Your Committee received testimony in support of this measure from the Department of Land and Natural Resource, Department of Agriculture, Office of the Mayor of the County of Hawai'i, Hawaii Farm Bureau, Oahu County Committee on Legislative Priorities of

the Democratic Party of Hawai'i, Nature Conservancy Hawai'i, two members of the Maui County Council, one member of the Hawaii County Council, and one individual. Your Committee received testimony in opposition to this measure from Animal Rights Hawai'i.

Your Committee finds that invasive species and pests are a persistent and ongoing issue throughout the State. This measure will require the Invasive Species Council to maintain an accurate list of priority invasive species and diseases and expand the ability of authorized agents to eradicate them or limit their spread. Your Committee recognizes that the Board of Agriculture is the regulatory authority for control of invasive species and that the Board's declaration is required for an invasive species to be designated as a pest requiring eradication.

Your Committee has amended this measure by:

- (1) Clarifying that a declaration by the Chairperson of the Board of Agriculture that an invasive species is a pest requiring eradication to protect public health, the environment, or agriculture is required before authorized agents may enter private property to control or eradicate the invasive species; and
- (2) Inserting an effective date of July 1, 2035, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2559, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2559, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 2611 Judiciary on S.B. No. 2650

The purpose and intent of this measure is to ensure that Hawaii continues to support full access for persons with disabilities through meaningful accessibility requirements for movie theaters by:

- (1) Permanently requiring motion picture theaters to offer open movie captioning showings at least two times per week;
- (2) Requiring one of those showings to have a scheduled start time no earlier than 4:30 p.m.; and
- (3) Eliminating the requirement that public accommodations provide an option of personal closed captioning screenings by means of lightweight eyewear.

Your Committee received testimony in support of this measure from the Hawaii Civil Rights Commission, Disability and Communication Access Board, State Council on Developmental Disabilities, Office of Language Access, Special Education Advisory Council, Hawaii Disability Rights Center, Aloha State Association of the Deaf, Hawaii Self Advocacy Advisory Council, and nineteen individuals.

Your Committee finds that open movie captioning has enabled deaf and hard-of-hearing consumers to enjoy movies in a similar fashion as those who do not require open movie captioning. Your Committee further finds that the deaf and hard-of-hearing community strongly prefers open captioning to any type of eyewear, even if lightweight.

Your Committee also finds that federal requirements permit movie theaters to use any option to view closed captions, while Act 211, Session Laws of Hawaii 2017, specified one particular type of closed captioning device, in the form of lightweight eyewear. Your Committee further finds that given the rapid technological advances common in today's society, referencing a specific type of technology, such as lightweight eyewear, in statute is problematic, as it is likely that such technology could soon be rendered obsolete.

Your Committee notes that open movie captioning also provides a critical benefit to Limited English Proficient individuals and English-Language Learners. According to the Office of Language Access, open movie captioning can be a great tool for Limited English Proficient individuals and English-Language Learners to enjoy movies and learn the correspondence between spoken and written language.

Your Committee finds that this measure will help ensure that members of the deaf and hard-of-hearing community will have full, equal, and non-discriminatory access to and enjoyment of motion pictures with open captioning.

Your Committee has amended this measure by inserting an effective date of July 1, 2035, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2650, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2650, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 2612 (Joint) Judiciary and Ways and Means on S.B. No. 2749

The purpose and intent of this measure is to align provisions in the Hawaii Revised Statutes relating to child support guidelines to be in compliance with federal regulations.

Your Committees received testimony in support of this measure from the Department of the Attorney General, Department of Human Services, and one individual. Your Committees received testimony in opposition to this measure from the Judiciary.

Your Committees find that the federal final rule amendments to guidelines for child support payments require states to implement such amendments in their child support guidelines. This measure provides more opportunity for the public to be involved in the review of child support guidelines, access to information on how the review was conducted, and overall access to the guidelines. Your Committees further find that the Child Support Enforcement Agency is best situated to collect the data necessary for the quadrennial

review required by section 2 of this measure, as amended by your Committees, and that more financial resources will be required to effectively facilitate the collection of the necessary data. Your Committees find that the Department of the Attorney General has suggested amendments to this measure that would further the purpose and intent of this measure.

Accordingly, your Committees have amended this measure by:

- (1) Modifying the required contents of a child support order when the court imputes income, deviates from the child support guidelines, or when the child support order is issued by default;
- (2) Clarifying that the factors for imputation apply in all situations, and that imputation is not automatically required for incarcerated individuals;
- (3) Clarifying that the data necessary for the quadrennial review shall be collected by the Child Support Enforcement Agency;
- (4) Making an appropriation in a blank amount to the Child Support Enforcement Agency to facilitate collection of data to be considered in the quadrennial review;
- (5) Inserting an effective date of July 1, 2035, to encourage further discussion; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Judiciary and Ways and Means that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2749, S.D. 1, as amended herein, and recommend that it pass Third Reading in the form attached hereto as S.B. No. 2749, S.D. 2.

Signed by the Chairs on behalf of the Committees.

Judiciary: Ayes, 4. Noes, none. Excused, 1 (Kim).

Ways and Means: Ayes, 8. Noes, none. Excused, 3 (Kahele, Shimabukuro, Wakai).

SCRep. 2613 (Joint) Judiciary and Ways and Means on S.B. No. 2792

The purpose and intent of this measure is to:

- (1) Repeal the limitation on criminal history record checks of household members who provide care for a child whose family receives child care subsidies from the Department of Human Services in a regulated child care setting;
- (2) Clarify the release of investigation information to the public;
- (3) Clarify a child care licensing program's duty to share information it receives, and cooperate with child protective services and law enforcement, when the program receives a report of death or injury of a child; and
- (4) Clarify that the Department of Human Services may take administrative action, judicial action, or both, to enforce child care licensing provisions and increase penalties by making them apply on a daily basis.

Your Committees received testimony in support of this measure from the Department of Human Services, Keiki Injury Prevention Coalition, Oahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, and one individual.

Your Committees find that child care providers play an important role in the safety and well-being of a child and that it is of the utmost importance that diligence is used in making criminal history data available to the Department of Human Services on a wider scale. Recent events involving injuries and death have revealed the need for the Department of Human Services to enforce transparent measures for the safety of children in certain child care settings. This measure will ensure that necessary provisions are in place to protect the health, safety, and welfare of children and provide reassurance to their families.

Your Committees have amended this measure by:

- (1) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Judiciary and Ways and Means that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2792, S.D. 1, as amended herein, and recommend that it pass Third Reading in the form attached hereto as S.B. No. 2792, S.D. 2.

Signed by the Chairs on behalf of the Committees.

Judiciary: Ayes, 4. Noes, none. Excused, 1 (Kim).

Ways and Means: Ayes, 8. Noes, none. Excused, 3 (Kahele, Shimabukuro, Wakai).

SCRep. 2614 (Joint) Judiciary and Ways and Means on S.B. No. 2854

The purpose and intent of this measure is to enforce the requirement in Act 200, Session Laws of Hawaii 2016, to have annual registration and safety inspections for mopeds by establishing a fine for failure to register a moped.

Your Committees received testimony in support of this measure from the Pearl City Neighborhood Board No. 21 and Moped Noise Mitigation Working Group.

Your Committees find that Act 200, Session Laws of Hawaii 2016, established a requirement that mopeds undergo annual registration and safety inspections as a means of resolving the ongoing issue of illegally modified mopeds. Approximately five thousand mopeds have been registered under the new law, but without enforcement, compliance is an unresolved issue. This measure will encourage compliance with the registration and safety inspection requirement by establishing a fine for moped owners who fail to register their mopeds.

Your Committees have amended this measure by:

- (1) Inserting an effective date of July 1, 2035, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Judiciary and Ways and Means that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2854, as amended herein, and recommend that it pass Third Reading in the form attached hereto as S.B. No. 2854, S.D. 1.

Signed by the Chairs on behalf of the Committees.

Judiciary: Ayes, 4. Noes, none. Excused, 1 (Kim).

Ways and Means: Ayes, 8. Noes, none. Excused, 3 (Kahele, Shimabukuro, Wakai).

SCRep. 2615 Judiciary on S.B. No. 3024

The purpose and intent of this measure is to prohibit the sale of video games that contain a system of further purchasing a randomized reward or a virtual item that can be redeemed to receive a randomized reward to consumers under twenty-one years of age.

Your Committee received testimony in support of this measure from the Hawaii Youth Services Network. Your Committee received testimony in opposition to this measure from the Entertainment Software Association and TechNet. Your Committee received comments on this measure from the Department of Commerce and Consumer Affairs and Entertainment Software Rating Board.

Your Committee finds that the video game industry is a multi-billion dollar industry with a diverse consumer base that continues to grow substantially each year. Video games are increasingly prevalent and accessible, as smart phones, gaming consoles, and personal computers become more available. Increased access to video games has increased the popularity of an in-game mechanism known as a "loot box". Loot boxes are purchased with money or earned through gameplay, and contain randomized rewards that can help an individual progress in the game or are merely cosmetic. According to testimony received by your Committee, this mechanism is similar to gambling, and could lead to children and youth developing a behavioral addiction to gambling. Because parents and other responsible adults are often unaware of the randomized rewards that are available in video games, your Committee concludes that in order to reduce the exposure of children and youth to gambling and its harmful effects, the sale of video games that contain a system of further purchasing a randomized reward to children and youth should be prohibited.

Your Committee has amended this measure by inserting an effective date of July 1, 2050, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3024, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 3024, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 2616 Judiciary on S.B. No. 3033

The purpose and intent of this measure is to clarify and strengthen the existing agricultural theft law to allow for the protection of agricultural products raised or produced by all people in the State.

Your Committee received testimony in support of this measure from the Department of Agriculture; Office of the Prosecuting Attorney, County of Hawaii; Hawaii County Councilmember Eileen O'Hara; Ulupono Initiative; David S. De Luz, Sr. Enterprises, Inc.; Oahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i; and one individual. Your Committee received comments on this measure from the Hawai'i Farm Bureau.

Your Committee finds that agricultural theft and vandalism are serious and ongoing problems, with farmers and residents reporting theft of crops, animals, equipment, and tools, and vandalized fences and gates. Your Committee further finds that the courts have limited the crime of agricultural theft by interpreting that the crime only includes theft of products maintained by a commercial agricultural enterprise or research agency while owned by the enterprise or agency, which leaves residents who grow agricultural products for their own consumption, to be given as gifts, or to be sold at local markets without full legal recourse options if they are the victims of theft. This measure corrects the existing loophole in the law to ensure thieves are prosecuted.

Your Committee has amended this measure by:

- (1) Inserting an effective date of July 1, 2035, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3033, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 3033, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 2617 Ways and Means on S.B. No. 2569

The purpose and intent of this measure is to expand the membership composition and broaden the mission of the Pesticide Advisory Committee.

Specifically, this measure:

- (1) Expands the membership of the Pesticide Advisory Committee to include a representative from the Department of Education, each county mayor's office, Hawaii Farmers Union United, a medical expert, and a non-governmental organization scientist; and
- (2) Expands the duties of the Pesticide Advisory Committee to include:
 - (A) Establishing state standards for low-level, continuous exposures to pesticides;
 - (B) Recommending specific changes to the State's pesticide laws and regulations to the Legislature;
 - (C) Expanding Kauai's agricultural good neighbor program statewide; and
 - (D) Establishing a comprehensive buffer zone policy for the State.

Your Committee received written comments in support of this measure from the Hawaii State Teachers Association, Hawaii Alliance for Progressive Action, Oahu County Committee on Legislative Priorities of the Democratic Party of Hawaii, and two individuals.

Your Committee received written comments in opposition to this measure from the Department of Agriculture, Hawaii Farm Bureau, Hawaii Crop Improvement Association, Western Plant Health Association, and Land Use Research Foundation of Hawaii.

Your Committee received written comments on this measure from the Department of Education.

Your Committee finds that the Joint Fact Finding Group created by the Department of Agriculture and the County of Kauai to address environmental and public health questions related to large-scale use of pesticides on Kauai released a report of its findings and recommendations in May 2016. Your Committee finds that this measure implements the Joint Fact Finding Group's recommendation to expand the membership composition and broaden the mission of the Pesticide Advisory Committee.

Your Committee has amended this measure by changing the effective date to July 1, 2050, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2569, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2569, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 9. Noes, none. Excused, 2 (Inouye, Wakai).

SCRep. 2618 Ways and Means on S.B. No. 2474

The purpose and intent of this measure is to protect public health and welfare by requiring the Department of Health to conduct a study on the impacts of aviation noise on residents of the Puna District and surrounding areas of Hawaii Volcanoes National Park on the Island of Hawaii.

Your Committee received written comments in support of this measure from the Mayor of the County of Hawaii, a Hawaii County Council member, and one individual.

Your Committee received written comments in opposition to this measure from one individual.

Your Committee finds that overhead helicopter noise from tour companies has impacted residents who live along the helicopters' flight paths. Your Committee believes that if the study required by this measure identifies positive suggestions or potential compromises, this will benefit both the affected residents and the helicopter tour businesses.

Your Committee has amended this measure by:

- (1) Changing the sum appropriated for the study from \$200,000 to an unspecified sum;
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (3) Making technical nonsubstantive amendments for the purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2474, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2474, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 10. Noes, none. Excused, 1 (Shimabukuro).

SCRep. 2619 Ways and Means on S.B. No. 2124

The purpose and intent of this measure is to support the efforts of the Hawaii Ant Lab of the Pacific Cooperative Studies Unit of the University of Hawaii to mitigate the little fire ant threat in Hawaii.

More specifically, this measure appropriates moneys to the University of Hawaii to:

- (1) Establish seven full-time equivalent (7.0 FTE) positions within the Hawaii Ant Lab of the Pacific Cooperative Studies Unit; and
- (2) Purchase equipment for the Lab's operations and efforts to mitigate the little fire ant threat in Hawaii.

Your Committee received written comments in support of this measure from the Department of Land and Natural Resources, the Department of Agriculture, the Office of the Mayor of the County of Hawaii, two members of the Hawaii County Council, the Hawaii

Farm Bureau Federation, Little Fire Ant HUI, Ka Ohana O Na Pua, the OCC Legislative Priorities Committee of the Democratic Party of Hawaii, and eighteen concerned individuals.

Your Committee finds that the little fire ant poses a serious threat to human health and agriculture in the State. Your Committee recognizes the importance of efforts by the Hawaii Ant Lab of the Pacific Cooperative Studies Unit to control and eradicate the little fire ant.

Your Committee has amended this measure by:

- (1) Changing the appropriation from \$750,000 to an unspecified amount;
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (3) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2124, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2124, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 10. Noes, none. Excused, 1 (Shimabukuro).

SCRep. 2620 Ways and Means on S.B. No. 2116

The purpose and intent of this measure is to ensure that terrestrial and aquatic biosecurity threats are neutralized during the early stages of a biosecurity emergency.

More specifically, this measure:

- (1) Establishes the biosecurity emergency response special fund and appropriates moneys for the special fund;
- (2) Creates procedures for biosecurity emergencies to be declared by the Governor and moneys to be expended from the fund; and
- (3) Requires the Department of Agriculture to make an accounting of moneys expended from the fund and to include that information in its annual report to the Legislature.

Your Committee received written comments in support of this measure from the Department of Land and Natural Resources, the Department of Agriculture, the Hawaii County Council, the Big Island Invasive Species Committee, the Hawaii Farm Bureau, the Democratic Party of Hawaii's Oahu County Committee on Legislative Priorities, and twelve private individuals.

Your Committee received written comments on this measure from the Department of Budget and Finance and the State Procurement Office.

Your Committee finds that rapid response to newly detected invasive pest species would minimize the establishment and impact of these species.

Your Committee has amended this measure by:

- (1) Changing the amount appropriated for deposit into the biosecurity emergency response special fund and the amount appropriated out of the special fund from \$300,000 to unspecified amounts;
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (3) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2116, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2116, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 9. Noes, none. Excused, 2 (Kahele, Shimabukuro).

SCRep. 2621 Ways and Means on S.B. No. 3027

The purpose and intent of this measure is to provide moneys to the Department of Land and Natural Resources for the Kaho'olawe Island Reserve Commission to restore, preserve, and determine the appropriate uses of Kaho'olawe Island, and fund one full-time equivalent permanent cultural resource project coordinator position for the Kaho'olawe Island Reserve Commission.

Your Committee received written comments in support of this measure from the Kaho'olawe Island Reserve Commission; the County of Maui; the OCC Legislative Priorities, Democratic Party of Hawai'i; the Hawaiian Civic Club of Honolulu; the Ocean Tourism Coalition; and twenty-one individuals.

Your Committee received written comments from two individuals.

Your Committee received written comments in opposition to this measure from the Center for Hawaiian Sovereignty Studies.

Your Committee finds that the Kaho'olawe Island Reserve Commission has developed effective restoration projects for the future restoration of the island, including the 2026 Kaho'olawe Island strategic plan. In addition, while general funds were provided for the Kaho'olawe Island Reserve Commission, additional funds are needed for the Kaho'olawe Island Reserve Commission's restoration work. This measure provides additional funding needed to continue restoration, implement the strategic plan, and provide the Kaho'olawe Island Reserve Commission with a cultural resources project coordinator.

Your Committee has amended this measure by:

- (1) Changing the appropriation amounts to unspecified amounts;
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion; and
- (3) Making technical nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3027, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 3027, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 10. Noes, none. Excused, 1 (Shimabukuro).

SCRep. 2622 Ways and Means on S.B. No. 2714

The purpose and intent of this measure is to exclude the weight of disability access modifications from the determination of net weight for non-commercial vehicles for the purpose of levying state and county motor vehicle weight taxes.

Your Committee received written comments in support of this measure from the Disability and Communication Access Board and two individuals.

Your Committee received written comments on this measure from the Tax Foundation of Hawaii.

Your Committee finds that use of a personal vehicle by disabled persons, in lieu of a county-subsidized paratransit service, results in substantial savings to taxpayers. Accordingly, your Committee believes that disability access modifications made to personal vehicles should be encouraged by excluding the weight of such modifications from the determination of motor vehicle weight taxes.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (2) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2714, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2714, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 9. Noes, none. Excused, 2 (Kahele, Shimabukuro).

SCRep. 2623 (Majority) Ways and Means on S.B. No. 2614

The purpose and intent of this measure is to extend from March 31, 2018, to March 31, 2019, the deadline for a county to adopt an ordinance to establish a surcharge on the state general excise and use taxes.

The Office of the Mayor of the County of Hawaii submitted written comments in support of the measure.

The Department of Taxation submitted written comments on the measure.

Your Committee notes that the County of Kauai and the City and County of Honolulu have already adopted a surcharge on the general excise and use taxes. Your Committee recognizes that this measure would provide the County of Hawaii and the County of Maui with an extension of time to adopt the surcharge.

Accordingly, your Committee has amended this measure to establish that:

- (1) For a county that has adopted an ordinance before March 31, 2018, the Director of Taxation shall levy, assess, collect, and otherwise administer the county surcharge on state tax starting on January 1, 2019; and
- (2) For a county that has adopted an ordinance before March 31, 2019, the Director of Taxation shall levy, assess, collect, and otherwise administer the county surcharge on state tax starting on January 1, 2020.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2614, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2614, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 8. Noes, 1 (Riviere). Excused, 2 (Inouye, Wakai).

SCRep. 2624 Ways and Means on S.B. No. 80

The purpose and intent of this measure is to make an emergency appropriation to finance the lowering and relocation of portions of the iHeart Radio antenna, currently located near Kapalama canal on the island of Oahu.

Your Committee received written comments in support of this measure from the Department of Transportation, the Airlines Committee of Hawaii, and Hawaii Harbors Users Group.

Your Committee finds that the iHeart Radio antenna extends four hundred forty feet and is a potential hazard for an airplane requiring an emergency landing. Your Committee further finds that reducing the height of the antenna and moving portions of the antenna to a new location will alleviate the safety concerns raised by the airlines.

Your Committee has amended this measure by:

- (1) Changing the amount appropriated from \$3,000,000 to an unspecified amount;
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (3) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 80, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 80, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 9. Noes, none. Excused, 2 (Kahele, Shimabukuro).

SCRep. 2625 Ways and Means on S.B. No. 3057

The purpose and intent of this measure is to facilitate the use of land-secured financing by the counties.

More specifically, this measure:

- (1) Expands the authority of counties to use land-based financing to support operating costs for certain county services provided within improvement districts and community facilities districts;
- (2) Allows county maintenance of the capital improvements to be land-based financed; and
- (3) Authorizes counties to use up to an unspecified percentage of the assessments or tax revenues to cover administrative expenses in creating and administering the improvement or community facilities districts and the associated assessments, fees, and taxes.

Your Committee received comments on this measure from the City and County of Honolulu Department of Budget and Fiscal Services and the Tax Foundation of Hawaii.

Your Committee finds that land-secured financing provides an opportunity for the counties to support new and existing development-related operating costs, such as police, fire protection, and maintenance services, in addition to special improvements and infrastructure. Your Committee notes that, pursuant to section 46-80.1, Hawaii Revised Statutes, the counties are already authorized to set aside funds to cover administrative expenses. As a result, your Committee further finds that the language in the measure that authorizes unspecified amounts of assessments and tax revenues for such purposes is unnecessary.

Your Committee has amended this measure by:

- (1) Deleting provisions that authorize the use of unspecified amounts of assessments and tax revenues for the counties to cover administrative expenses; and
- (2) Making technical nonsubstantive amendments for the purposes of consistency, clarity, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3057, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 3057, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 10. Noes, none. Excused, 1 (Shimabukuro).

SCRep. 2626 Ways and Means on S.B. No. 2619

The purpose and intent of this measure is to substitute criminal penalties with civil penalties for certain violations pertaining to airport safety.

Your Committee received written comments in support of this measure from the Department of Transportation and one individual.

Your Committee finds that the imposition of criminal penalties for certain violations of airport rules may be excessive and disproportionate to the gravity of the violations. Accordingly, your Committee believes that those criminal penalties should be replaced with civil penalties.

Your Committee has amended this measure by making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2619, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2619, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 9. Noes, none. Excused, 2 (Kahele, Shimabukuro).

SCRep. 2627 (Majority) Ways and Means on S.B. No. 3006

The purpose and intent of this measure is to provide the State greater flexibility in its use and application of the Hawaii State Building Codes.

More specifically, this measure allows the State to use alternative building codes for the design and construction of state projects, provided that certain requirements are met.

Your Committee received written comments in support of this measure from the Department of Land and Natural Resources, the Hawaii Laborers-Employers Cooperation and Education Trust, and LiUNA Local 368.

Your Committee received written comments in opposition to this measure from the International Brotherhood of Electrical Workers Local Union 1186, International Association of Plumbing and Mechanical Officials, Plumbing and Mechanical Contractors Association of Hawaii, and CCPI Hawaii.

Your Committee received written comments on this measure from the Department of Accounting and General Services, the State Building Code Council, and the Hawaii Emergency Management Agency.

Your Committee finds that although the Hawaii State Building Codes currently address public health and safety and environmental concerns, the codes do not consider cost efficiencies and investment value in construction; changing technologies; and improved materials, methods, and approaches to protect public health and safety. While your Committee believes that these concerns should be addressed, your Committee recognizes that this measure would benefit from continued discussions between the measure's proponents and opponents.

Therefore, your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure;
- (2) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3006, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 3006, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 8. Noes, 1 (Kidani). Excused, 2 (Kahele, Shimabukuro).

SCRep. 2628 Ways and Means on S.B. No. 2603

The purpose and intent of this measure is to ensure that certain audit reports and studies conducted pursuant to legislation enacted with an appropriation or adopted by concurrent resolution are more widely distributed and reviewed.

More specifically, this measure:

- (1) Requires that any of these reports or studies be submitted to the subject matter committee chair of the Senate and the House of Representatives;
- (2) Requires a public hearing or informational briefing on the reports or studies within one year of the receipt of the report or study; and
- (3) Exempts financial and regularly occurring studies or audits from these requirements.

Your Committee received written comments in support of this measure from the Office of the Auditor and Common Cause Hawaii.

Your Committee received written comments on this measure from the Department of Budget and Finance.

Your Committee finds that requiring a public hearing or informational briefing on the content of those reports conducted pursuant to legislation enacted with an appropriation or adopted by concurrent resolution, will result in wider distribution of the reports, thus increasing government accountability and access to the information.

Your Committee has amended this measure by making technical nonsubstantive changes for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2603, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2603, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 10. Noes, none. Excused, 1 (Shimabukuro).

SCRep. 2629 Ways and Means on S.B. No. 2428

The purpose and intent of this measure is to ensure that applicants for law enforcement officer positions are of good character.

Specifically, the measure:

- (1) Prohibits the hiring of a state or county law enforcement officer if the candidate's previous position as a law enforcement officer was terminated while the officer was in poor employment standing; and
- (2) Requires background checks for prospective police officers.

Your Committee received written comments in support of this measure from the Department of Transportation; the Young Progressives Demanding Action - Hawaii; and four individuals.

Your Committee finds that a high-quality and high-performing workforce for state and county law enforcement is critical in order to protect the health and safety of the public. Requiring background checks, and prohibiting the hiring of individuals who were in poor standing in their previous law enforcement positions, will improve the quality of state and county law enforcement employees.

Your Committee has amended this measure by changing the effective date to July 1, 2050, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2428, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2428, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 9. Noes, none. Excused, 2 (Kahele, Shimabukuro).

SCRep. 2630 Ways and Means on S.B. No. 2515

The purpose and intent of this measure is to repeal the authority for department heads to establish and abolish positions for special, research, and demonstration projects approved by the Governor.

Your Committee received written comments in support of this measure from one individual.

Your Committee received written comments in opposition to this measure from the Department of Agriculture; the Department of Budget and Finance; the Department of Business, Economic Development, and Tourism; the Department of Defense; the Department of Health; the Department of Human Resources Development; the Department of Human Services; the Department of Land and Natural Resources; the Department of Transportation; and the Office of Enterprise Technology Services.

Your Committee received written comments on this measure from the Office of the Governor.

Your Committee finds that executive departments and agencies have the authority to establish positions for special, research and demonstration projects approved by the Governor, outside of the legislative process. This measure abolishes this authority.

Your Committee has amended this measure by changing the effective date to July 1, 2018.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2515, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2515, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 10. Noes, none. Excused, 1 (Shimabukuro).

SCRep. 2631 Ways and Means on S.B. No. 2911

The purpose and intent of this measure is to facilitate a land exchange transaction for the relocation of a public library on the island of Hawaii.

More specifically, the measure makes an appropriation for the Department of Land and Natural Resources to conduct a phase I environmental site assessment and, if necessary, a phase II environmental site assessment and suitable environmental remediation at the former Lalamilo reservoir site on the island of Hawaii as due diligence concerning the Lalamilo reservoir site land exchange transaction for the relocation of a public library.

Your Committee received written comments in support of this measure from the Department of Land and Natural Resources and the Hawaii State Public Library System.

Your Committee finds that it is necessary to conduct environmental due diligence, including site assessment and suitable remediation, to move forward with a proposed land exchange that is necessary for the replacement of the Thelma Parker Memorial Public and School Library on the island of Hawaii. The current library site is located on the Waimea Elementary School campus, causing safety concerns and issues related to access and parking. In exchange for the former Lalamilo reservoir site, the State will receive a parcel of land for the new library.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 2050; and
- (2) Changing the appropriation from \$500,000 to an unspecified amount,

to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2911, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2911, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 9. Noes, none. Excused, 2 (Kahele, Shimabukuro).

SCRep. 2632 Ways and Means on S.B. No. 2887

The purpose and intent of this measure is to appropriate moneys for events recognizing the twenty-fifth anniversary of the sister state relationship between Hawaii and Taiwan.

Your Committee received written comments in support of this measure from the Department of Business, Economic Development, and Tourism.

Your Committee finds that Hawaii and Taiwan enjoy numerous and longstanding business, cultural, educational, and historic ties that should be celebrated in events recognizing the twenty-fifth anniversary of the sister state relationship between Hawaii and Taiwan. Your Committee notes that your Committees on Judiciary and Economic Development, Tourism, and Technology previously approved an appropriation of \$75,000 for this purpose.

Your Committee has amended this measure by:

- (1) Changing the appropriation from \$75,000 to an unspecified amount;
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the matter; and
- (3) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2887, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2887, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 10. Noes, none. Excused, 1 (Shimabukuro).

SCRep. 2633 Ways and Means on S.B. No. 2767

The purpose and intent of this measure is to maintain the tax-qualified status of the Employees' Retirement System.

Your Committee received testimony in support of this measure from the Employees' Retirement System.

Your Committee finds that the Employees' Retirement System is intended to be a tax-qualified retirement plan under section 401(a) of the Internal Revenue Code. Your Committee also finds that Act 86, Session Laws of Hawaii 2015, prospectively changes the cost to purchase membership service after June 30, 2020. However, the Employees' Retirement System tax counsel has concluded that the change in purchase cost allows for greater pre-tax retirement contributions than had been approved of by the Internal Revenue Service. Your Committee further finds that this measure makes amendments necessary to maintain the tax-qualified status of the Employees' Retirement System.

Your Committee has amended this measure by making technical nonsubstantive amendments for the purposes of consistency and clarity.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2767, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2767, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 9. Noes, none. Excused, 2 (English, Kidani).

SCRep. 2634 Ways and Means on S.B. No. 2172

The purpose and intent of this measure is to clarify fee and per diem payment provisions for certain expert witnesses who are required to attend a state court or grand jury regarding a criminal case.

Your Committee received written comments in support of this measure from the Office of the Public Defender, the Department of the Prosecuting Attorney of the City and County of Honolulu, and The Sex Abuse Treatment Center.

Your Committee received written comments on this measure from the Department of Budget and Finance.

Your Committee finds that the appearance of expert witnesses is often necessary for the fair adjudication of criminal cases. Accordingly, there is a need to clarify applicable statutory provisions relating to expert witness fees and per diem payments.

Your Committee has amended this measure by making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2172, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2172, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 7. Noes, none. Excused, 4 (English, Kahele, Keith-Agaran, Wakai).

SCRep. 2635 Ways and Means on S.B. No. 2211

The purpose and intent of this measure is to expand the scope of the concussion educational program.

More specifically, this measure:

- (1) Expands the scope of the concussion educational program to include athletic events beginning from grade three; and
- (2) Makes an appropriation for the continuation of the concussion educational program.

Your Committee received written comments in support of this measure from the Department of Education, University of Hawaii System, Hawaii Psychological Association, Hawaii Chapter of American Physical Therapy Association, and twelve concerned individuals.

Your Committee finds that young athletes are particularly susceptible to head and brain trauma. Your Committee further finds that the concussion educational program should be expanded to include additional students.

Your Committee has amended this measure by:

- (1) Changing the effective date for section 3 of the measure to July 1, 2050;

- (2) Changing the effective date for the remainder of the measure to June 30, 2050, to facilitate further discussion on the measure; and
- (3) Making a technical nonsubstantive change for the purpose of clarity.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2211, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2211, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, none.

SCRep. 2636 Ways and Means on S.B. No. 2735

The purpose and intent of this measure is to enhance the independence and stability of the Office of Information Practices.

More specifically, this measure:

- (1) Establishes the Director of the Office of Information Practices' term for six years and thereafter until a successor is appointed;
- (2) Sets the Director's salary to an amount equivalent to the salary of a tier-one deputy department director;
- (3) Requires that the Director be appointed pursuant to a nomination by the Governor and the advice and consent of the Senate, rather than be appointed directly by the Governor; and
- (4) Makes an appropriation to the Office of Information Practices for implementation of this measure.

Your Committee received written comments in support of this measure from the Office of Information Practices and the Hawaii State Ethics Commission.

Your Committee received written comments in opposition to this measure from the Civil Beat Law Center for the Public Interest and the Hawaii Chapter of the Society of Professional Journalists.

Your Committee finds that making the Office of Information Practices' Director's appointment subject to the advice and consent of the Senate would ensure independence from undue political influence. Additionally, your Committee believes that setting the Director's term and salary equal to that of the heads of other governmental agencies would achieve parity.

Your Committee has amended this measure by:

- (1) Changing the Director of the Office of Information Practices' salary to make it the same as the salary of the Director of Health;
- (2) Changing the effective date to July 1, 2018; and
- (3) Making technical nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2735, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2735, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, 4 (English, Kahele, Keith-Agaran, Wakai).

SCRep. 2637 Judiciary on S.B. No. 2189

The purpose and intent of this measure is to:

- (1) Provide that failure of state and county officers and employees to carry out or comply with chapter 801D, Hawaii Revised Statutes, relating to victims' rights, shall provide a basis for disciplinary action, with certain exceptions; and
- (2) Require competent authority to immediately report such disciplinary action to the Legislature.

Your Committee received testimony in support of this measure from Ho'omanapono Political Action Committee; Ho'omana Pono, LLC; and ten individuals. Your Committee received testimony in opposition to this measure from the Honolulu Police Department and Department of the Prosecuting Attorney, County of Maui. Your Committee received comments on this measure from the Department of Public Safety.

Your Committee finds that, to be meaningful, victims' legal rights must be enforced. In order for sufficient enforcement to take place, several states have acted by creating offices to receive and investigate reports of violations of victims' rights. Other states have acted by creating laws that permit victims to assert their rights in court or established a victim's bill of rights within their state constitutions. This measure aims to increase enforcement of victims' rights in Hawaii by increasing the accountability of state and county officers and employees.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2189, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 2638 Judiciary on S.B. No. 2811

The purpose and intent of this measure is to update chapter 329, Hawaii Revised Statutes, the Uniform Controlled Substances Act, to be consistent with federal law by allowing properly registered practitioners to prescribe drugs, including buprenorphine and naloxone, to patients undergoing medically managed withdrawal, provided that the practitioner complies with specific requirements.

Your Committee received testimony in support of this measure from the Department of Public Safety, Hawaii Substance Abuse Coalition, and Oahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i.

Your Committee finds that this measure will bring Hawaii law into conformity with federal law and permit registered medical practitioners to prescribe drugs, including buprenorphine and naloxone, for purposes of medically managed withdrawal. While assisting those in need of treatment for substance abuse, this measure also assists in the enforcement of drug laws and the prevention of drug abuse and diversion in the State.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2811, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 2639 Judiciary on S.B. No. 2812

The purpose and intent of this measure is to update chapter 329, Hawaii Revised Statutes (HRS), the Uniform Controlled Substances Act, to be consistent with amendments to the federal Controlled Substances Act, as required under section 329-11, HRS.

Your Committee received testimony in support of this measure from the Department of Public Safety.

Your Committee finds that each year the federal Controlled Substances Act is updated to stay current with the appropriate scheduling of new substances. As a result, the Hawaii Uniform Controlled Substance Act also needs to be updated in order to stay current with the federal Controlled Substances Act. Changing this state law will ease enforcement and reduce confusion as to the scheduling of controlled substances in the State and eliminate any differences between the federal and state law.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2812, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 2640 (Joint) Economic Development, Tourism, and Technology and Public Safety, Intergovernmental, and Military Affairs on S.B. No. 2753

The purpose and intent of this measure is to clarify the power of the Small Business Regulatory Review Board (Board) when reviewing state and county administrative rules that impact small businesses.

Your Committees received testimony in support of this measure from the Department of Business, Economic Development, and Tourism; Small Business Regulatory Review Board; Chamber of Commerce Hawaii; Hawaii Business League; Hawaii Farm Bureau; and one individual.

Your Committees find that this measure will clarify the powers of the Board in order to increase the Board's effectiveness in supporting small businesses in Hawaii. Your Committees further find that it is important to explicitly define the Board's authority to ensure that the small business community, state and county agencies, Hawaii business chambers, and trade organizations have a clear understanding of the purview of the Board to avoid any misinterpretations.

As affirmed by the records of votes of the members of your Committees on Economic Development, Tourism, and Technology and Public Safety, Intergovernmental, and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2753 and recommend that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chairs on behalf of the Committees.

Economic Development, Tourism, and Technology: Ayes, 3. Noes, none. Excused, 2 (Galuteria, Thielen).

Public Safety, Intergovernmental, and Military Affairs: Ayes, 3. Noes, none. Excused, 2 (Ihara, Thielen).

SCRep. 2641 (Joint) Education and Commerce, Consumer Protection, and Health on S.B. No. 2925

The purpose and intent of this measure is to:

- (1) Clarify the scope of licensure for individuals engaged in the practice of behavior analysis in a school setting; and
- (2) Broaden the licensing exemption for direct support workers who provide behavior analysis services in schools.

Your Committees received testimony in support of this measure from the Department of Education; Hawai'i Psychological Association; Hawai'i Association for Behavior Analysis; Alaka'i Na Keiki, Inc.; Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO; National Association of Social Workers, Hawai'i Chapter; and numerous individuals. Your Committees received testimony in opposition to this measure from the Hawaii State Teachers Association; Hawaii Disability Rights Center; Aloha Behavioral Associates, LLC; and two individuals. Your Committees received comments on this measure from the Department of Commerce and Consumer Affairs Regulated Industries Complaint Office and Department of Commerce and Consumer Affairs Professional and Vocational Licensing Division.

Your Committees find that behavior analysis is the scientific study of principles of learning and behavior. The practice of behavior analysis includes the empirical identification of functional relations between behavior and environmental factors, as well as the use of

contextual factors, motivating operations, antecedent stimuli, positive reinforcement, and other consequences to help individuals develop new behaviors, increase or decrease existing behaviors, and display behaviors under specific environmental conditions.

Your Committees further find that it is important to support students' access to appropriately licensed and qualified behavior analysts in the Department of Education setting. Despite efforts by the Department of Education in the past to provide the appropriate services for students with autism spectrum disorder, some students and their families are still not receiving behavior analysis services. Your Committees believe that it is important to ensure that the Department of Education creates and implements a plan to provide Medicaid billable applied behavior analysis services to all students with autism spectrum disorder within the Department.

As such, your Committees have amended this measure by:

- (1) Amending the preamble to reflect the definition of behavior analysis and the legislative history of behavior analysis regulation in the State;
- (2) Deleting language that would have established a new section in chapter 465D, Hawaii Revised Statutes, related to the practice of behavior analysis in a school setting and licensing requirements;
- (3) Inserting language that exempts a direct support worker who provides autism treatment services pursuant to an individualized education plan and is under the direction of a licensed psychologist from chapter 465, Hawaii Revised Statutes;
- (4) Deleting language that would have exempted an individual working within the scope of practice or duties of another licensed profession that overlaps with the practice of behavior analysis from licensing requirements for providing behavior analysis services pursuant to chapter 465D, Hawaii Revised Statutes;
- (5) Inserting language that exempts the following individuals from licensing requirements for providing behavior analysis services pursuant to chapter 465D, Hawaii Revised Statutes:
 - (A) An individual licensed in the State who practices other professions and their supervisees, under certain circumstances;
 - (B) An individual licensed in the State who practices psychology and their supervisees, under certain circumstances;
 - (C) A licensed classroom teacher, or someone who is working as a classroom teacher and is enrolled in a teacher preparation program working toward licensure, in a school setting, under certain conditions; and
 - (D) An individual who designs or implements behavior analysis services to participants in the Medicaid home and community-based service waiver program on or before January 1, 2024;
- (6) Clarifying provisions that exempt an individual from licensing requirements for providing behavior analysis services pursuant to chapter 465D, Hawaii Revised Statutes, who directly implements and does not design behavior analysis services, including an individual who works within the scope of practice, is directly supervised by a licensed psychologist, and does not use the title of "licensed behavior analyst";
- (7) Clarifying the definition of "direct support worker" to mean a paraprofessional;
- (8) Clarifying provisions that would exempt a family member, legal guardian, or caregiver implementing a behavior analysis plan and who acts under the direction of a licensed behavior analyst from licensing requirements pursuant to chapter 465D, Hawaii Revised Statutes;
- (9) Inserting a definition for "caregiver" as it relates to the implementation of a behavior analysis plan under the direction of a licensed behavior analyst;
- (10) Inserting language that requires the Department of Education to create an implementation plan for the delivery of a Medicaid billable applied behavior analysis to all students diagnosed with autism spectrum disorder within the Department, including reporting requirements; and
- (11) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Education and Commerce, Consumer Protection, and Health that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2925, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2925, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chairs on behalf of the Committees.

Education: Ayes, 5. Noes, none. Excused, none.

Commerce, Consumer Protection, and Health: Ayes, 5. Noes, none. Excused, 2 (Nishihara, Ruderman).

SCRep. 2642 (Joint) Ways and Means and Judiciary on S.B. No. 2508

The purpose and intent of this measure is to improve the collection of taxes by creating a nexus standard for taxing businesses domiciled outside the State on their business activities in Hawaii.

Your Committees received testimony in support of this measure from the Retail Merchants of Hawaii.

Your Committees received comments on this measure from the Department of Taxation and the Tax Foundation of Hawaii.

Your Committees find that local businesses are required to collect and remit the general excise tax on goods and services sold to consumers in Hawaii. However, businesses located outside the State are not required to collect this tax when they sell goods to Hawaii residents, which places local businesses at a disadvantage by effectively making goods sold by local businesses more expensive. Your Committees believe that this measure will foster fairness in competition by requiring certain out-of-state businesses to collect and remit state taxes.

Your Committees have amended this measure by:

- (1) Limiting application of the measure to the general excise tax, rather than to all state taxes;
- (2) Amending the measure so that it applies to “persons lacking physical presence in the State”, rather than “businesses domiciled outside the State”;
- (3) Clarifying the time period to be used when determining if a person is engaging in business in the State;
- (4) Deleting provisions that would have authorized the remitting of taxes on a basis other than monthly;
- (5) Establishing a threshold of \$100,000 of gross income from in-state sales for determining if a person is engaging in business in the State; and
- (6) Deleting all instances of the term “entity”.

As affirmed by the records of votes of the members of your Committees on Ways and Means and Judiciary that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2508, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2508, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chairs on behalf of the Committees.

Ways and Means: Ayes, 8. Noes, none. Excused, 3 (Kahale, Shimabukuro, Wakai).

Judiciary: Ayes, 4. Noes, none. Excused, 1 (Kim).

SCRep. 2643 Judiciary on S.B. No. 2851

The purpose and intent of this measure is to amend various provisions of the Hawaii Revised Statutes and the Session Laws of Hawaii for the purposes of correcting errors and references, clarifying language, and deleting obsolete or unnecessary provisions.

Your Committee received testimony in support of this measure from the Legislative Reference Bureau. Your Committee received comments on this measure from the Tax Foundation of Hawaii.

Your Committee finds that this statutory revision measure is submitted by the Legislative Reference Bureau pursuant to chapter 23G, Hawaii Revised Statutes. All of the statutory amendments proposed by this measure are intended to be technical in nature to correct errors, omissions, or obsolete laws. Your Committee also notes that this measure was reviewed by the Attorney General prior to its submission to the Legislature. A memorandum explaining the proposed amendments was submitted as part of the testimony of the Legislative Reference Bureau.

Your Committee notes that the Tax Foundation of Hawaii recommended in its comments a number of technical nonsubstantive amendments. Accordingly, your Committee has adopted the recommendations of the Tax Foundation of Hawaii and amended this measure by:

- (1) Amending section 235-110.7(a), Hawaii Revised Statutes, by repealing language relating to capital goods excise tax credit rates for calendar years prior to 2010;
- (2) Adding a new section to the measure amending the definition “financial corporation” in section 241-1, Hawaii Revised Statutes, by updating references to federal law;
- (3) Amending section 241-2(a) and (b), Hawaii Revised Statutes, by updating references to federal law;
- (4) Making technical nonsubstantive amendments for purposes of consistency and clarity; and
- (5) Changing the effective date to July 1, 2035, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2851, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2851, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Gabbard, Kim).

SCRep. 2644 (Joint) Commerce, Consumer Protection, and Health and Public Safety, Intergovernmental, and Military Affairs and Agriculture and Environment on S.B. No. 2524

The purpose and intent of this measure is to:

- (1) Require condominium property regimes to comply with county subdivision requirements;
- (2) Permit the Real Estate Commission to adopt rules that require a developer to seek county council approval for significant projects; and
- (3) Require agricultural lands that are subdivided and leased for agricultural uses or activities to comply with county subdivision standards.

Your Committees received testimony in support of this measure from the City and County of Honolulu Department of Planning and Permitting. Your Committees received testimony in opposition to this measure from the Hawaii Cattlemen’s Council, Inc.; and eight individuals. Your Committees received comments on this measure from the Department of Agriculture, Real Estate Commission, Office of Planning, and Hawai’i Association of REALTORS.

Your Committees find that expanded development of agricultural lands through the existing condominium property regime process may impact the long-term viability of these newly developed condominiums, as master planning is absent, particularly with respect to

supporting county infrastructure. Since existing laws require that condominium property regimes comply with county zoning but not county subdivision requirements, the counties lack an opportunity to review proposed developments, which may inhibit a county's ability to plan, regulate, and enforce its agricultural plans, goals, and infrastructure services.

Your Committees further find that this measure therefore allows county participation in the condominium property regime process, which will ensure availability of necessary supportive infrastructure and the identification of potential negative impacts to environmentally important or culturally significant resources, prior to the piecemeal sale of the property.

Your Committees have amended this measure by:

- (1) Clarifying that all condominium property regimes are required to comply with county subdivision or equivalent requirements and all county permitting requirements, to ensure conformance with county zoning, subdivision, and development ordinances and rules;
- (2) Clarifying that the counties may adopt supplemental ordinances governing condominium property regimes;
- (3) Deleting language that would have allowed the Real Estate Commission to adopt rules to require a developer to seek county council approval for significant condominium projects;
- (4) Requiring an application for registration of a condominium project in a county agricultural zoning district or preservation zoning district to include a verified statement, signed by an appropriate county official, that the project is in compliance with any supplemental county ordinances, county subdivision standards, and other rules;
- (5) Specifying that the Real Estate Commission shall not process any incomplete application and shall return an incomplete application to the developer; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Commerce, Consumer Protection, and Health, Public Safety, Intergovernmental, and Military Affairs, and Agriculture and Environment that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2524, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2524, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chairs on behalf of the Committees.

Commerce, Consumer Protection, and Health: Ayes, 4. Noes, none. Excused, 3 (Ihara, Ruderman, Tokuda).

Public Safety, Intergovernmental, and Military Affairs: Ayes, 3. Noes, none. Excused, 2 (Ihara, Thielen).

Agriculture and Environment: Ayes, 3. Noes, none. Excused, 2 (Riviere, Ruderman).

SCRep. 2645 Commerce, Consumer Protection, and Health on S.B. No. 2243

The purpose and intent of this measure is to prohibit motor vehicle insurers from charging insureds an additional fee for repairs made with original equipment manufacturer parts if the vehicle manufacturer recommends original equipment manufacturer parts.

Your Committee received testimony in support of this measure from Kraftsman Auto Body, Automotive Body and Painting Association of Hawaii, Tony Group Collision Center, Hawaii Automobile Dealers' Association, and eleven individuals. Your Committee received testimony in opposition to this measure from the Department of Commerce and Consumer Affairs, National Association of Mutual Insurance Companies, Property Casualty Insurers Association of America, Hawaii Insurers Council, GEICO, and LKQ Corporation. Your Committee received comments on this measure from State Farm Mutual Automobile Insurance Company and one individual.

Your Committee finds that crash parts are those motor vehicle replacement parts that constitute the visible exterior of the vehicle and that are repaired or replaced as a result of a motor vehicle collision. Your Committee further finds that existing law requires insureds and claimants to pay the difference between the cost of cheaper aftermarket crash parts and the original equipment manufacturer's crash parts. According to testimony received by your Committee, crash parts were originally cosmetic in design, so it was reasonable to use cheaper aftermarket crash parts that fit and looked like the original equipment manufacturer crash parts. However, for today's newer motor vehicles, many crash parts are no longer merely cosmetic and are engineered and crash tested as part of a complex safety system.

Your Committee additionally finds that when a vehicle is involved in a collision and repairs are required, the best way to ensure that the vehicle will retain and fulfill all crash requirements is to follow original equipment manufacturer repair standards and use only new, original manufacturer crash parts. Your Committee notes that original manufacturer crash parts are subjected to rigorous crash tests by motor vehicle manufacturers' internal departments, government agencies, and independent organizations that conduct additional crash assessment tests.

Furthermore, according to testimony received by your Committee, original equipment manufacturers of motor vehicles use many different types of materials and joining methods during production of a body shell for a motor vehicle. These materials work in unison with the rest of the vehicle to deliver the level of safety, driving performance, and appearance expected for the product. However, it cannot always be confirmed that equivalent materials are used to produce aftermarket crash parts.

Your Committee has amended this measure by:

- (1) Clarifying that insured consumers must be offered a choice of a like kind and quality crash part of an equal or better quality than the original equipment manufacturer crash part;
- (2) Specifying that an insured consumer who chooses the use of an original equipment manufacturer crash part that affects the insured consumer's crash avoidance or safety systems shall not be required to pay the additional cost for repairs using that original equipment manufacturer crash part;

- (2) Clarifying that an insured consumer, rather than an insured or claimant, is required to pay the additional cost for repairs that use original equipment manufacturer crash parts that do not affect an insured consumer's crash avoidance or safety systems, unless the vehicle manufacturer's warranty has required that original equipment manufacturer crash parts be used in the repair or if the use of a like kind and quality crash part would void an existing manufacturer's warranty or the insured consumer's vehicle lease agreement;
- (3) Requiring like kind and quality crash parts to carry a guarantee in writing regarding the quality and equivalent performance in a vehicle's crash avoidance and safety systems of the like kind and quality crash parts;
- (4) Requiring a repair provider to provide an insured consumer with the costs for the original equipment manufacturer crash part and the like kind and quality crash part for any authorized collision repair, including the cost markup for each crash part;
- (5) Specifying that the requirements for crash parts apply to vehicles that are five years old or newer, as of the date of the collision;
- (6) Clarifying that "like kind and quality" means having an equal or better quality than the original equipment manufacturer crash part and performing at least as well as the original equipment manufacturer crash part in a crash avoidance and safety system test;
- (7) Inserting an effective date of July 1, 2050, to encourage further discussion;
- (8) Inserting a sunset date of July 1, 2023; and
- (9) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

Your Committee notes that this amended measure ensures that an insured consumer who wishes to have a vehicle repaired, after a collision, with an original equipment manufacturer crash part that affects the vehicle's crash avoidance or safety systems cannot be charged an additional cost for repairs made with that original equipment manufacturer crash part.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2243, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2243, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 1 (Ruderman).

SCRep. 2646 Commerce, Consumer Protection, and Health on S.B. No. 2490

The purpose and intent of this measure is to:

- (1) Authorize a license holder to engage in business at motor vehicle dealer locations that are affiliated by common ownership under the same license;
- (2) Specify certain recall reimbursement or repair requirements for manufacturers where a stop-sale, or do-not-drive, order has been issued;
- (3) Clarify when certain manufacturer's or distributor's sales or performance standards shall be deemed unreasonable, arbitrary, or unfair; and
- (4) Prohibit a manufacturer or distributor from requiring a dealer to perform certain construction or renovations to the dealer's facilities; purchase items for a dealership facility in certain circumstances; or provide certain information related to customer information, unless certain conditions are met.

Your Committee received testimony in support of this measure from the Hawaii Automobile Dealers' Association. Your Committee received testimony in opposition to this measure from the Alliance of Automobile Manufacturers, Insurance Auto Auctions, and Global Automakers. Your Committee received comments on this measure from the Motor Vehicle Industry Licensing Board.

Your Committee finds that this measure is intended to modernize the State's motor vehicle industry licensing laws by: allowing a licensed motor vehicle dealer to engage in business at multiple locations affiliated by common ownership within the same county; specifies recall reimbursement or repair requirements for manufacturers where a stop-sale order has been issued; and clarifies the rights and obligations of dealers, manufacturers, and distributors with respect to improvements and upgrades on dealers' facilities, dealers' sales and performance standards, and access to dealers' business information.

Your Committee further finds that interested stakeholders, including the Hawaii Automobile Dealers' Association and Alliance of Automobile Manufacturers, have engaged in discussions regarding this measure. Your Committee therefore finds that amendments to this measure, to incorporate the preliminary consensus language reached by interested stakeholders, are necessary.

Accordingly, your Committee has amended this measure by:

- (1) Establishing requirements for used vehicle recalls pursuant to a stop-sale order as a new section in the Motor Vehicle Industry Licensing Act, rather than including these requirements under the existing section on prohibited acts, and further clarifying used vehicle recall requirements by:
 - (A) Amending and clarifying the method of calculating the amount that a dealer is to be compensated for the value of a recalled vehicle;
 - (B) Clarifying the determination of the value of a used vehicle;
 - (C) Clarifying the applicability of the used vehicle recall requirements;

- (D) Clarifying that a manufacturer is prohibited from taking certain actions against a dealer solely because the new motor vehicle dealer has submitted a recall reimbursement claim;
 - (E) Clarifying the limitations and requirements that recall reimbursement claims or compensation shall be subjected to;
 - (F) Specifying that a manufacturer is not required to provide total compensation to a dealer in excess of the total average trade-in value of an affected used motor vehicle;
 - (G) Specifying that any remedy provided to a dealer is exclusive; and
 - (H) Clarifying the definition of "stop-sale order";
- (2) Requiring each motor vehicle dealer location affiliated by common ownership to obtain prior approval from the Motor Vehicle Industry Licensing Board before transferring salespersons between dealer locations;
 - (3) Clarifying the definition of "common ownership";
 - (4) Clarifying certain prohibitions against a manufacturer or distributor requiring a dealer to perform certain substantial construction, renovation, or alterations to the dealer's facilities;
 - (5) Clarifying when manufacturer's or distributor's sales or service performance standards shall be deemed unreasonable, arbitrary, or unfair and clarifying the material and relevant local market factors to be used when determining a sales or service performance standard;
 - (6) Clarifying that the approval for substantially similar goods, building materials, or services for a dealership facility shall not be unreasonably withheld or unreasonably delayed by a manufacturer or distributor;
 - (7) Inserting an effective date of July 1, 2050, to encourage further discussion; and
 - (8) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

Your Committee notes that this amended measure remains a work in progress. Your Committee also notes the interested stakeholders have indicated to your Committee that they remain engaged in discussions regarding certain aspects of this measure. Your Committee appreciates these efforts to reach a consensus and acknowledges that additional amendments to this amended measure may be needed as it moves through the legislative process.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2490, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2490, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 7. Noes, none. Excused, none.

SCRep. 2647 Commerce, Consumer Protection, and Health on S.B. No. 3064

The purpose and intent of this measure is to prohibit public utilities from installing a new utility pole within ten feet of an existing utility pole, unless the original utility pole will be removed within ninety days of installing the new utility pole.

Your Committee received testimony in support of this measure from The Outdoor Circle and forty-one individuals. Your Committee received testimony in opposition to this measure from the Hawaiian Electric Company, Inc. and Hawaiian Telcom.

Your Committee finds that when new utility poles are installed adjacent to an existing utility pole, the original pole is often left in place. This results in what is sometimes referred to as double poles. According to testimony received by your Committee, the creation of double poles that remain after ninety days is generally due to the installation of a new utility pole by the utility and the subsequent delay by the joint pole owner in removing that joint pole owner's equipment and the old pole. Your Committee further finds that this measure addresses the situation of double poles by prohibiting public utilities from installing a new utility pole within ten feet of an existing utility pole, unless the original utility pole will be removed within ninety days of installing the new utility pole.

However, your Committee has heard the concerns that this measure does not address the level of coordination required between multiple joint pole owners, the complexity of equipment transfers, and the nuances associated with utility pole removal. Your Committee understands these concerns and notes that the standards and procedures for equipment transfers, pole removal, and new replacement pole acceptance are controlled under the existing joint pole agreements for joint pole owners and by formal signed agreements between third party attachers and joint pole owners. Your Committee has also heard the concerns that this measure places the burden on the electric utilities for old pole removal. However, according to testimony received by your Committee, the existing joint pole agreements do not permit electric utilities to relocate or transfer certain joint owner or third party equipment.

Your Committee further finds that the Hawaiian Electric Company and Hawaiian Telcom indicated to your Committee that they have recently entered into a memorandum of understanding to jointly address the double pole situation. Your Committee notes that since many of the poles are in the public right of way, new joint pole agreements are required to be submitted to the Public Utilities Commission for review and authorization. The filing of an application with the Public Utilities Commission, which seeks approval of several agreements relating to electric utility distribution pole attachments by joint owners and sub-attaching third parties on jointly-owned electric distribution poles, is imminent. Your Committee concludes that amendments to this measure are necessary, in light of these pending actions.

Accordingly, your Committee has amended this measure by:

- (1) Requesting immediate, favorable action by the Public Utilities Commission once the application for new joint pole agreements has been submitted;

- (2) Requiring a report from the Public Utilities Commission to the Legislature, through the Chairs of the Senate Committee on Commerce, Consumer Protection, and Health and House Committee on Consumer Protection and Commerce, once the new joint pole agreements have been approved;
- (3) Requiring a preliminary report from the parties to the application, including a status update and timeline for completion, to be submitted to the Legislature no later than twenty days prior to the convening of the Regular Session of 2019;
- (4) Requiring a final report from the parties to the application to be submitted to the Legislature no later than twenty days prior to the convening of the Regular Session of 2020;
- (5) Deleting language that would have prohibited public utilities from installing a new utility pole within ten feet of an existing utility pole, unless the original utility pole was removed within ninety days of installing the new utility pole; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3064, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3064, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Ihara, Ruderman, Tokuda).

SCRep. 2648 Commerce, Consumer Protection, and Health on S.B. No. 2646

The purpose and intent of this measure is to reduce public access to potentially addictive substances by requiring prescribers to consult the state Electronic Prescription Accountability System, also known as the Hawaii Prescription Drug Monitoring Program, or PDMP, before issuing a prescription for Schedule II, III, or IV controlled substances.

Your Committee received testimony in support of this measure from the Department of Public Safety, Hawaii Medical Service Association, and Hawaii Substance Abuse Coalition. Your Committee received testimony in opposition to this measure from the Hawaii Medical Association, Hawaii Emergency Physicians Associated, Hawaii American College of Emergency Physicians, The Emergency Group, and one individual. Your Committee received comments on this measure from the Department of Health, Hawaii Society of Clinical Oncology and American Society of Clinical Oncology, and Drug Policy Forum of Hawaii.

Your Committee finds that certain prescribers of controlled substances are required to register with the Department of Public Safety to use the PDMP and are required to report information relevant to the dispensation of any controlled substance before dispensation. However, your Committee finds that prescribers are not required to consult the PDMP before writing a prescription. Your Committee also finds that drug overdose rates have increased catastrophically in Hawaii, and that requiring prescribers to consult the PDMP may reduce access to potentially addictive substances.

Your Committee has heard the concerns of the Hawaii American College of Emergency Physicians and Hawaii Emergency Physicians Associated with respect to the non-delegable burdens that this measure would place upon emergency room physicians and other emergency medical providers and the delays in treatment that this would inflict upon emergency room patients, who are often in acute need of treatment. Your Committee finds that an exemption for short-term prescriptions issued by emergency medical providers will address these concerns without affecting the intent of this measure.

Your Committee has also heard the concerns of the Hawaii Medical Association to the effect that a violation under this section will constitute a felony, and that a felony conviction would permanently bar a physician or advanced practice registered nurse from practice in the State. Your Committee finds that permanently barring a physician or advanced practice registered nurse from practice for a single administrative error is not good public policy given the existing shortage of medical personnel in the State. Your Committee finds that the violations proposed by this measure are best policed by the appropriate licensing boards, which are the bodies best able to determine the appropriateness of a sanction.

Your Committee is also aware of the concerns raised with respect to the reliability and functionality of the PDMP but notes that it is not within your Committee's purview to appropriate funds to upgrade and improve the PDMP. Your Committee has also heard other concerns raised by other testifiers, including the Department of Health, Hawaii Society of Clinical Oncology, and Drug Policy Forum of Hawaii, and believes that further discussion of this measure is warranted.

Your Committee has amended this measure by:

- (1) Providing exemptions from the PDMP consultation requirement for prescriptions with a duration of three days or less written in emergency situations, by emergency medical providers, or in emergency rooms and for prescriptions written when the electronic prescription accountability system is unavailable;
- (2) Providing that a violation of the PDMP consultation requirement shall not be subject to the penalty provisions of part IV of chapter 329, Hawaii Revised Statutes, but that violations may result in disciplinary action under section 453-8 or 457-12, Hawaii Revised Statutes, as appropriate;
- (3) Adding a sunset date of June 30, 2023;
- (4) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2646, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2646, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 2 (Nishihara, Ruderman).

SCRep. 2649 Ways and Means on S.B. No. 2821

The purpose and intent of this measure is to conform Hawaii's income and estate and generation-skipping transfer tax laws to the Internal Revenue Code of 1986, as amended as of December 31, 2017.

Your Committee received testimony in support of this measure from the Department of Taxation and one individual.

Your Committee received testimony in opposition to this measure from the Civic Education Council, Hawaii Appleseed Center for Law & Economic Justice, Hawaiian Community Assets, Young Progressives Demanding Action — Hawaii, and nine individuals.

Your Committee received comments on this measure from the Tax Foundation of Hawaii.

Your Committee finds that this annual conformity measure is submitted by the Department of Taxation in compliance with section 235-2.5, Hawaii Revised Statutes, which requires the department to annually submit a measure to maintain state income tax conformity with the federal Internal Revenue Code. This measure is also intended to comply with section 236E-4, Hawaii Revised Statutes, which requires the department to annually submit a measure to maintain state estate and generation-skipping transfer tax conformity with the federal Internal Revenue Code. The purpose of conformity is to update the state tax laws with those changes made to the federal Internal Revenue Code during the past year and to adopt those changes that are appropriate for Hawaii law.

However, your Committee believes that although close conformance of the Hawaii Revised Statutes to the Internal Revenue Code is normally recommended to ease the administration of state taxes, in light of multiple changes that have recently come into effect at the federal level, it is appropriate that the Hawaii Revised Statutes not conform with a number of provisions of the Internal Revenue Code.

More specifically, your Committee finds that provisions of the federal Bipartisan Budget Act of 2015, P.L. 114-74, that became effective for taxable years beginning after December 31, 2017, have affected the manner in which partnerships are audited. Your Committee finds that although conforming the Hawaii Revised Statutes to the substance of these new auditing standards is appropriate, the Department of Taxation should be allowed to maintain its own timing and administrative provisions.

Furthermore, the federal Tax Cuts and Jobs Act, P.L. 115-97, enacted on December 22, 2017, made extensive changes to individual income taxes, corporate income taxes, and the estate tax. Your Committee believes that it is important to maintain current state law in numerous key areas. For example, the State's current allowance of individual itemized deductions should be maintained to ensure that individual taxpayers are not burdened with increased income tax obligations. Your Committee also believes that, in light of Hawaii's corporate tax structure and rates, it is not appropriate to conform to the Internal Revenue Code's twenty percent tax rate for pass-through entities.

Your Committee also finds that it is appropriate for the State to decline to conform state estate and generation-skipping transfer tax law to recent changes to federal law.

Accordingly, your Committee has amended this measure by:

- (1) Further amending section 235-2.3, Hawaii Revised Statutes, to specify that the following provisions of the Internal Revenue Code are not operative for state income tax purposes:
 - (A) Section 91, with respect to certain foreign branch losses;
 - (B) Section 199A, with respect to the deduction for qualified business income;
 - (C) Section 250, with respect to foreign-derived intangible income and global intangible low-taxed income;
 - (D) Section 267A, with respect to certain related party amounts paid or accrued in hybrid transactions or with hybrid entities; and
 - (E) Subchapter Z (sections 1400Z-1 to 1400Z-2), with respect to opportunity zones;
- (2) Amending section 235-2.4, Hawaii Revised Statutes, by:
 - (A) Specifying that section 67 of the Internal Revenue Code, with respect to the two percent floor on miscellaneous itemized deductions, shall be operative for state income tax purposes, except that the suspension in section 67(g) shall not be operative;
 - (B) Inserting a proviso that specifies that the suspension in section 68(f) of the Internal Revenue Code shall not be operative for state income tax purposes;
 - (C) Repealing an existing proviso that specifies that the provision in section 132(f)(2) of the Internal Revenue Code that equalizes the dollar amounts for section 132(f)(2)(A) and (B) regarding qualified transportation fringe benefits shall not be operative for state income tax purposes;
 - (D) Inserting a proviso that specifies that the suspensions in section 132(f)(8) and 132(g)(2) of the Internal Revenue Code shall not be operative for state income tax purposes;
 - (E) Inserting a proviso that specifies that section 163(h)(3)(F) of the Internal Revenue Code, which inserts limits relating to mortgage interest, shall not be operative for state income tax purposes;
 - (F) Repealing a reference to a repealed provision of section 164(a) of the Internal Revenue Code;
 - (G) Inserting a proviso that specifies that section 164(b)(6)(B) of the Internal Revenue Code, which limits the deduction for state and local taxes, shall not be operative for state income tax purposes;

- (H) Inserting a proviso that specifies that section 165(h)(5) of the Internal Revenue Code, which inserts limits relating to federally declared disasters, shall not be operative for state income tax purposes;
 - (I) Specifying that section 217 of the Internal Revenue Code, with respect to moving expenses, shall be operative for state income tax purposes, except that the suspension in section 217(k) shall not be operative; and
 - (J) Specifying that section 274 of the Internal Revenue Code, with respect to the disallowance of certain expenses, shall be operative for state income tax purposes, but in the form in which that section existed as of December 21, 2017;
- (3) Amending section 235-2.45, Hawaii Revised Statutes, by:
- (A) Repealing the existing proviso that renders certain provisions of section 1374 of the Internal Revenue Code, which relates to certain built-in gains, inoperative for state income tax purposes;
 - (B) Inserting a proviso that specifies that if a partnership elects the opt-out provision under section 6221(b) of the Internal Revenue Code for federal income tax purposes, that partnership shall also make the same election for Hawaii income tax purposes;
 - (C) Specifying that sections 6223, 6225, and 6226 of the Internal Revenue Code, with respect to partnership audits, shall be operative for state income tax purposes;
 - (D) Repealing existing language that makes operative for state income tax purposes section 6231 of the Internal Revenue Code, which addresses definitions and special rules relating to tax treatment of partnership items;
 - (E) Repealing existing language that makes operative for state income tax purposes sections 6240 and 6242 to 6255 of the Internal Revenue Code, which address simplified audit procedures for electing large partnerships; and
 - (F) Inserting a proviso that specifies that certain definitions listed in section 6241 of the Internal Revenue Code, with respect to consistency between a partner's return and the partnership's return, shall not be operative for state income tax purposes;
- (4) Limiting the application of the Internal Revenue Code to state tax law to the version of the Internal Revenue Code as amended as of December 31, 2017, for:
- (A) The definition of "applicable generation-skipping transfer tax rate" in section 236E-2, Hawaii Revised Statutes; and
 - (B) The applicable exclusion amounts for Hawaii taxable estates, as calculated pursuant to section 236E-6, Hawaii Revised Statutes;
- (5) Making amendments to sections 236E-8, 236E-9, 236E-11, 236E-17, and 236E-21, Hawaii Revised Statutes, to make a taxpayer's obligation to file returns and make payments under the state estate and generation-skipping transfer tax law independent of the taxpayer's obligation to file returns and make payments under corresponding federal law;
- (6) Making the amendments to sections 235-2.4 and 235-2.45, Hawaii Revised Statutes, applicable to taxable years beginning after December 31, 2017;
- (7) Making the amendments to sections 236E-2, 236E-6, 236E-8, 236E-9, 236E-11, 236E-17, and 236E-21, Hawaii Revised Statutes, applicable to decedents dying or taxable transfers occurring after December 31, 2017; and
- (8) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2821, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2821, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 10. Noes, none. Excused, 1 (Shimabukuro).

SCRep. 2650 Ways and Means on S.B. No. 2886

The purpose and intent of this measure is to clarify that certain appropriations made to the East Maui Water Systems in Act 119, Session Laws of Hawaii 2015, as amended by Act 124, Session Laws of Hawaii 2016, are in the public health, safety, and general welfare of the State.

Your Committee received testimony in support of this measure from the Department of Agriculture and Na Moku Aupuni O Koolau Hui.

Your Committee received comments on this measure from the Department of Land and Natural Resources.

Your Committee finds that article VII, section 4 of the Constitution of the State of Hawaii allows for private appropriations made for a public purpose if the appropriation is for the public health, safety, and general welfare of the State. Your Committee recognizes that the East Maui Water Systems will not spend the appropriated moneys before July 1, 2018, thus requiring an appropriation of moneys for fiscal year 2018-2019.

Your Committee has amended this measure by deleting its contents and inserting an appropriation to the Department of Agriculture for plans, design, and construction of irrigation and water delivery systems in East Maui, as a capital improvement project.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2886, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2886, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 10. Noes, none. Excused, 1 (Shimabukuro).

SCRep. 2651 Ways and Means on S.B. No. 3029

The purpose and intent of this measure is to reduce or eliminate the income tax burden on Hawaii taxpayers who have the lowest incomes.

Your Committee received testimony in support of this measure from Americans for Democratic Action, Hawaii Applesseed Center for Law and Economic Justice, League of Women Voters of Hawaii, the Young Women's Christian Association of Oahu, Young Progressives Demanding Action, and sixteen individuals.

Your Committee received comments on this measure from the Department of Taxation and the Tax Foundation of Hawaii.

Your Committee finds that Hawaii residents have the highest costs of living and housing in the nation, and many residents, even when employed, struggle to make ends meet. Your Committee recognizes that Hawaii is one of only fifteen states in the nation that impose an income tax on individuals at or below the poverty level. In contrast, most of the other states either provide a tax refund or impose no state income tax on the poorest of the poor.

Your Committee believes that it is appropriate to provide targeted tax relief to those with the lowest incomes in the State. However, your Committee believes that this measure requires further review and examination.

Accordingly, your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (2) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3029, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3029, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 9. Noes, none. Excused, 2 (English, Inouye).

SCRep. 2652 (Majority) Ways and Means on S.B. No. 2843

The purpose and intent of this measure is to amend the tax rate on large cigars.

More specifically, the measure amends the current tax rate of fifty percent of the wholesale price of a large cigar to the lesser of fifty cents per cigar, or fifty percent of the cigar's wholesale price, on and after July 1, 2018.

Your Committee received testimony in support of this measure from the Cigar Association of America, Cigar Rights of America, Hawaii Cigar Association, Kauai Cigar Company, Mokuleia Cigar Company, and ten individuals.

Your Committee received testimony in opposition to this measure from the Department of Health, American Cancer Society Cancer Action Network, American Heart Association, Hawaii Public Health Association, Hawaii Public Health Institute, Kauai Community Health Improvement Initiative, Retail Merchants of Hawaii, and seventy-four individuals.

Your Committee received comments on this measure from the Department of Taxation and Tax Foundation of Hawaii.

Your Committee finds that by capping the tax rate on large cigars, tobacco farmers, small-scale cigar producers, and specialty cigar retailers in the State will be able to compete more effectively with their out-of-state counterparts, given the significantly higher costs of production in, and shipping to, Hawaii. As a result, more consumers in the State will be encouraged to "buy local" rather than from online or mail-order sources, which in turn will support local agriculture, stimulate economic development, and keep potential tax revenues in the State.

Your Committee has amended this measure by changing its effective date to July 1, 2050, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2843, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2843, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 7. Noes, 2 (Harimoto, Riviere). Excused, 2 (English, Kahele).

SCRep. 2653 Ways and Means on S.B. No. 2514

The purpose and intent of this measure is to promote fairness in tax administration by subjecting any person selling tangible personal property, products transferred electronically, or services for delivery into the State to title 14, Hawaii Revised Statutes, and the general excise tax law; provided that in the previous or current calendar year:

- (1) The person has realized \$5,000 in gross revenue; or
- (2) The person has two hundred or more separate transactions.

Your Committee received testimony in support of this measure from the Retail Merchants of Hawaii.

Your Committee received testimony in opposition to this measure from one individual.

Your Committee received comments on this measure from the Department of the Attorney General, Department of Taxation, and Tax Foundation of Hawaii.

Your Committee finds that many businesses that maintain a physical presence in the State operate on narrow profit margins. These businesses are required to pay the general excise tax on goods sold and services provided at their locations. However, because online merchants are not required to collect the general excise tax on internet sales to customers in Hawaii, local brick-and-mortar stores are at a competitive disadvantage with online merchants. Your Committee finds that this measure will ensure fair competition among all businesses, regardless of location, that sell goods and services to residents of the State.

Your Committee has amended this measure by:

- (1) Limiting the application of the measure to the general excise tax law, rather than all taxes in title 14, Hawaii Revised Statutes;
- (2) Clarifying that, for purposes of determining whether a person is doing business in the State, a transaction will be evaluated on whether the intangible property or service is used or consumed in the State, rather than whether the intangible property or service is transferred or delivered in the State;
- (3) Changing from \$5,000 to \$100,000 the threshold of gross receipts or gross proceeds from sales that would qualify as engaging in business in the State; and
- (4) Removing provisions requiring persons meeting the thresholds provided by the measure to “follow all procedures and requirements of law”, and instead clarifying that these persons are engaging in business in the State for purposes of complying with the general excise tax law.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2514, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2514, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 9. Noes, none. Excused, 2 (English, Kidani).

SCRep. 2654 Ways and Means on S.B. No. 192

The purpose and intent of this measure is to appropriate funds for the operating and capital improvement budget of the Executive Branch for fiscal years 2017-2018 and 2018-2019.

For purposes of a public hearing, your Committee circulated a proposed S.D. 1 (Proposed Draft) of the measure, and notified the public that your Committee would be accepting testimony on the Proposed Draft, which amends descriptions of the capital improvement projects related to a live stock feed mill and a waste stream recycling facility in the General Appropriations Act of 2015, as amended.

Your Committee received testimony in support of the Proposed Draft from the Department of Agriculture and Agribusiness Development Corporation.

Your Committee received comments on the Proposed Draft from the Department of the Attorney General.

Your Committee finds that these two appropriations will lapse on June 30, 2018. Instead of force-lapsing the moneys and then re-appropriating moneys for these projects in this year’s Supplemental Appropriations Act, your Committee believes that it would be more efficient to amend this measure to simply extend the lapse date for the projects.

Your Committee has amended this measure by:

- (1) Clarifying that the appropriations made by the measure are also in the public interest of the State;
- (2) Requiring the appropriations to lapse on June 30, 2019; and
- (3) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 192, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 192, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 11. Noes, none. Excused, none.

SCRep. 2655 Ways and Means on S.B. No. 2822

The purpose and intent of this measure is to authorize the Department of Taxation to require certain taxpayers to file tax returns electronically if the Department has provided an electronic filing option.

This measure also authorizes the Department of Taxation to impose a penalty for failure to file electronically and to waive the penalty if the failure is for reasonable cause.

Your Committee received testimony in support of this measure from the Department of Taxation and Transform Hawaii Government.

Your Committee received comments on this measure from the Tax Foundation of Hawaii.

Your Committee finds that authorizing the Department of Taxation to require certain taxpayers to file tax returns electronically will help to increase the overall efficiency of tax administration in the State.

Your Committee has amended this measure by:

- (1) Clarifying that the Department of Taxation's authority to require the electronic filing of tax returns applies only to certain specified categories of taxpayers, and that before requiring any electronic filing of tax returns, the Department shall provide no less than ninety days written notice to the general public of its intention to do so; and
- (2) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2822, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2822, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 8. Noes, none. Excused, 3 (Kidani, Riviere, Shimabukuro).

SCRep. 2656 (Joint) Ways and Means and Economic Development, Tourism, and Technology on S.B. No. 2999

The purpose and intent of this measure is to improve the monitoring, enforcement, and collection of the transient accommodations tax, the general excise tax, and other state taxes and compliance with state and county land use laws.

More specifically:

- (1) Part I of the measure establishes a one-time amnesty program for certain delinquent tax obligations; and
- (2) Part II of the measure:
 - (A) Allows transient accommodations brokers to register as tax collection agents on behalf of their operators and plan managers;
 - (B) Requires registered tax collection agents to inquire with their operators and plan managers as to whether the transient accommodation is in compliance with all state and county land use laws;
 - (C) Requires an operator or plan manager to provide verification of compliance with state and county land use laws;
 - (D) Requires a transient accommodations broker to remove a transient accommodation advertisement if the operator or plan manager fails to provide verification of compliance with state and county land use laws or upon notice that the property is not in compliance with state law or county ordinance;
 - (E) Authorizes counties to disgorge profits obtained through unfair or unlawful business practices;
 - (F) Authorizes counties to adopt ordinances to amortize or phase out transient vacation rental units; and
 - (G) Allocates an unspecified percentage of general excise tax and transient accommodations tax revenues to the counties, contingent upon establishment of a process to provide verification of compliance by an operator or plan manager with county land use laws.

Your Committees received testimony in support of this measure from the Office of the Governor; Department of Budget and Finance; Department of Business, Economic Development, and Tourism; Department of Taxation; Hawaii Tourism Authority; Office of Hawaiian Affairs; Department of Planning and Permitting of the City and County of Honolulu; the Chairperson of the Hawaii County Council; County of Hawaii Planning Department; the Chairperson of the Maui County Council; County of Maui Department of Planning; a member of the Kauai County Council; County of Kauai Planning Department; AF3IRM Hawaii; American Hotel and Lodging Association; Friends Against Illegal Rentals; Hawaii Appleseed Center for Law and Economic Justice; Hawaii Lodging and Tourism Association; Hilton Hawaii; Keiko Conservation; Marriott International; Maui Hotel and Lodging Association; Maui Tomorrow Foundation; Napili Kai Beach Resort; Oahu Alternative Lodging Association; Outrigger Hotels Hawaii; UNITE HERE Local 5; Waikiki Improvement Association; Waikiki Resort Hotel; and thirty-two individuals.

Your Committees received testimony in opposition to this measure from Condominium Rentals Hawaii; Expedia, Inc.; Hawaii Association of REALTORS; Ice Hawaii LLC; Lokoea Farms; Rental by Owner Awareness Association; Kobayashi Sugita and Goda, LLP, on behalf of Airbnb; and one hundred-two individuals.

Your Committees received comments on this measure from the Mayor of the City and County of Honolulu; Airbnb; Tax Foundation of Hawaii; and nine individuals.

Your Committees believe that the issues of general tax amnesty and improving tax enforcement and compliance are too important to remain in a single legislative vehicle. Your Committees further believe that providing each issue with its own legislative vehicle will allow the Legislature to dedicate the attention needed to craft more effective legislation.

Accordingly, your Committees have amended this measure by:

- (1) Deleting Part II of the measure; and
- (2) Making technical nonsubstantive amendments for the purposes of consistency, clarity, and style.

As affirmed by the records of votes of the members of your Committees on Ways and Means and Economic Development, Tourism, and Technology that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2999, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2999, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chairs on behalf of the Committees.
Ways and Means: Ayes, 10. Noes, none. Excused, 1 (Inouye).

Economic Development, Tourism, and Technology: Ayes, 5. Noes, none. Excused, none.

SCRep. 2657 Ways and Means on S.B. No. 508

The purpose and intent of this measure is to provide tax relief to low-income and working-class families in the State.

More specifically, the measure establishes an income tax credit based on the federal earned income tax credit.

For purposes of a public hearing, your Committee circulated a proposed S.D. 1 (Proposed Draft) of the measure and notified the public that your Committee would be accepting testimony on the Proposed Draft that amends the measure by deleting the existing provisions and replaces its contents with provisions to increase the amount of taxes that must be withheld from the disposition of Hawaii real property by nonresidents from five percent of the amount realized to nine percent of the amount realized.

Your Committee received testimony in opposition to this measure from the Coalition for Equal Taxation.

Your Committee received comments on this measure from the Department of Taxation, Rental by Owner Awareness Association, and Tax Foundation of Hawaii.

Your Committee notes that an income tax credit based on the federal earned income tax credit was enacted by Act 107, Session Laws of Hawaii 2017, and codified as section 235-55.75, Hawaii Revised Statutes, thus making the measure, in its current form, unnecessary. Your Committee further notes that the Department of Taxation has projected that increasing the amount of taxes that must be withheld from the disposition of Hawaii real property by nonresidents in the manner set out in the Proposed Draft will generate for the State \$15,600,000 for fiscal year 2019 and \$4,600,000 for fiscal year 2020 and each fiscal year thereafter.

Your Committee has amended this measure by adopting the Proposed Draft.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 508, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 508, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, none.

SCRep. 2658 Ways and Means on S.B. No. 2415

The purpose and intent of this measure is to increase state revenues by increasing the conveyance tax rates for residential investment properties with a value of at least \$2,000,000.

Your Committee received testimony in support of this measure from IMUAlliance.

Your Committee received testimony in opposition to this measure from the Land Use Research Foundation of Hawaii and Hawaii Association of REALTORS.

Your Committee received comments on this measure from the Department of Taxation, Hawaii Housing Finance and Development Corporation, Tax Foundation of Hawaii, and General Contractors Association of Hawaii.

Your Committee finds that, according to projections by the Department of Taxation, this measure will generate an additional \$29,800,000 in revenue in fiscal year 2019 and \$32,500,000 in revenue for fiscal year 2020 and in subsequent years.

Your Committee has amended this measure by making technical nonsubstantive changes for consistency and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2415, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2415, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, none.

SCRep. 2659 (Majority) Ways and Means on S.B. No. 3067

The purpose and intent of this measure is to improve the collection of income taxes from nonresident shareholders of real estate investment trusts.

More specifically, this measure:

- (1) Requires that real estate investment trusts file returns reporting their shareholders' pro rata shares of income attributable to this State;
- (2) Requires the Department of Taxation to allow real estate investment trusts to file composite returns and make composite payments on behalf of their nonresident shareholders;
- (3) Authorizes the Department of Taxation to allow real estate investment trusts to file composite returns and make composite payments on behalf of their resident shareholders;
- (4) Requires real estate investment trusts to file with the Department of Taxation agreements obtained from their nonresident shareholders to file returns and pay taxes on their pro rata share of income attributable to the State; and
- (5) Requires real estate investment trusts to withhold taxes for shareholders who do not agree to file returns or pay taxes on their pro rata share of income attributable to the State.

Your Committee received testimony in support of this measure from Fergus and Company; Hawaii Appleseed Center for Law and Economic Justice; ILWU 142; Steiner and Associates; and twenty-eight individuals.

Your Committee received testimony in opposition to this measure from Alexander and Baldwin; Douglas Emmett, Inc.; GGP Inc.; Land Use Research Foundation of Hawaii; Nareit; Park Hotels and Resorts Inc.; and Public Storage.

Your Committee received comments on this measure from the Department of Taxation; Tax Foundation of Hawaii; and one individual.

Your Committee finds that a real estate investment trust is a corporation that owns income-producing real estate and that is required to distribute at least ninety percent of its taxable income in the form of dividends to its shareholders. Under federal and state tax law, a real estate investment trust is not taxed on income that it pays out as dividends. Rather, the shareholders of the real estate investment trust are taxed on the dividends they receive. Your Committee also finds that most shareholders of real estate investment trusts that own real estate in the State are not Hawaii residents and, therefore, pay taxes on their dividend income to states other than Hawaii.

Your Committee has amended this measure by:

- (1) Deleting provisions requiring the Department of Taxation to allow real estate investment trusts to file composite returns and make composite payments on behalf of their nonresident shareholders;
- (2) Deleting provisions requiring real estate investment trusts to obtain and file agreements from a nonresident shareholder or to withhold and pay to the State an amount equal to the taxes owed on the nonresident shareholder's pro rata share of income attributable to the State;
- (3) Adding provisions requiring real estate investment trusts to withhold and pay to the State a minimum tax on behalf of any shareholder, regardless of residency status, in an amount equal to five percent of the shareholder's pro rata share of income attributable to the State;
- (4) Adding a definition of the term "real estate investment trust shareholder";
- (5) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (6) Making technical nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3067, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3067, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 7; Ayes with Reservations (English, Harimoto, Kahele, Wakai). Noes, 3 (Galuteria, Inouye, Kidani). Excused, 1 (Shimabukuro).

SCRep. 2660 Ways and Means on S.B. No. 3079

The purpose and intent of this measure is to increase staff and resources for the Department of Public Safety's Sheriff Division on the island of Hawaii.

More specifically, this measure:

- (1) Establishes one full-time equivalent permanent lieutenant position in the Kona unit of the Sheriff Division within the Department of Public Safety; and
- (2) Appropriates funds for the initial six-month hiring period and for one-time costs for the purchase of position-related uniforms and equipment, with the condition that funds for the position be included and requested within the Department's base budget for subsequent years at a rate equivalent to the base salary for the position as determined by the Department.

Your Committee received testimony in support of this measure from the Department of Public Safety, Hawaii State Judiciary, and two individuals.

Your Committee received testimony in opposition to this measure from one individual.

Your Committee finds that the current level of staffing in the Sheriff Division on the island of Hawaii, particularly in the Kona unit, is inadequate for the Sheriff Division to properly perform its duties.

Your Committee notes that the Department of Public Safety requested an appropriation of \$46,319 for fiscal year 2018-2019 for the lieutenant position.

Your Committee has amended this measure by:

- (1) Changing the appropriation from \$46,319 to an unspecified amount;
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (3) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3079, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3079, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, none.

SCRep. 2661 Ways and Means on S.B. No. 2699

The purpose and intent of this measure is to clarify the treatment of resort fees under the transient accommodations tax.

More specifically, this measure specifies that resort fees, which are any mandatory charges or surcharges imposed for the use of a transient accommodation's property, services, or amenities, are included in the gross rental proceeds amount upon which the transient accommodations tax is calculated.

For purposes of a public hearing, your Committee circulated a proposed S.D. 1 (Proposed Draft) of the measure and notified the public that your Committee would be accepting testimony on the Proposed Draft that amends the measure by adding provisions to:

- (1) Rename "transient accommodations brokers" as "transient accommodations intermediaries" and include within the definition certain persons who market transient accommodations through wholesale travel companies and booking platforms, thereby making these entities subject to the transient accommodations tax;
- (2) Impose the transient accommodations tax on operators and transient accommodations intermediaries who arrange or book transient accommodations at noncommissioned negotiated contract rates;
- (3) Clarify that the transient accommodations tax liability shall be apportioned between an operator and transient accommodations intermediary with respect to that person's respective portion of the gross proceeds;
- (4) Clarify that fees unrelated to transient accommodations are exempt from the definition of "gross rental" or "gross rental proceeds";
- (5) Exempt from the definition of "gross rental" or "gross rental proceeds" the amount of transient accommodations taxes that are visibly passed on to the customer by a transient accommodations intermediary;
- (6) Require transient accommodations intermediaries who market transient accommodations through a travel agency at noncommissioned negotiated contract rates to register with the Director of Taxation and to pay a one-time \$15 fee; and
- (7) Requiring operators, transient accommodations intermediaries, and plan managers to register the name and physical address of each place of business in the State that is subject to the transient accommodations tax.

Your Committee received testimony in support of this measure from the Office of the Governor and Department of Taxation.

Your Committee received testimony in opposition to this measure from the Hawaii Tourism Authority, Aqua-Aston Hospitality, Hawaii Lodging and Tourism Association, Maui Hotel and Lodging Association, and one individual.

Your Committee received comments on this measure from the Department of the Attorney General and Tax Foundation of Hawaii.

Your Committee finds that, as transactions regarding the furnishing of transient accommodations are increasingly conducted over the Internet, a disparity in the tax treatment of certain entities involved in the furnishing of transient accommodations has arisen and resulted in the State not collecting the full amount of transient accommodations taxes from certain parties.

Your Committee has amended this measure by adopting the Proposed Draft and further amending the Proposed Draft by:

- (1) Requiring that transient accommodations intermediaries obtain prior consent from each of their operators and plan managers prior to registering their names and physical addresses with the Director of Taxation;
- (2) Clarifying that the transient accommodations tax applies to operators in all transactions, not only those in which transient accommodations are furnished at noncommissioned negotiated contract rates;
- (3) Clarifying that all transient accommodations intermediaries are required to register with the Director of Taxation, not only those that market transient accommodations through a travel agency;
- (4) Amending the definition of "transient accommodations intermediary" to clarify that a transient accommodations intermediary may be a travel agency, tour packager, or wholesale travel company, as opposed to a person who markets through a travel agency, tour packager, or wholesale tour company; and
- (5) Amending the definition of "resort fee" to include fees, regardless of whether or not they are mandatory.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2699, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2699, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 11; Ayes with Reservations (Galuteria, Kahele, Kidani, Shimabukuro, Wakai). Noes, none. Excused, none.

SCRep. 2662 Ways and Means on S.B. No. 2693

The purpose and intent of this measure is to appropriate funds to plan for the Thirteenth Festival of Pacific Arts in 2020.

Your Committee received testimony in support of this measure from the Department of Business, Economic Development, and Tourism; Hawaii Tourism Authority; Kamehameha Schools; Mu'olaulani-Halau Hula Ka No'eau; Pacific Islanders in Communications; Pa'i Foundation; OCC Legislative Priorities Committee, Democratic Party of Hawaii; Royal Hawaiian Center; and five individuals.

Your Committee finds that Hawaii, for the first time, has been selected to host the Festival of Pacific Arts in 2020, and that in order to prepare for the event, it is necessary to provide funds for the Temporary Commission on the Thirteenth Festival of Pacific Arts, as established by Act 104, Session Laws of Hawaii 2017.

Your Committee notes that the Department of Business, Economic Development, and Tourism projects \$21,700,000 in tax revenue directly associated with visitor spending associated with the Thirteenth Festival of Pacific Arts.

Your Committee has amended this measure by:

- (1) Changing the appropriation from \$1,500,000 to an unspecified amount;
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (3) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2693, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2693, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, 4 (Galuteria, Kidani, Riviere, Shimabukuro).

SCRep. 2663 Judiciary on S.B. No. 2367

The purpose and intent of this measure is to require the Hawaii Labor Relations Board to deliver its decisions and orders by hand, United States Postal Service mail with delivery confirmation, or electronically.

Your Committee received testimony in support of this measure from the Hawaii Labor Relations Board. Your Committee received comments on this measure from the Department of the Attorney General.

Your Committee finds that specifying the means by which the Hawaii Labor Relations Board may deliver decisions and orders and including the option of electronic distribution will promote office efficiency and reduce postage and labor costs for the State. Your Committee notes that the language specifying the means of delivery explicitly supersedes general provisions on decisions and orders by state agencies in the case of the Hawaii Labor Relations Board, so including a reference to the new language in the general provisions on decisions and orders by state agencies in section 91-12, Hawaii Revised Statutes, is superfluous.

Accordingly, your Committee has amended this measure by:

- (1) Removing section 2, which added an exemption for decisions and orders governed by the new language pertaining to the Hawaii Labor Relations Board to the general provisions on decisions and orders by state agencies in section 91-12, Hawaii Revised Statutes;
- (2) Inserting an effective date of July 1, 2035, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2367, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2367, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 2664 Judiciary on S.B. No. 2782

The purpose and intent of this measure is to specify that certain government records that are maintained by the Department of Hawaiian Home Lands are not required to be disclosed to the public or open for inspection pursuant to public records requests.

Your Committee received testimony in support of this measure from the Department of Hawaiian Home Lands; Ho'omanapono Political Action Committee; and Ho'omana Pono, LLC. Your Committee received comments on this measure from the Office of Information Practices.

Your Committee finds that section 10-1-3(d), Hawaii Administrative Rules, requires that all "[p]ersonal data received or recorded by the department [of Hawaiian home lands] shall be held in absolute confidence and no release of information shall be made without written approval of the individual concerned". Despite this, the Department of Hawaiian Home Lands has received Uniform Information Practices Act requests for specific homestead application files and homestead lease files that include personal contact information, genealogies, finance and loan documents, succession forms, permission forms regarding the use of records in the file, and other correspondence. This measure ensures the privacy of personal data and records maintained by the Department of Hawaiian Home Lands and authorizes the Department to discuss those data and records in executive meetings.

Your Committee notes that this measure creates a new chapter of the Hawaii Revised Statutes that consists of a single section of new statutory language. Given the substantive provisions in this measure, it would be preferable to insert the new statutory language into part III of chapter 92F, Hawaii Revised Statutes, instead.

Your Committee has amended this measure by:

- (1) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2782, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2782, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 5; Ayes with Reservations (Kim, Thielen). Noes, none. Excused, none.

SCRep. 2665 Judiciary on S.B. No. 2784

The purpose and intent of this measure is to create an eviction process for the Hawaii Public Housing Authority's state low-income housing projects and elder or elderly housing.

Your Committee received testimony in support of this measure from the Hawaii Public Housing Authority. Your Committee received testimony in opposition to this measure from one individual.

Your Committee finds that Act 114, Session Laws of Hawaii 2017 (Act 114), exempted state low-income housing directly controlled, owned, or managed by the Hawaii Public Housing Authority from the requirements of the residential landlord-tenant code under chapter 521, Hawaii Revised Statutes. Act 114 laid the foundation for an administrative eviction process that could lessen the caseload of the Judiciary and the Department of the Attorney General while preserving the due process rights of tenants. This measure establishes the procedures for that administrative eviction process for tenants in state low-income and elderly housing projects that is substantially similar to the eviction process for tenants in federal low-income public housing.

Your Committee notes concern that, as this measure currently exists, the Hawaii Public Housing Authority could conceivably appoint an eviction board that consists of a single tenant who would then conduct a hearing to determine cause of action on another tenant's eviction. Your Committee encourages further discussion as this measure progresses to foreclose the possibility of arbitrary results in eviction hearings.

Your Committee has amended this measure by:

- (1) Inserting a savings clause;
- (2) Inserting an effective date of July 1, 2035, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2784, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2784, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 5; Ayes with Reservations (Thielen). Noes, none. Excused, none.

SCRep. 2666 Judiciary on S.B. No. 2786

The purpose and intent of this measure is to:

- (1) Close to the public certain areas within a housing project under the jurisdiction of the Hawaii Public Housing Authority where signs are displayed that comply with certain requirements; and
- (2) Amend the offense of criminal trespass in the second degree to clarify when, under certain circumstances, a person commits the offense of entering or remaining unlawfully in or upon any area of a housing project that is closed to the public.

Your Committee received testimony in support of this measure from the Hawaii Public Housing Authority.

Your Committee finds that one of the greatest concerns and priorities of the Hawaii Public Housing Authority is the safety and wellbeing of its tenants and staff. However, there have been a number of incidents occurring on housing project properties due to the presence of uninvited individuals, including unauthorized individuals entering onto public housing property and setting up tents in the middle of the property or causing property damage. Other cases have involved evicted tenants returning to the property to harass or intimidate their former neighbors. These acts create conflict among the tenants as well as staff. Accordingly, this measure provides the Hawaii Public Housing Authority with a tool to address and resolve these matters and to create a safer living environment for the community.

Your Committee has amended this measure by inserting an effective date of July 1, 2035, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2786, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2786, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 2667 Judiciary on S.B. No. 2790

The purpose and intent of this measure is to amend the Child Protective Act, chapter 587A, Hawaii Revised Statutes (HRS), by repealing the existing section 587A-3, HRS, guiding principles for children in foster care, and incorporating that language into a new section, rights of children in foster care, which aligns with federal law and provides increased support and guidance for children in foster care.

Your Committee received testimony in support of this measure from the Judiciary; Department of the Attorney General; Department of Health; Department of Human Services; Department of Education; Hawaii Children's Action Network; Oahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i; EPIC 'Ohana, Inc.; Hawaii Youth Services Network; Catholic Charities Hawaii; Hale Opio Kauai; and fourteen individuals. Your Committee received comments on this measure from the Department of Labor and Industrial Relations.

Your Committee finds that this measure codifies best practices that have been developed with significant input from foster children and former foster children, some of which have been applied by the Family Courts of the State of Hawaii. According to the testimony presented by the Department of Human Services, the new section proposed by this measure is based on section 587A-3, HRS, and aligns with Public Law 113-183, which requires the rights of a child age fourteen and older regarding education, health, visitation, and court participation to be documented in the child's case plan and requires a signed acknowledgment of the provision of these rights. The new section proposed by this measure also includes additional rights, such as culturally responsive services, requests for an attorney, and transportation to attend the school of origin. Your Committee notes concerns raised by the testimony of the Judiciary that, under the current language of this measure, there may not be sufficient time to gather all of the documents that a child aging out of foster care will require if the child enters the foster care system within six months of the child's eighteenth birthday.

Accordingly, your Committee has amended this measure by:

- (1) Requiring that a child in foster care who is seventeen years of age be provided with personal records and other specified documentation;
- (2) Specifying that a child's rights in foster care apply whenever possible;
- (3) Inserting an effective date of July 1, 2035, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2790, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2790, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2668 Judiciary on S.B. No. 2863

The purpose and intent of this measure is to amend the offenses of property damage in the first, second, and third degrees to include damaging property holding cultural or historical significance to Native Hawaiians.

Your Committee received testimony in support of this measure from Ho'omanapono Political Action Committee; Ho'omana Pono, LLC; Oahu County Committee on Legislative Priorities of the Democratic Party of Hawaii; and one individual. Your Committee received testimony in opposition to this measure from the Office of the Public Defender. Your Committee received comments on this measure from the Department of the Attorney General.

Your Committee finds that the cultural and historic heritage of Native Hawaiians is among the State's important assets. A more fitting penalty is necessary for intentional damage to property that is culturally or historically significant to Native Hawaiians, such as the damage done to the 'Iolani Palace, statue of Prince Kūhiō, and King Kamehameha statue in the County of Hawai'i.

Your Committee expresses concerns that the definition of "property holding cultural or historical significance to Native Hawaiians" is vague and uncertain as to the specific property to which it applies. Additionally, categorizing damage to property holding cultural or historical significance to Native Hawaiians into degrees based on the monetary amount of damages is consistent with the existing offense of criminal property damage, but may not be appropriate in situations where the cultural or historical value of a piece of property is high but the pecuniary value of the property is low.

Accordingly, your Committee has amended this measure by:

- (1) Simplifying the legislative findings;
- (2) Changing the definition of "property holding cultural or historical significance to Native Hawaiians" to "property of another holding cultural or historical significance to Native Hawaiians" and making the designation of cultural or historical significance contingent on a determination of significance by experts in traditional Native Hawaiian customs and practices in the district where the property is located;
- (3) Establishing a new offense of criminal property damage to property of another holding historical significance to Native Hawaiians as a class C felony offense, instead of including it within the existing offenses of criminal property damage;
- (4) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2863, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2863, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 5; Ayes with Reservations (Thielen). Noes, none. Excused, none.

SCRep. 2669 Ways and Means on S.B. No. 2656

The purpose and intent of this measure is to authorize medication synchronization of a patient's prescriptions of maintenance medications refilled by a network pharmacy.

More specifically, this measure requires health insurers, mutual benefit societies, and health maintenance organizations, with a patient's request or agreement, to apply a prorated daily cost-sharing rate to prescriptions dispensed by a network pharmacy for less than a thirty days' supply.

Your Committee received written comments in support of this measure from the Department of Health, American Cancer Society Cancer Action Network, Hawaii Association of Professional Nurses, Walgreen Co., and eight concerned individuals.

Your Committee received written comments on this measure from the Department of Commerce and Consumer Affairs, Insurance Division, and Hawaii Medical Service Association.

Your Committee finds that medication synchronization allows a pharmacist to review a patient's medications and synchronize medication refills so that the patient may pick up all the patient's refills on a single day each month. Without medication synchronization, patients who require long-term maintenance medications are at risk of missing doses of their regular medications. Studies indicate that when medications are synchronized, medication adherence rates rise.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (2) Making technical nonsubstantive amendments for the purposes of clarity, consistency, and style

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2656, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2656, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 10. Noes, none. Excused, 1 (Shimabukuro).

SCRep. 2670 Ways and Means on S.B. No. 2989

The purpose and intent of this measure is to address Hawaii's homelessness issue.

More specifically, this measure:

- (1) Expands the eligibility criteria and available credit amount for the low-income household renters' income tax credit, based on adjusted gross income and filing status;
- (2) Appropriates funds to the Department of Human Services for the continued administration of the family assessment center for homeless families; and
- (3) Appropriates funds to the Hawaii Public Housing Authority for the state rent supplement program to provide assistance through the establishment of a housing homeless children rental assistance pilot program.

Your Committee received written comments in support of this measure from the Governor's Coordinator on Homelessness, Hawaii Public Housing Authority, Catholic Charities Hawaii, Hawaii Appleseed Center for Law and Economic Justice, Hawaiian Community Assets, OCC Legislative Priorities Committee of the Democratic Party of Hawaii, and ten individuals.

Your Committee received written comments on this measure from the Department of Human Services, Department of Taxation, State Procurement Office, and Tax Foundation of Hawaii.

Your Committee finds that homelessness and lack of affordable housing are two of the most pressing problems facing Hawaii. These problems most acutely affect families with minor children. Accordingly, your Committee believes that the establishment of a housing homeless children rental assistance pilot program to provide a small, time-limited subsidy will allow vulnerable families to avoid the risk of homelessness and gain time to achieve self-sufficiency.

Your Committee has amended this measure by:

- (1) Changing the appropriations to unspecified amounts;
- (2) Explicitly directing the Hawaii Public Housing Authority to establish a housing homeless children rental assistance pilot program;
- (3) Exempting the Hawaii Public Housing Authority from Chapter 103F, Hawaii Revised Statutes, for the purposes of procuring financial case management and counseling services to assist families receiving rental assistance from the housing homeless children rental assistance pilot program;
- (4) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (5) Making technical nonsubstantive amendments for the purposes of consistency, clarity, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2989, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2989, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 10. Noes, none. Excused, 1 (Shimabukuro).

SCRep. 2671 Ways and Means on S.B. No. 2951

The purpose and intent of this measure is to clarify the interests that must be represented by the community development districts on the Hawaii Community Development Authority.

Specifically, this measure replaces the county council with the President of the Senate and the Speaker of the House of Representatives as the nominating authority for the members of the Hawaii Community Development Authority who represent the three community development districts of Heeiea, Kalaheo, and Kakaako.

Additionally, this measure clarifies that, of the members representing a community development district, the small business or nonprofit organization member can include an active manager of the small business as well as an owner and clarifies that the business or organization must be located and doing business within the physical boundaries of that community development district.

Your Committee received no written comments on this measure.

Your Committee finds that in 2017, confusion arose among Honolulu city council members regarding the nomination process for members of the Hawaii Community Development Authority who represented a particular community development district. Given the important responsibility of the representatives from the community development districts in determining the development of their respective districts, your Committee believes that the nomination process needs to be amended.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (2) Making technical nonsubstantive changes for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2951, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2951, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 10. Noes, none. Excused, 1 (Shimabukuro).

SCRep. 2672 Ways and Means on S.B. No. 2928

The purpose and intent of this measure is to enhance student education, improve childhood nutrition, and connect students with agriculture.

More specifically, the measure:

- (1) Establishes a three-year farm to school grant pilot program in the Department of Agriculture;
- (2) Appropriates moneys for the pilot program; and
- (3) Appropriates moneys to continue the Hawaii farm to school program and coordinator position.

Your Committee received written comments in support of this measure from the Department of Agriculture; Department of Education; Department of Health; State Procurement Office; University of Hawaii; a Councilmember from the County of Hawaii; Ulupono Initiative; Maui School Garden Network; Hawaii Primary Care Association; American Heart Association; Hawaii State Teachers Association; Hawaii Farm to School Hui; Kokua Hawaii Foundation; Local Food Coalition; Hoomana Pono, LLC; Grow Some Good; Malaai: The Culinary Garden of Waimea Middle School; Oahu County Committee on Legislative Priorities of the Democratic Party of Hawaii; Ka Ohana O Na Pua; Kamehameha Schools; Oahu Farm to School Network; and twenty-six concerned individuals.

Your Committee finds that farm to school programs effect positive change for the State in the areas of agriculture, education, and health. Your Committee further finds that farm to school activities support a nutritious food environment in public schools, which are attended by more than eighty-five percent of Hawaii's children and youth.

Your Committee has amended this measure by:

- (1) Adding a new section that appropriates an unspecified sum to assist farmers and ranchers in acquiring Good Agricultural Practices certifications from the United States Department of Agriculture;
- (2) Changing the amount appropriated for the farm to school grant pilot program from \$1,000,000 to an unspecified sum;
- (3) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (4) Making technical nonsubstantive amendments for clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2928, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2928, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 10. Noes, none. Excused, 1 (Shimabukuro).

SCRep. 2673 Ways and Means on S.B. No. 2319

The purpose and intent of this measure is to amend the selection and composition of the University of Hawaii Board of Regents.

Specifically, subject to ratification of a Hawaii constitutional amendment, this measure:

- (1) Reduces the membership of the Board of Regents from fifteen members to seven;
- (2) Reduces the terms of the members from five years to three years;
- (3) Establishes residential or expertise requirements for certain members;
- (4) Requires that the student member be the student body president of a University of Hawaii campus;
- (5) Repeals the Candidate Advisory Council for the Board of Regents; and

- (6) Requires the Governor to nominate and appoint the members of the Board of Regents with the advice and consent of the Senate.

Your Committee received written comments in support of this measure from the Office of Hawaiian Affairs.

Your Committee received written comments in opposition to this measure from one individual.

One individual submitted written comments on this measure.

Your Committee finds that requiring that one member of the University of Hawaii Board of Regents possess experience in Native Hawaiian traditions and customs will help to preserve the cultural and environmental integrity of the lands administered by the University of Hawaii.

Your Committee has amended this measure by:

- (1) Clarifying the language regarding appointment and confirmation of University of Hawaii Board of Regents members so that it mirrors the language in Article X, section 6, of the Hawaii State Constitution; and
- (2) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2319, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2319, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 10. Noes, none. Excused, 1 (Shimabukuro).

SCRep. 2674 Ways and Means on S.B. No. 2069

The purpose and intent of this measure is to make an appropriation for the research, development, marketing, and conservation of breadfruit.

Your Committee received written comments in support of this measure from the Department of Agriculture; the University of Hawaii System Government Relations Office; the Hawaii County Council; the Ho‘omanapono Political Action Committee; Ho‘omana Pono, LLC; the OCC Legislative Priorities Committee, Democratic Party of Hawai‘i; and eight individuals.

Your Committee found that ‘ulu is a long-lived, easy to grow, productive, nutritious, starchy staple crop that can continue to contribute to environmental, social, and economic health of the State for generations.

Your Committee has amended this measure by:

- (1) Changing the appropriation from \$650,000 to an unspecified amount; and
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2069, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2069, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 9. Noes, none. Excused, 2 (Kahele, Shimabukuro).

SCRep. 2675 Ways and Means on S.B. No. 3104

The purpose and intent of this measure is to reduce the price of prescription drugs.

Specifically, this measure:

- (1) Establishes requirements for pharmacy benefit managers and maximum allowable cost pricing, including the ability of pharmacies to receive comprehensive maximum allowable cost lists and bring complaints within the purview of the Department of Commerce and Consumer Affairs, rather than the Department of Health;
- (2) Requires pharmacy benefit managers to disclose where an equivalent drug can be obtained at or below the maximum allowable cost in certain situations;
- (3) Clarifies the available penalties for violations of maximum allowable cost requirements; and
- (4) Repeals a requirement that prohibits a contracting pharmacy from disclosing the maximum allowable cost list and related information to any third party.

Your Committee received written comments in support of this measure from Times Pharmacy; Hawaii Pharmacists Association; Shiigi Drug Co. Inc.; The Queen’s Health Systems; Waimanalo Pharmacy Inc.; Northshore Pharmacy, ElixRx Pharmacy; Westside Pharmacy; KTA Super Stores; Ululani Pharmacy; National Community Pharmacists Association; Molokai Drugs, Inc.; Chinatown Pharmacy; Pharmacare Hawaii; Wailea Pharmacy; and forty-six individuals.

Your Committee received written comments on this measure from the Department of Commerce and Consumer Affairs, Pharmaceutical Care Management Association, and Hawaii Medical Service Association.

Your Committee finds that strengthening the ability of pharmacies to receive timely maximum allowable cost lists, establishing a complaints process for violations, and clarifying penalties will encourage transparency among pharmacy benefit managers, while protecting the State’s independent pharmacies and consumers.

Your Committee notes that as this measure moves forward, consideration should be given to the Department of Commerce and Consumer Affairs's request that its budget ceiling be adjusted to cover the fiscal impact of this measure.

Your Committee has amended this measure by:

- (1) Clarifying that, for claims that are reversed and rebilled following an appeal to a pharmacy benefit manager, the pharmacy benefit manager shall pay the appealing contracting pharmacy the difference between:
 - (A) The maximum allowable cost as adjusted by the pharmacy benefit manager after resolution of the appeal; and
 - (B) The maximum allowable cost appealed by the contracting pharmacy;
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (3) Making technical nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3104, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 3104, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 10. Noes, none. Excused, 1 (Shimabukuro).

SCRep. 2676 Ways and Means on S.B. No. 3030

The purpose and intent of this measure is to improve food security and self-sufficiency in the State by establishing a farmer apprentice mentoring program that offers guidance and instruction on a whole farm system approach to agriculture.

Your Committee received written comments in support of this measure from the Department of Agriculture; University of Hawaii System; a County Council member from the County of Hawaii; OCC Legislative Priorities Committee, Democratic Party of Hawaii; Hoomana Pono, LLC; and three individuals.

Your Committee received written comments on this measure from the Department of Labor and Industrial Relations and the Hawaii Farm Bureau Federation.

Your Committee finds that the development of a whole farm system approach to agriculture will lower water usage through the deployment of green manure, compost, and cover crops; reduce crop loss from pest damage; and decrease weed pressure.

Your Committee has amended this measure by:

- (1) Codifying the farmer apprentice mentoring program in Chapter 141, Hawaii Revised Statutes;
- (2) Changing the amount appropriated for the program to an unspecified amount;
- (3) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (4) Making technical nonsubstantive changes for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3030, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 3030, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 9. Noes, none. Excused, 2 (Riviere, Shimabukuro).

SCRep. 2677 Ways and Means on S.B. No. 3031

The purpose and intent of this measure is to clarify and strengthen the organic foods production tax credit.

More specifically, this measure:

- (1) Requires that, in any taxable year where the aggregate cap amount of the tax credit has been exceeded, all taxpayers claiming the tax credit receive a prorated credit amount;
- (2) Repeals the authority of the Board of Agriculture to assess and collect a fee to offset the costs of certifying tax credit claims; and
- (3) Provides that only expenses incurred to apply for, obtain, and maintain organic certification from the United States Department of Agriculture, pursuant to the Organic Foods Production Act, may be used to claim the tax credit.

Your Committee received written comments in support of this measure from the Department of Agriculture, Hawaii Farm Bureau Federation, OCC Legislative Priorities Committee, Democratic Party of Hawaii, and two individuals.

Your Committee received written comments on this measure from the Department of Taxation.

Your Committee finds that the organic foods production tax credit, codified as section 235-110.94, Hawaii Revised Statutes, was established to assist organic farmers by offsetting the costs to cultivate organically produced agricultural products. Your Committee also finds that obtaining and maintaining organic certification from the United States Department of Agriculture is a costly endeavor for small farmers.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure;
- (2) Applying the measure to unspecified taxable years; and
- (3) Deleting the unnecessary repeal date.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3031, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 3031, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 9. Noes, none. Excused, 2 (Riviere, Shimabukuro).

SCRep. 2678 Ways and Means on S.B. No. 2894

The purpose and intent of this measure is to decrease the State's dependence on imported food.

More specifically, this measure:

- (1) Requires the Department of Agriculture, in coordination with the Agribusiness Development Corporation and the University of Hawaii College of Tropical Agriculture and Human Resources, to conduct crop performance testing trials of certain food crops on state agricultural land;
- (2) Requires the Department to submit a report of its findings and recommendations to the legislature no later than twenty days prior to the convening of the regular session of 2020; and
- (3) Appropriates moneys to the Department to perform the testing trials.

Your Committee received written comments in support of this measure from the Department of Agriculture; the Agribusiness Development Corporation; the University of Hawaii System; Ulupono Initiative; the Hawaii Farm Bureau Federation; OCC Legislative Priorities Committee, Democratic Party of Hawaii; and two individuals.

Your Committee finds that increasing food production in the State would mean less food would need to be imported into the State and would help to achieve self-sufficiency and sustainability as well as create jobs. An important first step in increasing the amount of food produced in the State is to identify the types of food crops that are suitable to be grown in the State.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (2) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2894, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2894, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 10. Noes, none. Excused, 1 (Shimabukuro).

SCRep. 2679 Ways and Means on S.B. No. 2494

The purpose and intent of this measure is to strengthen regulatory oversight of elevator mechanics.

Specifically, the measure:

- (1) Requires licensing examinations, license renewals, and continuing education;
- (2) Defines the scope of work of elevator mechanics;
- (3) Recognizes exemptions from licensure;
- (4) Prohibits remote interactions of a conveyance;
- (5) Adds the completion of an apprenticeship program and increases the length of supervised training as requirements for licensure;
- (6) Authorizes temporary permits for apprentice elevator mechanics under certain circumstances; and
- (7) Clarifies and updates other areas of the elevator mechanics licensing law.

Your Committee received written comments in support of this measure from the Elevator Mechanics Licensing Board.

Your Committee received written comments in opposition to this measure from KONE Inc.; the National Elevator Industry, Inc.; Otis Elevator Company; Schindler Elevator Corporation; and thyssenkrupp Elevator Corporation.

Your Committee finds that elevator technology has advanced exponentially in the years since the elevator mechanics licensing law was last updated. Your Committee believes this measure is necessary to ensure that elevator mechanics keep pace with the current technology.

Your Committee has amended this measure by:

- (1) Clarifying that the scope of work of an elevator mechanic pertains to work performed on a conveyance;

- (2) Clarifying the definition of "remote interaction" to refer to actions or interactions within a building or complex in which a conveyance is located;
- (3) Clarifying that the elevator mechanic apprenticeship program is registered with the State Apprenticeship Council; and
- (4) Making technical nonsubstantive changes for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2494, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2494, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 9. Noes, none. Excused, 2 (Inouye, Wakai).

SCRep. 2680 Ways and Means on S.B. No. 3058

The purpose and intent of this measure is to promote the revitalization and redevelopment of certain public lands that have become dilapidated, obsolete, or deteriorated over time.

Specifically, this measure:

- (1) Authorizes the Legislature to designate redevelopment districts to provide incentives for revitalization and redevelopment of those areas;
- (2) Establishes requirements for each designated district to have a planning committee and staff to coordinate and drive the redevelopment of the designated district;
- (3) Designates the public lands on the Waiiaka peninsula on the island of Hawaii as a redevelopment district;
- (4) Establishes the Waiiaka Peninsula Redevelopment District Planning Committee; and
- (5) Establishes the Waiiaka Peninsula Redevelopment District revolving fund.

Your Committee received written comments in support of this measure from a Hawaii County Council member, the Hawaii Association of REALTORS, McCully Works, and one individual.

Your Committee received written comments in opposition to this measure from Hawaii's Thousand Friends, the League of Women Voters of Hawaii, and eleven individuals.

The Department of Budget and Finance and the Department of Land and Natural Resources submitted written comments on this measure.

Your Committee finds that pursuant to Chapter 171, Hawaii Revised Statutes, the Board of Land and Natural Resources has the authority to issue leases for the use of certain state lands for a maximum term of sixty-five years. Your Committee further finds that during the last ten to fifteen years of these leases, tenants typically do not invest in those properties because their leases will expire. This causes the applicable areas to become dilapidated and obsolete. This measure will help to address the deteriorated nature of those properties by establishing committees to drive the redevelopment and revitalization of those areas.

Your Committee has amended this measure by:

- (1) Clarifying that each member of a district planning committee shall be a resident of the State and possess requisite knowledge, experience, or expertise;
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (3) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3058, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 3058, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 10; Ayes with Reservations (Riviere). Noes, none. Excused, 1 (Shimabukuro).

SCRep. 2681 Ways and Means on S.B. No. 2662

The purpose and intent of this measure is to codify the State's commitment to conservation and sustainability by codifying in the Hawaii Revised Statutes the United Nations Sustainable Development Goal to eliminate poverty.

Your Committee received written comments in support of this measure from the Department of Agriculture; Department of Human Services; Oahu Economic Development Board; and the OCC Legislative Priorities Committee, Democratic Party of Hawai'i.

Your Committee received written comments on this measure from the Office of Planning.

Your Committee finds that in order for Hawaii to continue to serve as an example for the rest of the world in setting policies on sustainability and to serve as a global leader on issues of conservation and sustainability, it is essential that the State demonstrate its full commitment to its own policies and goals as well as the goals set on the international stage at United Nations conferences and summits on sustainability, including the United Nations Sustainable Development Goal to end poverty.

Your Committee has amended this measure by making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2662, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2662, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 10. Noes, none. Excused, 1 (Shimabukuro).

SCRep. 2682 Ways and Means on S.B. No. 2913

The purpose and intent of this measure is to require increased procurement training for procurement officers employed by any department.

Your Committee received written comments in support of this measure from the State Procurement Office.

Your Committee finds that employees in the State's procurement and contracting workforce need proper training and education in the state procurement code and procurement procedures. Your Committee therefore believes that all departmental employees authorized to procure or contract should undergo mandatory procurement training to ensure their proficiency at making purchases on behalf of a public agency.

Your Committee has amended this measure by:

- (1) Changing the appropriation to update training modules and implement procurement training from \$100,000 to an unspecified amount;
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (3) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2913, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2913, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 10. Noes, none. Excused, 1 (Shimabukuro).

SCRep. 2683 Ways and Means on S.B. No. 2817

The purpose and intent of this measure is to authorize the Crime Victim Compensation Commission to order the payment of compensation for mental health services in certain cases.

Specifically, the measure authorizes payment for mental health services:

- (1) In cases involving death of a victim, to the victim's surviving relatives; and
- (2) In cases involving abuse of a family or household members, to a child witness.

Your Committee received written comments in support of this measure from the Sex Abuse Treatment Center; OCC Legislative Priorities Committee, Democratic Party of Hawaii; and two concerned individuals.

Your Committee finds that this measure will allow the Crime Victim Compensation Commission to provide compensation for mental health counseling to certain individuals who could benefit from that counseling.

Your Committee has amended this measure by making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2817, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2817, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 9. Noes, none. Excused, 2 (Kahele, Shimabukuro).

SCRep. 2684 Ways and Means on S.B. No. 2334

The purpose and intent of this measure is to require that certain state and county plans account for climate change.

Specially, this measure requires the:

- (1) State and counties to consider hazards caused by climate change, including the findings of the Hawaii Sea Level Rise Vulnerability and Adaptation Report, in their multi-hazard mitigation plans;
- (2) State and counties to develop and establish comprehensive frameworks in pre-disaster planning and post-disaster recovery that address adaptation strategies to sea level rise;
- (3) State and counties to include modeling that anticipates sea level rise and floodplains in terms of a hundred-year coastal flood benchmark in floodplain mapping; and
- (4) Counties to participate in the community rating system developed by the national flood insurance program.

Your Committee received written comments in support of this measure from the Office of Planning; the Office of Hawaiian Affairs; the University of Hawaii; the Sierra Club of Hawaii; OCC Legislative Priorities; the City and County of Honolulu Office of Climate Change, Sustainability and Resiliency; Coastal Planners, LLC; and four individuals.

Your Committee finds that recent studies predict that sea levels will rise by 3.2 feet as early as the year 2060 and will continue to rise for centuries. Requiring the State and counties to incorporate higher sea levels and climate change hazards in plans will help to reduce property damage caused by climate change and promote the efficient use of resources when rebuilding areas damaged by natural disasters.

Your Committee has amended this measure by:

- (1) Requiring the State and counties to include state functional plans, county general plans, and community development plans in pre-disaster planning and post-disaster recovery strategies that address sea level rise adaptation strategies;
- (2) Requiring that floodplain mapping incorporate information from the Hawaii Sea Level Rise Vulnerability and Adaptation Report; and
- (3) Making technical nonsubstantive amendments for purposes of style, clarity, and consistency.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2334, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2334, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 9. Noes, none. Excused, 2 (Inouye, Wakai).

SCRep. 2685 Ways and Means on S.B. No. 2604

The purpose and intent of this measure is to develop a more efficient system for the Legislature to track and review reports that the various government agencies are required or requested to submit.

More specifically, this measure requires the Legislative Reference Bureau to develop a spreadsheet tracking the status and content of all reports required or requested to be submitted to the Legislature and to inform the Legislature of any of these reports that are not timely submitted.

Your Committee received written comments on this measure from the Legislative Reference Bureau.

Your Committee finds that the ever-growing number of reports required to be submitted to the Legislature as required by law or requested by legislative resolution necessitates a more efficient system to track which of these reports are not being timely submitted, or are not being submitted at all. Your Committee also finds that under present circumstances, the Legislative Reference Bureau may not be able to include in the spreadsheet all of the information required in this measure as:

- (1) The reports may be funded by amounts that are not always expressly identified or are sometimes funded by commingled moneys from different program IDs within an agency's operating budget; and
- (2) The Bureau may be unable to ascertain the date that the Legislature received the report as neither house of the Legislature is required under law to inform the Bureau of this receipt date.

Accordingly, your Committee has amended this measure by:

- (1) Narrowing the scope of requested reports to be included in the Legislative Reference Bureau's tracking system to those requested by legislative concurrent resolution;
- (2) Requiring agencies that submit reports to conspicuously include in their reports:
 - (A) The law (or laws) that required or concurrent resolution that requested the report;
 - (B) The amount of money appropriated for the report, or for a study that was the basis for the report; and
 - (C) The date that the Legislature requested that the report be submitted to it for its review;
- (3) Amending chapter 21, Hawaii Revised Statutes, to require the appropriate Senate and House of Representative recipient of a required or requested report to inform the Legislative Reference Bureau that it has received the required or requested report and provide the date upon which it received the report; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2604, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2604, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 10. Noes, none. Excused, 1 (Shimabukuro).

SCRep. 2686 Ways and Means on S.B. No. 2914

The purpose and intent of this measure is to require any governmental body that enters into a contract that is exempt from the State Procurement Code pursuant to section 103D-102(b), Hawaii Revised Statutes, to report that contract to the State Procurement Office and Legislature.

Your Committee received written comments in support of this measure from the State Procurement Office.

Your Committee recognizes that under existing law, certain types of contracts by governmental bodies are exempt from the requirements of the State Procurement Code. Your Committee also recognizes that to ensure accountability and transparency, the Legislature and the State Procurement Office should be made aware of the contracts that utilize this exemption.

Accordingly, your Committee has amended this measure by:

- (1) Changing the effective date to January 1, 2050, to facilitate further discussion on the measure; and
- (2) Making a technical nonsubstantive change for the purpose of consistency.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2914, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2914, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 10. Noes, none. Excused, 1 (Shimabukuro).

SCRep. 2687 Ways and Means on S.B. No. 2620

The purpose and intent of this measure is to reduce government waste and increase government efficiency by repealing the \$10,000 maximum limit on a cash or protest bond that must be posted for a procurement award protest.

Your Committee received written comments in support of this measure from the Department of Accounting and General Services and State Procurement Office.

Your Committee finds that the current maximum limit of \$10,000 for a cash or protest bond is too low, and therefore does not deter persons who might delay a public works project by submitting an unnecessary bid protest.

Your Committee has amended this measure by making a technical nonsubstantive change for the purpose of consistency.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2620, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2620, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 10. Noes, none. Excused, 1 (Shimabukuro).

SCRep. 2688 Ways and Means on S.B. No. 2114

The purpose and intent of this measure is to appropriate funds for the administration of the Glass Advance Disposal Fee Program.

Specifically, this measure appropriates \$169,466 in general funds for:

- (1) One full time equivalent environmental health specialist IV position; and
- (2) One full time equivalent planner IV position,

to administer the Glass Advance Disposal Fee Program.

Your Committee received written comments in support of this measure from the Department of Health; OCC Legislative Priorities Committee, Democratic Party of Hawaii; and three individuals.

Your Committee finds that two staff positions will assist the Department of Health to properly collect fees owed by glass container importers to the State, and to expend those revenues to maximize the amount of glass waste that is recycled.

Your Committee has amended this measure by:

- (1) Changing the amounts appropriated and allocated to unspecified amounts; and
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2114, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2114, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 10. Noes, none. Excused, 1 (Shimabukuro).

SCRep. 2689 Ways and Means on S.B. No. 2563

The purpose and intent of this measure is to assist the K-12 Agriculture Workforce Development Pipeline Initiative in conducting agricultural self-sufficiency training on all islands for teachers, school administrators, and students.

More specifically, this measure appropriates moneys to the Department of Labor and Industrial Relations for the continued work of the Initiative.

Your Committee received written comments in support of this measure from the Department of Education; the Department of Agriculture; the Department of Labor and Industrial Relations; the Hawaii State Teachers Association; the Land Use Research Foundation of Hawaii; Ho'omana Pono, LLC; the Hawaii Farm Bureau Federation; Hawaii Crop Improvement Association; Maui County Farm Bureau; and eighteen concerned individuals.

Your Committee finds that the K-12 Agriculture Workforce Development Pipeline Initiative was established by Act 229, Session Laws of Hawaii 2016, to conduct agricultural self-sufficiency training for teachers and school administrators on all islands. Your Committee also finds that supporting the Initiative's training of teachers, students, and school administrators is in the best interest of the State as it promotes the perpetuation of the State's agricultural industry, by providing knowledge of and inspiring interest in agriculture and educating youth about the importance of sustainability and self-sufficiency.

Your Committee has amended this measure by:

- (1) Changing the appropriation from \$200,000 to an unspecified amount; and
- (2) Changing the effective date to July 1, 2050,

to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2563, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2563, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 10. Noes, none. Excused, 1 (Shimabukuro).

SCRep. 2690 Ways and Means on S.B. No. 2125

The purpose and intent of this measure is to ensure that the Department of Agriculture's pesticide subsidy program is able to function properly during fiscal year 2021-2022, by extending its program manager position authorization until June 30, 2022.

More specifically, this measure extends the sunset date for the pesticide subsidy program manager position, and the civil service exemption for the manager position, from June 30, 2021, to June 30, 2022, so that the program manager will be available to process pesticide subsidy grant requests submitted during the final year of the grant program.

Your Committee received written comments in support of this measure from the Department of Agriculture, the Office of the Mayor of the County of Hawaii, a member of the Hawaii County Council, the Land Use Research Foundation of Hawaii, the Hawaii Farm Bureau Federation, the Big Island Invasive Species Committee, the Hawaii Coffee Association, the OCC Legislative Priorities Committee of the Democratic Party of Hawaii, and one concerned individual.

Your Committee received written comments in opposition to this measure from one concerned individual.

Your Committee finds that although the sunset date of the pesticide subsidy program is June 30, 2021, the position of pesticide subsidy program manager will remain necessary for an additional year to process applications for subsidies of costs incurred in the final year of the program.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (2) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2125, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2125, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 10. Noes, none. Excused, 1 (Shimabukuro).

SCRep. 2691 Ways and Means on S.B. No. 2078

The purpose and intent of this measure is to appropriate funds to the Department of Land and Natural Resources to conduct, in collaboration with the University of Hawaii College of Tropical Agriculture and Human Resources, a two-year breeding ecology study and two-year foraging ecology study on the pueo on Oahu.

Your Committee received written comments in support of this measure from the Department of Land and Natural Resources; the University of Hawai'i College of Tropical Agriculture and Human Resources; Na Pueo; Dole Food Co. Hawaii; Hawaii Audubon Society; Ho'omanapono Political Action Committee; Ho'omanapono, LLC; O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i; the Kahoolawe Island Reserve Commission; Kanehili Cultural Hui; and twenty-seven individuals.

Your Committee received written comments in opposition to this measure from one individual.

Your Committee received written comments on this measure from the Office of Hawaiian Affairs.

Your Committee finds that the pueo, or Hawaiian short-eared owl, is an endemic subspecies of the short-eared owl that has a special place in Hawaii's culture. Because of the cultural significance and potential ecological benefits of the pueo, it is important to conduct comprehensive studies on the pueo in order to allow researchers to better identify preferred breeding habitats and ensure the continued survivability of the pueo in the State.

Your Committee has amended this measure by:

- (1) Changing the appropriation from \$330,063 to an unspecified amount;
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (3) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2078, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2078, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 9. Noes, none. Excused, 2 (Kahele, Shimabukuro).

SCRep. 2692 Ways and Means on S.B. No. 2387

The purpose and intent of this measure is to enhance student health and expand the relationship between public schools and the agricultural community.

Specifically, this measure:

- (1) Requires the Department of Education to establish a farm to school program;
- (2) Requires the farm to school coordinator of the Department of Education to collaborate with the Department of Agriculture on any farm to school program established within the Department of Education; and
- (3) Appropriates funds for two full-time equivalent farm to school staff positions within the Department of Education.

Your Committee received written comments in support of this measure from the Office of the Lieutenant Governor; Department of Agriculture; Department of Education; Department of Health; State Public Charter School Commission; Hawaii Public Health Institute; Hawaii State Teachers Association; Ulupono Initiative; The Kohala Center; Oahu Farm to School Network; Hawaii Farm Bureau Federation; Kamehameha Schools; Malaai; The Culinary Garden of Waimea Middle School; Blue Zones Project; Hawaii Children's Action Network; Hawaii Medical Service Association; American Heart Association; Kokua Hawaii Foundation; Maui School Garden Network; OCC Legislative Priorities Committee, Democratic Party of Hawaii; Pioneering Healthier Communities of Honolulu; Beyond Green Sustainable Food Partners; Grow Some Good; Ka Ohana O Na Pua; HFUU; Hawaii Primary Care Association; Hawaii Pacific Health; Local Food Coalition; and fifty-two individuals.

Your Committee finds that farm to school programs benefit schools by providing students with an agricultural education, improving student attendance, academic achievement, and behavior, and increasing opportunities for place-based experiential learning, physical activity, and active participation.

Your Committee has amended this measure by:

- (1) Changing the amount appropriated for farm to school staff positions from \$114,336 to an unspecified sum;
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (3) Making technical nonsubstantive changes for the purpose of clarity.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2387, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2387, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 10. Noes, none. Excused, 1 (Shimabukuro).

SCRep. 2693 Ways and Means on S.B. No. 318

The purpose and intent of this measure is to authorize home-schooled students to participate in the extracurricular activities of the public school that the child would have otherwise attended.

Your Committee received testimony in support of this measure from OCC Legislative Priorities and one individual. Your Committee received comments on this measure from the Department of Education and one individual.

Your Committee finds that the measure, as received by your Committee, would require a home-schooled student who wishes to participate in an extracurricular activity conducted by a public school to:

- (1) Meet certain health requirements prior to participating in the extracurricular activity;
- (2) Meet participation and restriction requirements, including maintaining grade point averages and paying appropriate fees;
- (3) Submit a birth certificate and proof of residency; and
- (4) Be registered with the school as a home-schooled student at the beginning of the school year and at least twelve months prior to participating in an extracurricular activity.

Your Committee finds that requiring home-schooled students to enroll at a school for twelve months prior to participating in an extracurricular activity would be unduly burdensome since many families who choose to home school their children do not follow a public school calendar. In addition, an early enrollment requirement would adversely impact dependents of military members since those individuals may transfer to Hawaii during the school year. Your Committee further finds that the expenses of allowing home-schooled students to participate in school extracurricular activities could be a financial burden for schools. Requiring the Department of Education to reimburse schools for these expenses will help to ensure that the amount of funds allocated to each school based upon the weighted student formula is not affected.

Although your Committee supports the participation by home-schooled students in a school's extracurricular activities, your Committee believes that, if more students want to participate in an extracurricular activity than is allowed, prioritizing the participation of school students over home-schooled students would best serve the needs of the relevant school district. To ensure a uniform and fair prioritization process, your Committee believes that a task force should be established by the Department of Education to determine precisely how the prioritization would be implemented.

Your Committee has amended this measure by:

- (1) Prohibiting home-schooled students from obtaining a geographic exception to participate in extracurricular activities in a public school the child would not otherwise have attended;
- (2) Deleting the requirement that the home-schooled student be enrolled at the school at least twelve months prior to participating in an extracurricular activity;
- (3) Authorizing dependents of a person in military service who moved to the school district within the past twelve months to be enrolled as late as the date of the extracurricular activity;
- (4) Exempting enrolled home-schooled students from the school's attendance and similar records;
- (5) Specifying that if the number of students who desire to participate in an extracurricular activity exceeds the number of students who may participate, priority shall be given to students attending the school over home-schooled students;
- (6) Requiring the Department of Education to reimburse the school for additional expenses associated with home-schooled students' participation in extracurricular activities;
- (7) Specifying that the adoption of rules by the Department of Education shall comply with chapter 91, Hawaii Revised Statutes;
- (8) Requiring the Department of Education to establish a task force to determine the criteria to be used in prioritizing school students over home-schooled students who want to participate in the same extracurricular activity;
- (9) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (10) Making technical nonsubstantive amendments for purposes of style, clarity, and consistency.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 318, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 318, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 8. Noes, none. Excused, 3 (Kidani, Riviere, Shimabukuro).

SCRep. 2694 Ways and Means on S.B. No. 2717

The purpose and intent of this measure is to reduce the number of cesspools on Hawaiian Home Lands.

More specifically, this measure:

- (1) Establishes a grant program and special fund to assist lessees on Hawaiian Home Lands with cesspool upgrade, conversion, or connection costs;
- (2) Establishes that a recipient of a cesspool upgrade grant shall not be eligible for the cesspool upgrade, conversion, or connection income tax credit; and
- (3) Appropriates moneys for the grant program.

Your Committee received written comments in support of this measure from the Department of Hawaiian Home Lands; Department of Health; OCC Legislative Priorities Committee, Democratic Party of Hawaii; and one individual.

Your Committee received written comments on this measure from the Department of Budget and Finance and the Department of Taxation.

Your Committee finds that section 342D-72, Hawaii Revised Statutes, requires that every cesspool in the State, other than those exempted by the Director of Health, be either upgraded or converted to a septic system or aerobic treatment unit system or connected to a sewerage system prior to January 1, 2050. This measure is intended to provide financial assistance to lessees on Hawaiian Home Lands who might not otherwise be able to afford expensive cesspool upgrade, conversion, or connection costs.

Your Committee has amended this measure by:

- (1) Changing the appropriations to unspecified amounts;
- (2) Clarifying that the Department of Hawaiian Home Lands may adopt rules to administer the grant program;
- (3) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (4) Making technical nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2717, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2717, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 10. Noes, none. Excused, 1 (Shimabukuro).

SCRep. 2695 Ways and Means on S.B. No. 2663

The purpose and intent of this measure is to codify the State's commitment to conservation and sustainability by including the zero hunger goal of the United Nations Sustainable Development Goals and indicators, with references to existing state sustainability programs, in the Hawaii Revised Statutes.

Your Committee received written comments in support of this measure from the Department of Human Services, Department of Agriculture, Oahu Economic Development Board, and OCC Legislative Priorities Committee, Democratic Party of Hawaii.

Your Committee received comments on this measure from the Office of Planning.

Your Committee finds that in order for Hawaii to continue to serve as an example for the rest of the world in setting policies on sustainability and to serve as a global leader on issues of conservation and sustainability, it is essential that the State demonstrate its full commitment to its own policies and goals as well as the goals set on the international stage at United Nations conferences and summits on sustainability, including the United Nations Sustainable Development Goal of zero hunger.

Your Committee has amended this measure by making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2663, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2663, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 10. Noes, none. Excused, 1 (Shimabukuro).

SCRep. 2696 Ways and Means on S.B. No. 2654

The purpose and intent of this measure is to protect public health by decreasing the use of electronic smoking devices.

Specifically, this measure:

- (1) Prohibits the:
 - (A) Shipment of tobacco products to anyone other than a licensee; and
 - (B) Transport of tobacco products ordered through remote sale to anyone other than a licensee;
- (2) Includes e-liquid within the definition of "tobacco products";
- (3) Increases the license fee for persons engaged as a wholesaler or dealer of cigarettes and tobacco products; and
- (4) Increases the retail tobacco permit fee for retailers engaged in the retail sale of cigarettes and tobacco products.

Your Committee received written comments in support of this measure from the Department of Health, a member of the Kauai County Council, American Heart Association, Hawaii Public Health Association, Blue Zones Project-Koolaupoko, Keiki Injury Prevention Coalition, Hawaii Public Health Institute, Pioneering Healthier Communities of Honolulu, and seventy-six individuals.

Your Committee received written comments in opposition to this measure from Hawaii Smokers Alliance, PCG Enterprises LLC, Black Lava Vape, Smokeless Hawaii, VOLCANO Fine Electronic Cigarettes, Cigar Rights of America, and twenty-one individuals.

Your Committee received written comments on this measure from the Department of Taxation and Department of the Attorney General.

Your Committee finds that the use of electronic cigarettes among high school students has increased nine hundred percent from 2011 to 2015, making them now the most commonly used tobacco product among youth.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (2) Making technical nonsubstantive changes for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2654, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2654, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 10. Noes, none. Excused, 1 (Shimabukuro).

SCRep. 2697 Ways and Means on S.B. No. 2519

The purpose and intent of this measure is to help divert certain types of solid waste from the waste stream and allow those materials to be reused.

Specifically, this measure authorizes the Agribusiness Development Corporation to:

- (1) Contract with private businesses to remove municipal solid waste, glass, and food and green waste from the waste stream so they may be used in other business sectors; and
- (2) Adopt rules pursuant to Chapter 91, Hawaii Revised Statutes, regarding the solid waste diversion.

Your Committee received written comments in support of this measure from the Department of Agriculture; Agribusiness Development Corporation; Hawaii Cattlemen's Council; and OCC Legislative Priorities Committee, Democratic Party of Hawaii.

Your Committee received written comments in opposition to this measure from the Department of Environmental Services of the City and County of Honolulu.

Your Committee finds that encouraging innovative processes for recycling will both help to reduce the impact of waste on the environment and support industry sectors, such as construction and energy, because recycled materials have many beneficial uses.

Your Committee has amended this measure by specifying that the new section to be added to Chapter 163D, Hawaii Revised Statutes, shall be inserted into part I of that Chapter.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2519, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2519, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 9; Ayes with Reservations (Harimoto, Riviere). Noes, none. Excused, 2 (Inouye, Wakai).*

SCRep. 2698 Ways and Means on S.B. No. 2488

The purpose and intent of this measure is to establish a working group to explore options and make recommendations relating to health insurance reimbursement to qualifying patients for medical cannabis costs.

Your Committee received written comments in support of this measure from Drug Policy Forum of Hawaii; OCC Legislative Priorities Committee, Democratic Party of Hawaii; and one individual.

Your Committee recognizes that Act 230, Session Laws of Hawaii 2016, established a legislative oversight group, which is responsible for developing and recommending legislation to improve the state medical cannabis dispensary system to ensure that qualifying patients have safe and legal access to medical cannabis. Your Committee finds that the establishment of a separate, more narrowly-focused working group to address the complex issues relating to health insurance reimbursement for medical cannabis may be warranted.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (2) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2488, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2488, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 10. Noes, none. Excused, 1 (Shimabukuro).

SCRep. 2699 Ways and Means on S.B. No. 2399

The purpose and intent of this measure is to restructure the Hawaii Invasive Species Council as the Hawaii Invasive Species Authority.

Specifically, this measure:

- (1) Establishes the Hawaii Invasive Species Authority to coordinate and address the control, eradication, and prevention of the introduction of invasive species;
- (2) Repeals the Invasive Species Council; and
- (3) Appropriates funds for the Hawaii Invasive Species Authority and interagency products and research related to invasive species.

Your Committee received written comments in support of this measure from the Department of Land and Natural Resources, the Department of Agriculture, a member of the Hawaii County Council, Big Island Invasive Species Committee, Ka Ohana O Na Pua, Local Food Coalition, Hawaii Farm Bureau Federation, Sierra Club of Hawaii, OCC Legislative Priorities Committee of the Democratic Party of Hawaii, and eleven individuals.

Your Committee finds that establishing the Hawaii Invasive Species Authority is one of the key goals of the Hawaii Interagency Biosecurity Plan. Your Committee further finds that under this measure, the Hawaii Invasive Species Authority will be the entity responsible for organizing the State's efforts for the prevention of the introduction of, early detection of, rapid response to, and control of invasive species in the State.

Your Committee has amended this measure by:

- (1) Adding language transferring the control of personnel, records, and other items of the Hawaii Invasive Species Council to the Hawaii Invasive Species Authority;
- (2) Changing the amounts appropriated to unspecified amounts;
- (3) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (4) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2399, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2399, S.D. 2.

* Record of votes amended pursuant to the order of the Chair on March 6, 2018 (p. 289).

Signed by the Chair on behalf of the Committee.
Ayes, 10. Noes, none. Excused, 1 (Shimabukuro).

SCRep. 2700 Ways and Means on S.B. No. 2891

The purpose and intent of this measure is to introduce telehealth service to health care providers and patients in the State by appropriating moneys to fund a telehealth pilot project.

Your Committee received written comments in support of this measure from the Department of Health, the University of Hawaii System, the Mayor's Office of the County of Hawaii, the Hawaii Chapter of the American Physical Therapy Association, the Hawaii Substance Abuse Coalition, the Hawaii Primary Care Association, the Wahiawa Center for Community Health, the OCC Legislative Priorities Committee of the Democratic Party of Hawaii, and two concerned individuals.

Your Committee received written comments on this measure from the State Procurement Office.

Your Committee finds that a telehealth pilot project would increase telehealth adoption rates in the State by increasing confidence in telehealth services among health care providers and patients.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (2) Making technical nonsubstantive changes for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2891, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2891, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 10. Noes, none. Excused, 1 (Shimabukuro).

SCRep. 2701 Ways and Means on S.B. No. 2511

The purpose and intent of this measure is to establish two permanent full-time equivalent positions within the Office of Language Access to assist state agencies and state-funded agencies in implementing the requirements of Hawaii's language access law.

Your Committee received written comments in support of this measure from the Hawaii State Judiciary; Office of Language Access; Hawaii Civil Rights Commission; Filipino American Citizens League; Filipina Advocacy Network; Hawaiian Civic Club of Honolulu; Hawaii TESOL; Hawaii Friends of Civil Rights; Ho'omana Pono, LLC; OCC Legislative Priorities Committee, Democratic Party of Hawaii; Volunteer Legal Services Hawaii; and five concerned individuals.

Your Committee finds that the Office of Language Access is understaffed and, as a result, has been unable to fully perform its statutorily mandated compliance and technical assistance functions. Accordingly, many state agencies have been unable to implement important aspects of their language access plans, and many individuals limited in English proficiency in Hawaii continue to lack meaningful access to government services, programs, and activities.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (2) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2511, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2511, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 10. Noes, none. Excused, 1 (Shimabukuro).

SCRep. 2702 Ways and Means on S.B. No. 2977

The purpose and intent of this measure is to require the Hawaii Climate Change Mitigation and Adaptation Commission to develop reports assessing the impact of the tourism industry on climate change.

Your Committee received written comments in support of this measure from OCC Legislative Priorities Committee, Democratic Party of Hawaii, and one concerned individual.

Your Committee received written comments on this measure from the Department of Land and Natural Resources and the Office of Planning.

Your Committee finds that about one-third of greenhouse gas emissions in the State are caused by aviation and marine transportation that is related to the tourism industry. Your Committee believes that the State should prioritize the development of "green" sustainable industries and reduce over-dependence on the tourism industry. Knowledge of the impacts that tourism makes on climate change may provide an added motivation to diversify the State's primary industries.

Your Committee notes that the Office of Planning has estimated that the cost of conducting and publishing the report envisioned by this measure will be approximately \$400,000.

Your Committee has amended this measure by:

- (1) Making an unspecified appropriation for the Commission to develop reports assessing the impact of the tourism industry on climate change;
- (2) Requiring the Commission to reevaluate and update its report by July 1, 2022, instead of every five years;
- (3) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (4) Making a technical nonsubstantive change for the purpose of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2977, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2977, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 9. Noes, none. Excused, 2 (Kahele, Shimabukuro).

SCRep. 2703 Ways and Means on S.B. No. 2523

The purpose and intent of this measure is to develop regional economic plans for each county for the purposes of job creation in rural and urban areas.

Specifically, this measure requires the Department of Business, Economic Development, and Tourism to:

- (1) Develop regional economic plans for each county to provide jobs in rural and urban areas; and
- (2) Work with the Department of Education and the University of Hawaii to develop educational pathways to meet specific industry needs.

Your Committee received written comments in support of this measure from the Department of Education, University of Hawaii System, and HawaiiKidsCAN.

Your Committee received written comments on this measure from the Department of Business, Economic Development, and Tourism.

Your Committee finds that each region of the State requires a different economic strategy and a specific economic plan. By requiring the Department of Business, Economic Development, and Tourism to assess the needs of each region and work with the Department of Education and the University of Hawaii, the State can help to develop Hawaii's workforce and meet the needs of Hawaii's industries.

Your Committee notes that the Department of Business, Economic Development, and Tourism has requested an appropriation of \$500,000 to complete the studies required by this measure, as long as the appropriation does not replace or adversely impact the administration's priorities.

Your Committee has amended this measure by making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2523, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2523, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 11. Noes, none. Excused, none.

SCRep. 2704 Ways and Means on S.B. No. 2333

The purpose and intent of this measure is to establish the Hawaii Retirement Savings Board and the Hawaii Retirement Savings Plan for private sector employees.

More specifically, this measure:

- (1) Establishes the Hawaii Retirement Savings Board, the Hawaii Retirement Savings Plan, and the Hawaii Retirement Savings Plan Administrative Fund;
- (2) Requires the Board to:
 - (A) Conduct a study on the feasibility of the Plan, the results of which shall determine whether the Plan will be established; and
 - (B) Submit its findings and recommendations to the Legislature in a preliminary report and a final report;
- (3) Makes appropriations to support the Board; and
- (4) Makes an appropriation to support the feasibility study.

Your Committee received written comments in support of this measure from the Hawaii Appleseed Center for Law & Economic Justice; Nisei Building Maintenance Company, Inc.; Retail Merchants of Hawaii; and five concerned individuals.

Your Committee received written comments in opposition to this measure from NAIFA Hawaii and one concerned individual.

Your Committee received written comments on this measure from the Department of Budget and Finance, and the Employees' Retirement System.

Your Committee finds that although it could be beneficial to establish the Hawaii Retirement Savings Board and the Hawaii Retirement Savings Plan, the establishment of the Board and the Plan should be determined by a preceding feasibility study.

Your Committee has amended this measure by:

- (1) Requiring the Department of Budget and Finance, instead of the Board, to:
 - (A) Conduct the study on the feasibility of implementing the Hawaii Retirement Savings Plan;
 - (B) Submit a preliminary report of its findings and proposals to the Legislature no later than twenty days prior to the convening of the Regular Session of 2019; and
 - (C) Submit a final report of its findings and proposals to the Legislature no later than twenty days prior to the convening of the Regular Session of 2020;
- (2) Amending section 1 to reflect its amended purpose;
- (3) Reordering the requirements of the feasibility study as section 2 of the measure;
- (4) Reordering the new chapter of the Hawaii Revised Statutes that establishes the Hawaii Retirement Savings Board and the Hawaii Retirement Savings Plan as section 3 of the measure;
- (5) Adding definitions of “employee” and “employer”;
- (6) Clarifying that the Board’s adoption of rules for the general administration of the Plan shall be pursuant to Chapter 91, Hawaii Revised Statutes;
- (7) Clarifying that the Department’s exemption from the requirements of Chapter 91, Hawaii Revised Statutes, in its interim rule-making is limited to the public notice and public hearing requirements of Chapter 91, Hawaii Revised Statutes; and
- (8) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2333, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2333, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 9. Noes, none. Excused, 2 (Galuteria, Shimabukuro).

SCRep. 2705 Ways and Means on S.B. No. 3099

The purpose and intent of this measure is to improve solid waste management within the State.

More specifically, the measure:

- (1) Establishes a plastics recycling grant program to identify Hawaii-based alternatives for the sustainable recycling and reuse of plastic commodities within the State;
- (2) Requires the Department of Health to set benchmarks to reach an eighty-five percent redemption rate by January 1, 2023;
- (3) Increases the refund value for deposit beverage containers from five cents to ten cents; provided that the Department of Health determines that the redemption rate for deposit beverage containers remained below eighty percent for two consecutive calendar years;
- (4) Requires the Department of Health to provide annual reports to the Legislature on redemption rates, progress, and plans regarding the deposit beverage container program; and
- (5) Appropriates funds for:
 - (A) Two positions for the glass advance disposal fee program; and
 - (B) The plastics recycling grant program.

Your Committee received written comments in support of this measure from the Kokua Hawaii Foundation; OCC Legislative Priorities Committee, Democratic Party of Hawaii; Sierra Club of Hawaii; and one individual.

Your Committee received written comments in opposition to this measure from the International Bottled Water Association.

Your Committee received written comments on this measure from the Department of Health.

Your Committee recognizes that the current redemption rate of the deposit beverage container program is at sixty-seven percent, which is near the all-time low of 66.9 percent. Your Committee believes that this measure will help to increase the redemption rate of plastic beverage containers and ensure that fewer empty beverage containers will be deposited in landfills and the ocean.

Your Committee has amended this measure by:

- (1) Changing all calculations of the redemption rate, and related schedules, so that they are determined on a fiscal year basis;
- (2) Changing all appropriation amounts to unspecified amounts;
- (3) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (4) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3099, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 3099, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 10. Noes, none. Excused, 1 (Shimabukuro).

SCRep. 2706 Ways and Means on S.B. No. 3028

The purpose and intent of this measure is to require that certain amounts of child support moneys that are collected by the Department of Human Services for public assistance of a child or children be passed through to the family receiving the public assistance.

The measure also requires the Department of Human Services to disregard passed through child support payments when determining the needs of an applicant for or recipient of public assistance.

Your Committee received written comments in support of this measure from the American Association of University Women, Hawaii; Domestic Violence Action Center; Healthy Mothers Healthy Babies; Applesed Center for Law and Economic Justice; Hawaii State Democratic Women's Caucus; Democratic Party Education Caucus; and three individuals.

The Department of the Attorney General and Department of Human Services submitted written comments on the measure.

Your Committee finds that the additional child support funds to be passed through to families already receiving public assistance, or to families that may need to apply for public assistance in the future, will help to ease the burden of the State's high cost of living on these families.

Your Committee has amended this measure by:

- (1) Making an unspecified appropriation to the Department of the Attorney General for necessary expenses incurred by the Child Support Enforcement Agency in complying with the requirements of the measure;
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (3) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3028, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 3028, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 7. Noes, none. Excused, 4 (English, Galuteria, Kahele, Shimabukuro).

SCRep. 2707 Ways and Means on S.B. No. 2703

The purpose and intent of this measure is to support the development of a small satellite launch system on the island of Hawaii.

More specifically, this measure authorizes the Department of Budget and Finance to issue special purpose revenue bonds to provide financing to assist SpinLaunch, Inc., in the development of an electrically powered, kinetic launch system to transport small satellites into low Earth orbit.

Your Committee received written comments in support of this measure from the Pacific International Space Center for Exploration Systems; CLW Engineering, LLC; three representatives of SpinLaunch, Inc.; Engineering Space; Free Flight Lab; OCC Legislative Priorities Committee, Democratic Party of Hawaii; and one concerned individual.

Your Committee received written comments in opposition to this measure from Aha Moku Advisory Committee, BIFA, and fourteen concerned individuals.

Your Committee received written comments on this measure from the Department of Budget and Finance and one concerned individual.

Your Committee finds that the State's economy may benefit from the development of a small satellite launch system on the island of Hawaii. Your Committee further finds that the construction of an electronically powered, kinetic launch system constitutes a project as defined in part V, chapter 39A, Hawaii Revised Statutes, and the financing thereof is assistance to an industrial enterprise.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure;
- (2) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2703, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2703, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 9; Ayes with Reservations (Harimoto). Noes, none. Excused, 2 (Kahele, Shimabukuro).

SCRep. 2708 (Majority) Ways and Means on S.B. No. 2296

The purpose and intent of this measure is to provide for representation from the Legislature on each metropolitan planning organization policy board.

More specifically, this measure requires that each metropolitan planning organization policy board include at least one member who is both a resident of the applicable metropolitan planning area and a member of each of the following:

- (1) The Senate; and
- (2) The House of Representatives.

Your Committee received written comments in support of this measure from the Department of Transportation and Maui MPO.

Your Committee received written comments in opposition to this measure from one member of the Maui County Council.

Your Committee finds that including representation from the Legislature on each metropolitan planning organization policy board will provide each board with valuable legislative guidance and perspective.

Your Committee has amended this measure by changing the effective date to July 1, 2050, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2296, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2296, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 8; Ayes with Reservations (Riviere). Noes, 1 (Harimoto). Excused, 2 (Kahele, Shimabukuro).

SCRep. 2709 Ways and Means on S.B. No. 2777

The purpose and intent of this measure is to clarify that the Department of Defense may allow the public to use or temporarily rent its facilities for certain specified purposes, provided that the use or rental does not interfere with any military use or result in a financial loss to the Department's operating budget.

More specifically, the measure provides that all net proceeds, as opposed to all moneys, received from the use or rental shall be deposited into the general fund of the State.

Your Committee received written comments in support of this measure from the Department of Defense.

Your Committee finds that allowing the Department of Defense to recoup operating costs associated with facility use and temporary facility rental by the public will enable the Department to provide greater access to its facilities for the benefit of the public.

Your Committee has amended this measure by:

- (1) Restructuring the measure's provisions to, among other things, clarify that the Department of Defense may allow the use or temporary rental of its facilities for the billeting of military personnel in conjunction with sanctioned events, including agency-sponsored conferences or classes, agency-sponsored athletic or recreation programs, government-sponsored public hearings or meetings, or unit-sponsored youth organizations and activities, as well as for public school-sponsored events and qualifying film production enterprise activities;
- (2) Replacing the reference to "eleemosynary (charitable) organizations" with "charitable organization", as defined in section 467B-1, Hawaii Revised Statutes;
- (3) Changing the text of section 121-19, Hawaii Revised Statutes, to correspond to the printed version of the Hawaii Revised Statutes, and amending the Ramseyered text accordingly; and
- (4) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2777, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2777, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 9. Noes, none. Excused, 2 (Kahele, Shimabukuro).

SCRep. 2710 Ways and Means on S.B. No. 2242

The purpose and intent of this measure is to provide grants to public high school students who are applying for technical or workforce training.

More specifically, this measure:

- (1) Appropriates moneys to the Department of Education to establish the Workforce Development Microgrant Program to award grants to public high school students who are applying for technical or workforce training in certain fields;
- (2) Requires that the grants be used to pay for costs associated with the technical or workforce training; and
- (3) Requires the Department of Education to establish written standards and criteria by which the grants shall be awarded.

Your Committee received written comments in support of this measure from the Department of Education, the Hawaii State Teachers Association, the OCC Legislative Priorities Committee of the Democratic Party of Hawaii, and two concerned individuals.

Your Committee recognizes the importance of providing students with technical or workforce training as an alternative to college. Your Committee believes that providing grants to public high school students who are interested in certain career occupations to receive technical or workforce training would better prepare those students to enter the workforce following high school.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (2) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2242, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2242, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 10. Noes, none. Excused, 1 (Shimabukuro).

SCRep. 2711 Ways and Means on S.B. No. 2340

The purpose and intent of this measure is to ensure that certain benefits conferred under the federal Patient Protection and Affordable Care Act of 2010, as amended, are preserved under Hawaii law.

Specifically, this measure requires policies, contracts, plans, or agreements offered by health insurers, mutual benefit societies, and health maintenance organizations to:

- (1) Extend dependent coverage until the child turns twenty-six years of age;
- (2) Prohibiting exclusions for preexisting conditions; and
- (3) Not use gender to discriminate in premium or contribution levels.

Your Committee received written comments in support of this measure from the Department of Commerce and Consumer Affairs, Insurance Division; one Hawaii County Council Member; Hawaii Medical Service Association; AARP Hawaii; ACOG, Hawaii Section; American Association of University Women, Hawaii; Filipina Advocacy Network FAN; Hawaii Children's Action Network; Hawaii Appleseed Center for Law and Economic Justice; Hawaii Government Employees Association; Hawaii Public Health Institute; Hawaii State Democratic Women's Caucus; Hawaii Self Advocacy Advisory Council; Hawaii Women Lawyers; Hawaii Women's Coalition; Healthcare Association of Hawaii; Healthy Mothers Healthy Babies; IMUAlliance; Kaiser Permanente; LGBT Caucus of the Democratic Party of Hawaii; OCC Legislative Priorities Committee, Democratic Party of Hawai'i; Queen's Health Systems; Planned Parenthood Votes Northwest and Hawaii; Save Medicaid Hawaii; Sex Abuse Treatment Center; and 116 concerned individuals.

Your Committee received written comments in opposition to this measure from the American Council of Life Insurers.

Your Committee finds that the federal Patient Protection and Affordable Care Act of 2010, as amended, establishes important protections for Hawaii residents, especially low-income residents who were the most likely group of residents to lack health insurance coverage before passage of the federal act. Recently, Congress has been engaging in numerous attempts to repeal the federal act, threatening the health care coverage gains provided by it.

Research has shown that the expansion of health care coverage afforded by the federal act has improved medical care and health among low-income adults, especially those suffering from chronic conditions. In particular, the federal act's requirement that health insurers provide coverage for individuals with preexisting health conditions is crucial to ensuring wide access to health insurance.

Your Committee believes that this measure will ensure that Hawaii residents will continue to benefit from the most important protections created under the Patient Protection and Affordable Care Act of 2010, as amended, regardless of the outcome of its provisions at the federal level.

Your Committee has amended this measure by:

- (1) Applying consistent terminology for the types of insurance plans covered in the amendments affecting health maintenance organizations; and
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2340, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2340, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 10. Noes, none. Excused, 1 (Shimabukuro).

SCRep. 2712 Ways and Means on S.B. No. 2602

The purpose and intent of this measure is to ensure compliance with the State Procurement Code by executive departments, divisions, and agencies.

Specifically, this measure requires the State Procurement Policy Board to annually review and examine procurement contracts that are over \$50,000 of a minimum of two executive departments, divisions, or agencies.

Your Committee did not receive any written comments on this measure.

Your Committee finds that ensuring compliance with the State Procurement Code is essential to maintain public confidence in government. Your Committee further finds that the compliance examinations required by this measure will increase governmental compliance, efficiency, and transparency.

Your Committee has amended this measure by:

- (1) Clarifying that the State Procurement Policy Board shall prioritize the review of departments, divisions, or agencies based upon a pattern of noncompliance or based upon circumstances that may indicate an intent to circumvent the State Procurement Code;
- (2) Clarifying that in addition to the departments, divisions, or agencies prioritized by this measure, the State Procurement Policy Board shall also select any department, division, or agency for a compliance examination, provided that the selection may be random or as otherwise authorized by law;
- (3) Changing the effective date to January 1, 2050, to facilitate further discussion on the measure; and
- (4) Making technical nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2602, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2602, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 10. Noes, none. Excused, 1 (Shimabukuro).

SCRep. 2713 Ways and Means on S.B. No. 2364

The purpose and intent of this measure is to ensure that employees who suffer from a workplace injury receive workers' compensation benefits in a timely manner.

Specifically, the measure facilitates payments to injured workers by:

- (1) Prohibiting any employer from denying a workers' compensation claim without reasonable cause or while the claim is pending investigation; and
- (2) Imposing fines and other penalties on any employer who continues to deny a workers' compensation claim without reasonable cause.

Your Committee received written comments in support of this measure from AHCS, the Hawaii Chapter of the American Physical Therapy Association, Hale Lea Medicine, ILWU Local 142, Vally Medical Group, WIMAH, and five individuals.

Your Committee received written comments in opposition to this measure from the Department of Labor and Industrial Relations and SHRM Hawaii.

Your Committee received written comments on this measure from the Hawaii Medical Association.

Your Committee finds that ongoing investigations of pending workers' compensation claims delay care for seriously injured workers, and patients waiting for follow up from insurance companies are often not compensated until decisions are rendered. These workers may be forced to return to work with serious injuries, find less suitable employment, or apply for public assistance. Your Committee finds that this measure will help to protect workers from employers who delay payments in bad faith.

Your Committee has amended this measure by:

- (1) Inserting a reference to Chapter 393, Hawaii Revised Statutes, which is the Prepaid Health Care Act;
- (2) Amending the notice to providers to more clearly convey that a provider of services forfeits the right to dispute an employer's denial of payment if the provider fails to submit a timely bill dispute request;
- (3) Clarifying that the service fee assessed against a party that has failed to negotiate in good faith is a fine;
- (4) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (5) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2364, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2364, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 10. Noes, none. Excused, 1 (Shimabukuro).

SCRep. 2714 Ways and Means on S.B. No. 2858

The purpose and intent of this measure is to improve the efficacy of the State's corrections program.

Specifically, the measure:

- (1) Requires the Department of Public Safety to establish key performance indicators or measures, to be incorporated in reports that evaluate the department's efforts to improve offender reentry and rehabilitation; and
- (2) Combines multiple specified annual reports of the Department of Public Safety into one consolidated annual report to the Legislature.

Your Committee received written comments in support of this measure from the Department of Public Safety; the Office of Hawaiian Affairs; 808RAN; Aloha Light Team; American Civil Liberties Union of Hawaii; Community Alliance on Prisons; Hawaii Justice Coalition; Ho'omanapono Political Action Committee; OCC Legislative Priorities Committee, Democratic Party of Hawaii; Young Progressives Demanding Action - Hawaii; and seven individuals.

Your Committee finds that Act 8, First Special Session Laws of Hawaii 2007, enacted the Community Safety Act, which established a comprehensive offender reentry system within the Department of Public Safety. Your Committee believes that this measure will help to ensure the effectiveness and make improvements to the Department's rehabilitation and reentry programs by requiring annual reports on specific program indicators. Your Committee also finds that this measure facilitates administrative efficiency by consolidating a number of the Department's reporting requirements into one annual report.

Your Committee has amended this measure by:

- (1) Inserting language to clarify that Act 144, Session Laws of Hawaii 2007, section 4, was codified as section 353C-2(b);
- (2) Deleting references to two annual reports that are no longer required to be created under existing law;
- (3) Inserting language to clarify that if any of the cited reporting requirements is repealed or terminated, the consolidated report shall continue to be produced with the remaining reporting requirements;
- (4) Clarifying that the Department of Public Safety shall report on key performance indicators on a fiscal year basis;
- (5) Deleting redundant language related to the posting of reports of key performance indicators on the Department of Public Safety's website;
- (6) Making conforming amendments to the laws that establish the individual annual reports that are to be consolidated by this measure;
- (7) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (8) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2858, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2858, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 9. Noes, none. Excused, 2 (Kahele, Shimabukuro).

SCRep. 2715 Ways and Means on S.B. No. 2366

The purpose and intent of this measure is to make the operations and proceedings of the Hawaii Labor Relations Board more efficient.

Specifically, the measure:

- (1) Authorizes the Hawaii Labor Relations Board to deliver its orders and decisions to parties electronically, and through a company designated by the board;
- (2) Extends, from forty days to ninety days, the time to hold a hearing on a complaint;
- (3) Establishes a collective bargaining dispute resolution special fund; and
- (4) Appropriates funds to the Hawaii Labor Relations Board for one full-time equivalent (1.0 FTE) attorney position, one full-time equivalent (1.0 FTE) chief clerk position, and travel and interpreter costs.

Your Committee received written comments in support of this measure from the Hawaii Labor Relations Board and one individual.

Your Committee received written comments on this measure from the Department of the Attorney General and the Department of Budget and Finance.

Your Committee finds that the electronic delivery of orders and decisions may reduce costs for the State. Your Committee also believes that extending the allowable period to hold hearings on complaints provides more time for any necessary discovery matters. Your Committee further finds that an additional attorney and chief clerk position for the Hawaii Labor Relations Board will enable the Board to render its decisions more efficiently.

Your Committee has amended this measure by:

- (1) Deleting an amendment to section 91-12, Hawaii Revised Statutes, to address concerns expressed by the Department of the Attorney General; and
- (2) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

Your Committee notes the concerns expressed by the Department of Budget and Finance that it is not clear whether the collective bargaining dispute resolution fund meets the statutory criteria to establish a special fund. Accordingly, your Committee respectfully requests that subsequent Committees to which this measure is referred consider this issue.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2366, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2366, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 10. Noes, none. Excused, 1 (Shimabukuro).

SCRep. 2716 Ways and Means on S.B. No. 2381

The purpose and intent of this measure is to allow for a more efficient system by which schools can be closed due to emergencies created by natural disasters.

More specifically, this measure authorizes a school's principal to close the school in the event of an emergency created by a natural disaster without consultation with, and approval from, the complex area superintendent.

Your Committee received written comments in support of this measure from the OCC Legislative Priorities Committee of the Democratic Party of Hawaii.

Your Committee finds that a school's principal is the most qualified administrator to make the decision to close a school in the event of an emergency created by a natural disaster. Your Committee believes that this measure will help ensure timely school closures and the safe evacuation of students and faculty.

Your Committee has amended this measure by making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2381, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2381, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 10. Noes, none. Excused, 1 (Shimabukuro).

SCRep. 2717 Ways and Means on S.B. No. 2572

The purpose and intent of this measure is to promote the cultivation of food and non-food alternative products in Hawaii.

More specifically, this measure:

- (1) Requires the Department of Agriculture to conduct import substitution projects to encourage Hawaii's farmers and growers to identify and grow food and non-food alternative products to phase out imports of high-risk pathway food and commodities by 2027, and appropriates moneys for these projects; and
- (2) Appropriates moneys for the Department of Agriculture to produce outreach materials to encourage Hawaii's residents to buy local products and to protect Hawaii's agriculture, environment, and lifestyle.

Your Committee received written comments in support of this measure from the Department of Agriculture; the Hawaii Farm Bureau Federation; Hoomana Pono, LLC; Ulupono Initiative; the OCC Legislative Priorities Committee of the Democratic Party of Hawaii; and three concerned individuals.

Your Committee finds that promoting the cultivation of food and non-food alternatives in Hawaii through import substitution projects and public outreach will help to expand Hawaii's agricultural industry and increase sustainability and self-sufficiency in Hawaii.

Your Committee has amended this measure by:

- (1) Changing the appropriation to the Department of Agriculture to conduct import substitution projects from \$250,000 to an unspecified amount;
- (2) Changing the appropriation to the Department of Agriculture to produce outreach materials from \$150,000 to an unspecified amount; and
- (3) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2572, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2572, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 10. Noes, none. Excused, 1 (Shimabukuro).

SCRep. 2718 Ways and Means on S.B. No. 2845

The purpose and intent of this measure is to assess wild seafood in the State and develop a functional plan for seafood sustainability that expands the State's priority on food by including wild seafood as a viable source.

More specifically, the measure:

- (1) Requires the Department of Agriculture to coordinate with the Office of Planning and the Department of Land and Natural Resources to prepare and periodically update the plan; and
- (2) Appropriates moneys to the Department of Agriculture to prepare and periodically update the plan.

Your Committee received written comments in support of this measure from the OCC Legislative Priorities Committee of the Democratic Party of Hawaii and four individuals.

Your Committee received written comments on this measure from the Board of Agriculture, the Department of Land and Natural Resources, and the Office of Planning.

Your Committee finds that wild seafood is a valuable food source for the State and that planning for the expansion of wild seafood as a viable food source will contribute to the State's food sustainability and self-sufficiency goals.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (2) Making technical nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2845, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2845, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 10. Noes, none. Excused, 1 (Shimabukuro).

SCRep. 2719 Ways and Means on S.B. No. 3087

The purpose and intent of this measure is to expand the market for Hawaiian papayas.

Specifically, this measure appropriates moneys to the Agribusiness Development Corporation to:

- (1) Identify factors that affect the quality of Hawaiian papayas; and
- (2) Develop and establish protocols to enhance the marketability of Hawaiian papayas.

Your Committee received written comments in support of this measure from the Department of Agriculture; the Agribusiness Development Corporation; the Office of the Mayor of the County of Hawaii; and the OCC Legislative Priorities Committee, Democratic Party of Hawaii.

Your Committee finds that the marketability of Hawaiian papayas could benefit from research related to improving the product and efforts to optimize the system that processes, delivers, and markets the product. Your Committee believes that the establishment of a market standard for Hawaiian papayas will encourage good practices when local farmers grow and harvest papaya.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (2) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3087, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 3087, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 10. Noes, none. Excused, 1 (Shimabukuro).

SCRep. 2720 Ways and Means on S.B. No. 2919

The purpose and intent of this measure is to maximize the use of public library lands.

More specifically, this measure:

- (1) Establishes and appropriates general funds for a pilot program to lease public library lands to meet the mission of the public libraries;
- (2) Establishes the library facilities fund, the moneys of which are to be used for state library programs; and
- (3) Requires the Board of Education to submit to the Legislature reports on the pilot program.

Your Committee received written comments in support of this measure from the Hawaii State Public Library System and the OCC Legislative Priorities Committee, Democratic Party of Hawaii.

Your Committee received written comments on this measure from the Department of Budget and Finance.

Your Committee finds that although public libraries are valuable resources, the State should consider new ways of generating funds to support the purposes of the libraries. Your Committee believes that the lease of public library lands may be an appropriate source of such funding.

Your Committee has amended this measure by:

- (1) Correcting an erroneous reference to the library facilities fund;
- (2) Extending the deadline for the Board of Education's first annual report to the Legislature to twenty days prior to the convening of the Regular Session of 2020;
- (3) Appropriating an unspecified amount from the general revenues of the State to the Hawaii State Public Library System for the hiring of experts in land development issues;
- (4) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (5) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2919, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2919, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 10. Noes, none. Excused, 1 (Shimabukuro).

SCRep. 2721 Ways and Means on S.B. No. 2239

The purpose and intent of this measure is to assist certain students in paying for SAT or ACT registration fees.

More specifically, this measure appropriates moneys to the Department of Education to pay for SAT or ACT registration fees for:

- (1) Public school students in twelfth grade; and
- (2) Public charter school students in the eleventh or twelfth grade,

who have not taken the SAT or ACT.

Your Committee received written comments in support of this measure from the State Public Charter School Commission, the OCC Legislative Priorities Committee of the Democratic Party of Hawaii, and one concerned individual.

Your Committee received written comments on this measure from the Department of Education.

Your Committee recognizes that the Department of Education currently covers the cost of all eleventh grade students to take a college admission test. However, your Committee believes that it is important to extend access to these tests to public charter school students and public school students who were unable to take the test in the eleventh grade.

Your Committee has amended this measure by:

- (1) Changing the appropriation from \$150,000 to an unspecified amount;
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (3) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2239, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2239, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 10. Noes, none. Excused, 1 (Shimabukuro).

SCRep. 2722 Ways and Means on S.B. No. 2085

The purpose and intent of this measure is to establish a grant program to support farms and agribusiness operations.

Specifically, this measure:

- (1) Establishes the Agribusiness Development Corporation grant program to provide grants for agriculture-related projects and improvements;
- (2) Establishes requirements to qualify for the grants through the program;
- (3) Authorizes the Agribusiness Development Corporation to award grants; and
- (4) Appropriates an unspecified amount for the program.

Your Committee received written comments in support of this measure from the Board of Agriculture, Agribusiness Development Corporation, Hawaii Cattlemen's Council, Hawaii Farm Bureau Federation, Land Use Research Foundation of Hawaii, Ulupono Initiative, OCC Legislative Priorities Committee of the Democratic Party of Hawaii, and Ho'omanapono Political Action Committee.

Your Committee finds that many farmers and ranchers who wish to increase their farm's capacity and efficiency have difficulty securing financial support for their operations. A grant program will provide these farmers and ranchers with the necessary capital to modernize and expand their facilities, and this assistance will reduce the cost of production and allow locally-produced goods to better compete with imported products.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (2) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2085, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2085, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 10. Noes, none. Excused, 1 (Shimabukuro).

SCRep. 2723 Ways and Means on S.B. No. 2839

The purpose and intent of this measure is to promote and support diversified agriculture in the State by authorizing agricultural enterprises on lands under the authority of the Department of Agriculture.

Specifically, this measure:

- (1) Authorizes the Department of Agriculture to create and alter facilities on lands under its jurisdiction;
- (2) Authorizes the Department of Agriculture to accept agricultural enterprises and agricultural enterprise lands from the Department of Land and Natural Resources;
- (3) Establishes the Agricultural Enterprise Program within the Department of Agriculture to manage agricultural enterprises and agricultural enterprise lands; and
- (4) Appropriates funds and positions for infrastructure on lands under the jurisdiction of the Department of Agriculture.

Your Committee received written comments in support of this measure from the Board of Agriculture, Oahu County Committee Legislative Priorities Committee of the Democratic Party of Hawai'i, Ulupono Initiative, Ho'omanapono Political Action Committee, and the Hawaii Cattlemen's Council.

Your Committee finds that in addition to growing crops and raising livestock, the business of agriculture requires training, markets, food hubs, processing facilities, animal feed mills, and other facilities. This measure will address infrastructure needs of farmers by authorizing the Department of Agriculture to plan, design, construct, operate, manage, maintain, repair, demolish, and remove various infrastructure elements on Department of Agriculture lands as necessary to support Hawaii's agriculture industry.

Your Committee has amended this measure by:

- (1) Changing the amounts appropriated to unspecified amounts;
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (3) Making technical nonsubstantive amendments for purposes of style, clarity, and consistency.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2839, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2839, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 10. Noes, none. Excused, 1 (Shimabukuro).

SCRep. 2724 Ways and Means on S.B. No. 2779

The purpose and intent of this measure is to update provisions relating to the Hawaii Teacher Standards Board.

Specifically, this measure:

- (1) Increases membership on the Hawaii Teacher Standards Board to include the Chairperson of the Native Hawaiian Education Council and a nonvoting public university student teacher; and
- (2) Clarifies that a permit is required for unlicensed teachers serving in public schools.

Your Committee received written comments in support of this measure from the Hawaii Teacher Standards Board, Department of Education, University of Hawaii System, Office of Hawaiian Affairs, Hawaiian Civic Club of Honolulu, and twelve individuals.

Your Committee finds that increasing the diversity of the Hawaii Teacher Standards Board to include a representative of the Native Hawaiian Education Council and a student teacher will ensure that the needs and perspectives of Native Hawaiians and future teachers are considered in developing rules and policies relating to teacher licensure.

Your Committee has amended this measure by:

- (1) Clarifying that a representative, rather than the Chairperson, of the Native Hawaiian Education Council shall serve on the Hawaii Teacher Standards Board to be appointed by the Governor pursuant to section 26-34, Hawaii Revised Statutes;
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (3) Making technical nonsubstantive changes for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2779, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2779, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 10. Noes, none. Excused, 1 (Shimabukuro).

SCRep. 2725 (Majority) Ways and Means on S.B. No. 2585

The purpose and intent of this measure is to provide graduate student assistants employed by the University of Hawaii with the right to organize for the purpose of collective bargaining.

Specifically, this measure establishes collective bargaining unit (15) to consist of graduate student assistants employed by the University of Hawaii.

Your Committee received written comments in support of this measure from the Hawaii Government Employees Association, Hawaii State Teachers Association, Academic Labor United, IMUAlliance, Hawaii State AFL-CIO, and eight individuals.

Your Committee received written comments in opposition to this measure from the Department of Budget and Finance, University of Hawaii System, Office of Collective Bargaining, and one individual.

Your Committee finds that graduate student assistants at the University of Hawaii have reported inconsistencies in the workplace regarding job security, wages, and salary increases, and no provision of sick days or family leave. This measure will allow graduate student assistants to organize for the purpose of collective bargaining so that they may negotiate for fair salaries, benefits, and rights.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (2) Making a technical nonsubstantive amendment for purposes of style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2585, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2585, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, 2 (Harimoto, Riviere). Excused, 1 (Shimabukuro).

SCRep. 2726 Ways and Means on S.B. No. 2667

The purpose and intent of this measure is to affirm the State's commitment to conservation and sustainability by codifying in state law the goal, clean water and sanitation, of the United Nations Sustainable Development Goals and indicators.

Your Committee received testimony in support of this measure from the Department of Agriculture, Department of Land and Natural Resources, Office of Hawaiian Affairs, Oahu Economic Development Board, Hawaii Green Growth, OCC Legislative Priorities, Sierra Club of Hawaii, and four individuals.

Your Committee received comments on this measure from the Office of Planning and Hawaii Farm Bureau Federation.

Your Committee finds that in order for Hawaii to continue to serve as an example for the rest of the world in setting policies on sustainability and to serve as a global leader on issues of conservation and sustainability, it is essential that the State demonstrate its full commitment to its own policies and goals as well as goals set by the United Nations.

Your Committee has amended this measure by making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2667, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2667, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 9. Noes, none. Excused, 2 (Inouye, Wakai).

SCRep. 2727 Ways and Means on S.B. No. 2556

The purpose and intent of this measure is to establish a special fund into which revenues from the industrial hemp pilot program may be deposited.

Specifically, this measure:

- (1) Establishes the industrial hemp special fund for the fees collected by the Department of Agriculture in connection with the industrial hemp pilot program;
- (2) Authorizes the Department of Agriculture to expend the moneys in the special fund;
- (3) Specifies that the moneys in the special fund shall remain available until obligated or until the special fund is terminated; and
- (4) Provides instructions on the disbursement of the moneys remaining in the special fund upon termination of the fund.

Your Committee received written comments in support of this measure from the Department of Agriculture; the Hawaii Farm Bureau Federation; Ho'omanapono Political Action Committee; Ho'omana Pono, LLC; OCC Legislative Priorities Committee of the Democratic Party of Hawaii; the Drug Policy Forum; and four individuals.

Your Committee received written comments on this measure from the Department of the Attorney General.

Your Committee finds that Part II of Chapter 141, Hawaii Revised Statutes, authorizes the Department of Agriculture to collect various fees and assess fines related to the industrial hemp pilot program. Requiring the department to deposit the fees into a special fund will promote transparency, help track revenues of the program, and guide the department in adjusting the fee amounts to ensure that the program is financially self-sustaining.

Your Committee has amended this measure by:

- (1) Deleting the requirement that the moneys deposited into the industrial hemp special fund remain available until they are obligated or until the special fund is terminated, because that requirement could be interpreted to allow for the expenditure of the moneys without an appropriation in violation of Article VII, Section 5 of the Hawaii State Constitution; and

- (2) Deleting the requirements regarding the transfer of funds and disbursement of balances if the special fund is terminated, since those requirements would be more appropriately established by an Act repealing the fund.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2556, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2556, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 10. Noes, none. Excused, 1 (Shimabukuro).

SCRep. 2728 Ways and Means on S.B. No. 2186

The purpose and intent of this measure is to raise the fireworks display permit fee from \$110 to \$300.

Your Committee received written comments in support of this measure from the Hawaii State Fire Council, the County of Maui Department of Fire and Public Safety, the County of Hawaii Fire Department, and the Kauai Fire Department.

Your Committee received written comments in opposition to this measure from Hoomanapono Political Action Committee.

Your Committee finds that the fireworks display permit fee has remained unchanged for fourteen years, while the costs associated with processing the permits have risen. Therefore, your Committee believes that increasing the fee is reasonable.

Your Committee has amended this measure by making a technical nonsubstantive change for the purpose of clarity.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2186, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2186, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 9. Noes, none. Excused, 2 (Kahele, Shimabukuro).

SCRep. 2729 Ways and Means on S.B. No. 2581

The purpose and intent of this measure is to amend the laws relating to the governance and administration of the King Kamehameha Celebration Commission.

Specifically, the measure:

- (1) Adds the Daughters of Hawaii and one member from Lanai to the King Kamehameha Celebration Commission;
- (2) Increases the number of members on the commission from thirteen to fifteen to account for these additions to the Commission; and
- (3) Establishes the position of Executive Director of the Commission, who shall be appointed by the Commission.

Your Committee received written comments in support of this measure from the OCC Legislative Priorities Committee of the Democratic Party of Hawaii; Hoomana Pono, LLC; the Daughters of Hawaii; and three members of the King Kamehameha Celebration Commission.

Your Committee received written comments in opposition to this measure from a private individual.

Your Committee received written comments on this measure from a private individual.

Your Committee finds that the inclusion of the Daughters of Hawaii and an individual member from the island of Lanai in the King Kamehameha Celebration Commission would offer broader representation on the Commission. Your Committee also finds that establishing an Executive Director of the Commission would provide greater administrative guidance to the Commission in its operations.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (2) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2581, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2581, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 10. Noes, none. Excused, 1 (Shimabukuro).

SCRep. 2730 Ways and Means on S.B. No. 3000

The purpose and intent of this measure is to support Hawaii-based businesses involved in research and development.

Specifically, this measure establishes the Research and Development Program within the Hawaii Technology Development Corporation to:

- (1) Support product development, technology transfer, and commercialization;
- (2) Provide funding to assist Hawaii-based businesses to reach commercial success and achieve significant product development;

- (3) Retain in, and attract to, Hawaii technology employees, engineers, and scientists; and
- (4) Keep technology companies in Hawaii.

Your Committee received written comments in support of this measure from the Hawaii Technology Development Corporation; Makai Ocean Engineering, Inc.; Oceanit Laboratories, Inc.; Navatek; Chamber of Commerce Hawaii; Oahu County Committee Legislative Priorities Committee of the Democratic Party of Hawaii; and three individuals.

Your Committee received written comments on this measure from the Department of Budget and Finance.

Your Committee finds that the vision of the Hawaii Technology Development Corporation is to create 80,000 new innovation jobs in Hawaii earning \$80,000 or more by the year 2030. This measure will help to expand the benefits provided by federal research and development tax credits to Hawaii companies, by providing additional funding for those companies to develop their products, reach technical milestones, and achieve commercial success.

Your Committee has amended this measure by:

- (1) Clarifying that the activities of the Research and Development Program shall be subject to available funds;
- (2) Clarifying language concerning the duties of the program;
- (3) Specifying how proof of federal research and development tax credits received by Hawaii-based small businesses shall be provided to the program;
- (4) Clarifying that funding provided by the program shall be in the form of a grant;
- (5) Defining the terms “Hawaii-based small business” and “resident”;
- (6) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (7) Making technical nonsubstantive amendments for purposes of style, clarity, and consistency.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3000, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 3000, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 10. Noes, none. Excused, 1 (Shimabukuro).

SCRep. 2731 Ways and Means on S.B. No. 3068

The purpose and intent of this measure is to address immediate and long-term threats from climate change and sea level rise to the State’s economy, sustainability, security, and way of life.

More specifically, the measure:

- (1) Implements recommendations of the 2017 Hawaii Sea Level Rise Vulnerability and Adaptation Report by the Hawaii Climate Change Mitigation and Adaptation Commission; and
- (2) Appropriates moneys to state agencies and the counties to implement the report’s recommendations.

Your Committee received written comments in support of this measure from the Office of Climate Change, Sustainability and Resiliency of the City and County of Honolulu; the Board of Water Supply of the City and County of Honolulu; the Oahu County Committee Legislative Priorities Committee, Democratic Party of Hawaii; and three individuals.

Your Committee received written comments on this measure from the Department of Land and Natural Resources, the Office of Planning, and the Land Use Commission.

Your Committee finds that climate change and sea level rise pose immediate and long-term threats to the State and that Act 32, Session Laws of Hawaii 2017, established the Hawaii Climate Change Mitigation and Adaptation Commission (Commission) to help address those threats.

Act 32 directed the Commission to develop sea level rise vulnerability and adaptation reports that include:

- (1) Identification of the major areas of sea level rise impacts affecting the State and counties through 2050;
- (2) Identification of expected impacts of sea level rise based on the latest scientific research for each area through 2050;
- (3) Identification of the economic ramifications of sea level rise;
- (4) Identification of applicable federal laws, policies, or programs that impact affected areas; and
- (5) Recommendations for planning, management, and adaptation for hazards associated with increasing sea level rise.

The Hawaii Sea Level Rise Vulnerability and Adaptation Report submitted by the Commission in December 2017 identifies in detail those areas of the State that are susceptible to sea level rise impacts based on a projected 3.2-foot increase in sea level by mid-century or earlier.

The Commission designated these vulnerable areas as the sea level rise exposure area projection and recommended that a sea level rise exposure area overlay be adopted to guide state and county adaptation strategies and standards for development. The report also recommended that state and county agencies adopt emerging good practices to strengthen the State’s overall readiness to address sea level rise and climate change.

Accordingly, this measure implements recommendations of the 2017 Hawaii Sea Level Rise Vulnerability and Adaptation Report.

Your Committee has amended this measure by:

- (1) Correcting certain references, inserting omitted words, and refining definitions as necessary;
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (3) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3068, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 3068, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 10. Noes, none. Excused, 1 (Shimabukuro).

SCRep. 2732 Ways and Means on S.B. No. 2312

The purpose and intent of this measure is to require that grant applicants are in good standing with state and county requirements in order to receive a grant pursuant to Chapter 42F, Hawaii Revised Statutes.

Specifically, this measure adds the requirements that grants shall only be awarded to organizations that provide:

- (1) A copy of the organization's bylaws or policies;
- (2) A certificate of good standing from the Department of Commerce and Consumer Affairs;
- (3) A current tax clearance;
- (4) Proof that the organization is current on real property taxes;
- (5) Proof that they have been granted tax exempt status under section 501(c)(3) of the Internal Revenue Code;
- (6) Proof of registration under Hawaii's charitable solicitation statute; and
- (7) Recent tax documents.

Your Committee received written comments in support of this measure from the Department of the Attorney General, Hawaii Youth Services Network, and one individual.

Your Committee finds that this measure will help to ensure that applicants for grants of public moneys are in good standing and in compliance with applicable federal and state tax laws.

Your Committee has amended this measure by making a technical nonsubstantive amendment for purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2312, S.D. 1, as amended herein, and recommend that it pass Third Reading in the form attached hereto as S.B. No. 2312, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 10. Noes, none. Excused, 1 (Shimabukuro).

SCRep. 2733 Ways and Means on S.B. No. 2493

The purpose and intent of this measure is to delay the implementation until January 1, 2020, of the producer licensing requirements amended by Act 152, Session Laws of Hawaii 2017.

Your Committee received written comments in support of this measure from the Hawaii Insurers Council and the National Association of Insurance and Financial Advisors – Hawaii.

Your Committee received comments on this measure from the Department of Commerce and Consumer Affairs.

Your Committee received written comments in opposition to this measure from one individual.

Your Committee finds that Act 152, Session Laws of Hawaii 2017, conforms the State's producer licensing requirements to the National Association of Insurance Commissioners' Producer Licensing Model Act by eliminating producer-to-producer appointments. Due to the large number of independent producers in Hawaii and the number of contracts between insurers and independent producers that need to be finalized, however, a delay in implementation of the producer licensing requirements is needed in order to ensure full compliance.

Your Committee has amended this measure by making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2493, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2493, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 10. Noes, none. Excused, 1 (Shimabukuro).

SCRep. 2734 (Majority) Ways and Means on S.B. No. 2924

The purpose and intent of this measure is to ensure that the individual mandate for health insurance coverage afforded under the federal Patient Protection and Affordable Care Act of 2010, as amended, is preserved under Hawaii law.

Specifically, this measure requires qualified taxpayers to obtain and maintain affordable, creditable coverage for each of the twelve months of the taxable year at the risk of incurring a tax penalty. Additionally, this measure requires the Insurance Commissioner to establish a process to determine which health plans are considered affordable.

Your Committee received written comments in support of this measure from IMUAlliance; Kaiser Permanente; Planned Parenthood Votes Northwest and Hawaii; The Queen's Health Systems; and one concerned individual.

Your Committee received written comments in opposition to this measure from two concerned individuals.

Your Committee received written comments on this measure from the Department of Commerce and Consumer Affairs, Insurance Division; Department of Taxation; Hawaii Medical Service Association; Samaritan Ministries; Samaritan Ministries International; and twelve concerned individuals.

Your Committee finds that, with the enactment of the federal Patient Protection and Affordable Care Act of 2010, as amended, many more of the State's residents were able to obtain affordable health insurance. Consequently, the number of uninsured individuals in the State declined by forty-six per cent between 2013 and 2016. However, recent federal tax legislation has reduced the federal individual mandate penalty to zero, which has caused uncertainty about the sustainability of the individual insurance market in Hawaii. Your Committee believes that a state-level individual insurance mandate will provide a measure of certainty and stability to Hawaii's individual insurance market.

Your Committee has amended this measure by making technical nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2924, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2924, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 9. Noes, 1 (Riviere). Excused, 1 (Shimabukuro).

SCRep. 2735 (Majority) Ways and Means on S.B. No. 2909

The purpose and intent of this measure is to consolidate the State's law enforcement functions.

More specifically, this measure:

- (1) Establishes an enforcement division in the Department of the Attorney General;
- (2) Transfers the law enforcement activities of the Department of Land and Natural Resources' Division of Conservation and Resources Enforcement, the Department of Public Safety's state law enforcement officers and narcotics enforcement division, and the Department of Transportation's harbors division to the newly-established enforcement division of the Department of the Attorney General; and
- (3) Repeals the sunset date of Act 116, Session Laws of Hawaii 2013, as amended by section 4 of Act 101, Session Laws of Hawaii 2015.

Your Committee received written comments in support of this measure from the Hawaii Government Employees Association and two individuals.

Your Committee received written comments in opposition to this measure from the Department of the Attorney General, Department of Land and Natural Resources, Department of Public Safety, Department of Transportation, The Nature Conservancy, and one individual.

Your Committee finds that consolidating all of the State's law enforcement functions under the Department of the Attorney General may lead to improved efficiency in law enforcement across the State.

Your Committee has amended this measure by:

- (1) Deleting an obsolete reference;
- (2) Changing the effective date to January 1, 2050, to facilitate further discussion on the measure; and
- (3) Making technical nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2909, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2909, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, 2 (Harimoto, Riviere). Excused, 1 (Shimabukuro).

SCRep. 2736 Ways and Means on S.B. No. 2658

The purpose and intent of this measure is to appropriate funds for the purchase of two ambulance vehicles and related operational costs.

Specifically, this measure appropriates an unspecified sum for the purchase of one ambulance vehicle each for the counties of Kauai and Hawaii and for corresponding operating costs, including equipment, supplies, and personnel costs for state-certified emergency medical service personnel.

Your Committee received written comments in support of this measure from the Mayor of the County of Hawaii; the Fire Department of the County of Hawaii; two members of the Hawaii County Council; six members of the Kauai County Council; American Medical Response; Hawaii Pacific Health; Wilcox Medical Center; Hawaii Fire Fighters Association, Local 1463; OCC Legislative Priorities Committee of the Democratic Party of Hawaii; and five individuals.

Your Committee received written comments on this measure from the Department of Health and the Emergency Medical Services Division of the City and County of Honolulu Emergency Services Department.

Your Committee finds that ambulance response times within the counties of Hawaii and Kauai are among the longest in the State due to population growth that has not been accompanied by a corresponding increase in ambulance vehicles. This measure will provide additional ambulance units to those counties to improve medical emergency response times.

Your Committee has amended this measure by changing the effective date to July 1, 2050, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2658, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2658, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 10. Noes, none. Excused, 1 (Shimabukuro).

SCRep. 2737 Ways and Means on S.B. No. 2803

The purpose and intent of this measure is to make amendments to the boiler and elevator safety law.

Specifically, this measure:

- (1) Updates boiler and elevator safety laws by making housekeeping amendments to delete obsolete language;
- (2) Renames the boiler and elevator special fund as the boiler and elevator revolving fund; and
- (3) Extends, from five to ten years, the schedule for reimbursement to the general fund of appropriations made to establish the boiler and elevator special fund.

Your Committee received written comments in support of this measure from the Department of Labor and Industrial Relations.

Your Committee finds that as currently written, the boiler and elevator safety law contains various definitions that either are no longer a part of applicable standards, have transitioned to the jurisdiction of other work groups, are excluded from the American Society of Mechanical Engineers Safety codes, or are non-existent in Hawaii. Therefore, your Committee finds that it is necessary to update this law to comply with national standards.

Your Committee further finds that extending the reimbursement schedule for moneys appropriated from the general fund to the boiler and elevator special fund will help to allow safety operations to continue while maintaining a feasible payment schedule.

Your Committee has amended this measure by making technical nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2803, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2803, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 7. Noes, none. Excused, 4 (English, Kahele, Keith-Agaran, Wakai).

SCRep. 2738 Ways and Means on S.B. No. 2801

The purpose and intent of this measure is to enhance the Department of Labor and Industrial Relations' ability to enforce the State's labor laws.

Specifically, the measure:

- (1) Creates the labor law enforcement special fund to finance the collection of penalties and fees for violations of labor law;
- (2) Establishes two positions (an attorney and a legal assistant) in the Department of the Attorney General to represent the Department of Labor and Industrial Relations in collecting penalties for violations of law; and
- (3) Appropriates moneys to effectuate the purposes of this measure.

Your Committee received written comments in support of this measure from IMUAlliance and one individual.

Your Committee finds that it is necessary to provide for sufficient operating costs to collect fees for violations of labor law. The establishment of a special fund, and the hiring of an attorney and a legal assistant, will provide the needed resources and allow the State to more effectively collect penalties and enforce the State's labor laws.

Your Committee has amended this measure by:

- (1) Changing the appropriation amounts to unspecified amounts; and

- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2801, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2801, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 10. Noes, none. Excused, 1 (Shimabukuro).

SCRep. 2739 Ways and Means on S.B. No. 2744

The purpose and intent of this measure is to automatically increase penalties for false claims to the State to maintain consistency with the federal False Claims Act and to comply with the Federal Civil Penalties Inflation Adjustment Act of 1990.

Your Committee received no written comments on the measure.

Your Committee finds that this measure addresses a federal mandate that the penalties for false claims to the State must equal or exceed corresponding provisions in the federal False Claims Act.

Your Committee has amended this measure by making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2744, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2744, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 7. Noes, none. Excused, 4 (English, Kahele, Keith-Agaran, Wakai).

SCRep. 2740 Ways and Means on S.B. No. 2199

The purpose and intent of this measure is to authorize the State to apply for a waiver from certain provisions of the federal Patient Protection and Affordable Care Act of 2010, for implementation on or after January 1, 2019, upon approval by the United States Secretaries of Health and Human Services and the Treasury.

Your Committee received written comments in support of this measure from the Department of Human Services, Department of Commerce and Consumer Affairs Insurance Division, Kaiser Permanente, and Hawaii Medical Service Association.

Your Committee received written comments in opposition to this measure from one individual.

One individual submitted written comments on this measure.

Your Committee finds that the federal Patient Protection and Affordable Care Act encourages states to develop innovative approaches to providing access to health insurance and authorizes the states to apply for waivers to implement these reforms. This measure will help to implement the recommendations of the Affordable Health Insurance Working Group, convened pursuant to Act 43, Session Laws of Hawaii 2017, which recommended that Hawaii explore the possibility of a state reinsurance program for the individual health insurance market.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (2) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2199, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2199, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 10. Noes, none. Excused, 1 (Shimabukuro).

SCRep. 2741 Ways and Means on S.B. No. 641

The purpose and intent of this measure is to add the Chairperson of the Hawaiian Homes Commission, or the Chairperson's designee, as an ex officio, voting member of the Commission on Water Resources Management.

Your Committee received written comments in support of this measure from the Office of Hawaiian Affairs, the Department of Hawaiian Home Lands, Hoomanapono Political Action Committee, the OCC Legislative Priorities Committee of the Democratic Party of Hawaii, Ka Lahui Hawaii Political Action Committee, and three concerned individuals.

Your Committee received written comments on this measure from the Department of Land and Natural Resources.

Your Committee finds that adding the Chairperson of the Hawaiian Homes Commission to the Commission on Water Resources Management would ensure that the State's implementation of the State Water Code properly fulfills section 174C-101(a), Hawaii Revised Statutes, relating to Native Hawaiian water rights. Your Committee believes that this measure will enable greater advocacy for the Department of Hawaiian Home Lands beneficiaries and greater consideration of the Department of Hawaiian Home Lands water rights in the Commission on Water Resources Management's decision making.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and

(2) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 641, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 641, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 10. Noes, none. Excused, 1 (Shimabukuro).

SCRep. 2742 Ways and Means on S.B. No. 2073

The purpose and intent of this measure is to clarify that the funds appropriated by Act 183, Session Laws of Hawaii 2017, shall be deposited into the food safety certification costs grant program special fund and that the same amount shall be appropriated out of the special fund for fiscal year 2018-2019.

Your Committee received comments in support of this measure from the Department of Agriculture, the Hawai'i Farm Bureau, the Ulupono Initiative and one individual.

Your Committee finds that additional resources for food safety certification can be facilitated by appropriating funds for the food safety certification costs grant program special fund. Act 183, Session Laws of Hawaii 2017, provided an appropriation of general funds for this purpose, but that Act failed to include instructions to deposit the appropriated moneys into the special fund, and then appropriate moneys out of the special fund for expenditure. This measure rectifies the oversight.

Your Committee has amended this measure by changing the effective date to July 1, 2050, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2073, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2073, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 9. Noes, none. Excused, 2 (Kahele, Shimabukuro).

SCRep. 2743 Ways and Means on S.B. No. 2150

The purpose and intent of this measure is to appropriate supplemental funds for the operating and capital improvement costs of the Judiciary for the fiscal biennium 2017-2019.

Your Committee received testimony in support of this measure from the Judiciary, Hawaii State Bar Association, West Hawaii Bar Association, Legal Aid Society of Hawaii, and two individuals.

OPERATING BUDGET

Your Committee notes that the Judiciary requested an increase of \$1,567,469 for fiscal year 2018-2019 in general funds. Your Committee has approved an increase of \$1,310,118 for fiscal year 2018-2019 in general funds for the Judiciary's operating budget.

With the adjustments contained in this measure, the total general fund appropriation for the Judiciary is \$164,408,585 for fiscal year 2018-2019.

CAPITAL BUDGET

Your Committee finds that the Kauai Judiciary Complex is in need of roof work. Your Committee therefore approves \$1,100,000 in fiscal year 2018-2019 in general obligation bond funds to reroof and repair leaks at the Kauai Judiciary Complex, Kauai.

Your Committee also provides \$1,500,000 in fiscal year 2018-2019 in general obligation bond funds for alterations, upgrades, and improvements to judiciary facilities, statewide.

Your Committee appropriates \$1,933,000 in fiscal year 2018-2019 in general obligation bond funds to provide furnishings and equipment for the Kona Judiciary Complex, Hawaii.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2150, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2150, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 5 (Kahele, Kidani, Riviere, Shimabukuro, Wakai).

SCRep. 2744 Ways and Means on S.B. No. 2939

The purpose and intent of this measure is to protect consumers by proactively ensuring that the existing utility business and regulatory model will be updated for the twenty-first century by requiring that electric utility rates be considered just and reasonable only if the rates are derived from a performance-based model for determining utility revenues.

Your Committee received written comments in support of this measure from the Division of Consumer Advocacy of the Department of Commerce and Consumer Affairs and the Sierra Club of Hawaii.

Your Committee received written comments in opposition to this measure from the Hawaiian Electric Company, Inc.

Your Committee received written comments on this measure from the Public Utilities Commission.

Your Committee finds that the existing regulatory compact misaligns the interests of customers and utilities because it may result in a bias toward expending utility capital on utility-owned projects that may displace more efficient or cost-effective options, such as distributed energy resources owned by customers or projects implemented by independent third parties. Your Committee believes that the benchmarks and performance mechanisms established in this measure will promote decisions and strategies that will maximize public benefit, reduce ratepayer risk, and meet Hawaii's energy goals.

Your Committee has amended this measure by making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2939, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2939, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 10. Noes, none. Excused, 1 (Shimabukuro).

SCRep. 2745 Commerce, Consumer Protection, and Health on S.B. No. 2930

The purpose and intent of this measure is to protect the State's underground drinking water sources and surrounding environment by requiring the Department of Health to adopt rules for underground storage tanks, tank systems, and related piping that conform with 2015 revisions to federal regulations and include additional requirements no less stringent than any regulation established pursuant to federal law for certain field-constructed underground storage tanks, including compliance with certain requirements in chapter 11-281, Hawaii Administrative Rules, or successor rules.

Your Committee received testimony in support of this measure from the Department of the Attorney General, Board of Water Supply of the City and County of Honolulu, Oahu County Committee on Legislative Priorities of the Democratic Party of Hawaii, League of Women Voters of Hawaii, IMUAlliance, Hawaiian Civic Club of Honolulu, Environmental Caucus of the Democratic Party of Hawaii, and twenty-three individuals. Your Committee received testimony in opposition to this measure from the United States Department of the Navy, Chamber of Commerce of Hawaii, and three individuals. Your Committee received comments on this measure from the Department of Health; Commander, United States Pacific Command; and Sierra Club.

Your Committee finds that the lands and waters of Hawaii are unique and delicately balanced resources, which are vital to the economy of the State, and that the protection of groundwater is a matter of the highest priority.

Your Committee finds that the underground storage of petroleum products and hazardous substances with potential spills, discharges, and leaks, can pose serious threats to the environment and thus to citizens of the State. Your Committee further finds that the Red Hill bulk fuel storage facility (Red Hill) stores more fuel in a single location than any other underground storage tank system in Hawaii, storing up to 187 million gallons of fuel per day.

Your Committee notes the concerns raised by the United States Department of the Navy, including that the Navy has already reached an agreement with the Environmental Protection Agency (EPA) setting a timeframe to renovate Red Hill by 2037. Your Committee notes that this measure, as drafted, includes a deadline no later than 2028.

Your Committee also finds that it is of the utmost importance to resolve the issues raised by potential leaks at Red Hill without recourse to further litigation and to conform with existing EPA agreements in order for Hawaii to maintain autonomy and control over its own environmental regulation. Your Committee finds that this is especially true in light of the lack of environmental concern at the federal regulatory level.

Your Committee also finds that the Department of Health and Department of the Attorney General are capable of completing the rulemaking contemplated by this measure by October 13, 2018, provided that the court overseeing litigation with respect to Red Hill renders a final decision in a timely fashion; your Committee notes that the final decision remains uncertain but that the substance of the court order is likely to be addressed by this measure. Your Committee finds that the October 13, 2018, deadline to adopt rules at least as stringent as existing federal regulations was imposed by the EPA and that failure to comply would affect federal approval of the State's underground storage tank environmental regulatory program. Your Committee recognizes the imminency of the October 13, 2018, deadline and the difficulty of the rulemaking process and finds that advancing this measure is necessary to allow the State to comply with the EPA deadline and preemptively address the anticipated results of the existing litigation over Red Hill through legislation.

Your Committee has also heard concerns from the Department of Health and Department of the Attorney General that some language in section 1 of this measure may be inaccurate or imprecise. Your Committee has received proposed language from the Departments to address these issues and finds that amendments are necessary to incorporate this language into the measure.

Your Committee finds that further discussion of this measure is warranted, including with respect to the deadlines for compliance. In response to questioning by your Committee, the Department of Health and Department of the Attorney General indicated that providing a timeline of the proposed rulemaking would be feasible; your Committee urges the Departments to provide such a timeline to the Legislature as soon as possible.

Your Committee has amended this measure by:

- (1) Amending section 1 to correct inaccurate information and clarify imprecise language;
- (2) Inserting blank dates for the deadlines to take out of service and to permanently close underground storage tanks and tank systems that fail to comply with new rules;
- (3) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2930, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2930, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 1 (Ruderman).

SCRep. 2746 Judiciary on S.B. No. 2974

The purpose and intent of this measure is to codify the Uniform Certificate of Title for Vessels Act to:

- (1) Require certain vessel owners to apply for a certificate of title within twenty days of becoming an owner or within twenty days of establishing principal use of the vessel in waters of the State; and
- (2) Establish what information is required to be included in an application for certificate of title for a vessel; how to deal with transfer of vessel ownership and title; rights of a secured party; and rights of a purchaser other than a secured party.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources; Commission to Promote Uniform Legislation; and Ho'omana Pono, LLC. Your Committee received comments on this measure from the Civil Beat Law Center for the Public Interest.

Your Committee finds that vessels under the jurisdiction of the Department of Land and Natural Resources that do not have a United States Coast Guard documentation number are only required to obtain a certificate of number with the Department's Division of Boating and Ocean Resources' Vessel Registration Office, which does not ensure that a vessel has not been stolen and can lead to extensive fraud. This measure will improve the ability of the Department of Land and Natural Resources to reduce the number of stolen vessels being fraudulently registered in the State.

Your Committee has amended this measure by:

- (1) Adopting the language suggested by the Department of Land and Natural Resources to specify that information collected in the process of title registration shall be confidential; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2974, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2974, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Gabbard).

SCRep. 2747 Judiciary on S.B. No. 3083

The purpose and intent of this measure is to clarify that certain types of remuneration received by an owner of private property who in good faith provides emergency access to land, shelter, or subsistence during a disaster shall not disqualify the owner from receiving the exemption provided under section 663-10.7, Hawaii Revised Statutes, from civil liability for any resulting injury or damage.

Your Committee received testimony in support of this measure from the Department of Emergency Management of the City and County of Honolulu and Oahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i. Your Committee received comments on this measure from the Hawaii Association for Justice.

Your Committee finds that ensuring citizens have access to adequate land, shelter, and subsistence during a disaster is a vital interest of the State. In many cases, owners of private property are reluctant to make their property or facilities available to the general public for use as emergency shelter due to concerns about liability. Act 291, Session Laws of Hawaii 2012, exempts from civil liability for injury or damage an owner of private property who provides, in good faith, emergency access to land, shelter, or subsistence during a disaster, without remuneration or expectation of remuneration, with certain exceptions. At present, it is unclear whether the exemption from civil liability applies if the persons being sheltered are paying guests of a transient accommodation, wards of healthcare facilities, students of an educational facility, or buyers of commodities sold by the property owner. This measure clarifies the definition of remuneration as it applies to compensation received by owners of private transient accommodations; hospitals, care homes, or healthcare agencies; or day care, preschool, or educational facilities and provides that such compensation shall not disqualify an owner from receiving the exemption from liability unless the owner violates the prohibition against price gouging.

Your Committee further finds that the ballistic missile alert that was broadcast in error to the public on January 13, 2018, has highlighted a need for additional public emergency shelters throughout the State. Senate Bill No. 2534, Regular Session of 2018, contains substantive provisions that would increase the number of emergency shelters open to the public. Your Committee notes that Senate Bill No. 2534 was originally referred to your Committee on Public Safety, Intergovernmental, and Military Affairs, and that further discussion on the language from that measure is necessary.

Your Committee has amended this measure by:

- (1) Adding a new part to include the substantive provisions of Senate Bill No. 2534, Regular Session of 2018, which:
 - (A) Requires the owners of buildings open to the public to provide shelter to visiting members of the public in cases of emergency or disaster;
 - (B) Requires the owners of buildings open to the public to inform the appropriate county emergency management agency of the designated shelter area; and

- (C) Provides immunity from civil liability for owners of buildings open to the public who provide shelter to visiting members of the public in cases of emergency or disaster;
- (2) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3083, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 3083, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2748 Water and Land on S.B. No. 2969

The purpose and intent of this measure is to reduce the size threshold for a single-family residence that is not part of a larger development to be excluded from the definition of “development” for purposes of the special management areas law.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources and Planning Department of the County of Kaua‘i. Your Committee received testimony in opposition to this measure from the Building Industry Association of Hawaii. Your Committee received comments on this measure from the Office of Planning, Department of Planning and Permitting of the City and County of Honolulu, and Department of Planning of the County of Maui.

Your Committee finds that a reduction in the floor area threshold of a single-family residence will offer further opportunity for the county planning departments to review potential cumulative impacts, or significant environmental or ecological effects, from construction or reconstruction of a single-family residence in a special management area.

Your Committee notes the written testimony submitted by the Department of Land and Natural Resources indicating that the Hawaii Sea Level Rise Vulnerability and Adaptation Report approved by the Hawaii Climate Change Mitigation and Adaptation Commission recommended sea level rise vulnerability considerations to be integrated into coastal zone management laws. Your Committee further notes a suggestion made by a county planning department to allow each county planning authority to determine a size threshold that is less than the size threshold proposed under this measure.

Accordingly, your Committee has amended this measure by:

- (1) Amending section 1 to more thoroughly reflect its purpose;
- (2) Reducing the size threshold to two thousand square feet of floor area for a single-family residence to be excluded from the definition of development used in the special management areas law;
- (3) Authorizing each county planning authority to determine a size threshold that is less than two thousand square feet of floor area for a single-family residence to be excluded from the definition of development used in the special management areas law;
- (4) Amending the special management area guidelines to require the county planning authorities to consider sea level rise when reviewing and approving all developments; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2969, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2969, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Gabbard, Thielen).

SCRep. 2749 Judiciary on S.B. No. 2343

The purpose and intent of this measure is to:

- (1) Amend the offense of abuse of family or household members to provide for felony, misdemeanor, and petty misdemeanor penalties;
- (2) Expand the family court’s jurisdiction over cases involving harassment of a family or household member;
- (3) Allow the granting of a deferred acceptance of guilty or no contest plea in cases involving misdemeanor abuse of a family or household member in the second degree, subject to certain conditions; and
- (4) Require that no-contact and stay-away orders issued in criminal cases involving abuse of a family or household member or non-physical forms of harassment of a family or household member be converted by the court to a new protective order that shall remain in effect for a fixed reasonable period as the court deems appropriate, unless the victim or witness requests otherwise; provided that a hearing on the issue is held and certain requirements are met.

Your Committee received testimony in support of this measure from the Office of the Prosecuting Attorney of the County of Kaua‘i; Department of the Prosecuting Attorney of the County of Maui; Honolulu Police Department; Parents and Children Together; Domestic Violence Action Center; Hawaii State Coalition Against Domestic Violence; Ho‘omana Pono, LLC; Oahu County Committee on Legislative Priorities of the Democratic Party of Hawai‘i; and nine individuals. Your Committee received testimony in opposition to this measure from the Office of the Public Defender and four individuals. Your Committee received comments on this measure from the Judiciary, Department of the Attorney General, Mothers of Lost Children, and Battered Mothers Custody Conference.

Your Committee finds that domestic violence is a serious concern that threatens the health and safety of many of the State's citizens. The reforms to domestic violence statutes in this measure are meant to address deficiencies in the system by increasing the penalties for the perpetrators of domestic violence, expanding the role of the family court in adjudicating domestic violence cases, and providing additional safeguards relating to protective orders for domestic violence victims.

Your Committee notes that a recodification of the provisions of section 709-906, Hawaii Revised Statutes, into three distinct degrees of abuse of family or household members, using language and structure that more closely resembles other Hawaii Penal Code offenses, might be considered. Your Committee further notes possible administrative difficulties in converting stay-away orders issued in criminal proceedings into indeterminate post-conviction civil protective orders. Your Committee encourages further discussion on these issues as this measure proceeds.

Your Committee has amended this measure by:

- (1) Inserting an effective date of January 1, 2050, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2343, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2343, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2750 Judiciary on S.B. No. 2427

The purpose and intent of this measure is to:

- (1) Establish a temporary law enforcement working group to make recommendations to the Legislature on establishing professional recruitment, hiring, and training standards for all state law enforcement officers who carry firearms and badges and who have arrest authority; and
- (2) Prohibit a law enforcement officer who has been terminated for misconduct by a state or county department, agency, or office in the capacity of law enforcement from being hired by another state or county law enforcement department, agency, or office.

Your Committee received testimony in support of this measure from the Department of Public Safety, Department of Transportation, Department of Land and Natural Resources, Oahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, and one individual. Your Committee received comments on this measure from the Department of Taxation.

Your Committee finds that there are no existing statewide standards for recruiting, hiring, and training law enforcement personnel across state agencies, making Hawaii one of the few states lacking in such statewide standards. Establishing statewide standards for recruiting, hiring, and training of law enforcement personnel will promote uniformity in law enforcement throughout the State, allow state and county law enforcement agencies to adopt best practices, and enable superior coordination and cooperation among law enforcement agencies in Hawaii.

Your Committee has amended this measure by:

- (1) Changing all references to "state law enforcement officers" throughout the measure to "state and county law enforcement officers" to clarify that the working group's consideration extends to all law enforcement departments, agencies, and offices in Hawaii;
- (2) Replacing the representative of the Harbors Division of the Department of Transportation and the representative of the Airports Division of the Department of Transportation with a single representative of the Department of Transportation on the proposed law enforcement working group;
- (3) Requiring that law enforcement officers who are reinstated shall be removed from the list of terminated law enforcement officers maintained by the Department of the Attorney General as soon as reasonably possible;
- (4) Inserting an effective date of July 1, 2035, to encourage further discussion; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2427, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2427, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2751 Judiciary on S.B. No. 2436

The purpose and intent of this measure is to shorten the time period for voluntary surrender of firearms and ammunition upon disqualification from ownership, possession, or control from thirty days to twenty-four hours.

Your Committee received testimony in support of this measure from the Office of the Mayor of the County of Hawai'i; Honolulu Police Department; Injury Prevention Advisory Committee; Parents and Children Together; Hoomana Pono, LLC; Filipina Advocacy Network; and thirty individuals. Your Committee received testimony in opposition to this measure from the National Rifle Association of America, Honolulu County Republican Party, and twenty-seven individuals. Your Committee received comments on this measure from one individual.

Your Committee finds that reducing the time period for voluntary surrender of firearms and ammunition upon disqualification from ownership, possession, or control will reduce the risk of firearm violence after disqualification. A time period that is unreasonably short could lead to avoidable hostile encounters between disqualified persons and law enforcement and a longer period of time for surrender may be more appropriate.

Your Committee has amended this measure by:

- (1) Changing the time period for voluntary surrender of firearms and ammunition upon disqualification from ownership, possession, or control from twenty-four hours to seven days; and
- (2) Inserting an effective date of July 1, 2050, to encourage further discussion.

Your Committee notes the concerns that the existing time period of thirty days for voluntary surrender needs to change and that a time period of seven days may still be inappropriately long, and thus encourages further discussion of what an appropriate time period should be as this measure progresses.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2436, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2436, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 5; Ayes with Reservations (Gabbard, Kim, Thielen). Noes, none. Excused, none.

SCRep. 2752 Judiciary on S.B. No. 2610

The purpose and intent of this measure is to add a definition of “intern” to the State Ethics Code and include interns among state employees to whom the Code applies.

Your Committee received testimony in support of this measure from the Hawaii State Ethics Commission and one individual.

Your Committee finds that Advisory Opinion No. 2006-1, issued by the Hawaii State Ethics Commission, determined that legislative interns are deemed to be employees and are therefore subject to the provisions of the State Ethics Code. Your Committee further finds that some interns, especially those interns who intern full-time with the State, might appear to an outsider to be a full-time state employee. Subjecting interns to the provisions of the State Ethics Code will promote greater consistency in the application and enforcement of ethics rules in state agencies and governmental institutions.

Your Committee notes that further discussion is necessary relating to the issue of whether interns will be bound by the provisions of the post-employment requirements in section 84-18, Hawaii Revised Statutes.

Your Committee has amended this measure by:

- (1) Clarifying the definition of “intern” to mean:
 - (A) A person who, for an unspecified number of hours or more per week, performs unpaid services for the State as part of an educational internship program; or
 - (B) A private sector employee who takes an unpaid leave of absence from their other employment to instead work for the State for a fixed period of time not to exceed an unspecified number of days; and
- (2) Inserting an effective date of January 1, 2035, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2610, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2610, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 2753 Judiciary on S.B. No. 2800

The purpose and intent of this measure is to provide an avenue for the Department of Health to share amongst its program employees certain personal health statistics records for research purposes, subject to approval by the Department’s institutional review committee.

Your Committee received testimony in support of this measure from the Department of Health, Hawaii Primary Care Association, and Hawaii Children’s Action Network. Your Committee received testimony in opposition to this measure from one individual.

Your Committee finds that individuals have a significant privacy interest in their records that are held and maintained by the Department of Health. The State and, by extension, the Department of Health has an interest in conducting research using public health statistics, but this interest must be properly balanced against the significant privacy interests of the individuals whose records are used in the research. This measure will protect the privacy interest of individuals while allowing employees of the Department of Health to use vital statistics records for the purposes of research.

Your Committee has amended this measure by:

- (1) Clarifying that a public health purpose for approved research must substantially outweigh the confidentiality interest of the persons identified in a record for the record to be disclosed;
- (2) Inserting an effective date of January 1, 2035, for the purposes of clarity and consistency; and

- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2800, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2800, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2754 Judiciary on S.B. No. 2922

The purpose and intent of this measure is to propose amendments to the Constitution of the State of Hawaii to advance the State's goal of providing a quality education for the children of Hawaii by authorizing the Legislature to establish, as provided by law, a surcharge on residential investment property and visitor accommodations.

Your Committee received testimony in support of this measure from the Department of Education, Special Education Advisory Council, Democratic Party of Hawaii, Hawaii State Teachers Association, IMUAlliance, Hawai'i Appleseed Center for Law and Economic Justice, Hui for Excellence in Education, Americans for Democratic Action Hawai'i, Oahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, Hawai'i Alliance for Progressive Action, Young Progressives Demanding Action – Hawaii, Labor Caucus of the Democratic Party of Hawaii, and numerous individuals. Your Committee received testimony in opposition to this measure from the County of Hawaii, Office of the Mayor of the County of Hawaii, Real Property Assessment Division of the County of Maui, Coalition for Equal Taxation, Hawai'i Association of REALTORS, Kohala Coast Resort Association, Rental By Owner Awareness Association, American Resort Development Association Hawai'i, Mauna Kea Resort, Maui Hotel and Lodging Association, one member of the Maui County Council, and four individuals. Your Committee received comments on this measure from the Department of Budget and Finance, Real Property Assessment Division of the City and County of Honolulu, Tax Foundation of Hawaii, and League of Women Voters.

Your Committee finds that article X, section 1, of the Constitution of the State of Hawaii requires the State to provide a system of public education. Hawaii is unique compared to the other states because the State, instead of a county of local level jurisdiction, is responsible for public education. A surcharge on residential investment property and visitor accommodations would provide additional resources for the State to better meet its educational responsibilities to the children of Hawaii.

Your Committee notes that this measure has generated a significant response from the public, including substantial indications of support from Hawaii State Teachers Association members.

Your Committee has amended this measure by:

- (1) Simplifying the amending language to article X, section 1, of the Constitution of the State of Hawaii and removing the definitions of "residential investment property" and "visitor accommodations"; and
- (2) Rephrasing and clarifying the amendment's ballot question.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2922, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2922, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2755 Judiciary on S.B. No. 2046

The purpose and intent of this measure is to prohibit trigger modification devices, including bump stocks, that are designed or function to accelerate the rate of fire of a semiautomatic firearm.

Your Committee received testimony in support of this measure from the Office of the Mayor of the County of Hawai'i, Department of the Prosecuting Attorney of the County of Maui, Honolulu Police Department, Injury Prevention Advisory Committee, Young Progressives Demanding Action Hawaii, Filipina Advocacy Network, IMUAlliance, Oahu County Committee on Legislative Priorities of the Democratic Party of Hawaii, and thirty-nine individuals. Your Committee received testimony in opposition to this measure from the National Rifle Association of America, Honolulu County Republican Party, 2A Hawaii, Hawaii Rifle Association, Hawaii Hunting Association, Institute for Rational and Evidence-based Legislation, and more than four hundred fifty individuals. Your Committee received comments on this measure from two individuals.

Your Committee finds that the shooter in the October 1, 2017, Las Vegas shooting used a device, commonly known as a "bump stock", to manipulate the trigger mechanism on a semi-automatic rifle in such a way as to allow a rate of fire comparable to a fully automatic firearm. Your Committee further finds that the State has a compelling interest in limiting the availability of such devices to promote the safety of the public and reduce the risk of firearm violence in Hawaii. Your Committee additionally finds that the definition of "trigger modification device" in this measure is unnecessarily complicated and limiting. Your Committee notes that House Bill No. 1908 H.D.1, Regular Session of 2018, contains new statutory language that is substantively similar but more flexible.

Accordingly, your Committee has amended this measure by:

- (1) Removing language prohibiting ownership of trigger modification devices;
- (2) Inserting language from House Bill No. 1908 H.D.1, Regular Session of 2018, establishing the manufacture, import, sale, gift, lending, or possession of any multiburst trigger activator as a class C felony;
- (3) Defining "multiburst trigger activator" to mean:

- (A) A device that simulates automatic gunfire by allowing standard function of a semiautomatic firearm with a static positioned trigger finger or a device that fires multiple shots with the pull and release of the trigger; or
 - (B) A manual or power-driven trigger activating device constructed and designed so that when attached to a semiautomatic firearm it simulates automatic gunfire; and
- (4) Inserting an effective date of July 1, 2050, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2046, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2046, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2756 Judiciary on S.B. No. 2087

The purpose and intent of this measure is to amend section 663-1.5, Hawaii Revised Statutes, the Good Samaritan Law, to:

- (1) Provide liability exemptions for owners and operators of any premises, property, or facility where automated external defibrillators and rescue tubes are located for the storage, maintenance, or use of the automated external defibrillators or rescue tubes; and
- (2) Provide liability exemptions for rescuers who attempt to rescue a person with a rescue tube.

Your Committee received testimony in support of this measure from the Ocean Tourism Coalition; Rescue Tube Foundation, Inc.; Quicksilver Charters; Calypso Charters; Oahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i; AED Institute; Rotary Club of Hanalei Bay; and three individuals. Your Committee received comments on this measure from the Hawaii Association for Justice.

Your Committee finds that the Good Samaritan Law provides general exemptions for persons who provide aid to others in emergency situations from liability stemming from their actions in providing aid, as well as specific exemptions from liability for types of persons or categories of aid that apply in specific circumstances. Your Committee further finds that in Hawaii nearly half of all non-resident fatal injuries are caused by drowning, and nearly eighty percent of these drownings occur in the ocean. Providing a specific exemption from liability for persons who use rescue tubes to provide aid to persons experiencing distress in the water and persons who keep or maintain rescue tubes on their property will promote safer conditions for visitors and Hawaii residents on the State's beaches.

Your Committee notes that, under the Good Samaritan Law as it currently exists, "[a]ny person ... who provides for an automated external defibrillator" is already exempt from vicarious liability for civil damages resulting from the use of the defibrillator. The language in this measure exempting "[t]he owner or operator of any premises, property, or facility where an automated external defibrillator is located" is therefore superfluous.

Your Committee has amended this measure by:

- (1) Deleting language exempting an owner or operator of any premises, property, or facility where an automated external defibrillator is located from liability for any act or omission relating to the storage, maintenance, or use of the automated external defibrillator;
- (2) Clarifying that an owner or operator of any premises, property, or facility where a rescue tube is located is exempt from vicarious liability;
- (3) Inserting an effective date of July 1, 2035, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2087, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2087, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2757 Judiciary on S.B. No. 2092

The purpose and intent of this measure is to establish knowingly making a false statement to a county inspector as a crime within the offense of unsworn falsification to authorities.

Your Committee received testimony in support of this measure from the Department of Planning and Permitting of the City and County of Honolulu, County of Hawai'i Planning Department, Hawaii Construction Alliance, 'Āina Haina Community Association, and eight individuals. Your Committee received comments on this measure from the Department of Planning of the County of Maui.

Your Committee finds that the ability of county inspectors to discharge their duty is impaired when persons make false statements to inspectors or are otherwise not forthright with information. This measure will empower county inspectors to compel truthful responses in the course of the inspectors' investigations by establishing knowingly making a false statement to a county inspector as a misdemeanor offense.

Your Committee has amended this measure by:

- (1) Inserting an effective date of July 1, 2035, to encourage further discussion; and

- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2092, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2092, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2758 Judiciary on S.B. No. 2097

The purpose and intent of this measure is to:

- (1) Authorize child abuse and neglect investigation findings for incidents occurring in licensed group child care homes or group child care centers to be disclosed to parents or guardians of children enrolled in the home or center at the time of the alleged abuse or neglect or to parents or guardians considering enrolling their children in the home or center; and
- (2) Authorize the disclosure of an investigation involving a finding of a felony or misdemeanor to any person upon request.

Your Committee received testimony in support of this measure from The Queen's Health Systems; Hawaii Nurses Association, OPEIU, Local 50; Sounds of Success Preschool; Oahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i; and fourteen individuals. Your Committee received comments on this measure from the Department of the Attorney General, Department of Human Services, and Parents and Children Together.

Your Committee finds that child care facilities play an important role in the development and growth of a child. The disclosure of child abuse or neglect that takes place at a child care facility will allow parents to be better informed and to better ensure the safety of their child or children. Your Committee notes that the disclosure of unfounded allegations can result in unwarranted fear and is not conducive to ensuring the safety of children at a child care facility where no child abuse or neglect is in fact occurring.

Your Committee notes that section 350-1.4, Hawaii Revised Statutes, already contains a confidentiality requirement for all reports of child abuse or neglect and corresponding records prepared pursuant to chapter 350, Hawaii Revised Statutes.

Accordingly, your Committee has amended this measure by:

- (1) Requiring the Department of Human Services to confirm that an allegation or report of child abuse or neglect did occur within a group child care home or group child care center before disclosure of an assessment from an investigation;
- (2) Authorizing disclosure in cases in which the child abuse or neglect was perpetrated by an agent, employee, or independent contractor of the group child care home or group child care center;
- (3) Deleting language authorizing disclosure to parents who are considering placing a child into a group child care home or group child care center and inserting language authorizing disclosure to parents who have submitted an application or request to place a child into a group child care home or group child care center;
- (4) Clarifying that disclosed information shall not contain names or other identifying information of any individual whose name or other information is otherwise protected from disclosure;
- (5) Deleting language authorizing disclosure upon request of any investigation involving a finding of a felony or misdemeanor; and
- (6) Inserting an effective date of July 1, 2050, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2097, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2097, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2759 Judiciary on S.B. No. 2290

The purpose and intent of this measure is to prohibit state and county law enforcement agencies from complying with federal immigration detainers or honoring requests for non-public information unless specifically required to do so by a warrant signed by a judge or federal, state, or local law.

Your Committee received testimony in support of this measure from IMUAlliance; Hawaii J-20+; Hawai'i State Democratic Women's Caucus; Planned Parenthood Votes Northwest and Hawaii; 808RAN, Filipino American Citizens League; Ho'omana Pono, LLC; Nursing Advocates and Mentors, Inc.; and thirty-two individuals. Your Committee received testimony in opposition to this measure from the Department of the Prosecuting Attorney of the County of Maui and five individuals. Your Committee received comments on this measure from the Department of the Attorney General.

Your Committee finds that there is no affirmative duty strictly provided in federal law for state and local law enforcement agencies to collect information regarding citizenship or immigration status of any individual or to participate in federal immigration enforcement actions unless required by a warrant, court order, or specific provision of law. Under existing law, state and local law enforcement agencies may cooperate with federal immigration enforcement activities at the discretion of the agency. This measure prohibits state and local law enforcement agencies from complying with federal immigration detainers or honoring requests for non-public information unless specifically required to do so by law or warrant. Your Committee notes concerns raised by the testimony of the Department of the Attorney General regarding vague or ambiguous terminology, and specifically encourages discussion on the potential definition of "non-public information" as this measure progresses.

Your Committee has amended this measure by:

- (1) Clarifying that law enforcement agencies may disclose information, not limited to an individual's criminal arrest or convictions, where permitted by state law or required pursuant to subpoena or court order;
- (2) Requiring law enforcement agencies to allow access to individuals in custody in the same circumstances in which the law enforcement agency would be required to honor requests for information under this measure; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2290, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2290, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 5; Ayes with Reservations (Gabbard). Noes, none. Excused, none.

SCRep. 2760 Ways and Means on S.B. No. 2374

The purpose and intent of this measure is to establish a community paramedic services pilot program to reduce the volume of 911 calls for non-emergency medical conditions.

Specifically, this measure:

- (1) Requires the Department of Health to administer a three-year community paramedic services pilot program at two sites, one of which shall be on a neighbor island;
- (2) Requires that the pilot program have the following components: training and certification, staffing, equipment and supplies, medical records, and billing;
- (3) Requires various annual reports to the Legislature regarding the pilot program; and
- (4) Appropriates funds for the pilot program.

Your Committee received written comments in support of this measure from the Hawaii Fire Department; Hawaii Pacific Health; American Medical Response; The Queen's Health Systems; The Queen's Medical Center; OCC Legislative Priorities Committee, Democratic Party of Hawaii; and two individuals.

Your Committee received written comments on this measure from the Department of Health and the Emergency Services Department of the City and County of Honolulu.

Your Committee finds that community paramedic programs have proven to be cost-effective in reducing both 911 emergency medical services demands and ambulance use, while addressing the medical needs of individuals through non-emergency rapid assessment and treatment that more closely aligns with the needs of treated patients.

Your Committee has amended this measure by:

- (1) Changing the amounts appropriated to unspecified amounts;
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (3) Making a technical nonsubstantive amendment for purposes of style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2374, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2374, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 10. Noes, none. Excused, 1 (Shimabukuro).

SCRep. 2761 Ways and Means on S.B. No. 2788

The purpose and intent of this measure is to develop a program to collect and analyze healthcare data.

Specifically, this measure establishes the Health Analytics Program in the Med-QUEST Division of the Department of Health to maintain an all-claims, all payer database, and an encompassing data center to collect and analyze healthcare data.

Your Committee received testimony in support of this measure from the Department of Budget and Finance, Department of Health, Department of Human Services, University of Hawaii System, State Health Planning and Development Agency, Office of Enterprise Technology Services, Department of Commerce and Consumer Affairs Insurance Division, Hawaii Primary Care Association, and Hawaii Medical Service Association.

Your Committee received written comments on this measure from the Employer-Union Health Benefits Trust Fund.

Your Committee finds that understanding the cost drivers of healthcare at an individual level, through the use of an all-claims, all payer database, will provide necessary information to develop programs that encourage healthy behaviors and control rising healthcare costs.

Your Committee has amended this measure by:

- (1) Changing the amounts appropriated to unspecified amounts;

- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (3) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2788, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2788, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 11. Noes, none. Excused, none.

SCRep. 2762 Ways and Means on S.B. No. 2188

The purpose and intent of this measure is to use the conveyance tax as a source of funding for affordable housing.

More specifically, the measure:

- (1) Increases the conveyance tax on the sale of each condominium and single family residence with a value of at least \$2,000,000; and
- (2) Requires that all revenues received as result of the foregoing tax increase be paid into the respective county's affordable housing fund.

Your Committee received written comments in support of this measure from the Office of Hawaiian Affairs, the Maui County Council, and three individuals.

Your Committee received written comments in opposition to this measure from the Hawaii Association of REALTORS and the Land Use Research Foundation of Hawaii.

Your Committee received written comments on this measure from the Department of Taxation.

Your Committee finds that the demand for affordable housing far exceeds supply, and that increasing the availability of affordable housing should be a top priority. Your Committee believes that this measure will lead to an increase in funding for affordable housing.

Your Committee has amended this measure by:

- (1) Changing the effective date to January 1, 2019, to allow the Department of Taxation sufficient time to update forms and instructions that are relevant to the purposes of this measure; and
- (2) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2188, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2188, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 10. Noes, none. Excused, 1 (Shimabukuro).

SCRep. 2763 Ways and Means on S.B. No. 2778

The purpose and intent of this measure is to establish a revolving fund administered by the Department of Defense to accept lodging fees.

Specifically, this measure establishes the chargeable transient quarters revolving fund to accept revenues from fees paid by United States Army National Guard, active duty, and reserve trainees and other occupants for use of transient quarters.

Your Committee received written comments in support of this measure from the Department of Defense.

Your Committee finds that revenues from billet fees are currently commingled with other funds in a trust account. Establishing a revolving fund to deposit the billet fee revenues will establish a better business and accounting practice for the Department of Defense.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (2) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2778, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2778, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 9. Noes, none. Excused, 2 (Kahele, Shimabukuro).

SCRep. 2764 Ways and Means on S.B. No. 2764

The purpose and intent of this measure is to preserve the use and control of unclaimed member contribution and benefit payments by the Employees' Retirement System (system).

More specifically, this measure requires that if the system cannot locate:

- (1) A member or former member under the contributory, non-contributory, or hybrid plan; or

- (2) A former employee under the contributory or hybrid plan who has separated from service without vesting in retirement benefits, but has not withdrawn the former employee's accumulated contributions,

when the statutory deadline is reached for the system to:

- (1) Distribute retirement benefits to the member or former member; or
- (2) Return accumulated contributions to the former employee,

then:

- (1) The member's or former member's retirement benefits shall be forfeited to the system; and
- (2) The system's obligation to return the former employee's accumulated contributions will initially be suspended, and the accumulated contributions will subsequently be forfeited to the system, if the former employee still cannot be located.

Your Committee received written comments in support of this measure from the Employees' Retirement System.

Your Committee finds that the level of unclaimed member benefits and accumulated contributions varies from year to year but generally ranges between \$500,000 and \$1,000,000 per year. Under the present law, unclaimed member benefits and accumulated contributions are presumed abandoned after a statutorily-determined period of time and are required to be paid into the Unclaimed Property Trust Fund. Your Committee finds that allowing the Employees' Retirement System to retain the use and control of unclaimed member benefits and accumulated contributions will increase the investment return of the pension accumulation fund and reduce its unfunded liability.

Your Committee has amended this measure by:

- (1) Reconciling the text of section 88-74.7, Hawaii Revised Statutes (HRS), in the measure with the printed version of the HRS;
- (2) Clarifying that April 1 of the year following a member's or former member's "required beginning date" (April 1 of the calendar year following the calendar year in which the member or former member terminates service or attains age seventy and one-half, whichever is later) is the deadline for locating the member or former member; and
- (3) Making technical, nonsubstantive changes for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2764, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2764, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, 4 (English, Kahele, Keith-Agaran, Wakai).

SCRep. 2765 Ways and Means on S.B. No. 2747

The purpose and intent of this measure is to update the Hawaii Nonprofit Corporations Act.

Specifically, this measure:

- (1) Clarifies that a public benefit corporation may not purchase its memberships;
- (2) Clarifies that the term "director" only includes those who have the authority to vote as a member of the board;
- (3) Clarifies that a corporation with members may provide for appointment by some other person, or designation, of some of its directors; and
- (4) Provides the Attorney General with more time to review a proposed sale or other disposition of substantially all of the assets of a corporation, other than in the regular course of its activities.

Your Committee received written comments in support of this measure from the Department of the Attorney General.

Your Committee finds that this measure expressly prohibits a public benefit corporation from using its charitable assets to purchase its memberships, an action that is effectively a distribution to the corporation's members and is not consistent with a public benefit corporation's charitable purpose.

Your Committee has amended this measure by:

- (1) Clarifying that a corporation with members may appoint directors by designation, if provided by the corporation's articles of incorporation or bylaws; and
- (2) Making a technical nonsubstantive change for the purpose of style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2747, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2747, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 10. Noes, none. Excused, 1 (Kahele).

SCRep. 2766 Ways and Means on S.B. No. 2060

The purpose and intent of this measure is to encourage parties involved in condominium related disputes to use alternative dispute resolution instead of resolving those disputes in court.

Specifically, this measure:

- (1) Authorizes the use of moneys from the condominium education trust fund for voluntary binding arbitration of condominium related disputes after the parties have attempted evaluative mediation; and
- (2) Amends the mediation requirements for condominium related disputes to require parties to certain condominium related disputes to participate in mediation, upon the request of one party.

Your Committee received written comments in support of this measure from one individual.

Your Committee received written comments in opposition to this measure from one individual.

The Hawaii Real Estate Commission submitted written comments on this measure.

Your Committee finds that requiring parties to participate in mediation, and the recent concept of evaluative mediation, will help to resolve condominium related disputes faster and at lower costs to all parties.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (2) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2060, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2060, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 10. Noes, none. Excused, 1 (Shimabukuro).

SCRep. 2767 Ways and Means on S.B. No. 2594

The purpose and intent of this measure is to require, beginning January 1, 2019, that construction or renovation of publicly funded residential housing projects, including housing projects developed or financed under the Hawaii Housing Finance and Development Corporation, incorporate specific housing visitability standards.

The measure also allows, but does not require, the Hawaii Public Housing Authority to incorporate the housing visitability standards in residential housing projects that it develops or finances.

Your Committee received written comments in support of this measure from the Hawaii Public Housing Authority; League of Women Voters of Hawaii; and OCC Legislative Priorities Committee, Democratic Party of Hawaii.

The Hawaii Housing Finance and Development Corporation submitted written comments on the measure.

Your Committee finds that the incorporation of housing visitability standards into construction or renovation of publicly funded residential housing is an important means of providing accessibility and safety for individuals with disabilities when those individuals visit or use residential space, and as such, should be consistently required for housing projects developed or financed under the Hawaii Housing Finance and Development Corporation, as well as under the Hawaii Public Housing Authority.

Your Committee has amended this measure by:

- (1) Requiring, rather than authorizing, that all construction or renovation of housing projects intended for residential use developed or financed under the Hawaii Public Housing Authority comply with the visitability standards established by this measure, while retaining the qualifying language that limits the extent to which the Hawaii Public Housing Authority must comply with the visitability construction mandate;
- (2) Changing the effective date to January 1, 2050, to facilitate further discussion on the measure; and
- (3) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2594, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2594, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 10. Noes, none. Excused, 1 (Shimabukuro).

SCRep. 2768 Ways and Means on S.B. No. 2070

The purpose and intent of this measure is to lay the foundation to implement instruction on digital citizenship and media literacy at public schools and charter schools.

Specifically, this measure requires the Department of Education to:

- (1) Convene an advisory committee to make recommendations regarding implementing digital citizenship and media literacy instruction at public schools, including charter schools and Hawaiian language immersion schools;
- (2) Develop a plan based upon the recommendations made by the advisory committee; and
- (3) Submit a report to the Legislature on the plan and a timeline for implementing the plan.

Your Committee received written comments in support of this measure from the State Public Charter School Commission; Media Literacy Now; OCC Legislative Priorities Committee, Democratic Party of Hawaii; and two individuals.

Your Committee finds that media literacy is an essential skill for learning about and interacting with the digital world. Preparing children to use technology in a responsible manner will help to ensure that they become positive and productive digital citizens.

Your Committee has amended this measure by:

- (1) Recasting the provisions in section 2 of the measure as a session law due to the temporary nature of the requirements;
- (2) Changing the order of the subsections in section 2 to read chronologically;
- (3) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (4) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2070, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2070, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, none. Excused, 3 (Galuteria, Riviere, Shimabukuro).

SCRep. 2769 Ways and Means on S.B. No. 2677

The purpose and intent of this measure is to affirm the State's commitment to conservation and sustainability by codifying in state law the goal relating to peace, justice, and strong institutions, of the United Nations Sustainable Development Goals and indicators.

Your Committee received written comments in support of this measure from the Office of Planning, Filipina Advocacy Network FAN, Hawai'i Green Growth, OCC Legislative Priorities Committee, Democratic Party of Hawaii, Planned Parenthood Votes Northwest and Hawaii, and three individuals.

Your Committee finds that in order for Hawaii to continue to serve as an example for the rest of the world in setting policies on sustainability and to serve as a global leader on issues of conservation and sustainability, it is essential that the State demonstrate its full commitment to its own policies and goals as well as the sustainable development goals set by the United Nations.

Your Committee has amended this measure by changing the effective date from July 1, 2035, to upon approval.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2677, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2677, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 10. Noes, none. Excused, 1 (Shimabukuro).

SCRep. 2770 Ways and Means on S.B. No. 3023

The purpose and intent of this measure is to encourage economic equality for impaired individuals.

Specifically, this measure repeals provisions that allow individuals whose learning capacity is impaired by old age or physical or mental deficiency or injury to receive wages lower than the applicable minimum wage.

Your Committee received written comments in support of this measure from the AFL-CIO, Hawaii State Teachers Association, Young Progressives Demanding Action-Hawaii, IMUAlliance, Pono Hawaii Initiative, National Federation of the Blind of Hawaii, Hawaii Alliance for Progressive Action, Progressive Democrats of Hawaii, and six individuals.

Your Committee received written comments in opposition to this measure from the Hawaii Self Advocacy Advisory Council and Lanakila Pacific.

Your Committee received written comments on this measure from the Department of Labor and Industrial Relations, and Hawaii Disability Rights Center.

Your Committee finds that with Hawaii's high cost of living and the availability and advancement of assistive technologies that can aid all workers, it is necessary that the State's policies be supportive and inclusive to allow all workers with disabilities to reach their full vocational and socioeconomic potential.

Your Committee has amended this measure by:

- (1) Adding a new part to the measure that appropriates funds to the Department of Business, Economic Development, and Tourism to conduct a study on the effects of minimum wage increases;
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (3) Making technical nonsubstantive changes for the purposes of clarity, consistency, and style.

Your Committee notes that the Department of Business, Economic Development, and Tourism estimates that the minimum wage study required by part II of this measure, as amended, will cost approximately \$100,000.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3023, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 3023, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 11. Noes, none. Excused, none.

SCRep. 2771 Ways and Means on S.B. No. 2328

The purpose and intent of this measure is to help reduce the costs of books and supplies for students attending schools of the University of Hawaii System.

Specifically, this measure:

- (1) Establishes the University of Hawaii Open Educational Resources Task Force to identify potential sources of open educational resources; and
- (2) Establishes a pilot program to provide incentives for faculty to use open educational resources.

Your Committee received written comments in support of this measure from the University of Hawaii Student Caucus, Associated Students of the University of Hawaii at Manoa, and one individual.

Your Committee received written comments in opposition to this measure from the OCC Legislative Priorities Committee, Democratic Party of Hawaii; and five individuals.

The University of Hawaii System and one individual submitted written comments on this measure.

Your Committee finds that supporting the adoption of open educational resources as an alternative to the high prices of textbooks can help to alleviate the increasing costs of higher education.

Your Committee has amended this measure by:

- (1) Changing the amount appropriated from \$50,000 to an unspecified amount;
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (3) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2328, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2328, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 11. Noes, none. Excused, none.

SCRep. 2772 Ways and Means on S.B. No. 2079

The purpose and intent of this measure is to increase protection for sharks and rays.

More specifically, this measure:

- (1) Extends the prohibition against capturing or killing manta rays, and its related penalties and exceptions, to include killing, taking, possessing, abusing, or entangling sharks and all species of rays; and
- (2) Includes research permits allowed by law as an exception to the prohibition against capturing, killing, taking, possessing, abusing, or entangling sharks and rays.

Your Committee received written comments in support of this measure from the Department of Land and Natural Resources; The Humane Society of the United States; Surfrider Foundation Oahu Chapter; Hawaiian Civic Club of Honolulu; Keiko Conservation; Keiko Conservation International; West Hawaii Humane Society; For the Fishes; Pele Lani Farm LLC; OCC Legislative Priorities Committee, Democratic Party of Hawaii; and forty-eight concerned individuals.

Your Committee received written comments on this measure from the Office of Hawaiian Affairs and one concerned individual.

Your Committee finds that sharks and rays are vital to the ocean ecosystem; however, these creatures are more vulnerable than most other fish species. Your Committee recognizes that these animals are also culturally important to Native Hawaiians. Accordingly, your Committee believes that sharks and rays require additional protection.

Your Committee has amended this measure by:

- (1) Adding an exception for sharks taken outside of state marine waters and possessed on a vessel in state marine waters pursuant to a federally managed fishery, for the purpose of landing the catch in the State; and
- (2) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2079, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2079, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 11. Noes, none. Excused, none.

SCRep. 2773 Ways and Means on S.B. No. 2671

The purpose and intent of this measure is to affirm the State's commitment to conservation and sustainability by codifying in state law the goal of reducing inequalities, of the United Nations Sustainable Development Goals and indicators.

Your Committee received written comments in support of this measure from the Office of Planning; Filipina Advocacy Network FAN; Hawaii Green Growth; OCC Legislative Priorities Committee, Democratic Party of Hawaii; Planned Parenthood Votes Northwest and Hawaii; and three individuals.

Your Committee finds that in order for Hawaii to continue to serve as an example for the rest of the world in setting policies on sustainability and to serve as a global leader on issues of conservation and sustainability, it is essential that the State demonstrate its full commitment to its own policies and goals as well as the sustainable development goals set by the United Nations.

Your Committee has amended this measure by changing the effective date from July 1, 2035, to upon approval.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2671, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2671, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 10. Noes, none. Excused, 1 (Shimabukuro).

SCRep. 2774 Ways and Means on S.B. No. 101

The purpose and intent of this measure is to appropriate funds in compliance with Article VII, section 6, of the Hawaii State Constitution.

For the purposes of a public hearing, your Committee circulated a proposed S.D. 1 (Proposed Draft) of the measure and notified the public that your Committee would be accepting testimony on the Proposed Draft, which requires that employer contributions to the Employees' Retirement System be paid from the same special fund revenues under which the employee was hired.

Your Committee received testimony in opposition to the Proposed Draft from the University of Hawaii System.

Your Committee received comments on the Proposed Draft from the Department of Budget and Finance.

Your Committee finds that requiring employer contributions to the Employees' Retirement System to be paid from the same special fund that funds an employee's salary or wages will help to properly allocate the full cost of each employee to the appropriate source of revenues.

Your Committee has amended this measure by adopting the Proposed Draft with the additional amendment that the special fund revenues funding the employer's contribution to the Employees' Retirement System on behalf of the employee shall be those of the special fund under which the employee is funded, rather than hired.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 101, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 101, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 11. Noes, none. Excused, none.

SCRep. 2775 Ways and Means on S.B. No. 2666

The purpose and intent of this measure is to codify the State's commitment to conservation and sustainability by including the gender equality goal of the United Nations Sustainable Development Goals, in the Hawaii Revised Statutes.

Your Committee received testimony in support of this measure from the Department of Education; Office of Planning; Filipina Advocacy Network FAN; Hawaii Green Growth; OCC Legislative Priorities Committee, Democratic Party of Hawaii; Planned Parenthood Votes Northwest and Hawaii; and three individuals.

Your Committee finds that in order for Hawaii to continue to serve as an example for the rest of the world in setting policies on sustainability and to serve as a global leader on issues of conservation and sustainability, it is essential that the State demonstrate its full commitment to its own policies and goals as well as the sustainable development goals set by the United Nations.

Your Committee has amended this measure by changing the effective date from July 1, 2035, to upon approval.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2666, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2666, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 10. Noes, none. Excused, 1 (Shimabukuro).

SCRep. 2776 Ways and Means on S.B. No. 2866

The purpose and intent of this measure is to allow the Department of Land and Natural Resources to use aquatic in-lieu fee mitigation as a form of compensatory mitigation for aquatic habitats or resources.

Your Committee received written comments in support of this measure from the Department of Land and Natural Resources; OCC Legislative Priorities Committee, Democratic Party of Hawaii; and two concerned individuals.

Your Committee finds that in-lieu fee mitigation is a widely used and an effective compensatory mitigation mechanism.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and

- (2) Making technical nonsubstantive changes for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2866, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2866, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 11. Noes, none. Excused, none.

SCRep. 2777 Ways and Means on S.B. No. 2905

The purpose and intent of this measure is to improve access to early childhood care and learning programs in the State.

More specifically, this measure:

- (1) Establishes a refundable income tax credit for employers who create on-site early childhood facilities; and
- (2) Establishes and appropriates funds for one full-time on-site early childhood facility coordinator position.

Your Committee received written comments in support of this measure from the Executive Office on Early Learning; Hawaii Children's Action Network; and OCC Legislative Priorities Committee, Democratic Party of Hawaii.

Your Committee received written comments on this measure from the Department of Human Services; Department of Taxation; and Tax Foundation of Hawaii.

Your Committee finds that Hawaii has one of the highest costs for child care in the nation. As a result, in many families, one parent will leave the workforce to care for their children on a full-time basis instead of enrolling the children in child care. Consequently, more of Hawaii's children are entering kindergarten without the physical, cognitive, linguistic, social, and emotional skills necessary to prepare them for success in school. Your Committee further finds that the creation of on-site early childhood facilities by employers could address parents' concerns regarding child care costs and provide access to early childhood learning programs, while also improving employee retention and performance.

Your Committee has amended this measure by:

- (1) Clarifying that "qualified costs" refer to expenses incurred in acquiring, constructing, and establishing qualified on-site early childhood facilities;
- (2) Clarifying the Department of Human Services' duties with regard to certifying qualified on-site early childhood facilities and verifying taxpayers' qualified costs;
- (3) Requiring that taxpayers seeking to claim the tax credit submit information regarding their costs to the Department of Human Services;
- (4) Clarifying the provisions regarding the aggregate cap amount of the tax credit;
- (5) Clarifying the provisions regarding the refundable nature of the tax credit;
- (6) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (7) Making technical nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2905, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2905, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 10. Noes, none. Excused, 1 (Shimabukuro).

SCRep. 2778 Ways and Means on S.B. No. 3008

The purpose and intent of this measure is to increase consumer protections in the payday lending industry.

Specifically, this measure:

- (1) Replaces the check cashing law for lump sum deferred deposit transactions with requirements for installment-based small dollar loan transactions;
- (2) Establishes licensing requirements for small dollar lenders; and
- (3) Imposes restrictions upon small dollar loan transactions regarding matters such as interest rates, loan amounts, payment amounts, and multiple loans.

Your Committee received written comments in support of this measure from Catholic Charities Hawaii; Community Alliance on Prisons; Hawai'i Alliance for Progressive Action; Hawaii Appleseed Center for Law and Economic Justice; Hawaii Community Assets; Hawaii Habitat for Humanity Association, Inc.; Hawaiian Community Assets; Mental Health America of Hawaii; PHOCUSED; and two concerned individuals.

Your Committee received written comments in opposition to this measure from Hawaii Check Cashing and Maui Loan Inc.

Your Committee received written comments on this measure from the Department of Taxation.

Your Committee finds that this measure closes a payday loan loophole and establishes a regulatory structure for small dollar installment loans, giving workers and families more money to make rent and mortgage payments. Most consumers who presently take out payday loans face repayment terms that set them up for failure. When faced with the inability to repay their loans, consumers are forced to choose among disastrous options, such as taking out more payday loans to pay off the initial one, defaulting on their loans, falling behind on their other bills, or declaring bankruptcy.

Your Committee notes that the Department of Commerce and Consumer Affairs has indicated that their special fund expenditure ceiling will need to be raised by \$214,000 in order to implement the requirements established in this measure.

Your Committee has amended this measure by reorganizing and consolidating provisions and making numerous technical changes, including technical nonsubstantive changes for the purposes of clarity, consistency, and style. Your Committee has also amended this measure by:

- (1) Requiring the written agreement for a small dollar installment loan transaction or renewal to contain the authorized interest rate, as well as the annual percentage rate;
- (2) Requiring, rather than authorizing, the Commissioner of Financial Institutions to require licensees to register with NMLS;
- (3) Reclassifying the failure to complete a licensing application as a ground for a denial of a license rather than as a ground for disciplinary action;
- (4) Establishing an unspecified fee for office relocations;
- (5) Including a conforming amendment to section 480F-3, Hawaii Revised Statutes; and
- (6) Closing the six-month gap between the repeal of the deferred deposit law and the start of the new licensing law by establishing a January 1, 2019, effective date for both.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3008, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 3008, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 9. Noes, none. Excused, 2 (Galuteria, Shimabukuro).

SCRep. 2779 Ways and Means on S.B. No. 2897

The purpose and intent of this measure is to support events that promote art.

More specifically, this measure makes an appropriation to the Honolulu Biennial Foundation to fund the Honolulu Biennial 2019.

Your Committee received written comments in support of this measure from OCC Legislative Priorities Committee, Democratic Party of Hawaii.

Your Committee finds that the Honolulu Biennial is an international arts exhibition that will be staged on the islands of Oahu and Hawaii, and focuses on and celebrates art from the Pacific, Asia, and the Americas.

Your Committee notes that an appropriation in the amount of \$400,000 has been requested for the Honolulu Biennial 2019.

Your Committee has amended this measure by changing the effective date to July 1, 2050, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2897, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2897, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, none.

SCRep. 2780 Ways and Means on S.B. No. 222

The purpose and intent of this measure is to provide a general excise tax exemption for the sale of certain medical equipment, supplies, and prescription drugs.

More specifically, the measure:

- (1) Provides a general excise tax exemption for amounts received from the sale of mobility enhancement equipment, durable medical equipment, prescription drugs sold pursuant to a doctor's prescription, diabetic supplies, prosthetic devices, medical oxygen, and human blood and its derivatives; and
- (2) Expands the definition of "prosthetic devices" to include devices that are worn on the body.

Your Committee received written comments in support of this measure from the Hawaii Chapter of the American Physical Therapy Association, Honolulu County Republican Party, and OCC Legislative Priorities Committee of the Democratic Party of Hawaii.

Your Committee received written comments on this measure from the Department of Taxation and the Tax Foundation of Hawaii.

Your Committee finds that this measure will benefit individuals with health conditions and disabilities and senior citizens who live on limited income by exempting necessary medical devices from the state general excise tax.

Your Committee has amended this measure by:

- (1) Changing the effective date to January 1, 2019;
- (2) Applying the measure to taxable years beginning after December 31, 2018;
- (3) Making corrections to the quoted text of section 237-24.3, Hawaii Revised Statutes, to reflect statutory language scheduled to take effect on January 1, 2019; and
- (4) Making technical nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 222, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 222, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 10. Noes, none. Excused, 1 (Shimabukuro).

SCRep. 2781 Ways and Means on S.B. No. 2902

The purpose and intent of this measure is to promote software development in the State.

Specifically, this measure:

- (1) Requires and appropriates funds for the Hawaii Technology Development Corporation to award grants to help convert proofs of concept developed during software challenges into prototypes suitable for government use; and
- (2) Authorizes the Hawaii Technology Development Corporation to expend a portion of the appropriation to support software application challenges and related projects.

Your Committee received written comments in support of this measure from the Department of Commerce and Consumer Affairs, Office of Enterprise Technology Services, Hawaii Technology Development Corporation; OCC Legislative Priorities Committee, Democratic Party of Hawaii; and Transform Hawaii Government.

Your Committee finds that providing financial support for software development will help to develop proofs of concept into prototypes and eventually commercial products, which will provide a means for participants to create startup businesses for their software applications.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (2) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2902, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2902, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 11. Noes, none. Excused, none.

SCRep. 2782 Ways and Means on S.B. No. 1304

The purpose and intent of this measure is to establish a means to provide guidance on Native Hawaiian issues to certain state elected officials and members of boards and commissions.

Specifically, this measure:

- (1) Establishes the Native Hawaiian Health Advisory Council to provide guidance to the Governor and Legislature on issues that impact Native Hawaiians and their communities;
- (2) Requires the Native Hawaiian Health Advisory Council to establish, update, and maintain a directory or registry of Native Hawaiian professionals and community leaders possessing an understanding of Hawaiian culture and who are appropriate for leadership positions and appointment to state and county boards and commissions; and
- (3) Establishes the composition of the Native Hawaiian Health Advisory Council.

Your Committee received written comments in support of this measure from Ho'omanapono Political Action Committee; OCC Legislative Priorities Committee, Democratic Party of Hawai'i; The Queen's Health Systems; and five individuals.

Your Committee received written comments in opposition to this measure from the Hawaiian Civic Club of Honolulu, Hui Malama Ola Na Oiwai, Papa Ola Lokahi, Na Pu'uwai, Ho'ola Lahui Hawaii, Native Hawaiian Scholarship Program at Papa Ola Lokahi, and one individual.

The Office of Hawaiian Affairs submitted written comments on this measure.

Your Committee finds that instead of establishing a new advisory council to provide guidance on Native Hawaiian issues, it would be more appropriate, efficient, and economical to require all members of boards, commissions, and councils to attend the existing training course administered by the Office of Hawaiian Affairs.

Your Committee has amended this measure by replacing the contents with a requirement that all members of state and county boards, commissions, and councils, except for county legislative bodies, attend the training course administered by the Office of Hawaiian Affairs related to Native Hawaiian and Hawaiian rights, practices, and responsibilities.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1304, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1304, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 10. Noes, none. Excused, 1 (Shimabukuro).

SCRep. 2783 Ways and Means on S.B. No. 2734

The purpose and intent of this measure is to reduce the burden on the Department of Accounting and General Services to maintain designation of beneficiary forms.

More specifically, this measure:

- (1) Allows a public employee's designation of beneficiary form to be kept in the department that employs the employee; and
- (2) Permits the form to be filed and maintained electronically.

Your Committee received written comments in support of this measure from the Department of Accounting and General Services.

Your Committee finds that pursuant to section 78-23(c), Hawaii Revised Statutes, all public employee designation of beneficiary forms are required to be filed with and maintained by the Department of Accounting and General Services. This requirement has burdened the department by obligating it to maintain thousands of these forms. Your Committee believes that it would be more efficient for the forms to be filed with and maintained by the applicable employing department and to allow the forms to be filed and maintained electronically.

Your Committee has amended this measure by making technical nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2734, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2734, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 7. Noes, none. Excused, 4 (English, Kahele, Keith-Agaran, Wakai).

SCRep. 2784 Ways and Means on S.B. No. 481

The purpose and intent of this measure is to implement constitutionally required protections for certain agricultural lands by providing grants-in-aid to the counties to identify and map important agricultural lands.

For purposes of a public hearing, your Committee circulated a proposed S.D. 2 (Proposed Draft) of the measure and notified the public that your Committee would be accepting testimony on the Proposed Draft, which deletes the contents of the S.D. 1 of this measure and establishes a definition of "landowner" for the statutory provisions relating to the identification and designation of important agricultural lands.

Your Committee received testimony in support of the Proposed Draft from the Agribusiness Development Corporation, Hawaii Farm Bureau Federation, and Hawaii Cattlemen's Council.

Your Committee received comments on the Proposed Draft from the State Land Use Commission; Department of Agriculture; Office of Planning; Planning Department, County of Hawaii; and Department of Planning and Permitting, City and County of Honolulu.

Your Committee finds that there is ambiguity regarding whether tenants on state lands are eligible to receive benefits from designating their fields as important agricultural lands. Your Committee further finds that adding a definition of "landowner" will encourage more farmers and agricultural operations to participate in the important agricultural lands program.

Your Committee has amended this measure by adopting the Proposed Draft with the following additional amendments:

- (1) Restoring the existing language of the definition of "important agricultural lands" to mean lands identified pursuant to Part III of Chapter 205, Hawaii Revised Statutes;
- (2) Amending the definition of "landowner" with regard to tenants, to only include tenants of public lands; and
- (3) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 481, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 481, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 11. Noes, none. Excused, none.

SCRep. 2785 Ways and Means on S.B. No. 3037

The purpose and intent of this measure is to increase international study opportunities for University of Hawaii students.

Specifically, this measure appropriates funds for the Office of International Affairs to fund, by grant, one or more programs sponsored or organized by a University of Hawaii campus to implement international college experiences for University of Hawaii students.

Your Committee received written comments in support of this measure from the OCC Legislative Priorities Committee, Democratic Party of Hawai'i and two individuals.

Your Committee received written comments on this measure from the University of Hawaii and Department of Business, Economic Development, and Tourism.

Your Committee finds that this measure will give Hawaii students the opportunity to build upon the cultural and historic ties between the State and nations throughout the Asia-Pacific region while also exposing students to these nations in an educational and cultural setting.

Your Committee has amended this measure by:

- (1) Changing the amount appropriated for the grants from \$100,000 to an unspecified sum;
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (3) Making technical nonsubstantive changes for the purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3037, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 3037, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 9. Noes, none. Excused, 2 (Galuteria, Shimabukuro).

SCRep. 2786 Ways and Means on S.B. No. 2655

The purpose and intent of this measure is to address the present and critical need for ensuring that those individuals requiring the services of a licensed school psychologist receive appropriate services by highly qualified and licensed professionals.

Specifically, this measure:

- (1) Requires school psychologists to be licensed by the Board of Psychology;
- (2) Establishes standards for the licensing of school psychologists; and
- (3) Increases the membership of the Board of Psychology to include two members who are licensed school psychologists.

Your Committee received written comments in support of this measure from the Hawaii State Teachers Association and the OCC Legislative Priorities Committee, Democratic Party of Hawai'i.

Your Committee received written comments on this measure from the Board of Psychology, the Professional and Vocational Licensing Division, and the Regulated Industries Complaints Office of the Department of Commerce and Consumer Affairs.

Your Committee finds that Hawaii is the only state in the nation that does not require licensure for school psychologists and allows untrained individuals to provide mental health treatment to students. Unlicensed school psychologists have the potential to misdiagnose students and prescribe an inappropriate course of action for a student, which in turn may harm the student's mental well-being, behavioral maturity, learning growth, and relationships with teachers and peers. Your Committee believes that by establishing licensure requirements and criteria for school psychologists, this measure will help ensure that school psychologists are equipped to create supportive learning and social environments for all students.

Your Committee has amended this measure by:

- (1) Deleting the definition of "board" in the new part since it duplicates the definition currently in the chapter;
- (2) Clarifying that the eighteen hours of continuing education required for school psychologists shall be accredited by the National Association of School Psychologists;
- (3) Changing the effective date of the measure and the licensing deadline for school psychologists to July 1, 2050, to facilitate further discussion on the measure; and
- (4) Making technical nonsubstantive changes for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2655, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2655, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 10. Noes, none. Excused, 1 (Shimabukuro).

SCRep. 2787 Ways and Means on S.B. No. 2791

The purpose and intent of this measure is to improve and enhance Hawaii's juvenile justice system.

More specifically, the measure establishes the Kawailoa Youth and Family Wellness Center to provide mental health and substance abuse treatment services to at-risk youth and young adults, with the goal of preventing juvenile delinquency and reducing the number of youth committed to secure confinement at the Hawaii Youth Correctional Facility.

Your Committee received written comments in support of this measure from the Office of Hawaiian Affairs; Department of Human Services; Office of Youth Services; Hoomanapono Political Action Committee; Blueprint for Change; Hawaii Youth Services Network;

Mental Health America of Hawaii; Community Alliance on Prisons; OCC Legislative Priorities Committee, Democratic Party of Hawaii; and three individuals.

Written comments in opposition were received from the United Public Workers.

The Department of Education and Department of Health submitted written comments on the measure.

Your Committee finds that the establishment of the Kawaiiloa Youth and Family Wellness Center will provide much-needed services to at-risk youth and young adults, including victims of commercial sexual exploitation, and thus help to transform the current approach to juvenile justice to a therapeutic model that addresses complex issues affecting young people in the State.

Your Committee has amended this measure by:

- (1) Moving language in section 2 of the measure directing the Office of Youth Services to designate the Hawaii Youth Correctional Facilities as the authority to operate and maintain the Kawaiiloa Youth and Family Wellness Center to section 3 of the measure, and similarly, moving language in section 3 of the measure directing the Hawaii Youth Correctional Facilities to operate and maintain the Center within the scope of its authority to section 2 of the measure;
- (2) Using the terms “youth”, “young adult”, “youth at risk”, and “young adult at risk” throughout the measure and in place of equivalent terms such as “youth in need of services”, where appropriate, for purposes of clarity and consistency;
- (3) Clarifying references in section 1 of the measure with respect to the total number of unaccompanied youth cited in the 2017 Hawaii Statewide Point-in-Time Count and findings with respect to alcohol use among youth that were reported by the Substance Abuse and Mental Health Services Administration;
- (4) Correcting a typographical error in a reference to the Kawaiiloa Youth and Family Wellness Center;
- (5) Changing the effective date to July 1, 2050, to facilitate discussion on the measure; and
- (6) Making technical nonsubstantive changes for purposes of style, clarity, and consistency.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2791, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2791, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 10. Noes, none. Excused, 1 (Shimabukuro).

SCRep. 2788 Ways and Means on S.B. No. 351

The purpose and intent of this measure is to provide additional sources of funding for the Aha Moku Advisory Committee.

More specifically, the measure:

- (1) Requires the Department of Land and Natural Resources to include the expenses for conducting meetings and other related functions of the state Aha Moku System and Aha Moku Advisory Committee in the Department’s budget and to provide administrative support to the Aha Moku Advisory Committee;
- (2) Allows the special land and development fund to be used for any expenses incurred by the Aha Moku Advisory Committee; and
- (3) Appropriates funds for expenses of the Aha Moku Advisory Committee.

Your Committee received written comments in support of this measure from the Aha Moku Advisory Committee; Koolaupoko Hawaiian Civic Club; Hoomanapono Political Action Committee; Kuiwalu Consulting; OCC Legislative Priorities Committee, Democratic Party of Hawaii; Association of Hawaiian Civic Clubs; Native Hawaiian Organization Charity; and thirty-eight individuals.

The Office of Hawaiian Affairs submitted written comments on the measure.

Your Committee finds that a significant challenge faced by the Aha Moku Advisory Committee has been the instability of its funding, which was completely exhausted as of January 1, 2017. Thus, the additional sources of funding established by this measure will allow the Advisory Committee to continue its important and innovative approach to natural and cultural resource management.

Your Committee has amended this measure by:

- (1) Clarifying that the use of moneys from the special land and development fund, as well as the measure’s appropriation of general fund moneys for expenses incurred by the Aha Moku Advisory Committee, is for expenses incurred in the course of the Advisory Committee’s duties under section 171-4.5, Hawaii Revised Statutes;
- (2) Changing the appropriation from \$350,000 to an unspecified amount;
- (3) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (4) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 351, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 351, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 10. Noes, none. Excused, 1 (Shimabukuro).

SCRep. 2789 Ways and Means on S.B. No. 2337

The purpose and intent of this measure is to require any state or county agency contractor that disposes of liquid or solid waste to provide a receipt to the contracting agency that verifies that the waste was received and disposed of at a licensed facility.

Your Committee received written comments in support of this measure from Hawaii Advocates for Consumer Rights and OCC Legislative Priorities Committee, Democratic Party of Hawaii.

Your Committee received written comments in opposition to this measure from the General Contractors Association of Hawaii and one individual.

Your Committee notes that state law generally prohibits the disposal of more than one cubic yard of solid waste anywhere other than a permitted solid waste management system. However, your Committee recognizes that despite this prohibition, construction waste from state and county contractors is sometimes disposed of in an unauthorized manner. Your Committee therefore believes that the verification requirement of this measure may reduce the illegal disposal of such waste.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (2) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2337, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2337, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 9. Noes, none. Excused, 2 (Kahele, Shimabukuro).

SCRep. 2790 Ways and Means on S.B. No. 3077

The purpose and intent of this measure is to advance the use of clean energy.

More specifically, the measure:

- (1) Expands the renewable fuels production tax credit by increasing the total amount of tax credits that can be claimed;
- (2) Makes the tax credit permanent; and
- (3) Establishes a renewable fuel facilitator position within the Department of Business, Economic Development, and Tourism.

Your Committee received written comments in support of this measure from the Department of Business, Economic Development, and Tourism; Hawaii Bioeconomy Trade Organization; Hawaii Energy Policy Forum; Hawaii Gas; Hawaii Island Economic Development Board; Hawaii Martin Luther King, Jr. Coalition; Honua Ola Bioenergy LLC; ILWU Local 142; Kupu; Pacific Biodiesel Technologies; and ten individuals.

Your Committee received written comments on this measure from the Department of Taxation and Tax Foundation of Hawaii.

Your Committee believes that expanding and making permanent the tax credit for the production of renewable fuels will help encourage investment in renewable fuel production and create jobs. Your Committee also believes that the creation of the renewable fuel facilitator position has the potential to significantly advance the State's clean energy goals.

Your Committee has amended this measure by:

- (1) Reducing the minimum annual renewable fuels production threshold that a taxpayer must meet as a requirement to be eligible for the renewable fuels production tax credit to 2,500,000,000 British thermal units;
- (2) Providing that the measure shall be repealed on an unspecified date; and
- (3) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3077, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 3077, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 9. Noes, none. Excused, 2 (Kahele, Shimabukuro).

SCRep. 2791 Ways and Means on S.B. No. 2828

The purpose and intent of this measure is to provide the Director of Transportation with greater authority over the motor carrier vehicle safety inspection program.

More specifically, this measure authorizes the Director of Transportation to:

- (1) Alter the administration of the motor carrier vehicle safety inspection program; and
- (2) Adjust the fees paid by a vehicle owner for a motor carrier vehicle safety inspection and the fees collected from the motor carrier vehicle inspection stations,

through administrative rule-making.

Your Committee did not receive any written comments on this measure.

Your Committee finds that the current method of adjusting costs and fees related to state motor carrier vehicle safety inspections by legislation is inefficient. Your Committee also finds that the Director of Transportation is the most qualified person to determine whether costs and fees should be adjusted, and if so, what the adjustment should be.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (2) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2828, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2828, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, none. Excused, 3 (Kahele, Kidani, Shimabukuro).

SCRep. 2792 Ways and Means on S.B. No. 2476

The purpose and intent of this measure is to require the Department of Transportation to adopt rules pertaining to annual vehicle safety inspections.

Your Committee received no written comments on this measure.

Your Committee finds that adopting administrative rules on safety inspections will facilitate the uniform application of safety inspection protocols among inspection stations.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (2) Making a technical nonsubstantive change for the purpose of clarity.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2476, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2476, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 9. Noes, none. Excused, 2 (Kahele, Shimabukuro).

SCRep. 2793 Ways and Means on S.B. No. 2384

The purpose and intent of this measure is to promote the expansion of Hawaii's computer science education curricula to include the fields of design thinking and coding.

Specifically, this measure requires the Department of Education to:

- (1) Develop a comprehensive plan to integrate design thinking and coding into the curricula of the State's middle, intermediate, and high schools; and
- (2) Submit the plan and any proposed legislation to the Legislature no later than twenty days prior to the convening of the regular session of 2019.

Your Committee received written comments in support of this measure from Transform Hawaii Government, the OCC Legislative Priorities Committee of the Democratic Party of Hawaii, and one concerned individual.

Your Committee received written comments on this measure from the Department of Education.

Your Committee believes that introducing students to complex computer science concepts early in their education will prepare students for highly-skilled careers. Accordingly, encouraging Hawaii's students to learn design thinking and coding will help to develop a competitive information technology workforce in Hawaii and help to position Hawaii as a future leader in the information technology industry.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2384 and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 10. Noes, none. Excused, 1 (Shimabukuro).

SCRep. 2794 Ways and Means on S.B. No. 2746

The purpose and intent of this measure is to authorize the imposition of a fine on employers who fail to comply with various child support provisions.

Specifically, this measure authorizes a maximum fine of \$1,000 to be imposed on any employer who:

- (1) Fails to comply with a court or administrative order to assign the income of an employee for payment of child support;
- (2) Fails to comply with an administrative order to withhold income of an employee for payment of child support; or

- (3) Refuses to hire a prospective employee, discharges an employee, or takes other disciplinary action against an employee, based upon an order or notice to withhold child support. This measure also repeals the criminal penalties for these specific violations.

Your Committee received written comments in support of this measure from the Department of the Attorney General and one individual.

Your Committee finds that the requirements imposed by this measure are necessary to maintain federal welfare funding and federal funding of child support enforcement programs.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2746, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 10. Noes, none. Excused, 1 (Shimabukuro).

SCRep. 2795 Ways and Means on S.B. No. 2565

The purpose and intent of this measure is to exempt certain producers of agricultural products from the general excise tax for farm equipment and machinery purchases.

Your Committee received written comments in support of this measure from the Department of Agriculture, Hawaii Farm Bureau Federation, Land Use Research Foundation of Hawaii, and Maui County Farm Bureau.

Your Committee received written comments on this measure from the Department of Taxation and Tax Foundation of Hawaii.

Your Committee finds that this measure will provide tax relief to Hawaii farmers, who typically earn an average of only \$35,000 annually.

Your Committee has amended this measure by:

- (1) Clarifying that the maximum gross income that a producer may earn to be eligible for the exemption shall be evidenced by the producer's income tax return for the previous taxable year;
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure;
- (3) Providing that the measure shall be repealed on an unspecified date; and
- (4) Making a technical nonsubstantive change for purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2565, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2565, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 9. Noes, none. Excused, 2 (Galuteria, Kaele).

SCRep. 2796 Ways and Means on S.B. No. 3070

The purpose and intent of this measure is to encourage students to pursue teaching degrees in needed areas.

More specifically, the measure:

- (1) Establishes a Hawaii teacher stipend program, to be administered by the Department of Education, to address the shortfall of licensed teachers in the Department's schools, especially in identified shortage areas; and
- (2) Appropriates moneys for the program.

Your Committee received written comments in support of this measure from the Department of Education; University of Hawaii System; HSTA; HE'E Coalition; IMUAlliance; OCC Legislative Priorities Committee, Democratic Party of Hawai'i; and one individual.

Your Committee received written comments on this measure from the Department of Budget and Finance.

Your Committee recognizes that for the last several years, Hawaii has faced a shortage of teachers in the Hawaii public school system, particularly in select fields of teaching. Your Committee also recognizes that a teacher stipend program may encourage qualified students to pursue teaching degrees and later help fill these critical positions.

Your Committee has amended this measure by:

- (1) Changing the appropriation for the establishment and implementation of the Hawaii teacher stipend program from \$600,000 to an unspecified sum;
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (3) Making a technical nonsubstantive change for the purpose of consistency.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3070, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 3070, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 10. Noes, none. Excused, 1 (Shimabukuro).

SCRep. 2797 Ways and Means on S.B. No. 2525

The purpose and intent of this measure is to address the development of Kakaako and east Kapolei.

Specifically, this measure:

- (1) Establishes the East Kapolei Community Development District to guide the development of the east Kapolei area, including the area specified in the east Kapolei neighborhood transient-oriented development plan;
- (2) Repeals the Kakaako Community Development District;
- (3) Replaces the Kakaako Community Development District representatives on the Hawaii Community Development Authority with representatives from the East Kapolei Community Development District; and
- (4) Requires the Hawaii Community Development Authority to develop a transitional master plan for the dissolution of the Kakaako Community Development District.

Your Committee received written comments in support of this measure from Ho‘omanapono Political Action Committee.

Your Committee received written comments in opposition to this measure from Hawaii’s Thousand Friends and two individuals.

The Hawaii Community Development Authority and the City and County of Honolulu Department of Planning and Permitting submitted comments on this measure.

Your Committee finds that after four decades, the general purpose and intent of the Kakaako Community Development District have been achieved. Infrastructure upgrades and new zoning regulations in Kakaako have spurred billions of dollars in construction for residential, commercial, and public spaces. Accordingly, it is now appropriate to return the planning, zoning, and development responsibilities for the Kakaako district to the City and County of Honolulu.

Your Committee further finds that the east Kapolei area currently shares many of the potentially developable aspects of 1970s Kakaako, along with a lack of coordination among the various developing entities. Establishing an East Kapolei Community Development District will help to coordinate the development of east Kapolei to best serve community needs while maximizing the value provided by the district lands.

Your Committee has amended this measure by:

- (1) Requiring that the Hawaii Community Development Authority establish a plan, by January 1, 2020, to return planning, zoning, and infrastructure development responsibilities of the Kakaako district to the City and County of Honolulu;
- (2) Changing the effective date from “July 1, 2050,” to “upon approval”; and
- (3) Making technical nonsubstantive amendments for purposes of style, clarity, and consistency.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2525, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2525, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 10. Noes, none. Excused, 1 (Shimabukuro).

SCRep. 2798 Ways and Means on S.B. No. 2383

The purpose and intent of this measure is to facilitate the recruitment and retention of qualified education professionals in Hawaii.

Specifically, this measure:

- (1) Amends provisions of the national certification incentive program within the Department of Education to include school psychologists who have achieved national certification;
- (2) Amends provisions related to eligible schools where teachers or school psychologists with national certification are eligible for the incentive program;
- (3) Beginning with fiscal year 2018-2019, and each fiscal year thereafter, requires funding requests by charter schools for teacher incentive programs, bonuses, and other compensation beyond regular wages to be a separate line item in the general appropriations act and supplemental appropriations act; and
- (4) Appropriates moneys to fund national certification incentive program bonuses and collectively bargained placement bonuses in hard-to-fill schools for public school teachers, public charter school teachers, and school psychologists.

Your Committee received written comments in support of this measure from the Department of Education; State Public Charter School Commission; Hawaii State Teachers Association; OCC Legislative Priorities Committee, Democratic Party of Hawai‘i; and one individual.

Your Committee received written comments on this measure from the Department of Budget and Finance.

Your Committee finds that nationally-certified education professionals, including school psychologists, are a valuable and needed resource in the State, particularly in hard-to-fill schools. Your Committee believes that financial incentives are an effective strategy in the effort to recruit and retain high quality educators and school psychologists.

Your Committee has amended this measure by:

- (1) Specifying that the appropriation will be made as separate line items in the Department of Education and the Hawaii State Public Charter School Commission's budgets and will be expended by each agency for the purposes of the measure; and
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2383, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2383, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 10. Noes, none. Excused, 1 (Shimabukuro).

SCRep. 2799 Ways and Means on S.B. No. 2573

The purpose and intent of this measure is to establish and make an appropriation for a regional nutrient cycling pilot program on the island of Maui and require reporting on the efficacy of the pilot project.

Your Committee received comments in support of this measure from the Department of Agriculture; OCC Legislative Priorities Committee, Democratic Party of Hawaii; and three individuals.

Your Committee received comments on this measure from the Hawaii Farm Bureau Federation.

Your Committee finds that nutrient cycling fosters agricultural production by building soil health and fertility. Nutrient cycling puts end products back into the land-based food chain instead of generating waste or causing pollution. Nutrient cycling benefits local agriculture by lowering production costs, increasing yields, reducing waste and revitalizing the soil. A regional nutrient cycling pilot program on the island of Maui supports Hawaii's transition away from a plantation agriculture economy and promotes environmental, economic, and social benefits for the State along with food and energy security for its residents.

Your Committee has amended this measure by:

- (1) Changing the appropriation from \$2,000,000 to an unspecified amount;
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (3) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2573, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2573, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 10. Noes, none. Excused, 1 (Shimabukuro).

SCRep. 2800 Ways and Means on S.B. No. 2375

The purpose and intent of this measure is to include advanced practice registered nurses among the healthcare providers that certify an employee's disability for the purposes of receiving temporary disability benefits.

The measure also updates other statutory provisions relating to temporary disability insurance, such as increasing the penalty for employers who fail to submit timely wage and employment information, and modernizing provisions authorizing manners in which hearing notices may be sent.

Your Committee received written comments in support of this measure from the Hawaii Association of Professional Nurses, Hawaii State Center for Nursing, and five individuals.

ILWU Local 142 submitted written comments on the measure.

Your Committee finds that the inclusion of advanced practice registered nurses in the temporary disability insurance claims process will allow claimants to receive timely and quality care by the provider from which they already receive care.

Your Committee has amended this measure by:

- (1) Changing the effective date to January 1, 2050, to facilitate further discussion on the measure; and
- (2) Making technical nonsubstantive changes for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2375, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2375, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 10. Noes, none. Excused, 1 (Shimabukuro).

SCRep. 2801 Ways and Means on S.B. No. 2521

The purpose and intent of this measure is to provide moneys for special education teacher classroom materials to ensure a quality educational experience for all special needs students.

Your Committee received written comments in support of this measure from the Department of Education; Special Education Advisory Council; Hawaii State Teachers Association; IMUAlliance; Kalaheo High School; and four individuals.

Your Committee finds that special education services, including academic, speech-language, psychological, physical and occupational, and counseling accommodations, are needed to meet the unique needs of students with disabilities. Your Committee further finds that, based on statewide assessments, the achievement gap between special education students and general education students in the State is increasing, and closing this gap requires investing in additional resources for special education teachers and classrooms.

Your Committee has amended this measure by changing the effective date to July 1, 2050, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2521, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2521, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 11. Noes, none. Excused, none.

SCRep. 2802 Ways and Means on S.B. No. 2576

The purpose and intent of this measure is to ensure that public schools are better prepared for emergencies.

Specifically, this measure:

- (1) Requires that all classroom doors be retrofitted with an interior lock by January 1, 2019;
- (2) Requires that all classrooms and outside gathering places be connected to an intercom system by January 1, 2020; and
- (3) Requires the Department of Education to establish an emergency management plan to respond to an emergency or disaster.

Your Committee received written comments in support of this measure from the Oahu County Committee Legislative Priorities Committee of the Democratic Party of Hawaii and twelve individuals.

Your Committee finds that on average, one school shooting occurs every week in the United States. One of the best ways to protect students and teachers during a school shooting or other emergency is to lock the classroom doors, preventing any unauthorized person from entering the classroom. However, locking the doors of public school classrooms requires a teacher to step outside the classroom and lock the door from the exterior, which places the students and the teacher at risk. Requiring that public schools change classroom door locks to also lock from the inside will allow teachers and students to quickly and safely secure classrooms. Your Committee further finds that the requirement of interior locks should expressly include newly constructed classrooms to ensure that the students and teachers in all school classrooms will be protected.

Your Committee believes that the Department of Education, not the Department of Health, is the appropriate entity to be vested with the responsibility to establish the initial and updated emergency management plans specified in section 1 of the measure.

Accordingly, your Committee has amended this measure by:

- (1) Clarifying that the classroom doors be equipped, rather than retrofitted, with interior locks, to ensure that the requirement also applies to future classroom construction projects;
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (3) Making technical nonsubstantive amendments for purposes of style, clarity, and consistency.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2576, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2576, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 10. Noes, none. Excused, 1 (Shimabukuro).

SCRep. 2803 Ways and Means on S.B. No. 2134

The purpose and intent of this measure is to expand the scope of public officials who are required to attend the Office of Hawaiian Affairs' training course on Native Hawaiian issues pursuant to section 10-41, Hawaii Revised Statutes.

Your Committee received written comments in support of this measure from the Department of Land and Natural Resources; Office of Hawaiian Affairs; a member of the Maui County Council; Hoomanapono Political Action Committee; Ka Huli Ao Center for Excellence in Native Hawaiian Law; Kanu o ka Aina; Native Hawaiian Education Council; OCC Legislative Priorities Committee, Democratic Party of Hawaii; Papa Ola Lokahi; Society for Hawaiian Archaeology; and fifteen individuals.

Your Committee received written comments on this measure from the Chair of the Maui County Council.

Your Committee recognizes the successful implementation of the training course and the importance of extending the benefits of the course as widely as possible, so that more state and county officials may attain an understanding of Native Hawaiian rights.

Your Committee has amended this measure by:

- (1) Correcting a reference to the Deputy for Water Resource Management of the Department of Land and Natural Resources;
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (3) Making technical nonsubstantive changes for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2134, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2134, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 10. Noes, none. Excused, 1 (Shimabukuro).

SCRep. 2804 Ways and Means on S.B. No. 2903

The purpose and intent of this measure is to appropriate moneys to support the manufacturing development program operated by the Hawaii Technology Development Corporation.

Your Committee received written comments in support of this measure from the Hawaii Technology Development Corporation; Aloha Edibles, Inc.; Aloha Shoyu Company, Ltd.; Chamber of Commerce Hawaii; Hawaii Food Industry Association; Hawaii Coffee Company; Hawaii Fish Company; Hawaii Farm Bureau Federation; HONBLUE; Hyperspective Studios, Inc.; Kona Brewing Company; KYD, Inc.; Makai Ocean Engineering, Inc.; Maui Brewing Company; Maui Chamber of Commerce; Meadow Gold Dairies; OCC on Legislative Priorities Committee, Democratic Party of Hawaii; Oceanit Laboratories, Inc.; and one individual.

Your Committee finds that the Hawaii Technology Development Corporation manufacturing development program is important to the development of the manufacturing industry in the State. Your Committee believes that the continuation of support for the manufacturing development program will allow the program to continue to assist companies with investments in new equipment and employee training.

Your Committee has amended this measure by:

- (1) Changing the appropriation from \$1,500,000 to an unspecified amount;
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (3) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2903, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2903, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 11. Noes, none. Excused, none.

SCRep. 2805 Ways and Means on S.B. No. 3107

The purpose and intent of this measure is to appropriate funds for the treatment of persons with multiple chronic conditions, including mental health disorders, substance use disorders, and homelessness.

Your Committee received written comments in support of this measure from the Queen's Health Systems; Hawaii Substance Abuse Coalition; Life Foundation and the CHOW Project; OCC Legislative Priorities Committee, Democratic Party of Hawaii; Drug Policy Forum of Hawaii; and one individual.

Your Committee finds that investing more of the State's resources into assisting and treating persons struggling with multiple chronic conditions will help to curb the rising costs of healthcare by reducing the need for more acute medical interventions in the future.

Your Committee has amended this measure by:

- (1) Replacing references to "substance abuse" with "substance use" for consistency throughout the measure, and to reflect that "substance use" is the umbrella term used in the *Diagnostic and Statistical Manual of Mental Disorders, Fifth Edition (DSM-5)*, to reference what were previously known as substance abuse and substance dependence disorders;
- (2) Changing the appropriations to unspecified amounts;
- (3) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (4) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3107, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 3107, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 10. Noes, none. Excused, 1 (Shimabukuro).

SCRep. 2806 Ways and Means on S.B. No. 2758

The purpose and intent of this measure is to address the housing shortage in the State by promoting the development of affordable housing projects.

Specifically, this measure establishes an expedited approval process for affordable housing projects seeking district boundary amendments for land areas of fifteen acres or less under the jurisdiction of the counties.

Your Committee received written comments in support of this measure from the Office of the Governor; Department of Business, Economic Development, and Tourism; Hawaii Housing Finance and Development Corporation; BIA-Hawaii; OCC Legislative Priorities Committee, Democratic Party of Hawai'i; Chamber of Commerce Hawaii; and Hawaii Association of REALTORS.

Your Committee received written comments on this measure from the Land Use Commission and Office of Hawaiian Affairs.

Your Committee finds that establishing a forty-five day approval process for affordable housing projects seeking district boundary amendments for land areas of fifteen acres or less within the jurisdiction of the counties will expedite governmental approvals, save time and money, and create a new incentive for affordable housing development.

Your Committee has amended this measure by making technical nonsubstantive changes for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2758, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2758, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 9. Noes, none. Excused, 2 (Kahele, Shimabukuro).

SCRep. 2807 Ways and Means on S.B. No. 2715

The purpose and intent of this measure is to extend from 2018 to 2023 the authorization to issue special purpose revenue bonds to assist Kaiuli Energy, LLC, in financing or refinancing the costs relating to the planning, design, and construction of a seawater air conditioning district cooling facility and chilled water distribution system.

Your Committee received written comments in support of this measure from the Ulupono Initiative; Kaiuli Energy, LLC; 350 Hawaii; 350.org; and twenty-two individuals.

Your Committee received written comments in opposition to this measure from the Ilikai Hotel Condominium and two individuals.

Your Committee finds that seawater air conditioning projects can help replace energy-intensive central refrigeration systems. This can reduce fossil fuel consumption, electrical usage, harmful emissions, sewer production, and potable water usage. Kaiuli Energy, LLC, is working with major hotel operators and utilities in the Waikiki and Ala Moana areas to implement seawater air conditioning projects, which will both move the State towards its clean energy goals while supporting the tourism industry.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2715 and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, none. Excused, 3 (Kahele, Kidani, Shimabukuro).

SCRep. 2808 Ways and Means on S.B. No. 3089

The purpose and intent of this measure is to allow counties to enact ordinances that require a grantor of real property to include in the applicable certificate or certificates of conveyance a statement that indicates whether the granted real property located within the county may be used for short-term rentals under the county's zoning or land use ordinances.

Your Committee received written comments in support of this measure from the Department of Planning and Permitting of the City and County of Honolulu and one individual.

Your Committee received written comments in opposition to this measure from the Hawaii Association of REALTORS.

Your Committee finds that the illegal use of residential properties as short-term vacation accommodations has caused discord in many communities and exacerbated the shortage of affordable rental housing in the State. Some property owners knowingly violate county ordinances that prohibit the renting of residential properties on a short-term basis in certain areas, while other owners who offer short-term rentals may not be aware that their conduct is illegal.

Your Committee further finds that this measure will help the counties clarify and enforce applicable zoning and land use ordinances and thereby reduce instances in which property owners illegally rent units for short periods of time.

Your Committee has amended this measure by making technical amendments to section 1 of the measure to consolidate redundant provisions and more clearly establish the requirements of this measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3089, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 3089, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 9. Noes, none. Excused, 2 (Inouye, Wakai).

SCRep. 2809 Ways and Means on S.B. No. 2479

The purpose and intent of this measure is to address the growing number of vehicles abandoned on public roads.

Specifically, this measure:

- (1) Requires a county to take into custody a vehicle abandoned on a public road within ten business days of abandonment;

- (2) Clarifies that the requirement to provide written notice to the registered owner of an abandoned vehicle applies only to abandoned vehicles that have been reported stolen;
- (3) Amends the conditions that constitute a derelict vehicle; and
- (4) Repeals the requirement that abandoned vehicles be disposed of by public auction.

Your Committee received written comments in support of this measure from a member of the Hawaii County Council; Ho‘omanapono Political Action Committee; OCC Legislative Priorities Committee, Democratic Party of Hawaii; and seven individuals.

Your Committee received written comments in opposition to this measure from one individual.

Your Committee received written comments on this measure from the County of Maui – Mayor’s Office; and County of Hawaii, Department of Environmental Management.

Your Committee finds that abandoned vehicles on public roads are a widespread and growing environmental problem that can adversely impact human health and safety.

Your Committee has amended this measure by:

- (1) Changing references to county Directors of Customer Services to county Directors of Finance to be consistent with other provisions of the Hawaii Revised Statutes that provide that vehicle registration records be maintained by the Director of Finance of each county;
- (2) Requiring the county agency designated to carry out functions relating to vehicle disposal to adopt rules pursuant to Chapter 91, Hawaii Revised Statutes, regarding notification of vehicle owners;
- (3) Codifying the requirement that the Department of Transportation adopt rules to carry out the purposes of the abandoned vehicles law under Chapter 290, Hawaii Revised Statutes; and
- (4) Making technical nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2479, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2479, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 11. Noes, none. Excused, none.

SCRep. 2810 Ways and Means on S.B. No. 2752

The purpose and intent of this measure is to encourage state agencies and departments to perform energy-efficiency retrofitting of their facilities.

Specifically, this measure creates a sub-fund under the green energy market securitization loan fund to be used as a revolving line of credit for state agencies and departments to finance energy-efficiency measures.

Your Committee received written comments in support of this measure from the Department of Business, Economic Development, and Tourism; Hawaii Green Infrastructure Authority; Ulupono Initiative; and OCC Legislative Priorities Committee, Democratic Party of Hawai‘i.

Your Committee received comments on this measure from the Tax Foundation of Hawaii.

Your Committee finds that although the Hawaii green infrastructure special fund is already being used to finance the installation of energy-efficient lighting and other energy-efficiency measures in public schools, this measure will expand this use of the special fund to other state agencies and departments.

Your Committee has amended this measure by:

- (1) Clarifying that the sub-fund shall be created under the Hawaii green infrastructure special fund;
- (2) Codifying requirements and procedures for state departments or agencies applying for financing from the sub-fund;
- (3) Clarifying that a department or agency shall meet with the public benefits fee administrator of the Public Utilities Commission prior to the launch of the project planning phase;
- (4) Changing the appropriation and the amount of the revolving line of credit to unspecified amounts;
- (5) Changing the effective date to July 1, 2050, for the purpose of facilitating further discussion on the measure; and
- (6) Making technical nonsubstantive changes for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2752, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2752, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 11. Noes, none. Excused, none.

SCRep. 2811 Ways and Means on S.B. No. 3049

The purpose and intent of this measure is to provide an additional funding source to assist the counties in addressing the growing problem of abandoned vehicles.

Specifically, this measure:

- (1) Assesses an importation fee on each motor vehicle imported into the State, with funds to be paid to the county that is the final destination of the vehicle; and
- (2) Provides that the funds shall be used for the disposal of abandoned vehicles.

Your Committee did not receive any written comments on this measure.

Your Committee finds that because the cost of abandoned vehicle disposal is borne by the respective counties, the additional county funds generated by this measure will help to minimize the impact of abandoned vehicle disposal.

Your Committee has amended this measure by making technical nonsubstantive changes for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3049, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 3049, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 9. Noes, none. Excused, 2 (Kahele, Shimabukuro).

SCRep. 2812 Ways and Means on S.B. No. 1293

The purpose and intent of this measure is to bolster efforts by law enforcement agencies in the State to prevent narcotic use and trafficking and detect explosives and currency by establishing the Special Operations K9 Unit Special Fund.

Prior to decision making on this measure, your Committee made available for public review a proposed S.D. 2 of this measure. The proposed S.D. 2:

- (1) Transfers the Corrections Population Management Commission from the Department of Public Safety to the Judiciary;
- (2) Requires the Commission to:
 - (A) Provide supervisory oversight of the number of inmates in correctional facilities; and
 - (B) Meet not less than once per quarter;
- (3) Requires the Department of Public Safety to provide each member of the Commission with access to information and the authority to conduct spot checks;
- (4) Replaces the Director of Public Safety with the Chief Justice as a member of the Commission;
- (5) Removes from the Commission one judge and one member from the private sector;
- (6) Adds two members to the Commission; and
- (7) Expands the requirements of the Commission's annual report;

Your Committee received testimony in support of this measure from Americans for Democratic Action Hawaii, Community Alliance on Prisons, Hawaii Substance Abuse Coalition, Hawaii Justice Coalition, Young Progressives Demanding Action - Hawaii, Hoomanopono Political Action Committee, and eight concerned individuals.

Your Committee received testimony in opposition to this measure from the Judiciary, the Department of Public Safety, and one concerned individual.

Your Committee finds that transferring the Corrections Population Management Commission from the Department of Public Safety to the Judiciary could help to increase oversight of the correctional facilities in the State.

Your Committee has amended S.B. No. 1293, S.D. 1, by:

- (1) Replacing its contents with the contents of the proposed draft of S.B. No. 1293, S.D. 2;
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (3) Making a technical nonsubstantive change for the purpose of clarity.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1293, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1293, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 11; Ayes with Reservations (Harimoto). Noes, none. Excused, none.

SCRep. 2813 Ways and Means on S.B. No. 2472

The purpose and intent of this measure is to increase the supply of affordable housing by establishing a fund to provide loans or grants for the development of housing units.

Specifically, this measure:

- (1) Establishes the home ownership housing revolving fund to provide loans or grants for the development of affordable for-sale housing projects;
- (2) Requires the Hawaii Housing Finance and Development Corporation to administer the fund and make annual reports regarding the projects funded; and
- (3) Appropriates an unspecified sum into the revolving fund.

Your Committee received written comments in support of this measure from Hawaiian Community Assets; Hawaii Habitat for Humanity Association; Honolulu Habitat for Humanity; Hawaii Alliance for Progressive Action; Young Progressives Demanding Action - Hawaii; NAIOP Hawaii Chapter; OCC Legislative Priorities Committee, Democratic Party of Hawaii; and one individual.

Your Committee received written comments on this measure from the Hawaii Housing Finance and Development Corporation.

Your Committee finds that the loans provided by this program will assist in addressing Hawaii's current critical shortage of affordable housing and the need for sixty-six thousand additional housing units by the year 2025.

Your Committee has amended this measure by changing the effective date to July 1, 2050, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2472, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2472, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, none. Excused, 3 (Galuteria, Riviere, Shimabukuro).

SCRep. 2814 Ways and Means on S.B. No. 2504

The purpose and intent of this measure is to clarify that use of the tourism special fund for marketing Hawaii as a tourism destination shall not count towards the Hawaii Tourism Authority's administrative expenses cap.

Your Committee received written comments on this measure from the Office of the Auditor and the Hawaii Tourism Authority.

Your Committee finds that marketing efforts by the Hawaii Tourism Authority to market Hawaii as a tourism destination should not be considered an administrative expense.

Your Committee has amended this measure by:

- (1) Including a definition of "administrative expenses"; and
- (2) Changing the effective date to July 1, 2018.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2504, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2504, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, none.

SCRep. 2815 Ways and Means on S.B. No. 2393

The purpose and intent of this measure is to require the Department of Education to create a comprehensive plan to establish one or more alternative learning centers within each school complex area in the State.

The OCC Legislative Priorities Committee, Democratic Party of Hawaii submitted written comments in support of this measure.

The Department of Education submitted written comments on this measure.

Your Committee finds that the development of a comprehensive plan is necessary to ensure that the establishment of alternative learning centers benefits students.

Your Committee has amended this measure by making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2393, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2393, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 10. Noes, none. Excused, 1 (Shimabukuro).

SCRep. 2816 Ways and Means on S.B. No. 2676

The purpose and intent of this measure is to codify the United Nations Sustainable Development Goal regarding life on land.

Specifically, this measure establishes various goals to be achieved by the year 2030, including:

- (1) Protecting freshwater ecosystems;

- (2) Promoting sustainable management of forests;
- (3) Combating deforestation;
- (4) Ensuring the protection of mountain ecosystems;
- (5) Reducing the degradation of natural habitats;
- (6) Taking action to end poaching and trafficking of protected species of flora and fauna; and
- (7) Implementing the State's biosecurity plan.

Your Committee received written comments in support of this measure from the Office of Hawaiian Affairs; Office of Planning; Department of Agriculture; Department of Land and Natural Resources; Oahu Economic Development Board; The Nature Conservancy; Hawaii Green Growth; Planned Parenthood Votes Northwest and Hawaii; OCC Legislative Priorities Committee, Democratic Committee; 350.org; and sixteen individuals.

Your Committee received written comments on this measure from the Hawaii Farm Bureau.

Your Committee finds that codifying the United Nations Sustainable Development Goal will establish a framework for the State to effectively address key challenges. This measure also builds on Hawaii's adoption of goals aligned with the Paris Agreement, enacted by Act 32, Session Laws of Hawaii 2017.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2676, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 9. Noes, none. Excused, 2 (Kahele, Shimabukuro).

SCRep. 2817 Ways and Means on S.B. No. 2906

The purpose and intent of this measure is to ensure accountability and coordination between the various departments and agencies tasked with reducing homelessness.

Specifically, this measure:

- (1) Establishes in statute the position of the Governor's Coordinator on Homelessness;
- (2) Provides that the position shall report directly to the Governor; and
- (3) Makes an appropriation to fund the position and other expenses, including the hiring of necessary staff.

Your Committee received written comments in support of this measure from the Department of Human Services; Department of Land and Natural Resources; Department of Transportation; Catholic Charities Hawaii; Hawaii Appleseed Center for Law and Economic Justice; OCC Legislative Priorities Committee, Democratic Party of Hawaii; and one individual.

Your Committee finds that although the Governor has appointed a coordinator on homelessness to coordinate statewide homelessness efforts since 2011, the position and its duties have not been established in state law.

Your Committee has amended this measure by:

- (1) Changing the amount appropriated to the Governor's Coordinator on Homelessness from \$400,000 to an unspecified sum;
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (3) Making technical nonsubstantive changes for the purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2906, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2906, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 11. Noes, none. Excused, none.

SCRep. 2818 Ways and Means on S.B. No. 2331

The purpose and intent of this measure is to appropriate moneys to the Department of Land and Natural Resources to improve the Hawaii statewide trail program by improving and maintaining state controlled recreational trails statewide and promoting hiker safety and hiker etiquette education and outreach.

Your Committee received written comments in support of this measure from the Department of Land and Natural Resources; Carena Leigh Photography; Maunawili Estates Community Association; Metro Rotaract; OCC Legislative Priorities Committee, Democratic Party of Hawaii; Sierra Club of Hawaii; and twelve individuals.

Your Committee finds that a reliable capital investment is needed in order to provide reasonable operational support for regular maintenance of the State's trails and facilities. In addition, your Committee finds that a public awareness campaign to educate hikers on safety and etiquette will assist in reducing future hiking incidents.

Your Committee notes that the Department of Land and Natural Resources would require \$1,800,000 to implement the trail improvements and outreach programs in this measure.

Your Committee has amended the measure by:

- (1) Changing the appropriation from \$1,800,000 to an unspecified amount; and
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2331, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2331, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 11. Noes, none. Excused, none.

SCRep. 2819 Ways and Means on S.B. No. 2520

The purpose and intent of this measure is to provide behavior analysis services to public school students.

More specifically, this measure makes an appropriation to the Department of Education to contract with licensed behavior analysts to provide behavior analysis services to public school students.

Your Committee received written comments in support of this measure from the Department of Education; Hawaii Disability Rights Center; Hawaii Psychological Association; Hawaii State Teachers Association; Aloha Behavioral Associates; Hawaii Association for Behavior Analysis; NASW; Alaki Na Keiki, Inc.; IMUAlliance; and five concerned individuals.

Your Committee received written comments on this measure from one concerned individual.

Your Committee finds that many public school students, including those with autism disorders, could benefit from receiving behavior analysis services.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (2) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2520, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2520, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 11. Noes, none. Excused, none.

SCRep. 2820 Ways and Means on S.B. No. 2149

The purpose and intent of this measure is to increase the number of district court judges in the Second Circuit from three to four.

Your Committee received written comments in support of this measure from the Hawaii State Judiciary; Hawaii State Bar Association; Maui County Bar Association; MADD; OCC Legislative Priorities Committee, Democratic Party of Hawaii; and one individual.

Your Committee finds that the Legislature has not authorized a district court judge for the Second Circuit since 1982. Your Committee further finds that since 1982, the population of Maui County has more than doubled.

Your Committee has amended this measure by changing the effective date to July 1, 2050, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2149, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2149, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 10. Noes, none. Excused, 1 (Inouye).

SCRep. 2821 Ways and Means on S.B. No. 3034

The purpose and intent of this measure is to increase the State's supply of affordable housing.

Specifically, this measure:

- (1) Requires the Office of Planning to approve or disapprove state agencies' redevelopment plans for parcels along the rail transit corridor; and
- (2) Requires state agencies' development or redevelopment plans for parcels along the rail transit corridor to include affordable housing, unless the Office of Planning determines that housing is not feasible or desirable on a particular property.

Your Committee received written comments in support of this measure from the Department of Human Services; Hawaii Housing Finance and Development Corporation; Hawaii Interagency Council for Transit-Oriented Development; and OCC Legislative Priorities Committee, Democratic Party of Hawai'i.

Your Committee received written comments on this measure from the Stadium Authority.

Your Committee finds that transit-oriented development associated with the construction of the rail transit system in Honolulu has the potential to fulfill the State's housing goal of developing at least 22,500 affordable rental-housing units ready for occupancy between 2017 and 2026.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (2) Making technical nonsubstantive amendments for the purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3034, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 3034, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 8. Noes, none. Excused, 3 (Galuteria, Riviere, Shimabukuro).

SCRep. 2822 Ways and Means on S.B. No. 2089

The purpose and intent of this measure is to promote civic engagement among the youth of the State.

Specifically, this measure:

- (1) Establishes a Youth Commission within the Office of Youth Services to advise the Governor and Legislature on the effects of legislative policies, needs, assessments, priorities, programs, and budgets concerning the youth of the State; and
- (2) Appropriates funds for the hiring of one staff position to administer the Youth Commission and other administrative costs.

Your Committee received written comments in support of this measure from the Office of Youth Services; Community Alliance on Prisons; Students for Public Outreach and Civic Education - SPOCE; Hawaii Youth Services Network; Aloha Light Team; HawaiiKidsCAN; Young Progressives Demanding Action - Hawaii; Hawaii Substance Abuse Coalition; Hawaii Public Health Institute; OCC Legislative Priorities Committee, Democratic Party of Hawaii; and seven individuals.

Your Committee finds that, although youth under the age of eighteen are not allowed to vote in elections, they still deserve access and input in the policymaking process.

Your Committee has amended this measure by:

- (1) Clarifying that the Youth Commission shall annually elect one of its members to serve as chairperson;
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (3) Making technical nonsubstantive changes for the purposes of consistency and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2089, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2089, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 11. Noes, none. Excused, none.

SCRep. 2823 Ways and Means on S.B. No. 2108

The purpose and intent of this measure is to provide health care premium assistance for any health insurance costs assessed against individuals at various income ranges up to three hundred percent of the federal poverty level.

Your Committee received testimony in support of this measure from the OCC Legislative Priorities Committee, Democratic Party of Hawai'i.

Your Committee received written comments on this measure from the Department of Human Services.

Your Committee finds that access to health care is an important need for Hawaii residents. According to the Federal Census Bureau, about half of the population of the State has an income at three hundred percent of the federal poverty level. Providing health care premium assistance would make health insurance costs more affordable for families in the State.

Your Committee has amended this measure by changing the effective date to July 1, 2050, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2108, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2108, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 11. Noes, none. Excused, none.

SCRep. 2824 Ways and Means on S.B. No. 3038

The purpose and intent of this measure is to increase the amount of moneys invested in the State's natural resources and environment.

Specifically, this measure:

- (1) Redistributes transient accommodations tax revenues by allocating more moneys to the special land and development fund and reducing the allocation to the tourism special fund; and

- (2) Amends the allowable uses of the transient accommodations tax revenues allocated to the special land and development fund to include:
- (A) The protection, preservation, maintenance, and enhancement of state parks and trails; and
 - (B) The enforcement costs of state parks and trails.

Your Committee received written comments in support of this measure from the Department of Land and Natural Resources; Office of Hawaiian Affairs; and OCC Legislative Priorities Committee, Democratic Party of Hawaii.

Your Committee received written comments in opposition to this measure from the Hawaii Tourism Authority and Kohala Coast Resort Association.

Your Committee received written comments on this measure from the Tax Foundation of Hawaii.

Your Committee finds that, given the continued increase of visitors to the State, and these visitors' interest in Hawaii's natural environment, more moneys should be invested in Hawaii's natural resources and environment.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (2) Making technical nonsubstantive amendments for the purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3038, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 3038, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 11. Noes, none. Excused, none.

SCRep. 2825 Ways and Means on S.B. No. 2368

The purpose and intent of this measure is to improve child sexual abuse prevention education in the State.

Specifically, this measure:

- (1) Requires the Department of Education to establish a sexual abuse prevention education program beginning with the 2019-2020 school year;
- (2) Requires the program to include age-appropriate curriculum, a minimum of one hour of instruction each school year, instruction on communicating sexual abuse, training for school personnel, and education for parents and guardians of students;
- (3) Authorizes the Department of Education to contract with an organization to carry out the program;
- (4) Requires the Board of Education to adopt policies for the program;
- (5) Requires the Department of Education to submit reports regarding the program; and
- (6) Appropriates funds for the program.

Your Committee received written comments in support of this measure from YMCA Oahu; The Sex Abuse Treatment Center; Hawaii Youth Services Network; American Association of University Women, Hawaii; Parents and Children Together; Hawaii State Coalition Against Domestic Violence; Hawaii State Teachers Association; Planned Parenthood Votes Northwest and Hawaii; YWCA Oahu Advocacy Committee; Safe Keiki Project; IMUAlliance; Save Medicaid Hawaii; Hawaii State Democratic Women's Caucus; and seven individuals.

Your Committee received written comments on this measure from the Department of Education.

Your Committee finds that sexual abuse is a serious and ongoing threat to the safety, health, and well-being of children and young people in the State. This measure establishes a program that will provide guidance to students, teachers, and school personnel regarding the protection of Hawaii's children against sexual abuse.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (2) Making technical nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2368, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2368, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 10. Noes, none. Excused, 1 (Shimabukuro).

SCRep. 2826 Ways and Means on S.B. No. 3086

The purpose and intent of this measure is to support high technology development by requiring the Department of Business, Economic Development, and Tourism to partner with the United States Department of Energy to establish an Office of Science National Laboratory in the Kalaeloa Community Development District.

Your Committee received written comments on this measure from the Department of Business, Economic Development, and Tourism and the Hawaii Community Development Authority.

Your Committee finds that establishing an Office of Science National Laboratory in Hawaii will support Hawaii's goal of achieving one hundred percent renewable energy use for the entire State.

Your Committee has amended this measure by making a technical nonsubstantive change for the purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3086, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 3086, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 11. Noes, none. Excused, none.

SCRep. 2827 Ways and Means on S.B. No. 2704

The purpose and intent of this measure is to establish the policy and permitting framework for the installation of a technologically advanced wireless broadband network in the State.

More specifically, the measure:

- (1) Establishes a process to upgrade and support small wireless facilities and to modify or replace utility poles associated with small wireless facilities;
- (2) Establishes a permitting, application, review, and approval process for wireless service providers to install wireless facilities on state- or county-owned utility poles, or install utility poles in public rights of way; and
- (3) Authorizes wireless communication antennas in rural districts.

Your Committee received written comments in support of this measure from the Department of Business, Economic Development, and Tourism; the Department of Transportation; the Office of Enterprise Technology Services; OCC Legislative Priorities Committee, Democratic Party of Hawaii; Maui Hotel & Lodging Association; Sprint; Verizon Wireless; AT&T; the Maui Chamber of Commerce; the Hawaii Lodging and Tourism Association; and CTIA.

Your Committee received written comments in opposition to this measure from a member of the Maui County Council, Charter Communications, and one individual.

Your Committee received written comments on this measure from the Department of Commerce and Consumer Affairs and the Office of the Mayor of the City and County of Honolulu.

Your Committee finds that the availability of an advanced wireless broadband network is the key to many of the State's economic development initiatives. The State currently ranks among the nation's lowest in broadband speeds available to consumers and in wireless broadband service availability. Your Committee believes that encouraging the development of a robust wireless broadband network throughout the State is integral to competitiveness and will improve network capacity to meet consumer demand.

Your Committee has amended this measure by:

- (1) Clarifying that the processes established by this measure shall not apply to state and county poles, related structures, sites, or facilities that support public safety, law enforcement, or emergency communications;
- (2) Specifying that the State or a county may require a wireless provider to consider installing and operating small wireless facilities and utility poles in rural districts where economically feasible;
- (3) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (4) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2704, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2704, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 11. Noes, none. Excused, none.

SCRep. 2828 Ways and Means on S.B. No. 2237

The purpose and intent of this measure is to assist the Department of Education in optimizing the use of public school lands.

Specifically, this measure:

- (1) Requires the City and County of Honolulu to transfer to the Department of Education the fee simple title of various parcels used by public schools;
- (2) Authorizes the Department of Education to acquire, hold, and convey real property for public educational purposes; and
- (3) Requires the Department of Education to obtain legislative approval prior to conveying real property.

Your Committee received written comments in support of this measure from the Chamber of Commerce Hawaii.

Your Committee finds that the Department of Education seeks to redevelop underutilized school properties. However, the City and County of Honolulu holds the fee simple title of many school properties, thus impeding redevelopment. Your Committee believes that

transferring the title of various school properties to the Department of Education will remove a significant barrier to renovating public schools and ultimately improve Hawaii's public educational system.

Your Committee has amended this measure by:

- (1) Deleting the entry for Ewa Elementary School because the Tax Map Key (TMK) number for TMK 1-9-1-17-37 does not appear to exist within the records of the City and County of Honolulu, Department of Budget and Fiscal Services, Real Property Assessment Division (Assessment Division) records;
- (2) Noting that only a portion of TMK 1-6-1-1-10, corresponding to Waialua Elementary School, shall be transferred because the Assessment Division records indicate that both the City and County of Honolulu and the State are the fee owners;
- (3) Deleting the TMK 1-3-024-004, corresponding to Dole Intermediate School, because the Assessment Division records indicate that the State is the fee owner of that parcel;
- (4) Changing the TMK corresponding to Noelani Elementary School in the measure from TMK 2-9-023-023 to TMK 1-2-9-23-29 to reflect the Assessment Division records for the TMK corresponding to the address of Noelani Elementary School;
- (5) Making the format of the TMK numbers throughout the measure consistent by adding the county number and removing the leading zeros, where necessary;
- (6) Changing the effective date to January 1, 2050, to facilitate further discussion on the measure; and
- (7) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2237, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2237, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 10; Ayes with Reservations (Harimoto, Riviere). Noes, none. Excused, 1 (Shimabukuro).

SCRep. 2829 Ways and Means on S.B. No. 3001

The purpose and intent of this measure is to promote the research and development of alternative energy projects in the State.

Specifically, this measure:

- (1) Establishes an alternative research and development pilot program to promote the research and development of alternative energy by providing matching grants to businesses that meet certain criteria; and
- (2) Appropriates funds for the grants.

Your Committee received written comments in support of this measure from the Hawaii Technology Development Corporation; Makai Ocean Engineering, Inc.; Navatek; Chamber of Commerce Hawaii; and three individuals.

Your Committee received written comments in opposition to this measure from one individual.

Your Committee finds that this measure will support the growth of companies in the State that develop innovative renewable energy technologies and will move Hawaii closer to its clean energy goal of one hundred percent renewable energy by the year 2045.

Your Committee notes that its intent is for funding for the alternative energy research and development pilot program authorized by this measure to continue through fiscal year 2019-2020.

Your Committee has amended this measure by:

- (1) Changing the amount appropriated into and out of the alternative energy research and development revolving fund from \$1,000,000 to an unspecified sum;
- (2) Changing the amount appropriated into and out of the Hawaii technology loan and grant revolving fund from \$1,000,000 to an unspecified sum;
- (3) Changing the maximum amount of moneys that can remain in the Hawaii technology loan and grant revolving fund at the end of any fiscal year from \$2,000,000 to an unspecified sum;
- (4) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (5) Making technical nonsubstantive changes for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3001, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 3001, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 9. Noes, none. Excused, 2 (Kahele, Shimabukuro).

SCRep. 2830 Ways and Means on S.B. No. 2434

The purpose and intent of this measure is to promote the continued development of the Kunoa Cattle Company, LLC, by authorizing the issuance of special purpose revenue bonds to assist the company in the construction of a livestock farm, development of distribution assets and agritourism services, and expansion of the company's renewable energy assets.

Your Committee received written comments in support of this measure from the Board of Agriculture, the Hawaii Farm Bureau Federation, Ulupono Initiative, and the Democratic Party of Hawaii's Oahu County Committee on Legislative Priorities.

Your Committee finds that issuing special purpose revenue bonds to assist the Kunoa Cattle Company, LLC, would encourage food sustainability by increasing the volume of livestock available for local consumption and by improving associated slaughter and processing facility infrastructure.

Your Committee has amended this measure by making technical nonsubstantive changes for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2434, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2434, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 10. Noes, none. Excused, 1 (Shimabukuro).

SCRep. 2831 Ways and Means on S.B. No. 2205

The purpose and intent of this measure is to assist the State Foundation on Culture and the Arts in its efforts to encourage artists to remain and work in Hawaii and to reaffirm the importance of artists to Hawaii.

More specifically, this measure appropriates moneys to the State Foundation on Culture and the Arts to award one-time fellowships to promising artists.

Your Committee received written comments in support of this measure from OCC Legislative Priorities Committee, Democratic Party of Hawaii.

Your Committee finds that the State Foundation on Culture and the Arts' statutorily defined duties include establishing an individual artist fellowship program. Your Committee further finds the Foundation relies on appropriations to fund the program.

Your Committee has amended this measure by:

- (1) Changing the appropriation from \$200,000 to an unspecified amount;
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (3) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2205, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2205, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 10. Noes, none. Excused, 1 (Inouye).

SCRep. 2832 Ways and Means on S.B. No. 2316

The purpose and intent of this measure is to propose a constitutional amendment to modify the appointment process for the Board of Regents of the University of Hawaii.

Specifically, this measure proposes a constitutional amendment to repeal the requirement that the Governor appoint members of the Board of Regents of the University of Hawaii from a list of qualified candidates presented to the Governor by the Candidate Advisory Council for the Board of Regents of the University of Hawaii.

Your Committee received comments in opposition to this measure from the Associated Students of the University of Hawaii and the University of Hawaii Student Caucus.

Your Committee finds that concerns have arisen regarding the selection of candidates to the Board of Regents of the University of Hawaii. Your Committee believes that authorizing the Governor to directly appoint members, instead of selecting appointees from a list of candidates, will ensure a diversified board membership to appropriately oversee the University of Hawaii System.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2316 and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 10. Noes, none. Excused, 1 (Shimabukuro).

SCRep. 2833 Ways and Means on S.B. No. 2574

The purpose and intent of this measure is to authorize the issuance of general obligation bonds for a biological control containment facility on Oahu.

Your Committee received testimony in support of this measure from the Department of Agriculture; the Department of Land and Natural Resources; Big Island Invasive Species Committee; OCC Legislative Priorities Committee, Democratic Party of Hawaii; and a concerned individual.

Your Committee finds that biological control, or reuniting an invasive species in Hawaii with a carefully tested and narrowly targeted pest from the invasive species' native range, is one of the most cost-effective and safe methods for controlling invasive species in Hawaii. The pathogen containment facility for biological control research at the Department of Agriculture, however, has been non-

operational for several years. Your Committee finds that the Department of Agriculture needs a state-of-the-art biological control facility to meet safety standards and control invasive species in the State.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2574 and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 10. Noes, none. Excused, 1 (Shimabukuro).

SCRep. 2834 Ways and Means on S.B. No. 2173

The purpose and intent of this measure is to appropriate moneys to the Department of the Prosecuting Attorney of the City and County of Honolulu for the career criminal prosecution unit.

Your Committee received written comments in support of this measure from the Department of the Attorney General and Department of the Prosecuting Attorney of the City and County of Honolulu.

Your Committee received written comments in opposition to this measure from one individual.

Your Committee finds that a disproportionate amount of serious crimes are committed against the public by “career criminals”, a relatively small number of multiple and repeat-felony offenders. Providing resources for the career criminal prosecution unit will enable the Prosecuting Attorney of the City and County of Honolulu to prosecute career criminals and protect the public.

Your Committee has amended this measure by:

- (1) Changing the appropriation to an unspecified amount; and
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2173, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2173, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 8. Noes, none. Excused, 3 (Kahele, Shimabukuro, Wakai).

SCRep. 2835 Ways and Means on S.B. No. 2668

The purpose and intent of this measure is to codify the State’s commitment to conservation and sustainability by including the affordable and clean energy goal of the United Nations Sustainable Development Goals and indicators, with references to existing state sustainability programs, if applicable, in the Hawaii Revised Statutes.

Your Committee received written comments in support of this measure from the Department of Business, Economic Development, and Tourism; Department of Transportation; Office of Planning; Oahu Economic Development Board; Hawaii Green Growth; Filipina Advocacy Network FAN; OCC Legislative Priorities Committee, Democratic Party of Hawaii; Sierra Club of Hawaii; 350.org; 350Hawaii; and twenty-nine individuals.

Your Committee received written comments in opposition of this measure from one individual.

Your Committee finds that in order for Hawaii to continue to serve as an example for the rest of the world in setting policies on sustainability and to serve as a global leader on issues of conservation and sustainability, it is essential that the State demonstrate its full commitment to its own policies and goals as well as the goals set on the international stage at United Nations conferences and summits on sustainability, including the United Nations Sustainable Development Goal regarding affordable and clean energy.

Your Committee has amended this measure by making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2668, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2668, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 9. Noes, none. Excused, 2 (Kahele, Shimabukuro).

SCRep. 2836 Ways and Means on S.B. No. 2793

The purpose and intent of this measure is to reduce the incidence of intergenerational poverty and dependence on public benefits by requiring the Department of Human Services to use an integrated and multigenerational service delivery approach in delivering human services.

Your Committee received written comments in support of this measure from the Department of Human Services and Hawaii Primary Care Association.

Your Committee finds that providing programs and services that maintain a high level of service integration, quality, and intensity across multiple generations will help to advance the goal of the Department of Human Services to reduce intergenerational poverty in the State and the human and financial costs associated with poverty.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and

(2) Making technical nonsubstantive changes for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2793, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2793, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 11. Noes, none. Excused, none.

SCRep. 2837 Ways and Means on S.B. No. 2256

The purpose and intent of this measure is to provide additional funding to the counties to address the growing number of abandoned vehicles on roadways.

Specifically, this measure:

- (1) Makes the motor vehicle registration fee for U-drive motor vehicles consistent with the \$2 fee for all other motor vehicles; and
- (2) Makes any county ordinance that increases a motor vehicle registration fee applicable to U-drive vehicles.

Your Committee received written comments in support of this measure from the Department of Transportation, Office of the Mayor of the County of Maui, a member of the Maui County Council, and one individual.

Your Committee finds that while U-drive vehicles, better known as rental cars, benefit from a lower county highway beautification fee, these vehicles share the roads alongside all other vehicles and should contribute equally to highway beautification.

Your Committee has amended this measure by making technical nonsubstantive amendments for the purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2256, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2256, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 9. Noes, none. Excused, 2 (Kahele, Shimabukuro).

SCRep. 2838 Ways and Means on S.B. No. 2738

The purpose and intent of this measure is to protect personal information of individuals by requiring county police departments and the Department of Transportation to ensure that information stored on an unclaimed electronic device is removed before providing the device to a finder, or recycling or disposing of the device.

Your Committee received written comments in support of this measure from the Department of Transportation, Office of Enterprise Technology Services, Office of Consumer Protection, Honolulu Police Department, and one individual.

Your Committee finds that the disclosure of certain personal information can contribute to identity theft and should therefore be removed from unclaimed electronic devices, in accordance with recognized standards and guidelines, before those devices are provided to finders, recycled, or disposed.

Your Committee has amended this measure by making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2738, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2738, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 9. Noes, none. Excused, 2 (Kahele, Shimabukuro).

SCRep. 2839 Ways and Means on S.B. No. 2184

The purpose and intent of this measure is to promote statewide fire and life safety programs and activities.

More specifically, this measure provides the State Fire Council with the authority to:

- (1) Expend moneys in the Reduced Ignition Propensity Cigarette Program Special Fund to defray the costs of the Council's fire and life safety programs and activities; and
- (2) Hire either a full-time assistant or part-time personnel.

Your Committee received written comments in support of this measure from the Kauai County Fire Department; Hawaii Fire Department; and Maui County Department of Fire and Public Safety.

Your Committee finds that employing additional personnel would allow the State Fire Council to increase its promotion of statewide fire and life safety programs and activities.

Your Committee has amended this measure by changing the effective date to July 1, 2050, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2184, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2184, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 9. Noes, none. Excused, 2 (Kahele, Shimabukuro).

SCRep. 2840 Ways and Means on S.B. No. 2598

The purpose and intent of this measure is to reduce the frequency of, and prevent, salary overpayments by state departments and agencies.

More specifically, the measure:

- (1) Requires each department to deduct the department's total salary overpayment from the department's budget request for the following fiscal biennium, and to include employees who exhaust their sick leave on a manual accounting system;
- (2) Repeals the two-year statute of limitations for determinations and notice of salary or wage overpayment; and
- (3) Allows officers charged with collecting debt due to salary or wage overpayment to garnish the pensions of former employees, including former employees who have not been employed by the State for more than two years.

The Department of Accounting and General Services, Department of Education, and Employees' Retirement System submitted written comments on the measure.

Your Committee finds that salary overpayments have been an ongoing issue throughout many departments and agencies of the State and that approximately half of all salary overpayments involve an employee's use of unaccrued sick leave. Your Committee believes that requiring departments and agencies to be more accountable for salary overpayments, and enhancing their ability to correct overpaid salaries, will allow the State to more effectively address overpayment waste.

Your Committee has amended this measure by:

- (1) Redesignating from Chapter 26 to Chapter 37, Hawaii Revised Statutes, the new section that requires a department with an outstanding wage or salary overpayment balance at the end of a fiscal biennium to deduct the amount of the balance from the department's budget request in the following fiscal biennium; and
- (2) Deleting the language that authorizes the garnishment of an indebted former employee's pension.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2598, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2598, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 10. Noes, none. Excused, 1 (Shimabukuro).

SCRep. 2841 Ways and Means on S.B. No. 2861

The purpose and intent of this measure is to ensure the effectiveness of the State's corrections system.

Specifically, this measure:

- (1) Requires the Department of Public Safety to establish performance indicators or measures to be incorporated in reports that evaluate the outcomes of certain programs under its jurisdiction; and
- (2) Requires the Department of Public Safety to submit semi-annual reports to the Legislature of the established performance indicators, criminal offender treatment programs, and programs established pursuant to the Community Safety Act.

Your Committee received written comments in support of this measure from the Department of Public Safety; Ho'omanapono Political Action Committee; Community Alliance on Prisons; American Civil Liberties Union of Hawaii; Hawaii Justice Coalition; OCC Legislative Priorities Committee, Democratic Party of Hawai'i; Aloha Light Team; Young Progressives Demanding Action - Hawaii; 808RAN; and five individuals.

Your Committee finds that the performance indicators required by this measure will provide an effective way to monitor and evaluate the State's corrections programs.

Your Committee has amended this measure by:

- (1) Requiring that the Department of Public Safety post the semi-annual reports required under the Criminal Offender Treatment Act on its website in a timely manner;
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (3) Making technical nonsubstantive amendments for clarity and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2861, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2861, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 9. Noes, none. Excused, 2 (Kahele, Shimabukuro).

SCRep. 2842 Ways and Means on S.B. No. 2819

The purpose and intent of this measure is to make an emergency appropriation to provide additional funds for the Department of Public Safety so that it can reimburse the Department of Human Services for the increased costs of hospitalization and specialty out-of-facility care and to cover the increased costs of pharmacy services.

Your Committee received written comments in support of this measure from the Department of Public Safety and Ho'omanopono Political Action Committee.

Your Committee finds that, due to the unexpected increased costs for specialty out-of-facility care and hospitalization of inmates and increased costs for pharmacy services, a critical funding shortage now exists that will prevent the Department of Public Safety from meeting its payment obligations to the Department of Human Services and its pharmacy services provider for the remainder of fiscal year 2017-2018. Your Committee further finds that this appropriation will ensure that the Department of Public Safety will be able to reimburse the Department of Human Services for hospitalization, specialty out-of-facility care, and pharmacy services.

Your Committee has amended this measure by:

- (1) Changing the appropriation from \$2,690,500 to an unspecified amount; and
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2819, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2819, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 9. Noes, none. Excused, 2 (Kahele, Shimabukuro).

SCRep. 2843 Ways and Means on S.B. No. 2910

The purpose and intent of this measure is to create a Homeland Security and Resiliency Council to identify issues relating to electric grid and critical infrastructure resiliency throughout the State and to provide recommendations for enhancing that resiliency.

Your Committee received written comments in support of this measure from the Department of Transportation; Hawaii Emergency Management Agency; Distributed Energy Resources Council of Hawaii; Hawaii Energy Policy Forum; Hawaii Solar Energy Association; Hawaiian Electric Company, Inc.; and Sierra Club of Hawaii

Your Committee finds that as a state comprising isolated islands that are vulnerable to natural disasters, Hawaii must have infrastructure in place that can withstand natural disasters and emergencies. Your Committee believes that this measure can enhance the resiliency of the electric grid and critical infrastructure, including hospitals, fire stations, police stations, and ports of entry.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (2) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2910, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2910, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 9. Noes, none. Excused, 2 (Kahele, Shimabukuro).

SCRep. 2844 (Majority) Ways and Means on S.B. No. 2648

The purpose and intent of this measure is to increase the efficiency and effectiveness of the Public Utilities Commission.

Specifically, this measure:

- (1) Establishes guiding principles for the Commission;
- (2) Establishes docket review and decision-making processes;
- (3) Permits teleconference and videoconference abilities;
- (4) Specifies which senior staff members must file public financial disclosures;
- (5) Increases the number of Commissioners from three to five and updates the composition of the Commission;
- (6) Specifies training requirements for Commissioners;
- (7) Clarifies each Commissioner's ability to appoint and employ staff;
- (8) Clarifies the roles of the executive officer and chief counsel;
- (9) Permits neighbor island members to receive per diem compensation and compensation for travel expenses; and
- (10) Requires the Commission to report to the Legislature regarding certain staff duties.

Your Committee received written comments in support of this measure from the Ulupono Initiative and one individual.

Your Committee received written comments in opposition to this measure from the Public Utilities Commission and one individual.

Your Committee received written comments on this measure from the Division of Consumer Advocacy, Department of Commerce and Consumer Affairs; Hawaii State Ethics Commission; and Hawaii Energy Policy Forum.

Your Committee finds that due to the Public Utilities Commission's increasing responsibilities and the evolution of the regulatory landscape, it is essential that the structure and operations of the Commission be updated to enable the Commission to operate more efficiently and effectively, consistent with best practices.

Your Committee has amended this measure by making technical nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2648, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2648, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 8. Noes, 2 (Harimoto, Riviere). Excused, 1 (Shimabukuro).

SCRep. 2845 Ways and Means on S.B. No. 2278

The purpose and intent of this measure is to improve teacher recruitment and retention.

Specifically, this measure:

- (1) Establishes a teacher home assistance program, to be administered by the Hawaii Housing Finance and Development Corporation, to provide housing vouchers to qualified full-time teachers employed by the Department of Education, including teachers at public charter schools; and
- (2) Appropriates funds to the Hawaii Housing Finance and Development Corporation to provide housing vouchers through the teacher home assistance program.

Your Committee received written comments in support of this measure from the Department of Education; Hawaiian Community Assets; Hawaii State Teachers Association; OCC Legislative Priorities Committee, Democratic Party of Hawaii; Young Progressives Demanding Action - Hawaii; IMUAlliance; Kamehameha Schools; and two individuals.

Your Committee received written comments on this measure from the Hawaii Housing Finance and Development Corporation.

Your Committee finds that Hawaii's high cost of living poses a significant burden on teachers and is a significant contributing factor in the Department of Education's teacher recruitment and retention issues.

Your Committee has amended this measure by:

- (1) Including teachers at public charter schools among those who are eligible to receive a housing voucher on a first-come, first-served basis;
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (3) Making technical nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2278, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2278, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 11. Noes, none. Excused, none.

SCRep. 2846 Ways and Means on S.B. No. 48

The purpose and intent of this measure is to transfer title, control, custody, and management authority of a certain parcel of land owned by the University of Hawaii to the Hawaii Technology Development Corporation.

More specifically, this measure:

- (1) Transfers the title, control, custody, and management authority for the parcel of land under the Manoa Innovation Center and any buildings, structures, and appurtenances situated on the land, from the University of Hawaii to the Hawaii Technology Development Corporation;
- (2) Requires that the title, control, custody, and management authority of this parcel of land and any buildings, structures, and appurtenances situated on the land, transfer back to the University of Hawaii on June 30, 2029; and
- (3) Provides that the University of Hawaii shall not execute the conveyance until July 1, 2019, and prohibits the University of Hawaii from making any decisions affecting the land during this period.

Your Committee received written comments in support of this measure from the Hawaii Technology Development Corporation; Bright Light Digital; Nalu Scientific, LLC; Hyperspective Studios, Inc.; HI EvoDevo; TeleVoice 2000; Mana Up Labs, LLC; Dev League Inc; Kuehnle AgroSystems Inc.; 3D Innovations; OCC Legislative Priorities Committee, Democratic Party of Hawaii; Honolulu Options Traders, LLC; and Dispute Resolution Collaborative.

Your Committee received written comments in opposition to this measure from the University of Hawaii System.

Your Committee received written comments on this measure from the Department of Business, Economic Development, and Tourism; and Chamber of Commerce Hawaii.

Your Committee finds that the Hawaii Technology Development Corporation (Corporation) relies heavily on the revenues received from renting space in the Manoa Innovation Center to local businesses as part of its incubation services. However, your Committee also finds that the lease between the Corporation and University of Hawaii that allows for these revenues will terminate on June 30, 2018. Your Committee believes that it is important to enable the Corporation to continue providing these incubation services to local technology businesses.

Your Committee has amended this measure by deleting its contents and replacing them with provisions that:

- (1) Make an appropriation to the Hawaii Technology Development Corporation to continue providing services to businesses in the State;
- (2) Request that the Department of Accounting and General Services locate a site for the Corporation to continue providing incubation services; and
- (3) Insert an effective date of July 1, 2050, to facilitate further discussion on the measure.

Your Committee notes that the Hawaii Technology Development Corporation will require an appropriation of \$970,000.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 48, S.D. 2, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 48, S.D. 3.

Signed by the Chair on behalf of the Committee.
Ayes, 8. Noes, none. Excused, 3 (Galuteria, Riviere, Shimabukuro).

SCRep. 2847 Ways and Means on S.B. No. 2748

The purpose and intent of this measure is to update and clarify the charitable solicitations law.

Specifically, the measure amends the charitable solicitations law by:

- (1) Updating and clarifying terminology for receipts and revenues;
- (2) Clarifying the time periods that a professional solicitor must file financial reports with the Attorney General;
- (3) Clarifying a commercial co-venturer's duty to provide an accounting to the charitable organization;
- (4) Clarifying a commercial co-venturer's duties when conferring the benefit from a charitable sales promotion upon the charitable organization;
- (5) Relieving certain charitable organizations from the duty to include an audit report with its annual financial report; and
- (6) Designating the Hawaii Council of Private Schools as a licensing or accrediting organization for charitable organizations exempted from registration and financial disclosure requirements.

Your Committee received written comments in support of this measure from the Department of the Attorney General, Hawaii Association of Independent Schools, Hawai'i Alliance of Nonprofit Organizations, and Hawaii Council of Private Schools.

Your Committee finds that this measure will assist the Attorney General in the oversight of charitable organizations and fundraising activities, clarify regulatory procedures for the nonprofit sector, and provide additional disclosures to the public.

Your Committee has amended this measure by clarifying language relating to the dates by which:

- (1) Professional solicitors conducting charitable solicitation campaigns must file a financial report; and
- (2) Commercial co-venturers conducting charitable sales promotions must deliver an accounting and confer the benefit from the promotion to the charitable organization.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2748, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2748, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 9. Noes, none. Excused, 2 (Inouye, Wakai).

SCRep. 2848 Ways and Means on S.B. No. 2580

The purpose and intent of this measure is to promote the celebration of King Kamehameha.

More specifically, this measure makes appropriations to the Department of Accounting and General Services to:

- (1) Establish one full-time equivalent (1.0 FTE) Executive Director position for the King Kamehameha Celebration Commission; and
- (2) Fund costs arising from the annual King Kamehameha Day celebration.

Your Committee received written comments in support of this measure from the King Kamehameha Celebration Commission; Hawaiian Civic Club of Honolulu; OCC Legislative Priorities Committee, Democratic Party of Hawaii; Daughters of Hawaii; and Makaha Hawaiian Civic Club.

Your Committee finds that the King Kamehameha Commission was created to coordinate celebrations focused on King Kamehameha. Your Committee finds that the Commission would benefit from an Executive Director to manage daily operations and plan and execute celebration events and festivities statewide.

Your Committee has amended this measure by changing the effective date to July 1, 2050, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2580, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2580, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 10. Noes, none. Excused, 1 (Inouye).

SCRep. 2849 Ways and Means on S.B. No. 2416

The purpose and intent of this measure is to makes certain statutory amendments relating to the conveyance tax.

More specifically, the measure:

- (1) Increases the conveyance tax rates for certain high-value properties; and
- (2) Repeals the statutory monetary cap on the amount of conveyance tax moneys paid into the rental housing revolving fund for the financing of affordable rental housing developments.

Your Committee received written comments in support of this measure from the Office of Hawaiian Affairs, Catholic Charities Hawaii, Hawaii Appleseed Center for Law & Economic Justice, IMUAlliance, and Partners in Care.

Your Committee received written comments in opposition to this measure from the Hawaii Association of REALTORS and Land Use Research Foundation of Hawaii.

Your Committee received written comments on this measure from the Department of Taxation, Hawaii Housing Finance Development Corporation, General Contractors Association of Hawaii, and Tax Foundation of Hawaii.

Your Committee finds that this measure facilitates the availability of additional moneys for affordable rental housing finance and development in the State.

Your Committee has amended this measure by:

- (1) Inserting language that exempts affordable housing from the conveyance tax pursuant to rules to be adopted by the Director of Taxation; and
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2416, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2416, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 11. Noes, none. Excused, none.

SCRep. 2850 Ways and Means on S.B. No. 2304

The purpose and intent of this measure is to reduce the use of tobacco products among youth.

More specifically, the measure prohibits the issuance and renewal of retail tobacco permits and the sale of tobacco products within five hundred feet of schools and playgrounds used extensively by minors.

Your Committee received written comments in support of this measure from the County of Kauai Office of the Prosecuting Attorney; Blue Zones Project-Hawaii; Hawaii Public Health Association; Hawaii Public Health Institute; OCC Legislative Priorities Committee, Democratic Party of Hawaii; Papa Ola Lokahi; Pioneering Healthier Communities of Honolulu; and numerous individuals.

Your Committee received written comments in opposition to this measure from Black Lava Vape, Cigar Rights of America, Hawaii Food Industry Association, Minit Stop Stores, Mokuleia Cigar Company, PCG Enterprises LLC, VOLCANO Fine Electronic Cigarettes, and six individuals.

Your Committee received written comments on this measure from the Department of the Attorney General, Department of Health, and Department of Taxation.

Your Committee finds that while youth walk or ride to school or playgrounds, they may see advertisements for tobacco products and electronic smoking devices or notice those products for sale at locations, including convenience stores, grocery stores, and gas stations, that are near the schools or playgrounds. Your Committee recognizes that several jurisdictions in the United States have established tobacco retail buffer zones, in which tobacco products are not authorized to be sold in retail stores located within a certain distance of a school or playground.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (2) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2304, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2304, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 10. Noes, none. Excused, 1 (Shimabukuro).

SCRep. 2851 Ways and Means on S.B. No. 2653

The purpose and intent of this measure is to increase access to quality medical care, regardless of borders.

More specifically, this measure:

- (1) Establishes requirements for the licensure of physicians, surgeons, and osteopathic physicians to practice in Hawaii by endorsement; and
- (2) Makes an appropriation to support implementation of the new licensure requirements.

Your Committee received written comments in support of this measure from the Department of Health, Hawaii Medical Board, Healthcare Association of Hawaii, Hilo Medical Center, Hawaii Primary Care Association, Hawaii Pacific Health, and one concerned individual.

Your Committee finds that qualified out-of-state medical professionals may face impediments to receiving licensure in the State, and that licensure by endorsement could ease these impediments.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (2) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2653, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2653, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 10. Noes, none. Excused, 1 (Shimabukuro).

SCRep. 2852 Ways and Means on S.B. No. 2868

The purpose and intent of this measure is to improve the collection of the transient accommodations tax.

More specifically, this measure amends the definition of “gross rental” or “gross rental proceeds”, as used in the transient accommodations tax law, to apply the transient accommodations tax to the share of proceeds received by transient accommodations brokers, travel agencies, and tour packagers in noncommissioned transactions.

Your Committee received written comments on this measure from the Department of Taxation and Tax Foundation of Hawaii.

Your Committee finds that, under current law, when transient accommodations are sold through a transient accommodations broker, travel agency, or tour packager at a noncommissioned negotiated contract rate, the transient accommodations tax is only imposed on the share of the proceeds received by the operator of the transient accommodation. Your Committee also finds that the intent of this measure is to create parity by also applying the transient accommodations tax to the share of proceeds received by the transient accommodations broker, travel agency, or tour packager. However, as currently drafted, the measure only applies the transient accommodations tax to the share of proceeds received by the transient accommodations broker, travel agency, or tour packager, and not the share received by the operator of the transient accommodation.

Your Committee has amended this measure by:

- (1) Adding provisions to ensure that the transient accommodations tax is applied to the respective shares of proceeds received by operators of transient accommodations, as well as transient accommodations brokers, travel agencies, and tour packagers, in noncommissioned transactions;
- (2) Amending section 237D-2, Hawaii Revised Statutes, to explicitly impose the transient accommodations tax on transient accommodations brokers, travel agencies, and tour packagers;
- (3) Inserting a new section into Chapter 237D, Hawaii Revised Statutes, that requires transient accommodations brokers, travel agencies, and tour packagers to register with the Department of Taxation and pay a \$15 registration fee; and
- (4) Specifying that Chapter 237D, Hawaii Revised Statutes, applies to transient accommodations brokers, travel agencies, and tour packagers in the same manner as it applies to operators of transient accommodations.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2868, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2868, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 11. Noes, none. Excused, none.

SCRep. 2853 Ways and Means on S.B. No. 2401

The purpose and intent of this measure is to support various programs across the State to reduce homelessness.

Specifically, this measure:

- (1) Establishes and appropriates funds for a three-year housing homeless children pilot program to assist families with minors, or those families with minors at imminent risk of homelessness due to domestic violence, to obtain and maintain permanent housing; and
- (2) Appropriates funds to the Hawaii Public Housing Authority, Department of Human Services, and Department of Health to support public housing; housing first; rapid rehousing; outreach services programs to homeless persons, including outreach services to runaway and homeless youth and civil legal services; Oahu's Family Assessment Center; and the Law Enforcement Assisted Diversion program.

Your Committee received written comments in support of this measure from the Hawaii Public Housing Authority; Department of Human Services; Governor's Coordinator on Homelessness; YWCA Oahu; Domestic Violence Action Center; Drug Policy Forum of Hawaii; The Salvation Army Addiction Treatment Services; Hawaii Substance Abuse Coalition; Hawaii Youth Services Network; Catholic Charities Hawaii; Mental Health America of Hawaii; Hawaii Pacific Health; Partners in Care; IMUAlliance; Family Promise of Hawaii; PHOCUSED; Hawaii Appleseed Center for Law and Economic Justice; Aloha United Way; Project Vision Hawaii; OCC Legislative Priorities Committee, Democratic Party of Hawaii; Young Progressives Demanding Action - Hawaii; RYSE; Hawaii Kai Homeless Task Force; and seven individuals.

Your Committee received written comments on this measure from the Department of Health.

Your Committee finds that the State needs to turn the tide on homelessness by investing in proven programs like housing first and rapid rehousing, and by making more efficient use of available resources by implementing a data-driven, collaborative process that matches persons experiencing homelessness with the services they need.

Your Committee has amended this measure by:

- (1) Changing all amounts appropriated by this measure to unspecified sums;
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (3) Making technical nonsubstantive changes for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2401, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2401, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 11. Noes, none. Excused, none.

SCRep. 2854 Ways and Means on S.B. No. 2600

The purpose and intent of this measure is to establish the subcontractor listing pilot program, to be conducted by the University of Hawaii.

More specifically, the measure requires the University of Hawaii to:

- (1) Require all bids for construction contracts where the estimated contract value is more than \$3,000,000, to list all joint contractors and subcontractors; and
- (2) Require all bids for construction contracts where the estimated contract value is less than \$3,000,000, to list the joint contractors and subcontractors representing the electrical, plumbing, asbestos, elevator, and boilermaker trades.

Your Committee received written comments in support of this measure from the University of Hawaii System; Department of Transportation; Department of Budget and Fiscal Services of the City and County of Honolulu; General Contractors Association of Hawaii; Building Industry Association of Hawaii; LYZ, Inc.; Healy Tibbitts Builders, Inc.; Royal Contracting Co., Ltd.; Hawaiian Dredging Construction Company, Inc.; Nordic PCL Construction, Inc.; and Alan Shintani, Inc.

Written comments in opposition were received from the Hawaii Wall and Ceiling Industry Association; Subcontractors Association of Hawaii; Ironworkers Stabilization Fund; Plumbing and Mechanical Contractors Association of Hawaii; Painting Industry of Hawaii Labor Management Cooperation Trust Fund; Hawaii Tapers Market Recovery Trust Fund; Hawaii Glaziers, Architectural Metal Glassworkers Local Union 1889 AFL-CIO Stabilization Trust Fund; Carpet, Linoleum and Soft Tile Local Union 1926 Market Recovery Trust Fund; Sheet Metal Contractors Association; and Electrical Contractors Association.

Your Committee finds that the measure, as received, could have unintended negative impacts on the procurement process, and according to the written comments submitted by the University of Hawaii System, changes to the subcontractor listing requirements for projects valued at less than \$3,000,000 would add to the administrative review process and create new grounds for bid protests.

Accordingly, your Committee has amended this measure by:

- (1) Replacing the language of section 2(a) of the measure in its entirety with language proposed by the University of Hawaii System that:
 - (A) States, among other things, that the subcontractor listing pilot program conducted by the University of Hawaii shall not require a listing of joint contractors or subcontractors to be included in competitive sealed bids for construction where the estimated contract value is less than \$3,000,000; and
 - (B) Deletes references to joint contractors and subcontractors representing the electrical, plumbing, asbestos, elevator, and boilermaker trades;

- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (3) Making technical nonsubstantive changes for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2600, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2600, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 11; Ayes with Reservations (Inouye, Kahele, Kidani, Wakai). Noes, none. Excused, none.

SCRep. 2855 Ways and Means on S.B. No. 2074

The purpose and intent of this measure is to assist in the protection of important agricultural lands by extending the period of time in which the Department of Agriculture may certify important agricultural land qualified agricultural cost tax credits.

Your Committee received written comments in support of this measure from the Department of Agriculture; Department of Planning and Permitting of the City and County of Honolulu; a Hawaii County Council member; Alexander and Baldwin; Land Use Research Foundation of Hawaii; Hawaii Farm Bureau Federation; Hawaii Cattlemen's Council; Hawaii Crop Improvement Association; Maui County Farm Bureau; Ka Ohana O Na Pua; and twenty-two individuals.

Your Committee received written comments on this measure from the Department of Taxation and Tax Foundation of Hawaii.

Your Committee finds that the important agricultural land qualified agricultural cost tax credit provides important financial support that assists farmers on important agricultural lands to sustain their agricultural operations, and allows these farmers to continue to enhance the viability and sustainability of their farming operations.

Your Committee has amended this measure by changing the effective date to July 1, 2050, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2074, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2074, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 9. Noes, none. Excused, 2 (Galuteria, Kahele).

SCRep. 2856 Ways and Means on S.B. No. 2027

The purpose and intent of this measure is to support the efforts of the Statewide Homeless Initiative to prevent homelessness and to rehouse homeless individuals in the State.

More specifically, this measure appropriates moneys to the Department of Human Services to continue and improve the coordinated Statewide Homeless Initiative, provided that certain conditions are met.

Your Committee received written comments in support of this measure from Catholic Charities Hawaii; OCC Legislative Priorities Committee, Democratic Party of Hawaii; IMUAlliance; Hawaii Appleseed Center for Law & Economic Justice; Partners in Care; Aloha United Way; Life Foundation & the CHOW Project; and one concerned individual.

Your Committee received written comments in opposition to this measure from the State Procurement Office.

Your Committee received written comments on this measure from the Department of Human Services, Department of Health, and Governor's Coordinator on Homelessness.

Your Committee finds that since its inception, the Statewide Homeless Initiative has helped thousands of individuals who were homeless or at risk of becoming homeless.

Your Committee notes that the State Procurement Office submitted testimony describing numerous concerns with this measure. However, your Committee believes that this measure should be passed for continued discussion and that the State Procurement Office's concerns should be addressed as the measure moves through the legislative process.

Your Committee has amended this measure by:

- (1) Changing the appropriation from \$2,500,000 to an unspecified amount;
- (2) Changing the allocation for continuation of the statewide homeless initiative from \$2,000,000 to an unspecified amount;
- (3) Changing the allocation for landlord outreach and liaison activities from \$500,000 to an unspecified amount;
- (4) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (5) Making technical nonsubstantive changes for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2027, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2027, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, none.

SCRep. 2857 Ways and Means on S.B. No. 2363

The purpose and intent of this measure is to require and appropriate funds for the Department of Human Resources Development to establish a working group to create and implement a supervisory and professional job shadowing pilot project for state positions.

Your Committee received written comments in support of this measure from the Hawaii Government Employees Association and OCC Legislative Priorities Committee, Democratic Party of Hawaii.

Your Committee received written comments on this measure from the Department of Human Resources Development.

Your Committee finds that a supervisory and professional job shadowing pilot project could help ensure the transfer of essential skills and institutional knowledge necessary to stabilize the state workforce.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (2) Making a technical nonsubstantive change for the purpose of clarity.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2363, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2363, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 11. Noes, none. Excused, none.

SCRep. 2858 Ways and Means on S.B. No. 2196

The purpose and intent of this measure is to repeal the requirement for the County of Kauai to contract with the Kauai Humane Society for the purpose of providing certain animal services.

Your Committee received written comments in support of this measure from the Department of Finance of the County of Kauai.

Your Committee finds that the requirement for the County of Kauai to contract with the Kauai Humane Society is now obsolete and that section 143-16, Hawaii Revised Statutes, should therefore be repealed.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2196 and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 9. Noes, none. Excused, 2 (Kahele, Shimabukuro).

SCRep. 2859 Ways and Means on S.B. No. 3100

The purpose and intent of this measure is to consolidate the Department of Budget and Finance and the Department of Human Resources Development into a single department, to be known as the Department of Budget, Finance, and Human Resources.

Your Committee received written comments in opposition to this measure from the Department of Budget and Finance and the Department of Human Resources Development.

Your Committee finds that consolidation of the Department of Budget and Finance and the Department of Human Resources Development could improve coordination of state hiring and the budgeting of resources for applicable positions.

Your Committee has amended this measure by changing the effective date to January 1, 2050, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3100, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 3100, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 10. Noes, none. Excused, 1 (Shimabukuro).

SCRep. 2860 Ways and Means on S.B. No. 2257

The purpose and intent of this measure is to provide the public with access to the estimated revenue impact of legislation being considered by the Legislature.

Specifically, the measure requires that a revenue estimate that the Department of Taxation provides to the Legislature or to any executive or administrative office be accompanied by a description of the methodology used and assumptions made in providing that estimate, and that the estimate and description be open to public disclosure, inspection, and copying.

Your Committee received written comments in support of this measure from the Civil Beat Law Center for the Public Interest, Common Cause Hawaii, and Ulupono Initiative.

Your Committee received written comments on this measure from the Department of Taxation and Tax Foundation of Hawaii.

Your Committee finds that governmental transparency is necessary to hold public officials accountable to the general public. Although the Department of Taxation provides estimates to the Legislature regarding the revenue impact of proposed legislation, the Department does not necessarily provide accompanying descriptions of the methodologies used and assumptions made in calculating those estimates. Your Committee also notes that the Department's methodologies are not made available to the general public.

Your Committee has amended this measure by:

- (1) Clarifying that the scope of the measure only applies to revenue estimates for proposed state legislation;
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (3) Making technical nonsubstantive changes for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2257, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2257, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 10. Noes, none. Excused, 1 (Shimabukuro).

SCRep. 2861 Ways and Means on S.B. No. 2507

The purpose and intent of this measure is to promote computer science education in the State.

More specifically, this measure:

- (1) Requires the Department of Education to:
 - (A) Develop and implement a computer science curricula plan; and
 - (B) Permit public school students to fulfill one math or one science credit, or both, upon satisfactory completion of one computer science credit per credit requirement;
- (2) Requires the University of Hawaii to permit any applicant for admission to fulfill one math or one science credit, or both, upon satisfactory completion of one computer science credit per credit requirement; and
- (3) Makes an appropriation to the Department of Education to promote computer science education as required under this measure.

Your Committee received written comments in support of this measure from the Microsoft Corporation, Code.org, Women in Technology (Maui Economic Development Board), DevLeague Inc, Purple Maia Foundation, HawaiiKidsCAN, one student at W.R. Farrington High School, and two concerned individuals.

Your Committee received written comments on this measure from the Department of Education and University of Hawaii System.

Your Committee finds that it is increasingly important to provide students with computer science education opportunities.

Your Committee has amended this measure by making technical nonsubstantive changes for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2507, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2507, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 11. Noes, none. Excused, none.

SCRep. 2862 Ways and Means on S.B. No. 2988

The purpose and intent of this measure is to support the health and well-being of caregivers and elders in the State.

Specifically, this measure:

- (1) Appropriates funds to implement the kupuna caregivers program; and
- (2) Requires the Executive Office on Aging to include in its annual report to the Governor and the Legislature a section that details outcomes of the kupuna caregivers program.

Your Committee received written comments in support of this measure from the Elderly Affairs Division of the City and County of Honolulu; Maui County Office on Aging; AARP Hawaii; Hawaii Family Caregiver Coalition; Hawaii Public Health Association; Healthcare Association of Hawaii; Mental Health America of Hawaii; Caring Across Generations; Hawaii Section of the American College of Obstetricians and Gynecologists; Hawaii Alliance for Retired Americans; Kupuna Caucus of the Democratic Party of Hawaii; American Association of University Women, Hawaii; Hawaii Chapter of the American Physical Therapy Association; Hawaii Alliance for Progressive Action; Hawaii Appleseed Center for Law and Economic Justice; Faith Action for Community Equity; Long-Term Care Task Force of the Faith Action for Community Equity; ILWU Local 142; YWCA Oahu; OCC Legislative Priorities Committee, Democratic Party of Hawaii; Civic Education Council; Zonta Club of South Hilo; Hawaii Women's Coalition; PHOCUSED; United Public Workers; and over one hundred thirty individuals.

Your Committee received written comments on this measure from the Executive Office on Aging.

Your Committee finds that the kupuna caregivers program is critical to supporting the well-being of caregivers, who may be elderly themselves, or who may need to consider leaving their jobs or taking a significant cut in pay to care for their parents.

Your Committee has amended this measure by:

- (1) Changing the amount appropriated to implement the kupuna caregivers program from \$4,000,000 to \$3,400,000;

- (2) Requiring the Executive Office on Aging to include in its annual report a cost breakdown and analysis of individuals served, by county and type of service received, for the kupuna caregivers program;
- (3) Requiring the Executive Office on Aging to offer a plan to:
 - (A) Maximize the number of recipients served by the kupuna caregivers program; and
 - (B) Offer certain core services through the program;
- (4) Requiring the Executive Office on Aging to submit a copy of the plan to the legislature prior to the convening of the regular session of 2019;
- (5) Including activities of daily living and attendant care in the services provided by the kupuna caregivers program;
- (6) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (7) Making technical nonsubstantive amendments for the purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2988, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2988, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 10. Noes, none. Excused, 1 (Shimabukuro).

SCRep. 2863 Ways and Means on S.B. No. 2674

The purpose and intent of this measure is to affirm the State's commitment to conservation and sustainability by codifying in state law the goal relating to climate action, of the United Nations Sustainable Development Goals and indicators.

Your Committee received written comments in support of this measure from the Department of Land and Natural Resources, Department of Agriculture, OCC Legislative Priorities, Hawaii Green Growth, Sierra Club of Hawaii, and three individuals.

Your Committee received written comments on this measure from the Office of Planning and Hawaii Farm Bureau Federation.

Your Committee finds that in order for Hawaii to continue to serve as an example for the rest of the world in setting policies on sustainability and to serve as a global leader on issues of conservation and sustainability, it is essential that the State demonstrate its full commitment to its own policies and goals as well as the sustainable development goals set by the United Nations.

Your Committee has amended this measure by making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2674, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2674, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 9. Noes, none. Excused, 2 (Inouye, Wakai).

SCRep. 2864 Ways and Means on S.B. No. 3048

The purpose and intent of this measure is to appropriate moneys to the Department of Land and Natural Resources for the establishment of a training academy for conservation and resources enforcement officers.

Your Committee received written comments in support of this measure from the Department of Land and Natural Resources; Hanalei Watershed Hui; Kuaaina Ulu Auamo; OCC Legislative Priorities Committee, Democratic Party of Hawaii; and five individuals.

Your Committee believes that the establishment of a training academy for conservation and resources enforcement officers will allow the Department of Land and Natural Resources, through its Division of Conservation and Resources Enforcement, to provide recruits with necessary training in conservation and law enforcement.

Your Committee has amended this measure by:

- (1) Changing the appropriation from \$500,928 to an unspecified amount;
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (3) Making technical nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3048, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 3048, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 11. Noes, none. Excused, none.

SCRep. 2865 Ways and Means on S.B. No. 2497

The purpose and intent of this measure is to encourage landlords to rent to tenants who participate in the Section 8 Housing Choice Voucher Program.

More specifically, this measure:

- (1) Requires the Hawaii Public Housing Authority to:
 - (A) Establish a program to offer dwelling insurance policies to landlords that rent their property to tenants who participate in the Section 8 Housing Choice Voucher Program; and
 - (B) Submit a report of its findings and recommendations to the Legislature no later than twenty days prior to the convening of the Regular Session of 2019; and
- (2) Makes an appropriation for the establishment of the dwelling insurance program.

Your Committee received written comments in support of this measure from HPHA and OCC Legislative Priorities Committee, Democratic Party of Hawaii.

Your Committee finds that establishing a program to provide dwelling insurance policies to landlords could encourage landlords to rent their properties to tenants who participate in the Section 8 Housing Choice Voucher Program.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (2) Making technical nonsubstantive changes for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2497, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2497, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 11. Noes, none. Excused, none.

SCRep. 2866 Ways and Means on S.B. No. 2904

The purpose and intent of this measure is to support and sustain the Small Business Innovation Research Program operated by the Hawaii Technology Development Corporation by appropriating \$2,000,000 for the continuance of the Program.

Your Committee received written comments in support of this measure from the Hawaii Technology Development Corporation; Chamber of Commerce Hawaii; Experiad Solutions; Hawaii EvoDevo, Hawaii Fish Company; Hawaii Food Industry Association; Hyperspective Studios, Inc.; Kinection; Makai Ocean Engineering, Inc.; Navatek; Nalu Scientific, LLC; Oceanit Laboratories, Inc.; Spectrum Photonics; and two individuals.

Your Committee finds that the Small Business Innovation Research Program is an important initiative of the State that assists Hawaii's small businesses in advancing technology and developing new products. Your Committee further finds that appropriating funds to the Hawaii Technology Development Corporation to support the Small Business Innovation Research Program is in the public interest.

Your Committee notes that the Hawaii Technology Development Corporation agrees that \$2,000,000 is a sufficient appropriation for the Small Business Innovation Research Program as long as it does not replace their priorities requested in the Executive Budget.

Your Committee has amended this measure by:

- (1) Changing the appropriation from \$2,000,000 to an unspecified amount;
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (3) Making technical nonsubstantive changes for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2904, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2904, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 11. Noes, none. Excused, none.

SCRep. 2867 Ways and Means on S.B. No. 2056

The purpose and intent of this measure is to require each restaurant in the State that offers a children's meal combination to offer a healthy beverage as the default beverage for that combination.

Your Committee received written comments in support of this measure from the Department of Health; Insurance Division, Department of Commerce and Consumer Affairs; American Cancer Society Cancer Action Network; American Diabetes Association; American Heart Association; Blue Zones Project - Hawaii; Hawaii Children's Action Network; Hawaii Dental Hygienists' Association; Hawaii Primary Care Association; Hawaii Public Health Institute; OCC Legislative Priorities Committee, Democratic Party of Hawaii; Papa Ola Lokahi; and numerous individuals.

Your Committee believes that by promoting a healthy meal option for children, which should include providing a healthy beverage, this measure can help build a healthier community.

Your Committee has amended this measure by:

- (1) Deleting an irrelevant provision relating to alcohol from the definition of "restaurant";

- (2) Combining the contents of sections 3 and 4 of the measure into a new section of the Hawaii Revised Statutes, in section 2 of the measure;
- (3) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (4) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2056, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2056, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 9. Noes, none. Excused, 2 (Riviere, Shimabukuro).

SCRep. 2868 Ways and Means on S.B. No. 2050

The purpose and intent of this measure is to encourage the employment of Hawaii residents with disabilities.

More specifically, this measure:

- (1) Requires the Department of Human Services to:
 - (A) Allow an earned income disregard for certain individuals with disabilities;
 - (B) Evaluate the earned income disregard program at least annually; and
 - (C) Submit an annual report to the Legislature of any updates regarding the earned income disregard program and the viability of implementing a full medicaid buy-in program; and
- (2) Authorizes the Department of Human Services to adopt or amend administrative rules in order to implement this measure.

Your Committee received written comments in support of this measure from the State Council on Developmental Disabilities; Disability and Communication Access Board; Hawaii Disability Rights Center; OCC Legislative Priorities Committee, Democratic Party of Hawaii; and two concerned individuals.

Your Committee received written comments on this measure from the Department of Human Services.

Your Committee finds that encouraging employment of persons with disabilities could benefit employers and provide disabled participants with meaningful employment. Your Committee believes that requiring the Department of Human Services to allow an earned income disregard for certain individuals could help to encourage employment of residents with disabilities.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure;
- (2) Making technical nonsubstantive changes for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2050, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2050, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, none.

SCRep. 2869 Ways and Means on S.B. No. 2896

The purpose and intent of this measure is to appropriate moneys to the Japanese Cultural Center of Hawaii for the presentation and coordination of events and programs to celebrate and commemorate the 150th anniversary of the first arrival of the gannenmono, the first Japanese emigrants to Hawaii.

Your Committee received written comments in support of this measure from the Department of Business, Economic Development, and Tourism and OCC Legislative Priorities Committee, Democratic Party of Hawaii.

Your Committee finds that many diverse community organizations in the State are collectively planning events and celebrations to commemorate the arrival of the gannenmono. Supporting the year-long celebrations will foster cultural, educational, and business exchanges.

Your Committee has amended this measure by:

- (1) Changing the appropriation from \$150,000 to an unspecified amount;
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (3) Making technical nonsubstantive changes for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2896, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2896, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, none.

SCRep. 2870 Ways and Means on S.B. No. 2177

The purpose and intent of this measure is to establish standards and procedures for income withholding for purposes of enforcing restitution orders.

The measure also appropriates funds to the Department of the Attorney General to enhance its ability to collect restitution, including the hiring of any necessary staff.

Your Committee received written comments in support of this measure from the Prosecuting Attorney of the City and County of Honolulu.

The Department of the Attorney General submitted written comments on the measure.

Your Committee finds that the standards and procedures established by the measure, with respect to income withholding for purposes of enforcing restitution orders, would not impose any additional burden upon employers than what is already required of them under the child support enforcement provisions of Chapter 576D, Hawaii Revised Statutes, or the garnishment provisions of Chapter 652, Hawaii Revised Statutes.

Your Committee has amended this measure by making technical nonsubstantive changes for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2177, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2177, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 11. Noes, none. Excused, none.

SCRep. 2871 Ways and Means on S.B. No. 2100

The purpose and intent of this measure is to update the renewable energy technologies income tax credit.

More specifically, this measure:

- (1) Eliminates the term “renewable energy technology system” and amends the language of the tax credit to focus on solar energy systems, wind energy systems, and energy storage systems;
- (2) Allows a tax credit to be claimed for energy storage systems; and
- (3) Reduces the amount of the tax credit that may be claimed for solar energy systems used primarily to generate electricity, based on when the solar energy system is first placed into service.

Your Committee received written comments in support of this measure from the Alliance for Solar Choice; DER Council of Hawaii; Elemental Excelerator; OCC Legislative Priorities Committee, Democratic Party of Hawaii; Tesla; Ulupono Initiative; and one individual.

Your Committee received written comments in opposition to this measure from the Hawaii Solar Energy Association.

Your Committee received written comments on this measure from the Department of Business, Economic Development, and Tourism; Department of Taxation; and Tax Foundation of Hawaii.

Your Committee finds that incentivizing the adoption of energy storage systems, by inclusion in the renewable energy technologies income tax credit, will help to advance the State’s goal of achieving a one hundred percent renewable energy economy by 2045.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (2) Making technical nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2100, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2100, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 11. Noes, none. Excused, none.

SCRep. 2872 Ways and Means on S.B. No. 2075

The purpose and intent of this measure is to support the growth and sustainability of Hawaii’s local agriculture industry.

More specifically, this measure appropriates moneys to the University of Hawaii to support the Sustainable and Organic Agriculture Program administered by the University of Hawaii College of Tropical Agriculture and Human Resources.

Your Committee received written comments in support of this measure from the Department of Agriculture; University of Hawaii System; OCC Legislative Priorities Committee, Democratic Party of Hawaii; and two concerned individuals.

Your Committee finds that supporting sustainable agricultural practices in the State will help to diversify the State’s agriculture industry.

Your Committee has amended this measure by:

- (1) Changing the appropriation for the sustainable and organic agriculture program from \$250,000 to an unspecified amount;
- (2) Changing the amount allocated for one full-time equivalent (1.0 FTE) educational assistant from \$70,000 to an unspecified amount;
- (3) Changing the amount allocated for one full-time equivalent (1.0 FTE) research and extension assistant at the University of Hawaii at Manoa from \$70,000 to an unspecified amount;
- (4) Changing the amount allocated for one full-time equivalent (1.0 FTE) research and extension assistant to serve the counties of Hawaii, Kauai, and Maui, and the City and County of Honolulu, from \$70,000 to an unspecified amount;
- (5) Changing the amount allocated for operating expenses from \$40,000 to an unspecified amount;
- (6) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (7) Making technical nonsubstantive changes for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2075, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2075, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 11. Noes, none. Excused, none.

SCRep. 2873 Ways and Means on S.B. No. 2522

The purpose and intent of this measure is to authorize the State to invest in existing or new agriculture businesses.

Specifically, this measure establishes the Agriculture Accelerator Program to be administered by the Agribusiness Development Corporation to invest, in exchange for equity, in businesses that engage in farming, aquaculture, or ranching activities.

Your Committee received written comments in support of this measure from the Department of Agriculture, Agribusiness Development Corporation, Hawaii Cattlemen's Council, and Hawaii Farm Bureau Federation.

Your Committee received written comments on this measure from the Department of Budget and Finance.

Your Committee finds that this measure will assist agriculture businesses in obtaining funds to purchase necessary equipment and make improvements to produce more food at lower costs.

Your Committee has amended this measure by:

- (1) Clarifying that the Agribusiness Development Corporation may invest the funds subject to the approval of the Board of Agriculture; and
- (2) Making technical nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2522, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2522, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 9; Ayes with Reservations (Riviere). Noes, none. Excused, 2 (Galuteria, Kahele).

SCRep. 2874 Ways and Means on S.B. No. 2561

The purpose and intent of this measure is to make an appropriation for the operational expenses and staffing costs of the Hawaii Association of Conservation Districts.

Your Committee received written comments in support of this measure from the Department of Agriculture; Department of Land and Natural Resources; Hawaii Cattlemen's Council; Hawaii Coffee Association; Hawaii Crop Improvement Association; Hawaii Farm Bureau Federation; Larry Jefts Farms, LLC; Local Food Coalition; Maui County Farm Bureau; Pulama Lanai; Sierra Club of Hawaii; Ulupono Initiative; and forty-four individuals.

Your Committee finds that funding for the Hawaii Association of Conservation Districts is necessary in order for it to undertake its work to build the agriculture industry, develop resource conservation initiatives, and preserve natural resources.

Your Committee has amended this measure by:

- (1) Changing the appropriation from \$450,000 to an unspecified amount;
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (3) Making technical nonsubstantive changes for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2561, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2561, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 11. Noes, none. Excused, none.

SCRep. 2875 Ways and Means on S.B. No. 2890

The purpose and intent of this measure is to improve the collection of the general excise tax.

More specifically, this measure:

- (1) Amends the general excise tax law by adding a definition for “marketplace provider”; and
- (2) Provides that a person with no physical presence in the State shall be considered to be engaged in business in the State if, in the current or immediately preceding calendar year, the person has gross receipts attributable to transactions in the State totaling \$100,000 or more.

Your Committee received written comments in support of this measure from the Department of Taxation, Chamber of Commerce Hawaii, Dripton LLC, and Kiva Health Brands LLC.

Your Committee received written comments on this measure from the Department of the Attorney General, Elizabeth Mott LLC, Hanalei Company, and Tax Foundation of Hawaii.

Your Committee finds that local businesses are required to collect and remit the general excise tax on goods and services sold to consumers in Hawaii. However, businesses located outside the State are not required to collect this tax when they sell goods to Hawaii residents, which places local businesses at a disadvantage by effectively making goods sold by local businesses more expensive. Your Committee believes that this measure will foster fairness in competition by ensuring that businesses located outside the State who generate sufficient income from the business of Hawaii’s residents are taxed by the State on that income.

Your Committee has amended this measure by:

- (1) Clarifying that a person who sells or assists in the sale of tangible personal property, on behalf of another seller, and who provides customer service, processes payments, and controls the fulfillment process is the seller of the property for general excise tax and use tax purposes;
- (2) Clarifying when a representative is not considered a seller for general excise tax purposes;
- (3) Clarifying what constitutes the import of tangible personal property for use tax purposes; and
- (4) Changing the effective date from July 1, 2035, to upon approval.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2890, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2890, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, none. Excused, 3 (Galuteria, Riviere, Shimabukuro).

SCRep. 2876 Ways and Means on S.B. No. 2204

The purpose and intent of this measure is to appropriate funds to the State Foundation on Culture and the Arts for the planning and coordination of the fiftieth anniversary celebration of the Hawaii State Capitol.

Your Committee received written comments in support of this measure from the Center for Hawaiian Sovereignty Studies.

Your Committee finds that the task force established pursuant to Senate Concurrent Resolution No. 81, Regular Session of 2016, to plan and coordinate the celebration of the fiftieth anniversary of the Hawaii State Capitol, requires support in order to arrange the various program activities and events that will take place from March 15, 2018, through March 15, 2019.

Your Committee has amended this measure by:

- (1) Changing the appropriation from \$100,000 to an unspecified amount; and
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2204, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2204, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 10. Noes, none. Excused, 1 (Inouye).

SCRep. 2877 Ways and Means on S.B. No. 229

The purpose and intent of this measure is to assist the Vector Control Branch of the Department of Health in undertaking its mission of defending the public from new pest species and diseases.

More specifically, this measure appropriates moneys to establish twelve full-time equivalent (12.0 FTE) positions in the Vector Control Branch of the Department of Health.

Your Committee received written comments in support of this measure from the Department of Land and Natural Resources; Hawaii Farm Bureau Federation; Coordinating Group on Alien Pest Species; Maui County Farm Bureau; OCC Legislative Priorities Committee, Democratic Party of Hawaii; one member of the Maui County Council; and four concerned individuals.

Your Committee finds that providing the Vector Control Branch of the Department of Health with additional personnel will increase the Branch’s operations, helping to prevent new pest species and diseases from affecting public health in Hawaii.

Your Committee has amended this measure by:

- (1) Deleting the appropriation in the amount of \$741,996 for fiscal year 2017-2018;
- (2) Changing the appropriation for fiscal year 2018-2019 from \$613,876 to an unspecified amount; and
- (3) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 229, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 229, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, none. Excused, 3 (Galuteria, Riviere, Shimabukuro).

SCRep. 2878 Ways and Means on S.B. No. 2879

The purpose and intent of this measure is to increase the efficiency and effectiveness of the Department of Education's information technology operations.

Specifically, this measure:

- (1) Requires the Office of Enterprise Technology Services, in conjunction with the Department of Education, to establish a working group to study the Department of Education's information technology infrastructure, operations, and services; and
- (2) Establishes the membership and duties of the working group.

Your Committee received written comments in support of this measure from the Office of Enterprise Technology Services and OCC Legislative Priorities Committee, Democratic Party of Hawaii.

Your Committee received written comments on this measure from the Department of Education.

Your Committee finds that the Department of Education will benefit from working collaboratively within the executive branch and more closely with other departments and the Office of Enterprise Technology Services to maximize information technology resources, increase efficiency, reduce duplication, and improve overall accountability.

Your Committee recognizes that the position of "Chief Academic Officer", which this measure includes on the working group, does not appear to be an official position within the Department of Education. Your Committee notes that further discussion is needed to identify the appropriate official within the Department of Education to represent academic interests on the working group.

Your Committee has amended this measure by:

- (1) Removing the representative of the Office of Enterprise Technology Services from the membership of the working group, as the Chief Information Officer will already be representing the office;
- (2) Providing that the working group shall cease to exist on an unspecified date;
- (3) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (4) Making technical nonsubstantive changes for the purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2879, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2879, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, none.

SCRep. 2879 Ways and Means on S.B. No. 2805

The purpose and intent of this measure is to grant the Executive Director of the Hawaii Civil Rights Commission with greater discretion to decide which cases should be litigated in certain situations.

More specifically, this measure:

- (1) Authorizes the Executive Director of the Hawaii Civil Rights Commission to decide whether to:
 - (A) Demand that the respondent in a discrimination complaint cease the unlawful discriminatory practice; or
 - (B) Dismiss the complaint and issue to the complainant a notice of right to sue, in cases in which a notice of cause has been issued and conciliation efforts fail; and
- (2) Provides an exception to the authority established under paragraph (1) for cases that allege violations of both the state fair housing law under Chapter 515, Hawaii Revised Statutes, and the federal Fair Housing Act.

Your Committee received written comments in support of this measure from the Hawaii Civil Rights Commission and one concerned individual.

Your Committee finds that providing the Executive Director of the Hawaii Civil Rights Commission with greater discretion to either issue a final demand, or to dismiss a complaint and issue a notice of right to sue, could increase the efficiency and effectiveness of the

Commission. Your Committee further finds that the exception for dual-filed fair housing cases is necessary to maintain substantial equivalence with federal fair housing law.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2805 and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 10. Noes, none. Excused, 1 (Shimabukuro).

SCRep. 2880 Ways and Means on S.B. No. 2846

The purpose and intent of this measure is to transfer temporary operational authority over a portion of the east Kauai irrigation system to the Department of Agriculture.

More specifically, this measure:

- (1) Establishes five full-time equivalent (5.0 FTE) positions within the Agricultural Resource Management Division of the Department of Agriculture;
- (2) Transfers temporary operation authority over a certain portion of the east Kauai irrigation system to the Department of Agriculture;
- (3) Authorizes the Director of Finance to issue general obligation bonds in the sum of \$2,000,000 to assist the Department of Agriculture in its efforts to increase state irrigation system capacity; and
- (4) Makes an appropriation for the operations and maintenance of the east Kauai irrigation system.

Your Committee received written comments in support of this measure from the Department of Agriculture, East Kauai Water Users Cooperative, Hawaii Farm Bureau Federation, Kalepa Coalition, Saiva Siddhanta Church, and one concerned individual.

Your Committee finds that exercising operational authority over the east Kauai irrigation system could prevent the irrigation system from falling into disrepair.

Your Committee has amended this measure by:

- (1) Permitting, rather than requiring, the transfer of operational authority from the East Kauai Water Users' Cooperative to the Department of Agriculture;
- (2) Changing the appropriation for the operations and maintenance of the east Kauai irrigation system from \$500,000 to an unspecified amount;
- (3) Recasting language concerning the transfers of moneys from the non-agricultural park lands special fund and the agricultural park special fund into the general fund for purposes of placing the foregoing appropriations into separate appropriation sections of the measure;
- (4) Requiring the Attorney General to review the revocable permit issued by the Department of Land and Natural Resources to the East Kauai Water Users' Cooperative for legal conflicts and submit a report of its findings to the Legislature;
- (5) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (6) Making technical nonsubstantive changes for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2846, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2846, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 9. Noes, none. Excused, 2 (Galuteria, Kaele).

SCRep. 2881 Ways and Means on S.B. No. 2820

The purpose and intent of this measure is to make an emergency appropriation to provide funds to temporarily house inmates of Halawa Correctional Facility at another facility while capital improvements are being made at the Halawa Correctional Facility.

Your Committee received written comments in support of this measure from the Department of Public Safety and Ho'omanapono Political Action Committee.

Your Committee received written comments in opposition to this measure from Young Progressives Demanding Action - Hawaii.

Your Committee finds that a capital improvement project at Halawa Correctional Facility has been delayed significantly, requiring additional temporary housing for two hundred forty-eight inmates of the Facility. Your Committee further finds that this measure is recommended by the Governor for immediate passage in accordance with section 9 of Article VII of the Constitution of the State of Hawaii.

Your Committee notes that the Department of Public Safety has requested an appropriation of \$3,361,139 for the purposes of this measure.

Your Committee has amended this measure by:

- (1) Changing the appropriation from \$3,361,139 to an unspecified amount;
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and

- (3) Making technical nonsubstantive changes for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2820, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2820, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 11. Noes, none. Excused, none.

SCRep. 2882 Ways and Means on S.B. No. 2083

The purpose and intent of this measure is to fund after-school programs at Kalaniana'ole Elementary and Intermediate School, Kapaa Middle School, Konawaena Middle School, and Waimea Canyon Middle School, in order to provide a range of enrichment and learning activities in various subjects.

Your Committee received testimony in support of this measure from the Department of Education; American Heart Association; Hawai'i Afterschool Alliance; Hawaii Youth Services Network; Kama'aina Kids; Kamehameha Schools; Parents and Children Together; Pioneering Healthier Communities of Honolulu; Special Education Advisory Council; and four individuals.

Your Committee finds that funding after-school programs at intermediate and middle schools designated as Title I schools that do not currently have state or federal program funding and have a high number of Native Hawaiian students will inspire and motivate children to learn, support children's social and emotional growth, and help raise academic achievement.

Your Committee has amended this measure by changing the effective date to July 1, 2050, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2083, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2083, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 10. Noes, none. Excused, 1 (Kahele).

SCRep. 2883 Ways and Means on S.B. No. 2972

The purpose and intent of this measure is to advance the rehabilitation of the Banyan Drive redevelopment area.

More specifically, the measure:

- (1) Requires the Department of Land and Natural Resources to allocate ten percent of revenues collected from commercial properties within the Banyan Drive redevelopment area to the Banyan Drive Hawaii Redevelopment Agency; and
- (2) Appropriate funds from the special land and development fund to assist the County of Hawaii in conducting the environmental impact statements that are necessary to complete its redevelopment plan for the Banyan Drive redevelopment area.

Your Committee received written comments in support of this measure from the Office of the Mayor of the County of Hawaii; Planning Department of the County of Hawaii; OCC Legislative Priorities Committee, Democratic Party of Hawaii; and Hawaii Association of REALTORS.

Your Committee received written comments in opposition to this measure from the Department of Land and Natural Resources.

Your Committee finds that working with the County of Hawaii to redevelop the Banyan Drive area will significantly benefit both the County of Hawaii and the State.

Your Committee has amended this measure by:

- (1) Changing the appropriation from \$250,000 to an unspecified amount and clarifying the language relating to the matching funds required by the County of Hawaii;
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (3) Making technical nonsubstantive changes for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2972, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2972, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 11. Noes, none. Excused, none.

SCRep. 2884 Ways and Means on S.B. No. 2351

The purpose and intent of this measure is to prohibit employers from inquiring about the wage or salary history of a job applicant, or relying on wage or salary history, during the hiring process to determine a job applicant's salary, benefits, or other compensation.

The measure also prohibits employers from retaliating or discriminating against an employee who discloses the employee's own wages, discusses or inquires about coworkers' wages, or aids or encourages other employees to exercise their rights under the law.

Your Committee received written comments in support of this measure from the Hawaii Civil Rights Commission; Office of Hawaiian Affairs; AAUW; AAUW of Hawaii; OCC Legislative Priorities Committee, Democratic Party of Hawaii; Planned Parenthood Votes Northwest and Hawaii; Hawaii Appleseed Center for Law and Economic Justice; and nineteen individuals.

The Chamber of Commerce Hawaii and Hawaii Food Industry Association submitted written comments on the measure.

Your Committee finds that the prohibitions established by this measure will help to promote equality in the workplace and encourage equal pay between men and women.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (2) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2351, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2351, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 9. Noes, none. Excused, 2 (Galuteria, Shimabukuro).

SCRep. 2885 Ways and Means on S.B. No. 2305

The purpose and intent of this measure is to require the establishment of a pilot visitation center at one or more minimum security correctional facilities in the State.

The measure also requires the development of a plan for visitation centers at all state-operated correctional facilities.

Your Committee received written comments in support of this measure from the Department of Public Safety; Community Alliance on Prisons; Planned Parenthood Votes Northwest and Hawaii; Blueprint for Change; YWCA Oahu; Hawaii Youth Services Network; OCC Legislative Priorities Committee, Democratic Party of Hawaii; Hawaii Children's Action Network; Aloha Light Team; Hoomanapono Political Action Committee; Young Progressives Demanding Action - Hawaii; Hawaii Justice Coalition; and eight individuals.

The Department of Human Services and Office of Hawaiian Affairs submitted written comments on the measure.

Your Committee finds that the establishment of family visitation centers at correctional facilities operated by the State will support the well-being of children of incarcerated parents and help families with an incarcerated family member strengthen and rebuild their relationships.

Your Committee has amended this measure by:

- (1) Changing the appropriation from \$300,000 to an unspecified amount;
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (3) Making technical nonsubstantive changes for the purposes of clarity, consistency, and style.

Your Committee respectfully requests that if this measure is considered by subsequent Committees as part of the legislative process, that those Committees provide clarification requested by the Department of Human Services as to whether the amount appropriated to the Department in the measure is expected to result in both the development of a statewide plan for visitation centers and the establishment of a pilot visitation center.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2305, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2305, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 11. Noes, none. Excused, none.

SCRep. 2886 (Majority) Ways and Means on S.B. No. 2501

The purpose and intent of this measure is to establish safe zones for homeless persons.

Specifically, this measure:

- (1) Requires the Department of Human Services to establish safe zones where homeless persons may reside in the State;
- (2) Establishes requirements for, and permissible behavior at, safe zones;
- (3) Requires that safe zones operate until the Legislature determines that homelessness is no longer a crisis in the State; and
- (4) Appropriates funds for safe zones.

Your Committee received written comments in support of this measure from the Governor's Coordinator on Homelessness; OCC Legislative Priorities Committee, Democratic Party of Hawaii; IMUAlliance; Hoomanapono Political Action Committee; and one individual.

Your Committee received written comments in opposition to this measure from the Department of Human Services and Department of Land and Natural Resources.

The Hawaii Association for Justice submitted written comments on this measure.

Your Committee finds that safe zones are one of the many innovated ways to address homelessness and designate locations where individuals have a temporary yet safe place to reside until obtaining more permanent housing.

Your Committee notes that this measure requires the Department of Human Services to maintain and operate safe zones until the Legislature determines that homelessness is no longer a crisis in the State. However, the procedure by which the Legislature will determine that homelessness is no longer a crisis is not clearly defined in the measure. Additionally, this measure absolves the State from liability but does not specify whether the limitation on liability applies only to claims against the State brought by residents of safe zones or whether it includes other persons, such as visitors to the safe zones or public employees and contractors who perform work-related functions at safe zones. Your Committee has passed this measure with an effective date of July 1, 2050, so that these issues may be addressed as this measure moves through the legislative process.

Your Committee has amended this measure by making a technical nonsubstantive amendment for the purpose of clarity.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2501, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2501, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 9; Ayes with Reservations (Galuteria). Noes, 2 (Harimoto, Riviere). Excused, none.

SCRep. 2887 Ways and Means on S.B. No. 2136

The purpose and intent of this measure is to specify and appropriate an amount as the Office of Hawaiian Affairs' interim pro rata share of public land trust revenues.

Specifically, this measure:

- (1) Establishes an unspecified sum as the Office of Hawaiian Affairs' interim pro rata share of the public land trust revenues;
- (2) Requires departments that collect receipts from public land trust lands to transfer a portion of those receipts to the Office of Hawaiian Affairs;
- (3) Establishes a set amount that the collected receipts shall total, and procedures to account for any underpayment or overpayment;
- (4) Appropriates funds to account for underpayments for the use of public land trust lands for the period of July 1, 2012, to June 30, 2018; and
- (5) Establishes a Public Land Trust Revenues Committee to study and make recommendations regarding the annual amount of income and proceeds from the public land trust that the Office of Hawaiian Affairs shall receive annually.

Your Committee received written comments in support of this measure from the Office of Hawaiian Affairs; OCC Legislative Priorities Committee, Democratic Party of Hawaii; Ho'omanapono Political Action Committee; Society for Hawaiian Archaeology; Native Hawaiian Chamber of Commerce; Kanu o ka Aina; and eight individuals.

One individual submitted written comments in opposition to this measure.

Your Committee received written comments on this measure from the Office of the Governor; Department of Budget and Finance; Department of Agriculture; Department of Business, Economic Development, and Tourism; Department of Transportation; Department of Land and Natural Resources; University of Hawaii System; Department of the Attorney General; Agribusiness Development Corporation; Natural Energy Laboratory of Hawaii Authority; Hawaii Community Development Authority; and Common Cause Hawaii.

Your Committee finds that Act 178, Session Laws of Hawaii 2006, established a temporary amount of \$15,100,000 as the annual pro rata portion of income and proceeds from the public land trust under Article XII, section 6, of the Constitution of the State of Hawaii for expenditure by the Office of Hawaiian Affairs for the better of the conditions of Native Hawaiians. Your Committee believes that it is appropriate for the Legislature to revisit the issue of establishing a suitable amount or calculation of the pro rata portion of the public land trust for expenditure by the Office of Hawaiian Affairs.

Your Committee has amended this measure by:

- (1) Deleting all substantive sections of the measure except section 7, establishing the Public Land Trust Revenues Committee;
- (2) Codifying the establishment of the Public Land Trust Revenues Committee within the Hawaii Revised Statutes, due to the permanent nature of the entity;
- (3) Establishing the Public Land Trust Revenues Committee within the Department of Budget and Finance, instead of the Department of Land and Natural Resources;
- (4) Requiring the Public Land Trust Revenues Committee to study and make recommendations on the proposed amount of interim income and proceeds from the public land trust that the Office of Hawaiian Affairs shall receive annually;
- (5) Requiring the Public Land Trust Revenues Committee to submit its recommendations to the Legislature annually;
- (6) Making the Public Land Trust Revenues Committee subject to Chapter 92, Hawaii Revised Statutes, by deleting an exemption for the Committee;
- (7) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (8) Making technical nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2136, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2136, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 11; Ayes with Reservations (Kidani). Noes, none. Excused, none.

SCRep. 2888 Ways and Means on S.B. No. 2320

The purpose and intent of this measure is to develop an undergraduate health sciences academy within the University of Hawaii System.

Specifically, this measure:

- (1) Establishes an undergraduate health sciences academy within the University of Hawaii;
- (2) Requires the University of Hawaii-West Oahu to administer the health sciences academy; and
- (3) Establishes the mission of the health sciences academy to eliminate health disparities in Native Hawaiians, Pacific Islanders, and other underserved communities by establishing certain health-related education pathways.

Your Committee received written comments in support of this measure from the University of Hawaii; Department of Health; The Queen's Health Systems; Kamehameha Schools; Hawaiian Civic Club of Honolulu; Hawaii Public Health Institute; Papa Ola Lokahi; Native Hawaiian Health Coalition; Ho'omanapono Political Action Committee; OCC Legislative Priorities Committee, Democratic Party of Hawaii; and twenty-three individuals.

Your Committee finds that a health sciences academy will help to educate and prepare Native Hawaiians, Pacific Islanders, and other individuals for employment in high-paying health care positions and alleviate medical demands of communities in the State.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (2) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2320, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2320, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, none.

SCRep. 2889 Ways and Means on S.B. No. 2402

The purpose and intent of this measure is to amend the state low-income housing tax credit by specifying that certain sections of the Internal Revenue Code relating to at-risk rules and deductions and to passive activity loss do not apply with respect to claims for the state low-income housing tax credit.

Your Committee received written comments in support of this measure from the Department of Taxation, Hawaii Housing Finance and Development Corporation, and InState Partners.

Your Committee received written comments on this measure from the Tax Foundation of Hawaii.

Your Committee finds that increasing the amount of equity generated by the state low-income housing tax credit may assist in reducing the shortage of affordable housing in Hawaii.

Your Committee has amended this measure by:

- (1) Providing that the amount of state credits allocated by the Hawaii Housing Finance and Development Corporation for a qualified low-income building shall not exceed fifty percent of the amount of federal credits allocated to the building;
- (2) Providing that amendments made to section 235-110.8, Hawaii Revised Statutes, by this measure shall not be repealed when that section is reenacted on December 31, 2021, pursuant to section 4 of Act 129, Session Laws of Hawaii 2016;
- (3) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (4) Making technical nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2402, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2402, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, none.

SCRep. 2890 Ways and Means on S.B. No. 3090

The purpose and intent of this measure is to improve the protection and management of lands comprising Mauna Kea and related natural and cultural resources.

More specifically, the measure:

- (1) Establishes the Mauna Kea Management Authority, which shall be responsible for the management, protection, and security of all Mauna Kea lands;
- (2) Prohibits the presence of more than thirteen telescopes on Mauna Kea at any time, and the presence of more than nine telescopes on Mauna Kea after January 1, 2028;
- (3) Establishes the Mauna Kea Management Revolving Fund;
- (4) Requires the transfer to the Mauna Kea Management Authority of all leases, subleases, easements, permits, and licenses pertaining to Mauna Kea and executed by the University of Hawaii or Department of Land and Natural Resources, and authorizes the renegotiation of the aforementioned agreements;
- (5) Requires the Mauna Kea Management Authority to manage access to Mauna Kea and to establish and collect fees and surcharges for visitors and commercial tour operators to access Mauna Kea;
- (6) Provides for free access to Mauna Kea for the exercise of customary and traditional practices under Article XII, Section 7, of the Hawaii State Constitution;
- (7) Requires that a pro rata share of revenue derived from activities on Mauna Kea lands shall be shared with the Office of Hawaiian Affairs;
- (8) Requires the Mauna Kea Management Authority to establish a unit of rangers having police powers to enforce laws, ordinances, and rules on Mauna Kea lands;
- (9) Excludes Mauna Kea lands from the definition of "public lands";
- (10) Requires that certain lands comprising Mauna Kea and held in trust by the State be transferred from the Department of Land and Natural Resources to the Mauna Kea Management Authority; and
- (11) Appropriates moneys for the establishment and operation of the Mauna Kea Management Authority.

Your Committee received written comments in support of this measure from the Office of Hawaiian Affairs, the Hawaii Regional Council of Carpenters, Ho'omanapono Political Action Committee, and seven individuals.

Your Committee received written comments in opposition to this measure from the Department of Land and Natural Resources; the University of Hawaii System; the Aha Moku Advisory Committee; the Council Member representing District 5 of the Hawaii County Council; Maunakea Observatories; Hawaii Island Chamber of Commerce; Hawaii's Thousand Friends; Hui O Kanaka Mano; KAHEA; The Hawaiian-Environmental Alliance; Ka Lahui Hawaii Political Action Committee; Ka Ohana O Na Pua; Malu 'Aina; Mauna Kea Anaina Hou, Kai Palaoa, and Kia'i Kanaloa; and thirty-seven individuals. Your Committee also received an e-mail petition in opposition to the measure listing an additional one hundred seven individuals.

Your Committee received written comments on this measure from the Department of the Attorney General, the Office of the Mayor of the County of Hawaii, and three individuals.

Your Committee finds that Mauna Kea is of profound cultural and genealogical importance to Native Hawaiians and is also valued as an exceptional site for astronomical advancements. The summit region of Mauna Kea is a spiritual site that is home to cultural landscapes, fragile alpine habitats, historical and archeological treasures, and endemic species found nowhere else. Mauna Kea's exceptional atmospheric conditions make it the world's premier site for astronomical observations. Thus, there is a critical need to manage these sensitive and natural resources in a way that supports both the continuance of traditional and customary practices and facilitates advances in science and technology.

Your Committee further finds that since 1998, four audits by the State Auditor have been critical of the management, stewardship, and protection of Mauna Kea. Despite significant changes and improvements since 1998 regarding those matters, the audit findings and a concurrent erosion in public confidence have underscored a critical need for fresh leadership and a new organizational structure and management style.

Accordingly, your Committee finds that establishing a single new entity to be responsible for all aspects of management, communication, security, and enforcement regarding Mauna Kea lands will increase accountability and ensure the proper stewardship and protection of Mauna Kea.

Your Committee has amended this measure by:

- (1) Deleting references to an intent that the Mauna Kea Management Authority be self-funded and require no appropriations from the State's general fund;
- (2) Clarifying that:
 - (A) The Mauna Kea Management Authority shall be subject to the State's open public meetings and records laws;
 - (B) Department of Land and Natural Resources Division of Conservation and Resource Enforcement officers and county police officers shall be authorized to enforce laws on Mauna Kea lands in cooperation with Mauna Kea rangers;
 - (C) Certain expenditures of revolving funds administered by the Mauna Kea Management Authority shall be subject to legislative appropriation;
 - (D) Revenue to be shared with the Office of Hawaiian Affairs shall be limited to revenue pertaining to the use of Mauna Kea lands; and
 - (E) The Mauna Kea Management Authority shall be prohibited from selling any Mauna Kea lands;

- (3) Deleting references to renewable energy producers;
- (4) Correcting statutory references; and
- (5) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

Your Committee respectfully recommends that, should another legislative committee conduct a hearing on this measure, that committee consider addressing concerns expressed by the Department of Land and Natural Resources regarding hunting access to the Mauna Kea Ice Age Natural Area Reserve and Mauna Kea Forest Reserve.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3090, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 3090, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 10; Ayes with Reservations (Harimoto, Riviere). Noes, none. Excused, 1 (Shimabukuro).

SCRep. 2891 Ways and Means on S.B. No. 2329

The purpose and intent of this measure is to increase enrollment at the University of Hawaii by capping tuition increases based on the change in the State's median household income.

Your Committee received written comments in support of this measure from the OCC Legislative Priorities Committee, Democratic Party of Hawaii.

Your Committee received written comments from the University of Hawaii and Associated Students of the University of Hawaii at Manoa.

Your Committee finds that increased enrollment and affordable tuition are issues of statewide concern, and that capping the University of Hawaii tuition increases will improve student enrollment, keep budgetary pace with increased salaries and other costs, and promote a more educated population.

Your Committee has amended this measure by making a technical nonsubstantive change for the purpose of style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2329, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2329, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, none.

SCRep. 2892 Ways and Means on S.B. No. 2832

The purpose and intent of this measure is to assist the University of Hawaii in its sustainability efforts.

Specifically, this measure:

- (1) Allows funds appropriated by the Legislature to be deposited into the University of Hawaii green special fund;
- (2) Clarifies the scope of projects that can be funded by the special fund to include planning, design, and implementation of energy efficiency, energy conservation, renewable energy, and sustainability projects;
- (3) Expands the authority of the Chief Financial Officer of the University of Hawaii, in managing the special fund, to collect, expend, and transfer monetary savings realized from university energy and sustainability projects; and
- (4) Specifies that all expenditures from the special fund shall be subject to legislative appropriation.

Your Committee received written comments in support of this measure from the University of Hawaii; Ulupono Initiative; OCC Legislative Priorities Committee, Democratic Party of Hawaii; and one individual.

Your Committee finds that the University of Hawaii is one of the largest consumers of electricity and therefore could be one of the most impactful and effective organizations in utilizing energy efficiency projects.

Your Committee has amended this measure by changing its effective date to July 1, 2050, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2832, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2832, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, none.

SCRep. 2893 Ways and Means on S.B. No. 2049

The purpose and intent of this measure is to make an appropriation to the University of Hawaii Cancer Center to determine the reasons that Hawaii has the highest incidence of liver and bile duct cancer in the nation.

Your Committee received written comments in support of this measure from the University of Hawaii Cancer Center; American Cancer Society Cancer Action Network; Democratic Party of Hawaii, Hawaiian Affairs Caucus; OCC Legislative Priorities, Democratic Party of Hawaii; and a number of individuals.

Your Committee finds that there is an important public health need for the University of Hawaii Cancer Center to study the prevalence of liver fluke infection, aflatoxin ingestion, and intrahepatic bile duct dilation in the general population and its possible contribution to high rates of liver and bile duct cancer in Hawaii.

Your Committee has amended this measure by:

- (1) Changing the appropriation to an unspecified amount;
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (3) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2049, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2049, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, 4 (Galuteria, Kidani, Riviere, Shimabukuro).

SCRep. 2894 Ways and Means on S.B. No. 2084

The purpose and intent of this measure is to establish the agricultural land acquisition fund.

More specifically, this measure:

- (1) Establishes the agricultural land acquisition fund; and
- (2) Makes appropriations into and out of the fund.

Your Committee received written comments in support of this measure from the Department of Agriculture, Agribusiness Development Corporation, Ulupono Initiative, Hawaii Cattlemens Council, and Hawaii Farm Bureau Federation.

Your Committee received written comments on this measure from the Department of Budget and Finance, and Tax Foundation of Hawaii.

Your Committee finds that Article XI, section 3, of the Constitution of the State of Hawaii requires the State to conserve and protect agricultural lands, promote diversified agriculture, increase agricultural self-sufficiency, and ensure the availability of agriculturally suitable lands. Your Committee believes that the agricultural land acquisition fund will help the State to fulfill these requirements.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (2) Making technical nonsubstantive changes for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2084, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2084, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 9. Noes, none. Excused, 2 (Galuteria, Kahele).

SCRep. 2895 Ways and Means on S.B. No. 2047

The purpose and intent of this measure is to require the Office of the Auditor to conduct a performance audit of the Department of Public Safety.

Your Committee received written comments in support of this measure from the American Civil Liberties Union of Hawaii; Aloha Light Team; Community Alliance on Prisons; Hoomanapono Political Action Committee; OCC Legislative Priorities Committee, Democratic Party of Hawaii; and ten individuals.

Your Committee received written comments in opposition to this measure from the Department of Public Safety and one individual.

Your Committee received written comments on this measure from the Office of the Auditor.

Your Committee finds that a performance audit of the Department of Public Safety will help to provide necessary oversight of the department.

Your Committee has amended this measure by:

- (1) Narrowing the scope of the performance audit;
- (2) Changing the appropriation from \$100,000 to an unspecified amount; and
- (3) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2047, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2047, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, none.

SCRep. 2896 Ways and Means on S.B. No. 2168

The purpose and intent of this measure is to appropriate funds for each county to identify and map potential important agricultural lands and make recommendations to the Land Use Commission for the designation of those lands as important agricultural lands.

Your Committee received written comments in support of this measure from the Department of Agriculture; Department of Business, Economic Development, and Tourism; Office of Planning; State Land Use Commission; Hawaii State Association of Counties; a member of the Hawaii County Council; a member of the Honolulu City Council; Ulupono Initiative; Land Use Research Foundation of Hawaii; OCC Legislative Priorities, Democratic Party of Hawaii; Hawaii Cattlemens Council; Alexander & Baldwin; Hawaii Farm Bureau Federation; and two individuals.

Your Committee received comments on this measure from the Mayor of the County of Hawaii.

Your Committee finds that this measure will appropriate funds necessary for the counties to comply with section 205-47, Hawaii Revised Statutes, which requires the counties to identify and map important agricultural lands within their respective jurisdictions.

Your Committee has amended this measure by:

- (1) Authorizing the amounts allocated to the City and County of Honolulu and the County of Kauai to be expended to reimburse those counties for mapping work that has been completed;
- (2) Changing the amounts appropriated to unspecified amounts; and
- (3) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2168, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2168, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 11. Noes, none. Excused, none.

SCRep. 2897 Ways and Means on S.B. No. 2943

The purpose and intent of this measure is encourage the development of certain public facilities in proximity to rail transit line stations.

Specifically, this measure:

- (1) Requires the Hawaii Community Development Authority to establish a transit-oriented development infrastructure improvement zone program to facilitate the development of certain areas;
- (2) Authorizes the Hawaii Housing Finance and Development Corporation, at the request of the Hawaii Community Development Authority, to establish transit-oriented development infrastructure improvement zone subaccounts for the benefit of infrastructure improvement projects within a transit-oriented development infrastructure improvement zone;
- (3) Expands the use of the dwelling unit revolving fund to include the transit-oriented development infrastructure improvement zone program;
- (4) Specifies the membership of the Hawaii Community Development Authority responsible for matters affecting transit-oriented development infrastructure improvement zones;
- (5) Appropriates funds from the dwelling unit revolving fund for an infrastructure study; and
- (6) Appropriates general funds to hire one temporary, full-time equivalent position assigned to the transit-oriented development infrastructure improvement zone program.

Your Committee received written comments in support of this measure from the Hawaii Housing Finance and Development Corporation; Hawaii Community Development Authority; Hawaii Interagency Council for Transit-Oriented Development; City and County of Honolulu Department of Planning and Permitting; and OCC Legislative Priorities, Democratic Party of Hawaii.

Your Committee received written comments on this measure from the Stadium Authority.

Your Committee finds that the establishment and use of infrastructure financing tools for lands in proximity to the rail transit line stations will help to make lands more suitable for the development of affordable housing.

Your Committee has amended this measure by:

- (1) Requiring that the study examining the current infrastructure of the transit-oriented development infrastructure improvement zone be conducted in coordination with other studies that assess the needs for state transit-oriented development priority areas and the ongoing infrastructure planning of the City and County of Honolulu;
- (2) Changing the amounts appropriated to unspecified amounts to facilitate further discussion on the measure; and
- (3) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2943, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2943, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, none. Excused, 3 (Galuteria, Riviere, Shimabukuro).

SCRep. 2898 Ways and Means on S.B. No. 2298

The purpose and intent of this measure is to increase the capacity to provide education to healthcare providers in the State.

More specifically, this measure establishes an income tax credit that encourages preceptors to offer professional instruction, training, and supervision to students and residents seeking careers as primary care physicians and advanced practice registered nurses throughout Hawaii.

Your Committee received written comments in support of this measure from the Mayor of the County of Hawaii; University of Hawaii System; University of Hawaii at Hilo Daniel K. Inouye College of Pharmacy; Hawaii State Center for Nursing; Hawaii Chapter of the American Physical Therapy Association; Hawaii Government Employees Association; Hawaii Medical Association; Hawaii Pacific Health; Hawaii Pharmacists Association; Hawaii Primary Care Association; OCC Legislative Priorities Committee, Democratic Party of Hawaii; Pharmacare Hawaii; Straub Medical Center; Waianae Coast Comprehensive Health Center; and seventy-three individuals.

Your Committee received written comments in opposition to this measure from one individual.

Your Committee received written comments on this measure from the Department of Taxation; Tax Foundation of Hawaii; and two individuals.

Your Committee finds that the shortage of primary care providers in the State will be worsened by the projected retirements of current physicians and advanced practice registered nurses. Your Committee further finds that, although Hawaii high school students and residents are interested in pursuing careers in the healthcare service industry, in-state educational institutions are constrained by the lack of clinical education sites in Hawaii and the limited supply of qualified primary and specialty care preceptors.

Your Committee has amended this measure by:

- (1) Making pharmacists eligible to receive the tax credit;
- (2) Requiring the preceptor credit assurance committee established in the measure to certify the amount of the tax credit;
- (3) Clarifying the duties of the preceptor credit assurance committee;
- (4) Requiring taxpayers claiming the tax credit to file a certificate from the preceptor credit assurance committee with their tax returns;
- (5) Clarifying the order in which the preceptor credit assurance committee will certify credits; and
- (6) Making technical nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2298, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2298, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, none.

SCRep. 2899 Ways and Means on S.B. No. 2489

The purpose and intent of this measure is to update the formula used to determine the amount of transient accommodations tax to be collected from time shares.

More specifically, this measure amends the base on which time share occupancy is taxed from one-half of the gross daily maintenance fees that are paid by the owner and are attributable to the time share unit to an unspecified percentage of the gross daily maintenance fees.

Your Committee received written comments in opposition to this measure from ARDA-Hawaii; Hawaii Lodging and Tourism Association; Interval Leisure Group, Inc.; Kohala Coast Resort Association; Marriott Vacations Worldwide Corporation; Maui Hotel and Lodging Association; and Wyndham Vacation Ownership, Inc.

Your Committee received written comments on this measure from the Department of Taxation and the Tax Foundation of Hawaii.

Your Committee finds that the tax formula for levying the transient accommodations tax on time share units has not been adjusted since the State began taxing time shares in 1998. Your Committee notes that, according to the Department of Taxation, updating the formula used to determine the amount of transient accommodations tax to be collected from time shares, in the manner set out in this measure, is projected to generate an estimated \$20,200,000 in revenues for the general fund in fiscal year 2019, \$22,800,000 in fiscal year 2020, \$23,400,000 in fiscal year 2021, \$24,100,000 in fiscal year 2022, \$24,900,000 in fiscal year 2023, and \$25,600,000 in fiscal year 2024.

Your Committee has amended this measure by:

- (1) Changing the effective date from January 1, 2050, to upon approval; and
- (2) Applying the measure to taxable years beginning after December 31, 2018.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2489, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2489, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 11. Noes, none. Excused, none.

SCRep. 2900 Ways and Means on S.B. No. 2757

The purpose and intent of this measure is to lower the costs of developing and operating affordable housing.

Specifically, this measure:

- (1) Extends the exemption from the general excise tax applicable to certain affordable rental housing projects by an additional four years;
- (2) Removes the cap on the tax exemption; and
- (3) Prohibits project owners who received the tax exemption from refusing to lease a unit in the project to a qualified applicant on the basis that the applicant holds a voucher or certificate of eligibility under section 8 of the United States Housing Act.

Your Committee received written comments in support of this measure from the Office of the Governor; Department of Taxation; Department of Business, Economic Development, and Tourism; Hawaii Housing Finance and Development Corporation; Hawaii Public Housing Authority; and Hawaii Construction Alliance.

Your Committee received written comments on this measure from the Office of Hawaiian Affairs; Tax Foundation of Hawaii; and General Contractors Association of Hawaii.

Your Committee finds that the tax exemption provided by this measure will assist in addressing Hawaii's current critical shortage of affordable housing and the need for sixty-six thousand additional housing units by the year 2025.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (2) Making technical nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2757, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2757, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 11. Noes, none. Excused, none.

SCRep. 2901 Ways and Means on S.B. No. 2798

The purpose and intent of this measure is to establish a special fund, to be administered by the Department of Health, for the administration of the Medicaid Section 1915(c) Home and Community-Based Services Waiver for People with Intellectual and Developmental Disabilities.

Your Committee received written comments in support of this measure from the Department of Health, Department of Human Services, and the Arc.

Your Committee finds that authorizing the creation of the special fund proposed by this measure will help the Department of Health properly and efficiently administer the federal waiver and continue serving persons with intellectual and developmental disabilities.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (2) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2798, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2798, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 10. Noes, none. Excused, 1 (Kahele).

SCRep. 2902 Ways and Means on S.B. No. 2586

The purpose and intent of this measure is to protect care facility patients and authorize the investigation of unlicensed care facilities.

More specifically, the measure:

- (1) Authorizes the Department of Health to investigate care facilities reported to be operating without an appropriate certificate or license issued by the Department;
- (2) Prohibits patient referrals and transfers to uncertified and unlicensed care facilities; and
- (3) Establishes penalties for violations.

Your Committee received written comments in support of this measure from the Department of Health, State Long Term Care Ombudsman, and four individuals.

Your Committee received written comments in opposition to this measure from Maile Case Management and two individuals.

Your Committee received written comments on this measure from AARP Hawaii and the Healthcare Association of Hawaii.

Your Committee finds that there is a small but growing number of unlicensed care facilities operating in the State and that it is necessary to prohibit the transfer of patients to, and authorize the investigation of, those unlicensed facilities.

Your Committee has amended this measure by:

- (1) Changing the effective date to January 1, 2050, to facilitate further discussion on the measure; and
- (2) Making technical nonsubstantive changes for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2586, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2586, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 10. Noes, none. Excused, 1 (Shimabukuro).

SCRep. 2903 Ways and Means on S.B. No. 2773

The purpose and intent of this measure is to establish regulations for third party administrators.

Specifically, this measure:

- (1) Encourages disclosure of contracts between insurers and third party administrators to potential insureds and the Insurance Commissioner;
- (2) Promotes the financial responsibility of third party administrators;
- (3) Regulates third party administrators' practices; and
- (4) Governs the qualifications and procedures for the licensing of third party administrators.

Your Committee received written comments in support of this measure from the Insurance Division of the Department of Commerce and Consumer Affairs.

Your Committee received written comments on this measure from Hawaii-Western Management Group.

Your Committee finds that the regulations established by this measure are based on the National Association of Insurance Commissioners' Registration and Regulation of Third Party Administrators Guideline.

Your Committee has amended this measure by:

- (1) Making corrections to the quoted text of sections 431:7-101 and 432:1-102, Hawaii Revised Statutes, in the measure to accurately reflect the printed version of the Hawaii Revised Statutes; and
- (2) Making technical nonsubstantive changes for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2773, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2773, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 10. Noes, none. Excused, 1 (Shimabukuro).

SCRep. 2904 Ways and Means on S.B. No. 2396

The purpose and intent of this measure is to support the agricultural industry in Hawaii.

Specifically, this measure:

- (1) Appropriates moneys for deposit into the agricultural loan revolving fund and the Hawaii water infrastructure special fund;
- (2) Appropriates moneys out of the agricultural loan revolving fund and the Hawaii water infrastructure special fund to support agriculture; and
- (3) Establishes a \$2,500,000 per fiscal year ceiling for the Hawaii water infrastructure special fund.

Your Committee received comments in support of this measure from the Hawaii Department of Agriculture; the Land Use Research Foundation of Hawaii; the Ulupono Initiative; the OCC Legislative Priorities Committee, Democratic Party of Hawai'i; the Hawaii Farm Bureau Federation; and one concerned individual.

Your Committee finds that as increased agricultural lands have become available, additional funds are required for the agricultural loan revolving fund to support new farmers and improve the State's food self-sufficiency. Your Committee also finds that the Hawaii water infrastructure special fund requires additional funding in order to provide for current and future loan applications.

Your Committee has amended this measure by:

- (1) Deleting the section of the bill that established a balance ceiling for the Hawaii water infrastructure special fund;
- (2) Changing the appropriations into and out of the agricultural loan revolving fund from \$5,000,000 to an unspecified amount;

- (3) Changing the appropriations into and out of the Hawaii water infrastructure special fund from \$2,500,000 to an unspecified amount; and
- (4) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2396, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2396, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 10. Noes, none. Excused, 1 (Shimabukuro).

SCRep. 2905 Ways and Means on S.B. No. 1235

The purpose and intent of this measure is to appropriate grant funds to support Hana Health on Maui and for emergency services at Waianae Coast Comprehensive Health Center.

For the purposes of a public hearing, your Committee circulated a proposed S.D. 2 (Proposed Draft) of the measure and notified the public that your Committee would be accepting testimony on the Proposed Draft, which deletes the contents of the S.D. 1 of this measure and appropriates funds to improve cardiac care at Hilo Medical Center.

Your Committee received testimony in support of the Proposed Draft from the Mayor's Office of the County of Hawaii; Community First; Ohana Health; Hawaii Island Chamber of Commerce; Hawaii Island Economic Development Board; Hawaii Health Systems Corporation; Hilo Medical Center; Hui Malama Ola Na Oiwai; JCCIH GAC; Orchidland Safety Committee; United Public Workers; Volcano CAN; YWCA of Hawaii Island; Zonta Club of Hilo; and forty-four individuals.

Your Committee finds that offering interventional cardiology for heart attack treatment to patients in the County of Hawaii, mitigating the need to airlift patients to Maui or Oahu and improving patient outcomes, is in the public interest.

Your Committee has amended this measure by adopting the Proposed Draft with the following additional amendments:

- (1) Changing the appropriation from \$2,000,000 to an unspecified amount;
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (3) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1235, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1235, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 11. Noes, none. Excused, none.

SCRep. 2906 Ways and Means on S.B. No. 2531

The purpose and intent of this measure is to authorize the issuance of special purpose revenue bonds to assist in the retrofitting of low- and moderate-income apartment complexes to include sprinkler systems.

Your Committee received written comments in support of this measure from the State Fire Council; County of Maui Department of Fire and Public Safety; and OCC Legislative Priorities Committee, Democratic Party of Hawaii.

Your Committee received comments on this measure from the Department of Budget and Finance.

Your Committee finds that the July 14, 2017, fire at the Marco Polo condominium building demonstrates that certain older apartment complexes need to be retrofitted with sprinkler systems. Your Committee further finds that the issuance of special purpose revenue bonds to assist in the retrofitting of low- and moderate-income apartment complexes to include sprinkler systems is in the public interest.

Your Committee has amended this measure by:

- (1) Clarifying that the retrofit program is to be state-wide; and
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2531, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2531, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 11. Noes, none. Excused, none.

SCRep. 2907 Ways and Means on S.B. No. 2678

The purpose and intent of this measure is to affirm the State's commitment to conservation and sustainability by codifying in state law the goal relating to strengthening implementation of the United Nations Sustainable Development Goals and indicators.

Your Committee received written comments in support of this measure from the Department of Agriculture; OCC Legislative Priorities Committee, Democratic Party of Hawaii; and Oahu Economic Development Board.

Your Committee received comments on this measure from the Office of Planning and Hawaii Farm Bureau Federation.

Your Committee finds that, in order for Hawaii to continue to serve as an example for the rest of the world in setting policies on sustainability and to serve as a global leader on issues of conservation and sustainability, it is essential that the State demonstrate its full commitment to its own policies and goals as well as the sustainable development goals set by the United Nations.

Your Committee has amended this measure by:

- (1) Setting out the Hawaii 2050 Sustainability Plan goals in the preamble of the measure, rather than in a new section of the Hawaii Revised Statutes; and
- (2) Making technical nonsubstantive changes for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2678, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2678, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 10. Noes, none. Excused, 1 (Shimabukuro).

SCRep. 2908 Ways and Means on S.B. No. 2424

The purpose and intent of this measure is to authorize the construction, use, and funding of micro housing units for Hawaiian Home Lands beneficiaries.

Your Committee received written comments in support of this measure from CNHA; EAH Housing; Hawaii Appleseed Center for Law and Economic Justice; Hawaii Habitat for Humanity Association; Hawaiian Civic Club of Honolulu; Hawaiian Community Assets; Hoomanapono Political Action Committee; OCC Legislative Priorities Committee, Democratic Party of Hawaii; Young Progressives Demanding Action - Hawaii; and three individuals.

Your Committee received written comments in opposition to this measure from the Center for Hawaiian Sovereignty Studies.

Your Committee received written comments on this measure from the Department of Hawaiian Home Lands and Office of Hawaiian Affairs.

Your Committee finds that micro housing units are a viable housing option for a number of beneficiaries on Hawaiian Home Lands.

Your Committee has amended this measure by:

- (1) Changing both of the appropriations to unspecified amounts;
- (2) Inserting a severability clause to provide for the operation of the provisions of the measure that can take effect upon the approval of the measure without the consent of Congress;
- (3) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (4) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2424, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2424, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 11. Noes, none. Excused, none.

SCRep. 2909 Ways and Means on S.B. No. 2705

The purpose and intent of this measure is to promote public-private partnerships.

More specifically, the measure:

- (1) Authorizes and appropriates moneys for the establishment of five state public-private partnership coordinator positions within the Department of Accounting and General Services to manage certain public-private partnerships entered into by the State; and
- (2) Establishes the Office of Public-Private Partnership within the Department of Accounting and General Services.

Your Committee received written comments in support of this measure from the Office of the Governor, Department of Transportation, BIA Hawaii, Chamber of Commerce Hawaii, and Hoomanapono Political Action Committee.

Your Committee received written comments in opposition to this measure from the Aloha Light Team; Common Cause Hawaii; Hawaii Justice Coalition; OCC Legislative Priorities Committee, Democratic Party of Hawaii; Ohana Hoopakele; Young Progressives Demanding Action - Hawaii; and eleven individuals.

Your Committee received written comments on this measure from the Department of Accounting and General Services, Stadium Authority, and American Civil Liberties Union of Hawaii.

Your Committee believes that the collaboration between the public and private sectors that is possible through public-private partnerships gives the State an opportunity to more efficiently and effectively provide services to the public.

Your Committee has amended this measure by:

- (1) Placing the Office of Public-Private Partnership and the five state public-private partnership coordinator positions within the Department of Business, Economic Development, and Tourism, rather than the Department of Accounting and General Services;
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (3) Making technical nonsubstantive changes for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2705, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2705, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 11. Noes, none. Excused, none.

SCRep. 2910 Ways and Means on S.B. No. 2670

The purpose and intent of this measure is to affirm the State's commitment to conservation and sustainability by codifying in state law the goal relating to industry, innovation and infrastructure, of the United Nations Sustainable Development Goals and indicators.

Your Committee received written comments in support of this measure from the Department of Agriculture; Department of Human Services; OCC Legislative Priorities Committee, Democratic Party of Hawaii; and Oahu Economic Development Board.

Your Committee received written comments on this measure from the Office of Planning and Hawaii Farm Bureau Federation.

Your Committee finds that, in order for Hawaii to continue to serve as an example for the rest of the world in setting policies on sustainability and to serve as a global leader on issues of conservation and sustainability, it is essential that the State demonstrate its full commitment to its own policies and goals, as well as the sustainable development goals set by the United Nations.

Your Committee has amended this measure by:

- (1) Setting out the Hawaii 2050 Sustainability Plan goals in the preamble of the measure, rather than in a new section of the Hawaii Revised Statutes; and
- (2) Making technical nonsubstantive changes for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2670, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2670, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 10. Noes, none. Excused, 1 (Shimabukuro).

SCRep. 2911 Ways and Means on S.B. No. 2276

The purpose and intent of this measure is to appropriate funds for the Department of Human Services to establish and staff a five-year pilot program in east Hawaii county that limits the number of children per child welfare services caseworker to no more than twenty.

Your Committee received written comments in support of this measure from the Department of Human Services; the Mayor's Office for the County of Hawaii; two members of the Hawaii County Council; Office of the Prosecuting Attorney, County of Hawaii; Catholic Charities Hawaii; East Hawaii Friends of Foster Families; Hawaii Appleseed Center for Law & Economic Justice; Hawaii Children's Action Network; Hawaii Family Forum; Winners' Camp Foundation; and forty-three individuals.

Your Committee received written comments on the measure from the Friends of the Children's Justice Center of East Hawaii.

Your Committee finds that the heavy caseloads of child welfare social workers in east Hawaii county increase the potential for harm to children at risk for neglect or abuse. Your Committee further finds that a pilot project demonstrating the positive impact of adequate staffing levels on the safety and well-being of at-risk children in east Hawaii county is in the public interest.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (2) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2276, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2276, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 11. Noes, none. Excused, none.

SCRep. 2912 Ways and Means on S.B. No. 2665

The purpose and intent of this measure is to affirm the State's commitment to conservation and sustainability by codifying in state law the goal relating to quality education, of the United Nations Sustainable Development Goals and Indicators.

Your Committee received written comments in support of this measure from the Board of Agriculture; the Department of Education; the Department of Human Services; the University of Hawaii System; IMUAlliance; Oahu Economic Development Board; and OCC Legislative Priorities Committee, Democratic Party of Hawaii.

Your Committee received comments on this measure from the Office of Planning.

Your Committee finds that in order for Hawaii to continue to serve as an example for the rest of the world in setting sustainability policies and to serve as a global leader on conservation and sustainability, it is essential that the State demonstrate its full commitment to its own policies and goals as well as the sustainable development goals and indicators set by the United Nations.

Your Committee has amended this measure by making technical nonsubstantive changes for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2665, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2665, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 10. Noes, none. Excused, 1 (Shimabukuro).

SCRep. 2913 Ways and Means on S.B. No. 2990

The purpose and intent of this measure is to establish paid family leave for all workers.

Specifically, the measure:

- (1) Requires the Department of Labor and Industrial Relations to adopt administrative rules by January 1, 2020, that establish a paid family leave program that includes an unspecified minimum number of weeks of paid leave, coverage for all employees, a system of progressive wage replacement, and job protections;
- (2) Authorizes the Department of Labor and Industrial Relations to adopt interim rules to remain in effect until January 1, 2022, or permanent rules are adopted, whichever occurs sooner;
- (3) Establishes a temporary Paid Family Leave Implementation Board to assist the Department of Labor and Industrial Relations and report to the Legislature;
- (4) Requires the Legislative Reference Bureau to conduct comparative and actuarial analyses;
- (5) Establishes the paid family leave special fund; and
- (6) Appropriates funds to the Department of Labor and Industrial Relations and Legislative Reference Bureau.

Your Committee received written comments in support of this measure from the Department of Human Services; Hawaii State Commission on the Status of Women; AFL-CIO; Hawaii Government Employees Association; Hawaii State Teachers Association; Planned Parenthood Votes Northwest and Hawaii; Mental Health America of Hawaii; League of Women Voters Hawaii; Healthy Mothers Healthy Babies; Smart Yields; Hawaii State Commission on Fatherhood; Hawaii Applesseed Center for Law and Economic Justice; PHOCUSED; Hawaii Children's Action Network; American College of Obstetricians and Gynecologists, Hawaii Section; IMUAlliance; Hawaii Women's Coalition; Young Progressives Demanding Action -Hawaii; YWCA Oahu; National Association of Social Workers, Hawaii Chapter; AARP Hawaii; Hawaii Women Lawyers; BEST Birth Hawaii, Pregnancy Center and Doula Agency; Hawaii Alliance for Progressive Action; American Association of University Women, Hawaii; Hawaii Public Health Institute; Hawaii State Democratic Women's Caucus; Caring Across Generations; Americans for Democratic Action Hawaii; Community Alliance on Prisons; International Brotherhood of Electrical Workers Local Union 1260; Project Vision Hawaii; American Civil Liberties Union of Hawaii; and approximately one hundred twenty individuals.

Written comments in opposition were received from SHRM Hawaii and the Chamber of Commerce Hawaii.

The Department of Budget and Finance, Department of Labor and Industrial Relations, Legislative Reference Bureau, ILWU Local 142, Hawaii Food Industry Association, and General Contractors Association of Hawaii submitted written comments on the measure.

Your Committee finds that establishing a system of paid family leave will assist many workers in the State who shoulder the responsibility of caring for a loved one while trying to make ends meet.

However, your Committee also recognizes that a number of issues and concerns have been raised by departments and agencies with respect to the implementation of paid family leave as established by the measure, including the following:

- (1) The Department of Budget and Finance highlighted the importance of having a "clear understanding of the issues and costs related to implementing a mandated paid leave system" before enacting any legislation;
- (2) The Department of Labor and Industrial Relations commented on the complexity of this undertaking and expressed numerous concerns, including the adequacy of resources available for implementation, the possibility that a mandated paid leave system may be premature, and factors that could delay the work of the Paid Family Leave Implementation Board and make the measure's 2019 deadline for the Implementation Board's report to the Legislature "ambitious";
- (3) The Legislative Reference Bureau commented on the unnecessarily complicated division of responsibilities between the Paid Family Leave Implementation Board, Department of Labor and Industrial Relations, and the Bureau, as well as the duplication of effort among these agencies under the measure; and
- (4) The Department of Human Services noted that there already exists a "wealth of data" in the form of a 2017 research study conducted by the Hawaii State Commission on the Status of Women. The study, funded by a federal grant program supporting research and analysis of paid family leave programs at the state level, used Hawaii-specific data and employee information, and according to the Hawaii State Commission on the Status of Women, is a "thorough study of the issues and costs related to [implementing] a mandated paid leave system".

Should this measure move forward as part of the legislative process, your Committee respectfully requests that the subsequent Committees to which this measure is referred consider the foregoing issues and concerns.

Your Committee has amended this measure by:

- (1) Clarifying a reference to “all employees of employers who employ one or more employees”, with respect to the persons to be covered by the paid family leave program;
- (2) Clarifying that all executive branch departments and agencies shall enter into and participate in data-sharing agreements for purposes of implementing a paid family leave program;
- (3) Changing the appropriation amounts to unspecified sums;
- (4) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (5) Making technical nonsubstantive changes for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2990, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2990, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 11; Ayes with Reservations (Riviere). Noes, none. Excused, none.

SCRep. 2914 Ways and Means on S.B. No. 2398

The purpose and intent of this measure is to encourage the consumption of fresh fruits and vegetables.

More specifically, the measure:

- (1) Requires the Department of Agriculture to develop and administer a local health food incentive program promoting the purchase of fruits and vegetables for beneficiaries of the Supplemental Nutrition Assistance Program; and
- (2) Appropriates moneys from the local health food incentive program special fund for administration of the local health food incentive program and to provide matching funds to beneficiaries of the Supplemental Nutrition Assistance Program.

Your Committee received written comments in support of this measure from the Department of Agriculture; Department of Health; Department of Human Services; Office of the Mayor of the County of Hawaii; Hawaii Farm Bureau Federation; American Heart Association; Aloha Harvest; Hawaii Public Health Association; The Food Basket Inc., Hawai'i Island's Food Bank; Papa Ola Lokahi; Ulupono Initiative; Hawai'i Public Health Institute; Hawai'i Pacific Health; Hawaii Appleseed Center for Law & Economic Justice; Hawaii Primary Care Association; Hawaii Children's Action Network; Pioneering Healthier Communities of Honolulu; Waianae Coast Comprehensive Health Center; OCC Legislative Priorities Committee of the Democratic Party of Hawai'i; Community First; Blue Zones Project – Koolaupoko; American Cancer Society Cancer Action Network and sixty individuals.

Your Committee received comments on this measure from the Department of Budget and Finance.

Your Committee finds that consumption of fresh fruit and vegetables is an integral part of a healthy diet and that every community should have adequate access to fresh produce; however, the high cost and poor quality of available produce often make this difficult. Farmers' market matching incentive programs, in which individuals who purchase produce at local farmers' markets using their federal nutrition assistance benefits receive additional benefits on a dollar-for-dollar basis up to a certain amount, can increase access to healthy dietary options for participants, invigorate local economies, and address food insecurity.

Your Committee has amended this measure by:

- (1) Changing the appropriation into and out of the local health food incentive program special fund from \$300,000 to an unspecified amount;
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (3) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2398, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2398, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 10. Noes, none. Excused, 1 (Shimabukuro).

SCRep. 2915 Ways and Means on S.B. No. 2661

The purpose and intent of this measure is to affirm the State's commitment to conservation, sustainability, and economic development by codifying in state law, the seventeen United Nations Sustainable Development Goals and Indicators.

Your Committee received written comments in support of this measure from the Department of Agriculture, Department of Education, Department of Land and Natural Resources, a member of the Maui County Council, the Nature Conservancy, Oahu Economic Development Board, and OCC Legislative Priorities Committee, Democratic Party of Hawaii.

Your Committee received written comments on this measure from the Office of Planning.

Your Committee finds that in order for Hawaii to continue to serve as an example for the rest of the world in setting policies on sustainability and to serve as a global leader on issues of conservation and sustainability, it is essential that the State demonstrate its full commitment to its own policies and goals as well as the sustainable development goals and indicators set by the United Nations.

Your Committee has amended this measure by making technical nonsubstantive changes for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2661, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2661, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 10. Noes, none. Excused, 1 (Shimabukuro).

SCRep. 2916 Ways and Means on S.B. No. 2831

The purpose and intent of this measure is to restore the full authority of the President of the University of Hawaii to act as the University's chief procurement officer for all procurement contracts under Chapter 103D, Hawaii Revised Statutes.

Your Committee received written comments in support of this measure from the State Procurement Office, University of Hawaii, and General Contractors Association of Hawaii.

Your Committee believes that the University, through its President, may benefit from the restoration of control of its procurement for a limited period, during which the Legislature may maintain oversight over the University.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure;
- (2) Providing for the reenactment of the sections of the Hawaii Revised Statutes amended in this measure upon the measure's repeal; and
- (3) Making technical nonsubstantive changes for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2831, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2831, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 11. Noes, none. Excused, none.

SCRep. 2917 Ways and Means on S.B. No. 757

The purpose and intent of this measure is to appropriate moneys for the Office of the Auditor to conduct a financial audit of the University of Hawaii's activities related to Mauna Kea.

Your Committee received written comments in support of this measure from the OCC Legislative Priorities Committee, Democratic Party of Hawaii; and two individuals.

Your Committee received written comments in opposition to this measure from the University of Hawaii and one individual.

Your Committee received written comments on this measure from the Office of the Auditor, Office of Hawaiian Affairs, and one individual.

Your Committee finds that an examination of the financial records and an analysis of the financial management of the University of Hawaii's activities related to Mauna Kea is in the public interest.

Your Committee has amended this measure by:

- (1) Clarifying the scope of the audit and the description of audit activities;
- (2) Changing the appropriation from an unspecified amount to \$200,000;
- (3) Changing the effective date from July 1, 2018, to upon approval; and
- (4) Making technical nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 757, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 757, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 11. Noes, none. Excused, none.

SCRep. 2918 Ways and Means on S.B. No. 2293

The purpose and intent of this measure is to preserve the Front Street Apartments as an affordable rental housing project through negotiations with the property owner, or if necessary, through the State exercising its power of eminent domain to acquire the property.

Your Committee received written comments in support of this measure from the Hawaii Housing Finance and Development Corporation; Office of the Mayor of the County of Maui; a member of the Maui County Council; Front Street Apartment Tenants

Group; ILWU Local 142; LahainaTown Action Committee; Lahuiokalani Ka'anapali Church; OCC Legislative Priorities Committee, Democratic Party of Hawaii; St. Elizabeth's Church; Waiola Church, UCC; West Maui Taxpayers Association; and sixteen individuals.

Your Committee received written comments in opposition to this measure from Front Street Affordable Housing Partners.

Your Committee finds that the tenants of the Front Street Apartments, the surrounding community, and the island of Maui would benefit from the active intervention of the State to ensure that the current and future tenants of the Front Street Apartments have access to affordable housing.

Your Committee has amended this measure by changing the appropriation for negotiations and real property improvements from \$250,000 to an unspecified amount to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2293, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2293, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 11. Noes, none. Excused, none.

SCRep. 2919 Ways and Means on S.B. No. 2765

The purpose and intent of this measure is to exempt investment employees of the Employees' Retirement System from civil service and collective bargaining laws.

Specifically, this measure authorizes:

- (1) The Board of the Employees' Retirement System to hire investment officers and professionals who shall be employed without regard to Chapters 76 and 89, Hawaii Revised Statutes; and
- (2) Current investment specialists to remain in their positions and continue to be subject to Chapter 76, Hawaii Revised Statutes.

Your Committee received written comments in support of this measure from the Employees' Retirement System and University of Hawaii Professional Assembly.

Your Committee received written comments in opposition to this measure from one individual.

Your Committee finds that exempting the positions of the Employees' Retirement System responsible for managing the investment portfolio will provide the Board of the Employees' Retirement System with the flexibility to attract and hire the experienced professionals necessary to achieve the System's investment goals.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2765, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 10. Noes, none. Excused, 1 (Shimabukuro).

SCRep. 2920 Ways and Means on S.B. No. 2751

The purpose and intent of this measure is to update laws related to the Office of Aerospace Development and the Pacific International Space Center for Exploration Systems.

More specifically, this measure:

- (1) Establishes the Hawaii Unmanned Aerial Systems Test Site Advisory Board;
- (2) Places the Pacific International Space Center for Exploration Systems within the Department of Business, Economic Development, and Tourism;
- (3) Makes changes to the composition of the Board of Directors of the Space Center;
- (4) Adds the Chancellor of the University of Hawaii at Hilo, or the Chancellor's designated representative, to the Board of Directors;
- (5) Establishes a ceiling of \$1,000,000 to the Pacific International Space Center for Exploration Systems Special Fund; and
- (6) Repeals the Office of Aerospace Development and transfers all of its rights, powers, functions, and duties to the Space Center.

Your Committee received written comments in support of this measure from the Pacific International Space Center for Exploration; and OCC Legislative Priorities Committee, Democratic Party of Hawaii.

Your Committee received written comments in opposition to this measure from the UH Applied Research Lab and BIFA.

Your Committee received written comments on this measure from the Department of Business, Economic Development, and Tourism.

Your Committee finds that the Pacific International Space Center for Exploration Systems is currently administratively attached to the Office of Aerospace Development. However, your Committee believes that it would be more appropriate for the Space Center to be renamed to the Office of Aerospace and Aviation Industries and to be attached to the Department of Business, Economic Development, and Tourism.

Your Committee has amended this measure by:

- (1) Renaming the Pacific International Space Center for Exploration Systems as the Office of Aerospace and Aviation Industries;
- (2) Including economic development and job creation among the responsibilities of the Hawaii Unmanned Aerial Systems Test Site Advisory Board;
- (3) Including the promotion of economic opportunities and creation of jobs among the responsibilities of the Hawaii Unmanned Aerial Systems Test Site Chief Operating Officer;
- (4) Revising the responsibilities of the Executive Director of the Office of Aerospace and Aviation Industries to include the planning, evaluation, and coordination of economic opportunities and job creation for space-related research activities;
- (5) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (6) Making technical nonsubstantive changes for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2751, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2751, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 11. Noes, none. Excused, none.

SCRep. 2921 Ways and Means on S.B. No. 2077

The purpose and intent of this measure is to authorize the Department of Land and Natural Resources to become a member of the Interstate Wildlife Violator Compact or a similar agreement.

Your Committee received written comments in support of this measure from the Department of Land and Natural Resources; Animal Rights Hawaii; Hawaiian Humane Society; Humane Society of the United States; Interstate Wildlife Violator Compact; OCC Legislative Priorities Committee, Democratic Party of Hawaii; One Ocean Diving; and twenty individuals.

Your Committee believes that this measure will facilitate the enforcement efforts by the Department of Land and Natural Resources in relation to hunting, fishing, and wildlife protection.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2077, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 11. Noes, none. Excused, none.

SCRep. 2922 Ways and Means on S.B. No. 2740

The purpose and intent of this measure is to make an appropriation to satisfy several claims against the State, its officers, or its employees.

Your Committee received written comments in support of this measure from the Department of the Attorney General and one individual.

Your Committee finds that this measure requests a total of \$870,000 in appropriations from the general fund to satisfy six claims against the State and a total of \$1,389,312.84 from the state highway fund to satisfy three claims against the State. The grand total for the nine claims settled in this measure as received by your Committee is \$2,259,312.84. Timely passage of this measure will minimize the State's obligation to pay interest on those amounts.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2740, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 8. Noes, none. Excused, 3 (Galuteria, Riviere, Shimabukuro).

SCRep. 2923 Ways and Means on S.B. No. 2228

The purpose and intent of this measure is to establish forfeiture of Employees' Retirement System benefits for felonies related to state or county employment.

Specifically, this measure:

- (1) Authorizes a court to order the forfeiture of Employees' Retirement System benefits of a member, former member, or retirant upon the conviction of that individual for a felony related to the employment of the individual with the State or any county;
- (2) Authorizes designated beneficiaries to receive benefits upon the death of the convicted member, former member, or retirant despite court-ordered forfeiture of benefits; and
- (3) Establishes procedures for the Employees' Retirement System to follow upon receipt of an applicable court order.

Your Committee received written comments in support of this measure from the Employees' Retirement System and one individual.

Your Committee finds that this measure will codify the public policy that contributors to the Employees' Retirement System who are convicted of a felony related to their employment with the State or any county should not be eligible to receive retirement benefits accrued during employment.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2228, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 9. Noes, none. Excused, 2 (Galuteria, Shimabukuro).

SCRep. 2924 Ways and Means on S.B. No. 2360

The purpose and intent of this measure is to require public employees, within thirty days before the anniversary date of their initial membership in an employee organization, to provide written notification to the employee's exclusive representative if the employee wishes to discontinue payroll assignments for collective bargaining dues, fees, premiums, and other associated benefits.

Your Committee received written comments in support of this measure from the Hawaii State Teachers Association, Hawaii Government Employees Association, United Public Workers, and OCC Legislative Priorities Committee, Democratic Party of Hawaii.

Your Committee finds that this measure will create a standardized process for the flow of information among the employee, exclusive representative, and employer regarding collective bargaining fees and related employee expenses and will provide stability and order in the administration of employee payroll.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2360 and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 11. Noes, none. Excused, none.

SCRep. 2925 Ways and Means on S.B. No. 2346

The purpose and intent of this measure is to establish an address confidentiality program within the Department of the Attorney General to help survivors of domestic abuse, sexual offenses, or stalking relocate and keep their actual addresses confidential.

The measure also appropriates funds to the Department of the Attorney General for the implementation and operation of the address confidentiality program.

Your Committee received written comments in support of this measure from the Department of the Attorney General; Parents and Children Together; the Sex Abuse Treatment Center; Planned Parenthood Votes Northwest and Hawaii; the Domestic Violence Action Center; Hawaii Women Lawyers; Hawaii State Democratic Women's Caucus; Hawaii Women's Coalition; Hawaii State Coalition Against Domestic Violence; American Association of University Women, Hawaii; University of Hawaii-Leeward; OCC Legislative Priorities Committee, Democratic Party of Hawaii; and five individuals.

The Department of Taxation submitted written comments on the measure.

Your Committee believes that the address confidentiality program established by this measure will help to better protect survivors of domestic abuse, sexual offenses, or stalking by providing them with a substitute legal address for use by state and local government agencies, in place of their physical address, whenever an address is required for public records.

Your Committee has amended this measure by:

- (1) Specifying the means by which written notice of a court order requiring disclosure of a program participant's actual address is to be served upon the program participant;
- (2) Changing the appropriation's effective date to July 1, 2049;
- (3) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (4) Making technical nonsubstantive changes for the purposes of clarity, consistency, and style.

Your Committee notes that the Department of the Attorney General estimates it will need an additional \$172,128 for fiscal year 2018-2019 to cover program personnel costs, including fringe benefits, for a program director and two application assistants, as well as an additional \$60,000 to physically house these personnel and procure the equipment and supplies needed for the program, for a total of an additional \$232,128 for fiscal year 2018-2019.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2346, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2346, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 8. Noes, none. Excused, 3 (Galuteria, Riviere, Shimabukuro).

SCRep. 2926 Ways and Means on S.B. No. 2996

The purpose and intent of this measure is to establish the Hawaii Airports Corporation, which shall assume all of the authority, powers, functions, duties, and responsibilities of the Department of Transportation related to aeronautics and airports

Your Committee received written comments in support of this measure from the Office of the Governor; the Department of Transportation; Hawaii Tourism Authority; two members of the Maui County Council, including the Chair; Aircraft Owners and Pilots Association; Airlines Committee of Hawaii; Airport Concessionaires Committee; American Institute of Architects; Bank of Hawaii; Canada-France-Hawaii Telescope Corp.; Chamber of Commerce Hawaii; Electrical Contractors Association; Enterprise Holdings; Hawaii Lodging & Tourism Association; Hawaii Business Roundtable; Hawaii Pacific Health; Hawaiian Airlines; Hoomanapono Political Action Committee; Japanese Chamber of Commerce & Industry of Hawaii; Kau Valley Farms; Kohala Coast Resort

Association; Maui Chamber of Commerce; Maui Hotel & Lodging Association; Pulama Lanai; Sheet Metal Contractors Association; Subcontractors Association of Hawaii; and seven individuals.

Your Committee received written comments in opposition to this measure from the Office of Hawaiian Affairs and one individual.

Your Committee received comments on this measure from the Department of the Attorney General, the State Procurement Office, American Council of Engineering Companies - Hawaii, General Contractors Association of Hawaii, and Plumbing and Mechanical Contractors Association of Hawaii.

Your Committee finds that the responsibilities for Hawaii's airport planning, management, marketing, and capital development functions are currently distributed among a number of agencies. Your Committee believes that the coordinated planning and development of the State's air transportation system and infrastructure would be achieved more effectively by establishing a separate state entity with overall jurisdiction and responsibility for aeronautics and state airports.

Your Committee has amended this measure by:

- (1) Inserting additional provisions relating to procurement policy requirements and the sale, gift, or exchange of public lands;
- (2) Changing the appropriation for the transfer of airport functions from \$3,000,000 to an unspecified amount to facilitate further discussion on the measure;
- (3) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (4) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

Your Committee notes the testimony of the Airport Concessionaries Committee, which requested that the measure include a requirement that one member of the Board of Directors of the Hawaii Airports Corporation represent general airport-concession interests.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2996, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2996, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 11. Noes, none. Excused, none.

SCRep. 2927 Ways and Means on S.B. No. 2601

The purpose and intent of this measure is to increase efficiency and accountability in government procurement.

Specifically, this measure:

- (1) Requires that past performance be considered in bid selection of contractors in sole source procurement;
- (2) Establishes procedures and factors to be considered in evaluating, considering, or reviewing past performance;
- (3) Requires an evaluation of the work and performance of a contractor upon completion of a contract; and
- (4) Appropriates funds to the State Procurement Office.

Your Committee received written comments in support of this measure from the State Procurement Office.

Your Committee received written comments in opposition to this measure from the Department of Accounting and General Services and the Department of Design and Construction of the City and County of Honolulu.

Your Committee received written comments on this measure from the General Contractors Association of Hawaii.

Your Committee finds that because consideration of past performance is not currently required in the procurement process, bidders with poor past performance on public contracts may be considered for new procurements, resulting in repeated inefficient and substandard performances.

Your Committee has amended this measure by:

- (1) Replacing existing language establishing procedures and factors to be considered in the evaluation, consideration, or review of past performance with language recommended by the State Procurement Office that establishes evaluation factors and responsibilities for recording and maintaining contractor performance information;
- (2) Establishing contract administration duties and providing that a procurement officer may delegate certain duties to a contract administrator;
- (3) Requiring that past performance be considered in source selection for competitive sealed contracts that exceed the small purchase threshold;
- (4) Requiring that procurement officers consider certain factors, including past performance, when making a determination of offeror responsibility;
- (5) Clarifying that the appropriation to the State Procurement Office shall be used to implement the Act for executive branch departments and agencies;
- (6) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (7) Making technical nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2601, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2601, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 10. Noes, none. Excused, 1 (Shimabukuro).

SCRep. 2928 (Majority) Ways and Means on S.B. No. 3088

The purpose and intent of this measure is to extend by three months the period in which a county may adopt a surcharge on state tax, under certain conditions, from March 31, 2018, to June 30, 2018.

This measure also specifies the minimum amount of surcharge revenues to be expended on public transportation systems and the maximum amount to be expended on any public roadway, for counties with a population of no more than five hundred thousand.

Your Committee received written comments in support of this measure from the Office of the Mayor of the County of Hawaii, the Council Member representing Hawaii County Council District 4, Hawaii Regional Council of Carpenters, and Pacific Resource Partnership.

Your Committee received written comments on this measure from the Department of Taxation and Tax Foundation of Hawaii.

Your Committee finds that extending the period in which a county, under certain conditions, may adopt a surcharge on state tax will provide the affected counties with additional time to gather community input and consider whether to adopt an applicable surcharge.

Your Committee has amended this measure by making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3088, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 3088, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 8. Noes, 1 (Riviere). Excused, 2 (Kahele, Shimabukuro).

SCRep. 2929 Ways and Means on S.B. No. 2361

The purpose and intent of this measure is to appropriate funds for collective bargaining cost items, salary adjustments, and other cost items for public employees in collective bargaining unit (14) and their excluded counterparts for fiscal biennium 2017-2019.

Your Committee received written comments in support of this measure from the Department of Budget and Finance; Hawaii Government Employees Association; and OCC Legislative Priorities Committee, Democratic Party of Hawaii.

Your Committee finds that negotiations for collective bargaining unit (14) agreements are currently in progress. This measure provides a legislative vehicle to appropriate necessary funds if an agreement is reached prior to the end of the 2018 Regular Session.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (2) Making technical nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2361, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2361, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 11. Noes, none. Excused, none.

SCRep. 2930 Ways and Means on S.B. No. 2833

The purpose and intent of this measure is to authorize the University of Hawaii to issue \$100,000,000 in revenue bonds to finance the costs of construction or the costs of maintenance and modernization, or both, of any university project.

Your Committee received written comments in support of this measure from the University of Hawaii System and OCC Legislative Priorities Committee, Democratic Party of Hawaii.

Your Committee finds that the authorization provided by this measure will help the University of Hawaii complete a number of its priority capital facility construction, renovation, modernization, and repair projects.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2833, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 8. Noes, none. Excused, 3 (Kidani, Riviere, Shimabukuro).

SCRep. 2931 Ways and Means on S.B. No. 2051

The purpose and intent of this measure is to authorize public schools and their support programs to engage in commercial enterprises related to education.

Specifically, this measure:

- (1) Authorizes individual Department of Education schools or any career pathway, academy, or program operated within those schools to engage in commercial enterprises related to the educational purposes of that school, career pathway, academy, or program, including the sale of goods produced by that school, career pathway, academy, or program; and
- (2) Authorizes the Department of Education to adopt rules, pursuant to Chapter 91, Hawaii Revised Statutes, regarding the commercial enterprises.

Your Committee received written comments in support of this measure from the Department of Education; Waianae High School; and OCC Legislative Priorities Committee, Democratic Party of Hawai'i.

Your Committee finds that authorizing schools and their support programs to market and sell education-related products and deposit the revenues into the schools' programs will allow schools to continue to provide students with real-world entrepreneurial experiences.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2051, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 9. Noes, none. Excused, 2 (Galuteria, Shimabukuro).

SCRep. 2932 Ways and Means on S.B. No. 2373

The purpose and intent of this measure is to require that negotiations over the implementation of management decisions that affect the terms and conditions of employment shall not be precluded from collective bargaining negotiations.

Your Committee received written comments in support of this measure from AFL-CIO; Hawaii State Teachers Association; IMUAlliance; Hawaii Government Employees Association; United Public Workers; and OCC Legislative Priorities Committee, Democratic Party of Hawaii.

Your Committee received written comments in opposition to this measure from the Hawaii Health Systems Corporation.

Your Committee finds that management decisions that affect terms and conditions of employment can have a profound impact on employment and that those decisions should be negotiated as part of collective bargaining.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2373, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 11. Noes, none. Excused, none.

SCRep. 2933 Ways and Means on S.B. No. 2660

The purpose and intent of this measure is to provide sufficient medical care and insurance coverage for firefighters.

Specifically, this measure:

- (1) Requires that if a firefighter experiences a controverted workers' compensation claim, the firefighter's medical insurance shall pay for the medical treatment and that if the claim is later determined to be compensable, the employer shall reimburse the firefighter's medical insurance provider for the expenses of the medical treatment; and
- (2) Requires that an employer shall be liable for treatment of certain forms of cancer experienced by a firefighter with five or more years of service; provided that the fee for medical service shall not exceed one hundred thirty-seven percent of the fees prescribed in the Medicare Resource Based Relative Value Scale applicable to Hawaii.

Your Committee received written comments in support of this measure from the County of Maui Department of Fire and Public Safety, Kauai Fire Department, Hawaii Fire Fighters Association, and two individuals.

Your Committee finds that firefighters are routinely exposed to carcinogens and toxicants that increase their risk of later developing cancer. Your Committee believes that legislation presuming that the cancers developed or manifested in the course of employment will help to provide firefighters and their families with proper medical care and financial support.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2660 and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 10. Noes, none. Excused, 1 (Shimabukuro).

SCRep. 2934 Ways and Means on S.B. No. 2672

The purpose and intent of this measure is to codify the sustainable cities and communities goal of the United Nations Sustainable Development Goals.

Specifically, this measure establishes various goals to be achieved by the year 2030, including:

- (1) Ensuring access to adequate, safe, and affordable housing and transport systems;
- (2) Increasing livability and resilience in the built environment;
- (3) Protecting the natural and cultural heritage of Hawaii;
- (4) Reducing disaster-related deaths;
- (5) Reducing adverse per capita environmental impact of cities;

- (6) Providing access to green spaces;
- (7) Supporting links between urban and rural areas; and
- (8) Increasing the number of cities and towns implementing sustainability policies.

Your Committee received written comments in support of this measure from the Department of Agriculture, the Department of Human Services, the Department of Land and Natural Resources, the Office of Planning, the Oahu Economic Development Board, Planned Parenthood Votes Northwest and Hawaii, Hawaii Green Growth, and fifteen individuals.

Your Committee finds that codification of this United Nations Sustainable Development Goal will establish a framework for the State to effectively address key challenges faced by Hawaii.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2672, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 9. Noes, none. Excused, 2 (Kahele, Shimabukuro).

SCRep. 2935 Ways and Means on S.B. No. 2675

The purpose and intent of this measure is to codify the United Nations Sustainable Development Goal regarding life below water.

Specifically, this measure establishes various goals to be achieved by the year 2030 or earlier, including:

- (1) Reducing marine pollution;
- (2) Managing and protecting marine and coastal ecosystems;
- (3) Effectively managing thirty percent of nearshore ocean waters;
- (4) By 2020, effectively regulating ocean harvesting;
- (5) By 2020, prohibiting fisheries subsidies that contribute to overcapacity and overfishing;
- (6) Minimizing and addressing the impacts of ocean acidification;
- (7) Conserving at least thirty percent of coast and marine areas;
- (8) Increasing scientific knowledge to improve ocean health; and
- (9) Providing small-scale artisanal fishers access to marine resources and markets.

Your Committee received written comments in support of this measure from the Office of Hawaiian Affairs; Department of Agriculture; Department of Land and Natural Resources; Office of Planning; The Nature Conservancy; OCC Legislative Priorities Committee, Democratic Committee; Oahu Economic Development Board; Hawaii Green Growth; Planned Parenthood Votes Northwest and Hawaii; and fifteen individuals.

Your Committee finds that codifying the United Nations Sustainable Development Goal in state law will establish a framework for the State to effectively address key challenges. This measure also builds on Hawaii's adoption of goals aligned with the Paris Agreement, enacted by Act 32, Session Laws of Hawaii 2017.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2675, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 9. Noes, none. Excused, 2 (Kahele, Shimabukuro).

SCRep. 2936 Ways and Means on S.B. No. 2224

The purpose and intent of this measure is to change the allocation of transient accommodations tax revenues.

Specifically, this measure:

- (1) Renames the convention center enterprise special fund as the convention center operations and maintenance special fund;
- (2) Repeals the allocation of transient accommodations tax revenues to the convention center operations and maintenance special fund and amends the authorized uses of the fund;
- (3) Defines the term "administrative expenses" for purposes of the tourism special fund; and
- (4) Redistributes the allocation of transient accommodations tax revenues from the Hawaii Tourism Authority to other state agencies for certain purposes.

Your Committee received written comments on this measure from the Office of the Auditor; Department of Business, Economic Development, and Tourism; Department of Land and Natural Resources; University of Hawaii System; and Tax Foundation of Hawaii.

Your Committee finds that directly allocating revenues from the transient accommodations tax to specific agencies, as proposed by this measure, will better ensure that the specific areas affected by the visitor industry receive resources needed to remedy any concerns that arise from the visitor industry.

Your Committee has amended this measure by:

- (1) Adding a cap of \$6,000,000 to the amount of moneys that may be deposited into the convention center operations and maintenance special fund, with excess moneys being deposited into the general fund;
- (2) Providing that, of the moneys in the tourism special fund:
 - (A) No more than \$2,500,000 shall be used for research expenses; and
 - (B) No more than \$5,800,000 shall be used for sports marketing purposes;
- (3) Redistributing the allocation of transient accommodations tax revenues as follows:
 - (A) Allocating \$60,300,000 to the tourism special fund; provided that \$1,000,000 shall be allocated for the operation of a Hawaiian center and the Museum of Hawaiian Music and Dance at the Hawaii Convention Center;
 - (B) Allocating \$16,500,000 to the Department of Business, Economic Development, and Tourism to be expended for economic development initiatives and programs;
 - (C) Allocating \$3,500,000 to the Department of Education to be used for a grant program for initiatives and programs related to hospitality and tourism industry careers; provided that the Department of Education shall report on its expenditures to the Legislature;
 - (D) Allocating \$7,891,000 to the University of Hawaii System for academic programs relating to hospitality and tourism industry career pathways;
 - (E) Allocating \$3,000,000 to University of Hawaii athletics for student athlete travel;
 - (F) Allocating \$9,608,554 to the Department of Land and Natural Resources to be used to support efforts to manage, improve, and protect the State's environment and address the impact of tourism on the State's natural resources;
 - (G) Allocating \$8,000,000 to the counties to be expended to ensure the safety of visitors to county parks and beaches; and
 - (H) Allocating \$8,000,000 to be expended on grants, pursuant to Chapter 42F, Hawaii Revised Statutes, including but not limited to Hawaiian cultural initiatives, community programs, product development, and tourism related grants, as determined by the legislature; and
- (4) Making technical nonsubstantive edits for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2224, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2224, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 8. Noes, none. Excused, 3 (Kidani, Riviere, Shimabukuro).

SCRep. 2937 Ways and Means on S.B. No. 3097

The purpose and intent of this measure is to appropriate moneys to the University of Hawaii at Hilo to conduct research related to the control and prevention of rat lungworm disease.

Your Committee received written comments in support of this measure from the Department of Land and Natural Resources; the University of Hawaii at Hilo, Daniel K. Inouye College of Pharmacy; the Office of the Mayor of the County of Hawaii; and five private individuals.

Your Committee finds that the Hawaii Interagency Biosecurity Plan identifies rat lungworm disease as a serious threat to human health and agriculture in Hawaii. Your Committee further finds that although the University of Hawaii at Hilo, Daniel K. Inouye College of Pharmacy has been conducting valuable research related to rat lungworm disease over the past six years, providing an extensive amount of information regarding the disease, further research is necessary to adequately protect Hawaii's residents, visitors, and agriculture.

Your Committee notes that the University of Hawaii's estimated cost for the research related to the control and prevention of rat lungworm disease is \$500,000.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 2050, to encourage further discussion; and
- (2) Making technical nonsubstantive changes for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3097, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 3097, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 10. Noes, none. Excused, 1 (Shimabukuro).

SCRep. 2938 (Joint) Public Safety, Intergovernmental, and Military Affairs and Economic Development, Tourism, and Technology on S.C.R. No. 26

The purpose and intent of this measure is to request the Federal Communications Commission to establish regulations to require all cellular phones to receive emergency alerts without an option to opt out of receiving emergency alert messages and without any added costs to service plans.

Your Committees received testimony in support of this measure from the Hawaii Emergency Management Agency and one individual.

Your Committees find that it is critical that a reliable and timely communication system is in place for disseminating information to the public about matters of national and local concern, including natural disasters, severe weather, and other local civic emergencies. The events of January 13, 2018, where the Hawaii Emergency Management Agency erroneously dispatched an incoming ballistic missile warning alert to citizens and visitors across the State, revealed a critical flaw in the emergency warning system. Although the warning sent that day was a mistake, some citizens and visitors received neither the warning nor the subsequent false alarm message on their cellular phones. This occurred because cellular phone owners are able to opt out of receiving certain wireless emergency alerts. Your Committees find that allowing cellular phone owners the capability to opt out of these critical warnings creates a dangerous and unnecessary risk for the public. Therefore, your Committees request that the Federal Communications Commission establish regulations to require all cellular phones to receive wireless emergency alerts without an option to opt out of receiving such emergency alert messages and without any added costs to service plans.

As affirmed by the records of votes of the members of your Committees on Public Safety, Intergovernmental, and Military Affairs and Economic Development, Tourism, and Technology that are attached to this report, your Committees concur with the intent and purpose of S.C.R. No. 26 and recommend that it be referred to your Committee on Commerce, Consumer Protection, and Health.

Signed by the Chairs on behalf of the Committees.

Public Safety, Intergovernmental, and Military Affairs: Ayes, 3. Noes, none. Excused, 2 (Ihara, Thielen).

Economic Development, Tourism, and Technology: Ayes, 3. Noes, none. Excused, 2 (Galuteria, Thielen).

SCRep. 2939 Water and Land on S.C.R. No. 2

The purpose and intent of this measure is to provide legislative authorization for the issuance of a term, non-exclusive easement covering a portion of state submerged lands at Waianae, Oahu by the Board of Land and Natural Resources for the existing seawall, steps, and landscaped area and for use, repair, and maintenance of the existing improvements constructed thereon.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources and six individuals. Your Committee received testimony in opposition to this measure from Ho'omanapono Political Action Committee.

Your Committee finds that an existing seawall, steps, and landscaped area identified as Tax Map Key: (1) 8-7-023: seaward of 044, Waianae, Oahu, are placed on state submerged lands. In December 2016, the owner of the abutting property worked with the Department of Land and Natural Resources to resolve the encroachment, and the Department approved a grant of a fifty-five-year term, non-exclusive easement to run with the land and to inure to the benefit of the abutting property to resolve the encroachment. The term, non-exclusive easement will cover about 391 square feet, and the current owner is expected to pay the State the fair market value of the easement as consideration for the use of public lands. The amount of consideration will be determined by an independent appraiser. Since the Board of Land and Natural Resources has met all statutory prerequisites, this measure authorizes the amendment of a term, non-exclusive easement in accordance with section 171-53, Hawaii Revised Statutes.

Your Committee has amended this measure by inserting language stating that during the Department of Land and Natural Resources' review process, the Department of Planning and Permitting of the City and County of Honolulu requested that the current owner of the abutting property remove wooden and chain link fences from atop the seawall, which the owner has reported have been removed.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 2, as amended herein, and recommends that it be referred to your Committee on Ways and Means, in the form attached hereto as S.C.R. No. 2, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Gabbard, Thielen).

SCRep. 2940 Judiciary on S.C.R. No. 24

The purpose and intent of this measure is to recognize March 19 as Hawaii Celebrating Women in Public Office Day.

Your Committee received testimony in support of this measure from the Hawaii State Democratic Women's Caucus; United Public Workers, AFSCME, Local 646, AFL-CIO; Oahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i; Healthy Mothers Healthy Babies; and five individuals.

Your Committee finds that women in public office make vital contributions at the local, state, and national levels. Although women continue to be underrepresented in public office positions, recent success of female candidates has sparked a surge of interest and enthusiasm by women in seeking elected office. Recognizing March 19 as Hawaii Celebrating Women in Public Office Day will celebrate the contributions made by women in public office and encourage young people to serve their communities in the future.

Your Committee has amended this measure by making stylistic, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 24, as amended herein, and recommends its adoption in the form attached hereto as S.C.R. No. 24, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Gabbard).

SCRep. 2941 Education on H.B. No. 1941

The purpose and intent of this measure is to establish and appropriate funds for one full-time equivalent (1.0 FTE) world languages institutional support position within the Department of Education.

Your Committee received testimony in support of this measure from the Department of Education, Office of Language Access, Hawaii State Teachers Association, Native Hawaiian Education Council, HawaiiKidsCAN, Tinalak Filipino Education Council, Hawai'i Friends of Civil Rights, iLAING Program, Hawai'i Association of Language Teachers, Oahu County Committee on Legislative Priorities of the Democratic Party of Hawaii, and numerous individuals.

Your Committee finds that it is important to create a more culturally-responsive policy climate that embraces the opportunities of Hawaii's diverse ethnic and heterogeneous linguistic population. Recognizing the important role of multilingualism in providing a meaningful and equitable education for student achievement, the Board of Education approved policies that promote high proficiency in English or Hawaiian and an additional language. These policies, based on long-standing research showing the effectiveness of language education for student achievement, support the teaching and learning of languages to fuel economic growth and support international business, military and diplomatic relations, workforce development, and global competence. This measure will support the respective goals of the Board and Department.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1941, H.D. 1, and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Dela Cruz, Kahele).

SCRep. 2942 Education on H.B. No. 2607

The purpose and intent of this measure is to:

- (1) Require and appropriate funds for the Department of Education to develop and implement a statewide computer science curricula plan for public school students in kindergarten through twelfth grade and ensure that each public high school offers at least one computer science course each school year; and
- (2) Authorize the Department of Education to contract for computer science teacher development programs.

Your Committee received testimony in support of this measure from the Department of Education, HawaiiKidsCAN, Microsoft Corporation, Code.org, Women in Technology (Maui Economic Development Board), Oahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, and two individuals.

Your Committee finds that computing-based occupations make up more than two-thirds of all projected new jobs in the science, technology, engineering, and mathematics fields, commonly known as STEM fields. This means that college graduates with computer science degrees are in high demand among employers across the nation.

Your Committee further finds that there is a disparity between the demand for computer science education and its availability as only forty percent of schools offer such courses. The integration and prioritization of computer science curricula in public schools may prepare students for fields related to computer science that have the potential to drive job growth and innovation throughout the economy.

Your Committee has amended this measure by:

- (1) Specifying that any unexpended and unencumbered balance of the appropriation as of the close of business on June 30, 2019, instead of on June 30, 2021, shall lapse; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2607, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2607, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Dela Cruz, Kahele).

SCRep. 2943 Education on H.B. No. 2354

The purpose and intent of this measure is to change the amount of the authorized income tax check-off to the libraries special fund that may be designated from an individual taxpayer's income tax refund from \$2 to an unspecified amount and from \$4 to an unspecified amount for taxpayers filing a joint return.

Your Committee received testimony in support of this measure from the Department of Taxation, Hawaii State Public Library System, and Oahu County Committee on Legislative Priorities of the Democratic Party of Hawaii. Your Committee received comments on this measure from the Tax Foundation of Hawaii.

Your Committee finds that demand for library books and materials by Hawaii State Public Library System patrons, including electronic resources, are increasing every year. Since the initial adoption of the library special fund income tax check-off in 2003, the collection of the Hawaii State Public Library System has transitioned from a paper-based collection to one that includes library materials in a variety of different and new formats to keep up with new technology and in response to the requests of library patrons statewide. This measure provides an opportunity for the public to increase their support to the Hawaii State Public Library System by making a contribution toward the purchase of additional library materials.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2354, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2354, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Dela Cruz, Kahele).

SCRep. 2944 Economic Development, Tourism, and Technology on H.B. No. 2556

The purpose and intent of this measure is to support the successes of the science and technology industries in Hawaii by:

- (1) Establishing the research and development program to help Hawaii-based small businesses collaborate with commercial partners;
- (2) Establishing the research and development special fund; and
- (3) Appropriating funds for the research and development program.

Your Committee received testimony in support of this measure from the Hawaii Technology Development Corporation; Oceanit Laboratories, Inc.; Chamber of Commerce Hawaii; Makai Ocean Engineering, Inc.; Oahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i; Navatek; and five individuals.

Your Committee finds the Hawaii Technology Development Corporation has a vision to create 80,000 new innovation jobs in Hawaii, all earning \$80,000 or more, by 2030. Your Committee believes that this measure will support innovation in Hawaii and encourage innovative ideas from the local community. Innovation achieved through research and development has helped to expand economic growth in Hawaii. Your Committee further finds that supporting the research and development sector in Hawaii will not only further economic growth, but will bring in a wide range of highly skilled, high-paying jobs targeted to the younger generation, in hopes of keeping them in Hawaii and expanding the economy even further.

Your Committee has amended this measure by:

- (1) Replacing the defined term "small business" with "Hawaii-based small business" and amending the definition to add requirements that a small business must meet in order to be considered a "Hawaii-based small business";
- (2) Adding a definition for "resident" to have the same meaning as in section 235-1, Hawaii Revised Statutes; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Economic Development, Tourism, and Technology that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2556, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2556, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Baker, Galuteria).

SCRep. 2945 Agriculture and Environment on H.B. No. 2105

The purpose and intent of this measure is to appropriate funds to the Department of Agriculture for the establishment and administration of the agriculture grant program to support local food production in the State.

Your Committee received testimony in support of this measure from the Department of Agriculture; Hawai'i Farm Bureau; Ulupono Initiative; Hawaii Crop Improvement Association; Land Use Research Foundation; Hawaii Farmers Union United Kona Chapter; Maui Farmers Union United; Hawaii Tropical Fruit Growers; Maui County Farm Bureau; Kulahaven Farms LLC; Hawaii Farmers Union United; Hawaii Cattlemen's Council, Inc.; Ka Ohana O Na Pua; O'ahu County Legislative Priorities Committee of the Democratic Party of Hawai'i; and one hundred one individuals. Your Committee received comments on this measure from the Department of the Attorney General.

Your Committee finds that the State's goal of doubling local food production by 2020 necessitates that the Department of Agriculture develop and support loss mitigation and efficiency improvement in the State's agriculture industry. Your Committee further finds that doubling local food production is vital for the State's future well-being and that it is essential to provide the Department of Agriculture with sufficient resources to achieve this goal.

Your Committee has amended this measure by:

- (1) Designating that the appropriation is for the Department of Agriculture to support local food production projects, rather than for the establishment and administration of the agriculture grant program;
- (2) Inserting an appropriation amount of \$1,500,000;
- (3) Changing the effective date to July 1, 2018; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2105, H.D. 1, as amended herein, and recommends that it

pass Second Reading in the form attached hereto as H.B. No. 2105, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Rhoads).

SCRep. 2946 Agriculture and Environment on H.B. No. 1969

The purpose and intent of this measure is to require the Department of Agriculture, in coordination with the Office of Planning, to prepare and periodically update a functional plan for seafood sustainability that expands the State's priority on food by including wild seafood as a viable food source.

Your Committee received testimony in support of this measure from the Hawaii Fishermen's Alliance for Conservation and Tradition, Inc.; O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i; and three individuals. Your Committee received comments on this measure from the Department of Agriculture, Office of Planning, and Department of Land and Natural Resources.

Your Committee finds that increased local food production is a top priority of the State to achieve the state goal of sustainability. As an island state, wild seafood is a staple of the diets of residents and visitors and therefore should be considered in food sustainability plans. Your Committee supports all efforts that encourage increased local food production in the State.

Your Committee has amended this measure by:

- (1) Replacing references to a "functional plan for seafood sustainability" with a "seafood management study";
- (2) Directing the Department of Agriculture to coordinate with the Department of Land and Natural Resources, in addition to the Office of Planning;
- (3) Inserting a blank appropriation amount for fiscal year 2018-2019 for the Department of Agriculture, in coordination with the Office of Planning and Department of Land and Natural Resources, to prepare and periodically update the seafood management study;
- (4) Inserting an effective date of July 1, 2018; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1969, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1969, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Rhoads).

SCRep. 2947 Agriculture and Environment on H.B. No. 2046

The purpose and intent of this measure is to appropriate funds for outreach and education efforts in West Hawaii County regarding the detection and treatment of little fire ants.

Your Committee received testimony in support of this measure from the Department of Agriculture; Department of Land and Natural Resources; Office of the Mayor of the County of Hawaii; one member of the Hawaii County Council; Hawai'i Farm Bureau; Coordinating Group on Alien Pest Species; Big Island Invasive Species Committee; Hawaii Cattlemen's Council, Inc.; Ka Ohana O Na Pua; Mauna Mama Kona Coffee; Little Fire Ant Hui; O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i; The Vanillerie; and thirty-one individuals.

Your Committee finds that the little fire ant, *Wasmannia auropunctata*, threatens native biodiversity, alters tropical ecosystems, impairs human health, impedes tourism, diminishes agricultural productivity, mars horticulture sales, and accordingly ranks among the world's worst invasive species. Within the State, the County of Hawaii has been affected most by the little fire ant. Your Committee therefore supports all efforts to mitigate and eradicate the little fire ant throughout the County of Hawaii.

Your Committee has amended this measure by:

- (1) Reinserting an appropriation amount of \$50,000 for outreach and education efforts in West Hawaii County regarding detection and treatment of little fire ants;
- (2) Inserting an appropriation of \$750,000 to the Hawaii Ant Lab of the Pacific Cooperative Studies Unit of the University of Hawaii at Hilo to support mitigation of the little fire ant; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2046, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2046, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Rhoads).

SCRep. 2948 Agriculture and Environment on H.B. No. 1884

The purpose and intent of this measure is to clarify that:

- (1) "Subsistence farming" is included as a protected activity under the Hawaii Right to Farm Act; and
- (2) The cultivation of crops and activities related to game, fish, and livestock on agricultural lands may be for economic or personal use.

Your Committee received testimony in support of this measure from Ho‘omanapono Political Action Committee and O‘ahu County Committee on Legislative Priorities of the Democratic Party of Hawai‘i. Your Committee received testimony in opposition to this measure from the Office of Planning, Land Use Commission, Office of the Mayor of the County of Hawaii, Hawai‘i Farm Bureau, and Land Use Research Foundation. Your Committee received comments on this measure from the Department of Agriculture.

Your Committee finds that subsistence farming is relied upon by many residents and should be protected. However, your Committee finds that equating subsistence farming with commercial agriculture under the Hawaii Right to Farm Act may lead to numerous zoning and land-use disagreements and disruptions to county administration, which may ultimately cause more harm than good for the agriculture community, including subsistence farmers. Your Committee believes that assuring the right to subsistence farming under the Hawaii State Planning Act preserves the spirit of this measure while avoiding potentially detrimental unintended consequences.

Accordingly, your Committee has amended this measure by:

- (1) Deleting its contents and inserting language that amends the Hawaii State Planning Act to include assurance of the right of Hawaii residents to engage in subsistence farming for direct personal or family consumption under the State’s objectives and policies for the economy—agriculture;
- (2) Making it effective upon its approval; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1884, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1884, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2949 Agriculture and Environment on H.B. No. 1934

The purpose and intent of this measure is to prohibit the Department of Health from approving the construction of sewage wastewater injection wells, with limited exceptions.

Your Committee received testimony in support of this measure from the Department of Health, Office of Hawaiian Affairs, O‘ahu County Committee on Legislative Priorities of the Democratic Party of Hawai‘i, and one individual. Your Committee received testimony in opposition to this measure from the City and County of Honolulu Department of Environmental Services and one individual.

Your Committee finds that according to the Environmental Protection Agency’s 2016 Underground Injection Well Inventory, Hawaii has over 6,600 injection wells, which place fluid underground into porous geologic formations as a means of storing carbon dioxide and disposing of waste, among other uses. Your Committee further finds that sewage wastewater injection wells can be hazardous to the environment and pose a risk to the health and safety of the public; therefore, your Committee believes that construction of sewage wastewater injection wells should be prohibited in the State, to the extent that such a ban is practicable.

Your Committee has amended this measure by:

- (1) Allowing an applicant to construct a sewage wastewater injection well if the applicant demonstrates that the applicant will endure undue hardship if the well is not constructed;
- (2) Directing the Department of Health to adopt administrative rules pursuant to Chapter 91, Hawaii Revised Statutes;
- (3) Changing the effective date to upon its approval; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1934, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1934, H.D. 1, S.D. 1, and be referred to your Committee on Commerce, Consumer Protection, and Health.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2950 Agriculture and Environment on H.B. No. 2306

The purpose and intent of this measure is to provide that the amount appropriated in Act 183, Session Laws of Hawaii 2017, shall be deposited into the food safety certification costs grant program special fund and that the same amount shall be appropriated out of the special fund for fiscal year 2018-2019.

Your Committee received testimony in support of this measure from the Department of Agriculture, Ulupono Initiative, Hawai'i Farm Bureau, and O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i. Your Committee received testimony in opposition to this measure from one individual.

Your Committee finds that Act 183, Session Laws of Hawaii 2017, created a food safety certification costs grant program and the food safety certification costs grant program special fund, consisting of legislative appropriations. Act 183 appropriated \$500,000 for fiscal year 2017-2018, but it did not specify that these monies were to be deposited into the special fund, nor did it appropriate the monies out of the special fund. Your Committee finds that this measure corrects that oversight by appropriating \$500,000 into and out of the food safety certification costs grant program special fund for fiscal year 2018-2019.

Your Committee has amended this measure by:

- (1) Reinserting an appropriation amount of \$500,000 out of the food safety certification costs grant program special fund;
- (2) Changing the effective date to June 29, 2018; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2306, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2306, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2951 Agriculture and Environment on H.B. No. 2426

The purpose and intent of this measure is to authorize the Director of Finance to issue general obligation bonds and appropriate funds for the acquisition of certain farm lands in West Kauai by the Agribusiness Development Corporation.

Your Committee received testimony in support of this measure from the Department of Agriculture; Agribusiness Development Corporation; Hawai'i Farm Bureau; Hawaii Cattlemen's Council, Inc.; and O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i.

Your Committee finds that the Agribusiness Development Corporation is tasked with the priority of transitioning Hawaii's agriculture industry from an industry dominated by sugar and pineapple to one based on a greater diversity of crops. Due to the rapid downsizing and closure of agricultural companies in the State, there are large tracts of land currently available for agricultural economic growth. This measure provides a means by which the Agribusiness Development Corporation can acquire certain large tracts of former agricultural land located in Hawaii for agricultural development.

Your Committee has amended this measure by:

- (1) Reinserting an authorized general obligation bond and appropriation amount of \$6,000,000; and
- (2) Changing the effective date to July 1, 2018.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2426, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2426, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2952 Agriculture and Environment on H.B. No. 1971

The purpose and intent of this measure is to authorize the issuance of special purpose revenue bonds to assist Kunoa Cattle Company, LLC, to fund the construction of a multi-species livestock farm, expansion of the slaughter and processing infrastructure, development of distribution assets and agritourism services, and expansion of renewable energy assets.

Your Committee received testimony in support of this measure from the Department of Agriculture; Kunoa Cattle Company, LLC; Ulupono Initiative; Hawai'i Farm Bureau; Hawaii Cattlemen's Council, Inc.; O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i; and one individual. Your Committee received testimony in opposition to this measure from Keiko Conservation, Animal Rights Hawai'i, and three individuals. Your Committee received comments on this measure from the Department of Budget and Finance.

Your Committee finds that Kunoa Cattle Company, LLC, seeks to construct a multi-species livestock farm, expand its slaughter and processing infrastructure, develop its distribution assets and agritourism services, and expand its renewable energy assets, all of which will support local ranchers and farmers who raise livestock and encourage food sustainability.

Your Committee has amended this measure by indicating that Kunoa Cattle Company, LLC, is a Delaware corporation.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1971, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1971, H.D. 2, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 2953 Agriculture and Environment on H.B. No. 1976

The purpose and intent of this measure is to provide additional funding for improvements to the Waiahole irrigation system.

Your Committee received testimony in support of this measure from the Department of Agriculture; Agribusiness Development Corporation; Land Use Research Foundation of Hawaii; Local Food Coalition; Hawai'i Farm Bureau; Hawaii Crop Improvement Association; Maui County Farm Bureau; Larry Jefts Farms, LLC; Monsanto; Hawaii Cattlemen's Council, Inc.; O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i; and two individuals. Your Committee received testimony in opposition to the measure from one individual.

Your Committee finds that a reliable irrigation system is the lifeline of Hawaii's agricultural industry. To ensure that Hawaii's crops receive a steady and dependable supply of water, sufficient funding is needed to maintain and improve Hawaii's irrigation systems. Your Committee further finds that the Waiahole irrigation system was constructed in 1915 to irrigate thousands of acres of sugarcane. The system collects groundwater from the windward side of Oahu and transports the water via tunnels to the leeward side of Oahu, where it is conveyed through ditches and siphons by gravity flow to supply vital irrigation water to lands between Waipio and Kunia; however, the system is currently in need of efficiency improvements.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1976, H.D. 1, and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 2954 Public Safety, Intergovernmental, and Military Affairs on S.C.R. No. 21

The purpose and intent of this measure is to:

- (1) Engage, endorse, accept, and adopt the United Nations seventeen sustainable development goals as components of a framework for addressing and assessing Hawaii's efforts toward social justice and sustainability; and
- (2) Urge the county councils to endorse and use the United Nations seventeen sustainable development goals as measurements for each county's efforts regarding people, peace, and the planet.

Your Committee received testimony in support of this measure from the Oahu County Committee on Legislative Priorities of the Democratic Party of Hawaii, Hawaii Institute for Human Rights, and one individual.

Your Committee finds that in September 2015, the United Nations General Assembly adopted the historic 2030 Development Agenda, *Transforming our world: the 2030 Agenda for Sustainable Development*, a comprehensive, creative, and courageous plan of action to end poverty, protect the planet, and ensure that all people enjoy peace and prosperity, that includes seventeen sustainable development goals and one hundred sixty-nine associated targets. The seventeen sustainable development goals are a set of universal goals produced to meet the most urgent environmental, political, and economic challenges of the world and build upon and replace the millennium development goals that started a global effort in 2000 to tackle the indignity of poverty.

Your Committee further finds that a priority of the Senate for the Regular Session of 2018 is to adopt the United Nations' sustainable development goals at the state level and urges the county councils to similarly endorse and use the sustainable development goals at the county level.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 21 and recommends that it be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Ihara).

SCRep. 2955 Public Safety, Intergovernmental, and Military Affairs on S.R. No. 11

The purpose and intent of this measure is to:

- (1) Engage, endorse, accept, and adopt the United Nations seventeen sustainable development goals as components of a framework for addressing and assessing Hawaii's efforts toward social justice and sustainability; and
- (2) Urge the county councils to endorse and use the United Nations seventeen sustainable development goals as measurements for each county's efforts regarding people, peace, and the planet.

Your Committee received testimony in support of this measure from the Oahu County Committee on Legislative Priorities of the Democratic Party of Hawaii, Hawaii Institute for Human Rights, and one individual.

Your Committee finds that in September 2015, the United Nations General Assembly adopted the historic 2030 Development Agenda, *Transforming our world: the 2030 Agenda for Sustainable Development*, a comprehensive, creative, and courageous plan of action to end poverty, protect the planet, and ensure that all people enjoy peace and prosperity, that includes seventeen sustainable development goals and one hundred sixty-nine associated targets. The seventeen sustainable development goals are a set of universal goals produced to meet the most urgent environmental, political, and economic challenges of the world and build upon and replace the millennium development goals that started a global effort in 2000 to tackle the indignity of poverty.

Your Committee further finds that a priority of the Senate for the Regular Session of 2018 is to adopt the United Nations' sustainable development goals at the state level and urges the county councils to similarly endorse and use the sustainable development goals at the county level.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 11 and recommends that it be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Ihara).

SCRep. 2956 Economic Development, Tourism, and Technology on H.B. No. 2558

The purpose and intent of this measure is to appropriate funds to the Department of Business, Economic Development, and Tourism for the Creative Lab Hawaii program to:

- (1) Expand its programs and services to three neighbor islands;
- (2) Develop high school programs in partnership with the Department of Education; and
- (3) Establish an unspecified number of full-time equivalent Creative Lab Hawaii Project Coordinator positions.

Your Committee received testimony in support of this measure from the Department of Business, Economic Development, and Tourism; Hawaii Technology Development Corporation; Oahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i; Creative Lab Hawaii; Marc Delorme Productions, LLC; Palm Records, Inc.; and fifteen individuals.

Your Committee finds that Hawaii's creative arts economy, which includes film, performing and visual arts, music, fashion, literary arts and more, contributes to the diversification of Hawaii's economy to include innovation- and knowledge-based industries. Your Committee further finds that the Creative Lab Hawaii, a state collaborative creative industry development accelerator program, works to deliver strategic mentoring for the creative arts, which has resulted in seven projects in active development for television, motion pictures, and web series, and licensed eleven songs to various television series, studios, and commercials nationally.

Your Committee finds that programs such as Creative Lab Hawaii will help to bring in more money to the State. The revenues from the existing projects of Creative Lab Hawaii are anticipated to generate \$4,000,000 over the lifetime of the content and songs. Creative Lab Hawaii has produced forty-five programs that have reached one thousand five hundred entrepreneurs that are focused on investing in the media, music, and fashion design sectors. Your Committee recognizes the potential of these sectors to push Hawaii forward in the field of creative arts.

Your Committee has amended this measure by:

- (1) Updating language in the preamble to accurately reflect the accomplishments of Creative Lab Hawaii; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Economic Development, Tourism, and Technology that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2558, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2558, H.D. 2, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Baker, Galuteria).

SCRep. 2957 Economic Development, Tourism, and Technology on H.B. No. 2084

The purpose and intent of this measure is to:

- (1) Require the Hawaii Technology Development Corporation to report to the Legislature, no later than twenty days prior to the convening of each session, on the impact of the program on providing outreach and mentorship assistance to innovative small businesses on neighbor islands;
- (2) Appropriate funds for the continuance of the Neighbor Island Innovation Initiative (NI3) Program; and
- (3) Authorize and appropriate funds for activities related to the development of a Hawaii cyber ecosystem to protect Hawaii from cyber threats and other related aspects of cybersecurity.

Your Committee received testimony in support of this measure from the Hawaii Technology Development Corporation; Department of Research and Development, County of Hawaii; TeleVoice 2000; Carbon Buddy, LLC; Oahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i; DewPoint System, LLC; USD Mint, Inc.; Kona-Kohala Chamber of Commerce; and two individuals.

Your Committee finds the Hawaii Technology Development Corporation created the NI3 program in 2016. The NI3 program provides assistance to small businesses that are engaged in technology, manufacturing, or innovation based products or services on neighbor islands. Your Committee further finds that the NI3 program is beneficial for neighbor islands because it removes time, distance, and money as barriers for entrepreneurs, which are often the largest obstacles for businesses based in Hawaii. The NI3 program allows businesses from neighbor islands to utilize the resources and expertise of the Hawaii Technology Development Corporation at their convenience and without extra cost.

Your Committee received testimony stating that due to budget constraints, the Hawaii Technology Development Corporation only began the NI3 program with one mentor on Kauai and one mentor on the island of Hawaii. Your Committee believes that this

opportunity should be available for all businesses throughout the State. Your Committee notes that currently, the Hawaii Technology Development Corporation does not have proper funding to maintain the NI3 program beyond this year and will have to end this beneficial program unless sufficient funding is provided. Your Committee believes that this program will help small businesses flourish in a highly competitive market, ultimately contributing to the economy of Hawaii.

Your Committee has amended this measure by:

- (1) Deleting part II which would have authorized and appropriated funds for activities related to the development of a Hawaii cyber ecosystem to protect Hawaii from cyber threats and other related aspects of cybersecurity; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Economic Development, Tourism, and Technology that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2084, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2084, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Baker, Galuteria).

SCRep. 2958 Public Safety, Intergovernmental, and Military Affairs on H.B. No. 1653

The purpose and intent of this measure is to abolish the revolving funds for correctional facility stores account of the Department of Public Safety and transfer the unencumbered balance to the administrator/inmate activity account trust account.

Your Committee received testimony in support of this measure from the Department of Public Safety. Your Committee received comments on this measure from the Tax Foundation of Hawaii.

Your Committee finds that the revolving funds for correctional facility stores account are no longer needed. As noted in testimony by the Department of Public Safety, the store operations at the Halawa Correctional Facility, Waiawa Correctional Facility, and Oahu Community Correctional Facility are all now maintained by the Department of Public Safety. Therefore, your Committee finds that the revolving funds for correctional facility stores account should be abolished and any remaining unencumbered balances should be transferred to the administrator/inmate activity account trust account.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1653, H.D. 2, and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2959 Public Safety, Intergovernmental, and Military Affairs on H.B. No. 1944

The purpose and intent of this measure is to:

- (1) Establish a Filipino-American Veterans of World War II Burial Assistance Program within the Office of Veterans Services to provide burial grants to cover the funeral and burial costs of Filipino-American veterans of World War II, including the cost of returning these veterans' remains to the Philippines for burial; and
- (2) Appropriate funds to cover the operating expenses of the Filipino-American Veterans of World War II Burial Assistance Program and for the costs of providing the burial grants.

Your Committee received testimony in support of this measure from the Office of Veterans Services, Hawai'i Civil Rights Commission, and Oahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i. Your Committee received comments on this measure from the Department of Budget and Finance.

Your Committee finds that honoring the final wishes of World War II Filipino-American veterans is necessary for demonstrating the proper respect for the sacrifices that those veterans made in protecting the nation. Many World War II Filipino-American veterans have been separated from their families, who have remained in the Philippines, for a long time, and your Committee finds it regrettable that these veterans have not been able to reunite with their families. Assisting World War II Filipino-American veterans still living in the State with any prospective funeral and burial costs, including the costs of returning their remains to the Philippines if they so desire, would demonstrate the State's appreciation and respect for their service.

However, your Committee notes the concern raised in testimony from the Department of Budget and Finance relating to the requirements for the creation of special funds under section 37-52.3, Hawaii Revised Statutes. The Department's testimony indicates that the special fund created through this measure may not meet necessary statutory requirements. Therefore, your Committee suggests that if your Committee on Ways and Means decides to hear this measure, that your Committee on Ways and Means investigate this issue further.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1944, H.D. 1, and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2960 Public Safety, Intergovernmental, and Military Affairs on H.B. No. 2181

The purpose and intent of this measure is to establish December 7 of each year as Pearl Harbor Remembrance Day in Hawai'i.

Your Committee received testimony in support of this measure from the Office of Veterans Services, Oahu County Committee on Legislative Priorities of the Democratic Party of Hawaii, and one individual.

Your Committee finds that the attack on Pearl Harbor, Hawaii, on December 7, 1941, is one of the most significant events in the State's history. As such, your Committee finds that it is important to recognize and honor the 2,403 service members and civilians who were killed during the attack. Therefore, your Committee finds that December 7 of each year should be established as Pearl Harbor Remembrance Day in Hawaii and that on that day citizens should contemplate the sacrifices of those lost during the attack, flags should fly at half-mast, and students should engage in appropriately designed activities and lessons.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2181, H.D. 1, and recommends that it pass Second Reading and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2961 Public Safety, Intergovernmental, and Military Affairs on H.B. No. 2393

The purpose and intent of this measure is to make an emergency appropriation to continue the temporary housing of inmates at a non-state facility for an additional six months while repairs and improvements are being made to the Halawa Correctional Facility.

Your Committee received testimony in support of this measure from the Department of Public Safety, Ho'omanapono Political Action Committee, and Oahu County Committee on Legislative Priorities of the Democratic Party of Hawaii. Your Committee received testimony in opposition to this measure from the Community Alliance on Prisons.

Your Committee finds that ensuring the proper functioning of the State's correctional facilities is essential for maintaining public safety. The Halawa Correctional Facility is currently undergoing needed repairs and improvements to security electronics and hardware. In 2017, the Legislature allocated funds to the Department of Public Safety for temporary non-state housing for two hundred forty-eight inmates while the upgrades were being completed. The improvement project was scheduled to be completed in December 2017, but due to complications related to the specialty subcontractor's work and the time needed to hire a new vendor, the anticipated completion date for the project has been pushed back to October 2018. Consequently, funds will be needed to continue the temporary housing of the two hundred forty-eight inmates at a non-state facility for another six months to enable the project to move forward to completion. Accordingly, this measure makes an emergency appropriation to provide funds for the Department of Public Safety to pay for the necessary, temporary housing of the Halawa Correctional Facility inmates.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2393, H.D. 1, and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2962 Public Safety, Intergovernmental, and Military Affairs on H.B. No. 2631

The purpose and intent of this measure is to enhance the Electronic Prescription Accountability System, also known as the Hawaii Prescription Drug Monitoring Program or PDMP, to inform practitioners of the percentile ranking of their opiate prescription practices in relation to their peers by requiring the Narcotics Enforcement Division of the Department of Public Safety to:

- (1) Annually determine, through the PDMP, the mean and median quantity and volume of prescriptions for opiates that are Schedule II and III controlled substances within categories of practitioners of a similar specialty or practice type;
- (2) Work in conjunction with the respective licensure boards to annually determine each practitioner's Schedule II and III opiate prescribing quantity and volume and standing in relation to others within the same specialty or practice type and notify practitioners who exceed the relevant mean and median; and
- (3) Coordinate with the respective licensure boards to make resources available to practitioners regarding ways to change prescribing practices and incorporate alternative pain management options into practices.

Your Committee received comments on this measure from the Department of Public Safety.

Your Committee finds that opioid addiction and abuse are a growing problem that threatens the health and well-being of the public. Opioid addiction and abuse can have serious consequences, including death, and should therefore be confronted employing every available tool at the State's disposal. Your Committee finds that one way to combat the growing opioid crisis is to increase practitioner's awareness of their rates of opioid prescribing within the PDMP. Informing practitioners of their opioid prescription habits and how those habits compare to those of their peers will provide practitioners with insights into their own practices and help practitioners ensure that they are making the best possible choices for patients.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 2021; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2631, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2631, H.D. 1, S.D. 1, and be referred to your Committee on Commerce, Consumer Protection, and Health.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Ihara).

SCRep. 2963 Public Safety, Intergovernmental, and Military Affairs on H.B. No. 2697

The purpose and intent of this measure is to require and appropriate funds for the Office of Veterans Services to organize, coordinate, and conduct a biennial State of Hawaii Veterans Summit.

Your Committee received testimony in support of this measure from the Office of Veterans Services and Oahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i.

Your Committee finds that it is essential to properly honor and care for the State's many veterans. Your Committee further finds that to ensure that the State's veterans are being treated appropriately, it is necessary to periodically bring together those involved with providing services, assistance, and benefits to veterans to discuss and collaborate on issues affecting veterans and their families and dependents. Accordingly, your Committee finds that the Office of Veterans Services should organize, coordinate, and conduct a biennial State of Hawaii Veterans Summit to bring together any department or division of the federal or state governments, veterans' organizations, or any other agency in the community whose function it is, by law or otherwise, to provide services, assistance, or benefits to veterans and their families and dependents to discuss all pertinent issues and information regarding assistance for veterans and their families and dependents.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2697, H.D. 2, and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 2964 Public Safety, Intergovernmental, and Military Affairs on H.B. No. 2693

The purpose and intent of this measure is to:

- (1) Prohibit the denial of emergency shelter by places of public accommodation when an emergency alert advises the public to immediately seek shelter;
- (2) Establish that places of public accommodation and their agents and employees are protected from liability when providing emergency shelter when an emergency alert advises the public to immediately seek shelter; and
- (3) Clarify that for certain facilities providing emergency access to land, shelter, and subsistence during a disaster, certain compensation or consideration received by those facilities, or paid for commodities while the facilities provide emergency access to land, shelter, and subsistence during a disaster, shall not disqualify those properties from civil liability protections.

Your Committee received testimony in support of this measure from the Hawaii Emergency Management Agency, Oahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, and Retail Merchants of Hawaii. Your Committee received comments on this measure from the Hawaii Association for Justice and the Maui Chamber of Commerce.

Your Committee finds that ensuring that citizens have access to adequate land, shelter, and subsistence during a disaster is essential to public safety and welfare. This measure prohibits places of public accommodation from denying shelter to those who are in or in the immediate vicinity of a public accommodation that may provide shelter and amends existing law to adequately provide liability protections for places of public accommodation and their agents and employees when providing emergency shelter.

Moreover, your Committee finds that given the finite amount of available public resources, there is also a need to encourage owners of private property to assist in times of emergencies or disasters by providing emergency shelter to the public. However, in many cases, owners of private property are reluctant to make their property or facilities available to the general public for use as emergency shelter due to concerns about liability. Under existing law, it is unclear whether a property owner who provides shelter during a disaster is exempt from civil liability if the persons being sheltered are paying guests, tenants, or buyers of commodities sold by the property owner. Accordingly, this measure clarifies this ambiguity to ensure that the receipt of certain types of compensation received by an owner of private property who in good faith provides access to the property to members of the public during a disaster or emergency does not disqualify the property owner from civil liability for resulting injuries or damage.

Your Committee has amended this measure by:

- (1) Deleting the exceptions to the definition of remuneration; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2693, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2693, H.D. 2, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 2965 Agriculture and Environment on H.B. No. 2538

The purpose and intent of this measure is to authorize the issuance of general obligation bonds and appropriate funds for the planning, designing, and constructing of a livestock feed mill.

Your Committee received testimony in support of this measure from the Department of Agriculture; Agribusiness Development Corporation; Office of the Mayor of the County of Hawai'i; Ulupono Initiative; Hawai'i Farm Bureau; O'ahu County Committee on

Legislative Priorities of the Democratic Party of Hawai'i; and Hawaii Cattlemen's Council, Inc. Your Committee received testimony in opposition to this measure from Animal Rights Hawai'i, Keiko Conservation, two individuals.

Your Committee finds that livestock feed costs for feed shipped to Hawaii often exceed sixty percent of overall livestock production costs in Hawaii. The Agribusiness Development Corporation seeks to broaden its waste-reduction and recycling projects by partnering with a viable and qualified entity to establish a livestock feed mill operation using waste materials, such as unusable macadamia nut fruit and shells, and converting the unusable parts and byproducts into aquaculture and livestock feed. Your Committee further finds that the Agribusiness Development Corporation will assist with the development of the plans and design of the operation, and will purchase the equipment to convert and process the waste materials, while the project partners will be responsible for providing adequate warehouse space to house the equipment and the labor for the manufacture and sale of the resulting product.

Your Committee has amended this measure by:

- (1) Inserting an authorized general obligation bond and appropriation amount of \$4,000,000; and
- (2) Changing the effective date to July 1, 2018.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2538, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2538, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2966 Agriculture and Environment on H.B. No. 2462

The purpose and intent of this measure is to establish a statewide general excise tax exemption for the gross proceeds arising from the sale of farm equipment and machinery to certain producers of agricultural products.

Your Committee received testimony in support of this measure from the Department of Agriculture; Larry Jefts Farms, LLC; Land Use Research Foundation; Hawaii Crop Improvement Association; Hawai'i Farm Bureau; Maui County Farm Bureau; Hawaii Cattlemen's Council, Inc.; O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i; and Ho'omanapono Political Action Committee. Your Committee received comments on this measure from the Department of Taxation and Tax Foundation of Hawaii.

Your Committee finds that farm equipment and machinery are costly to the average farmer, who typically earns an average of only \$35,000 annually. This measure seeks to provide some financial relief to Hawaii's farmers.

Your Committee has amended this measure by:

- (1) Clarifying that the maximum gross income that a producer may earn to be eligible for the exemption shall be evidenced by the producer's income tax return for the previous taxable year;
- (2) Clarifying that items intended for sale in the ordinary course of business, which are excluded from the definition of "farm equipment and machinery", are items purchased for the purpose of resale;
- (3) Deleting language that would have allowed the Director of Taxation to adopt administrative rules setting a time limitation for the exemptions;
- (4) Changing the effective date to July 1, 2018; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2462, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2462, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5; Ayes with Reservations (Rhoads). Noes, none. Excused, none.

SCRep. 2967 Commerce, Consumer Protection, and Health on H.B. No. 2739

The purpose and intent of this measure is to:

- (1) Establish a regulated process for an adult resident of the State who is diagnosed with a medically confirmed terminal disease that will result in the adult resident becoming deceased in less than six months to obtain a prescription for medication to end the patient's life; and
- (2) Impose criminal sanctions for tampering with a patient's request for a prescription or coercing a patient to request a prescription.

Your Committee received testimony in support of this measure from the Office of the Governor; Office of the Lieutenant Governor; Department of the Attorney General; Department of Health; Hawai'i Psychological Association; International Longshore and Warehouse Union, Local 142; Hawaii State AFL-CIO; Americans for Democratic Action - Hawai'i; Hawaii Citizens for End of Life Choices; Planned Parenthood Votes Northwest and Hawaii; Hawai'i State Democratic Women's Caucus; Oahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i; LGBT Caucus of the Democratic Party of Hawai'i; Rainbow Family 808; Filipina Advocacy Network; IMUAlliance; Kupuna Caucus of the Democratic Party of Hawai'i; Hawai'i Advocates for Consumer

Rights; Hawai'i Death with Dignity Society; Hawai'i Friends of Civil Rights; Compassion and Choices – Hawai'i; Ho'omanana Pono, LLC; Hawaii Martin Luther King, Jr. Coalition; Compassion and Choices; Ho'omanapono Political Action Committee; American Civil Liberties Union of Hawai'i; over one hundred thirty individuals; and a petition with over one thousand signatures. Your Committee received testimony in opposition to this measure from the St. Francis Healthcare System of Hawaii; Hau'oli Home Care, LLC; Honolulu County Republican Party; Hawaii Federation of Republican Women; Hawaii Family Forum; Hawaii Catholic Conference; Coptic Orthodox Church – The Hawaiian Mission; Mauka Makai Ministries - Windward; Concerned Women for America; Christian Counseling and Research Centers of America; Hawaii's Partnership for Appropriate and Compassionate Care; American Nurses Association; Not Dead Yet; Association of Programs for Rural Independent Living; Disability Rights Education & Defense Fund; National Council on Independent Living; American Association of People with Disabilities; over one hundred forty individuals; and form letters from over sixty individuals. Your Committee received comments on this measure from The Queen's Health Systems and two individuals.

Your Committee finds that medical aid in dying is a medical practice in which a mentally capable, terminally ill adult with less than six months to live may request a prescription for a medication that the terminally ill adult can self-administer to achieve death. According to testimony received by your Committee, up to fifty-one percent of patients experience pain at the end of life. The prevalence of pain has been noted to increase significantly in the last four months of life, with breakthrough pain – severe pain that erupts while a patient is already medicated with a long-acting painkiller – remaining a challenge for many patients. Furthermore, while hospice and palliative care are widely available and may be an excellent option for some, care provided through these methods is still within the control of a health care provider, not a terminally ill patient who may wish for the freedom to make the patient's own end-of-life decisions.

Your Committee further finds that numerous polls from a variety of national and state sources demonstrate that the American public is in favor of this end-of-life care option, with this majority support encompassing a variety of demographic groups, including ethnicity, education level, and religion. According to testimony received by your Committee, a 2016 poll found that eighty percent of registered Hawaii voters support medical aid in dying.

Your Committee notes that this measure is based on Oregon's groundbreaking Death with Dignity Act, which has been in effect for over twenty years and was enacted during a time when no other state authorized the medical practice of aid in dying. Since that time, California, Colorado, Vermont, Washington, and the District of Columbia have evaluated Oregon's experience and have enacted similar legislation. Your Committee additionally finds that medical aid in dying is a safe and trusted practice. In the states and territory that have authorized the practice, there has not been a single documented instance of coercion or abuse. The laws in these other states and territory are working as intended. Furthermore, rather than posing a risk to patients or the medical profession, Oregon's Death with Dignity Act has galvanized significant improvements in the care of the state's terminally ill and dying. According to testimony received by your Committee, when Oregonian physicians were surveyed on their efforts to improve end-of-life care, since the enactment of Oregon's Death with Dignity Act, thirty percent of respondents increased referrals to hospice care, while seventy-six percent made efforts to improve their knowledge of pain management. Furthermore, hospice nurses and social workers surveyed in Oregon observed an increase in physician knowledge of palliative care and willingness to refer to hospice.

Your Committee also finds that the availability of the option of medical aid in dying gives a terminally ill individual autonomy, control, and choice. Your Committee notes that this choice is the overwhelming motivational factor behind the decision to request assistance in dying. A terminally ill individual who seeks medical aid in dying may ultimately not choose to exercise this option; however, the mere availability of such a choice can bring comfort to people in their final days.

Your Committee further finds that any medical aid in dying legislation must include proper safeguards that prevent abuse and coercion. In order for any medical aid in dying option to truly be a choice, it must not be the only option. Accordingly, this measure includes numerous, robust safeguards that protect against abuse and coercion and promote choice. This measure establishes strict eligibility criteria and guidelines that meet the highest standard of care for the medical practice of aid in dying, as described in clinical criteria published in the Journal of Palliative Medicine. Under this measure, to be eligible for aid-in-dying medication, adults must have a medically confirmed terminal disease that will, within reasonable medical judgment, result in death within six months, and be mentally capable of making their own health care decisions. Importantly, this measure clearly states that no person shall qualify for medical aid in dying solely based on age or disability.

This measure also has core safeguards that require the attending provider to inform terminally ill adults about other feasible alternatives or additional treatment options, including comfort care, hospice care, and pain control; require a second provider to confirm the terminal diagnosis, prognosis, and mental capability; require counseling to ensure the patient is capable and does not appear to be suffering from undertreatment or nontreatment of depression or other conditions that may interfere with the patient's ability to make an informed decision; and require the terminally ill adult to make two verbal and one written request, signed by two witnesses. In keeping with the overarching theme of choice, this measure clearly states that a qualified patient may rescind a request at any time and in any manner. Furthermore, providers may not write a prescription for medication under this measure without offering a qualified patient the opportunity to rescind a request.

Your Committee notes that this measure offers terminally ill patients a meaningful option as part of the State's already-robust continuum of palliative and hospice care. Your Committee also notes that according to testimony from the Department of the Attorney General, there is no serious constitutional impediment to this measure as it is currently drafted.

Finally, your Committee notes that this country's social institutions are based on the premises that its citizens are rational, independent, and free, possess autonomy, and are aware of their own self-interests. As all people deserve the respect to live their lives with dignity, your Committee does not believe it is appropriate to disregard this principle of individual liberty and self-determination when life approaches its inevitable end. Your Committee therefore concludes that a terminally ill person's end-of-life choices are deeply personal, private matters that should be left to the patient, the patient's family, and the patient's attending provider. Accordingly, this measure permits mentally capable, terminally ill adults in Hawaii to have the choice and autonomy to make informed decisions regarding their end-of-life care.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2739, H.D. 1, and recommends that it pass Second Reading and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 1 (Chang).

SCRep. 2968 Public Safety, Intergovernmental, and Military Affairs on H.B. No. 2133

The purpose and intent of this measure is to establish that citizen complaints against a police officer that involve allegations of domestic abuse by the police officer against a family or household member shall not be required to be filed as a notarized or sworn written statement.

Your Committee received testimony in support of this measure from the Hawaii State Commission on the Status of Women, Oahu County Committee on Legislative Priorities of the Democratic Party of Hawaii, Domestic Violence Action Center, Hawaii State Coalition Against Domestic Violence, Hawai'i State Democratic Women's Caucus, and one individual. Your Committee received comments on this measure from the Department of the Prosecuting Attorney for the City and County of Honolulu.

Your Committee finds that curtailing domestic violence is important for the health, safety, and welfare of citizens and that a vital part of reducing domestic violence is ensuring that those reporting acts of domestic violence feel secure and confident in coming forward with complaints. The potential for chilling the voices of those wishing to report acts of domestic violence is particularly high when those reports complain of acts of domestic violence perpetrated by a police officer against a family or household member. Accordingly, this measure allows an individual to make a complaint against a police officer alleging an act of domestic violence against a family or household member without being required to swear to or make the complaint in writing. Additionally, your Committee notes that the legislative intent is to apply this measure only to the civil administrative internal investigations within the police departments.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2133, H.D. 1, and recommends that it pass Second Reading and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2969 (Majority) Government Operations on H.B. No. 71

The purpose and intent of this measure is to prohibit a sitting Governor or county Mayor from maintaining outside employment or receiving emoluments, with certain, limited exceptions.

Your Committee received testimony in support of this measure from two individuals. Your Committee received comments on this measure from the Department of the Attorney General and Hawaii State Ethics Commission.

Your Committee finds that minimizing potential conflicts of interest of government officials is important for maintaining a strong trust relationship between government and the public. Your Committee further finds that when government officials maintain outside employment or receive certain benefits from outside sources while serving the public, the public's confidence in those officials' ability to put the public's interests first may be eroded. Therefore, your Committee finds that it is important to establish that a sitting Governor or county Mayor should be prohibited from maintaining outside employment or receiving emoluments, with certain, limited exceptions.

However, your Committee notes the various concerns raised regarding the breadth of this measure's prohibitions. Your Committee has some concerns about this measure's potential impact on small business owners who may serve in governmental leadership positions. Under the proposal it may be quite difficult for a small business owner to sell the owner's business particularly within the sixty-day time frame established by the proposal. Moreover, your Committee has questions about the potential impact that this measure might have on the ability of worthy and qualified individuals to seek certain governmental offices given the economic impact this measure might have on individuals. Your Committee suggests that if your Committee on Judiciary decides to hear this measure that your Committee on Judiciary investigate these issues further.

Accordingly, your Committee has amended this measure by inserting an effective date of January 1, 2050, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 71, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 71, H.D. 1, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, 1 (Ruderman). Excused, none.

SCRep. 2970 Government Operations on H.B. No. 2055

The purpose and intent of this measure is to appropriate funds to establish two full-time equivalent (2.00 FTE) construction procurement specialist positions to support the State Procurement Office.

Your Committee received testimony in support of this measure from the State Procurement Office.

Your Committee finds that the State Procurement Office lacks necessary construction procurement specialists to properly oversee construction procurement. Construction procurement is a unique type of procurement that has its own rules and must adhere to additional statutes on construction, design, licenses, and post-award construction requirements. Your Committee finds that the State Procurement Office is unable to appropriately oversee and manage construction procurement without access to qualified and

knowledgeable construction subject matter experts. Accordingly, your Committee finds that the State Procurement Office would benefit from the hiring of two full-time construction procurement specialists.

As affirmed by the record of votes of the members of your Committee on Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2055, H.D. 1, and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2971 Government Operations on H.B. No. 1709

The purpose and intent of this measure is to:

- (1) Authorize expending agencies of grants to delegate their expending authority to a different agency, subject to approval of the grant recipient and the Governor;
- (2) Require the Department of Budget and Finance to submit an annual report on the status of awarded and pending grants; and
- (3) Repeal the statutory requirement that the Governor notify grant recipients on the status of their grants if grant funds are not released within ninety days of their authorization.

Your Committee received comments on this measure from the Department of Budget and Finance.

Your Committee finds that grants to private entities and county government agencies are an important tool that help private entities and county government agencies provide benefits to the public. However, grant funds are not always expended effectively or efficiently by the designated expending agency. Your Committee finds that inefficient use of valuable and limited financial resources should be corrected so that the public receives the maximum benefit from allocated resources.

Your Committee has amended this measure by requiring that the Department of Budget and Finance submit the annual report required by this measure to the Legislature no later than twenty days prior to the start of each regular session, beginning with the 2019 Regular Session.

As affirmed by the record of votes of the members of your Committee on Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1709, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1709, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2972 Public Safety, Intergovernmental, and Military Affairs on H.B. No. 2389

The purpose and intent of this measure is to specify that funds furnished by the Hawaii Paroling Authority to persons discharged or paroled shall be subject to the availability of legislative appropriations authorized and allocated for that purpose.

Your Committee received testimony in support of this measure from the Hawaii Paroling Authority, Community Alliance on Prisons, Oahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, and Ho'omanapono Political Action Committee.

Your Committee finds that an efficient and effective parole system is essential to the proper functioning of the State's corrections system. The law provides that the Hawaii Paroling Authority, in its discretion, may upon discharge or parole of a committed person, provide the person with up to \$200 to meet the person's immediate needs. This measure clarifies that provision by ensuring the Paroling Authority shall only provide these funds if legislative appropriations for this specific purpose have been authorized and allocated to the Authority. Your Committee additionally finds that it is important to ensure that any funds appropriated to provide for the immediate needs of discharged or paroled persons be used only for that purpose.

Further, your Committee finds that the provision of funds alone is often insufficient to meet the immediate needs of a committed person being discharged or paroled and that appropriate resource referrals are equally important to ensuring a successful transition back into society.

Accordingly, your Committee has amended this measure by:

- (1) Requiring that committed persons be given appropriate resource referrals before being furnished with funds to meet the committed person's immediate needs by the Hawaii Paroling Authority at discharge or parole;
- (2) Prohibiting the Hawaii Paroling Authority from using funds appropriated for the purpose of providing for the immediate needs of discharged or paroled persons for any other purpose; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2389, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2389, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2973 Commerce, Consumer Protection, and Health on H.B. No. 2345

The purpose and intent of this measure is to clarify:

- (1) Certain terminology used within the Money Transmitters Act for purposes of consistency; and
- (2) The powers of the Commissioner of Financial Institutions relating to money transmitters.

Your Committee received testimony in support of this measure from the Department of Commerce and Consumer Affairs.

Your Committee finds that this measure clarifies the powers of the Commissioner of Financial Institutions and amends bond and other security device provisions for consistency with terms used in the Money Transmitters Act. This measure also enhances the Commissioner of Financial Institutions' ability to take appropriate action against violators of the State's money transmitters law, deter noncompliance, and protect consumers.

Your Committee has amended this measure by:

- (1) Changing its effective date to upon approval; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2345, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2345, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 1 (Tokuda).

SCRep. 2974 (Joint) Hawaiian Affairs and Labor and Public Safety, Intergovernmental, and Military Affairs on H.B. No. 1999

The purpose and intent of this measure is to require additional government officials in decision-making positions at the state and county levels to participate in a training course on native Hawaiian and Hawaiian rights.

Your Committees received testimony in support of this measure from the Department of Land and Natural Resources; Office of Hawaiian Affairs; Hawaiian Affairs Caucus of the Democratic Party of Hawaii; Oahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i; Kuakini Hawaiian Civic Club; Ho'omanapono Political Action Committee; Ka Lāhui Hawaii Political Action Committee; Ho'omana Pono, LLC; and three individuals. Your Committees received testimony in opposition to this measure from the Center for Hawaiian Sovereignty Studies. Your Committees received comments on this measure from one member of the Maui County Council.

Your Committees find that Act 169, Session Laws of Hawaii 2015, requires certain state and county officials to participate in a training course focused on native Hawaiian and Hawaiian rights. Your Committees further find that the training course has received positive reactions from those who have participated, and participants indicated that the training course gave them a better understanding of their responsibilities to the Hawaiian community. Given the positive reaction and the importance of the training course, your Committees believe that the scope of officials statutorily mandated to participate in the training course should be expanded in order to better inform public officials who affect the daily lives of native Hawaiians through their professional decisions.

Your Committees received testimony suggesting that the attendance by two or more county council members at the training course requires the Sunshine Law to also be considered or, as an alternative, requires that the training course be exempt from the Sunshine Law, because the training encompasses issues that are or may become board business. Your Committees note that the Office of Hawaiian Affairs stated in their oral testimony that upon an analysis done on S.B. No. 2134 (Regular Session of 2018), a bill with substantially similar content, the training course does comply with the Sunshine Law as it does not deal with "matters relating to official board business" and is only a training course.

Your Committees recognize the concern of the Office of Hawaiian Affairs that requiring judges to participate in the training course can potentially jeopardize a safe learning environment and will greatly increase the cost of the course, which the Office of Hawaiian Affairs voluntarily funds out of the Native Hawaiian Trust Fund. However, your Committees believe that judges play an important role in the lives of native Hawaiians and can benefit greatly from participating in the training course.

Your Committees find that providing training to judges falls under the intent of the training course and requests your Committee on Ways and Means to examine the possibility of providing general funds as a cost-sharing mechanism to supplement funding from the Native Hawaiian Trust Fund in order to make the training course available to judges.

Your Committees have amended this measure by:

- (1) Inserting an appropriation of an unspecified amount for the Office of Hawaiian Affairs to plan and implement the training course; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Hawaiian Affairs, Labor, and Public Safety, Intergovernmental, and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 1999, H.D. 2, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 1999, H.D. 2, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
Hawaiian Affairs: Ayes, 3. Noes, none. Excused, 2 (English, Green).

Labor: Ayes, 3. Noes, none. Excused, 2 (English, Ihara).
Public Safety, Intergovernmental, and Military Affairs: Ayes, 5. Noes, none. Excused, none.

SCRep. 2975 Economic Development, Tourism, and Technology on H.B. No. 2174

The purpose and intent of this measure is to:

- (1) Establish the high-growth grant program in the Department of Business, Economic Development, and Tourism to assist qualified businesses by providing grants for specific business development purposes;
- (2) Establish the high-growth grant program special fund; and
- (3) Appropriate funds to the high-growth grant program special fund to implement the high-growth grant program.

Your Committee received testimony in support of this measure from the Department of Business, Economic Development, and Tourism; Chamber of Commerce Hawaii; O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i; Maui Gold Pineapple Company; Hawai'i Farm Bureau; and one individual.

Your Committee finds that a high-growth grant program will help businesses in Hawaii further develop by expanding their business operations, improving the quality and efficiency of their operations, and staying updated with safety and quality control programs. This grant program will support businesses by assisting in purchasing equipment, conducting management and workforce training, improving infrastructure, and conducting consulting or feasibility studies. Your Committee believes that the high-growth grant program will expand businesses in Hawaii to compete with mainland counterparts and spur economic development in Hawaii.

As affirmed by the record of votes of the members of your Committee on Economic Development, Tourism, and Technology that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2174, H.D. 1, and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Baker, Galuteria).

SCRep. 2976 Economic Development, Tourism, and Technology on H.B. No. 2610

The purpose and intent of this measure is to appropriate funds for the Hawaii Technology Development Corporation's manufacturing grant program.

Your Committee received testimony in support of this measure from the Hawaii Technology Development Corporation; Oceanit Laboratories, Inc.; KYD, Inc.; TeleVoice 2000; Diamond Bakery Company, Ltd.; Hawaii Food Industry Association; Chamber of Commerce Hawaii; Kona Brewing Company; Maui Brewing Company; Hawaiian Chip Company, LLC; Makai Ocean Engineering, Inc.; Oahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i; Origin Coffee Roasters; Hawaii Coffee Company; DewPoint System, LLC; Jonah Heller, Creative; Aloha Shoyu Company, Ltd.; Hawai'i Farm Bureau; Hawaii Fish Company; Maui Chamber of Commerce; Hyperspective Studios, Inc.; and three individuals.

Your Committee finds that the Hawaii Technology Development Corporation supports local manufacturers through its INNOVATE Hawaii program, which receives federal funding from the National Institute of Standards and Technology of the United States Department of Commerce to deliver the Manufacturing Extension Partnership program, to businesses throughout the State. The INNOVATE Hawaii program also administers the manufacturing grant program, also known as the Manufacturing Assistance Program Grant. Your Committee recognizes that the manufacturing grant program assists businesses located in Hawaii that face additional obstacles, such as high cost of energy and shipping in comparison to mainland businesses. Your Committee believes that supporting the manufacturing grant program will allow manufacturers in Hawaii to be more competitive, ultimately creating more jobs and long-term investments in Hawaii.

As affirmed by the record of votes of the members of your Committee on Economic Development, Tourism, and Technology that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2610, H.D. 2, and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Baker, Galuteria).

SCRep. 2977 Economic Development, Tourism, and Technology on H.B. No. 2333

The purpose and intent of this measure is to authorize the Department of Business, Economic Development, and Tourism to deposit monies it receives from the repayments of outstanding loans and payments of certain loan programs into the Hawaii community-based economic development revolving fund.

Your Committee received testimony in support of this measure from the Department of Business, Economic Development, and Tourism; Hawai'i Alliance for Community-Based Economic Development; O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i; Waianae Economic Development Council; Hawai'i Farm Bureau; and one individual.

Your Committee finds that the Hawaii capital loan program, Hawaii large fishing vessel purchase, construction, renovation, maintenance, and repair loan program, and Hawaii small fishing vessel loan program have been inactive since the repeal of the three programs' revolving funds. Your Committee further finds that the recoveries from outstanding loans from these programs would be better utilized in the Hawaii community-based economic development revolving fund, which supports the community-based economic development (CBED) program. The three loan programs share similar missions with the CBED program in that all of the programs were designed to assist small businesses and positively impact their communities, thereby validating the deposit of monies into the Hawaii community-based economic development revolving fund.

Your Committee believes that reallocating funds to the CBED program will support Hawaii's most socially and economically challenged regions and demographic groups through community-supported economic development projects. The CBED program improves the living standards of Hawaii's residents in the most vulnerable communities and provides an opportunity to not only stimulate business activity, but also create jobs for socially and economically challenged communities.

As affirmed by the record of votes of the members of your Committee on Economic Development, Tourism, and Technology that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2333, H.D. 1, and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Baker, Galuteria).

SCRep. 2978 Economic Development, Tourism, and Technology on H.B. No. 1958

The purpose and intent of this measure is to:

- (1) Appropriate funds to continue the Small Business Innovation Research program; and
- (2) Authorize the Hawaii Technology Development Corporation to match a percentage of phase III awards or contracts of the federal Small Business Innovation Research program or Small Business Technology Transfer program that are funded by private sector or government sources outside of the program.

Your Committee received testimony in support of this measure from the Hawaii Technology Development Corporation; Oceanit Laboratories, Inc.; Hawaii Evolutionary Development, LLC; TeleVoice 2000; Premier Solutions; Chamber of Commerce Hawaii; Marine Genetics; Makai Ocean Engineering, Inc.; O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i; Kolohala Holdings, LP; DewPoint System, LLC; Jonah Heller, Creative; Spectrum Photonics; Jun Innovations, Inc.; Hawaii Fish Company; Nalu Scientific, LLC; Hyperspective Studios, Inc.; and four individuals.

Your Committee finds that, pursuant to section 15-32-3, Hawaii Administrative Rules, the purpose of the Small Business Innovation Research program (SBIR) and Small Business Technology Transfer grant program (STTR) is to "provide funds to complement federal SBIR and STTR awards to increase the competitiveness of small businesses in Hawaii and to enhance their prospects for bringing subsequent SBIR and STTR awards of federal funds into the State . . ." Your Committee further finds that phase I grants have been assisting small businesses since 1989. In fiscal year 2015-2016, the Hawaii Technology Development Corporation began awarding the larger phase II and III grants to selected companies that have more difficult and commercially promising projects.

Your Committee believes that supporting small businesses by allocating more funding through the SBIR and STTR programs will allow Hawaii businesses to sustain their businesses in a highly competitive market. Your Committee notes that for every dollar that is invested through the SBIR program, companies in Hawaii have attracted over twenty federal dollars in return to the State, plus commercialization funding. Your Committee believes that the grant program will provide a positive economic development value for the State by supporting projects with vetted technology and backed with federal funds.

As affirmed by the record of votes of the members of your Committee on Economic Development, Tourism, and Technology that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1958, H.D. 1, and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Baker, Galuteria).

SCRep. 2979 Economic Development, Tourism, and Technology on H.B. No. 2559

The purpose and intent of this measure is to authorize the issuance of special purpose revenue bonds to assist SpinLaunch Inc., in financing the costs of planning, design, construction, equipping, acquisition of land, and other tangible assets required for an electrically powered, kinetic launch system for small satellites.

Your Committee received testimony in support of this measure from the Pacific International Space Center for Exploration Systems, Oahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, Engineering Space, and three individuals. Your Committee received comments on this measure from the Department of Budget and Finance.

Your Committee finds that it is important to diversify Hawaii's economy, rather than depend solely on tourism and agriculture. Your Committee believes that the aerospace industry has potential to be a key factor in Hawaii's economy given Hawaii's geographical location. SpinLaunch Inc., proposes to construct an electrical small satellite launch system on the island of Hawaii, which your Committee believes to be a step toward advancing the aerospace industry in Hawaii. This proposed project is expected to generate millions of dollars in construction project spending and create long-term technical jobs relating to the operation of the launch facility. Accordingly, your Committee believes that the issuance of special purpose revenue bonds to assist SpinLaunch Inc., will improve the State's economy and benefit the aerospace industry.

As affirmed by the record of votes of the members of your Committee on Economic Development, Tourism, and Technology that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2559, H.D. 1, and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Baker, Galuteria).

SCRep. 2980 Labor on H.B. No. 2114

The purpose and intent of this measure is to provide that negotiations over the implementation of management decisions affecting the terms and conditions of employment that are subject to collective bargaining are not precluded from collective bargaining negotiations.

Your Committee received testimony in support of this measure from the Hawaii State Teachers Association; Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO; State of Hawaii Organization of Police Officers; United Public Workers, AFSCME, Local 646, AFL-CIO; Hawaii Fire Fighters Association, Local 1463, IAFF, AFL-CIO; IMUAlliance; O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i; University of Hawaii Professional Assembly; and Hawaii State AFL-CIO. Your Committee received testimony in opposition to this measure from the Department of the Prosecuting Attorney of the City and County of Honolulu and Hawaii Health Systems Corporation.

Your Committee finds that the impact of management decisions that affect terms and conditions of employment, including procedures and criteria for promotions, transfers, assignments, demotions, layoffs, suspensions, terminations, discharges, or other disciplinary actions, should be mandatory subjects of collective bargaining. Your Committee recognizes that the language in this measure remains consistent with the principle that matters affecting wages, hours, and working conditions are negotiable, subject to section 89-9(d), Hawaii Revised Statutes. Your Committee finds that this measure will serve to clarify much of the past confusion and delays as to what is negotiable and encourage good faith on behalf of all parties in the collective bargaining process.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Labor that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2114, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2114, H.D. 2, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (English, Ihara).

SCRep. 2981 Labor on H.B. No. 1726

The purpose and intent of this measure is to appropriate funds for fiscal biennium 2017-2019 for collective bargaining cost items, salary increases, and other cost adjustments for public employees in collective bargaining unit (14) and for their excluded counterparts.

Your Committee received testimony in support of this measure from the Department of Budget and Finance; Hawaii Government Employees Association, AFSCME, Local 152, AFL-CIO; and O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i.

Your Committee finds that the negotiations for collective bargaining agreements for bargaining unit (14) are currently in progress. This measure provides a legislative vehicle that can be used if an agreement is reached or an arbitration award is issued prior to the end of the 2018 Regular Session.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Labor that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1726, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1726, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (English, Ihara).

SCRep. 2982 Labor on H.B. No. 1725

The purpose and intent of this measure is to require collective bargaining public employees to provide written notification to the employee's exclusive representative to discontinue the employee's payroll assignments within a certain time period.

Your Committee received testimony in support of this measure from the Hawaii State Teachers Association; Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO; United Public Workers, AFSCME, Local 646, AFL-CIO; State of Hawaii Organization of Police Officers; O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i; and Hawaii Fire Fighters Association, Local 1463, IAFF, AFL-CIO.

Your Committee finds that in *Janus v. AFSCME*, currently pending a decision from the United States Supreme Court, the petitioners are seeking to invalidate public-sector agency shop arrangements arguing that such arrangements violate the petitioners' First Amendment rights. A ruling in favor of the petitioners in *Janus* may allow public sector employees to leave their unions and not pay dues, while the unions, in turn, would still be legally-bound to represent them, effectively changing collective bargaining representatives' ability to collect resources from their members and potentially diminishing public employees' ability to effectively negotiate. Your Committee finds that this measure requires employees wishing to opt out of union membership to provide written notification within thirty days of the anniversary of their initial membership date in any given year of their desire to discontinue payroll deductions to their exclusive representative, thereby allowing unions to better manage the impact of potential member resignations in the wake of a possible Supreme Court ruling that goes against the unions.

As affirmed by the record of votes of the members of your Committee on Labor that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1725, H.D. 2, and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (English, Ihara).

SCRep. 2983 Labor on H.B. No. 1654

The purpose and intent of this measure is to abolish the office of community services special fund.

Your Committee received testimony in support of this measure from the Department of Labor and Industrial Relations. Your Committee received comments on this measure from the Tax Foundation of Hawaii.

Your Committee finds that the office of community services special fund is an administratively created fund within the Department of Labor and Industrial Relations which is no longer used or needed. The Auditor found in Auditor's Report No. 17-12, which reviewed special funds, revolving funds, trust funds, and trust accounts of the State, that the office of community services special fund does not meet the criteria for continuance as a special fund, and therefore recommended that the special fund be abolished and the remaining unencumbered balance be transferred to the general fund. This measure enacts the recommendations of the Auditor.

As affirmed by the record of votes of the members of your Committee on Labor that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1654, and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (English, Ihara).

SCRep. 2984 Labor on H.B. No. 1929

The purpose and intent of this measure is to require the Hawaii Labor Relations Board to adopt emergency rules if the Board finds that Hawaii's collective bargaining in public employment law, or the application thereof, is inconsistent with any federal or state law and the adoption of an emergency rule is urgently needed.

Your Committee received testimony in support of this measure from the University of Hawaii Professional Assembly; United Public Workers, AFSCME, Local 646, AFL-CIO; and O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i.

Your Committee finds that based upon the anticipated 2018 United States Supreme Court ruling in *Janus v. American Federation of State, County and Municipal Council 31*, U.S. Supreme Court Docket No. 16-1466, the constitutional and statutory underpinnings of Hawaii public sector collective bargaining may be at risk. The *Janus* decision may require statutory changes; however, a challenge arises when the Legislature is not in session and an event or series of circumstances arise that requires immediate action to mitigate any damage. Your Committee further finds that the current circumstances presented by the *Janus* case may present immediate, important questions regarding the application of chapter 89, Hawaii Revised Statutes, relating to collective bargaining. Accordingly, your Committee finds that it is necessary to grant the Hawaii Labor Relations Board emergency rulemaking powers.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Labor that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1929, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1929, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (English, Ihara).

SCRep. 2985 Agriculture and Environment on H.B. No. 1883

The purpose and intent of this measure is to establish and appropriate funds for a two-year agricultural theft and vandalism pilot project to examine the effectiveness of prosecuting agricultural theft and vandalism cases, including theft and vandalism affecting individuals who produce agricultural products for personal or small-scale commercial use on any land, in the County of Hawaii.

Your Committee received testimony in support of this measure from the Department of Agriculture, County of Hawaii Office of the Prosecuting Attorney, two members of the Hawai'i County Council, Hawai'i Farm Bureau, Ulupono Initiative, Land Use Research Foundation of Hawaii, Hawaii Coffee Association, O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, and one individual.

Your Committee finds that agricultural theft and vandalism in the County of Hawaii are impediments to not only running a successful and profitable farming operation, but also to growing food or agricultural products for personal use or small-scale commercial use. Agricultural theft and vandalism are a serious, ongoing problem, with farmers reporting theft of crops, animals, equipment, and tools, and vandalized fences and gates. Since many incidents of agricultural theft and vandalism are not reported, the annual monetary losses can only be estimated in the millions of dollars. By establishing an agricultural theft and vandalism pilot project for the County of Hawaii, this measure provides additional focus on investigating and prosecuting agricultural theft and vandalism.

Your Committee has amended this measure by:

- (1) Inserting an appropriation amount of \$200,000;
- (2) Changing the effective date to July 1, 2018; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1883, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1883, H.D. 2, S.D. 1, and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Nishihara).

SCRep. 2986 Agriculture and Environment on H.B. No. 2305

The purpose and intent of this measure is to extend the pesticide subsidy program manager position through the fiscal year immediately following the program sunset date and affirmatively extend the position's civil service and collective bargaining laws exemption.

Your Committee received testimony in support of this measure from the Department of Agriculture; Office of the Mayor of the County of Hawai'i; Land Use Research Foundation of Hawaii; Hawai'i Farm Bureau; Hawaii Cattlemen's Council, Inc.; Ka Ohana O Na Pua; and O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i.

Your Committee finds that the pesticide subsidy program in the Department of Agriculture assists coffee growers with offsetting the costs of purchasing certain pesticides known to be effective against the coffee berry borer, a highly destructive coffee pest. The program was established to run for five years. Your Committee also finds that the current pesticide subsidy program manager position is a full-time, temporary position that is exempt from civil service and collective bargaining laws. Due to a provision in the civil service law, this exemption will expire on June 30, 2018. The pesticide subsidy program took longer than anticipated to implement, thus the program sunset date was extended from June 30, 2019, to June 30, 2021; however, the exemption of the pesticide subsidy program manager position was not similarly extended. Applications for a subsidy for pesticide purchases made in a fiscal year must be filed in the immediately following fiscal year. Therefore, for pesticide purchases made in the last fiscal year of the program, from July 1, 2020, to June 30, 2021, applications for subsidies must be filed in the immediately following fiscal year, anytime from July 1, 2021, to June 30, 2022. The manager position will be needed to process these applications for subsidies for costs incurred in the final year of the program; thus, your Committee finds that the exemption must be extended.

Your Committee has amended this measure by:

- (1) Clarifying that the current exemption from chapters 76 and 89, Hawaii Revised Statutes, for the subsidy program manager position are extended until the expiration date of the position; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2305, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2305, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Nishihara).

SCRep. 2987 Economic Development, Tourism, and Technology on H.B. No. 583

The purpose and intent of this measure is to appropriate funds to the Hawaii Technology Development Corporation to continue its operations and administration and its various programs, thereby providing additional time to develop public-private partnerships for a new incubator facility for small businesses, which will generate revenue for the Development Corporation's operating expenses.

Your Committee received testimony in support of this measure from the Department of Business, Economic Development, and Tourism; Hawaii Technology Development Corporation; Kuehnle AgroSystems, Inc.; Bright Light Digital; HI FusionED; Hawaii Evolutionary Development, LLC; TeleVoice 2000; Big Wave Digital Services; Blue Startups; Hawaii Food Industry Association; Chamber of Commerce Hawaii; Carbon Buddy, LLC; Oahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i; DewPoint System, LLC; 'Io Quantitative, LLC; Nest Egg Guru, Inc.; USD Mint, Inc.; Kona-Kohala Chamber of Commerce; and six individuals.

Your Committee finds that the Hawaii Technology Development Corporation has been utilizing rent revenue received from the incubation program at the Manoa Innovation Center to fund half of its staff's salaries and all of its discretionary program funding. According to testimony received by your Committee, the Development Corporation was notified by the University of Hawaii System of the University's intention to terminate the lease at the Manoa Innovation Center, effective June 30, 2018, ultimately depleting the Development Corporation's funding by half.

While your Committee recognizes the generosity of the University of Hawaii by allowing the Development Corporation to continue to use the Manoa Innovation Center rent-free even after the lease ended in April of 2015, your Committee also recognizes the importance of the Development Corporation and believes that the Development Corporation requires funding from the Legislature to maintain its staff and programs, which significantly benefit the tech industry of Hawaii.

As affirmed by the record of votes of the members of your Committee on Economic Development, Tourism, and Technology that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 583, H.D. 1, and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Baker, Galuteria).

SCRep. 2988 Human Services on H.B. No. 694

The purpose and intent of this measure is to:

- (1) Establish and appropriate funds for the health analytics program and four full-time equivalent (4.0 FTE) positions within the Med-QUEST Division of the Department of Human Services; and
- (2) Authorize the health analytics program to maintain an all-payers medical claims database.

Your Committee received testimony in support of this measure from the Department of Human Services, Department of Budget and Finance, Department of Commerce and Consumer Affairs, University of Hawai'i System, Hawaii Employer-Union Health Benefits Trust Fund, Office of Enterprise Technology Services, State Health Planning and Development Agency, Hawai'i Primary Care Association, Hawaii Medical Association, and Hawaii Medical Service Association.

Your Committee finds that Act 139, Session Laws of Hawaii 2016, broadened the scope of health and health care data and other information to facilitate greater transparency and understanding of healthcare costs, improve healthcare system quality, population health outcomes, and health disparities through the development of an all-payers medical claims database. Your Committee further finds that the establishment of a health analytics program and all-payers medical claims database will allow the Med-QUEST Division to meet critical Medicaid-specific operational and policy goals and implement and evaluate programs to improve the State's healthcare delivery system and overall long-term health and well-being.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 694, H.D. 2, and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Harimoto, Tokuda).

SCRep. 2989 Human Services on H.B. No. 1926

The purpose and intent of this measure is to require the Department of Human Services to use an integrated and multigenerational approach to delivering human services to reduce the incidence of intergenerational poverty and dependence on public benefits.

Your Committee received testimony in support of this measure from the Department of Human Services, Hawai'i Primary Care Association, Young Progressives Demanding Action - Hawaii, and Oahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i.

Your Committee finds that the Department of Human Services provides numerous and diverse programs and services for the State. In 2016, the Department embarked on its 'Ohana Nui effort by adopting a multigenerational approach to transform the way services are provided to individuals and families to improve outcomes and well-being. Your Committee further finds that the adoption of a service integration and multigenerational approach will continue the Department's practices and services to better support children, families, and other individuals.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1926, H.D. 1, and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Tokuda).

SCRep. 2990 Human Services on H.B. No. 1716

The purpose and intent of this measure is to:

- (1) Establish a Youth Commission within the Office of Youth Services to advise the Governor and Legislature on policies affecting youth in the State; and
- (2) Appropriate funds to the Office of Youth Services to staff and administer the Youth Commission.

Your Committee received testimony in support of this measure from the Office of Youth Services, Community Alliance on Prisons, Hawaii Youth Services Network, Hawai'i Public Health Institute, Young Progressives Demanding Action - Hawaii, Oahu County Committee on Legislative Priorities for the Democratic Party of Hawai'i, and one individual.

Your Committee finds that increasing youth participation in the public policymaking process is a vital state interest. Your Committee further finds that although youth under the age of eighteen may not vote, they deserve access and input through other means, such as a Youth Commission, to have a greater role in the policymaking process.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1716, H.D. 1, and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Tokuda).

SCRep. 2991 Human Services on H.B. No. 2530

The purpose and intent of this measure is to:

- (1) Eliminate the Department of Human Services' (Department) legal obligation to determine required liability insurance coverage amounts for regulated child care providers;
- (2) Delay the deadline under Act 161, Session Laws of Hawaii 2017, for the Department to report issues related to liability insurance requirements; and
- (3) Delay the implementation and enforcement of liability insurance coverage requirements.

Your Committee received testimony in support of this measure from the Department of Human Services, O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, Keiki Ohana Daycare, and one individual.

Your Committee finds that the intent of Act 161, Session Laws of Hawaii 2017, was to strengthen the minimum standards of child care to improve the health and safety of children by requiring child care providers to obtain and maintain liability insurance coverage. Testimony received by your Committee indicates that some child care providers may not be able to renew their existing homeowners' policies and are considering not registering with the Department due to the new insurance requirement. This measure will give the Department additional time to establish child care insurance coverage rules and policies that satisfy all child care providers.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2530, H.D. 1, and recommends that it pass Second Reading and be referred to your Committee on Commerce, Consumer Protection, and Health.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Tokuda).

SCRep. 2992 Human Services on H.B. No. 1718

The purpose and intent of this measure is to assist families with young children by establishing a nonrefundable income tax credit for child care costs for children four years and younger.

Your Committee received testimony in support of this measure from Young Progressives Demanding Action - Hawai'i, Oahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, and one individual. Your Committee received comments on this measure from the Department of Human Services, Department of Taxation, and Tax Foundation of Hawaii.

Your Committee finds that the high cost of infant and child care in the State poses a significant challenge for families. Your Committee further finds that the cost of raising a child in the State is higher than the national average, with child care costs being one of the top expenses for a working family. This measure will assist families with young children by providing financial relief from the high cost of child care.

Your Committee has amended this measure by:

- (1) Inserting \$3,000 as the maximum amount for a taxpayer to receive as a nonrefundable tax credit per eligible child per taxable year;
- (2) Amending the definition of "qualifying costs" to include costs for care provided at infant and toddler child care centers registered or licensed by the Department of Human Services; and
- (3) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1718, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1718, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Tokuda).

SCRep. 2993 Human Services on H.B. No. 1859

The purpose and intent of this measure is to allow a minor who is at least sixteen years old to petition the Family Court for emancipation under certain conditions.

Your Committee received testimony in support of this measure from Young Progressives Demanding Action - Hawai'i and one individual. Your Committee received comments on this measure from the Department of Human Services, Hawaii Youth Services Network, and one individual.

Your Committee finds that minors have few rights and responsibilities and depend on parents and guardians to access resources and privileges. However, some minors may face significant and harmful situations, such as being physically or emotionally abused by their parents or guardians, and want to seek emancipation. Your Committee notes that under this measure, roughly one thousand minors in the State will be eligible to seek emancipation. This measure will empower minors to make financial-, educational-, and health-related decisions necessary to attain their personal aspirations.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1859, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1859, H.D. 2, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Tokuda).

SCRep. 2994 (Joint) Agriculture and Environment and Public Safety, Intergovernmental, and Military Affairs on H.B. No. 2219

The purpose and intent of this measure is to expand the candidate pool for membership on a county arborist advisory committee by making the following disciplines, in addition to persons actively employed in landscape architecture, eligible for membership: certified arborists, horticulturalists with specialization in trees, and persons who have received a master's degree in botany.

Your Committees received testimony in support of this measure from the Department of Land and Natural Resources, Malama O Puna, The Outdoor Circle, East Hawaii Outdoor Circle, and O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i.

Your Committees find that the Exceptional Tree Act, Act 105, Session Laws of Hawaii 1975, recognizes the value of trees for their beauty and ecological functions and requires each county to establish a county arborist advisory committee to enact regulations to protect trees of exceptional stature. Your Committees also find that section 58-2, Hawaii Revised Statutes, requires one member of the county arborist advisory committee to be actively employed in the practice of landscape architecture. The County of Hawaii currently has only three landscape architects working within the county, thereby severely limiting the pool of candidates, and, as a result, the County of Hawaii has not had a functioning county arborist advisory committee since 2008. Your Committees therefore find that this is a common sense measure to assist the neighbor islands with the protection of exceptional trees.

Your Committees have amended this measure by changing the effective date to upon its approval.

As affirmed by the records of votes of the members of your Committees on Agriculture and Environment and Public Safety, Intergovernmental, and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 2219, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 2219, H.D. 1, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chairs on behalf of the Committees.

Agriculture and Environment: Ayes, 4. Noes, none. Excused, 1 (Ruderman).

Public Safety, Intergovernmental, and Military Affairs: Ayes, 3. Noes, none. Excused, 2 (Baker, Wakai).

SCRep. 2995 (Joint) Agriculture and Environment and Public Safety, Intergovernmental, and Military Affairs on H.B. No. 1800

The purpose and intent of this measure is to authorize each county to establish a requirement for customers to provide a number of used motor vehicle tires to the tire retailer equal to the number of new motor vehicle tires purchased, or pay a fee that is refundable upon provision of the used tires, as an incentive for tire recycling and to offset some of the expenses of used tire cleanup.

Your Committees received testimony in support of this measure from the Department of Health, Sierra Club of Hawai'i, O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, and two individuals. Your Committees received testimony in opposition to this measure from the Hawaii Automobile Dealers' Association and one individual. Your Committees received comments on this measure from the Department of Land and Natural Resources.

Your Committees find that improper disposal of tires is a serious environmental and health concern. Illegally dumped tires are breeding grounds for mosquitos, fire hazards, unsightly, and costly to clean up. Your Committees support efforts to encourage proper disposal of tires; however, upon hearing testimony, your Committees believe that this measure does not properly incentivize tire recycling. Therefore, your Committees find that at this time it is best to provide support to the counties to increase enforcement and cleanup efforts of improperly disposed tires.

Your Committees further find that the motor vehicle tire surcharge of \$1 per tire was paid by tire importers until its sunset date in 2006. These surcharges were deposited into a special account in the environmental management special fund to be used for a variety of purposes, including cleanup of improper tire disposal sites. While there is no longer a revenue source for this account, the remaining balance is \$300,000. Your Committees find that the special account in the environmental management special fund should therefore be used to offset the costs to the counties to clean up improper tire disposal sites.

Accordingly, your Committees have amended this measure by:

- (1) Deleting section 2 and inserting language:
 - (A) Mandating that the counties use a portion of their respective highway beautification fee revenues for cleanup of improper tire disposal sites;
 - (B) Making an appropriation from the special account in the environmental management special fund to each of the four counties; and
 - (C) Requiring the counties to submit annual reports to the Legislature providing statistics on the number of improperly disposed tires collected;
- (2) Amending the preamble to reflect its amended purpose;
- (3) Changing the effective date to July 1, 2018; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

Your Committees request that your Committee on Ways and Means give consideration to each county's population, geography, and number of potential improper tire disposal sites to determine whether the appropriation made from the special account of the environmental management special fund should be allocated to the four counties as equal or pro rata shares.

As affirmed by the records of votes of the members of your Committees on Agriculture and Environment and Public Safety, Intergovernmental, and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 1800, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 1800, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Agriculture and Environment: Ayes, 4. Noes, none. Excused, 1 (Ruderman).

Public Safety, Intergovernmental, and Military Affairs: Ayes, 3. Noes, none. Excused, 2 (Baker, Wakai).

SCRep. 2996 (Joint) Agriculture and Environment and Public Safety, Intergovernmental, and Military Affairs on H.B. No. 2470

The purpose and intent of this measure is to require state and county agencies to adopt and maintain rules pertaining to environmental protection, air quality, water supplies, water quality, and drinking water that are as stringent as, or more stringent than, applicable baseline federal standards.

Your Committees received testimony in support of this measure from the Board of Water Supply of the City and County of Honolulu, Malama O Puna, O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, Surfrider Foundation, Sierra Club of Hawaii, and five individuals. Your Committees received testimony in opposition to this measure from the Hawaii Farm Bureau. Your Committees received comments on this measure from the Department of Health, Chamber of Commerce Hawaii, and Building Industry Association of Hawaii.

Your Committees find that under new leadership, the Environmental Protection Agency has begun making decisions that conflict with the mission of the agency to protect human health and the environment, including decisions that contradict or ignore scientific findings and merits. Your Committees further find that such decisions may negatively impact Hawaii, which relies on the Environmental Protection Agency to protect human health and the environment from dangerous pollution, toxic debris, and contaminated drinking water. Your Committees find that this measure aims to protect the people and environment of Hawaii by authorizing its environment-related agencies to adopt rules to fill the gaps left by negligent or harmful decisions of the Environmental Protection Agency. Your Committees further find that other areas regulated by local environment-related agencies should also be strengthened to be no less stringent than baseline federal standards.

Accordingly, your Committees have amended this measure by:

- (1) Inserting language to apply the baseline federal standards to provisions relating to solid waste, solid waste control, hazardous waste control, underground storage tank regulation, and asbestos emission and lead hazard control, in addition to water supplies, air quality, water quality, and drinking water;
- (2) Changing the effective date to July 1, 2020, to allow time for the Department of Health to update its underground storage tank regulations; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Agriculture and Environment and Public Safety, Intergovernmental, and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 2470, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 2470, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Agriculture and Environment: Ayes, 4. Noes, none. Excused, 1 (Ruderman).

Public Safety, Intergovernmental, and Military Affairs: Ayes, 3. Noes, none. Excused, 2 (Baker, Wakai).

SCRep. 2997 Housing on H.B. No. 1712

The purpose and intent of this measure is to increase the minimum percentage of residential units, excluding units in a project in which time share use is permitted, in a condominium project that must be offered for sale to prospective owner-occupants in the thirty-day period following the initial date of sale of units in the condominium project from fifty to ninety percent.

Your Committee received testimony in support of this measure from the American Resort Development Association Hawai'i, Kaka'ako United, and O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i. Your Committee received comments on this measure from the Hawaii Housing Finance and Development Corporation and Hawaiian Affairs Caucus of the Democratic Party of Hawai'i.

Your Committee finds that given the overall lack of affordable housing stock for Hawaii residents, additional policies are necessary to promote owner-occupancy of new condominium developments. This measure assists in increasing the housing pool for local residents and encourages developers to meet the State's dire need for affordable housing.

Your Committee has amended this measure by making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1712, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1712, H.D. 2, S.D. 1, and be referred to your Committee on Commerce, Consumer Protection, and Health.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Kahele, Nishihara).

SCRep. 2998 Housing on H.B. No. 2122

The purpose and intent of this measure is to:

- (1) Clarify the interests that are required to be represented by members who represent community development districts on the Hawaii Community Development Authority;
- (2) Require the President of the Senate and the Speaker of the House of Representatives, rather than the relevant county council, to nominate certain representatives to serve on the Hawaii Community Development Authority;

- (3) Require certain representatives who serve on the Hawaii Community Development Authority to be nominated for no more than one seat; and
- (4) Amend the definition of "small business" to require the business to have less than an unspecified number of employees on payroll and be within the physical boundaries of the applicable community development district where its principal place of operations takes place, rather than requiring the small business to not be dominant in its field of operation.

Your Committee received testimony in support of this measure from the Kakaako Makai Community Planning Advisory Council and one individual.

Your Committee finds that under existing law, the Honolulu City Council, as the council of the county in which all of the community development districts of the Hawaii Community Development Authority are located, nominates individuals to be appointed by the Governor to represent the Heeia, Kalaeloa, and Kakaako community development districts. The Hawaii Community Development Authority includes among its membership three representatives of the Kakaako community development district, including two residents of the district and one owner of a small business or one officer or director of a nonprofit organization in the district. Your Committee further finds that in 2017, confusion arose amongst Honolulu City Council members regarding the nomination process for the members representing the Kakaako community development district. Due to the important responsibilities of these members in determining the development of designated areas of the State, this measure clarifies the nomination process of these members and the members representing the other community development districts.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2122, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2122, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Kahele, Nishihara).

SCRep. 2999 Housing on H.B. No. 2328

The purpose and intent of this measure is to:

- (1) Clarify that any projects assisted by the Hawaii Housing Finance and Development Corporation that were developed or sold prior to the enactment of Act 159, Session Laws of Hawaii 2017 (Act 159), are grandfathered in and not subject to Act 159, to avoid unintended consequences and administrative burdens; and
- (2) Limit the subsequent purchase price of real property developed and sold under chapter 201H, Hawaii Revised Statutes, if the Hawaii Housing Finance and Development Corporation does not exercise its option to repurchase the real property.

Your Committee received testimony in support of this measure from the Department of Business, Economic Development, and Tourism; and Hawaii Housing Finance and Development Corporation.

Your Committee finds that Act 159 allows qualified non-profit housing trusts to utilize the Hawaii Housing Finance and Development Corporation's buyback option on affordable for-sale homes and condominium units resold by their original owner-occupants in situations when the Corporation decides not to repurchase the property. According to the Corporation, since the enactment of Act 159, the Corporation found that some of the Corporation's projects may not be covered by the existing grandfather provision. This measure excludes from the application of Act 159 any project developed or sold by the Corporation prior to the enactment of Act 159.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2328, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2328, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Kahele, Nishihara).

SCRep. 3000 Housing on H.B. No. 2330

The purpose and intent of this measure is to:

- (1) Extend the certification requirements for an exemption from the general excise tax for certain affordable rental housing projects from June 30, 2022, to June 30, 2026; and
- (2) Amend the certification requirements for an exemption from the general excise tax for those affordable rental housing projects by:
 - (A) Applying the exemption to only newly constructed or substantially rehabilitated affordable rental housing projects;
 - (B) Repealing the requirement that the exemption apply to contracting only and repealing the per annum cap of \$7,000,000; and
 - (C) Conditioning certification upon the project owners not refusing to lease units in the projects to qualified applicants solely because they hold a voucher or certificate of eligibility under the Section 8 Housing Choice Voucher Program.

Your Committee received testimony in support of this measure from the Office of the Governor; Department of Business, Economic Development, and Tourism; Department of Taxation; Hawaii Housing Finance and Development Corporation; Hawaii Public Housing Authority; Hawai'i Construction Alliance; Pacific Resource Partnership; Hawaii Women's Coalition; Oahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i; Hawaii Regional Council of Carpenters; and Hawaii Rental Housing Coalition. Your Committee received comments on this measure from the Office of Hawaiian Affairs and Tax Foundation of Hawaii.

Your Committee finds that the Special Action Team on Affordable Rental Housing has determined that additional incentives are needed to spur rental housing development to meet housing demands. Under existing law, the Hawaii Housing Finance and Development Corporation is authorized to certify that a housing project is entitled to an exemption from the general excise tax. Only after receiving this certification can a taxpayer claim the tax exemption. This measure provides incentives for developers to immediately start their housing developments to take advantage of the exemption from the general excise tax before the exemption sunsets. Furthermore, by requiring project owners to accept section 8 Housing Choice Vouchers as a condition of certification, this measure will increase the use of the Section 8 program statewide.

Written testimony submitted by the Office of Hawaiian Affairs indicates that half of the projected residential demand for 65,000 more housing units by 2025 is for units at or below eighty percent of the area median income. Thus, the Office of Hawaiian Affairs suggested an additional requirement for the certification for an exemption from the general excise tax to better serve the affordable housing needs of Native Hawaiians and Hawaii residents.

Accordingly, your Committee has amended this measure by:

- (1) Adopting the language suggested by the Office of Hawaiian Affairs, which conditions the certification for an exemption from the general excise tax upon the total weighted average of all units provided in an approved and certified project being no more than one hundred percent of the area median family income; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

Your Committee notes its concerns regarding the potential adverse impacts on project feasibility and believes that this additional requirement merits further discussion by your Committee on Ways and Means.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2330, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2330, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Kahele, Nishihara).

SCRep. 3001 Housing on H.B. No. 2332

The purpose and intent of this measure is to:

- (1) Specify that certain provisions of the Internal Revenue Code related to at-risk rules and deductions and to passive activity loss do not apply with respect to claims for the state low-income housing tax credit; and
- (2) Caps the state low-income housing tax credit at fifty percent of the federal low-income housing tax credit.

Your Committee received testimony in support of this measure from the Office of the Governor; Department of Business, Economic Development, and Tourism; Department of Taxation; Hawaii Housing Finance and Development Corporation; InState Partners; and O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i. Your Committee received comments on this measure from the Tax Foundation of Hawaii.

Your Committee finds that under existing law, the state low-income housing tax credit is difficult to use for Hawaii taxpayers other than large corporations or financial institutions. As a result, this lowers the demand and equity that can be generated for each dollar of this tax credit that is issued.

Your Committee further finds that Act 129, Session Laws of Hawaii 2016, addressed an aspect of this issue by accelerating the low-income housing tax credit from ten to five years. This acceleration makes the tax credit available to smaller taxpayers who are better able to forecast their income tax liability over a five-year, rather than ten-year, span. This measure builds on the incentives provided under Act 129, Session Laws of Hawaii 2016, by eliminating the applicability of the at-risk and passive activity loss rules to the low-income housing tax credit. This will allow affordable rental housing developers to decouple the tax credit from an ownership share in affordable rental projects being financed, thereby allowing any Hawaii taxpayer with income tax liability to use the low-income housing tax credit.

Your Committee has amended this measure by:

- (1) Adding language to clarify that the amendments made to the low-income housing tax credit will not be repealed when section 235-110.8, Hawaii Revised Statutes, is reenacted on December 31, 2021, pursuant to section 4 of Act 129, Session Laws of Hawaii 2016; and
- (2) Making other technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2332, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2332, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Kahele, Nishihara).

SCRep. 3002 Housing on H.B. No. 2703

The purpose and intent of this measure is to:

- (1) Allocate a portion of the conveyance tax revenues to the rental assistance revolving fund to be used to subsidize rents for persons who meet certain income requirements;
- (2) Increase the income tax credit for low-income household renters to an unspecified amount; and
- (3) Convert the state earned income tax credit into a refundable tax credit and change the amount of the credit to an unspecified percentage of the federal earned income tax credit.

Your Committee received testimony in support of this measure from the Office of Hawaiian Affairs, Women's Caucus of the Democratic Party of Hawai'i, Hawaii Appleseed Center for Law & Economic Justice, League of Women Voters of Hawaii, LGBT Caucus of the Democratic Party of Hawai'i, Catholic Charities Hawai'i, Americans for Democratic Action Hawai'i, IMU Alliance, Hawai'i Alliance for Community-Based Economic Alliance, Oahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, and three individuals. Your Committee received testimony in opposition to this measure from the Hawai'i Association of REALTORS and one individual. Your Committee received comments on this measure from the Department of Taxation, Hawaii Housing Finance and Development Corporation, and Tax Foundation of Hawaii.

Your Committee finds that affordable housing is a serious concern for many Hawaii residents. As the population of the State continues to grow, the State must develop innovative means of ensuring that residents are able to find and pay for housing. This measure provides additional mechanisms for the State to provide affordable housing to meet the housing needs of the State and tax incentives for Hawaii residents to obtain and maintain housing.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2703, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2703, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Kahele, Nishihara).

SCRep. 3003 Housing on H.B. No. 2744

The purpose and intent of this measure is to appropriate funds to the Hawaii Public Housing Authority for the state rent supplement program.

Your Committee received testimony in support of this measure from the Governor's Coordinator on Homelessness, Hawaii Public Housing Authority, Catholic Charities Hawai'i, and O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i.

Your Committee finds that the state rent supplement program has proven to be effective in securing and maintaining housing for working individuals, senior or disabled individuals, and families who are homeless. The state rent supplement program provides a relatively shallow, but sustained, rental subsidy to enable vulnerable households or those at imminent risk of homelessness to close the rental affordability gap, maintain housing, and achieve self-sufficiency. This measure provides additional rent supplement subsidies to eligible individuals and families.

Your Committee has amended this measure by making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2744, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2744, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Kahele, Nishihara).

SCRep. 3004 Housing on H.B. No. 2745

The purpose and intent of this measure is to:

- (1) Expand the rental assistance program by increasing the minimum percentage of affordable units a rental housing project is required to maintain for eligible tenants from twenty percent to thirty percent; and
- (2) Appropriate funds to be deposited into the rental assistance revolving fund to support new rental assistance program contracts.

Your Committee received testimony in support of this measure from the Governor's Coordinator on Homelessness, Hawaii Housing Finance and Development Corporation, Catholic Charities Hawai'i, Oahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, and three individuals. Your Committee received comments on this measure from the Office of Hawaiian Affairs.

Your Committee finds that homelessness remains one of the most pressing challenges facing Hawaii, and the State has adopted a comprehensive framework to address homelessness. In particular, the State has worked together with the Legislature and other stakeholders to increase resources for permanent housing programs. For example, the rental assistance program provides qualified owners with monthly rental assistance subsidies to assist eligible tenants with income at or below eighty percent of the area median

income who live in rental housing developments. This measure will increase the number of eligible projects and provide an infusion of funds into the rental assistance revolving fund to expand the rental assistance program.

Your Committee has amended this measure by:

- (1) Adopting suggested language from Catholic Charities Hawai'i that decreases the qualifying maximum income threshold from eighty percent to thirty percent of the area median income for a family or individual to be an eligible tenant under the rental assistance program;
- (2) Clarifying that the intent of this measure is not to jeopardize the receipt of any federal aid nor to impair any existing federal obligation of the State or any agency thereof and therefore avoid any potential fiscal impact on the program or potential implications on federal funding and obligations; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

Your Committee notes that lowering the qualifying area median income percentage will increase the number of eligible tenants under the rental assistance program; however, your Committee believes that the potential fiscal impact on the program and potential implications on federal funding and obligations merit further discussion by your Committee on Ways and Means.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2745, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2745, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Kahele, Nishihara).

SCRep. 3005 (Joint) Higher Education and Agriculture and Environment on H.B. No. 474

The purpose and intent of this measure is to appropriate funds to the University of Hawai'i at Hilo for testing, studies, outreach, and other activities related to the prevention and eradication of rat lungworm disease.

Your Committees received testimony in support of this measure from the Department of Land and Natural Resources, University of Hawai'i System, Department of Agriculture, County of Hawai'i Office of the Mayor, two members of the Hawai'i County Council, Hilo Medical Center, Hawai'i Farm to School Hui, Hawai'i Farm Bureau, Big Island Invasive Species Committee, Hawai'i Island Economic Development Board, and numerous individuals.

Your Committees find that the Department of Health has reported over seventy cases of rat lungworm disease caused by *Angiostrongylus cantonensis* from 2001 to 2014. There were many more cases in 2017, including at least eleven on Hawai'i Island, six on Maui, and one on Oahu. The disease has claimed lives and caused crippling chronic disability. The cost of treatment for one severe case can exceed \$1,000,000.

Your Committees further find that although rat lungworm disease is recognized as a serious threat to human health and agriculture in Hawai'i, sufficient funding has not been available to support the broad level of education, research, and control activities needed to mitigate this threat.

Your Committees have amended this measure by:

- (1) Inserting an appropriation amount of \$450,000 to the University of Hawai'i at Hilo for testing, studies, outreach, and other activities related to the prevention and eradication of rat lungworm disease;
- (2) Inserting an effective date of July 1, 2018; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Higher Education and Agriculture and Environment that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 474, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 474, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
Higher Education: Ayes, 4. Noes, none. Excused, 1 (Chang).
Agriculture and Environment: Ayes, 4. Noes, none. Excused, 1 (Nishihara).

SCRep. 3006 Higher Education on H.B. No. 1968

The purpose and intent of this measure is to appropriate funds to the University of Hawai'i College of Tropical Agriculture and Human Resources cooperative extension service for four full-time equivalent (4.0 FTE) ornamental plant extension agents.

Your Committee received testimony in support of this measure from the University of Hawai'i System, Department of Agriculture, Hawai'i Farm Bureau, Hawai'i Tropical Flower Council, Orchid Growers of Hawai'i, Hawai'i Floriculture and Nursery Association, Landscape Industry Council of Hawai'i, Coordinating Group on Alien Pest Species, Ag Matters, Performance Landscapes, Maui County Farm Bureau, Hawai'i Crop Improvement Association, O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, and numerous individuals.

Your Committee finds that the University of Hawai'i College of Tropical Agriculture and Human Resources is in critical need of personnel for its cooperative extension service to improve and strengthen Hawai'i's sustainability in agriculture through educational programs. The College of Tropical Agriculture and Human Resources houses a cooperative extension service, which partners with federal, state, and county governments to provide science-based information and education programs in agriculture, natural resources,

and human resources. The cooperative extension service also provides valuable tools accessible to the public to strengthen communities and sustain Hawaii's agricultural economy.

Your Committee further finds that due to a decrease in extension agents who serve the various counties, many of the community services that the extension service offers have been cut, most importantly ornamental plant services. This measure addresses the budgetary shortfalls experienced by the University of Hawai'i College of Tropical Agriculture and Human Resources cooperative extension service by appropriating funds for additional full-time equivalent ornamental plant extension agent positions.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Higher Education that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1968, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1968, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Chang).

SCRep. 3007 Higher Education on H.B. No. 2005

The purpose and intent of this measure is to authorize the University of Hawai'i to issue revenue bonds for the purpose of financing the construction and maintenance of qualifying capital improvement projects.

Your Committee received testimony in support of this measure from the University of Hawai'i System, O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, and University of Hawai'i Alumni Association.

Your Committee finds that university revenue bonds have been utilized to finance the construction of new projects and the renovation and major repair of existing facilities at the University of Hawai'i. University projects have included faculty and student housing; classroom, laboratory, and office space; student support, research, athletic, and utility facilities; libraries; and parking structures. The availability of revenue bond authority would be a strategic revenue source and a supplement to limited general obligation funding and only used for financing projects that are revenue-generating or financially appropriate for the University of Hawai'i.

Your Committee has amended this measure by:

- (1) Specifying that any unexpended and unencumbered balance of the appropriation as of the close of business on June 30, 2020, instead of June 30, 2021, shall lapse; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Higher Education that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2005, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2005, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Chang).

SCRep. 3008 (Joint) Higher Education and Economic Development, Tourism, and Technology on H.B. No. 2172

The purpose and intent of this measure is to:

- (1) Establish an Office of Strategic Partnerships and Development to specifically analyze, evaluate, recommend, coordinate, oversee, and manage public-private partnerships that benefit the University of Hawai'i;
- (2) Authorize the Board of Regents of the University of Hawai'i to delegate to the President and Vice President of Budget and Finance of the University of Hawai'i to conduct activities and enter into business relationships that benefit the university's interests, under certain conditions; and
- (3) Appropriate funds for the hiring of staff to develop and manage the Office of Strategic Partnerships and Development.

Your Committees received testimony in support of this measure from the University of Hawai'i System, Ulupono Initiative, Ho'omanapono Political Action Committee, and O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i. Your Committees received testimony in opposition to this measure from the United Public Workers, AFSCME, Local 646, AFL-CIO. Your Committees received comments on this measure from the Department of Accounting and General Services.

Your Committees find that public-private partnerships are a contractual or cooperative arrangement between one or more public agencies and private-sector entities, typically of a long-term nature, in which public and private entities collaboratively partner on the components of projects and services, sharing responsibilities to design, construct, finance, manage, operate, and maintain a project, facility, or program. The goal of public-private partnerships is to capitalize on the strengths and assets of each sector, public and private, to help deliver a project or service more efficiently and effectively for the benefit of the general public. Allowing the University of Hawai'i to enter into public-private partnerships and creating an Office of Strategic Partnerships and Development to specifically coordinate and manage public-private partnerships would benefit the university and its students, as well as the State as a whole.

Your Committees have amended this measure by:

- (1) Clarifying that any public-private partnerships that are coordinated and managed by the Office of Strategic Partnerships and Development shall be located on lands controlled by the University of Hawai'i;

- (2) Removing in the Hawaii Revised Statutes, reference to the Board of Regents of the University of Hawaii's having exclusive jurisdiction over the internal structure, management, and operation of the University of Hawaii'i;
- (3) Deleting language that would have authorized the Board of Regents of the University of Hawaii'i to delegate to the President and Vice President of Budget and Finance of the University of Hawaii'i to conduct activities and enter into business relationships that benefit the university's interests, under certain conditions;
- (4) Inserting language that establishes a five-year University of Hawaii'i public-private partnership pilot project to allow the university to enter into public-private partnerships, under certain conditions; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Higher Education and Economic Development, Tourism, and Technology that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 2172, H.D. 2, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 2172, H.D. 2, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Higher Education: Ayes, 4. Noes, none. Excused, 1 (Chang).

Economic Development, Tourism, and Technology: Ayes, 3. Noes, none. Excused, 2 (Galuteria, Taniguchi).

SCRep. 3009 Higher Education on H.B. No. 2300

The purpose and intent of this measure is to require the University of Hawaii'i to submit a report to the Legislature within thirty days of each appropriation transfer between programs.

Your Committee received testimony in support of this measure from one individual. Your Committee received testimony in opposition to this measure from the University of Hawaii'i System.

Your Committee finds that, unlike most state agencies, the University of Hawaii'i has the authority to transfer appropriated funds and positions among programs and between fiscal quarters without legislative authorization. Although the University of Hawaii'i is currently required to account for these transfers in quarterly and fiscal year-end reports to the Legislature, your Committee finds that a thirty-day reporting requirement would make the financial flexibility enjoyed by the University of Hawaii'i more transparent and accountable.

As affirmed by the record of votes of the members of your Committee on Higher Education that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2300, H.D. 1, and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4; Ayes with Reservations (Kidani). Noes, none. Excused, 1 (Chang).

SCRep. 3010 Higher Education on H.B. No. 2501

The purpose and intent of this measure is to establish and appropriate funds for the University of Hawaii'i community college promise program to provide scholarships for the unmet direct cost needs of qualified students enrolled at any community college campus of the University of Hawaii'i System.

Your Committee received testimony in support of this measure from the University of Hawaii'i System, Department of Education, Kamehameha Schools, Oahu County Committee on Legislative Priorities of the Democratic Party of Hawaii'i, and three individuals. Your Committee received comments on this measure from the Department of Budget and Finance.

Your Committee finds that an educated labor force and engaged citizenry are essential in today's global, knowledge-based economy. Across the nation, states have set ambitious goals to boost college completion rates. The University of Hawaii's graduation initiative is a systemwide strategic initiative endorsed by the University of Hawaii'i Board of Regents with a goal to increase the educational capital of the State by increasing participation in, and completion of, college by students, particularly Native Hawaiians, low-income students, and those from underserved regions and populations, and preparing them for success in the workforce and their communities.

Your Committee further finds that despite Hawaii's overall high affordability ranking, attending college is a large expense for families earning less than \$30,000 annually and, historically, the State provides minimal need-based aid to students attending public institutions. However, monies allocated for the University of Hawaii's community college promise program in the 2017 state budget helped provide scholarship opportunities to one thousand community college students. This success demonstrates that the permanent establishment of the program is warranted at the community college level.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Higher Education that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2501, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2501, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Chang).

SCRep. 3011 Commerce, Consumer Protection, and Health on H.B. No. 2391

The purpose and intent of this measure is to grant the Administrator of the Department of Public Safety's Narcotics Enforcement Division the discretion to disclose confidential investigative information from the Electronic Prescription Accountability System, more

commonly known as the Prescription Drug Monitoring Program or PDMP, to authorized employees of the Department of Health's Alcohol and Drug Abuse Division and Emergency Medical Services and Injury Prevention System Branch.

Your Committee received testimony in support of this measure from the Department of Health, Department of Public Safety, Drug Policy Forum of Hawaii, and Hawaii Substance Abuse Coalition.

Your Committee finds that opioid addiction and abuse are a growing problem, with nearly seventy-five Hawaii residents dying from prescription opioid overdose each year. The PDMP is a useful resource that provides a picture of opioid prescribing and pharmacy dispensing practices and patterns in the State. Your Committee finds that the increased access to the PDMP proposed by this measure will better inform the Department of Health's Strategic Plan with preventing opioid addiction and overdose and will fulfill an objective of the Hawaii Opioid Action Plan developed by the Hawaii Opioid and Substance Misuse Initiative – a wide range of legislators, public officials, law enforcement and first responders, health care professionals, and citizens convened to develop and implement a plan to reduce prescription opioid abuse and deaths.

Your Committee has amended this measure by changing its effective date to July 1, 2018.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2391, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2391, H.D. 2, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, 1 (Chang).

SCRep. 3012 Commerce, Consumer Protection, and Health on H.B. No. 2118

The purpose and intent of this measure is to allow a condominium board to borrow money for the installation of equipment for the health and safety of residents, in the event of a government mandate to install such equipment, without the consent of owners where at least twenty percent of owners reside outside of the United States.

Your Committee received testimony in support of this measure from the State Fire Council, Honolulu Fire Department, Oahu County Committee on Legislative Priorities Committee of the Democratic Party of Hawai'i, Hawaii Council of Associations of Apartment Owners, Palehua Townhouse Association; and two individuals. Your Committee received testimony in opposition to this measure from one individual. Your Committee received comments on this measure from Hui 'Oia'i'o.

Your Committee finds that the devastating Marco Polo condominium fire in June 2017 highlighted the dangers of fires in buildings without fire sprinklers. Your Committee notes that automatic fire sprinkler systems have been proven to save lives and property and, when installed and properly maintained, can substantially reduce death rates and property loss.

Your Committee further finds that in the aftermath of the Marco Polo fire, the Honolulu City Council established the Residential Fire Safety Advisory Committee to recommend changes to City ordinances relating to the fire code and suggest ways that high-rise residential buildings could be made safer for residents and first responders. According to testimony received by your Committee, one of the challenges faced by the Residential Fire Safety Advisory Committee was how to assist condominium associations who wished to borrow funds necessary for fire sprinkler retrofitting. Under existing state law, borrowing such funds requires the consent of fifty percent of the ownership interest, which can be a challenging threshold to meet, particularly when many owners of a condominium association reside outside the United States.

Your Committee notes that this measure does not lower the threshold for borrowing money for any type of expenditure associated with the common elements of a condominium merely because twenty percent of the condominium's owners reside outside the country. Rather, this measure establishes a narrowly-tailored exception to the fifty percent requirement by specifying that, in the event of a government mandate and where at least twenty percent of condominium owners reside outside of the country, the board of directors of a condominium association shall not be required to obtain the consent of the owners prior to borrowing money to pay for the government-mandated installation of equipment or improvements to the common elements of the condominium for the health and safety of residents.

Your Committee has amended this measure by:

- (1) Changing its effective date to July 1, 2018; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2118, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2118, H.D. 1, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, 1 (Tokuda).

SCRep. 3013 Commerce, Consumer Protection, and Health on H.B. No. 1943

The purpose and intent of this measure is to establish two permanent full-time equivalent positions within the Office of Language Access to assist state agencies and state-funded agencies in implementing Hawaii's language access law.

Your Committee received testimony in support of this measure from the Judiciary, Office of Language Access, Hawaii Civil Rights Commission, State Health Planning and Development Agency, O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, Volunteer Legal Services Hawaii, Filipina Advocacy Network, Catholic Charities Hawaii, Tinalak Filipino Education Council, Hawaii Filipino Lawyers Association, Hawaii Interpreter Action Network, and three individuals.

Your Committee finds that the Office of Language Access provides state agencies with technical assistance including needs assessment, help with language access plans, training, work with translators and interpreters, and data collection. Your Committee further finds that the Office of Language Access is underfunded and understaffed to the point of being unable to complete its language access plans and unable to hire staff for the Statewide Language Access Resource Center, denying meaningful access to residents limited in English proficiency. Your Committee finds that Hawaii is one of the most culturally diverse states and has one of the highest proportions of non-English speakers in the nation, with over twelve percent speaking English "less than very well". Your Committee finds that the funds appropriated and positions created by this measure will allow the Office of Language Access to provide a full level of support to state agencies, fulfill its statutory duties, and provide genuine access to state services to many residents.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1943, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1943, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 1 (Chang).

SCRep. 3014 Commerce, Consumer Protection, and Health on H.B. No. 1624

The purpose and intent of this measure is to delay the implementation of the producer licensing requirements amended by Act 152, Session Laws of Hawaii 2017, until January 1, 2020.

Your Committee received testimony in support of this measure from the Hawaii Insurers Council and National Association of Insurance and Financial Advisors – Hawaii. Your Committee received comments on this measure from the Department of Commerce and Consumer Affairs.

Your Committee finds that, among other things, Act 152, Session Laws of Hawaii 2017 (Act 152), conforms the State's producer licensing requirements to the National Association of Insurance Commissioners' Producer Licensing Model Act by eliminating producer-to-producer appointments. Your Committee further finds that Hawaii is the only state in the country with producer-to-producer appointments. The repeal of this appointment process is a major change in the way insurance agents are and have been contracted, as it means that only insurers will be able to appoint individual producers. According to testimony received by your Committee, as of June 30, 2017, there were seven thousand licensed resident producers in the State, but it is unknown how many contracts between a producer and an insurer must be re-executed in light of Act 152's producer licensing requirements. This measure therefore delays the implementation requirements for producer licensing required by Act 152, which will provide insurers with ample time to initiate the new producer appointments.

Your Committee has amended this measure by changing its effective date to July 1, 2018.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1624, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1624, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 1 (Tokuda).

SCRep. 3015 Commerce, Consumer Protection, and Health on H.B. No. 2169

The purpose and intent of this measure is to appropriate funds to the Department of Health to support youth suicide early intervention, prevention, and education initiatives in the County of Maui, particularly for persons between the ages of ten and twenty-four.

Your Committee received testimony in support of this measure from the Maui County Commission on Children and Youth, Hawaii Family Forum, O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, Hawaii Catholic Conference, Abilities Unlimited, and three individuals. Your Committee received comments on this measure from the Department of Health.

Your Committee finds that between 2010 and 2016, there were one hundred fifty suicides among Hawaii residents ages ten to twenty-four, making suicide the leading cause of injury leading to death among this age group. Testimony received by your Committee indicates that the County of Maui has the highest incidence of youth suicide attempts in the State, highlighting the urgent need for resources for early intervention, prevention, and education initiatives where and for whom they are needed most.

Your Committee notes the concerns of the Department of Health that this measure should be expanded in scope to include the Counties of Hawaii and Kauai, but believes that at this time this measure should focus on where the problem is worst and can be expanded later as needed.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2169, H.D. 1, and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 1 (Chang).

SCRep. 3016 (Joint) Public Safety, Intergovernmental, and Military Affairs and Agriculture and Environment on H.B. No. 2043

The purpose and intent of this measure is to authorize the counties to:

- (1) Implement a sewer monitoring program that includes county inspections of sewer laterals connected to county sewers located on public or private property to detect saltwater infiltration, after the property owner is provided written notice; and
- (2) Compel private property owners to inspect sewer laterals for saltwater infiltration and perform repairs as necessary.

Your Committees received testimony in support of this measure from the Department of Health, Department of Environmental Management for the County of Hawaii, Department of Environmental Services for the City and County of Honolulu, and O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i.

Your Committees find that proper maintenance of wastewater facilities is essential for maintaining public health and welfare. Your Committees also find that the maintenance of wastewater facilities is made more difficult by infiltration from saltwater and other contaminants, leaking lateral lines, and inflow. Moreover, your Committees find that the counties' ability to address these problems is hindered by the lack of explicit statutory authority to inspect and require necessary repairs of lateral sewer lines on private property that are connected to county sewers. Accordingly, your Committees find that in order for the counties to properly maintain wastewater facilities, the counties need appropriate authority to conduct inspections of lateral sewer lines connecting to county sewers, including those lateral lines on private property, and to compel private property owners to make any necessary repairs to stop leaking lateral lines, and prevent infiltration and inflow.

Your Committees have amended this measure by:

- (1) Clarifying that the sewer monitoring program includes inspections of lateral sewer lines to detect leaks from laterals, infiltration, and inflow;
- (2) Providing definitions for "infiltration" and "inflow";
- (3) Changing the effective date to upon its approval; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Public Safety, Intergovernmental, and Military Affairs and Agriculture and Environment that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 2043, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 2043, H.D. 1, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chairs on behalf of the Committees.

Public Safety, Intergovernmental, and Military Affairs: Ayes, 3. Noes, none. Excused, 2 (Baker, Wakai).

Agriculture and Environment: Ayes, 4. Noes, none. Excused, 1 (Ruderman).

SCRep. 3017 (Joint) Public Safety, Intergovernmental, and Military Affairs and Labor on H.B. No. 2071

The purpose and intent of this measure is to:

- (1) Establish a law enforcement standards board for the certification of county police officers, state public safety officers, and employees of the Departments of Transportation, Land and Natural Resources, Taxation, and Attorney General with police powers;
- (2) Prohibit employment of non-certified law enforcement officers beginning on July 1, 2019;
- (3) Establish the law enforcement standards board special fund; and
- (4) Appropriate funds to defray the expenses of the Board.

Your Committees received testimony in support of this measure from the Department of Land and Natural Resources, Department of Public Safety, Department of Transportation, Young Progressives Demanding Action, and four individuals. Your Committees received testimony in opposition to this measure from the Maui Police Department, Hawaii Police Department, and one individual. Your Committees received comments on this measure from the Department of the Attorney General, Department of Budget and Finance, and one individual.

Your Committees find that proper regulation and oversight over law enforcement officers are critical to maintaining public health, safety, and welfare. Hawaii is the only state in the country without any state-level regulation of the police, as regulation is left to the counties. Hawaii also does not establish minimum standards required to be a police officer and does not have any procedure for revoking a police officer's certification for serious misconduct. Your Committees find that the State needs to enact a law that certifies law enforcement officers to ensure the highest standards of professionalism, uniformity of standards, and accountability throughout our islands. Accordingly, your Committees find that a law enforcement standards board for the certification of county police officers, state public safety officers, and employees of the Departments of Transportation, Land and Natural Resources, Attorney General, and Taxation with police powers should be established to ensure the proper oversight of law enforcement officers across the State.

Your Committees also note that while several executive departments, including the Department of Public Safety and Department of Transportation, have offered testimony in support of the measure, the Department of the Attorney General, the State's chief law enforcement agency, has not indicated whether it believes that the proposed certification board is necessary or proper for the State. Accordingly, your Committees request that if your Committees on Judiciary and Ways and Means decide to hear this measure, that the Department of the Attorney General state its position on the proposal and submit any proposed amendments that the Department believes would alleviate its concerns with the proposal to your Committees on Judiciary and Ways and Means.

Your Committees have amended this measure by:

- (1) Inserting an effective date of July 1, 2075, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Public Safety, Intergovernmental, and Military Affairs and Labor that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 2071, H.D. 2, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 2071, H.D. 2, S.D. 1, and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chairs on behalf of the Committees.

Public Safety, Intergovernmental, and Military Affairs: Ayes, 5. Noes, none. Excused, none.

Labor: Ayes, 3. Noes, none. Excused, 2 (Chang, English).

SCRep. 2018 (Joint) Public Safety, Intergovernmental, and Military Affairs and Agriculture and Environment on H.B. No. 2099

The purpose and intent of this measure is to require the Department of Agriculture to conduct a study on the feasibility of authorizing the Department to establish and designate ag-tech zones within the City and County of Honolulu and appropriate funds for the feasibility study.

Your Committees received testimony in support of this measure from the University of Hawai'i System, Hawaii State Teachers Association, O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, and one individual. Your Committees received comments on this measure from the Department of Agriculture.

Your Committees find that increasing local food production is essential for the future sustainability of the State. Approximately ninety percent of all food in the State is imported. Your Committees find that it essential for the State to explore more effective and environmentally responsible ways to increase food production to feed its residents. Moreover, your Committees find that agricultural technology, or ag-tech, should be at the forefront of the effort to revitalize the agricultural sector of the State and develop that industry's potential to be a major contributor to state revenues. Your Committees further find that the State must entertain alternatives to its current agricultural operations by bringing in new ideas for the use of land and practicing responsible land stewardship.

Additionally, your Committees note the suggestion presented in testimony by the Department of Agriculture that the Department may be able to implement this measure in a timely manner if the measure specified certain geographic areas on which the proposed feasibility study should focus.

Accordingly, your Committees have amended this measure by:

- (1) Adding specific geographic areas within the City and County of Honolulu on which the proposed feasibility study should focus;
- (2) Adding the Hawaii Community Development Authority and the City and County of Honolulu as agencies from which the Department of Agriculture should seek assistance to conduct the proposed feasibility study;
- (3) Changing the effective date to July 1, 2018; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Public Safety, Intergovernmental, and Military Affairs and Agriculture and Environment that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 2099, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 2099, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Public Safety, Intergovernmental, and Military Affairs: Ayes, 3. Noes, none. Excused, 2 (Baker, Wakai).

Agriculture and Environment: Ayes, 4; Ayes with Reservations (Rhoads). Noes, none. Excused, 1 (Ruderman).

SCRep. 2019 (Joint) Public Safety, Intergovernmental, and Military Affairs and Labor on H.B. No. 2454

The purpose and intent of this measure is to establish a three-year Correctional Industries Former Inmate Employment Pilot Project within the Department of Public Safety to assist former inmates as they reenter into society.

Your Committees received testimony in support of this measure from the Department of Public Safety, Office of Hawaiian Affairs, Community Alliance on Prisons, Ho'omanapono Political Action Committee, Oahu County Committee on Legislative Priorities of the Democratic Party of Hawaii, Young Progressives Demanding Action, and four individuals.

Your Committees find that successfully reintegrating former inmates back into society is essential for promoting and protecting public welfare. Your Committees also find that former inmates who are gainfully employed are less likely to re-offend and have a greater chance of becoming upstanding citizens. Your Committees further find that ninety-five percent of inmates will eventually be released from prison and that it is in the best interest of the State to facilitate the reentry of former inmates into society by providing opportunities for gainful employment. The Hawaii Correctional Industries Program employs several hundred inmates every year in print, furniture, canteen, and sewing shops that are located within correctional facilities as well as through outside work-lines that clean and maintain highways and byways. Your Committees find that this successful program could provide even more opportunities for former inmates as they transition back into society. Accordingly, this measure establishes a three-year pilot project within the Department of Public Safety to provide full-time equivalent employment in the Hawaii Correctional Industries Program to up to five former inmates who meet eligibility criteria.

As affirmed by the records of votes of the members of your Committees on Public Safety, Intergovernmental, and Military Affairs and Labor that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 2454, H.D. 1, and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Public Safety, Intergovernmental, and Military Affairs: Ayes, 5. Noes, none. Excused, none.

Labor: Ayes, 3. Noes, none. Excused, 2 (Chang, English).

SCRep. 3020 (Joint) Public Safety, Intergovernmental, and Military Affairs and Human Services on H.B. No. 2144

The purpose and intent of this measure is to require the Department of Public Safety to inform inmates who have one year or less remaining before their parole or release date of the availability of assistance in securing or verifying Medicaid eligibility.

Your Committees received testimony in support of this measure from the Office of Hawaiian Affairs, Community Alliance on Prisons, and one individual. Your Committees received comments on this measure from the Department of Human Services and Department of Public Safety.

Your Committees find that helping inmates transition back into everyday life is a vital component of successful inmate rehabilitation. One of the problems inmates encounter after an extended period of incarceration is a lack of access to appropriate health care coverage. Testimony submitted by the Department of Human Services indicates that Medicaid does not allow inmates to remain enrolled during incarceration. Instead, the Department's Med-Quest Division and the Department of Public Safety have executed a data-share agreement to allow for file transfers of incarceration and release dates for individuals so that the Medicaid eligibility determination process can begin just prior to release of inmates, thereby helping to facilitate a successful re-entry into the community by the inmate.

As affirmed by the records of votes of the members of your Committees on Public Safety, Intergovernmental, and Military Affairs and Human Services that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 2144, H.D. 1, and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Public Safety, Intergovernmental, and Military Affairs: Ayes, 3. Noes, none. Excused, 2 (Baker, Thielen).

Human Services: Ayes, 3. Noes, none. Excused, 2 (Harimoto, Tokuda).

SCRep. 3021 Education on H.B. No. 1882

The purpose and intent of this measure is to appropriate funds for laptop computers or tablets to be used by teachers and students for digital teaching and learning.

Your Committee received testimony in support of this measure from the Department of Education, State Public Charter School Commission, CompTIA, Oahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, and one individual.

Your Committee finds that schools have a responsibility for students' success in a globally competitive world. A twenty-first century education must prepare students for work in a world that integrates technology and new media communication. During the 2013-2014 school year, the Legislature appropriated funds to the Department of Education to implement the access learning pilot program that integrated laptop computers into eight schools. A study of the pilot program by the University of Hawaii West Oahu found that teachers, students, and parents believed that classroom technology significantly enhanced the quality of public education in Hawaii. This measure appropriates funds to ensure that students have fair access to technology in all public schools.

Your Committee further finds that quality after-school programs inspire and motivate children to learn, support children's social and emotional growth, and help raise academic achievement and that funding for after-school programs is critical for intermediate and middle school students, especially for schools that have a high number of students of Native Hawaiian ancestry, who are being arrested at a higher rate than any other ethnic background. By funding after-school programs at intermediate and middle schools that have a high number of Native Hawaiian students, students will have access to expanded learning opportunities through a range of enrichment and learning activities in various subjects, such as the arts, language, technology, and civic engagement.

Your Committee has amended this measure by:

- (1) Inserting language from S.B. No. 2083, S.D. 1, as a part II of the measure to appropriate funds for after-school programs at Kalaniana'ole Elementary and Intermediate School, Kapaa Middle School, Konawaena Middle School, and Waimea Canyon Middle School; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1882, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1882, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Dela Cruz, Kahele).

SCRep. 3022 Education on H.B. No. 2162

The purpose and intent of this measure is to:

- (1) Clarify that funds for teacher incentives, bonuses, and other compensation required by statute or collective bargaining shall not be paid out of a charter school's facilities funding or per-pupil funds;
- (2) Beginning with fiscal year 2018-2019, require that the funding request for teacher incentives, bonuses, and other compensation required by statute or collective bargaining shall be separate line items in the budget; and

- (3) Appropriate funds for teacher bonuses for hard-to-fill placement incentives and National Board certified teacher incentives for charter school teachers.

Your Committee received testimony in support of this measure from the Office of Hawaiian Affairs, State Public Charter School Commission, Hawai'i Teacher Standards Board, Kualapu'u School Public Conversion Charter, Hawaii State Teachers Association, Hawaii Public Charter Schools Network, and one individual. Your Committee received comments on this measure from the Department of Budget and Finance.

Your Committee finds that a major component in the success of public charter schools is the dedication of their administrators, staff, and teachers in creating an environment of educational excellence. Similar to their counterparts within public schools established and maintained by the Department of Education, teachers at public charter schools who have earned National Board certification or committed to work at schools in a location determined by the Department of Education as hard-to-fill are entitled to receive incentive bonuses. However, public charter schools have had to pay incentive bonuses out of each individual school's per-pupil funds, a cost not calculated into the monies provided each year by the State. This measure ensures that public charter school teachers are given the opportunity for incentive bonuses without impacting public charter school budgets.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2162, H.D. 1, and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Dela Cruz, Kahele).

SCRep. 3023 Education on H.B. No. 2352

The purpose and intent of this measure is to:

- (1) Increase membership on the Hawaii Teacher Standards Board to include the chairperson of the Native Hawaiian Education Council and a non-voting public university student teacher; and
- (2) Clarify that a permit is required for non-licensed teachers serving in public schools.

Your Committee received testimony in support of this measure from the Department of Education, University of Hawai'i System, Office of Hawaiian Affairs, Hawai'i Teacher Standards Board, Hawai'i Public Charter School Network, Native Hawaiian Education Council, Kamehameha Schools, Oahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, and numerous individuals.

Your Committee finds that the addition of a representative from the Native Hawaiian Education Council to the Hawaii Teachers Standards Board will provide insight to teacher preparation and licensure policies that will support Hawaiian education programs incorporating the study of Hawaiian culture, history, and language. Additionally, the inclusion of a non-voting teacher candidate member to the Hawaii Teachers Standards Board will provide feedback from emerging teachers to improve preparation program policies and procedures.

Your Committee further finds that clarifying the existing requirements that public school teachers must have to be eligible to serve as a public school teacher ensures that children are receiving quality education by trained and certified professionals.

Your Committee has amended this measure by making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2352, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2352, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Dela Cruz, Kahele).

SCRep. 3024 Ways and Means on H.B. No. 1604

The purpose and intent of this measure is to authorize the issuance of general obligation bonds and to make the constitutionally-required findings that the bond issuance will not cause the State debt limit to be exceeded.

Your Committee received testimony in support of this measure from the Department of Budget and Finance.

Your Committee finds that the proceeds generated from the general obligation bonds authorized to be issued under this measure will be used to finance the fulfillment of important state objectives.

Your Committee has amended this measure by:

- (1) Correcting discrepancies in the quoted text of the Hawaii State Constitution; and
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1604, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1604, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 9. Noes, none. Excused, 2 (Keith-Agaran, Shimabukuro).

SCRep. 3025 Ways and Means on H.B. No. 2395

The purpose and intent of this measure is to authorize the Department of Taxation to require certain taxpayers to file tax returns electronically.

Your Committee received testimony in support of this measure from the Department of Taxation.

Your Committee received comments on this measure from the Tax Foundation of Hawaii.

Your Committee finds that the electronic filing of tax returns increases the efficiency of tax administration. This measure authorizes the Department of Taxation to require certain taxpayers to file their returns electronically. Your Committee notes that the measure does not authorize the Department of Taxation to require individual taxpayers to electronically file income tax returns.

Your Committee has amended this measure by:

- (1) Clarifying that, as a prerequisite to requiring a taxpayer to electronically file a tax return, the Department of Taxation shall provide:
 - (A) An electronic filing option to the taxpayer; and
 - (B) No less than ninety days prior written notice to the general public of the Department's intention to require electronic filing;
- (2) Correcting the numbering of two sections of the measure; and
- (3) Making a technical nonsubstantive amendment for the purpose of clarity.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2395, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2395, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 9. Noes, none. Excused, 2 (Keith-Agaran, Shimabukuro).

SCRep. 3026 Ways and Means on H.B. No. 2396

The purpose and intent of this measure is to increase funding for the Special Enforcement Section of the Department of Taxation to investigate fraud and noncompliance, especially in relation to the transient accommodations tax.

More specifically, the measure increases the annual deposit ceiling of the tax administration special fund from \$700,000 to \$1,000,000.

Your Committee received testimony in support of this measure from the Department of Taxation.

Your Committee received comments on this measure from the Tax Foundation of Hawaii.

Your Committee finds that the Special Enforcement Section plays a major role in the Department of Taxation's efforts to encourage compliance with Hawaii's tax laws. Your Committee believes that increasing the Special Enforcement Section's operational budget and expanding its workforce would enable the Special Enforcement Section to enhance its tax enforcement functions.

Your Committee has amended this measure by:

- (1) Increasing the annual deposit ceiling of the tax administration special fund to \$2,000,000;
- (2) Authorizing the use of tax administration special fund moneys to fund support staff positions in the Special Enforcement Section of the Department of Taxation;
- (3) Authorizing the Department of Taxation to establish five full-time equivalent (5.0 FTE) positions within the Special Enforcement Section; and
- (4) Changing the effective date from July 1, 2030, to July 1, 2018.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2396, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2396, H.D. 1, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 9. Noes, none. Excused, 2 (Keith-Agaran, Shimabukuro).

SCRep. 3027 Ways and Means on H.B. No. 2416

The purpose and intent of this measure is to clarify how the use of intangible property is treated under the State's general excise and use tax laws.

Specifically, the measure clarifies that:

- (1) Intangible property used outside the State shall be exempted from the general excise tax; and
- (2) Intangible property acquired from an unlicensed seller and used in the State is subject to the use tax.

Your Committee received testimony in support of this measure from the Department of Taxation.

Your Committee received comments on this measure from the Tax Foundation of Hawaii.

Your Committee finds that this measure will clarify the application of the state general excise and use taxes to intangible property.

Your Committee has amended this measure by clarifying that the use tax does not apply to stocks and bonds.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2416, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2416, H.D. 1, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 9. Noes, none. Excused, 2 (Keith-Agaran, Shimabukuro).

SCRep. 3028 Judiciary on H.B. No. 1646

The purpose and intent of this measure is to provide that when a candidate other than the incumbent is elected to the office of United States Senator as part of Hawaii's congressional delegation, and the incumbent vacates the office prior to the expiration of the incumbent's term, the governor must appoint the member-elect to immediately fill the vacancy.

Your Committee did not receive any testimony on this measure.

Your Committee finds that the United States Congress operates on a seniority system of granting privileges, such as selection of offices and committee assignments, to its members who have served the longest. Greater seniority as compared to other newly-elected Senators will empower members of the Hawaii delegation to the Senate to better represent the interests of Hawaii's citizens. This measure will establish a procedure through which a newly-elected Senator will be automatically appointed to complete the term of an outgoing incumbent if the incumbent resigns between the general election and the end of the incumbent's term.

Your Committee has amended this measure by:

- (1) Inserting an effective date of July 1, 2035, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1646, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1646, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 3029 Judiciary on H.B. No. 1667

The purpose and intent of this measure is to make a housekeeping amendment to clarify that eligibility for probation does not apply to drug offenses involving the possession or use of drug paraphernalia for the purpose of making the law governing the probation of drug offenders consistent with Act 72, Session Laws of Hawaii 2017, which decriminalized certain offenses involving the use, possession, and delivery of drug paraphernalia.

Your Committee received testimony in support of this measure from the Judiciary and O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i.

Your Committee finds that Act 72, Session Laws of Hawaii 2017, decriminalized certain offenses related to the use, possession, and delivery of drug paraphernalia. As a result, statutory language governing probation eligibility for offenders convicted of those offenses is no longer relevant. This measure will increase consistency within the Hawaii Revised Statutes by removing language that no longer has coherent substantive effect.

Your Committee has amended this measure by inserting an effective date of July 1, 2018.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1667, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1667, H.D. 1, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 3030 Judiciary on H.B. No. 1770

The purpose and intent of this measure is to appropriate monies to the Department of the Prosecuting Attorney of the City and County of Honolulu for the career criminal prosecution unit.

Your Committee received testimony in support of this measure from the Department of the Attorney General, Department of the Prosecuting Attorney of the City and County of Honolulu, Department of Prosecuting Attorney for the County of Maui, Office of the Prosecuting Attorney of the County of Hawai'i, Oahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i.

Your Committee finds that the Legislature established the career criminal prosecution program because it found that a substantial and disproportionate amount of serious crime is committed by a relatively small number of multiple and repeat felony offenders, commonly known as career criminals. By their nature, career criminal cases are often labor intensive and require experienced and well-trained deputy prosecutors to be successfully prosecuted. This measure will provide funding to the career criminal prosecution unit to allow it to continue operating at its current capacity and caseload. Your Committee notes that the original amount requested for this measure was \$493,818.

Your Committee has amended this measure by inserting an effective date of July 1, 2035, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1770, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1770, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 3031 Judiciary on H.B. No. 1773

The purpose and intent of this measure is to authorize a judge or magistrate to approve a search warrant based on sworn oral statements or electronic communications.

Your Committee received testimony in support of this measure from the Department of the Prosecuting Attorney of the City and County of Honolulu, Department of the Prosecuting Attorney of the County of Maui, Honolulu Police Department, Hawai'i County Police Department, and Mothers Against Drunk Driving Hawaii.

Your Committee finds that while Rule 41(h) of the Hawaii Rules of Penal Procedure authorizes a judge to issue a search warrant based on a sworn oral statement, corresponding sections of the Hawaii Revised Statutes are unclear in substantiating this authorization. Under sections 803-31 and 803-34, Hawaii Revised Statutes, warrants are specifically required to be in writing, and section 803-33, Hawaii Revised Statutes, requires that a search warrant be supported by a written affidavit made or taken under oath before an officer of the court or a notary public. This discrepancy between the Hawaii Rules of Penal Procedure and the Hawaii Revised Statutes impedes the ability of law enforcement officers to collect evidence and effectively conduct investigations in scenarios in which it is not possible to obtain a written warrant supported by a written affidavit before relevant evidence becomes unavailable. This measure updates chapter 803, Hawaii Revised Statutes, by codifying language and procedures contained in Rule 41(h) of the Hawaii Rules of Penal Procedure.

Your Committee has amended this measure by:

- (1) Clarifying that a prosecutor is required to review an application for a warrant that is based on a sworn statement communicated electronically to the extent reasonably practicable;
- (2) Inserting an effective date of July 1, 2035, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1773, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1773, H.D. 1, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Gabbard).

SCRep. 3032 Judiciary on H.B. No. 1774

The purpose and intent of this measure is to:

- (1) Establish standards and procedures for withholding income by employers of persons subject to restitution orders to ensure restitution payments are made; and
- (2) Appropriate monies to the Department of the Attorney General to enhance restitution payment collection.

Your Committee received testimony in support of this measure from the Crime Victim Compensation Commission, Department of the Prosecuting Attorney of the City and County of Honolulu, Sex Abuse Treatment Center, and Oahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i. Your Committee received testimony in opposition to this measure from the Office of the Public Defender and Community Alliance on Prisons. Your Committee received comments on this measure from the Department of the Attorney General.

Your Committee finds that restitution orders are intended to provide a way for victims of crimes who suffer substantial financial losses as a result of crimes committed against them to recover some of their losses such as the value of stolen or damaged property, lost wages, medical expenses, and funeral and burial expenses. Although restitution orders are issued in many criminal cases, they are not strictly enforced and victims are often forced to file civil lawsuits against offenders in an attempt to enforce an order. This measure will establish standards and procedures for withholding income of offenders in order to ensure consistent enforcement of restitution orders and facilitate payment to victims.

Your Committee has amended this measure by:

- (1) Requiring the Department of the Attorney General to disburse withheld restitution payments to a victim within thirty days of receiving the monies from an employer instead of five business days;
- (2) Inserting an effective date of July 1, 2035, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1774, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1774, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 3033 Judiciary on H.B. No. 1850

The purpose and intent of this measure is to clarify that the exemption for parents, guardians, and other persons in loco parentis to the offense of promoting pornography for minors specifically applies to legal guardians.

Your Committee received testimony in support of this measure from the Department of the Prosecuting Attorney of the City and County of Honolulu and Honolulu Police Department.

Your Committee finds that the purpose of this measure is to strengthen the statutory language regarding promoting pornography for minors and to close unintended loopholes therein. For that reason, this measure clarifies that the exemption to the offense for guardians of a minor specifically applies to legal guardians only. Your Committee further finds that removing “other person[s] in loco parentis” from the exemption would further strengthen the language regarding promoting pornography to minors by explicitly limiting the exemption to parents and legal guardians.

Your Committee has amended this measure by:

- (1) Removing “other person[s] in loco parentis” from the exemption to the offense of promoting pornography for minors;
- (2) Inserting an effective date of July 1, 2035, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1850, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1850, H.D. 1, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 3034 Judiciary on H.B. No. 1852

The purpose and intent of this measure is to amend the definition of “pornographic for minors” by clarifying that a material or performance is not required to appeal specifically to the minor’s prurient interest in order to be found pornographic for minors.

Your Committee received testimony in support of this measure from the Department of the Prosecuting Attorney of the City and County of Honolulu and Honolulu Police Department.

Your Committee finds that one element of the definition of pornographic material in general is that it appeals to the prurient interest. In some cases regarding material that is pornographic to minors, a minor may be exposed to material before the minor is of sufficient age to have developed prurient interests. This measure will clarify that material that is “pornographic for minors” is not required to appeal specifically to the prurient interest of the minor.

Your Committee has amended this measure by inserting an effective date of July 1, 2035, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1852, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1852, H.D. 1, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 3035 Judiciary on H.B. No. 1936

The purpose and intent of this measure is to provide that the environmental courts shall not have exclusive, original jurisdiction over any proceeding relating to parking violations under certain laws and administrative rules.

Your Committee received testimony in support of this measure from the Judiciary, Department of Land and Natural Resources, and Oahu County Committee on Legislative Priorities of the Democratic Party of Hawai‘i.

Your Committee finds that the primary focus of the environmental courts is to ensure the fair, consistent, and effective resolution of cases involving the environment in Hawaii. Your Committee further finds that most of the parking violations at the State’s small boat harbors and state parks do not pose a direct or severe impact to the environment and can be easily and more efficiently processed through the regular district courts or the Traffic Violations Bureau of the First Circuit. This measure will allow the environmental courts to focus on cases within the purview of the court while still exercising jurisdiction over those parking cases that do pose an impact to the environment.

Your Committee has amended this measure by:

- (1) Inserting an effective date of July 1, 2018; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1936, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1936, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 3036 Judiciary on H.B. No. 2033

The purpose and intent of this measure is to authorize service of summons on nonresident property owners for actions involving the property owned by the nonresident through a summons mailed to the mailing address on record with the real property tax office in the county in which the property is located.

Your Committee received testimony in support of this measure from one individual.

Your Committee finds that a significant amount of real property in Hawaii is owned by nonresidents of the State. When problems arise concerning the real property owned by nonresidents, those owners are frequently difficult or impossible to properly serve with summons and, as a result, the process of remedying those problems cannot proceed. This measure will allow issues concerning real property owned by nonresidents of the State to be more efficiently and effectively resolved.

Your Committee has amended this measure by:

- (1) Removing language amending section 634-36, Hawaii Revised Statutes, to authorize service on nonresident property owners through a summons mailed to the mailing address on record with the real property tax office in the county in which the property is located and instead inserting language establishing a new section within chapter 634, Hawaii Revised Statutes, with substantially identical provisions;
- (2) Inserting an effective date of July 1, 2035, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2033, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2033, H.D. 1, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Gabbard).

SCRep. 3037 Judiciary on H.B. No. 2051

The purpose and intent of this measure is to appropriate monies for grants to maintain the weed and seed strategy of collaborative efforts to reclaim, restore, and rebuild communities.

Your Committee received testimony in support of this measure from the Department of the Attorney General, Oahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, and eighteen individuals.

Your Committee finds that the weed and seed strategy is the result of a program initiated by the United States Department of Justice in 1991 in an attempt to weed out violent crime, gang activity, and drug use and trafficking in target areas and then seed the target area by restoring the neighborhood through social and economic revitalization. Since the strategy's implementation in Hawaii, partners among law enforcement and members of the community have reported significant reductions in criminal activity and improved relations between law enforcement and the public in areas such as Waipahu, Kalihi, and Chinatown. With respect to the amount of funding necessary to maintain the weed and seed strategy, your Committee notes that Weed and Seed Hawaii, Inc., has completed an application for a grant-in-aid requesting \$400,000 for fiscal year 2019.

Your Committee has amended this measure by:

- (1) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2051, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2051, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 3038 Judiciary on H.B. No. 2131

The purpose and intent of this measure is to:

- (1) Establish a Hawaii sexual assault response and training program to address the manner in which sexual assault evidence collection kits are processed and tracked and ensure that victims of sexual assault are informed of their rights under the law; and
- (2) Require annual reports by the Department of the Attorney General to the President of the Senate and Speaker of the House of Representatives on the statewide inventory of sexual assault collection kits collected and submitted to an accredited and approved DNA laboratory.

Your Committee received testimony in support of this measure from the Department of the Attorney General, Hawaii State Commission on the Status of Women, Department of the Prosecuting Attorney of the City and County of Honolulu, Honolulu Police Department, Sex Abuse Treatment Center, Hawaii Women's Coalition, Community Alliance on Prisons, Hawai'i Women Lawyers, Planned Parenthood Votes Northwest and Hawaii, O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, Joyful Heart Foundation, and five individuals.

Your Committee finds that deoxyribonucleic acid (DNA) evidence is a powerful law enforcement tool that can identify unknown suspects, connect crimes to known perpetrators, and exonerate the innocent. DNA evidence, collected through sexual assault evidence

collection kits, is especially vital in cases of sexual assault. Many sexual assaults are committed by repeat and serial offenders, and only 12.5 percent of sexual assault reports result in conviction. This measure will establish a Hawaii sexual assault response and training program to address and improve the manner in which sexual assault evidence collection kits are processed and tracked and to ensure that victims of sexual assault are informed of their rights under the law.

Your Committee has amended this measure by:

- (1) Changing the mandatory storage period for untested sexual assault evidence collection kits if the victim was eighteen years of age or older at the time of the incident from five years to six years;
- (2) Removing the appropriations to the Department of the Attorney General and the counties from the general revenues of the State and adding an appropriation to the Department of the Attorney General from the DNA registry special fund;
- (3) Making a conforming amendment to section 706-603(3), Hawaii Revised Statutes, to authorize use of the DNA registry special fund for the purposes of this measure;
- (4) Inserting an effective date of July 1, 2018; provided that the section relating to unreported sexual assault evidence collection kits shall take effect on January 1, 2019; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2131, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2131, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Gabbard).

SCRep. 3039 Judiciary on H.B. No. 2418

The purpose and intent of this measure is to authorize the Department of Education to expend previously appropriated monies to satisfy the settlement of class counsel attorney's fees related to a class action lawsuit against the State.

Your Committee received testimony in support of this measure from the Department of Education, Department of the Attorney General, and Special Education Advisory Council.

Your Committee finds that the class action case at issue in this measure was in litigation for seven years and that settlement negotiations relating to the remedies took place over four years. The Department of Education was aware of the settlement and associated attorney fees, and planned accordingly to cover the costs associated with the case without a separate appropriation request. As a result, the monies to be allocated to the class counsel attorney's fees were included in the Department's budget request in fiscal year 2017 as a part of the Department's operating expenses. Authorization is now needed so that the monies may be expended for their intended purpose.

Your Committee has amended this measure by inserting an effective date of July 1, 2050, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2418, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2418, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5; Ayes with Reservations (Thielen). Noes, none. Excused, none.

SCRep. 3040 Judiciary on H.B. No. 2455

The purpose and intent of this measure is to appropriate monies to the Department of Business, Economic Development, and Tourism for the 2018 Gannemono celebration to commemorate the arrival of the first group of organized Japanese immigrants in Hawaii.

Your Committee received testimony in support of this measure from the Department of Business, Economic Development, and Tourism and O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i.

Your Committee finds that 2018 marks the one hundred fiftieth anniversary of the arrival in Hawaii of the first group of organized Japanese immigrants, known as the gannemono or "first year men". Twenty community organizations in the State dedicated to perpetuating the history of Japanese-Americans in Hawaii are engaged in a collective effort to plan events during the year-long commemorative celebration. These events will foster friendships between Hawaii and Japan and honor the legacy of the Gannemono and the contributions that they and their descendants have made in the State through the years.

Your Committee has amended this measure by inserting an effective date of December 23, 2035, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2455, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2455, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 3041 Judiciary on H.B. No. 2698

The purpose and intent of this measure is to appropriate monies for various programs, ceremonies, and activities commemorating the centennial anniversary of World War I and the men and women who served in the war.

Your Committee received testimony in support of this measure from the Office of Veterans Services; Hawaii State World War I Centennial Task Force; Military Order of the World Wars, Department of Hawaii; National Association for Uniformed Services Hawaii Chapter; National Trust for Historic Preservation; Daughters of the American Revolution; American Veterans Hawaii Post 2 Ewa Battlefield; 808 Cleanups; Oahu County Committee on Legislative Priorities of the Democratic Party of Hawaii; Vietnam Veterans of America Chapter 858; and ten individuals.

Your Committee finds that direct American involvement in World War I was initiated by a request from the President to Congress for a declaration of war against the German Empire on April 2, 1917, and lasted until an armistice was signed on November 11, 1918. During the war, approximately ten thousand men and women from the Territory of Hawaii volunteered to serve in either military or civilian roles. This measure will provide the resources to commemorate the centennial anniversary of World War I and honor the sacrifices of the men and women who served in the war.

Your Committee has amended this measure by inserting an effective date of March 19, 2035, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2698, H.D. 3, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2698, H.D. 3, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 3042 Judiciary on H.B. No. 2752

The purpose and intent of this measure is to appropriate funds to the Judiciary to conduct an evaluation study to assess the impact of the Community Court Outreach Project in reducing the administrative burdens within the judicial system and for any staff and technology necessary for conducting the community court at community sites.

Your Committee received testimony in support of this measure from the Judiciary, Office of the Public Defender, Community Alliance on Prisons, Oahu County Committee on Legislative Priorities of the Democratic Party of Hawaii.

Your Committee finds that the Community Court Outreach Project began in January 2017 as a collaborative pilot project among the Judiciary, Department of the Prosecuting Attorney for the City and County of Honolulu, and Office of the Public Defender. The project was permanently established by Act 55, Session Laws of Hawaii 2017, as a way to help nonviolent offenders who face problems such as drug abuse and mental health challenges obtain basic services and necessities like food and shelter. Your Committee has heard testimony from the Judiciary reporting that participants in the program have obtained housing, driver's licenses, referrals to social services, and employment in addition to having performed over six hundred forty hours of community service. This measure will provide monies to the Judiciary to conduct a thorough evaluation of the Community Court Outreach Project and expand the project to fulfill its mandate.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2752, and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 3043 (Joint) Agriculture and Environment and Human Services on H.B. No. 2670

The purpose and intent of this measure is to require the Department of Agriculture to develop and administer a farmers' market matching incentive program for beneficiaries of the Supplemental Nutrition Assistance Program.

Your Committees received testimony in support of this measure from the Department of Health; Office of the Mayor of the County of Hawaii; Ulupono Initiative; Hawaii Primary Care Association; Hawaii Pacific Health; Hawaii Public Health Association; Hawaii Public Health Institute; Hawaii Farm Bureau; Pioneering Healthier Communities Initiative of Honolulu; Waianae Coast Comprehensive Health Center; The Food Basket Inc.; Hawaii Island's Food Bank; American Cancer Society Cancer Action Network; Hawaii Children's Action Network; O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawaii; Hawaii Appleseed Center for Law & Economic Justice; Community First; We Are One, Inc.; and sixty-five individuals. Your Committees received comments on this measure from the Department of Human Services and Department of Agriculture.

Your Committees find that fresh fruits and vegetables are an integral part of a healthy diet and central to the prevention of obesity and disease. Every community should have adequate access to healthy dietary options; however, the high cost of healthy food often makes this difficult. Your Committees find that this measure provides a mechanism by which low income households can have greater access to high quality fresh fruits and vegetables.

Your Committees urge the Department of the Attorney General to weigh in on the implications of this measure with regard to the "equal treatment" clause under the United States Department of Agriculture Food and Nutrition Service regulations and the commerce clause under the United States Constitution.

Your Committees have amended this measure by:

- (1) Renaming the program as the "local healthy food incentive program";
- (2) Making the incentive program applicable to purchases of Hawaii-grown fruits and vegetables;
- (3) Expanding the incentive program to include other direct food retailers who participate in the Supplemental Nutrition Assistance Program;
- (4) Specifying that the dollar-for-dollar match is up to \$20 per visit;

- (5) Deleting language that would have established a special fund;
- (6) Inserting an appropriation amount of \$300,000 for the incentive program;
- (7) Changing the effective date to July 1, 2018; and
- (8) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Agriculture and Environment and Human Services that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 2670, H.D. 2, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 2670, H.D. 2, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Agriculture and Environment: Ayes, 3. Noes, none. Excused, 2 (Nishihara, Ruderman).

Human Services: Ayes, 3. Noes, none. Excused, 2 (Harimoto, Wakai).

SCRep. 3044 Agriculture and Environment on S.C.R. No. 37

The purpose and intent of this measure is to request the Department of Agriculture to establish the Agriculture 2030 Investment Program and a farm-to-plate program in Hawaii.

Your Committee received testimony in support of this measure from the University of Hawaii System; Hawai'i Farm Bureau; American Heart Association; Kulahaven Farms LLC; Hawaii Tropical Fruit Growers; Hawaii Farmers Union United; Maui County Farm Bureau; Maui Farmers Union United; Hawaii Cattlemen's Council, Inc.; O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i; Upcountry Doctor; and sixty-six individuals. Your Committee received comments on this measure from the Department of Agriculture.

Your Committee finds that although the State has identified actions to increase Hawaii's local food production, few systematic implementation steps have been taken toward the goals of doubling local food production by 2020 and increased food security. Your Committee further finds that Vermont, beginning in 2009, implemented a program called Farm to Plate, which establishes a systematic process to increase Vermont's agricultural production. The success of the Vermont program motivates your Committee to support the establishment of the Agriculture 2030 Investment Program and a farm-to-plate program in Hawaii and to move the State closer to the goals of doubled local food production and food security.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 37, as amended herein, and recommends that it be referred to your Committee on Ways and Means, in the form attached hereto as S.C.R. No. 37, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Rhoads).

SCRep. 3045 Public Safety, Intergovernmental, and Military Affairs on S.C.R. No. 9

The purpose and intent of this measure is to request the congressional delegation of Hawaii and United States Congress to oppose "concealed carry reciprocity" legislation that aims to:

- (1) Remove state and local police power to set public safety standards for who may carry a concealed firearm in public; and
- (2) Put local law enforcement at risk when encountering an armed out-of-state visitor who may be carrying a firearm with no permit, leaving police and sheriffs with no means to verify if a person is carrying a firearm lawfully.

Your Committee received testimony in support of this measure from the Police Department of the City and County of Honolulu, Police Department of the County of Maui, Injury Prevention Advisory Committee, Oahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, Hawaii Youth Services Network, and eight individuals. Your Committee received testimony in opposition to this measure from the National Rifle Association of America, 2A Hawaii, Hawaii Rifle Association, Institute for Rational and Evidence-based Legislation, Lessons in Firearms Education Hawaii, and ninety-seven individuals.

Your Committee finds that a permit authorizing the concealed carry of a loaded handgun is legal in all fifty states and that each state has its own standards of who may or may not carry a firearm in public. Your Committee notes that the State of Hawaii requires training for every concealed carry permit applicant and is able to deny applications based on any dangerous warning sign, such as a history of domestic disturbances or mental health concerns, while nineteen states do not require safety training and twenty-five states do not deny applications based on dangerous warning signs.

Your Committee further finds that "concealed carry reciprocity" legislation would allow individuals who have not been properly vetted to carry a concealed firearm in public. This legislation would take away the State's authority to set specific laws and circumvent already established laws that are tailored to the needs of the residents of Hawaii in creating safe communities. While your Committee recognizes the concerns of those who oppose gun regulation, your Committee strongly believes that maintaining the authority to establish gun laws at the state and local level will better ensure the safety of the public, which is the highest priority of your Committee.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 9 and recommends that it be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Ihara).

SCRep. 3046 Public Safety, Intergovernmental, and Military Affairs on S.R. No. 7

The purpose and intent of this measure is to request the congressional delegation of Hawaii and United States Congress to oppose “concealed carry reciprocity” legislation that aims to:

- (1) Remove state and local police power to set public safety standards for who may carry a concealed firearm in public; and
- (2) Put local law enforcement at risk when encountering an armed out-of-state visitor who may be carrying a firearm with no permit, leaving police and sheriffs with no means to verify if a person is carrying a firearm lawfully.

Your Committee received testimony in support of this measure from the Police Department of the City and County of Honolulu, Police Department of the County of Maui, Oahu County Committee on Legislative Priorities of the Democratic Party of Hawai‘i, Hawaii Youth Services Network, and three individuals. Your Committee received testimony in opposition to this measure from 2A Hawaii, Hawaii Rifle Association, Honolulu County Republican Party, Institute for Rational and Evidence-based Legislation, National Rifle Association of America, and seventy-three individuals.

Your Committee finds that a permit authorizing the concealed carry of a loaded handgun is legal in all fifty states and that each state has its own standards of who may or may not carry a firearm in public. Your Committee notes that the State of Hawaii requires training for every concealed carry permit applicant and is able to deny applications based on any dangerous warning sign, such as a history of domestic disturbances or mental health concerns, while nineteen states do not require safety training and twenty-five states do not deny applications based on dangerous warning signs.

Your Committee further finds that “concealed carry reciprocity” legislation would allow individuals who have not been properly vetted to carry a concealed firearm in public. This legislation would take away the State’s authority to set specific laws and circumvent already established laws that are tailored to the needs of the residents of Hawaii in creating safe communities. While your Committee recognizes the concerns of those who oppose gun regulation, your Committee strongly believes that maintaining the authority to establish gun laws at the state and local level will better ensure the safety of the public, which is the highest priority of your Committee.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 7 and recommends that it be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Ihara).

SCRep. 3047 (Joint) Public Safety, Intergovernmental, and Military Affairs and Agriculture and Environment on S.R. No. 19

The purpose and intent of this measure is to urge the County of Hawai‘i to prioritize infrastructure improvements to wastewater management through a comprehensive study for economic development, infrastructure, sustainability, education, and public policy.

Your Committees received testimony in support of this measure from the Department of Health, Oahu County Committee on Legislative Priorities of the Democratic Party of Hawai‘i, and one individual. Your Committees received comments on this measure from the Department of Environmental Management for the County of Hawai‘i.

Your Committees find that proper maintenance of wastewater infrastructure is essential for protecting the State’s land and resources and for promoting future sustainability. Your Committees further find that the wastewater management system for the County of Hawai‘i has not been updated in many years and consequently, wastewater infrastructure for the county does not employ the most modern and effective wastewater management techniques and processes. However, your Committees also find that before the county can make any significant modifications to its wastewater management system, the county needs to conduct a feasibility study that focuses on finding ways to maximize current investment in wastewater systems and all modern and more cost-effective technical and financial models that improve operations, performance, and cost.

As affirmed by the records of votes of the members of your Committees on Public Safety, Intergovernmental, and Military Affairs and Agriculture and Environment that are attached to this report, your Committees concur with the intent and purpose of S.R. No. 19 and recommend that it be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
Public Safety, Intergovernmental, and Military Affairs: Ayes, 3. Noes, none. Excused, 2 (Baker, Wakai).
Agriculture and Environment: Ayes, 3. Noes, none. Excused, 2 (Rhoads, Ruderman).

SCRep. 3048 Labor on Gov. Msg. Nos. 566, 567, 568, and 569

Recommending that the Senate advise and consent to the nominations of the following:

HAWAI‘I WORKFORCE DEVELOPMENT COUNCIL

- G.M. No. 566 JASON ITO, for a term to expire 06-30-2018;
- G.M. No. 567 JASON ITO, for a term to expire 06-30-2022;
- G.M. No. 568 MICHAEL KAMIYA, for a term to expire 06-30-2020; and
- G.M. No. 569 YVETTE GIBSON, for a term to expire 06-30-2021

Your Committee reviewed the personal histories, resumes, and statements submitted by Jason Ito, Michael Kamiya, and Yvette Gibson for service on the Hawaii Workforce Development Council.

Jason Ito

Your Committee received testimony in support of the nominations for the appointment and reappointment of Mr. Ito from the Department of Labor and Industrial Relations; Workforce Development Council; Kyo-ya Management Company, Ltd.; Hawai'i Lodging & Tourism Association; Chamber of Commerce Hawaii; and seven individuals.

Upon review of the testimony, your Committee finds that Mr. Ito's experience in labor and community relations, background, and knowledge qualify him for appointment and reappointment to the Hawaii Workforce Development Council as a representative of the private sector, including nonprofit organizations and business in the State. Mr. Ito is currently employed as Director of Administration, Labor, and Community Relations for Kyo-ya Management Company, Ltd., where he is responsible for all union and labor relations, collective bargaining agreements, associate development and enrichment programs, and community engagement and support. Mr. Ito also has over twenty-five years of experience in the tourism and hospitality industry. Your Committee finds that Mr. Ito brings to the Council extensive expertise in labor and community relations to assist in aligning the work of the Department of Labor and Industrial Relations with the needs of businesses and individual customers.

Michael Kamiya

Your Committee received testimony in support of the nomination for the appointment of Mr. Kamiya from the Department of Labor and Industrial Relations, Workforce Development Council, Department of Agriculture, Hawai'i Farm Bureau, Maui County Farm Bureau, and one hundred fifteen individuals.

Upon review of the testimony, your Committee finds that Mr. Kamiya's experience in the agricultural community, background, and knowledge qualify him for appointment to the Hawaii Workforce Development Council as a representative of the private sector, including nonprofit organizations and business in the State. Mr. Kamiya is currently employed as the sale director of Kamiya Gold, Inc., where he oversees all sales and distribution of fresh papayas, including customer and vendor relations, accounting and bookkeeping, and employee management. Mr. Kamiya also has almost seven years of experience in the agricultural community. Your Committee finds that Mr. Kamiya brings to the Council extensive expertise in the management and sustainability of a small family farm and therefore will be an asset to the Council from the perspective small agricultural producer.

Yvette Gibson

Your Committee received testimony in support of the nomination for the appointment of Ms. Gibson from the Department of Labor and Industrial Relations, Workforce Development Council, Hawai'i Pacific Health, and three individuals.

Upon review of the testimony, your Committee finds that Ms. Gibson's experience in human resources, background, and knowledge qualify her for appointment to the Hawaii Workforce Development Council as a representative of the private sector, including nonprofit organizations and business in the State. Ms. Gibson is currently employed as the talent acquisition manager at Hawai'i Pacific Health, where she directs accountability and oversight for recruiting and retaining talent in one of the State's largest health care systems. Ms. Gibson also has over fifteen years of experience in talent acquisition and recruitment. Your Committee finds that Ms. Gibson's extensive expertise in recruitment makes her uniquely qualified to provide feedback, guidance, and suggestions about trends and potential strategies that will help build programs and initiatives to strengthen the economy.

As affirmed by the records of votes of the members of your Committee on Labor that are attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominees, has found the nominees to be qualified for the positions to which nominated and recommends that the Senate advise and consent to the nominations.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (English).

SCRep. 3049 Labor on Gov. Msg. No. 541

Recommending that the Senate advise and consent to the nomination of the following:

HOISTING MACHINE OPERATORS ADVISORY BOARD

G.M. No. 541 DON BAILEY, for a term to expire 06-30-2021

Your Committee reviewed the personal history, resume, and statement submitted by Don Bailey for service on the Hoisting Machine Operators Advisory Board.

Your Committee received testimony in support of the nomination for the appointment of Mr. Bailey from the Department of Labor and Industrial Relations and Hoisting Machine Operators Advisory Board.

Upon review of the testimony, your Committee finds that Mr. Bailey's experience as a certified crane inspector, background, and knowledge qualify him for appointment to the Hoisting Machine Operators Advisory Board as an at-large representative. Mr. Bailey is currently employed as the Chief Executive Officer of Doc Bailey Construction Equipment Inc. Mr. Bailey also has over thirty-two years of experience in servicing and operating cranes, including twenty-six years of experience as a certified crane inspector and crane maintenance with welding, fabrication, design, and repair. Your Committee finds that Mr. Bailey brings to the Advisory Board extensive expertise in crane maintenance and operation that will assist the Advisory Board to ensure that regulatory requirements are met and safety compliance is maintained.

As affirmed by the record of votes of the members of your Committee on Labor that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (English).

SCRep. 3050 Judiciary on Gov. Msg. Nos. 509, 585, and 586

Recommending that the Senate advise and consent to the nominations of the following:

KING KAMEHAMEHA CELEBRATION COMMISSION

- G.M. No. 509 KATHLEEN MONIZ, for a term to expire 06-30-2019;
G.M. No. 585 BRENDON LEE, for a term to expire 06-30-2018; and
G.M. No. 586 BRENDON LEE, for a term to expire 06-30-2022

Your Committee has reviewed the personal histories, resumes, and statements submitted by Kathleen Moniz and Brendon Lee to serve on the King Kamehameha Celebration Commission.

KATHLEEN MONIZ

Your Committee received testimony in support of the nomination for the appointment of Kathleen Moniz from the Department of Accounting and General Services, King Kamehameha Celebration Commission, and two individuals.

Upon review of the testimony, your Committee finds that Dr. Moniz's expertise and experience qualify her to be nominated for appointment to the King Kamehameha Celebration Commission. Your Committee notes that Dr. Moniz has previously served as a member of the Commission. Section 8-5(a)(4), Hawaii Revised Statutes, requires the King Kamehameha Celebration Commission to have at least one member from the Daughters and Sons of Hawaiian Warriors. Dr. Moniz is a member and treasurer of the Daughters and Sons of Hawaiian Warriors and her appointment to the Commission will fulfil the statutory requirement for representation from that organization. Your Committee finds that Dr. Moniz's experience and commitment to the community will be great assets to the King Kamehameha Celebration Commission.

BRENDON K. LEE

Your Committee received testimony in support of the nomination for the appointment and reappointment of Brendon K. Lee from the Department of Accounting and General Services, King Kamehameha Celebration Commission, and one individual.

Upon review of the testimony, your Committee finds that Mr. Lee's experience and history of community involvement qualify him to be nominated for appointment and reappointment to the King Kamehameha Celebration Commission. Your Committee notes that Mr. Lee possesses considerable experience in administrative and management positions. Section 8-5(a)(5), Hawaii Revised Statutes, requires the King Kamehameha Celebration Commission to have at least one member from the Kamehameha Schools Alumni Association. Mr. Lee is a member of the Kamehameha Schools Alumni Association, and his appointment and reappointment to the Commission will fulfil the statutory requirement for representation from that organization.

As affirmed by the records of votes of the members of your Committee on Judiciary that are attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominees, has found the nominees to be qualified for the positions to which nominated and recommends that the Senate advise and consent to the nominations.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 3051 Judiciary on Gov. Msg. No. 510

Recommending that the Senate advise and consent to the nomination of the following:

STATE FOUNDATION ON CULTURE AND THE ARTS COMMISSION

- G.M. No. 510 RONALD MICHIOKA, for a term to expire 06-30-2021

Your Committee has reviewed the personal history, resume, and statement submitted by Ronald Michioka for service on the State Foundation on Culture and the Arts Commission.

Your Committee received testimony in support of the nomination for the reappointment of Ronald Michioka from the Department of Accounting and General Services and State Foundation on Culture and the Arts.

Upon review of the testimony, your Committee finds that Mr. Michioka's expertise and considerable experience qualify him to be nominated for reappointment to the State Foundation on Culture and the Arts Commission. Your Committee notes that Mr. Michioka currently serves as a member of the Commission, and previously worked for the State Foundation on Culture and the Arts as a cataloguer and curator. In addition, Mr. Michioka has earned a Bachelor of Fine Arts degree in sculpture and painting from the University of Hawaii Manoa, where he was a candidate for a Masters of Fine Arts in sculpture. Section 9-2(b), Hawaii Revised Statutes, requires the State Foundation on Culture and the Arts Commission to have members representing the various counties. Mr. Michioka currently serves on the Commission representing the City and County of Honolulu. Your Committee finds that Mr. Michioka's expertise and history of service will continue to be great assets to the State Foundation on Culture and the Arts Commission.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 3052 Judiciary on Gov. Msg. Nos. 595 and 596

Recommending that the Senate advise and consent to the nominations of the following:

HAWAI'I SISTER STATE COMMITTEE

G.M. No. 595 KAY MATSUI, for a term to expire 06-30-2018; and

G.M. No. 596 KAY MATSUI, for a term to expire 06-30-2022

Your Committee has reviewed the personal history, resume, and statement submitted by Kay Matsui to serve on the Hawai'i Sister State Committee.

Your Committee received testimony in support of the nomination for the appointment and reappointment of Kay Matsui from the Department of Business, Economic Development, and Tourism.

Upon review of the testimony, your Committee finds that Ms. Matsui's expertise and experience qualify her to be nominated for appointment and reappointment to the Hawai'i Sister State Committee. Your Committee notes that Ms. Matsui was born and raised in Taiwan and has language fluency in Mandarin, Taiwanese, and English, as well as proficiency in Japanese. In addition to being involved with several voluntary community services, Ms. Matsui has extensive experience as a marketing director at WFG, a Transamerica Financial Company; a branch office manager at Transamerica Financial Advisors, Inc.; and a member of the board of directors of the Honolulu Board of Water Supply. Your Committee finds that Ms. Matsui's extensive experience, international perspective, and dedication to the community will be great assets to the Hawai'i Sister State Committee.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 3053 Judiciary on H.B. No. 1172

The purpose and intent of this measure is to:

- (1) Establish property owner liability for illegal aerial devices possessed or set off on their property by others; and
- (2) Allow probable cause for fireworks offenses to be established from statements from witnesses and photographs, video, and other recordings authenticated by witnesses.

Your Committee received testimony in support of this measure from the Hawaii State Fire Council, Honolulu Fire Department, Department of Fire and Public Safety of the County of Maui, Hawai'i County Fire Department, Animal Rights Hawai'i, Animal Care, Poi Dogs & Popoki, and twenty-seven individuals. Your Committee received comments on this measure from one individual.

Your Committee finds that, although the use of certain aerial fireworks has been prohibited for some time, enforcement of this prohibition has been difficult. Law enforcement officers responding to public complaints of illegal fireworks often cannot determine with certainty the identity of the person or persons who actually set off the illegal firework. Additionally, because of the momentary nature of a firework explosion, law enforcement officers often encounter difficulty establishing probable cause once they arrive at the site of an alleged violation. This measure will empower law enforcement officers to more effectively enforce the prohibition against illegal aerial fireworks.

Your Committee has amended this measure by:

- (1) Specifying that the penalty for a property owner who knowingly allows an individual to possess, set off, ignite, or otherwise cause to explode any aerial device while on the owner's property shall be either a class C felony or a misdemeanor, depending on the total weight of the aerial device; and
- (2) Inserting an effective date of October 1, 2018.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1172, H.D. 2, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as H.B. No. 1172, H.D. 2, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 3054 (Joint) Human Services and Commerce, Consumer Protection, and Health on H.B. No. 2738

The purpose and intent of this measure is to:

- (1) Establish and appropriate funds for a three-year pilot program to provide health care services to uninsured newborn children who are at least one day old and no more than thirty days old;
- (2) Establish and appropriate funds for a three-year pilot program to provide health care coverage to certain children who are between thirty-one days old and nineteen years old; and
- (3) Require the Department of Human Services to report to the Legislature.

Your Committees received testimony in support of this measure from the Oahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, March of Dimes Foundation – Hawaii, and one individual. Your Committees received comments on this measure from the Department of Human Services.

Your Committees find that Act 236, Session Laws of Hawaii 2008 (Act 236), established the Keiki Care pilot program in the Med-QUEST division of the Department of Human Services to provide health insurance to children who were uninsured, provided that they were not eligible for other state or federal health care coverage. However, on November 1, 2008, the then-Governor discontinued the program more than two years short of the span intended by Act 236. Your Committees further find that there is currently a gap group of children who are ineligible for state or federal health care coverage. Children who remain uninsured typically do not receive adequate preventative care or routine management of acute or chronic health conditions. This measure will provide children health care coverage and services to lead healthy lives.

As affirmed by the records of votes of the members of your Committees on Human Services and Commerce, Consumer Protection, and Health that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 2738, H.D. 1, and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Human Services: Ayes, 3. Noes, none. Excused, 2 (Chang, Harimoto).

Commerce, Consumer Protection, and Health: Ayes, 4. Noes, none. Excused, 3 (Chang, Nishihara, Ruderman).

SCRep. 3055 (Joint) Human Services and Commerce, Consumer Protection, and Health on H.B. No. 2694

The purpose and intent of this measure is to require the Department of Health to furnish, free of charge, certified copies of birth certificates for individuals who are homeless.

Your Committees received testimony in support of this measure from the Office of Hawaiian Affairs, Domestic Violence Action Center, and Oahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i. Your Committees received comments on this measure from the Governor's Coordinator of Homelessness, Department of Human Services, and Department of Health.

Your Committees find that many homeless individuals who struggle with housing insecurity or re-entry after incarceration are often faced with barriers when acquiring identification documents, such as not having sufficient funds to obtain such documentation. Your Committees further find that identification documents such as birth certificates are often necessary to obtain a driver's license, apply for a job, and establish eligibility for certain public benefits and services. This measure will allow homeless individuals to request and receive certified copies of their birth certificate for no cost.

Your Committees have amended this measure by inserting a sunset date of June 30, 2021.

As affirmed by the records of votes of the members of your Committees on Human Services and Commerce, Consumer Protection, and Health that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 2694, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 2694, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Human Services: Ayes, 3. Noes, none. Excused, 2 (Chang, Harimoto).

Commerce, Consumer Protection, and Health: Ayes, 4. Noes, none. Excused, 3 (Chang, Nishihara, Ruderman).

SCRep. 3056 (Joint) Human Services and Commerce, Consumer Protection, and Health on H.B. No. 2021

The purpose and intent of this measure is to:

- (1) Require the Department of Human Services, in consultation with the Department of Health, to establish a pilot project to provide shelter and mental health treatment for homeless individuals with severe mental illness who are subject to court-ordered involuntary hospitalization to a psychiatric facility pursuant to part IV of chapter 334, Hawaii Revised Statutes; and
- (2) Appropriate funds for the pilot project.

Your Committees received testimony in support of this measure from the Hawai'i Psychological Association, Institute for Human Services, Oahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, Kailua Laundromat, National Alliance on Mental Illness - Hawaii, and twenty-eight individuals. Your Committees received comments on this measure from the Governor's Coordinator on Homelessness, Department of Human Services, Department of Health, Department of the Attorney General, and two individuals.

Your Committees find that there is a gap in services for homeless individuals with severe mental illness, as these individuals often cycle between homelessness, emergency room treatment, incarceration, and hospitalization. Your Committees further find that there are limited housing and services for homeless individuals with severe mental illnesses. Providing care for homeless individuals with severe mental illness will allow them time to transition to a healthier life.

Your Committees also note that the Department of the Attorney General and Institute of Human Services expressed concern that the facility being administered by the Department of Human Services, in consultation with the Department of Health, in this measure does not fulfill the definition of a psychiatric facility required for individuals subjected to a court-ordered involuntary hospitalization pursuant to part IV of chapter 334, Hawaii Revised Statutes.

Accordingly, your Committees have amended this measure by:

- (1) Changing the target population to be served by the pilot project from homeless individuals with severe mental illness who are subject to court-ordered involuntary hospitalization to a psychiatric facility pursuant to part IV of chapter 334, Hawaii Revised

Statutes, to homeless individuals with severe mental illness who are subject to an assisted community treatment order or court ordered guardianship;

- (2) Establishing the goal for the pilot project of enabling homeless individuals with severe mental illness to find permanent housing through Housing First programs; provided that Adult Protective Services must first seek a court ordered guardianship for those individuals and consult with the Family Court and other appropriate agencies;
- (3) Requiring the Adult Protective Services of the Department of Health to seek a court ordered guardianship for homeless individuals with severe mental illness and consult with the family court and other appropriate agencies about homeless individuals with severe mental illness who were subjected to an assisted community treatment order;
- (4) Requiring a homeless individual with severe mental illness to provide identification documentation, such as a social security card, driver's license, or state identification card, in order to be eligible for the pilot project;
- (5) Requiring that a memorandum of understanding be established between the Department of Human Services, Department of Health, and other appropriate agencies implementing the pilot project;
- (6) Specifying that the purpose of the appropriation for establishment of the pilot project shall include hiring of a social worker and social service assistant;
- (7) Requiring the Department of the Attorney General to approve the pilot project before it may take effect;
- (8) Amending section 1 to reflect its amended purpose; and
- (9) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Human Services and Commerce, Consumer Protection, and Health that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 2021, H.D. 2, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 2021, H.D. 2, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Human Services: Ayes, 3; Ayes with Reservations (Tokuda). Noes, none. Excused, 2 (Chang, Harimoto).

Commerce, Consumer Protection, and Health: Ayes, 4; Ayes with Reservations (Tokuda). Noes, none. Excused, 3 (Chang, Nishihara, Ruderman).

SCRep. 3057 (Joint) Human Services and Labor on H.B. No. 1647

The purpose and intent of this measure is to require the Department of Human Services to:

- (1) Compile data regarding employers in the State who employ individuals receiving public assistance; and
- (2) Submit an annual report to the Legislature identifying the fifty employers with the highest number of employees who receive public assistance.

Your Committees received comments on this measure from the Department of the Attorney General, Department of Labor and Industrial Relations, and Department of Human Services.

Your Committees find that public assistance programs are essential to ensuring that all residents have access to healthy food, quality health insurance, basic needs, cash assistance, and child care. Your Committees further find that certain employers provide workers with low wages and poor benefits with the intention or expectation that their employees will enroll in public assistance to supplement their income. However, this practice costs taxpayers billions of dollars per year and puts responsible businesses at a competitive disadvantage. This measure will provide the Legislature a deeper understanding of how various public assistance programs impact individuals and their families.

Your Committees also recognize that the various public benefits and services offered by the Department of Human Services, such as the Supplemental Nutrition Assistance Program, Medicaid services, and child care subsidy programs, have direct implications to the health and well-being of individuals and families who receive benefits and services, such as purchasing healthy food to prevent chronic diseases and obtaining health insurance to receive mental health services. Given the importance of these programs, your Committees find that a better understanding of the use of these programs will result in more prudent decisions to preserve and enhance this safety net.

As affirmed by the records of votes of the members of your Committees on Human Services and Labor that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 1647, H.D. 2, and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Human Services: Ayes, 3. Noes, none. Excused, 2 (Chang, Harimoto).

Labor: Ayes, 3. Noes, none. Excused, 2 (Chang, English).

SCRep. 3058 (Joint) Human Services and Labor on H.B. No. 2204

The purpose and intent of this measure is to:

- (1) Require the Department of Human Services, in conjunction with the Financial Assistance Advisory Council, to convene a task force to revise and restructure the welfare payment structure to incentivize welfare recipients to advance in their careers while retaining their beneficiary status;
- (2) Re-establish the exit and retention bonus program; and

- (3) Appropriate funds to re-establish the exit and retention bonus program.

Your Committees received testimony in support of this measure from Mental Health America of Hawai'i, League of Women Voters of Hawaii, Oahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, and one individual. Your Committees received comments on this measure from the Department of Human Services.

Your Committees find that existing state welfare policies often penalize welfare recipients who seek job promotions or higher paying career opportunities. Your Committees further find that an increase in income often causes welfare recipients to lose their beneficiary status, resulting in financial hardships. This measure will convene a task force to revise the welfare payment system to allow welfare recipients to advance in their careers without necessarily losing their beneficiary status. This measure will also require the Department of Human Services to re-establish the exit and retention bonus program to encourage welfare recipients to voluntarily leave the welfare system and enter the workforce, increase their hours of employment, and remain out of the welfare system.

As affirmed by the records of votes of the members of your Committees on Human Services and Labor that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 2204, H.D. 1, and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Human Services: Ayes, 3. Noes, none. Excused, 2 (Chang, Harimoto).

Labor: Ayes, 3. Noes, none. Excused, 2 (Chang, English).

SCRep. 3059 (Joint) Human Services and Labor on H.B. No. 2019

The purpose and intent of this measure is to:

- (1) Require the Department of Human Services to establish a three-year homeless employment grant program to connect homeless individuals with work opportunities and service providers; and
- (2) Appropriate funds for the homeless employment grant program.

Your Committees received testimony in support of this measure from the Governor's Coordinator on Homelessness, Hawaii Youth Services Action Network, Oahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, and six individuals. Your Committees received comments on this measure from the Department of Human Services and State Procurement Office.

Your Committees find that despite increased efforts and resources to reduce homelessness in the State, homelessness still remains a significant issue and service providers often have difficulty assisting homeless individuals and identifying the services they need. Some service providers in the State have successfully assisted homeless individuals with finding temporary work, but only in certain areas and communities. Establishing a homeless employment grant program will allow homeless individuals to increase their self-esteem and gain valuable work experience that will help them progress to being self-sufficient, while at the same time allow them to contribute to their community.

Your Committees have amended this measure by:

- (1) Delaying the implementation of the homeless employment grant program to July 1, 2020, to allow the Department of Human Services to develop a plan for the grant program; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Human Services and Labor that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 2019, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 2019, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Human Services: Ayes, 3. Noes, none. Excused, 2 (Chang, Harimoto).

Labor: Ayes, 3. Noes, none. Excused, 2 (Chang, English).

SCRep. 3060 (Joint) Human Services and Labor on H.B. No. 2362

The purpose and intent of this measure is to exempt administrative appeals hearing officers in the Department of Human Services from civil service requirements.

Your Committees received testimony in support of this measure from the Department of Human Services.

Your Committees find that the Department of Human Services provides an administrative review process for applicants and recipients of public benefits to appeal decisions made by the Department. Your Committees further find that the Department maintains a staff of experienced, trained, and knowledgeable administrative appeal hearing officers to conduct timely, accurate, and prompt administrative hearings and has received testimony from the Department indicating that the highly specialized demands of the administrative appeals hearing officer positions necessitate that these positions be from civil service requirements.

As affirmed by the records of votes of the members of your Committees on Human Services and Labor that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 2362, H.D. 1, and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Human Services: Ayes, 3. Noes, none. Excused, 2 (Chang, Harimoto).

Labor: Ayes, 3; Ayes with Reservations (Taniguchi). Noes, none. Excused, 2 (Chang, English).

SCRep. 3061 Ways and Means on H.B. No. 1605

The purpose and intent of this measure is update the general excise tax law to conform with other state tax statutes by repealing certain obsolete or unnecessary provisions.

Your Committee received testimony in support of this measure from the Department of Taxation.

Your Committee finds that this measure makes housekeeping amendments to various provisions of the general excise tax law in Chapter 237, Hawaii Revised Statutes. Specifically, this measure deletes unnecessary or redundant provisions and does not make any substantive changes to the law.

Your Committee has amended this measure by making technical nonsubstantive amendments for the purpose of style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1605, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1605, H.D. 1, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 9. Noes, none. Excused, 2 (Keith-Agaran, Shimabukuro).

SCRep. 3062 (Joint) Agriculture and Environment and Water and Land on H.B. No. 2106

The purpose and intent of this measure is to require the Environmental Council to adopt and maintain rules requiring all environmental assessments and environmental impact statements prepared pursuant to chapter 343, Hawaii Revised Statutes, to include consideration of sea level rise based on the best available scientific data regarding sea level rise.

Your Committees received testimony in support of this measure from the Office of Planning, Department of Land and Natural Resources, Hawai'i Reef and Ocean Coalition, 350Hawaii.org, Surfrider Foundation, Friends of Hanauma Bay, Sierra Club of Hawai'i, O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, and eight individuals.

Your Committees find that sea level rise and other climate change hazards that could drastically impact the State and cause massive disruption are subjects of great concern. The Hawaii Climate Change Mitigation and Adaptation Commission has already made findings relating to sea level rise and other climate change hazards in its "Hawaii Sea Level Rise Vulnerability and Adaptation Report", and those findings should be incorporated into applicable state and county plans, strategies, and mapping. Your Committees also find that the threat of sea level rise and other climate change hazards are such that consideration of such factors should be made at all levels of planning within the State. Therefore, your Committees find that it is in the best interest of the State that environmental assessments and environmental impact statements include consideration of sea level rise.

As affirmed by the records of votes of the members of your Committees on Agriculture and Environment and Water and Land that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 2106, H.D. 3, and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Agriculture and Environment: Ayes, 3. Noes, none. Excused, 2 (Nishihara, Ruderman).

Water and Land: Ayes, 4. Noes, none. Excused, 1 (Inouye).

SCRep. 3063 Water and Land on H.B. No. 2594

The purpose and intent of this measure is to appropriate funds for the Kaho'olawe Island Reserve Commission to restore, preserve, and determine the appropriate uses of the Kaho'olawe Island Reserve and to fund an unspecified number of full-time equivalent permanent positions for the Kaho'olawe Island Reserve Commission.

Your Committee received testimony in support of this measure from the Kaho'olawe Island Reserve Commission, one member of the County Council of the County of Maui, Hawaiian Affairs Caucus of the Democratic Party of Hawai'i, O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, Hawaiian Civic Club of Honolulu, Maui Nui Seabird Recovery Project, Ocean Tourism Coalition, Hawaii Academy of Arts & Sciences Public Charter School, Malu 'Aina, Old Lāhainā Lū'au, and forty-two individuals. Your Committee received testimony in opposition to this measure from the Center for Hawaiian Sovereignty Studies.

Your Committee finds that during the past fourteen years, the Kaho'olawe Island Reserve Commission has developed innovative and effective restoration projects that serve as a foundation for the future restoration of the island. In 2016, the Commission submitted a detailed financial self-sufficiency and sustainability plan to establish the necessary baseline level of funding needed to continue work on Kaho'olawe. As a result, Act 49, Session Laws of Hawaii 2017, provided general funds and authorized fifteen positions for fiscal years 2017-2018 and 2018-2019. Although these funds allow the Commission to continue its mission in the short term, these funds are only sufficient to support staffing, Maui-based facilities, and Maui-based operations. This measure provides additional funding to support Kaho'olawe Island operations, safety, and infrastructure, as well as to restore the cultural resource project coordinator position, which is a critical position needed to manage, protect, and restore the archaeological and historical resources of Kaho'olawe.

Your Committee has amended this measure by:

- (1) Inserting an appropriation amount of \$600,000 for the Kaho'olawe Island Reserve Commission to restore, preserve, and determine the appropriate uses of the Kaho'olawe Island Reserve;
- (2) Specifying that the appropriation for full-time equivalent permanent positions is for one full-time equivalent (1.0 FTE) permanent cultural resource project coordinator, and inserting an appropriation amount of \$53,864 to fund that position;
- (3) Changing the date to July 1, 2018; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2594, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2594, H.D. 2, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Inouye).

SCRep. 3064 Water and Land on H.B. No. 2419

The purpose and intent of this measure is to require and appropriate funds to the Department of Land and Natural Resources to create a strategic plan for maintenance dredging for small boat harbors, channels, ramps, and other port infrastructure.

Your Committee received testimony in support of this measure from the O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, Ocean Tourism Coalition, Atlantis Adventures, Quicksilver Charters, Calypso Charters, and one individual. Your Committee received comments on this measure from the Department of Land and Natural Resources.

Your Committee finds that the process to implement dredging in state small boat harbors and ramps can be very lengthy. By requiring the creation of a strategic plan that would include but not be limited to the identification of all state small boat harbors and ramps that require routine maintenance dredging, assessment of cost estimates, and identification of the permitting requirements, this measure is the first step in the full permitting process.

Your Committee notes that according to the Department of Land and Natural Resources, the terms, "port" and "harbor" are used interchangeably. Accordingly, your Committee is operating on that understanding for purposes of this measure.

Your Committee has amended this measure by:

- (1) Inserting an appropriation amount of \$100,000 to the Department of Land and Natural Resources to create a strategic plan for maintenance dredging for small boat harbors, channels, ramps, and other port infrastructure; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2419, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2419, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Inouye).

SCRep. 3065 Water and Land on H.B. No. 2101

The purpose and intent of this measure is to make an appropriation to the Department of Land and Natural Resources for the operational expenses and staffing costs of the Hawaii Association of Conservation Districts.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources; Department of Agriculture; Hawaii Association of Conservation Districts; O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i; Hawaii Farmers Union United, Kona Chapter; Maui County Farm Bureau; Hawai'i Farm Bureau; Local Food Coalition; Hawaii Cattlemen's Council, Inc.; Ag Matters, LLC; Sierra Club of Hawai'i; Ulupono Initiative; Hawaii Crop Improvement Association; Hawaii Coffee Association; Kau Valley Farms; Birds With Arms Farms; Larry Jefts Farms, LLC; and thirty individuals.

Your Committee finds that the Hawaii Association of Conservation Districts is composed of sixteen districts representing every community on all major islands of Hawaii. Existing law authorizes the Soil and Water Conservation Districts to operate as government subdivisions to educate the public and construct and maintain conservation projects and programs in Hawaii. Soil and Water Conservation Districts have worked to improve Hawaii's environment and economy through collaborative efforts with partners and government agencies that have brought millions of dollars to Hawaii to improve farm practices, reduce erosion, improve ocean and drinking water quality, fight invasive species, improve public safety, protect property, conserve water, and strengthen the economy. The Soil and Water Conservation Districts also provide educational and community support for conservation awareness. The Districts participate in resource conservation and development projects and statewide high school programs and also introduce conservation principles in elementary schools. However, the Soil and Water Conservation Districts do not have a base budget appropriation under the Department of Land and Natural Resources' budget. Therefore, this measure provides the necessary funding for the Soil and Water Conservation Districts to continue their important activities.

Your Committee has amended this measure by:

- (1) Inserting an appropriation amount of \$450,000 for the operational expenses and staffing costs of the Hawaii Association of Conservation Districts;
- (2) Changing the effective date to July 1, 2018; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2101, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2101, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Inouye).

SCRep. 3066 Water and Land on H.B. No. 1984

The purpose and intent of this measure is to direct and make an appropriation to the Commission on Water Resource Management to conduct a study on statewide water security, including a review of historical water supply, present water use, and future water availability until 2050.

Your Committee received testimony in support of this measure from the O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, Board of Water Supply of the City and County of Honolulu, and one individual. Your Committee received comments on this measure from the Department of Land and Natural Resources.

Your Committee finds that the State is especially vulnerable to the impact of climate change and that climate change poses two primary threats to the State's freshwater supply: the intrusion of saltwater and the change in rainfall frequency and intensity. By directing the Commission on Water Resource Management to conduct a statewide water security water study, this measure will assist the State in determining its future water supply and needs.

Your Committee notes the comments submitted by the Department of Land and Natural Resources that, in accordance with chapter 174C, Hawaii Revised Statutes, the Commission of Water Resource Management provides for the development of the Hawaii Water Plan, a long-range, comprehensive, multicomponent plan that seeks to address the problems of supply and conservation of water. According to the Department, virtually all of the study elements outlined in this measure are already elements of the Hawaii Water Plan. Instead, the Department suggested updating the statewide framework. The framework is a guidance document that provides recommended elements for inclusion in each component plan so that updated plans are more useful and may be more easily integrated and coordinated with respect to water source development by the State and counties. Updating the statewide framework will provide the basis for more holistic water planning, thereby increasing the State's future water supply.

Accordingly, your Committee has amended this measure by:

- (1) Adopting the language submitted by the Department of Land and Natural Resources, which:
 - (A) Adds language to the purpose section regarding the state water code and the Hawaii Water Plan;
 - (B) Replaces the language requiring a study on statewide water security with language that requires the Commission of Water Resource Management to update the statewide framework for updating the Hawaii Water Plan to provide additional guidance; and
 - (C) Specifies the tasks and elements of the statewide framework update;
- (2) Inserting an appropriation amount of \$350,000 for the Commission on Water Resource Management to update the statewide framework;
- (3) Changing the effective date to July 1, 2018; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1984, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1984, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Inouye).

SCRep. 3067 Water and Land on H.B. No. 1974

The purpose and intent of this measure is to transfer funds from the natural area reserve fund to the firefighter's contingency fund to be expended to upgrade firefighting equipment to be used jointly by the State and counties.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources, O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, Hawaii State Fire Council, Honolulu Fire Department of the City and County of Honolulu, and Hawai'i Fire Department of the County of Hawai'i.

Your Committee finds that the Division of Forestry and Wildlife of the Department of Land and Natural Resources is the primary responder for wildland fires across 1,368,002 acres of the State's forested watersheds and supports federal and county responders on the remaining area of the State. The Division's fire and emergency response requires specialized equipment and resources to modernize the Division's fleet of response vehicles and equipment to ensure timely response to wildfires. State crews currently rely on outdated vehicles, some of which are on loan from federal agencies, that incur costly repairs and have broken down while crews were en route to fires. By transferring funds, this measure will allow the Division to timely respond to fires and assist counties during natural disasters, such as hurricanes and lava flows.

Your Committee has amended this measure by:

- (1) Inserting the statutory references for the natural area reserve fund and firefighter's contingency fund;
- (2) Specifying the amount of \$1,000,000 to be transferred from the natural area reserve fund to the firefighter's contingency fund;
- (3) Changing the effective date to July 1, 2018; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1974, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1974, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Inouye).

SCRep. 3068 Water and Land on H.B. No. 1987

The purpose and intent of this measure is to:

- (1) Require and appropriate funds for the Commission on Water Resource Management to contract with the United States Geological Survey to conduct a five-year study on streamflow in the State; and
- (2) Require the Commission on Water Resource Management to submit to the Legislature a progress report of the streamflow study no later than twenty days prior to the convening of the Regular Sessions of 2019 through 2023.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources, Board of Water Supply of the City and County of Honolulu, Ulupono Initiative, O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, and five individuals.

Your Committee finds that the Commission on Water Resource Management, in cooperation with the United States Geological Survey, has conducted a number of intensive low-flow stream characterization studies over the past twenty years. These studies have covered portions of Windward Oahu and most of Maui. Other studies in cooperation with the United States Geological Survey include a low-flow stream study in Southeast Kaua'i to assess the streamflow characteristics from Wailua in the North to Hānāpepe in the South, and low-flow stream characterization studies for all streams on the islands of Kaua'i, Oahu, Moloka'i, Maui, and Hawai'i. Despite previous and current efforts to assess streamflow statewide, there are other stream studies that could be conducted. This measure will assist in increasing the understanding of Hawai'i streams and contribute to the data needed to develop measurable instream flow standards.

Your Committee notes that the written testimony submitted by the Department of Land and Natural Resources lists a number of studies and data monitoring needs that streamflow studies could cover and address.

Accordingly, your Committee has amended this measure by:

- (1) Adding a purpose section to provide further clarity regarding streamflow studies conducted in the State and the importance of streamflow studies;
- (2) Specifying the scope of the streamflow study for which the Commission on Water Resources Management is required to contract with the United States Geological Survey;
- (3) Inserting an appropriation amount of \$400,000 to the Commission of Water Resource Management and of that appropriation amount, dedicating specific amounts for:
 - (A) Conducting an intensive, site-specific low-flow stream study on streams in the East Maui area that are diverted by the East Maui irrigation system, which have not been previously studied; and
 - (B) Establishing three United States Geological Survey continuous record stream gaging stations, which will serve as index stations for a period of five years to aid in better long-term trend assessments; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1987, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1987, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Gabbard, Inouye).

SCRep. 3069 Commerce, Consumer Protection, and Health on H.B. No. 1876

The purpose and intent of this measure is to allow a motor vehicle insurer to satisfy the requirement that an insurer provide a complete sales and claims office in the State through the establishment and maintenance of an office by the insurer's licensed producer.

Your Committee received testimony in support of this measure from State Farm Mutual Automobile Insurance Company and National Association of Mutual Insurance Companies. Your Committee received testimony in opposition to this measure from the Department of Commerce and Consumer Affairs and Hawaii Association for Justice.

Your Committee finds that under existing law, insurers are required to maintain a physical sales and claims office in Hawaii to sell motor vehicle insurance. However, many products and services traditionally accessed at a physical office can now be obtained digitally through mobile smart phone or internet technology. For example, many insurance applications can now be submitted electronically, claims forms and damage photos can be submitted digitally, and claims adjusters are now able to communicate with claimants and body shops via computer or the telephone. Accordingly, this measure is intended to modernize sales and claims handling for motor vehicle insurance by removing the requirement for motor vehicle insurers to maintain a physical sales and claims service office in the State, while still retaining the broad powers of the Insurance Commissioner to regulate how insurers engage in motor vehicle insurance sales and their claims adjusting practices.

However, your Committee has heard the concerns that Hawaii's isolated geography necessitates a field presence in the State. According to testimony from the Department of Commerce and Consumer Affairs, requiring insurers to maintain a physical presence in the State assures policyholders of convenient access and prompt claims adjustment that are not dependent on whether a mainland or other remote call center will answer a policyholder's calls. Your Committee appreciates these concerns and believes additional discussion on this measure is warranted.

Your Committee has amended this measure by:

- (1) Specifying that licensed producers of a motor vehicle insurer that establish and maintain an office on every island the insurer does business meet the requirement for an insurer to provide a complete sales and claims office in the State; and
- (2) Inserting an effective date of July 1, 2050, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1876, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1876, H.D. 1, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 1 (Tokuda).

SCRep. 3070 Commerce, Consumer Protection, and Health on H.B. No. 1520

The purpose and intent of this measure is to prohibit health insurers from providing limited-duration health insurance coverage in the State.

Your Committee received testimony in support of this measure from Kaiser Permanente Hawai'i. Your Committee received comments on this measure from the Department of the Attorney General, Department of Commerce and Consumer Affairs, and Hawaii Medical Service Association.

Your Committee finds that short-term, limited-duration insurance is intended to fulfill temporary gaps in coverage that may occur when an individual is transitioning from one plan or coverage to another plan or coverage, such as when an individual is between employment. These types of plans were not designed to compete with comprehensive major medical plans required by the federal Patient Protection and Affordable Care Act of 2010 (Affordable Care Act). Your Committee further finds that the federal Departments of Health and Human Services, Labor, and the Treasury recently issued a proposed rule that would change the maximum duration of short-term, limited-duration health insurance coverage to less than twelve months, rather than the current maximum duration of less than three months.

Your Committee notes that under federal law, short-term, limited-duration health insurance does not need to comply with all of the requirements of the Affordable Care Act. Limited-duration health insurance plans lack many consumer protections, including typically excluding coverage of people with pre-existing medical conditions, limiting the dollar amount of benefits that a person can receive from the plan, and omitting many of the essential health benefits that are currently required of plans on the individual market, including maternity care, prescription drugs, mental health treatment, and substance use disorder services. Under the proposed federal rule, and without appropriate state regulations, these types of plans could destabilize the individual health insurance market and lead to increases in health insurance premiums for comprehensive coverage. This measure therefore prohibits health insurers from providing limited-duration health insurance coverage in Hawaii.

However, your Committee has heard testimony from the Department of Commerce and Consumer Affairs that short-term limited-duration health insurance serves a specific niche, such as a consumer who has missed the open enrollment or special enrollment period for Affordable Care Act plans. In this situation, limited-duration health insurance provides an alternative to remaining uninsured. Although your Committee appreciates that limited-duration health insurance can serve a narrow purpose, your Committee remains concerned over the lack of consumer protections available under limited-duration health insurance plans and the potential that a consumer could seek to renew or reenroll in such plans in perpetuity, rather than seeking full health insurance coverage through the federal health insurance exchange.

After further discussion, your Committee requested assistance from the Department of the Attorney General to address these concerns. Amendments to this measure are therefore necessary to incorporate language suggested by the Department of the Attorney General.

Your Committee has amended this measure by:

- (1) Specifying that an insurer is prohibited from renewing or re-enrolling an individual in a limited-duration health insurance policy or contract if the individual was eligible to purchase health insurance through the federal health insurance marketplace during an open enrollment period or special enrollment period in the previous calendar year;
- (2) Deleting language that would have prohibited a health insurer from offering or providing limited-duration health insurance coverage to individuals in the State;
- (3) Changing the duration of a policy or contract under the term "limited-duration health insurance coverage" from less than ninety-one days to an unspecified number of days;
- (4) Adding a definition of "renew or re-enroll";
- (5) Clarifying that limited-duration health insurance is subject to the same provisions of the State's Insurance Code currently applicable to limited benefit health insurance;
- (6) Changing its effective date to July 1, 2050, to encourage further discussion; and
- (7) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1520, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1520, H.D. 2, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 3 (Chang, Nishihara, Ruderman).

SCRep. 3071 Commerce, Consumer Protection, and Health on H.B. No. 2349

The purpose and intent of this measure is to:

- (1) Authorize the Regulated Industries Complaints Office to issue citations for specific violations of the motor vehicle repair laws; and
- (2) Establish a process for licensees in violation of motor vehicle repair laws to contest the citation for the assessment of fines for each violation.

Your Committee received testimony in support of this measure from the Regulated Industries Complaints Office of the Department of Commerce and Consumer Affairs and Motor Vehicle Repair Industry Board.

Your Committee finds that this measure expedites the Regulated Industries Complaints Office's enforcement of certain technical violations of the motor vehicle repair laws. Your Committee notes that the citation process established by this measure is similar to previous citation processes established for technical violations of massage therapy laws and beauty culture laws. These recent citation laws have had a positive impact on the Regulated Industries Complaints Office's efforts to curb violations and ensure swift compliance by licensees and have enabled the Office to more effectively allocate its resources. Your Committee further finds that the enforcement mechanisms in this measure will also significantly enhance the Regulated Industries Complaints Office's ability to address technical violations of the motor vehicle repair licensing laws.

Your Committee has amended this measure by:

- (1) Clarifying that the ability to issue citations covers violations of rules adopted pursuant to chapters 437B and 91, Hawaii Revised Statutes, which is consistent with similar licensing provisions found elsewhere in the Hawaii Revised Statutes;
- (2) Changing its effective date to July 1, 2018; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2349, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2349, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 1 (Tokuda).

SCRep. 3072 Commerce, Consumer Protection, and Health on H.B. No. 2546

The purpose and intent of this measure is to appropriate funds for the John A. Burns School of Medicine family medicine residency program.

Your Committee received testimony in support of this measure from the Department of Health, University of Hawai'i System, University Health Partners of Hawaii, O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, Hawaii Island Family Medicine Residency Program at Hilo Medical Center, Hawaii Pacific Health, Pali Momi Medical Center, and seven individuals.

Your Committee finds that this measure appropriates funds to establish a family medicine office practice and team-based training outpatient center to serve as the family medicine office practice for the John A. Burns School of Medicine family medicine residency program. Your Committee further finds that this center will provide medical services to Hawaii residents and encourage the future doctors trained there to remain in the State. Your Committee also finds that the center will be able to easily cooperate with the nearby Pali Momi Medical Center.

Your Committee notes that this measure appropriates funds to be spent on behalf of the John A. Burns School of Medicine family medicine residency program, but that the funds are designated to be expended by the Department of Health and not by the University of Hawaii. Accordingly, without expressing a preference, your Committee requests that your Committee on Ways and Means determine the appropriate expending agency as that is a matter within its purview.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2546, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2546, H.D. 2, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 1 (Chang).

SCRep. 3073 Commerce, Consumer Protection, and Health on H.B. No. 1626

The purpose and intent of this measure is to:

- (1) Limit liability for volunteers and certain entities who provide volunteers that maintain or repair cemetery grounds; and

- (2) Require the Director of Commerce and Consumer Affairs, in consultation with the Comptroller, to develop strategies for the upkeep, repair, and maintenance of Sunset Memorial Park in Pearl City, Oahu, and report relevant findings and recommendations to the Legislature.

Your Committee received testimony in support of this measure from the Department of Commerce and Consumer Affairs; Department of Accounting and General Services; O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i; Pearl City Neighborhood Board; and one individual. Your Committee received testimony in opposition to this measure from the Hawaii Association for Justice.

Your Committee finds that Sunset Memorial Park in Pearl City, Oahu, has been neglected for years and has been the subject of numerous complaints from family members who have loved ones buried at the cemetery. Most of these complaints relate to issues surrounding the management and lack of maintenance at Sunset Memorial Park, which has been described as having a damaged mausoleum, sinking graves, and broken, missing, or obscured grave markers that are hidden by overgrown vegetation. Your Committee further finds that although family members and volunteers have expressed a strong willingness to assist with the upkeep, repair, and maintenance of Sunset Memorial Park, many are concerned about potential liability issues. This measure therefore creates a special cemetery volunteer protection law, which is intended to encourage volunteers to maintain and repair Sunset Memorial Park without fear of liability resulting from their charitable activities.

Your Committee has amended this measure by:

- (1) Clarifying that the limited liability for volunteers pertains only to those volunteers who maintain or repair cemetery grounds without compensation;
- (2) Clarifying that the limited liability for volunteers does not relieve a cemetery property owner or cemetery authority from the duty to maintain their premises in a reasonably safe condition;
- (3) Changing its effective date to July 1, 2018; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

Your Committee notes that this amended measure ensures protection of community groups maintaining and repairing Sunset Memorial Park as a public service project. This amended measure is also narrowly tailored to provide an appropriate balance of protection to those individuals, businesses, and organizations, including family members, friends, businesses, unions, and community and services organizations, that wish to help a cemetery, while also ensuring that the cemetery authority's statutory responsibilities remain unaffected.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1626, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1626, H.D. 1, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 1 (Tokuda).

SCRep. 3074 Commerce, Consumer Protection, and Health on H.B. No. 1806

The purpose and intent of this measure is to discourage food waste and encourage food donation to needy recipients by:

- (1) Clarifying and expanding liability protections for good-faith food donors;
- (2) Allowing the donation of expired food when the donor makes a good-faith judgment that the food is unspoiled; and
- (3) Requiring that education about food donation liability protections be made a part of the health inspection process so that food establishments are aware of these provisions.

Your Committee received testimony in support of this measure from the Department of Health, Hawaii Food Industry Association, Oahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, Aloha Harvest, Sierra Club of Hawaii, and four individuals.

Your Committee finds that more than ten percent of Hawaii residents are food insecure and receive food assistance through nonprofit organizations and government programs. Your Committee also finds that approximately twenty-six percent of food grown in or imported to Hawaii is thrown away, a value of approximately \$1,000,000,000 in annual food waste. Your Committee also finds that food production and food waste contribute directly to climate change, with food waste alone estimated to account for eight percent of greenhouse gas emissions.

Your Committee also finds that a California survey found that forty-four percent of manufacturers, forty-one percent of restaurants, and twenty-five percent of retailers identified fear of liability as their primary barrier to donating surplus food. Accordingly, your Committee finds that this measure will expand and provide information about food donation liability protections and reduce barriers to food donation.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1806, H.D. 1, and recommends that it pass Second Reading and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 1 (Chang).

SCRep. 3075 Commerce, Consumer Protection, and Health on H.B. No. 2384

The purpose and intent of this measure is to amend the Uniform Controlled Substances Act to provide flexibility and clear guidance for practitioners who prescribe, administer, or dispense certain controlled substances for patients undergoing medically managed withdrawal or detoxification treatment.

Your Committee received testimony in support of this measure from the Department of Health, Department of Public Safety, Hawaii Substance Abuse Coalition, Drug Policy Forum of Hawaii, and Coalition for a Drug-Free Hawaii.

Your Committee finds that this measure will bring Hawaii law into conformity with federal law, and permit registered medical practitioners to prescribe drugs including buprenorphine and naloxone for “medically managed withdrawal”, also known as “detoxification treatment” and “maintenance treatment”. Your Committee finds that this measure will not limit the use of these drugs for medical purposes but will assist in the enforcement of drug laws and prevention of drug abuse and diversion in the State.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2384, H.D. 1, and recommends that it pass Second Reading and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 1 (Chang).

SCRep. 3076 Commerce, Consumer Protection, and Health on H.B. No. 1874

The purpose and intent of this measure is to:

- (1) Expand the scope of the Condominium Education Trust Fund to cover voluntary binding arbitration between interested parties;
- (2) Amend the conditions that mandate mediation and exceptions to mandatory mediation; and
- (3) Make conforming amendments.

Your Committee received testimony in support of this measure from the Palehua Townhouse Association and two individuals. Your Committee received testimony in opposition to this measure from two individuals. Your Committee received comments on this measure from the Real Estate Commission.

Your Committee finds that alternative dispute resolution is a viable, affordable option for handling condominium-related disputes. However, under existing law, mediation is only nominally mandatory and there are few incentives to encourage parties to engage in alternative dispute resolution. Accordingly, this measure expands the scope of the Condominium Education Trust Fund to cover voluntary binding arbitration between interested parties and amends the conditions that mandate mediation and exceptions to mandatory mediation.

Your Committee further finds that by subsidizing the expense of arbitrations, this measure incentivizes parties to voluntarily choose binding arbitration of condominium-related disputes. Your Committee also finds that pairing evaluative mediation with voluntary binding arbitration is an efficient way of encouraging greater use of alternative dispute resolution when addressing condominium-related disputes, which is consistent with the self-governance theory of the State’s condominium law.

Your Committee has amended this measure by:

- (1) Changing its effective date to July 1, 2018;
- (2) Inserting a sunset date of June 30, 2023; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1874, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1874, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 1 (Tokuda).

SCRep. 3077 Commerce, Consumer Protection, and Health on H.B. No. 2373

The purpose and intent of this measure is to allow the Department of Health to share public health statistics records with Department of Health program employees under certain circumstances.

Your Committee received testimony in support of this measure from the Department of Health, Oahu County Committee on Legislative Priorities of the Democratic Party of Hawai‘i, Hawaii Primary Care Association, and Hawaii Children’s Action Network.

Your Committee finds that this measure will allow the Department of Health to safeguard the privacy of vital records while providing limited sharing of vital statistics records amongst its employees, with approval from the Department’s institutional review committee. Your Committee finds that, under existing law, the Department is authorized to use de-identified data for research purposes, however in many circumstances the use of identified data is also needed for research purposes. Your Committee further finds that this measure would permit the Department of Health to conduct the Pregnancy Risk Assessment Monitoring System research study, among other valuable research.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2373, H.D. 2, and recommends that it pass Second Reading and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 1 (Chang).

SCRep. 3078 Commerce, Consumer Protection, and Health on H.B. No. 2385

The purpose and intent of this measure is to update the list of Schedule I controlled substances in the State's Uniform Controlled Substances Act to incorporate amendments made to the federal Controlled Substances Act and include controlled substances emergency scheduled or temporarily designated, pursuant to section 329-11, Hawaii Revised Statutes.

Your Committee received testimony in support of this measure from the Department of Public Safety.

Your Committee finds that this measure is necessary to make the State's Uniform Controlled Substance Act, chapter 329, Hawaii Revised Statutes, consistent with changes to federal law and that these updates to the Uniform Controlled Substances Act are in the interest of public health and safety.

Your Committee has amended this measure by:

- (1) Making it effective upon approval; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2385, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2385, H.D. 2, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 1 (Chang).

SCRep. 3079 (Joint) Water and Land and Agriculture and Environment on H.B. No. 2081

The purpose and intent of this measure is to appropriate funds to the Department of Land and Natural Resources to provide assistance and supplemental funding for the National Wildlife Research Center of the United States Department of Agriculture to conduct pilot field studies to evaluate control tools and develop a management plan to reduce the rose-ringed parakeet population on Kauai.

Your Committees received testimony in support of this measure from the Department of Land and Natural Resources; Department of Agriculture; Land Use Research Foundation of Hawaii; Maui County Farm Bureau; Hawai'i Farm Bureau; Ag Matters, LLC; Hawaii Crop Improvement Association; Hawaii Veterinary Medical Association; Hawaii Cattlemen's Council, Inc.; Beck's Superior Hybrids; and thirty-eight individuals. Your Committees received testimony in opposition to this measure from two individuals.

Your Committees find that there is an increase in reports of rose-ringed parakeet flocks on the island of Kauai. This species poses a significant threat to the local economy, ecology, and human health and safety. On Kauai, the rose-ringed parakeet causes more crop damage than all other birds and mammals.

Your Committees further find that the National Wildlife Research Center began its work to examine the damaging impacts of the rose-ringed parakeet with funds appropriated under Act 31, Session Laws of Hawaii 2017. The appropriated funds are being used to support a review of existing damage mitigation tools, identify potential new tools for evaluation, develop stakeholder-specific guidelines for damage control to farmers, ranchers, tourism operators, and homeowners, and establish protocols for pilot studies to evaluate the most promising control tools. The funds appropriated by this measure will be used to complete the evaluation studies and carry out the second phase of the project, which is to conduct pilot field studies to evaluate control tools and develop a management plan to reduce populations of the rose-ringed parakeet on Kauai. This process will include tracking and mapping populations and field assessment of population reduction methods.

Your Committees have amended this measure by:

- (1) Inserting an appropriation amount of \$284,011 to provide assistance and supplemental funding for the National Wildlife Research Center to conduct pilot field studies to reduce the rose-ringed parakeet population on Kauai;
- (2) Changing the effective date to July 1, 2018; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Water and Land and Agriculture and Environment that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 2081, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 2081, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
Water and Land: Ayes, 4. Noes, none. Excused, 1 (Inouye).
Agriculture and Environment: Ayes, 3. Noes, none. Excused, 2 (Nishihara, Ruderman).

SCRep. 3080 (Joint) Water and Land and Agriculture and Environment on H.B. No. 2545

The purpose and intent of this measure is to:

- (1) Require the State Sustainability Coordinator of the Office of Planning to complete a holistic and comprehensive study and plan for green infrastructure opportunities in the State; and
- (2) Appropriate to the State Sustainability Coordinator funds for the completion of the green infrastructure study and plan.

Your Committees received testimony in support of this measure from the Office of Planning, Ulupono Initiative, O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, Hawaii Farm Bureau Federation, and four individuals.

Your Committees find that the creation of green infrastructure plans at the state level can generate strategies to enhance and preserve parks, agriculture, forest lands, and coastal areas. State green infrastructure plans can also identify where the State can save on water management costs, decrease pollution, lower flooding risks, and address climate change. However, the State lacks a system to determine the most effective use of green infrastructure in Hawaii. Without green infrastructure planning, the State risks losing valuable opportunities to cost effectively preserve the State's environment and increase quality of life for residents. Accordingly, this measure requires a holistic and comprehensive study and plan for green infrastructure opportunities in the State.

Your Committees have amended this measure by:

- (1) Requiring the State Sustainability Coordinator of the Office of Planning to submit to the Legislature a progress report prior to the convening of the Regular Session of 2020 and a final report prior to the convening of the Regular Session of 2021;
- (2) Inserting an appropriation amount of \$750,000 for the State Coordinator to complete a holistic and comprehensive study and plan for green infrastructure opportunities in the State;
- (3) Changing the effective date to July 1, 2018; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Water and Land and Agriculture and Environment that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 2545, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 2545, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Water and Land: Ayes, 4. Noes, none. Excused, 1 (Inouye).

Agriculture and Environment: Ayes, 3. Noes, none. Excused, 2 (Nishihara, Ruderman).

SCRep. 3081 (Joint) Agriculture and Environment and Commerce, Consumer Protection, and Health on H.B. No. 2626

The purpose and intent of this measure is to:

- (1) Require the Department of Health to hire a third-party consultant to conduct a study on the issues relating to the upgrade or conversion of cesspools; and
- (2) Establish the cesspool conversion working group to assist the third-party consultant on the study.

Your Committees received testimony in support of this measure from the Department of Health, Office of the Mayor of the County of Hawaii, City and County of Honolulu Department of Environmental Services, County of Hawaii Department of Environmental Management, Coral Reef Alliance, ILWU Local 142, Surfrider Foundation Oahu Chapter, O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, and fourteen individuals. Your Committees received comments on this measure from Envirocycle Cesspool Replacements.

Your Committees find that Hawaii has 88,000 cesspools that deposit approximately 53,000,000 gallons of raw sewage directly into the groundwater every day. Drinking water, public recreation, and the precious coral reefs, on which Hawaii's economy, shoreline, recreation, fisheries, and native species depend, are or may be harmed by such pollution. Your Committees further find that costs, terrain, and other geologic and geographic factors complicate the upgrading or conversion of cesspools in many areas of the State.

Your Committees have amended this measure by:

- (1) Extending the deadline for the Department of Health to submit the study to the Legislature from December 31, 2019, to December 31, 2020; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Agriculture and Environment and Commerce, Consumer Protection, and Health that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 2626, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 2626, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Agriculture and Environment: Ayes, 4. Noes, none. Excused, 1 (Ruderman).

Commerce, Consumer Protection, and Health: Ayes, 5. Noes, none. Excused, 2 (Espero, Ruderman).

SCRep. 3082 Housing on H.B. No. 2472

The purpose and intent of this measure is to specify that certain provisions of the Internal Revenue Code related to at-risk rules and deductions and to passive activity loss do not apply with respect to claims for the state low-income housing tax credit.

Your Committee received testimony in support of this measure from the Department of Taxation, Hawaii Housing Finance and Development Corporation, InState Partners, and Oahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i. Your Committee received comments on this measure from the Tax Foundation of Hawaii.

Your Committee finds that under existing law, the state low-income housing tax credit is difficult to use for Hawaii taxpayers other than large corporations or financial institutions. As a result, this lowers the demand and equity that can be generated for each dollar of this tax credit that is issued.

Your Committee further finds that Act 129, Session Laws of Hawaii 2016, addressed an aspect of this issue by accelerating the low-income housing tax credit from ten to five years. This acceleration makes the tax credit available to smaller taxpayers who are better able to forecast their income tax liability over a five-year, rather than ten-year, span. This measure builds on the incentives provided under Act 129, Session Laws of Hawaii 2016, by eliminating the applicability of the at-risk and passive activity loss rules to the low-income housing tax credit. This will allow affordable rental housing developers to decouple the tax credit from an ownership share in affordable rental projects being financed, thereby allowing any Hawaii taxpayer with income tax liability to use the low-income housing tax credit.

Your Committee has amended this measure by:

- (1) Adopting the language suggested by the Department of Taxation that caps the state low-income housing tax credit at fifty percent of the federal low-income housing tax credit to avoid noncompliance with section 42(k) of the Internal Revenue Code; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2472, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2472, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Kahele, Nishihara).

SCRep. 3083 Judiciary on H.B. No. 2134

The purpose and intent of this measure is to amend the offense of violation of privacy in the first degree to:

- (1) Prohibit disclosure or threatened disclosure of an image or video when the disclosure or threatened disclosure is an act of revenge or retribution;
- (2) Enhance the penalty if the person or persons entitled to privacy or the depicted person is a minor; and
- (3) Require that any recording or image that is a violation of the offense of violation of privacy in the first degree be sealed and remain confidential.

Your Committee received testimony in support of this measure from the Hawaii State Commission on the Status of Women, Department of the Prosecuting Attorney of the City and County of Honolulu, Honolulu Police Department, UNITE, IMUAlliance, Hawaii Women Lawyers, Oahu County Committee on Legislative Priorities of the Democratic Party of Hawaii, and one individual.

Your Committee finds that the increasing prominence and ubiquity of personal electronics and social media has created conditions that can be easily exploited by persons with the intention to violate the privacy of others. "Revenge pornography", or the nonconsensual disclosure of images or videos of individuals engaged in a sex act or in the nude, is a serious issue that disproportionately affects women. Revenge pornography has a broad spectrum of consequences ranging from embarrassment and humiliation to forced sex trafficking. This measure will explicitly include acts of revenge pornography within the offense of violation of privacy in the first degree.

Your Committee notes that nudity and sexual conduct in public places are already discouraged as a matter of public policy and there is some concern that allowing an exception to the exemption for such conduct in public places if the disclosure is an act of revenge or retribution creates an expectation of privacy in public places. Your Committee also notes concern regarding the meaning of "retribution", and the types of contexts that might arise for prosecution based on this term. As this measure proceeds, your Committee encourages further discussion on these issues.

Your Committee has amended this measure by:

- (1) Deleting the enhanced penalty if the person or persons entitled to privacy or the depicted person is a minor;
- (2) Deleting the exception to the exemption for conduct in public places if the disclosure is an act of revenge or retribution; and
- (3) Inserting an effective date of July 1, 2035, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2134, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2134, H.D. 1, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 3084 Water and Land on S.C.R. No. 16

The purpose and intent of this measure is to provide the legislative approval required by law to dedicate Leali'i Parkway to the County of Maui.

Your Committee received testimony in support of this measure from the Department of Business, Economic Development, and Tourism; Hawaii Housing Finance and Development Corporation; Office of the Mayor, County of Maui; and one individual.

Your Committee finds that the Hawaii Housing Finance and Development Corporation proposes to dedicate the fee interest in Leali'i Parkway to the County of Maui. The roadway is a 134,045 square foot parcel serving the Villages of Leali'i master plan community in Lahaina. The Villages of Leali'i includes Department of Hawaiian Home Lands and Hawaii Housing Finance and Development Corporation housing developments. The fair market value of the Leali'i Parkway was \$1 as of July 24, 2017. Since the

Corporation has met all statutory prerequisites, this measure will provide legislative approval of the dedication of the fee interest in accordance with section 171-64.7, Hawaii Revised Statutes, relating to legislative approval of the sale or gift of lands.

Your Committee has amended this measure by:

- (1) Adding language to indicate that the Hawaii Housing Finance and Development Corporation will work with the Department of Hawaiian Home Lands and the County of Maui to finalize the dedication of the parkway; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 16, as amended herein, and recommends that it be referred to your Committee on Ways and Means, in the form attached hereto as S.C.R. No. 16, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Gabbard, Inouye).

SCRep. 3085 (Joint) Agriculture and Environment and Transportation and Energy on H.B. No. 2182

The purpose and intent of this measure is to:

- (1) Repeal Act 33, Session Laws of Hawaii 2017 (Act 33), and create a new task force named as the Greenhouse Gas Sequestration Task Force which has similar aims as the Carbon Farming Task Force created by Act 33, but expands and extends the task force until January 1, 2045;
- (2) Align the State's clean energy and carbon sequestration efforts with climate initiative goals, and require that a member of the Greenhouse Gas Sequestration Task Force also be a member of the Climate Change Mitigation and Adaptation Commission; and
- (3) Expand the mission of the Greenhouse Gas Sequestration Task Force by requiring that the task force examine opportunities to exploit carbon sequestering trees and vegetation to reduce urban temperatures and thereby protect public health.

Your Committees received testimony in support of this measure from Healthy Climate Communities, Organizing for Action, Life of the Land, Sierra Club of Hawai'i, 350Hawaii.org, O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, Maui County Farm Bureau, The Outdoor Circle, and seventeen individuals. Your Committees received comments on this measure from the Department of Land and Natural Resources, Department of Health, and Office of Planning.

Your Committees finds that the Carbon Farming Task Force was established to benefit local farmers in Hawaii through additional subsidies and support to grow local agriculture, create jobs, and diversify the State's economy. The task force was charged with identifying agricultural and aquacultural land management practices that sequester carbon to provide greenhouse gas reduction benefits, enhance sustainability of Hawaii's agricultural lands, decrease sedimentation of the marine environment, improve the climate resistance of Hawaii's agricultural sector, and create new opportunities for local farmers. Your Committees further find that due to the serious threat that climate change poses to Hawaii, it is in the State's best interest to rename and expand the task force.

Your Committees have amended this measure by:

- (1) Deleting duplicative language that would have amended chapter 342B, Hawaii Revised Statutes, to require a statewide target to sequester more atmospheric carbon and greenhouse gases than are emitted within the State by 2045;
- (2) Deleting language that would have required that after January 1, 2020, all agency plans, decisions, and strategies must give consideration to the impact of those plans, decisions, and strategies on the State's ability to achieve the statewide target to sequester more atmospheric carbon and greenhouse gases;
- (3) Repealing language in Act 32, Session Laws of Hawaii 2017, that would have repealed chapter 225P, Hawaii Revised Statutes, to make chapter 225P, Hawaii Revised Statutes, and the task force permanent;
- (4) Inserting an appropriation amount of \$150,000;
- (5) Requiring the Office of Planning to submit a status update report to the Legislature no later than twenty days prior to the convening of the Regular Session of 2021; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Agriculture and Environment and Transportation and Energy that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 2182, H.D. 2, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 2182, H.D. 2, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Agriculture and Environment: Ayes, 3. Noes, none. Excused, 2 (Nishihara, Ruderman).

Transportation and Energy: Ayes, 3. Noes, none. Excused, 2 (English, Harimoto).

SCRep. 3086 (Joint) Agriculture and Environment and Labor on H.B. No. 2115

The purpose and intent of this measure is to appropriate funds for the operations of the K-12 agriculture workforce development pipeline initiative.

Your Committees received testimony in support of this measure from the Department of Labor and Industrial Relations; Department of Agriculture; Department of Education; Hawaii State Teachers Association; Hawai'i Farm Bureau; Land Use Research Foundation of Hawaii; Hawaii Farmers Union United; Hawaii Crop Improvement Association; Hawaii Island Economic Development Board;

Kulahaven Farms LLC; Maui County Farm Bureau; Hawaii Cattlemen's Council, Inc.; O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i; and fifteen individuals.

Your Committees find that Act 229, Session Laws of Hawaii 2016, implemented the recommendation of the Hawaii Agriculture Workforce Advisory Board to establish the K-12 agriculture workforce development pipeline initiative to conduct training on all islands for teachers and school administrators in agricultural self-sufficiency. Your Committees further find that financial support for the initiative is in the best interest of the State as it promotes the expansion and development of the State's agricultural workforce and industry.

Your Committees have amended this measure by:

- (1) Inserting an appropriation amount of \$200,000;
- (2) Requiring the Department of Labor and Industrial Relations to submit annual reports to the Legislature; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Agriculture and Environment and Labor that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 2115, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 2115, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Agriculture and Environment: Ayes, 4. Noes, none. Excused, 1 (Ruderman).

Labor: Ayes, 3. Noes, none. Excused, 2 (Ihara, Taniguchi).

SCRep. 3087 Labor on H.B. No. 2202

The purpose and intent of this measure is to require that a duly qualified physician or duly qualified surgeon selected and paid for by an employer to perform a medical examination on an employee relating to a work injury under workers' compensation law shall be duly qualified to treat the injury being examined, possess medical malpractice insurance, and owe the same duty of care to the injured employee as to a traditional patient.

Your Committee received testimony in support of this measure from the Work Injury Medical Association of Hawaii, ILWU Local 142, Hawaii Medical Association, Hawaii Injured Workers Association, Pacific Medical Group, and three individuals. Your Committee received testimony in opposition to this measure from Hawaiian Electric Co., Inc. Your Committee received comments on this measure from the Department of Labor and Industrial Relations and City and County of Honolulu Department of Human Resources.

Your Committee finds that currently, an examination related to a work injury under workers' compensation may be done by a physician that does not have expertise in the area of a worker's injury. Your Committee believes that the examination should be required to be performed by a physician or surgeon with special expertise for the injury being examined and that injured employees deserve the same duty of care as any other patient.

As affirmed by the record of votes of the members of your Committee on Labor that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2202, H.D. 2, and recommends that it pass Second Reading and be referred to your Committee on Commerce, Consumer Protection, and Health.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 3088 Labor on H.B. No. 1768

The purpose and intent of this measure is to allow public inspection and duplication of salary ranges, rather than exact compensation, for legislative employees.

Your Committee received testimony in support of this measure from the Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO and one individual. Your Committee received testimony in opposition to this measure from Common Cause Hawaii, Society of Professional Journalists Hawaii Chapter, Civil Beat Law Center for the Public Interest, League of Women Voters, and two individuals. Your Committee received comments on this measure from the Office of Information Practices.

Your Committee finds that taxpayers want to know how and where their tax dollars are being spent and therefore government must be held accountable and demonstrate transparency; however, employees are entitled to a degree of privacy, and publishing any employee's exact salary amount without discretion does not adequately support an individual employee's expectation of privacy or achieve a substantive means of accounting for government expenditures.

Your Committee acknowledges that this measure is a work in progress and notes that while it is important for taxpayers to know the exact compensation of high salary government employees, lower wage government employees should be afforded basic privacy and respect in doing their jobs. Furthermore, availability of a government employee's exact compensation may lead to greater pay disparity if future employers base salary offers on employees' former government salaries.

As this measure moves forward, your Committee requests that your Committee on the Judiciary look at civil service versus civil service exempt employees as a way to delineate between employees whose exact salaries are available versus those whose salary ranges are available for public inspection and duplication.

Your Committee has amended this measure by:

- (1) Deleting its contents and replacing it with the contents of S.B. No. 2870, S.D. 1 (Regular Session 2018), which:

- (A) Specifies that salary ranges within \$15,000 for legislative employees shall be made available for public inspection and duplication; and
 - (B) Deletes legislative officers as defined by section 88-21, Hawaii Revised Statutes, and legislative service agency directors and officers as defined by section 21E-1, Hawaii Revised Statutes, from the definition of "legislative employees" but specifies that non-managerial employees of legislative service agencies as defined by section 21E-1, Hawaii Revised Statutes, are included within that definition; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Labor that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1768, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1768, H.D. 2, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 5; Ayes with Reservations (Ihara, Taniguchi). Noes, none. Excused, none.

SCRep. 3089 Labor on H.B. No. 2336

The purpose and intent of this measure is to allow payment of employer contributions to the Employees' Retirement System (ERS) in advance of the fiscal year in which the contributions are required.

Your Committee received testimony in support of this measure from the Department of Budget and Finance and Board of Trustees of the Employees' Retirement System.

Your Committee finds that currently, the ERS is not able to accept employer contributions in advance of the fiscal year in which the contributions are required. This measure would allow employers to remit cash in advance and to receive credit against future contribution obligations; therefore, giving employers more flexibility in making payments. Additionally, advance payments will assist the ERS to reduce the plan's unfunded liabilities over time.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 2018; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Labor that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2336, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2336, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 3090 Economic Development, Tourism, and Technology on H.B. No. 2557

The purpose and intent of this measure is to appropriate funds to the Department of Business, Economic Development, and Tourism, to continue to support the Pacific International Space Center for Exploration Systems' (PISCES) internship and economic development programs.

Your Committee received testimony in support of this measure from the Pacific International Space Center for Exploration Systems and O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i.

Your Committee finds that the primary objective of PISCES is to work with the youth in Hawaii to develop their experience in the work force in order to be better prepared for a career in the high tech job market. Your Committee further finds that through its internships, mentorships, and its Science, Technology, Engineering, and Math Aerospace Research Scholars (STARS) program for women, PISCES has provided hands-on work experience to over thirty university students and has introduced over thirty high school girls to the field of science, technology, engineering, and math. Your Committee believes that the internship and economic development programs provided by PISCES are valuable to the State, as they equip Hawaii's youth with the necessary skills to enter the high tech work force, and your Committee supports the continuation of these programs to better prepare the upcoming generation of scientists, engineers, mathematicians, and major contributors to the high tech industry.

Your Committee has amended this measure by:

- (1) As suggested by the Office of Enterprise Technology Services, inserting a ceiling of \$1,000,000 for the Pacific International Space Center for Exploration Systems special fund; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Economic Development, Tourism, and Technology that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2557, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2557, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Thielen).

SCRep. 3091 Economic Development, Tourism, and Technology on H.B. No. 2080

The purpose and intent of this measure is to:

- (1) Appropriate funds to award grants, subject to matching funds, that enable software application challenge participants to develop the proofs of concept created during the challenge into prototypes;
- (2) Establish application requirements for grants, to include an overview of the proof of concept, an adoption plan for the application, budget components for the software application's development, and expected outcomes if awarded the grant; and
- (3) Authorize the Hawaii Technology Development Corporation to expend some of the funds appropriated to support and manage the application challenge events and resultant prototypes and projects.

Your Committee received testimony in support of this measure from the Department of Commerce and Consumer Affairs, Office of Enterprise Technology Services, Hawaii Technology Development Corporation, O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, Transform Hawai'i Government, and Hawaii Open Data.

Your Committee finds that supporting software developed by the public engages the local tech community in helping to modernize state government and develop innovative tools and applications that will enhance the services provided by the State to better serve the public. Your Committee further finds that events such as the Hawaii Annual Code Challenge promotes civic engagement and open government, and works to find innovative solutions for challenges faced by the government. Your Committee notes that providing support for events such as the Hawaii Annual Code Challenge will bridge the gap between a proof of concept, a prototype, and a commercial product. Your Committee believes that supporting the local tech community has the potential to establish startup businesses, thereby expanding the small business community in Hawaii.

Your Committee recognizes the challenge that nongovernment donors may face in matching up to fifty percent of the other sources of funds per project.

Accordingly, your Committee has amended this measure by:

- (1) Decreasing the minimum percentage of monies that must be sourced from nongovernment sources from fifty percent to twenty-five percent; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Economic Development, Tourism, and Technology that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2080, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2080, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Baker, Galuteria).

SCRep. 3092 Commerce, Consumer Protection, and Health on H.B. No. 2611

The purpose and intent of this measure is to appropriate funds to establish the following substance abuse treatment programs:

- (1) A comprehensive and coordinated continuum of treatment services;
- (2) A comprehensive and coordinated centralized referral system in each county;
- (3) A comprehensive and coordinated substance use disorder case management program; and
- (4) A peer mentoring and coaching program.

Your Committee received testimony in support of this measure from the Department of Health, Hawai'i Substance Abuse Coalition, Drug Policy Forum of Hawai'i, Mental Health America of Hawai'i, O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, Salvation Army Addiction Treatment Services and Family Treatment Services, Life Foundation and the CHOW Project, and two individuals.

Your Committee finds that substance abuse disorders pose a pervasive public health concern and that individuals suffering from substance abuse disorders frequently have other health conditions that complicate treatment. Substance abuse disorders affect multiple segments of the community, making a multi-systemic approach, such as the initiatives proposed to be funded by this measure, particularly instrumental in addressing these disorders. Your Committee further finds that this measure aligns with ongoing work to implement a broad system of care that includes substance abuse prevention, treatment and recovery support, a centralized statewide referral system, use of case managers who have been trained to effectively assist individuals with multiple, chronic conditions, and peer mentoring, which is a national best practice that connects individuals with substance abuse disorders to peers with firsthand experience in recovery or other individuals who can provide needed support.

Your Committee notes that this measure has an effective date of July 1, 3000, and a blank appropriation amount, and requests that your Committee on Ways and Means insert an appropriate effective date and appropriation amount.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2611, H.D. 1, and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Nishihara, Ruderman, Tokuda).

SCRep. 3093 Commerce, Consumer Protection, and Health on H.B. No. 1895

The purpose and intent of this measure is to appropriate funds to assist the Department of Health in reviewing, certifying, and recertifying dialysis centers in Hawaii and other health care facilities under the purview of the Department of Health.

Your Committee received testimony in support of this measure from the Department of Health, Healthcare Association of Hawai'i, O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, National Kidney Foundation, Liberty Dialysis Hawai'i and Fresenius Medical Care of North America, and U.S. Renal Care, Inc.

Your Committee finds that 168,000 Hawaii residents suffer from chronic kidney disease, representing approximately one in seven Hawaii residents. Your Committee further finds that approximately four thousand Hawaii residents require dialysis three times per week, and that this number continues to grow by approximately seven hundred per year. Accordingly, additional dialysis centers are planned but require review and certification from the Department of Health before they can be reimbursed for treatment of Medicare and Medicaid patients, who make up eighty-five percent of Hawai'i's dialysis population. The review and certification process takes nearly three years to complete, due in part to a shortage of funds and personnel. Your Committee finds that the funds appropriated by this measure will expedite the review and certification process for dialysis centers.

Your Committee notes that this measure has an effective date of July 1, 3000, and a blank appropriation amount and requests that your Committee on Ways and Means insert an appropriate effective date and appropriation amount.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1895, H.D. 1, and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Nishihara, Ruderman, Tokuda).

SCRep. 3094 Commerce, Consumer Protection, and Health on H.B. No. 1802

The purpose and intent of this measure is to amend the cesspool upgrade, conversion, or connecting income tax credit by repealing the provision that restricts the Department of Health from certifying more than two residential large capacity cesspools as qualified cesspools.

Your Committee received testimony in support of this measure from the Department of Health and O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i. Your Committee received comments on this measure from the Department of Taxation.

Your Committee finds that there are approximately 88,000 cesspools in Hawaii, discharging approximately 53,000,000 gallons of untreated sewage into the groundwater every day. Groundwater flows into drinking water sources and recreational waters, harming public health and the environment. Your Committee finds that the cost of upgrading cesspools is high, averaging \$20,000 to \$30,000 per cesspool, but that some of those costs can be recovered through the cesspool upgrade, conversion, or connection income tax credit. Your Committee finds that this measure will allow the Department of Health to certify more than two residential large capacity cesspools as qualified cesspools per year for purposes of claiming the income tax credit, thereby improving utilization of the tax credit and speeding the pace of cesspool upgrades.

Your Committee has amended this measure by making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1802, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1802, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Nishihara, Ruderman, Tokuda).

SCRep. 3095 Commerce, Consumer Protection, and Health on H.B. No. 1906

The purpose and intent of this measure is to make intentionally or knowingly causing bodily injury to certain health care workers a class C felony.

Your Committee received testimony in support of this measure from the Department of Health, Board of Nursing, Hawaii Nurses Association OPEIU Local 50, Hawaii Primary Care Association, Hawaii Medical Association, Hawaii Health Systems Corporation, Kaiser Permanente, Hilo Medical Center, Hawaii Medical Service Association, The Queen's Health Systems, Legacy of Life Hawaii, Healthcare Association of Hawaii, Hawaii Government Employees Association, Hawaii Public Health, and one individual.

Your Committee finds that health care workers may be less likely to report assaults under existing law, in part because the offense of assault in the third degree is classified as a misdemeanor and therefore is capable of being expunged from the offender's record and subject to a time served sentence. Your Committee finds that this measure will extend protections for health care workers, encourage prosecution of individuals who assault health care workers, and assist in the retention of needed health care workers by elevating the offense of assault of a health care worker who is engaged in the performance of duty to a felony. In so doing, this measure will provide an equal level of protection for health care workers as for employees of state-operated or state-contracted mental health facilities.

Your Committee has amended this measure by:

- (1) Inserting a purpose section to clarify its intent;
- (2) Expanding the definition of "person who is engaged in the performance of duty at a health care facility" to include administrators, students, volunteers, and any other workers supporting the functions of the health care facility;
- (3) Removing references to persons employed or contracted by a mutual benefit society;
- (4) Inserting an effective date of July 1, 2035, to encourage further discussion; and

- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1906, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1906, H.D. 2, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Nishihara, Ruderman, Tokuda).

SCRep. 3096 (Joint/Majority) Labor and Government Operations on H.B. No. 2420

The purpose and intent of this measure is to establish restrictions on the participation in partisan political activities of certain state employees and officers who regularly engage in adjudicatory, regulatory, law enforcement, or investigatory duties.

Your Committees received testimony in support of this measure from the Hawaii State Ethics Commission, Common Cause Hawaii, and one individual.

Your Committees find that the State should ensure that state officials work to promote the best interests of the people of Hawaii. Your Committees support efforts to protect state officials and the public from coercion by high-level state employees and likewise, support efforts to ensure that state programs are administered in a non-partisan fashion.

Your Committees further find that this measure as introduced contained penalty provisions. Without penalty provisions, this measure lacks teeth and does not act as a strong deterrent to employees who may otherwise commit violations; therefore, your Committees believe that the penalty provisions should be reinserted.

Accordingly, your Committees have amended this measure by:

- (1) Reinserting the penalty provision that imposes an administrative fine not to exceed \$1,000 for each violation by any officer or employee who violates the prohibitions on political participation; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Labor and Government Operations that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 2420, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 2420, H.D. 1, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chairs on behalf of the Committees.

Labor: Ayes, 3. Noes, 2 (Chang, Taniguchi). Excused, none.

Government Operations: Ayes, 4. Noes, none. Excused, 1 (Galuteria).

SCRep. 3097 (Joint/Majority) Agriculture and Environment and Public Safety, Intergovernmental, and Military Affairs on H.B. No. 2593

The purpose and intent of this measure is to promote the humane treatment of feral cats by:

- (1) Requiring an unspecified agency to contract with a nonprofit animal rescue group to oversee caretakers of feral cats;
- (2) Exempting registered caretakers of feral cats from state and county laws relating to the feeding and confinement of cats; provided that the caretakers are registered with the contracted rescue group; and
- (3) Establishing a feral cat trap-sterilize-return process.

Your Committees received testimony in support of this measure from the Hawaii Association of Animal Welfare Agencies, Hawaiian Humane Society, The Humane Society of the United States, West Hawaii Humane Society, Joey's Feline Friends, Poi Dogs & Popoki, Cat People of Oahu, #SpeakUp Movement, Hawaii Happy Cats, Animal Rights Hawai'i, Feline Foundation of Maui, and one hundred two individuals. Your Committees received testimony in opposition to this measure from the Department of Land and Natural Resources, Office of Hawaiian Affairs, American Bird Conservancy, Coordinating Group on Alien Pest Species, Conservation Council for Hawaii, and twenty-six individuals. Your Committees received comments on this measure from the Department of Health and two individuals.

Your Committees find that free-roaming cat issues remain complex and controversial. This measure proposes to recognize and register cat caregivers to ensure the use of standard cat management practices, generate data to guide ongoing or future efforts, and afford protections only to those individuals who are in compliance with such standards of care, which must include recognition of areas where cats should not be managed or maintained due to wildlife or other concerns. Your Committees further find that it is critical to the State's efforts to protect indigenous and endangered wildlife that free-roaming cat populations be reduced; however, a balance must be struck to provide humane treatment to free-roaming cats. Trap-sterilize-return-manage is a process that allows for humane treatment and population reduction of free-roaming cats.

Your Committees have amended this measure by:

- (1) Replacing the terms "caretaker", "contracted rescue group", "feral cat", and "trap-sterilize-return" with "caregiver", "animal care or rescue group", "free-roaming cat", and "trap-sterilize-return-manage", respectively;
- (2) Deleting unnecessary definitions;
- (3) Clarifying the definitions of "animal care or rescue group", "caregiver", and "trap-sterilize-return-manage";
- (4) Deleting language that would have required a state agency to contract with a rescue group;

- (5) Clarifying that animal care or rescue groups may register caregivers of free-roaming cats; provided that they meet certain record keeping, reporting, and management responsibilities and requirements;
- (6) Requiring animal care or rescue groups to make reasonable efforts to mediate and resolve concerns regarding the presence of a known free-roaming cat colony managed by a registered caregiver on or immediately adjacent to property managed by a federal, state, or county agency for the primary purpose of protection of wildlife;
- (7) Requiring animal care or rescue groups to submit annual reports relating to the trap-sterilize-return-manage process to the Senate standing committee and the House of Representatives standing committee whose purviews include agriculture;
- (8) Providing that registered caregivers are exempt from any state or county statute, ordinance, regulation, rule, or other law that:
 - (A) Prohibits the feeding or care of stray cats or requires a permit to do so;
 - (B) Mandates the confinement of cats; or
 - (C) Limits the number of cats that a person may own, harbor, or have custody of;
- (9) Clarifying that the registered caregiver exemption shall not be construed to limit the enforcement of any law or ordinance requiring the sterilization of cats or prohibiting cruelty to animals;
- (10) Clarifying the responsibilities of a registered caregiver in the trap-sterilize-return-manage process;
- (11) Deleting the requirement for the Department of Health to adopt administrative rules necessary for this measure;
- (12) Requiring animal care or rescue groups to submit a five-year summary report on the results of the trap-sterilize-return-manage process to the Legislature no later than twenty days prior to the convening of the Regular Session of 2023;
- (13) Amending the preamble to reflect its amended purpose;
- (14) Changing its effective date to January 1, 2018, and inserting a repeal date of December 31, 2022; and
- (15) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

Your Committees request that as this measure moves forward, your Committee on Judiciary consider the concerns raised in testimony regarding entry of caregivers upon protected wildlife habitats.

As affirmed by the records of votes of the members of your Committees on Agriculture and Environment and Public Safety, Intergovernmental, and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 2593, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 2593, H.D. 1, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chairs on behalf of the Committees.

Agriculture and Environment: Ayes, 3; Ayes with Reservations (Rhoads). Noes, 2 (Riviere, Ruderman). Excused, none.

Public Safety, Intergovernmental, and Military Affairs: Ayes, 4; Ayes with Reservations (Baker, Thielen, Wakai). Noes, none. Excused, 1 (Ihara).

SCRep. 3098 (Joint) Government Operations and Labor on H.B. No. 2671

The purpose and intent of this measure is to appropriate funds to various agencies to collaboratively develop and implement agreed upon solutions to assist displaced workers on the island of Molokai.

Your Committees received testimony in support of this measure from the Department of Agriculture; Department of Labor and Industrial Relations; Department of Human Resources Development; University of Hawai'i System; three members of the Maui County Council; United Public Workers, AFSCME, Local 646, AFL-CIO; Hawai'i Farm Bureau; Hawaii Crop Improvement Association; and three individuals. Your Committees received comments on this measure from the Office of the Governor and Department of Business, Economic Development, and Tourism.

Your Committees find that the island of Molokai has struggled for years with limited opportunities for gainful and consistent employment. Recently, this problem has been exacerbated by the relocation of some employer companies off the island. Your Committees recognize that as a result of the job losses and their trickle-down effects, families on Molokai may lose their homes, cars, and ability to pay for their children's college tuition. Accordingly, your Committees find that it is important to support the continued availability of gainful employment on Molokai.

However, your Committees note that there are questions about how the proposals will be effectively implemented once enacted, especially with regard to the expenditure of appropriated funds. Therefore, in order for the Legislature to administer proper oversight, your Committees find that it is necessary to require the Office of the Governor to submit a report to the Legislature detailing the efforts of the offices and departments involved and the expenditures made in pursuit of those efforts.

Accordingly, your Committees have amended this measure by:

- (1) Requiring the Office of the Governor to submit a report to the Legislature no later than twenty days prior to the convening of the Regular Session of 2019 detailing the efforts made and expenditures of all offices and departments appropriated funds to assist dislocated workers and address the overall continued availability of gainful employment on the island of Molokai; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Government Operations and Labor that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 2671, H.D. 1, as amended herein, and recommend

that it pass Second Reading in the form attached hereto as H.B. No. 2671, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
 Government Operations: Ayes, 4. Noes, none. Excused, 1 (Galuteria).
 Labor: Ayes, 5. Noes, none. Excused, none.

SCRep. 3099 Government Operations on H.B. No. 1669

The purpose and intent of this measure is to:

- (1) Repeal the fifteen-year limit on the granting of concession contracts and repeal the exemption from the fifteen-year limitation for non-profits;
- (2) Allow the granting of thirty-year contracts for concession space if certain conditions are met;
- (3) Allow qualified offerors to submit proposals for concessions on public property;
- (4) Specify advertising, submission, opening, and deposit or bond requirements for proposals for concessions on public property; and
- (5) Require that the responsible officer award the contract to, and negotiate with, the offeror whose proposal is determined to be the most advantageous to the State.

Your Committee received testimony in support of this measure from the State Procurement Office.

Your Committee finds that concessions on public property benefit the public by providing goods and services and revenue to support the properties' operations. Under existing law, agreements for concession entered into by vendors and a government agency are awarded based on the highest responsible bid. However, this bid process does not necessarily consider each potential vendor's total potential benefit to the public. However, the "best value" process, or competitive sealed bid proposals, would allow a government agency to consider all potential benefits, such as a vendor's consistency, reliability, responsiveness, and overall ability to enhance customer experiences, in considering bid proposals.

However, your Committee finds that extending the maximum allowable time period for concession contracts to thirty years would not enhance the effectiveness of concession contracts. Your Committee has concerns that allowing a longer contract period would lessen government's effectiveness in providing quality concessions.

Moreover, your Committee finds that this measure's proposals relating to the awarding of concession contracts should be strengthened to ensure that procurement officers and others involved in the process act in adherence to the State's requirements of ethical public procurement. Further, your Committee finds that under the existing proposal in this measure the procurement officer charged with awarding concession contracts is afforded a wide range of authority which may lead to questions about the legitimacy and fairness of contract awards.

Accordingly, your Committee has amended this measure by:

- (1) Re-establishing the existing fifteen-year limit for concession contracts;
- (2) Requiring that concession contracts be awarded by a procurement officer based on the rankings of a committee of a minimum of three individuals designated by the procurement officer to review and evaluate proposals from offerors;
- (3) Requiring that all persons involved in the review, evaluation, or awarding of concession contracts adhere to all requirements of ethical public procurement under section 103D-101, Hawaii Revised Statutes; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1669, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1669, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
 Ayes, 5. Noes, none. Excused, none.

SCRep. 3100 (Joint) Government Operations and Agriculture and Environment on H.B. No. 2026

The purpose and intent of this measure is to require the Legislative Reference Bureau to update their 1985 study, "The Feasibility of Environmental Reorganization for Hawaii," and assess the feasibility of implementing findings and recommendations of the 1991 Department of Environmental Protection Task Force.

Your Committees received testimony in support of this measure from the Department of Environmental Management for the County of Hawaii, O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, Sierra Club of Hawai'i, and nine individuals. Your Committees received testimony in opposition of this measure from the State Procurement Office. Your Committees received comments on this measure from the Legislative Reference Bureau.

Your Committees find that proper management of the State's environmental resources is essential for the State's future sustainability. Your Committees further find that state government should operate as efficiently as possible to make the best use of government resources, personnel, and taxpayer dollars as it works to achieve the policy goals enacted by the Legislature on behalf of the people. However, your Committees find that under existing law natural resource and environmental management is inefficiently split among many departments and agencies. In addition, your Committees find that several governmental departments and agencies suffer from internal conflicts of interest and being charged with an overly broad scope and mission.

Your Committees further find that the study on, "The Feasibility of Environmental Reorganization for Hawaii", which, in part, discussed the creation of a state Department of Environmental Protection. In addition, your Committees find that the Legislature, through Act 293, Session Laws of Hawaii 1991, temporarily placed a Department of Environmental Protection in the Hawaii Revised Statutes. The subsequent Department of Environmental Protection task force report recommended the establishment of a permanent Department of Environmental Protection. However, no consensus could be reached on a strategy for the overall establishment of the new department at that time. Your Committees find that given the immediate and growing need to appropriately address environmental concerns in the State, the State could benefit from the establishment of a Department of Environmental Protection and other suggestions relating to the reorganization of the State's environmental management. Therefore, your Committees find that the Legislative Reference Bureau should update its 1985 study and assess the feasibility of implementing any findings and recommendations of the aforementioned Department of Environmental Protection task force report.

However, your Committees acknowledge the concerns raised by the State Procurement Office relating to the measure's exemption from the state procurement code for contracts made by the Legislative Reference Bureau under this measure. Your Committees find that this measure should not exempt the Legislative Reference Bureau from the procurement code.

Your Committees have amended this measure by:

- (1) Deleting the exemption from chapter 103D, Hawaii Revised Statutes, for contracts entered into by the Legislative Reference Bureau pursuant to this measure;
- (2) Changing the amount appropriated from an unspecified amount to \$150,000; and
- (3) Changing the effective date to July 1, 2018.

As affirmed by the records of votes of the members of your Committees on Government Operations and Agriculture and Environment that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 2026, H.D. 2, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 2026, H.D. 2, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Government Operations: Ayes, 3. Noes, none. Excused, 2 (Keith-Agaran, Ruderman).

Agriculture and Environment: Ayes, 3. Noes, none. Excused, 2 (Nishihara, Ruderman).

SCRep. 3101 Government Operations on H.B. No. 2178

The purpose and intent of this measure is to remove the \$10,000 maximum limit on the cash or protest bond that must be posted for a procurement award protest.

Your Committee received testimony in support of this measure from the Department of Accounting and General Services, Department of Transportation, and State Procurement Office. Your Committee received testimony in opposition to this measure from the Hawaii Procurement Institute and one individual.

Your Committee finds that greater efficiency in the bid process for procurement contracts is necessary to eliminate government waste and increase government efficiency. Your Committee also finds that bid protests account for many of the delays in the bid process. Under existing law the party initiating a protest must provide in a cash or protest bond one-half percent of the total value for contracts with an estimated value of \$1,000,000 or more and the maximum cash or protest bond amount is capped at \$10,000. Your Committee finds that the existing percentage and maximum allowable cash or protest bond is too low and consequently provides no deterrent for those who might unnecessarily delay a public works project. Therefore, your Committee finds that the cash or protest bond for contracts with an estimated value of \$1,000,000 or more should be raised to five percent of the total value of the contract and the maximum cash or protest bond amount should be raised to \$10,000,000 to increase the efficiency of the bid process for procurement contracts. In addition, your Committee finds that the prevailing party in such protest actions should be entitled to attorneys' fees and costs.

Accordingly, your Committee has amended this measure by:

- (1) Establishing that an initiating party must pay cash or protest bond equal to five percent of the estimated value of the contract if the estimated value of the contract is \$1,000,000 or more;
- (2) Establishing a \$10,000,000 maximum limit on a cash or protest bond that must be posted for a procurement award protest;
- (3) Establishing that the prevailing party in an administrative protest hearing is entitled to attorneys' fees and costs; and
- (4) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2178, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2178, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 3102 Commerce, Consumer Protection, and Health on H.B. No. 1916

The purpose and intent of this measure is to prepare for an expected increase in individuals affected by Alzheimer's disease and related dementias by:

- (1) Requiring the Executive Office on Aging to annually update the State Plan on Alzheimer's Disease and Related Dementias (State Plan);

- (2) Requiring the Executive Office on Aging to include a work plan specifying the tasks, timelines, and milestones for each goal of the State Plan as part of the State Plan's annual update; and
- (3) Appropriating funds for the Executive Office on Aging to update the State Plan.

Your Committee received testimony in support of this measure from the St. Francis Healthcare System of Hawaii; Alzheimer's Association, Aloha Chapter; Hawaii Public Health Association; Ohana Home Health, LLC; Oahu County Committee on Legislative Priorities of the Democratic Party of Hawaii; Manoa Cottage; and seven individuals. Your Committee received comments on this measure from the Executive Office on Aging.

Your Committee finds that Alzheimer's disease is the sixth leading cause of death in the United States. Your Committee further finds that an estimated twenty-seven thousand individuals in Hawaii live with Alzheimer's disease, and that this number is expected to grow to thirty-five thousand by 2025. However, the Executive Office on Aging has not updated the State Plan since it was issued in 2013. Accordingly, your Committee finds that regular updates of the State Plan will ensure accountability and progress in addressing the needs of the aging population of the State.

Although regular updates to the State Plan are important, your Committee recognizes the burden that annual updates may impose on the Executive Office on Aging. Your Committee finds that biennial updates are sufficient to ensure the necessary systemic coordination, provided that the Executive Office on Aging includes updates on progress made toward the goals of the State Plan as part of its existing annual report to the Legislature. Your Committee finds that this will reduce the burden on the Executive Office on Aging while still accomplishing the purpose of this measure.

Your Committee has amended this measure by:

- (1) Requiring that the Executive Office on Aging update the State Plan on Alzheimer's Disease and Related Dementias once every fiscal biennium, rather than every year;
- (2) Requiring that the Executive Office on Aging provide an update on progress made toward the goals of the State Plan on Alzheimer's Disease and Related Dementias as part of its annual report to the Legislature, rather than as a separate report to the Legislature and Governor;
- (3) Changing its effective date to July 1, 2018; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1916, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1916, H.D. 2, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Nishihara, Ruderman, Tokuda).

SCRep. 3103 Commerce, Consumer Protection, and Health on H.B. No. 2741

The purpose and intent of this measure is to establish a working group to address reimbursement by health insurance for medical cannabis for qualifying patients.

Your Committee received testimony in support of this measure from the Hawaii Educational Association of Licensed Therapeutic Healthcare, Oahu County Committee on Legislative Priorities of the Democratic Party of Hawaii, and one individual. Your Committee received comments on this measure from the Legislative Reference Bureau.

Your Committee finds that Act 230, Session Laws of Hawaii 2016, established a legislative oversight group to develop and recommend legislation to improve the medical cannabis dispensary system in the State to ensure safe and legal access to medical cannabis for qualifying patients. Your Committee further finds that the working group explored the potential for medical cannabis costs to be reimbursable through health insurance. However, your Committee finds that the issues surrounding health insurance reimbursement for medical cannabis are complex enough to warrant a separate, dedicated working group modeled on the original working group.

Your Committee further finds that a plethora of voices are needed to ensure that all relevant interests are heard in the operations of this working group, including the interests of mutual benefit societies, health maintenance organizations, cannabis dispensaries, and adult and minor cannabis-using qualifying patients. Your Committee finds that language modeled on Act 230, Session Laws of Hawaii 2016, which established the original legislative oversight group, is appropriate to include these additional representatives.

Your Committee has amended this measure by:

- (1) Amending the membership of the working group to:
 - (A) Allow designees of the Chairs of the Senate Committee on Commerce, Consumer Protection, and Health and House Committee on Consumer Protection and Commerce to serve on the working group;
 - (B) Remove the representatives from the Hawaii Medical Service Association, Kaiser Permanente Hawaii, AlohaCare, and Hawaii Education Association for Licensed Therapeutic Healthcare and include instead one representative each from a mutual benefit society, health maintenance organization, licensed cannabis dispensary, and Medicaid managed care plan, to serve at the invitation of the chairs of the working group; and
 - (C) Add an adult cannabis-using qualifying patient and a parent or legal guardian of a minor cannabis-using qualifying patient;

- (2) Authorizing the working group to request assistance and feedback from other stakeholders, as needed;
- (3) Requesting the Legislative Research Bureau to provide staff assistance to the working group;
- (4) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2741, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2741, H.D. 2, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Nishihara, Ruderman, Tokuda).

SCRep. 3104 Commerce, Consumer Protection, and Health on H.B. No. 2128

The purpose and intent of this measure is to require health insurance policies offered by health insurers, mutual benefit societies, fraternal benefit societies, and health maintenance organizations to include coverage for clinical victim support services provided by licensed mental health providers for victims of sexual violence and abuse who suffer from mental disorders.

Your Committee received testimony in support of this measure from the Hawaii State Commission on the Status of Women; O'ahu County Committee, Legislative Priorities Committee of the Democratic Party of Hawai'i; Kaiser Permanente Hawaii; Hawai'i State Democratic Women's Caucus; Save Medicaid Hawaii; The Sex Abuse Treatment Center; IMUAlliance; YWCA O'ahu; Hawaii Children's Action Network; Filipina Advocacy Network; Hawaii Women's Coalition; Ho'omana Pono, LLC; and four individuals. Your Committee received comments on this measure from the Department of Human Services, Department of Commerce and Consumer Affairs, and Hawaii Medical Service Association.

Your Committee finds that according to the federal Centers for Disease Control and Prevention, sexual violence and abuse are extremely prevalent in the United States. It is estimated that 22,000,000 women and 1,600,000 men are victims of rape, while 53,000,000 women and 25,000,000 men have experienced some other form of sexual violence or abuse in their lifetimes. Trauma from sexual violence and abuse can have significant, lasting impacts on a survivor's mental health, which can interfere with the survivor's functional ability to engage and interact with the world.

Your Committee further finds that survivors with mental health conditions caused, in whole or in part, by sexual violence and abuse can require clinical victim support services, a professional intervention delivered by a licensed mental health provider with whom a victim has established a therapeutic relationship. According to testimony received by your Committee, historically, some health insurers have chosen not to provide coverage for appropriate clinical victim support services, which may act as a barrier to sufficient provider availability.

Your Committee has heard the concerns that this measure's required coverage for clinical victim support services may trigger an auditor's review of a new health insurance coverage mandate. However, your Committee notes that existing law already requires health insurance policies offered by health insurers, mutual benefit societies, fraternal benefit societies, and health maintenance organizations to provide coverage for mental health outpatient services.

According to testimony received by your Committee, clinical victim support services are a medically necessary type of mental health outpatient services delivered by health care providers in the normal course of planned treatment. As clinical victim support services fall within the existing definition of "mental health outpatient services", coverage for these types of services should already have been a covered benefit under existing law. Furthermore, as this measure is intended to clarify an existing covered benefits category – mental health outpatient services – provided by licensed mental health providers, rather than establishing a new covered benefit, an auditor's impact assessment report is not required. Amendments to this measure are therefore necessary to address these concerns and ensure that clinical victim support services include a complete range of medically necessary care for victims of sexual violence and abuse.

Accordingly, your Committee has amended this measure by:

- (1) Clarifying that clinical victim support services includes:
 - (A) Assisting victims of sexual violence and abuse in obtaining appropriate government entitlements, access, insurance coverage, and other appropriate programs and services; and
 - (B) Coordinating with schools, employers, and other individuals and entities concerning a victim of sexual violence and abuse;
- (2) Clarifying that covered mental illness benefits include clinical victim support services as a type of mental health outpatient service;
- (3) Clarifying that this measure shall be exempt from the Auditor's impact assessment report requirement under section 23-51, Hawaii Revised Statutes;
- (4) Updating the purpose section;
- (5) Changing its effective date to July 1, 2018; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

Your Committee notes that this amended measure clarifies the more complete, meaningful coverage of mental health outpatient services, which includes clinical victim support services for victims of sexual violence and abuse, and that are currently available and

allowed under the existing Hawaii Revised Statutes. Thus, this amended measure ensures that more survivors of sexual violence and abuse receive this particular kind of coordinated, multi-disciplinary care that is medically necessary for some survivors to recover and heal and that can help survivors avoid additional harm and decompensation.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2128, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2128, H.D. 2, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 1 (Tokuda).

SCRep. 3105 Housing on H.B. No. 2357

The purpose and intent of this measure is to create an eviction process for the Hawaii Public Housing Authority's state low-income housing projects and elder or elderly housing.

Your Committee received testimony in support of this measure from the Hawaii Public Housing Authority and O'ahu County Commission on Legislative Priorities of the Democratic Party of Hawai'i.

Your Committee finds that Act 114, Session Laws of Hawaii 2017 (Act 114), exempted state low-income housing directly controlled, owned, or managed by the Hawaii Public Housing Authority from the requirements of the residential landlord-tenant code under chapter 521, Hawaii Revised Statutes. Act 114 was the first step in creating a uniform eviction process for state and federal low-income public housing to ensure all tenants receive the same due process rights regardless of the property on which they reside. This measure streamlines the eviction process for all of the Hawaii Public Housing Authority's state and federal low-income public housing programs and lessens the caseload of the Judiciary and the Department of the Attorney General.

Your Committee has amended this measure by:

- (1) Changing the new part added to chapter 356D, Hawaii Revised Statutes, to a subpart in part III of chapter 356D, Hawaii Revised Statutes, relating to state low-income housing;
- (2) Replacing references to "resident" or "person" with "tenant", as the context requires, as "tenant" is defined in the new subpart in part III of chapter 356D, Hawaii Revised Statutes; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2357, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2357, H.D. 2, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Harimoto, Kahele).

SCRep. 3106 (Joint) Housing and Commerce, Consumer Protection, and Health on H.B. No. 2748

The purpose and intent of this measure is to require and appropriate funds to the Hawaii Housing Finance and Development Corporation to conduct a study on the current and future demand and supply of affordable housing suitable for individuals with special needs.

Your Committees received testimony in support of this measure from the Hawaii Housing Finance and Development Corporation, O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, and one individual. Your Committees received comments on this measure from the State Council on Developmental Disabilities.

Your Committees find that many individuals with access and functional needs face significant obstacles in obtaining suitable, long-term, affordable housing due to their low incomes and their need for easily accessible supportive services. Many housing options suitable for individuals with access and functional needs are only temporary, which impedes their ability to live independently for a significant period of time. By requiring the Hawaii Housing Finance and Development Corporation to conduct a study, this measure will enable the State to gather data and formulate strategies to provide additional suitable affordable housing options for individuals with access and functional needs.

Your Committees have amended this measure by:

- (1) Adopting the language suggested by the State Council on Developmental Disabilities that:
 - (A) Replaces references to "individuals with special needs" to "individuals with access and functional needs"; and
 - (B) Clarifies that the study will focus on the housing waitlists in the State and in each county in order to identify the current and future demand and supply of affordable housing suitable for individuals with access and functional needs; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Housing and Commerce, Consumer Protection, and Health that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 2748, H.D. 2, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 2748, H.D. 2, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
Housing: Ayes, 3. Noes, none. Excused, 2 (Harimoto, Kahele).

Commerce, Consumer Protection, and Health: Ayes, 7. Noes, none. Excused, none.

SCRep. 3107 Government Operations on H.B. No. 1932

The purpose and intent of this measure is to allow agencies to adopt specified emergency rules where new federal or state legislation or court decisions disrupt prior practice and urgent rule changes are needed to mitigate disruption.

Your Committee received testimony in support of this measure from Department of Education; Hawaii Public Housing Authority; University of Hawaii Professional Assembly; United Public Workers, AFSCME, Local 646, AFL-CIO; O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i; and Ho'omana Pono, LLC.

Your Committee finds that it is important for government agencies to have the flexibility necessary to address the needs of the public in a timely manner. Periodically, changes to controlling law may require immediate alterations to long-standing statutes, rules, or agency practices. The issuance of federal decisions, changes in federal law, or court rulings may affect any regulated area, at any time, including when the Legislature is not in session, and require both specialized skill in the interpretation of Hawaii law, and rapidity of response on an emergency basis to prevent impairment of important rights. Therefore, your Committee finds that allowing agencies to adopt emergency rules for immediate adaptation of Hawaii law to federal law, or other overarching Hawaii law, while preserving values and goals of the State is important to maintain proper and effective government functioning.

However, your Committee has concerns that this measure provides too much authority to government agencies at the expense of a duly elected Legislature. Your Committee notes that under this measure as currently drafted an agency may simply adopt an emergency rule that would override a legislatively enacted statute. Your Committee finds that this could undermine the authority of the Legislature.

In addition, your Committee finds that a sufficient period for public notice and public hearing on any proposed emergency rule should be established.

Accordingly, your Committee has amended this measure by:

- (1) Removing state legislation as a basis for adoption of an emergency rule;
- (2) Requiring a public hearing prior to the adoption of an emergency rule; provided that the agency shall give no less than thirty days' notice of the hearing;
- (3) Limiting the effective period of an emergency rule to no longer than the first day of the next occurring Regular Session of the Legislature after adoption of the emergency rule; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1932, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1932, H.D. 1, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 5; Ayes with Reservations (Ruderman). Noes, none. Excused, none.

SCRep. 3108 Hawaiian Affairs on H.B. No. 2464

The purpose and intent of this measure is to make lessees who sell or transfer their interest in a Hawaiian home lands lease for any class of land ineligible to receive any subsequent lease for the same class of land, subject to limited exceptions.

Your Committee received testimony in support of this measure from the Ho'omanapono Political Action Committee, Ka Lāhui Hawaii Political Action Committee, one member of the Maui County Council, and three individuals. Your Committee received testimony in opposition to this measure from the Sovereign Councils of the Hawaiian Homeland Assembly, O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, and eight individuals. Your Committee received comments on this measure from the Department of Hawaiian Home Lands and Office of Hawaiian Affairs.

Your Committee finds that churning is the practice of obtaining a Hawaiian home lands lease then selling or transferring it to others for a fee or other personal gain, then reapplying to receive a subsequent lease. Your Committee further finds that there are roughly 27,000 applicants that are currently in the system, and the number of applications continue to grow. Your Committee believe that all native Hawaiians who are waiting to receive a Hawaiian home lands lease should be equally awarded a lease.

Your Committee received testimony stating that the Department of Hawaiian Home Lands is in the process of addressing the long waitlist for homestead leases by adopting a rule that would prohibit the sale of undivided interests and leases to lots that are vacant or undeveloped. The Department is also in the process of considering a right of first refusal to homestead applicants on the waitlist. Your Committee recognizes the authority of the Department of Hawaiian Home Lands in establishing administrative rules to address certain issues and believes that the Department is appropriately equipped to address the issue of churning.

Your Committee finds that according to testimony received, this measure may be premature and will require more consultation between the Department of Hawaiian Home Lands and beneficiaries in order to better address the growing waitlist.

Accordingly, your Committee has amended this measure by:

- (1) Deleting language in section 1 which makes reference to eligible native Hawaiians never receiving a lease offer;
- (2) Deleting language that would have amended the Hawaiian Homes Commission Act to make lessees who sell or transfer their interest in a lease for any class of land ineligible to receive a subsequent lease;

- (3) Inserting language to require the Department of Hawaiian Home Lands to submit a report to the Legislature of its findings and recommendations, including any proposed legislation, on the issue of Hawaiian home lands lessees selling or transferring their lease and then applying for a subsequent lease; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2464, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2464, H.D. 2, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 3109 Education on S.C.R. No. 92

The purpose and intent of this measure is to request the Department of Education to submit a report to the Legislature on unutilized, lapsed federal grant revenue for public education.

Your Committee received testimony in support of this measure from the Department of Education, Native Hawaiian Education Council, Association of Hawaiian Civic Clubs, and O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i.

Your Committee finds that the Department of Education receives federal grants for public education which must be used for specific purposes within specific periods of time or else be returned to the federal government. The Department of Education underwent a financial audit in each of the years 2013 to 2016, and each of these audits revealed that the Department of Education had underutilized over \$175,000,000 of federal funding per year. A clear understanding of all federal funds available for public education in Hawaii, including their purposes and expiration dates, is critical to inform decisions regarding the total funding of public education in Hawaii.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 92 and recommends that it be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Espero, Kim).

SCRep. 3110 (Joint) Water and Land and Housing on H.B. No. 2358

The purpose and intent of this measure is to exempt lands owned by the Hawaii Public Housing Authority from the definition of "public lands" under section 171-2, Hawaii Revised Statutes (HRS), and the jurisdiction of the Board of Land and Natural Resources.

Your Committees received testimony in support of this measure from the Hawaii Public Housing Authority. Your Committees received testimony in opposition to this measure from the Office of Hawaiian Affairs, Eco Tipping Points Project, and two individuals.

Your Committees find that the Hawaii Public Housing Authority titled lands were previously exempt from the definition of "public lands" under section 171-2, HRS, when these lands were held by the Authority's predecessor agencies, the Housing and Community Development Corporation of Hawaii and the Hawaii Housing Authority. After the Housing and Community Development Corporation of Hawaii was bifurcated into two separate agencies, an exemption for Hawaii Public Housing Authority titled lands was inadvertently excluded from the list of lands exempt from the definition of "public lands" under section 171-2, HRS.

Your Committees further find that the Hawaii Public Housing Authority is authorized to acquire, own, and hold real property pursuant to section 356D-8, HRS, and its federal low-income public housing properties are under a federal annual contributions contract with the federal government. Thus, these titled lands do not fall under the jurisdiction of the State's public lands and should be exempt from the definition of "public lands" and the jurisdiction of the Board of Land and Natural Resources to avoid delays in redevelopment projects.

Your Committees note the written testimony in opposition submitted by the Office of Hawaiian Affairs that Hawaii Public Housing Authority titled lands should be treated consistently with other state lands removed from the jurisdiction of the Board of Land and Natural Resources. Thus, any sale or gift of lands under the control of the Authority should be subject to the legislative approval requirements under section 171-64.7, HRS.

Accordingly, your Committees have amended this measure by:

- (1) Adding language that exempts lands set aside by the Governor to the Hawaii Public Housing Authority from the definition of "public lands" under section 171-2, HRS;
- (2) Adopting the language suggested by the Office of Hawaiian Affairs that requires the legislative approval of the sale or gift of lands set aside by the Governor to the Hawaii Public Housing Authority or lands to which the Hawaii Public Housing Authority in its corporate capacity holds title; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Water and Land and Housing that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 2358, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 2358, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
Water and Land: Ayes, 3. Noes, none. Excused, 2 (Gabbard, Inouye).
Housing: Ayes, 3. Noes, none. Excused, 2 (Harimoto, Kahele).

SCRep. 3111 (Joint) Water and Land and Agriculture and Environment on H.B. No. 2107

The purpose and intent of this measure is to:

- (1) Establish the plastic pollution initiative program with the mission to eliminate plastic waste impacting native species and polluting the State's environment;
- (2) Establish the plastic pollution advisory council to collect data regarding plastic pollution and provide recommendations to eliminate plastic waste; and
- (3) Appropriate funds to establish the plastic pollution initiative program and allow the plastic pollution advisory council to conduct an initial analysis of the baseline cost of plastic pollution to Hawaii's taxpayers and environment.

Your Committees received testimony in support of this measure from the Department of Land and Natural Resources, Oahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, Sierra Club of Hawai'i, Keiko Conservation, and eleven individuals.

Your Committees find that plastics have become a significant threat to Hawaii's environment, ecosystems, and beaches, on which the State's economy, culture, and native species rely. Plastic litter and debris can be increasingly found on every island and in every watershed and protected area from the remote Kalalau Valley on Kauai to Kilauea Caldera on Hawaii island. Hawaii's forests, streams, and beaches are strewn with plastic debris, including micro plastic debris smaller than grains of sand, which are consumed by the smallest of endangered birds to the humpback whale.

Your Committees further find that cleaning up plastic is a significant cost to Hawaii taxpayers. The cost of increasing cleanups by government agencies, businesses, and the general public is rising to account for expensive best management practices and mitigation. By establishing a long-term plan to eliminate plastic pollution in Hawaii's environment and reduce cleanup costs to taxpayers through the establishment of an advisory council, this measure provides a mechanism to reduce costs to taxpayers and protect Hawaii's environment from plastic inundation.

Your Committees have amended this measure by:

- (1) Adopting the language suggested by the Department of Land and Natural Resources that changes the name of the "plastic pollution initiative program" to the "plastic pollution initiative" to avoid confusion with other programs of the Department and making conforming amendments accordingly;
- (2) Adding a representative of the business community, to be selected by the Chamber of Commerce Hawaii, to the plastic pollution advisory council;
- (3) Inserting an appropriation amount of \$150,000 to establish the plastic pollution initiative and allow the plastic pollution advisory council to conduct a baseline study; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Water and Land and Agriculture and Environment that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 2107, H.D. 2, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 2107, H.D. 2, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Water and Land: Ayes, 4. Noes, none. Excused, 1 (Inouye).

Agriculture and Environment: Ayes, 3. Noes, none. Excused, 2 (Nishihara, Ruderman).

SCRep. 3112 Water and Land on H.B. No. 2097

The purpose and intent of this measure is to appropriate funds to the Department of Land and Natural Resources to hire lifeguards to monitor state and county beach parks.

Prior to the hearing on this measure, your Committee posted and made available for public review a proposed S.D. 1, which amends this measure by:

- (1) Adding a preamble section regarding the need for the State to more fully assume the risk of posting county lifeguards at designated state beach parks;
- (2) Amending section 662-16, Hawaii Revised Statutes, to require the Attorney General to defend any civil action or proceeding against a county and any person employed by the county to provide lifeguard services at a designated state beach park under an agreement between the State and the county, except for a civil action or proceeding that results from a county lifeguard's gross negligence or wanton act or omission;
- (3) Specifying appropriation amounts to the Department of Land and Natural Resources for lifeguard services and clarifying that the funds are for the purpose of lifeguard to monitor state beach parks, rather than state and county beach parks;
- (4) Changing the effective date to July 1, 2018; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

Your Committee received testimony in support of the proposed S.D. 1 from the Department of Land and Natural Resources; Hawai'i Fire Department, County of Hawai'i; Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO; Hawaiian Lifeguard Association; Oahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i; and one individual.

Your Committee received comments on the proposed S.D. 1 from the Department of the Attorney General, Honolulu Emergency Services Department of the City and County of Honolulu, Hawai'i Tourism Authority, and Hawaii Association for Justice.

Your Committee finds that the State contracts with the counties to provide lifeguards at various state beach parks. These lifeguards provide a valuable service as first responders to residents and tourists alike. The frequency of incidents requiring lifeguard involvement is great. According to testimony submitted by the Honolulu Emergency Services Department of the City and County of Honolulu, in 2016, lifeguards performed 103,850 preventive actions; treated 3,364 minor medical issues; responded to and managed 44 major medical responses; and performed 64 ocean rescues. The cost of protecting beachgoers has increased in the past two years and is anticipated to continue to increase in the current fiscal year. The proposed S.D. 1 will provide additional necessary funding to ensure lifeguard services at state beach parks.

Your Committee further finds that existing state law authorizes the Attorney General to defend county lifeguards posted at designated state beach parks and the respective county against lawsuits. However, this existing law does not completely eliminate the risk to the lifeguard or county. The proposed S.D. 1 will more fully assume the risk of posting county lifeguards at designated state beach parks under an agreement between the State and a county by requiring, instead of authorizing, the Attorney General to defend the lifeguards and the employing counties against civil lawsuits for injuries that result from acts or omissions while the lifeguard is acting within the scope of the lifeguard's employment.

Your Committee has amended this measure by adopting the proposed S.D. 1 and further amending the measure by:

- (1) Adopting the language suggested by the Department of the Attorney General clarifying that in order for the Attorney General to defend any civil action or proceeding brought in any court against a county lifeguard, except for civil actions or proceedings resulting from the county lifeguard's gross negligence or wanton act or omission, the county lifeguard must have acted within the scope of the county lifeguard's employment at a designated state beach park;
- (2) Allowing the county lifeguard to employ an attorney, in lieu of the Attorney General, to defend any civil action or proceeding brought against the county lifeguard at the lifeguard's own expense;
- (3) Clarifying that the appropriations made to the Department of Land and Natural Resources are for the Division of State Parks to contract with the counties for county lifeguard services at designated state beach parks under an agreement between the State and a county; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2097, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2097, H.D. 1, S.D. 1, and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Gabbard, Inouye).

SCRep. 3113 Education on H.B. No. 2176

The purpose and intent of this measure is to:

- (1) Establish a process for awarding Department of Education contracts for student transportation services and facility construction that includes public comment; and
- (2) Prohibit protests and judicial review of contract awards made pursuant to the process.

Your Committee received testimony in support of this measure from the Department of Education. Your Committee received testimony in opposition to this measure from the State Procurement Office.

Your Committee finds that this measure is intended to support the Department of Education in awarding contracts for student transportation and education facility construction. Your Committee has heard the concerns raised in testimony, including the concerns from the State Procurement Office related to the exemption language as it means that Department of Education contracts for student transportation services and construction will not have the same oversight, accountability, and transparency required for other procurements made with public monies.

Your Committee further finds that alternative learning centers provide specialized services, such as trauma treatment, life skills training, vocational education, mental health treatment, medical services, substance abuse intervention, and mentorship programs, to meet the unique needs of at-risk youth. By offering troubled children the long-term and individualized support they need, these children can develop physically, mentally, and socially in a conducive learning environment.

Accordingly, your Committee has amended this measure by deleting its contents and inserting language that:

- (1) Appropriates \$520,000 to fund existing alternative learning centers or alternative learning schools within the Department of Education;
- (2) Appropriates \$260,000 to fund a new alternative learning school within the Nanakuli-Waianae school complex area;
- (3) Appropriates \$200,000 for the planning and designing of alternative learning schools in each of the remaining school complex areas in the State; and
- (4) Appropriates \$150,000 for one full-time equivalent (1.0 FTE) position to be the Director of Alternative Learning Schools within the Department of Education.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2176, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2176, H.D. 2, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Espero, Kim).

SCRep. 3114 Education on H.B. No. 2163

The purpose and intent of this measure is to appropriate funds to the Executive Office on Early Learning for additional operational costs, including equipment, supplies, and personnel costs.

Your Committee received testimony in support of this measure from the Executive Office on Early Learning, Early Learning Board, and Hawaii Children's Action Network.

Your Committee finds that Act 202, Session Laws of Hawaii 2017, among other things, broadened the scope of the early learning program to include early childhood development and expanded the function of the Early Learning Advisory Board beyond an advisory capacity. These additional responsibilities require additional resources for the Executive Office on Early Learning due to additional operational costs for equipment, supplies, and personnel. This measure supports the development of the State's early childhood system to continue providing high-quality development and learning opportunities for children throughout the State.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2163, H.D. 1, and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Espero).

SCRep. 3115 Education on H.B. No. 2508

The purpose and intent of this measure is to appropriate funds for infrastructure costs, rental or lease assistance, and the repair and maintenance of network infrastructure for charter schools.

Your Committee received testimony in support of this measure from the State Public Charter School Commission, Office of Hawaiian Affairs, Hawaii State Teachers Association, IMUAlliance, Hawaii Children's Action Network, HawaiiKidsCAN, Charter School Facilities Initiative, Friends of Kona Pacific Public Charter School, Hawaii Public Charter Schools Network, and four individuals.

Your Committee finds that public charter schools receive inadequate funding to support student learning. Public charter schools that lack adequate building facilities are sometimes forced to hold classes outdoors, on covered lanais, or in unstable temporary structures. While the State Public Charter School Commission may request facilities funding in addition to its annual budget request, the amounts received in recent fiscal years have not kept pace with the cost of providing and maintaining high-quality facilities. This measure provides assistance for facilities funding, which has been a long-standing issue for charter schools.

Your Committee has amended this measure by:

- (1) Inserting language that authorizes the Legislature to make appropriations and bond authorizations to the State Public Charter School Commission each fiscal year for rental or lease of facilities for charter schools; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2508, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2508, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Espero, Kim).

SCRep. 3116 Education on H.B. No. 2170

The purpose and intent of this measure is to appropriate funds to the Executive Office on Early Learning for an online platform to facilitate professional learning for Executive Office on Early Learning public pre-kindergarten program educators.

Your Committee received testimony in support of this measure from the Executive Office on Early Learning, Early Learning Board, Hawaii Children's Action Network, and O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i.

Your Committee finds that high-quality pre-kindergarten programs, which rely on qualified educators, are necessary for positive early learning outcomes, and that early learning educators, including teachers and principals, require ongoing, targeted professional development to implement high-quality pre-kindergarten classrooms. The Executive Office on Early Learning brings together educators, including principals, several times a year for face-to-face professional learning with other educators. However, educators in rural areas have expressed a feeling of isolation upon returning to their classrooms. This measure appropriates funds for the development and maintenance of an online platform that will provide a tool through which communication between early learning educators can occur and offer resources to these educators, including recorded trainings and meetings, accessible on a continuing basis.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2170, H.D. 1, and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Espero, Kim).

SCRep. 3117 Commerce, Consumer Protection, and Health on H.B. No. 2493

The purpose and intent of this measure is to permit the Director of Health to hire more than ten epidemiologists.

Your Committee received testimony in support of this measure from the Department of Health and Hawaii Public Health Institute.

Your Committee finds that epidemiologists serve unique, technical roles in public health. Testimony submitted by the Department of Health indicates that the Department deploys epidemiologists to effectively track and characterize emergent disease outbreaks such as those caused by dengue, hepatitis A, norovirus, or mumps by using various tools to analyze data to determine specific risks, identify potential or specific etiologic agents, or guide public health interventions. Epidemiologists also analyze longer term trends, using environmental, health care, chronic disease, mental health, and substance abuse data, including the injuries and deaths related to opioid misuse and abuse, to inform public policy and department operations. Your Committee notes that the Department of Health currently has ten epidemiologists and has an immediate need for more, including for a planned project to address youth lead exposure on Kauai.

Your Committee further notes that funds were allocated to the Department of Health for an eleventh epidemiologist as part of the state budget in 2017. However, the Department of Health was unable to hire an epidemiologist because of this statutory limit. Your Committee finds that removing this statutory limit will allow the Department of Health to better track and analyze emergent disease outbreaks and long-term public health trends and grant the Department of Health the operational flexibility needed to address future public health risks.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2493, H.D. 2, and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Nishihara, Ruderman, Tokuda).

SCRep. 3118 Commerce, Consumer Protection, and Health on H.B. No. 1911

The purpose and intent of this measure is to:

- (1) Protect the health, safety, civil rights, and rights of choice for vulnerable adults;
- (2) Establish appropriate measures to ensure a safe environment and consumer protection for vulnerable adults who are receiving home health care or home care in care facilities or residences;
- (3) Grant the Department of Health proper investigative authority to enter care facilities, residences, or agencies providing home health care to vulnerable adults;
- (4) Prohibit care facilities previously licensed by the Department of Health from operating without proper license;
- (5) Appropriate funds to the Department of Health to implement and maintain a forum on its website to facilitate placement of individuals in state-licensed care facilities; and
- (6) Require the Department of Health to convene a working group to discuss and provide feedback on the implementation and maintenance of a forum where state-licensed care facilities may post vacancy information, and submit a report to the Legislature of the findings and recommendations of the working group.

Your Committee received testimony in support of this measure from the Office of the Long Term Care Ombudsman; Case Management Professionals, Inc.; Big Island Adult Residential Care Home; Big Island Adult Foster Home Organization; Big Island Adult Foster Home Operators; United Caregivers of Hawaii; Community Home Care Association of Hawaii; Abilities Unlimited; Hawaii Maternal and Infant Health Collaborative; and thirty-six individuals. Your Committee received testimony in opposition to this measure from the Department of Human Services, AARP Hawaii, Maile Case Management, and three individuals. Your Committee received comments on this measure from the Healthcare Association of Hawaii, The Queen's Health Systems, Catholic Charities Hawaii, Comprehensive Innovations for Senior Services, Hale Makua Health Services, and one individual.

Your Committee finds that this measure is intended to protect vulnerable adults by authorizing the Department of Health to inspect, certify, and license home care facilities and to investigate unlicensed home care facilities, by establishing penalties for violations of licensing requirements, appropriating funds for the Department of Health to implement and maintain an online forum to facilitate placement and referrals of individuals to state-licensed care facilities, and requiring the Department of Health to convene a working group to provide feedback on implementation and maintenance of the online forum. However, your Committee has concerns that this measure lacks clarity and imposes undue restrictions on consumers and care providers, including the imposition of administrative proceedings.

Your Committee notes that a prior draft of this measure, H.B. No. 1911, H.D. 1, Regular Session of 2018, authorizes the Department of Health to investigate care facilities reported to be operating without an appropriate certificate or license issued by the Department and establishes penalties for violations and for patient referral or transfer to uncertified or unlicensed care facilities. Your Committee finds that the language in H.B. No. 1911, H.D. 1, is preferable because it is clearer and imposes fewer restrictions on consumers and care providers.

Your Committee has also heard the concerns of the Department of Health that the Department is aptly suited to address this matter in detail, has drafted interim rules that can go into effect immediately, and is ready to begin the public hearing process to formally adopt rules pursuant to chapter 91, Hawaii Revised Statutes. Your Committee has also heard the concerns of industry members that fines alone, without the possibility of administrative proceedings, constitute sufficient compulsion to cooperate in the licensing scheme, and that punishing health care providers for referring or transferring patients in good faith to a care facility without actual proof or knowledge that the care facility is uncertified or unlicensed does not advance the purposes of the measure. Your Committee

also notes that the Department of Health and industry stakeholders have reached consensus on proposed additional amendments to address these concerns.

Accordingly, your Committee has amended this measure by:

- (1) Deleting its contents and inserting the contents of H.B. No. 1911, H.D. 1, a measure that:
 - (A) Authorizes the Department of Health to investigate and enter care facilities reported to be operating without an appropriate certificate or license issued by the Department and take certain actions upon confirmed findings of uncertified or unlicensed care facilities; and
 - (B) Establishes penalties for violations and for knowingly referring or transferring patients to uncertified or unlicensed care facilities; and
- (2) Further amending the measure by:
 - (A) Establishing certain conditions under which certified or licensed healthcare providers and care facilities will not be subject to a fine when a patient is referred or transferred to an uncertified or unlicensed care facility;
 - (B) Requiring the Department of Health to adopt interim rules to effectuate the licensure of home care facilities and making those interim rules effective until the sooner of October 1, 2018, or final adoption of rules; and
 - (C) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1911, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1911, H.D. 2, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 7. Noes, none. Excused, none.

SCRep. 3119 (Joint) Education and Agriculture and Environment on H.B. No. 2025

The purpose and intent of this measure is to:

- (1) Authorize the Department of Education to issue grants to establish a composting grant pilot project in Department of Education schools;
- (2) Authorize the Department of Education to establish the composting grant pilot project working group; and
- (3) Appropriate funds to establish and implement the composting grant pilot project.

Your Committees received testimony in support of this measure from the Department of Education, University of Hawai'i System, Sierra Club of Hawai'i, Koku Hawai'i Foundation, Ulupono Initiative, Windward Zero Waste Schools, O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, and several individuals. Your Committees received comments on this measure from the Department of Agriculture.

Your Committees find that the Department of Education produces a large amount of rubbish and waste from two hundred sixty-five schools across the State, which significantly impacts the State's environment, waste resources, and finances. However, on-site campus composting programs involving students have been extremely successful in providing a beneficial method of waste diversion.

Your Committees further find that a demonstration project on the effectiveness of on-site campus composting allows students to see the relationships between food waste, composting, nutrient cycling, healthy soils, and local food production. Furthermore, developing a statewide model for on-site campus composting provides a way to reach the Aloha+ Challenge waste reduction goals, increase local food production, and promote natural resource management.

Your Committees have amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

Your Committees note that the Department of Education, rather than the Department of Agriculture, is a more appropriate entity to oversee the composting grant pilot project and request that your Committee on Ways and Means consider this issue should it choose to hear this measure.

As affirmed by the records of votes of the members of your Committees on Education and Agriculture and Environment that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 2025, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 2025, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
Education: Ayes, 3. Noes, none. Excused, 2 (Dela Cruz, Kahele).
Agriculture and Environment: Ayes, 4. Noes, none. Excused, 1 (Nishihara).

SCRep. 3120 (Joint) Public Safety, Intergovernmental, and Military Affairs and Water and Land on H.B. No. 1977

The purpose and intent of this measure is to require the Hawaii Emergency Management Agency to develop strategic regional flood plans and submit a progress report to the Legislature on development of the plans.

Your Committees received testimony in support of this measure from the O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i and eleven individuals. Your Committees received comments on this measure from the Department of Land and Natural Resources and Hawaii Emergency Management Agency.

Your Committees find that the threat of floods and flood-related disasters are concerns for which the State should be readily prepared. Therefore, your Committees find that proper flood planning for the State is essential to help mitigate and respond to damaging flooding. Accordingly, this measure requires the Hawaii Emergency Management Agency to develop strategic regional flood plans that address flood mitigation, flood water retention, flood diversion, and catastrophic floods.

However, your Committees acknowledge the testimony presented by the Hawaii Emergency Management Agency and Department of Land and Natural Resources indicating that the most effective way to develop the proposed regional flood plans would be through a working group administered by the Hawaii Emergency Management Agency and the Department of Land and Natural Resources as support and comprised of appropriate county, state, and federal agencies that have authority over and involvement in flood management.

Your Committees have amended this measure by:

- (1) Deleting language that would have required the Hawaii Emergency Management Agency to develop strategic regional flood plans;
- (2) Requiring the Hawaii Emergency Management Agency, along with the Board of Land and Natural Resources as support, to convene a working group composed at their discretion, of the appropriate county, state, and federal agencies that have authority over or involvement in flood mitigation, flood water retention, flood diversion or preparation, and recovery activities, to develop strategic regional flood plans that address flood mitigation, flood water retention, flood diversion, and catastrophic floods;
- (3) Changing its effective date to upon approval;
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Public Safety, Intergovernmental, and Military Affairs and Water and Land that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 1977, H.D. 2, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 1977, H.D. 2, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Public Safety, Intergovernmental, and Military Affairs: Ayes, 4. Noes, none. Excused, 1 (Wakai).

Water and Land: Ayes, 3. Noes, none. Excused, 2 (Gabbard, Inouye).

SCRep. 3121 Public Safety, Intergovernmental, and Military Affairs on H.B. No. 2061

The purpose and intent of this measure is to prohibit private detectives and guards from self-identifying as law enforcement officers, police, or police officers and from wearing or using any badge, uniform, equipment, vehicle, or other accoutrement capable of being associated with that of a law enforcement officer employed by a government law enforcement organization.

Your Committee received testimony in support of this measure from the Board of Private Detective and Guards, Maui Police Department, and two individuals. Your Committee received comments on this measure from the Department of Transportation.

Your Committee finds that establishing a clear distinction between private detectives and guards and law enforcement officers is important to maintaining public safety and confidence in law enforcement. Private detectives and guards in Hawaii have broad powers, including the powers to detain and search individuals; however, they are not law enforcement officers. Therefore, members of the public should be able to clearly distinguish between these different groups. Accordingly, this measure clarifies that private detectives and guards are prohibited from self-identifying as a law enforcement officer, a police officer, or police and from wearing or using any badge, uniform, equipment, vehicle, or other accoutrement that might identify them as such.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2061, H.D. 1, and recommends that it pass Second Reading and be referred to your Committee on Commerce, Consumer Protection, and Health.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Wakai).

SCRep. 3122 (Joint) Public Safety, Intergovernmental, and Military Affairs and Labor on H.B. No. 1849

The purpose and intent of this measure is to:

- (1) Require police departments to disclose to the Legislature the identity of a police officer upon the officer's discharge or second or subsequent suspension in a five-year period; and
- (2) Allow disclosure under the Uniform Information Practices Act (UIPA) of employment misconduct information that results in a county police officer's second or subsequent suspension in a five-year period.

Your Committees received testimony in support of this measure from the Office of Information Practices, League of Women Voters Hawaii, Society of Professional Journalists Hawaii Chapter, Young Progressives Demanding Action, and three individuals. Your Committees received testimony in opposition to this measure from the Maui Police Department and The Civil Beat Law Center for the Public Interest.

Your Committees find that disclosing the identities of police officers who are suspended or discharged serves the public interest. Transparency and accountability of police officers are of great importance in maintaining the public's confidence in law enforcement,

and a healthy relationship between police and the public is essential for maintaining the health, safety, and welfare of the public. However, your Committees acknowledge testimony indicating that the measure's existing proposals would not adequately effectuate the intent of the measure. Therefore, your Committees find that in order to establish meaningful transparency and accountability of police officers, the chief of police of each county should be required to disclose to the Legislature the identity of a police officer upon the officer's suspension or discharge and that disclosure under the UIPA of employment misconduct information that results in any county police officer's suspension should be allowed.

Your Committees have amended this measure by:

- (1) Requiring the chief of each county police department to disclose to the Legislature the identity of a police officer upon the officer's suspension or discharge; and
- (2) Allowing disclosure under the UIPA of employment misconduct information that results in a county police officer's suspension.

As affirmed by the records of votes of the members of your Committees on Public Safety, Intergovernmental, and Military Affairs and Labor that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 1849, H.D. 2, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 1849, H.D. 2, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chairs on behalf of the Committees.

Public Safety, Intergovernmental, and Military Affairs: Ayes, 5. Noes, none. Excused, none.

Labor: Ayes, 3. Noes, none. Excused, 2 (Chang, English).

SCRep. 3123 (Joint) Human Services and Commerce, Consumer Protection, and Health on H.B. No. 538

The purpose and intent of this measure is to:

- (1) Create the intellectual and developmental disabilities Medicaid waiver administrative claiming special fund; and
- (2) Require the Department of Human Services to report to the Legislature an annual report of the receipts of and expenditures from the special fund.

Your Committees received testimony in support of this measure from the Department of Human Services, Department of Health, State Council on Developmental Disabilities, The Arc in Hawaii, Full Life, Catholic Charities Hawai'i, O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, The Arc of Kona, Easterseals Hawaii, and twelve individuals. Your Committees received comments on this measure from the Hawaii Disability Rights Center.

Your Committees find that the Department of Health's Developmental Disabilities Division operates the Hawaii Medicaid Section 1915(c) Home and Community-Based Services for People with Intellectual and Developmental Disabilities Waiver (Section 1915(c) Waiver) pursuant to a memorandum of agreement with the Department of Human Services, which supervises the administration of the Section 1915(c) Waiver. The Department of Health has claimed minimal amounts of allowable Medicaid federal financial participation, or Medicaid waiver administrative claiming funds, for the proper and necessary costs it incurred in administering the Section 1915(c) Waiver. However, these Medicaid waiver administrative claiming funds are currently being deposited into the general fund, which limits the Developmental Disabilities Division's ability to implement new federal requirements for the Section 1915(c) Waiver. The creation of the intellectual and developmental disabilities Medicaid waiver administrative claiming special fund will allow the Developmental Disabilities Division to use monies for various services to assist individuals, families, and community stakeholders applying for and navigating the Section 1915(c) Waiver process. Your Committees further find that establishing a working group will provide an opportunity for the Division to improve existing services for individuals applying for and currently enrolled in the Section 1915(c) Waiver program.

Your Committees have amended this measure by:

- (1) Inserting language to require the State Council on Developmental Disabilities to establish a temporary working group to examine and evaluate the application process of the Section 1915(c) Waiver and existing services provided by the Developmental Disabilities Division; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Human Services and Commerce, Consumer Protection, and Health that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 538, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 538, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Human Services: Ayes, 3. Noes, none. Excused, 2 (Chang, Harimoto).

Commerce, Consumer Protection, and Health: Ayes, 4. Noes, none. Excused, 3 (Chang, Nishihara, Ruderman).

SCRep. 3124 (Joint) Human Services and Water and Land on H.B. No. 2014

The purpose and intent of this measure is to:

- (1) Establish and appropriate funds for the Puuhonua Homeless Villages program by providing housing and supportive services to homeless individuals under a housing first paradigm; and
- (2) Provide limitations on liability for government entities and volunteers providing services.

Your Committees received testimony in support of this measure from the Mayor's Office, County of Hawaii; ALEA Bridge; Hawai'i Lodging & Tourism Association; Hawaii Kai Homeless Task Force; Oahu County Committee on Legislative Priorities of the

Democratic Party of Hawai'i; IMUAlliance; Housing Now! Coalition of Faith Action for Community Equity; Foo W. Lim & Sons, Inc.; and seventeen individuals. Your Committees received comments on this measure from the Governor's Coordinator on Homelessness, Department of Human Services, Department of Public Safety, Department of Land and Natural Resources, and Hawaii Association for Justice.

Your Committees find that the State has used homeless shelters and transitional group homes as an interim measure while attempting to place individuals and families experiencing homelessness into subsidized rentals and traditionally-constructed apartments. However, economic constraints, construction delays, and resistance by landlords to accept homeless tenants have made the supply of subsidized rental and traditionally-constructed apartments inadequate to meet the demand by homeless individuals. Your Committees further find that recent technological innovations have made it possible to construct housing units at a lower cost than what the State spends for unsheltered and nomadic homeless individuals and families. Using current technology to build homeless villages on state land will allow the State to create housing and implement housing first principles on a scale large enough to reduce, if not end, homelessness in the State.

Your Committees have amended this measure by:

- (1) Changing the total number of units to be constructed within two years from eight thousand units to an unspecified amount;
- (2) Replacing the minimum size of a village from two acres to one-half acre;
- (3) Requiring the Department of Human Services, in conjunction with the Governor, to hold a public meeting prior to the establishment of a homeless village;
- (4) Requiring the Department of Human Services, in consultation with the Governor, to report to the Legislature prior to the Regular Session of 2020 the progress made in acquiring the parcels of state land identified by the Governor for the purpose of providing housing and supportive services to homeless persons;
- (5) Deleting language limiting liability for providing services to individuals experiencing homelessness; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Human Services and Water and Land that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 2014, H.D. 2, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 2014, H.D. 2, S.D. 1, and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chairs on behalf of the Committees.

Human Services: Ayes, 3. Noes, none. Excused, 2 (Harimoto, Wakai).

Water and Land: Ayes, 3. Noes, none. Excused, 2 (Gabbard, Inouye).

SCRep. 3125 (Joint) Human Services and Public Safety, Intergovernmental, and Military Affairs on H.B. No. 2528

The purpose and intent of this measure is to:

- (1) Expand criminal history checks to adult relatives who provide care for a child whose family receives child care subsidies from the Department of Human Services in a regulated child care setting;
- (2) Clarify the release of investigation information to the public;
- (3) Clarify that the child care licensing program may share information and cooperate with child protective services and law enforcement on investigations; and
- (4) Clarify that the Department of Human Services may take administrative action, judicial action, or both, to enforce child care licensing provisions and increase penalties by making them apply on a daily basis.

Your Committees received testimony in support of this measure from the Department of Human Services, The Green Preschool Kailua, and two individuals. Your Committees received comments on this measure from the Alliance of Concerned Parents and Daycare Providers and six individuals.

Your Committees find that parents and guardians rely on child care providers to ensure the safety and well-being of their child. However, recent events involving injuries and deaths have revealed the need for the Department to enforce transparency measures for the safety of children in certain child care settings. This measure will ensure that necessary provisions are enforced to protect the health, safety, and well-being of children and reassurance to their families.

As affirmed by the records of votes of the members of your Committees on Human Services and Public Safety, Intergovernmental, and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 2528, H.D. 1, and recommend that it pass Second Reading and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chairs on behalf of the Committees.

Human Services: Ayes, 3. Noes, none. Excused, 2 (Harimoto, Tokuda).

Public Safety, Intergovernmental, and Military Affairs: Ayes, 3. Noes, none. Excused, 2 (Baker, Thielen).

SCRep. 3126 Human Services on H.B. No. 1650

The purpose and intent of this measure is to authorize the disclosure of the disposition of an alleged child abuse or neglect investigation in a licensed group child care home or group child care center to:

- (1) Any parent or guardian of a child enrolled in the same group child care home or group child care center in which the alleged abuse or neglect took place; or

- (2) Any parent or guardian who has submitted an application to the group child care home or group child care center in which the alleged abuse or neglect took place.

Your Committee received testimony in support of this measure from The Queen's Health Systems; Hawaii Nurses Association, OPEIU Local 50; Sounds of Success Preschool & Learning Center; and sixteen individuals. Your Committee received comments on this measure from the Department of Human Services.

Your Committee finds that working families rely on child care facilities to ensure that their children are safe and protected. Your Committee further finds that access to certain information will benefit parents and guardians when selecting a safe child care facility. Your Committee also notes that establishing a working group to identify rules and procedures relating to investigations and enforcement provides an opportunity to further improve rules and regulations involving child care facilities.

Your Committee has amended this measure by:

- (1) Inserting language to establish a temporary working group to review laws, rules, and procedures relating to the coordination of investigations and enforcement efforts of the Child Welfare Services Branch and Child Care Licensing Program to improve safety in child care settings; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1650, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1650, H.D. 2, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Harimoto, Tokuda).

SCRep. 3127 Human Services on H.B. No. 2277

The purpose and intent of this measure is to ensure the safety and well-being of at-risk children and families in east Hawaii on Hawaii island by:

- (1) Establishing a five-year pilot project within the Department of Human Services that limits the number of children supervised by each East Hawaii Child Welfare Services Section social worker to twenty or fewer; and
- (2) Appropriating funds for eight full-time equivalent case managers and fifteen full-time equivalent support staff positions in the East Hawaii Child Welfare Services Section on Hawaii island.

Your Committee received testimony in support of this measure from the Department of Human Services; Office of the Mayor, County of Hawai'i; Office of the Prosecuting Attorney, County of Hawai'i; three members from the Hawaii County Council; Catholic Charities Hawai'i; Hawaii Government Employees Association, Local 152, AFL-CIO; National Association of Social Workers, Hawai'i Chapter; O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i; Hawai'i Psychological Association; Hawaii Appleseed Center for Law & Economic Justice; Hawaii Children's Action Network; East Hawaii Friends of Foster Families; Winners' Camp; and thirty-two individuals.

Your Committee finds that the increase in caseloads for child welfare workers in east Hawaii island have resulted in unmanageable caseloads and an increased potential for harm of children at risk of neglect or abuse. The pilot project proposed by this measure provides an opportunity for the East Hawaii Child Welfare Services Section to demonstrate the positive impact of adequate staffing on the safety and well-being of at-risk children in east Hawaii island.

Your Committee has amended this measure by:

- (1) Inserting an appropriation amount of \$2,633,231 for the hiring of case managers, support staff, and administrative costs for the East Hawaii Child Welfare Services Section on Hawaii island and adding travel costs for the Child Welfare Services Division to train new hires as an allowable use of the appropriated funds; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2277, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2277, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Tokuda).

SCRep. 3128 Commerce, Consumer Protection, and Health on H.B. No. 2145

The purpose and intent of this measure is to:

- (1) Allow the synchronization of plan participants' medications; and
- (2) Require policies and plan contracts that are offered by health insurers and mutual benefit societies and provide prescription drug benefits to apply prorated daily cost-sharing rates for prescriptions dispensed by network pharmacies for less than a thirty-day supply.

Your Committee received testimony in support of this measure from the Department of Health; Kaiser Permanente Hawaii; Walgreen Co.; American Cancer Society Cancer Action Network; and Hawaii Medical Association. Your Committee received comments on this measure from the Department of Commerce and Consumer Affairs, Board of Pharmacy, and Hawaii Medical Service Association.

Your Committee finds that medication synchronization allows a pharmacist to review a patient's medications and sync medication refills so all the refills are able to be picked up on a single day each month. This process, which involves short fills of less than a thirty days' supply, can be challenging at first, as it may take a few refills of smaller quantities to get all of a patient's prescription medications aligned on the same refill or "sync" day. However, the long-term convenience of medication synchronization is popular with patients and leads to increased adherence to prescription medications for chronic conditions. According to testimony received by your Committee, evidence shows that patients who have synced their chronic medications are about thirty percent more adherent than patients who are not in a medication synchronization program.

Your Committee further finds that this measure facilitates synchronization of prescription medication dispensation for Hawaii patients, which will encourage better medication adherence and lead to improved health outcomes for patients.

Your Committee has amended this measure by:

- (1) Clarifying that for purposes of medication synchronization, the ability to override any denial codes indicating a prescription is being refilled too soon applies to network pharmacies;
- (2) Specifying that a network pharmacy shall identify an anchor prescription to which all other prescriptions may be synced for the purposes of medication synchronization and clarifying that any medication dispensed in an unbreakable package shall not be considered the anchor prescription;
- (3) Inserting a definition of "unbreakable package";
- (4) Specifying that the medication synchronization requirements applicable to health insurers and mutual benefit societies also apply to health maintenance organizations;
- (5) Changing its effective date to July 1, 2050, to encourage further discussion;
- (6) Inserting a repeal date of July 1, 2023; and
- (7) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2145, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2145, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Nishihara, Ruderman, Tokuda).

SCRep. 3129 (Joint) Education and Public Safety, Intergovernmental, and Military Affairs on H.B. No. 2238

The purpose and intent of this measure is to:

- (1) Require the Department of Education to establish a safe keiki grant program to encourage public schools to prepare for emergencies; and
- (2) Appropriate funds for grants to public schools to purchase water, nonperishable foods, and other supplies necessary for students to remain at school shelters for forty-eight hours in the event of an emergency.

Your Committees received testimony in support of this measure from the Department of Education, O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, and three individuals. Your Committees received comments on this measure from one individual.

Your Committees find that because of Hawaii's geographic location in the Pacific, it is important for the State and its residents to make preparations in the event of an emergency. In such events, it is critical to have procedures in place and, if necessary, supplies available prior to the event because there often is not enough time during the emergency to establish procedures and gather supplies. Since timeliness is essential in emergency events, ensuring that schools have established emergency procedures and that students have access to adequate shelter and subsistence during a disaster is essential to public safety and welfare.

As affirmed by the records of votes of the members of your Committees on Education and Public Safety, Intergovernmental, and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 2238, H.D. 1, and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Education: Ayes, 3. Noes, none. Excused, 2 (Dela Cruz, Kahele).

Public Safety, Intergovernmental, and Military Affairs: Ayes, 4. Noes, none. Excused, 1 (Ihara).

SCRep. 3130 (Joint) Transportation and Energy and Commerce, Consumer Protection, and Health on H.B. No. 1801

The purpose and intent of this measure is to enable the State to better achieve its renewable energy goals by:

- (1) Amending the definition of "renewable portfolio standard" to more accurately reflect the percentage of renewable energy penetration in the State; and
- (2) Establishing renewable portfolio standards for gas utilities.

Your Committees received testimony in support of this measure from the Department of Business, Economic Development, and Tourism; Department of Commerce and Consumer Affairs Division of Consumer Advocacy; Life of the Land; Ulupono Initiative; Distributed Energy Resources Council of Hawaii; Organizing for Action; Blue Planet Foundation; 350.org; 350Hawaii.org; We Are One, Inc.; Americans for Democratic Action; Faith and Science Initiative; Hawai'i Interfaith Power and Light; Our Revolution Hawaii;

Sierra Club of Hawai'i; and forty-nine individuals. Your Committees received testimony in opposition to this measure from Hawai'i Lodging and Tourism Association; Hawaiian Electric Company, Inc.; Par Hawaii; Hawai'i Gas; Marriot Hawaii; Westin Princeville Ocean Resort Villas; Hawaii Teamsters and Allied Workers, Local 996; and fifty-four individuals. Your Committees received comments on this measure from the Public Utilities Commission.

Your Committees find that as an island state that is susceptible to the negative effects of climate change, it is important for Hawaii to transition away from imported fuels and toward local renewable energy. The State has codified this transition by enacting legislation requiring a one hundred percent renewable portfolio standard by 2045. However, your Committees find that the law as currently written overestimates the amount of renewable energy serving the State's electricity consumers and does not take into account the entire scope of energy production and consumption. In particular, the renewable portfolio standard does not take into account gas utilities, with numerous testifiers noting the negative effect of liquefied natural gas.

Your Committees heard from several testifiers that supported the intent to utilize a more accurate and holistic definition of "renewable portfolio standard" but were concerned about the unintended consequences of this measure and the feasibility of the timeline for gas utilities to meet the gas utility renewable portfolio standards. Accordingly, your Committees have amended this measure by:

- (1) Deleting section 2, which established renewable portfolio standards for gas utility companies and provided waivers, extensions, and incentives to achieve the renewable portfolio standards;
- (2) Deleting section 3, which added to and amended definitions in section 269-91, Hawaii Revised Statutes;
- (3) Deleting section 4, which amended the definition of "renewable portfolio standard" and provided an exception to the definition for generation used for emergency service;
- (4) Requiring that the Public Utilities Commission to contract with the Hawaii Natural Energy Institute of the University of Hawaii, pursuant to section 269-95, Hawaii Revised Statutes, to study the feasibility of establishing renewable portfolio standards for gas utility companies in Hawaii and report to the Legislature;
- (5) Appropriating funds to the Public Utilities Commission for the study; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Transportation and Energy and Commerce, Consumer Protection, and Health that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 1801, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 1801, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Transportation and Energy: Ayes, 3. Noes, none. Excused, 2 (English, Harimoto).

Commerce, Consumer Protection, and Health: Ayes, 5. Noes, none. Excused, 2 (Nishihara, Ruderman).

SCRep. 3131 (Joint) Transportation and Energy and Commerce, Consumer Protection, and Health on H.B. No. 2601

The purpose and intent of this measure is to relieve traffic congestion in the State by establishing a supplemental daily rental motor vehicle user fee to fund highway capital projects that address capacity issues.

Your Committees received testimony in support of this measure from two Maui County councilmembers, Maui Metropolitan Planning Organization, and Kihei Community Association. Your Committees received testimony in opposition to this measure from the Department of the Attorney General, Hawai'i Lodging and Tourism Association, Maui Hotel and Lodging Association, Enterprise Holdings, Avis Budget Group, and one individual. Your Committees received comments on this measure from the Department of Transportation and Department of Budget and Finance.

Your Committees find that Hawaii's traffic congestion is among the worst in the nation, worsening the quality of life for residents and visitors alike. Your Committees believe that improving capacity issues on the State's highways is an important component of any strategy to alleviate traffic congestion in the State.

Your Committees have amended this measure by:

- (1) Deleting the supplemental rental motor vehicle user fee;
- (2) Increasing the rental motor vehicle surcharge by \$2 for lessees without a valid Hawaii driver's license, which shall be used for road capacity projects in the county the rental motor vehicle was operated;
- (3) Increasing the tour vehicle surcharge by \$1 for each category of tour vehicle;
- (4) Inserting an effective date of January 1, 2019; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Transportation and Energy and Commerce, Consumer Protection, and Health that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 2601, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 2601, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Transportation and Energy: Ayes, 3. Noes, none. Excused, 2 (English, Harimoto).

Commerce, Consumer Protection, and Health: Ayes, 5. Noes, none. Excused, 2 (Nishihara, Ruderman).

SCRep. 3132 (Joint) Transportation and Energy and Public Safety, Intergovernmental, and Military Affairs on H.B. No. 2275

The purpose and intent of this measure is to require private streets, highways, or thoroughfares, except for private roads used exclusively by the owner or its employees, in a development district to conform to county construction and maintenance costs, and make the owners responsible for the costs of conforming and maintaining the private road.

Your Committees received testimony in support of this measure from the Department of Transportation and Bank of Hawaii. Your Committees received comments on this measure from the Hawaii Community Development Authority.

Your Committees find that some private roads used by the general public in the Kaka'ako community development district have fallen into disrepair. In some cases, the owner charges a fee for the use of the road, and yet does not maintain the road to meet the county's maintenance standards for county highways. By not meeting the county's maintenance standards, these roads are a safety hazard to vehicles and pedestrians.

Your Committees have amended this measure by:

- (1) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency; and
- (2) Inserting an effective date of January 1, 2100, to encourage further discussion.

As affirmed by the records of votes of the members of your Committees on Transportation and Energy and Public Safety, Intergovernmental, and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 2275, H.D. 2, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 2275, H.D. 2, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chairs on behalf of the Committees.

Transportation and Energy: Ayes, 3. Noes, none. Excused, 2 (English, Harimoto).

Public Safety, Intergovernmental, and Military Affairs: Ayes, 3. Noes, none. Excused, 2 (Baker, Ihara).

SCRep. 3133 Transportation and Energy on H.B. No. 2684

The purpose and intent of this measure is to:

- (1) Amend the fees and penalties for motor carriers; and
- (2) Require a certain percentage of the monies collected from motor carrier fees and penalties be used for the enforcement of motor carrier laws.

Your Committee received testimony in support of this measure from the Hawaii Transportation Association and one individual. Your Committee received comments on this measure from the Public Utilities Commission.

Your Committee finds that the Public Utilities Commission is responsible for enforcing public utility laws, including laws that govern electricity, water and sewer, interisland shipping, and motor carriers. In order to enable the Public Utilities Commission to enforce the laws over motor carriers, additional funds are necessary for additional enforcement personnel.

In its testimony, the Public Utilities Commission noted that earmarking a percentage of monies received by the Commission for the purpose of enforcing chapter 271, Hawaii Revised Statutes, could cause administrative and fiscal challenges for the Commission.

Accordingly, your Committee has amended this measure by:

- (1) Deleting its contents and inserting an appropriation to the Public Utilities Commission for the purpose of hiring additional enforcement personnel; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Transportation and Energy that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2684, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2684, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (English, Harimoto).

SCRep. 3134 (Joint) Transportation and Energy and Public Safety, Intergovernmental, and Military Affairs on H.B. No. 2442

The purpose and intent of this measure is to:

- (1) Require counties to take custody of an abandoned vehicle within ten business days;
- (2) Repeal the requirement that written notice be sent to the abandoned vehicle's owner;
- (3) Require the agency designated by the county to remove the vehicle to provide the abandoned vehicle's owner twenty business days to claim the vehicle, unless the vehicle was reported stolen;
- (4) Allow the designated county agency to waive the requirements for public auction; and
- (5) Allow the vehicle to be considered derelict immediately if there is no current registration for the vehicle.

Your Committees received testimony in support of this measure from the City and County of Honolulu Department of Customer Services, one Hawaii County councilmember, Oahu County Committee on Legislative Priorities of the Democratic Party of Hawaii,

and six individuals. Your Committees received testimony in opposition to this measure from the Maui County Mayor and County of Hawaii Department of Environmental Management.

Your Committees find that abandoned vehicles often occupy valuable parking spaces and can become an eyesore for the community. However, counties face various impediments that limit the counties' ability to quickly and efficiently remove abandoned vehicles. In many cases, the delay in removing abandoned vehicles quickly is due to wait times that counties face when following the Hawaii Revised Statutes. Allowing counties to waive some of the requirements or bypass wait times under certain conditions will lead to faster removal of abandoned vehicles.

Your Committees heard testimony concerning the counties' ability to effectively execute the requirements of this measure. Your Committees note that the companion to this measure, S.B. No. 2479, S.D. 2 (Regular Session of 2018), which was previously passed by the Senate, is a substantially similar measure that provided some flexibility for the counties. Your Committees conclude that the language in S.B. No. 2479, S.D. 2, is preferable because of the flexibility it provides the counties.

Accordingly, your Committees have amended this measure by:

- (1) Deleting its contents and inserting the contents of S.B. No. 2479, S.D. 2, a substantially similar measure, which:
 - (A) Requires the Department of Transportation and the county agencies responsible for taking custody of abandoned vehicles to adopt rules pursuant to chapter 91, Hawaii Revised Statutes, with respect to disposing of abandoned vehicles and providing notice to owners;
 - (B) Requires written notice to an owner of an abandoned vehicle only if the vehicle has been reported stolen;
 - (C) Amends the definition of a "derelict vehicle" to include vehicles for which a notice of transfer has been submitted but the new owner has not transferred the title or registration; and
 - (D) Repeals section 290-3, Hawaii Revised Statutes, which establishes the process for public auctions for abandoned vehicles; and
- (2) Inserting an effective date of January 1, 2100, to encourage further discussion.

While your Committees believe that the amendments made to this measure will address some of the concerns raised by the counties, your Committees believe the following proposals merit further discussion by your Committee on Judiciary if it should choose to hold a hearing on this measure:

- (1) Allowing a county to waive the requirement that abandoned vehicles be taken into custody within ten days, if there are circumstances beyond county's control;
- (2) Implementing stronger penalties for abandoning vehicles in order to reduce the number of vehicles abandoned in the first place; and
- (3) Requiring vehicle sellers to turn in the vehicle's license plates with the notice of transfer to the appropriate county agency, which the buyer can claim upon registering the vehicle, in order to eliminate "phantom vehicles".

As affirmed by the records of votes of the members of your Committees on Transportation and Energy and Public Safety, Intergovernmental, and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 2442, H.D. 2, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 2442, H.D. 2, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chairs on behalf of the Committees.

Transportation and Energy: Ayes, 3. Noes, none. Excused, 2 (English, Harimoto).

Public Safety, Intergovernmental, and Military Affairs: Ayes, 3. Noes, none. Excused, 2 (Baker, Ihara).

SCRep. 3135 Transportation and Energy on H.B. No. 2399

The purpose and intent of this measure is to amend the definition of "drug" in chapter 291E, Hawaii Revised Statutes, to include any substance that can impair the ability of a person to operate a vehicle safely.

Your Committee received testimony in support of this measure from the Department of Transportation, Kauai County Office of the Prosecuting Attorney, Hawaii County Police Department, Maui County Department of the Prosecuting Attorney, MADD Hawaii, and one individual. Your Committee received testimony in opposition to this measure from the Office of the Public Defender and Drug Policy Forum of Hawaii.

Your Committee finds that offenders who are using new emerging drugs that have not been added to the controlled substance schedules, and therefore not legally defined as "drugs" under existing law, cannot be prosecuted under existing law as being under the influence of "drugs". Your Committee further finds that by expanding the definition of "drugs", law enforcement can prosecute offenders based on impairment, as opposed to relying on a controlled substance schedule that may not be updated. Your Committee notes that in 2016, the number of highway deaths connected to the presence of drugs exceeded the number of alcohol-related fatalities.

The Office of the Public Defender provided testimony expressing concern that this measure proposes a definition that is too vague and ambiguous. Your Committee also has concerns regarding drivers with a medical condition who refuse to take necessary medication, thereby becoming a danger to other drivers. Accordingly, your Committee has requested an opinion from the Department of the Attorney General on:

- (1) The ability to quickly and efficiently add new drugs to the controlled substance schedules or the feasibility of creating a new, more adaptable database to rely on for the definition of "drug" for offenses involving the use of an intoxicant while operating a motor vehicle; and

- (2) The liability of a driver with a medical condition who refuses to take necessary medication if such a driver is involved in a traffic accident;

and believes these issues, along with the pending opinion from the Attorney General, merit further discussion by your Committee on Judiciary.

As affirmed by the record of votes of the members of your Committee on Transportation and Energy that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2399, H.D. 1, and recommends that it pass Second Reading and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 3; Ayes with Reservations (Espero). Noes, none. Excused, 2 (English, Harimoto).

SCRep. 3136 Transportation and Energy on H.B. No. 2215

The purpose and intent of this measure is to provide increased protections to bicyclists riding on roadways by requiring drivers of vehicles passing and overtaking a bicycle to allow at least a three-foot safe passing distance between the vehicle and the bicyclist.

Your Committee received testimony in support of this measure from the Department of Transportation; City and County of Honolulu Department of Transportation Services; Honolulu Police Department; Hawaii Public Health Institute; Hawaii Bicycling League; Sustainable Transportation Coalition of Hawai'i; Kailua Urban Design Task Force; Blue Planet Foundation; Peoples Advocacy for Trails Hawai'i; Kauai Path, Inc.; Hawai'i Cycling Club; Oahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i; American Diabetes Association; Blue Zones Project; and fifty-four individuals.

Your Committee finds bicycling is an activity that is good for the health and good for the environment, and the State has made efforts to encourage bicycling. However, bicycling on roadways can be dangerous, with numerous bicycling fatalities in Hawaii resulting from bicyclists being struck by passing motor vehicles. Twelve percent of cyclists felt "threatened for personal safety" the last time they rode and "someone drove too close" was the primary reason. Your Committee notes that thirty-nine states and the District of Columbia have safe passing distance laws in place to reduce the number of injuries and fatalities to bicyclists and the percentage of bicyclists who feel threatened for personal safety when they ride. Enacting a safe passing distance law is another step in promoting bicycling as a valid and safe mode of transportation as the State works to become a more bicycle-friendly place.

As affirmed by the record of votes of the members of your Committee on Transportation and Energy that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2215, H.D. 1, and recommends that it pass Second Reading and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (English, Harimoto).

SCRep. 3137 Transportation and Energy on H.B. No. 2003

The purpose and intent of this measure is to allow a respondent who has a revoked driver's license to operate an employer's vehicle for no more than twelve hours; provided that the respondent's employer provides a sworn statement that the respondent is limited to driving during the specified assigned hours of work.

Your Committee received testimony in support of this measure from the Department of Transportation; Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO; Hawaii Fire Fighters Association, Local 1463, IAFF, AFL-CIO; and Hawaii State AFL-CIO.

Your Committee finds that driving under the influence is a serious offense and there should be serious repercussions for driving under the influence, such as revoking a person's driver's license. However, some employees are required to drive their employer's vehicle for work and could lose their job if they are not allowed to drive a vehicle without an ignition interlock device. To address this issue, the law allows for a special permit for driving a vehicle for work purposes only and limits the amount of driving time to twelve hours per day. Your Committee finds that some employees might need to drive more than twelve hours per day, such as those working multiple shifts, and that the twelve-hour limit could be too restrictive. Because most employers do not allow drinking at work, allowing an employee to drive for work purposes for more than twelve hours per day will allow the employee to remain employed without increasing the likelihood of the employee driving under the influence.

As affirmed by the record of votes of the members of your Committee on Transportation and Energy that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2003, H.D. 1, and recommends that it pass Second Reading and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (English, Harimoto).

SCRep. 3138 Transportation and Energy on H.B. No. 1942

The purpose and intent of this measure is to require the issuance of limited purpose driver's licenses, limited purpose provisional driver's licenses, or limited purposes instruction permits to applicants who voluntarily choose to obtain a REAL ID compliant State Civil Identification Card.

Your Committee received testimony in support of this measure from the Department of Transportation, Oahu County Committee on Legislative Priorities of the Democratic Party of Hawaii, Filipina Advocacy Network, and one individual.

Your Committee finds that Congress enacted the REAL ID Act in 2005, creating a set of federal standards for the issuance of identification cards. The REAL ID Act allows individuals to have only one REAL ID-compliant identification card. This measure is necessary to ensure that a person who elects to hold a state civil identification card as the person's REAL ID-compliant credential is

obtaining a non-compliant limited purpose driver's license, limited purpose provisional driver's license, or limited purpose instruction permit.

As affirmed by the record of votes of the members of your Committee on Transportation and Energy that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1942, H.D. 1, and recommends that it pass Second Reading and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (English, Harimoto).

SCRep. 3139 Transportation and Energy on H.B. No. 2161

The purpose and intent of this measure is to change the penalty for improper motor vehicle inspections at inspection stations from revocation or suspension of the station's operating permit to a fine.

Your Committee received comments on this measure from the Department of Transportation.

Your Committee finds that inspection stations performing improper motor vehicle inspections can lead to vehicles that are unsafe for driving. This not only endangers the driver, but other drivers and pedestrians as well. Your Committee understands the consequences that revocation or suspension of a station's operating permit may have for a station's employees but also notes that while fines can be an appropriate punishment to encourage compliance, your Committee notes that fines can be particularly harmful to smaller stations.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Transportation and Energy that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2161, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2161, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (English, Harimoto).

SCRep. 3140 Transportation and Energy on H.B. No. 2108

The purpose and intent of this measure is to extend the authorization to issue special purpose revenue bonds to assist Kaiuli Energy, LLC, with the financing of the planning, design, and construction of a seawater air conditioning district cooling facility and chilled water distribution system.

Your Committee received testimony in support of this measure from the Oahu County Committee on Legislative Priorities for the Democratic Party of Hawaii; Organizing for Action; 350Hawaii.org; 350.org; Kaiuli Energy, LLC; Ulupono Initiative; Maikai Ocean Engineering; and fifteen individuals. Your Committee received testimony in opposition to this measure from the Ilikai Association of Apartment Owners and eleven individuals.

Your Committee finds that seawater air conditioning systems are better for the environment than the central refrigeration systems that are commonly used. Seawater air conditioning systems use less fossil fuel, electricity, and potable water, and produces less harmful emissions and sewer waste. Kaiuli Energy, LLC, is working with major hotel operators and utilities in Waikiki to implement this technology, which will help the State reach its clean energy goals and support the tourism industry in a more sustainable manner.

As affirmed by the record of votes of the members of your Committee on Transportation and Energy that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2108, H.D. 1, and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (English, Harimoto).

SCRep. 3141 Transportation and Energy on H.B. No. 2589

The purpose and intent of this measure is to authorize the Department of Transportation to designate shoulders upon which motorcycles are allowed to drive under certain conditions.

Your Committee received testimony in support of this measure from the Department of Transportation; Street Bikers United Hawaii; Honolulu Harleys Owners Group; Sun Riders, LLC; Hawaii Street Riders Association; Mo'opuna O' Hawai'i Motorcycle Club; and thirty-three individuals. Your Committee received testimony in opposition to this measure from the Honolulu Police Department and AAA Hawaii.

Your Committee finds that due to their smaller size, motorcycles are sometimes hard to spot on roadways, which can result in other drivers not noticing the motorcycle and crashing into the motorcycle. Motorcyclists also have limited protections in accidents. Your Committee notes that a major source of these types of accidents is during heavy congestion, when drivers of cars or trucks fail to notice a motorcycle stopped in front of them. Your Committee also notes that motorcycles rely on airflow to cool their engines, and traffic congestion can increase the likelihood of a motorcycle stalling or overheating.

Your Committee heard concerns that allowing motorcycles to use shoulders in certain circumstances raises other safety issues. For example, other vehicles that might need to use the shoulder, such as emergency vehicles or broken down vehicles, might not notice a motorcyclist riding in the shoulder. Furthermore, driving conditions for shoulders can be very poor: the pavement could be poorly kept, and debris and trash often accumulate on the shoulder. Your Committee notes that the Department of Transportation, which will be responsible for designating the conditions and locations that motorcycles will be allowed to drive on shoulders, recognizes in its

testimony many of these concerns and is committed to working with the Hawaii motorcycling community and law enforcement to determine what areas would be safe to designate shoulders for motorcycles to use under certain conditions.

As affirmed by the record of votes of the members of your Committee on Transportation and Energy that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2589, H.D. 2, and recommends that it pass Second Reading and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (English, Harimoto).

SCRep. 3142 (Joint) Transportation and Energy and Public Safety, Intergovernmental, and Military Affairs on H.B. No. 2587

The purpose and intent of this measure is to extend the period that a county may adopt a surcharge on state tax, under certain conditions, by six months, from March 31, 2018, to September 30, 2018.

Your Committees received testimony in support of this measure from the Hawaii County Mayor and Pacific Resource Partnership. Your Committees received comments on this measure from the Department of Taxation and Tax Foundation of Hawaii.

Your Committees find that counties are permitted to establish a surcharge on state tax for operating or capital costs of public transportation, but the ordinance to establish this surcharge must be adopted prior to March 31, 2018. Your Committees note that some counties are working to establish a surcharge, but because the counties are holding public hearings, any proposed ordinances are unlikely to be adopted in time to meet the March 31 deadline.

Your Committees heard the Department of Taxation's concerns about having sufficient time to prepare for the collection of the county surcharge. Your Committees note that the companion to this measure, S.B. No. 3088, S.D. 2, which was previously passed by the Senate, is a substantially similar measure that addresses this concern. In addition, S.B. No. 3088, S.D. 2, contains language clarifying how proceeds from the surcharge can be spent.

Accordingly, your Committees have amended this measure by:

- (1) Deleting its contents and inserting contents of S.B. No. 3088, S.D. 2, a substantially similar measure, which:
 - (A) Extends the period that a county may adopt a surcharge on state tax, under certain conditions, from March 31, 2018, to June 30, 2018, rather than September 30, 2018; and
 - (B) Requires that for counties with a population equal to or less than five hundred thousand that adopts a county surcharge on state tax that:
 - (i) No less than sixty percent of the surcharge shall be used for transportation purposes; and
 - (ii) Up to two percent of the surcharge can be used on any roadway used by the general public; and
- (2) Inserting an effective date of January 1, 2100, to encourage further discussion.

As affirmed by the records of votes of the members of your Committees on Transportation and Energy and Public Safety, Intergovernmental, and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 2587, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 2587, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
Transportation and Energy: Ayes, 3. Noes, none. Excused, 2 (English, Harimoto).
Public Safety, Intergovernmental, and Military Affairs: Ayes, 3. Noes, none. Excused, 2 (Baker, Ihara).

SCRep. 3143 (Joint) Transportation and Energy and Commerce, Consumer Protection, and Health on H.B. No. 2460

The purpose and intent of this measure is to develop and refine the State's microgrid technologies and policies by establishing a microgrid demonstration project at the Natural Energy Laboratory of Hawaii Authority.

Your Committees received testimony in support of this measure from Natural Energy Laboratory of Hawaii Authority, Life of the Land, Hawaii Solar Energy Association, Ulupono Initiative, Organizing for Action, 350Hawaii.org, Oahu County Committee on Legislative Priorities of the Democratic Party of Hawaii, Sierra Club of Hawaii, Sierra Student Coalition, and eleven individuals. Your Committees received testimony in opposition to this measure from Hawaiian Electric Company, Inc. Your Committees received comments on this measure from the Public Utilities Commission.

Your Committees find that microgrids offer the potential to aggregate pockets of load and generation resources that can disconnect and reconnect to the larger grid in times of emergency. Your Committees note that the Natural Energy Laboratory of Hawaii Authority (NELHA) is the optimal choice to perform a microgrid demonstration project, as the implementation of microgrid technology is a key component of NELHA's Distributed Energy Resources strategy and master plan. Testimony from NELHA further emphasized the benefits of housing the demonstration project at NELHA, including NELHA's physical infrastructure and location and the relationships NELHA has already developed with other organizations. Testimony from NELHA also emphasized the need to establish the site as a demonstration project in order to gain better leverage when applying for grants.

As affirmed by the records of votes of the members of your Committees on Transportation and Energy and Commerce, Consumer Protection, and Health that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 2460, H.D. 2, and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
Transportation and Energy: Ayes, 3. Noes, none. Excused, 2 (English, Harimoto).

Commerce, Consumer Protection, and Health: Ayes, 5. Noes, none. Excused, 2 (Chang, Ruderman).

SCRep. 3144 (Joint) Transportation and Energy and Commerce, Consumer Protection, and Health on H.B. No. 2249

The purpose and intent of this measure is to enhance the State's electric grid resiliency by:

- (1) Encouraging investment in energy efficiency through the creation of a sub-fund under the green energy market securitization loan fund, to be used as a revolving line of credit, for any state agency or department to obtain low-cost financing to install energy-efficiency measures; and
- (2) Promoting funding of critical infrastructure by:
 - (A) Creating a grid resilience task force to identify critical infrastructure needs;
 - (B) Establishing a grid resiliency rebate program to encourage funding for critical infrastructure; and
 - (C) Directing government agencies and public utilities to incorporate grid resiliency into their planning.

Your Committees received testimony in support of this measure from Tesla, Organizing for Action, Hawaii Solar Energy Association, 350Hawaii.org, 350.org, O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, Sierra Club of Hawaii, Sierra Student Coalition, and twenty individuals. Your Committees received testimony in opposition to this measure from Hawaiian Electric Company, Inc. Your Committees received comments on this measure from the Department of Budget and Finance; Department of Business, Economic Development, and Tourism; Department of Commerce and Consumer Affairs Division of Consumer Advocacy; Hawaii Green Infrastructure Authority; Public Utilities Commission; Tax Foundation of Hawaii; Life of the Land, Ulupono Initiative; and Distributed Energy Resources Council of Hawaii.

Your Committees find that as an island state, Hawaii is particularly susceptible to natural disasters. A resilient electric grid is a critical component to the State's ability to overcome a natural disaster. However, your Committees heard testimony expressing concern about how this measure approaches grid resiliency. In particular, there was concern about the state of the green energy market securitization loan fund, as well as whether the rebate program proposed in this measure would effectively improve grid resiliency. Your Committees believe that a careful assessment of how to best implement grid-resiliency policies should be done before expanding the green energy market securitization program and establishing a new rebate program.

Your Committees note that S.B. No. 2910, S.D. 2 (Regular Session of 2018), which was previously passed by the Senate, creates a council tasked with evaluating appropriate strategies to enhance grid resiliency.

Accordingly, your Committees have amended this measure by:

- (1) Deleting its contents and inserting the contents of S.B. No. 2910, S.D. 2, which establishes a homeland security and resiliency council that shall:
 - (A) Establish strategies, goals, priorities, and recommendations to enhance the security and resiliency of the electric grid and other critical infrastructure sectors in the State; and
 - (B) Assess the capacity and availability of existing resources and identify new sources of revenue necessary to enhance resiliency of critical infrastructure sectors;
- (2) Inserting an effective date of January 1, 2100, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Transportation and Energy and Commerce, Consumer Protection, and Health that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 2249, H.D. 2, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 2249, H.D. 2, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Transportation and Energy: Ayes, 3. Noes, none. Excused, 2 (English, Harimoto).

Commerce, Consumer Protection, and Health: Ayes, 5. Noes, none. Excused, 2 (Chang, Ruderman).

SCRep. 3145 (Joint) Transportation and Energy and Commerce, Consumer Protection, and Health on H.B. No. 2110

The purpose and intent of this measure is to encourage and facilitate the development and use of microgrids by establishing a standard microgrid services tariff.

Your Committees received testimony in support of this measure from Hawaiian Electric Company, Inc.; Hawaii Energy Policy Forum; Energy Research Systems; Life of the Land; Hawaii Solar Energy Association; Ulupono Initiative; Blue Planet Foundation; Distributed Energy Resources Council of Hawaii; Organizing for Action; 350Hawaii.org; Oahu County Committee on Legislative Priorities of the Democratic Party of Hawaii; Sierra Club of Hawaii; Sierra Student Coalition; and ten individuals. Your Committees received comments on this measure from the Department of Commerce and Consumer Affairs Division of Consumer Advocacy and Kauai Island Utility Cooperative.

Your Committees find that microgrids have a significant role to play in achieving Hawaii's clean energy policies. Furthermore, microgrids increase resiliency and allow for faster recovery in the event of natural disasters and other emergencies. However, your Committees note that microgrids could adversely affect other energy consumers. In order to promote the development of microgrids that are fair to electric utilities, microgrid operators, and ratepayers, it is necessary to establish a tariff that standardizes and streamlines projects.

Your Committees have amended this measure by:

- (1) Adding language to clarify that the microgrid services tariff will not make a microgrid a public utility;
- (2) Expanding the scope of information the Public Utilities Commission is required to consider for the microgrid services tariff to include microgrids in all jurisdictions, as opposed to just Puerto Rico; and
- (3) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Transportation and Energy and Commerce, Consumer Protection, and Health that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 2110, H.D. 2, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 2110, H.D. 2, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Transportation and Energy: Ayes, 3. Noes, none. Excused, 2 (English, Harimoto).

Commerce, Consumer Protection, and Health: Ayes, 5. Noes, none. Excused, 2 (Chang, Ruderman).

SCRep. 3146 Transportation and Energy on H.B. No. 2435

The purpose and intent of this measure is to amend the definition of “rates” in Hawaii’s Motor Carrier Law to clarify that, for packages that include other services, “rates” only refers to charges for the provision of transportation by motor vehicle of passengers.

Your Committee received testimony in support of this measure from Robert’s Hawaii, Inc. and E Noa Corporation.

Your Committee finds that the Public Utilities Commission (PUC) regulates all chartered, franchised, certified, and registered public utility companies operating in the State, including motor vehicle carriers. The PUC imposes tariffs on motor vehicle carriers for rates, fares, and charges. Under the existing definition of “rates”, the tariff is applied to non-transportation services and items like lunch, admission fare, and airfare that are often included in package deals offered by the motor vehicle carrier. Your Committee finds that this does not reflect the primary responsibility of the PUC. As such, the definition of “rates” should be amended to include only costs related to motor vehicle transportation.

Your Committee has amended this measure by making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Transportation and Energy that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2435, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2435, H.D. 1, S.D. 1, and be referred to your Committee on Commerce, Consumer Protection, and Health.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (English, Harimoto).

SCRep. 3147 Transportation and Energy on H.B. No. 2283

The purpose and intent of this measure is to authorize the issuance of general obligation bonds for the designs, plans, materials, construction, and equipment for three capital improvement projects in the H-1 Corridor:

- (1) The widening of Kaulaka’i parkway to Waiawa Interchange;
- (2) The widening of Wahiawā Interchange to Hālawā Interchange; and
- (3) Modifications to the Fort Weaver/Kunia Road ramp.

Your Committee received testimony in support of this measure from the Department of Transportation, O’ahu County Committee on Legislative Priorities of the Democratic Party of Hawai’i, and one individual.

Your Committee finds that the H-1 Corridor is a highly trafficked highway that is critical to the functioning of O’ahu’s economy. Your Committee notes that the 2016 H-1 Corridor Study stresses the importance of keeping the H-1 well-maintained and regularly assessing portions of the H-1 that can be improved for traffic flow. The study also identified sixty-three capital improvement projects located directly on H-1 that address traffic congestion problems. The three capital improvement projects in this measure are on the list of projects identified in the study.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Transportation and Energy that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2283, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2283, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (English, Harimoto).

SCRep. 3148 Transportation and Energy on H.B. No. 2007

The purpose and intent of this measure is to create general excise tax equity among the types of aircraft in the State by amending the definition of “aircraft” to include helicopters.

Your Committee received testimony in support of this measure from Maui Hotel and Lodging Association, O’ahu County Committee on Legislative Priorities of the Democratic Party of Hawai’i, Blue Hawaiian Helicopters, and Hawaii Helicopters. Your Committee received testimony in opposition to this measure from the Mayor of the County of Hawaii. Your Committee received comments on this measure from the Department of Taxation and Tax Foundation of Hawaii.

Your Committee finds that the State relies on a well-functioning aircraft industry in order to have a strong, robust economy. In order to ensure the health of the aircraft industry, the State offers certain tax exemptions, such as exempting from the general excise tax the amounts received for servicing and maintenance of aircraft. However, your Committee notes that the current definition of "aircraft" does not include helicopters, which have grown increasingly popular for air travel. Furthermore, your Committee heard testimony that this measure would not lead to complete tax equity among aircraft even with the addition of helicopters to the definition of "aircraft", as the definition would still omit smaller airplanes that operate with one jet engine or propellers.

Accordingly, your Committee has amended this measure by:

- (1) Amending the definition of "aircraft" in section 237-24.9, Hawaii Revised Statutes, by removing language that limits the definition to craft that operate with two or more jet engines;
- (2) Amending its purpose section to more accurately reflect its contents; and
- (3) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Transportation and Energy that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2007, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2007, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (English, Harimoto).

SCRep. 3149 Transportation and Energy on H.B. No. 1938

The purpose and intent of this measure is to increase the maximum fine for passing or overtaking a school bus on state highways when the bus is stopped and its visual signals are on, from \$500 to \$1,000.

Your Committee received testimony in support of this measure from the Department of Transportation, Department of Education, Hawaii Transportation Association, and one individual.

Your Committee finds that students who utilize the school bus as their primary means of transportation can face safety risks when they disembark the bus and need to cross the street. Drivers who are unaware of the disembarking students could attempt to pass the bus just as students are crossing the street, potentially seriously injuring unsuspecting students. In 2017, Hawaii school bus drivers collectively counted over six hundred illegal passes in a single day of service. Increased penalties for illegally passing a bus is one way to improve awareness and compliance.

As affirmed by the record of votes of the members of your Committee on Transportation and Energy that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1938, H.D. 1, and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (English, Harimoto).

SCRep. 3150 Transportation and Energy on H.B. No. 1625

The purpose and intent of this measure is to allow the registered owner of a motor vehicle to designate a beneficiary to whom ownership of the vehicle shall be transferred upon the registered owner's death.

Your Committee received testimony in support of this measure from two individuals.

Your Committee finds that owners of motor vehicles do not always prepare for the ownership of their vehicle after they die. This can lead to confusion about vehicle ownership, annual registration and safety checks, maintenance, and abandonment when the owner of the vehicle passes away. Allowing owners to designate a beneficiary in the event of death will reduce the problems related to unclear ownership of the vehicle.

Your Committee notes that S.B. No. 2240 (Regular Session of 2018) is a substantially similar measure. In addition to allowing the designation of a beneficiary, S.B. No. 2240 also establishes how the designation of the beneficiary may be revoked or changed, establishes procedures for transferring ownership after death, and makes additional conforming amendments in the Hawaii Revised Statutes. Your Committee concludes that the language in S.B. No. 2240 is preferable because changing the beneficiary is an important option for vehicle owners and the process for transferring ownership needs to be clear.

Accordingly, your Committee has amended this measure by:

- (1) Deleting its contents and inserting the contents of S.B. No. 2240, which:
 - (A) Allows upon the registration of a vehicle, that the owner of a vehicle to designate a beneficiary to whom the vehicle will be transferred to upon the owner's death, and establishes how the designation of the beneficiary may be revoked or changed;
 - (B) Adds to the certificate of registration after the name of the owner, the words "transfer on death to" followed by the name of the beneficiary; and
 - (C) Establishes procedures for transferring ownership after death; and
- (2) Inserting an effective date of January 1, 2100, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Transportation and Energy that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1625, H.D. 1, as amended herein, and recommends that it pass

Second Reading in the form attached hereto as H.B. No. 1625, H.D. 1, S.D. 1, and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (English, Harimoto).

SCRep. 3151 Transportation and Energy on H.B. No. 2177

The purpose and intent of this measure is to eliminate the exemption U-drive motor vehicles have for certification of registration, with regard to the fee established in section 286-51, Hawaii Revised Statutes, and the maximum amount that may be increased by ordinance.

Your Committee received testimony in support of this measure from the Department of Transportation, Maui County Mayor's Office, and three Maui County Councilmembers.

Your Committee finds that making certification of registration fees uniform streamlines administration and collection of these fees. In addition, eliminating the exemption on registration fees for U-drive motor vehicles will provide counties with additional revenue to deal with abandoned vehicles that mar the beauty of the State and pose a danger to the public by creating unsafe driving conditions.

As affirmed by the record of votes of the members of your Committee on Transportation and Energy that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2177, H.D. 1, and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (English, Harimoto).

SCRep. 3152 (Joint) Transportation and Energy and Higher Education on H.B. No. 1830

The purpose and intent of this measure is to:

- (1) Allow the Legislature to make appropriations into the University of Hawaii green special fund;
- (2) Expand the projects the special fund is allowed to support to include energy efficiency, energy conservation, and renewable energy projects;
- (3) Eliminate the expenditure cap that requires approval by the Legislature; and
- (4) Require the Legislature to be notified of any expenditures from the fund.

Your Committees received testimony in support of this measure from the University of Hawai'i System, Hawaii Energy, Ulupono Initiative, O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, Blue Planet Foundation, and Sierra Club of Hawaii. Your Committees received comments on this measure from the Department of the Attorney General.

Your Committees find that green revolving funds are a best practice used by many colleges and universities dedicated to addressing sustainable facilities, operations, and behaviors. Sustainable facilities and practices at the University of Hawai'i, which is the second largest energy user in the State, play a critical role in achieving the State's goal of one hundred percent clean energy by 2045. Allowing the Legislature to make appropriations into the University's green special fund and expanding the types of projects the special fund is allowed to support will enhance the sustainable facilities, operations, and operations at the University.

Your Committees note a concern raised by the Department of the Attorney General about the role of the Legislature with regard to expenditures from the fund. The Department of the Attorney General suggested that "legislative notification" of expenditures from the fund could be read to violate the constitutional provision that requires appropriation of public monies be "made by law".

Accordingly, your Committees have amended this measure by:

- (1) Incorporating the language recommended by the Department of the Attorney General clarifying that expenditures from the fund are made by appropriation; and
- (2) Inserting an effective date of January 1, 2100, to encourage further discussion.

As affirmed by the records of votes of the members of your Committees on Transportation and Energy and Higher Education that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 1830, H.D. 2, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 1830, H.D. 2, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
Transportation and Energy: Ayes, 3. Noes, none. Excused, 2 (English, Harimoto).
Higher Education: Ayes, 5. Noes, none. Excused, none.

SCRep. 3153 (Joint) Transportation and Energy and Higher Education on H.B. No. 1767

The purpose and intent of this measure is to prohibit any vehicle, except low-range, four-wheel drive vehicles, from being driven through or in Waipi'o Valley or the Mauna Kea Science Reserve, except under certain circumstances.

Your Committees received testimony in support of this measure from the Office of Maunakea Management, one Hawaii County councilmember, Maunakea Observatories Support Services, Canada-France-Hawaii Telescope Corp., and four individuals. Your Committees received comments on this measure from the Office of Hawaiian Affairs.

Your Committees find that the largely unregulated vehicular access to the Maunakea summit and Waipi'o Valley floor has resulted in serious public safety concerns, primarily among vehicles that are ill-equipped to drive in these areas. Not only are ill-equipped

vehicles at risk, but these vehicles can affect the gravel road, putting extra burden on the road crew who need to grade the road more often.

Your Committees further find that residents with a disability or their families often have a vehicle which has been modified to provide ingress and egress by the person with a disability. These modifications often add additional weight to the vehicle, which results in these residents paying more in state and county motor vehicle weight taxes in comparison to residents with non-modified vehicles. Your Committees believe that there is a need to address this hardship by excluding the weight of disability access modifications from the determination of net weight for state and county motor vehicle weight taxes.

Your Committees have amended this measure by:

- (1) Adding a part II by inserting the contents of S.B. No. 2714, S.D. 1, which was previously passed by the Senate, and amends the definition of "net weight" to exclude the weight of any vehicle modifications made to assist a person with a disability;
- (2) Inserting an effective date of January 1, 2100, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

Your Committees request that should your Committee on Ways and Means choose to consider this measure, that your Committee on Ways and Means hold a public hearing on this measure to allow testimony to be heard on the newly included part II, rather than holding a hearing for decision-making only.

As affirmed by the records of votes of the members of your Committees on Transportation and Energy and Higher Education that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 1767, H.D. 2, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 1767, H.D. 2, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Transportation and Energy: Ayes, 3. Noes, none. Excused, 2 (English, Harimoto).

Higher Education: Ayes, 5. Noes, none. Excused, none.

SCRep. 3154 Education on H.B. No. 2353

The purpose and intent of this measure is to make miscellaneous technical amendments to update language and facilitate library operations, including amending provisions related to the detention of public library materials and administration of the library fee for enhanced services special fund.

Your Committee received testimony in support of this measure from the Hawai'i State Public Library System, O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, and Friends of the Library of Hawai'i.

Your Committee finds that Hawaii's public libraries offer many public benefits, including acting as community gathering places where learning happens and knowledge is shared. Many members of the public, including children and kupuna, rely on the public library system, which necessitates the need for the system to operate as efficiently and effectively as possible.

Your Committee further finds that since the Hawaii State Library Foundation is now Friends of the Library of Hawaii following a merger of the two organizations in 2004, it is appropriate to update references to the organization in state law. Additionally, to further reduce the burden of substantial fees for the organization to hold a minimum amount of funds with a trust company, it is appropriate to remove language that would impose further trust fund requirements.

Your Committee has amended this measure by:

- (1) Changing references to the Hawaii State Library Foundation to the Friends of the Library of Hawai'i;
- (2) Changing the name of the Hawaii state library foundation trust fund to the friends of the library of Hawai'i program fund and clarifying its functions; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2353, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2353, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Dela Cruz, Kahele).

SCRep. 3155 (Joint) Water and Land and Agriculture and Environment and Government Operations on H.B. No. 2547

The purpose and intent of this measure is to:

- (1) Establish the Hawaii Sustainability Act to set forth sustainability goals for the State;
- (2) Establish the Office of Sustainability to assist state agencies in accomplishing the sustainability goals under the Hawaii Sustainability Act;
- (3) Establish and appropriate funds into the state sustainability special fund to support the work of the Office of Sustainability and sustainability initiatives, projects, and services; and
- (4) Appropriate funds for the establishment of seven full-time equivalent permanent positions and the operating expenses of the Office of Sustainability.

Your Committees received testimony in support of this measure from the Department of Business, Economic Development, and Tourism; Office of Planning; O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i; The Nature Conservancy; Hawaii Farm Bureau Federation; Hawai'i Interfaith Power and Light; Ulupono Initiative; Hawaii Chapter of 350.org; Sierra Club of Hawai'i; and fifteen individuals. Your Committees received comments on this measure from the Department of Budget and Finance, Department of the Attorney General, and State Procurement Office.

Your Committees find that the State faces a growing number of pressing issues, including the steady deterioration of public infrastructure, the lack of affordable housing, a continued reliance on a service-based economy, the vulnerability of Hawaii in a volatile global energy market, possible interruptions in travel and to critical food supplies, threats to fragile island ecosystems, ever increasing numbers of residents, and an increasing number of visitors over the long term. These issues all raise questions about the long-term limits of growth in the State and highlight the need for planning and implementation to assure Hawaii's future. This measure supports the development of a legal framework and foundation to assist in the development and implementation of sustainability planning, practices, and projects statewide.

Your Committees note the concerns raised by the Department of the Attorney General that this measure appears to duplicate some of the functions of the Office of Planning. The Office of Planning is responsible for providing technical assistance in administering the Hawaii State Plan under chapter 226, Hawaii Revised Statutes, and assisting the State in pursuing the seven major areas of statewide concern, including sustainability, to improve the quality of life for Hawaii's present and future populations. To avoid unnecessary duplication of services and programs as well as potential conflict, the Department of the Attorney General suggested establishing the Office of Sustainability with purposes and programs that are clearly distinguishable from the Office of Planning.

Your Committees further note that the Office of Planning employs a Sustainability Coordinator who is responsible for establishing statewide sustainability planning and implementing the State's sustainability goals and policies. However, the Sustainability Coordinator is the only individual in the Office who is responsible for sustainability issues and operates without a budget to pursue sustainability initiatives. Given the importance of sustainability for Hawaii, your Committees believe that, in lieu of establishing a new office for sustainability initiatives, the Office of Planning should incorporate a greater focus on sustainability under its duties and responsibilities.

Accordingly, your Committees have amended this measure by:

- (1) Adding language to the preamble that indicates the reasons for incorporating sustainability duties and responsibilities with the duties and responsibilities of the Office of Planning;
- (2) Deleting sections 3 through 5 and replacing them with language that:
 - (A) Amends chapter 225M, Hawaii Revised Statutes, to incorporate the duties and responsibilities relating to sustainability into the duties and responsibilities of the Office of Planning; and
 - (B) Makes conforming amendments to replace references to the "Office of Planning" with the "Office of Planning and Sustainability"; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Water and Land, Agriculture and Environment, and Government Operations that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 2547, H.D. 2, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 2547, H.D. 2, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Water and Land: Ayes, 4. Noes, none. Excused, 1 (Inouye).

Agriculture and Environment: Ayes, 3. Noes, none. Excused, 2 (Nishihara, Ruderman).

Government Operations: Ayes, 3. Noes, none. Excused, 2 (Keith-Agaran, Ruderman).

SCRep. 3156 (Joint) Education and Water and Land on H.B. No. 2679

The purpose and intent of this measure is to:

- (1) Authorize the Department of Education to acquire any real, personal, or mixed property or any interest therein for public educational purposes, under certain conditions;
- (2) Specify that lands to which the Department of Education holds title shall not be considered public lands; and
- (3) Transfer fee interest in certain public school lands from the City and County of Honolulu and Department of Land and Natural Resources to the Department of Education.

Your Committees received testimony in support of this measure from the Department of Education, Hawaii State Teachers Association, Building Industry Association of Hawaii, and one individual. Your Committees received testimony in opposition to this measure from the Office of Hawaiian Affairs, Department of Parks and Recreation for the City and County of Honolulu, 'Aina Haina Community Association, and one individual. Your Committees received comments on this measure from the Department of the Attorney General and Department of Land and Natural Resources.

Your Committees find that the Department of Education has managed county school lands throughout the State since 1965. Your Committees further find that many public schools in Hawaii require extensive renovation or rebuilding, and that this process is unnecessarily complicated by having state schools on county land, or situated on both county and state land. Your Committees additionally find that transferring a fee simple interest for county school lands to the State will greatly simplify the process of undertaking much needed repairs and renovations.

Your Committees have amended this measure by deleting its contents and inserting the contents of S.B. No. 2237, S.D. 2, (Regular Session of 2018) which:

- (1) Requires the City and County of Honolulu to transfer to the Department of Education all property upon which a public elementary or intermediate school is situated;
- (2) Gives the Department of Education the power to acquire and hold title to real, personal, or mixed property for use for public educational purposes;
- (3) Removes lands to which the Department of Education holds title from the definition of "public lands";
- (4) Requires legislative approval prior to the sale or gift of lands to which the Department of Education holds title; and
- (5) Appropriates an unspecified amount of funds as a grant-in-aid to the City and County of Honolulu to prepare, execute, and record the quitclaim deeds required by this measure.

As affirmed by the records of votes of the members of your Committees on Education and Water and Land that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 2679, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 2679, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Education: Ayes, 4. Noes, none. Excused, 1 (Dela Cruz).

Water and Land: Ayes, 3. Noes, none. Excused, 2 (Inouye, Thielen).

SCRep. 3157 Labor on H.B. No. 1727

The purpose and intent of this measure is to:

- (1) Require employers to provide a minimum amount of paid sick leave to employees to be used to care for themselves or a family member who is ill or needs medical care, or due to a public health emergency; and
- (2) Give employers flexibility to offer paid sick leave to minimum wage and other employees or to pay minimum wage employees a salary that is more than the minimum wage.

Your Committee received testimony in support of this measure from the International Brotherhood of Electrical Workers Local Union 1260, AFL-CIO; Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO; Hawaii State AFL-CIO; Labor Caucus of the Democratic Party of Hawaii; ILWU Local 142; Hawaii State Teachers Association; IMU Alliance; and two individuals. Your Committee received testimony in opposition to this measure from the City and County of Honolulu Department of Human Resources; Chamber of Commerce Hawaii; Hawaii Food Industry Association; Hawaii Credit Union League; Aloha Shell Service; Hawaii Petroleum; City Mill Co., Ltd.; Hawaii Restaurant Association; ABC Stores; Hawaiian Chip Company; Retail Merchants of Hawaii; National Federation of Independent Business; Society for Human Resource Management – Hawaii Chapter; Building Industry Association of Hawaii; The Queen's Health Systems; Maui Chamber of Commerce; Tiki's Grill and Bar; and thirty-three individuals. Your Committee received comments on this measure from the Department of Labor and Industrial Relations, Department of Human Resources Development, Hawaii State Commission on the Status of Women, YWCA O'ahu, Hawaii Women's Coalition, Hawaii Children's Action Network, Hawai'i Appleseed Center for Law & Economic Justice, American Council of Engineering Companies of Hawaii, and one individual.

Your Committee finds that Hawaii's working families are especially vulnerable, and that the majority of Hawaii's workforce cannot afford to take unpaid leave to care for themselves or a family member who is ill or needs medical care. Yet, for 240,000 employees who serve as primary caregivers to a family member, this is the dilemma they face. Your Committee further finds that seven in ten children live in a household where both parents work, and over a quarter of children live in households with single parents; therefore, a lack of meaningful paid sick leave policies puts them most at risk.

Your Committee has amended this measure by:

- (1) Amending the definition of "employer" to exclude federal employers;
- (2) Clarifying that grandparents are included within the definition of "family member";
- (3) Reducing the number of hours of work required for an employee to begin accrual of paid sick leave from six hundred eighty hours to four hundred eighty hours;
- (4) Reducing the hour of employment on which an employee is entitled to use accrued paid sick leave from the seven hundred fiftieth hour to the four hundred eighty-first hour;
- (5) Deleting language that would have allowed paid sick leave to be provided based on a manner deemed suitable by the employer; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

Your Committee requests that, as this measure moves forward, your Committee on Ways and Means consider inserting an enforcement provision.

As affirmed by the record of votes of the members of your Committee on Labor that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1727, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1727, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 3158 Labor on H.B. No. 1880

The purpose and intent of this measure is to extend the sunset date of Act 65, Session Laws of Hawaii 2013 (Act 65), which provides a limited exemption to the licensing requirements for certain individuals in situations when an electric utility must retain qualified individuals to work with high voltage (six hundred volts or higher) who are not licensed in the State but are otherwise deemed qualified by the electric utility.

Your Committee received testimony in support of this measure from the Board of Electricians and Plumbers; Hawaiian Electric Company, Inc.; Power Contracting LLC; and Chamber of Commerce Hawaii. Your Committee received testimony in opposition to this measure from the Department of Labor and Industrial Relations and International Brotherhood of Electrical Workers Local Union 1186. Your Committee received comments on this measure from the Department of Business, Economic Development, and Tourism.

Your Committee finds that most in-state electrical workers are experienced in only low voltage work, which includes wiring buildings at one hundred twenty/two hundred forty volts; therefore, in the event of a catastrophic occurrence requiring electrical workers who possess the level of skill required for high voltage work, Hawaii must import workers from the mainland since there are not enough electricians, splicers, and linemen in the State who are experienced and qualified to work with high voltage and who could respond in the event of a catastrophic occurrence or complex maintenance work affecting an electric utility. Your Committee further finds that Act 65 provides a limited exemption to the licensing requirements for certain individuals in situations when an electric utility must retain qualified individuals to work with high voltage (six hundred volts or higher) who are not licensed in the State but are otherwise deemed qualified by the electric utility; however, Act 65 sunsets on June 30, 2018. This measure extends the sunset date of Act 65 for five years, to June 30, 2023.

Your Committee acknowledges that this measure is a continuing work in progress and believes it is in the State's best interest to continue to move this measure forward for further deliberation.

Accordingly, your Committee has amended this measure by:

- (1) Inserting an effective date of January 1, 3000, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Labor that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1880, H.D. 3, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1880, H.D. 3, S.D. 1, and be referred to your Committee on Commerce, Consumer Protection, and Health.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 3159 Labor on H.B. No. 2077

The purpose and intent of this measure is to:

- (1) Establish the public employees training program within the Department of Human Resources Development to provide training programs to improve and enhance state employees' understanding of their job duties; and
- (2) Allocate an amount equal to one percent of collective bargaining increases to the public employees training program.

Your Committee received testimony in support of this measure from the Judiciary; Department of Human Resources Development; and Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO. Your Committee received testimony in opposition to this measure from the United Public Workers, AFSCME, Local 646, AFL-CIO. Your Committee received comments on this measure from the Department of Budget and Finance.

Your Committee finds that there is a rising number of eligible retirees within the various departments of state government, which creates a pressing need to prepare the next generation of workers to occupy positions vacated by retirees, especially at the supervisory level. Your Committee believes that a public employees training program could help to stabilize the workforce and ensure the transfer of essential skills and institutional knowledge.

Your Committee further finds that while this measure requires an amount equal to one percent of the collective bargaining increases from the prior fiscal year be deposited into the public employees training fund, this measure does not specify the origin of these funds, which has led to ambiguity and differing interpretations among testifiers. As this measure moves to your Committee on Ways and Means, it would be most appropriate for a determination to be made as to the appropriate source of funding for the public employees training program.

As affirmed by the record of votes of the members of your Committee on Labor that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2077, H.D. 1, and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5; Ayes with Reservations (Taniguchi). Noes, none. Excused, none.

SCRep. 3160 Economic Development, Tourism, and Technology on H.B. No. 1328

The purpose and intent of this measure is to amend the motion picture, digital media, and film production income tax credit by:

- (1) Allowing a qualified production to provide the State with alternative marketing opportunities, that are approved by the Department of Business, Economic Development, and Tourism, that offer equal or greater promotional value to the State than the shared-card, end-title screen credit;
- (2) Requiring the Department of Business, Economic Development, and Tourism to submit a detailed report on the alternative marketing opportunities that the Department has approved; and
- (3) Amending the aggregate tax credit cap from \$35,000,000 to an unspecified amount.

Your Committee received testimony in support of this measure from the Department of Business, Economic Development, and Tourism; University of Hawai'i System; Honolulu Film Office; Office of Economic Development of the County of Kauai; Motion Picture Association of America; Hawaii International Film Association; Hawaii Film and Entertainment Board; HT Project, Inc.; Da Spot; SAG-AFTRA; O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i; International Alliance of Theatrical Stage Employees Local 665; International Brotherhood of Electrical Workers Local Union 1260; and one hundred thirty-six individuals. Your Committee received testimony in opposition to this measure from one individual. Your Committee received comments on this measure from the Department of Taxation, Tax Foundation of Hawaii, and two individuals.

Your Committee finds that Hawaii has been represented in many films and television shows that use or showcase the natural beauty of our State. The film industry has stimulated the economy in Hawaii by creating jobs while promoting Hawaii as a visitor destination. Your Committee notes that television shows such as Hawaii Five-0 have not only advertised the beauty of Hawaii, but also has brought in revenue through the creation of jobs and utilization of public lands and properties. Your Committee finds that Act 143, Session Laws of Hawaii 2017, amended the motion picture, digital media, and film production income tax credit by, among other things, imposing an aggregate tax credit cap of \$35,000,000. In testimony received by your Committee, in 2017, forty-eight productions registered for the motion picture, digital media, and film production income tax credit and will potentially claim \$55,000,000 in tax credits. This is beyond the cap set at \$35,000,000, and your Committee finds that the cap should be increased to allow for the continuance of productions seeking to film in Hawaii.

Accordingly, your Committee has amended this measure by:

- (1) Inserting an annual aggregate cap of \$55,000,000 for the motion picture, digital media, and film production income tax credit;
- (2) Reducing the amount of total tax credits that may be claimed per qualified production from \$15,000,000 to \$12,500,000; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Economic Development, Tourism, and Technology that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1328, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1328, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Galuteria).

SCRep. 3161 Economic Development, Tourism, and Technology on H.B. No. 2075

The purpose and intent of this measure is to:

- (1) Establish a two-year alternative energy research and development program to provide matching grants to qualified businesses that have been awarded a competitive contract from the United States Department of Defense Office of Naval Research to conduct research and development in alternative energy; and
- (2) Establish the alternative energy research and development revolving fund to promote alternative energy research and development in Hawaii.

Your Committee received testimony in support of this measure from the Hawaii Technology Development Corporation; Makai Ocean Engineering, Inc.; Chamber of Commerce Hawaii; Navatek; O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, and four individuals. Your Committee received comments on this measure from Oceanit Laboratories, Inc.

Your Committee finds that research focused on creating new forms of alternative energy is in line with the State's clean energy goal of one hundred percent renewable energy by the end of 2045. Your Committee further finds that Act 159, Session Laws of Hawaii 2015 (Act 159), established a matching grant pilot program to support local companies that are conducting research on renewable energy through existing contracts with the United States Department of Defense, Office of Naval Research. Your Committee notes that the program established by Act 159 expired on June 30, 2017. Your Committee believes that this program has the potential to elevate Hawaii as a leader in renewable energy and that it should be reestablished.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Economic Development, Tourism, and Technology that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2075, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2075, H.D. 2, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Galuteria).

SCRep. 3162 (Joint) Economic Development, Tourism, and Technology and Government Operations on H.B. No. 2225

The purpose and intent of this measure is to:

- (1) Require certain information technology projects to adhere to statewide information technology governance pursuant to section 27-43(a), Hawaii Revised Statutes;
- (2) Authorize the Chief Information Officer to establish a review process and review certain information technology projects to ensure that project execution and associated expenditures are sufficiently evaluated; and
- (3) Provide the Chief Information Officer full discretion to require independent verification and validation of certain information technology projects.

Your Committees received testimony in support of this measure from the Office of Enterprise Technology Services, O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, and Transform Hawai'i Government. Your Committees received testimony in opposition to this measure from the Department of Education.

Your Committees find that a mandatory governance process is necessary for information technology projects that are currently in place for the Executive Branch to ensure their efficiency and effectiveness. Your Committees further find that a methodical review and monitoring process is imperative to maintaining transparency in information technology projects and will also ensure that the projects achieve their expected objectives and provide a clear return on investment.

Your Committees have amended this measure by:

- (1) As suggested by the Office of Enterprise Technology Services:
 - (A) Establishing that when an information technology project of a sponsoring department or agency requires independent verification and validation, the sponsoring department or agency shall budget and pay for the costs of the independent verification and validation costs; and
 - (B) Giving the responsibility of procuring, administering, and managing independent verification and validation services to the Chief Information Officer; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Economic Development, Tourism, and Technology and Government Operations that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 2225, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 2225, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Economic Development, Tourism, and Technology: Ayes, 3. Noes, none. Excused, 2 (Baker, Galuteria).

Government Operations: Ayes, 3; Ayes with Reservations (Keith-Agaran). Noes, none. Excused, 2 (Galuteria, Ruderman).

SCRep. 3163 (Joint) Economic Development, Tourism, and Technology and Agriculture and Environment on H.B. No. 2041

The purpose and intent of this measure is to appropriate funds to establish an aquaculture incubator at the Natural Energy Laboratory of Hawaii Authority to bring together entrepreneurs and investors to develop Hawaii's aquaculture industry.

Your Committees received testimony in support of this measure from the Department of Business, Economic Development and Tourism; Department of Agriculture; Natural Energy Laboratory of Hawaii Authority; Hawaii Technology Development Corporation; Hawaii Strategic Development Corporation; Ulupono Initiative; Blue Ocean Mariculture; Marine Genetics; Cyanotech; Hawai'i Farm Bureau; O'ahu County Committee on Legislative Priorities from the Democratic Party of Hawai'i; Hawaii Aquaculture and Aquaponics Association; and five individuals. Your Committees received comments on this measure from Kua'āina Ulu 'Auamo.

Your Committees find that aquaculture can help to diversify Hawaii's economy and that it is a fast-developing industry that has potential to attract investment capital, talented researchers, and aspiring entrepreneurs to Hawaii. Your Committees further find that aquaculture produces roughly fifty percent of the world's seafood supply and the value of the industry is expected to grow by thirty-eight percent by 2020, which equals \$200,000,000,000. Your Committees recognize that Hawaii's natural resources create an opportunity to establish Hawaii as a leader in aquaculture and thereby bring in businesses from around the world to learn from Hawaii. Your Committees believe that the Natural Energy Laboratory of Hawaii Authority is a prime location to establish an aquaculture incubator given Hawaii's year-around growing climate, the biosecurity of its remote location, easy access to pristine seawater at various temperatures, and expertise of the Natural Energy Laboratory of Hawaii Authority staff.

Your Committees have amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Economic Development, Tourism, and Technology and Agriculture and Environment that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 2041, H.D. 2, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 2041, H.D. 2, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Economic Development, Tourism, and Technology: Ayes, 4. Noes, none. Excused, 1 (Galuteria).

Agriculture and Environment: Ayes, 4. Noes, none. Excused, 1 (Nishihara).

SCRep. 3164 (Joint) Economic Development, Tourism, and Technology and Water and Land and Agriculture and Environment on H.B. No. 1986

The purpose and intent of this measure is to establish a carbon credit revenue program to administer revenue realized from the sale of carbon credits and invest the proceeds from carbon credits in projects to improve the State's water infrastructure to mitigate threats to water sustainability due to climate change, which is consistent with the Hawaii 2050 sustainability plan.

Your Committees received testimony in support of this measure from the Ulupono Initiative, O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, and three individuals. Your Committees received testimony in opposition to this measure from the Department of Business, Economic Development, and Tourism; Department of Land and Natural Resources; and one individual. Your Committees received comments on this measure from the Office of Planning, The Nature Conservancy, and Hawai'i Farm Bureau.

Your Committees find that carbon emissions can have a serious effect on climate change, especially given its geographic location and economic dependence on natural beauty. Your Committees further find that a carbon credit revenue program has the potential to bring revenue into the State through the sale of carbon credits to carbon emitters. In testimony to your Committees, the Department of Land and Natural Resources estimated that the revenues generated by the sale of carbon offset credits would potentially cover fifteen percent of reforestation costs, supplying the State with more trees and offsetting carbon emissions.

Your Committees note that in its current form, this measure allows the Department of Business, Economic Development, and Tourism to administer "all and any revenues realized from the sale of any carbon credits or offsets", which fails to create any incentive to potential public and private partners of the Department to develop carbon sequestration projects in Hawaii. Your Committees believe that if the revenues from carbon credit sales are not allowed to be applied to the projects that generated the credit, project proponents will not engage in the costly and time intensive process of a carbon offset program.

Accordingly, your Committees have amended this measure, as suggested by the Department of Land and Natural Resources, by:

- (1) Changing the title of the program from "carbon credit revenue program" to "carbon offset program";
- (2) Requiring the Department of Business, Economic Development, and Tourism to work in collaboration with the Department of Land and Natural Resources in establishing the carbon offset program;
- (3) Deleting language that authorized the Department of Business, Economic Development, and Tourism to administer any and all revenues realized from the sale of any carbon credits or offsets in any established international or national carbon registries through project developers or by state agencies;
- (4) Making various amendments to the carbon offset program, including:
 - (A) Adding, as a function of the program, providing expertise in carbon offsetting to public agencies and private entities and assisting in coordinating carbon offset projects of public agencies;
 - (B) Allowing proceeds and revenues generated by sales of forest carbon offset credits to be used for forest stewardship; and
 - (C) Authorizing proceeds and revenues generated by sales of carbon credits other than forest carbon offset credits to be invested in projects enhancing the State's efforts to mitigate climate change and for watershed restoration or protection;
- (5) Amending the definition of "carbon credit" to mean a tradeable certificate or permit issued by a carbon registry;
- (6) Deleting the definition of "carbon credit revenue";
- (7) Amending the definition of "carbon offset" compensatory measures made by businesses and compensatory measures that increase carbon dioxide sequestration;
- (8) Amending the definition of "carbon registry" to include regional carbon registry programs;
- (9) Inserting a definition for "forest carbon offset" to mean a compensatory measure made by eligible entities that increase carbon dioxide sequestration;
- (10) Inserting a definition for "public agency" to mean a unit of state, city, or county government;
- (11) Inserting an appropriation of an unspecified amount to implement the program; and
- (12) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Economic Development, Tourism, and Technology, Water and Land, and Agriculture and Environment that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 1986, H.D. 2, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 1986, H.D. 2, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Economic Development, Tourism, and Technology: Ayes, 4. Noes, none. Excused, 1 (Galuteria).

Water and Land: Ayes, 4. Noes, none. Excused, 1 (Inouye).

Agriculture and Environment: Ayes, 4; Ayes with Reservations (Ruderman). Noes, none. Excused, 1 (Nishihara).

SCRep. 3165 Economic Development, Tourism, and Technology on H.B. No. 2656

The purpose and intent of this measure is to encourage and expand the growth of the local craft beer industry by establishing an income tax credit for small craft beer producers who produce one hundred percent of their products in the State.

Your Committee received testimony in support of this measure from the Maui Brewing Company, Kauai Beer Company, Honolulu Beerworks, REAL a Gastropub, Lanikai Brewing Company, Kauai Island Brewing Company, Beer Lab Hawaii, Big Island Brewhaus, Hawaiian Craft Brewers Guild, Chamber of Commerce Hawaii, Waikiki Brewing Company, Oahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, Koholā Brewery, Kona Brewing Company, and two individuals. Your Committee received testimony in opposition to this measure from the Hawai'i Alcohol Policy Alliance and three individuals. Your Committee received comments on this measure from the Department of the Attorney General; Department of Business, Economic Development, and Tourism; and Department of Taxation.

Your Committee finds that small brewing companies have grown in recent years and stimulate Hawaii's economy by supporting other local businesses and creating more jobs. Your Committee further finds that the number of breweries in Hawaii has increased from eight in 2013 to fifteen by the end of 2017. Despite the growth in breweries, your Committee notes that only five percent of beers sold in Hawaii are produced locally. The location of Hawaii proves to be a large obstacle for breweries. Your Committee received testimony indicating that the cost of production in Hawaii is estimated to be forty percent higher than in the continental United States. Your Committee believes that local producers and manufacturers are key players in Hawaii's economy by keeping their employees, products, and market in Hawaii and that more support should be given to local businesses.

Your Committee has amended this measure by:

- (1) Reducing the amount of the tax credit that may be claimed by each qualified taxpayer from forty percent to twenty percent of the qualified expenses incurred;
- (2) Inserting an aggregate cap of \$300,000 for the total amount of tax credits that may be claimed by all qualified taxpayers in any taxable year;
- (3) Inserting a cap of \$50,000 for the annual tax credit allowed to each qualified producer;
- (4) Amending the definition of "qualified producer" to include all corporations that produce one hundred percent of their products in the State, rather than only domestic corporations;
- (5) Making it applicable to taxable years beginning after December 31, 2018, and ending on December 31, 2023; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Economic Development, Tourism, and Technology that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2656, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2656, H.D. 2, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Thielen).

SCRep. 3166 Judiciary on H.B. No. 2072

The purpose and intent of this measure is to:

- (1) Prohibit certain restraints and tethers that endanger, or deny sustenance to, a dog; and
- (2) Establish penalties for offenses relating to tethering or restraints and involving nine or fewer pet animals in any one instance as a petty misdemeanor.

Your Committee received testimony in support of this measure from the Humane Society of the United States, Hawaiian Humane Society, West Hawaii Humane Society, Hawaii Veterinary Medical Association, Animal Rights Hawai'i, Windward Dog Park Hui, and fourteen individuals.

Your Committee finds that the improper or inappropriate use of tethers and other restraints on dogs reduces the quality of life of those dogs and increases the risk to members of the public who encounter such dogs. This measure will reduce ambiguity in the law and enable law enforcement officers to more effectively intervene in cases of animal abuse relating to tethers and other restraints. Your Committee further finds that, by the time intervention by law enforcement officers becomes necessary, persons alleged to be improperly using tether or other restraints will have received multiple warnings and other notice of alleged violation, and that a reduced penalty for offenses related to tethers and other restraints may not be appropriate.

Accordingly, your Committee has amended this measure by:

- (1) Removing language establishing offenses involving nine or fewer pet animals in any one instance as a petty misdemeanor;
- (2) Inserting language explicitly giving the court wide discretion to assess fines, order performance of community service, require mental health counseling, or order attendance at educational classes concerning animal abuse prevention in addition to or in lieu of other penalties;
- (3) Removing redundant language relating to preventing a dog from obtaining necessary sustenance;
- (4) Inserting an effective date of July 1, 2035, to encourage further discussion; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2072, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2072, H.D. 2, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 3167 (Joint) Higher Education and Labor on H.B. No. 1638

The purpose and intent of this measure is to appropriate funds for health care apprenticeship programs at the University of Hawai'i community colleges.

Your Committees received testimony in support of this measure from the University of Hawai'i System, Department of Health, Hawai'i Pacific Health, O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, and three individuals.

Your Committees find that apprenticeship programs approved by University of Hawai'i community colleges are composed of two major components: work process and related instruction. The work process component consists of on-the-job training, while the related instruction component is the structured class and laboratory or shop curricula. Therefore, apprenticeship programs develop job skills through theoretical and practical experiences.

Your Committees further find that the United States Department of Labor, Employment and Training Administration, awarded the State Department of Labor and Industrial Relations a substantial grant to expand apprenticeship opportunities in information technology and health care. This grant helped to alleviate the shortage of physicians, pharmacy technicians, nursing assistants, paraoptometric technicians, medical laboratory workers, and community health workers. This measure further supports the development, education, and training for individuals looking to enter the health care field.

Your Committees have amended this measure by:

- (1) Inserting an appropriation amount of \$1,167,000 for health care apprenticeship programs at the University of Hawai'i community colleges; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Higher Education and Labor that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 1638, H.D. 2, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 1638, H.D. 2, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Higher Education: Ayes, 4. Noes, none. Excused, 1 (Kidani).

Labor: Ayes, 4. Noes, none. Excused, 1 (English).

SCRep. 3168 (Joint) Higher Education and Transportation and Energy and Labor on H.B. No. 1805

The purpose and intent of this measure is to:

- (1) Require the University of Hawai'i community colleges to:
 - (A) Establish energy systems and technology training courses for county officers and employees responsible for permitting, inspecting, licensing, and approving construction projects;
 - (B) Establish an advisory committee of industry stakeholders who are familiar with the job duties performed by county officers and employees who permit, inspect, license, approve, or otherwise work with energy systems technology; and
 - (C) Submit a report to the Legislature describing the progress made in establishing energy systems and technology training courses for county officers and employees prior to the Regular Session of 2019; and
- (2) Appropriate funds for energy systems and technology training for county officers and employees responsible for permitting, inspecting, licensing, and approving construction projects.

Your Committees received testimony in support of this measure from the University of Hawai'i System; Department of Business, Economic Development, and Tourism; one member of the Hawai'i County Council; Ulupono Initiative; O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i; 350Hawaii.org; and one individual.

Your Committees find that the State's ambitious clean energy goals, along with advances in energy technology, have created incentives for the adoption of new energy systems technologies and equipment, including distributed electrical systems such as solar panels and energy storage. However, the increase in the adoption of these new energy systems technologies and equipment has placed additional burdens on some county officers and employees. County officers and employees responsible for permitting, inspecting, licensing, and approving projects, including officers and employees at county public works departments, planning and permitting departments, and fire departments, must now remain constantly informed about new technology in the energy sector. This measure ensures that these county officers and employees are provided with the proper training as the State's energy issues become more complex and challenging.

Your Committees have amended this measure by inserting an appropriation amount of \$130,000 for energy systems and technology training for county officers and employees responsible for permitting, inspecting, licensing, and approving construction projects.

Your Committees note the importance of including individuals who are familiar with building codes and representatives of the fire departments on the advisory committee of industry stakeholders established by this measure to ensure that the implementation of new and existing energy systems and technology are in compliance with international, national, state, and county standards and ask that your Committee on Ways and Means consider adding such representatives to the advisory committee should it choose to hear this measure.

As affirmed by the records of votes of the members of your Committees on Higher Education, Transportation and Energy, and Labor that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 1805, H.D. 1, as amended

herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 1805, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Higher Education: Ayes, 4. Noes, none. Excused, 1 (Kidani).

Transportation and Energy: Ayes, 3. Noes, none. Excused, 2 (English, Harimoto).

Labor: Ayes, 4. Noes, none. Excused, 1 (English).

SCRep. 3169 (Joint) Economic Development, Tourism, and Technology and Commerce, Consumer Protection, and Health on H.B. No. 2651

The purpose and intent of this measure is to establish a policy framework to upgrade and support next-generation wireless broadband infrastructure by creating a permitting, application, review, and approval process for broadband or wireless service providers to install broadband or wireless facilities on state-owned and county-owned utility poles.

Your Committees received testimony in support of this measure from the Department of Business, Economic Development, and Tourism; Department of Transportation; Office of Enterprise Technology Services; CTIA; Verizon Wireless; Maui Hotel and Lodging Association; O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i; AT&T; Maui Chamber of Commerce; and Hawai'i Lodging and Tourism Association. Your Committees received testimony in opposition to this measure from one member of the Maui County Council, Airport Concessionaries Committee, and one individual. Your Committees received comments on this measure from the Department of Commerce and Consumer Affairs; Office of the Mayor, County of Hawaii; Office of the Mayor, City and County of Honolulu; one member of the Maui County Council; Charter Communications; and Hawaiian Telcom.

Your Committees find that wireless broadband services are constantly being upgraded to match the high demand from consumers. Your Committees believe that in order to meet these demands, the State must better prepare itself by updating its wireless networks and facilities to support the updated services. Your Committees find that the State has one of the lowest rankings in broadband network speeds available to consumers and in wireless broadband service availability. Furthermore, while the State may have one of the slowest networks in the nation, there are currently more wireless devices utilizing wireless broadband services than there are people in Hawaii. Your Committees believe that the demand for wireless broadband services will continue to grow and that in order to answer those demands, the State must begin establishing the necessary laws to support updated wireless broadband services.

Your Committees have worked with stakeholders to address some of the concerns of this measure and believe that the collaborative work will bring Hawaii closer to achieving an upgraded wireless network.

Accordingly, your Committees have amended this measure by deleting its contents and replacing them with the language from S.B. No. 2704, S.D. 2, Regular Session of 2018, a substantially similar measure, and further amending it by:

- (1) Replacing references to "wireless service provider" with "communications service provider";
- (2) Updating the purpose section to include information regarding wireline providers;
- (3) Specifying that certain time limits or time constraints shall be counted by calendar days;
- (4) Deleting language that would have exempted state and county poles, related structures, sites, or facilities that support public safety, law enforcement, or emergency communications from this measure and instead requiring that small wireless facilities shall not interfere with public safety, law enforcement, or emergency communications;
- (5) Inserting language requiring any interference identified by the State, county, or a communications service provider to be resolved according to the requirements and procedures of the Federal Communications Commission following written notification of an interference;
- (6) Inserting definitions for "toll" and "feasible design and collocation standards";
- (7) Inserting language that gives the State or county the authority to condition the approval of an encroachment permit upon compliance with pre-established nondiscriminatory feasible design and collocation standards and allows the State or county to require the communications service provider to pay for the electricity used by a small wireless facility and to place an appropriately sized fuse to control the amount of electricity used;
- (8) Inserting language that requires the State and counties to make available in published guidelines any feasible design and collocation standards established and makes the standards apply ninety calendar days after publication;
- (9) Deleting language that would have allowed communications service providers to place, construct, or install utility poles for collocation;
- (10) Requiring a communications service provider to repair damage done by the service provider to the right of way within thirty calendar days and allows the State or county to make repairs and charge the service provider if the damages are not repaired by the service provider within thirty calendar days;
- (11) Deleting language that would have required the State or county to modify laws or ordinances regulating the development of real property to ensure that new development of real property or redevelopment includes locations in the right of way capable of accommodating a utility pole or other structures for the placement of a small wireless facility;
- (12) Clarifying that collocation permits may not discriminate against any class of applicants;
- (13) Increasing the time period within which the State or county must notify the applicant in writing if the application is complete, from ten days to twenty business days after receiving the application;
- (14) Clarifying that an application shall be processed within sixty calendar days from the receipt of the initial application;

- (15) Inserting additional conditions under which the State or county may deny a proposed collocation permit;
- (16) Requiring the State or county to document any basis for a denial of a collocation permit in writing and allows the applicant to resubmit a revised application within ninety calendar days;
- (17) Changing the process for the State or county to approve or deny a revised application;
- (18) Requiring a communications service provider to include a phone number in the published notice of receipt of a permit for a consolidated application;
- (19) Inserting language that allows application fees to recover the reasonable costs of employing temporary contractors or vendors to expedite collocation permit processing;
- (20) Amending the types of expenses that shall be excluded from the application fee;
- (21) Clarifying that the application fee for collocation of small wireless facilities shall not exceed the reasonable cost of the service and shall not be levied for general revenue purposes;
- (22) Deleting language that capped the application fee for collocation of multiple small wireless facilities at \$100 for the first five wireless facilities on the same application and \$50 for each additional facility;
- (23) Clarifying that a reasonable cost-recovery based rate shall not exceed \$40 per pole annually and clarifying that the State or the county shall be responsible for proving that the rate for collocation does not exceed either the reasonable cost-recovery based rate or the actual, direct, and reasonable costs for use of the pole;
- (24) Deleting language that prevented the State or county from requiring a service provider to obtain insurance naming the State or county or its employees as an additional insured;
- (25) Deleting language that capped the total bond amount for communications service providers with multiple small wireless facilities within the jurisdiction of the State or a county at \$10,000;
- (26) Changing its effective date to July 1, 2050; and
- (27) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Economic Development, Tourism, and Technology and Commerce, Consumer Protection, and Health that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 2651, H.D. 2, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 2651, H.D. 2, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Economic Development, Tourism, and Technology: Ayes, 3. Noes, none. Excused, 2 (Galuteria, Taniguchi).

Commerce, Consumer Protection, and Health: Ayes, 4. Noes, none. Excused, 3 (Espero, Nishihara, Ruderman).

SCRep. 3170 Economic Development, Tourism, and Technology on H.B. No. 2011

The purpose and intent of this measure is to:

- (1) Increase the ceiling on revenues collected by the Special Enforcement Section of the Department of Taxation that may remain in the tax administration special fund from \$700,000 to \$1,000,000; and
- (2) Require that the first \$300,000 of the \$1,000,000 collected be deposited into a separate account to be used for operations of the Special Enforcement Section pertaining exclusively to enforcement of the transient accommodations tax.

Your Committee received comments on this measure from the Department of Taxation.

Your Committee finds that the Special Enforcement Section ensures that tax laws are properly enforced throughout the State. The Special Enforcement Section plays a crucial role in ensuring civil enforcement by, among other things, investigating suspected violations of tax laws. Your Committee further finds that in recent years, the transient accommodations industry has expanded rapidly, especially in tourist destinations such as Hawaii. Although technological advancements have improved the lifestyle for many consumers, they have also unknowingly introduced issues with tax compliance. Your Committee believes that the Special Enforcement Section needs to be better equipped to enforce tax laws throughout the State, especially the transient accommodations tax law.

As affirmed by the record of votes of the members of your Committee on Economic Development, Tourism, and Technology that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2011, H.D. 1, and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 3171 Economic Development, Tourism, and Technology on H.B. No. 2010

The purpose and intent of this measure is to:

- (1) Forgive the debt owed to the State by the Hawaii Tourism Authority for the Hawaii Convention Center construction costs and related interest;
- (2) Establish the convention center repair and maintenance special fund and convention center emergency special fund and establishes the authorized uses and requirements of the special funds;
- (3) Amend the transient accommodations tax revenue allocation by:

- (A) Inserting an unspecified amount of tax revenue to be allocated to the convention center enterprise special fund;
- (B) Changing the minimum fund balance of the tourism emergency special fund to different amounts annually; and
- (C) Allocating a portion of the transient accommodations tax revenues to the convention center repair and maintenance special fund and convention center emergency special fund.

Prior to the hearing on this measure, your Committee posted and made available for public review a proposed S.D. 1, which deletes the contents of the measure and inserts language that:

- (1) Renames the convention center enterprise special fund as the convention center operations and maintenance special fund;
- (2) Inserts a cap of \$6,000,000 on the convention center operations and maintenance special fund;
- (3) Authorizes the use of the convention center operations and maintenance special fund for salaries for convention center personnel;
- (4) Amends the authorized uses of the tourism special fund and caps expenditures from the fund at:
 - (A) \$2,800,000 for administrative expenses and defines "administrative expenses" to mean office equipment, salaries, and supplies;
 - (B) \$49,200,000 for marketing expenses;
 - (C) \$2,500,000 for research expenses; and
 - (D) \$5,800,000 for sports marketing expenses;
- (5) Amends the allocation of transient accommodations tax revenue by:
 - (A) Deleting the allocation of transient accommodations tax revenue to the convention center enterprise special fund;
 - (B) Reducing the allocation of transient accommodations tax revenue to the tourism special fund from \$82,000,000 to \$60,300,000 and amending allocations of that \$60,300,000;
 - (C) Allocating \$16,500,000 to the Department of Business, Economic Development, and Tourism for other economic development initiatives and programs;
 - (D) Allocating \$3,500,000 to the Department of Education for a grant program for initiatives and programs related to hospitality and tourism industry careers;
 - (E) Allocating \$7,891,000 to the University of Hawaii System for academic programs relating to hospitality and tourism industry career pathways;
 - (F) Allocating \$3,000,000 to University of Hawaii athletics for student athletic travel;
 - (G) Allocating \$9,608,554 to the Department of Land and Natural Resources for support efforts to manage, improve, and protect the State's environment and address the impact of tourism on the State's natural resources;
 - (H) Allocating \$8,000,000 to the counties to be used to ensure the safety of visitors to county parks and beaches; and
 - (I) Allocating \$8,000,000 to be expended on grants pursuant to chapter 42F, Hawaii Revised Statutes, for Hawaiian cultural initiatives, community programs, product development, and tourism related grants;
- (6) Makes conforming amendments; and
- (7) Authorizes the Department of Budget and Finance to cancel the reimbursable general obligation bond debt relating to the Convention Center that is owed by the Hawaii Tourism Authority.

Your Committee received testimony in support of the proposed S.D. 1 from the Department of Land and Natural Resources and Hawaii Advocates for Consumer Rights. Your Committee received testimony in opposition to the proposed S.D. 1 from the Hawai'i Tourism Authority, Japan Hawaii Travel Association, 'Ohina Short Film Showcase, Hawaii Forest Industry Association, Hawaii Forest and Trail, and one individual. Your Committee received comments on the proposed S.D. 1 from the Department of Business, Economic Development, and Tourism; University of Hawai'i System, and Tax Foundation of Hawaii.

Your Committee finds that the existing allocation of revenue from the transient accommodations tax should be amended to address the specific needs of agencies that work with, or are impacted by, the tourism industry, which will better ensure that those specific needs are properly addressed in a timely manner. Your Committee finds that rather than requiring one agency to address the impacts of tourism on state infrastructure and natural resources, allocating the funds directly to those with proper expertise will allow for a more efficient and effective remedy to specific issues that have arisen due to the large number of visitors to the State.

Your Committee has amended this measure by adopting the proposed S.D. 1 and further amending it by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Economic Development, Tourism, and Technology that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2010, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2010, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4; Ayes with Reservations (Thielen). Noes, none. Excused, 1 (Galuteria).

SCRep. 3172 Economic Development, Tourism, and Technology on H.B. No. 2008

The purpose and intent of this measure is to:

- (1) Require each travel agency or tour packager entering into an arrangement to furnish transient accommodations at noncommissioned negotiated contract rates to register with the Director of Taxation;
- (2) Require the travel agency or tour packager to make a one-time payment of \$15 for each registration; and
- (3) Impose the transient accommodations tax on travel agencies and tour packagers on the travel agencies' or tour packagers' share of the proceeds arising from furnishing transient accommodations through arrangements at noncommissionable negotiated contract rates.

Your Committee received testimony in support of this measure from the Department of Taxation and one individual. Your Committee received testimony in opposition to this measure from the Travel Technology Association; Independent Lodging Industry Association; NetChoice; and Expedia, Inc.

Your Committee finds that under existing law, the application of the transient accommodations tax varies depending on whether a transaction was made at a commissioned or noncommissioned rate. According to testimony submitted by the Department of Taxation, when transient accommodations are furnished through arrangements made by a travel agency or tour packager at noncommissioned negotiated contract rates, the transient accommodations tax is only imposed on the operator on its share of proceeds, and there is no tax imposed on the travel agency's or tour packager's share of proceeds.

Your Committee believes that the transient accommodations tax should be imposed fairly on all parties involved in the transaction, regardless of whether the transient accommodations are furnished through arrangements at commissionable or noncommissionable rates.

Your Committee has amended this measure by:

- (1) As suggested by the Department of Taxation:
 - (A) Clarifying that the registration fee is a one-time fee that applies to each travel agency or tour packager, and that it is not a fee that is assessed per transient accommodation; and
 - (B) Clarifying that the imposition of the transient accommodations tax applies to all operators, regardless of whether there is a direct sale, commissioned sale, or noncommissioned sale, and all travel agencies and tour packagers who arrange transient accommodations at noncommissionable negotiated contract rates;
- (2) Inserting an effective date of January 1, 2050, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Economic Development, Tourism, and Technology that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2008, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2008, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 3173 (Joint) Labor and Commerce, Consumer Protection, and Health on H.B. No. 2375

The purpose and intent of this measure is to make housekeeping amendments to update statutory provisions relating to temporary disability insurance. Specifically, this measure:

- (1) Permits advanced practice registered nurses to certify an employee's disability;
- (2) Increases the penalty for employers who fail to submit timely wage and employment information;
- (3) Permits filing of an appeal of a decision on temporary disability insurance at the various statewide offices of the Department of Labor and Industrial Relations (Department);
- (4) Allows the Department to send notices of hearings electronically or via first-class mail;
- (5) Permits notice of a hearing to be posted on the Department's webpage when notice cannot be delivered; and
- (6) Allows parties to a hearing to appear in person, by telephone, or by other communication device.

Your Committees received testimony in support of this measure from the Department of Labor and Industrial Relations, Hawai'i State Center for Nursing, and five individuals.

Your Committees find that this housekeeping measure will update current processes and improve the efficiency of the temporary disability insurance program. Notably, this measure will allow advanced practice registered nurses to certify employee disabilities thereby giving employees additional provider choices, especially employees residing in rural areas; increase the penalty for employers who fail to submit timely wage and employment information from \$10 to \$250 per request to encourage employers to provide prompt information, thus allowing employees to receive prompt benefit payments; allow the Department to hold hearings in locations other than the county office where the employee was employed or resided at the time of the disability, enabling hearings to be held for employees who may be permanently or temporarily living in another county for medical treatment or other reasons; and allow the Department to hold hearings not only in person but also via telephone or by other communication devices to accommodate parties that are not located on the same island and reduce travel time and costs for the parties.

Your Committees have amended this measure by:

- (1) Changing the effective date to upon its approval; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Labor and Commerce, Consumer Protection, and Health that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 2375, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 2375, H.D. 1, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chairs on behalf of the Committees.

Labor: Ayes, 4. Noes, none. Excused, 1 (Taniguchi).

Commerce, Consumer Protection, and Health: Ayes, 6. Noes, none. Excused, 1 (Ihara).

SCRep. 3174 Housing on H.B. No. 2746

The purpose and intent of this measure is to:

- (1) Clarify the duties of the Special Action Team on Affordable Rental Housing and add additional members to the Special Action Team for the purpose of addressing issues related to extremely low-income household needs; and
- (2) Appropriate funds for the administration and operation of the Special Action Team on Affordable Rental Housing.

Your Committee received testimony in support of this measure from the Hawaii Housing Finance and Development Corporation, Office of Planning, Catholic Charities Hawaii, and O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i.

Your Committee finds that Act 127, Session Laws of Hawaii 2016, established a temporary Special Action Team on Affordable Rental Housing to make short- and long-term policy recommendations to increase the supply of rental housing. One of the income groups the special action team focuses on is the extremely low-income population, which consists of families with incomes at or below thirty percent of the area median income. Of the nearly 57,500 affordable housing units needed across all income levels, fifteen thousand five hundred units are needed by extremely low-income households. Extremely low-income households, therefore, account for almost twenty-seven percent of the total need for affordable housing. This measure further defines the focus for the Special Action Team in order to develop long- and short-term strategies for developing housing for extremely low-income households.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2746, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2746, H.D. 2, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Harimoto, Kahele).

SCRep. 3175 (Joint) Housing and Human Services on H.B. No. 2747

The purpose and intent of this measure is to bifurcate and amend the law relating to individual housing accounts under section 235-5.5, Hawaii Revised Statutes, by:

- (1) Changing the annual contribution and deduction amounts, aggregate contribution amount, and deadline for distributing the entire interest for individual housing accounts established after December 31, 2018;
- (2) Allowing community development financial institutions to serve as trustees of individual housing accounts established after December 31, 2018; and
- (3) Requiring homebuyer education conducted by a housing counseling agency approved by the United States Department of Housing and Urban Development as a condition of distribution of funds in individual housing accounts by trustees.

Your Committees received testimony in support of this measure from the Hawai'i Association of REALTORS and O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i. Your Committees received comments on this measure from the Department of Taxation and Hawaii Credit Union League.

Your Committees find that individual housing accounts are savings vehicles that assist individuals in purchasing their first principal residence. Contributions to individual housing accounts are deductible, and distributions are taxed to the recipient. Contributions are limited by the annual limitation and by the aggregate limitation. This measure is intended to increase the contribution limits for individual housing accounts to reflect the current higher cost of housing, in order to enable more individuals to become homeowners.

Your Committees have amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Housing and Human Services that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 2747, H.D. 2, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 2747, H.D. 2, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Housing: Ayes, 3. Noes, none. Excused, 2 (Harimoto, Kahele).

Human Services: Ayes, 3. Noes, none. Excused, 2 (Harimoto, Tokuda).

SCRep. 3176 Housing on H.B. No. 2009

The purpose and intent of this measure is to clarify the property types that may be furnished as transient accommodations and subject to the transient accommodations tax.

Your Committee received testimony in opposition to this measure from one individual. Your Committee received comments on this measure from the Department of Taxation, Office of Hawaiian Affairs, and Tax Foundation of Hawaii.

Your Committee finds that this measure provides further clarity on the property types that may be used as transient accommodations. However, your Committee notes the concerns raised in written testimony by the Tax Foundation of Hawaii that repealing the word “regularly” from the definitions of “lease”, “let”, or “rental” and “transient accommodations” may be problematic because the transient accommodations tax is designed to be a business privilege tax, and removal of the word “regularly” may cause an isolated instance of letting out a spare room or vacation home to trigger tax liability even though the taxpayer is not running a business.

Accordingly, your Committee has amended this measure by:

- (1) Reinstating the word “regularly”, as appropriate, under the definitions of “lease”, “let”, or “rental” and “transient accommodations”;
- (2) Clarifying that an accessory dwelling is a dwelling within an accessory dwelling unit; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2009, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2009, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Harimoto, Kahele).

SCRep. 3177 (Joint) Housing and Human Services on H.B. No. 2281

The purpose and intent of this measure is to:

- (1) Establish within the Department of Human Services an ohana zones program to provide housing to homeless individuals and families based on principles similar to the housing first program, and appropriate funds for establishment of the program;
- (2) Appropriate funds to the Hawaii Public Housing Authority for:
 - (A) Providing public housing improvements and renovations statewide; and
 - (B) Administering a state rent supplement pilot program to assist one hundred homeless families with minor children or families with minor children at imminent risk of homelessness due to domestic violence in obtaining and maintaining permanent housing by providing time-limited rental assistance and financial case management services;
- (3) Appropriate funds to the Department of Human Services for:
 - (A) Administering the housing first programs for chronically homeless individuals in the State;
 - (B) Administering the rapid rehousing program to assist homeless individuals or families in obtaining or maintaining permanent housing or to cover housing stabilization services and administrative costs;
 - (C) Providing outreach services to homeless persons, including funds for civil legal services; and
 - (D) Administering Oahu’s family assessment center for homeless families; and
- (4) Appropriate funds to the Department of Health for administering outreach, counseling, and diversion services for unsheltered homeless persons experiencing substance abuse, including funds to continue the law enforcement assisted diversion pilot program.

Your Committees received testimony in support of this measure from the Governor’s Coordinator on Homelessness, Department of Land and Natural Resources, Mayor’s Office of the County of Hawai’i, Aloha United Way, The Queen’s Health Systems, Community Alliance on Prisons, Pele Lani Farm LLC, IMUAlliance, Hawaii Kai Homeless Task Force, O’ahu County Committee on Legislative Priorities of the Democratic Party of Hawai’i, and one individual. Your Committees received comments on this measure from the Department of Health, Department of Human Services, Hawaii Public Housing Authority, and Catholic Charities Hawai’i.

Your Committees find that homelessness is one of the most pressing problems in Hawaii, and a robust, comprehensive solution is needed to increase the pace at which the State is gaining ground on addressing homelessness. For the first time in years, the homelessness rate in Hawaii went down in 2017. Hawaii is turning the tide on the homelessness crisis by investing in proven programs like housing first and rapid rehousing. The network of people and resources engaged in addressing homelessness has begun to make more efficient use of available resources by implementing a data-driven, collaborative process that matches those experiencing homelessness with the services they need to make more efficient use of available resources. However, Hawaii continues to have the highest per capita rate of homelessness of any state in the United States, with an estimated 7,220 people living on the streets and in shelters.

Accordingly, your Committees further find that the State must increase the investment in and commitment to the solution. This measure continues to address the State’s homeless crisis by providing a multi-faceted approach using proven interventions that are targeted to the particular characteristics of the population being served and that address the root causes of homelessness.

Your Committees have amended this measure by:

- (1) Adding language that requires dwelling spaces secured under the ohana zones program to cost no more than \$15,000 and requires no less than fifty percent of the materials and supplies for the dwelling spaces to be purchased in-state if the dwelling spaces are newly constructed or substantially rehabilitated;
- (2) Adopting language suggested by Catholic Charities Hawai'i that changes the name of the three-year pilot project to be administered by the Hawaii Public Housing Authority from the state rent supplement pilot program to the housing homeless children pilot program;
- (3) Adopting language suggested by The Queen's Health Systems that:
 - (A) Establishes and appropriates funds for an emergency department homelessness assessment pilot program under the Department of Health to:
 - (i) Place social workers or social worker designees, who are employed by a participating hospital, in the participating hospital's emergency department to identify patients experiencing homelessness or patients at risk of experiencing homelessness;
 - (ii) Assess the patient's current circumstances; and
 - (iii) Refer those patients to appropriate and available social services with the goal of reducing costs associated with chronic use of hospital emergency departments; and
 - (B) Establishes and appropriates funds for a medical respite pilot program under the Department of Health to provide emergency housing for eligible individuals experiencing homelessness discharged from the participating hospital, including but not limited to meals, case management, medical, nursing, and psychiatric care; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Housing and Human Services that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 2281, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 2281, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair and President on behalf of the Committees.
 Housing: Ayes, 3. Noes, none. Excused, 2 (Harimoto, Kahele).
 Human Services: Ayes, 3. Noes, none. Excused, 2 (Harimoto, Tokuda).

SCRep. 3178 Education on H.B. No. 2164

The purpose and intent of this measure is to appropriate funds to the Department of Education for school-level funding.

Your Committee received testimony in support of this measure from the Department of Education, State Public Charter School Commission, Hawaii State Teachers Association, IMUAlliance, O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, Maui Hotel and Lodging Association, and Hawai'i Lodging and Tourism Association.

Your Committee finds that Hawaii's public schools are severely underfunded. At \$12,855 per child, Hawaii trails mainland school districts of similar size when adjusting for cost of living. This lack of adequate funding has resulted in an inability to repair and renovate deteriorating facilities, higher class sizes, a lack of adequate classroom supplies, elimination of arts and career and technical education courses, budget cuts for special education and English language learner programs, and an increasing number of vacant teacher positions statewide. This measure will provide much needed funding for the State's public schools and bring Hawaii's education funding policy closer to other school districts of similar size.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2164, H.D. 1, and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
 Ayes, 4. Noes, none. Excused, 1 (Dela Cruz).

SCRep. 3179 Transportation and Energy on H.B. No. 2274

The purpose and intent of this measure is to increase the availability of charging facilities for electric vehicle in the State by:

- (1) Increasing the number of parking stalls that must have electric vehicle supply equipment at large parking facilities and allowing the Director of Transportation to fine properties not in compliance with the requirements; and
- (2) Establishing a working group to examine issues regarding the installation of electric vehicle supply equipment in multiple unit dwellings and planned communities, including ways to increase parking spaces with electric vehicle supply equipment without relying on funding from ratepayers or other tax revenues.

Your Committee received testimony in support of this measure from the Department of Transportation; Hawaiian Electric Company, Inc.; Pulama Lāna'i; Ulupono Initiative; Tesla; Organizing for Action; Blue Planet Foundation; 350Hawaii.org; 350.org; O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i; FreeWire Technologies; and fifteen individuals. Your Committee received testimony in opposition to this measure from the Chamber of Commerce Hawai'i, Retail Merchants of Hawai'i, Building Industry Association of Hawai'i, Hawai'i Credit Union League, and Building Owners and Managers Association of Hawai'i. Your Committee received comments on this measure from the Department of Business, Economic Development, and Tourism; Stadium Authority; and City and County of Honolulu Department of Transportation Services.

Your Committee finds that the State is promoting the use of electric motor vehicles in an effort to achieve its goals of clean energy by 2045. However, increasing the number of electric vehicles in the State will necessitate more facilities for drivers to charge their electric vehicles. Thus, this measure requires parking facilities to gradually increase the number of electric vehicle supply equipment provided at parking facilities by creating a ratio of electric vehicle supply equipment per hundred parking stalls that a parking facility must provide, and establishes a fine for noncompliance.

Your Committee heard concerns from numerous testifiers about the affordability of increasing the number of electric vehicle supply equipment in parking facilities as required by this measure. In particular, the Stadium Authority noted that the limited use of the Aloha Stadium parking lot might not justify meeting this measure's requirements.

Additionally, your Committee received testimony from the Department of Business, Economic Development, and Tourism noting that a working group with similar membership and responsibilities was previously established by Act 164, Session Laws of Hawaii 2015, and the working group established in this measure would likely replicate the findings from the 2015 working group. However, your Committee finds that testimony provided on this measure has raised additional concerns related to electric vehicle supply equipment at parking facilities, as well as electric vehicle charging capacity in the State.

Accordingly, your Committee has amended this measure by:

- (1) Amending the requirements relating to the number of parking spaces required to have electric vehicle supply equipment at large parking facilities to be applicable only to facilities built after 2016;
- (2) Focusing the scope of the working group's study to:
 - (A) Collaborate with the City and County of Honolulu to explore mobile charging infrastructure technology; and
 - (B) Examine the feasibility of increasing the number of electric vehicle charging stations at Aloha Stadium; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Transportation and Energy that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2274, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2274, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (English, Harimoto).

SCRep. 3180 (Joint) Economic Development, Tourism, and Technology and Labor on H.B. No. 1962

The purpose and intent of this measure is to:

- (1) Require the Department of Business, Economic Development, and Tourism to conduct an economic development study on opportunities for automated manufacturing in the State and submit a report to the Legislature; and
- (2) Appropriate funds to conduct the economic development study.

Your Committees received testimony in support of this measure from the Department of Business, Economic Development, and Tourism; and O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i.

Your Committees find that Hawaii imports over ninety percent of the products that the State consumes. Your Committees find more merit and benefit in supporting local manufacturers to supply the products that residents of Hawaii demand. Your Committees recognize that due to the remoteness of Hawaii's location, Hawaii consumers and businesses face an additional challenge of high shipping costs and other financial challenges. Your Committees believe that supporting local manufacturers has the potential to enhance the economy of the State, while providing residents with products at reasonable prices. Your Committees further believe that automating manufacturing can assist a number of Hawaii businesses by speeding up production.

Your Committees note that the Department of Business, Economic Development, and Tourism requested \$150,000 in order to conduct the economic development study on automated manufacturing opportunities in Hawaii.

Accordingly, your Committees have amended this measure by:

- (1) Inserting an appropriation amount of \$150,000 to conduct the study; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Economic Development, Tourism, and Technology and Labor that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 1962, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 1962, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
Economic Development, Tourism, and Technology: Ayes, 3. Noes, none. Excused, 2 (Galuteria, Taniguchi).
Labor: Ayes, 3. Noes, none. Excused, 2 (English, Taniguchi).

SCRep. 3181 (Joint) Economic Development, Tourism, and Technology and Human Services on H.B. No. 2012

The purpose and intent of this measure is to allocate transient accommodations tax revenue to implement initiatives, in conjunction with the Hawaii Lodging and Tourism Association, to address homelessness in tourist and resort areas and require matching funds from the private sector.

Your Committees received testimony in support of this measure from the Governor's Coordinator on Homelessness, IMU Alliance, O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, Kohala Coast Resort Association, Hawai'i Lodging and Tourism Association, Maui Hotel and Lodging Association, and one individual. Your Committees received testimony in opposition to this measure from one individual. Your Committees received comments on this measure from the Hawaii Tourism Authority and Tax Foundation of Hawaii.

Your Committees find that homelessness remains one of the most pressing issues of the State. While your Committees acknowledge that the number of homeless persons decreased nine percent from 2016 to 2017, your Committees believe there is still much that needs to be done to create a better living environment for everyone. The tourism industry is one of the economic drivers of the State and has the necessary resources to support the effort to reduce homelessness across the State. Your Committees believe that tourist and resort areas, such as Waikiki, see some of the largest homeless populations. Your Committees find that a portion of the homeless community in Waikiki, and throughout the State, is represented by those under the age of eighteen. Your Committees note that most shelters are not allowed to take in minors without prior consent of their parent or guardian. This prohibition may deprive minors who have abusive households of a safe environment and may be one cause of the number of minors who congregate in areas like Waikiki. Your Committees find that there is a need to examine the gaps in services available to homeless youth and provide them with the same access and quality of care that is provided to the adult homeless community.

Your Committees believe that addressing tourist and resort areas that are affected by homelessness will not only assist the homeless community by providing them with improved living situations, but will simultaneously improve areas that are frequently visited by tourists, thereby improving the overall quality of state infrastructure and natural resources and perception by visitors.

Your Committees have amended this measure by:

- (1) As suggested by the Governor's Coordinator on Homelessness:
 - (A) Allowing each county to designate a tourist and resort area in the respective county;
 - (B) Requiring that the funds allocated to the Hawaii Tourism Authority to implement initiatives be used for the purpose of providing social services; and
 - (C) Requiring that the data collected from the initiatives to address homelessness in tourist and resorts areas and included within the Hawaii Tourism Authority's report to the Legislature be entered into the Homeless Management Information System to evaluate the effectiveness of the initiatives in addressing homelessness; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Economic Development, Tourism, and Technology and Human Services that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 2012, H.D. 2, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 2012, H.D. 2, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair and President on behalf of the Committees.

Economic Development, Tourism, and Technology: Ayes, 4. Noes, none. Excused, 1 (Galuteria).

Human Services: Ayes, 3. Noes, none. Excused, 2 (Harimoto, Tokuda).

SCRep. 3182 (Joint) Economic Development, Tourism, and Technology and Public Safety, Intergovernmental, and Military Affairs on H.B. No. 2605

The purpose and intent of this measure is to:

- (1) Provide that a county shall be eligible to receive an unspecified amount from the State to enforce all applicable laws and ordinances relating to transient accommodations; provided that no funds shall be released to a county unless it has complied with certain conditions;
- (2) Make an appropriation out of the transient accommodations tax revenue to the counties to enforce all applicable laws and ordinances relating to transient accommodations and short-term vacation rentals; provided that no county shall receive more than an unspecified amount; and
- (3) Require a report from the counties receiving funds for enforcement of laws and ordinances relating to transient accommodations and short-term vacation rentals.

Prior to the hearing on this measure, your Committees posted and made available for public review a proposed S.D. 1, which deletes the contents of the measure and inserts language that:

- (1) Establishes a one-time amnesty program for certain delinquent transient accommodations and general excise tax obligations;
- (2) Allows transient accommodations brokers to register as tax collection agents on behalf of their operators and plan managers;
- (3) Requires operators and plan managers to provide a statement to the transient accommodations broker confirming compliance with all applicable land use and tax laws;
- (4) Requires an operator or plan manager to provide verification of compliance with state and county land use laws;
- (5) Requires an operator or plan manager to remove a transient accommodation advertisement upon notice that the property is not in compliance;
- (6) Makes it unlawful for transient accommodations brokers to engage in business with operators or plan managers that are not in compliance with all state laws and county ordinances;

- (7) Provides that a violation of a county zoning ordinance adopted under section 46-4, Hawaii Revised Statutes, may additionally prescribe a penalty of a class C felony;
- (8) Authorizes counties to disgorge profits obtained through unfair or unlawful business practices;
- (9) Authorizes counties to adopt ordinances to amortize or phase out transient vacation rental units;
- (10) Imposes a civil fine ranging from \$25,000 to \$100,000 on operators or plan managers who fail to remove an advertisement for a transient accommodation after receiving notice that the subject property is not in compliance with state law or county ordinance;
- (11) Requires the counties to adopt ordinances prohibiting transient accommodations brokers from engaging in business with operators or plan managers who are not in compliance with all state laws and county ordinances;
- (12) Requires the Director of Taxation to make available, by January 1, 2019, a form for transient accommodations brokers to apply for registration as a tax collection agent;
- (13) Allocates an unspecified percentage of general excise tax and transient accommodations tax revenues to the counties, depending on the establishment of a process to provide verification of compliance by an operator or plan manager with county land use ordinances;
- (14) Makes it unlawful for a hosting platform to provide, or collect a fee for, booking services regarding transient vacation rentals that are not lawfully certified, registered, or permitted under applicable county ordinance; and
- (15) Makes the measure effective upon approval.

Your Committees received testimony in support of the proposed S.D. 1 from the Office of the Governor; Department of Taxation; Office of Hawaiian Affairs; Department of Planning and Permitting, City and County of Honolulu; Planning Department, County of Kauai; Hawai'i Lodging and Tourism Association; American Hotel and Lodging Association; UNITED HERE Local 5; Hilton Hawaii; Kohala Coast Resort Association; Westin Princeville Ocean Resort Villas; Hawaii Advocates for Consumer Rights; ILWU Local 142; Napili Kai Beach Resort; one member of the Hawaii County Council; one member of the Maui County Council; and nine individuals. Your Committees received testimony in opposition to the proposed S.D. 1 from Airbnb; Kobayashi Sugita and Goda; Expedia, Inc.; Coalition for Equal Taxation; Hawaii Life Real Estate Brokers; Rental by Owner Awareness Association; NetChoice; Oahu Alternative Lodging Association; and forty-one individuals. Your Committees received comments on the proposed S.D. 1 from the Department of the Attorney General; Hawaii Tourism Authority; Office of the Mayor, County of Hawai'i; Tax Foundation of Hawaii; Hawai'i Association of REALTORS; Keep it Kailua; and Kuilima Estates East.

Your Committees note that the proposed S.D. 1 is substantially similar to S.B. No. 2963, S.D. 1, which was previously passed by the Senate and differs from the proposed S.D. 1 by, among other things:

- (1) Making various amendments to the tax amnesty program;
- (2) Requiring transient accommodation brokers who want to register as tax collection agents to agree in writing that continuing to collect fees for booking services for seven days after receiving notice that the property is not in compliance with state or county law is a violation of the tax collection agreement;
- (3) Reducing the offense for transient accommodations brokers who engage in business with operators or plan managers that are not in compliance with state laws and county ordinances from a class C felony to a misdemeanor, punishable by a minimum fine of \$25,000;
- (4) Allowing the counties to penalize a violation of a county transient accommodations ordinance with a minimum civil penalty of \$25,000, rather than a class C felony for a violation of a county zoning ordinance;
- (5) Amending the penalty for operators or plan managers who fail to remove an advertisement of a noncompliant transient accommodation to a minimum \$25,000 fine;
- (6) Deleting the date by which the Director of Taxation must make a form available to apply for registration as a tax collection agent;
- (7) Changing the allocation to the counties from an unspecified percentage of general excise tax and transient accommodations tax revenues to a maximum of \$1,000,000 in transient accommodations tax revenues per county for implementation or enforcement of county land use ordinances; and
- (8) Clarifying that the penalty for hosting platforms that provide, or collect a fee for, booking services from transient vacation rentals that are not lawfully certified, registered, or permitted under applicable county ordinance is a misdemeanor, punishable by a minimum fine of \$25,000.

Your Committees find that S.B. No. 2963, S.D. 1, better reflects the intent of your Committees to establish a means to collect revenue due to the State and better ensure that operators or plan managers of transient accommodations are complying with state laws and county ordinances. Your Committees find that given the prominence of transient accommodations in Hawaii, more effort needs to be put toward strengthening county enforcement of laws and ordinances relating to transient accommodations.

Your Committees recognize that the Department of Taxation already has a voluntary disclosure program that allows taxpayers to voluntarily disclose tax liabilities. Therefore, your Committees find that establishing another tax amnesty program may be redundant and is unnecessary.

Your Committees further find that the Department of the Attorney General proposed amendments to change the placement in the Hawaii Revised Statutes of the language making it unlawful for transient accommodations brokers to engage in business with operators or plan managers who are noncompliant with state laws or county ordinances and language making it unlawful for hosting platforms to

provide, and collect a fee for, booking services in connection with transient vacation rentals that are not lawfully certified, registered, or permitted. According to the Department of the Attorney General, the proposed amendments would make those provisions be enforced by the county, rather than other agencies; more closely resemble industry regulation, rather than consumer protection regulation; and avoid the unintentional application of the unfair or deceptive acts or practices law.

Accordingly, your Committees have amended this measure by deleting its content and replacing it with language from S.B. No. 2963, S.D. 1, and further amending it by:

- (1) Deleting part I, which would have established a one-time tax amnesty program;
- (2) As suggested by the Department of the Attorney General, changing the placement of the prohibitions on transient accommodations brokers and hosting platforms from transacting with noncompliant operators, plan managers, or transient vacation rentals and making further clarifying amendments;
- (3) Giving the counties more discretion in establishing ordinances and penalties by replacing the word “shall” with “may” in certain sections; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Economic Development, Tourism, and Technology and Public Safety, Intergovernmental, and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 2605, H.D. 2, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 2605, H.D. 2, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Economic Development, Tourism, and Technology: Ayes, 4. Noes, none. Excused, 1 (Galuteria).

Public Safety, Intergovernmental, and Military Affairs: Ayes, 5. Noes, none. Excused, none.

SCRep. 3183 Labor on H.B. No. 1489

The purpose and intent of this measure is to prohibit a state agency or program or activity receiving state financial assistance from excluding from participation, denying benefits to, or discriminating against a qualified individual because of sex, including gender identity or expression, or by reason of the qualified individual’s disability or sexual orientation.

Your Committee received testimony in support of this measure from the Commission on the Status of Women, LGBT Caucus of the Democratic Party of Hawaii, Planned Parenthood Votes Northwest and Hawaii, Hawaii LGBT Legal Association, Filipina Advocacy Network, Community Alliance on Prisons, Hawai’i State Democratic Women’s Caucus, Hawaii Women’s Coalition, IMUAlliance, American Association of University Women Hawaii, Hawai’i Women Lawyers, The Sex Abuse Treatment Center, O’ahu County Committee on Legislative Priorities of the Democratic Party of Hawai’i, American Civil Liberties Union of Hawai’i, and one individual. Your Committee received comments on this measure from the Hawai’i Civil Rights Commission and one individual.

Your Committee finds that a state corollary to the Patsy Takemoto Mink Equal Opportunity in Education Act (Title IX) is critically needed in light of the current federal administration’s effort to dismantle federal anti-discrimination laws. The University of Hawai’i’s recent Climate Survey Report further highlights this need as it revealed the persistence of sex discrimination, including sexual harassment and violence, on college campuses. Additionally troubling is the fact that the Department of Education is only beginning to move toward meaningful compliance with Title IX. Your Committee believes that no individual should be discriminated against on the basis of sex, gender identity or expression, or sexual orientation in any educational program or activity.

Your Committee further finds that H.B. No. 2139, H.D.1, Regular Session of 2018, amends chapter 368, Hawaii Revised Statutes, by adding a new section prohibiting discrimination on the basis of sex, including gender identity or gender expression, and sexual orientation in state educational programs and activities, or in any educational program or activity that receives state financial assistance is a better vehicle for a true and effective state corollary to Title IX.

Accordingly, your Committee has amended this measure by:

- (1) Deleting its contents and replacing it with the contents of H.B. 2139, H.D. 1 (Regular Session of 2018), which:
 - (A) Prohibits discrimination on the basis of sex, including gender identity or expression, or sexual orientation, in any state educational program or activity, or in any educational program or activity that receives state financial assistance; and
 - (B) Provides that any student of a state educational program or activity, or an educational program or activity that receives state financial assistance, may bring a civil action for sexual harassment or sexual assault and infliction of emotional distress or invasion of privacy;
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency; and
- (3) Inserting an effective date of July 1, 2019.

Your Committee requests that your Committee on Judiciary and your Committee on Ways and Means consider creating a mechanism by which the Legislature can follow up on compliance with and enforcement of this measure, should this measure continue in the legislative process.

As affirmed by the record of votes of the members of your Committee on Labor that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1489, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1489, H.D. 1, S.D. 1, and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5; Ayes with Reservations (Taniguchi). Noes, none. Excused, none.

SCRep. 3184 Water and Land on H.B. No. 2044

The purpose and intent of this measure is to:

- (1) Appropriate funds to the Department of Land and Natural Resources to employ four full-time equivalent (4.0 FTE) permanent lifeguards at Kua Bay in the Kekaha Kai State Park on the island of Hawaii; and
- (2) Appropriate funds to the Department of Land and Natural Resources to purchase certain equipment to be used by state lifeguards in the course of their work at Kua Bay.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources; Office of the Mayor, County of Hawai'i; two members of the Hawai'i County Council; O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i; Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO; Kohala Coast Resort Association; Daniel Robert Sayre Memorial Foundation; and four individuals.

Your Committee finds that the location of Manini'ōwali Beach at Kua Bay in the Kekaha Kai State Park between Kona and the resorts of Kohala Coast and the improvements made to the state park have led to an increase in visits by locals and tourists, thereby making Manini'ōwali Beach at Kua Bay one of the most popular beaches in the State. The increase in visitation has been accompanied by an increase in dangerous incidents, injuries, and deaths. Although Manini'ōwali Beach at Kua Bay is under the jurisdiction of the Department of Land and Natural Resources, the State does not employ its own ocean safety officers at Manini'ōwali Beach. By appropriating funds for the employment of four ocean safety officers and necessary equipment, this measure will assist in preventing injuries and deaths and ensure visitor safety at Manini'ōwali Beach.

Your Committee has amended this measure by:

- (1) Adopting the language suggested by the Hawaii Government Employees Association that replaces the term "lifeguard" with "ocean safety officer" and making conforming amendments;
- (2) Clarifying that Kua Bay is in the Kekaha Kai State Park and specifying that Manini'ōwali Beach is at Kua Bay;
- (3) Inserting an appropriation amount of \$340,355 for the Department of Land and Natural Resources to establish four full-time equivalent permanent ocean safety officers for Manini'ōwali Beach at Kua Bay in the Kekaha Kai State Park, and clarifying that the County of Hawaii is required to hire and provide benefits for the four permanent ocean safety officers;
- (4) Inserting an appropriation amount of \$80,000 for the purchase of certain equipment to be used by state ocean safety officers in the course of their work at Manini'ōwali Beach at Kua Bay, and specifying amounts for certain equipment;
- (5) Changing the effective date to July 1, 2018; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2044, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2044, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Inouye).

SCRep. 3185 Water and Land on H.B. No. 2380

The purpose and intent of this measure is to:

- (1) Require the Board of Land and Natural Resources to obtain prior authorization from the Legislature by concurrent resolution in order to lease any fast lands and submerged lands within any existing state boating facility by public auction, request for proposals, or direct negotiation; and
- (2) Repeal fast lands and submerged lands lease requirements specific to Ala Wai Boat Harbor.

Prior to the hearing on this measure, your Committee posted and made available for public review a proposed S.D. 1, which amends this measure by inserting language that:

- (1) Requires the Board of Land and Natural Resources to make a finding regarding certain sea level rise factors as a condition of approval to lease fast lands and submerged lands within any existing state boating facility by public auction, request for proposals, or direct negotiation;
- (2) Allows for legislative authorization of leases that do not satisfy the finding regarding sea level rise factors when the Board of Land and Natural Resources demonstrates that extraordinary circumstances necessitate the lease; and
- (3) Changes the effective date to upon its approval.

Your Committee received testimony in opposition to the proposed S.D. 1 from the Department of Land and Natural Resources, Ocean Tourism Coalition, and two individuals.

Your Committee finds that existing law authorizes the Board of Land and Natural Resources to lease fast lands and submerged lands within an existing state boating facility by public auction, a request for proposals, or direct negotiation for private development, management, and operation. However, any lease of fast lands or submerged lands pursuant to a request for proposals is subject to section 200-2.6, Hawaii Revised Statutes (HRS), regardless of the state boating facility to which the fast or submerged lands are attached. Section 200-2.6, HRS, only applies to leases of the Ala Wai Boat Harbor and thus, this proposed S.D. 1 addresses this ambiguous reference by repealing fast lands and submerged lands lease requirements specific to Ala Wai Boat Harbor.

Your Committee notes the written testimony in opposition to the proposed S.D. 1 submitted by the Department of Land and Natural Resources, which indicates that requiring the Board of Land and Natural Resources to obtain prior authorization from the Legislature by concurrent resolution in order to lease any fast lands or submerged lands within any existing state boating facility would severely hinder efforts that are an integral part of the revenue generation for the boating special fund. Many of the existing leases are scheduled to expire while the Legislature is not in session, and the Department is currently considering transitioning its thirty-eight revocable permits into long-term leases. Thus, waiting for prior legislative authorization will result in properties remaining vacant and disruptions to the revenue stream from lease rents that are used to support facilities and operations.

Your Committee further finds that in December 2017, the Hawaii Climate Change Mitigation and Adaptation Commission accepted the Hawaii Sea Level Rise Vulnerability and Adaptation Report (SLR Report). The first recommendation of the SLR Report is to “[r]ecognize the SLR-XA (Sea Level Rise Vulnerability Area) as a statewide vulnerability zone.” The SLR-XA demonstrates the extent of the potential exposure of land and structures to flooding and erosion with an increase of 0.5, 1.1, 2.0, and 3.2 feet of sea level rise throughout the State. Thus, the proposed S.D. 1 recognizes and addresses the risks of sea level rise by requiring the Board of Land and Natural Resources to make a finding regarding certain sea level rise factors, with an exception to allow legislative authorization for extraordinary circumstances, prior to leasing any fast lands and submerged lands within any existing state boating harbor.

While obtaining prior legislative authorization for all leases of fast lands and submerged lands within any existing state boating facility may hinder the Department of Land and Natural Resources’ revenue stream, your Committee asserts that sea level rise poses a substantial threat to the Department’s revenue stream and operations. However, your Committee notes that the term “minimal”, as used in the proposed S.D. 1 regarding the effect of sea level rise on the land to be leased, may be subjective and may not be the most appropriate mechanism to trigger the Legislature’s involvement. Your Committee believes that this issue merits further discussion as this measure moves through the legislative process.

Your Committee further notes that the Department of Land and Natural Resources is currently under negotiations to renew the lease for Ala Wai Boat Harbor. You Committee urges the Board of Land and Natural Resources to take into account the risks of sea level rise as part of the lease negotiations.

Accordingly, your Committee has amended this measure by adopting the proposed S.D. 1 and further amending the measure by removing language that would have required the Board of Land and Natural Resources to obtain prior authorization from the Legislature by concurrent resolution in order to lease any fast lands and submerged lands within any existing state boating facility by public auction, request for proposals, or direct negotiation.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2380, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2380, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Gabbard, Inouye).

SCRep. 3186 Water and Land on H.B. No. 2592

The purpose and intent of this measure is to establish a working group within the Department of the Attorney General to assess the viability and constitutionality of using tax increment financing at the county level as a means of incentivizing water-related infrastructure projects and other projects to protect water resources in the State.

Your Committee received testimony in support of this measure from the O’ahu County Committee on Legislative Priorities of the Democratic Party of Hawai’i, Ulupono Initiative, and one individual. Your Committee received comments on this measure from the Department of Land and Natural Resources, Department of Health, and Department of Budget and Fiscal Services of the City and County of Honolulu.

Your Committee finds that Hawaii’s surrounding ocean waters, streams, groundwater, watersheds, and other sources of fresh water are vulnerable to pollution and contamination from cesspools, which discharge raw, untreated sewage into the ground, and nonpoint source pollution that flows off the land directly into the ocean. Your Committee further finds that in other jurisdictions, tax increment financing is an established means to finance infrastructure projects. However, in Hawaii, questions regarding whether the counties are constitutionally authorized to implement tax increment financing to fund projects have arisen, and whether tax increment financing would generate sufficient revenue to fund significant capital improvement projects. The working group established in this measure will address these issues.

Your Committee has amended this measure by:

- (1) Changing the effective date to upon its approval; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2592, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2592, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Inouye, Thielen).

SCRep. 3187 Water and Land on H.B. No. 2596

The purpose and intent of this measure is to:

- (1) Require certain vessel owners to apply for a certificate of title within twenty days of becoming an owner or within twenty days of establishing principal use of the vessel in waters of the State; and

- (2) Establish what information is required to be included in an application for a certificate of title; how to deal with transfer of vessel ownership and title; rights of a secured party; and rights of a purchaser other than a secured party.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources, Commission to Promote Uniform Legislation, and one individual. Your Committee received comments on this measure from the Office of Information Practices and The Civil Beat Law Center for the Public Trust.

Your Committee finds that vessels under the jurisdiction of the Department of Land and Natural Resources that do not have a United States Coast Guard documentation number are only required to obtain a certificate of number with the Department's Division of Boating and Ocean Resources' Vessel Registration Office. However, this certificate of number does not ensure that a vessel is not stolen because the Vessel Registration Office cannot verify ownership of a vessel other than by documents provided by the registrant. Thus, the absence of a vessel titling law can lead to extensive fraud. By codifying the Uniform Certificate of Title for Vessels Act, this measure will reduce the number of stolen vessels being fraudulently registered with the State and help the Vessel Registration Office quickly verify the owner of a vessel, which in turn will potentially decrease the processing of and wait times for vessel transfers.

Your Committee has amended this measure by:

- (1) Removing the definitions of "conspicuous" and "representative" as these terms are not used in the measure;
- (2) Adopting the language suggested by the Department of Land and Natural Resources that:
 - (A) Requires the application for a certificate of title to include the date of birth and driver's license or civil identification number of the applicant, among other information;
 - (B) Deletes the provision stating that the required contents of a certificate of title are a government record; and
 - (C) Requires the Department of Land and Natural Resources to allow public inspection of its files in accordance with the Uniform Information Practices Act, except for the individual's home address, home telephone number, date of birth, citizenship status, driver's license or civil identification number, or the name of an applicant whose application was not granted;
- (3) Clarifying that under the requirements for the perfection of a security interest, a security interest in a vessel is perfected by receipt by, rather than delivery to, the Department of Land and Natural Resources of an application for a certificate of title and the applicable fee or attachment of the security interest, whichever occurs later;
- (4) Changing the effective date to July 1, 2018; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2596, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2596, H.D. 2, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Gabbard, Inouye).

SCRep. 3188 Housing on H.B. No. 2073

The purpose and intent of this measure is to:

- (1) Establish the Kanoelehua Industrial Area and Banyan Drive region as a redevelopment district until June 30, 2028;
- (2) Authorize a local redevelopment agency to contract with a developer for construction of non-residential uses on public land within the redevelopment district consisting of the Kanoelehua Industrial Area and Banyan Drive region; and
- (3) Exempt gross income received for the construction of works or improvements of a redevelopment project from the general excise tax and use tax.

Your Committee received testimony in support of this measure from the Office of the Mayor of the County of Hawai'i and one individual. Your Committee received testimony in opposition to this measure from the Department of Land and Natural Resources. Your Committee received comments on this measure from the Department of the Attorney General and Department of Taxation.

Your Committee finds that chapter 53, Hawaii Revised Statutes, authorizes a county council to create a local redevelopment agency for the county to undertake and carry out urban renewal projects and related activities authorized by law. This measure would provide redevelopment agencies the authority, subject to prior approvals by the applicable county, Governor, and Legislature, to negotiate a development agreement with a developer for commercial, business, or hotel or resort uses on public lands within a redevelopment district consisting of the Kanoelehua Industrial Area and Banyan Drive region.

Your Committee notes that this measure also exempts gross income from the construction of works or improvements of a redevelopment project from the general excise tax and use tax. Your Committee has concerns regarding the feasibility of exempting such projects and believes that other financial incentives may be provided to encourage redevelopment projects.

Accordingly, your Committee has amended this measure by:

- (1) Removing language that exempts gross income from the construction of works or improvements of a redevelopment project from the general excise tax and use tax; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

Your Committee further notes the concerns raised in testimony submitted by the Department of the Attorney General that the creation of a pilot redevelopment project for lands only within the Kanoiehewa Industrial Area and Banyan Drive region may be deemed to be special legislation and therefore may violate article XI, section 5, of the Hawaii State Constitution. Your Committee believes that this issue merits further discussion as this measure moves through the legislative process.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2073, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2073, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Harimoto, Kahele).

SCRep. 3189 (Joint) Housing and Labor on H.B. No. 2368

The purpose and intent of this measure is to appropriate funds for permanent civil service positions and equipment for the Hawaii Public Housing Authority to provide services historically and customarily performed by civil service employees in connection with refuse collection.

Your Committees received testimony in support of this measure from the Department of Human Resources Development; Hawaii Public Housing Authority; and United Public Workers, AFSCME Local 646, AFL-CIO. Your Committees received comments on this measure from the Grassroot Institute of Hawaii.

Your Committees find that in 1997, the Hawaii Supreme Court ruled in *Konno v. County of Hawaii* that the County of Hawaii violated civil service laws and merit principles when the county hired private contractors to perform landfill operations work. The court ruled that state civil service laws allowed only civil service employees to perform work historically and customarily done by civil service employees. As a result of the repeal of part II of Act 90, Session Laws of Hawaii 2001, which had allowed the State to contract for services historically and customarily performed by civil service employees if equivalent or better services could be provided at lower cost, an agreement was reached between the United Public Workers and the State. This agreement reflected the State's commitment to comply with the *Konno* decision and recognized the State's duty to provide services to the public.

However, your Committees further find that the State does not have a sufficient number of civil service positions and employees to perform services historically and customarily performed by United Public Workers-type employees, and state agencies have resorted to contracting for these services despite the *Konno* decision. It is estimated that the State will need an additional 598 permanent positions and approximately \$75,571,516 to fill those positions and purchase associated equipment with general and non-general funds to provide necessary services to the public through civil service employees rather than through private contractors. Accordingly, this measure is an effort to address this shortfall by appropriating funds for permanent civil service positions and equipment in connection with refuse collection for the Hawaii Public Housing Authority.

Your Committees note that the 598 permanent positions identified only includes United Public Workers-type employees and does not account for a statewide total. Your Committees further note that the State lacks a strategic plan for transitioning all contracted employees who perform work historically and customarily done by civil service employees to civil service positions. Without a strategic plan, your Committees have concerns regarding the availability of state financial resources to transition all contracted employees to civil service employees in order to comply with *Konno*.

Accordingly, your Committees have amended this measure by:

- (1) Requiring the Department of Human Resources Development to develop a multi-year strategic plan to transition contracted positions that are historically and customarily performed by civil service employees to civil service positions in order to comply with the decision under *Konno v. County of Hawaii* and submit a report to the Legislature prior to the Regular Session of 2019;
- (2) Requiring the Hawaii Public Housing Authority to fill all twenty-seven permanent civil service positions and purchase the necessary equipment in connection with refuse collection by July 1, 2020; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Housing and Labor that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 2368, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 2368, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
Housing: Ayes, 3. Noes, none. Excused, 2 (Harimoto, Kahele).
Labor: Ayes, 4. Noes, none. Excused, 1 (English).

SCRep. 3190 (Joint) Public Safety, Intergovernmental, and Military Affairs and Water and Land on H.B. No. 2539

The purpose and intent of this measure is to require the counties to designate an agency to inform the public and hold a hearing when lands included in a community master plan are proposed for sale and intended to be used for a purpose other than as proposed in the master plan.

Your Committees received testimony in support of this measure from Ho'omana Pono, LLC; and one individual. Your Committees received testimony in opposition to this measure from the Department of Planning and Permitting for the City and County of Honolulu and Land Use Research Foundation of Hawaii.

Your Committees find that it is important to allow for meaningful public input during the approval process for master plans of planned communities. Your Committees also find that in planned communities, sometimes developers fail to develop plots of land as originally planned and those plots of land are then sold and subsequently used for something other than the intended purpose. Your

Committees find that when this occurs, many residents are left confused and frustrated, particularly when there is no notification of the land being sold or the development plan being changed. Therefore, your Committees find that there should be notification requirements that require the owner of the subject property to provide written notification to the other property owners in the planned community and all neighborhood boards and legislators representing the area in which the subject property is located. Your Committees find that these notification requirements would be a more direct and effective way of communicating with those affected by potential changes in the planned community master plan than involving county planning departments.

Accordingly, your Committees have amended this measure by:

- (1) Deleting the requirement that the owner of any parcel of land included within a planned community master plan that is proposed for sale and intended to be used for a purpose other than as proposed in the planned community master plan, inform the planning department of the county of the proposed sale and of the intended use of the parcel;
- (2) Inserting a requirement that the owner of any parcel of land included within a planned community master plan that is proposed for sale and intended to be used for a purpose other than as proposed in the planned community master plan, inform each owner of a unit in the planned community and all neighborhood boards and legislators representing the area in which the parcel of land is located in writing of the intended use of the parcel no later than ninety days before the sale of the parcel; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Public Safety, Intergovernmental, and Military Affairs and Water and Land that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 2539, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 2539, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Public Safety, Intergovernmental, and Military Affairs: Ayes, 4. Noes, none. Excused, 1 (Wakai).
Water and Land: Ayes, 3. Noes, none. Excused, 2 (Gabbard, Inouye).

SCRep. 3191 Education on H.B. No. 2117

The purpose and intent of this measure is to:

- (1) Limit the number of standardized tests students take in a school year; and
- (2) Require the Board of Education to conduct a statewide survey of school administrators and teachers to determine the time spent on preparing for standardized tests and the impact of preparation time on the quality of instruction.

Your Committee received testimony in support of this measure from the Hawaii State Teachers Association, Ka Ohana O Na Pua, IMU Alliance, Parents for Public Schools of Hawai'i, Civic Education Council, O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, Americans for Democratic Action Hawai'i, and numerous individuals. Your Committee received testimony in opposition to this measure from the Department of Education and one individual. Your Committee received comments on this measure from the Department of the Attorney General.

Your Committee finds that due to the No Child Left Behind law in 2001 and Race to the Top program in 2009, teachers and administrators in Hawai'i's public school system spent growing amounts of time, money, and energy on standardized testing at the expense of authentic learning. This overemphasis on standardized testing narrows academic curricula and causes teachers to teach to the test, leading to reductions in arts and cultural education and vocational programming. Standardized testing also creates a climate of compliance and fear among students, teachers, and administrators. By limiting the number of standardized tests students take each school year, many of the negative effects of standardized testing, such as diverted resources and low teacher morale, can be avoided.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2117, H.D. 1, and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Dela Cruz).

SCRep. 3192 Commerce, Consumer Protection, and Health on H.B. No. 2742

The purpose and intent of this measure is to more effectively regulate and administer medical cannabis patient registration and medical cannabis dispensaries by establishing the Office of Medical Cannabis Control and Regulation (Office) within the Department of Health.

Your Committee received testimony in support of this measure from the Drug Policy Forum of Hawai'i, Oahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, and Kush Bottles. Your Committee received comments on this measure from the Department of Health and Department of the Attorney General.

Your Committee finds that this measure creates a new office to oversee and administer medical cannabis dispensary licensure and regulation, and the registration of qualifying patients. Your Committee further finds that this measure will enable fair and equitable access to medical cannabis while allowing the Department of Health to maintain oversight through the licensing process.

Your Committee received testimony from the Department of Health indicating that the Office would be more appropriately placed under the direct operational oversight of the Deputy Director of Health Resources Administration, rather than the Director of Health, to allow easier access to subject matter experts. The Department of Health also indicated to your Committee that the Office will require the transfer of additional staff to help accomplish its mission, and that, due to the specialized nature of the required positions, the positions should be exempt from civil service. Your Committee also received a suggested amendment from the Attorney General to include within the purview of the Office the registration of primary caregivers.

Accordingly, your Committee has amended this measure by:

- (1) Placing the Office of Medical Cannabis Control and Registration under the oversight of the Deputy Director of Health Resources Administration rather than the Director of Health;
- (2) Including the establishment of four full-time equivalent positions as purposes of the appropriation, to provide operational support for the Office of Medical Cannabis Control and Registration;
- (3) Extending the civil service exempt status for persons in civil service exempt positions prior to enactment of this measure and who will transfer into the Office of Medical Cannabis Control and Registration as a consequence, notwithstanding section 76-16(b)(17)(A), Hawaii Revised Statutes, to the contrary; and
- (4) Expanding the purview of the Office of Medical Cannabis Control and Registration to include registration of primary caregivers.

Your Committee notes that, although the appropriation amount in this measure is blank, the Department of Health's testimony indicates that establishing an Office of Medical Cannabis Control and Registration would cost as much as \$2,777,836, which does not include general fund advances to establish the dispensary licensing program.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2742, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2742, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 7. Noes, none. Excused, none.

SCRep. 3193 Public Safety, Intergovernmental, and Military Affairs on H.B. No. 2696

The purpose and intent of this measure is to appropriate funds to establish one full-time equivalent, civil service exempt cybersecurity analyst position within the State Department of Defense.

Your Committee received testimony in support of this measure from the Department of Defense and O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i.

Your Committee finds that cybersecurity threats are a serious public safety concern. Cyber threats range from propaganda and low-level web page defacements to espionage and serious disruption to infrastructure. Moreover, criminal organizations can use cyber attacks to conduct industrial espionage and monetary theft. Accordingly, your Committee finds that it is necessary to employ a full-time cybersecurity analyst within the State Department of Defense to help the State combat potentially debilitating cybersecurity threats.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2696, H.D. 2, and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Baker, Ihara).

SCRep. 3194 Higher Education on H.B. No. 2165

The purpose and intent of this measure is to establish and appropriate funds for the University of Hawai'i promise program to provide scholarships for the unmet direct cost needs of qualified students enrolled at any University of Hawai'i campus, including community college campuses.

Your Committee received testimony in support of this measure from the University of Hawai'i System, Department of Education, Kamehameha Schools, O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, University of Hawai'i Alumni Association, and two individuals. Your Committee received comments on this measure from the Department of Budget and Finance.

Your Committee finds that an educated labor force and engaged citizenry are essential in today's global, knowledge-based economy. Across the nation, states have set ambitious goals to boost college completion rates. The University of Hawai'i's graduation initiative is a system-wide strategic initiative endorsed by the University of Hawai'i Board of Regents with a goal to increase the educational capital of the State by increasing participation in, and completion of, college by students, particularly Native Hawaiians, low-income students, and those from underserved regions and populations, and preparing them for success in the workforce and their communities.

Your Committee further finds that despite Hawai'i's overall high affordability ranking, attending college is a large expense for families earning less than \$30,000 annually and, historically, the State provides minimal need-based aid to students attending public institutions. However, monies allocated for the University of Hawai'i's community college promise program in the 2017 state budget helped provide scholarship opportunities to one thousand community college students. This success demonstrates that the permanent establishment of the program is further warranted at all University of Hawai'i campuses.

As affirmed by the record of votes of the members of your Committee on Higher Education that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2165, H.D. 1, and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 3195 Higher Education on H.B. No. 2299

The purpose and intent of this measure is to facilitate the process by which the University of Hawai'i obtains approval to indemnify, defend, and hold harmless a county agency, its officers, agents, and employees for university purposes and university functions on county property.

Your Committee received testimony in support of this measure from the University of Hawai'i System.

Your Committee finds that the University of Hawai'i campuses frequently use county parks and other facilities for university purposes and functions, such as physical education classes, athletic events, and graduation events. The current procedure for the University of Hawai'i to obtain approval from the Governor to indemnify a county for using a county facility for university purposes is unnecessarily burdensome. This measure allows the University of Hawai'i to no longer need to engage in the lengthy approval process to support day-to-day operational transactions when the University uses county property, under certain conditions.

As affirmed by the record of votes of the members of your Committee on Higher Education that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2299, H.D. 1, and recommends that it pass Second Reading and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 3196 (Joint) Higher Education and Water and Land on H.B. No. 2613

The purpose and intent of this measure is to appropriate funds for the hiring of permanent staff positions within the University of Hawai'i to develop and maintain He'eia reserve and its programs.

Your Committees received testimony in support of this measure from the University of Hawai'i System; Hawai'i Community Development Authority; The Nature Conservancy, Hawai'i; Ko'olaupoko Hawaiian Civic Club; Ko'olau Foundation; O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i; and two individuals.

Your Committees find that in 2014, He'eia was officially nominated as a national estuarine research reserve to support the National Oceanic and Atmospheric Administration's policy to encourage expansion of the program in unrepresented areas of the country. The site, located on Oahu's windward shore, includes He'eia state park, He'eia fishpond, and the He'eia community development district, as well as marine waters with patch and fringing reefs and Moku o Lo'e (Coconut Island). In 2017, the He'eia site was officially designated as the twenty-ninth site in the national estuarine research reserve system, which enables federal funding to support the implementation of the management plan.

Your Committees further find that the Hawai'i Institute of Marine Biology, which is part of the University of Hawai'i at Manoa, is the lead agency for implementation of the He'eia national estuarine research reserve system management plan. For He'eia reserve to succeed in its function within the national estuarine research reserve system, funding for initial staffing is essential and required to keep the reserve fully functioning.

Your Committees have amended this measure by:

- (1) Authorizing the University of Hawai'i as one of the state entities that may review or inspect contractors and other third parties who receive funds under this measure;
- (2) Specifying that the appropriation shall be for 1.36 full-time equivalent (1.36 FTE) positions within the University of Hawai'i to maintain the initial staff positions that are necessary to develop and manage He'eia reserve and its programs;
- (3) Inserting an effective date of December 24, 2030, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Higher Education and Water and Land that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 2613, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 2613, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
Higher Education: Ayes, 5. Noes, none. Excused, none.
Water and Land: Ayes, 4. Noes, none. Excused, 1 (Thielen).

SCRep. 3197 Transportation and Energy on H.B. No. 1508

The purpose and intent of this measure is to:

- (1) Establish within the Department of Transportation a building energy efficiency demonstration project to assist the State in determining best practices for designing state facilities with net zero emissions; and
- (2) Require all state buildings built or renovated after July 1, 2020, to incorporate certain energy efficient standards.

Prior to the hearing on this measure, your Committee posted and made available for public review a proposed S.D. 1, which deletes the contents of this measure and inserts language to create a revolving line of credit sub-fund of an unspecified amount under the umbrella of the Hawaii green infrastructure special fund for any state agency or department to finance cost-effective energy-efficiency measures.

Your Committee received testimony in support of the proposed S.D. 1 from the Department of Business, Economic Development, and Tourism; Hawaii Green Infrastructure Authority; Ulupono Initiative; O'ahu County Committee on the Legislative Priorities of the Democratic Party of Hawai'i; and one individual.

Your Committee finds that as a major consumer of electricity, the government sector has a large role in helping the State achieve its renewable energy goals. Furthermore, energy efficient facilities have the potential to significantly reduce energy costs for the State on a wide scale. Your Committee notes that there is already funding for energy efficiency measures for public schools through the Hawaii green infrastructure special fund.

Your Committee has amended this measure by adopting the proposed S.D. 1.

As affirmed by the record of votes of the members of your Committee on Transportation and Energy that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1508, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1508, H.D. 2, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (English, Harimoto).

SCRep. 3198 (Joint) Transportation and Energy and Public Safety, Intergovernmental, and Military Affairs on H.B. No. 2175

The purpose and intent of this measure is to require metropolitan planning organizations serving a certain metropolitan planning area to include on the policy board a member of the Senate and an alternate member of the Senate, to be appointed by the President of the Senate, as well as a member of the House of Representatives and an alternate member of the House of Representatives, to be appointed by the Speaker of the House of the Representatives.

Your Committees received testimony in support of this measure from the Department of Transportation. Your Committees received comments on this measure from the Department of the Attorney General and one individual.

Your Committees find that the population growth in Maui County means Maui County will soon be large enough to have a metropolitan planning organization. However the law on the metropolitan planning organization's policy board, as currently written, could be overly restrictive, particularly if the organization chooses to have a smaller policy board.

Your Committees heard testimony expressing concerns that there might be a conflict between state and federal law if this measure passes. Your Committees note that the Federal Highway Administration has advised that allowing an individual who is not a resident of the metropolitan planning area to have voting power may be against federal law, and could result in loss of federal highway funding. As such, Oahu members of your Committees are concerned that the language in this measure could jeopardize federal funding. Furthermore, your Committees have concerns on the potential impact of this measure on the Oahu Metropolitan Planning Organization as it approaches its compliance review recertification.

Your Committees also heard concerns from the Department of the Attorney General that this measure could be challenged as a special law. In particular, the Department of the Attorney General had concerns about the applicability of this measure to a county that includes "three islands inhabited by permanent residents".

Accordingly, your Committees have amended this measure by:

- (1) Removing the language making this measure applicable to a county that includes "three islands inhabited by permanent residents";
- (2) Amending the policy board's membership to closely follow S.B. No. 2296, S.D. 1 (Regular Session of 2018), a substantially similar measure that was previously passed by the Senate, which requires that the membership include one Senate member and one member from the House of Representatives, both of whom must be residents of the applicable metropolitan planning area; and
- (3) Making a technical, nonsubstantive amendment for the purpose of clarity and consistency.

Your Committees find this measure is a work in progress and that if the issues raised during the public hearing on this measure are not resolved by the amendments made, your Committees request that your Committee on Ways and Means explore these issues further.

As affirmed by the records of votes of the members of your Committees on Transportation and Energy and Public Safety, Intergovernmental, and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 2175, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 2175, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Transportation and Energy: Ayes, 4. Noes, none. Excused, 1 (Harimoto).

Public Safety, Intergovernmental, and Military Affairs: Ayes, 3; Ayes with Reservations (Thielen). Noes, none. Excused, 2 (Baker, Ihara).

SCRep. 3199 (Joint) Human Services and Housing on H.B. No. 2753

The purpose and intent of this measure is to:

- (1) Establish and appropriate funds for the Ohana Zone Pilot program to provide basic needs such as shelter, bathrooms, showers and offer wrap-around services, social health care services with the goals to alleviate intergenerational poverty and transition homeless individuals into affordable housing; and
- (2) Establish performance measures and report to the legislature on the updated progress and evaluation of performance measures.

Your Committees received testimony in support of this measure from the Office of the Mayor, County of Hawaii; Chamber of Commerce Hawaii; The Queen's Health Systems; IMUAlliance; Oahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i; Hawaii Kai Homeless Task Force; and forty-three individuals. Your Committees received testimony in opposition to this measure from thirty individuals. Your Committees received comments on this measure from the Governor's Coordinator on Homelessness, Department of Human Services, Department of Land and Natural Resources, and Catholic Charities Hawaii.

Your Committees find that homelessness is a complex issue as individuals experiencing homelessness face a myriad of issues such as loss of employment and lack of income, substance abuse, mental health conditions, and lack of affordable housing. Your Committees further find that while significant strides have been made, current attempts to address homelessness in the State remain insufficient. Your Committees conclude that alternative approaches are necessary to reduce homelessness in the State.

Your Committees have amended this measure by:

- (1) Inserting language requiring the construction cost for each dwelling in an ohana zone to be no more than \$15,000;
- (2) Inserting language requiring at least fifty percent of manufacturing and labor costs of each dwelling in an ohana zone to be purchased in the State;
- (3) Inserting language to establish and appropriate funds for a pilot project to convene certain individuals who work in emergency departments in a participating hospital to provide assessments and referrals for wrap-around social services to homeless individuals in an effort to reduce costs associated with the chronic use of emergency departments;
- (4) Inserting language to authorize the Department of Human Services to establish a pilot program to provide homeless individuals with assistance to be reunited with family and relatives in that individual's state and appropriate funds for the program;
- (5) Inserting language to establish and appropriate funds for a pre-arrest diversion pilot project for individuals with mental health or substance abuse challenges;
- (6) Inserting language to establish and appropriate funds to continue the coordinated statewide homeless initiative to prevent homelessness and rehouse homeless individuals;
- (7) Inserting language to establish and appropriate funds for a pilot project to provide shelter and mental health treatment for homeless individuals with severe mental illness who are subject to an assisted community treatment order or court ordered guardianship to take effect upon approval of the Department of the Attorney General;
- (8) Inserting an appropriation of an unspecified amount for the Department of Human Services to fund various projects to plan and construct housing for various vulnerable homeless populations and exempting the Department from rulemaking pursuant to chapter 91, Hawaii Revised Statutes, for the planning and construction of housing for those vulnerable homeless populations; and
- (9) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Human Services and Housing that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 2753, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 2753, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the President and Chair on behalf of the Committees.
 Human Services: Ayes, 3. Noes, none. Excused, 2 (Harimoto, Tokuda).
 Housing: Ayes, 3. Noes, none. Excused, 2 (Harimoto, Kahele).

SCRep. 3200 Human Services on H.B. No. 1812

The purpose and intent of this measure is to:

- (1) Authorize a surrogate of a patient to be a Medicaid authorized representative for the patient; and
- (2) Specify the duties and obligations of the surrogate as a Medicaid authorized representative.

Your Committee received testimony in support of this measure from the Hawaii Health Systems Corporation, Healthcare Association of Hawaii, Aloha Nursing Rehab Centre, Kaiser Permanente, The Queen's Health Systems, One Kalakaua Senior Living, and O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i. Your Committee received comments on this measure from the Department of Human Services.

Your Committee finds that, in 2017, the Department of Human Services implemented new procedures to allow an appointed surrogate to act as a patient's authorized representative to make health care decisions related to Medicaid, including the decision to apply for Medicaid benefits. However, the Department suspended the option for a surrogate to act as an individual's Medicaid authorized representative after determining specific issues needed to first be addressed and clarified. Allowing a surrogate to apply and enroll for Medicaid benefits on a patient's behalf will ensure a patient will have the opportunity to access and receive necessary healthcare services.

Your Committee has amended this measure by:

- (1) Clarifying that a surrogate acting as a Medicaid authorized representative of a patient may also submit and execute a Medicaid application on the patient's behalf;
- (2) Clarifying that the surrogate may only access Medicaid records of the patient on whose behalf the surrogate is acting; and

- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1812, H.D. 3, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1812, H.D. 3, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the President on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Harimoto, Tokuda).

SCRep. 3201 (Joint/Majority) Economic Development, Tourism, and Technology and Labor on H.B. No. 2659

The purpose and intent of this measure is to:

- (1) Establish a five-year Kapolei jobs initiative pilot program and establishes requirements to qualify for the tax credit; and
- (2) Establish a Kapolei jobs initiative income tax credit program as an incentive of the Kapolei jobs initiative pilot program.

Your Committees received testimony in support of this measure from the Chamber of Commerce Hawaii; Kapolei Chamber of Commerce; Pacific Resource Partnership; Palehua Townhouse Association; Hawai'i Construction Alliance; National Kidney Foundation of Hawaii; James Campbell Company, LLC; Kapolei Commons, LLC; Klapperich International Training Associates, LLC; Hunt Development Group, LLC; Associa; Urgent Care Hawaii; O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i; Coral Crater, LLC; Ho'omanapono Political Action Committee; and ten individuals. Your Committees received comments on this measure from the Department of Taxation; Department of Business, Economic Development, and Tourism; and Tax Foundation of Hawaii.

Your Committees find that job growth in the Kapolei region on Oahu affects employers and employees alike, as households continue to outgrow the number of employment opportunities in the region. Your Committees further find that the state enterprise zone program is restrictive and participation in the program has been relatively low. Establishing an incentive such as the Kapolei jobs initiative program would attract needed professional, high-paying jobs to the Kapolei area.

Your Committees note that in order for the Kapolei jobs initiative program to produce meaningful impacts, businesses should provide more competitive salaries to at least half of their employees in order to qualify for incentives and participate in the program. According to a report by the Hawaii Housing Finance and Development Corporation, the average area median income of a single person in the City and County of Honolulu is \$73,300. Your Committees suggest that \$73,000 may be an appropriate amount for your Committee on Ways and Means to further consider.

Your Committees have amended this measure by:

- (1) Deleting language that would have allowed qualified businesses to carry over any unused tax credits to subsequent taxable years;
- (2) Inserting a blank amount of gross annual salaries that a business must pay to at least half of its employees in order to be considered a qualified business; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Economic Development, Tourism, and Technology and Labor that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 2659, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 2659, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
Economic Development, Tourism, and Technology: Ayes, 4; Ayes with Reservations (Baker, Galuteria, Thielen, Wakai). Noes, 1 (Taniguchi). Excused, none.
Labor: Ayes, 3; Ayes with Reservations (Chang). Noes, 1 (Taniguchi). Excused, 1 (Ihara).

SCRep. 3202 Commerce, Consumer Protection, and Health on H.B. No. 2471

The purpose and intent of this measure is to appropriate an unspecified amount to create the Hawaii Digital Gaming Commission within the Office of Consumer Protection to oversee and monitor predatory and exploitative practices in digital games.

Prior to a hearing on this measure, your Committee posted and made available for public review a proposed S.D. 1, which deletes the contents of this measure and inserts language to:

- (1) Transition from lump sum deferred deposit transactions to installment-based small dollar loan transactions;
- (2) Specify various consumer protection requirements for small dollar loans;
- (3) Beginning January 1, 2019, require licensure for small dollar lenders that offer small dollar loans to consumers; and
- (4) Specify licensing requirements for small dollar lenders.

Your Committee received testimony in support of the proposed S.D. 1 from the Department of Commerce and Consumer Affairs, Hawaiian Community Assets, Mental Health America of Hawai'i, Hawai'i Appleseed Center for Law & Economic Justice, Aloha United Way, Hawai'i Alliance for Community-Based Economic Development, Hawaii Habitat for Humanity Association, and The Pew Charitable Trusts. Your Committee received testimony in opposition to the proposed S.D. 1 from Maui Loan Inc.; and Money Service Centers of Hawaii, Inc. Your Committee received comments on the proposed S.D. 1 from the Department of Taxation and one individual.

Your Committee finds that deferred deposit agreements, commonly referred to as payday loans, are small, short term, unsecured loans that borrowers commit to repay from their next paycheck or a regular income payment. The majority of borrowers use deferred deposit agreements for recurring expenses, rather than unexpected expenses or emergencies, because they live paycheck to paycheck. Furthermore, according to a 2017 analysis by the Consumer Financial Protection Bureau, four out of five payday loans are rolled over or renewed, meaning that a borrower was not able to repay a loan by the agreed up on date and was left with no other recourse than another high interest payday loan, despite having already experienced the difficulties of repaying these loans. Because of this revolving door of debt, the average payday loan borrower remains in debt for more than six months.

Your Committee also finds that there has been a shift in the payday industry toward small dollar installment loans, which are repayable over time and secured by access to the borrower's checking account. However, in the absence of sensible regulatory safeguards, this type of payday lending, as well as the traditional deferred deposit payday lending market, can be harmful for consumers. Your Committee notes that without strong consumer protections in the payday loan industry, payday loan borrowers may find such debt overwhelming and may be unable to pay rent and basic living costs.

The proposed S.D. 1 therefore establishes a regulatory structure for small dollar loans that enables consumers to access these small dollar loans while also capping interest rates, requiring disclosures, and allowing consumers to pay off these small dollar loans in a timely manner. The proposed S.D. 1 therefore allows consumers continued access to affordable loans with reasonable repayment terms, while also allowing small dollar loan lenders the ability to make these types of loans with a reasonable rate of return.

Your Committee additionally finds that the proposed S.D. 1 has a tiered implementation date, with a six-month grace period between July 1, 2018, when the Division of Financial Institutions starts the program on NMLS, until January 1, 2019, when licensure for small dollar loan lenders will be required. This grace period will provide the Division with sufficient time to work with the small dollar loan industry, which will enable the industry to gain familiarity with the small dollar installment loan program and ensure a smooth transition to the new licensing requirements.

Your Committee also finds that, according to the Division of Financial Institutions, the Division requires one full-time examiner position to be appointed to immediately establish the small dollar loan program for the small dollar loan industry. Your Committee notes that the Division is entirely self-funded from fees paid by the licensees of its various program, and therefore, the establishment and appointment of such a position does not require a general fund appropriation, although it will require an increase in the position ceiling of the compliance resolution fund. The expected cost for one full-time equivalent position is \$107,271, which includes employee benefits.

Your Committee also notes that after continued discussions with interested stakeholders, additional amendments to the proposed S.D. 1 are necessary to ensure that the proposed S.D. 1 achieves its goals of balancing access to small dollar loans with robust consumer protections. Amendments to the proposed S.D. 1 are therefore necessary to incorporate these suggested revisions.

Your Committee has amended this measure by adopting the proposed S.D. 1 and further amending the measure by:

- (1) Adding definitions for "verified gross income" and "verified net income";
- (2) Clarifying the monthly maintenance fee to be charged by a lender shall be a tiered payment structure based on the size of the original principal loan amount, from a minimum of \$10 to a maximum of \$25, rather than a flat fee of \$25;
- (3) Removing references to single payments, as the new chapter established by this measure pertains to affordable small dollar installment loans;
- (4) Removing language that would have authorized the Commissioner of Financial Institutions to biennially adjust for inflation the total amount of a small dollar loan and the total maintenance fee on the small dollar loan and would have required these updated fees to be posted on the Division of Financial Institutions' website;
- (5) Requiring a small dollar lender to disclose a payoff amount for a small dollar loan, when requested by a consumer or a consumer's agent;
- (6) Clarifying that the maximum authorized interest for a small dollar loan shall be subject to the cap on permitted fees and charges;
- (7) Clarifying the prohibitions against making multiple small dollar loans to a consumer at any one time;
- (8) Specifying certain notice requirements prior to sale or assignment of small dollar loan contracts held by a small dollar lender;
- (9) Clarifying that, when conducting an investigation of an applicant's financial responsibility, the Commissioner of Financial Institutions may consider whether an applicant has outstanding tax or other liens, subject to applicable disclosure laws and administrative rules;
- (10) Clarifying that a license shall not be issued to an applicant whose license to conduct business in the small dollar loan or payday loan industry has been revoked in another state or jurisdiction;
- (11) Clarifying the confidentiality provisions associated with the disclosure of confidential supervisory information or other information or material disclosed to NMLS;
- (12) Clarifying the prohibited practices for small dollar lenders and associated parties, including:
 - (A) Clarifying the prohibition against offering credit insurance to consumers and changing any fees other than those explicitly authorized;
 - (B) Prohibiting the electronic withdrawal of funds from a consumer's account, without the written approval of the consumer;
 - (C) Prohibiting attempts to collect from a consumer's account after two failed consecutive attempts, without obtaining new written authorization from the consumer; and

- (D) Specifying requirements for accelerating delinquent loans;
- (13) Appropriating sums from the compliance resolution fund to enable the Division of Financial Institutions to establish and hire one full-time equivalent permanent examiner to carry out the purposes of the Small Dollar Installment Loan Program, and specifying that this position may be added to the position count for the Division; and
- (14) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2471, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2471, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Nishihara, Ruderman, Tokuda).

SCRep. 3203 Commerce, Consumer Protection, and Health on H.B. No. 2729

The purpose and intent of this measure is to:

- (1) Amend the medical cannabis reciprocity program and add a visiting patient certifying fee;
- (2) Extend expiration of a written certification to three years for debilitating medical conditions that are chronic in nature;
- (3) Permit retesting of a failed batch of cannabis for medical use or manufactured cannabis products;
- (4) Permit dispensary licensees to distribute devices that provide safe pulmonary administration; and
- (5) Increase the maximum allowable tetrahydrocannabinol limit for multi-pack manufactured cannabis products and single containers of oil.

Your Committee received testimony in support of this measure from the Hawai'i Justice Coalition, The Drug Policy Forum of Hawai'i, Maui Grown Therapies, Noa Botanicals, Hawaii Education Association for Licensed Therapeutic Healthcare, O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, Kush Bottles, and sixteen individuals. Your Committee received comments on this measure from the Department of Health, Department of the Attorney General, and one individual.

Your Committee finds that existing law authorizes a start date of January 1, 2018, for a reciprocity program where medical cannabis patients from other states would be able to legally purchase medical cannabis from Hawaii-licensed dispensaries. However, this program has yet to be implemented. This measure therefore amends the reciprocity program to allow out-of-state patients to obtain medical cannabis, by permitting a dispensary to make reasonable good faith efforts to verify an out-of-state patient's qualifications. However, your Committee has heard the concerns that this measure lacks a reliable method or requirement to determine an out-of-state patient's qualifications to purchase medical cannabis. Without such requirements, there is a substantial risk of diversion of cannabis to people who are not entitled to have it, which may create a risk to the State.

Your Committee further finds that any reciprocity process for out-of-state medical cannabis patients must meet specific criteria that uphold the integrity and rigor of the State's medical cannabis program. A reciprocity program in Hawaii must: not significantly diminish the safety and security aspects of Hawaii's approach to medical cannabis; be implemented in a way that is fair and equitable to Hawaii medical cannabis patients, and not confer greater access to out-of-state medical cannabis patients than to Hawaii medical cannabis patients; provide a timely process for qualifying out-of-state patients who visit Hawaii to legally obtain medical cannabis from Hawaii-licensed medical cannabis dispensaries; and provide protection from state law enforcement for registered qualifying out-of-state patients who possess medical cannabis in Hawaii.

Your Committee notes that the Department of Health has been engaged in discussions with the trade association representing Hawaii's licensed medical cannabis dispensaries regarding reciprocity for qualifying out-of-state medical cannabis patients. The interested stakeholders have collaborated on language that represents an agreeable, appropriate process for reciprocity in Hawaii. Amendments to this measure are therefore necessary to incorporate this consensus language.

Your Committee also notes that in addition to expanding appropriate access to medical cannabis for visitors, amendments to this measure are also necessary to provide medical cannabis dispensaries with additional flexibility with regard to manufacturing and dispensing of approved products and greater discretion in hiring decisions and ensure that qualifying medical cannabis patients have increased access to appropriate forms of medical cannabis.

Accordingly, your Committee has amended this measure by:

- (1) Clarifying the reciprocity process for out-of-state medical cannabis patients, including:
 - (A) Establishing registration requirements for qualifying out-of-state patients and caregivers of qualifying out-of-state patients, including the time frame for registration; minimum criteria for registration of qualifying out-of-state patients and caregivers of qualifying out of state patients, if the qualifying out-of-state patient is under eighteen years of age; payment of a registration or renewal fee; and the temporary suspension of out-of-state registrations if the Department determines in-state qualifying patients or primary caregivers are being adversely affected or there is insufficient supply for both in-state and out-of-state patients;
 - (B) Establishing conditions of use for the medical use of cannabis by a qualifying out-of-state patient; and
 - (C) Clarifying certain safeguards under the reciprocity process for qualifying out-of-state patients and caregivers of qualifying out-of-state patients, including various protections, penalties for fraudulent misrepresentation of an entitlement to use cannabis for medical purposes, authorized sources of medical cannabis, certain protections and safeguards applicable to licensed medical cannabis dispensaries, dispensing limits, and adequate supply;

- (2) Clarifying the registration requirements for qualifying patients and primary caregivers and specifying that these requirements do not apply to qualifying out-of-state patients or caregivers of qualifying out-of-state patients;
- (3) Prohibiting an employer from suspending, discharging, or discriminating against an employee for testing positive for cannabis if the employee is a registered qualifying patient who is authorized for the medical use of cannabis, with certain exceptions;
- (4) Clarifying the ability for a dispensary licensee to retest, at its own expense, a batch of cannabis or manufactured cannabis products that do not meet the Department of Health's standards for patient safety;
- (5) Permitting a bona fide physician-patient or advanced practice registered nurse-patient relationship to be established via telehealth, for purposes of providing written certification for the medical use of cannabis for a qualifying patient and specifying that treatment recommendations that include certifying a patient for the medical use of cannabis via telehealth shall be allowed only after an initial in-person consultation;
- (6) Allowing and regulating the manufacturing of edible cannabis products as manufactured cannabis products by licensed medical cannabis dispensaries, including requirements for manufacturing, handling, labeling, and packaging of manufactured cannabis products;
- (7) Adding certain devices that provide safe pulmonary administration to the list of medical cannabis products that may be manufactured and distributed;
- (8) Increasing the tetrahydrocannabinol limit per pack or container of certain manufactured cannabis products;
- (9) Specifying certain felonies and conditions that will preclude employment, and other felonies and conditions that may preclude employment, at a medical cannabis dispensary;
- (10) Changing its effective date to July 1, 2050, to encourage further discussion; and
- (11) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2729, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2729, H.D. 2, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 7. Noes, none. Excused, none.

SCRep. 3204 (Joint) Labor and Commerce, Consumer Protection, and Health on H.B. No. 2173

The purpose and intent of this measure is to prohibit employers and educational institutions from requiring employees, students, and prospective employees and students to provide protected personal online account information.

Your Committees received testimony in support of this measure from the Department of Education, University of Hawai'i System, Hawai'i Civil Rights Commission, and two individuals. Your Committees received testimony in opposition to this measure from the American Civil Liberties Union of Hawai'i. Your Committees received comments on this measure from the Chamber of Commerce Hawaii.

Your Committees find that as more individuals subscribe to social media, privacy is a growing concern. Employers increasingly ask current and prospective employees to grant the employer access to social media accounts. Likewise, many educational institutions seek to examine the social media presence of current and prospective students. The Uniform Employee and Student Online Privacy Protection Act, completed by the Uniform Law Commission in 2016, addresses restrictions on employers' access to employees or prospective employees' social media and other online accounts accessed via username and password or other credentials of authentication as well as post-secondary educational institutions' access to students' or prospective students' similar online accounts. Your Committees further find that this measure is based upon uniform legislation and seeks to provide privacy protections for employees and students in the State.

Your Committees received testimony expressing concern that this measure as currently drafted may not protect student and employee privacy in a meaningful way and may contain loopholes that may result in unintended consequences.

Accordingly, your Committees have amended this measure by:

- (1) Deleting its contents and replacing it with the American Civil Liberties Union's Personal Online Account Privacy Act, which:
 - (A) Prohibits employers and educational institutions from:
 - (i) Requiring, requesting, or coercing an employee or applicant, or student or prospective student, respectively, to disclose or provide access to a personal online account, the non-public contents of a personal online account, a technological device for purposes of gaining access to a personal online account, or account settings to increase third party access to the contents of a personal online account;
 - (ii) Requiring or coercing an employee or applicant, or student or prospective student, to add anyone, including the employer, to their list of contacts associated with a personal online account;
 - (iii) Taking any action or threatening to take any action to discharge, discipline, or penalize an employee or student, respectively, in response to an employee's or student's refusal to disclose any information or take any action; and
 - (iv) Failing or refusing to hire any applicant or admit any prospective student as a result of an applicant's or prospective student's refusal to disclose any information or take any action;

- (B) Provides circumstances in which employers and educational institutions may request or require access to certain information;
 - (C) Provides conditions under which the employers and educational institutions may prohibit the use of personal online accounts;
 - (D) Provides procedures for if an employer or educational institution inadvertently receives prohibited personal online account information;
 - (E) Allows for legal action to be taken against violators;
 - (F) Prohibits admission of data obtained, accessed, used, copied, disclosed, or retained in violation of this measure in any criminal, civil, administrative, or other proceeding; and
 - (G) Inserts a severability clause;
- (2) Inserting an effective date of January 1, 3000, to encourage further discussion; and
 - (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Labor and Commerce, Consumer Protection, and Health that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 2173, H.D. 2, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 2173, H.D. 2, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chairs on behalf of the Committees.

Labor: Ayes, 4. Noes, none. Excused, 1 (Taniguchi).

Commerce, Consumer Protection, and Health: Ayes, 6. Noes, none. Excused, 1 (Ihara).

SCRep. 3205 (Joint) Labor and Judiciary on H.B. No. 2341

The purpose and intent of this measure is to:

- (1) Allow the Employees' Retirement System (ERS) to make direct payments to spouses or former spouses of ERS members or retirants to include former spouses or former members with vested benefit status when the former spouse has been awarded all or a portion of ERS retirement benefits as ordered or decreed in a domestic relations proceeding;
- (2) Make ERS benefits payable to an alternate payee; and
- (3) Delay implementation of Act 263, Session Laws of Hawaii 2016, to July 1, 2020.

Your Committees received testimony in support of this measure from the Board of Trustees of the Employees' Retirement System and O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i. Your Committees received testimony in opposition to this measure from one individual.

Your Committees find that Act 263, Session Laws of Hawaii 2016 (Act 263), authorizes and requires the ERS to make direct payments to the spouse or former spouse of an ERS member or retirant when the spouse or former spouse has been awarded all or a portion of the member's or retirant's retirement benefits as part of a property division adjudicated, ordered, or decreed by a court in a domestic relations proceeding. Act 263 did not make any appropriations for its implementation; therefore, this measure authorizes necessary funding. In addition, this measure amends the scope and implementation date of Act 263 by making consistent the benefit period payable to alternate payees regardless of whether the domestic relations order is certified prior to or after the member, former member with vested benefit status, or retirant retires, and by delaying the implementation of Act 263 until July 1, 2020. Your Committees find that delay of the effective date is necessary for development and application of necessary resources to support implementation and fund the costs of computer system modifications, ERS member and other affected parties' education, and increased operational costs.

Your Committees have amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

Your Committees request that as this measure moves forward, your Committee on Ways and Means and the ERS work together to address the issue of designating the proper expending agency for the appropriation made in this measure.

As affirmed by the records of votes of the members of your Committees on Labor and Judiciary that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 2341, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 2341, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Labor: Ayes, 4. Noes, none. Excused, 1 (Ihara).

Judiciary: Ayes, 4. Noes, none. Excused, 1 (Kim).

SCRep. 3206 Labor on H.B. No. 2598

The purpose and intent of this measure is to:

- (1) Require the Department of Labor and Industrial Relations to establish paid family leave for all workers by January 1, 2020;
- (2) Authorize the Department of Labor and Industrial Relations to adopt interim rules;
- (3) Establish the Paid Family Leave Implementation Board to assist the Department of Labor and Industrial Relations and report to the Legislature;

- (4) Require the Legislative Reference Bureau to conduct a study, including an actuarial analysis, on aspects of implementing paid family leave; and
- (5) Establish and appropriate funds into and out of a paid family leave special fund.

Your Committee received testimony in support of this measure from the Office of the Governor; Department of Labor and Industrial Relations; Department of Human Services; Commission on the Status of Women; LGBT Caucus of the Democratic Party of Hawaii; Domestic Violence Action Center; Caring Across Generations; Planned Parenthood Votes Northwest and Hawaii; Hawaii State AFL-CIO; Filipina Advocacy Network; Hawai'i Women Lawyers; Community Alliance on Prisons; American College of Obstetricians and Gynecologists; PHOCUSED; American Association of University Women Hawaii; Hawaii Appleseed Center for Law & Economic Justice; Hawai'i Public Health Institute; Hawai'i State Democratic Women's Caucus; International Brotherhood of Electrical Workers Local Union 1260, AFL-CIO; Hawaii Women's Coalition; IMUAlliance; Hawaii State Teachers Association; Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO; Hawaii Children's Action Network; I.A.T.S.E. Local 665; YWCA Oahu; AARP Hawaii; O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i; Labor Caucus of the Democratic Party of Hawai'i; and four individuals. Your Committee received testimony in opposition to this measure from Hawaii Petroleum, Aloha Shell Service, Hawai'i Restaurant Association, Hawaii Credit Union League, Building Industry Association of Hawaii, Retail Merchants of Hawaii, Society of Human Resource Management-Hawaii Chapter; and Maui Chamber of Commerce. Your Committee received comments on this measure from the Department of Budget and Finance, Legislative Reference Bureau, Hawaii Food Industry Association, General Contractors Association of Hawaii, The Queen's Health Systems, and Highway Inn.

Your Committee finds that Hawaii's working families are especially vulnerable, and that the majority of Hawaii's workforce cannot afford to take unpaid leave to provide care for a newborn, bond with a new child, care for a family member with a serious health condition, or be a caregiver to an aging parent. Yet, for 240,000 employees who serve as primary caregivers to a family member, that is the dilemma they regularly face. Your Committee further finds that seven in ten children live in a household where both parents work, and over a quarter of children live in households with single parents; therefore, a lack of meaningful paid family leave policies makes such households especially vulnerable.

This measure will lay the groundwork to implement a paid family leave framework so that all employees can access leave benefits during times when they need to provide care for a family member.

Your Committee has amended this measure by:

- (1) Providing that the Department of Labor and Industrial Relations' selection of a paid family leave model shall give preference to universal coverage, ease of filing claims, speed of receiving benefits, minimal administrative costs, data collection capabilities, and speed of implementation;
- (2) Modifying the membership of the Paid Family Leave Implementation Board as follows:
 - (A) Designating that the Director of Human Resources Development, Comptroller, Chairperson of the Senate Committee on Labor, and Chairperson of the House of Representatives Committee on Labor are nonvoting members;
 - (B) Replacing the Insurance Commissioner with an insurance representative; and
 - (C) Adding a nonprofit budget and policy center representative, to be appointed by the Governor; and
- (3) Requiring, by January 1, 2020, and upon adoption of rules establishing paid family leave, that the Paid Family Leave Implementation Board develop and adopt recommendations to assist businesses complying with paid family that may include but not be limited to tax credits or deductions or grants for the hiring of temporary workers through the development of a supplemental fund; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Labor that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2598, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2598, H.D. 2, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 3207 (Joint) Labor and Commerce, Consumer Protection, and Health on H.B. No. 1778

The purpose and intent of this measure is to:

- (1) In the event of a controverted workers' compensation claim, require an injured employee's private health care plan to pay for or provide medical care, services, and supplies; provided that when the claim is accepted, the employer shall reimburse the private health care plan and injured employee; and
- (2) In the event of an accepted workers' compensation claim for leukemia, multiple myeloma, non-Hodgkin's lymphoma, or certain cancers by a firefighter with five or more years of service, require an employer to be liable for one hundred thirty-seven percent of medical care, services, and supplies.

Your Committees received testimony in support of this measure from Hawaii State Fire Council; Honolulu Fire Department; Office of the Mayor of the County of Hawaii; Maui County Department of Fire and Public Safety; Hawaii Fire Department of the County of Hawaii; Hawaii Fire Fighters Association, Local 1463, IAFF, AFL-CIO; and O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i. Your Committees received comments on this measure from the Department of Labor and Industrial Relations and Department of Human Resources Development.

Your Committees find that firefighters are exposed to multiple carcinogens and toxicants that are known or suspected to cause cancer through incident exposure as residential and vehicle fires release highly concentrated toxicants from plastics and synthetics. This exposure places firefighters at significantly higher risks than the general population of getting testicular cancer, multiple myeloma, non-Hodgkin's lymphoma, skin cancer, brain and malignant melanoma, rectal cancer, prostate cancer, buccal cavity and pharynx cancer, stomach cancer, colon cancer, and leukemia. Your Committees believe that providing sufficient medical coverage for firefighters recognizes the inherent occupational hazards that come with the job, ensures that firefighters receive proper medical treatment in a timely manner, and lessens the impact of emotional toil, financial burdens, and decreased quality of life on the families of firefighters diagnosed with cancer.

Your Committees have amended this measure by:

- (1) Inserting an effective date of January 1, 3000, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Labor and Commerce, Consumer Protection, and Health that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 1778, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 1778, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Labor: Ayes, 4. Noes, none. Excused, 1 (English).

Commerce, Consumer Protection, and Health: Ayes, 5. Noes, none. Excused, 2 (Nishihara, Ruderman).

SCRep. 3208 Labor on H.B. No. 1627

The purpose and intent of this measure is to:

- (1) Repeal provisions that allow individuals whose earning capacity is impaired by old age or physical or mental deficiency or injury to receive wages lower than the applicable minimum wage; and
- (2) Allow persons with intellectual disabilities to receive wages lower than the applicable minimum wage.

Your Committee received testimony in support of this measure from the LGBT Caucus of the Democratic Party of Hawai'i; Domestic Violence Action Center; Hawaii State AFL-CIO; Filipina Advocacy Network; International Brotherhood of Electrical Workers Local Union 1620, AFL-CIO; National Federation of the Blind Hawaii; IMUAlliance; Hawaii State Teachers Association; I.A.T.S.E. Local 665; O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i; Labor Caucus of the Democratic Party of Hawai'i; Hawai'i Alliance for Progressive Action; Progressive Democrats of Hawai'i; National Down Syndrome Society; and three individuals. Your Committee received testimony in opposition to this measure from the State Council on Developmental Disabilities, Brantley Center Inc., and three individuals. Your Committee received comments on this measure from the Department of Labor and Industrial Relations, Hawaii Disability Rights Center, Autism Society of Hawaii, Lanakila Pacific, and three individuals.

Your Committee finds that the existing Hawaii special minimum wage law allows employers to pay workers who are impaired by old age or disabilities subminimum wages in certain circumstances. Legislation that allows subminimum wages for certain individuals with disabilities was enacted under federal law in 1938, at a time when there were limited opportunities, few services, and even fewer technologies to enable workers with disabilities to engage in the workplace. Your Committee finds that with the high-cost of living in Hawaii and the availability and advancement of assistive technologies that can aid all workers, it is necessary that the State's policies are supportive and inclusive to allow all workers with disabilities to reach their full vocational and socioeconomic potential.

Your Committee hopes to assist the State in increasing employment opportunities for all workers in the State. Your Committee believes that providing the Department of Labor and Industrial Relations with additional resources and reporting requirements will allow for data collection to provide the Legislature with the necessary information to create improved employment policies going forward.

Accordingly, your Committee has amended this measure by:

- (1) Deleting language that would have allowed persons with intellectual disabilities to receive wages lower than the applicable minimum wage;
- (2) Clarifying that the Director of Labor and Industrial Relations no longer has the authority to issue special certificates to pay individuals impaired by old age or physical or mental deficiency wages that are lower than the applicable minimum wage;
- (3) Requiring the Department of Labor and Industrial Relations to submit annual reports to the Legislature relating to sustainable employment of individuals currently working at a subminimum wage and efforts to provide increased employment opportunities for individuals with disabilities;
- (4) Inserting a blank appropriation for one full-time equivalent (1.0 FTE) inspection and enforcement position within the Wage Standards Division of the Department of Labor and Industrial Relations; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Labor that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1627, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1627, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5; Ayes with Reservations (Taniguchi). Noes, none. Excused, none.

SCRep. 3209 (Joint) Economic Development, Tourism, and Technology and Public Safety, Intergovernmental, and Military Affairs on H.B. No. 1828

The purpose and intent of this measure is to allocate transient accommodations tax revenues to the Hawaii Tourism Authority to support initiatives, in conjunction with the Hawaii Lodging and Tourism Association, to mitigate the impact of the tourism industry on community areas and requires matching funds.

Your Committees received testimony in support of this measure from the O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, Hawai'i Lodging and Tourism Association, and one individual. Your Committees received testimony in opposition to this measure from one individual. Your Committees received comments on this measure from the Hawaii Tourism Authority.

Your Committees find that the tourism industry has grown exponentially throughout the years and continues to grow, with the number of visitor arrivals expected to reach 10,000,000 by 2020. While your Committees acknowledge the amount of revenue that the tourism industry brings in for Hawaii, the impacts to state infrastructure and natural resources cannot go unnoticed. Your Committees recognize that the natural beauty of Hawaii has attracted millions of visitors to its hiking trails, beaches, and parks. However, your Committees also recognize that due to the high traffic of visitors to those hiking trails, beaches, and parks, surrounding communities have been adversely affected. Your Committees believe that the residents of Hawaii are the number one priority of the State, and any negative impacts on communities affected by the tourism industry must be mitigated to ensure a pristine environment for those communities and residents of the State.

Your Committees have amended this measure by:

- (1) Deleting language that would have required the Hawaii Lodging and Tourism Association to work in conjunction with the Hawaii Tourism Authority and requiring, instead, that the Hawaii Lodging and Tourism Association provide input on any initiatives to mitigate the negative impacts on communities caused by tourism;
- (2) Allocating funds to the Na Ala Hele program from the transient accommodations tax revenue to:
 - (A) Improve access to and maintain state-controlled recreational trails statewide; and
 - (B) Develop and implement a public awareness campaign that promotes hiker safety and hiker etiquette education and outreach;
- (3) Inserting an appropriation of an unspecified amount to the fire departments of the counties of Maui, Kauai, Hawaii, and the City and County of Honolulu to support search and rescue missions of stranded hikers lost on hiking trails; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

Your Committees note that although the appropriation amounts are unspecified, the Department of Land and Natural Resources has supported an appropriation of \$2,000,000 to improve the Na Ala Hele trail maintenance, safety, and education program, and the counties have previously requested an appropriation of \$500,000 to be divided among the counties to support search and rescue missions of stranded hikers lost on hiking trails.

As affirmed by the records of votes of the members of your Committees on Economic Development, Tourism, and Technology and Public Safety, Intergovernmental, and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 1828, H.D. 3, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 1828, H.D. 3, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Economic Development, Tourism, and Technology: Ayes, 5. Noes, none. Excused, none.

Public Safety, Intergovernmental, and Military Affairs: Ayes, 5. Noes, none. Excused, none.

SCRep. 3210 (Joint) Water and Land and Public Safety, Intergovernmental, and Military Affairs on H.B. No. 2259

The purpose and intent of this measure is to:

- (1) Prohibit the holding of a marine event without a permit from the Department of Land and Natural Resources or prior authorization by the United States Coast Guard;
- (2) Allow individuals to apply for marine event permits up to one year in advance of the date of a proposed marine event; and
- (3) Require the Department of Land and Natural Resources to adopt rules to mitigate the hazards posed by vessels, thrill craft, drones, and other means used by spectators to observe or record regattas, marine parades, surfing contests, and other marine events in the waters of the State.

Your Committees received testimony in support of this measure from two individuals. Your Committees received comments on this measure from the Department of Land and Natural Resources.

Your Committees find that marine events often require more than one year of advanced planning in light of the many responsibilities involved. Event organizers experience hardships when the Department of Land and Natural Resources is unable to approve or deny permit applications well in advance of proposed events. Many individuals have expressed interest in applying to the Department of Land and Natural Resources for marine event permits up to one year in advance of an event, and this measure establishes a permit application system to enable individuals to do so.

Your Committees further find that regattas, marine parades, surfing contests, and other marine events in the State are immensely popular. During these events, ocean conditions can be extremely hazardous to participants and spectators. Furthermore, spectators may use vessels, thrill craft, drones, and other means to observe and capture photos and videos of these events, which may interfere with the event, infringe upon an event organizer's exclusive use of areas designated for use during the event, and put event participants

at risk of serious injury or death. This measure requires the Department of Land and Natural Resources to adopt rules to mitigate such hazards.

Your Committees have amended this measure by:

- (1) Adopting language suggested by the Department of Land and Natural Resources that:
 - (A) Requires a marine event permit applicant to submit valid insurance and proof of approval from the land owner;
 - (B) Requires the Department of Land and Natural Resources to use its best efforts to grant or deny a marine event permit within thirty days of receiving a marine event permit application, rather than requiring the Department to grant or deny the permit within that time frame;
 - (C) Establishes a process to request for a cancellation of a marine event permit; and
 - (D) Authorizes, rather than requires, the Department of Land and Natural Resources to adopt rules for marine event permits;
- (2) Requiring the Department of Land and Natural Resources to set a fee for the issuance of marine event permits and collect a \$250 nonrefundable deposit, which shall be retained by the Department if the marine event permit is cancelled within sixty days of the scheduled date of the marine event;
- (3) Clarifying that the Department of Land and Natural Resources may issue a marine event permit for the exclusive use of state waters, which shall be subject to a higher fee;
- (4) Authorizing, rather than requiring, the Department of Land and Natural Resources to adopt rules to mitigate hazards to event spectators; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Water and Land and Public Safety, Intergovernmental, and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 2259, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 2259, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Water and Land: Ayes, 3. Noes, none. Excused, 2 (Gabbard, Inouye).

Public Safety, Intergovernmental, and Military Affairs: Ayes, 4. Noes, none. Excused, 1 (Wakai).

SCRep. 3211 Labor on Gov. Msg. No. 563

Recommending that the Senate advise and consent to the nomination of the following:

BOARD OF TRUSTEES OF THE EMPLOYEES' RETIREMENT SYSTEM

G.M. No. 563 WESLEY MACHIDA, for a term to expire 01-01-2019

Your Committee reviewed the personal history, resume, and statement submitted by Wesley Machida for service on the Board of Trustees of the Employees' Retirement System.

Your Committee received testimony in support of the nomination for the appointment of Mr. Machida from the Office of the Governor, Department of Accounting and General Services, Department of Budget and Finance, Department of Human Resources Development, Employees' Retirement System, and eight individuals.

Upon review of the testimony, your Committee finds that Mr. Machida's experience in providing financial services, and extensive background and knowledge qualify him for appointment to the Board of Trustees of the Employees' Retirement System as a citizen of the State with at least three years of experience providing professional services. Mr. Machida has served as the Hawaii Director of Finance, where he developed the annual \$13.5 billion statewide budget, and as Executive Director of the Employees' Retirement System, where he oversaw the \$14 billion public pension fund. Mr. Machida also has over thirty years of experience with government financial services, including accounting, auditing, administration, and management. Your Committee finds that Mr. Machida brings to the Board extensive expertise in working to assist the more than 125,000 members, retirees, and beneficiaries, and their families, of the Employees' Retirement System, and is committed to fulfilling the Board's fiduciary duty to guide and protect the health of the System.

As affirmed by the record of votes of the members of your Committee on Labor that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (English).

SCRep. 3212 Ways and Means on S.C.R. No. 29

The purpose and intent of this measure is to request the Auditor to conduct a financial audit of the University of Hawaii's activities related to Mauna Kea.

Specifically, this measure requests the Auditor to conduct a financial audit on the following as they relate to Mauna Kea:

- (1) The University of Hawaii System;
- (2) The University of Hawaii Institute for Astronomy;
- (3) The Research Corporation of the University of Hawaii;

- (4) The Office of Mauna Kea Management;
- (5) The Mauna Kea observatories and the Mauna Kea observatories support services;
- (6) The Mauna Kea Visitor Information Station;
- (7) Financial expenditures from the University of Hawaii research and training revolving fund;
- (8) All contracts or professional services;
- (9) Various aspects of Mauna Kea comprehensive management plan;
- (10) The negotiation process for telescope subleases;
- (11) Opportunity costs attributed to the failure of the University of Hawaii to adequately balance observatory development with its public trust obligations; and
- (12) Funding sources.

Your Committee received written comments in support of this measure from the Office of Hawaiian Affairs; Hoomanapono Political Action Committee; and OCC Legislative Priorities Committee, Democratic Party of Hawaii.

Your Committee received written comments in opposition to this measure from the University of Hawaii System.

The Office of the Auditor submitted written comments on this measure.

Your Committee finds that Mauna Kea holds unique and significant spiritual, cultural, historical, and scientific value to Hawaii and the world. Your Committee further finds that the activities of the University of Hawaii related to Mauna Kea have been the subject of scrutiny by certain members of the public and that an independent audit of these activities will help to provide a balanced and accurate assessment of the University's stewardship of the area.

Your Committee has amended this measure by replacing the substantive contents of the audit with the audit subjects contained in Senate Bill No. 757, Senate Draft 2, Regular Session of 2018.

Specifically, your Committee has amended the title and body of the measure by requesting the Auditor to conduct the following as they relate to the University of Hawaii's activities on Mauna Kea:

- (1) A financial audit of the Office of Mauna Kea Management;
- (2) A performance audit of the Research Corporation of the University of Hawaii;
- (3) A performance audit of certain aspects of the legal affairs and university general counsel office of the University of Hawaii System; and
- (4) An organizational management structure audit of the entities that have jurisdictional authority of Mauna Kea.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 29, S.D. 1, as amended herein, and recommends its adoption in the form attached hereto as S.C.R. No. 29, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 9. Noes, none. Excused, 2 (Keith-Agaran, Shimabukuro).

SCRep. 3213 Ways and Means on S.R. No. 14

The purpose and intent of this measure is to urge the Department of Taxation to study the impact to the State of the recent changes to federal income tax law.

Your Committee received testimony in support of this measure from IMUAlliance and OCC Legislative Priorities Committee, Democratic Party of Hawaii.

Your Committee finds that, in light of the significant recent amendments to federal tax law, the Department of Taxation should be urged to determine the impact to the State from these changes, including determining any fiscal impact on state tax revenue and identifying provisions of state law that may need to be conformed to new federal provisions.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 14 and recommends its adoption.

Signed by the Chair on behalf of the Committee.
Ayes, 9. Noes, none. Excused, 2 (Keith-Agaran, Shimabukuro).

SCRep. 3214 Public Safety, Intergovernmental, and Military Affairs on S.C.R. No. 40

The purpose and intent of this measure is to request the state Department of Defense to convene an emergency management agency review task force to:

- (1) Review the Hawaii Emergency Management Agency's operations with respect to notifying the public of imminent ballistic missile attacks;
- (2) Consider whether the Hawaii Emergency Management Agency should be the entity that notifies the public of imminent ballistic missile attacks; and

- (3) Evaluate whether the Hawaii Emergency Management Agency is capable of notifying the public of imminent ballistic missile attacks.

Your Committee received testimony in support of this measure from the Hawaii Emergency Management Agency, Disability and Communication Access Board, O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, and one individual. Your Committee received comments on this measure from the State Emergency Communications Committee and Hawaii Association of Broadcasters, Inc.

Your Committee finds that on January 13, 2018, the Hawaii Emergency Management Agency issued a ballistic missile alert that incorrectly informed mobile phone users across the State that Hawaii was under a missile attack. Although officials in the Hawaii Emergency Management Agency and other governmental agencies almost immediately knew that the alert was false, mobile users were not informed the alert was false until approximately forty minutes after the ballistic missile alert was broadcasted.

Your Committee further finds that on January 30, 2018, the Governor and Adjutant General released the results of an internal investigative memorandum regarding the false ballistic missile alert. The memorandum stated that various factors, such as insufficient management controls and poor computer software design, contributed to the dissemination of the false ballistic missile alert and delay in the dissemination of the correction message. Your Committee finds that the false alert provides an opportunity to evaluate existing procedures and protocols and identify solutions.

Your Committee has amended this measure by:

- (1) Adding the Executive Director of the Disability and Communication Access Board, or the Executive Director's designee, as a member of the emergency management agency review task force;
- (2) Adding the Chair of the State Emergency Communications Committee, or the Chair's designee, as a member of the emergency management agency review task force;
- (3) Adding the President of The Hawaii Association of Broadcasters, Inc., or the President's designee, as a member of the emergency management agency review task force; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 40, as amended herein, and recommends its adoption in the form attached hereto as S.C.R. No. 40, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Ihara).

SCRep. 3215 Ways and Means on S.C.R. No. 30

The purpose and intent of this measure is to urge the Department of Taxation to study the impact of recent changes to federal income tax law on the State's income tax law and tax revenue.

Your Committee received testimony in support of this measure from IMUAlliance and OCC Legislative Priorities Committee, Democratic Party of Hawaii.

Your Committee received comments on this measure from the Department of Taxation.

Your Committee finds that, due to the significance of recent changes made to the federal tax code, the Department of Taxation should study the potential impact of those changes on the State, including impact on revenue, and consider whether any changes to state law are needed.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 30 and recommends its adoption.

Signed by the Chair on behalf of the Committee.
Ayes, 9. Noes, none. Excused, 2 (Keith-Agaran, Shimabukuro).

SCRep. 3216 Education on S.C.R. No. 25

The purpose and intent of this measure is to request the Department of Education to report to the Legislature on the status of physical education in Hawaii's public schools.

Your Committee received testimony in support of this measure from the Department of Education, Hawai'i Public Health Institute, American Heart Association, Pioneering Healthier Communities of Honolulu, and O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i. Your Committee received comments on this measure from the Department of Health.

Your Committee finds that physical education programs are critical to providing students with the skills necessary to achieve and maintain life-long physical fitness. Regular physical activity and physical fitness can play a significant role in promoting health and preventing chronic illnesses such as heart disease, cancer, type 2 diabetes, and osteoporosis.

Your Committee further finds that the Hawaii Content and Performance Standards III for physical education were based on national standards in 2005, but have not been updated since then and do not align with the National Physical Education Standards developed in 2013. Because of the importance and benefits of physical education for students, the State wants to ensure that Hawaii's public schools are maintaining national standards and best-practices for physical education.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 25 and recommends its adoption.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Espero, Kim).

SCRep. 3217 Agriculture and Environment on S.C.R. No. 57

The purpose and intent of this measure is to urge the Board of Agriculture to review procedures relating to aquaculture importation permit applications and to submit a report to the Legislature.

Your Committee received testimony in support of this measure from Kohala Mountain Fish Company, O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, and Mari's Gardens. Your Committee received comments on this measure from the Department of Agriculture.

Your Committee finds that local farmers and others are ready and able to bring additional aquaculture to the State that can assist the State in achieving local food production and sustainability goals; however, there are reports of several incidents in which those seeking to import aquaculture into the State have not received permits from the Department of Agriculture within the maximum time periods or within a reasonable amount of time after the expiration of the maximum time periods established in the Hawaii Administrative Rules. The intent of this measure is to obtain a more complete set of facts and circumstances regarding reported failures to adhere to the required time periods in order to determine an appropriate, well-informed solution.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 57 and recommends its adoption.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Nishihara).

SCRep. 3218 Agriculture and Environment on S.C.R. No. 68

The purpose and intent of this measure is to request the Environmental Council to submit a report to the Legislature on the process of revising environmental impact statement rules, title 11, chapter 200, Hawaii Administrative Rules.

Your Committee received testimony in support of this measure from the Office of Environmental Quality Control and O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i.

Your Committee finds that the Environmental Council serves as a liaison between the Director of Health and the public on matters concerning ecology and environmental quality, monitors the progress of state, county, and federal agencies in achieving the State's environmental goals and policies, and publishes its findings in its annual reports. Your Committee further finds that the Environmental Council's administrative rules were last revised in 1996. The Environmental Council, with assistance from University of Hawaii law students, met throughout 2017 to prepare revised rules and will soon hold public hearings pursuant to chapter 91, Hawaii Revised Statutes, on the working draft version 0.4 of the proposed revised rules.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 68 and recommends its adoption.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Nishihara).

SCRep. 3219 Agriculture and Environment on S.R. No. 28

The purpose and intent of this measure is to urge the Board of Agriculture to review procedures relating to aquaculture importation permit applications and to submit a report to the Legislature.

Your Committee received testimony in support of this measure from Kohala Mountain Fish Company, O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, and Mari's Gardens. Your Committee received comments on this measure from the Department of Agriculture.

Your Committee finds that local farmers and others are ready and able to bring additional aquaculture to the State that can assist the State in achieving local food production and sustainability goals; however, there are reports of several incidents in which those seeking to import aquaculture into the State have not received permits from the Department of Agriculture within the maximum time periods or within a reasonable amount of time after the expiration of the maximum time periods established in the Hawaii Administrative Rules. The intent of this measure is to obtain a more complete set of facts and circumstances regarding reported failures to adhere to the required time periods in order to determine an appropriate, well-informed solution.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 28 and recommends its adoption.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Nishihara).

SCRep. 3220 Public Safety, Intergovernmental, and Military Affairs on S.C.R. No. 51

The purpose and intent of this measure is to request the Governor to proclaim the State of Hawaii as a Purple Heart State in honor of the service and sacrifice of our nation's uniformed armed services personnel who were wounded or killed while protecting our freedom.

Your Committee received testimony in support of this measure from the Department of Defense; Military Order of the Purple Heart; Rainbow Chapter 483, Military Order of the Purple Heart; Oahu County Committee on Legislative Priorities of the Democratic Party of Hawaii; and three individuals.

Your Committee finds that the contributions and sacrifices of the members of the military from Hawaii have been vital in maintaining the freedoms and way of life enjoyed by our citizens. The Purple Heart Medal is a United States military decoration awarded in the name of the President of the United States to those military service personnel who are killed or wounded while serving. Your Committee finds that many citizens of our community have earned the Purple Heart Medal as a result of being wounded while engaging in combat with an enemy force, a singularly meritorious act of essential service. Therefore, your Committee finds that it is important to demonstrate proper admiration and appreciation for those who serve our country in the armed forces, particularly those service members who are killed or wounded while serving. Accordingly, this measure requests the Governor to proclaim Hawaii as a Purple Heart State.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 51 and recommends its adoption.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Wakai).

SCRep. 3221 Education on S.C.R. No. 13

The purpose and intent of this measure is to request the Department of Education to convene a working group to review afterschool programs in Hawaii's public schools and to establish an afterschool program advisory council.

Your Committee received testimony in support of this measure from the Department of Education, American Heart Association, Hawai'i Afterschool Alliance, Pioneering Healthier Communities of Honolulu, Hawaii Youth Services Network, HE'E Coalition, O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, and Parents and Children Together. Your Committee received comments on this measure from the Department of Human Services and Office of Youth Services.

Your Committee finds that afterschool programs are effective because they enrich students' experiences outside of school, while also improving their attendance, grades, and behavior in school and at the same time allow working parents to continue working during afterschool hours. At a time when middle- and low-income families and communities are struggling financially and students are falling behind academically, afterschool programs are needed now more than ever.

Your Committee further finds that House Concurrent Resolution No. 137, S.D. 2, Regular Session of 2016, requested the Department of Education to convene a working group with various stakeholders to review afterschool programs in Hawaii's public middle and intermediate schools and report its findings and recommendations to the 2017 Legislature. Because quality afterschool programs generate significant returns on investment for society as a whole, it is important for the working group to continue to meet to further its work.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 13, as amended herein, and recommends that it be referred to your Committee on Ways and Means, in the form attached hereto as S.C.R. No. 13, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Espero, Kim).

SCRep. 3222 Education on S.R. No. 9

The purpose and intent of this measure is to request the Department of Education to convene a working group to review afterschool programs in Hawaii's public schools and to establish an afterschool program advisory council.

Your Committee received testimony in support of this measure from the O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, HE'E Coalition, Hawai'i Afterschool Alliance, Pioneering Healthier Communities of Honolulu, and Hawaii Youth Services Network. Your Committee received comments on this measure from the Department of Human Services and Office of Youth Services.

Your Committee finds that afterschool programs are effective because they enrich students' experiences outside of school, while also improving their attendance, grades, and behavior in school and at the same time allow working parents to continue working during afterschool hours. At a time when middle- and low-income families and communities are struggling financially and students are falling behind academically, afterschool programs are needed now more than ever.

Your Committee further finds that House Concurrent Resolution No. 137, S.D. 2, Regular Session of 2016, requested the Department of Education to convene a working group with various stakeholders to review afterschool programs in Hawaii's public middle and intermediate schools and report its findings and recommendations to the 2017 Legislature. Because quality afterschool programs generate significant returns on investment for society as a whole, it is important for the working group to continue to meet to further its work.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 9, as amended herein, and recommends that it be referred to your Committee on Ways and Means, in the form attached hereto as S.R. No. 9, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Espero, Kim).

SCRep. 3223 Agriculture and Environment on S.C.R. No. 59

The purpose and intent of this measure is to urge the Agribusiness Development Corporation to start a farm apprenticeship program.

Your Committee received testimony in support of this measure from the Agribusiness Development Corporation, Department of Agriculture, University of Hawaii System, O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, Kulahaven Farms LLC, Hawaii Farmers Union United, and ten individuals. Your Committee received testimony in opposition to this measure from the Hawaii Cattlemen's Council, Inc.

Your Committee finds that activities on Agribusiness Development Corporation (ADC) lands must meet the current standards for agriculture and food, including compliance with United States Department of Agriculture Good Agricultural Practices and Good Handling Practices, United States Food and Drug Administration's Food Safety Modernization Act, Migrant and Seasonal Agricultural Worker Protection Act, and United States Environmental Protection Agency's Agricultural Worker Protection Standard safety best practices. Your Committee further finds that many farmers lack the fiscal resources, farming experience, business acumen, and English language skills necessary to navigate such federal regulations, and the ADC is not equipped for constant oversight and vigilance to manage a diverse population of farmers. Your Committee believes that establishment of a farm apprenticeship program under the ADC will provide training and learning opportunities to assist Hawaii's farmers and agricultural community at large.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 59 and recommends that it be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Nishihara).

SCRep. 3224 Agriculture and Environment on S.R. No. 30

The purpose and intent of this measure is to urge the Agribusiness Development Corporation to start a farm apprenticeship program.

Your Committee received testimony in support of this measure from the Agribusiness Development Corporation, Department of Agriculture, University of Hawaii System, O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, Kulahaven Farms LLC, Hawaii Farmers Union United, and ten individuals. Your Committee received testimony in opposition to this measure from the Hawaii Cattlemen's Council, Inc.

Your Committee finds that activities on Agribusiness Development Corporation (ADC) lands must meet the current standards for agriculture and food, including compliance with United States Department of Agriculture Good Agricultural Practices and Good Handling Practices, United States Food and Drug Administration's Food Safety Modernization Act, Migrant and Seasonal Agricultural Worker Protection Act, and United States Environmental Protection Agency's Agricultural Worker Protection Standard safety best practices. Your Committee further finds that many farmers lack the fiscal resources, farming experience, business acumen, and English language skills necessary to navigate such federal regulations, and the ADC is not equipped for constant oversight and vigilance to manage a diverse population of farmers. Your Committee believes that establishment of a farm apprenticeship program under the ADC will provide training and learning opportunities to assist Hawaii's farmers and agricultural community at large.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 30 and recommends that it be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Nishihara).

SCRep. 3225 Public Safety, Intergovernmental, and Military Affairs on S.C.R. No. 140

The purpose and intent of this measure is to request the State to strengthen its emergency preparedness by repositioning portions of its emergency medical supply caches from Oahu to the neighbor islands.

Your Committee did not receive any testimony on this measure.

Your Committee finds that appropriate emergency preparedness by the State is essential for securing public welfare. Your Committee also finds that the State's emergency medical supply caches are centralized on the island of Oahu. While this setup is cost-effective, the neighbor islands may not be able to accommodate displaced residents or receive needed supplies of their own if a major disaster were to decimate Oahu. Moreover, your Committee finds that federal funding for the expansion and maintenance of existing medical supply caches on the neighbor islands was cut earlier this year. Therefore, your Committee finds that it is in the best interest of the State to have a contingency plan in the event a disaster decimates Oahu or prevents the transportation of emergency medical supply caches to the neighbor islands.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 140 and recommends that it be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Wakai).

SCRep. 3226 Public Safety, Intergovernmental, and Military Affairs on S.R. No. 90

The purpose and intent of this measure is to request the State to strengthen its emergency preparedness by repositioning portions of its emergency medical supply caches from Oahu to the neighbor islands.

Your Committee received testimony in support of this measure from Ho'omana Pono, LLC.

Your Committee finds that appropriate emergency preparedness by the State is essential for securing public welfare. Your Committee also finds that the State's emergency medical supply caches are centralized on the island of Oahu. While this setup is cost-effective, the neighbor islands may not be able to accommodate displaced residents or receive needed supplies of their own if a major disaster were to decimate Oahu. Moreover, your Committee finds that federal funding for the expansion and maintenance of existing medical supply caches on the neighbor islands was cut earlier this year. Therefore, your Committee finds that it is in the best interest of the State to have a contingency plan in the event a disaster decimates Oahu or prevents the transportation of emergency medical supply caches to the neighbor islands.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 90 and recommends that it be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Wakai).

SCRep. 3227 Public Safety, Intergovernmental, and Military Affairs on S.C.R. No. 56

The purpose and intent of this measure is to urge each of the county councils to adopt supplemental rules pursuant to section 514B-6, Hawaii Revised Statutes, to ensure the conformance of condominium property regimes to the purposes and provisions of county zoning and development ordinances and chapter 205, Hawaii Revised Statutes, including section 205-4.6, Hawaii Revised Statutes, where applicable.

Your Committee received comments on this measure from the Department of Agriculture.

Your Committee finds that expanded development of agricultural lands through the existing condominium property regime process inhibits a county's ability to plan, regulate, and enforce its agricultural plans, goals, and infrastructure services. Your Committee also finds that section 205-4.5(f), Hawaii Revised Statutes, specifically allows agricultural land developers to bypass county subdivision requirements under certain conditions, which can promote the condominium property regime process over the county subdivision process. Your Committee further finds that the counties should adopt supplemental rules to ensure the conformance of condominium property regimes to the purposes and provisions of county zoning and development ordinances.

Your Committee has amended this measure by making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 56, as amended herein, and recommends that it be referred to your Committee on Commerce, Consumer Protection, and Health, in the form attached hereto as S.C.R. No. 56, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Wakai).

SCRep. 3228 Public Safety, Intergovernmental, and Military Affairs on S.R. No. 27

The purpose and intent of this measure is to urge each of the county councils to adopt supplemental rules pursuant to section 514B-6, Hawaii Revised Statutes, to ensure the conformance of condominium property regimes to the purposes and provisions of county zoning and development ordinances and chapter 205, Hawaii Revised Statutes, including section 205-4.6, Hawaii Revised Statutes, where applicable.

Your Committee received testimony in opposition to this measure from the Hawaii Cattlemen's Council, Inc. Your Committee received comments on this measure from the Department of Agriculture.

Your Committee finds that expanded development of agricultural lands through the existing condominium property regime process inhibits a county's ability to plan, regulate, and enforce its agricultural plans, goals, and infrastructure services. Your Committee also finds that section 205-4.5(f), Hawaii Revised Statutes, specifically allows agricultural land developers to bypass county subdivision requirements under certain conditions, which can promote the condominium property regime process over the county subdivision process. Your Committee further finds that the counties should adopt supplemental rules to ensure the conformance of condominium property regimes to the purposes and provisions of county zoning and development ordinances.

Your Committee has amended this measure by making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 27, as amended herein, and recommends that it be referred to your Committee on Commerce, Consumer Protection, and Health, in the form attached hereto as S.R. No. 27, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Wakai).

SCRep. 3229 Public Safety, Intergovernmental, and Military Affairs on S.C.R. No. 66

The purpose and intent of this measure is to request that the United States Pacific Command develop and implement a warning system for military-related emergencies affecting the State and be the sole agency responsible for issuing public alerts or warnings relating to military matters affecting the State.

Your Committee received testimony in support of this measure from the O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i.

Your Committee finds that to ensure the protection and safety of the State's citizens, it is necessary that citizens be properly and timely informed of any actual military-related threat. Under existing law, the Hawaii Emergency Management Agency is the agency charged with issuing public alerts and warnings in cases of emergency or disaster. However, the events of January 13, 2018, in which the Hawaii Emergency Management Agency issued a false incoming ballistic missile alert warning that caused widespread distress and panic across the State revealed that the Agency has the capability and authority to issue such a warning despite lacking the necessary resources to detect and confirm that such a military-related threat actually exists. Your Committee finds that it is essential to correct this flaw in the State's emergency alert and warning system. Accordingly, this measure requests that the United States Pacific Command be the sole agency responsible for issuing public alerts or warnings relating to military matters affecting the State.

Your Committee has amended this measure by making a technical, nonsubstantive amendment to its title for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 66, as amended herein, and recommends that it be referred to your Committee on Ways and Means, in the form attached hereto as S.C.R. No. 66, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Wakai).

SCRep. 3230 Public Safety, Intergovernmental, and Military Affairs on S.R. No. 36

The purpose and intent of this measure is to request that the United States Pacific Command develop and implement a warning system for military-related emergencies affecting the State and be the sole agency responsible for issuing public alerts or warnings relating to military matters affecting the State.

Your Committee received testimony in support of this measure from the O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i and Ho'omana Pono, LLC.

Your Committee finds that to ensure the protection and safety of the State's citizens, it is necessary that citizens be properly and timely informed of any actual military-related threat. Under existing law, the Hawaii Emergency Management Agency is the agency charged with issuing public alerts and warnings in cases of emergency or disaster. However, the events of January 13, 2018, in which the Hawaii Emergency Management Agency issued a false incoming ballistic missile alert warning that caused widespread distress and panic across the State revealed that the Agency has the capability and authority to issue such a warning despite lacking the necessary resources to detect and confirm that such a military-related threat actually exists. Your Committee finds that it is essential to correct this flaw in the State's emergency alert and warning system. Accordingly, this measure requests that the United States Pacific Command be the sole agency responsible for issuing public alerts or warnings relating to military matters affecting the State.

Your Committee has amended this measure by making a technical, nonsubstantive amendment to its title for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 36, as amended herein, and recommends that it be referred to your Committee on Ways and Means, in the form attached hereto as S.R. No. 36, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Wakai).

SCRep. 3231 Public Safety, Intergovernmental, and Military Affairs on S.C.R. No. 52

The purpose and intent of this measure is to:

- (1) Request the State to include in its list of first responders a network of organizations contracted to immediately provide food, beverages, and ice to residents during a natural disaster;
- (2) Request the Hawaii Emergency Management Agency to develop a list of organizations willing to contract with the State to immediately provide food, beverages, and ice to residents during a natural disaster; and
- (3) Request the Hawaii Emergency Management Agency to submit the list of organizations with the Agency's findings and recommendations, including any proposed legislation, to the Legislature no later than twenty days prior to the convening of the Regular Session of 2019.

Your Committee received testimony in support of this measure from the O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i.

Your Committee finds that in the event of a natural disaster, Hawaii's residents need a recommended fourteen days' worth of adequate food, water, medication, and other necessities. Your Committee also finds that because Hawaii is an island state located in the middle of the Pacific Ocean, the occurrence of a major natural disaster may make an adequate supply of food and other necessary supplies inaccessible. Your Committee further finds that it is in the best interest of the State to proactively prepare for natural disasters, including by securing a strong network of relief supply organizations to ensure that impacted residents have access to food, water, and supplies. Accordingly, this measure requests the State and the Hawaii Emergency Management Agency to develop a network of organizations that can be contracted to immediately provide food, beverages, and ice to residents during a natural disaster.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 52 and recommends that it be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Wakai).

SCRep. 3232 Public Safety, Intergovernmental, and Military Affairs on S.R. No. 23

The purpose and intent of this measure is to:

- (1) Request the State to include in its list of first responders a network of organizations contracted to immediately provide food, beverages, and ice to residents during a natural disaster;
- (2) Request the Hawaii Emergency Management Agency to develop a list of organizations willing to contract with the State to immediately provide food, beverages, and ice to residents during a natural disaster; and
- (3) Request the Hawaii Emergency Management Agency to submit the list of organizations with the Agency's findings and recommendations, including any proposed legislation, to the Legislature no later than twenty days prior to the convening of the Regular Session of 2019.

Your Committee received testimony in support of this measure from the O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i.

Your Committee finds that in the event of a natural disaster, Hawaii's residents need a recommended fourteen days' worth of adequate food, water, medication, and other necessities. Your Committee also finds that because Hawaii is an island state located in the middle of the Pacific Ocean, the occurrence of a major natural disaster may make an adequate supply of food and other necessary supplies inaccessible. Your Committee further finds that it is in the best interest of the State to proactively prepare for natural disasters, including by securing a strong network of relief supply organizations to ensure that impacted residents have access to food, water, and supplies. Accordingly, this measure requests the State and the Hawaii Emergency Management Agency to develop a network of organizations that can be contracted to immediately provide food, beverages, and ice to residents during a natural disaster.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 23 and recommends that it be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Wakai).

SCRep. 3233 (Joint) Public Safety, Intergovernmental, and Military Affairs and Judiciary on S.C.R. No. 99

The purpose and intent of this measure is to urge the County Council of the County of Hawaii to exercise its power of eminent domain to condemn Naalehu Theater to preserve the theater's historic legacy.

Your Committees received testimony in support of this measure from the O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i. Your Committees received comments on this measure from the Department of Land and Natural Resources.

Your Committees find that it is important to preserve historic landmarks and buildings in the State. The Naalehu Theater on the island of Hawaii is the southernmost theater in the country and was constructed in 1925 by the Hutchinson Sugar Company. Through the years, the theater has hosted live performances, community events, and movie screenings for the public. However, your Committees find that the theater, which is privately owned, has fallen into disrepair and that the current owner has not acted to repair the building. Additionally, the owner has respectfully rejected considerations for listing the property on the Hawaii Register of Historic Places and National Register of Historic Places by the Hawaii Historic Places Review Board, which if accepted would qualify the theater for financial resources and grants, media exposure, and a twenty percent federal reimbursement for approved repairs. Accordingly, your Committees urge the Hawaii County Council to take appropriate actions to condemn the theater so that its historic legacy might be preserved.

As affirmed by the records of votes of the members of your Committees on Public Safety, Intergovernmental, and Military Affairs and Judiciary that are attached to this report, your Committees concur with the intent and purpose of S.C.R. No. 99 and recommend that it be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
Public Safety, Intergovernmental, and Military Affairs: Ayes, 5. Noes, none. Excused, none.
Judiciary: Ayes, 5. Noes, none. Excused, none.

SCRep. 3234 (Joint) Public Safety, Intergovernmental, and Military Affairs and Judiciary on S.R. No. 58

The purpose and intent of this measure is to urge the County Council of the County of Hawaii to exercise its power of eminent domain to condemn Naalehu Theater to preserve the theater's historic legacy.

Your Committees received testimony in support of this measure from the O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i. Your Committees received comments on this measure from the Department of Land and Natural Resources.

Your Committees find that it is important to preserve historic landmarks and buildings in the State. The Naalehu Theater on the island of Hawaii is the southernmost theater in the country and was constructed in 1925 by the Hutchinson Sugar Company. Through the years, the theater has hosted live performances, community events, and movie screenings for the public. However, your Committees find that the theater, which is privately owned, has fallen into disrepair and that the current owner has not acted to repair the building. Additionally, the owner has respectfully rejected considerations for listing the property on the Hawaii Register of Historic Places and National Register of Historic Places by the Hawaii Historic Places Review Board, which if accepted would qualify the theater for financial resources and grants, media exposure, and a twenty percent federal reimbursement for approved repairs. Accordingly, your Committees urge the Hawaii County Council to take appropriate actions to condemn the theater so that its historic legacy might be preserved.

As affirmed by the records of votes of the members of your Committees on Public Safety, Intergovernmental, and Military Affairs and Judiciary that are attached to this report, your Committees concur with the intent and purpose of S.R. No. 58 and recommend that it be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Public Safety, Intergovernmental, and Military Affairs: Ayes, 5. Noes, none. Excused, none.

Judiciary: Ayes, 5. Noes, none. Excused, none.

SCRep. 3235 (Joint) Public Safety, Intergovernmental, and Military Affairs and Judiciary on S.C.R. No. 118

The purpose and intent of this measure is to urge the United States Congress to support and fund the scientific study of firearms violence and prevention.

Your Committees received testimony in support of this measure from the O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i and four individuals. Your Committees received testimony in opposition to this measure from one individual.

Your Committees find that gun violence is a serious public health concern affecting many individuals across the State and country. Your Committees further find that critical research into firearms violence would assist policymakers in better understanding the scale and causes of firearms violence and identify successful methods to reduce or prevent firearms violence. Therefore, your Committees find that the United States Congress should support and fund the scientific study of firearms violence and prevention.

As affirmed by the records of votes of the members of your Committees on Public Safety, Intergovernmental, and Military Affairs and Judiciary that are attached to this report, your Committees concur with the intent and purpose of S.C.R. No. 118 and recommend that it be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Public Safety, Intergovernmental, and Military Affairs: Ayes, 5. Noes, none. Excused, none.

Judiciary: Ayes, 5. Noes, none. Excused, none.

SCRep. 3236 (Joint) Public Safety, Intergovernmental, and Military Affairs and Judiciary on S.R. No. 75

The purpose and intent of this measure is to urge the United States Congress to support and fund the scientific study of firearms violence and prevention.

Your Committees received testimony in support of this measure from the O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i and one individual. Your Committees received testimony in opposition to this measure from the Institute for Rational and Evidence-based Legislation and one individual.

Your Committees find that gun violence is a serious public health concern affecting many individuals across the State and country. Your Committees further find that critical research into firearms violence would assist policymakers in better understanding the scale and causes of firearms violence and identify successful methods to reduce or prevent firearms violence. Therefore, your Committees find that the United States Congress should support and fund the scientific study of firearms violence and prevention.

As affirmed by the records of votes of the members of your Committees on Public Safety, Intergovernmental, and Military Affairs and Judiciary that are attached to this report, your Committees concur with the intent and purpose of S.R. No. 75 and recommend that it be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Public Safety, Intergovernmental, and Military Affairs: Ayes, 5. Noes, none. Excused, none.

Judiciary: Ayes, 5. Noes, none. Excused, none.

SCRep. 3237 (Joint) Economic Development, Tourism, and Technology and Judiciary on S.C.R. No. 147

The purpose and intent of this measure is to request the Hawaii Tourism Authority to send a letter to the United States and International Olympic Committees and Tokyo Organizing Committee of the Olympic and Paralympic Games stating that Hawaii is the ideal location for sports training for athletes for the 2020 Tokyo Olympics and Paralympic Games.

Your Committees received testimony in support of this measure from the O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i. Your Committees received comments on this measure from the Hawaii Tourism Authority.

Your Committees find that sporting events in Hawaii have generated revenue for the State through advertisements, promotions, endorsements, merchandising, and more. In 2016, sports tourism in Hawaii was projected to bring in roughly \$144,000,000 in revenue from various sporting events hosted in Hawaii. Your Committees note that one of the Hawaii Tourism Authority's objectives is to promote sports tourism throughout the State.

Your Committees also find that Hawaii is in a prime location and can act as a hub for those traveling to Tokyo, Japan, for the 2020 Olympics and Paralympic Games or training for the Games. Your Committees note the newly introduced sports for the 2020 Olympic Games include baseball and softball, sports climbing, karate, skateboarding, and surfing, and believe that Hawaii has appropriate facilities and venues for training in these sports. Your Committees find that the 2020 Tokyo Olympic and Paralympic Games pose a great opportunity for Hawaii to work with one of its closest international partners in preparing for a global event.

As affirmed by the records of votes of the members of your Committees on Economic Development, Tourism, and Technology and Judiciary that are attached to this report, your Committees concur with the intent and purpose of S.C.R. No. 147 and recommend that it be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Economic Development, Tourism, and Technology: Ayes, 3. Noes, none. Excused, 2 (Baker, Thielen).

Judiciary: Ayes, 4. Noes, none. Excused, 1 (Thielen).

SCRep. 3238 (Joint) Economic Development, Tourism, and Technology and Judiciary on S.R. No. 93

The purpose and intent of this measure is to request the Hawaii Tourism Authority to send a letter to the United States and International Olympic Committees and Tokyo Organizing Committee of the Olympic and Paralympic Games stating that Hawaii is the ideal location for sports training for athletes for the 2020 Tokyo Olympics and Paralympic Games.

Your Committees received testimony in support of this measure from the O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i. Your Committees received comments on this measure from the Hawaii Tourism Authority.

Your Committees find that sporting events in Hawaii have generated revenue for the State through advertisements, promotions, endorsements, merchandising, and more. In 2016, sports tourism in Hawaii was projected to bring in roughly \$144,000,000 in revenue from various sporting events hosted in Hawaii. Your Committees note that one of the Hawaii Tourism Authority's objectives is to promote sports tourism throughout the State.

Your Committees also find that Hawaii is in a prime location and can act as a hub for those traveling to Tokyo, Japan, for the 2020 Olympics and Paralympic Games or training for the Games. Your Committees note the newly introduced sports for the 2020 Olympic Games include baseball and softball, sports climbing, karate, skateboarding, and surfing, and believe that Hawaii has appropriate facilities and venues for training in these sports. Your Committees find that the 2020 Tokyo Olympic and Paralympic Games pose a great opportunity for Hawaii to work with one of its closest international partners in preparing for a global event.

As affirmed by the records of votes of the members of your Committees on Economic Development, Tourism, and Technology and Judiciary that are attached to this report, your Committees concur with the intent and purpose of S.R. No. 93 and recommend that it be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Economic Development, Tourism, and Technology: Ayes, 3. Noes, none. Excused, 2 (Baker, Thielen).

Judiciary: Ayes, 4. Noes, none. Excused, 1 (Thielen).

SCRep. 3239 (Joint) Economic Development, Tourism, and Technology and Water and Land on S.C.R. No. 20

The purpose and intent of this measure is to request the Department of Business, Economic Development, and Tourism to identify a potential location on state-owned land on Oahu for a race track facility and to establish a public-private partnership to build the race track facility on Oahu.

Your Committees received testimony in support of this measure from the Ho'omanapono Political Action Committee and two individuals. Your Committees received testimony in opposition to this measure from two individuals. Your Committees received comments on this measure from the Department of Business, Economic Development, and Tourism.

Your Committees find that the Hawaii Raceway Park, Hawaii's first racetrack, opened in 1962 and closed down in 2006. The Hawaii Raceway Park provided residents an opportunity to participate in motor sports, from drag racing to go-karting, under close supervision. Your Committees further find that racing enthusiasts have been without a proper facility to safely enjoy racing and have instead been racing on the open streets of Hawaii, thereby posing a threat to the public. Your Committees believe that a proper racing facility on Oahu would ensure the safety of the public by preventing street racing on public roads.

As affirmed by the records of votes of the members of your Committees on Economic Development, Tourism, and Technology and Water and Land that are attached to this report, your Committees concur with the intent and purpose of S.C.R. No. 20 and recommend that it be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Economic Development, Tourism, and Technology: Ayes, 4. Noes, none. Excused, 1 (Galuteria).

Water and Land: Ayes, 4. Noes, none. Excused, 1 (Inouye).

SCRep. 3240 (Joint) Economic Development, Tourism, and Technology and Education on S.C.R. No. 189

The purpose and intent of this measure is to request the Department of Business, Economic Development, and Tourism to study the feasibility of a state lottery to fund Hawaii's public education.

Your Committees received testimony in support of this measure from the Department of Business, Economic Development, and Tourism and O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i. Your Committees received comments on this measure from one individual.

Your Committees find that Hawaii is unique compared to the other states as public education is a responsibility of the State, as opposed to a county or local level jurisdiction. Your Committees further find that because jurisdiction for public education is with the State, funding for public education is primarily sourced from the general fund and is often inadequate as evidenced by Hawaii's ranking as lowest in the nation for education expenditures. Your Committees believe that the means of funding public education must be expanded in order to support and better prepare students to enter the workforce or pursue secondary education. Your Committees note that forty-four states utilize state lotteries to fund a certain amount of public education. Your Committees believe that these states serve as an example and demonstrate that a state lottery has the potential to fund public education in Hawaii and should be explored as an option.

As affirmed by the records of votes of the members of your Committees on Economic Development, Tourism, and Technology and Education that are attached to this report, your Committees concur with the intent and purpose of S.C.R. No. 189 and recommend that it be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Economic Development, Tourism, and Technology: Ayes, 3; Ayes with Reservations (Taniguchi). Noes, none. Excused, 2 (Baker, Thielen).

Education: Ayes, 3. Noes, none. Excused, 2 (Dela Cruz, Kahele).

SCRep. 3241 (Joint) Economic Development, Tourism, and Technology and Education on S.R. No. 137

The purpose and intent of this measure is to request the Department of Business, Economic Development, and Tourism to study the feasibility of a state lottery to fund Hawaii's public education.

Your Committees received testimony in support of this measure from the Department of Business, Economic Development, and Tourism; O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i; and one individual. Your Committees received testimony in opposition to this measure from one individual.

Your Committees find that Hawaii is unique compared to the other states as public education is a responsibility of the State, as opposed to a county or local level jurisdiction. Your Committees further find that because jurisdiction for public education is with the State, funding for public education is primarily sourced from the general fund and is often inadequate as evidenced by Hawaii's ranking as lowest in the nation for education expenditures. Your Committees believe that the means of funding public education must be expanded in order to support and better prepare students to enter the workforce or pursue secondary education. Your Committees note that forty-four states utilize state lotteries to fund a certain amount of public education. Your Committees believe that these states serve as an example and demonstrate that a state lottery has the potential to fund public education in Hawaii and should be explored as an option.

As affirmed by the records of votes of the members of your Committees on Economic Development, Tourism, and Technology and Education that are attached to this report, your Committees concur with the intent and purpose of S.R. No. 137 and recommend that it be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Economic Development, Tourism, and Technology: Ayes, 3; Ayes with Reservations (Taniguchi). Noes, none. Excused, 2 (Baker, Thielen).

Education: Ayes, 3. Noes, none. Excused, 2 (Dela Cruz, Kahele).

SCRep. 3242 (Joint) Public Safety, Intergovernmental, and Military Affairs and Education on S.C.R. No. 65

The purpose and intent of this measure is to request that the Honolulu Police Department report on the costs of funding on-campus school resource officers, including but not limited to manpower, number of officers necessary, and any other costs required for officers to be stationed in intermediate and high schools on the island of Oahu, and provide a report to the Legislature no later than twenty days prior to the convening of the Regular Session of 2019.

Your Committees received testimony in support of this measure from the O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i. Your Committees received testimony in opposition to this measure from the ACLU of Hawai'i and one individual. Your Committees received comments on this measure from one individual.

Your Committees find that there has been a disturbing increase in school violence across the nation in recent years. Your Committees further find that in an attempt to better secure and protect schools, some states have been stationing local law enforcement officers, known as school resource officers, in schools. School resource officers are well-trained officers who are skilled in handling armed weaponry and specifically stationed in schools to prevent any crime or gang related activity and address any issue that could threaten the safety of the students and faculty. Your Committees further find that over the years federal funding to maintain school resource officers has been depleted. Despite this depletion in federal funds, your Committees find that schools in the counties of Hawaii, Kauai, and Maui have maintained school resource officers in certain schools. Your Committees find that it is important that schools on Oahu determine the resources necessary to similarly provide school resource officers in Oahu schools.

As affirmed by the records of votes of the members of your Committees on Public Safety, Intergovernmental, and Military Affairs and Education that are attached to this report, your Committees concur with the intent and purpose of S.C.R. No. 65 and recommend that it be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Public Safety, Intergovernmental, and Military Affairs: Ayes, 4. Noes, none. Excused, 1 (Ihara).

Education: Ayes, 4. Noes, none. Excused, 1 (Dela Cruz).

SCRep. 3243 (Joint) Public Safety, Intergovernmental, and Military Affairs and Education on S.R. No. 35

The purpose and intent of this measure is to request that the Honolulu Police Department report on the costs of funding on-campus school resource officers, including but not limited to manpower, number of officers necessary, and any other costs required for officers to be stationed in intermediate and high schools on the island of Oahu, and provide a report to the Legislature no later than twenty days prior to the convening of the Regular Session of 2019.

Your Committees received testimony in support of this measure from the O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i and two individuals. Your Committees received testimony in opposition to this measure from the Institute for Rational and Evidence-Based Legislation and ACLU of Hawai'i. Your Committees received comments on this measure from one individual.

Your Committees find that there has been a disturbing increase in school violence across the nation in recent years. Your Committees further find that in an attempt to better secure and protect schools, some states have been stationing local law enforcement officers, known as school resource officers, in schools. School resource officers are well-trained officers who are skilled in handling armed weaponry and specifically stationed in schools to prevent any crime or gang related activity and address any issue that could threaten the safety of the students and faculty. Your Committees further find that over the years federal funding to maintain school resource officers has been depleted. Despite this depletion in federal funds, your Committees find that schools in the counties of

Hawaii, Kauai, and Maui have maintained school resource officers in certain schools. Your Committees find that it is important that schools on Oahu determine the resources necessary to similarly provide school resource officers in Oahu schools.

As affirmed by the records of votes of the members of your Committees on Public Safety, Intergovernmental, and Military Affairs and Education that are attached to this report, your Committees concur with the intent and purpose of S.R. No. 35 and recommend that it be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Public Safety, Intergovernmental, and Military Affairs: Ayes, 4. Noes, none. Excused, 1 (Ihara).

Education: Ayes, 4. Noes, none. Excused, 1 (Dela Cruz).

SCRep. 3244 (Joint) Education and Economic Development, Tourism, and Technology on S.C.R. No. 159

The purpose and intent of this measure is to request the Department of Education to convene a computer science task force to review computer science programs in Hawaii's public schools and to support, strengthen, and establish partnerships among educational institutions, industries, and businesses to improve computer science programs.

Your Committees received testimony in support of this measure from the Department of Education, O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, and one individual. Your Committees received comments on this measure from the University of Hawai'i System.

Your Committees find that computer related jobs are among the fastest growing fields of employment in the United States. According to the United States Bureau of Labor Statistics Employment Projections for 2010 to 2020, more than half of the anticipated science, technology, engineering, and mathematics jobs will be in computing. However, in 2014, only one hundred fifty-five students in Hawaii graduated with a bachelor's degree in computer science. Because students who learn computer science in high school are six times more likely to pursue a post-secondary degree in computer science, it is essential to improve computer science programs in public schools.

As affirmed by the records of votes of the members of your Committees on Education and Economic Development, Tourism, and Technology that are attached to this report, your Committees concur with the intent and purpose of S.C.R. No. 159 and recommend that it be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Education: Ayes, 3. Noes, none. Excused, 2 (Dela Cruz, Kahele).

Economic Development, Tourism, and Technology: Ayes, 3. Noes, none. Excused, 2 (Baker, Thielen).

SCRep. 3245 Education on S.C.R. No. 86

The purpose and intent of this measure is to request the Board of Education to redistrict students who will be living in the Koa Ridge development to the Pearl City-Waipahu complex area.

Your Committee received testimony in support of this measure from the Oahu County Committee on Legislative Priorities of the Democratic Party of Hawaii. Your Committee received comments on this measure from the Department of Education.

Your Committee finds that the Koa Ridge development has started construction on three thousand five hundred new housing units in central Oahu. The development master plan includes plans for a new elementary school, but there are no plans for middle or high schools.

Your Committee further finds that Mililani Middle School is currently transitioning to a single-track calendar because of overpopulation of students at the school, a project that the Legislature has already dedicated \$23,000,000 to complete. This project would be jeopardized if redistricting of Koa Ridge would send additional students to the Leilehua-Mililani-Waialua complex area because Mililani Middle School does not have the resources for additional capacity. In addition, your Committee notes that the Board of Education should consider that Mililani High School and Waipahu High School are two of the three largest high schools in the State and are already over-capacity.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 86 and recommends that it be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Espero, Kim).

SCRep. 3246 Education on S.R. No. 54

The purpose and intent of this measure is to request the Board of Education to redistrict students who will be living in the Koa Ridge development to the Pearl City-Waipahu complex area.

Your Committee received testimony in support of this measure from the O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i.

Your Committee finds that the Koa Ridge development has started construction on three thousand five hundred new housing units in central Oahu. The development master plan includes plans for a new elementary school, but there are no plans for middle or high schools.

Your Committee further finds that Mililani Middle School is currently transitioning to a single-track calendar because of overpopulation of students at the school, a project that the Legislature has already dedicated \$23,000,000 to complete. This project would be jeopardized if redistricting of Koa Ridge would send additional students to the Leilehua-Mililani-Waialua complex area because Mililani Middle School does not have the resources for additional capacity. In addition, your Committee notes that the Board

of Education should consider that Mililani High School and Waipahu High School are two of the three largest high schools in the State and are already over-capacity.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 54 and recommends that it be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Espero, Kim).

SCRep. 3247 Public Safety, Intergovernmental, and Military Affairs on S.C.R. No. 126

The purpose and intent of this measure is to urge the Honolulu Police Department to open a police station on the North Shore of Oahu.

Your Committee received testimony in support of this measure from the O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i.

Your Committee finds that it is important to maintain the safety of residents, business owners, workers, and patrons of Oahu's North Shore. Your Committee also finds that reports from North Shore residents and official reports from the Honolulu Police Department indicate that the incidence of crimes such as arson, vandalism, theft, and burglary have sharply increased in the community in recent years. Your Committee further finds that this increased crime threatens the well-being of North Shore residents and the millions of tourists that frequent the area each year. Accordingly, this measure urges the Honolulu Police Department to open a police station on the North Shore of Oahu.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 126 and recommends its adoption.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Wakai).

SCRep. 3248 Public Safety, Intergovernmental, and Military Affairs on S.R. No. 85

The purpose and intent of this measure is to urge the Honolulu Police Department to open a police station on the North Shore of Oahu.

Your Committee received testimony in support of this measure from the O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i.

Your Committee finds that it is important to maintain the safety of residents, business owners, workers, and patrons of Oahu's North Shore. Your Committee also finds that reports from North Shore residents and official reports from the Honolulu Police Department indicate that the incidence of crimes such as arson, vandalism, theft, and burglary have sharply increased in the community in recent years. Your Committee further finds that this increased crime threatens the well-being of North Shore residents and the millions of tourists that frequent the area each year. Accordingly, this measure urges the Honolulu Police Department to open a police station on the North Shore of Oahu.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 85 and recommends its adoption.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Wakai).

SCRep. 3249 Public Safety, Intergovernmental, and Military Affairs on S.C.R. No. 122

The purpose and intent of this measure is to urge the Mayor of the City and County of Honolulu and the Honolulu City Council to allocate more resources to the Honolulu Police Department for the purpose of increasing visible police presence in, and active patrols of, the North Shore of Oahu.

Your Committee received testimony in support of this measure from the O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i.

Your Committee finds that it is important to maintain the safety of residents, business owners, workers, and patrons of Oahu's North Shore. Your Committee also finds that reports from North Shore residents and official reports from the Honolulu Police Department indicate that the incidence of crimes such as arson, vandalism, theft, and burglary have sharply increased in the community in recent years. Your Committee further finds that this increased crime threatens the well-being of North Shore residents and the millions of tourists that frequent the area. Accordingly, this measure urges that the City and County of Honolulu devote more police resources to Oahu's North Shore.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 122, as amended herein, and recommends its adoption in the form attached hereto as S.C.R. No. 122, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Wakai).

SCRep. 3250 Public Safety, Intergovernmental, and Military Affairs on S.R. No. 81

The purpose and intent of this measure is to urge the Mayor of the City and County of Honolulu and the Honolulu City Council to allocate more resources to the Honolulu Police Department for the purpose of increasing visible police presence in, and active patrols of, the North Shore of Oahu.

Your Committee received testimony in support of this measure from the O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i.

Your Committee finds that it is important to maintain the safety of residents, business owners, workers, and patrons of Oahu's North Shore. Your Committee also finds that reports from North Shore residents and official reports from the Honolulu Police Department indicate that the incidence of crimes such as arson, vandalism, theft, and burglary have sharply increased in the community in recent years. Your Committee further finds that this increased crime threatens the well-being of North Shore residents and the millions of tourists that frequent the area. Accordingly, this measure urges that the City and County of Honolulu devote more police resources to Oahu's North Shore.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 81, as amended herein, and recommends its adoption in the form attached hereto as S.R. No. 81, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Wakai).

SCRep. 3251 (Majority) Judiciary on H.B. No. 2739

The purpose and intent of this measure is to:

- (1) Allow a mentally capable adult resident of the State who is diagnosed with a medically confirmed terminal disease that will foreseeably result in death in less than six months to choose to obtain a prescription for medication that, when self-administered, will end the person's life, subject to certain conditions and safeguards;
- (2) Establish criminal sanctions for tampering with a qualified patient's request for, or rescission of a request for, a prescription for medication, or coercing a patient to request a prescription, among other acts;
- (3) Ensure that no lawful act by a qualified patient shall affect the validity of provisions in wills, contracts, or insurance or annuity policies; and
- (4) Ensure that no person or healthcare facility shall be subject to civil or criminal liability for acting in good faith compliance with this measure, while also clarifying that no health care provider or health care facility shall be under any duty to participate in providing a qualified patient with medication to end the qualified patient's life.

Your Committee received testimony in support of this measure from the Governor; LGBT Caucus of the Democratic Party of Hawaii; Hawai'i Psychological Association; Planned Parenthood Votes Northwest and Hawaii; Filipina Advocacy Network; Americans for Democratic Action; Young Progressives Demanding Action; Compassion & Choices Hawaii, including an attached petition containing over one thousand signatures of registered Hawai'i voters; Hawaii State AFL-CIO; O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i; Hawai'i Friends of Civil Rights; Hawai'i Democratic Women's Caucus; Hawaii Alliance for Retired Americans; Ho'omanapono Political Action Committee; Death with Dignity National Center; International Longshore and Warehouse Union, Local 142; and more than one hundred thirty individuals. Your Committee received testimony in opposition to this measure from the Hawaii Family Forum; Hawaii Catholic Conference; Hawaii Self Advocacy Advisory Council; Hau'oli Home Care, LLC; Supportive Care Coalition; Concerned Women for America of Hawaii; American Nurses Association; Hawaii Federation of Republican Women; New Hope Christian Fellowship; Not Dead Yet; Association of Programs for Rural Independent Living; Disability Rights Education and Defense Fund; Association for Persons with Severe Handicaps; National Council on Independent Living; American Association of People with Disabilities; Milwaukee Guild of the Catholic Medical Association; and more than two hundred thirty individuals. Your Committee received comments on this measure from the Queen's Health Systems, Patients Rights Council, and one individual.

Your Committee finds that several other jurisdictions have enacted a medical aid in dying law that has been working in a safe and trusted manner for many years without fail. Your Committee finds that enactment of this measure can serve as a valuable option for competent persons with terminal illnesses to consider along with continued treatment, palliative care, and hospice. Your Committee agrees with your Committee on Commerce, Consumer Protection, and Health that the availability of the option of medical aid in dying gives a terminally ill individual autonomy and control, and that even if the individual chooses not to exercise the option allowed by this measure, retaining the ability to make important decisions concerning one's final days can bring great comfort.

Your Committee notes that this measure includes numerous safeguards to preclude abuse and coercion, including carefully prescribed eligibility requirements, written and oral confirmations of a qualified patient's request, and the ability for a qualified patient to rescind a request at any time. This measure also clearly states that neither age nor disability shall serve as independent determinative criteria in assessing a terminal disease. As a deterrent to malicious behavior by any persons with access to a qualified patient, this measure includes severe felony penalties for interference or coercion in the request or rescission processes.

Your Committee further finds that ending one's life by the means specified in this measure may, without sufficient statutory provisions, implicate civil or criminal liability on the part of physicians, their associates, and the facilities or institutions where they provide services. For these reasons, this measure specifies detailed immunities for persons and organizations acting in good faith compliance from liabilities arising from those complying actions. Additionally, your Committee notes that any decision to make or rescind a request to end one's life in accordance with this measure shall have no effect on the validity of any provision in a will,

contract, or other agreement of the qualified patient, nor shall it be lawful to pre-condition the sale of insurance or annuity policies based on making or not making such a decision.

Finally, your Committee notes that Hawaii in particular has a well-earned reputation among the various states for upholding and enhancing personal liberty. No healthcare provider or healthcare facility in the State will be required to undertake any of the steps allowed under this measure. That some individuals may, after personal reflection and professional consultation, wish to avail themselves of the option addressed by this measure does not diminish the values or beliefs of any other person or group of persons in Hawaii. Accordingly, your Committee finds that this measure provides an important new legal framework to afford the people of the State an additional choice regarding end-of-life care.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2739, H.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, 1 (Gabbard). Excused, none.

SCRep. 3252 Judiciary on Gov. Msg. No. 638

Recommending that the Senate advise and consent to the nomination of the following:

ATTORNEY GENERAL OF THE STATE OF HAWAII

G.M. No. 638 RUSSELL A. SUZUKI, for a term to expire at noon on 12-03-2018

Your Committee reviewed the personal history, resume, and statement submitted by Russell A. Suzuki for nomination as the Attorney General of the State of Hawaii.

Your Committee received testimony in support of the nomination of Russell A. Suzuki as the Attorney General of the State of Hawaii from the Office of the Governor; Office of the Lieutenant Governor; Department of Land and Natural Resources; Department of Transportation; Department of Human Services; Department of Accounting and General Services; Department of Business, Economic Development, and Tourism; Department of Agriculture; Department of Labor and Industrial Relations; Department of Public Safety; Office of Elections; Office of Enterprise Technology Services; Research Corporation of the University of Hawaii; Sex Abuse Treatment Center; United Public Workers, AFSCME, Local 646, AFL-CIO; and forty-five individuals. Your Committee received testimony in opposition to the nomination of Russell A. Suzuki as the Attorney General of the State of Hawaii from one individual.

Mr. Suzuki received his Bachelor of Arts Degree from the University of Hawaii at Manoa and his Doctorate of Jurisprudence from Ohio State University. He currently serves as Acting Attorney General and previous to that has served as First Deputy Attorney General under Attorneys General Douglas Chin, David Louie, and Mark Bennett. He has practiced as a public sector attorney at the Department of the Attorney General for the past thirty-six years, and has served as counsel to the Office of the Governor, Office of the Lieutenant Governor, Department of Accounting and General Services, Department of Budget and Finance, Department of Education, University of Hawaii, and State Judiciary. Prior to his service at the Department of the Attorney General, he practiced criminal defense law, family law, business law, and military law at the Law Offices of Yoshiro Nakamura.

Testimony submitted in support of the nomination of Mr. Suzuki's nomination commend his extensive experience, deep institutional knowledge, and strong command of Hawaii's statutes and regulations. He has served as First Deputy Attorney General for three gubernatorial administrations and is highly regarded as a strong problem solver with the capacity to deal impartially with all matters that come before the Department of the Attorney General. Many testifiers observed that Mr. Suzuki's seasoned judgment, extensive knowledge, and professional demeanor will continue to be great assets to the Department of the Attorney General.

Your Committee finds that, based on the testimony submitted on his behalf, Russell A. Suzuki has the experience, temperament, and other competencies to be the Attorney General of the State of Hawaii, and in that capacity he will continue to be a strong advocate on behalf of the interests of the State, its citizens, and its residents.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 3253 Agriculture and Environment on S.C.R. No. 167

The purpose and intent of this measure is to request the Board of Agriculture to submit a report to the Legislature detailing a plan to improve the import permit process for all agricultural commodities.

Your Committee received testimony in support of this measure from the O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawaii. Your Committee received comments on this measure from the Department of Agriculture.

Your Committee finds that the Plant Quarantine Branch of the Department of Agriculture is tasked with preventing the introduction and spread of harmful pests and diseases into the State by regulating domestic import, performing border inspections, facilitating post border detection and control of agricultural pests, and administration of the import permit program. Your Committee further finds that there are reports of several incidents in which those seeking to import aquaculture into the State have not received permits from the Department of Agriculture within the maximum time periods or within a reasonable amount of time after the expiration of the maximum time periods established in section 4-71-4.1, Hawaii Administrative Rules. This measure requests the Board of Agriculture to develop a plan to improve its own importation permit process for agricultural commodities to ensure that the process reflects current industry conditions, needs, and best practices.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 167 and recommends that it be referred to your Committee on Commerce, Consumer Protection, and Health.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Nishihara, Ruderman).

SCRep. 3254 Agriculture and Environment on S.R. No. 126

The purpose and intent of this measure is to request the Board of Agriculture to submit a report to the Legislature detailing a plan to improve the import permit process for all agricultural commodities.

Your Committee received testimony in support of this measure from the O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i. Your Committee received comments on this measure from the Department of Agriculture.

Your Committee finds that the Plant Quarantine Branch of the Department of Agriculture is tasked with preventing the introduction and spread of harmful pests and diseases into the State by regulating domestic import, performing border inspections, facilitating post border detection and control of agricultural pests, and administration of the import permit program. Your Committee further finds that there are reports of several incidents in which those seeking to import aquaculture into the State have not received permits from the Department of Agriculture within the maximum time periods or within a reasonable amount of time after the expiration of the maximum time periods established in section 4-71-4.1, Hawaii Administrative Rules. This measure requests the Board of Agriculture to develop a plan to improve its own importation permit process for agricultural commodities to ensure that the process reflects current industry conditions, needs, and best practices.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 126 and recommends that it be referred to your Committee on Commerce, Consumer Protection, and Health.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Nishihara, Ruderman).

SCRep. 3255 Agriculture and Environment on S.C.R. No. 165

The purpose and intent of this measure is to request the state Auditor to conduct a performance audit of the Department of Agriculture's procedures relating to aquaculture importation permit applications.

Your Committee received testimony in support of this measure from the O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i. Your Committee received comments on this measure from the Department of Agriculture.

Your Committee finds that local farmers and others are ready and able to bring additional aquaculture to the State that can assist the State in achieving local food production and sustainability goals; however, there are reports of several incidents in which those seeking to import aquaculture into the State have not received permits from the Department of Agriculture within the maximum time periods or within a reasonable amount of time after the expiration of the maximum time periods established in the Hawaii Administrative Rules. This measure seeks a performance audit to obtain a better understanding of the existing aquaculture importation permit process and identify ways to ensure a more expeditious but responsible process to support Hawaii's aquaculture industry.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 165 and recommends that it be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Nishihara, Ruderman).

SCRep. 3256 Agriculture and Environment on S.R. No. 124

The purpose and intent of this measure is to request the state Auditor to conduct a performance audit of the Department of Agriculture's procedures relating to aquaculture importation permit applications.

Your Committee received testimony in support of this measure from the O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i. Your Committee received comments on this measure from the Department of Agriculture.

Your Committee finds that local farmers and others are ready and able to bring additional aquaculture to the State that can assist the State in achieving local food production and sustainability goals; however, there are reports of several incidents in which those seeking to import aquaculture into the State have not received permits from the Department of Agriculture within the maximum time periods or within a reasonable amount of time after the expiration of the maximum time periods established in the Hawaii Administrative Rules. This measure seeks a performance audit to obtain a better understanding of the existing aquaculture importation permit process and identify ways to ensure a more expeditious but responsible process to support Hawaii's aquaculture industry.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 124 and recommends that it be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Nishihara, Ruderman).

SCRep. 3257 Human Services on S.C.R. No. 102

The purpose and intent of this measure is to request the Judiciary and Department of Human Services to not use blindness as a basis for denying parental rights in regard to child welfare, foster care, family law, and adoption.

Your Committee received testimony in support of this measure from Young Progressives Demanding Action, O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, National Federation of the Blind of Hawaii, Progressive Democrats of Hawai'i, Oahu Intertribal Council, and three individuals. Your Committee received comments on this measure from the Judiciary, Department of Human Services, Department of the Attorney General, Disability and Communication Access Board, and Hawaii Family Advocacy Team.

Your Committee finds that blind individuals often face certain preconceived biases and attitudes throughout their lives, especially during family and dependency law proceedings where custody and visitation are at stake and in public and private adoption, guardianship, and foster care proceedings. Your Committee further finds that roughly one in four households in which a parent is blind have been visited by child protection services. Your Committee recognizes that blindness itself does not preclude a parent's ability to raise a child to become a responsible and productive adult. This measure seeks to ensure that individuals who are blind have the same opportunity as individuals who are not blind to serve as parents and care for their children.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 102 and recommends that it be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Harimoto, Wakai).

SCRep. 3258 Human Services on S.R. No. 61

The purpose and intent of this measure is to request the Judiciary and Department of Human Services to not use blindness as a basis for denying parental rights in regard to child welfare, foster care, family law, and adoption.

Your Committee received testimony in support of this measure from Young Progressives Demanding Action, O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, National Federation of the Blind of Hawaii, Progressive Democrats of Hawai'i, Oahu Intertribal Council, and three individuals. Your Committee received comments on this measure from the Judiciary, Department of Human Services, Department of the Attorney General, and Disability and Communication Access Board.

Your Committee finds that blind individuals often face certain preconceived biases and attitudes throughout their lives, especially during family and dependency law proceedings where custody and visitation are at stake and in public and private adoption, guardianship, and foster care proceedings. Your Committee further finds that roughly one in four households in which a parent is blind have been visited by child protection services. Your Committee recognizes that blindness itself does not preclude a parent's ability to raise a child to become a responsible and productive adult. This measure seeks to ensure that individuals who are blind have the same opportunity as individuals who are not blind to serve as parents and care for their children.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 61 and recommends that it be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Harimoto, Wakai).

SCRep. 3259 (Joint) Human Services and Education and Commerce, Consumer Protection, and Health on S.C.R. No. 11

The purpose and intent of this measure is to:

- (1) Urge the Department of Education, Department of Health, Department of Human Services, and Judiciary to permanently establish the Hawaii Interagency State Youth Network of Care (HISYNC);
- (2) Urge the various state entities to participate in HISYNC and the Hawaii Interagency Local Youth Network of Care (HILYNC);
- (3) Urge any additional child-serving agencies that are not currently members of HISYNC to participate in HISYNC's interagency forum and send local representatives to each of the regional HILYNC committees; and
- (4) Urge HISYNC to coordinate the complex landscape of the child-serving system.

Your Committees received testimony in support of this measure from the Department of Human Services, Department of Health, Department of Education, Hawaii Youth Services Network, and O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i.

Your Committees find that the Department of Education, Department of Human Services, Department of Health, and Judiciary provide services for children, youth, and families, especially for children with complex educational, behavioral, and social-emotional needs. To increase collaboration and create a better integrated system of care for children, youth, and families, these state agencies formed HISYNC and, through HISYNC, provide multi-agency initiatives to assist children with complex needs and their families navigate the State's child-serving system. This measure will officially recognize HISYNC and urge the network to continue to provide comprehensive services and additional resources for children with complex needs and their families.

Your Committees have amended this measure by inserting language urging the Hawaii Interagency State Youth Network of Care to invite other entities who work with children with complex needs to join the forum and encouraging these entities to send a representative to each of the regional Hawaii Interagency Local Youth Network of Care committees.

As affirmed by the records of votes of the members of your Committees on Human Services, Education, and Commerce, Consumer Protection, and Health that are attached to this report, your Committees concur with the intent and purpose of S.C.R. No. 11, as amended herein, and recommend that it be referred to your Committee on Judiciary, in the form attached hereto as S.C.R. No. 11, S.D. 1.

Signed by the Chairs on behalf of the Committees.

Human Services: Ayes, 3. Noes, none. Excused, 2 (Harimoto, Tokuda).

Education: Ayes, 3. Noes, none. Excused, 2 (Dela Cruz, Kahele).

Commerce, Consumer Protection, and Health: Ayes, 4. Noes, none. Excused, 3 (Nishihara, Ruderman, Tokuda).

SCRep. 3260 (Joint) Human Services and Education and Commerce, Consumer Protection, and Health on S.R. No. 10

The purpose and intent of this measure is to:

- (1) Urge the Department of Education, Department of Health, Department of Human Services, and Judiciary to permanently establish the Hawaii Interagency State Youth Network of Care (HISYNC);
- (2) Urge the various state entities to participate in HISYNC and the Hawaii Interagency Local Youth Network of Care (HILYNC);
- (3) Urge any additional child-serving agencies that are not currently members of HISYNC to participate in HISYNC's interagency forum and send local representatives to each of the regional HILYNC committees; and
- (4) Urge HISYNC to coordinate the complex landscape of the child-serving system.

Your Committees received testimony in support of this measure from the Department of Human Services, Hawaii Youth Services Action Network, O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, and one individual.

Your Committees find that the Department of Education, Department of Human Services, Department of Health, and Judiciary provide services for children, youth, and families, especially for children with complex educational, behavioral, and social-emotional needs. To increase collaboration and create a better integrated system of care for children, youth, and families, these state agencies formed HISYNC and, through HISYNC, provide multi-agency initiatives to assist children with complex needs and their families navigate the State's child-serving system. This measure will officially recognize HISYNC and urge the network to continue to provide comprehensive services and additional resources for children with complex needs and their families.

Your Committees have amended this measure by inserting language urging the Hawaii Interagency State Youth Network of Care to invite other entities who work with children with complex needs to join the forum and encouraging these entities to send a representative to each of the regional Hawaii Interagency Local Youth Network of Care committees.

As affirmed by the records of votes of the members of your Committees on Human Services, Education, and Commerce, Consumer Protection, and Health that are attached to this report, your Committees concur with the intent and purpose of S.R. No. 10, as amended herein, and recommend that it be referred to your Committee on Judiciary, in the form attached hereto as S.R. No. 10, S.D. 1.

Signed by the Chairs on behalf of the Committees.

Human Services: Ayes, 3. Noes, none. Excused, 2 (Harimoto, Tokuda).

Education: Ayes, 3. Noes, none. Excused, 2 (Dela Cruz, Kahele).

Commerce, Consumer Protection, and Health: Ayes, 4. Noes, none. Excused, 3 (Nishihara, Ruderman, Tokuda).

SCRep. 3261 (Joint) Human Services and Economic Development, Tourism, and Technology and Government Operations on S.C.R. No. 1

The purpose and intent of this measure is to:

- (1) Request the Office of Enterprise Technology Services, in consultation with the Public Utilities Commission and Disability and Communication Access Board, to review existing and emerging equipment, services, and policies to ensure continued accessibility and usability for individuals who are deaf or who have a hearing or speech disability; and
- (2) Request a report to the Legislature with findings and recommendations based on the review.

Your Committees received testimony in support of this measure from the Office of Enterprise Technology Services, Disability and Communication Access Board, Hawaii Disability Rights Center, O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, Aloha State Association of the Deaf, and two individuals.

Your Committees find that individuals who are deaf or hard of hearing or have a speech disability often utilize technology and technology based services and equipment to effectively communicate with others. Your Committees further find that as internet-based technology devices continually improve and become more readily available, existing telecommunication equipment, services, and policies must also be evaluated and updated. This measure will allow the Office of Enterprise Technology Services, in consultation with the Public Utilities Commission and Disability and Communication Access Board, to examine and update existing equipment, services, and policies, to ensure continued accessibility and usability for individuals who are deaf or hard of hearing or have a speech disability.

Your Committees have amended this measure by:

- (1) Amending its title to read, "SENATE CURRENT RESOLUTION URGING VARIOUS STATE ENTITIES TO REVIEW AND UPDATE THEIR TELECOMMUNICATION EQUIPMENT, SERVICES, AND POLICIES AND IDENTIFY AREAS OF IMPROVEMENT IN ACCESSIBILITY AND USABILITY FOR INDIVIDUALS WHO ARE DEAF OR HARD OF HEARING OR HAVE A SPEECH DISABILITY"; and
- (2) Making other technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Human Services, Economic Development, Tourism, and Technology, and Government Operations that are attached to this report, your Committees concur with the intent and purpose of S.C.R. No. 1, as amended herein, and recommend that it be referred to your Committee on Ways and Means, in the form attached hereto as S.C.R. No. 1, S.D. 1.

Signed by the Chairs on behalf of the Committees.

Human Services: Ayes, 3. Noes, none. Excused, 2 (Harimoto, Tokuda).

Economic Development, Tourism, and Technology: Ayes, 3. Noes, none. Excused, 2 (Baker, Thielen).
Government Operations: Ayes, 5. Noes, none. Excused, none.

SCRep. 3262 (Joint) Human Services and Economic Development, Tourism, and Technology and Government Operations on S.R. No. 1

The purpose and intent of this measure is to:

- (1) Request the Office of Enterprise Technology Services, in consultation with the Public Utilities Commission and Disability and Communication Access Board, to review existing and emerging equipment, services, and policies to ensure continued accessibility and usability for individuals who are deaf or who have a hearing or speech disability; and
- (2) Request a report to the Legislature with findings and recommendations based on the review.

Your Committees received testimony in support of this measure from the Disability and Communication Access Board and one individual.

Your Committees find that individuals who are deaf or hard of hearing, or have a speech disability often utilize technology and technology based services and equipment to effectively communicate with others. Government Operations: Ayes, 5. Noes, none. Excused, none.

SCRep. 3263 Government Operations on S.C.R. No. 183

The purpose and intent of this measure is to urge various government entities to develop, update, and introduce policies related to helicopter air tours at the state and national level.

Your Committee received testimony in support of this measure from the County of Hawai'i, Office of the Mayor; Hawaii Island Coalition Malama Pono; two individuals; and a petition with one hundred ninety names.

Your Committee finds that Hawai'i Volcanoes National Park, on the island of Hawai'i, is managed by the Director of the National Park Service, which is a bureau of the United States Department of the Interior, and has more non-essential tour helicopter overflights than any other individual park in the nation. Your Committee further finds that in recent years, helicopter noise as a result of commercial air tour flights over residential areas in the east Hawai'i region of the island of Hawai'i has reached an unprecedented level. Residents in Hāmākua, Hilo, Mountain View, Puna, Volcano, and Ka'ū have continued to raise issues of overflights, noise complaints, and safety with the state Department of Transportation, Honolulu Flight Standards District Office of the Federal Aviation Administration, and air tour helicopter operators.

Your Committee additionally finds that it has been fourteen years since the Federal Aviation Administration and National Park Service initially asked for comments on an Air Tour Management Plan Environmental Assessment and seven years since a preliminary draft Air Tour Management Plan for Hawai'i Volcanoes National Park was published. However, there is still no final Air Tour Management Plan for Hawai'i Volcanoes National Park and the only rules that govern helicopter and fixed wing air tours over the airspace of the Hawaiian islands are contained in the decade-old Hawai'i Air Tour Common Procedures Manual. This measure therefore urges various government entities to develop, update, and introduce policies related to helicopter air tours at the state and national level, including completing the Air Tour Management Plan for Hawai'i Volcanoes National Park, Haleakalā, and other designated national parks throughout the nation; updating the Hawai'i Air Tour Common Procedures Manual; and working with community stakeholders to address concerns related to noise complaints and safety issues.

As affirmed by the record of votes of the members of your Committee on Government Operations that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 183 and recommends that it be referred to your Committee on Commerce, Consumer Protection, and Health.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 3264 Government Operations on S.R. No. 109

The purpose and intent of this measure is to urge various government entities to develop, update, and introduce policies related to helicopter air tours at the state and national level.

Your Committee received testimony in support of this measure from the County of Hawai'i, Office of the Mayor; Hawaii Island Coalition Malama Pono; one individual; and a petition with one hundred ninety names.

Your Committee finds that Hawai'i Volcanoes National Park, on the island of Hawai'i, is managed by the Director of the National Park Service, which is a bureau of the United States Department of the Interior, and has more non-essential tour helicopter overflights than any other individual park in the nation. Your Committee further finds that in recent years, helicopter noise as a result of commercial air tour flights over residential areas in the east Hawai'i region of the island of Hawai'i has reached an unprecedented level. Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 3265 Hawaiian Affairs on S.R. No. 18

The purpose and intent of this measure is to:

- (1) Urge state offices, including state educational entities and recreational facilities, and the local media, private schools, the tourism industry and other businesses, and the general public to use Hawaiian names as the sole common names of local flora and fauna;
- (2) Encourage government employees to pronounce the names of local flora and fauna properly in the Hawaiian language;
- (3) Encourage the proper spelling of Hawaiian names of local flora and fauna to include the 'okina and kahakō, where appropriate; and
- (4) Urge that more effort is put toward researching Hawaiian terms that have been lost or are needed to describe recently discovered or introduced flora and fauna.

Your Committee received testimony in support of this measure from the Office of Hawaiian Affairs, Hawaiian Civic Club of Honolulu, O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, and two individuals. Your Committee received testimony in opposition to this measure from the Center for Hawaiian Sovereignty Studies.

Your Committee finds that the Hawaiian language is the native language of the State and despite this, the Hawaiian language is beginning to lose its prominence throughout the State. Your Committee further finds that more effort should be put toward sustaining the Hawaiian language, given the importance it holds for many residents in Hawaii. Your Committee recognizes that local flora and fauna have had a tradition of being called by their native Hawaiian names, such as "pōhuehue", however this practice is increasingly declining and the English name is being used instead. Your Committee believes that the Hawaiian language should be properly utilized more frequently, especially in state government, which can lead by example.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Hawaiian Affairs that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 18, as amended herein, and recommends that it be referred to your Committee on Ways and Means, in the form attached hereto as S.R. No. 18, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 3266 (Joint) Hawaiian Affairs and Housing on S.C.R. No. 48

The purpose and intent of this measure is to request the Department of Hawaiian Home Lands to:

- (1) Identify beneficiaries who are homeless and to use this information to assist in its objective to deliver diverse residential homesteading opportunities for beneficiaries; and
- (2) Develop multi-family, high-density development in transit-oriented development zones.

Your Committees received testimony in support of this measure from the Hawaiian Civic Club of Honolulu; O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i; and Ho'omanā Pono, LLC. Your Committees received testimony in opposition to this measure from the Ho'omanāpono Political Action Committee and one individual. Your Committees received comments on this measure from the Department of Hawaiian Home Lands.

Your Committees find that homelessness remains one of the State's most pressing issues. According to "Housing Needs of Native Hawaiians: A Report From the Assessment of American Indian, Alaska Native, and Native Hawaiian Housing Needs" by the United States Department of Housing and Urban Development, Native Hawaiians are disproportionately represented in the State's homeless population. The Department of Housing and Urban Development further states in its 2015 Homeless Populations and Subpopulations report that thirty-nine percent of homeless in Hawaii identify as Native Hawaiian or other Pacific Islander.

Your Committees believe that while homelessness is a statewide problem, the Department of Hawaiian Home Lands' responsibility is toward Native Hawaiians. Your Committees note the testimony received from the Department of Hawaiian Home Lands indicating that the Department is working toward developing multi-family, high-density development as evidenced by the Hawaiian Homes Commission's approval in December 2017 to proceed with beneficiary consultation to consider administrative rules relating to Declaration of Covenants, Conditions, and Restrictions communities, multi-family housing, and rentals. Your Committees believe that the construction of tiny homes may be a solution that the Department of Hawaiian Home Lands should consider in its objective to deliver diverse residential homesteading opportunities.

Your Committees have amended this measure by:

- (1) Deleting any reference to "homeless" Native Hawaiians or beneficiaries and deleting the request that the Department of Hawaiian Home Lands identify beneficiaries who are homeless and utilize that information to assist in its objective to deliver diverse residential homesteading opportunities for beneficiaries;
- (2) Correcting the number of applicants on the homestead waitlist;
- (3) Inserting language regarding the role of tiny homes in placing Native Hawaiians in low-priced housing and allowing more to qualify for a home and requesting the Department of Hawaiian Home Lands to develop tiny homes;
- (4) Requesting the Department of Hawaiian Home Lands to identify beneficiaries who may benefit from the delivery of diverse residential homesteading opportunities;
- (5) Amending its title accordingly to read, "SENATE CONCURRENT RESOLUTION REQUESTING THE DEPARTMENT OF HAWAIIAN HOME LANDS TO PROVIDE MULTI-FAMILY, HIGH-DENSITY DEVELOPMENT IN TRANSIENT-ORIENTED DEVELOPMENT ZONES AND TINY HOMES FOR NATIVE HAWAIIANS"; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Hawaiian Affairs and Housing that are attached to this report, your Committees concur with the intent and purpose of S.C.R. No. 48, as amended herein, and recommend that it be referred to your Committee on Ways and Means, in the form attached hereto as S.C.R. No. 48, S.D. 1.

Signed by the Chairs on behalf of the Committees.

Hawaiian Affairs: Ayes, 5. Noes, none. Excused, none.

Housing: Ayes, 3. Noes, none. Excused, 2 (Harimoto, Kahele).

SCRep. 3267 Housing on S.C.R. No. 35

The purpose and intent of this measure is to request the Honolulu City Council to adopt a new permitting process to allow for the construction of large-scale houses in certain residential zoned areas.

Your Committee received testimony in support of this measure from the Department of Planning and Permitting of the City and County of Honolulu, O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, and two individuals. Your Committee received testimony in opposition to this measure from the Building Industry Association Hawaii.

Your Committee finds that large-scale houses, commonly referred to as "monster homes", that are triple in size to traditional three-bedroom, two-bathroom homes are being built across Oahu. Those living near these large-scale houses are concerned about parking, local traffic, sewer capacity, and other infrastructure capacity, and about the potential impact of these larger homes on the character of their neighborhoods. Many believe the large-scale houses are being used for unauthorized residential or vacation rentals, adult care homes, dormitories, and illegal commercial operations. As a result, the Honolulu City Council passed and the Mayor of the City and County of Honolulu signed into law a measure that calls for the Department of Planning and Permitting of the City and County of Honolulu to immediately halt issuing building permits for large-scale houses until the City Council can adopt stricter regulations on the structures, or up to two years.

Your Committee further finds that Hawaii is experiencing a severe housing crisis and these large-scale houses could play a role in ending the State's homeless situation by providing affordable rooms for rent. Thus, in light of the moratorium and the pressing need for the creation of affordable dwelling units, this measure requests for the inclusion of a new permitting process to allow for the construction of large-scale houses.

Your Committee notes that these large-scale houses could be situated in master planned communities, so that purchasers are fully aware of the types of housing under development, and be subject to rental price restrictions or requirements in order to maintain affordability. However, your Committee believes that such large-scale houses should be considered for inclusion in new or future master planned communities, rather than existing master planned communities.

Your Committee has amended this measure by:

- (1) Requesting that the new permitting process allow large-scale housing in areas such as new master planned communities; and

- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 35, as amended herein, and recommends that it be referred to your Committee on Public Safety, Intergovernmental, and Military Affairs, in the form attached hereto as S.C.R. No. 35, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Harimoto, Kahele).

SCRep. 3268 Labor on S.C.R. No. 22

The purpose and intent of this measure is to request the Director of Finance to establish a working group to identify barriers to improving the State's hiring processes.

Your Committee received comments on this measure from the Department of Labor and Industrial Relations.

Your Committee finds that Hawaii's low unemployment rate of two percent presents difficulties for executive agencies to attract qualified applicants and retain experienced employees. Your Committee further finds that mid-management level positions are especially short on employees due to numerous required procedures that executive agencies must follow during the hiring process. Your Committee finds, especially as more employees reach the eligible age for retirement, that it is important that executive agencies have mechanisms in place to allow them to quickly fill vacant positions. This measure aims to improve the State's hiring process and remove barriers to finding, hiring, and retaining highly qualified employees.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Labor that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 22, as amended herein, and recommends that it be referred to your Committee on Ways and Means, in the form attached hereto as S.C.R. No. 22, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 3269 Labor on S.R. No. 12

The purpose and intent of this measure is to request the Director of Finance to establish a working group to identify barriers to improving the State's hiring processes.

Your Committee received comments on this measure from the Department of Labor and Industrial Relations.

Your Committee finds that Hawaii's low unemployment rate of two percent presents difficulties for executive agencies to attract qualified applicants and retain experienced employees. Your Committee further finds that mid-management level positions are especially short on employees due to numerous required procedures that executive agencies must follow during the hiring process. Your Committee finds, especially as more employees reach the eligible age for retirement, that it is important that executive agencies have mechanisms in place to allow them to quickly fill vacant positions. This measure aims to improve the State's hiring process and remove barriers to finding, hiring, and retaining highly qualified employees.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Labor that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 12, as amended herein, and recommends that it be referred to your Committee on Ways and Means, in the form attached hereto as S.R. No. 12, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 3270 Government Operations on S.C.R. No. 93

The purpose and intent of this measure is to:

- (1) Request the Department of Budget and Finance to compile a report including specific information on all unspent federal funds for each state department; and
- (2) Request the Department of Budget and Finance to submit the report to the Legislature prior to the convening of the Regular Session of 2019.

Your Committee received testimony in support of this measure from the Oahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i. Your Committee received comments on this measure from the Department of Budget and Finance.

Your Committee finds that the State receives approximately \$3,000,000,000 per year from federal sources, which accounts for approximately twenty percent of the State's annual budget. The biggest recipients of federal funds in Hawaii are the Department of Human Services, which administers Medicaid; University of Hawaii; Department of Education; and Department of Health. By requesting a comprehensive report of all unspent federal funds by state departments, this measure may be valuable in identifying ways to improve program funding, efficacy, and efficiency.

Your Committee notes the written comments submitted by the Department of Budget and Finance that in 2014, the Department launched the Federal Award Management System that requires state departments to report certain data for each federal award they

receive and to update award records as the data changes. However, the Department of Education, University of Hawaii, which has its own separate reporting system, and Office of Hawaiian Affairs do not participate in the Federal Award Management System.

Accordingly, your Committee has amended this measure by:

- (1) Changing the title to request the Department of Education, University of Hawaii, and Office of Hawaiian Affairs, in addition to the Department of Budget and Finance, to submit a report to the Legislature on all unspent federal funds for their respective state department or entity, and making conforming amendments accordingly;
- (2) Adding the Superintendent of Education, President of the University of Hawaii, and Chief Executive Office of the Office of Hawaiian Affairs to the list of recipients to be transmitted a certified copy of this measure; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Government Operations that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 93, as amended herein, and recommends that it be referred to your Committee on Ways and Means, in the form attached hereto as S.C.R. No. 93, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 3271 Government Operations on S.C.R. No. 152

The purpose and intent of this measure is to:

- (1) Request the Legislative Reference Bureau to conduct a study on the needs and costs associated with the implementation of audio and video technology to provide all state residents with the opportunity to provide oral testimony at all legislative hearings; and
- (2) Request the Legislative Reference Bureau to submit a written report of its findings and recommendations, including any proposed legislation, to the Legislature no later than December 1, 2018.

Your Committee received testimony in support of this measure from Common Cause Hawaii and O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i. Your Committee received comments on this measure from the Legislative Reference Bureau.

Your Committee finds that legislative rules and practices encourage robust debate provided through testimony from members of the public, but such public participation may disproportionately impact citizens on the neighbor islands due to distance and travel costs. By conducting a study on the needs and costs associated with the implementation of audio and video technology for oral testimony at all legislative hearings, this measure will provide a mechanism for full public participation in the democratic process.

As affirmed by the record of votes of the members of your Committee on Government Operations that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 152 and recommends that it be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 3272 Government Operations on S.R. No. 112

The purpose and intent of this measure is to:

- (1) Request the Legislative Reference Bureau to conduct a study on the needs and costs associated with the implementation of audio and video technology to provide all state residents with the opportunity to provide oral testimony at all legislative hearings; and
- (2) Request the Legislative Reference Bureau to submit a written report of its findings and recommendations, including any proposed legislation, to the Legislature no later than December 1, 2018.

Your Committee received testimony in support of this measure from the Ulupono Initiative, Common Cause Hawaii, and O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i.

Your Committee finds that legislative rules and practices encourage robust debate provided through testimony from members of the public, but such public participation may disproportionately impact citizens on the neighbor islands due to distance and travel costs. By conducting a study on the needs and costs associated with the implementation of audio and video technology for oral testimony at all legislative hearings, this measure will provide a mechanism for full public participation in the democratic process.

As affirmed by the record of votes of the members of your Committee on Government Operations that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 112 and recommends that it be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 3273 (Joint) Economic Development, Tourism, and Technology and Agriculture and Environment on S.C.R. No. 171

The purpose and intent of this measure is to request the Hawaii Tourism Authority to:

- (1) Establish a campaign to educate visitors to the State about the harmful effects of oxybenzone sunscreen on coral reefs and to encourage visitors to refrain from using oxybenzone sunscreen; and
- (2) Submit a report to the Legislature no later than twenty days prior to the convening of the Regular Session of 2019 on efforts taken to educate visitors about the harmful effects of oxybenzone.

Your Committees received testimony in support of this measure from the Department of Land and Natural Resources, Department of Health, Hawaiian Affairs Caucus of the Democratic Party of Hawaii, and one individual. Your Committees received comments on this measure from the Hawaii Tourism Authority.

Your Committees find that the health of Hawaii's marine ecosystem is one of the most pressing matters of the State. Coral in Hawaii's waters are showing increasingly significant signs of damage, including extensive bleaching. Your Committees further find that the chemical known as oxybenzone, found in sunscreen, is harmful to coral. Studies have shown that oxybenzone causes coral deformity, bleaching, and DNA damage that weaken the coral systems' adaptability to climate change. Your Committees note that there are alternatives to oxybenzone sunscreen. Elevated levels of oxybenzone have been detected throughout the State, including Waimea Bay, Waikiki Beach in Oahu, and Honolua Bay in Maui. Your Committees find great merit in educating visitors about the potential impacts of oxybenzone on Hawaii's marine ecosystem in order to better preserve and protect marine life.

As affirmed by the records of votes of the members of your Committees on Economic Development, Tourism, and Technology and Agriculture and Environment that are attached to this report, your Committees concur with the intent and purpose of S.C.R. No. 171 and recommend that it be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Economic Development, Tourism, and Technology: Ayes, 3; Ayes with Reservations (Taniguchi). Noes, none. Excused, 2 (Baker, Thielen).

Agriculture and Environment: Ayes, 3. Noes, none. Excused, 2 (Nishihara, Ruderman).

SCRep. 3274 (Joint) Economic Development, Tourism, and Technology and Agriculture and Environment on S.R. No. 100

The purpose and intent of this measure is to request the Hawaii Tourism Authority to:

- (1) Establish a campaign to educate visitors to the State about the harmful effects of oxybenzone sunscreen on coral reefs and to encourage visitors to refrain from using oxybenzone sunscreen; and
- (2) Submit a report to the Legislature no later than twenty days prior to the convening of the Regular Session of 2019 on efforts taken to educate visitors about the harmful effects of oxybenzone.

Your Committees received testimony in support of this measure from the Department of Land and Natural Resources, Department of Health, Hawaiian Affairs Caucus of the Democratic Party of Hawaii, and one individual. Your Committees received comments on this measure from the Hawaii Tourism Authority and one individual.

Your Committees find that the health of Hawaii's marine ecosystem is one of the most pressing matters of the State. Coral in Hawaii's waters are showing increasingly significant signs of damage, including extensive bleaching. Your Committees further find that the chemical known as oxybenzone, found in sunscreen, is harmful to coral. Studies have shown that oxybenzone causes coral deformity, bleaching, and DNA damage that weaken the coral systems' adaptability to climate change. Your Committees note that there are alternatives to oxybenzone sunscreen. Elevated levels of oxybenzone have been detected throughout the State, including Waimea Bay, Waikiki Beach in Oahu, and Honolua Bay in Maui. As affirmed by the records of votes of the members of your Committees on Economic Development, Tourism, and Technology and Agriculture and Environment that are attached to this report, your Committees concur with the intent and purpose of S.R. No. 100 and recommend that it be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Economic Development, Tourism, and Technology: Ayes, 3; Ayes with Reservations (Taniguchi). Noes, none. Excused, 2 (Baker, Thielen).

Agriculture and Environment: Ayes, 3. Noes, none. Excused, 2 (Nishihara, Ruderman).

SCRep. 3275 (Joint) Economic Development, Tourism, and Technology and Government Operations on S.C.R. No. 158

The purpose and intent of this measure is to:

- (1) Request the Governor and Legislature to convene a joint task force to identify ways to:
 - (A) Collect uncollected revenues;
 - (B) Generate revenue by enacting tax measures that have minimal impact on families with low- and moderate-incomes; and
 - (C) Reduce costs by re-describing positions and eliminating unnecessary vacancies in various state departments and agencies;
- (2) Request the Governor to share the Governor's six-year financial plan with the Legislature no later than twenty days prior to the convening of each regular session; and
- (3) Encourage the joint task force to meet every fiscal quarter to review and update the financial plan as necessary.

Your Committees received testimony in support of this measure from the Department of Budget and Finance. Your Committees received comments on this measure from the Department of Taxation and one individual.

Your Committees find that the State is not collecting the full amount of revenue owed from sources such as the transient accommodations tax from illegal transient vacation rentals, hotel resort fees, and online transient accommodation intermediaries. Your Committees further find that several measures have been proposed for consideration this regular session that would enforce or clarify existing tax laws, or increase revenue generated from various sources, to create financial stability. However, prior to enacting these measures, your Committees feel that more collaborative work between the Legislature and the Executive Branch would better identify areas where the State can generate more revenue and make the State more efficient. Your Committees believe that a joint task force to address these issues is imperative to thoroughly examine the options, share information and ideas, and make fiscally prudent decisions for the State's future.

As affirmed by the records of votes of the members of your Committees on Economic Development, Tourism, and Technology and Government Operations that are attached to this report, your Committees concur with the intent and purpose of S.C.R. No. 158 and recommend that it be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Economic Development, Tourism, and Technology: Ayes, 3. Noes, none. Excused, 2 (Baker, Thielen).

Government Operations: Ayes, 5. Noes, none. Excused, none.

SCRep. 3276 (Joint) Economic Development, Tourism, and Technology and Government Operations on S.R. No. 118

The purpose and intent of this measure is to:

- (1) Request the Governor and Legislature to convene a joint task force to identify ways to:
 - (A) Collect uncollected revenues;
 - (B) Generate revenue by enacting tax measures that have minimal impact on families with low- and moderate-incomes; and
 - (C) Reduce costs by re-describing positions and eliminating unnecessary vacancies in various state departments and agencies;
- (2) Request the Governor to share the Governor's six-year financial plan with the Legislature no later than twenty days prior to the convening of each regular session; and
- (3) Encourage the joint task force to meet every fiscal quarter to review and update the financial plan as necessary.

Your Committees received testimony in support of this measure from the Department of Budget and Finance. Your Committees received comments on this measure from the Department of Taxation.

Your Committees find that the State is not collecting the full amount of revenue owed from sources such as the transient accommodations tax from illegal transient vacation rentals, hotel resort fees, and online transient accommodation intermediaries. Your Committees further find that several measures have been proposed for consideration this regular session that would enforce or clarify existing tax laws, or increase revenue generated from various sources, to create financial stability. However, prior to enacting these measures, your Committees feel that more collaborative work between the Legislature and the Executive Branch would better identify areas where the State can generate more revenue and make the State more efficient. Your Committees believe that a joint task force to address these issues is imperative to thoroughly examine the options, share information and ideas, and make fiscally prudent decisions for the State's future.

As affirmed by the records of votes of the members of your Committees on Economic Development, Tourism, and Technology and Government Operations that are attached to this report, your Committees concur with the intent and purpose of S.R. No. 118 and recommend that it be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Economic Development, Tourism, and Technology: Ayes, 3. Noes, none. Excused, 2 (Baker, Thielen).

Government Operations: Ayes, 5. Noes, none. Excused, none.

SCRep. 3277 (Joint) Hawaiian Affairs and Commerce, Consumer Protection, and Health on S.C.R. No. 73

The purpose and intent of this measure is to request that the United States Congress amend the Native Hawaiian Health Care Improvement Act to ensure that the Act receives permanent funding.

Your Committees received testimony in support of this measure from the University of Hawai'i System; Papa Ola Lōkahi; Native Hawaiian Health Scholarship Program; Hawaiian Civic Club of Honolulu; Hawaiian Affairs Caucus of the Democratic Party of Hawaii; O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i; Ho'omanā Pono, LLC; and Ho'omanāpono Political Action Committee. Your Committees received testimony in opposition to this measure from the Center for Hawaiian Sovereignty Studies.

Your Committees find that the Native Hawaiian Health Care Improvement Act (NHHCIA) was enacted in 1988 and established a program to provide comprehensive health promotion and disease prevention services to Native Hawaiians. Your Committees further find that the funding for NHHCIA ends in fiscal year 2019, and unless authorization of the NHHCIA is extended, existing federal Native Hawaiian health care programs will end. Your Committees believe that the NHHCIA is imperative for the United States to fulfill its special responsibilities and legal obligations to Native Hawaiians to "raise the health status of Native Hawaiians to the highest possible health level", as stipulated in title 42 United States Code section 11702(1). Your Committees find that the Indian Health Care Improvement Act includes a provision for permanent funding of the Act, to remain available until expended. Your Committees recognize the work Papa Ola Lōkahi has been doing with the members of Hawaii's congressional delegation to authorize permanent funding for the NHHCIA, similar to the Indian Health Care Improvement Act. Your Committees believe that permanent funding is essential to providing Native Hawaiians with proper health care.

Your Committees have amended this measure by:

- (1) As suggested by Papa Ola Lōkahi, clarifying that the United States Congress is requested to make permanent the authority of the Native Hawaiian Health Care Improvement Act, with all the funding resources necessary to effect this policy;
- (2) Amending its title to reflect its amended purpose; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Hawaiian Affairs and Commerce, Consumer Protection, and Health that are attached to this report, your Committees concur with the intent and purpose of S.C.R. No. 73, as amended herein, and recommend that it be referred to your Committee on Ways and Means, in the form attached hereto as S.C.R. No. 73, S.D. 1.

Signed by the Chairs on behalf of the Committees.

Hawaiian Affairs: Ayes, 3. Noes, none. Excused, 2 (Galuteria, Green).

Commerce, Consumer Protection, and Health: Ayes, 4. Noes, none. Excused, 3 (Chang, Nishihara, Tokuda).

SCRep. 3278 (Joint) Hawaiian Affairs and Commerce, Consumer Protection, and Health on S.R. No. 44

The purpose and intent of this measure is to request that the United States Congress amend the Native Hawaiian Health Care Improvement Act to ensure that the Act receives permanent funding.

Your Committees received testimony in support of this measure from the University of Hawai'i System; Papa Ola Lōkahi; O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i; Ho'omana Pono, LLC; Ho'omanapono Political Action Committee; and two individuals. Your Committees received testimony in opposition to this measure from the Center for Hawaiian Sovereignty Studies. Your Committees received comments on this measure from one individual.

Your Committees find that the Native Hawaiian Health Care Improvement Act (NHHCIA) was enacted in 1988 and established a program to provide comprehensive health promotion and disease prevention services to Native Hawaiians. Your Committees further find that the funding for NHHCIA ends in fiscal year 2019, and unless authorization of the NHHCIA is extended, existing federal Native Hawaiian health care programs will end. Your Committees believe that the NHHCIA is imperative for the United States to fulfill its special responsibilities and legal obligations to Native Hawaiians to "raise the health status of Native Hawaiians to the highest possible health level", as stipulated in title 42 United States Code section 11702(1). Your Committees find that the Indian Health Care Improvement Act includes a provision for permanent funding of the Act, to remain available until expended. Your Committees recognize the work Papa Ola Lōkahi has been doing with the members of Hawaii's congressional delegation to authorize permanent funding for the NHHCIA, similar to the Indian Health Care Improvement Act. Your Committees believe that permanent funding is essential to providing Native Hawaiians with proper health care.

Your Committees have amended this measure by:

- (1) As suggested by Papa Ola Lōkahi, clarifying that the United States Congress is requested to make permanent the authority of the Native Hawaiian Health Care Improvement Act, with all the funding resources necessary to effect this policy;
- (2) Amending its title to reflect its amended purpose; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Hawaiian Affairs and Commerce, Consumer Protection, and Health that are attached to this report, your Committees concur with the intent and purpose of S.R. No. 44, as amended herein, and recommend that it be referred to your Committee on Ways and Means, in the form attached hereto as S.R. No. 44, S.D. 1.

Signed by the Chairs on behalf of the Committees.

Hawaiian Affairs: Ayes, 3. Noes, none. Excused, 2 (Galuteria, Green).

Commerce, Consumer Protection, and Health: Ayes, 4. Noes, none. Excused, 3 (Chang, Nishihara, Tokuda).

SCRep. 3279 Commerce, Consumer Protection, and Health on S.C.R. No. 136

The purpose and intent of this measure is to request the Executive Office on Aging to improve its transparency with respect to its compliance with the Older Americans Act and the services and supports provided through county area agencies on aging.

Your Committee received testimony in support of this measure from the Executive Office on Aging, O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, Catholic Charities Hawai'i, Hawai'i Meals on Wheels, Lanakila Pacific, and one individual.

Your Committee finds that some non-profit organizations and other entities contracted by government agencies to provide services to the elderly in Hawaii have reported delays and gaps in contracting and payment, which have affected their ability to provide timely service and plan for the future and have resulted in errors, inefficiencies, and delays. Your Committee finds that increased transparency within the Aging Network of the Executive Office on Aging, county area agencies on aging, and contracted service providers will uncover areas for improvement and encourage a fairer, more effective support system for the elderly.

Your Committee notes that the Executive Office on Aging possesses much of the information that would need to be shared, is in the best position to share it, and has volunteered in good faith to share it.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 136 and recommends that it be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, 1 (Tokuda).

SCRep. 3280 Commerce, Consumer Protection, and Health on S.C.R. No. 137

The purpose and intent of this measure is to request the Insurance Commissioner to establish and convene an Insurance Modernization Working Group to update and modernize Hawaii's property, casualty, and life insurance laws.

Your Committee received testimony in support of this measure from the Department of Commerce and Consumer Affairs, O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, State Farm Mutual Automobile Insurance Company, and one individual. Your Committee received comments on this measure from the National Association of Insurance and Financial Advisors and Hawaii Association for Justice.

Your Committee finds that technology and consumer expectations are rapidly transforming the regulated insurance industry. Substantial investments are being made in innovative insurance products, services, and technologies, which have great potential to improve risk mitigation, improve efficiencies, reduce costs of insurance transactions, speed up claim payments, and improve overall customer understanding of, and satisfaction with, this essential form of financial protection. This measure therefore requests the Insurance Commissioner to establish a working group to explore and propose legislation to update and modernize Hawaii's property, casualty, and life insurance laws, in light of the rapid technological changes to the insurance industry, which will help streamline Hawaii's insurance laws and ensure a seamless transition in the evolution of insurance regulation in the State.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 137, as amended herein, and recommends that it be referred to your Committee on Ways and Means, in the form attached hereto as S.C.R. No. 137, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, 1 (Tokuda).

SCRep. 3281 Commerce, Consumer Protection, and Health on S.C.R. No. 113

The purpose and intent of this measure is to request the Department of Health to convene a working group to examine palliative care services and develop recommendations to expand palliative care services in Hawaii.

Your Committee received testimony in support of this measure from the Department of Health, O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, American Cancer Society Cancer Action Network, Hospice of Hilo-Hawai'i Care Choices, Kōkua Mau, St. Francis Healthcare System, and three individuals.

Your Committee finds that palliative care is specialized medical care for people with serious illness, including chronic and terminal illness. Your Committee finds that palliative care can improve the quality of life for the patient and the patient's family and has been shown to reduce the need for hospitalization, including emergency room visits, time spent in intensive care, and hospital readmissions. However, your Committee also finds that palliative care is not universally offered, nor have the possibilities of palliative care been fully explored. Your Committee also notes that other states have successfully implemented working groups to study and expand palliative care services. Accordingly, your Committee finds that this State would similarly benefit from a working group to conduct an assessment of the current state of, and potential to improve, palliative care services in Hawaii.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 113 and recommends that it be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, 1 (Tokuda).

SCRep. 3282 (Joint) Public Safety, Intergovernmental, and Military Affairs and Judiciary on S.C.R. No. 120

The purpose and intent of this measure is to urge the United States Congress to reform and amend the Immigration and Nationality Act of 1965 and other relevant federal immigration laws to classify climate-related migrants as refugees in order to receive greater legal status and protection.

Your Committees received testimony in support of this measure from one individual.

Your Committees find that the challenges facing small island nations in the Pacific, such as sea-level rise, deterioration of precious watersheds, and protection of native flora and fauna, have led to increasing numbers of migrants from the region. Your Committees further find that all individuals fleeing from climate-related impacts who cross or seek to cross international borders are entitled to due process in the assessment of their legal status based on human rights principles, such as protection from persecution, equity, and freedom from discrimination. Your Committees acknowledge that climate-related migrants come from a variety of locations across the globe; however, your Committees believe that at this time it is crucial that the United States Congress focus on those individuals fleeing the negative impacts of climate change in the Pacific region.

Your Committees have amended this measure by:

- (1) Clarifying that the United States Department of Justice is urged to recognize the specific needs and special circumstances of applicants from developing nations, especially those from island nations in the Pacific that are vulnerable to climate change, when determining whether a migration may constitute a special humanitarian concern; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Public Safety, Intergovernmental, and Military Affairs and Judiciary that are attached to this report, your Committees concur with the intent and purpose of S.C.R. No. 120, as amended

herein, and recommend that it be referred to your Committee on Ways and Means, in the form attached hereto as S.C.R. No. 120, S.D. 1.

Signed by the Chairs on behalf of the Committees.

Public Safety, Intergovernmental, and Military Affairs: Ayes, 5. Noes, none. Excused, none.

Judiciary: Ayes, 5. Noes, none. Excused, none.

SCRep. 3283 (Majority) Judiciary on S.C.R. No. 76

The purpose and intent of this measure is to request the United States Congress to convene a limited national convention under Article V of the Constitution of the United States for the exclusive purpose of proposing an amendment to the Constitution that will limit the influence of money in the electoral process.

Your Committee received testimony in support of this measure from Wolf-PAC and twenty individuals. Your Committee received testimony in opposition to this measure from the Department of the Attorney General, League of Women Voters of Hawaii, Common Cause Hawaii, American Civil Liberties Union of Hawai'i, Life of the Land, Hawai'i Appleseed Center for Law and Economic Justice, and seven individuals. Your Committee received comments on this measure from one individual.

Your Committee finds that the decision of the Supreme Court of the United States in *Citizens United v. Federal Election Commission*, 130 S.Ct. 876 (2010), had a significant effect on the role of powerful monied interests in election campaigns. Since that decision, many Americans from diverse political backgrounds have called for an amendment to the Constitution of the United States limiting the influence of money in elections. Your Committee further finds that an amendment to the Constitution of the United States limiting the influence of powerful monied interests in elections would lead to a more equitable representation of the public in all levels of government.

Your Committee additionally finds that, under Article V of the Constitution of the United States, an amendment to the Constitution may be proposed either by Congress with a two-thirds majority vote in both the Senate and House of Representatives or by a constitutional convention called for by two-thirds of the state legislatures. In the Regular Session of 2010, the Legislature passed House Concurrent Resolution No. 282, which requested Congress to propose an amendment to the Constitution of the United States to permit Congress and the states to regulate the expenditure of funds by corporations engaging in political speech. Although eighteen other states passed similar resolutions, Congress has proposed no such amendment.

Your Committee heard testimony expressing concerns that a national convention under Article V of the Constitution of the United States could not practicably be confined to a certain proposed amendment if the delegates chose to consider other issues. While the limits that could potentially be placed on a convention under to Article V have not been definitively established, your Committee notes that numerous amendments to the Constitution have been successfully proposed by Congress following a groundswell of resolutions from a number of state legislatures calling for a constitutional convention.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 76, as amended herein, and recommends that it be referred to your Committee on Ways and Means, in the form attached hereto as S.C.R. No. 76, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 3; Ayes with Reservations (Taniguchi). Noes, 2 (Kim, Thielen). Excused, none.

SCRep. 3284 Judiciary on S.C.R. No. 31

The purpose and intent of this measure is to request the State Foundation on Culture and the Arts to build and erect a statue of President Barack Obama.

Your Committee received testimony in support of this measure from the State Foundation on Culture and the Arts.

Your Committee finds that Barack Obama was born, raised, and received primary and secondary education in Honolulu, Hawaii. After graduating from Columbia University and receiving his doctorate of jurisprudence from Harvard University, he worked as a civil rights attorney and later professor of constitutional law in Chicago, Illinois. He entered politics and was elected to the United States Senate and later to the office of President of the United States. Your Committee finds that in light of President Obama's historic accomplishments, it is appropriate to commemorate him in Hawaii. However, your Committee notes that the State Foundation on Culture and the Arts has an established procedure and management policy for all new works of art.

Accordingly, your Committee has amended this measure by:

- (1) Removing language requesting the State Foundation on Culture and the Arts to build and erect a statue of President Barack Obama and inserting language requesting the Foundation to commission a monument to President Barack Obama by forming an art advisory committee and following the Foundation's collection management policy for new works of art; and
- (2) Making a conforming amendment to the title.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 31, as amended herein, and recommends that it be referred to your Committee on Ways and Means, in the form attached hereto as S.C.R. No. 31, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 3285 Judiciary on S.R. No. 15

The purpose and intent of this measure is to request the State Foundation on Culture and the Arts to build and erect a statue of President Barack Obama.

Your Committee received testimony in support of this measure from the State Foundation on Culture and the Arts. Your Committee received testimony in opposition to this measure from one individual.

Your Committee finds that Barack Obama was born, raised, and received primary and secondary education in Honolulu, Hawaii. After graduating from Columbia University and receiving his doctorate of jurisprudence from Harvard University, he worked as a civil rights attorney and later professor of constitutional law in Chicago, Illinois. He entered politics and was elected to the United States Senate and later to the office of President of the United States. Your Committee finds that in light of President Obama's historic accomplishments, it is appropriate to commemorate him in Hawaii. However, your Committee notes that the State Foundation on Culture and the Arts has an established procedure and management policy for all new works of art.

Accordingly, your Committee has amended this measure by:

- (2) Making a conforming amendment to the title.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 15, as amended herein, and recommends that it be referred to your Committee on Ways and Means, in the form attached hereto as S.R. No. 15, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 3286 (Joint) Labor and Commerce, Consumer Protection, and Health on S.C.R. No. 54

The purpose and intent of this measure is to request the Auditor to conduct a study to assess the impact of medical bill review costs on the State's workers' compensation system.

Your Committees received testimony in support of this measure from the Work Injury Medical Association of Hawaii and O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i. Your Committees received comments on this measure from the Office of the Auditor and Department of Labor and Industrial Relations.

Your Committees find that although workers' compensation premiums in Hawaii have dropped significantly since the reforms in the mid-1990s, it is important to understand the impact of medical bill review costs, which include pharmacy benefit manager and third party administrator costs, on the State's workers' compensation system. Your Committees further find that not much data has been collected to allow for a review of the impact of medical bill review costs. Your Committees believe that it is crucial that the State understand the fine print of the various fee structures and the implications on its total medical bill review costs.

Your Committees have amended this measure by:

- (1) Requesting the Auditor to submit a preliminary report to the Legislature by January 1, 2019;
- (2) Requesting the State Health Planning and Development Agency to make the all-payer claims database available to assist the Auditor in compiling data for the study; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As this measure moves forward, your Committees request that your Committee on Ways and Means consider providing resources in another vehicle for the Auditor to conduct the medical bill review costs study requested in this measure.

As affirmed by the records of votes of the members of your Committees on Labor and Commerce, Consumer Protection, and Health that are attached to this report, your Committees concur with the intent and purpose of S.C.R. No. 54, as amended herein, and recommend that it be referred to your Committee on Ways and Means, in the form attached hereto as S.C.R. No. 54, S.D. 1.

Signed by the Chairs on behalf of the Committees.
Labor: Ayes, 4. Noes, none. Excused, 1 (Taniguchi).
Commerce, Consumer Protection, and Health: Ayes, 6. Noes, none. Excused, 1 (Ihara).

SCRep. 3287 (Joint) Labor and Commerce, Consumer Protection, and Health on S.R. No. 25

The purpose and intent of this measure is to request the Auditor to conduct a study to assess the impact of medical bill review costs on the State's workers' compensation system.

Your Committees received testimony in support of this measure from the Work Injury Medical Association of Hawaii and O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i. Your Committees received comments on this measure from the Office of the Auditor and Department of Labor and Industrial Relations.

Your Committees find that although workers' compensation premiums in Hawaii have dropped significantly since the reforms in the mid-1990s, it is important to understand the impact of medical bill review costs, which include pharmacy benefit manager and third party administrator costs, on the State's workers' compensation system. Your Committees further find that not much data has been collected to allow for a review of the impact of medical bill review costs. Your Committees believe that it is crucial that the State understand the fine print of the various fee structures and the implications on its total medical bill review costs.

Your Committees have amended this measure by:

- (1) Requesting the Auditor to submit a preliminary report to the Legislature by January 1, 2019;
- (2) Requesting the State Health Planning and Development Agency to make the all-payer claims database available to assist the Auditor in compiling data for the study; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Labor and Commerce, Consumer Protection, and Health that are attached to this report, your Committees concur with the intent and purpose of S.R. No. 25, as amended herein, and recommend that it be referred to your Committee on Ways and Means, in the form attached hereto as S.R. No. 25, S.D. 1.

Signed by the Chairs on behalf of the Committees.

Labor: Ayes, 4. Noes, none. Excused, 1 (Taniguchi).

Commerce, Consumer Protection, and Health: Ayes, 6. Noes, none. Excused, 1 (Ihara).

SCRep. 3288 (Joint) Labor and Economic Development, Tourism, and Technology on S.C.R. No. 34

The purpose and intent of this measure is to urge the National Football League to allow injured players to use cannabidiol in pill or liquid form, in lieu of opioids, to address the pain from their work-related injuries.

Your Committees received testimony in support of this measure from the Drug Policy Forum of Hawaii.

Your Committees find that many National Football League players suffer from serious injuries during their careers due to the nature of the game and are often prescribed opioids to alleviate pain from those injuries. Your Committees also find that the dangers of overuse and abuse of opioids have been well-documented and the misuse of and addiction to opioids is a serious national crisis that affects public health as well as social and economic welfare. Your Committees further find that research studies have demonstrated that cannabidiol, although a component of marijuana, is non-intoxicating, anxiolytic, anti-inflammatory, antiemetic, and antipsychotic, therefore alleviating pain without causing the individual to “get high”. Your Committees find it may be beneficial to injured football players to be allowed to use cannabidiol in pill or liquid form, in lieu of opioids, to address the pain from their work-related injuries.

As affirmed by the records of votes of the members of your Committees on Labor and Economic Development, Tourism, and Technology that are attached to this report, your Committees concur with the intent and purpose of S.C.R. No. 34 and recommend that it be referred to your Committee on Commerce, Consumer Protection, and Health.

Signed by the Chairs on behalf of the Committees.

Labor: Ayes, 4. Noes, none. Excused, 1 (Ihara).

Economic Development, Tourism, and Technology: Ayes, 5. Noes, none. Excused, none.

SCRep. 3289 (Joint) Labor and Economic Development, Tourism, and Technology on S.R. No. 17

The purpose and intent of this measure is to urge the National Football League to allow injured players to use cannabidiol in pill or liquid form, in lieu of opioids, to address the pain from their work-related injuries.

Your Committees received testimony in support of this measure from the Drug Policy Forum of Hawaii.

Your Committees find that many National Football League players suffer from serious injuries during their careers due to the nature of the game and are often prescribed opioids to alleviate pain from those injuries. Your Committees also find that the dangers of overuse and abuse of opioids have been well-documented and the misuse of and addiction to opioids is a serious national crisis that affects public health as well as social and economic welfare. As affirmed by the records of votes of the members of your Committees on Labor and Economic Development, Tourism, and Technology that are attached to this report, your Committees concur with the intent and purpose of S.R. No. 17 and recommend that it be referred to your Committee on Commerce, Consumer Protection, and Health.

Signed by the Chairs on behalf of the Committees.

Labor: Ayes, 4. Noes, none. Excused, 1 (Ihara).

Economic Development, Tourism, and Technology: Ayes, 5. Noes, none. Excused, none.

SCRep. 3290 (Joint) Public Safety, Intergovernmental, and Military Affairs and Commerce, Consumer Protection, and Health on S.C.R. No. 23

The purpose and intent of this measure is to request the Federal Communications Commission to require all television stations that broadcast in Hawaii to allocate time slots in their programs to broadcast public service announcements to educate the public on how to prepare for all disasters, natural and man-made, in Hawaii.

Your Committees received testimony in support of this measure from the Disability and Communication Access Board, O’ahu County Committee on Legislative Priorities of the Democratic Party of Hawai’i, and one individual.

Your Committees find that this measure will help improve access to disaster preparedness information, especially in situations where people lack access to the Internet.

However, your Committees have heard the concerns of the Disability and Communication Access Board that this measure fails to request adequate protections for persons who are blind, are deaf, or possess cognitive disabilities. Your Committees note that public service announcements sometimes do not have audio descriptions, open captions, sign language interpretation, or basic English messages that provide information identical to the information available to persons who are not blind, not deaf, and do not have cognitive disabilities.

Accordingly, your Committees have amended this measure by:

- (1) Noting the importance of including access across various platforms for people with disabilities, including people who are blind, deaf, or hard of hearing, or who have cognitive disabilities; and
- (2) Requesting that all public service announcements be made accessible to persons with disabilities and provide information that is equivalent to information accessible to persons without disabilities, and unobstructed by any other messages.

As affirmed by the records of votes of the members of your Committees on Public Safety, Intergovernmental, and Military Affairs and Commerce, Consumer Protection, and Health that are attached to this report, your Committees concur with the intent and purpose of S.C.R. No. 23, as amended herein, and recommend that it be referred to your Committee on Ways and Means, in the form attached hereto as S.C.R. No. 23, S.D. 1.

Signed by the Chairs on behalf of the Committees.

Public Safety, Intergovernmental, and Military Affairs: Ayes, 3. Noes, none. Excused, 2 (Ihara, Thielen).

Commerce, Consumer Protection, and Health: Ayes, 4. Noes, none. Excused, 3 (Chang, Ihara, Tokuda).

SCRep. 3291 (Joint) Public Safety, Intergovernmental, and Military Affairs and Commerce, Consumer Protection, and Health on S.R. No. 13

The purpose and intent of this measure is to request the Federal Communications Commission to require all television stations that broadcast in Hawaii to allocate time slots in their programs to broadcast public service announcements to educate the public on how to prepare for all disasters, natural and man-made, in Hawaii.

Your Committees received testimony in support of this measure from the Disability and Communication Access Board, O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, and Ho'omana Pono, LLC.

Your Committees find that this measure will help improve access to disaster preparedness information, especially in situations where people lack access to the Internet.

However, your Committees have heard the concerns of the Disability and Communication Access Board that this measure fails to request adequate protections for persons who are blind, are deaf, or possess cognitive disabilities. Your Committees note that public service announcements sometimes do not have audio descriptions, open captions, sign language interpretation, or basic English messages that provide information identical to the information available to persons who are not blind, not deaf, and do not have cognitive disabilities.

Accordingly, your Committees have amended this measure by:

- (1) Noting the importance of including access across various platforms for people with disabilities, including people who are blind, deaf, or hard of hearing, or who have cognitive disabilities; and
- (2) Requesting that all public service announcements be made accessible to persons with disabilities and provide information that is equivalent to information accessible to persons without disabilities, and unobstructed by any other messages.

As affirmed by the records of votes of the members of your Committees on Public Safety, Intergovernmental, and Military Affairs and Commerce, Consumer Protection, and Health that are attached to this report, your Committees concur with the intent and purpose of S.R. No. 13, as amended herein, and recommend that it be referred to your Committee on Ways and Means, in the form attached hereto as S.R. No. 13, S.D. 1.

Signed by the Chairs on behalf of the Committees.

Public Safety, Intergovernmental, and Military Affairs: Ayes, 3. Noes, none. Excused, 2 (Ihara, Thielen).

Commerce, Consumer Protection, and Health: Ayes, 4. Noes, none. Excused, 3 (Chang, Ihara, Tokuda).

SCRep. 3292 (Joint) Public Safety, Intergovernmental, and Military Affairs and Judiciary on S.R. No. 77

The purpose and intent of this measure is to urge the United States Congress to reform and amend the Immigration and Nationality Act of 1965 and other relevant federal immigration laws to classify climate-related migrants as refugees in order to receive greater legal status and protection.

Your Committees received testimony in support of this measure from one individual.

Your Committees find that the challenges facing small island nations in the Pacific, such as sea-level rise, deterioration of precious watersheds, and protection of native flora and fauna, have led to increasing numbers of migrants from the region. Your Committees further find that all individuals fleeing from climate-related impacts who cross or seek to cross international borders are entitled to due process in the assessment of their legal status based on human rights principles, such as protection from persecution, equity, and freedom from discrimination. Your Committees acknowledge that climate-related migrants come from a variety of locations across the globe; however, your Committees believe that at this time it is crucial that the United States Congress focus on those individuals fleeing the negative impacts of climate change in the Pacific region.

Your Committees have amended this measure by:

- (1) Clarifying that the United States Department of Justice is urged to recognize the specific needs and special circumstances of applicants from developing nations, especially those from island nations in the Pacific that are vulnerable to climate change, when determining whether a migration may constitute a special humanitarian concern; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Public Safety, Intergovernmental, and Military Affairs and Judiciary that are attached to this report, your Committees concur with the intent and purpose of S.R. No. 77, as amended herein, and recommend that it be referred to your Committee on Ways and Means, in the form attached hereto as S.R. No. 77, S.D. 1.

Signed by the Chairs on behalf of the Committees.

Public Safety, Intergovernmental, and Military Affairs: Ayes, 5. Noes, none. Excused, none.

Judiciary: Ayes, 5. Noes, none. Excused, none.

SCRep. 3293 (Joint) Public Safety, Intergovernmental, and Military Affairs and Education on S.C.R. No. 64

The purpose and intent of this measure is to request federal funding to provide school resource officers in every school in Hawaii.

Your Committees received testimony in support of this measure from one individual. Your Committees received testimony in opposition to this measure from the American Civil Liberties Union of Hawai'i. Your Committees received comments on this measure from one individual.

Your Committees find that recent high-profile incidents of school violence involving firearms have highlighted the importance of ensuring the safety of Hawaii's students. School resource officers are career law enforcement officers with sworn authority responsible for safety and crime prevention in schools. The Office of Community Oriented Policing Services of the United States Department of Justice offers grants to cities and counties for the purpose of creating law enforcement positions, including school resource officer positions. Requesting federal funding for school resource officers will allow schools in Hawaii to take steps to better ensure the safety of students and the security of the campus.

Your Committees have amended this measure by:

- (1) Clarifying that the request for federal funding is for every intermediate and high school in Hawaii that requests it; and
- (2) Amending its title accordingly.

As affirmed by the records of votes of the members of your Committees on Public Safety, Intergovernmental, and Military Affairs and Education that are attached to this report, your Committees concur with the intent and purpose of S.C.R. No. 64, as amended herein, and recommend that it be referred to your Committee on Ways and Means, in the form attached hereto as S.C.R. No. 64, S.D. 1.

Signed by the Chairs on behalf of the Committees.

Public Safety, Intergovernmental, and Military Affairs: Ayes, 3. Noes, none. Excused, 2 (Thielen, Wakai).

Education: Ayes, 4. Noes, none. Excused, 1 (Dela Cruz).

SCRep. 3294 (Joint) Public Safety, Intergovernmental, and Military Affairs and Education on S.R. No. 34

The purpose and intent of this measure is to request federal funding to provide school resource officers in every school in Hawaii.

Your Committees received testimony in support of this measure from the O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i and four individuals.

Your Committees find that recent high-profile incidents of school violence involving firearms have highlighted the importance of ensuring the safety of Hawaii's students. School resource officers are career law enforcement officers with sworn authority responsible for safety and crime prevention in schools. The Office of Community Oriented Policing Services of the United States Department of Justice offers grants to cities and counties for the purpose of creating law enforcement positions, including school resource officer positions. Signed by the Chairs on behalf of the Committees.

Public Safety, Intergovernmental, and Military Affairs: Ayes, 3. Noes, none. Excused, 2 (Thielen, Wakai).

Education: Ayes, 4. Noes, none. Excused, 1 (Dela Cruz).

SCRep. 3295 (Joint) Labor and Higher Education and Human Services on S.C.R. No. 149

The purpose and intent of this measure is to request the Department of Labor and Industrial Relations and the University of Hawaii Center on Aging to convene a working group to review in-home care services and make recommendations to improve the quality of care.

Your Committees received testimony in support of this measure from AARP Hawaii, ILWU Local 142, Caring Across Generations, Hawaii Alliance for Retired Americans, O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, and four individuals. Your Committees received testimony in opposition to this measure from the Department of Labor and Industrial

Relations and the University of Hawaii System. Your Committees received comments on this measure from the University of Hawaii Center on Aging.

Your Committees find that as Hawaii's population continues to age, more individuals are receiving in-home care services, making the occupation of home care worker one of the fastest growing jobs. Your Committees further find that home care workers in Hawaii are increasingly caring for highly complex client needs, including conditions such as dementia, severe and persistent mental illness, paraplegia, post-traumatic stress disorder, and multiple and complex chronic diseases which may require specialized training or certification to treat properly; therefore, it is important for the State to understand the correlation between caregiver pay, benefits, and training, and the quality of care provided in order to ensure quality care and make any needed improvements to the system.

As affirmed by the records of votes of the members of your Committees on Labor, Higher Education, and Human Services that are attached to this report, your Committees concur with the intent and purpose of S.C.R. No. 149 and recommend that it be referred to your Committee on Commerce, Consumer Protection, and Health.

Signed by the Chairs on behalf of the Committees.

Labor: Ayes, 3. Noes, none. Excused, 2 (English, Taniguchi).

Higher Education: Ayes, 5; Ayes with Reservations (Keith-Agaran). Noes, none. Excused, none.

Human Services: Ayes, 4. Noes, none. Excused, 1 (Harimoto).

SCRep. 3296 (Joint) Labor and Higher Education and Human Services on S.R. No. 94

The purpose and intent of this measure is to request the Department of Labor and Industrial Relations and the University of Hawaii Center on Aging to convene a working group to review in-home care services and make recommendations to improve the quality of care.

Your Committees received testimony in support of this measure from AARP Hawaii, ILWU Local 142, Caring Across Generations, Hawaii Alliance for Retired Americans, O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, and four individuals. Your Committees received testimony in opposition to this measure from the Department of Labor and Industrial Relations and the University of Hawaii System. Your Committees received comments on this measure from the University of Hawaii Center on Aging.

Your Committees find that as Hawaii's population continues to age, more individuals are receiving in-home care services, making the occupation of home care worker one of the fastest growing jobs. Your Committees further find that home care workers in Hawaii are increasingly caring for highly complex client needs, including conditions such as dementia, severe and persistent mental illness, paraplegia, post-traumatic stress disorder, and multiple and complex chronic diseases which may require specialized training or certification to treat properly; therefore, it is important for the State to understand the correlation between caregiver pay, benefits, and training, and the quality of care provided in order to ensure quality care and make any needed improvements to the system.

As affirmed by the records of votes of the members of your Committees on Labor, Higher Education, and Human Services that are attached to this report, your Committees concur with the intent and purpose of S.R. No. 94 and recommend that it be referred to your Committee on Commerce, Consumer Protection, and Health.

Signed by the Chairs on behalf of the Committees.

Labor: Ayes, 3. Noes, none. Excused, 2 (English, Taniguchi).

Higher Education: Ayes, 5; Ayes with Reservations (Keith-Agaran). Noes, none. Excused, none.

Human Services: Ayes, 4. Noes, none. Excused, 1 (Harimoto).

SCRep. 3297 (Joint) Education and Human Services on S.C.R. No. 81

The purpose and intent of this measure is to request the establishment of a working group to examine how the Department of Education can maximize Medicaid reimbursement for support services offered to eligible students during school hours.

Your Committees received testimony in support of this measure from the Department of Education, Hawaii State Teachers Association, O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, and one individual. Your Committees received comments on this measure from the Department of Human Services and Hawaii Disability Rights Center.

Your Committees find that the federal Individuals with Disabilities Education Act and state laws require the Department of Education to provide a free appropriate public education, which includes a continuum of services, to students who are eligible for special education and related services. Special education may include but is not limited to academic services, speech-language services, psychological services, physical and occupational therapy, counseling services, and parent education, all at no cost to parents. Because of how critical it is for all students to receive a quality public education, a review of the Department of Education's effectiveness and efficiency in maximizing Medicaid reimbursements for support services to eligible students is necessary.

Your Committees have amended this measure by:

- (1) Specifying that the working group have the Deputy representative of the Department of the Attorney General represent the Department of Education, rather than the Department of Health;
- (2) Expanding the membership of the working group to include other persons as may be invited by the working group;
- (3) Clarifying that the working group convene by, rather than on, August 1, 2018;
- (4) Specifying that the agenda at the first convening of the working group include an update on Medicaid billing; and
- (5) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Education and Human Services that are attached to this report, your Committees concur with the intent and purpose of S.C.R. No. 81, as amended herein, and recommend that it be referred to your Committee on Ways and Means, in the form attached hereto as S.C.R. No. 81, S.D. 1.

Signed by the Chairs on behalf of the Committees.

Education: Ayes, 3. Noes, none. Excused, 2 (Dela Cruz, Kahele).

Human Services: Ayes, 3. Noes, none. Excused, 2 (Harimoto, Tokuda).

SCRep. 3298 (Joint) Education and Human Services on S.R. No. 49

The purpose and intent of this measure is to request the establishment of a working group to examine how the Department of Education can maximize Medicaid reimbursement for support services offered to eligible students during school hours.

Your Committees received testimony in support of this measure from the Hawaii State Teachers Association and O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i. Your Committees received comments on this measure from the Department of Human Services.

Your Committees find that the federal Individuals with Disabilities Education Act and state laws require the Department of Education to provide a free appropriate public education, which includes a continuum of services, to students who are eligible for special education and related services. Special education may include but is not limited to academic services, speech-language services, psychological services, physical and occupational therapy, counseling services, and parent education, all at no cost to parents. As affirmed by the records of votes of the members of your Committees on Education and Human Services that are attached to this report, your Committees concur with the intent and purpose of S.R. No. 49, as amended herein, and recommend that it be referred to your Committee on Ways and Means, in the form attached hereto as S.R. No. 49, S.D. 1.

Signed by the Chairs on behalf of the Committees.

Education: Ayes, 3. Noes, none. Excused, 2 (Dela Cruz, Kahele).

Human Services: Ayes, 3. Noes, none. Excused, 2 (Harimoto, Tokuda).

SCRep. 3299 (Joint) Economic Development, Tourism, and Technology and Commerce, Consumer Protection, and Health on S.C.R. No. 131

The purpose and intent of this measure is to urge the Department of Taxation to enforce section 237D-4, Hawaii Revised Statutes, by regularly checking online advertisements for transient accommodations for compliance with section 237-4(c), Hawaii Revised Statutes.

Your Committees received testimony in support of this measure from Save O'ahu Neighborhoods and four individuals. Your Committees received comments on this measure from the Department of Taxation.

Your Committees find that vacation rentals have become a pressing matter for the State, with a number of vacation rentals operating without being appropriately registered, thereby evading the transient accommodations tax and general excise tax. Your Committees further find that Act 204, Session Laws of Hawaii 2015 (Act 204), enables the Department of Taxation to, among other things, require an operator to post or make available the registration identification number for a transient accommodation or resort time share vacation interest, plan, or unit in Hawaii. Act 204 further authorizes the Department of Taxation to issue citations to any transient accommodations operator who fails to comply with the information posting requirements and has the authority to fine any operator for failure to post the registration identification number conspicuously.

Your Committees believe that the Department of Taxation should enforce Act 204 and constantly check to ensure that all transient accommodations are complying with tax laws, thereby receiving the full amount of taxes owed to the State.

Your Committees have amended this measure by adding language to request the Department of Taxation to work with various county departments to gather and share information that is necessary and pertinent for the Department of Taxation to collect the full amount of taxes owed from transient accommodation operators and plan managers.

As affirmed by the records of votes of the members of your Committees on Economic Development, Tourism, and Technology and Commerce, Consumer Protection, and Health that are attached to this report, your Committees concur with the intent and purpose of S.C.R. No. 131, as amended herein, and recommend that it be referred to your Committee on Ways and Means, in the form attached hereto as S.C.R. No. 131, S.D. 1.

Signed by the Chairs on behalf of the Committees.

Economic Development, Tourism, and Technology: Ayes, 3. Noes, none. Excused, 2 (Galuteria, Taniguchi).

Commerce, Consumer Protection, and Health: Ayes, 6. Noes, none. Excused, 1 (Ruderman).

SCRep. 3300 (Joint) Economic Development, Tourism, and Technology and Higher Education on S.C.R. No. 143

The purpose and intent of this measure is to request the Department of Business, Economic Development, and Tourism and the Applied Research Laboratory at the University of Hawaii to convene a working group to provide advice on the development and risks of drone usage and to inform policy decisions regarding drones.

Your Committees received testimony in support of this measure from the Department of Business, Economic Development, and Tourism; University of Hawai'i System; Aerospace States Association; and two individuals.

Your Committees find that unmanned aircraft systems have significant benefits in a variety of industries, such as public safety, health, conservation, education, and entertainment. Your Committees believe that unmanned aircraft systems usage has the potential to expand growth for businesses, encourage youth to participate in science, technology, engineering, and mathematics education, and provide access to inaccessible or unchartered areas, among other practical applications. Your Committees find that more research should be done to better understand the benefits and risks of using unmanned aircraft systems throughout the State and believe that a working group of qualified individuals will enlighten the State on more beneficial and safe uses of unmanned aircraft systems around the State.

Your Committees have amended this measure by:

- (1) Replacing any reference to "drones" with "unmanned aircraft systems", as defined by the Federal Aviation Administration;
- (2) Including a representative from Hawaii UAV Service, LLC, to be invited to participate in the working group;
- (3) Amending its title to reflect its amended purpose; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Economic Development, Tourism, and Technology and Higher Education that are attached to this report, your Committees concur with the intent and purpose of S.C.R. No. 143, as amended herein, and recommend that it be referred to your Committee on Commerce, Consumer Protection, and Health, in the form attached hereto as S.C.R. No. 143, S.D. 1.

Signed by the Chairs on behalf of the Committees.

Economic Development, Tourism, and Technology: Ayes, 4. Noes, none. Excused, 1 (Taniguchi).

Higher Education: Ayes, 3. Noes, none. Excused, 2 (Kidani, Kim).

SCRep. 3301 Higher Education on S.C.R. No. 85

The purpose and intent of this measure is to urge the University of Hawai'i System's Vice President for Budget and Finance to develop a plan to redevelop the lower campus of the University of Hawai'i at Mānoa through a public private partnership.

Your Committee received comments on this measure from the University of Hawai'i System and Ho'omanapono Political Action Committee.

Your Committee finds that the lower campus of the University of Hawai'i at Mānoa has a vast amount of underutilized lands that have the potential to encompass a "live, study, play" concept, similar to a university village or to transitional housing for new graduates starting their professional lives. Your Committee further finds that public private partnerships for redevelopment offer opportunities to minimize the amount of capital the State would otherwise need to provide. Specifically for the University of Hawai'i at Mānoa, public private partnerships offer opportunities to generate revenue and revitalize the campus by establishing work force or student housing, areas for commerce and businesses, restaurants, new athletic buildings, fitness centers, and other community resources.

Your Committee has amended this measure by:

- (1) Amending its title to correct a technical reference to the position of Vice President for Budget and Finance; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Higher Education that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 85, as amended herein, and recommends that it be referred to your Committee on Ways and Means, in the form attached hereto as S.C.R. No. 85, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 3302 Higher Education on S.R. No. 53

The purpose and intent of this measure is to urge the University of Hawai'i System's Vice President for Budget and Finance to develop a plan to redevelop the lower campus of the University of Hawai'i at Mānoa through a public private partnership.

Your Committee received comments on this measure from the University of Hawai'i System and Ho'omanapono Political Action Committee.

Your Committee finds that the lower campus of the University of Hawai'i at Mānoa has a vast amount of underutilized lands that have the potential to encompass a "live, study, play" concept, similar to a university village or to transitional housing for new graduates starting their professional lives. Your Committee further finds that public private partnerships for redevelopment offer opportunities to minimize the amount of capital the State would otherwise need to provide. Specifically for the University of Hawai'i at Mānoa, public private partnerships offer opportunities to generate revenue and revitalize the campus by establishing work force or student housing, areas for commerce and businesses, restaurants, new athletic buildings, fitness centers, and other community resources.

Your Committee has amended this measure by:

- (1) Amending its title to correct a technical reference to the position of Vice President for Budget and Finance; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Higher Education that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 53, as amended herein, and recommends that it be referred to your Committee on Ways and Means, in the form attached hereto as S.R. No. 53, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 3303 Higher Education on S.C.R. No. 166

The purpose and intent of this measure is to urge the University of Hawai'i System to utilize and expand existing curriculum and programs across the various campuses rather than allow each campus to create its own curriculum and programs.

Your Committee received testimony in support of this measure from the O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i. Your Committee received testimony in opposition to this measure from the University of Hawai'i System.

Your Committee finds that the University of Hawai'i at Mānoa offers a wide range of undergraduate and graduate degrees, minors, and certificate programs, including sixty-five certificates, one hundred bachelor's degrees, eighty-three master's degrees, fifty-six doctoral degrees, and five professional degrees. However, the University of Hawai'i System, among its ten campuses, has duplicative efforts in the form of curriculum and programs, which require time and investment of resources. As a public university that receives public funding, it is important that the costs of operating the University of Hawai'i are adequately covered and that there is an effort to utilize existing programs and resources in an effective and efficient manner.

As affirmed by the record of votes of the members of your Committee on Higher Education that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 166 and recommends that it be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 3304 Higher Education on S.R. No. 125

The purpose and intent of this measure is to urge the University of Hawai'i System to utilize and expand existing curriculum and programs across the various campuses rather than allow each campus to create its own curriculum and programs.

Your Committee received testimony in support of this measure from the O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i. Your Committee received testimony in opposition to this measure from the University of Hawai'i System.

Your Committee finds that the University of Hawai'i at Mānoa offers a wide range of undergraduate and graduate degrees, minors, and certificate programs, including sixty-five certificates, one hundred bachelor's degrees, eighty-three master's degrees, fifty-six doctoral degrees, and five professional degrees. However, the University of Hawai'i System, among its ten campuses, has duplicative efforts in the form of curriculum and programs, which require time and investment of resources. As a public university that receives public funding, it is important that the costs of operating the University of Hawai'i are adequately covered and that there is an effort to utilize existing programs and resources in an effective and efficient manner.

As affirmed by the record of votes of the members of your Committee on Higher Education that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 125 and recommends that it be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 3305 (Joint) Transportation and Energy and Government Operations on S.C.R. No. 90

The purpose and intent of this measure is to request the:

- (1) Department of Accounting and General Services to examine projects that would reduce energy costs for state departments and agencies, and submit a report of its findings and recommendations;
- (2) Office of the Auditor to examine potential energy savings costs for state departments and agencies, and submit a report of its findings and recommendations; and
- (3) State Procurement Office to update and publish the Energy Savings Performance Contracting list.

Your Committees received testimony in support of this measure from the State Procurement Office, Ulupono Initiative, NORESKO, and O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i. Your Committees received comments on this measure from the Department of Accounting and General Services and Office of the Auditor.

Your Committees find that Hawaii has been a leader among governments committing to clean, renewable energy. Using renewable energy helps minimize the negative environmental consequences of using fossil fuel, allows Hawaii to be more energy independent, and reduces energy costs in the State. The latter is particularly important for state and county agencies, as the government is a major consumer of electricity, and millions of dollars can be saved through energy-efficient measures. However, your Committees note that despite laws requiring government agencies to identify and implement energy-efficient retrofits, maintenance has not been done regularly. In the face of increasing electricity costs, your Committees believe that identifying and implementing energy-efficiency

projects, ranging from retrofitting buildings to investing in more energy efficient equipment, will reduce energy costs for state departments and agencies and is of utmost importance.

Your Committees note that the Office of the Auditor provided testimony concerned about its ability to complete an “energy audit”, pointing to the:

- (1) Limited technical knowledge of energy-related technologies that the Office of the Auditor possesses, as it typically performs performance or management audits, rather than technical audits; and
- (2) Broad scope of the request to assess every state department and agency.

Your Committees further note that the State Procurement Office provided testimony explaining that publishing the Energy Savings Performance Contracting list by July 1, 2018, was infeasible. The State Procurement Office noted the timelines for previous vendor lists, pointing to the seven months and five months, respectively, required to receive and review competitive sealed proposals and qualify contractors for the past two Energy Savings Performance Contracting lists.

Accordingly, your Committees have amended this measure by:

- (1) Requesting the Department of Business, Economic Development, and Tourism to examine projects that would reduce energy costs for state departments and agencies, instead of the Department of Accounting and General Services;
- (2) Requesting the Department of Business, Economic Development, and Tourism to work with the Office of the Auditor to examine potential energy savings costs for state departments and agencies;
- (3) Changing the date by which the State Procurement Office is requested to update and publish the Energy Savings Performance Contracting list, from July 1, 2018, to July 1, 2019; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Transportation and Energy and Government Operations that are attached to this report, your Committees concur with the intent and purpose of S.C.R. No. 90, as amended herein, and recommend that it be referred to your Committee on Ways and Means, in the form attached hereto as S.C.R. No. 90, S.D. 1.

Signed by the Chairs on behalf of the Committees.

Transportation and Energy: Ayes, 3. Noes, none. Excused, 2 (Harimoto, Shimabukuro).

Government Operations: Ayes, 5. Noes, none. Excused, none.

SCRep. 3306 (Joint) Transportation and Energy and Government Operations on S.R. No. 139

The purpose and intent of this measure is to request the:

- (1) Department of Accounting and General Services to examine projects that would reduce energy costs for state departments and agencies, and submit a report of its findings and recommendations;
- (2) Office of the Auditor to examine potential energy savings costs for state departments and agencies, and submit a report of its findings and recommendations; and
- (3) State Procurement Office to update and publish the Energy Savings Performance Contracting list.

Your Committees received testimony in support of this measure from the State Procurement Office, Ulupono Initiative, and O’ahu County Committee on Legislative Priorities of the Democratic Party of Hawai‘i. Your Committees received comments on this measure from the Department of Accounting and General Services and Office of the Auditor.

Your Committees find that Hawaii has been a leader among governments committing to clean, renewable energy. Government Operations: Ayes, 5. Noes, none. Excused, none.

SCRep. 3307 Transportation and Energy on S.C.R. No. 89

The purpose and intent of this measure is to request the Department of Transportation to convene a working group to conduct a study on the personal vehicle rental industry.

Your Committee received testimony in support of this measure from Enterprise Holdings. Your Committee received testimony in opposition to this measure from the Department of Transportation. Your Committee received comments on this measure from Turo, Inc.

Your Committee finds that improvements in communication technology has allowed private individuals to easily lease personal property and provide services without regard to laws and regulations. One of these new opportunities, known as peer-to-peer car sharing, is to rent personal vehicles to other individuals. Your Committee finds that this business model is currently unregulated, so there are no laws or rules to ensure that drivers are qualified or that vehicles meet insurance and vehicle safety standards.

At the hearing on this measure, Turo, Inc., a peer-to-peer car sharing company in Hawaii, expressed concern that no representatives from the peer-to-peer car sharing industry were requested to be invited to the working group.

Accordingly, your Committee has amended this measure by:

- (1) Requesting that the Department of Transportation include two representatives from the peer-to-peer car sharing industry in the working group; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Transportation and Energy that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 89, as amended herein, and recommends that it be referred to your Committee on Commerce, Consumer Protection, and Health, in the form attached hereto as S.C.R. No. 89, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (English, Harimoto).

SCRep. 3308 Transportation and Energy on S.R. No. 140

The purpose and intent of this measure is to request the Department of Transportation to convene a working group to conduct a study on the personal vehicle rental industry.

Your Committee did not receive any testimony on this measure.

Your Committee finds that improvements in communication technology has allowed private individuals to easily lease personal property and provide services without regard to laws and regulations. One of these new opportunities, known as peer-to-peer car sharing, is to rent personal vehicles to other individuals. Your Committee finds that this business model is currently unregulated, so there are no laws or rules to ensure that drivers are qualified or that vehicles meet insurance and vehicle safety standards.

Your Committee notes that no representatives from the peer-to-peer car sharing industry were requested to be invited to the working group.

Accordingly, your Committee has amended this measure by:

- (1) Requesting that the Department of Transportation include two representatives from the peer-to-peer car sharing industry in the working group; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Transportation and Energy that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 140, as amended herein, and recommends that it be referred to your Committee on Commerce, Consumer Protection, and Health, in the form attached hereto as S.R. No. 140, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (English, Harimoto).

SCRep. 3309 (Joint/Majority) Public Safety, Intergovernmental, and Military Affairs and Economic Development, Tourism, and Technology and Commerce, Consumer Protection, and Health on S.C.R. No. 84

The purpose and intent of this measure is to:

- (1) Urge each county in the State to develop and administer a permitting system for non-permitted, owner-occupied transient vacation units and a land use amnesty program to waive outstanding liabilities for illegal transit vacation units; and
- (2) Urge each county to publicize the permitting system and land use amnesty program to maximize public awareness and encourage participation in the program and to contract with appropriate advertising agencies to accomplish this goal.

Your Committees received testimony in support of this measure from Page Marketing, Inc. Your Committees received testimony in opposition to this measure from Keep It Kailua and four individuals. Your Committees received comments on this measure from the Office of Hawaiian Affairs and Department of Planning and Permitting, City and County of Honolulu.

The Hawaii Tourism Authority estimates that there are 2,177 transient vacation rentals in the State that are advertised online. Your Committees find that existing laws and ordinances allow transient vacation units to operate in resort districts; however, the counties are seeking options to authorize owner-occupied units outside of resort districts to continue operating as short-term rentals. A county permitting program may encourage owners of transient vacation units to register their properties for short-term rental use and comply with relevant laws and ordinances.

Your Committees note the concern raised by members of your Committees regarding the potential for a county permitting system to grant owners of unpermitted transient vocational rentals a status of government-sanctioned legality or permission. Members of your Committees offered suggestions to request the counties to establish a reporting hotline or conduct an investigation in lieu of developing a permitting system or to request the counties to grant permits only after establishing standards for issuing permits, such as criteria based on the transient vacation unit capacity of each community. Your Committees request your Committee on Ways and Means to further consider and weigh these issues and suggested options.

Your Committees have amended this measure by:

- (1) Deleting language referencing the development and administration of a land use amnesty program to waive outstanding liabilities for transient vacation units; and
- (2) Amending its title in accordance with its amended purpose.

As affirmed by the records of votes of the members of your Committees on Public Safety, Intergovernmental, and Military Affairs, Economic Development, Tourism, and Technology, and Commerce, Consumer Protection, and Health that are attached to this report, your Committees concur with the intent and purpose of S.C.R. No. 84, as amended herein, and recommend that it be referred to your Committee on Ways and Means, in the form attached hereto as S.C.R. No. 84, S.D. 1.

Signed by the Chairs and President on behalf of the Committees.

Public Safety, Intergovernmental, and Military Affairs: Ayes, 3. Noes, 2 (Ihara, Thielen). Excused, none.

Economic Development, Tourism, and Technology: Ayes, 3. Noes, 1 (Thielen). Excused, 1 (Taniguchi).

Commerce, Consumer Protection, and Health: Ayes, 4; Ayes with Reservations (Espero). Noes, 3 (Chang, Ihara, Ruderman). Excused, none.

SCRep. 3310 (Joint/Majority) Public Safety, Intergovernmental, and Military Affairs and Economic Development, Tourism, and Technology and Commerce, Consumer Protection, and Health on S.R. No. 52

The purpose and intent of this measure is to:

- (1) Urge each county in the State to develop and administer a permitting system for non-permitted, owner-occupied transient vacation units and a land use amnesty program to waive outstanding liabilities for illegal transit vacation units; and
- (2) Urge each county to publicize the permitting system and land use amnesty program to maximize public awareness and encourage participation in the program and to contract with appropriate advertising agencies to accomplish this goal.

Your Committees received testimony in opposition to this measure from Keep It Kailua and three individuals. Your Committees received comments on this measure from the Office of Hawaiian Affairs and Department of Planning and Permitting, City and County of Honolulu.

The Hawaii Tourism Authority estimates that there are 2,177 transient vacation rentals in the State that are advertised online. Your Committees find that existing laws and ordinances allow transient vacation units to operate in resort districts; however, the counties are seeking options to authorize owner-occupied units outside of resort districts to continue operating as short-term rentals. A county permitting program may encourage owners of transient vacation units to register their properties for short-term rental use and comply with relevant laws and ordinances.

Your Committees note the concern raised by members of your Committees regarding the potential for a county permitting system to grant owners of unpermitted transient vocational rentals a status of government-sanctioned legality or permission. Members of your Committees offered suggestions to request the counties to establish a reporting hotline or conduct an investigation in lieu of developing a permitting system or to request the counties to grant permits only after establishing standards for issuing permits, such as criteria based on the transient vacation unit capacity of each community. Your Committees request your Committee on Ways and Means to further consider and weigh these issues and suggested options.

Your Committees have amended this measure by:

- (1) Deleting language referencing the development and administration of a land use amnesty program to waive outstanding liabilities for transient vacation units; and
- (2) Amending its title in accordance with its amended purpose.

As affirmed by the records of votes of the members of your Committees on Public Safety, Intergovernmental, and Military Affairs, Economic Development, Tourism, and Technology, and Commerce, Consumer Protection, and Health that are attached to this report,

your Committees concur with the intent and purpose of S.R. No. 52, as amended herein, and recommend that it be referred to your Committee on Ways and Means, in the form attached hereto as S.R. No. 52, S.D. 1.

Signed by the Chairs and President on behalf of the Committees.

Public Safety, Intergovernmental, and Military Affairs: Ayes, 3. Noes, 2 (Ihara, Thielen). Excused, none.

Economic Development, Tourism, and Technology: Ayes, 3. Noes, 1 (Thielen). Excused, 1 (Taniguchi).

Commerce, Consumer Protection, and Health: Ayes, 4; Ayes with Reservations (Espero). Noes, 3 (Chang, Ihara, Ruderman). Excused, none.

SCRep. 3311 (Joint) Commerce, Consumer Protection, and Health and Labor on S.C.R. No. 83

The purpose and intent of this measure is to request the Executive Office on Aging to conduct a study and prepare a report on the impacts of an aging population in Hawaii.

Your Committees received testimony in support of this measure from the O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i and one individual. Your Committees received comments on this measure from the Executive Office on Aging.

Your Committees find that Hawaii has the highest life expectancy in the United States for those over sixty-five years of age. Your Committees further find that the State has unfunded pension and health benefit liabilities totaling nearly \$24,000,000,000 and that Hawaii needs to make plans and set policies to ensure that the State is prepared for a large aging population.

Your Committees have heard the concerns of an individual testifier that the potential closure of Leahi and Maluhia Hospitals will only reduce resources available to the aging population. Your Committees note that the closure of those hospitals will increase the burdens on other care providers, and that alternatives may need to be considered. Your Committees also find that an aging population is likely to require additional long-term care services and bed space.

Your Committees have amended this measure by:

- (1) Requesting that the Executive Office on Aging's report also include an assessment of the availability of long-term care services and bed space in Hawaii; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Commerce, Consumer Protection, and Health and Labor that are attached to this report, your Committees concur with the intent and purpose of S.C.R. No. 83, as amended herein, and recommend that it be referred to your Committee on Ways and Means, in the form attached hereto as S.C.R. No. 83, S.D. 1.

Signed by the Chairs on behalf of the Committees.

Commerce, Consumer Protection, and Health: Ayes, 6. Noes, none. Excused, 1 (Ihara).

Labor: Ayes, 4. Noes, none. Excused, 1 (Taniguchi).

SCRep. 3312 (Joint) Commerce, Consumer Protection, and Health and Labor on S.R. No. 51

The purpose and intent of this measure is to request the Executive Office on Aging to conduct a study and prepare a report on the impacts of an aging population in Hawaii.

Your Committees received testimony in support of this measure from the O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i and one individual. Your Committees received comments on this measure from the Executive Office on Aging.

Your Committees find that Hawaii has the highest life expectancy in the United States for those over sixty-five years of age. Your Committees further find that the State has unfunded pension and health benefit liabilities totaling nearly \$24,000,000,000 and that Hawaii needs to make plans and set policies to ensure that the State is prepared for a large aging population.

Your Committees have heard the concerns of an individual testifier that the potential closure of Leahi and Maluhia Hospitals will only reduce resources available to the aging population. Your Committees note that the closure of those hospitals will increase the burdens on other care providers, and that alternatives may need to be considered. Your Committees also find that an aging population is likely to require additional long-term care services and bed space.

Your Committees have amended this measure by:

- (1) Requesting that the Executive Office on Aging's report also include an assessment of the availability of long-term care services and bed space in Hawaii; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Commerce, Consumer Protection, and Health and Labor that are attached to this report, your Committees concur with the intent and purpose of S.R. No. 51, as amended herein, and recommend that it be referred to your Committee on Ways and Means, in the form attached hereto as S.R. No. 51, S.D. 1.

Signed by the Chairs on behalf of the Committees.

Commerce, Consumer Protection, and Health: Ayes, 6. Noes, none. Excused, 1 (Ihara).

Labor: Ayes, 4. Noes, none. Excused, 1 (Taniguchi).

SCRep. 3313 (Joint) Hawaiian Affairs and Water and Land on S.C.R. No. 134

The purpose and intent of this measure is to approve the sale of the fee simple interest in certain parcels in Kaka'ako owned by the Office of Hawaiian Affairs to the City and County of Honolulu.

Your Committees received testimony in support of this measure from the Office of Hawaiian Affairs and Department of Environmental Services of the City and County of Honolulu. Your Committees received testimony in opposition to this measure from the Ho'omanapono Political Action Committee and two individuals.

Your Committees find that pursuant to Act 15, Session Laws of Hawaii 2012, the State of Hawai'i transferred the fee simple interest in certain parcels in Kaka'ako, including tax map key no. (1) 2-1-015:061, to the Office of Hawaiian Affairs. Your Committees further find that the City and County of Honolulu requires parts of that land to address municipal sewage needs and increase system capacity to service the east Honolulu service basin, including other Kaka'ako makai lands.

Your Committees note that section 171-64.7, Hawaii Revised Statutes requires, among other things, prior approval from the Legislature, by concurrent resolution, to sell in fee simple certain lands classed as government or crown lands previous to August 15, 1895, or acquired or reserved by the government upon or subsequent to that date by purchase, exchange, escheat, or the exercise of the right of eminent domain, or any other manner. In addition, section 171-64.7(c), Hawaii Revised Statutes, further requires the concurrent resolution to include certain information to justify the sale of the lands. Your Committees find that the Office of Hawaiian Affairs has submitted the required information, which is reflected in this measure. Your Committees believe that using the specified land to develop a major pump station and other wastewater facilities will benefit the City and County of Honolulu by reducing potential future wastewater spills and odors.

As affirmed by the records of votes of the members of your Committees on Hawaiian Affairs and Water and Land that are attached to this report, your Committees concur with the intent and purpose of S.C.R. No. 134 and recommend that it be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Hawaiian Affairs: Ayes, 3. Noes, none. Excused, 2 (English, Green).

Water and Land: Ayes, 4. Noes, none. Excused, 1 (Gabbard).

SCRep. 3314 (Joint) Water and Land and Agriculture and Environment on S.C.R. No. 146

The purpose and intent of this measure is to urge actions to restore and preserve the Kawainui-Hāmākua Marsh Complex and preparation of a comprehensive wetlands ecosystem restoration plan, a detailed waterbird habitat restoration plan, and a comprehensive wetlands management plan to protect Hawaii's four endangered waterbirds and visiting migratory waterbirds in the Kawainui-Hāmākua Marsh Complex.

Your Committees received testimony in support of this measure from the O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, Environmental Caucus of the Democratic Party of Hawai'i, Hawaiian Civic Club of Honolulu, Lani-Kailua Outdoor Circle, Kanehili Cultural Hui, The Outdoor Circle, Hawaii's Thousand Friends, Hawaii Audubon Society, and twenty-six individuals. Your Committees received testimony in opposition to this measure from the Kailua Hawaiian Civic Club, Hālau Mōhala 'Ilima, Kawainui Marsh Environmental Education Initiative, Hika'alani, Hui Kawainui-Kailua Ka Wai Ola, and five individuals. Your Committees received comments on this measure from the Department of Land and Natural Resources.

Your Committees find that wetland ecosystems play a vital role in nutrient cycling, water quality, endangered species habitat, and flood and storm surge control. According to the Department of Land and Natural Resources, in Hawaii, approximately thirty-one percent of coastal lowland wetlands have been lost due to human impacts, and most of the remaining wetlands are seriously degraded. The 850-acre wetland complex at Kawainui and Hāmākua is the largest freshwater wetland in the State, however its functionality is limited. Years of degradation of the wetlands via sedimentation, invasion of invasive species, and urbanization have drastically altered the ecological and wildlife habitat function of the wetlands. This measure provides a comprehensive plan to restore and preserve the Kawainui-Hāmākua Marsh Complex, especially with respect to the protection of waterbirds.

Your Committees note the concerns raised in testimony submitted by various stakeholders that this measure may close access to the Kawainui-Hāmākua Marsh Complex for all visitors, including individuals exercising Native Hawaiian cultural practices and gathering rights. Furthermore, stakeholders expressed concerns regarding the termination of month-to-month permits and long-term leases for use of state lands, termination of commercial activities on state land in or within a certain distance of the Kawainui-Hāmākua Marsh Complex, and the location of public restrooms that are not connected to an existing municipal wastewater treatment facility.

Accordingly, your Committees have amended this measure by:

- (1) Correcting the title to urge actions to preserve, rather than reserve, the Kawainui-Hāmākua Marsh Complex;
- (2) Clarifying that the Department of Land and Natural Resources' draft management plan for the Kawainui-Hāmākua Marsh Complex recommends that the Board of Land and Natural Resources grant long-term leases of state land to non-profit, rather than private, organizations to allow these organizations to construct several buildings and restrooms with septic leach fields adjacent to the wetlands, rather than within a few yards of the wetlands that will be closed to the public;
- (3) Removing language regarding the estimated total cost of the Department of Land and Natural Resources' draft management plan for the Kawainui-Hāmākua Marsh Complex;
- (4) Clarifying that the Department of Land and Natural Resources and the City and County of Honolulu are urged to address, rather than prioritize, the removal of the central peat mat in Kawainui Marsh to prevent future flooding;
- (5) Clarifying that the Department of Land and Natural Resources is urged to close the Kawainui-Hāmākua Marsh Complex to all commercial and recreational activities, rather than all visitors, during the wetland birds' nesting season;
- (6) Adding language that allows individuals to continue to exercise Native Hawaiian cultural practices and gathering rights during the wetland birds' nesting season at the Kawainui-Hāmākua Marsh Complex;
- (7) Removing language that would have:

- (A) Urged the Board of Land and Natural Resources to terminate the granting of month-to-month permits or long-term leases for use of state land within two thousand feet of the Kawainui-Hāmākua Marsh Complex; and
- (B) Urged the Board of Land and Natural Resources to prohibit commercial activity on state land in or within two thousand feet of the Kawainui-Hāmākua Marsh Complex;
- (8) Clarifying that the Board of Land and Natural Resources is urged to prohibit all restrooms on state land within two thousand feet of the Kawainui-Hāmākua Marsh Complex; and
- (9) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Water and Land and Agriculture and Environment that are attached to this report, your Committees concur with the intent and purpose of S.C.R. No. 146, as amended herein, and recommend that it be referred to your Committee on Ways and Means, in the form attached hereto as S.C.R. No. 146, S.D. 1.

Signed by the Chairs on behalf of the Committees.

Water and Land: Ayes, 4. Noes, none. Excused, 1 (Inouye).

Agriculture and Environment: Ayes, 4. Noes, none. Excused, 1 (Ruderman).

SCRep. 3315 (Joint) Water and Land and Agriculture and Environment on S.C.R. No. 123

The purpose and intent of this measure is to urge the Department of Land and Natural Resources to prohibit individuals from approaching within fifty feet of a Hawaiian monk seal, except for a licensed professional who is qualified to provide aid to the Hawaiian monk seal.

Your Committees received testimony in support of this measure from the O‘ahu County Committee on Legislative Priorities of the Democratic Party of Hawai‘i, Animal Rights Hawai‘i, West Hawaii Humane Society, For the Fishes, Keiko Conservation, and seven individuals. Your Committees received testimony in opposition to this measure from one individual. Your Committees received comments on this measure from the Department of Land and Natural Resources.

Your Committees find that the Hawaiian monk seal is one of the world’s most critically endangered species of marine mammal. The National Oceanic and Atmospheric Administration has reported that a number of habituated seals have become a serious safety risk to humans, or suffered injuries as a result of human infringement and interaction. This measure provides protection for Hawaiian monk seals from human interaction.

Your Committees note that the Department of Land and Natural Resources works with the National Oceanic and Atmospheric Administration, pursuant to a Joint Enforcement Agreement, to enforce federal laws that prohibit the harassment of Hawaiian monk seals and federal marine wildlife viewing guidelines that recommend remaining at least fifty yards away. Thus, the National Oceanic and Atmospheric Administration is the primary agency responsible for establishing regulations and guidelines to protect Hawaiian monk seals and prevent harmful interaction by humans.

Accordingly, your Committees have amended this measure by:

- (1) Adopting the recommendation made by the Department of Land and Natural Resources to urge the National Oceanic and Atmospheric Administration, rather than the Department, to prohibit individuals from approaching within fifty feet of a Hawaiian monk seal;
- (2) Amending its title accordingly;
- (3) Adding the Assistant Secretary of Commerce for Oceans and Atmosphere for the Department of Commerce in the National Oceanic and Atmospheric Administration as a recipient; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Water and Land and Agriculture and Environment that are attached to this report, your Committees concur with the intent and purpose of S.C.R. No. 123, as amended herein, and recommend that it be referred to your Committee on Judiciary, in the form attached hereto as S.C.R. No. 123, S.D. 1.

Signed by the Chairs on behalf of the Committees.

Water and Land: Ayes, 4. Noes, none. Excused, 1 (Inouye).

Agriculture and Environment: Ayes, 4. Noes, none. Excused, 1 (Ruderman).

SCRep. 3316 (Joint) Water and Land and Agriculture and Environment on S.R. No. 82

The purpose and intent of this measure is to urge the Department of Land and Natural Resources to prohibit individuals from approaching within fifty feet of a Hawaiian monk seal, except for a licensed professional who is qualified to provide aid to the Hawaiian monk seal.

Your Committees received testimony in support of this measure from the O‘ahu County Committee on Legislative Priorities of the Democratic Party of Hawai‘i, Animal Rights Hawai‘i, West Hawaii Humane Society, For the Fishes, Keiko Conservation, and seven individuals. Your Committees received testimony in opposition to this measure from one individual. Your Committees received comments on this measure from the Department of Land and Natural Resources.

- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Water and Land and Agriculture and Environment that are attached to this report, your Committees concur with the intent and purpose of S.R. No. 82, as amended herein, and recommend that it be referred to your Committee on Judiciary, in the form attached hereto as S.R. No. 82, S.D. 1.

Signed by the Chairs on behalf of the Committees.

Water and Land: Ayes, 4. Noes, none. Excused, 1 (Inouye).

Agriculture and Environment: Ayes, 4. Noes, none. Excused, 1 (Ruderman).

SCRep. 3317 (Joint) Water and Land and Public Safety, Intergovernmental, and Military Affairs on S.C.R. No. 177

The purpose and intent of this measure is to request the State and the counties to implement the recommendations of the Hawaii Sea Level Rise Vulnerability and Adaptation Report.

Your Committees received testimony in support of this measure from the Department of Land and Natural Resources, Board of Water Supply of the City and County of Honolulu, O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, and two individuals. Your Committees received comments on this measure from the Office of Planning.

Your Committees find that Act 32, Session Laws of Hawaii 2017, established the Hawaii Climate Change Mitigation and Adaptation Commission and directed the Commission, as a first step, to focus on and develop sea level rise vulnerability and adaptation reports that are required to include:

- (1) Identification of the major areas of sea level rise impacts affecting the State and counties through 2050;
- (2) Identification of expected impacts of sea level rise based on the latest scientific research for each area through 2050;
- (3) Identification of the economic ramifications of sea level rise;
- (4) Identification of applicable federal laws, policies, or programs that impact affected areas; and
- (5) Recommendations for planning, management, and adaptation for hazards associated with increasing sea level rise.

The Hawaii Climate Change Mitigation and Adaptation Commission submitted a Hawaii Sea Level Rise Vulnerability and Adaptation Report in December 2017. The report identifies, with maps at tax map key detail, areas that are susceptible to sea level rise impacts based on a 3.2-foot increase in sea level projected to occur by mid-century or earlier. These areas are designated as the sea level rise exposure area projection, which the Commission recommends be adopted as a sea level rise exposure area overlay to guide state and county adaptation strategies and standards for development. The report also made a number of recommendations to state and county agencies based on emerging good practices to strengthen Hawaii's overall readiness to face sea level rise and climate change. Accordingly, this measure requests various state and county entities to implement the recommendations of the Hawaii Sea Level Rise Vulnerability and Adaptation Report.

As affirmed by the records of votes of the members of your Committees on Water and Land and Public Safety, Intergovernmental, and Military Affairs that are attached to this report, your Committees concur with the intent and purpose of S.C.R. No. 177 and recommend that it be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Water and Land: Ayes, 4. Noes, none. Excused, 1 (Inouye).

Public Safety, Intergovernmental, and Military Affairs: Ayes, 4. Noes, none. Excused, 1 (Baker).

SCRep. 3318 (Joint) Water and Land and Public Safety, Intergovernmental, and Military Affairs on S.R. No. 106

The purpose and intent of this measure is to request the State and the counties to implement the recommendations of the Hawaii Sea Level Rise Vulnerability and Adaptation Report.

Your Committees received testimony in support of this measure from the Department of Land and Natural Resources, Board of Water Supply of the City and County of Honolulu, O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, and two individuals. Your Committees received comments on this measure from the Office of Planning.

Your Committees find that Act 32, Session Laws of Hawaii 2017, established the Hawaii Climate Change Mitigation and Adaptation Commission and directed the Commission, as a first step, to focus on and develop sea level rise vulnerability and adaptation reports that are required to include:

- (1) Identification of the major areas of sea level rise impacts affecting the State and counties through 2050;
- (2) Identification of expected impacts of sea level rise based on the latest scientific research for each area through 2050;
- (3) Identification of the economic ramifications of sea level rise;
- (4) Identification of applicable federal laws, policies, or programs that impact affected areas; and
- (5) Recommendations for planning, management, and adaptation for hazards associated with increasing sea level rise.

The Hawaii Climate Change Mitigation and Adaptation Commission submitted a Hawaii Sea Level Rise Vulnerability and Adaptation Report in December 2017. The report identifies, with maps at tax map key detail, areas that are susceptible to sea level rise impacts based on a 3.2-foot increase in sea level projected to occur by mid-century or earlier. These areas are designated as the sea level rise exposure area projection, which the Commission recommends be adopted as a sea level rise exposure area overlay to guide state and county adaptation strategies and standards for development. The report also made a number of recommendations to state and county agencies based on emerging good practices to strengthen Hawaii's overall readiness to face sea level rise and climate change. As affirmed by the records of votes of the members of your Committees on Water and Land and Public Safety, Intergovernmental, and Military Affairs that are attached to this report, your Committees concur with the intent and purpose of S.R. No. 106 and recommend that it be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Water and Land: Ayes, 4. Noes, none. Excused, 1 (Inouye).

Public Safety, Intergovernmental, and Military Affairs: Ayes, 4. Noes, none. Excused, 1 (Baker).

SCRep. 3319 (Joint) Water and Land and Agriculture and Environment on S.C.R. No. 117

The purpose and intent of this measure is to:

- (1) Request the Department of Health to convene a task force to identify barriers and solutions to expanded water reuse in the State; and
- (2) Request the task force to submit a report of its findings and recommendations, including any proposed legislation, to the Legislature prior to the Regular Session of 2019.

Your Committees received testimony in support of this measure from the Department of Health, Department of Environmental Management of the County of Hawai'i, Board of Water Supply of the City and County of Honolulu, O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, Ulupono Initiative, The Nature Conservancy, Hawai'i Community Foundation, Ho'omanapono Political Action Committee, and two individuals.

Your Committees find that Hawai'i has been blessed with consistent rainfall, advantageous geology for aquifers, and high quality drinking water stores, but recent findings raise concerns about the long-term fresh water security for the State. Studies have documented troubling trends, including reduced rainfall, higher evaporation rates, and declining stream flows. Along with a projected population rise, these troubling trends generate a sense of uncertainty and urgency to guard the State's future water supply, and suggest that Hawai'i is entering an era of fresh water uncertainty. Increasing the amount of water reuse in the State will alleviate pressure on fresh drinking water supplies. This measure builds upon the work of Wai Maoli: Hawai'i Fresh Water Initiative, organized by the Hawai'i Community Foundation, and emphasizes that water reuse initiatives are applicable and relevant to the entire State.

Your Committees have amended this measure by:

- (1) Adding language that defines water reuse;
- (2) Adding language to emphasize that water reuse initiatives are applicable and relevant to the entire State;
- (3) Adding the Chairperson of the Board of Land and Natural Resources, a member of the Commission on Water Resource Management other than the Chairperson of the Board of Land and Natural Resources, and the Chairperson of the Board of Agriculture as members of the task force;
- (4) Adding the Chairperson of the Board of Land and Natural Resources and Chairperson of the Board of Agriculture as recipients; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Water and Land and Agriculture and Environment that are attached to this report, your Committees concur with the intent and purpose of S.C.R. No. 117, as amended herein, and recommend that it be referred to your Committee on Commerce, Consumer Protection, and Health, in the form attached hereto as S.C.R. No. 117, S.D. 1.

Signed by the Chairs on behalf of the Committees.

Water and Land: Ayes, 4. Noes, none. Excused, 1 (Inouye).

Agriculture and Environment: Ayes, 4. Noes, none. Excused, 1 (Ruderman).

SCRep. 3320 (Joint) Water and Land and Agriculture and Environment on S.R. No. 74

The purpose and intent of this measure is to:

- (1) Request the Department of Health to convene a task force to identify barriers and solutions to expanded water reuse in the State; and

- (2) Request the task force to submit a report of its findings and recommendations, including any proposed legislation, to the Legislature prior to the Regular Session of 2019.

Your Committees received testimony in support of this measure from the Department of Health, Department of Environmental Management of the County of Hawai'i, Board of Water Supply of the City and County of Honolulu, O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, Ulupono Initiative, The Nature Conservancy, Hawai'i Community Foundation, Ho'omanapono Political Action Committee, and two individuals.

Your Committees find that Hawai'i has been blessed with consistent rainfall, advantageous geology for aquifers, and high quality drinking water stores, but recent findings raise concerns about the long-term fresh water security for the State. Studies have documented troubling trends, including reduced rainfall, higher evaporation rates, and declining stream flows. Along with a projected population rise, these troubling trends generate a sense of uncertainty and urgency to guard the State's future water supply, and suggest that Hawai'i is entering an era of fresh water uncertainty. Increasing the amount of water reuse in the State will alleviate pressure on fresh drinking water supplies. This measure builds upon the work of Wai Maoli: Hawai'i Fresh Water Initiative, organized by the Hawai'i Community Foundation, and emphasizes that water reuse initiatives are applicable and relevant to the entire State.

Your Committees have amended this measure by:

- (1) Adding language that defines water reuse;
- (2) Adding language to emphasize that water reuse initiatives are applicable and relevant to the entire State;
- (3) Adding the Chairperson of the Board of Land and Natural Resources, a member of the Commission on Water Resource Management other than the Chairperson of the Board of Land and Natural Resources, and the Chairperson of the Board of Agriculture as members of the task force;
- (4) Adding the Chairperson of the Board of Land and Natural Resources and Chairperson of the Board of Agriculture as recipients; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Water and Land and Agriculture and Environment that are attached to this report, your Committees concur with the intent and purpose of S.R. No. 74, as amended herein, and recommend that it be referred to your Committee on Commerce, Consumer Protection, and Health, in the form attached hereto as S.R. No. 74, S.D. 1.

Signed by the Chairs on behalf of the Committees.

Agriculture and Environment: Ayes, 4. Noes, none. Excused, 1 (Ruderman).

SCRep. 3321 Education on S.C.R. No. 160

The purpose and intent of this measure is to request the Department of Education to explore student aid options for students who attend a Department of Education community school for adults and opt to enroll in and complete the competency-based community school diploma program to earn a Hawaii adult community school diploma.

Your Committee received testimony in support of this measure from the Department of Education.

Your Committee finds that the Department of Education provides the competency-based community school diploma program as an option for adults who do not have a high school diploma to obtain the Hawaii adult community school diploma. Many graduates who complete the competency-based community school diploma program previously relied on federal student aid to attend post-secondary institutions. However, due to federal student aid requirements, the University of Hawaii System is unable to qualify Department of Education community school for adults graduates who successfully completed the competency-based community school diploma program for federal student aid. Therefore, alternative solutions are necessary to allow these graduates the opportunity to further their education.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 160 and recommends that it be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Kahele).

SCRep. 3322 Education on S.R. No. 119

The purpose and intent of this measure is to request the Department of Education to explore student aid options for students who attend a Department of Education community school for adults and opt to enroll in and complete the competency-based community school diploma program to earn a Hawaii adult community school diploma.

Your Committee received testimony in support of this measure from one individual.

Your Committee finds that the Department of Education provides the competency-based community school diploma program as an option for adults who do not have a high school diploma to obtain the Hawaii adult community school diploma. Many graduates who complete the competency-based community school diploma program previously relied on federal student aid to attend post-secondary institutions. However, due to federal student aid requirements, the University of Hawaii System is unable to qualify Department of Education community school for adults graduates who successfully completed the competency-based community school diploma program for federal student aid. Therefore, alternative solutions are necessary to allow these graduates the opportunity to further their education.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 119 and recommends that it be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Kahele).

SCRep. 3323 (Joint) Water and Land and Public Safety, Intergovernmental, and Military Affairs on S.C.R. No. 95

The purpose and intent of this measure is to:

- (1) Support the purchase, preservation, and restoration of agricultural and conservation lands in Maunawili Valley; and
- (2) Urge various federal, state, and county entities to acquire and protect important ancient and historic sites and trails and waters in Maunawili Valley.

Your Committees received testimony in support of this measure from the Department of Land and Natural Resources, Office of Planning, Environmental Caucus of the Democratic Party of Hawai'i, O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, Hawaii Agriculture Research Center, Hui Maunawili-Kawainui, Hui Kawainui-Kailua Ka Wai Ola, Kailua Hawaiian Civic Club, Halau Mōhala 'Ilima, The Trust for Public Land, Pacific American Foundation, Kailua Historical Society, Ho'omanapono Political Action Committee, 'Ahahui Mālama I ka Lōkahi, Hika'alani, and approximately twenty-five individuals. Your Committees received comments on this measure from the Department of Agriculture and Kailua Neighborhood Board No. 31.

Your Committees find that Maunawili Valley contains wetlands, streams, and freshwater springs that provide most of the water that flows to the Kawainui Marsh ecosystem, and more than fifty springs and smaller streams, including Maunawili Stream, the most significant stream in the Kailua ahupua'a. Ancient and historic sites throughout Maunawili Valley include heiau (temple or sacred site), sacred stones, petroglyphs, Hawaiian burials, alanui (path or trail), house sites, grinding stones, irrigated and dryland agricultural terraces, large 'auwai (irrigation ditches) related to extensive lo'i (taro patches), and nineteenth and early twentieth century structures related to agriculture and food production. There is a need to protect and conserve the Maunawili wetlands and semi-wetlands; Maunawili's Hanalei soil, which is the most fertile soil in Hawai'i; fresh water resources; ancient and historic sites; and historic trails within the vital context of agricultural sustainability.

Your Committees further find that HRT Realty, LLC, owner of more than one thousand acres in Maunawili, has expressed interest in selling its Maunawili lands, or a significant portion thereof, to the Department of Land and Natural Resources and Department of Agriculture, which creates a prime opportunity for the State to acquire and protect these important, historical, and culturally significant lands. In partnership with The Trust for Public Land, Hui Maunawili-Kawainui, and the Kailua community, this measure provides a mechanism to secure Maunawili's irreplaceable resources for future generations.

Your Committees have amended this measure by:

- (1) Adding the Chairperson of the Board of Land and Natural Resources, Chairperson of the Board of Agriculture, and Board members of Hui Maunawili-Kawainui as recipients; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Water and Land and Public Safety, Intergovernmental, and Military Affairs that are attached to this report, your Committees concur with the intent and purpose of S.C.R. No. 95, as amended herein, and recommend that it be referred to your Committee on Ways and Means, in the form attached hereto as S.C.R. No. 95, S.D. 1.

Signed by the Chairs on behalf of the Committees.
Water and Land: Ayes, 4. Noes, none. Excused, 1 (Inouye).
Public Safety, Intergovernmental, and Military Affairs: Ayes, 4. Noes, none. Excused, 1 (Baker).

SCRep. 3324 (Joint) Water and Land and Public Safety, Intergovernmental, and Military Affairs on S.R. No. 55

The purpose and intent of this measure is to:

- (1) Support the purchase, preservation, and restoration of agricultural and conservation lands in Maunawili Valley; and
- (2) Urge various federal, state, and county entities to acquire and protect important ancient and historic sites and trails and waters in Maunawili Valley.

Your Committees received testimony in support of this measure from the Department of Land and Natural Resources, Office of Planning, Environmental Caucus of the Democratic Party of Hawai'i, O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, Hawaii Agriculture Research Center, Hui Maunawili-Kawainui, Hui Kawainui-Kailua Ka Wai Ola, Kailua Hawaiian Civic Club, Halau Mōhala 'Ilima, The Trust for Public Land, Pacific American Foundation, Kailua Historical Society, Ho'omanapono Political Action Committee, 'Ahahui Mālama I ka Lōkahi, Hika'alani, and approximately twenty-five individuals. Your Committees received comments on this measure from the Department of Agriculture and Kailua Neighborhood Board No. 31.

Your Committees find that Maunawili Valley contains wetlands, streams, and freshwater springs that provide most of the water that flows to the Kawainui Marsh ecosystem, and more than fifty springs and smaller streams, including Maunawili Stream, the most significant stream in the Kailua ahupua'a. Ancient and historic sites throughout Maunawili Valley include heiau (temple or sacred site), sacred stones, petroglyphs, Hawaiian burials, alanui (path or trail), house sites, grinding stones, irrigated and dryland agricultural terraces, large 'auwai (irrigation ditches) related to extensive lo'i (taro patches), and nineteenth and early twentieth century structures related to agriculture and food production. There is a need to protect and conserve the Maunawili wetlands and semi-wetlands; Maunawili's Hanalei soil, which is the most fertile soil in Hawai'i; fresh water resources; ancient and historic sites; and historic trails within the vital context of agricultural sustainability.

Your Committees further find that HRT Realty, LLC, owner of more than one thousand acres in Maunawili, has expressed interest in selling its Maunawili lands, or a significant portion thereof, to the Department of Land and Natural Resources and Department of Agriculture, which creates a prime opportunity for the State to acquire and protect these important, historical, and culturally significant lands. Your Committees have amended this measure by:

- (1) Adding the Chairperson of the Board of Land and Natural Resources, Chairperson of the Board of Agriculture, and Board members of Hui Maunawili-Kawainui as recipients; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Water and Land and Public Safety, Intergovernmental, and Military Affairs that are attached to this report, your Committees concur with the intent and purpose of S.R. No. 55, as amended herein, and recommend that it be referred to your Committee on Ways and Means, in the form attached hereto as S.R. No. 55, S.D. 1.

Signed by the Chairs on behalf of the Committees.

Water and Land: Ayes, 4. Noes, none. Excused, 1 (Inouye).

Public Safety, Intergovernmental, and Military Affairs: Ayes, 4. Noes, none. Excused, 1 (Baker).

SCRep. 3325 Water and Land on S.C.R. No. 39

The purpose and intent of this measure is to provide legislative authorization for the issuance of a term, non-exclusive easement covering a portion of state submerged lands at Heeia, Koolaupoko, Oahu, by the Board of Land and Natural Resources (Board) for the existing seawall and landscaped area for use, repair, and maintenance of the existing improvements constructed thereon.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources and one individual.

Your Committee finds that an existing seawall and landscaped area identified as Tax Map Key: (1) 4-6-001: seaward of 019, Heeia, Koolaupoko, Oahu, are placed upon state submerged lands. This unauthorized seawall was constructed on accreted state lands in 1978. A previous owner of the abutting property worked with the Department of Land and Natural Resources (Department) to initially resolve the problem in 1981, but an after-the-fact Conservation District Use Application was denied by the Board without prejudice for further investigation into the possibility of any land use violation that may exist in addition to the seawall. Nothing further was done to legalize the seawall until 2014, when the current owner of the abutting property worked with the Department to resolve the encroachments and the Board approved the after-the-fact Conservation District Use Application for the seawall at its November 2017 meeting.

Your Committee further finds that the Board subsequently approved a grant of a fifty-five year term, non-exclusive easement to resolve the encroachments. The term, non-exclusive easement covers approximately 1,379 square feet, which will be reviewed and approved by the Department of Accounting and General Services' Survey Division. The grantee will pay the State the fair market value of the easement as consideration for the use of public lands to be determined by an independent appraiser. Since the Board has met all statutory prerequisites, this measure authorizes the issuance of a term, non-exclusive easement in accordance with section 171-53, Hawaii Revised Statutes.

Your Committee has amended this measure by:

- (1) Adding language regarding the history of the existing seawall, including that:
 - (A) The seawall is an unauthorized seawall constructed on accreted state lands in 1978 by a previous owner;
 - (B) The Board denied the after-the-fact Conservation District Use Application in 1982 for further investigation of other possible land use violations; and
 - (C) The Board approved the after-the-fact Conservation District Use Application in 2017; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 39, as amended herein, and recommends that it be referred to your Committee on Ways and Means, in the form attached hereto as S.C.R. No. 39, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Inouye).

SCRep. 3326 Water and Land on S.C.R. No. 45

The purpose and intent of this measure is to provide legislative authorization for the issuance of a non-exclusive easement covering a portion of state submerged lands at Puamana, Lahaina, Maui, by the Board of Land and Natural Resources for various seawall structures, a concrete groin, and revetment footings of a historic swimming pool.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources and Puamana Community Association. Your Committee received testimony in opposition to this measure from three individuals.

Your Committee finds that various encroachments fronting the property identified as Tax Map Key: (2) 4-6-028:001, Puamana, Lahaina, Maui, are placed on state submerged lands. The owner of the property obtained a fully executed grant of a term, non-exclusive easement, dated March 3, 2014, for a total of five shoreline encroachments for the seawall structures, the concrete groin, and the revetment footings of the historic swimming pool, which, at that time, had an area of 1,895 square feet.

Your Committee further finds that subsequent to issuance of the term, non-exclusive easement, the shoreline moved further mauka and increased the amount of structures located on state submerged lands. Thus, the Board of Land and Natural Resources approved an amendment of the term, non-exclusive easement granted in 2014 to incorporate the additional encroachment area of 3,470 square feet, resulting in a combined easement area of 5,365 square feet. The owner will pay the State the fair market value of the easement as consideration of the use of public lands to be determined by an independent appraisal. Since the Board of Land and Natural Resources has met all relevant statutory prerequisites, this measure authorizes the issuance of a term, non-exclusive easement, as amended, in accordance with section 171-53, Hawaii Revised Statutes.

Your Committee has amended this measure by:

- (1) Amending its title and making another conforming amendment to reflect that the term, non-exclusive easement has been amended by the Board of Land and Natural Resources;
- (2) Inserting language that the combined square footage of the term, non-exclusive easement has been reviewed and approved by the Department of Accounting and General Services' Survey Division; and
- (3) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 45, as amended herein, and recommends that it be referred to your Committee on Ways and Means, in the form attached hereto as S.C.R. No. 45, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Inouye).

SCRep. 3327 Water and Land on S.C.R. No. 49

The purpose and intent of this measure is to provide legislative authorization for the issuance of a term, non-exclusive easement covering a portion of state submerged lands at Honokawai, Lahaina, Maui, by the Board of Land and Natural Resources for the existing seawall.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources. Your Committee received testimony in opposition to this measure from the Sierra Club of Hawai'i and approximately one hundred thirty individuals.

Your Committee finds that an existing seawall fronting the property identified as Tax Map Key: (2) 4-4-001:042, Honokawai, Lahaina, Maui, is placed on state submerged lands. The owners of the abutting property, the Association of Unit Owners of the Hale Kai Condominium, worked with the Department of Land and Natural Resources to resolve the encroachment problem, and the Department subsequently approved a grant of a fifty-five-year term, non-exclusive easement on August 12, 2011. However, this easement has not been fully executed due to subsequent amendments to account for additional encroachments due to the migration of the shoreline.

Your Committee further finds that the subject area is about 2,920 square feet, which is subject to review and approval by the Department of Accounting and General Services' Survey Division. The abutting property owner is required to pay the State the fair market value of the easement as consideration for the use of public lands, and the amount of the consideration shall be determined by an independent appraiser. Since the Board of Land and Natural Resources has met all statutory prerequisites, this measure authorizes the issuance of a term, non-exclusive easement in accordance with section 171-53, Hawaii Revised Statutes.

Your Committee has amended this measure by:

- (1) Inserting language regarding a \$5,000 fine imposed by the Board of Land and Natural Resources in 2008 against the Association of Unit Owners of the Hale Kai Condominium for the failure to obtain appropriate approvals for the unauthorized improvements made to the existing seawall;
- (2) Clarifying that the Board of Land and Natural Resources held subsequent meetings to approve amendments to the term, non-exclusive easement to account for additional encroachments due to the migration of the shoreline;
- (3) Clarifying that although approved and amended by the Board of Land and Natural Resources, the term, non-exclusive easement has yet to be fully executed;
- (4) Inserting language that the subject area of the term, non-exclusive easement is subject to review and approval by the Department of Accounting and General Services' Survey Division;
- (5) Inserting language that the grantee shall pay the State the fair market value of the term, non-exclusive easement as consideration of the use of public lands to be determined by an independent appraiser; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 49, as amended herein, and recommends that it be referred to your Committee on Ways and Means, in the form attached hereto as S.C.R. No. 49, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Inouye).

SCRep. 3328 Water and Land on S.C.R. No. 50

The purpose and intent of this measure is to:

- (1) Request the Legislative Reference Bureau to conduct a study regarding designating, dissolving, or transferring certain community development districts under the Hawaii Community Development Authority; and
- (2) Request the Legislative Reference Bureau to submit a written report of its findings and recommendations, including any proposed legislation, to the Legislature prior to the convening of the Regular Session of 2019.

Your Committee received comments on this measure from the Legislative Reference Bureau and Department of Planning and Permitting of the City and County of Honolulu.

Your Committee finds that the Hawaii Community Development Authority was established to meet the vast community development needs of providing suitable affordable housing, sufficient commercial and industrial facilities for rent, residential areas that have facilities necessary for basic liveability, such as parks and open space, and areas that are planned for mixed uses. The Authority manages three community development districts - the Kakaako Community Development District, Kalaeloa Community Development District, and Heeia Community Development District - and these community development districts are designated by law as areas dedicated for replanning, renewal, or redevelopment. After the designation, the Hawaii Community Development Authority is required to develop a community development plan, which includes community development guidance policies, a district-wide improvement program, and community development rules.

Your Committee notes that the development of new infrastructure and retrofitting of existing infrastructure are necessary in the East Kapolei area, and if the East Kapolei area is designated as a community development district, a community development plan would enable the East Kapolei Neighborhood transit-oriented development plan to more efficiently and effectively come into fruition. Your Committee further notes the extensive redevelopment that has already been completed or planned for the Kakaako Community Development District and whether the cultural and natural resources protection purposes for which the Heeia Community Development District was established may be better fulfilled by a state agency other than the Hawaii Community Development Authority. Thus, by requesting a study to assess and analyze the existing community development districts and the designation of any new community development districts under the Hawaii Community Development Authority, this measure will ensure that the goals and purposes of the Authority and the several community development districts are met.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 50 and recommends that it be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Inouye).

SCRep. 3329 Water and Land on S.R. No. 22

The purpose and intent of this measure is to:

- (1) Request the Legislative Reference Bureau to conduct a study regarding designating, dissolving, or transferring certain community development districts under the Hawaii Community Development Authority; and
- (2) Request the Legislative Reference Bureau to submit a written report of its findings and recommendations, including any proposed legislation, to the Legislature prior to the convening of the Regular Session of 2019.

Your Committee received testimony in support of this measure from one individual.

Your Committee finds that the Hawaii Community Development Authority was established to meet the vast community development needs of providing suitable affordable housing, sufficient commercial and industrial facilities for rent, residential areas that have facilities necessary for basic liveability, such as parks and open space, and areas that are planned for mixed uses. The Authority manages three community development districts - the Kakaako Community Development District, Kalaeloa Community Development District, and Heeia Community Development District - and these community development districts are designated by law as areas dedicated for replanning, renewal, or redevelopment. After the designation, the Hawaii Community Development Authority is required to develop a community development plan, which includes community development guidance policies, a district-wide improvement program, and community development rules.

Your Committee notes that the development of new infrastructure and retrofitting of existing infrastructure are necessary in the East Kapolei area, and if the East Kapolei area is designated as a community development district, a community development plan would enable the East Kapolei Neighborhood transit-oriented development plan to more efficiently and effectively come into fruition. Your Committee further notes the extensive redevelopment that has already been completed or planned for the Kakaako Community Development District and whether the cultural and natural resources protection purposes for which the Heeia Community Development District was established may be better fulfilled by a state agency other than the Hawaii Community Development Authority. Thus, by requesting a study to assess and analyze the existing community development districts and the designation of any new community development districts under the Hawaii Community Development Authority, this measure will ensure that the goals and purposes of the Authority and the several community development districts are met.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 22 and recommends that it be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Inouye).

SCRep. 3330 Water and Land on S.C.R. No. 79

The purpose and intent of this measure is to provide legislative authorization for the issuance of a term, non-exclusive easement and issuance of immediate right of entry covering a portion of state land at Kaanapali, Lahaina, Maui, by the Board of Land and Natural Resources for beach walk, trench draining, sign, and public beach shower purposes.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources and one individual.

Your Committee finds that the encroachments fronting the property identified as Tax Map Key: (2) 4-4-013: seaward of 006 and 008, Kaanapali, Lahaina, Maui, are placed on state submerged lands. The current owner of the abutting property worked with the Department of Land and Natural Resources to resolve the encroachments, and the Department subsequently approved the direct issuance of a fifty-five-year term, non-exclusive easement and issuance of immediate right of entry on January 27, 2017. The easement authorized the grantee the right, privilege, and authority to use, maintain, repair, replace, and remove the existing beach walk, trench drain, sign, and public beach shower over, under, and across state owned land.

Your Committee further finds that the total encroachment area is approximately 1,776 square feet, which is subject to review and approval by the Department of Accounting and General Services' Survey Division. The grantee shall pay the State the fair market value of the easement as consideration of the use of public lands to be determined by an independent appraiser. Since the Board of Land and Natural Resources has met all relevant statutory prerequisites, this measure authorizes the issuance of a term, non-exclusive easement in accordance with section 171-53, Hawaii Revised Statutes.

Your Committee has amended this measure by:

- (1) Inserting language that the subject area of the term, non-exclusive easement is subject to review and approval by the Department of Accounting and General Services' Survey Division;
- (2) Inserting language that the grantee shall pay the State the fair market value of the term, non-exclusive easement as consideration of the use of public lands to be determined by an independent appraiser; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 79, as amended herein, and recommends that it be referred to your Committee on Ways and Means, in the form attached hereto as S.C.R. No. 79, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Inouye).

SCRep. 3331 Water and Land on S.C.R. No. 80

The purpose and intent of this measure is to provide legislative authorization for the issuance of a term, non-exclusive easement covering a portion of state submerged lands at Spreckelsville, Wailuku, Maui, by the Board of Land and Natural Resources for the existing seawall and boulder revetment and for use, repair, and maintenance of the existing improvements constructed thereon.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources.

Your Committee finds that an existing seawall and boulder revetment fronting the property identified as Tax Map Key: (2) 3-8-002:seaward of 001, Spreckelsville, Wailuku, Maui, are placed on state submerged lands. The current owner of the abutting property worked with the Department of Land and Natural Resources to resolve the encroachment problems, and the Department subsequently approved a grant of a fifty-five year term, non-exclusive easement on September 22, 2017, and imposed a fine of \$500 against the grantee for the illegal encroachment.

Your Committee further finds that the encroachment area is about 1,128 square feet, which is subject to review and approval by the Department of Accounting and General Services' Survey Division. The abutting property owner is required to pay the State the fair market value of the easement as consideration for the use of public lands, and the amount of the consideration shall be determined by an independent appraiser. Since the Board of Land and Natural Resources has met all statutory prerequisites, this measure authorizes the issuance of a term, non-exclusive easement in accordance with section 171-53, Hawaii Revised Statutes.

Your Committee has amended this measure by:

- (1) Inserting language regarding a \$500 fine imposed by the Board of Land and Natural Resources against the current abutting property owner for the illegal encroachment;
- (2) Inserting language that the subject area of the term, non-exclusive easement is subject to review and approval by the Department of Accounting and General Services' Survey Division;
- (3) Inserting language that the grantee shall pay the State the fair market value of the term, non-exclusive easement as consideration of the use of public lands to be determined by an independent appraiser; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 80, as amended herein, and recommends that it be referred to your Committee on Ways and Means, in the form attached hereto as S.C.R. No. 80, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Inouye).

SCRep. 3332 Education on S.C.R. No. 168

The purpose and intent of this measure is to urge the Department of Education to implement ocean and water safety education programs for elementary school students.

Your Committee received comments on this measure from the Department of Education.

Your Committee finds that ocean and water safety awareness at a young age is a key factor in drowning prevention, as one in five people who die from drowning are children fourteen years of age and younger. School districts in other states have included swimming lessons and ocean safety education into their physical education classes. Therefore, because Hawaii residents and families have access to beaches and other water activities throughout the year, it is essential to educate young child in ocean and water safety.

Your Committee has amended this measure by inserting language suggesting that ocean and water safety education programs may be addressed in schools through partnerships with external organizations or other departments.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 168, as amended herein, and recommends that it be referred to your Committee on Ways and Means, in the form attached hereto as S.C.R. No. 168, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Kahele).

SCRep. 3333 Education on S.R. No. 127

The purpose and intent of this measure is to urge the Department of Education to implement ocean and water safety education programs for elementary school students.

Your Committee received testimony in support of this measure from one individual.

Your Committee finds that ocean and water safety awareness at a young age is a key factor in drowning prevention, as one in five people who die from drowning are children fourteen years of age and younger. School districts in other states have included swimming lessons and ocean safety education into their physical education classes. Therefore, because Hawaii residents and families have access to beaches and other water activities throughout the year, it is essential to educate young child in ocean and water safety.

Your Committee has amended this measure by inserting language suggesting that ocean and water safety education programs may be addressed in schools through partnerships with external organizations or other departments.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 127, as amended herein, and recommends that it be referred to your Committee on Ways and Means, in the form attached hereto as S.R. No. 127, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Kahele).

SCRep. 3334 Education on S.C.R. No. 180

The purpose and intent of this measure is to request the Department of Education to reexamine the menu schedules for school meals to give local produce suppliers the ability to provide locally grown produce in each meal, in keeping with United States Department of Agriculture standards.

Your Committee received testimony in support of this measure from the Office of the Lieutenant Governor, Department of Agriculture, Hawai'i Farm Bureau, and Ulupono Initiative.

Your Committee finds that as a large purchaser of food products, the Department of Education can make a significant impact on the local economy by purchasing produce from local farms. While creating menus for school meals with specific food items that schools must all produce is beneficial when ordering food in bulk, if the specific product is not produced or manufactured in Hawaii in sufficient and available quantities or, through competitive bids, the costs of a locally produced food are significantly higher, the Department of Education purchases the food from mainland providers. Allowing flexibility in school menus that meet United States Department of Agriculture standards will further promote purchasing from and supporting local farms, while providing schoolchildren with healthy meals.

Your Committee has amended this measure by:

- (1) Inserting language that acknowledges the work of former Lieutenant Governor Shan Tsutsui in convening the Hawaii Farm to School Advisory Group to develop a pathway toward bringing fresh, local food to schools statewide; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 180, as amended herein, and recommends that it be referred to your Committee on Ways and Means, in the form attached hereto as S.C.R. No. 180, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Kahele).

SCRep. 3335 Education on S.R. No. 98

The purpose and intent of this measure is to request the Department of Education to reexamine the menu schedules for school meals to give local produce suppliers the ability to provide locally grown produce in each meal, in keeping with United States Department of Agriculture standards.

Your Committee received testimony in support of this measure from the Office of the Lieutenant Governor, Department of Agriculture, Hawai'i Farm Bureau, Ulupono Initiative, O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, and three individuals.

Your Committee finds that as a large purchaser of food products, the Department of Education can make a significant impact on the local economy by purchasing produce from local farms. While creating menus for school meals with specific food items that schools must all produce is beneficial when ordering food in bulk, if the specific product is not produced or manufactured in Hawaii in sufficient and available quantities or, through competitive bids, the costs of a locally produced food are significantly higher, the Department of Education purchases the food from mainland providers. Allowing flexibility in school menus that meet United States Department of Agriculture standards will further promote purchasing from and supporting local farms, while providing schoolchildren with healthy meals.

Your Committee has amended this measure by:

- (1) Inserting language that acknowledges the work of former Lieutenant Governor Shan Tsutsui in convening the Hawaii Farm to School Advisory Group to develop a pathway toward bringing fresh, local food to schools statewide; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 98, as amended herein, and recommends that it be referred to your Committee on Ways and Means, in the form attached hereto as S.R. No. 98, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Kahele).

SCRep. 3336 (Joint) Water and Land and Housing on S.C.R. No. 179

The purpose and intent of this measure is to request the City Council of the City and County of Honolulu to require a conditional use permit-major for any and all allowed uses on lands in P-2 General Preservation Districts that are within one hundred feet of a residential area.

Your Committees received testimony in support of this measure from the Board of Directors of the Royal Kunia Community Association and one individual. Your Committees received testimony in opposition to this measure from the Hawaiian Electric Company, Inc., and Land Use Research Foundation.

Your Committees find that a conditional use permit-major is required for projects that are considered appropriate in zoning districts in the City and County of Honolulu only if certain standards and conditions are met. The Department of Planning and Permitting of the City and County of Honolulu uses a Master Use Table under the Revised Ordinances of Honolulu that lists uses within each zoning district that may be permitted only after obtaining a conditional use permit-major. By requesting the Honolulu City Council to require a conditional use permit-major for all uses on lands in P-2 General Preservation Districts that are within one hundred feet of a residential area, this measure will assist in ensuring that preservation zoning districts are preserved and managed as open spaces, recreational lands, or lands of scenic and other natural resource value.

Your Committees note that there are existing electrical utility transmission, sub-transmission, and distribution facilities throughout P-2 zoned areas that are critical to maintaining the overall reliability of the electrical utility systems from conventional systems as well from renewable energy resources to the grid. This measure could delay work on electrical utility facilities in these areas and negatively impact any emergency repairs on electrical systems, which could elevate the risk for long-term power outages.

Accordingly, your Committees have amended this measure by:

- (1) Exempting Utility Installations Type A or Type B from the request to require a conditional use permit-major for any and all allowed uses on lands in P-2 General Preservation Districts within one hundred feet of a residential area;
- (2) Amending its title accordingly;
- (3) Adding language that requests the City Council of the City and County of Honolulu to consider whether conditional use permits-major should be required for all uses on lands in other zoning districts; and
- (4) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Water and Land and Housing that are attached to this report, your Committees concur with the intent and purpose of S.C.R. No. 179, as amended herein, and recommend that it be referred to your Committee on Ways and Means, in the form attached hereto as S.C.R. No. 179, S.D. 1.

Signed by the Chairs on behalf of the Committees.
Water and Land: Ayes, 5. Noes, none. Excused, none.
Housing: Ayes, 3. Noes, none. Excused, 2 (Harimoto, Kahele).

SCRep. 3337 (Joint) Water and Land and Housing on S.R. No. 97

The purpose and intent of this measure is to request the City Council of the City and County of Honolulu to require a conditional use permit-major for any and all allowed uses on lands in P-2 General Preservation Districts that are within one hundred feet of a residential area.

Your Committees received testimony in support of this measure from the Sierra Club of Hawai'i. Your Committees received testimony in opposition to this measure from the Hawaiian Electric Company, Inc., and Land Use Research Foundation.

Your Committees find that a conditional use permit-major is required for projects that are considered appropriate in zoning districts in the City and County of Honolulu only if certain standards and conditions are met. The Department of Planning and Permitting of the City and County of Honolulu uses a Master Use Table under the Revised Ordinances of Honolulu that lists uses within each zoning district that may be permitted only after obtaining a conditional use permit-major. By requesting the Honolulu City Council to require a conditional use permit-major for all uses on lands in P-2 General Preservation Districts that are within one hundred feet of a residential area, this measure will assist in ensuring that preservation zoning districts are preserved and managed as open spaces, recreational lands, or lands of scenic and other natural resource value.

Your Committees note that there are existing electrical utility transmission, sub-transmission, and distribution facilities throughout P-2 zoned areas that are critical to maintaining the overall reliability of the electrical utility systems from conventional systems as well from renewable energy resources to the grid. This measure could delay work on electrical utility facilities in these areas and negatively impact any emergency repairs on electrical systems, which could elevate the risk for long-term power outages.

Accordingly, your Committees have amended this measure by:

As affirmed by the records of votes of the members of your Committees on Water and Land and Housing that are attached to this report, your Committees concur with the intent and purpose of S.R. No. 97, as amended herein, and recommend that it be referred to your Committee on Ways and Means, in the form attached hereto as S.R. No. 97, S.D. 1.

Signed by the Chairs on behalf of the Committees.

Water and Land: Ayes, 5. Noes, none. Excused, none.

Housing: Ayes, 3. Noes, none. Excused, 2 (Harimoto, Kahele).

SCRep. 3338 (Majority) Water and Land on S.C.R. No. 63

The purpose and intent of this measure is to provide legislative authorization for the issuance of a term, non-exclusive easement covering a portion of state submerged lands at Kahana, Lahaina, Maui, by the Board of Land and Natural Resources for seawall and rock revetment purposes.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources, Department of Public Works of the County of Maui, Association of Apartment Owners of Hololani, and three individuals. Your Committee received testimony in opposition to this measure from the Sierra Club of Hawai'i and approximately one hundred thirty individuals.

Your Committee finds that the long-term erosion rate of Kahana Beach in West Maui is approximately 0.8 feet per year, and there appears to have been a net sand loss from the overall system over the decades so that the sand beach has been lost with increasing frequency. As a result, all five condominium and hotel complexes along Kahana Beach have obtained permits and approvals to install permanent or emergency protective measures to address the shoreline erosion. Specifically, the Hololani Resort Condominiums, represented by the Association of Apartment Owners of Hololani, one of the condominium complexes located on Kahana Beach, received emergency authorization from the Department of Land and Natural Resources and the County of Maui in 2007 to install sand bags and erosion blankets. Subsequently, the Association of Apartment Owners of Hololani obtained the approvals and permits, including a Conservation District Use Permit from the Board of Land and Natural Resources and a Special Management Area Permit from the County of Maui Planning Commission, to construct a long-term solution consisting of a steel sheet pile seawall and rock revetment.

Your Committee further finds that the proposed seawall and rock revetment construction project fronting the property identified as Tax Map Key: (2) 4-3-010: seaward of 009, Kahana, Lahaina, Maui, will be placed on portions of state submerged lands. The Board of Land and Natural Resources approved the issuance of a term, non-exclusive easement to the Association of Apartment Owners of Hololani for the use of state submerged lands for the proposed project on January 12, 2018. The easement area is approximately 6,128 square feet and is subject to review and approval by the Department of Accounting and General Services' Survey Division. The grantee will be required to pay the State the fair market value of the easement as the consideration for the use of public lands to be determined by an independent appraiser. Since the Board of Land and Natural Resources has met all relevant statutory prerequisites, this measure authorizes the issuance of a term, non-exclusive easement in accordance with section 171-53, Hawaii Revised Statutes.

Your Committee notes the concerns raised in written testimony that seawalls eliminate the ability of beaches to naturally fluctuate with changing waves and tide. Without proper transport of sand, beaches are eventually lost, public shoreline access is hindered, and coastal habitats are impacted. Your Committee further notes that the Special Management Area Permit approved by the Maui County Planning Commission noted that the approval included a condition that the seawall be removed, at Hololani's expense, if a beach restoration project goes forward. Your Committee believes that other alternatives should be developed to address sea level rise, including a managed retreat plan. Your Committee also has concerns whether there will be sufficient public access to the beach if the proposed seawall is constructed and notes that public access was set as a condition for the approval of the Conservation District Use Permit and Special Management Area Permit.

Accordingly, your Committee has amended this measure by:

- (1) Inserting language noting that:

- (A) The Maui County Planning Commission conditioned its approval of a Special Management Area Permit upon removal of the seawall, at Hololani's expense, if a beach restoration project goes forward;
 - (B) The Conservation District Use Permit approved by the Board of Land and Natural Resources and the Special Management Area Permit approved by the County Planning Commission placed conditions on public access, including that Hololani maintain safe lateral beach access and provide, maintain, and properly post signage for public access through the property to the shoreline; and
 - (C) The term, non-exclusive easement is unique and fact-specific, and is not intended to set a precedent for the building of new seawalls and other shoreline hardening structures on public lands;
- (2) Establishing certain conditions for the legislative authorization of the term, non-exclusive easement, including:
- (A) The seawall shall be removed at Hololani's expense if a beach restoration project moves forward;
 - (B) Hololani shall ensure unrestricted lateral and vertical public access, including the posting of appropriate signage; and
 - (C) A full waiver of liability shall be executed and include specified terms; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

Your Committee anticipates that the parties will be required to amend the term, non-exclusive easement in order to incorporate the conditions established for legislative authorization of the easement. In light of this measure and the issue of sea level rise, your Committee urges the Board of Land and Natural Resources to develop a long-term policy to address structures that are located along the shoreline and subject to erosion.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 63, as amended herein, and recommends that it be referred to your Committee on Ways and Means, in the form attached hereto as S.C.R. No. 63, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 3; Ayes with Reservations (Gabbard, Thielen). Noes, 2 (Inouye, Riviere). Excused, none.

SCRep. 3339 Water and Land on S.C.R. No. 133

The purpose and intent of this measure is to provide legislative authorization for the issuance of a term lease covering a portion of state submerged lands at Kahalu'u, North Kona, Island of Hawai'i, by the Board of Land and Natural Resources for educational, cultural, and historic site preservation purposes.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources, Kamehameha Schools, and O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i.

Your Committee finds that the Trustees of the Estate of Bernice Pauahi Bishop propose to use land in North Kona as part of the Kahalu'u Ma Kai Educational and Cultural Complex to serve as a center of Kamehameha Schools' 'āina- and cultural-based educational offerings in the West Hawai'i region. As part of the Kahalu'u Ma Kai Educational and Cultural Complex, the Trustees of the Estate of Bernice Pauahi Bishop propose to include a managed public access plan and the restoration and interpretive management of several sacred heiau and the Pa o Ka Menehune Fishpond. Accordingly, the lease will be for the preservation and management of these historic archaeological sites, and commercial activity or development will be prohibited in the lease area. Furthermore, managed public access will allow the public access to submerged land areas that do not encroach onto the cultural and historical resource areas.

Your Committee further finds that the subject area fronting the property identified as Tax Map Key: (3) 7-8-013: portions of 002 and 043, Kahalu'u, North Kona, Island of Hawai'i, are placed on state submerged lands. The Trustees worked with the Department of Land and Natural Resources to resolve the location of the shoreline and the ownership of the submerged lands, which resulted in the two parties "agreeing to disagree" and specifically reserving all rights, claims, and defenses. Thus, the Board of Land and Natural Resources approved a sixty-five year direct lease to the Trustees of the Estate of Bernice Pauahi Bishop for the use of state submerged lands for educational, cultural, and historic site preservation purposes on February 9, 2018.

Your Committee also finds that the lands subject to the lease consist of approximately 3.992 acres. The Estate of Bernice Pauahi Bishop is a certified tax exempt eleemosynary organization under section 501(c)(3) of the Internal Revenue Code of 1986. Accordingly, the Board of Land and Natural Resources approved the direct lease at gratis. Since the Board of Land and Natural Resources has met all relevant statutory prerequisites, this measure authorizes the issuance of a term lease in accordance with section 171-53, Hawaii Revised Statutes.

Your Committee notes that section 171-43.1, Hawaii Revised Statutes, authorizes the Board of Land and Natural Resources to lease, at a nominal consideration, public lands to an eleemosynary organization that has been certified to be tax exempt under section 501(c)(1) or 501(c)(3) of the Internal Revenue Code. According to the written testimony submitted by the Department of Land and Natural Resources, the Board of Land and Natural Resources approved the direct lease at gratis. Your Committee is concerned that approving the direct lease at gratis may not comply with the nominal consideration requirement under section 171-43.1, Hawaii Revised Statutes.

Accordingly, your Committee has amended this measure by conditioning legislative authorization of the direct lease upon the parties determining nominal consideration for the lease pursuant to section 171-43.1, Hawaii Revised Statutes.

Your Committee further notes that determining nominal consideration for the lease may require the Board of Land and Natural Resources to amend the lease.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 133, as amended herein, and recommends that it be referred to your Committee on Ways and Means, in the form attached hereto as S.C.R. No. 133, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Inouye).

SCRep. 3340 (Joint) Agriculture and Environment and Economic Development, Tourism, and Technology on S.C.R. No. 164

The purpose and intent of this measure is to request the Board of Agriculture to define “agricultural hub” or “food hub” and, in collaboration with the Agribusiness Development Corporation, identify areas in the State that are potentially suitable to become agricultural hubs or food hubs.

Your Committees received testimony in support of this measure from the Agribusiness Development Corporation and O’ahu County Committee on Legislative Priorities of the Democratic Party of Hawai’i. Your Committees received comments on this measure from the Department of Agriculture.

Your Committees find that agricultural hubs provide wider access to markets for small to mid-sized farmers and producers who are often unable to afford or manage trucks, warehouses, processing space, and storage themselves, and increase access to fresh, healthy foods for consumers. Your Committees further find that the agricultural hub included under the Whitmore Project will greatly assist local farmers and producers; however, the Department of Agriculture lacks a definition of “agricultural hub” or “food hub” to enable the development of additional hubs in Hawaii that are similar to the agricultural hub proposed under the Whitmore Project. Your Committees additionally find that the Board of Agriculture lacks the authority to amend statute and therefore the Legislature will need to codify a definition for “agricultural hub” or “food hub” in statute.

Accordingly, your Committees have amended this measure by:

- (1) Requesting that the Board of Agriculture submit a recommended definition of “agricultural hub” or “food hub” to the Legislature no later than twenty days prior to the convening of the Regular Session of 2019;
- (2) Amending its title accordingly; and
- (3) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Agriculture and Environment and Economic Development, Tourism, and Technology that are attached to this report, your Committees concur with the intent and purpose of S.C.R. No. 164, as amended herein, and recommend its adoption in the form attached hereto as S.C.R. No. 164, S.D. 1.

Signed by the Chairs on behalf of the Committees.
Agriculture and Environment: Ayes, 3. Noes, none. Excused, 2 (Nishihara, Ruderman).
Economic Development, Tourism, and Technology: Ayes, 3. Noes, none. Excused, 2 (Baker, Thielen).

SCRep. 3341 (Joint) Agriculture and Environment and Economic Development, Tourism, and Technology on S.R. No. 123

The purpose and intent of this measure is to request the Board of Agriculture to define “agricultural hub” or “food hub” and, in collaboration with the Agribusiness Development Corporation, identify areas in the State that are potentially suitable to become agricultural hubs or food hubs.

Your Committees received testimony in support of this measure from the Agribusiness Development Corporation and O’ahu County Committee on Legislative Priorities of the Democratic Party of Hawai’i. Your Committees received comments on this measure from the Department of Agriculture.

Your Committees find that agricultural hubs provide wider access to markets for small to mid-sized farmers and producers who are often unable to afford or manage trucks, warehouses, processing space, and storage themselves, and increase access to fresh, healthy foods for consumers. Your Committees further find that the agricultural hub included under the Whitmore Project will greatly assist local farmers and producers; however, the Department of Agriculture lacks a definition of “agricultural hub” or “food hub” to enable the development of additional hubs in Hawaii that are similar to the agricultural hub proposed under the Whitmore Project. Your Committees additionally find that the Board of Agriculture lacks the authority to amend statute and therefore the Legislature will need to codify a definition for “agricultural hub” or “food hub” in statute.

Accordingly, your Committees have amended this measure by:

- (1) Requesting that the Board of Agriculture submit a recommended definition of “agricultural hub” or “food hub” to the Legislature no later than twenty days prior to the convening of the Regular Session of 2019;
- (2) Amending its title accordingly; and
- (3) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Agriculture and Environment and Economic Development, Tourism, and Technology that are attached to this report, your Committees concur with the intent and purpose of S.R. No. 123, as amended herein, and recommend its adoption in the form attached hereto as S.R. No. 123, S.D. 1.

Signed by the Chairs on behalf of the Committees.
Agriculture and Environment: Ayes, 3. Noes, none. Excused, 2 (Nishihara, Ruderman).
Economic Development, Tourism, and Technology: Ayes, 3. Noes, none. Excused, 2 (Baker, Thielen).

SCRep. 3342 Commerce, Consumer Protection, and Health on S.C.R. No. 142

The purpose and intent of this measure is to designate the first week of December as Cancer Screen Week and encourage citizens of Hawaii to seek appropriate cancer screenings.

Your Committee received testimony in support of this measure from the Department of Health, O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, Hawai'i Primary Care Association, American Cancer Society Cancer Action Network, and two individuals.

Your Committee finds that regular screenings increase the probability of early detection of certain cancers, and early detection can save lives by providing the opportunity for treatment at earlier stages, when treatment is more effective and less costly. However, current cancer screening rates in Hawaii remain well below the nationally recommended Healthy People 2020 targets. Your Committee finds that a public health initiative such as Cancer Screen Week will raise awareness and encourage Hawaii residents to get recommended screenings.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 142 and recommends its adoption.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 1 (Tokuda).

SCRep. 3343 Commerce, Consumer Protection, and Health on S.C.R. No. 75

The purpose and intent of this measure is to urge:

- (1) Hawaii's congressional delegation to introduce and advocate for federal legislation to provide local franchising authorities with greater regulatory power over cable operators and the regulation of public, educational, and governmental access channels; and
- (2) The Federal Communications Commission to provide clarity and allow local franchising authorities more discretion regarding the regulation of cable operators as it relates to public, educational, and governmental access channels.

Your Committee received testimony in support of this measure from the Department of Commerce and Consumer Affairs; O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i; Ho'omana Pono, LLC; 'Olelo Community Media; and two individuals. Your Committee received comments on this measure from Charter Communications.

Your Committee finds that public, educational, and governmental (PEG) access programming has numerous important public benefits. PEG access programming promotes civic participation through local government cable casts, including broadcasts of legislative hearings and sessions, county council meetings, and neighborhood board meetings, which allows viewers to remain informed of issues affecting communities throughout the State; connects Hawaii's unique communities via discussion and coverage of cultural matters and events; and serves a vital consumer protection function as a tool to alert the public during natural disasters and emergencies.

Your Committee further finds that many of the State's PEG access channels have retained the same channel location for decades, are well-known to viewers, and have been branded by local access organizations for their programs. Your Committee additionally finds that if these PEG access channels are relocated by a cable operator, it will likely result in confusion and loss of viewership. Access organizations that oversee PEG access programming may also find it difficult and cost-prohibitive to rebrand their programs and services with new channel numbers.

However, your Committee notes that federal law limits the regulation of cable services by local franchising authorities and there is a lack of clarity under existing federal law regarding the regulation of cable operators as they relate to PEG access channels. This lack of clarity may limit and cause uncertainty regarding a local franchising authority's ability to assess and make decisions that protect the public's interest. Accordingly, this measure urges the Federal Communications Commission to consider and address these shortcomings and Hawaii's congressional delegation to introduce federal legislation to alleviate concerns over cable operators and PEG access channels.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 75, as amended herein, and recommends its adoption in the form attached hereto as S.C.R. No. 75, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 1 (Tokuda).

SCRep. 3344 (Joint) Public Safety, Intergovernmental, and Military Affairs and Judiciary on S.C.R. No. 116

The purpose and intent of this measure is to request the Legislative Reference Bureau to submit a report to the Legislature detailing:

- (1) All current state gun control laws, including restrictions on ownership, modifications, and accessories; penalties for illegal use or possession; and the processes required for obtaining and dispossessing individuals of various types of firearms;
- (2) Data on violent crime in Hawaii, including the number of instances involving a firearm, the number of deaths attributed to a firearm, and the number of firearms deaths caused by an accident or accidental discharge of a firearm;
- (3) Aggregate data on the number of registered firearm owners in the State and the total number of legally permitted firearms; and

- (4) A comparison of state statutes, rules, and regulations to existing federal statutes, rules, and regulations where parallel comparisons are available.

Your Committees received testimony in support of this measure from the O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i and two individuals. Your Committees received comments on this measure from the Legislative Reference Bureau.

Your Committees find that recent, high profile shootings across the country necessitate that the State evaluate existing statutes to ensure that they are as adequate and appropriate today as they were when originally enacted. Your Committees further find that in order to effectively evaluate existing statutes, it is important to collect relevant data relating to gun ownership and use in the State and relevant data on gun-related accidents and crimes. Moreover, your Committees find that it is important to compare existing state law to existing federal law to determine if the State's gun control laws are at least as effective as comparable federal law.

Your Committees have amended this measure by clarifying that the Honolulu Field Office of the United States Federal Bureau of Investigation; Honolulu Satellite Office of the United States Bureau of Alcohol, Tobacco, Firearms, and Explosives; Judiciary of the State of Hawaii; Department of the Attorney General; and respective police departments of the City and County of Honolulu, County of Hawaii, County of Kauai, and County of Maui are requested to submit to the Legislative Reference Bureau any firearms-related information relevant to the substance of the report no later than August 1, 2018, in order to assist the Bureau in its timely completion of the report.

As affirmed by the records of votes of the members of your Committees on Public Safety, Intergovernmental, and Military Affairs and Judiciary that are attached to this report, your Committees concur with the intent and purpose of S.C.R. No. 116, as amended herein, and recommend its adoption in the form attached hereto as S.C.R. No. 116, S.D. 1.

Signed by the Chairs on behalf of the Committees.

Public Safety, Intergovernmental, and Military Affairs: Ayes, 5. Noes, none. Excused, none.

Judiciary: Ayes, 5. Noes, none. Excused, none.

SCRep. 3345 (Joint) Public Safety, Intergovernmental, and Military Affairs and Judiciary on S.R. No. 73

The purpose and intent of this measure is to request the Legislative Reference Bureau to submit a report to the Legislature detailing:

- (1) All current state gun control laws, including restrictions on ownership, modifications, and accessories; penalties for illegal use or possession; and the processes required for obtaining and dispossessing individuals of various types of firearms;
- (2) Data on violent crime in Hawaii, including the number of instances involving a firearm, the number of deaths attributed to a firearm, and the number of firearms deaths caused by an accident or accidental discharge of a firearm;
- (3) Aggregate data on the number of registered firearm owners in the State and the total number of legally permitted firearms; and
- (4) A comparison of state statutes, rules, and regulations to existing federal statutes, rules, and regulations where parallel comparisons are available.

Your Committees received testimony in support of this measure from the O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i and two individuals. Your Committees received testimony in opposition to this measure from the Institute for Rational and Evidence-based Legislation. Your Committees received comments on this measure from two individuals.

Your Committees find that recent, high profile shootings across the country necessitate that the State evaluate existing statutes to ensure that they are as adequate and appropriate today as they were when originally enacted. Your Committees further find that in order to effectively evaluate existing statutes, it is important to collect relevant data relating to gun ownership and use in the State and relevant data on gun-related accidents and crimes. Moreover, your Committees find that it is important to compare existing state law to existing federal law to determine if the State's gun control laws are at least as effective as comparable federal law.

Your Committees have amended this measure by clarifying that the Honolulu Field Office of the United States Federal Bureau of Investigation; Honolulu Satellite Office of the United States Bureau of Alcohol, Tobacco, Firearms, and Explosives; Judiciary of the State of Hawaii; Department of the Attorney General; and respective police departments of the City and County of Honolulu, County of Hawaii, County of Kauai, and County of Maui are requested to submit to the Legislative Reference Bureau any firearms-related information relevant to the substance of the report no later than August 1, 2018, in order to assist the Bureau in its timely completion of the report.

As affirmed by the records of votes of the members of your Committees on Public Safety, Intergovernmental, and Military Affairs and Judiciary that are attached to this report, your Committees concur with the intent and purpose of S.R. No. 73, as amended herein, and recommend its adoption in the form attached hereto as S.R. No. 73, S.D. 1.

Signed by the Chairs on behalf of the Committees.

Public Safety, Intergovernmental, and Military Affairs: Ayes, 5. Noes, none. Excused, none.

Judiciary: Ayes, 5. Noes, none. Excused, none.

SCRep. 3346 (Joint) Education and Commerce, Consumer Protection, and Health on S.C.R. No. 69

The purpose and intent of this measure is to urge school administrators, teachers, parents, and students to be educated about the potential health impacts of heavy backpacks and to take proactive measures to avoid injury.

Your Committees received testimony in support of this measure from the Department of Education and O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i.

Your Committees find that overloaded school backpacks are increasingly causing back pain and spinal strain to students across the nation. Because spinal ligaments and muscles are not fully developed until after the age of sixteen, overweight backpacks are a source

of repeated low-level stress that may result in chronic neck, shoulder, or back pain in children. Backpacks often are not worn correctly, increasing the weight on the shoulders and making the child lean forward when walking or stoop forward when standing to compensate for the weight. Therefore, it is critical to educate and bring awareness to this issue to prevent backpack-related injuries for students.

As affirmed by the records of votes of the members of your Committees on Education and Commerce, Consumer Protection, and Health that are attached to this report, your Committees concur with the intent and purpose of S.C.R. No. 69 and recommend its adoption.

Signed by the Chairs on behalf of the Committees.

Education: Ayes, 3. Noes, none. Excused, 2 (Dela Cruz, Kahele).

Commerce, Consumer Protection, and Health: Ayes, 4. Noes, none. Excused, 3 (Nishihara, Ruderman, Tokuda).

SCRep. 3347 (Joint) Education and Commerce, Consumer Protection, and Health on S.R. No. 38

The purpose and intent of this measure is to urge school administrators, teachers, parents, and students to be educated about the potential health impacts of heavy backpacks and to take proactive measures to avoid injury.

Your Committees received testimony in support of this measure from the O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i and one individual.

Your Committees find that overloaded school backpacks are increasingly causing back pain and spinal strain to students across the nation. Because spinal ligaments and muscles are not fully developed until after the age of sixteen, overweight backpacks are a source of repeated low-level stress that may result in chronic neck, shoulder, or back pain in children. Backpacks often are not worn correctly, increasing the weight on the shoulders and making the child lean forward when walking or stoop forward when standing to compensate for the weight. Therefore, it is critical to educate and bring awareness to this issue to prevent backpack-related injuries for students.

As affirmed by the records of votes of the members of your Committees on Education and Commerce, Consumer Protection, and Health that are attached to this report, your Committees concur with the intent and purpose of S.R. No. 38 and recommend its adoption.

Signed by the Chairs on behalf of the Committees.

Education: Ayes, 3. Noes, none. Excused, 2 (Dela Cruz, Kahele).

Commerce, Consumer Protection, and Health: Ayes, 4. Noes, none. Excused, 3 (Nishihara, Ruderman, Tokuda).

SCRep. 3348 (Joint) Economic Development, Tourism, and Technology and Judiciary on S.C.R. No. 121

The purpose and intent of this measure is to request the Hawaii Sister-State Committee and Department of Business, Economic Development, and Tourism, in consultation with certain members of the Legislature, to provide a report to the Legislature that evaluates the sister-state program and makes recommendations to improve efforts to promote mutually beneficial international relationships to stimulate, among other things, economic growth.

Your Committees received testimony in support of this measure from the Department of Business, Economic Development, and Tourism; and O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i.

Your Committees find that the sister-state program was established in 1981, with the first sister-state relation being formed with Fukuoka, Japan. In order to administer the program, in 2006, the Sister-State Committee was established by Act 150, Session Laws of Hawaii 2006, and was administratively placed in the Department of Business, Economic Development, and Tourism. Your Committees further find that to date, the State has established sister-state relations with seventeen different jurisdictions around the world, and one is awaiting formal signing, which would bring the total to eighteen established relations. Your Committees believe that although the sister-state relations established have the potential to stimulate the economy of the State, for some sister-state relations, there has been no activity. Your Committees recognize the benefit of having sister-state relations and encourage more effort to be put toward sister-state relation activities.

Your Committees have amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Economic Development, Tourism, and Technology and Judiciary that are attached to this report, your Committees concur with the intent and purpose of S.C.R. No. 121, as amended herein, and recommend its adoption in the form attached hereto as S.C.R. No. 121, S.D. 1.

Signed by the Chairs on behalf of the Committees.

Economic Development, Tourism, and Technology: Ayes, 3. Noes, none. Excused, 2 (Baker, Thielen).

Judiciary: Ayes, 4. Noes, none. Excused, 1 (Thielen).

SCRep. 3349 (Joint) Economic Development, Tourism, and Technology and Judiciary on S.R. No. 78

The purpose and intent of this measure is to request the Hawaii Sister-State Committee and Department of Business, Economic Development, and Tourism, in consultation with certain members of the Legislature, to provide a report to the Legislature that evaluates the sister-state program and makes recommendations to improve efforts to promote mutually beneficial international relationships to stimulate, among other things, economic growth.

Your Committees received testimony in support of this measure from the Department of Business, Economic Development, and Tourism; and O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i.

Your Committees find that the sister-state program was established in 1981, with the first sister-state relation being formed with Fukuoka, Japan. In order to administer the program, in 2006, the Sister-State Committee was established by Act 150, Session Laws of Hawaii 2006, and was administratively placed in the Department of Business, Economic Development, and Tourism. Your Committees further find that to date, the State has established sister-state relations with seventeen different jurisdictions around the world, and one is awaiting formal signing, which would bring the total to eighteen established relations. Your Committees believe that

although the sister-state relations established have the potential to stimulate the economy of the State, for some sister-state relations, there has been no activity. Your Committees recognize the benefit of having sister-state relations and encourage more effort to be put toward sister-state relation activities.

Your Committees have amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Economic Development, Tourism, and Technology and Judiciary that are attached to this report, your Committees concur with the intent and purpose of S.R. No. 78, as amended herein, and recommend its adoption in the form attached hereto as S.R. No. 78, S.D. 1.

Signed by the Chairs on behalf of the Committees.

Economic Development, Tourism, and Technology: Ayes, 3. Noes, none. Excused, 2 (Baker, Thielen).

Judiciary: Ayes, 4. Noes, none. Excused, 1 (Thielen).

SCRep. 3350 Transportation and Energy on Gov. Msg. No. 597

Recommending that the Senate advise and consent to the nomination of the following:

BOARD OF DIRECTORS OF THE NATURAL ENERGY LABORATORY OF HAWAII AUTHORITY

G.M. No. 597 WILLIAM MIELCKE, for a term to expire 06-30-2022

Your Committee reviewed the personal history, resume, and statement submitted by William Mielcke for service on the Board of Directors of the Natural Energy Laboratory of Hawai'i Authority.

Your Committee received testimony in support of the nomination for the reappointment of William Mielcke from the Department of Business, Economic Development, and Tourism and one individual.

Upon review of the testimony, your Committee finds that Mr. Mielcke's professional experience, background, and commitment to service qualify him for consideration for reappointment to the Board of Directors of the Natural Energy Laboratory of Hawai'i Authority. Your Committee notes that Mr. Mielcke has worked in real estate development for over fifty years, with significant experience in planning, permitting, financing, design, and construction of numerous properties. Your Committee also notes that Mr. Mielcke previously served on the County of Hawaii Board of Appeals and County of Hawaii Planning Commission, in addition to having served as the Director of the Hawaii Resort Developers Conference, Hawaii Leeward Planning Conference, Kohala Coast Resort Association, and Hawaii Health System Corporation. Mr. Mielcke has also served as a member of the Urban Land Institute's Recreational Development Council. Mr. Mielcke is currently serving on the Board of Directors of the Natural Energy Laboratory of Hawai'i Authority as the chairperson and has a thorough understanding of the role and responsibility of board members. Your Committee notes that in Mr. Mielcke's personal statement, he expressed his commitment to seeing the Natural Energy Laboratory of Hawai'i Authority realize its full potential and he expressed a willingness to help make that happen.

As affirmed by the records of votes of the members of your Committee on Transportation and Energy that are attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominees, has found the nominees to be qualified for the positions to which nominated and recommends that the Senate advise and consent to the nominations.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (English, Harimoto).

SCRep. 3351 Ways and Means on S.C.R. No. 2

The purpose and intent of this measure is to authorize the issuance of an easement for state submerged lands at Waianae, Oahu.

Your Committee received written comments in support of this measure from the Department of Land and Natural Resources and nine individuals.

Your Committee received written comments in opposition to this measure from Ho'omanapono Political Action Committee.

Your Committee finds that section 171-53, Hawaii Revised Statutes, requires the Board of Land and Natural Resources to obtain authorization from the Legislature to lease state submerged lands. The Board has identified a seawall, steps, and landscaped area at Tax Map Key: (1) 8-7-023: seaward of 044, Waianae, Oahu, as encroaching upon state submerged lands. Your Committee also finds that the Board has approved a grant of a fifty-five-year non-exclusive easement to resolve the encroachment. Your Committee further finds that this measure expresses the requisite legislative approval for an easement to be granted for the seawall, steps, and landscaped area and for the use, repair, and maintenance of the existing improvements constructed thereon.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 2, S.D. 1, and recommends its adoption.

Signed by the Chair on behalf of the Committee.

Ayes, 9. Noes, none. Excused, 2 (Keith-Agaran, Shimabukuro).

SCRep. 3352 Ways and Means on S.C.R. No. 14

The purpose and intent of this measure is to grant legislative approval to sell the leased fee interest in 2949 Ala Ilima Street, No. 204, Honolulu, Hawaii.

Your Committee received written comments in support of this measure from the Department of Business, Economic Development, and Tourism and Hawaii Housing Finance and Development Corporation.

Your Committee received written comments in opposition to this measure from Ho'omanapono Political Action Committee.

Your Committee received written comments on this measure from the Office of Hawaiian Affairs.

Your Committee finds that the sale of the leased fee interest in 2949 Ala Ilima Street, No. 204, Honolulu, Hawaii, is subject to section 171-64.7, Hawaii Revised Statutes, which requires the prior approval of the Legislature by concurrent resolution to sell or gift certain state lands in fee simple, and that the Hawaii Housing Finance and Development Corporation has met all statutory prerequisites to request approval of the sale of that property.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 14, S.D. 1, and recommends its adoption.

Signed by the Chair on behalf of the Committee.
Ayes, 9. Noes, none. Excused, 2 (Keith-Agaran, Shimabukuro).

SCRep. 3353 Ways and Means on S.C.R. No. 15

The purpose and intent of this measure is to grant legislative approval to sell the leased fee interest in 41-1373 Haunaukoi Street, Waimanalo, Hawaii.

Your Committee received written comments in support of this measure from the Department of Business, Economic Development, and Tourism; Hawaii Housing Finance and Development Corporation; and one individual.

Your Committee received written comments on this measure from the Office of Hawaiian Affairs.

Your Committee finds that the sale of the leased fee interest in 41-1373 Haunaukoi Street, Waimanalo, Hawaii, is subject to section 171-64.7, Hawaii Revised Statutes, which requires the prior approval of the Legislature by concurrent resolution to sell or gift certain state lands in fee simple, and that the Hawaii Housing Finance and Development Corporation has met all statutory prerequisites to request approval of the sale of that property.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 15, S.D. 1, and recommends its adoption.

Signed by the Chair on behalf of the Committee.
Ayes, 9. Noes, none. Excused, 2 (Keith-Agaran, Shimabukuro).

SCRep. 3354 Ways and Means on S.C.R. No. 18

The purpose and intent of this measure is to authorize the issuance of an easement for state submerged lands at Waikiki, Honolulu, Oahu.

Your Committee received written comments in support of this measure from the Department of Land and Natural Resources.

Your Committee finds that section 171-53, Hawaii Revised Statutes, requires the Board of Land and Natural Resources to obtain authorization from the Legislature to engage in disposition of state submerged lands. The Board has identified a pier and portions of a seawall fronting the property identified as Tax Map Key: (1) 3-6-001: seaward of 036, Waikiki, Honolulu, Oahu, as encroaching upon state submerged lands. Your Committee also finds that the Board has approved a grant of a fifty-five-year non-exclusive easement to resolve the encroachment. Your Committee further finds that this measure expresses the necessary legislative approval for an easement to be granted for the pier and existing seawall and for the use, repair, and maintenance of the existing improvements constructed thereon.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 18, S.D. 1, and recommends its adoption.

Signed by the Chair on behalf of the Committee.
Ayes, 9. Noes, none. Excused, 2 (Keith-Agaran, Shimabukuro).

SCRep. 3355 Ways and Means on S.C.R. No. 19

The purpose and intent of this measure is to grant legislative approval to amend an easement for a portion of state submerged lands at Kahala, Honolulu, Oahu.

Your Committee received written comments in support of this measure from the Department of Land and Natural Resources.

Your Committee finds that section 171-53, Hawaii Revised Statutes, requires the Board of Land and Natural Resources to obtain authorization from the Legislature to dispose of state submerged lands. The Board has determined the shoreline boundary of a previously issued easement on the property identified as Tax Map Key: (1) 3-5-001: seaward of 004, to be further mauka, which has resulted in an additional encroachment area of one hundred ninety-one square feet. Your Committee further finds that this measure expresses the requisite legislative approval so that the existing easement may be amended to include this additional encroachment.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 19, S.D. 1, and recommends its adoption.

Signed by the Chair on behalf of the Committee.
Ayes, 9. Noes, none. Excused, 2 (Keith-Agaran, Shimabukuro).

SCRep. 3356 (Joint) Public Safety, Intergovernmental, and Military Affairs and Transportation and Energy on S.C.R. No. 191

The purpose and intent of this measure is to urge all counties of Hawaii to create a special license plate decal, similar to the City and County of Honolulu's "Hawaii Says NO MORE Week" decal, to raise funds to end domestic violence and sexual abuse.

Your Committees received testimony in support of this measure from the Hawaii Youth Services Network and O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i.

Your Committees find that roughly one in seven women in Hawaii are sexually assaulted, one in three teens are either sexually or physically assaulted, and one in two women and one in five men have experienced some form of sexual victimization in their lives. Your Committees further find that the NO MORE campaign is a national movement to end domestic violence and sexual abuse in the United States, and Hawaii Says NO MORE is a Hawaii-specific movement to achieve the same goals.

Your Committees find the Hawaii Says NO MORE campaign admirable, as it raises awareness and encourages discussions about addressing domestic violence and sexual abuse. The special license plate decals will act as a visible representation of support for victims of abuse, and a portion of the proceeds will help shelter victims of abuse.

As affirmed by the records of votes of the members of your Committees on Public Safety, Intergovernmental, and Military Affairs and Transportation and Energy that are attached to this report, your Committees concur with the intent and purpose of S.C.R. No. 191 and recommend its adoption.

Signed by the Chairs on behalf of the Committees.

Public Safety, Intergovernmental, and Military Affairs: Ayes, 5. Noes, none. Excused, none.

Transportation and Energy: Ayes, 3. Noes, none. Excused, 2 (English, Harimoto).

SCRep. 3357 (Joint) Public Safety, Intergovernmental, and Military Affairs and Transportation and Energy on S.R. No. 130

The purpose and intent of this measure is to urge all counties of Hawaii to create a special license plate decal, similar to the City and County of Honolulu's "Hawaii Says NO MORE Week" decal, to raise funds to end domestic violence and sexual abuse.

Your Committees received testimony in support of this measure from the Hawaii Youth Services Network and O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i.

Your Committees find that roughly one in seven women in Hawaii are sexually assaulted, one in three teens are either sexually or physically assaulted, and one in two women and one in five men have experienced some form of sexual victimization in their lives. Your Committees further find that the NO MORE campaign is a national movement to end domestic violence and sexual abuse in the United States, and Hawaii Says NO MORE is a Hawaii-specific movement to achieve the same goals.

Your Committees find the Hawaii Says NO MORE campaign admirable, as it raises awareness and encourages discussions about addressing domestic violence and sexual abuse. The special license plate decals will act as a visible representation of support for victims of abuse, and a portion of the proceeds will help shelter victims of abuse.

As affirmed by the records of votes of the members of your Committees on Public Safety, Intergovernmental, and Military Affairs and Transportation and Energy that are attached to this report, your Committees concur with the intent and purpose of S.R. No. 130 and recommend its adoption.

Signed by the Chairs on behalf of the Committees.

Public Safety, Intergovernmental, and Military Affairs: Ayes, 5. Noes, none. Excused, none.

Transportation and Energy: Ayes, 3. Noes, none. Excused, 2 (English, Harimoto).

SCRep. 3358 (Joint) Transportation and Energy and Public Safety, Intergovernmental, and Military Affairs and Agriculture and Environment on S.C.R. No. 124

The purpose and intent of this measure is to request the Department of Transportation and City and County of Honolulu to protect Hawaiian monk seals at Hauula Beach Park by implementing safeguards.

Your Committees received testimony in support of this measure from the Department of Transportation, O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, and one individual. Your Committees received testimony in opposition to this measure from one individual. Your Committees received comments on this measure from the Department of Land and Natural Resources.

Your Committees find that Hawaiian monk seals are an endangered species found only in the Hawaiian Islands, and are protected by the Endangered Species Act, Marine Mammal Protection Act, and state law in Hawaii. Your Committees further find that Hawaiian monk seals often visit Hauula Beach Park. Human visitors to Hauula Beach Park who do not know the laws protecting the seals frequently come too close to the seals to take pictures of or with the seals, creating a risk of injury to the seals and the person. Another major danger to the seals is their tendency to sleep under parked vehicles in the area. In order to keep seal and human visitors to Hauula Beach Park safe, clear safeguards protecting Hawaiian monk seals at the park are necessary.

Your Committees received testimony from the Department of Land and Natural Resources noting that the National Oceanic and Atmospheric Administration is the lead agency and enforcement authority with regard to laws protecting Hawaiian monk seals. The testimony from the Department of Land and Natural Resources also noted that it currently works with the National Oceanic and Atmospheric Administration to enforce the laws protecting Hawaiian monk seals.

Accordingly, your Committees have amended this measure by:

- (1) Making the Department of Land and Natural Resources, rather than the Department of Transportation, the lead agency of the request;
- (2) Requesting the Department of Land and Natural Resources to consult with the National Oceanic and Atmospheric Administration, Department of Transportation, and City and County of Honolulu to implement safeguards;
- (3) Amending the title of this measure in accordance with its amended purpose; and

(4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Transportation and Energy, Public Safety, Intergovernmental, and Military Affairs, and Agriculture and Environment that are attached to this report, your Committees concur with the intent and purpose of S.C.R. No. 124, as amended herein, and recommend its adoption in the form attached hereto as S.C.R. No. 124, S.D. 1.

Signed by the Chairs on behalf of the Committees.

Transportation and Energy: Ayes, 3. Noes, none. Excused, 2 (English, Harimoto).

Public Safety, Intergovernmental, and Military Affairs: Ayes, 4. Noes, none. Excused, 1 (Thielen).

Agriculture and Environment: Ayes, 5. Noes, none. Excused, none.

SCRep. 3359 (Joint) Transportation and Energy and Public Safety, Intergovernmental, and Military Affairs on S.C.R. No. 176

The purpose and intent of this measure is to ensure the safety of pedestrians on Haleakala Highway between Upper Kimo Drive and Ainakula Road by urging the Department of Transportation to assess the dangers of pedestrian use of the shoulder and examine the effectiveness of potential pedestrian safety measures.

Your Committees received testimony in support of this measure from the Department of Transportation, O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, and three individuals.

Your Committees find that pedestrian and motor vehicle traffic along certain parts of Haleakala Highway in Kula have increased due to the increasing popularity of various shops and restaurants in the Kula area. However, there are no sidewalks for this stretch of highway, and the shoulder is only six inches wide. The lack of sufficient walking space for pedestrians, along with drivers regularly exceeding the posted speed limit of thirty miles per hour, means there are significant safety risks for pedestrians. This measure seeks to assess these risks and provide safety measures for pedestrians.

As affirmed by the records of votes of the members of your Committees on Transportation and Energy and Public Safety, Intergovernmental, and Military Affairs that are attached to this report, your Committees concur with the intent and purpose of S.C.R. No. 176 and recommend its adoption.

Signed by the Chairs on behalf of the Committees.

Transportation and Energy: Ayes, 3. Noes, none. Excused, 2 (English, Harimoto).

Public Safety, Intergovernmental, and Military Affairs: Ayes, 5. Noes, none. Excused, none.

SCRep. 3360 (Joint) Transportation and Energy and Public Safety, Intergovernmental, and Military Affairs on S.R. No. 105

The purpose and intent of this measure is to ensure the safety of pedestrians on Haleakala Highway between Upper Kimo Drive and Ainakula Road by urging the Department of Transportation to assess the dangers of pedestrian use of the shoulder and examine the effectiveness of potential pedestrian safety measures.

Your Committees received testimony in support of this measure from the Department of Transportation, O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, and three individuals.

Your Committees find that pedestrian and motor vehicle traffic along certain parts of Haleakala Highway in Kula have increased due to the increasing popularity of various shops and restaurants in the Kula area. However, there are no sidewalks for this stretch of highway, and the shoulder is only six inches wide. The lack of sufficient walking space for pedestrians, along with drivers regularly exceeding the posted speed limit of thirty miles per hour, means there are significant safety risks for pedestrians. This measure seeks to assess these risks and provide safety measures for pedestrians.

As affirmed by the records of votes of the members of your Committees on Transportation and Energy and Public Safety, Intergovernmental, and Military Affairs that are attached to this report, your Committees concur with the intent and purpose of S.R. No. 105 and recommend its adoption.

Signed by the Chairs on behalf of the Committees.

Transportation and Energy: Ayes, 3. Noes, none. Excused, 2 (English, Harimoto).

Public Safety, Intergovernmental, and Military Affairs: Ayes, 5. Noes, none. Excused, none.

SCRep. 3361 (Joint) Transportation and Energy and Public Safety, Intergovernmental, and Military Affairs on S.C.R. No. 185

The purpose and intent of this measure is to reduce motor vehicle fatalities and injuries in the State through statewide support of traffic safety legislation.

Your Committees received testimony in support of this measure from the Department of Transportation and O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i.

Your Committees find that there are approximately one hundred motor vehicle fatalities in Hawaii each year, and even one motor vehicle fatality is one too many. Your Committees also find that traffic safety legislation, enforcement, and education are important factors in reducing the number of motor vehicle fatalities. Your Committees note that the Legislature continues to propose and enact traffic safety measures that increase public safety, but it often takes cooperation and support of multiple departments and agencies to maximize the efficacy of these laws.

Your Committees have amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Transportation and Energy and Public Safety, Intergovernmental, and Military Affairs that are attached to this report, your Committees concur with the intent and purpose of S.C.R. No. 185, as amended herein, and recommend its adoption in the form attached hereto as S.C.R. No. 185, S.D. 1.

Signed by the Chairs on behalf of the Committees.

Transportation and Energy: Ayes, 3. Noes, none. Excused, 2 (English, Harimoto).

Public Safety, Intergovernmental, and Military Affairs: Ayes, 5. Noes, none. Excused, none.

SCRep. 3362 (Joint) Transportation and Energy and Public Safety, Intergovernmental, and Military Affairs on S.R. No. 129

The purpose and intent of this measure is to reduce motor vehicle fatalities and injuries in the State through statewide support of traffic safety legislation.

Your Committees received testimony in support of this measure from the Department of Transportation and O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i.

Your Committees find that there are approximately one hundred motor vehicle fatalities in Hawaii each year, and even one motor vehicle fatality is one too many. Your Committees also find that traffic safety legislation, enforcement, and education are important factors in reducing the number of motor vehicle fatalities. Your Committees note that the Legislature continues to propose and enact traffic safety measures that increase public safety, but it often takes cooperation and support of multiple departments and agencies to maximize the efficacy of these laws.

Your Committees have amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Transportation and Energy and Public Safety, Intergovernmental, and Military Affairs that are attached to this report, your Committees concur with the intent and purpose of S.R. No. 129, as amended herein, and recommend its adoption in the form attached hereto as S.R. No. 129, S.D. 1.

Signed by the Chairs on behalf of the Committees.

Transportation and Energy: Ayes, 3. Noes, none. Excused, 2 (English, Harimoto).

Public Safety, Intergovernmental, and Military Affairs: Ayes, 5. Noes, none. Excused, none.

SCRep. 3363 Ways and Means on S.C.R. No. 21

The purpose and intent of this measure is to endorse and adopt the United Nations' seventeen development goals.

More specifically, this measure:

- (1) Engages, endorses, accepts, and adopts the United Nations' seventeen sustainable development goals at the state level; and
- (2) Urges the county councils to endorse and use the sustainable development goals.

Your Committee received written comments in support of this measure from the Oahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, Sierra Club of Hawaii, and Planned Parenthood Votes Northwest and Hawaii.

Your Committee believes that adopting the United Nations' seventeen sustainable development goals will help the State to improve sustainability. Your Committee further believes that the individual counties would also benefit from endorsing these sustainable development goals.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 21 and recommends its adoption.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, none. Excused, 3 (Harimoto, Kahele, Kidani).

SCRep. 3364 Ways and Means on S.R. No. 11

The purpose and intent of this measure is to endorse and adopt the United Nations' seventeen development goals.

More specifically, this measure:

- (1) Engages, endorses, accepts, and adopts the United Nations' seventeen sustainable development goals at the state level; and
- (2) Urges the county councils to endorse and use the sustainable development goals.

Your Committee received written comments in support of this measure from the Oahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i and Planned Parenthood Votes Northwest and Hawaii.

Your Committee believes that adopting the United Nations' seventeen sustainable development goals will help the State to improve sustainability. Your Committee further believes that the individual counties would also benefit from endorsing these sustainable development goals.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 11 and recommends its adoption.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, none. Excused, 3 (Harimoto, Kahele, Kidani).

SCRep. 3365 Ways and Means on S.R. No. 19

The purpose and intent of this measure is to urge the County of Hawaii to prioritize wastewater infrastructure improvements through a comprehensive study for economic development, infrastructure, sustainability, education, and public policy.

Your Committee received written comments in support of this measure from Sierra Club of Hawaii, Oahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, and two concerned individuals.

Your Committee finds that the County of Hawaii could benefit from an updated and modernized wastewater management system, and that the County should first conduct a feasibility study of any significant modifications.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 19 and recommends its adoption.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, none. Excused, 3 (Harimoto, Kahele, Kidani).

SCRep. 3366 Ways and Means on Gov. Msg. No. 540

Recommending that the Senate advise and consent to the nomination of the following:

BOARD OF TAXATION REVIEW, 1ST TAXATION DISTRICT (O'AHU)

G.M. No. 540 FRANCIS IMADA, for a term to expire 06-30-2019

Your Committee reviewed the personal statement and resume submitted by Francis Imada for service on the Board of Taxation Review for the 1st Taxation District (O'ahu).

Your Committee received testimony in support of the nomination from the Department of Taxation.

Upon review of the testimony and the nominee's qualifications, your Committee finds that the nominee's knowledge of business, accounting, and taxation qualify him to serve on the Board of Taxation Review for the 1st Taxation District. Your Committee notes that the nominee received a Bachelor of Business Administration in Accounting degree with distinction from the University of Hawaii College of Business Administration and has more than forty years of accounting and finance experience. Mr. Imada's professional experience includes more than twenty years as the Chief Financial Officer of Clinical Laboratories of Hawaii, LLP; seven years as a Partner of Deloitte & Touche LLP; and ten years as a Senior Tax Manager of Ernst & Young LLP.

Your Committee finds that Francis Imada's extensive business experience in accounting and taxation will benefit the Board of Taxation Review as it resolves complex tax matters and administers Hawaii's taxation laws and procedures.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, 4 (Harimoto, Kahele, Kidani, Wakai).

SCRep. 3367 Ways and Means on Gov. Msg. No. 590

Recommending that the Senate advise and consent to the nomination of the following:

DEPUTY DIRECTOR OF THE DEPARTMENT OF BUDGET AND FINANCE

G.M. No. 590 KEN KITAMURA, for a term to expire at noon on 12-03-2018

Your Committee reviewed the personal statement and resume submitted by Ken Kitamura for service as the Deputy Director of Finance.

Your Committee received testimony in support of the nomination from the Office of the Governor; Director of Finance and two employees of the Department of Budget and Finance; Department of Taxation; Department of Accounting and General Services; Department of Land and Natural Resources; Department of Business, Economic Development, and Tourism; Department of Agriculture; Department of Public Safety; Department of Transportation; Department of Human Services; and Employees' Retirement System.

Upon review of the testimony and the nominee's qualifications, your Committee finds that the nominee has served as the Business Management Officer of the Department of Human Services, Fiscal Management Office since January 2014. Your Committee notes that the nominee previously served as an Administrative Services Officer, a Business Manager, and a Program Budget Analyst of the Department of Business, Economic Development, and Tourism; a Business Services Officer of the Office of the Lieutenant Governor; a Legislative Aide in the Office of a Honolulu Councilmember; a Special Projects Manager and Budget Supervisor of the Senate Ways and Means Committee; an Associate Auditor of the Office of the Legislative Auditor; and an Analyst of the Senate President's Office. Your Committee also notes that the nominee earned a Bachelor of Arts degree in government from Chaminade University of Honolulu and a Master's in Public Administration degree from the University of Hawaii at Manoa.

Your Committee finds that Ken Kitamura's education and extensive record in public service qualify him to serve as the Deputy Director of Finance.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee.
Ayes, 7. Noes, none. Excused, 4 (Harimoto, Kahele, Kidani, Wakai).

SCRep. 3368 Judiciary on Gov. Msg. No. 616

Recommending that the Senate consent to the appointment of the following:

CHIEF JUDGE OF THE INTERMEDIATE APPELLATE COURT

G.M. No. 616 LISA M. GINOZA, for a term to expire in 10 years

Your Committee reviewed the personal history, resume, and statement submitted by Judge Lisa M. Ginoza for service on the Intermediate Court of Appeals as Chief Judge.

Your Committee received testimony in support of the appointment of Judge Lisa M. Ginoza from Hawaii Women Lawyers, the Honorable Craig H. Nakamura, the Honorable Daniel Foley-retired, and eighteen individuals. Your Committee received testimony in opposition to the appointment of Judge Lisa M. Ginoza from one individual. Your Committee received comments on the appointment of Judge Lisa M. Ginoza from the Board of Directors of the Hawaii State Bar Association.

The Hawaii State Bar Association Board of Directors found the appointee to be qualified for the position of Chief Judge of the Intermediate Court of Appeals based on established criteria for determining the qualifications of judicial and executive appointments generally using the American Bar Association Guidelines for Reviewing Qualifications of Candidates for State Judicial Office. Specifically, the Board uses the following criteria in its deliberations: integrity and diligence, legal knowledge and ability, professional experience, judicial temperament, financial responsibility, public service, health, and ability to perform the responsibilities and duties required of the position for which the applicant has been nominated. The Board's rating system includes the categories of "qualified" and "not qualified".

Judge Lisa M. Ginoza received her Bachelor of Science degree, with highest distinction, in political science from Oregon State University, and her Doctorate of Jurisprudence from the William S. Richardson School of Law, where she was casenote editor and casenote co-author for the University of Hawai'i Law Review. She currently serves as an Associate Judge of the Intermediate Court of Appeals, where she has presided as lead judge in three hundred ninety merit decisions, authored twenty-seven published opinions and thirty-four separate concurring or dissenting opinions. In total, she has taken part in 1,178 merit decisions covering broad and varying areas of substantive law.

Prior to her appointment to the Intermediate Court of Appeals, Judge Ginoza served as First Deputy Attorney General of the State of Hawai'i, where she assisted the Attorney General in leading a department with over one hundred seventy attorneys. At the Department of the Attorney General, she had detailed involvement in a wide variety of matters, including litigation involving the State or its officials, advice and counsel to public officers, review of proposed legislation, asset forfeiture cases, investigation of administrative and criminal matters, administrative issues involving the Department, and coordinating efforts in numerous areas between federal, state, and county governments. Judge Ginoza also previously served as a partner with McCarriston Miller Mukai Mackinnon, where her private litigation practice included insurance cases, personal injury litigation, commercial and contract disputes, employment and discrimination lawsuits, and products liability cases at all court levels, including the Hawai'i Supreme Court, Ninth Circuit Court of Appeals, and Supreme Court of the United States.

Judge Ginoza has been active in the legal community throughout her career, including as a member of the Commission on Professionalism, co-chair of the Judicial Administration Committee of the American Judicature Society, and judge in the annual High School Mock Trial competition put on by the Young Lawyers Division of the Hawaii State Bar Association. She also regularly volunteers to speak with students visiting the Judicial History Center and also visits schools and other locations to speak with students.

Testimony submitted in support of Judge Ginoza's appointment commend the strength of her reasoning and the clarity of her decisions. As an Associate Judge of the Intermediate Court of Appeals, her written decisions are thoroughly researched, well-reasoned, and logically presented. Numerous testifiers praised her leadership abilities, strong work ethic, integrity, and commitment to fair and sound decision-making. In addition to her judicial qualifications, Judge Ginoza has also demonstrated strong administrative skill in her role as First Deputy Attorney General.

Your Committee finds that, based on the testimony submitted on her behalf, Judge Lisa M. Ginoza has the experience, temperament, judiciousness, and other competencies to be the Chief Judge of the Intermediate Appellate Court, and has the broad legal expertise, superb character, outstanding judicial temperament, and unwavering commitment to justice that are essential for a Chief Judge.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the appointee, has found the appointee to be qualified for the position to which appointed and recommends that the Senate consent to the appointment.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Thielen).

SCRep. 3369 Judiciary on Gov. Msg. No. 617

Recommending that the Senate consent to the appointment of the following:

FIRST CIRCUIT COURT JUDGE

G.M. No. 617 JAMES H. ASHFORD, for a term to expire in 10 years

Your Committee reviewed the personal history, resume, and statement submitted by Judge James H. Ashford for service on the Circuit Court of the First Circuit.

Your Committee received testimony in support of the appointment of Judge James H. Ashford from nine individuals. Your Committee received comments on the appointment of Judge James H. Ashford from the Board of Directors of the Hawaii State Bar Association.

The Hawaii State Bar Association Board of Directors found the appointee to be qualified for the position of First Circuit Court Judge based on established criteria for determining the qualifications of judicial and executive appointments generally using the American Bar Association Guidelines for Reviewing Qualifications of Candidates for State Judicial Office. Specifically, the Board uses the following criteria in its deliberations: integrity and diligence, legal knowledge and ability, professional experience, judicial temperament, financial responsibility, public service, health, and ability to perform the responsibilities and duties required of the position for which the applicant has been nominated. The Board's rating system includes the categories of "qualified" and "not qualified".

Judge James H. Ashford received his Bachelor of Arts degree from Claremont McKenna College, and his Doctorate of Jurisprudence from Loyola Law School, where he was on the Dean's List in his first two years. He currently serves as a District Judge of the First Circuit, where he presides primarily over criminal cases brought in the District Court. He has also presided over civil and felony criminal trials while on temporary assignment to the Circuit Court.

Prior to his appointment to the District Court of the First Circuit, Judge Ashford served as a litigation partner with Cades Schutte, LLP, where he represented a broad variety of clients in civil litigation, including contract, tort, employment, and trust and estate cases. Additionally, he represented several private secondary and post-secondary schools on issues concerning employee termination, accommodations, tenure, discipline, expulsion, and tuition. In his private litigation practice, Judge Ashford represented clients in proceedings at every level of the Hawai'i state court system, including the Intermediate Court of Appeals and the Hawai'i Supreme Court.

Judge Ashford has also been involved in the legal community, having served as a judge for Loyola Law School's annual moot court competition between eight and ten times over an approximately twelve-year period and has served as a Court Annexed Arbitration Program arbitrator several times. He is also currently president of the Hawaii State Trial Judges Association. In private practice, he was a member of his firm's Attorney Training and Development Committee for approximately twenty years, which included formally and informally mentoring and training associates, as well as attending annual attorney performance evaluations.

Testimony submitted in support of Judge Ashford's appointment draws attention to his thoughtful, high quality legal analysis; deep knowledge of Hawai'i law and court procedures; dedication to training young lawyers and helping to improve the State's legal system; and commitment to ensuring that he and others comply with ethical standards governing lawyers and judges. He is consistently patient and thoughtful in the cases over which he presides, and takes time to listen to litigants and render fair decisions. Several testifiers noted his great personal integrity, unwavering professionalism, and dedication to the fair and even-handed application of justice.

Your Committee finds that, based on the testimony submitted on his behalf, Judge James H. Ashford has the experience, temperament, judiciousness, and other competencies to be a First Circuit Court Judge, and has the strong personal integrity, superb judicial temperament, and legal acumen that are essential for a First Circuit Court Judge.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the appointee, has found the appointee to be qualified for the position to which appointed and recommends that the Senate consent to the appointment.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Thielen).

SCRep. 3370 Judiciary on Jud. Com. No. 3

Recommending that the Senate consent to the appointment of the following:

DISTRICT COURT OF THE FIRST CIRCUIT

J.C. No. 3 KEVIN T. MORIKONE, for a term to expire in 6 years

Your Committee reviewed the personal history, resume, and statement submitted by Kevin T. Morikone for service on the District Court of the First Circuit.

Your Committee received testimony in support of the appointment of Kevin T. Morikone from the Oahu Interscholastic Association and thirty-six individuals. Your Committee received comments on the appointment of Kevin T. Morikone from the Board of Directors of the Hawaii State Bar Association.

The Hawaii State Bar Association Board of Directors found the appointee to be qualified for the position of District Court Judge of the First Circuit based on established criteria for determining the qualifications of judicial and executive appointments generally using the American Bar Association Guidelines for Reviewing Qualifications of Candidates for State Judicial Office. Specifically, the Board uses the following criteria in its deliberations: integrity and diligence, legal knowledge and ability, professional experience, judicial temperament, financial responsibility, public service, health, and ability to perform the responsibilities and duties required of the position for which the applicant has been nominated. The Board's rating system includes the categories of "qualified" and "not qualified".

Kevin T. Morikone received his Bachelor of Arts degree in Political Science with a certificate in Ethnic Studies from the University of Hawai'i at Manoa, and his Doctorate of Jurisprudence from the William S. Richardson School of Law, where he graduated cum laude. Since October 2015, he has served as a per diem District Family Judge in the Family Court of the First Circuit while continuing his private practice at Hosoda and Morikone, LLC.

Mr. Morikone has been a partner at Hosoda and Morikone, LLC, since 2011, and has represented plaintiffs and defendants in commercial litigation, construction defect cases, real property disputes, foreclosures, landlord-tenant disputes, personal injury cases,

wrongful death cases, products liability cases, misdemeanor criminal proceedings, and collections. As a per diem District Family Judge in the Family Court of the First Circuit, Mr. Morikone has presided over temporary restraining order proceedings, adoptions, guardianship proceedings, paternity proceedings, uncontested and contested divorces, and cases involving detention homes. He has also served as an arbitrator in the Court Annexed Arbitration Program, arbitrating a slip and fall case in which he issued a decision which the parties accepted.

Mr. Morikone has been actively involved in the legal community throughout his career, including as a volunteer for Appellate Advocacy and Trial Practice courses and as pro bono legal counsel for the Oahu Interscholastic Association. In addition, he has served as the Foreclosure Commissioner since 2013, and participated in Lawyers League Softball since 2003.

Testimony submitted in support of Mr. Morikone's appointment commend his strong work ethic, keen legal knowledge, and high degree of professionalism when dealing with opposing counsel, judges, officers of the court, and clients. He has repeatedly demonstrated the ability in complex, multi-party commercial disputes, to approach contentious issues in a mature and constructive manner. Numerous testifiers also praised Mr. Morikone's integrity, diligence, and compassion.

Your Committee finds that, based on the testimony submitted on his behalf, Kevin T. Morikone has the experience, temperament, judiciousness, and other competencies to be a District Court Judge of the First Circuit, and that he has the intellect, experience, and demeanor to fully and faithfully discharge all the duties associated with the judicial office of District Court Judge.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the appointee, has found the appointee to be qualified for the position to which appointed and recommends that the Senate consent to the appointment.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Thielen).

SCRep. 3371 Judiciary on H.B. No. 2247

The purpose and intent of this measure is to clarify that campaign advertisements broadcast, televised, circulated, published, distributed, or otherwise communicated by digital means, or through the Internet or online social media, are subject to campaign finance disclosure requirements.

Your Committee received comments on this measure from the Campaign Spending Commission and Internet Coalition.

Your Committee finds that as electronic communication and the Internet have become more integral to the daily lives of Hawaii's residents, they have been increasingly used by campaign committees, interest groups, and other entities to communicate to voters and influence elections. These communications using digital means or the Internet are not subject to the same legal standard of transparency as traditional forms of campaigning that is used to ensure fair elections. This measure will extend existing financial disclosure requirements to advertisements that are distributed electronically or through the Internet.

Your Committee has amended this measure by:

- (1) Removing redundant references to the Internet and social media;
- (2) Allowing a hyperlink to a webpage containing the information required to be disclosed for advertisements distributed through electronic or digital means if including the information within the advertisement is impracticable;
- (3) Making conforming amendments to other sections of chapter 11, Hawaii Revised Statutes;
- (4) Inserting an effective date of July 1, 2035, to encourage further discussion; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2247, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2247, H.D. 1, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Gabbard).

SCRep. 3372 (Joint) Public Safety, Intergovernmental, and Military Affairs and Commerce, Consumer Protection, and Health on S.C.R. No. 108

The purpose and intent of this measure is to urge the Federal Communications Commission, Federal Emergency Management Agency, and National Weather Service to make necessary updates to ensure that textual and audible information from the Emergency Alert System are matched and synchronized during television broadcasts.

Your Committees received testimony in support of this measure from the Disability and Communication Access Board, O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, Aloha State Association of the Deaf, and four individuals.

Your Committees find that this measure will improve access to the Emergency Alert System for and reduce confusion among persons who are blind, deaf, or hard of hearing by requesting the Federal Communications Commission, Federal Emergency Management Agency, and National Weather Service to match and synchronize textual and audible information for the Emergency Alert System.

However, your Committees have heard the concerns of the Disability and Communication Access Board that the Hawaii Emergency Management Agency may be well-positioned to assist federal agencies to update the Emergency Alert System on local television

stations, and that additional information on the purpose of information matching and synchronization may be needed, including the need to ensure persons with cognitive disabilities also receive accurate information about disasters.

Accordingly, your Committees have amended this measure by:

- (1) Clarifying that the Hawaii Emergency Management Agency is able to and is requested to work with the various federal agencies to ensure information matching and synchronization;
- (2) Clarifying the purpose of information matching and synchronization in emergency alert broadcasts and including references to people with cognitive disabilities to ensure that they also receive accurate information about disasters;
- (3) Amending its title in accordance with its amended purpose; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Public Safety, Intergovernmental, and Military Affairs and Commerce, Consumer Protection, and Health that are attached to this report, your Committees concur with the intent and purpose of S.C.R. No. 108, as amended herein, and recommend its adoption in the form attached hereto as S.C.R. No. 108, S.D. 1.

Signed by the Chairs on behalf of the Committees.

Public Safety, Intergovernmental, and Military Affairs: Ayes, 3. Noes, none. Excused, 2 (Ihara, Thielen).

Commerce, Consumer Protection, and Health: Ayes, 4. Noes, none. Excused, 3 (Chang, Ihara, Tokuda).

SCRep. 3373 (Joint) Public Safety, Intergovernmental, and Military Affairs and Commerce, Consumer Protection, and Health on S.R. No. 67

The purpose and intent of this measure is to urge the Federal Communications Commission, Federal Emergency Management Agency, and National Weather Service to make necessary updates to ensure that textual and audible information from the Emergency Alert System are matched and synchronized during television broadcasts.

Your Committees received testimony in support of this measure from the Disability and Communication Access Board, O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, Aloha State Association of the Deaf, Ho'omana Pono, LLC, and three individuals.

Your Committees find that this measure will improve access to the Emergency Alert System for and reduce confusion among persons who are blind, deaf, or hard of hearing by requesting the Federal Communications Commission, Federal Emergency Management Agency, and National Weather Service to match and synchronize textual and audible information for the Emergency Alert System.

However, your Committees have heard the concerns of the Disability and Communication Access Board that the Hawaii Emergency Management Agency may be well-positioned to assist federal agencies to update the Emergency Alert System on local television stations, and that additional information on the purpose of information matching and synchronization may be needed, including the need to ensure persons with cognitive disabilities also receive accurate information about disasters.

Accordingly, your Committees have amended this measure by:

- (1) Clarifying that the Hawaii Emergency Management Agency is able to and is requested to work with the various federal agencies to ensure information matching and synchronization;
- (2) Clarifying the purpose of information matching and synchronization in emergency alert broadcasts and including references to people with cognitive disabilities to ensure that they also receive accurate information about disasters;
- (3) Amending its title in accordance with its amended purpose; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Public Safety, Intergovernmental, and Military Affairs and Commerce, Consumer Protection, and Health that are attached to this report, your Committees concur with the intent and purpose of S.R. No. 67, as amended herein, and recommend its adoption in the form attached hereto as S.R. No. 67, S.D. 1.

Signed by the Chairs on behalf of the Committees.

Public Safety, Intergovernmental, and Military Affairs: Ayes, 3. Noes, none. Excused, 2 (Ihara, Thielen).

Commerce, Consumer Protection, and Health: Ayes, 4. Noes, none. Excused, 3 (Chang, Ihara, Tokuda).

SCRep. 3374 (Joint) Agriculture and Environment and Labor on S.C.R. No. 145

The purpose and intent of this measure is to request the Department of Agriculture, in collaboration with the Department of Labor and Industrial Relations, to convene an agriculture labor task force.

Your Committees received testimony in support of this measure from the University of Hawaii College of Tropical Agriculture and Human Resources; Hawaii Coffee Association; Hawaii Cattlemen's Council, Inc.; Kau Valley Farms; Heavenly Hawaiian Farms; Hawai'i Farm Bureau; MauiGrown Coffee, Inc.; O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i; and three individuals. Your Committees received testimony in opposition to this measure from the Department of Labor and Industrial Relations. Your Committees received comments on this measure from the Department of Agriculture.

Your Committees find that the agriculture industry is currently in need of harvest labor; specifically, the coffee industry is in need of an expanded labor pool and improved availability of affordable housing for laborers. Your Committees further find that the homeless population and at risk veterans are two demographic groups that could benefit from employment while helping to alleviate the immediate pressure on the coffee industry. Your Committees note that while this measure seeks to target labor shortages in one

subsector of Hawaii's agriculture industry, your Committees support efforts to increase and improve labor in all agricultural sectors across the State.

Your Committees have amended this measure by specifying that the objective of the task force is to look for ways to address the immediate workforce shortage and improve the availability of affordable housing for laborers, in alignment with the goals of the K-12 agriculture workforce development pipeline initiative.

As affirmed by the records of votes of the members of your Committees on Agriculture and Environment and Labor that are attached to this report, your Committees concur with the intent and purpose of S.C.R. No. 145, as amended herein, and recommend its adoption in the form attached hereto as S.C.R. No. 145, S.D. 1.

Signed by the Chairs on behalf of the Committees.

Agriculture and Environment: Ayes, 4. Noes, none. Excused, 1 (Nishihara).

Labor: Ayes, 4. Noes, none. Excused, 1 (English).

SCRep. 3375 (Joint) Higher Education and Public Safety, Intergovernmental, and Military Affairs on S.C.R. No. 182

The purpose and intent of this measure is to request the Board of Regents of the University of Hawai'i to rename the University of Hawai'i Institute for Astronomy to the Paul H.I. Coleman Astronomy Center.

Your Committees received testimony in support of this measure from the O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, Ho'olo Na Pua, and numerous individuals. Your Committees received testimony in opposition to this measure from one individual. Your Committees received comments on this measure from the University of Hawai'i System.

Your Committees find that Paul H.I. Coleman was the first and only Native Hawaiian with a doctorate in astrophysics. Dr. Coleman's doctorate research focused on the sizes of distant galaxies observed at radio wavelengths and the implications of these for cosmological models. In his sixteen years with the Institute for Astronomy, Dr. Coleman played a key role in the Institute's education and public outreach efforts, speaking passionately about astronomy, its importance to Hawai'i, its history in Native Hawaiian voyaging and wayfinding, and how Hawaiians could play a major role in the field. Dr. Coleman was also a tireless advocate for astronomy in Hawai'i, advocating for the University of Hawai'i and Institute for Astronomy to business groups, rotary clubs, and chambers of commerce across the State.

Your Committees further find that Dr. Coleman passed away on January 16, 2018, at the age of sixty-two, leaving behind a legacy in the field of astronomy and the Native Hawaiian community in Hawai'i and throughout the world. He served as a mentor to a new generation of Native Hawaiian scientists and his dedication to the Native Hawaiian community, especially youth interested in science, technology, engineering, and mathematics, was irreplaceable and unparalleled.

Your Committees recognize that the policy of the Board of Regents of the University of Hawai'i requires that five years elapse after an individual's passing before consideration may be made in naming facilities or programs in honor of such individual. However, exceptions to this policy may be made under specified criteria, as was the case in naming the University of Hawai'i at Hilo College of Pharmacy after the late Daniel K. Inouye. Therefore, your Committees find it highly appropriate for the Board of Regents of the University of Hawai'i to recognize Dr. Coleman and his legacy for future generations at the University of Hawai'i in the same timely manner that the Board honored Daniel K. Inouye.

As affirmed by the records of votes of the members of your Committees on Higher Education and Public Safety, Intergovernmental, and Military Affairs that are attached to this report, your Committees concur with the intent and purpose of S.C.R. No. 182 and recommend its adoption.

Signed by the Chairs on behalf of the Committees.

Higher Education: Ayes, 4. Noes, none. Excused, 1 (Kim).

Public Safety, Intergovernmental, and Military Affairs: Ayes, 3. Noes, none. Excused, 2 (Ihara, Thielen).

SCRep. 3376 (Joint) Higher Education and Public Safety, Intergovernmental, and Military Affairs on S.R. No. 108

The purpose and intent of this measure is to request the Board of Regents of the University of Hawai'i to rename the University of Hawai'i Institute for Astronomy to the Paul H.I. Coleman Astronomy Center.

Your Committees received testimony in support of this measure from the Exploratorium, O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, and three individuals. Your Committees received comments on this measure from the University of Hawai'i System.

Your Committees find that Paul H.I. Coleman was the first and only Native Hawaiian with a doctorate in astrophysics. Dr. Coleman's doctorate research focused on the sizes of distant galaxies observed at radio wavelengths and the implications of these for cosmological models. In his sixteen years with the Institute for Astronomy, Dr. Coleman played a key role in the Institute's education and public outreach efforts, speaking passionately about astronomy, its importance to Hawai'i, its history in Native Hawaiian voyaging and wayfinding, and how Hawaiians could play a major role in the field. Dr. Coleman was also a tireless advocate for astronomy in Hawai'i, advocating for the University of Hawai'i and Institute for Astronomy to business groups, rotary clubs, and chambers of commerce across the State.

Your Committees further find that Dr. Coleman passed away on January 16, 2018, at the age of sixty-two, leaving behind a legacy in the field of astronomy and the Native Hawaiian community in Hawai'i and throughout the world. He served as a mentor to a new generation of Native Hawaiian scientists and his dedication to the Native Hawaiian community, especially youth interested in science, technology, engineering, and mathematics, was irreplaceable and unparalleled.

Your Committees recognize that the policy of the Board of Regents of the University of Hawai'i requires that five years elapse after an individual's passing before consideration may be made in naming facilities or programs in honor of such individual. However, exceptions to this policy may be made under specified criteria, as was the case in naming the University of Hawai'i at Hilo College of

Pharmacy after the late Daniel K. Inouye. Therefore, your Committees find it highly appropriate for the Board of Regents of the University of Hawai'i to recognize Dr. Coleman and his legacy for future generations at the University of Hawai'i in the same timely manner that the Board honored Daniel K. Inouye.

As affirmed by the records of votes of the members of your Committees on Higher Education and Public Safety, Intergovernmental, and Military Affairs that are attached to this report, your Committees concur with the intent and purpose of S.R. No. 108 and recommend its adoption.

Signed by the Chairs on behalf of the Committees.

Higher Education: Ayes, 4. Noes, none. Excused, 1 (Kim).

Public Safety, Intergovernmental, and Military Affairs: Ayes, 3. Noes, none. Excused, 2 (Ihara, Thielen).

SCRep. 3377 Education on S.C.R. No. 162

The purpose and intent of this measure is to request the Board of Education to establish a process whereby the public may petition the Board to add items to the agenda of the next meeting.

Your Committee received testimony in support of this measure from the Hawaii State Teachers Association, League of Women Voters of Hawaii, and Native Hawaiian Education Council.

Your Committee finds that the public is permitted to testify at Board of Education meetings, but only for items that already appear on the agenda which has been set by the Board in advance of the meeting. A process whereby the public could petition the Board of Education to add items to the agenda of an upcoming meeting would advance the Board's stated goal of establishing a more open decision-making process and ensure that the public has an opportunity to provide input on the Board's decisions.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 162 and recommends its adoption.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Kahele).

SCRep. 3378 Education on S.R. No. 121

The purpose and intent of this measure is to request the Board of Education to establish a process whereby the public may petition the Board to add items to the agenda of the next meeting.

Your Committee received testimony in support of this measure from the Hawaii State Teachers Association, League of Women Voters of Hawaii, Native Hawaiian Education Council, and two individuals.

Your Committee finds that the public is permitted to testify at Board of Education meetings, but only for items that already appear on the agenda which has been set by the Board in advance of the meeting. A process whereby the public could petition the Board of Education to add items to the agenda of an upcoming meeting would advance the Board's stated goal of establishing a more open decision-making process and ensure that the public has an opportunity to provide input on the Board's decisions.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 121 and recommends its adoption.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Kahele).

SCRep. 3379 Education on S.C.R. No. 194

The purpose and intent of this measure is to urge the Department of Education to ensure that all public school students, including public charter school students, have equal access to appropriate educational facilities and food service.

Your Committee received testimony in support of this measure from the Hawaii State Teachers Association, Native Hawaiian Education Council, Prince Kūhiō Hawaiian Civic Club, Association of Hawaiian Civic Clubs, Kanu o ka Aina Learning Ohana, and three individuals.

Your Committee finds that there are thirty-seven charter schools serving approximately twelve thousand students, all of whom should have equal access to appropriate public school food services, but this is currently not the case. Some charter schools, especially those in rural areas of Hawaii, are denied access to national school lunch program subsidies because there are no United States Department of Agriculture certified kitchens available, other than those in Department of Education public schools. Because the Department of Education denies access to public school food services for charter school students, the State is losing federal school lunch subsidies for qualifying students. Additionally, the lack of appropriate free and reduced food service severely burdens and adversely impacts charter school families. Providing equal access to food services for charter school students ensures that all public school students are provided quality education and school meals.

Your Committee has amended this measure by:

- (1) Deleting language that urges the Department of Education to ensure equal access to educational facilities, including removing the reference to educational facilities in the title;
- (2) Deleting language that urges the Department of Education to provide equitable facility support to charter schools; and
- (3) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 194, as amended herein, and recommends its adoption in the form attached hereto as S.C.R. No. 194, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Kahele).

SCRep. 3380 Education on S.R. No. 131

The purpose and intent of this measure is to urge the Department of Education to ensure that all public school students, including public charter school students, have equal access to appropriate educational facilities and food service.

Your Committee received testimony in support of this measure from the Hawaii State Teachers Association and Prince Kūhiō Hawaiian Civic Club.

Your Committee finds that there are thirty-seven charter schools serving approximately twelve thousand students, all of whom should have equal access to appropriate public school food services, but this is currently not the case. Some charter schools, especially those in rural areas of Hawaii, are denied access to national school lunch program subsidies because there are no United States Department of Agriculture certified kitchens available, other than those in Department of Education public schools. Because the Department of Education denies access to public school food services for charter school students, the State is losing federal school lunch subsidies for qualifying students. Additionally, the lack of appropriate free and reduced food service severely burdens and adversely impacts charter school families. Providing equal access to food services for charter school students ensures that all public school students are provided quality education and school meals.

Your Committee has amended this measure by:

- (1) Deleting language that urges the Department of Education to ensure equal access to educational facilities, including removing the reference to educational facilities in the title;
- (2) Deleting language that urges the Department of Education to provide equitable facility support to charter schools; and
- (3) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 131, as amended herein, and recommends its adoption in the form attached hereto as S.R. No. 131, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Kahele).

SCRep. 3381 Transportation and Energy on Gov. Msg. Nos. 639 and 640

Recommending that the Senate advise and consent to the nominations of the following:

MEDICAL ADVISORY BOARD

G.M. No. 639 JOHN CORBOY, for a term to expire 06-30-2022; and

G.M. No. 640 ALAN STEIN, for a term to expire 06-30-2022

Your Committee reviewed the personal histories, resumes, and statements submitted by John Corboy, MD, and Alan Stein, MD, for service on the Medical Advisory Board.

JOHN CORBOY

Your Committee received testimony in support of the nomination for the reappointment of John Corboy, MD, from the Department of Transportation.

Upon review of the testimony, your Committee finds that Dr. Corboy is a former staff ophthalmologist at Kaiser Permanente Medical Group. He also has experience as a surgeon at the Hawaiian Eye Center, and has served as the Director for the Hawaiian Eye Center, Hawaiian Eye Surgicenter, and Tongan Medical Mission. Currently, Dr. Corboy is the president of Hawaiian Eye Foundation, a non-profit, charitable corporation. Dr. Corboy has served on the Medical Advisory Board since 2015, and his expertise in ophthalmology has greatly benefited the Medical Advisory Board when reviewing and evaluating vision-related cases. Your Committee finds that Dr. Corboy's experience and knowledge qualify him for reappointment to the Medical Advisory Board.

ALAN STEIN

Your Committee received testimony in support of the nomination for the reappointment of Alan Stein, MD, from the Department of Transportation.

Upon review of the testimony, your Committee finds that Dr. Stein has worked at Queens Medical Center since 1999 in various positions, including Director of the Neurophysiology Laboratory, Director of Epilepsy and Neurophysiology, and Director of Neurohospitalist Service. He has served as president and treasurer for the Epilepsy Foundation of Hawaii and Hawaii Neurological Society, and currently sits on the Board of Directors of the Hawaii Neurological Society. Dr. Stein has served on the Medical Advisory Board since 2015, and his expertise in neurology, epilepsy, and clinical neurophysiology ophthalmology has been invaluable to the Medical Advisory Board. Your Committee finds that Dr. Stein's experience and knowledge qualify him for reappointment to the Medical Advisory Board.

As affirmed by the records of votes of the members of your Committee on Transportation and Energy that are attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominees, has found the nominees to be qualified for the positions to which nominated and recommends that the Senate advise and consent to the nominations.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (English, Harimoto).

SCRep. 3382 Judiciary on H.B. No. 2596

The purpose and intent of this measure is to codify the Uniform Certificate of Title for Vessels Act, which:

- (1) Requires certain vessel owners to apply for a certificate of title within twenty days of becoming an owner or within twenty days of establishing principal use of the vessel in waters of the State; and
- (2) Establishes what information is required to be included in an application for a certificate of title, how to deal with transfer of vessel ownership and title, rights of a secured party, and rights of a purchaser other than a secured party.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources and Commission to Promote Uniform Legislation. Your Committee received comments on this measure from the Office of Information Practices.

Your Committee finds that vessels under the jurisdiction of the Department of Land and Natural Resources that do not have a United States Coast Guard documentation number are only required to obtain a certificate of number with the Department's Division of Boating and Ocean Resources' Vessel Registration Office. However, this certificate of number does not ensure that a vessel is not stolen because the Vessel Registration Office cannot verify ownership of a vessel other than by documents provided by the registrant. Thus, the absence of a vessel titling law can lead to extensive fraud.

Your Committee further finds that thirty-five states have implemented some form of a vessel titling law, and three of those thirty-five have adopted the Uniform Certificate of Title for Vessels Act as their vessel titling law. Codifying the Uniform Certificate of Title for Vessels Act will reduce the number of stolen vessels being fraudulently registered with the State and promote compatibility between the laws of the State governing the ownership of vessels and the comparable ownership laws of other jurisdictions.

Your Committee notes the presence of definitional issues within this measure and encourages further examination of these issues if this measure is considered by a committee on conference.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2596, H.D. 2, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Gabbard).

SCRep. 3383 Judiciary on H.B. No. 2133

The purpose and intent of this measure is to specify that citizen complaints against a police officer that involve allegations of domestic abuse by the police officer against a family or household member shall not be required to be filed as a notarized or sworn written statement.

Your Committee received testimony in support of this measure from the Hawai'i State Commission on the Status of Women, Hawai'i State Democratic Women's Caucus, O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, and one individual.

Your Committee finds that curtailing domestic violence is important for the health, safety, and welfare of citizens and that reporting and taking action against incidents of domestic violence is especially challenging and dangerous when the alleged perpetrator is a law enforcement officer. This measure will decrease the potential risk of retaliation against victims of domestic violence by police officers by allowing an individual to make a complaint against a police officer alleging an act of domestic violence against a family or household member without being required to swear to or make the complaint in writing. Your Committee notes concerns expressed by your Committee on Public Safety, Intergovernmental, and Military Affairs that the legislative intent is to apply this measure only to the civil administrative internal investigations within the police department, and additionally finds that the undefined term "citizen complaints" in this measure is unacceptably ambiguous.

Accordingly, your Committee has amended this measure by:

- (1) Clarifying that the citizen complaints against a police officer involving allegations of domestic abuse by the police officer against a family or household member are citizen administrative complaints; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2133, H.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as H.B. No. 2133, H.D. 1, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Gabbard).

SCRep. 3384 Education on H.B. No. 2507

The purpose and intent of this measure is to:

- (1) Remove preschools from the Superintendent of Education's scope of authority;

- (2) Clarify that the Executive Office on Early Learning Director may authorize preschool personnel access to a student's immunization registry information; and
- (3) Require the Board of Education to establish policies over and for the Superintendent to administer programs related to special education and Title I funded programs at the prekindergarten level.

Your Committee received testimony in support of this measure from the Hawaii Children's Action Network, Early Learning Board, and O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i.

Your Committee finds that this measure makes necessary housekeeping amendments to bring state law into conformity with previously enacted legislation and allows the Executive Office on Early Learning Director to ensure compliance with mandatory student immunization requirements. Additionally, this measure helps to clarify the intent of legislation to charge the Executive Office on Early Learning to develop a statewide early learning system with specific responsibilities.

Your Committee has amended this measure by inserting an effective date of July 1, 2018.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2507, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2507, H.D. 2, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Kahele).

SCRep. 3385 (Joint) Public Safety, Intergovernmental, and Military Affairs and Transportation and Energy on S.C.R. No. 188

The purpose and intent of this measure is to request the Mayors of the State's counties to submit a plan to the Legislature detailing how each county intends to meet its pledge of eliminating fossil fuels from ground transportation by 2045 and urging the Mayor of Kalawao to sign the pledge.

Your Committees received testimony in support of this measure from the O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i. Your Committees received comments on this measure from Life of the Land and Hawai'i Gas.

Your Committees find that Hawaii depends heavily on imported fossil fuel, resulting in a loss of billions of dollars for the State each year. Your Committees further find that fossil fuels negatively impact air quality and contribute to climate change via increased greenhouse gas emissions. Your Committees believe that electric vehicles provide a more cost efficient and environmentally friendly alternative to gas-powered vehicles. Your Committees note that the Mayors of the Counties of Hawaii, Maui, and Kauai, and the City and County of Honolulu have signed a proclamation to eliminate fossil fuels from all ground transportation, which accounted for roughly twenty-six percent of Hawaii's fossil fuel usage in 2015. Your Committees find that in addition to the proclamation, each county should actively plan to ensure that it will eliminate all fossil fuel from ground transportation by 2045.

Your Committees have amended this measure by:

- (1) Replacing the reference to "electric buses" with "renewable technology";
- (2) Deleting any reference to the Mayor and County of Kalawao;
- (3) Clarifying that each Mayor is requested to submit a plan for that Mayor's respective county;
- (4) Amending its title to reflect its amended purpose; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Public Safety, Intergovernmental, and Military Affairs and Transportation and Energy that are attached to this report, your Committees concur with the intent and purpose of S.C.R. No. 188, as amended herein, and recommend its adoption in the form attached hereto as S.C.R. No. 188, S.D. 1.

Signed by the Chairs on behalf of the Committees.
Public Safety, Intergovernmental, and Military Affairs: Ayes, 5. Noes, none. Excused, none.
Transportation and Energy: Ayes, 3. Noes, none. Excused, 2 (English, Harimoto).

SCRep. 3386 (Joint) Public Safety, Intergovernmental, and Military Affairs and Transportation and Energy on S.R. No. 141

The purpose and intent of this measure is to request the Mayors of the State's counties to submit a plan to the Legislature detailing how each county intends to meet its pledge of eliminating fossil fuels from ground transportation by 2045 and urging the Mayor of Kalawao to sign the pledge.

Your Committees received testimony in support of this measure from the O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i. Your Committees received comments on this measure from Hawai'i Gas.

Your Committees find that Hawaii depends heavily on imported fossil fuel, resulting in a loss of billions of dollars for the State each year. Your Committees further find that fossil fuels negatively impact air quality and contribute to climate change via increased greenhouse gas emissions. Your Committees believe that electric vehicles provide a more cost efficient and environmentally friendly alternative to gas-powered vehicles. Your Committees note that the Mayors of the Counties of Hawaii, Maui, and Kauai, and the City and County of Honolulu have signed a proclamation to eliminate fossil fuels from all ground transportation, which accounted for roughly twenty-six percent of Hawaii's fossil fuel usage in 2015. Your Committees find that in addition to the proclamation, each county should actively plan to ensure that it will eliminate all fossil fuel from ground transportation by 2045.

Your Committees have amended this measure by:

- (1) Replacing the reference to “electric buses” with “renewable technology;
- (2) Deleting any reference to the Mayor and County of Kalawao;
- (3) Clarifying that each Mayor is requested to submit a plan for that Mayor’s respective county;
- (4) Amending its title to reflect its amended purpose; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Public Safety, Intergovernmental, and Military Affairs and Transportation and Energy that are attached to this report, your Committees concur with the intent and purpose of S.R. No. 141, as amended herein, and recommend its adoption in the form attached hereto as S.R. No. 141, S.D. 1.

Signed by the Chairs on behalf of the Committees.

Public Safety, Intergovernmental, and Military Affairs: Ayes, 5. Noes, none. Excused, none.

Transportation and Energy: Ayes, 3. Noes, none. Excused, 2 (English, Harimoto).

SCRep. 3387 Transportation and Energy on S.C.R. No. 187

The purpose and intent of this measure is to request the Department of Transportation to study the effects on traffic congestion and safety when implementing a left-lane restriction for large trucks.

Prior to the hearing on this measure, your Committee posted and made available for public review a proposed S.D. 1, which amends this measure by:

- (1) Deleting its contents;
- (2) Inserting language urging the Department of Business, Economic Development, and Tourism to work with the United States Department of Energy to develop an Office of Science National Laboratory in the Kalaeloa community development district for researching renewable energy; and
- (3) Amending its title accordingly to read, “URGING THE DEPARTMENT OF BUSINESS, ECONOMIC DEVELOPMENT, AND TOURISM TO PARTNER WITH THE UNITED STATES DEPARTMENT OF ENERGY TO ESTABLISH AN OFFICE OF SCIENCE NATIONAL LABORATORY IN THE KALAELOA COMMUNITY DEVELOPMENT DISTRICT.”

Your Committee received testimony in support of the proposed S.D. 1 from the O’ahu County Committee on Legislative Priorities of the Democratic Party of Hawai’i. Your Committee received comments on the proposed S.D. 1 from the Department of Business, Economic Development, and Tourism and Hawaii Community Development Authority.

Your Committee finds that in order for the State to reach its goal of one hundred percent renewable energy by 2045, high quality research facilities are needed to support the development of new energy-production technologies. Your Committee points to the United States Department of Energy Office of Science national laboratories as facilities that have the financial and logistical support to realize necessary technological advances, and notes that the State is a leader in renewable energy. Thus, establishing a national laboratory focused on renewable energy technology in Hawaii is mutually beneficial: Hawaii is an obvious location for conducting groundbreaking research on renewable energy, and a national laboratory in Hawaii will support the State’s goal of one hundred percent renewable energy.

Your Committee has amended this measure by adopting the proposed S.D. 1 and further amending the measure by:

- (1) Inserting language to include the Hawaii Community Development Authority, which oversees the Kalaeloa community development district, in the process of establishing a national laboratory in the Kalaeloa community development district; and
- (2) Amending its title in accordance with its amended purpose.

As affirmed by the record of votes of the members of your Committee on Transportation and Energy that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 187, as amended herein, and recommends its adoption in the form attached hereto as S.C.R. No. 187, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (English, Harimoto).

SCRep. 3388 Transportation and Energy on S.R. No. 136

The purpose and intent of this measure is to request the Department of Transportation to study the effects on traffic congestion and safety when implementing a left-lane restriction for large trucks.

Prior to the hearing on this measure, your Committee posted and made available for public review a proposed S.D. 1, which amends this measure by:

- (1) Deleting its contents;
- (2) Inserting language urging the Department of Business, Economic Development, and Tourism to work with the United States Department of Energy to develop an Office of Science National Laboratory in the Kalaeloa community development district for researching renewable energy; and

- (3) Amending its title accordingly to read, "URGING THE DEPARTMENT OF BUSINESS, ECONOMIC DEVELOPMENT, AND TOURISM TO PARTNER WITH THE UNITED STATES DEPARTMENT OF ENERGY TO ESTABLISH AN OFFICE OF SCIENCE NATIONAL LABORATORY IN THE KALAELOA COMMUNITY DEVELOPMENT DISTRICT,".

Your Committee received testimony in support of the proposed S.D. 1 from the O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i. Your Committee received comments on the proposed S.D. 1 from the Department of Business, Economic Development, and Tourism and Hawaii Community Development Authority.

Your Committee finds that in order for the State to reach its goal of one hundred percent renewable energy by 2045, high quality research facilities are needed to support the development of new energy-production technologies. Your Committee points to the United States Department of Energy Office of Science national laboratories as facilities that have the financial and logistical support to realize necessary technological advances, and notes that the State is a leader in renewable energy. Thus, establishing a national laboratory focused on renewable energy technology in Hawaii is mutually beneficial: Hawaii is an obvious location for conducting groundbreaking research on renewable energy, and a national laboratory in Hawaii will support the State's goal of one hundred percent renewable energy.

Your Committee has amended this measure by adopting the proposed S.D. 1 and further amending the measure by:

- (1) Inserting language to include the Hawaii Community Development Authority, which oversees the Kalaheo community development district, in the process of establishing a national laboratory in the Kalaheo community development district; and
- (2) Amending its title in accordance with its amended purpose.

As affirmed by the record of votes of the members of your Committee on Transportation and Energy that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 136, as amended herein, and recommends its adoption in the form attached hereto as S.R. No. 136, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (English, Harimoto).

SCRep. 3389 Transportation and Energy on S.C.R. No. 193

The purpose and intent of this measure is to request the State and counties to eliminate the payroll lag for all employees.

Prior to the hearing on this measure, your Committee posted and made available for public review a proposed S.D. 1, which amends this measure by:

- (1) Deleting its contents;
- (2) Inserting language urging the Office of Homeland Security and Office of Planning to form a Critical Infrastructure and Resiliency Council; and
- (3) Amending the title accordingly to read, "URGING THE OFFICE OF HOMELAND SECURITY AND OFFICE OF PLANNING TO FORM A CRITICAL INFRASTRUCTURE AND RESILIENCY COUNCIL, WITH CONSULTATION FROM THE DEPARTMENT OF BUSINESS, ECONOMIC DEVELOPMENT, AND TOURISM,".

Your Committee received testimony in support of the proposed S.D. 1 from the Office of Homeland Security and Hawaiian Electric Company. Your Committee received comments on the proposed S.D. 1 from the Department of Business, Economic Development, and Tourism; Office of Planning; and Young Brothers.

Your Committee finds that the isolated nature of Hawaii makes it vulnerable to natural disasters. Therefore, enhancing the State's grid resiliency to maintain critical infrastructure operations is vital to the State's ability to recover quickly after a natural disaster. Formalizing a resiliency policy that sets clear goals to minimize the severity of damage and enable fast recovery of normal grid and critical infrastructure operations allows the State to outline how it plans to strengthen its ability to respond to natural disasters.

However, your Committee finds that it would be irresponsible for the State to set goals and invest in projects without a thorough assessment of the State's electrical grid and other critical infrastructure sector, as well as the financial resources available to encourage development of the State's grid and critical infrastructure. Thus, to complement a resiliency policy, your Committee believes a Critical Infrastructure and Resiliency Council, composed of emergency management and infrastructure experts, is necessary to establish strategies, goals, priorities, and recommendations to enhance the resiliency of the State's grid and assess the capacity and availability of existing resources.

Your Committee heard testimony suggesting that interisland transport services are critical to disaster recovery efforts.

Accordingly, your Committee has amended this measure by adopting the proposed S.D. 1 and further amending the measure by encouraging the Council to also invite regulated interisland water carriers serving all islands.

As affirmed by the record of votes of the members of your Committee on Transportation and Energy that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 193, as amended herein, and recommends its adoption in the form attached hereto as S.C.R. No. 193, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (English, Harimoto).

SCRep. 3390 Transportation and Energy on S.R. No. 133

The purpose and intent of this measure is to request the State and counties to eliminate the payroll lag for all employees.

Prior to the hearing on this measure, your Committee posted and made available for public review a proposed S.D. 1, which amends this measure by:

- (1) Deleting its contents;
- (2) Inserting language urging the Office of Homeland Security and Office of Planning to form a Critical Infrastructure and Resiliency Council; and
- (3) Amending the title accordingly to read, "URGING THE OFFICE OF HOMELAND SECURITY AND OFFICE OF PLANNING TO FORM A CRITICAL INFRASTRUCTURE AND RESILIENCY COUNCIL, WITH CONSULTATION FROM THE DEPARTMENT OF BUSINESS, ECONOMIC DEVELOPMENT, AND TOURISM,".

Your Committee received testimony in support of the proposed S.D. 1 from the Office of Homeland Security and Hawaiian Electric Company. Your Committee received comments on the proposed S.D. 1 from the Department of Business, Economic Development, and Tourism; Office of Planning; and Young Brothers.

Your Committee finds that the isolated nature of Hawaii makes it vulnerable to natural disasters. Therefore, enhancing the State's grid resiliency to maintain critical infrastructure operations is vital to the State's ability to recover quickly after a natural disaster. Formalizing a resiliency policy that sets clear goals to minimize the severity of damage and enable fast recovery of normal grid and critical infrastructure operations allows the State to outline how it plans to strengthen its ability to respond to natural disasters.

However, your Committee finds that it would be irresponsible for the State to set goals and invest in projects without a thorough assessment of the State's electrical grid and other critical infrastructure sector, as well as the financial resources available to encourage development of the State's grid and critical infrastructure. Thus, to complement a resiliency policy, your Committee believes a Critical Infrastructure and Resiliency Council, composed of emergency management and infrastructure experts, is necessary to establish strategies, goals, priorities, and recommendations to enhance the resiliency of the State's grid and assess the capacity and availability of existing resources.

Your Committee heard testimony suggesting that interisland transport services are critical to disaster recovery efforts.

Accordingly, your Committee has amended this measure by adopting the proposed S.D. 1 and further amending the measure by encouraging the Council to also invite regulated interisland water carriers serving all islands.

As affirmed by the record of votes of the members of your Committee on Transportation and Energy that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 133, as amended herein, and recommends its adoption in the form attached hereto as S.R. No. 133, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (English, Harimoto).

SCRep. 3391 Transportation and Energy on S.C.R. No. 91

The purpose and intent of this measure is to request the Department of Business, Economic Development, and Tourism to evaluate the role of renewable fuels in the Hawaii Clean Energy Initiative's goal of one hundred percent renewable energy.

Your Committee received testimony in support of this measure from Ulupono Initiative and O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i. Your Committee received comments on this measure from the Department of Business, Economic Development, and Tourism and Hawaii Gas.

Your Committee finds that Hawaii's goal of one hundred percent clean, renewable energy means not only renewable electricity generation, but also clean, renewable energy for the transportation sector. Your Committee notes that while twenty-five percent of electricity generation is renewable energy, less than one percent of energy used in transportation is renewable, and the transportation sector requires more energy than electricity. Relying solely on electric vehicles to achieve a clean transportation sector is impractical, particularly as hydrocarbons are the most energy-dense way to store and transport energy. Thus, developing and incorporating renewable fuels will be critical to the State achieving its renewable energy goals. Your Committee notes that a plan from the Department of Business, Economic Development, and Tourism on how to incorporate renewable fuels into the Hawaii Clean Energy Initiative can serve as a blueprint for all stakeholders to follow.

Your Committee heard testimony noting a previous study on renewable fuels performed by the Department of Business, Economic Development, and Tourism did not include a study of biogas or other renewable gases, even though renewable gases can be an important component in achieving the Hawaii Clean Energy Initiative's goals.

Accordingly, your Committee has amended this measure by:

- (1) Clarifying that renewable fuels includes biogas and gases from renewable and sustainable sources; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Transportation and Energy that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 91, as amended herein, and recommends its adoption in the form attached hereto as S.C.R. No. 91, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (English, Harimoto).

SCRep. 3392 Transportation and Energy on S.R. No. 143

The purpose and intent of this measure is to request the Department of Business, Economic Development, and Tourism to evaluate the role of renewable fuels in the Hawaii Clean Energy Initiative's goal of one hundred percent renewable energy.

Your Committee received testimony in support of this measure from Ulupono Initiative and O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i. Your Committee received comments on this measure from the Department of Business, Economic Development, and Tourism and Hawaii Gas.

Your Committee finds that Hawaii's goal of one hundred percent clean, renewable energy means not only renewable electricity generation, but also clean, renewable energy for the transportation sector. Your Committee notes that while twenty-five percent of electricity generation is renewable energy, less than one percent of energy used in transportation is renewable, and the transportation sector requires more energy than electricity. Relying solely on electric vehicles to achieve a clean transportation sector is impractical, particularly as hydrocarbons are the most energy-dense way to store and transport energy. Thus, developing and incorporating renewable fuels will be critical to the State achieving its renewable energy goals. Your Committee notes that a plan from the Department of Business, Economic Development, and Tourism on how to incorporate renewable fuels into the Hawaii Clean Energy Initiative can serve as a blueprint for all stakeholders to follow.

Your Committee heard testimony noting a previous study on renewable fuels performed by the Department of Business, Economic Development, and Tourism did not include a study of biogas or other renewable gases, even though renewable gases can be an important component in achieving the Hawaii Clean Energy Initiative's goals.

Accordingly, your Committee has amended this measure by:

- (1) Clarifying that renewable fuels includes biogas and gases from renewable and sustainable sources; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Transportation and Energy that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 143, as amended herein, and recommends its adoption in the form attached hereto as S.R. No. 143, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (English, Harimoto).

SCRep. 3393 Transportation and Energy on S.C.R. No. 186

The purpose and intent of this measure is to keep motorists and participants in marches, rallies, and public demonstrations safe, by:

- (1) Requesting demonstrators to follow traffic laws and public safety ordinances when crossing streets; and
- (2) Urging law enforcement to consider the safety and convenience of demonstrators and motorists.

Your Committee did not receive any testimony on this measure.

Your Committee finds that public demonstrations have played a significant role in shaping the United States. However, while such demonstrations are protected by the Constitution, the right to peaceably assemble is not absolute; restrictions can be placed on the time, place, and manner of peaceable assembly in order to keep the community safe. This measure emphasizes the need to balance the rights of demonstrators and the safety and security of the public by requesting demonstrators to be mindful of traffic laws and public safety ordinances and law enforcement to consider the well-being of demonstrators and motorists. Your Committee notes that a recent demonstration with a significant number of demonstrators resulted in traffic congestion when a stream of demonstrators ignored traffic signals as they crossed the street.

Your Committee has amended this measure by:

- (1) Requesting demonstrators to follow traffic laws and public safety ordinances in general, as opposed to just when crossing streets;
- (2) Applying the request to "permitted" events, as opposed to "recognized" events; and
- (3) Amending its title in accordance with its amended purpose.

As affirmed by the record of votes of the members of your Committee on Transportation and Energy that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 186, as amended herein, and recommends its adoption in the form attached hereto as S.C.R. No. 186, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (English, Harimoto).

SCRep. 3394 Transportation and Energy on S.R. No. 135

The purpose and intent of this measure is to keep motorists and participants in marches, rallies, and public demonstrations safe, by:

- (1) Requesting demonstrators to follow traffic laws and public safety ordinances when crossing streets; and
- (2) Urging law enforcement to consider the safety and convenience of demonstrators and motorists.

Your Committee did not receive any testimony on this measure.

Your Committee finds that public demonstrations have played a significant role in shaping the United States. However, while such demonstrations are protected by the Constitution, the right to peaceably assemble is not absolute; restrictions can be placed on the time, place, and manner of peaceable assembly in order to keep the community safe. This measure emphasizes the need to balance the rights of demonstrators and the safety and security of the public by requesting demonstrators to be mindful of traffic laws and public safety ordinances and law enforcement to consider the well-being of demonstrators and motorists. Your Committee notes that a recent

demonstration with a significant number of demonstrators resulted in traffic congestion when a stream of demonstrators ignored traffic signals as they crossed the street.

Your Committee has amended this measure by:

- (1) Requesting demonstrators to follow traffic laws and public safety ordinances in general, as opposed to just when crossing streets;
- (2) Applying the request to “permitted” events, as opposed to “recognized” events; and
- (3) Amending its title in accordance with its amended purpose.

As affirmed by the record of votes of the members of your Committee on Transportation and Energy that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 135, as amended herein, and recommends its adoption in the form attached hereto as S.R. No. 135, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (English, Harimoto).

SCRep. 3395 Commerce, Consumer Protection, and Health on S.C.R. No. 26

The purpose and intent of this measure is to request the Federal Communications Commission to establish regulations to require all cellular phones to receive wireless emergency alerts without an option to opt out of receiving emergency alert messages and without any added costs to service plans.

Your Committee received testimony in support of this measure from the O’ahu County Committee on Legislative Priorities of the Democratic Party of Hawai’i.

Your Committee finds that a reliable and timely communication system must be in place for disseminating information to the public about matters of national and local concern, including natural disasters, severe weather, and other local civic emergencies. The events of January 13, 2018, where the Hawaii Emergency Management Agency erroneously dispatched an incoming ballistic missile warning alert to citizens and visitors across the State, revealed a critical flaw in the emergency warning system. Although the warning sent that day was a mistake, some citizens and visitors received neither the warning nor the subsequent false alarm message on their cellular phones. This occurred because cellular phone owners are able to opt out of receiving certain wireless emergency alerts. Your Committee finds that allowing cellular phone owners the capability to opt out of these critical warnings creates a dangerous and unnecessary risk for the public. This measure therefore requests that the Federal Communications Commission establish regulations to require all cellular phones to receive wireless emergency alerts without an option to opt out of receiving these emergency alert messages and without any added costs to service plans.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 26 and recommends its adoption.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Ihara, Nishihara, Ruderman).

SCRep. 3396 Commerce, Consumer Protection, and Health on S.C.R. No. 27

The purpose and intent of this measure is to request the Auditor to conduct a sunrise review of the licensure and regulation of home inspectors.

Your Committee received testimony in support of this measure from the Professional and Vocational Licensing Division of the Department of Commerce and Consumer Affairs, Hawai’i Association of REALTORS, Hawaii Association of Home Inspectors, Forefront Inspections, and four individuals.

Your Committee finds that buying a home could be the largest single investment a person or family will ever make. To minimize unexpected costs and delays in purchasing the home, it is important for the purchaser to learn as much as possible about the newly constructed or existing home before closing on the purchase. Home inspectors play an integral role in many real estate transactions and can help identify any needed repairs or builder defects prior to closing, as well as any maintenance issues that are necessary to keep the home in good condition after purchase.

Your Committee further finds that unlike other professionals who are involved in real estate transactions, such as real estate appraisers, real estate brokers and salespersons, mortgage loan originators, and mortgage servicers, home inspectors are not regulated by the State and do not require state licensure to perform services in Hawaii. This measure therefore requests the Auditor to conduct a sunrise review of the licensure and regulation of home inspectors, which will provide much needed insight into the potential regulation of this profession.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 27, S.D. 1, and recommends its adoption.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 2 (Ihara, Nishihara).

SCRep. 3397 (Joint) Hawaiian Affairs and Commerce, Consumer Protection, and Health on S.C.R. No. 74

The purpose and intent of this measure is to request the Auditor to conduct an impact assessment report of the social and financial impacts of mandating coverage for Native Hawaiian culture-based practices that have been empirically shown to have an effect in the management of weight, cardiovascular health, diabetes, and chronic kidney disease.

Your Committees received testimony in support of this measure from the Hawaiian Civic Club of Honolulu; Hawaiian Affairs Caucus of the Democratic Party of Hawaii; O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawaii; Ho'omanana Pono, LLC; and Ho'omanapono Political Action Committee. Your Committees received testimony in opposition to this measure from Papa Ola Lōkahi, Center for Hawaiian Sovereignty Studies, and one individual. Your Committees received comments on this measure from one individual.

Your Committees find that Native Hawaiians have the highest rates of obesity, hypertension, diabetes, cardiovascular and cerebrovascular diseases, certain cancers, and mortality rates among any ethnic group in Hawaii. Your Committees further find that traditional Native Hawaiian practices, such as hula and canoe paddling, have been proven to be effective in weight management, cardiovascular health, diabetes management, and chronic kidney disease management. Your Committees believe that supporting traditional Native Hawaiian practices of healing is beneficial, and coverage for certain Native Hawaiian practices has the potential to substantially reduce illness and promote good health. Your Committees also believe that the potential for traditional Native Hawaiian practices to improve health merits further study into insurance coverage for certain Native Hawaiian culture-based practices.

Your Committees note that the Auditor may not have the necessary expertise or knowledge of traditional Native Hawaiian culture-based practices and that Papa Ola Lōkahi, the consultative body to the federal government in matters of Native Hawaiian health and Hawaiian healing traditions and practices, may be better suited to implement this measure.

Accordingly, your Committees have amended this measure by:

- (1) Deleting all references to the Auditor;
- (2) Deleting language regarding the statutory requirement of passing a concurrent resolution requesting the Auditor to prepare and submit a report on the social and financial effects of a proposed health insurance coverage prior to considering any legislative measures that mandates health insurance coverage for specific health services, among other things, and deleting the reference to S.B. No. 1315, Regular Session of 2017;
- (3) Inserting language requesting Papa Ola Lōkahi to conduct an assessment of the impact on social, financial, and cultural integrity of providing coverage for Native Hawaiian culture-based practices and Native Hawaiian healing practices that have shown to be effective in managing certain health concerns and requesting Papa Ola Lōkahi to submit its findings and recommendations regarding the assessment to the Legislature no later than twenty days prior to the convening of the Regular Session of 2020; and
- (4) Amending its title to reflect its amended purpose.

As affirmed by the records of votes of the members of your Committees on Hawaiian Affairs and Commerce, Consumer Protection, and Health that are attached to this report, your Committees concur with the intent and purpose of S.C.R. No. 74, as amended herein, and recommend its adoption in the form attached hereto as S.C.R. No. 74, S.D. 1.

Signed by the Chairs on behalf of the Committees.

Hawaiian Affairs: Ayes, 3. Noes, none. Excused, 2 (Galuteria, Green).

Commerce, Consumer Protection, and Health: Ayes, 4. Noes, none. Excused, 3 (Chang, Nishihara, Tokuda).

SCRep. 3398 (Joint) Hawaiian Affairs and Commerce, Consumer Protection, and Health on S.R. No. 43

The purpose and intent of this measure is to request the Auditor to conduct an impact assessment report of the social and financial impacts of mandating coverage for Native Hawaiian culture-based practices that have been empirically shown to have an effect in the management of weight, cardiovascular health, diabetes, and chronic kidney disease.

Your Committees received testimony in support of this measure from the O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawaii; Ho'omanana Pono, LLC; Ho'omanapono Political Action Committee and two individuals. Your Committees received testimony in opposition to this measure from Papa Ola Lōkahi and Center for Hawaiian Sovereignty Studies.

Your Committees find that Native Hawaiians have the highest rates of obesity, hypertension, diabetes, cardiovascular and cerebrovascular diseases, certain cancers, and mortality rates among any ethnic group in Hawaii. Your Committees further find that traditional Native Hawaiian practices, such as hula and canoe paddling, have been proven to be effective in weight management, cardiovascular health, diabetes management, and chronic kidney disease management. Your Committees believe that supporting traditional Native Hawaiian practices of healing is beneficial, and coverage for certain Native Hawaiian practices has the potential to substantially reduce illness and promote good health. Your Committees also believe that the potential for traditional Native Hawaiian practices to improve health merits further study into insurance coverage for certain Native Hawaiian culture-based practices.

Your Committees note that the Auditor may not have the necessary expertise or knowledge of traditional Native Hawaiian culture-based practices and that Papa Ola Lōkahi, the consultative body to the federal government in matters of Native Hawaiian health and Hawaiian healing traditions and practices, may be better suited to implement this measure.

Accordingly, your Committees have amended this measure by:

- (1) Deleting all references to the Auditor;
- (2) Deleting language regarding the statutory requirement of passing a concurrent resolution requesting the Auditor to prepare and submit a report on the social and financial effects of a proposed health insurance coverage prior to considering any legislative measures that mandates health insurance coverage for specific health services, among other things, and deleting the reference to S.B. No. 1315, Regular Session of 2017;

recommendations regarding the assessment to the Legislature no later than twenty days prior to the convening of the Regular Session of 2020; and

- (4) Amending its title to reflect its amended purpose.

As affirmed by the records of votes of the members of your Committees on Hawaiian Affairs and Commerce, Consumer Protection, and Health that are attached to this report, your Committees concur with the intent and purpose of S.R. No. 43, as amended herein, and recommend its adoption in the form attached hereto as S.R. No. 43, S.D. 1.

Signed by the Chairs on behalf of the Committees.

Hawaiian Affairs: Ayes, 3. Noes, none. Excused, 2 (Galuteria, Green).

Commerce, Consumer Protection, and Health: Ayes, 4. Noes, none. Excused, 3 (Chang, Nishihara, Tokuda).

SCRep. 3399 Judiciary on S.C.R. No. 9

The purpose and intent of this measure is to request the congressional delegation of Hawaii and the United States Congress to oppose “concealed carry reciprocity” legislation.

Your Committee received testimony in support of this measure from the Hawaii Youth Services Network, Young Progressives Demanding Action, Rainbow Family 808, and two individuals. Your Committee received testimony in opposition to this measure from the National Rifle Association, Institute for Rational and Evidence-based Legislation, and six individuals.

Your Committee finds that significant variation exists among jurisdictions in regard to standards and permitting requirements to lawfully carry a concealed firearm. Some jurisdictions do not require permits and, of the jurisdictions that do require permits, the requirements to qualify for a permit are stricter in some jurisdictions than others. Hawaii prohibits persons with a felony stalking conviction or persons subject to domestic violence restraining orders from carrying a concealed firearm, allows permit issuers to refuse to issue a permit to a person who displays dangerous warning signs, and requires safety training for every concealed carry permit applicant. Many jurisdictions do not share these requirements, and “concealed carry reciprocity” legislation could allow persons to carry a concealed firearm in Hawaii who would not ordinarily meet the State’s permitting requirements.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 9 and recommends its adoption.

Signed by the Chair on behalf of the Committee.

Ayes, 5; Ayes with Reservations (Gabbard). Noes, none. Excused, none.

SCRep. 3400 Judiciary on S.R. No. 7

The purpose and intent of this measure is to request the congressional delegation of Hawaii and the United States Congress to oppose “concealed carry reciprocity” legislation.

Your Committee received testimony in support of this measure from the Hawaii Youth Services Network, Young Progressives Demanding Action, and four individuals. Your Committee received testimony in opposition to this measure from the National Rifle Association, Institute for Rational and Evidence-based Legislation, and five individuals.

Your Committee finds that significant variation exists among jurisdictions in regard to standards and permitting requirements to lawfully carry a concealed firearm. Some jurisdictions do not require permits and, of the jurisdictions that do require permits, the requirements to qualify for a permit are stricter in some jurisdictions than others. Hawaii prohibits persons with a felony stalking conviction or persons subject to domestic violence restraining orders from carrying a concealed firearm, allows permit issuers to refuse to issue a permit to a person who displays dangerous warning signs, and requires safety training for every concealed carry permit applicant. Many jurisdictions do not share these requirements, and “concealed carry reciprocity” legislation could allow persons to carry a concealed firearm in Hawaii who would not ordinarily meet the State’s permitting requirements.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 7 and recommends its adoption.

Signed by the Chair on behalf of the Committee.

Ayes, 5; Ayes with Reservations (Gabbard). Noes, none. Excused, none.

SCRep. 3401 Judiciary on S.C.R. No. 67

The purpose and intent of this measure is to endorse the participation of Taiwan as an observer in the United Nations Framework Convention on Climate Change, International Civil Aviation Organization, World Health Organization, and International Criminal Police Organization. This measure also celebrates Hawaii’s twenty-fifth anniversary of sister-state relations with Taiwan.

Your Committee received testimony in support of this measure from the Department of Business, Economic Development, and Tourism.

Your Committee finds that Taiwan is a committed provider of humanitarian aid and disaster relief around the world, an active contributor to climate change research, a hub of expertise in disease control and prevention, and a strong partner in the enforcement of transnational criminal law. Taiwan has a strong cultural, historical, and economic relationship with Hawaii, and is the tenth largest trading partner of the United States. Your Committee finds that Taiwan would be a valuable participant in the United Nations Framework Convention on Climate Change, International Civil Aviation Organization, World Health Organization, and International Criminal Police Organization. In addition, your Committee finds that the State should celebrate its twenty-five years of sister-state relations with Taiwan.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 67 and recommends its adoption.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 3402 Judiciary on S.R. No. 37

The purpose and intent of this measure is to endorse the participation of Taiwan as an observer in the United Nations Framework Convention on Climate Change, International Civil Aviation Organization, World Health Organization, and International Criminal Police Organization. This measure also celebrates Hawaii's twenty-fifth anniversary of sister-state relations with Taiwan.

Your Committee received testimony in support of this measure from the Department of Business, Economic Development, and Tourism.

Your Committee finds that Taiwan is a committed provider of humanitarian aid and disaster relief around the world, an active contributor to climate change research, a hub of expertise in disease control and prevention, and a strong partner in the enforcement of transnational criminal law. Taiwan has a strong cultural, historical, and economic relationship with Hawaii, and is the tenth largest trading partner of the United States. Your Committee finds that Taiwan would be a valuable participant in the United Nations Framework Convention on Climate Change, International Civil Aviation Organization, World Health Organization, and International Criminal Police Organization. Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 3403 Judiciary on S.C.R. No. 148

The purpose and intent of this measure is to strongly urge the United States Congress to pass legislation to clarify the status of migrants under the Compacts of Free Association for purposes of the REAL ID Act of 2005 to promote fairness and equality under the law.

Your Committee received testimony in support of this measure from the Department of Transportation, Hawai'i Civil Rights Commission, Hawaii Interpreter Action Network, and two individuals.

Your Committee finds that the United States has a special relationship with Compact of Free Association nations and their citizens. Citizens of such nations may enter into, work, and establish residence in the United States, but do not have a pathway to United States citizenship. These persons do not have limited authorized stays in the United States, rather they have authorization to stay on a long-term basis and build stability within their community of residence. Your Committee finds that citizens of Compact of Free Association nations who are residents of the United States should have the same legal abilities, opportunities, and advantages as other foreign nationals legally residing with the United States.

Your Committee has amended this measure by:

- (1) Inserting language urging the United States Citizenship and Immigration Services to delineate Compact of Free Association status as a specific category in the Systematic Alien Verification for Entitlement system and to clarify that the "unlimited length of stay" of persons with that status is sufficient for the same renewal period as legal permanent residents and United States citizens for purposes of driver's license and identification renewals, and other entitlements and benefits that may otherwise require an "end date of stay" entry;
- (2) Making a conforming amendment to the title; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 148, as amended herein, and recommends its adoption in the form attached hereto as S.C.R. No. 148, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 3404 Judiciary on S.R. No. 92

The purpose and intent of this measure is to strongly urge the United States Congress to pass legislation to clarify the status of migrants under the Compacts of Free Association for purposes of the REAL ID Act of 2005 to promote fairness and equality under the law.

Your Committee received testimony in support of this measure from the Hawai'i Civil Rights Commission, Hawaii Interpreter Action Network, and one individual. Your Committee received testimony in opposition to this measure from one individual.

Your Committee finds that the United States has a special relationship with Compact of Free Association nations and their citizens. Citizens of such nations may enter into, work, and establish residence in the United States, but do not have a pathway to United States citizenship. These persons do not have limited authorized stays in the United States, rather than have authorization to stay on a long-term basis and build stability within their community of residence. Your Committee finds that citizens of Compact of Free Association nations who are residents of the United States should have the same legal abilities, opportunities, and advantages as other foreign nationals legally residing with the United States.

Your Committee has amended this measure by:

- (1) Inserting language urging the United States Citizenship and Immigration Services to delineate Compact of Free Association status as a specific category in the Systematic Alien Verification for Entitlements system and to clarify that the “unlimited length of stay” of persons with that status is sufficient for the same renewal period as legal permanent residents and United States citizens for purposes of driver’s license and identification renewals, and other entitlements and benefits that may otherwise require an “end date of stay” entry;
- (2) Making a conforming amendment to the title; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 92, as amended herein, and recommends its adoption in the form attached hereto as S.R. No. 92, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 3405 Hawaiian Affairs on Gov. Msg. No. 515

Recommending that the Senate advise and consent to the nomination of the following:

HAWAIIAN HOMES COMMISSION

G.M. No. 515 RANDY AWO, for a term to expire 06-30-2019

Your Committee reviewed the personal history, resume, and statement submitted by Randy Awo for service on the Hawaiian Homes Commission.

Your Committee received testimony in support of the nomination for the appointment of Randy Awo from the Department of Hawaiian Home Lands; Department of Land and Natural Resources; Pūnana Leo o Maui; Ku’iwalu Consulting; Maui MokuPuni Council of the Hawaiian Homestead Association; Waiohuli Hawaiian Homesteaders Association, Inc.; ‘Aina Ho’opulapula o Waohuli; Waiehu Kou Phase 3 Association, Inc.; Ho’omana Pono, LLC; Ho’omanapono Political Action Committee; one member of the State of Hawaii House of Representatives; and thirty-five individuals.

Mr. Awo was born and raised on Hawaiian homestead land in Waimānalo. He then moved to Waiehu Kou, a Hawaiian homestead land on Maui. Being born and raised on Hawaiian homestead land his whole life, Mr. Awo was surrounded and influenced by Native Hawaiian beliefs and practices and has worked to conserve and preserve Native Hawaiian practices and natural resources. Mr. Awo’s dedication to the conservation of natural resources is reflected in his twenty-six years of experience in the Department of Land and Natural Resources’ Division of Conservation and Resources Enforcement, of which he ultimately became the Administrator. Of his twenty-six years of experience in the Division of Conservation and Resources Enforcement, twenty-two years were spent dedicating his efforts in Maui. Mr. Awo’s advocacy for Hawaii’s natural resources was most poignantly demonstrated by his contentious stand against the SuperFerry and the negative impact the SuperFerry would have on the natural resources of Maui.

Mr. Awo is recognized in testimony for his efforts in forming community-to-government partnerships through collaboration and educational outreach such as collaborating with grassroots community organizations, state legislators, the University of Hawaii Law School, and the Hawaii State Judiciary, among others, to establish Hawaii’s first environmental court. Your Committee believes that Mr. Awo’s expertise in administration, first-hand experience living on Hawaiian homestead tracts, and close connection to the Native Hawaiian community qualify him to serve on the Hawaiian Homes Commission.

As affirmed by the record of votes of the members of your Committee on Hawaiian Affairs that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (English, Green).

SCRep. 3406 Hawaiian Affairs on Gov. Msg. No. 635

Recommending that the Senate advise and consent to the nomination of the following:

ISLAND BURIAL COUNCIL, ISLANDS OF MAUI AND LĀNA’I

G.M. No. 635 JOHANNA KAMAUNU, for a term to expire 06-30-2021

Your Committee reviewed the personal history, resume, and statement submitted by Johanna Kamaunu for service on the Island Burial Council, Islands of Maui and Lāna’i.

Your Committee received testimony in support of the nomination for the reappointment of Johanna Kamaunu from the Department of Land and Natural Resources; Office of Hawaiian Affairs; and Ho’omana Pono, LLC.

Ms. Kamaunu has genealogical ties to ‘Āao Valley, Wai’ehu, and Waihe’e Valley. She was an educator in the Department of Education’s Hawaiian Studies Kupuna program for fourteen years. She also has experience doing genealogy and geographical research regarding the ahupua’a of Waikapū, Wailuku, Wai’ehu, and Waihe’e. Ms. Kamaunu has been actively participating in iwi preservation controversies on the island of Maui by attending and testifying at burial council meetings for seven years. Ms. Kamaunu has been serving on the Island Burial Council, Islands of Maui and Lāna’i since 2014 and is seeking to serve another term. Ms. Kamaunu’s extensive experience and knowledge of Hawaiian culture and history makes her an ideal candidate for the Island Burial Council, Islands of Maui and Lāna’i.

As affirmed by the record of votes of the members of your Committee on Hawaiian Affairs that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (English, Green).

SCRep. 3407 Hawaiian Affairs on Gov. Msg. Nos. 561 and 562

Recommending that the Senate advise and consent to the nominations of the following:

ISLAND BURIAL COUNCIL, ISLAND OF HAWAI'I

G.M. No. 561 CLIFFORD KAPONO, for a term to expire 06-30-2018; and

G.M. No. 562 CLIFFORD KAPONO, for a term to expire 06-30-2022

Your Committee reviewed the personal history, resume, and statement submitted by Clifford Kapono for service on the Island Burial Council, Island of Hawai'i.

Your Committee received testimony in support of either the nomination for the appointment or reappointment of Clifford Kapono, or both, from the Department of Land and Natural Resources; Office of Hawaiian Affairs; Ho'omana Pono, LLC; and five individuals.

Mr. Kapono has genealogical ties to Kohala and has lived most of his life in Hāmākua on Moku o Keawe on the island of Hawai'i. While Mr. Kapono's educational and professional background is in business, he has been focused on Native Hawaiian public health issues, specifically issues affecting the Keaukaha and other island of Hawai'i communities. Mr. Kapono has committed much of his time to revitalizing many Native Hawaiian practices, such as navigation, as one of the early members of the Hōkūle'a crew members in 1978. He is an advocate for the restoration of Kaho'olawe and has been a member of the Protect Kaho'olawe 'Ohana since 1980. Mr. Kapono has been an active participant in the Native Hawaiian community by educating young Hawaiians in math and science at Keaukaha Community Outreach, Kamehameha Schools Kea'au Campus, New Century Connections Public Charter School, and Hālau Lōkahi Public Charter School. He is now concentrating his efforts on protecting Native Hawaiian burials and archaeological resources. Your Committee believes that Mr. Kapono has dedicated much of his efforts to the Native Hawaiian community and the preservation of Native Hawaiian practices and his expertise in a variety of fields will provide valuable insights to the Island Burial Council.

As affirmed by the record of votes of the members of your Committee on Hawaiian Affairs that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (English, Green).

SCRep. 3408 Hawaiian Affairs on Gov. Msg. Nos. 570 and 571

Recommending that the Senate advise and consent to the nominations of the following:

ISLAND BURIAL COUNCIL, ISLAND OF MOLOKA'I

G.M. No. 570 NILES SOARES, for a term to expire 06-30-2018; and

G.M. No. 571 NILES SOARES, for a term to expire 06-30-2022

Your Committee reviewed the personal history, resume, and statement submitted by Niles Soares for service on the Island Burial Council, Island of Moloka'i.

Your Committee received testimony in support of the nominations for the appointment and reappointment of Niles Soares from the Department of Land and Natural Resources and Ho'omana Pono, LLC.

Mr. Soares was born and raised on the island of Moloka'i and is of part Native Hawaiian ancestry. His ancestors have been in Moloka'i for generations, with his great grandparents being one of the first applicants to receive Hawaiian homestead land in Kalama'ula and Ho'olehua. Mr. Soares has experience as a conservationist on Moloka'i, with years of experience working and interning for The Nature Conservancy for Moloka'i programs, and is currently a Field Associate for the Moloka'i/Maui Invasive Species Committee. He is also the lead genealogist responsible for maintaining his family's history in Moloka'i. Your Committee finds that Mr. Soares is eager to learn the legal and cultural protocol of working with iwi kupuna and believes he will be a good representative for the island of Moloka'i on the Island Burial Council with his extensive history on the island.

As affirmed by the record of votes of the members of your Committee on Hawaiian Affairs that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (English, Green).

SCRep. 3409 Judiciary on H.B. No. 1849

The purpose and intent of this measure is to:

- (1) Require police departments to disclose to the Legislature the identity of a police officer upon the officer's suspension or discharge; and

- (2) Allow disclosure under the Uniform Information Practices Act of employment misconduct information that results in a county police officer's suspension.

Your Committee received testimony in support of this measure from the Office of Information Practices, American Civil Liberties Union of Hawai'i, Civil Beat Law Center for the Public Interest, Society of Professional Journalists Hawaii Chapter, and Young Progressives Demanding Action. Your Committee received comments on this measure from the League of Women Voters of Hawaii.

Your Committee finds that the Uniform Information Practices Act (UIPA) recognizes a government employee's significant privacy interest in information about possible misconduct up to a point. Under the UIPA, all government employees' misconduct information becomes public if the misconduct resulted in suspension or termination, except police officers, who retain a statutory privacy interest even in information about misconduct that results in suspension.

This measure will increase transparency and accountability in state law enforcement by treating information about a county police officer's suspension the same way as information about any other government employee's suspension, and require police departments to identify officers receiving a suspension in the department's annual reports to the Legislature.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1849, H.D. 2, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Gabbard).

SCRep. 3410 (Majority) Judiciary on H.B. No. 2357

The purpose and intent of this measure is to create an eviction process for the Hawaii Public Housing Authority's state low-income housing projects or programs and elder or elderly housing.

Your Committee received testimony in support of this measure from the Hawaii Public Housing Authority.

Your Committee finds that Act 114, Session Laws of Hawaii 2017 (Act 114), exempted state low-income housing directly controlled, owned, or managed by the Hawaii Public Housing Authority, including elder or elderly housing, from the requirements of the residential landlord-tenant code under chapter 521, Hawaii Revised Statutes. Act 114 laid the foundation for an administrative eviction process that could lessen the caseload of the Judiciary and the Department of the Attorney General while preserving the due process rights of tenants. This measure establishes the procedures for that administrative eviction process for tenants in state low-income and elderly housing projects that is substantially similar to the eviction process for tenants in federal low-income public housing.

Your Committee notes concern that, as this measure currently exists, the Hawaii Public Housing Authority could conceivably appoint an eviction board that consists of a single tenant who would then conduct a hearing to determine cause of action on another tenant's eviction. Your Committee encourages further discussion if this measure is examined by your Committee on Conference to foreclose the possibility of arbitrary results in eviction hearings.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2357, H.D. 2, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 3; Ayes with Reservations (Rhoads). Noes, 1 (Thielen). Excused, 1 (Gabbard).

SCRep. 3411 Judiciary on H.B. No. 2275

The purpose and intent of this measure is to require private streets, highways, or thoroughfares, except for private roads used exclusively by the owner or its employees, in the Kaka'ako community development district to conform to county construction and maintenance standards, and make the owners responsible for the costs of conforming and maintaining the private road.

Your Committee received testimony in support of this measure from Bank of Hawaii, O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, and Kaka'ako United. Your Committee received comments on this measure from the Hawaii Community Development Authority.

Your Committee finds that a significant number of private roads are used by the general public in the Kaka'ako community development district. In some cases, the owner charges a fee for the use of the road by members of the public. Some of these private roads have fallen into disrepair because the owners have not maintained the roads sufficient to meet the county's maintenance standards for county highways. Your Committee further finds that private roads that are used by the public and whose owners charge a fee for that use should be maintained to the same standard as other public roads, and that owners who profit from public use should be responsible for the costs of that maintenance.

Your Committee has amended this measure by:

- (1) Making it effective upon approval; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2275, H.D. 2, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as H.B. No. 2275, H.D. 2, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Gabbard).

SCRep. 3412 Judiciary on H.B. No. 1932

The purpose and intent of this measure is to:

- (1) Authorize agencies to adopt specified emergency rules to lessen disruptions to prior practices caused by changes to federal legislation or federal and state court decisions;
- (2) Require a public hearing with no less than thirty days' notice prior to the adoption of any emergency rule; and
- (3) Limit the effective period of an emergency rule to no longer than the first day of the next occurring regular session of the Legislature after adoption of the emergency rule.

Your Committee received testimony in support of this measure from the Department of Education; United Public Workers, AFSCME, Local 646, AFL-CIO; University of Hawaii Professional Assembly; and O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i.

Your Committee finds that chapter 91, Hawaii Revised Statutes, provides procedures for government agencies to adopt rules and adjudicate certain disputes within the purview of the agency. The provisions of chapter 91 address the need for public input and transparency in rule-making but the process can be lengthy, which can inhibit an agency's ability to conform its administrative rules to changes in state and federal law, resulting in an inability to provide critical clarification and guidance in a timely manner. This measure will allow agencies to adopt emergency rules in response to changes in the requirements of federal law or based on a state or federal court decision.

Your Committee notes that changes in the requirements of federal law may necessitate action by the Legislature to amend provisions of the Hawaii Revised Statutes upon which an agency's administrative rules may rely. In that situation, an agency may be reliant on the enactment of legislation to provide a new statutory foundation upon which the agency may adopt new permanent rules, and an emergency rule adopted by an agency should be operational until the Legislature has had the time and opportunity to act.

Accordingly, your Committee has amended this measure by:

- (1) Making emergency rules effective until the Legislature has passed legislation relating to the subject matter of the emergency rule and the legislation has either been enacted or vetoed by the governor; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1932, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as H.B. No. 1932, H.D. 1, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Gabbard).

SCRep. 3413 Judiciary on H.B. No. 2464

The purpose and intent of this measure is to:

- (1) Require the Department of Hawaiian Home Lands to study the issue of Hawaiian home lands lessees selling or transferring their leases for a fee or other personal gain and then applying for a subsequent lease; and
- (2) Require the Department to submit a report on the findings of the study to the Legislature prior to the convening of the Regular Session of 2020.

Your Committee received testimony in support of this measure from one individual.

Your Committee finds that certain native Hawaiians who are eligible for a lease pursuant to the Hawaiian Homes Commission Act have acquired a homestead lease, sold or transferred their interest in the lease, and then placed their names on the waitlist for a second homestead lease. This practice artificially lengthens the waitlist for homestead leases and reduces the chances of native Hawaiians entering the Hawaiian Homes Commission Act program in good faith to eventually receive a lease. Your Committee further finds that the Department of Hawaiian Home Lands is in the process of addressing the long waitlist for homestead leases by adopting a rule that would prohibit the sale of undivided interests and leases to lots that are vacant or undeveloped, in addition to other administrative actions. This measure will require the Department of Hawaiian Home Lands to study this issue and report to the Legislature so that it can be properly addressed and the intent of the Hawaiian Home Lands Commission Act can be better realized.

Your Committee has amended this measure by:

- (1) Requiring the Department of Hawaiian Home Lands to submit a report on the Department's study to the Legislature prior to the Regular Session of 2019, instead of 2020; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2464, H.D. 2, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as H.B. No. 2464, H.D. 2, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Gabbard).

SCRep. 3414 Judiciary on H.B. No. 2442

The purpose and intent of this measure is to:

- (1) Require counties to take into custody any abandoned vehicle on a public road within ten business days;
- (2) Require written notice to the owner of an abandoned vehicle only if the vehicle had been reported stolen;
- (3) Amend the statutory interpretation of a “derelict vehicle” to include vehicles for which a notice of transfer has been submitted but the new owner has not transferred the title or registration; and
- (4) Repeal the requirement that abandoned vehicles be disposed of by public auction.

Your Committee received testimony in support of this measure from the Honolulu Police Department, Oahu County Committee on Legislative Priorities of the Democratic Party of Hawai‘i, and three individuals. Your Committee received comments on this measure from the Department of Environmental Management of the County of Hawai‘i.

Your Committee finds that abandoned vehicles on public roads are a widespread environmental hazard that creates unsafe and unhealthy conditions for Hawai‘i’s residents and adversely impacts the availability of legal parking in many areas of the State. Although this measure will help the counties remove abandoned and derelict vehicles from public roads and dispose of vehicles taken into custody, your Committee questions whether it is necessary to specify the number of days within which a county is required to take any abandoned vehicle on a public road into custody.

Accordingly, your Committee has amended this measure by:

- (1) Changing the number of days within which a county is required to take any abandoned vehicle on a public road into custody to a blank amount; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2442, H.D. 2, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as H.B. No. 2442, H.D. 2, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Gabbard).

SCRep. 3415 Commerce, Consumer Protection, and Health on H.B. No. 1934

The purpose and intent of this measure is to prohibit the Department of Health from approving the construction of sewage wastewater injection wells, with certain exceptions.

Your Committee received testimony in support of this measure from the Office of Hawaiian Affairs, O‘ahu County Committee on Legislative Priorities of the Democratic Party of Hawai‘i, Sierra Club, and one individual. Your Committee received comments on this measure from the Department of Health and American Council of Engineering Companies of Hawaii.

Your Committee finds that Hawaii has over six thousand six hundred injection wells, which can pose risks to nearshore waters and fresh water resources. Your Committee finds that this measure would prohibit the Department of Health from issuing permits for the construction of sewage wastewater injection wells, with certain exceptions.

Your Committee has heard concerns of the Department of Health and the American Council of Engineering Companies of Hawaii that the exception provided for “undue hardship” is poorly defined and may be superfluous in light of other language in this measure providing for an exception where there is no “available, feasible, or practical” alternative. Your Committee also notes the Department of Health’s recommendation that the language proposed by this measure might be better placed in section 340E-2(e), Hawaii Revised Statutes, which establishes the underground injection control program, rather than in chapter 342D, Hawaii Revised Statutes, which governs water pollution.

Your Committee has amended this measure by:

- (1) Relocating proposed amendments from chapter 342D, Hawaii Revised Statutes, to section 340E-2(e), Hawaii Revised Statutes;
- (2) Clarifying that the Director of Health is prohibited from issuing permits for the construction of sewage wastewater injection wells unless alternative wastewater disposal options are not available, feasible, or practical, rather than due to undue hardship; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1934, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as H.B. No. 1934, H.D. 1, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 3 (Ihara, Nishihara, Ruderman).

SCRep. 3416 (Joint) Hawaiian Affairs and Water and Land on S.R. No. 42

The purpose and intent of this measure is to urge the Office of Elections to amend the choice for self-declaration to allow the affiant to self-identify as “a person born within the geographic boundaries of what is currently the State of Hawai‘i; and/or a descendant of any citizen of the Hawaiian Kingdom that the United States once recognized as a nation prior to 1893”.

Prior to the hearing on this measure, your Committees posted and made available for public review a proposed S.D. 1, which deletes the contents of this measure and inserts language to urge all policymakers and residents of the City and County of Honolulu to support the Waianae Sustainable Communities Plan and the preservation of Ohikilolo as an open space.

Your Committees received testimony in support of the proposed S.D. 1 from the Department of Planning and Permitting of the City and County of Honolulu, Makaha Hawaiian Civic Club, Ho‘omanapono Political Action Committee, O‘ahu County Committee on Legislative Priorities of the Democratic Party of Hawai‘i, nine individuals, and a petition signed by over four hundred individuals. Your Committees received comments on the proposed S.D. 1 from the Department of Land and Natural Resources.

Your Committees find that according to the report on the 1994 “Archaeological Investigation of Lowland Kea‘au Valley on Leeward Coast of Oahu” study conducted by the International Archaeological Research Institute, Inc., researchers recorded four hundred sixty-one sites in just sixty acres of Ohikilolo that were recommended to be added to the National Registry of Historic Places. Your Committees further find that native Hawaiians families of the Waianae coast consider Ohikilolo to be part of Kanehunamoku, the sacred lands of Kane, the Hawaiian sun deity, and believe that La‘ila‘i, the first human, was born in this land. In the Kumulipo, the Hawaiian creation story, La‘ila‘i is known to become the mother of the Hawaiian race. Your Committees believe that the archaeological and historical significance of Ohikilolo to native Hawaiians calls for the preservation of these lands.

Your Committees have amended this measure by adopting the proposed S.D. 1, including the amended title, and further amending the measure by:

- (1) Clarifying that Friends of Ohikilolo is doing business as Na Kia‘i No Kanehunamoku and has registered as a non-profit organization; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Hawaiian Affairs and Water and Land that are attached to this report, your Committees concur with the intent and purpose of S.R. No. 42, as amended herein, and recommend that it be referred to your Committee on Judiciary, in the form attached hereto as S.R. No. 42, S.D. 1.

Signed by the Chairs on behalf of the Committees.
 Hawaiian Affairs: Ayes, 3. Noes, none. Excused, 2 (English, Green).
 Water and Land: Ayes, 4. Noes, none. Excused, 1 (Gabbard).

SCRep. 3417 Ways and Means on H.B. No. 1900

The purpose and intent of this measure is to appropriate supplemental funds for the operating and capital improvement costs of the Executive Branch for the fiscal biennium beginning July 1, 2017, and ending June 30, 2019.

Your Committee received testimony in support of this measure from the Department of the Attorney General; the Department of Budget and Finance; the Department of Commerce and Consumer Affairs; the Department of Transportation; the Department of Business, Economic Development, and Tourism; the Department of Labor and Industrial Relations; the Department of Land and Natural Resources; the Department of Education; the Department of Human Services; the Department of Human Resources Development; the Department of Public Safety; the University of Hawaii System; the Hawaii State Public Library System; the Office of Enterprise Technology Services; the Office of Information Practices; Hawaii Housing Finance Development Corporation; the Executive Office on Early Learning; the Early Learning Board; Hawaii Technology Development Corporation; Hawaii Strategic Development Corporation; the Hawaii Green Infrastructure Authority; the Hawaii Center for Advanced Transportation Technologies; the Kauai County Council; the Maui County Office on Aging; the Kohala Coast Resort Association; the Big Island Invasive Species Committee; Dev League Inc; Waianae Coast Early Childhood Services; Makai Ocean Engineering, Inc.; the Kauai Watershed Alliance; Hawaii Evolutionary Development, LLC; Blue Ocean Mariculture LLC; Bright Light Digital; Residential Youth Services & Empowerment; Nalu Scientific, LLC; the Hawaii Primary Care Association; the GVS Accelerator; Ten Tomorrow; The Nature Conservancy; Catholic Charities Hawai‘i; the Hawai‘i Association of Watershed Partnerships; Partners in Care; Hawaii Children’s Action Network; Pūlama Lāna‘i; the Kaua‘i Watershed Alliance; the Hawai‘i Afterschool Alliance; Marine Genetics; the Coordinating Group on Alien Pest Species; Aquaculture Planning & Advocacy LLC; the Grove Farm Company; Shifted Energy; the Hawaii Aquaculture & Aquaponics Association; the Oahu County Committee on Legislative Priorities of the Democratic Party of Hawai‘i; the Paia Town Association; Easterseals Hawaii; Hilo Medical Center; and ninety-three individuals.

Your Committee received testimony in opposition to this measure from the Office of the Lieutenant Governor; the Sustainable Action Fund for the Environment; the Kuau Next Door Community, Neighborhood Group; and seven individuals.

Your Committee received comments on this measure from the Office of the Governor; the Department of Taxation; the Department of Accounting and General Services; the Department of Health; the Department of Defense; the Department of Agriculture; the Department of Hawaiian Home Lands; Hawaii Health Systems Corporation; the Executive Office on Aging; the Hawaii Public Housing Authority; the City and County of Honolulu Office of the Mayor’s Office of Housing; the State Foundation on Culture and the Arts; United Public Workers; Family Promise of Hawai‘i; the Lyons Estate; Wai‘alae Elementary Public Charter School; and two individuals.

PART I. OVERVIEW

The Administration’s initial budget submittal to the Legislature added \$21,256,787 in general funds for fiscal year 2018-2019. Since submitting the initial budget to the Legislature in December, the Administration also submitted various Governor’s Messages that adjusted its initial request by adding \$66,402,852 in general funds for fiscal year 2018-2019.

The net change of the appropriations in this measure, as amended by your Committee, (Senate Draft) results in an executive budget for fiscal biennium 2017-2019 as follows:

	Fiscal Year 2017-2018		Fiscal Year 2018-2019	
	All Funds	General Funds	All Funds	General Funds
Executive Budget Act 49, SLH 2017	\$14,110,569,014	\$7,248,455,293	\$14,308,859,860	\$7,421,597,622

Executive Request (Including Governor's Messages #7, #8, #11 and #12)	\$0	\$0	\$122,073,349	\$66,402,852
Net Change of Senate Draft	(\$3,800,000)	(\$3,800,000)	\$55,717,890	\$70,699,004
Total Appropriation	\$14,106,769,014	\$7,244,655,293	\$14,364,577,750	\$7,492,296,626

PART II. GENERAL FUND REVENUES AND ECONOMY

The Council on Revenues increased its general fund tax revenue projection at both its January 2018 and March 2018 meetings.

The projections reflect the Council's consensus that the economy is performing well in fiscal year 2018 and will likely continue to do so into fiscal year 2019, but the economic conditions in subsequent years remain uncertain.

Currently, growing visitor arrivals, a strong national economy, and the tax cuts associated with the federal Tax Cuts and Jobs Act of 2017 are contributing to a stronger economy. However, the Council on Revenues had concerns about the amount of economic and political volatility as well as evidence of stagnant personal income growth, signaling that the economy may be nearing the end of its current expansionary cycle during the seven-year budget window. Further, the Council noted an increased chance of an economic downturn for fiscal years 2020 to 2024, as reflected in the lower growth numbers for those years.

COUNCIL ON REVENUES – DIFFERENCE IN GENERAL FUND TAX REVENUES BETWEEN FORECASTS ON MARCH 13, 2018 AND JANUARY 8, 2018 (In \$ Millions)				
	FY18	FY19	FY20	FY21
COR 03/13/18	\$6,649.9 5.3%	\$6,949.2 4.5%	\$7,227.1 4.0%	\$7,516.2 4.0%
COR 01/08/18	\$6,599.4 4.5%	\$6,883.2 4.3%	\$7,158.5 4.0%	\$7,444.8 4.0%
Difference	\$50.5	\$66.0	\$68.6	\$71.4

PART III. COMMITTEE'S PRIORITIES

Your Committee has worked diligently to create a responsible financial plan that includes a supplemental budget that continues to fund critical services and programs. Your Committee looked at ways to cut costs, reduce spending, and put forward bills to generate revenue. Together, this financial plan will eliminate negative earnings for the State in fiscal year 2018-2019 and achieve positive earnings in the overall state financial plan by fiscal year 2021-2022 – one year earlier compared to the current state financial plan.

Additionally, per the 2016 State Reserve Policy that recommends having ten percent of the general fund balance on hand, your Committee has invested \$125,000,000 into the Emergency and Budget Reserve Fund to work towards achieving a balance of \$700,000,000.

Your Committee believes it is important to limit the growth of government and reduce duplicative services. Where applicable, government agencies should be working with each other to provide services to Hawaii's residents. With that in mind, and incorporating each department's supplemental budget requests, your Committee reduced vacant positions to maintain the position ceiling identified in Act 49, Session Laws of Hawaii 2017.

Your Committee understands that there are many competing needs that the State must address. Your Committee recognizes the State's role in overseeing and managing a range of services for **our kupuna**; addressing the issues surrounding **homelessness**; investing in the development of **affordable housing**; funding **early childhood education**, **early college** programs, and the **Hawaii Promise** program; and making preparations to scale up our **farm-to-school** program statewide.

PART IV. OPERATING BUDGET

Accounting and General Services

The Senate Draft of the executive budget adjusts the Department of Accounting and General Services' appropriation for fiscal year 2018-2019 by adding \$5,524,601 in general funds and reducing \$22,175,198 in non-general funds.

The Administration's request adds \$114,242 in general funds and reduces \$21,735,000 in non-general funds in fiscal year 2018-2019.

Your Committee recognizes the Department's role in overseeing and managing a range of services for the State, including payroll. The Department has completed integration testing and is currently deploying the new statewide payroll and time and attendance systems. In order to provide essential support for the Department's most basic functions, your Committee approves \$284,190 in general funds for full-year funding of personnel to fully implement the centralized system that accurately accounts for employee attendance and remuneration.

Your Committee acknowledges and supports statewide compliance efforts by the State Procurement Office. Therefore, your Committee approves \$118,872 in general funds for salary parity and compensation for increased duties. Similarly, your Committee supports the efforts of the Office of Information Practices and approves \$115,000 in general funds for salary parity.

Your Committee also provides other necessary personnel and needs for the Department, including three positions and \$280,000 in general funds to the Rapid Transit Authority for construction management audit services, ensuring fiscal and legal compliance.

Agriculture

The Senate Draft of the executive budget adjusts the Department of Agriculture's appropriation for fiscal year 2018-2019 by adding \$10,144,376 in general funds and \$725,900 in non-general funds.

The Administration's request adds \$882,592 in non-general funds in fiscal year 2018-2019.

Your Committee recognizes the Department's role in overseeing and managing a range of services for the State, including farming. Two funds that perpetuate Hawaii's small farmers, the agricultural loan revolving fund and the water infrastructure special fund, will receive additional funding.

In addition, your Committee has worked diligently to identify ways to support local farmers and increase Hawaii's food production. Your Committee provides \$368,000 for performance testing crop trials on some of Hawaii's most highly imported food crops and \$350,000 for a local papaya study to identify factors that affect the quality of local papaya and establish protocols to enhance the marketability of local papaya.

Your Committee also recognizes the Department's responsibility to care for the environment by protecting native lands and species. Your Committee provides \$1,000,000 for invasive and hazardous plant mitigation and establishing a pilot project for environmental protection pesticide drift buffer zones.

Your Committee also provides two new positions and funding for the Farm-To-State program, aiming to leverage local farmers to provide healthy meals for Hawaii's schools and other state facilities. Your Committee notes that the Department of Agriculture can expand its support for the Aina Pono program to enhance the identification of local farmers for which the State can be a consistent customer.

Attorney General

The Senate Draft of the executive budget adjusts the Department of Attorney General's appropriation for fiscal year 2018-2019 by adding \$1,262,453 in general funds and \$170,973 in non-general funds.

The Administration's request adds \$4,086,371 in general funds and \$36,500 in non-general funds in fiscal year 2018-2019.

Your Committee recognizes the Department's role in overseeing and managing a range of services for the State, including legal action. The Department's litigation fund received an appropriation of \$5,000,000 in fiscal year 2017-2018, of which \$1,200,000 has been encumbered. Therefore, your Committee approves a \$3,800,000 reduction of moneys in this fund for fiscal year 2017-2018, while adding \$600,000 for fiscal year 2018-2019 in the base budget.

Your Committee approves the transfer of the Office of Child Support Hearings' positions and funds from the Child Support Enforcement Agency (CSEA) to the Legal Services Division. The transfer is necessary because the Office of Child Support Hearings is in an inherently adversarial position to the CSEA as some of the Office's decisions in child support disputes can contravene the efforts of the CSEA.

Your Committee also provides a seed amount of \$300,000 for Law Enforcement Security Operations to prepare for unforeseen or large events that require additional security personnel.

Business, Economic Development, and Tourism

The Senate Draft of the executive budget adjusts the Department of Business, Economic Development, and Tourism's appropriation for fiscal year 2018-2019 by adding \$7,265,790 in general funds and reducing \$97,554,745 in non-general funds.

The Administration's request adds \$5,536,362 in general funds and reduces \$1,799,953 in non-general funds in fiscal year 2018-2019.

Your Committee recognizes the Department's role in promoting the growth and diversification of Hawaii's aerospace industry. Therefore, your Committee provides \$300,000 in general funds to the Office of Aerospace Development to restore funding for the unmanned aerial systems program and for the Pacific International Space Center for Explorations Systems.

Your Committee also provides \$400,000 in general funds for regional economic development plans for each county to help identify jobs in urban and rural areas based on development or industries within each county and encourages the Department to work with others to develop K-12 career pathways for each school that emphasizes the skills necessary to meet the State's specific industry needs.

Your Committee acknowledges the need to further leverage limited governmental resources through public-private partnerships. These partnerships will help state and local government in undertaking certain capital improvement projects in a more cost-effective and efficient manner by allowing more innovative project delivery methods. Your Committee provides five positions and \$400,000 in general funds to promote public-private partnerships.

Budget and Finance

The Senate Draft of the executive budget adjusts the Department of Budget and Finance's appropriation for fiscal year 2018-2019 by reducing \$81,329,447 in general funds and adding \$2,064,160 in non-general funds.

The Administration's request reduces \$81,262,363 in general funds and adds \$1,761,642 in non-general funds in fiscal year 2018-2019.

Your Committee recognizes the Department's role in administering the retirement and survivor benefits program for state and county employees. To help manage the retirement system's resources, your Committee approves one position and \$2,064,160 in other funds for an internal audit, computer and office automation, and for compliance.

Due to recently revised actuarial projections, your Committee approves reductions in contributions to debt service, retirement benefits, and health premium payments, saving \$81,329,447 in general funds.

Commerce and Consumer Affairs

The Senate Draft of the executive budget adjusts the Department of Commerce and Consumer Affairs' appropriation for fiscal year 2018-2019 by adding \$9,478,840 in non-general funds.

The Administration's request adds \$1,360,396 in non-general funds in fiscal year 2018-2019.

Your Committee recognizes the Department's role in maintaining and disbursing the Time Warner reserve account. In order to provide essential infrastructure and support for the State's Institutional Network, your Committee approves \$8,200,000 in non-general funds to be distributed among the Department of Education, the University of Hawaii, and the Office of Enterprise Technology Services.

Your Committee also provides two positions and \$1,210,906 in non-general funds to support a market regulation program for research, analysis, and enforcement. This federal grant will allow the Department to increase expert working knowledge and enforce consumer protection in the health insurance marketplace.

Your Committee acknowledges the need for a Deputy Securities Commissioner to assist with day-to-day operations. Therefore, your Committee approves one position and \$85,029 in non-general funds for the Business Registration and Securities Division.

Defense

The Senate Draft of the executive budget adjusts the Department of Defense's appropriation for fiscal year 2018-2019, by adding \$1,820,475 in general funds and reducing \$28,248,482 in non-general funds.

The Administration's request adds \$1,890,583 in general funds and reduces \$27,685,513 in non-general funds in fiscal year 2018-2019.

Your Committee recognizes the importance of honoring and supporting Hawaii's military veterans. Your Committee has provided \$200,000 in general funds to the Hawaii State Veterans Cemetery for repairs and maintenance that will improve visitor logistics and safety.

Your Committee supports the Department's efforts to strengthen statewide security and provides two positions and \$135,000 in general funds for the Hawaii State Fusion Center, which provides a nexus of collaborative information from national and in-state agencies, enhancing the ability of local officials to better protect their communities.

Your Committee is also committed to disaster-preparedness and emergency response and approves \$238,000 in general funds for repairs and maintenance of the State Emergency Operation Center facilities. Your Committee also provides \$150,000 in general funds to the Hawaii Emergency Management Agency for critical information technology infrastructure that will improve technical capacity to disseminate information and decrease errors.

Education

The Senate Draft of the executive budget adjusts the Department of Education's appropriation for fiscal year 2018-2019 by adding \$32,556,148 in general funds and \$150,000 in non-general funds.

The Administration's request adds \$27,196,978 in general funds for fiscal year 2018-2019.

Regular Education

Your Committee acknowledges the success of investing in our keiki through initiatives such as the Hawaii Keiki and Early College programs and commits \$2,800,000 and \$1,000,000, respectively, in general funds for the continued funding of these programs.

Your Committee recognizes the difficulties of teaching without adequate materials or equipment and allocates \$3,133,234 in general funds for equipment for new school facilities and \$3,106,500 in general funds for instructional materials and equipment for special education classroom teachers statewide.

Juvenile delinquency and juvenile arrests are often a result of the inability to keep students engaged during and after school. To combat this problem, your Committee authorizes one position and appropriates \$2,084,000 in general funds for two existing alternative learning centers and a third new alternative learning center in the Nanakuli-Waianae complex. Your Committee also appropriates \$1,600,814 in general funds for after-school programs for intermediate and middle school students.

Your Committee recognizes that travel for interscholastic athletic competitions can be cost prohibitive for some students. Therefore, your Committee approves \$850,000 in general funds and \$150,000 in private funds for athletic travel statewide.

Libraries

Your Committee recognizes the importance of having safe spaces in our communities to encourage learning and development. To help with this effort, your Committee approves \$500,000 in general funds to raise the base budget for repair and maintenance to \$1,000,000.

Your Committee is also aware of a decline in libraries' revenue and an increase in prices for books and materials as a result of the rising demand for electronic books. Therefore, your Committee approves \$500,000 in general funds to raise the base budget for books and materials to \$750,000.

With the opening of the new Nanakuli Public Library, your Committee approves an additional 3.5 positions and \$103,656 in general funds. As a result, the new state-of-the-art library, scheduled to open shortly, will be fully staffed, able to open six days a week, and provide special services, including business development and cultural programming.

Charter Schools

Your Committee is committed to supporting Hawaii's public charter schools and provides \$1,317,937 in general funds based on the per-pupil allocation for charter schools.

Your Committee recognizes the importance of attracting and retaining qualified teachers in our charter schools and provides \$667,050 in general funds for the Hard-to-Staff incentive and \$142,000 for the National Board Certified Teachers incentive. This will help charter schools provide a competitive salary for teachers.

Early Learning

Your Committee recognizes the efforts of the Executive Office on Early Learning and the Early Learning Board and supports the development of pre-kindergarten programs. Therefore, your Committee approves \$68,000 in general funds for operating expenses including travel and computer equipment.

Governor

The Senate Draft of the executive budget adjusts the Office of the Governor's appropriation for fiscal year 2018-2019 by adding \$20,000 in general funds.

The Administration's request adds \$892,285 in general funds in fiscal year 2018-2019.

Your Committee recognizes the importance of the Governor's role as an ambassador of Hawaii and provides \$20,000 in general funds to host a meeting of the Western Governors' Association in the State of Hawaii.

Health

The Senate Draft of the executive budget adjusts the Department of Health's appropriation for fiscal year 2018-2019 by adding \$38,700,931 in general funds and reducing \$3,297,838 in non-general funds.

The Administration's request adds \$57,131,622 in general funds and reduces \$3,206,657 in non-general funds in fiscal year 2018-2019.

Your Committee recognizes the Department's role in overseeing and managing a range of services for the State, including Kupuna Care. Noting the rapidly aging population, your Committee provides \$3,800,000 for the Kupuna Care program and \$4,000,000 for the Kupuna Caregiver Fund. Additionally, your Committee provides \$1,700,000 for aging and disability resource centers on all islands.

Your Committee also recognizes the need to support emergency medical services and those employees who provide first response in emergency situations. Your Committee provides \$3,600,000 towards ambulance services and an additional \$3,000,000 to fund two new ambulances.

Your Committee also provides \$1,000,000 for chronic homeless and substance abuse treatment to combat Hawaii's homelessness issues.

Hawaii Health Systems Corporation

Your Committee recognizes the Hawaii Health Systems Corporation's role in overseeing and managing many of Hawaii's hospitals and provides \$11,200,000 for an operating subsidy.

Further, your Committee provides Hilo Medical Center with \$1,500,000 for a Cardiac Unit and Hawaii Health Systems Corporation with \$5,000,000 to cover unfunded collective bargaining raises from fiscal year 2016-2017.

Human Resources Development

The Senate Draft of the executive budget adjusts the Department of Human Resources Development's appropriation for fiscal year 2018-2019 by adding \$231,080 in general funds.

The Administration's request adds \$101,080 in general funds for fiscal year 2018-2019.

Your Committee recognizes the importance of providing training and development opportunities for state employees and provides \$101,080 in general funds for the Learning Management System.

Your Committee adds one position and \$130,000 in general funds for the State's Chief Negotiator.

Human Services

The Senate Draft of the executive budget adjusts the Department of Human Services' appropriation for fiscal year 2018-2019 by adding \$26,242,775 in general funds and \$14,106,554 in non-general funds.

The Administration's request adds \$32,254,104 in general funds and \$15,710,261 in non-general funds in fiscal year 2018-2019.

Your Committee affirms the Ohana Nui framework to whole-person health and provides \$4,410,000 in general funds and \$6,615,000 in non-general funds for the full restoration of the Medicaid adult dental benefit. Your Committee also provides \$240,000 in general funds for various targeted juvenile justice programs statewide.

Homeless Initiatives

Your Committee recognizes the Department's role in addressing homelessness statewide. To provide services through the Housing First program, Rapid Re-Housing program, Family Assessment Center, and Coordinated Statewide Homeless Initiative, your Committee approves \$7,680,000 in general funds in addition to \$1,000,000 in non-general funds. Additionally, your Committee

approves \$5,750,000 in general funds for homeless outreach, civil legal services, stored property and debris removal services, and "Ohana Zones" pilot project implementation.

Hawaii Public Housing Authority

Your Committee finds the State Rent Supplement Program is in need of supplemental funding and therefore adds \$1,500,000 in general funds for housing payments for low-income recipients.

Labor and Industrial Relations

The Senate Draft of the executive budget adjusts the Department of Labor and Industrial Relations' appropriation for fiscal year 2018-2019 by reducing \$161,658 in general funds and \$3,437,545 in non-general funds.

The Administration's request adds \$47,903 in general funds and reduces \$3,437,545 in non-general funds in fiscal year 2018-2019.

Your Committee recognizes the importance of the Hawaii Labor Relations Board and adds two positions and \$145,000 in general funds for necessary personnel and capacity to handle the growing caseload across the State.

Your Committee also acknowledges the need for operational support for the Office of Community Services and approves \$47,903 in general funds for administrative and legal needs.

Land and Natural Resources

The Senate Draft of the executive budget adjusts the Department of Land and Natural Resources' appropriation for fiscal year 2018-2019 by adding \$2,484,910 in general funds and \$18,718,259 in non-general funds.

The Administration's request adds \$2,201,775 in general funds and \$8,906,222 in non-general funds in fiscal year 2018-2019.

Your Committee recognizes the Department's role in operating and maintaining state parks, trails, and beaches, and approves ten positions and \$1,658,820 in non-general funds for improvements and continued administration as well as \$4,308,554 in non-general funds for lifeguard services and park management. Your Committee also acknowledges the need for marine resources monitoring and ocean safety and therefore provides \$2,600,000 in non-general funds.

Your Committee also provides nine positions and \$4,423,706 in special funds for invasive species removal and the implementation of the Hawaii Interagency Biosecurity Plan in addition to \$500,000 in non-general funds for the Native Ecosystem Protection program and three positions, and \$73,422 in general funds for ecosystem protection and restoration.

Your Committee acknowledges the need for an enforcement academy and computer-aided dispatch center and therefore approves five positions and \$553,938 in general funds for the Division of Conservation and Resources Enforcement.

Finally, your Committee approves necessary personnel and capacity for the State Historic Preservation Division, including seven positions and \$756,046 in general funds and \$300,000 in non-general funds for staffing and operational needs.

Lieutenant Governor

The Senate Draft of the executive budget adjusts the Office of the Lieutenant Governor's appropriation for fiscal year 2018-2019 by reducing \$73,880 in general funds.

The Administration made no requests in general funds for fiscal year 2018-2019.

Your Committee recognizes that the previous Lieutenant Governor had special arrangements for travel to his home island of Maui that required additional personnel. With his resignation, your Committee reduces one position and \$73,880 in general funds.

Department of Public Safety

The Senate Draft of the executive budget adjusts the Department of Public Safety's appropriation for fiscal year 2018-2019 by adding \$14,235,021 in general funds.

The Administration's request adds \$8,501,084 in general funds and reduces \$6,589,465 in non-general funds in fiscal year 2018-2019.
