The Chair then called upon Chief Justice Mark E. Recktenwald of the Supreme Court, State of Hawai'i, to the rostrum to administer the oath of office to the newly elected members of the Senate.

Chief Justice Recktenwald administered the oath of office to the newly elected members of the Senate, who were standing at their respective desks.

The Roll was then called by the Temporary Clerk showing all Senators present.

Nominations for officers of the Senate being next in order, Senator Inouye placed in nomination the name of Senator Ronald D. Kouchi for President of the Senate, seconded by Senator Nishihara.

Senator Kanuha moved that the nominations be closed, seconded by Senator Kidani.

The motion to close the nominations was then put by the Chair and carried unanimously, and the Temporary Clerk was directed to cast a unanimous ballot for Senator Ronald D. Kouchi as President of the Senate.

The ballot having been so cast, Senator Ronald D. Kouchi was declared elected President of the Senate of the Thirtieth Legislature of the State of Hawai'i, Regular Session of 2019.

The President addressed the members of the Senate and guests as follows:

“Aloha! Thank you, Senator Kahele, for getting us off to such a smooth start. I would like to acknowledge and recognize all of our special guests, but, in respecting people's time, I would ask the Clerk to insert the names that were read off by Senator Kahele in the introduction as if I had just gone through everyone again, and then I'd like to acknowledge all of the special guests on the floor and in the gallery, and I notice that we have an array of councilmembers—would the councilmembers please rise?

“What I'd like to do is begin my remarks this morning by saying the same thing I said two years ago: I am the one to speak on behalf of the Majority today, and I know if my colleagues had the chance to speak, the first thing that they would say is ‘thank you’ to each and every one of their family members, to their friends and their tremendous supporters who sacrifice so much and who work so hard to allow us to sit in the seats we now occupy and have taken the oath of office for, so, to each and every one of you, thank you so much.

“I have the privilege, as the one who speaks, to share a story, so I would be remiss if I didn't introduce to you, sitting next to my mom, Carolyn, one of her best friends, Kazui Nakata, with whom my mom worked with as employees of First Hawaiian Bank. From 1982, when I first decided to run for the Kaua'i County Council, through all of my campaigns, this woman has done everything from sign-waving; canvassing; frying fish tempura, chicken; to opening up her big garage because we couldn't afford to buy t-shirts, and we silk-screened the t-shirts to get our campaign underway back in 1982. And how do you find the words to say thank you to her and so many others like her, who have worked so hard, that have given me the

opportunities that I have enjoyed today. I had a chance to meet my wife, Joy, while I was in office. We had our two sons, Dan and Egan, who are joining us here on the stage this morning, while I was in office. When I first started as a councilmember, I simply wanted to create economy for young people like myself to move back to Kaua'i, and then I became married, and then I started having children, and my view of what my life's mission was as a member of the council and now the Hawai'i State Senate dramatically changed, and now my greatest passion is to create a Hawai'i where each and every one of our children would make the choice to come home. We can't force them to come home because we educate them; we create the better path for them than we had, and when they become successful, then they make choices because they are good enough to decide what to do. I had always lamented at my 50 percent success rate: Our younger son, Egan, upon finishing college on the mainland, chose to come back and work on Kaua'i, and it was a blessing to have him back home and see him every day. Now, I am so proud to stand before you today as a 100-percent success story: Yesterday, our son Dan moved back from the mainland after working there for six-and-a-half years, and started working here in Honolulu. Just because I have reached my goals doesn't mean that I'm not going to fight to make sure that each and every one of us can feel as happy and as proud as my wife, Joy, and I are. Yesterday, dropping him off at work, I had to buy him breakfast, so Dan being home may result in me taking a little economic hit, but it's certainly worth it. So I stand here more committed than ever to create that Hawai'i that our children will choose to come back to.

"Before I get into the issues that face this legislature, I did want to introduce one special guest who's sitting up here with me on the stage. Senator English and I, a couple of weeks ago, had the opportunity to attend a leadership conference in New York City for leaders across the country, and one afternoon, they put us on a bus and we went to the 9/11 memorial and we got to hear from the deputy director of the memorial, who lost a brother that day in the towers. We also heard from a docent who was a New York City firefighter, one of the elite rescue firefighters who helped so many people get down through a stairway to safety that day, and when the building came down on him, he sustained injuries that disabled him and forced him into retirement, and he now volunteers as a docent, and he lost the other five members of his company who responded that morning. I share that with you because I'd like to ask Dan Moynahan, the ex-firefighter docent who was injured as a 9/11 responder from New York City, who's with us today, to please stand, and let's recognize Dan. Thank you for being with us here, Dan.

"The first issues that I'd like to highlight that we will be tackling in the Legislature, acknowledging the work of our first responders, is, we have not forgotten that, while the lava has taken a timeout, the devastation on the Big Island is left there for the residents to deal with. There is so much more work to be done. To Mayor Kim, the councilmembers who are here, I can tell you the members of your Senate delegation have been in continuous contact with the rest of their colleagues here in the Senate, and we are committed to work with you in continuing to help the Big Island recover. We are not going to be strong if each one of our counties aren't strong, and so we want to see you prosperous and healthy again. Mayor Carvalho, who sang "Hawai'i Pono'i," was the Kaua'i mayor dealing with the world-record floods on Kaua'i in April, we have not forgotten that Kaua'i needs help. The devastation of the rains that caused the flooding also greatly impacted east Honolulu, and they continue to need help. We will be looking at what are the appropriate resources and how we can work with you to make sure that each and every one of your areas recover.

"At the top of the list, I'm sure we're going to have some vigorous conversation on legalizing cannabis, and we look

forward to those bills going through the appropriate committees and going through the process. We are going to also have a serious discussion about the incremental increase of our minimum wage. We have reached \$10.10, which was the last incremental raise the last time we passed the minimum wage bill, and so that will be on the list.

"But, most importantly, we kind of joke around when we get to the portion of the program of certifying member credentials because, what's the big deal? You know, the election is over, but this year, there were two races whose results were contested. The Hawai'i Supreme Court recently upheld Senator Fevella's victory but has not decided one council race here on O'ahu. To rectify the problem of having Senator Fevella be in limbo for such a long period of time and to address the remaining unresolved council race, I believe we need to do two things: One, last year, we passed vote-by-mail for Kaua'i to be the experiment or pilot project; I believe we need to do vote-by-mail statewide. Two, we need to look at our election laws because they are out of date, and they were written at a time when voting was done in a different way, and we need to make sure that, whether it's an automatic recount or some other mechanism, that we don't leave legislative bodies or executive branches in limbo because we cannot resolve the election results in a timely fashion, and I believe we need to give clearer direction to the courts about what that process should be, and so I hope that we'll be able to achieve that goal.

"Clearly, homelessness continues to be at the top of the agenda, and we made an unprecedented commitment to funding affordable housing last session. That was the first step. Clearly, we need to continue the effort to fund affordable housing, and having permanent affordable housing is the key to having the transition from homelessness into having housing that they can afford to live in. We still recognize there are many reasons for homelessness and why people aren't in homes, and so it needs to be a multi-tiered approach; there is no one-size-fits-all.

"We need to continue to support our kūpuna. If you aren't aware of it, we have the oldest demographic population of any state in the country. The other good news is, at 80.3, Hawai'i has the longest life expectancy; California, at 80, is the second. And while it's great that we have the technology and the lifestyle that allows this long life, we need to deal with all of the other things that happen as you get older: Caregiving; how do we ensure that you have now planned adequately for retirement when your initial savings as a young person didn't envision your ability to live so long? And your options shouldn't be to just keep working and not have an opportunity at some point to enjoy life. It should be to work with everyone to have them on a financial plan to ensure that there is an opportunity to enjoy some of the fruits of their labor and spend time with their family. I'm not going to put any pressure on my single sons, but, you know, I would not mind being a grandparent sometime soon. (Are they smiling?)

"We talk about working with the administration. For these homelessness programs, for our affordable housing programs, taking care of our kūpuna, funding the pre-K programs to start them on the right path to education, the support for K through 12, as well as our community colleges and universities, we need money. Now, we sent a bill to the governor several years ago to collect the taxes that aren't being collected from Airbnb in the hopes of getting to alternative accommodations. I will let the governor know I stand ready to work with him on finding a bill that will allow us to collect these funds so that we can deliver the money to create the lifestyle or opportunities that our seniors deserve and to create the opportunities for our children to get the education that they need and that they deserve so they can compete with anybody in the world.

"But at the top of my list is my worry about the economy and where we're going next year. Most of the financial analysts on

the major financial network news shows say that a recession is coming. And so I appreciate Senator Dela Cruz and the philosophy that he has taken about A) being fiscally conservative, to make sure we have the money before we spend the money, and B) if these are the great programs we want here, then he needs to see a column of what it is we're going to do to create the economy and create the revenue so that we can fund the desired programs. When I saw the governor's budget message, I was excited. Normally, in the first year of the biennium, we put in \$1.2 billion for capital improvement programs. He is suggesting \$2 billion, and \$2 billion says about fixing our prisons; \$2 billion says *investing in affordable housing*; \$2 billion says *investing in the infrastructure that is sorely lacking here, improving classrooms, and supporting the rest of our community*. But, most importantly, if the recession is coming, and times get tougher, and the construction bids get more competitive, then the government gets better pricing on our projects, and we can stretch the \$2 billion to do a lot more than what we originally hoped. And, more importantly, at a time when nobody else is putting money in the economy, the State of Hawai'i will be putting the money in the economy, making sure that people are going back to work, that people are spending those dollars in our economy, so that we can have a healthy and vibrant Hawai'i.

"The second thing, and this comes from the governor's inaugural remarks: Technology is the future for us, and Senator Keohokalole—I've been practicing that and debating whether I wanted to be brave and go there, but there's no way for me not to mention technology and to mention what I am expecting of Jarrett. He is brand-new to the Senate, and he and Stanley Chang and Dru Kanuha are three thirty-somethings, which we almost never have in the Senate, but he has a wealth of knowledge in the technology field. But, even more importantly, if you talk to him, he has an incredible passion about what he wants to do. And so I had asked the caucus to take technology out of business and economic development, tourism, not get it lost behind tourism and other activities, but put it out on its own, get someone with the passion to lead it, and let us run with technology because I do believe, like the governor, that technology is the next frontier for us to derive great economic success, and so I look forward to great things from technology.

"But, last and most importantly, and I talked about this two years ago, when the sugar plantation closed on Maui, and what was going to happen on the central plain, what was going to happen to all of that land, and I had envisioned farming activity, and I envisioned biodigesters, which would be able to create fertilizer, create feed for livestock, or create energy because what you put in as additives to the fuel stock determines what comes out at the backend of the biodigester. I am pleased to have former Lieutenant Governor Shan Tsutsui and Tiare Lawrence of Mahi Pono sitting with me here and their commitment to make sure that the agriculture activity thrives on the central plain of Maui; how about a big hand for them? The reason why I bring this up is that I am most passionate about a program the former lieutenant governor started, which is Farm to School. They started with three schools in Kohala; they did a few schools in Mililani. We have added positions to the Department of Ag and the Department of Education to ensure the continuation of this program, and we had students help create menus; we sourced products from local farmers and ranchers. I listened, at the most recent Farm Bureau meeting, to the deputy director of Agriculture tell the farmers of Hawai'i that, if you convince the Legislature to give us the funding we ask for, we will meet the goals of doubling food production in Hawai'i. Well, I got up after her and said, no, that's not how we're going to get there. The path there is easy: The Department of Education serves 100,000 meals a day, it is the largest restaurant in the State of Hawai'i. We have prisons that we run and feed inmates, and we have state-run hospitals with

cafeterias, where we feed patients and workers if they choose to buy our food. We have the land in the central plain of Maui now, all of the land on the Big Island. We have nonprofits that have land on Kaua'i and, as the global footprint is shrinking for the seed companies, they are returning land to ADC and private landowners across this state, and growing less seed corn, that makes opportunities available for us to plant food that we consume. And we control all three of those silos, and I submit to the governor and his administration that I stand ready to work with you to see how we would be able to interface with each other and make all of this work. I am frustrated and tired of hearing about why we **cannot** do it, and I would like to go to work with people who are going to tell me **how** we're going to do it, and if I get upset because it's not going fast enough, it's not about who I supported for what office. It's about my desire to support the people of Hawai'i; it's my desire to see our children who are going to school, that they have the proper meals so that they can maximize their potential and perform at their best. And I am aware that for many of those students, their school lunch is either the best or possibly even the only meal they will be having that day, so it shouldn't be something that they want to throw in the trash. It should be something that they enjoy eating, something that will nurture their minds and bodies and to have them perform at their optimum levels. With this model, we could then utilize the prisons and utilize the hospitals to expand our food production to reach our stated goals.

"So, next week, on the 22nd, on Kaua'i, at Kauai Veterans Memorial Hospital—I want to make your mouth water—and on the 23rd at Samuel Mahelona Hospital, they will be serving sautéed shrimp with butter garlic reduction and fresh parsley, ginger-marinated sweet potato tempura shrimp, stir-fried shrimp with oyster sauce, Cajun-style shrimp and andouille sausage gumbo, shrimp cakes with sweet chili aioli. The sides are a luau with poi gravy, taro, something I cannot pronounce (I think it's Turkish), 'ulu chips, 'ulu chowder, and they are featuring locally sourced products from Kaua'i Shrimp, Kuamo'o Farms, Aloha 'Āina, and Hawai'i 'Ulu Co-op. To all of my colleagues, if you were wondering what I was doing in the interim, it was trying to get this off the ground and lift it up. I encourage each and every one of you not to settle for anything less, and let us all run together and make sure that this happens because it's not just about feeding our children, providing a meal for our inmates, or taking care of our patients and workers in the hospital, but it's ensuring that we are reinvesting, cultivating, and keeping our fields green, not creating, like the problems in Lāhainā, where you have fallow land and brushfires that threaten local communities. We need an active agriculture, and we need to revitalize the economy, and, last and most importantly, it will create incredible renewable energy opportunities because there is nothing that should be wasted. When we do the value-added program, all of the waste that we don't use should go into that biodigester so that we can create the byproducts and we can create the energy that will show the way about how we can lead for the rest of the world.

"We have adopted the 100-percent-renewable-energy goal for Hawai'i, and I would be remiss if I didn't close by bragging about Kaua'i. Last week, they just had the blessing for the opening of the AES solar battery farm; Kaua'i has now hit 50 percent renewable energy to the grid five years ahead of KIUC's strategic plan. With their newest solar program and hydro projects that are coming online, it is hoped, by the end of 2019 or early 2020, that Kaua'i will have hit 70 percent renewable energy to the grid, so it is not a theory; it's not something that they just talk about. On Kaua'i, we are leading the way and showing you how to get it done, so I look forward to working with you and helping each and every one of you achieve the kind of goals that we've been able to achieve on Kaua'i. So, I would like to close by simply quoting Gandhi: 'The best way to find yourself is to lose yourself in the service

of others.' I hope we all achieve that for the next session for the Hawai'i State Senate. Mahalo."

At this time, the President called on Senate Minority Leader Kurt Fevella.

Senator Fevella rose to present the following remarks:

"Mahalo, Mr. President. It's an honor to be here; thank you guys very much. I just want to say aloha, my fellow senators and honored guests, and ladies and gentlemen. I thank the Heavenly Father, for every day, I keep waking up in these beautiful islands that we call home, especially our hometown of 'Ewa Beach, and giving me this opportunity to deliver this Minority speech, being here, representing them. I just want to thank and honor my wife, Donnalee; my daughter, Abigail; and my dad, David; and all my family and friends from 'Ewa Beach. Thank you. Since I've been here on November 7th, I've just had a lot of love and aloha from every one of you here, my colleagues, staff, and people who work within the Capitol every day. It was just so overwhelmed, coming from a community like 'Ewa Beach and, of course, working in the public school system; to come here, it was very overwhelming, walking around this big building and not getting lost. Having a lot of friendly faces and a lot of aloha, especially from our Senate President, our governor, Lieutenant Governor Josh Green, you showed me a lot of love when I came here, and advice, and I took that advice, about being myself, who I am and my community, and what got me here today. So, getting on to: We're not like the mainland, I always said that to people that I meet here. We're not like Washington, D.C., because we're one family, one 'ohana. We live on a rock in the middle of the Pacific. At the end of the day, we still call each other family. Whether we agree to disagree, we all live as one and one 'ohana, so, for me, I just want to thank each and every one of you guys here, especially the legislators that I'm going to be working with; it's an honor to be here.

"That is why I'm very concerned on how we're going to achieve increasing the minimum wage. I believe, instead of raising the minimum wage across the board, we should start with a pilot program, starting with our government workers first. Also, we need to take care of our kūpuna; we need to pursue cutting taxes for those 65 and older. We must work together in finding ways to help our Hawaiian families with chronic health issues. We must encourage our young people to stay in school and graduate. The economy and the visitor industry are very important, and let's move quickly on the airline corporation bill and work hard with our House of Representatives in getting this to the governor's desk and asking him to sign it.

"I will oppose any raise of any transient accommodation tax, and I will work hard with all of my colleagues to collect taxes from currently illegal rentals that are in our community, pushing local families and taking away their quality of life. These homes that come up in our community, especially in our community of 'Ewa Beach on 'Ewa Beach Road, I particularly say that because, when I grew up there, I knew every single person there by name—rode my bike there; I don't swim, but I go to the beach there and have fun there. Now, because of this kind of lack of taxing and lack of accountability, these homes are popping all over the communities, not just in mine. But this is why I am here today to try to work with my colleagues to try to figure out a way in collecting these fees that are not being paid so that we can take care of family and friends in the community.

"We must commit to preserving and protecting our environment. We must not depend on fossil fuels. I support photovoltaic projects and creative energy and expanding our support by buying local first—we need to buy local first, guys. Speaking of, as a proud graduate of public schools, we need to ensure that our children have the best classrooms and facilities

to make their education meaningful. We must also give them opportunities to earn their college degrees here at home. We have outstanding public universities, and we should make education affordable for more people. I will seek to have UH West O'ahu expand their curriculum to provide Native Hawaiian students with the means to bear the rising costs of college. I support the completion of the Honolulu rail transit project in its current configuration—this is the alternative of the transportation for my family and friends in 'Ewa Beach and the State of Hawai'i.

"Enhancing the quality of life: I have worked many years in serving homeless in 'Ewa Beach. As a legislator, Governor Ige and his administration has made great progress in helping the homeless. From my personal observation, many of our homeless do not want to go on a list and to be sent to downtown Honolulu; they want to stay in their comfort zone in the area where they have their family and their close network, and sending them from 'Ewa Beach or Wai'anae to town, it doesn't make sense, and that's the reason why they prefer to be homeless. We need to also expand our homeless base shelters and communities and especially affordable homes, making it really affordable for our people to have housing.

"Wouldn't you agree with me that Hawai'i is the most beautiful place on Earth? Wouldn't you agree with me that one of the reasons it's so beautiful is because of its people and the aloha spirit that binds each and every one of us together? Therefore, in closing, I just want to thank each and every one of you, especially the community of 'Ewa Beach for making their voices heard. I just want to pray for each and every one of us here so that we can work closely together and letting us know that the main reason we're here is for our people and our community. So, in closing, I just want to ask our Lord and Savior, Jesus Christ, to bless this chamber and this capitol and the people who come and visit here from this Aloha State. I want to ask Him to cover us, to keep us and teach us to be humble and loving to one another, as we should be because we live in the best State of Hawai'i, the Aloha State. I ask Him again, in closing, to love one another like we want each other to be loved, trust each other like how we want each other to be trusted, and we go on and do His great works because, at the end of the day, everybody here, needs to have a better quality of life in the community, especially living for the rest of our life in the most beautiful State of Hawai'i. Thank you, and God bless."

The President responded:

"Thank you, Minority Leader Fevella, and I appreciate your desire and willingness to find ways to work together. I can tell you, from what I heard in your remarks, you have my full support in trying to get that airport authority bill to the governor's desk for signature."

The President then acknowledged former State Senator Suzanne Chun Oakland, who was seated in the gallery.

At 11:03 a.m., the Senate stood in recess subject to the call of the Chair.

At this time, Senator Kim remarked on the life of Malani Bilyeu, co-founder of Kalapana, and introduced a special video presentation in tribute of the music icon.

The members of the Senate and guests were entertained by the music of Nā Hoa and an impromptu hula from Kumu Hinaleimoana Wong-Kalu.

Senator Kidani celebrated the extraordinary talent of Miss Aloha Hula 2018 Shalia Kamakaokalani and 2019 Grammy-nominated Hawaiian music trio Nā Hoa, who then entertained the members of the Senate and guests with music and hula performances.

Senate President Kouchi informed the members and guests that the Senate had adopted a number of sustainable development goals, and encouraged them to share the information with others. He then thanked Kumu Hinaleimoana Wong-Kalu for her wonderful impromptu performance.

Senator Fevella introduced local music group Kapena – Kelly Boy DeLima and his children Kapena, Kalena, and Lilo – who performed several popular songs for the members and guests.

The Senate reconvened at 12:13 p.m.

The President thanked the entertainers, then announced that nominations were in order for the office of Vice President of the Senate.

Senator Dela Cruz placed in nomination the name of Senator Michelle N. Kidani for Vice President of the Senate, seconded by Senator Baker.

Senator Chang moved that the nominations be closed, seconded by Senator Gabbard.

The motion was then put by the Chair and carried unanimously, and the Temporary Clerk was directed to cast a unanimous ballot for Senator Michelle N. Kidani as Vice President of the Senate.

The ballot having been so cast, Senator Michelle N. Kidani was declared elected as Vice President of the Senate of the Thirtieth Legislature of the State of Hawai'i, Regular Session of 2019.

2019 SENATE LEGISLATIVE PROGRAM

We, the Hawai'i State Senate, are devoted to the protection and sustainability of our people, communities, natural resources, and economic prosperity. The 17 United Nations Sustainable Development Goals are key factors in achieving these objectives and are at the heart of the United Nations' 2030 Agenda for Sustainable Development, which is a plan of action for peace and prosperity for people and the planet.

SUSTAINABLE DEVELOPMENT GOALS

Hawai'i remains at the forefront in addressing sustainability and climate change challenges. During the Regular Session of 2018, we furthered our role as a global leader by adopting Senate Resolution No. 11, which endorses and adopts the 17 Sustainable Development Goals in the Senate.

In the upcoming Regular Session of 2019, we will continue to advance high priority areas of policy in Hawai'i that will improve our communities.

The Speaker then presented to the members of the Thirtieth Legislature and guests the Honorable David Y. Ige, Governor of the State of Hawai'i.

Governor Ige presented the State of the State Address as follows:

"Mister Speaker, President Kouchi, former governors, distinguished justices of the courts, representatives of our congressional delegation, members of the Hawai'i State Legislature, elected officials, military leaders, honored guests, and all of you who took the time to be with us this morning: Aloha. Like the start of each new year, the State of the State Address offers us an opportunity to both look back at where we've been and forward to where we want to go. The decisions we make today touch all of our lives. They are informed by our past and will affect the lives of many far down the road. As I look around the room and see the former governors, I am reminded of the hard choices they made during their tenure and how much we benefit from those decisions today. Yet the view from this crossroad is often obscured by our busy schedules and the day-to-day concerns we face as parents, students, employees, and community leaders. But it's a view that we need to pay close attention to, and perhaps look at from other perspectives.

"About a minute past midnight on January 1, 2019, Alekah Obra Garcia was born to Clarissa and Johnson Garcia of Kona: The first baby of the new year for the State of Hawai'i. In 2037, when she and her classmates graduate from high school, some of us will be long gone. Perhaps one of your grandchildren will be among the class of 2037. How will they view the decisions we make today? How will they grade the schools and education we provided for them? How will they assess the job and career opportunities that will be available to them? What will they say about the condition in which we left our ocean, beaches, and rainforests? How will they view their past and their children's future? Will they look back with reverence the way we do at our parents' generation, or will they look back with disappointment and regret? Too often, when we talk about the future we speak

in macroeconomic terms. But, for me, the future is personal. In many ways, it has to be, if we want to make good and wise decisions. The future has a name, and it is the name of your son or daughter, your grandson or granddaughter. But whether you have children or not, I know many of you feel the same way about Hawai'i. The future is personal because it is about our home. We choose one path over another, believing it will lead to a better, more secure, more nurturing Hawai'i. We make choices for Alekah's sake; we make choices for our children's sake.

"Fortunately, we do so at a time when our foundation is strong. Hawai'i is once again ranked the healthiest state in the nation. That's due in part because our healthcare coverage is among the broadest and most enduring. Our unemployment rate is among the lowest in the country. Our visitor industry is moving toward another record-setting year, and both individual personal income and the state's gross domestic product have been steadily growing over the years. For four years, we have worked hard to put the state on sound financial footing by building our reserves and paying down our unfunded liabilities, including those to our employee pension and health benefit systems. We now have the highest bond rating in the state's history, resulting in lower interest rates when we need to borrow money. The state of the State of Hawai'i is sound. More importantly, we are positioned to meet the challenges—both good and bad—because we have proposed a prudent budget that does not spend all that we project to bring in. As President Kouchi had noted in his Opening Day remarks, we will continue with that prudent stance even as we take care of the current needs of our people. It is, as you might guess, a delicate balancing act.

"I am mindful that the world around us has changed since we began this journey four years ago. Indeed, it has dramatically changed since I delivered my second inaugural address just a few weeks ago. In my remarks, I talked about how we are no longer limited by our geographic isolation, freed by the wonders of technology. But that's also a double-edged sword. The very thing that makes us more connected with the rest of the world also makes us more vulnerable to its slings and arrows, including what happens in our nation's capital. More than ever, we need to take control and shape our own destiny through education and innovation. And we need to protect those things which mean the most to us: our natural resources, our way of life, our values, and our children's future.

"Together, we have done so much in the last four years. In 2015, we were the first state to set a 100 percent renewable energy standard, the most aggressive clean energy goal in the country. In 2016, we were the first in the nation to enroll firearms owners in a centralized information system. In 2017, we were the first state to enact legislation that aligns with portions of the Paris Accord. And in 2018, we were the first state to ban pesticides containing chlorpyrifos to protect our children's health, and the first in the world to ban certain sunscreens to protect our environment.

"The road ahead remains clear and so do the reasons why we need to press on with the progress we've made over the last four years in transforming our schools with a new education blueprint that is school- and community-based, in reshaping our economy using technology to drive innovation, in addressing homelessness in a compassionate way, and in short-circuiting the underlying cause of homelessness by building more affordable homes for our communities.

"As a state, we have always been outward-looking in our values, goals, and actions. We have always put others first. In today's me-centered world, that is what I am most proud of as your governor. That is the gift we pass on to little Alekah Garcia, that compassionate spirit that I believe resides in all of us: the spirit of aloha! Concern for our children and the future

of our island community is one of the most important ways we show our compassion for others.

“In 2023, Alekah will be ready for preschool. But will a preschool be available and ready for her? Our public school system begins with kindergarten, but early education specialists tell us how important it is to prepare young children for a lifetime of learning. Research also tells us that early childhood education, such as preschool programs, are critical for brain development. It contends that children’s early years set the stage for how well they will learn for the rest of their lives. Yet in Hawai‘i, we have left that important task to others and only for families who can afford private preschool tuition. But it doesn’t have to be that way. First and foremost, we must create a universal, statewide, high-quality public preschool system that will give every child in Hawai‘i a head start on learning. Ultimately, we will need more than 300 public pre-K classrooms. Clearly, this is a long-term goal, but we don’t have to wait until we have funding for all of it. We can start to fill this significant gap in our education system by being smart about how we use existing space.

“But I don’t want to just add pre-kindergarten classes; I want us to do much more. I am proposing to the Department of Education that we look at our elementary schools in a whole different light, that we reinvent our elementary education by making early learning an integral part of our children’s overall elementary curriculum. That’s what good beginnings are all about. That’s why I am proposing to the DOE that we restructure those schools presently composed of kindergarten through grade six to pre-K through grade five. Grade six in those schools would then become part of our middle schools, where the added classes could be more easily and financially accommodated. Presently, about half of our elementary schools still include sixth-grade classes; most are located on the neighbor islands, where preschools, both public and private, are lacking. That provides us with a tremendous opportunity to kick-start this initiative, initially in those communities where they are needed most. In addition, the phasing in of our public preschools will give us the time to ensure that we have well-qualified preschool teachers to staff these classes. We also want to apply best practices learned from our own public pre-kindergarten program and from other states who have added preschools to their public education system. Of all the initiatives upon which we’ve embarked, I believe this one will make the greatest difference in preparing our children for the future and in creating a 21st-century workforce. Moreover, this is an initiative we can and should begin now. My thanks to Lauren Moriguchi, director of the Executive Office on Early Learning, and DOE Superintendent Christina Kishimoto for spearheading this initiative. A recently released strategic plan details the state’s vision for early learning in Hawai‘i.

“And so, in 2034, when Alekah Garcia is a freshman in high school, she’ll be well prepared to take advantage of the state’s Early College and Hawaii Promise programs if she so chooses—a choice made possible because of the partnerships we’ve established with the DOE, UH and its community colleges. That’s why we’re working hard to ensure that Alekah will have good teachers throughout her education, and that’s why we need to expand our pool of teachers in some of the most difficult-to-staff schools. And we’re doing this in partnership with the university, HSTA, and the DOE, and with the help of education advocates like State Senator Michelle Kidani and State Representative Justin Woodson.

“On an island where land is scarce and the cost of living is high, providing affordable homes for our families has been one of the most challenging aspects of caring and looking out for each other. Widespread homelessness across the state is a symptom of how steep that challenge is. I don’t have to tell you it is a complicated one and one that will take an entire village to

solve. But more than any other place in this country, Hawai‘i intimately understands the village concept because it is embedded in our values of ‘ohana and aloha. With the help of the Legislature, our congressional delegation, the counties, federal agencies, businesses, and community service organizations, we have made significant strides in addressing homelessness in Hawai‘i. Together, we have reduced our homeless population for two consecutive years, for a total reduction of 18 percent. This includes decreases in every county as well as decreases in key homeless subgroups, such as families, children, and veterans. We have also seen an increase in people exiting homeless programs to permanent supportive housing. Two years ago, only a third of those exiting homeless services went to permanent housing; that number has now increased to over 50 percent. In addition, this year’s budget includes \$35 million for homeless programs.

“More importantly, we have addressed this challenge as a community and not left it to government alone. For example, Queen’s Medical Center has seen what the impact of homeless patients has had on its overall mission. Without appropriate housing, recovery was a hit-and-miss affair, and many became repeat patients with prolonged stays. Hospital officials knew that if they didn’t treat the whole patient that the process would become frustratingly repetitive for both the patient and the doctor. And that’s why they became the first hospital in the nation to place its most medically fragile, homeless patients into housing as part of the recovery process. In the last year and a half, the Queen’s Care Coalition team has worked with 112 individuals, placing 75 percent of them into stable housing. The hospital estimates the program has generated more than \$5 million of savings and, at the same time, lightened the burden on the emergency rooms and the ambulances. And more importantly, it has changed the lives of those they have treated. With us this morning are Dr. Daniel Cheng, who heads the Queen’s Care Coalition, members of his Coalition team, and the president and CEO of Queen’s Health Systems, Art Ushijima. I would like to ask them to stand and be recognized. Thank you for reminding us that we all can take on a role in helping others.

“I should also note that Lieutenant Governor Josh Green will be the state’s new point person on leveraging private-sector partnerships to address the chronically homeless in our community, which includes some of the most difficult situations to resolve. He will be working closely with Scott Morishige, the state’s homeless coordinator, who will continue to lead the state’s overall homeless efforts.

“I strongly believe that our response to homelessness must address both immediate concerns and its underlying cause: the lack of adequate affordable housing. That’s why this year’s budget includes \$315 million for housing over the next two years. In the past four years, we’ve produced a total of 6,600 units with over 7,100 in the pipeline, 90 percent of which will be rentals.

“We have also struggled with the reality that the lack of affordable housing affects more than just families at risk. It impacts all of us. For many in Hawai‘i, homeownership has always seemed like a farfetched dream. The high cost of land will always be a significant barrier to making homes affordable, and on an island with little capacity to expand, demand will always outpace our limited supply. It seems like a no-win situation, perhaps until now. How do you make homes in Hawai‘i affordable? I believe you do it by thinking outside of the box—by looking at what you **do** have and not focusing on what you **don’t** have. We need to use public resources and public authority to break the cycle of speculation and profit-taking that has turned affordable housing into an unreachable goal for our people. That’s why we will be submitting legislation to build condominiums for sale on state lands utilizing 99-year leases. These will include parcels along the

transit route as well as on other underutilized state lands. This legislation will be critical to unlocking the potential for thousands of new affordable housing units to be built on state lands on all islands. The state will retain ownership of the land under these condos and determine the terms of resale if the owners decide to sell at a later date. In this way, we will be able to keep these units affordable, plan growth, create jobs, and make the most of unused state lands. We can take a no-win situation and turn it into a win-win situation. My thanks to State Senator Stanley Chang, whose input went a long way in helping us shape this initiative.

“We have long talked about transit-oriented development as one of the benefits of rail: as a way to build communities and provide housing for our families. But it’s not just about rail. On Maui, for example, we have a great example of how the state and county are working together to build a new transit hub at the Kahului Civic Center. Together, we are transforming underutilized state land into a vibrant, new mixed-use project with multi-family affordable rental housing, senior housing, and office space. It’s a good example of the collaboration happening between state and county on behalf of the people.

“In addition to controlling and directing growth, planned development allows us to accommodate other priorities as well. Our future requires that over time, we, as a state, acquire and preserve more and more land, either as a state or in the hands of partners like the Trust for Public Lands and The Nature Conservancy. If we want green spaces; if we want to grow our own food; if we want places for recreation; if we want clean, fresh water; if we want the environment that has been so central to Hawai‘i’s life, we need to have special lands in public hands.

“Take, for example, the new state Helemano Wilderness Recreation Area: 2,900 acres of former plantation and conservation land now dedicated to protecting our watershed and wildlife habitat and providing outdoor recreational opportunities for all. In October 2018, the Trust for Public Land and the state completed the purchase of four parcels of land from Dole Food Company using a creative combination of private, federal, and state funding. In an earlier time, those lands might have been sacrificed to uncontrolled development. To a certain extent, this project was made possible because we have a plan for future development on O‘ahu, for directed growth to our urban core and along our fixed transit system. That lessens the pressure for development on other areas, including important agricultural and preservation lands.

“It also allows us to initiate discussions with other private landowners who have expressed an interest in developing lands in places like Kāne‘ohe and Maunawili. We would prefer to negotiate acquisition agreements with them so that we can realize similar benefits to our natural resources and recreational venues. For those unfamiliar with the neighborhoods, Kāne‘ohe and Maunawili both include areas that the landowners have proposed for housing development. But they also contain the mauka source of freshwater streams that feed ancient lo‘i and flow into vital coastal waters of Kāne‘ohe Bay and Kawai Nui Marsh. They contain some of the richest agricultural lands on O‘ahu and have been farmed by ancient Hawaiians for centuries. They are irreplaceable natural resources and part of the economic, ecological, and cultural heritage of Ko‘olaupoko. These places are worth saving for us and for future generations. That’s why we are requesting increased funding for land conservation by removing the \$6.8 million cap on the 10 percent conveyance tax to the Legacy Land Conservation Program. And I’ve also instructed DLNR to prioritize a strategic plan to help us better identify and coordinate the acquisition of such parcels of land going forward.

“In addition to the preservation of important conservation and agricultural lands, we have established strong guidelines to protect our watershed forests, better manage our oceans,

strengthen invasive species prevention through our biosecurity plan, double our local food production, and achieve 100 percent renewable energy by 2045. Our budget includes \$3.9 million over two years for Sustainable Hawai‘i initiatives, to support our biosecurity plan, watershed protection, and our Agriculture Loan Revolving Fund.

“And, speaking of sustainability, I would be remiss if I didn’t mention that last November, Hawai‘i was designated one of the United Nations’ first Local 2030 sustainability hubs—the first and only such forum in the Pacific. I would like to thank Hawai‘i Green Growth and the Kamehameha Schools for their work in achieving this designation. They are highlighting our achievements and helping to establish Hawai‘i as a leader in sustainability in the Pacific.

“In addition, private companies are investing in Hawai‘i to help us meet our sustainability goals. For example, Ampaire has a memorandum of understanding with Mokulele Airlines to deploy an electric airplane on Maui. CarbonCure is working with the Hawai‘i Department of Transportation, HC&D, and Hawai‘i Gas to develop carbon-infused concrete to lower the carbon dioxide emitted during the construction process.

“And our public utilities have also made great progress in transitioning to a renewable-energy future. Earlier this month, Kaua‘i Island Utilities Co-op announced it had reached 50 percent renewable generation and believes it can reach 70 percent renewable energy a full 10 years ahead of schedule. In the last 10 years, Hawaiian Electric Companies have reduced fossil fuel use to generate electricity by 26 percent—that’s 48 million gallons fewer of imported oil each and every year. The companies have also pioneered technology to integrate more renewable energy into the electrical grid, and delegations from around the world are coming to Hawai‘i to learn from our experience.

“In agriculture, we are entering a new age of innovation, one that will bring new jobs and opportunities and decrease our reliance on imported foods. The future of agriculture relies on producing crops more efficiently and with less impact on the environment. Farmers are constructing cutting-edge greenhouses, using automated production systems, and analyzing data to increase crop yields. These modern practices will require new skills and a workforce grounded in science- and math-related education. Companies like Costco want to build high-tech greenhouses and use these new agricultural techniques in Hawai‘i to complement the food production of local farmers and replace fruits and vegetables from out-of-state.

“Just as the nurturing of our natural environment is critical to the future of these islands, so, too, is the nurturing of those who, together, make up our human resource, including those who are incarcerated. There are some who hold fast to the old notion of crime and punishment and scoff at the concept of second chances, but correctional facilities today need to be more than just a secure holding cell. They need to be places where an individual can take stock of his or her life and seek a second chance to become a contributing member of society. If we don’t, then our jails **will** become a place for repeat offenders, at a terrible cost to them and to all of us. We are seeking to continue the process of replacing the outdated correctional center in Kalihi. The relocation gives us a chance to provide enhanced services and program opportunities that would aid in rehabilitation. I agree with Representative Gregg Takayama and Senator Clarence Nishihara, who have led the committees on public safety: It’s a chance to rethink how we design and build correctional facilities. If we are legally obligated to carry out judgments of the courts whenever confinement is ordered, then let’s do it in a way that doesn’t make matters worse for those incarcerated. If we disagree on this location, how big it should be, or the programming that should be offered—fair enough.

Let's work together to define it. Let's take this initiative and move it forward, with thoughtful planning and with purpose.

"And let me add one more thought on this matter. For several generations now, the community of Kalihi has hosted OCCC with little protest in its backyard. While it is not the primary reason to relocate O'ahu's outdated jail, the chance to revitalize the community of Kalihi by using that vacated space to create new economic and social opportunities is another good reason to relocate OCCC.

"Concern for others—whether they are homeless, incarcerated, disadvantaged, our children, or the community at large—that is the hallmark of who we are. Concern for others is why we are submitting legislation to bring the minimum wage closer to a real living wage. Concern for others also underlies the reason why we work so hard to provide economic opportunities for all to realize their dreams, whatever they may be. But to translate those concerns into meaningful action takes resources. That's why we must also be cognizant of the needs of the counties. To help them do their jobs better, we will be asking the Legislature to remove the current \$103 million cap on the TAT and return the tax to how it originally functioned: allocating to the counties a straight percentage of TAT funds collected. In other words, the counties' share would rise and fall based on the amount of money collected, without any cap on the high side. There is a fairness to that formula that speaks volumes not only about our concern for others, but our willingness to work with the counties as equal partners in moving the state forward. It's a change in the whole notion of revenue-sharing whose time has come. Let me add that the bill we're submitting would also increase from three to ten million dollars monies earmarked to maintain our state parks, trails, beaches, and waters to the benefit of both residents and visitors alike.

"In 2018, Mother Nature threw a lot our way: historic volcanic eruptions, hurricanes, and floods. And yet, I find that we, as a people, are amazingly resilient and resourceful. We should all applaud those on Hawai'i island who faced devastating volcanic eruptions and others on Kaua'i and O'ahu who were buffeted by damaging hurricanes and floods and who refused to be defeated by those events. We will work with the Legislature to continue our support for those families affected, as they put their lives back on track.

"Finally, we have spent the last four years implementing frameworks that will help guide us along the continuum that will extend far beyond the next four years: our blueprint for education, our clean energy portfolio, and our sustainability roadmap. The major initiatives that I've highlighted this morning—on public preschool education, affordable leasehold condominiums, and the TAT adjustment—are built upon these and other frameworks.

"But to realize our goals, it will take more than just this administration, more than government, more than the private sector, or community service and nonprofit organizations. It will take all of us. In my inaugural address, I talked about the need to work together. Little did I expect that the leaders in Washington would underscore my point by shutting down the federal government. That, my friends, is what gridlock looks like. Tragically, it has been devastating for the many federal workers caught in the middle, and increasingly for the general public. I began my remarks this morning with the notion that the future is personal. Leadership is also personal, and it has a name, and it is 'Us.' We have a duty and responsibility to do our jobs and do them in partnership with each other. That is the **least** those folks up there in the gallery—the people we all work for—expect from us. But I know we can do so much more if we work together, and it begins with me, and it begins with all of you. That's why we have been meeting with the Senate and the House: to see if we can establish a common ground from which

both houses can better shape a budget that serves all the people of Hawai'i.

"After four years in this office, I know that what I am asking is not an easy task. It has never been. But it becomes easier if we remember that little girl who was born in Kona in the very early morning hours of January 1st. She's the reason we do what we do. She is the real source of our strength and our determination and our commitment to the people of Hawai'i. She is the one who will carry on the values that were passed on to us from our parents: reverence for our kūpuna, love for family, respect for each other, and love for this 'āina and this place we call home. We are here to protect her and nurture her. In turn, she enriches our lives. We have much to teach her, and she has much to teach us. I hope and pray that one of the most important things that we instill in her is empathy and compassion for others: empathy for those who are homeless even while she sleeps safe and warm in her own bed; compassion for those who go hungry even when she is generously nursed and nurtured; compassion for those who cannot make ends meet even if she thrives with a career that meets all of her needs; and empathy for those who find themselves without a country or face a wall that is far more daunting than any physical one we could ever build. Empathy and compassion are no strangers to those raised in these islands or to those who embrace our shared values. We do not often speak of them by those names, but rather by one word we hold above all others: aloha. Alekah Obra Garcia is our future, and we welcome her with loving open arms. We have a job to do to prepare these islands for her, so let's get started, shall we? Thank you, and aloha."

Senate President Ronald D. Kouchi then rose and stated:

"Thank you, Governor Ige. Based on my remarks last week when we opened in the Senate chambers, while I will not have a grandchild who will be a classmate of Alekah Garcia, class of 2037, nonetheless, I certainly share the vision, the dreams, and the hopes that you have for her and all the rest of the children of Hawai'i. I'd like to paraphrase from Dr. Martin Luther King: 'The measure of an individual is not what you do in times of comfort but what you do in times of adversity.' Last year, in spite of different political choices by each and every one of us that we were going to make in the upcoming election, we rose above the politics and joined together to create an amazing agenda for the people of Hawai'i in affordable housing, in dealing with homelessness, in dealing with the disasters that we were confronted with, and I stand committed—as I said on the Senate floor last week Wednesday—to work with you, Governor, to create that future. To my colleagues in the House, I have never had a better feeling than gaveling out at the end of last year, looking back to see everything that we could all accomplish together. I look forward to having a better feeling when we hit the gavel at the end of session this year, and I would simply close by quoting Ecclesiastes 4:9–10: 'Two are better than one because they have a good return for their labor: If either of them falls down, one can help the other up. But pity anyone who falls and has no one to help them up.' So my hand will be out for the whole session to my colleagues in the House and to you, Governor Ige and Lieutenant Governor Green."

At 10:58 a.m., President Kouchi declared the Joint Session adjourned.

The President then presented to the members of the Thirtieth Legislature and guests the Honorable Mark E. Recktenwald, Chief Justice of the Supreme Court, State of Hawai'i.

Chief Justice Recktenwald addressed the Joint Session as follows:

“Good morning, aloha. President Kouchi; Speaker Saiki; Governor and Mrs. Ige; Lieutenant Governor and Mrs. Green; members of the Senate and House; Mrs. Ariyoshi; Governor and Mrs. Waihe'e; Chief Justice Moon; my fellow justices, judges, and Judiciary staff; members of the Consular Corps and the Royal Order of Kamehameha; distinguished guests and friends: Once again, good morning and aloha.

“I'd like to thank the Legislature for this opportunity to speak today. I am grateful for your strong support of the Judiciary and, in particular, for enabling us to achieve the decades-old vision of constructing a modern, secure courthouse for the people of Kona. Thanks to you, the new Keaholu Courthouse will open this fall, **on time** and **on budget**. Thank you so much.

“The judiciary has one mission—to provide justice. We offer a fair and impartial forum where people can peacefully resolve their disputes. We strive to ensure the peace they find is a **lasting** one by helping them address the causes of what brought them before the courts. And, we provide justice for **all**, regardless of the person's background or economic status. Under our constitution, the Judiciary is sometimes called upon to protect the rights of those whose views may be unpopular. In

making decisions, our judges must faithfully apply the constitutions and laws of the United States and Hawai'i to the facts of **each** case—free from passion, pressure, or outside influence.

“While our core values are timeless, the tools we use to achieve our mission cannot be frozen in time. We must constantly ask whether our justice system is achieving the results that our people rightfully expect. We appreciate it when the Legislature asks tough questions, because **we** are asking those questions ourselves: Is our criminal justice system keeping our communities safe, while respecting the constitutional rights of defendants who are awaiting trial? Are we rehabilitating those who have been convicted? Is our civil justice system providing justice that is timely and affordable?

“While there is much work to do, we have a strong foundation to build on. Our efforts to increase access to our civil courts have received national recognition. With the support of the Legislature and the Bar, we are exploring new ways to use technology. These range from using text messages to remind criminal defendants to appear for court to using artificial intelligence to make the civil litigation process more understandable for self-represented litigants.

“We have made progress because we have so many partners who share our passion for providing justice for all, including the Legislature; the executive branch, with Governor Ige and Lieutenant Governor Green; the Hawaii State Bar Association; the William S. Richardson School of Law; the American Judicature Society; and the community as a whole.

“Last year, approximately 500,000 cases were filed in our courts, including traffic offenses. Each day, our judges address some of the most sensitive and challenging problems facing our community—from violent crimes to bitter disagreements between divorcing spouses to complex environmental cases. I will address each of those areas—our criminal, family, and civil courts—to highlight the challenges we face and the opportunities we see.

“Our criminal courts are home to some of our most innovative programs. In order to keep our communities **truly** safe, we are often called upon to address the underlying challenges, such as substance abuse and mental illness, that defendants face. ‘One size fits all’ simply doesn't work in this context, so we offer programs that are targeted to specific populations: Drug Court, HOPE probation, Mental Health Court, and Veterans Treatment Court, to name a few.

“One recent example of this approach involves homeless individuals, some of whom have multiple cases in our district courts for nonviolent offenses such as sleeping in public parks. With the strong support of the Legislature, we partnered with the prosecuting attorney and the public defender to launch Community Outreach Court on O'ahu. The goal is to enable homeless individuals to resolve their pending cases by performing community service, while offering them services that can get them back on their feet.

“Since the program started in 2017, 102 participants have performed more than 2,100 hours of community service, and more than 1,100 pending cases have been cleared. Many participants have found jobs, housing and more stable shelter, and have earned driver's license permits.

“When we started the program, court sessions were held in a typical court setting: a courthouse in downtown Honolulu, with a judge sitting up high on the bench. Thanks to funding from the Legislature, we were able to expand the program to Wahiawā district court. But the vision has always been to hold sessions outside of a traditional courthouse to make the program more accessible. This became a reality in September, when Judge Darolyn Lendio held court at the Wai'anae Public

Library. She sat at a plastic folding table, at eye level with the participants. And **that** truly is justice in action! We have several participants from the Community Outreach Court in the gallery today, along with Judge Lono Lee, Deputy Court Administrator Calvin Ching, and the staff and community partners. Could they all please stand and be recognized?

“There are other significant developments underway in our criminal justice system. The first involves reforming the way we handle criminal defendants who have been accused of crimes but are awaiting trial. Under the law, they are presumed innocent and are entitled to bail or other forms of release except to the extent necessary to ensure their appearance and protect the community if they pose a danger. Low-risk defendants should **not** be in jail simply because they are too poor to afford bail. At the same time, the community must be protected from those who are dangerous.

“A number of states have undertaken pretrial reforms. In response to House Concurrent Resolution 134, the Judiciary convened a task force led by circuit judges Rom Trader and Shirley Kawamura. That task force had 30 members, including the chiefs of police and prosecuting attorneys of all four counties (and I appreciate many of them being here today), defense attorneys (including the public defender, and I appreciate Jack Tonaki being here today), the Office of Hawaiian Affairs and other agencies, and Senator Clarence Nishihara and Representative Scott Nishimoto. They recently delivered a comprehensive report with recommendations for legislative and administrative action.

“The Judiciary is already implementing several of the recommendations, such as obtaining more information about each defendant’s ability to afford bail. We are also creating an electronic reminder system for defendants so they can receive text reminders before their next scheduled court date. We have implemented this system on the neighbor islands, and expect to extend it to First Circuit district court in February. These reminders increase the likelihood that defendants will appear and save scarce public resources by decreasing the number of bench warrants that are issued.

“Another important statewide initiative is the Prison Reform Task Force chaired by my colleague Justice Michael Wilson. This task force, with broad representation from the community, including Senator Nishihara and Representative Gregg Takayama, studied effective incarceration policies in other jurisdictions, and has made recommendations to improve Hawai‘i’s correctional system by focusing on rehabilitation. Those recommendations include expanding drug court to provide an alternative to incarceration for defendants with serious drug problems.

“I thank Judges Trader and Kawamura, Justice Wilson, and the members of both task forces. Thanks to their hard work, we have a unique opportunity to make Hawai‘i safer, and our criminal justice system more fair and effective.

“Our family courts also have a long tradition of innovation and working collaboratively with many partners to protect Hawai‘i’s children and support Hawai‘i’s families. Virtually all of the youth in our juvenile justice system have been subjected to trauma in their lives, so we have focused on addressing the effects of that trauma. That approach has worked. Over the last 10 years, the number of youth held in custody has **decreased** by 61 percent. I want to thank the senior family court judges who have led this effort, including Mark Browning, Cathy Remigio, and Christine Kuriyama, and our entire family court team. While these strategies require additional resources up front, that expense is modest in comparison to the cost, both financial **and** social, of having these children become adult offenders.

“We have many programs, such as Girls Court, that have contributed to these positive results by providing individualized care where it can help the most. Notably, our O‘ahu Juvenile Drug Court, which provides drug treatment and intense supervision, last year had the **lowest** recidivism rate since the program began in 2001.

“Another example of this individualized approach is the Family Court’s effort to address truancy by collaborating with the Department of Education to intervene **early** when children start missing school, and addressing the circumstances that caused them to be absent.

“This approach resulted in a significant decrease in the number of unexcused absences when we first used it at Wai‘anae Intermediate School. Building on that success, the Judiciary launched another truancy collaboration on Kaua‘i, under the leadership of Judge Edmund Acoba, at Waimea Canyon Middle and High School. That effort reduced truancy petitions in the district from 56 in 2016 to only 6 the following year. And on the Big Island, we recently launched another truancy collaboration under the leadership of Judge Darien Nagata at Kea‘au Middle School, with partners including The Salvation Army and the Children’s Law Project.

“Other important innovations include a public-private partnership to build a center for youth offenders, along with nearly 200 affordable rental apartments on Alder Street in Honolulu. This project—which is expected to be completed by 2021—will include a 24-hour youth shelter, and a meeting space for youth to take after-school classes and receive other vital services. We are grateful to Speaker Scott Saiki, Councilmember Ann Kobayashi, the Hawaii Housing and Finance Development Corporation, and the many others who are making this project possible. This is the first joint partnership of its kind between two branches of government and a private entity, so, again, thank you to all of those folks who made this possible for us.

“Our family courts also address some of the most heartbreaking cases we see involving the abuse and neglect of children. Some are newborns whose mothers abused crystal meth or alcohol during their pregnancy; others are mere toddlers. To meet their special needs, we have created a Zero to Three Court designed to provide them with permanency as quickly as possible, whether through reunification with their parents, legal guardianship, or adoption to a safe, new home.

“To cite one example, a homeless family entered the program as a result of a domestic violence report. The Zero to Three team helped them obtain employment and find an apartment, furniture, and household goods. Thanks to these steps, the family eventually was reunited. The judge and the court team members took the time to show these parents that they mattered—and sometimes, that is the most important thing we can do to help families succeed.

“Finally, I want to thank the Legislature for its support of our efforts to more effectively address domestic violence. In 2017, the Women’s Legislative Caucus held meetings across the state to hear from stakeholders, including domestic violence survivors and advocates. We made several significant changes as a result. For example, the Kaua‘i YWCA is now providing free assistance in our Lihu‘e courthouse to individuals who are seeking petitions for temporary restraining orders.

“Turning to our civil courts, there have been profound changes in the civil justice system nationwide. In 2008, a national survey of several thousand lawyers concluded that America’s civil justice system was ‘in serious need of repair—it takes too long and costs too much.’ That report jumpstarted interest in rethinking how civil litigation is conducted. A

number of states and the federal courts explored ways to improve.

“Here in Hawai‘i, there has been much discussion about this issue during our annual bench-bar meetings, which have become a valuable source of feedback for the Judiciary. As a result of that input, in June of last year, I created the Task Force on Civil Justice Improvements for Hawai‘i’s Circuit Courts, chaired by retired Chief Judge Craig Nakamura. Seven current and retired judges and 17 attorneys are also serving on the task force, and expect to submit their report later this year.

“In our district courts, we have a high percentage of litigants who are representing themselves. To make the court more accessible to them, we are revising our most commonly used forms to make them more understandable. Moreover, we are identifying opportunities to use technology to help them.

“Deputy Chief Judge Lono Lee is leading a group that is evaluating online dispute resolution alternatives for small claims cases. This project could enable civil litigants to mediate certain types of claims online, and if online mediation is unsuccessful, the parties could then, by agreement, have a judge quickly resolve the case based on documents and other materials submitted online. Online dispute resolution is **not** appropriate for every litigant, such as those with limited English proficiency or without access to the internet, but for some people, the possibility of being able to resolve their dispute without having to come into a brick-and-mortar courthouse will be very appealing.

“Also, I am happy to share that the Judiciary’s online electronic filing system is set to launch in our civil courtrooms this fall. People will be able to file documents electronically and access case information 24/7, much like what is available now for criminal and appellate cases. I’d like to thank Judge Gary Chang and his team for their hard work in developing this system.

“We are also making significant strides in increasing access to our civil courtrooms for those who cannot afford an attorney. Last year marked the tenth anniversary of the Hawai‘i Access to Justice Commission, which is chaired by retired Justice Simeon Acoba. The Commission has championed many significant initiatives, such as our self-help centers, where volunteer attorneys provide legal assistance to self-represented litigants. More than 24,000 people have been helped so far. The centers are a great example of what can be accomplished when we work together, and I want to thank the Hawaii State Bar Association and its president, Derek Kobayashi, and Executive Director Pat Mau-Shimizu; the Legal Aid Society of Hawai‘i and its executive director, Nalani Fujimori Kaina; the county bar associations, who’ve been great partners in so many of our initiatives; and all the volunteer attorneys for making this resource available to the community.

“Often, people find themselves in court when they are experiencing turmoil in their lives, and the experience can be daunting. The Judiciary launched a Volunteer Court Navigator program in the Second Circuit that helps those who do not have an attorney. Court navigators assist individuals when they appear in district court civil cases, such as landlord-tenant disputes or debt collection cases. Court navigators help in small but important ways by helping to ensure that parties arrive at the proper courtroom, check in, and respond when called on, among other things.

“Thanks to the enthusiasm of the volunteer navigators and the leadership of our 2018 Jurist of the Year Chief Judge Joseph Cardoza, more than 200 people have been helped through the program, and it is now being piloted in the First Circuit.

“All of our work on access to justice has helped establish national recognition for Hawai‘i, which has opened doors to

increased resources for our efforts. One project championed by Majority Leader Della Au Belatti is creating an interagency roundtable on access to justice. Another involves training for ‘community navigators,’ trusted leaders such as a respected teacher, church pastor, or kupuna. By providing them with the necessary tools and information, they can help members of the community access our civil legal system.

“Another project that is garnering national attention is the ‘Legal Navigator’ portal, which was made possible thanks to the contributions of Microsoft, the Legal Services Corporation, ProBono Net, and the leadership of the Legal Aid Society of Hawai‘i. Microsoft has dedicated close to \$2 million worth of resources to Hawai‘i and Alaska to develop an online legal services portal that will use artificial intelligence to help people identify legal problems, and then access critical resources. This transformative project will launch later this year and will **empower** those whose voices might not otherwise be heard.

“Although we have undertaken many of these initiatives with existing resources, in some instances we need additional funding to address new challenges. This session, we are respectfully requesting funding for four new judges: a family court position on Kaua‘i, where we currently have only one full-time family court judge; a family court judge on O‘ahu, where some judges have calendars nearing 3,000 cases per year; a district court judge on O‘ahu to help handle the increased number of DUI cases and expand Drug Court; and a district court judge on Maui, where the population has more than doubled since the last position was added in 1982. Additionally, we are asking for several staff to support the Community Outreach Court, a permanent position for the Zero to Three Court, maintenance staff and funds to operate the Keahuoli courthouse when it opens, and additional funds for domestic violence services for Maui county, among other needs. Finally, our construction-related requests are all focused on repairs, maintenance, and keeping our current buildings safe and secure.

“We appreciate your consideration of our requests and stand ready to provide any information you may need.

“In conclusion, one of the most fundamental challenges we face as an independent branch of government is building trust and understanding of the Judiciary’s mission. We do this in many different ways. For example, it became apparent last year that we needed to do more to ensure that the use of ‘ōlelo Hawai‘i was encouraged and protected in our courts. We adopted a policy to ensure that parties who want to express themselves to the court in the Hawaiian language are able to do so, and we have actively recruited more interpreters for that purpose. Also, in response to House Resolution 110, we have held Hawaiian language training for more than 400 judges and staff. And earlier this month, we began calling cases in the Hawai‘i Supreme Court in **both** Hawaiian **and** English.

“In addition, we are engaging our young people so they understand the role of the courts in our democracy. Under the Courts in the Community program, the Supreme Court holds oral argument in schools across the state in real cases with volunteer attorneys visiting classrooms to help the students understand the issues. This program has had an incredible impact. So far, we have held 13 oral arguments, with more than 4,500 students from 61 schools participating. Many partners assist us with this program—the volunteer attorneys who visit the classrooms; the Hawaii State Bar Foundation, which provides buses and lunches for the students; law students from the William S. Richardson School of Law, which has been a great partner in so many initiatives; and the teachers who work with the Judiciary History Center to incorporate our program in their lesson plans and who welcome the volunteer attorneys into their classrooms, and I want to extend my thanks to each and every one of them for making this program possible.

“Another important component of building public trust is a judicial selection process that ensures we have highly qualified judges who reflect and understand our community. Although there are many reasons why people become judges, our robust system of judicial selection and retention has attracted individuals who are highly qualified **and** who reflect the diversity of our community. As Chief Justice, I appoint the judges who serve in our district and family courts, and I am pleased to report that we now have an equal number of men and women serving on the bench in these courts.

“We can never forget that our diversity is a great source of strength. The late governor John A. Burns stood before this legislature nearly 50 years ago, in February 1969, and delivered one of his most famous speeches. Governor Burns spoke about the ‘tremendous power of Hawai‘i as a source of inspiration’ and reminded his listeners about how ‘it is through an understanding of our backgrounds, our heritage, that we can best achieve amicable accommodation of the diversity of views that is the hallmark of a truly democratic society. Let us clearly understand that diversity and division are not the same. In diversity there can be unity.’

“The wisdom reflected in those words guides us at the Judiciary. I thank our dedicated judges, staff, and volunteers for treating everyone who comes before us with respect, fairness, and compassion. By doing so, we provide a place where **all** of Hawai‘i’s people can find justice. We thank the Legislature and our other partners for supporting us in that cause, and look forward to working with each of you in the years ahead. Mahalo and aloha.”

Speaker Saiki then rose and stated:

“Thank you, Chief Justice Recktenwald, for your eloquent and judicious message. I’m sure that the Senate President will agree with me that not many people realize how challenging it is to manage and administer a branch of government, especially when you have to count the votes. So, could we just please give the chief justice another round of applause for his work?”

At 10:39 a.m., Speaker Saiki declared the Joint Session adjourned.

Senator Baker rose to speak on a point of personal privilege as follows:

"Colleagues, today is Wear Blue Day. It aims to raise awareness about human trafficking. I'm wearing blue in support of the United States Department of Homeland Security's Blue Campaign. It is their effort to fight human trafficking and bring justice to those who exploit human lives. Part of the campaign is, of course, raising public awareness through education and proper training of our law enforcement on dealing with cases of human trafficking, and I believe we've had, in the past, and I believe there may be some on our agenda this session, that also try to address human trafficking. This, I suppose, is color day as well, because I want to call to everyone's attention that tomorrow is Go Red for Women Day. This is the American Heart Association's attempt to raise awareness that there is a lot of heart disease among women; it's a large killer of women. I'm going to speak more about that tomorrow, but I encourage everybody to join with me in wearing red to raise awareness about women's health.

"And I would be remiss if I didn't note that today is the 9th day of our legislative session; the 41st day is the deadline for the governor to submit advise and consent requests—that means his nominations. Mr. President, colleagues, I certainly hope that the governor will not wait until the 41st day in order to provide us with governor's messages outlining his directors and deputies. Mahalo."

The Chair recognized the students in the gallery for also wearing blue.

At this time, Senator Baker rose to speak on a point of personal privilege as follows:

“Colleagues, today is the 15th annual Go Red for Women Day, and I would like to read just a few quick facts that highlight the importance of the American Heart Association’s work. First, heart disease is the number one killer of women, taking more lives than all forms of cancer. Physical activity reduces a woman’s risk for heart disease and stroke, but in the U.S. only one in five women are getting the recommended amount of physical activity. (I think I fall in that category, unfortunately.) Third, healthy eating is critical to managing the weight and preventing cardiovascular disease in women, but poor dietary habits are the cause of about 45 percent of the U.S. deaths by heart disease, stroke, and type 2 diabetes. Smoking is the leading cause of preventable heart disease and stroke death, and high blood pressure is the second leading cause. Nearly half of the United States adults have high blood pressure.

“As you can see, heart disease affects many women in Hawai’i and around the world. However, the American Heart Association’s Go Red for Women campaign has led a nearly 90 percent increase in awareness among women, but we still have a long way to go. But I’d like to thank the American Heart Association for its hard work, and I’d like to thank all of our colleagues who found some kind of red to wear today, and I’d like to recognize in the gallery the director of government relations and communications for the American Heart Association of Hawaii, Mr. Don Weisman. And he is joined by community impact senior director Aly Hite. So, thank you to all of the colleagues for finding some red, and for you, Mr. President: You look fabulous in your red jacket, and I’ll send that email to confirm.

“I would also just like to add to my point of personal privilege that I appreciate seeing those governor’s messages on our OD. Mahalo.”

Senator Thielen rose to appreciate Senator Baker as a champion of Go Red for Women Day, and said that she looked forward to seeing her in the stairwell to push for women’s health.

ELEVENTH DAY

Monday, February 4, 2019

The Senate of the Thirtieth Legislature of the State of Hawai'i, Regular Session of 2019, convened at 11:32 a.m. with the President in the Chair.

The Roll was called showing all Senators present with the exception of Senator Harimoto who was excused.

The President announced that he had read and approved the Journal of the Tenth Day.

Senator Shimabukuro commended the students and teachers of the 'A'ali'i Program, and presented the following remarks:

"Today, on the first day of Hawaiian Caucus Week here at the State Capitol, we are honoring outstanding 'ōpio, or youth, who have made impactful contributions to their community. Although the 'ōpio are not able to be here with us today, the Senate Hawaiian Caucus is proud to honor the students and teachers from the 'A'ali'i Program at Nānākuli High and Intermediate School.

"The students, with support from their kūmu, Hawaiian Civic Club members, and the Wai'anae community, have been advocating for the restoration of the Wai'anae Kai Forest Reserve and the return of water to the Wai'anae watershed streams for traditional and customary Native Hawaiian practice. These students engage with their local neighborhood boards on the Wai'anae Coast, local farmers, members of the Hawaiian agriculture community, and the Association of Hawaiian Civic Clubs. In their advocacy, the students learn about the legislative process. They learned how to write and present testimony and, more importantly, developed a passion for Native Hawaiian water rights. Although it took three years for the students to pass a resolution through the Annual Convention of Hawaiian Civic Clubs, the students persevered and got a resolution passed at last year's convention on Kaua'i. Kamehameha Schools even highlighted these students in 2018 during the preshow of their 98th annual songfest.

"Many of the students from the 'A'ali'i Program have either graduated, furthered their education, or are new parents, but their hard work, perseverance, and contributions continue to inspire future students. Representing the students here today are Tammy Jones and Tara Ferron. Both Tammy and Tara currently work for the University of Hawai'i at Mānoa. Tammy is a teacher and a strong supporter of place-based education and worked very closely with the cohort of students who submitted the resolution in 2016 to 2018. Tara taught at Nānākuli High and Intermediate School, and was a teacher to these 'ōpio when they were in middle school. It takes a village to raise a child, and I would like to commend the hard-working parents, teachers, and community members from the Wai'anae Coast who fostered these students and their passion to make their community a better place. Colleagues, please join me once again in recognizing and commending the students and teachers of the 'A'ali'i Program from Nānākuli High and Intermediate School. May Tammy Jones and Tara Ferron please stand to be recognized? Thank you."

At 11:36 a.m., the Senate stood in recess subject to the call of the Chair.

The Senate reconvened at 11:41 a.m.

TWELFTH DAY

Tuesday, February 5, 2019

The Senate of the Thirtieth Legislature of the State of Hawai'i, Regular Session of 2019, convened at 11:37 a.m. with the President in the Chair.

The Roll was called showing all Senators present with the exception of Senator Kidani who was excused.

The President announced that he had read and approved the Journal of the Eleventh Day.

At this time, Senator Thielen welcomed a group of Honors program students from Hawai'i Pacific University in the "Plastic Fantastic?" class: Laken Barber, Hunter Burrows, Kiana Cabacungan, Sally Chew, Madison DeGuzman, Holly Fahrenwald, Noelle Fisher, Haley Hampton, Sydney Lewark, Dominique Mueller, Kerriane O'Malley, Gianna Prinzivalli, Rose St. Hilaire, and Brianna Vides. The students were seated in the gallery with faculty Dr. Regina Ostergaard-Klem and Dr. Adam Burke.

Senator Kanuha recognized Kanoe Cup Choy, Colin Kippen, and other staff of the Council for Native Hawaiian Advancement, who were seated in the gallery.

Senator English recognized Office of Hawaiian Affairs trustee Kalei'aina Lee, who was present in the gallery.

Senator Shimabukuro acknowledged her constituents Momi and DeMont Conner, who were seated in the gallery.

Senator Thielen introduced Scotty Reis-Moniz, a constituent and volunteer extraordinaire.

Senator Inouye welcomed Sandi Weir and a special group of guests from Alaska Cruise Lines, who were seated in the gallery with Charlie Toguchi.

Senator Rhoads acknowledged Marsha Joyner, who was present in the gallery.

Senator Kahele recognized Joseph Kūhiō Lewis, and presented the following remarks:

"Colleagues, as we celebrate Hawaiian Caucus Week here at the Legislature, it's my honor this morning to introduce our second honoree for Hawaiian Caucus Week as we, today, celebrate outstanding mākuā, or parents, in our Native Hawaiian community. The individual I'm going to introduce you to is, without question, a leader in his community. He is a dedicated champion of Native Hawaiian issues, and he's someone who embodies ha'aha'a—humility—and honesty, diligence, and someone who leads by example for his children, and so I'm proud to introduce to you today's honoree, Mr. Joseph Kūhiō Lewis; could you please stand?"

"Colleagues, Kūhiō is a proud product of Hawai'i's public education system—a graduate of McKinley High School; he is a graduate of Honolulu Community College and the University of Hawai'i at Mānoa. He has since then served as the president of the Kapolei Community Development Corporation, then as a community outreach and engagement manager. Also, he has served at the Office of Hawaiian Affairs. He is a member of the Hawaiian Civic Clubs; he's also a member of the Native Hawaiian Health Care Systems and, presently, is the chief executive officer of the Council for Native Hawaiian Advancement.

"What I admire the most about Kūhiō is his love and his dedication and his strong values for his children and how he leaves a lasting impression on them as a father and a parent. Kūhiō is a single father: He raises his son, Bryson

Makanaokalani, and daughter, Breana Kawaiola, and he embodies in them what it means to be a Native Hawaiian, and the important culture and rich and diverse history and the vibrancy of everything that it means to be Hawai'i. Kūhiō is a skilled listener; he's someone who has various different perspectives. He is someone who tries to find common ground in very difficult issues, and he brings an insightful approach to the challenges that we face in Hawai'i today.

"And so I'd like to, again, introduce to you and ask for a round of applause for who I would consider a very distinguished leader in the State of Hawai'i: Mr. Joseph Kūhiō Lewis. Could we also get his children, Breana and Bryson, to stand? And I would also like to recognize, colleagues, his father, Dickie, who is in the gallery, if his father, Dickie, could please stand. Mahalo, Dickie."

At 11:45 a.m., the Senate stood in recess subject to the call of the Chair.

The Senate reconvened at 11:50 a.m.

The Roll was called showing all Senators present.

The President announced that he had read and approved the Journal of the Twelfth Day.

Senator Riviere recognized Danielle Ululani Beirne, and presented the following remarks:

"Members, guests in the gallery, and esteemed guests who are here with us today: Today is the third day of Hawaiian Caucus Week. We're honoring our outstanding kūpuna who've made impactful contributions to our community, and today I'm proud to introduce to you somebody I've known for several years now, a great leader in the Ko'olauloa moku: Danielle Ululani Beirne—we know her as Aunty Ulu. She's a lifelong resident of the district and a great advocate for the community of Kahana. Welcome today, Aunty Ulu.

"So, for over 20 years, she was a Native Hawaiian affairs consultant to Outrigger Hotels. Aunty Ulu was also a member of the State House of Representatives; she served in the Seventeenth Legislature in 1993 and '94. And over the past four decades, Ulu has been involved in many organizations, including the Coalition of Hawaiian Organizations and Hui Na'auao. In 1995, she was appointed by Governor John Waihe'e to the Hawaii Sovereignty Elections Council as a councilmember. She also served as a delegate on 'Aha 'Ōiwi Native Hawaiian Convention in the 1990s, and also on Na'i Aupuni: Native Hawaiian Governance Convention in 2016. I'll just say on the side: She stays very active and is one of the cultural interpreters in the Ahupua'a 'O Kahana State Park that we have. More recently, Aunty Ulu has been very active with the Association of Hawaiian Civic Clubs, and she is the president of the Ko'olauloa Hawaiian Civic Club and has been for the last 10 years. She's a dedicated community leader who consistently advocates for issues affecting kūpuna, Ko'olauloa, the North Shore, and all of Hawai'i. Colleagues, please join me in recognizing Aunty Ulu Beirne.

"With Aunty Ulu is Troy Thompson, Louis Wallace, and Kamalani Johnson today, and Kaiwi Johnson, too. Welcome the family. And in the gallery, we have Sherri Lynn Johnson and Kahiau Wallace; Keaka Aumua with her husband, Zed Aumua; Puanani Beirne is with us today, I believe, and Charles Kaai, and other members of the Hawaiian Civic Clubs, so please all be welcomed. Aloha. Thank you."

"Here on the floor, we honor the Honpa Hongwanji Mission of Hawai'i for their contributions in the advancement of our Hawaiian lāhui, so: Welcome. Today, on the fourth day of the Hawaiian Caucus Week, we honor those individuals or organizations that have supported the Native Hawaiian community; they are Hawaiian at heart. On February 8, 1885, about 900 Japanese immigrants arrived in Hawai'i. The Japanese would quickly become one of the island kingdom's largest ethnic groups. Japanese immigrants were able to maintain strong cultural traditions in Hawai'i and be one of the Native Hawaiians' strongest allies. One such organization is the Honpa Hongwanji Mission of Hawai'i, who shares the living teachings of Jōdo Shinshū Buddhism so that all beings may enjoy a life of harmony, peace, and gratitude.

"The Honpa Hongwanji was established in Hawai'i in 1889 due to concerns for thousands of Japanese who had migrated to Hawai'i and may have been in need of some spiritual support; the mission became a spiritual and cultural center of Japanese immigrant life. On May 19, 1901, the Honpa Hongwanji Mission of Hawai'i was visited by Queen Lili'uokalani, accompanied by her dear friend Mrs. Mary Ward Foster, to attend services which honored Shinran Shonin, the founder of Jōdo Shinshū Buddhism. The Queen's visit to the Buddhist temple was a significant historical event which had a major impact on the Buddhist community in Hawai'i. During her visit, the Queen spoke of the value of heritage to all who call Hawai'i home.

"It is an appreciation of heritage that the Honpa Hongwanji share yearly when they recognize Living Treasures of Hawai'i. Since 1976, Living Treasures of Hawai'i has honored individuals who have demonstrated excellence and high achievement in their particular field of endeavor and who, through continuous growth, learning, and sharing, have made significant contributions toward enriching our society. The Honpa Hongwanji Mission of Hawai'i Living Treasures of Hawai'i has recognized Native Hawaiians such as: 'Iolani

Luahine; Mary Kawena Pūku'i; Lokalia Montgomery; Edith Kanaka'ole; Gabby Pahinui; Eddy Kamae; Reverend Abraham Akaka; Pilahi Paki; Richard Lyman, Jr.; Ka'upena Wong, Jr.; Sol K. Bright; Emma Sharpe; Herb Kane; Irmgard Farden Aluli; Gladys Brandt; Agnes Cope; John Lake; Kahauanu Lake; Reverend David Kaupu; Kenneth Brown; George Kanahele; Genoa Keawe; Uncle George Na'ope; Kekuni Blaisdell; Don Ho; Nainoa Thompson; Myron Thompson; Mary Kekuewa; Edith McKenzie; Momi Cazimero; Dottie Thompson; Mahi Beamer; Dr. Charles Burrows; Nalani Olds; Dr. Claire Hughes; Haunani Apoliona; Paulette Kahalepuna; Beatrice Dawson; Nola Nahulu; and Hailama Farden, and many other well-deserving honorees. This year, they will be honoring Earl Kawa'a.

"The representatives seated here on the floor are Mrs. Ko Miyatake, the chair for Living Treasures of Hawai'i Selection Committee; Mrs. JoAnn Yosemite, committee member, Living Treasures of Hawai'i Selection Committee; Mr. David Atcheson, director, Honpa Hongwanji Mission of Hawai'i Board of Directors. Colleagues, please join me in a round of applause for the Honpa Hongwanji Mission of Hawai'i for their support and advancement of our Hawaiian lāhui, and their representatives. Mahalo, everybody."

FIFTEENTH DAY

Friday, February 8, 2019

The Senate of the Thirtieth Legislature of the State of Hawai'i, Regular Session of 2019, convened at 11:37 a.m. with the President in the Chair.

The Roll was called showing all Senators present with the exception of Senator Ihara who was excused.

The President announced that he had read and approved the Journal of the Fourteenth Day.

At this time, the Chair publicly acknowledged and thanked Danicia Honda, Senator Kidani's office manager, for her contributions to the community in working with young women from Wai'anae High School to prepare for their prom.

Senator Kahele introduced Kawika Perreira, a tenth-grade student at Saint Louis School, who was accompanied in the gallery by his mother, Dr. Trisha Kehaulani Watson; Dr. Benton Keali'i Pang of the Association of Hawaiian Civic Clubs; and Elmer Ka'ai from the University of Hawai'i.

Senator Keohokalole recognized and honored the Hawaiian Civic Club of Honolulu and the Hawaiian Civic Club movement, and presented the following remarks:

"In the malama of Kaulua and the rising of the Kūlua, this 8th day of February during the 'Ōlelo Hawai'i Month marks the final day of Hawaiian Caucus Week. On Monday, we honored our 'ōpio from Nānākuli Intermediate and High School, and the process they took to fight for water rights. On Tuesday, we honored Joseph Kūhiō Lewis, a single parent raising his children with Hawaiian values. On Wednesday, we honored a kupuna, Auntie Ululani Beirne, for her advocacy in the fight and education on self-determination. And yesterday, we honored an ally, Honpa Hongwanji, for their contributions in the advancement of Native Hawaiians. This month, February, is the month for growing things in the Hawaiian calendar, and together we are planting the seeds to build an 'ahahui—an organization—so that those seeds will help grow our Native Hawaiian lāhui. Mr. President, with your permission, I'd like to yield my time to my fellow colleague from Maui Nui to share further about our 'ahahui."

Senator English rose to present the following remarks:

"The Hawaiian Civic Club movement was the fulfillment of a dream for Prince Kūhiō Kalaniana'ole. As a delegate to the United States Congress, with his concerns over the decline in spirit and devastating spike in the mortality rate of the Native Hawaiian people and the fear that they would not have the educational skills to protect their interests, Prince Kūhiō knew that he needed to plan and grow those grassroots to build an 'ahahui so the seeds would help grow our native lands. Along with the Hawaiian leaders, Prince Kūhiō recognized that Native Hawaiians were going through a very difficult period of adjustment after losing their nation, their lands, and their way of life. Mr. President, with your permission, I yield my time to the colleague from Moku o Keawe, Senator Kahele."

Senator Kahele rose to present the following remarks:

"In 1918, Prince Jonah Kūhiō Kalaniana'ole and a group of his cohorts established and organized the Hawaiian Civic Club, now called the Hawaiian Civic Club of Honolulu. The Hawaiian Civic Club was formed with the objective of providing scholarship aid for the education of Hawaiian students; of preserving and promoting the Hawaiian heritage, traditions, language, and culture; of promoting and supporting

organizations interested in improving the lives and conditions of the Hawaiian people and community at large, as well as legislation beneficial to the Hawaiian community. It also advocated for the perpetuation of those values that dignify all human life, which are the moral and ethical foundation of our cultural expressions that comprise a unique, rich, and enduring legacy of the indigenous people of Hawai'i. The Hawaiian Civic Club of Honolulu was the first of 5 councils and 67 clubs to follow in the Hawaiian Civic Club movement, all working toward the goal of improving the lives for Native Hawaiians. The Hawaiian Civic Club of Honolulu continues to thrive and serve as a leader within the Association of Hawaiian Civic Clubs that was created in 1959 to facilitate the goals and objectives of bettering the conditions of Native Hawaiians. Mr. President, with your permission, I yield my time to the senator from the ahupua'a of Wai'anae for the introduction of our individual honorees."

Senator Shimabukuro rose to present the following remarks:

"Our first honoree, Charles Manu'aikohana Boyd, is a kumu hula, songwriter, composer, well-known entertainer, a cultural and protocol advisor, and is currently employed at Kamehameha Schools as their cultural consultant. Manu Boyd is the current pele kikena of the Hawaiian Civic Club of Honolulu. Also with him is Hailama Farden, and he is currently the new pele kikena of the Association of Hawaiian Civic Clubs. He currently is the regional director of Kamehameha Schools for Kona O'ahu. He is a leading language and cultural resource to many. Mr. President, with your permission, I yield my time now to the senator from Ko'olaupoko."

Senator Keohokalole rose and stated:

"Colleagues and members of the gallery, can you please help me in congratulating our honorees today? Mahalo. We also would like to extend our best wishes for the success of all our Hawaiian Civic Clubs as they continue their journey in moving our lāhui forward. In the gallery, we have several members of our Hawaiian Civic Clubs here to join us for this special floor presentation. Can all the folks who are joining us today on behalf of the Hawaiian Civic Clubs please stand and be recognized? Thank you."

At this time, Senator Gabbard rose to speak on a point of personal privilege as follows:

"Colleagues, in case you're bored tonight, at 8:00 on PBS, there's a program called *Finding Your Roots*. I was asked to submit my saliva a while ago for the DNA thing, and so, hopefully, there's not going to be any surprises as far as my family genealogy, like my great-great-grandfather being a member of the Nazi Party. If that is the case, I just wanted to let you guys know that ... what could I do? So, anyway, just want to let you know. Thank you, aloha."

Senator Taniguchi announced that there would be an NCSL luncheon later that afternoon, and invited the members to attend.

The Chair noted that Corina Eckl, who had served for many years as the NCSL liaison to Hawai'i, had retired, and Martha Saenz was the new Hawai'i liaison. The Chair also noted that the NCSL National Conference would be held in Indianapolis in August 2020 and Speaker Scott K. Saiki would be elected as NCSL president. The Chair commented that Speaker Saiki was making his way up, helping to raise Hawai'i's voice on the national level and making Hawai'i's concerns and issues heard.

EIGHTEENTH DAY

Wednesday, February 13, 2019

The Senate of the Thirtieth Legislature of the State of Hawai'i, Regular Session of 2019, convened at 11:33 a.m. with the President in the Chair.

The Roll was called showing all Senators present.

The President announced that he had read and approved the Journal of the Seventeenth Day.

At this time, Senator Dela Cruz recognized Audrey Case, wife of United States Representative Ed Case.

Senator Baker commended and congratulated the 2018 Hawai'i Healthcare Heroes, and presented the following remarks:

"Colleagues, the Healthcare Association of Hawaii is a leading voice for healthcare providers in our state. The organization works to positively influence state and federal policy to provide quality and accessible health care to the people of Hawai'i. Before we get to the introductions of the folks on the floor, I'd like to recognize a couple of folks in our gallery: The head of the Healthcare Association of Hawaii, Hilton Raethel, and he's also joined by some of the other staff and members, so if all of those individuals could stand to be recognized, please?"

"Colleagues, through HAH Healthcare Heroes awards, patients are given the opportunity to acknowledge the service of outstanding healthcare providers, those who have demonstrated exceptional commitment and noteworthy expertise. These providers are honored for their exemplary care they deliver to patients and their loved ones across Hawai'i. They truly are the epitome of selfless service for the betterment of our community and, therefore, are more than worthy to be honored as a 2018 Healthcare Hero. I'd like to now yield the floor to Senator Rhoads for our first introduction."

Senator Rhoads rose to present the following remarks:

"Our first Healthcare Hero is Dr. Christie Izutsu of O'ahu, who was nominated for this award by the family of the late Richard Kaneshiro. During Richard's medical journey, Dr. Izutsu was truly thoughtful and steadfast by being just one call away at all times. Working as a nephrologist at the Kidney Clinic of Hawaii, Dr. Izutsu demonstrates top-notch professionalism and compassionate care. She is dedicated to her profession, ensuring every single one of her patients receives unparalleled care. She uses a patient-centered team approach while also striving to make the tumultuous cancer journey as stress-free as possible. Her unwavering care for her patients, seen with her efforts as a listening ear and a guiding voice, makes her deserving of the award as a Healthcare Hero. Could we please give a round of applause to Dr. Izutsu? I would now like to yield the floor to Senator English. Mahalo."

Senator English rose to present the following remarks:

"Our next Healthcare Hero is nurse Valerie Janikowski from Lāna'i. One of Valerie's patients, Walter Hanog, says that if it weren't for Valerie, he may have lost his legs. But Valerie was not discouraged by Walter's complex medical scenario; as a home healthcare nurse, she cleaned and dressed his wounds, gave insulin shots, monitored his intravenous treatments, and organized his medication intake. She also arranged for off-island medical checkups, including air and ground transportation. It was comprehensive, compassionate caregiving. Now, with Valerie's dedicated care, Uncle Wally still has both of his legs and is able to walk again despite being told by several doctors that they would need to be amputated.

Valerie truly is a Healthcare Hero. I'd like to say mahalo, thank you very much, Valerie, and, from experience in the islands, kommol tata. I'd like to now yield the floor to Senator Kanuha."

Senator Kanuha rose to present the following remarks:

"Our next Healthcare Hero is nurse Dee Ono from Hawai'i island, who has helped many of my family in Kona; mahalo for all that you've done in the community. Caring for people in their homes creates a special kind of patient-caregiver bond, and these relationships can naturally evolve into friendships. Through her kind and generous spirit, Dee inspires hope in patients who feel like there is none. One patient in particular is Clayton Punihaole: Through Dee's compassion and authenticity, she helped Clayton realize that dialysis was not a death sentence but just another chapter in life's story. Dee reassured Clayton that his family and medical team truly cared about him and that, in their trusted hands, things could be different. Dee supported Clayton at dialysis and podiatry checkups, and provided in-home care. Dee Ono's care and tireless support allowed Clayton to enjoy life again and advocate for those disabilities and, for this reason, is being honored as a 2018 Healthcare Hero. Please give a round of applause for my aunty, my good friend, Dee Ono. I will now yield the floor to the senator from Hawai'i Kai."

Senator Chang rose to present the following remarks:

"Our next Healthcare Hero today is Dr. Rebecca Sawai of O'ahu. Dr. Sawai is a general surgeon specializing in colon and rectal surgery at Kaiser Permanente Hawaii. She chose medicine because it allows her to combine her interest in science with her fondness for working with people. Her patient Jeffrey Peterson witnessed her outstanding professionalism and empathy. He is especially thankful for Dr. Sawai's ability to be proactive by creating a plan of attack to extend his life. She took the time to communicate the medical terms to Jeffrey as well as the strategy they'd be following. Dr. Sawai knows that it is important to be able to communicate procedures clearly to patients as a form of full engagement from both healthcare provider and patient. Because of Dr. Sawai, Jeffrey didn't miss out on milestones in the lives of his children, and it is through wonderful stories such as this that we are proud to recognize Dr. Rebecca Sawai as one of our 2018 Healthcare Heroes. How about a round of applause? I now yield the floor to Senator Kim."

Senator Kim rose to present the following remarks:

"Mr. President, I'm in such awe to witness and see all of these heroes sitting on our floor here in the chamber, and so our final Healthcare Hero is nurse Lesley Yoshimori of O'ahu. Lesley Yoshimori demonstrated her selflessness and dedication to her profession when her patient at Tripler Army Medical Center, Sheldon Kimura, was diagnosed with amyloidosis that required a heart transplant. When Sheldon's treatment was moved to Stanford, Lesley did not stop helping her patient, and she remained proactive as a resource and an advocate. Lesley became instrumental in pushing through Sheldon's medical needs, from coordinating discussions between Tripler and Stanford to being someone the patient and the family confided in at a time when decision-making was growing tougher. Professionals like Lesley embody the power of altruistic actions in times of hardship, making her truly noteworthy for the award as a 2018 Healthcare Hero. May we have applause for our hero Lesley Yoshimori? And now I yield the floor to Senator Baker."

Senator Baker then rose to offer wholehearted thanks and to say "mahalo nui loa" to all of the honorees for the significant and positive force that they are in their chosen fields.

Senator Keohokalole introduced supporters of Dr. Rebecca Sawai, who were present in the gallery: Alan, Mabel, and Tracy Okubo; Dr. Sawai's husband, Patrick Okubo; and Emma Crouch.

Senator Riviere welcomed Jeffrey Peterson, Dr. Rebecca Sawai's patient, who was present in the gallery.

At 11:44 a.m., the Senate stood in recess subject to the call of the Chair.

The Senate reconvened at 11:49 a.m.

ORDER OF THE DAY

THIRD READING

S.B. No. 711, S.D. 1:

On motion by Senator Dela Cruz, seconded by Senator Keith-Agaran and carried, S.B. No. 711, S.D. 1, entitled: "A BILL FOR AN ACT RELATING TO AGRICULTURAL

LAND,” having been read throughout, passed Third Reading on the following showing of Ayes and Noes:

Ayes, 25. Noes, none.

At this time, Senator Taniguchi, Chair of the Committee on Labor, Culture and the Arts, requested a waiver of the notice requirement pursuant to Senate Rule 21 for S.B. No. 1394.

Senator Taniguchi noted:

“Senate Bill 1394 proposes to establish an historic preservation income tax credit. Your Committee on Labor, Culture and the Arts heard S.B. 1394 on Tuesday, February 12, and deferred the measure in order to seek a re-referral jointly to LCA/WAM to allow more time to work with the interested parties before First Decking. WAM has advised us that it would accommodate revisions to the bill and asked LCA to hold decision-making to move the bill forward and to avoid a joint hearing.”

The Chair granted the waiver.

Senator Taniguchi announced that the Committee on Labor, Culture and the Arts would be holding a decision making meeting on S.B. No. 1394 that afternoon at 3:05 p.m. in Conference Room 224.

The Chair called on Senator Gabbard and directed him to lead the members in song to wish Senate Chief Clerk Carol Taniguchi a happy birthday, after which the members rose in applause.

Senator Baker rose to speak on a point of personal privilege as follows:

“A few days ago, Hawai‘i lost an amazing woman. Not only was she a civil rights advocate, a volunteer for projects and issues that inspired social change, she was a feminist; she was a mother, a grandmother, and a third-generation Korean American here in Hawai‘i. I’m speaking about my dear friend Jacqueline Young—Jackie to all of us.

“I got to know Jackie when we were working with the American Cancer Society, advocating for greater screenings and raising awareness. I also had the good fortune to serve with her when I was in the House of Representatives. She was the first woman who was elected Vice Speaker in the House and served there with distinction. She also has, to her credit, the founding of a domestic violence/spouse abuse shelter on the windward side, and she’s done so many, many other things. But I wanted to take this opportunity to share a little bit about her; I wanted to acknowledge her daughters Paula and Nani in the gallery.

“Jackie just did so many things in our community that we can only say aloha and mahalo nui loa for her dedication, her wonderful life, and for her friendship to so many of us here in the state, working to make sure that equal rights are protected, that civil rights are protected, and that people are uplifted in all that we do. Hawai‘i historian Tom Coffman said about her, ‘Jackie Young is what the public no longer believes exists: An adept politician and a pillar of unwavering conviction.’ That was Jackie, and I know that’s how we will all remember her, so, Mr. President, at the appropriate time, I’d like to request that the Senate adjourn on a rising vote and observe a moment of silence in honor and memory of former Representative Jackie Young. Mahalo.”

Senator Kim rose to speak on a point of personal privilege as follows:

“I would like to add my thoughts for Jackie as well. As fellow Koreans, we often worked together on a number of issues, and I was really pleased as President to appoint her to the Judicial Selection Commission, and I know she loved serving on the commission. We had many talks about that, and

she was an advocate for them as well as so many others that were mentioned by Senator Baker. And my condolences to her daughters and her family. Mahalo.”

Senator Thielen rose to speak on a point of personal privilege as follows:

“I’d like to recognize Jackie Young. I moved back to Hawai‘i in 1990 after 12 years of living on the mainland, and I remember going to an event that was sponsored by the Hawai‘i Women’s Political Caucus and the Hawaii Women’s Legal Foundation. Up on the stage, there was this woman who was talking about domestic violence and the need to take action to help victims of domestic violence and the work that she’d done in our community in Kailua to help set up a shelter so there would be a safe place for victims to go, where they could get help. I remember I had lived downstairs from some people where there was violence going on, and I hadn’t really recognized the extent of the problem, but she helped to educate so many of us in the community, and she was just a stalwart representative for women everywhere, and also for the environment. She helped protect the view planes on Olomana to make sure that it wasn’t developed. She helped so many environmental and land use areas on Windward O‘ahu, and we will forever be in her debt. She also was somebody who, when she left public office, continued public service in a lot of quiet and mainly unrecognized ways because she was a dedicated public servant. She was a tremendous role model. I want to thank her daughters for the time that they gave up with her in order that she could do the public work that she did because she really inspired so many of us, and we’re just eternally grateful for what she’s done and the legacy that she’s left in this state. Mahalo, Jackie.”

The Chair remarked:

“I would say, following up on Senator Kim because of her appointment of Jackie to the Judicial Selection Commission, which she eventually was the chair of, I have shared the rostrum with Jackie at the swearing-in of the newly confirmed judges at the Supreme Court, and she has always handled herself with class, with dignity—an articulate spokesperson, and, most importantly, lent the credibility that she brought to the process, and never have any of the senators questioned the Judicial Commission’s selection. We most often commend them on the selections that they have sent forward to the chief justice as well as the governor, and under Jackie’s leadership, we have seen an ability to work with the chief justice and the governor to bring better gender equity to the amount of women who serve on the bench, which I would add to all of the accolades that Senator Thielen talked about. Her legacy—certainly, for me, the first thing I will think about because of my interaction—is her work to bring that gender equity to the bench in the State of Hawai‘i, and I will miss sharing our time together at the swearing-in ceremonies at the court. She was always wonderful to be with.”

Senator Ihara rose to speak on a point of personal privilege as follows:

“Jackie was Vice Speaker of the House when I was Majority Floor Leader. We had selected our preferred Speaker, and Jackie and I were part of a team to balance with the Speaker and bring much more diversity, and it was a time when I would call it a good-government bloom; we had a whole bunch of reforms. In fact, the Speaker, working with Jackie, we really advanced the Public Access Room and brought a lot of visibility in the community, and Jackie was the spokesperson for that, and the Speaker that year got an unprecedented good-government award from Common Cause, much of it because of Jackie’s work. I’d been to her house a number of times. As a person, I would aspire to be a human being like Jackie, and I really want to honor her and acknowledge her daughters: Thank you for

being here in this sacred place that she was the Vice Speaker of on the other side. Thank you, Mr. President.”

Senator Inouye rose and stated:

“I’d be remiss not to join the rest of my fellow colleagues in honoring Jackie as well, and just to add that Jackie was so involved with many areas that were recorded earlier. But I must add that she attended an event when I was mayor—on behalf of the three women mayors in 1990 who got elected the first time in the State of Hawai‘i—here on O‘ahu where the Hawaii Women Lawyers honored the three women at a forum, and Jackie came up and she was so proud of us three women, and, hopefully, it will continue. However, as Senator Kim and you, Mr. President, mentioned, in her role as chair of the Judicial Selection Commission, she appeared at—I believe it was her last visit to the neighbor islands, in October, when the Selection Commission, under her purview, had appointed and recommended six women judges for Hawai‘i island—the last appointment of the judge in Waimea of Big Island, and she was just ecstatic and proud, and, of course, the chief justice did allow her to speak during that confirmation process as well. But we all understand and share our condolences to the family and, hopefully, we’ll see a lot more Jackie Youngs going forward.”

Senator Inouye then thanked Senator Nishihara for the baked goods on the members’ desks in honor of Valentine’s Day.

The Chair then announced that the deadline to file standing committee reports would be 11:00 p.m. that evening.

At 12:03 p.m., on motion by Senator Kahele, seconded by Senator Fevella and carried, the Senate adjourned until 11:30 a.m., Friday, February 15, 2019, on a rising vote, observing a moment of silence in memory of former State Representative Jacqueline Eurn Hai Young.

"Colleagues, today we are very honored to have the elected leaders, legislative clerks and staff from across the Pacific join us in the chambers. With them are the representatives of the United Nations Development Program (UNDP) Pacific Office. These leaders are legislative representatives from seven Pacific Island countries: Guam, the Republic of Palau, the Republic of the Marshall Islands, the Federated States of Micronesia, the Independent State of Samoa, the Republic of Nauru, and the Republic of Vanuatu. They are in Honolulu this week to take part in a strategy meeting hosted by the UNDP with the Strengthening Legislatures in Pacific Island Countries Project, or SLIP. SLIP is a three-year endeavor; it focuses on strengthening legislative bodies in the Pacific. The project seeks to provide support to these legislative bodies to become more effective and efficient through strengthening the work of their committees and building the capacities of the legislators and their staffs.

"Joining us on the floor, we are honored to have leaders of these parliaments, congresses, and legislatures: Speaker Esmon Saimon from Vanuatu Parliament; Speaker Cyril Buraman from Republic of Nauru; Senator (and in Guam, the senators are called 'the speaker'), so Speaker Tina Rose Muna Barnes from Guam; Senator Daisy Alik-Momotaro from the Republic of the Marshall Islands; Vice Speaker Esmond Moses from the Federated States of Micronesia; and then we have assistant clerk Leilani Senior from Palau; assistant clerk Graeme Tualalelei from Samoa; and Suzanne Gallen, UNDP office. Can we welcome them to the Senate? Also with us in the gallery are members of the legislative staffs from the various governments, and if all of you would please stand to be recognized as well?"

"Members, this is a very special event; it's the first time that the Senate has partnered with the United Nations Development Program for their workshops in Hawai'i. We are flying all of their national flags on our flagpoles in the front and, for the very first time, the UN flag is flying in Hawai'i. To our distinguished guests, the Hawai'i State Senate looks forward to future collaborations as we continue to strengthen our relationships with our island countries."

TWENTY-FIRST DAY

Tuesday, February 19, 2019

The Senate of the Thirtieth Legislature of the State of Hawai'i, Regular Session of 2019, convened at 11:35 a.m. with the President in the Chair.

The Roll was called showing all Senators present with the exception of Senators Chang, Harimoto, and Ruderman who were excused.

The President announced that he had read and approved the Journal of the Twentieth Day.

At this time, Senator Gabbard recognized RiceUp Farmers, Inc., and presented the following remarks:

“Colleagues, today we are honoring RiceUp Farmers, Inc. Colleagues, dreams can be made with only a handful of pesos: 88, to be exact, or \$1.68. Just ask Elvin Laceda, a young farm boy who traveled to the United States from the town of Lubao, Pampanga, Philippines, in 2016. He left the Philippines with a meager \$47.81 that his grandmother gave him and came to Hawai'i to study at BYU–Hawaii with the aid of a scholarship grant. And, in 2017, RiceUp Farmers, Inc., was born. The vision? To improve the livelihood of Filipino farmers and to help innovate agriculture. So, while the RiceUp story began with meager resources, it did not deter Elvin from starting a program that would become one of the best social enterprises in the United States. One month after he set foot on Hawaiian soil, RiceUp was born.

“I met the RiceUp students in 2017, and we've kept in touch on various ag issues. From the initial 50 farmers who joined the RiceUp network in his hometown in Pampanga, there are now more than 300 farmers benefiting from the program. By the end of this year, there will be 2,800 farmers who will be part of this social enterprise. RiceUp started with a very small team in Hawai'i; now, more than 40 students are part of the movement, with more than 30 local and international partners. One farmer, Mr. David, who has been farming for more than 40 years, said of the RiceUp program:

No other organization has ever produced such excitement within us to change our vision in farming than RiceUp. Initially, we did not believe these young people would help us improve our livelihood; we had been in the industry for decades, even before these kids were born! But as we discovered their sincerity and commitment, we feel this is unique. This is more than a business: We are a community; we are a family.

“An American dream that began with an 88-peso inspiration grew to become one of the leading social enterprises in the world. The RiceUp team has more than 88 things that they are grateful for. The RiceUp crew, now composed of a management team of BYU–Hawaii students and an on-site team in Pampanga, Philippines, has been recognized and has shared its story not only in the United States and the Philippines but throughout the whole world. RiceUp's mission is to innovate the system of farming through digital technology and to empower farmers through education while enriching communities through entrepreneurship and sustainable farming systems that benefit both the farmer and the consumer. The admirable mission of the RiceUp organization is to assist farmers so they can earn a sustainable income, to encourage young people to become proactively engaged in agriculture, to ensure farming is efficient and climate-resilient, to establish a strong partnership with the government, and to create farmer leaders in society. RiceUp envisions communities where farmers both young and old work together with technology to

create sustainable livelihoods. In just two short years, RiceUp has a long list of impressive accomplishments. They established a farm school with more than 60 farmers being educated in financial, technological, and business skills in Pampanga, Philippines. They created an app that helps farmers directly sell to consumers. They taught farmers vermiculture and hydroponics as another source of income and other climate-resilient ways of farming. RiceUp partnered with the mayor of Davao City, Philippines, to establish a farm school with more than 1,000 farmers. This will also help former rebels and indigenous people to turn to farming to establish peace. Additionally, RiceUp was invited and sponsored by the UN to speak at the World Youth Conference in Malaysia. RiceUp won the Enactus Social Entrepreneurship National Competition out of more than 400 universities, and they were semi-finalists at the Enactus World Cup held in Silicon Valley.

“Will you please stand when I call your name: CEO and founder Elvin Jerome Laceda; vice president of communications Princess Stephanie Donato; vice president of media Joan Rey; vice president for business Joseph Duano; chief technology officer Zenos Thoreson; director of social media Ruth Alvarado. The Hawai'i State Senate hereby honors and congratulates RiceUp Farmers, Inc. Mahalo for your dedication to creating sustainable farm systems by assisting our farmers in countless ways. Your work to encourage and train young people to become the next generation of sustainable growers is crucial to our healthy communities in the future. Would you please give them a big hand? And, finally, I would like to acknowledge, in the gallery, we have with us their mentors, Dr. Jason Earl and Bennette Misalucha, and the organization's members: Sabrina McQueen, Mark Rey Bulos, Rebecca Bulos, Paula Putong, Roane Purificacion, Anna Monica Fogavai, Cherie Moore, Cromwell Barredo, Kimball Heaton, Addison Hellum, Juna Magno. And, again, I want to acknowledge their efforts; thank you for coming, and aloha.”

TWENTY-THIRD DAY

Thursday, February 28, 2019

The Senate of the Thirtieth Legislature of the State of Hawai'i, Regular Session of 2019, convened at 11:33 a.m. with the President in the Chair.

The Roll was called showing all Senators present.

The President announced that he had read and approved the Journal of the Twenty-Second Day.

At this time, Senator Shimabukuro honored the Cultural Learning Center at Ka'ala, and presented the following remarks:

"A tremendous conflagration swept across Wai'anae and Mākaha Valley in August of last summer, 2018. It began with two large brushfires, which devastated 17 farm lots in the state's Wai'anae Agricultural Park along with destroying five farm structures and leaving one Wai'anae family home in ashes. In its finality, it scorched almost 9,000 acres. Unfortunately, fires are commonplace on the hot and dry Wai'anae Coast and are becoming alarmingly more and more devastating. However, from those ashes rose the phoenix of a combined community effort to recover, restore, and rehabilitate the vibrancy of those lands that were left scorched. The honored guests we recognize here on this floor have made it their personal kuleana to mālama the lands of the Wai'anae Coast and to make every effort to heal its wounds inclusive of all community stakeholders from local youth to esteemed kūpuna. Through their collective efforts, they created the Wai'anae Kai Wildfire Preparedness Plan and are actively seeking to protect their ancestral lands. Their goal is to prevent ignition of fires in Wai'anae while implementing key best management practices. This includes increasing security in the upper valley and improving the ability of firefighters to respond to fires, extinguishing them quickly by increasing water availability.

"Watershed and native forest preservation go hand in hand with fire prevention. Because these groups recognize the importance of educating our future generation about their mission, a key partner among them is the 'A'ali'i Program at Nānākuli High and Intermediate School. The 'A'ali'i students drafted a resolution to restore watersheds across the state and perpetuate Hawaiian cultural practices. The students presented their resolution to the Wai'anae Neighborhood Board, the Wai'anae Moku Hawaiian Civic Clubs, and Ke One o Kākuhihewa O'ahu Council of the Association of Hawaiian Civic Clubs, who all eventually adopted it. It's here today that we come together to recognize this committed group, who are seeking to heal Hawaiian lands in a Hawaiian sort of way. We realize that in supporting their endeavors, there is so much more which we all could gain, in the absence of which, there is so much which could all be lost. I would now like to yield the floor to the senator from Kapolei."

Senator Gabbard rose to present the following remarks:

"Colleagues, as the chair of the Agriculture and Environment committee, I would be remiss if I didn't say a few words about the importance of Ka'ala Farm and their Cultural Learning Center. Just yesterday, the front page of the *Star-Advertiser* highlighted the publication of a new study by Kamehameha Schools, UH, and the United States Geological Survey in the journal *Nature Sustainability*. The study found that traditional indigenous agro systems are key to us facing the future challenges posed by climate change. And this is exactly what Eric Enos and his team are currently doing at Ka'ala Farm. They lease a 97-acre parcel from DHHL and another 1,100-acre ranch from DLNR at the top of Wai'anae Valley. Back in the 19th century, the streams were diverted for the sugar industry,

but they've been restoring those streams and also kalo lo'i and 'auwai. What they have is one of the best preserved agricultural village systems in the state. Over the past four decades since their founding in 1976, they have developed expertise in the ancestral knowledge of growing food, managing valuable land and water resources, and bringing people together in a spirit of shared responsibility. Ka'ala Farm provides cultural and environmental educational experiences for thousands of visitors each year to reconnect to the 'āina through hands-on experiences. They are teaching the youth of the Wai'anae Coast and their families traditional agricultural practices, such as the planting of dryland taro and the concept of edible forests. The idea is that with this knowledge, people will plant gardens for their subsistence. We commend Ka'ala Farm, UH PALS and PLACES, Nānākuli High and Intermediate 'A'ali'i Program, and the members of the Wai'anae Moku Ke One o Kākuhihewa O'ahu Council of Hawaiian Civic Clubs for coming together in the spirit of cooperation to focus on this important watershed management and fire prevention and mitigation project. I'd like to now turn the floor back over to the senator from the Wai'anae Coast."

Senator Shimabukuro rose and stated:

"Colleagues, it's my privilege to introduce our honored guests. Representing the Cultural Learning Center at Ka'ala, also known as Ka'ala Farm, we have director Eric Enos; representing the UH Place-Based After-School Literacy Support and Community Engagement programs, which are also known as PALS and PLACES, we have Kellen Smith and Kay Fukuda; representing Nānākuli High and Intermediate School's 'A'ali'i Program, we have principal Darin Pili'aloa and teachers Jewelynn Kirkland and Kathryn Fisher; representing the Wai'anae Hawaiian Civic Club, we have pele kikenā Rochelle Kawelo; and representing the Ke One o Kākuhihewa O'ahu Council for the Association of Hawaiian Civic Clubs, we have pele kikenā Benton Keali'i Pang. In the gallery, to support our honorees, we have Bruce Tsuchida and Katie Franklin from Townscape; Mele Worthington and Stephanie Kawelo of Wai'anae Hawaiian Civic Club; Georgianna Navarro of the Wai'anae and Mākaha Hawaiian Civic Clubs; and I know that the driver for some of them was DeMont and Momi Conner of Ho'omana Pono PAC; and we also have Hailama Farden, who's the president of the Association of Hawaiian Civic Clubs. We have a gang who takes care of Ka'ala Farm: we have Stone, Mango, and Warrior Levi, and AK King. We have Wai'anae High School Hawaiian studies students. We've got Miwa and Kili Enos and her 'ohana and she is with Kua. We have Tammy Jones, Tara Ferron from Nānākuli High 'A'ali'i Program. And if anyone else is here in support of these honorees, please stand to be recognized, and will you give them a round of applause? Thank you so much."

At 11:41 a.m., the Senate stood in recess subject to the call of the Chair.

The Senate reconvened at 11:48 a.m.

The Chair having so ordered, Senator Gabbard's remarks read as follows:

"Mr. President, I rise in strong support of S.B. 763, S.D. 2. Colleagues, we've heard in the news recently about a couple of high profile cases raising concerns about the exploitation of the Hawai'i brand. On November 27, 2018, the *Star-Advertiser* reported that Michael Maeda of Honolulu and Iliana Sanchez of Los Angeles had filed a class-action lawsuit against a Delaware company, Pinnacle Foods, Inc., for false and deceptive advertising and fraudulent and unfair business practices. Pinnacle Foods sells potato chips labeled as 'Hawaiian' potato chips even though they are made in Washington State of ingredients not from Hawai'i. And as of March 2, 2019, the *Star-Advertiser* also reported that three Kona coffee farmers have filed a class action lawsuit on behalf of Kona coffee farmers in federal court in Seattle alleging that Walmart, Amazon, Costco, Safeway, Kroger, and other companies are selling fake Kona coffee.

"The question arises: how much money is our economy losing because of companies misusing the Hawai'i name but whose products have no affiliation with Hawai'i? This bill would try to put a number to that question. S.B. 763, S.D. 2 would direct DBEDT, in consultation with the Department of Agriculture, to conduct a study to assess the impacts of companies selling products in the U.S. using place-based marketing without any material ties to the state. DBEDT tells us that they have the ability to conduct the study and provide us with some data. With that data, we can then as a state look at next steps to reduce the exploitation of the Hawai'i brand and keep more of that money here in our local economy. Mahalo."

THIRD READING

MATTER DEFERRED FROM THURSDAY, FEBRUARY 28, 2019

S.B. No. 1433:

Senator Dela Cruz moved that S.B. No. 1433, having been read throughout, pass Third Reading, seconded by Senator Keith-Agaran.

Senator Thielen then offered the following amendment (Floor Amendment No. 2) to S.B. No. 1433:

SECTION 1. Senate Bill No. 1433, section 1, is amended by extending for nine months, rather than two years, the period in which a county may adopt an ordinance to establish a surcharge on state tax to December 31, 2019, and specifying the corresponding period in which the surcharge on state tax may begin to be levied, assessed, and collected to January 1, 2021, to read as follows:

"(c) Each county that has not established a surcharge on state tax prior to July 1, 2015, may establish the surcharge at the rates enumerated in sections 237-8.6 and 238-2.6. A county electing to establish this surcharge shall do so by ordinance; provided that:

- (1) No ordinance shall be adopted until the county has conducted a public hearing on the proposed ordinance;

(2) The ordinance shall be adopted prior to ~~March~~ December 31, 2019; and

(3) No county surcharge on state tax that may be authorized under this subsection shall be levied prior to January 1, 2019, or after December 31, 2030.

A county electing to exercise the authority granted under this subsection shall notify the director of taxation within ten days after the county has adopted a surcharge on state tax ordinance. Beginning on January 1, 2019, ~~or~~ January 1, 2020, or January 1, 2021, as applicable pursuant to sections 237-8.6 and 238-2.6, the director of taxation shall levy, assess, collect, and otherwise administer the county surcharge on state tax."

SECTION 2. Senate Bill No. 1433, section 2, is amended by amending section 237-8.6, Hawaii Revised Statutes, the general excise tax law, to specify that no surcharge on state tax may be levied prior to January 1, 2021, rather than January 1, 2022, if the surcharge was established on or after March 31, 2019, but prior to December 31, 2019, to read as follows:

"(b) Each county surcharge on state tax that may be adopted or extended pursuant to section 46-16.8 shall be levied beginning in a taxable year after the adoption of the relevant county ordinance; provided that no surcharge on state tax may be levied:

(1) Prior to:

(A) January 1, 2007, if the county surcharge on state tax was established by an ordinance adopted prior to December 31, 2005;

(B) January 1, 2019, if the county surcharge on state tax was established by the adoption of an ordinance after June 30, 2015, but prior to June 30, 2018; ~~or~~

(C) January 1, 2020, if the county surcharge on state tax was established by the adoption of an ordinance on or after June 30, 2018, but prior to March 31, 2019; ~~and~~ or

(D) January 1, 2021, if the county surcharge on state tax was established by the adoption of an ordinance on or after March 31, 2019, but prior to December 31, 2019; and

(2) After December 31, 2030."

SECTION 3. Senate Bill No. 1433, section 3, is amended by making the same amendment described in section 2 above to section 238-2.6, Hawaii Revised Statutes, relating to the use tax.

Senator Thielen moved that Floor Amendment No. 2 be adopted, seconded by Senator Ihara.

Senator Thielen rose to speak in support of the amendment as follows:

"Members, I was not in this body, but the Legislature in 2005 adopted a law to allow the counties to adopt an ordinance enacting a surcharge on the general excise tax within their county: for O'ahu, to be used for the rail, and for neighbor islands, to be used for other types of mass transit and infrastructure relating to mass transit. It was a temporary opening, an offer to the counties, that, under that original 2005 law, expired in December of 2005. So if the counties did not act by that December, they would not be able to enact a GET surcharge, and the GET surcharge was supposed to expire in 2022. It's been 15 years—**15 years**. If you had a baby in 2005, your child would now be 15 years old. They'd soon be off the payroll—in college, working, possibly marrying, having children. It's a long, long time.

"So, some people may wonder, why am I offering this amendment to limit the opportunity for a county to amend or apply a GET surcharge now? It's because I know, as a state, we're going to need to look at the GET additional charge

ourselves because we have a huge, looming unfunded liability that we are constitutionally obligated to honor for our retirees. We have a dire need to fill hard-to-fill positions, and we need to bring our salaries into alignment with the private sector's so that we can compete and bring more people on board to fill these vacancies to do these essential state jobs that we all want to have done for our constituents. And the worry that I have is that if we keep extending this tax 20, 21, 22 years, what's going to happen is that the counties are not going to look at it as a temporary opportunity; they're going to look at it as an entitlement, and then what do we do to meet the obligations that we have to our state employees and our constituents as a state? So, I think, I can see opening the door and extending it one last time, but I'm asking that we close that opportunity December of 2019, and if a county has not enacted it or not adjusted it by that time, then that door is closed, and then we can move forward with our planning for our state needs in the future, so I'd ask that you join me. Thank you."

The motion to adopt Floor Amendment No. 2 was put by the Chair and carried.

By unanimous consent, S.B. No. 1433, S.D. 1, entitled: "A BILL FOR AN ACT RELATING TO TAXATION," was placed on the calendar for Third Reading on Thursday, March 7, 2019.

THIRD READING

MATTER DEFERRED FROM FRIDAY, MARCH 1, 2019

Stand. Com. No. 814 (S.B. No. 693, S.D. 1):

Senator Rhoads moved that Stand. Com. Rep. No. 814 be adopted and S.B. No. 693, S.D. 1, having been read throughout, pass Third Reading, seconded by Senator Wakai.

Senator Thielen then offered the following amendment (Floor Amendment No. 3) to S.B. No. 693, S.D. 1:

SECTION 1. Senate Bill No. 693, S.D. 1, section 2, is amended to require any pedestrian who begins to cross the roadway, when the pedestrian-control signal is equipped with a countdown timer, to complete the crossing to a sidewalk or safety island before the countdown timer ends.

Senator Thielen moved that Floor Amendment No. 3 be adopted, seconded by Senator English.

Senator Thielen rose to speak in support of the amendment as follows:

"Most of us, when we walk downtown for lunch, we come up into Alakea Street, we see the stoplight, and it's a green light, and there is a signal for us to be able to enter the intersection, but then, all of a sudden, it changes to a countdown signal: 21 seconds remaining. And, as you often have done yourselves, or many of the other pedestrians who we see on the street, people pick up the pace; they enter the intersection; they safely cross. At the end of that 21-second countdown, there is a solid red hand that comes up, and there's 7 more seconds with that solid red hand. Then the light will turn yellow; there's another 4 seconds until the light turns red. So people who exit the intersection by the time the countdown time is done have exited well before the green light in the opposite direction comes on. What the floor amendment would do is say that if you exit the crosswalk after the countdown signal has ended, then you can be cited for violating the law, but if you enter the crosswalk, you can still cross it in time before the countdown signal finishes, then you can move forward. In either case, under the existing proposed bill or under the floor amendment, there's going to have to be enforcement. The only question is, under the existing bill, the police officer can cite you when you step into the intersection, even if it's when you've got 21 seconds to cross the street. Under the proposed floor amendment bill, the

police officer would be able to cite you when you exit the crosswalk if you have not finished crossing by the time that countdown timer is done. So I'd ask that we follow common sense and the pedestrian patterns that are already in existence, and if there's going to need to be adjustment in the signals, I think that the City and County and the State will be more motivated to make the adjustments under the floor amendment than they would under the proposed bill. Thank you."

Senator Keohokalole rose to speak in opposition to the amendment as follows:

"I'm not a traffic engineer. The reason we set speed limits a certain number, my understanding is, is because traffic engineers have studied the corridors where speed limit signs have been put in place and they've determined the minimum cruising speed necessary to avoid collisions or pedestrian accidents at intersections. My understanding is that's the reason why they make the countdown timers the way they're written. Again, I'm not a traffic engineer. We have lots of pedestrian fatalities, as all my colleagues understand. I think we should take a little bit more thoughtful approach on this. I'm not necessarily opposed to the concept because of the reality of pedestrian traffic, but not everybody can get across a crosswalk at the same speed. We have these intersections where people yield, where motorists are looking for individuals to get across the street and they're also looking at the countdown timers. I think that the public policy behind the way the law is originally written and the clarifications proposed in the current version are sound, and those are the reasons why I oppose. Thank you."

Senator Fevella rose to speak in opposition to the amendment as follows:

"Every community has a different counting. What Senator had just said, it doesn't go like that in our community. As soon as that timer stops, it turns yellow and red; it doesn't give so many seconds. In my community, as soon as that timer's done, it turns red. It doesn't give the pedestrian that extra time that maybe downtown does. Every district is different, so I feel if we're going to mandate this and have the officers enforce it, it's going to give them a hard time enforcing it because in each county or in each district the light is situated differently. Thank you."

Senator Inouye rose to speak in opposition to the amendment as follows:

"I, too, will be voting 'no' on this measure. I believe that this measure has gone on its fourth year, and it has gone to two committees, including Judiciary. I believe that the two are sufficient at this time as well, and so let's say sayonara and down with the amendment. Mahalo."

Senator Riviere rose to speak in support of the amendment as follows:

"I agree with the introducer of the amendment. I think, when you're standing there and you've got 30 feet to cross the street and it says *30 seconds*, 29, 28, and you stand there, and you could walk backward many times very safely and get across the intersection. I think the point of the law is to be safe, to be out of the intersection. I think this amendment addresses that: As long as you're out of the intersection, you're safe and you shouldn't be ticketed. So, in support. Thank you."

The motion to adopt Floor Amendment No. 3 was put by the Chair and carried, with Senators Baker, Chang, Dela Cruz, Fevella, Inouye, Keith-Agaran, Keohokalole, Kidani, and Rhoads voting "No."

Senator Thielen then moved that Stand. Com. Rep. No. 814 be received and placed on file, seconded by Senator English and carried.

The Chair having so ordered, Senator Baker's remarks read as follows:

"Mr. President, I rise in support of S.B.768, S.D. 1, Relating to Adolescent Mental Health Services.

"This bill is one of the policy proposals stemming from the 2018 Task Force, mandated by Act 12, Session Laws of Hawai'i 2018. This bill is about improving access to mental health services and requires as a standard of care for a mental health profession to ask the minor if the provision of services should be kept confidential from the minor's parent or guardian. The purpose of this bill is to prohibit health plans and providers from disclosing any payment or billing information for a minor's mental health services to a policyholder or other covered person if the minor received the services without the consent or participation of the minor's parent or legal guardian and to ensure that no out-of-pocket payments are assessed for minor-initiated mental health treatment or counseling services.

"Too many minors are hesitant to seek mental health services because they do not feel safe or comfortable asking for permission from a parent or guardian for such services. While the suppression of explanation of benefits is a standard practice where minor consent laws exist to preserve minors' privacy, the existing law does not explicitly prevent health plans from disclosing bill information related to minor-initiated mental health services.

"This measure guarantees a minor's privacy is maintained when the minor seeks mental health treatment. This measure will make it easier for a minor to feel comfortable asking for help and seeking mental health services. Please join me in support of S.B. 768, S.D. 1. Mahalo."

Senator Fevella requested that remarks regarding the measure be entered into the Journal, and the Chair so ordered.

The Chair having so ordered, Senator Fevella's remarks read as follows:

"No. The qualifications for U.S. President and Vice President are qualifications for federal national office, not state office. The federal national qualifications are set by the U.S. Congress. If this bill passes, the taxpayers of Hawai'i will be stuck with a big legal bill because this new Hawai'i law will be challenged immediately in the federal courts—and Hawai'i will lose. The National Constitutional Law Center notes that there are several recent U.S. Supreme Court cases which have ruled that state legislatures cannot put restrictions on candidates for national office listed on a state election ballot."

Senator Moriwaki rose to speak in support of the measure with reservations as follows:

“I support DLNR’s updating small boat harbor permit fees based on appraisals of a state-licensed appraiser, but I am concerned about the impact on current liveaboard permittees. DLNR has not increased the liveaboard fee since 1991, so to now increase the fees based on current appraisal may double or even triple their current fees. It would cause a severe hardship for many who have no other place to live; it may even lead to their displacement, adding to our homeless numbers. While DLNR indicates they can set by rule a gradual increase, the language in S.B. 1257 currently does not allow for any deviation from the appraised value. I thus will be voting with reservations to allow further discussion in hopes of addressing the problem either before or during conference. Thank you.”

The motion was put by the Chair and carried, Stand. Com. Rep. No. 730 was adopted and S.B. No. 1257, S.D. 2, entitled: “A BILL FOR AN ACT RELATING TO USE PERMITS FOR SMALL BOAT HARBOR FACILITIES,” having been read throughout, passed Third Reading on the following showing of Ayes and Noes:

Senator Thielen rose to speak in support of the measure with reservations as follows:

“I just wanted to make clear what my reservations are. I would support increasing the pay for teachers. I think, when we try to set up a voucher or other similar programs, there’s a problem in that there’s a few people who benefit from it, but not everybody. It becomes an expense to manage and administer, and then there’s an issue, too, on how you’re going to be able to enforce it over time. So those are my only reservations, and I would ask, if it’s possible, to have my remarks repeated for SSCR740 (Senate Bill 387) and SSCR1099 (Senate Bill 114), which are similar programs. Thank you.” (The Chair so ordered.)

Senator Kidani rose to speak in support of the measure as follows:

Senator Dela Cruz moved that Stand. Com. Rep. No. 741 be adopted and S.B. No. 409, S.D. 2, having been read throughout, pass Third Reading, seconded by Senator Keith-Agaran.

Senator Ruderman rose to speak in opposition to the measure as follows:

“Colleagues, this is the only bill I plan to speak in opposition to today, so please forgive me three minutes of your time that I ask. It’s easier, a little bit, to transition our electric grid to renewables, non-fossil fuels. The transportation sector is going

to be a lot harder to do, but now we have the tools to do it with electric vehicles and hybrids. As Greta Thunberg said about her country, Sweden, 'We're just a small country; what can we do?' We could say that about Hawai'i, but Hawai'i has a role to play in being a leader and spreading ideas around the world. We've seen that with hula, with surfing, with the concept of aloha, with music—we lead the world in many ways. We have a special role to play in the establishment of electric vehicles because we have shorter distances to drive; we have solar all year that we can charge our cars or get electricity to the grid without fossil fuels; we're the richest state in the richest country. So we have a role to play, but now we're going to put the brakes on supporting the transition. Now that two-and-a-half percent of our cars are electric vehicles and almost four percent are hybrids, we're going to put the brakes on because road fees are more important than climate change?

"It's been said that electric vehicles need to pay their fair share because they're so heavy and they do damage to the roads. An electric vehicle is lighter than the average SUV; it's much lighter than an empty pickup truck. Road damage has an exponential relationship to the weight of a vehicle: 90 percent of the damage to a road comes from the heaviest truck that goes down it that day; 9 percent comes from the second-heaviest vehicle that goes down it, and 1 percent comes from all the other vehicles put together. It's not a good reason to do this.

"This is not about my car: I have an electric vehicle, yes; I've also got a pickup truck on the Big Island. I'm going to buy another electric vehicle anyway, even if you're penalizing me for it. But it's not about my car. I had a Nissan Leaf for three years, and when the lease was up, the new Leafs came out with double the range, so, last year, I bought my second Leaf. You might say I turned over a new leaf.

"Now, I realize that most of you folks today are not going to change your vote based on what I say today, but I'm asking you that, next time we're faced with a decision on whether to take action on the greatest crisis facing our generation or not, that you turn over a new leaf and prioritize climate change as a matter of public policy. I ask you to hear this tiny voice from your future: 'Daddy, Grandma, after you learned that our planet was dying from burning fossil fuels, you did everything you could to save it, didn't you? I know you wouldn't let my planet die after you knew how important it was. I know you did everything you could to leave me a healthy world. I know you wouldn't put anything ahead of this, right, Mommy? Didn't you, Daddy, Grandma?' Thank you, Mr. President."

Senator Inouye rose to speak in support of the measure as follows:

"Though I agree that we are changing our method of transportation throughout the state, however, the increase of \$15, I believe, is not too much of an increase considering the cost of the car. Grandma, daughter, son, wife, husband, I think, I believe, would continue to say, 'Why are there so many potholes on our roads?' And, just to let you know, Mr. President, my car is just a gas car; it's five years old, and let me tell you, I paid \$1,400 because of the damages to the shocks and whatever it is, and that means that our roads need to be fixed. I believe our vehicles, our hybrids, must pay their fair share since we all seemed not to have an increase in our gas taxes these last couple of years, so I believe that \$15 is not too much of a big deal. Mahalo."

"The purpose of this bill is to promote healthy meal options for children and support parents' efforts to feed their children nutritious food. This measure would require that the default beverage a children's meal is served with is either water, milk, or 100 percent fruit or vegetable juice—not soda.

"Hawai'i has experienced an unprecedented increase in obesity and chronic conditions like type 2 diabetes, heart disease, liver disease, and tooth decay. Sweetened sugary drinks have been identified by numerous scientific studies as a major contributor to the obesity epidemic, and the Centers for Disease Control and Prevention recommends decreasing sugar sweetened beverages to prevent and reduce obesity. Requiring retail food establishments to provide a healthy default beverage as part of a children's meal encourages healthier choices when families eat outside the home.

"Native Hawaiians and those of Hawaiian ancestry are reportedly disproportionately represented in the Hawaii State Hospital and in DOH outpatient support services. Council members knowledgeable about Native Hawaiian mental health needs will be a real asset to this important board."

Senator Fevella requested that remarks regarding the measure be entered into the Journal, and the Chair so ordered.

The Chair having so ordered, Senator Fevella's remarks read as follows:

"No. This bill is auwe, just another example of what I call 'the war against family fishing.' The bill prohibits the use of lay nets—nets with a minimum size of 2 inches of stretched mesh—except with DLNR permit. Such a prohibition is a first step toward totally banning any gathering of any fish at all by local families which need the food. They depend on lay nets for catching the food that they need for their dinner tables."

The motion was put by the Chair and carried, Stand. Com. Rep. No. 850 was adopted and S.B. No. 1371, S.D. 2, entitled: "A BILL FOR AN ACT RELATING TO LAY NETS," having been read throughout, passed Third Reading on the following showing of Ayes and Noes:

Senator Inouye rose to request that remarks in support of the measure be entered into the Journal, and the Chair so ordered.

The Chair having so ordered, Senator Inouye's remarks read as follows:

"Mr. President, I rise to speak in favor of this bill. The purpose of this measure is to clarify provisions on electric vehicle charging and parking and extend the sunset date of Act 168, Session Laws of Hawai'i 2012, by three years to June 30, 2023.

"Electric vehicles are becoming more popular amongst drivers in Hawai'i due to financial incentives and the positive impact on the environment. While providing incentives to electric vehicles, electric vehicles still need to pay their fair share.

"This bill requires EVs to pay for parking when parked at a non-metered stall for more than the initial four hours in a public parking facility. This amendment has been made to address parking problems at the airport. As previously written, the Act did not address non-metered stalls and electric vehicle users are taking advantage of the free incentives. DOT continually loses significant revenue from these parking stalls when there is oftentimes a lack of parking spaces in airport parking structures.

"Support for the measure has come from the Department of Transportation, Ulupono Initiative, ChargePoint, Inc., Alliance of Automobile Manufacturers, Hawaiian Electric Company, Inc., Tesla, Blue Planet Foundation, Hawaii Automobile Dealers' Association, and numerous individuals.

"For these reasons I urge my colleagues to support this important measure in our effort to encourage early adoption of electric vehicles."

The motion was put by the Chair and carried, Stand. Com. Rep. No. 857 was adopted and S.B. No. 657, S.D. 2, entitled: "A BILL FOR AN ACT RELATING TO ELECTRIC VEHICLES," having been read throughout, passed Third Reading on the following showing of Ayes and Noes:

Stand. Com. Rep. No. 858 (S.B. No. 663, S.D. 2):

Senator Dela Cruz moved that Stand. Com. Rep. No. 858 be adopted and S.B. No. 663, S.D. 2, having been read throughout, pass Third Reading, seconded by Senator Keith-Agaran.

Senator Inouye rose to request that remarks in support of the measure be entered into the Journal, and the Chair so ordered.

The Chair having so ordered, Senator Inouye's remarks read as follows:

"Mr. President, I rise to speak in favor of this bill. The intention of this measure is to increase public safety. In 2018, 117 people were killed statewide in a number of traffic accidents, 43 of them pedestrians. Photo red light systems are used throughout the world and in the United States. They have proven to be reliable, efficient and effective in identifying and deterring those who run red lights.

"Speeding and the failure to yield the right of way contribute to at least 15 percent of Hawai'i's accident rates behind 'driving under the influence (DUI).' Speeding and failure to yield the right of way may also include running red lights.

"Testimony from the Department of Transportation indicate the following: Between 2011–2016, there has been 1,616 intersection crashes resulting from red light and other traffic signal violations. These crashes resulted in deaths, numerous injuries and property damage. During calendar years 2011–

2018, a total of 13 deaths occurred from a driver disregarding a red light signal. During calendar years 2014–2018, police have issued 17,021 red light violations to motorists who disregarded the traffic signal. Because police have other priorities for calls for services, it is not possible for them to enforce the laws at every intersection. A red light camera system is an attractive alternative to better enforcement of our traffic laws.

“This measure will apply to motorists who ‘run red lights’ that are in a steady red cycle state before the vehicle enters an intersection. Vehicles that have gone through an intersection when the light is yellow but turns red while still in the intersection should not be subjected to action.

“There has been at least a 15 percent reduction in red-light running incidents reported by the Federal Highway Administration, with some localities reporting up to a 44 percent reduction.

“One of the keys to the program’s success will be for acceptance by all stakeholders. This includes government officials, local law enforcement and, most importantly, the public. The counties are going to have to make an effort to differentiate this photo enforcement program from the ill-fated ‘van cam’ speeding program that was repealed in 2002 after public outcry.

“It will be up to the state and/or county to inform the public that this new program will use automated cameras that are affixed to a stationary location near the intersection like a light or utility pole. It is also to be made clear that the program is not a ‘revenue generator’ for either the government or the hardware vendor. The counties will be the entity to implement the program.

“Support for the measure has come from the Honolulu Police Department, Hawaii Bicycling League, Mothers Against Drunk Driving (MADD), Peoples Advocacy for Trails Hawaii, Blue Zones Project, and numerous individuals. There were only three testimonies in opposition to the bill.

“For these reasons I urge my colleagues to support this important measure in our effort to increase public safety and save lives.”

Senator Fevella requested that remarks regarding the measure be entered into the Journal, and the Chair so ordered.

The Chair having so ordered, Senator Fevella’s remarks read as follows:

“No. If this bill were to be made law, people would be treated as guilty until they prove themselves innocent. That goes against the very foundation of our legal system. There is no guarantee that this program would create safer roads.”

The motion was put by the Chair and carried, Stand. Com. Rep. No. 858 was adopted and S.B. No. 663, S.D. 2, entitled: “A BILL FOR AN ACT RELATING TO HIGHWAY SAFETY,” having been read throughout, passed Third Reading on the following showing of Ayes and Noes:

Senator Gabbard rose to speak in strong support of the measure as follows:

“Colleagues, plastic is a huge problem in our oceans, our wildlife, our environment as a whole, and in human health. If you don’t want to take my word for it, I would strongly recommend that you watch the December 8th edition of *60 Minutes* on plastics; it’s an eye-opener. It was for me. So I want to give you some bad news and good news this morning. First, the bad news, and my colleagues from Hawai‘i island may take interest in this: Kamilo Point in rural Ka‘ū on Hawai‘i island was highlighted in a May 1, 2017, *Huffington Post* article as being one of the dirtiest places in the world because of plastics. Ocean Crusaders reports that there are 5.25 trillion pieces of plastic debris in the ocean; of that mass, 269,000 tons float on the surface while some 4 billion plastic microfibers per square kilometer litter the deep sea. Shoppers worldwide are using approximately 500 billion single-use plastic bags every year, and this translates to about a million bags every minute across the globe, or 150 bags a year for every person on Earth, and the number is rising. We use 500 million plastic straws every single day in the United States. I visited Greenpeace’s *Arctic Sunrise* ship when it arrived here in Hawai‘i on October 11th of 2018, after it had just left the Great Pacific Garbage Patch. Greenpeace reported that microplastic particles which make up the garbage patch now stretch for a distance twice the size of the state of Texas. The *Arctic Sunrise* also visited Kaho‘olawe and brought back an estimated two-and-a-half tons of debris, including a large amount of plastics. Coastal Care reports that 90 percent of seabirds have some plastic in their digestive tracts.

“And now for the good news: Walmart, the world’s largest retailer, announced late last month that it will eliminate non-recyclable plastic packaging in all its private label brands by 2020, impacting over 30,000 products. Our counties have been taking the lead on reducing plastics for the last several years; as of July 2015, Honolulu, Hawai‘i, Maui, and Kaua‘i have all banned plastic checkout bags. At UH, a student-initiated ban on polystyrene food containers at all campus food establishments has been in place as policy since 2012. The Hawai‘i Ocean Friendly Restaurants program launched in 2016 now includes more than 200 eateries that are certified as foam-free. Maui County became the first county in Hawai‘i to pass a ban on polystyrene foam containers in June of 2017. Hawai‘i County banned polystyrene containers in October of 2017, and this will go into effect July 1, 2019.

“So, S.B. 522, S.D. 2: This is our zero-waste bill that will move us forward in a very big way in reducing single-use plastic. Zero-waste plastic reduction plans are moving forward all over the world, including within the European Union, Ethiopia, Costa Rica, and municipalities across the United States. This bill would ban state and county agencies from selling or using single-use plastic beverage bottles, utensils, stirring sticks, polystyrene foam containers, or straws after July 1, 2021. It would ban restaurants and other food businesses from selling or using single-use plastic beverage bottles, utensils, stirring sticks, polystyrene foam containers, or straws after July 1, 2022, and it would ban any form of plastic bags after July 1, 2023. It would also set up a working group to look into the issue of eliminating single-use plastic packaging and phasing out single-use plastic beverage containers.

“Now, some of you may be concerned about, well, what are the alternatives to these items? Last summer, I think, I was at the National Conference for Environmental Legislators, and for those of you who were there with me, they passed out these [*holds up products*], and this is—you get your stainless steel chopsticks, and you get your stainless steel fork and this nice little bag, and they also passed out these straws: Not only is it a straw; it’s got the straw brush to clean your straw, right? So, for you ladies, you can just very conveniently put that in your purse; guys, stick it in your backpack or whatever. And, on the news last night, *Hawaii News Now*, there was a piece last night and it was talking about a group called Hawaii Eco Straws, and they’re in 17 cafés across O‘ahu, and they have distributed 24,000 of these types of straws for free. All they’re asking for is a donation, and what caught my eye on the piece last night on the news was, there was a little sign next to the cash register and it said, ‘This is the last straw,’ and they had a bowl of these things where you could come up and just grab your straw, grab your reusable straw, and there was a little bowl where you could put donations. I also saw a piece in South Africa where there’s a company that’s coming up with the replacement for plastic water bottles made out of hemp—hemp, hooray—and so they are working on that now, and I’m sure, in the next few years, some entrepreneur or some ‘hempreneur,’ whichever you’d prefer, is going to come up with a replacement for these items. Also, there are replacements for the takeout containers and polystyrene containers that are made out of hemp; already, they’re in existence.

“I also wanted to mention—and some of you may have experienced—the lobbyists and young lobbyists who came to your office from SEEQS. SEEQS stands for School for Examining Essential Questions of Sustainability: a small private charter school, 180 students, established in 2013, sixth to eighth graders in Kaimukī. And they were lobbying for bills such as this bill, that we would pass it, and they touched my heart because this is the future, that young people are beginning to understand the importance of what we do here in this building regarding sustainability.

“Finally, I wanted to mention that we do have a reputation for being the first in the nation: Our hundred percent clean renewable energy by the year 2045; last year, we passed a ban on chlorpyrifos; also the ban, worldwide, first in the world, on oxybenzone and octinoxate in our sunscreen, so we have this reputation of setting the example for the world to follow, and that’s what we’re trying to do here. So, our state can once again take the lead in protecting our environment, so I am asking you to strongly support this zero-waste bill. Thank you.”

Senator Inouye rose to speak in support of the measure as follows:

“Just to make a comment of the previous speaker, and we thank him for his extensive research. I do want to make a comment on Kamilo Beach on my Big Island, just in support of our island as well. I’m very familiar with what’s happening and what has happened in the years that I’ve been raised on the Big Island. Just to let you know: Kamilo Beach is not to be entitled the dirtiest beach in our state as well because, as you all remember, due to the Fukushima earthquake and tidal wave that occurred, a lot of the trash and the currents and most of all the debris from the ocean has been heading to Ka‘ū and Kamilo Beach. Unfortunately, though, *60 Minutes* came there after and, I guess, identified Kamilo Beach as the dirtiest, probably in the world or in our state. I just want to support the notion that it wasn’t because of the trash made by residents or whatever, but we did have the trash from the Fukushima earthquake and tsunami, and I’d like to add that not only plastics occurred on that beach but tons of wrecks from the fishing boats as well. Thank you, Mr. President.”

Senator Ruderman rose to speak in support of the measure as follows:

"I agree with both of the previous speakers, but since Kamilo Beach has come up: I've sponsored several of the cleanup efforts down there, including my staff going there several times, and, yes, it's right that there was a big wave of trash after Fukushima, but every year, new trash gets deposited there from around the world, and it just happens to catch it. By the way, I also own a business that's operated 20 years while being a leader in plastic elimination, and it hasn't hurt us at all. Thank you very much."

Senator Fevella requested that remarks regarding the measure be entered into the Journal, and the Chair so ordered.

The Chair having so ordered, Senator Fevella's remarks read as follows:

"No. Hawai'i already has strict recycling laws and small business owners would suffer from the enactment of more regulatory laws."

The motion was put by the Chair and carried, Stand. Com. Rep. No. 884 was adopted and S.B. No. 522, S.D. 2, entitled: "A BILL FOR AN ACT RELATING TO PLASTIC," having been read throughout, passed Third Reading on the following showing of Ayes and Noes:

Stand. Com. Rep. No. 885 (S.B. No. 921, S.D. 2):

On motion by Senator Rhoads, seconded by Senator Dela Cruz and carried, Stand. Com. Rep. No. 885 was adopted and S.B. No. 921, S.D. 2, entitled: "A BILL FOR AN ACT RELATING TO THE DEPARTMENT OF THE ATTORNEY GENERAL," having been read throughout, passed Third Reading on the following showing of Ayes and Noes:

Ayes, 24; Ayes with Reservations (Moriwaki). Noes, none. Excused, 1 (Harimoto).

S.B. No. 415, S.D. 1:

Senator Baker moved that S.B. No. 415, S.D. 1, having been read throughout, pass Third Reading, seconded by Senator Rhoads.

Senator Baker rose to request that remarks in strong support of the measure be entered into the Journal, and the Chair so ordered.

The Chair having so ordered, Senator Baker's remarks read as follows:

"Mr. President, I rise in strong support of S.B. 415 S.D. 1, Relating to Health.

"The purpose of this measure is to authorize advanced practice registered nurses to perform aspiration abortions. Many women routinely receive their well-woman care from advanced practice registered nurses (APRN) who are considered primary care providers in Hawai'i. APRNs currently perform medication abortions but are not allowed under their scope of practice to perform any surgical procedure.

"An aspiration abortion is a common procedure for surgically terminating an abortion in the first trimester. Current state law allows only physicians, surgeons or osteopathic physicians with a surgeon to perform the procedures. There is a statewide shortage of these medical practitioners, especially in rural areas. As a consequence, women in rural areas may not be able to access legal abortions in a timely manner. People on Kaua'i, Moloka'i, and Lāna'i must often travel to O'ahu or Maui for care. On the Big Island, abortion care is only provided one day per month and on Maui, one day every other week.

"A 2018 review by the National Academies of Sciences, Engineering, and Medicine concludes that advanced practice registered nurses who received proper training are just as capable of providing safe and effective abortion care as physicians and surgeons. Advanced practice registered nurses who are considered primary care providers or other non-physician providers are already able to perform aspiration abortions as well as provide well-women care in California, New York, Montana, Oregon, Vermont, and New Hampshire.

"Allowing advanced practice registered nurses in Hawai'i to perform aspiration abortions will significantly improve access to comprehensive reproductive healthcare services. I urge my colleagues to join me in supporting S.B. 415, S.D. 1."

Senator Fevella requested that remarks regarding the measure be entered into the Journal, and the Chair so ordered.

The Chair having so ordered, Senator Fevella's remarks read as follows:

"No. I am voting NO on this measure which expands who can perform an abortion in Hawai'i.

"In committee, the last testifier, a young mother with her child in her arms, stated that the bill actually puts a pregnant woman's health at more risk by taking her out of a hospital and into a less equipped office.

"I'm also not convinced that if there are complications, a Registered Nurse will be ready to respond.

"We are already taking one life here. We should not be risking another."

The motion was put by the Chair and carried, S.B. No. 415, S.D. 1, entitled: "A BILL FOR AN ACT RELATING TO HEALTH," having been read throughout, passed Third Reading on the following showing of Ayes and Noes:

Ayes, 21. Noes, 3 (Fevella, Gabbard, Riviere). Excused, 1 (Harimoto).

S.B. No. 1251, S.D. 1:

Senator Kahele moved that S.B. No. 1251, S.D. 1, having been read throughout, pass Third Reading, seconded by Senator Dela Cruz.

Senator Fevella requested that remarks regarding the measure be entered into the Journal, and the Chair so ordered.

The Chair having so ordered, Senator Fevella's remarks read as follows:

"No. I oppose this bill because it gives too much power to the Board of Land & Natural Resources over 'ceded lands' for too long a period of time. Giving extensions for developments on our public lands for 40 years—without any periodic review process (such as every 5 or 10 years)—is like giving away the 'birth right' of Native Hawaiians and of the general public. The extensions for leases for developments on our public lands should be far shorter than 40 years—40 years, by anyone's standards, is a long, long time—much too long!"

The motion was put by the Chair and carried, S.B. No. 1251, S.D. 1, entitled: "A BILL FOR AN ACT RELATING TO LEASE EXTENSIONS ON PUBLIC LAND," having been read throughout, passed Third Reading on the following showing of Ayes and Noes:

Ayes, 23; Ayes with Reservations (Moriwaki, Riviere, Ruderman). Noes, 1 (Fevella). Excused, 1 (Harimoto).

S.B. No. 1258, S.D. 1:

Senator Keohokalole rose to speak in support of the measure with reservations as follows:

“I was just going to speak briefly: I know it’s the diaper-changing bill, but just with all due respect to the introducer, I’m going to explain myself in order to avoid the appearance that I’m trying to get out of diaper-changing with my own children. I have three young kids; I’ve been changing their diapers for eight years. In fact, I changed two this morning because I pulled

the trigger too early. Colleagues, respectfully, I’ve never heard of a diaper that went unchanged because some poor parent didn’t have access to a changing station. These stations are simply matters of convenience. If we’re going to allow individuals to take responsibility for getting themselves across the street in the crosswalk on time, we ought to expect that dads can take responsibility for their equal share of diaper changes, if this is an attempt to get dads to do their fair share, which is an effort that I applaud. If it’s an attempt to prevent the spread of diaper rashes by making changing more expeditious and convenient, then I can applaud that, too. I just don’t know if this bill solves either of those problems, and if you actually look at the public accommodation law, there is a gray area when it comes to certain places of business, like grocery stores, which often allow me to take my five-year-old in the back warehouse to use the restroom in an emergency, which—most of you have had five-year-olds—often, it is an emergency situation if they have to go in a public place, and so, what I’m concerned about is businesses will prevent individuals from allowing folks to go and use the restrooms in those areas because those places are small and cumbersome to put in a diaper-changing station. I can wait to change the baby until we get back to the car, but when my five-year-old has to go, she has to go ... you know, is this bill really necessary? Thank you.”

Senator Baker rose to speak in strong support of the measure as follows:

“Notwithstanding my colleague’s reservations, equality for both males and females is enshrined in the letter of the law. Senate Bill 821, S.D. 1, requires all new and existing places of public accommodation to provide baby diaper-changing stations that are equally accessible to men and women. The accommodation means a safe, sanitary, and convenient baby diaper-changing station, deck, or table would be installed in women’s and men’s restrooms or in unisex family restrooms. Despite strides in minimizing gender roles, diaper-changing accommodations are still often omitted from men’s restrooms. Our laws need to encourage equal opportunities for men **and** women. American fathers are indeed involved in child care just as much as mothers are, and attitudes among men toward gender and family norms are increasingly egalitarian. I believe that S.B. 821 will enable men **and** women to take equal part in the daily nurture of a child, encouraging the full participation of both men and women in family life. Please join me, colleagues, in supporting this commonsense public policy. Mahalo.”

Senator Fevella rose to speak in support of the measure with reservations as follows:

“Right now, we have facilities that are family rooms; they’re already accommodating these things, and most of the men’s restrooms in most of the businesses do have it, but exactly what our previous senator said over there is that we’re going to force them to put in in certain restrooms, in certain stores and restaurants. Especially in my community, there’s one restroom that they use to hold all their equipment to clean the restroom in the restaurant. If you’re going to force them to put one of that inside, exactly what he said: They’re going to tell us only employees can use the restroom. So, instead of making something like this, as a bill and a law to chastise these small businesses and businesses, we should make it just a requirement for convenience because I’m going to tell you now, my daughter is right now ninth grade; I changed a whole heck of a lot of diapers, and I never needed one changing room. I did it inside her stroller or I went to the car or found creative ways, but just because it’s for convenience for us to be men and men to go in there and change the diapers, I have no problem in doing that, and making somebody mandate them on new and old businesses that don’t have the room, you’re going to take away the opportunity for us to use the restroom, and they’re

going to be closed to public restrooms for a lot of people, so I'm voting with reservations."

The Chair having so ordered, Senator Fevella's additional remarks read as follows:

"With Reservations. I am voting with reservations on this bill, which requires all new private businesses that sell to or service the public, such as restaurants, as well as government agencies, to provide baby diaper-changing platforms in both men's and women's restrooms or unisex restrooms (1) by June 30, 2019, for new businesses and new State government facilities and (2) by July 1, 2022, for ALL older businesses and government facilities. The purpose of the bill is a good one, which I agree with: namely to make both women and men feel that they are sharing the responsibility of diaper-changing equally.

"However, the bill needs to be improved (which is the reason I am voting with reservations): Small mom-and-pop restaurants—long-time established and new ones—those in Chinatown, 'Ewa Beach, small towns in rural O'ahu and on the Neighbor Islands will suffer: They do not have space in their one unisex restroom to put in a diaper-changing station. Under the bill, as presently written, mom-and-pop restaurants would have to prove that 'no reasonable physical option exists.' And yet they can still be sued, successfully, by anyone who feels he or she is being 'injured by [the] unlawful discriminatory practice' of the mom-and-pop small business restaurant not providing a diaper-changing table. The party claiming discrimination can be awarded \$100 and also 'reasonable attorney's fees'—which usually will involve even more than an additional \$100.

"So: This bill has to make more clear the procedures and detailed process by which a mom-and-pop small business can qualify for the exemption that 'no reasonable physical option' exists for providing a diaper-changing station—and can display a public sign that the small business has qualified for the exemption so that members of the public cannot mistakenly try to take advantage by suing the small business. There needs to be a common-sense compromise that allows women and men of the general public to feel that they are being treated equally in terms of the availability of diaper-changing tables in men's restrooms as well as women's restrooms. That common-sense compromise should also allow small mom-and-pop businesses for whom diaper-changing tables are not feasible to operate without fear of being wrongfully sued."

The Chair commented:

"Director Butay: You guys are doing a great job. I know in the men's restrooms at the airport, we do have the diaper changing stations."

The motion was put by the Chair and carried, Stand. Com. Rep. No. 913 was adopted and S.B. No. 821, S.D. 1, entitled: "A BILL FOR AN ACT RELATING TO GENDER EQUITY," having been read throughout, passed Third Reading on the following showing of Ayes and Noes:

Senator Rhoads moved that Stand. Com. Rep. No. 915 be adopted and S.B. No. 477, S.D. 1, having been read throughout, pass Third Reading, seconded by Senator Dela Cruz.

Senator Baker rose to speak in strong support of the measure as follows:

"I rise in strong support of this measure, which was inspired by an incident that happened on Maui, and I appreciate my

colleagues' support, and I have comments I'd like to have inserted into the Journal."

The Chair having so ordered, Senator Baker's remarks read as follows:

"Mr. President, I rise in strong support of **S.B. 477, S.D. 1**, Relating to Education. This bill allows the Department of Education to provide sexual abuse and sex trafficking prevention training to certain staff and requires DOE to make available to certain staff explanatory information about protocols that DOE has approved for providing services to victims of sexual abuse and sex trafficking.

"Minors are at risk of sexual abuse and sex trafficking, some of which could be happening at the child's home. Because they spend much of their time at school, it is important to train DOE employees on warning signs and ways to intervene. This measure will provide the resources needed to teachers and other DOE employees to protect our keiki from sexual abuse and sex trafficking in Hawai'i.

"I urge my colleagues to join me in supporting this measure. Mahalo."

Senator Fevella requested that remarks regarding the measure be entered into the Journal, and the Chair so ordered.

The Chair having so ordered, Senator Fevella's remarks read as follows:

"Strong support. I rise to speak in strong support of this bill that, as presently worded, proposes the first steps toward a 'pilot project' to provide shelter and mental health treatment for homeless individuals.

"As the saying goes: 'Actions speak louder than words.' That applies to homelessness and mental health. I think we should

already go far beyond the first steps proposed in the bill—which first steps our community has been talking about for years.

“Now, we should actually go ahead and implement a full-fledged and full-on State program to provide shelter and mental health treatment for homeless individuals—not just a ‘manini’—a small—pilot project.”

The motion was put by the Chair and carried, Stand. Com. Rep. No. 920 was adopted and S.B. No. 1051, S.D. 1, entitled: “A BILL FOR AN ACT RELATING TO HOMELESS INDIVIDUALS WITH SEVERE MENTAL ILLNESS,” having been read throughout, passed Third Reading on the following showing of Ayes and Noes:

Senator Chang rose to speak in support of the measure as follows:

"In September 2018, the median price for a single family home here on O'ahu rose to \$812,500. A household has to make \$160,000 a year to afford to buy that median home. I think we can all agree: The system is broken. And S.B. 1 is a program designed to fix Hawai'i's housing shortage.

"This is not impossible. There are cities that have solved this problem, like Singapore, the direct inspiration for this bill. Singapore builds high-density residential units on government-owned land and sells 99-year leases on them for as little as 180,000 U.S. dollars. As a result, it has achieved a 90 percent homeownership rate.

"I recognize that there are many, many issues that have held up the production of affordable housing supply in Hawai'i, but many stakeholder groups have participated in drafting this measure, and their concerns are being heard. For environmentalists: no development of agricultural or conservation land, no shortcutting any environmental review processes. For taxpayers: no subsidy, no new taxes. For engineers and architects, developers, contractors, and labor: lots and lots of work for a long time to come.

"For those who fear an influx of outside investors or vacation renters: These units will only be available to Hawai'i residents who are owner-occupants and own no other real property—no outside investors, no renters of any kind. And no windfall profits, because 75 percent of all the profits from every resale go back to the State to help pay for the maintenance.

"S.B. 1 will build communities for all: young and old, rich and poor, every ethnic group, you name it, all side by side. No more income caps or first-time homebuyer requirements, no more concentrating poverty.

"Now, are there issues we still have to iron out? Of course. Getting a big project in on time and on budget is not easy; getting neighbors to buy in, getting people to accept that existing institutions will have to be redeveloped. There's a lot of work that we have to do before and after this bill passes.

"But this is more than a policy debate of pros and cons, Mr. President. This is about the future of our community. Ninety percent of my high school class went to college on the mainland, and most have not come back. For the first time since

statehood, our state has lost population not one, but two straight years, in large part due to the housing shortage. If the new generations of local people just leave, the Hawai'i we all know and love will simply cease to exist. Mr. President, let's try something bold. I believe that the future generations are worth it. Thank you."

The motion was put by the Chair and carried, Stand. Com. Rep. No. 973 was adopted and S.B. No. 1, S.D. 2, entitled: "A BILL FOR AN ACT RELATING TO HOUSING," having been read throughout, passed Third Reading on the following showing of Ayes and Noes:

Stand. Com. Rep. No. 980 (S.B. No. 388, S.D. 2):

Senator Dela Cruz moved that Stand. Com. Rep. No. 980 be adopted and S.B. No. 388, S.D. 2, having been read throughout, pass Third Reading, seconded by Senator Keith-Agaran.

Senator Fevella requested that remarks regarding the measure be entered into the Journal, and the Chair so ordered.

The Chair having so ordered, Senator Fevella's remarks read as follows:

"No. 'Too little – too late!' This saying comes to mind with regard to this bill—and is the reason why I am voting 'No.' This bill allows the Department of Education—only AFTER a student has been expelled—to allow parents and guardians of the student, who has already been dismissed from attending school, to then request a clinical or psycho-educational evaluation 'to uncover contributing factors' that led to the suspension.

"This is definitely 'Too little – too late!' Instead, the Department of Education should allow parents and guardians to request such a clinical or psychoeducational evaluation BEFORE the student is expelled. Indeed, such an early evaluation can reduce the number of suspensions from school."

The motion was put by the Chair and carried, Stand. Com. Rep. No. 980 was adopted and S.B. No. 388, S.D. 2, entitled: "A BILL FOR AN ACT RELATING TO EDUCATION," having been read throughout, passed Third Reading on the following showing of Ayes and Noes:

Stand. Com. Rep. No. 984 (S.B. No. 1303, S.D. 2):

Senator Kahele moved that Stand. Com. Rep. No. 984 be adopted and S.B. No. 1303, S.D. 2, having been read throughout, pass Third Reading, seconded by Senator Keith-Agaran.

Senator Fevella requested that remarks regarding the measure be entered into the Journal, and the Chair so ordered.

The Chair having so ordered, Senator Fevella's remarks read as follows:

"No. Part 1 of this bill allows the Department of Education to lease for an unspecified term land formerly used for public schools and facilities. This may inadvertently include 'ceded' lands to which native Hawaiians are owed revenue. I oppose any lengthy lease of public lands."

The motion was put by the Chair and carried, Stand. Com. Rep. No. 984 was adopted and S.B. No. 1303, S.D. 2, entitled: "A BILL FOR AN ACT RELATING TO PUBLIC LANDS," having been read throughout, passed Third Reading on the following showing of Ayes and Noes:

Senator Baker moved that Stand. Com. Rep. No. 985 be adopted and S.B. No. 824, S.D. 1, having been read throughout, pass Third Reading, seconded by Senator Rhoads.

Senator Thielen rose to speak in support of the measure with reservations as follows:

"I just want to take a second to explain because my reservations are not what you think they are for. About a year and a half ago, I was visiting my daughter in Washington, D.C., and my husband and we rented bikes. I had a helmet on, and we were biking pretty quick because I've biked for many, many, many, **many** years of my life, and I've been a very experienced biker. And my wheel got caught in a deep rut in the road, and I went down. I remember the wheel getting caught, and the next thing I know, I was in an ambulance. I was knocked out and had a concussion. So why wouldn't you support this bill? I do support mandatory helmets for scooter renters, but I think, if we're going to be serious about brain injuries and the cost to society of them, that we need to be taking on some harder calls in addition to the scooters and taking a look at bikes and motorcycles and people riding in the backs of pickup trucks. People think, including myself, that you can react in time to avoid a disaster, and I can tell you from my experience and talking with other people, you cannot. If I hadn't had that helmet on, I would've had much worse than a severe concussion. Thank you."

Senator Inouye rose to speak in support of the measure as follows:

"This bill was introduced due to a tragic accident that took the life of Alexis Patrice Jenkins, a young woman, after the moped she was driving collided with a truck on the island of Maui. Alexis was conceived in Maui in 1992 by Tim and Danielle Jenkins, and she was their only child. Though she had never been to Maui, she loved Hawai'i and had a little tattoo on her ankle of the Hawaiian Islands. Alexis waited 24 years for her first trip to Maui, and on August 14, 2017, she came for a vacation. On her second day, Alexis was riding a scooter without a helmet in the Wailea-Makena area of Maui and collided with a truck with no possibility of surviving this accident.

"The intention of this measure is to prohibit the operation of a moped or motor scooter leased from a rental company unless the operator is wearing a helmet, provided that the prohibition does not apply if the operator has a valid license to operate a motorcycle from any state; and prohibit the renting out of any moped or motor scooter with an aftermarket modification to its motor.

"Wearing a helmet when operating a moped or motor scooter could increase the chance of survival in the event of an accident. According to the Hawaii Injury Prevention Plan for 2012-2017, published by the Emergency Medical Services and Injury Prevention System Branch of the Department of Health, helmets can reduce the risk of death by 42 percent and reduce the risk of a head injury by 69 percent. In the state, there were 23 motor scooter and moped operator fatalities from 2016 to 2018. Of the 23 fatalities reported, 22 operators were not wearing a helmet.

"This measure will ensure the safety of residents and visitors of the state and reduce the number of fatalities by requiring certain moped and motor scooter renters to wear helmets. Support for the measure came from the Department of Transportation, Keiki Injury Prevention Coalition, O'ahu County Committee on Legislative Priorities of the Democratic

Party of Hawai'i, Meal Prep Las Vegas, Icon Tile, Lexi's Law 808, and 56 individuals. I urge my colleagues to support this measure in memory of Ms. Jenkins. It will help save lives and limit serious injury. Mahalo."

Senator Baker rose to speak in strong support of the measure as follows:

"I was remiss on the earlier bill; this is the one that was inspired by an incident in my district. I've been in touch with the family, and they are quite pleased that we are considering this measure. I would just like to ask that the eloquent words of the chair of the Transportation committee be entered into the record as if they were my own, and just make a note that the irony of this is Lexi rode her bicycle in her home state of California, where she was very familiar with the roads, and wore a helmet. She came to Hawai'i, saw the beauty of the island, and because she wasn't reminded when she rented her moped that she should also wear her helmet here, on unfamiliar roads, she did not and lost her life. I know this can be a controversial subject, and that's why we've limited it to rentals, because I think the argument is most compelling there. When people come and rent something to go out on roads with which they are unfamiliar, we need to remind them and encourage them and require them to wear a helmet. It will, in fact, save lives. Mahalo."

The motion was put by the Chair and carried, Stand. Com. Rep. No. 985 was adopted and S.B. No. 824, S.D. 1, entitled: "A BILL FOR AN ACT RELATING TO RENTALS OF MOPEDS AND MOTOR SCOOTERS," having been read throughout, passed Third Reading on the following showing of Ayes and Noes:

Senator Baker rose to request that remarks in strong support of the measure be entered into the Journal, and the Chair so ordered.

The Chair having so ordered, Senator Baker's remarks read as follows:

"Mr. President, I rise in strong support of S.B. 1405, S.D. 2, Relating to Electronic Smoking Products.

"E-cigarette use or vaping among youth and young adults has become a national public health concern. E-cigarettes are now the most popularly used tobacco product among youth and young adults, surpassing cigarettes. While smoking rates in Hawai'i have decreased through the years, ESD use has rapidly increased, threatening significant public health gains through our Tobacco 21 law and tobacco youth access laws.

"Without regulation, e-cigarette manufacturers will continue to aggressively market their products by using young adults and celebrities as endorsers, glamorizing its use, promoting deep discounts, and offering popular local e-liquid flavors such as Kona coffee, Maui mango, and pineapple.

"The FDA has deemed ESDs as tobacco products, as this measure would do, and would tax e-liquids. This measure would also increase permit fees for retailers and wholesalers, and make illegal the shipment of e-liquid. Many kids access

vape products online, using their parent's resources and information to order them. This loophole needs to be addressed and corrected.

"It is time to regulate an industry, to collect the appropriate taxes, raise the cost of licensing and permitting fees as well as ensure that there are no longer illegal online sales.

"Please join me in support of S.B. 1405, S.D. 2. Thank you."

The motion was put by the Chair and carried, Stand. Com. Rep. No. 1000 was adopted and S.B. No. 1405, S.D. 2, entitled: "A BILL FOR AN ACT RELATING TO ELECTRONIC SMOKING PRODUCTS," having been read throughout, passed Third Reading on the following showing of Ayes and Noes:

Ayes, 24. Noes, none. Excused, 1 (Harimoto).

Stand. Com. Rep. No. 1006 (S.B. No. 1463, S.D. 2):

Senator Dela Cruz moved that Stand. Com. Rep. No. 1006 be adopted and S.B. No. 1463, S.D. 2, having been read throughout, pass Third Reading, seconded by Senator Rhoads.

Senator Rhoads rose to speak in support of the measure as follows:

"A carbon emissions tax is sort of the Holy Grail of carbon reduction, and it's a difficult subject because our tax system is set up, and it's never been set up before to try to address the issue of carbon. I just appreciate that you and my other colleagues are moving this bill forward and continuing the discussion because I think the timeline for when really catastrophic things are inevitable is very short—in the 10- to 12-year range—and the whole world needs to move forward quicker than we are. That's one reason I think, even though this bill is certainly a work in progress, that we have to have the discussion now because it will soon be too late. Mahalo."

The motion was put by the Chair and carried, Stand. Com. Rep. No. 1006 was adopted and S.B. No. 1463, S.D. 2, entitled: "A BILL FOR AN ACT RELATING TO TAXATION," having been read throughout, passed Third Reading on the following showing of Ayes and Noes:

Stand. Com. Rep. No. 1014 (S.B. No. 331):

Senator Rhoads moved that Stand. Com. Rep. No. 1014 be adopted and S.B. No. 331, having been read throughout, pass Third Reading, seconded by Senator Wakai.

Senator Baker rose to request that remarks in strong support of the measure be entered into the Journal, and the Chair so ordered.

The Chair having so ordered, Senator Baker's remarks read as follows:

"Mr. President, I rise in strong support of S.B. 331, Relating to Movie Theaters.

"Hawai'i has been a pioneer in public policy regarding access to movie entertainment for the deaf and/or hard-of-hearing community. Act 39, Session Laws of Hawai'i 2015,

required movie theater operators to provide closed captioning showings at least twice a week. The closed captioning requirement supplemented the federal Americans with Disabilities Act requirement to provide an assistive technology option.

“Unfortunately, the Legislature effectively repealed the open captioning requirement in 2017 by allowing movie theaters the option of offering a personal closed captioning system in lieu of offering showings with open movie captioning, depriving the deaf and/or hard-of-hearing community as well as other movie goers who may benefit from closed captioning of a tremendous benefit. Your Committee has heard testimony that eyewear was often broken or malfunctioning and that it is uncomfortable. In addition, it calls unnecessary attention to the users as being handicapped. The deaf and hard-of-hearing community strongly prefers open captioning to any type of eyewear, and have stated this virtually unanimously in testimony to multiple committee hearings.

“S.B. 331 addresses the discriminatory effects of communication barriers at movie theaters and seeks to restore and make permanent the requirements originally contemplated by Act 39, SLH 2015, which will enable deaf and hard of hearing consumers an equal opportunity to attend and enjoy movies in a similar manner as those who do not require open movie captioning. Please join me in support of S.B. 331, Relating to Movie Theaters.”

The motion was put by the Chair and carried, Stand. Com. Rep. No. 1014 was adopted and S.B. No. 331, entitled: “A BILL FOR AN ACT RELATING TO MOVIE THEATERS,” having been read throughout, passed Third Reading on the following showing of Ayes and Noes:

Ayes, 24; Ayes with Reservations (Chang, Wakai). Noes, none. Excused, 1 (Harimoto).

Stand. Com. Rep. No. 1017 (S.B. No. 1244, S.D. 2):

Senator Rhoads moved that Stand. Com. Rep. No. 1017 be adopted and S.B. No. 1244, S.D. 2, having been read throughout, pass Third Reading, seconded by Senator Wakai.

Senator Baker rose to request that remarks in strong support of the measure be entered into the Journal, and the Chair so ordered.

The Chair having so ordered, Senator Baker’s remarks read as follows:

“Mr. President, I rise in strong support of S.B. 1244, S.D. 2, Relating to the Sale of Tobacco Products.

“This bill clarifies that liability for illegally selling tobacco products including electronic smoking devices to a person under the age of 21 is borne by the retail entity or individual who holds a valid permit to sell tobacco products, rather than an employee. Ninety-five percent of smokers start smoking before they turn 21. Therefore, it is imperative that we do all we can to prevent the sale of tobacco products including electronic smoking devices to minors below the age of 21. Such policy can significantly reduce smoking initiation in children and teens and thus help prevent young people from an addiction to this dangerous and deadly habit.

“This bill will hold retail entities and licensees responsible for oversight of their employees and sale activities. Retailers and permittees are the ones best positioned to set the parameters for sales in their establishments. The buck starts and stops with owners and licensees to institute effective best practices in their retail locations in order to ensure that there are no sales to underage customers. Placing the responsibility with the retail entity or licensee further ensures that Tobacco 21 laws will be

upheld. I urge my colleagues to join me in supporting S.B. 1244, S.D. 2.”

The motion was put by the Chair and carried, Stand. Com. Rep. No. 1017 was adopted and S.B. No. 1244, S.D. 2, entitled: “A BILL FOR AN ACT RELATING TO THE SALE OF TOBACCO PRODUCTS,” having been read throughout, passed Third Reading on the following showing of Ayes and Noes:

Stand. Com. Rep. No. 1019 (S.B. No. 947, S.D. 1):

On motion by Senator Rhoads, seconded by Senator Wakai and carried, Stand. Com. Rep. No. 1019 was adopted and S.B. No. 947, S.D. 1, entitled: “A BILL FOR AN ACT RELATING TO FAMILIES,” having been read throughout, passed Third Reading on the following showing of Ayes and Noes:

Ayes, 24. Noes, none. Excused, 1 (Harimoto).

Stand. Com. Rep. No. 1020 (S.B. No. 621, S.D. 1):

Senator Rhoads moved that Stand. Com. Rep. No. 1020 be adopted and S.B. No. 621, S.D. 1, having been read throughout, pass Third Reading, seconded by Senator Wakai.

Senator Fevella requested that remarks regarding the measure be entered into the Journal, and the Chair so ordered.

The Chair having so ordered, Senator Fevella’s remarks read as follows:

“No. Any bill that infringes upon the Second Amendment right of individuals ‘to bear arms’ is one that I oppose—as I do with this bill. This bill extends the long arm of government into the privacy of our people who wish to own firearms to protect their own safety, to hunt for food for their families, and for other worthy purposes. These people, with good intentions, should NOT be required to report to the government if they have a firearm ‘lost, stolen, or destroyed.’ The government is invading the privacy of individuals and their right to bear arms whenever the government makes it mandatory for an individual to report to the authorities the ownership status of any firearm in her or his household.”

The motion was put by the Chair and carried, Stand. Com. Rep. No. 1020 was adopted and S.B. No. 621, S.D. 1, entitled: “A BILL FOR AN ACT RELATING TO FIREARMS,” having been read throughout, passed Third Reading on the following showing of Ayes and Noes:

Ayes, 23; Ayes with Reservations (Kidani). Noes, 1 (Fevella). Excused, 1 (Harimoto).

Stand. Com. Rep. No. 1022 (S.B. No. 739, S.D. 1):

Senator Baker moved that Stand. Com. Rep. No. 1022 be adopted and S.B. No. 739, S.D. 1, having been read throughout, pass Third Reading, seconded by Senator Chang.

Senator Chang rose to request that remarks in support of the measure be entered into the Journal, and the Chair so ordered.

The Chair having so ordered, Senator Chang’s remarks read as follows:

“Ground transportation consumes roughly a third of the state’s imported fossil fuels. To reduce imported fossil fuel usage in Hawai‘i, we need to encourage people to drive less and use alternative forms of transportation. A parking cash-out program helps provide incentives for other forms of transportation. Offering commuters the option to choose either free parking or its cash value makes it clear that parking has a cost, which is the cash not taken. This would have multiple

benefits, including reduction of traffic congestion and giving employees what they really want.

“California has enacted legislation supporting a cash-out program, and research conducted afterwards found significant shifts in commuter behavior, including significant reductions in traffic.

“There are benefits to businesses as well, these include reduced costs associated with employee recruitment, onboarding, and training. A happy, healthy, stress-free employee is more likely to be a productive employee, and one of the biggest stressors for anyone is traffic. Finally, if driving is reduced, then the need for parking will be reduced as well.

“For the government, there are multiple benefits from a parking cash-out program such as user fee funding of its transportation programs, reduction of traffic congestion, and reduction of driver-related facility expenditures. Also, when a commuter does voluntarily choose taxable cash rather than a tax-exempt parking subsidy, federal and state income tax revenues increase.

“We should be supporting people to help lower their cost of living, not subsidizing driving, fossil fuel use, and traffic congestion.”

Senator Inouye rose to request that remarks in support of the measure be entered into the Journal, and the Chair so ordered.

The Chair having so ordered, Senator Inouye’s remarks read as follows:

“Mr. President, I rise to speak in favor of this bill. The intention of this is to require employers of 50 persons or more who provide a parking subsidy to employees to offer a parking cash-out program.

“CPH has found that ground transportation alone uses approximately one-third of the State’s imported fossil fuels. A parking cash-out program may help provide incentives for other forms of transportation, such as walking, bicycling, bus, rail, or carpooling, to be used.

“Testimony from the Department of Land and Natural Resources indicates that this measure is likely to reduce greenhouse gas (GHG) emissions, and help Hawai’i make progress towards its energy and climate change goals. Parking experts generally agree that parking cash-out programs increase the share of commuters who choose modes of transportation other than driving alone to work. Such programs have been known to reduce vehicle miles traveled, and to benefit low-income commuters. This measure will not only help reduce the amount of fossil fuels being used in Hawai’i, but reduce the congestion that plagues our streets by promoting the use of public transportation.

“For these reasons, I urge my colleagues to support this important measure in our effort to research and explore the idea of a parking cash-out program that would enable businesses and employers to offer cash allowances instead of parking subsidies to provide incentives for other forms of transportation that are less dependent on fossil fuels.”

The motion was put by the Chair and carried, Stand. Com. Rep. No. 1022 was adopted and S.B. No. 739, S.D. 1, entitled: “A BILL FOR AN ACT RELATING TO PARKING,” having been read throughout, passed Third Reading on the following showing of Ayes and Noes:

Senator Rhoads moved that Stand. Com. Rep. No. 1035 be adopted and S.B. No. 1033, S.D. 2, having been read throughout, pass Third Reading, seconded by Senator Dela Cruz.

Senator Baker rose to request that remarks in support of the measure be entered into the Journal, and the Chair so ordered.

The Chair having so ordered, Senator Baker’s remarks read as follows:

“Mr. President, I rise in strong support of S.B. 1033, S.D. 2, relating to the licensure of midwives. As with all bills at this point in the 2019 session, this bill is a work in progress. Its purpose is to create a licensing regime for midwives in the state. The state auditor conducted a sunrise analysis for the licensure of midwives in 2017, which concluded that regulation of this field is needed because the nature of the services provided by midwives may endanger the public’s health and safety.

“By way of background, midwives used to be regulated in this state. In 1931, the Territorial Legislature in Act 64 required midwives to register with the Board of Health and to file birth certificates for those births at which the midwife attended. In 1941, the Territorial Legislature in Act 87 regulated midwives along with other health professions and required the Board of Health to promulgate rules which provided that it was illegal to practice as a midwife without a permit or certificate of registration from the Board of Health. The relevant report from the Senate Committee on Public Health noted that registration was necessary to safeguard health. Fast forward to March 1989: There were only five licensed midwives in Hawai’i and they were all nurses. In October 1989, there were only 10 nurse midwives in Hawai’i, and of that, only 2 were practicing midwifery. In December 1989, the auditor did a sunset evaluation and concluded that since most midwives come from nursing, additional regulation was not needed.

“The situation in Hawai’i has clearly changed in the intervening years. Registration of health professionals is no longer under the Department of Health but under the Department of Commerce and Consumer Affairs. Nurse midwives are regulated under the Board of Nursing; non-nurse and non-credentialed personnel are holding themselves out as midwives with no regulation. The number of non-nurse midwives including cultural practitioners has grown in Hawai’i, leaving the auditor to conclude that the field of midwifery needed to be regulated.

“This measure is not a prohibition on a woman’s ability to choose her preferred birth attendant. Rather, licensure will provide consumers with increased access to midwifery care from providers who are skilled professional midwives with proper training and in the event that a problem birth occurs, these professionals would have access to a hospital setting if required.

“Hawai‘i is one of 17 states that does not license or regulate midwives, leaving women in Hawai‘i with no way to know who is certified to do a community birth and who is not. This measure protects the health and safety of women and their unborn infants. Please join me in voting yes on S.B. 1033, S.D. 2. Mahalo.”

Senator Ruderman rose to speak in support of the measure with reservations as follows:

“I was in full support of this bill as it passed out of our health committee and commend the work of our chair for including, I think, all the concerns. I’m less in support in its current form, so I’ll be voting with reservations.”

The motion was put by the Chair and carried, Stand. Com. Rep. No. 1035 was adopted and S.B. No. 1033, S.D. 2, entitled: “A BILL FOR AN ACT RELATING TO THE LICENSURE OF MIDWIVES;” having been read throughout, passed Third Reading on the following showing of Ayes and Noes:

Senator Fevella requested that remarks regarding the measure be entered into the Journal, and the Chair so ordered.

The Chair having so ordered, Senator Fevella’s remarks read as follows:

“No. As a proud Native Hawaiian and a U.S. Citizen, I was happy to support a bill to create a state holiday reestablishing Hawaiian Recognition Day. However, I am not comfortable that amendments were made to repeal Good Friday. Good Friday is part of the Easter Triduum and observed by many in my community.”

"Mr. President, I rise to speak in favor of this bill. The intention of this measure is to authorize the issuance of a maximum of up to \$50 million in special purpose revenue bonds to assist Keahole FBO I LLC. These bonds will fund the plans, design, construction, equipping, and operating of facilities for aviation and aviation-related services at Ellison Onizuka Kona International Airport at Keahole, Hawai'i.

"Testimony from Keahole FBO I LLC indicate the following: Our project is generating revenue and jobs for the State of Hawai'i in areas such as but not limited to aviation services, aviation-related services, fuel, energy, food and beverage, ground transportation, tourism, architecture, engineering, law, finance, accounting, construction, landscaping, building maintenance. Further, our development and operations will generate multimillions of dollars in revenue for the DOT and State of Hawai'i through taxes, fees, and our lease. In addition to the lease fee, the DOT will generate revenue from 2 percent of our income, \$0.04/gallon of Jet A fuel we sell, and a portion of any subleases.

"This measure applies only to Keahole FBO I LLC in order to authorize the issuance of special purpose revenue bonds to planning, designing, constructing, equipping, and operating facilities for aviation services and aviation-related services at Ellison Onizuka Kona International Airport at Keahole. For these reasons I urge my colleagues to support this important measure in our effort to assist Keahole FBO I LLC."

The motion was put by the Chair and carried, Stand. Com. Rep. No. 1071 was adopted and S.B. No. 652, S.D. 1, entitled: "A BILL FOR AN ACT RELATING TO SPECIAL PURPOSE REVENUE BONDS TO ASSIST KEAHOLE FBO I LLC," having been read throughout, passed Third Reading on the following showing of Ayes and Noes:

Senator Dela Cruz moved that Stand. Com. Rep. No. 1073 be adopted and S.B. No. 666, S.D. 2, having been read throughout, pass Third Reading, seconded by Senator Keith-Agaran.

Senator Inouye rose to speak in support of the measure as follows:

"Mr. President, once again, I am standing here to speak in favor of our Airports Corporation bill. As you know, Mr. President, and as stated in the latest committee report, the Hawaii Airports Corporation is being established to 'assume all of the authority, powers, functions, duties, and responsibilities of the Department of Transportation related to airports and aeronautics.'

"This bill has the support of government entities including the state Department of Transportation, the Office of the Governor, Department of Public Safety, and the University of Hawai'i. Support also comes from diverse organizations, such as the Building Industry Association of Hawaii, American Council of Engineering Companies, the Airport Concessionaires Committee alongside tourist-related entities, such as the Hawai'i Lodging & Tourism Association, Kohala Coast Resort Association, Hawaiian Airlines, and a number of others, including several individuals.

"The Hawaii Airports Corporation will be an important step to improving the management, efficiency, and facilities at our airports. With a strong emphasis on commercial and customer focus, the Airports Corporation will be able to adjust to economic opportunities and market conditions through dedicated expert airport leadership. The entity will also ensure that there is management continuity and year-round decision-making consistent with best practices in the industry. For example, the State could have been more timely in the establishment of new gates for the arrival of the Airbus A380, the construction of the new hangars for Hawaiian Airlines, freight facilities at Hilo Airport, terminal upgrades and better management and maintenance of the various facilities that make up our airport communities.

"There have been concerns raised about the exemptions from the Hawaii Public Procurement Code. As written, the bill allows the Airports Corporation to establish rules and procedures in regards to procurement, provided that the corporation shall consult with the State Procurement Office prior to adopting the rules. The board of directors shall act in good faith to maintain internal policies and procedures for the timely and efficient procurement of goods and services, including planning, engineering, and construction services, to include post-award contract management and oversight procedures, that are consistent with the goals of public accountability and public procurement practices. I am confident that we can keep lines of communication open between the Legislature and the Airports Corporation.

"There have also been some concerns raised regarding the transfer of police powers to the Hawaii Airports Corporation. As this involves the state sheriff's office, Transportation Security Administration, county police departments, and private security firms, just like the procurement code, the CEO shall also act in good faith to come up with a comprehensive plan that maintains and strengthens airport security for the public and the airport communities.

"In terms of maintaining transparency, it will be the board's responsibility to uphold current and future laws that address this issue.

"For this and many other reasons, I urge my colleagues to support this bill as we move Hawai'i further into the 21st century and the next. Mahalo, Mr. President and colleagues."

Senator Fevella requested that remarks regarding the measure be entered into the Journal, and the Chair so ordered.

The Chair having so ordered, Senator Fevella's remarks read as follows:

"With reservations. This bill exempts the corporation from the procurement code. However, the concern is that the corporation will write policies and adopt rules with little or no oversight or accountability, thereby leaving the airports corporation and Department of Transportation at risk and liability."

The Chair having so ordered, Senator Thielen's remarks read as follows:

"I just wanted to make clear what my reservations are. I would support increasing the pay for teachers. I think, when we try to set up a voucher or other similar programs, there's a problem in that there's a few people who benefit from it, but not everybody. It becomes an expense to manage and administer, and then there's an issue, too, on how you're going to be able to enforce it over time. So those are my only reservations, and I would ask, if it's possible, to have my remarks repeated for SSCR740 (Senate Bill 387) and SSCR1099 (Senate Bill 114), which are similar programs. Thank you." (The Chair so ordered.)

Senator Ruderman rose to speak in support of the measure as follows:

"Just to take a moment to explain this: You know, we've been conducting a giant experiment on ourselves and our kids these last couple decades with regards to all the screens that we carry around. All the apps and the screens themselves are addictive by design, and they've been getting better and better every year, and now we're all addicted to our screens, every single one of us. I ask my colleagues: Did anybody not look at your phone the first hour after you woke up today? Anybody not look at it in the last 10 minutes? So, that's okay for adults; we're making that choice with some sense of consciousness, but for our kids, their brains are getting wired in the first few years of their development. They're getting wired differently today than they ever have been in our history, and we don't know the results of that. So I'm thankful that we're going to begin to address this issue, and I'd ask for your support. Thank you."

The motion was put by the Chair and carried, Stand. Com. Rep. No. 1104 was adopted and S.B. No. 433, S.D. 2, entitled: "A BILL FOR AN ACT RELATING TO SCREEN TIME AWARENESS," having been read throughout, passed Third Reading on the following showing of Ayes and Noes:

The Chair having so ordered, Senator Fevella's remarks read as follows:

"No. I'm voting 'no' on bills aimed to impose the TAT on resort fees.

"We have a tendency at all levels of government, that when we are looking for money we always tax the tourism industry.

"I worry that if we don't watch out this may affect residents in my 'Ewa Beach district who will find their hours and tips cut and maybe even lose their jobs due to the rising cost of doing business.

"Now we hear that the City & County of Honolulu is targeting tourism again by having the hotel and resorts be the only business class in the county to have their real property taxes raised.

"That's why I say a better idea is to go after the illegal transient vacation rentals that aren't paying their taxes."

The motion was put by the Chair and carried, Stand. Com. Rep. No. 1121 was adopted and S.B. No. 714, S.D. 2, entitled: "A BILL FOR AN ACT RELATING TO THE TRANSIENT ACCOMMODATIONS TAX," having been read throughout, passed Third Reading on the following showing of Ayes and Noes:

This measure is intended to strike a balance between the interests of employees and employers by increasing the minimum wage in two increments over three years, while providing a tax credit to help qualified small businesses adjust to the increased labor cost.

"Hawai'i has the lowest average wage in the nation when adjusted for the cost of living. There is a significant difference between the minimum wage and what is needed to afford basic needs in Hawai'i. The Senate has made passage of an increase

to the minimum wage a priority for this legislative session. I urge my colleagues to support Senate Bill 789, S.D.2."

Senator Fevella requested that remarks regarding the measure be entered into the Journal, and the Chair so ordered.

The Chair having so ordered, Senator Fevella's remarks read as follows:

"With reservations. I vote with reservations regarding raising the minimum wage because it will only hurt small businesses in my community, such as mom-and-pop stores and restaurants. It will raise their costs and put them out of business. It will also eliminate entry-level jobs such as those at McDonald's, thus depriving our youngsters of the opportunity for their first job."

The motion was put by the Chair and carried, Stand. Com. Rep. No. 1122 was adopted and S.B. No. 789, S.D. 2, entitled: "A BILL FOR AN ACT RELATING TO MINIMUM WAGE," having been read throughout, passed Third Reading on the following showing of Ayes and Noes:

The Chair having so ordered, Senator Kidani's remarks read as follows:

"I rise to speak in support of S.B. 976, RELATING TO PUBLIC LIBRARIES. Colleagues, we passed this bill out of our chambers last session only to have the governor veto it because he doesn't believe that libraries should have the option for public-private partnerships. And so here we are again with our facilities a year older and our repair and maintenance backlog a year longer.

"If there is a misconception that it is the intention of this body to privatize the libraries and take them away, let me assure you that is not the intention of this bill. This bill gives the libraries the opportunities to partner with the private sector to look at how these community spaces can be revitalized to further the mission of the public library system. This could include having coffee shops or other retail opportunities to generate revenue for the public library system.

"We know that we cannot afford to simply spend our way out of our crumbling facilities. I hope that this body will continue to support our libraries by again offering them this tool to build 21st Century Libraries by voting in the affirmative for S.B. 976, S.D. 2. Mahalo."

The motion was put by the Chair and carried, Stand. Com. Rep. No. 1125 was adopted and S.B. No. 976, S.D. 2, entitled: "A BILL FOR AN ACT RELATING TO PUBLIC LIBRARIES," having been read throughout, passed Third Reading on the following showing of Ayes and Noes:

“I just wanted to thank this thing going through because our community of ‘Ewa Beach, they’re always worrying about being able to evacuate in a time of a storm because both of our roads on Kapolei Parkway and Fort Weaver Road is full of huge trees, so if the trees will fall down, people where we live won’t be able to get and be evacuated, so thank you.”

"Mr. President and colleagues, Mayor Kim and Hawai'i County Council are already considering raising the GET this year, and in referencing this morning's Floor Amendment No. 2, demanding that counties must take action this year. Having said this, I can't subject my constituents and the Big Island residents to this; they're the most vulnerable for another increase in higher taxes. Mahalo."

Senator Kidani rose to speak in support of the measure as follows:

"I rise to speak on the merits of Senate Bill 1474, S.D. 2, Relating to Taxation. Members, we are here yet again to vote on a measure to increase funding for our public education system. We know that we have needs in our schools: We have classrooms without proper supplies, equipment, or even highly qualified teachers. We cannot continue to wait and see if more money will magically appear or rely on a growing economy to put more resources into our classrooms.

"I know there are those who speak out against any raises in the GET due to its regressive nature, but I want to remind my colleagues today that, with the exception of the one-half percent surcharge for rail, the tax rate on GET has remained at 4 percent since 1965. (Ironically, I will note, that the session act of 1965 that raised it to 4 percent was Act 155, and, five years ago, we passed Act 155, which was to build 21st-century schools, which has still not happened.) But since then, our population has doubled. Government services expanded. We have had federal mandates, but our largest general revenue tax stream, our GET, has remained at 4 percent for the state. I hope that this body will continue to support ways to fund our public education system by voting in the affirmative on this measure. Mahalo."

Senator Taniguchi rose to speak in support of the measure as follows:

"I'd like the comments of the senator from Mililani to be put into the record as my own and offer also some additional comments." (The Chair so ordered, by reference only.)

The Chair having so ordered, Senator Taniguchi's remarks read as follows:

"Senate Bill 1474, S.D. 2, proposes to increase the general excise tax and use tax by 0.5 percent to benefit public education by providing a dedicated funding source for operations of the Department of Education and the University of Hawai'i. The State of Hawai'i is struggling with budget issues and the limited financial resources presently available to address the many needs of the public, including addressing the compensation of teachers and staff, and the maintenance and capital improvement program backlog. Accordingly, the Legislature needs to seriously consider the establishment of an increase in the general excise and use taxes, with the additional revenues generated to serve as a dedicated funding source for public education through the Department of Education and the University of Hawai'i. I urge my colleagues to support Senate Bill 1474, S.D. 2."

Senator Ruderman rose to speak in support of the measure as follows:

"I'm tempted to ask that the excellent comments of our Education chair be added, but I don't want the Journal to get too repetitive. But no one likes added taxes, and this is certainly not perfect, but every other effort to try to get significant more funding to teachers and schools so far has failed. We all know about the teacher crisis that we have, and that affects our next generation. So I will support any and all efforts that the teachers

themselves support to try to get more money to our teachers. Thank you.”

The motion was put by the Chair and carried, Stand. Com. Rep. No. 1188 was adopted and S.B. No. 1474, S.D. 2, entitled: “A BILL FOR AN ACT RELATING TO TAXATION,” having been read throughout, passed Third Reading on the following showing of Ayes and Noes:

Ayes, 21; Ayes with Reservations (Keohokalole, Wakai). Noes, 3 (Inouye, Riviere, Thielen). Excused, 1 (Harimoto).

Stand. Com. Rep. No. 1191 (S.B. No. 166, S.D. 1):

On motion by Senator Dela Cruz, seconded by Senator Keith-Agaran and carried, Stand. Com. Rep. No. 1191 was adopted and S.B. No. 166, S.D. 1, entitled: “A BILL FOR AN ACT RELATING TO THE STATE BUDGET,” having been read throughout, passed Third Reading on the following showing of Ayes and Noes:

Ayes, 24. Noes, none. Excused, 1 (Harimoto).

Stand. Com. Rep. No. 1193 (S.B. No. 33, S.D. 3):

Senator Dela Cruz moved that Stand. Com. Rep. No. 1193 be adopted and S.B. No. 33, S.D. 3, having been read throughout, pass Third Reading, seconded by Senator Keith-Agaran.

Senator Fevella requested that remarks regarding the measure be entered into the Journal, and the Chair so ordered.

The Chair having so ordered, Senator Fevella’s remarks read as follows:

“Strong support. I support repeal of the annual \$35,000,000 rolling cap for the motion picture, digital media, and film production income tax credit and extending this credit to January 1, 2033. Film production in Hawai‘i is a highly lucrative, but competitive, clean industry that creates much needed jobs. States that do not have a cap on tax incentives are the most attractive to film producers and Hawai‘i must follow suit to remain competitive.”

The motion was put by the Chair and carried, Stand. Com. Rep. No. 1193 was adopted and S.B. No. 33, S.D. 3, entitled: “A BILL FOR AN ACT RELATING TO ECONOMIC DEVELOPMENT,” having been read throughout, passed Third Reading on the following showing of Ayes and Noes:

Ayes, 24. Noes, none. Excused, 1 (Harimoto).

Stand. Com. Rep. No. 1194 (S.B. No. 740, S.D. 2):

Senator Dela Cruz moved that Stand. Com. Rep. No. 1194 be adopted and S.B. No. 740, S.D. 2, having been read throughout, pass Third Reading, seconded by Senator Keith-Agaran.

Senator Fevella requested that remarks regarding the measure be entered into the Journal, and the Chair so ordered.

The Chair having so ordered, Senator Fevella’s remarks read as follows:

“I have reservations on this measure because I fear it would increase housing densities at the expense of mixed use development. Also, the impacts of increased density must take into account the ability of the area infrastructure (roads, sewers, schools) to handle greater densities.”

The motion was put by the Chair and carried, Stand. Com. Rep. No. 1194 was adopted and S.B. No. 740, S.D. 2, entitled: “A BILL FOR AN ACT RELATING TO HOUSING DENSITY,” having been read throughout, passed Third Reading on the following showing of Ayes and Noes:

Ayes, 23; Ayes with Reservations (Kim, Moriwaki, Ruderman). Noes, 1 (Riviere). Excused, 1 (Harimoto).

TWENTY-SIXTH DAY

Thursday, March 7, 2019

The Senate of the Thirtieth Legislature of the State of Hawai'i, Regular Session of 2019, convened at 11:35 a.m. with the Vice President in the Chair.

The Roll was called showing all Senators present with the exception of Senators Harimoto and Thielen who were excused.

The Vice President announced that she had read and approved the Journal of the Twenty-Fifth Day.

At this time, Senator Baker noted that it was the beginning of the celebration of the Celts in Hawai'i, which culminates with Tartan Day on April 6. Senator Baker further noted that The Saint Andrew Society of Hawai'i received Celtic Proclamations from Mayor Caldwell and Governor Ige, and that famous Celts in Hawaiian history included James Campbell and Archibald Scott Cleghorn. Senator Baker then recognized representatives of Celtic organizations in Hawai'i, who were present in the gallery: The Society of the Friends of Saint Patrick in Hawai'i, The Saint Andrew Society of Hawai'i, The Caledonian Society of Hawai'i, the Scottish-American Military Society of Hawai'i, the Celtic Pipes and Drums of Hawai'i, and the Hawaiian Scottish Association.

Senator Baker then remarked that it was the 19th Annual State Council on Developmental Disabilities Day at the Capitol, hosted by the Disability and Communication Access Board, Hawai'i Self-Advocacy Advisory Council, Hawai'i Waiver Providers Association, Hilopa'a Family to Family Health Information Center, Department of Health Developmental Disabilities Division, Assistive Technology Resource Centers of Hawaii, University of Hawai'i Center on Disability Studies, Community Engagement Branch of the Community Children's Council, Hawaii Disability Rights Center, and Special Parent Information Network. Senator Baker welcomed a number of the event participants, who were seated in the gallery, including individuals with developmental disabilities, family members, personal assistants, service providers, and other advocates from across the state, including 68 participants from the neighbor islands.

Senator Rhoads recognized Blane Sardinha, a special friend and longtime constituent, who was seated in the gallery.

Senator Ruderman welcomed Developmental Disabilities Day participants from Hawai'i island, who were seated in the gallery: from Hilo—Kauila Haumea, Gail Yoshige, Maurie Ortaleza, Paul Pascua, and Lisa Aiona; from Puna—Thijs Van den Berg; from Pāhoa—Mar Ortaleza and Ronald McBride; and from Kea'au—Maelisa Evangelista, Cheryl Obrero, Alyssa Marie Vierra, Justin Rossian Legaspi, Eli Macbroom-Fidler, and Brenton Wah-Yick.

Senator Nishihara introduced Sol Ray Duncan, a constituent and member of the Pearl City Neighborhood Board, who was present in the gallery.

Senator Kanuha welcomed Developmental Disabilities Day participants from Hawai'i island, who were seated in the gallery: from Kealakekua—Jeraldine Marguerite Raymond, Matthew Makani Bester, Isaiah Warren Maka Koa Won, Henry Ha'analie Hao III, Heidi Catharine Hargett, Lois Kapua Philip, Deborah Ann Buchholz, Daryl Vernon Bickell, Robert Junior Sanoria, Jamison Cole Akana, Jacqueline S. Hopf, and Logan Mary Ditty; and from Kailua-Kona—Roy Corpuz.

Senator Ruderman also acknowledged Hawai'i island coordinator Jesse Floyd, who was present in the gallery.

Senator Kahele recognized Sean Galuteria, son of former State Senator Brickwood Galuteria, who was present in the gallery.

Senator Kim recognized Parents and Children Together, and presented the following remarks:

"Madam President, it's my pleasure to recognize Parents and Children Together, better known as PACT, which recently celebrated its fiftieth anniversary of service to the people of Hawai'i. PACT opened its doors in 1968 as the Parent Child Center in Kalihi, and from these very modest beginnings, PACT has grown to meet the needs of our community and today has 400 employees in 18 programs serving 15,000 people a year. The center became a federal Head Start Program 20 years after its founding and has succeeded in the years since thanks to continued support from its government and community partners.

"Today, PACT provides a very impressive range of educational and social services for our most vulnerable families and individuals. The first is early childhood education for pre-qualified parents on O'ahu and Hawai'i island: Early Head Start serves prenatal parents and infants from birth to three years while Head Start is for children ages three to five. Its domestic violence prevention and intervention services help individual families affected by domestic violence through Family Peace Center, a domestic violence shelter; Family Visitation Center, a transition house; and a Trafficking Victim Assistance Program. In the field of child abuse and neglect prevention and treatment, PACT offers comprehensive services to promote positive parenting and healthy child development. Its community-building and economic development efforts include programs geared toward the social, economic, and cultural well-being of individuals and families in need.

"We all know that government can't do it all, and organizations like Parents and Children Together have a vital role in providing holistic care to the needy so they can build a better future for themselves and their children. Celebrating 50 years is an achievement for any organization, and it is a testament to the strength and importance of community and those who have answered the call to help others. Here with us today, Madam President, are Ryan Kusumoto, our president and CEO; Dawn Kurisu, vice president of strategy and innovations; Ben Naki, vice president of early childhood education; Tina Porras-Jones, vice president of community-building programs. Please join me in thanking them and everyone at PACT for their exceptional service. Madam President, we wish them many more years of success."

At 11:48 a.m., the Senate stood in recess subject to the call of the Chair.

The Senate reconvened at 11:52 a.m.

S.B. No. 77, S.D. 3:

Senator Ihara moved that S.B. No. 77, S.D. 3, having been read throughout, pass Third Reading, seconded by Senator Keith-Agaran.

Senator Moriwaki rose to request that remarks in support of the measure with reservations be entered into the Journal, and the Chair so ordered.

The Chair having so ordered, Senator Moriwaki’s remarks read as follows:

“Madam President, with reservations and comments. The United States Army Corps of Engineers has been working with the State and City since 2001 to develop a plan to mitigate flooding in the Ala Wai Watershed in the event of a ‘once in a century’ storm. If such a catastrophic flood were to occur, over 3,000 structures, with over a billion dollars in structural damages alone could severely impact Honolulu’s urban core and Hawai’i’s economy. A 2004 25-year storm flooded Mānoa Valley and caused about \$85 million in damages.

“In an emergency appropriation last July, Congress appropriated \$345 million to plan and construct a flood risk management system, but only if we came up with a local sponsor—either the state or the city—and matching funds of \$125 million. S.B. 77 provides for the local match.

“But the project has not sufficiently engaged community members directly affected by the flood risk management measures. Over a hundred members of the public who live or work in Mānoa, Makiki, Pālolo, McCully/Mō’ili’ili, and Waikīki oppose going forward with the project. They feel excluded from the planning process. Neighborhood boards in and around the watershed in Mānoa, Makiki, Pālolo, McCully/Mō’ili’ili, Ala Moana/Kaka’ako, and Diamond Head/Kapahulu/St. Louis Heights have adopted or are considering adopting resolutions calling for more public involvement and even for a halt to the State funding of the project.
