Department of Land and Natural Resources Division of State Parks to contract with the counties for county lifeguard services at designated state beach parks under an agreement between the State and a county, which shall be appropriated out of the Special Land and Development Fund, rather than the Tourism Special Fund; and
- (3) Changing its effective date to July 1, 2018.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 2097, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 2097, H.D. 1, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Rhoads, Taniguchi and Keith-Agaran.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, none.

Representatives Yamane, Johanson, Nishimoto, Todd, Hashimoto and Thielen.
Managers on the part of the House.

Conf. Com. Rep. 117-18 on H.B. No. 2464

The purpose of this measure is to require the Department of Hawaiian Home Lands (Department) to conduct a study on the issue of Hawaiian Home Lands lessees selling or transferring their leases for a fee or other personal gain and then applying for a subsequent lease. This measure requires the Department to submit a report on the findings and recommendations of its study to the Legislature no later than twenty days prior to the convening of the Regular Session of 2019.

Your Committee on Conference has amended this measure by:

- (1) Requiring the Department to submit a report on its study to the Legislature no later than twenty days prior to the convening of the Regular Session of 2020, rather than 2019; and
- (2) Changing its effective date to July 1, 2018.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 2464, H.D. 2, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 2464, H.D. 2, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Shimabukuro, Taniguchi and Galuteria.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, none.

Representatives Ing, San Buenaventura, DeCoite, Gates and Tupola.
Managers on the part of the House.
Ayes, 5. Noes, none. Excused, none.

Conf. Com. Rep. 118-18 on H.B. No. 2259

The purpose of this measure is to require the Department of Land and Natural Resources (Department) to allow applications for marine event permits up to one year in advance and authorize the Department to adopt rules to mitigate hazards posed by vessels, thrill craft, drones, and other means used by spectators to observe or record marine events. This measure also requires the Department to submit a report to the 2019 Legislature of its progress in implementing the permitting process and adopting rules.

Your Committee on Conference amended this measure by:

- (1) Requiring the Department to consult with the Department of Transportation and the Federal Aviation Administration before adopting rules regulating the use of drones; and
- (2) Changing its effective date to July 1, 2018.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 2259, H.D. 1, S.D. 3, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 2259, H.D. 1, S.D. 3, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Ayes, 2. Noes, none. Excused, 1 (Nishihara).

Representatives Ing, DeCoite, Fukumoto and Tupola.
Managers on the part of the House.
Ayes, 3. Noes, none. Excused, 1 (Fukumoto).

Conf. Com. Rep. 119-18 on H.B. No. 2594

The purpose of this measure is to appropriate funds for the Kaho'olawe Island Reserve Commission (Commission) to restore, preserve, and determine the appropriate uses of Kaho'olawe Island, and to fund one full-time equivalent permanent cultural resource project coordinator position for the Commission.

Your Committee on Conference has amended this measure by:

- (1) Changing the appropriation for the Commission's operating costs for restoring, preserving, and determining the appropriate uses of Kaho'olawe Island from an unspecified amount to \$100,000;
- (2) Changing the appropriation for the Commission to fund one full-time equivalent permanent cultural resource project coordinator position from an unspecified amount to \$53,000; and
- (3) Changing its effective date to July 1, 2018.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 2594, H.D. 2, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 2594, H.D. 2, S.D. 2, C.D. 1.

Conf. Com. Rep. 120-18 on H.B. No. 2613

The purpose of this measure is to appropriate funds for fiscal year 2018-2019 to maintain the initial staff necessary to develop and manage the He'eia National Estuarine Research Reserve and its programs.

Your Committee on Conference has amended this measure by:

- (1) Changing the unspecified appropriation to an amount of \$150,000 and specifying that it shall be used for the hiring of 1.00 full-time equivalent position and operating costs;
- (2) Changing its effective date to July 1, 2018; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 2613, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 2613, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Kahele, Rhoads and Galuteria.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, none.

Managers on the part of the House.
Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. 121-18 on S.B. No. 122

The purpose of this measure is to:

- (1) Provide designated family members and other interested persons with:
 - (A) Notice when an individual with a mental health emergency is subject to admission to a facility, examination, hospitalization, commitment, or assisted community treatment; and
 - (B) The right to be present for the individual's hearings and receive a copy of the hearing transcript or recording unless the court determines otherwise; and
- (2) Require a court to adjourn or continue a hearing for failure to timely notify a person entitled to be notified or for failure by the individual to contact an attorney, with certain exceptions.

Your Committee on Conference finds that family members provide a valuable support network for individuals with mental illness, especially as those individuals try to navigate the State's health, mental health, and court systems. Your Committee on Conference also finds that family members are often kept in the dark about their loved ones' status, location, and treatment, including notice of relevant legal proceedings. Your Committee on Conference finds that this measure balances the importance of providing family members with more information about their loved ones with mental illness with the need to protect individual privacy rights.

Your Committee on Conference has amended this measure by inserting an effective date of July 1, 2018.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 122, S.D. 2, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 122, S.D. 2, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Representatives Mizuno, Nishimoto, Cullen and Tupola.
Managers on the part of the House.
Ayes, 3. Noes, none. Excused, 1 (Tupola).

Conf. Com. Rep. 122-18 on S.B. No. 2612

The purpose of this measure is to:

- (1) Allow a social club granted federal tax-exempt status to sell wine from the social club's inventory to club members for off-premises consumption;
- (2) Waive certain requirements for the issuance of class 10 special liquor licenses; and
- (3) Enable class 10 special liquor licensees to auction off liquor in sealed or covered containers or services that provide liquor.

Your Committee on Conference finds that some nonprofit organizations have faced an extremely onerous process when attempting to obtain a special liquor license for a fundraising event, which can be unduly burdensome in time and money, as many of these nonprofit organizations operate on small budgets. This measure streamlines the special license process and reduces the burden on nonprofit organizations by waiving fees and other requirements for applicants for a class 10 special liquor license required for fundraising events. This measure also permits a tax-exempt social club to sell wine from the social club's inventory and clarifies the ability of a class 10 special liquor licensee to auction off liquor or services that provide liquor.

Your Committee on Conference has amended this measure by:

- (1) Changing its effective date to upon approval; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2612, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2612, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Baker, Chang and Ihara.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, none.

Representatives Nishimoto, Cullen, Cachola and Thielen.
Managers on the part of the House.
Ayes, 3. Noes, none. Excused, 1 (Thielen).

Conf. Com. Rep. 123-18 on S.B. No. 2646

The purpose of this measure is to reduce the public's access to Schedule II, III, or IV controlled substances by:

- (1) Requiring a prescriber to consult the State's Electronic Prescription Accountability System, also known as the Hawaii Prescription Drug Monitoring Program (PDMP), before prescribing the controlled substance in a quantity equaling a supply of seven days or longer, subject to certain exemptions; and
- (2) Appropriating funds to the Department of Public Safety to improve the functionality and reliability of the PDMP.

Your Committee on Conference finds that certain prescribers of controlled substances are required to register with the Department of Public Safety to use the PDMP and are required to report any relevant information prior to dispensing a controlled substance. However, your Committee on Conference finds that prescribers are not required to consult the PDMP before writing a prescription. Your Committee on Conference finds that since drug overdose rates have increased catastrophically in Hawaii, requiring prescribers to consult the PDMP prior to writing a prescription may reduce access to potentially addictive substances. Your Committee on Conference also finds that the violations proposed by this measure are best policed by the appropriate professional licensing boards.

Your Committee on Conference has amended this measure by:

- (1) Broadening the requirement under which prescribers of controlled substances must consult with the PDMP by having the requirement applicable to all prescriptions for controlled substances, other than prescriptions of three days or less that are made in an emergency situation;
- (2) Deleting the appropriation to the Department of Public Safety to improve the PDMP;
- (3) Inserting an effective date of July 1, 2018; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2646, S.D. 1, H.D. 3, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2646, S.D. 1, H.D. 3, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Baker, English, Espero and Tokuda.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, 1 (Espero).

Representatives Mizuno, Takumi, Nishimoto, Luke and Tupola.
Managers on the part of the House.

Conf. Com. Rep. 124-18 on S.B. No. 2613

The purpose of this measure is to:

- (1) Authorize the county liquor commissions to issue new class 2 restaurant licenses before restaurants commence operation;
- (2) Clarify that class 2 restaurant licenses are transferrable; and
- (3) Require an applicant for a new class 2 restaurant license or a transferee to certify that the applicant or transferee intends to and shall derive no less than thirty percent of the establishment's gross revenue from the sale of foods.

Your Committee on Conference finds that certain liquor commissions do not permit new licensees to apply directly for a restaurant license. Instead, licensees are first required to apply for a dispenser general license, which can only be upgraded after one year. Your Committee on Conference further finds that certain liquor commissions also do not allow restaurant licensee holders to transfer restaurant liquor licenses, which may have a negative impact on an operator's business, including a significant loss of value to the business. This measure therefore clarifies that a new restaurant liquor license may be issued by a liquor commission prior to the restaurant commencing operation. This measure also clarifies that a class 2 restaurant liquor license is transferrable, but retains the liquor commissions' ability to downgrade a license if the licensee ultimately does not meet the thirty percent food-sales threshold required of restaurant licensees.

Your Committee on Conference has amended this measure by changing its effective date to upon approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2613, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2613, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Conf. Com. Rep. 125-18 on H.B. No. 1646

The purpose of this measure is to establish an automatic procedure that allows Hawaii's newly-elected United States Senators, under certain circumstances, to begin their terms of office with greater seniority thereby maximizing their ability to represent the State. Specifically, this measure requires the Governor to appoint a newly-elected Senator to office if the incumbent vacates the office prior to the expiration of the incumbent's term.

Your Committee on Conference has amended this measure by changing its effective date to upon approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1646, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1646, H.D. 1, S.D. 1, C.D. 1.

Conf. Com. Rep. 126-18 on H.B. No. 1770

The purpose of this measure is to appropriate funds for a grant-in-aid to the City and County of Honolulu Department of the Prosecuting Attorney for the career criminal prosecution unit.

Your Committee on Conference has amended this measure by changing:

- (1) The appropriation amount from an unspecified amount to \$350,000; and
- (2) Its effective date to July 1, 2018.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1770, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1770, H.D. 1, S.D. 1, C.D. 1.

Managers on the part of the House.
Ayes, 3. Noes, none. Excused, 1 (Cullen).

Conf. Com. Rep. 128-18 on H.B. No. 1614

The purpose of this measure is to establish an automatic restraining order that issues upon the filing of a complaint in a proceeding for annulment, divorce, or separation. The automatic restraining order is intended to:

- (1) Preserve the financial assets of the parties and their dependents; and
- (2) Maintain the current island of residence and school of enrollment of a minor child of the parties.

Your Committee on Conference has amended this measure by changing its effective date to July 1, 2018.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1614, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1614, H.D. 1, S.D. 1, C.D. 1.

Ayes, 2. Noes, none. Excused, 1 (Thielen).

Conf. Com. Rep. 129-18 on S.B. No. 2237

The purpose of this measure is to:

- (1) Transfer fee interest in certain public school lands from the City and County of Honolulu and Department of Land and Natural Resources, as applicable, to the Department of Education; and
- (2) Exempt transferred lands from classification as public lands.

Your Committee on Conference finds that many public schools in Hawaii require extensive renovation or rebuilding, and that this process is unnecessarily complicated by having state schools on county land, or situated on both county and state land. Transferring a fee simple interest for county school lands to the State will greatly simplify the process of undertaking much needed repairs and renovations.

Your Committee on Conference has amended this measure by:

- (1) Inserting the contents of the S.D. 2 version, which:
 - (A) Requires the City and County of Honolulu to transfer to the Department of Education all property upon which a public elementary or intermediate school is situated;
 - (B) Gives the Department of Education power to acquire and hold title to real, personal, or mixed property for use for public educational purposes; and
 - (C) Requires legislative approval prior to the sale or gift of lands to which the Department of Education holds title;
- (2) Clarifying the purpose of the measure as it relates to the transfer of lands owned, operated, maintained, and managed by the City and County of Honolulu, some of which are public park lands;
- (3) Specifying that work to initiate the transfer of parcels identified in this measure shall start no later than December 31, 2018;
- (4) Inserting language that requires the Department of Education to incur all fees and costs associated with, and for, the subdividing of the land;
- (5) Specifying that the Department of Education is prohibited from selling any property, real or personal, or any interest therein, except to a government entity;
- (6) Clarifying the definition of "real property" as it relates to agreed upon easements;
- (7) Specifying that the lands conveyed under this measure shall revert back to the City and County of Honolulu if the land is not used for public educational purposes;
- (8) Inserting an appropriation amount of \$100,000 as a grant-in-aid to the City and County of Honolulu to prepare, execute, and record the quitclaim deeds;
- (9) Changing the effective date to upon approval; provided that the appropriation section shall take effect on July 1, 2018; and
- (10) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

Your Committee on Conference further finds that some of the parcels of land being transferred and subdivided pursuant to this measure were previously used as park land.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2237, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2237, S.D. 2, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, none.

Representatives Woodson, Yamane, Todd, Hashem and Ward.
Managers on the part of the House.
Ayes, 5. Noes, none. Excused, none.

Conf. Com. Rep. 130-18 on S.B. No. 2790

The purpose of this measure is to amend chapter 587A, Hawaii Revised Statutes, by repealing the guiding principles for children in foster care and replacing the section with the rights of children in foster care.

Your Committee on Conference finds that in 2015, roughly two thousand youth were in foster care in the State. The new section proposed by this measure codifies best practices that have been developed with input from former and current foster care youth and aligns with Public Law 113-183, which requires the rights of a child aged fourteen and older regarding education, health, visitation, and court participation to be documented in the child's case plan and requires a signed acknowledgment of the provision of these rights. Your Committee on Conference further finds that the new section proposed by this measure includes additional rights, such as culturally responsive services, requests for an attorney, and transportation to attend the school of origin. The rights of foster care children are a priority, and this measure provides these individuals additional protections and rights to lead successful lives.

Your Committee on Conference has amended this measure by:

- (1) Simplifying rights relating to living in a home; receiving food, shelter, and clothing; health insurance plan enrollment; and health assessment and treatment;
- (2) Clarifying that the rights of children in foster care established by this measure shall not give rise to a private cause of action for a violation of any right under the applicable law; and
- (3) Changing the effective date to upon approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2790, S.D. 2, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2790, S.D. 2, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Green, Taniguchi, Chang and Thielen.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, 1 (Chang).

Representatives Mizuno, San Buenaventura, Kobayashi and Tupola.
Managers on the part of the House.

Conf. Com. Rep. 131-18 on S.B. No. 2909

The purpose of this measure is to:

- (1) Require the Legislative Reference Bureau to conduct a study that examines consolidating the law enforcement activities and responsibilities of various state divisions and agencies under a single, centralized state enforcement division or agency and submit a report of its findings and recommendations, including any proposed legislation, to the Legislature no later than twenty days prior to the convening of the 2019 Regular Session; and
- (2) Appropriate funds to the Legislative Reference Bureau for the purposes of this measure.

Your Committee on Conference finds that the distribution of duties between multiple state agencies for the purposes of law enforcement is unnecessary and inefficient. Under existing law, the Departments of Land and Natural Resources, Public Safety, and Transportation all have independent law enforcement duties. However, your Committee on Conference finds that these agencies engage in some law enforcement activities. Therefore, your Committee on Conference finds that the Legislative Reference Bureau should conduct a study to examine the logistics and efficiencies of consolidating the law enforcement activities and responsibilities of various state divisions and agencies under a single, centralized state enforcement division or agency.

Your Committee on Conference has amended this measure by:

- (1) Removing language making an appropriation to the Legislative Reference Bureau to complete the study;
- (2) Changing the effective date to July 1, 2018; and
- (3) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2909, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2909, S.D. 2, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Kim, Taniguchi, Nishihara, Kahele and Ruderman.
Managers on the part of the Senate.
Ayes, 4. Noes, none. Excused, 1 (Nishihara).

Representatives Johanson, Nishimoto, Cullen and McDermott.
Managers on the part of the House.
Ayes, 3. Noes, none. Excused, 1 (McDermott).

Conf. Com. Rep. 132-18 on H.B. No. 2131

The purpose of this measure is to address the manner in which sexual assault evidence collection kits are processed and tracked and to ensure that victims of sexual assault are informed of their rights under the law.

Your Committee on Conference has amended this measure by:

- (1) Clarifying that DNA profiles be developed from isolation of all DNA, rather than just autosomal DNA;
- (2) Correcting a reference to federal law;
- (3) Specifying that the annual reports to the President of the Senate and the Speaker of the House of Representatives also include the number of prosecutions initiated as a result of an actionable Combined DNA Index System hit on sexual assault evidence collection kits collected prior to July 1, 2016;
- (4) Specifying the amount appropriated out of the DNA Registry Special Fund to be \$350,743;
- (5) Deleting the proviso requiring the Department of the Attorney General to expend \$350,743 in addition to the amount appropriated;
- (6) Changing its effective date to July 1, 2018;
- (7) Changing the delayed effective date for the implementation of procedures for unreported sexual assault evidence collection kits to January 1, 2019; and
- (8) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 2131, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 2131, H.D. 1, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Taniguchi, Keith-Agaran and Thielen.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, none.

Representatives Nishimoto, Cullen, Ichiyama and Thielen.
Managers on the part of the House.
Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. 133-18 on H.B. No. 2306

The purpose of this measure is to provide that the amount appropriated in Act 183, Session Laws of Hawaii 2017, shall be deposited into the Food Safety Certification Costs Grant Program Special Fund (Special Fund) and that the same sum shall be appropriated out of the Special Fund for fiscal year 2018-2019 for the Food Safety Certification Costs Grant Program (Program), provided that any funds that are unencumbered as of June 30, 2019, shall lapse to the credit of the general fund.

Your Committee on Conference has amended this measure by:

- (1) Deleting the discussion relating to the inadvertent failure to deposit into and subsequently transfer the \$500,000 appropriation from the Special Fund to the Program during fiscal year 2017-2018;
- (2) Repealing the Special Fund; and
- (3) Appropriating \$500,000 of general revenues of the State for fiscal year 2018-2019 to be expended by the Department of Agriculture for the Program.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 2306, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 2306, H.D. 1, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Gabbard, English and Riviere.
Managers on the part of the Senate.
Ayes, 2. Noes, none. Excused, 1 (Riviere).

Representatives Creagan, DeCoite and Thielen.
Managers on the part of the House.
Ayes, 3. Noes, none. Excused, none.

Conf. Com. Rep. 134-18 on H.B. No. 1577

The purpose of this measure is to assist the State in meeting its Aloha+ Challenge goal of seventy percent waste stream reduction by 2025 by encouraging the use of compost:

- (1) In Department of Education (DOE) schools by:
 - (A) Establishing a Composting Grant Pilot Project Working Group (Working Group) to develop guidelines, make grant recommendations, and provide oversight for campus composting; and

- (B) Appropriating funds to the DOE to establish and implement the Working Group and to provide grants for school composting projects pursuant to the Working Group's recommendations; and
- (2) In agricultural operations by:
- (A) Requiring the Department of Agriculture (DOA) to establish and implement a three-year Compost Reimbursement Pilot Program to provide reimbursement to Hawaii farmers and ranchers for the purchase of compost and report on the Program to the Legislature;
- (B) Establishing a full-time, temporary Compost Reimbursement Pilot Program Manager position within DOA; and
- (C) Appropriating funds to DOA for the Compost Reimbursement Pilot Program.

Your Committee on Conference has amended this measure by:

- (1) Deleting provisions relating to the DOE Working Group and grants and appropriating funds to the DOE;
- (2) Appropriating \$1,000,000 to the DOA for the Compost Reimbursement Pilot Program and authorizing expenditure of:
- (A) \$50,000 per year to establish a full-time temporary program manager position for the pilot program; and
- (B) \$20,000 per year for program and administrative costs of the pilot program;
- (3) Changing the effective date to July 1, 2018; and
- (4) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1577, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1577, H.D. 1, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Kidani, Gabbard and Kahele.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, none.

Representatives Lee, Woodson, Lowen and McDermott.
Managers on the part of the House.
Ayes, 3. Noes, none. Excused, 1 (McDermott).

Conf. Com. Rep. 135-18 on H.B. No. 1802

The purpose of this measure is to amend the cesspool upgrade, conversion, or connection income tax credit pilot program by repealing the provision that restricts the Department of Health from certifying more than two residential large capacity cesspools as qualified cesspools.

Your Committee on Conference has amended this measure by changing its effective date to upon its approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1802, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1802, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Baker, English and Ruderman.
Managers on the part of the Senate.
Ayes, 2. Noes, none. Excused, 1 (Ruderman).

Representatives Lee, Mizuno, Lowen, Keohokalole and Tupola.
Managers on the part of the House.
Ayes, 4. Noes, none. Excused, 1 (Keohokalole).

Conf. Com. Rep. 136-18 on H.B. No. 1916

The purpose of this measure is to require the Executive Office on Aging (Office) to biennially update the State Plan on Alzheimer's Disease and Related Dementias (State Plan), which will include a work plan specifying the tasks, timelines, and milestones for each goal of the State Plan. This measure also requires the Office to include information on its progress towards each goal in its annual report to the Legislature.

Your Committee on Conference has amended this measure by:

- (1) Deleting the appropriation provision; and
- (2) Changing its effective date to be upon its approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1916, H.D. 2, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1916, H.D. 2, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Baker, Galuteria and Ihara.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, none.

Representatives Mizuno, Kobayashi, Learmont and Tupola.
Managers on the part of the House.
Ayes, 3. Noes, none. Excused, 1 (Tupola).

Conf. Com. Rep. 137-18 on H.B. No. 2277

The purpose of this measure is to establish the East Hawaii Child Welfare Services Pilot Project, a five-year pilot project, within the Department of Human Services to ensure the safety and well-being of at-risk children and families in east Hawaii on Hawaii island by:

- (1) Limiting the number of children supervised by each east Hawaii Child Welfare Services Section social worker to twenty or fewer;
- (2) Appropriating funds for hiring additional case managers, administrative costs for the east Hawaii Child Welfare Services Section on Hawaii island, and travel costs for the Child Welfare Services Division to train new hires;
- (3) Appropriating funds for the cost of appointing guardians ad litem for minors and court-appointed legal counsel for parents of minors in child welfare cases in the third circuit; and
- (4) Requiring the Department of Human Services to submit reports about the pilot project to the Legislature no later than twenty days prior to each Regular Session until 2025.

Your Committee on Conference has amended this measure by:

- (1) Removing from the pilot project the six-month goal of limiting the number of children supervised by each east Hawaii Child Welfare Services Section social worker;
- (2) Changing the appropriation for establishing additional positions, administrative costs for the east Hawaii Child Welfare Services Section on Hawaii island, and travel costs for the Child Welfare Services Division to train new hires by:
 - (A) Specifying the appropriation amount as \$321,598;
 - (B) Changing the number of full-time equivalent positions from eight to four; and
 - (C) Changing the position title from case manager to child/adult protective services specialist;
- (3) Removing the appropriation for the costs of appointing guardians ad litem for minors and court-appointed legal counsel for parents of minors in child welfare cases in the third circuit;
- (4) Changing its effective date to upon approval, provided that the appropriation takes effect on July 1, 2018; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

Your Committee on Conference requests that the Department of Human Services submit to the Legislature a report on the status of filling the four full-time equivalent child/adult protective services specialist positions established by this Act, no later than twenty days prior to the convening of the Regular Session of 2019.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 2277, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 2277, H.D. 1, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Green, Shimabukuro, Chang and Wakai.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, 1 (Wakai).

Representatives Mizuno, Todd, Learmont, Nakashima and Tupola.
Managers on the part of the House.
Ayes, 4. Noes, none. Excused, 1 (Nakashima).

Conf. Com. Rep. 138-18 on S.B. No. 2384

The purpose of this measure is to:

- (1) Allow the Department of Education to develop a comprehensive plan to integrate design thinking and coding in middle, intermediate, and high school curriculums; and
- (2) Require that any such plan developed by the Department of Education, including any proposed legislation, be submitted to the Legislature prior to the 2019 Regular Session.

Your Committee on Conference finds that many of Hawaii's public schools have already implemented courses in science, technology, engineering, and math, also known as the STEM fields, in their curriculum. However, many curriculums are designed to solely focus on outcome-based results and potential economic impact, which may compromise innovation and creativity when applied to the STEM fields. Design thinking is an approach to learning, collaboration, and problem solving that is structured for identifying challenges, gathering information, generating potential solutions, refining ideas, and testing solutions. Including design thinking in curriculums can improve and enhance the curriculum and assist students in creatively solving problems.

Your Committee on Conference has amended this measure by changing the effective date to July 1, 2018.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2384, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2384, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Kidani, Shimabukuro and Espero.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, none.

Representatives Woodson, Cullen, Hashem and Matsumoto.
Managers on the part of the House.
Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. 139-18 on S.B. No. 2382

The purpose of this measure is to require the Department of Accounting and General Services to:

- (1) Conduct biennial surveys of all departments concerning any unused facilities that may be used by public charter schools and maintain an inventory of all such unused facilities; and
- (2) Provide biennial reports on the inventory to the State Public Charter School Commission.

Your Committee on Conference finds that facilities funding is the greatest financial burden upon public charter schools. Many charter schools improvise by using temporary structures for instruction. By requiring the Department of Accounting and General Services to compile and maintain an inventory of unused departmental facilities that may be used by public charter schools, these public charter schools can continue to provide quality education in facilities that help to ensure the financial, academic, and organizational health of public charter schools.

Your Committee on Conference has amended this measure by changing the effective date to July 1, 2018.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2382, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2382, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Kidani, Kim and Kahele.
Managers on the part of the Senate.
Ayes, 2. Noes, none. Excused, 1 (Kahele).

Representatives Woodson, Cullen, Kong, Ohno and Matsumoto.
Managers on the part of the House.
Ayes, 4. Noes, none. Excused, 1 (Ohno).

Conf. Com. Rep. 140-18 on S.B. No. 2351

The purpose of this measure is to prohibit:

- (1) Prospective employers from requesting or considering a job applicant's prior wage or salary history in the job application process; and
- (2) Enforced wage secrecy and prohibit retaliation or discrimination against employees who disclose, discuss, or inquire about their own or coworkers' wages for the purpose of exercising rights under the law.

Your Committee on Conference finds that pay disparity persists between men and women who do similar work. Existing Hawaii law generally prohibits an employer from paying an employee at wage rates less than the rates paid to employees of the opposite sex; however, in 2015, the gender wage gap for women in comparison to men in Hawaii stood at eighty-four cents on the dollar and less than eighty cents on the dollar for women of color. This wage gap extends across almost all occupations reporting in Hawaii. Your Committee on Conference further finds that the ability of employers to consider a job applicant's previous salary history and pay secrecy are contributing factors to the gender pay disparity therefore, this measure is a step toward promoting equality in the workplace and ending pay discrimination against women, particularly women of color.

Your Committee on Conference has amended this measure by changing the effective date to January 1, 2019.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2351, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2351, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Tokuda, Taniguchi and Keith-Agaran.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, none.

Representatives Johanson, Nishimoto, Cullen, Ichiyama and Matsumoto.
Managers on the part of the House.
Ayes, 5. Noes, none. Excused, none.

Conf. Com. Rep. 141-18 on S.B. No. 2346

The purpose of this measure is to:

- (1) Establish the address confidentiality program in the Department of the Attorney General to help survivors of domestic abuse, sexual assault, and stalking to relocate and keep the location of their physical address confidential; and
- (2) Make an appropriation to the Department of the Attorney General for implementation and operation of the address confidentiality program.

Your Committee on Conference finds that survivors of domestic abuse, sexual offenses, or stalking may move to a new address in order to prevent being found by an assailant or potential assailant, but moving to a new address only provides protection if the assailant or potential assailant does not discover the new address. Maintaining the confidentiality of a new address is especially difficult in a location such as an island where space is limited. Each time a survivor is forced to provide an address for public agencies, employment, or court documents, the risk that the address will be discovered by an assailant or potential assailant increases. An address confidentiality program will provide protection and additional safety for survivors of domestic abuse, sexual offenses, or stalking.

Your Committee on Conference has amended this measure by:

- (1) Changing the language relating to service of process for court orders requiring the disclosure of a program participant's actual address to match language relating to service of process already established elsewhere in the measure;
- (2) Removing the appropriation to the Department of the Attorney General;
- (3) Changing the effective date to July 1, 2018; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2346, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2346, S.D. 2, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Taniguchi, Keith-Agaran, Kim and Thielen.

Managers on the part of the Senate.

Ayes, 4. Noes, none. Excused, none.

Representatives Nishimoto, Luke, San Buenaventura and Thielen.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. 142-18 on S.B. No. 2693

The purpose of the measure is to appropriate moneys for the planning of the Thirteenth Festival of Pacific Arts, which is to be hosted in the State in 2020.

Your Committee on Conference finds that planning and hosting the Thirteenth Festival of the Pacific Arts will increase international appreciation of the State's culture and help to create a global market for the State's art, ideas, and products.

Your Committee on Conference has amended this measure by:

- (1) Changing the appropriation from an unspecified amount to \$950,000;
- (2) Changing the effective date from June 15, 1215, to July 1, 2018; and
- (3) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2693, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2693, S.D. 1, H.D. 1, C.D. 1.

Signed by the Senate President and Chairs on behalf of the Committee.

Senators Keith-Agaran, Galuteria and English.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, none.

Representatives LoPresti, Fukumoto, Choy and Ward.

Managers on the part of the House.

Ayes, 3. Noes, none. Excused, 1 (Ward).

Conf. Com. Rep. 143-18 on S.B. No. 2514

The purpose of this measure is to provide that, for the purpose of the general excise tax law, a person is engaging in business in the State if, in the current or immediately preceding calendar year, the person has either:

- (1) \$100,000 or more in gross income or gross proceeds from the sale of tangible personal property delivered in the State, services used or consumed in the State, or intangible property used in the State; or

- (2) Two hundred or more separate sales transactions thereof.

Your Committee on Conference finds that this measure will clarify the circumstances under which a person will be considered to be engaged in business in the State and therefore subject to the general excise tax. Your Committee on Conference further finds that this measure will ensure fair competition among all businesses, regardless of location, that sell goods and services in the State.

Your Committee on Conference has amended this measure by changing its effective date from July 1, 2030, to July 1, 2018.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2514, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2514, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Keith-Agaran, Galuteria and Riviere.
Managers on the part of the Senate.
Ayes, 2. Noes, none. Excused, 1 (Riviere).

Representatives Luke, Cullen and McDermott.
Managers on the part of the House.
Ayes, 2. Noes, none. Excused, 1 (McDermott).

Conf. Com. Rep. 144-18 on S.B. No. 2571

The purpose of this measure is to preserve marine ecosystems, including coral reefs, by:

- (1) Beginning July 1, 2019, prohibiting the sale, offer for sale, and distribution for sale in Hawai'i of any sunscreen containing oxybenzone or octinoxate, or both, without a prescription from a licensed healthcare provider;
- (2) Prohibiting a county from enacting any ordinance or regulatory restriction to prohibit the sale, use, labeling, packaging, handling, distribution, or advertisement of sunscreens containing oxybenzone or octinoxate, or both, prior to July 1, 2019; and
- (3) Appropriating funds to the Department of Land and Natural Resources for outreach and education on the prohibition and environmental impacts of sunscreen containing oxybenzone and octinoxate.

Your Committee on Conference finds that two chemicals contained in many sunscreens, oxybenzone and octinoxate, have significant harmful impacts on the marine environment and ecosystems of Hawai'i, including coral reefs that protect the shoreline. Furthermore, as the environmental contamination of oxybenzone and octinoxate is constantly refreshed and renewed daily by swimmers and beachgoers who apply sunscreens containing these two chemicals, the contamination persists in the coastal waters of Hawai'i. By prohibiting the sale and distribution in Hawai'i of sunscreens containing oxybenzone or octinoxate, or both, without a prescription, this measure preserves marine ecosystems, including coral reefs, in Hawai'i.

Your Committee on Conference has amended this measure by:

- (1) Delaying from July 1, 2019, to January 1, 2021, the beginning date from which the sale and distribution of sunscreens containing oxybenzone or octinoxate, or both, are prohibited;
- (2) Prohibiting a county from enacting an ordinance or regulatory restriction to prohibit the sale, distribution, or advertisement of sunscreens containing oxybenzone or octinoxate, or both, prior to January 1, 2021, rather than July 1, 2019;
- (3) Clarifying that sunscreen is a product marketed or intended for topical use to prevent sunburn and does not include products marketed or intended for use as a cosmetic for the face;
- (4) Removing the appropriation to the Department of Land and Natural Resources for outreach and education on the prohibition and environmental impacts of sunscreen containing oxybenzone and octinoxate; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2571, S.D. 2, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2571, S.D. 2, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Rhoads, Gabbard, Baker, English, Dela Cruz and Riviere.
Managers on the part of the Senate.
Ayes, 6. Noes, none. Excused, none.

Representatives Lee, Takumi, Luke, Todd and Ward.
Managers on the part of the House.
Ayes, 5. Noes, none. Excused, none.

Conf. Com. Rep. 145-18 on S.B. No. 2990

The purpose of this measure is to establish paid family leave for all employees in the State and lay the groundwork to implement a framework of laws and policies so that all employees can access leave benefits during times when they need to provide care for a family member.

Among other things, this measure:

- (1) Establishes a temporary paid family leave implementation board (Board) within the Department of Human Services (DHS) to assist in establishing paid family leave for all workers in the State and to report on implementation to the Legislature;
- (2) Establishes the paid family leave special fund to support expenditures for staff and other administrative and operational costs of establishing paid family leave;
- (3) Establishes the paid family leave supplementation special fund to provide small business assistance grants to employers with fifty or fewer employees to offset wage costs;
- (4) Specifies that by January 1, 2020, DHS shall adopt interim rules, exempt from Chapter 91, Hawaii Revised Statutes, that establish and codify paid family leave for all workers in the State;
- (5) Specifies that DHS's interim rules shall remain in effect until January 1, 2022, or until rules are adopted, pursuant to chapter 91, Hawaii Revised Statutes, whichever occurs sooner;
- (6) Specifies that collection of payments under the paid family leave program shall begin by July 1, 2021, and the processing of payments shall begin by July 1, 2022;
- (7) Requires the Legislative Reference Bureau (LRB) to conduct an analysis of specified items to be included in the Board's report to the Legislature; and
- (8) Appropriates funds for LRB to conduct its analysis and to DHS to fund a full-time program manager to support the Board, the expenses of the Board, and the expenses of DHS in establishing paid family leave.

Your Committee on Conference finds that Hawaii's working families are especially vulnerable, and that the majority of Hawaii's workforce cannot afford to take unpaid leave to provide care for a newborn, bond with a new child, care for a family member with a serious health condition, or be a caregiver to an aging parent. Yet, for 240,000 employees who serve as primary caregivers to a family member, this is the dilemma they face. Your Committee on Conference further finds that seven in ten children live in a household where both parents work, and over a quarter of children live in households with single parents; therefore, a lack of meaningful paid family leave policies puts them most at risk. Your Committee on Conference also finds that the Legislature must ensure that it has the best information available prior to determining the most appropriate framework or model for the establishment of paid family leave for the State and relative potential impacts and safeguard measures.

Accordingly, your Committee on Conference has amended this measure by:

- (1) Deleting language that would have established a paid family leave special fund and paid family leave supplementation special fund;
- (2) Deleting language that would have required DHS to adopt rules to establish and codify paid family leave for all workers in the State by January 1, 2020;
- (3) Deleting language that would have established the Board;
- (4) Requiring the LRB to conduct a sunrise analysis and submit a report to the Legislature of the impacts and potential frameworks or models for paid family leave in the State by September 1, 2019;
- (5) Specifying the scope of the sunrise analysis;
- (6) Authorizing the LRB to request and obtain any data from relevant state departments and agencies necessary to conduct the sunrise analysis;
- (7) Updating the purpose section;
- (8) Inserting an appropriation amount of \$350,000 for LRB to conduct the sunrise analysis;
- (9) Specifying that the LRB may contract the services of a consultant to assist in conducting the sunrise analysis;
- (10) Changing the effective date to July 1, 2018; and
- (11) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2990, S.D. 2, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2990, S.D. 2, H.D. 2, C.D. 1.

Ayes, 3. Noes, none. Excused, none.

Representatives Johanson, Luke and Tupola.
Managers on the part of the House.
Ayes, 2. Noes, none. Excused, 1 (Tupola).

Conf. Com. Rep. 146-18 on H.B. No. 2538

The purpose of this measure is to address the disposal of solid waste and the high cost of livestock feed in the State by authorizing the issuance of \$4,000,000 in general obligation bonds to finance the planning, design, and construction of a livestock feed mill using waste materials by the Agribusiness Development Corporation in partnership with a viable and qualified entity to establish such a

livestock feed mill operation. This measure further lapses the appropriations for a feed lot and thermophilic biodigester in the General Appropriations Act of 2015, as amended through and including the General Appropriations Act of 2017 (Budget).

Your Committee on Conference has amended this measure by:

- (1) Amending specified items in the Capital Improvement Projects part of the Budget related to a livestock feed mill and a waste stream recycling facility in the General Appropriations Act of 2015, as amended;
- (2) Changing the lapsing date of the appropriations in the Budget to June 30, 2019; and
- (3) Changing its effective date to upon its approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 2538, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 2538, H.D. 1, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Gabbard, English and Nishihara.

Managers on the part of the Senate.

Ayes, 2. Noes, none. Excused, 1 (Nishihara).

Representatives Creagan, Cullen, Yamashita and Thielen.

Managers on the part of the House.

Ayes, 3. Noes, 1 (Thielen). Excused, none.

Conf. Com. Rep. 147-18 on H.B. No. 1932

The purpose of this measure is to:

- (1) Authorize state and county agencies to adopt emergency rules to account for changes in controlling and superseding federal legislation or federal or state court decisions, subject to requirements for thirty days notice and public hearing; and
- (2) Specify that such emergency rules shall be effective until the Legislature has passed legislation relating to the subject matter of the emergency rule and the legislation has either been enacted or vetoed by the Governor.

Your Committee on Conference has amended this measure by:

- (1) Specifying that an emergency rule adopted pursuant to this measure shall be effective until no later than adjournment sine die of the next regular legislative session following adoption of the emergency rule;
- (2) Changing its effective date to upon approval; and
- (3) Making technical, nonsubstantive amendments to distinguish emergency rules adopted pursuant to this measure due to changes in controlling and superseding law from emergency rules adopted pursuant to existing statutory authority due to imminent peril to the public health, safety, or morals, or to livestock or poultry health.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1932, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1932, H.D. 1, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Kim, Taniguchi, Ruderman and Thielen.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, 1 (Thielen).

Representatives Johanson, Holt, Ichiyama and Ward.

Managers on the part of the House.

Ayes, 3. Noes, none. Excused, 1 (Ward).

Conf. Com. Rep. 148-18 on H.B. No. 2071

The purpose of this measure is to:

- (1) Require the Governor to appoint a law enforcement working group to recommend professional recruitment, hiring, and training standards for all state and county law enforcement officers who carry firearms and badges and who have arrest authority; and
- (2) Prohibit law enforcement officers who are terminated for misconduct by a state or county department, agency, or office in a law enforcement capacity from being hired by another state or county law enforcement department, agency, or office unless the officer is reinstated through collective bargaining or the legal process.

Upon consideration, your Committee on Conference has amended this measure to:

- (1) Establish a Law Enforcement Standards Board (Board) to provide standards and programs for training and certification of law enforcement officers;
- (2) Prospectively require the appointment and employment of only Board-certified law enforcement officers for specified state agencies and county police departments;

- (3) Require the Board to adopt rules pursuant to Chapter 91, Hawaii Revised Statutes, that establish criteria for the certification process, as well as the denial, suspension, or revocation of a law enforcement officer's certification;
- (4) Establish the Law Enforcement Standards Board Special Fund (Special Fund);
- (5) Appropriate \$100,000 out of the general fund into the Special Fund for the purposes of the measure; and
- (6) Make July 1, 2018, the effective date of the measure.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 2071, H.D. 2, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 2071, H.D. 2, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Nishihara, Tokuda, Taniguchi and Galuteria.

Managers on the part of the Senate.

Representatives Johanson, Nishimoto, Holt, Keohokalole and Matsumoto.

Managers on the part of the House.

Ayes, 5. Noes, none. Excused, none.

Conf. Com. Rep. 149-18 on H.B. No. 1778

The purpose of this measure is to:

- (1) In the event of a controverted workers' compensation claim, require an injured employee's private health care plan to pay for or provide medical care, services, and supplies in accordance with the private health care contract; provided that the employer shall reimburse the private health care plan and the injured employee when the claim is accepted; and
- (2) In the event of an accepted workers' compensation claim for leukemia, multiple myeloma, non-Hodgkin lymphoma, or certain other cancers by firefighters with five or more years of service, require employers to be liable for an unspecified percentage of fees for medical care, services, and supplies associated with the claim.

Your Committee on Conference has amended this measure by:

- (1) Specifying a maximum limit of one hundred fifty percent of fees, as prescribed in the Medicare Resource Based Relative Value Scale, for medical care, services, and supplies that an employer is liable for related to accepted workers' compensation claims for leukemia, multiple myeloma, non-Hodgkin lymphoma, or certain other cancers by firefighters with five or more years of service; and
- (2) Changing its effective date to take effect upon its approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1778, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1778, H.D. 1, S.D. 1, C.D. 1.

Representatives Johanson, Takumi, Holt and Matsumoto.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. 150-18 on H.B. No. 1489

The purpose of this measure is to promote civil rights in education.

More specifically, the measure provides for a state corollary to Title IX of the Educational Amendments of 1972 (20 U.S.C. 1681 et seq.) (Title IX) that prohibits discrimination on the basis of sex, including gender identity or expression or sexual orientation, in any state educational program or activity or any state-funded educational program or activity.

Your Committee on Conference finds that although Title IX triggered a seismic shift in the education landscape by prohibiting discrimination on the basis of sex by any education program or activity receiving federal funds, the efficacy of Title IX federal protections against sex discrimination in education has been more recently diminished and eroded. Your Committee therefore believes that it is time for the State to consider and address the need for a corollary to Title IX in state law.

Your Committee on Conference has amended this measure by:

- (1) Deleting certain sex-specific exemptions to the general anti-discrimination provisions of the measure;
- (2) Deleting various provisions relating to enforcement and remedies;
- (3) Deleting all references to the Hawaii Civil Rights Commission;
- (4) Inserting the anti-discrimination provisions of the measure into a new chapter within Title 20 of the Hawaii Revised Statutes;

- (5) Inserting a section, effective July 1, 2018, that requires the Legislative Reference Bureau to:
- (A) Conduct a study of existing Title IX procedures at the federal level and in other jurisdictions; and
 - (B) Submit to the Legislature, no later than twenty days prior to the convening of the Regular Session of 2019, a report including findings, recommendations, and proposed legislation concerning an appropriate enforcement mechanism for the anti-discrimination provisions of the measure; and
- (6) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1489, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1489, H.D. 1, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Tokuda, Taniguchi, English and Rhoads.

Managers on the part of the Senate.

Ayes, 4. Noes, none. Excused, none.

Representatives Johanson, Nishimoto, Luke, Ichiyama, Yamashita and McDermott.

Managers on the part of the House.

Ayes, 5. Noes, none. Excused, 1 (McDermott).

Conf. Com. Rep. 151-18 on S.B. No. 2293

The purpose of this measure is to:

- (1) Require the County of Maui to pursue available remedies to recoup any and all monies expended for the Front Street Apartments affordable housing project from the leasehold fee owners and owners of the improvements constructed thereon, or their successors in interest in the construction of the Front Street Apartments as an affordable housing project;
- (2) Appropriate out of the Hawaii Housing Finance and Development Corporation's rental assistance program an unspecified amount for the Corporation to maintain affordable rents to the Front Street Apartments tenants by providing a three-year rent subsidy; provided that the leasehold fee and improvement owners, or their successors, provide dollar-for-dollar matching funds, and if no matching funds are provided, prohibiting the leasehold fee and improvement owners, or their successors, from doing business in the State; and
- (3) Appropriate an unspecified amount out of the Hawaii Housing Finance and Development Corporation revenues to expedite and complete the construction of Leialii affordable housing project in Lahaina, Maui, by 2021, provided that the County of Maui expedites the planning and permitting process for the Leialii affordable housing project.

Your Committee on Conference finds that the Front Street Apartments on Maui provide affordable housing to more than two hundred fifty low-income residents. These apartments were developed in 2001 as an affordable rental housing project with one hundred forty-two apartment units, using state financing and state tax credits, and were expected to remain affordable to low-income tenants for fifty years. However, the owners of the Front Street Apartments recently exercised an option to remove the property from affordability requirements that were tied to the development of the property, and this change will allow them to begin renting available apartments at market rates and likely raise rents for existing tenants within a few years. This measure provides a mechanism to assist in preserving the Front Street Apartments on Maui as an affordable rental housing project.

Your Committee on Conference has amended this measure by removing its contents and inserting language that:

- (1) Requires the Hawaii Housing Finance and Development Corporation to institute proceedings for the condemnation of the ground lease for the Front Street Apartments affordable housing project;
- (2) Appropriates \$250,000 for an appraisal and other preparations for instituting the condemnation proceedings, provided that the County of Maui provides dollar-for-dollar matching funds;
- (3) Appropriates \$30,000,000 out of the rental housing revolving fund to expedite and complete the construction of the Leialii affordable housing project in Lahaina, Maui, by 2021; and
- (4) Changes the effective date to July 1, 2018.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2293, S.D. 2, H.D. 3, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2293, S.D. 2, H.D. 3, C.D. 1.

Representatives Brower, Johanson, Luke, Hashimoto, Nakamura and McDermott.

Managers on the part of the House.

Ayes, 6. Noes, none. Excused, none.

Conf. Com. Rep. 152-18 on H.B. No. 1401

The purpose of this measure is to reduce the logistical issues related to conducting elections at polling places by:

- (1) Requiring all elections statewide to be conducted by mail beginning with the 2020 primary election;
- (2) Establishing a limited number of voter service centers that would remain open on the day of an election; and
- (3) Providing additional places for personal delivery of mail-in ballots.

Your Committee on Conference has amended this measure by:

- (1) Changing the elections by mail program from a statewide program for all elections to a pilot program for the 2020 primary and general elections in any county with a population of less than 100,000;
- (2) Appropriating \$75,450 for the implementation and administration of the pilot program; and
- (3) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1401, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1401, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Ayes, 3. Noes, none. Excused, none.

Representatives Nishimoto, Luke, Morikawa, Nakamura and Tupola.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, 1 (Tupola).

Conf. Com. Rep. 153-18 on S.B. No. 2074

The purpose of this measure is to extend the period of time during which the Department of Agriculture may certify important agricultural land qualified agricultural cost tax credits through December 31, 2028.

Your Committee on Conference finds that to address the issue of important agricultural lands, Act 183, Session Laws of Hawaii 2005 (Act 183), established standards, criteria, and mechanisms to identify important agricultural lands and to implement the intent and purpose of article XI, section 3, of the Hawaii State Constitution. Act 233, Session Laws of Hawaii 2008, subsequently established incentives under the requirements of Act 183, including the important agricultural land qualified agricultural cost tax credit. Your Committee on Conference finds that this measure provides additional time for certification of such tax credits to allow landowners and farmers to claim the tax credit in the event their agricultural lands are identified as potential important agricultural lands and designated as such by the Land Use Commission.

Your Committee on Conference has amended this measure by:

- (1) Shortening the extension period during which the Department of Agriculture may certify important agricultural land qualified agricultural cost tax credits through December 31, 2021; and
- (2) Changing the effective date to upon approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2074, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2074, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Gabbard, English and Nishihara.

Managers on the part of the Senate.

Ayes, 2. Noes, none. Excused, 1 (Nishihara).

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. 154-18 on S.B. No. 3095

The purpose of this measure is to:

- (1) Establish a pesticide reporting and regulation program that:
 - (A) Specifies the reporting requirements for commercial agricultural entities regarding the use of restricted use pesticides to the Department of Agriculture (DOA) and deems those reports as public records; and
 - (B) Prohibits the use of a restricted use pesticide within 100 feet of a school during school instructional hours, beginning one year after the effective date of this measure;
- (2) Deposit all penalties and fines collected for violations of the Hawaii Pesticides Law into the pesticide use revolving fund;
- (3) Increase the cap on the amount of funds that may remain in the pesticide use revolving fund at the close of each fiscal year from \$250,000 to \$1,000,000;

- (4) Beginning January 1, 2019, prohibit the use or application of any pesticide containing chlorpyrifos as an active ingredient, unless the DOA grants a temporary permit authorizing the permittee, until December 31, 2021, to do so;
- (5) Appropriate \$105,648 from the pesticide use revolving fund and authorize two full-time equivalent positions to effectuate the pesticide reporting and regulation program; and
- (6) Appropriate \$300,000 from the pesticide use revolving fund for education and outreach for the pesticide reporting and regulation program.

Your Committee on Conference finds that many residents in the State are very concerned about the long-term health effects and potential negative impacts of pesticide drift, especially from pesticides containing chlorpyrifos. Children can be exposed to pesticides applied on school grounds, pesticides that drift onto school grounds, or pesticide residues, which put them at risk of developmental delays and other health complications. This measure seeks to ensure that data is collected regarding restricted use pesticide use and that schools are protected from the potential negative effects of long-term pesticide exposure.

Your Committee on Conference has amended this measure by:

- (1) Making reporting requirements applicable to all users of restricted use pesticides, rather than just commercial agricultural entities;
- (2) Specifying that post-application reporting of restricted use pesticide use reported to the DOA is for departmental use, rather than deemed public record;
- (3) Requiring the information to be included in annual reports to the DOA to include a listing of all restricted use pesticides used, not only in outdoor applications, and the date on which applications occurred;
- (4) Requiring the DOA to produce summaries for public disclosure of pesticide use by county;
- (5) Clarifying that restricted use pesticides application is prohibited on or within 100 feet of a school property during normal school hours and that such prohibition does not apply to whole structure fumigation;
- (6) Clarifying that the post-application reporting and buffer zone requirements begin January 1, 2019;
- (7) Extending the authorization under a temporary permit for use or application of any pesticide containing chlorpyrifos until December 31, 2022;
- (8) Deleting language that would have required the DOA to publicly disclose the names of all persons applying for temporary permits for use or application of any pesticide containing chlorpyrifos;
- (9) Requiring the DOA to develop a pesticide drift monitoring study no later than July 1, 2019, and to submit a report of its findings to the Legislature no later than twenty days prior to the convening of the Regular Session of 2020;
- (10) Updating various definitions;
- (11) Adding an appropriation of \$300,000 from general revenues for the pesticide drift monitoring study;
- (12) Making appropriations from general revenues rather than out of the pesticide use revolving fund for the establishment of two full-time equivalent positions and for outreach and education; and
- (13) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 3095, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 3095, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Gabbard, Baker, Kidani, Keith-Agaran and Nishihara.

Managers on the part of the Senate.

Ayes, 4. Noes, none. Excused, 1 (Nishihara).

Representatives Creagan, Lee, Cullen and Ward.

Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. 155-18 on S.B. No. 2027

The purpose of this measure is to:

- (1) Appropriate funds to continue and improve the coordinated statewide homeless initiative to prevent homelessness and rehouse homeless individuals and families; and
- (2) Require the Department of Human Services to use the appropriate funds to procure the services of a master contractor to manage subcontracts for services provided through the initiative.

Your Committee on Conference finds that since the inception of the coordinated statewide homeless initiative, the initiative has assisted over one thousand households and four thousand individuals by either preventing eviction or helping homeless families and individuals move into permanent housing. Your Committee on Conference further finds that evictions have dropped by twenty-five

percent in the City and County of Honolulu, while ninety-seven percent of households assisted by the initiative remain housed. This measure will continue to support individuals and families who seek housing assistance.

Your Committee on Conference has amended this measure by:

- (1) Deleting the requirement that the administration of the appropriated funds must conform to industry financial accounting and performance standards;
- (2) Deleting language exempting subcontracts to the master contract from chapters 42F, 103D, and 103F, Hawaii Revised Statutes;
- (3) Deleting language specifying the cost breakdown of the proposed appropriation;
- (4) Inserting an appropriation amount of \$1,500,000 to continue the coordinated statewide homeless initiative; and
- (5) Changing the effective date to July 1, 2018.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2027, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2027, S.D. 2, H.D. 1, C.D. 1.

Conf. Com. Rep. 156-18 on S.B. No. 270

The purpose of this measure is to:

- (1) Prohibit persons who are licensed to provide professional counseling in the State from engaging in, attempting to engage in, or advertising the offering of sexual orientation change efforts on minors; and
- (2) Establish the Sexual Orientation Counseling Task Force to address the concerns of minors seeking counseling on sexual orientation, gender identity, gender expressions, and related behavior.

Your Committee on Conference finds that according to the American Psychological Association, sexual orientation change efforts, also known as conversion therapy, tend to do more harm than good. Participants in sexual orientation change efforts report many negative consequences from these interventions, including anger, anxiety, depression, guilt, hopelessness, loss of social support, relationship problems with significant others and families, social isolation, suicidal thoughts, self-hatred, and sexual dysfunction. Your Committee on Conference further finds that all the leading professional organizations involved in the treatment of children have issued statements opposing sexual orientation change efforts, including the American Psychological Association, American Medical Association, American Academy of Pediatrics, American Psychiatric Association, and National Association of Social Workers.

Your Committee on Conference additionally finds that this measure prohibits specific state-licensed persons who are licensed to provide professional counseling from engaging in, attempting to engage in, or advertising sexual orientation change efforts on minors. In doing so, this measure regulates the conduct of state-licensed persons who provide professional counseling to minors under the age of eighteen, similar to existing consumer protection laws designed to protect the public against ineffective and unsafe treatment by Hawaii-licensed professionals. This measure also establishes the Sexual Orientation Counseling Task Force to address the concerns of minors seeking counseling on sexual orientation, gender identity, gender expressions, and related behavior.

Your Committee on Conference has amended this measure by:

- (1) Inserting a purpose section;
- (2) Changing the effective date to July 1, 2018; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 270, S.D. 1, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 270, S.D. 1, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Baker, Chang and Tokuda.

Conf. Com. Rep. 157-18 on S.B. No. 2653

The purpose of this measure is to:

- (1) Establish requirements for licensure by endorsement for physicians, surgeons, and osteopathic physicians; and
- (2) Appropriate an unspecified sum from the compliance resolution fund to implement the licensure by endorsement process.

Your Committee on Conference finds that Hawaii is facing a critical shortage of health care providers in almost every field of practice. Your Committee on Conference further finds that the Hawaii Medical Board (Board) currently lacks the ability to grant licensure by endorsement to physicians, surgeons, and osteopathic physicians who are fully qualified and licensed in another jurisdiction. This measure establishes licensure by endorsement requirements for physicians, surgeons, and osteopathic physicians, which will provide greater access to medical care in Hawaii and address the high volume of applications received from out-of-state physicians in a more streamlined manner.

Your Committee on Conference notes that this measure clearly ensures that the Board may only license physicians, surgeons, and osteopathic physicians who meet specific licensing requirements and who have not been previously disciplined by another medical or osteopathic medical board.

Your Committee on Conference has amended this measure by:

- (1) Inserting an appropriation amount of \$104,000 out of the compliance resolution fund to implement the licensure by endorsement requirements;
- (2) Inserting a purpose section;
- (3) Changing its effective date to July 1, 2018; provided that the licensure by endorsement requirements shall take effect on December 31, 2018; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2653, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2653, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Baker, English, Chang, Ruderman and Tokuda.
Managers on the part of the Senate.
Ayes, 4. Noes, none. Excused, 1 (Tokuda).

Conf. Com. Rep. 158-18 on S.B. No. 2524

The purpose of this measure is to:

- (1) Prohibit residential or congregate use of sheds or other structures on agricultural lands;
- (2) Prohibit residential development on lands previously or currently in a preservation zoning district;
- (3) Require condominium property regimes to comply with county subdivision or equivalent requirements, subject to certain exceptions; and
- (4) Specify requirements for applications for registration of a project in a county agricultural zoning district or preservation zoning district.

Your Committee on Conference finds that expanded development of agricultural lands through the existing condominium property regime process may impact the long-term viability of these newly developed condominiums, as master planning is absent, particularly with respect to supporting county infrastructure. This measure therefore allows a county to participate in the condominium property regime review process, which will improve oversight of the development of residential condominium property regimes on agricultural lands.

Your Committee on Conference has amended this measure by:

- (1) For purposes of planned community associations, requiring the owner of any parcel of land subdivided as a condominium property regime in agricultural or preservation lands to provide public notice of the sale no later than ninety days after the sale of the parcel;
- (2) Clarifying that sheds or other structures constructed on agricultural lands that are subdivided and leased for agricultural uses or activities cannot be used for residential purposes, unless such use is permitted under county ordinances and rules;
- (3) Clarifying that no residential development is to be constructed on agricultural lands that are currently in a preservation zoning district;
- (4) Establishing reporting, investigation, and penalties for violations of agriculture land use requirements;
- (5) Deleting language that would have required condominium property regimes to conform to existing county subdivision or equivalent requirements, with exceptions;
- (6) Clarifying the application requirements for registration of a project in the agricultural district, including:

- (A) Permitting the inclusion of comments on the availability of supportive infrastructure, the potential impact on environmental resources, and other requirements of county ordinances and rules; and
- (B) Deleting language that would have required a signed verified statement by an appropriate county official that the project is in compliance with any applicable supplemental county ordinances, county subdivision standards, and other rules, and an agricultural business plan, farm plan, or conservation plan;
- (7) Clarifying that the requirements for condominium property regimes added by this measure apply only to a county with a population of 750,000 or more;
- (8) Updating the purpose section;
- (9) Changing its effective date to July 1, 2018; and
- (10) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2524, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2524, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Baker, Nishihara, Gabbard, Rhoads and Tokuda.
Managers on the part of the Senate.
Ayes, 4. Noes, none. Excused, 1 (Tokuda).

Representatives Yamane, Todd, Nakamura and Yamashita.
Managers on the part of the House.
Ayes, 3. Noes, none. Excused, 1 (Yamashita).

Conf. Com. Rep. 159-18 on S.B. No. 3058

The purpose of this measure is to:

- (1) Establish a ten-year pilot project for the redevelopment of the Banyan Drive and the Kanoelehua Industrial Area of the County of Hawaii and the guidelines for the pilot project;
- (2) Appropriates funds for the establishment of the pilot project; and
- (3) Modify the request for interest and public auction process under section 171-41.6, Hawaii Revised Statutes, for certain public land leases and apply the modified process to lessees within the last twenty, rather than ten, years of their lease terms.

Your Committee on Conference finds that leases of certain public lands have a maximum term of sixty-five years and during the last few years remaining in the lease term, lessees are apprehensive to further invest in the properties prior to the expiration of the leases, which has led to the dilapidation and deterioration of properties in certain areas, such as the Banyan Drive region and the Kanoelehua Industrial Area in the County of Hawaii.

Your Committee on Conference finds that authorizing the Board of Land and Natural Resources to extend or modify fixed rental periods or terms of leases for public lands within those areas beyond the customary lease terms, or to modify any of the lease restrictions, presents an opportunity to provide existing lessees with greater certainty in their potential future tenancy on those lands and therefore greater incentive to make substantial improvements to the lands. Your Committee on Conference also finds that the increased security presented by this measure should be balanced by mandatory commitments on the part of the lessees as well, including a proposed development agreement by lessees to make substantial improvements to the lands and a deposit of a percentage of leasehold improvements by qualified bidders during the public auction process.

Your Committee on Conference finds that a pilot project in East Hawaii, which has served as a center of tourism in the State, has the potential to revitalize the local infrastructure and community and generate valuable lessons and mechanisms that may be applied and replicated in other areas of the State similarly needing revitalization.

Your Committee on Conference has amended this measure by:

- (1) Deleting language that would have established the redevelopment district pilot project for the Banyan Drive region and Kanoelehua Industrial Area and the planning committee and its powers;
- (2) Deleting the appropriation for the redevelopment district pilot project;
- (3) Defining a specific area of East Hawaii, generally known as the Banyan Drive region and Kanoelehua Industrial Area, as the "Hilo community economic district";
- (4) Authorizing the Board of Land and Natural Resources to extend or modify the fixed rental periods, terms, or restrictions on certain public land leases within the Hilo community economic district upon approval of a lessee's proposed development agreement to make substantial improvements or construct new substantial improvements on the land, provided that the extension does not extend the original lease term by more than forty years;
- (5) Establishing conditions for the Board of Land and Natural Resources to approve the proposed development agreement or any extension of the fixed rental period or term of certain leases within the Hilo community economic district;
- (6) Establishing causes of significant economic hardship for which the Board of Land and Natural Resources may modify or eliminate any restrictions on public land leases in the Hilo community economic district, extend or modify the fixed rental period of the leases, or extend the terms of the leases;

- (7) Amending the conditions for the Board of Land and Natural Resources' approval of any modification, elimination, or extension of fixed rental periods or terms of leases within the last ten years of the lease term;
- (8) Establishing a separate request for interest process for public lands in the Hilo community economic district that requires qualified bidders to deposit an amount equal to one percent of the value of the leasehold improvements;
- (9) Deleting amendments to section 171-41.6, Hawaii Revised Statutes, that would have modified the request for interest and public auction process for certain public land leases and would have applied the modified process to lessees within the last twenty years of their lease terms;
- (10) Requiring the Department of Land and Natural Resources to submit a report of its findings and recommendations to the Legislature no later than twenty days prior to convening of the Regular Session of 2019 and every year thereafter;
- (11) Changing the effective date to July 1, 2018;
- (12) Amending the purpose section to reflect its amended purpose; and
- (13) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 3058, S.D. 2, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 3058, S.D. 2, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Dela Cruz, Kahele and Galuteria.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, none.

Representatives Yamane, Evans, Todd, Cullen, Luke and Matsumoto.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, 2 (Luke, Matsumoto).

Conf. Com. Rep. 160-18 on S.B. No. 48

The purpose of this measure is to abolish the Hawaii Technology Development Corporation and the Hawaii Strategic Development Corporation and establish in their place the Hawaii Innovation and Technology Research Corporation.

This measure also converts the means of financing for several permanent and temporary positions within the Hawaii Technology Development Corporation from special funds to general funds, and appropriates general funds to the Hawaii Technology Development Corporation for other current expenses.

Your Committee on Conference believes that in order to diversify Hawaii's economy to include high-quality, knowledge-based jobs, Hawaii's innovation and technology industry should be promoted, developed, and expanded. Therefore, your Committee on Conference finds that it is in the public's interest to combine the resources, duties, and responsibilities of the Hawaii Technology Development Corporation and the Hawaii Strategic Development Corporation.

Your Committee on Conference has amended this measure by:

- (1) Deleting the provisions that establish the Hawaii Innovation and Technology Research Corporation;
- (2) Restoring the Hawaii Technology Development Corporation and repealing only the Hawaii Strategic Development Corporation;
- (3) Re-establishing the rights, powers, functions, duties, and programs of the Hawaii Strategic Development Corporation within the Hawaii Technology Development Corporation;
- (4) Changing the size and composition of the Hawaii Technology Development Corporation board of directors by:
 - (A) Reducing the size of the board from eleven to nine members;
 - (B) Eliminating the University of Hawaii faculty member from the appointed members of the board;
 - (C) Eliminating the members from the Hawaii Strategic Development Corporation and the Natural Energy Laboratory of Hawaii Authority from the ex officio members of the board; and
 - (D) Adding the Chairperson of the Department of Agriculture as an ex officio member of the board;
- (5) Renaming the Hawaii Technology Development Corporation as the Hawaii Innovation, Technology, and Research Corporation;
- (6) Clarifying that the official of the Hawaii Innovation, Technology, and Research Corporation who prescribes the duties and qualifications of transferred employees and fixes their salaries is the chief executive officer;
- (7) Authorizing the Director of Finance to transfer from the technology special fund to the general fund the sum of \$279,666 for fiscal year 2018-2019;
- (8) Increasing the general fund appropriation from \$370,410 to \$970,000 for the permanent and temporary positions in the Hawaii Technology Development Corporation whose means of financing is being converted from special funds to general funds;

- (9) Increasing the general fund appropriation for other current expenses of the Hawaii Technology Development Corporation from \$123,446 to \$720,000 and clarifying that the purpose of the appropriation is to finance a technology park coordinator position and a first responders technology park proof of concept; and
- (10) Specifying that the terms of the board members of the Hawaii Strategic Development Corporation will expire on July 1, 2020.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 48, S.D. 3, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 48, S.D. 3, H.D. 2, C.D. 1.

Signed by the Chairs and Speaker of the House of Representatives on behalf of the Committee.

Senators Dela Cruz, Wakai, Kahele and Rhoads.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, 1 (Rhoads).

Representatives Luke, Evans, McKelvey, Keohokalole and Matsumoto.
Managers on the part of the House.
Ayes, 4. Noes, none. Excused, 1 (Matsumoto).

Conf. Com. Rep. 161-18 on S.B. No. 2831

The purpose of this measure is to:

- (1) Restore until June 30, 2021, authority to the University of Hawaii President to act as the University of Hawaii Chief Procurement Officer for contracts for construction and construction-related professional services; and
- (2) Require the University of Hawaii to submit an annual report to the Legislature prior to the convening of each regular session through 2021, that details a list of all capital improvement projects approved by the Board of Regents.

Your Committee on Conference finds that procurement for contracts for construction and construction-related professional services furnished by licensees under chapter 464, Hawaii Revised Statutes, for the University of Hawaii has been under the control of the Department of Accounting and General Services for the past five years after issues were discovered relating to the University's procurement process and procedures. During that time, the University has made significant changes to its policies and procedures including engaging in some of what the State Procurement Office refers to as "best-practices". Accordingly, your Committee on Conference finds a trial-period should be established during which the University, through the University President, should be given the opportunity to again be in control of its own procurement. Your Committee on Conference also finds that in order to maintain proper oversight over the University, the University should submit an annual report to the Legislature detailing its capital improvement projects.

Your Committee on Conference has amended this measure by changing the effective date to upon approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2831, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2831, S.D. 2, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Kim, Kahele and Keith-Agaran.
Managers on the part of the Senate.
Ayes, 2. Noes, none. Excused, 1 (Keith-Agaran).

Representatives Johanson, McKelvey, Holt, Yamashita and Matsumoto.
Managers on the part of the House.
Ayes, 4. Noes, none. Excused, 1 (McKelvey).

Conf. Com. Rep. 162-18 on H.B. No. 2299

The purpose of this measure is to authorize the University of Hawaii Board of Regents, or its designee, to indemnify, defend, and hold harmless a county agency, its officers, agents, and employees, when the University of Hawaii uses county property for a university purpose or a university function, provided certain conditions are met.

Your Committee on Conference has amended this measure by changing its effective date to July 1, 2018.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 2299, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 2299, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs and Senate President on behalf of the Committee.

Senators Kahele, Taniguchi and Galuteria.
Managers on the part of the Senate.
Ayes, 2. Noes, none. Excused, 1 (Taniguchi).

Representatives McKelvey, Nishimoto, Cullen, Hashem and Matsumoto.
Managers on the part of the House.
Ayes, 4. Noes, none. Excused, 1 (Nishimoto).

Conf. Com. Rep. 163-18 on H.B. No. 2501

The purpose of this measure is to codify the Hawaii Community College Promise Program which provides scholarships for the unmet direct cost needs of qualified students enrolled at any of the University of Hawaii community college campuses. This measure also sets eligibility requirements for the scholarships, establishes a subaccount for program funding, and appropriates an unspecified amount to establish and implement the scholarship program.

Your Committee on Conference finds that this last-gap scholarship program will provide a critical bridge for many of our keiki to complete financing for their secondary education at our community colleges.

Your Committee on Conference has amended this measure by:

- (1) Appropriating \$700,000 to establish and implement the Hawaii Community College Promise Program, including the provision of the program's scholarships, at the community college campuses of the University of Hawaii;
- (2) Changing its effective date to July 1, 2018; and
- (3) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 2501, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 2501, H.D. 1, S.D. 2, C.D. 1.

Signed by the Chairs and Senate President on behalf of the Committee.

Senators Kahele, Galuteria and Chang.

Representatives McKelvey, Cullen, Gates, Todd and Matsumoto.
Managers on the part of the House.
Ayes, 4. Noes, none. Excused, 1 (Gates).

Conf. Com. Rep. 164-18 on H.B. No. 1508

The purpose of this measure is to create a revolving line of credit sub-fund within the Hawaii Green Infrastructure Special Fund to provide state agencies the ability to obtain funding to implement energy-efficiency measures in public buildings.

Your Committee on Conference has amended this measure by:

- (1) Specifying that \$50,000,000 shall be converted from the Hawaii Green Infrastructure Special Fund for the revolving line of credit sub-fund and appropriating that amount;
- (2) Clarifying in the measure's preamble that the Department of Education's outstanding loan balance shall be included under this revolving line of credit;
- (3) Changing its effective date to July 1, 2018; and
- (4) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1508, H.D. 2, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1508, H.D. 2, S.D. 2, C.D. 1.

Conf. Com. Rep. 165-18 on H.B. No. 1986

The purpose of this measure is to establish and appropriate funds for a Carbon Offset Program to administer revenue realized from the sale of carbon offset credits to be deposited into the forest stewardship fund or invested into projects to improve the State's water infrastructure to mitigate threats to water sustainability due to climate change.

Your Committee on Conference has amended this measure by:

- (1) Tasking the Office of Planning in partnership with the Greenhouse Gas Sequestration Task Force (Task Force) to investigate and establish a Carbon Offset Program, rather than requiring the Department of Business, Economic Development, and Tourism (DBEDT) in partnership with the Department of Land and Natural Resources to perform these tasks;
- (2) Clarifying that the Carbon Offset Program shall allow proceeds and revenues generated by state departments from sales of offset credits to be deposited into suitable funds particularly for reinvestment to generate further carbon offset credits; provided that the funds are used in accordance with the purposes of the fund;

- (3) Clarifying that the Carbon Offset Program shall allow proceeds from sales of carbon credits to be invested in projects enhancing the State's efforts to mitigate or adapt to climate change;
- (4) Requiring the Office of Planning in partnership with the Task Force to submit a report to the Legislature and the Climate Change Mitigation and Adaptation Commission prior to the 2020 Regular Session;
- (5) Deleting the definitions for the terms "public agency", "state agency", and "forest carbon offset";
- (6) Inserting an appropriation of \$150,000 to be used to investigate and structure the Carbon Offset Program, which shall be expended by the Office of Planning, rather than DBEDT;
- (7) Changing its effective date to July 1, 2018; and
- (8) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1986, H.D. 2, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1986, H.D. 2, S.D. 2, C.D. 1.

Ayes, 3. Noes, none. Excused, 2 (Todd, McDermott).

Conf. Com. Rep. 166-18 on S.B. No. 2740

The purpose of this measure is to appropriate funds for the payment of claims against the State, its officers, or its employees.

Your Committee on Conference finds that the timely passage of this measure will minimize the State's obligation to pay interest on those amounts.

Your Committee on Conference has amended this measure by:

- (1) Increasing the total general fund appropriation from \$5,940,352.37 to \$6,724,309.63 to satisfy the payment of three additional claims that total \$783,957.26; and
- (2) Providing that the claims to be paid from general funds in this measure shall be paid from funds appropriated to the respective department or agency in section 3 of Act 49, Session Laws of Hawaii 2017.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2740, S.D. 1, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2740, S.D. 1, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Rhoads, Keith-Agaran and Taniguchi.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, none.

Representatives Nishimoto, Luke, Cullen and Thielen.
Managers on the part of the House.
Ayes, 4; Ayes with Reservations (Thielen). Noes, none. Excused, none.

Conf. Com. Rep. 167-18 on S.B. No. 2791

The purpose of this measure is to:

- (1) Require the Office of Youth Services to create and develop the Kawaihoa Youth and Family Wellness Center, to be operated and maintained by the Hawaii Youth Correctional Facilities, to prevent delinquency and reduce the incidence of recidivism among youth at risk and young adults; and
- (2) Appropriate funds to the Department of Human Services for the operational expenses of an organization to provide prevention, intervention, and group and individual counseling for high risk youth.

Your Committee on Conference finds that the Legislature enacted Act 201, Session Laws of Hawaii 2014, to reform the State's juvenile justice system, improve outcomes for Hawaii's youth in the juvenile justice system, and maximize the use of the Hawaii Youth Correctional Facilities' appropriations and treatment services. Your Committee on Conference further finds that critical services to reduce delinquency, including mental health treatment, prevention of youth homelessness, vocational services, and substance abuse treatment, are still insufficiently resourced and inaccessible to Hawaii's at-risk youth and young adult population. This measure will allow youth and young adults, between the ages of eighteen and twenty-four, who are in the juvenile justice system to receive assistance and much-needed services to prevent further delinquency and recidivism.

Your Committee on Conference notes that this measure is intended to provide state employees at the Hawaii Youth Correctional Facility an opportunity to work at a new facility and is not intended to displace existing state employees who already provide critical services for youth at the Hawaii Youth Correctional Facility.

Your Committee on Conference has amended this measure by:

- (1) Removing the purpose section;
- (2) Permitting, rather than requiring, the Office of Youth Services and Hawaii Youth Correctional Facilities to establish and operate the Kawaiiloa Youth and Family Wellness Center;
- (3) Clarifying that opportunities may be given to existing employees to participate in the Kawaiiloa Youth and Family Wellness Center's services and programs, including discussing long-term plans for employment and training opportunities to contribute professionally to the program;
- (4) Clarifying that the Department of Education shall be the sole provider of standards-based education services for youth adults at risk and young adults identified with special education needs or actively receiving special education services;
- (5) Removing the appropriation for the operational costs of an organization to provide prevention, intervention, and counseling for high risk youth;
- (6) Changing the effective date to upon approval; and
- (7) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2791, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2791, S.D. 2, H.D. 1, C.D. 1.

Representatives Mizuno, Nishimoto, Kobayashi, Morikawa and Tupola.

Managers on the part of the House.

Ayes, 3; Ayes with Reservations (Mizuno). Noes, none. Excused, 2 (Nishimoto, Tupola).

Conf. Com. Rep. 168-18 on H.B. No. 1650

The purpose of this measure is to:

- (1) Authorize the Department of Human Services (DHS) to disclose to parents or guardians the disposition of an assessment from an investigation into an allegation or report of child abuse or neglect that occurred within a licensed group child care home or group child care center; and
- (2) Establish a temporary working group to review laws, rules, and procedures relating to the coordination of investigations and enforcement efforts of the Child Welfare Services Branch and Child Care Licensing Program to improve safety in child care settings.

Your Committee on Conference has amended this measure by:

- (1) Clarifying the circumstances under which DHS may disclose reports of child abuse or neglect;
- (2) Changing its effective date to July 1, 2018; and
- (3) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1650, H.D. 2, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1650, H.D. 2, S.D. 1, C.D. 1.

Signed by the Chairs and Senate President on behalf of the Committee (Co-chair Taniguchi signed with reservations).

Senators Green, Taniguchi, Rhoads, Chang and Thielen.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, 2 (Rhoads, Chang).

Managers on the part of the House.

Ayes, 3. Noes, none. Excused, 1 (Tupola).

Conf. Com. Rep. 169-18 on H.B. No. 2742

The purpose of this measure is to:

- (1) Establish the Office of Medical Cannabis Control and Regulation within the Department of Health to administer medical cannabis dispensary licensure and regulation and the registration of qualifying patients and primary caregivers;
- (2) Extend from July 1, 2020, to July 1, 2025, the operation of interim administrative rules adopted by the Department of Health for the medical cannabis dispensary system;
- (3) Extend from June 30, 2020, to June 30, 2025, civil service exemptions for positions in the Department of Health related to the medical cannabis dispensary system;

- (4) Transfer all appropriations, records, equipment, files, documents, and other personal property, and employees performing duties related to medical cannabis dispensary licensure and regulation, from the Office of Health Care Assurance to the Office of Medical Cannabis Control and Regulation; and
- (5) Appropriate funds for fiscal year 2018-2019 for staff and operations of the Office of Medical Cannabis Control and Regulation, including the establishment of the following four full-time equivalent positions: program manager, information technology specialist, administrative assistant, and data analyst.

Your Committee on Conference has amended this measure by:

- (1) Appropriating \$140,000 for fiscal year 2018-2019 for staff and operations of the Office of Medical Cannabis Control and Regulation;
- (2) Deleting clarifying language for the four full-time equivalent positions established by the appropriation;
- (3) Changing its effective date to July 1, 2018; and
- (4) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 2742, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 2742, H.D. 1, S.D. 1, C.D. 1.

Signed by the Speaker of the House of Representatives and Chairs on behalf of the Committee.

Senators Baker, English and Espero.
Managers on the part of the Senate.
Ayes, 2. Noes, none. Excused, 1 (Espero).

Representatives Mizuno, Kobayashi and Tupola.
Managers on the part of the House.
Ayes, 2. Noes, none. Excused, 1 (Tupola).

Conf. Com. Rep. 170-18 on H.B. No. 1895

The purpose of this measure is to appropriate funds to assist the Department of Health.

More specifically, this measure:

- (1) Requires the Department of Health to establish two full-time equivalent (2.0 FTE) permanent surveyor positions and one full-time equivalent (1.0 FTE) permanent supervisor position to review, certify, and recertify dialysis centers and other health care facilities under the Department's purview; and
- (2) Makes appropriations to the Department of Health out of the general fund, including an appropriation from moneys in the treasury received from federal funds.

Your Committee on Conference finds that the additional resources provided by this measure to the Department of Health will facilitate the review, certification, and recertification of dialysis centers and other health care facilities under the Department's purview. The Department of Health has indicated that the Department, through its Office of Health Care Assurance (OHCA), will request from the U.S. Centers for Medicare and Medicaid Services (CMS) federal funds for federal fiscal year 2019, which begins on October 1, 2018. OHCA conducts federal surveys (inspections) on Medicare certified dialysis centers and other health care facilities in Hawaii on behalf of CMS and annually receives federal funds of approximately eighty percent of the cost to conduct these surveys. Your Committee on Conference notes that the CMS Regional Office in San Francisco has expressed support for this measure; thus, it appears that the State is well-positioned to secure additional federal funds for the Department of Health to conduct federal surveys and to safeguard the health, safety, and welfare of dialysis patients in the State.

Your Committee on Conference wishes to address an additional public health issue in this measure, and finds that the use of electronic smoking devices, also known as e-cigarettes, is proliferating and that the electronic smoking device industry is rapidly expanding. According to a 2016 report by the United States Surgeon General, e-cigarette use among the nation's youth and young adults has become a major public health concern. For these reasons, your Committee on Conference finds it necessary, as a matter of statewide concern, to regulate the sale of cigarettes, tobacco products, and electronic smoking devices in a uniform and exclusive manner.

Accordingly, your Committee on Conference has amended this measure by:

- (1) Deleting the measure's preamble;
- (2) Establishing the remaining sections, except for the effective date section, as Part I;
- (3) Deleting from the appropriation to the Department of Health in Part I language that references moneys in the treasury received from federal funds;
- (4) Changing the appropriations to the Department of Health from unspecified amounts to \$157,500 and \$150,000, respectively;
- (5) Inserting a Part II and adding provisions that address the retail sale of tobacco products and electronic smoking devices, including:
 - (A) Establishing within the Department of the Attorney General the Electronic Smoking Device Retailer Registration Unit, requiring retailers of electronic smoking devices to register with the unit, and authorizing the unit to charge a fee for registration and a certificate to sell electronic smoking devices at retail;

- (B) Restricting the display of cigarettes and tobacco products within a retailer's establishment to certain locations within the establishment;
 - (C) Requiring that retailers of tobacco products or electronic smoking devices check the identification of tobacco or electronic smoking device purchasers who reasonably appear to be under twenty-seven years of age;
 - (D) Prohibiting the purchase or possession of any tobacco product or electronic smoking device by a person under the age of twenty-one and establishing penalties for violations;
 - (E) Establishing procedures for the forfeiture and destruction of tobacco products and electronic smoking devices under certain circumstances; and
 - (F) Prohibiting delivery sales of electronic smoking devices to persons under twenty-one years of age; and
- (6) Changing the effective date from July 1, 2035, to July 1, 2018.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1895, H.D. 1, S.D. 1, as amended herein, and recommends H.B. No. 1895, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1895, H.D. 1, S.D. 1, C.D. 1.

Signed by the Speaker of the House of Representatives, Senate President, and Chairs on behalf of the Committee.

Senators Baker, Galuteria and Ihara.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, none.

Representatives Mizuno, Takumi, Kobayashi and Tupola.
Managers on the part of the House.
Ayes, 3. Noes, none. Excused, 1 (Tupola).

Conf. Com. Rep. 171-18 on H.B. No. 1911

The purpose of this measure is to enable the Department of Health to address the issue of unlicensed and uncertified care facilities by:

- (1) Authorizing the Department of Health to investigate and enter care facilities reported to be operating without an appropriate certificate or license issued by the Department and take certain actions upon confirmed findings of uncertified or unlicensed care facilities;
- (2) Establishing penalties for violations and for knowingly referring or transferring patients to uncertified or unlicensed care facilities;
- (3) Establishing certain conditions under which certified or licensed healthcare providers and care facilities will not be subject to a fine when a patient is referred or transferred to an uncertified or unlicensed care facility; and
- (4) Requiring the Department of Health to adopt interim rules to effectuate the licensure of home care facilities and making those interim rules effective until the sooner of October 1, 2018, or final adoption of rules.

Your Committee on Conference has amended this measure by:

- (1) Specifying maximum daily fines of \$100 for a first violation, \$500 for a second violation, and \$1,000 for a third or subsequent violation of uncertified or unlicensed operation of a care facility;
- (2) Specifying maximum fines of \$500 for a first violation, \$1,000 for a second violation, and \$2,000 for a third or subsequent violation, for knowingly referring or transferring patients to uncertified or unlicensed care facilities;
- (3) Inserting language excluding landlords from care facility licensure requirements under certain conditions, including allowing a tenant to receive home care services from licensed individuals;
- (4) Inserting a savings clause;
- (5) Changing its effective date to July 1, 2018; and
- (6) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1911, H.D. 2, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1911, H.D. 2, S.D. 1, C.D. 1.

Signed by the Speaker of the House of Representatives and Chairs on behalf of the Committee.

Senators Baker, Espero and Ihara.
Managers on the part of the Senate.
Ayes, 2. Noes, none. Excused, 1 (Espero).

Representatives Mizuno, Takumi, Kobayashi, Cachola, Cullen, Morikawa and Tupola.
Managers on the part of the House.
Ayes, 6. Noes, none. Excused, 1 (Tupola).

Conf. Com. Rep. 172-18 on H.B. No. 2729

The purpose of this measure is to amend the current statutes that regulate the State's medical cannabis and medical cannabis dispensary program to facilitate appropriate access to medical cannabis by patients with debilitating medical conditions and ensure patient safety. Specifically, this measure:

- (1) Establishes criteria, standards, limitations, and protections for qualifying out-of-state patients for whom the medical use of cannabis is authorized by the patient's home jurisdiction;
- (2) Authorizes the Department of Health to extend the maximum period of validity of a written certification to three years for qualifying patients with a chronic debilitating medical condition and to register two caregivers for minor qualifying patients; provided that both caregivers are parents, guardians, or legal custodians of the minor patient;
- (3) Clarifies a dispensary's right to retest a batch of cannabis or manufactured cannabis products that do not meet safety standards according to initial test results;
- (4) Prohibits employment discrimination and suspension or discharge from employment based solely on evidence of consumption of cannabis by an employee who is a registered qualifying patient;
- (5) Authorizes the formation of a bona fide provider-patient relationship for purposes of obtaining a written certification via telehealth;
- (6) Amends statutes regulating licensed dispensaries to authorize the dispensing of devices that provide safe pulmonary administration of medical cannabis and of edible cannabis products, increase the maximum dosage amount per unit of manufactured cannabis products, and clarify labeling requirements for manufactured cannabis products; and
- (7) Limits the felony convictions that disqualify an individual from employment with a licensed dispensary and permitting, but not requiring, denial of employment based on conviction of a limited number of additional offenses.

Your Committee on Conference has amended this measure by:

- (1) Deleting provisions relating to employment protections for registered qualifying patients;
- (2) Authorizing the registration of two caregivers for minor qualifying out-of-state patients;
- (3) Clarifying that a qualifying out-of-state patient shall not possess more than four ounces of usable cannabis at any given time and shall not possess live plants;
- (4) Deleting provisions authorizing licensed dispensaries to dispense edible cannabis products;
- (5) Clarifying requirements for devices that aerosolize cannabis and devices for safe pulmonary administration that may be dispensed by licensed dispensaries;
- (6) Establishing an Outstanding Issues Working Group to consider and make recommendations on issues related to the employment of registered qualifying patients and the manufacture and distribution by licensed dispensaries of edible cannabis products;
- (7) Changing its effective date to July 1, 2018; and
- (8) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 2729, H.D. 2, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 2729, H.D. 2, S.D. 2, C.D. 1.

Signed by the Speaker of the House of Representatives and Chairs on behalf of the Committee.

Senators Baker, English and Espero.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, none.

Representatives Mizuno, Johanson, San Buenaventura, Kobayashi, Belatti and Tupola.
Managers on the part of the House.
Ayes, 4. Noes, none. Excused, 2 (Johanson, Tupola).

Conf. Com. Rep. 173-18 on H.B. No. 2271

The purpose of this measure is to:

- (1) Clarify exemptions from licensure as a behavior analyst for individuals who:
 - (A) Practice under the direct supervision of a licensed professional working within the scope of the individual's profession;
 - (B) Directly implement behavior analysis programs as a direct support worker in a school setting;
 - (C) Design or implement applied behavior analysis services to participants in the Medicaid home and community-based services waiver program pursuant to section 1915(c) of the Social Security Act;
 - (D) Are caregivers to adults in home and community-based care homes;
 - (E) Are licensed professionals, including licensed psychologists, practicing within the allowable scope of licensure; or

- (F) Are classroom teachers;
- (2) Update and standardize the terminology used to refer to applied behavior analysis and the practice of applied behavior analysis; and
- (3) Require the Department of Education to create and implement a plan for the delivery of Medicaid billable applied behavior analysis to all students within Department schools who have been diagnosed with autism spectrum disorder.

Your Committee on Conference has amended this measure by deleting numerous conflicting and redundant provisions and retaining language that:

- (1) Applies the exemption from licensure as a behavior analyst to:
- (A) Licensed psychologists working within their scope of licensure;
- (B) Individuals working under the direct supervision of a licensed psychologist and individuals instructed and supervised by Master's-level practitioners or post-doctoral fellows who are also under the supervision of a licensed psychologist;
- (C) Classroom teachers who implement applied behavior analysis services in a school setting and in collaboration with a licensed behavior analyst on or before July 1, 2019;
- (D) Direct support workers in school settings working under the direct supervision of a licensed professional on or before July 1, 2020;
- (E) Caregivers to adults in home and community-based care homes; and
- (F) Individuals providing services under the Medicaid home and community-based service waiver program on or before January 1, 2014;
- (2) Updates and standardizes the terminology used to refer to applied behavior analysis and the practice of applied behavior analysis; and
- (3) Requires the Department of Education to create and implement a plan for the delivery of Medicaid billable applied behavior analysis to all students within Department schools who have been diagnosed with autism spectrum disorder and submit a series of reports on the plan to the Legislature and Board of Education.

Your Committee on Conference has additionally amended this measure by:

- (1) Making it effective upon approval; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 2271, H.D. 2, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 2271, H.D. 2, S.D. 1, C.D. 1.

Signed by the Speaker of the House of Representatives and Chairs on behalf of the Committee.

Senators Kidani, Baker and Kahele.
Managers on the part of the Senate.
Ayes, 2. Noes, none. Excused, 1 (Kahele).

Representatives Mizuno, Ohno, Kobayashi, Choy and Tupola.
Managers on the part of the House.
Ayes, 3. Noes, none. Excused, 2 (Choy, Tupola).

Conf. Com. Rep. 174-18 on S.B. No. 2619

The purpose of this measure is to make the penalties for violations of certain categories of airport rules more proportionate to the violation by replacing criminal penalties for certain airport offenses with fines.

Your Committee on Conference finds that under Hawaii's aeronautics laws or certain administrative rules, certain airport offenses are punished with penalties that are excessive and disproportionate to the gravity of the violation. An infraction that would normally be considered a civil violation can be charged as a criminal misdemeanor offense if it occurs at an airport. The criminal misdemeanor offense can remain on a person's record for the rest of the person's life, and lead to a loss of security clearance or professional licensure. Your Committee on Conference believes these long-lasting consequences are not the intent of the punishments.

Your Committee on Conference has amended this measure by:

- (1) Inserting an effective date of July 1, 2018; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2619, S.D. 2, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2619, S.D. 2, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Inouye, Taniguchi and Keith-Agaran.
Managers on the part of the Senate.

Ayes, 2. Noes, none. Excused, 1 (Taniguchi).

Representatives Aquino, San Buenaventura, Luke and McDermott.
Managers on the part of the House.

Ayes, 3. Noes, none. Excused, 1 (McDermott).

Conf. Com. Rep. 175-18 on S.B. No. 2854

The purpose of this measure is to enforce the requirement in Act 200, Session Laws of Hawaii 2016, to have annual registration and safety inspections for mopeds by establishing a fine, not to exceed \$100, for failure to comply with moped registration requirements.

Your Committee on Conference finds that illegally modified mopeds are a nuisance due to the loud noises they emit. Act 200, Session Laws of Hawaii 2016, was enacted as a means of resolving the ongoing issue of illegally modified mopeds by requiring annual registration and safety inspections. However, your Committee on Conference notes that thousands of mopeds have not been registered, likely due to the fact that there is no penalty for failure to register a moped. Thus, this measure establishes a fine for moped owners who fail to register their mopeds in order to encourage compliance with registration and safety inspection requirements.

Your Committee on Conference has amended this measure by making it effective upon approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2854, S.D. 1, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2854, S.D. 1, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Inouye, Taniguchi and Kaele.
Managers on the part of the Senate.

Ayes, 2. Noes, none. Excused, 1 (Taniguchi).

Representatives Aquino, Nishimoto, Cullen and McDermott.
Managers on the part of the House.

Ayes, 3. Noes, none. Excused, 1 (McDermott).

Conf. Com. Rep. 176-18 on S.B. No. 2714

The purpose of this measure is to exclude the weight of disability access modifications, such as lifts and ramps, from the determination of net weight for non-commercial vehicles for the purpose of levying state and county motor vehicle weight taxes.

Your Committee on Conference finds that making disability access modifications to one's home and vehicle, if a relative or oneself is or becomes disabled, can be very costly. The additional annual motor vehicle weight tax that one has to pay for the extra weight of disability access modifications to the vehicle is an additional, recurring cost that can be a significant financial burden. Your Committee on Conference further finds that not only will excluding the weight of disability access modifications from motor vehicle weight tax calculations provide relief for disabled individuals and their families, it will encourage the use of retrofitted personal vehicles in lieu of county-subsidized paratransit service, leading to substantial savings for taxpayers.

Your Committee on Conference has amended this measure by:

- (1) Re-inserting the preamble from the S.D. 1 version;
- (2) Inserting an effective date of July 1, 2019; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2714, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2714, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Inouye, Espero and Shimabukuro.
Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, none.

Representatives Aquino, Cullen, Takayama and McDermott.
Managers on the part of the House.

Ayes, 3. Noes, none. Excused, 1 (McDermott).

Conf. Com. Rep. 177-18 on S.B. No. 2401

The purpose of this measure is to facilitate assistance to individuals who are homeless or at risk of becoming homeless.

More specifically, the measure:

- (1) Establishes and appropriate funds for a three-year housing homeless children pilot program to provide housing assistance to families with minors that, due to domestic violence, are homeless or at imminent risk of becoming homeless; and
- (2) Appropriates funds to the Hawaii Public Housing Authority, Department of Human Services, and Department of Health to support various state programs to address homelessness.

Your Committee on Conference finds that homelessness is one of the most pressing problems in the State and requires robust, comprehensive solutions to increase the pace at which the State is gaining ground on addressing the issue.

Your Committee on Conference has amended this measure by deleting its contents and:

- (1) Establishing and appropriating moneys for an Ohana Zones Pilot Program, to be developed and implemented by agencies appointed by the Governor, to provide temporary housing and services to homeless individuals and families based on principles similar to the Housing First program;
- (2) Establishing and appropriating moneys for an Emergency Department Homelessness Assessment Pilot Program within the Department of Human Services to assist individuals who are experiencing homelessness or patients who are at risk of experiencing homelessness and have high utilization of emergency department services;
- (3) Establishing and appropriating moneys for a Medical Respite Pilot Program within the Department of Human Services to provide emergency housing, in partnership with a participating community human services provider, for eligible individuals experiencing homelessness who are discharged from a hospital;
- (4) Appropriating moneys to the Department of Human Services for the establishment and administration of a new family assessment center for homeless families;
- (5) Appropriating moneys for the Department of Health to continue administering the Law Enforcement Assisted Diversion Pilot Program, and to establish additional sites of the pilot program on the islands of Maui and Hawaii;
- (6) Changing the effective date to July 1, 2018; and
- (7) Making technical nonsubstantive changes for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2401, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2401, S.D. 2, H.D. 1, C.D. 1.

Signed by the Senate President and Chairs on behalf of the Committee.

Senators Espero, Baker, Green and English.
Managers on the part of the Senate.
Ayes, 4. Noes, none. Excused, none.

Managers on the part of the House.
Ayes, 8. Noes, none. Excused, none.

Conf. Com. Rep. 178-18 on H.B. No. 2651

The purpose of this measure is to upgrade and support next-generation wireless broadband infrastructure throughout Hawaii by establishing a permitting, application, review, and approval process for wireless service providers to install broadband or wireless facilities on State- or county-owned utility poles or install associated utility poles in the right of way.

After careful consideration, your Committee on Conference has amended this measure by:

- (1) Using the term “communications service provider” instead of the term “wireless or communication service provider”;
- (2) Specifying that this measure does not apply to airport buildings or buildings whose use is principally for public safety purposes;
- (3) Amending the definitions of “applicable codes”, “collocate”, “micro wireless facilities”, “wireless facility”, and “wireline backhaul”;
- (4) Providing that nothing in this measure must adversely impact the State’s fiscal funding;
- (5) Allowing the State or any county to charge for the deployment of small wireless facilities or any associated modified or replaced utility poles used for the collocation of small wireless facilities;
- (6) Authorizing the State or a county to condition the approval of an application, rather than an encroachment permit, under certain circumstances;
- (7) Removing provisions regarding the undergrounding of facilities that pre-date the submission of an application;
- (8) Allowing the State or a county to require a communications service provider to return the right of way to the same or better condition before any damage, instead of simply returning the right of way to its functional equivalence;
- (9) Requiring an applicant to provide:
 - (A) A geographical description of the project area, if required by the State or county;
 - (B) A listing and description of the condition of utility poles, light standards, buildings, and wireless support structures included in the project for the installation, mounting, operation, and placement of small wireless facilities, including an assessment of the identifying information, location, and ownership of the listed utility poles, light standards, buildings, and structures, if required by the State or county; and

- (C) A description of the equipment associated with the facilities to be installed in the project area, including radio transceivers, antennas, coaxial or fiber-optic cables, power supplies, and related equipment, and the size and weight of the equipment to be installed on each pole, building, or structure, if required by the State or county;
- (10) Explicitly requiring the State and counties to permit the collocation of small wireless facilities on utility poles;
 - (11) Prohibiting the State or county from requiring, but allowing the State or county to negotiate, an agreement with a communications service provider to provide in-kind contributions of goods or services in lieu of or in addition to any rates, charges, terms, and conditions governing the installation of small wireless facilities on State- or county-owned property, such as an agreement to reserve fiber, conduit, or pole space for State or county use;
 - (12) Removing the prohibition against requiring applicants to provide more information to obtain a permit than is required of communications service providers that are not wireless providers; provided that an applicant may be required to include construction and engineering drawings and information demonstrating compliance with specified criteria;
 - (13) Allowing the State or county to limit the number of small wireless facilities placed on a single utility pole;
 - (14) Allowing the State or county to rescind a permit if a small wireless facility is not operational within one year or any agreed-to time beyond one year;
 - (15) Modifying the deadlines by which:
 - (A) The State or county must notify the applicant in writing whether the application is complete; and
 - (B) An application will be deemed approved if the State or county fails to approve or deny the application after receipt of the application;
 - (16) Modifying the criteria by which a State or county may deny a proposed collocation of a small wireless facility or the modification of a modified or replaced utility pole, including causing the load-carrying capacity of the State- or county-owned utility pole, building, or structure, to exceed 70 percent as determined by the appropriate state or county agency;
 - (17) Modifying the deadlines by which:
 - (A) An applicant may address the deficiencies identified by the State or county in its written denial and resubmit a revised application without paying an additional application fee; and
 - (B) The State or county must approve or deny an application after receipt of a revised application;
 - (18) Modifying the scope of subsequent reviews of additional revisions to a revised application to the deficiencies cited in the documentation noting the basis for denial of the revised application; provided, however, that the State or a county may address deficiencies in the original or subsequent revised versions of the application that were missed in good faith and that were not documented in a written denial;
 - (19) Allowing the State or county to remove a utility pole if it decides to do so;
 - (20) Modifying the deadline by which make-ready work, including any pole replacement, must be completed by the State or county or the communications service provider after written acceptance of the good faith estimate by the applicant;
 - (21) Granting the State or county discretion to designate whether it or the communications service provider will perform make-ready work;
 - (22) Removing the prohibition that fees for make-ready work must not include costs related to pre-existing or prior damage or noncompliance;
 - (23) Removing the provisions allowing the State or county to reserve space for up to 12 months on its utility poles under certain circumstances;
 - (24) Deleting the provisions pertaining to rates and fees within the right of way;
 - (25) Except under certain conditions, prohibiting the State and counties from:
 - (A) Adopting or enforcing any regulations or requirements or charging additional rates or fees on an entity's placement or operation of communications facilities in the right of way where the entity is already authorized by a cable television franchise to operate throughout the right of way; and
 - (B) Regulating or charging fees for the provision of additional communications services over a cable system authorized under such franchise, unless expressly authorized by applicable law;
 - (26) No longer authorizing the State or a county to require a communications service provider to consider installing and operating small wireless facilities and utility poles in rural districts, where economically feasible, particularly in Neighbor Island communities with low- or medium-density concentrations of residents;
 - (27) Deleting the requirement that the State or county must conduct an evaluation within one year of the effective date of this measure pertaining to the permitting process in the right of way and submit a report to the Legislature;
 - (28) Changing its effective date to July 1, 2018; and
 - (29) Making technical, nonsubstantive amendments for clarity, consistency, and style.

Your Committee on Conference finds that a robust broadband network throughout the state is integral to Hawaii's global economic competitiveness. Therefore, this measure encourages the uniform deployment of small wireless facilities within the state.

Although this measure encourages the deployment of next-generation broadband service, your Committee on Conference does not approve of the construction of new utility poles. This measure thus prohibits communications service providers from constructing new poles in the public right of way. The only time that a new pole can be erected is if it is replacing an existing pole that has been found to be deficient.

It is also the intention of your Committee on Conference to work cooperatively with the counties, and this measure allows them to deploy small wireless facilities in an aesthetically pleasing manner by giving state and county agencies the ability to mandate feasible design standards in an effort to combat blight in the public right of way.

Furthermore, this measure allows the State and county to charge for the deployment of small wireless facilities, including determining an application fee and collocation rate. Also, this measure specifies that the cost of any make-ready work to ensure that a pole can safely accommodate the addition of a small wireless facility be borne entirely by a communications service provider and not the State or county.

Moreover, this measure authorizes the State or county to include in-kind contributions from communications service providers for the expansion and connection of rural areas as conditions to the collocation of small wireless facilities. This provision can be used to incentivize communications service providers to expand 3G, 4G, or 5G wireless coverage to rural areas across Hawaii.

Lastly, your Committee on Conference acknowledges the concerns of the Department of Transportation and the Airport Concessionaires Committee that this measure may directly affect ongoing contracts to deploy WiFi at Daniel K. Inouye International Airport. Therefore, because this provision may also affect negotiations at other state airports, all utility poles on state airport grounds have been exempted from this measure.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 2651, H.D. 2, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 2651, H.D. 2, S.D. 1, C.D. 1.

Conf. Com. Rep. 180-18 on H.B. No. 2684

The purpose of this measure is to appropriate moneys to the Public Utilities Commission to hire additional motor carrier enforcement personnel.

Your Committee on Conference has amended this measure by:

- (1) Changing the unspecified appropriation to an amount of \$200,000;
- (2) Specifying that the appropriation shall be used for the purpose of hiring 2.00 full-time equivalent (2.00 FTE) enforcement personnel; and
- (3) Changing the effective date to July 1, 2018.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 2684, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 2684, H.D. 1, S.D. 1, C.D. 1.

Conf. Com. Rep. 181-18 on H.B. No. 2161

The purpose of this measure is to change the penalty that is imposed upon a vehicle inspection station for improper motor vehicle inspections from the revocation or suspension of the station's operating permit to a fine.

Your Committee on Conference has amended this measure by:

- (1) Authorizing the Department of Transportation to determine the amount of the fine by rule;
- (2) Specifying that after three violations, the vehicle inspection station license will be subject to suspension or revocation;
- (3) Changing its effective date to July 1, 2018; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity, consistency and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 2161, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 2161, S.D. 2, C.D. 1.

Representatives Aquino, Cullen, Woodson and Ward.
Managers on the part of the House.
Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. 182-18 on H.B. No. 2601

The purpose of this measure is to increase the rental motor vehicle surcharge for individuals without a valid Hawaii drivers' license and use those revenues for road capacity projects to reduce traffic congestion in the county in which the rental motor vehicle is driven. This measure also increases tour vehicle surcharges.

Your Committee on Conference has amended this measure by changing its effective date to July 1, 2018.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 2601, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 2601, H.D. 1, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Inouye, Baker, Dela Cruz and Shimabukuro.
Managers on the part of the Senate.
Ayes, 4. Noes, none. Excused, none.

Representatives Aquino, Yamashita, Quinlan and Ward.
Managers on the part of the House.
Ayes, 3. Noes, none. Excused, 1 (Ward).

Conf. Com. Rep. 183-18 on S.B. No. 3077

The purpose of this measure is to further the State's efforts in achieving its clean energy goals by enhancing the renewable fuel capacity of the State. This measure encourages the development of renewable fuel in the State by:

- (1) Expanding the existing renewable fuels production tax credit by:
 - (A) Temporarily expanding the definition of "renewable feedstocks" that qualify for the tax credit;
 - (B) Temporarily reducing the minimum production requirement to qualify for the tax credit;
 - (C) Temporarily changing the tax credit cap; and
 - (D) Making the original tax credit permanent; and
- (2) Establishing a renewable fuel facilitator position within the Department of Business, Economic Development, and Tourism.

Your Committee on Conference finds that achieving the State's clean energy goals will require investment in and development of renewable energy and renewable fuels. While investment in renewable energy has been incentivized with tax credits and low-interest loans, your Committee on Conference notes that the existing tax credits for renewable fuel production is limited in scope. Your Committee on Conference believes the renewable fuels production tax credit should be expanded, to encourage renewable fuel production, but concludes that the measure as currently written could impose a high cost to the State.

Accordingly, your Committee on Conference has amended this measure by:

- (1) Reverting to the existing statutory tax credit cap of \$3,00,000;
- (2) Deleting section 3, which removed the sunset date for the existing tax credit;
- (3) Deleting section 4, which created a renewable fuel facilitator position;
- (4) Making it effective upon approval and deleting the sunset date; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 3077, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 3077, S.D. 2, H.D. 1, C.D. 1.

Signed by the Senate President and Chairs on behalf of the Committee.

Senators Inouye, Tokuda, Espero and Kidani.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, 1 (Tokuda).

Representatives Lee, Cullen and McDermott.
Managers on the part of the House.
Ayes, 2. Noes, none. Excused, 1 (McDermott).

STANDING COMMITTEE REPORTS

SCRep. 2001 Agriculture and Environment on S.B. No. 2517

The purpose and intent of this measure is to authorize the issuance of general obligation bonds and appropriate funds for the planning, designing, and constructing of a livestock feed mill.

Your Committee received testimony in support of this measure from the Department of Agriculture; Agribusiness Development Corporation; Hawai'i Farm Bureau; and Hawaii Cattlemen's Council, Inc. Your Committee received testimony in opposition to this measure from Animal Rights Hawai'i.

Your Committee finds that livestock feed costs for feed shipped to Hawaii often exceed sixty percent of overall livestock production costs in Hawaii. The Agribusiness Development Corporation seeks to broaden its waste-reduction and recycling projects by partnering with a viable and qualified entity to establish a livestock feed mill operation using waste materials, such as unusable macadamia nut fruit and shells, and converting the unusable parts and byproducts into aquaculture and livestock feed. Your Committee further finds that the Agribusiness Development Corporation will assist with the development of the plans and design of the operation and will purchase the equipment to convert and process the waste materials, while the project partners will be responsible for providing adequate warehouse space to house the equipment and the labor for the manufacture and sale of the resulting product.

Your Committee has amended this measure by:

- (1) Inserting an appropriation amount of \$4,000,000; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2517, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2517, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2002 Agriculture and Environment on S.B. No. 2125

The purpose and intent of this measure is to extend the pesticide subsidy program manager position through the fiscal year immediately following the program sunset date.

Your Committee received testimony in support of this measure from the Department of Agriculture; Office of the Mayor of the County of Hawai'i; Hawaii Coffee Association; Hawaii Coffee Company; Hawaii Cattlemen's Council, Inc.; Hawai'i Farm Bureau; and one individual.

Your Committee finds that the pesticide subsidy program in the Department of Agriculture assists coffee growers with offsetting the costs of purchasing certain pesticides known to be effective against the coffee berry borer, a highly destructive coffee pest. The program was established to run for five years. Your Committee also finds that the current pesticide subsidy program manager position is a full-time, temporary position that is exempt from civil service and collective bargaining laws. Due to other laws, this exemption will expire on June 30, 2018. The pesticide subsidy program took longer than anticipated to implement, thus the program sunset date has been extended from June 30, 2019, to June 30, 2021; however, the exemption of the pesticide subsidy program manager position has not also been extended. Applications for a subsidy for pesticide purchases made in a fiscal year must be filed in the immediately following fiscal year. Therefore, for pesticide purchases made in the last fiscal year of the program, from July 1, 2020, to June 30, 2021, applications for subsidies must be filed in the immediately following fiscal year, anytime from July 1, 2021, to June 30, 2022. The manager position will be needed to process these applications for subsidies for costs incurred in the final year of the program, thus, your Committee finds that the exemption must be extended.

Your Committee has amended this measure by:

- (1) Changing the effective date to June 29, 2018, to ensure the current exemption from chapters 76 and 89, Hawaii Revised Statutes, for the subsidy program manager position continues until June 30, 2022, the expiration date of the position; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2125, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2125, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2003 Agriculture and Environment on S.B. No. 2396

The purpose and intent of this measure is to:

- (1) Appropriate additional funds to the agricultural loan revolving fund and Hawaii water infrastructure special fund; and
- (2) Set a ceiling for the Hawaii water infrastructure special fund.

Your Committee received testimony in support of this measure from the Department of Agriculture; Hawaii Cattlemen's Council, Inc.; Maui County Farm Bureau; Hawai'i Farm Bureau; and Oahu County Legislative Priorities Committee of the Democratic Party of Hawaii.

Your Committee finds that the agricultural loan revolving fund has a balance of only \$1,800,000 and requires additional funds to support new farmers and improve the State's food self-sufficiency as more agricultural lands become available.

Your Committee also finds that the Department of Agriculture's proposed ceiling for the Hawaii water infrastructure special fund should be included in the state budget, but at a higher level than was requested by the Department, to create a permanent ceiling for the fund. Having a permanent ceiling would allow for efficient management of the program and ensure greater stability for the program's applicants.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2396, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2396, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 2004 Agriculture and Environment on S.B. No. 2562

The purpose and intent of this measure is to appropriate funds to the Department of Agriculture for the establishment and administration of the agriculture grant program to support local food production in the State.

Your Committee received testimony in support of this measure from Hawaii Cattlemen's Council, Inc.; Hawaii'i Farm Bureau; Oahu County Legislative Priorities Committee of the Democratic Party of Hawaii; and Ho'omana Pono, LLC. Your Committee received comments on this measure from the Department of Agriculture.

Your Committee finds that the State's goal of doubling local food production by 2020 necessitates that the Department of Agriculture develop and support loss mitigation and efficiency improvement in the State's agriculture industry. Your Committee further finds that doubling local food production is vital for the State's future well-being and that it is essential to provide the Department of Agriculture with sufficient resources to achieve this goal.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2562 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 2005 Agriculture and Environment on S.B. No. 2556

The purpose and intent of this measure is to establish the industrial hemp special fund, into which fees from the industrial hemp pilot program may be deposited.

Your Committee received testimony in support of this measure from the Department of Agriculture; Hawaii Farm Bureau Federation; Hawaii'i Farm Bureau; Oahu County Legislative Priorities Committee of the Democratic Party of Hawaii; Ho'omana Pono, LLC; Ho'omanapono Political Action Committee; Hawaii'i Farm Bureau; and one individual. Your Committee received comments on this measure from the Department of Budget and Finance.

Your Committee finds that the Department of Agriculture industrial hemp pilot program is progressing toward implementation; however, a special fund is necessary for deposit of fees collected through the program and to support the program, including the hiring of employees, specialists, and consultants necessary to complete projects.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2556 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 2006 Agriculture and Environment on S.B. No. 2434

The purpose and intent of this measure is to authorize the issuance of special purpose revenue bonds to assist Kunoa Cattle Company, LLC, to fund the construction of a multi-species livestock farm, expansion of slaughter and processing infrastructure, development of distribution assets and agritourism services, and expansion of renewable energy assets.

Your Committee received testimony in support of this measure from the Department of Agriculture; Kunoa Cattle Company, LLC; Hawaii'i Farm Bureau; Hawaii Cattlemen's Council, Inc.; and one individual. Your Committee received testimony in opposition to this measure from Animal Rights Hawaii'i and one individual. Your Committee received comments on this measure from the Department of Budget and Finance.

Your Committee finds that Kunoa Cattle Company, LLC, seeks to construct a multi-species livestock farm, expand its slaughter and processing infrastructure, develop its distribution assets and agritourism services, and expand its renewable energy assets in an effort to increase local food production in the State, which is in the public interest and for the public's general welfare.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2434 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2007 Agriculture and Environment on S.B. No. 2073

The purpose and intent of this measure is to provide that the amount appropriated in Act 183, Session Laws of Hawaii 2017, shall be deposited into the food safety certification costs grant program special fund and that the same amount shall be appropriated out of the special fund for fiscal year 2018-2019.

Your Committee received testimony in support of this measure from the Department of Agriculture and Hawai'i Farm Bureau.

Your Committee finds that Act 183, Session Laws of Hawaii 2017 (Act 183), created a food safety certification costs grant program and the food safety certification costs grant program special fund, consisting of legislative appropriations. Act 183 appropriated \$500,000 for fiscal year 2017-2018, but it did not specify that these monies were to be deposited into the special fund, nor did it appropriate the monies out of the special fund. Your Committee finds that this measure corrects that oversight by appropriating \$500,000 into and out of the food safety certification costs grant program special fund for fiscal year 2018-2019.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2073 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2008 Agriculture and Environment on S.B. No. 2074

The purpose and intent of this measure is to extend the period of time during which the Department of Agriculture may certify important agricultural land qualified agricultural cost tax credits.

Your Committee received testimony in support of this measure from the Department of Agriculture; Hawai'i Farm Bureau; Hawaii Crop Improvement Association; Hawaii Farm Bureau Federation; Maui County Farm Bureau; Hawaii Cattlemen's Council, Inc.; Oahu County Legislative Priorities Committee of the Democratic Party of Hawaii; and Kekaha Agriculture Association. Your Committee received comments on this measure from the Department of Taxation and Tax Foundation of Hawaii.

Your Committee finds that article XI, section 3, of the Hawaii State Constitution provides:

The State shall conserve and protect agricultural lands, promote diversified agriculture, increase agricultural self sufficiency and assure the availability of agriculturally suitable lands. The legislature shall provide standards and criteria to accomplish the foregoing.

Lands identified by the State as important agricultural lands needed to fulfill the purposes above shall not be reclassified by the State or rezoned by its political subdivisions without meeting the standards and criteria established by the legislature and approved by a two-thirds vote of the body responsible for the reclassification or rezoning action.

Your Committee further finds that to address the issue of important agricultural lands, Act 183, Session Laws of Hawaii 2005 (Act 183), established standards, criteria, and mechanisms to identify important agricultural lands and to implement the intent and purpose of article XI, section 3, of the Hawaii State Constitution. Act 233, Session Laws of Hawaii 2008, subsequently established incentives under the requirements of Act 183, including the important agricultural land qualified agricultural cost tax credit. Your Committee finds that this measure provides additional time for certification of such tax credits to allow landowners and farmers to claim the tax credit in the event their agricultural lands are identified as potential important agricultural lands and designated as such by the Land Use Commission.

Your Committee recommends that your Committee on Ways and Means consider minimum lot size or other clear, definitive terms to discourage lot sizes as small as two acres, and consider safeguards to prevent "fake farms" and encourage true agricultural use of important agricultural lands.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2074 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2009 Agriculture and Environment on S.B. No. 2116

The purpose and intent of this measure is to establish the biosecurity emergency response special fund within the Department of Agriculture and appropriate funds for rapid response to terrestrial and aquatic biosecurity emergencies at or beyond ports so that newly detected threats may be immediately addressed.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources, Department of Agriculture, Hawai'i Farm Bureau, Hawaii Coffee Association, Coordinating Group on Alien Pest Species, Hawaii Farm Bureau Federation, Oahu County Legislative Priorities Committee of the Democratic Party of Hawaii, and one individual. Your Committee received comments on this measure from the Department of Budget and Finance.

Your Committee finds that rapid response to newly detected terrestrial and aquatic biosecurity emergencies in the State is essential to prevent biosecurity threats from becoming firmly established, thus saving taxpayers money in the long term. State agencies currently lack resources and a mechanism to quickly respond to new threats and, therefore, may be missing opportunities to eliminate

those threats. Your Committee finds that this measure provides such a mechanism to enable the Department of Agriculture to take necessary action quickly to protect Hawaii's agriculture, commerce, economy, environment, and public health.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2116 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2010 (Joint) Government Operations and Water and Land and Public Safety, Intergovernmental, and Military Affairs on S.B. No. 2334

The purpose and intent of this measure is to require the State and counties to incorporate predictions of sea level rise and other climate change hazards and mitigation opportunities, including the findings of the "Hawaii Sea Level Rise Vulnerability and Adaptation Report" prepared by the Hawaii Climate Change Mitigation and Adaptation Commission, into applicable plans, strategies, and mapping.

Your Committees received testimony in support of this measure from the Office of Planning, State of Hawaii; University of Hawai'i System; Sierra Club of Hawai'i; Ho'omana Pono, LLC; Hawaiian Civic Club of Honolulu; West Hawaii CHC; and six individuals. Your Committees received comments on this measure from the Department of Land and Natural Resources and Hawaii Emergency Management Agency.

Your Committees find that prudent pre-disaster planning and efficient post-disaster responses are essential to the State's functioning in the wake of an unexpected disaster event. Therefore, it is necessary for the State's emergency management officials to consider and analyze credible data that could assist in developing efficient and workable solutions for any future post-disaster recovery. One area of obvious future concern is sea level rise and other climate change hazards that could drastically impact the State and cause massive disruption. The Hawaii Climate Change Mitigation and Adaptation Commission has already made findings relating to sea level rise and other climate change hazards in its "Hawaii Sea Level Rise Vulnerability and Adaptation Report" and those findings should be incorporated into applicable state and county plans, strategies, and mapping.

However, your Committees also find that the threat of sea level rise and other climate change hazards are such that consideration of such factors should be made at all levels of planning within the State. It is not enough that emergency management and hazard mitigation plans alone consider sea level rise and other climate change hazards. Therefore, your Committees find that the provisions of this measure would be more effective if made part of the Hawaii State Planning Act.

Accordingly, your Committees have amended this measure by adding the provisions of this measure as a new section to chapter 226, Hawaii Revised Statutes, instead of chapter 127A, Hawaii Revised Statutes.

As affirmed by the records of votes of the members of your Committees on Government Operations, Water and Land, and Public Safety, Intergovernmental, and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2334, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2334, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
Government Operations: Ayes, 4. Noes, none. Excused, 1 (Galuteria).
Water and Land: Ayes, 3. Noes, none. Excused, 2 (Gabbard, Inouye).
Public Safety, Intergovernmental, and Military Affairs: Ayes, 3. Noes, none. Excused, 2 (Ihara, Wakai).

SCRep. 2011 Higher Education on S.B. No. 2862

The purpose and intent of this measure is to require the University of Hawai'i to submit a report to the legislature within thirty days of each appropriation transfer or changes between programs.

Your Committee received testimony in opposition to this measure from the University of Hawai'i.

Your Committee finds that, unlike most state agencies, the University of Hawai'i has the authority to transfer appropriated funds and positions among programs and between fiscal quarters without legislative authorization. Although the University of Hawai'i is currently required to account for these transfers in quarterly and fiscal year-end reports to the Legislature, your Committee finds that a thirty day reporting requirement would make the financial flexibility enjoyed by the University of Hawai'i more transparent and accountable.

Your Committee has amended this measure by inserting an effective date of May 12, 2050, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Higher Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2862, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2862, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Kidani).

SCRep. 2012 Higher Education on S.B. No. 2833

The purpose and intent of this measure is to authorize the University of Hawai'i to issue \$100,000,000 in revenue bonds for the purpose of financing the construction and maintenance of qualifying capital improvement projects.

Your Committee received testimony in support of this measure from the University of Hawai'i System; Oahu County Legislative Priorities Committee of the Democratic Party of Hawai'i; Associated Students of the University of Hawai'i, Hawai'i Community College; and one individual.

Your Committee finds that university revenue bonds have been utilized to finance the construction of new projects and the renovation and major repair of existing facilities at the University of Hawai'i. University projects have included faculty and student housing; classroom, laboratory, and office space; student support, research, athletic, and utility facilities; libraries; and parking structures. The availability of revenue bond authority would be a strategic revenue source and a supplement to limited general obligation funding and only used for financing projects that are revenue-generating or financially appropriate for the University of Hawai'i.

Your Committee has amended this measure by:

- (1) Inserting an effective date of July 1, 2018; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Higher Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2833, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2833, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Kidani).

SCRep. 2013 Higher Education on S.B. No. 2544

The purpose and intent of this measure is to establish a college savings program income tax credit.

Your Committee received testimony in support of this measure from the Ocean Tourism Coalition, Quicksilver Charters, and one individual. Your Committee received comments on this measure from the Department of Taxation and Tax Foundation of Hawaii.

Your Committee finds that Hawaii's college savings program is codified as chapter 256, Hawaii Revised Statutes, and that this measure is intended to create an incentive for taxpayers to invest in the college savings program. Your Committee notes that other jurisdictions allow contributions to a college savings program to be used as a tax deduction.

Your Committee has amended this measure by clarifying that the tax credit limit of \$500 for each contribution applies to each designated beneficiary without limitation on the total amount that may be claimed by a taxpayer.

As affirmed by the record of votes of the members of your Committee on Higher Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2544, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2544, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Kidani).

SCRep. 2014 Housing on S.B. No. 2024

The purpose and intent of this measure is to:

- (1) Establish within the Hawaii Public Housing Authority a housing support program that provides housing support payments to participating landlords on behalf of the persons or families who meet certain eligibility requirements;
- (2) Establish eligibility requirements for housing support payments under the housing support program;
- (3) Require the Hawaii Public Housing Authority to negotiate monthly housing support payment rents that meet certain requirements with participating landlords;
- (4) Establish the housing support program special fund for the purpose of making housing support payments on behalf of eligible persons or families in the housing support program; and
- (5) Appropriate funds into the housing support program special fund and out of the housing support program special fund to make housing support payments on behalf of eligible persons or families in the housing support program.

Your Committee received testimony in support of this measure from the League of Women Voters of Hawaii and Oahu County Committee on Legislative Priorities of the Democratic Party of Hawaii. Your Committee received comments on this measure from the Governor's Coordinator on Homelessness, Hawaii Public Housing Authority, and Department of Budget and Finance.

Your Committee finds that homelessness remains one of the most pressing challenges facing Hawaii. As a result, the State has adopted a comprehensive framework to address homelessness that focuses on three primary leverage points, which are affordable housing, health and human services, and public safety. With respect to affordable housing initiatives, the State has increased resources for permanent housing programs, such as Housing First and Rapid Rehousing. This measure will assist the State in its efforts to enable residents who are at risk of being homeless to remain in their homes.

Your Committee has amended this measure by:

- (1) Adopting the language suggested by the Hawaii Public Housing Authority that:
 - (A) Requires the Authority to develop interim rules without regard to chapter 91, Hawaii Revised Statutes, to implement the housing support program; and

(B) Authorizes the Authority to procure case management and counseling services without regard to chapters 103D and 103F, Hawaii Revised Statutes, to implement the housing support program; and

(2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2024, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2024, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Nishihara).

SCRep. 2015 Housing on S.B. No. 2293

The purpose and intent of this measure is to preserve the Front Street Apartments on Maui as an affordable rental housing project by:

- (1) Requiring the Hawaii Housing Finance and Development Corporation, or any appropriate entity of the State as determined by the Governor, to immediately initiate negotiations with the owners of the Front Street Apartments to:
 - (A) Make available, without competitive award, public financing resources to extend the affordable rents at the Front Street Apartments through at least 2027 for apartment tenants as of January 1, 2018, who meet certain median family income levels; or
 - (B) Acquire the property, provided that certain apartment units are reserved for tenants who meet certain median family income levels;
- (2) Authorizing the State to exercise the powers of eminent domain to provide for the public financing of the acquisition of the Front Street Apartments by condemnation through the expenditures of funds at the disposal of the State, if an agreement to extend the affordable rents or acquire the property is not reached within a reasonable time; and
- (3) Appropriating funds to the Hawaii Housing Finance and Development Corporation for the purposes of negotiating with the owners of the Front Street Apartments and requiring the County of Maui to appropriate matching county funds.

Your Committee received testimony in support of this measure from the Hawaii Housing Finance and Development Corporation; Office of the Mayor, County of Maui; EAH Housing; Oahu County Committee on Legislative Priorities Democratic Party of Hawaii; Ho'omanapono Political Action Committee; We Are One, Inc.; Waiahole-Waikane Community Association; The Front Street Apartments Tenants Group; West Maui Taxpayers Association; and fifteen individuals. Your Committee received testimony in opposition to this measure from the Front Street Affordable Housing Partners. Your Committee received comments on this measure from two individuals.

Your Committee finds that the Front Street Apartments on Maui provide affordable housing to more than two hundred fifty low-income residents. These apartments were developed in 2001 as an affordable rental housing project with one hundred forty-two apartment units, using state financing and state tax credits, and were expected to remain affordable to low-income tenants for fifty years. However, the owners of the Front Street Apartments recently exercised an option to remove the property from affordability requirements that were tied to the development of the property, and this change will allow them to begin renting available apartments at market rates and likely raise rents for existing tenants within a few years.

Your Committee further finds that the County of Maui has a dire need for additional affordable housing. The most recent Hawaii Housing Planning Study indicates a need for twelve thousand housing units on Maui for 2015 to 2025. The current tenants of the Front Street Apartments consist of households with incomes below sixty percent of the area median income for the County of Maui. Some of the tenants are disabled or elderly and represent the most vulnerable populations. If the tenants of the Front Street Apartments lose their apartment units, there are virtually no other affordable rental units for them to move into, and many of them could become homeless as a result.

Your Committee notes that Act 288, Session Laws of Hawaii 2006, authorized the State to intervene to preserve affordable rents at the Kukui Gardens affordable rental housing project on Oahu. The tenants, surrounding community, and the island of Maui would benefit from similar active state intervention in this situation to ensure that there is no negative impact on current and future tenants of the Front Street Apartments. Accordingly, this measure authorizes the State to intervene to preserve the Front Street Apartments on Maui as an affordable rental housing project.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 2050, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2293, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2293, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Nishihara).

SCRep. 2016 (Joint) Housing and Human Services on S.B. No. 2423

The purpose and intent of this measure is to expand and clarify the no smoking radius around public housing projects, elder or elderly housing, and state low-income housing projects to twenty-five feet from each individual and each administrative office building

of the public housing project, elder or elderly housing, and state low-income housing project under the jurisdiction of the Hawaii Public Housing Authority.

Your Committees received testimony in support of this measure from the Department of Health, Hawaii Public Housing Authority, and Coalition for a Tobacco-Free Hawai'i of the Hawai'i Public Health Institute.

Your Committees find that the United States Department of Housing and Urban Development instituted a final rule requiring public housing agencies to implement a smoke-free policy by July 30, 2018. While existing law and internal policies require smoke-free zones at public housing projects under the jurisdiction of the Hawaii Public Housing Authority, the law and policies fail to comply with the federal standards of no smoking up to twenty-five feet away from public housing units and administrative office buildings. This measure enables the Hawaii Public Housing Authority to comply with the smoke-free requirements established by the federal government.

As affirmed by the records of votes of the members of your Committees on Housing and Human Services that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2423 and recommend that it pass Second Reading and be referred to your Committee on Judiciary.

Signed by the Chairs on behalf of the Committees.

Housing: Ayes, 3. Noes, none. Excused, 2 (Kahele, Nishihara).

Human Services: Ayes, 4. Noes, none. Excused, 1 (Wakai).

SCRep. 2017 (Joint) Human Services and Housing on S.B. No. 2008

The purpose and intent of this measure is to appropriate funds to the Department of Human Services to increase outreach and provide shelter and services to unaccompanied homeless youth.

Your Committees received testimony in support of this measure from the Governor's Coordinator on Homelessness, Office of Youth Services, The Queen's Health Systems, Hawaii Youth Services Network, Partners in Care, The Kupuna Caucus of the Democratic Party of Hawai'i, Residential Youth Services & Empowerment, Hawaiian Affairs Caucus of the Democratic Party of Hawai'i, Oahu County Committee Legislative Priorities of the Democratic Party of Hawaii, Domestic Violence Action Center, LGBT Caucus of the Democratic Party of Hawaii, League of Women Voters, Americans for Democratic Action, Rainbow Family 808, Ho'omanapono Political Action Committee, and twenty-one individuals.

Your Committees find that addressing the needs and concerns of unaccompanied homeless youth is a statewide challenge. Your Committees further find that addressing youth homelessness requires a multi-faceted approach, and outreach and shelter are critical components to assisting this underserved population.

Your Committees have amended this measure by:

- (1) Deleting findings discussing the recent crimes in Waikiki involving homeless youth and inserting language discussing the challenges unaccompanied homeless youth encounter living on their own;
- (2) Increasing the appropriation amount to \$500,000; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Human Services and Housing that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2008, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2008, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Human Services: Ayes, 4. Noes, none. Excused, 1 (Wakai).

Housing: Ayes, 3. Noes, none. Excused, 2 (Kahele, Nishihara).

SCRep. 2018 Human Services on S.B. No. 2438

The purpose and intent of this measure is to appropriate funds for the continuation of the Hawaii healthy aging partnership program.

Your Committee received testimony in support of this measure from the Executive Office on Aging, ILWU Local 142, Oahu County Committee Legislative Priorities of the Democratic Party of Hawaii, Ho'omanapono Political Action Committee, and twenty-nine individuals.

Your Committee finds that in Hawaii, an individual spends on average \$20,477 per year on emergency room visits and hospitalizations. Your Committee further finds that the Hawaii healthy aging partnership program has shown that participants with chronic conditions benefit from the self-management techniques and exercises in avoiding long term effects of chronic conditions and that the program should receive financial support for continued implementation.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2438 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Wakai).

SCRep. 2019 Human Services on S.B. No. 2269

The purpose and intent of this measure is to:

- (1) Require prescription drug coverage provided under the State's Medicaid managed care and fee-for-service programs to include prescription drug coverage for buprenorphine, when used in the treatment of opioid dependency; and
- (2) Require prescriptions for buprenorphine to be offered without copayments and without the need for prior authorization.

Your Committee received testimony in support of this measure from the Oahu County Committee Legislative Priorities Committee of the Democratic Party of Hawaii, Hawaii Substance Abuse Coalition, and two individuals. Your Committee received comments on this measure from the Department of Human Services, Department of Health, Hawaii Medical Service Association, Kaiser Permanente, and Ohana Makamae, Inc.

Your Committee finds that there are over fifty thousand opioid prescriptions per year in the State and about one-third of the population uses opioids. Your Committee further finds that medications such as buprenorphine, in combination with counseling and behavioral therapies, provide a comprehensive approach to the treatment of opioid dependency and should be covered under the Medicaid managed care and fee-for-service program without any copayment or prior authorization requirements.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2269 and recommends that it pass Second Reading and be referred to your Committee on Commerce, Consumer Protection, and Health.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Wakai).

SCRep. 2020 Human Services on S.B. No. 2029

The purpose and intent of this measure is to provide tax relief by establishing a new child tax credit to assist child care costs for working families.

Your Committee received testimony in support of this measure from the Hawaii Appleseed Center for Law & Economic Justice, Hawaii Children's Action Network, Oahu County Committee Legislative Priorities Committee of the Democratic Party of Hawaii, and one individual. Your Committee received comments on this measure from the Department of Taxation and Department of the Attorney General.

Your Committee finds that the cost of raising a child in Hawaii is much higher than the national average due to the cost of child care in Hawaii and because, when adjusted for cost of living, wages in Hawaii are amongst the lowest in the nation. Your Committee further finds that the federal child tax credit enacted twenty years ago has been shown to be an effective tool to address poverty and assist lower income families and that a similar state tax credit would provide valuable financial relief for local families.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2029, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2029, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Wakai).

SCRep. 2021 (Joint) Human Services and Housing on S.B. No. 2027

The purpose and intent of this measure is to appropriate funds to continue and improve the coordinated statewide homeless initiative.

Your Committees received testimony in support of this measure from The Queen's Health Systems, The Salvation Army, Aloha United Way, League of Women Voters, Hawaii Appleseed Center for Law & Economic Justice, Oahu County Committee Legislative Priorities Committee of the Democratic Party, Hawaii Substance Abuse Coalition, Family Promise of Hawai'i, Ho'omanapono Political Action Committee, and one individual. Your Committees received testimony in opposition to this measure from the State Procurement Office. Your Committees received comments on this measure from the Governor's Coordinator on Homelessness, Department of the Attorney General, Department of Human Services, and Department of Health.

Your Committees find that in the eighteen months of operation, the coordinated statewide housing initiative assisted over one thousand six hundred households and four thousand nine hundred individuals by either preventing eviction or helping homeless families and individuals move into permanent housing. Your Committees further find that evictions have dropped by twenty-five percent on Oahu, while ninety-seven percent of the households assisted by the initiative remain housed.

Your Committees have amended this measure by:

- (1) Eliminating certain duties and powers of the master contractor and inserting language directing the master contractor to operate a coalition of agencies to provide short-term financial assistance and coordinate with the coordinated entry system to provide navigation services and assistance of placement of homeless households into permanent housing;
- (2) Inserting an appropriation amount of \$2,500,000, with \$2,000,000 allocated to continuation of the statewide homeless initiative and \$500,000 allocated to landlord outreach and liaison activities within the initiative; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Human Services and Housing that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2027, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2027, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
 Human Services: Ayes, 4. Noes, none. Excused, 1 (Wakai).
 Housing: Ayes, 3. Noes, none. Excused, 2 (Kahele, Nishihara).

SCRep. 2022 Public Safety, Intergovernmental, and Military Affairs on S.B. No. 2859

The purpose and intent of this measure is to create restrictions and guidelines on the use of administrative segregation and disciplinary segregation in correctional facilities.

Your Committee received testimony in support of this measure from the Hawaii Disability Rights Center and one individual. Your Committee received testimony in opposition to this measure from the Young Progressives Demanding Action. Your Committee received comments on this measure from the Department of Public Safety and one individual.

Your Committee finds that administrative or disciplinary segregation on inmates is a significant action taken against inmates and use of either requires clearly established guidelines. Administrative and disciplinary segregation are actions ripe for abuse, and the impacts of any such abuse can be harmful and long-lasting. Accordingly, this measure:

- (1) Establishes the maximum length of time that an inmate may be held in administrative or disciplinary segregation;
- (2) Establishes procedures for continued placement in administrative or disciplinary segregation;
- (3) Creates restrictions on the deprivation of certain necessities of an inmate in administrative or disciplinary segregation;
- (4) Establishes guidelines for the use of administrative or disciplinary segregation on a member of a vulnerable population; and
- (5) Establishes criteria for classifying an inmate as a member of a vulnerable population.

However, your Committee finds that the issues surrounding this measure raise concerns that merit further discussion. Accordingly, your Committee has amended this measure by:

- (1) Inserting an effective date of January 1, 2025, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2859, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2859, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.
 Ayes, 5. Noes, none. Excused, none.

SCRep. 2023 Public Safety, Intergovernmental, and Military Affairs on S.B. No. 2696

The purpose and intent of this measure is to provide an income tax credit for wages paid by a technology business owner to employees who were formerly in the custody of the Department of Public Safety.

Your Committee received testimony in support of this measure from the Department of Public Safety. Your Committee received testimony in opposition to this measure from one individual. Your Committee received comments on this measure from the Department of Taxation, Tax Foundation of Hawaii, and one individual.

Your Committee finds that the successful reintegration of former inmates back into society is essential to maintaining the effectiveness of the corrections system and promoting public welfare. Upon release from incarceration, it is often difficult for former inmates to find meaningful employment. Without meaningful employment, former inmates are at a higher risk of recidivism. To reduce that risk, it is important to create incentives for businesses to hire formerly incarcerated persons. Accordingly, this measure creates a tax credit on a technology business owner's net income tax liability for certain wages paid to former inmates under their employ.

In addition, your Committee agrees with the suggestion of the Tax Foundation of Hawaii that, instead of creating an entirely new tax credit, section 235-55.91, Hawaii Revised Statutes, should be amended to include the tax credit proposed by this measure. Establishing this measure's tax credit through the existing tax code should help avoid unforeseen issues that often accompany the creation of new tax credits. Further, your Committee agrees with the recommendation of the Department of Public Safety that this measure should allow only those technology businesses that participate in the Work Opportunity Tax Credit program administered by the United States Department of Labor, Employment, and Training to qualify for the tax credit proposed by this measure.

Accordingly, your Committee has amended this measure by:

- (1) Incorporating the tax credit for wages of former inmates hired by a technology business into section 235-55.91, Hawaii Revised Statutes;
- (2) Clarifying the definition of a "technology business" to include only those technology businesses that also participate in the Work Opportunity Tax Credit program administered by the United States Department of Labor, Employment, and Training Administration; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2696, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2696, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2024 Public Safety, Intergovernmental, and Military Affairs on S.B. No. 2816

The purpose and intent of this measure is to specify that funds for discharged persons be subject to legislative appropriation.

Your Committee received testimony in support of this measure from the Hawaii Paroling Authority, Community Alliance On Prisons, and one individual. Your Committee received testimony in opposition to this measure from the Young Progressives Demanding Action. Your Committee received comments on this measure from one individual.

Your Committee finds that an efficient and effective parole system is essential to the proper functioning of the State's corrections system. The law provides that the Hawaii Paroling Authority, in its discretion, may upon discharge or parole provide a committed person with up to \$200 to meet the committed person's immediate needs. This measure clarifies that provision by ensuring the Paroling Authority shall only provide these funds if legislative appropriations for this specific purpose have been authorized and allocated to the Authority.

However, your Committee also finds that the provision of funds alone is often insufficient to meet the immediate needs of a committed person being discharged. It is also important that the person receive appropriate resource referrals upon transitioning back into society.

Accordingly, your Committee has amended this measure by:

- (1) Requiring that committed persons be given appropriate resource referrals before being furnished with funds to meet the committed person's immediate needs by the Hawaii Paroling Authority at discharge; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2816, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2816, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2025 Public Safety, Intergovernmental, and Military Affairs on S.B. No. 2820

The purpose and intent of this measure is to make an emergency appropriation to provide funds for the Department of Public Safety to pay for the temporary housing of two hundred forty-eight inmates at a non-state facility for an additional six months, during work on capital improvements to the Halawa Correctional Facility.

Your Committee received testimony in support of this measure from the Department of Public Safety. Your Committee received testimony in opposition to this measure from Young Progressives Demanding Action.

Your Committee finds that ensuring the proper functioning of the State's correctional facilities is essential for maintaining public safety. The Halawa Correctional Facility is currently undergoing needed repairs and improvements to security electronics and hardware. In 2017, the Legislature allocated funds to the Department of Public Safety for temporary non-state housing for two hundred forty-eight inmates while the upgrades were being completed. The improvement project was scheduled to be completed in December 2017, but due to complications related to the specialty subcontractor's work and the time needed to hire a new vendor, the anticipated completion date for the project has been pushed back to October 2018. Consequently, funds will be needed to continue the temporary housing of the two hundred forty-eight inmates at a non-state facility for another six months to enable the project to move forward to completion. Accordingly, this measure makes an emergency appropriation to provide funds for the Department of Public Safety to pay for the necessary, temporary housing of the Halawa Correctional Facility inmates.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2820 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2026 Labor on S.B. No. 2042

The purpose and intent of this measure is to amend the law relating to collective bargaining.

Prior to the hearing on this measure, your Committee posted and made available for public review a proposed S.D. 1, which amends this measure by deleting its contents and replacing it with language to include school psychologists in bargaining unit (5).

Your Committee has amended this measure by adopting the proposed S.D. 1.

As affirmed by the record of votes of the members of your Committee on Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2042, as amended herein, and recommends that it be recommended to your Committee on Labor, in the form attached hereto as S.B. No. 2042, S.D. 1, for further consideration.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (English, Ihara).

SCRep. 2027 Housing on S.B. No. 2472

The purpose and intent of this measure is to establish a home ownership housing revolving fund to be administered by the Hawaii Housing Finance and Development Corporation for the purpose of providing loans or grants for affordable home ownership housing projects in accordance with a specified housing project priority list.

Your Committee received testimony in support of this measure from the League of Women Voters of Hawaii, Oahu County Committee on Legislative Priorities of the Democratic Party of Hawaii, Hawaiian Community Assets, IMUAlliance, and Hawaii Habitat for Humanity Association. Your Committee received comments on this measure from the Hawaii Housing Finance and Development Corporation and Department of Budget and Finance.

Your Committee finds that Hawaii has the third lowest home ownership rate in the nation. The lack of construction and development of affordable for-sale housing contributes to the State's low affordable housing inventory. This measure will assist in facilitating additional affordable housing projects by creating an infusion of funding resources through the creation of a home ownership housing revolving fund.

Your Committee has amended this measure by:

- (1) Adopting the suggestion made by the Hawaii Housing Finance and Development Corporation to add clarifying language throughout the measure that monies from the home ownership housing revolving fund be used for the development of affordable for-sale housing projects, rather than affordable rental housing projects, to distinguish the purposes of this revolving fund from the rental housing revolving fund; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2472, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2472, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Nishihara).

SCRep. 2028 Agriculture and Environment on S.B. No. 2285

The purpose and intent of this measure is to:

- (1) Prohibit the distribution, sale, and provision of plastic straws by individuals and businesses in the State; and
- (2) Impose a fine for violations and a requirement for violators to pick up litter or perform other types of community service.

Your Committee received testimony in support of this measure from the Hawai'i Association for Behavior Analysis, Conservation Council for Hawai'i, Surfrider Foundation, Surfrider Foundation O'ahu Chapter, Environmental Caucus of the Democratic Party of Hawai'i, Sierra Club of Hawai'i, Young Progressives Demanding Action, Vote Hawaii, Graduate Student Organization, Hawaiian Civic Club of Honolulu, Autism Behavior Consulting Group, Magic's Beach Grill, Kokua Hawaii Foundation, 808 Cleanups, Beach Environmental Awareness Campaign Hawai'i, O'ahu County Legislative Priorities Committee of the Democratic Party of Hawai'i, One Ocean Global Plastics Project, and forty-three individuals. Your Committee received testimony in opposition to this measure from the Hawai'i Restaurant Association; American Chemistry Council; Hawaii Food Industry Association; Tiki's Grill & Bar, LLC; Retail Merchants of Hawaii; and four individuals. Your Committee received comments on this measure from the Department of Health and one individual.

Your Committee finds that plastic straws are seemingly everywhere, often ending up as marine trash, littering beaches, or being consumed by sea life. Other jurisdictions have taken steps to prohibit the sale and distribution of plastic straws. Hawaii, as a leader in advancing protection of marine life and the marine environment, should ban these unnecessary, single-use objects that are contributing to the world's plastic pollution problem. Your Committee finds that this measure is another way to create state policy to lessen the negative impacts of plastics getting into the ocean.

Your Committee has amended this measure by:

- (1) Changing the effective date to January 1, 2019, to allow time for those affected by this measure to prepare for implementation; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2285, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2285, S.D. 1, and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Nishihara, Riviere).

SCRep. 2029 (Majority) Agriculture and Environment on S.B. No. 2567

The purpose and intent of this measure is to require cesspools to be upgraded, converted, or connected by connecting to a sewer system or installing an individual wastewater system that complies with Department of Health rules, within one hundred eighty days after the sale of the property.

Your Committee received testimony in support of this measure from the Department of Health, Surfrider Foundation, Friends of Hanauma Bay, Environmental Caucus of the Democratic Party of Hawai'i, O'ahu County Legislative Priorities Committee of the

Democratic Party of Hawai'i, and two individuals. Your Committee received testimony in opposition to this measure from the Office of the Mayor of the County of Hawaii and Hawaii Association of REALTORS.

Your Committee finds that Hawaii has 88,000 cesspools that deposit approximately 53,000,000 gallons of raw sewage directly into the groundwater every day. Drinking water, public recreation, and the precious coral reefs, on which Hawaii's economy, shoreline, recreation, fisheries, and native species depend, are or may be harmed by such pollution. Your Committee further finds that upgrading cesspools can be very expensive, therefore it is ideal that cesspools be required to be upgraded at a time when owners have an ability to negotiate costs and pay for the upgrade, such as at or within one hundred eighty days of the sale of the property.

Your Committee further finds that the Department of Health recently released its 2018 report to the Legislature titled *Relating to Cesspools and Prioritization for Replacement*, in which the Department of Health identifies priority upgrade areas and assigns cesspools one of the following priority levels:

- (1) Priority 1: Significant Risk of Human Health Impacts, Drinking Water Impacts, or Draining to Sensitive Waters;
- (2) Priority 2: Potential to Impact Drinking Water;
- (3) Priority 3: Potential Impacts on Sensitive Waters; or
- (4) Priority 4: Impacts Not Identified.

Your Committee finds that cesspools that have been identified by the Department of Health as priorities for upgrade should also be prioritized within this measure.

Accordingly, your Committee has amended this measure by:

- (1) Limiting the requirement to upgrade cesspools within one hundred eighty days of the sale of the property to property located within priority upgrade areas and identified as priority level 1, 2, or 3, as determined by the Department of Health;
- (2) Adding language to allow for property identified as priority level 4 and included in additional priority upgrade areas to be required to be upgraded within one hundred eighty days of the sale of the property, upon determination by the Director of Health; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2567, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2567, S.D. 1, and be referred to your Committee on Commerce, Consumer Protection, and Health.

Signed by the Chair on behalf of the Committee.

Ayes, 2. Noes, 1 (Ruderman). Excused, 2 (Nishihara, Riviere).

SCRep. 2030 Agriculture and Environment on S.B. No. 2110

The purpose and intent of this measure is to require retail automotive parts stores to accept used motor oil for recycling or disposal.

Your Committee received testimony in support of this measure from the O'ahu County Legislative Priorities Committee of the Democratic Party of Hawai'i. Your Committee received comments on this measure from the Department of Health and County of Hawaii Department of Environmental Management.

Your Committee finds that recycling used oil is a great way to help the environment. Used motor oil can be cleaned and fully reused as a fuel oil, and with higher-intensity processing, it can be re-refined back into lubricants. Beyond automotive motor oil, used motor oil from motorcycles, boats, farm equipment, and lawn mowers can be reused or re-refined as well. Your Committee further finds that facilities are needed statewide to accept used motor oil for recycling for proper disposal; however, your Committee acknowledges that not all retail automotive parts stores have the infrastructure necessary to collect and store used motor oil.

Accordingly, your Committee has amended this measure by:

- (1) Limiting the application of this measure to only those retail automotive parts stores with an existing oil collection and storage unit and requiring them to accept only household generated used motor oil, rather than requiring all retail automotive parts stores to accept all used motor oil; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2110, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2110, S.D. 1, and be referred to your Committee on Commerce, Consumer Protection, and Health.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Nishihara, Riviere).

SCRep. 2031 Agriculture and Environment on S.B. No. 3096

The purpose and intent of this measure is to prohibit the State from discriminating against persons who reduce their greenhouse gas emissions.

Your Committee received testimony in support of this measure from Life of the Land, Hawaiian Civic Club of Honolulu, West Hawaii Community Health Center, O'ahu County Legislative Priorities Committee of the Democratic Party of Hawai'i, Hawaii

Farmers Union United, 350 Hawaii, and three individuals. Your Committee received testimony in opposition to this measure from the Department of Health.

Your Committee finds that individuals can reduce their greenhouse gas emissions by being more conscious of their own actions, which may include disconnecting from an electric grid and installing on-site renewable energy systems, energy efficiency systems, and energy storage systems. Your Committee also finds that the State should promote a worldview where renewable energy users are considered to be in the public interest.

Your Committee has amended this measure by:

- (1) Inserting language to encourage people to reduce their greenhouse gas emissions through the installation of on-site renewable energy systems, energy efficiency systems, and energy storage systems, and deleting language that prohibited discrimination against people who reduce their greenhouse gas emissions; and
- (2) Amending section 1 to reflect the amended purpose.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3096, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3096, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Nishihara, Riviere).

SCRep. 2032 Judiciary on S.B. No. 2172

The purpose and intent of this measure is to clarify applicable witness fees for testimony, preparation, and in-court attendance in state court criminal proceedings.

Your Committee received testimony in support of this measure from the Office of the Public Defender, Department of the Prosecuting Attorney of the City and County of Honolulu, and Office of the Prosecuting Attorney of the County of Hawaii. Your Committee received comments on this measure from the Department of Budget and Finance.

Your Committee finds that the testimony of expert witnesses is an important resource for a variety of criminal court proceedings. In some cases, including many sexual assault cases, it is almost impossible for the prosecution to establish its case without the assistance of an expert witness. Expert witness testimony can also be crucial to a defense against criminal allegations if the defense relies on a careful and correct consideration of complex facts or specialized practices. Limiting access to expert witness testimony through arbitrarily truncating trial expenses impedes the ability of the court to give criminal court cases the full and just consideration that those cases deserve.

Your Committee has amended this measure by:

- (1) Specifying that expert witnesses are entitled to reasonable fees; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2172, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2172, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2033 Agriculture and Environment on S.B. No. 2674

The purpose and intent of this measure is to codify the State's commitment to conservation and sustainability by including goal thirteen, climate action, of the seventeen United Nations Sustainable Development Goals and indicators, with references to existing state sustainability programs, if applicable, in the Hawaii Revised Statutes.

Your Committee received testimony in support of this measure from the Office of Planning, Department of Land and Natural Resources, Department of Agriculture, Office of Hawaiian Affairs, Airport Concessionaires Committee, Sierra Club of Hawai'i, Hawaiian Civic Club of Honolulu, The Nature Conservancy, O'ahu County Legislative Priorities Committee of the Democratic Party of Hawai'i, and Hawaii Farmers Union United. Your Committee received testimony in opposition to this measure from one individual. Your Committee received comments on this measure from the Office of Environmental Quality Control and Hawai'i Farm Bureau.

Your Committee finds that Hawai'i has been a leader in conservation efforts for decades, through its commitment to environmental and sustainability policies, and that the priority of the Senate for the Regular Session of 2018 is to adopt the United Nation's Sustainable Development Goals at the state level. The seventeen Sustainable Development Goals are a universal call to action to end poverty, protect the planet, and ensure that all people enjoy peace and prosperity. This measure codifies Sustainable Development Goal thirteen, climate action, into state law.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2674 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Nishihara, Riviere).

SCRep. 2034 Agriculture and Environment on S.B. No. 2573

The purpose and intent of this measure is to establish and make an appropriation for a regional nutrient cycling pilot program on Maui and require reporting on the efficacy of the pilot project.

Your Committee received testimony in support of this measure from the Department of Agriculture; Hawai'i Center for Food Safety; Hawaii Farmers Union United; We Are One, Inc.; and eight individuals.

Your Committee finds that nutrient cycling fosters agricultural production by preventing nutrients from running off from farmland directly into aquifers and shorelines. Nutrient cycling puts end products back into the land-based food chain instead of generating waste or causing pollution, as with food waste. Your Committee further finds that nutrient cycling lowers agricultural production costs, increases yields, reduces waste in streams, and leaves the soil in revitalized condition. Your Committee also finds that a regional nutrient cycling center in Hawaii, particularly on Maui, would promote environmental, economic, and social benefits for the State along with food and energy security, while minimizing the interisland transfer of waste streams and reducing the likelihood of transporting invasive species.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2573 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Nishihara, Riviere).

SCRep. 2035 Agriculture and Environment on S.B. No. 2842

The purpose and intent of this measure is to authorize the Director of Finance to issue general obligation bonds and appropriate funds for the acquisition of certain farm lands in west Kauai by the Agribusiness Development Corporation.

Your Committee received testimony in support of this measure from the Department of Agriculture; Agribusiness Development Corporation; Hawaii Floriculture & Nursery Association; Hartung Brothers Hawaii, LLC; Hawai'i Farm Bureau; and Hawaii Cattlemen's Council, Inc.

Your Committee finds that the Agribusiness Development Corporation is tasked with the priority of transitioning Hawaii's agriculture industry from an industry dominated by sugar and pineapple to one based on a greater diversity of crops. Due to the rapid downsizing and closure of agricultural companies in the State, there are large tracts of land currently available for agricultural economic growth. This measure provides a means by which the Agribusiness Development Corporation can acquire certain large tracts of former agricultural land located in west Kauai for agricultural development.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2842 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Nishihara, Riviere).

SCRep. 2036 Agriculture and Environment on S.B. No. 3030

The purpose and intent of this measure is to improve food security and self-sufficiency in the State by establishing a farmer apprentice mentoring program that teaches and provides mentoring on a whole farm system approach to agriculture in Hawaii.

Your Committee received testimony in support of this measure from the Department of Agriculture, University of Hawaii College of Tropical Agriculture and Human Resources, Hawaii Farm Bureau, Hawaii Farmers Union United, Hawaii Floriculture & Nursery Association, Hawaiian Affairs Caucus of the Democratic Party of Hawaii, and two individuals.

Your Committee finds that the development of a whole system approach to agriculture in Hawaii that pays close attention to soil health, specifically increasing mineral availability and improving soil structure, water-holding capacity, crop health, and food nutrition levels, will lower water usage through deployment of green manure, compost, and cover crops; reduce crop loss from pest damage; and decrease weed pressure. This whole farm system approach to agriculture can improve food security and benefit the local economy through reducing production costs by promoting locally sourced inputs and the manufacturing thereof. Teaching a new generation of farmers to use this whole farm system approach will create an alternative method of farming that appeals to many young farmers across the State. Your Committee finds that currently there is a shortage of qualified teachers for these farm methods; therefore, a farmer apprentice mentoring program will fulfill this need by bringing the students to the farm and providing qualified farm mentors with funding to serve as teachers and mentors.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3030 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Nishihara).

SCRep. 2037 Agriculture and Environment on S.B. No. 2667

The purpose and intent of this measure is to codify the State's commitment to conservation and sustainability by including goal six, clean water and sanitation, of the seventeen United Nations Sustainable Development Goals and indicators, with references to existing state sustainability programs, if applicable, in the Hawaii Revised Statutes.

Your Committee received testimony in support of this measure from the Office of Planning, Department of Land and Natural Resources, Department of Agriculture, Office of Hawaiian Affairs, Airport Concessionaires Committee, Sierra Club of Hawai'i, Hawaiian Civic Club of Honolulu, The Nature Conservancy, O'ahu County Legislative Priorities Committee of the Democratic Party of Hawai'i, Hawaii Farmers Union United, and one individual. Your Committee received testimony in opposition to this measure from one individual. Your Committee received comments on this measure from the Office of Environmental Quality Control and Hawai'i Farm Bureau.

Your Committee finds that Hawai'i has been a leader in conservation efforts for decades, through its commitment to environmental and sustainability policies, and that the priority of the Senate for the Regular Session of 2018 is to adopt the United Nation's Sustainable Development Goals at the state level. The seventeen Sustainable Development Goals are a universal call to action to end poverty, protect the planet, and ensure that all people enjoy peace and prosperity. This measure codifies Sustainable Development Goal six, clean water and sanitation, into state law.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2667 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Nishihara, Riviere).

SCRep. 2038 Judiciary on S.B. No. 2231

The purpose and intent of this measure is to exempt unpaid board or commission members whose financial disclosure statements are not public records from the daily late disclosure fee.

Your Committee received testimony in opposition to this measure from Common Cause Hawaii and Ho'omana Pono, LLC. Your Committee received comments on this measure from the Hawaii State Ethics Commission.

Your Committee finds that Article XIV of the Constitution of the State of Hawaii requires that all board and commission members who wield "significant discretionary or fiscal powers" file financial disclosure statements to promote transparency and accountability. State government relies on hundreds of private individuals to come forward and volunteer their time to serve on various boards or commissions. By and large these volunteers are required to submit financial disclosures. However, when these individuals are subjected to fines for filing their financial disclosure late, it serves as a deterrent for volunteering their time, energy, and service to the State.

Your Committee has amended this measure by making a clarifying amendment in the purpose section.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2231, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2231, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2039 Water and Land on S.B. No. 815

The purpose and intent of this measure is to:

- (1) Require a seller of residential real property to disclose the presence of all albizia trees rooted within one hundred fifty feet of the residential real property in a disclosure statement; and
- (2) Require any ambiguity that arises from the disclosure of the presence of albizia trees to be construed in the favor of the seller, provided that a good faith effort was made by the seller.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources and two individuals.

Your Committee finds that albizia trees pose a substantial threat to infrastructure and individuals due to the potential hazard of falling tree limbs and debris. Due to their extreme height, albizia trees pose a threat to not only the properties on which these trees are rooted, but also to adjacent properties where branches and other debris may fall during high wind events. This measure will assist in providing buyers additional material facts relating to the residential real property for sale by requiring the disclosure of the presence of albizia trees.

Your Committee notes that due to the fast growth rate of albizia trees, the presence of rooted albizia trees within one hundred fifty feet of the residential real property may be difficult to determine and accurately disclose, especially if the tree is a sapling.

Accordingly, your Committee has amended this measure by:

- (1) Removing language that would have required the disclosure of the presence of all albizia trees rooted within one hundred fifty feet of the residential real property and inserting language that requires the seller to disclose the presence of all albizia trees located on the real property for sale and all albizia trees that are not located on the real property for sale, but are clearly visible from anywhere on that property;
- (2) Requiring that disclosure statements include additional information regarding the risks of albizia trees; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 815, as amended herein, and recommends that it pass Second Reading

in the form attached hereto as S.B. No. 815, S.D. 1, and be referred to your Committee on Commerce, Consumer Protection, and Health.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Gabbard, Inouye).

SCRep. 2040 Housing on S.B. No. 2757

The purpose and intent of this measure is to:

- (1) Extend to June 30, 2026, the certification requirements for exemption from the general excise tax for certain affordable rental housing projects; and
- (2) Amend the certification requirements for exemption from the general excise tax for those affordable rental housing projects by:
 - (A) Applying the exemption to only newly constructed affordable rental housing projects;
 - (B) Repealing the per annum cap of \$7,000,000 for contracting costs; and
 - (C) Conditioning certification upon the project owners not refusing to lease units in the projects to qualified applicants because they hold a voucher or certificate of eligibility under the Section 8 Housing Choice Voucher Program.

Your Committee received testimony in support of this measure from the Office of the Governor; Department of Business, Economic Development, and Tourism; Department of Taxation; Hawaii Housing Finance and Development Corporation; Hawaii Public Housing Authority; League of Women Voters of Hawaii; Hawaii Regional Council of Carpenters; Hawai'i Construction Alliance; Pacific Resource Partnership; and Helping Hands Hawai'i. Your Committee received comments on this measure from the Tax Foundation of Hawaii.

Your Committee finds that the Special Action Team on Affordable Rental Housing has determined that additional incentives are needed to spur rental housing development to meet housing demands. Under existing law, the Hawaii Housing Finance and Development Corporation is authorized to certify that a housing project is entitled to an exemption from the general excise tax. Only after receiving this certification can a taxpayer claim the tax exemption. This measure provides incentives for developers to immediately start their housing developments to take advantage of the exemption from the general excise tax before the exemption sunsets. Furthermore, by requiring project owners to accept section 8 Housing Choice Vouchers as a condition of certification, this measure will increase the use of the Section 8 program statewide.

Your Committee has amended this measure by:

- (1) Adopting the language suggested by the Hawai'i Construction Alliance that clarifies that the exemption applies to approved or certified projects developed by a person or firm to provide affordable rental housing through new construction or substantial rehabilitation, to ensure that substantial rehabilitation projects, rather than only newly constructed projects, are included within the program; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2757, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2757, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Nishihara).

SCRep. 2041 Economic Development, Tourism, and Technology on S.B. No. 48

The purpose and intent of this measure is to amend the law relating to technology.

Prior to the hearing on this measure, your Committee posted and made available for public review a proposed S.D. 1, which amends this measure by deleting its contents and replacing it with language that transfers the title, control, custody, and management authority of the land under the Manoa Innovation Center, including any buildings, structures, and appurtenances situated on the land, from the University of Hawaii to the Hawaii Technology Development Corporation.

Your Committee has amended this measure by adopting the proposed S.D. 1.

As affirmed by the record of votes of the members of your Committee on Economic Development, Tourism, and Technology that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 48, as amended herein, and recommends that it be recommitted to your Committee on Economic Development, Tourism, and Technology, in the form attached hereto as S.B. 48, S.D. 1, for further consideration.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2042 Commerce, Consumer Protection, and Health on S.B. No. 2891

The purpose and intent of this measure is to create and appropriate funds for a pilot program to increase provider adoption of telehealth, support health care workforce development linked to telehealth, and evaluate the clinical and administrative efficiency of telehealth.

Your Committee received testimony in support of this measure from County of Hawaii, Office of the Mayor; Hawaii Primary Care Association; Hawaii Substance Abuse Coalition; Wahiawa Center for Community Health; and five individuals. Your Committee received testimony in opposition to this measure from the State Procurement Office.

Your Committee finds that many residents, especially those in rural areas, are unable to visit a health center in person, whether because of limited financial resources, lack of transportation, disability, or other reasons. This lack of access is exacerbated by the severe shortage of health care professionals, especially in rural areas. Your Committee finds that the telehealth pilot program proposed by this measure presents an opportunity to increase adoption of the use of telehealth by providers and patients and an opportunity to evaluate the effectiveness of telehealth and how to implement it on a larger scale.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2891 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 1 (Nishihara).

SCRep. 2043 Commerce, Consumer Protection, and Health on S.B. No. 2082

The purpose and intent of this measure is to:

- (1) Limit liability for volunteers who maintain or repair cemetery grounds; and
- (2) Require the Director of Commerce and Consumer Affairs, in consultation with the Comptroller, to develop strategies for the upkeep, repair, and maintenance of Sunset Memorial Park in Pearl City, Oahu, and report to the Legislature.

Your Committee received testimony in support of this measure from the Department of Commerce and Consumer Affairs, Department of Accounting and General Services, Pearl City Neighborhood Board, and two individuals. Your Committee received testimony in opposition to this measure from the Hawaii Association for Justice.

Your Committee finds that Sunset Memorial Park in Pearl City, Oahu, has been neglected for years and has been the subject of numerous complaints from family members who have loved ones buried at the cemetery. Most of these complaints relate to issues surrounding the management and lack of maintenance at Sunset Memorial Park, which has been described as having a damaged mausoleum, sinking graves, and broken, missing, or obscured grave markers that are hidden by overgrown vegetation. Your Committee further finds the number of families visiting the graves of their loved ones at Sunset Memorial Park has dwindled, largely because of the natural aging process of surviving family members and the unsafe conditions at the cemetery. Although family members and volunteers have expressed a strong willingness to assist with the upkeep, repair, and maintenance of Sunset Memorial Park, many are concerned about potential liability issues. This measure therefore creates a special cemetery volunteer protection law, which is intended to encourage volunteers to maintain and repair Sunset Memorial Park, without fear of liability resulting from their charitable activities.

Your Committee has amended this measure by:

- (1) Clarifying that the limited liability for volunteers pertains only to those volunteers who maintain or repair cemetery grounds without compensation;
- (2) Clarifying that the limited liability for volunteers does not relieve a cemetery property owner or cemetery authority from the duty to maintain their premises in a reasonably safe condition; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2082, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2082, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 2 (Ihara, Nishihara).

SCRep. 2044 Commerce, Consumer Protection, and Health on S.B. No. 2010

The purpose and intent of this measure is to appropriate funds to provide drug treatment for drug abusers, and combat opioid and methamphetamine abuse.

Your Committee received testimony in support of this measure from the Department of Health, Drug Policy Forum of Hawaii, Hawaii Substance Abuse Coalition, Coalition for a Drug-Free Hawaii, Beacon of Hope House, Ho'omanapono Political Action Committee, Oahu County Committee on Legislative Priorities of the Democratic Party of Hawaii, and eight individuals.

Your Committee finds that addiction to and abuse of various types of drugs are growing problems in Hawaii. Testimony received by your Committee indicates that substance use disorders encompass a wide variety of substances besides opioids, and that treatment admission data from 2010 to 2016 underscores the need for a coordinated and comprehensive approach to addiction in the State. Your Committee further finds that drug treatment is a cost-effective way to manage drug abuse and control the source of the problem, and thereby save on costs for law enforcement, crime, corrections, and homelessness.

Your Committee has heard the concerns of the Hawaii Substance Abuse Coalition, who indicated that some treatment programs may turn away potential clients because the programs are designed or funded to treat only specific kinds of addiction, whereas the potential client suffers from more than one kind of addiction.

Your Committee finds that amendments to this measure are appropriate to allow polydrug abusers to avail themselves of the treatment provided for by this measure.

Accordingly, your Committee has amended this measure by:

- (1) Including the provision of treatment for polydrug abuse as an authorized use of the funds appropriated; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2010, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2010, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 1 (Nishihara).

SCRep. 2045 Commerce, Consumer Protection, and Health on S.B. No. 2340

The purpose and intent of this measure is to ensure certain benefits under the federal Patient Protection and Affordable Care Act of 2010 (Affordable Care Act) are preserved under Hawaii law, including:

- (1) Extending dependent coverage for adult children up to twenty-six years of age;
- (2) Prohibiting health insurance entities from imposing a preexisting condition exclusion; and
- (3) Prohibiting health insurance entities from using an individual's gender to determine premiums or contributions.

Your Committee received testimony in support of this measure from the Department of Commerce and Consumer Affairs; Hawaii State Commission on the Status of Women; Special Education Advisory Council; The Sex Abuse Treatment Center; The Queen's Health Systems; Hawaii Medical Association; Hawaii Medical Service Association; Hawai'i Public Health Institute; Hawai'i State Democratic Women's Caucus; American College of Obstetricians and Gynecologists, Hawaii Section; League of Women Voters Hawaii; Planned Parenthood Votes Northwest and Hawaii; Oahu County Committee on Legislative Priorities, Democratic Party of Hawaii; IMUAlliance; YWCA O'ahu; Hawai'i Appleseed Center for Law and Economic Justice; Healthy Mothers Healthy Babies; Hawaii Children's Action Network; and fifty-four individuals. Your Committee received comments on this measure from Kaiser Permanente Hawai'i.

Your Committee finds that the Affordable Care Act has resulted in an estimated 20,000,000 Americans gaining health insurance coverage, while nationwide, the rate of uninsured Americans has decreased by nearly forty percent or more for every income group. According to testimony received by your Committee, the dependent coverage requirement under the Affordable Care Act has resulted in a lower number of uninsured young adults throughout the country and has been associated with a decline in the percentage of young adults reporting delays in medical care due to cost, an increase in young adults reporting excellent mental and physical health, and a reduction in the number of young adults with large out-of-pocket medical expenditures.

Your Committee further finds that the Affordable Care Act has expanded coverage and improved medical care and health among low-income adults and established important protections for all Americans, but in particular women and individuals with pre-existing conditions. Your Committee notes that prior to the passage of the Affordable Care Act, insurers were able to deny coverage for medical histories that were unique to or disproportionately affected women, including past cesarean delivery, previous pregnancies, and being a victim of domestic violence.

Your Committee notes that the future of the Affordable Care Act remains uncertain. This measure therefore ensures that certain benefits established by the Affordable Care Act, including extending dependent coverage for adult children up to twenty-six years of age, preventing denial of coverage for preexisting conditions, and prohibiting health insurance entities from using a person's gender when determining premiums or contributions, will remain available for Hawaii residents.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2340, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2340, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 2 (Ihara, Nishihara).

SCRep. 2046 Agriculture and Environment on S.B. No. 2498

The purpose and intent of this measure is to prohibit the sale of and serving of prepared food using polystyrene foam containers statewide.

Your Committee received testimony in support of this measure from the Kona Brewing Company; Surfrider Foundation; Surfrider Foundation Oahu Chapter; Friends of Hanauma Bay; Kauai Paramedics Association; Americans for Democratic Action Hawaii; Zero Waste Kauai; Kauai Lions Club; B-Rad Foundation; Kauai Surfrider; Progressive Democrats of Hawaii; One Ocean; Graduate Student Organization; Kokua Hawaii Foundation; Hawaiian Civic Club of Honolulu; Gentlewave Bodywork Referral, Inc.; Kauai National Wildlife Refuge; Environmental Caucus of the Democratic Party of Hawai'i; Hale Honu; Young Progressives Demanding Action; Kokua Hawaii Foundation; Keiko Conservation International; Sierra Club of Hawai'i; For Forgotten Felines; Animal Rights Hawai'i; Beach Environmental Awareness Campaign Hawai'i; and fifty-three individuals. Your Committee received testimony in opposition to this measure from the American Chemistry Council; Chamber of Commerce Hawaii; Hawaii Food Industry Association; Retail Merchants of Hawaii; Hawaii Restaurant Association; KYD, Inc. dba: K. Yamada Distributors; and a petition containing three hundred sixty-eight signatures.

Your Committee finds that many food service businesses in Hawaii use polystyrene foam containers for food that is taken out by customers. Polystyrene foam is made from thermoplastic petrochemical materials containing styrene and may leach styrene into food that comes into contact with the containers, posing potential health hazards for people eating food carried in these containers. Your Committee also finds that polystyrene foam containers do not biodegrade and, because of their expanded size, take up significant space in landfills. Your Committee finds that this measure is another way to create state policy to lessen the negative impacts of plastics on the environment.

Your Committee has amended this measure by:

- (1) Changing the effective date to January 1, 2019, to allow time for those affected by this measure to prepare for implementation; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2498, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2498, S.D. 1, and be referred to your Committee on Commerce, Consumer Protection, and Health.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Nishihara, Riviere).

SCRep. 2047 Agriculture and Environment on S.B. No. 3031

The purpose and intent of this measure is to clarify and strengthen the organic foods production tax credit.

Your Committee received testimony in support of this measure from the Department of Agriculture, Hawai'i Farm Bureau, and Hawaii Farmers Union United. Your Committee received comments on this measure from the Department of Taxation and Tax Foundation of Hawaii.

Your Committee finds that the Legislature passed Act 258, Session Laws of Hawaii 2016, codified as section 235-110.94, Hawaii Revised Statutes, which established the organic foods production tax credit for farmers, ranchers, and producers seeking to obtain organic certification as an effort to reduce the burden on emerging small farmers seeking costly, but necessary, certifications and inspections promoting the production of locally grown food. The federal Organic Foods Production Act also provides exemptions for certain small farmers of organic products to reduce their operation costs. This measure further assists small farmers by clarifying and strengthening the organic foods production tax credit.

Your Committee has amended this measure by:

- (1) Inserting language to specify the determination of pro rata basis for allocation of the tax credit;
- (2) Repealing language that allowed the Board of Agriculture to assess and collect a fee to offset the costs of certifying tax credit claims; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3031, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3031, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Nishihara).

SCRep. 2048 Agriculture and Environment on S.B. No. 2572

The purpose and intent of this measure is to appropriate funds:

- (1) To establish an annual import substitution grant program to encourage Hawaii farmers and growers to identify and grow food and nonfood alternative products to phase out imports of high-risk pathway food and commodities by 2027; and
- (2) For outreach materials to encourage Hawaii residents to buy local products and foster a sense of pride and self-responsibility in protecting Hawaii's agriculture, environment, and lifestyle.

Your Committee received testimony in support of this measure from the Department of Agriculture; Hawaii Floriculture & Nursery Association; Hawaii Cattleman's Council, Inc.; Hawai'i Farm Bureau; and Hawaii Farmers Union United.

Your Committee finds that import substitution projects assist farmers in improved decision-making on what food and non-food import replacement products to grow, based on the potential food and non-food item's cost of production, disease and pest vector risk, and agronomic information. Your Committee further finds that the Department of Agriculture already has a number of import substitution projects in place; therefore, establishment of a new grant program is not necessary at this time. Your Committee further finds that the existing Department of Agriculture buy local program is effective and efficient; therefore, contracting with a professional public relations firm is not necessary.

Your Committee has amended this measure by:

- (1) Appropriating funds for the Department of Agriculture to conduct import substitution projects, rather than establish an annual import substitution grant program; and
- (2) Deleting language that appropriated funds for the Department of Agriculture to contract with a professional public relations firm.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2572, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2572, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Nishihara, Riviere).

SCRep. 2049 Agriculture and Environment on S.B. No. 2685

The purpose and intent of this measure is to exempt the gross proceeds of the sale of produce that is intended for human consumption within the State received by any qualified small farmer from the general excise tax until 2022.

Your Committee received testimony in support of this measure from the Department of Agriculture; Hawai'i Farm Bureau; and Hawaii Cattlemen's Council, Inc. Your Committee received comments on this measure from the Department of the Attorney General, Department of Taxation, and Tax Foundation of Hawaii.

Your Committee finds that the growth of small, diversified farming businesses adds to and diversifies Hawaii's economy. Your Committee further finds that the creation of an exemption from general excise tax for the gross proceeds of small farmers from the sale of produce will encourage the growth of new, small, and diversified farming businesses, will not significantly affect tax collections by the State, and will improve the long-term economic well-being of the State.

Your Committee has amended this measure by:

- (1) Deleting language that made the tax exemption applicable to produce intended for human consumption only within the State;
- (2) Adding language to the definition of "qualified small farmer" to require that produce be grown on a parcel of land that is classified and zoned as agricultural land by the Land Use Commission and county;
- (3) Applying the measure to gross income or gross proceeds received after December 31, 2018, and before January 1, 2023;
- (4) Changing the repeal date to January 1, 2023; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2685, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2685, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3; Ayes with Reservations (Rhoads). Noes, none. Excused, 2 (Nishihara, Riviere).

SCRep. 2050 Agriculture and Environment on S.B. No. 2568

The purpose and intent of this measure is to appropriate funds to implement the findings and recommendations of the *Pesticide Use by Large Agribusinesses on Kaua'i* report.

Your Committee received testimony in support of this measure from the Department of Agriculture; Hawai'i Alliance for Progressive Action; Hawai'i Center for Food Safety; Beyond Organic Consulting, Inc.; We Are One, Inc.; GMO Free Kauai; Citizens4AHealthierMaui; and forty-nine individuals. Your Committee received testimony in opposition to this measure from the Hawai'i Farm Bureau; Hawaii Floriculture & Nursery Association; and Hawaii Cattlemen's Council, Inc. Your Committee received comments on this measure from the Western Plant Health Association and Hawaii Crop Improvement Association.

Your Committee finds that the County of Kauai passed Ordinance 960, relating to pesticides and genetically modified organisms, in 2013, which was overturned in federal court in 2014. The ordinance contained a provision to create a Joint Fact Finding Group to help address key environmental and public health questions related to large-scale commercial agriculture entities using pesticides on the island of Kauai. When the ordinance was struck down by the court, the Department of Agriculture and the Kauai County Office of the Mayor contracted an independent public policy group, The ACCORD 3.0 Network, to facilitate the Joint Fact Finding Group project. The group was charged with gathering accurate information on the lands used by the seed companies and Kauai Coffee, their pesticide usage, and evidence of any possible adverse health and environmental impacts.

Your Committee finds that the study group issued its findings and recommendations on May 25, 2016, in a report titled, *Pesticide Use by Large Agribusinesses on Kaua'i*, and arrived at the following conclusions regarding health and environmental impacts on the west side of Kauai:

- (1) The Kauai health data examined is very limited and does not show a causal relationship between the pesticides used by the seed companies and health problems found on the west side or any other part of Kauai; and
- (2) There needs to be additional data gathering going forward to continue to demonstrate the impacts, if any, of agricultural pesticide use.

The report requests an appropriation of \$3,000,000 to implement numerous recommendations. Your Committee supports a statewide effort to ensure that the people and environment of Hawaii are protected against any possible adverse effects of pesticide use.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2568 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Nishihara, Riviere).

SCRep. 2051 Agriculture and Environment on S.B. No. 2126

The purpose and intent of this measure is to increase the pesticide use revolving fund balance threshold amount in order to allow the Department of Agriculture to have funds available to carry out its mandate in section 149A-13.5, Hawaii Revised Statutes.

Your Committee received testimony in support of this measure from the Department of Health; Department of Agriculture; Hawai'i Farm Bureau; Hawaii Crop Improvement Association; Hawai'i Alliance for Progressive Action; Civic Education Council; Hawaii Floriculture & Nursery Association; Hawai'i Center for Food Safety; Holistic Learning Center of Maui, LLC; Beyond Organic Consulting, Inc.; Americans for Democratic Action Hawaii; We Are One, Inc.; Hawaii Cattlemen's Council, Inc.; GMO Free Kaua'i; and fifty-nine individuals.

Your Committee finds that increasing the cap of the pesticide use revolving fund from \$250,000 to \$1,000,000 will increase the ability of the Department of Agriculture to conduct training and outreach, which are critical to ensuring pesticides are not misused and thereby endangering the health of people and the environment. Your Committee also finds that there has been an increase in demand for the Department of Agriculture to assist in the disposal of pesticides and pesticide containers. This measure will better enable the Department of Agriculture to conduct and coordinate disposal services.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2126 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Nishihara, Riviere).

SCRep. 2052 Agriculture and Environment on S.B. No. 2569

The purpose and intent of this measure is to expand the membership and duties of the Pesticide Advisory Committee in accordance with the recommendations of the *Pesticide Use by Large Agribusinesses on Kaua'i* report.

Your Committee received testimony in support of this measure from the Department of Education; Hawai'i Alliance for Progressive Action; Holistic Learning Center of Maui, LLC; Civic Education Council; Hawaiian Civic Club of Honolulu; Hawai'i Center for Food Safety; Beyond Organic Consulting, Inc.; We Are One, Inc.; GMO Free Kauai; Citizens4AHealthierMaui; and seventy-one individuals. Your Committee received testimony in opposition to this measure from the Department of Agriculture; Hawai'i Farm Bureau; Hawaii Crop Improvement Association; Western Plant Health Association; Hawaii Floriculture & Nursery Association; and Hawaii Cattlemen's Council, Inc.

Your Committee finds that Ordinance 960, passed by the County of Kauai in 2013 relating to pesticides and genetically modified organisms, which was overturned in federal court in 2014, contained a provision to create a Joint Fact Finding Group (JFFG) to help address key environmental and public health questions related to large-scale commercial agriculture entities using pesticides and genetically modified organisms on Kauai. When the ordinance was struck down by the court, the Department of Agriculture and the Kauai County Office of the Mayor contracted an independent public policy group, ACCORD3.0 Network, to facilitate the JFFG project. The JFFG was charged with gathering accurate information on the lands used by the seed companies and Kauai Coffee, their pesticide usage, and evidence of any possible adverse health and environmental impacts.

Your Committee also finds that the JFFG issued its findings and recommendations on May 25, 2016, in a report titled *Pesticide Use by Large Agribusinesses on Kaua'i* (Report) and arrived at the following conclusions regarding health and environmental impacts on the west side of Kauai:

- (1) The Kauai health data examined is very limited and does not show a causal relationship between the pesticides used by the seed companies and health problems found on the west side or any other part of Kauai; and
- (2) There needs to be additional data gathering going forward to continue to demonstrate the impacts, if any, of agricultural pesticide use.

Your Committee further finds that passage of this measure will implement the JFFG's recommendation that the Pesticide Advisory Committee be expanded and its mission broadened to:

- (1) Carefully establish new state standards for "chronicity" to account for low-level continuous and cumulative exposures to pesticides;
- (2) Undertake a major update of Hawaii's pesticide laws and regulations;
- (3) Revise and expand the Good Neighbor Program; and
- (4) Establish a consistent and data-driven buffer zone policy and use "green screens".

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2569 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Nishihara, Riviere).

SCRep. 2053 Agriculture and Environment on S.B. No. 3033

The purpose and intent of this measure is to clarify and strengthen the existing agricultural theft law to allow for the protection of agricultural products raised or produced by all people in the State.

Your Committee received testimony in support of this measure from the Department of Agriculture, Office of the Prosecuting Attorney of the County of Hawaii, Hawaii Floriculture & Nursery Association, Hawai'i Farm Bureau, Ulupono Initiative, Fruit Lovers Nursery, Hawaii Farmers Union United, and one individual.

Your Committee finds that agricultural theft and vandalism are impediments to running a successful and profitable farming operation and are harmful to consumers and residents. Agricultural theft and vandalism are a serious, ongoing problem, with farmers and residents reporting theft of crops, animals, equipment, and tools, and vandalized fences and gates. Your Committee further finds that, as determined recently in a court case, the crime of agricultural theft only includes theft of products maintained by a commercial agricultural enterprise or research agency while owned by the enterprise or agency, which leaves residents who grow agricultural products for their own consumption or to be given as gifts without full legal recourse options if they are the victims of theft. The measure corrects the existing loophole to ensure thieves are prosecuted.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3033 and recommends that it pass Second Reading and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Nishihara).

SCRep. 2054 Agriculture and Environment on S.B. No. 2565

The purpose and intent of this measure is to establish a general excise tax exemption for gross proceeds arising from the sale of farm equipment and machinery to certain producers of agricultural products.

Your Committee received testimony in support of this measure from the Department of Agriculture; Hawaii Crop Improvement Association; Hawai'i Farm Bureau; Maui County Farm Bureau; Hawaii Cattlemen's Council, Inc.; Hawaii Aquaculture & Aquaponics Association; Hawaii Farmers Union United; and thirty-four individuals. Your Committee received comments on this measure from the Department of Taxation and Tax Foundation of Hawaii.

Your Committee finds that farm equipment and machinery are costly to the average farmer, who typically earns an average of only \$35,000 annually. This measure seeks to provide some financial relief to Hawaii's farmers.

Your Committee has amended this measure by:

- (1) Clarifying that items intended for sale in the ordinary course of business, which are excluded from the definition of "farm equipment and machinery" in this measure, are items purchased for the purpose of resale;
- (2) Making the measure applicable to taxable years beginning after December 31, 2019; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2565, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2565, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Nishihara, Riviere).

SCRep. 2055 Agriculture and Environment on S.B. No. 2533

The purpose and intent of this measure is to exempt from the general excise tax the value or gross income derived from the sale of locally grown food produced and purchased within the State.

Your Committee received testimony in support of this measure from the Department of Agriculture; Hawai'i Farm Bureau; Hawaii Cattlemen's Council, Inc.; Hawaii Farmers Union United; and four individuals. Your Committee received comments on this measure from the Department of Taxation; Department of the Attorney General; Tax Foundation of Hawaii; and Hawaii Fisherman's Alliance for Conservation and Tradition, Inc.

Your Committee finds that increased local food production is a top priority of the State to achieve the state goal of sustainability. Your Committee supports all efforts that encourage increased local food production in the State.

Your Committee has amended this measure by:

- (1) Applying the general excise tax exemption to agricultural products, rather than locally grown food produced and purchased within the State; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2533, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2533, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Nishihara, Riviere).

SCRep. 2056 Housing on S.B. No. 2402

The purpose and intent of this measure is to specify that certain provisions of the Internal Revenue Code related to at-risk rules and deductions and to passive activity loss do not apply with respect to claims for the state low-income housing tax credit.

Your Committee received testimony in support of this measure from InState Partners. Your Committee received comments on this measure from the Department of Taxation, Hawaii Housing Finance and Development Corporation, and Tax Foundation of Hawaii.

Your Committee finds that under existing law, the state low-income housing tax credit is difficult to use for Hawaii taxpayers other than large corporations or financial institutions. As a result, this lowers the demand and equity that can be generated for each dollar of this tax credit that is issued.

Your Committee further finds that Act 129, Session Laws of Hawaii 2016, addressed an aspect of this issue by accelerating the low-income housing tax credit from ten to five years. This acceleration makes the tax credit available to smaller taxpayers who are better able to forecast their income tax liability over a five-year, rather than ten-year, span. This measure builds on the incentives provided under Act 129, Session Laws of Hawaii 2016, by eliminating the applicability of the at-risk and passive activity loss rules to the low-income housing tax credit. This will allow affordable rental housing developers to decouple the tax credit from an ownership share in affordable rental projects being financed, thereby allowing any Hawaii taxpayer with income tax liability to use the low-income housing tax credit.

Your Committee has amended this measure by:

- (1) Deleting its contents and inserting the contents of S.B. No. 2759 (Regular Session of 2018), a substantially similar measure, which also eliminates the applicability of the at-risk and passive activity loss rules to the low-income housing tax credit, but makes this elimination subject to repeal when section 235-110.8, Hawaii Revised Statutes, is reenacted on December 31, 2021, pursuant to section 4 of Act 129, Session Laws of Hawaii 2016; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2402, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2402, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Nishihara).

SCRep. 2057 Housing on S.B. No. 2416

The purpose and intent of this measure is to:

- (1) Increase the conveyance rates for certain conveyance tax categories; and
- (2) Repeal the statutory monetary cap on the disposition of conveyance taxes dedicated for deposit into the rental housing revolving fund for the financing of affordable rental housing developments.

Your Committee received testimony in support of this measure from the League of Women Voters of Hawaii, Americans for Democratic Action Hawai'i, IMUAlliance, Hawaii Habitat for Humanity Association, and two individuals. Your Committee received testimony in opposition to this measure from the Hawai'i Association of REALTORS. Your Committee received comments on this measure from the Department of Taxation, Hawaii Housing Finance and Development Corporation, and Tax Foundation of Hawaii.

Your Committee finds that existing law dedicates a certain percentage or monetary amount of the conveyance taxes collected, whichever is lesser, for deposit into the rental housing revolving fund. Monies in this fund are used to provide loans or grants for the development, pre-development, construction, acquisition, preservation, and substantial rehabilitation of rental housing units. By increasing certain conveyance tax rates and repealing the statutory monetary cap on the disposition of conveyance tax dedicated for deposit into the rental housing revolving fund, this measure allocates additional monies for rental housing finance and development in the State.

Your Committee has amended this measure by:

- (1) Changing the effective date from July 1, 2018, to January 1, 2019, to allow sufficient time for the Department of Taxation to update the relevant forms and instructions to implement the conveyance tax rate changes under certain categories; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2416, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2416, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Nishihara).

SCRep. 2058 Housing on S.B. No. 2595

The purpose and intent of this measure is to establish an income tax credit for qualified expenses incurred for the construction or renovation of residential housing or a bed and breakfast that complies with certain accessibility, or visitability, standards.

Your Committee received testimony in support of this measure from the College of Education's Center on Disability Studies at the University of Hawaii at Manoa, and Hawaii Disability Rights Center. Your Committee received comments on this measure from the Department of Taxation, Hawaii Housing Finance and Development Corporation, and Tax Foundation of Hawaii.

Your Committee finds that as Hawaii's population ages, there is an increased need to provide housing with accessibility and community integration for individuals with mobility impairments. By providing tax incentives for the construction or renovation of housing that meets visitability standards, this measure will assist in reducing barriers to aging in place and facilitating multigenerational or accessible living.

Your Committee has amended this measure by:

- (1) Adopting the language suggested by the Department of Taxation that:
 - (A) Changes the definition of “housing visitability standards” to include the specific requirements under the definition of “qualified expenses” to establish a fixed standard and avoid ambiguities;
 - (B) Replaces the term “qualified expenses” with “actual costs” and defines actual costs to mean the costs of construction and renovation that are necessary and directly incurred by the taxpayer to meet the housing visitability standards;
 - (C) For a partnership, S corporation, estate, or trust claiming the tax credit, changes the language regarding the distribution and share of credit to be determined the same as under section 704 of the Internal Revenue Code, rather than by rule, to avoid any ambiguity in how the tax credit is distributed for pass-through entities;
 - (D) Changes the amount of the tax credit that may be claimed per taxpayer from one hundred percent of the actual costs to no more than seventy-five percent of the actual costs, for the purposes of avoiding cost inflation;
 - (E) Inserts language to limit the claiming of the tax credit to a single tax map key to avoid multiple taxpayers from claiming a tax credit for the same actual costs incurred;
 - (F) Inserts language to prohibit a taxpayer from claiming a residential housing visitability standards tax credit and a bed and breakfast visitability standards tax credit for the same actual costs incurred; and
 - (G) Makes the tax credit apply to taxable years beginning after December 31, 2018, rather than December 31, 2017, to allow the Department of Taxation sufficient time to implement the new tax credits; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2595, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2595, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Nishihara).

SCRep. 2059 Human Services on S.B. No. 2273

The purpose and intent of this measure is to:

- (1) Require certain persons to immediately report to the family court when there is reason to believe that a child in foster custody has suffered an injury that may arise to a tort claim; and
- (2) Establish procedures for the family court to follow when appointing a master and when authorizing the filing of a tort claim on behalf of an injured child in foster custody.

Your Committee received testimony in support of this measure from the Oahu County Committee on Legislative Priorities of the Democratic Party of Hawaii and two individuals. Your Committee received comments on this measure from the Judiciary, Department of Human Services, and Department of the Attorney General.

Your Committee finds that the State serves as the legal custodian and representative for a significant number of children in foster care due to the age of those children. Your Committee further finds that if a child in foster care suffers an injury caused by a third party, the State will cover the child’s medical costs. However, that child is unable to obtain legal representation to file a tort claim to seek any additional damages, such as pain and suffering. This measure establishes procedures whereby a potential tort claim may be investigated, a tort claim may be filed on behalf of the injured child, and the child may obtain legal representation.

Your Committee has amended this measure by:

- (1) Inserting an effective date of January 1, 2050, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purpose of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2273, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2273, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2060 Human Services on S.B. No. 2208

The purpose and intent of this measure is to establish procedural safeguards and equal protection rights of blind parents or prospective blind parents in the context of child welfare, foster care, family law, and adoption.

Your Committee received testimony in support of this measure from the Oahu Intertribal Council and sixteen individuals. Your Committee received testimony in opposition to this measure from the Department of the Attorney General. Your Committee received comments on this measure from the Judiciary, Department of Human Services, and Disability and Communication Access Board.

Your Committee finds that there have been national reports indicating high rates of child removal and loss of parental rights from parents who are deaf or blind. Your Committee further finds that blind individuals often face certain preconceived biases and attitudes throughout their lives, especially during family and dependency law proceedings where custody and visitation are at stake and in public

or private adoption, guardianship, and foster care proceedings. This measure seeks to ensure that individuals who are blind have the same opportunity as individuals who are not blind to serve as parents and care for their children.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2208 and recommends that it pass Second Reading and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Harimoto, Tokuda).

SCRep. 2061 (Joint) Commerce, Consumer Protection, and Health and Human Services on S.B. No. 2342

The purpose and intent of this measure is to require health insurance policies offered by health insurers, mutual benefit societies, fraternal benefit societies, and health maintenance organizations to include coverage for clinical victim support services for victims of sexual violence and abuse who suffer from mental disorders.

Your Committees received testimony in support of this measure from Kaiser Permanente Hawaii, The Sex Abuse Treatment Center, YWCA of Hawaii, YWCA of Kaua'i, Hawaii State Coalition Against Domestic Violence, Hawaii Children's Action Network, Planned Parenthood Votes Northwest and Hawaii, IMUAlliance, Ho'omanapono Political Action Committee, and seven individuals. Your Committees received comments on this measure from the Department of Commerce and Consumer Affairs and Hawaii Medical Service Association.

Your Committees find that, unfortunately, sexual violence and abuse continues to be extremely prevalent. According to the federal Centers for Disease Control and Prevention, an estimated 43.9 percent of women and 23.4 percent of men have experienced forms of sexual violence other than rape within their lifetimes. Trauma from sexual violence and abuse can have significant, lasting impacts on a survivor's mental health, which can interfere with the survivor's functional ability to engage and interact with the world.

Your Committees further find that survivors with mental health conditions caused, in whole or in part, by sexual violence and abuse can require clinical victim support services, a professional intervention delivered by a qualified mental health provider with whom a victim has established a therapeutic relationship. This measure requires insurance coverage for clinical victim support services for victims of sexual violence and abuse, which will ensure that more survivors of sexual violence and abuse receive this particular kind of coordinated, multi-disciplinary care that is medically necessary for some survivors to recover and heal and which can help survivors avoid additional harm and decompensation.

Your Committees have amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Commerce, Consumer Protection, and Health and Human Services that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2342, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2342, S.D. 1, and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chairs on behalf of the Committees.
Commerce, Consumer Protection, and Health: Ayes, 4. Noes, none. Excused, 3 (Espero, Ihara, Ruderman).
Human Services: Ayes, 5. Noes, none. Excused, none.

SCRep. 2062 Commerce, Consumer Protection, and Health on S.B. No. 2259

The purpose and intent of this measure is to require Hawaii consumers who are required to receive a summary of rights under section 609 of the federal Fair Credit Reporting Act, to also receive a notice of their rights under Hawaii law to obtain a security freeze on their credit reports.

Your Committee received testimony in support of this measure from Ho'omana Pono, LLC and two individuals. Your Committee received comments on this measure from the Department of Commerce and Consumer Affairs.

Your Committee finds that recent events involving security breaches of databases containing sensitive identifying information, such as social security numbers and addresses, have shown that repositories of consumers' personal information continue to be at high risk of infiltration by identity thieves. Your Committee notes that the 2017 cybersecurity breach of consumer credit reporting agency Equifax's databases, where criminals exploited an information technology vulnerability and gained access to a trove of personal information, including social security numbers, birth dates, addresses, driver's license numbers, and credit card numbers, potentially impacted 143,000,000 American consumers, including nearly 450,000 Hawaii consumers.

Your Committee further finds that a security freeze, which prohibits a consumer credit reporting agency from releasing a consumer's credit report or any information from the report without the consumer's express authorization, is an effective way for a consumer to protect the consumer's sensitive personal information. This measure helps ensure Hawaii consumers are aware of their rights and the ability to place a security freeze.

Your Committee additionally finds that although some consumers have taken steps to protect their personal information by requesting a security freeze, many consumers have not, due to the costs and inconvenience associated with placing security freezes. According to testimony received by your Committee, a consumer who places, temporarily lifts, and then later removes a security freeze may pay \$45 in fees to the various consumer credit reporting agencies. Such requests must also be made via certified mail. However, as the number of security breaches and cases of identity theft continue to rise, your Committee finds that Hawaii consumers should be able to more conveniently place, lift, or remove security freezes.

Accordingly, your Committee has amended this measure by:

- (1) Clarifying the contents of the notice that must be provided to Hawaii consumers;

- (2) Amending the definition of “security freeze”;
- (3) Deleting the definition of “identity theft”;
- (4) Specifying that a consumer credit reporting agency shall not charge a fee for placing, lifting, or removing a security freeze on a consumer’s credit report or for placing or removing a security freeze on a protected consumer’s credit report or records;
- (5) Clarifying that any consumer, rather than a consumer who has been a victim of identity theft, may place a security freeze on the consumer’s credit report;
- (6) Expanding the methods by which a consumer may request a security freeze;
- (7) Specifying that a consumer credit reporting agency shall remove or temporarily lift a security freeze upon the consumer’s request and shall send written confirmation of the removal within five business days of removing the security freeze;
- (8) Inserting a purpose section; and
- (9) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2259, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2259, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 2 (Ihara, Nishihara).

SCRep. 2063 Commerce, Consumer Protection, and Health on S.B. No. 2199

The purpose and intent of this measure is to authorize the State to submit a state innovation waiver proposal to the federal government and to implement the conditions of the waiver upon approval by the federal government.

Your Committee received testimony in support of this measure from the Department of Commerce and Consumer Affairs, Kaiser Permanente Hawaii, and Hawaii Medical Service Association. Your Committee received comments on this measure from one individual.

Your Committee finds that under section 1332 of the federal Patient Protection and Affordable Care Act of 2010 (Affordable Care Act), a state may apply for a state innovation waiver, which allows the state to implement innovative ways to provide access to quality health care that is at least as comprehensive and affordable as the federal requirements for insurance.

Your Committee further finds that significant uncertainties exist in the individual health insurance markets throughout the country. Recent Congressional actions have eliminated funding of cost sharing reduction payments and the penalty associated with the Affordable Care Act’s individual mandate, which have resulted in further uncertainty about the future of individual health insurance markets.

Your Committee notes that reinsurance programs in conjunction with section 1332 innovation waivers have been established in other states as a method to help mitigate premium increases and increase stability in those states’ individual health insurance markets. These waivers also provide for pass-through funding from the federal government, based on savings the states’ reinsurance programs create. This measure therefore authorizes the State to submit a state innovation waiver proposal to the federal government and implement the conditions of the waiver upon its approval, which is necessary to allow the State to pursue a similar opportunity for Hawaii’s individual health insurance market.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2199 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 2 (Ihara, Nishihara).

SCRep. 2064 Commerce, Consumer Protection, and Health on S.B. No. 2664

The purpose and intent of this measure is to codify the State’s commitment to conservation and sustainability by incorporating the United Nations’ Sustainable Development Goal three, good health and well-being, into the State’s environmental policy.

Your Committee received testimony in support of this measure from the Department of Human Services, Department of Agriculture, Department of Transportation, Office of Hawaiian Affairs, Airport Concessionaires Committee, Office of Planning, and one individual. Your Committee received testimony in opposition to this measure from one individual.

Your Committee finds that a priority of the Senate for the Regular Session of 2018 is to adopt the United Nations’ Sustainable Development Goals at the state level. The seventeen Sustainable Development Goals are a universal call to action to end poverty, protect the planet, and ensure that all people enjoy peace and prosperity. This measure codifies Sustainable Development Goal three, good health and well-being, into state law.

Your Committee finds that this measure will promote public health by incorporating tangible goals into public policy and encouraging state actors to meet those goals.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2664 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, 1 (Nishihara).

SCRep. 2065 Commerce, Consumer Protection, and Health on S.B. No. 2202

The purpose and intent of this measure is to provide an exemption from the general excise tax for certain necessary medical devices, including mobility enhancement equipment, durable medical equipment, prescription drugs, and prosthetic devices, and to expand the definition of prosthetic device as used for purposes of the exemption.

Your Committee received testimony in support of this measure from the Disability and Communications Access Board, Oahu County Committee on Legislative Priorities of the Democratic Party of Hawaii, and one individual. Your Committee received comments on this measure from the Department of Taxation and Tax Foundation of Hawaii.

Your Committee finds that this measure will benefit individuals with disabilities, especially those on fixed incomes, by providing greater access to necessary medical devices. Your Committee has taken into account the comments from the Department of Taxation on the estimated loss of revenue to the State should this measure be enacted but finds that the benefits provided by this measure for members of a vulnerable population outweigh the fiscal costs.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2202 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, 1 (Nishihara).

SCRep. 2066 Agriculture and Environment on S.B. No. 2564

The purpose and intent of this measure is to provide additional funding for improvements to the Waiahole irrigation system.

Your Committee received testimony in support of this measure from the Department of Agriculture; Agribusiness Development Corporation; Land Use Research Foundation of Hawaii; Hawai'i Farm Bureau; Hawaii Crop Improvement Association; Local Food Coalition; Hawaiian Civic Club of Honolulu; Hawaii Cattlemen's Council, Inc.; O'ahu County Legislative Priorities Committee of the Democratic Party of Hawai'i; and one individual.

Your Committee finds that a reliable irrigation system is the lifeline of Hawaii's agricultural industry. To ensure that Hawaii's crops receive a steady and dependable supply of water, sufficient funding is needed to maintain and improve Hawaii's irrigation systems. Your Committee further finds that the Waiahole irrigation system was constructed in 1915 to irrigate thousands of acres of sugarcane. The system collects groundwater from the windward side of Oahu and transports the water via tunnels to the leeward side of Oahu, where it is conveyed through ditches and siphons by gravity flow to supply vital irrigation water to lands between Waipio and Kunia; however, the system is currently in need of efficiency improvements.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2564 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Nishihara).

SCRep. 2067 Agriculture and Environment on S.B. No. 2519

The purpose and intent of this measure is to authorize the Agribusiness Development Corporation to enter into contracts with private businesses to remove select municipal solid waste, glass, and food and green waste from the waste stream for use in other business sectors, including agriculture, construction, and energy production.

Your Committee received testimony in support of this measure from the Department of Agriculture; Agribusiness Development Corporation; Hawaiian Civic Club of Honolulu; Hawaii Cattlemen's Council, Inc.; O'ahu County Legislative Priorities Committee of the Democratic Party of Hawai'i; and two individuals.

Your Committee finds that as the State's economy continues to grow, it is critical that innovative processes are applied to the recycling sector to reduce the pressure on the State's environment and to capture as much value as possible to support local business sectors. The Agribusiness Development Corporation, in its role of developing agriculture initiatives, is uniquely positioned to implement existing and emerging technology toward the goal of optimizing value from waste streams for agricultural uses. Your Committee finds that reducing solid waste and reusing municipal solid waste, glass, and food and green waste is something all sectors of the government should be championing.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2519 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Nishihara).

SCRep. 2068 Agriculture and Environment on S.B. No. 2085

The purpose and intent of this measure is to establish a grant program to be administered by the Agribusiness Development Corporation to provide grants for agriculture-related improvements to existing and emerging farms and agribusiness operations.

Your Committee received testimony in support of this measure from the Department of Agriculture; Agribusiness Development Corporation; Hawai'i Farm Bureau; Land Use Research Foundation; Ulupono Initiative; Hawaii Cattlemen's Council, Inc.; and O'ahu County Legislative Priorities Committee of the Democratic Party of Hawai'i.

Your Committee finds that the ability of the Agribusiness Development Corporation to issue grants will provide a means to assist local farming operations, make investments to strengthen and diversify Hawaii's agriculture, attract and retain businesses, and streamline the Corporation's operations. Your Committee further finds that a grant program may help foster partnerships to facilitate agribusiness projects and help grow Hawaii's agriculture industry.

Your Committee has amended this measure by:

- (1) Deleting language that placed an annual cap of \$100,000 on grants received by a qualified person or entity; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2085, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2085, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Nishihara).

SCRep. 2069 Agriculture and Environment on S.B. No. 2399

The purpose and intent of this measure is to restructure the Hawaii Invasive Species Council into a new entity, the Hawaii Invasive Species Authority, to be administratively attached to the Department of Agriculture, that will expand upon the existing council model by adding expertise to the Board of Directors, authorizing the Board to hire staff as necessary, and mandating new duties relating to the coordination of the Interagency Biosecurity Plan.

Your Committee received testimony in support of this measure from the Department of Agriculture; Department of Land and Natural Resources; Big Island Invasive Species Committee; Hawai'i Farm Bureau; Sierra Club of Hawai'i; The Nature Conservancy; Coordinating Group on Alien Pest Species; Local Food Coalition; Hawaiian Civic Club of Honolulu; Hawaii Cattlemen's Council, Inc.; Ka Ohana O Na Pua; O'ahu County Legislative Priorities Committee of the Democratic Party of Hawai'i; and twelve individuals.

Your Committee finds that the invasion of Hawaii by insects, disease-bearing organisms, snakes, weeds, and other pests is the single greatest threat to Hawaii's economy and natural environment and to the health and lifestyle of Hawaii's people. In 2003, the Legislature created the Hawaii Invasive Species Council, an interagency board mandated to provide policy-level direction and coordination on invasive species issues, co-chaired by the Chairpersons of the Board of Land and Natural Resources and the Board of Agriculture. The authorizing legislation for the council did not create staff positions or a revenue source. Your Committee further finds that despite many successes, mitigation of invasive species threats and impacts often remains fragmented between agencies and is insufficiently supported through interagency data collection and management, public pest reporting, interagency response coordination, and statewide public outreach. Establishing the Hawaii Invasive Species Authority as an attached agency of the Department of Agriculture and enhancing the State's invasive species prevention, early detection, rapid response, control, enforcement, and outreach programs will help protect the environment, human health, culture, and the economy.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2399, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2399, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Nishihara).

SCRep. 2070 Higher Education on S.B. No. 3062

The purpose and intent of this measure is to allow taxpayers to deduct contributions to a college savings account up to \$5,000 per year for single and married filing separately taxpayers and \$10,000 per year for married filing jointly taxpayers from the taxpayer's income.

Your Committee received testimony in support of this measure from the Oahu County Legislative Priorities Committee of the Democratic Party of Hawaii and two individuals. Your Committee received comments on this measure from the Department of Taxation and Tax Foundation of Hawaii.

Your Committee finds that Section 529 education savings plans are already tax-favored at the state and federal levels. All contributions to Section 529 plans grow tax free and all qualifying withdrawals from those plans are received tax free. Adding another tax benefit to Section 529 plans by making contributions tax deductible when made and then allowing those contributions to grow and be used tax free in the future will help families and students pay for the increasing costs associated with higher education.

Your Committee has amended this measure by:

- (1) Specifying that the deduction allowed by a taxpayer for contributions made to a college savings account shall be from the taxpayer's adjusted gross income;
- (2) Deleting language that would have established an unspecified lifetime cap for the amounts allowable as a deduction for individuals and married individuals having separate college savings accounts; and
- (3) Inserting an effective date of May 12, 2030, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Higher Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3062, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3062, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Chang, Kim).

SCRep. 2071 Education on S.B. No. 2922

The purpose and intent of this measure is to propose amendments to the Constitution of the State of Hawaii to advance the State's goal of providing a quality education for the children of Hawaii by authorizing the Legislature to establish, as provided by law, a surcharge on residential investment property and visitor accommodations.

Your Committee received testimony in support of this measure from the Department of Education; Hawaii State Teacher Association; HE'E Coalition; Young Progressives Demanding Action – Hawaii; Hawai'i Alliance for Progressive Action; Hawaii Children's Action Network; IMUAlliance; Special Education Advisory Council; Americans for Democratic Action, Hawai'i; Hawaii Appleseed Center for Law and Economic Justice; Civic Education Council; HawaiiKidsCAN; and numerous individuals. Your Committee received testimony in opposition to this measure from the Maui County Council Chair Mike White, American Resort Development Association Hawai'i, Rental By Owner Awareness Association, Coalition for Equal Taxation, and two individuals. Your Committee received comments on this measure from the City and County of Honolulu and Tax Foundation of Hawaii.

Your Committee finds that Hawaii's public schools are severely underfunded. At \$12,855 per child, Hawaii trails mainland school districts of similar size when adjusting for cost of living. This lack of adequate funding has resulted in an inability to repair and renovate deteriorating facilities, higher class sizes, a lack of adequate classroom supplies, elimination of arts and career and technical education courses, budget cuts for special education and English language learner programs, and an increasing number of vacant teacher positions statewide.

Your Committee further finds that Hawaii is the only state that does not fund education through property taxes. A surcharge on investment properties and visitor accommodations will provide much needed funding for the State's public schools and will bring Hawaii's education funding policy closer to the funding enjoyed by school districts in other states and with a similar size of enrollment. This measure gives Hawaii's citizens the opportunity to vote on whether to amend the Constitution of the State of Hawaii to facilitate that surcharge.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2922 and recommends that it pass Second Reading and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Kahele, Kim).

SCRep. 2072 Agriculture and Environment on S.B. No. 2574

The purpose and intent of this measure is to authorize the issuance of general obligation bonds for a biological control containment facility on Oahu.

Your Committee received testimony in support of this measure from the Department of Agriculture; Department of Land and Natural Resources; Hawaii Cattlemen's Council, Inc.; and O'ahu County Legislative Priorities Committee of the Democratic Party of Hawai'i.

Your Committee finds that biological control, the process of reuniting an invasive species in Hawaii with a carefully tested and narrowly targeted pest from the invasive species' native range, is one of the most cost-effective and safe methods for controlling invasive species in Hawaii. The Hawaii Interagency Biosecurity Plan places investing in biological control research as a high priority; however, the pathogen containment facility for biological control research at the Department of Agriculture has been non-operational for several years. Your Committee finds that the Department of Agriculture needs a state-of-the-art biological control facility to meet safety standards and tackle invasive species that are causing havoc to Hawaii's native species and agricultural endeavors.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2574 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Nishihara).

SCRep. 2073 Agriculture and Environment on S.B. No. 2846

The purpose and intent of this measure is to:

- (1) Transfer operational authority over the portions of the East Kauai Irrigation System operated and maintained by the East Kauai Water Users' Cooperative as of July 1, 2018, to the Department of Agriculture upon adoption of rules;
- (2) Establish and fund positions within the Agricultural Resource Management Division; and
- (3) Authorize the issuance of general obligation bonds to the Agricultural Resource Management Division to increase state irrigation system capacity statewide.

Your Committee received testimony in support of this measure from the Department of Agriculture; Hawai'i Farm Bureau; Tropical Flowers Express; Hartung Brothers Hawaii; Saiva Siddhanta Church; East Kauai Water Users' Cooperative; Kalepa Coalition; Hawaii Cattlemen's Council, Inc.; O'ahu County Legislative Priorities Committee of the Democratic Party of Hawai'i; and one individual.

Your Committee finds that the East Kauai Irrigation System services more than 12,500 acres of agricultural land on Kauai. The system includes two reservoirs and twenty-two miles of ditch and has historically serviced thousands of acres of state and private lands. In particular, it services more than 1,000 acres of the state Kalepa lands located between Kapaa and Lihue. In the last few

years, through the action of the Agribusiness Development Corporation, nearly 300 acres have been leased to farmers who are actively developing crops, including ginger and sweet potatoes. Your Committee further finds that the repair and maintenance of this irrigation system is critical for Kauai's farmers, who depend on the East Kauai Irrigation System for their operations. The East Kauai Water Users' Cooperative no longer has the resources necessary to sustain the East Kauai Irrigation System in the years to come, therefore transfer of this system to the Department of Agriculture will ensure future water availability for farmers.

Your Committee has amended this measure by:

- (1) Clarifying that the portions of the East Kauai Irrigation System operated and maintained by the East Kauai Water Users' Cooperative as of July 1, 2018, will be under the operational authority of the Department of Agriculture until the adoption of rules is complete or a determination is made that the system can be appropriately operated and maintained pursuant to chapters 167 and 168, Hawaii Revised Statutes;
- (2) Clarifying that the system will not be governed by chapters 167 and 168, Hawaii Revised Statutes, until it is transferred to the appropriate program; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2846, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2846, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Nishihara).

SCRep. 2074 Agriculture and Environment on S.B. No. 3087

The purpose and intent of this measure is to appropriate funds to the Agribusiness Development Corporation to:

- (1) Identify factors that affect the quality of local papayas; and
- (2) Develop and establish protocols to enhance the marketability of the Hawaiian solo papaya.

Your Committee received testimony in support of this measure from the Department of Agriculture; Agribusiness Development Corporation; Office of the Mayor of the County of Hawai'i; Hawai'i Farm Bureau; and Cattlemen's Council, Inc.

Your Committee finds that Hawaiian papaya is delicious; however, the quality of local papaya needs improvement to flourish as an export. While the flavor and texture of local papaya are highly desired, transportation of the product, treatment for fruit fly control, handling, shipping, and storage of the product prior to distribution, and shelf life need to be improved to enable export of papaya in high quantities. Your Committee further finds that developing and establishing protocols to enhance the marketability of the Hawaiian papaya can help grow the market.

Your Committee has amended this measure by replacing all references to "the Hawaiian solo papaya" with references to "Hawaiian papayas" to clarify that this measure applies to all Hawaiian papayas.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3087, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3087, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Nishihara).

SCRep. 2075 (Joint) Agriculture and Environment and Public Safety, Intergovernmental, and Military Affairs on S.B. No. 2168

The purpose and intent of this measure is to provide funds to the counties for the identification and mapping of important agricultural lands, as part of the implementation of Act 183, Session Laws of Hawaii 2005.

Your Committees received testimony in support of this measure from the Department of Agriculture; Department of Business, Economic Development, and Tourism; Office of Planning; State Land Use Commission; Hawai'i State Association of Counties; Councilmember Yuki Lei Sugimura of the Maui County Council; Hawai'i Farm Bureau; Ulupono Initiative; Hawaiian Civic Club of Honolulu; O'ahu County Legislative Priorities Committee of the Democratic Party of Hawai'i; Hawaii Cattlemen's Council, Inc.; and one individual.

Your Committees find that the proposed measure offers appropriate incentives for counties to complete their important agricultural lands identification and mapping process. Your Committees recognize the significant public involvement and coordination with various stakeholders and groups necessary to complete the process, and support providing adequate funding for a quality end product. Your Committees further find that this measure will aid the completion of the county mapping process in preparation for the subsequent designation of important agricultural lands by the Land Use Commission, and allow the owners and farmers of these lands to have access to the important agricultural land incentives in support of agricultural production.

Your Committees received testimony stating that the County of Kauai has already completed its mapping studies and the City and County of Honolulu is nearing completion of its identification and mapping. Accordingly, your Committees recommend that as this measure moves through the legislative process, your Committee on Ways and Means consider the Office of Planning's question of whether grants-in-aid to the County of Kauai and the City and County of Honolulu may be used for reimbursement of work that has already been completed.

As affirmed by the records of votes of the members of your Committees on Agriculture and Environment and Public Safety, Intergovernmental, and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2168 and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Agriculture and Environment: Ayes, 5. Noes, none. Excused, none.

Public Safety, Intergovernmental, and Military Affairs: Ayes, 5. Noes, none. Excused, none.

SCRep. 2076 (Joint) Commerce, Consumer Protection, and Health and Human Services on S.B. No. 2798

The purpose and intent of this measure is to create a special fund for the administration of the Medicaid Section 1915(c) Home and Community-Based Services Waiver for People with Intellectual and Developmental Disabilities, operated by the Department of Health.

Your Committees received testimony in support of this measure from the Department of Health and two individuals.

Your Committees find that the Developmental Disabilities Division of the Department of Health operates the Section 1915(c) Home and Community-Based Services Waiver for People with Intellectual and Developmental Disabilities and may claim allowable Medicaid federal payments for costs incurred in administering the waiver. This practice is known as administrative claiming and has become increasingly important in defraying the costs of administering Medicaid programs.

Your Committees received testimony indicating that the anticipated amount of administrative claiming beginning in fiscal year 2018-2019 is in the range of \$700,000 to \$1,200,000. However, the lack of a special fund in which to deposit administrative claims has impeded the Department of Health's ability to efficiently administer the waiver. Your Committees find that this measure is necessary to allow the Department of Health to properly and efficiently administer the waiver and continue serving the persons with intellectual and disabilities who receive services through the program.

Your Committees have amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Commerce, Consumer Protection, and Health and Human Services that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2798, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2798, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Commerce, Consumer Protection, and Health: Ayes, 4. Noes, none. Excused, 3 (Espero, Ihara, Ruderman).

Human Services: Ayes, 5. Noes, none. Excused, none.

SCRep. 2077 (Joint) Commerce, Consumer Protection, and Health and Human Services on S.B. No. 2588

The purpose and intent of this measure is to appropriate funds to the Department of Health for the kupuna care program, which provides caregiving services to the vulnerable elderly.

Your Committees received testimony in support of this measure from Hawaii Pacific Health; United Public Workers, AFSCME, Local 646, AFL-CIO; ILWU Local 142; AARP Hawaii; Healthcare Association of Hawaii; Hawaii Chapter of the American Physical Therapy Association; PHOCUSED; Catholic Charities Hawaii; and eighteen individuals. Your Committees received comments on this measure from the Department of Health Executive Office on Aging.

Your Committees find that Hawaii's population over the age of sixty is rapidly increasing and is projected to comprise 29.7 percent of the total population by 2035. The increase in Hawaii's elderly population and the concomitant increase in demand for services, particularly for those desiring to age in place, will require continued support for programs like the kupuna care program. Your Committees further find that the kupuna care program supports the independence of Hawaii's kupuna by providing a continuum of home and community-based supports to enable kupuna to perform basic activities of daily living and successfully age in place.

Your Committees find that the funds appropriated by this measure will allow the kupuna care program to continue to provide comprehensive, participant-directed care to an increasing, and increasingly vulnerable, population.

As affirmed by the records of votes of the members of your Committees on Commerce, Consumer Protection, and Health and Human Services that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2588 and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Commerce, Consumer Protection, and Health: Ayes, 4. Noes, none. Excused, 3 (Ihara, Nishihara, Ruderman).

Human Services: Ayes, 4. Noes, none. Excused, 1 (Wakai).

SCRep. 2078 (Joint) Commerce, Consumer Protection, and Health and Human Services on S.B. No. 2589

The purpose and intent of this measure is to appropriate funds to the Department of Health for the aging and disability resource center, which will improve access to services for the aging and disabled communities.

Your Committees received testimony in support of this measure from Hawaii Pacific Health, AARP Hawaii, ILWU Local 142, Healthcare Association of Hawaii, Catholic Charities Hawaii, PHOCUSED, and four individuals. Your Committees received comments on this measure from the Department of Health Executive Office on Aging.

Your Committees find that the funds appropriated by this measure will allow the aging and disability resource center to continue to serve as an effective single point of entry for individuals seeking information about long-term care options and provide support for county area agencies on aging.

As affirmed by the records of votes of the members of your Committees on Commerce, Consumer Protection, and Health and Human Services that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2589 and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Commerce, Consumer Protection, and Health: Ayes, 4. Noes, none. Excused, 3 (Ihara, Nishihara, Ruderman).

Human Services: Ayes, 4. Noes, none. Excused, 1 (Wakai).

SCRep. 2079 (Joint) Commerce, Consumer Protection, and Health and Human Services on S.B. No. 2593

The purpose and intent of this measure is to appropriate funds for the healthy aging partnership program to further the program's role in improving the health and well-being of Hawaii's kupuna.

Your Committees received testimony in support of this measure from Hawaii Pacific Health, AARP Hawaii, ILWU Local 142, Hawaii Chapter of the American Physical Therapy Association, Oahu County Committee on Legislative Priorities of the Democratic Party of Hawaii, and five individuals. Your Committees received comments on this measure from the Department of Health Executive Office on Aging.

Your Committees find that this measure provides critical funding for the healthy aging partnership program, an award-winning program that empowers kupuna to make healthy decisions and engage in healthier lifestyles. Your Committees further find that continued implementation of the healthy aging partnership program will help the State accomplish the first goal in the Hawaii State Plan on Aging and provide a better quality of life for the elderly.

As affirmed by the records of votes of the members of your Committees on Commerce, Consumer Protection, and Health and Human Services that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2593 and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Commerce, Consumer Protection, and Health: Ayes, 4. Noes, none. Excused, 3 (Ihara, Nishihara, Ruderman).

Human Services: Ayes, 4. Noes, none. Excused, 1 (Wakai).

SCRep. 2080 Judiciary on S.B. No. 2044

The purpose and intent of this measure is to propose an amendment to the Constitution of the State of Hawaii providing that if there are no members belonging to a minority party in a house of the Legislature, the presiding officer of the respective house of the Legislature, after consulting with the chair of a minority party, shall be given the authority to designate persons who are members of a minority party to serve on the Reapportionment Commission.

Your Committee received testimony in support of this measure from Common Cause Hawaii and two individuals. Your Committee received comments on this measure from the League of Women Voters of Hawaii.

Your Committee finds that fair and equitable reapportionment of legislative districts is vital to avoid gerrymandering and best reflect the political affiliations and representative interests of Hawaii's citizens. Article IV, section 2, of the Constitution of the State of Hawaii requires equitable representation by the minority party on the Reapportionment Commission, but does not address a situation in which all members of a house of the Legislature belong to the same party. Your Committee further finds that allowing the chairperson of the minority party to nominate three persons to the presiding officer of a house of the Legislature in which there are no minority party members, and then directing the presiding officer to select two members of the Reapportionment Commission from the three persons nominated, will allow the minority party chairperson and the legislative leaders balanced discretion.

Your Committee has amended this measure by replacing language authorizing the presiding officer of a house of the respective house of the Legislature to designate persons who are members of a minority party to serve on the Reapportionment Commission after consulting with the chairperson of the minority party with language providing for the chairperson of the minority party to nominate three persons to the presiding officer of each house of the Legislature, who shall then select two members of the Reapportionment Commission from the three persons nominated.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2044, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2044, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 2081 Judiciary on S.B. No. 2345

The purpose and intent of this measure is to:

- (1) Establish a Sexual Assault Response Team to address the manner in which sexual assault evidence collection kits are processed and tracked, and to ensure that victims of sexual assault are informed of their rights under the law;
- (2) Require annual reports from the Sexual Assault Response Team to the Department of the Attorney General on the status of sexual assault evidence kits and an annual summary of reports by the Department of the Attorney General to the Legislature; and
- (3) Appropriate monies to fund the Sexual Assault Response Team.

Your Committee received testimony in support of this measure from Planned Parenthood Votes Northwest and Hawaii, American Association of University Women of Hawaii, Joyful Heart Foundation, and six individuals. Your Committee received comments on

this measure from the Department of the Attorney General, Department of the Prosecuting Attorney of the City and County of Honolulu, Honolulu Police Department, and Sex Abuse Treatment Center.

Your Committee finds that sexual assault evidence kits are valuable to the effective prosecution of crimes of sexual violence. A backlog of untested sexual assault evidence kits still exists in Hawaii. An effective and consistent set of policies describing the methodology and timeline of processing sexual assault evidence kits will enhance public safety by protecting sexual assault survivors, exonerating the innocent, and holding offenders accountable.

Your Committee has heard the testimony of the Department of the Attorney General and other parties proposing amendments to this measure. Your Committee is concerned that these amendments are too sweeping, and instead encourages the Department of the Attorney General and other parties to continue to discuss these issues as this measure moves through the legislative process.

Your Committee has amended this measure by:

- (1) Inserting an effective date of July 1, 2035, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2345, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2345, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2082 Judiciary on S.B. No. 2346

The purpose and intent of this measure is to establish an address confidentiality program to help survivors of domestic abuse, sexual assault, and stalking to relocate and keep the location of their physical address confidential.

Your Committee received testimony in support of this measure from the Hawai'i State Democratic Women's Caucus, Hawaii State Coalition Against Domestic Violence, Hawaii Women Lawyers, American Association of University Women of Hawaii, Sex Abuse Treatment Center, Domestic Violence Action Center, Planned Parenthood Votes Northwest and Hawaii, Parents and Children Together, and eleven individuals. Your Committee received comments on this measure from the Department of Taxation.

Your Committee finds that survivors of domestic abuse, sexual offenses, or stalking may move to a new address in order to prevent being found by an assailant or potential assailant, but moving to a new address only provides protection if the assailant or potential assailant does not discover the new address. Maintaining the confidentiality of a new address is especially difficult in a location such as an island where space is limited. Each time a survivor is forced to provide an address for public agencies, employment, or court documents, the risk that the address will be discovered by an assailant or potential assailant increases. An address confidentiality program will provide protection and additional safety for survivors of domestic abuse, sexual offenses, or stalking.

Your Committee has amended this measure by authorizing the Department of Taxation to require that a program participant provide an actual address if that address is necessary for the assessment of taxes; provided that the substitute address is used as a mailing address and the actual address remains confidential.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2346, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2346, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2083 Judiciary on S.B. No. 2735

The purpose and intent of this measure is to:

- (1) Establish the Office of Information Practices' Director's term for six years and thereafter until a successor is appointed; and
- (2) Set the salary of the director equivalent to the salary of the Director of Health.

Your Committee received testimony in support of this measure from the Office of Information Practices, Office of the Ombudsman, and two individuals. Your Committee received testimony in opposition to this measure from the Civil Beat Law Center for the Public Interest.

Your Committee finds that the terms of service and salaries of most state agency directing officers are fixed by statute. In contrast, the Director of the Office of Information Practices is appointed by the Governor and the Director's salary is set by the Governor. Fixing the Director's term of service and salary by statute will increase the independence of the Director and make the Office of Information Practices more consistent with other state agencies.

Your Committee does not assume that the current Director of the Office of Information Practices will be nominated after the enactment of this measure.

Your Committee has amended this measure by:

- (1) Changing the Office of Information Practices' Director's salary to be the same as the salary of a tier-one deputy department director as recommended by the Commission on Salaries;
- (2) Inserting an effective date of July 1, 2035, to encourage further discussion; and

- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2735, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2735, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2084 Judiciary on S.B. No. 2740

The purpose and intent of this measure is to make general fund and state highway fund appropriations to satisfy several settlement claims against the State, its officers, or its employees.

Your Committee received testimony in support of this measure from the Department of the Attorney General.

Your Committee finds that this measure requests a total of \$870,000 in appropriations from the general fund to satisfy six claims against the State and a total of \$89,312.84 in appropriations from the state highway fund to satisfy two claims against the State. The grand total for the eight claims settled in this measure as received by your Committee is \$959,312.84. Timely passage of this measure will minimize the State's obligation to pay interest on those amounts.

Your Committee notes the written testimony submitted by the Department of the Attorney General, which requests the addition of one new claim that has been resolved since this measure was introduced. The addition of this new claim results in a total of \$1,389,312.84 in appropriations needed from the state highway fund. As this measure moves through the legislative process, your Committee encourages further discussion and explanation of claims in testimony so that the Legislature may understand why the State in particular is liable for these claims.

Your Committee has amended this measure by:

- (1) Adding state highway fund appropriations for one claim totaling \$1,300,000, as requested by the Department of the Attorney General, which increases the grand total of appropriations in this measure to \$2,259,312.84 in order to satisfy a total of nine claims against the State, its officers, or its employees;
- (2) Correcting the subtotal amount of appropriations from the state highway fund to satisfy claims involving the Department of Transportation, Highways Division, to \$1,389,312.84; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2740, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2740, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2085 Judiciary on S.B. No. 2744

The purpose and intent of this measure is to increase penalties for false claims to the State to maintain consistency with the federal False Claims Act and to comply with the federal Civil Penalties Inflation Adjustment Act of 1990.

Your Committee received testimony in support of this measure from the Department of the Attorney General and one individual.

Your Committee finds that the existing penalty for false claims to the State in Hawaii is inconsistent with related provisions of federal law. Under federal law, Hawaii is entitled to an additional ten percent share of shared damages in parallel state and federal False Claims Act cases; particularly cases involving fraud perpetrated against government medical assistance programs. Hawaii is presently operating under a waiver from the federal government that entitles the State to the additional ten percent of shared damages even though Hawaii's false claims to the State law is not consistent with related provisions of federal law, but this waiver will expire on December 31, 2018. Updating the State's false claims against the State law prior to the waiver's expiration will ensure that Hawaii continues to be entitled to the State's full share of shared damages in Federal False Claims Act cases.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2744, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2744, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2086 (Joint) Agriculture and Environment and Public Safety, Intergovernmental, and Military Affairs on S.B. No. 2017

The purpose and intent of this measure is to require climate vulnerability assessments for permit applications filed on or after January 1, 2020, to construct, modify, relocate, or operate any regulated air pollutant source, in order to further the State's commitment to the goals of the Paris Climate Agreement.

Your Committees received testimony in support of this measure from the Sierra Club of Hawai'i, Hawaiian Civic Club of Honolulu, O'ahu County Legislative Priorities Committee of the Democratic Party of Hawai'i, and one individual. Your Committees received

testimony in opposition to this measure from the Department of Health and one individual. Your Committees received comments on this measure from the Department of Transportation.

Your Committees find that climate change is a major threat to the economy, environment, and overall well-being of the State. Your Committees further find that this measure furthers the Legislature's commitments made in Act 32, Session Laws of Hawaii 2017, to reduce greenhouse gas emissions and support the provisions of the Paris Climate Agreement.

Your Committees have amended this measure by:

- (1) Inserting an effective date of January 1, 2025, to encourage further discussion; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Agriculture and Environment and Public Safety, Intergovernmental, and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2017, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2017, S.D. 1, and be referred to your Committee on Commerce, Consumer Protection, and Health.

Signed by the Chairs on behalf of the Committees.

Agriculture and Environment: Ayes, 5. Noes, none. Excused, none.

Public Safety, Intergovernmental, and Military Affairs: Ayes, 5. Noes, none. Excused, none.

SCRep. 2087 (Joint) Public Safety, Intergovernmental, and Military Affairs and Agriculture and Environment on S.B. No. 2452

The purpose and intent of this measure is to:

- (1) Grant county agencies the implicit right to enter property, with reasonable notice given, to investigate agricultural buildings and structures for violations of and compliance with building code exemption qualifications; and
- (2) Allow the appropriate department or agency to apply for a warrant from the district court commanding any police officer of the circuit to provide sufficient aid and to assist the department or agency in gaining entry onto a property to investigate exempted agricultural buildings for compliance with the building code exemption qualifications in cases where entry to the property is refused.

Your Committees received testimony in support of this measure from the Department of Agriculture; Hawaii Cattlemen's Council, Inc.; Hawaiian Civic Club of Honolulu; Hawai'i Farm Bureau; and Na Wahine Kunia o Lihue. Your Committees received comments on this measure from the Office of Planning.

Your Committees find that the existence of non-compliant agricultural buildings threatens public health and safety. Existing law establishes specific requirements for agricultural buildings. These requirements exist to ensure appropriate usage in specified areas and to protect the well-being of the public and the land itself. However, your Committees find that there is not a sufficient mechanism in place to allow for the proper inspection of agricultural buildings to ensure that those buildings are in compliance with statutory requirements. This measure addresses the lack of on-site inspection authority of exempted agricultural buildings for appropriate county departments or agencies.

As affirmed by the records of votes of the members of your Committees on Public Safety, Intergovernmental, and Military Affairs and Agriculture and Environment that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2452 and recommend that it pass Second Reading and be referred to your Committee on Judiciary.

Signed by the Chairs on behalf of the Committees.

Public Safety, Intergovernmental, and Military Affairs: Ayes, 4. Noes, none. Excused, 1 (Wakai).

Agriculture and Environment: Ayes, 5; Ayes with Reservations (Ruderman). Noes, none. Excused, none.

SCRep. 2088 Public Safety, Intergovernmental, and Military Affairs on S.B. No. 3089

The purpose and intent of this measure is to allow counties to enact ordinances that require the grantor of real property to include in the certificate or certificates of conveyance a statement regarding whether granted real property that is located within the county may be used for short-term rentals under the county's zoning or land use ordinances.

Your Committee received testimony in support of this measure from the Department of Planning and Permitting for the City and County of Honolulu. Your Committee received comments on this measure from the Tax Foundation of Hawaii.

Your Committee finds that the expansion of short-term rentals into residential areas threatens the safety and security of the public. The use of short-term rentals in areas not zoned for such use is a growing concern in the State. While owners of short-term rentals often operate them in knowing violation of county ordinances, many operators of short-term rentals are not aware that this practice is prohibited in their given area. This measure attempts to make clear the legality of using a property for short-term rentals by allowing the counties to require the grantor of real property to include in the certificate or certificates of conveyance a statement regarding whether the granted property may be used for short-term rentals.

However, your Committee notes the concerns raised by the Tax Foundation of Hawaii regarding the provisions of this measure relating to documentary proof of the short-term rental status of a property. First, the measure allows counties to require self-certification by the grantor of real property regarding the short-term rental status of the subject property. A third party reviewing a self-certification may be unsatisfied and instead insist upon certification from a government authority. Second, the measure calls for the documentation of short-term rental status to be created at the time a property is bought or sold, thereby creating a potential time frame in which ordinances may change before a property owner decides to use the property as a short-term rental. Additionally, if the property is leased rather than sold, a lessee might not even have documentation of the short-term rental status of the property under this measure.

Further, your Committee notes the testimony from the Tax Foundation of Hawaii suggesting that a better way to accomplish the goals of this measure may be to have the counties employ a process similar to the tax clearance process administered by the Department of Taxation. Therefore, your Committee suggests that if your Committee on Ways and Means chooses to hear this measure, your Committee on Ways and Means consider the viability of the counties using the tax clearance process to accomplish the goals of this measure.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3089 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Thielen).

SCRep. 2089 Public Safety, Intergovernmental, and Military Affairs on S.B. No. 3057

The purpose and intent of this measure is to:

- (1) Expand the authority of counties to use land-based financing to support operating costs for certain county services provided within improvement districts and community facilities districts;
- (2) Allow county maintenance of the capital improvements to be land-based financed; and
- (3) Authorize counties to use up to an unspecified percent of the assessment or tax revenues to cover administrative expenses in creating and administering the improvement district or community facilities district and the associated assessments, fees, and taxes.

Your Committee received comments on this measure from the Tax Foundation of Hawaii.

Your Committee finds that securing the financial strength of the counties is essential to securing the public's interests. However, with tightening budgets, the counties are finding it more difficult to support annual operating costs. Under similar circumstances, other jurisdictions have successfully employed land-based, or land-secured, financing to support their operating costs. Your Committee finds that counties in the State could similarly benefit from an expanded authority to use land-based financing to support operating costs for certain county services and improvements.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3057 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Thielen).

SCRep. 2090 Public Safety, Intergovernmental, and Military Affairs on S.B. No. 2198

The purpose and intent of this measure is to authorize the Director of Finance to issue general obligation bonds to finance the:

- (1) Design and construction of a Kauai Fire Department helicopter hangar; and
- (2) Pua Loke Affordable Housing project in the County of Kauai.

Your Committee received testimony in support of this measure from Kaua'i County Councilmember Arryl Kaneshiro, Kaua'i County Councilmember Ross Kagawa, Kaua'i County Councilmember Arthur Burn, Kaua'i County Councilmember Derek S.K. Kawakami, and Kaua'i County Councilmember Mason K. Chock.

Your Committee finds that investing in capital improvement projects in the counties promotes the public interest. There are two projects in the County of Kauai that require funding. The first is the design and construction of a permanent helicopter hangar facility for the Kauai Fire Department. The second is for the design and construction of multi-family affordable housing with ready access to public transit. Funding these two projects will enhance the county's ability to provide needed services to residents. Accordingly, this measure authorizes the issuance of \$1,000,000 in general obligation bonds for the Kauai Fire Department helicopter hangar and \$1,500,000 in general obligation bonds for the Pua Loke Affordable Housing project.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2198 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Thielen).

SCRep. 2091 Public Safety, Intergovernmental, and Military Affairs on S.B. No. 2815

The purpose and intent of this measure is to:

- (1) Clarify circumstances under which the Hawaii Paroling Authority may grant early discharges to paroled prisoners;
- (2) Provide the Hawaii Paroling Authority with discretion when considering pardons for paroled prisoners; and
- (3) Clarify that early discharge consideration of paroled prisoners is an administrative action.

Your Committee received testimony in support of this measure from the Hawaii Paroling Authority. Your Committee received testimony in opposition to this measure from the Community Alliance On Prisons, Young Progressives Demanding Action, and

Ho'omanapono Political Action Committee. Your Committee received comments on this measure from the Libertarian Party of Hawaii and two individuals.

Your Committee finds that an efficient and effective parole system is essential to the proper functioning of the State's corrections system. Under existing law, the power of the Hawaii Paroling Authority to grant final discharge to paroled prisoners is broad and without clearly defined limits. Consequently, there is a lack of adequate consideration of victims under the existing discharge guidelines. Further, your Committee finds that the efficiency of the Paroling Authority would be greatly enhanced by allowing the Paroling Authority to consider final discharge of prisoners in an administrative action rather than in-person hearings.

Your Committee further finds that this measure clarifies that the Paroling Authority cannot grant parole to those inmates who are serving a portion of a court-ordered mandatory minimum sentence or who owe restitution. Additionally, this measure clarifies that in cases of early discharge of paroled persons, the Paroling Authority can decide the matter in an administrative hearing. Moreover, this measure establishes that the Hawaii Paroling Authority's consideration for a recommendation for a complete pardon of a paroled prisoner is discretionary.

However, your Committee understands that there are individual circumstances where an in-person hearing would better protect the interests of paroled prisoners and the Paroling Authority. Therefore, it is important to provide the Paroling Authority with discretion in deciding whether to consider final discharge of paroled prisoners in administrative actions or through in-person hearings. In addition, it is important to provide those prisoners denied final discharge or full pardon an annual in-person hearing subsequent to their initial denial.

Accordingly, your Committee has amended this measure by:

- (1) Making administrative reviews of considerations for final discharge by the Paroling Authority permissive rather than mandatory; and
- (2) Removing language that would have required the Paroling Authority to conduct subsequent annual reviews for the purposes of considering final discharge as administrative actions.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2815, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2815, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2092 Public Safety, Intergovernmental, and Military Affairs on S.B. No. 2614

The purpose and intent of this measure is to extend by one year the deadline for a county to adopt a surcharge on state tax, under certain conditions, from March 31, 2018, to March 31, 2019.

Your Committee received testimony in support of this measure from the Mayor, County of Hawaii; and Hawaii County Councilmember Eileen O'Hara. Your Committee received comments on this measure from the Department of Taxation; Mayor, County of Maui; and Tax Foundation of Hawaii.

Your Committee finds that in recent years, county budgets have tightened and therefore, it is important to provide the counties with every opportunity and reasonable means of generating funds to support important and necessary governmental infrastructure and services. However, your Committee understands the concerns raised in testimony by the Department of Taxation that the Department be given sufficient time to make necessary form and computer changes to begin levying, assessing, collecting, and otherwise administering the county surcharge on state tax should any county adopt an ordinance to establish such a surcharge.

Accordingly, your Committee has amended this measure by changing the date on which the Director of Taxation shall begin levying, assessing, collecting, and otherwise administering the county surcharge on state tax authorized under this measure to January 1, 2020.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2614, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2614, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Thielen).

SCRep. 2093 Public Safety, Intergovernmental, and Military Affairs on S.B. No. 2167

The purpose and intent of this measure is to amend the Sunshine Law to allow certain government records to be shared among public board members where no commitment relating to a vote or additional discussion on the matter is made or sought.

Your Committee received testimony in support of this measure from the Mayor, County of Hawaii; Hawaii State Association of Counties; Maui County Councilmember Robert Carroll; Kaua'i County Councilmember Derek S.K. Kawakami; Maui County Councilmember Yuki Lei Sugimura; and one individual. Your Committee received testimony in opposition to this measure from Common Cause Hawaii. Your Committee received comments on this measure from the Office of Information Practices and The Civil Beat Law Center for the Public Interest.

Your Committee finds that efficiency in public agencies is beneficial to the public welfare. One way to increase efficiency in the work and decision making of the State's public boards is to allow members of boards to share government records that would otherwise require disclosure under the law with other board members. Allowing this type of information sharing, as this measure does,

would save time and lead to better and faster decision making. However, it is important to maintain transparency in government. Therefore, this measure prohibits the sharing of government records that would otherwise need to be disclosed between board members if any related commitment to a vote is made or sought, or if there is any additional discussion between board members beyond a description of the government record being shared.

However, your Committee understands the concerns raised in testimony that this measure does not create sufficient limitations on specific government records and thus has the potential for much broader application and potential abuse. For instance, under this measure, a memorandum or electronic mail written by one board member listing his or her thoughts on an issue would qualify as a government record. This could create a loophole permitting members to privately or serially discuss an issue through memoranda or electronic mail, thereby thwarting transparency.

Your Committee has amended this measure by:

- (1) Replacing its language with language from S.B. No. 478, S.D. 1, H.D. 1 (2017), which allows a member of a county council to provide other members any government record that is open to public inspection under chapter 92F, Hawaii Revised Statutes; provided that:
 - (A) The record was created by a person other than a member or employee of the county council;
 - (B) No additional discussion is added to the record other than a neutral statement to identify the record and the related matter of official business;
 - (C) No commitment relating to a vote on the matter is made or sought;
 - (D) The transmission of government records between county council members occurs during business hours;
 - (E) On the same day the government record is transmitted to other county council members, the transmittal document and government record shall be filed for public inspection in the county council office;
 - (F) The public shall have access to the transmittal document and government records at least twenty-four hours before the county council meets to discuss matters relating to the government records; and
 - (G) The transmittal document and government record filed in the county council office shall, upon request, be electronically transmitted to the requester; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2167, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2167, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Thielen).

SCRep. 2094 (Joint) Agriculture and Environment and Human Services on S.B. No. 2398

The purpose and intent of this measure is to require the Department of Agriculture to develop and administer a farmers' market matching incentive program promoting the purchase of fruits and vegetables for beneficiaries of the Supplemental Nutrition Assistance Program.

Your Committees received testimony in support of this measure from the Department of Agriculture; Department of Health; Department of Human Services; Office of the Mayor of the County of Hawai'i; Hawai'i Farm Bureau; American Heart Association; Hawaii Public Health Association; The Food Basket Inc., Hawai'i Island's Food Bank; Uluono Initiative; Hawai'i Public Health Institute; Hawai'i Pacific Health; Hawaii Appleseed Center for Law & Economic Justice; Hawaii Farmers Union United Waianae Coast; Waianae Coast Comprehensive Health Center; Health Promotion & Disease Prevention; Kokua Kalih Valley Roots Food Program; Blue Zones Project; O'ahu County Legislative Priorities Committee of the Democratic Party of Hawai'i; Community First; Blue Zones Project – Koolaupoko; and fifty-five individuals. Your Committees received comments on this measure from the Department of Budget and Finance.

Your Committees find that consumption of fresh fruit and vegetables is an integral part of a healthy diet and central to the prevention of obesity and disease. Every community should have adequate access to healthy dietary options; however, the high cost of healthy food often makes this difficult. Your Committees find that this measure provides a mechanism by which low income households can have greater access to high quality fresh fruits and vegetables.

Your Committees have amended this measure by:

- (1) Expanding the incentive program to include other direct food retailers who participate in the Supplemental Nutrition Assistance Program;
- (2) Specifying that the dollar-for-dollar match up to \$20 is per month;
- (3) Renaming the program as the "local health food incentive program"; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Agriculture and Environment and Human Services that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2398, as amended herein, and

recommend that it pass Second Reading in the form attached hereto as S.B. No. 2398, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Agriculture and Environment: Ayes, 4. Noes, none. Excused, 1 (Riviere).

Human Services: Ayes, 3. Noes, none. Excused, 2 (Tokuda, Wakai).

SCRep. 2095 Education on S.B. No. 2510

The purpose and intent of this measure is to establish and appropriate funds for one full-time equivalent (1.00 FTE) world languages institutional support position within the Department of Education.

Your Committee received testimony in support of this measure from the Department of Education; Office of Language Access; He'e Coalition; Hawai'i Association of Language Teachers; Native Hawaiian Education Council; HawaiiKidsCAN; The Filipino Community Center, Inc.; Filipino American Citizens League; Hawai'i TESOL; Hawaii Friends of Civil Rights; Filipina Advocacy Network; Tinalak Filipino Education Council; and numerous individuals.

Your Committee finds that it is important to create a more culturally-responsive policy climate that embraces the opportunities of Hawaii's diverse ethnic and heterogeneous linguistic population. Recognizing the important role of multilingualism in providing a meaningful and equitable education for student achievement, the Board of Education approved policies that promote high proficiency in English or Hawaiian and an additional language. These policies, based on long-standing research showing the effectiveness of language education for student achievement, support the teaching and learning of languages to fuel economic growth and support international business, military and diplomatic relations, workforce development, and global competence. This measure will support the respective goals of the Board and Department.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2510 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Kim).

SCRep. 2096 Education on S.B. No. 2384

The purpose and intent of this measure is to require the Department of Education to:

- (1) Develop a comprehensive plan to integrate design thinking and coding in middle, intermediate, and high school curriculums; and
- (2) Submit the plan to the Legislature prior to the Regular Session of 2019.

Your Committee received testimony in support of this measure from the Department of Education and four individuals.

Your Committee finds that many of Hawaii's public schools have already implemented courses in science, technology, engineering, and math, also known as the STEM fields, in their curriculum. However, many curriculums are designed to solely focus on outcome-based results and potential economic impact, which may compromise innovation and creativity when applied to the STEM fields. Design thinking is an approach to learning, collaboration, and problem solving that is structured for identifying challenges, gathering information, generating potential solutions, refining ideas, and testing solutions. Including design thinking in curriculums can improve and enhance the curriculum and assist students in creatively solving problems.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2384 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Kim).

SCRep. 2097 Education on S.B. No. 2521

The purpose and intent of this measure is to appropriate funds to the Department of Education to provide up to \$1,690 to each special education classroom teacher for instructional materials and equipment.

Your Committee received testimony in support of this measure from the Department of Education; Special Education Advisory Council; Hawaii State Teachers Association; United Public Workers, AFSCME, Local 646, AFL-CIO; Civic Education Council; IMUAlliance; and twelve individuals.

Your Committee finds that special education services, including academic, speech-language, psychological, physical and occupational, and counseling accommodations, meet the unique needs of students with disabilities. Governed by federal and state law, special education services are available to eligible students between three and twenty-two years of age who demonstrate a need for specially designed instruction. However, based on statewide assessments, most of the State's public school students with individualized education programs are performing below grade level in reading and mathematics. Therefore, investing in additional resources for special education teachers and classrooms may serve as a catalyst in closing the achievement gap between special needs students and their general education peers.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2521 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Kim).

SCRep. 2098 Education on S.B. No. 2527

The purpose and intent of this measure is to require the Department of Education to provide school meals to all public charter schools.

Your Committee received testimony in support of this measure from the Department of Education, State Public Charter School Commission, Hawaii State Teachers Association, Native Hawaiian Education Council, Prince Kuhio Hawaiian Civic Club, Hawaii Appleseed Center for Law and Economic Justice, Hawaii Public Charter School Network, and numerous individuals.

Your Committee finds that the federal school meals programs are critical to the health and well-being of students, especially low-income students, and ensures that they have the nutrition they need to learn. Since just over half of the State's students qualify for free or reduced-price school meals, these meals can provide nutritional and financial support to low-income and working-class families. While the majority of charter schools provide food service from a variety of sources, including the Department of Education and private vendors, this measure ensures that all students, especially low-income students, at public charter schools will have access to nutritious meals.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2527 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Kim).

SCRep. 2099 Education on S.B. No. 2520

The purpose and intent of this measure is to appropriate funds to the Department of Education for behavior analysis services performed by licensed behavior analysts for public school students.

Your Committee received testimony in support of this measure from the Department of Education, Hawaii State Teachers Association, Hawaii Disability Rights Center, Hawai'i Association for Behavior Analysis, IMUAlliance, Autism Behavior Consulting Group Hawaii, and numerous individuals. Your Committee received testimony in opposition to this measure from the Hawai'i Psychological Association and four individuals.

Your Committee finds that behavior analysis is the scientific study of principles of learning and behavior. The practice of behavior analysis includes the empirical identification of functional relations between behavior and environmental factors, known as functional assessment and analysis, as well as the use of contextual factors, motivating operations, antecedent stimuli, positive reinforcement, and other consequences to help people develop new behaviors, increase or decrease existing behaviors, and emit behaviors under specific environmental conditions. Because of the overall benefits of behavior analysis, many students enrolled in public schools would benefit from the expansion of behavior analysis services throughout Hawaii's public school system, including but not limited to students with autism disorders.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2520 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Kim).

SCRep. 2100 Education on S.B. No. 2393

The purpose and intent of this measure is to require the Department of Education to:

- (1) Create a comprehensive plan to establish alternative learning centers in each school complex area in the State; and
- (2) Submit the plan to the Legislature prior to the Regular Session of 2019.

Your Committee received testimony in support of this measure from the Hawaii State Teachers Association. Your Committee received comments on this measure from the Department of Education.

Your Committee finds that alternative learning centers provide specialized services, such as trauma treatment, life skills training, vocational education, mental health treatment, medical services, substance abuse intervention, and mentorship programs, to meet the unique needs of at-risk youth. By offering troubled children the long-term and individualized support they need, these children can develop physically, mentally, and socially in a conducive learning environment.

Your Committee has heard the testimony of the Department of Education expressing concerns relating to a comprehensive needs assessment, a cost analysis, a projected implementation plan, and an appropriation of \$200,000 to the Department to contract for these studies if this measure were to pass. Additionally, the Department of Education proposed submitting an update report to the 2018-2019 Legislature and a final report to the 2019-2020 Legislature, including any budget requests or legislation, as necessary. Your Committee finds that these issues raise concerns that merit further consideration and requests that your Committee on Ways and Means further examine those issues and concerns raised by the Department of Education on this measure.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2393 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Kim).

SCRep. 2101 Education on S.B. No. 2383

The purpose and intent of this measure is to:

- (1) Amend provisions of the national certification incentive program within the Department of Education to include school psychologists who have achieved national certification;
- (2) Amend provisions related to eligible schools where teachers or school psychologists with national certification are eligible for the incentive program;
- (3) Beginning with fiscal year 2018-2019, and each fiscal year thereafter, require funding requests by charter schools for teacher incentive programs, bonuses, and other compensation beyond regular wages to be a separate line item in the general appropriations act and supplemental appropriations act; and
- (4) Appropriate funds for certain bonuses for public school teachers and for national certification incentive program bonuses for charter schools.

Your Committee received testimony in support of this measure from the Department of Education, State Public Charter School Commission, Hawaii State Teachers Association, Hawai'i Association of School Psychologists, and nine individuals. Your Committee received comments on this measure from the Department of Budget and Finance.

Your Committee finds that Hawaii continues to suffer from a shortage of qualified teachers and that financial incentives are a key strategy for the recruitment and retention of teachers. National certified education professionals, including school psychologists, are critical to increasing learning growth for students, especially in hard-to-fill schools. Due to resource shortages and low pay experienced by educators working in high-need and economically impaired areas, it is critical to incentivize the pursuit of professional excellence and reward quality educators.

Your Committee has amended this measure by:

- (1) Specifying that the appropriated funds shall be used to pay for bonuses for public school teachers, charter school teachers, and school psychologists for collectively bargained placement bonuses in schools determined as hard-to-fill by the Department of Education and national certification incentive program bonuses;
- (2) Deleting provisions that would have appropriated funds to the Hawaii State Public Charter School Commission for national certification incentive program bonuses for charter schools; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2383, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2383, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Kim).

SCRep. 2102 Commerce, Consumer Protection, and Health on S.B. No. 2748

The purpose and intent of this measure is to amend the State's charitable solicitations law by:

- (1) Substituting the term "total revenue" for the term "gross revenue" and term "total receipts" for the term "gross receipts";
- (2) Clarifying when professional solicitors must file financial reports;
- (3) Clarifying when commercial co-venturers must provide a charitable organization with an accounting and the benefit of a charitable sales promotion;
- (4) Eliminating the requirement for certain charitable organizations to submit an audit report; and
- (5) Making housekeeping amendments.

Your Committee received testimony in support of this measure from the Department of the Attorney General; Association of Fundraising Professionals - Aloha Chapter; Hawaii Association of Independent Schools; Hawaii Council of Private Schools, LLC; and Hawai'i Alliance of Nonprofit Organizations.

Your Committee finds that this measure makes several amendments to the State's law governing charitable solicitations, including clarifying the operating and reporting requirements for charitable organizations, ensuring charitable organizations report to the Attorney General in a timely fashion, and clarifying reporting process requirements for solicitation campaigns and events. This measure also assists the Department of the Attorney General in its oversight of charitable organizations and fundraising activities, clarifies regulatory procedures for the nonprofit sector, and provides additional disclosures for the public.

Your Committee has amended this measure by:

- (1) Reinserting the Hawaii Council of Private Schools into the Department of the Attorney General's list of authorized licensing or accrediting organizations that are exempted from registration and financial disclosure requirements, as this organization was mistakenly removed from the list by legislation passed during the Regular Session of 2017; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2748, as amended herein, and recommends

that it pass Second Reading in the form attached hereto as S.B. No. 2748, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 2 (Ihara, Nishihara).

SCRep. 2103 Commerce, Consumer Protection, and Health on S.B. No. 3024

The purpose and intent of this measure is to prohibit the sale of video games that contain a system of further purchasing, including a randomized reward or a virtual item that can be redeemed to directly or indirectly receive a randomized reward, to consumers under twenty-one years of age.

Your Committee received testimony in support of this measure from the Hawaii Youth Services Network and two individuals. Your Committee received testimony in opposition to this measure from the Entertainment Software Association, TechNet, and Retail Merchants of Hawaii. Your Committee received comments on this measure from the Department of Commerce and Consumer Affairs.

Your Committee finds that the multi-billion-dollar video game industry is extremely popular in America. Video games and gaming content are widely and easily available to consumers and may be purchased at the touch of a button through smart phones, gaming consoles, or personal computers. However, video games that contain randomized rewards or variable reward mechanisms, also known as loot boxes, may introduce children and young adults to the thrills of gambling at an age when their brains are not fully developed. According to testimony received by your Committee, children and youth are vulnerable to developing behavioral addiction to gambling and lack the maturity or knowledge to recognize the risks they encounter. Furthermore, parents and other responsible adults are often unaware of the randomized rewards that are often available in the video games their children are using. Your Committee notes that the ubiquitous reach of video games, which require active, lengthy participation and exposure to the psychological manipulation techniques of loot boxes, may present harmful risks to the financial well-being and mental health of individuals, especially vulnerable youth and young adults. This measure therefore prohibits the sale of video games that contain a system of further purchasing, including a randomized reward or a virtual item, to consumers under twenty-one years of age.

Your Committee has amended this measure by:

- (1) Inserting a definition of “randomized reward”; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3024, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3024, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 2 (Ihara, Nishihara).

SCRep. 2104 Commerce, Consumer Protection, and Health on S.B. No. 2653

The purpose and intent of this measure is to:

- (1) Establish requirements for licensure by endorsement for physicians, surgeons, and osteopathic physicians; and
- (2) Appropriate an unspecified sum from the compliance resolution fund to implement the licensure by endorsement process established by this measure.

Your Committee received testimony in support of this measure from the Department of Health, Hawaii Medical Board, Hawaii Medical Association, Hawai'i Pacific Health, and Hilo Medical Center. Your Committee received comments on this measure from the Hawai'i Primary Care Association.

Your Committee finds that Hawaii is facing a critical shortage of health care providers in almost every field of practice, with primary care providers being the largest group in short supply, followed by infectious disease specialists on Oahu and Kauai, colorectal surgeons in the County of Hawaii, and geriatric doctors in the County of Maui. Your Committee further finds that the health care provider shortage is projected to worsen, due to the increased demand for health care from the State's aging population and the retirement of an aging physician population.

Your Committee additionally finds that another access to care barrier is the limitation placed on physicians seeking to relocate to Hawaii, as the Hawaii Medical Board (Board) currently lacks the ability to grant licensure by endorsement to physicians, surgeons, and osteopathic physicians who are fully qualified and licensed in another jurisdiction. According to testimony from the Board, between January 2016 and December 2017, the Board received over one thousand applications from physicians who were licensed in other jurisdictions, had mailing addresses in other jurisdictions, or both. This measure therefore establishes licensure by endorsement requirements for physicians, surgeons, and osteopathic physicians, which will provide greater access to medical care in Hawaii and address the high volume of applications received from out-of-state physicians in a more streamlined manner.

Your Committee notes that although this measure permits the Board to grant licensure by endorsement in an expeditious fashion, it does not lessen the Board's legislative mandate to protect Hawaii consumers from unsafe and incompetent health care practitioners and clearly ensures that the Board may only license physicians, surgeons, and osteopathic physicians who meet specific licensing requirements and who have not been previously disciplined by another medical or osteopathic medical board.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2653 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 2 (Ihara, Nishihara).

SCRep. 2105 Commerce, Consumer Protection, and Health on S.B. No. 2658

The purpose and intent of this measure is to appropriate funds to the Department of Health for the operating costs, including the purchase of two ambulance vehicles, equipment, supplies, and personnel costs, for one twenty-four hour, seven days a week ambulance unit each for the Counties of Kauai and Hawaii.

Your Committee received testimony in support of this measure from the County of Hawaii Office of the Mayor, Hawaii State Association of Counties, Hawaii County Councilmember Sue Lee Loy, Kauai County Councilmember Arthur Brun, Hawaii County Councilmember Eileen O'Hara, Hawaii Pacific Health Wilcox Medical Center, Hawaii Pacific Health, Hawaii Fire Fighters Association, American Medical Response, Ohana Pacific Management County, and seven individuals. Your Committee received comments on this measure from the Department of Health.

Your Committee finds that the populations of the Counties of Kauai and Hawaii, particularly of the elderly and homeless, have grown and that ambulance response times have consequently increased in those counties, especially to outlying areas. Your Committee held a joint informational briefing on January 16, 2018, on emergency medical services in which the Emergency Medical Services Advisory Committee and the Department of Health's Emergency Medical Services and Injury Prevention Branch recommended that the addition of ambulance units to the Counties of Hawaii and Kauai be prioritized.

The recommendation expressed at the January informational briefing is echoed by testimony received by your Committee on this measure, which indicates that a new ambulance unit has not been added on Kauai since 1992 despite a 6.9 percent increase in population from 2010 to 2015. In certain areas of Kauai, from 2010 to 2015, thirty-four percent of emergency calls exceeded the mandated response time of twenty minutes. Similarly, on the island of Hawaii, the volume of emergency calls has increased without a commensurate increase in emergency medical services to areas such as Makalei and Puna.

Your Committee finds that response times are critical in matters of life or death. This measure appropriates funds to ensure that residents in the Counties of Hawaii and Kauai receive the same level of emergency medical services that are available to residents in other areas of the State, with the goal of improved health outcomes in emergencies.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2658 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, 1 (Nishihara).

SCRep. 2106 (Joint) Commerce, Consumer Protection, and Health and Human Services on S.B. No. 2487

The purpose and intent of this measure is to amend the definition of "quality assurance committee" as used in section 663-1.7, Hawaii Revised Statutes (HRS), to match the definition of the same term in section 624-25.5, HRS, to ensure the consistent use of this term in statute and allow the establishment of a quality assurance committee outside of a single health plan or hospital.

Your Committees received testimony in support of this measure from the Department of Health, Department of Commerce and Consumer Affairs Insurance Division, University of Hawaii at Hilo College of Pharmacy, Hawaii Fire Department, Healthcare Association of Hawaii, Hilo Medical Center, and Community First.

Your Committees find that quality assurance committees provide hospitals, health plans, long term care facilities, and other healthcare organizations with a mechanism to evaluate, monitor, and improve quality of care; reduce patient risk and error; and assess the overall effectiveness of care provided to patients. As such, quality assurance committees are essential to the healthcare delivery system.

Your Committees further find that there are two separate, inconsistent definitions of the term "quality assurance committee" in the HRS. One definition applies to chapter 624, HRS, relating to depositions and discovery, while the other applies to chapter 663, HRS, relating to tort actions. Due to this inconsistency, quality assurance committees established under chapter 624, HRS, to monitor, improve, and evaluate patient care within the statewide trauma systems may be established outside of a single health plan or hospital, whereas quality assurance committees established under chapter 663, HRS, may not. This measure seeks to correct this inconsistency and provide quality assurance committees established under chapters 624 and 663, HRS, with the same confidentiality and liability protections.

Your Committees find that this measure will support the important goals of providing community-based, interdisciplinary health care and will enable healthcare organizations to better plan, coordinate, and manage patients' care.

As affirmed by the records of votes of the members of your Committees on Commerce, Consumer Protection, and Health and Human Services that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2487 and recommend that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chairs on behalf of the Committees.

Commerce, Consumer Protection, and Health: Ayes, 4. Noes, none. Excused, 3 (Ihara, Nishihara, Ruderman).

Human Services: Ayes, 4. Noes, none. Excused, 1 (Wakai).

SCRep. 2107 Commerce, Consumer Protection, and Health on S.B. No. 2771

The purpose and intent of this measure is to:

- (1) Authorize the Commissioner of Financial Institutions to enter into consent orders and issue cease and desist orders for violations of the State's mortgage servicer laws by licensees and unlicensed persons; and

- (2) Permit the Commissioner of Financial Institutions to adopt certain mortgage servicer requirements to the extent reasonably necessary to use NMLS.

Your Committee received testimony in support of this measure from the Department of Commerce and Consumer Affairs.

Your Committee finds that NMLS is a web-based nationwide licensing system that streamlines workflow and communications for applicants, licensees, and licensing authorities, including the Division of Financial Institutions of the Department of Commerce and Consumer Affairs. NMLS has been in operation since January 2008 and is continually being improved. However, due to current state law, some of the improvements to NMLS are not yet available for Hawaii, such as the ability to accept an electronic bond uploaded by an insurance carrier. This measure therefore permits the Commissioner of Financial Institutions (Commissioner) to modify or establish requirements pertaining to applications and license surrender, as reasonably necessary to use NMLS. This will give the Commissioner the authority to allow electronic bonds through NMLS, in accordance with the current practice of other states, and further use NMLS to manage the licensure of mortgage servicers without burdening licensees.

Your Committee notes that according to testimony from the Department of Commerce and Consumer Affairs, the Commissioner was recently unable to issue a cease and desist order against a mortgage servicer who was in violation of state law, as existing state law only permits the Commissioner to issue a proposed cease and desist order. This measure therefore authorizes the Commissioner to enter into consent orders and issue cease and desist orders for violations by licensees and unlicensed persons, which will enable the Commissioner to quickly minimize consumer harm, expedite decisions, and save resources.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2771 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 2 (Ihara, Nishihara).

SCRep. 2108 Judiciary on S.B. No. 2146

The purpose and intent of this measure is to provide that whenever an election officer is required to issue a public notice in a statewide or county publication, the publication requirement is satisfied upon the submission of the notice to the publication; provided that the notice is also posted on the website associated with the election officer.

Your Committee received testimony in support of this measure from the Office of Elections.

Your Committee finds that timely filing of public notice relating to elections is important to keep the public well-informed. Unusual situations, such as vacancies in close proximity to the candidate filing deadline that add a contest to the ballot and extend the candidate filing deadline, should be brought to the attention of the public as soon as possible. The Office of Elections cannot guarantee compliance by an outside entity once the Office provides a proclamation or other public notice, so requiring the Office to post the notice on the Office's website will ensure that the Office can meet election deadlines regardless of the actions of outside entities.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2146 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Gabbard).

SCRep. 2109 Judiciary on S.B. No. 461

The purpose and intent of this measure is to increase the maximum monetary penalty for providing false information during the process of registering to vote.

Your Committee received testimony in support of this measure from the Office of Elections, Department of the Prosecuting Attorney of the County of Maui, Maui County Police Department, and Common Cause Hawaii.

Your Committee finds that the acknowledgements currently required of persons registering to vote are inconsistent with state statutes related to voter fraud. As a result, persons registering to vote on the day of an election receive obsolete information about their responsibilities as voters and the potential consequences of committing voter fraud. This measure will clarify the penalties associated with committing voter fraud and ensure that the acknowledgements required of persons registering to vote are consistent with other related state statutes.

Your Committee has amended this measure by:

- (1) Replacing language requiring persons registering to vote to acknowledge that providing false information is a class C felony with language requiring persons registering to vote to acknowledge that voter fraud is a class C felony, punishable by a fine not exceeding \$10,000 or imprisonment not exceeding five years, or both; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 461, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 461, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Gabbard).

SCRep. 2110 Judiciary on S.B. No. 2142

The purpose and intent of this measure is to:

- (1) Remove the requirement that failure to file a statement or report required by the lobbyists law be willful in order to be subject to an administrative fine; and
- (2) Clarify that the Hawaii State Ethics Commission may assess an administrative fine pursuant to a settlement agreement.

Your Committee received testimony in support of this measure from the Hawaii State Ethics Commission, Common Cause Hawaii, and League of Women Voters of Hawaii.

Your Committee finds that existing statutory provisions relating to administrative penalties for lobbyists who fail to file required statements or reports are obsolete and inconsistent with other provisions of the lobbyists law. The existing state of mind requirement is no longer appropriate now that failing to file or report is no longer a criminal misdemeanor. Administrative fines are also appropriate as conditions for the settlement of violations without the need for a hearing.

Your Committee has concerns that removing the requirement that failure to file a statement or report required by the lobbyists law be willful in order to be subject to administrative fine could create a standard approaching strict liability for such a violation. Your Committee finds that this issue raises concerns that merit further consideration and encourages further discussion to establish a reasonable standard other than strict liability.

Your Committee has amended this measure by:

- (1) Removing language that deleted the requirement that failure to file a statement or report required by the lobbyists law be willful in order to be subject to administrative fine; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2142, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2142, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Gabbard).

SCRep. 2111 Judiciary on S.B. No. 2174

The purpose and intent of this measure is to authorize the circuit court or family court to issue a material witness order in cases initiated through felony complaint, indictment, or information.

Your Committee received testimony in support of this measure from the Department of the Prosecuting Attorney of the City and County of Honolulu.

Your Committee finds that a felony criminal case can be initiated through felony complaint, indictment, or information. In some cases, it is advantageous to the prosecution to initiate the case through felony information because a preliminary hearing will follow the complaint. A preliminary hearing allows the State to have sworn testimony from witnesses that may, in certain circumstances, be used at trial if a witness suddenly becomes unavailable prior to trial. Preliminary hearings also give defendants the opportunity to confront witnesses against them and defendants' attorneys the opportunity to cross-examine witnesses. Although courts are authorized to issue material witness orders in cases initiated through indictment or information, courts cannot issue material witness orders in cases initiated through felony complaint. Authorizing courts to issue material witness orders in cases initiated through felony complaint would allow the prosecution and defense in such cases to more effectively assist the court in reaching just and well-supported decisions.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2174, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2174, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2112 (Joint) Commerce, Consumer Protection, and Health and Human Services on S.B. No. 2988

The purpose and intent of this measure is to appropriate funds to the Department of Health for the implementation and sustainability of the kupuna caregivers program and require the Executive Office on Aging to submit a report to the Legislature that details kupuna caregivers program outcomes.

Your Committees received testimony in support of this measure from the Hawaii Public Health Association, Healthcare Association of Hawaii, Hawaii Chapter - American Physical Therapy Association, Mental Health America of Hawaii, The American College of Obstetricians and Gynecologists Hawaii Section, AARP Hawaii, Ho'omanapono Political Action Committee, PHOCUSED, The Young Progressives Demanding Action, Hawai'i Appleseed Center for Law and Economic Justice, Faith Action Community Equity, ILWU Local 142, American Association of University Women, Oahu County Committee on Legislative Priorities of the Democratic Party of Hawaii, Hawaii Women's Coalition, Caring Across Generations, and twenty individuals. Your Committees received comments on this measure from the Department of Health Executive Office on Aging.

Your Committees find that the appropriation provided for in this measure will expand an important program for Hawaii's kupuna and their families on a statewide basis.

Your Committees note that the program also includes safeguards to ensure that consumers receive quality care; in order to receive assistance through the kupuna caregivers program, an individual must be a qualified caregiver who provides care for an elder who qualifies for the kupuna care program.

Your Committees have heard the concern of the Executive Office on Aging with respect to the additional burden that would be imposed by an additional, separate report to the Legislature. Your Committees agree that requiring the Executive Office on Aging to provide a separate report would be needlessly burdensome, and that the same information can be included in the Executive Office on Aging's existing report to the Legislature.

Accordingly, your Committees have amended this measure by:

- (1) Replacing the requirement that the Executive Office on Aging submit a separate report on kupuna caregivers program outcomes with a requirement that the Executive Office on Aging include the requested information on kupuna caregivers program outcomes in its existing report to the Legislature; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Commerce, Consumer Protection, and Health and Human Services that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2988, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2988, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Commerce, Consumer Protection, and Health: Ayes, 4. Noes, none. Excused, 3 (Ihara, Nishihara, Ruderman).

Human Services: Ayes, 4. Noes, none. Excused, 1 (Wakai).

SCRep. 2113 Labor on S.B. No. 2367

The purpose and intent of this measure is to require the Hawaii Labor Relations Board to deliver its decisions and orders by hand, United States Postal Service mail with delivery confirmation, or electronically.

Your Committee received testimony in support of this measure from the Hawaii Labor Relations Board.

Your Committee finds that electronic filing services cut costs for the State by eliminating postage costs and staff time to mail decisions and orders. Your Committee further finds that more than ninety-five percent of parties appearing before the Hawaii Labor Relations Board are registered for electronic filing services, which includes an agreement to receive all documents electronically.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2367, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2367, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 2114 Labor on S.B. No. 2803

The purpose and intent of this measure is to:

- (1) Update boiler and elevator safety laws by making housekeeping amendments to delete obsolete language;
- (2) Rename the boiler and elevator special fund as the boiler and elevator revolving fund; and
- (3) Extend the schedule for reimbursement of the general fund for appropriations made to establish the boiler and elevator special fund from five to ten years.

Your Committee received testimony in support of this measure from the Department of Labor and Industrial Relations.

Your Committee finds that current state law contains various definitions of elevators and kindred equipment that are either no longer a part of applicable standards, transitioned to the jurisdiction of other work groups, excluded from the American Society of Mechanical Engineers A17.1, Safety Code for Elevators and Escalators, or non-existent in Hawaii; therefore, it is necessary to update the state laws to comply with the national standards.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2803, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2803, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 2115 Labor on S.B. No. 2767

The purpose and intent of this measure is to clarify the acquisition of service provisions to maintain the status of the Employees' Retirement System (ERS) as a tax-qualified plan under section 401(a) of the Internal Revenue Code.

Your Committee received testimony in support of this measure from the Board of Trustees of the Employees' Retirement System.

Your Committee finds that the ERS must use specific methods of purchasing additional membership service credit by pre-tax contributions to maintain the tax-qualified status of the system. Act 86, Session Laws of Hawaii 2015, prospectively changes the cost to purchase membership service based on actuarially neutral cost calculation, with a delayed implementation date of July 1, 2020. This measure makes necessary amendments to existing law affecting purchases after June 30, 2020, to ensure that the tax-qualified status of the ERS is not jeopardized.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2767, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2767, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 2116 Labor on S.B. No. 2734

The purpose and intent of this measure is to allow the employee's designation of beneficiary form to be kept in the department where the employee is employed and permit the designation to be filed and maintained electronically.

Your Committee received testimony in support of this measure from the Department of Accounting and General Services.

Your Committee finds that currently, section 78-23(c), Hawaii Revised Statutes, requires the employee's designation of beneficiary form to be written, notarized, and filed with the comptroller or another disbursing officer who issues warrants or checks to pay an employee for the employee's services. This requirement has resulted in thousands of forms being maintained in a central location at the Department of Accounting and General Services. Maintaining the forms, which includes manually filing forms alphabetically for new employees, filing updated forms for current employees, and purging forms of employees no longer employed with the State, is extremely labor intensive. Keeping the forms within the employing department ensures that the form, along with other payroll and personnel forms, would routinely be discarded when no longer required. Your Committee further finds that the State is in the process of implementing a new payroll system that may be able to maintain beneficiary information entered by the employee. Accordingly, this measure amends statute to eliminate the requirement that the form be written and notarized, which will allow the new system to maintain the most current beneficiary information in an electronic format.

Your Committee has amended this measure by inserting an effective date of January 1, 2050, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2734, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2734, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 2117 Labor on S.B. No. 2761

The purpose and intent of this measure is to:

- (1) Amend the definition of "dependent-beneficiary" under the Hawaii Employer-Union Health Benefits Trust Fund (EUTF) to clarify eligibility of children for participation in fund benefit plans; and
- (2) Conform the definition of "dependent-beneficiary" to the federal Patient Protection and Affordable Care Act of 2010.

Your Committee received testimony in support of this measure from the Hawaii Employer-Union Health Benefits Trust Fund and University of Hawaii Professional Assembly.

Your Committee finds that the existing definition of "dependent-beneficiary" in section 87A-1, Hawaii Revised Statutes, allows for a child born to or adopted by an employee's or retiree's surviving spouse after the death of the employee or retiree to receive EUTF benefits. Your Committee finds that EUTF benefits should only cover natural or adopted children of a deceased state employee or retiree. Your Committee also finds that it is important for EUTF definitions to be consistent with existing federal law.

Your Committee has amended this measure by:

- (1) Inserting an effective date of January 1, 2050, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency

As affirmed by the record of votes of the members of your Committee on Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2761, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2761, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 2118 Labor on S.B. No. 2764

The purpose and intent of this measure is to preserve the Employees' Retirement System's (ERS) use and control of unclaimed member contributions and benefit payments.

Your Committee received testimony in support of this measure from the Board of Trustees of the Employees' Retirement System.

Your Committee finds that despite a reasonably diligent search, the ERS sometimes cannot locate the member, former member, beneficiary, person, or entity to be paid benefits. Under the Uniform Unclaimed Property Act, after a designated amount of time, these unclaimed contributions and benefit payments are paid to the Unclaimed Property Program. This measure preserves ERS's use and control of unclaimed contributions and benefit payments by suspending and forfeiting them to the ERS prior to the time that they would be required to be paid to the Unclaimed Property Program while also preserving the ability of a member to recover forfeited contributions or benefit payments.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2764, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2764, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 2119 Labor on S.B. No. 2766

The purpose and intent of this measure is to clarify the applicability of benefits for accidental death and service-connected disability benefits for members of the Employees' Retirement System (ERS).

Your Committee received testimony in support of this measure from the Board of Trustees of the Employees' Retirement System.

Your Committee finds that as a trust fund, ERS assets are for the exclusive benefits of its members and beneficiaries. The Supreme Court of Hawaii issued a memorandum of opinion on July 10, 2017, on an appeal of a decision by the ERS Medical Board. The Court found that section 88-21, Hawaii Revised Statutes, defines "service" to include any "service as an employee paid by the State or county", and found additional language that indicates that "connected" service includes non-ERS-membership state or county service, as long as the member makes ERS contributions during the non-ERS-membership state or county service. Separately defined is "membership service" as "all service rendered by a member for which the member had made the required contributions to the system". The Court made the distinction between "service" and "membership service" and noted that section 88-79, Hawaii Revised Statutes, provides for "service-connected disability retirement" and not "membership service-connected disability retirement". Based on this opinion, it may be construed that "service" includes persons working in governmental functions paid by the State or county who are not members of the ERS. This measure clarifies that benefits related to service-connected disability and accidental death benefits are limited to members who are beneficiaries of the trust.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2766, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2766, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 2120 Labor on S.B. No. 2994

The purpose and intent of this measure is to allow employers to obtain temporary restraining orders and injunctions to protect against harassment of employees or invitees at the employer's premises and worksites.

Your Committee received testimony in support of this measure from the Chamber of Commerce Hawaii.

Your Committee finds that employers must maintain safe working environments for their employees. Incidents of harassment at an employee's workplace not only create safety issues, but may also increase the risk of incidents with other employees and individuals. Your Committee finds that this measure allows employers to prevent further harassment and maintain a safe workplace for its employees and customers.

As affirmed by the record of votes of the members of your Committee on Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2994 and recommends that it pass Second Reading and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (English).

SCRep. 2121 (Joint) Human Services and Commerce, Consumer Protection, and Health on S.B. No. 2108

The purpose and intent of this measure is to require the Department of Human Services to provide health care premium assistance for individuals at various income ranges up to three hundred percent of the federal poverty level.

Your Committees received testimony in support of this measure from Ho'omanapono Political Action Committee and two individuals. Your Committees received comments on this measure from the Department of Human Services.

Your Committees find that health care premiums in the State have drastically increased and are expected to rise in the next few years. Your Committees further find that in 2015, health care costs accounted for 14.7 percent of a resident's income. Rising premium costs, along with other necessary expenses, have increased the cost of living in the State, particularly for middle- and low-income families and individuals. This measure provides necessary financial relief for these families and individuals.

As affirmed by the records of votes of the members of your Committees on Human Services and Commerce, Consumer Protection, and Health that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2108 and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Human Services: Ayes, 5. Noes, none. Excused, none.

Commerce, Consumer Protection, and Health: Ayes, 4. Noes, none. Excused, 3 (Espero, Ihara, Ruderman).

SCRep. 2122 Human Services on S.B. No. 2276

The purpose and intent of this measure is to appropriate funds for:

- (1) The Department of Human Services to establish a five-year pilot program in the East Hawaii Child Welfare Services Section in Hawaii County that limits the number of children per child welfare services caseworker to no more than twenty; and
- (2) Additional case managers and support staff for the pilot program.

Your Committee received testimony in support of this measure from the Department of Human Services; Office of the Mayor, County of Hawai'i; Office of the Prosecuting Attorney, County of Hawai'i; Oahu County Committee on Legislative Priorities of the Democratic Party of Hawaii; Hawaii Life Alliance; Calvary Chapel Pearl Harbor; and twenty-five individuals.

Your Committee finds that in 2015, the rate of confirmed cases of child abuse or neglect was two hundred thirteen children per 100,000 residents in Hawaii County. Your Committee further finds that layoffs and hiring restrictions have caused the East Hawaii Child Welfare Services Section to lose positions, resulting in an increase in average caseloads per caseworker. The pilot project proposed by this measure provides an opportunity to demonstrate the positive impact of adequate staffing levels on the well-being of at-risk children and families in east Hawaii.

Your Committee also notes that the Department of Human Services recognizes the recruitment and retention of young caseworkers as a critical but challenging effort to maintaining appropriate caseloads per worker. In response to a new generation entering the workforce, the department is currently investing in its technology system to improve data sharing across programs and agencies and streamline processes to assist and engage young caseworkers.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2276 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Wakai).

SCRep. 2123 Human Services on S.B. No. 2477

The purpose and intent of this measure is to amend the penalty for nonreporting of the abuse or neglect of a child, from a petty misdemeanor to a class C felony.

Your Committee received testimony in support of this measure from IMUAlliance; Domestic Violence Survivor Advocate; Rainbow Family 808; Patients Without Time; Justice, Peace and Healing for Sons and Daughters; and ten individuals. Your Committee received testimony in opposition to this measure from the Hawai'i Psychology Association and We Are One, Inc.

Your Committee finds that, in 2015, the Department of Human Services reported that a total of 3,747 reports were made regarding child abuse in the State. Your Committee further finds that it is estimated that for every report made, two go unreported in the United States. Your Committee notes that the current lawsuit filed by former Kamehameha Schools students, who were abused by a psychiatrist recommended by the school, shows the importance of reporting any case of child abuse to the proper authority. Elevating the offense of nonreporting of the abuse or neglect of a child to a felony demonstrates the importance of reporting these cases and establishes a stronger deterrent to noncompliance.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2477 and recommends that it pass Second Reading and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Wakai).

SCRep. 2124 Human Services on S.B. No. 2536

The purpose and intent of this measure is to authorize the Department of Human Services to contract the services of a capture manager to secure grants and other funding opportunities for the department and appropriate funds for this position.

Your Committee received testimony in support of this measure from the Department of Human Services and Hawai'i Primary Care Association.

Your Committee finds that adding a grant manager position aligns with the Department of Human Services' efforts and mission to support the well-being of individuals, families, and communities in Hawaii. Your Committee further finds that, in fiscal year 2017, the Department received thirty-six grants totaling \$1,938,266,000, a majority of which were grants from the federal government for Supplemental Nutrition Assistance Program benefits and medical insurance coverage.

Your Committee notes that a grant manager position will assist the Department by seeking competitive grants and support the Department's effort to reducing poverty in the State.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2536 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Wakai).

SCRep. 2125 Human Services on S.B. No. 2605

The purpose and intent of this measure is to establish a criminal offense of assault against a child in a child care facility.

Your Committee received testimony in support of this measure from the Domestic Violence Survivor Advocate, Oahu County Committee on Legislative Priorities of the Democratic Party of Hawaii, and Rainbow Family 808. Your Committee received comments on this measure from the Department of Human Services and Honolulu Police Department.

Your Committee finds that child care facilities are an important and critical setting for the growth and development of a child. Your Committee further finds that parents and guardians who enroll their child at a child care facility trust that their child's health and well-being are taken care of and that safety is a priority.

Your Committee heard testimony from the Department of Human Services expressing concern that this measure might deter current child care providers from operating in the State and from the Honolulu Police Department expressing concern regarding enforceability of this measure. Your Committee finds that these issues merit further consideration and requests that that your Committee on Judiciary further examine them.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2605 and recommends that it pass Second Reading and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Wakai).

SCRep. 2126 (Joint) Housing and Commerce, Consumer Protection, and Health and Human Services on S.B. No. 2401

The purpose and intent of this measure is to:

- (1) Establish and appropriate funds for a three-year pilot program to assist families with minors who are homeless or at risk of homelessness to obtain permanent housing; and
- (2) Appropriate funds to the Hawaii Public Housing Authority, Department of Human Services, and Department of Health to support the State's most effective programs to end homelessness, including public housing improvements and renovations statewide, housing first, rapid rehousing, outreach services programs to homeless persons, including civil legal services, Oahu's family assessment center, and the law enforcement assisted diversion (LEAD) program.

Your Committees received testimony in support of this measure from the Governor's Coordinator on Homelessness, Department of Human Services, Hawaii Public Housing Authority, Hawaii Youth Services Network, Hawai'i Pacific Health, Hawaii Kai Homeless Task Force, Ho'omanapono Political Action Committee, Catholic Charities Hawai'i, Partners in Care, Aloha United Way, Project Vision Hawaii, Hawaii Substance Abuse Coalition, PHOCUSED, Young Progressives Demanding Action, Mental Health America of Hawai'i, The CHOW Project, Oahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, and twenty-one individuals. Your Committees received comments on this measure from the Department of Health.

Your Committees find that homelessness is one of the most pressing problems in Hawaii, and a robust, comprehensive solution is needed to increase the pace at which the State is gaining ground on addressing homelessness. For the first time in years, the homelessness rate in Hawaii went down in 2017. Hawaii is turning the tide on the homelessness crisis by investing in proven programs like housing first and rapid rehousing. The network of people and resources engaged in addressing homelessness has begun to make more efficient use of available resources by implementing a data-driven, collaborative process that matches those experiencing homelessness with the services they need to make more efficient use of available resources. However, Hawaii continues to have the highest per capita rate of homelessness of any state in the United States, with an estimated 7,220 people living on the streets and in shelters.

Accordingly, your Committees further find that the State must increase the investment in and commitment to the solution. This measure continues to address the State's homeless crisis by providing a multi-faceted approach using proven interventions that are targeted to the particular characteristics of the population being served and that address the root causes of homelessness.

Your Committees have amended this measure by:

- (1) Adopting the language suggested by Catholic Charities Hawai'i that:
 - (A) Changes the name of the three-year pilot project to be administered by the Hawaii Public Housing Authority from the state rental assistance program to the housing homeless children pilot program, and clarifies that the purpose of the pilot program is to assist families with minors, or those families with minors at imminent risk of homelessness due to domestic violence, to obtain and maintain permanent housing;
 - (B) Removes the requirements that the pilot program serve one hundred qualified families and provide time-limited rental assistance up to \$500 per month, to allow flexibility for the Hawaii Public Housing Authority to meet the individual needs of the families served by the pilot program; and

- (C) Authorizes the Board of Directors of the Hawaii Public Housing Authority to develop interim rules without regard to chapter 91, Hawaii Revised Statutes, to enable immediate implementation of the pilot program;
- (2) Adopting the language suggested by the Hawaii Youth Services Network that inserts language to dedicate, of the \$2,200,000 appropriated for the Department of Human Services to continue to administer the outreach services program to homeless persons, \$300,000 for outreach services to runaway and homeless youth, in addition to the \$310,000 dedicated for civil legal services;
- (3) Adopting the language suggested by the Hawaii Substance Abuse Coalition that:
- (A) Inserts clarifying language in section 1 under the principles of housing first programs regarding embracing harm-reduction approaches to addictions; and
- (B) Inserts language to clarify that the \$1,000,000 appropriation for the Department of Health to continue to administer homeless outreach, counseling, and diversion for unsheltered persons experiencing substance abuse includes professional case managers who employ basic core competencies for substance abuse treatment; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Housing, Commerce, Consumer Protection, and Health, and Human Services that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2401, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2401, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Housing: Ayes, 3. Noes, none. Excused, 2 (Kaehele, Nishihara).

Commerce, Consumer Protection, and Health: Ayes, 5. Noes, none. Excused, 2 (Nishihara, Tokuda).

Human Services: Ayes, 4. Noes, none. Excused, 1 (Tokuda).

SCRep. 2127 (Joint) Judiciary and Labor on S.B. No. 2177

The purpose and intent of this measure is to:

- (1) Create standards and procedures for income withholding for the purpose of enforcing restitution orders; and
- (2) Appropriate monies to the Department of the Attorney General.

Your Committees received testimony in support of this measure from the Crime Victim Compensation Commission, Department of the Prosecuting Attorney of the City and County of Honolulu, Department of the Prosecuting Attorney of the County of Maui, and one individual. Your Committees received testimony in opposition to this measure from the Office of the Public Defender. Your Committees received comments on this measure from the Department of the Attorney General.

Your Committees find that many victims of crimes in the State have no effective means to collect restitution even if the offender has the ability to make restitution payments. Court-ordered restitution payments are difficult to recover if an offender chooses not to cooperate with the payment order. This measure will authorize courts to order income withholding for the payment of restitution orders.

Your Committees note the testimony of the Department of the Attorney General that implementation of this measure will necessitate the Department to hire two additional staff and require at least \$180,000 in appropriations.

Your Committees have amended this measure by:

- (1) Changing the required time for the Department of the Attorney General to disburse withheld funds to the victim after receipt of the funds from the employer from five business days to ten business days; and
- (2) Inserting an effective date of July 1, 2050, to encourage further discussion.

As affirmed by the records of votes of the members of your Committees on Judiciary and Labor that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2177, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2177, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Judiciary: Ayes, 4. Noes, none. Excused, 1 (Gabbard).

Labor: Ayes, 3. Noes, none. Excused, 2 (Chang, English).

SCRep. 2128 Judiciary on S.B. No. 2666

The purpose and intent of this measure is to codify the State's commitment to conservation and sustainability by including goal five, gender equality, of the seventeen United Nations Sustainable Development Goals and indicators, with references to existing state sustainability programs, if applicable, in the Hawaii Revised Statutes.

Your Committee received testimony in support of this measure from the Department of Education, Department of Human Services, Office of Planning, Airport Concessionaires Committee, Oahu Economic Development Board, Oahu County Legislative Priorities Committee of the Democratic Party of Hawaii, and one individual.

Your Committee finds that Hawaii has been a leader in conservation efforts for decades, through its commitment to environmental and sustainability policies, and that the priority of the Senate for the Regular Session of 2018 is to adopt the United Nation's Sustainable Development Goals at the state level. The seventeen Sustainable Development Goals are a universal call to action to end

poverty, protect the planet, and ensure that all people enjoy peace and prosperity. This measure codifies Sustainable Development Goal five, gender equality, into state law.

Your Committee has amended this measure by:

- (1) Codifying the Sustainable Development Goal in chapter 226, Hawaii Revised Statutes, instead of chapter 344, Hawaii Revised Statutes;
- (2) Inserting an effective date of July 1, 2035, to encourage further discussion; and
- (3) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2666, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2666, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Kim).

SCRep. 2129 Judiciary on S.B. No. 2671

The purpose and intent of this measure is to codify the State's commitment to conservation and sustainability by including goal ten, reducing inequalities, of the seventeen United Nations Sustainable Development Goals and indicators, with references to existing state sustainability programs, if applicable, in the Hawaii Revised Statutes.

Your Committee received testimony in support of this measure from the Department of Human Services, Office of Planning, Airport Concessionaires Committee, Oahu Economic Development Board, and Oahu County Legislative Priorities Committee of the Democratic Party of Hawaii.

Your Committee finds that Hawaii has been a leader in conservation efforts for decades, through its commitment to environmental and sustainability policies, and that the priority of the Senate for the Regular Session of 2018 is to adopt the United Nation's Sustainable Development Goals at the state level. The seventeen Sustainable Development Goals are a universal call to action to end poverty, protect the planet, and ensure that all people enjoy peace and prosperity. This measure codifies Sustainable Development Goal ten, reducing inequalities, into state law.

Your Committee has amended this measure by:

- (1) Codifying the Sustainable Development Goal in chapter 226, Hawaii Revised Statutes, instead of chapter 344, Hawaii Revised Statutes;
- (2) Inserting an effective date of July 1, 2035, to encourage further discussion; and
- (3) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2671, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2671, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Kim).

SCRep. 2130 Judiciary on S.B. No. 2677

The purpose and intent of this measure is to codify the State's commitment to conservation and sustainability by including goal sixteen; peace, justice, and strong institutions, of the seventeen United Nations Sustainable Development Goals and indicators, with references to existing state sustainability programs, if applicable, in the Hawaii Revised Statutes.

Your Committee received testimony in support of this measure from the Department of Human Services, Office of Planning, Airport Concessionaires Committee, Oahu Economic Development Board, and Oahu County Legislative Priorities Committee of the Democratic Party of Hawaii.

Your Committee finds that Hawaii has been a leader in conservation efforts for decades, through its commitment to environmental and sustainability policies, and that the priority of the Senate for the Regular Session of 2018 is to adopt the United Nation's Sustainable Development Goals at the state level. The seventeen Sustainable Development Goals are a universal call to action to end poverty, protect the planet, and ensure that all people enjoy peace and prosperity. This measure codifies Sustainable Development Goal sixteen; peace, justice, and strong institutions, into state law.

Your Committee has amended this measure by:

- (1) Codifying the Sustainable Development Goal in chapter 226, Hawaii Revised Statutes, instead of chapter 344, Hawaii Revised Statutes;
- (2) Inserting an effective date of July 1, 2035, to encourage further discussion; and
- (3) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2677, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2677, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Kim).

SCRep. 2131 Judiciary on S.B. No. 2908

The purpose and intent of this measure is to:

- (1) Appropriate monies to the Hawaii Internet Crimes Against Children Task Force; and
- (2) Require the Task Force to submit a report to the Legislature.

Your Committee received testimony in support of this measure from the Department of the Attorney General, Department of the Prosecuting Attorney of the County of Maui, Oahu County Committee on Legislative Priorities of the Democratic Party of Hawaii, and one individual.

Your Committee finds that the Internet Crimes Against Children Task Force Program is a national network of sixty-one coordinated task forces representing over 4,500 federal, state, and local law enforcement and prosecutorial agencies. The Program was developed in response to the increasing number of children and teenagers using the Internet and other technologies, the proliferation of child sexual abuse images available electronically, and heightened online activity by predators seeking unsupervised contact with potential underage victims. The Internet Crimes Against Children Task Force in Hawaii is funded by a combination of federal grant monies and appropriations from the state Legislature.

Your Committee further finds that the Internet Crimes Against Children Task Force would benefit from an increased appropriation from the Legislature, but the exact needs of the Task Force and the way that the Task Force would use the appropriated monies is unclear.

Your Committee has amended this measure by:

- (1) Changing the amount of the appropriation to a blank amount;
- (2) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2908, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2908, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Gabbard).

SCRep. 2132 (Joint) Agriculture and Environment and Higher Education on S.B. No. 2894

The purpose and intent of this measure is to require the Department of Agriculture, in coordination with the Agribusiness Development Corporation and University of Hawaii College of Tropical Agriculture and Human Resources, to conduct crop performance testing trials on state agricultural lands of Hawaii's most highly imported food crops.

Your Committees received testimony in support of this measure from the Department of Agriculture; Agribusiness Development Corporation; University of Hawaii System Government Relations Office; Ulupono Initiative; Hawaii'i Farm Bureau; Ho'omanapono Political Action Committee; Ka Ohana O Na Pua; Oahu County Committee on Legislative Priorities of the Democratic Party of Hawaii; Hawaii Cattlemen's Council, Inc.; and two individuals.

Your Committees find that the Office of Planning, in cooperation with the Department of Agriculture, issued a report in October 2012, entitled "Increased Food Security and Food Self-Sufficiency Strategy: A State Strategic/Functional Plan Prepared in Accordance with HRS Chapter 226 Hawaii State Plan and the Hawaii Comprehensive Economic Development Strategy". The executive summary of the report states in pertinent part, "The purpose of the Increased Food Security and Food Self-Sufficiency Strategy (Strategy) is to increase the amount of locally grown food consumed by Hawaii residents. This will increase food self-sufficiency which is a component of food security. The Strategy is a living document intended as a first step toward continued dialog and implementation." Your Committees further find that an important step to increasing local food production is to identify crops currently imported that may be grown in Hawaii instead. Accordingly, this measure is that next step toward increasing local food production in the State.

Your Committees have amended this measure by:

- (1) Extending the deadline for the Department of Agriculture to submit its report on its crop performance testing trials from twenty days prior to the convening of the Regular Session of 2019 to twenty days prior to the convening of the Regular Session of 2020; and
- (2) Providing that the appropriation shall not lapse until June 30, 2020.

As affirmed by the records of votes of the members of your Committees on Agriculture and Environment and Higher Education that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2894, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2894, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
Agriculture and Environment: Ayes, 4. Noes, none. Excused, 1 (Nishihara).
Higher Education: Ayes, 5. Noes, none. Excused, none.

SCRep. 2133 (Joint) Agriculture and Environment and Higher Education on S.B. No. 2124

The purpose and intent of this measure is to appropriate funds to the Hawaii Ant Lab of the Pacific Cooperative Studies Unit of the University of Hawaii, to support mitigation of the little fire ant.

Your Committees received testimony in support of this measure from the Department of Land and Natural Resources; Department of Agriculture; Office of the Mayor of the County of Hawaii, Coordinating Group on Alien Pest Species; Hawai'i Farm Bureau; Ka Ohana O Na Pua; Donkey Mill Art Center; O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i; Hawaii Cattlemen's Council, Inc.; and nine individuals.

Your Committees find that the little fire ant, *Wasmannia auropunctata*, threatens native biodiversity, alters tropical ecosystems, impairs human health, impedes tourism, diminishes agricultural productivity, mars horticultural sales, and accordingly ranks among the world's worst invasive species. Within the State, the County of Hawaii has been affected most by the little fire ant. Your Committees therefore support all efforts to mitigate and eradicate the little fire ant, especially in the West Hawaii region.

As affirmed by the records of votes of the members of your Committees on Agriculture and Environment and Higher Education that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2124 and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Agriculture and Environment: Ayes, 4. Noes, none. Excused, 1 (Nishihara).

Higher Education: Ayes, 5. Noes, none. Excused, none.

SCRep. 2134 (Joint) Agriculture and Environment and Labor on S.B. No. 2563

The purpose and intent of this measure is to appropriate funds for the operations of the K-12 agriculture workforce development pipeline initiative.

Your Committees received testimony in support of this measure from the Department of Education; Department of Labor and Industrial Relations; Department of Agriculture; Councilmember Yuki Lei Sugimura of the Maui County Council; Waipahu Intermediate School FFA; Hawaii State Teachers Association; Land Use Research Foundation of Hawaii; Hawai'i Farm Bureau; Hawaii Coffee Association; Maui County Farm Bureau; O'ahu County Legislative Priorities Committee of the Democratic Party of Hawai'i; Hawaii Association of Future Farmers of America; Hawaii Crop Improvement Association; Hawaii Cattlemen's Council, Inc.; and thirty-four individuals.

Your Committees find that Act 229, Session Laws of Hawaii 2016, implemented the recommendation of the Hawaii Agriculture Workforce Advisory Board to establish the K-12 agriculture workforce development pipeline initiative to conduct training on all islands for teachers and school administrators in agricultural self-sufficiency. Your Committees also find that financial support for the initiative is in the best interest of the State as it promotes the expansion and development of the State's agricultural workforce and industry.

Your Committees recommend that in addition to focusing on K-12 students, the Agriculture Advisory Board also examine the immediate issues preventing adult individuals from entering the agricultural workforce.

As affirmed by the records of votes of the members of your Committees on Agriculture and Environment and Labor that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2563 and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Agriculture and Environment: Ayes, 5. Noes, none. Excused, none.

Labor: Ayes, 3. Noes, none. Excused, 2 (English, Taniguchi).

SCRep. 2135 Transportation and Energy on S.B. No. 2122

The purpose and intent of this measure is to clarify the existing exemption for public metered parking that is enjoyed by electric vehicles users and creating an electric vehicle exemption specifically for non-metered parking at state airports under the jurisdiction of the Department of Transportation.

Your Committee received testimony in support of this measure from the Department of Transportation. Your Committee received testimony in opposition to this measure from one individual.

Your Committee finds that Hawaii is committed to reducing the dependence on fossil fuels, and that encouraging the purchase and use of electric vehicles via incentives will help Hawaii achieve this goal. Your Committee further finds that although the twenty-four-hour parking fee exemption for electric vehicles at state airports will reduce overall parking fee revenues, your Committee believes that this measure strikes an appropriate balance between incentive and equity.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Transportation and Energy that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2122, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2122, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (English, Shimabukuro).

SCRep. 2136 Transportation and Energy on S.B. No. 2255

The purpose and intent of this measure is to authorize the issuance of general obligation bonds for the planning, design, and construction of the Central Maui Transit Hub in response to the County of Maui Department of Transportation's lease at its existing hub expiring in 2020.

Your Committee received testimony in support of this measure from County of Maui Department of Transportation, Mayor's Office of the County of Maui, and Maui County Council. Your Committee received comments on this measure from the Hawaii Housing Finance and Development Corporation.

Your Committee finds that maintaining the "hub and spoke" nature of the Maui public transportation system requires the construction of a new hub close to the existing hub with easy access. The new hub is located near senior rental units, low income rentals, offices, shops, restaurants, medical facilities, and the library. Your Committee emphasizes how important the central Maui transit hub project is to Maui's public transportation system, and that moving forward with this project ensures citizens are able to maintain vital connections.

As affirmed by the record of votes of the members of your Committee on Transportation and Energy that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2255 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (English, Shimabukuro).

SCRep. 2137 Transportation and Energy on S.B. No. 2245

The purpose and intent of this measure is to authorize the issuance of general obligation bonds for the design, plans, material, construction, and equipment for an extension of the Lahaina Bypass in order to alleviate traffic congestion and safety concerns in West Maui.

Your Committee received testimony in support of this measure from the Department of Transportation, Maui County Council, and one individual.

Your Committee finds that the Lahaina Bypass is necessary in the Department of Transportation's Long-Range Plan to meet the future regional transportation needs for West Maui. The Lahaina Bypass will support the economic viability of West Maui and alleviate the traffic experienced by residents and visitors. Phase 1B-2 is currently under construction, and this measure will fund Phase 1C of the proposed Lahaina Bypass.

As affirmed by the record of votes of the members of your Committee on Transportation and Energy that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2245 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (English, Shimabukuro).

SCRep. 2138 Transportation and Energy on S.B. No. 2100

The purpose and intent of this measure is to:

- (1) Amend the current renewable energy technology system tax credit by changing the language to focus on solar and wind energy properties, including energy storage properties in the tax credit, and phasing out the percentage of the solar energy property and energy storage property costs that can be used as a tax credit; and
- (2) Establish within the Department of Transportation a demonstration project for building energy efficiency designs that assist the State in reaching net zero emissions.

Your Committee received testimony in support of this measure from the Department of Transportation, Ulupono Initiative, and one individual. Your Committee received testimony in opposition to this measure from The Alliance for Solar Choice and Hawaii Solar Energy Association. Your Committee received comments on this measure from the Department of Taxation; Department of Business, Economic Development, and Tourism; Tax Foundation of Hawaii; Kauai Island Utility Cooperative; Distributed Energy Resource Council of Hawaii; and Tesla.

Your Committee finds that this measure as currently written would have a negative impact on the renewable energy construction industry. As raised in testimony, changing the credit to apply to properties limits the amount of credits taxpayers can receive, as commercial projects often place multiple systems on a single property, and the timing on how the credits are phased out could lead to an unforeseen increase in costs for projects.

Your Committee also finds that there is currently another measure being proposed that establishes a demonstration project for building energy efficiency designs.

Your Committee has amended this measure by:

- (1) Reinstating the "systems" language, as opposed to amending the credit to apply to "properties";
- (2) Extending the date that the credits start decreasing from January 1, 2022, to January 1, 2024;
- (3) Allowing solar energy systems that have executed a customer contract prior to June 30, 2018, to receive a credit equal to thirty-five per cent of the basis, up to a cap, as long as the property is installed and first placed in service by December 31, 2019;

- (4) Deleting part II which would have established a demonstration project for building energy efficient designs; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Transportation and Energy that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2100, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2100, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (English, Shimabukuro).

SCRep. 2139 Transportation and Energy on S.B. No. 2528

The purpose and intent of this measure is to authorize the issuance of limited purpose driver's license, limited purpose provisional driver's license, or limited purpose instruction permits to applicants who voluntarily choose not to obtain a state civil identification card that is REAL ID-compliant.

Your Committee received testimony in support of this measure from the Department of Transportation, Hawaii Civil Rights Commission, and Filipina Advocacy Network.

Your Committee finds that this measure addresses the need for Hawaii's law to match the Department of Homeland Security's Final Rule that allows for only one REAL ID-compliant credential, whether a driver's license or state civil identification card.

As affirmed by the record of votes of the members of your Committee on Transportation and Energy that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2528 and recommends that it pass Second Reading and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (English, Shimabukuro).

SCRep. 2140 Transportation and Energy on S.B. No. 2101

The purpose and intent of this measure is to expand the renewable energy technology tax credit to include a tax credit for ocean thermal energy conversion systems that are constructed for the purpose of research and development.

Your Committee received testimony in support of this measure from the Oahu County Committee on Legislative Priorities, Ulupono Initiative, and one individual. Your Committee received comments on this measure from the Department of Taxation, Natural Energy Laboratory of Hawaii Authority, and Tax Foundation of Hawaii.

Your Committee finds that ocean thermal energy conversion systems are a source of renewable energy, producing electricity using the temperature difference between deep cold water and warm tropical surface waters. Providing a tax credit for these systems will encourage the use of renewable energy systems and help Hawaii reach its renewable energy goals.

However, your Committee finds that this measure, as written, can create issues due to the ambiguity of some language. Interpreting what constitutes an ocean thermal energy conversion "system" can lead to taxpayers attempting to find loopholes, to receive more tax credits than are allowable.

Your Committee has amended this measure by:

- (1) Changing references of "system" to "facility" in the context of ocean thermal energy conversion technologies; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Transportation and Energy that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2101, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2101, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (English, Shimabukuro).

SCRep. 2141 Water and Land on S.B. No. 2672

The purpose and intent of this measure is to codify the State's commitment to conservation and sustainability by including goal eleven, sustainable cities and communities, of the seventeen United Nations Sustainable Development Goals and indicators, with references to existing state sustainability programs, if applicable, in the Hawaii Revised Statutes.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources, Department of Human Services, Department of Agriculture, Office of Planning, Environmental Caucus of the Democratic Party of Hawai'i, Hawaiian Civic Club of Honolulu, Airport Concessionaires Committee, Oahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, The Nature Conservancy, Hawaii Institute for Human Rights, and one individual. Your Committee received testimony in opposition to this measure from one individual. Your Committee received comments on this measure from the Office of Environmental Quality Control of the Department of Health.

Your Committee finds that Hawai'i has been a leader in conservation efforts for decades, through its commitment to environmental and sustainability policies, and that a priority of the Senate for the Regular Session of 2018 is to adopt the United Nations' Sustainable Development Goals at the state level. The seventeen Sustainable Development Goals are a universal call to action to end poverty, protect the planet, and ensure that all people enjoy peace and prosperity. This measure codifies Sustainable Development Goal eleven, sustainable cities and communities, into state law.

Your Committee has amended this measure by:

- (1) Adopting the language suggested by the Office of Planning that changes the placement of Sustainable Development Goal eleven from chapter 344, Hawaii Revised Statutes, relating to state environmental policy, to chapter 226, Hawaii Revised Statutes, relating to the Hawaii State Planning Act; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2672, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2672, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Inouye).

SCRep. 2142 Water and Land on S.B. No. 2675

The purpose and intent of this measure is to codify the State's commitment to conservation and sustainability by including goal fourteen, life below water, of the seventeen United Nations Sustainable Development Goals and indicators, with references to existing state sustainability programs, if applicable, in the Hawaii Revised Statutes.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources, Department of Agriculture, Office of Planning, Environmental Caucus of the Democratic Party of Hawai'i, Hawaiian Civic Club of Honolulu, Hui O Ho'ohonua, Sierra Club of Hawaii, Oahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, The Nature Conservancy, Hawaii Institute for Human Rights, and three individuals. Your Committee received testimony in opposition to this measure from one individual. Your Committee received comments on this measure from the Office of Environmental Control of the Department of Health and Hawaii Seafood Council.

Your Committee finds that Hawai'i has been a leader in conservation efforts for decades, through its commitment to environmental and sustainability policies, and that a priority of the Senate for the Regular Session of 2018 is to adopt the United Nations' Sustainable Development Goals at the state level. The seventeen Sustainable Development Goals are a universal call to action to end poverty, protect the planet, and ensure that all people enjoy peace and prosperity. This measure codifies Sustainable Development Goal fourteen, life below water, into state law.

Your Committee has amended this measure by:

- (1) Adopting the language suggested by the Office of Planning that changes the placement of Sustainable Development Goal fourteen from chapter 344, Hawaii Revised Statutes, relating to state environmental policy, to chapter 226, Hawaii Revised Statutes, relating to the Hawaii State Planning Act; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2675, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2675, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Inouye).

SCRep. 2143 Water and Land on S.B. No. 2676

The purpose and intent of this measure is to codify the State's commitment to conservation and sustainability by including goal fifteen, life on land, of the seventeen United Nations Sustainable Development Goals and indicators, with references to existing state sustainability programs, if applicable, in the Hawaii Revised Statutes.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources, Department of Agriculture, Office of Planning, Environmental Caucus of the Democratic Party of Hawai'i, Hawaiian Civic Club of Honolulu, Oahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, Sierra Club of Hawaii, The Nature Conservancy, Hawaii Institute for Human Rights, and two individuals. Your Committee received testimony in opposition to this measure from one individual. Your Committee received comments on this measure from the Office of Environmental Quality Control of the Department of Health and Hawai'i Farm Bureau.

Your Committee finds that Hawai'i has been a leader in conservation efforts for decades, through its commitment to environmental and sustainability policies, and that a priority of the Senate for the Regular Session of 2018 is to adopt the United Nations' Sustainable Development Goals at the state level. The seventeen Sustainable Development Goals are a universal call to action to end poverty, protect the planet, and ensure that all people enjoy peace and prosperity. This measure codifies Sustainable Development Goal fifteen, life on land, into state law.

Your Committee has amended this measure by:

- (1) Adopting the language suggested by the Office of Planning that changes the placement of Sustainable Development Goal fifteen from chapter 344, Hawaii Revised Statutes, relating to state environmental policy, to chapter 226, Hawaii Revised Statutes, relating to the Hawaii State Planning Act; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2676, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2676, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Inouye).

SCRep. 2144 Water and Land on S.B. No. 2331

The purpose and intent of this measure is to appropriate funds to the Department of Land and Natural Resources to improve Nā Ala Hele, the Hawaii statewide trail and access program, by improving access to and maintaining state controlled recreational trails statewide and promoting hiker safety and hiker etiquette education and outreach.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources, Hawaiian Civic Club of Honolulu, Sierra Club of Hawai'i, and three individuals. Your Committee received comments on this measure from the Department of Budget and Finance.

Your Committee finds that the Department of Land and Natural Resources has a statewide inventory of one hundred twenty-eight trail-and-road features spanning approximately eight hundred fifty-five miles and keeping up with the rising demand for trail use remains a constant challenge for the Department. Heavy use and limited operational capacity have curbed the level of maintenance on trail features. This measure provides additional funds to manage these trails to keep pace with the growing demand for trail use and ensure public safety.

Your Committee further finds that along with the popularity of wilderness hiking has come a growing number of mountain rescues occurring each year. Various internet adventure websites have promoted wrong or misleading information that places hikers in danger, leading to uninformed hikers getting injured while on the trails, or hiking on trails that are unmaintained or prohibited. This measure promotes hiker safety education to decrease the number of rescues.

Lastly, your Committee finds that the popularity of hiking has also resulted in the need for hiker etiquette education and outreach. For example, some trails that are located in residential neighborhoods have gained immense popularity and have resulted in a dramatic increase in complaints regarding naive or disrespectful trail users. As a result, some frustrated neighborhood residents have proposed the closure of some trail heads to prevent the nuisance that certain hikers have caused. By appropriating funds for hiker etiquette education and outreach, this measure helps to ensure that trails are kept open for use.

Your Committee has amended this measure by:

- (1) Inserting an appropriation amount of \$1,800,000 in general revenue for fiscal year 2018-2019 to be expended by the Department of Land and Natural Resources to improve Nā Ala Hele, the Hawaii statewide trail and access program;
- (2) Deleting language that would have delayed funds necessary to improve Nā Ala Hele from being included in the base budget of the Department of Land and Natural Resources until the beginning of the 2019-2020 fiscal year; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2331, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2331, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Inouye).

SCRep. 2145 Water and Land on S.B. No. 2561

The purpose and intent of this measure is to make an appropriation to the Department of Land and Natural Resources for the operational expenses and staffing costs of the Hawaii Association of Conservation Districts.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources; Department of Agriculture; Maui County Councilmember Yuki Lei Sugimura; Hawaiian Civic Club of Honolulu; Pūlama Lāna'i; Hawaii Aquaculture & Aquaponics Association; Hawaii Cattlemen's Council, Inc.; Hawaii Association of Conservation Districts; Hawaii Crop Improvement Association; Maui County Farm Bureau; Local Food Coalition; Hawaii Coffee Association; Hawai'i Farm Bureau; and forty individuals.

Your Committee finds that the Hawaii Association of Conservation Districts is composed of sixteen districts representing every community on all major islands of Hawaii. Existing law authorizes the Soil and Water Conservation Districts to operate as government subdivisions to educate the public and construct and maintain conservation projects and programs in Hawaii. Soil and Water Conservation Districts have worked to improve Hawaii's environment and economy through collaborative efforts with partners and government agencies that have brought millions of dollars to Hawaii to improve farm practices, reduce erosion, improve ocean and drinking water quality, fight invasive species, improve public safety, protect property, conserve water, and strengthen the economy. The Soil and Water Conservation Districts also provide educational and community support for conservation awareness. The Districts participate in resource conservation and development projects and statewide high school programs and also introduce conservation principles in elementary schools. However, the Soil and Water Conservation Districts do not have a base budget appropriation under the Department of Land and Natural Resources' budget. Therefore, this measure provides the necessary funding for the Soil and Water Conservation Districts to continue their important activities.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2561, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2561, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Inouye).

SCRep. 2146 Water and Land on H.B. No. 1270

The purpose and intent of this measure is to:

- (1) Require the Board of Land and Natural Resources to enter into negotiations to acquire the property identified as Tax Map Key: (3) 6-8-001:030 Kamuela, Hawaii, pursuant to its statutory authority and in consultation with the Senate President and Speaker of the House of Representatives, to acquire land having value as a resource to the State; and
- (2) Appropriate funds from the land conservation fund to purchase the property from Hanano Nursery, Inc.

Your Committee received testimony in support of this measure from the Department of Agriculture, Oahu County Committee Legislative Priorities Committee of the Democratic Party of Hawaii, and Ho'omanapono Political Action Committee. Your Committee received testimony in opposition to this measure from one individual. Your Committee received comments on this measure from the Department of Land and Natural Resources.

Your Committee finds that the property identified as Tax Map Key: (3) 6-8-001:030 Kamuela, Hawaii, is approximately ten acres in size and located in a prime agricultural region. While its primary use appears to be nursery-related, the property may be used for diversified agriculture. According to the Department of Land and Natural Resources, if acquired, the property will be used for the expansion of nursery facilities with priority given to the development and growing of disease-resistant 'Ōhi'a. Furthermore, the Department prefers to share the property with the Department of Agriculture to enable the Department of Agriculture to use a substantial portion of the property as a host site for relocating its agricultural facilities. This measure will enable the Department of Land and Natural Resources to acquire this prime property.

Your Committee notes that the Department of Land and Natural Resources requests a funding source other than the land conservation fund be used for the acquisition of the property. Furthermore, the Department testified that this type of land acquisition is not suitable for legacy lands because the property will be used for operational, non-legacy land purposes.

Accordingly, your Committee has amended this measure by:

- (1) Removing language that directs the Board of Land and Natural Resources to acquire property pursuant to its statutory authority and in consultation with the Senate President and Speaker of the House of Representatives, to acquire land having value as a resource to the State under section 173A-4, Hawaii Revised Statutes, and inserting language that requires the Board to acquire the property at a purchase price that does not exceed the appraised value of the property as appraised by the Department of Land and Natural Resources;
- (2) Removing the appropriation from the land conservation fund to purchase the property and inserting language that authorizes the Director of Finance to issue general obligation bonds for the purchase of the property;
- (3) Adding an appropriation for the Board of Land and Natural Resources to engage in negotiations and conduct due diligence of the property;
- (4) Adding language that directs all unencumbered monies from the general obligation bond appropriations for the purchase of the property to lapse as of June 30, 2020; and
- (5) Changing the effective date from July 1, 2050, to July 1, 2018.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1270, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1270, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Gabbard, Inouye).

SCRep. 2147 (Joint) Higher Education and Hawaiian Affairs on S.B. No. 2320

The purpose and intent of this measure is to:

- (1) Establish an undergraduate health sciences academy to be administered by the University of Hawai'i West O'ahu to increase recruitment and retention of Native Hawaiian, Pacific Islander, and first generation college students;
- (2) Require the University of Hawai'i West O'ahu to submit a report every two years to the Legislature regarding educational outcomes; and
- (3) Appropriate funds for permanent faculty and staff positions at the undergraduate health sciences academy.

Your Committees received testimony in support of this measure from the Department of Human Services, University of Hawai'i System, Department of Health, Native Hawaiian Health Coalition, Hawai'i Public Health Institute, Papa Ola Lokahi, WCRC, Hawaiian Affairs Caucus – Democratic Party of Hawaii, Oahu County Legislative Priorities Committee of the Democratic Party of Hawai'i, Kamehameha Schools, and numerous concerned individuals.

Your Committees find that current data suggests that Native Hawaiians are less likely to attend college in comparison to other ethnic groups due to low levels of preparation and inadequate finances. For Native Hawaiian students who attend college, graduation and retention rates are significantly lower than the general student population.

Your Committees further find that multiple studies testing for factors leading to retention have identified that the more involved Native Hawaiian students are in school activities and the more interaction they have with faculty and their peers, the more likely they are to persevere in their higher education. The development of a health sciences academy, with a focus on Native Hawaiian student retention, would target integration of the student and their family in school activities, as well as serve as a model for other underrepresented groups.

Your Committees have amended this measure by:

- (1) Deleting the reference to “early college” in the title of the new section added to part IV, subpart M, of chapter 304A, Hawaii Revised Statutes;
- (2) Specifying that the appropriated funds shall be for the permanent faculty and staff positions at the undergraduate health sciences academy to be administered by the University of Hawai‘i West Oahu and John A. Burns School of Medicine; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Higher Education and Hawaiian Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2320, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2320, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Higher Education: Ayes, 4. Noes, none. Excused, 1 (Kim).

Hawaiian Affairs: Ayes, 4. Noes, none. Excused, 1 (Green).

SCRep. 2148 (Joint) Higher Education and Agriculture and Environment on S.B. No. 2075

The purpose and intent of this measure is to appropriate funds for three full-time equivalent (3.0 FTE) positions and operating expenses of the sustainable and organic agriculture program administered by the University of Hawai‘i College of Tropical Agriculture and Human Resources.

Your Committees received testimony in support of this measure from the University of Hawai‘i System; Department of Agriculture; Oahu County Legislative Priorities Committee of the Democratic Party of Hawai‘i; We Are One, Inc.; Kokua Hawaii Foundation; Polanui Hiu CMMA; Maui Hemp Institute; Kakalina Farms; A‘a Li‘i Farm; Civic Education Council; Kulahaven Farms, LLC; Maui Farmers Union United; Farm Lovers Farmers Markets; Hawaii Farmers Union United; Maui County Farm Tours; Beyond Organic Consulting, Inc.; Hawai‘i Farm Bureau; Ka Ohana O Na Pua; HFUU; and numerous concerned individuals.

Your Committees find that the sustainable and organic agriculture program administered by the University of Hawai‘i College of Tropical Agriculture and Human Resources is a part of the world’s largest nontraditional education system - the cooperative extension system. Across Hawai‘i, farmers are experimenting with different ways of producing agricultural products in ways that are sustainable and beneficial to the social, economic, and environmental well-being of farm families and the rural communities in which they live. However, without adequate funding and staff, the sustainable and organic agriculture program is unable to fully meet its goals of increasing farm income, promoting environmental stewardship, and promoting stable and prosperous farm families and communities. Therefore, it is essential that the State support sustainable agricultural practices to ensure Hawai‘i’s diversified agricultural industry.

As affirmed by the records of votes of the members of your Committees on Higher Education and Agriculture and Environment that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2075 and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Higher Education: Ayes, 5. Noes, none. Excused, none.

Agriculture and Environment: Ayes, 4. Noes, none. Excused, 1 (Nishihara).

SCRep. 2149 Commerce, Consumer Protection, and Health on S.B. No. 2494

The purpose and intent of this measure is to:

- (1) Update the requirements for apprenticeship and licensure of elevator mechanics, including examination, license renewal, continuing education, scope of work, remote interaction, and qualifications for licensure; and
- (2) Clarify the powers and duties of the Elevator Mechanics Licensing Board and requirements for temporary permits.

Your Committee received testimony in support of this measure from the International Union of Elevator Constructors, Local Union No. 126. Your Committee received testimony in opposition to this measure from Access Lifts of Hawaii, Inc. Your Committee received comments on this measure from the Elevator Mechanics Licensing Board.

Your Committee finds that in recent years, technology affecting the elevator industry has advanced exponentially. Elevator mechanics must demonstrate and exhibit continued competence in their craft to keep pace with these innovations, including staying current with the latest codes and newest technology affecting the industry. However, because the law governing the licensure of elevator mechanics has not been updated in over ten years, the existing requirements for licensure as an elevator mechanic do not coincide with the standards and levels of technology that are currently being introduced and installed. This measure therefore strengthens the State’s elevator mechanics licensing law by adding and clarifying certain requirements for licensure, including continuing education, scope of work, remote interaction, and qualifications.

Your Committee has heard the concerns raised in testimony that employees of certain small businesses in Hawai‘i’s elevator mechanic industry work solely on a specific set of conveyances, such as Americans with Disabilities Act platform lifts or stairway lifts, and do not perform work on commercial elevators, escalators, or similar conveyances. This measure would require these employees to be fully licensed as elevator mechanics, even though they do not install, service, or repair any sort of commercial conveyance. Amendments to this measure are therefore needed to address these concerns, as well as other concerns raised by the Elevator Mechanics Licensing Board.

Accordingly, your Committee has amended this measure by:

- (1) Clarifying the examination requirements for applicants for licensure as an elevator mechanic;
- (2) Clarifying the licensure renewal and continuing education requirements for licensed elevator mechanics;

- (3) Authorizing the Elevator Mechanics Licensing Board to conduct random audits to determine licensee compliance with the continuing education requirements;
- (4) Clarifying elevator mechanics' scope of work;
- (5) Clarifying the exemptions from licensure as an elevator mechanic, including those who install, repair, or remove a platform lift or stairway lift within a private residence not accessible to the general public or other occupants in the building;
- (6) Clarifying the definitions of "remote interaction" and "apprentice elevator mechanic";
- (7) Clarifying the minimum qualifications for licensure as an elevator mechanic;
- (8) Clarifying the temporary permit requirements applicable to apprentice elevator mechanics;
- (9) Specifying that the license renewal, continuing education, and qualifications for licensure requirements shall take effect on July 1, 2020; and
- (10) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2494, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2494, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 2 (Nishihara, Tokuda).

SCRep. 2150 Commerce, Consumer Protection, and Health on S.B. No. 2493

The purpose and intent of this measure is to delay the implementation of the producer licensing requirements amended by Act 152, Session Laws of Hawaii 2017, until July 1, 2021.

Your Committee received testimony in support of this measure from the Hawaii Insurers Council and National Association of Insurance and Financial Advisors – Hawaii. Your Committee received comments on this measure from the Department of Commerce and Consumer Affairs.

Your Committee finds that, among other things, Act 152, Session Laws of Hawaii 2017 (Act 152), conforms the State's producer licensing requirements to the National Association of Insurance Commissioners' Producer Licensing Model Act by eliminating producer-to-producer appointments. Although Hawaii is the only state in the country with producer-to-producer appointments, the repeal of this appointment process is a major change in the way insurance agents, also known as producers, are and have been contracted, as it means that every producer contract must be re-executed between a producer and an insurance company. According to testimony received by your Committee, for most active producers, this may not present an issue, but for producers who are not active, insurance companies will have to pursue them to execute a new contract. This measure delays the implementation requirements for producer licensing required by Act 152, which will provide insurance companies with ample time to initiate the new producer appointments. However, your Committee notes that during discussions before your Committee, interested industry stakeholders indicated a revised effective date for these requirements was acceptable.

Accordingly, your Committee has amended this measure by:

- (1) Delaying the implementation of the producer licensing requirements until January 1, 2020, rather than July 1, 2021; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2493, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2493, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 2 (Nishihara, Tokuda).

SCRep. 2151 Commerce, Consumer Protection, and Health on S.B. No. 2354

The purpose and intent of this measure is to require barber, beauty operator, and instructor licensees under the Board of Barbering and Cosmetology to complete a one-time, three-hour training program on intimate partner violence awareness and education.

Your Committee received testimony in support of this measure from the Office of the Prosecuting Attorney, County of Hawai'i; Commission on the Status of Women; Advocacy Committee, YWCA O'ahu; Planned Parenthood Votes Northwest and Hawaii; YWCA O'ahu; American Association of University Women - Hawai'i; Domestic Violence Action Center; Hawaii State Coalition Against Domestic Violence; Women's Caucus of the Democratic Party of Hawai'i; and eight individuals. Your Committee received testimony in opposition to this measure from one individual. Your Committee received comments on this measure from the Board of Barbering and Cosmetology.

Your Committee finds that intimate partner violence is prevalent in every community and affects people regardless of age, socioeconomic status, sexual orientation, gender, race, religion, or nationality. Professionals in the grooming and beauty industry may have a unique opportunity to notice signs of abuse in their clients. These professionals often enjoy close relationships with their clients, which can put a grooming or beauty professional in the position to provide advice, resource information, and assistance.

The Hawaii State Coalition Against Domestic Violence indicated in testimony before your Committee that the Coalition met with the members of the Board of Barbering and Cosmetology and came to an agreement that the Coalition would provide a one-hour training and overview, either in person or via webinar, with an offer to the Board's licensees and applicants for additional training if a licensee or applicant is interested. This training will equip barbering and cosmetology licensees and applicants with a basic knowledge about intimate partner violence and provide them with resources to offer their clients. According to the Coalition, the expectation is not for these licensees and applicants to become advocates or experts in domestic violence. Rather, the one-hour training and overview merely gives these individuals information about what to watch out for, the general dynamics of intimate partner violence, and where resources on this subject can be found.

Accordingly, your Committee has amended this measure by clarifying that barber, beauty operator, and instructor licensees under the Board of Barbering and Cosmetology are required to complete a one-time, one-hour, rather than three-hour, training program on intimate partner violence.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2354, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2354, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 2 (Nishihara, Tokuda).

SCRep. 2152 Commerce, Consumer Protection, and Health on S.B. No. 2511

The purpose and intent of this measure is to appropriate funds for and establish two full-time equivalent positions within the Department of Health's Office of Language Access to allow the Office of Language Access to fully perform its statutory duties.

Your Committee received testimony in support of this measure from the Hawaii State Judiciary Legislative Coordinating Office; Department of Health Office of Language Access; State Health Planning and Development Agency; Volunteer Legal Services Hawaii; Hawaii TESOL; Hawaii Friends of Civil Rights; Filipino Chamber of Commerce of Hawaii; Filipino American Citizens League; The Filipino Community Center, Inc.; Filipina Advocacy Network; Filipinos for Affirmative Action; Ho'omanapono Political Action Committee; Tinalak Filipino Education Council; and seven individuals.

Your Committee finds that the Office of Language Access provides state agencies with technical assistance including needs assessment, help with language access plans, training, work with translators and interpreters, and data collection. Your Committee further finds that the Office of Language Access is underfunded and understaffed to the point of being unable to complete its statutory duties. Consequently, many state agencies have been unable to fully implement their language access plans, denying meaningful access to individuals limited in English proficiency. Your Committee further finds that approximately twelve percent of Hawaii residents speak English "less than very well". Your Committee finds that the funds appropriated and positions created by this measure will allow the Office of Language Access to provide a full level of support to state agencies, fulfill its statutory duties, and provide genuine access to state services to many of Hawaii's residents.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2511, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2511, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 2 (Nishihara, Tokuda).

SCRep. 2153 (Joint) Judiciary and Commerce, Consumer Protection, and Health on S.B. No. 2890

The purpose and intent of this measure is to:

- (1) Amend the general excise tax law by adding a definition for "marketplace provider"; and
- (2) Provide that a person with no physical presence in the State shall be considered to be engaged in business in the State if, in any year, the person has gross receipts attributable to transactions in the State totaling \$100,000 or more.

Your Committees received testimony in support of this measure from the Retail Merchants of Hawaii, thirteen local business owners, and one individual. Your Committees received comments on this measure from the Department of the Attorney General, Department of Taxation, Tax Foundation of Hawaii, and Chamber of Commerce Hawaii.

Your Committees find that internet-based businesses located outside of Hawaii that sell goods and services to persons located in the State are frequently exempt from the general excise tax. This puts local businesses at a significant competitive disadvantage and harms the economy of the State. This measure will ensure that internet-based businesses who generate sufficient income from the business of Hawaii's residents are taxed on that income by the State.

Your Committees have heard testimony expressing concerns that this measure is ambiguous as to whether it applies only to the internet-based seller of goods and services or to the third-party "marketplace provider" as well as the seller. Your Committees find that this issue raises concerns that merit further consideration and requests that your Committee on Ways and Means further examine this concern raised by the testifiers on this measure.

Your Committees have amended this measure by:

- (1) Providing that a person shall be considered to be engaged in business in the State if the person has gross receipts attributable to transactions in the State totaling \$100,000 or more in the current or immediately preceding calendar year instead of any year; and
- (2) Inserting an effective date of July 1, 2035, to encourage further discussion.

As affirmed by the records of votes of the members of your Committees on Judiciary and Commerce, Consumer Protection, and Health that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2890, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2890, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Judiciary: Ayes, 4. Noes, none. Excused, 1 (Thielen).

Commerce, Consumer Protection, and Health: Ayes, 4. Noes, none. Excused, 3 (Ihara, Ruderman, Tokuda).

SCRep. 2154 Transportation and Energy on S.B. No. 2996

The purpose and intent of this measure is to establish within the Department of Transportation for administrative purposes, a separate Hawaii Airports Corporation that is responsible for managing and operating the State's airports and aeronautical facilities, and is managed by a chief executive officer and board of directors.

Your Committee received testimony in support of this measure from the Office of the Governor, Department of Transportation, Hawaii Tourism Authority, Maui County Council, Hawaii Lodging and Tourism Association, Kohala Coast Resort Association, Waikiki Improvement Association, Enterprise Holdings, Airport Concessionaires Committee, Kona-Kohala Chamber of Commerce, Building Industry Association of Hawaii, Hawaiian Airlines, Airlines Committee of Hawaii, Maui Hotel and Lodging Association, Chamber of Commerce Hawaii, Fairmont Orchid, Hawaii Business Roundtable, American Council of Engineering Companies, Pulama Lanai, Waikiki Resort Hotel, and twenty-two individuals. Your Committee received testimony in opposition to this measure from the Office of Hawaiian Affairs; American Institute of Architects; United Public Workers, Local 646, AFL-CIO; Hawaii Section American Society of Civil Engineers; and two individuals. Your Committee received comments on this measure from the Department of the Attorney General; State of Hawaii Procurement Office; Subcontractors Association of Hawaii; Painting Industry of Hawaii Labor Management Cooperation Trust Fund; Hawaii Tapers Market Recovery Trust Fund; Hawaii Glaziers, Architectural Metal Glassworkers Local Union 1889; AFL-CIO Stabilization Trust Fund; Carpet, Linoleum and Soft Tile Local Union 1926 Market Recovery Trust Fund; and one individual.

Your Committee finds that the airports have long suffered from having its responsibilities divided up among multiple departments and agencies which sometimes have conflicting goals and priorities. Your Committee believes that a separate Airports Corporation, managed by a chief executive officer and a board of directors, will be better suited to operate the airports and will follow what other states are doing with their airports. Your Committee notes that this transition will be done without the use of taxpayer dollars.

However, your Committee notes that there are concerns with this measure as currently written, including:

- (1) The fiduciary obligations of the State in ensuring ceded lands are productive and maximizing the benefits for Native Hawaiian and public beneficiaries;
- (2) The procurement process the Airports Corporation will have in place and whether the process will encourage competition and prevent irregularities, favoritism, collusion, and fraud; and
- (3) Whether the Airports Corporation can satisfy its responsibilities with regard to bonds, certificates, and obligations.

Your Committee has amended this measure by:

- (1) Adding language to require that in an invitation for bid, the Hawaii Airports Corporation shall require all bids to identify any joint contractor or subcontractor and the nature and scope of work to be performed; provided that bids that do not meet this requirement may still be accepted if certain criteria are met;
- (2) Including language requiring the Hawaii Airports Corporation to provide an annual accounting of all receipts from land described in section 5(f) of the Admission Act and clarifying that lands to which the Hawaii Airports Corporation holds title are "public lands" under chapter 171, Hawaii Revised Statutes, for that purpose;
- (3) Clarifying that the Hawaii Airports Corporation is authorized to enter into financing agreements described in chapter 37D, Hawaii Revised Statutes;
- (4) Upon the recommendation of the Department of the Attorney General, inserting language as recommended from the bond counsel, to assure that certain obligations are met with regard to certain Department of Transportation revenue bonds, special facility revenue bonds, and certificates of participation, as well as adding language to clarify that certain obligations of the Department of Transportation remain enforceable against the Department of Transportation until the Hawaii Airports Corporation has assumed the operations and assets necessary to satisfy those obligations;
- (5) Clarifying that monies in the passenger facility charge special fund and rental motor vehicle customer facility charge special fund may also be held outside of the state treasury;
- (6) Upon the recommendation of the Department of the Attorney General, adding language to recognize that the Hawaii Airports Corporation's operating and capital improvement budgets, as well as the source of bond funding, may come from multiple means or sources;
- (7) Upon the recommendation of the Department of the Attorney, deleting duplicative language in section 16 relating civil service positions as almost identical language is found in section 20; and

(8) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Transportation and Energy that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2996, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2996, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4; Ayes with Reservations (Harimoto). Noes, none. Excused, 1 (English).

SCRep. 2155 Transportation and Energy on S.B. No. 2529

The purpose and intent of this measure is to provide protections to bicyclists by requiring vehicles that are overtaking a bicycle proceeding in the same direction to allow at least a three-foot separation between the vehicle and the bicyclist.

Your Committee received testimony in support of this measure from the Department of Transportation, Honolulu Police Department, Hawaii Bicycling League, Maui Bicycling League, Peoples Advocacy for Trails Hawaii, Hawaii Cycling Club, Blue Zones Project, American Diabetes Association, Hawaii Strategic Highway Safety Plan, Sustainable Transportation Coalition of Hawaii, and eighty-one individuals.

Your Committee finds that bicycling is a healthy activity and alternative to commuting by vehicle and prevents exposure of harmful greenhouse gas emissions to the environment. In order to encourage individuals to bike, providing ample protections to bicyclists is of utmost importance. Requiring drivers to provide a defined space between the driver's vehicle and a bicyclist when the vehicle is overtaking the bicyclist is one step in ensuring bicyclists are safe when they bike on the side of the road.

As affirmed by the record of votes of the members of your Committee on Transportation and Energy that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2529 and recommends that it pass Second Reading and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 2156 Transportation and Energy on S.B. No. 80

The purpose and intent of this measure is to amend the law relating to transportation.

Prior to the hearing on this measure, your Committee posted and made available for public review a proposed S.D. 1, which amends this measure by deleting its contents and replacing it with an emergency appropriation to relocate the "I Heart Radio" aerial so that it will not obstruct the navigable airspace above and around the Daniel K. Inouye International Airport.

Your Committee has amended this measure by adopting the proposed S.D. 1.

As affirmed by the record of votes of the members of your Committee on Transportation and Energy that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 80, as amended herein, and recommends that it be recommitted to your Committee on Transportation, in the form attached hereto as S.B. No. 80, S.D. 1, for further consideration.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Espero).

SCRep. 2157 Judiciary on S.B. No. 2582

The purpose and intent of this measure is to add certain cases of negligent homicide to the felonies that may be subject to an extended term of imprisonment.

Your Committee received testimony in support of this measure from the Department of Transportation; United Public Workers, AFSCME, Local 646, AFL-CIO; Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO; Mothers Against Drunk Driving Hawaii; Hawaii Regional Council of Carpenters; and forty-six individuals.

Your Committee finds that Hawaii is above the national average for persons who report driving after drinking too much, as well as the rate of deaths for all ages due to crashes involving a drunk driver. There has also recently been an increase in fatal automotive crashes in which the driver has failed to render aid after the crash. Such circumstances result in additional extreme distress for family and friends of the victim of the offender's criminal conduct. This measure will provide for extended terms of imprisonment as a deterrent to driving while under the influence and failing to render aid in the event of a collision.

Your Committee has amended this measure by inserting an effective date of July 1, 2035, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2582, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2582, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 2158 Judiciary on S.B. No. 2344

The purpose and intent of this measure is to automatically impose a restraining order upon parties filing for annulment, divorce, or separation to preserve the financial assets of the parties and their dependents.

Your Committee received testimony in support of this measure from Maui County Councilmember Yuki Lei Sugimura. Your Committee received testimony in opposition to this measure from the Domestic Violence Action Center and one individual.

Your Committee finds that family court congestion can be reduced by providing for orders that automatically take effect when parties file for annulment, divorce, or separation. Automatically imposed restraining orders to preserve the financial assets of parties and their dependents will help to create a more level playing field for unrepresented parties, parties who are unfamiliar with the court system and unaware of their legal rights and obligations, and parties who have a significant disparity in finances and resources. Your Committee has heard testimony expressing diverse concerns with this measure, and encourages further discussion and consensus among stakeholders as this measure proceeds through the legislative process.

Your Committee has amended this measure by inserting an effective date of July 1, 2035, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2344, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2344, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Kim).

SCRep. 2159 (Joint) Labor and Economic Development, Tourism, and Technology on S.B. No. 2397

The purpose and intent of this measure is to establish a temporary telecommuting task force to develop incentives and recommendations to encourage and expand telecommuting opportunities in the public and private sectors.

Your Committees received comments on this measure from the Department of Human Resources Development. Your Committees received comments on this measure from the Legislative Reference Bureau and Common Cause Hawaii.

Your Committees find that the dependence of workers on automobiles for the daily commute to work increases traffic-related congestion on Hawaii's roadways, reduces hours in which employees may be productive on the job, causes employees to spend time commuting rather than with family, and results in the people of Hawaii becoming more dependent on foreign fossil fuel sources, which results in increased carbon emissions. Your Committees also find that telecommuting provides an opportunity for employers to increase employee productivity, decrease use of employee sick leave, increase the labor pool, and improve employee retention; therefore, your Committees find that Hawaii should promote efforts to adopt telecommuting as a workplace alternative.

Your Committees have amended this measure by:

- (1) Requiring the telecommuting task force to submit a draft report to the Legislative Reference Bureau no later than June 30, 2019, to ensure that the Bureau has sufficient time to complete its work on the final report without adversely impacting its ability to provide core services to the Legislature;
- (2) Deleting language that exempted the telecommuting task force from chapter 92, Hawaii Revised Statutes, relating to public agency meetings and records; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Labor and Economic Development, Tourism, and Technology that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2397, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2397, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chairs on behalf of the Committees.
Labor: Ayes, 4. Noes, none. Excused, 1 (English).
Economic Development, Tourism, and Technology: Ayes, 5. Noes, none. Excused, none.

SCRep. 2160 Judiciary on S.B. No. 2145

The purpose and intent of this measure is to amend the deadlines for filing nomination papers, nominations, and notification to the chief election officer with respect to a vacancy in the State Senate.

Your Committee received testimony in support of this measure from the Office of Elections. Your Committee received testimony in opposition to this measure from Ho'omana Pono, LLC.

Your Committee finds that the change of date in the primary election that occurred in 2010 resulted in a situation in which candidates for office would not be able to withdraw their nomination and instead file a nomination paper to fill a vacancy in the State Senate if such a vacancy occurs after the close of candidate filing. This measure will allow candidates for office in such situations timely notice to consider or withdraw nomination papers and file a nomination paper for the Senate vacancy should they choose to do so.

Your Committee has amended this measure by:

- (1) Inserting an effective date of July 1, 2035, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2145, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2145, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Kim).

SCRep. 2161 Judiciary on S.B. No. 2180

The purpose and intent of this measure is to clarify the definition of an included offense to expressly include offenses charged via felony complaint.

Your Committee received testimony in support of this measure from the Department of the Prosecuting Attorney of the City and County of Honolulu and Department of the Prosecuting Attorney of the County of Maui.

Your Committee finds that as a matter of law, all felony cases can be initiated for prosecution via felony complaint or indictment and, in specific types of felony charges, cases can be initiated via information. The method of initiating a case is frequently chosen based on the specific facts of the individual case. Your Committee further finds that “lesser included offenses” are crimes in which the lesser offense contains all the elements of a greater offense with the caveat that the greater offense contains one or more additional elements to be proven beyond a reasonable doubt. Under existing Hawaii law, a defendant may be convicted of a lesser included offense in felony cases initiated through indictment or information, but not through felony complaint. This measure will increase consistency in felony case prosecution by authorizing judges and juries to consider lesser included offenses in cases initiated through felony complaint.

Your Committee has amended this measure by:

- (1) Inserting an effective date of July 1, 2035, to encourage further discussion;
- (2) Inserting a savings clause to clarify that the effect of this measure is for prospective offenses; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2180, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2180, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Kim).

SCRep. 2162 Judiciary on S.B. No. 2691

The purpose and intent of this measure is to allow boards to file a copy of the notice of public meetings with the Office of the Lieutenant Governor or appropriate county clerk’s office via electronic mail.

Your Committee received testimony in support of this measure from the Department of Taxation, Hawaii Public Housing Authority, Hawaii Technology Development Corporation, Natural Energy Laboratory of Hawaii Authority, and Common Cause Hawaii. Your Committee received comments on this measure from the Office of Information Practices.

Your Committee finds that email is a common form of communication that is expedient and efficient and is widely used by public agencies and boards throughout the State. Allowing boards to provide required notice of public meetings via email will increase efficiency by reducing administrative costs.

Your Committee has heard testimony expressing concerns that the Lieutenant Governor’s office has no publicly verifiable system or timestamp to notify the public when it has received electronic notice of public meetings.

Your Committee has amended this measure by:

- (1) Replacing “filed with” and “filed” with “provided to” and “provided” where those terms appear in the new statutory language for consistency; and
- (2) Inserting an effective date of July 1, 2035, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2691, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2691, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Gabbard).

SCRep. 2163 Judiciary on S.B. No. 2745

The purpose and intent of this measure is to amend the definition of “confidential personal information” in section 708-800, Hawaii Revised Statutes, to eliminate unconstitutionally vague provisions in the law as determined by the Supreme Court of the State of Hawaii in *State v. Pacquing*, 139 Haw. 302, 389 P.3d 897 (2016).

Your Committee received testimony in support of this measure from the Department of the Attorney General and Department of the Prosecuting Attorney of the City and County of Honolulu.

Your Committee finds that the Court in *State v. Pacquing*, held that certain provisions in the definition of “confidential personal information” are unconstitutionally vague. This measure will amend the definition of “confidential personal information” to eliminate those vague provisions.

Your Committee has heard the testimony of the Department of the Attorney General and the Department of the Prosecuting Attorney of the City and County of Honolulu expressing concern that this measure does not adequately protect personal information in which a person has a significant privacy interest. Your Committee further finds that S.B. No. 2178 contains amendments to the definition of “confidential personal information” that specifically identify types of information in which a person has a significant privacy interest, including usernames and passwords that provide access to protected information, as falling within the definition of “confidential

personal information". The language of S.B. No. 2178 is therefore preferable because it addresses the unconstitutionally vague provisions identified by the Supreme Court of the State of Hawaii while providing superior protection for information in which a person has a significant privacy interest.

Your Committee has amended this measure by:

- (1) Deleting its contents and inserting the contents of S.B. No. 2178, a substantively similar measure, which amends the definition of "confidential personal information" in section 708-800, Hawaii Revised Statutes, to eliminate unconstitutionally vague provisions in the law as determined by the Supreme Court of the State of Hawaii in *State v. Pacquing*, 139 Haw. 302, 389 P.3d 897 (2016); and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2745, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2745, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Gabbard).

SCRep. 2164 (Joint) Ways and Means and Economic Development, Tourism, and Technology on S.B. No. 2963

The purpose and intent of this measure is to strengthen county enforcement of laws and ordinances relating to transient accommodations.

More specifically, this measure:

- (1) Provides that each county shall be eligible to receive \$1,000,000 from the State for the purpose of enforcing all applicable laws and ordinances relating to transient accommodations; provided that no funds shall be released to a county until it has satisfactorily complied with certain conditions; and
- (2) Appropriates funds from transient accommodations revenues to fund the initiative described in paragraph (1).

Your Committees received testimony in support of this measure from the Chair of the Kauai County Council; a member of the Hawaii County Council; the County of Hawaii Planning Department; American Association of University Women, Hawaii; Hawaiian Civic Club of Honolulu; and seven individuals.

Your Committees received testimony in opposition to this measure from Choice Capital Management, LLC; the Coalition for Equal Taxation; Pedro Point Surf Club; Rental by Owner Awareness Association; and ninety individuals.

Your Committees received comments on this measure from the Tax Foundation of Hawaii.

For purposes of a public hearing, your Committees circulated a proposed S.D. 1 (Proposed Draft) of the measure and notified the public that your Committees would be accepting testimony on the Proposed Draft that amends the measure by deleting the existing provisions and replaces its contents with provisions to improve the monitoring, enforcement, and collection of the transient accommodations tax and general excise tax, and compliance with state and county land use laws.

More specifically, the Proposed Draft:

- (1) Establishes a one-time amnesty program for certain delinquent transient accommodations and general excise tax obligations;
- (2) Allows transient accommodations brokers to register as tax collection agents on behalf of their operators and plan managers;
- (3) Requires registered tax collection agents to inquire with their operators and plan managers whether the respective transient accommodation is in compliance with all state and county land use and tax laws;
- (4) Requires an operator or plan manager to provide verification of compliance with state and county land use laws;
- (5) Requires an operator or plan manager to remove a transient accommodation advertisement upon notice that the property is not in compliance with state law or county ordinance;
- (6) Makes it unlawful, and a class C felony, for transient accommodations brokers to engage in business with operators or plan managers that are not in compliance with all state laws and county ordinances;
- (7) Provides that a violation of a county zoning ordinance adopted under section 46-4, Hawaii Revised Statutes, may constitute a class C felony;
- (8) Authorizes counties to disgorge profits obtained through unfair or unlawful business practices;
- (9) Authorizes counties to adopt ordinances to amortize or phase out transient vacation rental units;
- (10) Imposes a civil fine ranging from \$25,000 to \$100,000 on operators or plan managers who fail to remove an advertisement for a transient accommodation after receiving notice that the subject property is not in compliance with state law or county ordinance;
- (11) Requires the counties to adopt ordinances prohibiting transient accommodations brokers from engaging in business with operators or plan managers who are not in compliance with all state laws and county ordinances; provided that violation of these ordinances shall constitute a class C felony;
- (12) Requires the Director of Taxation to make available a form for transient accommodations brokers to apply for registration as a tax collection agent by January 1, 2019;

- (13) Allocates an unspecified percentage of general excise tax and transient accommodations tax revenues to the counties, contingent upon establishment of a process to provide verification of compliance by an operator or plan manager with county land use laws; and
- (14) Makes it unlawful for a hosting platform to collect a fee for booking services regarding transient vacation rentals that are not lawfully certified, registered, or permitted under applicable county ordinance.

Your Committees received testimony in support of the Proposed Draft from the Office of the Governor; Department of Business, Economic Development, and Tourism; Department of Commerce and Consumer Affairs; Department of Taxation; Office of Hawaiian Affairs; the Mayor of the City and County of Honolulu; Department of Planning and Permitting of the City and County of Honolulu; two members of the Hawaii County Council; a member of the Kauai County Council; County of Kauai Office of the Prosecuting Attorney; County of Kauai Planning Department; a member of the Maui County Council; Aina Haina Community Association; American Hotel and Lodging Association; Hawaii Lodging and Tourism Association; Hilton Hawaii; Marriott Resorts Hawaii; Maui Hotel and Lodging Association; UNITE HERE Local 5; Vistana Signature Experiences; Waikiki Resort Hotel; and forty-six individuals.

Your Committees received testimony in opposition to the Proposed Draft from Expedia, Inc.; Hawaii Association of REALTORS; Hawaii Vacation Rental Owners Association; and ten individuals.

Your Committees received comments on the Proposed Draft from the Hawaii Tourism Authority; Airbnb; Hawaii Association of REALTORS; Kobayashi, Sugita, and Goda, on behalf of Airbnb; and the Tax Foundation of Hawaii.

The Proposed Draft of this measure is intended to ensure that the business of transient accommodations in the State of Hawaii meets certain requirements, both at the county and statewide levels, without preempting the counties' land use ordinance, zoning, and enforcement authority.

Your Committees acknowledge that, under the federal Communications Decency Act, no provider of an interactive computer service shall be treated as the publisher or speaker of information provided by another and no liability may be imposed under state law that is inconsistent with this prohibition. Your Committees believe the Proposed Draft places liability on the hosting platforms and operators or plan managers for their own conduct.

Your Committees also acknowledge that, under the federal Stored Communications Act, a governmental entity may not compel a person who is deemed to be a service that provides users the ability to send or receive wire or electronic communications and/or that provides to the public computer storage or processing services by means of an electronic communications system to provide stored wire or electronic communications and records in the absence of a subpoena, warrant, court order, or authorized consent. Therefore, the Proposed Draft provides that transient accommodations brokers obtain the prior written consent of their operators and plan managers to disclose all information required in chapters 237 and 237D, Hawaii Revised Statutes.

This measure is not intended to violate any federal laws.

The Departments of Business, Economic Development, and Tourism, Budget and Finance, and Taxation have provided your Committees with a conservative estimate of revenues that could be raised and project that measures similar to the Proposed Draft of this measure could raise a total of \$67,300,000 annually.

Your Committees have amended this measure by adopting the Proposed Draft and further amending the Proposed Draft by:

- (1) Clarifying that the tax amnesty program is only available to taxpayers who are subject to both the transient accommodations tax and the general excise tax;
- (2) Deleting requirements that the Director of Taxation adopt rules under chapter 91, Hawaii Revised Statutes, to administer the tax amnesty program;
- (3) Requiring transient accommodations brokers who wish to register as tax collection agents to agree in writing that continuing to collect fees for booking services in connection with a transient vacation rental, seven days after receiving written notice from a state or county governmental authority that the subject property is not in compliance with state law or county ordinance, would constitute a violation of their tax collection agreement;
- (4) Reducing the violation of the statute prohibiting transient accommodations brokers from engaging in business with operators or plan managers that are not in compliance with all state laws and county ordinances from a class C felony to a misdemeanor with a minimum fine of \$25,000;
- (5) Replacing the provision making the violation of a county zoning ordinance a class C felony with a provision imposing a minimum civil penalty of \$25,000 for violation of a county transient accommodations ordinance;
- (6) Amending the penalty for operators or plan managers who fail to remove an advertisement for a noncompliant transient accommodation to a minimum \$25,000 fine;
- (7) Amending the provisions that require the counties to adopt ordinances to prohibit transient accommodations brokers from engaging in business with operators or plan managers who are not in compliance with all state laws and county ordinances by removing the requirement that the penalty for violating such an ordinance be a class C felony;
- (8) Deleting the date by which the Director of Taxation must make a form available for transient accommodations brokers to apply for registration as a tax collection agent;
- (9) Changing the allocation to the counties from an unspecified percentage of general excise tax and transient accommodations tax revenues to a maximum of \$1,000,000 in transient accommodations tax revenues per county for implementation or enforcement of county land use ordinances;

- (10) Clarifying that violation of the statute prohibiting a hosting platform from collecting a fee for booking services regarding transient vacation rentals that are not lawfully certified, registered, or permitted under applicable county ordinance shall be a misdemeanor subject to a minimum fine of \$25,000; and
- (11) Making technical nonsubstantive amendments for the purposes of consistency, clarity, and style.

As affirmed by the records of votes of the members of your Committees on Ways and Means and Economic Development, Tourism, and Technology that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2963, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2963, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chairs on behalf of the Committees.

Ways and Means: Ayes, 10. Noes, none. Excused, 1 (Inouye).

Economic Development, Tourism, and Technology: Ayes, 5. Noes, none. Excused, none.

SCRep. 2165 Public Safety, Intergovernmental, and Military Affairs on S.B. No. 2436

The purpose and intent of this measure is to shorten the time period for voluntary surrender of firearms and ammunition upon disqualification from ownership, possession, or control from thirty days to an unspecified number of hours.

Your Committee received testimony in support of this measure from the Office of the Mayor, County of Hawai'i; Everytown for Gun Safety; Moms Demand Action; Parents and Children Together; Project Kealahou; and ten individuals. Your Committee received testimony in opposition to this measure from the National Rifle Association Hawaii, ASSE, Hawaii Sportsmen's Alliance, and forty-six individuals.

Your Committee finds that removing firearms from those who are prohibited from having them is of utmost importance to protect the public. Existing law allows individuals who are disqualified from ownership, possession, or control of firearms and ammunition to keep those firearms and ammunition up to thirty days before voluntarily surrendering them. Your Committee finds that this lengthy time period creates a significant risk to the public and should be shortened so that firearms and ammunition are quickly removed from those individuals who are not to be possessing them.

Your Committee has amended this measure by changing the unspecified time period for voluntary surrender of firearms and ammunition upon disqualification from ownership, possession, or control to twenty-four hours.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2436, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2436, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 2166 Public Safety, Intergovernmental, and Military Affairs on S.B. No. 2290

The purpose and intent of this measure is to prohibit state and county law enforcement agencies from complying with federal immigration detainers or honoring requests for non-public information unless specifically required to do so by a warrant signed by a judge or federal, state, or local law.

Your Committee received testimony in support of this measure from the Filipina Advocacy Network, Hawaii J-20+, ACLU People Power, Planned Parenthood Votes Northwest and Hawaii, Libertarian Party of Hawaii, Hawai'i Coalition for Immigration Reform, and twelve individuals. Your Committee received testimony in opposition to this measure from the Maui Police Department; Department of the Prosecuting Attorney, County of Maui; and twenty-five individuals. Your Committee received comments on this measure from the Department of the Attorney General.

Your Committee finds that Hawaii has a rich heritage of diversity that should be celebrated and protected. Recent changes in immigration policy at the federal level have created uncertainty for many immigrants, particularly undocumented immigrants. Your Committee finds the changing policies of the federal government unfortunate, given that many of the undocumented immigrants who are now targets for penalty or deportation have no history of criminal or disruptive behavior. Indeed, the overwhelming majority of these undocumented immigrants are quality individuals who make great contributions to our rich society. In addition, the recent actions and decisions by the federal government toward immigrants have brought to light the additional time and resources that local law enforcement often devote when complying with federal requests related to immigrant detention. Your Committee finds that local communities would be better served if that additional time and resources were directed at more serious problems affecting our State. Accordingly, this measure prohibits state and local law enforcement agencies from complying with federal immigration detainers or honoring requests for non-public information unless specifically required to do so by law or warrant.

However, your Committee notes the concerns raised by the Department of the Attorney General relating to the lack of exceptions for law enforcement to provide United States Immigrations and Customs Enforcement with access to interview an individual for purposes of enforcement of immigration law and the requirement that law enforcement agencies provide a copy of a United States Immigrations and Customs Enforcement detainer, transfer, notification, interview, or interrogation request to the detained individual named in the request. Your Committee recommends that your Committee on Judiciary investigate this issue further if it decides to hear this measure.

Your Committee also acknowledges the concerns raised in testimony concerning the constitutionality of complying with a detainer request that is not accompanied by a judicial warrant and finds that those provisions that might invite a constitutional challenge should be removed.

Your Committee has amended this measure by:

- (1) Removing the following exceptions to the prohibition against honoring detainer requests:
 - (A) The individual has been convicted of any misdemeanor specified in section 706-606.5(5), Hawaii Revised Statutes (HRS), within the prior five years;
 - (B) The individual has been arrested for a felony and a judge has made a finding of probable cause pursuant to section 805-7, HRS;
 - (C) There is probable cause to believe that the individual has illegally re-entered the United States after a previous removal or return as defined by title 8 United States Code section 1326(b)(2); or
 - (D) The individual is currently registered as a covered offender under chapter 846E, HRS;
- (2) Inserting an effective date of January 1, 2050, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2290, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2290, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 2167 Public Safety, Intergovernmental, and Military Affairs on S.B. No. 2347

The purpose and intent of this measure is to specify that citizen complaints against a police officer that involve allegations of domestic violence against a family or household member by the police officer shall not be required to be filed as notarized or sworn to by the complainant.

Your Committee received testimony in support of this measure from three individuals. Your Committee received testimony in opposition to this measure from the Department of the Prosecuting Attorney, County of Maui; and two individuals.

Your Committee finds that curtailing domestic violence is important for the health, safety, and welfare of citizens and that a vital part of reducing domestic violence is ensuring that those reporting acts of domestic violence feel secure and confident in coming forward with complaints. The potential for chilling the voices of those wishing to report acts of domestic violence is particularly high when those reports complain of acts of domestic violence perpetrated by a police officer against a family or household member. Accordingly, this measure allows an individual to make a complaint against a police officer alleging an act of domestic violence against a family or household member without being required to swear to or make the complaint in writing.

Your Committee has amended this measure by:

- (1) Inserting an effective date of January 1, 2050, to encourage further discussion; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2347, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2347, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 2168 Public Safety, Intergovernmental, and Military Affairs on S.B. No. 2858

The purpose and intent of this measure is to:

- (1) Require the Department of Public Safety to establish key performance indicators for the inmate reentry system;
- (2) Require reports, using key performance indicators, to be provided to the Legislature; and
- (3) Create the annual corrections and program report as a consolidated report of other annual reports.

Your Committee received testimony in support of this measure from Young Progressives Demanding Action, Life of the Land, Community Alliance on Prisons, ACLU of Hawaii, and two individuals. Your Committee received comments on this measure from the Department of Public Safety.

Your Committee finds that effective rehabilitation of incarcerated persons is essential for operating an effective corrections system. To that end, the Legislature passed Act 8, Special Session Laws of Hawaii 2007, also known as the Community Safety Act, which established a comprehensive offender reentry system under the purview of the Department of Public Safety. Part of that Act required that the Department submit annual reports relating to the implementation, progress, and effectiveness of the various program components specified in the Act. However, the annual reports submitted by the Department are not required to include information relating to rehabilitation program outcomes. This measure ensures the effectiveness of and makes improvements to the Department's rehabilitation and reentry programs by requiring tracking of specific performance indicators. In addition, this measure streamlines the Department's submission of various statutorily required reports by requiring the Department to consolidate into one report other reports specified by statute.

Further, your Committee finds that the Department of Public Safety should begin addressing the many issues relating to pretrial detainees. To that end, your Committee finds that in its report, the Department should also relate information to the Legislature about key performance indicators relating to pretrial detainees.

Your Committee has amended this measure by:

- (1) Amending the key performance indicators that are required to be included in the Department of Public Safety's annual report to the Legislature; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2858, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2858, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2169 Public Safety, Intergovernmental, and Military Affairs on S.B. No. 2861

The purpose and intent of this measure is to:

- (1) Require the Department of Public Safety to establish performance indicators or measures to be incorporated in reports that evaluate the outcomes of program components as required in Act 8, Special Session Laws of Hawaii 2007, the Community Safety Act; and
- (2) Require the Department of Public Safety to submit quarterly reports to the Legislature of the established performance indicators, criminal offender treatment programs, and programs established pursuant to the Community Safety Act.

Your Committee received testimony in support of this measure from Young Progressives Demanding Action, Life of the Land, Community Alliance on Prisons, ACLU of Hawaii, Hawaii Justice Coalition, and two individuals. Your Committee received comments on this measure from the Department of Public Safety.

Your Committee finds that effective rehabilitation of incarcerated persons is essential for operating an effective corrections system. To that end, the Legislature passed Act 8, Special Session Laws of Hawaii 2007, also known as the Community Safety Act, which established a comprehensive offender reentry system under the purview of the Department of Public Safety. Part of that Act required that the Department submit annual reports relating to the implementation, progress, and effectiveness of the various program components specified in the Act. However, the annual reports submitted by the Department are not required to include information relating to rehabilitation program outcomes. This measure ensures the effectiveness of and makes improvements to the Department's rehabilitation and reentry programs by requiring the tracking of specific performance indicators and evaluation of data relating to participation in the programs. Moreover, your Committee finds that the reports submitted by the Department would be more easily understood and the comparative analysis would be more complete if the reports were submitted to the Legislature on a semi-annual, rather than quarterly, basis.

Further, your Committee finds that the Department of Public Safety should begin addressing the many issues relating to pretrial detainees. To that end, your Committee finds that in its report, the Department should also relay information to the Legislature about key performance indicators relating to pretrial detainees.

Your Committee has amended this measure by:

- (1) Adding key performance indicators relating to pretrial detainees; and
- (2) Changing the reporting requirements from quarterly to semi-annually to be submitted by the first day of June and first day of December each year.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2861, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2861, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2170 Public Safety, Intergovernmental, and Military Affairs on S.B. No. 2962

The purpose and intent of this measure is to prohibit a court, when dividing property upon the dissolution of a marriage, from considering military disability benefits or from indemnifying or awarding the veteran's spouse or former spouse for waivers or reductions in military pay related to disability benefits.

Your Committee did not receive any testimony on this matter.

Your Committee finds that it is essential to protect the interests of the State's veterans. Under existing law, veterans' disability benefits are placed at risk in cases of divorce. To ensure the protection and continued well-being of our veterans, it is necessary to protect those benefits from being subject to disposition of property during divorce.

However, your Committee has concerns about the breadth of this measure and its potential impacts on the spouses or former spouses of veterans. Your Committee recommends that if your Committee on Judiciary decides to hear this measure, that your Committee on

Judiciary investigate efficacy of prohibiting the courts from considering other types of military retirement benefits in cases of disposition of property pursuant to divorce.

Your Committee has amended this measure by:

- (1) Removing the prohibition on indemnification of or awarding of any other income or property to the veteran's spouse or former spouse for waivers or reductions in military pay related to disability benefits;
- (2) Inserting an effective date of January 1, 2050, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2962, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2962, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 4; Ayes with Reservations (Ihara, Thielen). Noes, none. Excused, 1 (Baker).

SCRep. 2171 (Joint) Public Safety, Intergovernmental, and Military Affairs and Housing on S.B. No. 2758

The purpose and intent of this measure is to establish forty-five day approval deadlines for affordable housing projects seeking district boundary amendments for land areas of fifteen acres or less under the jurisdiction of the counties, as well as forty-five day approval deadlines for the Hawaii Community Development Authority.

Your Committees received testimony in support of this measure from the Office of the Governor; Department of Business, Economic Development, and Tourism; Hawaii Housing Finance and Development Corporation; County of Hawai'i Planning Department; Hawaii Community Development Authority; Building Industry Association Hawaii; Chamber of Commerce Hawaii; Drug Policy Forum of Hawaii.

Your Committees find that the State's need for more affordable housing is an immediate and ever-growing concern that must be addressed. Of the approximately 64,700 housing units that are forecast to be needed between 2015 and 2025, nearly eighty-nine percent, or about 57,500 units, will be needed by those classified as lower income groups. Given the overwhelming need for affordable housing, your Committees find that it is essential that satisfactory affordable housing projects be approved in a timely manner. Consequently, your Committees find that establishing a forty-five day approval process for affordable housing projects seeking district boundary amendments for land areas of fifteen acres or less within the jurisdiction of the counties could expedite governmental approvals, save time and money, and encourage timely affordable housing development.

Your Committees have amended this measure by:

- (1) Removing language that would have made the Hawaii Community Development Authority subject to the proposed expedited time limit for approvals;
- (2) Changing the effective date to July 1, 2050, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Public Safety, Intergovernmental, and Military Affairs and Housing that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2758, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2758, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Public Safety, Intergovernmental, and Military Affairs: Ayes, 4; Ayes with Reservations (Ihara). Noes, none. Excused, 1 (Wakai).

Housing: Ayes, 3. Noes, none. Excused, 2 (Green, Kahele).

SCRep. 2172 (Joint) Public Safety, Intergovernmental, and Military Affairs and Commerce, Consumer Protection, and Health on S.B. No. 2817

The purpose and intent of this measure is to authorize crime victim compensation for mental health services for survivors in cases involving a death and for children who witness domestic violence.

Your Committees received testimony in support of this measure from the Office of the Prosecuting Attorney, County of Kaua'i; Crime Victim Compensation Commission; Domestic Violence Action Center; Hawaii Psychological Association; Pacific Behavioral Health; The Sex Abuse Treatment Center; and four individuals.

Your Committees find that caring for those affected by violent crimes and domestic abuse is essential to maintaining public health, safety, and welfare. Existing law allows for the payment of compensation to certain classes of individuals impacted by certain violent deaths. Your Committees find that this type of compensation for affected individuals is important, helpful, and necessary and should be extended to those surviving relatives of a deceased victim who require mental health services in the wake of such a traumatic, life-altering event. In addition, your Committees find that the same type of compensation afforded those affected by violent deaths should also be extended to cases involving child witnesses to abuse of a family or household member where mental health services are required by the child witness.

As affirmed by the records of votes of the members of your Committees on Public Safety, Intergovernmental, and Military Affairs and Commerce, Consumer Protection, and Health that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2817 and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Public Safety, Intergovernmental, and Military Affairs: Ayes, 5. Noes, none. Excused, none.

Commerce, Consumer Protection, and Health: Ayes, 6. Noes, none. Excused, 1 (Tokuda).

SCRep. 2173 Public Safety, Intergovernmental, and Military Affairs on S.B. No. 2777

The purpose and intent of this measure is to allow the Department of Defense to recoup operating costs when the department allows for temporary facility use to the public.

Your Committee did not receive any testimony on this measure.

Your Committee finds that it is important that the Department of Defense serve and be an integral part of the community. Your Committee further finds that the leasing out of Department of Defense facilities, in accordance with Hawaii Revised Statutes and Department of Defense requirements, on a non-interference basis, for temporary public use and rental by organizations such as civic and veterans groups, and non-profit entities within the community provides a valuable service to the public. However, the Department of Defense is currently losing money when it rents out its facilities because, under existing statutes, all monies received from these rentals are to be deposited into the general fund of the State, with required amounts returned to the Office of Hawaiian Affairs. This results in the Department of Defense being forced to utilize operating funds to cover the costs of utilities, supplies, and personnel for the temporary public use of its facilities. Accordingly, this measure clarifies that the Department of Defense may retain revenues collected to cover the cost of utilities, supplies, personnel, and wear-and-tear associated with the lending out of its facilities and that any net proceeds collected associated with the lending out of its facilities will be returned to the State's general fund, with required amounts returned to the Office of Hawaiian Affairs.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2777 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Baker).

SCRep. 2174 Public Safety, Intergovernmental, and Military Affairs on S.B. No. 2778

The purpose and intent of this measure is to create a chargeable transient quarters revolving fund, to be administered by the Department of Defense, into which lodging and billet fees are to be deposited.

Your Committee did not receive any testimony on this measure.

Your Committee finds that the Hawaii Army National Guard's 298th Regiment multi-functional, Regional Training Institute is an essential training command for Hawaii and the Pacific region. The Regional Training Institute trains soldiers and leaders of the United States Army National Guard, active duty, and reserves. The Regional Training Institute is a charitable transient quarters where trainees pay nightly billet and lodging fees. This measure creates a chargeable transient quarters revolving fund into which the lodging and billet fees may be deposited and out of which the cost of goods and services furnished may be paid.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2778 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Baker).

SCRep. 2175 Public Safety, Intergovernmental, and Military Affairs on S.B. No. 2852

The purpose and intent of this measure is to appropriate funds as a grant to Weed and Seed Hawaii to maintain the weed and seed program, which is a collaborative effort to prevent crime and rebuild communities in targeted areas.

Your Committee received testimony in support of this measure from the Department of the Attorney General; Department of the Prosecuting Attorney, County of Maui; Maui Police Department; Honolulu Police Department; Filipino Community Center, Inc.; Gentry Homes, Ltd.; HawaiiUSA Federal Credit Union; Waipahu Community Coalition; and fourteen individuals.

Your Committee finds that the United States Department of Justice's weed and seed strategy is a proven strategy for preventing, controlling, and reducing violent crime and drug abuse. The strategy calls for local law enforcement to "weed out" the criminal element in neighborhoods then for public agencies and private entities to work together to "seed" the communities with human services that include prevention, intervention, treatment, and neighborhood revitalization. The strategy has been implemented successfully in the Kalihi-Palama and Chinatown areas of downtown Honolulu as well as Waipahu and Ewa/Ewa Beach. Accordingly, this measure appropriates \$400,000 as a grant to Weed and Seed Hawaii to maintain the weed and seed program.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2852 and recommends that it pass Second Reading and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 2176 Public Safety, Intergovernmental, and Military Affairs on S.B. No. 3083

The purpose and intent of this measure is to clarify that certain types of remuneration received by an owner of private property who in good faith provides emergency access to land, shelter, or subsistence during a disaster shall not disqualify the owner from receiving the exemption provided under section 663-10.7, Hawaii Revised Statutes, from civil liability for any resulting injury or damage.

Your Committee received testimony in support of this measure from the Department of Emergency Management, City and County of Honolulu; Hawaii Emergency Management Agency; and Oahu County Committee on Legislative Priorities of the Democratic Party of Hawaii.

Your Committee finds that ensuring citizens have access to adequate land, shelter, and subsistence during a disaster is essential to public safety and welfare. Given the finite amount of available public resources, there is a need to encourage owners of private property to assist in times of emergencies or disasters by providing emergency shelter to the public. However, in many cases, owners of private property are reluctant to make their property or facilities available to the general public for use as emergency shelter due to concerns about liability. Under existing law, it is unclear whether a property owner who provides shelter during a disaster is exempt from civil liability if the persons being sheltered are paying guests of a transient accommodation, wards of healthcare facilities, students of an educational facility, or buyers of commodities sold by the property owner. Accordingly, this measure clarifies this ambiguity to ensure that certain types of remuneration received by an owner of private property who in good faith provides access to the property to members of the public during a disaster or emergency do not disqualify the property owner from civil liability for resulting injuries or damage.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3083 and recommends that it pass Second Reading and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Baker).

SCRep. 2177 Public Safety, Intergovernmental, and Military Affairs on S.B. No. 2046

The purpose and intent of this measure is to prohibit trigger modification devices, including bump stocks, that are designed or function to accelerate the rate of fire of a semiautomatic firearm.

Your Committee received testimony in support of this measure from the Office of the Mayor, County of Hawaii; Honolulu Police Department; Department of the Prosecuting Attorney, County of Maui; Americans for Democratic Action; and one individual. Your Committee received testimony in opposition to this measure from the Hawaii Rifle Association, National Rifle Association Hawaii, Green Screen Hawaii, ASSE, Hawaii Sportsmen's Alliance, Hawaii Hunting Association, Maui Ammo and Gun Supply, Institute for Rational and Evidence-Based Legislation, and ninety-two individuals.

Your Committee finds that restricting certain uses of firearms and firearms accessories is necessary to ensure public safety. Devices, such as bump stocks, that are designed to accelerate the rate of fire of a semiautomatic firearm allow a semiautomatic firearm to behave similarly to an illegal automatic firearm. Moreover, as witnessed in the mass shooting that occurred in Las Vegas in 2017, devices such as a bump stock can cause tremendous devastation in an extraordinarily short amount of time. Therefore, this measure prohibits bump stocks and other similar trigger modification devices that are designed or function to accelerate the rate of fire of a semiautomatic firearm.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2046 and recommends that it pass Second Reading and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2178 Public Safety, Intergovernmental, and Military Affairs on S.B. No. 2058

The purpose and intent of this measure is to:

- (1) Require review and approval by the Board of Private Detectives and Guards of any badge, uniform, form of identification, emblem, or other accoutrement to be used by detective agencies, guard agencies, private detectives, or guards; and
- (2) Prohibit detective agencies, guard agencies, private detectives, and guards from self-identifying as law enforcement officers, police, or police officers and from wearing or using any badge, uniform, equipment, vehicle, or other accoutrement capable of being associated with that of a law enforcement officer employed by a government law enforcement organization.

Your Committee received testimony in support of this measure from the Maui Police department and one individual. Your Committee received comments on this measure from the Board of Private Detectives and Guards and Libertarian Party of Hawaii.

Your Committee finds that establishing a clear distinction between private detectives and guards and law enforcement officers is important to maintaining public safety and confidence in law enforcement. Private detectives and guards in Hawaii have broad powers, including the powers to detain and search individuals; however, they are not law enforcement officers. Therefore, members of the public should be able to clearly distinguish between these different groups. Accordingly, this measure prohibits private detectives and guards from the wearing or use of any badge, uniform, form of identification, emblem, equipment, vehicle, or other accoutrement capable of being associated with that of a law enforcement officer employed by a government law enforcement organization. Moreover, to ensure compliance with that prohibition, this measure requires the Board of Private Detectives and Guards to review and approve all badges, uniforms, equipment, vehicles, or other accoutrements that private detectives or guards wish to wear or use.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2058 and recommends that it pass Second Reading and be referred to your Committee on Commerce, Consumer Protection, and Health.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2179 Public Safety, Intergovernmental, and Military Affairs on S.B. No. 2184

The purpose and intent of this measure is to authorize the expenditure of monies collected from the reduced ignition propensity cigarette fees to fund fire and life safety programs, including the hiring of part-time personnel by the State Fire Council.

Your Committee received testimony in support of this measure from the State Fire Council and Kaua'i County Fire Department. Your Committee received testimony in opposition to this measure from one individual.

Your Committee finds that the State Fire Council, which was established in 1979, has largely been underfunded since its inception. The lack of appropriate funding has hindered the Council's ability to effectively carry out its statutory functions. Your Committee finds that the lack of appropriate funding for the Council is reducing its effectiveness and that the Council could benefit from funding for additional personnel to promote statewide fire and life safety activities.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2184 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Baker).

SCRep. 2180 Public Safety, Intergovernmental, and Military Affairs on S.B. No. 2186

The purpose and intent of this measure is to increase the fireworks display permit fee from \$110 to \$300.

Your Committee received testimony in support of this measure from the State Fire Council and Kaua'i County Fire Department.

Your Committee finds that the fireworks display permit fee, which authorizes licensed pyrotechnicians to conduct outdoor and close proximity fireworks for special public or private events and theatrical or movie purposes, has remained the same since it was established fourteen years ago. However, during that time, the cost to process, review, and approve display permits has increased. Therefore, your Committee finds that the fireworks display permit fee needs to be increased to keep pace with the rise in governmental administrative costs.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2186 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Baker).

SCRep. 2181 Public Safety, Intergovernmental, and Military Affairs on S.B. No. 2427

The purpose and intent of this measure is to:

- (1) Create a temporary law enforcement working group to make recommendations to the Legislature on establishing professional recruitment, hiring, and training standards for all state law enforcement officers who carry firearms and badges and who have arrest authority; and
- (2) Prohibit a law enforcement officer who has been terminated for misconduct by a state or county department, agency, or office in the capacity of law enforcement from being hired by another state or county law enforcement department, agency, or office.

Your Committee received testimony in support of this measure from the Department of Public Safety, Department of Transportation, and one individual. Your Committee received testimony in opposition to this measure from one individual. Your Committee received comments on this measure from the Department of Taxation, Department of Land and Natural Resources, and one individual.

Your Committee finds that maintaining a force of properly qualified law enforcement officers is essential to protecting the health, safety, and welfare of the public. Currently, there are no existing statewide standards for recruiting, hiring, and training law enforcement personnel across state agencies, making Hawaii one of the few states lacking in such statewide standards. A clear set of statewide standards for recruiting, hiring, and training law enforcement personnel would not only establish consistency and lead to improvements within the system, but it would provide the additional benefits of saving costs and streamlining operations. Therefore, in order to implement the highest quality statewide standards, this measure creates a temporary law enforcement working group to make recommendations to the Legislature on the appropriate professional recruitment, hiring, and training standards to adopt for all state law enforcement officers. Further, this measure immediately strengthens the hiring process for state law enforcement officers by prohibiting the hiring by one department, agency, or office of an officer who has been terminated for misconduct by another state or county department, agency, or office in the capacity of law enforcement.

Your Committee has amended this measure by:

- (1) Replacing the State Sheriff or the Sheriff's designee with the Director of Public Safety or the Director's designee on the proposed law enforcement working group;
- (2) Adding the Chief of Police of each county police department or the Chief's designee as members of the proposed law enforcement working group; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2427, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2427, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2182 Public Safety, Intergovernmental, and Military Affairs on S.B. No. 2743

The purpose and intent of this measure is to establish a program in the Department of the Attorney General responsible for issuing credentials to qualified law enforcement officers pursuant to the federal Law Enforcement Officers Safety Act.

Your Committee received testimony in support of this measure from the Department of Public Safety; Department of the Attorney General; Department of Transportation; Department of the Prosecuting Attorney, County of Maui; Maui Police Department; and two individuals.

Your Committee finds that maintaining safety is essential for promoting public welfare. In 2004, the United States Congress enacted the Law Enforcement Officers Safety Act (LEOSA), which allows qualified law enforcement officers and retired law enforcement officers to carry concealed firearms in the United States regardless of state or local laws, with certain restrictions. In 2008, the Department of the Attorney General, with the concurrence of the county chiefs of police, established a LEOSA certification program to comply with LEOSA and enable the Department to issue credentials to qualified retired law enforcement officers in the State. This measure grants the Department of the Attorney General the statutory authority to establish a uniform statewide certificate program with appropriate safeguards to ensure public safety while streamlining multi-island travel by retired law enforcement officers.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2743 and recommends that it pass Second Reading and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2183 Labor on Gov. Msg. No. 537

Recommending that the Senate advise and consent to the nomination of the following:

DIRECTOR OF THE DEPARTMENT OF LABOR AND INDUSTRIAL RELATIONS

G.M. No. 537 LEONARD HOSHIJO, for a term to expire at noon on 12-03-2018

Your Committee has reviewed the personal history and resume submitted by the nominee and finds Leonard Hoshijo to possess the requisite qualifications to be nominated as the Director of the Department of Labor and Industrial Relations.

Your Committee received testimony in support of the nomination of Mr. Hoshijo from the Governor; Department of Land and Natural Resources; Department of Public Safety; Department of Transportation; Department of Accounting and General Services; Department of Budget and Finance; Department of Business, Economic Development and Tourism; Department of Health; Department of Human Resources Development; Department of Agriculture; Hawaii Occupational Safety and Health Division, Department of Labor and Industrial Relations; Workforce Development Division, Department of Labor and Industrial Relations; Hawaii Emergency Management Agency, Department of Defense; Office of Enterprise Technology Services; Hawaii Labor Relations Board; Pacific Resource Partnership; Hawai'i Construction Alliance; Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO; SanHi Government Strategies LLP, A Limited Liability Law Partnership; Hawaii Laborers-Employers Cooperation and Education Trust; International Longshore and Warehouse Union, Local 142; United Public Workers, AFSCME, Local 646, AFL-CIO; General Contractors Association of Hawaii; Hawaii Regional Council of Carpenters; and nine individuals.

Mr. Hoshijo obtained his Bachelor of Arts degree from Antioch College and a P.Ed. degree from the University of Hawaii. After college, he worked for the International Longshore and Warehouse Union (ILWU), Local 142, for twenty-six years. At the ILWU, he served in various positions, including as a Housing Representative, Organizer, International Representative, and International Vice President. He carried out an assortment of responsibilities, such as assisting working families and retirees with achieving affordable homeownership and developing rental housing for individuals who were unable to purchase a home; organizing workers for collective bargaining and engaging in reaching collective bargaining agreements; supporting state assistance for agricultural and tourism employers; taking part in educational programs for member volunteers; conducting contract negotiations; conducting internal democracy processes; and administering joint ILWU Local 142 and International union programs.

Mr. Hoshijo then served as the Education and Political Director for the Hawaii Regional Council of Carpenters from 2001 until 2015. As part of the central staff, his teamwork accomplishments include conducting member education programs on origins and services of the union and the importance of government in their livelihood and conducting research, internal governance and operational procedures, and contract administration. He also participated in the successful contract negotiation for project labor agreements with military housing developers that privatized military housing to ensure that homes for Army, Navy, Marines, and Air Force families would be built efficiently for fifty years at area standard wages for construction workers.

Mr. Hoshijo began serving as Deputy Director of Labor and Industrial Relations in 2015. As Deputy Director, he assisted the Director in managing the Department. He oversaw the Workforce Development Council and the Unemployment Insurance, Workers' Compensation, and Occupational Safety and Health Divisions. Mr. Hoshijo has been serving as Acting Director of Labor and Industrial Relations since December 2017.

Mr. Hoshijo also serves as a director or officer for various low income rental housing nonprofit corporations, including the Hawaii Housing Finance and Development Corporation, Jack Hall Kona Memorial Housing Corporation, Waipahu Jack Hall Memorial Housing Corporation, Ewa Housing Foundation, Kohala Union Housing Corporation, Ka'u Housing Corporation, and Jack Hall Hawaii Housing Corporation. He additionally serves as a member of the Labor Education Advisory Board of the University of Hawaii Center for Labor Education and Research, as well as a director and officer for the Hawaii Labor Heritage Council.

Testifiers in support of the nominee indicate that Mr. Hoshijo has worked collaboratively with employers, government officials, and community organizations. He analytically addresses issues by considering all points of view to find a common ground and acting accordingly. He has a firm working knowledge of the Department of Labor and Industrial Relations. Your Committee finds that he has the skills, knowledge, temperament, and experience to lead a department as large and as complex as the Department of Labor and Industrial Relations.

Your Committee finds that Mr. Hoshijo is qualified to serve as the Director of Labor and Industrial Relations. He possesses the intelligence, knowledge, experience, and demeanor to be an effective Director.

As affirmed by the record of votes of the members of your Committee on Labor that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Ihara, Taniguchi).

SCRep. 2184 Housing on S.B. No. 2497

The purpose and intent of this measure is to:

- (1) Require the Hawaii Public Housing Authority to establish a program to offer dwelling unit insurance policies to landlords who rent to tenants using the Section 8 housing choice voucher program;
- (2) Require the Hawaii Public Housing Authority to submit a report to the Legislature regarding the establishment of the program prior to the convening of the Regular Session of 2019; and
- (3) Appropriates funds to the Hawaii Public Housing Authority to establish the program, including funds for positions to administer the program.

Your Committee received testimony in support of this measure from the League of Women Voters of Hawaii and one individual. Your Committee received comments on this measure from the Hawaii Public Housing Authority.

Your Committee finds that the Hawaii Public Housing Authority assists low-income families through the housing choice voucher program, also known as "Section 8". The Section 8 program is one of the federal government's major programs for assisting very low-income families, the elderly, and the disabled to afford decent, safe, and sanitary housing in the private market, including single-family homes, townhouses, and apartments. Due to the overwhelming need in the community to assist low-income families, this measure will assist future Section 8 participants by encouraging landlords to rent their dwelling units to Section 8 participants.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2497 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Kahele, Nishihara).

SCRep. 2185 Housing on S.B. No. 2531

The purpose and intent of this measure is to authorize the issuance of special purpose revenue bonds to assist not-for-profit private organizations, for-profit private organizations, and public instrumentalities in the retrofitting of low- and moderate-income apartment complexes with sprinkler systems.

Your Committee received testimony in support of this measure from the Fire Department of the City and County of Honolulu, Fire Department of the County of Kaua'i, and Hawaii State Fire Council. Your Committee received comments on this measure from the Department of Budget and Finance.

Your Committee finds that the fire at the Marco Polo condominium on July 14, 2017, highlights the dangers of fire in older apartment buildings. Automatic fire sprinkler systems are proven solutions to fires in high rise buildings. Death rates and property loss are substantially reduced when these systems are installed and properly maintained.

Your Committee further finds that the installation of fire sprinkler systems can pose a heavy financial burden to property owners on small or fixed incomes. This measure provides financial support to certain entities that will ultimately help property owners who normally would be unable to carry the financial burden to protect themselves and their neighbors from a high rise fire.

Your Committee notes the comments submitted by the Department of Budget and Finance that this measure fails to specify the parties to which the special purpose revenue bonds are proposed to be issued. The approval of the issuance of special purpose revenue bonds and conduit loan are dependent upon compliance with all federal, state, and credit underwriting requirements. Thus, your Committee believes that this issue merits further discussion as this measure moves through the legislative process.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2531 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Kahele, Nishihara).

SCRep. 2186 Housing on S.B. No. 2007

The purpose and intent of this measure is to define specific rights granted to a person who is houseless, including equal access to housing, jobs, and shelters, equal treatment by government agencies, and access to life-sustaining activities and essential services.

Your Committee received testimony in support of this measure from one individual. Your Committee received comments on this measure from the Governor's Coordinator on Homelessness, Department of the Attorney General, League of Women Voters of Hawaii, and one individual.

Your Committee finds that no person's rights, privileges, or access to public services should be denied solely because that person is houseless, and a houseless individual should be granted the same rights as any other person. Houseless persons often experience discrimination based on their appearance or lack of permanent address, and this measure seeks to protect their basic human rights.

Your Committee has amended this measure by:

- (1) Adopting the language suggested by the Department of the Attorney General that:
 - (A) Removes language that would have conferred the right to a reasonable expectation of privacy in personal property to the same extent as personal property in a permanent residence, to avoid the interpretation of conferring additional legal rights to houseless persons that are not conferred to other citizens of the State, or of interference with law enforcement efforts;
 - (B) Removes language that would have entitled a houseless person to an equal opportunity to have access to public hygiene facilities and live in decent accommodations, to avoid a possible interpretation that the State is obligated to provide housing for everyone;
 - (C) Clarifies that under the right to maintain access to services essential to survival, law enforcement activities and efforts to promote health, safety, and welfare are not included as actions by the State and counties, rather than actions by only the State, to appropriately exclude county actions that are necessary to ensure public safety; and
 - (D) Adds language to clarify that the houseless bill of rights shall not be interpreted to create new legal rights for houseless persons, but is intended to ensure that a houseless person is not discriminated against due to housing status; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2007, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2007, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Kahele, Nishihara).

SCRep. 2187 Housing on S.B. No. 2784

The purpose and intent of this measure is to create an eviction process for the Hawaii Public Housing Authority's state low-income housing projects and elder or elderly housing.

Your Committee received testimony in support of this measure from the Hawaii Public Housing Authority and League of Women Voters of Hawaii.

Your Committee finds that Act 114, Session Laws of Hawaii 2017 (Act 114), exempted state low-income housing directly controlled, owned, or managed by the Hawaii Public Housing Authority from the requirements of the residential landlord-tenant code under chapter 521, Hawaii Revised Statutes. Act 114 was the first step in creating a uniform eviction process for state and federal low-income public housing to ensure all tenants receive the same due process rights regardless of the property on which they reside. This measure streamlines the eviction process for all of the Hawaii Public Housing Authority's state and federal low-income public housing programs and lessens the caseload of the Judiciary and the Department of the Attorney General.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency, including changing the new part added to chapter 356D, Hawaii Revised Statutes, to a subpart in part III of chapter 356D, Hawaii Revised Statutes, relating to state low-income housing.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2784, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2784, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Kahele, Nishihara).

SCRep. 2188 Housing on S.B. No. 2786

The purpose and intent of this measure is to:

- (1) Close to the public certain areas within a housing project under the jurisdiction of the Hawaii Public Housing Authority where signs are displayed that comply with certain requirements; and
- (2) Amend the offense of criminal trespass in the second degree to clarify when, under certain circumstances, a person commits the offense of entering or remaining unlawfully in or upon any area of a housing project that is closed to the public.

Your Committee received testimony in support of this measure from the Hawaii Public Housing Authority and one individual.

Your Committee finds that one of the greatest concerns and priorities of the Hawaii Public Housing Authority is the safety and wellbeing of its tenants and staff. However, there have been a number of incidents occurring on housing project properties due to the presence of uninvited individuals, including unauthorized individuals entering onto public housing property and setting up tents in the middle of the property or causing property damage, or evicted tenants returning to the property to harass or intimidate their former

neighbors. These acts create conflict among the tenants as well as staff. Accordingly, this measure provides the Hawaii Public Housing Authority with a tool to address and resolve these matters.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2786, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2786, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Kahele, Nishihara).

SCRep. 2189 Housing on S.B. No. 2856

The purpose and intent of this measure is to:

- (1) Amend the low-income household renters income tax credit to broaden its application to move taxpayers and to increase the amount of the credit for certain qualified taxpayers; and
- (2) Use the consumer price index to adjust the amount of tax credit that may be claimed by a taxpayer.

Your Committee received testimony in support of this measure from the Hawaii Appleseed Center for Law & Economic Justice, Americans for Democratic Action Hawai'i, Hawai'i Alliance for Community-Based Economic Development, Hawaiian Community Assets, Planned Parenthood Votes Northwest and Hawaii, Catholic Charities Hawai'i, Parents and Children Together, YWCA O'ahu, Hawaii Children's Action Network, Women's Caucus of the Democratic Party of Hawai'i, and thirteen individuals. Your Committee received comments on this measure from the Department of Taxation and Tax Foundation of Hawaii.

Your Committee finds that the income tax credit for low-income household renters was established forty years ago to help make up for the high rents and tax rates that burden low-income and moderate-income earners. However, this income tax credit has not been routinely updated to account for inflation. In light of the fact that Hawaii has the highest homeless rate per capita and some of the highest cost burdens of any state in the nation, this measure contributes to a comprehensive strategy to meet the State's affordable housing goals.

Your Committee has amended this measure by adopting the language suggested by the Department of Taxation that:

- (1) Amends the definition of "adjusted gross income" to mean the same as defined by the Internal Revenue Code, rather than section 235-1, Hawaii Revised Statutes;
- (2) Amends the index to which the term "consumer price index" refers and changes the reference from the United States Department of Labor to the United States Bureau of Labor Statistics as the consumer price index publishing source under the definition of "consumer price index"; and
- (3) Amends the method for adjusting the amount of the tax credit that may be claimed by the taxpayer based on the consumer price index.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2856, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2856, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Kahele, Nishihara).

SCRep. 2190 Housing on S.B. No. 2969

The purpose and intent of this measure is to reduce the size threshold for a single-family residence that is not part of a larger development to be excluded from the definition of "development" for purposes of the special management areas law.

Your Committee received testimony in support of this measure from the Office of Planning. Your Committee received testimony in opposition to this measure from the Planning Department of the County of Hawai'i.

Your Committee finds that the proposed reduction in the floor area threshold of a single-family residence in this measure will offer further opportunity for the county planning departments to review potential cumulative impacts, or significant environmental or ecological effects, from construction or reconstruction of a single-family residence on a special management area.

Your Committee has amended this measure by:

- (1) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2969, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2969, S.D. 1, and be referred to your Committee on Water and Land.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Kahele, Nishihara).

SCRep. 2191 Commerce, Consumer Protection, and Health on S.B. No. 2491

The purpose and intent of this measure is to increase protections for health care workers by increasing the criminal penalties for assaulting a health care worker who is engaged in the performance of duties.

Your Committee received testimony in support of this measure from the Department of Health; Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO; Healthcare Association of Hawaii; Hawaii Medical Association; Hawaii Primary Care Association; Kaiser Permanente; Pali Momi Medical Center; Hilo Medical Center; Hawaii Pacific Health; United Public Workers, AFSCME Local 646, AFL-CIO; The Queen's Health Systems; Hawaii Nurses Association, OPEIU Local 50; One Kalakaua Senior Living; Ohana Pacific Management Company; American Organization of Nurse Executives - Hawaii Chapter; Legacy of Life Hawaii; and twenty-six individuals. Your Committee received comments on this measure from the Hawaii Medical Service Association.

Your Committee has heard the concerns of individuals, many of whom are employees of hospitals and other medical providers who were victims of assaults, who noted that health care workers may be less likely to report assaults under existing law, in part because the offense is classified as a misdemeanor and therefore is capable of being expunged from the offender's record and subject to a time served sentence. Your Committee finds that this measure will extend protections for health care workers, encourage prosecution of individuals who assault health care workers, and assist in the retention of needed health care workers by elevating the offense of assault of a health care worker who is engaged in the performance of duty to a felony. In so doing, this measure will provide an equal level of protection for health care workers as for employees of state-operated or state-contracted mental health facilities.

Your Committee has also heard the concerns of the Hawaii Primary Care Association, which noted that this measure, as written, changes the base offense from a misdemeanor to a felony by amending section 707-711, Hawaii Revised Statutes (HRS), and that categorical classifications of victims inject subjectivity into the penalization process. The Hawaii Primary Care Association suggested, as an alternative, amending section 706-662, HRS, which provides for extended terms of imprisonment for persons convicted of certain crimes. However, your Committee notes that the extended terms of imprisonment under section 706-662, HRS, apply only to felony convictions. Therefore, in order to make assault of a health care worker who is engaged in the performance of duty eligible for an extended term of imprisonment, either the offense would need to be elevated to a felony offense or section 706-662, HRS, would need to be amended to allow extended terms of imprisonment for misdemeanor offenses. Your Committee finds that allowing extended terms of imprisonment for misdemeanor offenses, in order to accommodate this offense, falls outside of the purview of your Committee and may affect a much greater population than is intended by this measure. Accordingly, your Committee finds that retaining the amendment in section 707-711, HRS, to make assault of a health care worker who is engaged in the performance of duty a felony, is the most appropriate option at this time.

Accordingly, your Committee has amended this measure by:

- (1) Broadening the covered range of activities and potential work settings for persons protected by this measure to include those providing health services in addition to case management, and to include those providing health services in a health care provider's office or in any other setting; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2491, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2491, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 2 (Nishihara, Tokuda).

SCRep. 2192 (Joint) Commerce, Consumer Protection, and Health and Public Safety, Intergovernmental, and Military Affairs on S.B. No. 2299

The purpose and intent of this measure is to:

- (1) Authorize a naturopathic physician to prescribe and administer testosterone that is consistent with naturopathic medical practice; and
- (2) Clarify that narcotic drugs shall not be included within the naturopathic formulary.

Your Committees received testimony in support of this measure from the Board of Naturopathic Medicine, Hawaii Society of Naturopathic Physicians, Pacific Integrative Medicine, and four individuals. Your Committees received testimony in opposition to this measure from the Hawaii Medical Association, American Osteopathic Association, and Hawaii Association of Osteopathic Physicians and Surgeons. Your Committees received comments on this measure from the Hawaii Medical Service Association.

Your Committees find that naturopathic physicians provide skilled and quality care to patients throughout the State, and remain mindful of safety, appropriate prescribing, and efficacy when treating patients with natural hormones. As a result, according to the Board of Naturopathic Medicine, the Board has taken no disciplinary matters since hormones were included in the naturopathic formulary.

Your Committees further find that although naturopathic physicians have some prescriptive authority, they are unable to prescribe testosterone, a controlled substance that is consistent with the practice of naturopathic medicine. This measure therefore authorizes a naturopathic physician to prescribe and administer testosterone, consistent with naturopathic medical practice, but specifies that narcotic drugs are not to be included within the naturopathic formulary.

Your Committees have amended this measure by:

- (1) Clarifying that the naturopathic formulary shall not include any narcotic drugs or controlled substances, other than testosterone;

- (2) Inserting a savings clause; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Commerce, Consumer Protection, and Health and Public Safety, Intergovernmental, and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2299, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2299, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chairs on behalf of the Committees.

Commerce, Consumer Protection, and Health: Ayes, 6. Noes, none. Excused, 1 (Tokuda).

Public Safety, Intergovernmental, and Military Affairs: Ayes, 5. Noes, none. Excused, none.

SCRep. 2193 (Joint) Commerce, Consumer Protection, and Health and Public Safety, Intergovernmental, and Military Affairs on S.B. No. 2741

The purpose and intent of this measure is to:

- (1) Specifically include section 707-733(1)(b), Hawaii Revised Statutes (HRS), as a tier 1 covered sexual offense when the offense is committed toward a minor; and
- (2) Amend the covered offender registration law to require defendants charged with a covered offense to register whether they were subsequently involuntarily committed; found unfit to proceed; had charges dismissed by reason of physical or mental disease, disorder, or defect; or were acquitted by reason of physical or mental disease, disorder, or defect.

Your Committees received testimony in support of this measure from the Department of the Attorney General. Your Committees received testimony in opposition to this measure from Office of the Public Defender.

Your Committees find that a person commits the offense under section 707-733(1)(b), HRS, when the person knowingly exposes the person's genitals to another person under circumstances in which the actor's conduct is likely to alarm the other person or put the person in fear of bodily injury. When this offense is committed against a minor, it is considered a covered offense for purposes of covered offender registration, under the term "sexual conduct toward a minor", which may be subject to interpretation and challenge in court. Explicitly including section 707-733(1)(b), HRS, as a tier 1 covered sexual offense when the offense is committed toward a minor avoids interpretation issues and allows for timelier determinations of mandatory registration.

Your Committees further find that under the existing covered offender registration law, defendants with diminished mental capacities are treated disparately depending on the disposition of their case. This measure promotes the uniform treatment of these offenders by requiring registration for defendants charged with a covered offense whether they are subsequently involuntarily committed; found unfit to proceed; have charges dismissed by reason of physical or mental disease, disorder, or defect; or are acquitted by reason of physical or mental disease, disorder, or defect.

Your Committees have heard the concerns of the Office of the Public Defender with respect to the severity of registration as a punishment with respect to a non-contact offense, especially certain behaviors such as nude sunbathing and streaking. However, your Committees note the serious impact of indecent exposure on the affected minor and find that this measure, as drafted, would not lead to prosecutions for the behaviors that prompted the concerns of the Office of the Public Defender. Your Committees conclude that registration is an appropriate consequence for a convicted offender for indecent exposure.

Your Committees have amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Commerce, Consumer Protection, and Health and Public Safety, Intergovernmental, and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2741, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2741, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chairs on behalf of the Committees.

Commerce, Consumer Protection, and Health: Ayes, 6. Noes, none. Excused, 1 (Tokuda).

Public Safety, Intergovernmental, and Military Affairs: Ayes, 5. Noes, none. Excused, none.

SCRep. 2194 (Joint) Education and Labor on S.B. No. 2242

The purpose and intent of this measure is to appropriate funds for the establishment of a workforce development microgrant program to award grants to public high school students for costs associated with technical or workforce training related to certain industries.

Your Committees received testimony in support of this measure from the Department of Education, Office of the State Director for Career and Technical Education for the University of Hawai'i System, Hawaii State Teachers Association, Oahu County Committee on Legislative Priorities for the Democratic Party of Hawaii, and Hawaii Cattlemen's Council, Inc.

Your Committees find that since 2013, a number of states have enacted legislation to better align curriculum in high schools with state workforce needs, including designing career pathways that prepare students for high-skill, high-demand jobs in the state or region. By providing financial assistance for high school students for costs associated with technical or workforce training in the State's growing and most demanding industries, the State can continue to invest in local workforce development and ensure that those entering the workforce are prepared and properly trained.

Your Committees have amended this measure by inserting a blank appropriation amount for the workforce development microgrant program.

As affirmed by the records of votes of the members of your Committees on Education and Labor that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2242, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2242, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
 Education: Ayes, 4. Noes, none. Excused, 1 (Kahele).
 Labor: Ayes, 3. Noes, none. Excused, 2 (Chang, Taniguchi).

SCRep. 2195 (Joint) Education and Labor on S.B. No. 2368

The purpose and intent of this measure is to:

- (1) Require the Department of Education to:
 - (A) Establish and implement a program to educate public school students on sexual abuse prevention through age appropriate curricula; and
 - (B) Submit reports to the Legislature on the status of the implementation of and nature of the child sexual abuse prevention education program; and
- (2) Appropriate funds for the implementation of the child sexual abuse prevention education program.

Your Committees received testimony in support of this measure from the Hawaii State Teachers Association; The Sex Abuse Treatment Center; Hawaii Youth Services Network; Hawaii Children's Action Network; IMUAlliance; Parents and Children Together; Special Education Advisory Council; Mental Health America of Hawaii; Domestic Violence Action Center; Planned Parenthood Votes Northwest and Hawaii; YWCA O'ahu; Children's Alliance of Hawaii, Inc.; Bare Feet Studios, LLC; UNITE; and nine individuals. Your Committees received comments on this measure from the Department of Education.

Your Committees find that sexual abuse remains a serious and ongoing threat to the safety, health, and well-being of children and young people in the State. Although programs and Department of Education-approved curricula currently exist in the State, implementation is not consistent system wide and resources for the provision of training and education are limited. Therefore, implementing and requiring resources for a regular, consistent sexual abuse prevention education program across the entire public school system will help to ensure that students are educated in sexual abuse prevention and teachers and staff receive sufficient training on talking to students about child sexual abuse prevention, the effects of child sexual abuse on children, handling sexual abuse disclosures, and mandated reporting.

Your Committees have amended this measure by:

- (1) Inserting language that requires the Board of Education to adopt Board policies to effectuate the sexual abuse prevention education program and for the department of education to implement such policies; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Education and Labor that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2368, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2368, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
 Education: Ayes, 4. Noes, none. Excused, 1 (Kahele).
 Labor: Ayes, 3. Noes, none. Excused, 2 (Chang, Taniguchi).

SCRep. 2196 Education on S.B. No. 2381

The purpose and intent of this measure is to allow school principals to close the school due to natural disaster without needing to consult the complex area superintendent if conditions are deemed unsafe for students and faculty.

Your Committee received testimony in support of this measure from the Hawaii State Teachers Association and three individuals. Your Committee received testimony in opposition to this measure from the Department of Education.

Your Committee finds that each school's ability to cope with natural disasters and emergencies is unique, and that a quick and timely school closure could be the difference between a safe and unsafe evacuation for student and faculty. By authorizing school principals to close schools due to natural disasters without requiring additional procedures prior to closing the school, a school principal can make this decision in a timely fashion to ensure the safety and well-being of students and faculty.

Your Committee has amended this measure by:

- (1) Clarifying that a school principal may close the school due to natural disaster without needing to consult the complex area superintendent in the case of an emergency; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2381, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2381, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
 Ayes, 4. Noes, none. Excused, 1 (Kim).

SCRep. 2197 Education on S.B. No. 2239

The purpose and intent of this measure is to appropriate funds for the payment of SAT or ACT standardized test examination fees for those public high school students who are in the eleventh or twelfth grade and are eligible for the free and reduced price lunch program.

Your Committee received testimony in support of this measure from three individuals. Your Committee received comments on this measure from the Department of Education.

Your Committee finds that the cost for the SAT exam for the 2017-2018 academic year is \$46 for the basic exam and \$60 for the SAT with essay. Additionally, other services and fees associated with standardized test examinations, such as score reports and registration fees, can cost college applicants hundreds of dollars. Your Committee further finds that the Department of Education currently covers the cost of all eleventh grade public school students to take a nationally-recognized college admissions test as part of the college and career readiness curriculum. However, it is critical to ensure that other students who were not able to take the exam in the eleventh grade and students at charter schools are given the opportunity to take a nationally-recognized college admissions test in hopes of attending an institution of higher education.

Your Committee has amended this measure by:

- (1) Specifying that an eligible student for the payment of SAT or ACT standardized test examination fees includes public school students in the twelfth grade who have not previously taken the SAT or ACT standardized test examination and public charter school students in the eleventh or twelfth grade who have not taken the SAT or ACT standardized test examination; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2239, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2239, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Kim).

SCRep. 2198 Education on S.B. No. 2083

The purpose and intent of this measure is to appropriate funds for after-school programs at Kalaniana'ole Elementary and Intermediate School, Kapaa Middle School, Konawaena Middle School, and Waimea Canyon Middle School.

Your Committee received testimony in support of this measure from the Hawai'i Afterschool Alliance, Hawai'i Arts Alliance, Hawaii Youth Services Network, Native Hawaiian Education Council, Special Education Advisory Council, Parents and Children Together, American Heart Association, and one individual. Your Committee received comments on this measure from the Department of Education.

Your Committee finds that funding for after-school programs is critical for intermediate and middle school students, especially for schools that have a high number of students of Native Hawaiian background, who are being arrested at a higher rate than any other ethnic background. Furthermore, approximately half of first time juvenile arrests are in the middle and intermediate school age group, and most of the behaviors resulting in arrest occur between 3:00 p.m. and 6:00 p.m.

Your Committee further finds that quality after-school programs inspire and motivate children to learn, support children's social and emotional growth, and help raise academic achievement. A study of outcomes associated with participation in after-school programs found that students regularly participating in after-school programs during their elementary school years showed a variety of gains, including narrowing the math achievement gap at grade five between high- and low-income students, improving work habits and self-sufficiency, and reducing the number of school absences. By funding after-school programs at intermediate and middle schools that have a high number of Native Hawaiian students, students will have access to expanded learning opportunities through a range of enrichment and learning activities in various subjects, such as the arts, language, technology, and civic engagement.

Your Committee has heard the testimony of the Department of Education expressing concerns about ensuring that, if this measure were to pass, any appropriated funds from the Legislature for after-school programs would be alongside existing federal funds for UPLINK, an after-school program for middle-school aged children in support of the Temporary Assistance for Needy Families federal grant. Additionally, the Department of Education identified other costs for consideration for the after-school programs, including program administration, monitoring, technical assistance, and evaluation. Your Committee finds that these issues raise concerns that merit further consideration and requests that your Committee on Ways and Means further examine those issues and concerns raised by the Department of Education on this measure.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2083 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Kim).

SCRep. 2199 (Joint) Labor and Judiciary on S.B. No. 2801

The purpose and intent of this measure is to:

- (1) Establish the labor law enforcement special fund to finance the collection of penalties for violations of labor law;
- (2) Establish two positions, including an attorney and legal assistant, in the Department of the Attorney General to represent the Department of Labor and Industrial Relations in collecting penalties for violations of law; and

- (3) Appropriate funds into and out of the labor law enforcement special fund.

Your Committees received testimony in support of this measure from the Department of Labor and Industrial Relations, Pacific Resource Partnership, and one individual. Your Committees received comments on this measure from the Tax Foundation of Hawaii.

Your Committees find that this measure aims to improve compliance with labor laws by helping ensure that penalties for violations are collected by the Department of Labor and Industrial Relations. In mid-2017, the Department of Labor and Industrial Relations estimated that it had more than \$2,705,024 in accounts receivable over the past several years. Your Committees further find that hiring an attorney and a legal assistant to pursue these collections would greatly improve the Department of Labor and Industrial Relations' capacity to collect these penalties and efficiently effectuate the intent of labor law.

Your Committees recommend that as this measure moves through the legislative process, your Committee on Ways and Means consider adding reporting requirements relating to the status of the special fund.

Your Committees have amended this measure by:

- (1) Authorizing the labor law enforcement special fund to collect fees, in addition to penalties, as requested by the Department of Labor and Industrial Relations; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Labor and Judiciary that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2801, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2801, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
 Labor: Ayes, 4. Noes, none. Excused, 1 (English).
 Judiciary: Ayes, 4. Noes, none. Excused, 1 (Gabbard).

SCRep. 2200 (Joint) Labor and Judiciary on S.B. No. 2351

The purpose and intent of this measure is to:

- (1) Prohibit prospective employers from requesting or considering a job applicant's prior wage or salary history in the job application process; and
- (2) Prohibit enforced wage secrecy and prohibit retaliation or discrimination against employees who disclose, discuss, or inquire about their own or coworkers' wages for the purpose of exercising rights under the law.

Your Committees received testimony in support of this measure from the Hawai'i Civil Rights Commission, Commission on the Status of Women, YWCA O'ahu, Hawaii Appleseed Center for Law & Economic Justice, Planned Parenthood Votes Northwest and Hawaii, Hawai'i State Democratic Women's Caucus, Hawaii State AFL-CIO, American Association of University Women of Hawaii, Windward Oahu Branch of the American Association of University Women, Americans for Democratic Action, and eighteen individuals. Your Committees received testimony in opposition to this measure from the Chamber of Commerce Hawaii and one individual. Your Committees received comments on this measure from the Hawaii Food Industry Association.

Your Committees find that pay disparity persists between men and women who do similar work. Existing Hawaii law generally prohibits an employer from paying an employee at wage rates less than the rates paid to employees of the opposite sex; however, in 2015, the gender wage gap in Hawaii stood at sixteen cents on the dollar and more than twenty cents on the dollar for women of color. This wage gap extends across almost all occupations reporting in Hawaii. Your Committees further find that the ability of employers to consider a job applicant's previous salary history and pay secrecy are contributing factors to the gender pay disparity. Your Committees find that this measure is a step toward ending pay discrimination against women, particularly women of color.

As affirmed by the records of votes of the members of your Committees on Labor and Judiciary that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2351 and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
 Labor: Ayes, 4. Noes, none. Excused, 1 (English).
 Judiciary: Ayes, 4. Noes, none. Excused, 1 (Gabbard).

SCRep. 2201 (Joint) Labor and Judiciary on S.B. No. 2805

The purpose and intent of this measure is to authorize, except in fair housing cases, the Hawaii Civil Rights Commission Executive Director to either issue a final conciliation demand or dismiss a discrimination complaint and issue a notice of right to sue after a determination of a reasonable cause of discrimination is made.

Your Committees received testimony in support of this measure from the Department of Labor and Industrial Relations and Hawai'i Civil Rights Commission. Your Committees received comments on this measure from the Hawaii Disability Rights Center.

Your Committees find that giving the Hawaii Civil Rights Commission Executive Director the discretion to either issue a final conciliation demand or dismiss the complaint and issue a notice of right to sue will enable the Hawaii Civil Rights Commission to more effectively and efficiently utilize its attorney resources to pursue priority cases in the public interest.

As affirmed by the records of votes of the members of your Committees on Labor and Judiciary that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2805 and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Labor: Ayes, 4. Noes, none. Excused, 1 (English).
 Judiciary: Ayes, 4. Noes, none. Excused, 1 (Gabbard).

SCRep. 2202 (Joint) Labor and Judiciary on S.B. No. 2746

The purpose and intent of this measure is to impose a fine against any employer who discharges from employment, refuses to employ, or takes disciplinary action against any noncustodial parent subject to income withholding, or who fails to comply with an order of assignment of future income.

Your Committees received testimony in support of this measure from the Department of the Attorney General.

Your Committees find that under federal law, each state must have laws in effect that require the imposition of a fine against any employer who:

- (1) Discharges from employment, refuses to employ, or takes disciplinary action against any noncustodial parent subject to income withholding; or
- (2) Fails to withhold support from income or pay the amounts to a child support agency.

Your Committees further find that compliance with this requirement is necessary to maintain the Department of Human Services' eligibility for federal welfare funding and federal funding of child support enforcement programs. Your Committees also find that amending the income withholding requirements increases the effectiveness of the income withholding process and protects the obligor parent from employment discrimination due to the income withholding order.

Your Committees have amended this measure by:

- (1) Inserting missing statutory language; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Labor and Judiciary that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2746, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2746, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
 Labor: Ayes, 4. Noes, none. Excused, 1 (English).
 Judiciary: Ayes, 4. Noes, none. Excused, 1 (Gabbard).

SCRep. 2203 (Joint) Commerce, Consumer Protection, and Health and Judiciary on S.B. No. 2304

The purpose and intent of this measure is to reduce use of, and access and exposure to tobacco products by youth through prohibiting the issuance and renewal of retail tobacco permits and the sale of tobacco products or electronic smoking devices within seven hundred fifty feet of schools, public parks, and public housing complexes.

Your Committees received testimony in support of this measure from the Hawaii Public Housing Authority, Blue Zones Project Koolaupoko, American Heart Association, Hawaii Public Health Association, Hawaii Public Health Institute, Hawaii Children's Action Network, Blue Zones Project, Hawaii Chapter – American Academy of Pediatrics, HEALTHY Quit Smoking Program – Kapiolani Medical Center, Keiki Injury Prevention Coalition, American Cancer Society – Cancer Action Network, and thirty-six individuals. Your Committees received testimony in opposition to this measure from the Libertarian Party of Hawaii, Aloha Petroleum, Volcano Fine Electronic Cigarettes, Hawaii Food Industry Association, Retail Merchants of Hawaii, Smokeless Hawaii, Island Vapor, Hawaii Smokers Alliance, Cigar Rights of America, Vape Hawaii, Hawaii Cigar Association, Kauai Cigar Company, Mysteries of Hawaii, and forty-three individuals. Your Committees received comments on this measure from the Department of the Attorney General, Department of Taxation, and Department of Health.

While walking or riding to school, youth may be exposed to advertising of tobacco products and electronic smoking devices or the availability of those products for sale at locations near the school, such as convenience stores, grocery stores, and gas stations. Your Committees note that several cities in the United States have established tobacco retail buffer zones, which are areas in which sales of tobacco products are prohibited, or tobacco products are required to be hidden from view, in retail establishments located within a certain distance of sites such as schools or playgrounds. Retail buffer zones can also be implemented as the issuance of a tobacco retail permit conditioned upon the retailer not operating within a certain distance of sites such as schools or playgrounds. Your Committees find tobacco retail buffer zones to be an effective regulatory strategy in preventing youth initiation to tobacco products.

However, your Committees have also heard the concerns of the tobacco and electronic smoking device industries, which found the definitions of park and school in this measure to be ambiguous and broad enough to possibly put nearly every tobacco and electronic smoking device retailer in the State out of business. Your Committees have also heard concerns from the Department of the Attorney General that this measure could constitute a regulatory taking if existing permits are not grandfathered in, and that this measure could face equal access challenges from adults residing in public housing complexes.

Your Committees find that existing laws, especially the liquor license prohibition codified at section 281-39.5, Hawaii Revised Statutes (HRS), provide a useful guide that addresses many of the above concerns. Your Committees further find that a more narrowly-drawn measure will accomplish many of the same benefits as the original measure while avoiding legal challenges. Your Committees also find that, for ease of regulation, it is preferable to statutorily place the language in this measure in chapter 328J, HRS, rather than to establish a new offense.

Accordingly, your Committees have amended this measure by:

- (1) Changing the statutory placement of the prohibition on sale within chapter 328J, HRS, rather than within chapter 712, HRS;

- (2) Placing the buffer zones only around preschools; public and private elementary, intermediate, or high schools; and public playgrounds utilized extensively by minors, rather than around parks, public housing projects, or schools for adults;
- (3) Reducing the size of the buffer zone from seven hundred fifty feet to five hundred feet, and clarifying that the buffer zone shall extend from the boundary of the protected area to the boundary of the place of business;
- (4) Grandfathering in existing permits until November 30, 2019;
- (5) Including additional clarifying language from section 281-39.5, HRS; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Commerce, Consumer Protection, and Health and Judiciary that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2304, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2304, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Commerce, Consumer Protection, and Health: Ayes, 4; Ayes with Reservations (Nishihara). Noes, none. Excused, 3 (Ihara, Ruderman, Tokuda).

Judiciary: Ayes, 4; Ayes with Reservations (Kim). Noes, none. Excused, 1 (Thielen).

SCRep. 2204 Commerce, Consumer Protection, and Health on S.B. No. 2464

The purpose and intent of this measure is to establish the misdemeanor offense of exploitative advertising.

Your Committee received testimony in support of this measure from IMUAlliance and UNITE Hawaii. Your Committee received testimony in opposition to this measure from one individual. Your Committee received comments on this measure from the Board of Massage Therapy.

Your Committee finds that Hawaii is home to over one hundred fifty high-risk sex trafficking establishments. According to testimony received by your Committee, the State is also a target for cyber-trafficking, with over 120,000 advertisements for local prostitution posted online each year. This measure helps prevent the Internet from being used to cover up sexual exploitation by making it illegal for high-risk sex trafficking establishments, such as massage parlors, relaxation therapy establishments, and escort services, to use explicit terms and nude images to sell sexual services, while also holding harmless the owners of the websites on which such advertisements are posted.

However, your Committee notes the concerns raised by the Board of Massage Therapy that this measure as written prevents licensed massage therapists, licensed by the Board of Massage Therapy and further regulated under chapter 452, Hawaii Revised Statutes, from being able to use certain words in legitimate advertisements. Amendments to this measure to address these concerns are therefore needed.

Your Committee has amended this measure by:

- (1) Clarifying the offense of exploitative advertising by:
 - (A) Removing references to the terms “massage”, “relaxation”, and “spa” and inserting a reference to the term “escort”; and
 - (B) Including in the description of prohibited print, broadcast, or electronic advertisements, or advertisement directories any words, acronyms, or images that imply activities contrary to the law governing licensed massage therapists; and
- (2) Deleting from the definition of “relaxation therapy” references to reflexology and spa treatment services, as these are methods of treatment otherwise permitted to be used by licensed massage therapists.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2464, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2464, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 2 (Nishihara, Tokuda).

SCRep. 2205 Commerce, Consumer Protection, and Health on S.B. No. 2775

The purpose and intent of this measure is to establish the Hawaii Health Insurance Guaranty Association, an insurance guaranty fund for Hawaii domestic medical service organizations and health maintenance organizations.

Your Committee received testimony in support of this measure from the Department of Commerce and Consumer Affairs. Your Committee received comments on this measure from Kaiser Permanente Hawaii; Hawaii Medical Service Association; Coalition of Health Insurers (Aetna, Anthem, Cigna, Health Care Services Corporation, and United); and American Council of Life Insurers.

Your Committee finds that Hawaii has two insurance guaranty associations that provide payment mechanisms for eligible covered claims when insurers are insolvent: the Hawaii Insurance Guaranty Association, which covers direct property and liability contracts, and the Hawaii Life and Disability Insurance Guaranty Association, which covers life and accident and health or sickness insurance policies and insurance contracts.

Your Committee further finds that under the Hawaii Life and Disability Insurance Guaranty Association’s existing structure, if a mutual benefit society, health maintenance organization, or dental insurer becomes insolvent, the policy members of those insurers will be unable to access any relief through the Hawaii Life and Disability Insurance Guaranty Association. This measure therefore creates

the Hawaii Health Insurance Guaranty Association, closely modeled on the organizational structure of the Hawaii Life and Disability Insurance Guaranty Association, as a way to provide relief to those affected members should an insolvency occur.

According to testimony from the Department of Commerce and Consumer Affairs, this measure requires mutual benefit society and health maintenance organization members to be responsible for similar members' health insurance insolvencies, while dental insurers are to be responsible for dental insurer insolvencies, an important separation necessary to ensure that dental insurers are not assessed for health insurers' insolvencies and vice versa. Your Committee notes that this measure protects health and dental insurance policyholders and health care providers and also encompasses agents, service providers, and other creditors in cases of medical service organization, health maintenance organization, or dental insurer financial insolvencies, where no protection mechanism existed before.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2775, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2775, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 2 (Nishihara, Tokuda).

SCRep. 2206 (Joint) Government Operations and Economic Development, Tourism, and Technology on S.B. No. 2454

The purpose and intent of this measure is to:

- (1) Prohibit the State and its political subdivisions from collecting or using a person's electronic data or metadata by means of a cell site simulator device, except under certain conditions;
- (2) Prohibit the installation and use of a cell site simulator device without a court order;
- (3) Specify conditions when a cell site simulator device may be used;
- (4) Specify procedures for application and issuance of an order for a cell site simulator device; and
- (5) Specify reporting requirements related to cell site simulator device applications.

Your Committees received testimony in support of this measure from one individual. Your Committees received testimony in opposition to this measure from the Department of the Prosecuting Attorney for the City and County of Honolulu.

Your Committees find that the unauthorized collection and use of individuals' electronic data or metadata is a major concern that threatens personal security and the trust relationship between the government and public. One way that government is able to capture personal electronic data or metadata is through the use of cell site stimulator devices. These devices, which masquerade as legitimate cellular service hardware, allow government agencies to "trick" cellular devices into connecting to the device rather than an actual cellular service tower. The use of these devices by government agencies without consent or legal authorization has become more widespread and threatens the privacy rights of individuals. Therefore, your Committees find that the unauthorized use of cell site stimulator devices by the State or any of its political subdivisions needs clearly defined limits and proper oversight to ensure the protection of fundamental individual rights.

However, your Committees recognize the concerns raised in testimony by the Department of the Prosecuting Attorney for the City and County of Honolulu regarding law enforcement's potential need for cell site simulator devices in certain emergency situations. Accordingly, your Committees find that there should be an exception for the use of cell site simulators based on a good faith belief that an emergency involving a danger of death or serious bodily injury to a person requires the use of such a device. In addition, your Committees agree with testimony presented that the definition of cell site simulator devices should not be able to be interpreted to include devices employed by the 911 emergency system when rendering emergency aid or assistance.

Accordingly, your Committees have amended this measure by:

- (1) Adding an exception for the use of cell site simulators based on a good faith belief that an emergency involving a danger of death or serious bodily injury to a person requires the use of such a device;
- (2) Amending the definition of "cell site simulator device" such that it does not include any device used as part of the State's 911 emergency system for the purpose of rendering emergency aid or assistance; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Government Operations and Economic Development, Tourism, and Technology that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2454, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2454, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chairs on behalf of the Committees.

Government Operations: Ayes, 3. Noes, none. Excused, 2 (Galuteria, Keith-Agaran).

Economic Development, Tourism, and Technology: Ayes, 4. Noes, none. Excused, 1 (Galuteria).

SCRep. 2207 (Joint) Government Operations and Labor on S.B. No. 2598

The purpose and intent of this measure is to:

- (1) Require each department to deduct the department's total salary overpayment from the department's budget request for the following fiscal biennium;
- (2) Require that employees who exhaust their sick leave be placed on a manual accounting system;
- (3) Repeal the two-year statute of limitations on determination and notice to an employee of salary and wage overpayment; and
- (4) Allow officers charged with collecting debt due to salary or wage overpayment to garnish the pension of former employees.

Your Committees received comments on this measure from the Department of Accounting and General Services, Department of Education, Department of Budget and Finance, and Employees' Retirement System.

Your Committees find that salary overpayments have been an ongoing issue throughout many departments and agencies of the State. These overpayments create needless government waste and strain government resources. In fact, these overpayments total millions of dollars each year. For example, in November 2016, state departments and agencies overpaid salaries in the amount of \$622,266.14. From that point through October 2017, state departments and agencies continued overpaying salaries in an amount exceeding \$415,000 each month. Your Committees find that adherence to stricter guidelines for clawing back overpayments and greater accountability amongst state departments and agencies is necessary to reduce overpayment waste.

However, your Committees acknowledge the concerns raised by testimony from the Employees' Retirement System. The Employees' Retirement System indicated that the proposed requirements would be difficult to implement, including the means by which an overpayment would be properly vetted to garnish a former employees' pension. In addition, the Employees' Retirement System raised concerns that the proposed requirements would make it exceedingly difficult to properly calculate benefits for former employees. Consequently, your Committees suggest that if your Committee on Ways and Means decides to hear this measure, that your Committee on Ways and Means investigate these concerns further.

Accordingly, your Committees have amended this measure by changing the effective date to July 1, 2050, to encourage further discussion.

As affirmed by the records of votes of the members of your Committees on Government Operations and Labor that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2598, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2598, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
 Government Operations: Ayes, 5. Noes, none. Excused, none.
 Labor: Ayes, 4. Noes, none. Excused, 1 (Taniguchi).

SCRep. 2208 (Joint) Government Operations and Labor on S.B. No. 2913

The purpose and intent of this measure is to:

- (1) Require all government procurement officers to attend a training and development program prior to participating in or authorizing any procurement;
- (2) Require all government procurement officers to complete review training every three years;
- (3) Require all procurement officers, department heads, and their deputies, except for the administrator, to attend mandatory procurement training within ninety days of appointment; and
- (4) Appropriate funds to update training modules and implement the training for the procurement workforce of the State.

Your Committees received testimony in support of this measure from the State Procurement Office. Your Committees received comments on this measure from the Department of Human Resources Development.

Your Committees find that those in the State's procurement workforce often lack proper training and education in the State's procurement code. Your Committees find that existing law needs to be clarified so that all individuals involved in the procurement process are required to receive proper training on the procurement code. In addition, your Committees find the field of procurement is varied, complex, and changes often. Therefore, your Committees find that procurement training should be ongoing and that individuals involved with procurement should regularly update their training to stay current on their knowledge of the Code. Moreover, your Committees find that there is often a significant lag in time from when the officer is first appointed and when they receive procurement code training. Therefore, your Committees find that time period to receive training should be definite and immediate.

As affirmed by the records of votes of the members of your Committees on Government Operations and Labor that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2913 and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
 Government Operations: Ayes, 5. Noes, none. Excused, none.
 Labor: Ayes, 4. Noes, none. Excused, 1 (Taniguchi).

SCRep. 2209 (Joint) Government Operations and Labor on S.B. No. 3100

The purpose and intent of this measure is to consolidate the Department of Budget and Finance and the Department of Human Resources Development into the Department of Budget, Finance, and Human Resources and to transfer functions and duties accordingly.

Your Committees received testimony in opposition to this measure from the Department of Human Resources and Development. Your Committees received comments on this measure from the Department of Budget and Finance.

Your Committees find that creating efficiencies in government is essential to maintaining proper government function and instilling public confidence in government. Moreover, government efficiency promotes healthier interactions between government and the public and ultimately produces better outcomes. Under existing law, there exist two separate executive departments, the Department of Human Resources Development and the Department of Budget and Finance. Your Committees find that maintaining these two separate departments is unnecessary and inefficient. For example, maintaining these two agencies as separate entities often causes significant delays in hiring. This problem is of particular concern given the State's aging workforce and the looming need to fill numerous positions in a timely manner. Your Committees also note that other jurisdictions successfully employ a single agency to handle the duties and responsibilities that our state government divides between the Department of Human Resources Development and Department of Budget and Finance. Accordingly, while your Committees acknowledge that changes such as the one proposed in this measure can create uncertainties, your Committees find that the proposed changes would make state government more efficient and better served by specifically combining the Department of Human Resources Development and the Department of Budget and Finance into a single department.

As affirmed by the records of votes of the members of your Committees on Government Operations and Labor that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 3100 and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Government Operations: Ayes, 5; Ayes with Reservations (Ruderman). Noes, none. Excused, none.

Labor: Ayes, 4; Ayes with Reservations (Ihara). Noes, none. Excused, 1 (Taniguchi).

SCRep. 2210 (Joint) Labor and Education on S.B. No. 2042

The purpose and intent of this measure is to include school psychologists in bargaining unit (5).

Your Committees received testimony in support of this measure from the Hawaii Association of School Psychologists and five individuals. Your Committees received testimony in opposition to this measure from the Hawaii State Teachers Association.

Your Committees find that bargaining unit (5), Hawaii State Teachers Association, includes teachers, school counselors, and school librarians. Counselors and librarians that are not specific to schools are included in other bargaining units. School psychologists are included in bargaining unit (13), which includes professional and scientific employees, who cannot be included in any of the other bargaining units. Most members of unit (13) can obtain licensing through the department of commerce and consumer affairs to work outside of the department of education; however, school psychologists are exempt from licensing and other requirements under chapter 465, Hawaii Revised Statutes. Accordingly, your Committees acknowledge that, as specialists that are specific to working in schools, it may be appropriate to include school psychologists within bargaining unit (5). However, your Committees note that this measure is a work in progress and encourage the interested parties to continue to work together to determine the most appropriate bargaining unit for school psychologists.

Your Committees have amended this measure by inserting an effective date of January 1, 2065, to encourage further discussion.

As affirmed by the records of votes of the members of your Committees on Labor and Education that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2042, S.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2042, S.D. 2, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Labor: Ayes, 3. Noes, none. Excused, 2 (Chang, Taniguchi).

Education: Ayes, 4. Noes, none. Excused, 1 (Kahele).

SCRep. 2211 Higher Education on S.B. No. 2328

The purpose and intent of this measure is to, beginning with the 2020-2021 school year, require all courses at all campuses within the University of Hawai'i system that require the use of instructional materials to exclusively use instructional materials from the open educational resources at the University of Hawai'i, under certain conditions.

Your Committee received testimony in support of this measure from the Associated Students of the University of Hawai'i – Hawai'i Community College. Your Committee received testimony in opposition to this measure from the University of Hawai'i System, University of Hawai'i Professional Assembly, Manoa Faculty Senate Executive Committee, Oahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, and numerous individuals.

Your Committee finds that the cost of attending college continues to rise. According to the College Board, the cost of tuition and fees for attending an in-state public college for the 2017-2018 academic year averaged \$9,970, while the average cost for books and supplies for the same academic year at public colleges averaged \$1,250. Despite Hawaii's overall high affordability ranking according to a study in 2016 by the Institute for Research on Higher Education at the University of Pennsylvania Graduate School of Education, attending college was a big expense for families earning less than \$30,000 annually and the State's financial aid policies did little to alleviate costs for these families. Therefore, new and innovative solutions need to be implemented to lower other costs associated with attending school within the University of Hawai'i system.

Your Committee further finds that since 2015, open educational resources at the University of Hawai'i has offered free instructional materials to potentially lower the cost of higher education, provide faculty more control over their instructional materials, and enable new ways of learning for students. Specifically, open educational resources offers learning, teaching, and research resources that are either in the public domain or have been released with an intellectual property license that permits free reuse and repurposing. Through faculty use of open educational resources since its adoption, this technology-driven instructional content has saved students hundreds of thousands of dollars in textbook costs.

Your Committee further finds that, after noting the concerns of numerous testimony from University of Hawai'i faculty, it will always be the right of the faculty to teach their courses in the best manner that they see fit and that faculty are the experts in curriculum

development and pedagogy. However, your Committee wants to provide support to faculty who are interested in lowering costs for students in higher education by using open educational resources in their classrooms.

Your Committee has amended this measure by deleting its contents and inserting language that:

- (1) Establishes the University of Hawai'i open educational resources task force to conduct a comprehensive analysis and evaluation on all general education courses and high attendance courses taught at the University of Hawai'i system to identify open educational resources for those courses;
- (2) Establishes and appropriates funds for an open educational resources pilot project grant program to incentivize faculty that adopt, develop, and implement open educational resources; and
- (3) Requires the University of Hawai'i open educational resources task force to report its findings and recommendation initiatives for supporting and expanding the use of open educational resources at the University of Hawai'i to the Legislature prior to the Regular Session of 2019.

As affirmed by the record of votes of the members of your Committee on Higher Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2328, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2328, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2212 (Joint) Higher Education and Transportation and Energy on S.B. No. 2832

The purpose and intent of this measure is to:

- (1) Allow funds appropriated by the Legislature to be deposited into the University of Hawai'i green special fund;
- (2) Clarify the scope of projects that can be funded by the special fund to include energy efficiency, energy conservation, renewable energy, and sustainability projects;
- (3) Expand the authority of the chief financial officer of the University of Hawai'i to collect, expend, and transfer monies from the special fund; and
- (4) Specify that all expenditures from the special fund shall be subject to legislative approval.

Your Committees received testimony in support of this measure from the University of Hawai'i System, Ulupono Initiative, Hawai'i Energy, and Oahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i.

Your Committees find that green revolving funds are common at many college and university campuses across the country that are dedicated to addressing sustainable facilities, operations, and behaviors. These green revolving funds are typically managed by the University to fund energy efficiency, renewable energy, sustainability, and energy conservation projects that reduce energy use and consumption. Act 186, Session Laws of Hawaii 2017, established the University of Hawai'i green special fund to collect and expend monies generated by energy savings from energy efficiency, renewable energy, and sustainability projects. This measure enables the University of Hawai'i to more efficiently administer and manage the University of Hawai'i green special fund.

Your Committees have amended this measure by making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Higher Education and Transportation and Energy that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2832, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2832, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
Higher Education: Ayes, 3. Noes, none. Excused, 2 (Kidani, Kim).
Transportation and Energy: Ayes, 3. Noes, none. Excused, 2 (English, Harimoto).

SCRep. 2213 (Joint) Public Safety, Intergovernmental, and Military Affairs and Housing on S.B. No. 2157

The purpose and intent of this measure is to establish a temporary refundable income tax credit of twenty-five percent of the total costs, including installation costs, of an automatic fire suppression system in any new detached one- or two-family dwelling unit in a structure used only for residential purposes.

Your Committees received testimony in support of this measure from the State Fire Council, Hawai'i State Association of Counties, General Contractors Association of Hawaii, Oahu County Committee on Legislative Priorities of the Democratic Party of Hawaii, and Kaua'i County Councilmember Derek S.K. Kawakami. Your Committees received comments on this measure from the Department of Taxation, Building Industry Association Hawaii, and Tax Foundation of Hawaii.

Your Committees find that enhanced fire safety measures in residential homes are needed to effectively protect citizens and their property from devastating losses. The vast majority of one- and two-family residences in the State lack automatic fire suppression, or sprinkler, systems. Your Committees find that the primary reason for the lack of home fire sprinkler systems is cost. Therefore, your Committees find that it is important to provide incentives to homeowners to promote more widespread installation of automatic fire suppression systems. Further, your Committees find that an individual income tax credit is an effective method for incentivizing the adoption of this residential fire safety measure.

However, your Committees have concerns about restricting the proposed tax credit to one- or two-family dwelling units. Your Committees find that the proposed tax credit should apply more broadly to all new residential units. Your Committees also recommend

that if your Committee on Ways and Means decides to hear this measure, your Committee on Ways and Means should investigate the appropriateness of broadening the proposed tax credit.

In addition, your Committees agree with the suggestion presented in testimony by the Tax Foundation of Hawaii that the proposed tax credit be non-refundable.

Accordingly, your Committees have amended this measure by:

- (1) Amending language to make all new detached dwelling units used only for residential purposes eligible for the proposed tax credit;
- (2) Changing the proposed tax credit to a non-refundable tax credit;
- (3) Changing the taxable year upon which the proposed credit shall apply to taxable years beginning after December 31, 2050, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Public Safety, Intergovernmental, and Military Affairs and Housing that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2157, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2157, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Public Safety, Intergovernmental, and Military Affairs: Ayes, 4. Noes, none. Excused, 1 (Wakai).

Housing: Ayes, 3. Noes, none. Excused, 2 (Green, Kahele).

SCRep. 2214 (Joint) Public Safety, Intergovernmental, and Military Affairs and Agriculture and Environment on S.B. No. 3032

The purpose and intent of this measure is to:

- (1) Repeal the exemption for agricultural lands that are subdivided and leased for agricultural uses or activities from compliance with county subdivision standards;
- (2) Require condominium property regimes to comply with county subdivision requirements; and
- (3) Repeal the exemption for certain condominium property regimes that are to be sold for \$1,000,000 or more from mandatory registration with the Real Estate Commission.

Your Committees received testimony in support of this measure from the Department of Planning and Permitting, City and County of Honolulu; and Hawaiian Civic Club of Honolulu. Your Committees received testimony in opposition to this measure from the Hawai'i Farm Bureau. Your Committees received comments on this measure from the Department of Agriculture, Department of Commerce and Consumer Affairs, and Office of Planning.

Your Committees find that expanded development of agricultural lands through the existing condominium property regime process threatens the long-term viability of these newly developed condominiums. Since existing laws require that condominium property regimes comply with county zoning but not county subdivision requirements, the county lacks an opportunity to review proposed developments and ensure that there is sufficient infrastructure to support these developments. Your Committees find that the counties should have the opportunity to provide greater input and play a larger role in the process of condominium property regime development on agricultural lands and that condominium developers should not be able to bypass county subdivision requirements. In addition, your Committees find that the existing exemption for certain condominium property regime projects with units to be sold for \$1,000,000 or more from the requirement to be registered with the Real Estate Commission should be eliminated to ensure greater oversight of the condominium property regime process.

Further, your Committees note testimony from the Office of Planning relating to storage and equipment sheds and other similar structures on leased agricultural lands. Your Committees recognize that existing statutes prohibit permanent or temporary dwellings or farm dwellings, including trailers and campers, on the lease lots created. However, your Committees have concerns about storage and equipment sheds and other similar structures being converted to residential use. Therefore, your Committees find that it is important to specifically prohibit such sheds and buildings on leased agricultural lands from being converted to residential use.

Your Committees also note the testimony of the Department of Commerce and Consumer Affairs relating to application for registration of a project in a county agricultural zoning district or preservation zoning district. Your Committees agree that any application for such a project should include a verified statement from the appropriate county official demonstrating the project's compliance with county subdivision requirements.

Accordingly, your Committees have amended this measure by:

- (1) Prohibiting the use of storage sheds, equipment sheds, or other structures appropriate to the agricultural activity carried on within leased agricultural lands for residential purposes for any length of time;
- (2) Inserting language to require that an application for registration of a project in a county agricultural zoning district or preservation zoning district include a verified statement, signed by an appropriate county official, that the project is in compliance with any supplemental county ordinances and rules; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Public Safety, Intergovernmental, and Military Affairs and Agriculture and Environment that are attached to this report, your Committees are in accord with the intent and purpose of S.B.

No. 3032, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 3032, S.D. 1, and be referred to your Committee on Commerce, Consumer Protection, and Health.

Signed by the Chairs on behalf of the Committees.

Public Safety, Intergovernmental, and Military Affairs: Ayes, 4. Noes, none. Excused, 1 (Wakai).

Agriculture and Environment: Ayes, 5. Noes, none. Excused, none.

SCRep. 2215 (Joint) Public Safety, Intergovernmental, and Military Affairs and Commerce, Consumer Protection, and Health on S.B. No. 2818

The purpose and intent of this measure is to allow the Department of Public Safety Narcotics Enforcement Division Administrator to disclose, at their discretion, confidential information from the Electronic Prescription Accountability System, more commonly known as the Prescription Drug Monitoring Program, to authorized employees of the Department of Health Alcohol and Drug Abuse Division and the Emergency Medical Services and Injury Prevention Systems Branch.

Your Committees received testimony in support of this measure from the Department of Public Safety and Department of Health.

Your Committees find that opioid addiction and abuse are a growing problem that threatens the health and well-being of the public. Opioid addiction and abuse can have serious consequences, including death, and should therefore be confronted by employing every available tool at the State's disposal. Your Committees find that one way to combat the growing opioid crisis is to provide certain health officials with authority to analyze data from the Prescription Drug Monitoring Program so that they can help reduce addiction, overdose, and death from opioid use. Accordingly, this measure allows the Department of Public Safety Narcotics Enforcement Division Administrator to disclose confidential information from the Prescription Drug Monitoring Program to authorized employees of the Department of Health Alcohol and Drug Abuse Division and the Emergency Medical Services and Injury Prevention Systems Branch.

As affirmed by the records of votes of the members of your Committees on Public Safety, Intergovernmental, and Military Affairs and Commerce, Consumer Protection, and Health that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2818 and recommend that it pass Second Reading and be referred to your Committee on Judiciary.

Signed by the Chairs on behalf of the Committees.

Public Safety, Intergovernmental, and Military Affairs: Ayes, 5. Noes, none. Excused, none.

Commerce, Consumer Protection, and Health: Ayes, 6. Noes, none. Excused, 1 (Tokuda).

SCRep. 2216 Human Services on S.B. No. 2309

The purpose and intent of this measure is to make the State's nonrefundable earned income tax credit (EITC) refundable.

Your Committee received testimony in support of this measure from Parents and Children Together, Hawaii Children's Action Network, American Association of University Women-Hawaii, Hawaii State Coalition Against Domestic Violence, Hawaii Women's Coalition, Hawai'i Alliance for Community-Based Economic Development, Hawaii Appleseed Center for Law & Economic Justice, Pono Hawai'i Initiative, Life of the Land, Hawaiian Community Assets, Hawaii Alliance for Progressive Action, Hawai'i State Democratic Women's Caucus, and six individuals. Your Committee received comments on this measure from the Department of Taxation and Tax Foundation of Hawaii.

Your Committee finds that Act 107, Session Laws of Hawaii 2017, established a nonrefundable EITC. Your Committee further finds that the federal EITC is refundable, and two-thirds of families in Hawaii who are eligible for the State's EITC are not benefitting because the tax credit is nonrefundable. Your Committee notes that the EITC is designed as an anti-poverty program to help low-income families and would assist families in need. Making the EITC refundable would assist a greater number of families in need.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2309 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Wakai).

SCRep. 2217 (Joint) Human Services and Commerce, Consumer Protection, and Health on S.B. No. 2502

The purpose and intent of this measure is to appropriate funds for purchasing, staffing, and operating two mobile clinics to serve the homeless population.

Your Committees received testimony in support of this measure from the Governor's Coordinator on Homelessness; Office of the Mayor, County of Hawai'i; Hawai'i Primary Care Association; Hawai'i Pacific Health; The Queen's Health Systems; Advance Practice; and Oahu County Committee on Legislative Priorities of the Democratic Party of Hawaii. Your Committees received comments on this measure from the Department of Human Services.

Your Committees find that homeless families and individuals face a myriad of issues, including general health issues, mental illness, and substance abuse. Your Committees further find that these issues also impact the general population through the costs of social and health care services.

Your Committees note that mobile clinics are increasing in popularity across the nation as governments find ways to address the health care needs of the homeless population. One estimate from 2016 found that each dollar spent on mobile clinics saved twelve dollars in other costs.

As affirmed by the records of votes of the members of your Committees on Human Services and Commerce, Consumer Protection, and Health that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2502 and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Human Services: Ayes, 4. Noes, none. Excused, 1 (Wakai).

Commerce, Consumer Protection, and Health: Ayes, 4. Noes, none. Excused, 3 (Ihara, Nishihara, Ruderman).

SCRep. 2218 (Joint) Human Services and Public Safety, Intergovernmental, and Military Affairs on S.B. No. 2305

The purpose and intent of this measure is to:

- (1) Acknowledge adverse experiences faced by children of incarcerated parents;
- (2) Encourage continued efforts and engagement between the Department of Human Services, Department of Public Safety, Family Reunification Working Group, and other community stakeholders;
- (3) Establish visitation centers for incarcerated parents to reunite with their children, to be operated by a non-profit organization in cooperation with the Department of Human Services and Department of Public Safety, and a plan for visitation centers at all state operated correctional facilities; and
- (4) Appropriate funds for work necessary to establish, develop, and implement the visitation centers.

Your Committees received testimony in support of this measure from the Department of Public Safety, Hawaii Children's Action Network, Blueprint for Change, Family Reunification Working Group, Oahu County Committee on Legislative Priorities of the Democratic Party of Hawaii, Planned Parenthood Votes Northwest and Hawaii, Young Progressives Demanding Action, Community Alliance on Prisons, Going Home Hawaii, YWCA O'ahu, Ka Lāhui Hawai'i Political Action Committee, and nine individuals. Your Committees received comments on this measure from the Department of Human Services.

Your Committees find that children of incarcerated parents are more likely to be incarcerated themselves as teenagers or adults. Your Committees further find that parental incarceration is noted as a strong risk factor and determinant for many adverse outcomes for children, including antisocial and violent behavior, mental health problems, failure to graduate from school, and unemployment.

Your Committees believe the establishment of a place of family visitation, known as a visitation center, is in the best interest and well-being of a child and may have many benefits for the incarcerated parent, community, and State.

As affirmed by the records of votes of the members of your Committees on Human Services and Public Safety, Intergovernmental, and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2305 and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Human Services: Ayes, 3. Noes, none. Excused, 2 (Tokuda, Wakai).

Public Safety, Intergovernmental, and Military Affairs: Ayes, 3. Noes, none. Excused, 2 (Thielen, Wakai).

SCRep. 2219 Water and Land on S.B. No. 2286

The purpose and intent of this measure is to:

- (1) Require all use permits at the Ala Wai Boat Harbor to be obtained at public auction;
- (2) Require that public notice of the public auction for a use permit at the Ala Wai Boat Harbor be given and include certain information;
- (3) Require all public auctions for use permits at the Ala Wai Boat Harbor to be conducted by the Chairperson of the Board of Land and Natural Resources or an authorized employee of the Department of Land and Natural Resources under the direction of the Board of Land and Natural Resources without additional compensation; and
- (4) Establish that a use permit at the Ala Wai Boat Harbor be valid for two years.

Your Committee received testimony in support of this measure from the Hawaiian Civic Club of Honolulu. Your Committee received testimony in opposition to this measure from Quicksilver Charters, Calypso Charters, Ocean Tourism Coalition, and Teralani Sailing Adventures. Your Committee received comments on this measure from the Department of Land and Natural Resources.

Your Committee finds that the Ala Wai Boat Harbor is the State's largest small boat harbor, with over seven hundred fifty berths and moorings. According to the Department of Land and Natural Resources, the mooring fees at Ala Wai Boat Harbor, which are separate from the revenue that is generated by land concessions, such as parking at the harbor, do not cover the costs of managing, maintaining, repairing, replacing, and improving the mooring slips and associated infrastructure used by the boaters moored at the harbor. This measure will generate additional revenue to cover the costs of the mooring program and associated infrastructure to support the State's boating and ocean recreation program.

Your Committee notes the concern raised by the Department of Land and Natural Resources that conducting a public auction for a person to obtain a use permit at the Ala Wai Boat Harbor would be a tedious process to implement.

Accordingly, your Committee has amended this measure by:

- (1) Adding language to authorize the Chairperson of the Board of Land and Natural Resources to contract for services as may be necessary to conduct a public auction for use permits at the Ala Wai Boat Harbor;
- (2) Extending the validity of the use permits at the Ala Wai Boat Harbor from two years to five years; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2286, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2286, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4; Ayes with Reservations (Riviere, Thielen). Noes, none. Excused, 1 (Inouye).

SCRep. 2220 Water and Land on S.B. No. 2867

The purpose and intent of this measure is to appropriate funds to the Department of Land and Natural Resources to establish two full-time equivalent fisheries technician IV positions and for operating expenses for a recreational fishing program at the Nuuanu Reservoir.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources and twelve individuals.

Your Committee finds that the Department of Land and Natural Resources used to operate a highly successful recreational fishing program at the Nuuanu Reservoir for many years. This measure will provide the financial and operational support to reestablish this popular program.

Your Committee has amended this measure by:

- (1) Clarifying that the position request is for two permanent positions; and
- (2) Clarifying that the recreational fishing program at the Nuuanu Reservoir is the Nuuanu Reservoir Recreational Fishing Program at Nuuanu Reservoir number four.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2867, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2867, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Inouye, Thielen).

SCRep. 2221 Water and Land on S.B. No. 2995

The purpose and intent of this measure is to appropriate funds to upgrade the Department of Land and Natural Resources' Division of Conservation and Resources Enforcement's trucks currently in use in the County of Hawaii.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources and one individual.

Your Committee finds that vehicle access into remote areas of the County of Hawaii is necessary to patrol and enforce the law on the lands that the Department of Land and Natural Resources manages. This measure will provide resources to enable the upgrade and retrofitting of the vehicle fleet of the Division of Conservation and Resources Enforcement with better off-road capabilities to support the Department's important functions.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2995, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2995, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Inouye, Thielen).

SCRep. 2222 (Joint) Education and Labor on S.B. No. 2380

The purpose and intent of this measure is to amend the Board of Education membership by inviting the exclusive representative for bargaining unit 5 (teachers and other personnel of the Department of Education) to appoint a nonvoting public school teacher representative to the Board.

Your Committees received testimony in support of this measure from the Hawaii State Teachers Association and IMUAlliance. Your Committees received comments on this measure from one individual.

Your Committees find that the Board of Education consists of nine members, none of whom are required to be public school teachers, and that the Board will benefit from the appointment of a current public school teacher, to serve as a nonvoting representative to the Board, as this teacher can provide first-hand experience and expertise on the educational climate in Hawaii's public schools and explain the resources teachers need to help Hawaii's students. An appointed public school teacher on the Board will provide insight into current and proposed educational practices and policies and the effects of those practices and policies on teachers, students, and the community.

As affirmed by the records of votes of the members of your Committees on Education and Labor that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2380 and recommend that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chairs on behalf of the Committees.

Education: Ayes, 4. Noes, none. Excused, 1 (Kahele).

Labor: Ayes, 3. Noes, none. Excused, 2 (Chang, Taniguchi).

SCRep. 2223 Ways and Means on S.B. No. 937

The purpose and intent of this measure is to improve the flexibility of the Department of Budget and Finance in structuring general obligation bond sales, by authorizing the department to use premiums received from the sale of bonds to finance the capital expenditures that are to be funded by the bond proceeds.

Your Committee received testimony in support of this measure from the Department of Budget and Finance.

Your Committee finds that section 39-6, Hawaii Revised Statutes, requires that any premiums received from the sale of general obligation bonds be deposited directly into the general fund. Your Committee further finds that this measure will allow the Department of Budget and Finance to consider the amount of bond premiums available to defray the total costs of the capital project, thereby providing the department with the option to reduce the bond issue accordingly.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 937 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 9. Noes, none. Excused, 2 (English, Kidani).

SCRep. 2224 Ways and Means on S.B. No. 2086

The purpose and intent of this measure is to facilitate the collection of use taxes by requiring:

- (1) Individuals to report and remit use tax liabilities on their individual income tax returns; and
- (2) The Department of Taxation to provide taxpayers with certain information regarding their use tax obligations.

Your Committee received comments on this measure from the Department of Taxation and the Tax Foundation of Hawaii.

Your Committee finds that the use tax is intended to complement the general excise tax, which is a gross receipts tax imposed upon sellers of goods and services for the privilege of doing business in Hawaii. When a purchase is made from a seller who is not subject to the general excise tax, the purchaser becomes subject to the use tax. This policy is intended to impose the same tax obligation on a transaction regardless of whether the seller is subject to the general excise tax.

Your Committee further finds that few individuals are aware of their use tax obligations and even fewer comply with the law, and as a result, a significant amount of tax revenue goes uncollected each year. Accordingly, your Committee believes that requiring taxpayers to report use tax obligations on their individual income tax returns will increase compliance and allow the collection of a significant amount of tax revenue owed to the State.

Your Committee has amended this measure by:

- (1) Replacing references to "calendar year" with "calendar or fiscal year," as appropriate, to reflect the fact that Chapter 238, Hawaii Revised Statutes, authorizes the filing of use tax returns on either a calendar or fiscal year basis;
- (2) Codifying in Chapter 238, Hawaii Revised Statutes, the requirement that the Department of Taxation provide taxpayers with certain information regarding use tax obligations; and
- (3) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2086, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2086, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, none. Excused, 3 (English, Riviere, Shimabukuro).

SCRep. 2225 Ways and Means on S.B. No. 2484

The purpose and intent of this measure is to maintain the responsibility of Hawaii residents to pay a fair and equitable tax on large estates.

More specifically, this measure increases estate taxes for Hawaii net taxable estates valued at over \$10,000,000.

Your Committee received testimony in support of this measure from the Hawaii Appleseed Center for Law and Economic Justice, IMUAlliance, Life of the Land, and five individuals.

Your Committee received comments on this measure from the Department of Taxation and the Tax Foundation of Hawaii.

Your Committee finds that the federal government has significantly raised the threshold for the federal estate tax. Public Law No. 115-97, originally introduced in Congress as the Tax Cuts and Jobs Act, doubles the threshold of the federal estate tax, which will result in a reduction in federal estate tax revenues. Your Committee also finds that, by amending Hawaii's estate tax thresholds and rates, the State can capture some of the money that certain residents will no longer be required to pay to the federal government and redirect that money to the State. Your Committee believes that any additional estate tax revenue paid to the State could be used to pay for priorities that the federal government will no longer be able to support due to the significant reduction of estate tax revenues.

Your Committee has amended this measure by:

- (1) Deleting the amendment to section 236E-6, Hawaii Revised Statutes, which would have added an erroneous statutory cross reference to that section;
- (2) Changing the base tax amount due on Hawaii net taxable estates valued at over \$10,000,000 from \$1,200,000 to \$1,385,000; and
- (3) Making technical nonsubstantive amendments for the purposes of consistency, clarity, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2484, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2484, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 9. Noes, none. Excused, 2 (English, Kidani).

SCRep. 2226 Ways and Means on S.B. No. 2506

The purpose and intent of this measure is to promote tax compliance by increasing from five percent to nine percent the percentage of income tax withheld on the amount realized by nonresidents from the disposition of Hawaii real property.

Your Committee received testimony in support of this measure from the Hawaii Association of Public Accountants and two individuals.

Your Committee received testimony in opposition to this measure from one individual.

Your Committee received comments on this measure from the Department of Taxation, Tax Foundation of Hawaii, and one individual.

Your Committee finds that it is difficult and costly to collect unpaid taxes from nonresident sellers of Hawaii real estate. Your Committee further finds that this measure will allow the State to recover taxes from nonresident sellers who fail to file Hawaii tax returns and pay applicable taxes generated by income from the property sold.

Your Committee has amended this measure by:

- (1) Changing the withholding rate from nine percent to 7.25 percent; and
- (2) Providing that the Act shall apply to real estate dispositions that occur on or after September 15, 2018.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2506, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2506, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 9. Noes, none. Excused, 2 (English, Kidani).

SCRep. 2227 (Joint) Human Services and Commerce, Consumer Protection, and Health on S.B. No. 2211

The purpose and intent of this measure is to further expand the scope of the concussion educational program to protect all children in the State.

Your Committees received testimony in support of this measure from the Department of Education, University of Hawai'i System, Hawai'i Psychological Association, Ho'omanapono Political Action Committee, and eight individuals. Your Committees received comments on this measure from the Hawaii Athletic Trainers' Association.

Your Committees find that Act 197, Session Laws of Hawaii 2012, required the Department of Education and Hawaii High School Athletic Association to develop a concussion educational program for students ages fourteen to eighteen. Your Committees further find that Act 262, Session Laws of Hawaii 2016, expanded the scope of the concussion educational program to cover students age eleven to eighteen and added program requirements. Your Committees note that the University of Hawaii is currently working on a concussion educational program for middle and elementary school students.

Your Committees have amended this measure by:

- (1) Amending the definition of "school athletics" to specify athletic events starting from third grade;
- (2) Amending the definition of "youth athletic activity" to mean activities where the majority of participants are eight years of age and older;
- (3) Inserting an appropriation for the continuation of the concussion educational program for middle and elementary school students; and
- (4) Making the appropriation effective on July 1, 2018.

As affirmed by the records of votes of the members of your Committees on Human Services and Commerce, Consumer Protection, and Health that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2211, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2211, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chairs on behalf of the Committees.
Human Services: Ayes, 5. Noes, none. Excused, none.
Commerce, Consumer Protection, and Health: Ayes, 4. Noes, none. Excused, 3 (Espero, Ihara, Ruderman).

SCRep. 2228 (Joint) Transportation and Energy and Human Services on S.B. No. 2013

The purpose and intent of this measure is to provide homebound individuals an option to renew their identification cards without going to a satellite city hall by requiring the Department of Transportation to develop rules to allow homebound individuals to renew their identification card by means other than an in person appearance, if the individual has a severe disability that is certified by a physician.

Your Committees received testimony in support of this measure from the Oahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i and one individual. Your Committees received testimony in opposition to this measure from the Department of Transportation.

Your Committees find that individuals who are homebound due to a severe disability should not be denied identification cards because they are unable to renew their cards in person. Providing these homebound individuals an option to renew their cards without needing to make an in person appearance is prudent. However, your Committees find that limiting this alternate renewal option to individuals who have a physician's letter certifying severe disability does not achieve the full intent of this measure. The lack of physicians in certain areas could mean that getting a physician's letter is just as impractical as making an in person appearance for renewal.

Thus, your Committees have amended this measure to broaden the scope of acceptable documentation certifying the severe disability by changing the phrase "physician's letter" to "letter from a licensed primary care provider".

As affirmed by the records of votes of the members of your Committees on Transportation and Energy and Human Services that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2013, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2013, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chairs on behalf of the Committees.

Transportation and Energy: Ayes, 3. Noes, none. Excused, 2 (English, Shimabukuro).

Human Services: Ayes, 3. Noes, none. Excused, 2 (Tokuda, Wakai).

SCRep. 2229 Transportation and Energy on S.B. No. 2888

The purpose and intent of this measure is to authorize the issuance of general obligation bonds for the planning, design, and construction of the Pā'ia Bypass, which will alleviate traffic in Pā'ia.

Your Committee received testimony in support of this measure from the Department of Transportation, Maui County Council Chair Mike White, Pā'ia Town Association, and fourteen individuals.

Your Committee finds that traffic in Pā'ia during peak seasons can be disruptive and create safety problems, due to the small size of the town. Constructing a bypass south of the town will alleviate traffic and further passenger and pedestrian safety for visitors and residents.

As affirmed by the record of votes of the members of your Committee on Transportation and Energy that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2888 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 2230 Transportation and Energy on S.B. No. 2551

The purpose and intent of this measure is to remove resisting an order to stop a motor vehicle in the first degree from the list of exempted offenses for which criminal charges may be brought by written information.

Your Committee received testimony in support of this measure from the Honolulu Police Department and Department of the Prosecuting Attorney, County of Maui.

Your Committee finds that this measure would provide the opportunity to provide facts establishing probable cause by way of declaration, instead of requiring law enforcement officers to appear in court to testify at preliminary hearings or before a grand jury. This will provide for a quicker charging process and eliminate the need for a preliminary hearing, freeing up court and law enforcement resources. Your Committee notes that all the offenses of resisting an order to stop a motor vehicle in the first degree on Maui last year had a companion charge that would not have needed a court appearance, and it was only because of the resisting an order offense that a preliminary hearing or grand jury was required.

As affirmed by the record of votes of the members of your Committee on Transportation and Energy that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2551 and recommends that it pass Second Reading and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 2231 Transportation and Energy on S.B. No. 2256

The purpose and intent of this measure is to eliminate the exemption U-drive motor vehicles have with regard to the additional fee on certificate of registrations that goes toward the highway beautification and disposal of abandoned or derelict vehicles revolving fund.

Your Committee received testimony in support of this measure from the Department of Transportation; Office of the Mayor, County of Maui; Maui County Council Chair Mike White; Maui County Councilmember Riki Hokama; Department of Finance, County of Maui; County of Maui Department of Environmental Management; and one individual.

Your Committee finds that abandoned and derelict cars discarded on Hawaii roads mar the beauty of the State and pose a danger to the public by creating unsafe driving conditions. The fees implemented by this measure will help defray the costs of disposing abandoned or derelict vehicles. In addition, U-drive motor vehicles share the road alongside other vehicles, and thus should contribute equally to highway beautification; this measure would lead to U-drive motor vehicles and other vehicles paying equal fees.

As affirmed by the record of votes of the members of your Committee on Transportation and Energy that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2256 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2232 Transportation and Energy on S.B. No. 2715

The purpose and intent of this measure is to extend the authorization of special purpose revenue bonds to assist Kaiuli Energy, LLC, with the financing of a seawater air conditioning district cooling facility and chilled water distribution system.

Your Committee received testimony in support of this measure from Ulupono Initiative and Kaiuli Energy, LLC.

Your Committee finds that saltwater air conditioning projects are basic infrastructure improvements that reduce fossil fuel consumption, electrical usage, harmful emissions, sewer production, and potable water usage. Your Committee also finds that Kaiuli Energy, LLC, is working with major hotel operators and utilities in Waikiki to implement this technology, emphasizing that this technology will help the State move closer to its clean energy goals and support the State's tourism industry.

As affirmed by the record of votes of the members of your Committee on Transportation and Energy that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2715 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2233 Transportation and Energy on S.B. No. 2004

The purpose and intent of this measure is to authorize the Director of Finance to issue general obligation bonds and to provide an appropriation for the construction of a signalized crosswalk on Vineyard Boulevard at River Street, to allow for easier pedestrian access across a heavily trafficked six-lane road.

Your Committee received testimony in support of this measure from the Department of Transportation, Lum Sai Ho Tong, and two individuals.

Your Committee finds that there are popular destinations on both sides of Vineyard Boulevard, and connecting the north and south ends of Chinatown with safe and direct access is the foundation to a vibrant River Street corridor. Your Committee also finds that the signalized crosswalk has been previously supported by the legislature, and that this measure is to ensure that the project can be completed successfully.

As affirmed by the record of votes of the members of your Committee on Transportation and Energy that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2004 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2234 Transportation and Energy on S.B. No. 2684

The purpose and intent of this measure is to update the procedures pedestrians should follow at crosswalks by including instructions on what pedestrians should do while a countdown timer is operating.

Your Committee received testimony in support of this measure from the Department of Transportation.

Your Committee finds that this measure will provide consistency with the meaning of various pedestrian-control signals and clarify that pedestrians may finish their crossing when countdown numbers are displayed.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Transportation and Energy that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2684, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2684, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2235 Transportation and Energy on S.B. No. 2828

The purpose and intent of this measure is to avoid the inefficiencies of the existing system of state motor vehicle inspections, where legislation is needed to change the inspection fee, by providing the Director of Transportation authority to amend administrative rules for the administration and enforcement of motor carrier vehicle safety inspections.

Your Committee received testimony in support of this measure from the Department of Transportation.

Your Committee finds that the existing motor vehicle inspection system is inefficient in that it requires legislation to be passed every time a change to the program is needed or desired. In contrast, amending administrative rules is more efficient, thereby improving safety, service, and value. Your Committee notes that the interests of the public are still protected by public hearings prior to any administrative rule amendment.

Your Committee has amended this measure by:

- (1) Clarifying that the fees currently set in statute shall remain in place until new fees that are established by the Director of Transportation through administrative rules; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Transportation and Energy that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2828, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2828, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 2236 Transportation and Energy on S.B. No. 2854

The purpose and intent of this measure is to enforce the requirement in Act 200, Session Laws of Hawaii 2016, to have annual registration and safety inspections for mopeds by establishing a fine for failure to register a moped.

Your Committee received testimony in support of this measure from the Department of Transportation, Pearl City Neighborhood Board No. 21, Moped Noise Mitigation Working Group, and one individual. Your Committee received testimony in opposition to this measure from Moped Doctors Inc. and one individual.

Your Committee finds that mopeds provide an inexpensive, reliable, and convenient mode of transportation, but illegally modified mopeds are detrimental to neighborhoods. Requiring mopeds to undergo annual registration and safety inspections helps resolve the ongoing issue of illegally modified mopeds, but without enforcement, compliance is an issue. Your Committee believes that establishing a fine for moped owners who fail to register their mopeds will lead to higher registration compliance.

As affirmed by the record of votes of the members of your Committee on Transportation and Energy that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2854 and recommends that it pass Second Reading and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 2237 (Joint) Commerce, Consumer Protection, and Health and Judiciary on S.B. No. 2747

The purpose and intent of this measure is to amend the Hawaii Nonprofit Corporations Act to:

- (1) Clarify that a public benefit corporation may not purchase its memberships;
- (2) Clarify that the term "director" only includes those who have the authority to vote as a member of a board;
- (3) Clarify that a corporation with members may provide for appointment by some other person, or designation, of some of its directors; and
- (4) Allow the Attorney General more time to review a proposed sale or other disposition of substantially all of the assets of a corporation, other than in the regular course of its activities.

Your Committees received testimony in support of this measure from the Department of the Attorney General.

Your Committees find that public benefit corporations are normally prohibited under existing law from making any distributions other than for charitable purposes. Unlike shareholders in profit corporations, members of a public benefit corporation do not have an economic ownership in that corporation. As such, a public benefit corporation's use of its charitable assets to purchase its memberships amounts to a distribution to its members. This measure therefore explicitly prohibits a public benefit corporation from purchasing its memberships and prevents charitable assets from being used for non-charitable purposes.

Your Committees further find that according to testimony from the Department of the Attorney General, there appears to be confusion regarding whether ex-officio directors, or individuals named as directors based on their position or status, who otherwise lack the authority to vote as a member of a board, are in fact directors of a nonprofit corporation. This measure therefore clarifies that directors, for purposes of the Hawaii Nonprofit Corporations Act, only include those who have the ability to vote as members of a board. This measure also makes other housekeeping amendments for consistency with the Revised Model Nonprofit Corporation Act (1987).

Your Committees have amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Commerce, Consumer Protection, and Health and Judiciary that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2747, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2747, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Commerce, Consumer Protection, and Health: Ayes, 4. Noes, none. Excused, 3 (Ihara, Ruderman, Tokuda).

Judiciary: Ayes, 4. Noes, none. Excused, 1 (Thielen).

SCRep. 2238 (Joint) Agriculture and Environment and Water and Land on S.B. No. 2645

The purpose and intent of this measure is to require, for any proposed action involving construction for which an environmental impact statement (EIS) has been accepted by an agency but for which construction has not commenced within five years of acceptance of the statement, the developer of the construction project to exercise due diligence and hold community discussion and feedback sessions to share relevant and new information surrounding the project.

Your Committees received testimony in support of this measure from the Hawaiian Civic Club of Honolulu. Your Committees received testimony in opposition to this measure from the Building Industry Association of Hawaii and Chamber of Commerce Hawaii. Your Committees received comments on this measure from the Department of Agriculture.

Your Committees find that many large scale projects that require an EIS take years longer than initially anticipated and go beyond the time period of potential impacts examined in the EIS. Although state law lacks an explicit time frame of validity for an environmental impact statement, section 11-200-26, Hawaii Administrative Rules, requires a supplemental EIS when a project with an approved EIS has changed substantively in size, scope, intensity, use, location, or timing. Your Committees find that while a supplemental EIS may ensure consideration of an action that is essentially different from the action proposed under the original EIS, the drafting, submission, and approval of a supplemental EIS adds costs to projects that are often already expensive. Therefore, your Committees agree that establishment of an explicit time frame of validity for an EIS, in combination with mandatory community involvement during periods of construction delay, will ensure that an EIS does not go stale, without need for triggering a costly supplemental EIS in every situation.

Your Committees have amended this measure by:

- (1) Extending the time period that triggers the requirement that a developer of a construction project exercise due diligence and hold community discussion and feedback sessions to share relevant and new information surrounding the project from five years to ten years;
- (2) Inserting an effective date of July 1, 2025, to encourage further discussion; and
- (3) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Agriculture and Environment and Water and Land that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2645, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2645, S.D. 1, and be referred to your Committee on Commerce, Consumer Protection, and Health.

Signed by the Chairs on behalf of the Committees.

Agriculture and Environment: Ayes, 4. Noes, none. Excused, 1 (Ruderman).

Water and Land: Ayes, 4; Ayes with Reservations (Thielen). Noes, none. Excused, 1 (Inouye).

SCRep. 2239 (Joint) Agriculture and Environment and Water and Land on S.B. No. 2559

The purpose and intent of this measure is to clarify that state, county, and authorized agents' authority to enter private property to control and eradicate invasive species also applies when there is a reasonable suspicion that invasive species are present on that property.

Your Committees received testimony in support of this measure from the Department of Agriculture; Department of Land and Natural Resources; Coordinating Group on Alien Pest Species; Big Island Invasive Species Committee; Office of the Mayor of the County of Hawaii; Hawaiian Electric Company, Inc.; The Humane Society of the United States; Hawai'i Farm Bureau; The Nature Conservancy of Hawaii; Hawaiian Civic Club of Honolulu; O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i; and three individuals. Your Committees received testimony in opposition to this measure from the Hawaii Cattlemen's Council, Inc., and Animal Rights Hawai'i.

Your Committees find that invasive species and pests are a persistent and real threat to the State. Invasive species and pests can swiftly and permanently alter the ecosystem of the State if not effectively eradicated. To ensure the rapid and complete removal of such species and pests, it is essential to allow the State and counties, through their employees or authorized agents, to have authority to enter onto private property when necessary to control or eradicate priority invasive species and pests before they spread.

Your Committees have amended this measure by:

- (1) Clarifying that the right to enter private property applies to control and eradication of priority invasive species identified by the Invasive Species Council;
- (2) Amending additional statutory language to require the Invasive Species Council to maintain a list of priority invasive species and diseases that pose a high risk to public health and safety, the environment, or agriculture; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Agriculture and Environment and Water and Land that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2559, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2559, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chairs on behalf of the Committees.

Agriculture and Environment: Ayes, 4. Noes, none. Excused, 1 (Ruderman).

Water and Land: Ayes, 4. Noes, none. Excused, 1 (Inouye).

SCRep. 2240 (Joint) Agriculture and Environment and Water and Land on S.B. No. 2084

The purpose and intent of this measure is to establish the agricultural land acquisition fund and appropriate monies through that fund for the acquisition, administration, maintenance, and management of agricultural lands and irrigation systems.

Your Committees received testimony in support of this measure from the Department of Agriculture; Agribusiness Development Corporation; Ulupono Initiative; The Trust for Public Land; Hawaiian Civic Club of Honolulu; Hawaii Cattlemen's Council, Inc.; O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i; Hawai'i Farm Bureau; and one individual. Your Committees received comments on this measure from the Department of Budget and Finance and Tax Foundation of Hawaii.

Your Committees find that the Agribusiness Development Corporation is an agency administratively attached to the Department of Agriculture and tasked with transitioning fallow plantation land into cropland to provide economic opportunities for diversified agriculture operations. Your Committees also find that there is no fund or entity dedicated to conserve and protect agricultural lands pursuant to Article XI, section 3, of the Constitution of the State of Hawaii. Your Committees further find that attempts to stimulate diversified agriculture through regulatory controls and land use and zoning restrictions are not sufficient to effectively and significantly increase diversified agriculture and avert Hawaii's agricultural self-sufficiency crisis. Furthermore, to accomplish the objective of doubling local food production by 2020, the Governor aims to make more land available for agriculture as a priority. Accordingly, this measure provides a means by which agricultural land can be acquired for agricultural purposes.

As affirmed by the records of votes of the members of your Committees on Agriculture and Environment and Water and Land that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2084 and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Agriculture and Environment: Ayes, 4. Noes, none. Excused, 1 (Ruderman).

Water and Land: Ayes, 4. Noes, none. Excused, 1 (Inouye).

SCRep. 2241 (Joint) Agriculture and Environment and Higher Education on S.B. No. 2069

The purpose and intent of this measure is to make an appropriation for the research, development, marketing, and conservation of breadfruit, or 'ulu.

Your Committees received testimony in support of this measure from the Department of Agriculture, University of Hawaii System Government Relations Office, Ho'omanapono Political Action Committee, O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, and six individuals.

Your Committees find that breadfruit, or 'ulu, is a traditional Hawaiian crop with unrecognized potential as an agricultural commodity. It is rich in nutritional content, can be easily grown in Hawaii, and can be used to create gluten-free products. Your Committees find that supporting development of an 'ulu industry will help revive the harvesting of 'ulu and create a valuable commercial crop that will increase food security and self-sufficiency in Hawaii.

As affirmed by the records of votes of the members of your Committees on Agriculture and Environment and Higher Education that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2069 and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Agriculture and Environment: Ayes, 4. Noes, none. Excused, 1 (Nishihara).

Higher Education: Ayes, 5. Noes, none. Excused, none.

SCRep. 2242 (Joint) Economic Development, Tourism, and Technology and Education and Higher Education on S.B. No. 2523

The purpose and intent of this measure is to require the Department of Business, Economic Development, and Tourism to develop regional economic plans to provide jobs in urban and rural areas of each county and require the Department to work with the Department of Education and the University of Hawaii to develop K-12 pathways for all schools to match the State's industry needs.

Your Committees received testimony in support of this measure from the Department of Business, Economic Development, and Tourism; Department of Education; University of Hawai'i; Hawai'i Farm Bureau; Hawai'i Pacific Health; and Ho'omanapono Political Action Committee. Your Committees received testimony in opposition to this measure from the County of Hawai'i Department of Research and Development.

Your Committees find that establishing regional economic plans that are specific to areas based on the development or community boundaries of all the counties is imperative for the State to provide more jobs in urban and rural areas. Your Committees further find that developing K-12 pathways for all schools that focus on the skills necessary to meet the State's specific industry needs will better prepare the future workforce of Hawaii to enter the workforce.

As affirmed by the records of votes of the members of your Committees on Economic Development, Tourism, and Technology, Education, and Higher Education that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2523 and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Economic Development, Tourism, and Technology: Ayes, 4. Noes, none. Excused, 1 (Galuteria).

Education: Ayes, 3. Noes, none. Excused, 2 (Dela Cruz, Espero).

Higher Education: Ayes, 5. Noes, none. Excused, none.

SCRep. 2243 (Joint) Economic Development, Tourism, and Technology and Water and Land and Public Safety, Intergovernmental, and Military Affairs on S.B. No. 2446

The purpose and intent of this measure is to require a percentage of the Hawaii Tourism Authority's budget to be expended by the Department of Land and Natural Resources and counties to protect and enhance the State's infrastructure and natural resources if the number of visitor arrivals exceeds ten million to the State, or 6,500,000 to any county.

Your Committees received testimony in support of this measure from the Environmental Caucus of the Democratic Party of Hawaii, Sierra Club of Hawai'i, The Trust for Public Land, and twenty-three individuals. Your Committees received testimony in opposition to this measure from the Hawaii Tourism Authority and one individual. Your Committees received comments on this measure from the Department of Land and Natural Resources, Life of the Land, and one individual.

Your Committees find that although the ever increasing number of visitors to Hawaii each year has played an important role in the local economy, the visitor impacts on infrastructure and natural resources has not gone unnoticed. With many industry experts anticipating visitor arrivals to exceed ten million within the next five years, your Committees are concerned about the impact of visitors on the quality of life of Hawaii residents. Your Committees find that dedicating funds from the Hawaii Tourism Authority's budget for the development and maintenance of infrastructure and conservation of natural resources recognizes the tourism industry's dependency on the infrastructure needed to accommodate visitors and the natural beauty that attracts visitors to the islands.

Your Committees further find that the Hawaii Tourism Authority publishes a five-year strategic plan and that Goal 1 of the Five-Year Strategic Plan 2016 is to improve the integrity of the destination, with one of the Goal 1 objectives being to be a better steward of the destination and to specifically increase support for programs that manage, improve, and protect Hawaii's natural environment and areas frequented by visitors.

Your Committees would like greater assurance that the Hawaii Tourism Authority is on track to meet the goals set in its Five-Year Strategic Plan 2016, particularly Goal 1. Your Committees request that the Department of Land and Natural Resources consult with the Hawaii Tourism Authority and make recommendations on the Authority's actions thus far and any further actions the Authority should take to enhance the State's natural resources.

Your Committees have amended this measure by:

- (1) Reducing the threshold of visitor arrivals that triggers the budget allocations of this measure from ten million to nine million;
- (2) Inserting language to require the Hawaii Tourism Authority to submit an action report to the Legislature prior to the convening of the Regular Session of 2019 describing in detail any actions the Authority has taken to execute Goal 1 of the Five-Year Strategic Plan 2016; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Economic Development, Tourism, and Technology, Water and Land, and Public Safety, Intergovernmental, and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2446, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2446, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Economic Development, Tourism, and Technology: Ayes, 5. Noes, none. Excused, none.

Water and Land: Ayes, 3. Noes, none. Excused, 2 (Gabbard, Inouye).

Public Safety, Intergovernmental, and Military Affairs: Ayes, 5. Noes, none. Excused, none.

SCRep. 2244 (Joint/Majority) Economic Development, Tourism, and Technology and Water and Land on S.B. No. 3038

The purpose and intent of this measure is to allocate more funds to the special land and development fund by redistributing transient accommodations tax revenue from the tourism special fund to the special land and development fund.

Your Committees received testimony in support of this measure from the Department of Land and Natural Resources, Hawaii Floriculture and Nursery Association, and the Hawaiian Civic Club of Honolulu. Your Committees received testimony in opposition to this measure from the Hawai'i Tourism Authority. Your Committees received comments on this measure from the Tax Foundation of Hawaii.

Your Committees find that Hawaii's state parks, beaches, and trails are some of the most highly sought out destinations for visitors in Hawaii and are areas of high traffic of visitors. Your Committees recognize that although the high number of visitors to the State has benefitted the State's economy, the strain on the State's infrastructure and natural resources are apparent to visitors and residents alike. Your Committees are concerned that the number of visitors continue to increase and that the State's infrastructure and resources are not sufficiently prepared to withstand the impact of the high number of visitors. Therefore, your Committees find that allocating more funds to the Department of Land and Natural Resources to address the high number of visitors and its effect on the State's natural resources will help maintain and develop the beautiful natural environment of Hawaii.

Your Committees have amended this measure by:

- (1) Amending the allowable use of the transient accommodations tax revenues allocated to the special land and development fund to include the protection, preservation, maintenance and enhancement of state parks and trails important to the visitor industry and to include enforcement costs of public lands, which include state parks, beaches, and trails connected with enhancing the visitor experience; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Economic Development, Tourism, and Technology and Water and Land that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 3038, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 3038, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Economic Development, Tourism, and Technology: Ayes, 2. Noes, 1 (Galuteria). Excused, 2 (Baker, Taniguchi).

Water and Land: Ayes, 4. Noes, none. Excused, 1 (Inouye).

SCRep. 2245 (Joint) Housing and Public Safety, Intergovernmental, and Military Affairs on S.B. No. 2594

The purpose and intent of this measure is to require that all renovation or construction of publicly funded residential housing, including projects under the jurisdiction of the Hawaii Housing Finance and Development Corporation and Hawaii Public Housing Authority, incorporate specific housing visitability standards beginning on January 1, 2019.

Your Committees received testimony in support of this measure from the State Council on Developmental Disabilities, College of Education's Center on Disability Studies at the University of Hawaii at Manoa, Oahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, League of Women Voters of Hawaii, Self-Advocacy Advising Council, and one individual. Your Committees received comments on this measure from the Hawaii Housing Finance and Development Corporation and Hawaii Public Housing Authority.

Your Committees find that as Hawaii's population ages, there is an increased need to provide housing with accessibility and community integration for individuals with mobility impairments. By requiring all construction or renovation of publicly funded residential housing to meet visitability standards, this measure will assist in reducing barriers to aging in place and facilitate accessible living.

Your Committees have amended this measure by adopting the language suggested by the Hawaii Public Housing Authority that:

- (1) Allows, rather than requires, the Hawaii Public Housing Authority to comply with visitability standards for the construction or renovation of the Authority's housing projects; and
- (2) Adds language to clarify that application of the visitability standards is not to be construed to place a financial or administrative burden on the operations or renovations of the housing project, exceed the requirements of the federal Americans with Disabilities Act, result in the decrease of vacant units within the housing project, or provide for preferential treatment to tenants with approved reasonable accommodations when a unit becomes available.

As affirmed by the records of votes of the members of your Committees on Housing and Public Safety, Intergovernmental, and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2594, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2594, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Housing: Ayes, 3. Noes, none. Excused, 2 (Green, Kahele).

Public Safety, Intergovernmental, and Military Affairs: Ayes, 4. Noes, none. Excused, 1 (Wakai).

SCRep. 2246 Housing on S.B. No. 2421

The purpose and intent of this measure is to:

- (1) Authorize the Director of Finance to issue general obligation bonds to construct affordable rental units and homes, temporary transitional housing or housing shelters, infrastructure for transit-oriented development, and a condominium on Hawaiian home lands; and
- (2) Allow monies from the conveyance tax and the county surcharge on state tax to be used to repay the general obligation bonds.

Your Committee received testimony in support of this measure from the Hawaii Housing Finance and Development Corporation, Department of Hawaiian Home Lands, Hawaii Public Housing Authority, IMUAlliance, Hawaii Habitat for Humanity Association, and one individual. Your Committee received testimony in opposition to this measure from the Hawai'i Association of REALTORS. Your Committee received comments on this measure from the Department of Budget and Finance, Tax Foundation of Hawaii, and League of Women Voters of Hawaii.

Your Committee finds that the cost of housing and the lack of affordable rentals and properties for sale are two of the most pressing issues facing the State, and that the lack of housing inventory has driven up the cost of rental properties and homes for sale. Furthermore, the shortage of affordable housing is one of the primary causes of homelessness in Hawaii.

Your Committee further finds that a consensus exists among many individuals, working groups, and task forces focused on addressing the issue of homelessness that more units must be constructed to meet the growing demand for affordable housing. Although government land is available for housing, the infrastructure is insufficient in many areas, including for transit-oriented development. It is projected that meeting long-term housing goals will require 64,000 new housing units by 2025, and of that total, 22,200 households of all income levels will require rental units. This measure provides a key funding component to meet these construction goals.

Your Committee has amended this measure by:

- (1) Increasing the percentage of the conveyance tax collected to be paid into the rental housing revolving fund from fifty to sixty percent and repealing the statutory cap of \$38,000,000, to increase the revenue stream into the revolving fund;
- (2) Increasing the amount of the general obligation bonds authorized for issuance for the development of affordable housing from \$500,000,000 to \$800,000,000, and distributing specified amounts to the:
 - (A) Dwelling unit revolving fund, of which a specified amount is dedicated to transit-oriented development infrastructure projects;
 - (B) Rental housing revolving fund; and
 - (C) Rental assistance revolving fund;
- (3) Decreasing the amount of the general obligation bonds authorized for issuance for certain public housing properties under the jurisdiction of the Hawaii Public Housing Authority from \$400,000,000 to \$100,000,000 and removing the purposes of completing Kuhio Park Terrace improvements and the Hawaii Public Housing Authority School Street project;
- (4) Decreasing the amount of general obligation bonds authorized for issuance for the construction of temporary transitional housing or homeless shelters on Kauai, Maui, Oahu, and the island of Hawaii from \$200,000,000 to \$50,000,000 and clarifying that the monies are to be used for constructing homeless shelters statewide and transitional housing centers for the homeless;
- (5) Removing the general obligation bond appropriation of \$450,000,000 to the Hawaii Housing Finance and Development Corporation for the purpose of constructing affordable rental units;
- (6) Removing the general obligation bond appropriation of \$400,000,000 to the Hawaii Housing Finance and Development Corporation for the purpose of constructing infrastructure on or near state lands for transit-oriented development with priority given to certain areas;
- (7) Adding language to allow the Department of Hawaiian Home Lands to use the general obligation bond appropriation for the purpose of constructing tiny homes on Hawaiian home lands and making infrastructure improvements; and
- (8) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2421, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2421, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Green, Kahele).

SCRep. 2247 (Joint) Housing and Public Safety, Intergovernmental, and Military Affairs on S.B. No. 2951

The purpose and intent of this measure is to:

- (1) Clarify the interests that are required to be represented by members who represent community development districts on the Hawaii Community Development Authority;
- (2) Require the Senate President and the Speaker of the House of Representatives, rather than the relevant county council, to nominate certain representatives to serve on the community development districts;
- (3) Require certain representatives who serve on the community development districts to be nominated as a resident representative or a small business owner or nonprofit organization, but not both; and
- (4) Amend the definition of "small business" to require the business to have less than an unspecified number of employees on payroll and be within the physical boundaries of the applicable community development district where its principal place of operations takes place, rather than requiring the small business to not be dominant in its field of operation.

Your Committees received testimony in support of this measure from the Hawaii Energy Policy Forum, Free Access Coalition, and one individual.

Your Committees find that under existing law, the Honolulu City Council, as the council of the county in which all of the community development districts of the Hawaii Community Development Authority are located, nominates individuals to be appointed by the Governor to represent the Heeia, Kalaeloa, and Kakaako community development districts. The Hawaii Community Development Authority includes among its membership three representatives of the Kakaako community development district, including two residents of the district and one owner of a small business or one officer or director of a nonprofit organization in the district. Your Committees further find that in 2017, confusion arose amongst Honolulu City Council members regarding the nomination process for the members representing the Kakaako community development district. Given the important responsibilities of these members in determining the development of designated areas of the State, this measure clarifies the nomination process of these members and the members representing the other community development districts.

As affirmed by the records of votes of the members of your Committees on Housing and Public Safety, Intergovernmental, and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2951 and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
Housing: Ayes, 3. Noes, none. Excused, 2 (Green, Kahele).

Public Safety, Intergovernmental, and Military Affairs: Ayes, 4; Ayes with Reservations (Thielen). Noes, none. Excused, 1 (Wakai).

SCRep. 2248 Government Operations on S.B. No. 2257

The purpose and intent of this measure is to require that revenue estimates provided by the Department of Taxation to the Legislature or to any executive or administrative office be accompanied by a description of the methodology used and assumptions made in providing the estimate and that the estimate and description be open to public disclosure.

Your Committee received testimony in support of this measure from the Civil Beat Law Center for the Public Interest, Common Cause Hawaii, Ulupono Initiative, and two individuals. Your Committee received comments on this measure from the Department of Taxation and Tax Foundation of Hawaii.

Your Committee finds that government transparency is essential to maintaining a healthy relationship between the public and its representatives. Each year, the Legislature proposes many measures that will or may have a resulting economic impact. For many of these measures, the Department of Taxation provides an estimate to the Legislature of the revenue impact of the proposed legislation. However, the Department does not necessarily provide an accompanying description of the methodology used and assumptions made in providing the estimate. Your Committee finds that economic impact estimates can have a significant impact on the actions taken on bills. Therefore, your Committee finds that requiring the Department to provide a description of the methodology used and assumptions made in providing the revenue impact estimate will enhance legislative decision making and promote transparency. As a further means of promoting transparency, your Committee also finds that the Department's estimate and accompanying description of its methodology and assumptions should be made available for disclosure to the public.

As affirmed by the record of votes of the members of your Committee on Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2257 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2249 Government Operations on S.B. No. 3092

The purpose and intent of this measure is to require the Office of Information Practices to resolve all public complaints about noncompliance with chapter 92F and part I of chapter 92, Hawaii Revised Statutes, within six months from the date the Office of Information Practices receives the complaint.

Your Committee received testimony in support of this measure from the Civil Beat Law Center for the Public Interest, Common Cause Hawaii, Society of Professional Journalists Hawaii Chapter, and two individuals. Your Committee received comments on this measure from the Office of Information Practices, League of Women Voters of Hawaii, and one individual.

Your Committee finds that ensuring that the public is afforded appropriate opportunity to access public records is vital to maintaining a strong relationship between government and the public. Part of ensuring the public's opportunity to access public records is resolving disputes relating to those records. The Office of Information Practices was created to provide the public a forum for speedy resolution of disputes about access to public records. Moreover, the Legislature exempted the Office of Information Practices from contested case requirements to ensure that the review would be "expeditious, informal, and at no cost to the public". However, your Committee finds that the average time for the Office of Information Practices to resolve public complaints has been well over a year with numerous complaints pending for two years or more. The delays have, in some cases, discouraged members of the public from bringing disputes. Your Committee further finds that while there are no existing mandatory time periods for the resolution of disputes under law, other jurisdictions have implemented effective time frames for the resolution of public records disputes. Your Committee finds that timely access to public records is critical and that unnecessary delays in accessing government information increase public mistrust of, and disillusionment with government.

In addition, while your Committee acknowledges the Office of Information Practices concerns about the need for additional resources to comply with this measure, your Committee finds that this issue of such significance that the need for resources alone should not derail this measure. Accordingly, your Committee finds that establishing a six month deadline for the resolution of public records complaints will ensure that the Office of Information Practices responds to public complaints in a timely manner that serves the public and provides transparency in government operations.

As affirmed by the record of votes of the members of your Committee on Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3092 and recommends that it pass Second Reading and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2250 Commerce, Consumer Protection, and Health on S.B. No. 3107

The purpose and intent of this measure is to appropriate funds to help persons suffering from multiple chronic conditions through the following initiatives:

- (1) A comprehensive and coordinated continuum of treatment services;
- (2) A pilot project for a centralized referral system;
- (3) Case management programs for substance use disorders; and
- (4) Supervisors for volunteer peer mentors and coaches and incentives for volunteer peer mentors and coaches.

Your Committee received testimony in support of this measure from Ku Aloha Ola Mau; Hawaii Substance Abuse Coalition; Big Island Substance Abuse Council; Hina Mauka; Ohana Makamae, Inc.; Life Foundation and The CHOW Project; The Salvation Army Addiction Treatment Services; Hawaii Advisory Commission on Drugs and Controlled Substances; and three individuals. Your Committee received comments on this measure from the Department of Health.

Your Committee finds that the high prevalence of individuals with multiple chronic conditions is a persistent problem and that health care costs are skyrocketing, with approximately sixty-six percent of total health care spending directed toward the approximately twenty-seven percent of Americans with multiple chronic conditions.

Your Committee finds that all four of the initiatives that would be funded by this measure would help reduce overall health care costs, especially for individuals with multiple chronic conditions, and are in line with best practices. Your Committee believes that all four of the initiatives in this measure are valuable and requests continued consideration for funding of all four initiatives as this measure moves through the legislative process. However, your Committee emphasizes that, of the four initiatives, the top priority is the centralized referral system.

Your Committee urges the Department of Health to continue any and all steps it has already taken to improve treatment of individuals with multiple chronic conditions. Your Committee notes that, for the Department of Health to expand its existing work, the Department will require additional funding. Your Committee strongly urges the Department of Health to pursue grants and other outside funding to support the initiatives that are proposed to be funded by this measure and requests that the Department provide estimates for any additional funding that will be required.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3107 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Espero, Ihara, Nishihara).

SCRep. 2251 Commerce, Consumer Protection, and Health on S.B. No. 2773

The purpose and intent of this measure is to establish regulations for third party administrators, including:

- (1) Encouraging disclosure of contracts between insurers and third party administrators to potential insureds and the Insurance Commissioner;
- (2) Promoting the financial responsibility of third party administrators;
- (3) Regulating third party administrators' practices; and
- (4) Governing the qualifications and procedures for the licensing of third party administrators.

Your Committee received testimony in support of this measure from the Department of Commerce and Consumer Affairs. Your Committee received comments on this measure from the Hawaii-Western Management Group.

Your Committee finds that third party administrators collect charges or premiums from, or adjust or settle claims on, life insurance coverage or accident and health or sickness insurance coverage. Hawaii is one of nine states that do not regulate third party administrators. This measure establishes regulations over third party administrators and is based on the National Association of Insurance Commissioners' Registration and Regulation of Third Party Administrators Guideline.

Your Committee further finds that according to discussions with the Department of Commerce and Consumer Affairs, the Guideline serves as a starting point for states to consider when regulating third party administrators. Your Committee notes that a state's accreditation by the National Association of Insurance Commissioners is not contingent upon a verbatim adoption of the Guideline, and thus, variation between the Guideline and a state's law is acceptable.

Your Committee has amended this measure by:

- (1) Clarifying the surety bond requirements for third party administrators; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2773, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2773, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 2 (Nishihara, Tokuda).

SCRep. 2252 Commerce, Consumer Protection, and Health on S.B. No. 2188

The purpose and intent of this measure is to:

- (1) Establish an additional conveyance tax for the sale of certain condominiums or single family residences; and
- (2) Require that the revenue collected in each county from the additional conveyance tax be allocated to the respective county's affordable housing fund.

Your Committee received testimony in support of this measure from the Maui County Council. Your Committee received testimony in opposition to this measure from the Hawai'i Association of REALTORS. Your Committee received comments on this measure from the Department of Taxation.

Your Committee finds that creating additional affordable housing units is a top priority in each of the counties. Demand for affordable housing is far outpacing supply, and creative solutions and resources are needed for each county to uniquely address the dire shortage of housing. This measure therefore establishes an additional conveyance tax on condominiums and single family residences with a value of \$2,000,000 or more and allocates one hundred percent of the revenue from the additional tax to the revolving affordable housing fund of the county where the property is located. The Department of Taxation testified before your Committee that the Department estimates that the additional conveyance tax proposed by this measure could raise an additional \$56,800,000 per year for affordable housing.

Your Committee has amended this measure by:

- (1) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2188, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2188, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 1 (Ruderman).

SCRep. 2253 Commerce, Consumer Protection, and Health on S.B. No. 2056

The purpose and intent of this measure is to limit obesity and improve healthy options for children and parents by requiring restaurants to offer a healthy option as the default beverage for any children's meal combination.

Your Committee received testimony in support of this measure from the Department of Health, Department of Commerce and Consumer Affairs Insurance Division, Oahu County Committee on Legislative Priorities of the Democratic Party of Hawaii, Hawaii Public Health Association, Hawaii Primary Care Association, Hawaii Public Health Institute, American Cancer Society Cancer Action Network, Tiki's Grill & Bar, American Heart Association, a petition with ninety-seven signatures, and twenty-seven individuals. Your Committee received comments on this measure from the Hawaii Restaurant Association.

Your Committee finds that sugar-sweetened beverages alone make up to nine percent of the calories that children consume daily, and that medical evidence suggests that consumption of sugar sweetened beverages is linked to obesity. Your Committee finds that making a healthier beverage the default option will reduce consumption of sugar-sweetened beverages without restricting consumer freedom or significantly impacting the restaurant industry.

Your Committee has heard concerns from the Department of Health and Hawaii Primary Care Association that the enforcement provision in this measure is superfluous given existing departmental enforcement authority, and may serve only to worsen ties between the Department of Health and the restaurant industry.

Your Committee has also heard the request from the Hawaii Restaurant Association to add an option for a small amount of fruit juice as another default beverage choice. Your Committee finds that this change is in accord with the intent and purpose of this measure, and will improve the rate of and reduce the costs of compliance.

Your Committee has amended this measure by:

- (1) Adding a six ounce or smaller serving of one hundred percent fruit juice as an additional option for a default beverage;
- (2) Deleting the proposed section 321-C, Hawaii Revised Statutes, which provided for enforcement; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2056, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2056, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 3 (Espero, Ihara, Nishihara).

SCRep. 2254 Judiciary on S.B. No. 2897

The purpose and intent of this measure is to appropriate monies for the Honolulu Biennial International Arts Exhibition.

Your Committee received testimony in support of this measure from the Oahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i.

Your Committee finds that the Honolulu Biennial International Arts Exhibition is a multi-site contemporary visual arts festival celebrating works by local Hawaii-based artists and Native Hawaiian artists alongside national and international artists from countries and continents linked by the Pacific Ocean. This measure will provide monies to support this exhibition.

Your Committee has amended this measure by replacing the prior appropriation amount of \$400,000 with a blank amount.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2897, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2897, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 2255 Judiciary on S.B. No. 2205

The purpose and intent of this measure is to appropriate funds to the State Foundation on Culture and the Arts Artist Fellowship Program for the awarding of one-time fellowships to promising artists in the amount of not less than \$25,000.

Your Committee received testimony in support of this measure from the State Foundation on Culture and the Arts and Oahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i.

Your Committee finds that section 9-3, Hawaii Revised Statutes, requires the State Foundation on Culture and the Arts to "[E]stablish an individual artist fellowship program to encourage artists to remain and work in Hawaii and to reaffirm the importance of Hawaii's artists and their cultural and economic contributions". The State Foundation on Culture and the Arts Artist Fellowship Program requires funding through appropriations to fulfill its established purpose. This measure will provide resources for the State Foundation on Culture and the Arts to award fellowships through the Artist Fellowship Program.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2205 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 2256 (Joint) Public Safety, Intergovernmental, and Military Affairs and Judiciary on S.B. No. 2173

The purpose and intent of this measure is to appropriate funds as a grant-in-aid to the Department of the Prosecuting Attorney of the City and County of Honolulu for the Career Criminal Prosecution Unit.

Your Committees received testimony in support of this measure from the Department of the Attorney General, Maui Department of the Prosecuting Attorney, and Department of the Prosecuting Attorney of the City and County of Honolulu.

Your Committees find that supporting a strong and effective prosecutor's office is vital to protecting the health, safety, and welfare of the public. It has long been a recognized problem that a relatively small number of repeat criminals, or "career criminals", commit a disproportionate number of the serious crimes against the public. For that reason, the Legislature created the career criminal prosecution program in 1979. This program has been effective in assisting prosecutors' offices in delivering swift and effective justice. Accordingly, it is important to continue to provide funding to the Department of the Prosecuting Attorney of the City and County of Honolulu for its Career Criminal Prosecution Unit so that the department may continue to protect the public from these dangerous career criminals.

As affirmed by the records of votes of the members of your Committees on Public Safety, Intergovernmental, and Military Affairs and Judiciary that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2173 and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Public Safety, Intergovernmental, and Military Affairs: Ayes, 3. Noes, none. Excused, 2 (Ihara, Wakai).

Judiciary: Ayes, 5. Noes, none. Excused, none.

SCRep. 2257 (Joint) Public Safety, Intergovernmental, and Military Affairs and Judiciary on S.B. No. 2196

The purpose and intent of this measure is to repeal the requirement for the County of Kauai to contract with the Kauai Humane Society to provide animal services.

Your Committees received testimony in support of this measure from Animal Rights Hawai'i, Keiko Conservation, Kauai County Council Chair Mel Rapozo, and two individuals.

Your Committees find that providing humane animal services is important for protecting public health and safety. Existing law requires the County of Kauai to contract exclusively with the Kauai Humane Society. Your Committees find that this limitation is too restrictive and could even result in services not being available to the county. Therefore, your Committees find that the county should have freedom to contract with other providers for appropriate animal services.

As affirmed by the records of votes of the members of your Committees on Public Safety, Intergovernmental, and Military Affairs and Judiciary that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2196 and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Public Safety, Intergovernmental, and Military Affairs: Ayes, 3. Noes, none. Excused, 2 (Ihara, Wakai).

Judiciary: Ayes, 5. Noes, none. Excused, none.

SCRep. 2258 Public Safety, Intergovernmental, and Military Affairs on S.B. No. 2343

The purpose and intent of this measure is to:

- (1) Amend the offense of abuse of a family or household member to provide for felony, misdemeanor, and petty misdemeanor penalties;
- (2) Expand the family court's jurisdiction over certain enumerated offenses committed against family or household members;
- (3) Repeal the prohibition on deferred acceptance of guilty or no contest pleas in cases involving abuse of family or household members;

- (4) Require that no-contact and stay-away orders issued during the pendency of a criminal case or as a condition of probation be enforced regardless of whether the defendant signed a written acknowledgment of the order, provided that the defendant was informed on the record of the terms and conditions of the order in open court; and
- (5) Require that no-contact and stay-away orders issued during the pendency of trial cases involving abuse of family or household members or certain enumerated offenses be automatically converted after the defendant's conviction to a new protective order that shall remain in effect for a fixed reasonable period as the court deems appropriate, unless the victim or witness requests otherwise.

Your Committee received testimony in support of this measure from the Department of the Prosecuting Attorney, City and County of Honolulu; Office of the Prosecuting Attorney, County of Kaua'i; Honolulu Police Department; Maui Police Department; Department of the Prosecuting Attorney, County of Maui; Hawaii State Coalition Against Domestic Violence; Domestic Violence Action Center; ACLU People Power; and five individuals. Your Committee received testimony in opposition to this measure from the Office of the Public Defender and one individual. Your Committee received comments on this measure from the Judiciary and one individual.

Your Committee finds that domestic violence is a serious concern that threatens the health and safety of many of the State's citizens. In particular, those who are victims of domestic violence face the real threat of continued harm. Many victims of domestic violence seek protective orders to help shield themselves from further harm. However, inefficiencies and inadequate protections in the law enforcement and justice systems can lead to failed enforcement of protective orders or a lack of awareness by the victim of the expiration of such an order. It is essential that these inadequacies and others that fail to provide domestic abuse victims with proper protections, be addressed. It is equally important that the perpetrators of domestic violence are held to account for their misdeeds. Accordingly, this measure addresses deficiencies in the system by increasing the penalties for the perpetrators of domestic violence, expanding the role of the family court in adjudicating domestic violence cases, and providing additional safeguards relating to protective orders for domestic violence victims.

However, your Committee acknowledges the various concerns raised in testimony. In particular, your Committee finds that the courts need greater sentencing flexibility, including the ability to use domestic violence intervention and parenting programs as alternative sentences. In addition, your Committee acknowledges the need to effectively convert no-contact and stay-away orders upon conviction. Further, while your Committee wants to ensure maximum protection for victims of domestic abuse, your Committee wants to ensure that defendants have adequate due process protections.

Your Committee has amended this measure by:

- (1) Clarifying that in a case involving abuse of a family or household member under section 709-906, Hawaii Revised Statutes (HRS), or involving harassment of a family or household member as defined in section 709-906, HRS, and charged pursuant to section 711-1106(1)(b) through (f), HRS, a no-contact or stay-away order previously imposed under section 706-624 or 804-7.1, HRS, on a defendant who is sentenced to a term of imprisonment shall be converted by the court upon the defendant's conviction in that case to a new protective order that shall remain in effect for a fixed reasonable period as the court deems appropriate;
- (2) Clarifying the family court's jurisdiction over cases involving harassment of a family or household member;
- (3) Allowing the family court to sentence a defendant in cases involving harassment of a family or household member, as defined in section 709-906, HRS, to complete a domestic violence intervention program or parenting classes;
- (4) Adding provisions to protect the due process of defendants by allowing defendants to show good cause for failure to comply with a no-contact or stay-away order;
- (5) Requiring offenders who commit abuse of a family or household member in the presence of a minor to complete a domestic violence intervention program and any available parenting class within a time frame specified by the court;
- (6) Inserting additional requirements for the court to satisfy when sentencing a person for abuse of a family or household member;
- (7) Specifying that a deferred acceptance of guilty plea or nolo contendere plea shall not apply to abuse of a family or household member in the first degree or third degree; and
- (8) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2343, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2343, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2259 Human Services on S.B. No. 2303

The purpose and intent of this measure is to:

- (1) Require the Office of Youth Services to coordinate a two-year safe places for youth pilot program, which will coordinate a network of safe places where youth can access safety and obtain advice, guidance, programs, and services; and
- (2) Establish and appropriate funds for a safe places for a youth pilot program coordinator position and residential options for the pilot program.

Your Committee received testimony in support of this measure from the Office of Youth Services, Honolulu Police Department, Hawaii Youth Services Network, Rainbow Family 808, Planned Parenthood Votes Northwest and Hawaii, IMUAlliance, and three individuals.

Your Committee finds that between one million and 1.7 million homeless youth have run away or have been asked to leave their homes. Your Committee further finds that a 2016 National Conference of State Legislatures article indicates that studies have shown that forty-six percent of runaway youth and homeless youth reported being physically abused, thirty-eight percent reported being emotionally abused, and seventeen percent reported being forced into unwanted sexual activity by a family member or household member. Homeless youth are at a higher risk for physical abuse, sexual exploitation, mental health disabilities, substance abuse, and death. Your Committee recognizes the importance of establishing safe places that offer shelter, programs, and support to at-risk youth.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2303 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Wakai).

SCRep. 2260 Human Services on S.B. No. 2089

The purpose and intent of this measure is to:

- (1) Establish a Youth Commission within the Office of Youth Services to advise the Governor and Legislature on the effects of legislative policies, needs, assessments, priorities, programs, and budgets concerning the youth of the State; and
- (2) Appropriate funds for the hiring of one staff position to administer the Youth Commission and other administrative costs.

Your Committee received testimony in support of this measure from the Office of Youth Services, IMUAlliance, Hawaii Youth Services Network, Students for Public Outreach and Civic Education, Community Alliance on Prisons, Rainbow Family 808, Hawai'i Educational Policy Center, and six individuals.

Your Committee finds that increasing youth participation in the public policymaking process is a vital state interest. Your Committee further finds that although youth under the age of eighteen are not allowed to vote, they deserve access and input through other means in the policymaking process. Your Committee recognizes that a youth commission would enable a greater role for young people in the policymaking process by advising the Governor and Legislature on legislative policies and priorities concerning the youth of the State.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2089 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Wakai).

SCRep. 2261 Human Services on S.B. No. 2302

The purpose and intent of this measure is to appropriate funds to the Hawaii Youth Services Network as a grant to provide short-term funding, from May to September 2018, to address the anticipated loss of federal funds that support the runaway and homeless youth partnership's transitional living program.

Your Committee received testimony in support of this measure from the Governor's Coordinator on Homelessness, Department of Human Services, Office of Youth Services, Hawaii Substance Abuse Coalition, Hawaii Youth Services Network, League of Women Voters, Hale Kipa, Domestic Violence Survivor Advocate, Hawaii Children's Action Network, Rainbow Family 808, and three individuals.

Your Committee finds that the 2017 State of Hawaii homeless point-in-time count recorded an overall twelve percent decrease statewide in the total number of unsheltered homeless, yet the homeless youth count was nearly identical to that of 2016. Your Committee further finds that three hundred nineteen unaccompanied youth were counted as homeless and that eighty-two percent of unaccompanied youth were unsheltered.

Your Committee notes that the Hawaii Youth Services Network, a nonprofit statewide coalition of youth-serving organizations, has conducted a statewide runaway and homeless youth partnership program providing street outreach, emergency shelter, and transitional living space to runaway and homeless youth. The homeless youth partnership program offers safe and stable housing for youth ages sixteen to twenty-one for up to eighteen months. Your Committee recognizes that the Hawaii Youth Services Network has received federal grant funding to support services of the transitional living program and that the current federal grant funding ends on April 30, 2018.

Your Committee also notes that in June 2017, Hawaii Youth Services Network and other grantees were informed that they could not apply to renew grant funding and there was no certainty that there would be funding available in 2018. Should funding be available in 2018, the new grant would not become available until September 30, 2018, creating a minimum five-month lapse in funding for the transitional living program. Appropriating funds to the Hawaii Youth Services Network and partner organizations to fill this gap in funding demonstrates the need and importance of programs and services for unaccompanied homeless youth such as transitional living programs.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2302 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Wakai).

SCRep. 2262 Human Services on S.B. No. 3028

The purpose and intent of this measure is to:

- (1) Require certain amounts of child support monies collected by the Department of Human Services for public assistance of a child to pass through to the family receiving the public assistance; and
- (2) Require the Department to disregard a certain amount of pass through child support payments when determining the needs of an applicant for or recipient of public assistance.

Your Committee received testimony in support of this measure from the Department of Human Services, Hawaii Appleseed Center for Law & Economic Justice, Domestic Violence Action Center, American Association of University Women-Hawaii, Hawaii Children's Action Network, Hawai'i State Democratic Women's Caucus, and two individuals. Your Committee received comments on this measure from the Department of the Attorney General.

Your Committee finds that, in 2013, child support payments accounted for over 70.3 percent of annual income for custodial parents in the United States living below poverty who received full child support payments. According to testimony received by your Committee, under state law, individuals who receive public assistance in the form of Temporary Assistance for Needy Families (TANF) benefits do not receive child support payments. This is because a parent who owes child support to a family receiving TANF must pay child support to the State rather than to the custodial parent. The Department of Human Services retains a portion of that money to reimburse itself and the federal government for providing TANF. Allowing child support monies for public assistance of a child to pass through to the family receiving public assistance will allow families to be more financially secure and ultimately depend less on public assistance.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3028 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Wakai).

SCRep. 2263 Human Services on S.B. No. 2097

The purpose and intent of this measure is to:

- (1) Authorize child abuse and neglect investigation findings for incidents occurring in licensed group child care homes or group child care centers to be disclosed to parents or guardians of children enrolled in the home or center at the time of the alleged abuse or neglect or to parents or guardians considering enrolling their children in the home or center; and
- (2) Authorize the disclosure of an investigation involving a finding of a felony or misdemeanor to any person upon request.

Your Committee received testimony in support of this measure from Parents and Children Together, Sounds of Success Preschool & Learning Center, Rainbow Family 808, and thirteen individuals. Your Committee received comments on this measure from the Department of Human Services.

Your Committee finds that child care facilities play a significant role in the development and growth of a child. Your Committee further finds that parents place a significant amount of trust in child care facilities to ensure that their children are safe and should have access to certain information when selecting a child care facility. Your Committee notes that authorizing the disclosure of child abuse and neglect investigation findings will provide beneficial input to parents and guardians when selecting a safe child care provider and facility.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2097 and recommends that it pass Second Reading and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Wakai).

SCRep. 2264 Human Services on S.B. No. 2663

The purpose and intent of this measure is to codify the State's commitment to conservation and sustainability by including goal two, zero hunger, of the seventeen United Nations Sustainable Development Goals and indicators, with references to existing state sustainability programs, if applicable, in the Hawaii Revised Statutes.

Your Committee received testimony in support of this measure from the Department of Human Services, Department of Agriculture, Office of Planning, Airport Concessionaires Committee, Oahu Economic Development Board, and Oahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i.

Your Committee finds that Hawaii has been a leader in conservation efforts for decades, through its commitment to environmental and sustainability policies, and that a priority of the Senate for the Regular Session of 2018 is to adopt United Nations' Sustainable Development Goals at the state level. The seventeen Sustainable Development Goals are a universal call to action to end poverty, protect the planet, and ensure that all people enjoy peace and prosperity. This measure codifies Sustainable Development Goal two, zero hunger, into state law.

Your Committee has amended this measure by:

- (1) Codifying Sustainable Development Goal two into chapter 226, Hawaii Revised Statutes, instead of chapter 344, Hawaii Revised Statutes; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2663, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2663, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Wakai).

SCRep. 2265 Human Services on S.B. No. 2662

The purpose and intent of this measure is to codify the State's commitment to conservation and sustainability by including goal one, no poverty, of the seventeen United Nations Sustainable Development Goals and indicators, with references to existing state sustainability programs, if applicable, in the Hawaii Revised Statutes.

Your Committee received testimony in support of this measure from the Department of Human Services, Department of Agriculture, Office of Planning, Airport Concessionaires Committee, Oahu Economic Development Board, and Oahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i.

Your Committee finds that Hawaii has been a leader in conservation efforts for decades, through its commitment to environmental and sustainability policies, and that a priority of the Senate for the Regular Session of 2018 is to adopt United Nations' Sustainable Development Goals at the state level. The seventeen Sustainable Development Goals are a universal call to action to end poverty, protect the planet, and ensure that all people enjoy peace and prosperity. This measure codifies Sustainable Development Goal one, no poverty, into state law.

Your Committee has amended this measure by:

- (1) Codifying Sustainable Development Goal one into chapter 226, Hawaii Revised Statutes, instead of chapter 344, Hawaii Revised Statutes; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2662, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2662, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Wakai).

SCRep. 2266 Human Services on S.B. No. 2050

The purpose and intent of this measure is to require the Department of Human Services to implement an earned income disregard program as an intermediate step to implementing a full Medicaid buy-in program.

Your Committee received testimony in support of this measure from the State Council on Developmental Disabilities, Lanakila Pacific, and Hawaii Disability Rights Center. Your Committee received comments on this measure from the Department of Human Services.

Your Committee finds that Act 200, Session Laws of Hawaii 2012, established a joint legislative Medicaid Buy-In Task Force to explore the possibility of implementing a Medicaid buy-in program for individuals with disabilities who are either not working or currently working but would like to earn more income. Your Committee further finds that the Medicaid Buy-In Task Force recommended an alternate approach of an interim step to the Medicaid buy-in program for individuals with disabilities to earn income and not lose their Medicaid benefits. While this interim program would not provide the full benefits of a Medicaid buy-in program, it would increase the amount of income an individual could earn while retaining Medicaid eligibility.

Your Committee has amended this measure by:

- (1) As suggested by the Department of Human Services:
 - (A) Inserting language to allow greater flexibility in determining the income disregard amount;
 - (B) Inserting language to reflect that the earned income disregard program would be contingent on approval by the Centers for Medicare and Medicaid Services; and
 - (C) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2050, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2050, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Wakai).

SCRep. 2267 Human Services on S.B. No. 2875

The purpose and intent of this measure is to repeal language that requires child care providers to disclose a summary of information relating to liability insurance coverage to parents and guardians applying for child care at a child care facility.

Your Committee received testimony in support of this measure from the Department of Human Services, Kuliouou Child Care, Precious Little Ones Child Day Care, Keiki Ohana Daycare, and five individuals.

Your Committee finds that the intent of Act 161, Session Laws of Hawaii 2017, was to strengthen minimum standards on child care to improve the health and safety of children by requiring child care providers to obtain and maintain liability insurance coverage. Your Committee further finds that survey responses from child care providers indicate that home-based child care providers are considering not registering with the Department of Human Services due to the new insurance requirement, citing concerns over the disclosure of what they believe to be confidential information and concerns of being targeted for lawsuits once the amounts of liability coverage of each provider are disclosed. This measure will allow the Department additional time to establish child care insurance coverage rules and policies that satisfy all child care providers.

Your Committee has amended this measure by:

- (1) Repealing language that requires the Department of Human Services to determine an amount of liability insurance coverage required to be obtained and maintained by child care providers;
- (2) Amending Act 161, Session Laws of Hawaii 2017, to extend the implementation and enforcement deadline to allow the Department additional time to establish new rules and policies for liability insurance for child care providers; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2875, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2875, S.D. 1, and be referred to your Committee on Commerce, Consumer Protection, and Health.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Wakai).

SCRep. 2268 Human Services on S.B. No. 2539

The purpose and intent of this measure is to:

- (1) Establish the misdemeanor offense of failure to properly care for a child resulting in death or injury, applicable to group child care homes and group child care centers; and
- (2) Require that the child care provider's license or temporary permit be immediately revoked upon conviction of the new offense.

Your Committee received testimony in support of this measure from Rainbow Family 808, Oahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, and fifty-two individuals. Your Committee received comments on this measure from the Department of Human Services and Department of the Attorney General.

Your Committee finds that child care is a necessity for many working parents and guardians. Your Committee further finds that parents and guardians who enroll their child at a child care facility trust that their child's health, well-being, and safety are a priority. However, recent events have revealed the need for strong deterrents to ensure that children are being properly cared for in child care facilities.

Your Committee encourages the Committee on Judiciary, should it choose to hear this measure, to take into consideration the concerns expressed by the Department of the Attorney General.

Your Committee has amended this measure by:

- (1) Requiring that a child be seriously injured, rather than merely injured, in order to constitute the offense;
- (2) Inserting a definition for "seriously injured"; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2539, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2539, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Wakai).

SCRep. 2269 Human Services on S.B. No. 2793

The purpose and intent of this measure is to require the Department of Human Services to use an integrated and multigenerational approach when delivering human services to improve social well-being, economic security, and productivity and to reduce intergenerational poverty and dependence on public benefits.

Your Committee received testimony in support of this measure from the Department of Human Services and Oahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i.

Your Committee finds that the Department of Human Services provides benefits and services to one in four Hawaii residents, or about 360,000 individuals, and provides medical insurance coverage for about half of the State's children. Your Committee further finds that the Department is part of a national movement to improve the delivery of human services led by the National Governors Association, American Public Human Services Association, Ascend of the Aspen Institute, Urban Institute, and other agencies and organizations. Your Committee notes that the adoption of a service integration and multigenerational approach will transform the Department's practices and services to better support children, parents, and other individuals.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2793, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2793, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Wakai).

SCRep. 2270 Human Services on S.B. No. 2788

The purpose and intent of this measure is to:

- (1) Establish the health analytics program in the Med-QUEST Division of the Department of Human Services;
- (2) Require the health analytics program to maintain an all-claims, all-payer database;
- (3) Establish and appropriate general funds for four positions to support the health analytics program and administrative costs; and
- (4) Appropriate federal funds for the health analytics program.

Your Committee received testimony in support of this measure from the Department of Human Services, Department of Commerce and Consumer Affairs, Department of Budget and Finance, Department of Health, University of Hawai'i System, Office of Enterprise Technology Services, State Health Planning and Development Agency, and Hawaii Medical Service Association. Your Committee received comments on this measure from the Hawaii Employer-Union Health Benefits Trust Fund and Hawai'i Primary Care Association.

Your Committee finds that the Legislature enacted Act 139, Session Laws of Hawaii 2016, to facilitate greater transparency and understanding of health costs, improve healthcare system quality and population health outcomes, and address disparities through the development of an all-payer system claims data warehouse. Your Committee further finds that the health analytics program and all-payers medical claims database would allow the Med-Quest Division of the Department of Human Services to utilize community based analytics to improve programs and services and meet critical Medicaid-specific operational and policy goals. Given the size and complexity of the Medicaid program in the State, the health analytics program and all-payers medical claims database will better inform the Division's collection and analysis of data in order to improve and transform the State's health care delivery system.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2788, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2788, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Wakai).

SCRep. 2271 (Joint) Commerce, Consumer Protection, and Health and Public Safety, Intergovernmental, and Military Affairs on S.B. No. 2006

The purpose and intent of this measure is to:

- (1) Exempt the gross proceeds of costs incurred to retrofit or install automatic fire sprinkler systems from general excise taxes; and
- (2) Provide interest-free loans to condominium associations to retrofit or install automatic fire sprinkler systems.

Your Committees received testimony in support of this measure from the State Fire Council; Honolulu Fire Department; Kaua'i Fire Department; County of Hawai'i, Hawai'i Fire Department; Oahu County Committee, Legislative Priorities Committee of the Democratic Party of Hawaii; Hawaii Council of Associations of Apartment Owners; Hawaiian Civic Club of Honolulu; Associa; and five individuals. Your Committees received comments on this measure from the Department of Taxation and Building Industry Association of Hawaii.

Your Committees find that the devastating Marco Polo condominium fire in July 2017 highlighted the dangers of fires in buildings without fire sprinklers. Your Committees further find that condominium associations have voiced concerns regarding the financial burden to property owners who want or are required to retrofit their units with automatic fire sprinklers, as the cost to retrofit high-rise residential buildings varies and may be as high as several million dollars. This measure therefore exempts certain costs associated with retrofitting or installing automatic fire sprinkler systems from the general excise tax and enables condominium associations to seek interest-free loans for this process from the Hawaii Housing Finance and Development Corporation.

However, your Committees note certain concerns that were raised during the public hearing on this measure. In particular, your Committees have concerns that this measure may enable the use of public monies to help only one segment of the public – condominium owners. Your Committees also note that this measure permits condominium associations to apply for loans from the Hawaii Housing Finance and Development Corporation, an entity primarily responsible for financing and developing workforce and affordable housing. Your Committees believe these concerns warrant further discussion as this measure moves through the legislative process.

Your Committees have amended this measure by:

- (1) Removing language that would have exempted the gross proceeds of costs incurred to retrofit or install automatic fire sprinkler systems from general excise taxes;
- (2) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Commerce, Consumer Protection, and Health and Public Safety, Intergovernmental, and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2006, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2006, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Commerce, Consumer Protection, and Health: Ayes, 6; Ayes with Reservations (Ihara, Ruderman). Noes, none. Excused, 1 (Tokuda).

Public Safety, Intergovernmental, and Military Affairs: Ayes, 5; Ayes with Reservations (Baker, Ihara, Thielen, Wakai). Noes, none. Excused, none.

SCRep. 2272 (Joint) Commerce, Consumer Protection, and Health and Public Safety, Intergovernmental, and Military Affairs on S.B. No. 2718

The purpose and intent of this measure is to improve administration of the State's cannabis dispensary program by:

- (1) Amending the out-of-state reciprocity program;
- (2) Extending the maximum period of validity of a written certification of a debilitating medical condition;
- (3) Allowing for the creation of a bona fide physician-patient or advanced practice registered nurse-patient relationship via telehealth;
- (4) Adding devices that provide safe pulmonary administration to the list of permitted manufactured cannabis products;
- (5) Increasing the maximum dosage amount of tetrahydrocannabinol per pack or container of certain manufactured cannabis products;
- (6) Exempting employees without direct access to cannabis from background check requirements; and
- (7) Requiring the use of a subpoena to obtain certain records regarding dispensaries and production centers from the Department of Health.

Your Committees received testimony in support of this measure from the Drug Policy Forum of Hawaii; Hawaii Educational Association; Aloha Green Holdings, Inc.; Noa Botanicals; Maui Grown Therapies; Hawaii Advocates for Consumer Rights; Hawaiian Ethos; Lau Ola, LLC; and four individuals. Your Committees received testimony in opposition to this measure from Malie Cannabis Clinic. Your Committees received comments on this measure from the Department of Health and Department of the Attorney General.

Your Committees find that amendments to the medical cannabis dispensary law are necessary to clarify legislative intent, ensure smooth administration of the law, and allow for adequate patient access based on discussions of the Act 230 Medical Cannabis Legislative Oversight Working Group (Working Group). Your Committees also find that the portions of this measure allowing the establishment of bona fide physician-patient and advanced practice registered nurse-patient relationships via telehealth and allowing safe pulmonary administration of cannabis are appropriate, provided that language from the Working Group is added to clarify which devices are permissible. Your Committees also find that an increase in tetrahydrocannabinol per pack or container is appropriate; provided that dispensaries do not violate established limits. However, other elements of this measure would present challenges to dispensaries and qualifying patients.

Specifically, your Committees have heard concerns with respect to the proposed reciprocity program, which may affect the supply of cannabis for qualifying patients in Hawaii and be overly burdensome for dispensaries. Your Committees find that an extension of the maximum period of validity for a qualifying patient's written certification goes against current medical practice, which is to review any long-term prescription every year. Your Committees also find that requiring background checks for all employees offers better protection for consumers than limiting the requirement to only those employees with direct access to cannabis, as it is difficult to know in advance which employees will have direct access to cannabis and those who will not. Lastly, your Committees find that requiring the Department of Health to obtain a subpoena before disclosing records regarding dispensaries and production centers will likely impede the work of the Department of Health and law enforcement agencies, especially in exigent circumstances. Amendments to this measure are therefore necessary.

Accordingly, your Committees have amended this measure by:

- (1) Deleting the provisions relating to the reciprocity program, extension of the maximum duration of a qualifying patient's written certification, exemption from the background check requirement for certain employees without direct contact with cannabis, and addition of a subpoena requirement for the Department of Health to access certain dispensary and production center records;
- (2) Incorporating language from the Working Group and Department of Health into the description of devices that provide safe pulmonary administration to clarify that a device that provides safe pulmonary administration is used to aerosolize and deliver cannabis orally, such as a medical-grade inhaler or nebulizer, and uses single-use, disposable, pre-filled, tamper-resistant, sealed containers;
- (3) Clarifying that increased dosage per pack or container limits do not exempt dispensaries from adhering to existing dispensing limits;

- (4) Inserting an amendment to section 453-1.3, Hawaii Revised Statutes, to conform to the provision allowing a bona fide physician-patient relationship to be established via telehealth; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Commerce, Consumer Protection, and Health and Public Safety, Intergovernmental, and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2718, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2718, S.D. 1, and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chairs on behalf of the Committees.

Commerce, Consumer Protection, and Health: Ayes, 6. Noes, none. Excused, 1 (Tokuda).

Public Safety, Intergovernmental, and Military Affairs: Ayes, 5. Noes, none. Excused, none.

SCRep. 2273 Commerce, Consumer Protection, and Health on S.B. No. 2650

The purpose and intent of this measure is to:

- (1) Make permanent the requirement for certain motion picture theater owners and operators to provide open movie captioning for at least two showings per week, one of which shall have a scheduled start time no earlier than 4:30 p.m.; and
- (2) Repeal the requirement to provide an option of personal closed captioning screenings by means of lightweight eyewear.

Your Committee received testimony in support of this measure from the Office of Language Access; Disability and Communication Access Board; State Council on Developmental Disabilities; Hawai'i Civil Rights Commission; Hawaii Disability Rights Center; Aloha State Association of the Deaf; Comprehensive Service Center; Isle Interpret, LLC; and sixty-eight individuals. Your Committee received testimony in opposition to this measure from the Regal Entertainment Group, Consolidated Theaters, and seventeen individuals.

Your Committee finds that Act 39, Session Laws of Hawaii 2015 (Act 39), required movie theaters with more than two locations in Hawaii to provide open movie captioning at two showings per week. Act 39 augmented federal requirements, which require movie theaters to offer an assistive technology option to view movies with closed captioning. However, Act 211, Session Laws of Hawaii 2017 (Act 211), rolled back the requirements established by Act 39, by requiring movie theaters to offer one viewing, rather than two, with open captioning per week and offer lightweight eyewear as an alternative to open movie captioning. This measure seeks to restore the original requirements contemplated by Act 39, which enabled deaf, hard of hearing, and deaf blind consumers to enjoy movies in a similar manner as those who do not require open movie captioning.

According to testimony from the Disability and Communication Access Board, the deaf community strongly prefers open captioning to any type of eyewear, even if lightweight. The Disability and Communication Access Board noted that the federal closed captioning law pertaining to eyewear was not a preference of the deaf and hard of hearing community, but rather a compromise with the movie theater industry. The Disability and Communication Access Board also noted that federal requirements permit movie theaters to use any option to view closed captions, while Act 211 specifies one particular type of closed captioning device, in the form of lightweight eyewear. Your Committee further finds that given the rapid technological advances common in today's society, referencing a specific type of technology, such as lightweight eyewear, in statute is problematic, as it is likely that such technology could soon be rendered obsolete.

Finally, your Committee notes that open movie captioning also provides a critical benefit to Limited English Proficient individuals and English-Language Learners. According to the Office of Language Access, open movie captioning can be a great tool for Limited English Proficient individuals and English-Language Learners to enjoy movies and can increase opportunities to learn the correspondence between spoken and written language.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2650, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2650, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 5; Ayes with Reservations (Chang). Noes, none. Excused, 2 (Nishihara, Tokuda).

SCRep. 2274 Commerce, Consumer Protection, and Health on S.B. No. 2772

The purpose and intent of this measure is to clarify:

- (1) Bond requirements for money transmitter licensees; and
- (2) The powers of the Commissioner of Financial Institutions relating to money transmitters.

Your Committee received testimony in support of this measure from the Department of Commerce and Consumer Affairs.

Your Committee finds that this measure clarifies the powers of the Commissioner of Financial Institutions and amends bond provisions for consistency with terms used in the Money Transmitters Act. This measure also enhances the Commissioner of Financial Institutions' ability to take appropriate action against violators of the State's money transmitters law, deter noncompliance, and protect consumers.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2772, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2772, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 1 (Ruderman).

SCRep. 2275 Commerce, Consumer Protection, and Health on S.B. No. 2054

The purpose and intent of this measure is to:

- (1) Clarify the process, including payment obligations, mediation requirements, and triggers for further default, where a condominium unit owner and association reach a payment plan to resolve a nonjudicial foreclosure; and
- (2) Establish procedures that provide condominium owners with the right to submit disputed legal fees, penalties or fines, late fees, lien filing fees, or other charges, except for common expense assessments, to the mediation process prior to payment.

Your Committee received testimony in support of this measure from the Hawaii Council of Associations of Apartment Owners; Hawaiian Affairs Caucus, Democratic Party of Hawai'i; Community Associations Institute, Hawaii Chapter; Hui 'Oia'i'o; and five individuals. Your Committee received testimony in opposition to this measure from five individuals.

Your Committee finds that under existing law, if an association of apartment owners starts a nonjudicial foreclosure against a condominium owner and the owner pays off the delinquency or proposes a payment plan that the association accepts, the association must rescind the notice of foreclosure and not proceed. However, proposing a payment plan is not sufficient on its own to cure a default. Accordingly, this measure clarifies the process once a condominium owner and association agree on a payment plan to resolve a nonjudicial foreclosure on a condominium.

Your Committee further finds that this measure also amends Hawaii's existing pay first, dispute later requirement, which specifies that owners are not permitted to withhold any assessment claimed by their association, but must first pay the disputed amounts and then exercise their right to mediation, arbitration, or small claims court. Your Committee understands that condominium associations in Hawaii would be unable to function if owners were able to withhold payments of common expense assessments. Accordingly, this measure makes a narrowly-tailored exception to the pay first, dispute later requirement by clarifying that common expense assessments are the only fees that must be paid prior to initiating a dispute. If the unit owner contests any penalties or fines, late fees, lien filing fees, or other charges in an assessment, then the unit owner may, under certain circumstances, proceed to mediation prior to paying those charges.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2054 and recommends that it pass Second Reading and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 1 (Ruderman).

SCRep. 2276 Commerce, Consumer Protection, and Health on S.B. No. 2959

The purpose and intent of this measure is to allow a condominium board to borrow money for the installation of equipment for the health and safety of residents, in the event of a legislative mandate to install such equipment, without the consent of owners where at least twenty percent of owners reside outside of the United States.

Your Committee received testimony in support of this measure from the Hawaii Council of Associations of Apartment Owners; Hawaiian Affairs Caucus, Democratic Party of Hawai'i; Associa; and one individual. Your Committee received testimony in opposition to this measure from one individual. Your Committee received comments on this measure from one individual.

Your Committee finds that in the aftermath of the devastating Marco Polo condominium fire, the Honolulu City Council established the Residential Fire Safety Advisory Committee to recommend changes to City ordinances relating to the fire code and suggest ways that high-rise residential buildings could be made safer for residents and first responders. One measure under consideration is the mandatory installation of fire sprinklers, which may pose a significant financial challenge to condominium associations.

According to testimony received by your Committee, one of the challenges faced by the Residential Fire Safety Advisory Committee was how to assist condominium associations who wished to borrow funds necessary for fire sprinkler retrofitting. Under existing state law, borrowing such funds requires the consent of fifty percent of the ownership interest, which can be a challenging threshold to meet, particularly when many owners of a condominium association reside outside the United States.

This measure therefore establishes a narrowly-tailored exception to this fifty percent requirement by specifying that, in the event of a legislative mandate and where at least twenty percent of condominium owners reside outside of the country, the board of directors of a condominium association shall not be required to obtain the consent of the owners prior to borrowing money to pay for the legislatively-mandated installation of equipment or improvements to the common areas of the condominium for the health and safety of residents.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2959 and recommends that it pass Second Reading and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 1 (Ruderman).

SCRep. 2277 Commerce, Consumer Protection, and Health on S.B. No. 2924

The purpose and intent of this measure is to establish an individual mandate for certain qualified taxpayers to sign up and maintain health insurance throughout the year, or pay a penalty on their individual income tax return.

Your Committee received testimony in support of this measure from The Queen's Health Systems, Kaiser Permanente Hawaii, and Planned Parenthood Votes Northwest and Hawaii. Your Committee received testimony in opposition to this measure from two individuals. Your Committee received comments on this measure from the Department of Taxation, Department of Commerce and Consumer Affairs, Tax Foundation of Hawaii, and Hawaii Medical Service Association.

Your Committee finds that the Patient Protection and Affordable Care Act of 2010 (Affordable Care Act) includes an individual coverage requirement, commonly known as the individual mandate, that requires most people in the country to have health insurance and imposes tax penalties on those without an exemption who do not comply. The individual mandate is an important part of the overall health reforms established under the Affordable Care Act, which was designed to extend insurance to nearly all people, including those with medical conditions that require expensive care and who may have previously been denied coverage. Prior to the enactment of the Affordable Care Act, states that attempted to manage guaranteed issue markets without individual coverage mandates experienced rising premiums and fewer options for consumers. The Affordable Care Act's individual mandate therefore guarantees that insurers have a large enrollment base, which broadens the risk pool and ensures that health insurance premiums remain more affordable for everyone.

Your Committee further finds that with the enactment of the Affordable Care Act and the federal individual mandate, many more Hawaii residents obtained affordable health insurance. However, recent actions by Congressional Republicans to reduce the federal individual mandate's penalty to zero have created a lack of certainty and stability in the State's individual market, which are the biggest contributors to health insurance premium hikes. This measure establishes a state-level individual mandate, which is intended to help protect and preserve Hawaii's individual market.

Your Committee has heard the concerns raised in testimony from the Departments of Taxation and Commerce and Consumer Affairs, including comments regarding how to assess the affordability of health plans and the most appropriate agency to determine creditable coverage. Your Committee notes that this measure is a work in progress and acknowledges that additional discussion is needed as this measure moves through the legislative process.

Your Committee has amended this measure by:

- (1) Changing its effective date to July 1, 2050, to encourage further discussion;
- (2) Inserting a five-year sunset date; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2924, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2924, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 2 (Nishihara, Tokuda).

SCRep. 2278 (Joint) Commerce, Consumer Protection, and Health and Human Services on S.B. No. 2796

The purpose and intent of this measure is to change the composition of the Policy Advisory Board for Elder Affairs by decreasing the number of members, changing the number of ex officio members, and specifying that ex officio members are nonvoting members.

Your Committees received testimony in support of this measure from the Department of Health Executive Office on Aging.

Your Committees find that the Policy Advisory Board for Elder Affairs has a large number of ex officio members, many of whom are under the age of sixty, which makes it difficult to meet quorum and satisfy the statutory requirement that a majority of Board members be over sixty years old. Your Committees further find that although ex officio members of the Board are voting members, they are sometimes unable to attend Board meetings due to their primary job responsibilities and not as familiar as other members with aging issues. This measure changes the number of members and composition of the Board to improve the efficiency of the Board and ensure that the decisions of the Board are better informed by members with first-hand experience, knowledge, interest, and expertise in aging issues.

Your Committees note their concern that the Policy Advisory Board for Elder Affairs has four vacancies for which nominees have not yet been presented to the Governor for appointment. Your Committees strongly urge the Board to identify potential nominees as soon as possible. Despite your Committees' concern, your Committees recognize that the Board has encountered genuine challenges in filling vacancies and believe that this measure will help alleviate challenges impeding the Board's work.

Your Committees have amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Commerce, Consumer Protection, and Health and Human Services that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2796, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2796, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chairs on behalf of the Committees.
Commerce, Consumer Protection, and Health: Ayes, 4. Noes, none. Excused, 3 (Ihara, Nishihara, Ruderman).
Human Services: Ayes, 4. Noes, none. Excused, 1 (Wakai).

SCRep. 2279 Education on S.B. No. 2665

The purpose and intent of this measure is to codify the State's commitment to conservation and sustainability by including goal four, quality education, of the seventeen United Nations Sustainability Development Goals and indicators, with references to existing state sustainability programs, if applicable, in the Hawaii Revised Statutes.

Your Committee received testimony in support of this measure from the Department of Agriculture, Department of Education, Department of Human Services, Office of Hawaiian Affairs, Hawaii State Teachers Association, Airport Concessionaires Committee, Oahu Economic Development Board, and Oahu County Committee on Legislative Priorities for the Democratic Party of Hawaii. Your Committee received comments on this measure from the Office of Planning.

Your Committee finds that Hawai'i has been a leader in conservation efforts for decades, through its commitment to environmental and sustainability policies, and that the priority of the Senate for the Regular Session of 2018 is to adopt the United Nation's Sustainable Development Goals at the state level. The seventeen Sustainable Development Goals are a universal call to action to end poverty, protect the planet, and ensure that all people enjoy peace and prosperity. This measure codifies Sustainable Development Goal four, quality education, into state law.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2665 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Dela Cruz).

SCRep. 2280 Education on S.B. No. 3070

The purpose and intent of this measure is to establish and appropriate funds for a Hawaii teacher stipend program to be administered by the Department of Education to address the shortage of teachers in the Hawaii public school system.

Your Committee received testimony in support of this measure from the Department of Education, University of Hawai'i System, Hawaii State Teachers Association, Hawaii Teacher Standards Board, HE'E Coalition, Oahu County Committee on Legislative Priorities for the Democratic Party of Hawaii, and one individual. Your Committee received comments on this measure from the Department of Budget and Finance.

Your Committee finds that Hawaii has been experiencing teacher shortages over the last several years, and that it is particularly difficult to fill vacancies for teachers in select fields in education in the State. Additionally, the number of in-state graduates from state approved teacher certification programs has fallen, which has resulted in an overreliance on out-of-state hires. To help fill these critical positions in the Hawaii public school system with in-state teachers, a teacher stipend should be created to encourage qualified students to pursue teaching degrees. Your Committee further finds that in order for a teacher stipend program to have a positive impact on students pursuing teaching degrees, it is essential that the Department of Education and University of Hawaii College of Education collaborate on the implementation and execution of the program.

Your Committee has amended this measure by clarifying that a stipend recipient under the Hawaii teacher stipend program shall be required to teach in the Hawaii public school system for five consecutive years immediately following completion of a state approved teacher education program, subject to repayment of stipend funds.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3070, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3070, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Dela Cruz).

SCRep. 2281 Education on S.B. No. 2226

The purpose and intent of this measure is to, beginning January 1, 2020, require specialized training in early childhood education for all teachers and educational assistants within the Executive Office on Early Learning public pre-kindergarten program.

Your Committee received testimony in support of this measure from the Executive Office on Early Learning, Hawaii State Teachers Association, and two individuals.

Your Committee finds that the State's Executive Office on Early Learning public prekindergarten program serves children by providing them with high-quality early learning. However, there are insufficient teachers in the public prekindergarten program with the specialized training necessary to best provide the required high-quality early learning to the State's children. This measure ensures that all teachers and educational assistants in the public prekindergarten program have specialized early childhood training to address the children's physical, cognitive, linguistic, social, and emotional development, and to prepare the children for school.

Your Committee has amended this measure by:

- (1) Inserting an effective date of July 1, 2022, to allow the Executive Office on Early Learning additional time to work with institutions of higher education to ensure access to coursework necessary for educators to meet these requirements; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2226, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2226, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Dela Cruz).

SCRep. 2282 Education on S.B. No. 2070

The purpose and intent of this measure is to require the Department of Education to:

- (1) Develop a plan to teach digital citizenship and media literacy in grades kindergarten through twelve in public schools, including charter schools and Hawaiian language immersion schools;
- (2) Convene an advisory committee to make recommendations on best practices for purposes of developing and implementing the plan; and
- (3) Submit an annual report to the Legislature on the plan, including the timeline for implementing the plan.

Your Committee received testimony in support of this measure from Media Literacy Now, Common Sense Kids Action, Hawaii Public Charter Schools Network, Kamehameha Schools, and one individual. Your Committee received comments on this measure from the Department of Education.

Your Committee finds that media literacy is a necessary skill that allows all citizens to access, analyze, and evaluate information using a variety of forms of communication. It is essential that students from kindergarten through grade twelve are educated in media literacy to obtain the skills and experiences needed to become full participants in the digital world, including instruction in understanding how media shapes perceptions. As students understand how to use technology responsibly, they will gain the ability to recognize and value the rights, responsibilities, and opportunities of living, learning, and working in an interconnected digital world.

Your Committee has amended this measure by:

- (1) Extending the unspecified date when the advisory committee shall make recommendations to the Department of Education by one year;
- (2) Inserting a blank month and calendar day in 2019 when the Department of Education is required to begin submitting its annual report to the Legislature on the Department's plan, including the timeline for implementing instruction in digital citizenship and media literacy in grades kindergarten through twelve; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2070, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2070, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Dela Cruz).

SCRep. 2283 Education on S.B. No. 2051

The purpose and intent of this measure is to allow individual Department of Education schools and career pathways, academies, or programs operated within a Department of Education school to engage in commercial enterprises, including the sale of goods produced by or for an individual school, career pathway, academy, or program.

Your Committee received testimony in support of this measure from the Department of Education, Oahu County Committee on Legislative Priorities of the Democratic Party of Hawaii, and seven individuals.

Your Committee finds that, in preparation for entering the workforce, it is essential that career development is incorporated into education. Career and technical education programs in public schools support hands-on learning experiences for students and provide students an opportunity to apply content skills and knowledge in entrepreneurial and relevant ways. Allowing public school career development programs to market products and services and deposit funds back into the program will help keep these programs sustainable, while providing students with valuable opportunities.

Your Committee has amended this measure by specifying that the Department of Education is authorized, not required, to adopt rules pursuant to chapter 91, Hawaii Revised Statutes, for the purposes of allowing individual Department of Education schools and career pathways, academies, or programs operated within a Department of Education school to engage in commercial enterprises.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2051, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2051, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Dela Cruz).

SCRep. 2284 Education on S.B. No. 2780

The purpose and intent of this measure is to make miscellaneous technical amendments to update language and facilitate library operations, including amending provisions related to the detention of public library materials and administration of the library fee for enhanced services special fund.

Your Committee received testimony in support of this measure from the Hawaii State Public Library System. Your Committee received comments on this measure from one individual.

Your Committee finds that Hawaii's public libraries offer many public benefits, including acting as community gathering places where learning happens and knowledge is shared. Many members of the public, including children and kupuna, rely on the public library system, which necessitates the need for the system to operate as efficiently and effectively as possible.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2780, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2780, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Dela Cruz).

SCRep. 2285 Education on S.B. No. 2781

The purpose and intent of this measure is to increase the amount of authorized income tax check-off that may be designated payable from \$2 to \$4 from a state income tax refund for an individual and from \$4 to \$8 from a state income tax refund for a married couple filing jointly to the libraries special fund.

Your Committee received testimony in support of this measure from the Department of Taxation, Hawaii State Public Library System, and two individuals. Your Committee received comments on this measure from the Tax Foundation of Hawaii.

Your Committee finds that library patrons' demand for library books and materials, including electronic resources of the Hawaii State Public Library System, are increasing every year. Since the initial adoption of the library special fund check-off in 2003, the collection of the Hawaii State Public Library System has transitioned from a paper-based collection to one that includes library materials in a variety of different and new formats to keep up with new technology and in response to the requests of library patrons statewide. This measure provides an opportunity for the public to increase their support to the Hawaii State Public Library System by making a contribution toward the purchase of additional library materials.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2781, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2781, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Dela Cruz).

SCRep. 2286 Labor on S.B. No. 2372

The purpose and intent of this measure is to require the Hawaii Labor Relations Board to adopt emergency rules if the Board finds that Hawaii's collective bargaining in public employment law, or the application thereof, is inconsistent with any federal or state law and the adoption of an emergency rule is urgently needed.

Your Committee received testimony in support of this measure from the University of Hawaii Professional Assembly and United Public Workers, AFSCME, Local 646, AFL-CIO.

Your Committee finds that based upon the anticipated 2018 United States Supreme Court ruling in *Janus v. American Federation of State, County and Municipal Council 31*, U.S. Supreme Court Docket No. 16-1466, the constitutional and statutory underpinnings of Hawaii public sector collective bargaining may be at risk. This court decision may require statutory changes; however, a challenge arises when the Legislature is not in session and an event or series of circumstances arise that requires immediate action to mitigate any damage. Your Committee further finds that the current circumstances presented by the *Janus* case, and related cases which are making their way through the federal courts, may present immediate, important questions regarding the application of chapter 89, Hawaii Revised Statutes, relating to collective bargaining. Accordingly, your Committee finds that it is necessary to grant the Hawaii Labor Relations Board emergency rulemaking powers.

Your Committee has amended this measure by:

- (1) Inserting an effective date of January 1, 2045, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2372, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2372, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (English).

SCRep. 2287 Labor on S.B. No. 2288

The purpose and intent of this measure is to require Hawaii employers to engage in fair scheduling practices, including providing employees with written notice of the employee's shift schedule at least ten calendar days before the employee is schedule to work, under certain conditions.

Your Committee received testimony in support of this measure from Hawaii State AFL-CIO, Hawai'i Appleseed Center for Law & Economic Justice, Labor Caucus of the Democratic Party of Hawai'i, Vote Hawaii, and seven individuals. Your Committee received testimony in opposition to this measure from the City and County of Honolulu, Department of Human Resources; Chamber of Commerce Hawaii; Hawaii Food Industry Association; Hawaii Restaurant Association; National Federation of Independent Business; Society for Human Resource Management – Hawaii Chapter; Boss Frog's Dive & Surf; Hawaii Credit Union League; Quicksilver

Charters; Fair Wind Cruises; Ocean Tourism Coalition; and Tiki's Grill and Bar. Your Committee received comments on this measure from the Department of Public Safety.

Your Committee finds that providing advance notice of work schedules and any schedule changes allows employees to have more stability in their lives, including the ability to earn additional income when working more than one job, ensure childcare arrangements, schedule necessary errands and appointments, and be available for family events.

Your Committee has amended this measure by:

- (1) Inserting language to provide that fair scheduling requirements do not affect the rights of employees and employers under existing collective bargaining agreements;
- (2) Deleting language that would have exempted an employer from paying an employee double the rate of pay if the employee is required to work a shift to cover another employee's absence no more than once in a three-month period without ten calendar days' notice;
- (3) Inserting an effective date of January 1, 2045, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2288, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2288, S.D. 1, and be referred to your Committee on Commerce, Consumer Protection, and Health.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Taniguchi).

SCRep. 2288 Judiciary on S.B. No. 2204

The purpose and intent of this measure is to appropriate funds to the State Foundation on Culture and the Arts to fund celebrations for the fiftieth anniversary of the Hawaii State Capitol.

Your Committee received testimony in support of this measure from the State Foundation on Culture and the Arts, Center for Hawaiian Sovereignty Studies, Historic Hawai'i Foundation, and Oahu County Committee on Legislative Priorities of the Democratic Party of Hawaii.

Your Committee finds that the Hawaii State Capitol is designated on the Hawaii and National Registers of Historic Places. March 15, 2019, will mark the fiftieth anniversary of the completion of the capitol, and the Legislature has directed that there will be a commemoration of the historic building and its role in Hawaii's history. This celebration will encourage public understanding of the history and purpose of the Hawaii State Capitol, and through that appreciation, the heritage and character of Hawaii. The appropriation of funds in this measure will further enable that celebration and understanding to take place.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2204 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2289 Judiciary on S.B. No. 2896

The purpose and intent of this measure is to appropriate funds as a grant to the Japanese Cultural Center of Hawaii for the presentation and coordination of events and programs to celebrate and commemorate the one hundred fiftieth anniversary of the first arrival of Japanese emigrants to Hawaii.

Your Committee received testimony in support of this measure from the Department of Business, Economic Development, and Tourism; Japanese Cultural Center of Hawai'i; Historic Hawai'i Foundation; Gannenmono Celebration Committee; and Oahu County Committee on Legislative Priorities of the Democratic Party of Hawaii.

Your Committee finds that the Gannenmono Celebration commemorates the one hundred fiftieth anniversary of the arrival of the first group of Japanese emigrants to Hawaii. Twenty community organizations in Hawaii are planning events during this year-long celebration to celebrate the legacy of these Japanese emigrants and the contributions that they and their descendants have made in Hawaii through the years. This measure will provide the resources to ensure broader participation from the public, increased educational activities in schools, collection of oral histories, and further research on the Gannenmono immigrants and their legacy.

Your Committee notes that certain events are scheduled to be held prior to the ability of this Legislature to appropriate funds.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2896 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2290 Agriculture and Environment on S.B. No. 2111

The purpose and intent of this measure is to establish a two-year agricultural theft and vandalism pilot project to examine the effectiveness of prosecuting agricultural theft and vandalism cases, including theft and vandalism affecting individuals who produce agricultural products for personal or small-scale commercial use on any land, in the County of Hawaii.

Your Committee received testimony in support of this measure from the Department of Agriculture; County of Hawaii Office of the Prosecuting Attorney; Hawai'i County Council Chairwoman, Valerie T. Poindexter; Hawai'i County Councilmember Eileen O'Hara; Ulupono Initiative; Hawaii Coffee Company; Hawai'i Farm Bureau; Hawaii Coffee Association; O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i; and Hawaii Crop Improvement Association. Your Committee received comments on this measure from the Land Use Research Foundation of Hawaii.

Your Committee finds that agricultural theft and vandalism in the County of Hawaii are impediments to not only running a successful and profitable farming operation, but also to growing food or agricultural products for personal or small-scale commercial use. Agricultural theft and vandalism are a serious, ongoing problem, with farmers reporting theft of crops, animals, equipment, and tools, and vandalized fences and gates. Since many incidents of agricultural theft and vandalism are not reported, the annual monetary losses can only be estimated in the millions of dollars. By establishing an agricultural theft and vandalism pilot project for the County of Hawaii, this measure provides additional focus on investigating and prosecuting agricultural theft and vandalism.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2111 and recommends that it pass Second Reading and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Rhoads).

SCRep. 2291 Agriculture and Environment on S.B. No. 2522

The purpose and intent of this measure is to provide creative means of financing for agriculture businesses in Hawaii by:

- (1) Establishing the agriculture accelerator program to authorize the Agribusiness Development Corporation (ADC) to provide monies to and invest in existing or new agriculture businesses approved by the Board of Directors of the ADC in return for equity in those agriculture businesses; and
- (2) Establishing an agriculture accelerator special fund to provide funds for the ADC to provide monies to and invest in agriculture businesses under the agriculture accelerator program.

Your Committee received testimony in support of this measure from the Department of Agriculture; Agribusiness Development Corporation; Hawai'i Farm Bureau; and Hawaii Cattlemen's Council, Inc. Your Committee received comments on this measure from the Department of Budget and Finance.

Your Committee finds that the ability for the ADC to establish an agriculture accelerator program and issue grants will provide the means to assist local farming operations, make investments to strengthen and diversify Hawaii's agriculture, attract and retain businesses, and streamline the ADC's operations. Your Committee further finds that an agriculture accelerator program may help foster partnerships to facilitate agribusiness projects and help grow Hawaii's agriculture industry.

Your Committee emphasizes its belief that priority should be given to agriculture focused on crops for local use and consumption, rather than export crops, under any agriculture accelerator program.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2522 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4; Ayes with Reservations (Riviere, Ruderman). Noes, none. Excused, 1 (Rhoads).

SCRep. 2292 (Joint) Transportation and Energy and Public Safety, Intergovernmental, and Military Affairs on S.B. No. 2296

The purpose and intent of this measure is to require metropolitan planning organization policy boards to include at least one member of the Senate and one member of the House of Representatives from that metropolitan planning area and to define "metropolitan planning area" as the geographic area determined by agreement between a metropolitan planning organization and the Governor.

Your Committees received testimony in support of this measure from the Department of Transportation and Maui Metropolitan Planning Organization. Your Committees received testimony in opposition to this measure from the Chair of the Oahu Metropolitan Policy Board.

Your Committees find that the population growth in Maui County and Hawaii County means that each will soon have a metropolitan planning organization. This measure will provide these new metropolitan planning organizations some flexibility in their policy board membership, if the organization chooses to have a smaller policy board.

Your Committees have heard the testimony expressing concerns that there might be a conflict between state and federal law if this measure passes. Your Committees note that in 2014, the Federal Highway Administration has previously brought up an issue with the composition of the Oahu Metropolitan Planning Organization, advising that allowing an individual who was not in the metropolitan planning organization to have voting power might be against federal law, and could result in loss of federal funding. While this measure is intended to accommodate new metropolitan planning organizations that will be created in the near future, Oahu members of your Committees are concerned that the language as currently written might jeopardize the Oahu Metropolitan Planning Organization's compliance review recertification. If the "at least one member" language of this measure is interpreted as allowing a Senate or House appointee that is not from the "applicable metropolitan planning area", this could re-raise federal noncompliance issues that may jeopardize federal funding. Your Committees find that this issue merits further consideration and requests that your Committee on Ways and Means further examine this issue.

As affirmed by the records of votes of the members of your Committees on Transportation and Energy and Public Safety, Intergovernmental, and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2296 and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Transportation and Energy: Ayes, 5. Noes, none. Excused, none.

Public Safety, Intergovernmental, and Military Affairs: Ayes, 4. Noes, none. Excused, 1 (Ihara).

SCRep. 2293 (Joint) Transportation and Energy and Public Safety, Intergovernmental, and Military Affairs on S.B. No. 3049

The purpose and intent of this measure is to impose an importation fee for motor vehicles that are imported into the State and for the importation fee to be paid to the county that is the final destination of the vehicle and expended for the purpose of disposing of abandoned vehicles.

Your Committees received comments on this measure from the Hawaii Automobile Dealers' Association.

Your Committees find that there are over fifty thousand new vehicles brought into this State every year, without accounting for people shipping their cars to the State when they move to Hawaii. Your Committees also find that removing cars from this State can be onerous, resulting in abandoned vehicles that are an eyesore to the community. While there are already county efforts to dispose abandoned vehicles, your Committees note that the cost of disposal can vary drastically, in response to the fluctuation of metal prices, and that additional county funds to pay for disposal can minimize the impact of fluctuating costs.

As affirmed by the records of votes of the members of your Committees on Transportation and Energy and Public Safety, Intergovernmental, and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 3049 and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Transportation and Energy: Ayes, 5. Noes, none. Excused, none.

Public Safety, Intergovernmental, and Military Affairs: Ayes, 4. Noes, none. Excused, 1 (Ihara).

SCRep. 2294 (Joint) Transportation and Energy and Public Safety, Intergovernmental, and Military Affairs on S.B. No. 2240

The purpose and intent of this measure is to allow the owner of a vehicle, at the time of vehicle registration, to designate a beneficiary to whom ownership of the vehicle will be transferred upon the death of the owner.

Your Committees received testimony in support of this measure from one individual.

Your Committees find that owners of motor vehicles do not always prepare for the ownership of their vehicle after they die. The absence of legal ownership can then lead to complications about vehicle ownership, annual registration and safety checks, maintenance, and abandonment. By allowing the owner to designate a beneficiary, some of these complications can be alleviated.

As affirmed by the records of votes of the members of your Committees on Transportation and Energy and Public Safety, Intergovernmental, and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2240 and recommend that it pass Second Reading and be referred to your Committee on Judiciary.

Signed by the Chairs on behalf of the Committees.

Transportation and Energy: Ayes, 5. Noes, none. Excused, none.

Public Safety, Intergovernmental, and Military Affairs: Ayes, 4. Noes, none. Excused, 1 (Ihara).

SCRep. 2295 (Joint) Transportation and Energy and Public Safety, Intergovernmental, and Military Affairs on S.B. No. 2210

The purpose and intent of this measure is to automatically register people to vote when they apply for a new or renewed driver's license, provisional license, instruction permit, limited purpose driver's license, limited purpose provisional license, limited purpose instruction permit, or identification card; provided that applicants are allowed to opt out of automatic voter registration.

Your Committees received testimony in support of this measure from the Office of Elections; Office of the City Clerk, City and County of Honolulu; Sierra Club of Hawaii; Oahu County Committee on Legislative Priorities for the Democratic Party of Hawaii; Hawaii Appleseed Center for Law & Economic Justice; We Are One, Inc.; Hawaii Alliance for Progressive Action; League of Women Voters of Hawaii; Americans for Democratic Action; Common Cause Hawaii; Planned Parent Votes Northwest and Hawaii; and eighteen individuals. Your Committees received testimony in opposition to this measure from one individual.

Your Committees find that automatic voter registration removes barriers to the electoral process and maximizes voter registration. Automatic voter registration strengthens democracy and modernizes elections. In addition, if implemented well, elections can be more secure. Your Committees note the numerous testifiers who mentioned the status Hawaii has as the state with the lowest turnout in the country for over a decade, and their hopes that instituting automatic voter registration will increase involvement in the democratic process.

Your Committees have heard the testimony expressing concern that certain applicants who apply for limited purpose driver's licenses, limited purpose provisional driver's licenses, limited purpose instruction permits, and identification cards might not be authorized to vote, and that automatically registering these applicants might inadvertently result in severe repercussions for these applicants. Your Committees find that this raises concerns that merit further consideration and requests that your Committees on Judiciary and Ways and Means examine those issues and concerns.

Your Committees have also heard the testimony of Common Cause Hawaii that the Department of Transportation and Office of Elections have entered into a memorandum of agreement allowing for the electronic transfer of information for voter registration

purposes and that certain language in section 2 of S.B. No. 2232 would help to address the electronic sharing of information between the Department and the Office of Elections while ensuring the integrity of the State's voter rolls.

As such, your Committees have amended this measure by inserting language from S.B. No. 2232 to:

- (1) Clarify that the Examiner of Drivers shall not transmit to the counties any information necessary to register an applicant as a voter if that applicant affirmatively declines to be registered to vote;
- (2) Require that databases maintained by the Department of Transportation containing certain pertinent information be directly accessible by, and provided electronically to, election officials and the statewide voter registration system for certain purposes; and
- (3) Require the Chief Election Officer to establish and implement a privacy policy to protect certain information.

As affirmed by the records of votes of the members of your Committees on Transportation and Energy and Public Safety, Intergovernmental, and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2210, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2210, S.D. 1, and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chairs on behalf of the Committees.

Transportation and Energy: Ayes, 5. Noes, none. Excused, none.

Public Safety, Intergovernmental, and Military Affairs: Ayes, 4. Noes, none. Excused, 1 (Ihara).

SCRep. 2296 Water and Land on S.B. No. 694

The purpose and intent of this measure is to:

- (1) Require an oceanfront purchaser statement with the sale or transfer of oceanfront real estate;
- (2) Specify provisions that every purchaser or transferee of oceanfront property is required to acknowledge under the oceanfront purchaser statement; and
- (3) Require all oceanfront purchaser statements to be notarized and recorded in the Bureau of Conveyances.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources, Sierra Club of Hawai'i, and one individual. Your Committee received testimony in opposition to this measure from the Hawai'i Association of REALTORS.

Your Committee finds that oceanfront property is often vulnerable to hazards, such as coastal erosion and flooding from tsunamis, storms, and high waves. These hazards can be exacerbated by sea level rise and human-caused interruptions to natural sand supply. Owners of oceanfront property are at risk of losing land when shorelines undergo landward retreat, which negatively impacts building setbacks, property values, and insurance availability. Furthermore, oceanfront property owners face stringent permit requirements imposed by the counties and State for shoreline protection. This measure enables oceanfront property purchasers and transferees to better understand the special hazards, permitting requirements, and limitations that may affect the oceanfront property by requiring an oceanfront purchaser statement with the sale or transfer of any oceanfront real estate.

Your Committee further finds that in December 2017, the Hawaii Climate Change Mitigation and Adaptation Commission accepted the Hawaii Sea Level Rise Vulnerability and Adaptation Report (SLR Report). The first recommendation of the SLR Report is to "[r]ecognize the SLR-XA (Sea Level Rise Vulnerability Area) as a statewide vulnerability zone." The SLR-XA demonstrates the extent of the potential exposure of land and structures to flooding and erosion with an increase of 0.5, 1.1, 2.0, and 3.2 feet of sea level rise throughout the State. Thus, your Committee believes that sea level rise is a concern for all real property owners, not only oceanfront property owners.

Accordingly, your Committee has amended this measure by:

- (1) Changing the name of the statements from oceanfront purchaser statements to sea level rise hazard exposure statements;
- (2) Applying the sea level rise hazard exposure statements to all sales or transfers of real property, not just the sale or transfer of oceanfront property;
- (3) Removing the provisions that every purchaser or transferee of oceanfront property is required to acknowledge under the exposure statement and inserting a requirement for an acknowledgement by the purchaser or transferee that the purchaser or transferee has looked at the appropriate sea level rise hazard exposure map and accepts risks of purchasing or accepting a transfer of property that is at risk of climate-related exposure;
- (4) Removing the requirement that all oceanfront purchaser statements be notarized and recorded in the Bureau of Conveyances;
- (5) Making conforming amendments to section 1 to reflect the amendments made by your Committee;
- (6) Changing the effective date to November 1, 2019, to allow additional time for implementation; and
- (7) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 694, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 694, S.D. 1, and be referred to your Committee on Commerce, Consumer Protection, and Health.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Gabbard, Inouye).

SCRep. 2297 Water and Land on S.B. No. 3027

The purpose and intent of this measure is to appropriate funds for the Kaho'olawe Island Reserve Commission to restore, preserve, and determine the appropriate uses of Kaho'olawe Island and to fund one full-time equivalent permanent position for the Kaho'olawe Island Reserve Commission.

Your Committee received testimony in support of this measure from the Kaho'olawe Island Reserve Commission, Hawaiian Affairs Caucus of the Democratic Party of Hawai'i, Hawaiian Civic Club of Honolulu, Maui Nui Seabird Recovery Project, Na Ko'oko'o, South Maui Citizens for Responsible Growth, Center for Hawaiian Sovereignty Studies, Oahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, and forty-one individuals.

Your Committee finds that during the past fourteen years, the Kaho'olawe Island Reserve Commission has developed innovative and effective restoration projects that serve as a foundation for the future restoration of the island. In 2016, the Commission submitted a detailed financial self-sufficiency and sustainability plan to establish the necessary baseline level of funding needed to continue work on Kaho'olawe. As a result, Act 49, Session Laws of Hawaii 2017, provided general funds and authorized fifteen positions for fiscal years 2017-2018 and 2018-2019. Although these funds allow the Commission to continue its mission in the short term, these funds are only sufficient to support staffing, Maui-based facilities, and Maui-based operations. This measure provides additional funding to support Kaho'olawe Island operations, safety, and infrastructure, as well as to restore the cultural resource project coordinator position, which is a critical position needed to manage, protect, and restore the archaeological and historical resources of Kaho'olawe.

Your Committee has amended this measure by:

- (1) Specifying that the appropriation for one full-time equivalent permanent position is for a cultural resource project coordinator; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3027, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3027, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Inouye, Thielen).

SCRep. 2298 Labor on S.B. No. 2220

The purpose and intent of this measure is to prohibit an employer from suspending, discharging, or discriminating against an employee for testing positive for cannabis if the employee is a registered qualifying patient who is authorized for the medical use of cannabis, with certain exceptions.

Your Committee received testimony in support of this measure from the Hawai'i Civil Rights Commission, Drug Policy Forum of Hawai'i, O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, and three individuals. Your Committee received testimony in opposition to this measure from the Hawaii Substance Abuse Coalition; Big Island Substance Abuse Council; and Ohana Makamae, Inc. Your Committee received comments on this measure from the Department of Public Safety.

Your Committee finds that this measure protects medical cannabis patients who are in full compliance with state law from discriminatory termination by their employer. Eleven other states have enacted laws with explicit protections against discrimination of medical cannabis patients.

Your Committee acknowledges that use of medical cannabis remains prohibited under federal law. Thus, your Committee requests that, as this measure moves through the legislative process, the Department of the Attorney General submit an opinion to your Committee on Judiciary regarding the implications of this measure under federal law.

Your Committee has amended this measure by:

- (1) Exempting state law enforcement officers and state correctional facility employees; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2220, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2220, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Taniguchi).

SCRep. 2299 Labor on S.B. No. 2244

The purpose and intent of this measure is to:

- (1) Require health care providers in the workers' compensation system who are authorized to prescribe opioids to adopt and maintain policies for informed consent to opioid therapy in circumstances that carry elevated risk of dependency; and
- (2) Establish limits for concurrent opioid and benzodiazepine prescriptions in the workers' compensation system.

Your Committee received testimony in support of this measure from the Department of Labor and Industrial Relations; Department of Health; City and County of Honolulu, Department of Human Resources; and Drug Policy Forum of Hawai'i. Your Committee received testimony in opposition to this measure from Hawaii Health Systems Corporation.

Your Committee finds that a nationwide drug epidemic, associated with prescription pain relieving drugs, is causing alarming rates of addiction, overdose, and death. This measure attempts to address the issue of misuse and abuse of prescription drugs by requiring health care providers in the workers' compensation system who are authorized to prescribe opioids to adopt and maintain policies for informed consent to opioid therapy in circumstances that carry elevated risk of dependency and limiting concurrent opioid and benzodiazepine prescriptions.

Your Committee has heard the concerns from the Department of Labor and Industrial Relations and Hawaii Health Systems Corporation concerning implementation of this measure but believes such concerns would be best addressed by your Committee on Commerce, Consumer Protection, and Health.

Your Committee has amended this measure by inserting an effective date of January 1, 2045, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2244, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2244, S.D. 1, and be referred to your Committee on Commerce, Consumer Protection, and Health.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (English, Taniguchi).

SCRep. 2300 Labor on S.B. No. 3106

The purpose and intent of this measure is to provide three categories and twelve factors for the Department of Labor and Industrial Relations to apply to determine independent contractor status.

Your Committee received testimony in support of this measure from the Chamber of Commerce Hawaii; Molokai Chamber of Commerce; Maui Chamber of Commerce; Envisions Entertainment & Productions, Inc.; West Maui Taxpayers Association, Inc.; Island Landscape, LLC; and four individuals. Your Committee received testimony in opposition to this measure from the Department of Labor and Industrial Relations; Hawaii State AFL-CIO; ILWU Local 142; SAG-AFTRA Hawaii Local; I.A.T.S.E. Local 665; American Federation of Musicians' Local 677; and Hawaii Teamsters & Allied Workers Local 996.

Your Committee finds that independent contractors are an important part of Hawaii's business community and economy. Your Committee also finds that the existing Hawaii employment security law has been broadly interpreted when determining who qualifies as an independent contractor versus who is an employee of an employer. This measure seeks to provide greater clarity to those individuals choosing to become entrepreneurs and operate as independent contractors by setting forth in greater detail the criteria used to determine independent contractor status.

Your Committee has amended this measure by inserting an effective date of January 1, 2045, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3106, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3106, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Taniguchi).

SCRep. 2301 (Joint) Commerce, Consumer Protection, and Health and Judiciary on S.B. No. 2060

The purpose and intent of this measure is to:

- (1) Expand the scope of the Condominium Education Trust Fund to cover voluntary binding arbitration between interested parties;
- (2) Amend the conditions that mandate mediation and exceptions to mandatory mediation; and
- (3) Make conforming amendments.

Your Committees received testimony in support of this measure from the Community Associations Institute, Hawaii Chapter; Hawaii Council of Associations of Apartment Owners; and three individuals. Your Committees received testimony in opposition to this measure from Hui 'Oia'i'o. Your Committees received comments on this measure from the Real Estate Commission.

Your Committees find that alternative dispute resolution is a viable, affordable option for handling condominium-related disputes. However, under existing law, mediation is only nominally mandatory and there are few incentives to encourage parties to engage in alternative dispute resolution. Accordingly, this measure expands the scope of the Condominium Education Trust Fund to cover voluntary binding arbitration between interested parties and amends the conditions that mandate mediation and exceptions to mandatory mediation.

Your Committees further find that by subsidizing the expense of arbitrations, this measure incentivizes parties to voluntarily choose binding arbitration of condominium-related disputes. However, your Committees note that this incentive is contingent upon parties first making the effort to mediate a condominium-related dispute using evaluative mediation techniques. Pairing evaluative mediation with voluntary binding arbitration is an efficient way of encouraging greater use of alternative dispute resolution when addressing condominium-related disputes.

Your Committees have amended this measure by changing its effective date to January 1, 2019.

As affirmed by the records of votes of the members of your Committees on Commerce, Consumer Protection, and Health and Judiciary that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2060, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2060, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Commerce, Consumer Protection, and Health: Ayes, 4. Noes, none. Excused, 3 (Ihara, Ruderman, Tokuda).
 Judiciary: Ayes, 4. Noes, none. Excused, 1 (Thielen).

SCRep. 2302 (Joint) Labor and Judiciary on S.B. No. 2228

The purpose and intent of this measure is to require the Employees' Retirement System (ERS) to comply with a court decree for the forfeiture of all or any portion of the ERS benefits to which a member, former member, or retirant of state or county employment would otherwise have been entitled if the member, former member, or retirant is convicted of a felony that the court finds to be related to the employment of the member, former member, or retirant.

Your Committees received testimony in support of this measure from the Department of Labor and Industrial Relations and Board of Trustees of the Employees' Retirement System.

Your Committees find that if a member of the ERS is convicted of a felony related to their employment, that member should no longer be eligible to receive benefits accrued during such employment and corresponding membership in the ERS. Your Committees further find that this measure requires members convicted of such felonies to forfeit their benefits without impairing or diminishing the accrued retirement benefits of other members of the ERS.

Your Committees have amended this measure by inserting an effective date of January 1, 2065, to encourage further discussion.

As affirmed by the records of votes of the members of your Committees on Labor and Judiciary that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2228, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2228, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
 Labor: Ayes, 4. Noes, none. Excused, 1 (English).
 Judiciary: Ayes, 4. Noes, none. Excused, 1 (Gabbard).

SCRep. 2303 (Joint) Labor and Judiciary on S.B. No. 2364

The purpose and intent of this measure is to prevent employers from denying a workers' compensation claim without reasonable cause or while the claim is pending investigation and to impose fines and penalties on employers who continue to do so without reasonable cause.

Your Committees received testimony in support of this measure from the Work Injury Medical Association of Hawaii, Hawaii Chapter of the American Physical Therapy Association, and two individuals. Your Committees received testimony in opposition to this measure from the Department of Labor and Industrial Relations and Hawaii Insurers Council. Your Committees received comments on this measure from the Department of Human Resources Development and City and County of Honolulu Department of Human Resources.

Your Committees find that investigations into pending workers' compensation claims can lead to delays in care for those who are seriously injured. Patients waiting to hear from insurance companies are often unable to receive care and compensation until decisions are rendered. Your Committees find that this measure protects workers from predatory practices of delaying payment and care, which force workers to return to work with serious injuries, find less suitable employment, or apply for public assistance.

Your Committees have amended this measure by inserting an effective date of January 1, 2045, to encourage further discussion.

As affirmed by the records of votes of the members of your Committees on Labor and Judiciary that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2364, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2364, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
 Labor: Ayes, 4. Noes, none. Excused, 1 (English).
 Judiciary: Ayes, 4; Ayes with Reservations (Thielen). Noes, none. Excused, 1 (Gabbard).

SCRep. 2304 (Joint) Labor and Transportation and Energy on S.B. No. 2297

The purpose and intent of this measure is to extend the sunset date of Act 65, Session Laws of Hawaii 2013 (Act 65), which provides a limited exemption to the licensing requirements for certain individuals in situations when an electric utility must retain qualified individuals to work with high voltage (six hundred volts or higher) who are not licensed in the State but are otherwise deemed qualified by the electric utility.

Your Committees received testimony in support of this measure from the Hawaii Emergency Management Agency; Board of Electricians and Plumbers; Chamber of Commerce Hawaii; Hawaiian Electric Company, Inc.; and Land Use Research Foundation.

Your Committees find that most in-state electrical workers are experienced in only low voltage work, which includes wiring buildings at one hundred twenty/two hundred forty volts; therefore, in the event of a catastrophic occurrence requiring electrical workers who possess the level of skill required for high voltage work, Hawaii must import workers from the mainland since there are not enough electricians, splicers, and linemen in the State who are experienced and qualified to work with high voltage and who could respond in the event of a catastrophic occurrence or complex maintenance work affecting an electric utility. Your Committees further find that Act 65 provides a limited exemption to the licensing requirements for certain individuals in situations when an electric utility must retain qualified individuals to work with high voltage (six hundred volts or higher) who are not licensed in the State but are otherwise deemed qualified by the electric utility; however, Act 65 sunsets on June 30, 2018. This measure extends the sunset date of Act 65 for five years, to June 30, 2023.

As affirmed by the records of votes of the members of your Committees on Labor and Transportation and Energy that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2297 and recommend that it pass Second Reading and be referred to your Committee on Commerce, Consumer Protection, and Health.

Signed by the Chairs on behalf of the Committees.
 Labor: Ayes, 5. Noes, none. Excused, none.
 Transportation and Energy: Ayes, 5. Noes, none. Excused, none.

SCRep. 2305 Commerce, Consumer Protection, and Health on S.B. No. 36

The purpose and intent of this measure is to amend the law relating to consumer protection.

Prior to the hearing on this measure, your Committee posted and made available for public review a proposed S.D. 1, which amends this measure by deleting its contents and replacing it with language that requires the Department of Commerce and Consumer Affairs to regulate all channel designations and relocation of public, educational, and governmental access channels and allows cable operators to relocate or change the designation of public, educational, and governmental access channels only under certain conditions.

Your Committee has amended this measure by adopting the proposed S.D. 1.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 36, as amended herein, and recommends that it be recommitted to your Committee on Commerce, Consumer Protection, and Health, in the form attached hereto as S.B. No. 36, S.D. 1, for further consideration.

Signed by the Chair on behalf of the Committee.
 Ayes, 5. Noes, none. Excused, 2 (Espero, Ihara).

SCRep. 2306 (Joint) Labor and Commerce, Consumer Protection, and Health on S.B. No. 2660

The purpose and intent of this measure is to:

- (1) In the event of a controverted workers' compensation claim, require an injured employee's private health care plan to pay for or provide medical care, services, and supplies; provided that when the claim is accepted, the employer shall reimburse the private health care plan and injured employee; and
- (2) In the event of an accepted workers' compensation claim for leukemia, multiple myeloma, non-Hodgkin's lymphoma, or certain cancers by a firefighter with five or more years of service, require an employer to be liable for one hundred thirty-seven percent of medical care, services, and supplies.

Your Committees received testimony in support of this measure from the Hawaii State Fire Council, Honolulu Fire Department, Hawaii Medical Association, Hawaii Insurers Council, Hawaii Fire Fighters Association, and five individuals. Your Committees received comments on this measure from the Department of Labor and Industrial Relations.

Your Committees find that firefighters are exposed to multiple carcinogens and toxicants that are known or suspected to cause cancer through incident exposure as residential and vehicle fires release highly concentrated toxicants from plastics and synthetics. This exposure places firefighters at significantly higher risks than the general population of getting testicular cancer, multiple myeloma, non-Hodgkin's lymphoma, skin cancer, brain and malignant melanoma, rectal cancer, prostate cancer, buccal cavity and pharynx cancer, stomach cancer, colon cancer, and leukemia. Your Committees believe that providing sufficient medical coverage for firefighters recognizes the inherent occupational hazards that come with the job, ensures that firefighters receive proper medical treatment in a timely manner, and lessens the impact of emotional toil, financial burdens, and decreased quality of life on the families of firefighters diagnosed with cancer.

As affirmed by the records of votes of the members of your Committees on Labor and Commerce, Consumer Protection, and Health that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2660 and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
 Labor: Ayes, 4. Noes, none. Excused, 1 (Taniguchi).
 Commerce, Consumer Protection, and Health: Ayes, 4. Noes, none. Excused, 3 (Espero, Nishihara, Ruderman).

SCRep. 2307 (Joint) Labor and Commerce, Consumer Protection, and Health on S.B. No. 2375

The purpose and intent of this measure is to make housekeeping amendments to update statutory provisions relating to temporary disability insurance. Specifically, this measure:

- (1) Permits advanced practice registered nurses to certify an employee's disability;
- (2) Increases the penalty for employers who fail to submit timely wage and employment information;
- (3) Permits filing of an appeal of a decision on temporary disability insurance at the various statewide offices of the Department of Labor and Industrial Relations (Department);
- (4) Allows the Department to send notices of hearings electronically or via first-class mail;
- (5) Permits notice of a hearing to be posted on the Department's webpage when notice cannot be delivered; and
- (6) Allows parties to a hearing to appear in person, by telephone, or by other communication device.

Your Committees received testimony in support of this measure from the Department of Labor and Industrial Relations, Hawai'i State Center for Nursing, ILWU Local 142, American Association of Nurse Practitioners, and three individuals.

Your Committees find that this housekeeping measure will update current processes and improve the efficiency of the temporary disability insurance program. Notably, this measure will allow advanced practice registered nurses to certify employee disabilities thereby giving employees additional provider choices, especially employees residing in rural areas; increase the penalty for employers

who fail to submit timely wage and employment information from \$10 to \$250 per request to encourage employers to provide prompt information, thus allowing employees to receive prompt benefit payments; allow the Department to hold hearings in locations other than the county office where the employee was employed or resided at the time of the disability, enabling hearings to be held for employees who may be permanently or temporarily living in another county for medical treatment or other reasons; and allow the Department to hold hearings not only in person but also via telephone or by other communication devices to accommodate parties that are not located on the same island and reduce travel time and costs for the parties.

Your Committees have amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Labor and Commerce, Consumer Protection, and Health that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2375, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2375, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Labor: Ayes, 4. Noes, none. Excused, 1 (Taniguchi).

Commerce, Consumer Protection, and Health: Ayes, 4. Noes, none. Excused, 3 (Espero, Nishihara, Ruderman).

SCRep. 2308 (Joint) Labor and Commerce, Consumer Protection, and Health on S.B. No. 2358

The purpose and intent of this measure is to:

- (1) Limit physician-dispensed prescription drugs in workers' compensation claims to the first thirty days from the work injury date; and
- (2) Lower the reimbursement rates of prescription drugs in workers' compensation claims.

Your Committees received testimony in support of this measure from the City and County of Honolulu, Department of Human Resources; Hawaii Insurers Council; National Association of Mutual Insurance Companies; Property Casualty Insurers Association of America; ILWU Local 142; and Chamber of Commerce Hawaii. Your Committees received testimony in opposition to this measure from Automated HealthCare Solutions, Maui Pain Clinic, a petition signed by ninety members of the Work Injury Medical Association of Hawaii, and four individuals. Your Committees received comments on this measure from the Department of Labor and Industrial Relations.

Your Committees find that Hawaii has the highest reimbursement rate in the nation for brand name and generic drugs at forty percent over average wholesale price. Although other state reimbursement rates range widely among the thirty-seven states that reimburse prescription drugs, the national average reimbursement rate is three percent below average wholesale price, plus a \$4.32 dispensing fee, for brand name drugs, and four percent below average wholesale price, plus a \$4.94 dispensing fee, for generic drugs. Your Committees find that this measure brings Hawaii closer to the rest of the nation in terms of its dispensing policies and reimbursement rates for prescription drugs in the workers' compensation system.

Your Committees acknowledge that this measure is a work in progress and hope that as it moves through the legislative process that the Department of Labor and Industrial Relations and advocates and proponents of this measure can discuss possible amendments for recommendation to your Committee on Ways and Means.

Your Committees have amended this measure by inserting an effective date of January 1, 2045, to encourage further discussion.

As affirmed by the records of votes of the members of your Committees on Labor and Commerce, Consumer Protection, and Health that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2358, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2358, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Labor: Ayes, 4. Noes, none. Excused, 1 (Taniguchi).

Commerce, Consumer Protection, and Health: Ayes, 4. Noes, none. Excused, 3 (Espero, Nishihara, Ruderman).

SCRep. 2309 (Joint) Economic Development, Tourism, and Technology and Transportation and Energy on S.B. No. 3056

The purpose and intent of this measure is to appropriate funds to the Natural Energy Laboratory of Hawaii Authority to enable the authority to continue its efforts in producing hydroelectric power for the State.

Your Committees received testimony in support of this measure from the Natural Energy Laboratory of Hawaii Authority; Renewable Ocean Energy, Inc.; and Oahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i. Your Committees received testimony in opposition to this measure from one individual.

Your Committees find that electricity rates in Hawaii are among the highest in the nation and that there is a need to research different viable sources of energy to reduce electricity costs for residents of Hawaii. Your Committees further find that hydroelectricity is the lowest-cost form of renewable energy. The Natural Energy Laboratory of Hawaii Authority has received a proposal from a private organization with a patent-pending device that harnesses one of Hawaii's most plentiful resources, ocean water, to create energy. The patent-pending device is expected to reduce the cost of electricity and has the potential to help Hawaii achieve its goal of running on one hundred percent renewable energy years before the target date. Therefore, your Committees find it important to support the initiative to harness the power of ocean water and explore hydroelectricity more in depth.

Your Committees have amended this measure by inserting an effective date of July 1, 2050, to encourage further discussion.

As affirmed by the records of votes of the members of your Committees on Economic Development, Tourism, and Technology and Transportation and Energy that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 3056,

as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 3056, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Economic Development, Tourism, and Technology: Ayes, 3. Noes, none. Excused, 2 (Galuteria, Taniguchi).

Transportation and Energy: Ayes, 3. Noes, none. Excused, 2 (Inouye, Shimabukuro).

SCRep. 2310 Economic Development, Tourism, and Technology on S.B. No. 2903

The purpose and intent of this measure is to appropriate funds to the Hawaii Technology Development Corporation for continuance and administration of the manufacturing development program.

Your Committee received testimony in support of this measure from the Hawaii Technology Development Corporation; Hawaii Food Industry Association; Makai Ocean Engineering, Inc.; Lanikai Brewing Company; Honolulu Beerworks; KYD, Inc.; Hyperspective; Kohola Brewery; First Commercial Kitchen, LLC; Maui Brewing Company; Hawaii Fish Company; Maui Soda and Ice Works, Ltd. dba Roselani Ice Cream; Kauai Island Brewing Company; The Tea Chest; Waikiki Brewing Company; DewPoint System, LLC; Hawaii Farm Bureau; Hawaiian Craft Brewers Guild; Maui Wine, Ltd.; Big Island Brewhaus; KYD, Inc. dba: K. Yamada Distributors; Meadow Gold Dairies; Taps and Apps, LLC; Diamond Bakery; Chamber of Commerce Hawaii; Oahu County Committee on Legislative Priorities of the Democratic Party of Hawaii; Mana Up Labs, LLC; and four individuals.

Your Committee finds that the manufacturing development program of the Hawaii Technology Development Corporation has been assisting and supporting local businesses to effectively grow, develop, and compete in a highly globalized commercial and e-commerce environment. Your Committee recognizes that given the location of Hawaii, businesses located here face an additional challenge of high costs of energy and shipping. Therefore, the continued support of the manufacturing sector in Hawaii benefits the economy by creating more jobs and allowing businesses to strive in a highly competitive market.

As affirmed by the record of votes of the members of your Committee on Economic Development, Tourism, and Technology that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2903 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Baker, Galuteria).

SCRep. 2311 Economic Development, Tourism, and Technology on S.B. No. 2904

The purpose and intent of this measure is to appropriate funds to the Hawaii Technology Development Corporation for continuance of the Small Business Innovation Research Program.

Your Committee received testimony in support of this measure from the Hawaii Technology Development Corporation; Hawaii Food Industry Association; Experiad; Makai Ocean Engineering, Inc.; Oceanit Laboratories, Inc.; Navatek; Premier Solutions Hawaii, LLC; AlgorithmHub, Inc.; Kampachi Farms, LLC; MonsterWorks; HNu Photonics, LLC; NetEnterprise; RevaComm; Ag Matters; Nalu Scientific, LLC; Hawaii Evolutionary Development, LLC; DewPoint System, LLC; Spectrum Photonics; Studio Kinecton, Inc.; Jun Innovations; Smart Yields; Referentia Systems Incorporated; Tea Hawaii and Company; Akabotics, LLC; Oahu County Committee on Legislative Priorities of the Democratic Party of Hawaii; Chamber of Commerce Hawaii; Hawaii Biotech, Inc.; and five individuals.

Your Committee finds that since 1989, the Hawaii Technology Development Corporation has been providing phase I matching grants to companies that were awarded grants and began awarding phase II and phase III grants in fiscal year 2015-2016. Your Committee further finds that with the current amount of funds that is available this year, only five out of nine companies were funded. Every year, the Development Corporation sees more qualified applicants but not enough funding. Since the implementation of the phase II and phase III program, none of the applicants have received the full eligible amount. Your Committee finds that the support that the Small Business Innovation Research Program provides to businesses in Hawaii is imperative to creating more jobs and encouraging innovation in Hawaii and believes that it should be sufficiently funded to continue its efforts for small businesses to strive.

As affirmed by the record of votes of the members of your Committee on Economic Development, Tourism, and Technology that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2904 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Baker, Galuteria).

SCRep. 2312 Economic Development, Tourism, and Technology on S.B. No. 3000

The purpose and intent of this measure is to:

- (1) Establish the research and development program in the Hawaii Technology Development Corporation;
- (2) Establish the research and development special fund; and
- (3) Appropriate funds for the research and development program.

Your Committee received testimony in support of this measure from the Hawaii Technology Development Corporation; Navatek; Makai Ocean Engineering, Inc.; Chamber of Commerce Hawaii; Oahu County Committee on Legislative Priorities of the Democratic Party of Hawaii; and six individuals. Your Committee received comments on this measure from the Department of Budget and Finance.

Your Committee finds that research and development is vital to the future growth of Hawaii's economy. Supporting innovation in Hawaii will encourage innovative ideas from the local community. It is important for the State to create an environment that

encourages new ideas that aim to advance Hawaii in research and development, and doing so will create more jobs and encourage highly skilled workers to remain in Hawaii.

Your Committee has amended this measure, as suggested by the Hawaii Technology Development Corporation, by:

- (1) Clarifying that merely submitting proof of federal research and development tax credits received will not entitle a business to receive funding under the research and development program but will make the business eligible for funding;
- (2) Requiring the Hawaii Technology Development Corporation to analyze each application for the program to determine whether the item to be undertaken will be economically viable and beneficial to the State; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Economic Development, Tourism, and Technology that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3000, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3000, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Baker, Galuteria).

SCRep. 2313 Economic Development, Tourism, and Technology on S.B. No. 2902

The purpose and intent of this measure is to appropriate funds, subject to a matching requirement, for grants to participants of software application challenges in order for proofs of concept created during the challenges to be developed into prototypes suitable for state and county government.

Your Committee received testimony in support of this measure from the Department of Commerce and Consumer Affairs, Office of Enterprise Technology Services, Hawaii Technology Development Corporation, Makai Ocean Engineering, Oahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, Transform Hawai'i Government, and one individual.

Your Committee finds that supporting the local technology community in Hawaii has the potential to assist the state and county governments to obtain necessary technology to more efficiently and effectively carry out their duties to the public. The Hawaii Annual Code Challenge creates the opportunity for the State to work with the local technology community to modernize the State and develop innovative tools and applications to enhance services to the public. Your Committee strongly believes that technology will continue to advance and create opportunities to transform government services.

Your Committee has amended this measure, as suggested by the Hawaii Technology Development Corporation, by:

- (1) Allowing federal and county sources as matching funds; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Economic Development, Tourism, and Technology that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2902, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2902, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Baker, Galuteria).

SCRep. 2314 Commerce, Consumer Protection, and Health on S.B. No. 2811

The purpose and intent of this measure is to update chapter 329, Hawaii Revised Statutes, the Uniform Controlled Substances Act, to be consistent with federal law, by allowing properly registered practitioners to prescribe drugs including buprenorphine and naloxone to patients undergoing medically managed withdrawal.

Your Committee received testimony in support of this measure from the Department of Health and Department of Public Safety.

Your Committee finds that this measure will bring Hawaii law into conformity with federal law, and permit registered medical practitioners to prescribe drugs including buprenorphine and naloxone for purposes of "medically managed withdrawal", also known as "detoxification treatment" and "maintenance treatment". Your Committee finds that this measure will not limit the use of these drugs for medical purposes. Your Committee also finds that this measure will assist in enforcement of drug laws and prevention of drug abuse and diversion in the State.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2811, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2811, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 3 (Espero, Ihara, Nishihara).

SCRep. 2315 Economic Development, Tourism, and Technology on S.B. No. 2705

The purpose and intent of this measure is to:

- (1) Authorize the establishment of five state public-private partnership coordinator positions within the Department of Business, Economic Development, and Tourism to manage certain public-private partnerships entered into by the State;
- (2) Establish the Office of Public-Private Partnership within the Department of Business, Economic Development, and Tourism; and
- (3) Appropriate funds to fulfill the purposes of this measure.

Your Committee received testimony in support of this measure from the State Procurement Office, Oahu County Committee on Legislative Priorities of the Democratic Party of Hawaii, Stadium Authority, and Chamber of Commerce Hawaii. Your Committee received comments on this measure from the Department of Accounting and General Services; Department of Business, Economic Development, and Tourism; and Hawaii Housing Finance and Development Corporation.

Your Committee finds that public-private partnerships are a creative tool for the State to contract and finance state projects with private organizations, creating a vast amount of opportunities to grow and expand government services. Encouraging collaboration between the public and private sectors will allow the State to more efficiently and effectively utilize public resources.

Your Committee further finds that currently there is no entity to coordinate and collaborate on public-private partnerships or to facilitate potential projects between the public and private sectors. Therefore, your Committee believes that establishing an Office of Public-Private Partnership will allow for better organization and coordination of public-private partnerships.

Your Committee has amended this measure by:

- (1) Placing the Office of Public-Private Partnership under the Department of Accounting and General Services instead of the Department of Business, Economic Development, and Tourism;
- (2) Requiring all state public-private partnership proposals to be reviewed and approved by the Department of Budget and Finance, Department of Accounting and General Services, and Department of the Attorney General;
- (3) Establishing a cap of sixty-five years on terms of partnerships entered into by the Office;
- (4) Exempting public-private partnerships entered into by the Office from chapter 103D, Hawaii Revised Statutes, State Procurement Code; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Economic Development, Tourism, and Technology that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2705, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2705, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3; Ayes with Reservations (Taniguchi). Noes, none. Excused, 2 (Galuteria, Thielen).

SCRep. 2316 Economic Development, Tourism, and Technology on S.B. No. 2678

The purpose and intent of this measure is to codify the State's commitment to conservation and sustainability by including goal seventeen, strengthening implementation, of the seventeen United Nations Sustainable Development Goals and indicators, with references to existing state sustainability programs, if applicable, in the Hawaii Revised Statutes.

Your Committee received testimony in support of this measure from the Department of Agriculture, Airports Concessionaries Committee, and Oahu County Committee on Legislative Priorities of the Democratic Party of Hawaii. Your Committee received comments on this measure from the Office of Planning.

Your Committee finds that Hawaii has been a leader in conservation efforts for decades, through its commitment to environmental and sustainability policies, and that a priority of the Senate for the Regular Session of 2018 is to adopt the United Nations' Sustainable Development Goals at the state level. The seventeen Sustainable Development Goals are a universal call to action to end poverty, protect the planet, and ensure that all people enjoy peace and prosperity. This measure codifies Sustainable Development Goal seventeen, strengthening implementation, into state law.

Your Committee has amended this measure by:

- (1) Codifying Sustainable Development Goal seventeen into chapter 226, Hawaii Revised Statutes, instead of chapter 344, Hawaii Revised Statutes;
- (2) Inserting language to additionally codify the State of Hawaii's 2050 Sustainability Plan goals, which were established in 2008 to express the sustainable future of Hawaii; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Economic Development, Tourism, and Technology that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2678, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2678, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Galuteria, Thielen).

SCRep. 2317 Economic Development, Tourism, and Technology on S.B. No. 2670

The purpose and intent of this measure is to codify the State's commitment to conservation and sustainability by including goal nine, relating to industry, innovation, and infrastructure, of the seventeen United Nations Sustainable Development Goals and indicators, with references to existing state sustainability programs, if applicable, in the Hawaii Revised Statutes.

Your Committee received testimony in support of this measure from the Department of Agriculture, Airport Concessionaries Committee, and Oahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i. Your Committee received comments on this measure from the Office of Planning.

Your Committee finds that Hawaii has been a leader in conservation efforts for decades, through its commitment to environmental and sustainability policies, and that a priority of the Senate for the Regular Session of 2018 is to adopt the United Nations' Sustainable Development Goals at the state level. The seventeen Sustainable Development Goals are a universal call to action to end poverty, protect the planet, and ensure that all people enjoy peace and prosperity. This measure codifies Sustainable Development Goal nine, industry, innovation, and infrastructure, into state law.

Your Committee has amended this measure by:

- (1) Codifying Sustainable Development Goal nine into chapter 226, Hawaii Revised Statutes, instead of chapter 344, Hawaii Revised Statutes;
- (2) Inserting language to additionally codify the State of Hawaii's 2050 Sustainability Plan goals, which were established in 2008 to express the sustainable future of Hawaii; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Economic Development, Tourism, and Technology that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2670, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2670, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Galuteria, Thielen).

SCRep. 2318 (Joint) Economic Development, Tourism, and Technology and Public Safety, Intergovernmental, and Military Affairs and Transportation and Energy on S.B. No. 3086

The purpose and intent of this measure is to require the Department of Business, Economic Development, and Tourism to partner with the United States Department of Energy to establish an Office of Science National Laboratory in the Kalaeloa community development district.

Your Committees received testimony in support of this measure from the Oahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i. Your Committees received comments on this measure from the Department of Business, Economic Development, and Tourism; Hawaii Community Development Authority; and one individual.

Your Committees find there is a need to research revolutionary energy breakthroughs and that to achieve the goal of one hundred percent renewable energy, the State requires necessary research facilities to support the development of new means of producing energy. Your Committees recognize that the United States Department of Energy national science laboratories provide the nation with strategic scientific and technological capabilities. The national science laboratories of the United States Department of Energy aim to:

- (1) Execute long-term government scientific and technological missions, often with complex security, safety, project management, or other operation changes;
- (2) Develop unique, often multidisciplinary, scientific capabilities beyond the scope of academic and industrial institutions, to benefit the nation's researchers and national strategic priorities; and
- (3) Develop and sustain critical scientific and technical capabilities to which the government requires assured access.

Your Committees find that establishing an Office of Science National Laboratories in Hawaii will support Hawaii's goal of working toward one hundred percent renewable energy for the entire State.

As affirmed by the records of votes of the members of your Committees on Economic Development, Tourism, and Technology, Public Safety, Intergovernmental, and Military Affairs, and Transportation and Energy that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 3086 and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
Economic Development, Tourism, and Technology: Ayes, 3. Noes, none. Excused, 2 (Galuteria, Taniguchi).
Public Safety, Intergovernmental, and Military Affairs: Ayes, 4. Noes, none. Excused, 1 (Ihara).
Transportation and Energy: Ayes, 3. Noes, none. Excused, 2 (Inouye, Shimabukuro).

SCRep. 2319 (Joint) Economic Development, Tourism, and Technology and Water and Land and Agriculture and Environment on S.B. No. 2972

The purpose and intent of this measure is to:

- (1) Allocate twenty-five percent of revenues collected from commercial properties within the Banyan Drive redevelopment area to the Banyan Drive Hawai'i Redevelopment Agency; and

- (2) Appropriate funds from the special land and development fund to assist the Banyan Drive Hawai'i Redevelopment Agency in conducting the environmental impact studies or other studies necessary for its redevelopment plan for the Banyan Drive redevelopment area.

Your Committees received testimony in support of this measure from the County of Hawai'i Planning Department; Harry Kim, Mayor of the County of Hawai'i; Hawai'i Association of REALTORS; International Longshore and Warehouse Union Local 142; and one individual. Your Committees received comments on this measure from the Department of Land and Natural Resources.

Your Committees find that Banyan Drive is underutilized and in disrepair, regardless of being the center of tourism for East Hawai'i. The Banyan Drive Hawai'i Redevelopment Agency has been working toward the redevelopment of the properties within Banyan Drive. Given that the redevelopment areas have been defined and a master plan in line with the community's values has been created, your Committees believe that the next step is to provide funding to conduct environmental impact studies and other studies required pursuant to chapter 343, Hawaii Revised Statutes. Your Committees further find that the redevelopment area consists almost entirely of state land and that working with the County of Hawai'i to redevelop the center of tourism in East Hawai'i will significantly benefit the State and County of Hawai'i.

Your Committees have amended this measure by:

- (1) Deleting language that would have authorized the special land and development fund to be used by a redevelopment agency of a county to conduct environmental impact studies or other studies to ensure that monies appropriated is purely for the redevelopment of Banyan Drive;
- (2) Reducing the percentage required to be allocated to the Banyan Drive Hawai'i Redevelopment Agency from the revenues collected from commercial properties within the Banyan Drive redevelopment area from twenty-five percent to ten percent; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Economic Development, Tourism, and Technology, Water and Land, and Agriculture and Environment that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2972, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2972, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Economic Development, Tourism, and Technology: Ayes, 3. Noes, none. Excused, 2 (Baker, Taniguchi).

Water and Land: Ayes, 4. Noes, none. Excused, 1 (Inouye).

Agriculture and Environment: Ayes, 4. Noes, none. Excused, 1 (Nishihara).

SCRep. 2320 (Joint) Public Safety, Intergovernmental, and Military Affairs and Transportation and Energy on S.B. No. 2738

The purpose and intent of this measure is to require county police departments and the Department of Transportation to sanitize unclaimed electronic devices, in accordance with recognized standards and guidelines, before providing the unclaimed property to finders or disposing of the property by public auction or other means.

Your Committees received testimony in support of this measure from the Department of Commerce and Consumer Affairs, Department of Transportation, Office of Enterprise Technology Services, and Honolulu Police Department.

Your Committees find that protecting individuals' sensitive personal information is important for maintaining public safety. The many personal electronic devices that individuals use contain copious amounts of a device owner's personal information. When these devices are lost, the personal information contained therein is potentially accessible by others, thereby putting the owner at risk. Under existing law, some local and state agencies are required to return unclaimed property to the finder of that property after forty-five days. However, existing laws do not require the applicable local or state agency to take steps to protect any personal information contained within found electronic devices before returning them to a finder or disposing of the devices. Therefore, your Committees find that state law needs to be updated to keep pace with technology and reflect the need to protect personal information on unclaimed electronic devices.

As affirmed by the records of votes of the members of your Committees on Public Safety, Intergovernmental, and Military Affairs and Transportation and Energy that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2738 and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Public Safety, Intergovernmental, and Military Affairs: Ayes, 3. Noes, none. Excused, 2 (Baker, Ihara).

Transportation and Energy: Ayes, 5. Noes, none. Excused, none.

SCRep. 2321 (Joint) Public Safety, Intergovernmental, and Military Affairs and Higher Education on S.B. No. 2622

The purpose and intent of this measure is to require compliance with the Military Selective Service Act in order to enroll in a state-supported post-secondary educational institution, qualify for state financial assistance for post-secondary education, and be eligible for state or county employment or service, with certain exceptions.

Your Committees received testimony in support of this measure from the United States Selective Service System Hawaii and one individual. Your Committees received testimony in opposition to this measure from the University of Hawai'i; ACLU of Hawai'i; Libertarian Party of Hawai'i; Hawai'i Civil Rights Commission; Ho'omanapono Political Action Committee; Ho'omana Pono, LLC; and one individual. Your Committees received comments on this measure from the Department of the Attorney General.

Your Committees find that compliance with the Military Selective Service Act is essential for the continued existence of a military force for the protection and security of all citizens. However, many of those who are required to register for selective service do not. Given the importance of compliance with the Military Selective Service Act, it is necessary to put in place measures that ensure and increase compliance with the Act. To that end, the federal government prohibits non-compliant persons from receiving federal student financial assistance or from being employed in a government job. Accordingly, this measure adopts similar measures applicable to state financial assistance for post-secondary education, and eligibility for state or county employment or service.

As affirmed by the records of votes of the members of your Committees on Public Safety, Intergovernmental, and Military Affairs and Higher Education that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2622 and recommend that it pass Second Reading and be referred to your Committee on Labor.

Signed by the Chairs on behalf of the Committees.

Public Safety, Intergovernmental, and Military Affairs: Ayes, 3. Noes, none. Excused, 2 (Ihara, Wakai).

Higher Education: Ayes, 4. Noes, none. Excused, 1 (Kidani).

SCRep. 2322 (Joint) Public Safety, Intergovernmental, and Military Affairs and Economic Development, Tourism, and Technology on S.B. No. 2703

The purpose and intent of this measure is to authorize the issuance of special purpose revenue bonds to assist SpinLaunch Inc., with the financing of the planning, design, construction, equipping, acquisition of land, and other tangible assets necessary for a satellite launch system.

Your Committees received testimony in support of this measure from the Pacific International Space Center for Exploration Systems, SpinLaunch Inc., and one individual. Your Committees received comments on this measure from the Department of Budget and Finance.

Your Committees find that support for the development of a small satellite launch system is in the public interest. SpinLaunch Inc., proposes to construct an electrical small satellite launch system on the island of Hawaii. Your Committees find that this proposed project will produce numerous benefits, including generating millions of dollars in construction project spending; creating long-term technical jobs relating to the operation of the launch facility; helping the State, counties, and federal government to meet their goals and mandates for expanding access to space; and contributing to space exploration, observation, and transportation. Your Committees find that the issuance of special purpose revenue bonds to assist SpinLaunch Inc., in constructing a portion of its electrical small satellite launch system will make the development of such a system more economically feasible.

As affirmed by the records of votes of the members of your Committees on Public Safety, Intergovernmental, and Military Affairs and Economic Development, Tourism, and Technology that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2703 and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Public Safety, Intergovernmental, and Military Affairs: Ayes, 3. Noes, none. Excused, 2 (Baker, Thielen).

Economic Development, Tourism, and Technology: Ayes, 3. Noes, none. Excused, 2 (Baker, Thielen).

SCRep. 2323 (Joint) Public Safety, Intergovernmental, and Military Affairs and Transportation and Energy on S.B. No. 2479

The purpose and intent of this measure is to require the counties to remove and dispose of abandoned vehicles on public roads within ten business days.

Your Committees received testimony in support of this measure from the Maui Police Department; Ho'omanapono Political Action Committee; Ho'omana Pono, LLC; Oahu County Committee on Legislative Priorities of the Democratic Party of Hawaii; Hawaii County Councilmember Eileen O'Hara; and eleven individuals. Your Committees received testimony in opposition to this measure from the Department of Customer Services for the City and County of Honolulu and the County of Maui Department of Environmental Management Abandoned Vehicles Administrator.

Your Committees find that abandoned vehicles on public roads are a widespread environmental disaster that can impact human health and safety. Recently, the incidence of abandoned vehicles on public roads has increased significantly. Indeed, testimony presented to your Committees by the Department of Customer Services for the City and County of Honolulu indicates that last year alone their department investigated 28,263 abandoned vehicle complaints and took action on 9,668 unwanted vehicles left on public property. Moreover, abandoned vehicles are often left sitting for extended periods before they are removed. Your Committees find that abandoned vehicles on public roads need to be removed in a timely manner to prevent and reduce public health and safety dangers.

Your Committees also recognize the concerns raised by the Department of Customer Services of the City and County of Honolulu relating to requirements that may impede the county's ability to deal with abandoned vehicles on public roads. Specifically, your Committees note needed changes to statutory requirements for the issuance of written notice to owners of abandoned vehicles and the disposal of abandoned vehicles via public auction. Your Committees find that these requirements are unnecessarily burdensome considering that notice is already attached to an abandoned vehicle and the counties hold regular public auctions of abandoned vehicles. In addition, your Committees note that the statutory conditions that define "derelict vehicles" should be updated to provide the counties with greater flexibility to rapidly dispose of these types of vehicles.

Accordingly, your Committees have amended this measure by:

- (1) Repealing the requirement that the counties dispose of abandoned vehicles within ten business days of abandonment;
- (2) Inserting language to specify that the requirement to provide written notice to the registered owner of an abandoned vehicle under section 290-2, Hawaii Revised Statutes (HRS), applies only to those abandoned vehicles that have been reported stolen;
- (3) Inserting language to amend the conditions that constitute a derelict vehicle under section 290-8, HRS;

- (4) Repealing section 290-3, HRS, requiring the disposal of abandoned vehicles by public auction; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Public Safety, Intergovernmental, and Military Affairs and Transportation and Energy that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2479, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2479, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Public Safety, Intergovernmental, and Military Affairs: Ayes, 3. Noes, none. Excused, 2 (Baker, Ihara).

Transportation and Energy: Ayes, 5. Noes, none. Excused, none.

SCRep. 2324 Water and Land on S.B. No. 2635

The purpose and intent of this measure is to:

- (1) Require owners of vessels that are required to be registered with the State to obtain vessel insurance;
- (2) Specify the types of insurance coverage required and exempt certain vessels from the mandatory insurance requirement; and
- (3) Authorize the Chairperson of the Board of Land and Natural Resources to adopt administrative rules concerning mandatory vessel insurance.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources and Hawaiian Civic Club of Honolulu. Your Committee received testimony in opposition to this measure from three individuals.

Your Committee finds that in 2009, the Department of Land and Natural Resources began requiring mandatory insurance coverage as a condition of obtaining a mooring permit for state small boat harbors. According to the Department, although the total number of uninsured vessels has decreased, there are still a significant number of vessels that are uninsured because the owners of these vessels do not hold a mooring permit for a state small boat harbor. Despite the lack of vessel insurance coverage, these uninsured vessels are still allowed to use launch ramps to access ocean waters and operate in or on waters of the State. This measure addresses the associated costs for the removal of an uninsured vessel in the event of a boating accident or grounding, by requiring vessel insurance.

Your Committee has amended this measure by:

- (1) Clarifying that the new section relating to mandatory vessel insurance is to be added to part II of chapter 200, Hawaii Revised Statutes, relating to boating law; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2635, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2635, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Inouye, Thielen).

SCRep. 2325 Water and Land on S.B. No. 2974

The purpose and intent of this measure is to codify the Uniform Certificate of Title for Vessels Act to:

- (1) Require certain vessel owners to apply for a certificate of title within twenty days of becoming an owner or within twenty days of establishing principal use of the vessel in waters of the State; and
- (2) Establish what information is required to be included in an application for a certificate of title; how to deal with transfer of vessel ownership and title; rights of a secured party; and rights of a purchaser other than a secured party.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources, Hawaiian Civic Club of Honolulu, Boat History Report, Commission to Promote Uniform Legislation, National Marine Manufacturers Association, and Boat Owners Association of The United States. Your Committee received comments on this measure from The Civil Beat Law Center for the Public Interest.

Your Committee finds that vessels under the jurisdiction of the Department of Land and Natural Resources that do not have a United States Coast Guard documentation number are only required to obtain a certificate of number with the Department's Division of Boating and Ocean Resources' Vessel Registration Office. However, this certificate of number does not ensure that a vessel is not stolen because the Vessel Registration Office cannot verify ownership of a vessel other than by documents provided by the registrant. Thus, the absence of a vessel titling law can lead to extensive fraud. By codifying the Uniform Certificate of Title for Vessels Act, this measure will reduce the number of stolen vessels being fraudulently registered with the State and help the Vessel Registration Office quickly verify the owner of a vessel, which in turn will potentially decrease the processing of and wait times for vessel transfers.

Your Committee has amended this measure by:

- (1) Adopting the language suggested by the Department of Land and Natural Resources that specifies any vessel owners who have a valid certificate of number with the Department of Land and Natural Resources as of the effective date of this measure, will not be required to immediately obtain a certificate of title, but will be required to title the vessel at the time of renewal; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2974, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2974, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Thielen).

SCRep. 2326 (Joint) Commerce, Consumer Protection, and Health and Human Services on S.B. No. 2591

The purpose and intent of this measure is to require and appropriate funds for the Executive Office on Aging to annually update the State Plan on Alzheimer's Disease and Related Dementias, including a detailed work plan with specific tasks and timelines for each update, and to provide this update in a report to the Legislature and the Governor.

Your Committees received testimony in support of this measure from four individuals. Your Committees received comments on this measure from the Department of Health Executive Office on Aging.

Your Committees find that Alzheimer's disease is the sixth leading cause of death in the United States. An estimated twenty-seven thousand individuals in Hawaii live with Alzheimer's disease, and this number is expected to grow. Accordingly, the Executive Office on Aging issued the State Plan on Alzheimer's Disease and Related Dementias in 2013. However, the Executive Office on Aging has not updated the State Plan since it was issued. Your Committees find that a regularly updated State Plan is necessary for the State to properly prepare for the expected increase in individuals with Alzheimer's disease and related dementias.

Although regular updates to the State Plan are important, your Committees recognize the burden that annual reporting may impose on the Executive Office on Aging. As such, your Committees find that updating the State Plan on Alzheimer's Disease and Related Dementias once every other year will suffice; provided that the Executive Office on Aging includes in its annual report to the Legislature an update on the progress being made toward accomplishing the goals of the State Plan. Your Committees find that this will reduce the burden on the Executive Office on Aging while still accomplishing the purpose of this measure.

Your Committees have amended this measure by:

- (1) Requiring that the Executive Office on Aging amend the State Plan on Alzheimer's Disease and Related Dementias once every biennium, rather than every year;
- (2) Requiring that the Executive Office on Aging provide an update on progress made toward the goals of the State Plan on Alzheimer's Disease and Related Dementias as part of its annual report to the Legislature, rather than as a separate report to the Legislature and Governor;
- (3) Removing the appropriation amount of \$175,000 and leaving the amount blank; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Commerce, Consumer Protection, and Health and Human Services that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2591, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2591, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
Commerce, Consumer Protection, and Health: Ayes, 4. Noes, none. Excused, 3 (Ihara, Nishihara, Ruderman).
Human Services: Ayes, 4. Noes, none. Excused, 1 (Wakai).

SCRep. 2327 (Joint) Transportation and Energy and Commerce, Consumer Protection, and Health on S.B. No. 2915

The purpose and intent of this measure is to protect Hawaii consumers from persons who knowingly manufacture, import, sell, or install counterfeit airbag products by prohibiting the manufacturing, importing, selling, or installing of counterfeit airbags.

Your Committees received testimony in support of this measure from the Department of Commerce and Consumer Affairs; Automotive Anti-Counterfeiting Council, Inc.; and two individuals.

Your Committees find that a motor vehicle's supplemental restraint system is a sophisticated network of airbags and sensors that enhance passenger safety. Counterfeit airbags are a serious public safety concern, as they can result in severe injuries or death. Your Committees conclude that anyone who installs a counterfeit airbag in a motor vehicle places the occupants at risk for severe injury or death, and criminal sanctions should be established to deter anyone from selling or installing counterfeit airbags.

Your Committees have amended this measure by:

- (1) Including language on the recommendation of the Department of Commerce and Consumer Affairs to make each violation cumulative; and
- (2) Making technical, nonsubstantive amendments for the purpose of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Transportation and Energy and Commerce, Consumer Protection, and Health that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2915, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2915, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chairs on behalf of the Committees.
Transportation and Energy: Ayes, 3. Noes, none. Excused, 2 (English, Harimoto).
Commerce, Consumer Protection, and Health: Ayes, 5. Noes, none. Excused, 2 (Ihara, Nishihara).

SCRep. 2328 Transportation and Energy on S.B. No. 2326

The purpose and intent of this measure is to ensure individuals who have failed to pay for parking because of an inoperable ticket issuing machine are not unfairly punished by prohibiting a towing company from towing a vehicle that has failed to pay for parking if the ticket issuing machine is inoperable.

Your Committee received testimony in support of this measure from the Department of Commerce and Consumer Affairs and one individual.

Your Committee finds that having a car towed can be stressful and costly, and having a car towed even though the driver is not at fault can be especially burdensome. Your Committee concludes that this measure enhances consumer protection by ensuring that drivers who have not paid for parking due to an inoperable ticketing machine will not have their cars towed.

However, your Committee finds that while protecting drivers from towing when the driver cannot pay due to an inoperable ticket issuing machine can reduce stress, drivers might still feel stressed by not knowing what to do when the ticket issuing machine is inoperable. Your Committee believes that providing clear instructions is important in maintaining consumer protection.

Accordingly, your Committee has amended this measure to:

- (1) Require owners or operators of parking ticket issuing machines to list a customer service number on a visible, unobstructed location on the ticket issuing machine;
- (2) Require a client to call the customer service number listed on an inoperable ticket issuing machine within two hours of recognizing that the ticket issuing machine is inoperable to avoid being subject to towing;
- (3) Require an owner or operator to respond within ten minutes of the initial call by a client that the ticket issuing machine is inoperable and to send an attendant to service the ticket issuing machine within thirty minutes; and
- (4) Add a definition of "client".

As affirmed by the record of votes of the members of your Committee on Transportation and Energy that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2326, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2326, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2329 Transportation and Energy on S.B. No. 2935

The purpose and intent of this measure is to require the Department of Commerce and Consumer Affairs to adopt state appliance efficiency standards that are modeled after California's efficiency standards.

Your Committee received testimony in support of this measure from Hawaii Energy, Natural Resources Defense Council, Blue Planet Foundation, and two individuals. Your Committee received testimony in opposition to this measure from the Department of Commerce and Consumer Affairs and Association of Home Appliance Manufacturers.

Your Committee finds that energy efficiency standards have been adopted by a number of states. These energy efficiency standards can help lower energy bills for families. However, manufacturers might unload less efficient appliances to states that do not have energy efficiency standards, increasing utility bills for residents of these states by a considerable amount – in Hawaii, residents risk losing millions of dollars in electricity costs. By adopting energy efficiency standards, Hawaii can avoid becoming a "dumping ground" of older equipment and save its residents millions of dollars over time.

Your Committee received testimony from the Department of Commerce and Consumer Affairs expressing concern about the Department's ability to oversee the program. Your Committee also received testimony indicating that some appliances listed in this measure are not in California's efficiency standards.

Thus, your Committee has amended this measure by:

- (1) Changing the agency adopting and overseeing the appliance efficiency standards from the Department of Commerce and Consumer Affairs to the Hawaii State Energy Office;
- (2) Removing portable air purifiers from the list of appliances that must meet appliance efficiency standards; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Transportation and Energy that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2935, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2935, S.D. 1, and be referred to your Committee on Commerce, Consumer Protection, and Health.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2330 Transportation and Energy on S.B. No. 2019

The purpose and intent of this measure is to establish a biofuel content requirement of no less than ten percent biofuel that is produced in the State by volume.

Your Committee received testimony in support of this measure from the Hawaii Bioeconomy Trade Organization, Pacific Biodiesel, and two individuals. Your Committee received testimony in opposition to this measure from Hawaii Petroleum. Your Committee

received comments on this measure from the Department of Business, Economic Development, and Tourism; and Hawaii Energy Policy Forum.

Your Committee finds that biofuels are beneficial to the State, allowing the State to be more energy independent and helping the State achieve the Hawaii Clean Energy Initiative's goal of one hundred percent clean energy by 2045.

However, your Committee finds that the requirement of locally produced biofuel could run afoul of the federal Interstate Commerce Clause and that there might be disagreement over the definition of "competitively-priced". Your Committee also notes concerns about the implementation of a biofuel mandate.

Accordingly, your Committee has amended this measure by:

- (1) Removing the requirement that the biofuel be produced in Hawaii from agricultural products grown in Hawaii;
- (2) Removing the requirement that there not be sufficient quantities of competitively-priced biofuels before the Director of Business, Economic Development, and Tourism can authorize the sale of fuel that does not meet this measure's requirements;
- (3) Removing the requirement that rules be adopted and take effect no later than ninety days after an unspecified amount of biofuel is produced in Hawaii;
- (4) Removing the requirement that distributors report on the price of biofuels; and
- (5) Inserting an effective date of July 1, 2050, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Transportation and Energy that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2019, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2019, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 2331 Transportation and Energy on S.B. No. 2099

The purpose and intent of this measure is to change the licensing requirement for the operation of autocycles to align with the intent of the legislation that created the "autocycle" category.

Your Committee received testimony in support of this measure from the Department of Transportation; Polaris Industries, Inc.; and two individuals. Your Committee received comments on this measure from Arcimoto, Inc.

Your Committee finds that autocycles provide an environmentally-friendly and space-saving alternative to larger cars, and that creating the "autocycle" category in the motor vehicle code is one step to reduce traffic congestion and fossil fuel usage in Hawaii. However, your Committee notes that the legislation that created the autocycle category had an error in its language, and housekeeping measures are needed to align the legislative intent and the driver's licensing requirement.

Your Committee has amended this measure by:

- (1) Amending the definition of "autocycles" to better accommodate various models of autocycles available in the autocycle industry; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Transportation and Energy that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2099, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2099, S.D. 1, and be referred to your Committee on Commerce, Consumer Protection, and Health.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 2332 Transportation and Energy on S.B. No. 2955

The purpose and intent of this measure is to require rental motor vehicle lessors operating in Hawaii to incorporate zero-emission vehicles into the lessors' fleets.

Your Committee received testimony in support of this measure from Blue Planet Foundation; 350Hawaii.org; We are One, Inc.; Tell Tale Eye; and eighteen individuals. Your Committee received testimony in opposition to this measure from Enterprise Holdings.

Your Committee finds that the State is committed to its goal of clean energy and transportation. Your Committee concludes that this is only possible if the rental motor vehicle industry, which is responsible for a significant amount of carbon emissions in this State, is working toward that goal as well. Your Committee also finds that requiring motor vehicle lessors to include more zero-emission vehicles in their fleet will increase the number of zero-emission vehicles owned by residents, as lessors sell their vehicles after twelve to eighteen months.

However, your Committee believes that the schedule for when lessors must incorporate zero-emission vehicles as a certain percentage of their fleet is overly ambitious.

In addition, during the hearing, your Committee heard testimony that it is unclear whether Hawaii has the infrastructure in place to accommodate such a large increase in zero-emission vehicles. Specifically, if eighty-five percent of rental vehicle customers are tourist, there is a question about whether the airport, hotels, and other tourist destinations will have enough charging stations to handle the influx of these vehicles on the road.

Your Committee is concerned that without proper infrastructure, people who rent zero-emission vehicles will be severely limited in their ability to drive. As this measure moves through the legislative process, your Committee requests that your Committee on Commerce, Consumer Protection, and Health examine the issue of whether the State has the necessary infrastructure for the influx zero-efficiency vehicles required by this measure and to consider further extending the required dates should more time be required to establish the necessary infrastructure.

Accordingly, your Committee has amended this measure by extending the dates for when lessors must incorporate the benchmarks of zero-emission vehicles by five years each.

As affirmed by the record of votes of the members of your Committee on Transportation and Energy that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2955, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2955, S.D. 1, and be referred to your Committee on Commerce, Consumer Protection, and Health.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2333 Transportation and Energy on S.B. No. 2826

The purpose and intent of this measure is to expand the definition of “drug” in chapter 291E, Hawaii Revised Statutes, to include any substance that can impair the ability of a person to operate a vehicle safely, in order to allow law enforcement to quickly adapt and prosecute offenders who are using new emerging drugs that have not been added to the controlled substance schedules at the time of the offense.

Your Committee received testimony in support of this measure from the Department of Transportation; Honolulu Police Department; Department of the Prosecuting Attorney, County of Maui; Mothers Against Drunk Driving, Hawaii Chapter; Hawaii Strategic Highway Safety Plan; and one individual. Your Committee received comments on this measure from the Consumer Healthcare Products Association.

Your Committee finds that even though some drivers might be under the influence of an intoxicant while driving, thereby creating a dangerous situation on the roads, they might not be prosecuted if the driver is not under the influence of a “drug”, which is currently narrowly defined under the law. By generalizing the definition to include any substance that could impair the driver, prosecution of these individuals who endanger lives can proceed. This measure is particularly relevant as other measures have proposed removing marijuana, which makes up seventy percent of drug-related impaired driving convictions, from the controlled substance list.

However, your Committee notes that this measure, as currently written, could still lead to problems with interpretation.

Accordingly, your Committee has amended this measure by:

- (1) Further expanding the definition of “drug” to mean anything that impairs a person rather than any substance that, when taken into the human body, can impair the ability of a person to operate a vehicle; and
- (2) Making technical, nonsubstantive amendments for the purpose of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Transportation and Energy that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2826, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2826, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2334 Transportation and Energy on S.B. No. 2668

The purpose and intent of this measure is to codify the State’s commitment to conservation and sustainability by including goal seven, affordable and clean energy, of the seventeen United Nations Sustainable Development Goals and indicators, with references to existing state sustainability programs, if applicable, in the Hawaii Revised Statutes.

Your Committee received testimony in support of this measure from the Department of Transportation; Department of Business, Economic Development, and Tourism; Office of Planning; Hawaii Island Economic Development Board; Sierra Club of Hawaii; Airports Concessionaires Committee; Oahu County Committee on Legislative Priorities of the Democratic Party of Hawai’i; and three individuals

Your Committee finds that Hawai’i has been a leader in conservation efforts for decades, through its commitment to environmental and sustainability policies, and that the priority of the Senate for the Regular Session of 2018 is to adopt the United Nation’s Sustainable Development Goals at the state level. The seventeen Sustainable Development Goals are a universal call to action to end poverty, protect the planet, and ensure that all people enjoy peace and prosperity. This measure codifies Sustainable Development Goal seven, affordable and clean energy, into state law.

As affirmed by the record of votes of the members of your Committee on Transportation and Energy that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2668 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2335 Transportation and Energy on S.B. No. 2183

The purpose and intent of this measure is to:

- (1) Establish responsibilities for shippers that receive fireworks;
- (2) Authorize the use of fireworks, by permit, for film and movie productions;
- (3) Authorize the testing, disposal, and destruction of illegal and unwanted fireworks by law enforcement; and
- (4) Correct the labeling dimensions of certain fireworks.

Your Committee received testimony in support of this measure from the Hawaii State Fire Council, Honolulu Fire Department, Kauai Fire Department, Hawaii Fire Department of the County of Hawaii, and one individual.

Your Committee finds that this measure would add another safeguard when fireworks are transported into and within the State by creating another avenue for fire departments to be notified of fireworks being transported. By requiring shippers to also notify fire departments, there is an increased chance for the fire departments to know if an unlicensed individual is attempting to transport fireworks into or within the State. Your Committee also finds that the two exceptions to the fireworks prohibitions, for movie productions and law enforcement, are both reasonable exceptions, and that the change in labeling dimensions is now consistent with nationally recognized standards.

As affirmed by the record of votes of the members of your Committee on Transportation and Energy that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2183 and recommends that it pass Second Reading and be referred to your Committee on Commerce, Consumer Protection, and Health.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2336 (Joint) Water and Land and Economic Development, Tourism, and Technology and Agriculture and Environment on S.B. No. 2977

The purpose and intent of this measure is to require the Hawaii Climate Change Mitigation and Adaptation Commission to assess the effects of tourism on climate change and publish a report on its findings.

Your Committees received testimony in support of this measure from the Oahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, Hawaiian Civic Club of Honolulu, and one individual. Your Committees received comments on this measure from the Department of Land and Natural Resources and Office of Planning.

Your Committees find that the buildup of greenhouse gas emissions in the atmosphere is a serious problem. As a result, there is widespread agreement that the Paris Agreement under the United Nations Framework Convention on Climate Change will be insufficient to keep the global average temperature below two degrees centigrade, as human actions have warmed the planet to one degree centigrade over preindustrial levels. Therefore, immediate action is necessary to reduce the effect of climate change on present and future generations.

Your Committees further find that the primary revenue source for Hawaii is the visitor sector, which is composed of several industries, such as service, transportation, and retail trades. By requiring an assessment of the impact the tourism industry has on climate change, this measure will assist in developing initiatives to support the State's sustainability.

Your Committees note the comments submitted by the Department of Land and Natural Resources and Office of Planning that determining the effects of the tourism industry on climate change may be too broad to accurately analyze and report.

Accordingly, your Committees have amended this measure by:

- (1) Requiring the Hawaii Climate Change Mitigation and Adaptation Commission to analyze and categorize the data collected to determine the contribution, if any, that the tourism industry has on greenhouse gas emissions when it is reasonable and cost-effective to do so; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Water and Land, Economic Development, Tourism, and Technology, and Agriculture and Environment that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2977, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2977, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
Water and Land: Ayes, 4. Noes, none. Excused, 1 (Inouye).
Economic Development, Tourism, and Technology: Ayes, 3. Noes, none. Excused, 2 (Baker, Taniguchi).
Agriculture and Environment: Ayes, 4. Noes, none. Excused, 1 (Nishihara).

SCRep. 2337 (Joint) Housing and Public Safety, Intergovernmental, and Military Affairs on S.B. No. 2377

The purpose and intent of this measure is to require the counties to designate an agency to inform the public and hold a hearing when lands are proposed for sale and intended to be used for a purpose other than as proposed as part of a master plan for a community.

Your Committees received testimony in support of this measure from the Oahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i and one individual. Your Committees received testimony in opposition to this measure from the Department of Planning and Permitting of the City and County of Honolulu.

Your Committees find that in master planned communities, sometimes developers fail to develop plots of land as originally planned. For example, in central Oahu, a section of land in a master planned community was originally designated to be a golf course, but the developer could not complete the project due to financial constraints and the land was sold and is currently being used as farm land.

Many residents were confused and frustrated, as there was no notification of the land being sold or the development plan being changed. By requiring a public hearing when changes in the master plan occur, this measure will provide the neighboring public an opportunity to be better informed of what is happening in their community.

Your Committees have amended this measure by:

- (1) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Housing and Public Safety, Intergovernmental, and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2377, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2377, S.D. 1, and be referred to your Committee on Commerce, Consumer Protection, and Health.

Signed by the Chairs on behalf of the Committees.

Housing: Ayes, 3. Noes, none. Excused, 2 (Green, Kahele).

Public Safety, Intergovernmental, and Military Affairs: Ayes, 4. Noes, none. Excused, 1 (Wakai).

SCRep. 2338 (Joint) Housing and Public Safety, Intergovernmental, and Military Affairs on S.B. No. 2417

The purpose and intent of this measure is to provide any residential housing project where one hundred percent of the units are affordable to households with income at or below one hundred forty percent of the median family income:

- (1) An exemption from any exactions or inclusionary zoning requirements imposed by the State or a county; and
- (2) Additional exemptions if the residential housing project is eligible to be developed by the Hawaii Housing Finance and Development Corporation pursuant to section 201H-38, Hawaii Revised Statutes.

Your Committees received testimony in support of this measure from the Building Industry Association-Hawaii, Chamber of Commerce Hawaii, and Hawai'i Association of REALTORS. Your Committees received testimony in opposition to this measure from the Department of Planning and Permitting of the City and County of Honolulu. Your Committees received comments on this measure from the Office of Planning.

Your Committees find that the State is experiencing a severe housing crisis. Various government studies confirm the need for upwards of 60,000 new housing units over the next ten years. However, there has been a lack of measurable progress at the county level to enact policies that will stimulate housing production to meet this projected demand. This measure will allow the private sector to increase the supply of workforce housing units priced for the average working family in Hawaii by reducing impediments for housing development projects.

Your Committees have amended this measure by:

- (1) Changing the eligible household income threshold from one hundred forty percent to eighty percent of the median family income;
- (2) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Housing and Public Safety, Intergovernmental, and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2417, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2417, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Housing: Ayes, 3. Noes, none. Excused, 2 (Green, Kahele).

Public Safety, Intergovernmental, and Military Affairs: Ayes, 4; Ayes with Reservations (Ihara). Noes, none. Excused, 1 (Wakai).

SCRep. 2339 (Joint) Housing and Human Services on S.B. No. 2872

The purpose and intent of this measure is to:

- (1) Establish a five-year Hale Kokua pilot project under the Hawaii Housing Finance and Development Corporation to reduce homelessness by incentivizing and assisting private homeowners who set aside existing dwelling units, or construct new or improve existing dwelling units, for rental by families and individuals classified as homeless under the project; and
- (2) Require the Hawaii Housing Finance and Development Corporation to prepare interim reports and a final report regarding the status of the Hale Kokua pilot project.

Your Committees received testimony in support of this measure from the Oahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i. Your Committees received comments on this measure from the Governor's Coordinator on Homelessness and Hawaii Housing Finance and Development Corporation.

Your Committees find that homelessness is an issue of public concern and should be regarded as one of the most significant social problems facing the State. This measure establishes a cooperative effort between the State, counties, and federal government to provide the community with the resources and incentives needed to help eliminate the condition of homelessness.

Your Committees have amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Housing and Human Services that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2872, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2872, S.D. 1, and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chairs on behalf of the Committees.
Housing: Ayes, 3. Noes, none. Excused, 2 (Kahele, Nishihara).
Human Services: Ayes, 3. Noes, none. Excused, 2 (Tokuda, Wakai).

SCRep. 2340 (Joint) Higher Education and Commerce, Consumer Protection, and Health on S.B. No. 3097

The purpose and intent of this measure is to require and appropriate funds for the University of Hawai'i to support research that will benefit the residents of Hawaii.

Prior to the hearing on this measure, your Committees posted and made available for public review a proposed S.D. 1, which deletes the contents of this measure and inserts language to appropriate funds to the University of Hawai'i at Hilo for research related to rat lungworm disease.

Your Committees received testimony in support of the proposed S.D. 1 from the Department of Land and Natural Resources, University of Hawai'i at Hilo, and one individual. Your Committees received comments on the proposed S.D. 1 from Hawai'i Farm Bureau.

Your Committees find that the Department of Health has reported over seventy cases of rat lungworm disease caused by *Angiostrongylus cantonensis* from 2001 to 2014. There were many more cases in 2017, including at least eleven on Hawai'i Island, six on Maui, and one on Oahu. The disease has claimed lives and caused crippling chronic disability. The cost of treatment for one severe case can exceed \$1,000,000.

Your Committees further find that although rat lungworm disease is recognized as a serious threat to human health and agriculture in Hawai'i, sufficient funding has not been available to support the broad level of education, research, and control activities needed to mitigate this threat.

Your Committees have amended this measure by adopting the proposed S.D. 1 and further amending the measure by specifying that the University of Hawai'i at Hilo conduct research related to the control, rather than eradication, and prevention of rat lungworm disease.

As affirmed by the records of votes of the members of your Committees on Higher Education and Commerce, Consumer Protection, and Health that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 3097, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 3097, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
Higher Education: Ayes, 4. Noes, none. Excused, 1 (Kidani).
Commerce, Consumer Protection, and Health: Ayes, 6. Noes, none. Excused, 1 (Nishihara).

SCRep. 2341 (Joint) Higher Education and Commerce, Consumer Protection, and Health on S.B. No. 2877

The purpose and intent of this measure is to authorize the issuance of general obligation bonds and appropriate funds for the construction of the Hawai'i early phase cancer clinical trials program at the University of Hawai'i Cancer Center.

Your Committees received testimony in support of this measure from the University of Hawai'i, American Cancer Society Cancer Action Network, Oahu County Committee on Legislative Priorities of the Democratic Party of Hawaii, and eight individuals.

Your Committees find that early phase clinical trials offer patients with cancer access to novel treatments to improve the quality and quantity of life, especially when having exhausted standard treatments. Because Hawai'i does not currently have an early phase clinical trial program, cancer patients living in Hawai'i must travel to the mainland or other locations, at significant personal expense, and be apart from their families and support systems for extended periods while undergoing treatment.

Your Committees further find that the University of Hawai'i Cancer Center has the goal to establish a program committed to bringing novel early phase trials to Hawai'i for the benefit of cancer patients throughout the State. The program will focus on phase I and other early phase cancer trials and complement drug discovery programs already in place within the Cancer Center. It is anticipated that the program operating costs will be covered by grants and clinical trial medical and pharmaceutical partners.

As affirmed by the records of votes of the members of your Committees on Higher Education and Commerce, Consumer Protection, and Health that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2877 and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
Higher Education: Ayes, 4. Noes, none. Excused, 1 (Kidani).
Commerce, Consumer Protection, and Health: Ayes, 6. Noes, none. Excused, 1 (Nishihara).

SCRep. 2342 (Joint) Higher Education and Commerce, Consumer Protection, and Health on S.B. No. 2011

The purpose and intent of this measure is to allow and appropriate funds for the University of Hawai'i John A. Burns School of Medicine, with support from the Department of Health, to collect data from voluntary qualifying patients, maintain a database, and conduct research and development regarding the efficacy of medical cannabis use in the State and related health outcomes.

Your Committees received testimony in support of this measure from the University of Hawai'i, Oahu County Committee on Legislative Priorities of the Democratic Party of Hawaii, and one individual. Your Committees received comments on this measure from the Department of Health.

Your Committees find that as Hawai'i expands its medical cannabis program, it is important that research and development on medical cannabis best practices continues, including the results and outcomes of its use among qualifying patients. The Department of Health is not currently collecting data on the usage, dosage, or results of medical cannabis use among qualifying patients. Such data is invaluable to continued medical research in understanding the benefits of medical cannabis treatment for various illnesses, ailments, diseases, injuries, and other medical issues. Therefore, data collection and research and development conducted by the University of Hawai'i John A. Burns School of Medicine, in conjunction with the Department of Health, on the results of medical cannabis treatment among qualifying patients would be of great value to the State in developing alternative strategies to treating various illnesses and ailments.

As affirmed by the records of votes of the members of your Committees on Higher Education and Commerce, Consumer Protection, and Health that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2011 and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Higher Education: Ayes, 4. Noes, none. Excused, 1 (Kidani).

Commerce, Consumer Protection, and Health: Ayes, 6. Noes, none. Excused, 1 (Nishihara).

SCRep. 2343 (Joint) Economic Development, Tourism, and Technology and Public Safety, Intergovernmental, and Military Affairs on S.B. No. 2885

The purpose and intent of this measure is to clarify the Small Business Regulatory Review Board's power to review proposed and amended state and county administrative rules, in addition to adopted rules, that impact small businesses.

Your Committees received testimony in support of this measure from the Department of Business, Economic Development, and Tourism; Small Business Regulatory Review Board; Kamaile Academy Public Charter School; Page Marketing, Inc.; Hawaii Business League; Chamber of Commerce Hawaii; and one individual. Your Committees received comments on this measure from the Hawai'i Farm Bureau.

Your Committees find that there is a need to clarify the powers of the Small Business Regulatory Review Board in order to clearly define the purview of the Board to ensure that the small business community, state and county agencies, Hawaii business chambers, and trade organizations have a clear understanding of the Board's authority. Your Committees believe that this clarification will prevent any misunderstandings in the future.

As affirmed by the records of votes of the members of your Committees on Economic Development, Tourism, and Technology and Public Safety, Intergovernmental, and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2885 and recommend that it pass Second Reading and be referred to your Committee on Judiciary.

Signed by the Chairs on behalf of the Committees.

Economic Development, Tourism, and Technology: Ayes, 3. Noes, none. Excused, 2 (Baker, Thielen).

Public Safety, Intergovernmental, and Military Affairs: Ayes, 3. Noes, none. Excused, 2 (Baker, Thielen).

SCRep. 2344 (Joint) Economic Development, Tourism, and Technology and Commerce, Consumer Protection, and Health on S.B. No. 2615

The purpose and intent of this measure is to:

- (1) Rename "transient accommodations brokers" as "transient accommodations intermediaries" and include within the definition certain persons who market transient accommodations through wholesale travel companies and booking platforms, thereby making these entities subject to the transient accommodations tax; and
- (2) Clarify that the transient accommodations tax liability shall be apportioned between an operator and transient accommodations intermediary with respect to that person's respective portion of the gross proceeds.

Your Committees received testimony in support of this measure from Council Chair Mike White, of the County of Maui; Robert Carroll, Councilmember of the County of Maui; and one individual. Your Committees received testimony in opposition to this measure from the Travel Technology Association and Expedia, Inc. Your Committees received comments on this measure from the Department of the Attorney General, Department of Taxation, and Tax Foundation of Hawaii.

Your Committees find that when the transient accommodations tax law was established, the law did not contemplate or account for the advancements in technology that currently present novel markets and means of engaging in the business of furnishing transient accommodations. Although the availability of transient accommodations has greatly benefitted many, it has also created a disparity in the tax treatment of certain entities involved in the furnishing of transient accommodations and has resulted in the State not collecting the full amount of taxes, like the transient accommodations tax, from certain parties.

Your Committees further find that it is an appropriate time to create parity between commissioned and noncommissioned transactions by imposing the transient accommodations tax on every party's share of proceeds received when transient accommodations are booked through an intermediary.

Your Committees received testimony indicating that this measure, as drafted, will impose the transient accommodations tax twice for commissioned transactions, once on the operator and a second time on the intermediary.

Therefore, your Committees have amended this measure, as suggested by the Department of Taxation, by:

- (1) Imposing the transient accommodations tax on intermediaries who arrange or book transient accommodations at noncommissioned negotiated contract rates;
- (2) Clarifying that other fees unrelated to transient accommodations are exempt from the definition of “gross rental” or “gross rental proceeds”;
- (3) Exempting from the definition of “gross rental” or “gross rental proceeds” the amount of transient accommodations taxes that are visibly passed on to the customer by an intermediary;
- (4) Requiring only noncommissioned negotiated contract rates to obtain a certificate of registration and requiring the intermediaries to pay a one-time fee of \$15;
- (5) Including travel agencies within the definition of transient accommodations intermediary and making conforming amendments;
- (6) Making this measure applicable to taxable years beginning after December 31, 2018, to allow for sufficient time to make the necessary form and computer system changes; and
- (7) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Economic Development, Tourism, and Technology and Commerce, Consumer Protection, and Health that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2615, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2615, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Economic Development, Tourism, and Technology: Ayes, 4. Noes, none. Excused, 1 (Taniguchi).

Commerce, Consumer Protection, and Health: Ayes, 4. Noes, none. Excused, 3 (Nishihara, Ruderman, Tokuda).

SCRep. 2345 (Joint) Economic Development, Tourism, and Technology and Commerce, Consumer Protection, and Health on S.B. No. 2489

The purpose and intent of this measure is to amend the formula for the amount of transient accommodations tax to be collected from time shares by increasing the base on which time shares are taxed.

Your Committees received testimony in opposition to this measure from the Maui Hotel and Lodging Association; Vistana Signature Experiences; American Resort Development Association, Marriott Vacations Worldwide Corporation; Wyndhm Vacation Ownership, Inc.; and Hawai'i Lodging and Tourism Association. Your Committees received comments on this measure from the Department of Taxation and Tax Foundation of Hawaii.

Your Committees find there is a need to update an outdated formula for the amount of tax to be collected from time shares. Your Committees recognize the concerns of time share owners with the proposed increase in the formula's tax base; however, your Committees believe that increasing parity between hotels and time share units is important, as the formula for levying transient accommodations taxes on time share units has not been adjusted since 1998.

Your Committees have amended this measure by inserting an effective date of January 1, 2050, to encourage further discussion.

As affirmed by the records of votes of the members of your Committees on Economic Development, Tourism, and Technology and Commerce, Consumer Protection, and Health that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2489, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2489, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Economic Development, Tourism, and Technology: Ayes, 4. Noes, none. Excused, 1 (Taniguchi).

Commerce, Consumer Protection, and Health: Ayes, 4. Noes, none. Excused, 3 (Nishihara, Ruderman, Tokuda).

SCRep. 2346 (Joint) Commerce, Consumer Protection, and Health and Judiciary on S.B. No. 2931

The purpose and intent of this measure is to amend the ethics training requirement for dentists in the continuing education program to be six hours of ethics training within the previous two years.

Your Committees received testimony in support of this measure from the Board of Dental Examiners, Hawaii Dental Association, and twenty-eight individuals.

Your Committees find that this measure amends the ethics training requirements for dentists to six hours over the course of two years, rather than requiring three hours of ethics training each year. Your Committees note that this measure does not change the total amount of ethics training required for dentists over a two-year period; rather, this measure provides greater flexibility for dentists to schedule and complete this training.

Your Committees have amended this measure by clarifying that a dentist licensee must complete at least six hours of ethics training in the previous two-year licensing biennium to comply with the continuing education requirements for license renewal.

As affirmed by the records of votes of the members of your Committees on Commerce, Consumer Protection, and Health and Judiciary that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2931, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2931, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chairs on behalf of the Committees.

Commerce, Consumer Protection, and Health: Ayes, 4. Noes, none. Excused, 3 (Ihara, Ruderman, Tokuda).

Judiciary: Ayes, 4. Noes, none. Excused, 1 (Thielen).

SCRep. 2347 (Joint) Water and Land and Labor on S.B. No. 3048

The purpose and intent of this measure is to appropriate funds to the Department of Land and Natural Resources for the establishment of a training academy for conservation and resources enforcement officers.

Your Committees received testimony in support of this measure from the Department of Land and Natural Resources; Department of Transportation; Office of Mauna Kea Management; Hawaiian Civic Club of Honolulu; Ho‘omana Pono, LLC; and nine individuals. Your Committees received testimony in opposition to this measure from two individuals. Your Committees received comments on this measure from one individual.

Your Committees find that the Division of Conservation and Resources Enforcement of the Department of Land and Natural Resources lacks a centralized training venue to conduct training of officer recruits and developmental training for existing officers of the Department. As a result, a common core training curriculum is lacking and the officers have varying degrees of training depending on previous law enforcement employment. By establishing a training academy for conservation and resources enforcement officers, this measure will allow the Division of Conservation and Resources Enforcement to provide officer recruits with full range training in conservation and law enforcement, establish a common core training curriculum, and increase officer recruitment and retention.

Your Committees note from the testimony provided by the Division of Conservation and Resources Enforcement the amount of funds necessary to establish an officer training academy and the establishment of two positions to implement the training academy.

Accordingly, your Committees have amended this measure by:

- (1) Inserting the appropriation amount of \$500,928 for the Department of Land and Natural Resources to establish the officer training academy;
- (2) Specifying that the appropriation amount shall also be used for one full-time equivalent (1.0 FTE) permanent educational specialist position and one full-time equivalent (1.0 FTE) permanent office assistant position; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Water and Land and Labor that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 3048, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 3048, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Water and Land: Ayes, 4. Noes, none. Excused, 1 (Inouye).

Labor: Ayes, 3. Noes, none. Excused, 2 (English, Taniguchi).

SCRep. 2348 (Joint) Water and Land and Agriculture and Environment on S.B. No. 2566

The purpose and intent of this measure is to appropriate funds to the Department of Land and Natural Resources to provide assistance and supplemental funding to the National Wildlife Research Center of the United States Department of Agriculture to conduct pilot field studies to evaluate control tools and develop a management plan to reduce the rose-ringed parakeet population on Kauai.

Your Committees received testimony in support of this measure from the Department of Land and Natural Resources, Department of Agriculture, Maui County Councilmember Yuki Lei Sugimura, Hawaii Aquaculture & Aquaponics Association, Land Use Research Foundation of Hawaii, Hawaii Floriculture & Nursey Association, Maui County Farm Bureau, Hawai‘i Farm Bureau, Kaua‘i Chamber of Commerce, Kaua‘i County Farm Bureau, Hawaiian Civic Club of Honolulu, Coordinating Group on Alien Pest Species, Hawaii Crop Improvement Association, Pono Advocacy, and twenty-five individuals.

Your Committees find that there is an increase in reports of rose-ringed parakeet flocks on the island of Kauai. This species poses a significant threat to the local economy, ecology, and human health and safety. On Kauai, the rose-ringed parakeet causes more crop damage than all other birds and mammals.

Your Committees further find that the National Wildlife Research Center began its work to examine the damaging impacts of the rose-ringed parakeet with funds appropriated under Act 31, Session Laws of Hawaii 2017. The appropriated funds were used to support a review of existing damage mitigation tools, identify potential new tools for evaluation, develop stakeholder-specific guidelines for damage control to farmers, ranchers, tourism operators, and homeowners, and establish protocols for pilot studies to evaluate the most promising control tools. This measure will be used to complete the evaluation studies and carry out the second phase of the project, which is to conduct pilot field studies to evaluate control tools and develop a management plan to reduce populations of the rose-ringed parakeet on Kauai. This process will include tracking and mapping populations and field assessment of population reduction methods.

As affirmed by the records of votes of the members of your Committees on Water and Land and Agriculture and Environment that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2566 and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Water and Land: Ayes, 4. Noes, none. Excused, 1 (Inouye).

Agriculture and Environment: Ayes, 4. Noes, none. Excused, 1 (Ruderman).

SCRep. 2349 (Joint) Hawaiian Affairs and Higher Education on S.B. No. 2970

The purpose and intent of this measure is to appropriate funds to the University of Hawai‘i at Mānoa College of Education, the University of Hawai‘i at Hilo’s Ka Haka ‘Ula ‘o Ke‘elikōlani, the Kahuawaiola indigenous teacher education program, and the Ka

Papahana Kaiapuni program for the purpose of establishing professional qualifications and developing training programs for the Ka Papahana Kaiapuni program's staff.

Your Committees received testimony in support of this measure from the Department of Education, Hawaiian Civic Club of Honolulu, Aha Punana Leo, Oahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, and ten individuals. Your Committees received testimony in opposition to this measure from one individual. Your Committees received comments on this measure from the University of Hawai'i.

Your Committees find that there still exists a shortage of educators who specialize in Hawaiian medium-immersion education, even thirty years after the establishment of the Ka Papahana Kaiapuni program. Your Committees realize that there is a critical need of educators that specialize in the Hawaiian language to better preserve the Hawaiian culture and instill it in Hawai'i's keiki. Programs such as the University of Hawai'i at Hilo's Ka Haka 'Ula 'o Ke'elikōlani, Kahuawaiola indigenous teacher education program and the Ka Papahana Kaiapuni program and the work done at the University of Hawai'i at Mānoa Kawaihuelani Center for Hawaiian Language support the revitalization and renormalization of the Hawaiian language by better preparing educators to have a high level of cultural and academic quality in Hawaiian medium-immersion education. Your Committees further find that funding these programs to dovetail efforts with the Department of Education's and the University of Hawai'i's educator preparation programs will support the protection and revitalization of the Hawaiian language and culture.

Your Committees have amended this measure as suggested by the Department of Education by:

- (1) Adding language that directs the University of Hawai'i at Mānoa's College of Education to collaborate with the Kawaihuelani Hawaiian Language College and Department of Education to establish professional qualifications and develop training programs for the Ka Papahana Kaiapuni program;
- (2) Consolidating the appropriation into one appropriation, to be allocated equally to the University of Hawai'i at Mānoa and the University of Hawai'i at Hilo and to be expended by the University of Hawai'i rather than the Department of Education; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Hawaiian Affairs and Higher Education that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2970, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2970, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
 Hawaiian Affairs: Ayes, 4. Noes, none. Excused, 1 (Green).
 Higher Education: Ayes, 3. Noes, none. Excused, 2 (Chang, Kim).

SCRep. 2350 Hawaiian Affairs on S.B. No. 2952

The purpose and intent of this measure is to establish Queen Lili'uokalani Day on the first Monday in the month of September each year, rather than on September 2, in order to coincide with Labor Day.

Your Committee received testimony in support of this measure from Ho'omanapono Political Action Committee; Ho'omana Pono, LLC; Oahu County Committee on Legislative Priorities of the Democratic Party of Hawaii; and two individuals. Your Committee received testimony in opposition to this measure from two individuals.

Your Committee finds that there are only two state holidays that honor ali'i, which are King Kamehameha Day, June 11, and Prince Jonah Kuhio Kalaniana'ole Day, March 26. There has not been a holiday honoring an ali'i since statehood. Given that the year 2018 is the "Year of Remembrance of Queen Lili'uokalani", your Committee believes that establishing Queen Lili'uokalani Day to coincide with Labor Day will allow the State to recognize the legacy of her Majesty, Queen Lili'uokalani.

As affirmed by the record of votes of the members of your Committee on Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2952 and recommends that it pass Second Reading and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.
 Ayes, 3. Noes, none. Excused, 2 (English, Green).

SCRep. 2351 Hawaiian Affairs on S.B. No. 2782

The purpose and intent of this measure is to specify that certain government records that are maintained by the Department of Hawaiian Home Lands are not required to be disclosed to the public or open for inspection pursuant to public records requests.

Your Committee received testimony in support of this measure from the Department of Hawaiian Home Lands, Hawaiian Civic Club of Honolulu, Hawaiian Affairs Caucus of the Democratic Party of Hawaii, Ho'omanapono Political Action Committee, and two individuals. Your Committee received comments on this measure from the Office of Information Practices and The Civil Beat Law Center for the Public Interest.

Your Committee finds that the Department of Hawaiian Home Lands has received requests under the Uniform Information Practices Act for homestead application files and leases that include personal contact information, genealogies, finance and loan documents, and other sensitive information. Your Committee further finds that pursuant to title 10, Hawaii Administrative Rules, "personal data received or recorded by the department shall be held in absolute confidence and no release of information shall be made without written approval of the individual concerned." Your Committee believes that codifying an exemption from public disclosure of certain government documents will allow the Department of Hawaiian Home Lands to better protect the sensitive information of its beneficiaries.

As affirmed by the record of votes of the members of your Committee on Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2782 and recommends that it pass Second Reading and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Green, Riviere).

SCRep. 2352 (Joint) Hawaiian Affairs and Judiciary on S.B. No. 2581

The purpose and intent of this measure is to:

- (1) Increase the number of members on the King Kamehameha Celebration Commission from thirteen to fifteen; and
- (2) Authorize the Commission to appoint an executive director.

Your Committees received testimony in support of this measure from the King Kamehameha Celebration Commission; Daughters of Hawai'i; Hawaiian Affairs Caucus of the Democratic Party of Hawaii; Hawaiian Civic Club of Honolulu; Ho'omana Pono, LLC; and ten individuals.

Your Committees find that the King Kamehameha Celebration Commission has been working to uphold the legacy of the King that unified the Hawaiian islands. Doing so requires substantial support from other organizations that commemorate and preserve the history of Hawaii. Your Committees find that the Daughters of Hawaii was once a member of the Commission and despite no longer holding membership, has committed their work to upholding Hawaiian history and deserve to once more be represented on the Commission. Similarly, to mirror the legacy of King Kamehameha, this measure seeks to unify the Hawaiian islands by including a representative of Lāna'i as a member. Your Committees believe that the Daughters of Hawaii and a representative from Lāna'i will bring more knowledge and will be great assets to the Commission.

As affirmed by the records of votes of the members of your Committees on Hawaiian Affairs and Judiciary that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2581 and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
Hawaiian Affairs: Ayes, 3. Noes, none. Excused, 2 (English, Galuteria).
Judiciary: Ayes, 3. Noes, none. Excused, 2 (Kim, Thielen).

SCRep. 2353 (Joint) Hawaiian Affairs and Judiciary on S.B. No. 2580

The purpose and intent of this measure is to:

- (1) Appropriate funds to the Department of Accounting and General Services to establish one full-time equivalent (1.0 FTE) position for the Executive Director of the King Kamehameha Celebration Commission; and
- (2) Appropriate funds for costs arising out of the annual King Kamehameha Day celebration events.

Your Committees received testimony in support of this measure from the King Kamehameha Celebration Commission; Daughters of Hawaii; Hawaiian Civic Club of Honolulu; Ho'omana Pono, LLC; Oahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i; Hawaiian Affairs Caucus of the Democratic Party of Hawai'i; and eleven individuals. Your Committees received testimony in opposition to this measure from the State Council on Hawaiian Heritage.

Your Committees find that the King Kamehameha Celebration Commission was established in 1939 by the Territorial Legislature of Hawaii to celebrate and honor the great King who unified the Hawaiian islands. This Commission is tasked with carrying on the legacy of King Kamehameha and reminding the people of Hawaii about Hawaiian history. Your Committees applaud the work the Commission has accomplished so far and recognize the difficulties that the King Kamehameha Celebration Commission is facing regarding lack of proper staffing to coordinate the King Kamehameha Day celebration. Your Committees believe that it is important to provide sufficient funding for the Commission to effectively prepare for events.

As affirmed by the records of votes of the members of your Committees on Hawaiian Affairs and Judiciary that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2580 and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
Hawaiian Affairs: Ayes, 3. Noes, none. Excused, 2 (English, Galuteria).
Judiciary: Ayes, 3. Noes, none. Excused, 2 (Kim, Thielen).

SCRep. 2354 (Joint) Hawaiian Affairs and Labor and Public Safety, Intergovernmental, and Military Affairs on S.B. No. 2134

The purpose and intent of this measure is to require additional government officials at the state and county levels to complete the Office of Hawaiian Affairs' training course on native Hawaiian and Hawaiian rights initially required by Act 169, Session Laws of Hawaii 2015.

Your Committees received testimony in support of this measure from the Department of Land and Natural Resources, Office of Hawaiian Affairs, Native Hawaiian Education Council, Hawaiian Affairs Caucus of the Democratic Party of Hawaii, Oahu County Committee on Legislative Priorities, and twenty individuals. Your Committees received testimony in opposition to this measure from one individual. Your Committees received comments on this measure from the Maui County Planning Department and one individual.

Your Committees find that a training course in native Hawaiian and public trust law is pertinent to those who, with the decisions they make, impact the lives of native Hawaiians on a daily basis. By having a better understanding of the State's legal responsibilities toward native Hawaiians and the public trust, government officials can better protect the rights of native Hawaiians. While

government officials have a unique set of expertise and skills that are beneficial to the native Hawaiian community, they may not have the knowledge necessary to make fully informed decisions that affect native Hawaiians. Therefore, expanding the requirement of the government officials who must complete the course is important to creating a better environment for native Hawaiians.

Your Committees have amended this measure by:

- (1) Adding the First Deputy and Deputy for Water of the Department of Land and Natural Resources as additional government officials who are required to complete the course; and
- (2) Requiring the Office of Hawaiian Affairs to notify the Governor and county Mayors of the availability of the training classes when scheduled, who shall then notify other administrative heads, their deputies, and other officials who are not statutorily mandated to complete the course of the availability of the course and encourage those officials to complete the course.

Your Committees further find that requiring the course for certain government officials who have an impact on native Hawaiians has been a huge success with the students and the effects it had on their decision making. Your Committees believe that the training course requirement should be expanded to include special courses that are focused toward judges in Hawai'i, as the interpreters of all laws. Your Committees request that the Office of Hawaiian Affairs look into the possibility of creating a training course specifically for judges to provide a better understanding of native Hawaiians and Hawaiian rights and to ensure fair treatment of native Hawaiians in the courts.

As affirmed by the records of votes of the members of your Committees on Hawaiian Affairs, Labor, and Public Safety, Intergovernmental, and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2134, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2134, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Hawaiian Affairs: Ayes, 3. Noes, none. Excused, 2 (English, Riviere).

Labor: Ayes, 3. Noes, none. Excused, 2 (English, Ihara).

Public Safety, Intergovernmental, and Military Affairs: Ayes, 3. Noes, none. Excused, 2 (Baker, Ihara).

SCRep. 2355 Labor on S.B. No. 2291

The purpose and intent of this measure is to:

- (1) Increase the minimum wage to \$12.25 per hour in 2019 and \$15 per hour in 2020;
- (2) Repeal language allowing the hourly wage of a tipped employee to be deemed increased on account of tips; and
- (3) Beginning on September 30, 2020, require the Department of Labor and Industrial Relations to annually calculate the adjusted minimum wage rate to the nearest five cents using the Honolulu region CPI-W.

Your Committee received testimony in support of this measure from the Department of Labor and Industrial Relations; Hawaii State Teachers Association; ILWU Local 142; Unite Here! Local 5 Hawaii; Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO; Oceanit; Hawaii State AFL-CIO; Pono Hawai'i Initiative; IMUAlliance; International Brotherhood of Electrical Workers Local Union 1260, AFL-CIO; Hawaii State Coalition Against Domestic Violence; Hawai'i Appleseed Center for Law & Economic Justice; American Association of University Women of Hawai'i; Hawai'i State Democratic Women's Caucus; Hawaii Children's Action Network; YWCA O'ahu; Hawai'i Alliance for Progressive Action; Americans for Democratic Action; O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i; Kupuna Caucus of the Democratic Party of Hawaii; Planned Parenthood Votes Northwest and Hawaii; Hawaii Women's Coalition; and sixty-five individuals. Your Committee received testimony in opposition to this measure from the Chamber of Commerce Hawaii; Maui Chamber of Commerce; Retail Merchants of Hawaii; Hawaii Restaurant Association; Hawaii Food Industry Association; Tiki's Grill & Bar; Outback Steakhouse; IL Gelato Hawaii; National Federation of Independent Business; Waikiki Brewing Company; MOJO LLC; Condominium Rentals Hawaii; Aloha International Employment, Inc.; Napili Kai Beach Resort; Kahului Ale House; Cheeseburger Restaurants, Inc.; and four individuals. Your Committee received comments on this measure from the Grassroot Institute of Hawaii.

Your Committee finds that the minimum wage rate was adjusted in 2014, raising the minimum wage rate each year for the following four years to achieve a minimum wage rate of \$10.10 per hour beginning January 1, 2018. This measure proposes to extend the increased minimum wage rate schedule by increasing the rate to \$12.25 per hour beginning January 1, 2019, and increasing the rate to \$15.00 per hour beginning January 1, 2020, tackling the issue of income inequality and improving the quality of life for minimum wage workers while adding a boost to the State's economy.

Your Committee also finds that Hawaii's relatively low wages are exacerbated by Hawaii's high cost of living and notes that Hawaii's minimum wage rate fails to regularly adjust with Hawaii's rising cost of living. Your Committee believes that annually adjusting the minimum hourly wage to the nearest five cents based on the CPI-W will more accurately reflect Hawaii's economic changes, provide a mechanism to keep up with the cost of inflation, provide employers with more predictable and gradual increases in the minimum wage rate over time, and avoid continual review by the Legislature.

As affirmed by the record of votes of the members of your Committee on Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2291 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (English, Taniguchi).

SCRep. 2356 Labor on S.B. No. 2357

The purpose and intent of this measure is to:

- (1) Deposit funds into the emergency and budget reserve fund;
- (2) Appropriate funds for pre-payment of the State's unfunded accrued pension liability for state employees; and
- (3) Appropriate funds for pre-payment of the State's annual required contribution to cover its other post-employment benefit liability under the Hawaii Employer-Union Health Benefits Trust Fund.

Your Committee received comments on this measure from the Department of Budget and Finance.

Your Committee finds that whenever the state general fund balance at the close of each of two successive fiscal years exceeds five percent of the general fund revenues for each of the two fiscal years, article VII, section 6, of the Hawaii State Constitution mandates the Legislature to take certain action regarding the use of the excess general fund revenues. Under the constitutional amendment of Senate Bill No. 2554 passed during the 2016 Regular Session and approved by the voters on November 8, 2016, the Legislature may, among other options, appropriate excess general fund revenues for the pre-payment of the State's pension or other post-employment benefit liability. Senate Bill No. 2554 also retains the option to deposit excess general fund revenues into the emergency and budget reserve fund. This measure utilizes the options provided by Hawaii voters.

As affirmed by the record of votes of the members of your Committee on Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2357 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2357 Labor on S.B. No. 2360

The purpose and intent of this measure is to require collective bargaining public employees to provide written notification to the employee's exclusive representative to discontinue the employee's payroll assignments within a certain time period.

Your Committee received testimony in support of this measure from the Hawaii State Teachers Association; United Public Workers, AFSCME, Local 646, AFL-CIO; and Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO.

Your Committee finds that in *Janus v. AFSCME*, currently pending before the United States Supreme Court, the petitioners are seeking to invalidate public-sector agency shop arrangements arguing that such arrangements violate the petitioners' First Amendment rights. A ruling in favor of the petitioners in *Janus* may allow public sector employees to leave their unions and not pay dues, while the unions, in turn, would still be legally-bound to represent them, effectively changing collective bargaining representatives' ability to collect resources from their members and potentially diminishing public employees' ability to effectively negotiate. Your Committee finds that this measure requires employees wishing to opt out of union membership to provide written notification within thirty days of the anniversary of their initial membership date in any given year of their desire to discontinue payroll deductions to their exclusive representative, thereby allowing unions to better manage the impact of potential member resignations in the wake of a possible Supreme Court ruling that goes against the unions.

As affirmed by the record of votes of the members of your Committee on Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2360 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2358 Labor on S.B. No. 2373

The purpose and intent of this measure is to provide that negotiations over the implementation of management decisions affecting the terms and conditions of employment that are subject to collective bargaining are not precluded from collective bargaining negotiations.

Your Committee received testimony in support of this measure from Hawaii State AFL-CIO; University of Hawaii Professional Assembly; Hawaii State Teachers Association; United Public Workers, AFSCME, Local 646, AFL-CIO; Hawaii Fire Fighters Association, Local 1463, IAFF, AFL-CIO; Americans for Democratic Action; Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO; State of Hawaii Organization of Police Officers; and one individual.

Your Committee finds that the impact of management decisions that affect terms and conditions of employment, including procedures and criteria for promotions, transfers, assignments, demotions, layoffs, suspensions, terminations, discharges, or other disciplinary actions, should be mandatory subjects of collective bargaining. Your Committee finds that this measure will serve to clarify much of the past confusion and delays as to what is negotiable and encourage good faith on behalf of all parties in the collective bargaining process.

Your Committee has amended this measure by inserting language inadvertently not included in the measure as introduced, to clarify the scope of collective bargaining negotiations and to clarify that negotiation of such subjects does not compel either party to agree to any proposal or make a concession.

As affirmed by the record of votes of the members of your Committee on Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2373, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2373, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (English, Taniguchi).

SCRep. 2359 Labor on S.B. No. 2610

The purpose and intent of this measure is to add a definition of “intern” to the State Ethics Code and include interns among state employees to whom the Code applies.

Your Committee received testimony in support of this measure from the Hawaii State Ethics Commission.

Your Committee finds that interns should abide by the high ethical standards required by the Ethics Code, particularly for those interns who work full-time in the Legislature or an administrative agency and who would appear to an outsider to be a full-time employee.

Your Committee acknowledges the testimony of the Hawaii State Ethics Commission and recommends, as this measure moves through the legislative process, that your Committee on Judiciary address the questions that were raised by them seeking clarification of the implications of the definition of “intern”. Specifically, clarity is needed to determine:

- (1) If “intern” includes only those individuals who work for the State full-time, or whether it includes all individuals regardless of hours worked;
- (2) If “intern” should include individuals who continue to be paid by their private employers while “volunteering” for the State, or whether the Ethics Code ought to prohibit individuals from volunteering for the State altogether when they are being paid for that time by a private entity; and
- (3) Whether or not an “intern” will be bound by the post-employment law in section 84-18, Hawaii Revised Statutes, if their internship lasts more than one hundred eighty-one days.

As affirmed by the record of votes of the members of your Committee on Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2610 and recommends that it pass Second Reading and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Taniguchi).

SCRep. 2360 Labor on S.B. No. 2765

The purpose and intent of this measure is to:

- (1) Allow the Executive Director of the Board of Trustees of the Employees’ Retirement System (ERS) to appoint one or more investment professionals under the direction of the Chief Investment Officer; and
- (2) Exempt investment officers and investment professionals, including investment specialists, from civil service and collective bargaining laws.

Your Committee received testimony in support of this measure from the Board of Trustees of the Employees’ Retirement System and University of Hawaii Professional Assembly.

Your Committee finds that successful investment of ERS funds is critical to the sustainability of the system. Although the members of the Board of Trustees have fiduciary responsibility of the general management of the system’s assets and implementation of the system’s investment policy, the Trustees themselves are not investment experts. This measure authorizes the ERS to hire professionals with investment expertise to assist in maintaining a healthy, sustainable ERS.

Your Committee has heard the testimony of the University of Hawaii Professional Assembly and agrees, to be consistent with the practices of other agencies, such as the Hawaii Employee-Union Health Benefits Trust Fund, that the Board of Trustees, rather than the Executive Director, should have the authority to appoint investment officers and investment professionals.

Accordingly, your Committee has amended this measure by:

- (1) Repealing language that allows the Board of Trustees of the ERS to appoint investment officers through its Executive Director, to instead allow the Board to directly appoint investment officers and investment professionals; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2765, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2765, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3; Ayes with Reservations (Taniguchi). Noes, none. Excused, 2 (Chang, English).

SCRep. 2361 Labor on S.B. No. 3023

The purpose and intent of this measure is to repeal provisions that allow individuals whose earning capacity is impaired by old age or physical or mental deficiency or injury to receive wages lower than the applicable minimum wage.

Your Committee received testimony in support of this measure from the Hawai’i Appleseed Center for Law & Economic Justice, IMUAlliance, Pono Hawai’i Initiative, O’ahu County Committee on Legislative Priorities of the Democratic Party of Hawai’i, Kupuna Caucus of the Democratic Party of Hawaii, Stress Free Souls, and forty-one individuals. Your Committee received comments on this measure from the Department of Labor and Industrial Relations, Goodwill Hawaii, Hawaii Disability Rights Center, and Self Advocacy Advisory Council.

Your Committee finds that the existing Hawaii special minimum wage law allows employers to pay workers with disabilities subminimum wages in certain circumstances. Legislation that allows subminimum wages for certain individuals with disabilities was enacted under federal law in 1938, at a time when there were limited opportunities, few services, and even fewer technologies to enable workers with disabilities to engage in the workplace. Your Committee finds that with the high-cost of living in Hawaii and the availability and advancement of assistive technologies that can aid all workers, it is necessary that the State's policies are supportive and inclusive to allow all workers with disabilities to reach their full vocational and socioeconomic potential.

Your Committee has heard the testimony from proponents and also those with concerns about possible unintended consequences of this measure. As such, your Committee recommends that, as this measure moves through the legislative process, your Committee on Ways and Means consider amendments proposed by the Department of Labor and Industrial Relations and further recommends that proponents of this measure and those who testified with concerns discuss possible amendments and improvements for submission to the Legislature.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3023, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3023, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (English, Taniguchi).

SCRep. 2362 Labor on S.B. No. 3044

The purpose and intent of this measure is to require an on-set teacher to be present with and accompany a minor under fourteen years of age whenever the minor is on set and employed for theatrical purposes.

Your Committee received testimony in support of this measure from the International Alliance of Theatrical Stage Employees Local 665 and three individuals. Your Committee received comments on this measure from the Department of Labor and Industrial Relations.

Your Committee finds that Hawaii does not require a set teacher or supervisor whenever a minor is employed for theatrical purposes, whereas such a requirement is commonplace in California. Your Committee finds that this measure enhances the existing Hawaii child labor laws to ensure that child actors receive an adequate education while also being protected from dangerous filming situations and possible exploitation or abuse of child labor laws.

Your Committee has amended this measure by:

- (1) Clarifying that an on-set child welfare advocate, rather than a teacher, shall accompany and supervise a minor whenever the minor is on set and a variance from the work hour restrictions to allowable theatrical employment is granted, to ensure employers are compliant with applicable laws and rules; and
- (2) Inserting a definition of "child welfare advocate".

As affirmed by the record of votes of the members of your Committee on Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3044, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3044, S.D. 1, and be referred to your Committee on Commerce, Consumer Protection, and Health.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 2363 (Joint) Agriculture and Environment and Water and Land and Higher Education on S.B. No. 2078

The purpose and intent of this measure is to appropriate funds to the Department of Land and Natural Resources to conduct, in collaboration with the University of Hawaii College of Tropical Agriculture and Human Resources, a two-year breeding ecology study and two-year foraging ecology study on the pueo on Oahu.

Your Committees received testimony in support of this measure from the Department of Land and Natural Resources; University of Hawai'i College of Tropical Agriculture and Human Resources; Hawaiian Civic Club of Honolulu; Ho'omanapono Political Action Committee; Ho'omana Pono, LLC; Maui Nui Seabird Recovery Project; O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i; Animal Rights Hawai'i; and fourteen individuals. Your Committees received testimony in opposition to this measure from one individual. Your Committees received comments on this measure from the Office of Hawaiian Affairs.

Your Committees find that the pueo, or Hawaiian short-eared owl, is an endemic subspecies of the short-eared owl that has a special place in Hawai'i's culture and ecology. The State recognizes the pueo as endangered on the island of Oahu. Conducting comprehensive studies on the pueo will allow researchers to better identify preferred breeding habitats to ensure the continued survivability of the pueo in the State.

As affirmed by the records of votes of the members of your Committees on Agriculture and Environment, Water and Land, and Higher Education that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2078 and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Agriculture and Environment: Ayes, 4. Noes, none. Excused, 1 (Nishihara).

Water and Land: Ayes, 4. Noes, none. Excused, 1 (Inouye).

Higher Education: Ayes, 4. Noes, none. Excused, 1 (Keith-Agaran).

SCRep. 2364 (Joint) Transportation and Energy and Public Safety, Intergovernmental, and Military Affairs on S.B. No. 2953

The purpose and intent of this measure is to require private streets, highways, or thoroughfares in a development district of the Hawaii Community Development Authority to conform to county highway construction and maintenance standards and allow private civil injunctive actions in circuit court to enforce compliance.

Your Committees received testimony in support of this measure from the Department of Transportation, Kaka'ako United, Musicians' Association of Hawaii, and one individual. Your Committees received testimony in opposition to this measure from the City and County of Honolulu. Your Committees received comments on this measure from the Bank of Hawaii, Land Use Research Foundation of Hawaii, and one individual.

Your Committees find that the intent of this measure is to ensure that private streets, highways, and thoroughfares do not fall into disrepair is well-intentioned. Currently, numerous streets in the Kaka'ako Community Development District are privately owned and in disrepair, with large potholes that are unsafe to vehicles and pedestrians. However, your Committees note that the current language allows for ambiguity, particularly with respect to roads where ownership is in dispute.

Your Committees have amended this measure by clarifying that this measure applies to owners who exercise ownership for financial gain or profit in commercial development districts.

As affirmed by the records of votes of the members of your Committees on Transportation and Energy and Public Safety, Intergovernmental, and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2953, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2953, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chairs on behalf of the Committees.

Transportation and Energy: Ayes, 5. Noes, none. Excused, none.

Public Safety, Intergovernmental, and Military Affairs: Ayes, 4. Noes, none. Excused, 1 (Ihara).

SCRep. 2365 (Joint) Transportation and Energy and Labor on S.B. No. 3077

The purpose and intent of this measure is to:

- (1) Expand the renewable fuel tax credit by increasing the total amount of tax credits that can be claimed and making the tax credit permanent; and
- (2) Create a renewable fuel facilitator position within the Department of Business, Economic Development, and Tourism.

Your Committees received testimony in support of this measure from the Hawaii Bioeconomy Trade Organization, Hawaii Gas, and three individuals. Your Committees received comments on this measure from the Department of Taxation; Department of Business, Economic Development, and Tourism; and Tax Foundation of Hawaii.

Your Committees find that biofuels can significantly advance the State's clean energy goals. This measure will increase investment in biofuels, especially because there is no federal tax incentive for biofuels. The establishment of a renewable fuels facilitator position will also help develop and advance biofuel projects.

Your Committees believe that the definition of feedstock should be clarified to acknowledge organic material in general and that the date that the Department of Business, Economic Development, and Tourism must report to the Legislature is too soon after the renewable fuel facilitator's assessment of renewable fuel projects.

Thus, your Committees have amended this measure by:

- (1) Including organic material in the definition of "renewable feedstocks" and "renewable fuels";
- (2) Delaying the date that the Department of Business, Economic Development, and Tourism must report to the Legislature by one year;
- (3) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Transportation and Energy and Labor that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 3077, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 3077, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Transportation and Energy: Ayes, 5. Noes, none. Excused, none.

Labor: Ayes, 5. Noes, none. Excused, none.

SCRep. 2366 Judiciary on S.B. No. 2447

The purpose and intent of this measure is to exempt all proceedings relating to parking violations under certain administrative rules from the exclusive, original jurisdiction of the environmental courts.

Your Committee received testimony in support of this measure from the Judiciary and Department of Land and Natural Resources.

Your Committee finds that most of the parking violations at the State's small boat harbors and state parks do not pose direct or severe impacts to the State's natural or cultural resources. These cases can be easily and more efficiently processed through the regular district courts or the Traffic Violations Bureau of the First Circuit. Removing these cases from the jurisdiction of the environmental courts will allow the courts to focus on more serious environmental cases.

Your Committee has amended this measure by inserting an effective date of July 1, 2035, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2447, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2447, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2367 Judiciary on S.B. No. 2149

The purpose and intent of this measure is to increase the number of District Court Judges in the Second Circuit from three to four.

Your Committee received testimony in support of this measure from the Judiciary and Department of the Prosecuting Attorney of the County of Maui.

Your Committee finds that the demands on the Second Judicial Circuit have increased significantly in the thirty-six years since a District Court Judge was last legislatively authorized in that circuit. Due to a lack of judges, the District Court convenes in Hana and Lanai only once every month, and on Molokai only three times every month. These calendars are insufficient to keep up with the growing numbers of cases being filed in rural areas and off-Maui island courts. This measure will increase the number of District Court Judges to meet these increased needs.

Your Committee has amended this measure by inserting an effective date of July 1, 2035, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2149, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2149, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2368 (Joint) Water and Land and Agriculture and Environment on S.B. No. 2571

The purpose and intent of this measure is to ban the sale, offer of sale, or distribution in the State of any SPF sunscreen protection personal care product that contains oxybenzone or octinoxate, or both, without a medically licensed prescription.

Your Committees received testimony in support of this measure from the Office of Hawaiian Affairs, Hawaii County Councilmember Eileen O'Hara, Hawaiian Affairs Caucus of the Democratic Party of Hawai'i, Hawaiian Civic Club of Honolulu, Haereticus Environmental Laboratory, Hawai'i Reef and Ocean Coalition, Sustainable Coastlines Hawaii, Goddess Garden Organics, Humane Society of the United States, Americans for Democratic Action Hawai'i, Friends of Hanauma Bay, Sierra Club of Hawai'i, Napili Bay and Beach Foundation, Maui School Garden Network, Pacific Boats & Yachts LLC, For the Fishes, West Hawaii Humane Society, Ban Toxic Sunscreens Hawai'i, and forty-three individuals. Your Committees received testimony in opposition to this measure from the Oahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, Hawaii Medical Association, Hawaii Food Industry Association, American Chemistry Council, Consumer Healthcare Products Association, and Personal Care Products Council. Your Committees received comments on this measure from the Department of Land and Natural Resources and Department of Health.

Your Committees find that two chemicals contained in many sunscreens, oxybenzone and octinoxate, have significant harmful impacts on Hawaii's marine environment and ecosystems, including coral reefs that protect Hawaii's shoreline. Furthermore, as the environmental contamination of oxybenzone and octinoxate is constantly refreshed and renewed daily by swimmers and beachgoers who apply sunscreens containing these two chemicals, the contamination persists in Hawaii's coastal waters. By prohibiting the sale and distribution in Hawaii of ultraviolet sun protection factor sunscreen personal care products containing oxybenzone and octinoxate without a medically licensed prescription, this measure preserves marine ecosystems, including coral reefs, in Hawaii.

Your Committees have amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Water and Land and Agriculture and Environment that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2571, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2571, S.D. 1, and be referred to your Committee on Commerce, Consumer Protection, and Health.

Signed by the Chairs on behalf of the Committees.
Water and Land: Ayes, 4. Noes, none. Excused, 1 (Inouye).
Agriculture and Environment: Ayes, 4. Noes, none. Excused, 1 (Ruderman).

SCRep. 2369 (Joint) Agriculture and Environment and Public Safety, Intergovernmental, and Military Affairs on S.B. No. 2930

The purpose and intent of this measure is to require the Department of Health to adopt rules for underground storage tanks, tank systems, and related piping that conform with recent revisions to federal regulations and include additional requirements for certain field-constructed underground storage tanks including compliance with certain requirements in chapter 11-281, Hawaii Administrative Rules, or successor rules.

Your Committees received testimony in support of this measure from the City and County of Honolulu Board of Water Supply; Hawaiian Civic Club of Honolulu; O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i; Young Progressives Demanding Action; Hawai'i Alliance for Progressive Action; Gentlewave Bodywork Referral, Inc.; Ka Lāhui Hawaii

Political Action Committee; and twenty individuals. Your Committees received testimony in opposition to this measure from the United States Navy and Department of Defense, Department of Health, Chamber of Commerce Hawaii, and one individual.

Your Committees find that the leakage of fuel from underground storage tanks is a matter of statewide concern. Fuel that leaks from storage tanks can contaminate groundwater that is used for human consumption and cause significant damage to the environment. Issues surrounding leaking fuel storage tanks are numerous and need to be adequately addressed for the health and safety of Hawaii's people and environment.

Your Committees have amended this measure by:

- (1) Extending the deadline from September 1, 2018, to October 13, 2018, for the Department of Health to adopt rules to conform Hawaii's underground storage tank and tank system rules with the July 15, 2015, revisions to federal regulations;
- (2) Requiring the Department of Health to require via rules that:
 - (A) All field-constructed underground storage tanks with capacities greater than 50,000 gallons, regardless of installation date, be upgraded to secondary containment with interstitial monitoring by July 1 of an unspecified year, and be subject to certain permitting rules; and
 - (B) All onsite integral piping connected to any field-constructed storage tanks with capacities greater than 50,000 gallons, regardless of installation date, be upgraded to secondary containment with interstitial monitoring by July 1 of an unspecified year and be subject to certain permitting rules;
- (3) Deleting language that would have required field-constructed underground storage tanks with capacities greater than 50,000 gallons and all onsite integral piping connected to such tanks to meet certain requirements prior to upgrading with secondary containment;
- (4) Deleting language that would have prohibited field-constructed underground storage tanks from being installed on or after July 1, 2019, unless the storage tank and piping have secondary containment and comply with certain administrative rules; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Agriculture and Environment and Public Safety, Intergovernmental, and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2930, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2930, S.D. 1, and be referred to your Committee on Commerce, Consumer Protection, and Health.

Signed by the Chairs on behalf of the Committees.

Agriculture and Environment: Ayes, 5. Noes, none. Excused, none.

Public Safety, Intergovernmental, and Military Affairs: Ayes, 3. Noes, none. Excused, 2 (Baker, Wakai).

SCRep. 2370 (Joint) Agriculture and Environment and Education on S.B. No. 2928

The purpose and intent of this measure is to establish a three-year farm to school grant pilot program in the Department of Agriculture.

Your Committees received testimony in support of this measure from the Department of Agriculture; Department of Education; University of Hawai'i System; State Procurement Office; American Heart Association; Hawai'i Farms to School Hui; Hawaii State Teachers Association; Ulupono Initiative; Maui School Garden Network; Mālama Kaua'i; Kōkua Hawai'i Foundation; Hawaii Primary Care Association; Hawaii Cattlemen's Council, Inc.; Māla'ai: The Culinary Garden of Waimea Middle School on Hawaii Island; Hawai'i Pacific Health; Local Food Coalition; Hawaiian Affairs Caucus of the Democratic Party of Hawai'i; Hawaii Floriculture & Nursery Association; Ka Ohana O Na Pua; Hawaiian Civic Club of Honolulu; O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i; and nine individuals. Your Committees received comments on this measure from the Department of Health.

Your Committees find that farm to school activities support a nutritious school food environment and that more than eighty-five percent of the youth in Hawaii attend public schools. Students who participate in farm to school activities are more likely to be familiar with, have a preference for, and consume more fruits and vegetables at school and at home, thereby establishing healthy behaviors at an early age that may prevent the onset of chronic diseases and other health conditions later in life. Your Committees further find that participation in the farm to school program may be financially challenging for many farmers due to the high costs of compliance with federal law and regulations regarding food safety.

Your Committees also find that eighty-eight percent of Hawaii's K-12 public non-charter schools have gardens, which range in their levels of quality, teacher and student involvement, and curricular integration. These programs range in size from individual planter boxes to large-scale school food farms and may or may not have a dedicated, trained, paid garden educator to support them. Your Committees find that the Department of Education's 'Aina Pono Farm to School Program aims to systematically increase state purchasing of local food for school menus; however, the full benefits of a farm to school program are only realized when high quality, well-rounded programs are in place, which include school gardens and relevant educational opportunities for all students. The Department of Agriculture farm to school program enables state efforts to go beyond the 'Aina Pono Farm to School Program by:

- (1) Increasing the procurement of locally grown foods for school meals and other state agencies;
- (2) Strengthening agriculture education for the development of future farmers;
- (3) Collecting statewide data via the Hawaii Farm to School Census;
- (4) Ensuring food safety practices on farms and in schools; and
- (5) Building inter-agency collaboration and public-private partnerships.

Your Committees conclude that a farm to school grant program is essential to the development and sustainability of successful school-level farm to school programs that provide a direct benefit to students and communities while ultimately ensuring the long term success of state-level farm to school efforts.

Your Committees have amended this measure by:

- (1) Deleting the appropriation for administrative costs of the pilot program;
- (2) Deleting the appropriation amount for the continuance of the Hawaii farm to school program and allocating unspecified portions of that amount for the farm to school coordinator position and for administrative expenses for the Hawaii farm to school program; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Agriculture and Environment and Education that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2928, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2928, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Agriculture and Environment: Ayes, 3. Noes, none. Excused, 2 (Rhoads, Ruderman).

Education: Ayes, 3. Noes, none. Excused, 2 (Dela Cruz, Kim).

SCRep. 2371 Labor on S.B. No. 2763

The purpose and intent of this measure is to allow payment of employer contributions to the Employees' Retirement System (ERS) in advance of the fiscal year in which the contributions are required.

Your Committee received testimony in support of this measure from the Department of Budget and Finance and Board of Trustees of the Employees' Retirement System.

Your Committee finds that currently, the ERS is not able to accept employer contributions in advance of the fiscal year in which the contributions are required. This measure would allow employers to remit cash in advance and to receive credit against future contribution obligations; therefore, giving employers more flexibility in making payments. Additionally, advance payments will assist the ERS to reduce the plan's unfunded liabilities over time.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2763, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2763, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 2372 (Joint) Education and Agriculture and Environment on S.B. No. 2387

The purpose and intent of this measure is to:

- (1) Authorize the Department of Education to establish a farm to school program;
- (2) Require the farm to school coordinator in the Department of Agriculture to work in collaboration with the Department of Education on any farm to school program; and
- (3) Establish and appropriate funds for two full-time equivalent (2.0 FTE) farm to school staff positions within the Department of Education.

Your Committees received testimony in support of this measure from the Department of Education; Department of Health; Department of Agriculture; State Public Charter School Commission; Hawaii State Teachers Association; Hawai'i Farm Bureau; American Heart Association; Mala'ai: The Culinary Garden of Waimea Middle School; Blue Zones Project; Hawai'i Public Health Institute; Kōkua Hawai'i Foundation; Local Food Coalition; Kamehameha Schools; Hawai'i Pacific Health; O'ahu Farm to School Network; Oahu County Committee on Legislative Priorities for the Democratic Party of Hawaii; Malama Kona, Surfrider Foundation; Hawaii Farmers Union United; We Are One, Inc.; Hawaii Afterschool Alliance; Hawai'i Primary Care Association; Mālama Kaua'i; Hawaiian Civic Club of Honolulu; Maui School Garden Network; Ulupono Initiative; Ka Ohana O Na Pua; and numerous individuals.

Your Committees find that farm to school programs benefit students in multiple ways, including providing students with agricultural education and increasing opportunities for place-based experiential learning, physical activity, and active participation in the school meal program. Since the Hawaii farm to school program was established pursuant to Act 218, Session Laws of Hawaii 2015, the Department of Education, in collaboration with the Office of the Lieutenant Governor, Department of Agriculture, University of Hawaii, and community partners, established pilot programs using strategic procurement adjustments to increase the supply of locally-grown and raised foods in the school meal program. The continued growth and sustainability of the Hawaii farm to school program will require on-going coordination between the Department of Agriculture and the Department of Education.

As this measure moves through the legislative process, your Committees request that your Committee on Ways and Means further consider the inclusion of charter schools by the Department of Education in the farm to school program.

Your Committees have amended this measure by requiring, rather than authorizing, the Department of Education to establish a farm to school program.

As affirmed by the records of votes of the members of your Committees on Education and Agriculture and Environment that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2387, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2387, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Education: Ayes, 4. Noes, none. Excused, 1 (Dela Cruz).

Agriculture and Environment: Ayes, 3. Noes, none. Excused, 2 (Rhoads, Ruderman).

SCRep. 2373 Education on S.B. No. 2680

The purpose and intent of this measure is to require the Legislative Reference Bureau to conduct a study on the impact of the weighted student formula on small and remote schools to determine whether the formula fulfills its statutory purpose of equalizing operational funding among the State's public schools.

Your Committee received testimony in support of this measure from the Hawaii State Teachers Association and Oahu County Committee on Legislative Priorities for the Democratic Party of Hawaii. Your Committee received comments on this measure from the Department of Education and Legislative Reference Bureau.

Your Committee finds that the Reinventing Education Act of 2004 established a weighted student formula to allocate monies to schools according to the different costs of educating students with different needs. However, despite the intended equitable distribution of funds, the weighted student formula has placed small and remote schools at a disadvantage.

Your Committee further finds that the Committee on Weights is responsible for, among other things, reviewing the issue and revising the formula to provide for the equitable distribution of funds to all of Hawaii public schools. Although there is major concern for insufficient funding for public schools, various Committees on Weights have recommended and the Board of Education has approved changes in the formula factor that has increased the weighted student formula base funding at schools. Because these changes affect the well-being of schools and students from all areas, it is important that the Legislature be made aware of such changes.

Your Committee has amended this measure by deleting its contents and inserting language that requires the Committee on Weights to submit a report to the Legislature detailing any changes to the funding formula within thirty days of the change.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2680, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2680, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Dela Cruz).

SCRep. 2374 Education on S.B. No. 2997

The purpose and intent of this measure is to require the Department of Education to prepare a report identifying any unused federal funds.

Your Committee received testimony in support of this measure from the Native Hawaiian Education Council and Oahu County Committee on Legislative Priorities of the Democratic Party of Hawaii. Your Committee received comments on this measure from the Department of Education.

Your Committee finds that the Department of Education receives federal grants for public education that must be used for specific purposes within specific periods of time or else be returned to the federal government. Each grant has a catalog of federal domestic assistance number that categorizes the grant and identifies its intended purpose and any attached guidelines. Your Committee further finds that the results of a financial audit of the Department of Education for the years 2013 to 2016 revealed that the Department had underutilized over \$175,000,000 of federal funding for each of the reported years. This measure increases the transparency and accountability of the Department of Education to better utilize federal grants by requiring the Department of Education to prepare a report detailing all unused federal grants for the last five years.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2997 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Dela Cruz, Kahele).

SCRep. 2375 (Joint) Education and Public Safety, Intergovernmental, and Military Affairs on S.B. No. 2576

The purpose and intent of this measure is to:

- (1) Require the Department of Education to ensure that all classroom doors have interior locks installed by January 1, 2019, and that intercom systems are installed by January 1, 2020;
- (2) Mandate that the Department of Education establish an emergency management plan for all public schools that are updated yearly and include annual mandatory emergency preparedness orientations and training; and
- (3) Require emergency preparedness training for all teachers and school staff as well as emergency practice drills at every school, some of which must be during inopportune times of the school day.

Your Committees received testimony in support of this measure from the Maui Police Department; Ho'omana Pono, LLC; and five individuals. Your Committees received comments on this measure from the Department of Health, Department of Education, and State Public Charter School Commission.

Your Committees find that Hawaii's public schools continue to be safe and secure places for students, teachers, and staff. In case of an emergency or security threat, it is essential that schools have adequate infrastructure, emergency preparedness plans in place, and professional development and training of teachers and staff. This measure ensures that students, teachers, and staff are safe in Hawaii's public schools by improving infrastructure, establishing and updating emergency management plans, and increasing professional development and training in emergency preparedness.

Your Committees have amended this measure by placing the new language amending section 302A-1133, Hawaii Revised Statutes, to require the Department of Education to establish an emergency management plan for all schools, into a new section in chapter 302A, Hawaii Revised Statutes, for purposes of clarity.

As affirmed by the records of votes of the members of your Committees on Education and Public Safety, Intergovernmental, and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2576, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2576, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Education: Ayes, 3. Noes, none. Excused, 2 (Dela Cruz, Espero).

Public Safety, Intergovernmental, and Military Affairs: Ayes, 4. Noes, none. Excused, 1 (Wakai).

SCRep. 2376 (Joint) Commerce, Consumer Protection, and Health and Higher Education on S.B. No. 2049

The purpose and intent of this measure is to appropriate funds to the University of Hawaii Cancer Center to determine why Hawaii has the highest incidence in the country of liver and bile duct cancer.

Your Committees received testimony in support of this measure from the Oahu County Committee on Legislative Priorities of the Democratic Party of Hawaii, American Cancer Society Cancer Action Network, and fifteen individuals.

Your Committees find that Hawaii has had the highest or second highest rate of liver and bile duct cancer in the nation in recent years. Your Committees find that Hawaii faces one hundred eighty-four new cases of liver and bile duct cancer each year, which is double the national average rate, even as rates of other cancers continue to decline.

Your Committees find that the primary risk factors for liver and bile duct cancer include hepatitis B, hepatitis C, and heavy alcohol consumption. However, your Committees also find that prevalence of these factors in Hawaii is near the national average. Your Committees find that other known risk factors include aflatoxin ingestion and liver fluke infection, but that there is no data on the prevalence of these risk factors in Hawaii, making it impossible to say if they are causing the increased rate in liver and bile duct cancer.

Your Committees find that liver and bile duct cancer takes a long time to develop but is nearly always fatal, making prevention through avoidance of risk factors especially important.

Your Committees find that the University of Hawaii Cancer Center is preparing to conduct a three-year study to examine other potential causes of liver and bile duct cancer, including aflatoxin ingestion, liver fluke infection, and potential ethnic correlations. Your Committees further find that funding this study will help prevent future cases of liver and bile duct cancer, saving lives and solving a local health mystery.

As affirmed by the records of votes of the members of your Committees on Commerce, Consumer Protection, and Health and Higher Education that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2049 and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Commerce, Consumer Protection, and Health: Ayes, 6. Noes, none. Excused, 1 (Nishihara).

Higher Education: Ayes, 4. Noes, none. Excused, 1 (Kidani).

SCRep. 2377 Public Safety, Intergovernmental, and Military Affairs on S.B. No. 2092

The purpose and intent of this measure is to establish knowingly making a false statement to a county inspector as a crime within the offense of unsworn falsification to authorities.

Your Committee received testimony in support of this measure from the County of Maui Planning Department, Keep It Kailua, Lanikai Association, Honolulu City Councilmember Ann H. Kobayashi, and twelve individuals. Your Committee received comments on this measure from the Department of the Attorney General.

Your Committee finds that enforcement of ordinances, rules, and regulations is necessary to ensure public health and safety. To that end, inspectors must be able to complete inspections for compliance with ordinances, rules, and regulations without unnecessary interference. Moreover, inspectors should be able to rely on statements provided by interested parties. Therefore, your Committees find that knowingly making a false statement, in oral, written, printed, or electronic form, to a county inspector in the course of the inspector's investigation to ascertain compliance with any ordinance, rule, or regulation should be a crime and fits within the existing offense of unsworn falsification to authorities.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2092 and recommends that it pass Second Reading and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 2378 Public Safety, Intergovernmental, and Military Affairs on S.B. No. 2047

The purpose and intent of this measure is to require the Auditor to conduct a performance audit of certain offices and programs within the Department of Public Safety and appropriate necessary funds for the audit.

Your Committee received testimony in support of this measure from the Hawaii Government Employees Association, Community Alliance on Prisons, and nine individuals. Your Committee received testimony in opposition to this measure from the Department of Public Safety. Your Committee received comments on this measure from the Office of the Auditor.

Your Committee finds that ensuring that public safety officials are sufficiently qualified and working to secure the public's interests is important for promoting public health, safety, and welfare. Protecting the public's interests requires proper oversight over the Department of Public Safety, and to provide that necessary oversight, it is appropriate to require the Auditor to perform an audit of certain offices and programs within the Department of Public Safety. In addition, your Committee received various testimony indicating the need to audit additional areas of the Department. Your Committee recognizes that the proposed audit will take significant time to complete and finds that the Legislature should be kept aware of the status and findings of the audit as it progresses.

Accordingly, your Committee has amended this measure by:

- (1) Replacing the audit of whether contracts were steered toward contractors and vendors due to familial and personal relationships to an audit of whether contracts are awarded in accordance with the state procurement code;
- (2) Amending the scope of the audit, including by adding additional programs and practices within the Department of Public Safety to be audited;
- (3) Deleting language requiring the Auditor to include proposed legislation in the report to be submitted to the Legislature;
- (4) Requiring the Auditor to submit an interim report to the Legislature no later than twenty days prior to the convening of the Regular Session of 2019; and
- (5) Extending the decline for submission of the auditor's completed report to the Legislature by one year to the Regular Session of 2020.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2047, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2047, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2379 (Joint) Public Safety, Intergovernmental, and Military Affairs and Water and Land and Transportation and Energy on S.B. No. 2947

The purpose and intent of this measure is to:

- (1) Require police departments and certain state agencies to disclose to the Legislature the identity of a law enforcement officer upon the officer's second suspension in a five-year period or discharge; and
- (2) Require disclosure under the Uniform Information Practices Act of certain information, including identity, of a law enforcement officer after the officer's second suspension in a five-year period.

Your Committees received testimony in support of this measure from the Hawaiian Civic Club of Honolulu and one individual. Your Committees received testimony in opposition to this measure from the Office of Information Practices, The Civil Beat Law Center the Public Interest, ACLU of Hawai'i, and League of Women Voters of Hawaii.

Your Committees find that disclosing the identities of law enforcement officers who are suspended twice within a five-year period serves the public interest. Transparency and accountability of law enforcement officers are of great importance in maintaining the public's confidence in law enforcement, and a healthy relationship between law enforcement agencies and the public is essential for maintaining the health, safety, and welfare of the public.

However, your Committees recognize the concerns raised in testimony about the potential unintended consequences of this measure. Your Committees agree with the testimony presented that adding state law enforcement officers into the class of government employees whose suspensions are not automatically made public under the Uniform Information Practices Act would actually decrease transparency and accountability.

Accordingly, your Committees have amended this measure by:

- (1) Removing state law enforcement officers from the proposed class of government employees whose suspensions are not automatically made public under the Uniform Information Practices Act, chapter 92F, Hawaii Revised Statutes; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Public Safety, Intergovernmental, and Military Affairs, Water and Land, and Transportation and Energy that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2947, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2947, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chairs on behalf of the Committees.

Public Safety, Intergovernmental, and Military Affairs: Ayes, 4; Ayes with Reservations (Baker, Ihara, Thielen). Noes, none. Excused, 1 (Wakai).

Water and Land: Ayes, 4; Ayes with Reservations (Thielen). Noes, none. Excused, 1 (Gabbard).

Transportation and Energy: Ayes, 4; Ayes with Reservations (English). Noes, none. Excused, 1 (Shimabukuro).

SCRep. 2380 (Joint) Water and Land and Judiciary on S.B. No. 2866

The purpose and intent of this measure is to authorize the Department of Land and Natural Resources to use aquatic in-lieu fee mitigation to restore, create, enhance, or preserve aquatic habitats or resources as compensatory mitigation where a person is required to provide compensatory mitigation prospectively and the use of aquatic in-lieu fee mitigation is approved by the agency requiring mitigation, or for past damages to aquatic habitats or resources.

Your Committees received testimony in support of this measure from the Department of Land and Natural Resources, Office of Hawaiian Affairs, Oahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, Hawaiian Civic Club of Honolulu, and six individuals.

Your Committees find that aquatic in-lieu fee mitigation is an effective mechanism to restore, create, enhance, and preserve aquatic habitats or resources to recover the ecological functions, services, and values of aquatic resources that are lost or anticipated to be lost due to adverse impacts to other similar aquatic habitats. Aquatic in-lieu fee mitigation is widely used across the United States to achieve ecologically valuable conservation. This measure will provide the Department of Land and Natural Resources with an innovative mechanism to improve state stewardship of aquatic public trust resources and habitats, increase accountability for aquatic resource damage, and provide higher quality remediation to make damaged resources whole again.

As affirmed by the records of votes of the members of your Committees on Water and Land and Judiciary that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2866 and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Water and Land: Ayes, 3. Noes, none. Excused, 2 (Inouye, Thielen).

Judiciary: Ayes, 4. Noes, none. Excused, 1 (Thielen).

SCRep. 2381 (Joint) Water and Land and Judiciary on S.B. No. 2077

The purpose and intent of this measure is to:

- (1) Authorize the Department of Land and Natural Resources to enter into the interstate wildlife violator compact or similar agreement with an appropriate state, federal, or foreign entity for mutual assistance in the enforcement of hunting, fishing, and other wildlife laws, rules, or regulations in their respective jurisdictions;
- (2) Provide certain immunities and entitlements to employees of the Department of Land and Natural Resources for acts in administering or enforcing the terms or conditions of the agreement if the acts are within the course and scope of their employment; and
- (3) Make an appropriation for the Department of Land and Natural Resources to enter into the interstate wildlife violator compact or similar agreement.

Your Committees received testimony in support of this measure from the Department of Land and Natural Resources, Humane Society of the United States, Hawaiian Humane Society, Hawaiian Civic Club of Honolulu, Pono Advocacy, and twelve individuals.

Your Committees find that compact agreements are voluntary, formal interstate agreements among states that are not initiated by the federal government. A majority of the states have enacted legislation to codify the interstate wildlife violator compact, whereby persons who have had their licenses revoked in one state are prohibited from engaging in those licensed activities in another state that is part of the compact agreement. This measure will allow the Department of Land and Natural Resources to enhance hunting, fishing, and other wildlife protection enforcement efforts.

Your Committees note the suggestion made by the Humane Society of the United States to codify the language from the interstate wildlife violator compact into state law, similar to other states who are compact participants. Your Committees believe that this matter merits further discussion by your Committee on Ways and Means should that Committee schedule this measure for public hearing.

Your Committees have amended this measure by:

- (1) Removing language that would have provided employees of the Department of Land and Natural Resources who perform acts to administer or enforce the terms or conditions of the agreement immunity from civil liability for damages if the acts are within the course and scope of their employment;
- (2) Removing the appropriation for the Department of Land and Natural Resources to enter into the interstate wildlife violator compact or similar agreement;
- (3) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Water and Land and Judiciary that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2077, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2077, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Water and Land: Ayes, 3. Noes, none. Excused, 2 (Inouye, Thielen).

Judiciary: Ayes, 4. Noes, none. Excused, 1 (Thielen).

SCRep. 2382 Water and Land on S.B. No. 3105

The purpose and intent of this measure is to:

- (1) Establish a Lipoa Point visitor fee to each paying passenger of a maritime commercial vessel engaging in commercial activity that requires travel through certain ocean waters seaward of Lipoa Point; and
- (2) Establish the Lipoa Point management special fund for the purposes of:
 - (A) Supporting the management of the Lipoa Point area, including operational and maintenance costs; and
 - (B) Providing educational awareness to visitors of the Lipoa Point area that the stewardship activities are being funded through the Lipoa Point visitor fee and that all monies collected in the fund are being used for the stewardship of the Lipoa Point area.

Your Committee received testimony in support of this measure from the Hawaiian Civic Club of Honolulu. Your Committee received testimony in opposition to this measure from Quicksilver Charters and Ocean Tourism Coalition. Your Committee received comments on this measure from the Department of Land and Natural Resources and Department of Budget and Finance.

Your Committee finds that pursuant to Act 241, Session Laws of Hawaii 2013, the Department of Land and Natural Resources acquired a parcel of land located at Lipoa Point to become part of the public trust. Lipoa Point in Honolulu is one of the most iconic landmarks in Hawaii. Honolulu is rich in marine resources and historical and archaeological sites, and is one of the most popular recreational areas for locals and tourists, offering some of the best snorkeling and surfing conditions on Maui. This measure provides the commensurate funding to assist the Department in managing and maintaining the Lipoa Point area.

Your Committee notes the comments submitted by the Department of Land and Natural Resources that there are approximately four commercial operators that engage in commercial activities in Honolulu Bay, which is located near Lipoa Point. These four commercial operators do not embark or disembark passengers on the shore or access the land at Lipoa Point. Thus, the Department has concerns that the proposed visitor fee for each paying passenger of a maritime commercial vessel engaging in commercial activity in the ocean waters, as proposed by this measure, may not relate sufficiently to land-based impacts on the Lipoa Point area.

Accordingly, your Committee has amended this measure by:

- (1) Removing the language that establishes a Lipoa Point visitor fee and any references to the fee;
- (2) Appropriating \$100,000 to be deposited into the Lipoa Point management special fund for the Department of Land and Natural Resources to support the management of the Lipoa Point area and provide educational awareness to visitors of the Lipoa Point area; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3105, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3105, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Inouye).

SCRep. 2383 (Joint) Transportation and Energy and Commerce, Consumer Protection, and Health on S.B. No. 2910

The purpose and intent of this measure is to enhance the State's emergency preparedness by:

- (1) Encouraging the development of grid resiliency through a grid resiliency capital investment program and grid resiliency rebate program; and
- (2) Establishing a grid resiliency task force to analyze grid resiliency programs and identify critical infrastructure.

Your Committees received testimony in support of this measure from the Hawaii Solar Energy Association, Distributed Energy Resources Council of Hawaii, Tesla, Life of the Land, Alliance for Solar Choice, Sierra Club Hawaii, Oahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, and one individual. Your Committees received testimony in opposition to this measure from Hawaiian Electric Company, Inc. Your Committees received comments on this measure from the Department of Business, Economic Development, and Tourism; Department of Budget and Finance; and Public Utilities Commission.

Your Committees find that as an isolated island that is exposed to natural disasters, Hawaii must have infrastructure in place that can withstand natural disasters and emergencies. Enhancing grid resiliency should be the focus, to reduce the severity of damage to the electric grid, and to ensure that critical infrastructure such as hospitals, fire stations, police stations, and ports of entry can continue to operate even if there is damage to the grid.

However, your Committees find that while the investment and development of grid resiliency can be incentivized through rebates, this measure as currently written could be too narrowly focused and might not be taking into full consideration the needs of critical infrastructure.

Accordingly, your Committees have amended this measure to focus on assessing the State's grid resiliency and critical infrastructure by:

- (1) Eliminating the rebate programs;
- (2) Removing the grid resiliency task force and establishing a homeland security and resiliency council whose membership shall include critical infrastructure sector stakeholders;

- (3) Tasking the homeland security and resiliency council with, among other things, establishing strategies, goals, priorities, and recommendations to enhance security and resiliency of the electric grid and other critical infrastructure;
- (4) Inserting appropriate definitions to clarify the scope of the homeland security and resiliency council's purview and duties;
- (5) Making an appropriation to the homeland security and resiliency council to carry out its duties; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Transportation and Energy and Commerce, Consumer Protection, and Health that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2910, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2910, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Transportation and Energy: Ayes, 3. Noes, none. Excused, 2 (English, Harimoto).

Commerce, Consumer Protection, and Health: Ayes, 5. Noes, none. Excused, 2 (Ihara, Nishihara).

SCRep. 2384 (Joint) Housing and Education on S.B. No. 2278

The purpose and intent of this measure is to:

- (1) Establish the teacher home assistance program to be administered by the Hawaii Housing Finance and Development Corporation to provide housing vouchers to full-time teachers employed by the Department of Education, including teachers at public charter schools, who teach in a hard-to-fill school, as determined by the Department of Education, and whose household income does not exceed eighty percent of the area median income; and
- (2) Appropriate funds to the Hawaii Housing Finance and Development Corporation to provide housing vouchers through the teacher home assistance program.

Your Committees received testimony in support of this measure from the State Public Charter School Commission, Hawaii Teacher Standards Board, Kamaile Academy Public Charter School, IMUAlliance, Oahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, Hawaii State Teachers Association, and nine individuals. Your Committees received comments on this measure from the Department of Education; Hawaii Housing Finance and Development Corporation; and Maui Police Department, County of Maui.

Your Committees find that Hawaii continues to suffer from a shortage of qualified teachers and financial incentives are a key strategy for the recruitment and retention of teachers, especially since the salaries of teachers in Hawaii continue to trail the nation when adjusted for cost of living. Housing in Hawaii is expensive and contributes to the financial burden on teachers. By establishing a teacher home assistance program to provide housing vouchers to teachers who teach in hard-to-fill schools, this measure provides a financial incentive to assist teachers in attaining sustainable and stable residency and lessen the financial burden of housing.

Your Committees note that this measure makes the Hawaii Housing Finance and Development Corporation responsible for implementing the teacher home assistance program and issuing housing vouchers to qualified teachers. Your Committees believe that making the Department of Education responsible for implementing the program merits further discussion by your Committee on Ways and Means should that Committee consider this measure.

Your Committees have amended this measure by:

- (1) Clarifying that the housing vouchers shall not exceed \$500 per month, rather than \$10,000 in a single year, as long as the teacher is employed by the Department of Education, teaches in a hard-to-fill school as determined by the Department of Education, and resides in this State; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Housing and Education that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2278, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2278, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Housing: Ayes, 4. Noes, none. Excused, 1 (Nishihara).

Education: Ayes, 3. Noes, none. Excused, 2 (Dela Cruz, Kim).

SCRep. 2385 Water and Land on S.B. No. 2003

The purpose and intent of this measure is to:

- (1) Restrict the taking of any aquatic life for commercial purposes by any method of catch to persons who hold a valid, non-lapsed aquarium fish permit and commercial marine license;
- (2) Allow the taking of any aquatic life for non-commercial purposes subject to a limit of five fish or aquatic life specimens per person, per day, provided that fine meshed traps or nets, throw nets, or other prohibited catch methods are not used;
- (3) Beginning on July 1, 2018, prohibit the Department of Land and Natural Resources from issuing any new aquarium fish permits for aquarium purposes;
- (4) Require the Department of Land and Natural Resources to renew an existing aquarium fish permit, provided that the permit has not lapsed at the time of the renewal;

- (5) Prior to July 1, 2023, require the Department of Land and Natural Resources to transfer an existing aquarium fish permit, provided that the permit has not lapsed at the time of the transfer;
- (6) Require that non-lapsed permits be renewed or transferred to another person holding a commercial marine license if the person renewing the permit or the transferee can satisfy the Department of Land and Natural Resources that the permittee or transferee has facilities to and can maintain aquatic life alive and in reasonable health and does not engage in practices that constitute the offense of cruelty to animals in the second degree;
- (7) Allow a commercial marine licensee to assist another commercial marine licensee with a valid, non-lapsed aquarium fish permit, provided that the assistance does not involve the use of any gear, equipment, tools, or other means to take aquatic life; and
- (8) Add definitions for “commercial purpose”, “fine mesh” or “fine meshed”, and “lapsed”.

Your Committee received testimony in support of this measure from the Oahu County Committee on Legislative Priorities of the Democratic Party of Hawaii and one individual. Your Committee received testimony in opposition to this measure from the Hawaii Fishermen’s Alliance for Conservation and Tradition, Inc.; Hawaii Hunting Association; Coral Fish Hawaii; Hawaii Goes Fishing; Snorkel Bob’s; Conservation for Hawai’i; Earth Justice; and eighteen individuals. Your Committee received comments on this measure from the Department of Land and Natural Resources, The Humane Society of the United States, For the Fishes, and Animal Rights Hawaii.

Your Committee finds that hundreds of thousands of saltwater fish and other aquatic life, such as invertebrates, are annually removed from their natural ocean habitat in Hawaii to be kept in aquariums in homes throughout the State and country. These fish and other aquatic life are caught and sold as part of the aquarium trade industry for ornamentation and amusement, not for food purposes. The State’s aquarium fish permit authorizes the taking of an unlimited number of fish and other aquatic life for commercial aquarium purposes, and up to two thousand fish and other aquatic life annually for recreational aquarium purposes, using nets and traps containing stretched netting of less than two-inch mesh.

Your Committee believes that under the precautionary principle and since saltwater fish and other aquatic life caught for aquarium purposes are not used for food purposes, it is in the best interest of the fish and other aquatic life, as well as of the reefs they inhabit, that fish and other aquatic life remain in their natural environment, not confined in aquarium tanks. Therefore, this measure phases out aquarium fish collecting for commercial purposes in Hawaii while allowing the taking of aquatic life for non-commercial aquarium purposes using certain nets or traps to continue, provided that the aquarium collector holds an aquarium fish permit and is subject to a limit of five fish or aquatic life specimens per person, per day.

Your Committee notes the recent litigation in *Umberger v. Department of Land and Natural Resources*, 140 Hawaii 500, 403 P.3d 277 (2017) and subsequent order after remand by the Circuit Court issued on October 27, 2017, that resulted in the invalidation of all existing aquarium fish permits used for commercial aquarium collection purposes. The Circuit Court also found that the Department of Land and Natural Resources’ practice of issuing commercial aquarium collection permits without an environmental review as required by the Hawaii Environmental Policy Act was a violation of that Act, and thus enjoined the Department from issuing or renewing aquarium fish permits to commercial collectors until further order of the circuit court. Collecting for recreational purposes was not affected by the Circuit Court’s order.

Accordingly, your Committee has amended this measure by:

- (1) Adding language to section 1:
 - (A) Regarding the recent decision pursuant to *Umberger v. Department of Land and Natural Resources* that invalidates then-existing aquarium fish permits used for commercial aquarium collection purposes; and
 - (B) That clarifies that this measure is not intended to overrule the decision in *Umberger v. Department of Land and Natural Resources* nor negate the State’s constitutional and statutory obligations to conserve fishery resources in the State;
- (2) Clarifying throughout that this measure concerns only the taking of aquatic life for aquarium purposes;
- (3) Clarifying that non-commercial aquarium collectors are limited to a maximum of five aquatic life specimens per person, per day regardless of whether the taking is done pursuant to an aquarium fish permit or by other means of take;
- (4) Allowing the Department of Land and Natural Resources to issue new aquarium fish permits for commercial or non-commercial aquarium purposes for a four-month period beginning on the date the injunction order as a result of *Umberger v. Department of Land and Natural Resources* is lifted or the final disposition of *Umberger*, whichever occurs earlier;
- (5) Establishing that subsequent to the four-month period during which the Department of Land and Natural Resources may issue new aquarium fish permits, the Department is prohibited from issuing new aquarium fish permits, whether for commercial or non-commercial aquarium purposes;
- (6) Allowing, rather than requiring, the Department of Land and Natural Resources to renew on an annual basis an existing aquarium fish permit, provided that the permit has not lapsed at the time of the renewal;
- (7) Allowing, rather than requiring, the Department of Land and Natural Resources to transfer an existing aquarium fish permit, provided that the permit has not lapsed at the time of the transfer for a period of five years beginning on the date the injunction order as a result of *Umberger v. Department of Land and Natural Resources* is lifted or the final disposition of *Umberger*, whichever occurs earlier;
- (8) Requiring a permittee seeking to renew a permit or a transferee to satisfy the Department of Land and Natural Resources that the permittee or transferee has not been convicted of the offense of animal cruelty in the second degree within a five-year

period prior to the issuing, renewing, or transferring of the aquarium fish permit, rather than satisfying to the Department that the permittee or transferee does not engage in practices that constitute the offense of cruelty to animals in the second degree;

- (9) Clarifying that the aquarium fish permit requirements proposed in this measure shall not be construed to alter the State's constitutional and statutory obligations to conserve the fishery resources of the State pursuant to the state constitution;
- (10) Removing the definition of "commercial purpose" and adding the definitions of "commercial aquarium purposes" and "non-commercial aquarium purposes"; and
- (11) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2003, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2003, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Inouye, Thielen).

SCRep. 2386 Ways and Means on S.B. No. 2712

The purpose and intent of this measure is to amend the liquor tax law by:

- (1) Expanding the definition of a "cooler beverage" to include coolers containing distilled spirits and certain additives; and
- (2) Repealing the tax rate on beer other than draft beer and applying the tax rate on draft beer to all beer.

Your Committee received testimony in support of this measure from Big Island Brewhaus LLC, Hawaiian Craft Brewers Guild, Home of the Brave Brewing Co., Homebrew in Paradise, Honolulu BeerWorks, Kauai Brewers, Kauai Island Brewing Company, Kohola Brewery, Lanikai Brewing Company, Maui Brewing Co., REAL A Gastropub, Waikiki Brewing Company, and fifty-seven additional individuals from the Maui Brewing Co.

Your Committee received testimony in opposition to this measure from the Hawai'i Alcohol Policy Alliance.

Your Committee received comments on this measure from the Tax Foundation of Hawaii.

Your Committee finds that this measure will eliminate confusion surrounding the two separate tax rates on beer by consolidating the two taxes into one. The statutory definition of "draft beer," based upon the size of a container, is inconsistent with the use of the term in the industry, where it refers to beer from tap. Your Committee further finds that including spirit beverage coolers as cooler beverages will encourage local brewers to develop spirit beverage coolers for the local market, thereby increasing opportunities for local businesses.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (2) Making technical, nonsubstantive changes for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2712, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2712, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 8. Noes, none. Excused, 3 (Kidani, Riviere, Shimabukuro).

SCRep. 2387 Ways and Means on S.B. No. 2823

The purpose and intent of this measure is to increase funding for the Department of Taxation's Special Enforcement Section to investigate fraud and noncompliance, especially in relation to the transient accommodations tax.

More specifically, the measure increases the annual deposit ceiling of the tax administration special fund from \$700,000 to \$1,000,000.

Your Committee received testimony in support of this measure from the Department of Taxation.

Your Committee received comments on this measure from the Tax Foundation of Hawaii.

Your Committee finds that the Special Enforcement Section plays a major role in the Department of Taxation's efforts to encourage compliance with Hawaii's tax laws. Your Committee notes that the Special Enforcement Section is funded solely through the tax revenues that it collects and that are deposited into the tax administration special fund, which is currently capped at \$700,000 per fiscal year. Your Committee believes that an increase in funding would enable the Special Enforcement Section to enhance its tax enforcement functions and encourage voluntary compliance with the tax laws by increasing the department's exposure and visibility.

Your Committee has amended this measure by changing the effective date to July 1, 2018.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2823, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2823, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 8. Noes, none. Excused, 3 (Kidani, Riviere, Shimabukuro).

SCRep. 2388 Ways and Means on H.B. No. 2600

The purpose and intent of this measure is to appropriate funds for the expenses of the Legislature, the Office of the Auditor, the Legislative Reference Bureau, the Office of the Ombudsman, and the Hawaii State Ethics Commission.

Specifically, this measure appropriates:

- (1) \$9,645,383 to the Senate;
- (2) \$13,269,211 to the House of Representatives;
- (3) \$3,157,127 to the Office of the Auditor;
- (4) \$2,800,000 for deposit into the Audit Revolving Fund;
- (5) \$6,300,000 from the Audit Revolving Fund to the Office of the Auditor to conduct or complete its audit functions;
- (6) \$3,707,995 to the Legislative Reference Bureau;
- (7) \$1,322,205 to the Office of the Ombudsman;
- (8) \$1,130,158 to the Hawaii State Ethics Commission; and
- (9) \$535,028 for accrued vacation payments and vacation transfer payments for employees leaving the employ of the Senate, House of Representatives, Office of the Auditor, Legislative Reference Bureau, Office of the Ombudsman, and Hawaii State Ethics Commission.

Your Committee received testimony in support of this measure from the Hawaii State Ethics Commission, Office of the Auditor, Office of the Ombudsman, and two individuals.

The Legislative Reference Bureau submitted comments on the measure.

Your Committee finds that this measure appropriates sufficient funds to defray the necessary expenses in fiscal year 2018-2019 of the Senate, the House of Representatives, the Office of the Auditor, the Legislative Reference Bureau, the Office of the Ombudsman, and the Hawaii State Ethics Commission.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2600, and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 9. Noes, none. Excused, 2 (English, Inouye).

SCRep. 2389 Ways and Means on Gov. Msg. No. 506

Recommending that the Senate advise and consent to the nomination of the following:

DIRECTOR OF THE DEPARTMENT OF TAXATION

G.M. No. 506 LINDA CHU TAKAYAMA, for a term to expire at noon on 12-03-2018

Your Committee reviewed the personal statement and resume submitted by Linda Chu Takayama for service as the Director of Taxation.

Your Committee received testimony in support of the nomination from the Office of the Governor; the Department of Accounting and General Services; the Department of Agriculture; the Department of the Attorney General; the Department of Budget and Finance; the Department of Business, Economic Development, and Tourism; the Department of Defense; the Department of Health; the Department of Human Resources Development; the Department of Labor and Industrial Relations; the Department of Land and Natural Resources; the Department of Public Safety; the Department of Transportation; the Hawaii Tourism Authority; the Labor and Industrial Relations Appeals Board; the Office of Enterprise Technology Services; Hawaii 3Rs; Hawaiian Electric Company; Hawaii Farm Bureau Federation; Hawaii Health Information Corporation; Hawaii Pacific Health; SanHi Government Strategies; United Public Workers; and thirteen individuals.

Upon review of the testimony and the nominee's qualifications, your Committee finds that the nominee has served as the interim Director of Taxation since December of last year. Your Committee notes that the nominee previously served as the Director of Labor and Industrial Relations, the Deputy Director of Commerce and Consumer Affairs, and the Executive Director of the Office of Economic Development, City and County of Honolulu. Your Committee also notes that the nominee earned a Bachelor of Arts degree in journalism from the University of Hawaii and a Juris Doctor degree from George Mason University.

Your Committee finds that Linda Chu Takayama's extensive experience in public service will make her an effective leader of the Department of Taxation.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee.
Ayes, 7. Noes, none. Excused, 4 (English, Galuteria, Inouye, Shimabukuro).

SCRep. 2390 Ways and Means on Gov. Msg. No. 536

Recommending that the Senate advise and consent to the nomination of the following:

DIRECTOR OF THE DEPARTMENT OF BUDGET AND FINANCE

G.M. No. 536 LAUREL A. JOHNSTON, for a term to expire at noon on 12-03-2018

Your Committee reviewed the personal statement and resume submitted by Laurel A. Johnston for service as the Director of Finance.

Your Committee received testimony in support of the nomination from the Office of the Governor; the Department of Accounting and General Services; the Department of Agriculture; the Department of Budget and Finance; the Department of Business, Economic Development, and Tourism; the Department of Defense; the Department of Health; the Department of Human Resources Development; the Department of Labor and Industrial Relations; the Department of Land and Natural Resources; the Department of Public Safety; the Department of Taxation; the Department of Transportation; the Employees' Retirement System; the Hawaii Tourism Authority; a member of the Labor and Industrial Relations Appeals Board; the Office of Enterprise Technology Services; the Office of the Public Defender; the Domestic Violence Action Center; SanHi Government Strategies; the United Public Workers; the Young Men's Christian Association of Honolulu, and eleven individuals.

Upon review of the testimony and the nominee's qualifications, your Committee finds that the nominee has served as the Deputy Director of Finance, and began serving as the Acting Director of Finance at the end of 2017. Your Committee notes that the nominee has had an extensive career with the State, spanning thirty years of accumulated experience as a public administrator, researcher, and writer in education, health, criminal justice, social justice, economic development, and public finance. Your Committee also notes that the nominee earned a Bachelor of Science degree in Criminology and a Master of Science Degree in Public Administration from Florida State University.

Your Committee finds that Laurel A. Johnston's extensive experience in public service and finance will make her an effective leader of the Department of Budget and Finance.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, 4 (English, Galuteria, Inouye, Shimabukuro).

SCRep. 2391 (Joint) Commerce, Consumer Protection, and Health and Agriculture and Environment on S.B. No. 3099

The purpose and intent of this measure is to:

- (1) Establish a plastics recycling grant program to identify Hawaii-based alternatives for the sustainable recycling and reuse of plastic commodities;
- (2) Require the Department of Health to set benchmarks to reach an eighty-five percent redemption rate for deposit beverage containers by 2023;
- (3) Require the Department of Health to annually report to the Legislature on redemption rates, progress, and plans regarding the deposit beverage container program; and
- (4) Appropriate funds to establish two positions for the glass advance disposal fee program.

Your Committees received testimony in support of this measure from the Oahu County Committee on Legislative Priorities of the Democratic Party of Hawaii, Glass Packaging Institute, Sierra Club of Hawaii, Container Recycling Institute, Patients Without Time, and six individuals. Your Committees received comments on this measure from the Department of Health.

Your Committees find that China had been importing the majority of the United States' plastic scrap until July 2017, when it announced that it would effectively ban imports of twenty-four kinds of scrap. Accordingly, pressure on domestic recycling programs has increased.

Despite this, your Committees find that the current redemption rate of the deposit beverage container program is at sixty-seven percent, near the all-time low of 66.9 percent. Your Committees find that efforts need to be made to increase the redemption rate of plastic beverage containers and ensure less plastic is being deposited in landfills and the ocean.

Your Committees received testimony indicating that Oregon experienced similar declines in beverage container redemption rates and consequently enacted a law to automatically increase the refund value from five cents to ten cents after two consecutive years of redemption rates below eighty percent. Your Committees find it to be a useful model to follow. Your Committees find that five cents is not a sufficient incentive for the public to recycle their plastic beverage containers, but that a ten cent refund value will incentivize consumer recycling if other measures prove ineffective. Your Committees find that an automatic conditional increase will allow this incentive to go into effect if and when needed.

Your Committees have amended this measure by:

- (1) Adding provisions modeled on Oregon law providing for an automatic conditional increase in the refund value from five cents to ten cents; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Commerce, Consumer Protection, and Health and Agriculture and Environment that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 3099, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 3099, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Commerce, Consumer Protection, and Health: Ayes, 5. Noes, none. Excused, 2 (Chang, Ihara).

Agriculture and Environment: Ayes, 3. Noes, none. Excused, 2 (Rhoads, Riviere).

SCRep. 2392 Commerce, Consumer Protection, and Health on S.B. No. 2812

The purpose and intent of this measure is to update chapter 329, Hawaii Revised Statutes (HRS), the Uniform Controlled Substances Act, to be consistent with amendments to the federal Controlled Substances Act, as required under section 329-11, HRS.

Your Committee received testimony in support of this measure from the Department of Public Safety. Your Committee received testimony in opposition to this measure from the Maui Police Department.

Your Committee finds that this measure will update Hawaii's Uniform Controlled Substances Act, bringing it into conformity with the federal Controlled Substances Act. Your Committee finds that this change will ease enforcement and reduce confusion as to the scheduling of controlled substances in the State.

Your Committee also finds that additional amendments have been made to the federal Controlled Substances Act since this measure was introduced. Accordingly, your Committee finds that amendments recommended by the Department of Public Safety are necessary to include additionally scheduled controlled substances.

Your Committee has amended this measure by:

- (1) Incorporating the amendments proposed by the Department of Public Safety to include additionally scheduled controlled substances at sections 329-14(g) and 329-16(g), Hawaii Revised Statutes; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2812, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2812, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Espero, Ihara, Nishihara).

SCRep. 2393 Commerce, Consumer Protection, and Health on S.B. No. 2624

The purpose and intent of this measure is to:

- (1) Require condominium owners to pay for administrative costs, related to requests to view voting documents, in excess of forty hours per year;
- (2) Require a condominium association's proxies and ballots to be retained for five years after an association meeting; and
- (3) Criminalize knowingly making any false certificate, entry, or memorandum upon any of the books or records of any managing agent or association and knowingly altering, destroying, mutilating, or concealing any books or records of a managing agent or association.

Your Committee received testimony in support of this measure from Hui 'Oia'i'o and five individuals. Your Committee received testimony in opposition to this measure from the Hawaii Council of Association of Apartment Owners, Associa, and six individuals. Your Committee received comments on this measure from one individual.

Your Committee finds that this measure makes several changes to requirements related to a condominium's voting documents, including increasing the amount of time an owner may have to view voting documents after an association meeting, increasing the length of time an association's proxies and ballots must be retained, and criminalizing certain conduct related to the alteration of documents.

However, your Committee has heard concerns that this measure's expansion of time for owners to view association documents is excessive. According to testimony received by your Committee, since these administrative services are generally provided by paid employees of a property management firm that administers records of a condominium association, forty free hours per owner would be financially burdensome for those firms, who would likely pass on the cost to the association. Concerns were also raised regarding the five-year retention requirement for proxies and ballots proposed by this measure. Your Committee notes that the election of officers is an annual event, and any effort to overturn an election years later may create undue potential liability for an association. Furthermore, because many associations must pay a fee to store proxies and ballots, requiring an association to retain these types of documents for five years, regardless of whether a meeting is contested, may result in unnecessary expenses for the association.

Your Committee has also heard the concerns that this measure essentially criminalizes conduct of unpaid volunteers. According to testimony received by your Committee, association board members are already exposed to personal liability under the State's condominium laws if the members breach their fiduciary duty. Further subjecting a board member's conduct to criminalization will likely discourage more condominium owners from serving on their boards. Amendments to this measure are therefore necessary to address these concerns.

Accordingly, your Committee has amended this measure by:

- (1) Removing language that would have required condominium owners to pay for administrative costs, related to voting documents, in excess of forty hours per year;
- (2) Specifying that a condominium association's proxies and ballots may be destroyed ninety days, rather than five years, after an association meeting;
- (3) Removing language that would have criminalized knowingly making any false certificate, entry, or memorandum upon any of the books or records of any managing agent or association or knowingly altering, destroying, mutilating, or concealing any books or records of a managing agent or association; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2624, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2624, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 1 (Ruderman).

SCRep. 2394 Commerce, Consumer Protection, and Health on S.B. No. 2800

The purpose and intent of this measure is to provide an avenue for the Department of Health to share amongst its program employees certain personal health statistics records for research purposes, subject to approval by the Department's institutional review committee.

Your Committee received testimony in support of this measure from the Department of Health and Hawaii Primary Care Association.

Your Committee finds that this measure will allow the Department of Health to safeguard the privacy of vital records while providing limited sharing of vital statistics records amongst its employees, with approval from the Department's institutional review committee. Your Committee finds that, under existing law, the Department is authorized to use de-identified data for research purposes, however in many circumstances the use of identified data is also needed for research purposes. Your Committee finds that this measure will allow the Department of Health to conduct important public health research, including the Pregnancy Risk Assessment Monitoring System research study.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2800, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2800, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 3 (Espero, Ihara, Nishihara).

SCRep. 2395 Commerce, Consumer Protection, and Health on S.B. No. 2298

The purpose and intent of this measure is to create a tax credit that encourages preceptors to offer professional training to students seeking careers as healthcare providers in Hawaii, in order to expand the State's capacity for clinical instruction and address the shortfall of medical professionals.

Your Committee received testimony in support of this measure from the Board of Nursing; Board of Pharmacy; University of Hawaii System; University of Hawaii John A. Burns School of Medicine; University of Hawaii School of Nursing and Dental Hygiene; Hawaii State Center for Nursing; Hawaii Pacific Health; Straub Medical Center; Waianae Coast Comprehensive Health Center; Hawaii Primary Care Association; Hawaii Medical Association; Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO; American Organization of Nurse Executives – Hawaii Chapter; Wahiawa Center for Community Health; and eight individuals. Your Committee received comments on this measure from the Department of Taxation, Department of Health, Hawaii Medical Board, and Tax Foundation of Hawaii.

Your Committee finds that there is a primary care provider shortage in Hawaii that will be exacerbated by the projected retirements of physicians and advanced practice registered nurses. Your Committee also finds that academic institutions across Hawaii face challenges in ensuring an adequate number of future healthcare professionals and are constrained in part by the lack of clinical education sites in Hawaii and the limited supply of qualified primary care preceptors. Your Committee also finds that training by a preceptor is an integral part of the medical training program. Your Committee further finds that one way to encourage participation of preceptors is to offer a tax credit for professionals who serve as preceptors.

Your Committee notes that the costs of this program are uncertain. Accordingly, your Committee finds it prudent to offer the tax credit only to those medical professionals serving as preceptors to primary care physicians, including osteopathic physicians, and advanced practice registered nurses at this time, evaluate the effectiveness and the cost of the tax credit, and then determine whether the tax credit should be expanded to preceptors for other valuable professions, such as dentists, pharmacists, social workers, dietitians, and physical therapists.

Your Committee also finds it necessary for the tax credit to be certified by a group with the authority to review sensitive educational data and that additional specifications regarding certification of the tax credits are needed. Your Committee is amenable to language proposed by the Hawaii State Center for Nursing that addresses these issues and refines definitions in this measure.

Accordingly, your Committee has amended this measure by:

- (1) Limiting the applicability of the tax credit to only professionals serving as preceptors for students studying to be primary care physicians, osteopathic physicians, and advanced practice registered nurses;
- (2) Renaming the healthcare preceptor tax working group to the preceptor credit assurance committee and clarifying the committee's duties;
- (3) Exempting the committee from part I of chapter 92, Hawaii Revised Statutes, and providing civil liability protections for members of the committee;
- (4) Updating and adding various definitions, as recommended by the Hawaii State Center for Nursing; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2298, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2298, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 3 (Espero, Ihara, Nishihara).

SCRep. 2396 (Joint) Commerce, Consumer Protection, and Health and Judiciary on S.B. No. 2312

The purpose and intent of this measure is to:

- (1) Require all organizations that may receive a grant from the State to be in compliance with all registration and annual reporting requirements of the Department of Commerce and Consumer Affairs and provide proof of a current and valid general excise tax license; and
- (2) Require all nonprofit organizations that may receive a grant from the State to provide proof of a current and valid general excise tax license; register with the Department of the Attorney General as a charitable organization, if applicable; provide proof of the filing of Internal Revenue Service Form 990, 990EZ, or 990-N; and be current on the payment of all real property taxes, if applicable.

Your Committees received testimony in support of this measure from the Hawaii Youth Services Network. Your Committees received comments on this measure from the Department of the Attorney General and Department of Budget and Finance.

Your Committees find that currently, there is no requirement under existing law or in the State's grant application process for applicants to provide proof of compliance with Hawaii's charitable solicitation laws, if applicable. According to testimony from the Department of the Attorney General, nonprofit charitable organizations that have received state grant monies in the past, and that would otherwise be required to be registered or have been granted an exemption from registration by the Attorney General, have been found not in compliance with these requirements. This measure therefore clarifies the requirements for organizations and nonprofit organizations that may receive a grant from the State.

Your Committees note that the Department of the Attorney General, in coordination with the Departments of Budget and Finance and Commerce and Consumer Affairs, have suggested additional amendments for this measure to further clarify the standards for the award of grants to organizations and nonprofit organizations. Amendments to this measure are therefore needed to incorporate the changes suggested by the Departments of the Attorney General, Budget and Finance, and Commerce and Consumer Affairs.

Accordingly, your Committees have amended this measure by:

- (1) Clarifying the requirements for a grant applicant that is an organization incorporated in Hawaii, including:
 - (A) Providing a copy of the organization's bylaws and policies that describe the manner in which services funded by the grant would be performed;
 - (B) Requiring a certificate of good standing from the Department of Commerce and Consumer Affairs;
 - (C) Requiring a current tax clearance from the Department of Taxation; and
 - (D) Requiring proof that the organization is current in its payment of real property taxes, if applicable to the organization; and
- (2) Clarifying the additional requirements for a grant applicant that is a nonprofit organization, including:
 - (A) Providing a copy of its Internal Revenue Service Exemption rule and proof of current 501(c)(3) status;
 - (B) Requiring proof of compliance with Hawaii's charitable solicitation law, if applicable; and
 - (C) Providing copies of its most recent Internal Revenue Service Form 990, 990EZ, or 990-N.

As affirmed by the records of votes of the members of your Committees on Commerce, Consumer Protection, and Health and Judiciary that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2312, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2312, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
Commerce, Consumer Protection, and Health: Ayes, 4. Noes, none. Excused, 3 (Ihara, Ruderman, Tokuda).
Judiciary: Ayes, 4. Noes, none. Excused, 1 (Thielen).

SCRep. 2397 (Joint) Commerce, Consumer Protection, and Health and Higher Education and Labor on S.B. No. 3004

The purpose and intent of this measure is to prohibit smoking, including the use of electronic smoking devices, on University of Hawaii premises.

Your Committees received testimony in support of this measure from the University of Hawaii System, University of Hawaii Student Health Advisory Council, Graduate Assistants at UH Manoa in the Health Services and Health Promotion Office, American Cancer Society Cancer Action Network, Alcohol and other Drug Education Program, American Heart Association, Hawaii Public Health Institute, Blue Zones Project Koolauapoko, and one hundred six individuals. Your Committees received testimony in opposition to this measure from the University of Hawaii Professional Assembly. Your Committees received comments on this measure from three individuals.

Your Committees find that tobacco use is the single most preventable cause of death in the United States and in Hawaii, with tobacco-related diseases resulting in \$96,000,000,000 in national health care costs annually. Your Committees also find that sales of electronic smoking devices have doubled each year since 2008, with sales reaching \$1,700,000,000. Your Committees also find that approximately ninety-nine percent of smokers began smoking before age twenty-six.

Your Committees also find that over seventeen-hundred college campuses have already gone smoke-free, with over thirteen-hundred banning electronic smoking devices as well. Your Committees further find that smoking on university campuses negatively impacts students, faculty, and visitors, including high school students conducting campus visits. Your Committees find that existing no-smoking policies are irregular in application and enforcement across the University of Hawaii System.

Accordingly, your Committees find that a ban on smoking on the University of Hawaii campuses will have a strong impact on limiting the number of new smokers. Your Committees find that this measure will improve enforcement of existing smoking bans, and encourage positive health practices at the University of Hawaii. Your Committees also find that a university-wide statutory ban will provide uniformity for students who may attend classes at multiple campuses.

Your Committees have heard the concerns of some of the individual testifiers with respect to accommodating smokers on college campuses who may otherwise drop out. However, your Committees find that, on balance, promoting the overall health of the university community is a goal worth pursuing despite these concerns.

Finally, your Committees note and appreciate that the Department of Health and the American Cancer Society Cancer Action Network have volunteered to assist the University of Hawaii with implementation of the ban.

As affirmed by the records of votes of the members of your Committees on Commerce, Consumer Protection, and Health, Higher Education, and Labor that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 3004 and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Commerce, Consumer Protection, and Health: Ayes, 6. Noes, none. Excused, 1 (Nishihara).

Higher Education: Ayes, 3. Noes, none. Excused, 2 (Keith-Agaran, Kim).

Labor: Ayes, 4. Noes, none. Excused, 1 (Taniguchi).

SCRep. 2398 (Joint) Commerce, Consumer Protection, and Health and Higher Education on S.B. No. 2374

The purpose and intent of this measure is to implement the recommendations of the working group convened pursuant to House Concurrent Resolution No. 90 (Regular Session of 2016), by establishing and appropriating funds for a three-year community paramedic services pilot program, and requiring an evaluation of the pilot program.

Your Committees received testimony in support of this measure from the University of Hawaii System, City and County of Honolulu Emergency Services Department, Oahu County Committee on Legislative Priorities of the Democratic Party of Hawaii, Hawaii Pacific Health, American Medical Response, and two individuals. Your Committees received comments on this measure from the Department of Health.

Your Committees find that a high percentage of calls for emergency medical services are from callers who call multiple times per day for issues that do not require an emergency response. Your Committees find that as emergency call volume continues to rise, a community paramedic system could address many of the non-emergency callers, thereby freeing up emergency medical services needed for other individuals experiencing actual emergencies.

Your Committees also find that the working group convened pursuant to House Concurrent Resolution No. 90 (Regular Session of 2016), recommended forming a community paramedic system to reduce emergency call volume and improve health in the State by addressing callers needing non-emergency destinations, post-hospital discharge care, hospice care, the homeless population, behavioral health, and other non-emergency health conditions. Your Committees find that implementing the working group's recommendation with a pilot program, and requiring the Department of Health Emergency Medical Services and Injury Prevention System Branch to report on the status of the pilot program, will allow the Legislature to evaluate the effectiveness of a community paramedic system. Your Committees find that a sunset date is appropriate to encourage review of the community paramedic system.

Your Committees also note for consideration by your Committee on Ways and Means that Kapiolani Community College will require additional funding for implementation of and training of necessary personnel for the pilot program.

As affirmed by the records of votes of the members of your Committees on Commerce, Consumer Protection, and Health and Higher Education that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2374 and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Commerce, Consumer Protection, and Health: Ayes, 6. Noes, none. Excused, 1 (Nishihara).

Higher Education: Ayes, 4. Noes, none. Excused, 1 (Kidani).

SCRep. 2399 Commerce, Consumer Protection, and Health on S.B. No. 2776

The purpose and intent of this measure is to:

- (1) Authorize the Regulated Industries Complaints Office to issue citations for specific violations of the motor vehicle repair laws; and
- (2) Establish a process for licensees in violation of motor vehicle repair laws to contest the citation for the assessment of fines for each violation.

Your Committee received testimony in support of this measure from the Regulated Industries Complaints Office of the Department of Commerce and Consumer Affairs and Motor Vehicle Repair Industry Board.

Your Committee finds that this measure expedites the Regulated Industries Complaints Office's enforcement of certain technical violations of the motor vehicle repair laws. Your Committee notes that the citation process established by this measure is similar to previous citation processes established for technical violations of massage therapy laws and beauty culture laws. These recent citation laws have had a positive impact on the Regulated Industries Complaints Office's efforts to curb violations and ensure swift compliance by licensees and have enabled the Office to more effectively allocate its resources. Your Committee further finds that the enforcement mechanisms in this measure will also significantly enhance the Regulated Industries Complaints Office's ability to address technical violations of the motor vehicle repair licensing laws.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2776 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 1 (Ruderman).

SCRep. 2400 (Joint) Commerce, Consumer Protection, and Health and Agriculture and Environment on S.B. No. 2114

The purpose and intent of this measure is to appropriate funds to establish two positions for the glass advance disposal fee program.

Your Committees received testimony in support of this measure from the Department of Health, Oahu County Committee On Legislative Priorities of the Democratic Party of Hawaii, and City and County of Honolulu Department of Environmental Services.

Your Committees find that the Department of Health has not requested any staff positions to administer the glass advance disposal fee program and that, accordingly, glass recycling in Hawaii has been ineffective. Your Committees find that the lack of requests was due to the uncertain interpretation of certain statutory provisions and the perceived lack of authority to develop and adopt rules for the program. Your Committees find that the state auditor recommended in Report Nos. 14-16 and 17-04 that the Department of Health request positions to adequately administer the glass advance disposal fee program. Your Committees find that staff positions should be established to enable the glass advance disposal fee program to help fund and support recycling programs at the county level, contributing to an increase in non-deposit glass recycling.

As affirmed by the records of votes of the members of your Committees on Commerce, Consumer Protection, and Health and Agriculture and Environment that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2114 and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
Commerce, Consumer Protection, and Health: Ayes, 5. Noes, none. Excused, 2 (Chang, Ihara).
Agriculture and Environment: Ayes, 3. Noes, none. Excused, 2 (Rhoads, Riviere).

SCRep. 2401 (Joint) Agriculture and Environment and Commerce, Consumer Protection, and Health on S.B. No. 2474

The purpose and intent of this measure is to require the Department of Health to conduct a study on the impacts of aviation noise on the residents in the Puna District on the Island of Hawaii and surrounding areas of the Hawaii Volcanoes National Park.

Your Committees received testimony in support of this measure from the Office of the Mayor of the County of Hawai'i, Hawai'i County Councilmember Eileen Ohara, Hawaii Island Coalition Malama Pono, and twenty-six individuals. Your Committees received comments on this measure from the Department of Health.

Your Committees find that it is the responsibility of the Department of Health to address excessive noise issues and the impacts of excessive noise in the State. Your Committees further find that overhead helicopter noise has had detrimental effects on residents who live in helicopter tour flight paths. Your Committees acknowledge that helicopter flight paths fall under the jurisdiction of the Federal Aviation Administration, but believe that the State must take steps to assess the situation and find a solution regarding helicopter noise to bring some relief to Hawaii residents.

Your Committees have amended this measure by:

- (1) Deleting language that would have required the Department of Health to adopt rules to address the aviation noise impact findings of the study;
- (2) Requiring the Department of Transportation to collaborate with the Department of Health on the aviation noise study and subsequent report to the Legislature; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Agriculture and Environment and Commerce, Consumer Protection, and Health that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2474, as

amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2474, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Agriculture and Environment: Ayes, 4. Noes, none. Excused, 1 (Nishihara).

Commerce, Consumer Protection, and Health: Ayes, 6. Noes, none. Excused, 1 (Nishihara).

SCRep. 2402 (Joint) Agriculture and Environment and Commerce, Consumer Protection, and Health on S.B. No. 2113

The purpose and intent of this measure is to prohibit manufacturers, contract testing facilities, and research facilities in Hawaii from using animal test methods for which an alternative test method is available.

Your Committees received testimony in support of this measure from Cruelty Free International, Keiko Conservation, Animal Rights Hawai'i, and fifteen individuals. Your Committees received testimony in opposition to this measure from the University of Hawaii System; Coordinating Group on Alien Pest Species; Hawaii Cattlemen's Council, Inc.; and one individual.

Your Committees find that according to Cruelty Free International, for more than fifty years, animals have been used in painful tests to assess the safety of certain chemicals used in cosmetic products and household cleaners. Consumers and scientists have become increasingly skeptical about the necessity and validity of animal testing for cosmetics and household products because animal testing alternatives are available that are cheaper, faster, and better able to predict human reactions. Although hundreds of cosmetic and household product companies have voluntarily ceased animal testing, without any laws banning animal testing, countless animals are vulnerable to cruel tests. Your Committees find that Hawaii should lead by example and prohibit manufacturers and contract testing facilities in Hawaii from using animal test methods to test cosmetics and household products for which an alternative test method is available.

Your Committees have amended this measure by:

- (1) Deleting references to "research facility", to apply the animal testing ban only to manufacturers and contract testing facilities;
- (2) Clarifying that the animal testing ban applies only to the testing of cosmetics or household products;
- (3) Inserting language to exclude the use of animal test methods that comply with requirements of state and federal agencies;
- (4) Inserting language to exclude animal tests necessary to prevent the introduction and establishment of plants, animals, and diseases that are detrimental to the State's agricultural industry and the environment, to protect the health and safety of people, or for purposes of national defense;
- (5) Clarifying that, in addition to medical research, the animal testing ban does not apply to animal test methods used for the purposes of neuroscience, and basic science testing, education, and research; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Agriculture and Environment and Commerce, Consumer Protection, and Health that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2113, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2113, S.D. 1, and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chairs on behalf of the Committees.

Agriculture and Environment: Ayes, 4. Noes, none. Excused, 1 (Nishihara).

Commerce, Consumer Protection, and Health: Ayes, 6. Noes, none. Excused, 1 (Nishihara).

SCRep. 2403 (Joint) Public Safety, Intergovernmental, and Military Affairs and Labor on S.B. No. 2428

The purpose and intent of this measure is to:

- (1) Require the Chief of Police or Director of Public Safety to deny employment to a candidate for a state or county law enforcement officer position if the candidate's previous position as a law enforcement officer was terminated while the officer was in poor employment standing; and
- (2) Require background checks for prospective state and county law enforcement officers.

Your Committees received testimony in support of this measure from four individuals.

Your Committees find that the hiring of high-quality employees for state and county law enforcement is vital to protecting the health, safety, and welfare of the public. Existing law does not require prospective state and county law enforcement officers to undergo background checks, nor does existing law prohibit the hiring of individuals who may have been dismissed from a previous law enforcement position while in poor employment standing. Your Committees find that the lack of these guidelines and requirements allow for the possibility of hiring unqualified law enforcement officers, thereby placing the public at risk. Therefore, your Committees find that proper guidelines in the form of required prior employment background checks and a prohibition on the hiring of individuals who were terminated from a previous law enforcement position while in poor employment standing are necessary to ensure public confidence and safety.

As affirmed by the records of votes of the members of your Committees on Public Safety, Intergovernmental, and Military Affairs and Labor that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2428 and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Public Safety, Intergovernmental, and Military Affairs: Ayes, 4. Noes, none. Excused, 1 (Wakai).

Labor: Ayes, 4. Noes, none. Excused, 1 (English).

SCRep. 2404 (Joint) Public Safety, Intergovernmental, and Military Affairs and Human Services on S.B. No. 2819

The purpose and intent of this measure is to make an emergency appropriation to provide funds for the Department of Public Safety to reimburse the Department of Human Services for unexpected increased costs for specialty out-of-facility care and hospitalization of inmates for pharmacy services.

Your Committees received testimony in support of this measure from the Department of Public Safety.

Your Committees find that ensuring the health of inmates is essential for maintaining an appropriate corrections system and for promoting public welfare. Your Committees find that unexpected increased costs for specialty out-of-facility care and hospitalization of inmates and increased costs for pharmacy services have created a critical funding shortage that will prevent the Department of Public Safety from meeting its payment obligations to the Department of Human Services and its pharmacy services provider for the remainder of fiscal year 2017-2018. Consequently, your Committees find that it is necessary to make an emergency appropriation to provide the necessary additional funds for the Department of Public Safety to be able to reimburse the Department of Human Services for the increased costs of hospitalization and specialty out-of-facility care and to cover the increased costs of pharmacy services.

As affirmed by the records of votes of the members of your Committees on Public Safety, Intergovernmental, and Military Affairs and Human Services that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2819 and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Public Safety, Intergovernmental, and Military Affairs: Ayes, 4. Noes, none. Excused, 1 (Wakai).

Human Services: Ayes, 4. Noes, none. Excused, 1 (Wakai).

SCRep. 2405 (Joint) Commerce, Consumer Protection, and Health and Transportation and Energy on S.B. No. 2200

The purpose and intent of this measure is to prohibit smoking in a motor vehicle when a minor is present, and to require the Department of Health to submit a report to the Legislature regarding the enforceability of and data collection pertaining to this prohibition.

Your Committees received testimony in support of this measure from the Department of Health, Maui Councilmember Yuki Lei Sugimura, Hawaii Public Health Institute, and four individuals. Your Committees received testimony in opposition to this measure from the Hawaii Smokers Alliance and three individuals.

Your Committees find that secondhand smoke is a dangerous class A carcinogen, in the same class as asbestos and benzene. On January 17, 2014, the fiftieth anniversary of the release of the United States Surgeon General's report on the dangers of smoking, the Surgeon General stated that over two and one-half million nonsmokers have died from health problems caused by secondhand smoke since 1964.

Your Committees further find that children run a greater risk of suffering from the damaging health effects of secondhand smoke because they have a higher exposure risk and are more susceptible to health problems. Your Committees also find that secondhand smoke exposure in vehicles is more concentrated than in bars and restaurants, even when a window is open.

Your Committees also find that eight states, as well as Puerto Rico, and all counties in the State have enacted legislation banning smoking in motor vehicles occupied by minors. Accordingly, your Committees find that implementing a statewide ban will protect children from involuntary exposure to secondhand smoke as well as create uniformity of application for visitors and residents of all counties of the State.

As affirmed by the records of votes of the members of your Committees on Commerce, Consumer Protection, and Health and Transportation and Energy that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2200 and recommend that it pass Second Reading and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chairs on behalf of the Committees.

Commerce, Consumer Protection, and Health: Ayes, 5. Noes, none. Excused, 2 (Ihara, Nishihara).

Transportation and Energy: Ayes, 3. Noes, none. Excused, 2 (English, Harimoto).

SCRep. 2406 (Joint) Human Services and Judiciary on S.B. No. 2096

The purpose and intent of this measure is to appropriate funds to satisfy state and federal class action settlement agreements requiring the Department of Human Services to implement a foster care maintenance payment system that complies with the federal Child Welfare Act, increase clothing allowance payments, reimburse certain caregivers and beneficiaries for past inadequate benefit payments, and comply with additional settlement terms.

Your Committees received testimony in support of this measure from the Department of the Attorney General and one individual. Your Committees received comments on this measure from the Department of Human Services.

Your Committees find that despite inflation and the high cost of living in Hawaii, the monthly foster care maintenance payments have remained largely unchanged since the Legislature established the payment in 1990. Your Committees further find that federal and state class action lawsuits, filed to address the inadequacy of foster care maintenance payments, have resulted in court orders requiring the Department of Human Services to increase basic board rate and clothing allowance payments, periodically review and update the basic board rate in the future, provide additional benefit and assistance information to caregivers, and reimburse certain caregivers and beneficiaries for past inadequacies in benefit payments. Your Committees note that an appropriation from the Legislature is necessary to pay for certain payments provided under the federal and state settlement agreements.

Your Committees have amended this measure by:

- (1) Deleting the appropriation amount to allow the Department of the Attorney General to determine the specific amount to be appropriated;

- (2) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Human Services and Judiciary that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2096, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2096, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
 Human Services: Ayes, 3. Noes, none. Excused, 2 (Tokuda, Wakai).
 Judiciary: Ayes, 3. Noes, none. Excused, 2 (Gabbard, Rhoads).

SCRep. 2407 Government Operations on S.B. No. 2661

The purpose and intent of this measure is to codify the State's commitment to conservation and sustainability by including the seventeen United Nations Sustainable Development Goals and indicators, with references to existing state sustainability programs, if applicable, in the Hawaii Revised Statutes.

Your Committee received testimony in support of this measure from the Department of Agriculture, Department of Land and Natural Resources, Department of Human Services, Department of Education, Office of Planning, The Nature Conservancy of Hawaii, Airport Concessionaires Committee, Oahu Economic Development Board, Polynesian Voyaging Society, and one individual. Your Committee received testimony in opposition to this measure from one individual.

Your Committee finds that Hawaii has been a leader in conservation efforts for decades, through its commitment to environmental and sustainability policies, and that the priority of the Senate for the Regular Session of 2018 is to adopt the United Nation's Sustainable Development Goals at the state level. The seventeen Sustainable Development Goals are a universal call to action to end poverty, protect the planet, and ensure that all people enjoy peace and prosperity. Your Committee finds that the Sustainable Development Goals are voluntary commitments to make the world a better and more prosperous place. In order for Hawaii to continue to serve as a trailblazer in setting policies on sustainability and to serve as the global leader on issues of conservation and sustainability, your Committee finds that it is essential that the State demonstrate its full commitment to the goals set by the United Nations. This measure codifies all of the Sustainable Development Goals into state law.

However, your Committee agrees with the Office of Planning that it would be more appropriate to include the provisions of this measure as part of the Hawaii State Planning Act.

Accordingly, your Committee has amended this measure by:

- (1) Adding the provisions of this measure as a new section to chapter 226, Hawaii Revised Statutes, instead of 344, Hawaii Revised Statutes; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2661, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2661, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
 Ayes, 5. Noes, none. Excused, none.

SCRep. 2408 Government Operations on S.B. No. 2604

The purpose and intent of this measure is to:

- (1) Require the Legislative Reference Bureau to develop a spreadsheet informing members of the Legislature on the status and content of all reports to be submitted to the Legislature as required by law or requested by legislative resolution; and
- (2) Require the Legislative Reference Bureau to inform the Legislature of all annual and other reports required by law to be submitted to the Legislature or requested by legislative resolution that were not timely submitted.

Your Committee received comments on this measure from the Legislative Reference Bureau.

Your Committee finds that every year laws are enacted that require new studies and audits of various state government departments or agencies. Despite the expenditure of valuable time and resources by various departments and agencies to conduct and complete these studies and audits the resultant report is often not widely reviewed by the Legislature or public and can sometimes go completely unnoticed despite the fact that these reports can contain valuable information. One reason for this lack of follow-up is that the sheer volume of reports required each year and the number of reporting entities involved in creating those reports makes it difficult for the Legislature to effectively track and review the required reports for purposes of accountability. Therefore, your Committee finds that it is necessary to establish a streamlined system through which the Legislature can be accurately informed about which departments, agencies, and offices are and are not meeting their reporting requirements. Moreover, your Committee finds that the Legislative Reference Bureau is already tasked with creating a report outlining which bills require the submission of a report to the Legislature and also serves as a repository of such reports. Accordingly, your Committee finds that the Legislative Reference Bureau is the appropriate entity to collect and manage more detailed information relating to required reports and the submission of those reports to the Legislature each session. To assist the Legislative Reference Bureau in effectively carrying out the proposals, your Committee also finds that reporting entities should also provide a copy of any report submitted to the Legislature to the Legislative Reference Bureau. Moreover, providing a copy of the submitted report to the Legislative Reference Bureau will allow the Bureau to record the date upon which the Legislature received the report, which the Bureau can then include in the proposed spreadsheet.

Your Committee has amended this measure by:

- (1) Requiring the Legislative Reference Bureau to include the due date for each report in the proposed spreadsheet; and
- (2) Requiring reporting entities to provide a copy of any report submitted to the Legislature to the Legislative Reference Bureau.

As affirmed by the record of votes of the members of your Committee on Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2604, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2604, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2409 Government Operations on S.B. No. 2603

The purpose and intent of this measure is to:

- (1) Require any report of a study or an audit enacted with a legislative appropriation and conducted by an executive department or agency, including the Hawaii Health Systems Corporation, and by the Legislative Reference Bureau, Auditor, Judiciary, or Office of Hawaiian Affairs, to be submitted to the Senate President, Speaker of the House of Representatives, chairs of the appropriate subject matter committee of each house, and the Legislative Reference Bureau library; and
- (2) Require a public hearing or informational briefing within one year of receipt of report, except if an extension is granted or the requirement is waived by the Senate President or Speaker of the House of Representatives.

Your Committee received testimony in support of this measure from Common Cause Hawaii. Your Committee received comments on this measure from the Department of Budget and Finance and Office of the Auditor.

Your Committee finds that every year laws and resolutions are enacted that require new studies and audits of various state government departments or agencies. Despite the expenditure of valuable time and resources by various departments and agencies to conduct and complete these studies and audits the resultant report is often not widely reviewed by the Legislature or public and can sometimes go completely unnoticed despite the fact that these reports can contain valuable information. Therefore, your Committee finds that mandating a public hearing or informational briefing which would facilitate discussion and analysis of the report findings and recommendations would better serve the public interest and satisfy legislative intent. However, your Committee recognizes that for certain types of audits, specifically financial and regularly occurring audits, there is already sufficient action being taken to keep members of the Legislature sufficiently informed.

Accordingly, your Committee has amended this measure by:

- (1) Adding language to require report of a study or an audit adopted by concurrent resolution to be submitted to the Senate President, Speaker of the House of Representatives, chairs of the appropriate subject matter committee of each house, and the Legislative Reference Bureau library; and
- (2) Exempting financial and other regularly occurring audits from the proposed submission requirements.

As affirmed by the record of votes of the members of your Committee on Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2603, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2603, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2410 Government Operations on S.B. No. 2390

The purpose and intent of this measure is to establish that the requirements of ethical public procurement and the procurement code of ethics established by the Procurement Policy Board apply to all parties to procurement contracts that are otherwise exempted from the procurement code.

Your Committee received testimony in support of this measure from the State Procurement Office and one individual.

Your Committee finds that ethical behavior in the procurement process is paramount for maintaining public confidence in government. Under existing law, certain parties to procurement contracts are exempt from the provisions of the procurement code, including the requirements of ethical public procurement and the procurement code of ethics. Your Committee finds that these existing exemptions leave open the possibility of unethical behavior relating to the negotiation, performance, or administration of certain procurement contracts. Therefore, your Committee finds that the procurement code should be amended to specify that notwithstanding any other exemptions from the requirements of the procurement code all parties to procurement contracts made pursuant to the code should meet the requirements of the ethical procurement and the procurement code of ethics to ensure proper and accountable government functioning.

As affirmed by the record of votes of the members of your Committee on Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2390 and recommends that it pass Second Reading and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Keith-Agaran).

SCRep. 2411 Government Operations on S.B. No. 2600

The purpose and intent of this measure is to:

- (1) Require the listing of all joint contractors and subcontractors for construction contracts subject to the procurement code where the total estimated contract value is \$5,000,000 or higher; and
- (2) Require the listing of joint contractors and subcontractors in the trades of electrical, plumbing, asbestos, elevators, or boilermaker for construction contracts subject to the procurement code where the total estimated contract value is less than \$5,000,000.

Your Committee received testimony in support of this measure from the Department of Budget and Fiscal Services of the City and County of Honolulu; General Contractors Association of Hawaii; Ralph S. Inouye Co, Ltd.; S & M Sakamoto, Inc.; Alan Shintani, Inc.; Healy Tibbitts Builders, Inc.; Nordic PCL Construction, Inc.; Lindemann Construction Inc.; Hawaiian Dredging Construction Company, Inc.; Isemoto Contracting Co., Ltd.; LYZ, Inc.; Building Industry Association of Hawaii; and one individual. Your Committee received testimony in opposition to this measure from the Plumbing and Mechanical Contractors Association of Hawaii, Ironworkers Stabilization Fund, Electrical Contractor's Association of Hawai'i, and Subcontractors Association of Hawaii. Your Committee received comments on this measure from the State Procurement Office.

Your Committee finds that requiring the listing of joint contractors and subcontractors for all public works construction projects may result in unnecessary bid protests, award delays, and increased project costs paid by taxpayer dollars. Such circumstances often lead to inefficiencies in completing public work projects. Your Committee finds that this has been an ongoing problem that requires action. Therefore, your Committee supports placing limits on the public works construction bids that require joint contractor and subcontractor listings. However, your Committee understands the many concerns raised by those in the construction industry during testimony about the viability and effectiveness of the proposals. Accordingly, your Committee finds that conducting a pilot program through the University of Hawaii is an effective method of testing the workability of the measure's proposals.

Your Committee has amended this measure by:

- (1) Applying the subcontractor listing requirements to a two-year pilot program to be conducted by the University of Hawaii, rather than mandating subcontractor listing requirements for all public works contracts at this time;
- (2) Changing the \$5,000,000 threshold to \$3,000,000;
- (3) Requiring the University of Hawaii to report to the Legislature on the effectiveness of the pilot program prior to the Regular Session of 2020; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2600, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2600, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4; Ayes with Reservations (Rhoads). Noes, none. Excused, 1 (Keith-Agaran).

SCRep. 2412 Government Operations on S.B. No. 2620

The purpose and intent of this measure is to repeal the \$10,000 maximum limit on a cash or protest bond that must be posted for a procurement award protest

Your Committee received testimony in support of this measure from the Department of Accounting and General Services, State Procurement Office, and one individual.

Your Committee finds that greater efficiency in the bid process for procurement contracts is necessary to eliminate government waste and increase government efficiency. Your Committee also finds that bid protests account for many of the delays in the bid process which can lead to increased expenses ultimately borne by taxpayers. Under existing law, the maximum amount that a party initiating a protest must provide in a cash or protest bond for contracts with an estimated value of \$1,000,000 or more is \$10,000. Your Committee finds that this cap is too low and therefore provides no deterrent for those who might unnecessarily delay a public works project by submitting a bid protest. Therefore, your Committee finds that the cap on a cash or protest bond for contracts with an estimated value of \$1,000,000 or more should be removed to increase the efficiency of the bid process for procurement contracts.

As affirmed by the record of votes of the members of your Committee on Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2620 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Keith-Agaran).

SCRep. 2413 Government Operations on S.B. No. 2597

The purpose and intent of this measure is to establish procedures for the custody, inventory, and care of protocol gifts received by legislators on behalf of the State or either house of the Legislature.

Your Committee received testimony in support of this measure from the Hawaii State Ethics Commission and Common Cause Hawaii.

Your Committee finds that there are no statutory guidelines for the treatment of protocol gifts accepted by legislators on behalf of the State or either house of the Legislature from government officials. Protocol gifts are often given to legislators by government officials from other jurisdictions as a token of goodwill or to strengthen international or national friendships. Failure to accept such a gift may cause embarrassment to the donor and the recipient. However, since these gifts were not accepted on the legislator's own behalf, these gifts are not required to be reported in the legislator's gifts disclosure statement. While many legislators keep an

inventory of protocol gifts they receive in accordance with rules adopted by the State Senate or State House of Representatives, your Committee finds that a uniform set of procedures regarding the custody, inventory, and maintenance of these protocol gifts is necessary to prevent unintended loss, misplacement, or improper maintenance.

As affirmed by the record of votes of the members of your Committee on Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2597 and recommends that it pass Second Reading and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2414 Government Operations on S.B. No. 2602

The purpose and intent of this measure is to:

- (1) Require the State Procurement Policy Board to annually review and examine procurement contracts of at least two executive department, division, or agency contracts that are over \$50,000; and
- (2) Require the State Procurement Policy Board to randomly perform compliance examinations of government purchasing agencies and examinations of agencies selected based on a pattern of agency noncompliance.

Your Committee received testimony in support of this measure from one individual. Your Committee received comments on this measure from the State Procurement Office.

Your Committee finds that ensuring compliance with the state procurement code is essential for maintaining public confidence in government. Your Committee finds that one way to increase government accountability in the procurement process is for the State Procurement Policy Board to conduct annual and random reviews of government purchasing agencies. Your Committee further finds that the conduct of these types of reviews will allow the State Procurement Policy Board to more closely monitor agencies for compliance with the procurement code and serve as a means for consistently reviewing agencies' compliance with the code. Moreover, your Committee finds that these proposals will increase governmental compliance, efficiency, and transparency.

As affirmed by the record of votes of the members of your Committee on Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2602 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Keith-Agaran).

SCRep. 2415 Labor on S.B. No. 2165

The purpose and intent of this measure is to provide a taxpayer who hires an elderly individual a nonrefundable tax credit for the six-month period after the individual is initially hired by the taxpayer.

Your Committee received testimony in support of this measure from the Hawai'i State Association of Counties, Hawaii Disability Rights Center, Kauai County Councilmember Derek S.K. Kawakami, and O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i. Your Committee received comments on this measure from the Department of Taxation and Tax Foundation of Hawaii.

Your Committee finds that elderly individuals often have a wealth of work and life experiences that allow them to make significant contributions to employers. Additionally, older workers are often highly motivated and therefore may assist employers to increase customer satisfaction and product quality and control costs. Providing tax incentives to employers to hire elderly individuals will help to increase employment of Hawaii's aging population.

Your Committee has amended this measure by:

- (1) Stipulating that any amounts upon which any other tax credit or deduction is calculated under chapter 235, Hawaii Revised Statutes, are not qualified wages for purposes of the tax credit;
- (2) Clarifying that only the final successor employer who employed the person totally disabled during the taxable year may claim the credit and that the credit cannot be claimed multiple times for the same employee; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2165, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2165, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2416 Labor on S.B. No. 2361

The purpose and intent of this measure is to appropriate funds for fiscal biennium 2017-2019 for collective bargaining cost items, salary increases, and other cost adjustments for public employees in collective bargaining unit (14) and for their excluded counterparts.

Your Committee received testimony in support of this measure from the Department of Budget and Finance and Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO.

Your Committee finds that the negotiations for collective bargaining agreements for bargaining unit (14) are currently in progress. This measure provides a legislative vehicle that can be used if an agreement is reached or an arbitration award is issued prior to the end of the 2018 Regular Session.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2361, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2361, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 2417 Labor on S.B. No. 2515

The purpose and intent of this measure is to repeal the authority for department heads to establish and abolish positions for special, research, and demonstration projects approved by the Governor.

Your Committee received testimony in opposition to this measure from the Office of the Governor; Department of Business, Economic Development, and Tourism; Department of Human Resources Development; Department of Land and Natural Resources; Department of Agriculture; Department of Human Services; Department of Budget and Finance; Department of Public Safety; Department of Transportation; Department of Health; and Office of Enterprise Technology Services.

Your Committee finds that executive departments and agencies currently have thousands of unfilled positions that are funded each year via the state budget. Executive department heads also have the ability to create positions, with approval of the Governor, outside of the legislative process. This measure abolishes the ability of department heads to create such positions.

Your Committee notes that at the hearing on this measure, the Department of Budget and Finance stated that passage of this measure would negatively impact four hundred fifty full-time equivalent positions. As such, they were requested to provide a break out of the four hundred fifty positions, by title, position, and department, that will be affected by this measure.

Your Committee has amended this measure by inserting an effective date of January 1, 2050, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2515, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2515, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 2418 Labor on S.B. No. 2986

The purpose and intent of this measure is to require all teachers, principals, and school counselors to complete two hours of suicide prevention and education training each year.

Your Committee received testimony in support of this measure from the Department of Education, United States Army Hawaii Suicide Prevention Program, Hawai'i Psychological Association, and O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i.

Your Committee finds that suicide is the fourth leading cause of death for children between the ages of ten and fourteen, and is the leading cause of death for young people between the ages of fifteen and twenty-four. The percentage of teenagers in Hawaii who plan to commit suicide and the percentage of teenagers who attempt suicide are among the highest in the nation. Your Committee therefore finds that there is a need to increase the number of individuals in educational institutions, such as teachers, principals, and school counselors, who are trained to identify youth at risk of suicide and refer those children to appropriate services, counseling, and intervention. The Jason Flatt Act, first passed in Tennessee in 2007, requires all educators to complete youth suicide awareness and prevention training every year as part of their state licensure to teach. Your Committee finds that it is time for Hawaii to enact similar legislation.

Your Committee has amended this measure by:

- (1) Inserting a blank appropriation for the Department of Education to conduct suicide prevention and education training; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2986, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2986, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 2419 Economic Development, Tourism, and Technology on S.B. No. 2611

The purpose and intent of this measure is to provide the Public Utilities Commission with explicit authority to regulate internet service providers.

Your Committee received testimony in support of this measure from the Department of Education. Your Committee received comments on this measure from the Department of Commerce and Consumer Affairs Division of Consumer Advocacy and Public Utilities Commission.

Your Committee finds that on December 14, 2017, the Federal Communications Commission repealed title II utility regulation of broadband internet service, also known as “net neutrality”. The repeal of “net neutrality” made citizens question the freedom and equality of online content, as internet service providers are now no longer required to treat all content equally. Your Committee believes that providing the Public Utilities Commission with the explicit authority to regulate internet service providers will encourage the equal treatment of content, without preference given to some content over others, preserving the independence of online content from interference or influence of internet service providers or others.

As affirmed by the record of votes of the members of your Committee on Economic Development, Tourism, and Technology that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2611 and recommends that it pass Second Reading and be referred to your Committee on Commerce, Consumer Protection, and Health.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Baker, Thielen).

SCRep. 2420 Economic Development, Tourism, and Technology on S.B. No. 2504

The purpose and intent of this measure is to prohibit the Hawaii Tourism Authority from using monies in the tourism special fund dedicated for administrative expenses to market Hawaii as a tourism destination.

Your Committee received comments on this measure from the Hawaii Tourism Authority.

Your Committee finds that the law establishing allowable uses of the tourism special fund for administrative expenses needs to more clearly define what constitutes administrative expenses. Your Committee believes that marketing Hawaii as a tourist destination is what the Hawaii Tourism Authority is required to do in order to maintain the brand of Hawaii and to flourish the State’s economy but that this function falls outside of the scope of customary administrative functions. This measure explicitly states that marketing Hawaii as a tourist destination does not constitute an administrative expense, thereby clarifying allowable uses of the tourism special fund.

Your Committee has amended this measure by:

- (1) Inserting an effective date of January 1, 2050, to encourage further discussion;
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Economic Development, Tourism, and Technology that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2504, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2504, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3; Ayes with Reservations (Galuteria). Noes, none. Excused, 2 (Baker, Thielen).

SCRep. 2421 Economic Development, Tourism, and Technology on S.B. No. 2868

The purpose and intent of this measure is to amend the definition of “gross rental” or “gross rental proceeds”, as used in the transient accommodations tax law, to provide that the transient accommodations tax for sales of transient accommodations that are arranged by transient accommodations brokers, travel agencies, and tour packagers shall be paid by transient accommodations brokers, travel agencies, and tour packagers and calculated based on the gross receipts received by those entities.

Your Committee received testimony in opposition to this measure from Expedia. Your Committee received comments on this measure from the Department of Taxation and Tax Foundation of Hawaii.

Your Committee finds that the imposition of the transient accommodations tax on transient accommodations sold through a travel agency or a tour packager can differ depending on if the transaction was made on a commissioned or noncommissioned basis. When transient accommodations are sold through a travel agency or a tour packager at a noncommissioned negotiated contract rate, the tax is only imposed on the operator based on its share of the proceeds because the actual room rate is not readily distinguishable from any mark up from the travel agent or tour packager. As such, under existing law, there is no transient accommodations tax imposed on the gross rental proceeds of the travel agency or tour packager. Your Committee finds that this is tax revenue that should be owed to the State but is lost due to lack of parity between a commissioned rate and a noncommissioned rate. Your Committee believes that this measure will collect tax revenue that is owed to the State from the share of proceeds generated by transient accommodations that were sold on a noncommissioned basis.

Your Committee has amended this measure, as suggested by the Department of Taxation, by:

- (1) Imposing the transient accommodations tax on each transient accommodations broker’s, travel agency’s, and tour packager’s share of the proceeds in noncommissioned transactions only;
- (2) Amending this measure to apply to taxable years beginning after December 31, 2018; and
- (3) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Economic Development, Tourism, and Technology that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2868, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2868, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Baker, Thielen).

SCRep. 2422 (Joint) Economic Development, Tourism, and Technology and Labor on S.B. No. 2669

The purpose and intent of this measure is to codify the State's commitment to conservation and sustainability by including goal eight, decent work and economic growth, of the seventeen United Nations Sustainable Development Goals and indicators, with references to existing state sustainability programs, if applicable, in the Hawaii Revised Statutes.

Your Committees received testimony in support of this measure from the Department of Agriculture, Department of Health, Department of Land and Natural Resources, Office of Planning, International Brotherhood of Electrical Workers Local Union 1260, Airport Concessionaries Committee, and Oahu Economic Development Board.

Your Committees find that Hawai'i has been a leader in conservation efforts for decades, through its commitment to environmental and sustainability policies, and that a priority of the Senate for the Regular Session of 2018 is to adopt the United Nations' Sustainable Development Goals at the state level. The seventeen Sustainable Development Goals are a universal call to action to end poverty, protect the planet, and ensure that all people enjoy peace and prosperity. This measure codifies Sustainable Development Goal eight, decent work and economic growth, into state law.

Your Committees have amended this measure by:

- (1) Codifying Sustainable Development Goal eight into chapter 226, Hawaii Revised Statutes, instead of chapter 344, Hawaii Revised Statutes;
- (2) Inserting language to additionally codify the State of Hawaii's 2050 Sustainability Plan goals, which were established in 2008 to express the sustainable future of Hawaii; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Economic Development, Tourism, and Technology and Labor that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2669, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2669, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
Economic Development, Tourism, and Technology: Ayes, 5. Noes, none. Excused, none.
Labor: Ayes, 4. Noes, none. Excused, 1 (English).

SCRep. 2423 (Joint) Economic Development, Tourism, and Technology and Labor on S.B. No. 2960

The purpose and intent of this measure is to make the Chief Information Officer subject to the hiring and dismissal by the Information Technology Steering Committee, instead of the Governor, and removes the Chief Information Officer as the Chair of the Steering Committee.

Your Committees received testimony in support of this measure from the Office of Enterprise Technology Services and Hawaii Technology Development Corporation.

Your Committees find that frequent changes in leadership, which can affect policy directions, for information technology programs of the Executive Branch can be detrimental to the long-term and overall development of information technology in Hawaii. The National Association of State Chief Information Officers stated that the average tenure of a state Chief Information Officer is roughly twenty months because in most states the Chief Information Officer is appointed and often loses the position with a change in administration.

Your Committees recognize that from 2010 to 2016, Hawaii witnessed a high turnover rate in the Chief Information Officer position, and with each change came a new direction for the State's information technology plans. The constant change in direction was not beneficial to the State, as it did not allow for the effective adoption of technology, which resulted in numerous failed projects, wasting hundreds of millions of tax dollars. Your Committees believe that creating a stable Chief Information Officer position with an appointment term of six years will provide stability in the State's information technology plans.

Your Committees have amended this measure, as suggested by the Office of Enterprise Technology Services, by:

- (1) Deleting language that would have made the Chief Information Officer subject to the hiring and dismissal of the Information Technology Steering Committee instead of the Governor;
- (2) Administratively attaching the Information Technology Steering Committee to the Department of Accounting and General Services;
- (3) Requiring the members of the Steering Committee to be appointed by the Governor and confirmed by the Senate;
- (4) Decreasing the number of members on the Steering Committee and amending the requisite background of members and duties and other requirements of the Steering Committee;
- (5) Requiring the Chief Information Officer to be appointed by the Governor from a list of no less than three and no more than five nominees submitted by the Steering Committee, and added experience requirements for the Chief Information Officer;
- (6) Inserting a term limit of six years for the Steering Committee members and Chief Information Officer; and
- (7) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Economic Development, Tourism, and Technology and Labor that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2960, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2960, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Economic Development, Tourism, and Technology: Ayes, 3. Noes, none. Excused, 2 (Galuteria, Thielen).

Labor: Ayes, 4. Noes, none. Excused, 1 (Taniguchi).

SCRep. 2424 (Joint) Economic Development, Tourism, and Technology and Higher Education and Water and Land on S.B. No. 48

The purpose and intent of this measure is to transfer title, control, custody, and management authority of the land under the Manoa Innovation Center, including any buildings, structures, and appurtenances situated on the land, from the University of Hawaii to the Hawaii Technology Development Corporation.

Your Committees received testimony in support of this measure from the Hawaii Technology Development Corporation; Cardax, Inc.; Oahu Economic Development Board; Perfection Bra Fitting Salon; Collaborative Dispute Resolutions; HI FusionED; Bright Light Digital; Resurgo, LLC; Maui Business Brainstormers; Code for Hawaii; Litening Software, Inc.; Hawaii Evolutionary Development, LLC; Aloha Dollar Store; Global Virtual Studio Transmedia Accelerator; Impact Hub Honolulu; Farthest North Films and Wisdom Keeper Media; Jun Innovations; TEN TOMORROW; Dev League, Inc.; Kuehnle AgroSystems, Inc.; The Cut Collective; Honolulu Options Traders, LLC; Hawaii Food Manufacturers Association; Mana Up Labs, LLC; Diamond Bakery; Bit Link Solutions; and three individuals. Your Committees received testimony in opposition to this measure from the Office of the Governor, University of Hawai'i, and South Maui Learning Ohana, Inc. Your Committees received comments on this measure from the Department of Business, Economic Development, and Tourism; Spectrum Photonics; and Chamber of Commerce Hawaii.

According to testimony received by your Committees, the University of Hawaii provided notice to the Hawaii Technology Development Corporation that the University intends to terminate the lease for the Manoa Innovation Center, effective June 30, 2018. The rent revenue generated through the incubation program at the Manoa Innovation Center funds half of the Hawaii Technology Development Corporation's staff salaries and all of the Development Corporation's discretionary program funding. Your Committees find that the programs of the Hawaii Technology Development Corporation have supported various small businesses throughout Hawaii, with one hundred fifty company clients reporting \$389,000,000 of revenue. While your Committees recognize that the University of Hawaii has been gracious by allowing the Hawaii Technology Development Corporation to continue to use the Manoa Innovation Center rent-free even after the lease ended in April of 2015, your Committees find that depriving the Hawaii Technology Development Corporation of half its funding will be highly detrimental to a large number of businesses and the Development Corporation.

Your Committees have amended this measure by inserting an effective date of January 1, 2050, to encourage further discussion.

As affirmed by the records of votes of the members of your Committees on Economic Development, Tourism, and Technology, Higher Education, and Water and Land that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 48, S.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 48, S.D. 2, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Economic Development, Tourism, and Technology: Ayes, 4; Ayes with Reservations (Thielen). Noes, none. Excused, 1 (Baker).

Higher Education: Ayes, 4; Ayes with Reservations (Keith-Agaran, Kim). Noes, none. Excused, 1 (Kidani).

Water and Land: Ayes, 3; Ayes with Reservations (Thielen). Noes, none. Excused, 2 (Gabbard, Inouye).

SCRep. 2425 Housing on S.B. No. 2943

The purpose and intent of this measure is to:

- (1) Authorize the Hawaii Housing Finance and Development Corporation, at the request of the Hawaii Community Development Authority, to establish and operate transit-oriented development zone infrastructure subaccounts within the dwelling unit revolving fund for the benefit of transit-oriented development zone improvement projects within a transit-oriented development zone;
- (2) Provide a definition of "transit-oriented development zone" that includes parcels of land within a one-half mile radius around a proposed or existing fixed transit station as determined by the Hawaii Community Development Authority;
- (3) Amend the composition of the Hawaii Community Development Authority to include the Director of the Office of Planning and Executive Director of the Hawaii Housing Finance and Development Corporation as ex officio, voting members;
- (4) Amend the organization and subject matter jurisdiction of the Hawaii Community Development Authority to include matters affecting transit-oriented development zones and be composed of certain members, including the Director of the Office of Planning and Executive Director of the Hawaii Housing Finance and Development Corporation as ex officio voting members, and the Director of Planning and Permitting of the relevant county to participate as an ex officio nonvoting member;
- (5) Require the Hawaii Community Development Authority to develop a transit-oriented development zone improvement program to foster infrastructure development by strategically investing in public facilities;
- (6) Require the Executive Director of the Hawaii Housing Finance and Development Corporation, in collaboration with the Executive Director of the Hawaii Community Development Authority, to:

- (A) Initially establish two transit-oriented development zones: one zone containing the Leeward Community College and Pearl Highlands transit stations, and the second zone containing the Aloha Stadium transit station; and
- (B) Conduct a study examining the current infrastructure of the zones and the requirements necessary to upgrade the infrastructure to facilitate future transit-oriented development;
- (7) Appropriate funds out of the dwelling unit revolving fund to conduct the infrastructure study of the two initially established transit-oriented development zones; and
- (8) Appropriate funds to the Hawaii Community Development Authority for the hiring of one full-time equivalent (1.0 FTE) temporary position to maintain staff necessary to develop and manage the transit-oriented development zone improvement program.

Your Committee received testimony in support of this measure from the Hawaii Housing Finance and Development Corporation, Office of Planning, and Hawaii Community Development Authority. Your Committee received testimony in opposition to this measure from the Department of Planning and Permitting of the City and County of Honolulu. Your Committee received comments on this measure from the Department of Human Services.

Your Committee finds that the lack of coordination and financing of infrastructure improvements, including public facilities, in planned growth areas, such as along the Honolulu rail corridor, is a major impediment to realizing the potential of transit-oriented development in meeting housing demands and creating vibrant and sustainable mixed-use communities. Your Committee believes that the State must take a proactive role in investing in critical infrastructure necessary to overcome barriers to transit-oriented development, particularly for regional public facilities, such as roads, sewer, and storm water systems. The timely investment in these system improvements is necessary to support and catalyze public and private investments in the development and redevelopment of areas proximate to proposed transit stations. This measure provides a delivery system for the strategic investment of state funds to construct and delivery necessary infrastructure improvements in support of state transit-oriented development projects in transit-oriented development designated areas.

Your Committee notes the concerns raised in testimony that the transit-oriented development zones containing parcels of land within a one-half mile radius around a proposed or existing fixed transit station as determined by the Hawaii Community Development Authority referred to in this measure may conflict with the transit-oriented development zones established pursuant to county plans. Your Committee believes that further clarification is necessary to ensure that the focus of the projects and zone designation authorized to the Hawaii Community Development Authority under this measure are for certain infrastructure improvements within a county-designated transit-oriented development zone.

Your Committee further notes the concerns raised by the Department of Planning and Permitting of the City and County of Honolulu that although the Director of Planning and Permitting of the relevant county serves as a member of the Hawaii Community Development Authority, the Director serves as an ex officio, nonvoting member. Thus, in expanding the Hawaii Community Development Authority's subject matter jurisdiction to include matters affecting transit-oriented development zones, the Department contends that it is critical that the planning and permitting directors, who are responsible for building and maintaining infrastructure systems, have a formal decision making roles in planning, prioritizing, and funding infrastructure improvements.

Accordingly, your Committee has amended this measure by:

- (1) Replacing references to transit-oriented development zone improvements with transit-oriented development infrastructure improvement zones, where applicable, throughout the entire measure to avoid a conflict with the county designated transit-oriented development zone;
- (2) Changing the name of the new subaccount from transit-oriented development zone infrastructure subaccount to transit-oriented development infrastructure improvement zone subaccount for the purposes of clarity and consistency;
- (3) Clarifying that the Hawaii Housing Finance and Development Corporation is authorized to expend revenues in the transit-oriented development infrastructure improvement zone subaccount to make grants and loans to state agencies or counties and loans to private developers for the costs of improvements in transit-oriented development infrastructure improvement zones;
- (4) Clarifying that a transit-oriented development infrastructure improvement zone includes parcels of land:
 - (A) Containing infrastructure;
 - (B) Located in a county's transit-oriented development zone within a one-half mile radius around a proposed or existing fixed transit station; and
 - (C) Determined by the Hawaii Community Development Authority by taking into account certain factors;
- (5) Removing the Director of the Office of Planning and Executive Director of the Hawaii Housing Finance and Development Corporation from membership of the general board of the Hawaii Community Development Authority and adding these two officials as ex officio, voting members to the subcommittee that is responsible for matters affecting transit-oriented development zones only;
- (6) Allowing the Director of Planning and Permitting of the relevant county to serve as an ex officio, voting member of the subcommittee of the Hawaii Community Development Authority that is responsible for matters affecting transit-oriented development zones;
- (7) Clarifying that only the Hawaii Community Development Authority, rather than in collaboration with the Hawaii Housing Finance and Development Corporation, is responsible for initially establishing the transit-oriented development infrastructure improvement zones;

- (8) Removing the zone that contains the Leeward Community College and Pearl Highlands transit stations as a zone to be initially established as a transit-oriented development infrastructure improvement zone for study;
- (9) Adding that the Executive Director of the Hawaii Housing Finance and Development Corporation shall collaborate with the Hawaii Interagency Council for Transit-Oriented Development, in addition to the Executive Director of the Hawaii Community Development Authority, to conduct the infrastructure improvement study;
- (10) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (11) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2943, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2943, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Kahele, Nishihara).

SCRep. 2426 (Joint/Majority) Government Operations and Judiciary and Public Safety, Intergovernmental, and Military Affairs on S.B. No. 2909

The purpose and intent of this measure is to:

- (1) Establish an enforcement division in the Department of the Attorney General;
- (2) Transfer to the Department of the Attorney General enforcement division the law enforcement activities of the Department of Land and Natural Resources, Division of Conservation and Resources Enforcement; the Department of Public Safety state law enforcement officers and the narcotics enforcement division; and the Department of Transportation harbors division; and
- (3) Repeal the sunset of Act 116, Session Laws of Hawaii 2013, as amended by section 4 of Act 101, Session Laws of Hawaii 2015.

Your Committees received testimony in support of this measure from the Hawaii Government Employees Association and five individuals. Your Committees received testimony in opposition to this measure from the Department of the Attorney General, Department of Land and Natural Resources, The Nature Conservancy of Hawai'i, Young Progressives Demanding Action, and one individual. Your Committees received comments on this measure from the Department of Public Safety.

Your Committees find that the distribution of duties between multiple state agencies for the purposes of law enforcement is unnecessary and inefficient. Under existing law, the Departments of Land and Natural Resources, Public Safety, and Transportation all have independent law enforcement duties. However, your Committees find that these agencies all engage in some law enforcement activities. Your Committees find that consolidating all of the State's law enforcement duties under the Department of the Attorney General will result in better outcomes and increase the efficiency of law enforcement across the State.

However, your Committees recognize that this measure proposes a major organizational change to law enforcement across the State and that many issues including departmental infrastructure, funding, jurisdiction, responsibilities, training, and others, need to be vetted and properly addressed. Therefore, your Committees recommend that if your Committee on Ways and Means decides to hear this measure, that your Committee on Ways and Means investigate the issues surrounding such a reorganization further.

Your Committees have amended this measure by:

- (1) Changing the effective date to July 1, 2050, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Government Operations, Judiciary, and Public Safety, Intergovernmental, and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2909, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2909, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
Government Operations: Ayes, 4; Ayes with Reservations (Ruderman). Noes, none. Excused, 1 (Galuteria).
Judiciary: Ayes, 3. Noes, 1 (Thielen). Excused, 1 (Gabbard).
Public Safety, Intergovernmental, and Military Affairs: Ayes, 3; Ayes with Reservations (Ihara). Noes, 1 (Thielen). Excused, 1 (Wakai).

SCRep. 2427 (Joint) Government Operations and Agriculture and Environment and Commerce, Consumer Protection, and Health on S.B. No. 2337

The purpose and intent of this measure is to:

- (1) Require that all state and county agency contractors that dispose of liquid or solid waste to provide a receipt that the waste was received and disposed of at a licensed facility before full payment is made for those contractual services;
- (2) Allow for partial payment to be made to all state and county agency contractors that dispose of liquid or solid waste without a receipt and prior to any dumping of waste; and
- (3) Prohibit alteration or falsification of receipts by all state and county agency contractors that dispose of liquid or solid waste.

Your Committees received testimony in support of this measure from the Hawaiian Civic Club of Honolulu; Kokua Hawaii Foundation; Ho'omana Pono, LLC; League of Women Voters of Hawai'i; and four individuals. Your Committees received comments on this measure from the General Contractors Association of Hawaii and one individual.

Your Committees find that construction projects funded by public monies produce a huge amount of construction waste. Existing law prohibits the disposal of more than one cubic yard of solid waste anywhere other than a permitted solid waste management system, with certain exceptions. Despite this prohibition, your Committees find that construction waste is sometimes disposed at sites other than licensed waste management facilities and other permitted solid waste management systems. Further, your Committees find that unpermitted dumps are often difficult to detect. Therefore, your Committees find that the statement for services performed in a public works contract should include a receipt from a licensed waste management facility showing that the waste was properly received and lawfully disposed of in an appropriate, licensed waste facility before full payment is made.

However, your Committees note a variety of concerns raised during testimony. Your Committees acknowledge the difficulty in catching those who engage in illegal dumping and that further discussion is needed to determine enforcement mechanisms that might help prevent illegal dumping. In addition, your Committees acknowledge the need for the appropriate departments and agencies to work with the construction industry to find ways to reduce the overall amount of waste being dumped and to find ways to conserve more used materials as opposed to dumping them. Your Committees suggest that if your Committee on Ways and Means decides to hear this measure, that your Committee on Ways and Means investigate these issues further.

As affirmed by the records of votes of the members of your Committees on Government Operations, Agriculture and Environment, and Commerce, Consumer Protection, and Health that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2337 and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Government Operations: Ayes, 3. Noes, none. Excused, 2 (Keith-Agaran, Rhoads).

Agriculture and Environment: Ayes, 3. Noes, none. Excused, 2 (Nishihara, Rhoads).

Commerce, Consumer Protection, and Health: Ayes, 5. Noes, none. Excused, 2 (Espero, Tokuda).

SCRep. 2428 Government Operations on S.B. No. 2914

The purpose and intent of this measure is to require any government body that enters into a contract that is exempt from the state procurement code pursuant to section 103D-102(b), Hawaii Revised Statutes, to report that contract to the State Procurement Office and Legislature.

Your Committee received testimony in support of this measure from the State Procurement Office and one individual.

Your Committee finds that transparency and accountability in the procurement process is essential for establishing and maintaining public trust in government and for ensuring efficiency and reduced waste in governmental operations. Existing law exempts certain types of contracts by governmental bodies, such as contracts for procurement of services of an attorney and when procurement by competitive means would be impractical or not advantageous to the State, from the requirements of the procurement code. However, your Committee finds that even for those contracts where adherence to the procurement process would be impractical or otherwise unnecessary there should still exist transparency and oversight of those contracts. In addition, your Committee also notes testimony from the State Procurement Office that existing administrative rules already require that the Procurement Office receive information about all state contracts exempted from the procurement code. However, your Committee finds that very few agencies across the State are abiding by the requirements that are already in place. Therefore, your Committee finds that it is necessary to codify in the procurement code the requirement that any government body entering into a contract to which the procurement code does not apply report that contract to the State Procurement Office and Legislature.

As affirmed by the record of votes of the members of your Committee on Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2914 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Keith-Agaran).

SCRep. 2429 (Joint) Agriculture and Environment and Commerce, Consumer Protection, and Health on S.B. No. 3095

The purpose and intent of this measure is to protect the State's children, elderly, and vulnerable individuals from the unintended impacts of large-scale agricultural pesticide use by:

- (1) Making the reporting guidelines of the Kauai agricultural good neighbor program mandatory for large-scale, outdoor commercial agricultural operations across the State;
- (2) Establishing disclosure and public notification requirements for outdoor applications of pesticides in, as well as in proximity to, schools, healthcare facilities, childcare and eldercare facilities, and other sensitive areas; and
- (3) Establishing a pilot program for vegetative buffer zones, as recommended by the Joint Fact Finding Study Group, around selected schools within the State.

Your Committees received testimony in support of this measure from the Department of Education; Beyond Pesticides; Hawai'i Center for Food Safety; Pacific Biodiesel Technologies; Hawai'i Children's Action Network; Sierra Club of Hawai'i; Hawaii State Teachers Association; Civic Education Council; IMUAlliance; Americans for Democratic Action Hawaii; Pono Hawai'i Initiative; Hawaii Farmers Union United Waianae Coast; O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i; Hawaii Alliance for Progressive Action; Hawaii Nurses Association; Kihei Community Association; 'Ohana o Kaua'i; Kokua Hawaii Foundation; Ka Ohana O Na Pua; Haiku Aina Permaculture Initiative; GMO Free Kaua'i; StressFreeSouls; Kalaheo Yoga; EcoTipping Points Project; We Are One, Inc.; Kuaiwi Farm; Respiratory and Environmental Disabilities Association of Hawaii; Young Progressives Demanding Action; Carbon Drawdown Solution; and two hundred eighty-seven individuals. Your Committees received

testimony in opposition to this measure from the Department of Agriculture; Hawai'i Farm Bureau; Monsanto Hawaii; Alexander & Baldwin; Hawaii Crop Improvement Association; Western Plant Health Association; CropLife America; Larry Jefts Farms, LLC; Hawaii Cattlemen's Council, Inc.; and Maui County Farm Bureau.

Your Committees find that the County of Kauai passed Ordinance 960, relating to pesticides and genetically modified organisms, in 2013, which was overturned in federal court in 2014. The ordinance contained a provision to create a Joint Fact Finding Group to help address key environmental and public health questions related to large-scale commercial agriculture entities using pesticides and genetically modified organisms on the island of Kauai. When the ordinance was struck down by the court, the Department of Agriculture and the Kauai County Office of the Mayor contracted an independent public policy group, The ACCORD 3.0 Network, to facilitate the Joint Fact Finding Group project. The group was charged with gathering accurate information on the lands used by the seed companies and Kauai Coffee, their pesticide usage, and evidence of any possible adverse health and environmental impacts. The Joint Fact Finding Group issued its findings and recommendations on May 25, 2016, in a report titled, *Pesticide Use by Large Agribusinesses on Kaua'i*, in which it made recommendations to expand the Kauai Good Neighbor Program and establish a consistent buffer zone policy and use "green screens".

Your Committees further find that many residents in the State are very concerned about the long-term health effects and potential impacts of pesticide drift, especially as the number of large-scale, outdoor, commercial agricultural operations in the State continues to increase. Your Committees support efforts to increase common sense regulation of pesticide use in the State and are aware that pesticide use is necessary for the modern-day farmer to keep pests at bay. Your Committees do not wish to impede farmers who are working hard to increase local food production; however, your Committees believe that protecting Hawaii's youth in highly sensitive areas, like schools, from the potential negative effects of long-term pesticide is of the utmost importance.

Your Committees have amended this measure by:

- (1) Deleting language that would have made the reporting guidelines of the Kauai agricultural good neighbor program mandatory for large-scale, outdoor commercial agricultural operations across the State;
- (2) Deleting language that would have established disclosure and public notification requirements for outdoor applications of pesticides in proximity to sensitive areas;
- (3) Deleting unnecessary definitions;
- (4) Expanding the pilot program for vegetative buffers around schools to include ten schools within close proximity to one or more candidate pilot farms, to be designated within six months of the effective date; prohibiting the outdoor application of only restricted use pesticides, rather than all pesticides, within a buffer zone; and making various conforming or related amendments, including:
 - (A) Defining "candidate pilot farm" as any commercial agricultural entity that the Department of Agriculture (Department) determines to be among the top five agricultural users of restricted use pesticides on each of the islands of Oahu, Kauai, Maui, Hawaii, and Molokai;
 - (B) Replacing references to "commercial agricultural entity" with "pilot farm";
 - (C) Requiring the Department to establish minimum distances from the ten designated schools within which a candidate pilot farm shall not apply restricted use pesticides;
 - (D) Requiring continuous vegetative buffer zones to be maintained by the pilot farm for at least one year, or the duration of the pilot program, whichever is longer;
 - (E) Requiring the Department to issue a single use exemption if it determines that the pest situation poses an immediate threat to the vegetation growing within the vegetative buffer zone or severe loss to the pilot farm; and
 - (F) Requiring that, for issuance of a single use exemption, acceptable measures will be implemented to minimize the potential for pesticide drift from the application;
- (5) Deleting language that would have provided for penalties and citizen suits;
- (6) Deleting language that would have given authority to regulate pesticide disclosure, notification, and use, including the establishment of buffer zones against pesticides by local government;
- (7) Deleting references to rule making;
- (8) Inserting language to require the Department to develop and implement a pesticide drift monitoring study to evaluate pesticide drift at three schools in the vegetative buffer zones pilot program and report its findings to the Legislature no later than twenty days prior to the convening of the Regular Session of 2020;
- (9) Appropriating funds for the pesticide drift monitoring study;
- (10) Amending section 1 to reflect its amended purpose;
- (11) Changing the effective date to July 1, 2018; and
- (12) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Agriculture and Environment and Commerce, Consumer Protection, and Health that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 3095, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 3095, S.D. 1, and be referred to your Committees on Education and Ways and Means.

Signed by the Chairs on behalf of the Committees.

Agriculture and Environment: Ayes, 4; Ayes with Reservations (Ruderman). Noes, none. Excused, 1 (Nishihara).

Commerce, Consumer Protection, and Health: Ayes, 6; Ayes with Reservations (Ihara, Ruderman). Noes, none. Excused, 1 (Nishihara).

SCRep. 2430 (Joint) Human Services and Judiciary on S.B. No. 2395

The purpose and intent of this measure is to:

- (1) Allow the Department of Human Services to establish or contract with a victim service provider to operate and manage a sex trafficking emergency shelter;
- (2) Provide general excise tax and fee exemptions for the victim service provider of the sex trafficking emergency shelter; and
- (3) Appropriate funds for the Department to establish or contract with the victim service provider to operate and manage a sex trafficking emergency shelter.

Your Committees received testimony in support of this measure from UNITE, IMUAlliance, Oahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, and three individuals. Your Committees received comments on this measure from the Department of Human Services, Department of Taxation, and Hawaii Youth Services Network.

Your Committees find that Hawaii is a highly sought after tourist destination and lucrative place for national and international events, which can create a demand for prostitution, which sometimes involves sex trafficking. Your Committees further find that sixty percent of children being sex trafficked are under the age of sixteen years, with the average age being thirteen. The establishment of an emergency shelter will provide these individuals necessary assistance and support.

Your Committees have amended this measure by:

- (1) Inserting language requiring a sex trafficking emergency shelter established pursuant to this measure to comply with any federal or state licensing requirements for residential facilities for minors;
- (2) Amending the definition of "victim" for purposes of clarity;
- (3) Making the general excise tax exemption effective on January 1, 2019, to allow sufficient time for the Department of Taxation to make necessary form and computer system changes; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Human Services and Judiciary that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2395, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2395, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Human Services: Ayes, 3. Noes, none. Excused, 2 (Tokuda, Wakai).

Judiciary: Ayes, 3. Noes, none. Excused, 2 (Gabbard, Rhoads).

SCRep. 2431 (Joint/Majority) Human Services and Housing on S.B. No. 2501

The purpose and intent of this measure is to require and appropriate funds to the Department of Human Services to establish safe zones where homeless persons may reside.

Your Committees received testimony in support of this measure from IMUAlliance and Oahu County Committee on Legislative Priorities of the Democratic Party of Hawaii. Your Committees received testimony in opposition to this measure from the Governor's Coordinator on Homelessness, Department of Land and Natural Resources, and one individual.

Your Committees find that safe zones are one of several housing alternatives that policymakers, in conjunction with communities in the State, are exploring to address homelessness in Hawaii. Your Committees further find that due to economic constraints and the uncertain construction timelines for new housing units, homeless individuals and families still need other housing options. In addition, some individuals and families may choose to live on the street or in public spaces and refuse outreach and other services provided to them. Your Committees recognize that safe zones may provide an alternative for these individuals and families.

Your Committees encourage the Department of Human Services to establish interim rules to expedite the process of establishing safe zones throughout the State, should this measure be enacted.

Your Committees have amended this measure by:

- (1) Including domes among the types of facilities or dwelling units that may be permitted within safe zones;
- (2) Inserting a sunset date of June 30, 2028; and
- (3) Inserting an effective date of July 1, 2050, to encourage further discussion.

As affirmed by the records of votes of the members of your Committees on Human Services and Housing that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2501, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2501, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Human Services: Ayes, 2. Noes, 1 (Harimoto). Excused, 2 (Tokuda, Wakai).

Housing: Ayes, 2. Noes, 1 (Harimoto). Excused, 2 (Kahale, Nishihara).

SCRep. 2432 Human Services on S.B. No. 2792

The purpose and intent of this measure is to:

- (1) Repeal the limitation on criminal history record checks of household members who provide care for a child whose family receives child care subsidies from the Department of Human Services in a regulated child care setting;
- (2) Clarify the release of investigation information to the public;
- (3) Clarify a child care licensing program's duty to share information it receives, and cooperate with child protective services and law enforcement, when the program receives a report of death or injury of a child; and
- (4) Clarify that the Department may take administrative action, judicial action, or both, to enforce child care licensing provisions and increase penalties by making them apply on a daily basis.

Your Committee received testimony in support of this measure from the Department of Human Services and Oahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i. Your Committee received comments on this measure from the Civil Beat Law Center for the Public Interest.

Your Committee finds that child care providers play an important role in the safety and well-being of a child. However, recent events involving injuries and death have revealed the need for the Department of Human Services to enforce transparent measures for the safety of children in certain child care settings. This measure will ensure that necessary provisions are in place to protect the health, safety, and welfare of children and reassurance to their families.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2792, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2792, S.D. 1, and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Chang, Wakai).

SCRep. 2433 Human Services on S.B. No. 2790

The purpose and intent of this measure is to amend the Child Protective Act, chapter 587A, Hawaii Revised Statutes (HRS), by repealing the existing section 587A-3, HRS, guiding principles for children in foster care, and incorporating that language into a new section, rights of children in foster care, which aligns with federal law and provides increased support and guidance for children in foster care.

Your Committee received testimony in support of this measure from the Judiciary, Department of Human Services, Department of the Attorney General, Department of Labor and Industrial Relations, Department of Education, EPIC Ohana, Hale Kipa, Hawaii Children's Action Network, Catholic Charities Hawai'i, Hawaii Youth Services Network, Oahu County Committee on Legislative Priorities of the Democratic Party of Hawaii, and twenty-six individuals.

Your Committee finds that, in 2015, 2,386 children were in foster care in the State. Your Committee further finds that increased support and guidance for the care of the children and youth in foster care can facilitate their continued development, well-being, and permanency options. According to the Department of Human Services, the new section proposed by this measure is based on section 587A-3, HRS, and aligns with Public Law 113-183, which requires the rights of a child age fourteen and older regarding education, health, visitation, and court participation to be documented in the child's case plan and requires a signed acknowledgment of the provision of these rights. The new section proposed by this measure also includes additional rights, such as culturally responsive services, requests for an attorney, and transportation to attend the school of origin. Your Committee finds that with increased support and guidance, children and youth in foster care have additional positive outcomes which include decreases in homelessness, dependency on public welfare, drug dependency, and incarceration. The rights of foster care children are a priority, and this measure provides these individuals additional protections and rights to lead successful lives.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2790, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2790, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Wakai).

SCRep. 2434 (Majority) Commerce, Consumer Protection, and Health on S.B. No. 2649

The purpose and intent of this measure is to require open deliberation of the adjudicatory functions of the Public Utilities Commission.

Your Committee received testimony in opposition to this measure from the Public Utilities Commission. Your Committee received comments on this measure from the Division of Consumer Advocacy of the Department of Commerce and Consumer Affairs and Office of Information Practices.

Your Committee finds that the State's Sunshine Law, codified as part I of chapter 92, Hawaii Revised Statutes, contains an exemption for a board's adjudicatory functions, except for the Land Use Commission, whose adjudicatory functions remain subject to the open meeting requirements of the Sunshine Law. Under existing law, this Sunshine Law exemption covers the Public Utilities

Commission when it hears contested cases, or otherwise serves in a quasi-judicial role. Your Committee notes that the Public Utilities Commission also has non-adjudicatory functions and that those non-adjudicatory functions are properly subject to the Sunshine Law.

Your Committee further finds that this measure requires open deliberation of the adjudicatory functions of the Public Utilities Commission. However, it is not your Committee's intent to require the Public Utilities Commission to follow the Sunshine Law for its quasi-judicial hearings and its general adjudicatory functions, as your Committee has heard concerns that this requirement could increase the Commission's administrative workload and costs. Accordingly, a clarifying amendment to this measure is needed.

Your Committee also notes that it is appropriate to place this clarifying amendment within chapter 269, Hawaii Revised Statutes, relating to the Public Utilities Commission, rather than within the Sunshine Law. This will avoid any potential inference that because the non-adjudicatory functions of one board -- the Public Utilities Commission -- are specifically made subject to the Sunshine Law, other boards' non-adjudicatory functions would therefore be considered exempt from the Sunshine Law, as such an inference would not reflect your Committee's intent.

Your Committee has amended this measure by:

- (1) Deleting language that amended the State's Sunshine Law to require open deliberation of the adjudicatory functions of the Public Utilities Commission;
- (2) Specifying within chapter 269, Hawaii Revised Statutes, that the adjudicatory functions of the Public Utilities Commission are exempt from the Sunshine Law, while the Commission's non-adjudicatory functions are subject to the Sunshine Law; and
- (3) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2649, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2649, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 4; Ayes with Reservations (Ihara). Noes, 1 (Ruderman). Excused, 2 (Espero, Nishihara).

SCRep. 2435 (Majority) Commerce, Consumer Protection, and Health on S.B. No. 2648

The purpose and intent of this measure is to make various updates to the structure and operations of the Public Utilities Commission (Commission) to increase efficiency and effectiveness, including:

- (1) Establishing guiding principles;
- (2) Establishing docket review and decision-making processes;
- (3) Permitting teleconference and videoconference abilities;
- (4) Specifying senior staff members who must file public financial disclosures;
- (5) Increasing the number of commissioners and updating the composition of the Commission;
- (6) Specifying training requirements for commissioners;
- (7) Clarifying commissioners' ability to appoint and employ staff;
- (8) Clarifying the roles of the executive officer and chief counsel;
- (9) Permitting neighbor island members to receive per diem compensation and compensation for travel expenses; and
- (10) Requiring the Commission to report to the Legislature regarding certain staff duties.

Your Committee received testimony in support of this measure from Ulupono Initiative. Your Committee received testimony in opposition to this measure from the Public Utilities Commission. Your Committee received comments on this measure from the Division of Consumer Advocacy of the Department of Commerce and Consumer Affairs and Hawaii State Ethics Commission.

Your Committee finds that the Commission has several long- and short-term goals that reflect the Commission's increased work complexity and program responsibilities, which go beyond the Commission's traditional regulatory role. Due to the Commission's increasing responsibilities and the evolution of the regulatory landscape, it is essential that the structure and operations of the Commission be updated to enable the Commission to operate more efficiently and effectively, consistent with best practices. This measure therefore updates the structure and operation of the Commission to increase efficiency and effectiveness.

Your Committee further finds that pursuant to Act 198, Session Laws of Hawaii 2017 (Act 198), the Auditor was requested to conduct a management audit of the Commission to evaluate the efficiency and effectiveness of the Commission and aid in the Commission's transition to a better functioning entity. However, due to unforeseen circumstances beyond the control of the Office of the Auditor, the Auditor's report pursuant to Act 198 has been delayed. Accordingly, your Committee notes that this measure remains a work in progress and additional discussion or amendments to this measure may be needed, once the Auditor's report is released.

Finally, your Committee notes that Ulupono Initiative offered suggested amendments to this measure; these amendments may warrant additional consideration by your Committee on Ways and Means as this measure moves through the legislative process.

Your Committee has amended this measure by:

- (1) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2648, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2648, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3; Ayes with Reservations (Chang). Noes, 2 (Ihara, Ruderman). Excused, 2 (Espero, Nishihara).

SCRep. 2436 (Joint) Transportation and Energy and Commerce, Consumer Protection, and Health on S.B. No. 2752

The purpose and intent of this measure is to encourage state agencies and departments to preform energy efficiency retrofits by providing low-cost financing for energy efficiency measures through a sub-fund under the green energy market securitization loan fund that will be used as a revolving line of credit.

Your Committees received testimony in support of this measure from the Department of Business, Economic Development, and Tourism; Hawaii Green Infrastructure Authority; Ulupono Initiative; and Oahu County Committee on Legislative Priorities of the Democratic Party of Hawaii. Your Committees received testimony in opposition to this measure from one individual. Your Committees received comments on this measure from the Department of Commerce and Consumer Affairs Division of the Consumer Advocate, Tax Foundation of Hawaii, and Life of the Land.

Your Committees find that the government is a major consumer of electricity, and that a large part of the State's energy efficiency savings can be found in the government sector. Your Committees note that there is already financing for installing energy-efficient lighting and other energy efficiency measures at public schools through the Hawaii green infrastructure special fund. Your Committees received testimony from the Department of Commerce and Consumer Affairs expressing concern that this measure does not ensure that the energy efficiency measures are cost-effective, nor does it ensure that there will be no adverse impacts on the Hawaii green infrastructure special fund, general funds, or other electricity consumers.

Accordingly, your Committees have amended this measure by:

- (1) Requiring that the energy efficiency measures be cost-effective;
- (2) Requiring that the loans for the energy efficiency measures not adversely affect the Hawaii green infrastructure special fund, general funds, and other electricity consumers; and
- (3) Making technical, nonsubstantive amendments for the purpose of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Transportation and Energy and Commerce, Consumer Protection, and Health that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2752, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2752, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Transportation and Energy: Ayes, 4. Noes, none. Excused, 1 (English).

Commerce, Consumer Protection, and Health: Ayes, 4. Noes, none. Excused, 3 (Nishihara, Ruderman, Tokuda).

SCRep. 2437 Transportation and Energy on S.B. No. 2476

The purpose and intent of this measure is to change the motor vehicle inspection safety check from an annual requirement to a biennial requirement for motor vehicles that have a model age of less than ten years of age and doubles the motor vehicle inspection safety check for the two-year motor vehicle inspection safety check.

Your Committee received testimony in support of this measure from two individuals. Your Committee received testimony in opposition to this measure from the Department of Transportation and two individuals.

Your Committee finds that annual motor vehicle safety inspections have become an undue hardship on Hawaii's residents. However, your Committee received testimony from the Department of Transportation that requiring a safety check every two years as opposed to every year could endanger people on the roadways. The Department of Transportation testified that it is working on administrative rules that are aimed at reducing the hardship related to safety inspections. Your Committee finds that once the administrative rules are adopted by the Department of Transportation consideration should be given to codifying some of these rules in the Hawaii Revised Statutes. Your Committee requests that your Committee on Ways and Means further examine the Department of Transportation's proposed administrative rules that:

- (1) Provide the Department of Transportation with the authority to flag vehicles when there is evidence that the vehicle was not inspected in accordance with the rules;
- (2) Require a test for moped inspector applicants;
- (3) Prohibit inspectors from modifying vehicles to put it out of conformance with safety inspection rules;
- (4) Examine the fees associated with the safety inspections;
- (5) Provide additional information on the documents issued to vehicle owners when the vehicle fails inspection; and
- (6) Allow electronic proof of insurance for an inspection;

and determine if these proposed administrative rules should be codified in statute rather than go through the administrative process.

As such and to encourage further discussion on this issue, your Committee has amended this measure by deleting its contents and inserting language to require the Department of Transportation to adopt rules for certifying vehicles that have undergone a safety inspection.

As affirmed by the record of votes of the members of your Committee on Transportation and Energy that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2476, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2476, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (English).

SCRep. 2438 (Joint) Transportation and Energy and Judiciary on S.B. No. 2619

The purpose and intent of this measure is to replace the criminal penalties for certain airport offenses with civil penalties.

Your Committees received testimony in support of this measure from the Department of Transportation, General Aviation Council of Hawaii, and four individuals. Your Committees received comments on this measure from the Aircraft Owners and Pilots Association and one individual.

Your Committees find that the punishment for certain airport offenses are excessive and disproportionate compared to the seriousness of the offense. Infractions that would otherwise be considered no more severe than a civil violation if it occurred at any location in the State other than an airport are charged as full criminal misdemeanor offenses because the infraction occurred at an airport. The criminal misdemeanor offense could mean the loss of security clearance or a professional license, sometimes for life. Your Committees received testimony noting that Hawaii is the only state that issues citations for hangar infractions that result in a permanent criminal record.

While there was broad support for the intent of this measure, your Committees heard concerns from the Aircraft Owners and Pilots Association regarding the need to remove all criminal penalties from this measure and to narrow the types of violations subject to a civil penalty.

Accordingly, your Committees have amended this measure by:

- (1) Inserting language to specify that violating Federal Aviation Administration acceptable hangar use practices constitutes a violation subject to a civil penalty;
- (2) Removing language making violations related to airport security measures or requirements a misdemeanor;
- (3) Removing the power of the Governor to modify the provisions of this measure, as prescribed in section 3; and
- (4) Inserting an effective date of July 1, 2050, to encourage further discussion.

As affirmed by the records of votes of the members of your Committees on Transportation and Energy and Judiciary that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2619, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2619, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Transportation and Energy: Ayes, 3. Noes, none. Excused, 2 (English, Inouye).

Judiciary: Ayes, 4. Noes, none. Excused, 1 (Gabbard).

SCRep. 2439 Transportation and Energy on S.B. No. 3001

The purpose and intent of this measure is to establish an alternative research and development pilot program to promote the research and development of alternative energy in Hawaii by providing matching grants to businesses that meet certain criteria and appropriate monies for the grants.

Your Committee received testimony in support of this measure from the Chamber of Commerce Hawaii; Navatek; Makai Ocean Engineering, Inc.; Hawaii Technology Development Corporation; and six individuals. Your Committee received comments on this measure from the Department of Budget and Finance.

Your Committee finds that alternative energy and energy efficiency technologies are important components of Hawaii's goal of one hundred percent clean energy by 2045, and providing grants will promote the research and development of alternative energy. Additionally, this measure will promote technology and innovation jobs, creating economic growth and helping the State's tech industry compete and win more federal funds for technology development. Your Committee noted that one year might not be sufficient time to support businesses conducting research and development in alternative energy, even as a pilot program.

Thus, your Committee has amended this measure by extending the end date for the pilot program and the revolving funds that provide funding for the pilot program's grants from June 30, 2019, to June 30, 2020.

As affirmed by the record of votes of the members of your Committee on Transportation and Energy that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3001, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3001, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (English).

SCRep. 2440 Transportation and Energy on S.B. No. 3088

The purpose and intent of this measure is to extend the period that a county may adopt a surcharge on state tax, under certain conditions, by six months, from March 31, 2018, to September 30, 2018.

Your Committee received testimony in support of this measure from Hawaii County Council Vice Chair Karen Eoff, Hawaii County Councilmember Dru Kanuha, and Hawaii County Councilmember Maile David. Your Committee received comments on this measure from the Department of Taxation and Tax Foundation of Hawaii.

Your Committee finds that Hawaii County is currently in the process of holding public meetings on whether to implement a county surcharge on the general excise tax to gauge support for the surcharge. Currently, the deadline to establish a county surcharge is March 31, 2018, which is too short of a timeframe to make an informed decision regarding the merits of a county surcharge, according to Hawaii County Council testimony.

In contrast, the Department of Taxation has expressed concern that this measure's proposed September 30, 2018, deadline provides the Department insufficient time to prepare for the collection of the county surcharge beginning January 1, 2019. The Department requests at least six months to prepare, proposing either the deadline to adopt a county surcharge be June 30, 2018, or the collection of the county surcharge begin January 1, 2020.

Accordingly, your Committee has amended this measure by:

- (1) Changing the deadline to adopt a county surcharge from September 30, 2018, to June 30, 2018; and
- (2) Inserting language to require that for counties with a population equal to or less than five hundred thousand that adopts a county surcharge on state tax that:
 - (A) No less than sixty percent of the surcharge shall be used for transportation purposes; and
 - (B) Up to two percent of the surcharge can be used on any roadway used by the general public.

As affirmed by the record of votes of the members of your Committee on Transportation and Energy that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3088, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3088, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (English).

SCRep. 2441 Transportation and Energy on S.B. No. 2714

The purpose and intent of this measure is to exclude the weight of vehicle modifications made to assist a person with a disability to enter or exit the vehicle from the determination of net weight for non-commercial vehicles for the purpose of levying state and county motor vehicle weight taxes.

Your Committee received testimony in support of this measure from the Disability and Communications Access Board and two individuals. Your Committee received comments on this measure from the Department of Transportation and Tax Foundation of Hawaii.

Your Committee finds that residents with a disability or their families often have a vehicle with extra weight, due to the lifts, ramps, motors, and vehicle chassis reinforcements needed to accommodate ingress and egress in the vehicle by the person with a disability. Your Committee believes that it is a hardship for these residents to pay more in vehicle weight taxes simply for needing a lift or ramp in their vehicle. This measure will offer some tax relief to disabled individuals and families who retrofit their vehicles to meet their or their loved one's accessibility needs.

As affirmed by the record of votes of the members of your Committee on Transportation and Energy that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2714 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (English).

SCRep. 2442 Transportation and Energy on S.B. No. 80

The purpose and intent of this measure is to make an emergency appropriation to relocate the "I Heart Radio" aerial such that it would not obstruct the navigable airspace above and around the Daniel K. Inouye International Airport.

Your Committee received testimony in support of this measure from the Department of Transportation and Airlines Committee of Hawaii.

Your Committee finds that the existing gantry cranes at Honolulu Harbor's Sand Island terminal and the new gantry cranes that will be installed as part of the Honolulu Harbor modernization obstruct the navigable airspace around the Daniel K. Inouye International Airport. An alternate flight route has been planned, but this route has an obstruction as well: the "I Heart Radio" aerial located near Dillingham Boulevard and Kokea Street. Your Committee finds that this relocation was supported in the 2016 supplemental appropriations act, as capital improvement project item 53, but an omission in the appropriation's authorizing language meant that approved funds could not be expended on the project. Thus, another appropriation is needed immediately to ensure that the tower can be relocated in a timely fashion, and that this appropriation is in the public interest and for the public's health, safety, and general welfare of the State.

As affirmed by the record of votes of the members of your Committee on Transportation and Energy that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 80, S.D. 1, and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (English).

SCRep. 2443 Labor on S.B. No. 2366

The purpose and intent of this measure is to:

- (1) Require the Hawaii Labor Relations Board to deliver its orders and decisions by hand, United States Postal Service mail using a delivery confirmation, or electronically;
- (2) Extend the time to hold a hearing on a complaint from forty to ninety days;
- (3) Repeal the requirement for the State to pay for witness fees and to conduct an audit; and
- (4) Establish a collective bargaining dispute resolution special fund.

Your Committee received testimony in support of this measure from the Hawaii Labor Relations Board. Your Committee received comments on this measure from the Department of Budget and Finance.

Your Committee finds that electronic filing services cut costs for the State by eliminating postage costs and staff time to mail decisions and orders; extension of the requirement to hold hearings on complaints allows more time for discovery and the filing of dispositive motions by all parties; and monetary penalties that return back to the general fund directly and indirectly benefit the public employers rather than directly benefitting the aggrieved party. Accordingly, your Committee finds that this measure will cut costs, provide more time to all parties prior to a hearing, and ensure that monetary penalties directly benefit aggrieved parties.

Additionally, your Committee finds that this measure should be amended to address ongoing capacity issues at the Hawaii Labor Relations Board, by providing for additional staff to assist with the backlog and funding for mandated and essential cost items that can no longer be absorbed by the existing base budget.

Accordingly, your Committee has amended this measure by:

- (1) Inserting an appropriation to the Hawaii Labor Relations Board for one full-time equivalent (1.0 FTE) attorney position, one full-time equivalent (1.0 FTE) chief clerk position, and travel and interpreter costs; and
- (2) Inserting an effective date of January 1, 2050, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2366, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2366, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2444 (Majority) Labor on S.B. No. 2376

The purpose and intent of this measure is to raise the threshold under the contractor licensing law's handyman exemption from \$1,000 to \$5,000.

Your Committee received testimony in support of this measure from the Hawai'i Association of REALTORS® and O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i. Your Committee received testimony in opposition to this measure from the Plumbing & Mechanical Contractors Association of Hawaii; International Union of Painters and Allied Trades, District Council 50; Subcontractors Association of Hawaii; Hawaii Laborers-Employers Cooperation and Education Trust; Painting Industry of Hawaii Labor Management Cooperation Trust Fund; Building Industry Association of Hawaii; Elite Mechanical, Inc.; Hawai'i Construction Alliance; HPS Services, Inc.; HPS Construction Services, Ltd.; and one individual. Your Committee received comments on this measure from the Department of Commerce and Consumer Affairs Regulated Industries Complaints Office and Contractors License Board.

Your Committee finds that under chapter 444, Hawaii Revised Statutes, any construction work that costs more than \$1,000 or that requires a building permit must be performed by a licensed contractor; however, the handyman exemption allows the hiring of a person not licensed as a contractor if the total value of the project, including labor and materials, is equal to or less than \$1,000. Your Committee further finds that as housing costs have increased in Hawaii, the cost of housing materials has also increased; therefore, many small home repair projects may easily exceed \$1,000. And with increased costs, even for maintenance or minor jobs, finding licensed contractors for smaller jobs has been difficult, especially on the neighbor islands and in rural areas.

Your Committee acknowledges that this measure is a work in progress and appreciates the information provided by the Department of Commerce and Consumer Affairs and all of the testimony submitted. In light of the fact that the handyman threshold dollar amount has not been raised since 1992, your Committee finds that while the original amount stated in this measure is too high, an adjustment should be considered and further discussion on the actual amount is necessary.

Accordingly, your Committee has amended this measure by:

- (1) Inserting a blank dollar amount for the handyman exemption; and
- (2) Inserting an effective date of January 1, 2045, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2376, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2376, S.D. 1, and be referred to your Committee on Commerce, Consumer Protection, and Health.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, 1 (Taniguchi). Excused, none.

SCRep. 2445 (Joint) Labor and Human Services on S.B. No. 2163

The purpose and intent of this measure is to provide a taxpayer who hires an individual with a disability a nonrefundable tax credit for the six-month period after the individual is initially hired by the taxpayer.

Your Committees received testimony in support of this measure from the State Rehabilitation Council; State Council on Developmental Disabilities; Hawai'i State Association of Counties; Hawaii Disability Rights Center; Lanakila Pacific; O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i; Kaua'i County Councilmember Derek Kawakami; and one individual. Your Committees received comments on this measure from the Department of Taxation and Tax Foundation Hawaii.

Your Committees find that employment of people with disabilities is key to allowing them to achieve full community integration and financial independence. Your Committees support incentives that encourage greater employment of individuals with disabilities in the State.

Your Committees recommend that, as this measure moves through the legislative process, it should be evaluated as to whether or not expansion or amendment of existing tax incentives, such as those for vocational rehabilitation in section 235-55.91, Hawaii Revised Statutes, is preferable to the creation of a new one, as noted in the testimonies of the Department of Taxation and Tax Foundation of Hawaii.

Your Committees have amended this measure by:

- (1) Replacing references to "individual with a disability" with "person totally disabled", as defined in section 235-1, Hawaii Revised Statutes;
- (2) Stipulating that any amounts upon which any other tax credit or deduction is calculated under chapter 235, Hawaii Revised Statutes, are not qualified wages for purposes of the tax credit;
- (3) Clarifying that the Department of Taxation may disqualify wages that were paid to a non-qualified employee without the employer receiving notice that the certification was based on false information;
- (4) Clarifying that only the final successor employer who employed the person totally disabled during the taxable year may claim the credit and that the credit cannot be claimed multiple times for the same employee; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Labor and Human Services that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2163, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2163, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
Labor: Ayes, 3. Noes, none. Excused, 2 (Chang, Taniguchi).
Human Services: Ayes, 4. Noes, none. Excused, 1 (Chang).

SCRep. 2446 Education on S.B. No. 2353

The purpose and intent of this measure is to prohibit discrimination on the basis of sex, including gender identity or expression or sexual orientation, in any state educational program or activity or in any educational program or activity that receives state financial assistance.

Your Committee received testimony in support of this measure from the State Public Charter School Commission, Hawai'i Civil Rights Commission, Hawaii State Teachers Association, Commission on the Status of Women, AF3IRM Hawai'i, Chun Kerr LLP, Filipina Advocacy Network, Hawaii Children's Action Network, Hawaii State Coalition Against Domestic Violence, Hawaii Women's Coalition, IMUAlliance, The Sex Abuse Treatment Center, LGBT Caucus of the Democratic Party of Hawai'i, Planned Parenthood Votes Northwest and Hawaii, Rainbow Family 808, YWCA O'ahu, Young Progressives Demanding Action Hawai'i, The American College of Obstetricians and Gynecologists, American Association of University Women of Hawai'i, Americans for Democratic Action Hawai'i, Domestic Violence Action Center, Hawai'i Women Lawyers, Hawaii Youth Services Network, Healthy Mothers Healthy Babies Coalition of Hawaii, League of Women Voters of Hawaii, Women's March Hawaii Island, and numerous individuals. Your Committee received comments on this measure from the Department of Education.

Your Committee finds that Title IX of the Education Amendments of 1972, renamed the Patsy Mink Equal Opportunity in Education Act in 2002, triggered a shift in the education landscape by prohibiting discrimination on the basis of sex by any education program or activity receiving federal funds. This significant piece of legislation has given millions of girls and women educational opportunities in the classroom and on the playing fields; in research, teaching, and graduate schools; and in employment, medicine, law, and other professions. The efficacy of the Title IX federal protections against sex discrimination in education has been diminished and eroded by the current presidential administration, which reversed the federal government's previous interpretation of the prohibition against discrimination based on "sex" that included discrimination based on sexual orientation and gender identity and expression.

Your Committee further finds that in order to protect all students and ensure that they have equal access to all of the opportunities afforded to them, all discrimination, including discrimination on the basis of disability should be prohibited. Therefore, it is time to consider and address the need for a corollary in state law to protect the students entrusted in the State's schools from discrimination on the basis of sex or disability.

Your Committee has amended this measure by:

- (1) Inserting language that additionally prohibits discrimination on the basis of disability in any state educational program or activity or in any educational program or activity that receives state financial assistance; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2353, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2353, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Dela Cruz, Kahele).

SCRep. 2447 (Joint) Education and Government Operations on S.B. No. 2391

The purpose and intent of this measure is to require the governing boards of charter schools to attend annual mandatory training sessions that cover the topics of ethics, procurement, and fiduciary responsibilities.

Your Committees received testimony in support of this measure from the Office of Hawaiian Affairs; Hawaii State Ethics Commission; State Public Charter School Commission; Ho'omana Pono, LLC; and Hawaii Public Charter School Network.

Your Committees find that the governing boards of charter schools have a direct impact on the education of the children in the State. Ethics is an area that is often overlooked in education. This training will ensure the integrity of those governing boards and assure the public that their interests are protected.

Your Committees further find that the Hawaii State Ethics Commission and Hawaii Public Charter Schools Network indicated that they are willing and able to provide ethics training.

Your Committees have amended this measure by specifying that:

- (1) Governing board members shall be certified through programs approved by the State Public Charter School Commission no later than the completion of their first year serving on the governing board;
- (2) The certification programs shall provide for recertification for governing board members serving more than one term; and
- (3) All governing board members serving on July 1, 2018, shall be required to be certified no later than June 30, 2019.

As affirmed by the records of votes of the members of your Committees on Education and Government Operations that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2391, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2391, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chairs on behalf of the Committees.

Education: Ayes, 4. Noes, none. Excused, 1 (Dela Cruz).

Government Operations: Ayes, 3. Noes, none. Excused, 2 (Keith-Agaran, Rhoads).

SCRep. 2448 Education on S.B. No. 2261

The purpose and intent of this measure is to establish the education special fund and allocate twenty-five percent of general excise tax revenues to be deposited into the education special fund to fund public education.

Your Committee received testimony in support of this measure from the State Public Charter School Commission, Hawaii State Teachers Association, IMUAlliance, Oahu County Committee on Legislative Priorities of the Democratic Party of Hawaii, and one individual. Your Committee received comments on this measure from the Department of the Attorney General, Department of Education, Department of Budget and Finance, and Tax Foundation of Hawaii.

Your Committee finds that Hawaii's public schools are severely underfunded. At \$12,855 per child, Hawaii trails mainland school districts of similar size when adjusting for cost of living. This lack of adequate funding has resulted in an inability to repair and renovate deteriorating facilities, higher class sizes, a lack of adequate classroom supplies, elimination of arts and career and technical education courses, budget cuts for special education and English language learner programs, and an increasing number of vacant teacher positions statewide. Your Committee further finds that a portion of revenues from general excise tax will provide much needed funding for the State's public schools and bring Hawaii's education funding policy closer to other school districts of similar size.

Your Committee has amended this measure by:

- (1) Clarifying that the purpose of this measure is to establish the education special fund and allocate twenty-five percent of the general excise tax revenue collected in addition to other sources of educational funding to be deposited into the education special fund;
- (2) Inserting language that appropriates an unspecified amount of funds from the education special fund for the purposes of funding public education; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2261, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2261, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Dela Cruz, Kahele).

SCRep. 2449 (Joint) Public Safety, Intergovernmental, and Military Affairs and Labor on S.B. No. 2429

The purpose and intent of this measure is to:

- (1) Prohibit a security guard from possessing a firearm in the course of employment if the guard was discharged from employment as a law enforcement officer due to poor employment standing; and
- (2) Require state and county law enforcement agencies to make appropriate disclosures to employers conducting employment background checks of the employer's prospective employees.

Your Committees received testimony in support of this measure from the Department of Transportation and one individual. Your Committees received testimony in opposition to this measure from the Board of Private Detective and Guards.

Your Committees find that ensuring the hiring of qualified security guards in the State is essential to protecting public health and safety. Your Committees find that since security guards in the State have the ability to carry firearms, it is essential that they meet certain standards, such as not having been previously discharged or otherwise ending employment due to their misconduct. There is a strong correlation between law enforcement officers becoming security guards, but there are no existing safeguards in place relating to those who may have previously been discharged as a law enforcement officer due to poor employment standing and are subsequently hired as a security guard. Your Committees find that to better protect the public, those security guards who have previously been discharged as a law enforcement officer due to poor employment standing should be prohibited from carrying firearms while employed as security guards. In addition, your Committees agree with the testimony from the Department of Transportation indicating that the Department should be included as one of the agencies required to disclose whether a prospective employee was discharged due to poor employment standing from employment with the department.

Further, your Committees note concerns raised in the testimony of the Board of Private Detectives and Guards relating to the Board's lack of authority to authorize a guard or detective to carry firearms. Your Committees recognize that only the counties and certain state agencies may deputize licensed guards or detectives for law enforcement duties, including authorizing them to carry firearms. Accordingly, if your Committee on Commerce, Consumer Protection, and Health decides to hear this measure, your Committee on Commerce, Consumer Protection, and Health may want to consider prohibiting the Board from licensing in the first place those individuals who have been discharged from employment as a law enforcement officer due to poor employment standing.

Your Committees have amended this measure by:

- (1) Adding the Department of Transportation as one of the agencies required to disclose whether a prospective employee was discharged due to poor employment standing from employment with the department; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Public Safety, Intergovernmental, and Military Affairs and Labor that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2429, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2429, S.D. 1, and be referred to your Committee on Commerce, Consumer Protection, and Health.

Signed by the Chairs on behalf of the Committees.

Public Safety, Intergovernmental, and Military Affairs: Ayes, 5. Noes, none. Excused, none.

Labor: Ayes, 4. Noes, none. Excused, 1 (English).

SCRep. 2450 (Joint) Judiciary and Economic Development, Tourism, and Technology on S.B. No. 2887

The purpose and intent of this measure is to appropriate monies for events recognizing the twenty-fifth anniversary of the sister state relationship between Hawai'i and Taiwan.

Your Committees received testimony in support of this measure from the Department of Business, Economic Development, and Tourism; United Chinese Society of Hawaii; Chinese Chamber of Commerce of Hawaii; Taipei Economic and Cultural Office in Honolulu; and four individuals.

Your Committees find that the business, cultural, educational, and historical ties between Taiwan and Hawai'i are numerous and longstanding. Since establishing a sister state relationship in 1993, the cultural, educational, and business exchanges between Taiwan and Hawai'i have continued to grow and strengthen. This measure will provide resources for events recognizing and commemorating the twenty-fifth anniversary of this sister state relationship.

As affirmed by the records of votes of the members of your Committees on Judiciary and Economic Development, Tourism, and Technology that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2887 and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Judiciary: Ayes, 4. Noes, none. Excused, 1 (Gabbard).

Economic Development, Tourism, and Technology: Ayes, 4. Noes, none. Excused, 1 (Baker).

SCRep. 2451 Judiciary on S.B. No. 2150

The purpose and intent of this measure is to appropriate supplemental funds for the operating and capital improvement costs of the Judiciary for the fiscal biennium beginning July 1, 2017, and ending June 30, 2019.

Your Committee received testimony in support of this measure from the Judiciary; the Hawaii State Bar Association; Ho'omana Pono, LLC; the Kauai Bar Association; the Legal Aid Society of Hawaii; the West Hawaii Bar Association; and one individual.

OPERATING BUDGET

Positions and Related Costs

Your Committee notes with particular concern the urgent need for family court resources, and has therefore decided to approve the Judiciary's requested funding for family court judges, related positions, and attendant costs in both the first judicial circuit on Oahu and in the fifth judicial circuit on Kauai.

For the second judicial circuit on Maui, your Committee has decided to approve the funding request for drug court and the addition of 0.5 permanent positions for janitorial services for Lahaina District Court. Your Committee has also decided to approve funding for two out of the three requested social worker positions, along with a pro rata portion of the necessary costs associated with those positions.

For the third judicial circuit on Hawaii island, your Committee has decided to approve the request for four permanent janitorial and facilities manager positions and two permanent positions and funds for bailiffs.

As additional program appropriations in the first judicial circuit on Oahu, your Committee has approved the requested temporary-to-permanent conversions of twelve positions for the Interagency Council on Intermediate Sanctions and the Hawaii Opportunity Probation with Enforcement program, commonly known as the HOPE program.

Civil Legal Services

Additionally, although not included in the supplemental budget request from the Judiciary for fiscal year 2018-2019, your Committee has decided to add a new program appropriation in JUD601 for \$250,000 in general funds for the purpose of purchasing civil legal services. Your Committee notes that this addition to the supplemental budget request is consistent with previous Judiciary budget acts, prior to fiscal year 2017-2018, and will provide much needed assistance to legal service organizations, including Volunteer Legal Services Hawaii and the Legal Aid Society of Hawaii. Your Committee notes that this amount is a first estimate for this appropriation and may not reflect the entire needs of these organizations.

CAPITAL IMPROVEMENT BUDGET

With respect to capital improvement projects, at this time your Committee has decided to approve the Judiciary's request for \$5,800,000 in funding for furnishings and equipment for the Kona Judiciary Complex. Your Committee also approves funding in the amount of \$1,200,000 for upgrades and modernization of Ka'ahumanu Hale on Oahu, noting that this amount may serve to begin the extensive work necessary for that facility, particularly for the alarm system. Finally, your Committee has decided to approve \$1,000,000 as a lump sum for improvements to Judiciary facilities statewide.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2150, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2150, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2452 (Joint) Agriculture and Environment and Water and Land on S.B. No. 2845

The purpose and intent of this measure is to require the Office of Planning, in coordination with the appropriate departmental agency, to prepare and periodically update a functional plan for seafood sustainability that expands the State's priority on food by including wild seafood as a viable food source.

Your Committees received testimony in support of this measure from the Hawaii Fisherman's Alliance for Conservation and Tradition, Inc.; Big Island Fisheries; Waialua Boat Club; Society for Hawaii Heritage Animals; O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i; and nine individuals. Your Committees received comments on this measure from the Department of Agriculture, Office of Planning, and Department of Land and Natural Resources.

Your Committees find that increased local food production is a top priority of the State to achieve the state goal of sustainability. As an island state, wild seafood is a staple of the diets of residents and visitors and therefore should be considered in food sustainability plans. Although, your Committees support all efforts that encourage increased local food production in the State, it is your Committees' understanding that the purpose of this measure is to assess the wild seafood situation, not to increase wild seafood production at this time.

Your Committees have amended this measure by:

- (1) Replacing the Office of Planning with the Department of Agriculture as the lead agency, and directing the Department of Agriculture to coordinate with the Office of Planning and Department of Land and Natural Resources;
- (2) Clarifying that, to conform with the Hawaii State Planning Act, the Governor shall submit the functional plan pursuant to section 226-56, Hawaii Revised Statutes;
- (3) Extending the deadline for submission of the functional plan from twenty days prior to the convening of the Regular Session of 2019 to twenty days prior to the convening of the Regular Session of 2020;
- (4) Inserting a blank appropriation for fiscal year 2018-2019 for the Department of Agriculture, in coordination with the Office of Planning and Department of Land and Natural Resources, to prepare and periodically update a functional plan for seafood sustainability; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Agriculture and Environment and Water and Land that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2845, as amended herein, and

recommend that it pass Second Reading in the form attached hereto as S.B. No. 2845, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Agriculture and Environment: Ayes, 4. Noes, none. Excused, 1 (Nishihara).

Water and Land: Ayes, 4. Noes, none. Excused, 1 (Inouye).

SCRep. 2453 (Joint/Majority) Agriculture and Environment and Higher Education on S.B. No. 2575

The purpose and intent of this measure is to appropriate funds for the University of Hawaii West Oahu to expand its existing programs and develop new means to increase food security and self-sufficiency in the State.

Your Committees received testimony in support of this measure from the Department of Agriculture; Department of Business, Economic Development, and Tourism; Department of Land and Natural Resources, State Historic Preservation Division; Office of Planning; University of Hawaii System Government Relations Office; MAO Organic Farms; Waianae Community Re-Development Corporation; Hawaii Alliance for Progressive Action; Ho‘omanapono Political Action Committee; Ka Ohana O Na Pua; University of Hawaii West Oahu Health Science Program; Hawaii Alliance for Community-Based Economic Development; O‘ahu County Committee on Legislative Priorities of the Democratic Party of Hawai‘i; ACCESS Engagement; Hawaii Cattlemen’s Council, Inc.; and twenty-two individuals.

Your Committees find that the Office of Planning, in cooperation with the Department of Agriculture, issued a report in October 2012, entitled “Increased Food Security and Food Self-Sufficiency Strategy: A State Strategic/Functional Plan Prepared in Accordance with HRS Chapter 226 Hawaii State Plan and the Hawaii Comprehensive Economic Development Strategy”. The executive summary of the report states, in pertinent part, “The purpose of the *Increased Food Security and Food Self-Sufficiency Strategy* (Strategy) is to increase the amount of locally grown food consumed by Hawaii residents. This will increase food self-sufficiency which is a component of food security. The Strategy is a living document intended as a first step toward continued dialog and implementation”. Your Committees further find that the development of higher education systems in Hawaii to promote understanding of sustainable food production and training a new generation of students for jobs in the sustainable food and agriculture sector is an essential part of meeting the strategic objectives; thus, this measure is the next step toward increasing local food production in the State.

Your Committees have amended this measure by:

- (1) Inserting an effective date of July 1, 2025, to encourage further discussion; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Agriculture and Environment and Higher Education that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2575, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2575, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Agriculture and Environment: Ayes, 4. Noes, none. Excused, 1 (Nishihara).

Higher Education: Ayes, 3. Noes, 1 (Kidani). Excused, 1 (Keith-Agaran).

SCRep. 2454 Housing on S.B. No. 3034

The purpose and intent of this measure is to require the strategic plan developed by the Hawaii Interagency Council for Transit-Oriented Development to require that affordable housing be included as part of the development or redevelopment plan for any state property located within one mile of the Honolulu rail transit system, unless the Honolulu City Council determines that housing is not feasible or desirable on a particular property.

Your Committee received testimony in support of this measure from the Department of Human Services, Hawaii Housing Finance and Development Corporation, Office of Planning, League of Women Voters of Hawaii, and one individual. Your Committee received testimony in opposition to this measure from the Department of Land and Natural Resources.

Your Committee finds that there is a housing shortage crisis in Hawaii. The need for affordable rental units in the State and around the Honolulu rail transit system is particularly important for households with low incomes. This measure will assist in focusing the State’s efforts on increasing the number of affordable dwelling units.

Your Committee notes the concerns raised by the Department of Land and Natural Resources regarding the mandatory provisions of this measure. The Hawaii Interagency Council for Transit-Oriented Development serves as an advisory body coordinating and facilitating discussions or actions between the State and counties on transit-oriented development initiatives. The Department expressed concerns that this measure may transform the Council into a regulatory entity, which may frustrate the Department’s planned objectives for the four parcels under its jurisdiction that are adjacent or in close proximity to the planned University of Hawaii West Oahu rail transit station in East Kapolei. The Department’s long-term objective is to lease these parcels for income generating purposes to support the Department’s natural resource management and protection programs and has already agreed to the placement of a 1,000-stall park and ride facility on the parcel immediately adjacent to the University of Hawaii West Oahu rail transit station. The requirements imposed by this measure impede this objective.

Your Committee further notes that Act 130, Session Laws of Hawaii 2016, established the Office of Planning as the lead agency to coordinate and advance smart growth and transit-oriented development planning within the State, including targeting transit-oriented development areas for significant increases in affordable housing and rental units and approving all state agencies’ development plans for parcels along the rail transit corridor. Your Committee believes that requiring affordable housing to be included as part of the development or redevelopment plan for state transit-oriented development along the rail transit corridor as part of the Office of Planning’s functions will increase the affordable housing stock, and support rail ridership goals.

Accordingly, your Committee has amended this measure by:

- (1) Removing language that would have required the strategic plan developed by the Hawaii Interagency Council for Transit-Oriented Development to require that affordable housing be included as part of the development or redevelopment plan for any state property located within one mile of the Honolulu rail transit system;
- (2) Inserting language that:
 - (A) Includes approval of all state agencies' redevelopment plans for parcels along the rail transit corridor among the Office of Planning's duties as lead agency to coordinate and advance smart growth and transit-oriented development planning within the State; and
 - (B) Requires affordable housing to be included as part of every development or redevelopment plan for state transit-oriented development along the rail transit corridor, unless the Office of Planning determines that housing is not feasible or desirable on a particular property; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3034, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3034, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Kahele, Nishihara).

SCRep. 2455 (Joint) Housing and Judiciary on S.B. No. 2755

The purpose and intent of this measure is to:

- (1) Clarify that any projects assisted by the Hawaii Housing Finance and Development Corporation that were developed or sold prior to the enactment of Act 159, Session Laws of Hawaii 2017 (Act 159), are grandfathered in and not subject to Act 159, to avoid unintended consequences and administrative burdens; and
- (2) Limit the subsequent purchase price of the real property if the Hawaii Housing Finance and Development Corporation does not exercise its option to purchase the real property.

Your Committees received testimony in support of this measure from the Department of Business, Economic Development, and Tourism and Hawaii Housing Finance and Development Corporation.

Your Committees find that Act 159 allows qualified non-profit housing trusts to utilize the Hawaii Housing Finance and Development Corporation's buyback option on affordable for-sale homes and condominium units resold by their original owner-occupants in situations when the Corporation decides not to do so itself. According to the Corporation, since the enactment of Act 159, the Corporation found that some of the Corporation's projects may not be covered by the existing grandfather provision. This measure excludes any project developed or sold prior to the enactment of Act 159.

Your Committees have amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Housing and Judiciary that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2755, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2755, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
Housing: Ayes, 3. Noes, none. Excused, 2 (Kahele, Nishihara).
Judiciary: Ayes, 3. Noes, none. Excused, 2 (Gabbard, Kim).

SCRep. 2456 (Joint) Water and Land and Agriculture and Environment on S.B. No. 2911

The purpose and intent of this measure is to appropriate funds to the Department of Land and Natural Resources to conduct a phase I environmental site assessment and, if necessary, a phase II environmental site assessment and suitable environmental remediation at the former Lalamilo reservoir site on the island of Hawaii as due diligence for a proposed land exchange for the relocation of a public library.

Your Committees received testimony in support of this measure from the Department of Land and Natural Resources, Hawaii State Public Library System, and Oahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i.

Your Committees find that there is a proposed land exchange in the Waimea area on the island of Hawaii. In exchange for the former Lalamilo reservoir site, the State will receive a parcel of land that will be used to eventually replace the existing Thelma Parker Memorial Public and School Library. The site of this library is currently the Waimea Elementary School campus, which causes safety concerns for the school and library as well as issues relating to access to both campuses due to insufficient parking. This measure will provide the necessary funds for the Department of Land and Natural Resources to conduct due diligence to facilitate the proposed land exchange.

Your Committees have amended this measure by adopting the language suggested by the Department of Land and Natural Resources, which clarifies that due diligence includes any common transaction costs, including but not limited to certain specified costs, concerning the Lalamilo reservoir site land exchange transaction of the relocation of the public library.

As affirmed by the records of votes of the members of your Committees on Water and Land and Agriculture and Environment that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2911, as amended herein, and

recommend that it pass Second Reading in the form attached hereto as S.B. No. 2911, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Water and Land: Ayes, 4. Noes, none. Excused, 1 (Inouye).

Agriculture and Environment: Ayes, 4. Noes, none. Excused, 1 (Nishihara).

SCRep. 2457 (Joint) Water and Land and Housing on S.B. No. 2425

The purpose and intent of this measure is to exempt lands owned by the Hawaii Public Housing Authority from the definition of “public lands” under section 171-2, Hawaii Revised Statutes (HRS), and the jurisdiction of the Board of Land and Natural Resources.

Your Committees received testimony in support of this measure from the Hawaii Public Housing Authority. Your Committees received comments on this measure from the Office of Hawaiian Affairs.

Your Committees find that the Hawaii Public Housing Authority titled lands were previously exempt from the definition of “public lands” under section 171-2, HRS, when these lands were held by the Authority’s predecessor agencies, the Housing and Community Development Corporation of Hawaii and the Hawaii Housing Authority. After the Housing and Community Development Corporation of Hawaii was bifurcated into two separate agencies, an exemption for Hawaii Public Housing Authority titled lands was inadvertently excluded from the list of lands exempt from the definition of lands under section 171-2, HRS.

Your Committees further find that the Hawaii Public Housing Authority is authorized to acquire, own, and hold real property pursuant to section 356D-8, HRS, and its federal low-income public housing properties are under a federal annual contributions contract with the federal government. Thus, these titled lands do not fall under the jurisdiction of the State’s public lands and should be exempt from the definition of “public lands” and the jurisdiction of the board of land and natural resources to avoid delays in redevelopment projects.

Your Committees note the written comments submitted by the Office of Hawaiian Affairs that Hawaii Public Housing Authority titled lands should be treated consistently with other state lands removed from the jurisdiction of the Board of Land and Natural Resources. Thus, any sale or gift of lands under the control of the Authority should be subject to the legislative approval requirements under section 171-64.7, HRS.

Furthermore, in light of the concerns raised by the Office of Hawaiian Affairs regarding its objection to the sale of ceded lands except under limited circumstances, your Committees clarify that ceded lands will remain ceded lands and remain unaffected by this measure.

Your Committees have amended this measure by:

- (1) Adopting the language suggested by the Office of Hawaiian Affairs that requires the legislative approval of the sale or gift of lands to which the Hawaii Public Housing Authority in its corporate capacity holds title; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Water and Land and Housing that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2425, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2425, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Water and Land: Ayes, 4; Ayes with Reservations (Thielen). Noes, none. Excused, 1 (Inouye).

Housing: Ayes, 3; Ayes with Reservations (Green). Noes, none. Excused, 2 (Kahele, Nishihara).

SCRep. 2458 (Joint/Majority) Higher Education and Judiciary on S.B. No. 2316

The purpose and intent of this measure is to propose amendments to the Hawai’i State Constitution to modify the appointment process for the Board of Regents of the University of Hawai’i and repeal the reference to the Candidate Advisory Council for the Board of Regents of the University of Hawai’i.

Your Committees received testimony in opposition to this measure from the Association of Emeritus Regents of the University of Hawai’i.

Your Committees find that while the Candidate Advisory Council for the Board of Regents of the University of Hawai’i has nominated many outstanding appointees to the Board, important concerns have been raised as to the selection process. The potential value in granting the Governor the authority to select and appoint Regents on the basis of how each Regent’s individual strengths will add to and complement the overall Board of Regents. Therefore, it is appropriate to reassess and seriously consider making significant changes to the appointment process for the Board of Regents of the University of Hawai’i to increase the Governor’s ability to appoint qualified individuals to serve as Regents and effectively lead the University of Hawai’i System.

As affirmed by the records of votes of the members of your Committees on Higher Education and Judiciary that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2316 and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Higher Education: Ayes, 4. Noes, none. Excused, 1 (Keith-Agaran).

Judiciary: Ayes, 3; Ayes with Reservations (Rhoads, Taniguchi). Noes, 1 (Thielen). Excused, 1 (Gabbard).

SCRep. 2459 Higher Education on S.B. No. 2329

The purpose and intent of this measure is to decrease University of Hawai’i tuition by an unspecified percentage and limit future increases in tuition for the University of Hawai’i based on the change in the State’s median household income.

Your Committee received testimony in support of this measure from the Oahu County Committee on Legislative Priorities of the Democratic Party of Hawaii and one individual. Your Committee received testimony in opposition to this measure from the University of Hawai'i System and Hawai'i Educational Policy Center. Your Committee received comments on this measure from the Americans for Democratic Action Hawai'i and Associated Students of the University of Hawai'i at Manoa.

Your Committee finds that overall enrollment in the University of Hawai'i system has dropped by 3.3 percent from fall 2016 to fall 2017. Correspondingly, tuition has increased steadily since academic year 2011-2012, increasing by 3.1 percent in 2012-2013, 5.5 percent in 2013-2014, 7.6 percent in 2014-2015, 5.1 percent in 2015-2016, and 5.1 percent in 2016-2017, with further increases scheduled in the 2018-2019 and 2019-2020 academic years. However, despite the decline in enrollment, faculty salaries are scheduled to increase at a rate faster than the growth in tuition. This will decrease the budget amount available for other priorities, such as modernizing buildings, offering scholarships, and student programs and services.

Your Committee further finds that declining enrollment necessarily leads to a decrease in revenue from per-student fees, which are often used to fund student programs and services. This harms the student experience, further depressing enrollment, and is contrary to state policy, which favors an informed and educated populace. This measure promotes increased enrollment at the University of Hawai'i by capping tuition increases based on the change in the State's median household income, improving the student experience, keeping budgetary pace with increased salaries and other costs, and promoting a more educated populace.

Your Committee has amended this measure by:

- (1) Inserting language that specifies that the amendments made to section 92-28, Hawaii Revised Statutes, shall not be repealed when that section is amended by Act 181, Session Laws of Hawaii 2017; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Higher Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2329, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2329, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Chang).

SCRep. 2460 (Joint) Higher Education and Labor on S.B. No. 2356

The purpose and intent of this measure is to explicitly specify the responsibility of the University of Hawai'i community colleges to provide short-term and rapid response occupational training and certification programs designed to qualify individuals to fill new and hard-to-fill positions of the State, counties, and private sector that require technical training.

Your Committees received testimony in support of this measure from the University of Hawai'i System, Oahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, and one individual. Your Committees received comments on this measure from the Department of Labor and Industrial Relations.

Your Committees find that the modern economy requires colleges to react quickly to meet the changing technical workforce demands of the public and private sectors, both to fill emerging job opportunities and upgrade the skills of existing workers to meet the changing requirements of their positions as technology advances. This measure directs the University of Hawai'i community colleges to be more responsive to workforce needs in the State by developing and rapidly delivering training for new and hard-to-fill positions that require technical skills.

As affirmed by the records of votes of the members of your Committees on Higher Education and Labor that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2356 and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
Higher Education: Ayes, 3. Noes, none. Excused, 2 (Keith-Agaran, Kim).
Labor: Ayes, 4. Noes, none. Excused, 1 (English).

SCRep. 2461 Higher Education on S.B. No. 2475

The purpose and intent of this measure is to appropriate funds to continue and expand health care apprenticeship programs at the University of Hawai'i community colleges.

Your Committee received testimony in support of this measure from the University of Hawai'i System, Department of Health, Hawai'i Health Partners, Hawai'i Pacific Health, Hawai'i Primary Care Association, Project Vision Hawaii, Oahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, and two individuals. Your Committee received comments on this measure from the Department of Labor and Industrial Relations.

Your Committee finds that apprenticeship programs approved by University of Hawai'i community colleges are composed of two major components: work process and related instruction. The work process component consists of on-the-job training, while the related instruction component is the structured class and laboratory or shop curricula. Therefore, apprenticeship programs develop job skills through theoretical and practical experiences.

Your Committee further finds that the United States Department of Labor, Employment and Training Administration awarded the Hawaii State Department of Labor and Industrial Relations a substantial grant to expand apprenticeship opportunities in information technology and health care. This grant helped to alleviate the shortage of physicians, pharmacy technicians, nursing assistants, paraoptometric technicians, medical laboratory workers, and community health workers. This measure further supports the development, education, and training for individuals looking to enter the health care field.

As affirmed by the record of votes of the members of your Committee on Higher Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2475 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Chang).

SCRep. 2462 (Joint) Higher Education and Labor on S.B. No. 2585

The purpose and intent of this measure is to establish a collective bargaining unit for graduate student assistants employed by the University of Hawai'i.

Your Committees received testimony in support of this measure from the Hawaii State AFL-CIO; University of Hawaii Professional Assembly; Academic Labor United; United Public Workers, AFSCME, Local 646, AFL-CIO; UNITE HERE Local 5; Hawai'i Construction Alliance; International Brotherhood of Electrical Workers Local Union 1260, AFL-CIO; Hawaii State Teachers Association; IMUAlliance; Oahu County Committee on Legislative Priorities of the Democratic Party of Hawaii; and numerous individuals. Your Committees received testimony in opposition to this measure from the University of Hawai'i System, Department of Budget and Finance, and Office of Collective Bargaining.

Your Committees find that graduate students perform a variety of teaching and research functions that are necessary and vital to the overall strength and accomplishments of a successful university. At research universities, such as the University of Hawai'i at Manoa, graduate students are in the trenches, collaborating on research with faculty members that often leads to innovative ideas.

Your Committees further find that disparities exist between actual salaries and benefits provided to graduate student assistants at the University of Hawai'i at Manoa and comparable institutions across the United States. Budget shortfalls have increased class size and workload, which has increased the burden on the University of Hawai'i's graduate student assistants. Graduate student assistants at the University of Hawai'i are not currently authorized to organize to advocate for their own employment rights. This measure allows for the establishment of a graduate student assistants union that would allow for fair advocacy for graduate student assistant members.

Your Committees have amended this measure by making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Higher Education and Labor that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2585, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2585, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
Higher Education: Ayes, 3. Noes, none. Excused, 2 (Keith-Agaran, Kim).
Labor: Ayes, 5. Noes, none. Excused, none.

SCRep. 2463 (Joint) Higher Education and Human Services on S.B. No. 2596

The purpose and intent of this measure is to require the University of Hawai'i to:

- (1) Establish a five-year senior citizen higher education access pilot program at the University of Hawai'i at Hilo; and
- (2) Submit a report on the progress of the pilot program to the Legislature prior to Regular Session 2024.

Your Committees received testimony in support of this measure from AARP Hawaii; Ho'omana Pono, LLC; Oahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i; and four individuals. Your Committees received testimony in opposition to this measure from the University of Hawai'i at Hilo.

Your Committees find that while there is no cure for Alzheimer's, several studies and publications provide evidence that continuing education may delay the onset of Alzheimer's symptoms. Although there are several existing programs aimed at promoting mental health for Hawai'i's senior citizens through formal education, this measure further promotes lifelong learning for senior citizens while adding senior citizen wisdom and experience to the classroom setting.

Your Committees have amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Higher Education and Human Services that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2596, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2596, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
Higher Education: Ayes, 5. Noes, none. Excused, none.
Human Services: Ayes, 3. Noes, none. Excused, 2 (Tokuda, Wakai).

SCRep. 2464 Higher Education on S.B. No. 3063

The purpose and intent of this measure is to authorize and appropriate funds for the University of Hawai'i Sea Grant College Program to conduct an economic analysis of North Shore beaches for the area of the North Shore of O'ahu that stretches from the Kawailoa to Waiale'e ahupua'a to estimate the economic value of North Shore beaches.

Your Committee received testimony in support of this measure from the University of Hawai'i Sea Grant College Program, Sierra Club of Hawai'i, Oahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, and one individual.

Your Committee finds that the northwest-facing shoreline on the North Shore of O'ahu, which stretches from the Kawailoa to Waiale'e ahupua'a, is a spectacular coastline of primary importance to state residents and visitors from around the world for its

beautiful sandy beaches, famous surf breaks, recreational opportunities, marine resources and wildlife, and vistas. However, the true economic value of North Shore beaches is currently unquantified and therefore, likely undervalued. Because the University of Hawai'i Sea Grant College Program has demonstrated the capacity and capability to conduct the type of economic analysis needed for North Shore beaches, having quantitative economic and natural resource value estimates of North Shore beaches will assist local decision-makers regarding critical issues, such as coastal land use, shoreline management, and applications for armoring of the shoreline for private development.

As affirmed by the record of votes of the members of your Committee on Higher Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3063 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Chang).

SCRep. 2465 Commerce, Consumer Protection, and Health on S.B. No. 3008

The purpose and intent of this measure is to:

- (1) Transition from lump sum deferred deposit transactions to installment-based small dollar loan transactions;
- (2) Specify various consumer protection requirements for small dollar loans;
- (3) Beginning January 1, 2019, require licensure for small dollar lenders that offer small dollar loans to consumers; and
- (4) Specify licensing requirements for small dollar lenders.

Your Committee received testimony in support of this measure from the Department of Commerce and Consumer Affairs; Hawaiian Community Assets; Community Alliance on Prisons; Mental Health America of Hawai'i; Pono Hawai'i Initiative; Hawaii Habitat for Humanity Association, Inc.; Hawaii Appleseed Center for Law & Economic Justice; Catholic Charities Hawai'i; Hawai'i Alliance for Community-Based Economic Development; Na Kahua Hale O Ulu Wini; and one individual. Your Committee received testimony in opposition to this measure from Maui Loan Inc. and Money Service Centers of Hawaii, Inc. Your Committee received comments on this measure from the Department of Taxation, Office of Information Practices, and Dollar Financial Group, Inc.

Your Committee finds that deferred deposit agreements, commonly referred to as payday loans, are small, short term, unsecured loans that borrowers commit to repay from their next paycheck or a regular income payment. The majority of borrowers use deferred deposit agreements for recurring expenses, rather than unexpected expenses or emergencies, because they live paycheck to paycheck. According to testimony received by your Committee, payday lending threatens the housing security of families by unfairly increasing their debt and placing them in a continuous cycle of financial distress.

Furthermore, according to a 2017 analysis by the Consumer Financial Protection Bureau, four out of five payday loans are rolled over or renewed, meaning that a borrower was not able to repay a loan by the agreed up on date and was left with no other recourse than another high interest payday loan, despite having already experienced the difficulties of repaying these loans. Because of this revolving door of debt, the average payday loan borrower remains in debt for more than six months.

Your Committee also finds that there has been a shift in the payday industry toward small dollar installment loans, which are repayable over time and secured by access to the borrower's checking account. However, in the absence of sensible regulatory safeguards, this type of payday lending, as well as the traditional deferred deposit payday lending market, can be harmful for consumers. Your Committee notes that without strong consumer protections in the payday loan industry, payday loan borrowers may find such debt overwhelming and may be unable to pay rent and basic living costs.

This measure therefore establishes a regulatory structure for small dollar loans. However, your Committee has heard the concerns that this measure may not adequately ensure that these types of small dollar installment loans remain affordable for borrowers. Accordingly, your Committee has engaged in discussions with the Department of Commerce and Consumer Affairs and interested stakeholders, including the Pew Charitable Trusts and Hawaiian Community Assets, on suggested amendments to this measure that will ensure sufficient consumer safeguards are available for payday lending borrowers, while also providing a framework to enable existing payday lending establishments to remain in business. Amendments to this measure are therefore necessary to incorporate these suggested revisions.

Your Committee has amended this measure by:

- (1) Clarifying the definitions of "annual percentage rate", "financial institution", and "small dollar loan";
- (2) Inserting definitions for "elder", "finance charges", "maintenance fee", and "precomputed interest";
- (3) Clarifying the requirements that each small dollar loan transaction and renewal shall meet, including:
 - (A) Specifying that the total amount of the small dollar loan shall not exceed \$1,000;
 - (B) Deleting language that would have prohibited a minimum loan term and would have set a maximum loan term for small dollar loans;
 - (C) Specifying that the total monthly payment on a small dollar loan shall not exceed an amount that is five percent of the borrower's verified gross monthly income or six percent of the borrower's verified net income, whichever is greater;
 - (D) Specifying that the total amount of fees and charges a small dollar lender may charge, collect, or receive in connection with a small dollar loan shall not exceed fifty percent of the principal loan amount;
 - (E) Authorizing a monthly maintenance fee of no more than \$25, with certain requirements; and

- (F) Specifying that a small dollar lender shall not charge any direct or indirect fees for a small dollar loan, other than authorized fees;
- (4) Removing language that would have set the total amount of the instruments held by a small dollar lender at no more than the amount financed and the permitted finance charge;
 - (5) Clarifying that a lender may contract for a twice-monthly or monthly payment in a multiple installment small dollar loan;
 - (6) Removing language that would have specified certain requirements for a consumer who partially prepaid a single installment small dollar loan or made additional voluntary payments on a multiple installment small dollar loan;
 - (7) Specifying what a lender must refund, upon prepayment of a small dollar loan in full by a consumer;
 - (8) Authorizing the Commissioner of Financial Institutions to biennially adjust for inflation the total amount of the small dollar loan and the total maintenance fee on a small dollar loan and requiring these updated fees to be posted on the Division of Financial Institutions' website;
 - (9) Clarifying the contents of the written agreement that must be signed by a small dollar lender and a consumer for each small dollar loan transaction and renewal;
 - (10) Clarifying that a small dollar lender may receive interest at a rate not exceeding thirty-six percent per year on the unpaid principal balance of a small dollar loan;
 - (11) Deleting language that would have allowed a small dollar lender to charge interest after the original or deferred maturity of a precomputed loan on all unpaid principal balances;
 - (12) Requiring the lender to refund to the consumer a prorated portion of the interest and monthly maintenance fees when the consumer prepays in full or renews a small dollar loan;
 - (13) Deleting language that would have authorized a lender to convert a small dollar loan to an interest-bearing loan if the maturity of a small dollar loan was accelerated for any reason;
 - (14) Permitting a lender to grant one deferment, if the parties agree in writing, but prohibiting the lender from charging or collecting a deferment fee;
 - (15) Clarifying that other than the permitted interest and charges, no further or other amounts shall be required by a small dollar lender and removing language that would have permitted a lender to charge fees to record, file, or release security interests on a loan or fees for credit reports and costs and disbursements associated with any suit to collect a loan or any lawful activity to realize on a security interest after default;
 - (16) Prohibiting small dollar lenders from charging or receiving loan origination fees;
 - (17) Removing language that would have permitted a lender to charge and receive check collection charges;
 - (18) Specifying that a small dollar lender shall not collect a default charge on any installment not paid in full within ten days after its due date;
 - (19) Clarifying that a lender shall not lend more than \$1,000, nor shall the amount financed exceed \$1,000 by any one lender at any time to a consumer;
 - (20) Prohibiting multiple outstanding small dollar loans between a small dollar lender and a consumer at one time;
 - (21) Clarifying the contents of the notice that must be provided in a prominent place on each small dollar loan agreement;
 - (22) Clarifying the renewal requirements for small dollar loans, including limiting the total amount of the renewal to \$1,000, and specifying limits on the total amount of fees and charges for any renewed loan, rather than permitting a lender to assess an additional finance charge for the renewed loan;
 - (23) Deleting language that would have specified requirements for when a small dollar transaction was considered completed;
 - (24) Clarifying when communications by a lender shall be presumed to have been made for purposes of harassment;
 - (25) Requiring a small dollar lender to cover any fees and charges incurred by a consumer as a direct result of a loan proceeds instrument dishonored by a financial institution;
 - (26) Deleting language that would have specified certain notice requirements prior to sale or assignment of instruments held by a small dollar lender;
 - (27) Specifying exemptions from licensure as a small dollar loan lender;
 - (28) Clarifying the contents of the application that must be submitted by an applicant for licensure as a small dollar lender;
 - (29) Specifying the fees that a small dollar lender must pay to the Division of Financial Institutions to obtain and maintain a valid small dollar lender license;
 - (30) Clarifying the fees a branch office of a small dollar lender must pay to obtain and maintain a small dollar loan license;
 - (31) Clarifying the contents of the annual report a small dollar lender is required to submit to the Commissioner of Financial Institutions;
 - (32) Clarifying license renewal requirements for small dollar lenders;

- (33) Clarifying the contents of the notice that must be provided to the Commissioner of Financial Institutions when a small dollar lender voluntarily surrenders its license;
- (34) Deleting language that would have required a small dollar lender to designate a qualified individual to manage the principal place of business in the State;
- (35) Clarifying that limitations on usury recovery shall not apply to any small dollar loan;
- (36) Deleting language that would have removed an exemption from the requirements of chapter 480F, Hawaii Revised Statutes, from a bank, trust company, savings bank, savings and loan association, financial services loan company, or credit union; and
- (37) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3008, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3008, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 2 (Espero, Nishihara).

SCRep. 2466 Labor on S.B. No. 2189

The purpose and intent of this measure is to provide that failure of state and county officers and employees to carry out or comply with provisions of the basic bill of rights for victims and witnesses may subject them to civil liability or disciplinary action, with certain exceptions.

Your Committee received testimony in support of this measure from Ho'omana Pono, LLC; Ho'omanapono Political Action Committee; Stolen Stuff Hawaii; and thirty-five individuals. Your Committee received testimony in opposition to this measure from the Honolulu Police Department and Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO.

Your Committee finds that all states, including Hawaii, have established victims' rights laws that require that victims have certain information, protections, and a limited role in the criminal justice process. Generally, victims have the right to:

- (1) Be treated with dignity and respect;
- (2) Be informed of specific details of the case, including the prosecution, plea offers, court proceedings, and sentencing;
- (3) Protection from threats or harm;
- (4) Apply for compensation;
- (5) Restitution from the offender;
- (6) Prompt return of personal property;
- (7) Be informed of parole proceedings or release from incarceration; and
- (8) Enforcement of victims' rights.

Your Committee further finds that, to be meaningful, victims' legal rights must be enforced. Several states have created offices to receive and investigate reports of violations of victims' rights, while other states have laws that permit victims to assert their rights in court. Many states have included a victim's bill of rights within their state constitutions. This measure aims to increase enforcement of victims' rights in Hawaii by increasing the accountability of state and county officers and employees.

Your Committee has amended this measure by:

- (1) Repealing language that would have provided that failure of state and county officers and employees to carry out or comply with victims' rights provisions may subject them to civil liability;
- (2) Requiring, rather than allowing, failure of state and county officers and employees to carry out or comply with victims' rights provisions to provide a basis for disciplinary action;
- (3) Requiring competent authority to immediately report to the Legislature whenever a disciplinary action is taken due to failure of state and county officers and employees to carry out or comply with victims' rights provisions;
- (4) Inserting an effective date of January 1, 2045, to encourage further discussion; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2189, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2189, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 5; Ayes with Reservations (Chang). Noes, none. Excused, none.

SCRep. 2467 Labor on S.B. No. 2333

The purpose and intent of this measure is to establish a Hawaii Retirement Savings Board to administer the Hawaii Retirement Savings Plan for private sector employees.

Your Committee received testimony in support of this measure from AARP Hawai'i, Hawaii Appleseed Center for Law & Economic Justice, and two individuals. Your Committee received testimony in opposition to this measure from the National Association of Insurance and Financial Advisors. Your Committee received comments on this measure from the Department of Budget and Finance.

Your Committee finds that there is an imminent retirement security crisis in the State, as many individuals do not have access to an employer-sponsored retirement plan. Your Committee further finds that approximately fifty percent of the State's private sector employees work for an employer that does not offer a retirement plan or are not eligible for the plan offered. The lack of opportunity to participate in an employer-provided retirement plan spans all levels of education and earnings. A lifelong savings system that provides individuals with the opportunity to build their assets and attain future financial stability provides the means by which individuals can retire and achieve economic security, improved economic mobility, and reduced wealth disparity.

Your Committee acknowledges that this measure is a work in progress and as such, your Committee has amended this measure by:

- (1) Adding two community representatives to the Hawaii Retirement Savings Board, one to be selected by the President of the Senate and one to be selected by the Speaker of the House of Representatives;
- (2) Adding language to allow for a request for proposals to be issued for a third party to conduct the market analysis;
- (3) Requiring a preliminary report be submitted to the Legislature prior to the Regular Session of 2019 and a final report to be submitted prior to the Regular Session of 2020;
- (4) Authorizing the Department of Budget and Finance to adopt interim rules as necessary for the market analysis;
- (5) Appropriating funds for the market analysis;
- (6) Extending the date by which the retirement savings plan must be established so that individuals may begin making contributions no later than July 1, 2021, rather than July 1, 2020;
- (7) Inserting an effective date of January 1, 2050, to encourage further discussion; and
- (8) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2333, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2333, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2468 (Joint) Government Operations and Higher Education on S.B. No. 2831

The purpose and intent of this measure is to reinstate the President of the University of Hawaii as the chief procurement officer for contracts for construction and construction related professional services furnished by licensees under chapter 464, Hawaii Revised Statutes.

Your Committees received testimony in support of this measure from the University of Hawai'i System, State Procurement Office, and one individual. Your Committees received comments on this measure from one individual.

Your Committees find that procurement for contracts for construction and construction related professional services furnished by licensees under chapter 464, Hawaii Revised Statutes, for the University of Hawaii has been under the control of the Department of Accounting and General Services for the past five years after issues were discovered relating to the University's procurement process and procedures. During that time, the University has made significant changes to its policies and procedures. Your Committees acknowledge the testimony of the University citing a State Procurement Office report indicating that the University is now engaging in some of what the Procurement Office refers to as "best-practices". Accordingly, your Committees find that the University, through the University President, should be given the opportunity to again be in control of its own procurement. However, your Committees find that it is prudent to create a shortened trial-period during which the University can fully demonstrate its commitment to its new policies and procedures designed to remedy the shortcomings which initially precipitated the transfer of procurement authority to the Department of Accounting and General Services. Your Committees also find that in order to maintain proper oversight over the University, the University should submit an annual report detailing capital improvement projects by the University.

Your Committees have amended this measure by:

- (1) Requiring the University of Hawaii to submit an annual report to the Legislature detailing a list of all capital improvement projects approved by the Board of Regents prioritized by each campus;
- (2) Inserting a repeal date of June 30, 2021; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Government Operations and Higher Education that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2831, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2831, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
Government Operations: Ayes, 4. Noes, none. Excused, 1 (Galuteria).
Higher Education: Ayes, 5. Noes, none. Excused, none.

SCRep. 2469 (Joint) Judiciary and Economic Development, Tourism, and Technology and Higher Education on S.B. No. 3037

The purpose and intent of this measure is to appropriate monies for the Office of International Affairs to fund one or more programs sponsored or organized by the University of Hawaii Community Colleges or a four-year campus to implement international college experiences for Hawaii students enrolled at a University of Hawaii campus.

Your Committees received testimony in support of this measure from the University of Hawaii West Oahu, Oahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, and one individual. Your Committees received comments on this measure from the Department of Business, Economic Development, and Tourism; and University of Hawai'i System.

Your Committees find that the opportunity to study abroad helps students to become globally competitive by broadening their views, learning new languages, and being exposed to diverse cultures. Education abroad programs have been demonstrated to contribute to students' success and preparation. This measure will provide resources to give Hawaii's students the opportunity to build upon the cultural and historic ties between the State and nations throughout the Asia-Pacific region and expose students to these nations in an educational and cultural setting.

As affirmed by the records of votes of the members of your Committees on Judiciary, Economic Development, Tourism, and Technology, and Higher Education that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 3037 and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Judiciary: Ayes, 4. Noes, none. Excused, 1 (Gabbard).

Economic Development, Tourism, and Technology: Ayes, 4. Noes, none. Excused, 1 (Baker).

Higher Education: Ayes, 4. Noes, none. Excused, 1 (Keith-Agaran).

SCRep. 2470 Hawaiian Affairs on S.B. No. 1303

The purpose and intent of this measure is to amend the election method of the three at-large seats for the Office of Hawaiian Affairs' Board of Trustees.

Your Committee received testimony in support of this measure from the Hawaiian Affairs Caucus of the Democratic Party of Hawaii; We Are One, Inc.; Honua Consulting; Patients Without Time; Aha Moku O, Inc.; and twenty-eight individuals. Your Committee received testimony in opposition to this measure from Ho'omanapono Political Action Committee and one individual. Your Committee received comments on this measure from the Office of Hawaiian Affairs.

Your Committee finds that there has been a call to amend the current election process of the Office of Hawaiian Affairs' Board of Trustees election. Currently, there are nine positions on the Board and, of the nine, four are at-large positions, which seek to represent the State as a whole. Your Committee believes that it is important to create a fair and just election process that requires candidates to run in head-to-head races for the Board of Trustees to uphold democracy, and doing so requires a change in the current election process. Your Committee believes that the congressional delegates election process may serve as a model for the Board of Trustees election, as the congressional delegates are chosen to represent Hawaii as a whole, similar to the at-large seats of the Board of Trustees.

Your Committee has amended this measure by modeling the elections after the Congressional races by:

- (1) Requiring that of the four at-large seats, two seats will be up for election during each election cycle;
- (2) Of the two seats up for election during each election cycle, requiring one member to be a resident of an urban district and one member to be a resident of a rural district;
- (3) Making the change in the election process and residency requirement for the at-large seats effective beginning with the general election of 2020 but requiring a shortened term for one member elected for an at-large seat without a residency requirement in the general election of 2018; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1303, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1303, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (English, Green).

SCRep. 2471 (Joint) Hawaiian Affairs and Public Safety, Intergovernmental, and Military Affairs and Agriculture and Environment on S.B. No. 2133

The purpose and intent of this measure is to require the counties to establish a framework for the establishment of Hawaiian cultural reserves as a condition of approval for subdivisions or certain condominium property regimes on agricultural and rural lands.

Your Committees received testimony in support of this measure from the Office of Hawaiian Affairs; Carmen Hulu Lindsey, Trustee of the Office of Hawaiian Affairs; Hawaiian Affairs Caucus of the Democratic Party of Hawaii; Ho'omanapono Political Action Committee; Kawaihuelani Center for Hawaiian Language; Hawaiian Civic Club of Honolulu; Ho'omanapono Pono, LLC; We Are One, Inc.; and thirty-six individuals. Your Committees received testimony in opposition to this measure from the Center for Hawaiian Sovereignty Studies and one individual. Your Committees received comments on this measure from the Department of the Attorney General and Department of Planning and Permitting of the City and County of Honolulu.

Your Committees find that Native Hawaiians struggle to perpetuate their traditional practices, particularly the practices that depend on the 'aina. Land use and development, specifically residential development and industrial uses on agricultural and rural lands, have

prevented Native Hawaiians from using these lands for traditional Hawaiian practices, cutting off access to essential resources that have served as the foundation of Native Hawaiian culture. Your Committees find that these lands are instrumental to the preservation and perpetuation of traditional Hawaiian practices and must be protected so that the Native Hawaiian community can be assured that traditional practices are respected in the State. Your Committees recognize the concern regarding the permitting process of setting aside land for Hawaiian cultural reserves without just compensation to the landowner and have requested the concerned party and the Office of Hawaiian Affairs to collaborate to draft amendments to ensure that this measure may protect the practices of Native Hawaiians.

Accordingly, your Committees have amended this measure by:

- (1) Inserting language that requires counties, when developing ordinances or supplemental rules, to consider how the dedication of land for Hawaiian cultural reserves will impact the new subdivision or condominium property regime and that the consideration shall also account for the way previous development or changes to land access have impacted Native Hawaiian traditional and customary practices; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Hawaiian Affairs, Public Safety, Intergovernmental, and Military Affairs, and Agriculture and Environment that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2133, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2133, S.D. 1, and be referred to your Committee on Commerce, Consumer Protection, and Health.

Signed by the Chairs on behalf of the Committees.

Hawaiian Affairs: Ayes, 3. Noes, none. Excused, 2 (English, Galuteria).

Public Safety, Intergovernmental, and Military Affairs: Ayes, 3. Noes, none. Excused, 2 (Baker, Thielen).

Agriculture and Environment: Ayes, 4. Noes, none. Excused, 1 (Ruderman).

SCRep. 2472 (Joint) Hawaiian Affairs and Housing on S.B. No. 2424

The purpose and intent of this measure is to:

- (1) Authorize the construction and use of micro housing units on Hawaiian home lands managed by the Department of Hawaiian Home Lands and exempts such construction from certain laws;
- (2) Authorize the use of the Hawaiian home land fund and Hawaiian home general loan fund to assist in purchasing or renting a micro housing unit on Hawaiian home lands and leased to native Hawaiian beneficiaries; and
- (3) Appropriate funds to the Hawaii Housing Finance and Development Corporation to:
 - (A) Construct micro housing units, subject to certain conditions; and
 - (B) Build the general organizational capacity of native Hawaiian-controlled nonprofit housing developers.

Your Committees received testimony in support of this measure from the Hawaiian Civic Club of Honolulu; Life of the Land; Hawaii Habitat for Humanity; Hawaii Appleseed Center for Law and Economic Justice; Hawaiian Community Assets; Young Progressives Demanding Action - Hawai'i; Oahu County Committee on Legislative Priorities of the Democratic Party of Hawaii; Ho'omanana Pono, LLC; Council for Native Hawaiian Advancement; Ho'omanapono Political Action Committee; and eleven individuals. Your Committees received testimony in opposition to this measure from the Center for Hawaiian Sovereignty Studies. Your Committees received comments on this measure from the Department of Hawaiian Home Lands, Department of the Attorney General, Office of Hawaiian Affairs, and Hawaii Housing Finance and Development Corporation.

Your Committees find that micro housing units are an attempt to address homelessness and to create more affordable housing. The construction of micro housing units on Hawaiian home lands has the potential to address two of the largest problems the State is facing: homelessness and lack of affordable housing. Your Committees find that forty-two percent of homeless people in Hawaii identify as Native Hawaiian and that the State has a responsibility to provide sufficient living arrangements for beneficiaries of the Hawaiian Homes Commission Act. Your Committees believe that micro housing units are a resourceful option with the potential to accommodate more beneficiaries on Hawaiian homestead lands.

Your Committees recognize the difficulty for beneficiaries to obtain the necessary funds to construct a micro housing unit and note that the difficulty is multiplied due to existing law prohibiting beneficiaries from taking out a second mortgage or using equity financing to construct a micro housing unit on their Hawaiian homestead land. In order to address this concern, your Committees have requested various stakeholders to work with the Department of Hawaiian Home Lands to draft language that would authorize beneficiaries to take out a second mortgage or use equity financing in order to construct a micro housing unit on their Hawaiian homestead land. Your Committees respectfully encourage your Committee on Ways and Means to continue the collaborative work to incorporate the draft language into this measure.

Your Committees have amended this measure, as suggested by the Department of Hawaiian Home Lands, by:

- (1) Amending the preamble for accuracy and to clarify that those who lease the micro housing units must meet the minimum Hawaiian blood quantum requirement for lease successorship under the Hawaiian Homes Commission Act, 1920, as amended;
- (2) Deleting the exemption for micro housing units from county permit and building code provisions;
- (3) Allowing the construction and use of any micro housing unit on Hawaiian home lands that have been approved, rather than managed, by the Department of Hawaiian Home Lands;
- (4) Inserting the Department of Hawaiian Home Lands as the expending agency for the two appropriations; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Hawaiian Affairs and Housing that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2424, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2424, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Hawaiian Affairs: Ayes, 3. Noes, none. Excused, 2 (English, Green).

Housing: Ayes, 3. Noes, none. Excused, 2 (Kahele, Nishihara).

SCRep. 2473 Hawaiian Affairs on S.B. No. 2557

The purpose and intent of this measure is to allow Hawaiian homestead lessees who meet the minimum Hawaiian blood quantum requirement to pass their lease to their adopted children.

Your Committee received testimony in support of this measure from the Hawaiian Civic Club of Honolulu, Ho‘omanapono Political Action Committee, and three individuals. Your Committee received comments on this measure from the Department of Hawaiian Home Lands and Department of the Attorney General.

Your Committee finds that the benefit of Hawaiian homestead leases should be available for all members of a family, including those who are adopted into the family; provided that the adopted child also meets the minimum Hawaiian blood quantum requirement for lease succession.

Your Committee has amended this measure as suggested by the Department of Hawaiian Home Lands and Department of the Attorney General by:

- (1) Requiring that adopted children must meet the minimum Hawaiian blood quantum requirement, prior to adoption, in order to be a successor of the lease;
- (2) Deleting the retroactive application of this measure and making the measure apply instead to Hawaiian homestead leases existing as of the effective date of this measure or issued on or after the effective date of this measure; and
- (3) Making technical, nonsubstantive amendments for purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2557, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2557, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Green, Riviere).

SCRep. 2474 (Joint) Hawaiian Affairs and Commerce, Consumer Protection, and Health on S.B. No. 2717

The purpose and intent of this measure is to:

- (1) Establish a cesspool compliance grant program and special fund to assist beneficiaries on Hawaiian home lands with cesspool upgrade, conversion, or connection costs;
- (2) Prohibit a recipient of a cesspool compliance grant from claiming the cesspool upgrade, conversion, or connection income tax credit and vice versa; and
- (3) Appropriate funds for the grant program.

Your Committees received testimony in support of this measure from the Department of Hawaiian Home Lands; Ho‘omana Pono, LLC; Ho‘omanapono Political Action Committee; and Oahu County Committee on Legislative Priorities of the Democratic Party of Hawai‘i. Your Committees received comments on this measure from the Department of the Attorney General, Department of Health, Department of Budget and Finance, and Department of Taxation.

Your Committees find that section 342D-72, Hawaii Revised Statutes, requires the upgrade, conversion, or connection of all cesspools by 2050. There are currently approximately eighty-eight thousand cesspools in the State, discharging roughly fifty-three million gallons of untreated sewage into the groundwater every day. Your Committees note that about ninety-five percent of the State’s drinking water is sourced from underground, making cesspools a significant threat to public health. Your Committees believe that establishing a grant program to assist beneficiaries on Hawaiian home lands to comply with section 342D-72, Hawaii Revised Statutes, to ensure the protection of the public’s health.

Your Committees have amended this measure by:

- (1) Inserting the language in the Hawaii Revised Statutes, rather than the Hawaiian Homes Commission Act, 1920, as amended;
- (2) Clarifying the definitions for “cesspool”, “septic system”, and “aerobic treatment unit system”;
- (3) Authorizing the Department of Hawaiian Homes Lands and Department of Taxation to share information regarding grant recipients and their tax identification number to ensure that recipients of the newly established grant do not claim the cesspool upgrade, conversion, or connection income tax credit; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Hawaiian Affairs and Commerce, Consumer Protection, and Health that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2717, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2717, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Hawaiian Affairs: Ayes, 3. Noes, none. Excused, 2 (English, Green).

Commerce, Consumer Protection, and Health: Ayes, 6. Noes, none. Excused, 1 (Ihara).

SCRep. 2475 Hawaiian Affairs on S.B. No. 2863

The purpose and intent of this measure is to amend the offenses of property damage in the first, second, and third degrees to include damaging property holding cultural or historical significance to Native Hawaiians.

Your Committee received testimony in support of this measure from the Historic Hawai'i Foundation; Ho'omanana Pono, LLC; Ho'omanapono Political Action Committee; Oahu County Committee on Legislative Priorities of the Democratic Party of Hawaii; and six individuals. Your Committee received testimony in opposition to this measure from the Center for Hawaiian Sovereignty Studies. Your Committee received comments on this measure from the Department of the Attorney General.

Your Committee finds that there has been intentional desecration to property that holds cultural or historical significance to Native Hawaiians, such as the damage done to the 'Iolani Palace, statue of Prince Kūhiō, and King Kamehameha statue in the County of Hawai'i. Your Committee believes that there needs to be a more fitting penalty for those who willfully damage culturally and historically important property that Native Hawaiians consider significant in order to better protect and preserve the Hawaiian culture and to educate the public on Hawaiian history. Your Committee recognizes that the definition of property holding cultural or historical significance to Native Hawaiians in this measure, as drafted, is vague and needs refinement.

Your Committee notes for consideration by your Committee on Judiciary that rather than incarcerating an individual who has damaged culturally and historically significant property, requiring the individual to work with organizations that work toward the revitalization or preservation of Hawaiian culture and history may be a more appropriate penalty, as it presents an opportunity to teach the individual the importance and meaning of the property that was damaged.

Your Committee has amended this measure by:

- (1) Clarifying the definition of "property holding cultural or historical significance to Native Hawaiians"; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2863, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2863, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (English, Galuteria).

SCRep. 2476 Hawaiian Affairs on S.B. No. 2984

The purpose and intent of this measure is to prohibit lessees who sell or transfer their interest in a Hawaiian home lands tract from being placed on the waiting list maintained by the Department of Hawaiian Home Lands for an additional lease.

Your Committee received testimony in support of this measure from Council Member Stacy Helm Crivello, Maui County Council; Hawaiian Civic Club of Honolulu; Ho'omanapono Political Action Committee; and one individual. Your Committee received comments on this measure from the Department of Hawaiian Home Lands and the Department of the Attorney General.

Your Committee finds that churning is the practice of obtaining a Hawaiian home lands lease then selling or conveying it to others for a fee or other personal gain, then being placed on the waiting list to receive another lease. Currently, there are 44,429 applications currently in the system, and the numbers continue to grow. Your Committee further finds the large number of applications is due in part to an applicant being allowed to submit more than one application for the different awards of leases, such as pastoral, agricultural, and residential leases, where the applicant is eligible to apply for all three and hoping to receive just one award. With the number of applications continuing to grow, some eligible native Hawaiians may never obtain a lease or remain on the list for an extended number of years before receiving a lease. Your Committee finds this practice of churning unacceptable, as it prevents many native Hawaiians from ever obtaining a lease, and that this practice needs to be prohibited to ensure fair distribution of leases to eligible recipients.

Your Committee has amended this measure, as suggested by the Department of the Attorney General, by:

- (1) Moving the proposed language from section 208 to section 207 of the Hawaiian Homes Commission Act, 1920, as amended;
- (2) Deleting the proposed amendment to section 209, Hawaiian Homes Commission Act, 1920, as amended; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2984, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2984, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Green, Riviere).

SCRep. 2477 (Joint) Commerce, Consumer Protection, and Health and Education on S.B. No. 2655

The purpose and intent of this measure is to:

- (1) Establish licensure requirements for school psychologists to be administered by the Board of Psychology; and
- (2) Amend the composition of the Board of Psychology to include two school psychologists.

Your Committees received testimony in support of this measure from the Hawai'i Association of School Psychologists, Hawai'i Psychological Association, Hawaii Children's Action Network, and eleven individuals. Your Committees received comments on this measure from the Department of Education, Professional and Vocational Licensing Division of the Department of Commerce and Consumer Affairs, Regulated Industries Complaints Office of the Department of Commerce and Consumer Affairs, Board of Psychology, and one individual.

Your Committees find that under existing law, school psychologists are exempt from having to obtain licensure to practice in an educational setting. Your Committees further find that Hawaii is the only state in the country without certification or licensure for school psychologists. Without certification or licensing, the State is unable to ensure that functioning school psychologists are properly qualified and delivering appropriate services to Hawaii's school children. Furthermore, because only certificated or licensed professionals may seek reimbursement under Medicaid, the State is currently unable to bill for any services or evaluations conducted by school psychologists in an educational setting.

Your Committees additionally find that this measure establishes licensure requirements for school psychologists, to be administered by the Board of Psychology. This measure will therefore raise the standards of practice for all school psychologists in Hawaii, which will in turn increase the appropriate delivery of services to those students most in need.

However, your Committees have heard the concerns that this measure's July 1, 2020, date for licensure does not provide a sufficient transition period for Department of Education school psychologist employees to obtain licensure. Although your Committees are sympathetic to these concerns, your Committees note that school psychologist licensure is not a recent or unexpected topic, especially considering Hawaii's status as the lone exception to certification or licensure for these professionals. Nevertheless, your Committees conclude that a three-year transition period is a more appropriate timeframe to enable current school psychologists to obtain licensure. An amendment to address these concerns is therefore needed.

Finally, your Committees note that because Hawaii is the last state in the country without certification or licensure requirements for school psychologists, it is appropriate for the practice of school psychology to be subject to regulation and control by the State, notwithstanding any requirements for a sunrise analysis by the Auditor.

Your Committees have amended this measure by:

- (1) Inserting definitions for "approved private school" and "developmental center";
- (2) Clarifying that each school psychologist shall complete eighteen credit hours of continuing education during each licensing biennium;
- (3) Specifying that beginning on July 1, 2021, rather than July 1, 2020, no person shall engage in the practice of school psychology or hold one's self out as a licensed school psychologist or school psychologist without being licensed as a school psychologist by the Board of Psychology;
- (4) Clarifying that aiding and abetting an unlicensed person to directly or indirectly perform activities requiring a license shall be grounds for disciplinary action by the Board of Psychology;
- (5) Clarifying that of the two initial school psychologist appointees to the Board of Psychology, one shall be appointed for a three-year term;
- (6) Clarifying that all school psychologists employed by the Department of Education shall be licensed by the Board of Psychology by July 1, 2021; and
- (7) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

Your Committees request the School of Psychology at the University of Hawaii at Manoa, in conjunction with the University of Hawaii West Oahu, University of Hawaii at Hilo, and University of Hawaii Maui College to develop curriculum and continuing education requirements to enable school psychologists to become licensed pursuant to this amended measure.

As affirmed by the records of votes of the members of your Committees on Commerce, Consumer Protection, and Health and Education that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2655, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2655, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Commerce, Consumer Protection, and Health: Ayes, 5. Noes, none. Excused, 2 (Nishihara, Ruderman).

Education: Ayes, 4. Noes, none. Excused, 1 (Dela Cruz).

SCRep. 2478 Commerce, Consumer Protection, and Health on S.B. No. 2939

The purpose and intent of this measure is to require the Public Utilities Commission, on or before January 1, 2020, to establish performance incentive and penalty mechanisms that directly tie electric utility revenues to the utility's achievement on performance metrics.

Your Committee received testimony in support of this measure from the Blue Planet Foundation, Hawaii Solar Energy Association, and Sierra Club of Hawai'i. Your Committee received testimony in opposition to this measure from the Hawaiian Electric Company, Inc., and Land Use Research Foundation of Hawaii. Your Committee received comments on this measure from the Division of Consumer Advocacy of the Department of Commerce and Consumer Affairs, Public Utilities Commission, and Kaua'i Island Utility Cooperative.

Your Committee finds that utility rates across the country have traditionally been set using a cost-plus system, wherein utility profits are generally set as a percentage of utility expenditures. Under this type of ratemaking system, electric utilities are not directly rewarded for reducing consumer bills, adding renewable energy, or increasing the resiliency of the system. In contrast, a performance-

based ratemaking system ties utility revenues to the achievement of certain performance benchmarks, which in turn aligns the financial interests of utility shareholders with the interests of a state and ratepayers. Your Committee further finds that this measure therefore establishes a deadline for the Public Utilities Commission to establish performance-based incentive and penalty mechanisms and provides further guidance to the Commission on certain benchmarks that are consistent with state goals and longstanding regulatory guidance.

However, your Committee has heard the concerns that this measure encompasses all electric utilities in the State, including member-owned cooperative electric utilities. According to testimony received by your Committee, because any incentives or penalties allowed in a member-owned cooperative's rates are essentially collected from the cooperative's ratepayers and paid to the cooperative's shareholders -- which are one and the same -- the concept of performance-based financial incentives and penalties is moot, as a member-owned cooperative's interests are already inherently and fundamentally aligned with the interests of its members. Your Committee understands these concerns and concludes an amendment to this measure is therefore necessary.

Your Committee has amended this measure by:

- (1) Clarifying the performance metrics to be considered by the Public Utilities Commission, by:
 - (A) Removing language regarding exceeding the State's renewable portfolio, as this metric is sufficiently covered in the metric on rapid integration of renewable energy sources;
 - (B) Clarifying required consideration of the volatility and affordability of electric rates and bills that customers are asked to pay; and
 - (C) Removing language regarding fair compensation for utility employees, as adoption of this metric could have led to unintended consequences for consumers;
- (2) Exempting member-owned cooperative electric utilities from the requirements of this measure; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2939, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2939, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 1 (Ihara).

SCRep. 2479 Commerce, Consumer Protection, and Health on S.B. No. 2656

The purpose and intent of this measure is to:

- (1) Allow the synchronization of plan participants' medications; and
- (2) Require plans, policies, contracts, or agreements that are offered by health insurers, mutual benefit societies, and health maintenance organization and provide prescription drug benefits, to apply prorated daily cost-sharing rates for prescriptions dispensed by network pharmacies for less than a thirty-day supply.

Your Committee received testimony in support of this measure from the Department of Health, Hawaii Medical Association, Walgreen Co., American Cancer Society Cancer Action Network, and eighteen individuals. Your Committee received comments on this measure from the Department of Commerce and Consumer Affairs, Board of Pharmacy, and Hawaii Medical Service Association.

Your Committee finds that medication synchronization allows a pharmacist to review a patient's medications and sync medication refills so all the refills are able to be picked up on a single day each month. This process, which involves short fills of less than a thirty days' supply, can be challenging at first, as it may take a few refills of smaller quantities to get all of a patient's prescription medications aligned on the same refill or "sync" day. However, the long term-convenience of medication synchronization is popular with patients and leads to increased adherence to prescription medications for chronic conditions. According to testimony received by your Committee, evidence shows that patients who have synced their chronic medications are about thirty percent more adherent than patients who are not in a medication synchronization program.

Your Committee further finds that this measure facilitates synchronization of prescription medication dispensation for Hawaii patients, which will encourage better medication adherence and lead to improved health outcomes for patients.

Your Committee has amended this measure by:

- (1) Clarifying that plans, policies, contracts, or agreements shall permit and apply daily cost-sharing rates for less than a thirty-day supply of a prescription for the purpose of medication synchronization and if a patient requests or agrees to less than a thirty-day supply;
- (2) Clarifying that health insurers, mutual benefit societies, and health maintenance organizations shall not deny coverage for the dispensing of a partial supply of a maintenance medication for the purpose of medication synchronization and if a patient requests or agrees to the partial supply;
- (3) Clarifying that the ability of a network pharmacy to override any denial codes indicating a prescription is being refilled too soon applies only for purposes of medication synchronization;
- (4) Specifying that a network pharmacy shall identify an anchor prescription to which all other prescriptions may be synced for the purposes of medication synchronization and clarifying that any medication dispensed in an unbreakable package shall be considered the anchor prescription;

- (5) Inserting a definition of “unbreakable package”;
- (6) Clarifying that the term “practice of pharmacy” includes the interpretation and evaluation of prescription orders to adjust days’ supply dispensed for purposes of conducting medical synchronization for a patient’s medications;
- (7) Inserting a repeal date of July 1, 2023; and
- (8) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2656, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2656, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 2 (Nishihara, Tokuda).

SCRep. 2480 (Joint) Public Safety, Intergovernmental, and Military Affairs and Government Operations on S.B. No. 3006

The purpose and intent of this measure is to require state projects to be designed and constructed using an alternative code that is most cost effective to a project, subject to certain conditions, including health and safety.

Your Committees received testimony in support of this measure from the Department of Accounting and General Services, Department of Land and Natural Resources, Hawaii Construction Alliance, Hawaii Laborers-Employers Cooperation and Education Trust, Hawaii Regional Council of Carpenters, and Hawaii Laborers Union Local 368. Your Committees received testimony in opposition to this measure from the American Council of Engineering Companies of Hawaii, American Institute of Architects, Electrical Contractors Association of Hawaii, Hawaii Bankers Association, International Association of Plumbing and Mechanical Officials, National Electrical Contractors Association, and Plumbing and Mechanical Contractors Association of Hawaii. Your Committees received comments on this measure from the Hawaii Emergency Management Agency.

Your Committees find that the State’s need for affordable housing is a growing concern that needs to be addressed to ensure public health and safety. To facilitate the construction of affordable public and private projects in the State, your Committees believe that it is in the best interests of the State to keep building costs as low as possible, while ensuring public health and safety. Your Committees also find that building codes, designed to standardize building practices and provide minimum standards for public health and safety, must also address cost efficiencies and investment value in construction. Consequently, your Committees find that there is a need for building codes to take into consideration new technologies, improved materials and methods, and better approaches to public health and safety to meet the needs of communities statewide. Therefore, your Committees find that it is important to provide greater flexibility in the use and application of Hawaii state building codes.

However, your Committees note and recognize concerns raised in testimony by organizations representing electricians regarding the use of any alternative electrical code. As noted in testimony, the National Electrical Code is the industry standard and the only available code with proper minimum requirements for electrical installation and systems, and is therefore the only electrical code that is universally used across all fifty states. Accordingly, your Committees note that if your Committee on Ways and Means chooses to hear this measure, that your Committee on Ways and Means may want to consider exempting the electrician trade from the alternative code.

Your Committees have amended this measure by:

- (1) Making the use of the most cost effective alternative building codes for state projects permissive rather than mandatory;
- (2) Requiring the use of the prescriptive design of an alternative code;
- (3) Clarifying that an alternative code may be used if it has been adopted, in addition to having been approved, by the State Building Code Council;
- (4) Prohibiting any county from denying a permit for state projects using an alternative code;
- (5) Establishing that the same standard of care that exists for services procured for state facilities shall apply to any project using an alternative code; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Public Safety, Intergovernmental, and Military Affairs and Government Operations that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 3006, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 3006, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
Public Safety, Intergovernmental, and Military Affairs: Ayes, 3. Noes, none. Excused, 2 (Baker, Ihara).
Government Operations: Ayes, 5; Ayes with Reservations (Rhoads). Noes, none. Excused, none.

SCRep. 2481 (Joint) Public Safety, Intergovernmental, and Military Affairs and Water and Land on S.B. No. 2087

The purpose and intent of this measure is to:

- (1) Amend section 663-1.5, Hawaii Revised Statutes, the Good Samaritan Law, to provide liability exemptions for owners and operators of any premises, property, or facility where automated external defibrillators and rescue tubes are located; and
- (2) Provide liability exemptions for rescuers who attempt to rescue a person with a rescue tube.

Your Committees received testimony in support of this measure from the Hawaii Kai Lions Club; Oahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i; Rescue Tube Foundation, Inc.; and eighty-two individuals. Your Committees received comments on this measure from the Hawaii Association for Justice.

Your Committees find that promoting the adoption and use of simple, life-saving devices is essential to protect public health and welfare. Your Committees also find that automated external defibrillators and rescue tubes are two simple, cost-effective life saving devices. Strategically placed automated external defibrillators in work places and public buildings has led to the rescue of countless individuals experiencing a heart attack or cardiac arrest. Likewise, the placement of rescue tubes on Kauai, and other areas throughout the State, has led to countless rescues of drowning victims. Your Committees find that these two pieces of life-saving equipment are appropriate for ordinary citizens to use in assisting victims in need and are cost effective. Therefore, your Committees find that the widespread use of these devices should be encouraged.

Your Committees find that individuals and businesses are often reluctant to provide automatic external defibrillators or rescue tubes for fear of liability. Moreover, citizens are often afraid to take action using these devices based on the same fears of liability. Therefore, your Committees find that the State's Good Samaritan Law should be amended to provide liability protection for owners and operators of a premises, property, or facility where automated external defibrillators and rescue tubes are located and for citizens who might use these devices to assist in an emergency situation.

However, your Committees are concerned that the proposed liability protections for owners or operators of any premises, property, or facility where an automated external defibrillator or rescue tube is located are overly broad and would exempt such owners and operators from virtually all premises liability. Your Committees find that the proposed premises liability exceptions should be narrowed to apply only to the storage, maintenance, and use of an automated external defibrillator or rescue tube.

Accordingly, your Committees have amended this measure by:

- (1) Deleting language exempting an owner or operator of any premises, property, or facility where an automated external defibrillator or rescue tube is located from liability except in cases of gross negligence or wanton acts or omissions and replacing it with an exception from liability for any act or omission relating to the storage, maintenance, or use of the automated external defibrillator or rescue tube; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Public Safety, Intergovernmental, and Military Affairs and Water and Land that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2087, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2087, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chairs on behalf of the Committees.

Public Safety, Intergovernmental, and Military Affairs: Ayes, 4. Noes, none. Excused, 1 (Baker).

Water and Land: Ayes, 5. Noes, none. Excused, none.

SCRep. 2482 (Joint) Labor and Human Services and Government Operations on S.B. No. 2906

The purpose and intent of this measure is to statutorily establish and fund the position of the Governor's Coordinator on Homelessness to report directly to the Governor.

Your Committees received testimony in support of this measure from the Governor's Coordinator on Homelessness, Department of Human Services, Department of Land and Natural Resources, City and County of Honolulu Mayor's Office of Housing, Mental Health America of Hawai'i, Institute for Human Services, Hawai'i Appleseed Center for Law & Economic Justice, Parents And Children Together, and Catholic Charities Hawai'i.

Your Committees find that homelessness in Hawaii has reached epidemic proportions, impacting residents and visitors alike. Your Committees further find that although the Governor has appointed a coordinator on homelessness to coordinate homelessness efforts statewide since 2011, and Act 105, Session Laws of Hawaii 2012, established the Hawaii Interagency Council on Homelessness with the Governor's Coordinator on Homelessness to serve as chair, the Governor's Coordinator on Homelessness position has not been statutorily established. This measure codifies the position within the Department of Human Services to better ensure accountability and coordination between the various departments and agencies tasked with reducing homelessness and eliminating barriers to housing through increased communication and the development of strategic plans and benchmarks. This measure also appropriates monies for the position and other expenses for fiscal year 2018-2019.

As affirmed by the records of votes of the members of your Committees on Labor, Human Services, and Government Operations that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2906 and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Labor: Ayes, 3. Noes, none. Excused, 2 (Chang, English).

Human Services: Ayes, 3. Noes, none. Excused, 2 (Harimoto, Wakai).

Government Operations: Ayes, 3. Noes, none. Excused, 2 (Galuteria, Keith-Agaran).

SCRep. 2483 Commerce, Consumer Protection, and Health on S.B. No. 2488

The purpose and intent of this measure is to establish a working group to address the complexities surrounding the topic of reimbursement by health insurance for medical cannabis for qualifying patients.

Your Committee received testimony in support of this measure from the Oahu County Committee on Legislative Priorities of the Democratic Party of Hawaii, Hawaii Educational Association for Licensed Therapeutic Healthcare, Drug Policy Forum of Hawaii, and

five individuals. Your Committee received comments on this measure from the National Association of Mutual Insurance Companies and Legislative Reference Bureau.

Your Committee finds that Act 230, Session Laws of Hawaii 2016, established a legislative oversight group to develop and recommend legislation to improve the medical cannabis dispensary system in the State to ensure safe and legal access to medical cannabis for qualifying patients. Your Committee further finds that the working group explored the potential for medical cannabis costs to be reimbursable through health insurance. However, your Committee finds that the issues surrounding health insurance reimbursement for medical cannabis are complex enough to warrant a separate, dedicated working group modeled on the original working group.

Your Committee further finds that, in light of concerns raised by the Drug Policy Forum of Hawaii and individual testifiers, a plethora of voices are needed to ensure that all relevant interests are heard in the operations of this working group, including the interests of mutual benefit societies, health maintenance organizations, cannabis dispensaries, and adult and minor cannabis-using qualifying patients. Your Committee finds that language modeled on Act 230, Session Laws of Hawaii 2016, which established the original legislative oversight group, is appropriate to include these additional representatives.

Your Committee notes the concerns raised by the National Association of Mutual Insurance Companies but, as this measure deals exclusively with health insurance and not property or casualty insurance, finds that these concerns are not relevant to this measure.

Your Committee has amended this measure by:

- (1) Amending the membership of the working group to:
 - (A) Allow designees of the Chairs of the Senate Committee on Commerce, Consumer Protection, and Health and House Committee on Consumer Protection and Commerce to serve on the working group;
 - (B) Remove the representatives from the Hawaii Medical Service Association, Kaiser Permanente Hawaii, AlohaCare, and Hawaii Education Association for Licensed Therapeutic Healthcare and include instead one representative each from a mutual benefit society, health maintenance organization, licensed cannabis dispensary, and Medicaid managed care plan, to serve at the invitation of the chairs of the working group; and
 - (C) Add an adult cannabis-using qualifying patient and a parent or legal guardian of a minor cannabis-using qualifying patient;
- (2) Authorizing the working group to request assistance and feedback from other stakeholders, as needed; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2488, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2488, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 1 (Espero).

SCRep. 2484 Commerce, Consumer Protection, and Health on S.B. No. 3104

The purpose and intent of this measure is to:

- (1) Establish requirements for pharmacy benefit managers and maximum allowable cost, including the ability of pharmacies to receive comprehensive maximum allowable cost lists and bring complaints within the purview of the Department of Commerce and Consumer Affairs, rather than the Department of Health;
- (2) Clarify the available penalties for violations of maximum allowable cost requirements; and
- (3) Repeal statutory language that prohibits a contracting pharmacy from disclosing the maximum allowable cost list and related information to any third party.

Your Committee received testimony in support of this measure from The Queen's Health Systems; Hawaii Pharmacists Association; Weinstein Pharmacy; KTA Super Stores; Times Supermarket Pharmacy; Molokai Drugs, Inc.; Shiigi Drug Co., Inc.; North Shore Pharmacy and Health Emporium; Kamehameha Pharmacy; and twenty-five individuals. Your Committee received comments on this measure from the Department of Commerce and Consumer Affairs, CVS Health, and Pharmaceutical Care Management Association.

Your Committee finds that a drug's maximum allowable cost is the top limit that a pharmacy benefit manager will pay a pharmacy for multi-source generic drugs, while a maximum allowable cost list is a list of the maximum allowable reimbursement costs of multi-source generic drugs established by a pharmacy benefit manager. In general, no two maximum allowable cost lists are alike and will vary according to drug, pharmacy benefit manager, and health plan sponsor. However, the lack of transparency surrounding maximum allowable cost pricing has enabled pharmacy benefit managers to pay aggressively low reimbursements to pharmacies, while charging significantly higher amounts for the same drug to plan sponsors. Furthermore, because pharmacy benefit managers control the formularies for prices, like those through a maximum allowable cost list, a pharmacy benefit manager has the ability to create pricing uncertainty for pharmacies.

Your Committee further finds that a pharmacy will often fill a prescription without knowing how much the pharmacy will be paid, because the maximum allowable cost list can change at any time without warning. Many small independent pharmacies have seen a drastic reduction in the amount of reimbursement they receive from pharmacy benefit managers, with pharmacies being reimbursed below the cost of acquiring certain medications, sometimes losing up to hundreds of dollars per prescription. According to testimony

received by your Committee, although existing law permits a pharmacy to appeal this reimbursement if it is below cost, almost all of these appeals are denied.

Your Committee additionally finds that independent pharmacies provide many beneficial and free services to their patients. However, the lack of transparency from pharmacy benefit managers and the pattern of below-cost reimbursement have made it increasingly difficult for the few remaining independent pharmacies in Hawaii to continue to provide these free services or even stay in business. This measure therefore promotes transparency associated with pharmacy benefit managers and prescription drug pricing, which will better protect the State's independent pharmacies and Hawaii consumers.

Your Committee has amended this measure by:

- (1) Clarifying that a pharmacy benefit manager shall review and make necessary adjustments to the maximum allowable cost of each drug on a maximum allowable cost list only once every fourteen days;
- (2) Specifying that a pharmacy benefit manager shall reimburse a contracting pharmacy for a drug based on the maximum allowable cost of that drug on the day the drug is dispensed;
- (3) Clarifying that a pharmacy benefit manager shall notify all contracting pharmacies of a change to the maximum allowable cost for any drug, identified by its national drug code, at least seven days prior to initiating the change and permitting this notification to be provided electronically;
- (4) Requiring a pharmacy benefit manager to disclose where an equivalent drug can be obtained at or below the maximum allowable cost, when a maximum allowable cost is upheld on appeal;
- (5) Clarifying that a contracting pharmacy is permitted to reverse and rebill claims if a pharmacy benefit manager establishes a maximum allowable cost that is denied on appeal and requiring the pharmacy benefit manager to pay to the contracting pharmacy the difference between the maximum allowable cost on the day of the claim and the maximum allowable cost being appealed;
- (6) Specifying that any pharmacy benefit manager that refuses a maximum allowable cost reimbursement for a properly documented claim by a contracting pharmacy shall be deemed to have engaged in an unfair or deceptive act or practice in the conduct of trade or commerce;
- (7) Clarifying that the insurance commissioner shall adopt rules to establish a process to subject complaints concerning violations of maximum allowable cost to an external review process and resolve disputed claims;
- (8) Amending the definition of "maximum allowable cost list";
- (9) Changing its effective date to July 1, 2018; and
- (10) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3104, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3104, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 2 (Nishihara, Tokuda).

SCRep. 2485 Water and Land on S.B. No. 2052

The purpose and intent of this measure is to:

- (1) Authorize the Department of Land and Natural Resources to license non-commercial marine fishing;
- (2) Combine the licensure requirements for freshwater game fishing with marine fishing and apply the license to non-commercial freshwater game fishing and marine fishing;
- (3) Include as an expenditure from the sport fish special fund the acquisition of small boat harbors for public fishing or fishery management and enforcement activities specific to fish and other aquatic life conservation;
- (4) Require the Department of Land and Natural Resources to engage in robust public outreach prior to implementation of the non-commercial marine fishing license; and
- (5) Require the Department of Land and Natural Resources to submit a report to the Legislature prior to the convening of the Regular Sessions of 2019 and 2020 regarding certain information relating to non-commercial freshwater and marine fishing licenses.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources, Oahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, The Nature Conservancy, and one individual. Your Committee received testimony in opposition to this measure from two individuals. Your Committee received comments on this measure from the Office of Hawaiian Affairs and three individuals.

Your Committee finds that of the twenty-three coastal states in the United States, Hawaii is the only state that does not require a non-commercial marine fishing registry, permit, or license. Unlike commercial marine fishing, there is very limited data available about the non-commercial marine fishing activity that occurs in Hawaii, including the number of fishers, type and amount of species caught, and uses of the marine life. By combining the licensure requirements for non-commercial freshwater game fishing with non-

commercial marine fishing, this measure establishes a more effective system to oversee fishing and provides a means for the State to effectively manage the use of its saltwater fisheries for non-commercial purposes.

Your Committee has amended this measure by:

- (1) Adopting the language suggested by the Department of Land and Natural Resources that:
 - (A) Inserts language in the purpose section to clarify that the Department of Land and Natural Resources may issue short-term freshwater and marine noncommercial fishing licenses, such as one- or seven-day fishing licenses;
 - (B) Removes section 2, which amends section 187A-9.5, Hawaii Revised Statutes, in order to leave the sport fish special fund unamended and thereby avoid the potential of jeopardizing federal funding associated with this special fund;
 - (C) Requires, rather than authorizes, agents of the Department of Land and Natural Resources to issue non-commercial fishing licenses upon written application and payment of a fee; and
 - (D) Allows the Department of Land and Natural Resources to suspend, in addition to revoke, any non-commercial fishing license for any infraction of the terms and conditions of the license, to provide the Department greater flexibility and discretion in dealing with violators;
- (2) Changing the time period for the resident fee cap of a combined non-commercial fishing license from August 1, 2019, through June 30, 2021, to June 1, 2020, through May 31, 2023;
- (3) Changing the resident fee cap for a combined non-commercial fishing license from \$15 to \$5 per year;
- (4) Making any licensee or applicant who has been convicted of, pled guilty or nolo contendere to, or been granted a deferred acceptance of a guilty plea to a violation of chapter 188, Hawaii Revised Statutes, in the preceding five years ineligible to obtain or renew a non-commercial fishing license;
- (5) Adopting the language suggested by the Office of Hawaiian Affairs that:
 - (A) Requires the rules adopted to implement the non-commercial fishing licensure program to allow for the exercise of Native Hawaiian traditional and customary practices by minimizing any burden on practitioners, and requires this exercise of practices to be a complete defense to a violation of the requirements of a non-commercial fishing license;
 - (B) Requires the Department of Land and Natural Resources to consider and ensure reasonable opportunities for all residents who apply for a non-commercial fishing license to ensure that persons do not face disproportionate and unreasonable burdens in complying with the fishing licensure requirements; and
 - (C) Under the requirement that the Department of Land and Natural Resources engage in robust public outreach, requires the Department to include at least one meeting on each of the seven inhabited islands of the State;
- (6) Establishing that a violation of section 188-50, Hawaii Revised Statutes, is a petty misdemeanor, except for a violation of the prohibition on fishing, taking, or catching freshwater game fish or marine life for non-commercial purposes without first obtaining a non-commercial fishing license, which is a misdemeanor;
- (7) Further extending the delayed enforcement date for the requirement to obtain a non-commercial fishing license to catch marine life to June 1, 2020; and
- (8) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2052, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2052, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Inouye).

SCRep. 2486 Human Services on S.B. No. 2749

The purpose and intent of this measure is to align provisions in the Hawaii Revised Statutes relating to child support guidelines to be in compliance with federal regulations.

Your Committee received testimony in support of this measure from the Department of the Attorney General. Your Committee received testimony in opposition to this measure from the Judiciary.

Your Committee finds that the federal final rule amendments to guidelines for child support payments require states to implement such amendments in their child support guidelines. Your Committee further finds that child support amounts established based on guidelines that consider specific factors relating to the parents' situation are more reliable, result in less conflict between the parents, and improve the collection of child support payments. This measure provides more opportunity for the public to be involved in the review of child support guidelines, access to information on how the review was conducted, and overall access to the guidelines.

Your Committee notes that if this measure is not enacted, the state plan that is administered by the Child Support Enforcement Agency may not be approved and federal funding provided to the Child Support Enforcement Agency and the Department of Human Services may be at risk.

Your Committee further recognizes the Judiciary's and Department of the Attorney General's concerns about the collection and analyzing of child support payment data, lack of funding to perform additional functions, and the potential for the Judiciary to be called as a witness if required to collect and track child support payments, or to be precluded from deciding case involving allegations of

child support payments. Your Committee requests that your Committees on Judiciary and Ways and Means further examine those issues and concerns should they decide to hear this measure.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2749, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2749, S.D. 1, and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Wakai).

SCRep. 2487 Human Services on S.B. No. 2791

The purpose and intent of this measure is to:

- (1) Support ho'opono mamo, the new Hawaii youth diversion system, through the establishment of the Kawailoa Youth and Family Wellness Center, to be operated and maintained by the Hawaii Youth Correctional Facilities;
- (2) Improve and enhance Hawaii's juvenile justice system by strengthening services available to prevent juvenile delinquency and recidivism and to support rehabilitation; and
- (3) Re-invest savings from the reduction of the number of youth in secure confinement at the Hawaii Youth Correctional Facilities into services to prevent juvenile delinquency, specifically mental health and substance abuse treatment and rehabilitation, and to provide a more successful and supportive community reentry transition.

Your Committee received testimony in support of this measure from the Department of Human Services, Office of Hawaiian Affairs, Office of Youth Services, Hawaii Youth Services Network, Community Alliance on Prisons, Residential Youth Services & Empowerment, Blueprint for Change, Oahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, Hale Kipa, Ho'omanopono Political Action Committee, Friends of Youth Outreach, and three individuals. Your Committee received testimony in opposition to this measure from one individual. Your Committee received comments on this measure from the Department of Health and Department of Education.

Your Committee finds that the Legislature enacted Act 201, Session Laws of Hawaii 2014, to reform Hawaii's juvenile justice system, commit to improve outcomes for Hawaii's youth in the juvenile justice system, and maximize the effective use of the Hawaii Youth Correctional Facilities' appropriations and treatment options. Your Committee further finds that critical services to reduce delinquency, including mental health treatment, prevention of youth homelessness, vocational services, and substance abuse treatment, are still insufficiently resourced and inaccessible to Hawaii's at-risk youth population. This measure will allow youth and young adults, between the ages of eighteen and twenty-four, who are in the juvenile justice system to receive assistance and services needed to prevent further delinquency and recidivism.

Your Committee recognizes that allegations of an increase in juvenile arrests, particularly in Waikiki, were not caused by homeless youth and that allegations like this further stigmatize this population.

Your Committee also notes that the Department of Education has expressed the intent to meet with the Department of Human Services and Department of Health to clarify the educational needs of the youth and young adults at the proposed Kawailoa Youth and Family Wellness Center.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2791, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2791, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4; Ayes with Reservations (Green, Tokuda). Noes, none. Excused, 1 (Harimoto).

SCRep. 2488 (Joint) Human Services and Housing and Commerce, Consumer Protection, and Health on S.B. No. 2330

The purpose and intent of this measure is to:

- (1) Require the Department of Human Services, in consultation with the Department of Health, to establish a pilot project to operate a facility to provide shelter and mental health treatment for homeless individuals with severe mental illness who are subject to court-ordered involuntary hospitalization to a psychiatric facility; and
- (2) Appropriate funds for the pilot project.

Your Committees received testimony in support of this measure from The Institute for Human Services, League of Women Voters, Citizens for a Safer Windward, Hawai'i Psychological Association, Hawaii Disability Rights Center, Oahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, and ten individuals. Your Committees received comments on this measure from the Governor's Coordinator on Homelessness, Department of Human Services, Department of the Attorney General, and Department of Health.

Your Committees find that the State has a gap in services for homeless individuals with severe mental illness, as these individuals often cycle between homelessness, emergency room treatment, incarceration, and hospitalization. Your Committees further find that there are limited housing and service programs for homeless individuals with severe mental illness who have been discharged from

acute care. Providing post-acute care and supportive services for these individuals will provide them necessary time to transition into healthier and successful lives.

Your Committees have amended this measure by:

- (1) Deleting language requiring the Department of Human Services, in consultation with the Department of Health, to establish and report on a pilot project to operate a facility to provide shelter and mental health treatment for homeless individuals with severe mental illness who are subject to court-ordered involuntary hospitalization to a psychiatric facility;
- (2) Inserting language requiring the Department of Human Services, in consultation with the Department of Health, to issue a request for proposal to contract for services and housing for homeless individuals who are discharged from acute care and require further medical assistance and supportive services;
- (3) Amending the purpose of the appropriation to be for costs necessary for services and housing for homeless individuals with severe mental illness who have been discharged from acute care and require further medical treatment and other supportive services; and
- (4) Amending section 1 of the measure to reflect its amended purpose.

As affirmed by the records of votes of the members of your Committees on Human Services, Housing, and Commerce, Consumer Protection, and Health that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2330, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2330, S.D. 1, and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chairs on behalf of the Committees.

Human Services: Ayes, 4. Noes, none. Excused, 1 (Harimoto).

Housing: Ayes, 3. Noes, none. Excused, 2 (Green, Nishihara).

Commerce, Consumer Protection, and Health: Ayes, 6. Noes, none. Excused, 1 (Ihara).

SCRep. 2489 (Joint) Human Services and Commerce, Consumer Protection, and Health and Judiciary on S.B. No. 2586

The purpose and intent of this measure is to:

- (1) Authorize the Department of Health, upon receipt of a report that an entity is operating a care facility without the required certification or licensure, to investigate to determine the validity of that report, subject to certain conditions;
- (2) Establish certain actions the Department may take upon confirming a report of the operation of a care facility without certification or licensure;
- (3) Establish a misdemeanor offense for intentionally or knowingly obstructing or interfering with the Department's right of entry to a facility for its investigation; and
- (4) Establish penalties for intentionally operating a care facility without a certificate or license and knowingly referring or transferring patients to an uncertified or unlicensed care facility.

Your Committees received testimony in support of this measure from the Department of Health, Office of the Long Term Care Ombudsman, League of Women Voters, and eight individuals. Your Committees received testimony in opposition to this measure from Maile Case Management, Comprehensive Innovations for Senior Services, and nineteen individuals. Your Committees received comments on this measure from Healthcare Association of Hawaii, AARP Hawaii, and Chinatown Gateway Plaza Tenant Association.

Your Committees find that health care facilities serve a vital role in providing care to all people of Hawaii, especially elderly individuals who depend on services provided by licensed healthcare professionals and facilities. Your Committees further find that over the past few years, the number of potentially unlicensed care facilities has increased and may pose significant risk to the health, safety, and welfare of patients. In addition, the Department of Health has been hampered in conducting investigations on unlicensed care facility operators who refuse to speak with the Department's investigators or to allow entry for the purpose of determining if the facility is operating without a certificate or license. Authorizing the Department to investigate care facilities will ensure that all care facilities are certified and licensed to provide the necessary care to their patients.

Your Committees have amended this measure by:

- (1) Inserting a purpose section;
- (2) Inserting definitions for the terms "care facility", "department", "health care provider", "person", and "vulnerable adult";
- (3) Requiring the Department of Health to exercise its right of entry pursuant to a warrant; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Human Services, Commerce, Consumer Protection, and Health, and Judiciary that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2586, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2586, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Human Services: Ayes, 4. Noes, none. Excused, 1 (Wakai).

Commerce, Consumer Protection, and Health: Ayes, 6. Noes, none. Excused, 1 (Espero).

Judiciary: Ayes, 4. Noes, none. Excused, 1 (Kim).

SCRep. 2490 (Joint) Water and Land and Judiciary on S.B. No. 2079

The purpose and intent of this measure is to protect sharks and rays for ecological purposes, their value to the ocean recreation industry, and their value to Native Hawaiian cultural practices by:

- (1) Prohibiting and imposing penalties and fines for knowingly capturing, killing, or taking a shark within state marine waters, and providing exceptions for certain special activity permits, the exercise of Native Hawaiian gathering rights and traditional cultural practices, and the protection of public safety; and
- (2) Expanding the existing prohibition on knowingly capturing or killing a manta ray to apply to all rays.

Your Committees received testimony in support of this measure from the Department of Land and Natural Resources; The Humane Society of the United States; Oahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i; For the Fishes' West Hawaii Humane Society; Keiko Conservation International; Animal Rights Hawai'i; Hawaiian Civic Club of Honolulu; Center for Hawaiian Sovereignty Studies; One Ocean Research; One Ocean Global Team Maui; Ho'omana Pono, LLC; Pony Wave; and approximately two hundred sixty individuals. Your Committees received testimony in opposition to this measure from two individuals. Your Committees received comments on this measure from the Office of Hawaiian Affairs.

Your Committees find that sharks and rays are extremely important to ocean ecosystems. Sharks and rays are more vulnerable than most other fish species. They are long-lived and slow-growing, start reproducing at an advanced age, and produce relatively few offspring per year. Protection for sharks and rays ultimately means healthier, more resilient oceans and reefs that are better able to withstand pressures on the ocean ecosystem from climate change and pollution. Sharks and rays on the reefs not only play important ecological roles, but are also valued figures in Hawaiian culture and are important economically to ocean recreation industries and to tourism in Hawaii. By imposing penalties and fines to protect sharks and all rays in state marine waters, this measure recognizes the benefits of maintaining viable populations of these species.

Your Committees have amended this measure by:

- (1) Adopting the language suggested by the Department of Land and Natural Resources to add knowingly possessing, abusing, or entangling a shark or ray, whether alive or dead, to the list of prohibited types of actions upon a shark or ray;
- (2) Expanding the list of prohibited types of actions upon a ray to include knowingly taking a ray;
- (3) Removing the exemption for the exercise of Native Hawaiian gathering rights and traditional cultural practices from the prohibition on shark takings, and adding language to clarify that nothing in that offense shall be construed to restrict the exercise of Native Hawaiian gathering rights and traditional cultural practices protected pursuant to the state constitution;
- (4) Adding language to clarify that nothing in the prohibition on the taking of rays shall be construed to restrict the exercise of Native Hawaiian gathering rights and traditional cultural practices protected pursuant to the state constitution;
- (5) Adding the Hawaiian name manō for sharks and hīhīmanu for rays to the respective section titles of the two prohibitions;
- (6) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (7) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Water and Land and Judiciary that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2079, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2079, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
 Water and Land: Ayes, 3. Noes, none. Excused, 2 (Inouye, Thielen).
 Judiciary: Ayes, 4. Noes, none. Excused, 1 (Thielen).

SCRep. 2491 Commerce, Consumer Protection, and Health on S.B. No. 3053

The purpose and intent of this measure is to legalize the manufacturing of edible cannabis products for medical purposes and establish basic regulations on edible cannabis products.

Your Committee received testimony in support of this measure from the Oahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, Drug Policy Forum of Hawaii, and five individuals. Your Committee received testimony in opposition to this measure from the Department of Health, Honolulu Police Department, Maui Police Department, Hawaii Family Forum, Hawaii Catholic Conference, and Department of the Prosecuting Attorney of the City and County of Honolulu. Your Committee received comments on this measure from the Department of the Attorney General.

Your Committee finds that several states permit the sale of edible cannabis products, either for medical or recreational use. These states generally place restrictions on the edible cannabis products, such as limiting the amount of psychoactive ingredients per serving, banning manufacturers from making candy-like edibles that may attract children, and requiring proper labeling.

Your Committee has heard the concerns of the Department of Health, Department of the Attorney General, and other testifiers about the risk of confusion and contamination between edible cannabis products and food, and about the quality control issues associated with production of edible cannabis products in home or substandard kitchens or in a commercial kitchen that also produces non-cannabis food products. Your Committee has also heard the concerns of the Honolulu Police Department, Maui Police Department, Hawaii Family Forum, Hawaii Catholic Conference, and Department of the Prosecuting Attorney of the City and County of Honolulu with respect to the increased risk of exposure to children. However, your Committee finds that the medical cannabis law provides for development of medical cannabis products other than the dried flowers of the cannabis plant. Thus, this measure warrants further discussion.

Your Committee has amended this measure by:

- (1) Based on amendments requested by the Department of Health, amending the health, safety, and sanitation standards regarding the manufacture of manufactured cannabis products by:
 - (A) Requiring those products to be manufactured in a facility that meets minimum sanitary requirements that are at least equivalent to standards for food establishments provided for in chapter 11-50, Hawaii Administrative Rules;
 - (B) Prohibiting the manufacturing of those products in a home kitchen or a facility permitted as a food establishment; and
 - (C) Making a conforming amendment to the definition of “edible cannabis products”;
- (2) Inserting an effective date of January 1, 2050, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3053, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3053, S.D. 1, and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 1 (Espero).

SCRep. 2492 (Joint) Hawaiian Affairs and Water and Land and Judiciary on S.B. No. 2136

The purpose and intent of this measure is to:

- (1) Establish \$35,000,000 as the Office of Hawaiian Affairs’ pro rata share of the public land trust;
- (2) Appropriate funds for the underpayment of the pro rata share to the Office of Hawaiian Affairs for the period from July 1, 2012 to June 30, 2018;
- (3) Require the Department of Land and Natural Resources to provide an annual accounting of receipts from lands within the public trust pursuant to section 5(f) of the Admissions Act; and
- (4) Establish a public land trust revenues committee to periodically study and make recommendations regarding the Office of Hawaiian Affairs’ annual pro rata share of income and proceeds from lands in the public land trust.

Your Committees received testimony in support of this measure from the Office of Hawaiian Affairs; Stacy Helm Crivello, Councilmember of the County of Maui; Susan L. K. Lee Loy, Councilmember of the County of Hawai‘i; Hawaiian Civic Club of Honolulu; KAHEA: The Hawaiian Environment Alliance; Hawaiian Affairs Caucus of the Democratic Party of Hawaii; Kalihi-Palama Hawaiian Civic Club; Ho‘omanapono Political Action Committee; Oahu County Committee on Legislative Priorities of the Democratic Party of Hawaii; Society for Hawaiian Archaeology; We Are One, Inc.; United Public Workers; and twenty-four individuals. Your Committees received testimony in opposition to this measure from the Department of Transportation, Common Cause Hawaii, and Center for Hawaiian Sovereignty Studies. Your Committees received comments on this measure from the Office of the Governor, Department of the Attorney General, Department of Budget and Finance, University of Hawai‘i, Department of Land and Natural Resources, and League of Women Voters.

Your Committees find that Act 178, Session Laws of Hawaii 2006 (Act 178), established the Office of Hawaiian Affairs’ annual pro rata share of income and proceeds from lands in the public land trust as \$15,100,000. This amount was based in part on certain ancillary receipts from state airports and was supported by testimony of the Department of the Attorney General. Act 178 was intended as an interim measure to ensure that the Office of Hawaiian Affairs received its pro rata portion of the public land trust until the Legislature took further action and until more data on receipts generated by the public land trust became available. The amount determined in Act 178 was used in 2001 and most recently in 2006, but enough time has elapsed that the amount should be considered for adjustment. Your Committees find that it is time to establish a new amount. The idea of periodically revisiting the Office of Hawaiian Affairs’ interim amount was supported by testimony of the Office of Hawaiian Affairs, Department of the Attorney General, and Department of Budget and Finance.

Consistent with the 1997 Federal Airport Forgiveness Act that states its restriction on airport fund transfers does not affect the State’s obligation to Native Hawaiians, and past actions by the Legislature to transfer to the Office of Hawaiian Affairs analogous receipts for revenue generated at the airport, your Committees note that this measure uses revenue generated from the use of lands in the public land trust at the airport to calculate the Office of Hawaiian Affairs’ new interim amount.

Further, your Committees note that section 5(f) of the Admissions Act states that certain ceded lands, “together with the proceeds from the sale or other disposition of any such lands and the income therefrom, shall be held by said State as a public trust for the support of the public schools and other public educational institutions, for the betterment of the conditions of native Hawaiians . . .” Your Committees emphasize that funding for Hawaiian immersion schools and payments to the Office of Hawaiian Affairs are consistent with the purposes set forth in the Admissions Act.

Your Committees understand the frustration felt by the Office of Hawaiian Affairs regarding the receipt of its pro rata share from other state agencies. While the amount remains debatable amongst the state agencies, your Committees believe that a solution is necessary. Your Committees suggest that the Office of Hawaiian Affairs consider the possibility of accepting land in lieu of any cash payments due to the Office upon passage of this measure, to better address the needs of the Office of Hawaiian Affairs.

Your Committees have amended this measure by:

- (1) Blanking out the pro rata amount and appropriation amount;

- (2) Replacing the Department of Land and Natural Resources with the Department of Budget and Finance as the agency responsible for providing an accounting for all receipts from lands described in section 5(f) of the Admission Act for the prior fiscal year;
- (3) Inserting language that the airport revenue, as well as any shortfall in the payments due to the Office of Hawaiian Affairs, shall be equitably shared by each agency;
- (4) Allowing the Governor, President of the Senate, Speaker of the House of Representatives, Chairperson of the Board of Trustees of the Office of Hawaiian Affairs, and other named members to authorize designees to the Public Lands Revenue Committee; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

Your Committees note that although the monetary amounts are blank, the Office of Hawaiian Affairs' testimony requests that the pro rata share be \$35,000,000 per year, and the back payment be a one-time transfer of \$119,000,000.

As affirmed by the records of votes of the members of your Committees on Hawaiian Affairs, Water and Land, and Judiciary that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2136, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2136, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Hawaiian Affairs: Ayes, 4. Noes, none. Excused, 1 (Green).

Water and Land: Ayes, 3. Noes, none. Excused, 2 (Inouye, Thielen).

Judiciary: Ayes, 3. Noes, none. Excused, 2 (Kim, Thielen).

SCRep. 2493 (Joint) Hawaiian Affairs and Higher Education and Judiciary on S.B. No. 2687

The purpose and intent of this measure is to appropriate funds to the University of Hawaii to translate the Hawaii State Constitution into the Hawaiian language.

Prior to the public hearing on this measure, your Committees posted on the Legislature's website for public review and input a proposed S.D. 1 draft (Proposed Draft), and notified the public that your Committees would be accepting testimony on this draft. The Proposed Draft included a Part II to the measure that would add a new section to chapter 601, Hawaii Revised Statutes, to require a court to provide interpreter services if any party to a proceeding requests that the proceeding be conducted in the Hawaiian language.

Your Committees received testimony in support of the Proposed Draft from the Judiciary, Office of Hawaiian Affairs, University of Hawaii System, University of Hawaii at Hilo, fourteen members of 'Aha Pūnana Leo, 'Ahahui Sīwila 'o Ke Aloha 'Aīna, Hawai'i Center for Food Safety, Hawaiian Civic Club of Honolulu, Ho'omanā Pono, LLC, Ho'omanāpono Political Action Committee, Ka Lāhui Hawai'i Political Action Committee, Keaukaha General Store, Kuamoo Foundation, Lost Kingdom Klothing, National Coalition of Native American Language Schools and Programs, and one hundred forty-three individuals.

Your Committees received testimony in opposition to the Proposed Draft from the Center for Hawaiian Sovereignty Studies.

Your Committees received comments on the Proposed Draft from the Maui Department of the Prosecuting Attorney and three individuals.

Your Committees are keenly aware that during a dark chapter in Hawaii's history, use of the Hawaiian language was banned in public and private schools in 1896; teachers were subject to termination of employment for speaking Hawaiian with students, and students were punished for speaking Hawaiian at school. Use of the Hawaiian language was also prohibited for government business by the Organic Act of 1900. The Hawaiian language, Hawaiian culture, and Native Hawaiian ancestry came to be viewed negatively, relative to the Western culture of Hawaii's colonizers. Although the Hawaiian cultural renaissance and Constitutional Convention of 1978 helped Native Hawaiians reclaim their dignity by, among other things, recognizing Hawaiian as an official language of the State, establishing the Office of Hawaiian Affairs, and laying the groundwork for the return of Kahoolawe as a cultural resource to the State, the Hawaiian language itself was on a path to extinction. In 1978, there were only approximately two thousand Hawaiian speakers left. By the 1980s, the number of fluent Hawaiian speakers under the age of eighteen had dwindled to fifty.

The tide began to turn when concerned parents, who realized the Hawaiian language would die if not passed on to the next generation, created the 'Aha Pūnana Leo Hawaiian language immersion preschools. The first such school opened in 1984, two more followed in 1985, and twelve preschools and two infant-toddler programs that span five islands exist today. Other significant developments include: the Department of Education's establishment of a Hawaiian Language Immersion Program in 1986 that currently offers Hawaiian language instruction for grades K-12; the University of Hawaii at Manoa's Kawaiuelani Center for Hawaiian Language that offers undergraduate and graduate degree programs in Hawaiian and training of teachers for Hawaiian language immersion schools; and the University of Hawaii at Hilo's Ka Haka 'Ula O Ke'elikōlani College of Hawaiian Language that has the distinction of being the world's first college to provide instruction through a Hawaiian language medium.

Your Committees find that existing constitutional and statutory provisions illustrate the importance of the Hawaiian language in the State and justify its expanded use in official government settings. These provisions include:

- (1) Enactment of Act 207, Session Laws of Hawaii 1978, which established 'Ōlelo Hawai'i, the Hawaiian language, as the native language of Hawaii. See section 5-6.5, Hawaii Revised Statutes;
- (2) Recognition of the Hawaiian language as an official language of the State. See Article XV, section 4, of the Constitution of the State of Hawaii;

- (3) Requiring the State to promote “the study of Hawaiian culture, history and language” and provide for a Hawaiian education program and using community expertise “as a suitable and essential means in furtherance of the Hawaiian education program.” See Article X, section 4, of the Constitution of the State of Hawaii;
- (4) Recognition by Congress that the right of Native Hawaiians to “express themselves” through the use of the Hawaiian language “*shall not be restricted in any public proceeding*, including publicly supported education programs” (italic emphasis added). See Native American Languages Act of 1990, 25 U.S.C. 2901 et seq.;
- (5) Affirmation by the Legislature in 1992 of the importance of the Hawaiian language in government, by authorizing the use of kahakō and ‘okina in documents prepared by and for the government, its agencies, and its officials. See section 1-13.5, Hawaii Revised Statutes; and
- (6) Designation of February as Mahina ‘Ōlelo Hawai‘i or Hawaiian Language Month via Act 28, Session Laws of Hawaii 2013, which was the first law to be introduced, enacted, and published in ‘Ōlelo Hawai‘i since 1943. See section 8-24, Hawaii Revised Statutes.

Your Committees also find that while there is renewed interest in studying the Hawaiian language and ample opportunities exist to do so in academic settings today, the State’s legal infrastructure has not kept pace with the ever-growing population of Hawaiian language speakers. A well-publicized example is the recent incident on Maui involving an associate professor of Hawaiian Studies at the University of Hawaii Maui College who was penalized by the court for expressing himself in Hawaiian during criminal proceedings that arose from his participation in a protest against construction of the Daniel K. Inouye Solar Telescope atop Haleakala. A warrant was issued for the associate professor’s arrest when he refused to identify himself on the record in English and spoke in Hawaiian instead. The warrant was later withdrawn.

Your Committees further find that, historically, Hawaiian language speakers were accommodated by the Judiciary. Although the use of English had become increasingly prevalent in Hawaii’s courts by 1876, Hawaiian translations of English language indictments were provided upon request, and foreigners appointed to district judgeships were required to be proficient in the Hawaiian language. It was not until the Organic Act of 1900, when persons who were not proficient in English were disqualified from jury service, that English became the exclusive de facto language of the court system.

Your Committees recognize that the State’s modern-day Judiciary has been respectful of the Hawaiian culture and has begun to modernize legal infrastructure to support the use of Hawaiian in the courts. A recent example is the work of the Judiciary’s Hawaiian Language Web Feasibility Task Force and its 2015 report to the Legislature that identified a number of ways the Judiciary can be more responsive to the needs of Hawaiian language speakers. Your Committees also recognize and appreciate the Judiciary’s policy as of January 26, 2018, to ensure that an interpreter may be used in court proceedings when a party wishes to communicate in Hawaiian. Accordingly, your Committees find that the passage of this Act is consistent with prior precedents and furthers the goal of providing Hawaiian language speakers meaningful opportunities to conduct official business in Hawaiian.

Moreover, your Committees find that, in order to give the Hawaiian language genuine co-equal status with English, the State must create meaningful opportunities for use of Hawaiian in public life, especially in the arena of civic engagement; otherwise, its constitutional status as an official language of the State amounts to nothing more than mere tokenism.

Your Committees have amended this measure by adopting the Proposed Draft with the following further amendments:

- (1) Deleting a reference in the measure’s preamble to the State Constitution being published in the English language;
- (2) Clarifying that the requirement that courts provide interpreter services, if any party to a proceeding requests that the proceeding be conducted in the Hawaiian language, applies to the extent reasonably possible;
- (3) Adding an appropriation for the establishment of one full-time equivalent, civil service exempt position in the Judiciary to provide interpreter services in the Hawaiian language; and
- (4) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

Your Committees intend that the Hawaiian language interpreter services provided for in this measure be utilized by bona fide speakers of the Hawaiian language.

As affirmed by the records of votes of the members of your Committees on Hawaiian Affairs, Higher Education, and Judiciary that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2687, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2687, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Hawaiian Affairs: Ayes, 5. Noes, none. Excused, none.

Higher Education: Ayes, 4. Noes, none. Excused, 1 (Kidani).

Judiciary: Ayes, 4. Noes, none. Excused, 1 (Thielen).

SCRep. 2494 (Joint/Majority) Economic Development, Tourism, and Technology and Public Safety, Intergovernmental, and Military Affairs and Government Operations on S.B. No. 2702

The purpose and intent of this measure is to:

- (1) Establish the Hawaii Aerospace Development Corporation;
- (2) Transfer the rights, powers, functions, and duties of the Office of Aerospace Development and Pacific International Space Center for Exploration Systems to the Hawaii Aerospace Development Corporation; and
- (3) Repeal the Office of Aerospace Development and the Pacific International Space Center for Exploration Systems.

Your Committees received testimony in support of this measure from the University of Hawai'i and one individual. Your Committees received testimony in opposition to this measure from the State Procurement Office and three individuals. Your Committees received comments on this measure from the Department of Business, Economic Development, and Tourism; Department of Budget and Finance; Department of Taxation; Office of Information Practices; Life of the Land; RedWorks Construction Technologies Inc.; and four individuals.

Your Committees find that Hawaii plays an important role in the development of the aerospace industry, given Hawaii's strategic near-equatorial location, substantial telemetry, space surveillance, and resident expertise in a broad range of aerospace-related technologies. Your Committees further find that combining the resources, goals, and expertise of the Office of Aerospace Development and Pacific International Space Center for Exploration Systems will allow the State to direct its efforts in advancing Hawaii in the aerospace industry.

Your Committees have amended this measure by:

- (1) Deleting language that exempts the Hawaii Aerospace Development Corporation from the Hawaii Public Procurement Code to solicit competitive sealed bids for certain contracts;
- (2) Adopting the language suggested by the Office of Information Practices that makes the confidentiality provision more consistent with the Uniform Information Practices Act and the Sunshine Law;
- (3) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Economic Development, Tourism, and Technology, Public Safety, Intergovernmental, and Military Affairs, and Government Operations that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2702, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2702, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Economic Development, Tourism, and Technology: Ayes, 3; Ayes with Reservations (Thielen). Noes, none. Excused, 2 (Baker, Galuteria).

Public Safety, Intergovernmental, and Military Affairs: Ayes, 4; Ayes with Reservations (Ihara, Nishihara, Thielen). Noes, none. Excused, 1 (Baker).

Government Operations: Ayes, 3; Ayes with Reservations (Galuteria, Keith-Agaran, Kim). Noes, 1 (Ruderman). Excused, 1 (Rhoads).

SCRep. 2495 (Joint) Economic Development, Tourism, and Technology and Commerce, Consumer Protection, and Health on S.B. No. 2704

The purpose and intent of this measure is to establish the policy framework to upgrade and support next generation wireless broadband infrastructure.

Your Committees received testimony in support of this measure from the Office of Enterprise Technology Services; Yuki Lei Sugimura, Councilmember of the Maui County Council; CTIA; Sprint; Verizon; Hawaiian Telcom; Maui Hotel and Lodging Association; Hawaiian Electric Company; T-Mobile US; AT&T; Hawai'i Lodging and Tourism Association; and Transform Hawai'i Government. Your Committees received testimony in opposition to this measure from the Office of the Mayor, County of Hawai'i; and Spectrum. Your Committees received comments on this measure from the Department of Business, Economic Development, and Tourism; Department of Commerce and Consumer Affairs; Office of the Mayor, City and County of Honolulu; and Department of Transportation.

Your Committees find that Hawaii residents continue to demand access to wireless products and services, and currently there are more wireless devices in Hawaii than there are people. The State must be prepared to meet these demands by updating its wireless network and facilities to support the necessary networks. Your Committees further find that updating the State's wireless network begins with establishing laws that permit the application of attachments to state-owned or county-owned infrastructure, such as utility poles.

Your Committees recognize the concerns of establishing a permitting, application, review, and approval process in order to upgrade the wireless broadband infrastructure in the State. Your Committees have received testimony stating the concerns of public safety, prohibition on regulation of deployment, unfair imposition of fees, interference with county uses of county poles, community concerns, and other concerns regarding the process. Your Committees have worked to address the concerns of certain parties involved and feel that the collaborative work to address certain concerns are reflected in proposed amendments to this measure.

Accordingly, your Committees have amended this measure by:

- (1) Applying this measure to communications service providers in addition to wireless providers and making this measure inapplicable to utility poles and infrastructure owned by investor owned utility companies;
- (2) Inserting definitions for "communications service" and "wireline backhaul" and updating various definitions;
- (3) Prohibiting wireless carriers from building out wireline backhaul and clarifying that this measure shall not be construed to modify existing permitting processes for the placement of wireline backhaul in the right of way;
- (4) Allowing an applicant to file a consolidated application for up to twenty-five small wireless facilities within a three square mile radius; provided that the applicant, upon receiving a permit for a consolidated application, publishes notice of the permit within ten days of receiving the permit;

- (5) Clarifying that a communications service provider is exempt from the permitting requirement for replacement of small wireless facilities with small wireless facilities that are substantially similar or the same size or weight or smaller, subject to notification requirements;
- (6) Allowing the State and counties to reserve space for up to twelve months on their utility poles, subject to certain conditions;
- (7) Requiring the State or county to conduct an evaluation of the sufficiency of the time periods allowed under this measure for the State and counties to notify applicants in writing that an application is complete and to approve or deny the application after receipt; and
- (8) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Economic Development, Tourism, and Technology and Commerce, Consumer Protection, and Health that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2704, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2704, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Economic Development, Tourism, and Technology: Ayes, 3. Noes, none. Excused, 2 (Baker, Thielen).

Commerce, Consumer Protection, and Health: Ayes, 5. Noes, none. Excused, 2 (Espero, Nishihara).

SCRep. 2496 Economic Development, Tourism, and Technology on S.B. No. 2224

The purpose and intent of this measure is to:

- (1) Require all hotelkeepers to post, no later than January 1, 2019, in each hotel room occupied by a hotel guest, an ocean safety information sheet developed by the Hawaii Tourism Authority; and
- (2) Require the Hawaii Tourism Authority to develop an ocean safety information sheet to be posted in each hotel room.

Prior to the hearing on this measure, your Committee posted and made available for public review a proposed S.D. 1, which deletes the contents of the measure and inserts language to:

- (1) Rename the convention center enterprise special fund as the convention center operations and maintenance special fund;
- (2) Repeal the allocation of the transient accommodations tax to that fund and amend the authorized uses of the fund; and
- (3) Redistribute the allocation of transient accommodation tax revenue from the Hawaii Tourism Authority to other state agencies for certain purposes.

Your Committee received testimony in support of the proposed S.D. 1 from the Department of Land and Natural Resources. Your Committee received testimony in opposition to the proposed S.D. 1 from the Department of Business, Economic Development, and Tourism and the Hawaii Tourism Authority. Your Committee received comments on the proposed S.D. 1 from the Department of Budget and Finance, Office of the Auditor, and University of Hawai'i System.

Your Committee finds the existing allocation of revenue from the transient accommodations tax should be amended to address the specific needs of agencies that work with, or are impacted by, the tourism industry. Your Committee believes that directly allocating the revenue from the transient accommodations tax to the appropriate agency, as proposed by this measure, will better ensure that the specific areas affected by the tourism industry receive resources needed to remedy any concerns that arise from the tourism industry.

Your Committee further finds that the definition of "administrative expenses", as currently used in section 201B-11, Hawaii Revised Statutes, is vague and has resulted in confusion as to the specific expenses for which the tourism special fund may be used. Your Committee believes that the definition needs to be refined to avoid any further confusion.

Accordingly, your Committee has amended this measure by adopting the proposed S.D. 1 and further amending the measure by:

- (1) Defining "administrative expenses", as used in section 201B-11(c), Hawaii Revised Statutes, as office equipment, salaries, and supplies; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Economic Development, Tourism, and Technology that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2224, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2224, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Galuteria, Thielen).

SCRep. 2497 Economic Development, Tourism, and Technology on S.B. No. 2644

The purpose and intent of this measure is to:

- (1) Require broadband internet access service providers to be transparent with network management practices, performance, and commercial terms of its broadband internet access services;
- (2) Prohibit broadband internet access providers from preventing equal access to the Internet by interfering with internet access; and

- (3) Require an applicant to comply with certain practices in order to obtain broadband-related permits for a state-granted or county-granted right to attach small cell or other broadband wireless communication devices to utility poles.

Your Committee received testimony in support of this measure from the Department of Education; Department of Business, Economic Development, and Tourism; and Hawaiian Electric Company, Inc. Your Committee received testimony in opposition to this measure from Spectrum, AT&T, and CTIA. Your Committee received comments on this measure from Hawaiian Telcom.

Your Committee finds that recent action of the federal government in repealing net neutrality has caused distress and concern about the freedom from undue influence or interference in legal content from the Internet. Your Committee believes that the State must preserve the principles of net neutrality and provide an environment that supports open and free access to the Internet. Your Committee recognizes the concerns of legality in challenging the federal government's ruling to repeal net neutrality; however, your Committee believes the State has a duty to do its part to protect equal access to independent content on the Internet.

Your Committee has amended this measure, as suggested by Hawaiian Telcom, by:

- (1) Deleting language that would require an applicant for broadband-related permits to comply with certain practices when seeking a state-granted or county-granted right to attach broadband communication devices to utility poles; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Economic Development, Tourism, and Technology that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2644, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2644, S.D. 1, and be referred to your Committee on Commerce, Consumer Protection, and Health.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Baker, Thielen).

SCRep. 2498 (Joint) Economic Development, Tourism, and Technology and Education on S.B. No. 2879

The purpose and intent of this measure is to require the Office of Enterprise Technology Services to work with the Department of Education to establish a working group to study the Department's information technology infrastructure, operations, and services.

Your Committees received testimony in support of this measure from the Department of Education, Office of Enterprise Technology Services, and Oahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i.

Your Committees find that the Department of Education, unlike other state agencies, handles its own information technology services, including operating its own broadband network, internet services, and more. Your Committees further find that the Office of Enterprise Technology Services has worked with other state agencies and has been able to save the Executive Branch \$11,800,000 by leveraging similar infrastructure throughout the State. Your Committees believe it would be to the benefit of the Department of Education to work in collaboration with the Office of Enterprise Technology Services to establish a working group to look at the Department's information technology services.

Your Committees have amended this measure by:

- (1) Inserting language to specify the membership of the working group; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Economic Development, Tourism, and Technology and Education that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2879, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2879, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
Economic Development, Tourism, and Technology: Ayes, 3. Noes, none. Excused, 2 (Baker, Thielen).
Education: Ayes, 3. Noes, none. Excused, 2 (Dela Cruz, Kahele).

SCRep. 2499 (Joint) Education and Water and Land on S.B. No. 2919

The purpose and intent of this measure is to:

- (1) Establish a pilot program to generate revenue through the lease of public library lands to meet the mission of the public libraries;
- (2) Establish the library facilities fund;
- (3) Require the Board of Education to submit a report to the Legislature prior to the Regular Session of 2019; and
- (4) Appropriate funds for the pilot program.

Your Committees received testimony in support of this measure from the Oahu County Committee on Legislative Priorities of the Democratic Party of Hawaii. Your Committees received comments on this measure from the Department of Budget and Finance and Hawaii State Public Library System.

Your Committees find that public libraries provide an invaluable service to the community. However, there is a need to examine new and innovative methods of generating funds to support the mission of the public libraries. Consequently, your Committees find that generating funds through the lease of public library lands may provide a viable source of funding for the public libraries. Accordingly, your Committees find that it is appropriate to establish a pilot program to generate revenue through the lease of public

library lands to meet the mission of the public libraries to be facilitated by the State Librarian, Board of Education, and any other appropriate agencies.

Your Committees have amended this measure by replacing the Board of Education as the expending agency of the proposed appropriation with the Hawaii State Public Library System.

As affirmed by the records of votes of the members of your Committees on Education and Water and Land that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2919, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2919, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Education: Ayes, 3. Noes, none. Excused, 2 (Dela Cruz, Espero).

Water and Land: Ayes, 4. Noes, none. Excused, 1 (Thielen).

SCRep. 2500 (Joint) Education and Hawaiian Affairs and Higher Education on S.B. No. 2779

The purpose and intent of this measure is to:

- (1) Increase membership on the Hawaii Teacher Standards Board to include the chairperson of the Native Hawaiian Education Council and a non-voting public university student teacher; and
- (2) Clarify that a permit is required for non-licensed teachers serving in public schools.

Your Committees received testimony in support of this measure from the Department of Education; Office of Hawaiian Affairs; Hawaii Teacher Standards Board; Native Hawaiian Education Council; Ho'omanapono Political Action Committee; Ho'omana Pono, LLC; Hawaiian Civic Club of Honolulu; Oahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i; and several individuals. Your Committees received comments on this measure from the University of Hawai'i System.

Your Committees find that the addition of a representative from the Native Hawaiian Education Council to the Hawaii Teachers Standards Board will provide insight to teacher preparation and licensure policies that will support Hawaiian education programs incorporating the study of Hawaiian culture, history, and language. Additionally, the inclusion of a non-voting teacher candidate member to the Hawaii Teachers Standards Board will provide feedback from emerging teachers to improve preparation program policies and procedures.

Your Committees further find that clarifying the existing requirements that public school teachers must have to be eligible to serve as a public school teacher ensures that children are receiving quality education by trained and certified professionals.

Your Committees have amended this measure by:

- (1) Removing the requirement to allow for a permit to be renewed every ten years;
- (2) Clarifying that the restoration of a license or permit shall require compliance with the renewal requirements provided by law or administrative rule and payment of all applicable renewal and late fees; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Education, Hawaiian Affairs, and Higher Education that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2779, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2779, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Education: Ayes, 3. Noes, none. Excused, 2 (Dela Cruz, Espero).

Hawaiian Affairs: Ayes, 3. Noes, none. Excused, 2 (English, Green).

Higher Education: Ayes, 5. Noes, none. Excused, none.

SCRep. 2501 (Joint) Education and Higher Education on S.B. No. 2507

The purpose and intent of this measure is to:

- (1) Require and appropriate funds for the Department of Education to:
 - (A) Develop and implement a statewide computer science curricula plan for public schools; and
 - (B) Permit students to fulfill certain graduation requirements through computer science coursework; and
- (2) Require the University of Hawaii to permit applicants to fulfill certain admission requirements through computer science coursework.

Your Committees received testimony in support of this measure from HawaiiKidsCAN; Ho'omana Pono, LLC; Hawaii Island Economic Development Board; Code.org; Women in Technology (Maui Economic Development Board); Microsoft Corporation; Dev League Inc.; Oahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i; and four individuals. Your Committees received comments on this measure from the Department of Education and University of Hawai'i System.

Your Committees find that computing-based occupations make up more than two-thirds of all projected new jobs in the science, technology, engineering, and mathematics fields, commonly known as STEM fields. This means that college graduates with computer science degrees are in high demand among employers across the nation.

Your Committees further find that there is a disparity between the demand for computer science education and its availability as only forty percent of schools offer such courses. The integration and prioritization of computer science curriculum in public schools

may prepare students for fields related to computer science that have the potential to drive job growth and innovation throughout the economy.

Your Committees have heard the testimony of the Department of Education expressing concerns related to computer science standards, the state leadership team's efforts, teacher certifications, high school course offerings, and contracts for professional development. Your Committees find that these issues raise concerns that merit further consideration and request that your Committee on Ways and Means further examine those issues and concerns should they choose to hear this measure.

Your Committees have amended this measure by:

- (1) Specifying that any unexpended and unencumbered balance of the appropriation as of the close of business on June 30, 2019, instead of June 30, 2021, shall lapse; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Education and Higher Education that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2507, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2507, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Education: Ayes, 5. Noes, none. Excused, none.

Higher Education: Ayes, 5. Noes, none. Excused, none.

SCRep. 2502 (Joint) Education and Labor and Human Services on S.B. No. 2905

The purpose and intent of this measure is to:

- (1) Establish an income tax credit for employers who create on-site early childhood facilities; and
- (2) Establish and appropriate funds for one on-site early childhood facility coordinator position.

Your Committees received testimony in support of this measure from the Executive Office on Early Learning; Ho'omana Pono, LLC; Oahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i; and three individuals. Your Committees received testimony in opposition to this measure from one individual. Your Committees received comments on this measure from the Department of Human Services, Department of Taxation, and Tax Foundation of Hawaii.

Your Committees find that Hawaii has one of the highest costs for child care in the nation. In many cases, the costs for child care for two children are as much as one full-time working parent would make in a year after taxes, leading to one parent leaving the workforce to care for children on a full-time basis in many families. Kindergarten teachers within the Department of Education have indicated that children who do not attend pre-kindergarten programs can be eighteen to twenty-four months developmentally behind their peers who do attend preschool. The creation of on-site early childhood facilities by employers can increase employee retention while providing affordable access to early childhood learning programs.

Your Committees have amended this measure by:

- (1) Clarifying the use of the term "qualified costs" throughout the measure;
- (2) Exempting employers who close an early childhood facility before the minimum of ten years from credit recapture if the Department of Human Services certifies that the employer closed the facility for reasonable cause;
- (3) Inserting a blank annual aggregate cap for the on-site early childhood facility tax credit;
- (4) Inserting an effective date of July 1, 2019; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Education, Labor, and Human Services that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2905, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2905, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Education: Ayes, 3. Noes, none. Excused, 2 (Dela Cruz, Kahele).

Labor: Ayes, 3. Noes, none. Excused, 2 (English, Taniguchi).

Human Services: Ayes, 4. Noes, none. Excused, 1 (Wakai).

SCRep. 2503 (Joint) Agriculture and Environment and Water and Land on S.B. No. 2839

The purpose and intent of this measure is to establish a new agricultural enterprise program within the Department of Agriculture to plan, design, construct, operate, manage, maintain, repair, demolish, and remove infrastructure on any lands under the jurisdiction of the Department, to support and promote agriculture and to accept the transfer of qualifying agricultural enterprises and agricultural enterprise lands from the Department of Land and Natural Resources for the program.

Your Committees received testimony in support of this measure from the Department of Agriculture; Hawaii Cattlemen's Council, Inc.; Ulupono Initiative; O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i; and one individual. Your Committees received testimony in opposition to this measure from Animal Rights Hawai'i.

Your Committees find that article XI, section 3, of the Hawaii State Constitution establishes in part that the "State shall conserve and protect agricultural lands, promote diversified agriculture, increase agricultural self-sufficiency and assure the availability of agriculturally suitable lands." Your Committees further find that many diversified farming operations do not have adequate resources to expand or maximize their productivity. Your Committees believe that it is in the State's best interest to give the Department of

Agriculture flexibility to move forward with agricultural educational training, farmers' markets, and food hubs and processing facilities on state agricultural lands to promote and support diversified agriculture and ensure agricultural sustainability.

Your Committees note that determination should be made as to whether the Department of Agriculture should create a new, third category of lands under its management, or whether it is preferable to amend the definition of agricultural uses to reflect modern, diversified agriculture, and for the definition of bona fide farmer to include the farmer training programs offered by the University of Hawaii College of Tropical Agriculture and Human Resources.

Your Committees have amended this measure by:

- (1) Clarifying that "agricultural enterprise" means an activity directly and primarily supporting the production and sale of Hawaii agriculture;
- (2) Deleting language that would have allowed the Department of Agriculture to develop agricultural enterprise lands and agricultural enterprises exempt from all statutes, ordinances, charter provisions, and rules of any governmental agency relating to planning, zoning, construction standards for subdivisions, development and improvement of land, and construction of buildings thereon;
- (3) Inserting an effective date of July 1, 2025, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Agriculture and Environment and Water and Land that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2839, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2839, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Agriculture and Environment: Ayes, 3. Noes, none. Excused, 2 (Nishihara, Ruderman).

Water and Land: Ayes, 4. Noes, none. Excused, 1 (Inouye).

SCRep. 2504 Commerce, Consumer Protection, and Health on S.B. No. 2651

The purpose and intent of this measure is to specify certain felonies that will preclude employment at medical cannabis dispensaries, rather than make ineligible for employment all individuals who have been convicted of any felony.

Your Committee received testimony in support of this measure from the Oahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, Hawaii Educational Association for Licensed Therapeutic Healthcare, Drug Policy Forum of Hawaii, Maui Grown Therapies, Kine Bottles, Patients Without Time, and one individual. Your Committee received testimony in opposition to this measure from the Department of the Prosecuting Attorney of the City and County of Honolulu. Your Committee received comments on this measure from the Department of the Attorney General, Department of Health, and two individuals.

Your Committee finds that existing law prohibits a medical cannabis dispensary from hiring any person convicted of a felony, a categorical prohibition that is applied regardless of the nature of the crime, or how long ago the crime occurred. Your Committee is well aware of the need to maintain a high standard for public safety regarding employment at medical cannabis dispensaries. However, your Committee is also cognizant of the fact that the circumstances and severity of felony offenses vary widely. Thus, a broad prohibition from employment against anyone with a felony conviction may be unduly restrictive. Accordingly, this measure specifies certain felonies that will preclude employment at medical cannabis dispensaries, rather than rendering ineligible for employment all individuals with a felony conviction.

However, your Committee has heard the concerns that this measure, as introduced, may have unintended consequences by allowing medical cannabis dispensaries to hire individuals convicted of the most serious felonies. Your Committee understands these concerns and concludes amendments to this measure are necessary to specify those felonies that will fall under a blanket prohibition against employment at a medical cannabis dispensary.

Accordingly, your Committee has amended this measure by:

- (1) Clarifying that medical cannabis dispensaries shall deny employment to any individual who has been convicted of:
 - (A) A class A or class B felony; or
 - (B) A class C felony involving trafficking, distributing, or promoting a schedule I or II drug other than cannabis within the last ten years;
- (2) Clarifying that medical cannabis dispensaries may deny employment to any individual who has been convicted of a class C felony involving:
 - (A) Fraud, deceit, misrepresentation, embezzlement, or theft; or
 - (B) Endangering the welfare of a minor;
- (3) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2651, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2651, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 6; Ayes with Reservations (Ihara). Noes, none. Excused, 1 (Espero).

SCRep. 2505 Labor on S.B. No. 2555

The purpose and intent of this measure is to require the Employees' Retirement System to divest its investment portfolio of coal, oil, and gas companies within five years.

Your Committee received testimony in support of this measure from Life of the Land; 350Hawaii.org; West Hawaii Community Health Center; O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i; We Are One, Inc.; and fourteen individuals. Your Committee received testimony in opposition to this measure from the Board of Trustees of the Employees' Retirement System and Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO.

Your Committee finds that the State must act to demonstrate its commitment to addressing climate change in practical application. Investment in fossil fuel companies can discourage investment in competing renewable energy technologies, and therefore impedes Hawaii from achieving its renewable portfolio standard goal of one hundred percent by 2045. New York state announced in December 2017 that it will divest its pension-fund investments in fossil fuels and the Norwegian Sovereign Wealth Fund, the largest sovereign-wealth fund in the world, began work on fossil fuel divestment in November of 2017. Cities across the United States have also announced plans for fossil fuel divestment, including New York City, San Francisco, Seattle, and Washington, D.C. Accordingly, your Committee finds that, in line with the State's sustainability goals and in adherence to the Paris Agreement as committed to by Act 32, Session Laws of Hawaii 2017, it is in the best interest of the State that the Employees' Retirement System looks to divest its investment portfolio of coal, oil, and gas companies.

Your Committee has amended this measure by:

- (1) Requiring the Employees' Retirement System to divest its investment portfolio of coal, oil, and gas companies by an unspecified date;
- (2) Inserting an effective date of January 1, 2045, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2555, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2555, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5; Ayes with Reservations (Taniguchi). Noes, none. Excused, none.

SCRep. 2506 Commerce, Consumer Protection, and Health on S.B. No. 2654

The purpose and intent of this measure is to decrease the use of electronic smoking devices, especially by young users, by:

- (1) Prohibiting the shipment of tobacco products to anyone other than a licensee;
- (2) Including e-liquid within the definition of "tobacco products", as used in the cigarette tax and tobacco tax law, thereby:
 - (A) Subjecting e-liquid to the excise tax on tobacco products;
 - (B) Requiring retailers of e-liquid to obtain a retail tobacco permit to sell, possess, keep, acquire, distribute, or transport e-liquid;
 - (C) Prohibiting persons from engaging in the business of a wholesaler or dealer of e-liquid without first obtaining a license from the department of taxation; and
 - (D) Applying other requirements of chapter 245, Hawaii Revised Statutes;
- (3) Increasing the license fee for persons engaged as a wholesaler or dealer of cigarettes and tobacco products; and
- (4) Increasing the retail tobacco permit fee for retailers engaged in the retail sale of cigarettes and tobacco products.

Your Committee received testimony in support of this measure from the Department of Health, University of Hawaii Cancer Center, Hawaii Public Health Institute, American Heart Association, Hawaii Public Health Association, and fifty-seven individuals. Your Committee received testimony in opposition to this measure from Retail Merchants of Hawaii, Vape Hawaii, Hawaii Smokers Alliance, Cigar Rights of America, Island Vapor, Smokeless Hawaii, Volcano eCigs, and forty individuals. Your Committee received comments on this measure from the Department of the Attorney General, Department of Taxation, and Tax Foundation of Hawaii.

Your Committee finds that tobacco use continues to be a problem in Hawaii, causing approximately 1,400 deaths per year among adults, and that approximately 21,000 children currently under the age of eighteen will ultimately die prematurely from smoking. Your Committee also finds that each year, smoking costs approximately \$526,000,000 in direct health care expenditures and \$387,000,000 in lost productivity in Hawaii. Consequently, your Committee finds that Hawaii has a substantial interest in reducing the number of individuals of all ages who use tobacco products, and a particular interest in protecting adolescents from tobacco dependence and the illnesses and premature death associated with tobacco use.

Your Committee further finds that the electronic smoking device industry has grown astronomically, especially among youth and young adults, with a nine hundred percent increase in use among high school students from 2011 to 2015. Your Committee finds that e-cigarette use among youth and young adults is strongly associated with the use of other tobacco products, including combustible tobacco products.

Your Committee additionally finds that the federal Food and Drug Administration recently finalized a rule that expands its regulatory authority to include all tobacco products, including electronic smoking devices. Your Committee notes that, despite this

change in regulatory authority, there is no state tobacco tax attached to e-liquid. Therefore, your Committee finds that increases in prices of cigarettes may simply drive smokers to turn to electronic smoking devices that may be less expensive, rather than quitting, as smokers, especially youth smokers, are particularly price sensitive.

Accordingly, your Committee finds that imposing a tax on e-liquids will encourage users to quit or reduce use, and prevent youth initiation of use. Your Committee also finds that these taxes may be circumvented by consumers purchasing electronic smoking devices from out-of-state, including through the Internet. Accordingly, your Committee finds that additional steps are necessary to capture this tax revenue.

Your Committee has heard the concerns of the Department of the Attorney General with respect to several technical and legal changes, including that:

- (1) The term “export warehouse provider”, as used in federal statutes, has a meaning that may conflict with the intent of this measure, and different language should be used;
- (2) The requirements for shippers of tobacco products to comply with title 15 United States Code chapter 10A may cause undue confusion and should be deleted;
- (3) An option should be included to allow for payment of taxes on tobacco shipments to not constitute the offense of unlawful shipment of tobacco products;
- (4) Existing penalty language may be subject to legal challenge and should be clarified; and
- (5) The definition of e-liquid should include a requirement that the liquid contains nicotine, to minimize confusion.

However, your Committee notes that other states, including Indiana, Pennsylvania, and West Virginia, successfully tax e-liquids that may or may not contain nicotine. Your Committee also notes that, if too broadly construed, a definition of e-liquid could include prescription medications and medical cannabis, which would be an unintended consequence.

Your Committee has also heard the concerns of the Department of Taxation requesting a delayed effective date of January 1, 2019, to allow for the Department to make the necessary system changes.

Accordingly, your Committee has amended this measure by:

- (1) Replacing the reference to “export warehouse proprietor” with language proposed by the Department of the Attorney General to better achieve the purpose of this measure;
- (2) Deleting the requirement for shippers of tobacco products to comply with title 15 United States Code chapter 10A, including the requirement to file a required report with the Department of Taxation;
- (3) Allowing the proper payment of taxes on tobacco products to not constitute the offense of unlawful shipment of tobacco products;
- (4) Inserting a state of mind element in committing certain acts that would constitute the offense of unlawful shipment of tobacco products;
- (5) Adding an additional offense of unlawful transport of tobacco products ordered through remote sale to anyone other than a licensee;
- (6) Clarifying within the definition of “e-liquid” that an e-liquid is a liquid or like substance that may or may not contain nicotine, but does not include medical cannabis or any prescription drug;
- (7) Changing the effective date to January 1, 2019; and
- (8) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2654, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2654, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 3 (Espero, Ihara, Nishihara).

SCRep. 2507 (Joint) Housing and Human Services on S.B. No. 2989

The purpose and intent of this measure is to:

- (1) Amend the low-income household renters income tax credit to:
 - (A) Broaden its application to more taxpayers and to increase the amount of the credit for certain qualified taxpayers; and
 - (B) Use the consumer price index to adjust the amount of tax credit that may be claimed by a taxpayer;
- (2) Appropriate funds to the Department of Human Services for the continued administration of the family assessment center for homeless families;
- (3) Appropriate funds to the Hawaii Public Housing Authority for the state rent supplement program to:

- (A) Assist homeless families with minor children or families with minor children at imminent risk of homelessness due to domestic violence to obtain permanent housing through a housing homeless children rental assistance pilot program developed by the Hawaii Public Housing Authority; and
- (B) Cover administrative and personnel costs to operate the pilot program; and
- (4) Exempt the adoption of interim rules and procurement of services by federally-certified financial counselors from chapters 91 and 103D, Hawaii Revised Statutes, respectively, by the Hawaii Public Housing Authority.

Your Committees received testimony in support of this measure from the Hawaii Public Housing Authority, Hawaiian Community Assets, League of Women Voters of Hawaii, Hawaii Appleseed Center for Law & Economic Justice, Catholic Charities Hawai'i, PHOCUSED, IMUAlliance, Oahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, Institute for Human Services, and two individuals. Your Committees received comments on this measure from the Governor's Coordinator on Homelessness, Department of Human Services, Department of Taxation, State Procurement Office, and Tax Foundation of Hawaii.

Your Committees find that the income tax credit for low-income household renters was established forty years ago to help make up for the high rents and tax rates that burden low-income and moderate-income earners. However, this income tax credit has not been routinely updated to account for inflation. In light of the fact that Hawaii has the highest homeless rate per capita and some of the highest cost burdens of any state in the nation, this measure contributes to a comprehensive strategy to meet the State's affordable housing goals.

Your Committees further find that homelessness is one of the most pressing problems in Hawaii, and a robust, comprehensive solution is needed to increase the pace at which the State is gaining ground on addressing homelessness. For the first time in years, the homelessness rate in Hawaii went down in 2017. Hawaii is turning the tide on the homelessness crisis by investing in proven programs like housing first and rapid rehousing. The network of people and resources engaged in addressing homelessness has begun to make more efficient use of available resources by implementing a data-driven, collaborative process that matches those experiencing homelessness with the services they need to make more efficient use of available resources. However, Hawaii continues to have the highest per capita rate of homelessness of any state in the United States, with an estimated 7,220 people living on the streets and in shelters. This measure continues to address the State's homeless crisis by providing a multi-faceted approach using proven interventions that are targeted to the particular characteristics of the population being served and that address the root causes of homelessness.

Your Committees note the concerns raised by the State Procurement Office regarding the procurement exemption provided to the Hawaii Public Housing Authority for the procurement of services by federally-certified financial counselors. Your Committees believe that this issue merits further discussion by your Committee on Ways and Means if that Committee schedules this measure for public hearing.

Your Committees have amended this measure by:

- (1) Adopting the language suggested by the Department of Taxation that:
 - (A) Amends the definition of "adjusted gross income" to mean the same as defined by the Internal Revenue Code, rather than section 235-1, Hawaii Revised Statutes; and
 - (B) Amends the index to which the term "consumer price index" refers and changes the reference from the United States Department of Labor to the United States Bureau of Labor Statistics as the consumer price index publishing source under the definition of "consumer price index";
- (2) Clarifying that the monies appropriated for a housing homeless children rental assistance pilot program is a pilot program that is developed by the Hawaii Public Housing Authority; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Housing and Human Services that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2989, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2989, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the President and Chair on behalf of the Committees.
 Housing: Ayes, 3. Noes, none. Excused, 2 (Green, Nishihara).
 Human Services: Ayes, 4. Noes, none. Excused, 1 (Harimoto).

SCRep. 2508 (Joint) Housing and Government Operations on S.B. No. 2525

The purpose and intent of this measure is to:

- (1) Establish the East Kapolei Community Development District under the Hawaii Community Development Authority;
- (2) Repeal the laws relating to the Kakaako Community Development District and replaces members representing the Kakaako Community Development District of the Hawaii Community Development Authority with members representing the East Kapolei Community Development District; and
- (3) Make conforming amendments to reflect the repeal of the Kakaako Community Development District under the Hawaii Community Development Authority.

Your Committees received testimony in support of this measure from the Ho'omanapono Political Action Committee and Ho'omana Pono, LLC. Your Committees received testimony in opposition to this measure from Hawaii's Thousand Friends, The Friends of Makakilo, and five individuals. Your Committees received comments on this measure from the Hawaii Community Development Authority and Department of Planning and Permitting of the City and County of Honolulu.

Your Committees find that the Hawaii Community Development Authority was established to meet the vast community development needs of providing suitable affordable housing, sufficient commercial and industrial facilities for rent, residential areas that have facilities necessary for basic liveability, such as parks and open space, and areas that are planned for mixed uses. The Authority manages three community development districts, including the Kakaako Community Development District, Kalaeloa Community Development District, and Heeia Community Development District and these community development districts are designated by law as areas dedicated for replanning, renewal, or redevelopment. After the designation, the Hawaii Community Development Authority is required to develop a community development plan, which includes community development guidance policies, a district-wide improvement program, and community development rules.

Your Committees further find that the East Kapolei Neighborhood transit-oriented development plan up for approval by the Honolulu City Council of the City and County of Honolulu presents a unique opportunity to create a sustainable, responsible, and integrated community for Oahu. The goal of the East Kapolei Neighborhood transit-oriented development plan is to foster more livable communities that take full advantage of the benefits of transit by specifically reducing transportation costs for residents, businesses, and workers. In order to create the neighborhood that the East Kapolei Neighborhood transit-oriented development plan envisions, development of new infrastructure and retrofitting of existing infrastructure are necessary in the East Kapolei area. If designated as a community development district, this measure would allow the East Kapolei area to greatly benefit from a community development plan that would enable the East Kapolei Neighborhood transit-oriented development plan to more efficiently and effectively come to fruition.

Your Committees also find that after finding that the Kakaako area is of economic importance to the State, the Legislature designated the Kakaako Community Development District to preserve and enhance the value and potential of the area. However, since 1976, when the Kakaako Community Development District was established by law, the Kakaako area has gone through extensive replanning, renewal, and redevelopment, including plans to allow for development along the proposed rail transit line. In light of this completed and continuing development and redevelopment in the Kakaako area, this measure repeals the Kakaako Community Development District so that the Hawaii Community Development Authority may be a lead agency in the coordination and development of the East Kapolei area.

Your Committees note the written comments submitted by the Hawaii Community Development Authority that dissolving the Kakaako Community Development District may jeopardize projects still in development, cause the Authority to be in breach of existing contracts and financial commitments, and jeopardize the status of the affordable housing units that the Authority owns and manages or are currently in development. Thus, the Authority testified to your Committees the need for a study to determine the most feasible and efficient method to unwind all the issues related to the Kakaako Community Development District. Furthermore, your Committees believe that repealing the Kakaako Community Development District and replacing this district with a new district by establishing the East Kapolei Community Development District under the Hawaii Community Development Authority merits further discussion by your Committee on Ways and Means if the Committee schedules this measure for a public hearing.

Accordingly, your Committees have amended this measure by:

- (1) Inserting language that requires the Hawaii Community Development Authority to develop a transitional master plan for the Kakaako Community Development District to transition into dissolution and be repealed;
- (2) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Housing and Government Operations that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2525, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2525, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Housing: Ayes, 3. Noes, none. Excused, 2 (Green, Nishihara).

Government Operations: Ayes, 5; Ayes with Reservations (Ruderman). Noes, none. Excused, none.

SCRep. 2509 Labor on S.B. No. 2990

The purpose and intent of this measure is to:

- (1) Require the Department of Labor and Industrial Relations (Department) to establish paid family leave for all workers by January 1, 2023;
- (2) Establish the paid family leave implementation task force to assist the Department and report to the Legislature; and
- (3) Establish and appropriate funds into and out of a paid family leave special fund.

Prior to the hearing on this measure, your Committee posted and made available for public review a proposed S.D. 1, which amends this measure by:

- (1) Establishing the paid family leave implementation board, rather than the paid family leave implementation task force, to assist the Department and report to the Legislature;
- (2) Removing the representative of the Chamber of Commerce of Hawaii and adding one representative of a business employing one hundred or more employees, to be appointed by the Governor, one representative of a business employing between fifty and one hundred employees, to be appointed by the Speaker of the House of Representatives, and two representatives of paid family leave advocates, to be appointed by the President of the Senate and Speaker of the House of Representatives, respectively, to the membership of the paid family leave implementation board;

- (3) Requiring all executive departments and agencies to participate and engage in data-sharing agreements prior to the Regular Session of 2020;
- (4) Requiring preparation of a comparative analysis of potential paid family leave models to cover all workers, including but not limited to social insurance and temporary disability insurance expansion, in addition to a breakdown of costs for implementing and sustaining each model; and
- (5) Requiring that the comparative analysis of each model considers progressive wage replacement and job protection.

Your Committee received testimony in support of the proposed S.D. 1 from the Department of Human Services; Department of Labor and Industrial Relations; Hawaii State Commission on the Status of Women; American Association of University Women in Hawaii; Hawai'i Appleseed Center for Law & Economic Justice; International Brotherhood of Electrical Workers Local Union 1260, AFL-CIO; Hawaii State AFL-CIO; Pono Hawai'i Initiative; Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO; IMUAlliance; Hawaii Children's Action Network; Hawaii State Teachers Association; YWCA O'ahu; League of Women Voters of Hawaii; O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i; and five individuals. Your Committee received testimony in opposition to the proposed S.D. 1 from the Chamber of Commerce Hawaii and Society for Human Resource Management – Hawaii Chapter. Your Committee received comments on the proposed S.D. 1 from the Department of Budget and Finance, General Contractors Association of Hawaii, Hawaii Food Industry Association, and American Council of Engineering Companies of Hawaii.

Your Committee finds that Hawaii's working families are especially vulnerable, and that the majority of Hawaii's workforce cannot afford to take unpaid leave to provide care for a newborn, bond with a new child, care for a family member with a serious health condition, or be a caregiver to an aging parent. Yet, for 240,000 employees who serve as primary caregivers to a family member, this is the dilemma they face. Your Committee further finds that seven in ten children live in a household where both parents work, and over a quarter of children live in households with single parents; therefore, a lack of meaningful paid family leave policies puts them most at risk.

Your Committee has amended this measure by adopting the proposed S.D. 1 and further amending the measure by:

- (1) Specifying that paid family leave contributions paid by employees and employers shall be deposited into the paid family leave special fund;
- (2) Specifying that monies deposited into the paid family leave special fund and interest earned thereon shall not revert to the general fund;
- (3) Requiring the Department to adopt rules by January 1, 2020, rather than January 1, 2023, and to allow for the rulemaking process to be exempt from chapter 91, Hawaii Revised Statutes;
- (4) Requiring that rules adopted by the Department, at a minimum, include:
 - (A) A minimum of an unspecified number of weeks paid leave;
 - (B) Coverage for all employees who employ one or more employees;
 - (C) A system of progressive wage replacement to allow low income workers to receive a higher percentage of their weekly earnings than average high-wage workers; and
 - (D) Job protections to ensure usage of paid family leave does not adversely impact employment;
- (5) Requiring the Department to collect paid family leave payments by July 1, 2021, and process payments by July 1, 2022;
- (6) Allowing interim rules to remain in effect until January 1, 2022, rather than January 1, 2023;
- (7) Amending the membership of the paid family leave implementation board as follows:
 - (A) Adding the Governor's Chief of Staff, who shall serve as chairperson;
 - (B) Specifying that the Director of Human Resources Development and Comptroller shall serve as ex officio members;
 - (C) Replacing the representative of the insurance industry appointed by Speaker of the House with a representative of the medical or public health community;
 - (D) Adding an additional representative of paid family leave advocates, to be appointed by the Hawaii State Commission on the Status of Women; and
 - (E) Adding one representative of the human resources profession, to be appointed by the Director of Labor and Industrial Relations;
- (8) Requiring all executive branch departments and agencies to participate and engage in data-sharing agreements prior to the Regular Session of 2019, rather than 2020;
- (9) Requiring the Legislative Reference Bureau to conduct an analysis prior to 2019 that includes:
 - (A) A comparative analysis of potential paid family leave models to cover all workers, including social insurance and temporary disability insurance expansion, and a breakdown of the costs for implementing and sustaining each model;
 - (B) Models that consider progressive wage replacement and job protection;
 - (C) A multi-year budget for establishing a paid family leave insurance program;
 - (D) A timeline for implementing paid family leave, including benchmarks and deliverables;

- (E) Review of other state paid leave models, including review of current temporary disability insurance usage and other state temporary disability insurance models;
- (F) Findings and other recommendations, including recommendations for ongoing regulation and additional funding resources; and
- (G) Actuarial analysis;
- (10) Specifying that the report by the paid family leave implementation board include a multi-year budget for establishing a paid family leave insurance program, rather than a five-year budget;
- (11) Appropriating \$250,000 for the Legislative Reference Bureau to conduct its analysis;
- (12) Clarifying that the appropriation out of the paid family leave special fund is for one full-time equivalent (1.0 FTE) program manager to support the paid family leave implementation board, the expenses of the implementation board, and the expenses of the Department in establishing paid family leave for all workers by January 1, 2020;
- (13) Inserting language to allow the Legislative Reference Bureau and Department to contract the services of a consultant without regard to chapter 103D, Hawaii Revised Statutes; and
- (14) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2990, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2990, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (English, Taniguchi).

SCRep. 2510 Government Operations on S.B. No. 2601

The purpose and intent of this measure is to:

- (1) Require past performance to be factored into future bid selection of a contractor;
- (2) Require past performance to be considered in sole source procurement;
- (3) Require that upon completion of a procurement contract, the department that issued the request for proposal shall evaluate the work and performance of the respective contractors and maintain the evaluations in the department's files; and
- (4) Appropriate funds to enact the proposals.

Your Committee received testimony in support of this measure from the State Procurement Office, Pacific Resource Partnership, and one individual. Your Committee received testimony in opposition to this measure from the Department of Design and Construction of the City and County of Honolulu. Your Committee received comments on this measure from the Department of Accounting and General Services and General Contractors Association of Hawaii.

Your Committee finds that the State's procurement process is in need of increased accountability and greater efficiency to better utilize taxpayer dollars and respond to public needs. Existing law makes possible the award of state contracts to the lowest bidder through the invitation for bid process without regard to the bidder's poor past performance. Such bidders may be considered qualified despite poor performance on state, federal, or private contracts in the past, which may result in repeated inefficiencies and substandard work. Moreover, your Committee notes that while existing state guidelines do not necessarily require consideration of past performance, federal procurement procedures do take into account past performance of bidders. Therefore, your Committee finds that the procurement code should be updated to allow for consideration of past performance in bid selection of a contractor and in sole source procurement. Your Committee also finds that the State's guidelines for considering past performance should align with the existing federal procurement guidelines.

However, your Committee acknowledges the concerns of the State Procurement Office that the proposals in this measure may require additional details and elaboration to fully align with the federal procurement guidelines. Therefore, if your Committee on Ways and Means decides to hear this measure, your Committee recommends that your Committee on Ways and Means continue discussions with the State Procurement Office regarding any additional language that may be necessary to effectuate your Committee's intent.

Your Committee has amended this measure by:

- (1) Adding a new section to part II of chapter 103D, Hawaii Revised Statutes, establishing procedures and factors to be considered in the evaluation, consideration, or review of past performance based on similar federal regulations;
- (2) Removing language that defines "past performance"; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2601, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2601, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Keith-Agaran).

SCRep. 2511 (Joint) Economic Development, Tourism, and Technology and Water and Land on S.B. No. 3058

The purpose and intent of this measure is to:

- (1) Establish procedures for designating public land redevelopment districts, planning committees, and district redevelopment plans;
- (2) Establish the designated redevelopment district revolving fund;
- (3) Modify public land lease restrictions;
- (4) Establish the Waiakea peninsula redevelopment district, planning committee, and designated redevelopment district revolving fund, subject to repeal on June 30, 2028; and
- (5) Appropriate funds for the purposes of this measure.

Your Committees received testimony in support of this measure from the Office of the Mayor, County of Hawai'i; County of Hawai'i Planning Department; Hawai'i Association of REALTORS; HPM Building Supply; Hawaii Island Economic Development Board; and five individuals. Your Committees received testimony in opposition to this measure from the Life of the Land, League of Women Voters, and six individuals. Your Committees received comments on this measure from the Department of Land and Natural Resources and Department of Budget and Finance.

Your Committees find that more effort needs to be put towards redevelopment projects, specifically in the County of Hawaii. Banyan Drive is underutilized and in disrepair, requiring support to maintain the center of tourism for East Hawaii. Your Committees believe encouraging the revitalization of public lands has the potential to increase the value of land in the State, ultimately providing more revenue from taxes, such as the transient accommodations tax.

Your Committees have amended this measure by:

- (1) Deleting language that would have modified public land lease restrictions;
- (2) Requiring that district development plans for each designated district take into consideration the effect the plans will have on sea level rise and climate change;
- (3) Deleting the provision that would have allowed district development plans to supersede all other inconsistent ordinances and rules relating to the use, planning, development, and construction on public land in a designated district; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Economic Development, Tourism, and Technology and Water and Land that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 3058, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 3058, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Economic Development, Tourism, and Technology: Ayes, 4; Ayes with Reservations (Thielen). Noes, none. Excused, 1 (Galuteria).

Water and Land: Ayes, 4; Ayes with Reservations (Riviere, Thielen). Noes, none. Excused, 1 (Inouye).

SCRep. 2512 (Joint) Water and Land and Agriculture and Environment and Government Operations on S.B. No. 3068

The purpose and intent of this measure is to:

- (1) Implement the recommendations of the Hawaii Sea Level Rise Vulnerability and Adaptation Report issued by the Hawaii Climate Change Mitigation and Adaptation Commission; and
- (2) Appropriate funds to various state agencies and counties to implement the recommendations of the Hawaii Sea Level Rise Vulnerability and Adaptation Report.

Your Committees received testimony in support of this measure from the Land Use Commission, Board of Water Supply of the City and County of Honolulu, Oahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, Hawaiian Civic Club of Honolulu, KAHEA: The Hawaiian-Environmental Alliance, Kokua Hawaii Foundation, Hawaii Island Economic Development Board, and ten individuals. Your Committees received comments on this measure from the Department of Land and Natural Resources, Office of Planning, Office of Environmental Quality Control, and Office of Climate Change, Sustainability and Resiliency of the City and County of Honolulu.

Your Committees find that Act 32, Session Laws of Hawaii 2017 (Act 32), recognized that climate change is not only real, but it is also the overriding challenge of the twenty-first century and one of the priority issues of the Hawaii State Senate. Climate change poses immediate and long-term threats to the State's economy, sustainability, security, and way of life.

Your Committees further find that Act 32 established the Hawaii Climate Change Mitigation and Adaptation Commission and directed the Commission, as a first step, to focus on and develop sea level rise vulnerability and adaptation reports that are required to include:

- (1) Identification of the major areas of sea level rise impacts affecting the State and counties through 2050;
- (2) Identification of expected impacts of sea level rise based on the latest scientific research for each area through 2050;
- (3) Identification of the economic ramifications of sea level rise;

- (4) Identification of applicable federal laws, policies, or programs that impact affected areas; and
- (5) Recommendations for planning, management, and adaptation for hazards associated with increasing sea level rise.

The Hawaii Climate Change Mitigation and Adaptation Commission submitted a Hawaii Sea Level Rise Vulnerability and Adaptation Report in December 2017. The report identifies, with maps at tax map key detail, areas that are susceptible to sea level rise impacts based on a 3.2-foot increase in sea level projected to occur by mid-century or earlier. These areas are designated as the sea level rise exposure area projection, which the Commission recommends be adopted as a sea level rise exposure area overlay to guide state and county adaptation strategies and standards for development. The report also made a number of recommendations to state and county agencies based on emerging good practices to strengthen Hawaii's overall readiness to face sea level rise and climate change. Accordingly, this measure implements the recommendations of the Hawaii Sea Level Rise Vulnerability and Adaptation Report.

Your Committees have amended this measure by inserting an effective date of July 1, 2025, to encourage further discussion.

As affirmed by the records of votes of the members of your Committees on Water and Land, Agriculture and Environment, and Government Operations that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 3068, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 3068, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Water and Land: Ayes, 4. Noes, none. Excused, 1 (Inouye).

Agriculture and Environment: Ayes, 3. Noes, none. Excused, 2 (Nishihara, Ruderman).

Government Operations: Ayes, 3. Noes, none. Excused, 2 (Galuteria, Ruderman).

SCRep. 2513 (Joint) Education and Water and Land on S.B. No. 2237

The purpose and intent of this measure is to require the City and County of Honolulu to transfer to the Department of Land and Natural Resources all property upon which a public elementary or intermediate school is situated.

Your Committees received testimony in support of this measure from the Hawaii State Teachers Association and Building Industry Association of Hawaii. Your Committees received testimony in opposition to this measure from the Department of Land and Natural Resources and Department of Parks and Recreation of the City and County of Honolulu. Your Committees received comments on this measure from the Department of the Attorney General.

Your Committees find that the Department of Education has managed county school lands throughout the State since 1965. Your Committees further find that many public schools in Hawaii require extensive renovation or rebuilding, and that this process is unnecessarily complicated by having state schools on county land, or situated on both county and state land. Your Committees additionally find that transferring a fee simple interest for county school lands to the State will greatly simplify the process of undertaking much needed repairs and renovations.

Your Committees have amended this measure by:

- (1) Adding a purpose section that explains the justification for the measure;
- (2) Requiring the City and County of Honolulu to transfer property on which a school is situated to the Department of Education rather than to the Department of Land and Natural Resources;
- (3) Adding language to give the Department of Education power to acquire and hold title to real, personal, or mixed property for use for public educational purposes;
- (4) Requiring legislative approval prior to the sale or gift of lands to which the Department of Education holds title; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Education and Water and Land that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2237, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2237, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Education: Ayes, 3. Noes, none. Excused, 2 (Dela Cruz, Espero).

Water and Land: Ayes, 4. Noes, none. Excused, 1 (Thielen).

SCRep. 2514 (Joint) Government Operations and Higher Education on S.B. No. 2607

The purpose and intent of this measure is to restrict the exemptions the Research Corporation of the University of Hawaii has with regard to chapter 103D, Hawaii Revised Statutes, relating to advertising for bids and purchases to be made in Hawaii whenever public monies are expended.

Your Committees received testimony in opposition to this measure from the University of Hawai'i System, University of Hawai'i Professional Assembly, Oahu Economic Development Board, and forty-four individuals.

Your Committees find that there are concerns regarding whether the Research Corporation of the University of Hawaii has been given a broader range of flexibility than originally intended under section 304A-3005, Hawaii Revised Statutes. The Research Corporation of the University of Hawaii was established to carry out the objectives of conducting research and training projects. In order to fulfill those objectives, the Research Corporation was, by law, provided flexibility in the hiring of personnel and in handling and disbursing monies.

However, your Committees find that the exceptions in existing law may have provided the Research Corporation with an unintended degree of flexibility. Over the years, the Research Corporation has engaged in projects that appear to have been beyond the original

intent of the Legislature. Your Committees have significant concerns about the Research Corporation being used as a pass-through for other entities to funnel projects and improperly take advantage of the flexibility in operations that the Legislature intended only for the Research Corporation to carry-out its stated mission. Therefore, your Committees find that it is crucial that the Research Corporation follow established procurement guidelines to ensure that the Research Corporation is properly working with private businesses on basic and applied research projects as originally intended by the Legislature.

However, your Committees recognize various issues and concerns raised by the Research Corporation during testimony. Specifically, your Committees recognize that the Research Corporation already follows federal procurement guidelines for most projects. Your Committees find that it is important to create in statute a requirement that the Research Corporation follow federal procurement guidelines for all contracts, including those contracts and projects using state money. In addition, your Committees note that requiring all research projects to be subject to federal procurement guidelines would eliminate the need to place a cap on contracts excepted from the procurement code under section 304A-3005, Hawaii Revised Statutes.

Your Committees have amended this measure by:

- (1) Removing language establishing a cap on the value of certain contracts exempted from the state procurement code for the Research Corporation of the University of Hawaii relating to advertising for bids and purchases;
- (2) Adding language to limit the exemption to research, training, and development related contracts and projects that obtain federal or state grants; and
- (3) Adding a requirement that all federal and state grants, contracts, and projects of the Research Corporation adhere to all relevant federal procurement laws and regulations.

As affirmed by the records of votes of the members of your Committees on Government Operations and Higher Education that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2607, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2607, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Government Operations: Ayes, 4. Noes, none. Excused, 1 (Galuteria).

Higher Education: Ayes, 5. Noes, none. Excused, none.

SCRep. 2515 Higher Education on S.B. No. 757

The purpose and intent of this measure is to repeal the authority of the University of Hawai'i to issue revenue bonds.

Prior to the hearing on this measure, your Committee posted and made available for public review a proposed S.D. 1, which deletes the contents of the measure and inserts language to require and appropriate funds for the State Auditor to conduct a forensic financial audit of the University of Hawai'i's activities related to Mauna Kea.

Your Committee received testimony in support of the proposed S.D. 1 from the Mauna Kea Anaina Hou, Kai Palaoa, Kia'i Kanaloa, Oahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, and numerous individuals. Your Committee received testimony in opposition to the proposed S.D. 1 from the University of Hawai'i System, Kona-Kohala Chamber of Commerce, and numerous individuals. Your Committee received comments on the proposed S.D. 1 from the Office of Hawaiian Affairs and Office of the Auditor.

Your Committee finds that Mauna Kea is the most significant cultural and astronomical site in the world. The summit region of Mauna Kea is a spiritual and special place of global significance that is home to cultural landscapes, fragile alpine habitats, historical and archaeological treasures as well as endemic species found nowhere else on the planet. Since 1998, four audits by the State Auditor have been critical of the management, stewardship, and protection of Mauna Kea. Although significant changes have occurred on Mauna Kea since the 1998 audit, negative experiences over the past fifty years have eroded public confidence and demonstrated the critical need for a financial audit to look into the University of Hawai'i's activities related to Mauna Kea.

Your Committee has amended this measure by adopting the proposed S.D. 1 and further amending the measure by:

- (1) Clarifying that the audit conducted by the State Auditor shall be a financial audit, not a forensic financial audit, that includes an examination of the financial records and an analysis of the financial management of the University of Hawai'i's activities related to Mauna Kea;
- (2) Deleting various elements and entities to be included in the audit, including certain leases, the Office of Mauna Kea Management Board, Kahu Kū Mauna, University of Hawai'i at Hilo astronomy program, and Hawai'i Island New Knowledge Fund;
- (3) Clarifying issues to be included in the audit related to the University of Hawai'i and Mauna Kea Observatories;
- (4) Inserting issues to be included in the audit related to the University of Hawai'i's implementation of the Mauna Kea comprehensive management plan; policies to generate revenues through leases, subleases, and permits; the negotiation for telescope subleases and commercial permits; value of opportunity costs in balancing observatory development with public trust obligations; and funding sources and allocation activity related to Mauna Kea; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Higher Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 757, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 757, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Keith-Agaran).

SCRep. 2516 (Joint/Majority) Higher Education and Judiciary on S.B. No. 2319

The purpose and intent of this measure is to:

- (1) Amend the composition of and term limits for the Board of Regents of the University of Hawai'i;
- (2) Reestablish the Governor's authority to nominate and, with the advice and consent of the Senate, appoint the members of the Board of Regents of the University of Hawai'i by repealing the Candidate Advisory Council for the Board of Regents of the University of Hawai'i;
- (3) Require the Governor to fill a vacancy on the Board of Regents within ninety days; and
- (4) Require the Governor to nominate new members to the Board of Regents by January 29, 2019, and for those new members who are appointed to begin serving terms on March 1, 2019.

Your Committees received testimony in opposition to this measure from the Association of Emeritus Regents of the University of Hawai'i and one individual.

Your Committees find that while the Candidate Advisory Council for the Board of Regents of the University of Hawai'i has nominated many outstanding appointees to the Board, important concerns have been raised as to the selection process. The potential value in granting the Governor the authority to select and appoint Regents on the basis of how each Regent's individual strengths will add to and complement the overall Board of Regents. Therefore, it is appropriate to reassess and seriously consider making significant changes to the appointment process for the Board of Regents of the University of Hawai'i to increase the Governor's ability to appoint qualified individuals to serve as Regents and effectively lead the University of Hawai'i System.

Your Committees have amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Higher Education and Judiciary that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2319, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2319, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Higher Education: Ayes, 4. Noes, none. Excused, 1 (Keith-Agaran).

Judiciary: Ayes, 3; Ayes with Reservations (Rhoads, Taniguchi). Noes, 1 (Thielen). Excused, 1 (Gabbard).

SCRep. 2517 (Joint) Higher Education and Economic Development, Tourism, and Technology on S.B. No. 2751

The purpose and intent of this measure is to:

- (1) Place the Pacific International Space Center for Exploration Systems within the Department of Business, Economic Development, and Tourism, rather than the Office of Aerospace Development; and
- (2) Deletes the Executive Director of the Pacific International Space Center for Exploration Systems as a member of the board and adds the Chancellor of the University of Hawai'i at Hilo.

Your Committees received testimony in support of this measure from the Department of Business, Economic Development, and Tourism; Pacific International Space Center for Exploration Systems; University of Hawai'i System; and one individual.

Your Committees find that the Pacific International Space Center for Exploration Systems is incorrectly placed in the Office of Aerospace Development as section 26-35(a), Hawaii Revised Statutes, requires that administrative supervision of any board or commission shall be placed within a principal department. Your Committees further find that the Executive Director of the Pacific International Space Center for Exploration Systems is serving on the Board of Directors; however, the Board is required to confirm the Executive Director and set the Executive Director's salary. As such, your Committees believe that the Executive Director should not serve on the Board of Directors and in the Executive Director's place the Chancellor of the University of Hawai'i at Hilo is a more fitting member to provide the County of Hawai'i's academic perspective to the Board.

Your Committees further find that combining the resources, goals, and expertise of the Office of Aerospace Development with the Pacific International Space Center for Exploration Systems will consolidate state resources and put more focus on the success of the Space Center that will push Hawaii forward in the field of aerospace.

Accordingly, your Committees have amended this measure by:

- (1) Repealing the Office of Aerospace Development and transferring all rights, powers, functions, and duties of the Office of Aerospace Development to the Pacific International Space Center for Exploration Systems;
- (2) Inserting a cap of \$1,000,000 for the Pacific international space center for exploration systems special fund; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Higher Education and Economic Development, Tourism, and Technology that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2751, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2751, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Higher Education: Ayes, 3. Noes, none. Excused, 2 (Chang, Kim).

Economic Development, Tourism, and Technology: Ayes, 3. Noes, none. Excused, 2 (Galuteria, Taniguchi).

SCRep. 2518 Labor on S.B. No. 2363

The purpose and intent of this measure is to establish a supervisory and professional job shadowing pilot project under the Department of Human Resources Development.

Your Committee received testimony in support of this measure from the Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO and O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i. Your Committee received comments on this measure from the Department of Human Resources Development.

Your Committee finds that there is a rising number of eligible retirees within the various departments of state government, which creates a pressing need to prepare the next generation of workers to occupy positions vacated by retirees, especially at the supervisory level. Your Committee believes that a supervisory and professional job shadowing pilot project for leadership and supervisory training could help to stabilize the workforce and ensure the transfer of essential skills and institutional knowledge; however, your Committee finds that a working group within the Department of Human Resources Development may be necessary to help develop the concept.

Accordingly, your Committee has amended this measure by:

- (1) Requiring the Department of Human Resources Development to establish a working group to establish a supervisory and professional job shadowing pilot project under the Department of Human Resources Development;
- (2) Requiring the working group to submit a report to the Legislature no later than twenty days prior to the convening of the Regular Sessions of 2019, 2020, 2021, and 2022;
- (3) Requiring the Department of Human Resources Development to submit a final report to the legislature no later than twenty days prior to the convening of the Regular Session of 2023 as to the sustainability of the professional job shadowing pilot project;
- (4) Appropriating funds for the professional job shadowing pilot project and working group; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2363, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2363, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 2519 Labor on S.B. No. 2870

The purpose and intent of this measure is to allow public inspection and duplication of salary ranges, rather than exact compensation, for legislative employees.

Your Committee received testimony in support of this measure from the Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO. Your Committee received testimony in opposition to this measure from the Hawaii Chapter of the Society of Professional Journalists, Civil Beat Law Center for the Public Interest, and League of Women Voters. Your Committee received comments on this measure from the Office of Information Practices.

Your Committee finds that tax payers want to know how and where their tax dollars are being spent and therefore government must be held accountable and demonstrate transparency; however, employees are entitled to a measure of privacy, and publishing any employee's exact dollar amount of salary does not adequately capture the State's expenses.

Your Committee acknowledges that this measure is a work in progress and notes that while it is important for tax payers to know the exact compensation of high salary government employees, lower wage government employees should be afforded basic privacy and respect in doing their jobs. Furthermore, availability of a government employee's exact compensation may lead to greater pay disparity if future employers base salary offers on employees' former government salaries. As this measure moves forward, proponents of the bill should consider the issues and suggestions heard in the testimony provided and work to find a balanced solution that achieves the outcomes they are seeking.

Your Committee has taken the amendments put forth by the Civil Beat Law Center for the Public Interest and amended this measure by:

- (1) Specifying that salary ranges within \$15,000 for legislative employees shall be made available for public inspection and duplication;
- (2) Deleting legislative officers as defined by section 88-21, Hawaii Revised Statutes, and legislative service agency directors and officers as defined by section 21E-1, Hawaii Revised Statutes, from the definition of "legislative employees" but specifying that non-managerial employees of legislative service agencies as defined by section 21E-1, Hawaii Revised Statutes, are included within that definition; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2870, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2870, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 2520 (Joint) Higher Education and Water and Land on S.B. No. 3090

The purpose and intent of this measure is to:

- (1) Establish the Mauna Kea Management Authority;
- (2) Limit the number of telescopes that may be authorized on Mauna Kea;
- (3) Authorize the renegotiation of leases, subleases, easements, permits, and licenses pertaining to Mauna Kea;
- (4) Require that revenue derived from activities on Mauna Kea be shared with the Office of Hawaiian Affairs;
- (5) Exclude Mauna Kea lands from the definition of “public lands”; and
- (6) Provide for free access to Mauna Kea for traditional cultural purposes.

Prior to the hearing on this measure, your Committees posted and made available for public review a proposed S.D. 1, which inserts language for provisions related to, among other things, the disposition of lands, lease agreements, and mineral and water rights.

Your Committees received testimony in support of the proposed S.D. 1 from the Ho‘omanapono Political Action Committee; Ho‘omana Pono, LLC; and two individuals. Your Committees received testimony in opposition to the proposed S.D. 1 from the University of Hawai‘i System, Department of Land and Natural Resources, County of Hawai‘i Office of the Mayor, Maunakea Observatories, Ho‘o Kili Farms, Momilani Farm, KTA Super Stores, Ka Lāhui Hawaii Political Action Committee, Sierra Club of Hawai‘i, Life of the Land, Hawai‘i’s Thousand Friends, Hawaii Island Economic Development Board, and numerous individuals. Your Committees received comments on the proposed S.D. 1 from the Department of Budget and Finance, Office of Hawaiian Affairs, and one individual.

Your Committees find that Mauna Kea is the most significant cultural and astronomical site in the world. The summit region of Mauna Kea is a spiritual and special place of significance that is home to cultural landscapes, fragile alpine habitats, historical and archaeological treasures, as well as endemic species found nowhere else on the planet. Since 1998, four audits by the State Auditor have been critical of the management, stewardship, and protection of Mauna Kea. Although significant changes have occurred on Mauna Kea since the 1998 audit, negative experiences over the past fifty years have eroded public confidence and demonstrated the critical need for fresh leadership centered on a new organizational structure, management system, and procedures.

Your Committees further find that there is a clear need for one entity to serve as a single focal point of management, responsibility, communication, and enforcement regarding Mauna Kea. This new entity will increase the accountability of all tenants on Mauna Kea and will ensure that each tenant is aware of its obligations and responsibilities. This entity will also provide the necessary stewardship for the sustainable use of Mauna Kea and the proper generation of revenue from that use. This entity will be headquartered on the island of Hawaii and will be recognized by the general public and the State as the single point of contact for Mauna Kea’s summit region.

Your Committees have amended this measure by adopting the proposed S.D. 1 and further amending the measure by:

- (1) Reframing the findings and purpose of the Mauna Kea Management Authority to emphasize Mauna Kea’s cultural and genealogical importance to Native Hawaiians and remove references to the Authority as serving as a new model for governance and management of Hawaii’s most precious resources;
- (2) Specifying that the Mauna Kea Management Authority shall be attached to the Department of Accounting and General Services, rather than the Office of the Governor;
- (3) Specifying the term limits for members of the Mauna Kea Management Authority and changing its composition by:
 - (A) Reducing the number of members from nine to seven;
 - (B) Removing the Director of Business, Economic Development, and Tourism and members to be selected from specified private organizations from the Authority;
 - (C) Requiring that the members demonstrate certain expertise in business, astronomy, land management, the environment, and Native Hawaiian traditional and customary practices or Hawaiian history;
 - (D) Requiring one member to be a practitioner or the lineal descendant of practitioners of Native Hawaiian traditional and customary practices; and
 - (E) Requiring four of the members to be residents of the County of Hawaii;
- (4) Removing the Executive Director position and specifying that the Authority’s day-to-day operations shall be led by the chairperson;
- (5) Requiring the Authority to be subject to chapters 76 and 89, Hawaii Revised Statutes, when appointing officers, agents, and employees, prescribing their duties and qualifications, and fixing their salaries;
- (6) Including benchmark requirements for prepared comprehensive management plans by the Authority;
- (7) Authorizing the Authority to adopt advisory committees to advise the Authority on culture, science, environment, education, astronomy, and business;
- (8) Deleting all references to the ability of the Authority to sell or exchange Mauna Kea lands, including remnants;
- (9) Deleting provisions related to consent to mortgage;
- (10) Requiring annual updates to the Legislature on the status of administrative rules and implementation of management plans;

- (11) Deleting language that would have authorized the Authority to permit an alternative agricultural, aquaculture, or mariculture use or uses for any portion or portions of the land demised;
- (12) Deleting language that would have entitled a lessee to receive the value of growing crops that the lessee is not permitted to harvest from the condemning authority;
- (13) Clarifying that for leases within the last two years of their lease, the request for qualifications notice from the Authority specify that the land to be leased is classified as conservation lands, rather than commercial and industrial use;
- (14) Specifying that at no time shall the total combined footprint of all improvements on Mauna Kea lands exceed the total developed footprint of improvements present on Mauna Kea as of December 31, 2031;
- (15) Requiring the Authority to consult with the Office of Hawaiian Affairs in establishing rules to ensure protection of traditional and customary practices;
- (16) Clarifying the applicability of conservation district rules to the approval or disapproval of all projects by the Authority;
- (17) Requiring the Authority to establish policies that allow for reasonable access for traditional and customary practices;
- (18) Clarifying language related to the revenue subject to the Office of Hawaiian Affairs' pro rata share to be consistent with section 10-13.5, Hawaii Revised Statutes;
- (19) Inserting language that assures that the conservation district rules applicability shall maintain contested case opportunities in the conservation district use application process;
- (20) Inserting language that requires the granting of contested case hearings related to any decision by the Authority insofar as the decision impacts constitutional rights;
- (21) Inserting language that appropriates an unspecified amount of funds for start up costs for the Authority;
- (22) Inserting language that appropriates an unspecified amount of funds from the Mauna Kea management revolving fund for administration, capital improvement projects, and other purposes;
- (23) Deleting certain provisions related to mineral and water rights;
- (24) Deleting provisions related to leases to foreign governments;
- (25) Inserting an effective date of December 31, 2033, to encourage further discussion; and
- (26) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Higher Education and Water and Land that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 3090, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 3090, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Higher Education: Ayes, 4; Ayes with Reservations (Kim). Noes, none. Excused, 1 (Chang).

Water and Land: Ayes, 5; Ayes with Reservations (Gabbard, Riviere, Thielen). Noes, none. Excused, none.

SCRep. 2521 Government Operations on S.B. No. 2055

The purpose and intent of this measure is to require the Governor to provide written notice to the Senate, no later than the forty-first day of a regular legislative session, of the name of any gubernatorial nominee for an executive branch position that is subject to the Senate's advice and consent.

Your Committee received testimony in opposition to this measure from the Office of the Governor. Your Committee received comments on this measure from the Department of the Attorney General.

Your Committee finds that the proper and efficient functioning of government requires the timely confirmation of gubernatorial nominees. Each year, the Governor nominates many individuals to fill vacancies as required by law. Many of these nominees require the advice and consent of the State Senate. However, your Committee finds that the nomination of individuals by the Governor is often delayed and nominees are not brought before the Senate in a timely manner. In recent years, various Administrations have made a request to the Senate to extend its internal deadline to receive Governor nominations for vacant positions. Consequently, the delays and extensions in the confirmation process have resulted in important positions remaining unfilled or filled with nominees who are not qualified by the Senate, leading to inefficiencies in the Executive and Legislative branches of government. Moreover, delays in the nominating process impair the Senate's ability to appropriately vet nominees. Therefore, your Committee finds that a firm deadline by which the Governor shall submit nominees to the Senate for advice and consent should be codified into the law.

However, your Committee acknowledges testimony from the Department of the Attorney General raising concerns about the measure's language regarding Senate rules. Your Committee recognizes that there is some question about how or if Senate rules may have to be changed to effectuate this measure properly.

Accordingly, your Committee has amended this measure by changing the effective date to July 1, 2050, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2055, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2055, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 2522 Commerce, Consumer Protection, and Health on S.B. No. 2659

The purpose and intent of this measure is to increase access to medical cannabis by changing references from transdermal patches to transdermal devices, and by adding cannabinoid suppositories to the list of manufactured cannabis products that may be manufactured and distributed by dispensaries.

Your Committee received testimony in support of this measure from the Oahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, Drug Policy Forum of Hawaii, Hawaii Educational Association for Licensed Therapeutic Healthcare, Kine Bottles, and three individuals. Your Committee received comments on this measure from the Department of Health.

Your Committee finds that the list of medical cannabis products that may be manufactured and distributed pursuant to section 329D-10, Hawaii Revised Statutes, omits potentially viable products, including non-patch transdermal devices and cannabinoid suppositories, which have been recommended for inclusion on the list by the medical cannabis legislative oversight working group convened pursuant to Act 230, Session Laws of Hawaii 2016.

Your Committee has heard support from various stakeholders and the concerns of the Department of Health with respect to the efficacy of cannabinoid suppositories. Your Committee finds that there was much compelling testimony presented on both sides, and that further debate on the merits is warranted.

Accordingly, your Committee has amended this measure by:

- (1) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2659, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2659, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 7. Noes, none. Excused, none.

SCRep. 2523 (Joint) Education and Government Operations on S.B. No. 2382

The purpose and intent of this measure is to require the Department of Accounting and General Services to:

- (1) Conduct semi-annual surveys of all departments concerning any unused facilities that may be used by public charter schools and maintain an inventory of all such unused facilities; and
- (2) Provide semi-annual reports on the inventory of unused department facilities to the State Public Charter School Commission.

Your Committees received testimony in support of this measure from the Office of Hawaiian Affairs; State Public Charter School Commission; Kamehameha Schools; Ho'omana Pono, LLC; Oahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i; Hawaii Public Charter Schools Network; and one individual. Your Committees received comments on this measure from the Department of Accounting and General Services and one individual.

Your Committees find that facilities funding is the greatest financial burden upon public charter schools. Many charter schools improvise by using temporary structures for instruction. By requiring the Department of Accounting and General Services to compile and maintain an inventory of unused departmental facilities that may be used by public charter schools, these public charter schools can continue to provide quality education in facilities that help to ensure the financial, academic, and organizational health of public charter schools.

Your Committees further find that the surveys conducted by the Department of Accounting and General Services of all departments concerning unused facilities that may be used by public charter schools may be conducted through physical surveys or by other means.

Your Committees have amended this measure by:

- (1) Specifying that the Department of Accounting and General Services shall conduct surveys of all departments concerning any unused facilities that may be used by public charter schools on a biennial, rather than semi-annual, basis;
- (2) Specifying that the Department of Accounting and General Services shall submit biennial, rather than semi-annual, reports on the inventory of unused department facilities to the State Public Charter School Commission; and
- (3) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Education and Government Operations that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2382, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2382, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chairs on behalf of the Committees.
Education: Ayes, 4. Noes, none. Excused, 1 (Dela Cruz).
Government Operations: Ayes, 3. Noes, none. Excused, 2 (Keith-Agaran, Rhoads).

SCRep. 2524 Education on S.B. No. 2921

The purpose and intent of this measure is to require any money \$10 or under collected by the unclaimed property program and net proceeds \$10 or under from the sale of unclaimed property held in state custody for over five years to be deposited into the libraries special fund.

Your Committee received testimony in support of this measure from the Hawaii State Public Library System and two individuals. Your Committee received comments on this measure from the Department of Budget and Finance.

Your Committee finds that Hawaii's public libraries offer many public benefits, including acting as community gathering places where learning happens and knowledge is shared. Many members of the public, including children and kupuna, rely on the public library system. This measure provides an opportunity to increase support to the Hawaii State Public Library System for the increasing demands of library patrons for library books and materials.

Your Committee has amended this measure by deleting section 2 and inserting language that:

- (1) Increases the threshold for claims made for funds in the unclaimed property trust fund from \$100 to \$250;
- (2) Specifies that unclaimed funds of \$10 or less in the unclaimed property trust fund, upon the expiration of a ten-year time limitation, shall escheat to the State and be transferred to the libraries special fund;
- (3) Specifies that unclaimed funds of more than \$10 but less than \$250 in the unclaimed property trust fund, upon expiration of the ten-year time limitation, shall escheat to the State and be transferred to the general fund; and
- (4) Makes a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2921, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2921, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Dela Cruz).

SCRep. 2525 Education on S.B. No. 3002

The purpose and intent of this measure is to authorize public libraries to perform the services of a notary public for a fee.

Your Committee received testimony in support of this measure from the Hawaii State Public Library System. Your Committee received testimony in opposition to this measure from the Association of Hawaii Notaries. Your Committee received comments on this measure from the Department of the Attorney General

Your Committee finds that Hawaii State Public Library System staff have received requests for notary services, particularly in rural areas of the State. In order to provide this much needed service to the public, allowing the public libraries to charge a fee for performing notary services will help to offset expenses incurred from maintaining a notary commission.

Your Committee has amended this measure by:

- (1) Inserting language that specifies that the State Librarian shall have the ability to designate one or more public library employees to be a notary public;
- (2) Adopting language proposed by the Department of the Attorney General that authorizes designated employees, upon duly qualifying and receiving commissions as notaries public in government service, to perform notary services in nongovernmental matters for fees to be deposited into the library fee for enhanced services special fund; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3002, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3002, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Dela Cruz).

SCRep. 2526 Judiciary on S.B. No. 2583

The purpose and intent of this measure is to designate June 21 of each year as International Yoga Day.

Your Committee received testimony in support of this measure from the Gandhi International Institute for Peace, Creative Cuisine, All Believers Network, and four individuals.

Your Committee finds that yoga is a long standing tradition in Indian culture that is practiced by many people in Hawaii. On December 11, 2014, the United Nations adopted UN General Assembly Resolution A/Res/69/131, which proclaimed June 21 as the International Day of Yoga. Accordingly, this measure will recognize June 21 of each year as the International Day of Yoga in Hawaii.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2583 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2527 Commerce, Consumer Protection, and Health on S.B. No. 2201

The purpose and intent of this measure is to:

- (1) Remove the word "Examiners" from the State Board of Chiropractic Examiners, Board of Dental Examiners, Board of Examiners in Optometry, and Board of Veterinary Examiners; and

- (2) Rename these boards with titles that accurately reflect their scope and duties.

Your Committee received testimony in support of this measure from the Hawaii Dental Hygienists' Association, two individuals, and a petition with ninety-six names. Your Committee received testimony in opposition to this measure from the Board of Dental Examiners. Your Committee received comments on this measure from the Professional and Vocational Licensing Division of the Department of Commerce and Consumer Affairs.

Your Committee finds that several regulatory boards in Hawaii have the word "Examiners" in their names, although the boards no longer administer examinations. Accordingly, this measure removes the word "Examiner" from the State Board of Chiropractic Examiners, Board of Dental Examiners, Board of Examiners in Optometry, and Board of Veterinary Examiners, and renames these boards with titles that accurately reflect each board's respective scope and duties.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2201, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2201, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 2 (Nishihara, Tokuda).

SCRep. 2528 Commerce, Consumer Protection, and Health on S.B. No. 2053

The purpose and intent of this measure is to:

- (1) Make permanent the regulation of athletic trainers; and
- (2) Exempt from the regulation of athletic trainers an individual who accompanies an athlete or team of athletes into the State for a temporary period and who does not possess a valid license, registration, or certification from another jurisdiction because that jurisdiction does not regulate athletic trainers.

Your Committee received testimony in support of this measure from the Professional and Vocational Licensing Division of the Department of Commerce and Consumer Affairs and Hawaii Athletic Trainers' Association. Your Committee received comments on this measure from the Office of the Auditor.

Your Committee finds that athletic trainers are health care professionals who specialize in the prevention, assessment, treatment, and rehabilitation of injuries and illnesses of athletes. Athletic trainers in Hawaii are employed in the State's public schools, some private schools, colleges, universities, hospitals, physicians' offices, clinics, and by the military.

Your Committee further finds that the existing regulatory scheme for athletic trainers is scheduled to sunset on June 30, 2018. A recent report from the Office of the Auditor found that the services an athletic trainer provides may affect the health and safety of athletes, while the proficiencies required by the current regulatory scheme are reasonably necessary to protect athletes under an athletic trainer's care. The Auditor's report also found that the current regulation of athletic trainers does not impose unreasonable restrictions on individuals entering the profession and recommends that the current registration requirement for athletic trainers be extended.

Your Committee additionally finds that this measure makes permanent the regulation of athletic trainers and also adds an exemption from registration for those individuals temporarily accompanying teams to Hawaii for an athletic or sporting event from a jurisdiction that does not regulate athletic trainers. Your Committee notes that California is the only state in the country that does not regulate athletic trainers. However, according to testimony from the Hawaii Athletic Trainers' Association, because California is currently in the process of passing legislation to enact its own registration program, the exemption language in this measure may be unnecessary. Your Committee understands these concerns and finds that an amendment to this measure is necessary.

Accordingly, your Committee has amended this measure by:

- (1) Removing language that would have exempted from the regulation of athletic trainers an individual who accompanies an athlete or team of athletes into the State for a temporary period and who does not possess a valid license, registration, or certification from another jurisdiction because that jurisdiction does not regulate athletic trainers; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2053, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2053, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 2 (Espero, Ihara).

SCRep. 2529 Commerce, Consumer Protection, and Health on S.B. No. 2258

The purpose and intent of this measure is to clarify that the licensing requirements for hearing aid dealers and fitters shall not apply to audiologists licensed pursuant to chapter 468E, Hawaii Revised Statutes.

Your Committee received testimony in support of this measure from the Board of Speech Pathology and Audiology, Island Audiology, and one individual. Your Committee received comments on this measure from the Professional and Vocational Licensing Division of the Department of Commerce and Consumer Affairs.

Your Committee finds that under existing law, audiologists must be licensed as an audiologist under chapter 468E, Hawaii Revised Statutes, and as a hearing aid dealer and fitter, pursuant to chapter 451A, Hawaii Revised Statutes. However, your Committee notes

that audiologist licensees must complete a rigorous academic study and clinical training that far exceeds the education and training requirements for hearing aid dealers and fitters. Audiologists are also required to pass a licensure examination that tests items that are equivalent to or higher than the test items on the hearing aid dealers and fitters licensure examination.

Your Committee additionally finds that requiring audiologists to hold dual licensure as an audiologist and a hearing aid dealer and fitter is redundant and burdensome. Furthermore, because audiologist licensing requirements surpass the requirements for licensure as a hearing aid dealer and fitter, not requiring audiologists to hold a second license as a hearing aid dealer and fitter will not result in consumer harm.

Your Committee has amended this measure by:

- (1) Clarifying within the audiologists' practice act that to be eligible for licensure as an audiologist, a person shall not be required to also be licensed as a hearing aid dealer and fitter; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2258, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2258, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 2 (Espero, Ihara).

SCRep. 2530 (Joint) Government Operations and Labor on S.B. No. 3014

The purpose and intent of this measure is to clarify requirements for public works projects for a bidder who is a party to an apprenticeship agreement.

Your Committees received testimony in opposition to this measure from the General Contractors Association of Hawaii and Building Industry Association of Hawaii. Your Committees received comments on this measure from the Associated Builders and Contractors Hawaii Chapter.

Your Committees find that promoting trade apprenticeships are important for the future well-being of the State. Apprenticeships in the trades provide invaluable learning experiences for individuals seeking to better themselves and develop skills for life-long careers. Those who work with apprentices should be incentivized to continue doing so. Accordingly, this measure attempts to incentivize apprenticeships through public works contracts by requiring a governmental body that enters into a public works contract under the procurement code having an estimated value of at least \$250,000 to decrease the bid amount of a bidder by five percent if the bidder is a party to an apprenticeship agreement registered with the Department of Labor and Industrial Relations for each type of classification that the bidder will list on the certified payroll affidavit to construct the public works.

Your Committees have amended this measure by:

- (1) Clarifying that section 103-55.6, Hawaii Revised Statutes, applies to apprenticeable trades that a bidder will directly employ to construct the public works; and
- (2) Requiring that, prior to the award, the procurement agency shall verify that the apprenticeable trade in which the bidder qualified for the preference is a trade needed to construct the public works project for which the offer is being made.

As affirmed by the records of votes of the members of your Committees on Government Operations and Labor that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 3014, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 3014, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chairs on behalf of the Committees.
Government Operations: Ayes, 4. Noes, none. Excused, 1 (Keith-Agaran).
Labor: Ayes, 4. Noes, none. Excused, 1 (Taniguchi).

SCRep. 2531 Commerce, Consumer Protection, and Health on S.B. No. 2938

The purpose and intent of this measure is to authorize the Insurance Commissioner to grant variances, waivers, or no action letters with respect to specific requirements of the Insurance Code or its rules when certain conditions are met.

Your Committee received testimony in support of this measure from the Department of Commerce and Consumer Affairs, American Insurance Association, and Hawaii Medical Service Association.

Your Committee finds that technology and consumer expectations are rapidly transforming the regulated insurance industry. Substantial investments are being made in innovative insurance products, services, and technologies, which have great potential to improve risk mitigation, improve efficiencies, reduce costs of insurance transactions, speed up claim payments, and improve overall customer understanding of, and satisfaction with, this essential form of financial protection.

Your Committee further finds that it is advantageous to have a procedure available to provide narrowly-tailored variances for insurers, as this could promote expanded competition and innovation in the insurance industry and ultimately benefit consumers. Your Committee additionally finds that this measure authorizes the Insurance Commissioner to approve applications for no action letters, waivers, or variances with respect to certain enforcement or application requirements of the State's insurance laws, but does not alter existing requirements regulating the financial viability and duties and obligations of insurers. This measure therefore encourages the piloting and testing of new and innovative products, pricing, and ways of delivering insurance to businesses and consumers.

Your Committee has amended this measure by:

- (1) Clarifying the Insurance Commissioner's ability to approve applications for no action letters, waivers, or variances; and

- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2938, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2938, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 1 (Ihara).

SCRep. 2532 Commerce, Consumer Protection, and Health on S.B. No. 2799

The purpose and intent of this measure is to allow licensed dental hygienists to practice under the general or direct supervision of any licensed dentist providing dental services in a public health setting.

Your Committee received testimony in support of this measure from the Department of Health, Board of Dental Examiners, Hawaii Medical Service Association, Hawaii Public Health Institute, Hawaii Dental Hygienists' Association, Hawaii Primary Care Association, Hawaii Dental Association, Lānaʻi Community Health Center, Hawaii Dental Service, Hui No Ke Ola Pono, five individuals, and a petition with ninety-seven names.

Your Committee finds that oral health is a critical component of a person's general health and well-being. Poor oral health can adversely affect a person's overall health and can negatively impact a person's ability to eat, speak, learn, work, and communicate. Your Committee further finds that Hawaii residents have a significantly higher prevalence of tooth decay than the national average, while the State's children have the highest prevalence of tooth decay in the nation. According to testimony from the Department of Health, a 2015 report issued by the Department identified key strategies to improve oral health in Hawaii, among them community-based prevention programs, screening and referral services, and restorative dental care. Your Committee additionally finds that preventative care in particular emphasizes the importance of ongoing hygiene procedures and daily practice to prevent tooth decay and other dental diseases and conditions and can result in less extensive and expensive treatment for any dental conditions that may develop.

Your Committee also finds this measure expands accessibility of preventative dental care by expanding the public health settings in which dental hygienists may provide care and broadening the services that can be performed by licensed dental hygienists in public health settings to include teeth cleanings, x-rays, and intra-oral or extra-oral photographs, while also holding the supervising licensed dentist responsible for procedures performed by the dental hygienist. This measure therefore reduces barriers to oral health care and supports and promotes expanded access to dental services for underserved and vulnerable populations in public health settings.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2799, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2799, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 2 (Espero, Ihara).

SCRep. 2533 (Joint) Commerce, Consumer Protection, and Health and Human Services on S.B. No. 2496

The purpose and intent of this measure is to:

- (1) Exempt from licensure requirements for behavior analysts certain individuals who implement applied behavior analysis services or plans under the oversight or direction of others; and
- (2) Update and standardize the terminology used to refer to behavior analysts.

Your Committees received testimony in support of this measure from the Department of Health, Department of Human Services, Special Education Center of Hawaii, Hawaii Waiver Providers Association, Hawaii Psychological Association, Lanakila Pacific, Full Life, Easter Seals Hawaii, The Arc of Kona, The Arc in Hawaii, Goodwill Industries of Hawaii, and thirty-one individuals. Your Committees received testimony in opposition to this measure from the Hawaii State Teachers Association; Hawaii Disability Rights Center; Autism Behavior Consulting Group Hawaii; Aloha Behavioral Associates, LLC; Hawaii Association for Behavior Analysis; and one hundred thirteen individuals. Your Committees received comments on this measure from the Department of the Attorney General, Professional and Vocational Licensing Division of the Department of Commerce and Consumer Affairs, and Hawaii Medical Service Association.

Your Committees find that the Department of Health's Developmental Disabilities Division operates Hawaii's Medicaid Intellectual and Developmental Disabilities Home and Community-Based Services Waiver (I/DD Waiver) on behalf of the Department of Human Services, Med-QUEST Division. Your Committees note that the provision of applied behavior analysis services in the I/DD Waiver is only for adults and is most often used for people with entrenched and challenging behaviors that include self-harm and aggression toward others.

According to testimony received by your Committees, the broad definition of the practice of behavior analysis has been interpreted to mean even simple behavior interventions, including for adults without autism, require a licensed behavior analyst. Although the number of licensed behavior analysts is growing, there is a current shortage of licensed behavior analysts in the State. This lack of workforce, coupled with the shortage of licensed behavior analysts needed to supervise registered behavior technician training hours, has limited access to behavior analysis services for adults in the I/DD Waiver, who generally have high-end behaviors that require staff-intensive approaches. Accordingly, your Committees further find that this measure supports access to the necessary applied behavior analysis services for adults in the I/DD Waiver, while also maintaining appropriate quality assurance, participant safeguards, and participant rights.

Your Committees have amended this measure by:

- (1) Clarifying that an individual who designs or implements applied behavior analysis services to participants in the Medicaid Home and Community-Based Services Waiver program pursuant to section 1915(c) of the Social Security Act on or before January 1, 2024, shall be exempt from behavior analyst licensure;
- (2) Clarifying that a family member, legal guardian, or caregiver implementing an applied behavior analysis plan and who acts under the direction of a licensed behavior analyst or Hawaii-licensed psychologist shall be exempt from licensure;
- (3) Inserting a definition of “caregiver”; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Commerce, Consumer Protection, and Health and Human Services that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2496, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2496, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chairs on behalf of the Committees.

Commerce, Consumer Protection, and Health: Ayes, 4. Noes, none. Excused, 3 (Espero, Ruderman, Tokuda).

Human Services: Ayes, 3. Noes, none. Excused, 2 (Tokuda, Wakai).

SCRep. 2534 Commerce, Consumer Protection, and Health on S.B. No. 2339

The purpose and intent of this measure is to require every pharmacy to accept for disposal the return of any unused, remaining, or expired prescription drug that the pharmacy previously dispensed.

Your Committee received testimony in support of this measure from the University of Hawai‘i at Hilo and two individuals. Your Committee received testimony in opposition to this measure from Walgreens Co.; Molokai Drug, Inc.; and one individual. Your Committee received comments on this measure from the Department of Health, Department of Public Safety, Board of Pharmacy, Kaiser Permanente Hawai‘i, Hawaii Pharmacists Association, Hawaii Substance Abuse Coalition, Times Pharmacy, and Product Stewardship Institute.

Your Committee finds that the rates of abuse and diversion of prescribed medication are on the rise in the State and throughout the country, with drug poisoning being the leading cause of death by injury in the United States. Furthermore, according to the National Institute on Drug Abuse, most prescription drug abusers obtain their drugs from friends and family, often taking them from home medicine cabinets without permission. Accordingly, this measure seeks to address the issue of disposal of prescription drugs by requiring a pharmacy to accept for disposal any unused, remaining, or expired prescription drug previously dispensed by the pharmacy.

However, your Committee has heard the concerns that this measure may conflict with federal Drug Enforcement Agency requirements. Your Committee notes that a 2014 federal regulation allows pharmacies to voluntarily implement in-store collection kiosks or provide mail-back envelopes in their stores. However, to implement these systems, pharmacies must pay for collection companies to maintain and dispose of pharmaceutical waste, and abide by strict procedures for the handling of waste. Furthermore, because pharmacies are controlled substance registrants, they generally must ship the drugs that are taken back from the community to a registered reverse distribution company for disposal. As there are no reverse distribution companies in Hawaii, all drugs taken back would have to be shipped to the mainland for disposal at possibly significant costs, which could have a negative effect on Hawaii’s small, independent pharmacies. Your Committee also notes that the State has already been working with law enforcement agencies to address the take back of opioids from the community. Your Committee understands these various concerns and concludes amendments to this measure are necessary.

Accordingly, your Committee has amended this measure by:

- (1) Clarifying that a pharmacy may, rather than shall, accept for disposal certain prescription drugs, using either collection receptacles or mail-back programs;
- (2) Specifying that opioids are excluded from the prescription drug return for disposal options of a pharmacy; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2339, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2339, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, 1 (Ihara).

SCRep. 2535 Commerce, Consumer Protection, and Health on S.B. No. 2770

The purpose and intent of this measure is to require health clubs, beginning on January 1, 2019, to maintain a surety bond of at least \$100,000 to be paid to any member who suffers loss of money paid due to the insolvency or cessation of operation of a health club.

Your Committee received testimony in support of this measure from the Department of Commerce and Consumer Affairs. Your Committee received testimony in opposition to this measure from the International Health, Racquet & Sportsclub Association.

Your Committee finds that existing law provides few protections for consumers when a health club ceases operations or becomes insolvent. Your Committee also finds that according to testimony from the Department of Commerce and Consumer Affairs, there have been several recent health club closures in Hawaii. As a result of these closures, customers who paid for services had no recourse to recover membership dues and initiation fees that were paid in advance. This measure therefore establishes surety bond requirements

for health clubs, with certain exceptions for health clubs that do not collect advance payment or fees, which will help consumers recover any dues and fees that were paid in advance to a health club if that health club later becomes insolvent or goes out of business.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2770, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2770, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 2 (Espero, Ihara).

SCRep. 2536 Commerce, Consumer Protection, and Health on S.B. No. 3082

The purpose and intent of this measure is to:

- (1) Extend the Money Transmitters Act to expressly apply to persons engaged in the transmission of virtual currency; and
- (2) Require a licensee dealing with virtual currency to provide a warning to a consumer prior to entering into an agreement with the consumer.

Your Committee received testimony in support of this measure from the Department of Commerce and Consumer Affairs. Your Committee received testimony in opposition to this measure from three individuals. Your Committee received comments on this measure from the Commission to Promote Uniform Legislation and Coinbase, Inc.

Your Committee finds that this measure extends the Money Transmitters Act to expressly apply to persons engaged in the transmission of virtual currency and provides a framework for the Division of Financial Institutions of the Department of Commerce and Consumer Affairs to regulate the still-emerging virtual currency industry, including establishing requirements for licensure, license renewal, examination, recordkeeping, reporting, prohibited practices, sanctions, and penalties. This measure also specifically authorizes the Division of Financial Institutions to accept like-kind virtual currency as permissible investments. According to testimony from the Division of Financial Institutions, this measure authorizes the Division to accept like-kind virtual currency as permissible investments, which addresses the concerns raised by some virtual currency money transmitters that they are unable to hold cash and cash-like permissible investments to cover their virtual currency transactions, as currently required under the Money Transmitters Act. Your Committee further finds that this measure allows virtual currency companies to obtain licensure and operate in Hawaii, while also providing protections for consumers.

Your Committee has amended this measure by:

- (1) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3082, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3082, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 2 (Ihara, Nishihara).

SCRep. 2537 Commerce, Consumer Protection, and Health on S.B. No. 2647

The purpose and intent of this measure is to amend the practicum experience requirements for qualification for licensure as a mental health counselor.

Your Committee received testimony in support of this measure from the Professional and Vocational Licensing Division of the Department of Commerce and Consumer Affairs, Hawaii Counselors Association, and one individual.

Your Committee finds that the existing educational requirements for application for licensure as a mental health counselor are overly specific, which has prevented some otherwise qualified individuals from gaining licensure. This measure generalizes the practicum intern experience to at least six semester hours or ten quarter hours within at least two academic terms, rather than requiring at least three semester hours or five quarter hours per academic term. Your Committee notes that this measure does not change the total practicum intern experience hours for licensure as a mental health counselor; rather, this measure provides greater flexibility for mental health counselor applicants to schedule and complete their practicum experience.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2647 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 2 (Espero, Ihara).

SCRep. 2538 Higher Education on S.C.R. No. 29

The purpose and intent of this measure is to request the State Auditor to conduct a forensic financial audit of the University of Hawaii's activities related to Mauna Kea.

Your Committee received testimony in support of this measure from the Oahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i and six individuals. Your Committee received testimony in opposition to this measure from three

individuals. Your Committee received comments on this measure from the University of Hawai'i System, Office of the Auditor, and Office of Hawaiian Affairs.

Your Committee finds that Mauna Kea is the most significant cultural and astronomical site in the world. The summit region of Mauna Kea is a spiritual and special place of significance that is home to cultural landscapes, fragile alpine habitats, and historical and archaeological treasures, as well as endemic species found nowhere else on the planet. Since 1998, four audits by the State Auditor have been critical of the management, stewardship, and protection of Mauna Kea. Although significant changes have occurred on Mauna Kea since the 1998 audit, negative experiences over the past fifty years have eroded public confidence and demonstrated the critical need for a financial audit to look into the University of Hawai'i's activities related to Mauna Kea.

Your Committee has amended this measure by:

- (1) Clarifying that the requested audit conducted by the State Auditor be a financial audit, not a forensic financial audit, that includes an examination of the financial records and an analysis of the financial management of the University of Hawai'i's activities related to Mauna Kea;
- (2) Deleting various elements and entities to be included in the audit, including certain leases, the Office of Mauna Kea Management Board, Kahu Kū Mauna, University of Hawai'i at Hilo astronomy program, and Hawai'i Island New Knowledge Fund;
- (3) Clarifying issues to be included in the audit related to the University of Hawai'i and Mauna Kea Observatories;
- (4) Inserting issues to be included in the audit related to the University of Hawai'i's implementation of the Mauna Kea comprehensive management plan; policies to generate revenues through leases, subleases, and permits; the negotiation for telescope subleases and commercial permittees; value of opportunity costs in balancing observatory development with public trust obligations; and funding sources and allocation activity related to Mauna Kea; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Higher Education that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 29, as amended herein, and recommends that it be referred to your Committee on Ways and Means, in the form attached hereto as S.C.R. No. 29, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Keith-Agaran).

SCRep. 2539 Housing on S.C.R. No. 27

The purpose and intent of this measure is to request the Auditor to conduct a sunrise review of the licensure and regulation of home inspectors.

Your Committee received testimony in support of this measure from the Professional and Vocational Licensing Division of the Department of Commerce and Consumer Affairs, Hawai'i Association of REALTORS, and six individuals. Your Committee received testimony in opposition to this measure from Diamond Head Home Inspections and ten individuals. Your Committee received comments on this measure from one individual.

Your Committee finds that buying a home could be the largest single investment a person or family will ever make. To minimize unexpected costs and delays in purchasing the home, it is important for the purchaser to learn as much as possible about the newly constructed or existing home before closing on the purchase. A home inspection may identify any needed repairs or builder defects prior to closing, as well as any maintenance issues that are necessary to keep the home in good condition after purchase. For existing homeowners, a home inspection can identify potential problems and suggest preventive measures that might help the homeowner avoid costly future repairs. For sellers, a home inspection can give the seller an opportunity to make repairs that will put the house in better selling condition. Thus, home inspectors play an integral role in many real estate transactions.

Your Committee further finds that unlike other professionals who are involved in real estate transactions such as real estate appraisers, real estate brokers and salespersons, mortgage loan originators, and mortgage servicers, home inspectors are not regulated by the State and do not require state licensure to perform services in Hawaii. By requesting the Auditor to conduct a sunrise review of the licensure and regulation of home inspectors, this measure complies with the Hawaii Regulatory Licensing Reform Act.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 27, as amended herein, and recommends that it be referred to your Committee on Commerce, Consumer Protection, and Health, in the form attached hereto as S.C.R. No. 27, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 3; Ayes with Reservations (Green). Noes, none. Excused, 2 (Kahale, Nishihara).

SCRep. 2540 Commerce, Consumer Protection, and Health on S.B. No. 2774

The purpose and intent of this measure is to update various areas of the State's insurance laws, including:

- (1) Adopting the National Association of Insurance Commissioners' Corporate Governance Annual Disclosure Model Act;
- (2) Allowing the Department of Commerce and Consumer Affairs and the Insurance Commissioner to determine whether an applicant's request to add or change a trade name or assumed name satisfies the State's Insurance Code and corporation law requirements;

- (3) Clarifying certain provider reimbursement requirements;
- (4) Adopting revisions to the Insurance Holding Company System Regulatory Act;
- (5) Providing the Insurance Commissioner with additional regulatory authority to supervise or liquidate a captive insurer;
- (6) Enabling the Insurance Division to temporarily create stopgap measures to implement the Network Adequacy Model Act;
- (7) Changing the notice requirements and recordkeeping obligations for vehicle protection product warrantors and service contract providers; and
- (8) Making various housekeeping amendments to clarify existing language and avoid ambiguities.

Your Committee received testimony in support of this measure from the Department of Commerce and Consumer Affairs, Board of Nursing, Board of Pharmacy, and American Council of Life Insurers. Your Committee received comments on this measure from the Office of Information Practices and Hawaii Medical Service Association.

Your Committee finds that this measure is intended to update and improve various areas of the State's insurance laws, including adopting the National Association of Insurance Commissioners' (NAIC) Corporate Governance Annual Disclosure Model Act (Model Act) to maintain the State's accreditation with the NAIC. According to testimony from the Department of Commerce and Consumer Affairs, although regulators obtain a significant amount of information on insurers' corporate governance practices during full-scope examinations, information on governance practices, which may include changes that can substantially impact current and prospective solvency, is not widely available to regulators in the period between onsite examinations. The adoption of the NAIC's Model Act, as proposed by this measure, will ensure that sufficient information on corporate governance practices is available to assess insurer solvency on a regular basis.

However, your Committee has heard the concerns from the Office of Information Practices that the confidentiality provision in the new article based on the Model Act is overly broad and covers all records, including blank forms, created by the Insurance Division to administer the new article. Your Committee finds that an amendment to the confidentiality provision is needed, as this provision is not intended to make confidential the Insurance Division's administrative records relating to the general administration of the new article, such as blank forms and workflow instructions for staff. Rather, this confidentiality provision is intended to protect records and information related to specific regulated businesses under the new article, whether the information and records are received from those businesses, included in communications with the Insurance Division, or part of the Insurance Division's internal discussions and deliberations, as much of this information is proprietary and may contain trade secrets. Your Committee notes that an additional amendment is also needed to clarify that records not made confidential under this section may still be withheld from public disclosure, to the extent that such records fall under an existing exception to disclosure under chapter 92F, Hawaii Revised Statutes.

Your Committee further finds that this measure, among other things, also clarifies reimbursement requirements for health care providers and discourages the practice of creating reimbursement mandates in the Insurance Code to accompany expansions in provider practice acts; adopts revisions to the NAIC's Insurance Holding Company System Regulatory Act for accreditation purposes; and temporarily allows the Insurance Division to create stopgap measures to implement the NAIC's Network Adequacy Model Act.

Your Committee has amended this measure by:

- (1) Clarifying the confidentiality provisions under the new Corporate Governance Annual Disclosure article;
- (2) Clarifying the short-term health insurance disclosure requirement disclaimer, to remove language that could be construed as no longer reflecting federal law;
- (3) Clarifying that health plans can provide reimbursement to health care providers who perform covered services, or to the insured health plan member, as appropriate;
- (4) Clarifying that captive risk retention groups are subject to the National Association of Insurance Commissioners' Risk Management and Own Risk and Solvency Assessment Model Act;
- (5) Clarifying that the repeal date of December 31, 2020, applies to sections 23 and 24 of this measure, relating to network adequacy; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2774, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2774, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 2 (Nishihara, Tokuda).

SCRep. 2541 Commerce, Consumer Protection, and Health on S.B. No. 2407

The purpose and intent of this measure is to include opioid addiction, substance abuse, and withdrawal symptoms resulting from the treatment of these conditions to the existing definition of "debilitating medical condition" as used in the medical use of cannabis law.

Your Committee received testimony in support of this measure from the Oahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, Drug Policy Forum of Hawaii, Hawaii Education Association for Licensed Therapeutic Healthcare, and two individuals. Your Committee received testimony in opposition to this measure from the Department of Health, Honolulu Police Department, Maui Police Department, Hawaii Substance Abuse Coalition, Ku Aloha Ola Mau, and five individuals. Your Committee received comments on this measure from The Queen's Health Systems.

Your Committee finds that opioid abuse is a serious public health concern. Your Committee further finds that the Centers for Disease Control and Prevention recommends that most cases of chronic pain be treated with non-opioid drugs.

Your Committee finds that cannabis is effective in treating chronic pain, both as a supplement to and as a replacement for opioid medication. Your Committee received testimony indicating that when patients are given access to cannabis, they reduce their opioid use by approximately fifty percent and that when opioids and cannabis are used together, they induce a greater reduction in pain than would result from simply adding the analgesic effects of both medications used singly. This suggests that the required analgesic dose of opioids is lower when opioids are used in combination with cannabis. Accordingly, your Committee finds that cannabis may be a valuable tool for the treatment of pain, especially as a way to reduce opioid use and dependence among patients who have already been prescribed opioid medication.

Your Committee also finds that some studies have indicated that cannabis users are more likely to adhere to a course of treatment for medication-assisted relapse prevention, and are slower to develop opioid tolerance. Your Committee also finds that other states which have permitted the use of cannabis in coordination with opioids have seen drops in addiction and overdoses, with opioid overdose rates falling by an average of twenty-five percent. Your Committee finds that existing law continues to impede research into coadministration of opioids and cannabis.

Your Committee further finds that genuine concerns exist about the efficacy and lack of scientific testing of cannabis as a treatment for opioid addiction. Your Committee acknowledges that other treatments for opioid addiction exist and have been tested. However, your Committee stresses that neither this measure nor existing law mandates a physician to certify that a patient may or must use cannabis; further, under existing law and under this measure, before a qualifying patient may use medical cannabis, the patient must obtain a written certification from the patient's physician or advanced practice registered nurse certifying that the patient has a debilitating disease that may benefit from use of medical cannabis. Your Committee also finds that many physicians may be uncomfortable conducting or discussing research on uses of cannabis that have not been authorized. Your Committee finds that existing law restricts the gathering and sharing of data on a potential use of medical cannabis that has shown early indications of efficacy, and that further study of this potential use is necessary. In light of the concerns raised, your Committee believes that further discussion of this measure is warranted.

Your Committee has also heard the concern of the Drug Policy Forum of Hawaii that the language used in this measure may perpetuate addiction as a social stigma rather than as a disease to be treated, and thereby discourage patients from seeking treatment. Your Committee finds that the language in this measure should be amended pursuant to the language proposed by the Drug Policy Forum of Hawaii.

Your Committee has amended this measure by:

- (1) Adopting language proposed by the Drug Policy Forum of Hawaii to accurately depict opioid use and substance use disorders as debilitating medical conditions, rather than describing them as addiction or abuse, which can be potentially stigmatizing;
- (2) Inserting an effective date of January 1, 2050, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2407, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2407, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 6; Ayes with Reservations (Nishihara, Tokuda). Noes, none. Excused, 1 (Ihara).

SCRep. 2542 Transportation and Energy on Gov. Msg. No. 504

Recommending that the Senate advise and consent to the nomination of the following:

DIRECTOR OF THE DEPARTMENT OF TRANSPORTATION

G.M. No. 504 JADE BUTAY, for a term to expire at noon on 12-03-2018

Your Committee reviewed the personal history, resume, and statement submitted by Jade Butay for service as the Director of Transportation.

Your Committee received testimony in support of the nomination for the appointment of Jade Butay from Governor David Y. Ige; Department of Defense; Department of Transportation Harbors Division; Department of Land and Natural Resources; Department of Business, Economic Development, and Tourism; Department of Accounting and General Services; Department of Budget and Finance; Department of Labor and Industrial Relations; State Procurement Office; Hawaii Tourism Authority; Board of Water Supply; Kauai Filipino Chamber of Commerce; Hawaii Harbors Users Group; Pasha Group; Pacific Shipyards International; McCabe, Hamilton, and Renny Co., Ltd.; Hawaii Transportation Association; Airlines Committee of Hawaii; Hawaii Labors-Employers Cooperation and Education Trust; United Public Workers, Local 646, AFL-CIO; Filipino American Citizens League; Filipino Chamber of Commerce of Hawaii; Hawaii Friends of Civil Rights; Radcliffe and Associates, LLC; Capitol Consultants of Hawaii, LLP; SanHi Government Strategies; Airports Concessionaires Committee; Matson; Hawaii Lodging and Tourism Association; Hawaiian Airlines; General Contractors Association of Hawaii; Young Brothers; Imanaka Asato, LLLC; Cebuano Association of Hawaii, Inc.; Filipina Advocacy Network; Norwegian Cruise Line Holdings, Ltd.; Filipino Coalition for Solidarity; Saltchuk Hawaii; Filipinos for Affirmative Action; and thirty-one individuals.

Jade Butay is currently the Interim Director of Transportation, a position he has held since November 2017. From January 2015 to his nomination as Interim Director, Mr. Butay served as the Deputy Director of Administration at the Department of Transportation, a position he also held from 2011 to 2013. Between his years of service with the Department of Transportation, Mr. Butay served as the Deputy Director of the Department of Labor and Industrial Relations. He also worked as a management consultant for twelve years.

The nominee received a Masters in Business Administration from Babson College and a Bachelor of Business Administration from the University of Hawai'i at Mānoa.

Your Committee believes that the nominee possesses the qualifications to serve as Director of Transportation. His years as Deputy Director of Transportation have given him extensive knowledge of the Department's procedures and current projects, which will help provide continuity at the Department. Testifiers attest to the nominee's professionalism, integrity, diligence, and strong communication skills. His collaborative and cooperative nature will continue to serve Mr. Butay well as Director of Transportation as he leads the Department in building and improving the State's transportation infrastructure.

In addition to his professional background, numerous testifiers also mentioned the nominee's contributions back to his community. Over the years, the nominee has worked on projects related to equal access to higher education for minorities; language access issues; and other civil right issues. He has also served as a mentor and role model for students seeking higher education and to many young professionals.

Your Committee notes the nominee's vision for the Department of Transportation is to build and improve the State's transportation infrastructure to keep the traveling public safe and secure, increase their mobility, and have the transportation system contribute to the State's economic growth. Mr. Butay will work to avoid conflicting and confusing lines of authority by focusing on fostering an environment of mutual respect and open communication, identifying problems and issues before they get out of control, and working together to seek appropriate consensus on major decisions and policies. His budgetary priorities include improving infrastructure, modernizing facilities, promoting revenue enhancements, ensuring compliance with environmental and security requirements, and leveraging federal monies. In particular, Mr. Butay would like to see investment in automated control kiosks and additional visitor information program assistants at the airport, modernization at the airports and harbors, and development of two new offices in the Department - the Intelligent Transportation Systems Office and the Office of Law Enforcement and Security.

As affirmed by the record of votes of the members of your Committee on Transportation and Energy that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 2543 Transportation and Energy on Gov. Msg. No. 505

Recommending that the Senate advise and consent to the nomination of the following:

DEPUTY DIRECTOR OF THE DEPARTMENT OF TRANSPORTATION

G.M. No. 505 ROY CATALANI, for a term to expire at noon on 12-03-2018

Your Committee reviewed the personal history, resume, and statement submitted by Roy Catalani for service as the Deputy Director of Transportation.

Your Committee received testimony in support of the nomination for the appointment of Roy Catalani from Governor David Ige; Department of Defense; Department of Transportation Harbors Division; Department of Business, Economic Development, and Tourism; Department of Accounting and General Services; Department of Budget and Finance; Hawai'i Tourism Authority; Oahu Economic Development Board; The Pasha Group; The Wilhelm Group; Hawaii Harbors Users Group; Pacific Shipyards International; Saltchuk Hawaii; McCabe, Hamilton, and Renny Co., Ltd.; Hawaii Transportation Association; Norwegian Cruise Line Holdings Ltd.; Chamber of Commerce Hawaii; SanHi Government Strategies; Radcliffe and Associates, LLC; Maui County Farm Bureau; Matson; Hawai'i Farm Bureau; General Contractors Association of Hawaii; Young Brothers; Cades Schutte; Peters Communications; and ten individuals.

Roy Catalani is currently the Interim Deputy Director of the Administration Division at the Department of Transportation, a position he has held since January 2018. Just prior to holding this position, he was Vice President of Strategic Initiatives and External Affairs for Young Brothers, Limited, a position he held for twelve years. He has experience as a partner in several law firms: Goodwill Anderson Quinn and Stifel, LLP; Catalani Nakanishi and Caliboso, LLP; and Rush Moore, LLP. Mr. Catalani served as Chair of the State Land Use Commission for one year, member of the State Land Use Commission for eight years, and Deputy Director of the Office of State Planning for one year, and has served on various non-profit boards and committees, including the YMCA of Honolulu, March of Dimes, Oahu Economic Development Board, Native Hawaiian Legal Corporation, and National Asian Pacific American Bar Association, Hawaii Chapter. The nominee received a Juris Doctorate and Bachelor of Arts from the University of Oregon, and attended Columbia University's Advanced Management Program.

Your Committee believes that the nominee, with his strong combination of experience in private practice and his public service with the State Land Use Commission and Office of State Planning, possesses the qualifications to serve as Deputy Director of the Department of Transportation. He has extensive knowledge of strategic, legal, regulatory, and governmental affairs, which is critical in managing a government agency. Mr. Catalani has also demonstrated the ability to complete facilities development and improvement initiatives, maximize operational efficiency, and perform operation expense reviews that help with cost control. Testifiers emphasized the nominee's legal background, experience with maritime operations, and managerial abilities as attributes that will lead to his success as the Deputy Director of the Department of Transportation.

Your Committee notes from the nominee's personal statement that the nominee views the mission of his position as administratively supporting the Director and Deputy Directors of the three operational divisions to meet their service goals and performance measures. In order to achieve these goals, Mr. Catalani will focus on matters such as filling vacant positions and addressing litigation issues so that the operational divisions can focus on their respective core missions.

As affirmed by the record of votes of the members of your Committee on Transportation and Energy that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2544 Judiciary on S.B. No. 2153

The purpose and intent of this measure is to repeal the requirement that candidate committee organizational reports include the name and address of each contributor who contributed an aggregate amount of more than \$100 to the candidate committee since the last election.

Your Committee received testimony in support of this measure from the Campaign Spending Commission and Common Cause Hawaii. Your Committee received testimony in opposition to this measure from one individual.

Your Committee finds that candidate committee organizational reports contain directory-type information related to the composition of the committee. Candidate committees are already required to disclose their contributions in periodic disclosure reports as required by the Hawaii Revised Statutes. Removing the requirement that candidate committees redundantly disclose their contributions in the organizational report will make the organizational reports more efficient without sacrificing the public's access to contribution information.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2153 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Gabbard, Kim).

SCRep. 2545 Judiciary on S.B. No. 2154

The purpose and intent of this measure is to repeal the reporting requirement regarding contributions in organizational reports of noncandidate committees and noncandidate committees making only independent expenditures.

Your Committee received testimony in support of this measure from the Campaign Spending Commission.

Your Committee finds that noncandidate committee organizational reports contain directory-type information related to the composition of the committee. Noncandidate committees are already required to disclose their contributions in periodic disclosure reports as required by the Hawaii Revised Statutes. Removing the requirement that noncandidate committees redundantly disclose their contributions in the organizational report will make the organizational reports more efficient without sacrificing the public's access to contribution information.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2154 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Gabbard, Kim).

SCRep. 2546 (Majority) Judiciary on S.B. No. 2609

The purpose and intent of this measure is to require certain information on the financial disclosure statements deemed to be public records for non-paid volunteer members of state boards to be redacted.

Your Committee received testimony in support of this measure from the Hawaii Housing Finance and Development Corporation and one individual. Your Committee received testimony in opposition to this measure from the Hawaii State Ethics Commission, Common Cause Hawaii, and League of Women Voters.

Your Committee finds that state boards often struggle to attract and retain qualified members for non-paid volunteer positions. The public disclosure requirement for such non-paid volunteer members is a significant deterrent for prospective applicants. While requiring certain information on the public financial disclosure statements of non-paid volunteer members of state boards to be redacted will reduce the deterrent effect of the financial disclosure requirement, your Committee also recognizes the countervailing public interest in openness and transparency in government.

Accordingly, your Committee has amended this measure by inserting an effective date of July 1, 2035, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2609, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2609, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 2; Ayes with Reservations (Rhoads). Noes, 1 (Thielen). Excused, 2 (Gabbard, Kim).

SCRep. 2547 Judiciary on S.B. No. 2461

The purpose and intent of this measure is to:

- (1) Establish the offense of misrepresentation of a service animal; and

- (2) Change the definition of “service dog” to “service animal” and amend the definition of that term to conform with the Americans with Disabilities Act of 1990.

Your Committee received testimony in support of this measure from the Hawaii Food Industry Association and four individuals. Your Committee received testimony in opposition to this measure from the Hawai‘i Civil Rights Commission. Your Committee received comments on this measure from the Department of the Attorney General, Disability and Communication Access Board, and Hawaii Disability Rights Center.

Your Committee finds that fraudulent misrepresentation of pets and untrained animals as service animals is widespread and harmful to persons who legitimately rely on service animals. Currently, there are no legal consequences for misrepresenting a pet or other untrained animal as a service animal. Establishing penalties for such misrepresentation could function as a deterrent.

Your Committee notes concern about the practical enforcement of a penalty for misrepresentation of a service animal and encourages the Department of Human Services to review this measure. Your Committee further encourages the Working Group on Service Animals proposed by Senate Concurrent Resolution No. 28, Regular Session of 2018, consider the penalties and definitional language established by this measure should that resolution be adopted by the Legislature.

Your Committee has amended this measure by:

- (1) Adding to and clarifying the legislative findings in the purpose section;
- (2) Making misrepresentation of a service animal a civil violation instead of a misdemeanor offense;
- (3) Establishing civil fines of not less than \$100 and not more than \$250 for a first violation and not less than \$500 for a second violation and each violation thereafter;
- (4) Removing the non-exclusive list of example tasks from the definition of “service animal”;
- (5) Inserting an effective date of January 1, 2035, to encourage further discussion; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2461, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2461, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Gabbard, Kim).

SCRep. 2548 Commerce, Consumer Protection, and Health on S.B. No. 3025

The purpose and intent of this measure is to establish certain disclosure requirements for publishers of video games that contain a system of purchasing a randomized reward or consumable virtual item that can be redeemed and directly or indirectly converted to a randomized reward.

Your Committee received testimony in support of this measure from the Hawaii Youth Services Network and four individuals. Your Committee received testimony in opposition to this measure from the Entertainment Software Association and Retail Merchants of Hawaii. Your Committee received comments on this measure from the Department of Commerce and Consumer Affairs.

Your Committee finds that the multi-billion-dollar video game industry is extremely popular in America. Video games and gaming content are widely and easily available to consumers and may be purchased at the touch of a button through smart phones, gaming consoles, or personal computers. However, video games that contain randomized rewards or variable reward mechanisms, also known as loot boxes, may introduce children and young adults to the thrills of gambling at an age when their brains are not fully developed. According to testimony received by your Committee, children and youth are vulnerable to developing behavioral addiction to gambling and lack the maturity or knowledge to recognize the risks they encounter. Furthermore, parents and other responsible adults are often unaware of the randomized rewards that are often available in the video games their children are using. Your Committee notes that the ubiquitous reach of video games, which require active, lengthy participation and exposure to the psychological manipulation techniques of loot boxes, may present harmful risks to the financial well-being and mental health of individuals, especially vulnerable youth and young adults. This measure therefore establishes certain disclosure requirements for publishers of video games that contain a system to purchase a randomized reward or consumable virtual item.

Your Committee has amended this measure by:

- (1) Inserting a definition of “randomized reward”; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3025, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3025, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 7. Noes, none. Excused, none.

SCRep. 2549 Commerce, Consumer Protection, and Health on S.B. No. 2638

The purpose and intent of this measure is to prohibit a licensing authority from adopting rules that authorize an unlicensed individual to perform duties that may overlap or conflict with the duties and scope of licensed professions or vocations.

Your Committee received testimony in support of this measure from the Hawaii Dental Hygienists' Association, two individuals, and a petition with ninety-seven names. Your Committee received testimony in opposition to this measure from the Professional and Vocational Licensing Division of the Department of Commerce and Consumer Affairs, Board of Dental Examiners, and Hawaii Dental Association. Your Committee received comments on this measure from the Hawai'i Psychological Association.

Your Committee finds that professional or vocational licensed individuals may employ auxiliary personnel to assist these licensed individuals in the practice of the profession or vocation. Although these auxiliary personnel are a valuable part of a team, they may not be licensed or certified in Hawaii or required to meet the same stringent standards of training and care as licensed individuals in certain professions or vocations. Accordingly, it is important that these unlicensed individuals do not infringe upon a particular licensed profession's scope of practice.

Your Committee further finds that it is the Legislature who determines duty and scope of practice for licensed professionals in the State. Therefore, your Committee finds that it is not appropriate for a licensing authority to adopt rules that attempt to circumvent or supersede existing law regarding duty and scope of practice for other licensed professionals. Your Committee additionally finds that in the case of a conflict between licensing laws and rules passed by a licensing authority, the licensing laws prevail.

Finally, although your Committee acknowledges that the scope of practice for certain licensed professionals may overlap, your Committee notes that this measure addresses situations where unlicensed personnel are being asked to take on responsibilities for which the Legislature, through the legislatively determined parameters contained in the Hawaii Revised Statutes, has determined that a license is required.

Your Committee has amended this measure by:

- (1) Specifying that a licensing authority shall not use rules to supersede requirements under applicable licensing laws;
- (2) Clarifying that a licensing authority shall not adopt rules that authorize an unlicensed individual to perform duties, activities, or functions that, if performed by another professional, would require licensure of that professional, rather than prohibiting a licensing authority from adopting rules that infringe upon, overlap with, or conflict with the scope of practice of any licensed professional;
- (3) Specifying that in the case of a conflict between licensing laws and rules, the licensing laws shall prevail;
- (4) Specifying that the requirements do not apply to apprentices or trainees working toward licensure in an apprenticeship program or clinical program; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2638, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2638, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 1 (Ihara).

SCRep. 2550 Commerce, Consumer Protection, and Health on S.B. No. 270

The purpose and intent of this measure is to prohibit persons licensed to provide professional counseling from engaging in, attempting to engage in, or advertising sexual orientation change efforts on persons under eighteen years of age.

Your Committee received testimony in support of this measure from the Office of the Lieutenant Governor; Department of Health; Oahu County Committee, Legislative Priorities Committee of the Democratic Party of Hawai'i; Kupuna Caucus of the Democratic Party of Hawai'i; LGBT Caucus of the Democratic Party of Hawai'i; Hawaii State Teachers Association; National Association of Social Workers – Hawai'i Chapter; Hawaii Section of the American College of Obstetricians and Gynecologists; Americans for Democratic Action; Hawai'i Friends of Civil Rights; IMUAlliance; Young Progressives Demanding Action – Hawaii; Save Medicaid Hawaii; Filipina Advocacy Network; Planned Parenthood Votes Northwest and Hawaii; National Center for Lesbian Rights; Hawaii LGBT Legal Association; Hawaii Children's Action Network; Hawai'i Psychological Association; Hawaii Youth Services Network; Cathedral of Hope United Church of Christ; and eighty individuals. Your Committee received testimony in opposition to this measure from the Hawaii Family Forum, Honolulu County Republican Party, Hawaii Catholic Conference, and fourteen individuals. Your Committee received comments on this measure from the Regulated Industries Complaints Office of the Department of Commerce and Consumer Affairs and League of Women Voters.

Your Committee finds that according to the American Psychological Association, sexual orientation change efforts, also known as conversion therapy, tend to do more harm than good. Children and adolescents who participate in these types of interventions, which often use fear-based techniques, are given inaccurate scientific information regarding sexual orientation and gender identity and are also at risk of increased self-stigma and psychological distress. Participants in sexual orientation change efforts report many negative consequences from these interventions including anger, anxiety, depression, guilt, hopelessness, loss of social support, relationship problems with significant others and families, social isolation, suicidal thoughts, self-hatred, and sexual dysfunction.

Your Committee additionally finds that all the leading professional organizations involved in the treatment of children have issued statements opposing sexual orientation change efforts, including the American Psychological Association, American Medical Association, American Academy of Pediatrics, American Psychiatric Association, and National Association of Social Workers. Furthermore, the American College of Obstetricians and Gynecologists has found that "reparative therapy aimed to change sexual orientation by provoking guilt and anxiety to shame those who do not identify as heterosexual is ineffective and harmful", while the American Academy of Child and Adolescent Psychiatry recently issued a policy statement noting that these types of "conversion therapies" (or other interventions imposed with the intent of promoting a particular sexual orientation and/or gender as a preferred outcome) lack scientific credibility and clinical utility" and can be harmful.

Your Committee further finds that more states have taken action to protect lesbian, gay, bisexual, and transgender youth from the harmful practices associated with sexual orientation change efforts, including California, Connecticut, Illinois, Nevada, New Jersey, New Mexico, New York, Oregon, Rhode Island, Vermont, and the District of Columbia. According to testimony received by your Committee, although similar state laws have been challenged in court on constitutional grounds, these bans on sexual orientation change efforts have been upheld. Your Committee notes that the Supreme Court of the United States has declined to consider cases challenging similar laws, including turning away a challenge to New Jersey's law in 2015. Most recently, in May 2017, the Supreme Court of the United States let stand a lower court's ruling that California's ban was constitutional and neither impinged upon free exercise of religion nor impacted the activities of clergy members.

Your Committee also finds that this measure does not hinder counselors, health care providers, mental health providers, clergy, or parents from speaking to lesbian, gay, bisexual, and transgender children and adolescents. Rather, this measure regulates the conduct of state-licensed persons who provide professional counseling to minors under the age of eighteen, similar to existing consumer protection laws designed to protect the public against ineffective and unsafe treatment by Hawaii-licensed professionals.

Your Committee has amended this measure by:

- (1) Specifically identifying the state-licensed professionals who are prohibited from engaging in, attempting to engage in, or advertising sexual orientation change efforts, including physicians, especially those practicing psychiatry; psychologists; nurses; social workers; licensed mental health counselors; or licensed marriage and family therapists;
- (2) Clarifying that the term "sexual orientation change efforts" includes efforts to change gender identity or gender expressions and behaviors; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 270, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 270, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 7. Noes, none. Excused, none.

SCRep. 2551 Water and Land on S.B. No. 2848

The purpose and intent of this measure is to:

- (1) Require any rules adopted by the Department of Land and Natural Resources pursuant to its rulemaking authority that regulates the fishing of bottomfish to be supported by peer-reviewed, scientific evidence and statistics on current status of stocks, indicating an environmental necessity of the regulation;
- (2) Apply the federal guidelines regarding annual catch limits of bottomfish in the absence of a rule adopted by the Department of Land and Natural Resources to restrict the fishing of bottomfish;
- (3) Require that when a coordinated state and federal management system is implemented, that management system be consistent with the fishery management plan provisions of the Magnuson-Stevens Fishery Conservation and Management Act of 1976, as amended; and
- (4) Specify the types of species referred to as bottomfish.

Your Committee received testimony in support of this measure from the Hawai'i Fishermen's Alliance for Conservation and Tradition, Inc.; and twenty individuals. Your Committee received testimony in opposition to this measure from the Office of Hawaiian Affairs and one individual. Your Committee received comments on this measure from the Department of the Attorney General and Department of Land and Natural Resources.

Your Committee finds that in the late 1990s, the federal government determined that overfishing of certain bottomfish was occurring around the main Hawaiian islands. To address the problem, the Department of Land and Natural Resources instituted a system for several bottomfish restricted fishing areas and various administrative rules. In 2007, the Department reduced the number of bottomfish restricted fishing areas but increased the area of the remaining twelve bottomfish restricted fishing areas.

Your Committee notes that pursuant to the federal determination of overfishing of certain bottomfish, the Department of Land and Natural Resources established a coordinated bottomfish management plan with the National Oceanic and Atmospheric Administration fisheries. The management plan includes peer-reviewed, science-based stock assessment that establishes the current annual catch limits, which stop all fishing, sale, and possession of certain species of bottomfish, referred to as deep 7 bottomfish, for each fishing year. Like this coordinated management plan, this measure will regulate bottomfish fishing in Hawaii through rules that are supported by peer-reviewed, scientific evidence.

Lastly, your Committee notes that adopting bottomfish fishing rules that are supported by peer-reviewed, scientific evidence may require funding. Thus, your Committee believes that providing a means of financing to the Department of Land and Natural Resources to adopt such rules merits further discussion as this measure moves through the legislative process.

Your Committee has amended this measure by:

- (1) Inserting an effective date of March 15, 2009, to encourage further discussion; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2848, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2848, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 5; Ayes with Reservations (Riviere, Thielen). Noes, none. Excused, none.

SCRep. 2552 Commerce, Consumer Protection, and Health on S.B. No. 2643

The purpose and intent of this measure is to provide an insurer with an exception to the requirement of providing all of its customers with annual privacy notices where the insurer provides nonpublic personal financial information to nonaffiliated third parties under certain conditions and the insurer's policies and practices regarding disclosure of such information are unchanged.

Your Committee received testimony in support of this measure from the Hawaii Medical Service Association, National Association of Mutual Insurance Companies, Property Casualty Insurers Association of America, American Council of Life Insurers, and American Insurance Association. Your Committee received testimony in opposition to this measure from the Department of Commerce and Consumer Affairs and one individual.

Your Committee finds that existing law requires insurers to send annual privacy notices to all individuals covered by a group policy, regardless of whether there has been a change to the privacy policy, in conformity with the federal Gramm-Leach-Bliley Act. Your Committee further finds that a 2015 federal act included amendments to the privacy provisions of the Gramm-Leach-Bliley Act, and was intended to eliminate the costly and time consuming requirement of redundant annual privacy notices, if certain conditions were met. This measure therefore amends Hawaii's annual privacy notice requirements to reduce the need for redundant annual privacy notices.

However, your Committee has heard the concern raised by the Department of Commerce and Consumer Affairs that this measure may enable an insurer to avoid sending any additional privacy notices, after the initial required notice, regarding its policies and practices of disseminating customers' nonpublic personal financial information to nonaffiliated third parties, while continuously engaging in the release of this nonpublic personal financial information. Your Committee understands these concerns and concludes that amendments to this measure are necessary.

Accordingly, your Committee has amended this measure by:

- (1) Clarifying the requirements for additional privacy notices that an insurer must send, rather than amending the exceptions to the annual privacy notice requirement, including:
 - (A) Permitting an insurer to send a privacy notice every five years, if the relationship between the insurer and a customer is renewed annually or less than annually and the insurer has not changed its policies and practices regarding disseminating customers' nonpublic personal financial information to nonaffiliated third parties;
 - (B) Requiring an insurer to provide an additional privacy notice upon renewal of a relationship between an insurer and a customer that lasts longer than a year; and
 - (C) Requiring an insurer that changes its policies and practices regarding disseminating customers' nonpublic personal financial information to nonaffiliated third parties to send an additional notice to customers after the change to its policies and practices;
- (2) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2643, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2643, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, 1 (Ihara).

SCRep. 2553 Commerce, Consumer Protection, and Health on S.B. No. 2710

The purpose and intent of this measure is to permit brewpub and small craft producer pub licensees to allow minors, who are accompanied by a parent or legal guardian of legal drinking age, on the licensee's premises.

Your Committee received testimony in support of this measure from the Hawaiian Craft Brewers Guild; Maui Brewing Co.; Kauai Beer Company; Big Island Brewhaus; Honolulu BeerWorks; Waikiki Brewing Company; REAL a gastropub; Lanikai Brewing Company; Stewbum & Stonewall Brewing Co.; Kaua'i Island Brewing Company, LLC; Kohola Brewery; and two individuals. Your Committee received comments on this measure from the Liquor Commission of the City and County of Honolulu.

Your Committee finds that brewpubs and small craft producer pubs are popular community gathering places where people can meet their family and friends. Your Committee further finds that brewpubs and small craft producer pubs are not intended to promote mass consumption of alcohol; rather, these establishments offer customers a comfortable place to taste craft beer. However, your Committee notes that although minors are allowed to be in some craft beer establishments with a parent or legal guardian of legal drinking age, this is not consistent throughout the State.

Your Committee additionally finds that breweries and brewpubs are a growing business sector in Hawaii, and restricting families from being together at a brewpub or producer pub reduces the number of customers visiting these local establishments. This measure therefore permits brewpub and small craft producer pub licensees to allow minors, accompanied by a parent or legal guardian of legal drinking age, on the licensee's premises, which will increase the ability of local residents and visitors to experience Hawaii's local breweries, expand brand recognition for these breweries, and increase the market for all Hawaii craft beer.

Your Committee has amended this measure by:

- (1) Clarifying that brewpub and small craft producer pub licensees are permitted to allow minors, who are accompanied by a parent or legal guardian of legal drinking age, on the licensee's premises until 10:00 p.m.; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2710, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2710, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 2 (Nishihara, Ruderman).

SCRep. 2554 Commerce, Consumer Protection, and Health on S.B. No. 2247

The purpose and intent of this measure is to expand the scope of registered pharmacists' practices by allowing registered pharmacists to prescribe, dispense, and provide related education on opioid antagonists without the need for a written, approved collaborative agreement.

Your Committee received testimony in support of this measure from the Department of Health; Board of Pharmacy; University of Hawaii Daniel K. Inouye College of Pharmacy; Oahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i; Drug Policy Forum of Hawaii; Hawaii Pharmacist Association; Hawaii Substance Abuse Coalition; Times Pharmacy; Walgreen Co.; Ho'omana Pono, LLC; The CHOW Project; and sixteen individuals. Your Committee received testimony in opposition to this measure from seven individuals. Your Committee received comments on this measure from the Hawaii Medical Service Association and Kaiser Permanente.

Your Committee finds that the nationwide opioid epidemic continues to result in an alarming number of opioid overdose deaths, and that drug overdoses are one of the leading causes of injury-related mortality in Hawaii. Your Committee further finds that these deaths are often preventable via timely administration of an opioid antagonist, such as naloxone.

Your Committee further finds that pharmacists are well-situated to provide education about and access to opioid antagonists, just as pharmacists have previously helped raise immunization rates. Your Committee finds that mandatory written collaborative agreements between pharmacists and physicians are not necessary for the safe prescription and dispensation of opioid antagonists and impede timely, expanded access to opioid antagonists.

Your Committee has heard the concerns of the Board of Pharmacy, Walgreen Co., Times Pharmacy, and Kaiser Permanente that requiring pharmacists to obtain and maintain a written acknowledgment form may result in fewer pharmacists offering opioid antagonists. Your Committee finds that the written acknowledgment form, while well-intentioned, may provide a needless barrier to opioid antagonist access without offering significant protections to consumers. Further, these same testifiers raised to your Committee the concern that this measure is not specifically meant to address emergency administration of opioid antagonists, and that prohibiting pharmacists from requiring an appointment prior to prescribing an opioid antagonist forestalls the opportunity for pharmacists to discuss the use and effect of the opioid antagonist with the individual receiving the prescription. Your Committee agrees that the primary purpose of this measure is not to convert pharmacists into emergency responders, but rather to allow pharmacists to prescribe opioid antagonists and provide education ahead of time. Your Committee finds that allowing pharmacists to make appointments as appropriate will further the purposes of this measure.

Your Committee is aware of other concerns raised with respect to this measure and that additional discussion of this measure is warranted.

Your Committee has amended this measure by:

- (1) Clarifying that a pharmacist may prescribe and dispense an opioid antagonist to an individual who is at risk for an opioid overdose or prescribe and dispense an opioid antagonist to a family member or caregiver of such individual;
- (2) Clarifying that an opioid antagonist prescribed and dispensed for a family member or caregiver of an individual when that same individual is at risk for an opioid overdose may be prescribed and dispensed in the name of the individual who is to be treated with the opioid antagonist or an "Opioid Antagonist Recipient" or "OAR";
- (3) Deleting the requirement for pharmacists to obtain and maintain a written acknowledgment form signed by the individual receiving the opioid antagonist;
- (4) Deleting the prohibition against pharmacists requiring an appointment before the pharmacist prescribes or dispenses an opioid antagonist;
- (5) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2247, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2247, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 2 (Nishihara, Ruderman).

SCRep. 2555 Commerce, Consumer Protection, and Health on S.B. No. 2711

The purpose and intent of this measure is to:

- (1) Clarify that a class 14 brewpub licensee or class 18 small craft producer pub licensee may conduct certain activities at locations other than the licensee's primary manufacturing premises under certain conditions;
- (2) Clarify the definition of growler; and
- (3) Allow direct shipping of all forms of liquor, rather than just wine, by certain licensees.

Your Committee received testimony in support of this measure from the Hawaiian Craft Brewers Guild; Waikiki Brewing Company; Honolulu BeerWorks; REAL a gastropub; Big Island Brewhaus; Maui Brewing Co.; Kauai Beer Company; Stewbum & Stonewall Brewing Co.; Lanikai Brewing Company; Kaua'i Island Brewing Company, LLC; and five individuals. Your Committee received comments on this measure from the Liquor Commission of the City and County of Honolulu.

Your Committee finds that the popularity of growlers, a type of container used to transport beer, continues to increase. Although growlers were originally made of glass, they are now made from a wider range of environmentally friendly reusable or recyclable materials. This measure reflects this change in container materials by defining growler as a recyclable or reusable container not to exceed one gallon.

Your Committee further finds that the State's craft breweries are increasing in number, through the addition of new start-up brewery businesses and the expansion of existing businesses. Breweries that have an initial or primary manufacturing premises may wish to expand to a new establishment, sometimes in a second county. This measure addresses inconsistencies in existing law by allowing a second location, which may not be a manufacturing facility, to conduct activities such as dispensing and retail sales under the same trade name as the original licensee, without having to obtain a second production license. However, your Committee has heard the concerns about the potential requirements for an additional public hearing for a licensee who wishes to open a second location in a different county, as your Committee notes that this is a costly and time-consuming process. Amendments to this measure are therefore necessary to clarify when a licensee may avoid the requirement for a public hearing prior to the establishment of a secondary location under the licensee's trade name.

Your Committee additionally finds that existing law allows the direct shipment of wine. This measure achieves parity across all categories of beverage alcohol by permitting direct shipment of specified amounts of beer, spirits, and wine. Your Committee notes that start-up breweries and smaller craft breweries usually lack access to distributors who will export their beer out of the State. This measure therefore provides an opportunity for Hawaii's craft beer businesses to offer products through direct sales to new markets and a wider customer base.

Your Committee has amended this measure by:

- (1) Clarifying that the public hearing requirements for another location of a class 14 brewpub licensee or class 18 small craft producer pub licensee, located within any county in the State, shall not apply to that other location, if there have not been any actionable complaints against the original class 14 licensee or class 18 licensee; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2711, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2711, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 2 (Nishihara, Ruderman).

SCRep. 2556 Commerce, Consumer Protection, and Health on S.B. No. 2945

The purpose and intent of this measure is to eliminate the requirement that the applicant for a liquor license or a renewal of a license, or in the case of a transfer of a license, the transferor or transferee, produce either a tax clearance certificate from the Internal Revenue Service or proof of entering into an installment plan agreement with the Internal Revenue Service.

Your Committee received testimony in support of this measure from the Office of the Mayor, County of Maui; Department of Liquor Control, County of Maui; Liquor Commission, City and County of Honolulu; Department of Liquor Control, County of Kaua'i; Maui Hotel & Lodging Association; Merchant Horovitz, LLC; Ocean Tourism Coalition; Teralani Sailing Adventures; and one individual.

Your Committee finds that under existing law, all liquor license applicants and those renewing their licenses are required to submit tax clearances from the Hawaii Department of Taxation and the Internal Revenue Service. According to testimony received by your Committee, Hawaii is the only state in the country to require a federal tax clearance for liquor license applications and renewals.

Your Committee further finds that the Internal Revenue Service has faced increasing budgetary and resource challenges over the past few years, which has resulted in the decrease of Internal Revenue Service offices, personnel, and operating hours in Hawaii. This has particularly impacted the County of Maui, which has one Internal Revenue Service office open one day a week, and the County of Kauai, which lacks a local Internal Revenue Service office altogether. Your Committee additionally finds that liquor licensees and applicants throughout the State have experienced increasing difficulties obtaining the necessary tax clearance from the Internal Revenue Service, with some licensees experiencing breaks in service due to the inability of the Internal Revenue Service to accommodate required face-to-face appointments with licensees. This measure therefore removes the requirement for liquor licensees and applicants and transferors or transferees to obtain a tax clearance from the Internal Revenue Service, which will eliminate the undue hardships, costs, and delays currently experienced by many liquor licensees and applicants.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2945 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 2 (Nishihara, Ruderman).

SCRep. 2557 Commerce, Consumer Protection, and Health on S.B. No. 2613

The purpose and intent of this measure is to:

- (1) Authorize the liquor commissions to issue a new restaurant liquor license prior to the restaurant commencing operation;
- (2) Require an applicant for a new class 2 restaurant liquor license to certify that the applicant intends to and shall derive no less than thirty percent of the establishment's gross revenue from the sale of foods; and
- (3) Clarify that a class 2 restaurant liquor license is transferrable; provided that the transferee certifies that the transferee intends to and shall derive no less than thirty percent of the establishment's gross revenue from the sale of foods.

Your Committee received testimony in support of this measure from Merchant Horovitz, LLC. Your Committee received comments on this measure from the Liquor Commission of the City and County of Honolulu.

Your Committee finds that certain liquor commissions do not permit new licensees to apply directly for a restaurant license. Instead, licensees are first required to apply for a dispenser general license, which can only be upgraded after one year. This measure clarifies that new restaurant liquor licenses may be issued by the liquor commission prior to the restaurant commencing operation.

According to testimony received by your Committee, certain liquor commissions also do not allow restaurant licensee holders to transfer restaurant liquor licenses. The inability to transfer a restaurant license may negatively impact long-established operators who wish to sell their businesses. An operator may face significant loss of value to the business if the operator cannot also transfer the restaurant liquor license, as a restaurant license enables licensees to offer catering service and allow minors on premises who are not accompanied by a parent or guardian, options that may not be available to other classes of licensees. This measure therefore clarifies that a class 2 restaurant liquor license is transferrable, but retains the liquor commission's ability to downgrade a license if the licensee ultimately does not meet the thirty percent food-sales threshold required of restaurant licensees.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2613 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 2 (Nishihara, Ruderman).

SCRep. 2558 Water and Land on S.C.R. No. 14

The purpose and intent of this measure is to provide legislative approval, as required by law, to sell the leased fee interest in 2949 Ala Ilima Street, No. 204, Honolulu, Hawaii, to its current leasehold owner.

Your Committee received testimony in support of this measure from the Department of Business, Economic Development, and Tourism; Hawaii Housing Finance and Development Corporation; and one individual. Your Committee received testimony in opposition to this measure from Ho'omanapono Political Action Committee. Your Committee received comments on this measure from the Office of Hawaiian Affairs.

Your Committee finds that the Hawaii Housing Finance and Development Corporation proposes to sell the leased fee interest in a condominium unit located at 2949 Ala Ilima Street, No. 204, to its leasehold owner. This condominium unit was built in 1971 as part of the Puana Malu Condominium, and only three units out of the total twenty-four units in the condominium remain in leasehold. The Corporation testified to your Committee that the property is no longer subject to affordable housing restrictions. The fair market value of the leased fee interest of the condominium unit was \$74,400 as of June 1, 2017. The sale proceeds will be deposited into the rental housing revolving fund to support the development and construction of additional affordable housing units. Since the Corporation has met all statutory prerequisites, this measure will provide legislative approval of the sale of the leased fee interest in accordance with section 171-64.7, Hawaii Revised Statutes, relating to legislative approval of the sale or gift of lands.

Your Committee has amended this measure by:

- (1) Specifying that as of August 15, 1895, the parcel was held in private ownership by Samuel M. Damon, who acquired title as a devisee under the will of Bernice Pauahi Bishop; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 14, as amended herein, and recommends that it be referred to your Committee on Ways and Means, in the form attached hereto as S.C.R. No. 14, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2559 Water and Land on S.C.R. No. 15

The purpose and intent of this measure is to provide legislative approval, as required by law, to sell the leased fee interest in 41-1373 Haunaukoi Street, Waimanalo, Hawaii, to its current leasehold owner.

Your Committee received testimony in support of this measure from the Department of Business, Economic Development, and Tourism; Hawaii Housing Finance and Development Corporation; and one individual. Your Committee received comments on this measure from the Office of Hawaiian Affairs.

Your Committee finds that the Hawaii Housing Finance and Development Corporation proposes to sell the leased fee interest in a single family home located at 41-1373 Haunaukoi Street, Waimanalo, Hawaii, to its leasehold owner. This dwelling unit was built in 1994 as part of the Waimanalo Village Annex, an affordable self-help housing development. Only twenty-eight units out of the total forty units in the development remain in leasehold. The long-term leases executed by the homebuyers in this development included a provision conferring the lessees the right to purchase the leased fee interest in the land. The fair market value of the leased fee interest of the dwelling unit was \$398,200 as of May 9, 2017. The sale proceeds will be deposited into the rental housing revolving fund to support the development and construction of additional affordable housing units. Since the Corporation has met all statutory prerequisites, this measure will provide legislative approval of the sale of the leased fee interest in accordance with section 171-64.7, Hawaii Revised Statutes, relating to legislative approval of the sale or gift of lands.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 15, as amended herein, and recommends that it be referred to your Committee on Ways and Means, in the form attached hereto as S.C.R. No. 15, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2560 Water and Land on S.C.R. No. 18

The purpose and intent of this measure is to provide legislative authorization for the issuance of a term, non-exclusive easement covering a portion of state submerged lands at Waikiki, Honolulu, Oahu by the Board of Land and Natural Resources for the existing pier and seawall, and for use, repair, and maintenance of the existing improvements constructed thereon.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources and one individual. Your Committee received testimony in opposition to this measure from Ho'omanapono Political Action Committee.

Your Committee finds that an existing pier and portions of a seawall fronting the property identified as Tax Map Key: (1) 3-6-001: seaward of 036, Waikiki, Honolulu, Oahu, were discovered to be encroaching upon state submerged lands. A previous owner of the abutting property worked with the Department of Land and Natural Resources to initially resolve the problem in 1989, and the Department subsequently approved a grant of a revocable permit to resolve the encroachment of about 112 square feet. However, an easement survey conducted in 2016 indicated additional areas of encroachment, including a portion of the seawall, which increased the total encroachment area to 331 square feet. Thus, the current owner of the abutting property is working with the Department to resolve the encroachment. The fair market value of the 331 square foot encroachment area was appraised at \$40,000. Since the Board of Land and Natural Resources has met all statutory prerequisites, this measure authorizes the issuance of a term, non-exclusive easement in accordance with section 171-53, Hawaii Revised Statutes.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 18, as amended herein, and recommends that it be referred to your Committee on Ways and Means, in the form attached hereto as S.C.R. No. 18, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2561 Water and Land on S.C.R. No. 19

The purpose and intent of this measure is to provide legislative authorization for the issuance of a term, non-exclusive easement covering a portion of state submerged lands at Kahala, Honolulu, Oahu by the Board of Land and Natural Resources for the existing seawall and steps, and for use, repair, and maintenance of the existing improvements constructed thereon.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources. Your Committee received testimony in opposition to this measure from Ho'omanapono Political Action Committee.

Your Committee finds that portions of an existing seawall and steps fronting the property identified as Tax Map Key: (1) 3-5-001: seaward of 004, Kahala, Honolulu, Oahu, are placed on state submerged lands. A previous owner of the abutting property worked with the Department of Land and Natural Resources to resolve the encroachment problem in 2009, and the Department subsequently approved a grant of a fifty-five-year term, non-exclusive easement to run with the land and to inure to the benefit of the abutting property. The term, non-exclusive easement covered 773 square feet and was appraised in 2010 at a fair market value of \$83,020.

Your Committee further finds that a subsequent survey indicated the shoreline to be further mauka, which resulted in an additional encroachment area of 191 square feet. Thus, the Board of Land and Natural Resources approved to amend the term, non-exclusive easement granted in 2009 to incorporate the additional encroachment area subject to the payment of additional consideration of \$20,513, which was based on the prorated value of the easement. Since the Board of Land and Natural Resources has met all statutory prerequisites, this measure authorizes the amendment of a term, non-exclusive easement in accordance with section 171-53, Hawaii Revised Statutes.

Accordingly, your Committee has amended this measure by:

- (1) Amending its title to reflect that the purpose of this measure is to authorize the amendment, rather than the issuance, of a term, non-exclusive easement; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 19, as amended herein, and recommends that it be referred to your Committee on Ways and Means, in the form attached hereto as S.C.R. No. 19, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2562 (Joint) Commerce, Consumer Protection, and Health and Housing on S.B. No. 2783

The purpose and intent of this measure is to:

- (1) Expand smoke-free zones around individual buildings of public housing projects and state low-income housing projects, and any entrance, exit, window, or ventilation intake that serves an enclosed or partially enclosed area;
- (2) Add smoke-free zones around administrative office buildings for public housing projects and elder or elderly housing; and
- (3) Increase the setback for designated smoking areas from twenty feet to twenty-five feet from any building.

Your Committees received testimony in support of this measure from the Hawaii Public Housing Authority, Department of Health, Oahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, Hawaii Public Health Institute, and one individual. Your Committees received testimony in opposition to this measure from three individuals.

Your Committees find that secondhand smoke contains more than seven thousand chemicals, hundreds of which are toxic, and approximately seventy of which can cause cancer. The United States Surgeon General concluded in 2010 that there is no risk-free level of exposure to tobacco smoke. Your Committee also finds that exposure to thirdhand smoke, which is residual nicotine and other chemicals left on indoor surfaces by tobacco smoke, may also pose health threats, especially to infants and young children who mouth objects and touch affected surfaces that may contain thirdhand smoke.

Your Committees further find that the United States Department of Housing and Urban Development instituted its final rule, effective February 3, 2017, requiring public housing agencies to implement a smoke-free policy by July 30, 2018, that establishes a twenty-five foot smoke-free radius around public housing units and administrative office buildings.

Your Committees find that this measure will bring Hawaii statutes into conformity with the United States Department of Housing and Urban Development's smoke-free policy and help protect residents of public housing and others in the vicinity of public housing project administrative office buildings from secondhand and thirdhand smoke.

As affirmed by the records of votes of the members of your Committees on Commerce, Consumer Protection, and Health and Housing that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2783 and recommend that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chairs on behalf of the Committees.
Commerce, Consumer Protection, and Health: Ayes, 5. Noes, none. Excused, 2 (Nishihara, Ruderman).
Housing: Ayes, 3. Noes, none. Excused, 2 (Green, Kahele).

SCRep. 2563 (Joint) Agriculture and Environment and Public Safety, Intergovernmental, and Military Affairs on S.B. No. 2965

The purpose and intent of this measure is to require the Hawaii Climate Change Mitigation and Adaptation Commission to identify, utilize, and maintain nature-based solutions in its climate change mitigation and adaptation efforts at the regional, state, and local levels.

Your Committees received testimony in support of this measure from the Department of Land and Natural Resources; The Nature Conservancy; Sierra Club of Hawai'i; Blue Planet Foundation; O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i; Ho'omana Pono, LLC; and four individuals. Your Committees received comments on this measure from the Office of Planning.

Your Committees find that climate change is a major threat to the economy, environment, and overall well-being of the State. Your Committees further find that this measure furthers the Legislature's commitments made in Act 32, Session Laws of Hawaii 2017, to reduce greenhouse gas emissions, adopt climate change mitigation and adaptation approaches, and support the provisions of the Paris Agreement.

Your Committees have amended this measure by:

- (1) Requiring the Hawaii Climate Change Mitigation and Adaptation Commission to prioritize, in addition to identifying, utilizing, and maintaining, nature-based solutions in its climate change mitigation and adaptation efforts at the regional, state, and local levels;
- (2) Defining "nature-based solutions" to mean actions to protect, sustainably manage, and restore natural or modified ecosystems that address societal challenges effectively and adaptively, while simultaneously providing human well-being and biodiversity benefits;
- (3) Inserting language to require the Hawaii Climate Change Mitigation and Adaptation Commission to develop a science-based carbon budget for Hawaii based on greenhouse gas analysis in the United Nations Intergovernmental Panel on Climate Change Fifth Assessment Report; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Agriculture and Environment and Public Safety, Intergovernmental, and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of

S.B. No. 2965, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2965, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chairs on behalf of the Committees.

Agriculture and Environment: Ayes, 4. Noes, none. Excused, 1 (Ruderman).

Public Safety, Intergovernmental, and Military Affairs: Ayes, 4. Noes, none. Excused, 1 (Baker).

SCRep. 2564 Ways and Means on S.B. No. 2968

The purpose and intent of this measure is to improve the collection of the general excise tax from nonresident owners of real property located in the State.

More specifically, this measure:

- (1) Requires a person authorized to collect rent on behalf of a nonresident owner of real property located in the State to withhold the general excise tax due on rents collected; and
- (2) Requires a nonresident owner who receives rents attributable to real property located in the State to enter into a rent collection agreement with a person authorized to collect rents for the nonresident owner.

Your Committee received testimony in support of this measure from Niwao and Roberts, Certified Public Accountants.

Your Committee received testimony in opposition to this measure from the Coalition for Equal Taxation and Rental by Owner Awareness Association.

Your Committee received comments on this measure from the Department of Taxation, Hawaii Association of REALTORS, and Tax Foundation of Hawaii.

Your Committee finds that many nonresident owners of real property located in the State are unaware that Hawaii imposes a general excise tax on rental income. Your Committee also finds that, as a result, instances of nonresident property owners failing to report or pay general excise taxes on rental income attributable to real property they own in the State has become a pervasive problem. Your Committee further finds that this measure is intended to ensure that the State is able to collect the appropriate amount of taxes owed by all property owners.

Your Committee has amended this measure by:

- (1) Adding language imposing personal liability on a person who collects rent on behalf of a nonresident owner of real property located in the State;
- (2) Requiring that a person who reports and pays general excise taxes on behalf of a nonresident owner of real property located in the State do so on a separate general excise tax account;
- (3) Deleting language that would exclude property owners who are exempt from the general excise tax pursuant to section 237-23, Hawaii Revised Statutes;
- (4) Amending the effective date so that the measure applies to taxable years beginning after December 31, 2018; and
- (5) Making technical nonsubstantive amendments for the purposes of consistency, clarity, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2968, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2968, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 9. Noes, none. Excused, 2 (Riviere, Shimabukuro).

SCRep. 2565 Ways and Means on S.B. No. 2756

The purpose and intent of this measure is to increase the inventory of affordable rental units in the State by repealing the statutory cap on the allocation of conveyance tax revenue dedicated for deposit into the rental housing revolving fund.

Your Committee received testimony in support of this measure from the Office of the Governor; Department of Business, Economic Development, and Tourism; Hawaii Housing Finance and Development Corporation; Hawaii Association of REALTORS; Hawaii Appleseed Center for Law and Economic Justice; Hawaii Construction Alliance; Partners in Care; Catholic Charities Hawaii; IMUAlliance; and eight individuals.

Your Committee received comments on this measure from the Tax Foundation of Hawaii.

Your Committee finds that the rental housing revolving fund provides crucial gap financing to build affordable rental housing projects in the State. Your Committee also finds that current law provides for fifty percent of conveyance tax revenues to be deposited into the rental housing revolving fund, up to a maximum of \$38,000,000. Your Committee further finds that if the statutory cap of \$38,000,000 did not exist, an additional \$6,000,000 would have been deposited into the rental housing revolving fund during fiscal year 2016-2017, which would have been enough funding to make available an additional forty affordable rental housing units for the State.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (2) Making a technical nonsubstantive amendment for the purpose of clarity.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2756, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2756, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, none. Excused, 3 (Kidani, Riviere, Shimabukuro).

SCRep. 2566 Commerce, Consumer Protection, and Health on S.B. No. 3044

The purpose and intent of this measure is to require an on-set child welfare advocate to accompany and supervise a minor employed for theatrical purposes whenever the minor is on set and a variance from the work hour restrictions to allowable theatrical employment is granted.

Your Committee received testimony in support of this measure from the Department of Labor and Industrial Relations; O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawaii; International Alliance of Theatrical Stage Employees, ALF-CIO, CLC, Local 884, The Studio Teachers and Welfare Workers; International Alliance of Theatrical Stage Employees, ALF-CIO, CLC, Local 665, Technicians for Film, Television, Stage and Production; and four individuals. Your Committee received comments on this measure from the Department of Human Services.

Your Committee finds that Hawaii does not require a set teacher whenever a minor is employed for theatrical purposes, whereas such a requirement is commonplace in California. Your Committee finds that this measure enhances the existing Hawaii Child Labor Laws to ensure that child actors receive an adequate education while also being protected from dangerous filming situations and possible exploitation or abuse of child labor laws.

Your Committee further finds that while "on-set child welfare advocate" may be a term used within the film and theater industry, it may be confused with child welfare workers who work with protective services for children who have been neglected or abused; therefore, your Committee believes another term is necessary to describe the adult responsible for accompanying, supervising, and advocating for a minor on set.

Accordingly, your Committee has amended this measure by:

- (1) Replacing the term "on-set child welfare advocate" with "on-set teacher";
- (2) Specifying that the on-set teacher shall advocate on behalf of the theatrically employed minor; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3044, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 3044, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, 1 (Ruderman).

SCRep. 2567 Commerce, Consumer Protection, and Health on S.B. No. 2955

The purpose and intent of this measure is to require:

- (1) Rental motor vehicle lessors with more than two hundred light duty passenger vehicles, to expedite the incorporation of at least fifty percent of zero-emission vehicles into the lessor's fleet by 2030; and
- (2) All rental motor vehicle lessors to report a list of the make, model, license plate number, and fuel type of each rental motor vehicle in the lessor's fleet to the Director of Commerce and Consumer Affairs.

Your Committee received testimony in support of this measure from one individual. Your Committee received testimony in opposition to this measure from the Department of Transportation and Enterprise Holdings.

Your Committee finds that rental motor vehicles, which represent the largest passenger vehicle fleets in Hawaii, are responsible for a significant amount of carbon emissions. Your Committee further finds that incorporating large numbers of zero-emission vehicles into rental motor vehicle fleets would significantly reduce carbon emissions and increase the number of zero-emission vehicles entering the secondary market, as lessors tend to sell their vehicles after twelve to eighteen months.

Your Committee has heard the concerns regarding the schedule proposed by this measure for when lessors must incorporate zero-emission vehicles as a certain percentage of their fleet. Your Committee understands these concerns but notes that it is important to maintain certain goals for zero-emissions vehicles, as the State remains committed to its goal of clean energy and sustainable transportation. However, your Committee concludes that additional discussion on this measure is warranted.

Accordingly, your Committee has amended this measure by inserting an effective date of July 1, 2050, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2955, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2955, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, none.

SCRep. 2568 Commerce, Consumer Protection, and Health on S.B. No. 2110

The purpose and intent of this measure is to require automotive parts stores to accept used motor oil for recycling or disposal.

Your Committee received testimony in support of this measure from the Oahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i.

Your Committee finds that this measure will promote a sustainable society and engage citizens in recycling efforts. Your Committee finds that allowing retail automotive parts stores to collect a reasonable fee for used oil collection will alleviate the burden placed on these retailers.

Your Committee has amended this measure by replacing references to "used motor oil" with "used oil from motor vehicles" for purposes of clarity, as "used oil" is a term defined in section 342J-51, Hawaii Revised Statutes.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2110, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2110, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 2 (Nishihara, Ruderman).

SCRep. 2569 Ways and Means on S.B. No. 2664

The purpose and intent of this measure is to codify goal three of the United Nation's Sustainable Development Goals, regarding good health and well-being.

Specifically, this measure establishes the following goals to be achieved by the year 2030:

- (1) Reducing maternal mortality, premature mortality, deaths and injuries from road traffic accidents, deaths and illness from pollution, and tobacco use;
- (2) Ending various disease epidemics and preventable deaths of newborns and children under five years of age;
- (3) Strengthening the prevention and treatment of substance abuse;
- (4) Ensuring access to sexual and reproductive health care services;
- (5) Achieving universal health care coverage;
- (6) Increasing health financing; and
- (7) Strengthening the capacity of the counties to provide early warning of health risks.

Your Committee received written comments in support of this measure from the Department of Human Services, the Office of Planning, Hawaii Green Growth, OCC Legislative Priorities, the Oahu Economic Development Board, and one individual.

Your Committee finds that codification of goal three of the United Nation's Sustainable Development Goals will establish a framework for the State to effectively address key challenges faced by Hawaii. This measure also builds on Hawaii's adoption of the Paris Agreement made by Act 32, Session Laws of Hawaii 2017.

Your Committee has amended this measure by making technical nonsubstantive amendments for purposes of style, clarity, and consistency.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2664, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2664, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 9. Noes, none. Excused, 2 (Inouye, Wakai).

SCRep. 2570 Ways and Means on S.B. No. 2761

The purpose and intent of this measure is to amend the definition of the term "dependent-beneficiary" with regard to the Hawaii Employer-Union Health Benefits Trust Fund.

Specifically, this measure:

- (1) Excludes children who are born or adopted more than ten months after the death of certain employees or retired employee-beneficiaries from participating in benefit plans of the Hawaii Employer-Union Health Benefits Trust Fund; and
- (2) Repeals the requirements that a dependent-beneficiary be unmarried and live with the employee-beneficiary.

Your Committee received written comments in support of this measure from the Department of Budget and Finance.

Your Committee finds that under certain circumstances, a surviving spouse of an employee-beneficiary is entitled to benefits under the Hawaii Employer-Union Health Benefits Trust Fund. If that surviving spouse gives birth to or adopts a child more than ten months after the death of the employee-beneficiary or retiree, that child is also eligible for benefits even though the child is not the legally adopted or natural child of the deceased employee-beneficiary or retiree. This measure will help to ensure that benefits are limited to current or former employee-beneficiaries and the spouses and children of the employee-beneficiaries.

Your Committee also finds that repealing the requirements that a dependent-beneficiary be unmarried and live with the employee-beneficiary will help to align Hawaii law with the Affordable Care Act, which does not contain a similar requirement for medical and prescription insurance coverage of children under twenty-six years of age.

Your Committee has amended this measure by:

- (1) Inserting a savings clause; and
- (2) Making technical nonsubstantive amendments for purposes of style, clarity, and consistency.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2761, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2761, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, 4 (English, Kahele, Keith-Agaran, Wakai).

SCRep. 2571 Ways and Means on S.B. No. 2766

The purpose and intent of this measure is to clarify that the trust assets of the Employees' Retirement System are to be expended exclusively for the benefit of its members and their beneficiaries.

Specifically, this measure specifies that benefits for a service-connected disability or accidental death be limited to members who are beneficiaries of the trust.

Your Committee received written comments in support of this measure from the Employees' Retirement System.

Your Committee finds in *Stout v. Board of Trustees of the Employees' Retirement System*, 140 Haw. 177, 398 P.3d 766 (2017), the Hawaii Supreme Court held that under certain circumstances, a person who sustains an injury while performing government service for which contributions to the Employees' Retirement System are not required could, nonetheless, qualify for Employees' Retirement System benefits. Your Committee finds that this measure will clarify that claims for benefits related to service-connected disability and accidental death benefits are limited to members who are beneficiaries of the trust.

Your Committee has amended this measure by making technical nonsubstantive amendments for purposes of style, clarity, and consistency.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2766, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2766, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, 4 (English, Kahele, Keith-Agaran, Wakai).

SCRep. 2572 Ways and Means on S.B. No. 2231

The purpose and intent of this measure is to exempt certain unpaid board or commission members from the additional \$10 per day administrative fine imposed for late financial disclosures to the state ethics commission.

Your Committee received written comments in opposition to this measure from Common Cause Hawaii.

Your Committee received written comments on this measure from the Hawaii State Ethics Commission.

Your Committee finds that many individuals volunteer their time, energy, and expertise to the State's various boards and commissions and that subjecting these volunteers to fines for filing late financial disclosures serves as a deterrent to volunteering to be a member of a board or commission. Further, although not included in the list of public boards and commissions found in section 84-17(d)(8), Hawaii Revised Statutes, your Committee believes that the University of Hawaii Board of Regents and the Board of Education should be treated the same as other public boards and commissions in regards to the \$10 per day fine for late financial disclosures to the ethics commission.

Your Committee has amended this measure by removing a reference to section 84-17(d)(8), Hawaii Revised Statutes, so that the members of the University of Hawaii Board of Regents and the Board of Education will be treated like other public board and commission members.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2231, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2231, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, 4 (English, Kahele, Keith-Agaran, Wakai).

SCRep. 2573 Ways and Means on S.B. No. 2126

The purpose and intent of this measure is to provide the Department of Agriculture with the funds necessary to carry out its pesticide program's registration and licensing, certification and education, and compliance monitoring activities.

More specifically, this measure increases the cap on the pesticide use revolving fund from \$250,000 to \$1,000,000.

Your Committee received written comments in support of this measure from the Department of Agriculture, the Hawaii Crop Improvement Association, the Hawaii Farm Bureau, the Hawaii Alliance for Progressive Action, the Hawaii Cattlemen's Council, the Oahu County Committee Legislative Priorities Committee of the Democratic Party of Hawaii, and one private individual.

Your Committee finds that pesticide training, outreach, and education are critical to ensure that pesticides are not misused. Your Committee further finds that increasing the pesticide use revolving fund's cap from \$250,000 to \$1,000,000 would enhance the Department of Agriculture's ability to engage in these activities along with pesticide disposal services and the conduct of related environmental studies.

Your Committee has amended this measure by changing the effective date to July 1, 2050, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2126, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2126, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 9. Noes, none. Excused, 2 (Inouye, Wakai).

SCRep. 2574 Ways and Means on S.B. No. 1208

The purpose and intent of this measure is to promote agricultural economic development by establishing the agribusiness land and facilities special fund to enable the Agribusiness Development Corporation to acquire, operate, and maintain large tracts of former agricultural land.

Prior to decision making on this measure, your Committee made available for public review a proposed S.D. 2 of this measure. The proposed S.D. 2 authorizes the issuance of special purpose revenue bonds to assist Twin Bridge Farms, Inc., to purchase additional lands.

Your Committee received written comments in support of the proposed S.D. 2 from the Department of Agriculture; the Agribusiness Development Corporation; the Hawaii Farm Bureau Federation; Twin Bridge Farms, Inc.; Ulupono Initiative; and one private individual.

Your Committee received written comments on the proposed S.D. 2 from the Department of Budget and Finance.

Although the proposed S.D. 2 was the subject of the public hearing held on February 6, 2018, your Committee also received written comments in support of S.B. 1208, S.D. 1 from one private individual.

Your Committee finds that in 2016, the Governor pledged to double local food production by 2030. Your Committee further finds that in order to achieve this goal, the State needs to support the growth of its local farming and ranching industries. In furtherance of the State's food production goals, your Committee finds it important to assist Twin Bridge Farms, Inc., a local farm known for producing high quality products, in purchasing additional lands to increase the farm's food production. Your Committee further finds that the issuance of special purpose revenue bonds pursuant to this measure is in the public interest and constitutes assistance to agricultural enterprises under part X of Chapter 39A, Hawaii Revised Statutes.

Your Committee has amended S.B. 1208, S.D. 1 by:

- (1) Replacing its contents with contents of the proposed draft of S.B. No. 1208, S.D. 2; and
- (2) Making it effective upon its approval.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1208, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1208, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 9. Noes, none. Excused, 2 (Riviere, Shimabukuro).

SCRep. 2575 Commerce, Consumer Protection, and Health on S.B. No. 2297

The purpose and intent of this measure is to extend the sunset date of Act 65, Session Laws of Hawaii 2013 (Act 65), which provides a limited exemption to the licensing requirements for certain individuals in situations when an electric utility must retain qualified individuals to work with high voltage (six hundred volts or higher) who are not licensed in the State but are otherwise deemed qualified by the electric utility.

Your Committee received testimony in support of this measure from the Hawaii Emergency Management Agency; Board of Electricians and Plumbers; Chamber of Commerce Hawaii; Hawaiian Electric Company, Inc.; and POWER Contracting LLC. Your Committee received testimony in opposition to this measure from the International Brotherhood of Electrical Workers Local Union 1186.

Your Committee finds that most in-state electrical workers are experienced in low voltage work, which includes wiring buildings at one hundred twenty/two hundred forty volts. However, in the event of a catastrophic occurrence requiring high voltage electrical work, the State must import experienced and qualified workers from the mainland, since there are not enough electricians, splicers, and linemen in the State, who could respond in the event of a catastrophic occurrence or complex maintenance work affecting an electric utility. Your Committee also finds that Act 35, Session Laws of Hawaii 2010, amended the minimum qualifications for licensure of various classes of electricians, effective July 1, 2013. However, one of the unintended consequences of that Act was to prohibit electric utilities from contracting with high voltage electrical workers who are not licensed as electricians in Hawaii.

Your Committee finds that this measure extends the remedy provided by Act 65 by continuing the limited exemption from licensure for five more years. In so doing, this measure continues to provide electric utilities in the State the ability to contract appropriate electricians to perform any necessary high voltage electrical work in the State, especially in the event of natural disasters and other emergencies that impact the availability of electricity.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2297 and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, 1 (Ruderman).

SCRep. 2576 Commerce, Consumer Protection, and Health on S.B. No. 2058

The purpose and intent of this measure is to:

- (1) Require review and approval by the Board of Private Detectives and Guards of any insignia to be used by detective agencies, guard agencies, private detectives, or guards; and
- (2) Prohibit detective agencies, guard agencies, private detectives, and guards from self-identifying as law enforcement officers, police, or police officers and from wearing or using any insignia capable of being associated with that of a law enforcement officer employed by a government law enforcement organization.

Your Committee received testimony in opposition to this measure from the Department of Transportation. Your Committee received comments on this measure from the Board of Private Detectives and Guards.

Your Committee finds that private detectives and guards in Hawaii have broad powers, including the powers to detain and search individuals; however, they are not law enforcement officers. Therefore, members of the public should be able to clearly distinguish between these different groups. Your Committee further finds that establishing a clear distinction between private detectives and guards and law enforcement officers is important to maintaining public safety and confidence in law enforcement and reduce potential confusion amongst members of the public. Accordingly, this measure prohibits detective agencies, guard agencies, private detectives, and guards from wearing or using any badge, uniform, form of identification, emblem, equipment, vehicle, or other accoutrement capable of being associated with that of a law enforcement officer employed by a government law enforcement organization. Moreover, to ensure compliance with that prohibition, this measure requires the Board of Private Detectives and Guards to review and approve all such insignia that its licenses or employees of licenses wish to wear or use.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2058 and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, none.

SCRep. 2577 Commerce, Consumer Protection, and Health on S.B. No. 2099

The purpose and intent of this measure is to:

- (1) Amend the definition of "autocycle" to better accommodate various models of autocycles available in the autocycle industry; and
- (2) Change the licensing requirement for the operation of autocycles to align with the intent of the legislation that created the "autocycle" category.

Your Committee received testimony in support of this measure from Polaris Industries, Inc.

Your Committee finds that autocycles provide an environmentally friendly and space-saving alternative to larger cars. Your Committee notes that during the establishment of the autocycle category in the Hawaii Highway Safety Act, a reference to a category 2 motorcycle driver's license, rather than a category 3 passenger car driver's license, for operation of an autocycle was mistakenly inserted. This measure is necessary to correct that error and require a category 3 driver's license, which will maximize the accessibility of autocycles, thereby reducing traffic congestion and fossil fuel usage in Hawaii, while still ensuring roadway safety.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2099, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, 1 (Ruderman).

SCRep. 2578 Commerce, Consumer Protection, and Health on S.B. No. 2244

The purpose and intent of this measure is to:

- (1) Require health care providers in the workers' compensation system who are authorized to prescribe opioids to adopt and maintain policies for informed consent to opioid therapy in circumstances that carry elevated risk of dependency; and
- (2) Establish limits for concurrent opioid and benzodiazepine prescriptions in the workers' compensation system.

Your Committee received testimony in support of this measure from the City and County of Honolulu Department of Human Resources, Drug Policy Forum of Hawaii, and Hawaii Substance Abuse Coalition. Your Committee received comments on this measure from the Department of Labor and Industrial Relations, Work Injury Medical Association of Hawaii, and one individual.

Your Committee finds that drug overdose deaths continue to increase in the United States, with the majority of drug overdose deaths involving an opioid. Your Committee finds that the number of opioids sold in the United States quadrupled from 1999 to 2010, but that there was no change in the overall amount of pain reported. Your Committee further finds that a number of states have also taken steps through their workers' compensation systems to stem overprescription of opioids to injured workers. Your Committee observes that existing law contains provisions similar to those enacted by this measure for opioid prescriptions issued outside of the workers' compensation regime. Accordingly, your Committee finds that this measure will similarly reduce unnecessary opioid prescriptions to injured workers and limit opioid overdoses, as well as offer the same protections to patients in the State's workers' compensation system as to those outside of the system.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2244, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 1 (Ruderman).

SCRep. 2579 (Joint) Education and Ways and Means on S.B. No. 3095

The purpose and intent of this measure is to:

- (1) Require the Department of Agriculture to establish a pilot program for vegetative buffer zones around selected schools within the State; and
- (2) Require and appropriate funds for the Department of Agriculture to develop and implement a pesticide drift monitoring study at three schools selected to participate in the pilot program.

Your Committees received testimony in support of this measure from the Sierra Club of Hawai'i, IMU Alliance, Hawai'i Center for Food Safety, League of Women Voters of Hawaii, Hawaii Nurses Association, Kihei Community Association, Pono Hawai'i Initiative, Oahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, Hawai'i Alliance for Progressive Action, Civic Education Council, and numerous individuals. Your Committees received testimony in opposition to this measure from the University of Hawai'i System; Hawaii Crop Improvement Association; Hawai'i Farm Bureau; Monsanto Hawaii; Hawaii Cattlemen's Council, Inc.; and Maui County Farm Bureau. Your Committees received comments on this measure from the Department of Agriculture, Western Plant Health Association, Americans for Democratic Action Hawai'i, and numerous individuals.

Your Committees find that many residents in the State are very concerned about the long-term health effects and potential negative impacts of pesticide drift, especially as the number of large-scale, outdoor, commercial agricultural operations in the State continues to increase. Children can be exposed to pesticides applied on school grounds, pesticides that drift onto school grounds, or pesticide residues, which put them at risk of developmental delays and other health complications. Because the State does not currently have an adequate regulatory structure in place to monitor human health impacts of pesticide drift near sensitive populations, like children and the elderly, this measure helps to ensure that highly sensitive areas, like schools, are protected from the potential negative effects of long-term pesticide exposure.

As affirmed by the records of votes of the members of your Committees on Education and Ways and Means that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 3095, S.D. 1, and recommend that it pass Third Reading.

Signed by the Chairs on behalf of the Committees.
Education: Ayes, 3. Noes, none. Excused, 2 (Espero, Kim).
Ways and Means: Ayes, 6. Noes, none. Excused, 5 (English, Galuteria, Keith-Agaran, Shimabukuro, Wakai).

SCRep. 2580 Ways and Means on S.B. No. 2122

The purpose and intent of this measure is to clarify the limitations on the parking fee exemptions enjoyed by operators of electric vehicles.

Specifically, the measure limits the parking fee exemption provided to electric vehicles to a time period of the initial twenty-four hours an electric vehicle is parked in State and county non-metered stalls or in non-metered stalls at state airports.

Your Committee received written comments in support of this measure from the Department of Transportation, OCC Legislative Priorities, and one individual.

Your Committee finds that providing drivers of electric vehicles with the benefit of free parking for the first twenty-four hours at certain public parking spaces and at state airports will be an incentive to use electric vehicles, which, in turn, will reduce the consumption of imported fossil fuel.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2122, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 9. Noes, none. Excused, 2 (Inouye, Wakai).

SCRep. 2581 Agriculture and Environment on S.C.R. No. 5

The purpose and intent of this measure is to encourage the Department of Agriculture to evaluate and report to the Legislature on the import requirements and process for domestic animals.

Your Committee received testimony in support of this measure from two individuals. Your Committee received testimony in opposition to this measure from the Department of Agriculture.

Your Committee finds that Hawaii's current system for importing domestic animals into the State is outdated and complicated. Under the existing system, dogs, cats, and other carnivores originating from the United States and other non-exempted areas are required, upon arrival in the State, to be confined to a quarantine station for a period of up to one hundred twenty days to prevent the introduction of rabies to the State. Your Committee supports all efforts to keep Hawaii rabies-free and acknowledges the ongoing efforts by the Department of Agriculture to improve the import process and reduce stresses placed on pets and pet owners.

Your Committee has amended this measure by:

- (1) Deleting the word "exploitive";

- (2) Deleting language that suggested possible improvements to the domestic animal importation process; and
- (3) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 5, as amended herein, and recommends its adoption in the form attached hereto as S.C.R. No. 5, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Ruderman).

SCRep. 2582 Agriculture and Environment on S.R. No. 4

The purpose and intent of this measure is to encourage the Department of Agriculture to evaluate and report to the Legislature on the import requirements and process for domestic animals.

Your Committee received testimony in support of this measure from two individuals. Your Committee received testimony in opposition to this measure from the Department of Agriculture.

Your Committee finds that Hawaii's current system for importing domestic animals into the State is outdated and complicated. Under the existing system, dogs, cats, and other carnivores originating from the United States and other non-exempted areas are required, upon arrival in the State, to be confined to a quarantine station for a period of up to one hundred twenty days to prevent the introduction of rabies to the State. Your Committee supports all efforts to keep Hawaii rabies-free and acknowledges the ongoing efforts by the Department of Agriculture to improve the import process and reduce stresses placed on pets and pet owners.

Your Committee has amended this measure by:

- (1) Deleting the word "exploitive";
- (2) Deleting language that suggested possible improvements to the domestic animal importation process; and
- (3) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 4, as amended herein, and recommends its adoption in the form attached hereto as S.R. No. 4, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Ruderman).

SCRep. 2583 Commerce, Consumer Protection, and Health on S.B. No. 2059

The purpose and intent of this measure is to:

- (1) Establish procedures for an out-of-state individual licensed as a certified public accountant or certain accountancy firms to be granted practice privileges in Hawaii by the Board of Public Accountancy, if the licensee or firm meets certain qualifications and requirements for substantial equivalency; and
- (2) Make conforming amendments to the laws relating to public accountancy to reflect practice privileges.

Your Committee received testimony in support of this measure from the Hawaii Society of Certified Public Accountants, American Institute of Certified Public Accountants, and one hundred individuals. Your Committee received testimony in opposition to this measure from the Board of Public Accountancy, Hawaii Association of Public Accountants, and seventeen individuals. Your Committee received comments on this measure from the Regulated Industries Complaints Office of the Department of Commerce and Consumer Affairs.

Your Committee finds that this measure establishes a mobility law for certified public accountants and certain accountancy firms, which would allow certified public accountants in good standing from substantially equivalent states to practice in Hawaii without the need to obtain an additional license to serve their clients. Your Committee notes that forty-nine states, the District of Columbia, Puerto Rico, United States Virgin Islands, and Guam have already enacted individual certified public accountant mobility laws.

However, your Committee has heard the concerns raised in testimony that this measure would enable out-of-state certified public accountants the right to practice in Hawaii without having to obtain a temporary or regular permit to practice from the Board of Public Accountancy, does not adequately ensure that out-of-state practitioners pay appropriate general excise taxes to the State, and may be confusing to consumers, who may not realize when work that requires a Hawaii license is being performed by an individual from out-of-state exercising a practice privilege within the State. Your Committee understands these concerns and notes that Hawaii does have an existing temporary permit available for out-of-state certified public accountants. Your Committee therefore concludes that it is more appropriate, at this time, to amend existing laws for obtaining a temporary permit to practice, rather than establishing a mobility law that grants practice privileges to out-of-state certified public accountants.

Accordingly, your Committee has amended this measure by deleting its contents and inserting language that amends the temporary permit to practice requirements for the practice of public accountancy, including:

- (1) Clarifying the persons who may be granted a temporary permit to practice, including limiting the temporary permits to practice to United States citizens, United States nationals, or aliens authorized to work in the United States;
- (2) Requiring a person to obtain a temporary permit to practice from the Board of Public Accountancy prior to commencing public accountancy services in Hawaii;

- (3) Specifying that a temporary permit to practice shall be effective for a period not to exceed one hundred twenty cumulative days in any twelve-month period;
- (4) Permitting a temporary permit to practice to be renewed but specifying that more than three requests for temporary permits within three years is prima facie evidence that the individual is engaged in active practice of public accountancy and must obtain a regular permit to practice from the Board of Public Accountancy;
- (5) Specifying certain conditions that a licensee with a temporary permit to practice must consent to and certify, including being under the jurisdiction and disciplinary authority of the Board of Public Accountancy and paying all applicable taxes associated with the practice of public accountancy in Hawaii;
- (6) Making conforming amendments to the laws relating to public accountancy; and
- (7) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2059, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2059, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, 1 (Ruderman).

SCRep. 2584 Commerce, Consumer Protection, and Health on S.B. No. 2926

The purpose and intent of this measure is to require all dental assistants to obtain certification from the Dental Assisting National Board, Inc., as certified dental assistants no later than July 1, 2019, or no later than one hundred twenty days after the date of employment.

Your Committee received testimony in support of this measure from the Hawaii Dental Hygienists' Association, two individuals, and a petition with ninety-seven names. Your Committee received testimony in opposition to this measure from the Board of Dental Examiners and Hawaii Dental Association. Your Committee received comments on this measure from the Dental Assisting National Board, Inc., and one individual.

Your Committee finds that dental assistants are auxiliary personnel who perform supportive dental procedures under the direct supervision, direction, evaluation, and responsibility of a licensed dentist. Your Committee further finds that Hawaii is one of only a handful of states that does not require certification of dental assistants. According to testimony received by your Committee, training for dental assistant duties is generally done on the job by the supervising dentist or another assistant, and may vary from office to office or dentist to dentist.

Your Committee additionally finds that the Dental Assisting National Board, Inc. (Dental Assisting National Board), is a national certification board for dental assistants that currently certifies more than thirty-seven thousand dental assistants nationwide, with a certification program that is accredited by the National Commission for Certifying Agencies. This measure therefore requires all dental assistants in Hawaii to obtain and maintain certification from the Dental Assisting National Board as a Certified Dental Assistant.

Your Committee has heard the concerns that an unknown percentage of dental assistants in Hawaii may be unable to meet the eligibility requirements associated with the Certified Dental Assistant certification program within the timeframe specified in this measure. Your Committee understands these concerns and concludes that amendments to this measure are necessary to adjust the time frame for required certification as a dental assistant, incorporate additional minimum requirements for those dental assistants who are not yet eligible for the Dental Assisting National Board's Certified Dental Assistant program, and ensure that dental assistants with significant experience are not unduly burdened by the new certification requirements.

Accordingly, your Committee has amended this measure by:

- (1) Deleting language that would have required all dental assistants to obtain certification from the Dental Assisting National Board, Inc., as certified dental assistants no later than July 1, 2019, or no later than one hundred twenty days after the date of employment;
- (2) Establishing minimum requirements for all individuals hired as dental assistants in Hawaii on or after July 1, 2018;
- (3) Requiring dental assistants employed on or after July 1, 2018, to successfully complete the Dental Assisting National Board, Inc.'s National Entry Level Dental Assistant certification within three years of first being hired as a dental assistant;
- (4) Requiring dental assistants with four or more years' experience to apply or register for the Dental Assisting National Board, Inc.'s Certified Dental Assistant certification;
- (5) Exempting dental assistants with more than ten years' experience from having to obtain a Certified Dental Assistant certification, but requiring these dental assistants to hold a cardiopulmonary resuscitation certification and pass the Dental Assisting National Board, Inc.'s Infection Control examination within two years of the approval date of this measure;
- (6) Requiring the Board of Dental Examiners to be responsible for ensuring compliance and assist licensed dentists and their employees with the requirements for dental assistants;
- (7) Requiring dentists who employ dental assistants to report the names and certifications of their dental assistant employees to the Board of Dental Examiners;
- (8) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (9) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2926, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2926, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 1 (Ruderman).

SCRep. 2585 Commerce, Consumer Protection, and Health on S.B. No. 2612

The purpose and intent of this measure is to waive fees and other requirements for applicants for a class 10 liquor license.

Your Committee received testimony in support of this measure from the Office of the Mayor, County of Maui; Club Managers Association of Hawaii, Paradise of the Pacific Chapter; Merchant Horovitz, LLC; Maui Country Club; The Pacific Club; and nine individuals. Your Committee received comments on this measure from the Liquor Commission of the City and County of Honolulu.

Your Committee finds that some nonprofit organizations have faced an extremely onerous process when attempting to obtain a special liquor license for a fundraising event. Your Committee further finds that applying the same liquor license procedures that are required of a commercial business to nonprofit organizations is unduly burdensome in time and money to the nonprofit organizations, many of whom operate on small budgets.

Accordingly, this measure waives fees and other requirements for applicants for a class 10 special liquor license required for fundraising events, which will streamline the special license process and reduce the burden on nonprofit organizations.

Your Committee has amended this measure by:

- (1) Clarifying that the class 10 special liquor license authorizes a social club granted tax exempt status pursuant to section 501(c)(7) of the Internal Revenue Code to sell wine from the social club's inventory to the club's members for off-premises consumption; and
- (2) Specifying that the class 10 special liquor license includes the ability to auction off, at a live or silent auction, liquor in sealed or covered containers or services that provide liquor.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2612, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2612, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 2 (Nishihara, Ruderman).

SCRep. 2586 Commerce, Consumer Protection, and Health on S.B. No. 738

The purpose and intent of this measure is to require specified health care practitioners to disclose to patients the practitioner's name, license, highest level of academic degree, and board certification, where applicable.

Prior to a hearing on this measure, your Committee posted and made available for public review a proposed S.D. 1, which deletes the contents of this measure and inserts language to expand the pool of orthodontists who are eligible to perform medically necessary orthodontic services for treatment of certain orofacial anomalies for which health insurance coverage is mandatory.

Your Committee received testimony in support of the proposed S.D. 1 from Lifetime of Smiles Hawaii and eleven individuals. Your Committee received comments on the proposed S.D. 1 from the Department of Health, Hawai'i Pacific Health, Hawaii Medical Service Association, and Hawaii Dental Association.

Your Committee finds that existing law requires health insurance coverage of medically necessary orthodontic services for the treatment of certain orofacial anomalies, but requires these orthodontic services to be provided by a licensed dentist with a certification in orthodontics by the American Board of Orthodontics. Your Committee notes that a certification by the American Board of Orthodontics is voluntary and not required to practice orthodontics in the State.

Your Committee further finds that the American Board of Orthodontics certification requirement has limited the number of orthodontists in Hawaii who can perform medically necessary orthodontic treatments for individuals with orofacial anomalies. According to testimony received by your Committee, of the approximately forty orthodontists in Hawaii, only eleven are certified by the American Board of Orthodontics; of these, only a few have performed medically necessary orthodontic services for treatment of orofacial anomalies. Accordingly, the proposed S.D. 1 removes this barrier to access care and expands the pool of orthodontists who are eligible to perform orthodontic services for treatment of orofacial anomalies covered by health insurance.

Your Committee has amended this measure by adopting the proposed S.D. 1 and further amending the measure by:

- (1) Clarifying that the term "orthodontic services" means direct or consultative services provided by a licensed dentist who has completed an orthodontic residency program accredited by the Commission on Dental Accreditation; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 738, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 738, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 3 (Ihara, Ruderman, Tokuda).

SCRep. 2587 (Joint) Commerce, Consumer Protection, and Health and Judiciary on S.B. No. 2549

The purpose and intent of this measure is to:

- (1) Require the liquor commissions to streamline procedures to provide for the issuance of temporary licenses for the sale of liquor for a period not to exceed one day for fundraising events by nonprofit organizations; and
- (2) Remove, from the list of factors a liquor commission may consider when deciding on a previously denied, refused, or withdrawn liquor license application, language that allows any other considerations deemed by the liquor commission to affect the application, issuance, or exercise of a liquor license.

Your Committees received testimony in support of this measure from the Office of the Mayor, Maui County; Maui County Councilmember Yuki Lei Sugimura; Merchant Horovitz, LLLC; and one individual. Your Committees received comments on this measure from the Liquor Commission of the City and County of Honolulu.

Your Committees find that some nonprofit organizations have faced an extremely onerous process when attempting to obtain a one-day special liquor license for a fundraising event. Your Committees further find that applying the same liquor license procedures that are required of a commercial business to nonprofit organizations is unduly burdensome in time and money to the nonprofit organizations, many of whom operate on small budgets.

Accordingly, this measure provides for reduced submission requirements for the issuance of temporary liquor licenses for fundraising events by nonprofit organizations, which will streamline the temporary license process and reduce the burden on nonprofit organizations. This measure also removes, from the list of factors the liquor commission may consider when deciding on a previously denied, refused, or withdrawn liquor license application, language that allows any other considerations deemed by the liquor commission to affect the application, issuance, or exercise of a liquor license.

Your Committees have amended this measure by:

- (1) Authorizing a nonprofit organization that has been issued a temporary liquor license for a fundraising event the ability to auction off, at a live or silent auction, liquor in sealed or covered containers or services that provide liquor; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Commerce, Consumer Protection, and Health and Judiciary that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2549, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2549, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chairs on behalf of the Committees.

Commerce, Consumer Protection, and Health: Ayes, 4. Noes, none. Excused, 3 (Ihara, Nishihara, Ruderman).

Judiciary: Ayes, 3; Ayes with Reservations (Rhoads). Noes, none. Excused, 2 (Gabbard, Kim).

SCRep. 2588 Commerce, Consumer Protection, and Health on S.B. No. 36

The purpose and intent of this measure is to:

- (1) Require the Department of Commerce and Consumer Affairs to regulate all channel designations and relocation of public, educational, and governmental access channels; and
- (2) Allow cable operators to relocate or change the designation of public, educational, and governmental access channels only under certain conditions.

Your Committee received testimony in support of this measure from the Department of Commerce and Consumer Affairs; Office of the Mayor, County of Maui; Councilmember Derek S.K. Kawakami, Kaaui County Council; Joann A. Yukimura, Kaaui County Council; 'Ōlelo Community Media; PlayBuilders of Hawai'i Theater Company; Nā Leo TV; ALEA Bridge; PARENTS, Inc.; Hawaiian Music Hall of Fame; Waipahu Community Coalition; Akakū Maui Community Media; Hawai'i Association of Independent Schools; Hawai'i Justice Coalition; Nā Kama Kai; and twenty-seven individuals. Your Committee received testimony in opposition to this measure from Charter Communications.

Your Committee finds that public, educational, and governmental (PEG) access programming has numerous important public benefits. PEG access programming promotes civic participation through local government cable casts, including broadcasting legislative hearings and sessions, county council meetings, and neighborhood board meetings, which allows viewers to remain informed of issues affecting communities throughout the State; connects Hawaii's unique communities via discussion and coverage of cultural matters and events; and serves a vital consumer protection function as a tool to alert the public during natural disasters and emergencies. Your Committee further finds that many of the State's PEG access channels have retained the same channel location for decades, are well-known to viewers, and have been branded by local community producers for their programs.

Unfortunately, one of the State's cable operators has recently decided to relocate the State's PEG access channels from their current high traffic locations to new, essentially vacant channel slots. Your Committee has heard the significant concerns voiced in testimony that this move will effectively make local, public, non-commercial community television channels hard to watch and hard to find. According to testimony received by your Committee, research has shown that when channels are relocated in this manner, in the absence of a well-funded, comprehensive rebranding campaign, a significant portion of the viewing audience is lost forever. Your Committee is therefore concerned that the forced relocation of the State's PEG access channels defeats the underlying purpose for which these non-commercial access channels were originally established -- to ensure access to cable television studios for people who would not otherwise have a voice and encourage civil engagement in local communities.

This measure therefore requires the Department of Commerce and Consumer Affairs (Department) to regulate all channel designations and relocation of PEG access channels and permits cable operators to relocate PEG access channels only if certain

conditions are met. However, your Committee has heard the concerns raised in testimony by the Department that because federal laws bestow limited power to local franchising authorities (i.e., the Department on behalf of the State) regarding the regulation of cable services, conflicts of law may arise and pose enforceability issues for the Department. Your Committee understands these concerns and concludes that an amendment to this measure is necessary.

Accordingly, your Committee has amended this measure by clarifying that, unless expressly prohibited by federal law, the Department of Commerce and Consumer Affairs shall regulate all channel designations and relocation of public, educational, and governmental access channels.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 36, S.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 36, S.D. 2, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 2 (Nishihara, Ruderman).

SCRep. 2589 Judiciary on S.B. No. 2742

The purpose and intent of this measure is to resolve inconsistencies in the processing of expungements and public dissemination of criminal history record information related to cases in which the defendant is acquitted or charges are dismissed by reason of physical or mental disease, disorder, or defect or the defendant is involuntarily hospitalized.

Your Committee received testimony in support of this measure from the Department of the Attorney General.

Your Committee finds that the Hawaii Criminal Justice Data Center is responsible for the collection, storage, and dissemination of criminal history record information in such a manner as to balance the right of the public and press to be informed, the right to privacy of individuals, and the responsibility of law enforcement agencies to prevent crimes and detect and apprehend criminals. This measure will resolve inconsistencies in existing law governing the retention and dissemination of criminal history record information in cases in which a person has been acquitted or charges have been dismissed by reason of physical or mental disease, disorder, or defect, or when the person has been involuntarily hospitalized.

Your Committee has amended this measure by:

- (1) Inserting an effective date of July 1, 2035, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2742, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2742, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Gabbard, Kim).

SCRep. 2590 Judiciary on S.B. No. 2992

The purpose and intent of this measure is to clarify that the definition of “advertisement” as it relates to campaign finance law does not include signs, banners, bumper stickers, and other sundry items.

Your Committee received testimony in opposition to this measure from the Campaign Spending Commission.

Your Committee finds that signs and banners are a common component of political campaigns, including organized advertising by candidates, committees, or grassroot political activities. Due to the size and manner of construction of some signs and banners, especially for those signs and banners that are handmade, it creates a potentially untenable situation when considering the disclosures required under campaign finance law. Your Committee further finds that the blanket removal of signs and banners from the definition of “advertising” may lead candidate and noncandidate committees to believe that expenditures for campaign signs and banners need not be reported on the Campaign Spending Commission’s electronic filing system, which could reduce transparency in campaign financing.

Your Committee has amended this measure by:

- (1) Removing language amending the definition of “advertisement” as it relates to campaign finance law; and
- (2) Adding language exempting signs and banners from the requirement that campaign advertisements contain the name and address of the candidate, candidate committee, noncandidate committee, or other person paying for the sign or banner and notice of whether or not the sign or banner has the approval of the candidate; provided that signs and banners advocating passage or defeat of an issue or question on the ballot are required to contain the name and address of the candidate, candidate committee, or noncandidate committee paying for the sign or banner.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2992, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2992, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Gabbard, Kim).

SCRep. 2591 Judiciary on S.B. No. 2719

The purpose and intent of this measure is to extend the period of time for a person to bring a civil cause of action seeking damages for an injury or condition arising from alleged sexual abuse when the person was a minor.

Your Committee received testimony in support of this measure from the Sex Abuse Treatment Center, Save Medicaid Hawaii, Hawaii State Coalition Against Domestic Violence, Oahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, Filipina Advocacy Network, Planned Parenthood Votes Northwest and Hawaii, Domestic Violence Action Center, and six individuals. Your Committee received testimony in opposition to this measure from the Department of the Attorney General.

Your Committee finds that child sexual abuse is a serious and ongoing threat to the safety, health, and wellbeing of children and young people. Survivors of child sexual abuse frequently suffer profound consequences throughout adulthood, and many do not disclose their abuse until later in life. Children who are the targets of sexual abuse can blame themselves or be prevented from reporting the abuse due to intense feelings of fear, disbelief, anger, helplessness, betrayal, and anxiety; incapacity to understand what happened or express their complaint due to their stage of cognitive development; or be afraid of retaliation or the potential negative impact on their family if the abuser was a family member or an individual in a position of influence or power.

Your Committee further finds that some studies have estimated that between sixty percent and eighty percent of child sexual abuse survivors withhold disclosure, and that the average delay in disclosure is approximately twenty years after the abuse occurred. Extending the period of time for a person to bring a civil cause of action seeking damages for an injury or condition arising from alleged sexual abuse when the person was a minor will ensure that more survivors of child sexual abuse are afforded a realistic and fair opportunity to seek justice.

Your Committee has amended this measure by:

- (1) Removing the savings clause;
- (2) Inserting an effective date of July 1, 2035, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2719, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2719, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Gabbard, Kim).

SCRep. 2592 Transportation and Energy on S.B. No. 2849

The purpose and intent of this measure is to classify certain former military vehicles as special interest vehicles and enable owners of former military vehicles to apply for registration.

Your Committee received testimony in support of this measure from Hawaiian Surfing Adventures and two individuals. Your Committee received testimony in opposition to this measure from the Department of Transportation.

Your Committee finds that former military vehicles have been registered and driven on roadways in the past, and only recently have counties not allowed for re-registration. Your Committee also finds that residents use former military vehicles to safely transport large groups of people and their belongings over rough terrain that requires a vehicle with four-wheel drive. Your Committee notes that several states permit the titling and registration of former military vehicles, and that certain former military vehicles must satisfy military standard equipment requirements, which are equivalent to Federal Motor Vehicle Safety Standards.

With that being said, your Committee notes the concerns raised by the Department of Transportation that pertain to road degradation due to the weight of the former military vehicles.

Your Committee has amended this measure by clarifying that former military vehicles are prohibited from transporting persons or property when the former military vehicle is hired for that purpose.

As affirmed by the record of votes of the members of your Committee on Transportation and Energy that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2849, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2849, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (English).

SCRep. 2593 (Joint) Commerce, Consumer Protection, and Health and Human Services on S.B. No. 2306

The purpose and intent of this measure is to prohibit property insurers from refusing to issue, refusing to renew, or canceling a homeowners insurance policy based in whole upon an insured's or prospective insured's obtaining or maintaining liability insurance coverage as a condition of licensure, temporary permission, or registration with the Department of Human Services to operate a child care facility.

Your Committees received testimony in support of this measure from PATCH, Hawaii Children's Action Network, and four individuals. Your Committees received testimony in opposition to this measure from State Farm Mutual Automobile Insurance Company and Hawaii Insurers Council. Your Committees received comments on this measure from the Department of Human Services.

Your Committees find that Act 161, Session Laws of Hawaii 2017 (Act 161), requires all child care providers subject to regulation by the Department of Human Services to obtain and maintain liability insurance as a condition of licensure, temporary permission, or

registration. Your Committees further find that feedback from child care providers has indicated that some homeowners insurers have not been renewing existing homeowners insurance policies if child care is being provided on the premises. According to testimony from PATCH, child care providers who have attempted to maintain professional liability insurance for their home-based childcare business, while also maintaining homeowners insurance with the same company, have been experiencing difficulties renewing their homeowners insurance policies, as they were told the liability and homeowners policies were considered dual coverage.

Furthermore, according to the Department of Human Services, some child care providers have indicated to the Department that they were considering no longer registering with the Department or providing child care, as a result of Act 161's insurance requirements. The Department noted in testimony before your Committees that there was a twelve percent decrease in the number of homes that were regulated by the Department between December 2016 and December 2017. This measure therefore prevents the insurer of a homeowner from refusing to issue, refusing to renew, or canceling the homeowner's insurance policy based on a provider obtaining or maintaining liability insurance coverage for their child care business.

However, your Committees have heard the concerns that this measure fails to distinguish between the different types of child care facilities regulated by the Department of Human Services. Your Committees note that the Department's regulation of child care facilities encompasses family child care homes, which provide care for three to no more than six children, as well as facilities for larger groups of children, including group child care homes and group child care centers. Your Committees have also heard the concerns that although this measure enables a liability insurer to cancel a policy based on a failure to meet certain underwriting standards, this measure requires a homeowners insurer to accept a policy, without regard to any underwriting standards that the homeowners insurer might typically require. Your Committees understand these concerns and conclude that amendments to this measure are necessary.

Accordingly, your Committees have amended this measure by:

- (1) Clarifying that an insurer shall not cancel or refuse to renew a homeowners insurance policy based solely upon an insured's requirement to obtain liability insurance coverage as a condition of licensure, temporary permission, or registration with the Department of Human Services to operate a family child care home, rather than a child care facility;
- (2) Specifying that an insurer is not otherwise prohibited from cancelling or refusing to renew a homeowners insurance policy for other reasons;
- (3) Inserting a definition of family child care home;
- (4) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Commerce, Consumer Protection, and Health and Human Services that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2306, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2306, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chairs on behalf of the Committees.

Commerce, Consumer Protection, and Health: Ayes, 7. Noes, none. Excused, none.

Human Services: Ayes, 4. Noes, none. Excused, 1 (Harimoto).

SCRep. 2594 (Joint) Higher Education and Ways and Means on S.B. No. 2865

The purpose and intent of this measure is to transfer administrative authority, personnel, and facilities for the University of Hawai'i Institute for Astronomy currently located at the University of Hawai'i at Manoa to the University of Hawai'i at Hilo.

Your Committees received testimony in support of this measure from the Hawaii Leeward Planning Conference and ten individuals. Your Committees received testimony in opposition to this measure from the University of Hawai'i System, University of Hawai'i Professional Assembly, and four individuals.

Your Committees find that the University of Hawai'i Institute for Astronomy has facilities on Mauna Kea and Haleakala and in Manoa Valley. Although the majority of the Institute's approximately two hundred employees are located at the University of Hawai'i at Manoa on Oahu, the majority of the Institute's facilities and equipment are located on Mauna Kea on Hawai'i Island, the most productive astronomy site in the world. Since the University of Hawai'i is one of the most significant economic drivers in the State and is the State's leading engine for economic growth and diversification, transferring administrative authority, personnel, and all facilities for the Institute for Astronomy currently located at the University of Hawai'i at Manoa to the University of Hawai'i at Hilo will support and grow industries in Hawai'i County.

Your Committees have amended this measure by:

- (1) Specifying that this measure shall be known and may be cited as the "Paul H.I. Coleman Act";
- (2) Renaming the University of Hawaii Institute for Astronomy as the "Paul H.I. Coleman Astronomy Center";
- (3) Inserting an effective date of July 1, 2020; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Higher Education and Ways and Means that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2865, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2865, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chairs on behalf of the Committees.

Higher Education: Ayes, 4; Ayes with Reservations (Kim). Noes, none. Excused, 1 (Kidani).

Ways and Means: Ayes, 9; Ayes with Reservations (Harimoto, Riviere). Noes, none. Excused, 2 (English, Kidani).

SCRep. 2595 (Joint) Transportation and Energy and Ways and Means on S.B. No. 1011

The purpose and intent of this measure is to:

- (1) Increase the state motor vehicle registration fee; and
- (2) Make an appropriation for the operations and maintenance of the state highway program.

Your Committees received testimony in support of this measure from the Department of Transportation. Your Committees received testimony in opposition to this measure from Ho‘omanapono Political Action Committee; Ho‘omana Pono, LLC; and one individual. Your Committees received comments on this measure from the Tax Foundation of Hawaii.

Your Committees find that the state motor vehicle registration fee is a major revenue source for the state highway fund, and that the state fuel tax is critical to the support and continued operations and maintenance of the state highway system. However, your Committees find that electric motor vehicles and hybrid motor vehicles have historically paid less than their fair share via the state fuel tax. Your Committees received testimony from the Department of Transportation recommending an increased annual registration fee for electric motor vehicles and hybrid motor vehicles to compensate for the minimal revenue generated from the fuel tax by these vehicles. The Department of Transportation noted that there are over seven thousand electric motor vehicles and hybrid motor vehicles in the State.

Your Committees have amended this measure by:

- (1) Establishing an additional annual motor vehicle registration fee of \$70 for electric motor vehicles and \$35 for hybrid motor vehicles;
- (2) Keeping the annual registration fee at \$45, instead of increasing the fee to \$75;
- (3) Making this measure effective upon its approval; provided that the appropriation out of the state highway fund shall take effect on July 1, 2018;
- (4) Adding a purpose section to explain the reasoning for the amount of the additional annual motor vehicle registration fee for electric motor vehicles and hybrid motor vehicles; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Transportation and Energy and Ways and Means that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1011, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1011, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chairs on behalf of the Committees.

Transportation and Energy: Ayes, 4. Noes, none. Excused, 1 (Shimabukuro).

Ways and Means: Ayes, 7. Noes, none. Excused, 4 (Kaele, Kidani, Shimabukuro, Wakai).

SCRep. 2596 Commerce, Consumer Protection, and Health on S.B. No. 2645

The purpose and intent of this measure is to require, for any proposed action involving construction for which an environmental impact statement has been accepted by an agency but for which construction has not commenced within ten years of the acceptance of the statement, the developer of the construction project to exercise due diligence and hold community discussion and feedback sessions to share relevant and new information surrounding the project.

Your Committee received testimony in opposition to this measure from the General Contractors Association of Hawaii, Building Industry Association of Hawaii, and Land Use Research Foundation of Hawaii. Your Committee received comments on this measure from the Department of Agriculture and Department of Transportation.

Your Committee finds that in 2010, the Hawaii Supreme Court ruled against the assumption that an environmental impact statement remains indefinitely valid once completed and approved. Your Committee also finds that many large-scale projects that require an environmental impact statement take years longer than originally planned. Your Committee further finds that existing administrative rules require a supplemental environmental impact statement when a project with an approved environmental impact statement has changed substantively, including in terms of timing, but supplemental environmental impact statements can create uncertainty and extra costs for construction projects that are already delayed and over budget. Your Committee finds that establishing an explicit time frame of validity for an environmental impact statement, in combination with mandatory community involvement during periods of construction delay, will prevent this additional cost and uncertainty by ensuring that an environmental impact statement will not go stale, without triggering a costly supplemental environmental impact statement in every situation.

Your Committee has heard the concerns of the General Contractors Association of Hawaii, Building Industry Association of Hawaii, and Land Use Research Foundation of Hawaii that this measure may stifle investment in construction projects in the State, and may be premature as the Department of Health’s Environmental Council is still engaged in revising the Environmental Impact Statement administrative rules. Your Committee finds that further discussion of these matters is necessary as this measure proceeds through the legislative process.

Your Committee has also heard the concerns of the Department of Agriculture that the Department is reliant on state funding for completion of its capital improvement projects. Your Committee finds that state funding can be delayed, and that capital improvement projects are frequently complex, taking years for construction to begin even after the environmental impact statement is completed.

Accordingly, your Committee has amended this measure by exempting any capital improvement projects undertaken by the Department of Agriculture on state-owned agricultural lands and irrigation water systems from the requirements of this measure.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2645, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2645, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 2 (Nishihara, Ruderman).

SCRep. 2597 Commerce, Consumer Protection, and Health on S.B. No. 2498

The purpose and intent of this measure is to protect the State's economy and environment by prohibiting the sale of polystyrene foam containers and serving of prepared food using polystyrene foam containers statewide.

Your Committee received testimony in support of this measure from the University of Hawaii at Manoa, Hawaii County District 4 Council Member Eileen O'Hara, Oahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, Sierra Club of Hawaii, Hawaii Wildlife Fund, Sustainable Coastlines Hawaii, Surfrider Foundation, Surfrider Foundation Oahu Chapter, Young Progressives Demanding Action, 808 Cleanups, Beach Environmental Awareness Campaign Hawaii, One Ocean Conservation, Blue Sphere Foundation, Malama Pupukea-Waimea, Impact Hub Honolulu, PangeaSeed Foundation, Keiko Conservation, Wipeout Crew, Environmental Caucus of the Democratic Party of Hawaii, Free Access Coalition, Buzz's Original Steak House, Kona Honu Divers, Vegan Hills, Kona Brewing Company, Jack's Diving Locker, Big Island Divers, Skyline Eco-Adventures, Friends of Hanauma Bay, Animal Rights Hawaii, The Plastics Project, and four hundred one individuals. Your Committee received testimony in opposition to this measure from the American Chemistry Council; Hawaii Restaurant Association; Hawaii Food Industry Association; Chamber of Commerce Hawaii; KYD, Inc.; and one individual. Your Committee received comments on this measure from two individuals.

Your Committee finds that products made from polystyrene foam are a common kind of litter in Hawaii. Your Committee finds that polystyrene does not biodegrade, but instead persists in the environment, where it can leach toxins into the water and be ingested by marine animals and birds.

Your Committee notes that the Counties of Maui and Hawaii have enacted similar bans on polystyrene, with the County of Maui's ban scheduled to be effective beginning on January 1, 2019, and the County of Hawaii's ban scheduled to go into effect on July 1, 2019. Your Committee finds that a delayed effective date of July 1, 2019, for this measure will allow existing vendors to use their existing polystyrene products and transition to alternatives in an economical manner.

Your Committee has heard the concerns of the American Chemistry Council and Hawaii Restaurant Association that consumer education may be a more effective litter-control measure than a prohibition on polystyrene. Your Committee finds that the Department of Health is the appropriate body to institute a requirement on restaurants to educate their customers with respect to proper disposal of nonreusable food containers, including polystyrene.

Your Committee has amended this measure by:

- (1) Adding language to the findings section favoring education programs regarding proper disposal of nonreusable food containers and litter reduction;
- (2) Clarifying that the defined term "vendor" means any person, firm, or corporation engaged in selling or offering for sale any prepared food containers;
- (3) Authorizing the rules adopted by the Department of Health to include a requirement for food vendors to educate their customers regarding proper disposal of nonreusable food containers and litter reduction;
- (4) Inserting an effective date of July 1, 2019; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2498, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2498, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 2 (Ihara, Ruderman).

SCRep. 2598 Commerce, Consumer Protection, and Health on S.B. No. 208

The purpose and intent of this measure is to:

- (1) Adopt the National Conference of Insurance Legislators' Model Unclaimed Life Insurance Benefits Act, which requires life insurers to conduct database searches using the federal Social Security Administration's Death Master File or similar database to determine whether an insured has died;
- (2) Require life insurers to use good faith efforts to locate any beneficiaries to a policy, contract, or retained asset account; and
- (3) Authorize the Insurance Commissioner to use discretion to limit, exempt, or phase-in compliance with the requirements under certain circumstances.

Your Committee received testimony in support of this measure from the Department of Commerce and Consumer Affairs, American Council of Life Insurers, and one individual.

Your Committee finds that in 2013, Consumer Reports found an estimated \$1,000,000,000 in life insurance benefits remained unclaimed. According to testimony from the Department of Commerce and Consumer Affairs, the Department's Insurance Division alone receives approximately forty requests each year for assistance in finding a possible life insurance policy.

Your Committee further finds that this measure adopts the National Conference of Insurance Legislators' Model Unclaimed Life Insurance Benefits Act, which provides a foundation for insurers to use the Social Security Administration Death Master File to obtain notice of death of an insured in the absence of a claim and search for beneficiaries within ninety days. This measure, in conjunction with the current national life insurance policy locator service developed by the National Association of Insurance Commissioners and used by the Insurance Division, will simplify and streamline the process for Hawaii consumers and insurers to match beneficiaries and life insurance policies and annuities.

Your Committee has amended this measure by:

- (1) Inserting an effective date of January 1, 2019; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 208, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 208, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Ihara, Ruderman, Tokuda).

SCRep. 2599 Commerce, Consumer Protection, and Health on S.B. No. 815

The purpose and intent of this measure is to require disclosure of albizia trees in a disclosure statement as part of the sale or transfer of residential real property.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources; Councilmember Eileen O'Hara, Hawai'i County Council; Oahu County Committee, Legislative Priorities Committee of the Democratic Party of Hawai'i; Animal Rights Hawai'i; and one individual. Your Committee received comments on this measure from the Hawai'i Association of REALTORS.

Your Committee finds that albizia trees pose a substantial threat to infrastructure and individuals due to the potential hazard of falling tree limbs and debris. Due to their extreme height, albizia trees also pose a threat to the properties on which these trees are rooted and to adjacent properties where branches and other debris may fall during high wind events. Accordingly, this measure provides buyers with additional material facts relating to a residential real property for sale by requiring the disclosure of the presence of albizia trees.

However, your Committee has heard the concerns raised by the Department of Land and Natural Resources regarding the real property disclosure required by this measure of any trees visible from a property, as the visual line of sight to an albizia tree is not indicative of whether or not that tree is a hazard. The Department testified that an objective standard for the definition of a hazard albizia tree may be more appropriate, and noted that one such definition has been adopted by the Hawaii Invasive Species Council in its "Strategic Plan for the Control and Management of Albizia in Hawaii." Your Committee agrees with these concerns and concludes amendments to this measure are necessary.

Your Committee has amended this measure by:

- (1) Clarifying that the disclosure statement shall include the presence of any hazard albizia trees on neighboring properties, rather than the presence of any albizia trees clearly visible from anywhere on the seller's property; and
- (2) Inserting a definition of "hazard albizia tree".

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 815, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 815, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 2 (Ihara, Ruderman).

SCRep. 2600 Commerce, Consumer Protection, and Health on S.B. No. 2567

The purpose and intent of this measure is to improve the State's ability to control and reduce water pollution from cesspools by requiring property owners to upgrade cesspools by connecting to a sewer system or installing an individual wastewater system that complies with Department of Health rules, within one hundred eighty days after the sale of the property.

Your Committee received testimony in support of this measure from the Department of Health, Hawaii County Councilmember Eileen O'Hara, Oahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, Surfrider Foundation Oahu Chapter, Surfrider Foundation, Energy and Climate Change Environmental Caucus of the Democratic Party of Hawaii, and twenty-two individuals. Your Committee received testimony in opposition to this measure from the Hawaii Association of REALTORS and one individual.

Your Committee finds that public health and the quality of Hawaii's drinking water, streams, ground waters, and ocean are being harmed by water pollution from cesspools. Hawaii has eighty-eight thousand cesspools that deposit approximately fifty-three million gallons of raw sewage directly into the groundwater every day.

Your Committee also finds that upgrading cesspools can be expensive for homeowners, with an average cost of \$20,000. However, when a property with a cesspool is sold, property sellers typically have sales proceeds that may be used to pay for upgrading the cesspool. Sellers should disclose the presence of a cesspool as a material fact, and buyers and sellers can negotiate the payment of the upgrade costs as part of the sale.

Your Committee has heard the concerns of the Hawaii Association of REALTORS that this measure will not appreciably reduce the number of cesspools and will instead place needless barriers on home sales. However, your Committee finds that other states, including Rhode Island and New Jersey, have adopted similar measures which have proven effective in phasing out cesspools. Your Committee further finds that progress in upgrading cesspools under existing law, including section 235-16.5, Hawaii Revised Statutes, which offers a tax credit to assist with upgrade costs, has been slow, and further measures are needed to expedite and facilitate the upgrading of cesspools. Your Committee finds that additional discussion on this measure is warranted, including to determine the length of the compliance period.

Your Committee also finds that sellers of residential real property are already under a duty to disclose material facts to buyers, and that the presence of a cesspool should uniformly constitute a material fact in all cases to ensure compliance with the proposed requirements of this measure. Your Committee also finds that realtors are best suited to provide education to buyers and sellers of residential real property as to the new requirements that would be imposed by this measure, and that such education is desirable to limit the depression of real estate sales that might otherwise result from confusion about the effect of this measure.

Your Committee has amended this measure by:

- (1) Amending the definition of “material fact” at section 508D-1, Hawaii Revised Statutes, to include the presence of a cesspool on a property for purposes of disclosure during the sale of that property;
- (2) Requiring realtors to inform their clients of their clients’ rights and responsibilities;
- (3) Inserting a blank number of days after the sale of the residential real estate by which the upgrade of the cesspool must be accomplished;
- (4) Inserting an effective date of December 31, 2050, to encourage further discussion; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2567, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2567, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 2 (Ihara, Ruderman).

SCRep. 2601 Commerce, Consumer Protection, and Health on S.B. No. 2571

The purpose and intent of this measure is to preserve marine ecosystems, including coral reefs, by prohibiting the sale, offer for sale, and distribution in Hawaii of sun protection factor sunscreen protection personal care products containing oxybenzone and octinoxate without a medically licensed prescription.

Your Committee received testimony in support of this measure from the Office of Hawaiian Affairs, City Council of the City and County of Honolulu District 4 member Trevor Ozawa, Oahu County Committee on Legislative Priorities of the Democratic Party of Hawai‘i, Hawaii County Council District 4 member Eileen O’Hara, The Humane Society of the United States, Kona-Kohala Chamber of Commerce, Ban Toxic Sunscreens Hawaii, League of Women Voters of Hawaii, Surfrider Foundation Oahu Chapter, Oxybenzone-Free Hawaii Island, For the Fishes, Sierra Club of Hawaii, High Crown, Littlehandshawaii, Kona Chapter Hawaii Farmers Union United, Hawaii Fishing and Boating Association, and forty-three individuals. Your Committee received testimony in opposition to this measure from the Hawaii Food Industry Association, Consumer Healthcare Products Association, Personal Care Products Council, American Chemistry Council, and American Academy of Dermatology. Your Committee received comments on this measure from the Department of Health, Department of Land and Natural Resources, and one individual.

Your Committee finds that two chemicals present in many sunscreens, oxybenzone and octinoxate, have significant harmful impacts on Hawaii’s marine environment and ecosystems, including coral reefs that protect Hawaii’s shoreline. Your Committee finds that these chemicals can increase mortality in coral and endocrine disruption in marine vertebrates and invertebrates. Your Committee further finds that levels of oxybenzone and octinoxate are refreshed every day by swimmers and beachgoers, preventing dissipation of the pollutants. Accordingly, your Committee finds that a ban on oxybenzone and octinoxate will protect Hawaii’s wildlife, coral reefs, and ecosystems.

Your Committee has heard concerns from the Consumer Healthcare Products Association, Personal Care Products Council, American Chemistry Council, and American Academy of Dermatology that a ban on oxybenzone and octinoxate will lead to an increase in human ultraviolet light exposure and skin cancer. Your Committee also finds that alternative forms of sun protection exist, mitigating this harm. However, your Committee also finds that the death rate from melanoma is thirty percent higher in Hawaii than the national average and that effective sun protection can reduce the rate of melanoma and other skin cancers. Your Committee finds that these considerations are valid and wishes to advance this measure for purposes of further discussion.

Your Committee has amended this measure by:

- (1) Replacing the phrase “medically licensed prescription” with the phrase “prescription issued by a licensed healthcare provider” and defining the term “prescription” for purposes of this measure;
- (2) Inserting an effective date of January 1, 2063, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2571, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2571, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 2 (Nishihara, Ruderman).

SCRep. 2602 Commerce, Consumer Protection, and Health on S.B. No. 2644

The purpose and intent of this measure is to:

- (1) Require a provider of broadband internet access services to be transparent with network management practices, performance, and commercial terms of its broadband internet access services; and
- (2) Prohibit a provider of broadband internet access services from blocking lawful websites, impairing or degrading lawful internet traffic, engaging in paid prioritization, or unreasonably interfering with or disadvantaging users of broadband internet access services.

Your Committee received testimony in support of this measure from the Department of Business, Economic Development, and Tourism; Department of Education; and two individuals. Your Committee received testimony in opposition to this measure from CTIA and Charter Communications. Your Committee received comments on this measure from the Department of the Attorney General.

Your Committee finds that the recent actions of the federal government to repeal net neutrality has caused distress and concern about the freedom from undue influence or interference in legal content from the Internet. Your Committee further finds that it is important to preserve the principles of net neutrality and provide an environment that supports open and free access to the Internet.

Your Committee notes the concerns raised by the Department of the Attorney General, that certain language in this measure is inconsistent with a recent declaratory order (Order) issued by the Federal Communications Commission, and thus may be subject to a preemption challenge. However, according to the Department of the Attorney General, because this area of law is developing rapidly, future developments may affect the risk of a legal challenge to this measure. The Department of the Attorney General noted that the Order will not take effect until publication in the Federal Register. Furthermore, the Order is subject to judicial review and has been challenged in court; Hawaii is one of twenty-one states that have filed a petition for review of the Order in the United States Court of Appeals for the District of Columbia Circuit. Your Committee appreciates these concerns and acknowledges that although the federal courts could ultimately overturn the Order, there are no guarantees in litigation.

Nevertheless, your Committee concludes that the State has a duty to do its part to protect equal access to independent content on the Internet. Your Committee wishes to emphasize its strong support for net neutrality and communicate this support to any broadband internet service provider who chooses to do business in this State.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2644, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2644, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 1 (Ruderman).

SCRep. 2603 Commerce, Consumer Protection, and Health on S.B. No. 2183

The purpose and intent of this measure is to:

- (1) Specify requirements for fireworks shippers;
- (2) Authorize the use, by permit, of fireworks for film and movie productions;
- (3) Authorize the testing, disposal, and destruction of illegal and unwanted fireworks by an authority having jurisdiction, which shall be an agency responsible for enforcing the Fireworks Control Law; and
- (4) Correct labeling dimensions with regard to display fireworks.

Your Committee received testimony in support of this measure from the Hawaii State Fire Council; Honolulu Fire Department; County of Maui, Department of Fire and Public Safety; and American Promotional Events, Inc.

Your Committee finds that existing law requires licensed importers, wholesalers, or retailers to notify the appropriate county fire department when shipping fireworks. This measure adds another safeguard for fireworks transportation by requiring shippers to notify the appropriate county fire departments when fireworks are transported into and within the State. Your Committee further finds that this measure adds two reasonable exceptions to the fireworks prohibitions, for movie productions and appropriate county authorities, and changes the labeling size for display fireworks, pyrotechnic articles, or aerial devices, which is consistent with nationally recognized standards.

Your Committee has amended this measure by:

- (1) Clarifying that the exception to the fireworks prohibition authorizing the testing, disposal, and destruction of illegal and unwanted fireworks applies to an authority having jurisdiction as determined by each county, as appropriate;
- (2) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2183, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2183, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 2 (Ihara, Ruderman).

SCRep. 2604 Commerce, Consumer Protection, and Health on S.B. No. 2875

The purpose and intent of this measure is to:

- (1) Repeal language that requires the Department of Human Services to determine the amount of liability insurance coverage required to be obtained and maintained by child care providers;
- (2) Repeal language that requires child care providers to disclose a summary of information for liability insurance coverage, including the insurer's name and contact information, coverage amounts, and effective dates; and
- (3) Amend Act 161, Session Laws of Hawaii 2017 (Act 161), by extending the deadline for the Department of Human Services to submit a report to the Legislature, amending the information to be included in the report, and extending the implementation and enforcement deadline for the liability insurance requirements until July 1, 2019.

Your Committee received testimony in support of this measure from the Department of Human Services.

Your Committee finds that the intent of Act 161 was to strengthen minimum standards on child care and improve the health and safety of children by requiring child care providers subject to regulation by the Department of Human Services (Department) to obtain and maintain liability insurance coverage. Your Committee further finds that some child care providers have indicated to the Department that they were considering no longer registering with the Department or providing child care, as a result of Act 161's insurance requirements. The Department noted in testimony that there was a twelve percent decrease in the number of homes that were regulated by the Department between December 2016 and December 2017. The Department also noted that information from other states that require liability insurance coverage indicated most states only require child care providers to produce evidence of insurance, rather than establishing minimum coverage requirements within child care regulatory requirements.

Your Committee additionally finds that this measure therefore removes the requirement that the Department determine the amount of liability insurance coverage required for child care providers, as the Department is not the appropriate entity to determine the amount of such coverage, and removes the requirement for child care providers to disclose a summary of information for liability insurance coverage. This measure also provides the Department with additional time to submit a report to the Legislature regarding certain implementation and enforcement requirements under Act 161.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2875, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 1 (Ruderman).

SCRep. 2605 Transportation and Energy on Gov. Msg. Nos. 538 and 539

Recommending that the Senate advise and consent to the nominations of the following:

MEDICAL ADVISORY BOARD

G.M. No. 538 ANTHONY KATRAS, MD, for a term to expire 06-30-2021; and

G.M. No. 539 JUDY KOVELL, MD, for a term to expire 06-30-2021

Your Committee has reviewed the personal histories, resumes, and statements submitted by the nominees and finds Anthony Katras, MD, and Judy Kovell, MD, to possess the requisite qualifications to be nominated to the Medical Advisory Board.

ANTHONY KATRAS, MD

Your Committee received testimony in support of the nomination for the appointment of Anthony Katras, MD, from the Department of Transportation.

Dr. Katras has been a vascular surgeon for nine years and has been a professor for over twenty-five years. He currently serves as a clinical associate professor at the University of Hawaii John A. Burns School of Medicine and a clinical professor at East Tennessee State University and Uniformed Services University. Dr. Katras also serves as the program director for the Uniformed Services University of the Health Sciences student surgery clerkship and a staff vascular surgeon for Straub Clinic and Hospital and Tripler Army Medical Center. Your Committee notes that Dr. Katras served on the East Tennessee State University College of Medicine Admissions Committee for twelve years and has been a University of Hawaii John A. Burns School of Medicine Admission Committee interviewer for four years. As such, Dr. Katras has experience evaluating records and making decisions with other committee members. Your Committee finds that Dr. Katras's knowledge and experience qualify him for appointment to the Medical Advisory Board.

JUDY KOVELL, MD

Your Committee received testimony in support of the nomination for the appointment of Judy Kovell, MD, from the Department of Transportation.

Dr. Kovell has worked in psychiatry and behavioral health since 2009, including working in a behavioral health clinic for three years and working as a psychiatrist for three years. She currently serves as the program director, general psychiatry residency, at Tripler Army Medical Center, a position she has held since 2016; from 2013 to 2016, Dr. Kovell was the associate program director. Your Committee notes that Dr. Kovell has been a supervisor throughout her professional career, as chief of medical operations, chief of inpatient psychiatry, and as program director, and therefore has significant leadership experience. Your Committee finds that Dr.

Kovell's extensive experience and expertise with treating patients with psychiatric and neurological conditions qualify her for appointment to the Medical Advisory Board.

As affirmed by the records of votes of the members of your Committee on Transportation and Energy that are attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominees, has found the nominees to be qualified for the positions to which nominated and recommends that the Senate advise and consent to the nominations.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (English, Shimabukuro).

SCRep. 2606 (Joint) Judiciary and Ways and Means on S.B. No. 2111

The purpose and intent of this measure is to establish a two-year agricultural theft and vandalism pilot project to examine the effectiveness of prosecuting agricultural theft and vandalism cases, including theft and vandalism affecting individuals who produce agricultural products for personal or small-scale commercial use on any land, in the County of Hawaii.

Your Committees received testimony in support of this measure from the Department of Agriculture, Office of the Prosecuting Attorney of the County of Hawai'i, Hawaii Farm Bureau, Ulupono Initiative, Oahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, Hawaii Island Economic Development Board, two members of the Hawaii County Council, and two individuals.

Your Committees find that agricultural theft and vandalism in the County of Hawaii are impediments to not only running a successful and profitable farming operation, but also to growing food or agricultural products for personal or small-scale commercial use. Agricultural theft and vandalism are a serious, ongoing problem, with farmers reporting theft of crops, animals, equipment, and tools, and vandalized fences and gates. Since many incidents of agricultural theft and vandalism are not reported, the annual monetary losses can only be estimated in the millions of dollars. By establishing an agricultural theft and vandalism pilot project for the County of Hawaii, this measure provides additional focus on investigating and prosecuting agricultural theft and vandalism.

Your Committees have amended this measure by:

- (1) Inserting an effective date of July 1, 2035, to encourage further discussion; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Judiciary and Ways and Means that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2111, as amended herein, and recommend that it pass Third Reading in the form attached hereto as S.B. No. 2111, S.D. 1.

Signed by the Chairs on behalf of the Committees.

Judiciary: Ayes, 4. Noes, none. Excused, 1 (Kim).

Ways and Means: Ayes, 8. Noes, none. Excused, 3 (Kaele, Shimabukuro, Wakai).

SCRep. 2607 (Joint) Judiciary and Ways and Means on S.B. No. 2113

The purpose and intent of this measure is to prohibit manufacturers and contract testing facilities in Hawaii from using animal test methods for the purpose of testing cosmetics or household products if an alternative testing method is available.

Your Committees received testimony in support of this measure from the Humane Society of the United States and six individuals. Your Committees received testimony in opposition to this measure from the Hawaii Cattlemen's Council, Inc. Your Committees received comments on this measure from the University of Hawaii System.

Your Committees find that the trend among manufacturers of cosmetics and household products is to utilize testing methods that do not involve animals. Many alternatives to animal testing exist that are cheaper, faster, and better able to predict human reactions. Your Committees find that Hawaii should lead by example and prohibit manufacturers from using animal testing methods for cosmetics and household products when alternative methods are available, though your Committees realize that potential issues of enforceability may arise.

Your Committees express concern that the exclusive remedy allowed by this measure lies with the Department of the Attorney General. Because the definition of an acceptable "alternative method" in this measure includes use of fewer animals or methods that cause "less suffering" to animals already being tested, the Department of the Attorney General is therefore required to engage in case-by-case analysis of whether certain testing techniques are most appropriate for certain cosmetics or products. Your Committees doubt that, as written, even with use of costly outside investigatory resources, the Department of the Attorney General would be able to consistently and meaningfully enforce this measure.

Your Committees have amended this measure by:

- (1) Revising its legislative findings;
- (2) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Judiciary and Ways and Means that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2113, S.D. 1, as amended herein, and recommend that it pass Third Reading in the form attached hereto as S.B. No. 2113, S.D. 2.

Signed by the Chairs on behalf of the Committees.

Judiciary: Ayes, 4. Noes, none. Excused, 1 (Kim).

Ways and Means: Ayes, 8. Noes, none. Excused, 3 (Kaele, Shimabukuro, Wakai).

SCRep. 2608 Judiciary on S.B. No. 2299

The purpose and intent of this measure is to:

- (1) Authorize a naturopathic physician to prescribe and administer testosterone that is consistent with naturopathic medical practice; and
- (2) Clarify that narcotic drugs and other controlled substances besides testosterone, shall not be included within the naturopathic formulary.

Your Committee received testimony in support of this measure from the Hawaii Medical Service Association, Maui Regenerative Medicine, Hawaii Society of Naturopathic Physicians, Board of Naturopathic Medicine, and nine individuals. Your Committee received testimony in opposition to this measure from the Hawaii Medical Association.

Your Committee finds that naturopathic physicians provide skilled and quality care to patients throughout the State, and remain mindful of safety, appropriate prescribing, and efficacy when treating patients with natural hormones. Your Committee further finds that although naturopathic physicians have some prescriptive authority, they are unable to prescribe testosterone, a controlled substance that is consistent with the practice of naturopathic medicine. Controlled substances such as testosterone have been included in the prescriptive authority for naturopathic physicians in Arizona, California, Oregon, and Washington. This measure therefore authorizes a naturopathic physician to prescribe and administer testosterone, consistent with naturopathic medical practice, but specifies that other narcotic drugs and controlled substances shall not be included within the naturopathic formulary.

Your Committee has amended this measure by inserting an effective date of July 1, 2035, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2299, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2299, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 2609 Judiciary on S.B. No. 2491

The purpose and intent of this measure is to increase protections for health care workers by increasing the criminal penalties for assaulting a health care worker who is engaged in the performance of duties.

Your Committee received testimony in support of this measure from the Department of Health; Hawaii Health Systems Corporation; Hawaii Medical Association; Kaiser Permanente Hawai'i; Healthcare Association of Hawaii; The Queen's Health Systems; United Public Workers, AFSCME, Local 646, AFL-CIO; Hawaii Medical Service Association; Hawaii Primary Care Association; Legacy of Life Hawaii; American Organization of Nurse Executives; Hawaii Nurses Association, OPEIU, Local 50; One Kalakaua Senior Living; Pali Momi Medical Center; Hawaii Government Employees Association, AFSCME, Local 152, AFL-CIO; Hawaii Pacific Health; Hilo Medical Center; and six individuals. Your Committee received testimony in opposition to this measure from the Office of the Public Defender. Your Committee received comments on this measure from the Department of the Attorney General.

Your Committee finds that assault and violence against health care workers is a significant and increasing issue in Hawaii. Incidents of violence against health care workers are also frequently underreported, or only reported in the most severe cases. Expanding the increased penalties currently provided for assault or violence against certain categories of health care workers will increase protection for vital and vulnerable health care service providers.

Your Committee has amended this measure by:

- (1) Simplifying the legislative findings;
- (2) Removing language that included intentionally or knowingly causing bodily injury to a person employed or contracted to work by a mutual benefit society within the offense of assault in the second degree;
- (3) Inserting an effective date of July 1, 2035, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2491, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2491, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 5; Ayes with Reservations (Rhoads, Thielen). Noes, none. Excused, none.

SCRep. 2610 Judiciary on S.B. No. 2559

The purpose and intent of this measure is to:

- (1) Clarify that state, county, and authorized agents' authority to enter private property to control and eradicate invasive species also applies when there is a reasonable suspicion that priority invasive species are present on that property; and
- (2) Require the Invasive Species Council to maintain a list of priority invasive species and diseases that pose a high risk to public health and safety, the environment, or agriculture.
